

ODDS AND ENDS.

No man should be a judge in his own case.

A difficult look to pick—one from a bald head.

A motto for young lovers—no-fa and no-father.

When does a man sneeze three times? When he can't help it.

Maryland sent to Philadelphia this season 4,100,000 quarts of strawberries.

A North Carolina black spider paralyzed a man's leg for half a day by biting it.

Feels and their money soon part. It's worth while being a fool to have the money to part with.

Fifty-five churches have been mortgaged to the amount of \$1,367,866 in New York since 1869.

A parrot is said to live to be two hundred years old. A barber does not live so long, but talks more.

That lad again—"Ma, pa has got the best of you; you can't strike matches on your trousers like he can."

Philadelphia established the first American brewery, yet wants to be called the cradle of temperance.

Adam and Eve, we suppose, were the first to start "turning over new leaves." They did it to keep up the fashion.

A small dish of charcoal placed in the most larval will keep the articles sweet and wholesome, almost as well as ice.

A New York Spiritist Medium gave information to a broker by which a client lost \$40,000 in a speculation in stocks.

The proprietors of the Grand Union Hotel at Saratoga, have refused to accommodate Jews at that house this season.

The American Popular Life Insurance Company of New York was placed in the hands of a receiver on Saturday, June 16th.

The Lindell House of St. Louis sent to New York and brought a famous rat catcher of that city to the hotel to clear it of rats.

Dobbs says he has one of the most obedient boys in the world. He tells him to do as he pleases, and he does it without murmuring.

Widow Windlow of Roanoke, Ind., has two broken ribs and many bruises—the result of flitting with an energetic woman's husband.

Lady—"Don't put that ice into the goblet with your fingers."

Waiter—"Lor, ma'am, I don't mind; my hands are very warm."

Sergeant Mulhal, of the Washington police, in attempting to arrest a negro named Compton, had one of his ears chawed off in the scrimmage.

Private Dalsell, of Ohio, refuses a third-class clerkship. He wants one of the first class. The third-class is the highest grade, but he doesn't know it.

A down town man who went to church last Sunday remarked afterward that he preferred the organ to the preacher. He said there seemed to be a stop to the organ.

How a woman orders a chef—During our married life my wife has insisted that we couldn't keep house properly without a chef, because for bodolobes and old traps. Last week I took the dimensions from her, the questions and answers being as follows:

"How long?"

"Well, say ten feet, and she held her hands about a yard apart."

"How wide?"

"Well, pretty wide, say six feet, measuring it upon her apron."

"How deep?"

"Oh, have it deep, I guess eight feet will be about right."

Bridge arrived while we were at tea. "Sure, sir," said she, "that Ryan, the stockbroker, is here with a small barn on a stone boat. He's torn down both gate posts driv'n in. I think it's a chit he calls it, and says where will you have it?"

I've succeeded in proving by original men of measurement somewhere. The 'chist' has a window in it, and contains the cow, calf and one bale of hay. Wife says she is going to Entertain this Fall to find a man that knows how to build a chist, and not make it large enough for a cattle barn.

AFTER.

After the showers the tranquil sun;

After the snow, when the wind goes by;

After the harvest, golden sheaves;

After the battle, peaceful graves.

After the clouds, the violet sky;

After the storm, when the wind goes by;

After the bud, the radiant rose;

After the battle, peaceful graves.

After the burden, the blissful mead;

After the furrow, the waking seed;

A MYSTERY SOLVED.—On one cloudy day this week there might have been seen a pair of gay and festive youths passing up Main street. From the appearance of the basket they had with them, one would have supposed they were soliciting alms for the poor. They were seen to enter the Photograph Gallery of P. C. Hunter, and after a short stay they made their appearance again on the street, the same basket accompanied them, and in their pockets could have been found pictures, that would have done credit to any artist. But what did they carry in that basket? Is it the natural query. Examine the pic- tures and you have the answer before you. One of the gentlemen played the part of a devoted lover, the other the fair damsel's father, who came in time to interrupt the proposal which was being made, and to give the love-sick gentleman particular rats. Now you may all know where to get your fine pictures. To those who do not we will just state that at Hunter's Photograph Gallery, 141 Main street you will find them.

