

# The S.S.C. Informer

"... so I got a pen and a paper and I made my own little sign  
I said thank you Lord for thinkin 'bout me I'm alive and doin fine ..."

Space; an open door to understanding origin and evolution of life

## Books Aren't the Only Items on Sale at the Store

As classes resume this fall, students returning to SSC will be taking note of the many changes which have occurred on campus during the course of the summer. These include expansion of Blackwell Library and parking facilities, the continued renovation of Holloway Hall, and construction of new dormitories. As the size of the student body continues to grow, so the college features must be augmented to meet the needs of an ever more diversified group. In an effort to do so, significant changes have taken place in at least one facet of student life; the upgrading of the College Bookstore.

Under the direction of Bill Martin, specific improvements have been made in providing students with greater selection, quality, and cheaper prices in merchandise. Among the textbooks, which make up the majority of the bookstore business, there will be many new titles available for the coming year. To keep costs at a minimum the mark-up on new textbooks is kept at only 20 per cent. However, since the store's expenses run a little over 20 per cent of wholesale prices, sale of new textbooks is unprofitable. To compensate for the loss, used textbooks are bought at 50 per cent of the original cost, and resold at a mark-up of approximately 16 per

cent, thus permitting the bookstore to break even on that count, and avoid any expense to the college.

At first glance, students will notice that the bookstore has been rearranged to provide more open space, with most of the textbooks lined on shelves against the wall. Furthermore, about \$3,500 in new fixtures have been ordered to replace outdated cabinets, etc., by late September. The expense involved in replacing these items, however, is minimal since gross receipts equal over a quarter of a million dollars annually.

Among new products featured this year will be a complete line of art supplies. One of the more expensive new fixtures will be a cabinet designed to hold artists' paper to prevent it from being damaged as in years past. The store will also have on the racks a greater variety of T-shirts and blue jeans, not to mention this year's much wider selection of albums which will be sold at the lowest prices in the area. No joke! Single LPs will be sold at \$3.99, and a monthly special at \$2.99 will be offered on a popular LP. Besides that, albums which are not stocked may be ordered from the bookstore, along with paperback books which cannot be found on the racks. This year, the bookstore will be buying from a different supplier, enabling it to buy a better class of books, as last year's selection was unsuccessful in interesting students. Magazines will be more or less of the same kind, including Lampoon, Pent-

house, Playboy, Newsweek, Time, and The Rolling Stone.

Figuring in the college's future are plans to convert the entire student union into a cafeteria which would call for the relocation of the bookstore. Director Bill Martin, however, maintains that this is not yet a matter of immediate concern for the bookstore, since allocation of state funds, bidding, and other arrangements will consume much time before actual construction commences.

## Hints in Making Life Easier at SSC

Once again—Welcome Back To Campus Life—and a special Welcome to all the new Freshmen and Transfer students from the Security Department. At this time we would like to list some helpful information for all students.

1. If at any time a problem should arise please feel free to come to the Security Office or talk with your Officer on duty.
2. A reminder that Freshmen that are living in the dorms are not allowed to have a car on campus due to limited space for parking. For the Upper-Classmen please be sure to register your car at the Security Office located in Nanticoke Hall by September 14, 1973. Your Vehicle Registration Card must be presented before a Decal will be issued. For those of you who are not familiar with proper Student parking areas refer to your Traffic Rules and Regulation manual that is issued with your parking decal.
3. Motorcycles, bicycles are not allowed inside any of the buildings.
4. Last but not the least please try to respect the rights of other students.

STUDENT BODY SENATE

## Apollo Space Program Introduced to SSC by Dr. Adler

SALISBURY, MD., August 15, 1973—Salisbury State College will offer this fall what is believed to be the first Apollo space program course to be given at any college or university in the country.

During the Fall semester, Dr. Isidore Adlyer, Senior Scientist at Goddard Space Flight Center, will teach *Special Topics in Physical Science: The Apollo Project*. The course will be offered Saturdays from 9:00 to 11:45 A.M. for both graduate and undergraduate credit.

Dr. Adler designed the X-ray fluorescence equipment which is used on Apollo 15 and 16 to map the chemical composition of the lunar surface. At present, he is also co-investigator with Dr. Paul Gorenstein on the alpha-particle experiment.

Purpose of the course is to examine the solar system and the universe. The space exploration program is concerned with origin and evolution of life and an understanding of the dynamic processes

shaping man's environment.

The lectures will cover the period from Sputnik through Apollo and the present planetary probes. Many will detail in a non-technical manner the space probes which have been used to learn more about the earth, the moon and the planets, as well as the cosmos.

Dr. Adler joined Goddard in 1964 after working with the Geological Survey from 1952 as a project leader in X-ray spectroscopy.

He received his Ph.D. degree in Physical Chemistry from Brooklyn Polytechnic Institute in 1962. In his undergraduate work at New York City universities, he specialized in chemistry, meteorology and physical chemistry.

Dr. Adler is a member of Sigma Xi, American Geophysical Union, and SAS. He was formerly associate editor for Applied Spectroscopy and is now associate editor for Chemical Geology.

## Mr. Lovely Projects Lovely Ideas in Housing Organization

SSC doesn't have a new dorm building this fall, but we do have a new Housing Director with an extensive background in this field, and some interesting ideas for the future.

A new six-story dormitory building was scheduled to open this fall, but because of construction problems, the builder has been unable to complete it on time. It will probably be open for next semester, but in the meantime several hundred freshmen and transfer students have been accepted, more than there is room for in the existing dorm buildings. So, Mr. Robert Lovely, the new Housing Director, has been busy finding places for these students to stay this fall. Many of the families living in the neighborhoods around the college have offered to put up someone, and a few lucky ones will be staying at Peninsula General!

