LAWS OF THE UNITED STATES PASSED AT THE TWENTY-FOURTH CONGRESS FIRST SESSION.

[Public—No. 23.]

AN ACT to give effect to patents for public lands issued in the name of deceased persons.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in all cases where patents for public lands have been or may hereafter be issued, in pursuance of any law of the United States, to a person who had died, or who shall hereafter die, before the date of such patent, the title to the land designated therein shall enure to, and become vested in the heirs, devisees, or assigns, of such deceased person, as if the patent had issued to the deceased person during life; and the provisions of this act shall be construed to extend to patents for lands within the Virginia Military District in the State of Ohio.

JAMES K. POLK,

Speaker of the House of Representatives.

M. VAN BUREN,

Vice President of the United States, and

President of the Senate.

APPROVED 20th May, 1836.

ANDREW JACKSON.

[Public—No. 24.]

AN ACT explanatory of the act entitled "An act to prevent delinquencies on the part of disbursing agents of the Government, and for other purposes."

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the act entitled "An act to provide delinquencies on the part of disbursing agents of the Government and for other purposes," approved the twenty-fifth of January, eighteen hundred and twenty-eight, shall be construed to authorize the pension of any pensioner of the United States to be withheld.

APPROVED, May 29, 1836.

[RESOLUTION—No. 4.]

A RESOLUTION to change the time of making contracts for transportation of the mail.

Resolved by the Senate and House of Representatives of the United States of America, in Congress assembled, That the Postmaster General be authorized, provided the same can be done at the present rates of compensation, to extend the term of the existing contracts for the transportation of the mail, to the thirty-fourth day of June inclusive, next succeeding the thirty-first day of December, in each year in which said contracts expire, so that the contract year may, after the first day of January next, commence on the first day of July, instead of the first day of January, 1836.

APPROVED, 14th May, 1836.

[RESOLUTION—No. 5.]

A RESOLUTION to authorize the Secretary of War, to receive additional evidence in support of the claims of Massachusetts and other States of the United States, for disbursements, services, etc. during the late war.

Resolved, by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of War, in preparing his report pursuant to a resolve of the House of Representatives, agreed to on the twenty-fourth of February, eighteen hundred and thirty-two, he and he hereby is authorized, without regard to existing rules and requirements, to receive such evidence as he may deem proper, and to make affidavits in support of the validity of the claims of Massachusetts upon the United States, or any part thereof, for services, disbursements, and expenditures during the late war with Great Britain; and in all cases where such evidence shall in his judgment prove the truth of the items of claims, or any part thereof, to act in the same in like manner, as if the proof consisted of such vouchers and evidence as is required by existing rules and regulations, and to make the allowance of such claims: And that in the settlement of claims of other States upon the United States for services, disbursements and expenditures during the late war with Great Britain, the same kind of evidence, vouchers and proof, shall be received as is herein provided for in relation to the claim of Massachusetts, the validity of which shall be, in like manner determined and acted upon by the Secretary of War.

APPROVED 14th May, 1836.

NAPOLEON AND LOUIS PHILIPPE.—The following comparison between the present despot of France and Napoleon Bonaparte, is we understand, pretty generally circulated throughout the dominions of Le Rio Gioven.

Napoleon in order to reign, deposed no one; Louis deposed Henry V.

Napoleon ruled fifteen years with twelve ministers; Louis Philippe has tried upwards of fifty during a reign of five.

Under Napoleon, Europe was really in a state of agitation, and France comparatively tranquil, under Louis Philippe, Europe is comparatively tranquil, and France positively distressed.

Napoleon declared war against kings, but never made it against royalty; Louis Philippe wages war against royalty, but does not declare it against kings.

Napoleon used his generals only in time of war; Louis Philippe calls his generals into action in time of peace.

Both republicans and legitimists surrounded the throne of Napoleon; the same parties now conspire against that of Louis Philippe.

Napoleon, a single Corsican, is already enrolled in the family of the Caesars; Louis Philippe descended from the blood of the Bourbons, cannot find a woman who will wed the heir of his crown.

Napoleon required only a budget of eight hundred millions, and four hundred thousand soldiers, to make him respected by all the world; four hundred thousand soldiers, and a budget of twelve hundred millions, are not sufficient to make Louis Philippe respected by the French.

the act, which made the appropriation. At the time, then, of the application of that money for their aid to the Legislature, they should have had the former appropriation, still to be applied to the completion of the work \$1,879,000; for notwithstanding the company have applied the balance of appropriation received by them, to other objects, they are still liable to the state for an expenditure, full amount received by them according to the express stipulations of the law. It cannot be urged then, that this company, in the possession of within \$121,000 of the sum deemed by them, only at the last session of the Legislature, fully ample to complete the work to Cumberland, can be delayed in its operation for the want of means; and no one especially when they are not to receive a part of the former appropriation, until some time in the year 1837. In the absence then, of all and every consideration heretofore advanced, why no appropriation should be made to this company at the present time, and which the undersigned deem conclusive, and granting to it all the importance which can be attached to it, strip of the rights consequences before mentioned, which are not to be lost, yet in the opinion of the undersigned, they are ready in the next session of funds, by the liberality of the state, to the full extent of judicious application during the present year. An extravagant application of the exhausted condition of your Treasury will not warrant.

