MR. MILES' ADDRESS.

Hon. Joseph W. Miles, the Democratic nominee for Congress from the First Congressional District of Maryland, addressed the Democratic Club of Salisbury, Thursday evening at Ullmans opera house. The house was filled to its full seating capacity and many stood in the hall and doorways.

On the stage were President of the club, Mr. W. H. Bell, Com. Minister Morris, State Attorney Ritter, Mr. Ellegood, Clerk of the court Bruidt and Sidney Dougherty.

Col. Levin L. Waters, of Princess Anne addressed the meeting first.

Mr. Miles stated that he was not before the people of the First Congressional District at the dictation of his own judgment, but in obedience to the call of the people of the district. He stated that he would speak impromptu that the people may know what manner of man he was and how he felt.

He had not always favored bimetalism in the manner now proposed. He had always been a bimetalist, but differed as to method.

Mr. Gaither he understood had criticized his position, saying that he was a sound money man in June and a free coinage advocate in August. He had ways fought within the party lines. Mr. Gaither was a democratic one campaign and a republican in the next. Mr. Miles stated that he was as he always had been, a bimetalist. He favored now as he had always done the money of the constitution, both gold and silver. He continued it for more than fifty years; and we heard nothing about America being able to maintain bimetalism without the aid of England. No one had ever attempted to defend the act of 1873 which demonetized silver. He spoke, quoted from Mr. Carlisle's famous speech denouncing the act as a great crime.

Resuming he said: He had been in favor of international bimetalism for years but he saw no way of accomplishing it in that way; and now he changed to join in the movement against the gold standard, with the greatest nation of the world which is rising up in its might and saying thus far shall thou go and no further. The whole question was one of method and he was willing to abide by the action of the national democratic convention as to method of accomplishing bimetalism. He had told the people of his country early in the season that he would support any nominee whether for gold or silver. Democracy was a part of his nature; it had been instilled into him from childhood, one of his grandfathers had supported Jefferson's administration another Jackson's. He had inherited a democracy that sprung not from dogma, but sympathy with the great masses of the people.

If elected he would stand by every line and letter of the Chicago platform. He said that if he had been a member of the Chicago Convention he does not hesitate to say that he would have voted for the resolutions endorsing the honesty and patriotism of President Cleveland.

He then discussed McKinley's record as a free silver man, showing that he advocated and voted for free silver in 1878 and is now calling those who stood with him reactionaries.

The republican platform of 1878 declared for the use of both gold and silver—bimetalism, and denounced the tendency of the democrats to establish the gold standard. Mr. McKinley was chairman of the committee on resolutions of that convention. Who were the reactionaries then?

Mr. Miles' speech was considered by those present, a masterly effort, replete as it was with sound democratic doctrine.

In stating his position on the currency question, he dealt very frankly with his convictions, and in an earnest, patriotic way. Those who heard Mr. Miles are convinced of his interest in the people's cause, and of his ability to advocate and defend it. Such a speech as the one delivered at the opera house, is calculated to give Mr. Miles fifteen hundred majority vote in this district.

Mr. Miles has made a very efficient, able, industrious representative and true to the will and interests of his constituents. He is entitled to the full party vote.

The Advance men tenders him his support, and will rejoice on the 4th day of November next, when it announces his election.

Silver and the Tariff.

Washington, Sept. 23.—This afternoon's Star says:

"It has often been announced that in case McKinley was elected, there would be a republican House of Representatives and a republican Senate, counting those members who bolted the St. Louis convention as republicans, no tariff bill could be passed, and there could be nothing done for the relief of the country upon republican lines. It has been pointed out that the Senators who refused to vote for the Dingley bill would still have the balance of power in the Senate, and could prevent the passage of a tariff bill, even with the gains in the Senate expected in Illinois, Wisconsin, New York, with possibly Delaware and Kentucky, together with Maryland and Ohio, where republicans have already been elected to succeed democrats as realists."

"But it is known, as far as anything so far in advance can be known, that the silver men, if defeated this year, will not stand in the way of tariff legislation. One of the most prominent silver men in the republican party, one of the five who refused to vote for the Dingley bill, and a man who had means of knowing what would be done in case of republican success, has outlined briefly the position of the silver men and the tariff legislation."

"He declared that it would be useless for the silver men, after the people had voted on the question, to try and force silver upon a tariff bill. Supporting McKinley to be elected, it would mean that the people believed that higher tariff and free coinage was what was wanted."

"For the silver men in Congress to oppose tariff legislation under these circumstances would still give the protectionists an opportunity to continue their fight on the same line and prevent a square issue in silver alone. It will be the purpose of the silver men, who are that neither under a high tariff nor a low tariff can good times be restored, to have this fact demonstrated. The republicans will be told to go ahead with their tariff bill and if they have a majority in the Senate they can pass it. The silver men will want to demonstrate the necessity of the national campaign, in case they are defeated this year, that neither under a low tariff with the gold standard, nor under a high tariff with the gold standard, can there be prosperity."

"It is said that Chairman Jones, of the national committee, takes this view of the case and believes that silver can best be advanced by allowing the republicans to pass their tariff bill. It is said that neither the democrats nor the populists will make any undue effort to prevent tariff legislation if the republicans have a majority with which they can legislate."

"The silver men, who bolted the St. Louis convention will take the view that it will be necessary to prove what they have said to have some tariff legislation. More than this, they feel that with a deficit in the treasury receipts there will have to be some revenue legislation."

"It is quite probable that in case a tariff bill is sent over by the House, some silver man will offer a free-coinage amendment. This will no doubt be adopted in a silver Senate, but in conference it will be struck out, and the Senate will probably allow the bill to pass in the form of a tariff bill. The silver men say they would not be justified in standing in the way of tariff legislation which was needed to obtain revenue for the government, and the cause of silver would be injured instead of aided by any such course."

Labor Vote in Baltimore.

The Baltimore Evening News has been making an investigation of the labor vote in the city.

"Early in the present campaign the News took the trouble to poll about 500 voters who work with their hands with a view of showing the sentiment of the working masses upon the currency question. The result of the poll showed that show that working people were still largely to party lines in the coming election. Men who had been Democrats were as a rule favorable to free silver, and men who had always been Republicans favored sound money and would vote for Republican tickets. There were few exceptions on both sides. It was expected that a campaign of education would do much to change this state of affairs. Both parties contended that many voters would be won over by discussion of the issues of the campaign. This discussion has been going on for some time. If any radical change is to take place before November, there should be indications of it at this time."

FEDERATION OF LABOR POLLED.

With a view of ascertaining what effect upon the rank and file of voters the discussion of the issues of the campaign has had up to date. The News last night took show that working people who attended the meeting of the Federation of Labor. The delegates responded freely, and the result showed that a pretty good indication of the way in which organized labor, at least, will stand in the coming election. It is rather surprising to find that there are still very generally adhered to. The effect of discussion of the issues of the campaign with regard to changing the votes of the workmen seems thus far to have been slight.

POLL ANALYZED.

Of 62 voters who expressed themselves freely there were 23 for McKinley, 30 for Bryan, 2 for Palmer and Buckner, 2 for the Socialist ticket and 1 undecided, while one won't vote.

Among the Bryan voters were six who are Republicans, three who are Independents, one a Socialist and one who is a single taxer and voted the Prohibition ticket last fall. Four Bryan voters have no fixed opinions.

Of the McKinley voters one has no known politics, and one will cast his first vote as a naturalized citizen. The others are Republicans.

MARYLAND A LAND OF PROMISE.

The State Bureau of Immigration has completed the preparation of a clear, concise and well written pamphlet setting forth the natural resources of Maryland and the advantages it offers to immigrants, especially farmers, manufacturers and capitalists.

