FROSTBURG STATE COLLEGE, FROSTBURG, MARYLAND

FEBRUARY 20, 1980

An accidental fire incapacitated a students room in Cumberland Hall; the room is closed until repairs can be made. photo by Dave Kahn.

Fire Damages Student's Room

After two months of no fire alarms, false or otherwise, the residents of Cumberland Hall were forced to evacuate their dorm last Thursday, after a small fire started on first floor, right wing.

At approximately 7:20 p.m., on Thursday February 14th, a fire began in Room 107 Cumberland Hall. According to James Lund, Director of Residence Life, the fire began when a basket containing dried flowers fell over on to a candle that was hanging in a macrame holder. The flowers immediately caught, and the candle then fell out of its holder on to a mattress.

One Cumberland resident pulled the fire alarm, and an RA

in the building called Campus Police to inform them that it was a real fire. Several nearby students grabbed a fire extinguisher and, along with water, managed to keep it from spreading any further.

Frostburg's Fire Department responded to the alarm with three engines, the rescue unit, and 25 men. The fire was out by the time the fire department arrived, but smoke had spread throughout the first floor of the building. The fireman removed the smoldering mattress from the room and set up several large fans to disperse the smoke. Residents were kept out of the building until the smoke was cleared.

Lund cited the cause of the

fire as negligence on the part of the occupant who was not in the room, but was in the vicinity when the fire began. Except for the mattress, damage was confined to the personal belongings of the occupant.

The mattress was one of the older cotton stuffed mattresses that the college still uses. The newer mattresses are fire-proof; neither will give off toxic fumes when burned.

The College carries no insurance for student personal possessions and thus all residents are responsible for insuring their own property if they so desire.

Room 107 in Cumberland Hall has been closed for the rest of the semester until it can be repainted.

— SGA NEWS —

At the February 14th meeting, Lauren Kramer announced the following appointments: To the Lane Center Policy Board, Jim Early & Dean Shaw; to Student Artist & Lecture Series: JoAnn Hastings.

Executive Director Bill Hutson reported that the Food Service Survey results will be compiled by the committee, and he urged all to fill out the questionnaire. He spoke to Dean Mani-

cure about the possibility of the 9-meal plan being more widely available, and of on-campus students not being required to purchase meal tickets. The nine meal plan is not widely available and will not be because it would drive costs up. There are not enough kitchen facilities in the dorms to provide all students with the necessary space to cook meals every day. Executive Director Pat Cuddy stated that the

Judicial Revision Committee is meeting and working on proposed changes in the Judicial Board. A Ride-board will hopefully be in the lobby of Frederick Hall by next weekend.

The following clubs were allocated money: Dramatis Personal \$1450.00, Rugby Club \$902.00, and WFNR \$498.00.

Karen Kraus stressed the importance of representatives keep-

NATIONAL NEWS

Walter Cronkite, the best known U.S. television newsman will step down as the CBS news anchorman sometime early in 1981, the television network announced. Mr. Cronkite, who has anchored the "CBS Evening News" since 1962, will be succeeded by fellow newscaster Dan Rather.

Arizona Governor Bruce Babbitt declared a state of emergency Friday, February 15, after days of torrential rainfall caused extensive flooding throughout the state. Phoenix was especially hard hit as the Salt River overflowed, washing out 8 of 10 bridges spanning the river and making almost all roadways in Phoenix virtually impassable. As a result of the two days of flash floods, two people lost their lives and 11,000 were forced to flee their homes.

Early one morning last week, the Coast Guard received a call from the Liberian tanker Lissetle saying that there were 8 Cubans aboard asking for political asylum in the United States. A Coast Guard cutter met the ship and escorted it to Key West, where they were met by FBI agents. It was the second such defection of Cubans to the

United States in less than a month.

On February 16th, Ugandan president Godfrey Binaisa announced that he has ordered all members of his armed forces to "seek out and capture" Uganda's former dictator Idi Amin. It is reported that Amin has been living in Libya after fleeing the country when his government was overthrown over a year ago.

After the establishment of an international commission set up to investigate the Shah, Iranian Foreign Minister Sa'ceghi Ghotbzadeh said that he did not feel there was any reason to believe the hostages would be released within the next two weeks. He views the new situation only as a basic agreement that established an international council that will hear the crimes of the deposed Shah. This is only the "first step" in resolving the crisis, and the council's appointment does not necessarily mean freedom for the hostages. Ghotbzadeh said that before any hostages are released, it must first meet with the approval of the Iranian government, Ayatollah Khomeini, and the militants who are holding the Americans captive.

