To Appear in Salisbury.

"She Who is Queen" has many a good character in each of its episodes and cannot well be made subordinate, hence it has never called companies, organized to support a single dominant star.

It is a true comedy, its tone is wholesome, its situations very entertaining, and its comic effects unsurpassed in any play. It is just as applicable to the present day as it was to the period when it was first given to the public.

The author was the writer of "The Visitor of Wakefield," "The Deserted Village," "The Traveller" and many other modern classics of English Literature. He was the son of a learned Irish clergyman, the brother of a scholar and the nephew of a Judge, his works all conform to the teaching and example of father, brother and uncle.

Manager Ford desires it a duty, as well as a pleasure to revive this Comedy, it is "A Servant of Two Masters" in every respect. For forty years it has been his mission to manage theatres, and he reverts with pride to the eminence and character of the distinguished men and women in whose success he has had some part.

The young actor upon whom, he thinks, the hope of the rising comedy stage rests, Mr. Wilfred Clark, son of an illustrious comedian, and grandson of Junius Brutus Booth, the tragedian, will be the Comedy Star of the Company.

The leading lady, Miss Martha Ford, who possessed marked aptitude as a child, has been educated and trained for the stage by her father, the manager, and has already achieved gratifying success in the following productions in the Salisbury Advertiser and Wicomico Year Book.

Resolved: "That we, being anxious for good conduct, extend an invitation to L. E. Folk, president of the N. F. & I. U. and Prof. Thos. N. Conrad, N. F. The Farmers' Alliance.

The Wicomico Alliance was in session at the Court House in Salisbury last Tuesday afternoon. About forty-five or fifty alliance members were present. The deliberations were held behind closed doors, thus barring out the newspaper man. Sunday resolutions were presented, and passed by a majority vote. Wheat Delayed by Wash-out.

The wheat from Baltimore Wednesday did not reach here till Thursday morning. The cause was a disastrous wash-out below Charleston station, Cecil county, Md., 28 miles from Wilmington, the road at this point is on an embankment about 25 feet high, under which runs a small culvert. The culvert was unable to vent the great volume of water that dashed against it, and it was soon washed completely out. The embankment, however, remained, and the water, which ran about 50 feet in extent, was carried away, breaking both tracks. Fortunately the night lines in both directions had passed over before the break occurred, and the travel was not interrupted. Soon after daylight four working trains and a large force of men were sent to the place and at once began the work of repairs.

ROLLES MOORE, Postmaster.

Some drunken excursions from Crisfield attacked conductor Webb of the B. & E. S. railroad, at Ocean City last Sunday. He was asleep in a car and the assault was made by surprise. Heat was grappled with the savalere and soon a miscellaneous crowd gathered about. Many spectators rushed in and took a hand in the struggle. A number were cut and otherwise worried. The police at the seaside made several arrests and the prisoners were given a trial before a justice of the peace, who placed a fine upon them, in default of which they were sent to Snow Hill jail, but escaped before the officers reached there with them.

Everybody is invited to go with St. Peter's Sunday-school to Ocean City next Wednesday. The train leaves Salisbury station at a favorable hour, and returning, gets back to Salisbury in good time that evening. The conductor of the excursionists will be looked after by me engaged for that purpose. Baskets, binoculars, etc., will be safely stored in a car provided. All are assured of a pleasant trip.

The Prohibition State Convention met at Glynco Wednesday and nominated the following ticket: For Governor, Hon. Edwin Higgins; Comptroller, John Levering; Attorney-General, Joseph B. Moulton; Clerk of the Court of Appeals, Levin S. Malson. Mr. John H. Deary of Franklin, this county, was selected as a member of the state central committee.

THE DELICIOUS PEACH DOOMED.

Reports from All Parts of the Peninsula show that the Crop is Very Badly Damaged.

From all parts of the peninsula come doleful reports of the peach crop. Instead of 6,000,000 baskets for the year's gathering on the peninsula, there will likely be less than 1,000,000 baskets. The drought and unmanageable disease known as "yellow" has taken the heart in its own hands, and under its blighting mastery whole orchards are withering away.

