WICOMICO LAND AGENCY!!

For the

Eastern Shore of Maryland

And

VIRGINIA,

But more strictly confined to

the Counties of

WICOMICO, WORCESTER & SOMERSET.

Located at

SALISBURY, MD.

"ADVERTISER OFFICE" Headquarters.

L. MALONE & CO.,

Agents.

Wicomico County is bounded on the North

by the State of Delaware, South and East

by Somerset and Worcester Counties, and

the Pocomoke River, West by the Nanticoke

River, which divides it from Dorchester

County. The Wicomico River has its source

entirely in this County at Salisbury, and

is the head of Navigation, while its lower

waters divide this County from Somerset

County. Wicomico County was created by

the Constitution of 1861, out of parts of Worces-

ter and Somerset Counties. It contains

about 400 square miles, and is watered by

the Nanticoke, Wicomico and Pocomoke

Rivers, and the Wicomico Creek which is

navigable for large schooners.

The soil in the Western part is a stiff,

clay subsoil, with a dark loam, the centre

is high and sandy, while the Eastern part

is a black loam or sweet gum soil, well adapted

to the growth of Corn, Oats and Small

Fruits. The Western part is well adapted

to the growth of Wheat, Corn, Hay, &c.

There are several villages in the County,

Powersville, Pittsville and Parsonsburg in

the East, Belmar and Sharptown in the

North, Delmar Creek Springs, Quantico,

Riverton, White Haven and Waterville in

the West, Fruitland and Upper Trappe in

the South, and Salisbury in the centre.

Salisbury, the County seat, is the largest

and most important town on the Eastern

Shore. Its commerce is extensive, and its

mechanical and mercantile pursuits are

carried on with great activity. It has nine

Churches, eight Schools, about Fifty Stores

and twenty manufacturing institutions of

various kinds of manufactures, and trans-

portation. Freight is low, and Railroad

facilities are obliging, attentive and agreeable.

Farm lands can be bought at prices ranging

from \$10 to \$25 per acre, with some im-

provements.

All letters addressed to this Agency

should be addressed to

of excellent fruits just beginning to bear.—

Will be sold cheap, on reasonable terms.

No. 4. On the Wicomico River, a very

desirable property for trucking and small

farms, only one-half a mile from Salisbury,

containing

40 Acres.

Will be sold on reasonable terms, consider-

ing advantages

Nos. 5, 6, and 7 are Houses and Lots in

the town of

Salisbury,

all of which will be sold cheap, and on rea-

sonable terms.

This image shows a vertical strip of a document page. On the left side, there is a narrow column of text, which appears to be a list or index. The text is faint and partially obscured by the binding edge. The main body of the page is a large, mostly blank, light-colored area, possibly representing a full-page illustration or a very faded page. The right edge of the strip is dark and irregular, suggesting the binding or the edge of the paper.

THE FARMER'S COLUMN.

THE CULTURE OF ONIONS.

Of the culture of onions, as grown in gardens, it is not our purpose at present to speak, our object being simply to give the mode of field cultivation as practiced in the more Northern States, and where the profits, under favorable circumstances, are said to range between fifty and a hundred and fifty dollars an acre, and sometimes more.

Of the several varieties cultivated for general crop, the white or "silver skin," and the red "Danvers" are generally preferred. The most suitable soil for this crop is a clay loam, neither so heavy as to prevent its being rapidly worked at all times, nor yet so light as to dry off and leave the onions without sufficient moisture at a time probably when they most need it. Before sowing the seed the ground should be well plowed, thoroughly harrowed, and laid off into rows some two and a half feet apart. This should be done as early in the spring as possible, so as to get the crop in as soon as the frost is out of the ground—the onion requiring cool weather to insure its rapid growth—so that it can be done without danger of heavy frosts. As soon as the ground is properly prepared, as above directed, a good quantity of the oldest and strongest manure on the farm should be strewn in the rows; and a furrow thrown between each side with a one-horse plow—going two "bouts" in order to level up the ridges nicely, and to throw more fine earth thereon. The condition of the manure at the time of applying it on the rows is very important, and therefore it is better to have it prepared by composting it in the fall previous, in order by frequent stirring to induce complete fermentation, and thereby destroy any grass or weed seed it may contain. The next step is to level the ridges on top, leaving them but little higher than the surrounding ground, and some eight or ten inches wide on top, using a roller or drag log for the purpose.

In planting the seed make two rows on top of the ridges about six inches apart, using a long bed-crow or clothes line for the purpose, and making out the corner of a weeding-hoe, and dropping therein the seed moderately thick and covering them with an inch or so deep. As soon as the plants are up strong they should receive a dressing with sharp bone, thinning them out at the same time, so as to stand some two or three inches apart in the row, and the space between the ridges cleaned out with the common cultivator, running it as close to the onions as possible without disturbing the ridges. Having done this, repeat the hoeing, and cultivation alternately every six or eight days as long as any weeds appear, being careful in using the hoe in the narrow space between the two rows not to injure the young plants. In harvesting the crop choose a dry day for the purpose, pulling up or raking out the onions with a hoe-tooth garden rake and throwing them into piles preparatory to hauling them to the barn floor, on which they should be spread for a couple of weeks previous to stowing away in boxes or barrels.

In good land, with early sowing, liberal manuring (either with well-rotted barn-yard compost or commercial fertilizers) and proper cultivation, onions can be grown in the field from the seed quite as large as those produced from sets.—*Balto. Sun.*

THE CULTURE OF THE RASPBERRY.