Crash Claims Alumnus

A 1976 graduate of Frostburg State College, Barbara Jean Hopkins, was killed on Tuesday February 12 when two Chessie System freight trains collided head on at Orleans Road, West Virginia. Miss Hopkins of Cumberland, an engineer with the Chessie System, was running the train at the time of the crash.

The collision occurred at 5:45 a.m. and overturned about 50 railroad cars including one carrying mail. Miss Hopkins train of 125 cars had pulled over and stopped on an adjacent track to allow an Amtrack passenger train to pass when it was struck head on by a 42 car westbound train traveling at about 24 miles per hour.

Miss Hopkins graduated in

1976 with a degree in History. When she could not find a teaching job in the area, she applied to the Chessie System. For the past two years she had been qualified to serve as an engineer.

Miss Hopkins, one of the first women engineers in the Chessie System, was the first woman to be killed while serving aboard a train.

Editorial

Yes, the cafeteria roof still leaks and the coed dorms are not as secure as they should be. These are certainly matters of crucial importance to us but even more serious is the constant apathy of the students on this campus.

A case in point: the Food Service Committee recently conducted a survey of students who eat in Chesapeake Hall. A two-thirds response rate was required for the survey to be considered valid and possibly change the current menus. However, of the 1748 survey's put in mailboxes only 279 or 16% were returned. Most of the surveys weren't even read; they landed in the closest trash-can.

Complaints about the quality of the food, or lack thereof, are at an all time high. Surprisingly only a few of us felt strongly enough to offer our opinions. The committee gave us a good opportunity to voice our complaints in a constructive way, yet, we gave the chance very little hope of success. Most students replied that the survey wouldn't change anything; it appeared to be a self-fulfilling prophecy.

Other examples of apathy can be clearly seen. The major student organizations on this campus have always suffered from a lack of student participation. Of course we have always had our own breed of activists and reactionaries but their involvement tends to be short lived, only through the duration of their cause. The everyday operation of our student groups currently depends on the commitment of a small group of dedicated students.

A great deal of progress can be made in the area of student rights but only if we shake ourselves out of the apathetic state with which we have become so comfortable. We may have already destroyed our chance at substantially changing the conditions in the cafeteria. Can we afford to continue this pattern? Only we can decide.

Today On "Who Cares?"

Today on "Who Cares?" we examine...

TWC-FACED PEOPLE: Edward Mordake, a gifted musician and aristocrat, had a second face growing on the back of his head. The eyes on this extra face could move, and the mouth was reportedly able to laugh and cry. Mordake begged doctors to remove his second face, but they refused because of the danger involved in such an operation, and Mordake finally committed suicide at the age of 23. In 1917, officials discovered another two-faced person--Pasquel Pinon, a Mexican citizen, who sported a second face on his forehead. The eyes on his extra face could move and even see, and the mouth could move but not speak. Later, however, these extra features lost even these capabilities, and withered into a lifeless growth, thereby disabling Pinon from successfully pursuing a career in politics...

WASTED ELOQUENCE: The classroom is not the only place where eloquence is wasted--even a desperate last message-in-a-bottle can prove to have been a waste of time. In 1825, for example, one Major MacGregor

set adrift a note in a bottle; the letter bore these brave words: "Ship on fire. Elizabeth, Joanna, and myself commit our spirits into the hands of our Redeemer, Whose grace enables us to be quite composed in the awful prospect of entering eternity." The note was found 1½ years after the MacGregor family had been successfully rescued.

HORSES: You've heard of Trigger, Silver, and Spectacular Bid, but have you ever heard of Egypt? Egypt was the name of Ulysses S. Grant's saddle horse.

QUIZ SHOWS: Quiz show addicts often try to justify their "habit" by suggesting that the shows are educational, but how much air time is actually devoted to the "informative" question-answer procedure? And who cares enough to find out? Well, we did and we found that on February 4, 1980, a popular quiz show "Tic-Tac-Dough," spent only 11½ minutes of their allotted 30 minutes of air time quizzing contestants. During this time, only 14 questions were posed. Also, only 2 minutes were spent on the "Dragon" part of the contest. The remaining 16½ minutes were devoted to commercials, prolonged personal interviews with contestants, and lengthy prize-package

If,

by the unknown offer

...the mumblings and grumbings are true, the F.S.C. basketball players are capable of winning games, it's the coaching staff that can't win.