The undersigned, hoping that these facts and considerations which have been adduced to convince them of the inexpediency of further appropriation at the present time to the Chesapeake and Ohio Canal, will be sufficient to convince you, will proceed to assign the reasons which have brought them to a similar conclusion in regard to the Baltimore and Ohio Railroad. No actual survey of the route or location of a Rail Road having been made from Harper's Ferry to the Western Waters, we are destitute of that information upon which alone an estimate of the probable cost of such a work could be based, which would be entitled to the confidence of the Legislature, and we are therefore unable to grant them, an appropriation to this work, on any terms upon which as we are informed it would be received, the state dispensing with the securities and guarantees against loss, demanded of other works, would be required to make an investment of money (which she does not, but must borrow, and for which the property of the citizen becomes liable) in a country, the cost and even the practicability of which is conjectural—its profits much more so.

The only accurate information in any way relating to this subject, which the undersigned could obtain was found in the report of the United States Engineers of the probable cost of a Canal running nearly the same line, and ending at the same object. From the estimates contained in that report, and the cost of the construction of the Baltimore and Ohio Rail Road to its present terminus—Harper's Ferry, we are led to believe that there would be no great difference in the cost of the respective works. From the report before alluded to, it is here ascertained that the cost of the Baltimore and Ohio Canal would not fall far short of \$14,000,000; (we would here state that in this amount, as in others before stated, we have deemed it unnecessary, and have not named fractions—accuracy to that extent being unimportant for the present purpose.) This sum—\$14,000,000—may then be fairly taken as a sum not greatly exceeding the real cost of the Rail Road which the estimates presented was said to exceed \$10,000,000, from Harper's Ferry to the same point.

This variance between the estimated cost as presented to the Legislature, in the late report of the committee on ways and means, and the probable cost in the estimation of the undersigned, based upon the information above alluded to, is here shown for the purpose of warning the Legislature against so involving the people of the State by false estimates as to give color to a subsequent appropriation for self-preservation. But if it be true that the Canal could be constructed to the Western waters, at a cost but slightly in advance of the cost of a Rail Road, from the superior advantages of the former over the latter, in transportation of produce, as demonstrated by experience in Europe as well as in this country—with its terminus at navigable water within the limits of Maryland, no one could hesitate in the choice of the work which should properly receive the patronage of the State. Conceding, however, that the inferior cost of the Rail Road would render it expedient for the State to adopt this construction with the West, it must be admitted that this concession should not be made by a continuation of the Rail Road from Harper's Ferry, but rather that it should commence at Cumberland, to which point all agree that the Canal must be carried, before the State can derive any profit from the investments which she has already made in the intended line of the canal from Harper's Ferry to Cumberland, satisfactory to us that it is even practicable at any reasonable cost, for both works to be constructed contiguous along the narrow passes, and yielding such a practicality as has been represented (without evidence to sustain it), it must be with a great diminution of the width of the Canal, and the consequent abatement of its ability.

And while on this part of the subject we would leave to make a short extract from a letter written by the honorable G. E. Meyer, in the former submission of the Canal Company in relation to this subject, and which has been heretofore submitted to the Legislature: "This brings me to another proposition that the canal should be constructed independently of the Baltimore and Ohio Rail Road, a great sacrifice was exacted of it, by the compromise of labor to effect; among them it is that a benefit of a desirable low path for all time to come in the narrow passes between the Point of Rocks and Harper's Ferry. A much greater one utterly destructive of its safe navigation, not only there, and in defiance of a solemn compact and pledge, but above and for a considerable distance, that of using locomotive engines near the only tow path of the canal; this, it permitted will prove the total prostration of the navigation, and the canal had as well stop at the point, it has reached."

In these views the undersigned fully concurs. If, however, the canal should receive no injury

by a contiguous and continuous construction of the rail road, are we not warranted in the State as would be required, or applied in its construction would be unproductive; the application useless and wasteful.

It cannot, nor will be contended, that even a competition, for the transportation of the produce and mineral wealth of the Cumberland region, would or could exist between the canal and rail road, when the article of coal which can in our opinion be carried down the canal to navigable water and from thence shipped to Liverpool at a less cost than it could be transported from the mines to the city of Baltimore on the rail road. If the same difference in the cost of transportation of other articles of produce does not exist by the one mode and the other, yet it is apparent that there must be such a difference, as would always cause the produce of that region and all beyond it, to seek an eastern market by the canal rather than the rail road. Again, if the rail road should be compelled to stop for the present at Harper's Ferry, and hereafter to renew its progress from Cumberland, that it, with the interest connected with it, would not be entirely shut out from the benefit resulting from the transportation of the produce brought down the canal from above is shown by the eighth and ninth reports of the President and Directors of the Baltimore and Ohio rail road company to the stockholders, and we would here call your attention to a few extracts from these reports, commencing on the fourteenth page of the eighth report, it is as follows:

"The opinion of the Board of Directors, the immediate interest of the stockholders as well as of the city of Baltimore and the State, of which Baltimore is the heart and the emporium, now lies in the completion of the Chesapeake and Ohio Canal to Cumberland; both in reference to the agreement of compromise already alluded to, and as forming an important link in the chain of communication from the coal mines to the junction with the Rail-road at Harper's Ferry. To the present therefore, the Board would not think, even if they had it in their power, or making the road parallel with the canal; but taking up the route where the canal terminates at Cumberland, would push it across the mountains, upon the trace originally intended for it, and to the point of its original destination, the Chesapeake and Ohio Canal, and the Baltimore and Ohio Rail Road, ceasing to be as they were for many years, hostile opponents, would then be united in interest, in every particular, and would jointly advance the desired communication. If, at any future day, the state of the trade should require it, and the income of the road justify it, freed from the western limit on the Potomac, the road might be brought down the river, and the continuous Rail-road communication, as first designed, be finally accomplished.

