CERTIFICATES.

MORE CONCLUSIVE PROOFS of the extraordinary efficacy of Dr. Wm. Evans' celebrated **CANONILE** and **APERTIENT** ANTIBILIOUS PILLS, in alleviating afflicted mankind.—Mr. Robert Cameron, 101 Bowery. Disease, Chronic Dysentery, or Bloody Flux. Symptoms, unusual flatulency in the bowels, severe griping, frequent inclination to go to stool, tenesmus, loss of appetite, nausea, vomiting, frequency of pulse, and a frequent discharge of a peculiar fetid matter, mixed with blood, great debility, sense of burning heat, with an internal burning, &c. &c. Dr. Wm. Evans' medicine, in enjoying perfect health, and returned his sincere thanks for the extraordinary benefit he had received.

ASTHMA, THREE YEARS' STANDING.

Mr. Robert Monroe, Schuylkill, Pa., afflicted with the above distressing malady. Symptoms: Great languor, flatulency, disturbed rest, nervous headache, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and restlessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, constipation, pain in the chest, depression, great debility and deficiency of the nervous energy. Mr. R. Monroe gave up every thought of recovery, and died despairing on the countenance of every person interested in his existence or happiness, till by accident he noticed in a public paper some cures effected by Dr. Wm. Evans' Medicine in his complaint, which induced him to purchase a package of the Pills, which resulted in completely removing every symptom of his disease. He wishes to say to all who are afflicted with this disease, that those afflicted with the same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

LIVER COMPLAINT, TEN YEARS' STANDING.

Mr. Joseph Brown, of the said Hannah Brown, wife of Joseph Brown, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with Liver Complaint, restored to health through the treatment of Dr. Wm. Evans' Medicine. Symptoms: Habitual constipation of the bowels, total loss of appetite, excruciating pain in the epigastric region, great depression of spirits, loss of sleep and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high colored, with other symptoms indicating great derangement of the functions of the liver.

Mrs. Brown was attended by three of the first physicians, but received but little relief from their medicine. All Mr. Brown procured some of Dr. Wm. Evans' medicine, which he commenced using, and after a few days, he was enabled to sleep, and the other symptoms of the disease, with others, which it is not essential to intimate.

JOSEPH BROWNE.

Joseph Brown, Williamsburg, Long Island, being duly sworn, doth depose and say that the facts set forth in the within statement, to which he has subscribed his name, are just and true.

Witness my hand and seal, this 14th day of January, 1887.

A CASE OF TIC DOLOREUX.

Mr. J. B. Johnson, wife of Capt. Joseph Johnson, of Long Island, was severely afflicted for ten years with Tic DoLOREUX, violent pain in her head, and vomiting, with a burning heat in the stomach, and unable to leave her room. She could find no relief from the advice of several physicians, nor from medicines of any kind, until after she had commenced using Dr. Evans' medicine, of 100 Chatham street, and from that time she began to mend, and feels satisfied if she continue the medicine a few days longer, will be perfectly cured. Reference can be had to the facts of the above, by calling on Mrs. Johnson's daughter's, State, 389 Grand st. N. Y.

PARALYTIC RHEUMATISM.

A perfect cure effected by the treatment of Dr. Wm. Evans' medicine, of 100 Chatham street, New York. Mr. John Gibson, of North Fourth street, Williamsburg, afflicted with the above complaint for three years and nine months, during which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, but especially in the hip, shoulder, knee and ankle, an aggravation of the pain towards night, and for the most part all times from the weakness, loss of muscular power, and loss of the use of the limbs, in a similar manner. Mr. Gibson, however, it must be said, that the pains have entirely ceased, and that his joints have completely recovered their natural tone, and he feels able to resume his ordinary business.

REMARKABLE CASE OF ACUTE RHEUMATISM.

with an affection of the Lungs—cured under the treatment of Dr. Wm. Evans' medicine, of 100 Chatham street, New York. Mr. Benjamin S. Jarvis, 13 Centre street, Newark, N. J., afflicted for four years with severe pain in all his joints, which were always increased on the slightest motion; the tongue always covered with a white coating; loss of appetite, dizziness, and a steady weakness; loss of the use of the limbs, the bowels commonly very constipated, the urine high colored, and often profuse sweating, unattended by relief. The above symptoms were also attended with considerable difficulty of breathing, with a

ter inability of engaging in any thing that demanded vigour or courage, sometimes a visionary idea of an aggravation of her disease, a whimsical aversion to particular persons and places, groundless apprehensions of personal danger and poverty, an irascibility, and weakness of life, discontented, dissatisfied on every slight occasion, she conceived she could neither die nor live; she wept, lamented, desponded, and thought she led a most miserable life, never was any one so sad, with frequent mental hallucinations.

Mr. Kenny had the advice of several eminent physicians, and had recourse to numerous medicines, but could not obtain even temporary alleviation of her distressing state, till her husband persuaded her to make trial of his mode of treatment.

She is now quite relieved, and finds herself not only capable of attending to her domestic affairs, but avows that she enjoys as good health at present as she did at any period of her existence.

J. Kenny, husband of the aforesaid Anne Kenny.

Sworn before me, this 14th day of December, 1886.

A Letter from Mr. Sheldon P. Gilbert, to Dr. Wm. Evans, proprietor of the celebrated Canonile Pills.

Dear Sir—Had the immortal Cowper known the medicinal qualities of the Canonile Plant, as well as thousands since (besides myself) would have experienced its wonderful effects on the nervous system. The public utility of Cowper was blighted in the bud, through the natural effect of his nervous debility upon the mental powers, which made it necessary for him to seek relief beneath the rural shade, but the calm retreat gave his physical nature no repose. If some one then had known the secret of concentrating the medical virtues of Canonile, the discoverer would have been immortalized with poetic zeal as the benefactor of suffering man.

The above lines were prompted from the effect I have experienced from Dr. Wm. Evans' Canonile Pills. Yours, with esteem,

Sheldon P. Gilbert.

Another recent test of the unrivalled virtue of Dr. Wm. Evans' Medicine—DYSPEPSIA, TEN YEARS' STANDING.

Mr. J. McKensie, 176 Madison street, was afflicted with the above complaint for 10 years, which incapacitated him at intervals, for the period of six years, in attending to his business, restored to perfect health under the salutary treatment of Dr. Wm. Evans.