A large edition of the pamphlet will be printed and an effort made to circulate it widely where it will do the most good. It contains chapters treating of the general features of the surface, of the population and government, of the climate, of the State, of the counties and their agricultural condition, of the mining and quarrying industries, of the bay products, and concluding with information about the prices of land and how to reach the State.

In a perfect pamphlet discussing the question of why many immigrants from Europe fail to meet with success in the West. The answer is that they went to the wrong places. "It is advised as they were through lack of information," says the pamphlet, "and allowed themselves to be misled by agents, backed by syndicates and railroad companies having no other object than that of securing the sale of their lands, they landed in places not suited to their habits, training and previous experience. Since the price of all agricultural products has fallen to a level unknown heretofore, such farming as is common on the Western plains has ceased to be remunerative and they no longer offer inducements to the immigrant. Already vast numbers of the farmers who settled there have grown tired of the long winters and have begun to look for better conditions of life. They are selling out their holdings and coming to Maryland, where lands are cheaper, the climate better and the other advantages far greater than in the Northwest. These are the regions where in future the immigrants will find the spot where they can find a new home."

"TO GREAT VARIETY FOR MEATY." The pamphlet says among other things: "To the immigrant from North Germany, Holland and Belgium, who are accustomed to the flat lands of those countries, the Eastern Shore will be especially attractive, while those coming from France, Scandinavia, Switzerland and South Germany will be better pleased with the hilly land of the Western Shore. No greater variety, beauty or excellence can be found anywhere. We can please all, and we have room for all."

"A settler upon a farm of from forty to sixty acres, with his own family to support, can make a comfortable living for himself and them. What is produced can be transported cheaply, as railroads and steamers run in all directions and charges low rates. On the water courses the farmer may also have his own sailboat and transport his own products to market."

"No one need be told of blighting frosts and the farm work can proceed all the year round. We can only add that any self-respecting and upright person coming here from abroad to settle in our midst is assured of a hearty welcome from Marylanders."

The Election Law.

To one who has never read the new law regulating and governing the registration and voting, will be surprised at the changes and improvements. The Australian ballot law was an improvement on the old method of voting. It regulated and systematized the principles of voting and placed under it many safeguards to its preservation. It was objected to by many as being too complex and regulations and complicated voting. It was a law that brought the privilege of voting up to a higher plane, requiring the voter to exercise some thought in casting his ballot.

This year we have some more complicated regulations and thought and judgment, lifting the privilege still higher. Not only does it require more care and thought in voting but the fitness and qualifications of the officers of election are tested by some educational attainments. However insignificant the examination required of judges and clerks may be considered, there have been many judges and clerks whose practical ability to execute the duties and requirements at the time of their service could not be questioned, yet could not have passed the examination given this year. The requirements are not hard or difficult yet they will exclude many past officers, and the signs of the times point to the fact that their exclusion is not only for a season, but permanent; and not only so but many available men today will be excluded in the discussion of the issues of the campaign has had up to date. The News last night took show that working people who attended the meeting of the Federation of Labor. The delegates responded freely, and the result showed that a pretty good indication of the way in which organized labor, at least, will stand in the coming election. Gold Men's Column.

That "Grip of Gold" Feared.

In further reply to the Wisconsin News on their London Financial News editorial, I quote the following article from the Philadelphia Ledger, of Sept. 18, 1896. The Wisconsin News states that they feel sure the paper from whom they clipped the editorial, believed it genuine. From this article of the Ledger there seems to be a grave doubt as to whether the Bryan papers know or care, whether the articles they print are true or false. There has been some talk of the Bryan free silver organs having continued to republish as genuine, after it had been authoritatively pronounced a forgery, an article entitled "The Grip of Gold," which they alleged had been published in the London Financial News on the 12th of the month of August, 1896. FLORIDA AND GEORGIA ELECTIONS.

State elections have been held this week in Florida and Georgia. It will be remembered that the Republicans claimed Florida, but in spite of the claim the State went 35,000 Democratic and the Eastern press are busy at work analyzing the results of the municipal elections in Connecticut.

In Georgia there were two tickets in the field. The regular Democratic ticket headed by Governor Atkinson for re-election, and the opposition was a combination of Republicans, Populists and Prohibitionists. Don't forget, this is Tom Watson's State and he is the leader of the populists in the State. The combination is being searched for now under the debris covered with a 30,000 majority.

And the "Eastern Press" is making no explanation of the result. In the meantime candidate Bryan is "sawing wood" in Indiana and Illinois, where a majority of the total voting population in the State turned out to see and hear him. Tom Watson by the way is not demanding Sewall's withdrawal from the Democratic ticket just now, that is since the Georgia election.

DEMOCRATIC SUCCESS ASSURED.

There is now every indication that Bryan and Sewall will be elected by an overwhelming majority. All the talk about the republicans carrying any of the Southern States has proved mere chaff. The local elections have demonstrated beyond doubt that the solid south can be relied upon to give its support to Bryan. Fusion with the Populists and the Silverites has been effected through the entire west, including Ohio, Indiana and Illinois. The states south of the Potomac and west of the Mississippi will give Mr. Bryan a majority in the electoral vote, and the middle west which has been considered debatable ground until very lately is now put down as almost certain for Mr. Bryan.

These states include all those lying between the Ohio and Mississippi rivers. In a recent letter to the New York Journal, Mr. Bryan asserted positively that he would be elected. Of late he seems to be fighting for control of Congress.

His tours over the country have developed marvellous results. In West Virginia and Indiana it is estimated that an actual majority of the voting population heard him speak, so great is the enthusiasm for the cause. In some cases thousands stood out all night for fear of missing him.

The reported interview from Mr. Hanna, chairman of the republican national committee, published elsewhere, is significant.

The belief is growing that the great producing classes of this country will be benefited by an enlargement of the currency, not a flat currency, such as bank circulation, treasury notes, and silver as it is now treated by the treasury department, but the enlargement of our money of ultimate redemption, or what is termed primary money. Values must always depend upon this class of money. If silver is restored to its place in the monetary system there will be a general advance in the prices of products. Labor will again be employed and a demand for all kinds of farm products will be met. When the farmer begins to make money to spare over and above what he has to spend for taxes and interest, he begins to buy for his family first necessities, and then inexpensive luxuries, and then starts up the business again of the dry goods dealer, the furniture dealer and the carriage manufacturer, and then in turn puts to work an army of employees, and so the wheel moves; and many of the people who are now in the business of leading money will be engaged in some kind of productive enterprise when the revival comes.

But the serious difficulty the country is now facing is how to get out of the present predicament. For some time now the country has been in a state of depression.

Chicago, Ill., Oct. 9.—According to the official bulletin from Democratic headquarters Mark Hanna has admitted that McKinley's cause is hopeless.

"In a private conversation held at the Lexington Hotel, Chicago, a day or two before going to New York," the bulletin says, "Mark Hanna made these remarks: McKinley's chances are exceedingly doubtful. It is no use denying that we have lost the labor vote. Debs and his following have led the labor vote to Bryan, while the farmers are all arrayed on the free silver. I am afraid McKinley will not win."

"These statements were made by Mark Hanna in the presence of two or three gentlemen whose names are known at National Democratic headquarters, and one of them gave out the information that the Republican campaign for McKinley was abandoned for the present."

The Democratic managers also declare that the most conservative Democratic estimates give the free silver forces a large workman majority in the next House of Representatives, while the present free silver majority in the United States Senate will be increased.

National Committee member Wm. of Wisconsin, brought cheering news to the Democratic managers today. He declared that Bryan would carry the State without a doubt.

Paul Hooper, of Chicago, who has been addressing German readers throughout Illinois, asserts that Bryan will come up to Cook county with more than 30,000 majority.

