## SGA Headlines Suggestions

March 5, 1962, the SGA general board met. After dispensing with the routine business, the suggestion box was opened and the several suggestions were discussed.

Among those now under consideration are the remedying of the water problem at the rear of the women's residence and a bell in the snack-bar for those who find a game of Hearts more interesting than a Biology 102 examination.

After acting on a suggestion to get political organizations on campus, the SGA finds that all its efforts have been in vain. Thus far, only one student has shown any interest in these organizations. A word to the wise is sufficient.

Constitutional amendments may be in the offing. It seems that a large group on campus feel the choosing of SGA awards is not done in proper manner. Referring specifically to the selection of Mr. and Miss STC awards and the Who's Who award, the SGA board realized that the burden on the few students who do the actual selection is too great with the methods and general qualifications now set down. A committee has been formed to examine this situation and to find a more exact way of choosing the winners of these awards.

MAFTA (Maryland Association of Future Teachers of America) assessed our SNEA twenty-five dollars for a building fund to construct a research center in Baltimore for Maryland teachers. Our SNEA asked the SGA to allocate this money since they had not known about the assessment at the time requisitions were due.

The question of value to the students of STC immediately came up, since this is the students' See SGA, page 2)

## Circle K Club Welcomes 11 New Members

On Tuesday, February 27, the Circle K Club of STC welcomed into its membership eleven new members. These men, Ronnie Brewington, Ted Blades, Ed Burton, Jim Cowan, Fred Distler, Maurice Howard, Bob Grier, Bill McComb, Leland Short, Terry Sterling, and Charles Toth, were installed into the club at a joint meeting of the Salisbury Kiwanis Club and Circle K.

Kiwanian President, Bob Menzel, opened the meeting by introducing the local Circle K committee chairman who briefly spoke on the purposes of their efforts in aiding this STC organization.

This combination dinner and business meeting served a two-fold purpose: (1) It allowed the installation of the new members; and (2) Circle K was able to celebrate its first anniversary with those directly responsible for its start and growth.

Circle K President, Jim Davis, gave a brief talk in which he outlined the club's progress since its start. Some of the accomplishments in the past year were the establishment of the club, the painting and decorating of a club room (which, by the way, is the only exclusive Circle K club room in the regional district), a get-out-the-vote campaign on campus, aiding the local women's club with their annual Flower Mart program, ushering for college and Kiwanis programs, and many other similarly related projects.

Jim concluded by expressing his thanks and that of the Circle K for the time and help the Kiwanians had given them in establishing the organization.

Following this, Mr. E. T. Cato, chairman of the Circle K committee, introduced Dr. Wilbur Devilbiss (See CIRCLE K, page 3)

## Dr. Devilbiss Announces Achievement Key Winners

Dr. Wilbur Devilbiss has announced this year's achievement key winners. These are Mrs. Margaret Era, Eleanor Jennison, Leslie Milbourne, Sara Nichols, Billye Parks and Julie Spedden.

To be eligible for this high honor the students must 1) Have a 3.25 average for the past two consecutive semesters, and 2) Have acquired this average at S.T.C. The selection is then made on the basis of the students' "... scholastic average, honor points, and citizenship."

## Apology

The Holly Leaf regrets the absence of pictures of Mrs. Era and Sara Ann Nichols. They were not available when this edition was printed.

## STC Students to Attend Conference

The "Eastern States Association of Professional Schools for Teachers" will hold its annual conference in New York through the 22nd to the 24th of March. The theme of the conference is to be **Today's Teacher Tomorrow.**

Representing Salisbury State Teachers College will be students: Mr. William Wheatley, class of '62; Miss Winnie Wilson, class of '62; Miss Joyce Poole, class of '62; Miss Phyllis Trice, class of '64; and, advisors: Dr. Lelia Stevens and Mr. James DiVirgilio.

Mr. Wheatley has been invited by the association to function as a discussion leader to one of the various groups. In this capacity, Mr. Wheatley will act as the director of the entire meeting and, more specifically, will be responsible for introducing the subject, "The Teacher Image," guiding the ensuing discussion, and bringing the meeting to a successful close.

The "Eastern States Association of Professional Schools for Teachers" is an association of about 70 institutions from 10 eastern states and the District of Columbia. All are engaged in teacher education. A student-centered organization, the association is unique in its professional experiences it provides for prospective teachers.