The origin of the yellow and the prevention of it have engaged the minds of growers since their first appearance 10 years ago. To-day its full name is known as "The Yellow." The United States government has had an expert employed to investigate the disease, but the only thing accomplished in three years has been the publication of a couple of illustrated reports.

The yellow attack a tree slightly at first, but the next year it breaks out in great force. After a tree blooms out full of embryo peaches, suddenly all the leaves become yellow and the trunk is filled with soft sprouts. The peaches drop off before they attain any size, prematurely ripened. The territory affected heretofore has been principally in upper Kent county and lower New Castle county, Delaware. This year its area is tremendous, covering nearly every county in the peach belt.

The Philadelphia Press in speaking of the Delaware crop says: John R. Nicholson, a prominent grower of Kent county and one of the best informed of the peach men on the Peninsula, has recently been over the greater portion of the peach belt. As a result of his observations he says: "The ravages of the yellow have been very great. In Ducks Creek hundred from 30 to 80 per cent of the trees are affected. East Dover hundred is the heaviest. Some few growers have large crops. I attribute this to the fact that when the disease first made its appearance we at once pulled out all trees that were in any way affected. But many large growers in Ducks Creek hundred did not take the same view of the yellow that we did. They said that it was purely an incident of one season and would disappear. It did not, and this year they are no peaches.

Over in Maryland, in Kent, Talbot, Dorchester and Queen Anne counties, orchards are actually worse than they are in Delaware. The yellow has reached down into lower Maryland, where, prior to this year, it was never heard of before. Governor Biggs, who oras thousands of trees, is complainin'. He has very few peaches on his trees.

"I think that an effort should be made to prevent sending 'premiere' fruit to market. It is not wholesome, and does no good to the State should get together to stop it, as it is bound to result in injury to them in the future."

Another large grower is W. H. Ridgely of Kent county, Delaware, and Kent county, Maryland. In speaking of these great ravages generally, he singled out Magnolia, one of the main centres in Kent county, and said that there would be no fruit about there worth speaking of.

Congressman John W. Casey, Charles Barker, Theodore Townsend, Isaac Truitt and John J. Ross, the largest growers about Millon, which town is in both Kent and Sussex counties, all are practically without fruit, and do not expect to gather over a few hundred baskets. Mr. Townsend, who was in the city on Monday, said: "There are no peaches in Sussex county. The yellow did very little damage to us. Our trouble was the June drop and a frost that occurred late in May. Over in Maryland, out of the belt crop expected, there will be but very small realization."

Secretary of State David T. Marvel of Georgetown found the same condition of affairs. He spoke generally of the devastation that had taken place in New Castle and upper Kent: "In times past the yellow is very often in a few trees of an orchard, but now whole orchards are affected and are withering away. We have no yellow as yet in Sussex county and our lack of a crop is due to other causes. It looks to me as if the peach belt is changing."

From Laurel the following is reported: "The peach blight is spreading with alarming rapidity throughout this Peninsula. Many of the varieties are maturing five or six weeks ahead of time. Farmers who had in the past two years mortgaged their last penny thought some weeks ago that they would soon be free handmen again. Now they have fears that they will be sunk deep in debt. The yield which promised well until a few weeks ago to exceed six million baskets, will now be numbered in the thousands. Reports from over the Peninsula bear up this assertion. The cause for the present alarm is an unusual one. Prematuring is the great bugaboo. Sometimes it is found that on a tree one limb will be full of beautiful red, ripe, premature fruit, while the remainder of the tree is full of green fruit. This complaint is general. Many of the largest growers say it would be impossible to find a single basket of perfect fruit in their orchard."

Can a Human Man Die Unhappy? No! I except under two conditions, first, that he is broken down in health, and therefore unambitious; second, that he cannot spare a few cents a week for a policy. An honest man's duty to his family compels him to provide for them (as well as he can) not only while he lives, but while they live.

At Friendsville, Pa., five miles from Allentown, according to the Philadelphia Ledger, there have been discovered practically inexhaustible deposits of silica. Over fifty acres are known to be underlaid with what is called the silica varying in thickness. Samples of the silica were submitted to pottery experts at Trenton, who pronounced them admirably adapted for chinaware.