The symptoms were: A sense of distension and oppression after eating, distressing pain in the pit of the stomach, nausea, impaired appetite, giddiness, palpitation of the heart, great debility and constipation, depression of spirits, disturbed rest, sometimes a bilious vomiting, and pain in the right side, an extreme degree of languor and debility; any endeavor to pursue his business causing immediate exhaustion and weakness.

Mr. McKensie is daily attesting his business, and none of the above symptoms have recurred since he used the medicine. He is now a strong and healthy man. He resorted to medical remedies, but they were all ineffectual. He is willing to give any information to the afflicted, and to respond to the inestimable benefit rendered to him by the use of Dr. Wm. Evans' medicine.

An Extraordinary and Remarkable Cure.

Mrs. Mary Dillon, Williamsburg, corner of Fourth and North streets, completely restored to health by the treatment of Dr. Wm. Evans, 100 Chatham st.

The symptoms of this distressing case were as follows: Total loss of appetite, palpitation of the heart, twitching of the tendons, with a general spasmodic affection of the muscles, difficulty of breathing, giddiness, frequent vomiting, great depression of spirits, with fear of some impending evil, a sensation of fluttering at the pit of the stomach, irregular transient pains in different parts, great emaciation, with other symptoms of extreme debility.

The above case was pronounced hopeless by three of the most eminent physicians, and the dissolution of the patient daily awaited by her friends, which may be attested by the physicians who were in attendance. She has given her consent (with permission to publish the above facts, and will also gladly give any information respecting the benefit she has received, to any inquiring mind.

MARY DILLON.

DYSPEPSIA AND HYPOCHONDRIA.

Dr. Wm. Evans' Medicine. Mr. William Salmon, Green street, above Third, Philadelphia, afflicted for several years with the following distressing symptoms: Sickening at the stomach, headache, dizziness, palpitation of the heart, impaired appetite, sometimes acid and putrid eructations, coldness and weakness of the extremities, constipation and general debility, disturbed rest, a sense of pressure and weight at the stomach after eating, nightmarish, great mental despondency, severe flying pains in the chest, back and sides, constipation, a dislike for society, or conversation, involuntary sighing and weeping, languor and lassitude upon the least exertion.

Mr. Salmon had applied to the most eminent physicians, who considered it beyond the power of medicine to restore him to health, however as his affliction had reduced him to a very deplorable condition, and having been recommended by a relative of his to make trial of Dr. Wm. Evans' medicine, he with difficulty repaired to the office and procured a package, to which he says, he is indebted for his restoration to life, health and friends. He is now enjoying all the blessings of health.

Persons desirous of further information, will be satisfied in every particular as to this astonishing cure, at Dr. Wm. Evans' Medical Office, 100 Chatham st. N. Y.

A severe case of Piles cured at 100 Chatham street.

Mr. Daniel Spaulding, of Showbury, Eden Town, New Jersey, was severely afflicted with Piles for more than 20 years. Had had recourse to medicines of almost every description, and the advice of several eminent physicians, but never found the slightest relief from any source whatever, until he called on Dr. Wm. Evans, of 100 Chatham street, N. Y., and procured some medicine from him, from which he found immediate relief, and subsequently a perfect cure.

An Extraordinary Cure performed by Dr. Wm. Evans, of 100 Chatham st. N. Y.

Mr. Wm. W. of 100 Bridge street, was labouring under a disease, which was by many physicians considered incurable, and could find no relief from any source whatever, until he made application to Dr. Evans, and placed himself under his successful course of treatment, from which he began to find immediate relief, and in a few weeks was perfectly cured.

with an affection of the Lungs—cured under the treatment of Dr. Wm. Evans' medicine, of 100 Chatham street, New York. Mr. Benjamin S. Jarvis, 13 Centre street, Newark, N. J., afflicted for four years with severe pain in all his joints, which were always increased on the slightest motion; the tongue always covered with a white coating; loss of appetite, dizziness, and a steady weakness; loss of the use of the limbs, the bowels commonly very constipated, the urine high colored, and often profuse sweating, unattended by relief. ON LOW SPIRITS.

Low spirits is a certain state of the mind, accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences are imagined. Ancient medical writers supposed this disease to be confined to these particular regions of the abdomen technically called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hypochondria.

Symptoms. The common corporeal symptoms are, flatulency in the stomach or bowels, acid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage. The languidness of the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakest.

Cause. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses) or long continued eruption; relaxation or debility of one or more important organs within the abdomen is a frequent cause.

Treatment. The principal objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Apertient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Canonile Pills, (which are tonic, anodyne, and anti-spasmodic) are an infallible remedy, and without dispute have proved a great blessing to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to; in many cases it greatly aggravates the symptoms.

A REAL BLESSING TO MOTHERS.

Dr. Wm. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought of recovery from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should never be without the Syrup in their houses, for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing convulsions, Fevers, &c.

THE BARON VON HUTCHELER HERB PILLS.

These Pills are composed of Herbs, which exert a specific action upon the heart, give an impulse or strength to the arterial system; the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities and so all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickening action of the absorbent and exhalant, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthy state.

These Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the numerous other medicines, and are so adapted to the human frame, that the use of them, by maintaining the body in the due performance of its functions, and procuring the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, that old age when it arrives, will appear a blessing, and not as too many who have neglected their constitutions, or had them injured by medicines administered by ignorance, a source of misery and sorrow.

They are so composed of the heart, liver, and other viscera, they expel the bad, acid or morbid matter, which renders the blood impure, out of the circulation, through the excretory ducts into the passage of the bowels, so that by the brisk or slight evacuations, which may be regulated by the doses of the Herb Pills, always remembering that while the evacuations from the bowels are kept up, the excretions from all the other vessels of the body will also be going on in the same proportion, by which means the blood invariably becomes purified.

Steady perseverance in the use of the Herb Pills will undoubtedly effect a cure even in the most acute or obstinate diseases; but in such cases the dose may be augmented, according to the intricacy of the disease; these Pills being so admirably adapted to the constitution, that they may be taken at all times.

