For Congress:

HON. DANIEL M. HENRY, Of Dorchester County.

Tuesday next is the day which is to decide whether we are to have bayonet rule or ballot rule; whether the free will of the people is to be our guide under a majority decision, or if the drawn sword in the hands of a tyrant is to sway the people and make and unmake constitutions and laws. If Tilden and Hendricks are elected the people will be allowed to select their rulers, both State and National, in the future, but if Hayes and Wheeler are elected, the people who want office must consult GRANT, SHERMAN, SHERIDAN & Co., and see that they are not afraid to stand between them and all opposition with drawn swords and fixed bayonets to thwart the will of the people, and to elect whomever they will. We say to the people, turn out and say by your votes that the people ought to rule; that the constitution and laws are to be upheld and maintained, and that freemen are not to be despoiled of their rights. Remember that Tuesday next, as near as it is at hand, is to decide all this, and if you neglect to do your duty then, it will be too late on Wednesday to repair what you have failed to do the day before. Let no man have to reproach himself for any neglect of his duty on the 7th inst., but may each and all be able to look back upon that day as the day which liberated the country from a thralldom worse than British rule.

We again call attention to the fact that the through trains from Crisfield to Philadelphia, at the hands of the P. W. & B. R. Co. in compelling passengers, after riding a long distance, to be annoyed by the local travel between Wilmington and Philadelphia, and all the way stations. This is bad management on the part of the company, and ought to be remedied at once. There are no less than six local trains daily between these points, and to say the least, it is cruel to compel fatigued passengers to submit to be dragged along at the rate of about 18 miles an hour when the distance, 28 miles, could be made in 45 minutes just as well; besides, there are various other annoyances to which passengers are subjected, on local or accommodation trains, to which they are not liable on through or express trains. This train should not stop at any point between Wilmington and Philadelphia, except Chester. In addition to the great annoyance to through passengers, on account of this delay and rush of passengers in and out of the cars, the mails are detained to an unreasonable hour, which is likewise a considerable annoyance and disadvantage to our people and their correspondents in Philadelphia. We know that this can be remedied without loss to the company, and we therefore demand it as a right our people should and ought to enjoy.

Wholesale Arrests of Democrats in New Orleans.

The work of disfranchising white men and Democrats in Louisiana has begun in earnest. The scheme devised for this purpose is set forth in a dispatch from Mr. Patton, the president of the Democratic conservative committee of Louisiana, to Mr. ABRAHAM S. HEWITT, of New York, chairman of the national Democratic committee. Mr. PATTON states that ten thousand Democratic citizens are being arrested at New Orleans; that they cannot get their cases examined, and although the parties are present, and anxious to have them tried, the United States commissioner refuses to act without the deputy marshals make return on the warrants. This, Mr. Patton alleges, the marshals will not make until the day before the election, when the warrants will be returned "not found," and all the names will be erased from the registry lists. There is no charge of fraudulent registration, but affidavits are indiscriminately made against all white persons who have changed their residences in ten years, and many who have not changed their residences since 1874. He asks: "Would you submit to it?" Mr. HEWITT, in reply, advises that every legal and peaceful remedy be exhausted, and that no resort be made to any other, trusting to the great body of the people for vindication. Mr. HEWITT, who publishes a card on the subject embracing these telegrams, appeals to the people of the United States "to condemn by their votes on Tuesday next this gross outrage on the rights of freemen."

We presume Mr. HEWITT's advice is the best which could be given, but we are disposed to think, as a matter of principle, it is allowing tyranny to go too far, and for we are for putting a stop to it. If HAYES is elected by depriving Democrats of their votes by illegal and arbitrary arrests, we are disposed to give our aid and assistance in preventing him at all hazards from tyrannizing over the American people for the next four years. GRANTISM must not be continued in this way. If the people want it and vote for it, all right; but to deprive the people of the right to say what shall be done is contrary to the spirit of our institutions as they were guaranteed to us by our Fathers, and the men who undertake to deprive us of them at this day and in a time of peace must take the consequences. We are for resistance to such tyranny, and are not afraid to say so. The motto of Jefferson is as true to-day as it was in 1776: "Resistance to tyrants is obedience to God." If the guarantees of the constitution are gone, our liberties taken away, our rights disregarded, our best citizens driven from the polls, and a corrupt administration substituted for the government, it is high time the people should know it. It is revolution and not legally constituted authority. To resist it is the first duty of a freeman, to submit to it is slavery. What say you, Americans, who were once freemen?

