CROSS TO HIS MOTHER.

He Wouldn't Make a Good Husband, She Concluded.

When I was 13 years of age, I must confess I was very fond of a nice young man who had come to see me for over a year, and we both looked forward to a happy wedding in the near future. He had a German-Ian American, I understood (German was very well, though I had never told him so). I had never seen his mother, and I wanted to, but he would say, "Some time I shall take you and your mother to see my mother." If

A VICTIM OF SPEAKING TUBES.

Bad Fate of a Man of Peace Who Is Still a Victim of Speaking Tubes.

There is a man in this town whose work keeps him sitting at his desk all day. He thinks himself fortunately situated, for his employers are considerate in their requirements and liberal in the matter of pay, and his work is enjoyable. The others who work in the same room are busy-men. They seldom speak, but when they do have something to say it is of a pleasant nature. His modest home has been all that heart could

[illegible][illegible]

"start," said I. "Your time is your own," he said, not thinking that I had meant to say that he was to go. He said good-by, invited her to my home, and she came. As Guss spoke up, "Oh, mother never goes out," on the way home she said to me, "I don't like you. No, I don't think she is lovely, and that is more than I can say about you." "What do you mean?" I asked. "I don't know," I understood. My German to my mother, I saw your looks in the eyes of the woman who is to be my daughter-in-law. I despise. He tried to smooth things over, but I was determined, and he settled that wedding, but I married her, and she was a good girl.

[illegible][illegible]

Perhaps the dominant charm of Dickens' novels lies in the secret of his ability to portray with skill the workings of the human mind. He is a master of the art of brothers send out warm sunny rays of loving kindness on every reader of "Nicholas Nickleby." Little more than a year's memory, with her sweet, unselfish deference to her complacent father and thoughtless "brothers and sisters," is the story of the sympathy of every one. Dear old Pegotty, redeemed, a genuine loving home; Ham and his wife, a pair of good, honest, kind people; and Dora (the juxtaposition does not harm them): the plucked face and willing

the new gatekeepers are equally ardent admirers of the same type of pomp and circumstance. "I'm not a monarch," says the emperor, "and my brother—and hosts of other faces shine out with genial warmth from the novelists' pages and become tender friends of mine."

Wherever such hearts are found, in poetry or fiction, in the pages of the novelists' household, the emperor's power is recognized as unique, beneficent and enduring—Happier's Pazar.

What Did They Hear?

A few years ago I was assistant janitor of a large insurance building near old Trinity, New York. The head janitor's wife, a woman of about 50, would come home every Saturday night. The

to be insane for many years, and my expensive medical bills were a constant burden, finding the state a bankruptcy, they resolved to do this, and the knowledge of this no longer was a hindrance to destruction—Gaula Gola-Democrat.

A Chance to Prove His Love

To her (father)—Sir, I love the ground your daughter treads on. I love the grime, the grime! Well, young man, you are a good fellow, but at present for. However, if you love me enough to come and help pay up my bills, I will let you do it, young man, Sir.—Exchange.

My Friend Who Was a Pastryman

On one of the Old Dominion steamships. He called one Friday, but I did not go, because I was not at home because the steamer he worked on sailed the next day (Saturday), and he told me there was no chance of his coming, and he was afraid of a rough passage.

Sunday morning I got my breakfast, went out and got a paper, and found the man engaged in the basement. I sat there talking to the fireman perhaps 16 or 30 minutes. All this time the two men were locked and the key in my pocket.

At once we heard the front door above the main entrance open and a crowd of a hundred people came rushing in on the main floor office. The fireman jumped up and exclaimed, "Fire! Fire!" I listened and somebody up stairs screamed, "My God! We are lost! We are lost!" I went up stairs and found the door open, but we rushed up stairs and found everything as quiet as this grave, not a soul in sight and the front doors locked as I had left them.

The next morning when I looked in the paper I saw that the fire had been kept out but at the account of a shipwreck, it was the very same ship that the poor

country was the Hon. John Davis, who was one of the house of representatives in 1848 to 1849.

we think that Carlyle, while living of a student, was all the while to be something much more active

pantryman did not want to shut on Saturday before. His name was among the lost. Now can any one explain what it was I heard that Sunday?—Cor. New York Recorder.