For summer use there is no more desirable fruit than the raspberry, and although it will succeed tolerably well on almost any kind of good soil it prefers a rather moist situation, and does not object to a little shade—the wild raspberry being often found in the woods than anywhere else, and in somewhat damp situations, where it grows and fruits wonderfully. It takes some little time to establish a plantation of this delicious fruit, and much depends on the manner of its cultivation. In dry districts having a dry subsoil the culture should be deep, principally because such deep cultivation enables the land to retain moisture the longer; and otherwise this is not so important, as its roots do not penetrate very deep. In fact, the roots of the raspberry are found in the greatest abundance near the surface, which accounts to some extent for the bad effects which drought has upon the fruit, and the good effects of mulching. In planting the shoots the favorite plan among cottage gardeners is to plant them in rows some six or eight feet apart, and the canes set about nine inches apart in the row, and trained to a horizontal rail placed some three or four feet from the ground. If the ground is trenched previous to planting, so much the better, in which case any rough, partially rotten manure will answer to incorporate with the soil, but to immediately serviceable the manure should not be dug in more than a few inches.

After planting the roots should receive a mulching, three or four inches deep of any kind of coarse litter, the same to extend a foot or two from the stems, and to be applied every second year, to protect them from the droughts of summer, as well as from the frosts of winter, and then stirring the ground between the rows once or twice during the early part of the summer, in all the cultivation they require.—*Baltimore Sun.*

MILK.—Various experiments made with fresh milk have demonstrated the fact that the nearer new milk is kept to the freezing point, in proper vessels, the more rapid is the collection of cream, the quantity is greater, and the butter and cheese, are of richer quality.

...and Mrs. J. H. ...

...and Mrs. J. H. ...

Since its organization the roll gives the names of 109 members. Also how many of them have gone to their reward. Over their graves the winter's wind has sung its requiem for many years, others have but lately fallen asleep.

From which none ever wake to weep.

For the past thirty years the Society has endeavored faithfully to carry out the object of its organization, namely, the circulation of the Holy Scriptures, without note or comment.

Every few years committees are sent out to supply with the Bible, all who are destitute of it.

Our committees this year report very few cases, and they will be immediately supplied.

It is the duty of every member to report any destitute cases that may come under her notice.

There has not been as much accomplished as we desire—still we have great cause for thankfulness, and take courage and go on, until every person in our town shall possess a Bible.

Year after year, we have steadily pursued our work, looking unto God for his blessing. Although few in numbers, we have endeavored to be faithful to our trust, hoping at last the Divine Master may say, unto the woman of Bethany, "She hath done what she could."

Since our organization in 1847, reports give \$2,370 collected, 2,000 Bibles, 1500 Testaments, bought from the State Society, 450 Bibles, 850 Testaments given away, \$780.00 sent as donations to the Maryland State Bible Society, also \$70.00 contributed to our Society by the young ladies of Mrs. Symington's school, to buy Bibles for China, in 1886.

It is now over three hundred years since Wm. Tyndale died at the stake for translating this English Bible. "He died for the offense of giving the word of God to his own nation in their own language." He endured persecutions, imprisonment, hardships of every kind, and at last martyrdom at the stake, for giving the world the English Bible. "This Bible that has a dominion on the spires of North America, his morning glare has awakened the Bible readers upon the plains of Australia, China and India."

"Three hundred years ago, this Bible was chained to a pillar in St. Paul's Cathedral, London," now, all can read it under their own roof, or vine, without fear or molestation.

We are thankful to know that every family within the limits of the Salisbury Female Bible Society, will be supplied with the Holy Scriptures. We earnestly invite the more active co-operation of the lovers of God's word throughout the town. Your influence is needed to render our exertions efficient—to scatter broadcast the word of truth, which is able, through faith in our Lord Jesus Christ, to make men wise unto salvation, and is to accomplish the greatest good within the compass of human ability, a work, that commends itself to every Christian's heart.

To the Christian Sisters of this Society let us say, "Be not weary in well doing." Let us never forget what we owe to the Bible, without it, what would we have been? What our condition? What our civilization? There is not an object around us, that does not wear a different aspect because the light of God's word is upon it, it is not a custom, which cannot be traced in all its holy and healthy parts to the Bible—not a law, which does not owe its truth and gentleness to the Bible. Its precepts are mixed up with our very being, and in our daily life. Let us then be firm in our faith, and fixed in our purpose. "Jehovah's great plan-work will not be marred, for time's grand Apocalyptic drama shall yet wind off in victory to the cause of man, and glory to the rule of God," but especially in view of God's declared purpose to evangelize the world by the power of his revealed truth, ought the entire church, who to heed its grand mission, which brooks no delay, and haste to obey the startling call of the gospel trumpet, repeated with every unfolding of God's providence. Say ye not, there are four months, and then cometh harvest. Behold, I say unto you, lift up your eyes, and look on the fields, for they are white already to the harvest."

S. FANNIE TOLD, Secretary.
Mrs. I. HENDERSON, President.
Mrs. L. DASHLEY, Treasurer.

At the conclusion of the reading of the report, and appropriate music by the choir, the chairman stated that he would like to hear some remarks from persons present, which was responded to by Rev. J. J. Smyth, who was listened to with great interest, followed by Rev. Mr. Moore, Mr. J. E. Ellegood, Rev. Mr. Wilson and others, interspersed with music by the choir, after which the Rev. Mr. Wilson offered a resolution of thanks to the Female Bible Society for their pious efforts, self-denying energy in the prosecution of this noble Christian work, which was adopted unanimously, after which, a request was adopted that the report be published in the papers of the town, when the meeting adjourned with the Long Meter Doxology, and Benediction by Rev. Mr. Wilson.

WICOMICO LAND AGENCY !!

For the

Eastern Shore of Maryland

And

VIRGINIA,

But more strictly confined to
the Counties of

WICOMICO, WORCESTER & SOMERSET.

Located at

SALISBURY, MD.

"ADVERTISER OFFICE" Headquarters.

L. MALONE & CO.,

Agents.

Wicomico County is bounded on the North

by the State of Delaware, South and East

by Somerset and Worcester Counties, and

the Pocomoke River, West by the Nanticoke

River, which divides it from Dorchester

County. The Wicomico River has its source

entirely in this County at Salisbury, which

is the head of navigation, while the lower

waters divide this from Somerset County.

Wicomico County was created by the

Constitution of 1867, out of parts of Wor-

cester and Somerset Counties. It contains

about 400 square miles, and is watered by

the Nanticoke, Wicomico and Pocomoke

Rivers, and the Wicomico Creek which is

navigable for large schooners.