On Tuesday next a battle will be fought, and its results will either be victory with SAMUEL J. TILDEN, or it will be the sitting down of our liberties in one dark, gloomy haze (HAYES). Can American freemen falter in this contest? If so, they deserve to be made slaves.

Pestering the Books.

The result of the recent elections enable us to determine with reasonable accuracy how the great question will be decided on Tuesday. In that contest, as our readers will remember, the whole number of electors to be chosen is 369, and the candidate who gets as many as 185 of these will be elected. Here is the record as it now stands:

Hayes Afraid of Pennsylvania.

ALARM OF THE RADICAL LEADERS—AN IMPORTANT CONFERENCE.

PHILADELPHIA, October 30.—On his way home General Hayes had a consultation at Harrisburg with Hoyt, the chairman of the state committee, Governor Hartranft, and other prominent leaders, when a report was made on the canvass of the state by Hoyt. He declared that there was a defection among the Germans in the western tier of counties, and that the Democrats were working hard and with fair success in all their strongholds. Thus, while he expected to see the majorities in republican counties reduced, he knew that in Berks county the Democratic majority would be increased some 2,000 votes, making the majority for Tilden there about 8,000, and so he thought it would be in other counties. Such a result would take Tilden to Philadelphia with a majority of about 16,000, and this would probably give him the state. Hayes declared that the state was in danger, and that it looked as close as his own state. He was quite dejected and was much disappointed at the cold reception tendered him in this city. Hoyt said he could do no better; that he was out of funds and the officeholders were out of cash and out of confidence in Hayes. He was ordered to pick his flint and try it again, and the result is that he has drummed up a few more speakers, but they cannot stem the current of reform.

Rowan, who is the radical candidate for sheriff here, and is opposed by all respectable citizens, was called on last week by many of his personal friends and requested to withdraw, but he refused, saying that "the thing had gone too far now, and he believed he would be elected by a small majority." His friends told him that he would not only be badly beaten, but that he would be a laughing stock to the whole country. He refused to be deterred, and he has now a large following in this city to such a degree as to give the state to Tilden and Hendricks. This is the plain, unvarnished truth, and bet is made even now that Pennsylvania will give her electoral vote to Tilden. Hayes made a miserable impression upon our folk generally, and they say that he has no "burrah" in him.

The Solid South.

Ex Governor Walker, of Virginia, and now a Representative in Congress from that State, was at the reception of Gov. Tilden by the Manhattan Club, of New York, on Monday evening, and delivered a brief speech. His remarks were applied mainly to what the canvass was eliciting in Virginia; a slender column than ever before, with the usual compliments for the Democracy of twenty-five thousand majority. In speaking of "the solid South," the speaker said he thanked God for a solid South. They are solid against radicalism and solid for reform, peace and the restoration of the Union and solid against whatever was opposed to these. Consequently they are solid in opposition to radicalism and looked forward with hope to a day when there would be a solid North. When that time arrived—as the speaker prayed it soon might—the people would take the two great solids and weld them into a union which would be indissoluble forever.

This learned gentleman could not have expressed it more aptly than he has, and it could not have come from more honest lips than his. He is a northern man that went into the South, the same as Chamberlain did after the war, only he went there with the intentions of honesty, and Chamberlain did not. Walker was elected Governor of that State upon the Conservative ticket to wrench the government from unscrupulous Republicanism; the same were the circumstances of Chamberlain's election in South Carolina. Walker, after his term expired, gracefully gave way, and allowed the people of Virginia to select a ruler from among themselves, Chamberlain instead of doing the same, issues his proclamation and has the State flooded with military to sustain him in power. And to assert their intention of placing a ruler of their own flock in command of them, the people of South Carolina are adjudged riotous against the peace and freedom of the ballot, by the infamous measures prescribed by the desperation of the Republican party's situation.

Kilpatrick Enraged.