The founding of the association was an outgrowth of a conviction that those entering the teaching field should have a functional understanding of a democratic society and of the social processes (See STUDENTS, page 2)

Mrs. Margaret Naomi Era, the daughter of Mrs. Elizabeth Goode of East New Market, Maryland, graduated from that town's high school in 1945. She is married to Edward Era and is the mother of three. Mrs. Era was chosen to the Dean's List and has been an active member in the Phi Alpha Theta historical society. She is now student teaching at the Preston Elementary School and is residing in Secretary, Maryland.

Eleanor Mary Jennison, a junior, is the daughter of Mr. and Mrs. Frank Jennison of Washington, D. C. Activities in which Eleanor has participated at S.T.C. are: member of the Women's Athletic Board, gym team, SGA, intramural sports, and secretary of the Women's Dorm Association. Among the honors she has received is having been named to the Dean's List during each semester she has attended S.T.C. Miss Jennison graduated from Oxon Hill High School and upon graduation from S.T.C., plans to be a math and science teacher on the senior high level. Eleanor's award this year will be the addition of the ruby insert, as she received her key last year.

Leslie Ray Milbourne, a veteran of four years' service in the U. S. Air Force, is the son of Mr. and Mrs. Ronald J. Milbourne of Crisfield, Maryland. Les has been very active on campus as photographer for the Evergreen, a charter member of the Circle K Club, a three-year member of the gym team, and a participant in the intramural sports program. Locally, Mr. Milbourne is a member of the newly organized Eastern Shore Sky Divers Association. He has completed his student teaching in the fields of math and science at Wi-

(See KEY, page 4)

### How's Your I. Q.?

Johnson once said, "The seeds of knowledge may be planted in solitude, but must be cultivated in public." The college student cultivates his knowledge for four years, and is often asked to open up for inspection. The school psychological department takes a sample for analysis on the average of once a year. Many students fail to realize that tests are most important in understanding one's self.

On March 28, 1962, Dr. May and other faculty members administered tests to the sophomore class. The tests used are known as Sequential Tests of Educational Progress. They are developed by the nations oldest testing service, the Educational Testing Service of Princeton, New Jersey.

There are three important reasons for administering the tests. First, they give the student information regarding his standing among other students at the same level. Secondly, they give an indication of the learning progress during the interim from taking freshman tests until the sophomore tests are given. Third, the student may see whether his progress has been as rapid as that of students of similar colleges. If a student's achievement level is at the 60th percentile as a freshman and rises to the 65th percentile as a sophomore, his rate of gain has been considerably improved. If he was average, there would have been no improvement in the rate of gain over the freshman score.

Norms are computed for each class and each test to give the institution information for analyzing the type of standard which is being maintained as well as the quality of instruction. The norms are based on representative colleges throughout the United States. Thus far, the overall achievement of Salisbury College sophomores has been above the national normals, with one exception—reading.

(SGA - From Page 1)

money and the students are to benefit from SGA projects. MAF-TA had sent no information about the project with the requisition; temporarily the allocation has been refused. The Hollyleaf asks the students to voile their opinion on this subject to the SGA through the suggestion box.

Selling policies of the book store also came to light through a suggestion. SGA officers saw that the "buy all or none" policy of the store was to be looked into and instructs all students who bought books that the professors did not require to see their instructor about this matter.

### Cultural Affairs to Present Cilli Wang on March 14

In keeping with its efforts to bring the students of STC interesting and varied assembly programs, the Cultural Affairs Committee has announced that on March 14, Cilli Wang, the internationally known pantomimist, will perform on campus.

Noted for her ability to use costumes, props, and a variety of facial expressions, this diminutive (4 feet 9 inches) has captured the fancy of theater goers throughout the United States. Miss Wang, at present, has a total of 12 different skits in her pantomime (the art of conveying thought without speech) program.

The Austrian born Miss Wang has drawn particular raves from such publications as the New York Times, The Philadelphia Inquirer, New York Daily News, London Timth and Variety Magazine, for her performances of the "Children of Flora" and "His Master's Voice" skits.

A great deal of publicity has been given to this program and the Hollyleaf staff highly recommends that students attend what should prove to be a very entertaining program.

### Mr. Denmead Kolb to Speak at Phi Alpha Theta Meeting

On March 15, 1962 at 8 o'clock P.M. in the Student Center, the Phi Alpha Theta will hold an open meeting. The entire student body and all faculty members are cordially invited to attend.