...a certain fraternity must have its pledges hold up a banner through an entire basketball game, that tells me that either the banner is very expensive or the fraternity is too cheap to buy tape.

...they take much more time to finish building them, the baseball dugouts will need to be renovated before they're finished.

...you ever wondered why Coach Peterson takes his recruits to eat in the cafeteria, it's how he tests their strength, if they live through a meal, they're strong enough to play football.

...the U.N. is doing all the work getting the hostages free from Iran, how is President Carter going to manage to take credit for doing it, so he can use it as a reelection tidbit?

IF'S cont. page 3

discriptions. So if quiz shows are educational, we wonder what they're trying to teach...

SPECIAL TV OFFERS: If you watch a lot of TV, you are surely familiar with the many products that can be purchased through this modern catalog system. One afternoon of viewing revealed that if you have \$70.80 to invest, within 4-6 weeks, you could be the proud owner of two sets of Safari Cards, one car Glo-Shield, one Body-Toner, and four prized records, which are Slim Whitman's Hits, Jackie Wilson's Solid Gold, Super Girls, and Dick Clark's Rock Hits. The mailing addresses can be obtained through the authors of "Who Cares?" for a small service **MOONLIGHTING**, 17th CENTURY STYLE: Most people know about Sir Issac Newton in his capacity as a scientist, but they are not aware that he held another job, too. In 1699, he was appointed to the British Treasury's office of Master of the Mint, where he made many improvements in the standards of accuracy.

WHO CARES SURVEY: This week, we sought to discover what the favorite insect of FSC students could be. The answer:

WHO CARES cont. page 3

Clarification...

It has been brought to our attention that the article in last week's issue "No Bathroom in Cumberland" led individuals to believe that the Department of General Services did not approve of the College constructing a bathroom in the basement of

that dorm.

The Department of General Services did not approve of the contract going out on bid to an outside contractor, but did approve of the College completing the construction itself. The College does not have sufficient manpower to complete the job.

State-To-Date is a weekly publication of the students of Frostburg State College. Opinions expressed herein are those of the author and do not necessarily reflect those of the College or subdivision thereof. The staff encourages input and response from the readers. Letters to the Editor must be signed (writer's name withheld upon request) and should not exceed 200 words. GREEK PROFILE

Zeta Phi Beta Sorority, Inc.

by Gwendolyn S. Powell

Zeta Phi Beta Sorority, Inc. was founded at Howard University on January 16, 1920 by Arizona Clever, Viola Tyler, Myrtle Tyler, Pearl Neal, and Fannie Pettie. Thus, Zeta Phi Beta became the sister organization to Phi Beta Sigma Fraternity, Inc. They were the first official Greek letter sister-brother organizations.

The objectives of finer womanhood, sisterly love, and scholarship have brought together women from all parts of the country - women who have similar tastes and aspirations, similar potentialities for highest attainments and similar desires for concerted actions which will bring results in removing or blocking movements intended to retard the growth and progress of this group of women, especially in the field of academic and literary attainments.

Zeta Phi Beta Sorority, Inc. was introduced to the Frostburg State College campus, under the direction of Zeta's Maryland State Director, LaRessa Smith, of Baltimore, in March of 1979 by five aspiring women: Wanda Lee Bell, Kevin Lillian Carter, Cassandra Natasha Green, Henrietta Galloway, and Gwendolyn S. Powell. The Women worked hard together for 7 long weeks, including finals week and the first week of their summer vacation, to reach their goal of membership into Zeta. They also had to travel to Baltimore on several weekends for further pledge instructions during this time. On May 12, 1979, these five charter line pledges crossed those burning sands into the sisterhood of

Zeta at a Maryland State meeting of Zeta representatives. Thus, the Lambda Iota Chapter of Zeta-Phi Beta Sorority, Inc. was formally initiated by Zeta's Atlantic Regional Director, Beryl Battle.

