## District Stewards in Session.

The District Stewards of the Salisbury District M. E. Church met in the Asbury Church this city on Wednesday morning at 10.30 o'clock. There were representatives of Maryland and Virginia present. The salary of the Presiding Elder, Dr. Martindale, was fixed at the same rate as last year. The Board unanimously endorsed the action of the Wilmington Conference at its last session, urging the churches to raise their share toward paying the debt on the Wilmington Conference Academy. The session was a pleasant one. After its close the gentlemen were entertained at dinner by Dr. and Mrs. Martindale.

## STATE CENTRAL COMMITTEE.

A Well Attended Meeting in Baltimore on Wednesday—State Convention August 1st—Judicial Convention July 11 at Ocean City.

The Democratic State Central Committee met on Wednesday at the Eutaw House, Baltimore, and named Thursday, August 1st, as the day for holding the State Convention. The Judicial Convention of the First district was fixed for Thursday, July 11th, and will be held at Ocean City.

Early in the morning the corridors of the hotel were alive with incoming delegates and many old leaders who were around getting acquainted with some of the younger democrats who will soon form the backbone of the party. On every side could be heard the hope that new blood would come to the front in the coming campaign and the opinion was freely stated by many of the leaders as well as the delegates at large that such action was necessary in order to enthuse the party and bring victory in the fall election. Ex Governor Jackson was a prominent figure at the meeting and was made chairman of the committee on resolutions. He is also chairman of a special committee of seven to which is delegated the supreme power to settle all appeals and disputes relative to the primaries to be held throughout the State.

The committee is as follows:

Ex Gov. Elihu E. Jackson, chairman, of Wicomico county.

W. Laird Henry, of Dorchester Co.

John Hubner, of Baltimore county.

Samuel Rosenthal, of Balto. City.

Archibald H. Taylor, of Balto. City.

Charles H. Stanley, of Prince George's county.

Gilmore S. Hamill, of Garrett county.

In calling the State Committee together Chairman Vandiver said:

"Gentlemen of the Committee: There seems to be a feeling that the work of organization for our fall campaign should be begun early this year, and hence I have called this meeting that immediate steps may be taken for the assembling of our State Convention without delay and for thorough preparation in all sections of the State for the important work before us."

"The unanimity and firmness exhibited by you at your meeting at Annapolis in March was most gratifying, and contributed largely to the admirable work of the special session and to the creation in our ranks everywhere of a most encouraging spirit of confidence and harmony."

"But we cannot reasonably expect to preserve the fruits of our victory of 1899 without cordial co-operation and a repetition in the coming campaign of the activity and enthusiasm which enabled us to recover political control of the State."

"That control must be wrested from us, and it cannot be lost if Democrats will only do their duty."

"What we need is organization, the purging of the registration books of all names not justly and lawfully entitled to be there and generous abandonment everywhere of all strife and dissensions in our ranks, and the selection of candidates whose character and qualifications will secure for them the hearty support of our people."

"The new election law does not interfere at all with the casting of our full party vote for our whole ticket, but at the same time, by requiring all voters to put a cross mark opposite the name of every candidate for whom they desire to vote, it compels an independent scrutiny of each and every candidate which cannot fail to materially strengthen us."

"Our candidates should be those who can well stand such scrutiny, and with our ticket made up exclusively of candidates fully measuring up to the Jeffersonian standard there ought not to be any doubt of the result."

"The tests given by the municipal elections in Frederick and Baltimore to the new Election law have effectually answered the ferocious attacks made upon it by our adversaries and abundantly indicated its passage, and in the more thorough and complete test to which it will be subjected at the polls next November the excellence of its provisions will be more fully manifested."

The committee on resolutions in its report brought in the following resolution which was adopted and which must meet with general approval:

Resolved, To the end that there shall be no possible question as to the absolute fairness of all primary meetings to be held, we hereby appoint a special Committee of Seven, to consist of the chairman of this committee, Ex-Gov. E. E. Jackson and Messrs. W. Laird Henry, Dorchester, John Hubner, Baltimore county; Samuel Rosenthal and Archibald H. Taylor, Baltimore City; Chas. H. Stanley, Prince George's, and Gilmore S. Hamill, of Garrett county, whose duty it shall be to carefully scrutinize the provisions made in all cases of calls for primary meetings; to hear any appeal that may be made from the decision of the county, legislative district, county or local committees, and in all cases where, in their judgment, just and proper provisions have not been made for absolute fairness, to direct the same to be made.

The members of said committee are also authorized in all cases where, in their judgment, there has been such unfairness as to thwart the will of the majority, to order a new election. The

determination by them of all questions shall be final, and when they shall have certified to the selection of persons as delegates to the State convention and of persons nominated for the various offices to be filled at the coming election in November, such persons shall be declared to be the nominees of the Democratic party.

There was but one vote opposed to the resolutions as reported, that of Dr. Wells of Anne Arundel county who offered an amendment to one of the resolutions, which was promptly voted down.

After the business of the committee had been transacted all adjourned to the dining room where a luncheon was served.

The one topic of conversation among the democrats present was the interview of ex Governor Brown in Wednesday's Baltimore Sun in which he urged that new men come to the front and assume the managing of the coming campaign and that the fight should not be made with any one candidate for senator as an issue. That part of the interview in which the ex Governor advocated that new leaders should be placed at the helm and lead the party in its next battle was generally commended. In a conversation with a representative of the ADVERTISER one committeeman remarked "Brown has said what a lot of us have thought for some time."

In the numerous conferences that were held during the day, democrats from all over the State expressed it as their opinion that while it would be a hard fight yet they believed they would surely carry the state this fall.

The Ideal Editor.

You hear talk of the "ideal newspaper." It is, says an exchange, like the flower that never withers, the bird that never alights, the land where sunlight never fades—it only exists in the imagination of the sucker whom we are told the elements consume. Writing from the standpoint of a country editor, if you have ever been in his shoes you know he is the repository of the secrets of the community none of which he has ever divulged. He must publish a paper chuck full of local news, whether anything happens or not. His judicial mind must be far superior to the district judge and give him pointers in instructing the jury. He must discourse with equal fluency upon the silver question and Farmer Jones' Jersey calf, china painting, and Poland-China pigs, preserved peaches and the perseverance of saints, foreign wars and local strikes, justification by type, the doctrine of election, the election returns, the doings of the last synod and the details of prize fights. The receipt of church socials and the squabble in the town council must be equally familiar to the versatile mind.

With all this he must wait on the delinquent subscribers, discount the bill of the patent medicine fakes, stand off his wash bill, always go well dressed, pay his printer on Saturday night, whether a cent has come in or not; write free puffs, teach the city administration how to run the city and be content with \$20 a year for printing the proceedings when it is worth \$250, never ask for any honors, but help others to get them; boom the local statesman who owes him three years' subscription—in short, be all things to all men, make no mistake in dates, take the cussings of the community and never cuss back. This is the ideal editor, and his paper is a daisy. We never saw one.—Potter Democrat, Coudersport, Pa.

Ocean City Steel Pier.

Ocean City, Md., May 28.—The Ocean City Council has granted a franchise for the construction of a steel pier to W. J. Warrington, representing the American Electrical Amusement Co. of Philadelphia. The franchise will be void if the pier is not completed in the year 1901. Mr. Scott has been elected clerk of the Council to fill the vacancy made by the removal of John L. Streeter to Port Deposit.

One of the most remarkable but least noticed facts in connection with the war in the Transvaal is the extreme youth of a large part of General De Wet's army. When hostilities broke out almost every grown man enlisted, even the ennobled burghers. As they were killed or incapacitated their places were gradually been taken by mere school-children, many only thirteen or fourteen years of age. Under the title of "The Youngest Soldiers in the World," in the June Cosmopolitan Allen Sangree throws more light on the make up and life of General De Wet's commandoes than anything hitherto published. The naive, simple letters from fourteen-year-old Deneyes Reitz to his father, the Secretary of State of the Transvaal Republic, has seldom been equalled for vital interest by any carefully written article on the war.

## WALK-OVER SHOE FOR MEN

## A Well Shod Man

Is one who wears the WALKOVER Shoe.

### The Best Man's Shoe on Earth.

That's what the makers claim for the WALKOVER Shoe—and nobody disputes it. They are the best shoes—so much the best that there isn't a close second. Years of experience in shoemaking and a study of the lasts required to fit all feet perfectly has brought them up to this high standard. You never find the WALKOVER name linked to shoes except they are made of the finest stock. No wonder they have the universal reputation of being the best. As the exclusive agents here for the sale of the WALKOVER Shoes we carry the full line of shapes and styles. One thing that's true of a WALKOVER Shoe wearer is that nothing but a WALKOVER Shoe suits him.

Never mind the price—see the shoes—they don't cost a penny more than they are worth. If these shoes were not so good we would not talk so much about them.

No matter how much care you take in the selection of the materials for your building or how experienced or reliable your mechanics, if you use inferior shingles you make a great mistake.

The covering of a building is the most important part of the materials used in its construction. "The weakest link is the strength of the chain," and "The poorest shingles determine the last of the roof." And it is poor economy to run so great a risk of having a leaky roof, to save such a trifling amount of money. Act wisely and buy best.

## GOOD ROADS IN THE SOUTH.

The National Good Roads Association Holding Conventions.

The New York Sun says: Sentiment among the citizens of several of the Southern and Middle Western States, notably Louisiana, Mississippi, Illinois and Tennessee, is just now at white heat. Under the direction of the National Good Roads Association mass meetings and conventions are held in many of the cities and towns, and the subject of good roads is discussed and dilated upon everywhere by champions of the movement with earnestness and understanding. On the strength of the benefits which, unmistakably, have resulted from smooth and permanent highways wherever they have been built, the good road agents are striving to impress upon the people that the maintenance in their respective localities of roads that are sensibly, not to say scientifically, constructed is a duty they owe to themselves and to succeeding generations. The agitation certainly is producing important results.

Leading newspapers in the States mentioned are doing much to help along the work. The New Orleans Times Democrat, for example, has printed a series of interviews with representative citizens in various parts of Mississippi and Louisiana, and they leave no doubt of the sincerity and vigor with which the good roads movement is conducted. We quote some extracts from interviews with residents in three large towns of Louisiana. A progressive land holder says:

"It is for the agricultural interests to realize that they can haul twice as much of their products over a good road as over one poorly kept. I don't know anything better for this parish than the inauguration of a movement of this kind."

A prominent physician expresses himself thus: "Good roads, like good schools, are the most inviting objects to immigration. Coupled with the fertility of our soil, good roads will surely result in bringing hither capital and immigration."

A large Louisiana planter takes this view of the matter:

"Good roads are an object lesson to the capitalist, home seeker and man of moderate means. Wherever he sees good roads he is assured that it is a community in which he can safely invest. That he will have good schools, quick and easy transportation of products to and from market, everything which can be desired in an enlightened and Christian community."

Here are the opinions of a wide-awake farmer of the same State.

"There is no surer, safer or more expeditious way of building up and developing the resources of a country than by the construction and maintenance of good roads. They will always invite the home seeker, as well as the capitalist, each of whom is assured of easy transportation to market for his produce, as well as of educational, religious and other advantages incident to such a condition of happy circumstances."

A prominent lawyer and planter says: "The absence of good roads frequently means a lower market when products reach their destination, loss and delay from the failure to receive articles promptly when needed, and a large loss resulting from the wear and tear of vehicles and horses and payment of increased time to transporters."

We might go on quoting almost indefinitely similar opinions gathered by the Times-Democrat from citizens of Louisiana and Mississippi—municipal officers, bank presidents, clergymen, wholesale and retail merchants, farmers and others.

The good roads sentiment in the part of the country referred to has been greatly stimulated by the recent undertaking on the part of the National Good Roads Association and the Illinois Central Railroad, to run a train, specially equipped for practical road making, from New Orleans to Chicago. The "Good Roads Special," as it is called, has already given demonstrations in road building at New Orleans, Natchez and Vicksburg. It is now proceeding northward and is scheduled to stop at fifteen or more places before it reaches Chicago. At each place a specimen road at least a mile long will be constructed and left as an object lesson to people who would like to have open highways twelve months in the year.

All that is said above applies with equal force to the State of Maryland. Sentiment in Maryland is rapidly growing in favor of a system of general road improvement. The question will most likely in the near future become a political issue and public men should begin to study it. Sentiment in Wisconsin is already formed, and the most progressive and intelligent citizens in all parts of the county are endorsing the movement recently started whereby the county commissioners will be asked to levy the sum of \$10,000 annually for the work.

### For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures all wind colic, and is the best remedy for diarrhoea. Twenty cents a bottle.

Dyspepsia cannot be long lived because to live requires nourishment. Food is not nourishing until it is digested. A disordered stomach cannot digest food, it must have assistance. Kodol Dyspepsia Cure digests all kinds of food without aid from the stomach, allowing it to rest and regain its natural functions. Its elements are exactly the same as the natural digestive fluids and it simply can't help but do you good. Dr. L. D. Collier.

### Mr. Gorman and His Critics.

There is a little coterie of Democrats in Maryland who feel themselves called upon at intervals to overhaul ex-Senator Gorman. In performing this self-imposed task, Mr. Gorman's critics may be relied on to make very noisy demonstrations. It is a little singular too that this outcropping of emotion usually displays itself at a time when party harmony is most desired. Naturally Republicans embrace the opportunity of emphasizing and exaggerating these periodical displays. As the time approaches for electing a successor to Mr. Wellington in the United States Senate, another anti-Gorman demonstration bobs up true to the minute.

The criticisms of Mr. Gorman do not appear to be aimed at his personal ability or experience, but are reduced to a catch word generalization under the caption of "No Gormanism." What sort of "ism" this may be, is left for gullible people to decipher. Those who are not easily deceived do not require to be told that such an "ism" is entirely a fiction. Of course the promulgators of such a fictitious "ism" drive it for all it is worth and prefer to play the role of party smashers, in order to avenge political slights or off-handed vanity, sooner than share the legitimate fruits of unity and victory.

Mr. Gorman's critics, however, do not by any means represent the Democracy of Maryland who are looking for just such a person as Mr. Gorman to succeed Senator Wellington. The pointing to the ex-Senator is logical and is a deserved recognition of former years of distinguished service as well as an appreciation of a just debt due for valued party zeal. Mr. Gorman's record in the Senate is too well known to require specific mention, and his uncompromising attitude upon all public questions, harmonizing with allegiance to his party and adherence to its principles, is a matter of history. Despite his carping critics, who are distinguishing themselves more by their noise than anything else, Mr. Gorman's prospects for a renewed Senatorial career are flatteringly bright—Marylander & Herald.

The Cambridge Yacht and Launch Company has completed and launched a gasoline launch for Commander Howard, of the state steamer Governor Thomas. The boat is to be used chiefly in reconnoitering the small straits and estuaries of the bay and rivers. It is said that violators of the oyster laws quite often avoid arrest by taking refuge in waters that the police steamers can not enter, and the launch will be used on these occasions to make arrests.

Mayor Hayes had a lengthy conference with Mayor Schindel of Hagerstown at the latter place during the former's tour of the Western Maryland railroad regarding municipal lighting. Mr. Schindel claimed that Hagerstown would eventually light her arc lights at a cost of \$50 a lamp a year, and the Baltimore executive declared that when she did Baltimore would consider the system.

"A few months ago, food which I ate for breakfast would not remain on my stomach for half an hour, I used one bottle of your Kodol Dyspepsia Cure and can now eat my breakfast and other meals with a relish and my food is thoroughly digested. ### Philistine Philosophy.

Charity covers a multitude of sins that are committed in her name.

When we get what we want we are always disappointed to find that it is not what we wanted.

What sounds so sweet as the human voice—to the one who is doing the talking?

The knowledge that virtue is its own reward is what deters many from well-doing.

The trouble with most reformers is that they waste their time and energy trying to reform somebody else.

When a man or woman asks for a candid opinion it may safely be taken for granted that "candid" is meant.

Faithful are the wounds of a friend: and as it is more blessed to give than to receive we prefer to do the wounding.

Every man regards his own little weakness as an amiable trait; every woman—well, every woman does not admit that she has a weakness.

We always know what we should do under certain circumstances, but unfortunately we never find circumstances arranged to suit what we do.

The stages of knowledge development are: We know that we know, we are sure that we know, we think we know, we don't know whether or not we know, we fear we don't know, we know that we don't know everything—or anything.—L. de V. M., in the Smart Set.

Dorchester is agitating the question of a trolley road from Cambridge to the lower districts of the county, and hopes to interest enterprising capital in the scheme, which, it is said, would be a profitable investment. The new road to Bucktown, Dorchester county, to Shuster's wharf, will be only three miles in length, but will shorten the distance by road between Cambridge and the Lake district of the county by 15 miles. This is a fair sample in the county roads, many of which are unnecessarily roundabout.

## ATTENTION DEMOCRATS.

The Chairman of the Democratic State Central Committee for Wicomico county has called a special meeting of the Committee to be held in Salisbury on next Tuesday, June 4th. It is the desire of the Committee that democrats from all over the county shall at that time state their views as to the advisability of holding one or two primaries. The committee is desirous of doing what is best for the party's welfare and they will carry out the wishes of the people in deciding the question of separate primaries. Let the democrats take this opportunity of expressing their wishes so the Committee may decide the question with a full knowledge of the prevailing sentiment among the democrats of the county.

## NOW FOR THE PETITIONS.

The gentlemen who circulated the "Good Roads" petitions in the districts are requested to return them to Mr. Thomas Perry or to the ADVERTISER office next week. The matter will be brought before the county commissioners just as soon as the petitions are all in.

So far as the projectors of the movement have learned, the petitions have been very extensively signed wherever circulated, and the sentiment for good roads among the taxpayers amounts almost to a demand.

On the second page of this issue appears an interesting article on the subject of good roads which applies with peculiar force to this county. We hope all citizens will read it.

## KEEP UP THE GOOD WORK.

Street commissioner Kennerly, under instructions from the City Council, has this week been having Division, Main and Dock streets thoroughly scraped. This is a great improvement and is what the streets have needed for some time. We hope the Council will continue this good work and not stop with having these three streets put in order.

Every thoroughfare within the city would be greatly benefited by being scraped. The road bed would then be in a much better condition to receive an additional layer of shells when needed than it would if left in its present state. Some of the main thoroughfares of the city have been so raised by the continuous process of re-shelling that the yards on either side of the street, in many cases, are much lower than the road beds.

Camden avenue is particularly noticeable in this respect. Instead of the street having been graded and scraped when it has gotten in bad condition and full of holes it has been the custom to try and improve the avenue with another coat of shells. This has continued until at some points the street is a foot above the adjoining yards. Let the good work go on. Don't confine it to one or two streets.

## MCLAURIN AND TILLMAN.

The following taken from the Courier Journal is such an exact statement of the facts that we can't refrain from quoting:

"That was a dramatic incident when, as the result of a joint public discussion, the two South Carolina Senators agreed to resign and let the people say which should remain at home.

The occasion of the discussion was Senator McLaurin's campaign for reelection. Senator Tillman had decided to make such a campaign, being particularly desirous of securing the endorsement of his State for his recent course and views on modern political issues. Senator Tillman, though but lately re-elected himself, does not wish McLaurin to have such an endorsement, and entered upon the work of making a personal campaign against his reelection.

In the course of the discussion the personal issue seems to have resolved itself to this:

Tillman held that if McLaurin was a Democrat Tillman was not, and McLaurin held that if Tillman was not a Democrat McLaurin was not. Moreover, it was agreed between them that a Senator who did not represent the sentiment of his constituency should resign, and the upshot was that both McLaurin and Tillman wrote out their resignations and declared their purpose to refer to the people the question which of the two is a Democrat.

McLaurin says he called Tillman's bluff, and Tillman says he called McLaurin's bluff. Without stopping to investigate whose bluff was called, it is sufficient to know that all bluffs were called and that the Democratic voters are asked by Messrs. McLaurin and Tillman to return a verdict as to which of the two is a Democrat.

But is this quite within the power of the voters?

The case may be accurately and pointedly stated:

McLaurin is more a Republican than he is a Democrat.

Tillman is more a Populist than he is a Democrat.

How is it possible for the voters to say which one is a Democrat?"

## EX-GOVERNOR BROWN'S VIEWS.

Ex Governor Brown is making a strong plea for new men and young men to enter into the active management of the Democratic party. He believes this to be the only way for the party to again be the dominant factor in Maryland politics. In an interview in Friday's Baltimore Sun he speaks of what victory would mean and how to bring it about as follows:

"If there should be a Democratic victory in this country it means the control of the Government by our party, and the Democrats in Maryland will have their say in the management of the Government's affairs. Let us, then, have men at the head of the party who will be alive when this time comes. But how can they know how when they have no opportunity to get the experience and training needful? Unless the young men are given a chance the party will be in the condition the army or navy would be in if there was no West Point Academy or Naval Academy to train men to replace the officers now in charge.

"Get the new material into the organization. Get young men, who have more magnetism than old ones and who by reason of their youth have fewer enemies.

"I do not mean for all the old politicians to pack their grips and go home. Let them stay by the side of the younger men and aid them by their experience. They owe this much to the party that has honored them. Let them show how the thing is to be done, but let the new men do the work.

## "NOW IS THE TIME."

"And now is the time for the change. The State Central Committee that met yesterday is now practically dead and out of existence. It will hold no more meetings. Let the Legislative district convention when they meet send to the State Convention delegates who appreciate and understand the demand for new material and new blood in the party.

"When the business of the convention is over and the time comes to name the new members of the State Central Committee, three from each county and nine from the city, let the various delegations put forward their new men and in reality make a new committee.

## TO GET NEW CHAIRMAN.

"According to party usage, after the adjournment of the State Convention it is the duty of the chairman of that convention to select from the new members of the committee a chairman. A precedent was established at the last meeting, when Chairman Vandiver was nominated by General Baughman and elected by vote of the convention. At the coming State Convention some member could recommend to the chairman of the convention a certain man for chairman of the committee. It could be put to vote and made the recommendation of the convention. Or, as the convention has supreme power, it could elect a chairman without recommendation. This is the routine way in which it could be done.

## PLENTY OF GOOD MEN.

"There are plenty of good men in the party who could and ought to be brought to the front in every county and in the city as well. I certainly believe if this is done and good men put on the ticket the Democratic party will win in the fall."

## THE CONFESSION REVISED.

The Presbytery General Assembly, in session in Philadelphia for several days past, decided upon a revision of its Westminster Confession which was formulated by committee of the Westminster Assembly in 1645. The articles to be amended are the following:

Chapter 3 treats of "God's Eternal Decree" and contains the following clause: "By the decree of God for the manifestation of His glory some men and angels are predestinated unto everlasting life and others foreordained to everlasting death."

Chapter 10, Section 3, which is as follows: "Elected infants, dying in infancy, are regenerated and saved by Christ through the Spirit, who waketh when and where and how He pleaseth. So also are all other elect persons who are incapable of being outwardly called by the ministry of the Word."

The following section declares that those not elected cannot be saved.

Chapter 16, section 7, is: "Works done by unregenerate men, although for the matter of them they may be things which God commands and of good use both to themselves and others, yet because they proceed not from a heart purified by faith nor are done in a right manner, according to the Word; nor to a right end, the glory of God; they are therefore sinful and cannot please God or make a man meet to receive grace from God. And yet their neglect of them is more sinful and displeasing unto God."

Chapter 23, Section 3, is: "Whoever taketh an oath ought duly to consider the weightiness of so solemn an act, and therein to avouch nothing but what he is fully persuaded is the truth. Neither may any man bind himself by oath to anything but what is good and just, and what he is able and resolved to perform. Yet it is a sin to refuse an oath touching anything that is good and just, being imposed by lawful authority."

The Baltimore Sun in commenting upon the action of the Assembly, says: "The movement for revision of the Confession of Faith has been occupying the minds of Presbyterians for a considerable time and has been a matter of great interest to all who profess and call themselves Christians. Every body of Christians appreciates the service which the Presbyterian Church has rendered Christianity in its conservatism. In its Bible reading and reverence for the Bible as the inspired word of God, by the learning of the ministers and the zeal and earnestness of the great body of members of the church. While many, even among Presbyterians themselves, believe that there is a disposition among them to hold too literally to the word of the Bible without making due allowances for the human frailty of the agencies by whom it has been transmitted to us, still all will admit the conservative influence of the church in standing out against that kind of criticism which would explain the Bible away and treat it as a collection of fables or allegories.

The movement in favor of some revision or modification of some of the stern statements of Calvinistic doctrine began a long time ago. Out of 233 presbyterians 154 asked this present General Assembly for revision, but the trouble in securing revision has been in the lack of agreement among those who asked for it. Those opposed to it were a compact body, while those wanting changes were divided. Finally an agreement seems to have been reached, and largely through the efforts of a Marylander, the Rev. Dr. J. E. Moffatt, of Cumberland, a gentleman of distinguished ability and learning. In a speech the other day Dr. Moffatt stated his position as follows:

The Confession is a man-made constitution, is not the Word of God. We are not discussing the Word of God. If this question is voted down by this Assembly it will come to the front again, and keep coming until we give the church what it demands. I want to see side by side two great truths: First, the sovereignty of God, and above all, his election of men, and secondly, the freedom of man to choose. I believe that God has selected all infants to salvation."

## At Captain Lloyd's Shipyard.

Captain Odis Lloyd's shipyard, on the river below Stratton's cannery factory is a place of activity these days. Last Wednesday at one o'clock in the afternoon the first launching at the yard since Captain Lloyd took hold of the property was witnessed by a large crowd of spectators. The vessel launched was a very pretty barge built for Captain Wm. M. Travers of Nantuxoke. As she glided into the water without a halt or drawback Miss Nettie Leatherberry, the little daughter of Capt. Wm. I. Leatherberry, christened her "Margaret A. Travers." The vessel will be used by her owner in the oyster trade. She will carry about 1700 bushels of oysters. The cost finished will be \$4000.

Capt. Lloyd has begun another barge for F. B. Culver of Tyaskin. This one, when completed, will be a very pretty craft.

Mr. Hugh W. Jackson is having built at the yard a pleasure sail boat, which, if the plans of the designer are realized, will be very fast.

Captain Lloyd has a fine prospect for several contracts for new boats and expects to do a great deal of repair work during the present season.

## HOW TO BECOME BEAUTIFUL.

That's it. That's the proposition and in trying to solve it many a good woman has kept herself poor for months. 10 cents a month, \$1.00 a year, did it. She buys a popular priced Magazine for a dime. She reads it through, advertisements and all, for the ads are usually attractive. The Magazine is so cheap that she can afford another one—then another. Bye and bye she has Cosmopolitan, Munsey's, McClure's, Everybody's and a half a dozen others. The ads interest her—she looks at the handsomest women who have beautiful complexions from eating somebody's chocolates, healthy ones who eat somebody's soups, perfect ones who wear somebody's corsets, athletic ones who ride some particular make of wheel, muscular ones who use someones dumb bells and she longs to be all of 'em. If she is a large lady and wants to look slender she starts in on a corset that makes the lady in the Magazine look slender. She then tries somebody's soup to get fat and begins golf to reduce her weight. "Well" how about men? What do they do? You may know about how it runs yourself. Bye and bye a man notices that there are some stylish looking suits that he can buy by sending his money to a Chicago firm, and that he can buy a \$20.00 suit for \$6.50 that will make him look beautiful and so on. Here's where he falls down. There are no \$20.00 suits for sale anywhere for \$6.50. Lacy Thoroughgood will guarantee to sell any man a new suit of clothes for \$6.50 that is worth \$10.00 anywhere, but they are not worth \$20.00. Can you beat this? Men and young men suits (two hundred and fifty of them) that are worth \$10.00 to go for \$6.50. Lacy Thoroughgood has made up his mind something had to be done to get rid of his immense stock of clothing. The plain truth is Lacy Thoroughgood is over stocked, and he proposes to sell men and young mens suits worth \$10.00 for \$6.50. These suits are of 1901 style and pattern. They are made of cassimeres, worsteds, flannels in stripes and plaids. They are cut round or square, cut in sizes 34 to 46 breast measure. Every suit in the lot is guaranteed you can have a new suit if any one you buy for \$6.50 doesn't prove the biggest value you ever secured. Come in and look at them anyway; they are \$10.00 suits for \$6.50. Ask for them.

## Order Publication.

Mary A. Roberts vs. Frank Roberts. No. 1833 Chancery. In the Circuit Court for Wicomico County, Maryland.

The object of this suit is to obtain a divorce a vinculo matrimonii of the plaintiff from her husband Frank Roberts and a decree awarding her the custody of their child.

The bill states that said Mary A. Roberts and Frank Roberts were married on the tenth day of May 1893 and resided together at Philadelphia, State of Pennsylvania for two years thereafter, when said Frank without just cause deserted and abandoned her, and that such abandonment has continued uninterrupted for at least three years and is beyond reasonable hope of reconciliation. That shortly after such abandonment she removed to Wicomico County, Maryland, and has resided there ever since and that Frank Roberts whereabouts is unknown to her. That they have one child living and she prays for a decree for divorce a vinculo matrimonii and for custody of child.

It is thereupon this 18th day of May, A. D. 1901 by the Circuit Court for Wicomico County in Equity ordered that the plaintiff by causing a copy of this order to be inserted in some newspaper published in said Wicomico County once in each of four successive weeks before the 9th day of June 1901 in notice to the said Frank Roberts defendant whose whereabouts is unknown, of the object and substance of this bill warning him to be and appear in this Court in person or by solicitor on or before the 18th day of July next and answer the premises and abide by and perform such decree as may be entered therein.

## Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers; they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidneys.

Kidney trouble causes quick or uneasy heart beat, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

## WHAT THE PEOPLE SAY

Who are Using Home Comfort Ranges.

Salisbury, Md., January 21, 1900.

Gentlemen:—This is to certify that I purchased one of your Home Comfort Ranges No. 1 about ten years ago and wish to say that we consider it one of the most durable and satisfactory of kitchen ranges, and heartily recommend them to any one wishing anything in the line of a cooking range. I would not be willing to part with it if we could not get another. For durability and as a good baker, and for all purposes, we do not think they could be surpassed.

JAMES A. WALLER,  
ELIJAH J. ADKINS.

Salisbury, Md., January 17, 1901.

Wrought Iron Range Company.

Gentlemen:—I have been using one of your Home Comfort Ranges for the past seven years, and can heartily recommend it as one of the most durable and reliable of all kitchen stoves. We would not want to part with it under any circumstances if we could not get another. This letter you may use in any way you think best for your business.

JAMES H. WEST.

Salisbury, Md., January 22, 1901.

This is to certify that I purchased a Home Comfort Range from one of the Wrought Iron Range Co's traveling salesmen, some six years ago. I find the range in all particulars as represented by the salesman. It is all that could be desired in a first-class cooking range, and I heartily recommend it to any one in need of a cooking range.

WM. S. HASTINGS.

Salisbury, Md., February 19, 1901.

Wrought Iron Range Company.

It affords me great pleasure to recommend your Home Comfort Range. I purchased one of your traveling salesman six years ago, and it is giving me perfect satisfaction. It is a splendid baker, and very economical on fuel. We would not take twice the amount paid for it if we could not get another like it.

President Wrought Iron Range Co.,  
St. Louis, Missouri.