Chairman Campau, has written a stinging rebuke to the letter given to the press yesterday by Hon. George F. Parker, an attached Democrat, who declared that the United States should decline to contribute to the Bryan Campaign fund. Among other things Mr. Campau says:

"I cannot say that I am surprised at your answer, knowing you to be the extreme representative of an individual who is millions of Democrats in the United States elevated to a high post of duty, and who has betrayed the people who lifted him to fame. It was to be expected, perhaps, that having lived abroad for several years you should have become quite English. It is not at all strange that an Englishman should decide that it would be well for our country to be an appendage of Great Britain."

POPULIST CONVENTION.

Mr. Miles Endorsed Conditionally by the Populist Nation.

The First District Populist Congressional Convention met in Easton, Thursday last week to nominate a candidate to represent this district in the 56th Congress of the United States.

Dr. Hunt, of Frederickburg, was made chairman of the convention, and B. Morris of Salisbury, secretary. Mr. Morris declined to serve and Rev. Hiram Wooman acted in his stead.

Delegates were present from Talbot, Caroline, Worcester, Somerset and Dorchester counties.

The committee were as follows: On credentials, B. S. Morris, of Worcester; Wm. T. Layfield, of Somerset; W. H. Brown, of Talbot; W. T. Kelley, of Caroline; John Bestfield, of Dorchester. On resolutions, Prof. I. L. Gifford, of Caroline; Geo. Reiman, of Talbot; J. Webb, of Somerset; B. S. Morris, of Worcester; Jno. Bestfield, of Dorchester.

Resolutions were adopted endorsing the platform and candidates of the St. Louis Convention. No candidate for congress was put in the field, but a resolution was passed urging all Populists to support Hon. Joshua W. Miles should the democrats give him a Bryan elector who in case of election, would vote for Watson for vice-president. Should the democrats refuse to do this, the Populists are to vote for their judgment as to whom they believe should be elected.

The convention advised them not to support a gold bug.

B. S. Morris, of Worcester, left the convention it is stated by the Star Democrat, because something was done, or not done to please him.

THE HEART AND THE BLOOD.

Views of Scientists Who Differ With Harvey's Theory on their Relations.

Do you know that some of the very best physicians in the United States are being satisfied that the heart is the organ which causes the blood to circulate in the veins and arteries? The theory of Harvey, which maintains that the pulsative stroke of the heart is "the sole motive power," is disputed by persons who know more about blood circulation in a minute than Harvey knew.

Various causes for the phenomena of blood circulation are assigned by the different students of the subject, but the majority of the moderns hold that the heart is not the sole motive power, but that the blood is also taken into the lungs with every breath, and the change of a slow flow of combustion causes. Wherever combustion is going on heat is evolved. In this case the heat is communicated to the blood, which is about seven-eighths water.

The lungs being in partial vacuum and having a temperature of at least 35 degrees above that required to change water into vapor (when the water is in contact with a complete vacuum), steam is generated. This enlarges the volume of the blood and causes it to flow. The valves on the right side of the heart close against this force, while those on the left open to give it free passage. Thus, according to this theory, the motive power is produced which first causes and then keeps up the circulation of the blood.

When this theory is elaborated, it is very conclusively proved that the heart has nothing whatever to do with the circulation of the blood, but to determine by the valves the direction of the current, and by the mechanical force of the stroke, to equalize the flow.—St. Louis Republic.

Chicago, Ill., Oct. 9.—According to the official bulletin from Democratic headquarters Mark Hanna has admitted that McKinley's cause is hopeless.

"In a private conversation held at the Lexington Hotel, Chicago, a day or two before going to New York," the bulletin says, "Mark Hanna made these remarks: McKinley's chances are exceedingly doubtful. It is no use denying that we have lost the labor vote. Debs and his following have led the labor vote to Bryan, while the farmers are all arrayed on the free silver. I am afraid McKinley will not win."

"These statements were made by Mark Hanna in the presence of two or three gentlemen whose names are known at National Democratic headquarters, and one of them gave out the information that the Republican campaign for McKinley was abandoned for the present."

The Democratic managers also declare that the most conservative Democratic estimates give the free silver forces a large workman majority in the next House of Representatives, while the present free silver majority in the United States Senate will be increased.

National Committee member Wm. of Wisconsin, brought cheering news to the Democratic managers today. He declared that Bryan would carry the State without a doubt.

Paul Hooper, of Chicago, who has been addressing German readers throughout Illinois, asserts that Bryan will come up to Cook county with more than 30,000 majority.

Chairman Campau, has written a stinging rebuke to the letter given to the press yesterday by Hon. George F. Parker, an attached Democrat, who declared that the United States should decline to contribute to the Bryan Campaign fund. Among other things Mr. Campau says:

"I cannot say that I am surprised at your answer, knowing you to be the extreme representative of an individual who is millions of Democrats in the United States elevated to a high post of duty, and who has betrayed the people who lifted him to fame. It was to be expected, perhaps, that having lived abroad for several years you should have become quite English. It is not at all strange that an Englishman should decide that it would be well for our country to be an appendage of Great Britain."

POPULIST CONVENTION.

Mr. Miles Endorsed Conditionally by the Populist Nation.

The First District Populist Congressional Convention met in Easton, Thursday last week to nominate a candidate to represent this district in the 56th Congress of the United States.

Dr. Hunt, of Frederickburg, was made chairman of the convention, and B. Morris of Salisbury, secretary. Mr. Morris declined to serve and Rev. Hiram Wooman acted in his stead.

Delegates were present from Talbot, Caroline, Worcester, Somerset and Dorchester counties.

The committee were as follows: On credentials, B. S. Morris, of Worcester; Wm. T. Layfield, of Somerset; W. H. Brown, of Talbot; W. T. Kelley, of Caroline; John Bestfield, of Dorchester. On resolutions, Prof. I. L. Gifford, of Caroline; Geo. Reiman, of Talbot; J. Webb, of Somerset; B. S. Morris, of Worcester; Jno. Bestfield, of Dorchester.

Resolutions were adopted endorsing the platform and candidates of the St. Louis Convention. No candidate for congress was put in the field, but a resolution was passed urging all Populists to support Hon. Joshua W. Miles should the democrats give him a Bryan elector who in case of election, would vote for Watson for vice-president. Should the democrats refuse to do this, the Populists are to vote for their judgment as to whom they believe should be elected.

The convention advised them not to support a gold bug.

B. S. Morris, of Worcester, left the convention it is stated by the Star Democrat, because something was done, or not done to please him.

Murder in Second Degree

John Gordy, colored, found guilty of the Murder of Lizzie Timmons.

Meigs John M. Gordy, Henry J. Waller, W. S. Phillips, J. J. Waller, L. T. Waller, Wm. J. Jackson, John E. Morris, Wm. W. Mitchell, Sanford A. Todd, Littleton Smith, Samuel Bailey and G. Vickers White, constituted the jury which sat on the trial of John Gordy, colored, for the murder of the young colored woman, Lizzie Timmons at Berlin last May.

The case was removed from Worcester county to this county and came up for trial last Monday morning. State's Attorney Jones of Worcester assisted by State's Attorney Ricker of Wicomico, appeared for the state. Gordy was defended by Messrs. W. S. Phillips, Waller and Geo. W. Fennell of the Worcester bar.

The evidence upon which Gordy was arrested and held as a material witness, but of such a nature to prove beyond doubt that the girl met death at Gordy's hands.

Gordy, it seems, had been an evildoer since the day of his birth. The trial of the night before had badly cut and maimed the body, but on an examination it was believed that the girl had been beaten to death with a blunt weapon, and her lifeless body afterwards put upon the railroad track to destroy the evidence of the murder.

The court has sentenced Gordy to fifteen years' servitude in the Maryland penitentiary. Gordy has a beautiful case of countenance, and the appearance of a British lord of intellect.

The canning factory of Mr. Orlando Taylor, Quantico, was burned several days ago. Mr. Taylor had that afternoon moved his output, but a traction engine which stood in the building was burned. The loss amounts to several hundred dollars. There was no insurance.