Since then the chapter has continued to grow in size and strength through their various activities. In an effort to learn more about their organization the group has traveled to California State College (Pa.), Morgan State University (Md.), their National Headquarters Office in Washington, D.C., and to Tarrytown (N.Y.) to attend the sorority's Atlantic Regional Conference. During the Fall 1979 semester, Lambda Iota Chapter conducted its first pledge line. This line also pledged for 7 weeks. On December 8, 1979 two more women, Desnee Butler and Reneelis Devberry were initiated into the sorority, making the chapter 7 strong. Although there are only seven members (6 on campus) in the chapter, they have proved time and time again that **QUALITY OVERRULES QUANTITY!**

The first president of Zeta Phi Beta was Arizona Clever (Stemmons). She has watched the organization spread to all sections of the United States and parts of Africa. (Zeta was the first Greek-letter college sorority organized in Africa.) There are now more than 400 undergraduate and graduate chapters of Zeta Phi Beta Sorority, Inc., divided into 9 regions, with honorary members of renown. Since Soror Arizona Clever (Stemmons), there have been 17 international presidents of Zeta

Phi Beta Sorority, Inc.

Lambda Iota Chapter has sponsored several campus fund-raising activities in addition to fulfilling their international, national, and community project objectives and various other special observance activities. Zeta works internationally with CARE in supplying teaching materials to schools in West Africa. Their National Project, "Stork's Nest", is carried out in collaboration with the March of Dimes, through an incentive program (mostly at clinics) to encourage women to seek prenatal care to ensure the birth of a healthy baby. Zeta also offers them a shop to go to, to purchase infant clothing and furniture at minimal prices. Lambda Iota Chapter's community projects consist of: visitation to the children's ward of Sacred Heart Hospital in LaVale; candy sales to raise funds for the National Kidney Foundation; and, they are presently assisting Delta Sigma Theta and Alpha Kappa sororities in a bi-monthly enrichment/activity program for young children from the Cumberland area.

The present chapter officers are: President, Cassandra Natasha Green; Vice President, Kevin Lillian Carter; Secretary, Gwendolyn S. Powell; and Treasurer, Henrietta Galloway.

Zeta Phi Beta Sorority, Inc. is the only sorority who bolsters **FINER WOMANHOOD**, and we hope you all will join us in our observance of Finer Womanhood Week, February 24-March 1, 1980, when we will honor the outstanding women of each sorority on Frostburg's campus.

CHARLEY'S AUNT

The third production of the theatre season at Frostburg State College will be Brandon Thomas' **CHARLEY'S AUNT**, the world-famous farce which has moved millions to tears of laughter. The play is directed by Mr. James M. Hadra. The designer and technical director is Mr. Edward J. Thompson. "Charley's Aunt" will be presented on Thursday, Friday, and Saturday, March 6, 7, and 8. Curtain time is 8:15 p.m. All performances will be held in Compton Auditorium. Ticket prices are \$3.00 for faculty, administration, and staff and \$.50 for FSC students. Reservations can be made at the Lane Center Ticket office.

The play presents Oxford students Jack Chesney, violently in love with Kitty Verduin, and Charles Wykeham, equally enamored of Amy Spettigue. The two young men invite the young ladies to their rooms for luncheon-in order to meet Charley's wealthy aunt from Brazil. But the millionaire aunt sends word that she will have to defer her visit for a few days. What is to be done? The problem is solved by forcing another Oxford undergraduate into a black satin skirt, a pair of mitts, and an old fashioned cap and wig. This old frump then is introduced as Charley's aunt. The comic confusion which results is delightful.

As a special attraction on opening night, the Lane College Center is offering a wine and cheese social at 7:00 p.m. Tickets may be purchased from the Director, Lane College Center, Frostburg State College 21532. The ticket prices, which include BOTH events on March 6, are \$6.00 for adults and \$3.50 for FSC students.

Draft Forum

Phi Sigma Alpha, the National Political Science Honor Society, will be sponsoring a discussion forum Wednesday, February 20, 1980 in the Lane Center Multi-use room, starting at 8 p.m. The central topic is "How does the draft affect you?" Other topics of discussion include Iran, Afghanistan, Moscow Olympics, and registering women for the draft. Student participation is invited and will be actively encouraged. Professors from different departments will be participating. Come and join a sure to be lively discussion of today's current issues that affect you!!

WHO CARES from p. 2

The praying mantis, with 11 out of 53 votes. Tied for second place were the ladybug and the butterfly with 10 votes each, and way behind, in third place with only two votes, was the good ol' housefly. All of the other people surveyed gave us a different answer; some of them were the tse-tse fly, the hornet, the red ant, the black ant, the lightning bug, the black widow spider, the mosquito, the South American Killer Bee, and the cockroach. One Biology major, true to her Genetics training (we can't disclose her initials, but her name is Chris Tutin), said that the fruit fly was her favorite insect.

TUNE-IN NEXT WEEK, when we ask "Who Cares?" about shoe sizes!