Some economy measures will have to be undertaken on campus too. In Choptank Hall, for instance, several of the lounges will be converted into rooms to house students, and plans call for all the televisions to be placed in one or two lounges. Some of the other dorms may lose a lounge, and some of the larger rooms will be used to house three or four students. Fortunately, the good response from the Salisbury community has prevented any more restrictive measures from being needed.

When the new dorm opens, two hundred students will be living in a building very similar to Choptank Hall, with air conditioning, carpeting, and other conveniences. The student body will probably be polled this fall to select a name for the building, just as "Choptank" was chosen by the students last year.

Mr. Lovely, the new director, comes to SSC from the University of Tampa, Florida, a private school a little larger than Salisbury State. He was Director of Student Activities there, and has had fourteen years as Director of Housing. Before he entered this field, he was a professional football player with the old Chicago Cardinals, and has coached football at the high school and college levels. He hasn't coached since

1963, though, preferring to devote his time to his job helping students.

The student body at SSC was very interested when the cluster concept with coed floors was chosen for Choptank Hall. Mr. Lovely has more ideas along this progressive line. His former school, for instance, bought a building originally designed for a hotel, and rented out the units to the students much as an apartment building would. A student could choose to rent a studio-efficiency by himself, or could rent a larger apartment to share with someone. A building like this could also be used to house faculty and staff members, and perhaps married couples, and could be rented out on a monthly or semester basis. Variations of our five-room cluster could be used for other buildings.

With the Housing Office organized under Mr. Lovely's management, SSC should be able to avoid any more problems like the ones encountered this year. This year's freshmen students and others coming here in the future can look forward to a well organized and interesting housing program.

Bill Martin here welcoming you to the record section of the Book Store.

I'm Mr. Lovely, keeping the wheels a turning.

Editor of Newspaper taking a snooze.

## Commentary: about the SGA

Welcome back brothers, it sure does look like we'll have another hard year ahead. First of all the *Informer* has underwent some drastic changes. We'll be publishing 16 editions this year even if I have to print blank pages. We're also members of the S.G.A. now.

Talking about the S.G.A. I'd like to rap about a rap I have against Ann Rapp our former S.G.A. President. I would have wrote this last year but Ms. Rapp was too busy to be concerned about suppling the school with a newspaper. No, I really can't put the girl down in this article, I don't have enough space.

One of the funniest things I've ever seen was the Administration vs. Staff softball game. Curveball Crawford started the game but was getting a fair deal due to the fact that Umpire Horn's vision was slightly impaired. The game ended in a 15-15 tie.

Construction around this campus is getting to be too much. It's

really not the Administration's fault. If the new dorm and Holloway Hall contractors would decide to work they would be done. But with no penalty clause in the contracts the companies will take their time.

Also we are starting an "Ask Dr. McBrien" column so send us any questions you have and he'll print an answer!

You see, I'd like to guide the *Informer* away from just straight news. I hope this year we'll have a newspaper everyone will want to read.

Have you ever read the satire of the *National Lampoon*? That I would like to capture by the end of this semester.

If I could find someone on this capus willing to pose nude, the *Informer* would run a centerfold. We are an equal opportunity employer.

Have you noticed how Tom Taylor has been dressing now that he is the S.G.A. president? I wonder if Audrey picks out his wardrobe?

## A College Girl's Wardrobe

The numbers in the sketch represent the college girl's 1973 yearly supply of clothes and accessories for all seasons. These are average statistics — not absolute musts — to be used as a guide. There are a lot of variables that go into putting together a really workable college wardrobe — such as the size, location and style of your campus, your own taste and activities. Your best bet is to be sure you start off with a few of each of the items you consider basic on the list (plus, of course, an appropriate coat, rain gear and other common sense essentials not singled out on the list). Then as you become familiar with the campus customs, you can start adding the extras you'll need.

Some basics for a wordrobe of a college girl.

## Frostburg Helps Salisbury With Overload of Students

SADLISBURY, MD., May 24, 1973—Maryland State College has announced a temporary, unique coordination of admission procedures with Frostburg State College that may move a number of Salisbury State incoming freshmen and transfer students from Salisbury to Frostburg.

Dr. Norman C. Crawford, Jr., President of Salisbury State College, said that two opposite developments have resulted in the coordination effort between the two colleges. Delays in construction of a new 221-bed dormitory at Salisbury and the loss of dorm space in Holloway Hall due to renovation, have created a serious shortage of beds on the SSC campus.

As a result of this development and a contrary situation at Frostburg State, where a number of on-campus residence spaces are available, the Board of Trustees of Maryland State College, suggested a pooling of student resources. "This is a fine example of cooperation on the part of both Colleges in the proper utilization of manpower and facilities," the Salisbury President said.

He continued, "We are heartened by the healthy condition of a growing Salisbury State College and its increasing popularity in the state and region."

"In the three-year period from September 1969 to September 1972, our total enrollment has increased from 1181 to 2370, an average increase of 400 persons per year. While most other colleges are reporting decreases in the number of applications received, interest in our College continues to grow impressively," Dr. Crawford said.

He noted that the College has contacted the incoming freshmen and transfer students who cannot be housed; notifying each one that, had the construction been on schedule, there would have been no problem.

The students were advised that they should opt to attend Frostburg, their admission to Salisbury would be accepted as bonafide at Frostburg. They were also advised that they could return to Salisbury State at a later date, with all academic work transferable with no loss of credit.