We have to help the youngster's efforts over with merely an indulgent smile. Waiting behind this apparent immunity, the young traveler at last went beyond all bounds of proper respect.

Can you tell me, your grace? "Can you tell me, your grace?" he inquired, "the difference between the archbishop and an ass?"

There's a mystery as deep as the Sphinx the young man pondered for some time and then gave it up. "I don't see it," he confessed. "Neither do I," replied the archbishop; "there's no mystery about it."

More than 7,000 miles of railroad are absolutely controlled and operated by the Vanderbilts. The roads which are advertised as the "Vanderbilt system" are the New York Central and Hudson River, the Michigan Central, the Lake Shore and Michigan Southern, the Cleveland, Cincinnati, Chicago and St. Louis, the West Shore, and the New York, Chicago and St. Louis. These roads are under the absolute control and personal direction of Cornelius Vanderbilt. As his principle idea in managing this property was to create a Vanderbilt empire, he has surrounded himself with four brains men. They are Chamney M. Cooper, John Maxwell, Henry B. Leavelle, and Melville E. Ingalls—Chicago Herald.

Merit wins, as the marvelous success of Hood's Sarsaparilla shows. It goes to the root of the matter, and cures the skin, and restores the system. It is a blood purifier, and a general tonic. It is a medicine that is worth its weight in gold. It is a medicine that is worth its weight in gold. It is a medicine that is worth its weight in gold.

their claims for commission. Complaint comes with ill grace from any one who submits his candidacy to this method, and uses the same weapons of warfare as his opponents, if it should be his misfortune to be defeated.

The Baltimore Sun of Thursday, under the caption of "Bill Effects of Unregulated Primaries," says: "It will not do to trust the subject of the legislation, or proper regulation of primary elections, in the city of Baltimore as a matter for local legislation only."

We are not informed by the poster who the "citizens" are that issued the "call," but that matters not, if the true object thereof be the suppression of fraud, etc., and be intended to derive means of bringing about parity and fairness, and the suppression of "boss rule" in politics.

It is true that the "call" is couched in some very high-sounding words, which are usually the earmark of insincerity, but they are probably the emanations of an overwrought imagination. But let the meeting of all the "democrats of Wisconsin county" do a wise thing, as they surely can, and there will be none to find fault.

Delaware College Election Station has just issued Bulletin No. 13, which treats of the right of the poor and the quinine. The bulletin is issued by the department of plant pathology, and is edited by Frederic D. Chester. It gives a general description of the disease, the location of spores, description and methods of preparing fungicides, and a general summary of the results.

Legalizing the primaries is an election reform for which the people of the state are now asking, with some emphasis. The Australian ballot law was tried for the first time in any of the counties of the state last autumn, and its workings were so satisfactory, where adopted, that the voters of all parties recommend it.

The argument urged in its favor is that it, if passed, will reduce to the minimum and exercise of the right of franchise is elevated to the point of decency. Whatever action may be taken by the representatives of other counties of the next legislature, Wisconsin's delegation will doubtless listen to the demands of its constituency and give to as a primary election law similar in its operations to the Australian law.

Our Methodist friends are in quite a controversy. Since their last annual conference, held in Centerville last spring, and which was presided over by Bishop Fowler, the clergy and lay members have divided into two factions. Rev. J. A. B. Wilson heads one side, and his opponents constitute the other. The trouble rose to the surface because of the unexplained removal of Rev. T. O. Ayres from the presiding eldership of Salisbury district.

The death of Train A. Bonds removes one of the best men who have recently figured in this county. Possessing all those qualities of heart and mind which make up the good husband and kind father, the hospitable host and pleasant companion; the upright, just citizen and generous friend, and the unswerving sense of right and duty, he endeared himself to his neighbors and commanded the respect of his enemies.

And old legend runs that whenever it rains on July 15, it will rain on the succeeding forty days. July 15 is known as St. Swiften's Day. There is an old legend in regard to this Saint, that the Pope, wishing to honor him, ordered his remains to be exhumed from an obscure grave in Rome and removed to a more prominent place. When the workmen began to dig, they found that the bones were so rotten that they were compelled to stop. For forty successive days they tried in vain to accomplish it. The Pope feeling sure that the hand of Providence was against it, gave up the idea of removing the remains; and so the legend runs that whenever it rains on July 15 it will rain on the succeeding forty days.

