LOCAL DEPARTMENT.

Site of News About Town, Gathered by  
the "Advertiser's" Reporters.

A fallible remedy belonging to Sheriff  
L. H. White died last Thursday.

Dr. E. W. Humphreys spent several  
days this week in New York City.

The sacrament of the Lord's Supper  
will be administered at the Methodist  
Episcopal Church on Sunday morning.

Mr. John H. Douglas, of White  
Haven, has been appointed to a position  
in one of the tobacco warehouses of  
Baltimore by Governor Jackson.

The rabbit law was out Thursday,  
and many of our local sportsmen have  
polished up their shooting skins pre-  
paratory to bagging a few of the timid  
cottontails.

The sale of the Hiltens property  
which was advertised to take place last  
Thursday afternoon was postponed. The  
property was offered, but \$5,200 being  
the highest figure bid, the creditors of  
Mr. Hiltens prevented a sale.

The death of Ex-Governor Hamilton  
leaves six ex-governors of Maryland  
surviving, viz: Philip Francis Thomas,  
Wm. Pinkney Wright, James Black  
Cromwell, John Lee Carroll, Robert M.  
McGowan and Henry Lloyd.

At a prohibition meeting were held  
at the Court House yesterday (Friday).  
One in the afternoon and the other at  
night. Rev. J. A. B. Wilson, Rev. Al-  
fred Smith, Rev. Charles Hill, and Mr.  
Harman, candidate for congressional  
honors, were the speakers.

The season for housing the corn  
crop is well advanced and the work is  
about the work. It is a very bad plan  
to allow the crop to remain in the field  
until Christmas or later as much of it is  
destroyed by birds, and that which lies  
on the ground is sure to spoil from wet.

The local proprietors and restau-  
ranteers of Salisbury complain consi-  
derably of the scarcity ofysters in our mar-  
ket. But few of the incoming boats bring  
their way to our port and those few sell  
readily at good prices. We greatly fear  
that the oyster grounds of Wicomico are  
showing the effects of excessive dredg-  
ing.

—Hon. Charles H. Gibson, prominent  
in the re-election, that he will do  
all he can to carry on the commendable  
work of widening and deepening the  
small rivers of Maryland. His past action  
in this direction is a sufficient  
guarantee that he means just what he  
says. There is no doubt about it. In giving  
Mr. Gibson another opportunity.

The week just passed has afforded  
an excellent specimen of Indian sum-  
mer. After so many storms of wind and  
rain during the usually mild month of  
October, we are blessed on the advent of  
the present month with a genial sun  
and balmy breeze. The predictions of  
the prophets are that November will be  
a month of such weather.

The City Council are having cross-  
ings laid on Division, Isabella, and Wil-  
liams streets. The work of grading  
Williams street has been in progress for  
several days, and that portion of "Maple  
Hill" which extended across the  
roadway has been removed to a  
level with the adjacent ground, and a  
brick wall erected to back up the "Maple  
Hill" front.

—Mr. Thos. S. Hodson, the republican  
candidate for Congress in the first con-  
gressional district, made an address at  
Snow Hill on Saturday evening. Mr.  
Hodson is following close, in his cam-  
paigning tour upon the heels of his dem-  
ocratic opponent. It is hardly likely  
however, that he will blot out the favor-  
able impression already made by Mr. Gibson.

—Major Labrore, Hon. John P. Poe,  
Hon. Charles H. Gibson, Dr. Lee, and  
Mr. Campbell, were in Salisbury on  
Friday last Tuesday. In the evening a  
banquet was given by the Governor in  
honor of his distinguished guests. Among  
our townsmen who were present were  
Judge Holland, Hon. E. Stanley  
Towdlin, Col. E. T. Fowler, Dr. George  
Truitt, Ernest Towdlin and Congressman  
Robert D. Ellegood.

The Baltimore Herald, which is in-  
dependent in politics, thus approves of  
one of the public acts of President Cleve-  
land. "President Cleveland is entitled to  
the thanks of all patriotic Americans  
for his promptness in giving Minister  
Wick his walking papers. The example  
will be healthy in its effects. The dis-  
missal of Wick is a distinct notice to all  
foreign ministers to attend to their own  
business and let ours alone."

