Subject: RE: Grading System Issue
Attachments: Appeal to table grade motion.pdf

My Esteemed Predecessors:

I hereby forward your appeal to the Faculty Senate for its consideration (see attached). As I told David earlier, this motion was brought forward by a senator—interestingly, also a past President of the Faculty Senate—and since it is not dilatory, it is not the President's role to block it. The Senate may deal with it as it sees fit.

If you feel events such as these seriously damage the Senate's credibility, I invite you—individually or collectively—to propose a bylaws amendment that would set a minimum length of time required before the Senate can reconsider a defeated motion. If you get it to me by April 16th, it will go on the agenda for the last working meeting of the year.

Regards—
Beth