A fine lot of Suspender at Graham Bros' Clothing Store.

The hotels at Ocean City have been crowded to their utmost capacity this week. Two or three more hotels ought to be built there at once.

Mr. Ezekiel Hitch of this county raised 21 bushels of wheat to the bushel sowing, without the aid of any kind of fertilizer, this year, and the wheat is of excellent quality. Good for Spring Hill! Can any of our farmers beat it?

We call attention to the advertisement of the Virginia Female Institute of Staunton, Va. The thirty-third annual session will commence September 1st. Catalogues furnished on application to the Rector, Rev. R. H. Phillips.

A NEAT PLACE OF MECHANISM.—Mr. George C. Hill is about completing the boxes for our new Post Office. The boxes form a cabinet which will reach nearly across the room, and presents a style of workmanship creditable to the best mechanical skill in the land. Mr. Hill is a number one mechanic. His work can be seen at the Wisconsin House.

Persons in want of good Wall Brick can be supplied on application to GEO. W. HEARN, Salisbury, Md.

AN ANCHOR WANTED.—A young gentleman recently wounded a bird at Ocean City, and taking out his hankerchief tied it to its leg, and pinned it to the ground with his pen-knife for a decoy. But the bird refused to serve and flew away with the cable. Another hankerchief gone, and we understand our young friend is not going to get this form of decoy patented.

The Maryland Agricultural College

The last number of the American Farmer contains a long letter from Mr. Wm. C. Sande, the editor of that journal, criticizing the management of the Maryland Agricultural College. Mr. Sande is himself a member of the college, and his criticism is based on a personal knowledge of the college. He holds that the college was established by the state, and that it should be managed in the interests of the state. He criticizes the management of the college, and says that it is not doing its duty. He says that the college is not doing its duty in the following respects: 1. It is not doing its duty in the management of the college. 2. It is not doing its duty in the education of the students. 3. It is not doing its duty in the research work of the college. 4. It is not doing its duty in the extension work of the college. 5. It is not doing its duty in the service of the state. Mr. Sande's letter is a serious criticism of the management of the college, and it is one that should be taken seriously. The college is a public institution, and it should be managed in the interests of the public. It should be managed in a way that will give it the best possible chance of doing its duty. The college is a young institution, and it has many years before it. It has a great future ahead of it, and it should be managed in a way that will give it the best possible chance of realizing that future. OPDS AND ENDS.