A prominent Virginian in conversa-  
tion with a New York reporter said: "The  
people of this section are beginning to  
appreciate the good and energy of Salis-  
bury merchants. We can buy goods  
cheaper in Salisbury, by wholesale  
or retail, as we can anywhere, and the  
special excursion rates are an inducement  
to purchase there."—Wicomico

A fact that the prominent Virginian  
expressed—Ed.

The debate at Temperance Hall  
quarters last Monday night between  
Messrs. W. B. Miller and Robt. P. Gran-  
ham in the affirmative, and Messrs. Jas.  
E. Ellegood and Jay Williams in the  
negative, was considered by good judges  
to be very interesting and instructive.  
The relative merits of the discussion of  
the two sides were about balanced. Ob-  
jections were well arranged for the  
cause in which the same debates, with  
Messrs. Stanley Towdlin and others,  
will take place.

## A Long Service.

Mr. George W. Leonard, an employee  
of L. E. Williams & Co., has been in the  
service of the Company for 28 years  
without losing one day's time. He was  
first employed when the firm was John  
D. Williams, continuing when the firm  
name was changed to Mary E. Williams.  
At the death of Mary E. Williams the  
firm name was changed to L. E. Wil-  
liams & Co., and Mr. Leonard retained.

## Unclaimed Letters.

The following is a list of letters re-  
maining in the Salisbury (Md.) Post-  
office, Wednesday, Oct. 31, 1888.  
LADIES' LIST.—Mrs. M. Colbran, Mrs.  
Martha J. Parson, Miss Rhoda Dennis,  
Miss Mary C. Dennis, Miss Elsie Lewis,  
Miss Elsie V. Quinn.  
GENTS' LIST.—Wm. H. Brown, John H.  
Cockburn, James H. Carey, John M.  
Dykes, Chas. Dashiell, Jerry Davis, (col'd)  
J. T. Elliott, John C. Hastings, Charles  
Hendy, Jos. S. Hayman, Wm. Pitts.  
Persons calling for these letters will  
please say they are advertised.  
G. R. RINKER, Postmaster.

## Reading Room.

A plan is on foot to secure the re-  
opening of the Temperance Reading  
Room. The Sons of Temperance propose  
to offer their room—warmed and lighted  
—to the public, as an assembly and  
Reading Room, on condition that out-  
siders subscribe a sufficient sum of money  
to pay the expenses of janitor and  
furnish papers, etc. The proposition is  
certainly a liberal one. The reading  
room is pleasant and comfortable, well  
lighted, and a more pleasant place than  
the ordinary store in which to spend the  
evening. We hope the committee hav-  
ing the matter in charge will soon secure  
the necessary support.

## GRAND MASS MEETING.

The Issues of the Day Discussed by Able  
Speakers.

The concourse of people that assem-  
bled in town last Tuesday afternoon was  
an indication of the interest that the  
people of this county felt in the coming  
contest. Notwithstanding the fact that  
both the county and state are safe, peo-  
ple turned out.

The Advertiser promised them that  
there would be no disappointment,  
that the speakers selected to address  
the public would represent them; that they  
would hear something new. We feel  
safe in saying that there was not a man  
present who did not receive some valu-  
able information. Many people from  
Berlin and along the line of the R. R.  
looked on from the cheap rates, and  
the special train to attend the meet-  
ing.

The meeting was called to order at 2  
o'clock, and Gov. Jackson made chair-  
man. On taking the chair he delivered  
a short address, touching upon the issues  
of the campaign, then introduced Hon.  
Chas. H. Gibson, the Democratic nomi-  
nee of the First Congressional District.  
In a speech of an hour and a half Mr.  
Gibson gave as his theme, "The neces-  
sary to do so to maintain the govern-  
ment; but not one dollar to foster mo-  
nopolies. The protective laws of this  
country are only supposed to benefit  
92,000 people, that is, there are that many  
who engage in industries that are  
protected—two out of every fifteen—  
then must be taxed to protect two." Mr.  
Harrison's method of disposing of the  
surplus by laying up in the open mar-  
ket, government bonds, is simply absurd.

