VOL. 20 — NO. 1

S.T.C., SALISBURY, MD.

TUESDAY, OCT. 4, 1960

## Linkage of Maryland and STC Analyzed

PARLEY IN S. G. A.

Left to right: Julie Spedden, Tom Wimbrow, Wayne Towers

Ever since the first hint of a proposed plan to link together S.T.C. and the University of Maryland rumors and counter-rumors have circulated stirring up a furor of questions and often misconceptions. It is the object of the Holly

Leaf through this and subsequent articles to present, via proper sources, an unbiased report, analyzing as clearly as possible all presently available information.

In keeping with this point of view, Dr. Devilbiss, the President of S.T.C., was interviewed, and during said interview offered the following explanation in the way of a brief history of the proposal.

At the last session of legislature, Governor Tawes appointed a special committee to study expansion problems of the University of Maryland. The Governor did appoint a committee headed by Mr. Warfield. In February of 1960, the Warfield Commission presented its report to Governor Tawes and the Legislature. One part of the now-called "Warfield Report" asked for teachers colleges to be taken over by the University of Maryland, and converted into regional centers. The Committee report submitted, the Governor asked the University of Maryland to make a study of its feasibility. In response to that, certain staff members of the University of Maryland; in addition to a member of the governor's staff, representatives of budget and procurement, and other representatives visited each one of the three state teachers colleges, studying facilities in each.

This resulted in a report published in August of 1960 entitled "Expansion and Consolidation of Construction Programs," and representing a study of the feasibility of unifying state supported instructional programs as found in the colleges of Frostburg, Salisbury, and Towson with that of the University of Maryland. In this report, it was recommended that such a program would be feasible and that steps be taken to bring it about. Specifically, these are some of the things the feasibility report says about Salisbury.

1. Enrollment projection — It was estimated that by 1970, an enrollment of 1000 would exist.
2. Instructional program — It recommended the continuation of the present elementary teaching program and the offering of one for high school teachers in selected academic fields. Also, a non-teaching degree program in arts and sciences would be offered.
3. In addition, it recommended certain physical facilities be

### Four New Instructors Welcomed

Four new instructors became members of the faculty here this September. They are Mr. Harold W. Bloom, Mr. Clinton Carroll, Dr. Gerald H. Davis, and Dr. Edna E. Estes.

Mr. Bloom, a native of Grafton, West Virginia, is teaching in the science department. He is a graduate of Salem College in Salem, West Virginia; his master of science degree was earned at West Virginia University. For the past eleven years, Mr. Bloom has taught Chemistry and Physics in Brunswick, Maryland. An educational topic of great interest to Mr. Bloom is the introduction of science on the elementary level. He believes that a basic understanding of science should be obtained in elementary school. This would eliminate difficulties in later courses as a result of inadequate preparation.

Mr. Bloom asserted that Eastern Shore life is quiet, relaxing, and restful — much different from the industrial atmosphere of Brunswick.

Mr. Clinton Carroll of Havre de Grace, is the new member of the English department. Mr. Carroll received his bachelor of arts degree from Lynchburg College in Lynchburg, Virginia, and his master of arts degree from Longwood College in Farmville, Virginia.

Due to his father's ministry and affiliations with the Methodist Conference of Virginia, many towns have been "home" to Mr. Carroll at one time or another. Of them all, he recalls two which have been outstanding: Salisbury and Ocean City.

Mr. Carroll is most impressed with high degree of efficiency and

(Continued on Page Two)

### Goncharoff Heads Fall Convocation

On October 10, 1960, S.T.C. will be honored to have as its convocation speaker, Dr. Nicholas Goncharoff, Russian born political scientist. Dr. Goncharoff is here under the auspices of the Association of American Colleges and the Danforth Foundation and will speak on "World Youth in an Ideological Conflict."

In addition to the convocation, Dr. Goncharoff will address two informal class meetings on "Higher Education in the U.S.S.R." and "Russian Literature in the Last Forty Years." Also, he will discuss "The New Society Society—Messianic Conquest or Democratization of Life?" at the cultural affairs sponsored coffee hour on Tuesday, October 11. The college faculty and student body are cordially invited and urged to attend.

Nicholas Goncharoff was born in Kiev, Russia in 1921, the son of a career diplomat who later turned to the Orthodox priesthood. Although educated by the communistic system of schooling, Dr. Goncharoff, despite religious persecution, remained a member of the Orthodox Church.