In all cases of Hypochondria, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Flaccid Arms, Seminal Weakness, Indigestion, Loss of Appetite, Flatulency, Heartburn, General Debility, Bodily Weakness, Chlorosis or Green Sickness, Flatulent or Hysterical Faintings, Hysterics, Headache, Hiccup, Sea Sickness, Night-Mare, Gout, Rheumatism, Asthma, Typhoid Fever, Gravel, Spasmodic Eruptions, and those who are victims to that most excruciating disorder, *Gout*, will find relief from their sufferings, by a course of the Herb Pills.

Nausea, Vomiting, Pains in the Side, Limbs, Head, Stomach or Back, Dizziness or Confusion of Sight, Noise in the inside, alternate flushes of heat and chilliness, Tremors, Watchings, Agitation, Anxiety, Bad Dreams, Spasms, will be every case be relieved by an occasional dose of the Herb Pills.

One of the most distressing affections to females is, the change of life; and it is then they require a medicine which will be beneficial to their constitutions, and

strengthen their constitutions as may enable them to withstand the shock.

This medicine is the Baron Von Hutcheler Herb Pills. Those who have the care and education of females, whether the students of the sedentary part of the community, should never be without a supply of the Herb Pills, which remove all morbid humors, invigorate the mind, strengthen the body, improve the memory, and enliven the imagination.

When the Nervous System has been too largely drawn upon or overstrained, nothing is better to correct and invigorate the drooping constitution than these Pills.

DIRECTIONS.

The Baron Von Hutcheler Herb Pills are to be taken in the morning and night, when the Stomach is full or the bowels costive, sufficient to operate twice or three times. The dose may be from three to twelve, or more, night and morning.

General Depot for the sale of the Baron Von Hutcheler Herb Pills, 100 Chatham st. New York.

The following are among many cures performed by the superior efficacy of Baron Von Hutcheler Herb Pills:

Liver Complaint, five years standing.

Mrs. Phoebe Morris, of North Sixth street, Williamsburg, afflicted for the last five years with Liver Complaint, was completely restored to health by the use of Baron Von Hutcheler Herb Pills. Symptoms: Habitual costiveness, total loss of appetite, constant pain in the right side, great depression of spirits; could not lie in bed only on the right side, disturbed sleep, dimness of sight, urine high colored, pain under the right shoulder blade, languor, lassitude, with other symptoms indicating a diseased state of the Liver.

She was attended by three of the most eminent physicians, but found only temporary relief, until she procured some of Baron Von Hutcheler Herb Pills, which effectually relieved her of all the above distressing symptoms, and says she is perfectly cured.

Dyspepsia, five years standing.

Mr. John Sutherland, of 508 Water street, had been severely afflicted with dyspepsia for five years, with the following distressing symptoms: sickness at the stomach, headache, dizziness, faintness, palpitation of the heart, great distress at the pit of the stomach after eating, great fullness, acid eructations, coldness and weakness of the extremities, emaciation, heartburn, disturbed rest, a sense of pressure and weight in the chest, side, and back, constipation, dislike for society or conversation, great lassitude upon the least exertion, and completely unable to attend to any business. Had applied to many eminent physicians, but could find no relief, and despaired of ever being cured. Was advised by a friend to make use of Baron Von Hutcheler Herb Pills, the first dose of which gave him great relief, and by persevering in taking the pills according to the directions, for six months, was perfectly restored to health and the enjoyment of his family and friends.

Dyspepsia, eight years standing, cured by the use of the celebrated Baron Von Hutcheler Herb Pills.

Captain J. Davis, of the ship William, was labouring under the following symptoms, viz: violent pain in the stomach after eating, great pain in the head, vomiting up all his food, heartburn, dizziness, violent palpitation of the heart, great nervous irritability, spasms, great languor, costiveness, and so debilitated as to be unable to attend to any business; could find no relief until after he commenced using Baron Von Hutcheler Herb Pills, from which he found great relief in a few days, and in a few weeks was perfectly cured, and recommends every person similarly afflicted, to immediately procure some of the Herb Pills.

Cure of Nervous and Bilious Affection.

TAKE NOTICE.—Mr. Elias Shaffer, of the town of Westboro, county of Albany, was for above 27 years troubled with a nervous and bilious affection, which for 7 years rendered him unable to attend to business, and during the last three years of his illness was confined to the house. His symptoms were dizziness, pain in the head and side, palpitation of the heart, want of appetite, &c. After expending during his confinement, nearly three hundred dollars, without obtaining any permanent relief, he by accident noticed an advertisement of Baron Von Hutcheler Herb Pills, and was consequently induced to make a trial of them. After using them about a fortnight, he was able to walk out, in four months he could attend to business, and considered his disease entirely removed. The above information was given to the subscriber by Mr. Shaffer himself, there can, therefore, be no deception.

JOURNAL

OF THE

AMERICAN SILK SOCIETY

AND

RURAL ECONOMIST.

AT A Convention which met at Baltimore

on the 11th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism, and practical intelligence, the following resolutions were unanimously adopted:

Resolved, That it is the deliberate opinion of this Convention that Silk may be grown in all the United States, not only for domestic purposes, but as a valuable article of commercial export—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase of silken goods.

Resolved, That a National Silk Journal ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution, J. S. BATTIE, postmaster, of Baltimore, was invited to become the editor of the work, and has consented to do so—so far as may be consistent with the strict performance of his public duties.

In the course of the discussions which took place in the Convention, all the difficulties which have been encountered, and which may yet be apprehended, in the prosecution of the silk culture, as a great branch of American industry, were fully considered; and the result was an universal conviction that, now, in the words of the resolution, "Silk may be grown in the United States, not only for domestic purposes, but as a valuable article of commercial export."

The suitability of our soil and climate to the growth and health of the worm, and the trees which supply its food; the capabilities, the habits, and the genius of our people for conducting the business through its whole process, and the price of American labour as compared with that of silk-producing countries, all were fully canvassed, and the most sceptical became satisfied. The fact is, that our unrestrained freedom in the entertainment and discussion of various and discordant doctrines, religious and political, has imparted to us, as to our English ancestry, an omnivorous appetite for knowledge, and a capacity to learn in a few years what cannot be acquired in ages, where all is dull conformity and routine of thought and of action! Thus has it happened in manufactures as in other things; American ingenuity, unrestrained by prejudice or law, has triumphed over difficulties apparently insurmountable! How long may it be asked, after our first cotton spindle was put in motion before Yankee "Lowells" were sold at a profit in China? So will it be with silk. The only question is as to how long it shall take us? With a monthly journal to concentrate and diffuse every ray of floating light on the subject, it was the opinion of the Convention that we may realize and enjoy, in our own day, the boon which ingenuity and want of concert may procrastinate, but which nothing short of Turkish apathy can finally defeat.