The defeat of the Republican party  
this fall means is death. No one who  
believes in the Democratic party whose  
principles must eventually triumph, and he  
felt sure they would this fall. "If I should  
live to be 100 years old I should still see  
the Democratic party here, the same  
intact, and I should see the same  
defeat and slumber in my grave 100 years  
and rise from the dead, I would still find  
it the same." The speaker showed that  
McKinley's famous \$10 suit would only  
cost \$6.00 if the revenue laws were  
abolished; that ninety per cent. of the  
import duties were paid by people whose  
incomes were less than \$500 a year.  
The speaker took his seat amid great  
applause.

The chair then announced Hon. Peter  
J. Campbell, the silver-tongued orator of  
Baltimore, member of last legislature.  
He said Maryland was paying \$500,000  
a year tax on iron plate, an article that  
there was not a foot of it manufactured  
in this country. Maryland wanted to  
save this money in her canneries, that  
she be able to send her goods to  
English markets. Cotton goods, which  
is not protected, is manufactured in  
Baltimore successfully, and shipped to  
all parts of the world, while the woolen  
mills were all shut down, on account of  
the duty on raw material. At the close  
of Mr. Campbell's address the meeting  
adjourned to 7:30 p.m. The speakers  
and the committee arrangement, con-  
sisting of Hon. E. Stanley Towdlin, Col.  
E. T. Fowler, Dr. G. W. Truitt, R. D.  
Ellegood and E. A. Towdlin were in-  
vited to Gov. Jackson's for 5 o'clock din-  
ner.

The meeting assembled at 7:30 to  
hear addresses by Hon. John P. Poe and  
Mayor Labrore of Baltimore. City. Mr. Poe  
delivered a magnificent address. He  
went back to 1844 when the Democrats  
went in power and passed the tariff law  
of 1846 which laid an average duty of  
181 cent on imports. The republican  
party protested especially the manufac-  
turing states. The country prospered  
and the schools and strange to say,  
in 1857, the very men who opposed the  
reduction in '44 came forward and asked  
for a further reduction. The present  
tariff laws enacted in 1861-2 were not  
for the purpose of protecting any indus-  
tries but purely for revenue—to meet the  
expenses of the war and were laid upon  
necessaries of life, the things that people  
must have, because there was no tax  
during the time of war, for people  
would do without them. The laws were  
just and proper when they were passed,  
but have long since become inglorious.  
The speech was a noble effort, free from  
all abuse and personal, and just to  
both sides, clear, logical, conclusive. He  
was followed by Mayor Labrore, who  
presented his address with the same plea  
for the reduction of the tariff. He en-  
tered into a discussion of the tariff  
question and held the audience for an  
hour. H. L. Brewington was made Secy.

Ellegood and E. A. Towdlin were in-

**Log Cabin Grandmother.**  
An Indiana doctor has recently discovered in a common weed whose medicinal qualities have never before been suspected, a valuable remedy for bowel disease and other ailments.

There is nothing particularly strange about this fact.  
Nothing.

And yet the very simplicity of the new discovery, with some, seems to throw just doubt upon its power. To make it one has only to pour hot water over the leaves of the plant. Its preparation no vast chemical works and appliances are required.

It is to be wondered at since such plain remedies are so often accounted as of such great merit in these days, that such wonderful results attend our grandmothers' remedies, whose teas and infusions of roots and herbs and balsams, have exerted so great an influence in the maintenance of health and life.

Certainly not!  
The greatest prices of machinery strike us more by their exceeding simplicity.

The secret of the success of grandmothers' remedies was their freshness and simplicity. Every autumn found the little Log Cabin abundantly supplied with fresh leaves, roots, herbs and balsams, which were carefully dried and prepared and laid away for use. Dreading to call a doctor, they extended to the friends of their far-made trips, they carefully gave attention to the directions, and before it had gained a

## Changed Their Minds.

Hubbard (first night after returning from wedding tour)—I'm going down to the club to-night, love, and as I haven't seen the boys for a long time, I may be late, so you needn't wait for me.

Wife (who has been warned by her mother that the crisis in the matrimonial history was sure to arrive)—As you have never left me alone before, dear, since our marriage, I am afraid I would feel very lonely in your absence, so I think I will go to the theater. If you are home before you need not wait, for I can let myself in with the latchkey.

