## A PEACHLESS SUMMER

For Many States Not So Well Favored As Maryland, Seems Assured. Other News in The Local Agricultural Field.

The annual cry of "poor peach crop" from the Middle States is more than a pessimistic echo this year. The supply is short, almost to the point of a peachless summer. The terrible storms throughout the Southeastern States, one of which, in Georgia, fairly uprooted hundreds of orchards; the late frosts and cold, wet June all contributed to the present dearth of one of the finest summer fruits. Peaches are already from 50 cents to \$1 higher a basket than last year, a basket being accredited as holding five-eighths of a bushel; but an enterprising New Englander who measured them by the regulation barrel reports only scant half measure. How ever this may be, the fact of the aspiring price remains.

The White Heath crop, the late peaches from Maryland, Delaware and New Jersey, and the fall crop from Michigan may give better returns, but they, too, have seriously suffered. Of course, this will mean a great run on California peaches, but while these may supply the canning and preserving demand to an extent, at high prices, for peach loaves the season is a complete disappointment.

### Wheat, Corn and Other Grains.

The entire wheat crop of this section is now harvested. Threshing is well advanced. There are local instances of good yields, but the crop as a whole is very light, and the quality is rather inferior. The farmers have generally begun plowing for fall seeding and satisfactory progress is reported. The threshing of rye shows a damp grain of inferior grade. Barley is turning out better, both in yield and quality. The harvesting of oats continues, being practically over, and poor yields are the rule. Corn which had such difficulty in getting a living start has to a large extent recovered from its earlier handicap and now has a more promising appearance. Most of it is now laid by to mature.

### Potatoes, Tomatoes, Melons, Etc.

Gardens have made good growth, but continue badly overgrown with weeds. The yields of early potatoes continue satisfactory, but they are rotting badly in the western counties. Late potatoes are still being planted, and are up to good stands in some places. Sweet potatoes are growing nicely. Tomatoes are not doing as well as could be desired; the stalks are heavy and the vines large, but a light fruitage is the rule. The fields are generally grassy, and some vines appear scalded. The early crop is ripening slowly, and is considerably affected by rot. Watermelons and cantaloupes are not promising, and will probably give short yields. Blackberries are plentiful and of good quality in the western counties. Grape vines display healthy and well filled clusters in nearly all localities.

## TWO LIQUOR LICENSES GRANTED IN SALISBURY

Thursday After Three Days' Session Of County Commissioners. Saloons Of O. J. Schneck And Bradley & Turner Opened Friday At Noon. Temperance Organization May Take Other Action.

Two liquor saloons, those of Mr. Schneck, and Messrs. Bradley & Turner, were opened in Salisbury Friday at noon after an all day session Tuesday and Wednesday consumed in the taking of testimony, and the arguments of counsel Thursday morning. The county commissioners decided to issue licenses to O. J. Schneck of the Peninsula Hotel and Bradley & Turner. Those refused were S. Ulman & Bro. and I. S. Brewington owing to the insufficiency in the qualifications of some of their signers.

Mr. N. T. Fitch, of Salisbury, and Mr. Arthur P. Gorman, Jr., of Miles & Gorman, Baltimore, represented the liquor dealers. The Anti-Saloon League and temperance people were represented by Hon. Jas. E. Ellegood and Elmer H. Walton. The County Commissioners had as counsel, Joseph L. Bailey.

Nearly 100 witnesses were examined, and there was much cross questioning and cross firing between the opposing attorneys.

The saloons have been closed in Salisbury since May 1, when the applications were refused by the Commission. Since then the question has been in the courts, the last decision being that the County Commissioners had no right to refuse to grant licenses on public opinion alone.

The decision of Thursday is a great disappointment to the temperance element in the community, and the attorneys for the Anti-Saloon League will probably ask for a writ of certiorari on the ground that the commissioners, having once disposed of the applications, had no right to re-open them without all the necessary forms of advertising, &c.

The Anti-Saloon League makes the following claims:

1st. No man has a natural or moral right to dispense intoxicating liquors as a beverage.  
2nd. That licenses under these applications should not have been issued for the following reasons:  
The County Commissioners took up and heard applications which were once marked "not approved" without warrant of custom or precedent. It would be just as reasonable for the Commissioners to take up these applications already granted, examine them and if they saw fit mark them "not approved."

3 We cannot reconcile the granting of these licenses with the section of the liquor law which says: that applications shall be published in at least two newspapers in Salisbury at least once and not more than thirty days, no less than fifteen days before the granting of the license. Remember the word is granting not hearing. It has been nearly

## THE MARYLAND BANKERS

To Convene in Annual Meet. On The Water In Conjunction With D. of C. B. A. Next Month. Down The River And Bay.

After a conference held by Mr. Chas. T. Crane, president of the Maryland Bankers' Association, and Mr. Lawrence B. Kemp, secretary of the Association, with representatives of the District of Columbia Bankers' Association, it has been arranged to hold a joint convention of the two bodies in September. The dates selected are September 24, 25 and 26, and a unique feature is that the convention will spend its whole time on the water.

The plan is to leave Washington on Thursday, September 24, on board of one of the steamers of the Washington and Norfolk Steamboat Company. A daylight trip will be made down the Potomac river and thence down the Chesapeake bay, arriving at Newport News on Friday morning. Visits will be made to points of interest on Hampton Roads and its tributaries, but all the business sessions will be held on the boat, which is chartered for the purpose. The return will be fixed so as to get back to Washington on Saturday, September 26. A special Baltimore and Ohio train will take the Baltimore bankers who will attend the convention to Washington. It is expected that Secretary of the Treasury Shaw and Comptroller of the Currency Ridgely will both attend the joint convention.

## Captured Turtle Saves Sharpshooter Man From Drowning.

A few days ago Mr. A. W. Twiford, who lives near Sharptown and whose home is at Twiford's Mill, heard the quacking of a duck in the mill pond and to his surprise the duck had been seized by a large turtle. Without any consideration or any weapons of defense, Mr. Twiford rushed into the pond to rescue the duck. He went out where the water was three or four feet deep and thirty or forty yards from the shore, seized the turtle, one hand by the back of the neck and the other by the tail and turning around he started back to the shore, north east side of the pond. In returning to the shore he strayed away from the shallow water and got into deep water over his head, then came the struggle. He could not swim, but the struggle and splashing of the turtle kept him from drowning until his son, Job, reached him in a boat and rescued him. He never released his hold upon the turtle until he and the turtle were safe in the boat. The turtle weighed nineteen pounds. Mr. Twiford is eighty years old and a very active man. The duck died and the turtle was eaten and Mr. Twiford suffered no inconvenience except the struggle and the risk.

—Messrs. Hugh and Richard Jackson will spend August at Poland Springs, Me. They left for the North, Monday.

## KIDNEY TROUBLE CURED.

General Health Greatly Improved by Pe-ru-na.

MRS. M. J. DANLEY.

Mrs. M. J. Danley, Treasurer of the Rebecca Lodge, I. O. O. F., writes from 131 First street, N., Minneapolis, Minn.: "I was afflicted for several years with kidney trouble which became quite serious and caused me considerable anxiety. I spent hundreds of dollars trying to be cured, but nothing gave me any permanent relief until I tried Pe-ru-na. It took less than three months and only ten bottles to effect a permanent cure, but they were worth more than as many hundred dollars to me. I am fully restored to health, know neither ache nor pain and enjoy life."—Mrs. M. J. Danley.

This experience has been repeated many times. We hear of such cases nearly every day.  
Mrs. Danley had catarrh of the kidneys. As soon as she took the right remedy she made a quick recovery.  
A Prominent Southern Lady's Letter.  
Miss Laura Hopkins, of Washington, D. C., niece of Hon. E. O. Hopkins, one of the largest iron manufacturers of Birmingham, Ala., writes the following letter commending Pe-ru-na. She says: "I can cheerfully recommend Pe-ru-na for indigestion and stomach trouble and as a good tonic."—Laura Hopkins.  
Pe-ru-na cures catarrh wherever located. Pe-ru-na is a specific for the catarrhal derangements of women. Address The Pe-ru-na Medicine Co., Columbus, Ohio, for free book on catarrh written by Dr. S. B. Hartman.

## ODD FELLOWS EXPECT

60,000 Visitors At Convention Of Sovereign Grand Lodge. In Baltimore During September.

First the Sangerfest, then the Elks, and now the Odd Fellows propose to continue Baltimore's rise as a convention city.

As is generally known, all the sessions of the Lodge are held behind closed doors, and heretofore no one has been admitted outside of the grand officers and grand representatives, numbering in all 212. As there are 43 periodicals published by members of the Order in various parts of the country, and each has been notified that it can send one representative, it means that this year the number present at the session will be 355.

As the newspapers are all fraternal journals, it means that the representatives will be all Odd Fellows.

Despite the fact that all the business of the convention will be transacted by 212 men, Mr. Elvin J. Curry, assistant grand secretary of the Sovereign Grand Lodge, still estimates that there will be over 60,000 visitors in the city during the convention week.

"I'm positive there'll be that many in the city," Mr. Curry says. "Our conventions always draw thousands to the city where they are held and as Baltimore is the home of Odd Fellowship, I expect that the convention this year will be attended by an even larger number than heretofore. One of the main features will be the parade, which takes place on Wednesday, September 23. There will be about 30,000 people in line. Some may think that I am over estimating the number, but I do not think so. When we held our convention in Boston a few years ago there were 40,000 men in line, and last year at Des Moines we had 50,000.

"Now there are over 8000 Odd Fellows in Maryland. In Pennsylvania the order has 121,000 members. It is easy to see how we could get 30,000 from the two States alone, regardless of the other 43 that will send delegations.

## A WICOMICO COUNTEY.

Writes of Cambridge And The Historic Scenes In The Neighborhood Which Furnish Recollection, And Which Worthy Reminiscences.

In regard to Cambridge as a residence it seems to be adapted to the liking of both those who like the city and those who like the country. For the former, the street cars, mail carrier in uniform, etc.; for the latter, the spacious grounds surrounding the dwellings, shade trees in abundance, squirrels playing up and down the trees, and one other thing common to both—cats. It seems to be the motto: Every house must keep a cat, every cat must learn to fight.

Cambridge, of course, is dotted with historical and literary spots. We will recall the scenes of one afternoon's walk. Going to Harvard Square you find a tablet marking the site of the meeting house where Washington worshipped in 1775 and where Lafayette was welcomed in 1824. Entering the grounds at Harvard we find a tablet marking the site where stood the house in which Oliver Wendell Holmes was born. Crossing Cambridge Common to the west we come to the Washington Elm, under which Washington took command of the American Army July 3rd, 1775. Standing under it for the first time one feels the force of Lowell's words when he says:

"Words pass as wind, but where great deeds were done  
A power abides transferred from sire to son."

Passing up the street a short distance one comes to the home of Longfellow, the grounds covered with grass and shaded by trees. Entering the house you pass through his study as nearly as possible as he left it. In it are many interesting things. One, the children's chair, and from the wood of the spreading chestnut tree mentioned by him in the poem "The Village Blacksmith." Down the street a short way is a tablet marking the site of the tree, and Smithy in which worked the man from whom the suggestion of the poem came, in which he says:

"Each morning sees some task begun  
Each evening sees its close;  
Something attempted something done  
Has earned a night's repose."

A little farther on you come to the poet Lowell's home; it too, with his study as he left it.

Leaving this you are near Mt Auburn Cemetery, a place noted for its natural beauty as well as for its distinguished dead. Its beauty baffles description, but portions are traversed by parallel ridges between which are picturesque valleys. Walking on some of the ridges you notice constructed in the sides of some, stone vaults, the tops of which are covered with soil and grass on top of the stone. Descending you find a heavy door of iron bars. In the front of the vault is an open space of about ten feet square. In the rear are hollowed receptacles in the ridge, in which the dead are placed. Wandering through the Cemetery you find the graves of many noted persons, a few of whom I will mention: Longfellow, Lowell, Holmes, Wm. Ellery Channing, Charles Sumner, Edwin Booth, Philip Brooks.

Most of these graves are marked by plain slabs; those of Lowell and Holmes are severe in their simplicity. Standing around them are fine monuments of those of whom we never heard.

Here is one difference between the great and the less great; the former build their own monuments, stroke by stroke, day by day, during life, while the latter have their builders for them after they are gone. Leaving the Cemetery, you may walk home in a few minutes or be deposited near your stopping place by the "electric" for a nickel and at the same time have your eyes thoroughly disinfected by the cigarette smoke free of charge.

Miss Alice M. Smith, of Minneapolis, Minn., tells how woman's monthly suffering may be quickly and permanently relieved by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I have never before given my endorsement for any medicine, but Lydia E. Pinkham's Vegetable Compound has added so much to my life and happiness that I feel like making an exception in this case. For two years every month I would have two days of severe pain and could find no relief, but one day when visiting a friend I ran across Lydia E. Pinkham's Vegetable Compound, and she had used it with the best results and advised me to try it. I found that it worked wonders with me; I now experience no pain and only had to use a few bottles to bring about this wonderful change. I use it occasionally now when I am exceptionally tired or worn out." —Miss Alice M. Smith, 804 Third Ave., South Minneapolis, Minn., Chairman Executive Committee Minneapolis Study Club.

Beauty and strength in women vanish early in life because of monthly pain or some menstrual irregularity. Many suffer silently and see their best days fade away. Lydia E. Pinkham's Vegetable Compound helps women preserve roundness of form and healthy. It carries women safely through the various natural crises and is the safeguard of woman's health.