Mary Driscoll, a two-year Haverrill (Mass.) child, while playing, crawled into a large trunk, and the lid falling, she was kept a prisoner until discovered a few hours later, by her parents. She was unconscious when removed. After making her a search was begun, and though they could plainly hear her voice they were unable to locate it. The door was torn up and the child rescued, and away other conceivable spots about the house, through the windows, looking for her. At last some one moved the trunk to one side, and noticed it was rather heavy, considering it was empty, raised the lid and there was the baby.

Mr. S. E. Gordy advertises in an obituary column, a choice lot of new timothy hay just harvested on his "Orchard Hill" farm.

SCHOOL BOARD PROCEEDINGS.

The School Board in session Tuesday, with a full attendance of members.

Mr. Lawson and Darby, committee appointed at last meeting, reported unfavorably on moving the school from Gable...

Mr. Lawson reported contract to repair houses in district No. 1 (Pittsburg), including new roof, at \$250.50.

Mr. G. R. Smith, W. A. C. Williams and others before the Board to renew their request for a new school to be located about two and a-half miles east of Delmar.

The Board reported that they were not in a position to present to take the matter up.

Mr. J. Ratcliffe Farlow was before the Board asking for a new school to be located about two miles northeast school No. 2, Pittsburg district.

The Board reported that they had decided to build a new schoolhouse in district No. 2 (Farlow's), and thought it probable that if the location was changed it would be to the benefit of the territory.

Mr. Farlow thought the proposition worthy of consideration and consented to have a committee appointed to investigate the matter at once and report to Mr. Lawson.

The Board appointed as a committee Messrs. J. R. Farlow and J. H. West, who are authorized to select a new location for the district if one school will serve the patrons.

Miss Sarah Laws and Miss E. Blanche Mitchell were appointed to teach scholarship in the Maryland State Normal School.

Petitions from A. W. Parker and others, asking for the appointment of Miss Edith Clifton as teacher of school No. 2, Parsons' district, was received; but, as the Board had no power to appoint, but only to confirm or reject appointment, the petition was ordered sent to trustees of the school.

It was decided to build new schoolhouse in Sharpshoot district near Gills T. Taylor's, also one at Green Hill. Secretary was instructed to advertise for proposals to build the above-named houses, the Board reserving the privilege to reject any and all bids.

BE HEARD TO YOURSELF AND YOUR BEAST.

A prominent physician in speaking of the hot weather and its effects on the system, says the best way to avoid the bad effects of the hot weather is to reverse one's forces.

"When an extreme of any kind occurs that we cannot control," he said, "the best way to meet it is to modify our own actions to correspond. Dress lightly and comfortably, and take an abundance of rest. Go to bed early and stay in bed as long as it is possible. Even if you don't sleep you will be resting, and this will help in resisting the effects of general exhaustion produced by the excessive heat. Avoid mental exertion, for this is even more dangerous than physical exertion. As to eating and drinking, let appetite be the guide as to what food and drink shall be taken, but take everything in moderation. If you want ice-water drink it, but don't take too much."

The Society for the Prevention of Cruelty to Animals offers the following suggestions for the treatment of animals during the heated term:

Never ride on or near a poor-looking horse if you can help it.

Don't tie your horses or dogs in hot places.

Give your horses and dogs plenty of water and shade.

Don't check your horses tightly. If owners of cart and dray horses would go away with the check rein they would find their horses would be able to do more work.

EXTENDING THEIR OPERATIONS.

Messrs. Humphreys & Tilghman have purchased a piece of property of Mr. Milton A. Parsons on which they will erect a building suitable for the manufacture of their favorite brands of fertilizer "Our B" and "Our E".