At a Republican meeting in the Opera House, Newark, on Monday night, to which Democrats were specially invited, Messrs. Perry of Newark and Treat of Maine spoke, the Democratic portion of the audience loudly cheering whenever Tilden and Hendricks' names were mentioned. This rendered Gen. Kilpatrick so furious that when it was his turn to speak he advanced to the front of the platform and declared that if he was interrupted by anybody the audience would see more bloody shirts than they desired. He then dared the audience to insult him by cheering for Tilden. The audience dared, and cheered the popular candidate with such a vim that the General was fairly beside himself with rage. He then threw off his overcoat, and stamping to the front again ordered the police, who were distributed in uniform and civilians' dress throughout the audience in large numbers to close the doors and let no one out. He then shouted: "Now, let us do what we did in New Brunswick, choke the first man who will be black in the face who attempts to insult me again." Michael J. Hoiland of 33 Golden street was arrested for asking Mr. Perry whether he obtained his speech from the New York Times. He gave bail to appear, and was then discharged, after a brief examination. His arrest excited unfavorable comments from all parties, as the call to attend the meeting was so worded that the impression prevailed that it was a Democratic meeting.

FROM MAINE TO CALIFORNIA—Gov. Tilden has become almost a daily visitor at the national and State Democratic headquarters. He is very much gratified with the progress of the campaign Senator Barnum of Connecticut said: "Connection is all right for a good, round Democratic majority." The Hon. Ed. Wilson brought cheering news from "way down in Maine," and the Hon. Charles H. Amaden of New Hampshire, Senator Wallace of Pennsylvania, and the Hon. Augustus Cutler of New Jersey reported large Democratic gains. The Hon. J. M. Arthur said: "Delaware will do her duty," and the Hon. Geo. R. Monell of Wisconsin said that his State is for reform. Senator William A. Gwin said that California is disgusted with Republican misrule. Encouraging letters were received yesterday from the northern counties, and the indication is that Tilden and Hendricks will carry the State by 80,000 majority.

FOR TILDEN AND HENDRICKS ON TUESDAY NEXT.

Do you take THE SUNNY SOUTH?

If not, send for it immediately. It is the universal favorite, and all Southerners are proud of it. Let a large club be raised without delay in this community. It is the only illustrated literary weekly in the South, and the press and people everywhere unite in pronouncing it the equal in every respect of any similar publication in America. The best literary talent of the whole country, North and South, is writing for it, and it has something each week for all classes of readers. Its stories are superior in literary merit, and equal in thrilling interest, to those of any other paper, and its essays upon all subjects are from the best minds of the age.

In addition to thrilling new stories, a series of brilliant articles will soon begin on the Campaigns and Battles of the Army of Tennessee, by Colonel B. W. Frobel, a distinguished military engineer of that army in all its trying times. These papers will explain all the movements of Generals Johnston, Hood and Sherman. Don't miss any of the numbers. They will read like a fascinating romance.

New and exciting stories are beginning every week to two.

State and local agents are being appointed everywhere, but let each community form a club at once and send on for the paper. Having passed successfully through two of the hardest years we shall ever see, it now challenges the admiration and unlimited support of the people. The price is \$3 a year, but clubs of four and upwards get it for \$2.50. Address Jno. H. Seals, Atlanta, Ga.

We club it with our paper, and for \$3.50 you can secure your home paper and our great Southern literary journal, both of which everybody, in this community should sustain.

Hon. Milton Saylor on the Prospects in Ohio.

New York, October 30.—The Hon. Milton Saylor, ex-Speaker, of the House of Representatives, having just arrived in this city from Ohio, was visited by your correspondent for the purpose of eliciting his views in regard to the presidential campaign of that state. Being formerly a battler in which he was himself a successful participant his standpoint affords him a favorable opportunity for an intelligent and authentic outlook. Mr. Saylor thinks that the contest is very close and the result involved in considerable doubt. He believes, however, that if the efforts of the democracy are properly directed and the same amount of energy and enthusiasm infused into the canvass that marks that of other States, Ohio will be carried by the Democrats. He claims that the resident politicians have done all they could for the achievement of victory, and are now stumping the state with unabated zeal. He argues that Barne's majority of 6,000 votes can be readily accounted for by the fact that being a temperance crusader he received about 2,500 temperance votes, as well as an equal amount from the greenback party; that this fusion of 5,000 votes will be cast in the presidential election on the Democratic side, thus narrowing the contest to a very close one, and equalizing as it were the hitherto unbalanced scales. He further insists that there were other potent local causes and circumstances that affected the October election, and which being removed, or in the coming year being removed, will effect a notable turn in the tide. A strong point, he said, was made by the Democratic gains, and the comparatively insignificant majority by which the Republicans carried the state.