The soil in the Western part is a stiff,

clay subsoil, with a dark loam, the centre

is high and sandy, while the Eastern part is

a black loam or sweet gum soil, well adapted

to the growth of Corn, Oats and Small

Fruits. The Western part is well adapted

to the growth of Wheat, Corn, Hay, &c.

There are several villages in the County.

Powellville, Pittsville and Parsonsburg in

the East, Delmar and Sharpsburg in the

North, Barren Creek Springs, Quantico,

Riverton, White Haven and Walleterville in

the West. Fruitland and Upper Trappe in

the South, and Salisbury in the centre.

Salisbury, the County seat, is the largest

and most important town on the Eastern

Shore. Its commerce is extensive, and its

mechanical and mercantile pursuits are ex-

tensive. It has nine Churches, eight Schools

and twenty manufacturing institutions of

various kinds. It is on the line of the Eastern

Shore Railroad, an extension of the

Delaware and Potomac, Wilmington &

Baltimore Railroad, and the Wicomico &

Pocomoke Railroad connects this place with

Ocean City, Berlin and the intermediate

towns.

Trains leave Philadelphia at 8 o'clock, A.

M., arriving at Salisbury at 11 P. M. Dur-

ing the fruit season extra trains are run,

which greatly facilitate travel and trans-

portation. Freight rates are low, and Rail-

road Officials are obliging, attentive and ac-

cumbent. Farm lands can be bought at prices

improvements.

Poetry.

Written for the Advertiser.

Fold them away Softly.

RE AMANDA.

Fold them away softly—
The beautiful years I loved them so!

But I held them all too closely,
And the beautiful things made—"go!"

Fold them away softly—
Tenderly, they are dead!

Why should we treasure the chalice,
When the golden wine is shed?

Fold them away softly,
Their sweetness mocks their pain—
The old, dumb pain and pathos
That stamps their sweetness vain.

Fold them away softly,
Tenderly, they are dead!

Could we forget their sorrow
And live them o'er again?

Fold them away softly,
Reverently, God knows best!

I, who have learned their lesson
Will shrink not from the rest.

Fold them away softly,
Tenderly, and then—
In the silence, dim and lone—
I think I've grown too weary
To weep, or sigh, or moan!

Fold them away softly,
Tenderly, they are dead!

Why do we treasure the chalice
When the golden wine is shed?

Fold them away softly,
Tenderly, they are dead!

I held them all too closely,
And the beautiful things made—"go!"

Beautiful years—farewell!

Picking, Packing and Shipping

Berries.

Having had some experience in

handling berries in the New York

market, I take the liberty of offering

some suggestions to the young cul-

tivator, presuming that all the old

growers are thoroughly posted in

these items. First, the pickers often

damage the fruit very materially

To have a nice fitting Gaiter, Boot or low cut Shoe made in good style, go to James Cannon and fit yourself or have a pair made to fit you. He has made arrangements this season to have fine hand stitched shoes made to measure, so that our citizens can now have the finest city styles made to fit them at low rates.

We again call attention to the commission cards of Messrs. Henry Combes, 145 West street; S. F. Bogart & Son, 163 West st.; Quick & Reed, 327 Washington st., with numerous other houses. See first page. These are all reliable houses and safe to ship to. Try them and see what you think of them.

Prof. Pharyn, with his company, paid us a visit during the last eight days. He played at the Laundry Hall several evenings, to full houses. The Professor is one of the finest ventriloquists we have ever seen, and his slight-of-hand performances were admirably executed. What ever may be said of the Professor he is a pretty good wizard.

Under the head of new advertisements appears to-day the card of Mr. H. S. Van Winkle, at 31 Vaney Pier, W. W. Market, N. Y. This is a good house, and can get as much for fruit poultry, eggs and melons as any other house. The best way to find out is to ship him a lot and see for your selves.

Strawberry checks printed at this office at \$1.75 per 1,000. Send in your orders now so that all may be done in due time.

The bridge over Ruark's Pond, on the E. S. R. R. took fire on Thursday morning from sparks from the engine, burnt one stringer almost in two, and otherwise damaged the bridge. The damage was soon repaired so that the afternoon train was fully on time. No damage done further than a little extra labor and expense.

Mr. R. D. Ellegood, of our town, will represent the house of J. W. Wharton, Commission Dealer, No. 5 South Del. Ave. Market Philadelphia, Pa. This is a good and safe house, and Mr. W. knows how to get the best prices the market will afford, and he has always been remarkable for quick sales, and prompt and square returns. Give him a trial.

Dr. Wm. Darmon will make his 24th visit to Salisbury on the 25th inst., and remain till the 29th, where he can be found at the Peninsula House. This will be the last visit the Doctor will make here for two or three months. Persons who may desire to see and consult him had best avail themselves of this opportunity.

Call and examine S. Frank Tondvine's "Patented Molasses Cups," which excel anything of the kind you ever purchased, and other articles too numerous and cheap to mention.

Mr. S. B. Downes, of the firm of S. B. Downes & Co., Commission Merchants at 180 Rondo street, New York, called at our sanctum on Thursday. Mr. D. is quite a gentleman, and represents a good firm. They are highly spoken of by those with whom they do business, which is a good sign. We take pleasure in recommending this firm to our farmers and truckers, and shippers generally.

Under the head of New Advertisements this week will be seen the card of Mr. T. W. Stapler, commission merchant, 335 South Front st., Philadelphia. Mr. Stapler is an experienced merchant, and has the reputation of being prompt in his business transactions. Persons shipping to Philadelphia, and not having fixed upon a house, will do well to try Mr. Stapler.

Mrs. S. Frank Tondvine has just returned from the city with a large and fine assortment of new and latest styles of Ladies' Bonnets and Hats. Also Parasols and Sun Umbrellas, at prices to suit the times.