Dear Sir:—

We are in receipt of your favor of June 18th, which we regret to say was late. We have great pleasure in stating that your ranges are in use on six of the eight stoves of the hotel and that they have given perfect satisfaction in every way both as to their durability and working qualities, which have been tested to the utmost. In the fall of '99 our steamer Pacific was totally destroyed by fire at the dock which originated at the G. T. Ry. warehouse, and although the steamer was burnt to the keel the Wrought Iron Range on board was found in such good condition that it was used on our new steamer Comanche, which was built the following season to take place of Pacific. There was practically nothing wrong with the stove except discoloration and marks consequent upon the action of intense heat and water.

The stoves using your ranges are, Majestic, Collinswood, Germania, Atlantic, Baltic and Midland.

Very truly,

## MARYLAND'S EXHIBIT.

Good Showing Made By Geological Survey at Buffalo.

The Maryland Geological Survey, in its exhibit at the Pan American Exposition at the Mines Building, is making a good showing of the resources of the State.

An allegorical picture representing the genius of geology unovering the mineral wealth of Maryland occupies the upper part of the east front of the building. Below this are hung large maps of the State, colored in various ways to represent geology, rainfall and temperatures, physiographic provinces, relative elevations and drainage areas. In the large windows are exhibited large colored transparencies of Maryland scenery and stone quarries and a series of photo micrographs of sections or rock colored, as seen under the microscope by polarized light magnified 80 diameters.

Nineteen frames of illustrations from publications, topographic and geological maps, scenes of quarries and coal mines cover the remainder of the wall space.

One of the most striking objects is a pillar of coal three feet square and seven feet high, weighing about three tons. This cost the Consolidation Coal Company an immense amount of ore and labor to cut from the breast of the "big vein," which is 14 feet thick, send it to the surface and ship it to Buffalo in one perfect piece. Seven smaller cubes represent others of Maryland's famous coal seams.

The exhibits on the tables are mostly of economic value. At one end are shown the building stones from the principal Maryland quarries, blocks of various shapes represent the polished, hammered and rock surfaces of Port Deposit, Guilford, Woodstock, Ellicott City and Jones Falls granites. Marbles from the Beaver Dam quarries and the famous Seneca red sandstone and Ghanadiah limestone are shown. This is backed by the exhibits of the Maryland slate companies—rough blocks and dressed slabs, modern, neatly trimmed roofing slates and slates which have served on roofs for over a hundred years.

The ornamental stones are represented by a collection of polished slabs of variegated marble, Potomac conglomerate and a beautiful series of serpentine, including the precious variety and picroites.

Next comes a less ornamental but very practical exhibit of the high way division of the survey, showing various tests, by specimen and photographs of machinery to which stone, brick and cement are subjected at the laboratory in the Johns Hopkins University.

The soils are well shown in a series of glass jars and tubes. Seven tubes are arranged around each soil specimen each tube containing its proper proportion of the constituents of the soil.

Clays, labeled with their localities and properties; building and molding sands, kaolin, ground flints and marls are shown in glass jars. Under the table, on a series of steps and lighted by electricity, are the clay products—enamel'd brick, fire brick, ornamental and common brick, sewer pipe, stove lining, crockery, tiles and terra cotta—some glazed, some unglazed, of all shades from bright red to white. These make a very attractive display and well represent the great richness and variety of Maryland's clays.

Installed in four plate glass cases is a very complete systematic geological collection. The oldest known rocks are represented by contorted, faulted and metamorphosed rock specimens, with ores of copper, iron, lead and gold. Each age is represented by its characteristic fossils, from the Cambrian trilobites to the elephant's tooth of the Pleistocene, with such minerals and ores as occur placed in their proper horizons.

A complete set of the publications of the Geological Survey, consisting of reports and atlas sheets, completes the display indoors. Outside the buildings are larger pieces of terra cotta and slate.

Mr. W. S. Whedon, Cashier of the First National Bank of Winterset, Iowa, in a recent letter gives some experience with a carpenter in mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the drug gist here and informed me that one dose cured him, and he is again at his work." For sale by R. K. Truitt.

The proposed endowment fund for St. John's College, Annapolis, has received an impetus by the gift of \$35,000 reported this week. The authorities will not give the name of the donor, but state that the work of increasing the fund to at least \$100,000 will begin at once.

## A Sprained Ankle Quickly Cured.

"At one time I suffered from a severe sprain of the ankle," says Geo. E. Carr, editor of the Guide, Washington, Va. "After using several well recommended medicines without success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed." Sold by R. K. Truitt.

The Hon. Spencer C. Jones has announced his candidacy for the State Senate from Montgomery county, and his nomination will probably be fought for between him and Senator Bowie, who is expected to seek a re-election. Jones is at present Mayor of Rockville.

## A Known Fact

For bilious headache, dyspepsia, sour stomach, malaria, constipation and all kindred diseases. TUTT'S Liver PILLS AN ABSOLUTE CURE.

## TOO MUCH

Exercise is as bad as too little for the growing girl. It is very easy for her to overdo, and this is especially dangerous at that critical period of a young girl's life when she crosses the line of womanhood. It is not an uncommon thing to lay the foundation for years of after misery by neglect of necessary precautions at the first "change of life."

The use of Dr. Pierce's Favorite Prescription not only establishes regularity, but it gives health to the entire womanly organism. It is the best medicine for diseases peculiar to women because it cures the causes of disease completely and permanently.

"Favorite Prescription" contains no alcohol, neither opium, cocaine nor any other narcotic. It cannot disagree with the most delicate constitution. "For a number of months I suffered with female trouble," writes Miss Agnes McGowne of 1114 Bank Street, Washington, D. C. "I tried various remedies, but none seemed to do me any permanent good. The doctors said it was the worst case of internal trouble they ever had. I decided to write to you for help. I received a very encouraging reply and commenced treatment at once. I had not used your 'Favorite Prescription' a week before I began to feel better, and, as I continued, my health gradually improved, and is improving every day."

NEWS FROM ALL SECTIONS OF WICOMICO SENT IN BY THE ADVERTISER'S REPRESENTATIVES.

### SHARPTOWN

Children's Service will be held in the M. P. Church on Sunday night next.

Mrs. Flora Collison and family who have been spending several months in Philadelphia returned home on Thursday.

M. H. Bennett and W. J. Nichols came home from Camden, N. J. this week.

Schooner "Price," arrived here on Wednesday with a load of fender timber from Annapolis for F. C. Robinson & Co.

The merry-go-round is here.

The sad news reached here on Tuesday of the death of Miss Susie Vincent, of typhoid, at the home of her parents at Christiana. She spent some time here last summer, with her sister Mrs. Ida Eaton. She was well known here, Marcella and Hebron. Miss Maude Eaton attended the burial. The young ladies of this town sent a beautiful floral design, an anchor. Miss Vincent was organist in the M. E. Church at her home and sang on extra occasions at home, in Wilmington and elsewhere.

Capt. Wm. R. Elzey has improved his Main Street residence with a new front porch and bay window.

Jethro Robinson has purchased a horse and fitted up a hauling outfit.

Berries here have been rather scarce so far, but prices have been good.

A. C. Adams of Baltimore was the guest of his mother and brother this week.

B. F. Kennerly's many friends here appreciate the high honor conferred on him by the Great Council of Red Men.

Scarlet clover has been greatly damaged by the recent rains.

J. R. Twilley received a consignment of ice, a few days ago from Jesse D. Price's new ice plant, Salisbury.

W. F. Bradley circulated a petition here this week in the interest of our county roads.

### PITTSVILLE

Mrs. Amanda Truitt and Mrs. A. W. Shockley visited their sister, Miss Addie Farlow who is ill at Frankford this week.

Mrs. A. J. Baker and daughter, Florence of near Snow Hill are visiting friends here.

Mr. Quinton Purnell of Delmar was in town this week.

Miss Virgie E. Parsons spent last Saturday and Sunday in Parnassburg.

Mrs. Amanda Truitt has improved her home on Delaware Avenue, by having a new yard railing put up.

Miss Edith Purnell of Delmar is visiting her cousin, Miss Roxie Parsons.

Mrs. Sarah Clark and Mrs. Mary Parsons of Virginia are visiting friends here.

The Ladies Aid Society met last evening at Mr. J. G. Sheppard's.

Several strawberry pickers arrived this week but berries have ripened so slowly some have returned to their homes.

Mrs. Catherine Hamblin visited relatives near Whaleyville the first of the week.

Strawberries are being shipped at a lively rate from this town but the late berries are not very ripe as yet.

### Farmers and the Telephone.

The Baltimore Sun, says: "The increased comforts of life in cities, as distinguished from life in the country, were the cause of the movement to ward the cities which became noticeable a few years ago. An obliteration of certain differences between the city and the country will induce many city men, it is thought, to return to the farm. The telephone and the electric car are doing much to civilize the country in the desirable sense. When communication is made easy in all weathers, a long step has been taken toward removing the disadvantages of country life. In rural sections of the East and over large areas of the Middle West the telephone now serves the farmer in his daily business. A contemporary tells how in a Massachusetts county farmers four years ago started a company with a capital of \$12,000 that now has 150 miles of wire, 200 subscribers and rates as low as \$6 a year for original subscribers. In Montgomery county, Indiana, the farmers raised a lump sum to buy a switchboard, then bought their own telephones and helped to erect the wires required in their respective neighborhoods. With an 'initiation fee' of \$3 and a monthly fee of 25 cents they keep the lines in repair, and the tolls of non-subscribers pay the salary of the switchboard operator. Forty towns are thus served with 6,000 telephones at small expense to the farmers interested. The farmers are thus put in close touch with the markets and transact much business without loss of time from traveling to and fro. The best thing about it is that the isolation of the farmers life, so far as intercommunication is concerned, is removed and young people, being able to communicate in all sorts of weather, find country life agreeable. The doctor also is made accessible, sociability is promoted and existence ceases to be a bore."

### Our Query Column.

#### ANSWERS TO QUESTIONS

No. 106. The four great Councils of the early Church were held in the East, and all concerned the Christian doctrine of the Incarnation.

I. The First Council at Nicaea, in 325, defended this doctrine against the Arians, who denied our Lord's divinity.

II. The Second Council, at Constantinople, in 381, opposed the Apollinarians, who denied our Lord's humanity.

III. The Third Council at Ephesus, in 431, confuted the argument of the Nestorians, who affirmed that in Christ are two persons, one human and the other divine.

IV. The Fourth Council, at Chalcedon, in 451 maintained the truth against the Eutychians, who affirmed that in Christ there is but one nature, human and divine mingled together.

The decisions of the four councils are summed up by Hooker in four words: "truly, perfectly, indivisibly, distinctly."

The Councils are called General, not because the whole Church was represented in them, but because the whole Church has accepted their decisions.

No. 107. Charles II. of England had surrounded himself by a ministry unprincipled in character and pernicious in counsel, their names were Clifford, Ashley, Buckingham, Arlington and Landerdale. The initials form the word cabal, a term which, from the character of those men, has since been employed in politics to designate a secret and dangerous association.

The word was, however, well known before those men were born. Etymologists trace it to the Hebrew gabbalah. In 1646, according to Clarendon, Charles I. had "asked of a certain man whether he were engaged in any cabal concerning the army."

No. 108. William Harrison Ainsworth, an English novelist, (born 1805) has introduced into "Rookwood" (published in 1844) Dick Turpin's famous ride to York, in which he saved his life by reversing the shoes on his horse's hoofs.

Dick Turpin was a noted highwayman who was finally executed at York, in 1739, for horse-stealing.

Robert Bruce escaped in a similar manner from England into Scotland.

#### QUESTIONS

No. 110. Who was the last of the Incas?

No. 111. How does the motion of the earth differ from all artificial motion?

### The Forestry Problem.

The substitution of iron and steel for wood in building houses, bridges and other structures has tended to make the destruction of the forests less rapid than it would otherwise be. The demand, however, for railroad ties and telegraph poles continues to increase, and the number of trees cut down for these purposes is discounting to those people who believe total destruction of all our forests will be a calamity. A substitute for wooden ties must be found sooner or later, as the forests will cease before many years elapse to furnish a supply and it is a pity that the substitute cannot be found before the mischief is all done. It was suggested recently that the railroad companies could make themselves secure of a supply of good, durable ties in the future by planting locust trees along the right of way. But it takes some years for a locust tree to grow big enough for a tie, and making such a provision as this for the future is not an American characteristic. It is more likely that the tie of the future will be iron or steel, and their use may come as soon as some method is discovered for overcoming some difficulties in their use.

In England there is at this time a discussion about buying telegraph wires and so dispense with poles. There is talk of burying the wires running between London and Birmingham. One of the greatest obstacles to underground wires, namely, the great cost of insulation, it is claimed, has been overcome by the use of paper as the medium for insulating the cable. Many advantages are claimed for the system of underground wires. Not only do we get rid of the unsightly poles, but the constant cost of renewal cases, and the danger of interruption by storms is avoided. But paper is now made largely from wood, and so another kind of insulator must be invented to head off destruction of the forests from that direction.—Baltimore Sun.

### The Mocking Bird.

Is the mocking bird passing away? Competent observers declare that he is; that with each returning springtime the sweet singer whose mission it is to give inspiration to Southern poets, is becoming noted principally for his greater absence.

A poet who bemoans the change finds reason for it in the presence of that pestiferous highwayman, the English sparrow. His early morning communications with nature have, he says, led to the discovery that no sooner does a mocking bird complete his nest than sparrows come in droves and inaugurate a systematic campaign for the purpose of driving out the rightful owner in order that some of their number may take possession. They gather around and keep up their incessant chattering until the mocking bird and his mate have to give up in disgust and seek lodgment elsewhere.

Then the leader of that particular gang of sparrows, or some of their number selected by the gang, takes possession. The mocking birds go off, presumably to seek pastures new, where the sparrow is not. The net result is a steady diminution in the number of mocking birds in the vicinity of cities.—Atlanta Constitution.

### Good Roads Plan.

Cambridge, Md., May 28.—Here is one of the best arguments in favor of good country roads, and plenty of them, that has ever been advanced in Dorchester: County Commissioners Woolford and Noble last week inspected the route of a proposed new road that is to connect Bucktown with Shorter's wharf. The new road, if constructed, will be only three miles long, but it will shorten the distance from Lake's district to Cambridge 15 miles. At the present time the distance by county road is 30 miles. The new road will cost \$1,500. The intelligent building of short cut roads in Dorchester would bring all parts of the county in close touch and cause the people to become better acquainted. Then with the further extension of the splendid shell roads that now reach out for some miles in every direction from Cambridge, Dorchester would be the model county in the country for good roads. Twenty years ago the ancient village of Church Creek, which nestled around the head waters of the Little Choptank River, was for much of the year a remote point from Cambridge, although it is less than seven miles distant. This was because the Church Creek road for 280 years enjoyed the distinction of being one of the very worst in the State, and it was often next to impossible to travel it. For several years past the road has been one of the best in the county, and it is a pleasure to drive over it. Oyster shells are responsible for the improvement.

### Insurance Commissioner's Excellent Report.

The Thirteenth Annual Report of the Insurance Commissioner of the State of Maryland, has the following statement in regards to the financial condition of the department, which is a most excellent showing. By the report it will be seen that the present Commissioner, Hon. Lloyd Wilkinson, has increased the revenues of the office.

"The receipts of this Department for the year beginning May 21, 1901 and ending May 21, 1901, at which time the present Commissioner qualified and entered upon the discharge of his duties, were \$191,961.66, of which \$168,499.73 was derived from taxes and licenses and \$23,461.93 from fees. The gross receipts are \$12,144.25 greater than in 1899 and \$10,227.28 greater than ever before in the history of the Department. While our receipts were greater, our expenses have been less, and the surplus revenues accruing to the State, after deducting the entire expenses of the Department, will be \$180,484.57, or \$13,089.58 greater than last year. I am gratified that our first year's incumbency should show this increased revenue to the State."

### How to View the Sculpture at Buffalo.

It would seem well to emphasize this fact, that the general scheme of statuary was treated as a unit as to its scale, so as really to form a part of the exposition as a decoration of the same and not as individual statues or groups—because to many of the sculptors this was entirely a new idea. With most of them the statue or group had always been modeled for no particular place and to look equally well in the parlor, park, or museum—and to subordinate the sculpture to the general artistic purpose, and to make it an integral part of a big artistic scheme was to many a new experience and not an easy one; but it is fair to say that the work has been carried on with enthusiasm and with every endeavor to subordinate individuality for the sake of general harmony. Therefore, when judging the sculpture at the Pan American Exposition, to be perfectly fair to the individual sculptor, it will be necessary to consider the general effect, and the success of each individual piece of sculpture as a part of this effect, as well as the individual merit of the work, because in many instances the sculptor may have made sacrifices for the sake of the general result and should receive credit for having done so.—From "The Field of Art," in the June Scribner's.

## Bronchitis

"I have kept Ayer's Cherry Pectoral in my house for a great many years. It is the best medicine in the world for coughs and colds."

J. C. Williams, Attica, N. Y.

All serious lung troubles begin with a tickling in the throat. You can stop this at first in a single night with Ayer's Cherry Pectoral. Use it also for bronchitis, consumption, hard colds, and for coughs of all kinds.

Three sizes: 25c, enough for an ordinary cold; 50c, just right for bronchitis, hoarseness, hard colds, etc.; \$1, most economical for chronic cases and for use on bed patients.

J. C. AYER CO., Lowell, Mass.

### London And Paris—A Contrast.

The contrasts presented by Paris and London, are rather amusingly put by Felix Pejt in the *Matin*, of the former city. He says:

"Paris does most things with the right hand or at the right side; London follows the left."

"Parisian coachmen keep to the right, those of London to the left."

"Paris grows by absorption, London by expansion."

"Paris is built of stone, London of brick."

"Paris has high houses and narrow streets, London's buildings are low and its streets wide."

"The windows of Paris open like doors, those of London a la guillotine."

"Paris is collectivistic, it dwells in houses which are really caravansaries; London is individualistic, each family having its own house."

"Paris has its portier, London its night-key."

"Paris gets up early from its bed, which is against the wall; London arises late from its bed, which is in the center of the room."

"Paris dines, London eats."

"London, said Voltaire, has 100 religions and but one sauce; Paris has 100 sauces and no religion at all."

"Paris is gay, London sad."

"London has too few soldiers, Paris too many. The soldier in Paris wears a blue tunic and red pantaloons, while the London man of war is clad in a red coat and blue trousers."

"In Paris priests perform the marriage rites; in London they marry them selves."

"In Paris the married women are free; in London when a woman marries she ceases to be."

"Paris has more suicides, London more homicides."

"Paris works, London traffics."

"In Paris the street crowds fight by kicks, in London by blows of the fist."

"The proletariat of Paris refers to the pawnshop as 'My aunt,' while in London they say 'My uncle.'"—Translation made for the Literary Digest.

### Reduced Rates To Kansas City.

On account of the meeting of the Imperial Council, Nobles of the Mystic Shrine, to be held at Kansas City, June 11 and 12, the Pennsylvania Railroad Company will sell June 7, 8, and 9, from all stations on its line, excursion tickets to Kansas City and return at rate of one fare the round trip plus \$2.

These tickets will be good for return passage, leaving Kansas City not earlier than June 11 nor later than June 17. For specific rates and full information, apply to ticket agents.

### A Good Cough Medicine.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following a gripe, and find it very efficacious." For sale by R. K. Truitt.

## Public Sale OF VALUABLE Real Estate and Timber Land.

By virtue of a decree of the Circuit Court for Wicomico county the undersigned as trustee, will sell at public auction at the Court House door in Salisbury, Md., on

Saturday, June 8th, 1901,

at the hour of two o'clock p. m., all that valuable tract of land lying in Nutters district, Wicomico county, Md. four and one half miles south of Salisbury, being a part of the James Toadvine home farm, lying on both sides of the county road leading from Salisbury to Union church, being Lot No. 2 in the division of said home farm among the heirs, and adjoining lands of W. Hitch and A. P. Toadvine. This land will be offered in three parcels as follows:

No. 1. On the west side between the said county road and the land of Wm. Hitch, and containing 11½ acres, more or less.

No. 2. Lying between said county road and the land of Elijah Toadvine, and containing 40 acres, more or less.

No. 3. Lying east of Lot No. 2 and adjoining the lands of A. P. Toadvine and P. J. Hobbs, and containing 27½ acres, more or less.

Also all that tract of land situated in Worcester county, Md., of which Rachel J. Toadvine died, seized and possessed, in Atkinson district and on the county road leading from Hall's school house to St. Luke's church, and adjoining the property of Joshua Smullen, Leonard Kelley and John Ennis, containing 50 acres of land, more or less. This land is well set in marketable timber, as well as a part of the land first described, and would be a good investment for a timber man.

TERMS OF SALE—One half cash on day of sale, balance in one year, with the deferred payments secured to the satisfaction of the trustee.

Plans and further description of said land can be seen at the office of the trustee.

Title deeds at the expense of the purchaser.

G. W. D. WALLER Trustee.

## How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

## THE DIOCESAN CONVENTION.

A Good Attendance of Clerical and Lay Delegates. Woman's Auxiliary Meets on Thursday. A Trip to Ocean City.

Salisbury has been given over this week to the visiting clergy and delegates to the thirty third annual convention of the Diocese of Eastern which assembled in St. Peter's Church on Tuesday morning. The Woman's Auxiliary of the Diocese was also in session during the week. The good people of Salisbury are always glad to open their doors to visiting Conventions and during the past week it has been a pleasure to have the clerical and lay delegates with us. About seventy delegates have been in attendance and when not engaged in the work of the Convention they have been entertained by driving through the streets of our city which present a very attractive appearance at this season of the year.

The opening session was held on Tuesday morning at 10.30 o'clock. Rt. Rev. William Forbes Adams, Bishop of the Diocese, presiding. The Convention opened with Morning Prayer and Celebration of the Holy Communion and was followed by a sermon by Rev. Giles B. Cooke, rector of St. Mary Anne's Parish. At the opening business session Rev. E. R. Rich was chosen secretary and the appointments of the several Committees were made.

On Tuesday evening Bishop Adams delivered his annual address to the Convention before a large congregation. During his address the Bishop made the following interesting report: "There were 983 confirmations during the year, as follows: North Saxapfaw, 7; St. James, Port Deposit, 2; North Elk, 4; North Kent, 8; St. Paul's and I. U., 14; St. Luke's, Church Hill, 7; Wyre, 3; St. Michael's, 4; Trinity, Elkton, 1; St. Bartholomew, 8; Grace, Wicomico, 2; Somerset, 9; Coventry, 11; Whitechapel, Denton, 8; Holy Trinity, Oxford, 18; All Saints, 6; East New Market and Vienna, 8; Spring Hill, 4; Emmanuel, Chester, 15; Augustine Parish, 1; Whitmarsh, Trappe, 11; All Hallows, 5; Berlin, 9; Dorchester Parish, 4; Great Choptank, Cambridge, 18; Christ Church, Easton, 8; Trinity Cathedral, 9; total 189; Long Island, 682; Philadelphia, 112; grand total, 983.

During the year clerical changes were made as follows: Transferred—Rev. I. O. Warfield to Pennsylvania; Rev. Mr. Benedict to Massachusetts; Rev. G. S. Fitzhugh to Maryland; Rev. Mr. Farnkel to Laramie; Rev. W. W. Kimball to Maryland. Received—Rev. W. H. Higgins, by ordination; Rev. Henry C. Parkham, Rev. Hugh McD. Martin, from Virginia, Rev. Chester M. Smith, from Maryland, Rev. Robert George Hamilton from New Jersey.

In his address the Bishop dwelt with much earnestness upon the subject of Missions and his praise was unbounded of the good work being done by the Woman's Auxiliary.

The report of the treasurer of the Diocesan Missions Fund was read. The report showed collections from all sources for the year ending June 8, 1901 (including balance brought over from previous year of \$1,028.97) of \$2,670.00, divided as follows: From Parishes \$1,291.18; from personal pledges, \$105.00; from the Bishop, \$119.30; from collection last Convention, \$15.02; from Advent offerings, Sunday School, \$45.23; from Easter and Lenten offerings, Sunday schools, \$60.80; from Babies Branch, \$3.08. The total amount disbursed was \$1,071.47, leaving a balance on hand of \$999.23. The receipts for the year show a gain of \$276.58 over those for 1900.

One of the animated discussions of the Convention was brought on by the proposition to continue this year to devote one half of the Lenten and all the Advent offerings of the children of the Sabbath schools to Diocesan Missions. The question was pretty thoroughly discussed pro and con, the motion being finally carried by a large majority.

The reports of the various committees were made on Wednesday. The selection of deputies to the General Convention which meets in San Francisco during October next was also made. The following were chosen: Clergy—Revs. E. R. Rich, J. Gibson Gantt, Thomas Carter Page, A. J. Vanderbogart; alternates, Revs. J. A. Mitchell, Leonidas Baldwin, Giles B. Cook, William Schuler, Lay D. Legates—George M. Rossum, Col. William Muse, William Collins, W. H. Gibson; alternates, Gen. Joseph B. Seth, Dr. J. H. Stevens, W. H. Adkins, Dr. J. C. Dirrickson.

In the balloting for the standing committee of the Diocese of Eastern, Revs. J. A. Mitchell, W. Y. Beavan, A. Batte, David Howard and William Schuler were elected.

The Convention adjourned Wednesday evening. The twenty-fourth annual convention will be held in Elkton, Md.

Thursday was Woman's Auxiliary day. Business meetings were held in the morning and afternoon. Mr. Physick of Chestertown was elected a delegate to the General Convention in San Francisco, and Mrs. A. J. Vanderbogart was chosen as alternate. On Thursday night Rev. Dr. Prevost, an Alaskan missionary, addressed the auxiliary in St. Peter's Church. Mrs. Physick also made a few remarks relative to missions. A large audience was present.

After the service at the church a reception was given the visitors at the home of Mr. Thomas Perry on William Street. The reception was given by the Vestry and Woman's Guild of St. Peter's church. It was largely attended and was one of the most pleasant features of Convention week.

Friday at noon, the clergy and delegates, with a number of friends, went over to Ocean City to attend the opening services of the new church, St. Paul's-by-the-Sea, at that place. Rev. J. Gibson Gantt, rector, had extended a very cordial invitation to the Convention and friends to be present. Addresses were made by Bishop Adams, Rev. Dr. Prevost, Mrs. Physick, and others. The church has a seating capacity of 400, and it is expected that it will be finished and furnished by the middle of July.

Among those attending the Diocesan Convention this week were Mr. Chas. E. Williams and family, Mr. Jas. Waller and family and Mr. W. Frank Howard and family.

## FINE STRAWBERRIES.

Specimens of Old Favorites and Promising New Ones Sampled at the Advertiser Office.

Some fine strawberries have been exhibited at the ADVERTISER office this season.

Mr. W. Jeff Staton sent a quart of the well known Gandy variety. They were very large, almost perfect in form and all that could be desired in color. Mr. Staton makes a specialty of the Gandy on his Princess Anne farm.

A quart of the Pride of Cumberland reached us this week with the compliments of Messrs J. W. Jones & Son who are conducting a nursery and fruit business at Allen, this county. This is a nice berry, there being only 45 in the filled quart basket forwarded to this office. The description given above of the Gandy applies pretty well to the Cumberland. The latter being a trifle earlier than the Gandy.

Mr. George Tilghman's "Tilghman's Favorite" is continuing to attract attention. Berry growers in all parts of this county have become interested in its growth and habits. Mr. W. B. Tilghman of this city describes it as follows: "The berries are large, cone shaped, bright red and of excellent flavor. The plants are heavy bearers and the berries good shippers."

Messrs. W. S. Perdue & Sons, proprietors of Fruitvale Farms at Parsonsburg, have originated a new berry which they call the "Pride of Maryland." In speaking of this variety these gentlemen say "we have more than thirty of the leading varieties growing on our farms and this one is the most promising."

A quart of this variety sent to this office made an attractive appearance and its flavor was excellent but it appeared to be soft, a quality which, if it is characteristic, would detract from the berry as a shipper.

## Death of Rev. C. W. Prettyman's Mother.

Mrs. Catharine W. Prettyman, aged 86 years, died at Camden Del., last Friday afternoon of paralysis. Her health had been failing for a year, and she had been unconscious since Monday. Two children survive her, the Rev. C. W. Prettyman, D. D., of Wilmington and Mrs. Sallie J. Wright of Camden. The other child were Mrs. Cornelia P. Taylor, who died at Dover in 1888; the Rev. Thomas J. Prettyman, who died at East New Market in 1883, and William N. and John H. Prettyman, who died in infancy. Last week while conversing with her daughter, Mrs. Prettyman took from a bureau drawer a silk dress, which she requested that she be robed in for burial. She also expressed a desire that the Revs. T. E. Martindale, D. D., and P. H. Rawlins officiate at her funeral. Dr. Martindale left Salisbury Monday morning for Camden to comply with the last request of Mrs. Prettyman whose remains were interred at Camden Monday afternoon. From Camden Dr. Martindale proceeded to Carlisle to attend a meeting of the Trustees of Dickinson College.

—Col. Wilbur F. Jackson was in Salisbury this week.

## TWO PRIMARIES.

The Judicial Contest in the County Will Be Settled on June 29.

The Democratic State Central Committee of Wicomico County, ex-Gov. Jackson, Mr. Wm. Levi Laws, and Mr. James T. Truitt, held a public meeting at the Court House on Tuesday morning. As told in the ADVERTISER last week, the purpose of the meeting was to consult with the Democrats of the county relative to one or two primaries. There was quite a number of the leaders of the different districts present and all seemed to take a deep interest in the outcome. The attendance was much larger than was expected, it being feared that the busy season at this time of the year would prevent many from the country being present. While there was quite a diversity of opinion among the democrats before the Committee yet a majority seemed to favor two primaries and it was so decreed. Those who favored a single primary accepted the result with good grace and there seemed to be prevalent a feeling of entire good will and all expressed the belief that the primary would settle the Judicial contest and that the party would present a solid front in support of the successful candidate.

An Executive Committee, published in another part of this paper, was appointed in each district of the county. The committee is composed of two delegates from each district, Judge Holland being allowed to name one and Mr. Ellegood the other. This committee will serve for one year and have entire charge of the primaries within the party during that time.

The State Central Committee will meet again Saturday afternoon to issue the instructions to the Executive Committees in accordance with the rules and regulations laid down by the State Central Committee in Baltimore last week.

## Miss Powell's Reception.

Miss Marian E. Powell gave a reception this Friday evening at her home on Division Street in honor of Mr. and Mrs. Charles T. Leviness Jr. of Baltimore, who are visiting Mrs. Leviness' parents, Mr. and Mrs. L. W. Dorman.

Those who received in the parlor with Miss Powell were: Mr. and Mrs. Charles T. Leviness Jr., Miss Lynda Stephens of Seaford, Mr. Alan Benjamin, Mr. Everett Jackson, Miss Helen Leonard and Miss Nancy Gordy. Receiving in the sitting room were Mrs. Priscilla Barnes, Mrs. L. S. Powell, Mrs. Laura Powell, Mrs. Belle Jones and Mrs. Estelle Powell.