Let all then who may feel any concern as cultivators, manufacturers, or vendors of silk, or as patriots willing to offer valuable occupation and bread to the unemployed and the helpless, come forward in support of a work to be faithfully and honestly devoted to these objects of private happiness, and of national independence.

Though silk, and every thing connected with its production; and all improvements in machinery for its preparation and manufacture, will constitute the chief design and aim of the journal, for the sake of agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of agriculture, horticulture, and rural and domestic economy. Hence, the adjective title "Rural Economist."

The Journal of the American Silk Society will be published monthly, in pamphlet form, each number will contain thirty-two pages, printed on new type and handsome paper, with a printed coloured cover.

All persons friendly to the objects of the Journal will please collect at once and transmit the names and subscription money of those who may feel disposed to patronize it.

TERMS.

Two Dollars a year, or six copies for Ten Dollars, always to be paid before the work is sent. All subscriptions to begin with the first number of the year, and in no case will the work be sent to any subscriber longer than it shall have been paid for.

All Editors of papers who may desire to see Silk added to the list of American Staples, and who will have the kindness to insert this prospectus, will be entitled to a copy of the Journal.

THE MAINE BORDER TROUBLE.

LATE AND IMPORTANT FROM HAL-
FAX.

Extract of a letter dated
HALIFAX, Feb. 27th, 1839.

The late news from the State of Maine has
such a warlike appearance that it is the general
opinion that war cannot now be averted be-
tween the two countries. We shall particu-
larly lament if the good and kind feeling that
ought to prevail should now be broken up, and
hope that it may still blow over. Our Legisla-
ture yesterday immediately on the receipt of the
intelligence, voted a sum not exceeding One
hundred Thousand Dollars, to be at the disposal
of the Governor, to assist the Mother Country
to raise volunteers to go to the assistance of our
Sister Province, and eight thousand men will be
raised immediately.

The vote was followed up with long and heat-
y cheers for New Brunswick and the Queen of
Great Britain.

As an evidence of the loyal and highly ex-
cited feeling which prevails in Halifax, we call
attention to the extraordinary fact that after the
resolutions were adopted by the House of As-
sembly, three hearty cheers were proposed by
one of the members, which was responded to by
all present. The Royal Gazette says—

"Never have we before witnessed such a
heart-stirring scene, nor ever before were such
cheers heard in our House of Assembly."

JOURNAL OFFICE, HALIFAX, }
Tuesday, Feb. 28th, 1839.

HIGHLY IMPORTANT FROM N. BRUN- SWICK.

The Fredericton Sentinel, received this day,
confirms the accounts given on Monday, of hos-
tile movements by the State of Maine, and in
addition gives the message of the Governor to
the Legislature, commanding a levy of 10,000
men, for the purpose of taking possession of the
territory in dispute, and to enable him to carry
this measure into effect, the Legislature have
voted the sum of eight hundred thousand dollars,
and passed resolutions calling upon the State of
Massachusetts to aid them in the measure.

Immediately on the receipt of this important
information the Legislature of this Province re-
solved itself into committee for the defence of
the Province, and for assisting the inhabitants
of New Brunswick to repulse the invading foe;
all other business was stopped until the com-
mittee should report, which was done at 5 o'-
clock.

Never, perhaps, in the history of Nova Scotia
has there occurred such an outbreak of deep im-
passioned feeling, as was given expression to
when the Committee reported their resolu-
tions.

Notwithstanding the suddenness of the mea-
sures adopted by the House, when the doors
were opened at half past five o'clock, the lobby
and gallery were filled to overflowing, by the
crowds of inhabitants who had been waiting for
admission. The report was then read, after
some preliminary observations, by the Hon. Mr.
Dodd, Chairman of the committee. It consisted
of a series of resolutions, empowering His Ex-
cellency the Commander-in-Chief to call out
and embody Volunteer and Draft Companies of
the Militia, to the number of 8000 men, between
the ages of 18 and 45; and authorizing the ex-
penditure of £100,000, if it should be required,
to repel the aggressions on the sister Province.

The resolutions provided also, that in addition
to the same allowance as the Regular Troops
from the Military Chest, the Militia should re-
ceive pay from Provincial resources authorized
to be expended in the service. The House re-
ceived the report unanimously, after which, on
motion of the Hon. Mr. Dodd, the whole House,
and the assembled multitude, arose and united
in three times three cheers for the brave inha-
bitants of New Brunswick, and three times three
for her most gracious Majesty Queen Victoria,
which were given with such rapturous and tre-

mendous effect, that the solid walls of our Pro-
vince Building seemed to shake to their founda-
tion, and the sound was heard in the adjacent
streets.

The House are to wait upon His Excellency
to-morrow, with a copy of the Resolutions.

On the following day the Legislative Council
concurred in the act of the Assembly, and the
(Lieutenant) Governor approved of the whole
proceedings.

H. M. ship Crocodile, with a division of the
69th regiment, had sailed from Halifax for N.
Brunswick—also, the Eliza, and Numa, trans-
ports, with another detachment.

The Boston Sentinel of Saturday, the only
Boston paper of that date received by yester-
day's mail, says—

The Eastern Mail arrived last evening about
a quarter before 11, but brought nothing new
from the seat of war. The force under Hodge
don were employed in drilling.

The New York correspondent of the Na-
tional Intelligencer says—

From Maine I learn that the Surveyor Gen-
eral had arrived at Bangor with instructions
from Gov. Fairfield to proceed at once to se-
lect a fort and erect fortifications at or near
where the St. John's strikes the line of New
Brunswick. A fortification is also ordered to
be erected at the forks of the Kennebec river,
and 600 men detached to that spot. Col. Jar-
vis has established his headquarters within half
a mile of the line, at a place said to be admi-
rably calculated for defence, and commanding the
whole country around. A temporary fort is er-
ected there, and 3 pieces of ordnance mount-
ed. Two hundred men from General Hodge-
don's detachment had reached Jarvis's camp.