Next Monday is Whit Monday, or the Summer Fair, so called to distinguish it from the Spring Fair, which comes on Easter Monday, and one of the features of amusement will be the races at the fair grounds, which will have a tendency to clear our streets of the crowds of people so common on that day. We have every reason to believe, judging from the reputation of the horses entered, that there will be some fine trotting on the occasion, and that there will be a large attendance of spectators.

We are glad to be able to announce that the repairs on the railroad bridge at Ocean City have been completed, and the bridge is in a better condition than ever before, and improvements at Ocean City are going on lively. Everything will be ready for an early opening. This is good news for our people, for there is no place on the whole coast where a person can see more pleasure for the same amount of money, and be in good society at the same time. Many of our friends from a distance announce their determination to go there this season in preference to anywhere else.

Before we again address our readers the cry of the strawberry brigades will be heard upon a hundred fields. The schools will have to close for a couple of weeks, or might as well, for every available hand will be required to pick the crop, which is an unprecedentedly large one. It would suppose from appearance that it will be necessary to import some pickers from abroad to gather the crop, as we shall not have enough here to do it. About the middle of next week a few will be gathered, but the bulk will come in about a week later.

The School Commissioners were in session last Tuesday and transacted important business, and among other things passed upon the location of one or two new school houses. They are besieged by petitions for new school houses; while in the immediate neighborhoods they are scarcely three miles apart. People all want the school house within a mile of their door, but none want them on their premises.

Now is the time to get good bargains. Graham Bros. are closing out their Spring stock at greatly reduced prices to make room for summer goods. We advise all to go and buy, as such a chance to get good clothing cheap may never be offered to the public again.

We called on Thursday to examine the mill of Messrs. Holloway & Meziel now engaged in cutting up the timber of A. C. Smith & Co. on the lands of Col. P. Toadvin. This is a complete mill, cutting 7,000 feet of lumber per day, besides running several small saws for the manufacture of laths, box stuff, &c. This part of the machinery is owned and run by A. C. Smith & Co. to cut up the waste timber. Everything about the mill works elegant. It was put up and arranged by our townsman and machinist, J. H. Bedell, who knows what to do with machinery.

Signs at lowest prices at Munson's Studio.

INQUIRY.—The reason why the tops of cherry trees always lean to the northeast is because they grow mostly on a southwest wind.

TESTIMONY.—There are a great many ways to be temperate besides an inordinate use of spirituous liquors, but that class of intemperance only destroys the person indulging without injuring others. Not so with the habitual drunkard—he often destroys the peace of a whole neighborhood. While it is said that a dozen healthy hornets will break up a camp-meeting, as many healthy drunkards will keep a whole town in a buzz.

EVER since Eve's incautious experience in the Garden of Eden, Babies have been the institution. Petted by men and loved by women their baby life would be an absolutely happy existence but for those evidences of mortality exhibited in Colic, Flatulency, &c., all happily relieved at once, however by the prompt use of Dr. Bull's Baby Syrup. Sold everywhere. 25 cents.

Rev. Mr. Smyth commenced his course of lectures on the "Literary History of the Bible" last Sunday night, which will be followed up each Sunday evening until he concludes the course. The lectures, judging from the initial one, will be full of interest both to the Bible reader and the inquirer after historic knowledge, sacred or profane. It is a fact that few of the many readers of the sacred scriptures have any definite idea of the history of the sacred canons, how and by whom written, at what period of the world's history they were commenced, or when they were concluded. All of these facts will be clearly elucidated by the reverend gentleman before he shall have finished his course. We hope that many of our friends who are not frequenters at church may avail themselves of this very favorable opportunity to hear such an interesting subject discussed. Mr. Smyth is a clear reasoner and a forcible speaker, and no one will tire of a thirty minutes lecture from such an one.

MURDER WILL OUT.

A few years ago "August Flower" was discovered to be a certain cure for Dyspepsia and Liver complaint, a few thin Dyspepsia made known to their friends low easily and quickly they had been cured by its use. The great merits of GREEN'S AUGUST FLOWER became heralded through the country by one suffering to another, until, without advertising, its sale has become immense. Druggists in EVERY TOWN in the United States are selling it. No person suffering with Sour Stomach, Sick Headache, Costiveness, palpitation of the Heart, indigestion, low spirits, &c., can take three doses without relief. Go to your Druggist, L. D. Collier or R. K. Truitt & Sons, also L. M. Dashiell & Co., Tony Nark, and get a bottle for 75 cents and try it. Sample bottles 10 cents.

"DRY AS A DICTIONARY."—That phrase must pass away. Look into the elegant quarto edition of Webster's Unabridged; see the three thousand illustrations, handsomely engraved, interesting and instructive pictures. They are interspersed through the work in just the order in which you can most readily find them with definition and description. Then again, they are classified, convenient of comparison. But this is only one of a hundred or more improvements made in the recent edition, worth mentioning to our readers. No student reader can afford to be without it, or will hesitate to buy it upon examination.—*Mining Press.*

ERRORS OF YOUTH.

A GENTLEMAN who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, for the sake of suffering humanity, send free to all who need it, the recipe and direction for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience can do so by addressing in perfect confidence, JOHN B. OGDEN, 42 Cedar st., N. Y.

THE AMERICAN PEOPLE.

No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in the treatment of this disease, and the use of the "August Flower" have failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heart-burn, Water-brash, Sick Headache, Costiveness, palpitation of the Heart, Liver Complaint, coming up of the food, low spirits, general debility, &c., yet since the introduction of GREEN'S AUGUST FLOWER we believe there is no case of Dyspepsia that cannot be immediately relieved. 30,000 dozen sold last year without one case of failure reported. Go to your Druggist, L. D. Collier or R. K. Truitt & Sons, and get a Sample Bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.

THE FARMER'S COLUMN.

Live Stock and Population.

Professor Thorold Rogers, of Oxford University, England, has made out an interesting return of the proportion of domesticated live stock to the population in the most prominent countries in the world. It shows the following results:

Great Britain has one cow to every twelve persons, a sheep for everybody and one pig for every six.

France has a like proportion of sheep, a double share comparatively of cows, but only one pig to six persons.