A program consisting of the following numbers was rendered from nine to ten o'clock:

Vocal Solo.....Mrs. J. D. Wallop.  
Vocal Duets.....Mrs. Spring and Mrs. J. D. Williams.  
Recitation.....Mrs. R. D. Grier.  
Piano Duets.....Miss Towdine and Miss Reigart.  
Vocal Solo.....Mrs. J. D. Williams.  
Recitation.....Mrs. Chas. T. Leviness Jr.  
Vocal Solo.....Miss Nancy Gordy.

Immediately after the program refreshments of ices, bon-bons, fruits and nuts were served. Those who assisted in the dining room were: Miss Virgie Gordy, who presided at the coffee urn, Misses Content Judkins, Elizabeth Humphreys, Grace Ellegood, Beatie Ellegood, Marian Venasey and Edna Owens.

In the rear end of the hall was a large punch bowl from which punch was served during the evening.

The decorations were in pink and the effect was very pretty.

## Death of Mrs. Bush.

Mrs. Mary Anne Bush formerly of this county died at the home of her daughter, Mrs. D. E. Bellow, Philadelphia, this week. The remains were brought to Salisbury on Friday afternoon and taken to St. Peter's P. E. Church where services were held. The interment was made in Parsons Cemetery.

Mrs. Bush was born on Rewastico Creek Oct. 3rd, 1823 and was the daughter of Samuel Jackson. She was married on July 4th, 1841 at Spring Hill Church to Capt. Joseph C. Bush, then of Baron Creek Springs. In 1845 they moved to Salisbury where they resided until the death of Capt. Bush in December 1876. For several years past Mrs. Bush has lived in Philadelphia with her youngest daughter, Mrs. D. E. Bellow. Besides Mrs. Bellow, the following children survive her, Miss Sarah of Philadelphia, Mrs. Henrietta Gerald of Hannibal, Mo., Mr. Joseph Bush of New York and Messrs. Samuel and Sydney of Atlantic City.

—Mrs. Sarah D. Walton left last Monday for an extended visit to friends in Kentucky.

## REPUBLICANS MEET.

Their Conventions Fixed For Dates Following Those of the Democrats.

## COMPLETE HARMONY SAID TO EXIST.

The Republican State Central Committee met in Baltimore on Tuesday and named the Republican Convention dates. August 6th was fixed as the date for the State Convention and it, like the Democratic State Convention, will be held in Baltimore. The Judicial Convention of the First District will assemble at Ocean City on July 25th. The two Conventions are fixed for dates following those of the Democrats. The Republicans say this was done that they may take advantage of any little "slip up" their opponents may make.

The meeting in Baltimore is described as being well attended and very harmonious. Boies McCombs was present and had everything out and dried so that the meeting might have the appearance of being a party lovefeast. Chairman Goldborough in his address denounced the Democratic party and urged that everyone stand together to make the battle this fall, that a Republican might be elected by the next Legislature to succeed Senator Wellington.

It was generally conceded by the delegates present that Mr. Robt. P. Graham would be nominated by the Republicans at the Judicial Convention of the First District. The Baltimore News on Tuesday says:

"The Republican nomination for judge in the First district will probably go to Tax Commissioner Robert P. Graham of Wicomico county. There are two other candidates, Former State's Attorney Gordon Tull of Somerset county and A. P. Barnes of Worcester, but it is thought they will simply get complimentary votes in the convention, and that Mr. Graham, who will hold the votes of Wicomico and Dorchester, will come out as the candidate on an early ballot.

The fact that Mr. Graham comes from Wicomico county, where the chief fight among the Democratic candidates—Judge Charles F. Holland and James E. Ellegood—seems to indicate that Wicomico county will have the first right to name an opponent."

## Children's Day Service.

A large congregation was present at the Methodist Protestant Church last Sunday evening to witness the Children's Day exercises, which proved to be very entertaining.

Quite a lengthy program of music and recitations had been carefully prepared and was well rendered, by the school.

The primary class made its appearance on the stage and received much praise for the excellent manner in which they acquitted themselves, showing careful training.

The Church was very prettily decorated with flowers and plants for the occasion. A liberal collection was taken which will be devoted to the Missionary cause.

Extensive preparations have been made by the schools of Wicomico Presbyterian Church, Asbury M. E. Church, Trinity M. E. Church, South, and Division Street Baptist Church for Children's Day exercises to be held Sunday evening.

At Asbury M. E. Church the collection taken will be devoted entirely to the Conference Academy debt. The musical program is especially pretty and the exercises are sure to be interesting and instructive. The primary class will of course take its usual prominent place on the program.

Mrs. Belle Fowler has been busy training the children at the Presbyterian Church, and they have an interesting program for Sunday evening. Special music has been prepared by the choir also.

## Cantaloupe Blight.

State Pathologist Charles O. Townsend writing from the Maryland Agricultural College, College Park, says the cantaloupe blight is caused by a thread-like fungus that grows into the leaves and destroys them, causing them to turn brown. A large part of the material that enters into the composition of the fruit is made in the leaf, hence any injury to the leaves must as a result reduce the size and quality of the melons. The thread fungi soon produce new spores that are carried by the wind from leaf to leaf and from plant to plant until often the whole field becomes diseased. The control of this pest consists in the use of a fungicide that will prevent the spores from germinating. The best fungicide probably for this purpose is Bordeaux mixture used as a spray every week or 10 days.

## The Rev. Chas. Stengle Indicted.

Norfolk, Va., June 4.—Four indictments were found by the Grand Jury here today against the Rev. Charles I. Stengle, formerly chaplain of the Delaware Legislature, and at one time a member of the Wilmington Methodist Conference, charging him with the embezzlement of \$350 from Hal M. Davis of Cincinnati.

Stengle was arrested and admitted to bail in the sum of \$1000. His trial was set for June 11.

## Peninsula Crop Reports.

Reports on June 1 from the officers and members of the Peninsula Horticultural Society show a continued favorable condition of nearly all the leading fruits. On the basis of 100 as a full or normal crop, the following averages are given: Peaches, 96; pears, 80; apples, 40; plums, 92; quinces, 90; cherries, 90; strawberries, 80, blackberries, 70; raspberries, 40. The season has been cold and backward but warm clear weather is now bringing everything forward rapidly. Asparagus is giving a fair yield and bringing satisfactory prices and this is true of strawberries.

It was generally conceded by the delegates present that Mr. Robt. P. Graham would be nominated by the Republicans at the Judicial Convention of the First District. The Baltimore News on Tuesday says:

# WALK-OVER SHOE FOR MEN

## A Well Shod Man

Is one who wears the WALKOVER Shoe.

### The Best Man's Shoe on Earth.

That's what the makers claim for the WALKOVER Shoe—and nobody disputes it. They are the best shoes—so much the best that there isn't a close second. Years of experience in shoemaking and a study of the facts required to fit all feet perfectly has brought them up to this high standard. You never find the WALKOVER name linked to shoes except they are made of the finest stock. No wonder they have the universal reputation of being the best. As the exclusive agents here for the sale of the WALKOVER Shoes we carry the full line of shapes and styles. One thing that's true of a WALKOVER Shoe wearer is that nothing but a WALKOVER Shoe suits him.

Never mind the price—see the shoes—they don't cost a penny more than they are worth. If these shoes were not so good we would not talk so much about them.

of Gotham were no doubt wise enough in their way. It is probable that they knew a great deal about a whole lot of things, but they made a mistake when they went to sea in a bowl, and that one error caused their undoing.

No matter how much care you take in the selection of the materials for your building or how experienced or reliable your mechanics, if you use inferior shingles you make a great mistake.

The covering of a building is the most important part of the materials used in its construction. "The weakest link is the strength of the chain," and "The poorest shingles determine the last of the roof." And it is poor economy to run so great a risk of having a leaky roof, to save such a trifling amount of money. Act wisely and buy best.

### HAD "BAD SPELLS"

A Widow's Testimony To Show Unsoundness Of Mind.

Snow Hill, Md., June 7.—In the trial of the suit to set aside the will of Benjamin I. Jones, late of Pocomoke City, Mr. Jones' widow testified to numerous acts of the deceased, which the caveator offered as tending to show unsoundness of mind. Mrs. Jones testified that about 10 years ago she first noticed his peculiarities. He then frequently told her he "had a bad spell coming on him," and she had better look out; that without any apparent cause he would make violent assaults upon her with his fists, with sticks or whatever he could lay his hands on; that in the middle of the night she frequently was awakened by vigorous kicks from her husband and was compelled to leave the room and lock herself in another apartment for protection; that Mr. Jones told her himself that it was not safe for her to remain with him alone; that one of these "mean spells" might come on him. Mrs. Jones testified also that Mr. Jones would often stand in front of his house and throw bricks and stones at his house with every evidence of temper; that he had often threatened to kill his sons, saying he would like to put a pistol ball in each of them. The day he made his will he came home and told his wife that he had "made a will that all—could not tear up." The case will probably consume several days.

Mr. Jones was a prosperous farmer and left an estate valued at about \$10,000. By his will he left \$700 to his widow and the balance of his estate to his grandchildren, and only \$1 to each of his children. His son, Benjamin S. Jones, who has no children, filed the caveat to the will.

### A Valuable Publication.

On June 1 the Passenger Department of the Pennsylvania Railroad Company will publish the 1901 edition of the Summer Excursion Route Book. This work is designed to provide the public with descriptive notes of the principal Summer resorts of Eastern America, with the best routes for reaching them, and the rates of fare. It contains all the principal seashore and mountain resorts of the East, and over seventeen hundred different routes or combinations of routes. The book has been compiled with the greatest care, and altogether is the most complete and comprehensive handbook of Summer travel ever offered to the public. The cover is handsome and striking, printed in colors, and the book contains several maps, presenting the exact routes over which tickets are sold. The book is profusely illustrated with fine half tone cuts of scenery at the various resorts and along the lines of the Pennsylvania Railroad.

On and after June 1 this very interesting book may be procured at any Pennsylvania Railroad ticket office at the nominal price of ten cents, or, upon application to the general office, Broad Street Station, by mail for twenty cents.

### Life.

The poet's exclamation: "O Life! I feel thee bounding in my veins," is a joyous one. Persons that can rarely or never make it, in honesty to themselves, are among the most unfortunate. They do not live, but exist; for to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in the veins. A medicine that has made thousands of people, men and women, well and strong has accomplished a great work, bestowing the richest blessings, and that medicine is Hood's Sarsaparilla. The weak, run down, or debilitated, from any cause, should not fail to take it. It builds up the whole system, changes existence into life, and makes life more abounding. We are glad to say these words in its favor to the readers of our columns.

Mrs. Henry Brode of Frostburg alleges in a communication to State's Attorney Wilson that her daughter Ella has been made the victim of a mock marriage and investigations are in progress.

### Our Query Column.

#### ANSWERS TO QUESTIONS.

No. 109. What queen was crowned, with all due ceremony, after her death? Inez De Castro, queen of Dom Pedro I, of Portugal, was the near relative of the King of Castile; but, notwithstanding her royal descent, she consented to a clandestine marriage with Dom Pedro, whom, for political reason, his father had already contracted in marriage to a Spanish princess.

She was married to Dom Pedro on January 1, 1847. Three years afterwards she was murdered by assassins, instigated to the act by her father in law, the King of Portugal. When Dom Pedro heard of her assassination, he was beside himself with grief and rage. He desolated with the sword those portions of his father's realm in which the assassins lived.

Two of the criminals fell into his hands, and were executed after being exposed to the most horrible tortures for three days and nights.

When he came to the throne, shortly after he had the body of Inez taken from the grave, placed on a magnificent throne, arrayed in robes of royalty and crowned, "Queen of Portugal." The court was then summoned and compelled to do her homage as if she were a living queen. One fleshless hand held the sceptre; and the other the orb of royalty. The night after the coronation there was a grand funeral cortege. They escorted the crowned queen as she lay in her rich robes in a grand chariot to the royal abbey of Alcobaca for interment. Her monument is still to be seen there with that of Dom Pedro at the foot of it.

It is said that Dom Pedro lived for many years, a cold, gloomy, yet merciful ruler, winning the title of "Pedro the Just." From the son of this princess, Dom Juan, descends the present reigning house of Portugal.

An attempt made by Philip II, of Spain to secure the throne of Portugal by trying to prove the marriage of Inez illegal, shows clearly the political reason for the posthumous coronation of Inez De Castro, beloved wife of Dom Pedro I, of Portugal.

No. 110. Who was the last of the Incas?

The origin of the Incas, the native rulers of Peru, is purely traditional. From traditions, gathered by the early Spaniards, it appears that Manco was the name of the first Inca (Child of the Sun). He founded the city of Cuzco, instructed the men in agriculture and the arts, gave them a religion and a social organization; while his wife taught the women to sew, spin and weave. The Inca was not only a ruler of his people but also the father and high priest. After ruling over his people forty years, "he ascended to his father the Sun." The year generally assigned as that of his death is A. D. 1093. The progress of the Peruvians was slow; they invented no alphabet and could therefore keep no written records. Thus it is that we have exact history of the Incas further back than about one hundred years before the invasion of the country by the Spaniards. Three distinct historical eras are manifested in Peru. The Pre-Incaic period, of unknown duration, during which a highly civilized people lived in large cities, had a language and religion more advanced than even those of the Incas who succeeded them. Whence they came, and to what branch of the human family they belonged, are still unanswered questions.

Their existence, however, is clearly attested by vast architectural remains. Then follows the period of the Incas, which attained the height of its glory when Huayna Capac ascended the throne, in 1475. From that date to the present time may be considered the third historical era of Peru.

Atahualpa was the last Inca of Peru; when his father, Huayna Capac, died, he left his throne to his eldest son, Huascar, and gave Atahualpa the government of Quito, of which his mother had been princess. This division of the Empire led to civil war; and, after a long and bloody struggle, Huascar was taken prisoner and Atahualpa became Inca. It was at about this time that Pizarro invaded Peru, and Atahualpa ordered that he should be treated kindly and gave him quarters in one of his cities.

A meeting between the two having been arranged, Atahualpa approached the Spanish camp with a retinue of followers, unarmed, when he was treacherously seized by Pizarro and thrown into prison. Atahualpa offered as his ransom, to fill the room in which he was confined as high as he could reach with gold. Pizarro accepted the ransom; but, while the Peruvians were bringing in the gold from all parts, he was plotting to kill the Inca and seize his vast treasure.

At length, when the ransom was paid and the Inca demanded his liberty, Pizarro refused to grant it, falsely accusing him of plotting against the Spaniards.

After much base treachery on the part of Pizarro, Atahualpa was brought to a mock trial and condemned to be burned; but, upon his consenting to be baptized, the sentence was commuted to strangulation, 29 August, 1533.

No. 111. How does the motion of the earth differ from all artificial motion?

The motion of the earth is perpetual, while all artificial motion is temporary. The one is irresistible, while resistance puts the other to rest. The earth has three motions: First, upon its own axis; secondly, around the sun; thirdly, with the sun and the planetary system it moves in a great revolution through space. The weight of the earth is forty six hundred and forty three trillions of tons. Yet it moves its orbit around the sun at the rate of eleven hundred miles per minute, distant ninety five million miles, without effort or support, without the ruffling of a feather or the disturbance of a single grain of dust.

### ROUND-UP OF CALIFORNIA LIONS.

An Attempt to Kill Off the Big Cats That Worry Arizona Sheepmen.

Phoenix, Ariz., May 31.—John McCarty, Territorial Game Warden, has begun a big round-up of California lions in the San Francisco Mountains, about 10 miles north of Flagstaff. In that country the big cats are found in larger numbers than in any other locality in Arizona, and the party expects to bag several hundred of them.

At one time the California lion was found in all parts of Arizona, but larger Territorial and county bounties have caused its extermination in many districts. At \$20 a head hunting the beasts was a profitable business, and some hunters, in times past, have killed a score of lions in a week. A total of more than \$100,000 has been paid in Arizona for scalps in the past ten years. Hundreds of lions beside have been shot by cattle, horse and sheep men, who have not asked for the bounties, taking as their reward the fact that they have disposed of the cause of the slaughter of their calves, colts and lambs.

While the lions have grown less common in the southern part of the Territory, there has been no decrease in their numbers in the wilder northern regions. Sheepmen in the San Francisco Mountains have complained of late that the lions were killing off all their lambs. Warden McCarty has taken the matter in hand, and, with five experienced lions hunters and two score trained lion dogs, he expects to rid the country of the pest.

He will organize with the cowboys and shepherds a large party, which will scour the district where the lions are most common. The animals will be driven into the centre of a circle where they can be killed.

The California lion is a small species of the panther family. It is about the size of a Canadian lynx and possesses a similar nature. It is cowardly and has never been known to attack a man unless cornered, but is capable of a fierce fight when driven to bay. McCarty is a collector of specimens for Yale, Harvard, Cornell and other universities, and expects to send to them trophies of the hunt.

Dorchester is agitating the question of a trolley road from Cambridge to the lower districts of the county, and hopes to interest enterprising capital in the scheme, which, it is said, would be a profitable investment. The new road to Bucktown, Dorchester county, to Shuster's wharf, will be only three miles in length, but will shorten the distance by road between Cambridge and the Lake district of the county by 15 miles. This is a fair sample in the county roads, many of which are unnecessarily roundabout.

Registered voters and those entitled to register and vote at the next election in November will be entitled to participate in these primaries. In case of contest the polls will be kept open in the different districts from 3.00 until 5.00 o'clock, p. m.

The election will be held under the rules and regulations governing primaries, as passed by the State Central Committee at Baltimore, May 28th, 1900.

The following Executive Committees for each district were appointed to have charge of the Primaries and to appoint Judges and Clerks in accordance with the rules adopted by the State Central Committee:

Baron Creek. J. A. Waller, J. T. Hopkins, Quantico. W. B. Fuller, J. J. Jones, Tynkin. L. J. Dashiell, Gran. M. Catlin, Pittsburg. E. G. Davis, Sewell T. Parlow, Parsons. F. L. Waller, W. B. Gordy, J. Dennis. I. B. Williams, L. B. Brittingham, Trappe. Wm. S. Moore, J. W. Dashiell, Nutters. Willie F. Ward, Henry D. Powell, Salisbury. Wm. E. Sheppard, J. R. T. Laws, Sharptown. A. W. Robinson, W. C. Mann, Delmar. G. H. Wood, L. B. Ker, Nantuxie. H. J. McKee, W. J. Wallis, E. E. JACKSON.

## THE JUDICIAL CONTEST.

The action of the State Central Committee in calling two primaries brings before the people a primary contest for Judge of the Circuit Court free and distinct from any other issue. A great many persons, friends of both candidates, thought this was best and the Committee in deference to their wishes ordered a separate primary for Saturday, June 29th, in which to allow the voters of the county a chance to express their choice between the two candidates of this county.

It is universally conceded that both of the gentlemen, Judge Holland and Mr. James E. Ellegood, who are asking for a delegation, are as good men and as highly respected as any in the State. Both are of unquestioned integrity and ability. That the nomination of either of these gentlemen would reflect to the credit of the Democratic party goes without saying. The Democratic voters of the county being thus placed in a position where they must choose between two such good men, it would seem that they must render their verdict from something more than a mere personal choice. In this respect it is of interest to cast a glance at the election returns of last year in the four counties comprising this Judicial district. Somerset and Dorchester gave large Republican majorities while Worcester and Wicomico gave reduced Democratic majorities, the result being that there was a Republican majority of six hundred in the four counties of this Circuit. The Democrats this year will have a hard fight to win the Judgeship and the candidate who can command the greatest strength in the general election would seem to be the logical one for Wicomico to present to the Ocean City Convention.

The ADVERTISER will cheerfully support the people's choice and only desires that the nominee shall be a man who can bring victory to the ticket in this fall's election.

—Mr. F. A. Richardson, for more than thirty-five years a special correspondent of the Baltimore Sun, during which time he has acquired a national reputation as a public writer of exceptional abilities, has retired from active journalism.

The Sun's letters from the pen of "F. A. R." have always been vigorous and polished, all subjects being treated by him with a characteristic cleverness and accuracy which made his fame and reflected great credit upon the Sun.

In speaking of his retirement the Sun says:

"His extended acquaintance with public men, his wide range of information about public affairs, his trenchant

style have combined to make his work for the Sun exceptionally valuable and interesting. In his 35 years in Washington journalism Mr. Richardson saw thousands of Congressmen come and go, his experience as a correspondent in active service extending through nine Presidential terms. His relations with the leaders in politics and official life were of the most intimate and confidential character."

The Sun announces that "F. A. R." will occasionally write for the paper.

—Dr. Ira Remsen has been elected President of the Johns Hopkins University to fill the vacancy caused by the resignation, some time ago, of Dr. Gilman. Dr. Remsen is a man of great scientific knowledge. The Baltimore Evening News, says:

"Throughout his career in Baltimore, he has been recognized as that member of the Faculty who, in addition to his eminence in his specialty, possessed in an exceptional degree the qualities of a successful administrator. If the selection of a new President was to be made from among the existing Faculty of the University, it was almost a matter of course that the choice would fall upon Professor Remsen. In addition to the qualities already spoken of, Professor Remsen has the advantage, no small one in the position he is about to fill, of being extremely popular, both within and without the University walls. He will enter upon his new and great responsibilities with cordial good wishes of students and professors, and of the people of Baltimore at large."

## Ex-President Cleveland on Waste of Public Money.

In an article on "The Waste of Public Money," published in the Saturday Evening Post, of Philadelphia, former President Grover Cleveland sounds a warning to the people against the dangers that lie in reckless extravagance in public expenditures. Among other things he says:

"If the aggregate mass of our people are at all blameworthy on account of the present advanced stage of public prodigality it is largely because they overlooked and tolerated its small beginnings, when at all times they should have been vigilant and uncompromising. A self ruling people, responsible for every miscarriage of their government, should above all things constantly remember that nothing multiplies itself more abundantly than national extravagance, and that neither an individual nor a popular government can easily correct or check habits of waste. "While easy going indifference and toleration produce bitter fruit, an infinitely more dangerous and threatening condition is presented by the fact that many of our citizens have passed beyond the stage of mere indifference and, by accepting the bribes of selfish and personal advantage which public waste and extravagance offer, have been stimulated to find excuses for their existence. Thus is disclosed the manner in which familiarity with these pernicious agencies, and especially participation in their spoils, dulls the popular conscience and distorts the people's conception of good citizenship."

"Those elected by the people to public places are apt to subject themselves to any contagion among the people—even to the surrender of individual conviction and the abandonment of individual conception of sworn duty. No elected officeholder cares to invite political martyrdom by refusing to obey the behests of influential constituents, and conscientious scruples are overruled by the plea that a public servant must be obedient to the will of those he represents."

"Another astounding occasion of public waste and extravagance has grown out of the abuse of our nation's tender regard for those who suffered in its defense. Through the efforts of unprincipled pension agents and attorneys a lavish administration of extremely liberal general pension laws has resulted in numerous undeserved allowances, and these have been largely increased by thousands of pensions granted by special laws to those who have failed for want of merit under general statutes. These beneficiaries have thus learned that earnest support of a party leader, or a pledge of partisan return for special Congressional favor may be relied on as promising substitutes for pensionable disability."

"The lesson of extravagance and paternalism must be unlearned; economy and frugality must be reinstated; and the people must exact from their representatives a watchful care for the general welfare and a stern resistance to the demands of selfish interests if our government is to be an enduring and beneficent protection to a patriotic and virtuous people."

## A MARYLAND INDUSTRY.

An Advertiser Correspondent Writes  
Some Interesting Facts Concerning Sparrow's Point.

Baltimore June 4, 1901.

EDITORS ADVERTISER: I visited recently the works of the Maryland Steel Co. at Sparrows Point, and I thought perhaps a brief description of what is one of the most important enterprises in the State might interest some of your readers. Sparrows Point (sometimes called Steelton though incorrectly) is on the North bank of the Patuxent river near its mouth, and is twelve miles by rail from Union Station. It is reached by a branch of the Northern Central R. R., there being fourteen passenger trains per day each way, twenty eight in all, besides numerous freight trains. The Maryland Steel Company owns the entire town of Sparrows Point, containing a resident population of about four thousand, together with about one thousand acres of the adjacent land.

To give one an idea of the amount of work done here it is only necessary to state that the number of employees when all departments of the work are in operation reaches from thirty five hundred to four thousand, and the weekly pay rolls of the Company usually amounts to about thirty eight thousand dollars.

There are four furnaces, three of which are now in blast, and these consume about 1650 tons of iron ore every twenty four hours or 49500 tons per month. Most of the foreign ore comes from the mines of Santiago, and Daiquiri, in the Island of Cuba, with an occasional cargo from the Spanish Ports of the Mediterranean. After being melted and mixed with certain per cent of native ore from the region of the Great Lakes it is treated by the Bessemer process and thus converted into steel, most of which is made into rails, the output of the rail mill is about fifteen hundred tons daily or forty five thousand tons per month. There is also manufactured a large quantity of structural iron used in the erection of large buildings, bridges etc.

Another large and important branch of the work is the marine railway, at which have been built many steamers and other vessels for the Chesapeake and the custom trade. There are on the way now two colliers over five hundred feet in length, and one six hundred feet long. There are also in process of construction for the U. S. Government three torpedo boat destroyers, also a large floating dry dock, to be taken to Algiers, for the purpose of enabling our Naval ships while stationed or cruising in that part of the world to have any needed repairs made to them.

At this time there are some four or five hundred machinists on strike, demanding ten hours pay for nine hours work, but it is thought the matter will be adjusted shortly and that most of the strikers will resume work. The Maryland Steel Company pays to the B. & O., and to the Pennsylvania R. R. each about one hundred thousand dollars monthly for freight charges, and I saw a recapitulation of the freight car report for the year 1900, which shows the Company handled 81,786 freight cars during last year.

Mr. W. F. Wood is the President of the company, and has presided over this vast hive of human industry since its organization in 1885. He is popular with his subordinates, and this large force too seems to be composed without exception, of men who understand their business, are careful of the Company's interests, and at the same time genial, polite and thoroughly accommodating.

## A Good Beginning.

The Baltimore Sun, says: The recent good roads convention in New Orleans has borne fruit even sooner than was expected, for the parish of St. Bernard, which reaches the suburbs of the Crescent City, has declared by a practically unanimous vote to levy a five mill road tax. The election was under the provisions of the State Constitution, which confines the vote to the property taxpayers of the parish, and there were but two dissenting votes. The Times Democrat is confident that the example of St. Bernard will be followed by other parishes, and that soon good roads will become a feature in Louisiana.

## A Few "That's."

Tennyson could take a sheet of paper and write a poem on it worth \$1,800 or about \$6,500—that's genius.

Rockefeller can write a few words on paper and make it worth \$10,000,000—that's capital.

A mechanic can take a piece of metal worth \$5 and make it into watch springs worth \$1,000—that's skill.

A hod-carrier can work ten hours and handle some tons of earth for \$1.50—that's labor.

A man can run a business and not advertise—that's foolishness.

Some people depend for success on everything but hard work—that's bankruptcy.

## The Opal Superstition.

There is one superstition of wide range and influence that is directed against one of the most beautiful objects in nature, the opal. A man in my town failed in business, and what do you think he did? Took his opal ring into the yard and smashed it to pieces with a hammer! He ascribed his bankruptcy to that opal, and he intended neither to suffer such misfortune again nor to allow any other one to do so by inheriting or buying that ill starred property.

One of the most amusing instances of a trust in wrong things is reported from New York, where a man took an opal to a jeweler and asked him to sell it, as he had had nothing but bad luck since he owned it, his business ventures having failed, his children having been to pay generally. The jeweler found the gem to have been an imitation. Its falsity must have been obvious to everybody except the victim, because the opal is the stone that has never been even passably imitated. —New Lippincott.

## His Emancipation.

Away back in 1771 Josiah Woodbury of Beverly, Mass., thus published his happy emancipation from matrimonial woes:

BEVERLY, Sept. 16, 1771.  
Ran away from Josiah Woodbury, cooper, his lawful wife for seven long years, Maury Old Moll, alias Trial of Vengeance. He that lost will never seek her; he that shall keep her I will give two Bushel of Beans. I forsworn all Persons in Town or County from trusting said Trial of Vengeance. I have have all the old (shoes) I can find for joy, and all my neighbors rejoice with me. A good Riddance of bad Wares. Amen!  
JOSIAH WOODBURY.

## It Yielded.

Second Physician—It did. I treated it for six months, and it yielded something like a hundred guineas.—London Fun.

## Opossums in Bad Luck.

Crisfield, Md., June 4.—Oliver Sterling, residing in the suburbs of Crisfield, lost several broods of chickens last week and set a trap to catch the thief. The following morning he was surprised to find 11 opossums in the trap. It was an old opossum with her 10 young ones in her pouch. Opossums have a great liking for spring chicken and will venture into all parts of the town where they are sometimes caught, even on the wharf. One had the rashness recently to attack the chicken coop back of the Crisfield Hotel. E. B. Gunby caught one which had grown fat on the chickens in his barn on Maryland avenue.

## "D. H."

These two letters are among the curses of civilization. They stand for "DEAD HEAD." They add to the cost of travel, to the cost of the pleasures of life, they add to discomfort. How? Go to any theatre. Who has the best seats, so that you can't buy them? The man with the "D. H." pass. Get on a sleeping car and who has the best berth? The man with the "D. H." Who rides on the front end of the grip car on a warm summer evening? The man with the "D. H." tickets. What's the effect? You pay more for your railroad ticket, because somebody has to pay the railroad for the ride of the "D. H." You'd get a better seat at the theatre, the front end of the grip and you'd stand a better show of getting a front seat in the next world if it wasn't for the "D. H.'s. Lacy Thoroughgood believes that every man should pay his own way—that he should not be asked to pay more because somebody else got "somethin' for nothin'." that you should'n't pay three dollars too much for your suit to even up the \$3.00 hat that was thrown in with Smith's suit, that you and nine more should'n't pay a dollar apiece too much to make up for the \$10.00 that somebody else got trusted for and didn't pay. Whirl that around in your mind for awhile before you start to town to buy your clothes. There are plenty of people who think as Thoroughgood does, and they trade at Thoroughgood's—not only because they pay for what they get, but they get what they pay for. Now for the next 60 days Lacy Thoroughgood is going to hold a Sensational Sale of clothing, the most marvelous clothing sale ever held in Salisbury. Thoroughgood has now over six hundred men's suits and five hundred boy's and children's suits, five hundred pairs of men and boys pants, and we've had such bad cold weather they haven't sold as fast as usual this spring and Thoroughgood has made up his mind that something has to be done, and done quickly. The plain truth is Thoroughgood is over-stocked, and the clothing now on hand formerly sold for \$10.00, \$12.50, \$15.00 and \$18.00 will be turned into cash. At Thoroughgood's you pay for a good suit and get it. No Dead Heads.

SUMMER  
....NECESSITIES....

One of the necessary things to make summer comfortable is a hammock, and knowing this we have made a special effort this season to get the prettiest and best ones we could. One great beauty about them is the extremely low prices at which we can sell them. We have them all prices ranging from 75c. to \$4.00.

## PORCH SCREENS.

We have just received a large lot of bamboo screens, just the thing to make your porch not only shady but private. We have them 6, 8, 10 and 12 foot long at 15c. and 20c. per foot.