THE USE OF THROATS REBUTTED.

The Hon. Henry Stanbery, ex-Attorney General of the United States, in an open letter to the Cincinnati Enquirer denounces President Grant's proclamation and consequent ordering of troops to South Carolina as entirely unwarranted and unauthorized by the constitution and by the facts in the case as detailed by the proclamation itself. The opinion has been prepared with much care, and is based on points of law and the constitution, which are defined with great clearness.

THE CRAFTY SCHEMES OF THE REPUBLICANS TO SET THE CITY DEMOCRATS BY THE EARS AS TO THEMSELVES PROFIT BY THE DISCORD, HAVE COME TO NAUGHT.

Tilden and Robinson will get every Democratic vote in New York, and, besides, they will poll the ballots of a large body of Republicans and independents who are disgusted with the ways of Grantism, and see that we cannot hope for business prosperity or political purity until we have driven the Republican party from power.

IN EARNEST.—The Democratic Executive Committee of Mississippi has adopted a resolution requesting that all merchants, brokers, grocers, mechanics, lawyers, doctors and other business men close their stores and other places of business on Tuesday, seventh of November, so that all such persons may devote that day to the election.

AN INCH OF RAIN.—Few people can form a definite idea of what is involved in the expression "an inch of rain." It may aid such to follow this calculation: An acre is equal to 6,272,640 square inches; an inch deep of water on this area will be as many cubic inches of water, which at 27.725 to the gallon is 226,225 gallons. This quantity weighs 226,225 pounds, or 100,383 tons. One-hundredth of an inch (0.01) of rain is equal to one ton per acre.

TWELVE THOUSAND FOR TILDEN IN NEW JERSEY.—Governor Joel Parker, of New Jersey, feels assured that the radicals would have no show outside of West and South Jersey. He is confident that his state will give Tilden at least twelve thousand majority. There are everywhere evidences that the people desire a change in the national administration, and there are folks here who talk now of Tilden having a clean sweep.

PARTY ORGANS on both sides are indulging in earnest entreaties to Centennial visitors to return to their homes in time to vote on Tuesday.—It is not probable that many voters will absent themselves from the polls on election day for Centennial or other pleasures.

Gov. STONE, the Democratic Executive of Mississippi, is making an economical record for himself. In 1875, under the Ames administration, the State taxes of Mississippi were \$618,000. This year, with better schools, and a confessedly better Government every way, the State taxes are \$200,005.

TAKE AYER'S SARSAPARILLA to purify the blood and purge out the humors, pimples, boils and sores which are merely emblems of the rottenness within.

Scarcity of Money?

There is no doubt but the present situation of all kinds of business and industry is fearfully depressed, and it behooves every family to look carefully to their expenses. Winter is coming on when children are liable to Croup, Whooping Cough, etc. Coughs and Colds will prevail everywhere, and Consumption will carry off many. These diseases should not be neglected. Doctor Hille's are expensive, and we would advise our people to use Bosccher's German Syrup. It never fails. One bottle at 75 cents will keep your whole family well during the winter. Two doses will relieve any case. Sold in all towns in the United States, and by your druggist, Dr. J. D. Collier, 14 Main St., Salisbury, Md.

Be sure to go early to the polls, and deposit your ballot in the box, and then you will know that it is done.

He also has for sale very fine and excellent wall pockets.

In another column will be found the card of Mr. Charles S. Jones, wholesale dealer in Fish and Provisions, at No. 216 North Wharves, Philadelphia. Persons visiting Philadelphia should go down to Second St., above Market, and see the great curiosities, known as the Fejes Cannibals, the Australian wild people, who are the connecting link between the brute and the human family, the Bearded Woman, the Lady of Madagascar, and the Circassian woman. These are curiosities, and well worth the time and money required for the sight of them.

Freeborn Parsons, a worthy colored man of this town, died on the 1st inst., aged about 66 years. He was remarkable for his great strength. For many years he followed lighterage on the Steamboat freights up to town from the steamboat wharf, nearly always loading and unloading his lighter himself. He could handle a hoghead of molasses, sugar or bacon without help. He was an offensive and obliging man, and very much respected by all who knew him.