The Swedes have a cow between three and one-half of them, a sheep between two and three quarters, and a pig to a baker's dozen.

There are as many sheep as there are Norwegians in Norway, when they are all at home, and two and one-half of them—the Norwegians—are entitled to a cow. They can have one and one-eighth of a pig each.

Denmark has a cow for three persons, as many sheep as persons, and a pig for four and three quarter persons.

Prussia, with her usual uniformity, has an equal number of cows and pigs—one to every five inhabitants, besides a sheep apiece all round.

Württemberg has a quarter as many cows as people, a sheep to two and three-quarters and a pig to seven.

Bavaria rates the same as Württemberg, as to cows and sheep, and is as much better off for pigs, as one-fifth is better than one-seventh.

Saxony has a sheep and a pig for every eight persons, and a cow for every six.

Holland has a cow to four, a sheep to four and a pig to twelve persons.

Belgium, a cow to six, a sheep to nine, and a pig to eight (which is an Hibernicism).

Austria has a cow to six persons, and a sheep and a pig to every five.

Switzerland runs up to the Swedish standard on cows, one to three and one-half persons, and has a sheep for five, and a pig for seven and one-half persons.

We Americans close the list with a cow for every four of us, a sheep apiece, one pig to every one and one-half—*Balto. Sun.*

Fighting the Carcullio.

As most people know, the chief reason why the plum is not raised is from the attacks of carcullio. It punctures the fruit to deposit an egg, and just before the time of ripening the plum rots. Where plums can be raised they are very profitable, just because so many cannot have them.

Last year the writer of this enclosed about the sixth of an acre of his orchard in which were his plum trees by a fence, and kept the chickens enclosed therein; and this season there was a good quantity of plums. Still there was enough damaged to cut down the profits very materially. If only the birds could be kept closer at work under the tree, no doubt there would be greater success.

A correspondent of the Ohio Farmer states that he kept a plum tree free from carcullio by sprinkling the ground under the tree with corn meal. This induced the chickens to scratch and search. The meal was strewn every morning from the time the trees blossomed until the fruit was large enough to be put out of danger. The consequence was that the fowls picked up the carcullio with the meal, and the tree, being saved from the presence of the insects was wonderfully fruitful.

There seems to be a grain of good sense in this little item, and for this reason, we have placed it in the great sea of exchanges where it has been floating about and would have soon been lost.

The above is an important matter to be observed the coming spring and summer; and an additional item may be observed and practiced with advantage; this is, a lot of small pigs run in the plum and other orchards; they eat the fallen fruit and thus destroy insects which escape the chickens.

POTASH IN WHEAT.—Why is it, when growing wheat or rye is being struck with rust, that a little spot here and there where stumps, logs or brush have been burned to ashes, will be bright and free from rust? Because the growing plants employed potash and silica not only to give stiffness and rigidity to the straw, but to form, as it were, a glassy coat of mail over the surface of every leaf, plume and straw, to fortify the delicate parts against the attacks of spores that are floating in the atmosphere, and are turned away when they come in contact with a glassy substance. Potash and silica are the essential elements of glass. The roots of growing plants have the power to employ the sharpest sand and potash to form a thin elastic, glassy covering, which is spread over the surface to exclude moisture and to repel any attacks of fungus—*Practical Farmer.*

CHAMP FUEL.

One bushel of small coal or sawdust, or both mixed together, two bushels of sand, one bushel and a half of clay. Let them be mixed together with common water. The ordinary mortar; the more they are stirred and mixed together the better; then make them into balls, or with a small mould make them in the shape of brick, pile them in a dry place, and when they are hard and sufficiently dry they may be used. A fire cannot be lighted with them, but when the fire is quite lighted, put them on behind, with coal or two on in front, and they will be found to keep up a stronger fire than any fuel of the common kind.

WICOMICO LAND AGENCY!!

For the
VIRGINIA,
But more strictly confined to
the Counties of
WICOMICO, WORCESTER & SOMERSET.
Located at
SALISBURY, MD.
"ADVERTISER OFFICE" Headquarters.
L. MALONE & CO.,
Agents.

Wicomico County is bounded on the North
by the State of Delaware, South and East
by Somerset and Worcester Counties, and
the Potomac River, West by the Nantuxet
River, which divides it from Dorchester
County. The Wicomico River has its source
entirely in this County at Salisbury, which
is the head of Navigation, while its lower
waters divide this from Somerset County.

Wicomico County was created by the
Constitution of 1867, out of parts of Worcester
and Somerset Counties. It contains
about 400 square miles, and is watered by
the Nantuxet, Wicomico and Potomac
Rivers, and the Wicomico Creek which is
navigable for large schooners.

The soil in the Western part is a stiff,
clay subsoil, with a dark loam, the center
is high and sandy, while the Eastern part is
a black loam or sweet gum soil, well adapted
to the growth of Corn, Oats and Small
Fruits. The Western part is well adapted
to the growth of Wheat, Corn, Hay, &c.

There are several villages in the County,
Powersville, Pittsville and Parsonsburg in
the East, Delmar and Sherpoint in the
North, Barren Creek Springs, Quantico,
Riverston, White Haven and Valtersville in
the West, Fruitland and Upper Trappe in
the South, and Salisbury in the center.

Salisbury, the County seat, is the largest
and most important town on the Eastern
Shore. Its commerce is extensive, and its
mechanical and mercantile pursuits are car-
ried on with great activity. It has nine
Churches, eight Schools, about Fifty Stores
and twenty manufacturing institutions of
various kinds. It is on the line of the Eastern
Shore Railroad, an extension of the
Delaware and Philadelphia, Wilmington &
Baltimore Railroads, and the Wicomico &
Potomac Railroad connects this place with
Ocean City, Berlin and the intermediate
towns.

Trains leave Philadelphia at 8 o'clock, A.
M., arriving at Salisbury at 11 P. M. Dur-
ing the fruit season extra trains are run,
which greatly facilitates travel and trans-
portation. Freight rates are low, and Railroad
Officials are obliging, attentive and agreeable.
Farm lands can be bought at prices rang-
ing from \$10 to \$25 per acre, with some im-
provements.