Mrs. Margaret Hopkins, Director of Admissions, said that Salisbury State will continue to accept applications from commuting students and their acceptance will not be affected in any way by the housing problem.

For the first time in Salisbury State College's history, more men have applied for admission than women. Approximately 1200 applications were received this year, which was about identical with a year ago.

According to latest figures, a total of 706 men have applied while 518 women have made application to the college.

**DUE TO CIRCUMSTANCES BEYOND OUR CONTROL, WE ARE UNABLE TO FIND ANYTHING SUITABLE TO PLACE IN THIS SPACE.**

## Women's Lib Leads To Honest Relationships

By Phyllis Carney

In this day of the new morality it seems only logical that men should revamp their ideas about the dating scene.

Men for generations have had deep set "castration fears" about letting women take over their so-called duties of society. One of these is the initiation of the bisexual relationship, better known as asking for a date.

Asking for a date is a traditional male role in our society but like most other roles it has its disadvantages. To begin with, this puts the highly unstable male ego in danger. Fear of rejection has kept many romances from going beyond the blueprint stage. In this author's opinion it would be far better to let the girls share in this fear for a change.

If a girl likes a guy it seems only fair that she should be able to openly express those feelings instead of hinting around or telling his friends to tell him. The end result will be the same, either the two will get together or they won't, but it would save a lot of

needless wear and tear on their emotions.

The second main disadvantage is monetary. The role of the man as the provider is rapidly changing and although I feel that this is perfectly acceptable, providing both parties are in favor, I do not feel that a guy should have to bear the complete financial burden. If a girl asks for the date then she should certainly pay for it and after that finances should be arranged to suit needs, not customs. Dutch treating would seem quite suitable for people on a tight buudget, after all, an honest relationship between two people is the goal. Money, if it has to enter into it at all, should be an asset not a liability. A relationship built on sharing and honesty will be much more stable than one which is based on some poor guy spending his last dime to impress a girl.

In conclusion, while it might seem strange at first, with both sexes making advances there would be a lot less confusion and fear and a lot more honest relationships.

Blackwell Library becoming modernized.

## Library of Congress Makes for a Mass of Confusion for Everyone

As new students learn their way around the campus they will soon discover that a change is coming over Blackwell Library.

Instead of the traditional Dewey decimal system, Salisbury State is gradually taking on a new library system called the Library of Congress system. In this new system each book has a unique number which would make it possible to set up a computer base system which could prove to be very beneficial to our student body. The original impetus for the change came from a board of state trustees. This change will supposedly eventually include all Maryland colleges.

Along with all the new books, the reference books also have been classified according to the Library of Congress system. In the past two years approximately twenty-five percent of Blackwell's books have been classified under the new

system. Through the eventual weeding out of old books and the acquisition of new ones in their places the whole library will be under the Library of Congress system.

Along with the internal change the library is also reaching new dimensions physically. The new section of the library is due to be finished in March of '74. Once opened, the older section will be temporarily shut down to be renovated.

In the past few years the number of books in Blackwell Library has been expanding at a rate of nearly 8,000 books per annum. The library as it exists now has approximately 125,000 books stuffed into a space designated as being able to hold 60,000 books. The new library will have a stated capacity of 160,000 books.

This project will certainly be one beneficial to the whole student body. Let's make good use of it.

Old and new just don't mix.

## NTA Exams

PRINCETON, NEW JERSEY, September 10. College seniors preparing to teach school may take the National Teacher Examinations on any of the four different test dates announced today by Educational Testing Service, a nonprofit, educational organization which prepares and administers this testing program.

New dates for the testing of prospective teachers are: November 10, 1973, and January 6, April 6, and July 20, 1974. The tests will be given at nearly 500 locations throughout the United States, ETS said.

Results of the National Teacher Examinations are used by many large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the examinations. The school systems and state departments of education which use the examination results are listed in

Users which may be obtained by writing to ETS.

On each full day of testing, prospective teachers may take the Common Examinations which measure their professional preparation and general educational background and an Area Examination which measures their mastery of the subject they expect to teach.

Prospective teachers should contact the school systems in which they seek employment, or their colleges, for specific advice on which examinations to take and on which dates they should be taken.

The Bulletin of Information for Candidates contains a list of test centers, and information about the examinations, as well as a Registration Form. Copies may be obtained from college placement officers, school personnel departments, or directly from National Teacher Examinations, Box 911, Educational Testing Service, Princeton, New Jersey 08540.

## Welcome Address

I'd like to take this opportunity to welcome you to our campus. As you look around I'm sure you'll notice many changes on the campus as well as many new faces. Certainly the college is expanding rapidly as possible to meet the many needs of the college community. Student Government at SSC has also expanded. Under our new structure we hope to be able to meet the ever-increasing needs of the student body. Through our organization we want to be able to establish a better system of communication and service for the entire campus. Student government, as I see it, is not a governing body, but a service organization to represent the needs and concerns of our student body.

This year's SGA Board should be one of the best organizations that has existed at SSC. The Board has more enthusiasm and interest in its organization than any I have seen in the past. The SGA Executive Board has already been busy at work, meeting twice during the summer to assist in Freshmen Orientation and work on the tentative budget for the ensuing year. The Executive Board along with the SOPB and Student Counselors has just completed a four-day sharing session in which student leaders met with staff and faculty meeting to help identify the needs and directions of the campus community. We are all in anticipation of a very exciting and prosperous academic year.

I invite everyone to take an interest in their SGA. Our office is located in the Student Union. Feel free to stop by and talk to us. If you haven't the time to stop but do want to discuss some idea, drop a note in Box 707 and I'll get in touch with you.