One of the curiosities among the exhibits in the Ladies' Department at our Agricultural Fair, which we failed to mention at the time, was a quilt made by Mrs. Geo. W. Hiteh and her daughters. This quilt has many names. Some call it "Joseph's Coat," from the variety of color in it, others call it "Scrap Bag," as it is made of scraps of every color, shape and size among the dainties, while others call it "Save All," indicating that no piece, however odd in size or shape, has been excluded from its field. It is indeed a curiosity, and reflects great credit upon the patience of those who put so many pieces together, and at the time displayed so much taste in the arrangement of colors. It must be seen to appreciate its beauty.

Democratic meetings were held at Quantico, last Saturday; Waltersville, Monday; Fruitland, Tuesday evening; Powellsville, Wednesday afternoon; Delmar, Thursday evening; and one will be held at Pittsboro, to-day. The meetings have been well attended, and the orators have all made good speeches, as well they might, having a good cause and good candidates to advocate. A man who could not make a good speech for Tilden, Hendricks and Henry, had as well dry up, for there certainly can't be much in him, unless he should be over-ruled, or otherwise physically disabled for the time. Suffice it to say, we have had many good speeches by our young men, and on Tuesday next we expect to have good work.

GORDY BROTHERS have now in store a large lot of Flour consisting of Super, Extra and Family, that they bought before the advance, which enables them to sell at very low prices, and all orders will be promptly filled and at the very lowest figures.

The close season on quail expired on Tuesday last. On Wednesday morning everything that wore pants, and owned or could beg, borrow or steal a gun and ammunition went on the war-path. From now until the time expires a relentless hunting will be kept up. We earnestly advise all property owners to forewarn all persons who gun for profit from coming on their premises. The law is explicit on trespass, and the names of market gunners can be readily obtained. There are enough birds this fall to furnish legitimate amusement to all who feel inclined to indulge in the sport, but this county has no birds to send to Philadelphia or any market. In the original game law for this county there was a provision against shipping, but the Solons in the legislature saw fit to strike it out. Thirty-five States out of the thirty-eight forming the United States, have restrictive game laws, and find them to work well.

Consumption Cured!

An old physician, retired from active practice, having had placed in his hands by an East India Missionary the formula of a simple Vegetable Remedy, for the speedy and permanent Cure of Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung Affections, also a Positive and Radical Cure for Nervous Debility and all Nervous Complaints, after having thoroughly tested its wonderful curative powers in thousands of cases, feels it his duty to make it known to his suffering fellows. Actuated by this motive, and a conscientious desire to relieve human suffering, he will send free of charge to all who desire it, this recipe, with full directions for preparing and successfully using. Sent by return mail by addressing with stamp, naming this paper.

AGRICULTURAL.

Improved Sheep in Maryland.

We had the pleasure recently of a visit from Mr. Gray, one of two brothers of that name from Erie County, N. Y., who have lately bought a farm in Kent County, Maryland, and on which they have placed about two hundred head of long-wool sheep—comprising thoroughbred Cotswolds, Leicesters and Lincolns. The entire flock averaged at the last shearing 10 lbs., and sheared 21 lbs. 7 oz. of washed wool.

The Gray brothers propose to sell thoroughbred lambs of each breed; and we congratulate our friends in their immediate vicinity, as well as those more remote, at the opportunity which the enterprise of these gentlemen thus gives them of securing these fine kinds of sheep for the improvement and increase of their flocks; and we are also glad to know that Maryland has had added to the number of her farmers, interested in this too much neglected branch of agricultural industry, such experienced and intelligent flock-masters as the Messrs. Gray.

Crossing for Improvement of Common Sheep.

A correspondent having asked the "National Live Stock Journal" the following question: "What is the best cross upon our common sheep for quality and quantity of wool, for the general market, and for weight of carcass?"

The editor answers:—This inquiry can be replied to from so many standpoints, that an opinion in favor of either of the recognized breeds requires certain explanations. A cross of the long-wool—say Cotswold, Leicester or Lincoln—will insure an increase of carcass or quite double the value of the common, or native dam. The fleece will have additional length, considerable improvement in style, and a perceptible increase in length and lustre will add to its market value.