"In the prosecution of the design thus marked out, the parties most deeply interested are the State of Maryland and the city of Baltimore; and it is to the public spirit and liberality of these, that the Board confidently look for the means to prosecute it successfully.

And again, upon the first page of the ninth annual report of the President and Directors of the Baltimore and Ohio Rail-road, they say:

"At the date of the last annual report, the graduation of the main stem between the Point of Rocks and Harper's Ferry, was drawing to a close; and soon after the difficult passes of the Potomac, undertaken by the Chesapeake and Ohio Canal Company, and the intermediate portions let out by the Board of Directors were simultaneously completed. All possible expeditions were used in laying down the rails, and by the first of December 1834, the entire line from Baltimore to the eastern abutment of Wagner's bridge, opposite the town of Harper's Ferry, was opened with appropriate formality for general use. The machinery necessary to facilitate the transit of fuel and other produce from the canal to the rail road, was at once erected, and the increase of business of the company which immediately followed, exceeded the entire anticipations that had been previously formed, and called for every exertion to furnish the requisite means of transportation. Notwithstanding the difficulties which always attend the diversion of trade into new channels; the temporary and most inconvenient location of the place of transit, the great height between the rail road and the canal, the want of proper shelter, the contracted space allowed for labor and handling, where the canal, the rail road and the tumpike are all crowded into a width of less than one hundred feet; and the unavoidable delays in forwarding to Baltimore, which took place. Notwithstanding all this, the business done from Harper's Ferry continued steadily to increase; and though the total amount was necessarily diminished with the magnificent canal alongside, yet the Board of Directors had every reason to be satisfied with the portion that was given to the rail road." And again, on the 17th page of the same report:—"In their last annual report, the Board expressed their opinion that the true interest of Baltimore and the State, lay in the completion of the Chesapeake and Ohio Canal to Cumberland, and the continuation beyond that point of the Baltimore and Ohio Rail Road to Pittsburgh and Wheeling, so as to effect that communication with the West, by means of two works, which had been so long and so anxiously aimed at; during the subsequent session of the Legislature, an appropriation of two millions of dollars was made on behalf of the State, sufficient to accomplish the first part of the design; and it now only remains to provide the means to construct the rail road across the mountains to complete the whole.

It is hardly to be supposed that Maryland, which increasing the Baltimore and Ohio Rail Road Company, gave the first impetus to the present system of extended Rail Road intercourse, will not go forward as nobly as she has begun, and contribute as largely to the Rail Road across the mountains as the canal which reaches only to her base. It is the completion of the entire scheme which can alone justify her having embarked in a portion of it, and when that completion depends upon herself, when an increased investment will not only be profitable in itself, but makes previous investments yet more productive, it can scarcely be doubted but that the State, true to her own interest, will furnish the necessary means.

If, however, experience has failed to realize

these anticipations, and it is believed that the prosecution of the Canal to Cumberland, (from which point only as before stated, should the Rail Road be continued westward,) would be ruinous to the best interest of the State, the one, that a connection with this Canal at a proper point to give it an Eastern terminus on the waters of the Chesapeake within the limits of the State, is a work of the greatest importance, not only warranted by expediency; but a work, which the State is bound by every consideration to take immediate measures to secure.

But if the various positions which we have assumed are correct, we are at a loss for one good reason why an appropriation should now be made to the Baltimore and Ohio Rail Road Company; it is for the purpose of continuing it along the bank of the Canal, we have before stated, that in our opinion it would only be unproductive in itself, but almost ruinous to the Canal; if to extend it from Cumberland, and had we such information, an appropriation would surely not be justifiable until the Canal signed here feel bound to declare their opinion, from all the information which they have been enabled to collect, that this work must ever fall to pay a dividend upon its stock over the annual interest, which the State would be compelled to pay on the money borrowed, to make the appropriation. In the present situation of the State, with greatly limited resources, and an exhausted treasury, the only resort to supply that deficiency of interest cannot be considered; it must be by a direct and ruinous tax upon the people.

In relation to the Canals which have been projected for the purpose of connecting the Chesapeake and Ohio Canal with the waters of the Chesapeake within our own limits, the undersigned deem it only necessary now to state, having before expressed their opinion of the importance of these works, that neither the practicability or eligibility of either has as yet been clearly ascertained, and whilst we would earnestly recommend the adoption of vigorous measures to ascertain these facts, yet it cannot be doubted that any appropriation to either of these works, until such information is obtained, is unnecessary and would be premature.

Notwithstanding the full concurrence of the undersigned in the opinion that the Eastern Shore is justly entitled, in common with other portions of the State to its aid and patronage, so far as the same can be judiciously applied to the improvement and promotion of the interests, welfare and happiness of that portion of the citizens, yet not believing that the Eastern Shore Rail Road is a work from which such results would flow, they cannot recommend any appropriation to its aid and patronage in its character, for the transportation of produce, must be useless in a country abounding as does that section of the State in bold navigable streams, offering at the door of almost every citizen, the best and cheapest facilities of transportation to every market on the globe.