Whereas, it was the great object of our union,
that every question involving comroversy be-
tween any single State and a foreign govern-
ment, should be deemed of equal moment to her
sister confederates; and whereas the late intel-
ligence of the manifest design on the part of the
authorities of the Colony of New Brunswick, in
defiance not only of actual right, but of stipula-
tions well understood to exercise exclusive ju-
risdiction over a portion of territory claimed by
the State of Maine, to which the title of the
British Government is worse than doubtful—
in furtherance of which unjust purpose, the citizens
of a sovereign sister State, have in the exercise
of their lawful authority been arrested by armed
bands, dragged like felons to prison—and the
laws of that State and the Union been set at
naught—presenting a case in which in the opinion
of this Assembly, it becomes every member of
our confederacy to speak out—therefore,

Be it Resolved by the General Assembly of
Maryland, That we view with regret and indig-
nation, the recent claim set up by the agents of
a foreign government to exercise exclusive juris-
diction over a portion of territory, which al-
though at present in dispute, of right belongs
solely to the State of Maine.

Resolved, That the violent arrest and impi-
sonment of the citizens of Maine, lawfully em-
ployed in the endeavor to put an end to the dis-
putations of foreign marauders, upon the dis-
puted territory, a gross insult upon the dignity
of the union, and an open violation of the laws of
nations.

Resolved, That we have seen with unquali-
fied admiration, the firm and noble stand taken
by the government of Maine, against foreign us-
urpations, and so long as we are convinced
that our sister demands nothing but her right,
we pledge our honor and with it our lives, and
fortunes, to maintain her cause.

Resolved, That we highly approve the tem-
perate but decided course of the Federal govern-
ment at this juncture, and we pledge it our heart-
y support.

ON LOW SPIRITS.
Low spirits is a certain state of the mind, accompanied by indolence, which the greatest wills are exposed to upon the slightest grounds, and the worst consequences may be expected to ensue, unless prompt relief be afforded. In some particular regions of the system, especially in the stomach, which are situated on the right or left side of that cavity, whence issues the same hypochondria.
Symptoms. The common corporeal symptoms are, flatulency in the stomach or bowels, acid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage. Also languor—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overweigh the judgment, exhibit an infinite diversity. The wiles and wiles of men are as open to this affliction as the weakest.
Causes. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some natural discharge, (as the obstruction of the urinary or long continued eruption) relaxation or debility of one or more important organs within the abdomen, is a frequent cause.
Treatment. The principal objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild purgative. We know nothing better adapted to obtain these ends, than Dr. Wm. Evans' Pile Pills—being mild and certain in their operation. The bowels being once cleansed, his inextinguishable Cambric Pills, (which are tonic, anodyne, and anti-spasmodic) are an infallible remedy, and without dispute have proved a great blessing to the numerous public.
Some physicians have recommended a free use of mercury, but it should not be resorted to, in many cases, as it greatly aggravates the symptoms.
A REAL BLESSING TO MOTHERS.
Dr. W. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.
This infallible remedy has procured hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and loosening the gums, thereby preventing Convulsions, Fevers, &c.

THE BARON VON HUTCHER HERB PILLS.
These Pills are composed of Herbs, which exert a specific action upon the heart, give an impulse or strength to the arterial system; the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbent and exhalant, or discharging vessels. A morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthy state.
These Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the innumerable other medicines and are so well adapted to the frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, that old age when it arrives will appear a blessing, and not (as too many who have neglected their constitutions or been injured by medicine administered by ignorance) a source of misery and abhorrence.
They are so compounded, that by strengthening and equalizing the action of the heart, liver, and other viscera, they expel the bad, acid or morbid matter, which renders the blood impure, out of the circulation, through the excretory ducts into the passages of the bowels, so that by the least or slight exertions, which may be regulated by the dose of the Herb Pills, always remembering that while the evacuations from the bowels are kept up, the excretions from all the other vessels of the body will be going on in the same proportion, by which means the blood invariably becomes purified.
Steady perseverance in the use of the Herb Pills will undoubtedly effect a cure in the most acute or obstinate disease; but in such cases the dose may be augmented, according to the severity of the disease; the Pills being so admirably adapted to the constitution, that they may be taken at all times.
In all cases of Typhoid Fever, Low Spirits, Palpitations of the Heart, Nervous Irritability, Headache, Flashes, Seminal Weakness, Impotence, Loss of Appetite, Flatulency, Heartburn, General Debility, Bilious Weakness, Chlorosis or Green Sickness, Flatulent or Hysterical Pains, Hysterics, Headache, Hiccups, Sea Sickness, Night-Mare, Gout, Rheumatism, Asthma, Tic Douloureux, Cramp, Spasmodic Affections, and those who are victims to that most excruciating disorder, Gout, will find relief from their sufferings, by a course of the Herb Pills.
Nausea, Vomiting, Pains in the Side, Limbs, Head, Stomach or Back, Distress or Confusion of Sight, Noses in the flesh, alternate Flushings of Heat and Chills, Tremors, Watchings, Agitation, Anxiety, Bad Dreams, Spasms, will in every case be relieved by an occasional dose of the Herb Pills.
One of the most dangerous epochs to females is at the change of life; and it is then they require a medicine which will so invigorate their circulation, and thus strengthen the constitution, as may enable them to withstand the shock. This medicine is the Baron Von Hutercher Herb Pills.
Those who have the care and education of females, whether the situation or the ordinary part of the community, should have by them a supply of the Herb Pills, which remove disorders in the head, invigorate the mind, strengthen the body, improve the memory, and enliven the imagination.
When the Nervous System has been too largely drawn upon or overstrained, nothing is better to correct and invigorate the drooping constitution than these Pills.
DIRECTIONS.
Baron Von Hutercher Herb Pills are to be taken in the morning and night, when the stomach is full or the bowels costive, sufficient to operate twice or three times. The dose may be from three to twelve, or more, night and morning.
General Depot for the sale of the Baron Von Hutercher Herb Pills, 100 Chatham st. New York.

Cure of Nervous and Bilious Affection.
TAKE NOTICE.—Mr. Elias Shaffer, of the town of Westcott, county of Albany, was for above 37 years troubled with a nervous and bilious affection, which for 7 years rendered him unable to attend to business, and during the last three years of his illness was confined to the house. His symptoms were dizziness, pain in the head and side, palpitation of the heart, costiveness, &c. After spending during his confinement nearly three hundred dollars, without obtaining any permanent relief, he by accident noticed an advertisement of Baron Von Hutercher Herb Pills, and was consequently induced to make a trial of them. After using them about a fortnight, he was able to walk out; in four months he could attend to his business, and considered his disease entirely removed. The above information was given to the subscriber by Mr. Shaffer himself; there can, therefore, be no deception.