Education is the chief defense of nations. We should be honorable, even to our enemies. No mortal can be esteemed happy till the end of life. Bacon is largely engaged in shipping butter to Europe. Summer travellers cannot "air" their lungs in the mountains. Moody and Sankey are to labor in Baltimore during September. Chappaqua, Horace Greeley's old home, is again offered for sale. About 550 workmen are now employed on the new capital at Albany. A farmer, near Reinholdsville, Pa., has set over a million of tobacco plants. He that does good for God's sake seeks neither praise nor reward, though sure of both. With a clear eye and an upright heart, resist every temptation and every wrong. Whosoever beauty may be, it has for its basis order, and for its essence, unity. Japan is making rapid strides. The streets of Tokio and Osaka are now lighted with gas. If the world did but know the worth of good men, they would hedge them about with pearls. To tell is not sufficient; to show is of great advantage; but to train is the grand secret of success. A proper secrecy is the only mystery of able men; mystery is the only security of weak and cunning ones. Our thoughts are epochs in our lives; all else is but a journal of the winds that blow while we are here. There are few wild beasts more to be dreaded than a communicative man with nothing to communicate. Worcester, Mass., is about starting its first co-operative building and loan association. The keeping or raising of pigeons within the city limits is prohibited in Galveston, Texas. Proposals were opened in Baltimore on Friday week for the construction of a new \$140,000 ice boat. A New York paper announces that there are 1300 persons doing business in that city without a license. The St. John's press is rising Phoenix-like—Boston type foundry have already forwarded the material. Mayor Schroeder proposes to buy up all the fireworks in Brooklyn and have them exploded on waste land. Thousands of men are at work on the Paris Exposition buildings, which now begin to assume form and shape. A German club, "The Central," has been formed in Cincinnati, and a magnificent new club house is talked of. Men are guided less by conscience than by glory, and yet the shortest way to glory is to be guided by conscience. That only can with propriety be styled refinement which, by strengthening the intellect, purifies the manners. The wise men of old have sent most of their morality down the stream of time in the light skiff of apothegm or epigram. What is that which we wish for, and often obtain, yet never know when we have got it? Sleep. Why is a newly-born baby like a heavy cloud of wine? Because it begins with a squall. Some goodness is like the glow worm in this, that it shines most when no eyes, except those of heaven, are upon it. Human life is a gloomy chamber, in which the images of the other world shine the brighter, the deeper it is darkened. If the eagle's head on one of those confusing coins points to the left it's a quarter; if to the right, a twenty cent piece. The Pennsylvania Teacher's Association meets at Erie on the 17th of August. The session will last three days. James Williams, a day laborer in Shrewsbury, Vt., is said to have received a bequest of \$1,000,000 from a relative in England. A set of thieves in Mexico had dogs trained to steal handkerchiefs in the Cathedral and other churches, from the kneeling worshippers. All of the original New York Bohemian Club are dead except two, and the survivors are not much over forty. Bohemianism is not healthy. Atlanta, Ga., is improving her water works, and will thus add two million of gallons of additional water per day to her present supply. One of the attendants in the British Museum was recently frightened into convulsions because he thought an Egyptian mummy, four thousand years old, spoke to him. The Lancaster City School Board would not elect a Superintendent of Public Schools, but resolved that the office of City Superintendent is incompetent and unnecessary. The celebrated trotting mare Lady Thorne died at the Fashion stable farm, New Jersey, Sunday. She will be buried by the Judges stand and a monument erected to her memory.

WICOMICO LAND AGENCY !!

For the

Eastern Shore of Maryland

And

VIRGINIA.

But more strictly confined to

the Counties of

WICOMICO, WORCESTER & SOMERSET.

Located at

SALISBURY, MD.**"ADVERTISER OFFICE" Headquarters.****L. MALONE & CO.,**

Agents.

Wicomico County is bounded on the North

by the State of Delaware, South and East

by Somerset and Worcester Counties, and

the Pocomoke River, West by the Nanticoke

River, which divides it from Dorchester

County. The Wicomico River has its source

entirely in this County at Salisbury, which

is the head of navigation, while the lower

waters divide this from Somerset County.

Wicomico County was created by the

Constitution of 1867, out of parts of Worces-

ter and Somerset Counties. It contains

about 400 square miles, and is watered by

the Nanticoke, Wicomico and Pocomoke

Rivers, and the Wicomico Creek which is

navigable for large schooners.

The soil in the Western part is a stiff,

clay subsoil, with a dark loam, the centre

is high and sandy, while the Eastern part is

a black loam or sweet gum soil, well adapt-

ed to the growth of Corn, Oats and Small

Fruits. The Western part is well adapted

to the growth of Wheat, Corn, Hay, &c.

There are several villages in the County,

Pocomoke, Pittsville and Parsonsburg in the

East, Delmar and Sharptown in the North,

Barren Creek Springs, Quantico, River-

ton, White Haven and Watertrap in the West,

Freeland and Upper Trappe in the South,

and Salisbury in the centre. Salisbury, the

County seat, is the largest and most im-

portant town on the Eastern Shore. Its com-

merce is extensive, and its mechanical and

mercantile pursuits are car-

ried on with great activity. It has nine

Churches, eight Schools, about Fifty Stores

and twenty manufacturing institutions, of

various kinds. It is on the line of the East-

ern Shore Railroad, an extension of the

Delaware and Philadelphia, Wilmington &

Baltimore Railroad. Wicomico County is

connected by the Pocomoke Railroad with

Ocean City, Berlin and the intermediate

towns.