The mere convenience to the citizens of that shore, in their travels will surely not be urged as an argument in favor of an appropriation; and should it become the great thoroughfare of travel from North to South—in which opinion we do not concur,—while it would afford a convenience to the citizens of other states, we believe that we are warranted in the assertion, that so far from any benefit resulting to our own citizens from such travelling, it will be directly and positively injurious. But its becoming such a thoroughfare must certainly arise and grow out of taking that trade and travel to a rival city, which it has been our effort to carry to our own. And again, in the opinion of the undersigned, no appropriation should be made to this work (from which no permanent good can possibly result to our citizens, for with it, will be forever closed all patronage to that section of the state; and no matter what plan or system of improvement may hereafter be devised abounding as it may in the greatest promise of benefits to the whole shore, or any part of it, yet it, no appropriation will be ever made, no patronage extended.

The Eastern Shore abounding probably in greater natural facilities of transportation than almost any other country which renders a resort to the ordinary means of improvement by Rail roads and canals unnecessary, their construction, useless, still opens a rich field for the safe, judicious and beneficial application of the aid of the state. But no general system would there effect any valuable end. The same means which might be productive of the greatest good in one or many counties of the shore, might in others be a positive injury, or at least inefficient for any good or valuable purpose. The undersigned in concluding their remarks upon this branch of the subject cannot omit to express their opinion that should appropriation hereafter be made to that portion of the state, that it should be made ratably among the several counties, to be under the cost of a Board of Commissioners, for that purpose to be appointed, in each county.

The undersigned here close their remarks on the several prominent works of internal improvement, which fell properly within the range of their investigation. They have without reference to popular clamor or sectional feeling, freely discussed the merits and demerits of the respective works. A work unimportant in itself, cannot acquire for itself any of the importance of other works with which it may be associated in a bill or report, yet it may give to them a strength which would not be granted, were it not for such an association. The undersigned, would not be understood as they do not intend to reflect upon the motives of the framers of the bill, which was presented to the consideration of the Legislature, immediately preceding the adjournment—such reflection would be unjust, yet here they feel bound to warn the Legislature against the system now growing into use, of connecting different and distant propositions in one bill, which, although it may emanate from the purest motives, and from an apparent necessity, growing out of the nature of the proposition, yet it will be a sure and certain source of error and confusion, and it is not improbably the best and most judiciously attended to in the most numerous consequences.

All which is respectfully submitted,

THE HOME OF PEACE.

In Sunsets' lingering hues of gold,

Some far off isle of rest.

The hearts in this sad world grow cold,

Aye beckons to its breast.

The Indian, on the calm blue sea,

Behold in distance sleep.

Some hound in the temple free,

Soft crawl on the deep.

There rests the winds—the surges rest,

And cloudless skies are seen;

The breeze scarce curls the river's breast,

Or stirs the forest's green.

In the lone melodies that float

When twilight shades are near,

Or the wild wild-harp's plaintive note,

A summing voice we hear.

It tells of painless joy to come,

It calls the wanderer back,

Whoo him to view a peaceful home,

Or'er Memory's desert track.

'Tis its it but in sunset dreams,

That tale of peace is seen—

A phantom built of airy beams,

With faithless waves between?

In it is Fancy's ear alone

That melody is heard.

Vague, wild and wandering, like the moon

By feeble breezes stirred?

Or is it giv'n to winds that die—

Or waves on Ocean's breast,

To answer to the spirit's sigh,

That craves its hour of rest?

The following exquisitely beautiful lines are from

an American poet, (a missionary, probably,) whose

genius and patriotism are warmed into a loftier feeling

of inspiration by the genial and sunny climate and lovely

scenery of the sacred country where he is wandering—

STANZAS.

I sigh for Home, I sigh for Home;

Though distant shores salute my eyes—

Through fogs that veil the world I roam,

Of cities lost for centuries.

Thy green expanse groves and marble bowers,

And waving fields of blushing flowers,

And noisels around me spring;

Like feathers flung from Fancy's wing—

All are too tame; where'er I roam,

I sigh for Home, I sigh for Home.

I sigh for Home, I sigh for Home;

Beneath the hill where martyrs bled,

Where lambs' Temples raised its dome,

Ere John the Baptist lay on his bed—

Where Homer sang in olden time,

Of Ilium's fall in strains sublime—

And Ephesus her ruins spread,

Like monuments above the dead—

I wait, but cannot bear to roam—

I sigh for Home, I sigh for Home.

I sigh for Home, I sigh for Home;

Though Palestine before me waits,

I scarce would view the temple dome,

Or pass the Holy City's gates;

Though wandering Arabs greet my sight,

And olives crown the mountain's height,

Though bright the shepherds gleam upon

The sacred hill of Lebanon—

I turn my feet—where'er I roam,

I sigh for Home, I sigh for Home.

I sigh for Home, I sigh for Home;

That lovely land which gave me birth,

A spot across the Ocean's foam,

Unlike all other lands on earth—

There would I view New England's spires,

Would gather round her household fires,

Would press my loved ones to my breast,

And feel that I'er all was blest—

My bosom yearns—I cannot roam—

I sigh for Home, I sigh for Home.