The Phi Alpha Theta is happy to announce the presentation of Mr. Denmead Kolb, a Salisbury realtor, who will speak at this March 15 meeting. Mr. Kolb has done extensive research in the field of Patriotic Societies. Of these Societies we often hear, but generally, very little is known about them. Mr. Kolb will talk about these Societies which have played a major role in our history. He will give the background of them and will tell of their objectives and how they affect the shaping of history. Following the talk will be a general discussion and a question and answer period. Refreshments will be served.

Anyone interested in knowing about these Societies as to their objectives and history is welcome and encouraged to be present.

Phi Alpha Theta's plans for the future include an April 14 Annual Regional Meeting in Washington, (See KOLB, Page 4)

### Free Concerts?

On March 16, 1962 the Community Concert will give a performnce at State Teachers College. For the general public, the tickets for the concert will be \$8.00 for the series. For 100 students at STC, they will cost nothing. But the tickets that we get free today may very well cost us \$8.00 next year.

Let us review the facts for a moment. STC pays \$1,000 each year to bring the Baltimore Symphony Orchestra and the Community oNcert to its students. There are 100 tickets for each performance given by the two companies. This means that in the course of the college year, during which there will be four performances by the Community Concert and three performances by the Baltimore Symphony Orchestra, we, the students, have 700 tickets made available to us—free. This indeed is a privilege.. We have the opportunity to watch and listen to over \$15,000 worth of talent.

But what has happened? During one performance last semester of the Community Concert, when there were 100 free tickets available, only 12 were used. Surely, all can see that this practice cannot continue. The college cannot, as indeed it should not, buy 100 tickets at such costs when only 12 are being used.

And now the question arises as to why the students of STC are not taking the interest that this occasion warrants. It could, of course, be due to the fact that these concerts sometimes come on week-ends, and STC has largely an enrollment of students who do go home for weekends. Also, the fact that one concert always comes during exam week undoubtedly causes many would-be attenders ot turn their attentions to studies for the evening.

At any rate, this semester is the fest. If we use these tickets, the practice of buying tickets for 100 students at each performance will continue. If we do not use these tickets, the practice will not continue, and those who want to attend all the concerts will have to put out a total of \$14—\$6 for the Baltimore Symphony Orchestra series and \$8 for the Community Concert series.

The big question, then, is will we be going to see the Baltimore Symphony Orchestra and the Community Concert this time next year with a ticket in our hands that cost us nothing but the effort put forth in asking for it, or will we listen to the music as we sit in the snack bar and wish we had the money for a ticket? The answer does not depend upon the Baltimore Symphony Orchestra or the Community Concert. It does not depend upon the Cultural Affairs Committee or the faculty.

(STUDENTS - From Page 1)

that flow through such a structure. The same philosophy suggest that the kind of understanding is promoted by direct experiences. This venture was launched by Dr. Ambrose L. Sudrie of New York University in 1926.

### In Passing:

[As was obvious to those who read the first paragraph of this column in the Hollyleaf's last issue, Lute Fennell did not write the article contained within "IN PASSING". Our thanks to Lute for taking the error so graciously. Truthfully, the Hollyleaf isn't positive if the printer or the layout editor made the error. Again, our apology to Lute.]

After watching Corky Simpson join the chorus in the singing of "The Battle Hymn of the Republic," we feel sorry for the doc who asks "Say, Ahh!" The boy sings out!

Seems as if we have quite a few characters giving out with their talents on the local TV station in Salisbury. Could this be the springboard to national reputation for some unknown?

Certainly is good to see Shab Clendaniel walking around at what could have been something far more serious. Also, glad to hear that Wayne Turner is progressing along so nicely as George Smith.

While we're on the gloomy side of things, it's also good to see Mr. DiVirgilio back on campus and out of Peninsula General.

Have heard reports that "Betsy Quiggly" had a little trouble with some out-of-town in a recent volleyball game officiated. "Miss Quiggly" managed to come out of the fray with no visible signs of physical harm. However, if a mutty vocabulary going in one's ears was painful, she'd be hurtin' for certain. The same night, Wanda Craft had a misfortune to injure her ankle.

Have noticed that our famous lecturer and traveler, Mr. Timmons, has returned to our fourth-grade class after a week in town.

Students working in the library on Saturday morning will certainly not be able to complain about having to work after hours that day. The drive used to be get you in there, now it is the reverse. This column does not have the statistics right at the tips, but it appears that the library is being better served than ever, correct me!

Remember, the SGA Assn. for nominations will be coming on March 13 at 2:00 in the auditorium. Don't just plan to attend, give able candidates a good over in your mind and then get up with some good suggestions. This will be nominating for the 1962-1963 school year.