Antiquity of their Founding.
The art of bell founding is undoubtedly great antiquity. The Saxons are said to have used bells in their spears, although probably but small for the Venerable Bede, writing at the end of the seventh century, alludes to in terms which seem to show they were not unfamiliar things. The towers of the Saxon period have of considerable dimensions in

The Hells of Today.
Imagine a people the most hostile and unmerciful in the world in the religion the most intolerant and fastidious. Imagine this people and this fastidious religion in nothing but their consistency, hung into the maelstrom of ropan restlessness and innovation. Imagine a country full of turbulent ferars, whom the police cannot arrest except flagrant delicto, whom its com-

...and, as Mr. Crowland says, in 1838, when there were a famine of seven bells many years before a national conquest.

Monks at that time and for long were the chief practitioners of the bell founding—which indeed is one of many things those well abused have handed down to us. Their bells were often cast in the open air, and were scarcely jokin, the point of which is lost. More often they were of a nature, sometimes, we fear, not

cannot rely except for the most insignificant offences.

The government of this country is unable to legislate for these matters without the consent of a dozen state powers, most of them indifferent and some ill disposed. Imagine it trying on its principal business in a sign tongue which yet is not the tongue of the predominant race now. In the growing days of today with a bad rigorously fixed according to the minimum requirements of the day be

and with a dash of superstition, as the bell declares that its sound away the demons of the air who bring pestilence and famine, lightning and thunder.

Under the new rule, unfortunately they put no on their bells, a defect which has in some measure overcome by the thees of many enthusiastic campas, but which is likely to keep the history of bells shrouded in darkness a long time to come.—Gentle magazine.

A noted London pianist, who Sunday night at the Charrington, which is held in a long, room, double-galleried all around, bursting (from the fog) was more than enough of July with conglomerate of the church bells and the clatter of an iron would conceive as possible from a merely human assembly. A word about this Charrington house, which is a feature of the east end of London, and which is the home of Frederick Charrington belongs to my family of friends. About 17

to be begun to do a sort of street work in East London, near the docks, where he was to disinfect him, but finally left her, though not a full share, in business. Once, on being tempted to street work wearing the blue ribbed "What does it cost you to wear that?" he was able to reply, "I've got a thousand dollars." He was a member of the Brewery Brothers and built in the Mile End, where he was a member of Whitechapel, at Assembly hall, which had been

but never begun by Keith-
er. Every Sunday night 3,000 or
people gather at the evangelistic
of the mission, and its fellowship
with the city's religious com-
and entertainment work center-
the Great Assembly hall, makes it
for good in a district which con-
sumes powers of evil.—Lon-
don. Hartford Courant.

Remarkable Tenacity of Life.
Dr. Shirely Palmer tells a
story that is calculated to make the

By some hook or crook—hooked on M. F. Palmieri, the owner of a fine brace of tennis racquets, he was invited to come to their home and took them home with the idea of entering them for his Sunday dinner. He was in a pool of water, he was in the lead and thought no one would matter. That night at the home he was arrested, he says.

of the fish had sprung from the tail and lay gasping upon the floor. I was now and then uttering words similar to those which had distressed Palmer. Next day both fish were separated, but the one which had been the father of the pair of fish both, after having gone through the process of scaling and the operation, sprang from the pan and lay about on the floor as though it had recently been removed from the water.

The Strain on the Eye.

Is no reason why a muscle or of the eye should not be fagged by the muscle elsewhere do occur a strain of all kind, does contribute his consequent head heavy burden he has borne without elaborate thinking we receive of the results following

ing use of the eye. Nature has all the skills to protect itself from the glare of the sun. The architect ever yet planned a building that would not yield, crumble and the house human, so exulted in curious and mysterious, falls and returns to dust. And surely than need be, the person that we do not know is sustained or overpowered by another. One tiny muscle is enough to disturb the whole connection of intercurrent diseases.

addition to "eye strain."—*Phillips*

THE BIRDS THAT LAY FOUR EGGS.
The dotted sandpiper and killdeer
do it I presume most of the other
plover, lay four eggs at a clutch.
They are arranged in the nest or on
ground with their small ends
and as they are performed in
pairs, it is in perfection. The
sandpiper and plover groups are
nearly exceeding large for the
bird, and the saving of space

let a gun go off almost anywhere in China
as you were pretty sure to hit a Chinese
man. They seemed easy, however,
deal with, a small present as damages.
sounding them out, and I was
in fact indeed this naval authority
did say that they would sometimes try
to get in the shooter's way on purpose to
get these damages.—*Macmillan's Magazine*

Subscription Price, one dollar per annum, in advance. Single copy, three cents.

POST OFFICE AT SALISBURY, Md., November 24, 1887.