VIRGINIA ELECTIONS.

We give below the names of the members elect to the next Legislature, arranged in parties by Mr. Ritchie. It is now ascertained that Mr. Fisher, from Mason and Jackson, who is not placed by Mr. Ritchie, is a decided friend of Mr. Van Buren, as well as of the administration.

The Bank's cavalry from Richmond made incursions into Fauquier, Hanover, and Albemarle, and some other counties. Mr. Leigh contrived to perpetuate in the new constitution the extraordinary feature which authorizes every man who can get land valued at twenty-five dollars, in any county, to vote in that county; and so it happens that the scrip-holders, who really have no interest in the counties, but who choose to multiply themselves as voters, are enabled to convert into a few bare acres bought for a trifle, and over-estimated at twenty-five dollars, and thus acquire the power of turning the scale in any of the closely contested counties.

Mr. BOLDIN followed on the same side. He condemned the original grant of 36 sections of land to the Poles, while the government were so tardy in their bounty to the old revolutionary soldiers, and to their own destitute citizens. He also understood that the Poles had located their sections on both sides of a river, and embraced therein the improvements of the early settlers in that country.

Mr. MANN, of N. Y. appealed to the House to close the discussion and come to the vote. The Post Office bill was next in order, and he earnestly hoped that the House would act on that bill to-day. Other amendments to the present bill were to be offered, and the discussion was continued, the Committee would be under the necessity of asking another day. The new Tariff, as proposed by the Post Master General, would reduce the postage on short distances, and increase it on the longer distances. The amendment adopted by the House would reduce both, and diminish the revenue of the Department about \$240,000—an extent of loss which it could not bear.

Mr. WEBSTER spoke at length and after concluding, Mr. CALHOUN moved the reference of the Bill to a Select Committee of nine, which was agreed to, and the following were appointed the Committee.

Messrs. Wright, Calhoun, Webster, King, (Ala.) Buchanan, Shepley, Leigh, Hendricks, Ewing, (Ohio).

The amendment was laid on the table by Mr. WEBSTER and ordered to be printed. It looks to a division of the surplus revenue among the States.

The Special Order was then postponed, and the Senate took up the bill to increase the present Military Establishment of the United States. Year 19, says 16.

HOUSE OF REPRESENTATIVES.

Mr. MERCER, from the Committee on Roads and Canals, reported a bill to authorize the purchase of suitable sites for the erection of Hospitals on the Western Waters and Lakes, read twice and committed.

Mr. LANE, from the Committee on the District of Columbia, made a report on the subject of imprisonment for debt, with resolutions calling upon the Secretary of State for certain information in regard to the number of cases of imprisonment for debt in the District, &c. which he over one day.

Mr. BOON, from the Committee on public lands, reported a bill to amend the act granting lands to certain exiles from Poland. The bill was read twice, and Mr. BOON moved that it be engrossed for a third reading, as it made no further appropriation, and did not require to be committed.

Mr. GRANGER proposed the engrossing at present, until the bill had been further examined. He had information, he said, that the grant to the Poles had been conveyed, by them, to the purposes of very improper speculations. They had located their lands upon unsurveyed tracts which had been improved and rendered valuable by American citizens, who had been, in this manner, unjustly deprived of them, in their possessions on the preemption laws not having been yet extended there.

Mr. BOLDIN followed on the same side. He condemned the original grant of 36 sections of land to the Poles, while the government were so tardy in their bounty to the old revolutionary soldiers, and to their own destitute citizens. He also understood that the Poles had located their sections on both sides of a river, and embraced therein the improvements of the early settlers in that country.

Mr. BOLDIN's remarks were arrested by the arrival of the hour assigned for the special order.

POST OFFICE DEPARTMENT.

The House resumed the consideration of the bill to change the organization of the Post Office Department, and to provide more effectually for the settlement of the accounts thereof.

The question being on the motion to reconsider the vote by which the rate of postage was reduced, from the rate proposed in the bill, long debate took place.

Mr. MANN, of N. Y. appealed to the House to close the discussion and come to the vote. The Post Office bill was next in order, and he earnestly hoped that the House would act on that bill to-day.

The prisoner pleaded Guilty to the two last mentioned Indictments; and the District Attorney entered a nolle prosequi on the two others.

The Court sentenced the said Arthur Dashiell to be imprisoned in the Jail of Baltimore County for two years and six months, and pay a fine of \$5, and costs, on each conviction—making in all five years imprisonment.

The Court being satisfied of the prisoner's inability to pay, inflicted merely a nominal fine.

EXPLANATION.—We find it stated in both the afternoon papers that in the report of the case of the United States vs. Arthur Dashiell, which appeared in our paper of yesterday morning is incorrect, and as the statement in both papers is in precisely the same words, we presume it was furnished to both by the report was furnished by an individual whom we considered very competent to give it correctly and whom we could not suppose had any motive to state what was incorrect. We certainly had no wish to make any misrepresentation with regard to the matter and must leave it to the person who furnished the report to correct it if it is incorrect.

CORRESPONDENCE.

WASHINGTON CITY, 11th April, 1836.

Dear Sir:—I have received several letters from different parts, informing me that a report is in circulation, and very industriously circulated, that Mr. Van Buren is a Roman Catholic.