All letters addressed to this Agency
should be addressed to

Poetry.

"The Face of My Angel Mother."
My childhood's home reared its grand old
walls
Near a woodland's peaceful shade,
Where birds and brooks and whispering
winds
Thro' the trees made
And my rapturous heart thrilled day by day
To the blissful joy around me;
For the love was tender and pure and sweet,
That guided my darling, jubilant feet,
And close to that homestead round me,
And though to-day I am standing alone
With no hand waiting to clasp my own,
I still seem to list the familiar tone
Of the voice of my Angel Mother.

I see her toiling that I may reap.
The fruit of her busy days,
And the precious seed she has sown will
bloom
Adown all my pilgrim ways.
The golden stairs by which she climbed
To heights sublime, are still shining—
One stair upon earth, and one on the sky;
And though hard and bare at the base, on
Victor-wreaths are around them twining.
Though all must strive, while but few can
task
In fortune's sun, yet I bend to my task,
For the gain reward I seek,
Is the smile of my Angel Mother.

I think of her just as she used to stand
Beside the breakfast table,
To be the first to welcome the child,
For whom she loved to wait.
She was waiting now by the Jasper door
For an unending meeting,
And though, youth's freshness and vigor
I reach her, travel-stained at last,
She will give me a kindly greeting—
Death came for her; he will come for me,
And the joy of my going home will be,
That I encounter more, once more to see
The face of my Angel Mother.

LIZZIE'S LOVE.
"I won't!" said Lizzie Garland, "I
won't!" "I'll drown myself first."
"Elizabeth," said Mr. Pendasset,
solemnly, "don't you know you are a
wicked, sinful girl!"
"For all that," retorted Lizzie, "I
shan't go to the poorhouse. My
papa was a gentleman and my mother
was a lady."

Lizzie Garland was tall and slim,
with large, violet blue eyes and shining
brown hair, coiled like a chestnut
rope about her head, while even the
outgrown and ill fitting calico dress
that she wore could not altogether
conceal the exquisite curves of her
beauteous figure. Mr. Pendasset was
small and weazen, and wore a wig
and chocolate-colored suit.

"It's all very well to talk," said Mr.
Pendasset. "You are my wife's
sister's child, and I've kept you till
now in spite of my own large family.
But I can't do it any longer. You
don't suit the present Mrs. Pendasset.
She says you are a nuisance. She says
you make eyes at the boarders. She
says you don't earn your salt."

"It's false!" indignantly retorted
Lizzie, the deep red spots glowing
on her cheeks.
"Mrs. Pendasset is peculiar, and it
don't answer to offend her," went on
Mr. Pendasset. "And you know you
are rather abrupt in your ways.
Elizabeth. You can't help it, per-
haps, but that's your misfortune, and
it aggravates Mrs. Pendasset. And
they want a girl-of-all-work at the
poorhouse, and they'll give very fair
wages and a good home. Many a girl
would be glad of the chance. Peter
Pepper will come for you to-morrow,
and I dare say you'll get along nicely
there when you are once used to the
poorhouse ways. New go and help
about the dinner-table, and see that
the northeast bedroom is got ready
for Miss Lawrence—she's expected
in the evening stage."

And Lizzie Garland went about her
household duties with a concealed
volcano raging in her breast.
Was this to be an end of it? Was
this to be the termination of all her
hopes and dreams? A situation as
maid of all work in the poorhouse,
whose gray stone walls had always
seemed to her the embodiment of
desolation itself! It had been hard
enough to play drudge in her un-
cle's summer boarding house, and
be at the beck and call of every one
from dawn until dark. But there was
now and then a redeeming gleam
of sunshine in this fate. There was
pretty Mrs. Summerfield who lent
her books and volumes of poems;
there was young Dr. Gregory who
had spoken so kindly to her when
she had that bad sore throat, and had
treated her so deferentially since. It
was true they had both gone back to
the city, but would they not return
when another summer should hang
the woods and lanes with festoons of
wild roses and azaleas?

"No," said Lizzie to herself. "I
will not go to the poor-house. I'll
run away. I'll go to Kathleen Owen
in New York."

Kathleen Owen was a genial hearted
Irish woman, who had once of-
fended as cook at the Pendasset
household, but who had quarreled
with Mrs. Pendasset and gone away
at her month's end.

"Sure," said Kathleen, "one might
as well live with the old Evil One
himself as with that crabbit widge
tongue a yard long, and a timper like
red hot iron! I'm a poor widdy woman,
wid three children to support,

but I'd sooner go back to New York
and take in washing than live here at
twelve dollars a month, so I would!"
So that when Peter Pepper's one-
horse wagon called at the back door
of the Pendasset mansion at six
o'clock the next morning the pros-
pective maiden of all work was gone.
"She's run away, the ungrateful
hussy!" said Mrs. Pendasset. "I al-
ways knew she'd come to no good
end."

"It's the will of Providence," said
Mr. Pendasset, piously. "I did my
best to provide for her."

And Peter Pepper, who was of a
ruminative and taciturn disposition,
made no remark whatever, but simply
turned the head of his old gray
horse in an opposite direction, and
the jugged old home again, diligently
chewing a straw.

Meanwhile Lizzie Garland, in the
express train that left the nearest
station at five o'clock in the morning,
was covering down in the corner
seat, half exultant, half terrified at
her own temerity.

"But Kathleen will help me to a
livelihood," she told herself, reassur-
ingly; "and anything is better than
going to the poorhouse."

For Lizzie Garland felt within her
aspiring young soul all the hopes and
fears that might beset hero of ro-
mance going out into the world to
conquer destiny.

It was no easy task for a country
girl like Lizzie to find the where-
abouts of her humble friend, but by
 dint of many inquiries and much
walking she at length discovered No. 19
Rose lane, where at the top of a
dingy brick house, dwelt "Mrs. Owen
Landress, Fluter and Clear Starcher"
as her tin sign announced to an in-
quiring public.