The truth about this great medicine is told in the letters from women being published in this paper constantly.

Mrs. C. Kleinschmidt, Morrison, Ill., says:—

"DEAR MRS. PINKHAM:—I have suffered ever since I was thirteen years of age with my meneses. They were irregular and very painful. I doctored a great deal but received no benefit. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, which I did, and after taking a few bottles of it, I found great relief. Menstruation is now regular and without pain. I am enjoying better health than I have for sometime."

How is it possible for us to make it plainer that Lydia E. Pinkham's Vegetable Compound will positively help all sick women? All women are constituted alike, rich and poor, high and low, —all suffer from the same organic troubles. Surely, no one can wish to remain weak and sickly, discouraged with life and no hope for the future, when proof is so monthly suffering —all womb and ovarian troubles, and all the ills peculiar to women.

## Salisbury 15--Chesapeake 2.

Salisbury easily defeated the Chesapeake team of Baltimore yesterday afternoon, 15 to 2. Early in the game the score was 3 to 1, favor of the visitors. Phillips and Ripplemeyer, short stop and second basemen of the Chesapeake, failed to catch ball, thus weakening the team. Features of the game were a startling one hand catch in left field by Becker, of the visitors, and a home run by Davis of the home team. Two games are scheduled for next week. On Monday afternoon the M. I. & Co. Club, of Baltimore, and Wednesday afternoon the Athletics of the same city.

## The Buckler's, with Music and Moving Pictures Coming.

Considerable interest will likely be created in the forthcoming visit of the Bucklers, from Washington, D. C. Rev. Geo. Buckler, who brings with him a portion of his family, is one of the most interesting figures of the Capital City.

Mr. Buckler's right bower in all of his entertainments is his charming daughter, Miss Mae. In former years she was known as a phenomenal child soprano. Now no longer a child, having just celebrated her sixteenth birthday, she sings as sweetly as ever, with the added charm of budding womanhood. With the voice of a nightingale, clear as crystal, soft and sweet as the music of a cathedral chime, she sings her way to all hearts.

Many of Mr. Buckler's sermons he illustrates with the stereopticon, interspersing the services with beautifully illustrated hymns and sacred songs. At considerable expense he has also secured and uses, more especially upon Sunday evenings, the famous Free moving pictures of the Passion Play, with which he illustrates his lecture upon that subject, utilizing also about 60 beautiful slides made from photographs taken at the 1900 Oberammergau performance. At Ulman's Opera House, August 7th., and 8th.

No such thing as "summer complaint" where Dr. Fowler's Extract Wild Strawberry is kept handy. It's the remedy for every looseness of the bowels. At any drug store.

There are persons whose continuous habit is that of kindness. They are gentle of heart. Nothing ruffles them. Wherever they go they are a blessing. They grace any freedsite at which they may chance to sit. They cast shadows that are pleasant to behold and pleasant to feel.

But there are others whose habit of life is the opposite. They are always in trouble, or are expecting to be. Their nerves are ever on the edge of a fully tight, like the lines upon the harness of a pair of spitted horses. They fret and fume and worry over the veriest trifles. Those who are in contact with them catch their restlessness and are disagreeably disturbed by it.

### Shouting Christians.

Some Christians, who formerly showed, no longer do so. Some never shout at all. Some do not approve of it; others are never well, never in buoyant, hopeful spirits, so don't feel like it. Rev. J. A. Bash, Yellow Creek, Pa., says: "Victrola Liver Syrup is still healing the sick; it seems as if God's blessing is upon it." Elsten, women that have been sick for years are now at work and singing God's praises, and men are living a new and happier life. Good reports from the Victor Remedies everywhere." All the Druggists and Merchants keep them.

—There are two good rules which ought to be written on every heart—never to believe anything but about any body unless you positively know it to be true; never to tell even that unless you feel that it is absolutely necessary, and that God is listening while you tell it.—Dr. Henry Van Dyke.

—The Norfolk Express was wrecked early Tuesday morning of last week at Delaware Junction, a short distance below Wilmington and more than one hundred mail pouches burned and much valuable mail matter lost. Capt. Harvey E. Twilley of this town lost ten dollars, which he put in a letter to his wife and mailed it in New York for Sharptown and it was on the train that was burned.

—The Los Angeles Times reports the death of Marie Catalina, the last of the famous Serrano Indian basket weavers. She was 107 years old, having been born only twenty one years after the first settlement of the valley by the Franciscans, or what was then known as Politi. She was a workman of the old school, and her baskets were eagerly sought after. She is buried in the little Indian burying ground in the San Miguel reservation near Highland, Cal.

—Scherpense Herald.

—Mrs. Lizzie T. Bounds for many years a resident of this town died here on Wednesday morning, after a lingering illness of several months. She was the daughter of the late Joseph Phillips and Mary E. Phillips of Sussex county, Del., and was born December 10th 1828, and was therefore sixty four years old.

—In 1856 she was married to James R. Bounds near Quantico where she resided for many years, but after her husband's death several years ago, she moved to this town and kept hotel until her feeble health caused her to give it up. In 1855 she was converted and joined the M. P. Church and remained a true and faithful member of the church of her choice which she so dearly and tenderly loved. At the time of her death she was a member of the M. P. Church of this town. She was devoted to the church and to the Master's cause.

—She was a good woman and leaves a host of friends and relatives to mourn the loss of one they loved. She was kind and friendly to all and she was very motherly to those around her and several little grand children to whom she was very devoted will sadly miss her, as will also her children and her many, many friends. It can be well said of her that she was a noble hearted christian woman.

—Her remains were laid to rest in the M. P. Cemetery on Thursday afternoon, after funeral services in the M. P. Church by her pastor, Rev. H. W. D. Johnson. She leaves three sons, William, Fred S. and Ned R. Bounds. She also leaves four daughters, Mrs. Thos. C. Horsey, of Laurel, Del., Mrs. Walter C. Mann, Mrs. Edward R. Howard, and Mrs. Wildy D. Gravenor of this town. She also leaves one sister, Mrs. A. J. Horsey of Laurel and three brothers: Joseph W. Phillips of this town, Isaac J. and David J. of Columbia Del., and many, many relatives. She was interred in a handsome casket by undertakers, W. D. Gravenor & Bro.

—Mr. C. C. Conway, of Stewart Fruit Co., a commission merchant of Baltimore, whose advertisement may be found in another column, spent several days here recently looking up business for the firm. He is a jolly fellow and seemed to enjoy himself with the people here. Gravenor & Bro. are agents at this place.

### WARWHOO AND UMBRELLA

A Combination That Saved a Miserable Man.

Dr. Chamberlain, in his entertaining story of "The Cobra's Den," tells of an experience in India which the reader will scarcely envy. He says:

It was just one hour before sundown of a cloudy, drizzly afternoon. I had my double umbrella, black inside and white outside, for fending off both sun and rain, but had closed it over my hand, without clasp it, to go through a narrow opening in the bushes. I had crossed a little open grass plot of a few rods and was just entering a narrow footpath through the mountain jungle that would take me down to the east foot of the mountain, where I was to meet my pony.

Suddenly a spotted tiger sprang into the path between the bushes and disputed the passage. I saw at once what he wanted—only great hunger impels these tigers to come out during the day—he had eaten no breakfast and wanted missionary meat for supper. I did not wish him to have it. Besides, I had an appointment for that evening with the people of three villages and wished to keep it. He stood in the only path through that dense mountain jungle, glaring at me. I eyed him equally intently, and, gaining his eye, held it while I formed my plan.

It is always best, if a scrimmage is to take place, to be the attacking party. My old grandmother used to teach me that everything would come in use within seven years if you only kept it. When I was a boy, I had gone out among an Indian tribe in Michigan and learned their warwhoop. I had kept it for three years, but it proved trebly serviceable then. When my plan of attack was formed, springing toward the tiger, I raised this warwhoop and at the same time suddenly opened my double umbrella.

What it was that could so suddenly change a perpendicular dark figure into a circular white object and at the same time emit such an unearthly yell the tiger did not know. He stood his ground, however, until I dashed forward and, suddenly shutting my umbrella, raised it to strike him over the head. It seemed instantly to occur to him that I was the more dangerous animal of the two and that one of us had better run. As I did not, he did. Springing aside, over a bush, into the open ground, he made for the crest of the hill which I had just passed.

Lincoln at Play.

It is natural to find that Lincoln, the most American of all Americans, should have played the most national of all our games, baseball. An old neighbor of Lincoln's, who is now a switchman in an Indiana town, remembers how Lincoln played "the great game." His name is Rooney, and his story, as the Cincinnati Commercial Tribune tells it, gives a hearty account of the man who even as president was ready to unbend to trivial amusements.

When Lincoln was practicing law in Springfield, he lived a few doors from Rooney, who used to wrestle with him. Whenever Lincoln saw a chance for a game of ball, he rushed out of his office, with his tall silk hat and long tailed coat, and joined the sport.

During the wrestling match that often followed—wrestling was Lincoln's favorite sport—Lincoln's hat, coat, cravat and braces hung on the fence.

His tall hat was a target for the ball, and many a silk tile was ruined by the players. In reaching for balls Lincoln's long arms did good service. He played the game as he played all games—with all his might.

Modern Carriage.

For the first time in many centuries something modern has appeared on the site of the ancient city of Carthage. Here, where once flourished the arts of war and peace, is a vast, lonely plain. Of the streets through which the conquering Hannibal marched in triumph nothing now remains but the shadeless wheatfields. Popular Mechanics describes the staking camel piodding along, drawing the modern American plow or cultivator.

The soil is as rich as it was on the day when the Phoenicians founded the city, and the American and his industries have found their way to the historic spot where the Romans wrought such devastation in their conquests. Americans, in charge of native workmen, may be seen directing the use of the modern farming implements in harvesting or tilling the soil. These machines, sources of wonder to the natives, who for generations employed only the crudest of farm implements.

The place is on the northern coast of Africa, about ten miles from the present city of Tunis. Americans find the market there for their inventions a lucrative one.

Boston's Low Birth Rate.

Not since 1894 have so few children been born in Boston. In 1901 the birth rate was only 27.10. During the year there was an actual gain in population of only 4,275. The proportion of native whites of native parentage is now only 36 per cent of the whole population, and many of these are but two removes from an immigrant ancestry. It is very evident that the old American stock is dying out and that it will inevitably be replaced by the newcomers of the end of the nineteenth century and the beginning of the twentieth.

The foreign born element constitutes about one-third of the population, but contributed about two-thirds of the births. Among the Italians there were 1,411 births, among the Russians 1,337 and among the Irish 3,591.

The highest birth rates in the city are found in those wards where live the poor and the foreigners. The lowest birth rates are found in the Back Bay and in the south end, in the middle of Roxbury, in West Roxbury and in Jamaica Plain. Three of these wards actually show an excess of deaths over births.—Medical News.

## A Good Business Proposition

is something that everybody who looks out for their own interest will take time to consider. We have

## Several Good Business Propositions

to make you, and

## Here's the Point

We do business on business principles. When we sell you a pair of shoes they are as good as can be manufactured for the money. People spend most of their time in their shoes, and this fact makes the quality of footwear a question of prime importance. Our proposition to you is to sell you good honest shoes at a price as low as is consistent with good values. We make this proposition to all prospective shoe buyers, fully believing that it is to your interest to do business with us. We have many advantages to offer you as a reason why you should do your shoe buying of us, the first of which is, we are exclusive Shoe dealers and also the largest buyers of Shoes on the Peninsula. We can offer you the largest and most complete stock to select from. We do not have to give you one size when your foot needs another. Our large stock enables us to carry all sizes and widths in stock. We take pains to see that every foot is properly fitted and also to select the proper kind of Shoe to meet the requirement for which it is intended. We have the exclusive sale in this city of all the best known and most popular makes of Shoes.

A person is often judged by the company they keep, so is a merchant by the merchandise he handles, and while we stand behind every pair of fair priced Shoes we sell, whether made under some pet name or not. To those who want special lines we can offer such well known ones as the following:

FOR MEN: The Walk-Over, W. L. Douglas, Crossett's Long Life.

FOR BOYS AND GIRLS: The Rice & Hutchins, Burley Stevens & Co., Excelsior.

FOR LADIES: Queen Quality, Zeigler Bros., Cinderella, Allnutt Moody, Drew, Selby & Co.

All of these are good ones in their class and have reputations established on merit, but the burden of our story is simply Shoes, and not the maker—trust us for that and we will always give you full value for your money or cheerfully refund you the same. Think over our proposition, come and see us and let us more fully explain and show you that we mean business and we feel sure that you will find that our interests are mutual. Yours for Shoes,

## HORTICULTURISTS MEET

At The Peninsula Plant Farm. About 150 Fruit Cultivators Enjoy An Interesting Day. Mr. Allen's Large Cantaloupe Crop Now Being Shipped. 20 Car Loads Off This Week. Busy Times.

The Maryland Horticultural Society and The Peninsula Plant Farm held a joint meeting on the farm of Mr. W. F. Allen last Thursday, about one mile from town. There was a large gathering of fruit cultivators of Maryland and Delaware. About 150 including a few of Mr. Allen's neighbors and personal friends in the county being present. Many of the visitors came on evening trains Wednesday, others on the early morning trains and many as late as the noon train from Delaware. The principal object of the gathering was to witness the picking and packing of the cantaloupe crop, now in its height. Mr. Allen grows two varieties, the Colorado Gem and the Maryland Gem, the latter being one of his own strains. He has in cultivation this year sixty acres, from which he will ship about twenty five cars. These are all packed in refrigerators, carrying from four to five hundred to the car, standard size. Mr. Allen uses some special size carriers for special goods and markets. Mr. Allen proved conclusively to his visitors that one of the secrets of making the cantaloupe crop a success is in the sorting, packing and method of shipping, including refrigeration, the stock being assorted not only as to quality, but size so that a retailer who buys a carrier of 45 cantaloupes knows that he will get that number all alike, the last one in carrier being the same kind, size and quality as the first. Mr. Allen will have shipped twenty cars by the last of the week. The visitors expressed themselves as well pleased with the methods used by Mr. Allen in handling the crop.