### DELMAR

Bishop Coleman, of Wilmington, preached in the P. E. Church Sunday evening.

Miss Alice Hastings has returned from a visit to friends in Wilmington and Woodbury, N. J.

A. Harland Elliott, John M. Elliott and Wm. Hitchens are spending a few days with relatives and friends in Philadelphia.

S. E. Fockey spent Sunday in Old Point Comfort, Newport News, and Norfolk.

Chas. W. Hill, operator for the Baltimore and Ohio Railroad at Holmes, Pa., has been promoted to the position of manager in the B & O telegraph offices at Twenty fourth and Chestnut Streets, Philadelphia. Mr. Hill was formerly a resident of Delmar.

Part of the machinery for the new roller mill has arrived and is being placed in position.

Geo. Baynum, formerly of Delmar but now of Milford, was in town Tuesday.

J. H. Wiley, Supt. of Schools for Sussex County, was in town Wednesday.

A. B. Jones, who has been spending a few months with his sister Mrs. T. R. Windler, has returned to Wilmington.

The contract for the Masonic Temple to be erected in Delmar has been awarded to W. E. German. The building will be commenced in a few days.

Mr. M. Boyer, of Philadelphia, is relieving Mr. Herbert Sipple as night operator at the Del. Division scale-house. Mr. Milton Stevenson, of Onley, Va., is day operator at the new office established at the N. Y. & P. N. coal-bin. Mr. John Hancock, of Borters, Del., is assisting in the master's office.

Rev. L. A. Bennett preached a special sermon to the Red Men Sunday morning.

Revival services at the M. E. Church came to a close Sunday evening.

J. E. Wilson and family, of Nassawadox, Va., have occupied the house on the corner of Railroad Avenue and Elizabeth Streets.

At the regular business meeting of the Delmar Cornet Band on Monday evening, it was decided to purchase uniforms for all the members of the band. The band has also leased the park situated on East State Street.

Mr. Jesse Hutchinson, who was recently taken to the Peninsula General Hospital at Salisbury suffering with appendicitis is home again. It was not necessary to perform an operation.

Mr. and Mrs. T. R. Phillips gave a social Friday evening in honor of their guest, Miss Nettie Watson of Laurel. All spent a very pleasant evening.

Those present were: Misses Minnie Hastings, Blanche Marvel, Hettie Renninger, Ethel and Mabel Hayman, George Landon, Lora Blizard, Gertrude Phillips, Moore, Arthur German, John Elliott, Loran German, Vernon Hastings, Alvin Culver, Hollie Melson, Walter Clark, Chas. Truitt, W. L. Cordrey, Lester Marvel, Herman Elliott, F. A. Robertson.

Mrs. W. P. Freeny of Baltimore is spending a few weeks with parents, Mr. and Mrs. C. L. Renninger.

### SHARPTOWN

The strawberry crop is nearly over here and it has been the smallest for several years.

The Steamer J. S. Taylor arrived this week from North Carolina with a cargo of gum timber after having been detained several days on account of floods in the South that completely submerged the tract of timber land where she was loaded.

The hot weather of this week has dried the crop of scarlet clover which somewhat damaged by the rains of last week. The clover is much better than was expected.

Children's Day service was held in the M. P. Church Sunday night last. An interesting programme was rendered and the decorations were fine. The cash receipts were \$40.

The Steamer Phoenix has discontinued her trips down the river and resumed her towing business.

Mr. Jas. O. Adams and Miss Brooxie Gravenor spent last Sunday with the Misses Gordy of Quantico.

Invitations have been sent out to the marriage of John G. Robertson, formerly of this town, but at present a clerk in the Hotel Rennett of Baltimore, and Miss Margaret Arnett also of Baltimore the daughter of Rev. C. S. Arnett, a very prominent minister of the M. P. Conference and well and favorably known in this country, to take place in Baltimore June 18, 1901.

A fox visited the premises of Henry Cooper this week and on its first visit it killed and ate or carried off eight young turkeys and the next night it devoured fourteen young chickens. It got in under the coops and left several evidences of his identity. For some time it has been seen about the premises about or just before day break, and has occasionally done other damage to fowl. It is one of a pair that was brought by local hunters from Virginia a few years ago, and placed in a den in the most isolated spot in this section of the country. The product of the original pair is not known, but there are several foxes. On Wednesday night one was given a hot chase. The property owner and foxes are controlled by the same owner and the chasing is done only by those who are interested in the foxes. Hunters are not allowed to hunt on the premises without the consent of those interested and this consent is rarely given. The fun is purely local and the damages are also local. These nocturnal marauders have been very fortunate to escape the shot gun.

### FRUITLAND

The Fruitland Correspondent is sorry to report having slept a day last week and by so doing forgot her letter to the paper, but she promises to be wide awake in the future and report Fruitland each week. So if you live in Fruitland, or did live here or expect to live here, take the ADVERTISER and find out what is going on in this place.

Mrs. Penn Dulany with baby Franklin and his grandmother, Mrs. Reed, all of Philadelphia are guests of Mr. and Mrs. L. H. A. Dulany.

Mr. and Mrs. John Glaziel and little son of Baltimore spent part of last week at the parsonage as guests of their daughter, Mrs. F. X. Moore.

Mr. I. H. A. Dulany attended the Commencement exercises of the Goldie Commercial College at Wilmington this week.

Lost, strayed or stolen on Sunday evening last, one card from a valuable pack, finder will be properly rewarded by persons interested.

Some persons are content to be any kind of vegetable, for instance a radish while some others wish to become a beet (be it).

Children's Day exercises at the M. E. Church on Sunday Evening next. Come and be with us.

Mr. Solon Hayman of Oak Hall, Va. came home sick with ulcerated sore throat, a few days ago, has not yet been able to return to his work.

Mr. I. F. Messick had the misfortune to lose a small sized pig on Wednesday evening. It became tired of close confinement and strolled out in the country but was afterwards captured by some young ladies and returned to its owner.

Cabinet meeting of the Epworth League in the Church Parlor on Monday evening, June 10. Members urged to be present. Mrs. J. O. Turpin, Pres.

Mr. H. C. Messick spent last Sunday with friends at Capitola.

### MARDELA SPRINGS.

We regret to report the illness of several of our citizens. Mr. Samuel J. Bounds returned last week from Baltimore and will for the present remain with his family here, being too unwell to continue at his duties in the internal revenue department.

Mr. Samuel J. Windsor was stricken last Sunday with a heart affection and has since been critically ill at his home on Water Street. His recovery is hoped for, but not at all certain.

Miss Ada Bounds, daughter of Mrs. John Bounds is rapidly sinking of consumption. She has been in decline many months.

The friends in this county of Mr. Woodland Robertson will learn with sorrow of his hopeless illness, in Philadelphia. Mr. Robertson has been a consumptive several years, but did not give up business until a few months ago. He is a son of the late Samuel Robertson, and has many friends in this county.

Miss Margaret Graham died Friday morning at the home of her brother, Mr. William John Graham, aged about sixty years. Miss Graham was a deaf mute.

The berry and pea crops which were as large as ever before are about harvested in this district. Both crops have netted the growers good prices and they feel encouraged. The next crops to come on will be potatoes and blackberries. The former promise a good yield, and the acreage of the latter has increased slowly each year until there is a fair sprinkling of the crop in the district. Cantaloupes and watermelons vines are looking only fairly well.

Those farmers who had considerable scarlet clover are now busy turning under the stubble for corn.

A larger than usual quantity of cowpeas will be seeded during the next ten days.

### ALLEN

Miss Martha Haffington is home for the summer from the State Normal School.

Strawberry season is about nearing a close, at least for shipping. The next thing in order will be the Strawberry festival.

Politics are warming up down here for sure now. The Judgeship seems to be all the talk, and if all reports be true the present Judge will not only be renominated but re-elected to succeed himself. Mr. Ephraim Denson's candidacy for the legislature seems to be growing also and we believe that he will be able to make it. Ephraim is popular here in his district and we understand that he is popular with the "boys," who make the nominations.

How is this for nerve in a young lady? She was suing her ex-sweetheart for breach of promise, and the lawyers were, as usual, making all sorts of inquisitive inquiries. "You say," remarked one, that the defendant frequently sat very close to you, "Yes sir" was the reply, with a hectic flush. How close? Close enough so one cheer was all the settin' room we needed, she again replied. And you say he put his arm around you? No I didn't. What did you say then? I said he put both arms around me. Then what? He hugged me. Very hard? Yes he did, so hard that I come purty near hollerin' out. Why didn't you holler? Cause. That's no reason. Be explicit please. Because why? Cause I was afeared he'd stop. The court fell off the bench and had to be carried and put under the pump for the purpose of resuscitating.

### QUANTICO

Mr. N. P. Dashiell of the firm of Gillis & Dashiell, who was in Baltimore the first of the week purchasing goods returned home Tuesday night.

Mrs. A. L. Jones attended the Thirty-third Annual Convention of the Diocese of Eastern, which was held in St. Peter's Church, Salisbury this week.

The Misses Bailey and Brady, who were in Baltimore last week, purchasing their summer millinery came home last Sunday morning on steamer Tivoli.

Miss Nellie White of Salisbury, who has been spending a few days with her

grandfather, Mr. Irving Kennerly returned home Sunday.

Prof. Adams and Miss Gravenor of Sharptown spent Sunday afternoon and evening with the Misses Gordy.

Mr. George White of Whayland and Mr. Walter Shepperd of Salisbury were in town Sunday afternoon.

The Misses Tainter, who have been attending the State Normal School in Baltimore returned to their home last Sunday morning on Steamer Tivoli, accompanied by their parents, Mr. and Mrs. R. B. Tainter, where they will spend the summer months.

The M. P. Church of this place will hold their Children's Day services next Sunday evening, June the 9th., commencing at 8 p. m. All are cordially invited to attend.

Miss Lala C. Jones, one of Quantico's fair ladies, who has been attending the Mary Baldwin Seminary at Staunton, Va., returned to her home a few days ago, where she expects to spend part of her vacation.

There will be preaching services in town next Sunday as follows: M. E. Church at 10.30 a. m. by Rev. C. W. Strickland, at the P. E. Church at 8 p. m., by Rev. William Wallace Green of Dorchester county.

### PITTSVILLE

Rev. Mr. Vaughn delivered a lecture on temperance last Monday evening at the M. P. Church here.

Mr. Kelsall Ewing of Salem visited friends here last Saturday and Sunday.

Miss Bertha Dennis was in Frankford last Sunday.

Mrs. A. W. Shockley and Miss Rebecca Shockley spent the first of the week in Frankford.

Mr. E. W. Parsons was in Delmar this week.

Mr. Thos. Shockley is having a new dwelling house built on Main St. near the Old Marshall Store house.

Mr. George Parker of Berlin was in town Sunday last.

Messrs. John Rounds and John Freeny are on the sock list this week.

The Railroad men seem to be very much struck on the Pittsville ladies but we hope in the future that they will be careful not to drive a talking horse or forget to look out for the ditches when riding bicycles.

### Book Prices Vary.

The State Board of Education decided Saturday to inquire into its jurisdiction over the purchase of books for the schools of the several counties.

It has learned that the same books are sold at different prices to different counties. The Board also decided to hold a meeting at the Blue Mountain House, in connection with the Convention of the Maryland Teachers, on July 2. Principal Prettyman of the Normal School was elected delegate to the National Educational Association's Convention, to convene in Detroit on July 8. State Superintendent Stevens' very important report on a new course of study for the State schools was discussed to some extent and then submitted to a committee of three.

### Another Odd Thing.

Lacy Thoroughgood has found out that another store in Salisbury sold four Fancy Shirts on Saturday to a Blind man, he said he could not see the difference between Thoroughgood's 95c shirt and somebody else's \$1.00 shirt, and he would not walk here for a nickel. There is more difference, for Lacy Thoroughgood's 95c shirts are the other fellows \$1.25 kind, that's straight his \$1.00 kind is Lacy Thoroughgood's 75c kind. Lacy has more New Shirts in his store than all the others combined. If you don't see EM, ask for EM they are in shirt alley all right, and Shirt Alley is in Lacy Thoroughgood's store behind a curtain, right hand side going in, down low.

### Is a Good Breakfast Necessary? Yes.

A good breakfast is the physical basis of a day's work. The American breakfast, regarded with so much horror on the European continent, has contributed largely to make the nation what it is today. It enabled our forefathers to do an amount of work which it appeals foreigners to contemplate.

As a rule there is something wrong with the man; or with his habits, if he cannot eat a good breakfast. A man who works at high tension all through the morning hours without this substantial foundation is working entirely upon his nerves. That means disordered nutrition, and sooner or later, bankruptcy and collapse.

If a man gets up in the morning with a bad taste and no inclination for food, it is because his system is full of waste and his circulation of obstructions. Let him make a radical change in his habits, and train his digestive organs to accommodate a nourishing morning meal.—Medical Brief.

## Gray Hair

"I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too. \$1.00 a bottle. All druggists.

If your druggist cannot supply you, send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office. Address, J. C. AYER CO., Lowell, Mass.

FOR SALE BY.....

Paul E. Watson Salisbury's Leading Tobacconist.

Public Sale OF VALUABLE Real Estate and Timber Land.

By virtue of a decree of the Circuit Court for Wicomico county the undersigned as trustee, will sell at public auction at the Court House door in Salisbury, Md., on

Saturday, June 8th, 1901,

at the hour of two o'clock p. m., all that valuable tract of land lying in Nutters district, Wicomico county, Md. four and one-half miles south of Salisbury, being a part of the James Toadvine home farm, lying on both sides of the county road leading from Salisbury to Union church, being Lot No. 3 in the division of said home farm among the heirs, and adjoining lands of W. Hitch and A. P. Toadvine. This land will be offered in three parcels as follows:

No. 1. On the west side between the said county road and the land of Wm. Hitch, and containing 11 1/2 acres, more or less.

No. 2. Lying between said county road and the land of Elijah Toadvine, and containing 40 acres, more or less.

No. 3. Lying east of Lot No. 2 and adjoining the lands of A. P. Toadvine and P. J. Hobbs, and containing 27 1/2 acres, more or less.

Also all that tract of land situated in Worcester county, Md., of which Rachel J. Toadvine died, seized and possessed, in Atkinson district and on the county road leading from Hall's school house to St. Luke's church, and adjoining the property of Joshua Smullen, Leonard Kelley and John Ennis, containing 50 acres of land, more or less. This land is well set in marketable timber, as well as a part of the land first described, and would be a good investment for a timber man.

TERMS OF SALE.—One half cash on day of sale, balance in one year, with the deferred payments secured to the satisfaction of the trustee.

Plats and further description of said land can be seen at the office of the trustee.

Title deeds at the expense of the purchaser.

## TURTLE AND POLITICS.

The Two Go Well Together and Produce Much Harmony and Good Feeling at the Annual Turtle Dinner on Wednesday. A Large Crowd Present.

"All roads led to Quantico" on Wednesday morning of this week. The occasion was the gathering of the multitude from all parts of the county to "talk politics" and incidentally to do justice to the Annual Turtle Dinner provided in such great abundance by Mr. John C. Bailey, proprietor of the "Bailey House." The good people of this ancient and respectable town of Quantico have grown accustomed to these yearly visits from their city and country cousins and they look forward to them with much pleasure and curiosity, pleasure because they are a hospitable people and glad to entertain their friends on these occasions; curiosity because everyone having the "political bee" in his bonnet makes use of this auspicious occasion, when the plans are gathered from all parts of the county, to launch their booms and proclaim themselves candidates for this and that office.

Wednesday saw one of the largest crowds ever in attendance on these notable occasions. Dinner was served at twelve o'clock and continued until three. During that time some two hundred of the "faithful" were made happy by a bountiful supply of turtle prepared in a half dozen ways and turtle eggs sufficient to satisfy the keenest appetite. The crowd was variously estimated at from two to four hundred. The count made by a reporter of the ADVERTISER showed about 275 present.

Every district in the county was represented and it was generally thought that the two primaries to be held by the democrats had thoroughly aroused the party.

The first primary to be held on Saturday, June 29, in which the Judicial Contest will be settled, occupied the greatest part of the discussion, although a dozen other smaller booms were put in motion by the friends of the various candidates for the county offices. The advocates of both the candidates for Judge were on hand and urged their claims with much earnestness. One topic upon which all agreed was that the party should put forward the strongest man and that the primary should settle the matter. In spite of the differences of opinion of those present there was practically a universal feeling that the time had come when all the elements of the party must cease their internal quarrels, if they would hold welcome to her ancient moorings. The sentiment prevalent is best described by the slogan frequently heard "lets get together and give an old time majority."

Among the county offices to be filled this year the one of Sheriff seems to be most popular. About six or eight candidates are already in the field although they all accompany their claims with the statement that they will cheerfully submit to the choice of the nominating convention. Annapolis also seemed to be a place where a number "would be willing" to take up a three months residence during the coming winter.

Quite a number of republicans were on hand to size up the situation and see if the dimensions in the democratic ranks were of such character as to preclude harmony and thus give them a chance to carry the county this fall. The following expression dropped by one of their number, "this seems more like a love feast than the coming together of bitter factions," would seem to indicate that they returned home with anything but a pleasant prospect before them of winning in the coming election.

Altogether the day was most pleasant one, but whether it will result in the lifting of the clouds from the political horizon future events must develop.

## A Big Day for Asbury.

Large crowds attended the Children's Day services held last Sunday evening in several of the churches in town. The programs were successfully carried out, and the collections taken were very gratifying.

In addition to the Children's Day at Asbury M. E. Church, Sunday was also the day appointed for raising the amount assessed this church by Wilmington Conference at the last session towards the Conference Academy debt. The amount asked for was \$1365.00. A public collection was taken in the morning, and in a very few minutes over \$1300 had been subscribed.

When the accounts were footed up in the evening, including collection from the school, they showed the handsome sum of \$1392.92; \$27.92 more than was asked for.

## THE WAR TAX REDUCTION.

Changes in the Law Will Go Into Effect July 1.

The changes made in the war revenue law by the act of March 2 1901 will go into effect on July 1 and it is estimated will result in a reduction of \$40,000,000 in the taxation imposed by the original law. The special tax on commercial brokers is abolished and the stamp tax on the following documents and articles is entirely removed:

Cigars weighing not more than 3 pounds per 1000, \$1 per 1000; changed to 18 cents per pound.  
Conveyance, 50 cents for each \$500 now exempted below \$3500; above \$3500 25 cents for each \$500.  
Legacies—Law modified so as to exclude from taxation legacies of charitable, religious, literary or educational character after March 1 1901.  
Orders for payment of money by telegraph etc., issued by express companies etc., drawn in but payable out of the United States, 2 cents for each \$100.  
Passage tickets \$1 to \$5; now exempted below \$50 in value, for each \$50, 50 cents; exceeding \$50, in addition thereto, 50 cents.  
Sales of products at exchange, 1 cent for each \$100 retained, but sales of merchandise in actual course of transportation exempted from tax.  
Tobacco and snuff, 12 cents per pound; now, discount of 20 per cent allowed.

## State Firemen Meet.

The Maryland State Firemen's Association held its ninth annual convention in Westminster on Wednesday and Thursday of this week. The town was crowded with visitors on Wednesday when the parade of the visiting companies and their apparatus took place. Addresses were made by Dr. Joshua W. Herring, Michael E. Walsh and State Fire Marshall, Dr. Robert Price.

On Thursday the election of officers took place and resulted as follows: John H. Cunningham of Westminster, president; John Stuckert of Baltimore, vice president; H. R. Heck of Frederick treasurer and William M. Crimmons of Frederick, secretary. The convention will be held next year at Lonaconing. The following members of the Salisbury Fire Department attended the meeting: Messrs. A. R. Lohner, W. W. White, Sargent H. Dawson, Ralph Murphy, Claude Serman, George Serman, David Ulman, John H. Lank and Joseph Hastings.

## MARYLAND OYSTERS.

Planting and Cultivation the Only Hope According to Many Experienced in the Business.

A correspondent from Cambridge, Md., writes to the Baltimore Herald: A few years ago when the proposition was made that the state, by legislative enactment, lease out the depleted beds of the Chesapeake, a great growl went forth from every tidewater or oyster producing section of the state, but to day very many who opposed the measure are found to be profitably engaged in oyster planting, and the majority of the people, even of those engaged in the oyster industry, fully agree that if the revenue to our people, to say nothing about the revenue to the Commonwealth, from this the most profitable of all state interests, is to continue it must come through the agency of practical cultivation.

That it is profitable under reasonably favorable conditions and proper management none will gainsay. It is a business that requires the same careful study as a farmer gives to growing his crops. Some bottoms will not do for propagation, others can be easily impoverished by overcrowding, while others, again, will produce in such great quantities as to surprise the best informed oyster culturists. For instance, a natural oyster rock that has been depleted, if not molested for three years, will become replenished to its former prolific condition without aid.

Then again on some bottoms productive rocks can be made by seeding shells. For example, in the spring of 1895 to 1896, Mr. Milligan, of New Jersey, who owns Hambrook farm, near Cambridge, seeded several thousands of bushels of shells on the barren bottoms adjacent to his farm. In the spring of 1899 the tongs of Cambridge found that these grounds contained oysters in immense quantities and made a raid upon them. It was found that Mr. Milligan, who was a non-resident of this State, had no legal right to the oysters, and the tongs boldly gathered up thousands of bushels; in fact, caught all that could be gotten. The immense catch and rapid growth of oysters from these shells was a great surprise to the best informed oystermen, and at once a stock company was formed, the water-front of the farm purchased and about 50 acres again seeded with shells. This was in the spring of 1899. Today there is a growth of oysters, and thousands of bushels will be of market size next fall. The company keeps a guard on constant watch, and expects to realize handsomely on its outlay.

In lower Dorchester there are many successful planters. Capt. Samuel Grey has made big money out of his experiments in Fishing Bay as has also Capt. Samuel W. Moore.

But it is upon the natural, but now depleted bottoms where the greatest fortunes can be realized and it will be but a few years at the most when the State will awaken to a realization of this fact.

During the season just closed, while official figures are not at hand, it is estimated by some of the largest packers that 450,000 bushels were handled at Cambridge. Of these about 100,000 came from the waters of Virginia, 75,000 from other points and the remainder from the beds of the Choptank. Ten years ago the Choptank with the same fleet of boats at work, would have produced at least five times as many oysters as were taken last season.

If planting was generally engaged in it would not be necessary to import oysters to any of the packing points in this State, but we would have plenty and to spare.

The rigid enforcement of the cull law during the winter will, of course, add to next season's supply; yet the supply of Maryland oysters, with each recurring season is bound to be far short of that of the preceding season and that a general system of cultivation is near at hand seems to be the conclusion of all directly interested.

"A few months ago, food which I ate for breakfast would not remain on my stomach for half an hour. I used one bottle of your Kodol Dyspepsia Cure and can now eat my breakfast and other meals with a relish and my food is thoroughly digested. Nothing equals Kodol Dyspepsia Cure for stomach troubles." H. B. Pitts, Arlington Tex. Kodol Dyspepsia Cure digests what you eat. Dr. L. D. Collier.

The total cost of Cumberland's municipal lighting plant for the year ended April 1 was \$47,753, an average of \$49.72 a lamp. This is about half of the cost a lamp when the lighting was done by contract. This year's cost is several dollars a lamp more than last year's, owing to increased wages to trimmers and the higher price of fuel.

## OUR PUBLIC ROADS AGAIN.

Mr. Perry Explains in Detail His Notion of How the Roads Could be Cheaply Improved.

Editors of the ADVERTISER:—Last some people misunderstand our position on the public road question I have concluded that it would be better to add to what was stated in your issue of April 6th over my signature a word of explanation. In the first place there are many who seem to think that shells are about the only material at hand for road building. Such is not the case. Some shells of course would be needed if the work is undertaken but there is plenty of good material for road building in every section of the county. To be more explicit: In my article of April 6th I called attention to the old Rockwalking mill dam that was as hard as a shell road and to day in fairly good condition after fifty years of use. It was built from clay taken out of the banks along the stream. Now the sandy roads from that point both east and west could be graded, straightened and covered to the depth of twelve inches with this clay and a road bed practically as good as shells could be made at small cost, comparatively. When the road bed is put in condition it should be overlaid first with clay to the depth of two or three inches, then rolled with a heavy roller and in the absence of a regular road roller a traction engine would serve the purpose well, beginning down the side of the road and moving the width of the wheel every time the engine is passed over it till all the surface is rolled. When this is done add another layer of clay and continue the process till twelve or fifteen inches are added finally raising it in the center to shed water. Such a road would wear for years and when it begins to cut it will be only necessary to run the road machine over it to fill up the ruts. This clay could be hauled during the fall and winter by farmers who would be willing to furnish team and labor for a fair compensation. I do not feel that farmers should be expected to furnish teams and labor to do such work for nothing any more than they should be expected to build school houses in the neighborhood, or pay by direct contribution for their public schools. The public highways belong to the public and should be maintained just as all other public utilities are.

I have no doubt that there are those who are skeptical about this kind of road building, but as I stated in the previous article, I have seen the finest kind of roads built in this way, roads that are in fact more valuable than shell roads because they last much longer and are repaired at much less cost. These roads too are much better than clay roads built in a clay country because they do not get out of order in winter. If they are kept properly rounded up the water runs off to the side, not to stand as in a clay country to keep the road bed soaked, but to disappear in the sand by the side of the road.

In addition to this clay that can be used for the road bed, there is found at Mardela beds of clay, gravel and pebbles which could be used for the last layer in finishing the road. This would make the road wear even longer and the surface harder. We have nothing that I know of better than shells to use where roads wash, that is, on the hill sides. Then we must continue to use shells.

Some of our friends seem to think that this appropriation is asked for to build roads around Salisbury. Well it is, but not exclusively. It is to build roads throughout the county; from the Nanticoke to the Pocomoke. What we want is not fancy roads, but good substantial road beds upon which a pair of horses can pull two tons or an average team can make eight miles an hour winter or summer; roads that will not damn the county when a stranger comes here to purchase lands with a view of making it his home. I am satisfied from the number of names to the petitions that are being circulated that the people of the county want this appropriation made and I hope that the commissioners will give the matter due consideration.

Something has been said about the adoption of what is known as the district system, that is, that each election district should be empowered to levy a special tax to build roads within its limits. I am opposed to this system. Why should we apply it to our public roads any more than to our public schools, even if they are to be used exclusively by the district, as schools are, but they are not. Parsons District, for instance, would tax itself to build roads for the citizens of Pittsburg district to drive over on the way to Salisbury and the citizens of Quantico Dis-

trict would build roads for the people of Tyaskin to use every time they wanted to go out of their district. Its not the right way to do it. Even if there were no argument against it it would take an act of the legislature to empower the districts to make the levy so that even under the most favorable circumstances the work could not be begun under three or four years and probably much longer. We have all the law we need, all the material, some little knowledge of road building and a public willing to be taxed, so let us begin the work.

THOS. PERRY.

## SOMERSET'S TAX RATE.

The Schools Fare Badly but Better Than Last Year.

The Somerset County Commissioners have made the levy for the year 1901, fixing the tax rate at \$1.04 cents on the \$100, which is the same as last year. The State tax rate, 171 cents, added to \$1.04 makes the rate \$1.211. Among the general appropriations for the year are the following: For the public schools, \$6,000, this being \$2,000 more than was appropriated last year; for court expenses, \$3,150; Trustees of the Poor, \$2,400; insolencies, \$1,500; town of Crisfield, \$1,300; town of Princess Anne, \$800; White Haven Ferry, \$390.50. Among the expenditures are the following: For the public roads, which includes lumber, ditching, shells, shelling, bridging, etc., is \$10,430.21; election expenses, \$3,640.60; attorneys' fees, \$1,064.60; clerk of court and State's attorneys, \$3,318.85; Trustees of the Poor, Clerk of Court, Register of Wills and County Commissioners, \$1,758.20.

## Resolutions of Respect.

Whereas it has pleased the Supreme Being to remove from our midst our friend and brother R. Thaddeus Dove, therefore be it

Resolved, by Diamond Council No. 633 Royal Arcanum that in the death of brother Dove this Council has lost a most faithful member, a true and tried brother, and one who has ever sought by precept and example, to uphold the cherished principles of our beloved order.

Resolved, That we extend to his bereaved family our deepest sympathy and in this their hour of sorrow, commend them to the Eternal Father, with whom there is neither variableness nor shadow of turning.

Resolved, That a copy of these resolutions be spread upon the minutes of this Council, and that copies be sent to the family of the deceased, and to the local papers for publication.

## THE ROAD PETITION.

In a communication in another column of this issue Mr. Thomas Perry writes in detail his notion of how the public roads of the county could be made permanently good at a comparatively small cost.

The impression seems deeply fixed in the minds of many taxpayers that shells alone can be used in the material improvement of the roads. This Mr. Perry shows to be erroneous and illustrates how in many sections of the county the roads could be made as good with the material at hand as they could be made with shells. Of course some money is necessary and a good deal of intelligence and desire. We believe we have the intelligence in the community, and as to the desire for good roads there can be no sort of a doubt. At least two hundred and fifty taxpayers, representing in the aggregate probably one half the taxable basis of the county, have petitioned the County Commissioners to designate \$10,000 in this year's levy for a systematic beginning of this great work. The petitions are in this office. They are signed by democrats, republicans and prohibitionists alike, and so far as we have been able to learn only six taxpayers in the whole county to whom the petition has been presented have declined to place their names to it.

The unanimity of the sentiment in favor of the appropriation is most remarkable. Many farmers in signing the paper have sent this message: "urge the commissioners to begin the work."

## WILL NOT ACCEPT THIRD TERM.

In very courteous, though explicit and unequivocal terms, President McKinley rejects the third term proposition of Senator Depew and other admiring friends of the President, whose letter reads as follows:

"I regret that the suggestion of a third term has been made. I doubt whether I am called upon to give it notice. But there are now questions of the gravest importance before the Administration and the country, and their just consideration should not be prejudiced in the public mind by even the suspicion of the thought of a third term. In view therefore of the reiteration of the suggestion of it, I will say now, once for all, expressing a long-settled conviction, that I not only am not and will not be a candidate for a third term, but would not accept a nomination for it if it were tendered me.

My only ambition is to serve through my second term to the acceptance of my countrymen, whose generous confidence I so deeply appreciate, and then, with them, do my duty in the ranks of private citizenship.

WILLIAM MCKINLEY.  
Executive Mansion, Washington June 10, 1901.

## KENTUCKY INTERESTED IN GOOD ROADS.

The Louisville (Ky.) Courier Journal, says:

The proclamation of Gov. Beckham calling upon County Judges to appoint delegates to the State Good Roads Convention to be held in this city June 27 and 28 is an official recognition of the great importance of this work. Beyond question there is nothing that will be of so much benefit to the people of Kentucky as the improvement of their transportation facilities, and the public highways are the groundwork, the basis, of the whole system. We need more steam railroads and we need trolley lines, and the demand for these can no longer be ignored, but, above all, we must have better country roads to enable farmers to market their products more cheaply, to promote the comfort and convenience and to add to the sociability of rural life. Good roads would be the best missionaries that could be placed in the mountains, and they will elevate the moral tone and increase the wealth of any community.