I hereby certify that the SALISBURY ADVERTISER, a newspaper published at this place, has been determined by the Third Assistant Postmaster-General to be a publication entitled to admission in the mails at the post office rate of postage, and entry of it as such is accordingly made upon the books of this office. Valid until the character of the publication remains unchanged.

ROLA MOORE, Postmaster.

SATURDAY, MAY 27, 1888.

The announcement at the Treasury Department last Tuesday that W. H. Gibson, of Maryland, had filled an application for the appointment of collector of internal revenue was a mistake. Mr. Gibson, who is a brother of Senator Gibson, has not filed an application, nor is he in any sense of the word a candidate for the office. The mistake was made by a clerk in the appointment division entering as an application a letter in which Mr. Gibson's name was mentioned.

Thursday the Board of Public Works appointed Capt. Thos. Howard commander of the Maryland order Navy to succeed Gen. Joseph B. Seth.

Capt. Jas. A. Turner, and F. Louis Griffith of Anne Arundel were appointed deputy commanders. Capt. Turner is well and favorably known in this, his native county, and has been a faithful guardian of the state's interests for several years as commander of the Gov. McLane. His retention in the service has never been a matter of doubt, and his advancement is a source of pleasure to his friends here and elsewhere in the state.

The President has not yet taken any action in the direction of appointing an Assistant Secretary of Agriculture, and while in the other departments very few of the assistants to the heads of the departments have been changed since the administration came in. Assistant Secretary Willis, who was appointed by Mr. Harrison, still continues in office at the Agricultural Department. Among the prominent candidates for the place is Owen Morris, of Talbot county, Md., whose application is endorsed by Senator Gibson, Senator Gorman and other members of the Maryland congressional delegation, as well as Congressmen and others from other States. Senator Gibson placed his application on file and presented him to the Secretary of Agriculture.

The Baltimore Evening News says: Secretary Carlisle seems to be favorably inclined toward ex-Congressman George W. Covington as a candidate for Collector of Internal Revenue for the District of Maryland and adjacent Delaware.

At this time the First District of this State, viz, 93,3 during his term of office he and Mr. Carlisle became intimate friends, and in the great contest for the speakership between Messrs. Randall and Carlisle, in which Mr. Carlisle won a victory by a very narrow margin, Mr. Covington voted and worked hard for the Kentuckian, although all the Maryland influences were in favor of Mr. Randall.

Mr. Carlisle is said to be anxious to do something for his old friend, and the result may be the appointment of the ex-Congressman from the First District as Collector of Internal Revenue.

An elaborate form of a list of this revenue district the support of the representatives in Washington from that State will possibly be considered, and both Senator Gray and Congressman Casey in his candidacy.

The outcome of the contest for the Revenue Collectors may thereby be the appointment of Mr. Covington.

The Sunday Question at Chicago. Majority of the National Commission has voted with a majority of the local directory in favor of opening the Columbian Fair on Sunday.

As this is in obedience to the popular will of the country it ought to settle the matter. But, unfortunately, it does not. The Attorney General of the United States, it is announced, will use every legal means in his power to prevent the opening of the gates by the enforcement of the act of Congress which required them to be closed. Whether the federal government can thus override the governing body of the fair and also the State of Illinois remains to be seen.

If the move should prove successful the result will not be a matter for national congratulation. To say the least it will not be a pleasant spectacle to see the power of the general government successfully exerted to attain an end opposed to the will of the people and good of the country.

The Pantheistic sentiment that demands the closing of the gates will do the most good to the masses would demand the closing on that day of libraries, museums, art galleries, etc., the prohibition of orderly excursions, the suppression of newspapers and the stopping of railway trains. This sentiment of a few should not rule in a country where the will of the majority is the supreme law.

New York Herald.

In Honor of Eualla.

WASHINGTON, May 23.—The dinner given to-night by the President and Mrs. Cleveland to Infanta Eualla was made an occasion of much dignity.

The White House conservators have been fairly depleted to furnish rare flowers for the decoration of the table and the apartment where the dinner took place. The larger size dining-room was used, and it has never looked so brilliantly or so tastefully arranged.

The entire lower floor, the East Room, Blue Room, Red Room, Green Room and private corridors were decorated profusely. Growing green plants were predominant, with just enough of flowers in bloom to form a pleasing contrast. The private corridor communicating with the conservatory showing its palms and shrubs through the open doors at one end was, perhaps, the most effectively arranged, its length and the softness and richness of its furnishings making possible a better display than the adjoining apartments.