Another subject of special interest to many present was his peaches on an orchard, to be exact, 264 trees. This orchard is now six years old. It is of a variety propagated from the last year's crop. Last year he shipped from it about 250 carriers that cleared him something over \$500. This year he will ship about 500 carriers and at the present ruling market will net from \$800 to \$1000. It was currently reported that Mr. Harrison, the largest peach nurseryman of the State had opened negotiations with Mr. Allen to propagate the peach and put it on the market. The peach experts of Delaware, we understand, were of the opinion that the peach had decided merit. Mr. Allen has so far had no thought of putting it on the market but has had trees grown only for himself.

We understand that he intends to increase his acreage this fall. After witnessing Mr. Allen's modus operandi of packing cantaloupes and peaches those present were invited to witness Mr. Schneck's modus operandi which took place in a grove on the farm, where about 150 persons participated. The lunch was cold but served in good taste and abundance as Mr. Schneck always does. After lunch the company was broken up into squads of tens and twenties who rode over Mr. Allen's farm of 500 acres to see what was growing in addition to cantaloupes and peaches. Of course the principal thing was that 150-acre patch of strawberries which Mr. Allen has under cultivation, and which he expects to pick from next season.

One other interesting thing connected with his strawberry patch is that he grew this year 2000 bushels of onions in the rows from seeds placed between the plants of his young beds.

This was something new to his visiting strawberry growers. It is something that originated in Mr. Allen's own fertile brain and almost represents net profit. This onion crop is just now being reaped. Another thing which the visitors saw was 100 acres in cow peas being grown for hay. Mr. Allen, like a large number of farmers in Wicomico County, has learned that cow peas hay is much cheaper and better than fodder, since labor has become so costly, aside from the great merit the peas has as a soil improver.

That magnificent shell road leading out to Mr. Allen's from Salisbury was a subject of general comment by all visitors. We believe the gathering had a good effect, bringing prominently to the people of the Western Shore of the State and to Delawareans, the fact that Wicomico has real merit as a fruit growing section.

Out of town guests were: College Park, Md.—Capt. R. W. Silvester, Dr. H. B. McDonald, Prof. J. B. S. Norton, C. F. Austin and T. Symons, of Maryland Agricultural College. Benson, Md.—W. ## Prof. W. J. Holloway Appointed To Normal School.

Prof. Wm. J. Holloway, of the Salisbury High School received Thursday, official notification from Prof. Prettyman, secretary of the State School Board, of his appointment to succeed Prof. W. C. A. Hammel, who resigned as a member of the faculty last spring to accept a position in the State Normal School of North Carolina. The appointment was made at a special meeting of the State Board of Education held at the Normal School Building in Baltimore, Wednesday for the purpose of revising the Normal School curriculum and naming a successor to Prof. Hammel.

Governor Smith and Messrs. Clayton Pursell, John G. Rogers, E. Stanley Gary, M. B. Stephens, Z. P. Wharton and E. B. Prettyman were present. Although Mr. Holloway has not tendered his resignation to the Wicomico School Board it is understood that he will accept the Normal appointment, and will leave Salisbury about September 1 to familiarize himself with the demands of the new position.

At the opening of the school term, September 8 he will be assigned to physics and algebra and such other work as the principal may prescribe. In speaking of the proposed change, Prof. Holloway expresses deep regret at severing his professional connection with our High School. Salisbury also will sincerely regret the change, out of its desire to see its citizens ever on the march to honor and advancement.

The retiring principal began his work in the intermediate department of the Salisbury High School about twelve years ago, and since then has gone successfully to the Grammar Department, Vice-Principal and Principal.

There are already a number of applicants for the position, and a meeting of the School Board will be held next Tuesday.

## THE DEMOCRATIC TICKET OF WICOMICO COUNTY.

Pronounced a Sure Winner—Strong Combination of Worthy Gentlemen Who Will Be Presented to the Voters of Our County to Pass Judgment on—Resolutions Endorsing Ex-Governor Jackson For the U. S. Senate, Warwick For Governor, and in Favor of Better Roads.

For several weeks the topic of a Democratic County ticket has been the subject of much thought and free discussion among party members of Wicomico County. At the primaries held last Saturday in the twelve election districts careful selections were made of thirty six delegates to attend the County Convention held in Salisbury Tuesday. That interest in the nominations to be made was at flood height and that the winning tide of the party was aroused, clearly manifested itself in the early and large gathering—besides the delegates entitled to a seat in the convention—of representative sterling Democrats, who before the morning sun had fairly started, were gathered around the court house lawn and discussing in a spirit that spoke of future public weal, the requirements of an office holder.

That in the accord and counsel of many wisdom prevailed in the nominations of exceptionally fit men for the county ticket, is the sentence heard on all sides. In fact, there are many time worn voters, who say it is the best Democratic ticket ever placed before the voters of our county. As there was only one nomination made otherwise than by acclamation it can easily be seen that equal to making out a list of strong, winning candidates the thoughtful men of the party, believed in the splendid harmonious feeling which permeated and ratified Tuesday's nomination.

The Convention was called to order by Hon. E. E. Jackson, Chairman of the Central Committee, who was made permanent Chairman, on motion by Justice W. A. Trader. The Ex-Governor, spoke in pointed words of the necessity of nominating acceptable candidates—men of principle, intelligence and integrity, and manifested a deep interest in the success of the Democratic party at the coming election.

He assured the convention of his hearty support and the will to do all in his power to insure decisive victory for the Democratic candidates.

Mr. John W. D. Adams, of Mardela and Mr. Jas. O. Adams, of Sharptown, were named secretaries.

DELEGATES TO THE CONVENTION. The delegates who had seats in the convention were:

Barren Creek, No. 1.—John W. Humphreys, Capt. Wm. Donoho, John Wright. Quantico, No. 2.—Wm. F. Gale, George A. Mounds, V. F. Collier.

Tyaskin, No. 3.—James Polk Insley, Mimos B. Downing, W. Ross Phillips. Pittsburg, No. 4.—E. G. Davis, Geo. M. Mandus, James W. Parker.

Parsons, No. 5.—Wm. A. Trader, Wm. F. Callaway, Dean W. Perdue. Dennis, No. 6.—Isaac S. Williams, Rufus Johnson John L. Powell.

Trappe, No. 7.—Wm. T. Banks, Willie Messick, Eriam Deane. Nutter's, No. 8.—Alonzo Dykes, Louis Buselle, Joseph B. Johnson.

Salisbury, No. 9.—E. E. Jackson, Wm. J. F. Statten, E. E. Twilley. Sharptown, No. 10.—Walter Mann, James O. Adams, John A. Wright.

Delmar, No. 11.—Joseph Frazier, R. Scott Parker, Benj. Beithards. Nanticoke, No. 12.—George D. Insley, L. T. Walter, Isaac W. Roberts.

An evidence of the entire harmony and spirit of accord prevalent in the Convention all the nominations were made by acclamation except that of Sheriff, for which one ballot was taken. The names of Elijah M. Elliott of Parsons District, I. Joseph Hearn of Nutter's District, and Willie Gillis of Quantico District, were presented, Gillis receiving 88 votes to four of each of the other candidates. The ticket was named as below.

ADOPTED THE FOLLOWING RESOLUTIONS  
The chair, by request named one delegate from each District to form a committee on Resolutions as follows:

Wm. A. Trader, Wm. F. Donoho, W. Ross Phillips, E. G. Davis, L. S. Williams, W. T. Banks, Alonzo Dykes, E. E. Twilley, John A. Wright, V. F. Collier, G. D. Insley and J. O. Frazier. After careful deliberation the Committee reported first that:

WHEREAS, The people of Wicomico County have always taken pleasure in giving its support and confidence to Hon. E. E. Jackson, so this convention again expresses the appreciation of the county for the services he has rendered, not only to the Democracy of this, his native county, but to the State as well. Therefore, be it

Resolved by the Democratic Convention of Wicomico County, That should he allow his name to be placed before the Legislature for the responsible office of Senator in the United States Senate, it is the sense of this convention, that the Democratic members of the legislature, from this county, give him their hearty support, and they are hereby instructed to use their earnest endeavors to secure his election.

Considerable applause greeted this resolution which was adopted by a rising vote. The Ex-Governor in expressing his thanks to the convention said he did not know he would be a candidate for the United States Senate, yet he sincerely appreciated the hearty endorsement of his home county.

Another resolution endorsed the Hon. Edwin Warfield, of Baltimore, for Governor. It was adopted also by a rising vote.

WHEREAS, Hon. Edwin Warfield, of Howard County, has for some time been a candidate for the Democratic nomination for Governor of Maryland, and his reputation and character for honesty, integrity, statesmanship, and executive ability being of the highest; Therefore, be it

Resolved, That this Democratic Convention of Wicomico County, believing that it is voting the right ticket of the Democratic party of this County, and of the great majority of the liberal and conservative voters therein, does hereby endorse the candidacy of the Hon. Edwin Warfield as the nominee of the next Democratic Convention for Governor of Maryland.

GOOD ROADS RESOLUTION.  
Mr. Thomas Perry in line with his well known advocacy of good roads, introduced a resolution which was adopted favoring State aid in road construction, combined with liberal county appropriations for their material improvement and maintenance. The resolution reads:

We favor state aid for the establishing and maintaining of a system of public highways, and to this end we favor liberal appropriations by the Legislature. Resolving that the State should not undertake the work alone, but that the Counties should do their proportionate part, we favor such appropriations by the State as will be necessary to furnish the stone or other material delivered to the Counties properly prepared, and that the Counties shall receive the material and build the roads under the supervision of competent highway engineers. When such a work is undertaken by the State, we favor liberal appropriations by Wicomico County to build and maintain the roads.

At the unanimous request of the Convention its acting officer, ex-Governor Jackson named the following delegates to the "State Convention": James T. Trull, of Parsons District; Thomas M. Moore of Trappe District; E. Stanley Perry, of Parsons District; E. Stanley Toadvine and Charles R. Dashiell, of Quantico District; Ebenezer G. Davis, of Pittsburg District; Levin J. Gale, of Quantico District; A. W. Robinson, of Sharptown District.

Salisbury 9, M. I. and Co., 4.  
Considerable hitting figured in Monday's game, Salisbury vs. M. I. and Co., of Baltimore. Features were the playing of Herzog, shortstop, and Ruppel, 3rd base of the visitors and Hart's wonderful catch for the homers. Herzog was severely hurt in the fifth inning and after a plucky attempt to retire, his vacancy being filled by Carl Schuler who played an excellent finish. Ruppel and Davis did some good batting while Trull, Ward and Schuler were in it to win. Score, Salisbury 9 M. I. and Co., 4.

## New Eastern Shore Of Our Maryland.

All along the road from Claiborne to Salisbury the evidences of a new Eastern shore are presented. The old orchards that once won fame for Maryland and were neglected because of glut in the peach market, are rapidly being replaced with new orchards, many of which will soon reach the fruiting age. Farmers are planting acres of cowpeas, the great land renovator—the crop that will quickly enrich and supply the needed humus so necessary in the light soils prevalent in these sections. The acreage of tomatoes and sweet corn that is in sight answers the question why the canning industry is so prominent in Maryland. Every town has many new modern cottages and others are being built. There are many factories making crates, baskets, boxes and packages for shipping fruit. All the requisites are now "home-made". The improved shipping facilities add still further incentives or encouragement to all horticultural and kindred interests. Above all things, the farmers and fruit growers are doing thorough and intelligent work. No wonder there is a new Eastern Shore. —Friday's Baltimore Sun.

## Hearn—Thorington.

The marriage of Miss Lina Thorington, daughter of the late Wm. Wesley Thorington to Mr. Oliver Hearn was solemnized Wednesday August the fifth at half after twelve o'clock at the home of the bride's mother, Mrs. Susanna Thorington, William Street.

The ceremony was performed by Rev. G. W. Townsend, pastor of the M. E. Church at Harlock.

The parlor in which the marriage occurred was beautifully decorated with potted plants. The bride and groom attended by Miss Marian Nook and Dr. Marion Green, of Philadelphia a brother of the groom, entered the parlor while the wedding march was being rendered by Miss Annie Bennet.

The bride wore a handsome tailor made traveling suit of brown, hat and gloves to match.

After the ceremony the happy couple left on the two o'clock train for a bridal trip to the Northern cities.

The bride and groom are both well known in Salisbury. Mr. Hearn occupies a position in the SALISBURY ADVERTISER OFFICE.

## Salisbury 6, Atlantic 2.

The strong Atlantic team, reported to be one of the best in Baltimore, was defeated at the rate of 6 to 1 on Salisbury's diamond Wednesday afternoon. There was pretty rival pitching heavy batting, included a home run by Davis, and some good fielding.

## A WINNING TICKET FROM START TO FINISH.

Such is the list of Democratic nominations made at Tuesday's Court House Convention "A Winning Ticket from Start to Finish."

It is justly, and on the part of the Democrats who made it, proudly, so termed.