This is no doubt for political effect, intended to prejudice his election with the more rigid sectarians. I have, heretofore, answered briefly in general terms that there was no truth in the statement; but believing, from the number of inquiries that were made, that the statement was widely spread, and that its unjust and unworthy influence should be arrested and re-acted by a public statement of the truth, I applied to Mr. Vanderpool, the Representative from the district in which Mr. Van Buren was born and raised, for the facts.

In reply to my application he placed in my hands a copy of a correspondence which had just passed between him and the honorable T. Casey, of Illinois, on the same subject.

To avoid the labor of multiplying manuscript copies, and to satisfy at once all inquiries on this subject, I have permission to forward the correspondence for publication. Thus, to appeal through the medium of falsehood, as this report does, to the prejudices and feelings of the people, against a principle too sacred to the public security, and the honor of the nation, and to arrange an opposition with which it is hoped, will have some chance that will be the editor of the Liberator.

TERMS OF REPRESENTATIVES.

April 9, 1836.

Sir:—I have received a letter from a worthy citizen of Illinois, in which he informs me that he is currently reported in that State that the President, Mr. Van Buren, is, or has been, a member of the Roman Catholic Church, and that he and others are desirous to ascertain whether such be the fact.

I am aware of the delicacy of this inquiry and fully subscribe to the principle which secures the right of conscience, as well as the political prescription in account of religious opinions; yet I cannot conceive that there can be any objection on the part of Mr. Van Buren, in the situation in which he is placed, to have the fact in regard to it truly stated, so long as it is deemed of sufficient importance for enquiry by any respectable portion of his fellow citizens. Although I well know here that the particular allegation, above stated, is wholly groundless, yet in compliance with the wish of my correspondent, in the purity of whose motives I have entire confidence, I feel it to be my duty to obtain, from some authentic source a full reply to this question.

And as you represent this district in which Mr. Van Buren was born, and are fully acquainted with the facts; take the liberty to request of you the information solicited.

I have the honor to be, Your obedient servant, ZADOCK CASEY.

Hon. AARON VANDERPOOL.

WASHINGTON CITY, HOUSE OF REPS. 9th April, 1836.

Sir:—I have just received your letter of this date, requesting me to state for the information of certain citizens of Illinois, whether Mr. Van Buren is, or has been a member of the Roman Catholic Church.

Agreeing with you in the great principle to which you refer, as well as also in the belief, that there exists no just and valid objections to have the fact upon this point to which your enquiry relates truly stated, I cheerfully comply with your request.

I have been acquainted with Mr. Van Buren and his family from my earliest recollection. I was born in, and now reside in Kinderhook, which is the native town of both of us. He is not, and never has been a Roman Catholic. That there may no longer be any excuse for the further circulation of the statements which have already been so extensively and industriously spread upon this subject, I have thought proper, in fulfillment of your wishes, to obtain his authority for this declaration.

Mr. Van Buren was bred in the religious principles of the Reformed Protestant Dutch Church, whose tenets are similar to those of the old Presbyterian Churches. Whilst he resided in Kinderhook this was the only Church in the village, his parents attended it; and he was baptised in it; and until his removal to the city of Hudson, he was a regular attendant on its services. There being no Dutch Church in Hudson, and Mrs. Van Buren becoming a member of the Presbyterian Church at that place, he attended with his family, until her death, a Church of that denomination, first at Hudson, and afterwards at Albany, under the care of the late Dr. John Chester. Since the death of Dr. Chester, which occurred I think in the beginning of 1830, he has been a preacher in the Church, and has usually attended, when in Albany, on the ministrations of the Rev. Dr. Welsh, of the Baptist Church, a sect to which, I presume, may be ascribed to personal friendship, and to the high character of that distinguished clergyman for ability and eloquence.

It is due to Mr. Van Buren to add that he is no Sectarian, and he uniformly has been and is a decided advocate of freedom of conscience, and of the equal rights of all persons to participate in the privileges and blessings secured by our constitution.

I have the honor to be, Your obedient servant, AARON VANDERPOOL.

DEMOCRATIC CANDIDATES.

FOR PRESIDENT, MARTIN VAN BUREN, OF NEW YORK.

FOR VICE PRESIDENT, RICHARD M. JOHNSON, OF KENTUCKY.

ELECTORS.

For the Eastern Shore—W. A. SPENCER. For the Western Shore—HUG BLY. First District—JAMES A. STEWART. Second District—EDWARD LLOYD. Third District—J. T. H. WORTHINGTON. Fourth District—W. FRICK & A. THOMAS. Fifth District—JOSEPH HOLMAN. Sixth District—WASHINGTON DUVAL.

In another column will be found the correspondence between Messrs. Casey and Vanderpool relating the allegation, made by the opponents of Mr. Van Buren, that he is a Roman Catholic. The fact is he is not a Roman Catholic nor never was, but if such were the fact, it would certainly be nothing to his discredit; and the charge so frequently urged by the opposition only goes to show the advantages they would take from the circumstance, by turning it into an electioneering weapon against Mr. Van Buren.

We heartily despise such despicable means to advance political schemes, and feel every man is privileged to worship his God after his own fashion, that an attempt so weak and impure to detract from the popularity of Mr. Van Buren will be as unsuccessful in its effect as it is ridiculous and insulting to the understanding of the People.