When one undertakes an estimate of the saving in the cost of marketing the crops by the substitution of macadamized highways for the wretched dirt roads, the wonder is that these have been tolerated, to say nothing of the vast improvement the better roads would give to the desirability of life on the farm, where the bulk of our citizenship resides.

The convention, if well attended by delegates from over the State, will do more to arouse public interest in the cause of good roads than anything else that could be devised. The model roads that will be constructed by the Government experts will be a valuable object lesson, for road-making is a science that requires apprenticeship, simple as it seems. Best of all, the convention will afford an opportunity to organize public sentiment on the necessity of securing proper legislation. The obsolete method of working the roads by "warning in" the taxpayers should be abolished in favor of taxation and the employment of responsible contractors. The State should make an appropriation for the encouragement of road building, and a State Engineer should be provided to supervise the work to which the State contributes. Provision ought to be made by the counties that would prevent the supervisors from being bestowed on politicians. They should be given to men who will build good roads from the start and not waste the money as it has been wasted in the past. Millions of dollars are spent under the present system, with no appreciable betterment of highways. It is time these self-evident truths should be recognized and steps taken not only to raise money, but to see that it is spent to good purpose.

The first essential is to arouse and keep alive public interest. This can be done at the Good Roads Convention if the county officers will do their part in the selection of delegates.

## GORMAN CONFIDENT.

A prominent politician of the Eastern Shore in talking to a representative of the ADVERTISER said: "I have recently been in communication with Mr. Gorman and he is very confident that Maryland will this year be found in the Democratic column. He thoroughly believes that the purchase of votes to any large extent is a thing of the past and his belief is born of the firm conviction that the recent election law will prevent bribery. As to the situation in Baltimore City he stated that things were improving every day and before election every one would be working for the success of the ticket."

The above must instill greater confidence and encouragement in the ranks of the party everywhere. Let us in Wicomico get together, nominate a strong ticket and elect it by one of our old time democratic majorities.

In the United States District Court of Baltimore City, Mr. Joseph H. Ching, a well known lawyer and Republican of Southern Maryland, was sentenced this week to pay a fine of \$1,000 and to suffer imprisonment in the Baltimore City Jail for two years. Mr. Ching was tried and convicted in the United States Court on the charge of conspiring to secure fraudulent census returns from St. Mary's county. The verdict was rendered Saturday morning after a trial which lasted two weeks. Now that a prominent member of their

party has been convicted and sentenced, perhaps the Republican organization throughout the state will admit they were in error when they denounced as untrue and infamous the charge made by the Democrat, is that the Southern Maryland census returns were padded.

**Property Sales.**  
Mr. Geo. W. D. Waller, trustee, sold at the Court House door last Saturday afternoon the Toadvine land in Nutter's district, in several parcels. Eleven and a quarter acres was bought by Wm. J. Toadvine for \$303.00; Elijah Toadvine bought another parcel containing 40 acres for \$460; and Alfred P. Toadvine bought 27 1/2 acres for \$150. Livingston Brothers of Worcester county bought the Worcester land for \$707.50.

**Optimism.**  
When the optimist was dispossessed and thrown, along with his household impediments, into the cold street, he chuckled furiously.

"Why do you laugh, my friend?" inquired a passerby.

"Because I have just now been emancipated from toil," replied the optimist. "For years my life has been one long struggle to keep the wolf from the door. But now that I have been deprived of the door I no longer am compelled to toil. Sweet indeed are the uses of adversity!"

Then the optimist walked off, whistling gayly, into the sunshine. —New York Sun.

## GUNS FOR OLD GLORY.

The First Foreign Salute Given to the American Flag.

The little Ranger ran slowly between the frowning French frigates, looking as warlike as they. Her men swarmed like bees into the rigging, and her colors ran up to salute the flag of his most Christian majesty of France, and she fired one by one her salute of 13 guns, about Carnac and the great Druid Mount of St. Michael.

There was a moment of suspense. The wind was very light now. The powder smoke drifted away, and the clapping sails sounded loud overhead. Would the admiral answer back or would he treat this bold challenge like a handkerchief waved at him from a pleasure boat? Some of the officers on the Ranger looked incredulous, but Paul Jones still held his letter in his hand. There was a puff of white smoke, and the great guns of the French flagship began to shake the air—one, two, three, four, five, six, seven, eight, nine—and then were still save for their echoes from the low hills about Carnac and the great Druid Mount of St. Michael.

"Henry Gardner, you may tell the men that this was the salute of the king of France to our republic and the first high honor to our flag," said the captain proudly to his steersman, but they were all huzzing now along the Ranger's decks, that little ship whose name shall never be forgotten while her country lives.

The captain lifted his hat and stood looking up at the flag.

"We hardly know what this day means, gentlemen," he said soberly to his officers, who came about him. "I believe we are at the christening of the greatest nation that was ever born into the world. The day shall come when America, republic though she may be, will salute no foreign flag without receiving gun for gun."

# Lacy Thoroughgood

## THE FAIR DEALING CLOTHIER

### SALISBURY, MD.

## CAN YOU BEAT THIS?

### A SENSATIONAL CLOTHING SALE

Nothing Like it Ever Heard of Before.

Lacy Thoroughgood's great Clothing and Hat sale is the talk of the town. The most marvelous clothing proposition of the year. Seven hundred Men's suits; five hundred Boy's and Children's suits, and two thousand dollars worth of Men's and Boy's hats. The season has been off and an off season makes an off price. Lacy Thoroughgood has made up his mind something had to be done and done quickly. The plain truth is Lacy Thoroughgood is overstocked with Clothing, Hats, Shirts, Collars, Cuffs and Suspenders. These goods are all new this season and are of 1901 styles and patterns. They are made of cassimers, cheviots, worsteds, and striped flannels. They can be had in fancy patterns or solid colors, round or square cut, in sizes 34 to 46 breast. Every suit in the lot is guaranteed. You can have a new suit, if any one you buy doesn't prove the biggest value you ever secured. Come and see the great display of fine goods to wear. If you don't think they are all right then don't buy. Lacy Thoroughgood is selling high grade clothing without the high prices. Can you afford to ignore this big sale of Clothing and Hats. Lacy Thoroughgood sells nothing but reliable clothing, no matter what price you pay for it. Lacy Thoroughgood's store is alive—wide awake—alert and progressive. Making everybody's wants a study—Lacy Thoroughgood's great sale starts to-day—the heart of May—and will continue in the very heart of the beautiful summer of 1901. The greatest cutting and slashing ever known. Lacy Thoroughgood is bound to get rid of his heavy stock in this summer sale. There is one way to move the goods and that is to cut prices deeper than ever before. From now on prices on Men's and Boy's Clothing and Hats drop several notches lower. You want the goods and I want and am determined to have the money.

#### GOOD CLOTHING FOR PARTICULAR MEN.

The clothing Lacy Thoroughgood sells is that sort. There is a suit here to suit every man's taste. Prices to suit every purse. Thoroughgood is particularly proud of his \$8, 8.50, 10.00, 12.50 and 15.00 suits for men, and remember there are over 700 suits to select a suit from.

#### THOROUGHGOOD'S CLOTHING SALE FOR BOYS.

This was the busiest boy's clothing department in Salisbury on last Saturday. Why? Because of the few stores that show as fine a line of boy's apparel as Lacy Thoroughgood does. Not one makes prices as low as Thoroughgood does on fine suits. Good reason isn't it? Boy's wash suits 25c, 50c, 75c, \$1.00, 1.25, 1.50. Boy's all wool suits \$1.25, 1.50, 2.00, 2.50, 3.00, 3.50 and up to 5.00 and 6.00. Straw hats for the same boys, 25c, 30c, 35c, and 50c. Thoroughgood has everything for a boy to wear such as odd knee pants 25c, 30c and 50c. Suspenders 10c, 12c, 15c, 20c, and 25c. Boy's leather belts for 25c worth 50c.

#### THOROUGHGOOD'S IMMENSE HAT DEPARTMENT.

Lacy Thoroughgood has much over two thousand dollars worth of Men's and Boy's hats. Thoroughgood has every kind of a hat for a man or boy, straw, wool or felt. Bring your boys to Thoroughgood's for hats as well as suits. Lacy Thoroughgood's summer sale of 1901 shall be the greatest clothing and hat sale ever held in Salisbury. Read carefully Thoroughgood's offers then come and lay in a supply of clothing, hats, shirts, collars, cuffs and suspenders at prices you never heard of before. Opportunities do not "knock" frequently.

### Farms, Business Blocks, Dwellings, Dwelling Sites,

and other improved or unimproved real estate situated in the State of Maryland.

Our terms for handling and disposing of property are as reasonable as those of any reliable Real Estate Agency in Maryland. We take and list property for a stated period of time, and if a purchaser is not found the entire cost of advertising is borne by this corporation.

#### OUR FACILITIES

for disposing of real estate are probably unequaled by any concern of the kind in the State. Our Mr. W. F. Allen is well known throughout the United States and Canada, and is in communication with over 50,000 rural people, also a large number of city people who are at the head of rich corporations and business concerns of various character. These people mostly like rural homes, and make the very best class of buyers and desirable citizens.

Every property entrusted to this corporation for sale will be advertised in every State and Territory in the Union, and put before people who are seeking homes. If you want to sell your home, your farm, or other real estate, we have the facilities to find a customer, and should we fail to do so, which is very improbable, it will cost you nothing.

## UNIQUE CHOCOLATE

We want to say a word about chocolate soda especially as prepared at Truitt's. You have all had the misfortune at some time to have been served with the flat and sloppy combination which is so frequently offered where economy is the only aim. By way of comparison we would be pleased to have you ask for a chocolate soda with plain cream at our fountain and will ask you to note the rich creamy consistency and above all the flavor of the chocolate. Your surprise and satisfaction will be our reward for serving only the best. Our fruit sodas in every variety are rich in the freshest fruit syrups made in our store served with or without plain rich cream at 5 cents per glass.

## An Off Season Causes Off Prices.

There is no question about the season being backward. How many of your summer wants in clothing and hats have been supplied? Lacy Thoroughgood is over stocked, badly, in consequence of the continued cool weather, and is determined to quicken business. Thoroughgood is going to make June a very lively month. Thoroughgood is going to make inducements that will make every buyer of clothing, hats, shirts, collars, cuffs and suspenders anticipate his wants and buy at once. It's to everybody's interest to buy now, for such values are seldom obtainable, even in after season sales. Thoroughgood knows they can't be found elsewhere in Salisbury at the present time. This is going to be the most marvelous clothing proposition of the year. Eight hundred men's suits, five hundred boys' suits, one thousand dollars worth of men and boy's odd pants, two thousand dollars worth of men and boy's hats and two thousand and five hundred dollars worth of men and boys furnishings. These suits are of 1901 styles and patterns. They are made of cassimeres, chevrons, worsteds and striped flannels. They can be had in fancy patterns or solid colors, round or square cut, in sizes 34 to 46 breast measure. Every suit in the lot is guaranteed. You can have a new suit if any one you buy doesn't prove the biggest value you ever secured. See the display of these suits in Thoroughgood's Main Street window. If you don't think they are all right, then don't come in. Can you beat this? No, not in Salisbury. June will be a red letter month at Lacy Thoroughgood's. If Thoroughgood should utilize this entire page he wouldn't have room to tell you of all the bargains to be found at his store. Bargains in boy's suits, bargains in men's suits, bargains in men and boy's hats, bargains in men and boys shirts, bargains in everything for men, boys and children to wear. Thoroughgood's preeminence in the clothing field is so marked and so generally recognized that many may think it unnecessary for him to recite the fact again. An off season causes off prices. This June month Lacy Thoroughgood proposes to out do any previous doings. Remember these goods are all new this spring, they were made to order for Thoroughgood, but an off season places them at your disposal—in a fakeless manner, for less money than such suits should sell for.

## Order Publication.

Mary A. Roberts vs. Frank Roberts.  
No. 1352 Chancery. In the Circuit Court for Wicomico County, Maryland.

The object of this suit is to obtain a divorce a vinculo matrimonii of the plaintiff from her husband Frank Roberts and a decree awarding her the custody of their child.

The bill states that said Mary A. Roberts and Frank Roberts were married on the tenth day of May 1893 and resided together at Philadelphia, State of Pennsylvania for two years thereafter, when said Frank without just cause deserted and abandoned her, and that such abandonment has continued uninterruptedly for at least three years and is beyond reasonable hope of reconciliation. That shortly after such abandonment she removed to Wicomico County, Maryland, and has resided there ever since and that Frank Roberts' whereabouts is unknown to her. That they have one child living and she prays for a decree for divorce a vinculo matrimonii and for custody of child.

It is thereupon this 18th day of May, A. D. 1901 by the Circuit Court for Wicomico County in Equity ordered that the plaintiff by causing a copy of this order to be inserted in some newspaper published in said Wicomico County once in each of four successive weeks before the 9th day of June 1901 give notice to the said Frank Roberts defendant whose whereabouts is unknown, of the object and substance of this bill warning him to be and appear in this Court in person or by solicitor on or before the 18th day of July next and answer the premises and abide by and perform such decree as may be passed therein.

## Nelson's Remedy For RHEUMATISM

Is a certain cure. It has made hundreds of friends everywhere as the following will show.

Mr. Wm. T. Davis of Cambridge, Md. writes: For two years or more I have had rheumatism very badly and have tried many kinds of medicine without getting any relief. NELSON'S REMEDY was recommended to me and after taking only one bottle I was entirely cured, and have not been troubled for over three months. Thanks to NELSON'S REMEDY for RHEUMATISM.

Mr. Wm. E. Lowrey, fisherman and oysterman of Cambridge, Md. writes: Two years ago last February I had terrible attacks of Rheumatism whenever the weather turned bad. I could not lay down or raise my arm to feed myself. I used NELSON'S REMEDY and a few bottles cured me completely. I have not had any Rheumatism or pains or symptoms since and I tell any man, be it foolish to suffer with Rheumatism when NELSON'S REMEDY can be had.

Mr. Moses Titch of Boston, Md. writes: NELSON'S REMEDY FOR RHEUMATISM is a wonderful medicine. I cured me when I had Rheumatism so bad that I had to walk around with sticks. I highly recommend NELSON'S REMEDY to any who suffer with Rheumatism, as it is a reliable and sure cure.

Dr. J. B. R. Parwell of Snow Hill, Md., endorses NELSON'S REMEDY as follows: I have used the NELSON'S REMEDY in cardiac neuralgia and general rheumatism with satisfactory results. The ingredients evidence a combination useful for arthritis and various forms of gout and rheumatism, particularly when accompanied with hepatic torpor.

For sale by Dr. L. D. Collier.

## WHAT THE PEOPLE SAY

Who are Using Home Comfort Ranges.

Salisbury, Md., January 24, 1900.  
Wrought Iron Range Company.

Gentlemen:—This is to certify that we purchased one of your Home Comfort Ranges No. 1 about 11 years ago and wish to say that we consider it one of the most durable and satisfactory of kitchen ranges, and heartily recommend them to any one wishing to buy a thing in the line of a cooking range. We would not be willing to part with it if we could not get another. For durability and as a good baker, and for all purposes, we do not think they could be surpassed.

JAMES A. WALLER,  
ELIJAH J. ADKINS.

Salisbury, Md., January 17, 1901.  
Wrought Iron Range Company.

Gentlemen:—I have been using one of your Wrought Iron Ranges for the past fifteen years, and can heartily recommend it as one of the most durable and reliable all kitchen ranges. We would not be willing to part with it under any circumstances if we could not get another. This letter you may use in any way you think best for your business.

JAMES H. WEST.

Salisbury, Md., January 22, 1901.

This is to certify that I purchased a Home Comfort Range from one of the Wrought Iron Range Co's traveling salesmen, some six years ago. I find the range in all respects as represented by the salesman. It is all that could be desired in a first-class cooking range. I heartily recommend it to any one in need of a cooking range.

WM. S. HARTING.

Salisbury, Md., February 10, 1901.  
Wrought Iron Range Company.

It affords me great pleasure to recommend your Home Comfort Range. I purchased one from your traveling salesman six years ago, and it is giving me perfect satisfaction. It is a splendid baker, and very economical on fuel. We would not take twice the amount paid for it if we could not get another like it.

JOHN W. PARKER of L.

Collingwood, Ont., 11th July, 1900.

W. L. Culver, Esq.,  
President Wrought Iron Range Co.,  
St. Louis, Missouri.

Dear Sir:—We are in receipt of your favor of June 18th, which we regret to say was mailed. We have great pleasure in stating that your ranges are in use on six of the eight steamers of the fleet and that they have given perfect satisfaction in every way both as to their durability and working qualities, which have been tested to the utmost.

In the fall of '98 our steamer Pacific was totally destroyed by fire at the dock which originated at the G. T. Ry. warehouse, and although the steamer was burnt to the keel the Wrought Iron Range on board was found in such good condition that it was used on our new steamer Germania, which was built the following season to take place of Pacific. There was practically nothing wrong with the range except discoloration and marks consequent upon the action of intense heat and water.

Persons using your ranges are Messrs. Collingwood, Germania, Atlantic, Britannic and Midland. Very truly,

"Take care of the pennies and the pounds will take care of themselves." Large things are but an aggregation of small things. If we take care of the small things we are in effect taking care of the large things which the small things combine to make.

Take care of what you eat, when you eat, and how you eat, and your stomach will take care of itself. But who takes care of such trivial things? That is why, someday, the majority of people have to take care of the stomach. When that day comes, there is no aid so effective in undoing the results of past carelessness as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, and restores the organs of digestion and nutrition to a condition of healthy activity. It cures biliousness, heartburn, flatulence, indigestion, palpitation, dizziness, cold extremities and a score of other ailments which are but the symptoms of disorder in the stomach and its allied organs.

A Sprained Ankle Quickly Cured.

### ALLEN

Strawberries are now a thing of the past.

Mrs. J. Edward Brooks has been quite poorly this week.

In talking with a republican the other day, he made the startling announcement that "Republicans have the right to think." This may be true in some states, but here in Maryland Boss McComas does the thinking for the party.

Will that Pennsylvania minister who thinks negroes have no souls, please enlighten us as to the status of persons of mixed blood?

The great Democratic meeting, other wise known as the annual turtle dinner, was held at Quantico Wednesday of this week as every up-to-date Democrat knows. Democrats, long and short, fat and lean, some with smooth faces and some with cow catcher whiskers, were present from every section of old Wicomico. Boniface Bailey served the animal that is said to make county nominations in every way, shape and form to suit the purchaser. Many of the "boys" managed to get outside of a considerable quantity of the good things that were to be had there that day. A few enthusiastic Democrats of Allen attended and since their return have elected the Democratic ticket as far as 1905. They daily sing the praises of mine host Bailey. One of them came home snapping at everything and wanted to take to the mill pond. Another says he believes there is a shell forming on his back, while a third declares that his one great desire is to get down on all fours and crawl. He was actually afraid to go to prayer meeting Wednesday night for fear that "crawly" feeling would come over him. One young lady says that her sweetheart's avoirdupois has been on the wane ever since he attended the dinner, and if he continues to shrink she expects to get his pa and ma to catch him and put him in an old ash barrel. She has always heard that ashes would fatten turtles. He must have eaten a dozen or so. Taking it all in all the turtle dinner this year was a howling success. It is a forerunner of what the Democrats will by constant work, have to their credit next November, victory.

The reason no one but a certain prominent gentleman has yet appeared in the field as an aspirant for the Republican Judicial nomination this year is not to be found in said gentleman's popularity, for he does not possess it. It is simply because of an indisposition to take a nomination which means certain defeat.

For several months now the Republican newspapers have filled several columns telling how the Democratic party was divided and how when the convention would be held there would be a bolt or bolts and that the party would have two or three candidates for Judges, with the friends of each zealous in the work of cutting the throats of the other. The reading public is told that it is simply impossible for the factions to get together, that at the convention knives will be used freely and so on and while Democrats are openly fighting each other the Republicans will make their nominations and elect their ticket. All such tommy rot as this has been given to the reading public by the Republican press. Now see here my Republican friend, the Democrats will hold their convention of course, and it is to be loved least right. So far as Democrats are concerned, the situation in this section of the Eastern Shore is much better than it was a year ago. At that time the convention at Ocean City ignored some things and there was an ugly feeling in many quarters. Through the tact of Chairman Vandiver the divisions have been healed and the party expects to achieve a most remarkable victory in "these parts" this fall. To day there is really no bitterness. Every leader will be in line for the whole ticket when it is made out. The party is now lined up. There are no quarrels. This year will see every prominent Democrat in the State on the stump, while all former factions will unite for the success of the ticket. Mean while Republicans can now give some attention to their own disorganized, demoralized party, and Democratic papers will cheerfully assist them in setting facts before the public.

Quite a number of our young folks attended the Children's Day services at Rockwalking last Sunday evening.

Mrs. George Davis is improving her residence by applying a fresh coat of paint which will add much to the appearance of the town.

Mr. Chas. E. Williams and son Walter of Delmar were in town last Wednesday as guests of Mr. T. R. Jones.

Mr. and Mrs. William Phillips of Hebron spent last Sunday in town with Mrs. Phillips' mother, Mrs. George E. Davis.

Rev. T. E. Martindale of Salisbury will preach here in the M. E. Church next Sunday evening, all are cordially invited to attend.

The annual turtle dinner, which was held last Wednesday at Bailey's Hotel this place was attended by a very large crowd consisting of some of the well known politicians of the county. We understand that Mr. Bailey accompanied quite a number. The Judgeship contest was the principal topic of the day.

The M. E. Church at Green Hill will hold a strawberry festival this Saturday evening, June 15. All are cordially invited to attend.

### MARDELA SPRINGS.

The community learned with sorrow of the sudden death last Sunday of Mr. Thos. W. Wilson at his home about two and a half miles from the village. Mr. Wilson had been in failing health for eighteen months, and last winter was confined to his bed several weeks under the care of Dr. L. N. Wilson, but he rallied and had been actively engaged in the management of his farm, having gone to Delmar every day last week with a load of strawberries. Sunday morning he walked about his farm discussing crops with his nephew Mr. Levin R. Wilson. The family saw nothing in his condition to cause immediate alarm, and were wholly unprepared for the great shock occasioned by his sudden death at the dinner table. Present at his death were his wife, his unmarried daughter Miss Amelia E. Wilson, his married daughter, Mrs. J. Windsor Bounds and Mr. Bounds, and his only son Mr. James T. Wilson, a prosperous young merchant of Delmar. The late Mr. Herbert N. Messick was a daughter of the deceased.

Mr. Wilson was sixty nine years old. He was the youngest child of the late Thomas Wilson. His brothers were Levin M. Wm. Franklin and Martin Wilson once prominent men of the community and now all dead. Mrs. Sallie Donoho of Baron Creek district, who survives is an only sister.

Mr. Wilson was remarkable for his charity toward his fellow men. It is believed he never uttered an unkind word nor indulged a harsh thought of his neighbors and acquaintances. Mr. Wilson was all his life an ardent Republican. He was one of the general

assessors of property in this county in 1900.

Miss Ada Bounds, daughter of Mrs. John Bounds, of this town, whose critical illness was mentioned in last week's ADVERTISER, died at midnight Thursday. Her remains will be interred this (Saturday) morning at half after nine o'clock, in the cemetery here. She was about 23 years old.

Messrs. Perry & Cooper's stove mill has been closed down this week owing to accident to their saws. They hope to start up again by the middle of next week.

Strawberries and early peas are all in and our people have realized some net money from the crops. If potatoes and blackberries bring good prices the district will be in much improved financial condition. The whortisberry crop is going to be good. This is a crop which brings no little gain to the district, it grows in the swamps without cultivation and needs only to be gathered to yield fair remuneration to the gatherer.

A large number of people of this district, from Quantico, Sussex county, Delaware, and elsewhere were present at the burial in the cemetery at Mardela Springs Tuesday morning after funeral services at the home by Rev. Frank B. Adkins of the Protestant Episcopal Church.

### FRUITLAND

Mr. I. F. Messick and daughter, Miss Ella attended a picnic at Capitola on Wednesday evening of this week.

Mr. and Mrs. W. T. Carey have issued cards this week to the celebration of the 20th anniversary of their marriage on Saturday evening, June 16th., at their home.

The Epworth League of the Siloam Church will hold a festival in the grove at that place on Saturday evening, June 22nd. The first picnic of the season is always something nice, so try to be there and help to start "the ball to rolling" for the summer of 1901.

Sorry to report baby Clarence, son of Mr. and Mrs. F. S. Cathell on the sick list this week.

The Children's Day exercises at the M. E. Church on Sunday evening last was well attended and the exercises were considered good.

One of our young ladies who is trucking extensively has had white potatoes from her patch large as walnuts.

Missing again: Every night this week; well folks are funny anyway, you can't always understand them.

### FRUITLAND (Continued)

A good story is told in Missouri at the expense of its once famous governor, Claiborne F. Jackson. Before he solved the enigma of love he had married five sisters in reasonable lapses of consecutiveness. After one wife had been lost and appropriately mourned he espoused another, and he kept his courting within a narrow circle of his own relatives, for he rather liked the family.

The antiquated father of these girls was almost deaf, and when the governor went to this octogenarian to ask for his surviving daughter the following conversation ensued:

"I want Lizzie."

"Eh?"

"I want you to let me have Ella-beth."

"Oh, you want Lizzie, do you? What for?"

"For my wife."

"For life."

"I want to marry her."

"Oh, yes. Just so. I hear you, boy."

"I'm precious glad you do," muttered the governor.

"Well," slowly responded the veteran, "you needn't balloo so that the whole neighborhood knows it. Yes, you can have her. You've got 'em all now, my lad, but for goodness' sake, if anything happens to that 'ere poor misguided gal, don't come and ask me for the old woman!"

Jackson solemnly promised that he never would.

### Origin of "Whig."

Several reasons have been assigned to account for the word "Whig," universally known to all the English speaking people. By some the word is supposed to be a contraction of a longer one, "whiggamore," which in some parts of England and Scotland, especially Scotland, signifies a drover or herder.

It was in 1679 that the word first became common in the British Isles, when the struggle was in progress between the peasantry and the aristocracy to have or not to have the bill passed by parliament to exclude the Duke of York from the line of succession. All who were opposed to placing the duke in the line of succession were derisively called "whiggamores," or "drovers," just as the city dude of today speakers of the "grangers," the "grays," the "chin whiskers" and the "hayseeds."

But Scotch tradition gives altogether a different reason for the existence of the word. It is this: During the early religious wars in Scotland the weakest of the factions used the words "We Hope in God" as a motto. The initials of these words were placed on their banners thus, "W. H. I. G." and soon all the followers of that clan were given the title of "Whig," which was afterward attached as a party nickname.

Just as Advertised.

"But suppose," one of the spectators said, "the parachute should fail to open after you have detached it from the balloon—what then?"

"That wouldn't stop me," answered the daring aeronaut, "I'd come right on down."—Chicago Tribune.

The darabonka, or Turkish drum, resembles a long vase, the bottom covered with parchment.

The earliest mention of shoes is in an Egyptian papyrus about 2,200 years before Christ.

Wesley's Book-Lovers. Wesley was to the end of his life a lover of a good book. Though the Bible was his chief study, he would have agreed with Matthew Arnold that a man who did not know other books could not know that book as it should be known. He constantly urged his preachers to read. "You can never be a deep preacher without reading," he used to say, "any more than a thorough Christian." To a young man who said that his work as an evangelist left him no time for reading he wrote: "Hence your talent in preaching does not increase. It is just the same as it was seven years ago. It is lively, but not deep. There is little variety. There is no compass of thought." What would not some of us give for that volume of Shakespeare, annotated throughout by his hand, which John Pauson destroyed after his death for fear of scandalizing the weaker brethren?—Temple Bar.

Rare and Curious Gems. The rarest and costliest of gems, though not always esteemed the most beautiful, are pigeon's blood rubies, fine opals and diamonds that are pure but shed a distinct glow of blue or pink. A very perfect pearl of generous size and lustrous skin, tinted a rarely beautiful golden green, was valued un- set at over \$300. A faultless green pearl is very rare.

A curious stone is the alexandrite. It is a dark green stone that is polished, cut and set, very like a fine topaz or amethyst, in large showy rings surrounded by diamonds. By the light of day the alexandrite has no special beauty save its fine luster. But directly a shaft of artificial light strikes the dull stone deep gleams of red flash out of the green, and under the gas or in the firelight one ignorant of this vagary would instantly pronounce it a ruby.

A Mechanical Answer. The well to do patron of the place had been attentive to the cashier for some time, and now, business being slack for a few moments, he deemed the time propitious to speak.

"If you will be mine," he urged as he leaned over the desk, "every comfort that you may desire will be yours. True, I am no longer young, but I have money, and I can provide for you as few young men could, and surely the material side of the marriage question is worthy of some consideration."

She said nothing, but gently touched the cash register, and the words "N. Sale" sprang into view.

With a sigh he left.—Chicago Post.

## CHARGES REFUTED.

Majority Members of the School Board Answer Charges Recently Made Against Them.

MESSRS. EDITORS:—In the last issue of the *Courier*, certain charges are made against us as members of the School Board which we understand are endorsed by the minority member of our Board and to which we respectfully beg to plead not guilty. Taking the several charges in order we the democratic members are accused with:

1st. Taking advantage of the absence of the minority member in appointing the trustees of our schools. The law says the trustees "shall be appointed on the first day of May or at the first meeting thereafter in each year." Our Board was called to meet Friday, May 3rd, written notice of which was given each member, stating the hour at which the meeting would be called. For some cause, satisfactory we presume to the absentee, the minority member was not present until a very late hour of the meeting. After other matters of business had received attention the appointment of trustees as was required by the law came up and was disposed of, the entire board of last year being reappointed with the exceptions noted below. "The only experienced member of the Board, its former President" it is presumed was acquainted with the law on the subject of appointment of trustees, he was in close touch with the telephone to state the cause of his absence or to make any request he pleased. His absence was unexplained and we proceeded with the business, taking no advantage of any absence as will be seen from what follows.

2nd. Partisanship in the selection of the trustees. As a matter of fact there were only two absolute changes made among the trustees by the Board, and these both colored. As these were replaced by colored men we presume the partisanship charge does not apply here. There were a number of vacancies among the several boards of trustees caused by death or resignation which were filled by parties whose names had been handed the secretary, and in no case was the question raised as to the politics of the suggested parties. Indeed, we have learned since the appointments were made that Republicans were appointed to fill the vacancy created by the resignation of Democrats.

3d. Discourteous treatment of the minority member. The convenience alone of the minority member has been considered in selecting the hour of our meetings. Mr. Williams has been known to come in town and wait hours for the convenience of the minority member. On several occasions when the minority member was not present at our meetings, and it has suited his convenience to be absent occasionally, matters have been postponed that they might have his consideration. Possibly some things urged by the minority member may not have received the Board's sanction but no discourtesy was intended when we differed. Our endeavor has been uniform courtesy and wherein we have failed must be attributed to what the minority member sometime chooses to call our ignorance.