SUBSCRIPTION TO THE SIXTH VOLUME OF THE CULTIVATOR, CONDUCTED BY J. BURL, of Albany.
In presenting our subscription for the sixth volume of the Cultivator, the Conductor avails himself of the opportunity of tendering his thanks to the gentlemen, whose voluntary exertions have given to this paper a circulation almost unprecedented in our country—and particularly to the numerous correspondents whose communications have enriched its columns. We respectfully invite the continued co-operation of both classes, as an efficient mode of promoting useful improvement, and advancing the prosperity of our country. The plan and price of the Cultivator will remain as they are; but as the publication can only be sustained by a large circulation and prompt payments, much will depend upon the voluntary aid which we expect, and upon the subscriptions being promptly paid in advance.
The Cultivator will continue to treat of the science of agriculture, to furnish instructions for the best mode of practice in all the departments of husbandry, in horticulture, and other rural affairs, and to give useful lessons for the improvement of the young mind. The Conductor will endeavour to render it a present help, and a volume of useful reference, to all who have the ambition to distinguish themselves in rural labours and rural improvements—to help themselves and to benefit society.
To meet the public demand, we have published a new edition of our four first volumes, which may be had, stitched, at 50 cents per vol.
All papers stopped at the end of the volume, in February, unless the subscription is renewed.
Subscriptions to the above works, received by A. COWAN, Annapolis.

PROSPECTUS
OF THE
AMERICAN PHRENOLOGICAL
JOURNAL & MISCELLANY.

It is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a few years, most astonishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenology has upon the science of medicine, and divinity, and law, there is no publication through which, as the appropriate channels, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phrenology; but these do not meet the present necessity. A periodical which is devoted to phrenology—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is not needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of *The American Phrenological Journal and Miscellany*.

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and moral,) on the Medical Treatment of the Insane, on Jurisprudence, on Theology, and on Mental and Moral Philosophy. All these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inexhaustible.

The religious character of the work will be decidedly evangelical; for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation. A frequent subject of discussion in our pages will therefore be, *The Harmony between the truths of Revelation and those of Phrenology*. And on the subject of the religious bearings of our science we respectfully direct the enquiries and expectations, not of ecclesiastics, but of the truly catholic and the conscientiously faithful. Such correspondence we shall always welcome to our pages, and they will always be treated with the most respectful attention. But the captious and cavillers, who endeavor to themselves unsolicited contempt and the ignorant pretender, who seeks to overthrow a science which he will not even deign to investigate, may expect a more decided rebuke.

As our object is the establishment of truth, we cannot but communicate facts which are supposed to militate against Phrenology; and we pledge ourselves to position them, in all cases in which we have satisfactory vouchers for their genuineness, and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral development in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phrenologists or anti-phrenological writers, in the degree in which the several organs are developed—we must, in every such case, see the *head or skull*, or a cast of it, properly certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological works; nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are not generally accessible to the American public. Our facts we pledge ourselves shall be bona fide facts; and, as often as practicable, we shall accompany our descriptions with illustrative cuts; indeed, we intend and expect that scarcely a number will be issued without two or more such cuts.

To encourage Phrenologists of talent (and especially professional men who are Phrenologists,) to enrich the work with their contributions, we offer for accepted matter, as liberal a compensation per printed page, as is usually afforded by the very first periodicals in our country; but the editor does not promise to endorse all which his correspondents may communicate; nor all which he receives; and especially if it effect the interests of morality and religion, he claims the right of correction, in the form of reply, or of the suppression of the objectionable matter; and communications for which compensation is expected, must be so prepared as to be fit for the public eye.

In conclusion, we may be allowed to say that the pecuniary value of each number will depend much on the extent to which the work is patronized. It is not with the

view of expectation of gain that it is offered to the community, but from moral considerations from a desire to know and to promote truth. Hence should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied.

TERMS.

1. The *American Phrenological Journal and Miscellany* will be issued monthly, commencing on the 2d of October next.

2. Each number will contain at least 32 octavo pages, making a volume of not less than 384 pages; corresponding in point of mechanical execution with the best periodicals of the day.

3. The work will be furnished to subscribers at \$2 per annum for a single copy; \$3 (current in Philadelphia or New York) for three copies, or \$10 (current as above) for seven copies; sent to one address. To Clergymen and Theological Students, single copies will be furnished at \$1.50 per annum; and to companies of eight or more of such, it will be reduced to \$1.25 per copy, if sent to one address, and the subscription forwarded to the publisher free of expense.

N. B. As funds are already deposited for sustaining the work one year, subscribers will incur no risk of loss or paying in advance; and for the same reason, subscriptions will be *immediately* required in advance. Money sent by mail, if enclosed in the presence of the post master, will be at the risk of the publisher; but postage must, in every case, be paid.

Subscriptions, and orders of business, may be addressed to the publisher, ADAM WALDIE, 46 Carpenter St., Philadelphia. And communications for the work to the Editor of the *Am. Phren. Jour.*, care of A. WALDIE.

To editors who will give this Prospect one or two insertions, and forward a notice containing it to the publisher, the work will be sent for one year.

2. Postmasters throughout the country will please to act as agents for this Journal.

The Select Circulating Library, now as ever, so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same. But we shall, in the first week of January 1837, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also filled with books of the newest and most interesting, though in their several departments of Novels, Tales, Voyages, Travels, &c., select in their character, joined with reading such as usually should fill a weekly newspaper. By this method we hope to accomplish a great good; to entertain and enlighten the family circle, and to give to it, at an expense which shall be no consideration to any, a mass of reading that in book form would alarm the pocket of the prudent, and to do it in a manner that the most sceptical shall acknowledge "the power of concentration can no farther go." No book which appears in *Waldie's Quarterly Library* will be published in the *Omnibus*, which will be an entirely distinct periodical.

TERMS.