Hubbard—But you cannot go to the theater unattended, my love.

Wife—I will not go unattended. Cousin Jack is home from his teaching cruise. I will call on him and ask him to be my escort. If he isn't in I shall find myself else. You needn't worry about me, dear.

Hubbard (who used to be dreadfully jealous of cousin Jack)—Your cousin Jack is home, then?

Wife—Yes, and you needn't fear I shall be left in his company. Jack is very entertaining, you know.

Hubbard (pondering for awhile)—On second thought I don't think I'll go to the club, love.

Wife (demurely)—On second thoughts I don't think I'll go to the theater, dear.

**A Warning.**  
The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle germs into the system when these germs fall upon suitable soil, they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and it allowed to continue unchecked, they extend to the lungs, producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing no such dangerous condition to develop and may lose your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Bosche's German Syrup. It will give you an immediate relief.

**A Woman's Discovery.**  
Another wonderful discovery has been made and that too by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its assaults, but her vital organs were undermined and death seemed imminent. For three months she suffered incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was much relieved on taking first dose. She slept all night and with one bottle she has been miraculously cured. Her name is Mrs. Luther Lutz. Thus write W. C. Haurick & Co., Shelby, N. C. Get a free trial bottle at Dr. L. D. Collier's Drug Store.

**Naturally Dejected.**  
The white horse was padding down the street in a dejected fashion, looking neither to the right nor the left, but keeping his eyes fixed on the cobblestones beneath him.

"What is the matter?" asked a dandy that was coming down in the opposite direction.

"I'm getting about tired of this business," said the white horse, disgustedly.

"Of what business?"

"Why, this thing of having somebody at my heels every step I take. There's one thing certain—either I or the red-headed girl will have to stop living."

**Syrup of Figs.**  
Is Nature's own true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Costive; to dispel Headaches, Colds, and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. Dr. L. D. Collier, Agent.

**Cast Iron Tensiveness.**  
"Do you remember how, ten years ago, you swore that you would kill Overmunk?"

"Yes."

"I know he lives, and I am avenged. He is married to my divorced wife."

## Stopped With a Postage Stamp.

In a group of girls the other day, says a seashore letter, some information in the stocking-mending line was astonishing. The conversation turned upon the really disagreeable way in which the finger of her mother and the loss of silk stockings went on nowadays. There were three young ladies away from home without mends. They were asked how they managed. Miss No. 1 for answer pulled out her slipper and showed her advanced views of darning. There had been a good-sized round hole. She had taken a needle and thread, ran around the place, gathered it up, and fastened it in the middle, making the most ridiculous lot of radiating puckers, rather worse to wear than the hole. Had all this, she said, No. 2 showed her method. No. 2 held back, but finally yielded, and to behold! on the heel of this young lady's stocking was a hole neatly stopped with a postage stamp.

**The Verdict Unanimous.**  
W. D. Sully, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every body who takes it really makes a discovery. One man took six bottles, and was cured of Rheumatism of 10 years' standing. Abraham Hare, druggist, Belleville, Ohio, affirms: 'The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters.' Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Dr. L. D. Collier's Drug Store.

**A Problem Settled.**  
Mrs. Simpkins (over her newspaper)—I see, John, that the papers are talking up the question 'Is marriage a failure?' It would really make your heart bleed to read the letters that are sent by some of these long-suffering wives.

Simpkins (a long-suffering husband)—H'm! Well, my dear, I don't dispute it. If a woman really starts in to make marriage a failure, she can succeed without any trial.

**Origin of Blood Rages.**  
The blood orange is a mere variety of the sweet orange obtained by cultivation, and appears first to have been raised by the Spanish gardeners in the Philippine Islands, from the capital of which (Manila) it, together with the well-known cigars, formed at one time one of the chief articles of export. On its first appearance in Europe it excited a considerable sensation, and in the last century, very high prices were demanded for the trees which bore the wonderful fruit. None, however, now come to us from Manila, our supply being derived almost entirely from Malaga, where great pains and attention are bestowed upon this cultivation. It was for a long time supposed—and, indeed, the idea is not yet quite extinct—that blood oranges were produced by the grafting of the orange with the pomegranate; but there is not the slightest foundation for this belief.