The Rev. Wm. McK. Poirer preached in Calvary M. E. church, Easton, Sunday, on newspapers. He said the Sunday paper is not a necessity, and is contrary to the genius of American institutions. He further held that it was not composition or prewriting that made Sabbath-breaking, but the distribution of the paper.

Dr. Wm. Lee of the State Lunacy commission was in Wicomico county this week and visited the county jail and the Almshouse. He reported that he found these institutions in a satisfactory condition and the inmates well cared for. Dr. R. W. Dashiell of Prince Anne, accompanied him.

The Eastern League says a Peninsula baseball league will in all probability be in existence next season. It is already being organized by such towns as Salisbury, Cambridge and Dover, where the game flourished so successfully this year. Lovers of the sport would like to see Eastern represented in the circuit.

Mr. A. P. Trader is having a new dwelling erected on his lot on Camden avenue, which will be, when completed, quite a handsome property. The building will be a frame two story structure 14x32 feet with back building 14x22 feet. The house will be ready for occupancy in December.

"Florida on Wheels" arrived in Salisbury, Thursday, and side-tracked at the N. Y. P. & N. railroad station. The exhibit is made up of Florida fruits and woods, etc. The admission price was ten cents, and many Salisbury people visited the car. The car moved on Friday night.

Last Tuesday and Wednesday were the closing days of registration in Wicomico county. Tuesday, October 18th, the registration was held at the county office. The books will be for a complete list of the registered by districts. The registration is believed to be full. On the old registration books there were over 5,000 names, but many of these were the names of deceased citizens and voters who had removed from the county and whose names the registrars had omitted to mark off. The largest vote ever cast in the county was in the election for State officials in the autumn of 1895. Over 4,000 votes were cast. It will be seen by the totals given below that the vote has increased.

A Supper at the Orient.

The ladies of the Presbyterians church are making arrangements to serve a supper next Monday night at the Hotel Orient.

The menu will consist of oysters served in all styles, chicken salad, coffee, chocolate, and all the necessary accompaniments. Supper will be served from 5 o'clock on.

Mr. Biddle Langdale, widow of the late Biddle Langdale, died at her home in Quantico last Tuesday night, aged about 77 years. Her husband, the late Robert Langdale died in 1857. Mrs. Langdale was the mother of six children five of whom survive her.

Mrs. Geo. A. Bonds, Mrs. Estelle Collier, Mrs. Geo. Venable, J. L. and Thaddeus Langdale, all living in Quantico district except Mrs. Venable who lives in Salisbury. The deceased daughter was the wife of John Dorman, Esq. of Quantico. Mrs. Langdale was a sister of the late James Bonds and John R. Bonds of Quantico and Mrs. Geo. Venable and Miss Nellie Bonds, who were married. She was a sister of the late Major R. Lowe who died in 1921 at his home on Quantico, and of the late James W. Lowe who died in 1921 at his home on Quantico.

The grand jury adjourned Saturday at noon, having found eight true bills for minor offenses, and one for bigamy. The reports of the committee appointed to visit the Almshouse and jail are as follows:

Meigs John P. Owens, W. L. Law and D. H. Parsons, committee appointed by the grand jury to visit the Almshouse, made the following report to the jury: "We found the farm in very good condition and the crop of corn much better than it has been for several years. We found the dwelling house kept in first-class condition, and everything indicated industry and good management. Twelve inmates are supported there—3 males, 1 white, 2 colored, 9 females, 3 white, 6 colored, all of whom have the appearance of being well cared for in all respects."

Meigs J. S. Gordy, John P. Waller, William B. Stratton, Frederick S. Bonds and W. K. Leathersburg, committee appointed to inspect the Court House, and jail, reported: "The jail generally out of repair; window sash out in two rooms; floor rotten in one room and hole in wall in another; house fairly clean. Court House in fine condition, would suggest that janitor be a little more careful about dusting rooms."

Included in the bills found by the grand jury were two or three against merchants for neglecting to take out trader's license at the proper time.

When the lawyers came to press last Friday, the case of Thomas C. Horner (assignment of Clayton C. Gordy) was on trial, as stated. Later on the jury brought in a verdict for plaintiff for \$608.25. James E. Ellegood and Toddin & Bell for plaintiff. E. P. Graham and John H. Waller for defendant.

Two indictments against James Mills, for malicious mischief, were tried Friday afternoon before jury. Not guilty in both. Rider for State; Joseph L. Bailey for traverser. This concluded Friday's session.

Saturday morning the case of George W. Callaway and wife vs. John W. Farlow, administrator of George R. Farlow, deceased, was begun. This was a suit brought for services rendered by Mrs. Callaway to her father and mother, Mr. and Mrs. George R. Farlow, covering a period of several years. Court took a recess Tuesday till Monday, when the case was resumed and completed the entire day, and a night session until after eleven o'clock. The jury brought in a verdict for plaintiffs for \$231.88. The plaintiffs sued for \$708.35. James E. Ellegood for plaintiff; E. P. Graham and Toddin & Bell for defendant.

For selling grain on Sunday, Dr. L. D. Collier and E. Ellet White, pleaded guilty and were each fined \$30 and costs for failing to take out trader's license. Thomas E. Adkins and Birmingham & Powell were each fined \$30 and costs.

State vs. Elijah Coffin, indicted for assault and battery in shooting Jacob Jones, tried before jury, not guilty. Rider for state; W. O. Humphreys and Robley Jones, of Worcester, for traverser.

State vs. T. W. White, assault and battery. Trial before court, guilty. Fined \$10.00 and costs. Rider for State; John H. Waller and R. P. Graham for traverser.

State vs. W. S. Davis, assault and battery. Trial before court, not guilty. Rider for State; Toddin & Bell for traverser.

Claudius Harrington, of Tyaskin, indicted for bigamy, pleaded guilty to the charge and was sentenced to 18 months in the Penitentiary.

All the indictments found against the liquor dealers at the March term of court, 1895, were adjudged defective, because the present law did not contain provisions for prosecution of indictments found before the law was repealed.

COURT'S SECOND WEEK.

The Ladies in Journalism

A Woman's Edition of the Salisbury Advertiser to be Published Soon.

With the next few weeks a new departure in local journalism will be introduced to Salisbury people.

A newspaper, the exclusive product of the ladies, which shall be a symposium of thought and fact, and the palladium of the people's rights, will be something altogether new in Salisbury and the county.

Such will be the Woman's Edition of the Salisbury Advertiser, which will be issued in the very early part of next month. The editorial staff will have on it among others, Mrs. A. J. Benjamin, Mrs. Fannie Todd, Mrs. Walter B. Miller, Mrs. E. Stanley Todd, Mrs. M. V. Brewington, Mrs. Graham, Miss Phillips, Miss Houston, Miss Powell, the Misses Jackson, and other bright and capable literary and business women.

Much attention will be given to advertising and advertising space, and upon the liberality of our business men depends the financial success of the venture. From the advertising space, which will be \$1 per inch, and the sale of the paper at ten cents per copy, will come the revenue.

This commendable, though arduous, undertaking, is a work of patriotism and public spiritiveness on the part of the ladies. The fire department appealed to the ladies to assist in the furnishing of their new quarters. This is the method adopted by the ladies, and their efforts should be heartily appreciated by the public.

Court Adjourned.

Court adjourned last Tuesday morning after a session of more than two weeks.

The petit jury was discharged last Saturday, except a panel held in the case of Jacob L. Layfield vs. Ephraim W. Layfield, his father. Trial did not begin until Monday morning, and occupied the entire day and until ten o'clock at night. This was a suit instituted by the father against the son for maintenance of the wife and mother for eleven years, and for doctor's bill and burial expenses at her death. Mrs. Layfield left her husband and for nearly eleven years resided at the home of her son Jacob L. Layfield, where she died. The jury after being out several hours, failed to agree and was discharged.