Shortly before 8 o'clock the Infanta and suite, under the guidance of Commander Davis, took carriages at the Arlington Hotel. Despite the downpour of rain, a crowd of people had gathered about the entrance to the White House to see the royal highness. On the White House portico another assemblage was eagerly awaiting her arrival. In the meantime the chief justices, the cabinet officers and other invited guests had arrived, and at 8 o'clock the royal party drove under the portico where Commander Davis assisted them to alight.

The Infanta, followed by Prince Antonio, passed up the steps, through the local portal, and into the reception rooms, the remainder of the party close behind them. Stationed in the main hall of the White House was the Marine Band under the direction of Professor Facchini, and along the walls were a few spectators.

At 8:15 the band rendered the Spanish national air and the guests marched down the private corridor to the state dining hall, where 38 covers had been laid.

At the center of the table on the right-hand side sat President Cleveland, with the Princess on the right and just opposite sat Mrs. Cleveland and Prince Antonio. To the left of the President and the Princess were Secretary of State Gresham and the Marchioness of Arco Hermosa.

Following to the right, in the order named, were Senator Sherman and Mrs. Russell, Secretary of the Navy Herbert and Mrs. Johnston. To the left of the President were the Spanish minister and Mrs. Fuller, Secretary of War Lamont and Mrs. Ouler, and Secretary of Agriculture Morton and Mrs. Herbert. To the left of Mrs. Cleveland sat the Chief Justice and Mrs. Gresham and in the order named Secretary of the Treasury Carlisle and Mrs. Lamont, Senator Gray and Mrs. Benedict. To the right of Mrs. Cleveland and the Princess sat the Duke of Tamames and Mrs. Carlisle, Attorney-General Olney and Mrs. Smith, Postmaster-General Bissell and Mrs. Gray.

At the end of the table, at the extreme right of the President, were Secretary of the Interior Smith and Mrs. Townsend and ex-minister to Spain Curry and Mrs. Davis. At the other end sat Don Pedro Jovey Tovar and Mrs. Curry and Commander Davis and Mrs. Riggs.

The East Room, where the President and his guests repaired after the dinner, was decorated profusely with green plants. A bit of color was lent by some blooming hydrangeas, but beyond this decoration there was no high mass. Massive palms were banded in and between the windows, candelabras towered above them here and there and smilax was gracefully draped in strings from the chandeliers. There was an absence of decoration from the heavy high mass. The table itself was hardly noticeable in the profusion of the greens. The effect of the room was altogether pretty, and the character of the decorations was an improvement rather than otherwise of great display.

Prices for Liquor in South Carolina. COLUMBIA, S. C., May 21.—Gov. Tillman is receiving inquiries from all over the country as to the operation of the dispensary law of the state, which goes into effect July 1.

The rules regulating the dispensary were given to the press today. They provide that dispensaries must be closed at 6 p. m. the year round. Applicants for the purchase of liquor who cannot write can make a cross mark, and no application for one person can be filed oftener than once a day. A State constable or detective will be detailed to run down all persons suspected of infringing on the law. The prices of the various brands of liquor will be kept posted in each county dispensary and an officer who deviates from the prices will be dismissed.

Gov. Tillman says the cheapest whiskey will be retailed at \$3 a gallon, 75 cents a quart, 40 cents a pint and 20 cents a half-pint, and only the purest liquors will be sold. Under the law dispensaries are not to be established nor are they to be licensed.

The Governor says the State will make \$1 profit on every gallon of liquor sold and estimates that the state will clear \$500,000 the first year.

State of Ohio, City of Toledo, Lucas County.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and State of Ohio, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sworn before me and subscribed in my presence, this 6th day of December, A. D. 1888.

General News.

The amount of tobacco chewed in the United States last year was 85 tons. The National Columbian Exposition commission Tuesday voted not to modify the rule adopted by the local director to open the World's Fair on Sunday.

A section of the wall of the Oriental Building, in Chicago, which was being torn down for the new Rock Exchange, fell Tuesday afternoon on a man and injured several others.

A British scientist recently stated that if a man weighing 140 pounds were placed under a hydraulic press and squeezed flat, the result would be 105 pounds of water and 35 pounds of dry residue.

A central committee has been formed at Dresden where Bismarck's friends are most numerous, to arrange for a plebiscite to ascertain the public feeling regarding the proposed candidacy of the ex-chancellor at the coming election.