"Who Cares" did not appear in the last issue of State-to-Date because the author did not care to write it. Of course this notice is not necessary since apparently no one cares, and I, being the author do not care that no one cares since this is the spirit in which "Who Cares" is written.

IF'S from page 2

... you want to see a speed skating record set, watch when an unsuspecting person hits the ice on the sidewalk near the library.

... the mismanagement of the Olympics by Lake Placid looks familiar, you've probably seen the same thing in this state's low bid system.

... you've noticed, something is different about the cafeteria food. That's right, it's crunchy.

... Lake Placid can make several feet of snow, just to allow some athletes to romp and play, surely Frostburg State College can import a few feet to give maintenance something to do.

The Iffers Award - I - Wish - You'd - Won - The - Gold - Medal - Award goes to Jimmy Carter for being sorry Gardner and Babilonia had to drop out but, not being sorry that he is cancelling the summer Olympics for the U.S.

IT'S YOUR TIME FOR A GOOD TIME!

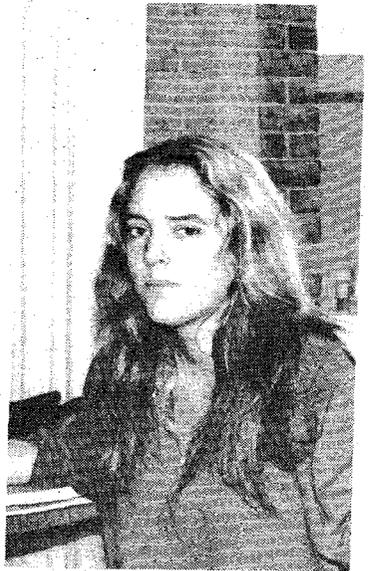

Laura Burns Jr.
I'm personally against war, in the first place, and I know that I wouldn't be any good in a battlefield. But I do feel that I enjoy certain rights being an American and we can't let people run over our rights. It would be awfully inconvenient in the end of my third year of school but if it is passed I would go.

Tim Britt Soph.
Yes. Because if they want equal rights they should have equal responsibility when it comes to preserving our national security.

Stephen M. Dudley Sr.
On certain conditions, women should be drafted along with men in so far as no combat duty should be considered.

Jeanette Carlson Sr.
No. I don't believe that the draft should even be started again. Besides, women in the military would be subjected to sexual harassment by the men and furthermore I believe that women are physically the weaker sex. And if women were drafted who would be here to welcome the boys home after all the fighting ended?

Hannah Mossman Soph.
I don't feel women should be drafted for combat. However, when it comes to defending our country, women should be included for support.

Candid Campus
If the draft were reinstated, do you feel women should be drafted along with men? Why?
Interviews and photos by Dave Kahn

Jeff Woods Soph.
No. I believe that it should be voluntary unless they broaden female duties in the armed services.

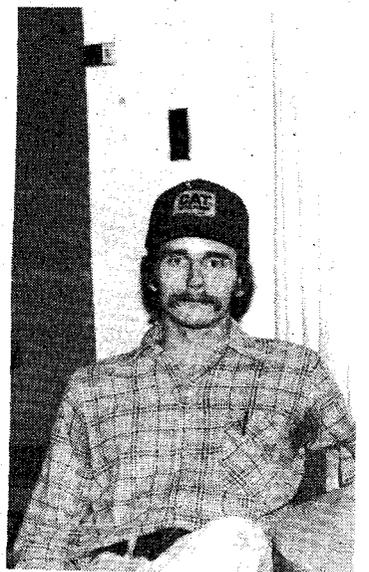

Kim Savage Jr.
No. My opinion is a very selfish one but I don't think the society is in the right position to demand women in draft. If it's an outright war maybe but right now I don't feel like changing my life again.

Susie Simons Jr.
No. I feel it degrades the female sex, not to say what it will do for the men? Besides if we lost the war they'd blame it on the women.

Dane Schroyer Sr.
No. I believe in equal rights; equal pay for equal work, and all that. But I feel as though women can make a greater wartime contribution at home rather than risking their lives overseas. The only way I would agree with women being drafted is if they were not sent to the front. Those horrors will always be left to men-kind like taking out the garbage.

Dick Schissler Jr.
No. First of all the draft is a pretty nasty thing to contend with anyway. I don't think even men should be drafted yet it is a necessity. If a girl wants to serve she should be allowed to-but not forced to.