The Student Government Association is your organization and we represent you. Please take the time to use the SGA.

I wish each and every one the best of luck in the coming year. If I can be of any service to you, please let me know.

Very truly yours,  
Thomas A. Taylor  
SGA President

# THIS WEEK'S VIBES

## LIFE AND SUCH

You are **REALLY** beautiful - -  
be **REALLY** happy.

Life, as you know, is what you make it. You decide what you want to do and what to do with your time.

Unfortunately, there are a great many people who really don't make their lives what they want. There are too many of us who let precious moments of life go by—"killing time"—or making excuses, pretending unnecessary things HAVE to be done, etc. . . .

Think about what you would like to do in this world. Plan some time to use fulfilling your goals (maybe a little time each day you can work on something that really makes you happy).

Maybe there are injustices that you know many people suffer (and you, down deep, would like to alleviate the situation). Maybe you have cared about a certain group of people for years, or an institution, or an individual—think honestly, there is something you can do to help. Work at it, it is worth it; people can change, in-

stitutions do change — but only with help, and you can help.

Dream on—you can at least do something that you want to do—that which will fulfill your basic needs to love (and you will be loved in return) and to feel worthwhile to others.

By getting absorbed in **SOME-THING** for mankind (meaning you and others) true joy and happiness will be yours.

If you do fulfill your basic needs to love and be loved and to feel worthwhile both to yourself and others, you will find yourself to be a happy, responsible-acting adult.

You can satisfy some of your needs by being sincerely interested in others. The world is a much bigger place than family, money, little annoyances, etc. . . . Don't limit yourself. Think positively and constructively. "I set before you life and death, blessing and curse; therefore choose life . . ." (Book of Isaiah).

Choose life; don't let misfortunes destroy you. **GROW!** Keep

your goals in mind and work towards them.

Be **FOR** yourself and for others. Make your own decisions; what is best for you? What will make you happy and, therefore, those around you happy? (When you are happy you pass on good vibes).

Who helps to make this world a better place to live in? Are you looking around? Who, if not you, will help?

You are the hope of the world, you are the catalyst of a better world.

Value each moment,  
barneyandjo honeychuck

For life, for each other, we thank You, God, and thank You for the birds singing softly outside our window. Thank You for our eyes and ears whereby we can experience them. Freely, we are receiving so much. Freely may we give.

We welcome any comments, ideas, thoughts, that you can share with us. You can reach us at 409 Camden Ct., Salisbury.

Celebrate life,  
barneyandjo

"Our company, er... I mean, the University isn't doing too well."

## WISECRACK

(CPS)—The editor of the Republican National Committee newsletter confirmed a report in *The Daily World* that he sent a letter to the newspaper, following the death of Pablo Picasso, which said, "At, at last, Pablo Picasso is now a good Communist."

John Lofton, editor of the newsletter, explained that he sent the letter "as a wisecrack," and denied that the letter represented the opinion of the entire Republican National Committee.

## SPY

(CPS) — The chairman of the Young Republican Club at George Washington University, in Washington, D.C., recently admitted that he was employed by the Committee to Re-Elect the President to spy on radical groups for \$150 a week.

Theodore F. Brill said that his assignment was to "infiltrate the group conducting a peace vigil in front of the White House, bother its members, and on one occasion, assist in arranging for the arrest of the demonstrators for drug offenses."

Brill said that he was paid by George K. Gorton, the national college director for the Nixon re-election committee. He added that his job was to start with the peace vigil group, spread to "other radical groups," and eventually infiltrate radical groups attending the Republican National Convention in Miami.

Gorton said that he had "people gathering information on radicals" in 38 states.

One little-known responsibility of the Coast Guard is the enforcement of Federal laws relating to the safety of vessels. Periodic inspections of U. S. merchant ships help ensure their safety.

The first lighthouse built in the United States under Federal jurisdiction was Cape Henry, Va., in 1792. It is now operated and maintained by a resident crew of Coast Guardsmen.

## AFRO - AMERICAN HISTORY

SALISBURY, MD., August 6, 1973—Afro-American History has been added to the list of subjects for which individuals can receive credit through the College-Level Examination Program (CLEP), it was announced today by Salisbury State College.

CLEP is a national program of credit by examination which has enabled thousands of people to receive college credit for learning acquired outside the classroom. This test was constructed under the direction of a committee of Black educators in conjunction with Educational Testing Service. It was available for the first time this month at approximately 650 CLEP test centers throughout the country and locally at Salisbury State College. Anyone interested

in this program may qualify for September testing by contacting Dr. Robert McBrien, Director of Counseling Services at Salisbury State College.

The test is designed to measure knowledge and understanding of material usually covered in a one-semester survey course in Afro-American history, including African history prior to colonial America, the Black experience from colonial America to 1900, and the period of the 20th century.

In addition to the 34 Subject Examinations, there are also five General Examinations covering the basic liberal arts curriculum taught during the Freshman and Sophomore years of college.

Credit based on CLEP scores will be awarded by Salisbury State College.

## President's Welcome

Welcome to the 1973-74 academic year at Salisbury. Despite two well-attended summer sessions, the campus is a pretty dull place during June, July and August, and all of us at the College have been looking forward to your return. I extend a special welcome to the 700 freshmen and transfer students coming to our campus for the first time this fall. In addition, there are thirty-three faculty and administrative staff new to our ranks.