Tuesday morning the petit jury was discharged, and the Court occupied the remainder of the morning in entering up judgments.

The registration officers returned their books last Thursday with their lists completed, which show a total list of 4876, of which 3790 are white and 1177 colored, against a total registry of 5477, in 1895. Of the latter, 4285 were white and 1214 colored. Notwithstanding the apparent falling off, the registration is considered fair. The list had been revised from year to year but many names not entitled to registry had escaped notice.

The list shows literacy as follows:

FALL ANNOUNCEMENT!

HAVING A MATTER of the utmost importance to lay before you, we hope you will give our words the same careful attention that you would doubtless grant us if we were able to call upon you for a little personal chat over this matter of importance, this matter that concerns you directly, this matter that you should think about and decide upon according to your best judgment. We refer to the purchase of goods in our line that will be necessary to your comfort and happiness during the coming fall and winter. The changing seasons bring to everybody certain wants which cannot be ignored, and it only remains for each individual to decide where they can best and most economically supply themselves with these necessities. Knowing that you want good quality, knowing that you want something late in style, and knowing that, most of all, you want the benefit of the lowest prices you can possibly find, we earnestly urge you to see

Our Brand New Fall and Winter Stock.

We want you to investigate our goods and prices because of an unwavering faith in our ability to show you the best inducements of the season, which will result in sales for us and satisfaction for you.

OUR STOCK IS STYLISH AND WELL CHOSEN.

and we are nicely prepared to meet all demands of the season. We represent all things as they are and regulate the price by the true value of the article.

YOU WILL BE AMONG THE LEADERS.

There is always a chief or leader whether in the human or animal life—religion, politics, or business—otherwise there would be no progress. Our fall and winter stock of

MEN'S AND BOYS' CLOTHING

ALL SIDES HEARD.

POLITICS THE CHIEF TOPIC OF DISCUSSION NOW.

Democratic Meetings in Salisbury and the County—Other Political Discussions.

The Democratic meetings held at Uman's Opera House last Saturday were a great success. The house at both meetings was filled to overflowing, and many stood in the hallways. It did not seem to be a session for mirth. The audience was attentive and appreciative. They went to hear free silver and were not disappointed.

The first speaker was C. M. Broadwater of the Commercial Travellers' Club of Baltimore. He was followed by Howard Bryant of Baltimore, who delivered one of the strongest speeches ever made to a Wicomico audience. Mr. Bryant is a clear, logical, forcible speaker, convincing in his methods and pleasing in his manner. His address was enthusiastically received. At the conclusion there was a call for Hon. Joshua W. Miles, who was present.

Mr. Miles stated that he was not present to make a speech—that he expected to go to Delmar later in the day to address an outdoor meeting, but the audience would not, so Mr. Miles gave a short talk. He stated that he endorsed every plank of the Chicago platform and if elected would do everything in his power to carry the platform out.

At the night session, Alonzo L. Miles, brother of Congressman Miles, delivered an hour and quarter address. Mr. Miles is an orator and is well known to the people of our county, while not at his best, Mr. Miles delivered an eloquent address, and his audience was in sympathy with him; in fact the audience was saturated with democracy. Mr. Broadwater also spoke at the night meeting as did Mr. Bryant. The meeting closed with the recitation of an original poem by Mr. McGinnis.

Mr. Joshua W. Miles, during the night meeting, was in Delmar addressing the democracy of the Second Precinct. Mr. Miles spoke for over an hour at the Delmar meeting and the interest in his address was unabated.

A Bryan, Sewall and Miles club was organized at Hebron, Wednesday night with 51 members. Jas. A. Waller, President; Marion Nelson, Secretary; Moss Hobbs, G. Robertson and A. S. Venables of Marde Springs, and I. S. Bennett of Riverton, addressed the meeting.

Hon. Jas. E. Ellegood was a speaker at the Bryan, Sewall and Miles meeting at Pocomoke City last Friday night, also at a similar meeting held at Hurluck, Dorchester Co., Thursday of this week. The attendance was very large.

The democrats of White Haven last Thursday night organized a Bryan, Sewall and Miles club with a membership of 51. The following were elected officers: President, G. M. Gattis, Secretary, J. I. Elliott. Club meets every Thursday night. There is great enthusiasm among the democrats of Tysan district and they are pushing a lively campaign.

Politics in Baron Creek District.
 The Democracy of Baron Creek district turned out two hundred and fifty strong Thursday night to give a hearty greeting to the Hon. Henry L. D. Stanford, of Princess Anne, who had been invited by the president of the Bryan, Sewall and Miles club to expound the true democratic doctrine to the sturdy democrats of Baron Creek district, who are ever ready to march to the tune of grand old Jeffersonian doctrine. A more enthusiastic gathering of democrats never assembled at Baron Creek Springs and at every meeting of the kind the champion of the rights of the plain people, William Jennings Bryan, vociferous applause went up from the large crowd present.

A Bryan, Sewall and Miles club was organized at Hebron Wednesday night with a membership of 52 to begin with. Jas. A. Waller was chosen president, and E. Wilmer Truitt, secretary. Much enthusiasm was shown and telling addresses were delivered by R. G. Robertson and A. S. Venables of Marde Springs. The latter, a reformed prohibitionist, gave in a very plain and forcible manner his reason for renouncing the Prohibition cause for the time being and espousing the cause of Bryan and free silver.

A large meeting was held at Riverton Friday night. This grand outpouring of democrats throughout the district is but a sure pointer as to the final result in November.

Meeting of Sound Money Democrats.
 The advocates of "Sound Money" held their meeting in Uman's opera house Thursday night.

Quite a large number of people attended the meeting, there being in the audience a goodly sprinkling of ladies. Mr. Wm. Y. Perot, of Baltimore, and B. A. Keller, a Tammany man of New York, addressed the meeting.

On the stage were Dr. L. S. Bell, who presided; Messrs. Wm. H. Jackson, Wm. P. Jackson, L. Ernest Williams, Alan F. Benjamin, A. D. Toddine, Wm. B. Tighman, J. N. Jackson and F. Leonard Waller.

Mr. Keller spoke first, and occupied considerably more than an hour in defending the sound money side. He was followed by Mr. Perot, who spoke till after ten o'clock.

The Salisbury cornet band furnished music.

Reptile Association.
 Snow Hill, Md., Oct. 21.—The annual association of the old school Baptists is being held in the church here in Snow Hill. The visiting ministers are Elders Silas H. Durand, of Southampton, Pa.; E. A. Chick, of Hopewell, N. J.; and F. A. Frank, of Virginia, Graham, of Hartford county, and Rittenhouse, of Delaware.

The session will last three days. There has been a very large attendance at the meetings today. Elder Rittenhouse preached this morning, Elder F. A. Chick in the afternoon and Elder Durand at night. The visiting Elders have been entertained by the members and friends of the church in and around Snow Hill.

Find at Raleigh Station.
 That the silver question is over and above all else in this section is more than a foregone conclusion, none of our citizens but what argue the success of Bryan and Sewall and our Congressman Miles. We are exuberant and expectant and have evidenced our faith by the election of a 50 foot pole from which the names of Bryan and Sewall greet the eyes of all comers. We are proud and happy in our certainty of the election of the democratic ticket, knowing that with such success prosperity will again show its face to our land. L. S. P.

