

Whereas, classes meet until 10 pm and faculty have difficulty finding parking for classes that start at 5:30 pm or 7 pm, and whereas there are many campus events for which visitors to campus cannot find parking, the senate recommends that all parking restrictions remain in effect during the week until 8 pm and that parking in Blackwell Library Lot be restricted to red tags and visitors at all times. We further recommend investigating methods for making obtaining visitor passes for events relatively easy (e.g. including a visitor parking pass valid only during event times in Panorama).