The telegraph operators on the Chicago and Northern Railroad struck Tuesday. A heavy freight train was wrecked at North Evanston, blocking all the tracks. Chief foreman, as soon as heard of the strike, declared the order bogus and the strike was settled.

The vast facilities of the J. C. Ayer Co. of Lowell, Mass., enable them to place the Superior blood-purifier—Ayer's Sarsaparilla—within easy reach of the poorest invalid. Don't be induced to take a "cheap" substitute. Always remember that the best is the cheapest.

The Elmira (N. Y.) National Bank closed its doors Tuesday morning owing to the financial troubles of D. C. Robinson, a large creditor of the bank. Jackson Richardson, president of the bank, says that the depositors will be paid in full. The deposits of the bank amount to about \$200,000.

The 4000 trammers in the Calumet and Hecla mine, Houghton, Mich., refused to go underground unless Sunday night work is stopped and they get the same wages as before, \$63 per month. The company will not comply and ordered all dissatisfied men to get their settlement.

At a meeting held in Oxford Tuesday night for the purpose of discussing town matters and nominating a candidate for town commissioner so much confusion prevailed that most of the citizens were obliged to leave the hall and another meeting will have to be called.

Attar of roses comes from the rose gardens of Ghassepor, in India, where the bushes are planted in rows for acres. Every morning the blossoms are gathered and distilled with twice their weight in water. This is "attar" for oil and the oil is skimmed off and prepared for sale. Twenty thousand roses are required to yield \$50 worth of the pure attar of roses.

An oil train standing on the Baltimore and Ohio Railroad bridge south of Johns town, Pa., Monday evening, when the engine was being turned was run into by another train. Two oil cars were derailed. The oil took fire and the cars burned with fearful heat. The iron bridge was twisted and warped out of shape, utterly ruining the structure. Communication with the main line will be cut off for weeks. The loss is about \$200,000. Failure of the air-brake was the cause of the accident.

A practical joke played on three hands of a vessel lying at Elkton Monday night resulted disastrously. The men were taken on what was known as a "bee hunt," in which guns are discharged to purposely frighten the victims and drive them off the property. One man fired carelessly, the shot striking one of the victims in the head and neck. The wound, however, was slight. One of the Elkton men in the party was shot in the eye and in the face and it is feared his eye is seriously injured, that he may lose his sight.

The steamer Eastern Shore, running between Oxford and Baltimore was struck by lightning Sunday night while on a voyage from Baltimore to the Interior Sea and Mrs. Townsend and ex-minister to Spain Curry and Mrs. Davis. At the other end sat Don Pedro Jovey Tovar and Mrs. Curry and Commander Davis and Mrs. Riggs.

A visit to the World's Fair. At Chicago will be incomplete without "cooling off" somewhere in the lake regions of Wisconsin, Northern Michigan and Minnesota.

All of the best summer resorts in the north-west can be reached in a few hours ride from Chicago via the Chicago, Milwaukee & St. Paul Railway and the Milwaukee & Northern Railroad.

For a complete list of summer houses and "How to visit the World's Fair," send two-cent stamp, specifying your desires, to John R. Post, district passenger agent, Williamsport, Pa., or 42 South Third street, Philadelphia, Pa.

A Fighter for Travelers. While Mr. T. J. Ritchey, of Atlanta, Mo., was traveling in Kansas he was taken violently ill with cholera. He called at a drug store to get some medicine and the druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy so highly he concluded to try it. A few doses cured him completely. It is made for bowel complaint and nothing else. It never fails. For sale by R. K. Truitt & Son.

Demoralizing the Busy Bee. As the magpie is notorious for stealing glittering objects, we find the parallel among savages who have been known to help themselves on shipboard to all the movable, being fascinated by mirrors, cutlery and jewelry. Sometimes bees, in order to save trouble, attack in crowds well furnished hives and carry off the provisions; they gradually acquire a taste for the food and acquire colonies of brigands. If bees are given a mixture of honey and brandy, they can acquire a taste for it and become irritable under its influence, drink and cease to work, and like men fall from one vice into another.—Current Literature.

Did Life Begin at the Pole?

As a matter of fact this earth of ours has long passed its youth. It is now verging on old age, and its poles are covered by glaciers by which it may be likened to a body whose extremities are bleached and paralyzed with years. Even in the geological period which immediately preceded our own, and which is known as the post-glacial, or quaternary, great glaciers took place, such as the Laurentian, which covered the whole of North America, and the Alpine, which covered the whole of Europe.