A cross of middle wool—say South-down, Shropshire, etc.—will add greatly to the quality of the meat; somewhat less, though considerable, to its quantity; will thicken somewhat the fleece, and give it slight additional weight, without adding much to its value per pound.

A cross of American Merino will make a marked improvement in fleece—adding to all its desirable characteristics, except that of length. The weight in many instances, will be doubled, while in any other than an anomalous condition of the market, the value per pound will be somewhat increased. The size of carcass will not be increased, though its compactness and symmetry of outline will be greatly improved.

With the average farmer the more satisfactory results will be secured by a cross with the long-wool breed, or the fine wools. The one will show its chief improvement in the carcass, the other in the fleece—though the merits of neither will be confined to these prominent characteristics.

As a rule, the least satisfactory results will be derived from a cross with the "Downs"—this, not from any defect in the breed, per se, but rather from less diversity in size in the one, and character of fleece in the other. Sheep from this cross may reasonably be expected to withstand the hardships, sometimes privations, incident to the lot of the flock when compelled to work its living off the average farm, with better results than would be realized from a long-wool cross similarly treated—and, "for roughing it," would prove nearly equal to the results of the Merino cross.

In view of these considerations, added to some minor ones, that may be classed as results of taste rather than experience; as a general proposition, we would advise a cross of the Merino in preference to the others referred to—always with the recommendation that the best frame within reach of the means of the flock-owner be used—and that none of the male animals of the cross be used as sires, no matter how near the desired standard they may approach.

Profits of Sheep.

Last year Mr. John T. Ross, of Loudoun County, Va., bought nine hundred dollars worth of sheep, among them two hundred and thirty-five ewes. These he divided into lambing time into four flocks, which he watched with tender care, and the result is that he raised two hundred and seventy-eight lambs, and for the lambs and the wool he obtained \$1,844, or \$138.44 for each one hundred dollars invested.

The wool crop of England this year will scarcely be more than half a yield but this is of exceptional excellence in quality. We will therefore want more of our supplies than ever.

AYER'S HAIR VIGOR, For Restoring Gray Hair TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely. AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; it restores the growth; and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus, brassy, weak or sticky hair, becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and gray or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, keeps the scalp cool, clean and soft—under which conditions, the escape of the scalp is impossible.

An dressing for ladies' hair, the Vigor is praised for its grateful and agreeable perfume, and valued for the soft luster and richness of tone it imparts.

This image shows a vertical strip of aged, textured paper, possibly a book cover or endpaper. The paper has a mottled appearance with various shades of gray and white, indicating its age and wear. There are visible creases, wrinkles, and some darker spots or stains, particularly towards the bottom. The texture appears fibrous and slightly uneven. The strip is set against a dark, almost black background, which makes the lighter, textured paper stand out.