4th. Representing special constituents before the county commissioners for needed school improvements. A special meeting had been arranged for June 11th, as stated in the *Courier*, to urge an appropriation in the form of a special building fund. Mr. Staton knew and so stated a week before that it would be impossible for him to be present at the hour stated, 10 o'clock in the morning. The minority member, for no doubt equally good reasons, was not present at this special meeting. Leading citizens, both white and colored, from various sections of the county had gathered at the request of our Board to make this appeal before the county commissioners. Was the unavoidable absence of two members of our Board to keep these gentlemen from stating their case to the county commissioners? Mr. Williams thought not so he joined this gathering of representative tax-payers, among whom were some of the leading republicans of the county, and at the close of the appeal said to the county commissioners he hoped they would consider favorably the various cases of need which had been laid before them that morning. How he could be justly accused with "deciding upon improvements or assuming any responsibility or in any way looking especially after the interests of his friends or special constituents" is hard, we think, for any fair minded person to see. He was present in the interests of the schools of the county regardless of sect, creed, or politics.

5th. Refusing to meet with minority

member. The appeal above referred to was the only object of the special meeting of June 11th. This matter having been set for the morning part of the day and disposed of there was nothing claiming the attention of the Board outside of a matter Mr. Staton was investigating personally. Hence the suggestion of Mr. Williams to postpone any further meeting.

So far as the general statements made in the *Courier* and not attributed to the minority member of our Board are concerned, we think the admirable editorial in the last issue of the *Wicomico News* a sufficient reply.

Respectfully,  
CHAS. E. WILLIAMS,  
WM. JEFF STATON.

## WICOMICO CITIZEN ROBBED.

Two Men Hold up Mr. W. W. Larmore of White Haven, in Philadelphia, and Escape With His Purse.

The Philadelphia Record of Friday, says:

Two bold robbers last evening stole a pocketbook, containing \$50 and two blank checks, from W. W. Larmore, of White Haven, Md., while he was riding on a Seventh street car, near South Washington Square. Larmore boarded the car at Race street, and at Arch street two well dressed young men got on board and entered into conversation with him.

Just as the car was a short distance below Walnut street one of the strangers exclaimed: "You look like a well built man and I am going to try your strength."

At the same time he threw his arms around Larmore's waist and abstracted the wallet containing the money from his hip pocket.

Larmore realized in an instant that he had been "touched," and grabbed hold of the thief. He attempted to detain him until a policeman could be summoned, but the thief, who had taken the wallet, with the assistance of his companion, broke away and ran down Washington Square. They were pursued by Larmore and another passenger on the car, who had witnessed the affair. The two robbers managed to out distance their pursuers and escaped through an alley at Sixth and Spruce streets.

Larmore reported the theft at the Nineteenth District Police Station.

## Amendments To Constitution.

A proclamation by Governor Smith is published elsewhere in the *Advertiser* setting forth three proposed amendments to the Constitution to be voted upon at the election November 5.

The first of these amendments permits the payment of a salary to the State's attorneys for counties not exceeding \$3,000, or payment by fees, as may be prescribed by law. The State's attorney for Baltimore city is to receive a salary of \$4,500 and shall have power to appoint one deputy at a salary not exceeding \$3,000 and such other assistants at not more than \$1,500 a year as the supreme Bench may authorize, all the salaries to be paid out of the fees of the office.

The other two amendments are designed to divide the city of Baltimore into four legislative districts instead of three, as at present. This, if adopted, will give the city four Senators and 24 Delegates in the Legislature.

## Death of Mr. Mitchell.

Mr. James Mitchell died at an early hour last Monday morning at his home near Salisbury, on the Spring Hill road. Mr. Mitchell had been in declining health for some time, his trouble being tuberculosis of the throat.

The body was interred in Parsons cemetery after funeral services held at four o'clock Tuesday afternoon in Asbury M. E. Church, conducted by Rev. Charles A. Hill, assisted by Rev. S. J. Smith and Rev. Dr. Reigart.

Deceased leaves five children, all grown, his wife having died several years ago. The surviving children are: Mrs. Jas. S. Harvey, Miss Ida Mitchell, Miss Bertie Mitchell, Messrs. James and Charles Mitchell.

## Powers—Webb.

Miss Celeste Webb, daughter of Mr. Margaret A. Webb of Vienna, was married last Wednesday evening in St. Paul's Protestant Episcopal Church Vienna to Dr. F. Harwood Powers of Chicago. Among those present were Mrs. Mary E. Houston and her daughters Misses Letitia and Mary Houston of this city.

Miss Webb is well known in Wicomico and has many friends among the younger set in Salisbury.

## TAXPAYERS WANT GOOD ROADS.

Mr. H. F. Pollitt Finds Them Ready and Anxious to Bear Their Part of the Burden.

MESSRS. EDITORS:—Generally it is a pleasure to work at that which you want done, or carry anything to market when everybody is eager to buy. So it was with the road petition, every one I presented it to, wanted to put his name to it. Some said they would contribute money to help the cause, others said they would help in work. One man said he was ready to sign anything that would help make the roads better. Said you might count him for hauling every time there was anything to haul as long as he owned a horse, cart and boy, and I think he will have boys for sometime to come yet. I did not lose one hour's work, to get my petition full, and could have got more names. The day I returned my petition, on my way home, in company with a tax payer from below Quantico, I asked him if he had signed the petition; he said he had not seen one, but was ready to sign one, and furthermore would give one hundred dollars to help shell the road from Rockwalking Mill down to Salisbury. I read Mr. Perry's letter in last week's *Advertiser* with interest and concur in every letter. He spoke of using clay to make the roads with. I have ditch bank that I use in my stables and pound, and it gets as hard almost as boards. There is enough sand in it to keep it from being sticky, and I believe a road made with that kind of material would be as good as shells. Hoping the ball may continue to roll until every public road in the county may be packed as hard as boards. I remain,  
H. F. POLLITT,  
Rockwalking,  
June 20th., 1901.

## Death of Mr. Robt. C. Mitchell.

Mr. Robert C. Mitchell died about 11 o'clock last Wednesday night at his home in Tyaskin District, of paralysis. He was stricken last Sunday evening about the hour for supper and never rallied. His remains were interred in the cemetery at Quantico, Friday afternoon, after funeral services by Rev. F. B. Adkins, of the Protestant Episcopal Church.

Mr. Mitchell was 72 years old. He was one of the largest land owners in Tyaskin District and a successful business man.

He was influential in democratic politics, and had served the county as a commissioner several years ago. In his death the county loses a good and useful citizen.

Surviving him are his wife, who was a Miss Phillips, of Sumner county, Delaware, and five sons and one daughter.

The latter about one year ago became the wife of the Rev. N. G. England of the Protestant Episcopal Church, and resides with him at Uniontown, Ky. One son, Mr. Hillary L. Mitchell, is associated with a large Fruit Corporation of the South, and resides at New Orleans, La. Another, Mr. Walton Mitchell, is a well known young merchant of Tyaskin District.

## Mitchell—Thoringtons.

Miss Minnie Thorington, daughter of the late W. W. Thorington and Mr. George Edward Mitchell were married last Tuesday morning at a quarter after seven o'clock at the home of the bride's mother on William street. Rev. C. A. Hill officiated, and Miss Annie Bennett played the wedding march.

No invitations were sent out and only the near relatives and a few friends were present. The bride was attired in a tailor made traveling suit of blue broad-cloth, and wore a hat to match.

Immediately after the ceremony the couple left for a bridal trip to Washington. On their return they will reside at Mr. Mitchell's home on William street.

The groom is one of Salisbury's prosperous business men, being a member of the firm of Phillips & Mitchell, who own and operate the large flouring mill recently started by them.

## THE BALTIMORE B. & L. ASSN.

Judge Morris' Decision Favors the Borrowers of the Defunct Institution.

A decision of interest to all stockholders and borrowers of Building and Loan Associations, was handed down last Monday by Judge Morris of Baltimore upon the various exceptions which have been filed to the reports of Special Master John C. Rose in the matter of the Baltimore Building and Loan Association. There are three of these decisions. The effect of all of them may be briefly stated as follows:

1. Stockholders who gave withdrawal notices before the association passed into the hands of receivers, but who did not receive the withdrawal value of their stock before the appointment of such receivers, and not entitled to any preference in the distribution of the assets of the insolvent association over the stockholders who had not given such notice.

2. The holders of the full-paid stock are not entitled to any preference in the distribution of the assets over the holders of installment stock. The amount of the claim of the holders of the full-paid stock against the association will be the par value of their stock with interest thereon from January 1, 1900, to March 21, 1900. The amount of the claim of the installment stockholders against the association will be for the amount of dues they have paid into the association upon their installment stock, with interest at 6 per cent. thereon for the average time prior to March 21, 1900, during which the association held their money. Upon the basis of their respective claims, ascertained in the manner above stated, the holders of paid-up and installment stock will share equally and ratably in the distribution of the assets of the association.

On the above questions the ruling of the Court upholds the reports of the Special Master.

## MARYLAND LAW CONTROLS.

3. Accounts between the association and members who have borrowed money upon real estate mortgage from it in the usual form of such mortgages taken by such association will be stated as follows:

A borrowing stockholder will be charged with the amount of the loan due him, with legal interest thereon, from the time such loan was made to him. He will be credited with all sums paid in by him for dues, premium or interest as of the times such payments were made by him, such credits to be made according to the rule for the application of partial payments prevailing in Maryland. The borrowing stockholder will not be entitled to any credit for sums paid by him as admission fee or fines. As to the borrowing stockholders, while the report of the Special Master is confirmed in so far as such report allows the borrowing stockholder credit for interest and premium, it is overruled so far as it refused the borrowing stockholder credit for the dues paid in by him.

Judge Morris holds that the Baltimore Building and Loan Association, being a Maryland corporation and owning its right to do business at all to the Maryland Building Association legislation, the settled rulings of the Maryland courts as to the rights of stockholders must control, and that the Maryland Court of Appeals had definitely decided years before the Baltimore Building and Loan Association began business in the case of Zucker vs. Low Street Building Association, 48 Md. 448, "that when a Maryland building association becomes insolvent the borrowing stockholder is entitled to credit on his indebtedness to the association all the sums paid in by him to it for interest, premium and dues."

From the above quotation from the "Baltimore Sun" of Tuesday last, it will be seen that paid up stock and running stock will share equally in the dividends on the winding up of the Association.

The borrowing members, on mortgage or otherwise, will receive credit on the sum borrowed for all interest, premium and dues as of the date of payment and calculated as partial payments on debts between private individuals, and the balance ascertained to be due must be paid by the borrower.

From the Master's Report as of date of March 21st, 1900 as to assets of the Association, no accurate idea can now be formed, as the decision of Judge Morris materially affects the value of the asset but it is probable the Master will make a statement in a short time of the value of the assets in accordance with the opinion.

As the amount involved in regard to credit of premium and dues affects about one half of the assets, it is prob-

able an appeal will be taken to the U. S. Court of Appeals. If such an appeal, which must be taken in sixty days, is made, then the settlement of the affairs of the Association will be deferred until a decision is rendered by that Court, sometime about the first of next year.

The contention of the Receivers in regard to the borrowers, was that they were members of the association and should pay in the full face value of the sums loaned, with no credit for payments of any kind but interest and participate with the non borrowing stockholders in the dividends. If the Receiver's contention had been sustained the payments of dues and premium would have remained in the general fund and would have meant practically ruin to the borrowers.

Messrs. Tisdwin & Bell, who carried the case of White vs. Williams to the Court of Appeals and there won, represented the borrowers in Wicomico county and many borrowers in other counties. Mr. Jas. E. Ellegood represented the Stockholders. Numerous counsel from Maryland and other states represented the different conflicting interests. Judge Morris in regard to the borrowers followed the decision of our Court of Appeals in the White vs. Williams case. Amount involved in the decision is about \$1,000,000.00.

## CHAIRMAN JONES TALKS.

His Views on the Battle of 1904.

Senator James K. Jones, chairman of the Democratic National Committee, was in Washington this week. His visit had nothing to do with politics, but the opinions he expressed as to the issues of the next national campaign are significant.

"The Supreme Court decision," he said, "has marked the issue that must be fought out and settled by the people. The Court has decided that Congress may determine how the people's territory acquired by the United States shall be treated; whether they shall be citizens or subjects. The issue before the people is what the course of Congress shall be in the exercise of this power."

"It will have to be determined whether, Congress being given the power to extend government to a people, the government extended shall be in accord with the American declaration of principles and the Constitution, or whether it shall be some other sort of government, foreign to our institutions. The contention of the Democracy will be for the preservation of the doctrines upon which our Government is founded. We shall oppose the theory that there may be subjects under our republican form of government."

"I believe President McKinley said in a speech recently that it was 'merchandise, not maxims,' we wanted. The people of this country will have to determine whether equality before the law, self-government by the people, the principles of the Declaration of Independence and the rights guaranteed by the Constitution are 'maxims' to be abandoned for 'merchandise.'"

"This issue is directly presented and will, I believe, overshadow every other consideration."

Senator Jones remarked that Bryan would not again be nominated for President. He gave no reason for this opinion.

comes from materials combined with skill and knowledge. We use the very best of everything. If it is possible to improve anything, we improve it. The cost doesn't worry us half as much as the quality.

## Daintily Served,

adds relish to even the best drinks. "There's half in the serving," says an expert Fountain attendant. Every article used at WHITE & LEONARD'S Fountain is

## Fresh and Pure

flavors, cream, fruit juices, water, ice, everything. While you're drinking, drink the pure and fresh.

## Plenty of Rich Delicious

Cream always put in. It's a way we have of making friends.

## SHOES!

## SHOES!!

## SHOES!!!

It's shoes everyone wants and it's shoes everyone must have and we know we can fit almost everyone who needs them.

Our shoes have style and wear and they don't cost any more than a shoe that hasn't any of these good qualities.

Our "Men's Department" is well filled with Vici, Box Calf, Velour Calf, Ideal Kid and Calf Skin and we are now ready to dispose of them at prices ranging from —well, at any price you want.

Our "Ladies' Department" is equally as full as our "Men's" and they must come in to appreciate the stylish shoes and Oxford we have selected for them.

We didn't forget the Misses and Children we were selecting.

Pay us a call and look at our shoes.

## AN UNJUST CHARGE.

The community at large was very much surprised to learn through the news columns of our esteemed contemporary, The Courier, that the School Board was being run in a partisan way and that the question of politics ever entered into the deliberations and actions of that body. No one in the county was more astonished at the charges preferred against the two democratic members of the board than they themselves.

The Democratic School Commissioners, Mr. Chas. E. Williams, President, and Mr. W. Jeff Staton, together with Mr. H. Crawford Bouda, Secretary, being gentlemen of as high moral standing as any in our midst and being above the taint of suspicion that they would use their offices other than for the good of our public schools, were requested by their friends for a statement of the facts in the case.

This statement is published in another column of this paper. It is a clear and concise rehearsal of the facts pertaining to the charges made against them. We believe the most biased and prejudiced must acquit them of doing anything in a partisan way or of using their offices for improper purposes. Political capital is well enough in its way and both parties make the most of the errors and shortcomings of their opponents, but an unwarranted attack upon reputable citizens, although office holders, is unjust and unfair and must react against the party descending to such methods.

## THE COUNTY ROADS.

The ADVERTISER has always felt a deep interest in the welfare and success of the public schools, and in giving conspicuous prominence to the subject of good roads this journal has had no desire nor intention to place the public schools in a secondary position. We believe the two are of about equal importance, and that the people at large have a more direct interest in the intelligent and systematic administration of the public schools and public roads than in all other civil functions combined.

Therefore, in keeping the good roads question constantly to the front, we have not been unmindful of the importance of the other, but have been satisfied to leave it to the care of a very capable, a very zealous, and a very business-like board of school commissioners and secretary, while the public roads have no special commissioners whose official shibboleth is "progress." Our county commissioners have in recent years done much in the interest of the roads, the present board being especially liberal in appropriations for shells and drain pipes, and considering the antiquated system they are obliged

to work under, much progress has been made, but their duties are too manifold to leave them much time to enter extensively into any one subject which comes under their administration.

In discussing the public schools and roads, editorially, the editors of the Wicomico News say, "we do not believe that taxpayers want an increase in the tax rate, however badly they want improved roads. The cry everywhere is that taxes are too high, and whenever a reduction is made the taxpayers are pleased; on the contrary they are disgruntled if the rate is raised."

After seeing how eagerly the taxpayers of the county signed the petition for better roads, we cannot agree with our neighbors on the above point. We believe they will cheerfully agree to an additional tax if it is to be systematically and judiciously applied to improvement of the roads. But it is doubtful if they would be willing to have their taxes increased for any other purpose. To say that the people didn't know what they were signing, will not do. In several years' close association with just the class of people whose names are to the petition the writer has had convincing proof many times over that they generally know what they are doing and why they are doing it.

Again the News says: We realize that there is a limit to the county's ability in the matter of appropriating money, having due regard for the welfare of those who have the brunt of the taxes to bear."

There is just the point. Isn't it true that "those who have the brunt of the taxes to bear" the very class who receive the least in return for their taxes; and isn't it equally true that they could get the greatest good possible for taxes if spent for good roads? Good roads would so help the farmers that a big tax could be more easily paid by them than a small one now, and incidentally the county treasury would be enriched.

## SOMETHING FURTHER FROM MR. PERRY.

The Road Question, Like Banne's Ghost, Will Not Down.

Messrs. Editors.—I do not wish to make myself unduly prominent in the move to secure the appropriation for our public roads, still I do not feel like allowing statements that are calculated to mislead, go by unnoticed. I wish to add also by way of parenthesis, that I consider this a public question, and entitled to be discussed in the open. I do not think there should be any attempt to railroad such a matter through the commissioners office covertly, nor do I think it should be stabbed covertly.

Much stress has been laid upon the fact that the commissioners have not collected the five thousand dollars due on judgment from the B. C. & A. Ry. Co. That is entirely immaterial so far as the commissioners are concerned, since they claimed it as assets in their levy of a year ago and declared the levy accordingly. The commissioners considered the case settled and so does every one else so far as I know, including the railroad company itself. The latest seems to be, to discredit the petitions which are to be sent to the commissioners asking for this appropriation by intimating that they were secured as a matter of favor to those circulating them, and that the petitioners did not know what they were signing. Here are some of the names of the petitioners: W. H. Jackson, W. P. Jackson, L. E. Williams, J. D. Williams, L. W. Gunby, L. W. Dorman, W. J. Staton, A. A. Gillis, Perdue & Gunby, S. A. Graham, Jno. H. White, S. H. Carey, Birkhead & Shockley, all the members of R. E. Powell & Co., Judge Holland, Brewington Bros., E. Riall White, Laws, Bros., A. J. Benjamin, E. S. Adkins & Co., together with practically all the other business men of the town, as well as a very large number of tax payers throughout the county. Are these the people who sign their names to papers without knowing what they are signing?

When these petitions were circulated no efforts were made to prove that the appropriation would not increase the tax rate. It was not supposed that any one was stupid enough not to know that it would make a higher tax rate than we would have without this item.

It is scarcely just to the cause to attempt to tangle this matter up with the Public School appropriation. Nobody wants or expects to see the schools crippled for want of funds. The School Board is able to state its needs and I have no doubt it will do it and get due consideration. The school affairs of the county are in competent hands.

THOS. PERRY.

## Boarding Business FOR SALE.

I have an established private boarding house of permanent and transient boarders. I will sell the business with the furnished rooms and all other furniture in the house, with lease of the house, and give possession at once. The house is on Main St., in Salisbury, Md., about opposite the store of R. E. Powell & Co. The house has all modern improvements, three stories, large, pleasant rooms, all occupied by parties who wish to continue. For terms, etc., see Jay Williams or the undersigned. MRS. MAY MOORE, Salisbury, Md.

## Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

—The Salisbury Shirt Company's plant was sold at receiver's sale at the Court House door last Saturday afternoon. Honorable Wm. H. Jackson was the purchaser at \$85,000. Mr. Jackson was a very heavy creditor of the company, having put up large sums of money to keep the plant in operation. Just what the future of the plant will be is not clearly known. It is to be hoped that it will be kept running, as the money distributed to employees has been an important factor in the trade of the local merchants and the growth of the town.

—At the Annual meeting of the board of trustees of the Wilmington Conference Academy at Dover, held last week the following officers were elected: President, William Saulsbury, Dover; Vice President, Rev. T. E. Martindale, D. D., Salisbury; Secretary, Joseph Smithers, Smyrna; Treasurer, John S. Collins, Dover. Reports were submitted by Presiding Elders Watt, Martindale, Corkran and Baker, showing that the plan to liquidate the \$35,000 indebtedness on the school is meeting expectations, and it would seem from these reports that the debt will soon be paid off.

## UNIQUE CHOCOLATE

We want to say a word about chocolate soda especially as prepared at Truitt's. You have all had the misfortune at some time to have been served with the flat and sloppy combination which is so frequently offered where economy is the only aim. By way of comparison we would be pleased to have you ask for a chocolate soda with plain cream at our fountain and will ask you to note the rich creamy consistency and above all the flavor of the chocolate. Your surprise and satisfaction will be our reward for serving only the best. Our fruit sodas in every variety are rich in the freshest fruit syrups made in our store served with or without plain rich cream at 5 cents per glass.

## Another Shirt Tale.

And thereby hangs a tale. It won't be over a week before you will see the billboards around town decorated with pictures of one of Salisbury's prominent men, showing him with a large, soft hat and an expansive white shirt front with names of well known ministers and class leaders. He wears a hat in this picture to conceal the bald facts. This man lives in the northern portion of Salisbury, went home last night, ate an olive, said it was all he wanted, told his confiding wife that he had to referee a spelling match between the Sunday school classes and would be home by ten o'clock, or at the latest by eleven. It was ten, or eleven, or more and when he left the boys, who had invited him to lunch, where liquids flowed so freely that he thought he owned the whole town, he couldn't navigate very well. He had to prove an alibi to his wife when he got home, and on the way home he met a friend—the friend wrote the names of the strongest temperance men in Salisbury on the front of his shirt bosom and when he arrived at home his shirt front was decorated with the names of a great many of Salisbury Sunday school teachers as well as preachers—well, if that man makes his wife believe that he was with this crowd this scheme will be patented and Lacy Thoroughgood will have exclusive control of the sale of the shirts. What do you think of the scheme? In the meanwhile Lacy Thoroughgood will go on selling the Manhattan shirts for one kind, the Monarch white shirts for another kind and the Emery for another kind and Thoroughgood wants to say to you right here that no man wears better shirts, no matter what he paid for them, and that Lacy will match any shirt sold by anybody for \$1.25 with his Emery at \$1.00. In Lacy Thoroughgood's store are more shirts for men and boys than in either two stores in Salisbury put together. Lacy Thoroughgood's store is not only a clothing store—it is not only a hat store, but it is a shirt store. Thoroughgood's 50c shirts are usually 75c shirts elsewhere. It costs a dollar to wear Thoroughgood's 75c quality, if the other fellow sells it.

The next time you roll in at 2.30 a. m. and your wife gives you the stony stare with the query, "What's the meaning of this?" Don't tremble like a leaf. Take on an injured air and reply, dear I've been investigating Thoroughgood's new line of Alibi Shirts.

## Nelaton's Remedy For RHEUMATISM

Is a certain cure. It has made hundreds of friends everywhere as the following will show.

Mr. Wm. T. Davis of Cambridge, Md. writes: For two years or more I have had rheumatism very badly and have tried many kinds of medicine without getting any relief. NELATON'S REMEDY was recommended to me and after taking only one bottle I was entirely cured, and have not been troubled for over three months. Thanks to NELATON'S REMEDY for RHEUMATISM.

Mr. Wm. E. Lowrey, fisherman and oysterman of Cambridge, Md. writes: Two years ago last February I had terrible attacks of rheumatism whenever the weather turned bad. I could not lay down or raise my arm to feed myself. I tried NELATON'S REMEDY and a few bottles cured me completely. I have not had any Rheumatism since or symptoms since and I tell any man, he is foolish to suffer with rheumatism when NELATON'S REMEDY can be had.

Mr. Moses Tiesch of Easton, Md. writes: NELATON'S REMEDY for RHEUMATISM is a wonderful medicine. It cured me when I had Rheumatism so bad that I had to walk around with sticks. I heartily recommend NELATON'S REMEDY to any who suffer with Rheumatism, as it is a reliable and sure cure.

Dr. J. B. R. Purnell of Snow Hill, Md., endorses NELATON'S as follows: I have used the NELATON REMEDY in cardiac neuralgia and general rheumatism with satisfactory results. The ingredients evidence a combination useful for arthritis and various forms of gout and rheumatism, particularly when accompanied with hepatic torpor.

Mary A. Roberts vs. Frank Roberts. No. 1832 Chancery. In the Circuit Court for Wicomico County, Maryland.

The object of this suit is to obtain a divorce a vinculo matrimonii of the plaintiff from her husband Frank Roberts and a decree awarding her the custody of their child.

The bill states that said Mary A. Roberts and Frank Roberts were married on the tenth day of May 1898 and resided together at Philadelphia, State of Pennsylvania for two years thereafter, when said Frank without just cause deserted and abandoned her, and that such abandonment has continued uninterruptedly for at least three years and is beyond reasonable hope of reconciliation. That shortly after such abandonment she removed to Wicomico County, Maryland, and has resided there ever since and that Frank Roberts' whereabouts is unknown to her. That they have one child living and she prays for a decree for divorce a vinculo matrimonii and for custody of child.

It is theretupon this 18th day of May, A. D. 1901, by the Circuit Court for Wicomico County in Equity ordered that the plaintiff by causing a copy of this order to be inserted in some newspaper published in said Wicomico County once in each of four successive weeks before the 9th day of June 1901 give notice to the said Frank Roberts defendant whose whereabouts is unknown, of the object and substance of this bill warning him to be and appear in this Court in person or by solicitor on or before the 12th day of July next and answer the premises and abide by and perform such decree as may be passed thereon.

## Catarth Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarth is a blood or constitutional disease and in order to cure it you must take internal remedies. Hall's Catarth Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarth. Send for testimonials free.

The Eastern Milling Company has commenced the erection of a new grain elevator in Frederick on the site of one that was destroyed by fire some weeks ago. The new elevator will be similar to the old one. The frame work is now being put up on the old foundation. The building will be covered by iron sheeting. There will be two steel tanks on the outside of the building 35 feet high and 23 feet in diameter, with a joint capacity of 50,000 bushels.

A lazy liver may be only a tired liver, or a starved liver. A stick is alright for the back of a lazy man. But it would be a savage as well as a stupid thing to beat a weary man or a starving man because he lagged in his work. So in treating the lagging liver it is a great mistake to lash it with drastic drugs. In ninety nine cases out of a hundred a torpid or sluggish liver is but a symptom of an ill-nourished body, whose organs are weary with overwork. Let your liver alone. Stash with the stomach and its allied organs of digestion and nutrition. Put them in proper working order, and see how quickly your liver will become active and energetic. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the blood, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and relieves the liver of the burdens imposed upon it by the defection of other organs.

Kent county Republicans are not satisfied with the late State census, which they consider falls far short of the Federal count to be accurate. The county loses her expected new delegate to the Legislature by the State count, the figures falling below the required 18,000 population, although the Federal aggregate was well above that number, the actual difference between the two counts being 399 persons.

Mr. W. S. Whedon, Cashier of the First National Bank of Winterest, Iowa, in a recent letter gives some experience with a carpenter in mechanics. He says: "I had a carpenter working for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the drug-gist here and informed me that one dose cured him, and he is again at his work." For sale by R. K. Truitt.

## Journalistic Errors.

I do not allude to what are obviously mere misprints, such as when The Morning Post announced at the head of its fashionable intelligence that Lord Palmerston had gone down into Hampshire with a party of friends to shoot peasants, but I refer to blunders due to crass ignorance of a pretentious order. Perhaps the best instance was when one of the "young lions" of The Daily Telegraph in a leading article enumerated the great masters of Greek sculpture as Phidias, Praxiteles and Milo, ignorant of the fact that Milo is not a sculptor, but an island.

The Times was even worse when, mistaking Prussia for Austria, it devoted a whole leader to discussing why Prussia had joined the solverein. The Saturday Review once explained at great length that the population might be nourished gratuitously on young lambs if killed unwounded before they had begun to crop grass, having therefore cost nothing to feed. Many other instances will doubtless occur to your readers.—Notes and Queries.

## A Mixed Wedding Party.

"The college roommate of a friend of mine was engaged to a lady in New York," writes the Rev. D. M. Steele in his article on "Some People I Have Married" in The Ladies' Home Journal. "His people are Congregationalists, but while at Yale he became a Unitarian. Her parents are Roman Catholics, but she was a member of the Ethical Culture society at Carnegie hall. In compliance with her mother's wish he asked five different priests to marry them, but all refused. In despair he came for me. I married them, an Episcopalian, with the ritual service in a Presbyterian chapel. The Roman Catholic brother of the bride and the Congregational sister of the groom were present. This sister acted as one witness; the other witness was a Jewess."

## Careful Statement.

"Was this man Dennis an entire stranger to you?" asked the cross-examining counsel of a witness in an important case.

"Sorr!" said the witness, whose stupid face was crossed with wrinkles of anxiety, for he had been warned to be cautious and exact in his answers.

The lawyer repeated his question.

"Well, no, sorr," said the witness, with a sudden gleam of enlightenment. "He couldn't be that, for he had but the wan arm, sorr, but he was a partial stranger, sorr. O'd niver seen him befor."—Youth's Companion.

For the benefit of those desiring to attend the Prohibition State Convention to be held at Harrisburg, June 26 and 27, 1901, the Pennsylvania Railroad Company will sell excursion tickets to Harrisburg from all stations on its lines within the State of Pennsylvania at rate of single fare for the round trip. These tickets will be sold and good going on June 25, 26, and 27, and will be good to return until June 28, inclusive.

## Reduced Rates to Detroit.

For the meeting of the National Educational Association at Detroit, July 8 to 12, 1901, the Pennsylvania Railroad Company will sell excursion tickets to Detroit from all stations on its lines, at the rate of one fare for the round trip, plus \$2.00. Tickets will be sold July 6, 7 and 8, good returning to leave Detroit not earlier than July 9 nor later than July 15. By depositing tickets with Joint Agent on or before July 13, and the payment of 50 cents, the return limit may be extended to leave Detroit not later than September 1.

## Oakland Mills, in Carroll county, a once busy place, running night and day, is a deserted village. After Mr. N. W. Steele left the mills were run in the daytime only. Many of the men left. After a few weeks the mills were closed, and the men have been leaving as rapidly as possible.

## A Sprained Ankle Quickly Cured.

"At one time I suffered from a severe sprain of the ankle," says Geo. E. Carry, editor of the Guide, Washington, Va. "After using several well recommended medicines without success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed." Sold by R. K. Truitt.

## The Art of Self-Defense.

The popular idea expressed in the phrase, "the art of self-defense," shows the opinion that the chief enemies a man has to defend himself from are visible and external. But the real danger of every man is from minute and often invisible foes. In the air we breathe and the water we drink are countless minute organisms leagued against the health of the body.

The one defense against these enemies is to keep the blood pure. Dr. Pierce's Golden Medical Discovery thoroughly purifies the blood, removing poisonous substances and accretions. When the blood is pure there is no harbor for the germs of disease which find a lodging only when the blood is impure and corrupt.