You have already observed, I am sure, that as our numbers increase, our facilities appear to shrink. We all look forward to the completion of the new dorm, moving into the addition to Blackwell Library, and occupying some of the newly renovated spaces in Holloway Hall during the coming year. More importantly, we will see the completion of some smaller projects involving the dormitory quadrangle and the campus mall. We will also gain some slight relief from our crowded condition through the acquisition of thirteen acres to the south.

It is my belief that the quality of our faculty and staff is extraordinary, perhaps unequalled in any institution of our size. Our educational programs are flexible and responsive to the needs of our society and the interests of our students. Our educational philosophy is supportive of having as many learners succeed as possible rather than the belief that we must make sure a respectable number fail.

Best wishes for a successful and happy year.

Norman C. Crawford, Jr.

## NEW APPOINTMENTS

By Phyllis Carney

During the summer Dr. Norman C. Crawford, Jr., President of Salisbury State College, announced sixteen new appointments to the staff of SSC. The new staff members are as follows:

Dr. Ruth Liya Bronstein as Associate Professor of Education. Dr. Bronstein was formerly Assistant Professor of Education at Newark State College, Union, New Jersey.

Dean Burroughs, Athletic Director and Tennis Coach at Gaston College, Dallas, N.C., has been appointed Associate Professor of Health and Education and Tennis Coach.

Dr. Oscar J. Chapman, former President of Delaware State College, will hold the post of Professor of Education.

Dr. Polly Stewart Deemer, who received her Ph.D. from the University of Oregon, will join the staff as Assistant Professor of English.

Dr. Thomas Oren Early, who has been doing research at the California Institute of Technology (Pasadena) is a new Assistant Professor of the Chemistry and Physical Sciences Departments.

Dr. Leonard J. Carigliano, formerly the Elementary Science and Mathematics Consultant for the Tenafly Public Schools, Tenafly, New Jersey was appointed as Associate Professor of Education.

Dr. Harold Kennedy joined the staff as Instructor of Chemistry and Physical Science. He has taught at both the University of Illinois and the University of Arizona.

Jay Burnell Kunkle, who received his B.S. from Salisbury State and is presently working for his Master's Degree, is an Assistant

Professor of Biology.

Michael D. Kwathowski was appointed Assistant Director of Housing. Mr. Kwathowski received his B.A. and Master's degrees from the University of Delaware and has taught at several Delaware area high schools.

Robert E. Lovely, Sr., who has been the Director of the Student Union since 1963 is now the Director of Housing.

Charles Edward Moon joined the staff as an Assistant Professor of Education. He has taught in the Fluffton-Harrison Metropolitan School District and has been an instructor at Purdue University.

Agnes Dianne Parker, who received her B.S. from SSC and has taught at Pittsville High School is the new Assistant Director of Admissions.

Dr. Robert Allen Rosing, previously a Visiting Assistant Professor at the University of Maryland, College Park is the new Assistant Professor of Geography.

Marie Ann Tator was appointed as Instructor of Art. Mrs. Tator has been an Adult Education Instructor and Art Instructor in Endwell, New York and most recently a Graduate Assistant at East Tennessee State University.

Bill W. Thompson, who until this appointment was Director of Educational Communications at the State University of New York at Binghamton, is the new Director of Instructional Resources.

Dr. John Lee Tyvoll was appointed as Assistant Professor of the Chemistry and Physical Sciences Department. He was formerly the Director of Sea Grant Laboratory at the University of Southern Mississippi.

## All Star Selections

SALISBURY, MD., May 23, 1973—The Salisbury State Sea Gulls won the Delaware Valley Conference Championship, dominated the All-Star selections, which were announced today.

The Gulls placed four players on the nine-member team—Shortstop Joe Powell of Parsonsburg, Md.; Outfielder Tom Daisey of Chincoteague, Va.; Outfielder Rick Carter of Grasonville, Md., and Pitcher Harry Winters of Timonium, Md.

Other selections included Tom Hallman of Philadelphia Pharmacy, George Roat of Rutgers-Camden, Hank Harris and Bill Tate, both of Lincoln, and Pete Distaphons of Eastern.

Powell came in for additional honor by being selected on the All-N.A.I.A. District 19 First Team. Harry Winters won selection on the second team.

The Gulls finished up the season in torrid fashion with an overall record of 17-11. They won 16 of the last 18 games.

## Industrial Eye Injury Preventable

American industry is plagued by one thousand eye injuries every working day of the year, over 90 percent of which could be prevented if the victim wore protective eyewear on the job. Such injuries occur not only to the person involved in a particular operation, but to unsuspecting passersby as

well who are often struck by ricocheting fragments of tool or product. A drastic reduction in such injuries can be achieved, says the National Society for the Preven-

tion of Blindness, if 100 percent use of protective eyewear is required while industrial employees are on the job or passing through work areas.

Welcome to—

SALISBURY STATE

And best wishes for a most successful year.

Our doors swing open and wide. Feel free to come in and browse both at the Plaza and Mall. We hope to have the pleasure of serving you.

PRISONERS NICE DAY

JOHNNY and SAMMY'S  
SALISBURY, MARYLAND

Coach Dick Yobst is football coach.

## Get Your Seats Now For The Fall Football Season

Salisbury State College announced today the start of Football Season Tickets Sales for the general public.

The Gulls, beginning their first year of varsity intercollegiate football, anticipate heavy season ticket sales as a result of indicated community interest in SSC football.

Deane Deshon, Athletic Director, noted that ticket sales for Salisbury State's three-game junior varsity level last year went well. "We had a virtual sell-out at one game and brisk sales at both other contests despite inclement weather during one game," he said.