HE COULDN'T SEE

"How Lacy Thoroughgood could sell a good all wool black and blue overcoat for \$5 really he couldn't. His brother told him to come to Thoroughgood's and see one, but really he couldn't see how it could be done." He was blind. Lacy Thoroughgood sold him an overcoat, gave him a perfect fit, sent him home and told him he could get his five dollars back by returning his overcoat if his brother didn't like it. Another man came in and said that he had heard that Lacy Thoroughgood was selling overcoats cheaper than anybody else in Salisbury. How this man heard about Lacy Thoroughgood's low prices on overcoats is a mystery for he was as deaf as a post. But Thoroughgood fitted him with an overcoat for \$6 that would have cost him \$10 last fall. Another man came in and told Leonard Higgins that he wanted one of those cheap overcoats at \$6. This man was dumb but Higgins talks on his fingers too, so he had no difficulty in being understood. This is a great store of Lacy Thoroughgood's, where the blind see, the deaf hear and the dumb talk, and its as safe a place for the blind, the deaf and the dumb to trade in as there is in all the world, for Thoroughgood gives a man good goods whether he knows what he is getting or not. Buy here, there's no monkey work at

C. S. FRICK,

Sec'y and Treas. of the Frick Mercantile Co., Keithsburg, Ill.

Gives an interesting account of the cure of a severe case of Rheumatism that came directly under his personal observation. Being in the mercantile business he had many calls for the most celebrated "Yagers Cream Chloroform Liniment." He says: "The first bottle he sold was to a party who came into our place of business suffering intensely with Rheumatism. I advised him to try a bottle of the Yager's Liniment, he thought it would be useless, said he had tried almost everything and could get no relief. I insisted on his trying it and informed him if it did not relieve him should cost him nothing. This was about 4 P.M. He took a bottle and started home, he was hardly able to walk. I saw nothing more of him until bright and early the next morning when he came into our store walking as happy as a child, with no signs of suffering about him. I inquired about the Liniment, he said it was the best stuff he ever used, would not take \$5 for the bottle. Said he got home almost done up and as soon thereafter as he could he applied the Liniment, and it gave him almost instant relief, before retiring he applied it once more. He slept soundly all night, and in the morning bathed the parts affected again and again. He felt no pain whatever. This was about four or five weeks ago. I see the party every few days and he says he is not troubled with Rheumatism any more."

Mode: The 141.0 R. M. meet every second day of every month, at the residence of the sun, in their wigwag, on the building, third door, 22 sun, plant moon, 25, 26, 27.

LOCAL DEPARTMENT.

—The County Commissioners and Judges of the Orphans Court were in session last Tuesday.

—The W. C. T. U. of this city have made an appeal for funds to aid the Armenian sufferers.

—Mr. John T. Ellis has just completed a large family monument at Southern Pine Granite, for Jas. B. Armstrong, of Maryland Springs.

—The fine young Scotch terrier, belonging to Dr. S. P. Dennis, has been lost. A reward for its return is offered on this issue of the paper.

—Mr. Wm. J. Johnson left Monday with a force of men for Snow Hill, where he will build the new kindling wood mill for Mr. W. B. Miller.

—Others have found dead hogs, and vitality in Hood's Sarsaparilla, and it is quiet has power to help you also. Why not try it?

—The regular meeting of the W. C. T. U. will be held in the M. P. Church on next Tuesday afternoon, November 3d. A full attendance is requested.

—Gov. Lowndes has remitted the fines imposed by the court on Drs. L. D. Collier and E. K. White for selling cigars on Sunday.

—The ladies of the M. P. Church at Green Hill will hold an oyster supper on Saturday afternoon and evening of November 7th. All are invited.

—Miss John's dye for the Whiskers is the best, healthiest, safest, strongest, most economical and satisfactory dye ever invented. It is the gentleman's favorite.

—Mr. E. Riall White has put in a hot soda urn in his drug store, and is now selling hot coffee, chocolate, bouillon, calumet, tonic, lemonade, etc. He has also added Whittman's candies.

—Taswell Jones has been convicted of assault in the Southern court. He is at Edward D. Young, a Princess Anne railroad agent. Jones was recommended to the mercy of the court, and was fined \$150.

—Mr. A. J. Benjamin spent a part of this week in Snow Hill as a witness against Beauchamp, the alleged train wrecker. The case was brought to a close Tuesday. Beauchamp was acquitted.

—Communion service at M. P. Church last Sunday morning. Preaching by pastor. Subject in the evening, "The two great Candidates." Preaching at Mr. Hermon at 2:30 p. m.

—The city council is having West Church street in front of the city hall graded. The mechanics will be in a few days be through with their work, and the department ready to take possession of the building in about a week.

—Messrs. Cannon & Dennis have received their stock of shoes and gentlemen's furnishings goods from the Bergen store, corner Main and St. Peter's street, to the Fowler & Timmons store of Messrs. Brockhill & Carey.

—Gov. Lowndes has extended the time of the Wisconsin assessors to November 30th. The work is progressing slowly despite the efforts of Messrs. Brewington and Wilton to hasten it along. The delay is caused by the failure of the taxpayers to properly schedule their effects.

—Dr. Thomas V. Franklin, of Berlin, has been appointed secretary and treasurer of the Board of school commissioners of Worcester county, vice Calvin B. Taylor, who resigned on a count of his health and a measure of his other business affairs.

—The Woman's Edition of the Advertiser will appear about November 10th. Already a great deal of matter is being prepared, and it is expected to be a very valuable addition to the paper.

—The ladies are very much gratified at the generous way in which the men have taken advertising space. Doubtless they realize that the Woman's Edition will be a valuable addition to the paper, and that their own efforts to help a worthy public purpose.

—Congressman Joshua W. Miles returned from Centerville last Friday, suffering with an acute attack of stomach trouble, which has since kept him in bed. The trouble began with a cold contracted from making an open air speech at Delmar a week ago last Saturday night. The cold brought on a catarrh of the stomach and finally made Mr. Miles quite sick. He is now better, and his condition is not regarded as serious, but it will be impossible for him to further participate in the campaign. His physician has advised absolute rest and quiet. —Somerset Herald.

JAMES' INSTITUTE.

Formation of an Institute for Wisconsin County—The Committee.

Mr. Wm. L. Ames, of the Maryland Agricultural College, was in Salisbury Tuesday, and succeeded in forming a Farmers' Institute for Wisconsin county. The institute will meet some time in the near future. The Executive Committee for the county is Messrs. M. A. Parsons, S. E. Gordy, J. Bayard Perdue. The following are the delegates from each district:

1st district—James E. Bacon, Lambert H. Cooper, Robt. G. Robertson.

2d district—G. A. Boude, A. W. Gordy, W. P. Howard.

3d district—Thomas J. Jones, James H. West, Wm. B. Bratter, Isaac Roberts, B. F. White.

4th district—John W. Parker, of the 5th district—Wm. L. Laws, Joseph J. Adams, J. B. Bratter.

6th district—J. W. Jones, B. F. Mesick, T. W. H. White.

7th district—George W. Mesick, Sidney L. Lader, W. H. Coulburn.

8th district—George W. Leonard, Milton Anderson, H. W. Johnson.

9th district—James Robinson, of E. Walter C. Mann, W. H. Williams.

The following subjects were selected for the department from which a program will be prepared for the institute to be held during the month of the poultry year: Small fruit culture, poultry, time as to its effect on green manure, green manure, picking, grading and marketing fruit, Entomology, dairying, melon culture, their enemies and their control, strawberry rust, how to destroy prickly pears, apple rot on the trees.

No Vote Paying.

A movement is afoot to oppress and prevent the buying of votes in this county.

A reward of \$50.00 is offered for the apprehension of any buyer of votes at the polls by the citizens of Salisbury.

The movement is non-partisan and is headed by some of the most influential citizens of Salisbury.

Another petition to much the same effect and headed by the same citizens, reads: Realizing that our former institutions rest upon the purity of the ballot, and that integrity of votes is one of the greatest of crimes against the purity of the ballot, and realizing that a bought vote counts as much as the vote of the upright and intelligent citizen.