PARDON.—The Governor of the State has pardoned the persons who have been confined in the Baltimore county Jail for having been concerned in the city riots in August last.

The Hon. Isaac Hill has resigned his seat in the U. S. Senate, to enter on the duties of his new office of Governor of New Hampshire.

The late mails bring no news of interest from Texas or the scene of Indian depredations.

We lay before our readers this morning the Report of the majority of the Joint Committee on the subject of Internal Improvement. It will be seen that the conclusion to which they have come is, that it is at this time inexpedient to make any further appropriation to any of the several works of Internal Improvement in the State.

So much of the Report as speaks of the Eastern Shore Rail Road will be of peculiar interest to every citizen of this community; for it forcibly presents the very great doubt of this work ever realizing a single iota of the anticipations of its friends, and even as a work of doubtful utility. It says:—

Now, notwithstanding the full concurrence of the undersigned in the opinion that the Eastern Shore is justly entitled, in common with other portions of the State to its aid and patronage, so far as the same can be judiciously applied to the improvement and promotion of the interests, welfare and happiness of that portion of the citizens, yet not believing that the Eastern Shore Rail Road is a work from which such results would flow, they cannot recommend any appropriation to it. The construction of such a work, so extensive and general in its character, for the transportation of produce, must be useless in a country abounding as does that section of the State in both navigable streams, offering at the door of almost every citizen the best and cheapest facilities of transportation to every market on the globe.

The mere convenience to the citizens of that shore, in their travels will surely not be urged as an argument in favor of an appropriation; and should it become the great thoroughfare of travel from North to South—in which opinion we do not concur—while it would afford a convenience to the citizens of other States, we believe that we are warranted in the assertion, that so far from any benefit resulting to our own citizens from travelling, it will be directly and positively injurious. But, its becoming such a thoroughfare must certainly arise and grow out of taking that trade and travel to a rival city, which has been our effort to carry to our own. And again, in the opinion of the undersigned, no appropriation should be made to this work (no appropriation should be made to this work) which would not be permanent good to our citizens; for with it, will be forever closed all patronage to that section of the State; and no matter what plan or system of improvement may hereafter be devised, amounting as it may in the greatest promise of benefits to the whole shore, or any part of it, yet to it, no appropriation will be ever made, no patronage extended. The Eastern Shore abounding probably in greater natural facilities of transportation than almost any country of improvement by rail roads and canals necessary, their construction useless, still opens a rich field for the safe, judicious and beneficial application of the aid of the State. But no general system would there effect any valuable end. The same means which might be productive of the greatest good in one or many copies of the shore, might in others be a positive injury, or at least inefficient for any good or valuable purpose.

However, it is more than probable that the seven and a half million bill will pass, in which one million of dollars are appropriated to the above work, and the loan proposed to be made in Europe will be speedily effected, and the State become saddled with an increased public debt! How the people of the State, or more particularly the people of this Shore, will bear the burden we are not able to say.

From the Correspondent of the Baltimore Gazette.

ANNAPOLIS, May 30th, 1836.

On the Senate to-day, a message was adopted, on motion of Mr. Mayer, asking the House to reconsider its vote on the supplement to the Charter of the Baltimore and Susquehanna Rail Road Company.

The further supplement to the charter incorporating the Susquehanna and Patuxent Canal Company, being the order of the day, was then taken up for consideration. Various amendments were proposed by Messrs. Mayer and Groome, all of which were rejected, and the bill as it came from the House passed by a vote of 9 to 4.

The House of Delegates, at 10 o'clock, resumed the consideration of the unfinished business of Saturday—being the amendment proposed by Mr. Pratt to the 7th section of the bill for the promotion of Internal Improvements. Mr. Merrick addressed the House in opposition to it. He contended that the adoption of the amendment would be equivalent to the rejection of the bill—he hoped it would be considered a test question and called upon every friend of the bill to oppose it. He was replied to by Mr. Pratt.

Mr. McLean spoke at large in opposition to the proposed amendment and replied particularly to the remarks of Mr. P. A call of the House was taken for the yeas and nays. Upon the question of the amendment, he had voted the yeas, and the question was taken by yeas and nays. On counting the votes, it appeared that there was 36 in favor of and 41 against the amendment. Mr. P. then proposed other amendments of different shape of equivalent effect, all of which were rejected by about the same vote.

The bill was then passed by Mr. DuCock, requiring the Rail Road Company to secure the State six per cent interest annually upon the amount loaned to it, was pending at ten o'clock, when an adjournment which had been repeatedly moved, was finally carried.

We may now form an opinion, with reliance, as to the ultimate fate of the bill. Parties are fairly arrayed against each other. The votes on the various propositions of Mr. Pratt were considered as test votes. They were test votes and it is believed by every one that the final vote will be more or less different.

I have understood that Governor Vesey, after mature consideration, has ordered pardons to be issued to individuals who are now imprisoned in the Baltimore Jail for being engaged in the riots of August last.

SANTA ANNA TO GEN. PIJLASOLA.

Army of Operations coast division under my command.