Mr. Deshon continued:

"Moving into a varsity level program this year, as well as playing all our games Saturday afternoon, should bring out even more fans. We had such a successful first-year venture that local fans want more of the same," Deshon added.

The Sea Gulls did enjoy tremendous success in 1972. Victories were won over Towson State J.V., 31-0; Gallaudet College, 21-14; Madison College, 55-0; and Johns Hopkins J.V., 61-14. Losses were to Army Prep, 7-0, and Princeton University Freshmen, 15-14.

Salisbury State's 1973 home schedule is as follows:

September 22—Frostburg State

October 6—Gallaudet

October 20—West Point Prep

November 3—American U.

November 19—Towson State

Ticket applications may be picked up at the following locations: Holloway Hall, Salisbury State College Campus; Chet Hanulak's Super Clean Car Wash on South Salisbury Blvd.; Ralph and Gaskill Clothing Stores on both the Plaza and the Mall, and Culver's Men's Shop in Delmar.

Reserved seat tickets for the total of five home games will be \$10.00, Salisbury State College reports. Mr. Deshon urges fans to purchase tickets now to assure more choice seating.

## Football Season Starts and Seems Very Promising This Year

Approximately 100 candidates will be welcomed to Salisbury State's football camp in preparation for the Sea Gull's first season of varsity level football.

Head Coach Dick Yobst and his assistants say that enthusiasm is already running high in anticipation of a tough nine-game schedule, beginning with the opener at Glassboro (N.J.) State, Saturday night, September 15. All of the remaining encounters are Saturday day afternoon meetings, including five home contests.

Approximately 60 freshmen and transfers will arrive at the Sea Gull encampment August 16th, while about 40 veterans (including 28 lettermen) will arrive on Sunday, August 20th.

There is certainly reason for optimism in the Sea Gull camp after the highly successful primarily junior varsity schedule of last year. The Gulls won four and lost two, both by close scores.

With virtually the entire offensive and defensive units returning and supplemented with some outstanding transfers, Coach Yobst has high hopes of Salisbury holding its own with all teams on the schedule.

Head Coach Dick Yobst and his staff have the athletes going through twice-a-day drills, as well as squad meetings to get ready for the coming season.

Nearly 30 members of last

year's squad are back to compete with the freshmen and transfers. The returnees include three members of the starting backfield, Grason Jones, Leon Burges and John Fields, as well as substitute quarterbacks David Cooper and David Rose.

Offensive linemen Jeff Polk, Gene Andrews, Mike Sutton, Tom Hampton, Andy Hill and Bob Landreville also return.

On the defensive unit, ten of the starting unit will be back for the Gulls. They are: Lou Amabili, Calvin Riley, Neville Crockett, Jim Guidice, Joe Dietrich, Bill Greer, Humphrey Myers, Mike Russell, Brian Saunders and John Mitchell.

Only Mark Holloway, a senior last year, will not be back.

Others from last year's squad who return are: Gerald Berkey, Ronnie Dallam, John Ditchfield, Chris Emond, Chuck Ettinger, Tim Farrell, Keith Fleming, Brian Hayes, Svott Parker and Jim Wight.

The promising transfers are: Jerry Jrodohl (6-4, 225) defensive end, from Anne Arundel Community College; Luther Pernick (6-7, 230) defensive end from Baltimore Community College; Greg Smith (6', 200) linebacker from Catonsville Community College; Rocco Pass (5-10, 205) linebacker, just released from the U. S. Army; Jack Young (5-10, 190) kicker from Prince George's Com-

munity College; Joe Juliano (5-10, 190) offensive guard from Ossining, N.Y., and Walter Lambert (5-9, 160) backfield from Anne Arundel Community College.

Other transferees are: Melvin Shade (5-9, 185) defensive back from the U. S. Marine Corps; John Moore (6-3, 235) offensive linebacker from West Point Prep; Mike Scarborough (5-8, 160) defensive back from University of Maryland; Mike Shahan (6', 180) offensive line, who is a second semester freshman at Salisbury State; Jim Fennemore (5-10, 185) offensive line from Delaware State College; John Watson (6-2, 220) quarterback from Miami University, and Troy Doyle (5-11, 175) place kicker, a former Salisbury State soccer player.

Coach Yobst has a full program of conditioning and readiness planned for the players coming in.

Freshmen who came in for orientation on July 16 took physical fitness tests to determine physical skills and time trials.

Assisting the coaching staff this year will be two students from last season. Steve Gudis, co-captain who graduated, will work with the freshman offensive line, while Luke Seefried of Delaware, will assist with freshmen defensive linemen.

After the Glassboro game on September 15, the Yobstmen re-

turn home on September 22 to meet Frostburg State. Moving on the road again on September 29, SSC plays Bowie State on September 28.

Gallaudet is the opponent at home on October 4 and then the Gulls play Madison College at Harrisonburg on October 13.

Returning home on October 20, Salisbury meets West Point Prep and goes back to Washington on October 27 to tangle with Georgetown University.

The final two games of the year are at home on November 3 and 10. American University and Towson State are the respective opponents.

The Sea Gulls surprised the entire area last year with their successes in a first bootfall effort. Victories were gained over Towson State J.V., 31-0; Gallaudet, 12-14; Madison, 55-0; and Johns Hopkins J.V., 61-14. The only losses were to Army Prep 7-0, and Princeton Freshmen, 15-14.

A limited freshman schedule will also be offered so that the entire squad will have the opportunity for game experience at some level.

Assisting Head Coach Lobst are Defensive Line Coach M. P. Minton, Defensive Secondary Coach Mike McGlinchey, Offensive Backfield Coach Chet Hanulak, and Offensive Line Coach Mickey Kwiatkowski.