The long emphasized talk of a "pull all together" had its effect, and the delegates who came to the County Convention as representatives from their several districts, came in calm, deliberation purpose to nominate such a ticket as even the "blackest" republican could find no flaw in, and independent Democrats could support with pride. That they succeeded is not open to question when the ticket above is reviewed. Not a man on it but is splendidly qualified to fill the place for which he has been designated and equipped to make a public officer of modern, progressive ideas, ability and fidelity.

The party may congratulate itself on such an array of men who make one of the strongest tickets that Wicomico could hope for.

But what the Democracy has brought to the front so good a ticket, it must not be forgotten that there are others amply qualified to make the best of public officers, some of whom up to last Tuesday's nomination were themselves seeking a county office, but who when it appeared best for the party, were willing to accept the decree, and in the interests of harmony to withdraw their names.

It is to men of high character such as these that a nation owes its greatness, and a party its unity and power. All honor to those who were ready to go on the ticket but who generously sacrificed for their friend and their party. They in losing have won.

The resolutions passed by the convention, endorsing Ex Governor Jackson for the United States Senate and Hon. Edwin Warfield, for Governor of Maryland seemed the unanimous sentiment of Wicomico Democrats, and very gratifying to the hosts of advisers of the Ex-Governor and Mr. Warfield.

Another resolution, and one of appealing importance pertaining to the improvement of public roads through state aid and liberal county donations prepared by Mr. Thor. Perry was adopted. Mr. Perry has studied the good roads proposition very closely, and is one of the best informed men in the state on the subject.

## THE GRANTING OF LIQUOR LICENSES IN SALISBURY.

The county commissioners, after three days of continuous session, grant license to O. J. Schneek and Bradley & Turner, last week, culminating for the time one of the hardest fought battles Wicomico has ever witnessed. The fight commenced last fall when the Anti Saloon League circulated petitions in Salisbury and Nutters district asking the court to grant the people the right to vote on the question whether or not intoxicating liquors were to be sold in said districts. This was fought before the court and ended in getting out a mandamus to compel the Election Supervisors to place the question on the official Ballot. Then came the election fight which each side strained every nerve to win. After counting the ballots it was found that both Salisbury and Nutters district had gone dry by good majorities. But the temperance wing were not left long to rejoice over their victory. The liquor men immediately took the case to court on the ground that the law giving the judiciary the right to order an election was unconstitutional. The court of Appeals sustained their position. Then came the task of getting signers on the part of the liquor men to their petition before the County Commissioners. Perhaps the city was never more thoroughly aroused on any subject as on this. An immense mass meeting was held at the Court House at which Ex-Gov. Jackson presided.

They took the fight before the Commissioners who were compelled to leave their quarters on lower floor of Court House and occupy the court room proper as to accommodate the large number appearing before it for and against. After hearing both sides the Commissioners refused license to all.

The liquor men again took their case to the Court and asked for a mandamus compelling the commissioners to issue license. After another legal battle the Court decided that a mandamus did not lie, but in reviewing the case scored the Commissioners for not granting the license, or for turning same down on ground of public opinion. Acting under the influence of the opinion of the Court on this matter the Commissioners decided to reopen the case and set Tuesday to hear same. Then the Anti-Saloon League made the fight on the character of some of the applicants and the validity of several of their signers. After a most searching investigation lasting over two days the Commissioners granted license to O. J. Schneek and Bradley & Turner.

What the next move of the Temperance people will be is not known, but that the fight will not rest here can be safely predicted.

## IN NEW ENGLAND.

Among Historic Massachusetts Scenes.  
Interesting Sketch Of Tour Through  
Country Of Puritans And Pilgrims. Anecdotes By  
The Way.

The morning of Saturday July 25, being clear and cool, two of us took the car for South Station, Boston, a ride of about twenty minutes; from whence we took the train at 8.43 for Plymouth where the Pilgrims from the Mayflower landed, 1620. Passing through some interesting places among which may be mentioned Weymouth where Capt. Miles Standish had his hand to hand struggle with the Indians, we arrived at Plymouth at 10.30. The first place visited was Pilgrim Hall where are found many interesting relics. When you enter, "Jones, he pays the freight," twenty-five cents. First you pass through Entrance Hall, then the Office, both of which are adorned with engravings, then you enter Main Hall. In this are many, many things of interest, the hundredth part of which would exhaust our space. Those things are arranged in cases which are lettered A, B, C, etc., and numbered in the cases, 1, 2, 3, etc. Those articles are not all labelled, so that necessitates going back and getting a book, cost ten cents, which tells what each number is. I mention this as an example of New England negligence. A few of the things seen are: the sword and iron pot, belonging once to Miles Standish, the pictures of which are to be seen in our histories. Many other things are found connected with Standish, the bible of John Alden with his autograph; books or letters containing autographs of Gov. Winthrop, Daniel Webster, John Cotton, Roger Williams etc., and the following original order.

Jan. 7, 1778.  
Sir, throw pickets across the bridge on the Ferrisdown Road, with orders to send in all stragglers or suspicious persons found near or about the Schuyllkill, the picket to be doubled at sunset.  
G. WASHINGTON.

To Gen. HUNTINGTON.  
We saw the barrel of a gun labelled as the one with which King Philip was killed; in fact, we saw about all except John Alden and Prucille, and as the day was bright, we imagined they had just stepped out for a walk.

From Pilgrim Hall we went to Plymouth Rock, which one would recognize by the pictures of the canopy built over it seen in our geographies. The rock was shaded by the canopy, and the breeze being fresh, we rested sitting on the rock and trying to feel like the Pilgrims did when they landed. At joining the rock and rising almost perpendicularly from it is Cole's Hill where the Pilgrims buried their dead the first winter when half of them died.

From thence we went to Burial Hill where are many tombs of interest. Gov. Bradford's tomb is here, John Cotton's, Wm. Clarke's, - Clarke was mate of the Mayflower according to tradition, - John Howland's, - passenger in the Mayflower. - Near this last one is the tomb of Hannah Howland who died of a languishment - Jan. 25, 1780, aged 26 yrs. I asked our guide in the cemetery what that languishment was and here is his story. "Here is a grave," he said, walking a few steps and showing us the tomb, "in which are buried sixty sailors, the victims of a shipwreck. In that ship's crew was one young man, Ansel Ring, who had been the lover of Hannah Howland, but who deserted her, and on account of which she languished and died." Old Mother Crew, a witch placed her curse upon him for it and the people of that day believed that was the cause of the wreck in which he perished. Thinking that he had a lit of the belief in witches about him yet, we suggested there might be more in witches than some people thought; he drew us aside under the shade, and told us witch stories till we reluctantly had to leave.

We will not name other graves now, but from this burial lot may be seen the hill on which, history says, the Indians always appeared when they wished to treat with the whites. The sites of the Old Fort and the Watch Tower are both in this cemetery. We saw the spots of the homes of Gov. Bradford and Miles Standish. We then visited the National Monument begun in 1898, dedicated in 1899. It is of solid granite 81 ft. high; height of statue 36 ft. On each of the smaller pedestals is a seated figure, emblematic of Morality, Law, Education, and Freedom.

At 8.30 p. m. we took steamer for Boston. When we got out of the harbor a stiff breeze was blowing. The watermen said it was "choppy" if you know what that means. Well, it soon proved "choppy" enough to make several sick. One woman must have been a direct descendant of Job. She was on the lower deck, head over the rail, intently contemplating the deep blue, when some one above threw some pieces of oranges and bananas down which fell on her head; she never seemed to notice it; soon the remains of a sandwich fell in the same place, still not a murmur; next a cup of coffee went to the same spot, then seeming to try to rouse all her energy she said "don't do that, I can't eat." The scenery along the coast was beautiful. Little islands and promontories rising almost perpendicularly to the water's

surface, but nearly always covered with green grass, were seen scattered here and there.

Finally a large steamer which we had been noticing for some time and whose speed was much greater than that of ours, crossed behind us, took a course parallel to ours, slowed down and went alongside at a distance not greater than twenty or thirty yards from us. We were then nearing Boston Harbor, and the many kinds of craft going and coming, hither and thither, was an interesting sight to see. As we near the great city in the very section whose birthplace we have just visited the history of our country comes to our mind. The Puritans at times, ill-treated the Indians some of whom repaid them with acts of kindness; they banished Roger Williams, yet he later prevented a tribe of Indians from rising and massacring the whites. In the Revolution, France, whom we had been fighting almost from the first, came to our aid. Thus we see that the life of a nation is but the life of an individual repeated on a large scale, in which we find sometimes, those on whose friendship we most depend and on whom we bestow unlimited acts of kindness repaying with ingratitude, and we receiving our greatest favors from those from whom we least expect them and on whom we have the least claim.

## Brides

Are always beautiful and happy according to the society reporters, and in this case the report is mostly true. There may be unhappy brides in fiction, but there are few in real life. But how hard it is to look upon many of the wives we know, and believe that they were once beautiful and happy. Pain, the result of womanly disease, has marred beauty and undermined happiness.

### \$500 REWARD FOR WOMEN WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhea, Prolapse, Weakness, Protrusion, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

It has thought for some time I would write you and tell you of the great improvement in my health since taking your "Favorite Prescription," says Mrs. J. S. Jones of Ford, N. C. "When I began to use it was a physical wreck and had lost all my health. My health was so bad that I could not walk a quarter of a mile. I noted a great improvement in my health before the first bottle was used. I was suffering with almost every pain that a woman is subject to, had inflammation of ovaries, pelvic and suprapubic pain, and other symptoms of female disease. I felt like a new person. I can ride horseback and take all kinds of exercise and do not feel tired."

If you are looking for a perfect laxative try Dr. Pierce's Pleasant Pellets.

## TALMAGE SERMON

By Rev. FRANK DE WITT TALMAGE, D.D., Pastor of Jefferson Park Presbyterian Church, Chicago.

Chicago, Aug. 2.—In this sermon the preacher pays a fitting tribute to the consecrated mothers and daughters of America and pleads for a wider and more practical recognition of their services in church and religious work. The text is Philippians ii. 3. "Help those women who labored with me in the gospel."

The conspicuous places in the church have always been filled by men. The effective, personal work of the church, however, has to a large extent been done by women. Opening the scroll of gospel triumphs, the names of the greatest preachers and organizers have been men; but in the ordinary walks of religious life the consecrated female workers have always outnumbered the consecrated male workers. In the history of the Christian church the women members, as a class, have rarely failed Christ in hours of need.

Not she with traitorous kiss her Master stung; Not she denied him with unfaithful tongue. She when apostles fled could dangers brave. First at his cradle kneel, last at his grave.

The part woman has in the gospel campaign is that enlisted by military historians and poets as that of the "man behind the gun." They declare it was not the great leaders like Robert E. Lee and Stonewall Jackson or U. S. Grant and W. T. Sherman who bore the chief brunt of the civil war. It was the common soldier in the ranks. It was the artilleryman who lived in the trenches day in and day out. It was the sentry doing picket duty. They declare that Colonel Theodore Roosevelt had but little to do with the capture of San Juan hill. It was the common soldier, who broke into a run and swept up to the Spanish black-house. "And if," said Colonel Roosevelt, "I had not charged the enemy at a dead run I would have been run down by my own men, who were running after me." It was the "man behind the gun" who captured San Juan hill, and he should have his share of the glory, which belongs not to Theodore Roosevelt or any other officer alone.

The Woman Behind the Gospel Gun. But, though in military parlance we may talk about the "man behind the gun," we cannot in the church militant. It is the "woman behind the gospel gun" who for centuries upon centuries has borne the greatest brunt of religious strife. It is the "woman behind the gospel gun" in the home, in the church, on the street, in the country, in the city and in the foreign missions who has carried the name of Jesus Christ all around the world. It is the "woman behind the gospel gun" who has won the greatest gospel victories for our churches in the past. Therefore the purpose of this sermon is to make a manly plea to the fathers and husbands, brothers and sons, of the families of our churches to take their positions in religious work beside their mothers and wives, sisters and daughters.

Nearly every man in my audience today is a believer in Jesus Christ. It is so with other churches. Infidels and agnostics are still numerous, unhelpful, but they are not in our churches, and the voice from the pulpit does not reach their ears. My ministry so far as preaching to infidels and agnostics is concerned is practically ended. Theodore Cuyler, the grand old man of the Brooklyn pulpit, lately declared that in a ministry of over sixty years he had never yet preached a sermon upon the divine authenticity of the Scriptures. He believed that almost every person with whom his work came in contact was not only a believer in the Bible, but also in the divinity of Jesus Christ. I believe that Dr. Cuyler is right. I believe that every man in Jesus Christ, but that he also expects some day to receive Christ as his Saviour and to be redeemed from sin by the atonement of the cross.

Christ's Saving Power. You show the fact involuntarily, almost automatically. I can prove to you in very few words that you are a believer in the saving power of a divine Christ. How do you act? What do you say in a crisis? Supposing you were swept off the deck of a transatlantic steamer like Captain Courageous in Rudyard Kipling's story? What would be the first cry which would involuntarily come to your lips? Would you not call out at the top of your voice, "My God, help me!" Supposing you were caught in a blizzard upon the western prairie. After you had for hours been floundering around and around in the ever deepening snow, would you not, with your bearded faculties, moan: "O Christ, save me! O Christ, save me!" When we were climbing over the Johnstown ruins a few days after the awful Conemaugh flood, Rev. Dr. Beale told me that during the pandemonium of death a saloon keeper, as he was sweeping by, caught hold of his church's steeple. As he hung there he was weeping and again to beseech God for his life. Mr. Moody said that when he was returning from Europe on the last trip of his life the steamer was swept by a very moment expected to go to the bottom. Then he heard men everywhere publicly praying to God for help—men who, perhaps, had not publicly or privately prayed to God for years. Their prayers at that time proved conclusively that most men do expect some day to be saved by the atoning power of the cross.