Trains leave Philadelphia at 8 o'clock, A.

M., arriving at Salisbury at 11 P. M. Dur-

ing the fruit season the trains are ran,

which greatly facilitates travel and trans-

portation. Freight rates are low, and Rail-

road Officials are obliging, attentive and agree-

able. Farm lands can be bought at prices rang-

ing from \$10 to \$25 per acre, with some im-

provements.

should be addressed to

There has been complaint of late that the Advertiser did not reach subscribers regularly. We have only to say that it is always mailed regularly to the various post-offices, and always on time. If it does not reach its destination it is not our fault. The fruitland bundle was misdirected last week and has not yet made its appearance at that post office. If this occurs again we want to be apprised of it at once and we will know the reason why.

There's a ready-reckoner on Main St. In setting an account with one of his employees he runs rapidly over items like the following: "There's a pair of pants you got, an' a pair you didn't get, and a pair you wore out; that you got, and one you ought to get, and one your broker got, &c."

In nine cases out of every ten, the articles that the poor wretch ought to get over balance his bill for services rendered.

Every effect must have a cause; so Boils, Pimples, etc., are the result of poor blood. Purify the blood by using Dr. Bull's Blood Mixture and banish such corruptions as those named.

Rev. Mr. Brinkley, of Fruitland, will hold the second quarterly meeting and conference on Parsonsburg circuit at St. John's appointment Sunday and Monday, July 29th and 30th. Rev. Brinkley will preach three sermons Sunday morning at 10; Sunday evening at 7; and Monday morning at 10. He will also be present to hold love feast Sunday morning at 9 o'clock. Sermon will precede the Sunday morning service, and quarterly conference the Monday services.

[Since the above was put in type we have heard the sad fate of Rev. Mr. Brinkley, who was thrown from a cart and killed yesterday morning.]

A SAD ACCIDENT THAT RESULTED FATAALLY.—On last Sunday afternoon, while some friends were sitting in conversation with Mr. Matthias Godfrey, in Worcester co., the latter being in bad health, and having a poor appetite, on seeing some partridges come into the yard, he remarked that if he had one he could eat it, and in attempting to take out his gun from between a bureau and a bed, the gun became entangled in the bed covering which caused it to go off, the charge taking effect in Mr. Godfrey's head, killing him instantly. He leaves a family, and was much respected in the county, but we suppose that he never once thought of the violation of the bird law, nor the 4th Commandment.

Fine lot of Gents' Furnishing Goods at Graham's Clothing store.

Some juveniles of our town a few days ago, having heard of the tricks of the mob of strikers, made a raid upon a passenger car standing on the siding at the depot, broke open the doors, broke out the windows, tore up some of the seats, water cooler, &c. This is an outrage which ought not to be tolerated a second time. The parents of such uncivilized children ought to be made pay the damages or have them severely whipped, or both, at the discretion of common sense. At all events a stop should be put to this at once. We have for some time looked upon the gang of idle boys about the depot as a set of promising candidates for the penitentiary. Look out, boys, the Red Bird is now complete, and Sheriff D. has the key, and an order from one of our magistrates will put you there.

EVENTS EXTRAORDINARY.—Mr. Jas. Wilson, of east Frankford, Salisbury, becoming wearied with the annual of single blessedness, wooed and won to his confidence the wife of J. Hastings, of west Camden, Salisbury, and on the night of the 23rd, they departed for parts unknown, accompanied by another enthusiastic couple. John Hastings aged about 18 years, took with him Mary W. Taylor, aged about 25 years. These parties took a boat and sailed down the Wicomico endeavoring to overtake a vessel which had sailed in the afternoon. Mrs. H. leaves her disconsolate hubby to take care of their only child, a boy 4 years old. Jacob thinks his spouse has played him a Yankee trick, assisted by her lover, who forsakes the maiden of Terrapin Hill, for a matron of Skill-pet Cove.