Sports

Bobcat Basketball

Last Friday the Bobcats lost to Alderson-Broaddus 87-71. In the second meeting of the two teams this year, Frostburg started the game stalling, in an attempt to contain Alderson-Broaddus. Unfortunately, Frostburg couldn't score the free throws needed to keep up with Alderson-Broaddus. From the floor, both teams scored 60 points, and it was at the foul line that Frostburg fell behind. The Bobcats sent Alderson-Broaddus to the foul line 33 times, of which they made 27. The Bobcats completed 100% of their 11 free throws. Greg Seker and Dave Porter led the Bobcat scoring

and rebounding with 20 points and four rebounds apiece. The Bobcats next game is Friday night against Mary Washington. This will be the last game of this season.

Uncle Frosty

Uncle Frosty will answer any career related question from the college community. Not all questions can be printed due to space limitations and good taste. Uncle Frosty will send a personal response to readers whose letters are not answered publicly. Send your queries to Uncle Frosty, c/o Counseling Service.

Dear Uncle Frosty,
I signed up for a job interview through the Placement Office, but I overslept and missed the appointment. What should I do?
B.H.

Dear B.H.,
Wild Eill Grab, coordinator of the Placement Office, goes berserk over turkeys (people) like you. I cannot repeat the words he used to describe this existing problem. Missing a recruiting appointment not only eliminates you from the interview, but also prevents another FSC student from meeting with the recruiter (there is often a waiting list). In addition, recruiters are reluctant to return to campus if several applicants do not appear for the interview. They don't want to waste their time. Since you missed an appointment, you have forfeited your right to sign up for future interviews until a copy of a letter of apology to the employer/recruiter is presented to the Coordinator of Placement.

An Alternative Experience

by Robert Downey

Many folks have asked me why anyone would come to Frostburg State College to do graduate work. As a student about to receive a M.S. degree in wildlife biology, I can only say that the surrounding country provides excellent habitat for exploring what lives within.

Having chosen the Savage River State Forest as my study area, the last two years of my life have been spent venturing into this wilderness area, hoping to encounter and understand the winter lifestyle of the white-tailed deer.

Almost everyone has seen a whitetail at one time or another, so named for its most distinctive feature, its large tail or "flag". The underside of the tail is pure white and is usually exposed when fleeing.

The purpose of this article is not to give a life history of this most popular game animal in America, but rather to draw attention to an opportunity that is awaiting anyone willing to take a chance on an unusual and refreshing experience.

The white-tailed deer in this area, particularly during the winter cold and snow covered months, tend to congregate along the sides of hills that are covered with large groves of Rhododendron and Hemlock. It is amongst this cover that the animal finds food and shelter from the winds so familiar to those of us who have spent numerous winters in Frostburg. It is here that the whitetails will spend the winter.

The best chance to view these magnificent animals is to arrive early in the morning. A drive down Big Run Road, early enough and slow enough, should produce, to the more observant wildlifer, deer bedded down among the evergreens, just a few yards from the road.

For the more adventurous, a hike up Monroe Run or Middle Fork should produce more dramatic results. My experience has taught me to walk slowly, very quietly, and follow fresh trails, easily identified by their size and distinctive hoofprints. The quieter one is, the more chance of encountering and photographing close-up, a deer resting in a hollow depression in the snow commonly known as a deer bed.

At any rate, the spectacular adventure of a winter hike is in-

vigorating enough, with the added pleasure of possibly encountering not only the whitetail, but also various winter birds such as the Ruffed Grouse, the Pileated Woodpecker, the Red-Tailed Hawk, and the Wild Turkey.

As you're wandering through the woods, notice the fullness around you, the stillness, and then notice the impact that your very presence is having upon this system as you interact within it. Notice also the impact that one or two deer may be having upon the environment. Following their trails, see how much of the surrounding young plants have been browsed, how many Rhododendron leaves have been eaten, and comprehend just how great an impact large numbers of deer wintering in one area would eventually have upon their habitat.

Only one ecological term will be introduced in this article, and that is "carrying capacity". This refers to the maximum number of healthy animals that the range can support without having detrimental effects and perhaps permanent damage to the range. Such is the argument for reducing the number of deer in an area. And, it is best accomplished during the firearms season, held annually, during the fall. Not only is the herd sustained at a healthy level, but the revenue for the state and the additive-free meat on the table provide the justification for the harvest.

Right now is not the time for hunting. The does are pregnant, the bucks have lost their antlers, and the fawns are trying to survive their first winter. Every disturbance adds stress and uses up valuable energy in their fight for survival. But, a quiet walk through the woods this time of year shouldn't really bother the deer, and will definitely add a wonderful dimension to your reality.