Now, my brother, if you believe in Jesus Christ and hope some day to be saved by his life it is that your belief does not affect your life? Why are you not man enough to go and work in the vineyard? Your slothful, lazy habits, in a spiritual sense, ought to make you despair yourself and have utter contempt for your past actions in reference to your church. You know it is ingratitude in every manly man to despise a shirk. If a party of us should go hunting next summer we would naturally expect every member of that party to do his full share of work. If one of the men refused to do it we would never take him out upon another hunting trip. We would say to one another, "That man is no good. He is mean and contemptible. He is a lazy, despicable shirk." I have had business men come to me and ask: "What shall I do? I have entered into a business partnership with such and such a man. But he is a lazy, indolent, useless dead weight. He will not think of work. And yet he expects me to divide the profits with him. He is a shirk, a useless shirk. And if there is anything I despise it is a shirk, draining and sapping my energies, as the vampires in mythological times used to suck out the life's blood of their human victims."

The Shirk in Religion. Now, if you despise a shirk in pleasure and despise a shirk in business, how is it that you are willing to be yourself a shirk in religion? You, my brother, believing in Jesus Christ and hoping some day to be eternally saved by his blood, ought in common honesty to fully realize that your actions toward the church are just as despicable and contemptible as the shirking characteristics which you despise in others. You are practically saying to yourself: "I want to some day reach heaven; but in the meantime I want my wife, my mother, my sister, my daughter, to do all my praying and working in the church. When I am in my last sickness I want my minister to come and fix things all up for me in a spiritual sense. And when I am dead I want their minister to state over myasket that I have repented at the eleventh hour and have been saved all right. In other words, I want to live every joy and hope of the religious faith without lifting a hand for Christ, without doing one stroke of work in the Master's service." Oh, my brother, such a statement as that is so mean and despicable I do not believe you have ever fully realized what your gospel shirking has signified. Come, man, and be a true man in the spiritual as well as in the temporal way. Come and take your part in holy enthusiasm. Do not compel the women folk of your families to longer bear the brunt of the gospel struggle. At it in the name of the Lord Jesus! At it now! At it all the time! Hear the plea of the manifest Christian man who ever lived. This plea he made to men: "Help those women! Help those women!" Help them now.

A strong, robust, manly man compels the admiration of other men. There is a popular theory abroad that a manly man can never fascinate the masculine line world as a beautiful woman can. But I do not think that that theory is true. I know it is not true with many of my gentlemen friends. Often, when walking through the crowded thoroughfares of Chicago, I have had a number of my family say, "Did you ever see a more beautiful face than that?" "Who? Where?" I would ask. "Why, that beautiful woman who was walking there with that man." "Oh," I would answer, "I did not see the woman, but I did see the man. I was watching him very closely. My! He was a strong man. There was a something in the look of his eye, in the set of his mouth, in the strength of his shoulders and in his well poised, self confident walk that pointed to me he was a leader among men. I did not see the woman, but what a fine specimen of a man he was!" I believe that the fascination which a strong man has upon him all men except those mental weaklings and masculine nonentities who think that the chief purpose for which a man was created was to eat and sleep, to dress and undress.

If a manly man is to have such a great influence upon other men, who will be able to do your Christian work unless you are willing to do it? There are persons and spheres which you, and only you, can reach. The women who have labored with Paul in the gospel cannot do it. Your mother, wife, or sister, or daughter cannot do it. You know that there are today down in your store some clerks who no human being can touch for Christ as you, their employer, can touch, if you will.

Would you not be a Christian merchant like William E. Dodge, or a Christian statesman like Governor George N. Briggs, or a Christian soldier like General O. O. Howard or A. W. Reilly, or a Christian physician like Charles Jewett, or a Christian lay president of a college like Mark Hopkins? These men had great influence in the financial, or the professional, or the political realm. Their greatest and most far reaching influence, however, was when, as earnest, consecrated Christian leaders, they stood before the young men of this world as living examples of faith in Jesus Christ. They were many Christians in the busy marts appealing to men.

True Courage. Would you not like to be a Christian scientist like Henry Drummond? Some people are foolish enough to suppose that his greatest work was in the lectures on natural history, which he first delivered before his classes in the Free Church college of Glasgow. But I tell you that the greatest of all his work Henry Drummond did in his life was done when he stood before the young university men of Edinburgh, gathered Sunday after Sunday within a large hall of Edinburgh, and testified to them of Jesus Christ. At that time he molded men's hearts as well as their brains. He molded them, as a modern Christian minister was ever able to mold them. For there was an unordained Christian scientist, he stood simply as a manly Christian man, appealing to men. If I had my own way in the world, and had the intellect to do it, I believe I could give my Saviour better service outside of the pulpit than inside. I believe I could have a wider influence upon the Christian world, if, as a successful lawyer, I could testify for Christ as a noted lawyer, Thomas McDeaugh, used to testify, week by week in his Bible class; if as a Christian statesman I could testify for Christ as William E. Gladstone often testified; if as a Christian merchant I could testify for Christ as Lucius M. Sargent testified.

A man sitting before me today, do not cherish the idea that physical courage is the only or the greatest element of manliness. I tell you that the manliest men in the world have been men who never saw a battle field, who never raised a hand to

strike another man. I appeal to you. Are you ready to be a manly Christian appealing in Christ's name to men? Are you ready to tell them that the bravest heroes of life are not always those who don the soldier's uniform and, with unblanched cheek, walk up to the cannon's mouth? Are you ready, by the example of your own life, to teach a sinful world that the noblest heroes of every generation are the moral heroes—those heroes who, if necessary, are ready to die for Christ, die for the right, die as Paul died, who urged his yokefellows to be bold testifiers and workers for the cross?

The Duty of Man. Every true man knows that his wife is not a useful and active member of the Christian church who she goes to church alone as she would be if her husband were ready to go by her side and help her in her Christian endeavor to spread the gospel. The marital ties are very sacred. They unite in more ways than one the twin who once stood at the nuptial altar. After a husband and a wife have been living together for many, many years they not only begin to think alike, but also grow to look alike. I have again and again noticed the similarity of looks which are seen upon the faces of aged husbands and wives who have long lived side by side. They have unconsciously absorbed parts of each other's physical as well as mental personalities. So when a husband is an irreligious man, a nonchurchee, a scoffer, a ridiculer, his sneers and shortcomings have a marked evil effect upon the life of the Christian woman who at the marriage altar has pledged to him her love and life. She may be a saint in her own heart, but in the sight of herself she cannot be as good a woman as if she had married a good Christian man, who has been consecrated to the service of the Lord Jesus Christ from the day that he left his mother's home.

Husbands, in view of this tremendous fact, are you ready today to curtail to a greater or less extent the spiritual usefulness of your wife? Are you ready to curtail her spiritual influence over the life of her children because her own spiritual life, on account of her personal indifference and sin, has been depleted? Are you ready for the same sinful marital cause to curtail her influence in the church and in the neighborhood? Because you wish her to be a social queen are you more desirous of seeing her surrender the better part of herself to the service of her Divine Master?

The Husband's Responsibility. But I take a step further in this thought. Have you thought that you may, perhaps, totally destroy your wife's faith in Jesus Christ? Many and many a husband has done this before, and perhaps you may be doing this now. If you, O man, are indifferent to the gospel message, and shall be personally destroyed, perhaps your wife may become indifferent about her own salvation. Perhaps she may be willing to be destroyed also, that she can say to you as Ruth of old said to Naomi: "Entreat me not to leave thee, or to return from following after thee; for whither thou goest I will go, and where thou lodgest I will lodge; thy people shall be my people and thy God my God." I once heard of an African chief who came one day to a missionary and said, "Missionary, if I accept Jesus Christ will I be saved?" "Yes," answered the missionary. "Well, missionary, as my father did not accept Jesus Christ, will he be eternally destroyed?" "Yes," answered the missionary, not seeing whether the questioner was asking whether he himself was to be saved or whether he was to be eternally destroyed. Then the African chief lifted his head as he answered: "Missionary, I reject your Christ. I do not wish to be separated even in death from my father. I prefer to be eternally destroyed as he is eternally destroyed."

Oh, sinful husband, glorying in the intensity of your wife's affection for you, have you ever thought of the extremity to which she may carry her love? What if she should so desire to be with you that, rather than be separated from you after death, she should give up Christian usefulness—give up her God and heaven? What will be your remorse if you have to lament not only the loss of your own soul, but the eternal woe which love of you has brought upon her? Today you may be deciding not only your own eternal destiny, but you may be destroying your Christian wife's spiritual welfare. Side by side you will be in the grave. Side by side you may be in eternal despair.

Church Membership. But I would like to speak a word before I close to the good, moral, Christian man who believes in God and yet is not a church member. You are ready to confess him in private conversation and yet not willing to publicly confess him as a church member, though in that way you might help the women who are laboring in the gospel. In spite of orthodox doctrine I shirk from the thought that you will ever be ultimately destroyed. But this I do know—your actions in refusing church membership may be the means of destroying scores and scores of immortal souls.

That church membership is a mighty help to every man in his struggle to lead a truer, purer, nobler Christian life there is no doubt. Every true Christian is a better Christian when he has a holy purpose, gives his allegiance to some one church and allows his name to be placed upon the church roll. You may still be a Christian and yet not a church member. You may be able by the grace of God to be a good, moral, upright Christian man in spite of never having taken this important step. You may have had a gospel bringing up that has helped you, but what about that young clerk who is watching you? He has not yet publicly confessed faith in God. He has had no sacred childhood. He is looking at you now and saying, "Well, that man, and so on can be a good moral man, and not a church member. I guess I can." Dare you, oh, moral man, allow that boy to make such an excuse? You know you had a hard time to keep your Christian integrity, in spite of all your sacred past. Do you feel that that young man can safely run the gauntlet

of sin as you have done without the restraining influence of church membership? Do it without a public profession of Jesus Christ before the church altar?

Being able by the grace of God to persuade a good, moral, upright man to publicly profess Jesus Christ in a church aisle was the means, I believe by which I have accomplished my greatest single work for good in the gospel ministry. That man was one of the leading millionaires of Pittsburgh. Every one who knew him was ready to testify that he was square through and through. His word was as good as his bond. He was the soul of honor. Yet in his year in and year out he went among the business men of the Smoky City as a good, moral man and not as a Christian man. The young man said, "Well, if I can be as straight and true as Mr. So-and-so, that is all I ask. I guess my chance for heaven will be first class." I heard of such remarks made by the young men. I made up my mind I would carry them straight to that millionaire. It was morally the bravest act I ever did. I was at that time merely a boy and therefore it was doubly hard. First I prayed over the matter. I felt that I had a right, and a full right, to go to God and ask him for what was on my heart. Then I started for that rich man's house. I rang the bell and entered the parlor. When he came down I began to plead in the name of my Christ. I said to him: "Mr. So-and-so, I know you are a Christian. No man with your habits and your bringing up could help being a Christian. Your Christian mother and Christian grandmother, be- sides your Christian dead wife, were all members of the Old Second church. But what about these young men who are looking up to you as an example? Dare you and will you be responsible for their lives? Dare you refuse to publicly confess Christ and turn these young men's minds toward the cross, which is the source of all your strength?" Tears began to well up out of the great financier's eyes. They rolled down upon his cheek and his beard. He extended his hand and took mine and said, "Mr. Talmage, do you think that the young men are saying that about me?" I answered, "I know they are." Then he said, "I will publicly profess Christ as my Saviour in the church aisle at our next communion."

Wear the Gospel Armor. In all the history of the Second Presbyterian church there never went forth a greater religious influence than on that day. In the bank, over the counter, on the street and in the home hundreds of men were saying: "Have you heard the news? Mr. So-and-so has become a Christian. He joined the church last Sunday." And from that one moral Christian man's action of publicly professing Christ in the church I believe hundreds of young men were brought to kneel at the foot of the cross. Oh, moral Christian man, do not suppose that while you are outside of church fellowship you can really help the women who are laboring in the gospel. Do not be a Housman or one who is fighting for American liberty when you are not an American. Be born again. Be a Christian church member. Place your name in big black letters upon the muster roll of the church. As a Christian, wearing the gospel armor and fighting under the gospel standard, throw your whole soul and heart into this Christian struggle against sin.

There is a very common sign upon all the board fences today, in which Henry George stands with uplifted hand, saying, "I am for men." Today, as Christ's messenger, I am pleading for men. I want Christian men for gospel visitation, prayer meeting and for the church officers. I want the Peters and Lukes and Matthews, Bartholomews, Johns and Pauls and the Timothys of the present generation. In other words, as a Christian pastor, I come today and say, "O man, in the name of Jesus Christ, we want you to help the women who are now laboring in our midst! Will you come and give us your gospel help?" [Copyright, 1901, by Louis Klopfch.]