HYGIENE.
Health of Country Homes.
The House.—The only probable source of danger to health in a farm-house lies in the condition of the cellar, of the space which separates the lower floor from the ground. If there be water, observe whether it is dry and whether standing water or decaying matter (allowed to accumulate) is through the negligence of servants. If the house is built upon the ground, the lower floor should be at least 18 inches above the ground, and the less should be open that the air can circulate freely through the space.
The Well.—If the water is clear and sweet, and free from any unpleasant taste, it may be safely assumed that it is not to be suspected from this source. Farmers are often in the habit, however, of hanging meat in the well or the purpose of keeping it cool. A pretty severe epidemic in 1874 of diarrhoea, in a boarding house at one of the healthiest Long Island summer resorts, was traced to the existence of a decomposing shoulder of mutton at the bottom of the well, into which it had accidentally fallen.
The Privy.—There is little or no danger from contamination of the air by the contents of the privy. The real danger lies in the diffusion of these contents through the soil and their contamination of the water of the well. To avoid such a possibility, the privy should be placed at least 60 or 70 feet from the well, and if the direction of the natural drainage currents be known, in such a position that the contents of the privy will drain away from the well. Better yet, let the privy be so constructed that its offensive contents shall simply lie upon the surface of the ground, and let there be easy access to it from behind, so that fresh earth may be frequently added, and the entire accumulation removed say once a week.
The Slop.—How common it is for the kitchen authorities in a farm-house to throw the slops upon the ground, just outside the kitchen door, and perhaps within six feet of the well. I have known a boarding-house epidemic of diarrhoea, which could be traced to no other source than the contamination of the well-water by a shallow pool of sun-exposed, foul-smelling slops. A cemented cistern should be built about 75 or 100 feet from the house, and at a distance from the well, and to all the kitchen slops, vegetable waste, &c., should be conducted through a suitable pipe or conduit. From the cistern these may be led to the pigs, or down upon the ground, at a proper distance from the house.
The Ice.—The ice may be so loaded with foul vegetable matter as to give rise to quite severe disturbances of the bowels and stomach. It is found free from imbedded impurities, and is, when melted, free from an unpleasant odor, one may safely assume that no danger is to be anticipated from this source. An interesting epidemic of bowel troubles was traced to impure ice in a boarding-house.
Drainage.—This is a more difficult subject to investigate, and one concerning which I hardly dare venture any remarks in this place. In a general way, however, the statement may be made that water of standing water, or marshy water, or brooks or streams (except perhaps at the source) are not desirable for drinking. This is especially the case if the house in which you live is situated in a hollow (as in some mountain valleys, however elevated it may be above the sea), where the air does not freely circulate. The prevalence of typhoid fever in some of the Vermont and New York mountain valleys, especially in early autumn, is probably to be explained by the existence of just such conditions. In the case of a large hotel, the investigation should be practically the same as in the case of a farm-house. The difficulties in the way of such an investigation will be found, however, to be much greater, and it would probably be better in such a case to secure the assistance of some physician or engineer who is familiar with the subject.—*New York Tribune.*
Bees.—Never put a swarm of bees in an old hive, as there will almost certainly be the eggs of the honey moth deposited in the crevices of the hive, which will hatch out and probably destroy the swarm. Nothing is more to be dreaded by the bee-keeper than the moth, and when they once gain an entrance to the hive the bees appear as if powerless to expel them, although they will seize them savagely at the entrance.
Rowland Hill in his later life used to come to his chapel in a carriage. He got an anonymous letter rebuking him for this because it was not the way his Heavenly Master traveled. He read the letter from the pulpit, said it was quite true, and if the writer would come to the vestry afterward with a saddle and bridle he would ride him home.

AYER'S CHERRY PECTORAL,
FOR DISEASES OF THE THROAT AND LUNGS,
SUCH AS COUGHS, COLDS, WHOOPING COUGH, BRONCHITIS, ASTHMA, AND CONSUMPTION.
The few compositions which have won the confidence of mankind and become household words among not only one but many nations must have extraordinary virtues. Perhaps no one ever secured so wide a reputation so slowly and with so little publicity as long as Ayer's Cherry Pectoral. It has been known to the public about forty years, by a long continued series of marvellous cures, for a long time for its confidence in its virtues never equalled by any other medicine. It still makes the most effectual cure of Coughs, Colds, Consumption, can be made by medical skill. Indeed, the Cherry Pectoral has really subdued these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their effects, that is well-founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickens, suffering, and even life saved by this timely protection. The prudent should not neglect it, and the wise will keep it by them for the protection it affords by its timely use in sudden attacks.

Local Advertiser.

SATURDAY, NOVEMBER 26, 1876.

This paper has double the circulation of any paper on the lower Peninsula.

BARGAINS—BARGAINS!—Now is the time to spend your money. There is no denying the fact that business is dull. I have determined to make it brisk, if possible, by reducing all best makes of prints such as Cocheo, Merri-mac, Sprague, &c., &c., to 7 cents per yard.

Alpacas and Delaines at 12 1/2 cents per yard. Closing out my entire stock of Shawls at cost. These shawls are new, were purchased this fall, and are very desirable styles. Also closing out my stock of Carpets at cost—purchased for cash very low.

Bleached and Brown Mullins, Flannels, Cassimeres, Kerseys, Blankets, Comforts, Men's Knit Undershirts, Ladies' and Children's Hosiery, Boots, Shoes, &c., &c., all at greatly reduced prices. Call and examine the stock.

Very truly yours,
A. G. TOADVINE,
Salisbury, Md.

N. B.—Terms cash, on delivery.

The weather has all the week been like B's girl—fickle.

At an auction sale of coal in New York on Wednesday, prices were lower than in the October sales.

Blind Tom, the negro musical genius, entertained the Princess Anne people one night this week.