Football practices truly wear the guys out.

## Soccer Schedule opens Sept. 22 with Towson

SALISBURY, MD., June 4, 1973 — Salisbury State College's Soccer Team is adding four new opponents to next year's schedule, it was announced today by Coach Benn Maggs.

They are Georgetown University, Old Dominion, St. Mary's College and Spring Garden College.

The complete schedule is as follows:

Sep 22	Towson State	Away
25	George Washington	Home
29	Georgetown Un.	Away
Oct 3	Glassboro	Away
6	Spring Garden	Away
10	Millersville State	Home
13	Rutgers-Camden	Home
16	U M B C	Away
19	Lincoln Un.	Home
23	Frostburg State	Home
27	York College	Away
31	St. Mary's College	Home
Nov 2	St. Mary's College	Home
31	Old Dominion	Away

The Gulls will have a tough schedule this year and will be adding an extra game to go to.

**CHANCES FOR NUCLEAR (CPS/ZNS)** — What are the chances of a nuclear weapon accidentally exploding in the United States?

This question was put to a team of nuclear experts at the Merston Center for Education in National Security in Ohio back in 1969. They proceeded to tally the number of weapons stored in the United States, the miles covered per year transporting them, and

Oh my God! Here they come.

The idea of this game is to . . . stop him.

the crash rates of weapons carriers.

In 1969, the Center estimated that the chances of a nuclear explosion inside the United States within the next 10 years were one in a hundred. Since then, however,

## Looking Forward to this Year, Coach Lloyd Sigler, Of Cross Country

SALISBURY, MD., June 4, 1973 — Next year's schedule for Salisbury State's Cross Country Team was announced today by Coach Lloyd Sigler.

This coming year will see more three-way meets held than ever before as Salisbury adds Montgomery College, Towson, Haverford, Western Maryland, Gallaudet, York and Lebanon Valley.

The schedule is as follows:

Sep 21	George Mason & Montgomery College	H
27	Loyola	H
29	Towson State	A
Oct 6	Haverford & Western Maryland	A
10	Gallaudet	H
13	Rutgers of Camden	H
16	U M B C	A
19	Lincoln	H
27	York & Lebanon Valley	A
31	Washington College	A

Coach Sigler has a young team but with eight returning lettermen, there should be added strength for next year's upcoming tough season.

In Salisbury Since 1889

## SEVEN DEADLY MYTHS

A happening in my office last semester prompted many thoughts which led me to write this. The event, as I recall, went like this: (knock on door)  
Counselor: "Come in."  
... BY Dr. Bob McBrien ...  
(enter a student unknown to the Counselor)  
Student: "Show me to your couch man, I'm ready."  
Counselor: "I'm sorry but I don't have a couch."  
Student: "Aren't you the campus shrink?"  
Counselor: "If you want to see a psychiatrist, I can refer you to the Mental Health Clinic."  
Student: "Well man, what do you do?"

The rest of the hour was spent in exploring why the student was looking for help and what help a campus counseling service offers. Reflecting on this happening as well as others that I recalled, now that the first year of counseling services is over, led me to identify seven deadly myths of counseling. To me, the term deadly fits because should the myths persist, or should a potential user of counseling services accept a myth, then the result may be his or her excluding the use of counseling services from among his or her alternatives. The seven myths follow:

**MYTH I: Only People Needing therapy seek counseling services.**

While a student in crisis should seek help from counseling services, the counselors there are not psychiatrists, nor are they clinical psychologists. Counseling services are available to all students on campus who seek assistance in decision making, information seeking, planning for the future, or coping with a problem which interferes with their day to day activities. Most students find they are helped with one conference. Of course, some students request a series of conferences.

**MYTH II: Counselors are informants to administration and/or faculty.**

I am reminded of the Professor who asked me if I ... "hear a lot of 'flack' about him?" My response was "If I did, I couldn't response was "If I did, I couldn't tween a student and counselor is **CONFIDENTIAL**. A point of information here, no administrator or faculty members has asked me to relate anything that goes on in my office, and I would not discuss my work with another unless in consultation and the student gave permission. Also, students should be aware that minimal records are

kept in order to insure confidentiality.

**MYTH III: Seeking counseling is a sign of weakness.**

To me, taking action when you feel the need to get your "head right" (or is it to get your stuff together?) is a sign of strength.

**MYTH IV: "See the counselor, and he or she will tell you what to do."**

Every time a student asks "what should I do?" I cringe. The task of counseling is to provide a climate where the student can identify alternatives and make a choice that is "right" for the student. Counselors are able to facilitate the student's choice making by pointing out unconsidered alternatives, locating sources of accurate information, and challenging the student to do something about his concern. The basic skill required of counselors is attentive listening. Telling you what to do is not his or her job.

**MYTH V: "See the counselor, take a test, and you can find the answer to your problem."**

Students who ask for a test to find out what they should do are rarely satisfied. There is no one test or a series of tests that can give students a firm answer. Tests are used to provide information to the student in order to assist in the decision-making process. Decision making begins with test results, it doesn't end with them.

**MYTH VI: Counseling services are for resident students.**

Commuters often feel they are left out of campus life. Every S.S.C. student has the right to request counseling services. Last year, as many commuters as resident students were served by counseling services.

**MYTH VII: If you go to Counseling Services, you have to pay a fee.**

S.S.C. students pay enough fees already. Our services are free.