In itself La Grippe is very dangerous, but in its after effects it is one of the most deadly scourges that afflict mankind. It shatters the nervous system, weakens the heart's action, and lays the foundation for heart disease. The accompanying fever consumes the vitality and renders the patient susceptible to pneumonia, bronchitis and catarrh. The best treatment consists of Restorative Nervine which quiets the nerves, soothes the brain, restores strength and vitality to the entire system; Dr. Miles' Nervine and Liver Pills, a nerve tonic acting directly on the nerves of the digestive organs causing them to act in a natural and healthy manner, and Dr. Miles' Anti-Pain Pills which speedily relieve the torture of headache, backache and soreness, the most common symptoms of Grippe. Look well to their record. What they have done in 35 years gone by is the best guarantee of future results. Any one with a bad back, any reader suffering from any kidney ill, will find in the following evidence proof that relief and cure is near at hand:

Mr. G. M. Myers, the well-known shoemaker of Winchester avenue and 14th street, Ashland, Ky., says: "Doan's Kidney Pills are like true friends, the longer you know them the better they are appreciated. I can add nothing to the statement I first made in 1893 after I procured the remedy at the Ventura Drug Co. and took a course of the treatment, which cured me. I was absolutely free from all backache for nearly three years, then I noticed a slight ache, as the result of a cold, in my back. A box of Doan's Kidney Pills disposed of it. I have recommended this remedy to many, and have never heard of one who did not endorse the claims made for it."

### Only A Mask.

Many are not being by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which, as we know, "builds up the whole system."

Sold by druggists at 50c. or mailed by Ely Brothers, 34 Warren St., New York.

### Escaped An Awful Fate.

Mr. H. Hagline of M. Dourne, Fla., writes: "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. It suits me perfectly. I am now on the road to recovery and owe all to Dr. King's New Discovery. It truly saved my life." This great cure is guaranteed for all throat and lung diseases by all druggists. Price 50c. & \$1.00. Trial Bottle free.

### Boy Cured of Colic After Physician's Treatment Had Failed.

My boy when four years old was taken with colic and cramps in his stomach. I sent for the doctor and he injected morphine, but the child kept getting worse. I then gave him half a teaspoonful of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and in half an hour he was sleeping and soon recovered.—F. L. Wilkins, Shell Lake, Wis. Mr. Wilkins is book-keeper for the Shell Lake Lumber Co. For sale by all dealers.

### A Sure Cure For Diarrhoea.

Coming as it does, in the busiest season, when a man can least afford to lose time, a sure and quick cure for diarrhoea is very desirable. Anyone who has given it a trial will tell you that the quickest, surest and most pleasant remedy in use for this disease is Chamberlain's Colic, Cholera, and Diarrhoea Remedy. There is no loss of time when it is used, as one or two doses of it will cure any ordinary attack. It never fails, not even in the most severe and dangerous cases. For sale by all dealers.

### Better Than Gold.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles: that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by all druggists.

### The officers of the Pocomoke Agricultural Fair Association are making great improvements at the fairgrounds, and everything is now being arranged for the coming meeting, which promises to be the greatest ever held on the Eastern Shore.

### Dysentery Got W'out The Aid of a Doctor.

"I am just up from a hard spell of the flux" (dysentery) says a Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by all dealers.

### A splendid equipped switch tower has been completed at Washington Junction, on the Baltimore and Ohio Railroad, in Frederick county. It has 36 levers and controls trains on the Metropolitan branch on the main stem.

### Many persons in this community are suffering from kidney complaint who could avoid fatal results by using Foley's Kidney Cure. Dr. Ewing's Pharmacy.

There is a rumor that the Baltimore and Ohio Railroad will erect a large and handsome terminal depot at Brunswick. Passengers heretofore changing cars at Harper's Ferry for Martinsburg and at Weverton for Hagerstown will change at Brunswick. The terminals of the Shenandoah Valley Division will be at Brunswick.

### Not Over-Wise.

There is an old allegorical picture of a girl scared at a grass hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for the these diseases. For sale by all druggists.

—S. J. Cooper & Son sent two men out on Monday to butcher an ox. After four pistol balls had entered the ox's head, (any one of which ought to have killed him) he became infuriated and made his escape and ran with great speed. He was pursued until his track was lost in the darkness of the night. Early next morning he was found in the mill branch below Weatherly's mill. He was dead and had apparently died while fast in the mire. He cost Messrs. Cooper about forty-five dollars and a total loss except the hide.

The M. E. Campmeeting has been fairly well attended this week and the service has been interesting. On Sunday Rev. A. W. Lightbourn of Wilmington Del. preached three times. He is an able preacher, a fine speaker and amply impressed his audience. Prof. W. W. Knowles, a prominent young lawyer of Wilmington, Del., addressed the children at their service on Sunday afternoon. He is a polished speaker of pleasing address and has been engaged in school work, both as a teacher and as a former superintendent of the public schools of Sussex county. He knows how to entertain as well as to instruct the young people. His address was well received. Since Sunday several preachers have filled the pulpit and held the standard high.

## A Good Business Proposition

is something that everybody who looks out for their own interest will take time to consider. We have

## Several Good Business Propositions

to make you, and .

## Here's the Point

We do business on business principles. When we sell you a pair of shoes they are as good as can be manufactured for the money. People spend most of their time in their shoes, and this fact makes the quality of footwear a question of prime importance. Our proposition

to you is to sell you good honest shoes at a price as low as is consistent with good values. We make this proposition to all prospective shoe buyers, fully believing that it is to your interest to do business with us. We have many advantages to offer you as a reason why you should do your shoe buying of us, the first of which is, we are exclusive Shoe dealers and also the largest buyers of Shoes on the Peninsula. We can offer you the largest and most complete stock to select from. We do not have to give you one size when your foot needs another. Our large stock enables us to carry all sizes and widths in stock. We take pains to see that every foot is properly fitted and also to select the proper kind of Shoe to meet the requirement for which it is intended. We have the exclusive sale in this city of all the best known and most popular makes of Shoes.

A person is often judged by the company they keep, so is a merchant by the merchandise he handles, and while we stand behind every pair of fair priced Shoes we sell, whether made under some pet name or not. To those who want special lines we can offer such well known ones as the following:

**FOR MEN:** The Walk-Over, W. L. Douglas, Crossett's Long Life.

**FOR BOYS AND GIRLS:** The Rice & Hutchins, Burley Stevens & Co., Excelsior.

**FOR LADIES:** Queen Quality, Zeigler Bros., Cinderella, Allinut Moody, Drew, Selby & Co.

All of these are good ones in their class and have reputations established on merit, but the burden of our story is simply Shoes, and not the maker—trust us for that and we will always give you full value for your money or cheerfully refund you the same. Think over our proposition, come and see us and let us more fully explain and show you that we mean business and we feel sure that you will find that our interests are mutual. Yours for Shoes,

## HAD A HIGH TIME.

Notes From The Big Fight at Republican Headquarters Fought Off Last Monday As Seen From A Wicomico Standpoint.

Joe Gans, colored, was not present at the Mudd-Benton contest, owing to engagements elsewhere, but it is understood that he placed his money on Mudd.

Sydney Emanuel Mudd and a few of his associates showed themselves to be first class acrobats, when some one in the crowd placed his hand on his pocket and drew "something" therefrom. They made beautiful flying leaps in spite of the spunk they had previously shown. The window was open and no damage was done, save a little scare.

The Republican party made several Democratic votes at their fight for which it will please thank S. E. Mudd and the rest of the crowd. Fight on valiant soldiers!

Some one said that "Mr. Boose" played an important part in the big mill pulled off by the Republican party.

According to a few Republican leaders there were present at the fight, "blacklegs, scoundrels, thugs, wife beaters" and many others of similar vocations. Quite a distinguished gathering!

Some one remarked that the participants in the fight lost their tempers. Far from it. Never was there a greater display of temper shown anywhere. It was simply awe inspiring.

After the bout was over, Referee Goldborough cleared the arena and went home to fan himself and think over what the result might be.

"Hinky Dink."

## Talbot County Fair Next Week.

The eighth annual fair of the Talbot County Fair Association is to be held Tuesday, Wednesday and Thursday, August 18, 19 and 20. At one time it was thought that these fairs were a thing of the past, and a move was on foot to sell the grounds, but after due consideration it was decided to continue them, and a new board of directors and officers were elected, consisting of Hon. Isaac A. Barber, Frank E. Towers, Wilfred Bateman, Michael B. Nichols, Lewis L. Jones, Samuel A. Harper, Frank E. Towers, Hon. J. Frank Turner, Henry A. Nichols, John A. Barwick, M. T. G. Eagle and Dr. Thomas J. Smithers. These directors met and elected Hon. I. A. Barber president, and M. B. Nichols secretary and treasurer.

The fair association seems to have taken a new lease upon life. They commenced work by putting the track in order, and arranging a program for the Fourth of July, which met with a far greater success than any of the directors anticipated.

## Close Of Fenwick Island Camp.

Fenwick Island Camp of the Methodist Protestant Church closed Monday. No services were held during the day, the tenters spending this last day in taking a farewell dip in the surf and taking leave of their friends. Many of the tenters departed Monday evening but several families on the beach intend remaining a few weeks longer. They come from a distance, as from Philadelphia and Norfolk.

Several of the preachers of the Maryland Annual Conference of the Methodist Protestant Church have indicated their willingness to subscribe to the shares for a new hotel on the beach. The present in the camp circle, is inadequate. Rev. G. W. Haddaway, pastor of the Star Church, Baltimore, is interested in the project. Others interested are Rev. D. W. Anstine, of Marion Station, Md., and Rev. J. W. Kirk, of All Saints Memorial Church, Baltimore, both of whom tented here with their families. Mr. E. C. Duke, of Millville, Del., vice-president of the national bank at Seelyville, Del., has taken several shares.

## WICOMICO SCHOOL BOARD HAS A BUSY DAY.

Prof. J. Walter Huffington Appointed To Succeed Mr. Holloway As Principal Of Salisbury High School. Profs. Ward And Goslee Promoted. Appointments To State Scholarships Made. Some Trustees Named. Manual Instructor Oswald Resigns. Other School Matters.

PROF. J. WALTER HUFFINGTON.  
New Principal of the Salisbury High School.

Prof. J. Walter Huffington, vice principal of the Salisbury High School, was appointed by the Wicomico School Board, last Tuesday, to succeed Prof. Holloway as principal of our City Schools. Mr. Virgil Ward, a graduate of Washington College, who has had several successful years of experience in Wicomico teaching and is regarded as a thorough and efficient instructor succeeds Mr. Huffington in the line of advancement, while the position made vacant by his promotion was filled by the Board in the appointment of Mr. F. Grant Goslee, another prominent teacher of this county.

The new principal, in his two years experience here, has made many friends and established a most commendable reputation in his school work to which he has devoted his energies with real care and strict fidelity.

Mr. Huffington is twenty-six years of age and is the son of Mr. John Huffington of Allen. He graduated at St. John's College in 1898, with the degree of A. B. and ranking in high honor. He has been engaged in public school work ever since his graduation. For three years he was principal of the Quantico Grammar School in this county and for the past two years has been instructor in German, Grammar and Clero in the Salisbury City Schools where his ability as a successful educator is being recognized.

The other applicants before the Board for principal were: Messrs. R. E. Carmin, Geo. B. Pfeiffer, Richard H. Gill and W. J. Quinn.

The Board passed the following resolution in reference to Prof. Holloway: Resolved, That in accepting the resignation of the principal of our High School, Prof. W. J. Holloway, who has been tendered a professorship in the State Normal School, we do so with sincere regret, fully realizing that we are losing the services of a most capable, industrious, painstaking and faithful teacher, and the cause of education in Wicomico a most loyal friend and supporter. For the past ten years Mr. Holloway has served the interest of the Salisbury schools faithfully and well. He is a man of high ideals and a strong determination to realize them and we most earnestly wish for and expect to hear of his continued success in the school room.

Mr. Goslee is considered to be one of the most efficient and progressive teachers in the county. His pedagogical career covers several years. During this time he has taught primary and grammar schools with marked success. He has taken several correspondence courses of a normal character and is now at Harvard University where he is taking a special course in Languages and Mathematics. His addition to the faculty of the Salisbury City Schools will be a very valuable one.

The Board purchased of Prof. Wm. J. Holloway his personal telephone system, which he had installed for the use of the school. It was considered a great convenience, and a desirable no question.

## Other Proceedings of the Commissioners.

Prof. Chas. L. Oswald presented his resignation as Manual Training Instructor of the Salisbury High School, which was accepted and the Secretary was requested to find a man to fill the place.

The following appointments to State Scholarships were made:

St. Mary's Female Seminary, Miss Little Bounds, daughter of Mr. George A. Bounds of Quantico; Charlotte Hall, Mr. Gordon F. Smith, son of Rev. S. J. Smith of Salisbury; Maryland Institute, Miss Ruby Bennett, daughter of Cap-

## AMID HISTORIC SCENES

Around Cambridge. Written By Mr. F. Grant Goslee. Now A Professor In Salisbury High School. Early Patriotic Days Of The Revolution Recalled.