The undersigned citizens of Wisconsin county, irrespective of party affiliations, hereby petition the central committee of the Democratic, Republican and Prohibition parties of the said county to co-operate with them in the enforcing of the New Election Law to the end that the bribery of voters may be suppressed, and we hereby pledge ourselves to co-operate with the said committees.

Moore-Farlow.

Mr. Ernest Moore, son of Wm. S. Moore, Esq., was married last Wednesday afternoon to Miss Florence Farlow, daughter of Mr. George R. Farlow, of this city.

The ceremony was performed by Rev. C. W. Prettyman at Asbury Methodist Episcopal church. The ushers were Messrs. John M. Laws, E. C. Fulton, Wm. R. Bacon and E. C. Turner. Miss Clara Walton played the wedding march.

After the ceremony the newly married couple left Salisbury for Philadelphia. On their return to Salisbury they will go to housekeeping on Walnut street.

Notice.

The Holy Eucharist will be offered in Saint Philip's Chapel, Quantic—on Sunday morning next—November 1st—All Saints Day—at 10:30 o'clock.

There will be Evening Prayer, and sermon on the same afternoon, in Saint Paul's Church, Spring Hill, at 3 o'clock.

There will also be Evening Prayer, with a sermon, that night, at 7:30 o'clock in the Hall at Marcella Springs.

On the following Thursday—weather permitting—November 5th, the Annual Harvest Home service will be held at Spring Hill Church. Each family will bring dinners in baskets. Service at 11 A. M. Franklin B. Adkins, Rector.

Prof. Hawks.

Prof. Hawks delivered his lecture on "Sunshine" last Thursday evening at Uman's opera house. The audience was not large but appreciative. Prof. Hawks is a humorist both in his subject matter and his dramatic effect. His wit flows easy and natural. In appearance he is pleasing and cheerful, winning his audience at once upon his appearance upon the stage. Prof. Hawks will be re-membered as one of our people as one of the brightest of bright lecturers.

New Baptist Church.

The Missionary Baptists of this city are getting ready to build for themselves a new house of worship to take the place of the old one on Division street, where they now worship. The completed building will be of frame 35x55 feet, and will be of the Dutch style of architecture.

The cost will be about \$1000. Contractor W. J. Johnson will be the builder. Work will begin in a few weeks.

The Woman's Christian Temperance Union.

Union here issued a call Tuesday, for money in behalf of the Armenians. The call stated that the sum of \$25 would do a great deal, and would provide either clothing or the means for relieving at least one of the 500 in Marcella Springs through Miss Frances Willard. The treasurer of the W. C. T. U. is Mrs. William F. Veas.

—Mr. E. J. Parsons has removed his stock of groceries from the Jackson building, corner Main and Division streets, formerly occupied by J. T. Johnson, Esq. Mr. Parsons is carrying a fine stock of groceries and will continue to conduct his business with the same painstaking care to please the public. The building corner Main and Division streets will be put in condition for the occupancy of the Salisbury Permanent Building and Loan Association.

—The Bryan, Sewall and Miles Club held an enthusiastic meeting at the Opera house last Wednesday night. The speakers were the Rev. Mr. Maxwell of Taikins, and Hon. Frederick Nelson of Frederick county. Mr. Maxwell was the first speaker and he held the attention of the large audience for an hour and a half. Many thought his best campaign speech made here during this campaign. Mr. Maxwell made such a favorable impression upon our people that he has been engaged for an afternoon meeting Saturday at 2 p. m. at the opera house. His subject will be "The Crisis in the Nation—The Course and the Cure". Mr. Maxwell is an orator and deals with the subject in a masterly manner. All should hear him.

The farmers near Princess Anne have begun to chuck out their corn crop, and they claim it is yielding more heavily than they supposed it would, and it is the very best quality.

FOR TRAIN-WRECKING.

A Justice of the Peace on Trial for a Grave Offense.

Snow Hill, Md., Oct. 29.—The Circuit Court for Worcester county was occupied today in the trial of the case of the State against Peter Beauchamp, a justice of the peace in West Berlin, charged with wrecking a passenger train on the Baltimore, Chesapeake and Atlantic Railroad at Wigwag riding, near Berlin, on the night of the 24th of January last. The regular jury list was exhausted before the panel was complete and thirteen talemans had to be summoned. Major W. Pilchard, of Stockton, is foreman.

Wm. Barbare, of Berlin, the engineer of the wrecked train, was the first witness for the state. He testified that the switch at the place of the wreck was open, causing the train to run at full speed into some flat cars standing on the siding. No lives were lost, but the engine was badly damaged. Conductor George B. Givane testified that an examination of the switch showed no brakes, but the lock was off and on the ground. The mechanism of the lock was apparently unadjusted and a key worked as well as new, but the band had been twisted out of shape, so it would not drop in the lock. There were only a few passengers on the train, and the defendant in the case was among them. He had boarded the train at Westville and was on the rear coach of the train of the accident. Mr. A. J. Benjamin, superintendent of the road, testified to an examination of the switch and that no traces could be found of the lock having been forced, and that in his opinion the lock must have been opened with a key and then battered. The defendant had in his custody a key to the switch. Mr. Benjamin admitted that two switch keys had been lost by employees of the company. Geo. Hobbes, colored, the principal witness for the state, testified that about a month before the accident the defendant approached him and told him that he wanted him (the witness) to throw a switch for him and that he would pay him, but the witness declined to undertake the job; that then the defendant told the witness that if anything like that should occur afterward, for him to keep quiet about it. Upon a cross examination the defendant laid the foundation for impeaching the witness by asking him if he did not sail to certain persons who if the railroad people had not threatened to lock him upon account of the wreck he would not have made any charge against Mr. Beauchamp but he had to do it to keep free himself. The witness denied any such conversation.

The alleged motive of the wreck was revenge both against the railroad company and the engineer of the wrecked train.

The defendant was put on the stand and gave a detailed account of his movements on the night of the accident, giving the various places at which he stopped and the names of the persons he saw. The object was to show that it would have been impossible for him to have been at the switch, and further, that at that time the key to the switch was locked up at home in custody of his wife. A version was held tonight. The case will probably be continued tomorrow. The case is exciting general interest both on account of the gravity of the charge and because of the defendant's official position.

Around the World in 80 Minutes in 1900.

What new monotony could be desired for the year 1900, which would make the Eiffel Tower and the Ferris Wheel seem insignificant? The answer is ready, so the French papers tell us, in the idea of a mechanician, M. Borgel-Court, to build a gigantic sphere which shall exactly as may be counterfeited the earth. On its surface all the continents, islands, the cities, the mountains, seas, and rivers, are to be represented with faithful configuration, while the interior is to be devoted to representations of the physical characteristics and civilizations mapped on the surface of the globe, trees, animals, minerals, manufactured products, buildings, etc. In each country the traveler's eye will meet with only the objects indigenous to that land. The journey about this structure is to be made by means of elevators and electric railways. The round tour of the globe is scheduled to occupy eighty minutes—a mere trifle more than a companion of Jules Verne. Starting from Paris, the tourists are conveyed by train to Geneva, and thence by tunnels to the different countries of Europe, the East, America, Australia, and Africa, accomplishing their globe-trotting in a return to Paris, which occupies the highest point of the sphere, and supports a great figure of the French Republic.

This portentous reminder of our "geography" classes is to be nearly five hundred feet in diameter, or, roughly, one city block in size, and as large as the original and more inconvenient earth. The plan is to set the globe on a frame, which will bring the extreme height to nearly eight hundred feet—an imposing architectural monster it should be. From "About the world," in the November Scribner's.

Mr. Gordy Not an Aid.

The New York Journal, in speaking of the "hold up" notices issued to the employees of all the Vanderbilt lines says:

At least one of the agents to whom the rolls and addresses prepared by the "Broadway Division" were sent declined to have them passed among his men. He is James A. Gordy, freight agent of the West Shore Railroad. Mr. Gordy, although a Democrat, is an ardent gold man and will vote for McKinley. All of the gentlemen who compose the "Broadway Division" of the Railroad and Steamship company are old friends of Mr. Gordy, and he would not say anything. But the plan was too much for Mr. Gordy to swallow.