Folks, in less than a week so those dreaded deficiency bills will be due in 'you know' the final note, on an individual nature, by the by, is the talk Mr. Walter Sullivan gave at the recent convocation. It was one of two that this writer thoroughly enjoyed and ranked a par with the talk given by Alpenfels a few semesters ago. (See PASSING, Page 1)

# Skyrockets Win League Championship

Chotts Chatters the Sports

Another Championship . . . Hip, Hip, Hooray! Too bad the males at STC can't keep up with the fairer sex.

Has anyone noticed that Joan Diepold is the only member of the varsity volleyball team that doesn't play basketball along with volleyball? She takes quite a teasing about this and when asked to comment, laughingly said, "I choose to excel in only one sport at a time."

Wanda Craft became official volleyball scorekeeper after receiving a badly sprained ankle during the game with Sharpstown. The team not only lost Wanda because of her injury, but also Lynda Cox and Ski. There is a bright spot, however, and it beams on freshman Barbara Chevallier.

Barb joined the squad and has been a tremendous asset. She fits right in and works with the team as though she had been playing with them all season. Her serves are quite effective and the team is now all the better. Keep your eye on Barbara — you'll see her playing jayvee basketball, too.

Where is everybody these days? Probably sick in bed with the flu. Dr. Whitney was out for a week and her absence was certainly noticed. Basketball intramurals stood still for a week, the Sports Day trip was difficult to organize and the gym was so hard to get. Glad that you're feeling better, Dr. Whitney.

A round of applause for Dr. Davis and Sibyl McClelland who went to Towson as our chaperones on March 3rd. We could not have made the trip without adults along, thus Dr. Davis and Mrs. McClelland were kind enough to meet our need.

Thanks also to Towson for planning such a nice day.

Girls, how about supporting the boys intramural games like you did last year. Is the walk to the new gym too much for you?

Jayvee basketball is keeping right up with our other teams. On February 19, the Torpedoes defeated Baltimore Jr. College by a large margin. The team wasn't really up to par but still brought us a victory. What potential! Nice going!

(CIRCLE K - From Page 1)

biss who spoke briefly on the value of Circle K to our local campus. The next big event on the Circle K schedule will be the regional and district conference to be held at a Baltimore hotel during the first week in April. At present, the exact number of the membership planning to attend is unknown.

SKYROCKETS — CHAMPS  
 Bottom row: S. Weaver, J. Diepold, B. Foxwell and D. Hubbard.  
 Standing: B. Krahn, D. Meredith, W. Craft and C. Arndt.

### STC Varsity Volleyballers Clinch Title

Under the direction of co-captains Joan Diepold and Brenda Foxwell, the varsity volleyball squad of Salisbury Teachers' has captured the Wicomico Women's Volleyball Championship. For the last nine years, the Bounds-Phillips' team of Hebron had been the league champs.

The title decided on March 1 found STC winning one of three games against this Bounds-Phillips team. The first game was well played by our local lassies, but something happened to the team and the next two were lost. Salisbury's record now stands with six wins out of nine contests and an overall league total of thirty-two wins as opposed to only four losses, in total season play.

For the year 1961-1962, Salisbury can already boast of two championship clubs, the Skyrockets' varsity hockey and the Skyrockets' volleyball team. This is quite an admirable record. Joan and Brenda are naturally quite proud but what makes the championship more thrilling is the fact that it was won in their senior year! Due credit must be given to these two girls, as leadership is always an important factor in any victory.

Both Joan and Brenda, however, modestly shift all credit to the team members and want to publicly thank the girls on the club. "Thanks, Skyrockets," from Joan and Brenda.

The Hollyleaf would, along with members of the student body, extend its congratulations to the entire Skyrockets volleyball team for bringing to our college campus a triumph of which we all may be proud.

(PASSING - From Page 2)

Congratulations to Judy Rayne, Jackie Davis, Jerry Wilson and Bernie Ruark.

### Murrell's Mayhem

### Murrell's Mayhem

To those infinite . . . number of folks who have contacted me about the name "Mayhem", and if I copied it from last year's production of "Mayhem", may I simply suggest that they trouble themselves to look in the library at back copies of the Hollyleaf, seven months previous to plans for that program and they will see that this column had worn the handle of "Mayhem" for quite a while. No hard feelings D. M. and Miss A.!