During World War II, he was drafted into the Soviet Army from the University of Odessa and served as a Russian tank commander. Later, he was captured and imprisoned, first in a prison camp in the Ukraine, and then in a forced labor camp in Germany. After numerous harrowing experiences, he was liberated by American forces in Bavaria. He then

(Continued on Page Four)

### Mr. Robinson Fills Newly Created Post

Contributing to the academic and social life of State Teacher's College this year is Mr. Orem E. Robinson, filling the newly created post of Dean of Students. Besides being the administrative officer directly in charge of student living and activity on the campus, he serves as the co-ordinator of all student personnel services. As administrator, he exercises supervision and control over the men's dormitory, is directly responsible for the regulation of student parking, serves with the Social Director as advisor to the Student Government Association, handles student excuses, and supervises extra-curricular activities. As co-ordinator, the Freshman Orientation Program and the responsibility for personnel records fall into his hands. He serves also as a member of the Administrative Council and the Admissions and Standards Committee.

Formerly, Dean Robinson served as principal of Vienna High School of which he is a graduate, assistant principal of North Dorchester High School, and finally, principal of Federalsburg High School.

A native of Baltimore, he received his Bachelor of Arts degree at Washington College and his Master of Education degree at the University of Maryland. He has seen two years of active duty in World War II with the 17th Airborne Division of the United States Army and was connected with the Counter - Intelligence Corps at the time of the Korean conflict. In addition, Mr. Robinson played professional baseball for four years with the Brooklyn Dodgers.

PROTECTING OUR HERITAGE OF FREEDOM

If you or I were allowed to gaze into the future of America, what would we see? Only we, as college students of this generation, can decide about this future.

As young people mature and become more involved in their roles as citizens, it becomes important that they be well-informed about the current problems confronting our country.

Ralph Waldo Emerson, one of America's foremost essayists, stresses in his essay entitled "Self-Reliance" the importance of being independent and critical thinkers.

Then, too, it is necessary that we have a thorough understanding of the meaning of our heritage in order to preserve it.

FOUR NEW INSTRUCTORS—

(Continued from Page One)
Continuation of S.T.C. He cited the discovery of sharpened pencils in his desk as an example of thoroughness.

Dr. Gerald H. Davis has filled a position in the history department formerly held by Dr. Ida Belle Wilson Thomas, whose retirement began this year.

Dr. Davis observed that students here are willing to work for their education, and seem to appreciate the privilege of acquiring further knowledge.

Noting the Eastern Shore's uncrowded conditions, Dr. Davis also commented on the friendliness of its people and the pleasantness of its Southern culture.

Teaching in the science department is Dr. Edna E. Estes, of Jasper, Alabama. Dr. Estes received from the University of Ala-

meet problems and overcome the obstacles that confront us. Such problems as the current one of integration and segregation must be met with forthrightness and open-mindedness.

In college and in church, we participate in extra-curricular activities and discussions. We stress the terms honesty, truthfulness, and consideration toward others.

As citizens of America, we have a heritage of which to be extremely proud. Are we really proud of this land of unlimited wealth and opportunity?

Students, let us face this tremendous responsibility of keeping this land as it is! Let us unite ourselves as one bond, willing to do anything honest and capable of being done to protect the heritage of this democratic nation—America!

—Loretta Fitzsimmons

bama her bachelor of science, master of science, and doctor of philosophy degrees. She has previously been Assistant Professor of Del Mar College in Corpus Christi, Texas.

Dr. Estes stated that as a biologist she was glad to be back in the East, because the plant life here is more abundant and diversified than in the Texas area.

LINKAGE OF MARYLAND AND STC ANALYZED—

(Continued from Page One)
provided to take care of increased enrollment.

After the Warfield Commission Report was given last Spring, Mr. Jerome Frampton, President of State Board of Trustees and the Board, reacted forcefully against the suggested proposals.

teacher education would not be promoted in Maryland but rather, would lose emphasis.
In relationship with the present plan of teacher education, the State Board of Trustees has for some time been studying expansion problems.

In May, 1960, the State Board of Education issued a report entitled "A Program For Progress In Higher Education in Maryland." This report has been several years in the making after much study by a professional staff of the State Department of Education.

That Chester might be able to help Kansas City — or would he? That he couldn't.

Dr. Devilbiss stated in conclusion that it seems obvious that the Warfield Commission Report and the feasibility study which followed it offered nothing to students which is not included in the State Board plan.

In a desire to keep the student body completely informed, the S.G.A. has arranged for an assembly to be held on Tuesday, October 18.