WALDIE'S LITERARY OMNIBUS will be issued every Friday morning, printed on paper of a quality superior to any other weekly sheet, and of the largest size. It will contain:

1st. Books, the newest and the best that can be procured, every week to a London duodecimo volume, embracing Novels, Travels, Memoirs, &c., and only chargeable with newspaper postage.

2d. Literary Reviews, Tales, Sketches, notices of books, and information from "the world of letters," of every description.

3d. The news of the week concentrated to a small compass, but in a sufficient amount to embrace a knowledge of the principal events, political and miscellaneous, of Europe and America.

The price will be two dollars to clubs of five subscribers where the paper is forwarded to one address. To clubs of two individuals, five dollars; single mail subscribers, five dollars. The discount on uncurrent money will be charged to the remitter; the low price and superior paper absolutely prohibit paying a discount.

On no condition will a copy ever be sent until the payment is received in advance.

As the arrangements for the prosecution of this great literary undertaking are all made, and the proprietor has redeemed all his pledges to a generous public for many years, no fear of the non-fulfilment of the contract can be felt. The *Omnibus* will be regularly issued, and will contain in a year reading matter equal in amount to two volumes of Rees's Cyclopaedia, for the small sum mentioned above.

Address, post paid, ADAM WALDIE, 46 Carpenter St., Philadelphia. Editors throughout the Union, and Canada, will confer a favour by giving the above one or more conspicuous insertions, and accepting the work for a year as compensation.

NOTICE IS HEREBY GIVEN, THAT the subscriber has obtained from the Orphans Court of Anne-Arundel county, short letters testamentary on the personal estate of Henry Gable, late of said county, deceased. PROSPECTUS FOR THE
CONGRESSIONAL GLOBE AND
APPENDIX.

THESE works have been published by us for six years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This, done, it requires, comparatively, but a small additional expense to change them to the form of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The Congressional Globe is made up of the daily proceedings of the two houses of Congress, and the speeches of the members, condensed. The year and days on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The Appendix contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indices to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe, \$1.

One copy of the Appendix, \$1.

Six copies of either of the above works will be sent for \$5, twelve copies for \$10, and a proportionate number for a larger sum.

Payments may be transmitted by mail, postage paid, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be made by the 11th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

No attention will be paid to any order, unless the money accompany it, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.

ANAPOLIS, MARCH 21, 1839.

We are grieved to hear that the Hon. Senator R. WARFIELD, formerly for several years a representative in Congress from this State, was found dead in his bed in Frederick on Monday morning last. He died, no doubt, of an apoplexy, to which his plethoric habits naturally inclined him. He was a man of considerable information, a ready and pleasing speaker, and remarkable for his convivial and social qualities. He was, we presume, about sixty years of age.—Balt. Chron.

From the Globe.

NORTHEASTERN BOUNDARY.

We have been permitted to publish the following note from Major General Sir John Harvey to Governor FAIRFIELD, in which the readiness of the former to give effect to the informal agreement entered into between Mr. Fox and Mr. FOSTER is distinctly avowed, and in a commendable spirit:

"GOVERNMENT HOUSE, FREDERICKTOWN, N. B. March 7, 1839.

"Major General Sir John Harvey presents his compliments to Governor FAIRFIELD, and with reference to a communication which he has just received from His Majesty's Minister at Washington, transmitting a 'memorandum' under the joint signatures of Mr. Forsyth, Secretary of State, and Mr. Fox, containing terms of no commutation, recommended by the Secretary of State and Her Majesty's Minister Plenipotentiary, to Governor FAIRFIELD and himself respectively, begs to say, that he will be happy to enter into such amicable communication with Governor FAIRFIELD upon the subject as may conduce to the attainment of the very desirable and important object thereby proposed to be effected.

"Sir John Harvey has answered Mr. Fox's communication by expressing his entire readiness to give effect to the proposed agreement so far as may be dependent upon him.

"His Excellency Gov. FAIRFIELD, &c.

The Globe adds—No decision upon the subject of this note by the authorities of the State of Maine had been made when the last address of the Government left Augusta. We entertain the most confident hope, however, that the amicable dispositions of Sir John Harvey will be cordially reciprocated by them, and that whatever difficulties may arise in the arrangement of the details for the exercise of a necessary police over the disputed territory, they will be made to yield to a mutual spirit of forbearance, and a desire to maintain the peaceful relations of the two countries."

LATEST.

The latest intelligence from Augusta is in a letter of the 13th inst. to the editor of the Boston Atlas, the contents of which are in substance as follows:

Col. Jarvis, commanding the Maine constabulary armed force, has arrived at Augusta. He left his encampment at the mouth of the Aroostook, two miles from the line of the State, on the 9th. Not apprehending any attack from the trespassers or from New Brunswick, he had discharged about 400 of his men. The remainder (100) are constructing a boom across the river to stop the timber coming down. Col. Jarvis is come to Augusta to advise the Governor to employ the military force in constructing roads.

G. N. Hodsdon, we are surprised to hear, after the pacific overtures made from Sir John Harvey, has been ordered to the mouth of the Presque Isle river, on the Aroostook, ten miles from the encampment of Col. Jarvis.

The Kennebec troops are ordered to No. 4, on the Aroostook road, and there to wait for orders from Gen. Hodsdon.

The Augusta correspondent of the Boston Atlas, under date of March 13th, says:

I have no doubt the Legislature will sustain the views of the Governor, and authorize him to keep a sufficient force on the disputed territory to protect the timber from depredations.—If Sir John Harvey consents to this, and it is generally supposed here that he will, there will then be an end to our present difficulties.

Gov. Scott was still at Augusta on the 13th (Wednesday) and to remain there.

We commend the following article from the North American Review, for June, 1832, to the attention of our readers at this time, as throwing some light upon the subject of the disputed territory. The suggestions thrown out show that the writer possesses a superior mind, and is alive to the importance of our insisting upon the execution of the Treaty of 1793, and that speedily too.—Balt. Chron.

"If a war should ever again arise between the United States and Great Britain, the policy of our country is obvious; the Acadia peninsula must be ours at all hazards, and at any cost of blood or treasure. Were this once gained, the rest of the colonies would fall almost as soon as we might please to summon them, and the whole coast of the United States be safe from any serious attack.