On April 18, 1775, Gen. Gage having been informed that the colonists had a quantity of powder stored at Concord, sent Major Pitcairn to take it and pick up John Hancock and Samuel Adams who were known to be in Lexington on the way. The British troops set out from Boston just before midnight. On Saturday morning, August 8th., 1903 while nearly all Cambridge was sleeping, we started to the same places but peacefully inclined and alone. Concord is twenty miles from Boston but reached by the trolley line. Arriving at Lexington while the dew was still sparkling on the grass we stopped to view the historic spots. Lexington Green first attracts our attention. It is near the center of the town, in the shape of a triangle, gently depressed in the center and gradually rising toward the edges and covered with green grass. We find a monument marking the line of the Minute Men commanded by Capt. Parker who, when ordered to disperse by the British Commander, said to his men "Don't fire unless you are fired upon but if they mean to have a war let it begin here." Near by is a monument under which the American soldiers killed that day are buried. Down the street a short distance is the house where Adams and Hancock were stopping. No doubt you have wondered why Hancock the president of the Congress should have been so far from Concord where a session was being held. History is silent on that point. Well, Dorothy Quincy whom he afterward married was living there at the time. There are many other points of interest but we will not mention more but move on to Concord. Arriving there the first point of notice was the "Old Wright Tavern" the headquarters of the British officers and where Major Pitcairn made his boast that he would "visit the Yankee blood before night." Well, he did and the way it boiled, England has never forgotten. Our next point is the North Bridge where the fight took place. You approach it from the East and about ten steps before you reach it you come to the monument marking where the British soldiers stood, and where the first British blood was shed. Just by the roadside they were shot while they fell, a stone marking the spot. On the opposite side of the bridge and about ten steps from the other side is the monument marking the spot where the Americans stood. On the top of the monument is a minute man, grasping his musket in his right hand and a plow in his left.

"By the rude bridge that spans the flood,  
Their flag to April's breeze unfurled,  
Here once the embattled farmers stood,  
And fired the shot heard round the world."

Returning to the town we stop to view the "Old Manse" for a time the residence of Hawthorne and where he wrote "Mosses from an Old Manse." On opposite side of the road is the Jones house which has a bullet hole in it, a reminder of the battle. Getting back to our starting point we look up some of the interesting sites of the town, a few of which I will mention. The home of the Rev. Amos A. Phelps, the birthplace of U. S. Senator Hoar; the home of Frank B. Sanborn, the Author; but more interesting than either is the house which at one time was the home of the Alcotts and the last residence of Thoreau. Outside the town you come first to the last residence of Ralph Waldo Emerson. A little farther on is the last home of the Alcotts, where Louisa M. Alcott wrote "Little Women." In the yard is the building in which the sessions of the famous Concord School of Philosophy were held. You ought to visit this building. Weather boarded vertically with joints between, and the interior with no plaster or ceiling. Not far from this is the "Wayside" the last residence of Hawthorne and where he died. The house is situated in a semi-circle apparently made by nature on purpose in the side of a hill which rises up at perpendicularly behind it, covered by a dense growth of spruce and other evergreens giving it a somber appearance. These grounds as well as the "Old Manse" and the "Orchard House" the home of the Alcotts, bear notices warning trespassers. The two first mentioned, by the kindness of the occupants I was given the liberty of the house and grounds, the last one not being occupied. I'll not tell you what I saw I took my peep into the "School of Philosophy." Retracing our steps a short way we start for Sleepy Hollow Cemetery, a here are the graves of Emerson, the Alcotts, Thoreau, and Hawthorne, this grave marked by a stone bearing the single word "Hawthorne" and as though in entire sympathy with his nature seems to be trying to sink from sight, not being more than one foot high. In another cemetery adjoining the town is the grave of Major John Battick who commanded the Americans at Concord Bridge and who gave the first American order to fire on the troops of his king, standing as this tomb is more than fifteen feet from the upward extension of the rear of two story house, yet you are looking down on their roofs so steep is this hill. Best was taken the time of the retreat of the British soldiers from Concord as far as Meriam's corner, where the Americans had gathered behind a hill and stone fences to attack them on their march toward Hutton, and where seven British were killed. At 3:30 p. m., taking a last look at the town we start to return feeling that when we shall have peeped into the scenes of this world and seen the scenes of the next, we will be able to say that we have seen it all.

Land of the free and the home of the brave.

## He Was Not Satisfied And Kept At It.

A man who answered advertisements in cheap "story papers" has had some interesting experiences, says an exchange. He learned that by sending \$1 to a Yankee he could get a cure for drunkenness. Sure enough he did. It was "take the pledge and keep it." Later on, he sent fifty two-cent stamps to find out how to raise turnips successfully. He found out—"Just take hold of the tops and pull." Being young, he wished to marry, and sent thirty-four one-cent stamps to a Chicago firm for information as to how to make an impression. When the answer came it read, "Sit down on a pan of dough." It was a little rough, but he was a patient man, and thought he would yet succeed. Next advertisement he answered read, "How to double your money in six months." He was told to convert his money into bills, fold them, and he would see his money doubled. Next, he sent twelve useful household articles, and he got a package of needles. His brother wrote to find out how to write a letter without pen or ink. He was told to use a lead pencil. He paid \$1 to learn how to live without work, and was told on a postal card to "Fish for suckers." "We do."

Hammond, of Berlin, Md., and Mr. Edwin DeHaven Wood, of German town, Pa., was celebrated Wednesday night, August 6th, in St. Alban's Protestant Episcopal Church, Roxborough, Pa. The ceremony was performed by the Rev. Charles Lyons, rector of the church, and the bride was given away by her brother in law, Dr. E. R. Steele, of Dover, Del. The bridegroom was attended by Mr. George Heyser, and the ushers were Mr. Warren Prentiss, Mr. Frank Smith, Mr. Allee Snyder, Mr. Walter Dyer, Mr. Joseph Smith and Mr. Edwin Van Zandt. A reception was held at the rectory after the ceremony, which was attended by a large number of guests. Mr. and Mrs. Wood started on a wedding trip to Niagara Falls, and will be at home on Wednesdays after September 15 at 91 West Sharpnack Street, Germantown.

In order to escape the attentions of their friends, who promised them a merry send-off, the bride and groom had an automobile waiting outside the church to carry them out of reach. When they left the church they found the gates locked against them, but amid a shower of rice and old shoes Mr. Wood lifted his bride over the fence. Climbing over after her, he entered the auto and the two sped off. The disappointment of the jokers. The duo brought many labels, with the inscription: "Bezie and Eddie. We have just been married. Treat us as such."

## Cured By Prayer.

Laurel, Aug. 1.—People residing in Little Creek hundred, Sussex county, are expressing wonderment over the miraculous cure of Miss Sarah Warrington, the comely daughter of the late William A. Warrington, one of the most prosperous farmers in western Sussex. For five years Miss Warrington has been bedridden and although medical skill was repeatedly tried there seemed to be no earthly hope for her. A few weeks ago, Rev. Geo. B. Macready, wrote a letter in which he told her to embrace Christianity in a conscientious, earnest manner, assuring her in return a speedy restoration to health. Rev. J. M. Yingling, who succeeded Dr. Macready on this circuit, instituted a prayer service on last Sunday, and had been praying but a few moments when the young woman announced her intention of getting out of bed and cooking the dinner. She arose without assistance and has since been as well and lively as at any period of her life.

There are no Christian Scientists in this neighborhood and Rev. Yingling states that while he does not believe in the doctrines as set down by Mother Eddy, he is a firm adherent to the power of prayer and that it is merely the doubting manner in which most people pray that causes them to be unanswered. Numerous applications are pouring in to Mr. Yingling from sufferers who think that he is one of the divine healers, but beyond a few words of spiritual advice they are receiving no attention.

## Letter To Birchhead &amp; Shockley.

Dear Sirs: It's an old saying, the best advertisement is a pleased customer.

It happens to us continually in this way; A man buys Devoe for his house—he has painted it once in three years for a dog's age, and thinks he knows what he wants—buys 30 gallons, and has 10 left.

He sees right off that 30 Devoe is as much as 50 of anything else. He likes that; it comes quick; it is a surprise; and he tells of it. The best advertisement is a pleased customer.

Three years roll round. There isn't a sign that his house needs paint, he doesn't paint it. Next year he don't paint it. This comes slow; it is a surprise; but he has got used to it. Still the best advertisement is a pleased customer.

Yours truly,

F. W. DRYER & Co.

## ORDER PUBLICATION.

James Elliott, et al., Plaintiffs, vs. Zenobia Howard, et al., Defendants. In the Circuit Court of Wicomico County, No. 1054 Chancery.

The object of this suit is to procure a decree for the sale of certain real estate in Wicomico County, in the State of Maryland, of which John W. Brown, late of said County deceased, died seized and possessed, for the purpose of partition among the parties entitled thereto.

The Bill states that the said John W. Brown was in his lifetime, and at the time of his death seized and possessed of certain real estate which is particularly described in said bill, that being so seized, he departed this life intestate about the year 1881, leaving surviving him a widow, who has since died, and certain heirs at law who, and the descendants of whom, are living at the present time, to wit:

1. The heirs of Sallie Horman, deceased, who was a daughter of the said John W. Brown, as follows: Lottie Phillips, who is married to William S. Phillips, Maggie Cox, who is married to George Cox, Bertie Lloyd, who is married to William Lloyd, George Evans, who is married to Hampton Evans, Katie V. Bailey, who is married to Charles L. Bailey, and Zenobia Howard, who is married to Frederick W. Howard, all of whom are daughters of the said Sallie Horman, adults residing in said Wicomico County, also Clara Bedworth, who is married to John Bedworth, and is a daughter of the said Sallie Horman, an adult, residing in Worcester County, in said State, also Rodney A. Horman, an infant son of the said Sallie Horman residing in said Wicomico County.

2. The heirs of Margaret E. Elliott, a deceased daughter of said John W. Brown, as follows: James Elliott, a son who is of full age, unmarried and residing in said Wicomico County, Isaac Elliott, a son who is married to Augusta Elliott, both of full age and residing in Talbot County, in said State, and Glen Howard, an infant grandson of the said Margaret E. Elliott, residing in said Wicomico County.

3. The heirs of Melissa Bradley, deceased, who was a daughter of the said John W. Brown, and left surviving her, her husband, George P. Bradley, who is of full age, residing in said Wicomico County, as follows: John Bradley, a son who is of full age, unmarried and residing in said Wicomico County, and Myrtle Bradley, a son and daughter respectively who are infants, all residing in said Wicomico County, Eula Bradley, an infant daughter, who is a resident of this State, residing in the State of Delaware, Lizzie Corran, a daughter who is married to William Corran, both of full age, non-residents of this State, residing in the State of Delaware, Euel Maggie Jackson, an infant grandson of the said Melissa Bradley, who was a daughter of the said Melissa Bradley, and was married to Lewis Jackson who still survives her, is of full age, and with Euel Maggie Jackson is a non-resident, residing in the State of Delaware.

4. Clara Jackson, a daughter of the said John W. Brown, who is married to John Jackson, both of full age and residing in said Wicomico County.

5. Albert Brown, a son of the said John W. Brown, who is married to Sarah Brown, both of full age, non-residents of this State, residing in the State of Virginia.

6. George Brown, a son of the said John W. Brown, who is married to Annie Brown, both of full age, non-residents of this State, residing in the State of Virginia.

7. Perry Brown, a son of the said John W. Brown, who is married to Mamie Taylor Brown, both of full age, non-residents of this State, residing in the State of Virginia.

The Bill states further that the said real estate is not susceptible of partition among the parties entitled thereto with out material loss and injury to them, and in order to make partition thereof it will be necessary that the said real estate be sold and the proceeds thereof distributed among the parties according to their several rights and interests, and prays for a decree for a sale of said real estate for that purpose.

It is thereupon, this 14th day of July, in the year 1908, ordered by the Circuit Court of Wicomico in Equity, that the complainants, by causing a copy of this order to be printed in some newspaper published in said Wicomico County, once in each of four successive weeks, before the 9th day of August, in the year 1908, give notice to the said non-resident defendants of the object and substance of this bill, warning them to be and appear in this Court in person or by solicitor on or before the 25th day of August next, to show cause if any they have why a decree ought not to be passed as prayed.

Filed July 14, 1908.

## THE DEMOCRATIC NOMINEES.

You can hear on all sides words of praise for the ticket the Democratic party has placed in the field this year and if you will carefully examine the personnel of the ticket you will not be surprised.

Men have been selected who are well qualified to fill the respective positions to which they aspire. Marion V. Brewington the nominee for State Senator, has already served in two sessions of that body being elected Senator in 1890. His record will bear close examination and especially in the last session he proved his ability as a legislator. He is well known in business and social circles in Salisbury.

The legislative ticket is as strong as one as has ever been nominated. L. Atwood Bennett is one of our prominent young lawyers. He is a graduate of Western Maryland College and of University of Maryland Law School. After graduating at the University he came to our city to engage in the practice of his profession, and in a short time has built up a large and lucrative practice. He is a thorough scholar, sound, conservative, thinker and an able speaker. He is well known to the voters of the county as he has been a hard worker in the party for several years.

Mr. G. Ernest Hearn another nominee hails from the eastern section of the county, where he is engaged in farming and lumber business. He is one of the most popular men in his district. The best recommendation a man can have is that those who know him best respect and honor him most.

The other nominee, Mr. H. James Messick comes from the western section of our county. Mr. Messick is largely interested in oyster planting and also conducts a general mercantile business. He is one of our best known business men and his administration of the county affairs when in the Board of Commissioners was such as to inspire confidence in him as a public officer.

The nominee for clerk of Court, Mr. E. A. Toadvine, is too well known to need any comment. His experience as deputy in the office to which he now aspires has given him a thorough knowledge of the office.

The nominee for county treasurer, Mr. Jesse D. Price, is one of the leading business men of our city—Besides other enterprises he is head of the Salisbury Lime & Coal Company, and of the Crystal Ice Company. Mr. Price's pleasant, affable manner and sterling qualities have made a host of friends throughout the county. He has never held any office but has been a hard worker in the party for years.

John W. Dashiell, nominee for Register of Wills, is one of Trappe District's representative men, where he is engaged in general trucking. He served as sheriff of the county for years '98, '99.