A few tips before your adventure. Dress warmly, but lightly. Wear layers of wool, or down, and something for your head. Keep your feet warm and dry at all times, and bring along a little nourishment. And, oh yes, it is very hard to get lost in Savage River State Forest. Just walk down one of the hills until you come to any stream. Continue to follow the flow of the water, and eventually you will find your way.

R.O.T.C. TABLED

At the February 13 meeting, the College Forum tabled the recall motion of ROTC until its next meeting. The recall petition was accepted by the governmental body, however, the specified documents relating to ROTC had not been circulated with the agenda in order for all Forum members to review them.

The recall petition reads as follows:

We, as members of the College Forum, recall the College Senate's approval of a twelve-credit-hour Army Reserve Officer Training Program. We also request that the following documents related to the R.O.T.C. program be distributed with the Forum agenda for the meeting at which the program will be reconsidered:

- 1). The cross-registration agreement with West Virginia University
- 2). Descriptions and outlines for the proposed courses
- 3). Qualifications of proposed staff
- 4). The loyalty oath required of advanced R.O.T.C. students
- 5). Policies stating the conditions under which students may withdraw from advanced R.O.T.C.

Forum members, which include students, faculty and administrators were assured that all the necessary documents would be available with the agenda before the next Forum meeting. Tom Hawk, Chairman of the Forum is planning on calling a special meeting for Wednesday March 5, at 4:00 in 218 Dunkle Hall. ROTC will be discussed at that time.

Other items of business included the report of the Ad Hoc Committee on the College Governance System and the question of the role of the Admissions Committee.

The proposal recommended by the Ad Hoc Committee included several revisions of the present system, most notably, the abolition of the College Forum itself. During a straw vote taken, the Forum overwhelmingly voted not to abolish the Forum as a parent structure over the Senate and various committees.

FSC Interns Working With Government

The Public Affairs Internship Program of Frostburg State College has placed eight students with state, local and federal government offices for the current spring semester.

According to Dr. James V. Swanson, acting director of the internship program, internships are designed to give students interested in government service the opportunity to gain firsthand experience while providing manpower assistance to the offices and agencies to which they are assigned.

Students who complete an internship assignment receive up to 15 hours of academic credit.

Interns and their assignments follow:

NEAL BEADLEY, Massapequa, New York, with Tom Buckmaster, Executive Director Maryland State Republican Party, Annapolis; DOUGLAS BURKHART, Baltimore, with Senator John Bishop, Maryland General Assembly, Annapolis; KAREN CINGEL, Severna Park, with Laurence Atwell, Director of Operations, Department of Energy, Office of Congressional Affairs, Washington, D.C.; KIM DUDLEY, Kensington, with Richard Platter, Assistant Executive Director, Long Stretch Youth Home, Frostburg; RUSSEL EKANGER, Glen Burnie, with Senator Edward J. Mason, Maryland General Assembly, Annapolis; ANN HREZO, District Heights, with Judge Miller Bowen, Cumberland; WANDA PRINCE, Baltimore, with Honorable Hattie Harrison, Maryland General Assembly, Annapolis; CHRISTOPHER SCHEIDT, Baltimore, with Honorable Clarence Long, United States House of Representatives, Washington, D.C.

Since 1971, Frostburg State College has assigned a total of 212 student interns. The Public Affairs Internship Program has provided a capstone experience for students either planning on attending graduate school or entering government service.

Food Service

FOOD SERVICE Committee meetings are being held biweekly starting this Monday, February 4, at 3:00 p.m. Anyone with suggestions or comments is invited to attend.

"Cosmic Capers"

February 18-24

The moon makes a return appearance to the evening sky this week, passing by Venus on Tuesday evening. By the weekend, the moon will be half full. Sunday night will mark the opposition or closest approach of Jupiter to the Earth. The king of the planets rises in the east as the sun sets and is visible all through the night. Jupiter is now about 410 million miles from earth.

"Music Beyond Space and Time," a program illustrating cosmic themes with electronic music and visuals continues at the Frostburg State Planetarium with free public showings each Tuesday at 7:30 and Each Sunday at 2:30 p.m.