Persons needing the services of a thorough dentist cannot do better than call on Dr. Bell, at his office, No. 15 Main street.

Great reduction in prices of all kinds of Goods, Furnishing Goods at W. A. & S. A. Graham's. Paper Collars 10 to 20 cents per box.

Wall pockets, with landscapes painted upon them, are manufactured and for sale at Mason's studio. They are useful, durable and neat.

Three sportsmen, who are at Rider's. Princess Anne, have shot as many as 100 birds in two days' gunning. Birds were last long at that rate.

Unparalleled in effectiveness, unsurpassed in cheapness, and unrivaled in popularity, is Dr. Bull's Cough Syrup. 25 cents per bottle; large size, 50 cents.

One of Jerry's frail ones was on the war-path Thursday night, and stoned the house of her sickle lover. She said for her fun before a magistrate yesterday.

A Main street legal Lothar purchased at the auction immense quantities of doll babies, ladies' collars, hose &c., &c. As he is still young, unmarried and supposed to be artless, we wonder what he wants them for.

By order of the Board,

Mr. A. G. Toadvine has just returned from the city with a large and varied assortment of Dry Goods, Notions, Sundry, Harness, Wood and Willow Ware and Furniture. Call and examine his stock.

The propeller "Ruggles," Captain Barber, of the new line between this place and Baltimore, came to the wharf just below the bridge, for the first time on Thursday afternoon. The "Ruggles" is a superior freight boat, but as yet does not seem to have much accommodation for passengers.

Bob Ellegood has gone into the auctioneering profession, and the way he can indulge in "chin music," to inveigle the greenbacks out of the pockets of his hearers is a caution. He has at last found his proper vocation, and any one needing the services of an auctioneer, should give Mr. Ellegood a trial.

A. W. Woodcock, the only responsible and practical watchmaker in Salisbury, invites the people to call and see him before they get their work done elsewhere. He guarantees all his work to give satisfaction, and we can say that his work has given the most complete satisfaction. His prices for repairing are greatly reduced, and will be found to suit all.

Thursday morning while Mr. Prall was assisting the workmen on the jail in putting up a temporary wooden arch, a brick fell from the story above and struck him fairly on the back of the head. His hat however was thick enough to keep off the shock somewhat and we are glad to know that he was not much hurt.

Dr. Darmon is now on his nineteenth tour of the peninsula and will be at Tracy's Hotel from Monday noon, November 27th, until Wednesday noon, November 29th. The Doctor is so well known to the people of this place, that it is unnecessary for us to say anything in his favor.

The negroes in Salisbury get about nine tenths of their employment from Democratic sources and show their gratitude by voting against the best interests of those who employ them. Now that Tilden is elected, they will probably learn in the four years of his presidency that their freedom is just as secure under a Democratic administration, and no bogus Freed man's bank will be started to siphon their earnings from them.

BARK ASHORE.—The British bark Sun, Whitney master, came ashore at Ocean City on Sunday night last, during the storm. The vessel is rated at 884 tons, but has capacity for 1700. She was built at St. John's, N. B., in 1874. Crew Irish and Swedes. The Captain is a clever Englishman. Captain Cathell and some friends are into his good graces, and he made them several handsome presents.

The patents on all the principal sewing machines having expired some time ago, the fancy prices that were charged for them a year or so ago have broken down. In the cities they sell at about half prices. That is a \$65 machine can be bought for \$35 or a \$70 machine for forty dollars. Times are too hard to pay big prices. The actual cost to manufacture any machine that is offered at \$65 is not \$15.

Mr. Robert D. Ellegood, will sell the various machines as follows:

Singer New Family.....\$35.00
Wheeler & Wilson.....35.00
Wilcox & Gibbs.....35.00
Howe.....35.00

These machines are all new and will be delivered to purchasers in Salisbury. When you buy from a traveling agent you have to pay big for that agent's travelling expenses.

Free instruction given to all purchasers.

"All has been done that can be done," says the physician when he gives up a Consumptive patient and retires from the field. Not so, good friend—not so. Awaiting, comparatively, has been done, if HALL'S BALM FOR THE LUNGS AND TOWNSEY'S TOOTHACHE AND DYNIE CURE are used.

Let the patient take the case into his own hands, and use the remedy that Nature and Science have furnished. It never fails.