"Miss Lizzie! sure its never you!"
cried Kathleen, looking dimly out
from the steam and mist of the wash
tub. And she wrung the hot soap
suds from her hands, and ran for-
ward to welcome the pale, tired-looking
stranger with a true Irish
warmth of heart.

"Yes, Kathleen," said Lizzie, "it
is I. I've run away, Kathleen, and I
want you to tell me how to earn
my living here in New York."

And she told Kathleen all
the details of her life, and how she
had come to the poorhouse, and how
she had been rescued by Mr. Pendasset,
and how she had come to the poorhouse
again, and how she had been rescued

Bell Brothers, proprietors of the Wicomico Poultry Yards, have the largest stock of Pure Bred Fancy Poultry south of Pennsylvania, and are selling eggs for hatching at reasonable prices, from all the leading strains. A package of Chicken Cholera Curo given with each order for eggs.

We expect that the next gale which sweeps from the east will bring to our ears the clash of resounding arms. But whether Turkey will have gobbled up the Moscovics or the Moscovics swam across the Black Sea and the Danube unscathed, we believe is a matter of indifference to our people, who do not seem to care which side whips.

If you want a first class shoe—Ladies' or gentlemen's, Boys' or Misses' give S. Frank Toadwine a call.

The County Commissioners met on Tuesday 22nd inst., and struck the levy for 1877. State Tax 17c, County 87c, total \$1.05 in the \$100.00. Eighteen cents of this amount is for the Court House fund, which completes the amount of Court House fund as limited by law. The Levy List will appear in full next week.

No one should fail to see the summer stock of Jewelry just received, at greatly reduced prices to suit all pocket books. New patterns and designs too numerous to mention. It will pay you to call and see them at A. W. Woodcock's Jewelry store, 36 Main street.

The "Baby's Best Friend" is Dr. Bull's Baby Syrup, since it maintains the Baby's health by keeping it free from Colic, Diarrhea, etc. Price 25 cents per bottle.

DRUNKEN MEN.—At Parkersburg, in the N. E. part of this county on the 12th inst., two men named respectively Jacob Lewis and Jonathan Baker engaged in a row, both being under the influence of liquor. The former stabbed the latter several times in various places about his body, inflicting dangerous wounds.

MILL BURNED.—The saw mill belonging to John S. Hamblin, at New Hope, in this county, was burned on the night of the 23rd of April, supposed to be the work of an incendiary, but by some it is conjectured that a man named Hamblin made up a fire to sleep by, and before he awoke the fire had communicated with the mill, hence the accident.

James Cannon has a larger and cheaper stock of Ladies' Kid Foxed Gaiters than any house on the Peninsula. He surpasses any retail store outside of the cities in the variety of styles he keeps to suit his customers.

Our people living on the Nanticoke river have daily communication by steamboat with Seaford, Del. The steamer W. D. Morton makes daily trips from Seaford to Vienna and return, touching at Sharptown and Riverton in Wicomico County going and returning, giving our people in that part of the county increased facilities.

FATAL ACCIDENT.—William, son of A. J. Lowe of this place, aged about twenty years, met with a terrible accident on Tuesday last while engaged in his work at the kindling wood factory of W. D. Miller & Co., near the depot. He was gunning a saw with an enemy wheel when the wheel bursted, a fragment of which striking Mr. Lowe on the forehead fractured his skull. He was taken to his home near by, where he received the medical attention of Drs. Slemmons and Dennis, until Thursday night, when death relieved him of his sufferings.

The commission card of H. S. Van Winkle, which was published last week, was sent us by mistake so we understand, and was not intended to be inserted in the paper. It will disappear next week—would this did it not appear on the outside of the paper, where it has already been pointed out. He is in the house of J. R. Helfrich, 31 Vesey Pier. Mr. Helfrich has no agent, but gives the shipper the advantages which the agent would have to receive. He can be found at 31 Vesey Pier, and there is no mis take about this.

Those wishing pictures made in city style now have an opportunity of being gratified. Mr. P. C. Hunter, Photographer, late of 38 N. Charles Street, Baltimore has located in our town and is now fully prepared to execute in an artistic manner all orders given him. He wishes you to try his patience with the babies. Bring your old pictures, and he will copy them to any size and in any style, in oil, pastel, crayon, India ink, water colors or plain. He keeps a fine selection of Picture Frames, such as Gilt, Walnut, Rosewood and Rustic. Remember the place, 14 1/2 Main Street, Salisbury, Md.

The various railroads interested in the travel to Ocean City, have united in building a hotel or excursion house. The main building is to be 25x70 feet, two stories high, with ball room below, with ten commodious rooms above, bar room in S. W. corner, rear building to be 30x60 feet for dining room, with kitchen attached, with porch all the way from kitchen to main building, the whole to cover 4,550 square feet of ground. This will be a great convenience to excursionists, and greatly relieve the hotels from the crowds incident to excursion occasions. This building will be another great improvement to the little city by the sea in more ways than one. We are glad to see the railroad companies interested in the building up of this favorite place.

J. H. Trader, at No. 20 Main St., has just replenished his stock of domestic Muslins, and cottonades, together with Cassimeres, also Parasols, Sun umbrellas, Fans, and a general line of notions. Go and examine his stock. Prices will suit purchasers and are particularly consistent with the times.

FRANK LESLIE'S POPULAR MONTHLY.—The June number of this favorite magazine contains a number of highly interesting and well illustrated articles. Among the many are the following: "African Explorers and Discoveries," by Alfred H. Gurney; "A Journey from Novaevia to Havana," by Piron; "Forest Industries," by Prof. Joy, in which we see and learn all about the production of Maple Sugar; "How to keep a Hotel," by which we are initiated into the workings of the inner mysteries of the hotel world. Among the many beautiful stories found at intervals throughout the 128 pages, we

find "Bond and Free," by Eli Perkins; "Markson's House," by the author of "Helen's Babies." We count nearly 160 illustrations, and numerous anecdotes, notes of travel, scientific paragraphs, short poems, etc., which complete the number. On the cover facts and figures are given which certainly prove that Frank Leslie's Popular Monthly and Sunday Magazine are the cheapest monthlies published in the world. The former may be had free, by mail, for \$2.50, and the Sunday Magazine for \$3 per annum, by addressing Frank Leslie's Publishing House, 537 Pearl Street, New York.