I thought that our . . . intramural basketball league had an occasional misunderstanding or two, but the other night I ventured over to the gym to watch, for personal reasons, our girls volleyball team tangle in the rough and exciting (?) exhibition with another team in their league. I didn't get to see much playing action, but the rest was great! One team walked off the floor, and poor Betty Quimby had her hands full. Thanks to the mind of Alexander Graham Bell, a few minutes delay allowed the game to continue and the habitual grippers lost anyway.

Maryland State's . . . last home game was quite a thing to watch. Not only was it a zip-zip affair as far as basketball was concerned, but Morgan State's coach was asked to exit and before the night was over it appeared that a Maryland State 20-point lead might not be enough. It was, however, and about 50 to 60 STC'ers who were in attendance came home happy. How about Charlie Maye of Md. State beating Ralph Boston in the broad jump! (Don't forget, though, this was far below Boston's record by a matter of over two feet.)

Wednesday's . . . intramural league games couldn't have been much closer. Bill Cotton beat Martin Davis by 2 points and Chet Davis did likewise by the same spread over Jerry Wilson.

Did you notice . . . that Will got 100 points the other night? More amazing, did you notice that he hit on 28 of 32 free throws? For him this is outstanding.

Rumor has it . . . that for a short spell our athletic department has an electronic volleyball net. Turned out to be a joke.

Our girls . . . did a pretty good job at Towson State, ten pins and all.

Those in attendance . . . at our Alumni vs. Varsity clash, March 3, again were treated to a delight

(See MAYHEM, Page 4)

SEIDEL vs. DAVIS & COTTEN  
 FRIDAY, MARCH 16  
 DANCE TO FOLLOW

### Alumni Defeats Gulls by 71-63 Margin

Before a sparse crowd, aided considerably by the return of the many members of our women's athletic teams, the "old men" of the Alumni defeated our Gulls varsity squad by a 71-63 score.

Had it not been for the faultless shooting of little Dennis O'Brien, who scored 35 points for the winners, things may have been considerably brighter. This little ballhawk seemed to be everywhere at once and truly was a one-man show.

Things for the homesters were not completely dark as Jerry Wilson, in playing an excellent game, hustled his name into the score-book with a team high of 19 points.

Members of the college returning to their alma mater to help make the game a success were: Roland Foskey, Nelson Lynch, Murray Smith, Charley Muir, Richard Marshall, Bob West, Phil Slacum and O'Brien.

Muir also chipped in with a tidy 20 point effort to aid O'Brien somewhat in the scoring.

JUDY RAYNE

JACKIE DAVIS

JERRY WILSON

CARROLL RUARK

### Queen Judy to Reign Over May Day Festivities

The Holly Leaf takes pride in announcing the May Court for the school year 1961-1962. As Queen STC has elected Judy Rayne, a senior and graduate of Wicomico Senior High School in 1958. Judy is now student teaching at the Campus Elementary School and will graduate this June as a major in Elementary Education. Both Judy's charm and her sense of humor are characteristics which have made her a popular choice for this coveted award. Her interest in college life can be seen through her participation in the College Chorus, Ladies' Ensemble, Secretary of the Senior Class, and a member of the Wesley Foundation. Her poise and pleasant personality were contributing factors in her selection as Harvest Ball Queen in her freshman year.

As the Queen's Escort, Jerry Wilson, a senior and graduate of Federalsburg High School has been selected. Jerry is known at STC for his ability to get along with all. Jerry will graduate this June from the secondary education curriculum in English and Social Studies. The Queen's Escort is Vice-President of the Men's Dormitory Association and a varsity athlete who has excelled in soccer and basketball since his entrance to STC. Jerry had a major hand in the success of this year's Day Hop—Dorm football game.

STC's Queen and Escort should

represent the college very well and the Holly Leaf extends congratulations to them.

Chosen as the Duke and Duchess for the Queen's Court are Jackie Davis and Bernie Ruark.

Jackie was a graduate of Cecil High School in 1958. As a senior at STC Jackie can feel proud of her selection and her successful record here. She is now serving as President of the Women's Dormitory Association and has taken an active part in dormitory life since her first year. Jackie has been an active participant in the College Chorus and the Ladies' Ensemble. Furthermore, she was director of last year's Mayhem production and did a most commendable job. As the Queen's Duchess, Jackie makes an excellent choice.

Bernie, a senior, was a graduate of Cambridge High School in 1957. His interest in STC has been expressed by his participation in Circle K as Second Vice President last year, Men's Athletic Association, and Men's Dormitory Council. Bernie, too, can feel proud of his award. His quiet wit has attracted many friends and his selection is one which the student body can well be satisfied with.