EDITOR'S NOTE: The staff of the Holly Leaf extends its thanks to Dr. Devilbiss for so graciously giving of his time.

MOCK PRESIDENTIAL CONVENTION AT S.T.C.

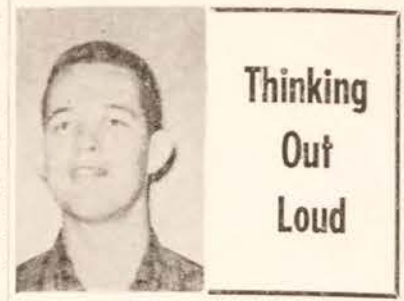

On Wednesday, October 5, and Thursday, October 6, the Holly Leaf will hold a Mock Presidential Convention in S.T.C.

REPUBLICAN PARTY:

RICHARD NIXON FOR PRESIDENT
HENRY CABOT LODGE FOR V.-PRES.

DEMOCRATIC PARTY:

JOHN KENNEDY FOR PRESIDENT
LYNDON JOHNSON FOR V.-PRES.

Thinking Out Loud

It occurs to me:

That Dr. Wroten's Orioles will have to revert back to that old cliché of "wait till next year", or the next year — or the next year.

That I'm a Senator fan who has been waiting.

That someone said that Nixon should have given Kennedy "a bloody nose" as the result of their debate on TV last Monday night.

That was not a very nice thing to say.

That the sophomores are complaining about having too much work especially in geo—

That the juniors can't stop laughing at the sophomores.

That Chester Davis should be congratulated for coaching his Pony League team to the league championship this past season.

That Peter Gunn should come along too.

That the world is really in a state of confusion.

That all you need to have in order to join the Communist Party is a beard, a bald head, and a case of vodka.

That we haven't had liver in the "chow hall."

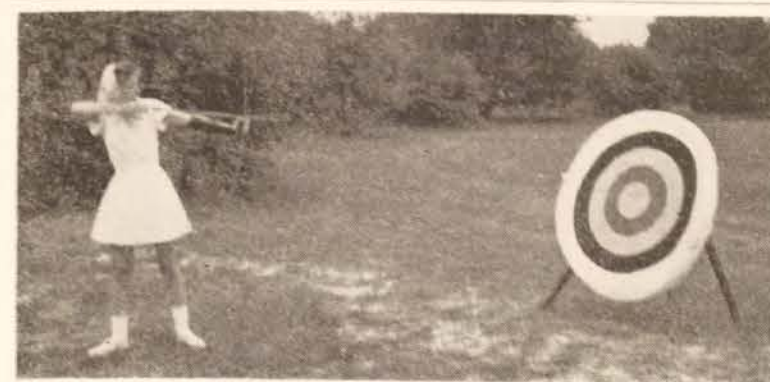

That you should read my column over again.

MR. ROBINSON—

(Continued from Page One)
Presently the new dean is a member of the National Association of Secondary School Principals, the Maryland State Teachers Association, National Education Association, and Rotary International.

Football Dominates STC Sports

Juniors Hand 14-0 Loss to Freshmen
Sophomores Edge Freshmen 6-0

WHERE'S THAT TARGET?

Sporting activity at S.T.C. was ushered in with a bang last week as the first of a series of flag-football games was played between the class groups.

For about the first 15 minutes both teams fought to a standstill, and then the Juniors broke the scoring ice by capitalizing on a blocked kick.

New Football League Organized at S.T.C.

After the last annual class-football game is played Wednesday, October 5, 1960, between the Sophomores and Juniors, an entirely new unprecedented football league will be formed by the Men's Athletic Association.

This move will focus from an entirely new scope than the previously drafted teams of past years and offer many advantages.