The building will be 6420 ft. two stories, in which will be placed machinery suitable for the manipulation of the goods. The increased popularity and demand for their fertilizers necessitate this move to enable them to have more room for their works. The property is located on the river between the Maryland and Delaware company's wharf and Stratton's canal. It has a water front of 160 ft., 4000 ft. deep and a frontage of 196 ft. on Fitzwater street. The front is just being dredged by a mud machine of C. T. Clay, of Norfolk, Va., and Capt. A. F. Parsons is preparing to wharf the whole front. Mr. Thos. S. Mitchell will erect the building and complete the same by Aug. 25th. Everything will be ready for the firm to move in and supply the public with fertilizer for wheat this coming fall.

HOT WEATHER.

We have just gone through the hottest weather of the season. The mercury has been fairly standing, and the thermometer standing on its head. The mercury began last Saturday and reached its climax Sunday and Monday. The thermometer stood 90 in the shade a part of the time. The intense heat was somewhat relieved in this locality Tuesday night when an electrical storm accompanied by a good rain, cooled the atmosphere.

THE CITIZENRY CALL.

A Mass-Meeting Held in the Court House Salisburies Committee to Meet the People - Issues a Protest That Follows.

The call for all "democrats of Wisconsin county who believe and feel that their country rights as freemen and citizens have been trampled on," etc., was responded to last Tuesday by a number of citizens who met in convention at the court house, but it took on a rather peculiar turn as a convention for the suppression of fraud, bribery and corruption. It seemed rather in the interest of some who were left off the ticket nominated July 14th. The meeting was well attended, but many present were not sympathetically with the cause, were there simply to witness the proceedings.

Mr. George Walter of Parsons' district called the meeting to order. Mr. A. E. Acworth was made presiding officer and Mr. E. G. Mills, secretary. Mr. Acworth stated the object of the meeting. In concluding his remarks he said: "I believe in democratic rule in its broad and true sense; that every man in the party should be heard in the selection of men who are to receive our suffrages. We have arrived at a period when the contest is of the few against the many. A few select the men to fill the ticket. It now remains for you to right this wrong. Get together and make your own selection, and when the election is over you will have no one to blame but yourselves." At the close of his remarks the presiding officer stated that he was ready to entertain a motion looking to a permanent organization, but as every one seemed to be in a hurry, the organization effected no move was made to reorganize, so the chairman announced that he was ready for business. When Mr. J. B. Armstrong moved that a committee composed of three from each district of the county be appointed by the chair to prepare a programme of business for the meeting. Carried and the following committee, after much delay on account of some of the districts not being represented, was named:

No. 1, Barren Creek—Jas. A. Waller, Wm. J. Graham, Josiah S. Taylor.

No. 2, Quantico—Orlando W. Taylor, Wm. E. Gills, L. A. H. Waller.

No. 3, Tyaskin—J. J. Dashiell, Robert Mitchell, Franklin Waller.

No. 4, Pittsburg—Robert Smith, W. S. Parker, Henry Farlow.

No. 5, Parsons—G. W. White, G. W. Mills, G. W. Smith.

No. 6, Dennis—J. S. Warren, G. W. Atkins, L. A. Hall.

No. 7, Trappe—J. T. Long, Granville Banks, W. H. H. Cooper.

No. 8, Nutters—John E. Johnson, I. W. Sirman, John L. Morris.

No. 9, Salisbury—E. E. Williams, G. H. Taylor, Chas. E. Williams.

This committee was afterward, by the following resolutions, instructed to meet in the Court House next Tuesday to nominate a ticket:

Resolved: That the committee of three from each district this day appointed, be and are hereby authorized to nominate such a ticket as they shall deem proper, and receive the support of all those who acted under the call for a mass meeting on August 14.

Resolved: That this meeting, renewing special trust in the committee this day appointed, hereby promise to vote for the ticket they may select a ballot and heavy support.

Dr. Todd was seen after the convention by the editor of the Advertiser and in answer to queries, said: He did not attend the convention Tuesday, but from what he could learn he fully expected a very interesting one. He thought his representative meeting. He understood that the committee of three from each of the various districts was selected to confer with the republican committee to stand with a view of making out a fusion ticket. He was in favor of a fusion ticket. His grievance consisted principally in the illegal voting at the primaries held July 14th—the practice of negroes, minors, non-residents, foreigners, etc.