My purpose for writing this was to "sell" S.S.C. students on using Counseling Services. We believe there is no hassle in getting to a counselor. If any student feels uncomfortable about seeing a counselor in his or her office, we'll be glad to make an appointment for another place on campus. Or use a campus phone and call Extension 288. Mrs. Addie Marshall and my offices are in the Dean of Students' temporary location, the Gallery of Holloway Hall. My office (or should I say cell is Number 2, Mrs. Marshall's is Number 5. We want to help you.

## NEW UNION

The unremitting center of campus activity, the Memorial Student Union, underwent a minor facelift during the summer months. A coat of paint, some new furniture, and a color TV complete the new look. The Union houses, among other things, the dining hall, game room, snack bar, Student Government office, book store, office of the Director of Food Services, and the college post office.

A large part of student activity is the Student Union Program Board. This is a committee elected by the student body to arrange social and cultural events for the entertainment of the school.

However incomplete, the social calendar for the Fall includes films to be presented every Friday at 7:00 and 9:30 pm in Devilbiss Hall. There is one exception which will be shown on Sunday, November 4th. The first film will be "I LOVE YOU ALICE B. TOKLAS" to be viewed September 7th.

Concerts will commence October 19th with Kool And The Gang, followed by McKendree Spring on November 2nd, and Harry Chapin on December 4th.

The program committee will distribute a survey this Fall on which the students can request bands, speakers, films, etc., for future functions.

Students currently serving on the Program Board and their respective areas are: Mike Horseman, Chairman; Jackie Goldwater, Vice Chairman and Secretary; Robin Reynolds, Treasurer; Judy Godwin, Publicity; Holly Phoebus,

## SSC GROWING

**SALISBURY, MD., July 26,** 1973—Salisbury State College has become the fastest growing college in the Maryland State College system, according to enrollment statistics recently released by Salisbury State College's administrative offices.

The Eastern Shore College's enrollment for full-time students increased 81 per cent over the period from 1969 to the present. This compares with 78 per cent for Bowie State College; 67 per cent for Coppin State College; 34 per cent for Towson State College; 17 per cent for Morgan State College, and 14 per cent for Frostburg State College.

These percentages were drawn from full-time enrollment figures for each college, comparing statistics for 1969 and 1972.

Salisbury's enrollment rose from 984 in 1969 to 1665 in 1972. This figure is expected to increase to 1,900 in the Fall, making the percentage a 93 per cent increase over a four-year period. Nearly matching this growth has been a 90 per cent increase in faculty, rising from 63 in 1969 to the present 120.

The graduate program of Salisbury State College has also developed dramatically in the past few

years, as the College added the Master of Arts degree in History to its Master of Education degree.

Enrollment in the graduate program increased over 400 per cent as the total in the program rose from 41 to 210.

The dramatic enrollment increase has effected many changes on campus. Among them is the addition of two new six story "high-rise" dormitories. One—Choptank Hall—has been in operation for a year, while the other is presently under construction and should be ready next January.

Salisbury State College's growth is also evident in library services. A \$1.7 million expansion and modernization program, designed to triple the present size of Salisbury State College's Blackwell Library, is under way. The new structure is expected to be completed in time for the 1974-1975 college year.

Expansion plans call for an increase in the building size from 22,000 square feet to 66,000 square feet, with a stack capacity of 165,000 volumes. The original building will be absorbed into the new structure and the larger completed building will be in a contemporary style, relating to the other newer buildings on campus.

## PROMOTIONS

**SALISBURY, MD., August 2,** 1973—Six Salisbury State teaching faculty members have received promotions, it was announced today by Dr. Norman C. Crawford, Jr., President of Salisbury State College.

They are: Professor Frank D. White; Associate Professors Eugene D. Farace, Dr. Harry H. Suber and Dr. Lloyd M. Whiteway and Assistant Professors Ward Lambert and Janetta McNamara.

Mr. White has been on the staff of Salisbury State College since 1952 and is associated with the Mathematics Department. He received his B.A. degree from Randolph Macon College in 1933 and his Master's degree in Education from Duke University. He engaged in additional studies at University of Kentucky.

Mr. Farace is chairman of the Geography Department. He received his B.S. degree from Millersville State College in Pennsylvania and his M.A. from the University of Maryland at College Park.

Dr. Suber joined Salisbury State in 1969 as Assistant Professor of Mathematics. He received his B.S., M.S. and Ph.D. from Clemson

University. Dr. Whiteway began his SSC association in 1969. He was awarded his Bachelor's degree from Memorial University, Newfoundland, in 1956. Later he was awarded his M.A. in Education from University of Toronto in 1960 and M.A. in Philosophy from Columbia University in 1966. He received his Ph.D. degree from Temple University.

Born in Wilmington, Delaware, Mr. Lambert received his B.S. degree in Education from University of Virginia and his M.A. degree from University of Maryland. He taught five years at Stephen Decatur High School before joining Salisbury State College in 1970. Lambert coaches basketball and teaches Physical Education in SSC.

Janetta McNamara of the Health and Physical Education Department at Salisbury State received her B.S. degree from North Texas State University and has been employed at St. Mary's College in South Bend, Indiana. She attended Colorado College, Connecticut College and UCLA. She has traveled extensively in Europe and Mexico, studying international dances.

Cultural; John Lance, Film; Virginia Gaiser, Recreation and Travel; Donna Scheffel, Dances; Joy Nicholson, Lectures; Tom White, Building Operations; and Joe Dietrich, Concerts.

The present student union will soon be replaced by a larger and more modern complex. Construc-

tion of the new center is expected to begin the latter part of next summer. A committee of students and administrative officers has been appointed to request basic requirements desired by the student body. The committee, the Student Union Planning Board, is headed up by Pam Howard.