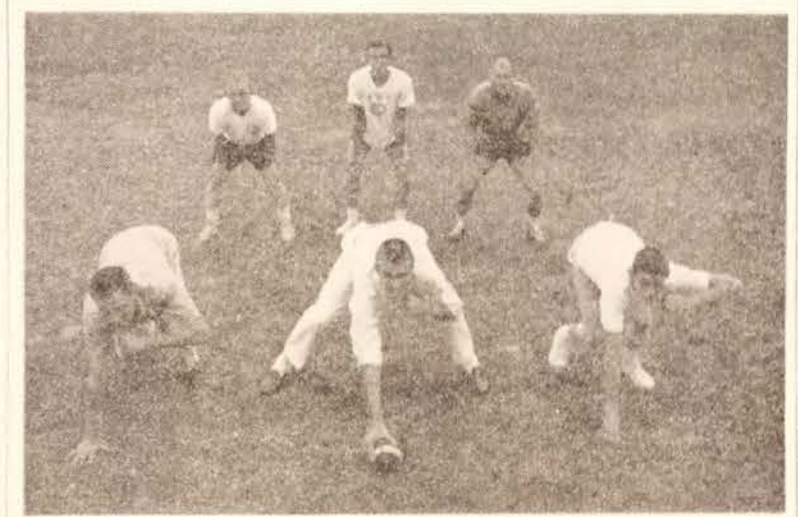

The Holly Leaf would like to congratulate the officers of the M.A.A., Coach Ben Maggs; John Barnes, President; Chester Davis, Secretary; and Bill Outten, Treasurer, for conceiving such a project that will benefit the entire school with new morale.

Fitz Spotlights the Sports

Freshmen girls! Welcome to the W.A.A., better known as the Women's Athletic Association. For those of you who do not know, every girl who enters this college automatically becomes a member of this organization.

Table with 2 columns: Activity and Points. Activities include Officer of W.A.A., Member of Board, Attendance at meetings, Practice hours, Member of varsity team, Hockey, Basketball and volleyball, Softball, Captain of team, Games attended, Games won, Member of intramural team, Captain, Each game played, Games won, Cheerleaders, Captain of squad, Each game attended, Refereeing, Timekeeping, Scorekeeping, Fencing club, Bowling, Member of league team, Winner of tournament, Each evening bowled, Gym club.

THOSE FEROCIOUS JUNIORS! Front row, left to right: John Barnes, Bernie Ruark, Chester Davis Back row, left to right: Bill Elliot, Neil Lecompte, Earl Bradley

in the reach of every girl who just participates in intramurals; the second award, a pin, is given for 600 points. Engraved plaques are presented those with 1200 points; and for 2500 points, a girl may receive an engraved loving cup.

Murrell's Mayhem

MAGGS TO MOVE UP . . . to ground level, that is. Yes, after many years of being confined to his cage-like office, Coach Ben Maggs is patiently waiting while workmen complete work on the new gym.

First of all let's view a few of the dry, physical statistics: Seating capacity in large auditorium (Continued on Page Four)

**DIGGING OR PLAYING HOCKEY?**

Left to right: Loretta Fitzsimmons, Beth Reid, Barbara Street

**WATCH THOSE TRICKY FEET!**

Left to right: Gordon Gladden, Jon Jefferson

## VARSITY HOCKEY PRACTICE BEGINS

Varsity hockey practice, which started Tuesday, September 27, saw a varied turn-out of enthusiastic players from all classes. Among the returnees were: Barbara Street, Norma Atkinson, Beth Reid, Dorsay Christhilf, Loretta Fitzsimmons, Betty Quimby, Susan Waller, and Jerry Blazek.

Under the capable managership of Linda Dentz and Mary Willis, the hockey squads, which have many newcomers this year, will be chosen before the first vacation. At present, try-outs and scrimmages will be held every Tuesday and Thursday, when the weather permits. However, as the season progresses, practices will increase.

Noticeable at the first practice were not only the talent and skills of the freshmen girls with a hockey stick, but the upper-classmen, as well, who have failed to try out previously.

It looks like a good season for the Salisbury STC lassies, but more girls are needed. So anyone, who has ever handled a hockey stick, has an invitation to come and work out.

Let's make this a good year "sports-wise" for your alma mater.

### MURREL'S MAYHEM—

(Continued from Page Three) is 1000. There will be two cross basketball courts and 1 large court with the latter having the regulation glass backboards. It will have a speaking system which will cover 360° and it should be noted that this PA system can be connected up to bring in outstanding events such as world series, music, etc.

Something quite unique is that there will be no overhead windows, these will be replaced by glass prisms which have a two-fold effect: 1 - They will diffuse the light (a problem which has always plagued participants in games played in our present gym) and 2 - Thermo control — a new innovation which blocks out heat in summer and admits more heat in the winter.

The locker room system will be

of the wire basket-combination lock type. There will be a visitors' dressing room thus eliminating the congestion and confusion which heretofore has reigned in our present set-up. The last big item is the physiotherapy room consisting of a whirlpool bath, heat-lamps, and massage tables.

On the outside will be a new track and field for softball and hockey. To those men in the Physical Ed. classes who are worried about what activities they will be pursuing in the next couple of months, I have a consoling word. Coach Maggs has assured me that the complete cleaning up and landscaping jobs are included in the contract. Naturally, there are many more features which could be listed, but time nor space doesn't allow me to continue.