Mr. Willie Gillis, the nominee for Sheriff, is one of the young Democrats of Quantico District. He is considered a hustler both in politics and business, and has made a successful career in the business world. He has served as Collector of taxes, for several terms, and has a record which has never been excelled and rarely equalled as a public official. Mr. Gillis was a candidate for the office of Sheriff two years ago, but could not be served. He is looked upon as a vote getter, and will no doubt help the ticket not only in his neighborhood but all over the county.

The renomination of our present State Attorney, Joseph L. Bailey will meet with general approbation. His administration of this office for the past four years has been such as to merit a continuation in an office which requires ability and fearlessness in presenting all offenders of the law.

Mr. Levin J. Dashiell, nominee for Judge of the Orphans' Court, is a Democrat of the old school, and a man of strength in his section of the county. Several years ago he served in the County Commissioners' office with credit to himself and party. He will add strength to the ticket in his neighborhood.

Mr. Charles H. Wood, of Delmar District, another nominee for Judge of the Orphans' Court, is a well known resident of Delmar district. He is a man

of sound judgment and will fill his position on the bench with credit to himself and the county.

Mr. L. Joseph Hearn, of Nutter's District is the other nominee for Judge of the Orphans' Court. He has never held public office. He has always been a consistent Democrat, and will hold the Democratic vote in old Nutter's.

Mr. Peter S. Shockley, the candidate for Surveyor, has filled the position for several years and is a thoroughly competent officer. He has always been a popular nominee on the ticket.

## MARYLAND'S DEMOCRATIC UNITED STATES SENATOR.

Senator Gorman returned from Europe last week, and, if the Senator has any presidential aspirations, he must have been much gratified at the situation as he found it in this country. When interviewed by the host of newspaper men who awaited his coming to Washington, the Senator was almost as noncommittal as usual. He appeared to be in excellent health, and the rudely complexion gained at sea gave him a particularly hale and hearty appearance. With his usual affability the Senator received the representatives of the press, but managed to dodge all leading questions with the adroitness for which he is famous. He declared that it was too early to talk of candidates but added that the fate of the Democratic party was too important a matter to permit of personal considerations.

The next convention must select the man capable of leading the party to victory and adopt a platform with but a single purpose, success. He defined the issues as tariff reform, economy in public administration and honesty in public office, although he added that it was impossible to foretell what another session of Congress would bring forth. Senator Gorman was told that Judge Parker had made a trip south and had proved a disappointment to the Georgians, at least, in that he had talked law to them rather than politics, but the Senator only smiled and said it was too early to discuss men, the right man would appear at the proper time.

## THE BIRDS.

Like the air around us, the Bible is full of birds. We hear the rush of their wings upon almost every page. In the first chapter of Genesis they fly forth above the earth in obedience to God's command, the same voice that said, "Let there be light!" saying, "Let fowl fly in the face of the firmament of heaven!" Starting thus in Genesis, they hop and soar and circle all the way through to Revelation. Birds everywhere in the Bible!

In studying this subject I was surprised at the wealth of allusion to birds in the Scriptures. When David wished for an illustration of God's mighty protection and tender care of His children, he found it in the brooding of an eagle over her young, saying, "He shall cover thee with His feathers, and under His wings shalt thou trust." When he wishes that he might get rid of his troubles and have peace of heart, he exclaims, "O that I had the wings of a dove, that I might fly away and be at rest!" Speaking of the omnipresence of God, he employs one of the sublimest figures of biblical rhetoric, saying, "If I take the wings of the morning, and dwell in the uttermost parts of the sea; even there shall Thy hand lead me, and Thy right hand shall hold me." "The wings of the morning!" Wings of light! Wings of dawn flaming into sunrise, silver merged into crimson and emerald and purple and gold! Wings that wheel swiftly over the mountains and flash across the oceans.

So when the phrase-maker of the Book of Proverbs would illustrate the vanity of earthly possessions, he says, "Riches certainly make themselves wings; they fly away as an eagle toward heaven." You and I have seen them flying, stocks and bonds, houses and lands, notes and bank-bills, gold and silver, flying, flying, flying! Also when Christ would tell of His solitude for the nation that had rejected Him, standing within full view of the Cross of Calvary, He cried out, every word a tear, "O Jerusalem, Jerusalem, thou that killest the prophets, and stonest them that are sent unto thee, how often would I have gathered thy children together, even as a hen gathereth her chickens under her wings and ye would not!" A lowly metaphor, but lifted by Him into beauty, a poultry yard becoming a paradise, and a barn door the gate of heaven. I have

seen young chicks wander away from the old mother hen early morn in the full blaze of day, but at nightfall they were glad enough to hide under her wings. At the nightfall of judgment for Jerusalem, forty years after this utterance from the lips of Christ, there were no wings of protection for that people. There was the air darkened with the wings of the Roman eagles, wings of famine, wings of flame, wings of sword; and the Hebrew Commonwealth ceased to be. No wonder that Jesus wept when He spoke of His desire to gather the people under His omnipotence who would not seek that refuge!

I am also impressed by the anatomical structure of the birds. Upon the wings of eagle and wren and robin and sparrow and albatross God has written His autograph, the same hand that pencils that mighty name in stars along the broad page of the night tracing it through the feathers of every wing that beats the air. Let those who say that there is no God, not only read the astronomical proofs of God's existence in the skies, but also read them in the physical make up of all aerial creatures. The canary that sings in its cage, the parrot that talks from its perch, the swallow that builds its nest in the chimney, and the saucy blackbird that follows the farmers furrow in search of food are all so many living arguments for the being of God.

In His mountain sermon Christ says God feeds the birds. Did you ever stop to think what great quantities of food God has to supply for the fowls of the air? Food for the eagle. Food for the raven. Food for the sparrow. Food for the almost endless variety of winged life in the atmosphere around the world. Yet none of them ever go hungry. God stocks the market where they buy provisions without money or without price. God spread their table at which they eat. Table of bare rock under a canopy of cloud. Table of tree-branch under a canopy of leaves. Table of grass and brown earth under a canopy of orchards. God gives them their meat and grain in due season.

I had often wondered where all the birds get their food; but observing them, and studying the matter, I soon learned the sources of their supply. Insects in the air; grubs in the bark of trees; seeds and berries on the bushes; worms in the soil—these the birds find every day. A piece of sod upturned by the spade or the plow is a veritable granary and slaughter house opened to the birds. Out of a shovelful of black earth thrown into their pen, chickens will scratch a banquet, afterwards wiping their bills upon a napkin of dry dust. God feeds all the fowls.

In that same sermon Christ assures us that the Father of the birds will surely care for His greater children. "Are ye not much better than they?" Says He, "Behold the fowls of the air!" That means, Look up. Get your eyes off from the ground. Look away from earth and see the broad expanse of sunshine in which fly the promises of God. The air is full of heavenly wings. Behold them! Are not five sparrows sold for two farthings, and not one of them is forgotten before God? But even the very hairs of your head are all numbered. Fear not, therefore; ye are worth more than many sparrows." All the birds of creation do not equal one human soul. God's children shall not want. In His treasury there is an abundance for them and for every other form of life. Bless God for the truth He has written on a bird's pinions and brought to us on a bird's bill!

## Salisbury Evens With Strong Milford Ball Players.

Grandstand, bleachers, roof, tree and wall gardens were filled with spectators Monday and Tuesday to witness the Salisbury-Milford base-ball contest. In the first game, Monday, Salisbury was shut out, 5 to 0. Tuesday the same thing happened to the visitors by the score of 7 to 0. Five innings had been played by each team, Salisbury finishing their last in a sprint of rain when umpire Collier called a halt until the shower should abate. This it did slightly and Milford took their fifth inning making a bona fide game. The scores in detail and summaries follow.

Among Wicomico Republicans.

On the invitation of the Hon. Wm. H. Jackson, about twenty or more Republicans from the different districts of Wicomico county met at the office of the Congressman in South Salisbury on Thursday and made the arrangements for the primaries, to be held to-day. It is said the ticket to be nominated next Tuesday was agreed upon. Among candidates prominently mentioned for the county ticket are: For the Senate, Wm. P. Jackson, and for delegates, Dr. Wm. G. Smith, Thomas H. Williams, William H. Knowles and Lemuel Duncan.

Capt. Levin A. Parsons, of the Republican State Board of Appeals, will, it is understood, be nominated for Register of Wills; Elmer H. Walton, Mr. Jackson's private secretary, for State's Attorney; James Wilson, of Delmar, and J. S. Goslee for County Commissioners, and the other one will be selected by the convention; Albert Wingate, of White Haven, is a likely candidate for Sheriff, and either Thos. H. Williams or Dr. Wm. G. Smith will probably be named for County Treasurer.

## Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected.

The unpleasantness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system

Saturday's Sensational  
Suit Selling.

Any time this week you can come into Lacy Thoroughgood's down-town store, select any suit in the entire stock, pay Lacy Thoroughgood or any of his clerks a ten-dollar note for it and go on your way rejoicing, knowing at the same time that you never in all your life bought so much value for a ten-dollar note in a Clothing store. Lacy Thoroughgood wants to impress you with these facts: that he wants to sell every suit he owns; that he don't intend to carry a summer suit over until next summer; that he don't care what they cost, they're paid for; that there are as good suits in this store as there are in any clothing store in Salisbury; that Lacy Thoroughgood has put nothing on the tables but the highest grades of suits, marked to sell at \$13.50, \$15.00, \$15.50, \$18.00 and \$20.00, that you can buy any of them for

## TEN DOLLARS THIS WEEK,

and if you are not satisfied that it is the biggest ten dollars' worth you ever bought, you can bring it back and get your ten dollars. At the same time Lacy Thoroughgood will sell any child's suit in the house at cost or under. This is a great Clothing sale, and a chance like this doesn't happen often. These suits at \$10.00 are a good deal better suits than you have any idea can be bought for \$10.00 anywhere else. They're better made suits than anybody else in Salisbury sells; they're better trimmed suits than \$10.00 ever bought before, and are better fitting suits than any \$10.00 suits ever shown before.

## Record of the Past

No Stronger Evidence Can Be Produced.

Look well to their record. What they have done in years gone by is the best guarantee of future results. Any one with a bad back, any reader suffering from any kidney ill, will find in the following evidence proof that relief and cure is near at hand.

Mr. G. M. Myers, the well-known shoemaker of Winchester avenue and 14th street, Ashland, Ky., says: "Doan's Kidney Pills are like true friends, the longer you know them the better they are appreciated. I can add nothing to the statement I first made in 1895 after I procured the remedy at the Ventura Drug Co. and took a course of the treatment, which cured me. I was absolutely free from all backache for nearly three years, then I noticed a slight ache, as the result of a cold, in my back. A box of Doan's Kidney Pills disposed of it. I have recommended this remedy to many, and have never heard of one who did not endorse the claims made for it."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Between the ages of fifteen and forty five, the time when womanhood begins and motherhood ends, it is estimated that the aggregate term of woman's suffering is ten years. Ten years out of thirty! One third of the best part of a woman's life sacrificed! Think of the enormous loss of time! But time is not all that is lost. Those years of suffering steal the bloom from the cheeks, the brightness from the eyes, the fairness from the form. They wrinkle the forehead in many a crease and wrinkle. What a boon then to woman, is Dr. Pierce's Favorite Prescription. It promotes perfect regularity, dries up debilitating drains, heals ulceration, cures female weakness, and establishes the delicate womanly organs in vigorous and permanent health. No other medicine can do for woman what is done by Dr. Pierce's Favorite Prescription.

Ask your Real Estate dealer or Building and Loan Association if this is not a fact. It must be Good Paint and put on by Good Mechanics. Pure White Lead is the best. I employ only the best mechanics and when I paint it it stays painted.

## A Good Business Proposition

is something that everybody who looks out for their own interest will take time to consider. We have

## Several Good Business Propositions

to make you, and

## Here's the Point

We do business on business principles. When we sell you a pair of shoes they are as good as can be manufactured for the money. People spend most of their time in their shoes, and this fact makes the quality of footwear a question of prime importance. Our proposition

to you is to sell you good honest shoes at a price as low as is consistent with good values. We make this proposition to all prospective shoe buyers, fully believing that it is to your interest to do business with us. We have many advantages to offer you as a reason why you should do your shoe buying of us, the first of which is, we are exclusive Shoe dealers and also the largest buyers of Shoes on the Peninsula. We can offer you the largest and most complete stock to select from. We do not have to give you one size when your foot needs another. Our large stock enables us to carry all sizes and widths in stock. We take pains to see that every foot is properly fitted and also to select the proper kind of Shoe to meet the requirement for which it is intended. We have the exclusive sale in this city of all the best known and most popular makes of Shoes.

A person is often judged by the company they keep, so is a merchant by the merchandise he handles, and while we stand behind every pair of fair priced Shoes we sell, whether made under some pet name or not. To those who want special lines we can offer such well known ones as the following:

FOR MEN: The Walk-Over, W. L. Douglas, Crossett's Long Life.

FOR BOYS AND GIRLS: The Rice & Hutchins; Burley Stevens & Co., Excelsior.

FOR LADIES: Queen Quality, Zeligler Bros., Cinderella, Allnutt Moody, Drew, Selby & Co.

All of these are good ones in their class and have reputations established on merit, but the burden of our story is simply Shoes, and not the maker—trust us for that and we will always give you full value for your money or cheerfully refund you the same. Think over our proposition, come and see us and let us more fully explain and show you that we mean business and we feel sure that you will find that our interests are mutual. Yours for Shoes,