Big Brothers

How would you like to be a Big Brother to a growing youngster in the community? You can make a tremendous contribution in the life of a youngster by being of service in any number of ways: taking him to a sporting event or a field day in the gym, assisting him with his homework, just talking with him and being available. Building a meaningful and close relationship can be a wonderful experience, especially when a youngster's father may not be available all the time. Tentative plans have been made for a recreation day in a local gym and a movie day.

If you think that you are interested, or if you have any questions, please contact Rev. Neumark or Fr. Fergus at 689-5041. The Big Brother program, based on the national program, is sponsored by the United Campus Ministry.

F.A.C. Seminar

The Kappa Psi Chapter of Delta Sigma Theta Sorority Inc., will sponsor a F.A.C. Seminar (Facts About Cancer), assisted by the Cumberland Chapter of The American Cancer Society on Saturday, March 1st in Room 201 of the Frostburg State College Student Lane Center between the hours of 1-5. A speaker will be present along with nurses who will deliver techniques in spotting early cancer signals in women. The community is invited to attend.

MINI-COURSES

This semester, Special Instructional Programs will offer mini-courses in Pullen 119 at 4:00 p.m. The late afternoon schedule should prove more convenient to students and staff than the previously used night schedule. However, for those who cannot participate at 4:00 p.m., mini-courses are available on an individual basis by appointment.

Mini-Course Schedule

Essay Test Taking	Feb. 26	PE 119	Sally Donchue
Objective Test Taking	Feb. 25	PH 119	Jay Hegeman
Library Resources	March 11	PH 119	Bill Grasser
Organization of Term Paper	March 12	PH 119	Pete Hinz
SQ3R		by appointment	Sharon Ashby
Lecture Note-taking		by appointment	Judy Wolfe
Time Management		by appointment	Barb Wilson

PEER ADVISOR APPLICATIONS

Students interested in applying to be a peer advisor during the 1980-81 academic year are encouraged to attend one of two candidate information meetings. These meetings will be held at 4:00 p.m. in 201 Lane Center on Wednesday, February 20 and Thursday, February 21. Applications will be available at these meetings.

Students interested in applying as peer advisors are asked to forward these students' names to Tom Bowling, Student Affairs, by Wednesday, February 20. All full-time students who have a 2.50 cumulative GPA and are not student teaching or interning during the 1980-81 academic year are eligible to apply. All applications must be returned to the Student Affairs Office, 120 Administration Building, no later than Friday, February 29.

Faculty members who wish to recommend students to serve

OFFICE OF CAREER PLANNING AND PLACEMENT

ON-CAMPUS RECRUITMENT POLICIES AND PROCEDURES

1. All students who sign up for recruiter interviews must be registered with the Placement Office.
2. Students must sign up only for themselves by phone or in person with the Placement Office.
3. Current students will be given priority for interviews over alumni.
4. Sign-up for recruitment interviews will be opened two (2) weeks prior to the date(s) of recruitment.
5. Candidates' credentials will be

made available to recruiters for their observation during their visit.

6. Lists will be distributed giving dates, time and restrictions for each employer that recruits on campus. Restrictions on majors set by employers will be honored.
7. If a candidate cannot keep an appointment with a recruiter, he or she MUST MAKE EVERY EFFORT TO INFORM THE PLACEMENT OFFICE SUFFICIENTLY

AHEAD OF TIME SO THAT ANOTHER STUDENT MAY BE INTERVIEWED.

IF AN APPOINTMENT WITH A RECRUITER IS MISSED WITHOUT A PREVIOUS CALL OR REASON, THAT STUDENT WILL FORFEIT THE RIGHT TO SIGN UP FOR FUTURE INTERVIEWS UNTIL A COPY OF A LETTER OF APOLOGY/EXPLANATION TO THE EMPLOYER/RECRUITER IS PRESENTED TO THE COORDINATOR OF CAREER PLANNING AND PLACEMENT.

A PLACE TO STUDY

Many students may wish to find a quiet place to study between classes. For various reasons, they may not choose the library, the Lane Center, or their dorms. There is another good place to go—the Learning Center in Pullen 112. It is open from 8:30 a.m. to 4:30 p.m. weekdays. There are leisure reading books and magazines

and tapes for easy listening if students just wish to relax for a while. However, headphones are used so that music or slide-tape study materials don't interfere with the quiet, comfortable atmosphere. Students can also find help in time-management, test-taking skills, vocabulary development, note-taking, and other skills.

Bittersweet is accepting Art, Photos, Poetry, and Prose for its Spring publication. Submit to Box 34 Lane Center or Rm. 131 Dunkle by March 1, 1980.