THE AGRICULTURAL AND MECHANICAL ASSOCIATION'S ANNUAL WHIT MONDAY RACES.—On Monday last according to the usual custom, the Summer Fair races came off. About five hundred persons were present, and the credit side of the Association's Ledger will show a healthy excess of receipts over expenditures. So long as the management can accomplish this, so long will the organization do good and prosper. The programme for the day was a varied one in the race line, and included trotting and running races for horses, and a foot race and bag race for the bipeds.

The first race on the docket was the Wicomico Trotting Race for horses owned in the county with no better record than 3:30. 3 in 5 mile heats in harness—Purse \$500.00. 1st, \$25.00; 2d, \$15.00; 3d, \$10.00. Five entries for this race. The following were the entries:

1. Edward Simman, Salisbury, s. g. Red Cloud; 2. H. W. Anderson, Salisbury, s. g. Captain Jinks; 3. Ashbury II. Perdue, Salisbury, d. g. Sam Bell; 4. Clayton Phippin, Salisbury, b. g. Honest John.

All the horses came to the scratch, and after a well contested race, Sam Bell won the first heat in 3:10. The conduct of a fellow called Eben Clark, the jockey who drove Honest John was simply disgusting. His efforts at bulldozing reminded one more of the rain at attempts of a pet poodle to worry his superiors. Had the Association been a member of the National Trotting Association his case would have been attended to so that he could have felt it, but the expulsion of a man from an independent course does not materially injure him. Under no circumstances or conditions would we advise our Association to join the "National," unless all the other Eastern Shore and Delaware organizations did the same, but we do think that the interests of the Association would be best subserved by such action. Let the rules of the National Association govern, carry them out strictly to the letter, and a recitation of Monday's scenes would be prevented. Lack of space will prevent our giving a detailed account of the race. Honest John won first, Sam Bell second, and Red Cloud third money.

The Running Race was called at the conclusion of the trotting race, with the following entries:

1. Clayton Phippin, Salisbury, b. m. Quebec; 2. Sam A. Williams, Salisbury, b. m. Nellie; 3. Rinaldo S. Mills, Salisbury, g. g. Wild Cat; 4. Watson Leates, Salisbury, b. g. Lazy Ned.

Quebec won the first two heats, Wild Cat second, Lazy Ned third, and Nellie did not run second heat.

In No. 2, Trotting Race, 3 in 5 mile heats in harness—Purse \$100.00—5 entries—1st, \$50.00; 2nd, \$25.00; 3rd, \$15.00; 4th, \$10.00—free for all horses record not better than 2:50—the following entries were made:

1. W. A. Twilley, Cambridge, Md., b. g. Zephyr; 2. W. J. Handley, Cambridge, Md., b. g. Sealin; 3. A. Lasher, Syracuse, N. Y., e. m. Ida Jane; 4. John D. Perdue, Salisbury, Md., b. g. Tom Collins; 5. J. Henry Hooper, Bridgeville, Del., b. m. Nellie Rawleigh.

This was the most lengthy race ever contested for on the track, it taking no less than nine heats to decide it. Five heats were trotted on Monday when darkness put a stop to further proceedings, and the race was adjourned until 9 o'clock on Tuesday morning. At that hour the judges were on hand, but the rain on Monday night had made the track so slippery, that it was not safe to put the horses on it, and a further postponement until 2 o'clock was necessary. At this hour the race was continued, but just as the sixth heat was finished, the rain came down in torrents, and the track was flooded with water. Another delay was inevitable, and 2 o'clock p. m. of the next day was selected. Three more heats had to be trotted to decide the contest. Zephyr did not win a heat. Ida Jane won three heats and first money. Sealin, Tom Collins and Nellie Rawleigh took each Sealin taking second, Nellie Rawleigh third and Tom Collins fourth money.

ERRORS OF YOUTH. A GENTLEMAN who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, and the effect of suffering humanity, and free to all who need it, the recipe and direction for making it, is the remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience can do so by addressing in perfect confidence.

JOHN B. GUDEN, 42 Cedar St., N. Y.

THE AMERICAN PEOPLE.

No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heartburn, Water-brash, Sick Headache, Costiveness, palpitation of the Heart, Liver Complaint, coming up of the food, low spirits, general debility, etc., yet since the introduction of GREEN'S AUGUST FLOWER we believe there is no case of Dyspepsia that cannot be immediately relieved. 30,000 dozen sold and yet without one case of failure reported. Go to your Druggist, L. D. Collier or R. K. Truitt & Sons and get a Sloop or Bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.

"DRY AS A DICTIONARY."—That phrase must pass away. Look into the elegant quarto edition of Webster's Unabridged; see the three thousand illustrations, handsomely engraved, interesting and instructive pictures. They are interspersed through the work in just the order in which you can most readily find them with definition and description. Then again, they are classified, convenient of comparison. But this is only one of a hundred or more improvements made in the recent edition, worth mentioning to our readers. No studious reader can afford to be without it, or will hesitate to buy it upon examination.—Mining Press.

MURDER WILL OUT.

A few years ago "August Flower" was discovered to be a certain cure for Dyspepsia and Liver complaint, a few thin Dyspeptics made known to their friends how easily and quickly they had been cured by its use. The great merits of GREEN'S AUGUST FLOWER became heralded through the country by one sufferer to another, until, without advertising, its sale has become immense. Druggists in EVERY TOWN in the United States are selling it. No person suffering with Sour Stomach, Sick Headache, Costiveness, palpitation of the Heart, indigestion, low spirits, etc., can take three doses without relief. Go to your Druggist, L. D. Collier or R. K. Truitt & Sons, also L. M. Dashiell & Co., Tony Tons, and get a bottle for 75 cents and try it. Sample bottles 10 cents.