"I consider your 'Golden Medical Discovery' one of the best medicines on the face of the earth," writes Mr. Wm. Floeter, of Red Oak, Montgomery Co., Iowa. "While in the southwest, three years ago, I got poisoned with poison ivy. The poison settled in my blood and the horrors I suffered cannot be told in words. I thought I would go crazy. I tried different kinds of medicine, tried different doctors, but all the relief they could give me was to make my pocket-book lighter. I then began taking Dr. Pierce's Golden Medical Discovery. Took four bottles without relief. Kept taking it. I took in all ten bottles and got entirely cured."

Dr. Pierce's Pleasant Pellets cure constipation.

### SHARPTOWN

Dr. T. E. Martindale, Presiding Elder was here on Monday and held first quarterly conference. \$91 was reported as having been collected for the Conference Academy debt, and it will be made \$100 and perhaps \$120, which is the apportionment.

On Monday afternoon, while James Higgins of Vienna was driving toward an old landing, on Plum Creek, near here, on the lands of Jethro Robinson, for the purpose of measuring some logs which he had bought of Robinson, his horse began to sink in the mire and mud and it became frightened and plunged into the creek and in jumping from the carriage he was caught in the reins and pulled into the creek also. Mr. Higgins narrowly escaped unhurt, but the horse was drowned. Mr. Higgins came to town and got a change of clothing and was taken home. A large number of young men went with him to the scene and got the carriage out of the creek.

Joseph the one year old child of W. C. Mann was badly burned on Wednesday. A fire had been kindled in the lot and supposed to have been put out, but the child's clothing caught while passing and but for the presence of mind of the older brother Gorman, the burn would have been more serious. He seized the child and rolled him in a near-by pool of waste water, thus extinguishing the flames, before they spread over the entire body. Only one side is burned, from which he is suffering considerably. Gorman was also burned in his heroic effort to save the child.

Mrs. Margie Cooper and Miss Lena Cooper attended the marriage of John G. Robinson and Miss Margaret Arnett in Baltimore on Tuesday.

B. H. Phillips, Jos. P. Cooper, Ned R. Bounds, A. W. Robinson, Oscar Smith and Mrs. Laura Covington were in Baltimore this week.

Robert Eskridge had three fingers of his left hand sawed off at the factory of A. W. Robinson & Co., on Friday of last week. He was taken to the hospital in Salisbury and had his hand dressed and is doing as well as could be expected.

Albin R. Windsor of Baltimore is visiting his mother here. On Sunday last he addressed the M. E. Sunday School. He has many friends here.

The girls at the basket factory of A. W. Robinson & Co., laid down their hammers on Wednesday, having closed the season's work, making berry baskets. There was quite a number of them and they have been faithful and will take vacation until the fall.

A very handsome piano case organ has been received this week for the "Sallie C. Marvill" large new vessel. It was purchased by A. W. Robinson & Co., from a western firm. This vessel is now being fitted up with engine and rigging, masts, etc., and will be ready to sail from 10th to 15th of July, notice of which will be given later.

The Children's Day service was held in M. E. Church on Sunday night, the 9th, inst. The program was well rendered, the subject being the Gateway into the 20th Century. The choir rendered some very fine selections. The collections amounted to \$80, much more than was ever realized here on a similar occasion.

Quite a number of local boarding houses have opened up here for the summer in order to accommodate the large increase of men and women stopping here. There are now perhaps more transient people stopping here than at any previous time and ample accommodations are being made.

F. C. Robinson & Co. have added a planer to their Fender mill and put in much more machinery and will branch out in their business, giving employment to quite a number of hands. Owing to the scarcity of the kind of timber used in fenders, they do not run on full time, but with the enlargement of their plant and the new feature they will be enabled to run constantly and thereby add another labor giving industry to the town.

Quite a lot of repair work now at the Railway and carpenters busy.

A young lady near here, put her name and a few lines of poetry on a berry basket which was filled and shipped to Boston. In a few days she received a letter from a young man of Boston expressing a desire to correspond with her and to exchange photographs.

The potato crop in this section is very prosperous.

Mrs. Lizzie E. Elzey and daughter Miss Dollie came here on Thursday and will remain several days. Mrs. Elzey will dispose of her stock of merchandise while here and rent her residence and store building, as she will reside in Baltimore.

S. J. Cooper & Son received a consignment of cows Thursday from near Baltimore.

Mrs. Lizzie Lynch is having her Main St. property painted.

Arrangements have been made to hold the annual campmeeting near here, under the auspices of the M. P. Churches of Union Circuit to begin August 15th, Rev. A. W. Matthew in charge.

The fox reported a few weeks ago as having killed turkeys and chickens visited two chicken yards a few nights ago and killed forty-four chickens at one place and thirty-two at another. Wednesday night it was given a hot chase, but was not captured.

Rev. W. W. Sharp will preach on "The Immortality of Christ" in the M. E. Church tomorrow morning. Rev. T. E. Martindale, Presiding Elder, will preach in the evening.

### PITTSVILLE

W. W. Brattan and family have moved to Ocean City for the summer.

Most of the young men who have been here for the past few weeks looking after interests in the berry trade, have returned home much to the regret of some of the young ladies. We are always glad to see these men, as they stimulate competition and thus enable the farmer to realize more money for his fruit.

Miss Florence West of Whitesville, was the welcome guest of Miss Mamie Truitt last Sunday.

Mrs. J. E. Richardson is to be congratulated on securing the service of Miss Bertie E. Brown as trimmer. Miss Brown is one of Armstrong & Cator's foremost trimmers, and has just returned from a three months stay in Georgia where she was connected with one of the leading milliners of the South. We trust she may grace our little town with her presence for many days.

Children's day service will be held at the M. E. Church next Sunday evening, June 23.

Owing to the disagreeable weather last Saturday evening the Lawn Party was not much of a success.

What has become of our friend from Somers? "Come thou with us and we will do you good."

Strawberries are now a thing of the past.

### HEBRON.

Death has visited our town again and taken from our midst one of our best citizens, Mrs. Emily Wallace, age 83, who died at noon Wednesday, June 12. She was the daughter of the late John Rounds, who was well known throughout the county by the christian life which he led, and who died some years ago at Quantico with small-pox.

She leaves one brother, Mr. Archela Rounds, and five children, four girls and one boy to mourn her loss. She was a member of the M. E. Church from a small girl, and was counted one of the best Christian characters in our community.

She was the widow of the late Wesley Wallace, who died when her children were all small, whom she had raised to the highest Christian character. She was a loving mother to her children and a kind friend to her neighbors who feel her loss to be a sad one. Funeral services were held at the M. E. Church at Hebron by Rev. C. W. Strickland Thursday afternoon, June 13, at 2 o'clock, and her remains laid to rest in the cemetery at Hebron. A FRIEND.

### FRUITLAND

Rev. F. X. Moore will preach at Fruitland next Sunday morning instead of at night. This is made necessary of the Children's Day service at Siloam.

The Sunday School of Siloam M. E. Church was not permitted to hold its Children's Day service last Sunday night on account of the rain. Hence it will be held next Sunday night June 23.

The first Quarterly Conference of Fruitland Circuit will be held in the lecture room of the church at Fruitland next Friday afternoon, June 28 at 1:30 o'clock. Dr. Martindale will preside.

The Epworth League of Siloam M. E. Church will hold a festival on the Camp ground this evening Saturday June 22. Ice Cream, confectioners and other delicacies of the season will be served.

### MARDELA SPRINGS.

Judge Charles F. Holland was tendered a cordial reception at the hotel here by a considerable number of his admirers in this district last Wednesday evening. Mine host Wilson and his good helpmeet set out a delicious supper, which was thoroughly appreciated by all. Mr. Samuel R. Douglass, the Judge's nephew, accompanied the former. They returned to Salisbury Thursday morning.

Traveling men and other transient guests are very liberal of praise for the management of our hotel. The coming season at the Springs promises to be the best for 20 years. There are few places more healthful and pleasant for a seeker for rest and quiet than right here.

Our truckers are now getting off large quantities of potatoes. The quality is good and prices fair.

### County Nominations.

Centerville, Md., June 18.—The Democratic Convention of Queen Anne's county, Frank H. Phillips, chairman, nominated a ticket today, as follows: House of Delegates—William Otho Thomas, John T. Norman and James T. Bright.

Register of Wills—Robert W. Thomas.

County Commissioner—J. Frank Temple.

Sheriff—William S. Delohay, of the Fifth district.

County Surveyor—Harry R. Graham.

Delegates to the State Convention—Jacob B. Forgan, Charles S. Embert, John McC. Rochester and Walter Crouch.

Crisfield, Md., June 18.—The Somerset Republican County Convention met in Princess Anne today and was called to order by A. Lincoln Dryden, who was made permanent chairman of the convention. These nominations were made.

Clerk of Circuit Court, Oliver T. Beauchamp.

County Commissioner, W. Jerome Sterling.

Sheriff, Herschel V. Maddox.

House of Delegates, William T. Deshield, Joseph Muir, A. Lincoln Dryden.

No nomination was made for Surveyor. The State Central Committee was empowered to fill all vacancies that exist or may occur.

The "U. S. Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, Maryland and Delaware Section, week ending Monday, June 18th," says:—"The 'June drop' continues in all districts, although apparently not so heavy as last week. Apples promise only light to medium returns. Peaches are very irregular in the mountain peach belt; the old trees have a light crop, and in some late varieties, such as the Solway, a very short crop is predicted. In southern Maryland the fall continues heavy, but is not so marked on the Eastern Shore and in Delaware, where it is thought enough fruit will be left to insure good yield. Cherries are yielding well in nearly all districts. Plums are plentiful, especially the Japan plum. Pears are fair to plentiful; the Kieifers are blighting somewhat in eastern Maryland.

### POPULATION OF CITIES

But 33 per cent. of New York State's inhabitants live in Country.

Washington, June 9.—The Census Office has issued a bulletin giving the population of incorporated places in the country. The bulletin shows that there are 10,602 such places, as compared with 7,578 in 1890.

The bulletin shows 38 cities containing more than 100,000 people each. Of the large cities in 1900, three—New York, Chicago and Philadelphia—contain upward of a million inhabitants, the same as in 1890, while for cities having between 500,000 and 1,000,000 inhabitants those in 1900 number three as against one only in 1890.

Illinois leads with 930 incorporated towns and Pennsylvania comes next with 838. New York has 488 such places. There are no incorporated municipalities in Alaska. The incorporated places contain, in the aggregate, 35,849,516 inhabitants, as compared with a total of 26,079,828 persons living, incorporated places in 1890. The combined population in the incorporated towns and cities constitute 47 per cent. of the population of the entire country, as against 41 per cent. in the towns in 1890. In the State of New York, which takes the lead in this respect, 77 per cent. of the people live in the cities and towns, as against 69 per cent. in 1890. Mississippi has the smallest percentage of its people living in the towns, the percent age being 15

### Bees Do no Harm to Peach Orchards.

The Society for the Prevention of Cruelty to Animals sends the following: The value of expert testimony and the high grade of scientific knowledge at the command of the Department of Agriculture in Washington were well illustrated a few days ago at Goshen, N. Y. The owner of a peach orchard sued a keeper of bees, the peach owner contending that he suffered a loss of \$35 by the injury done to his fruit by the bees. The case of the peach grower was ruined by the testimony of Prof. Frank Benton, who, after 30 years' special study of bees, both at home and abroad, is now connected with the Department of Agriculture. He sustained the evidence of other witnesses that bees could do no harm to peaches.

The tongue of the bee, he said, is soft and pliable and could not puncture a peach. The inner tongue, which is spoon-shaped and covered with hair, cannot become rigid. Bees lap their food and are fond of rotten peaches. Their feelers being soft, cannot pierce any substance that offers the least resistance. They are supposedly the organ of touch and that of smell, by which the bees recognize each other by the smell of their bodies. Sometimes bees will meet and wind their feelers about each other. This is their method of shaking hands.

## "Can't Afford to Paint."

The man who says that, forgets that painting properly done is economy, and the fact is he can't afford NOT to paint.

How often you require to paint is largely dependent upon the paint you use.

THE SHERWIN-WILLIAMS PAINTS

out last others. They are the most economical paints you can use, because they cover most and wear longest. Add to this their good appearance, and you have perfect paints—The Sherwin-Williams Paints.

They are made for many different kinds of painting. Whatever it is you want to paint—a house, or anything in or out of the house—we make the right paint for that particular purpose—not one slapdash mixture for all.

## CONSECRATION OF ST. PETERS.

**Bishop Adams Will Consecrate the Edifice Today.**

St. Peter's Protestant Episcopal Church of Salisbury Parish will be consecrated today, St. Peter's Day. Services will be held in the church at 7.30 a. m. and again at 10.30. At the early service there will be morning prayer and a consecration and celebration service. The second service will be the consecration service. Bishop William Forbes Adams will be the consecrator and Bishop Leighton Coleman will preach the sermon. At this service the instrument of donation will be read by the Junior Warden, Mr. Thos. Perry, after which the instrument will be handed to the Bishop to be placed by him in the archives of the Diocese.

The form of the instrument follows in full: To the Right Reverend William Forbes Adams, Bishop of the Diocese of Eastern:

The undersigned, the rector and the vestrymen of St. Peter's Church, Salisbury Parish, in the Diocese of Eastern, do hereby certify that the said St. Peter's Church and the ground upon which it stands and which is used in connection therewith, have been fully paid for and are free from lien or other incumbrance and that the said church building and grounds are held under a good and valid title in fee, and are held under the provisions of chapter 24 of the Acts of the Assembly of the State of Md. for the year 1798, generally known as "The Vestry Act", so as to be secure from the danger of alienation from those who profess and practice the doctrine, discipline and worship of the Protestant Episcopal Church in the United States of America, otherwise than as allowed by secs. 3 and 8 of Canon 24, Title 1, of the Protestant Episcopal Church in the United States of America, and the Canons of the diocese of Eastern, and said Vestry Act.

In testimony whereof I have set my hand and affixed the seal of said vestry this 29 day of June in the year 1901.

signed,  
Rector of Salisbury Parish and ex-officio, President of Salisbury Parish.

Following this are the signatures of the vestrymen and the seal of the Parish.

The title to the ground on which St. Peter's now stands is in London. As the grant was made by the Queen previous to the Revolution and the Bishop of London was in charge of the Colonial churches, the deed of this grant had to be filed in London where it still remains. Originally the parish church of this whole section was old St. Bartholomew's at Green Hill and the parish that of Stepney. In course of time however the parish was divided into Stepney and Spring Hill and later another division was made and the parish of Salisbury was added. The exact time of this division is not known, but even these facts are of much interest.

During their stay in this city Bishop Adams will be the guest of Mrs. T. W. Seabreeze and Bishop Coleman will be at the Rectory. Rev. Leonidas Baldwin, rector of Christ's Church, Eastern, will also be a guest of Rev. A. J. Vanderbogart. Other rectors who will be here are Revs. J. G. Gantt, of Berlin; R. G. Hamilton, Princess Anne; H. McD. Martin, Crisfield; and Dr. Spalding of Laurel.

## Injuries to an Aged Lady.

Mr. Charles H. Ratledge who left Salisbury last year for Washington where he was engaged in the brick business, has returned and will have charge of Phillips and Wallop's brick yard. He will reside in the Thornton property on East Church street. Mr. Ratledge brought his family down via the steamer Tivoli reaching here Friday morning. On the trip down Mrs. Ratledge's mother Mrs. Woods, while attempting to cross the boat, was thrown from her feet by a sudden lurch of the boat from which she received severe injuries. On arriving here she was taken to the office of Drs. Slemons & Morris who made an examination and found that there was a fracture of the upper part of the right thigh. Mrs. Wood is eighty two years old.

—The biggest living man is said to be Lewis Wilkins, who is now arousing great interest in the scientific circles of Europe. Wilkins was born on a farm near St. Paul, Minn., in 1874. When but 10 years old he measured six feet in height, and now has grown to the tremendous height of 107 1/2 inches—just three-quarters of an inch less than nine feet—and weighs 864 pounds.

## Communicated.

MESSENGER EDITORS:—If the Democratic party, or any portion of it in Wicomico County, is under an imputation of favoring bribery or the use of money for other than legitimate expenses for the coming campaign, I think all will admit that the writer is not to blame for this imputation, unless his outspoken opposition to the prevailing political conditions is responsible for it. I am not aware of any active canvass in my favor based on this opposition. Indeed some sincere friends have counselled more prudence in this respect. It will also be admitted by all, whether for or against my nomination, that I am and have been willing to cooperate for the execution of the law at the coming election, and let by-gones be by-gones, for no Democrat or Republican will claim that his party has been guilty in the past. But if there be any such imputation implied it can easily be removed by a direct resolution at the County Convention, committing the party to the enforcement of the law during the coming campaign and election. Then nominate a candidate who is not afraid of this platform.

Administering the law in Court is practically impossible if its violation is wilfully permitted at the election, as it is absurdly inconsistent to encourage bribery and then punish the briber. The ounce of prevention is worth the pound of cure, in law as well as in medicine.

As to the remedy: Let the newspapers arouse the conscience of the people and awaken their apparently deadened sensibilities to the crime and danger of the "Corrupt Practice." It is not saying too much for them, to say they can accomplish this result on the Eastern Shore if they will take hold of it as the Gold and Silver Question was agitated. A pure ballot is more valuable than either or both of these metals.

As to a practical remedy: It would be well for the Central Committee of the three parties to cooperate in forming an organization looking, first: to the observance of the law, and next: to its enforcement. Making it something more than a compact, since there seems to be plenty of trust everywhere except in "practical politics," as it is so euphemistically called, after the alliterative style of Mr. Burchard, whose three "R. R. R.s" are said to have defeated the Republicans. The two "P. P.s" since the other side has learned the game, have come dangerously near defeating the Democratic party in this county for several elections. J. E. E.

## Star Route Box Delivery.

Notice has been given by the Post-office Department that those persons living on Star Routes, who so desire may have the mail that is addressed to them delivered by the carrier into boxes along the lines of the several routes, after July 1.

The notice, in part, reads as follows: "Any person living on or near the route and not within the corporate limits or any town or within 80 rods of any post office, who desires his mail deposited into a box on the line of the route by the carrier, on said route may provide and erect a suitable box on the roadside, located in such manner as to be reached as conveniently as practicable by the carrier, and such person shall file with the postmaster at the post office to which his mail is addressed (which shall be one of the two post offices on the route on either side of and next to the box) a request in writing for the delivery of his mail to the carrier on the route for deposit in to said mail box, at the risk of the addressee."

It will be the duty of the postmaster on the receipt of such an order to deliver the mail matter to the proper mail carrier who must put it in the boxes belonging to the parties addressed.

The carrier is not required to collect mail from the boxes, but the law provides that every carrier of the mail shall receive any mail matter presented to him, if properly prepaid by stamps, and deliver the same for mailing at the next post office at which he arrives, but that no fees shall be allowed him therefor.

A notice to this effect has been placed in the Post Office.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid from embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren Street, New York.

## GOOD ROADS IN CAROLINE.

**Land Values Increased By Improved Highways Which Furnish A Valuable Object Lesson.**

The following was sent the ADVERTISER by the Rev. J. McLain Brown, a former citizen of Salisbury who still owns property in the town and county. The article appeared this week in the Baltimore Herald from that paper's Caroline county correspondent. In submitting the article for publication in the ADVERTISER the Rev. Mr. Brown, writes: I just wish to add that I can vouch for the truthfulness of correspondent's statements. What has been accomplished in this section of Caroline, can be duplicated in Wicomico when our County Commissioners begin to feel the pressure of public opinion.

Yours truly in the fight for good roads.

J. McLAIN BROWN.

Below is the article referred to: Greensboro, Md., June 28.—A striking object lesson in the worth of even less favored land and the value of good roads in farming communities is afforded by the development of the tract of country lying along the North East Branch of the Great Choptank river, between here and Danton, a distance of six miles. A number of recent transactions in these lands has drawn attention to them, and to the wisdom of regarding such soils in a higher light. Judging from present a picture of thrift and prosperity which a few years ago would have been deemed impossible. Much of the land has been practically abandoned hitherto and upon the sandy soil pine growth has sprung up.

Thirty five years ago Daniel J. Zacharias came to this region from Mechanicsburg, Pa., and purchased Medford's Mills, now known as Silver Spring Mills, which stood upon a site where a century ago a colored man, one Stephen Trust, had erected a primitive grist mill. Mr. Zacharias acquired several parcels of land in the neighborhood, and he and a few other Pennsylvanians who followed him met with limited success in tilling them. The river road from Greensboro to the county seat, leading through this territory, was gauged locally as to distance both by length and depth, being for the most part a bed of sand. A few years ago Mr. Zacharias was elected to the board of county commissioners, of which he is still a member, and soon afterward an effort was made to improve this road. The upper end had been laid with marl from the river, several beds of which are found near Greensboro, and which have been known to the geologists of the state since the days of DuRoi. As a road material it has proved to be excellent.

The late William C. Satterfield, a large property owner here, spread much of it upon roads running through his estates, but no concerted effort was made to thus harden the roads. In addition to the marl beds, it was discovered soon after Mr. Zacharias had started the movement for road improvement that banks of gravel, heretofore passed by without notice, afforded good and cheap road building material. By the use of marl and gravel, the Greensboro-Denton road has now been made one of the best in the county, and with slight expense can be kept up to a standard inferior only to macadam. The effect of this improvement is already seen in the demand for the light and hitherto despised lands along the road, and in their utilization for small fruits and vegetables. The soil is quick and easily worked, and but little behind the trucking regions of Eastern Virginia in maturing fruit and vegetables. With the Queen Anne's Railroad from Denton to Baltimore, and the Pennsylvania Line from Greensboro to the North, growers are placed within a few hours of the city markets, and these several thousand acres will, evidently, at no distant time, become the seat of a highly profitable business.

The people of the Eastern Shore are somewhat slow to adapt themselves to new methods, but the natives are fast becoming convinced of the monetary advantage the small trucker has over average farmer. Ridgely is becoming the most important town in the county, from the industrial standpoint, because of the influx of Northern truckers and the consequent building up of basket and canning factories. People of this same class are developing the river section, and it is the fruit and vegetable growers from the North, with small capital, but hard and intelligently directed labor, who are doing the most for this as well as other Eastern Shore communities. And not the least of their good works is the influence of their example and success upon the native farmers of every degree.

The present season has been a highly profitable one to most fruit farmers,

two of the largest of whom are Jerome A. Davis and J. Spencer Laphan, in the upper part of the county. Mr. Davis settled there a few years ago, after having been engaged in the commission business in New York City. It is said that he has made nearly \$10,000 this year on berries, and, in proportion to the capital and land employed, hundreds of others have done as well. Growers of peas for the canneries, upon which crop these establishments are now working, have in many instances received returns that astound the old style two crop (wheat and corn) farmers.

## Republican Factions in Talbot.

Talbot county has its factional troubles in both the democratic and republican parties. Editor Lightbourn in the last issue of his paper has this to say of the republican situation.

"The political skies are not by any means free from clouds in republican circles in Talbot county. It is quite evident on every hand that the differences are far from being adjusted between the Barber and Mullikin factions. The Talbot Times makes it very clear editorially that the Mullikin people are still on the warpath and expect to fight to the bitter end. The Barber people hope to make the situation acceptable to the Mullikin by naming for all the minor offices Mullikin men, but the legislative ticket, with possibly one exception, must of course be of Barber timber. This will not satisfy the Mullikin people by any means. Geo. H. Trax is very outspoken in the position he takes, and says that if Dr. Barber or anyone identified with that faction be nominated for the State Senate, he and the entire county ticket will be beaten. The democrats, he says, will have the easiest 'walkover' they ever had, if they persist in trying to force any such ticket upon them. The only way, says Mr. Trax, they can hope to secure the support of the Mullikin following is to name either Martin M. Higgins or Edward Woodall for the senate and some good Mullikin man for county treasurer."

## A False Alarm.

On Wednesday night or in the "wee" hours of Thursday morning one of the residents around the N. Y. P. & N. station thought he heard a loud report and afterward saw a bright light in Messrs Grier Bros. Machine shop. Believing the safe was being blown open and ransacked the midnight discoverer thought best to arouse the neighborhood which was promptly done. A council of war was then held and it was thought best to notify the Messrs Grier. After the arrival of these gentlemen the question on making an assault was discussed and it was thought best to encamp outside for the balance of the night. At day break this armed posse made an entrance into the office and shops but lo and behold everything was just as it was left the night before, no safe broken open, no tools gone and no evidence of a midnight intruder.

It is thought that there might have been burglars in the office who were frightened away before the arrival of the re-enforcements.

## Dorchester Gains Delegate.

Dorchester county will gain another representative in the House of Delegates as a result of the State census.

When the Federal enumerators completed their work it was found that the county lacked 25 of the necessary number of inhabitants to give it an additional representative at Annapolis. According to the returns of the State enumerators, Dorchester, Prince George's, Washington and Montgomery counties will each gain one Delegate. There will be no change in the representation of the other counties.

Kent, it was supposed, would be entitled to an additional member of the House of Delegates, but the State enumerators failed to find the necessary increase in her population, although she would have been entitled to an additional Delegate under the Federal census.

—"Ocean City". The Baltimore Chesapeake and Atlantic Railway Company will place on sale July 4th, special excursion tickets at Thursday rates to Ocean City, Md. from all stations on the Railway Division, tickets to be sold for train No. 1, good to return on train No. 2.

—The Baltimore, Chesapeake & Atlantic Railway Company will sell tickets for July 4th between all stations at special excursion rates of two cents per mile; tickets to be sold July 4th, good to return same day, for trains Nos. 6, 1 and 2 only, good to return on all trains except No. 10. Passengers will not be allowed to stop off on these tickets.

## The Mt. Pleasant.

Capt. W. B. Buell, who a year ago spent the early Spring months at Ocean City superintending the construction of the new hotel, the Mt. Pleasant, is already at that resort, with his wife, looking after the improvements which his son, the proprietor, has decided to make this Spring.

These improvements to the Mt. Pleasant include complete sanitary arrangements in connection with new water and sewerage system being installed by the city authorities, and also a water distilling plant, which will supply absolutely pure water for table use.

The "Mt. Pleasant Cottage" which adjoins the hotel will be used as an annex this year, and has already been wired so that each room is connected with the hotel office by electric call bells, so that these rooms will have the same conveniences as those in the larger buildings.

The Mt. Pleasant will open for the season on Saturday, July 1.—Ocean City News.

## "Tarry Thou Till I Come."

"The Wandering Jew" is having a wonderful revival in literature lately. The first book in this fascinating field was "Salathiel," by Geo. Croly, Christ's words to whom, "Tarry thou till I come," spoken beneath the weight of the cross to the scoffing Pharisees, sets the Jew wandering. Most notable followers of this story were Eugene Sue's masterpiece, and "The Prince of India" by the author of "Ben Hur." General Wallace himself praises Croly's "Salathiel" as one of the six greatest English novels ever written. One New York publisher has lately issued an illustrated edition at \$1.40 net. Now comes John B. Alden, so well known as the pioneer in cheap book publishing, with an excellent edition at 25 cents; even this, with a view to widely extending the knowledge of his publications, he offers to mail postpaid to the readers of the ADVERTISER for the nominal price of 12c., if they will order at once, and mention the paper. Doubtless, many will accept his offer. Address John B. Alden, Publisher, 443 Pearl St., New York.

## HO FOR QUEENSTOWN.

Instructions issued by Brigade Commander Riggs as to Details of National Guards Unencamped at Queenstown.

Instructions preliminary to the approaching military encampment at Queenstown were completed by Brigade Commander Lawson Riggs this week.

The order included information about such details as the dress of the soldiers, their food, cooking and forage, transportation, civilian employees in the camp, the daily routine to be followed in camp, the rules concerning visit to the camp rolls and payment of the men, and the camp government.

Parts of the order which would be of interest to the ADVERTISER readers follow:

The First Brigade, Maryland National Guard, will go into camp near Queenstown, Md., for a period commencing on Saturday, July 13, 1901, and ending on Saturday, July 20, 1901, both inclusive. Commanding officers will put their commands in readiness to move, via route and at hours to be hereafter designated.

The encampment will be known as "Camp Smith," in honor of His Excellency, the Governor and Commander-in-Chief.

The uniform to be worn will be the regulation field service blue uniform, with campaign hat. Each man will take his full field equipment and individual mess outfit. Ponchos will be carried, but not overcoat. Regimental quartermasters will provide overcoats sufficient for the guard. Commanding officers will see that the men take the necessary toilet articles and changes of underclothing. Dress uniforms, forage caps and forage cap devices will not be carried. When not in duty, officers and men will be permitted to wear white dock trousers or khaki uniform.

The order of duty for week days will be:

Reveille—First call, 4.55 A. M.; reveille, 5 A. M.; assembly, 5.05 A. M.

Sick call, 5.15 A. M.; breakfast call, 6 A. M.; police call, 7 A. M.

Battalion Drills—Drill call, 7 A. M.; assembly, 7.05 A. M.; recall, 8.15 A. M.

Guard Mounting—First call, 8.50 A. M.; assembly of details, 8.55 A. M.; adjutant's call, 9 A. M.

Evolution of the Regiment—Drill call, 9 A. M.; assembly, 10.05 A. M.; adjutant's call, 10.10 A. M.; recall, 11.30 A. M.

Dinner call, 12 M.; first sergeant's call, 1 P. M.; supper call, 6 P. M.

Regimental Parade—First call, 7 P. M.; assembly, 7.05 P. M.; adjutant's call, 7.10 P. M.

Tattoo, 10 P. M.; call to quarters, 10.45 P. M.; taps, 11 P. M.

On Sunday, July 14th, the order will be modified as follows:

Inspection—First call, 8 A. M.; assembly, 8.10 A. M.; adjutant's call, 8.15 A. M.; regimental parade, 7 P. M.

Visitors will be allowed in the camp daily from 7 to 11 30 A. M., 1 to 5 P. M., and from 7 to 10 P. M.

There will be about 3000 militiamen encamped on Queenstown's broadest field for a week, where a camp for instruction in field work will be pitched.

Commenting on the encampment, the "Baltimore News" has the following to say about Queenstown and the site selected:

"The steamer for Queenstown touch at piers which extend well into the water from a narrow beach lying below little green banks six or eight feet high. When you have mounted one of the banks you stand on the general level of the country. A little nameless creek makes off to the northeast of the piers. The low hills break gradually as they extend in that direction and are soon lost. About 300 yards to the northeast lies the edge of the level plain, extending far northward and skirted along its latter length by the railroad tracks from the wharf, which make away across two States to the breakwater of the Delaware Bay.

From this ridge or edge the expanse sinks sharply down to the northwest, where flows the nameless creek. Stretching away from the ridge south and east toward the little village, flat and green, is the camp field, 300 acres broad."

The water supply will be furnished by an artesian well which has a capacity of 2500 gallons an hour. A large storage tank will be reared beside the wells and a pumping engine set up between them to keep the reservoir full.

The water will be supplied to the soldiers by a pipe system, in which there will be a spigot at the head of each company street.

The importance of this enormous supply of water has not been exaggerated. Except for private preserves and the stores of very cautious soldiers the water supply will furnish the most bubbling soldier in camp with all his drinks. Queen Anne's is a local option country, and old Queenstown will tolerate no speak-asies.