### SOCCER TEAM MUST RE-BUILD:

At present Coach Ben Maggs is a little optimistic about his soccer team and how it will shape up for future contests. Anyone having even a little association with last year's team realizes that losing such stalwarts as Co-Captain Murray Smith, Jack Messick, Pete Marth, Dick Walls, Dick Taylor, Cliff Denny, Orman Brittingham, and Elbert Detwiler will certainly put an additional burden on Coach Maggs and his efforts to rebuild a winning aggregation. Despite these seemingly irreplaceable losses, things are not completely dark for the Maggs men as they have a good list of returnees in the persons of Co-Captain of last year Tom Alderson, Wayne Brittingham, Gordon Gladden, Jay McCrea, Jerry Wilson, John Barnes, Frank Lum, Shannon Dawson, and Ed Mitchell. From this department comes a "Good Luck, Gulls." More about these men later.

**LOST:** One ace gymnast and all around good guy in the person of Jim Christian. He transferred to Maryland State in order to major in Physical Education. Good luck, Jim! The Junior class is sure gonna miss its ace quarterback!

**SHIFTY RUNNER:** Consensus of opinion around the young 1960 flag-football team league is that Wayne Foltz is by far the speediest and most shifty back yet to exhibit his talents. He looked good

in both contests against the Sophs and Juniors, and with a couple of timely blocks he could have gone all the way on numerous occasions.

**LOOKING FOR SOMETHING TO DO ON SATURDAY AFTERNOONS?** Why not check up on the Maryland State College football schedule — get a carload of guys and run down to Princess Anne to watch the Hawks in action. These boys play a good brand of football and are capable of supplying the viewer with quite a delightful afternoon of entertainment.

... See ya next time!

—M.

### FITZ SPOTLIGHTS SPORTS—

(Continued from Page Three)

So girls, remember these are all within reach — IF a little effort is exerted.

Recently, Barbara Street, who is this year's president of the W.A.A., named the persons who would serve on this year's council. They are:

Varsity hockey managers: Linda Dentz, Mary Willis

Varsity basketball managers: Loretta Fitzsimmons, Joan O'Connor

Intramural basketball managers: Lou Price, Joan Townsley

Varsity volleyball managers: Ruth Tyler, June Evans

Intramural volleyball managers: Sara Taylor, Jeanne Arnold

Bowling manager: Betty Quimby

Tennis manager: Jerry Blazek

Archery manager: Pauline Osinski

Tumbling: Jeanne Gladden

Softball managers: Gail Street, Dotty Mace

Social Chairmen: Brenda Foxwell, Lynda Cox

Reporter: Julie Spedden

Cheerleaders: Barbara Crum, Ann Moore, Norma Atkinson, Vicki Barbour

Publicity: Nan Furness, Donna Mahaffey, Mary E. Vickers, Joan Miltzer

Other officers who are serving along with the president are sec-

retary, Beth Reid; and treasurer, Joyce Poole. During this week an election is to be held to elect a vice-president from these candidates: Brenda Foxwell, June Smith, and Loretta Fitzsimmons. Please don't forget to vote!

Available to many of the girls interested in hockey are refereeing jobs in the afternoon at nearby high schools. Several of last year's players, namely Sue Waller, Beth Reid, Betty Quimby, and Loretta Fitzsimmons are already doing games at Pocomoke, Deal Island, Pittsville, Laurel, and Crisfield. Also Mrs. Joanna Dubbs, who has refereed many games in the past, is again officiating this year.

Women's sports play a major part in the lives of many college girls. Let's make this a great year for every girl enrolled at Salisbury STC.

### FALL CONVOCATION—

(Continued from Page One)

made his way to Munich where he entered the University there as a teacher and student. Six years later, in 1952, he received his Ph.D. in philosophy and history.

At present, Dr. Goncharoff is serving as World Service Secretary for International Education Y.M.C.A. After active and distinguished participation in Y.M.C.A. affairs in post-war Europe, Dr. Goncharoff came to the United States and within a year became connected with the National Council Y.M.C.A. Public Affairs Program. In 1957, he became an American citizen.

Dr. Goncharoff has worked long and hard with the youth of the world. He has studied their needs and has stressed their importance in the shaping of the world in years to come. All of his lectures have been interwoven with the sincerity of deep convictions and the knowledge of a wealth of personal experience.

Animal psychologists report that an ant will work faster if put with a fast-working colleague than it will with a slow worker.