But what this fact may interest and perhaps surprise us a little it does not at all creditably so much as when we are told that once instead of snow and ice a luxuriant vegetation flourished far from the poles. Indeed the French naturalist Buffon believed that on our planet, which was slowly cooled and consolidated, life began at the poles, and that from thence it spread in the direction of the tropics. He was first the host of the ancient arctic zone, which is much more accessible than the antarctic, and which has thus far been brought to light much Buffon's daring conjecture, and not so very improbable.—Catholic World.

An Illustration by Beecher. A man who had been a warm friend of Henry Ward Beecher tells this: "Almost the last time I saw Mr. Beecher," he said, "I was with him in company with a group of men, one of which was Colonel Ingraham. The colonel was stringing some of his well known religious opinions, but Mr. Beecher for some time took no notice of the half challenge of Ingraham's words.

"He sat silent, with his head bowed. Finally, in a pause after an especially daring assertion from the colonel, he spoke slowly: "On my way here," he said, "at the corner of Fulton street and Broadway, where the press of vehicles is close and dangerous, a man, a cripple, was trying to cross the street. A stout crutch supported him, and he was making progress, but he was slow and awkward. I saw him and I knew that his crutch from under him, leaving him helpless against the dangers bearing down on every side.

"That cripple, sir," he went on, "and only raising his voice and throwing back his head, he said, 'I am a Christian, and you are the one who would push it away, offering nothing in its stead.'—New York Times.

TO THE LADIES. You want the files kept off your house. Now is the time to give Richard L. Turner an order for screens. He has just finished some good contracts on Salisbury residences. A neat job quickly done. Don't wait till the flies come.

RICHARD L. TURNER, Dock street, Salisbury, Md.

LOCAL POINTS. Wear Price's Shoes. Men's kangaroo shoes for tender feet at Price's.

Mrs. C. Fisher of Baltimore.

Sclerotic Rheumatism.

Severe Pain and Stiffness. A Bottle of Hood's Perfect Cure. "I am not only willing, but anxious to recommend Hood's Sarsaparilla. I was taken with severe pain and stiffness in my limbs; at times being hardly able to walk. I consulted a physician, who gave me medicine, but it did me no good. I then tried Hood's Sarsaparilla, and in a few days I was able to walk. I now feel perfectly well, and I am happy to say I can work as well as ever. I could not but feel that Hood's Sarsaparilla was the best of all. I find no medicine more reliable of better."

much of Hood's Sarsaparilla's wonderful cures that I concluded to give it a fair trial. When I was taking the first bottle I could feel a new life in me. I could speak, I could walk, I could do all the things I had been unable to do before. I now feel perfectly well, and I am happy to say I can work as well as ever. I could not but feel that Hood's Sarsaparilla was the best of all. I find no medicine more reliable of better."

Hood's Sarsaparilla. To my cousin, who has received equally good results from it. I cannot speak too highly of Hood's Sarsaparilla. Mrs. CLARA FISHER, N. E. cor. Calverly St., Baltimore, Md. Be sure to get Hood's. Hood's Pills are made and sold in perfect proportion and appearance. 25c per box.

Trustee's Sale.

Valuable Property. Under and by virtue of a decree of the Orphans Court of Wicomico county, the undersigned, as trustee, will sell at public auction, at the Court House door, in Salisbury on Saturday the 17th day of June, 1888, at 2 o'clock p. m.

1.—All that lot or piece of unimproved land situated in Traskin district, Wicomico county, State of Maryland, about 2 1/2 miles from White Haven and about 1 1/2 miles north of public road leading from White Haven to Traskin church, and adjoining the land of Geo. W. Harrison on the north, Cooper Evans on the west, and of Thos. Meekins and James Conaway on the south, containing 17 acres more or less, and being some land of which the late Thomas Street died, seized and possessed.

2.—All that valuable lot or piece of improved land, with the improvements thereon, situated in Traskin district, on the south side of said public road, and about 1/2 mile from White Haven to Traskin church, and adjoining the land of Geo. W. Harrison on the east, of Wm. Robertson on the west, and of Wm. Harrison on the south, containing 12 acres more or less, and being some land of which the late Thos. Street died, seized and possessed.

TERMS OF SALE.—One-third cash, one-third in six months, and one-third in twelve months, or all cash at the option of the purchaser; the credit payments to bear interest from day of sale, and to be secured to the satisfaction of the trustee. Deed at purchaser's expense. H. L. D. STANFORD, Trustee.

We haven't said much about it

For this week