He had nothing to say on the subject of using money, as he supposed both sides did that. He thinks his enemies captured three-fourths of the doubtful votes. He had nothing to say about the ticket nominated. It was an average ticket. He was taking no part in the effort to nominate a fusion ticket, but was content to have his name put on a good fusion ticket. He understood that the delegates to the late county convention that the ticket was made out for it before the convention met. He could not say whether or not his friends would support a fusion ticket with Mr. Thos. H. Williams for clerk.

Mr. James E. Ellegood, who was interviewed by a Baltimore Sun reporter after the convention, gave his opinion of the situation as follows:

"It is a very peculiar situation in Wisconsin county in the result, in brief, of disappointment. The outcry about bribery at the primaries has, I regret to say, too much truth at the back of it, and the sooner the democratic party recognizes the fact that corruption was more than honestly the better it will be for the party. But the cry in Wisconsin comes unfortunately from the parties whose own hands are tainted with the guilty bribe, who went into the game with large stakes and lost. The winners are not to be congratulated, and the losers deserve no sympathy. The stubborn fact is that money was freely used by both sides in two districts where the contest for the clerkship was hotly waged, which was the only real issue in the primaries. Take away this invidious ploy and there is but little left for the respective factions to quarrel over. Permit me to say that, as touching the bribery of voters, I have no excuse nor explanation for it, and I have much regret that these parties had not become conscience-stricken before the primaries. The cornerstone of the government being independence, I fully recognize the right of any man to be as independent as he pleases; but I fall to see the candor of men whose hands are reeking with corruption, that changes the nominated ticket with the broad of corruption. As to the use of money, I have no objection, but I am in a direction adverse to the objects, and presumably to their detriment, it occurs to me that they ought themselves and unduly magnify the 'top man.' It is safe to say that no one ever could have dictated the nomination as to nine-tenths of the ticket otherwise than as it stands now and if he had tried he would have found himself in the rooster. Any one contestant of the facts must readily admit that the name were were the actual choice of the convention. If all this agitation shall result in bringing about better methods in politics the party is to be congratulated."

Mr. Robt. Mitchell of Tyaskin district, whose name appears in the list above, as one of the committee from his district to meet here Tuesday to nominate the fusion ticket, was seen by an Advertiser representative and he said he was not at the meeting last Tuesday; did not expect to have the name used in that connection; did not expect to come to the convention next Tuesday, and would in no way serve. Personally he was for Dr. Todd, for the clerkship before the primaries, since then he has and will remain a supporter of the ticket. Tyaskin district, so far as he knows, has no complaints; she yet what she asked for in the convention and is satisfied.

Mr. William Guard, managing editor of the Baltimore Herald, and his wife, were guests of Miss Salts Todrina last Tuesday.

A SNEAKING AND A BARRING.

Eliza H. Sturges a nursewoman, who resides in this county, over near Whitesville, Del., was in Salisbury last Saturday, and while here he had frequent resort to cooling draughts. When he started at 8 o'clock to drive home he was in a very large frame of mind in consequence of his long tarrying at the camp.

Events, however, took the even tenor of their way till he reached the N. Y. P. & N. crossing on the Middle Neck road, where he attempted to hold the top of the buggy in which he was riding. The sudden snatching up of the top frightened the horse and it turned out on the highway up the railroad at a breakneck pace.

Mr. G. E. Sirman and his son were at home near by hearing the horse to drive into town. The frightful noise made by the horse and buggy in his flight over the railroad track started them, as the darkness shut out from broad view which the Phillips branch, over which the railroad is built, the horse fell through the trees. No such and other things, "this season. The largest and best assortment is on sale at R. E. Powell & Co's.

How to Keep the Family Together.

UNQUESTIONABLY every man who loves his wife and little ones, has an eye single to their comfort and happiness. It would give a man to know that there is one who, as evening draws near, peer through window and door to catch a first glimpse of papa, should soon day look in, and that, with his dear, his faithful wife and darling children should be deprived of the comforts they now enjoy. In many homes the death of the father would be followed by falls paid with want and overwork; children reared without the benefits of education and inured to the most abject drudgery, their mother thin and weak, old before her time. Can you, husband, face such a possibility when, by investing a small sum annually in an old and reliable insurance company, you can prevent it? If you die to-morrow, are those you love well provided for?