As of now representatives to the Court from the various classes have not been selected, but the Holly Leaf can say hats off to Judy, Jerry, Jackie, and Bernie.

(MAYHEM - From Page 3)

as little Dennie O'Brien put together another eye-popping performance. Dennie sat out for six minutes and still came up with a game total of 35 points. The clowning and general fun that was shown in last year's game was missing this year. Guess the absence of "Big Bill" Livingstone was the difference. The "old" men fooled quite a few by being in such good shape.

Have heard . . . that STC's Male Athlete of the Year has been chosen. Congratulations to that man!

See ya next time . . . M.

(KOLB - From Page 2)

D. C. A number of members of the Eta Iota Chapter, Salisbury, plan to attend this meeting.

At a regular meeting later in the spring, it is hoped to have a historian from the University of Maryland as the speaker.

Our Eta Iota Chapter also hopes that arrangements can be made to have speakers talk on the Eastern Shore and Indian Relics.

Plans have not yet been discussed for the Phi Alpha's spring field trip.

For the first time in U. S. Revenue History taxes collected in 1958 exceeded the billion dollar mark.

### Sports Day Held at Towson

On March 3rd, at 6:00 A.M., the Trailways bus left Salisbury for Towson with the girls basketball and volleyball teams, badminton players, bowlers, cheerleaders, and two officials, Mrs. McClelland and Dr. Davis aboard.

#### Volleyball

Since many of the members of the varsity basketball team are also on the varsity volleyball team, a choice had to be made by the girls as to the sport in which they wished to participate. Most of the girls felt they were needed on the volleyball team, and made that choice.

At 11:30 STC played Maryland and tromped the lassies from the Western Shore with scores of 15-3 and 15-7.

The second game was played at 1:30 against Towson and again the Skyrockets won by scores of 15-5 and 15-8.

Kay Romoser went along as a volleyball official and was complimented by girls of the various schools on her knowledge of the game. Volleyball . . . a success!

#### Basketball

In basketball, our girls also came out undefeated. They won over Villa Julie, the University of Maryland, and Towson. The first game was with Towson and we won by a 23-15 score with Linda Graef scoring 17 of our total points.

The second game with the University of Maryland ended in a 19-6 victory for our locals. A sad note in this game was the injury to Beth Reid, who has long since recovered.

The last game with Villa Julie followed the same pattern as the first two with the Skyrockets victorious by an 18-0 score. Again Linda Graef carried the burden of the scoring.

#### Bowling

Margie Lomax, Betty Quigley (or is it Quimby?), Barbara Speden, and Kit Atkinson represented STC on the bowling lanes. Ten-pins instead of duck-pins were used and this cramped our team's chances considerably.

(KEY - From Page 1)  
comico Junior High School upon graduation plans to teach Baltimore County.

Sara Ann Nichols, a resident of Salisbury, is the daughter of J. I. Nichols and the late M. Nichols. Sara graduated from Towson High School, Alexandria, Louisiana and is presently a candidate in the junior high school curriculum in the English and studies program. Among her contributions to S.T.C. campus life are: treasurer of the SGA, three-year member of the college chorus, member of the Ladies' Ensemble, participant in the mural sports program, a member on the bowling team for two years, Christian Association, Canterbury Club, Science Club, Phi Alpha Theta, plus having been named to the Dean's List.

Billye Lee Parks, the daughter of Mr. and Mrs. James B. Parks of Salisbury, Maryland, is a graduate of Wicomico Senior High School and attended Madison College in Harrisonburg, Virginia. Before coming to S.T.C. On campus, Billye has participated in the following activities: SGA representative, president of the Wesley Foundation, a cheerleader, intramural sports, a member of the College Affairs Committee, Social Affairs Committee representative, and was one of the organizers in the "Mayhem" production last year. Presently, Miss Parks, having completed requirements for graduation in January, is teaching elementary school in Delmar, Maryland.

Julia Ann Speden is the daughter of Mr. and Mrs. Charles Speden of Cambridge, Maryland. Julie graduated from Cambridge High School. Miss Speden has been a member of the Dean's List, Co-Editor of this year's edition of the Evergreen, member of the men's Athletic Association, and years' participation in the college chorus, SGA secretary, is inducted into Phi Alpha Theta. She is a member of the American College of Universities, and was a member of the college gym team.

The Hollyleaf would like to extend to these six students heartfelt congratulations for having been recipients of this college honor.