"It is impossible to look back at the transactions of the late war, without wondering at the total want of strategic skill displayed by our Government. Every point in the British possessions was threatened except those which were vital to the bravery of our soldiers was applied to objects which, if attained, would have been of no real value. Canada was the prize proposed to ourselves, and the first attack upon it was directed from Detroit the second from the Niagara river, and on that point of no value in a military point of view, the energies of two successive campaigns were wasted; the ill combined movement on Montreal was not at

collected, and the British, who were not to be taken by surprise, were enabled to concentrate their forces, and to meet our army on the banks of the St. Lawrence, below that city, which would have rendered its communication with the sea impossible.

"It fortunately happens that there is a portion of the American territory so advantageously situated that it is a proper one to be made a point of neutralization all the benefits derived by the British government from the possession of Nova Scotia. We allude to the territory possessed by the State of Maine, north of the forty-sixth degree of latitude. This British New Brunswick from Canada, and would enable an army, collected in it, to threaten Quebec on the one side, and Halifax on the other. It would compel the British government, in case of war, to form an equal army both in New Brunswick and Lower Canada, and to hold in the St. Lawrence a fleet of such strength, as would leave little force disposable for the blockade of our coast; probably too little to contend with our navy. Should the defence on either side be neglected, one or other would fall into the hands of the other. The whole of Canada, with Halifax, all hopes of curbing the exertions of our maritime force.

"This district presents the incalculable advantage of enabling an army moving in it to act upon a single line against an enemy compelled to move upon two; and in addition, threatens points, not of minor, but of vital importance. The British government have strained every nerve to prove a right to its possession, and now that the question is decided, so far as the difference is of any value, in our favour, acquiesce with a bad grace in the decision of the umpire. Its value is by them far better appreciated than by us, who seem to look upon the matter as if it merely touched the property of a certain number of square miles, of a territory by no means fertile, and did not include a military position capable of securing the tranquility of ten times its own extent. The value of a military road from New Brunswick to Quebec has been insisted upon, in the arguments of the British agents; but they have never whistled the actual truth, that they desired its possession by us far more than they desired its mere loss to them. It cannot be doubted, that should a war again occur, the very first how it step would be the seizure of this valuable ground, which, resting upon the two strong holds of the British government, would never again return into our possession. It ought, therefore, to be at once occupied in such a manner, that its total loss need not be feared. For this purpose, a fortress capable of sustaining a siege until it could be relieved, should be erected upon the upper valley of the St. John, and connected with the settled country by a military road, and a chain of fortified posts."

AN AMERICAN CONSUL MURDERED UNDER SANCTION OF MEXICAN AUTHORITIES.

The New Orleans Courier says—We have seen a letter addressed to one of our most respectable commercial Houses of this city, from the coast of Mexico, from undoubted authority, which states that Mr. Langdon, the American Consul for Laguna de Termina, died a few days previous from blows received from a negro at Laguna (under sanction of one of their Justices) and after being most cruelly treated, he was sent to a dungeon where he remained three nights with condemned criminals, from whence he succeeded in escaping with his lady to a small village between that and Campechy, where he died of his wounds. His lady had gone up to Campechy, and an order from the old Judge had followed her to bring her back to Laguna, to answer the charges against her husband.

FROM TEXAS.

The New Orleans Courier of the 6th inst. says—The intelligence received here last night from Texas is unimportant, one item excepted. President Lamar intends, it is said, to effect an alliance with the Federalists who are in arms under Urrea and other chiefs.

It is probable the fate of the central party in Mexico will have been decided before the Texian envoy can arrive. Should Urrea be defeated, and have to fly, it is possible he may be glad to receive the assistance of a Texian army; and by their aid secure the independence of the Eastern States of Mexico. We doubt, however, whether a good understanding could be long maintained between allies so opposed in character and disposition as are the people of Texas and those inhabiting Mexico."

The Louisianaian of the 7th, says—"We understand, from authority which we deem entirely worthy of credit, that the Government of Texas has made propositions to join the forces of Urrea and Mexico in their own efforts to overthrow the consolidated system which now prevails. It is added that letters have been addressed to those generals, and that, should satisfactory answers be returned, Texas will march 2,000 men to join the liberating army.

The sources from which we derive this report is highly respectable; but, from the nature of things, we are unable to guarantee its authenticity. It might be good policy in Texas to combine against the feeble powers that govern the Republic, on condition of enjoying certain advantages and privileges in case of success. Texas in this way, might at least secure a treaty of peace with Mexico, and an acknowledgment of her independence. A Texian army, threatening the Government of Mexico, would form a strong diversion in favor of Urrea, and secure the triumph of the latter. But the Texians would first seriously reflect before they trusted the power of their youth in

the heart of Texas, who regard Texas as their home, and who would not be content with a mere acknowledgment of her independence, but who would demand a full and complete recognition of her rights.

Johnson, one of the persons implicated in the

murder of a soldier at New Orleans some months ago, was hanged at that place on the 10th. He confessed, says the Louisiana Press, that he murdered his own brother at New Orleans, and that he had assisted in the murdering the other crew of a vessel at sea. He was only about 20 years of age.

Mrs. Doyle, who was the principal in the above crime, was convicted and sentenced to death; but her sentence was commuted to imprisonment for life. It was deemed revolting to the humanity of the people of Louisiana to inflict capital punishment upon a female. In this instance the guilt is of the most heinous kind.

A DEED OF DARKNESS.

It is stated in the Newark Advertiser, that during one of the dark nights of the present week, the tombstone erected by J. W. Parkins, Esq. upon the grave of the late Dr. Jansson, of that place, "was torn up and mutilated, and the grave itself stripped of its covering." In what other country of the civilized world would the press be called upon to record such an outrage!

AN IMPROVED METHOD OF MAKING COFFEE.

Put your coffee (after grinding) into a flannel bag, tie it closely, (allowing it sufficient room to boil freely,) put it in the boiler, adding as much water as may be required. After boiling, it will be found to be perfectly clear, without the addition of egg, &c. Having likewise the advantage of retaining its original flavor and strength in greater perfection than when clarified.

A GOOD IDEA.

In Connecticut they find a use for almost everything. An old lady in that State is collecting all the political papers she can lay her hands on to make soap of. She says they are a "deput sight better than ashes, they are most as good as clear lie."

ADVANTAGE OF POVERTY IN EARLY LIFE.

And English judge being asked what contributed most to success at the bar, replied, "Succeeded by great talent, some by high connections, some by a miracle, but the majority by commencing without a shilling."