FATAL ACCIDENT.—The Rev. John Brinkley's horse took fright at the railroad station at Fruitland yesterday morning and ran away, turning the cart over, throwing Mr. Brinkley out, injuring him so seriously that he died in about an hour after. Mr. B. has been afflicted with rheumatism for some time, and in consequence was not as active as formerly. Mr. B. was about 63 years of age, leaves a wife and one son. He was a remarkable man. He grew up without any advantages of education, professed religion at Deal's Island about the year 1838 or '39. It was the year noted for the great storm, so well described in the "Life of the Parson of the Islands," after which he took it into his head to learn to read, which he did after a time with some difficulty, having a family to support. He was a devoted member of the M. E. Church, officiating at Shad Point in every office of his church, and discharging his duties acceptably to his friends and the whole congregation. He rose step by step through great difficulty, not having the ad-

We are glad to learn that young Mr. Rowe passed an excellent examination.

Advantages of a good education. Being a man of excellent sense he took a correct view of almost every subject which presented itself to his mind, and often gave good counsel to those who were far ahead of him in general intelligence. He has been a good and useful man, and the sad intelligence of his death will carry a pang of sorrow to many fond hearts, and the followers of his meek and lowly Saviour may say of a truth, "How are the mighty fallen!" for indeed a great man bath this day fallen in Israel.

OBITUARY.

Fell asleep in Jesus, on the morning of July 22, 1877, NOAH S. BENNETT, aged 27 years.

The deceased was for a number of years a member of the M. P. Church, and lived a devoted Christian life. Though afflicted for sometime, and confined to his room for the past three months with that fatal disease, dropsy, he bore his pains without a murmur, saying his suffering would all be on earth, that when his days were ended he would have a home in Heaven, where parting is unknown. We have every reason to believe that he is now with Jesus, reaping the reward that await the pure in spirit in Paradise.

He leaves a widow and two children, together with a mother, brother and sisters to mourn their loss. The funeral services were conducted by the Rev. W. L. G. Holmes, assisted by the Rev. W. L. P. Bowen, from the words, "But thanks be to God, who giveth us the victory through our Lord Jesus Christ."

He rose step by step through great difficulty, not having the ad-

vantages of a good education. Being a man of excellent sense he took a correct view of almost every subject which presented itself to his mind, and often gave good counsel to those who were far ahead of him in general intelligence. He has been a good and useful man, and the sad intelligence of his death will carry a pang of sorrow to many fond hearts, and the followers of his meek and lowly Saviour may say of a truth, "How are the mighty fallen!" for indeed a great man bath this day fallen in Israel.

The 4th passed off with an oyster roast, quiet and easy. Ah! July 4th! What memories hang about that day! Immediately a nation was plunged into existence, whose happy emblem was destined to roost on Chimborazo's lofty summit—one wing shading the nude inhabitant of San Domingo's sultry isle—the other shielding from Boreal blasts the shivering savage of northern Michigan and adjacent parts.

OBITUARY.

Fell asleep in Jesus, on the morning of July 22, 1877, NOAH S. BENNETT, aged 27 years.

The deceased was for a number of years a member of the M. P. Church, and lived a devoted Christian life. Though afflicted for sometime, and confined to his room for the past three months with that fatal disease, dropsy, he bore his pains without a murmur, saying his suffering would all be on earth, that when his days were ended he would have a home in Heaven, where parting is unknown. We have every reason to believe that he is now with Jesus, reaping the reward that await the pure in spirit in Paradise.

He leaves a widow and two children, together with a mother, brother and sisters to mourn their loss. The funeral services were conducted by the Rev. W. C. Holmes, assisted by the Rev. W. L. C. Bowen, from the words, "But thank be to God, who giveth us the victory through our Lord Jesus Christ." S. W. B.

THE FARMER'S COLUMN.