The pay which the guardsmen will receive from the State for their time is: Enlisted men and musicians, \$1 per day each.

Corporals, \$1.25 per day.

Sergeants, \$1.50 per day.

Noncommissioned officers and first sergeants, \$1.75 per day.

Second Lieutenants, \$3.80 per day.

First lieutenant and mounted second lieutenants, \$4.17 per day.

First lieutenants, mounted, \$4.44 per day.

Captains, \$5.00 per day.

Captains, mounted, \$5.56 per day.

## Our Query Column.

ANSWERS TO QUESTIONS

No. 118. What is the Iron Crown of Lombardy?

This celebrated crown is composed of a broad circle of gold set with large emeralds, rubies and sapphires on a ground of blue and gold enamel. But the most important part of the crown (from which it derives its name) is a narrow band of iron, about three-eighths of an inch in width and one-tenth of an inch in thickness, attached to the inner circumference of the circle. This inner band of solid iron is said to have been made out of one of the nails used at the Crucifixion. It was given by the Empress Helena, the alleged discoverer of the Cross, to her son, the Emperor Constantine, as a miraculous protection from the dangers of the battle field. One of the proofs of its sacred character is that not one speck of rust has appeared upon the iron, though it has been exposed for more than fifteen hundred years.

The first knowledge about the crown is that it was used at the coronation of Aegidius, King of Lombardy, A. D. 591.

In 774 Charlemagne was crowned with it. So were thirty-four German Sovereigns in succession.

On the 23rd of May, 1805, when Napoleon Bonaparte was crowned King of Italy at Milan, he, with his own hands placed this ancient crown of Lombardy on his head. After his coronation, Bonaparte instituted a new order of knighthood for Italy, entitled "The Knights of the Iron Crown." In 1806, at the close of the Italo-Prussian war, it was given by the Emperor of Austria to the King of Italy, Victor Emmanuel.

No. 119. What are called the "Lost Arts"?

By the "Lost Arts," we understand "Tyrian Purple," "Damascus Steel" and "Malleable Glass." Damascus Steel refers to sword blades of the highest excellence, formerly made at Damascus, Syria. They have been famous ever since the time of the Crusades, for their beautifully watered and lined appearance, as well as for their fine temper. It is said a blade of this steel can be bent into a hoop and fly back into its original shape without injury. The secret of the manufacture is still unknown. Sir Walter Scott, in "The Talisman" (chapter XXVII), contrasts the Swords of Richard and a heavy bar of iron as easily as a woodsman could cut a sappling with an axe.

The secret of the malleable glass is still unknown. Sir Walter Scott, in "The Talisman" (chapter XXVII), contrasts the Swords of Richard and a heavy bar of iron as easily as a woodsman could cut a sappling with an axe.

On the subject of malleable glass scientific men of the present day are decidedly sceptical, and claim that, in the true sense of the word, it is an utter impossibility. References to malleable glass are found in the writings of the ancients. As early as the reign of Tiberias, an adventurer claimed to have invented malleable glass; in proof of his claim, he threw down a ware, which was only dented, and which he readjusted with a hammer.

No. 120. Where is the Key of the Bastille?

The ancient State prison of France, where the most important prisoners were confined, was known as La Bastille. It was a sort of citadel, built by Charles V. in 1593, strengthened in succeeding reigns until it was well nigh impregnable. It was situated in Paris, at the gate of St. Antoine. The prison walls were built of solid masonry, round towers of massive masonry. Surrounding it was a ditch twenty-five feet deep. The place was kept and guarded by a governor, his subordinate officers and a strong garrison.

On the ever-memorable 14th of July, 1789, the mob of Paris made rush for the Bastille with a fury scarcely paralleled since the days of the Crusades. They stormed the entrance, and in spite of the commander and his garrison, took possession of the prison. The towers poured into the towers and chambers, drew the long confined prisoners from subterranean cells and dungeons, ransacked the whole Bastille and then razed it to the ground.

The key of the Bastille was presented by Lafayette to Washington. It is a large key, antique in shape and still hangs in the main hall of Washington's Mansion at Mount Vernon, as a prized relic.

Proclamation.

WHEREAS, at the January session in the year nineteen hundred of the General Assembly of Maryland, bills were passed proposing amendments to the Constitution of the State.

First.—By amending section 3 of Article 3, of the Constitution of the State.

Second.—By amending section 4 of Article 3, of the Constitution of the State.

Third.—By amending section 2 of Article 3, of the Constitution of the State, which said bills and amendments are in words following, to wit:

CHAPTER 181.

AN ACT to amend section nine of Article 5, of the Constitution of this State, and to provide for the submission of said amendment to the qualified voters of this State for adoption or rejection.

SECTION 1. Be it enacted by the General Assembly of Maryland, (three-fifths of all the members elected to each of the two Houses concurring), That the following section be and the same be hereby proposed as an amendment to Article 5 of the Constitution of this State, and if adopted by the legal and qualified voters thereof, herein and as by provided, it shall supersede and stand in the place and stead of section nine of said Article.

SECTION 2. The State's Attorney shall perform such duties and receive such fees and commissions or salary not exceeding three thousand dollars, as are now or may hereafter be prescribed by law; and if any other Attorney shall receive any other fee or reward than such as is or may be allowed by law, he shall be deemed to have accepted of such fee or reward, and shall be removed from office; provided that the State's Attorney for Baltimore City shall receive an annual salary of forty-five hundred dollars, and shall have power to appoint one deputy at an annual salary not exceeding three thousand dollars, and such other assistants as such annual salaries not exceeding fifteen hundred dollars each, as the Supreme Bench of Baltimore City may authorize and approve; all such salaries shall be paid out of the fees of the said State's Attorney's office, as has heretofore been practiced.

SECTION 3. And be it further enacted, That the foregoing section be and the same be proposed as an amendment to the Constitution of this State, to be held at the next general election for members of the General Assembly, to be held in this State, submitted to the legal and qualified voters thereof for their adoption or rejection. In pursuance of the direction contained in Article 4 of the Constitution, and at said election the vote on said proposed amendment shall be by ballot, and upon each ballot there shall be written or printed the words "For the Constitutional Amendment," or "Against the Constitutional Amendment," as the voter shall elect, and immediately after said election due returns shall be made to the Governor of the vote for and against said proposed amendment, as directed by the said Fourteenth Article of the Constitution.

Approved April 5, 1900.

CHAPTER 182.

AN ACT to amend section four, of Article 3, of the Constitution of this State.

SECTION 1. Be it enacted by the General Assembly of Maryland, (three-fifths of all the members of the two Houses concurring), That the following section be and the same be hereby proposed as an amendment to the Constitution of this State, and if adopted by the legal and qualified voters thereof as here provided, said section shall supersede and stand in the place and stead of section four of Article 3, of said Constitution.

SECTION 2. As soon as may be after the taking and publishing of the National Census of the United States, under the authority thereof, there shall be an apportionment of representation in the House of Delegates to be made on the following basis, to wit: Each of the several counties of the State, having a population of twenty thousand souls or less, shall be entitled to two delegates; and every county having a population of twenty thousand souls and less than forty thousand souls, shall be entitled to four delegates; and every county having a population of forty thousand souls and less than fifty thousand souls, shall be entitled to five delegates; and every county having a population of fifty thousand souls and upwards, shall be entitled to six delegates; and no more; and each of the four legislative districts of the City of Baltimore shall be entitled to one delegate; and to wit: The largest county shall or may be entitled under the foregoing apportionment, and the General Assembly shall have the power to alter or change the boundaries of the

## GOOD ROADS MOVEMENT IN SOUTH.

The Louisville (Ky.) Courier-Journal writing editorially on the subject of good roads says:

"The programme outlined by President Moore, of the National Good Roads Association, for the work to be done at the State convention here June 27 and 28 is highly interesting and instructive. It has taken ten years to get the National Association into its present strong position, but is now doing most effective work and is forcing the great subject of good roads legislation upon the consideration of all political parties. The road-making campaign it is carrying on is furnishing object lessons everywhere of how effective work can be done to improve our roadways thus arousing interest in the most vital topic imaginable.

It is to be hoped that Gov. Bickham's proclamation calling upon County Judges and Mayors of Cities and towns to appoint delegates to the convention here will meet with a hearty response. Two thousand delegates are expected at the convention which begins at Jackson, Miss., tomorrow, and there ought to be as many here. For the benefit of those who do not know what will be done in the way of road making, it may be said that the Illinois Central railroad is carrying eight carloads of implements and exhibitions will be made of the workings of all these. It will be shown how dirt roads can be built and kept in good condition all the year round, and the best way of constructing macadam roads will also be demonstrated. Many novelties will also be shown, among others, how the use of oil keeps down dust. In the party with Mr. Moore are engineers who have built roads every where in the world, and who are able to show what good highways can be constructed at the lowest cost.

Mr. Moore explained yesterday that the dirt road would have to be the basis of the modern system of highways which it is hoped to give Kentucky. In those counties which are able to build macadam roads, the best turnpikes can be constructed, but in the greater part of the State such costly highways are out of the question. Good dirt roads can be built everywhere at moderate cost, and would vastly increase the marketing of farm produce as well as add wonderfully to the comfort and attractiveness of rural life.

The good roads question is the biggest topic to come before the next Legislature. The work of drafting a reasonable and comprehensive plan of legislation ought to be started at the convention here, for unless this is done nothing can be accomplished. Public interest has been aroused at last, and

great advantage ought to result to the State in consequence. The best way to start this work off right is to select good delegates from the counties and cities and have them come here during the convention. A one-fare rate will be made by the railroads, and the meeting will be beneficial and interesting to everybody that comes.

## A SOUTHERN SENATOR'S VIEW.

One of the able Democratic Senators of the South, Senator Clay of Georgia, has recently come out boldly against what he terms "la ter-day Democracy." The Senator's definition of latter-day Democracy is Democracy tainted with Populism. He calls upon his party to cut loose from the Populist ideas that have permeated it for several years and come back to the Democratic principles of old. Well does he say that the party can never win when it opposes the business interests of the country.

In speaking of success he states that the party must carry New York, Indiana, New Jersey and Connecticut to be victorious. In order to carry these states, he continues, the standard bearer must be one whose name is not like a red flag of danger to the conservative element—the element that holds the balance of power at every national election.

"The Democratic party," continued Senator Clay, "has no right to make on capital. The Democratic party recognizes the fact that when the business interests of the country are successful it results in great good to the labor and the farmer. The Democratic party, properly speaking, does not antagonize capital or any business interest. And I trust," he added, "that we may be able to meet the various issues that may arise in a broad and liberal way. For instance, I think we ought to be more tolerant of differences of opinion that may exist in the party, so that we can get together and agree upon a platform and a candidate that will commend themselves to the country."

The Philadelphia Record, says:

The unanimous rejection of fusion with the Populists by the Democratic State Committee of Kansas is a cheerful sign of returning political health in the great West. To the fusion with Populism and the adoption of its principles have mainly been due the disasters that have overtaken the Democratic party in recent years.

—A bantam chicken recently gave the information leading to the arrest and conviction of the thief who stole a number of fowls, in which number the bantam was included. The owner was looking for his property when he saw his bantam in the street, and calling it by name the chicken jumped on his hand. When the owner asked who stole him, the chicken jumped down and ran into a colored woman's yard, where the owner found the stolen property. The thief insisted upon the owner taking the chicken, although he claimed to have bought them. The thief was convicted in Wilmington last week—Democrat and News.

The Crescent Democratic Club has issued two pamphlets, the one containing the proposed primary election law, and the other the endorsement of the precinct plan of party organization, measures adopted by the club some weeks ago. These pamphlets set forth lucidly and intelligently the position of the club as to a thorough reform in primary methods, the necessity of a law for securing good party nominations for public offices, and the stringent application of such means as will secure an honest expression of choice and an assertion of the rights of an untrammelled majority.

These pamphlets will be given a wide circulation for the purpose of enlisting a strong public sentiment to favor the enactment of these important measures by the General Assembly which will convene next January.

David, in the newspaper business. Great applause followed the verdict. Rev. Stangle says he will sue David for \$25,000 for false arrest.

—Mr. Wm. B. Tilghman has been experimenting this week on the road bed in front of his dwelling with some crude oil with which he has thoroughly sprinkled the street. The result has been to lay the dust and it is claimed, if much of it were used about the town, we would be free from mosquitoes. The Pennsylvania Railroad has its tracks sprinkled with this oil from Camden to Atlantic City.

—Mr. Wilmer C. Gullett of Pocomoke City has purchased Mr. A. C. Dykes' residence on the corner of East Church and Bond streets and will come to this city with his family to live about the first of the year. Mr. Gullett is a commercial traveler. The sale was made through Mr. S. P. Woodcock's real estate agency, and the price paid was \$3000.00. Mr. Dykes will probably build again in another part of the town.

—The "Causerie" farm in Quantico district, belonging to the A. Gotts chalk estate, was offered at public sale at the Court House door in Salisbury, last Saturday. It was bid in by a representative of the estate, at \$5,000.00. Mr. George R. Hitch purchased a vacant lot in Camden, Salisbury at \$900.00. The other town property of the estate was not offered. The genial George Riall was auctioneer. He also served as auctioneer in the sale of the Salisbury Shirt Company.

—The County Commissioners and Judges of the Orphans court were in session last Tuesday. The former will be in session again next Tuesday, July 2d. The commissioners granted a pension of \$1.50 per month to Wm. Gaddes, order to Wade H. Insley & Co., and a pension of \$1.50 to Sarah A. Cornish, order to H. H. and E. B. Hitch. The commissioners did not declare the levy as they wished to hear from the taxpayers on the subject of the road appropriation. They think an increase in the tax rate will be necessary in order to make the \$10,000.00 appropriation, particularly if an increased appropriation is given the public schools.

—We, the undersigned merchants of Salisbury, Md., do hereby agree to close our respective places of business for the entire day of July 4th., 1901, and at 7 o'clock p. m. each evening thereafter except Saturdays: R. ## UNIQUE CHOCOLATE

We want to say a word about chocolate soda especially as prepared at Truitt's. You have all had the misfortune at some time to have been served with the flat and sloppy combination which is so frequently offered where economy is the only aim. By way of comparison we would be pleased to have you ask for a chocolate soda with plain cream at our fountain and will ask you to note the rich creamy consistency and above all the flavor of the chocolate. Your surprise and satisfaction will be our reward for serving only the best. Our fruit sodas in every variety are rich in the freshest fruit syrups made in our store served with or without plain rich cream at 5 cents per glass.

## OUR NEXT JUDGE

has made a few promises. He has promised to suppress the noises that annoy. First, the fire bell. What's the use of it? When the fire bell rings, people all rush out in the street and get in the way of the fire department. There's no need of anybody knowing anything about a fire excepting the firemen, unless it's the owner of the building, and he'll find it out soon enough. Then the church bells. Every good Christian knows what time to go to church, and the bells are only really of use to the man who says he "didn't hear the bell" when the preacher asks why he didn't come to church. Then the baby that cries next door, or door after next. And then the Saturday night gang, who is trying to sing in one key (usually whis-key.) And now we have Sunday newsboys, who yell on Sunday afternoons. And Judge when you get these few attended to just take up the little sawed off man who wears a big loud plaid coat, the 240-pound woman who wears the loud bright red plaid dress, the man and woman who dress so loud as to disturb the neighbors. Tackle them, Judge, for they're not Lacy Thoroughgood's customers, and anybody that don't trade at Thoroughgood's or at least make the attempt, ought to be fined for cruelty to pocketbooks. People who wear Lacy Thoroughgood's clothes always dress in good taste. They've got to, for the best clothes that come to Salisbury come to Lacy Thoroughgood's store, and none ever came any nearer right than they have this season. You can walk into Lacy Thoroughgood's store, plank down \$10, \$12, \$15 for a fine suit of clothes, wear it whenever you want to, tell folks that a tailor made it up just for common, and that you paid \$40 for it, and nobody on earth can tell that your suit isn't made-to-order and worth \$10. Thoroughgood's clothes are perfect now. Every time a man, young or old, buys a suit of clothes outside of Lacy Thoroughgood's store, he throws money away. Where else can you find such a line of clothing? Your looking will tell you nowhere. It's the most complete and largest assortment shown by anyone in Salisbury.

# What Motherhood Means

A black and white illustration of a woman with dark, wavy hair, wearing a long, dark, flowing dress. She is seated in a high-backed rocking chair, cradling a baby in her arms. The woman has a serene expression. The rocking chair has ornate, curved legs. The background is plain white.

Motherhood means either happiness or misery. There is scant happiness for the mother, who in pain and weakness brings into the world a weakling babe which she can neither nurse nor nourish.

Dr. Pierce's Favorite Prescription fits women for motherhood. It strengthens the maternal organism. It tranquilizes the nerves, encourages the appetite and brings refreshing sleep. It makes the birth hour practically painless and gives the mother the nourishment to give her child.

There is no alcohol in "Favorite Prescription," and it is absolutely free from opium, cocaine, and all other narcotics.

"Words cannot express how grateful I am to your kind advice and your 'Favorite Prescription,'" writes Mrs. D. H. Barrieks, of Perrowville, Va. "I have been suffering for years. I had been in poor health for years, but I suffered greatly with my right side, also with bearing-down pains, and my nerves were in distress, using four bottles of your 'Favorite Prescription.' I am now as well as the mother of two children. With the first child I suffered twenty-eight hours, and with the second I used your medicine and was sick only three hours. I am now well and happy. Your Prescription to be the best medicine in the world for suffering females. I wish you great success, and hope that God will bless you in your noble work."

### DELMAR

The Fourth of July program has been announced. A grand street parade led by the Delmar Cornet Band is scheduled to take place at 1:30 p. m. There will also be a parade of the Mollies and Princesses of the Oriental Court with their famous Zobo band. In the evening there will be a concert by the Delmar Cornet Band and the church orchestra. Several prominent speakers are expected to be present. A balloon ascension will take place at 4:30 p. m. It is confidently asserted, so we are told, that the two famous slide trombone players in the Delmar Band will go with the balloon on its dizzy trip skyward. Fireworks will be displayed at 10:30 p. m. Should the 4th prove rainy the program will be carried out on the 5th.

Mr. Victor Hitchens, who has been taking a business course at Temple College, Philadelphia, has returned home.

Rev. T. E. Martindale, of Salisbury, preached a very interesting sermon in the Delmar M. E. Church Sunday evening.

The first quarterly conference of the M. E. Church was held Monday morning, Rev. T. E. Martindale presiding.

Misses Hetty and Blanche Renninger entertained a number of their friends. All spent an enjoyable evening.

Isaac M. Williams, one of the winners in the Philadelphia Times' contest for a free trip to the Pan American Exposition, left Wednesday night for Buffalo. He will be absent about a week.

J. L. Ellis spent Wednesday in Wilmington looking after business matters pertaining to the A. O. U. W., of which he is Grand Master Workman.

The Delmar Cornet Band have received their uniforms. They present quite a brilliant appearance.

Quite a number of Delmar's inhabitants will go on the excursion to Old Point to-morrow. These excursions are becoming very popular.

The property of W. S. Hitchens was sold at public sale last Saturday afternoon, S. J. Hitchens being the purchaser of the entire lot at \$1875.

Miss Daisy Culver entertained a number of her friends at her home on Jewell St. Wednesday evening. A very pleasant evening was spent in music and games.

W. L. Cordrey left Monday for Philadelphia where he has secured a position with the Union Traction Company.

W. E. Front, of Seaford, is here with his merry go-round.

Irving Culver and J. F. Hastings visited Philadelphia this week.

Adams Express service has been established on train No. 91 and discontinued on train No. 93. The change should prove beneficial.

E. Ray Henry has accepted a position on the Maryland Division of Penn. R. R.

### SHARPTOWN

Farmers who have sustained losses by the foxes are now burning lights in their chicken yards; some of them have two lanterns near their chicken and turkey coops. One of them was killed this week.

B. H. Phillips is having a new store building erected in Phillips block on Main street. It will be occupied, when completed, by M. H. Bennett of Camden, and Wm. M. Bennett of this town.

Wm. H. Knowles is having his hand some residence on Main street painted.

S. J. Phillips is having his residence on Water street painted.

Revs. Holmes, L. W. Bennett, Stone, S. J. Smith, J. L. Straughn, Judeford are among the ministers assigned to the campmeeting here.

States Attorney Jos. L. Bailey was in town on Sunday.

The merry-go-round has gone and a photographer with his tent has come.

Mr. T. Records of Hagerstown, was the guest of A. W. Robinson this week.

Mrs. Mollie Atkinson, nee Beach, whose husband died in Baltimore a some time ago has moved back to Columbia, Del.

Mrs. Elizabeth Funke died in Baltimore on Saturday last at the age of fifty-five years, leaving five children, her husband having died two years ago. She was a sister of John H. Bennett of this town and left here thirty-five years ago. Mr. and Mrs. Bennett attended the funeral this week.

### PHILLIPS-BENNETT.

On Tuesday night of this week at 9 o'clock J. Edwin Phillips and Miss Gertrude Bennett of Sharptown, were united in marriage at the home of the bride by Rev. Geo. R. McCready of Laurel, Del. A ring was used in the very pretty ceremony. James O. Adams was master of ceremonies and Miss Rachel Collier flower girl. The floral decorations in the parlor were exquisitely beautiful and were in such profusion as to make the room a scene of resplendent beauty. Miss Brooxie Gravenor played the wedding march. The presents were varied, handsome and useful. There were several guests from town. Mrs. C. E. Bennett and family and Miss Dollie Elzey from Baltimore, were present.

Before marriage the prospective groom had erected a residence on Church St. and a few days before the happy event above referred to, it was furnished and all necessary preparations were made for house keeping and immediately after the ceremony they left amid showers of rice for their new residence and at once entered upon the duties and pleasure of home life. The bride was a teacher and taught for several years in her native town.

The lessons taught, and words said, The duties hard and dry, The work done, the day she wed, And children left to cry.

### FRUITLAND

Miss Ida Fields and Annie Disharoon, both of Salisbury visited friends here this week.

Misses Emma and Willie Disharoon of Loretto were guests of Miss Jennie Turner on Wednesday and Thursday.

Mrs. Fairbanks and little son, Charles of Baltimore are guests of the former's sister, Mrs. F. X. Moore at the parsonage.

Mr. W. P. Dalany of Philadelphia is spending a few days with his family at this place.

Mrs. Mary Adams of Norfolk, Va., is the guest of her brother, Mr. Jno. Riggin near this place.

A large crowd filled the St. John's M. E. Church on Wednesday evening, the 26th inst, to witness the marriage at eight thirty o'clock of Miss Stella Crouch to Mr. George E. Price. The church was tastefully decorated with roses, evergreen and potted plants. Mrs. W. S. Moore, Jr., presided at the organ and played the wedding march. Messrs. Levin T. W. Price and Mayhew Reddish acted as ushers. Entered the church to the sweet strains of the march and passed up the aisle to the front followed by Miss Ella Messick, maid of honor, who wore a becoming dress of white organdie over pink and carried pink carnations and ferns. Following her came the bride and groom who stood beneath an arch made of evergreen and pink roses and white lilies. Rev. F. X. Moore read the marriage ceremony in which the three knelt for prayer. The bride wore a dress of white organdie made en traine, and carried a handsome bouquet of white carnations and ferns. The groom and ushers wore cutaway suits of black with button hole bouquets of a white carnation and a fern leaf. After the ceremony a reception was given at the home of the bride's parents, Mr. and Mrs. A. B. Crouch. Among those present were Mrs. J. Preston Adams and little daughter Frances of Norfolk, the former is a sister of the groom, also Miss Priscilla Causey, of Norfolk, aunt of the groom. The happy couple were the recipients of many useful and beautiful presents.

### ALLEN

Measames B. F. and W. F. Messick spent several days of this week in Baltimore.

Miss Gay Harrington of Madison, Dorchester Co., is visiting her sister, Mrs. J. Edward Brooks at the parsonage.

Miss Lola White of Stockton, Md., who has been spending some time with her sister, Mrs. W. F. Messick, is now visiting friends in the Monumental City.

Mrs. A. S. Porter and Mrs. Mary J. Price are visiting friends in Salisbury.

The weather for the past two days has been intensely hot. There is no danger of gripe flourishing just now. It will surely melt if it strikes Allen. We can change the old proverb to read something like this: As the days begin to shorten the heat begins to strengthen.

Last Sunday morning one of our Sunday School teachers asked little Johnnie this question: "Who loves everybody, Johnnie?" to which the little fellow replied, "My Pa does, cause he wants to get in the legislature." This boy will likely be Governor some day.

We have been growlers in Allen as well as elsewhere as one may see by the following dialogue which took place here the other day.

"Straw berry crop a failure?"  
"Oh, yee"  
"Any black's rries yet?"  
"None 'tall!"  
"Taters rotten?"  
"Every one!"  
"Cows gone dry?"  
"Last one of 'em!"  
"Hogs died out?"  
"Complete!"  
"Well have you got anything at all?"  
"Yes blessed be God, I've got the m'as's."

Mr. Andrew L. Pollitt fell from a cherry tree a few days ago and broke two ribs and sustained internal injuries.

### PITTSVILLE

The Children's Day Service at the M. E. Church last Sunday was very good.

Miss Mamie Truitt spent the first of the week with friends in Salisbury.

Mr. James Farlow is visiting relatives in Frankford this week.

Mr. E. E. Parsons is attending the Y. M. C. A. Convention, at Northfield, Mass. this week, and on his way home he will stop off at New York for a few days.

We are sorry to report that Mrs. Martha Timmons is on the sick list.

The members of the M. P. Church are busy rehearsing for Children's Day, which will be held Sunday evening, July 7th.

Mr. Walter Sheppard is visiting relatives here this week.

Mrs. Ned Evans of Berlin is the guest of her sister, Mrs. A. B. Truitt.

Rev. D. F. McFaul, wife and daughter were guests of Mrs. Amanda Truitt, Friday afternoon of last week.

A picnic will be held on the "Old Camp Ground," next Thursday. Proceeds will be for the benefit of the M. E. Church. Come out and invite your friends with you.

### HEBRON.

Children's Day services were held in the M. E. Church Sunday evening and was a success in every way. The church was crowded to its utmost capacity and many stood on the outside. The music was under the direction of Mrs. Sadie Nelson, was well prepared and rendered in such a way as to call forth many favorable comments. Not only was the singing, speaking etc., of the highest order, but the financial part was in excess of any previous Children's Day offering.

Mr. Peter Brown, while sailing Sunday on the Mayflower was thrown overboard. The prompt attention of the rest of the crew probably saved his life.

Arrangements are being made for

the celebration of the 4th of July at the "Old Camp Ground." There will be music and base ball. The promoters promise a most enjoyable entertainment.

Mr. Wm. Gillis of Quantico was in town Thursday.

Master Fulton Bounds of Salisbury spent a few days with Mr. Edward Dashiell this week.

Miss Aeris Phillips of Tyackin is visiting her sister Mrs. W. B. Wilson.

Miss Lala Jones of Quantico is spending a few days with Mrs. Raymond H. Dashiell.

The strawberry crop, while a short one, seems to have been a profitable one through this section. Prices ranged higher than for several seasons past.

### MARDELA SPRINGS.

The friends here of Mr. Woodland Robertson were made sad last Sunday by the news of his death the previous night at his home in Philadelphia. Mr. Robertson was a son of the late Samuel Robertson of Spring Hill and he had many fond relatives and warm friends in this county.

The railroad company is changing its switch at this place and laying another for the firm of Perry & Cooper. The station will be placed on the other side of the track and considerably nearer Main Street.

The Masonic lodge here gave a reception and banquet last Wednesday evening. A number of visitors from adjoining towns were present, many ladies were present, and the occasion was very much enjoyed.

Proprietor Wilson, of the hotel, and some other patriotic citizens are making arrangements to celebrate the Glorious Fourth at the Springs. All are cordially invited to join our town in enjoying the cool shade, sparkling Spring water, the music, speeches and other attractions.

Our "Indian Boy" Jas. Griffith claims to have more varieties of garden plants growing than any farmer in the district. He has fifteen varieties of vegetables and fruits growing in his lot.

### PARSONSBURG

The annual excursion of the Sunday school of M. E. Churches of Parsonsburg and Pittsville to Ocean City will take place on July 28. They invite all their friends to join them in a day of recreation at the beach.

The people of this place will hold their annual picnic on July 13th, when the privileges of the campmeeting will be sold.

Children's Day exercises will be held at Zion Church tomorrow at 2 p. m.

The ladies of the M. E. Church, of Pittsville will hold a grand celebration at that place on Thursday July 4th, afternoon and evening. Several addresses will be delivered.

### Death of Adelbert S. Hay.

New Haven, Conn., June 24.—Adelbert S. Hay, son of Secretary Hay and ex-Council of Pretoria, was found dead on the sidewalk outside the New Haven House early yesterday morning. It is believed that Hay became ill and went to the window for air, was overcome by a fit of dizziness and fell to the ground, a distance of 60 feet.

### A Good Story About Carnegie.

Andrew Carnegie had the pleasure of meeting an old schoolmate on his trip from Edinburgh to London the other day. The schoolmate was the driver of the engine which hauled Mr. Carnegie's train. When the millionaire was apprised of the fact that a man who had gone to school with him at Dunfermline was in the cab he jumped out of the carriage at the first stop and made his way to the engine, where a mutual recognition took place. Mr. Carnegie shook the grimy hand of his old friend very cordially, and asked all about his history since the two parted company at school, many years ago.

A grain of sand in the eye can cause excruciating agony. A grain of pepper in place of the grain of sand intensifies the torment. The pain is not confined to the organs affected. The whole body feels the shock of that little irritating particle. It is so when there is any derangement or disorder of the delicate womanly organs. The disorder may seem trivial but the whole body feels it. The nervous system is disordered. There are fretfulness, irritability, silliness and depression of spirits. The general health of woman depends on the local health of the organs peculiarly feminine. Remove the drains, ulcerations, tearing-down pains, and other afflictions of woman, and the whole body feels the benefit. Dr. Pierce's Favorite Prescription is a specific for the diseases that undermine the strength of women. It is free from opium, cocaine and other narcotics, poisons which enter into many other preparations for woman's use. It makes weak women strong and sick women well.

## Gray?

"My hair was falling out and turning gray very fast. But your Hair Vigor stopped the falling and restored the natural color."—Mrs. E. Z. Benomme, Cohoes, N. Y.

It's impossible for you not to look old, with the color of seventy years in your hair! Perhaps you are seventy, and you like your gray hair! If not, use Ayer's Hair Vigor. In less than a month your gray hair will have all the dark, rich color of youth.

**"Can't Afford to Paint."**

The man who says that, forgets that painting properly done is economy, and the fact is he can't afford not to paint.

How often you require to paint is largely dependent upon the paint you use.

**THE SHERWIN-WILLIAMS PAINTS**

out last others. They are the most economical paints you can use, because they cover most and wear longest. Add to this their good appearance, and you have perfect paint—The Sherwin-Williams Paints.

They are made for many different kinds of painting. Whatever it is you want to paint—a house, or anything in or out of the house—we make the right paint for that particular purpose—not one slap-dash mixture for all.