Mr. Gordy is a native of Wisconsin, and visits his friends here annually. He is to be congratulated on his refusal to aid in the corruption and abuse of his subordinates.

Unintended Letters.

The following is a list of letters remaining in the Salisbury (Md.) Post, October 31, 1896.

MARYLAND IN BRIEF.

The Garrett apple crop is very large. Theodore Fairbanks died near St. Michaels, on Wednesday, aged 76 years.

B. W. B. Garner, an insurance agent and spiritualist of Broad Run, is dead, aged 72 years.

Wm. Shank, aged 12, of Williamsport saved Bruce Garriah, aged 7, from drowning in the canal.

Eight houses at Maryland were entered by burglars a few nights ago, and considerable property stolen.

The body of Edmund V. Goodman, who was drowned in Eastern branch several weeks ago, has been found.

The officers of the First Regiment met at Hagerstown on Wednesday night. Col. Lane was presented a set of horse-trappings.

Two Mormon elders are preaching in Carroll county. They are the first Mormons who have made proselyting efforts in that county.

Governor Lowndes will take up the question of continuing the lease of the state tobacco warehouses in Baltimore on November 11th.

Jacob Benson, colored, in a fit of jealousy shot at his wife near Boole's Mill, Caroline county, and then shot himself through the heart. The woman was not hurt.

Washington county 4 per cent. bid to the amount of \$10,000 were sold at auction at premiums of \$1 to \$5 on each bond. The denominations were \$100, \$500 and \$1000.

Dr. Thos. A. Cunnell of Easton has investigated the epidemic at St. Michaels. He says that 50 persons are suffering from a spasmodic throat disease, and two of the cases are diphtheria. The disease is traced to water from shallow wells.

Wesley Wheeler convicted in the Prince George's court of manslaughter has been sentenced to 12 months in jail. John Dent, colored, convicted of burglary, was sentenced to the penitentiary for three years and six months.

The colored schoolhouse near Nassa-wango bridge, Worcester county, which was destroyed by fire on the 13th inst., is thought to have been fired by an incendiary.

Wm. McClelland, living on Jacob Stoner's farm, has a pumpkin which measures five feet seven inches in circumference and weighs seventy five pounds.

Citizens of Federalburg and vicinity are subscribing liberally to a fund which will be expended in shelling the sandy road from Federalburg to Liberty church, about one mile and a half.

Capt. Daniel Hill, of Kent county has a sample of corn grown on his farm consisting of six ears weighing nine pounds and a earing from nine and a half to twelve inches in length.

The Choptank river from its mouth to Secretary Creek, is daily crowded with toting and scraping vessels, and the daily catch of oysters is very large. The oysters are plentiful and of good quality.

Railroad work on the west side of the Choptank is still suspended. On the east side track layers are busy coming toward Denton. The work on the bridge, except the putting in the draw is nearly finished.

The result of the registration in Middletown district is gratifying to both parties, as every voter in the district registered, except about ten, five of which were unable to do so on account of physical ailments.

Dr. Caldwell and Druggist H. McGill, of Cumberland, unearthed a skull which was partly protruding from the ground. Search was made without avail for other bones. It was well preserved, a full set of teeth remaining intact, one in each being set with gold filling.

The Calvert county assessors on their rounds in the First district, discovered a genuine hermit, Benj. Catterton, living near Cove Point. He conversed intelligently, telling his visitors that he had lived so long in solitude that he cared nothing for the outside world.

On Saturday night Mr. Fred Smith of Cresswell, Harford county, lost a valuable horse, a buggy, a blanket and robe, and whip. He left his team near Geo. Walker's, store at Hall cross roads, when he wanted to go home it was gone. The thieves had taken it towards Havre de Grace.

It is an event in the mercantile history of this country that is causing the eyes of the people of Philadelphia just now in the sale of the assigned stocks of Hiltion, Hughes & Co., who occupied close relations to the property and business of A. T. Stewart & Co. of New York.

The success of this old concern, the greatest of all American business enterprises of a mercantile character, has passed over to John Wanamaker, who is now moving over to Philadelphia, and selling off the assigned stocks of the great New York store, preparatory to the re-opening of the A. T. Stewart structure at Broadway and Tenth street, New York. These are great undertakings—the disposal of the present stock and the re-constructing of the New York business.

Fifty Years Ago.

This is the way it was bound to look when grandfather had his "peter took." These were the shadows cast before the coming of Calverley Daggers. And his art, like a girl in a plasure boat, day to bloom in a golden hair. Men certainly were not as black, we know As they pictured them, 50 years ago.

began to make new men, just as the new pictures of men began to be made. Thousands of people looked the camera with skin made clean from blotch and blemish, because they had purified the blood with Ayer's Sarsaparilla. It is as powerful now as then. Its record proves it. Others imitate the remedy; they can't imitate the record.

You Can Be Well

When your blood is pure, rich and

moorish for nerves and muscles. The

blood is the vital life, and when it is

poor, thin and impure you must suffer

from such distressing diseases as

you will easily fall a victim to sudden

change of exposure, or overwork. Keep

your blood pure with Hood's Sarsa-

parilla and be well.

Hood's Pills are the best after-dinner

pill; assist digestion, cure headache, 25

cents.

For Over Twenty Years

Mrs. Winslow's Soothing Syrup has been

used by millions of mothers for their

children, while, with its per-

fect success, it soothes the child, softens the

gums, allays all pain, cures wind colic,

and is the best remedy for Diarrhoea.

Twenty-five cents a bottle.

A CHILD ASLEEP.

How he sleeps! Having dreamed
From his pretty eyes have fallen
And the pillow, heavy of days gone by,
Sleeping near the window, which he
pulled the day before, he is now

WOMEN'S COATS

Every leading commercial

tailor is a contributor to the

stocks we show. If we made

all the

coats

and

jackets

we sell

we'd be

apt to

get into

ruts.

There's

a same-

ness in

a mak-

er's pro-

duct.

Instead

we have

many

geni-

uses at work for us, and you

have the best

from Paris

from Berlin

from Philadelphia

from New York

—not simply model garments

bought to copy, but whole

stocks.

And the workmanship is

better each year as these

geni-

uses learn and improve. The

top notch of women's tail-

oring is findable at Wanama-

kers.

The finer coats and jackets

from over the sea range in

price from \$30 to \$75.

A word of half a dozen

popular

lots—from Berlin and

American makers—

—Rough-faced Cheviot Jacket—

newer front, rolling collar,

buttoned, tailor-made.

—Kersey Reefs—regular coat

lined throughout with satin

rhinoceros.

—New Walking Coats—in gray

fringe, box front, high rolling

collar.

—Bottle Jacket—newest shape

finished with large and small

buttons, high rolling collar, lined

with satin rhinoceros.

—Kersey Jacket—tailor-made; 8

buttoned; lined velvet collar; half

lined with satin.

—Cheviot Jacket—tailor-made;

fringe; high rolling collar; lined

with satin rhinoceros.

—Broadcloth

London and Paris gave

early hints of the prominent

place that broadcloths would

hold in Fashion's favor this

Winter. Philadelphia

endorses. Broadcloths are here

from every worthy maker.

High colors and the staple

tints are all in demand.

\$1—\$2 in. Broadcloth, light

weight.

\$1.25—\$2 in. Broadcloth,

lustrous.

\$1.50—\$2 in. French Broad-

cloth.

\$2.50—\$4 in. Broadcloth—

the old standby for good-

ness.

CLACKINGS

There isn't a skip in the

readiness with clacking fabrics

for big folks' wear and little

folks' wear.