KILLING WEEDS.—Nature has certain laws; they are immutable. In regard to perennial roots, the law is that beginning with the spring growth the plants' duties are to perfect the preparation made the latter part of the previous summer and fall. This may be said to be the end of that plant's life, and if it was only an annual it would be so. But a perennial has, after arriving at a certain age and condition, to make preparations for a continued life next year. This is done by forming eyes or buds upon its roots, or around the collar of the main stem, which shall, although perfect, remain dormant until next spring. There is a certain lapse of time between the maturity of the old plant and the perfection of these eyes or buds.

This time is of quite short duration, not more than one or two weeks and is the critical time in that plant's life. Any attack upon the vitality of the part above ground is sure to kill that below, and of course the whole plant.

This gives us a clue to weed killing; attacking a plant in the summer vigorous season is but of temporary advantage, but if we take it at its weakest moment it succumbs readily.

This critical time does not come to all varieties of plants at the same time of year, but may range from the middle of July to the first of September, as the particular kind matures early or late. Learn by observation when each kind of plant arrives at its moment of weakness, and cut it down to the ground, the loss of foliage above ground totally prevents it from forming buds below ground.—It is a very simple matter when once understood.

MONEY IN SWEET CORN.—An Ohio farmer grows over five hundred acres of this crop annually. The drying houses employ over fifty persons. The fruit is cut in five minutes to get the milk, the grain is then cut off rapidly with cutters having concave faces; then spread on perforated sieves, and heat applied for five hours from long furnaces, stirring constantly; then packed in barrels of three bushels each for shipment. Great care is required to have the corn just at the right age, and to have it dried just enough to keep well. Four bushels of corn on the cob make one bushel dried—the whole price of which is \$20 to \$22 per barrel. At fifty bushels of corn per five hundred acres would yield 25,000 bushels, and give over 2,000 barrels of dried corn, which, at \$20 per barrel, would be \$40,000.

TO DESTROY CUCUMBER BEES.—The Western Farmer has the following timely advice in regard to the riding of the garden of the bugs, etc.: "To destroy bugs on cucumber and squash vines dissolve a teaspoonful of saltpetre in a pail full of water; put one pint of this around each hill, shaping the earth so it will not spread much and the thing is done. Use more saltpetre if you can afford it—it is good for vegetables but death for animal life. The bugs burrow in the earth at night and fall to rise in the morning. It is also good for the 'grub' in peach trees only use twice as much, say a quart to each tree. These was not a yellow or blistered loc on twelve or fifteen trees to which it was applied last season. No danger of killing any vegetable with it.

A New Use for Onions.—A New Hampshire paper states that the speediest way to cure the epizootic and make a horse thoroughly happy is to give him onions. In proof thereof the case of a Portsmouth horse is cited, which had a severe attack of the disease, and his owner lacked half a dozen onions in his regular feed. The horse ate three of the onions immediately, and by the time he had swallowed them began to cough and sneeze and bray about, appearing quite indignant, and refusing to touch the remaining onions. For full five minutes he wept at the nose, and then—he was a cured horse. He has not had a cough, a sneeze, nor any symptom of the epizootic since, but he had the courage to eat the onions remaining in the crib the next day after the cure.

GEORGE'S WHEAT CROP.—The Atlanta Constitution says of the wheat crop in that State that not only is the average greater than in any other State, but the yield per acre is magnificent. Many farmers will harvest from twenty-five to thirty bushels of plump wheat to the acre, and there are farmers in every county who have respective products will run up into several thousands of bushels. The Georgia farmers have evidently concluded that cotton is not entirely king, and with wise forethought they have determined to raise their own bread.

The First of October is the best time for making an asparagus bed. Very little cutting should be done the first summer. An asparagus bed will last for a lifetime, so it will pay for a little labor and patience.

Bee keepers should use every means possible to destroy the bee moth. They are insidious in their work, the eggs being laid in crevices. Watch for them. It will pay.

Mix love to be adored, but hate to be reproved.