Having yesterday had an unfortunate encounter, I have resolved to remain a prisoner of war in the hands of the enemy. After having had a long conversation, I therefore hope that your Excellency will cause the division under the command of Gen. Parza to counter-march to Bexar, where he will wait for orders.—Your Excellency will also return to the same place, and order Gen. Viesca with his division to Guadalupe Victoria. I have agreed on an armistice with Gen. Houston, in terms, until we agree upon terms lasting six weeks. I have also agreed on the maintenance of the army, which will remain under your command. The money that has arrived at Matamoros and the provision of that place, and that of Victoria will be subject to your orders; also 20,000 dollars that may be in the Treasury, are to be taken from Bexar. I trust that your Excellency will without fail comply with these dispositions advising me of every return of couriers as also, if any should occur to your accomplishment. God and Liberty. TEXAS.

The following remarks from the Baltimore American will be read with interest by all who have watched the affairs of struggling Texas and beheld her glorious emancipation from the thralldom of a despot and a tyrant.

An interesting debate occurred a few days since in the Senate of the United States upon a motion to refer to the Committee on Foreign Relations memorials from various parts of the Union praying for the recognition of the independence of Texas. Although in the course of the debate much sympathy was expressed for the Texans by most of the speakers, and the interest which the United States, the northern States as well as the southern, had in their success, the disposition was universally manifested to act on the question of recognition with the caution, dignity and justice which our Government has ever shown in similar cases, and as with the now Spanish American States, and the changes of government in the old European States, to look merely to the fact of the establishment of a government, without regard to its source or principles. As there is a de facto government in Texas, it will be acknowledged by Webster.

Mr. Calhoun said that he had made up his mind not only to recognize the independence of Texas, at the proper moment, but for her admission into the Union. He thought the Senate would soon be called upon to decide these questions and when they did act, "he was for acting on both together, for recognizing the independence of Texas, and for admitting her into the Union." Within a month it may be proper to recognize the independence of Texas, but if within that period she is admitted into the Union, it must of course be merely as a Territory; for her population at this moment does not amount to more than half that required in a new State.

Mr. Sherwood—I am a man that seldom needles in political matters pro or con; but sir, I never like to see an erroneous opinion set afoot, and believed by the people merely from the first dictum of a string of proceedings passed at a meeting, formerly styled "A meeting of the citizens." On the 24th ult. a meeting of the citizens of Talbot and the adjacent counties was held in the Court House at Easton, and the result of that meeting, as published appears that some very favorable measures were adopted relative to the great Internal Improvement Scheme, as proposed by Col. This opinion has no doubt had its effect upon other sections of the State, causing the people to believe such were the real sentiments of Talbot. FRENCH INDEMNITY.—The Agent of the United States in Paris, having received from the Government of France the sum of frs. 18,486,666 52, on account of the indemnity of 25 millions of France, under the treaty of July, 1831, the amount of which is now in the course of transmission to this country, the claimants holding certificates from the Treasury Department are hereby notified that the Bank of America, in behalf of the United States, and by authority of the Secretary of the Treasury, will advance and pay, on the 15th of June next, a proportional part of their respective certificates, equal to at least the ratio of 50 cents on the dollar of the above-mentioned sum received by the Agent in Paris, together with the same ratio of the sum there deducted, and to be repaid here out of the Treasury of the United States; being frs. 1,180,000.—The said certificates must be presented at the Bank for that purpose, by the parties to whom they shall have been issued, or by their legal assignors, or duly constituted Attorneys.
The residue of what has been received in Paris, and of the sum deducted there, will be paid out here, soon as the former arrives, and the net proceeds of the whole can be ascertained.
TREASURY DEPARTMENT, May 25, 1836.

A New York paper states that an importing house of that city has already received an order for nearly \$2000 worth of wines, intended expressly for the fourth of July Dinner of the honorable corporation.

Commodore HULL and LADY arrived at Boston on Tuesday week last, from Palermo.

We learn that the subscriptions to the stock of the "Citizens Bank" continue to be very liberal, more than 17,000 shares having been taken up to the time of closing yesterday. This result, considering the scarcity in the money market, is decisive of the estimation in which this institution is held, and must be highly gratifying to its friends and projectors.

26,000 SUBSCRIBERS!
PHILADELPHIA MIRROR
THE splendid patronage awarded to the Philadelphia Saturday Courier, induces the editor to commence the publication, under the above title, of a quarto edition of his paper, near TWENTY-SIX THOUSAND SUBSCRIBERS.—The new feature recently introduced of furnishing their readers with new books of the best literature of the day, having proved so eminently successful; the plan will be continued. Six volumes of the celebrated writings of Captain Maryatt and sixty-five of Mr. Brook's valuable Letters from Europe, have already been published without interfering with its news and miscellaneous reading. The Courier is the largest and cheapest family newspaper ever issued in this country, containing articles in Literature, Science and Arts; Internal Improvement; Agriculture; in short every variety of topics usually introduced into a public journal. Giving full accounts of sales, markets, and news of the latest dates.
It is published at the low price of \$2. For this small sum subscribers get valuable and entertaining matter, each week enough to fill a common book of 200 pages, and equal to 52 volumes a year, and which is estimated to be read, weekly, by at least two hundred thousand people, scattered in all parts of the country, from Maine to Florida, and from the sea board to the lakes. The paper has been so long established as to render it too well known to require an extended prospectus, the publishers, therefore will do no more than refer to the two leading daily political papers of opposite politics. The Pennsylvania says— "The Saturday Courier is the largest, and one of the best family newspapers in the Union;" the other, the Inquirer and Daily Courier, says "it is the largest journal published in Philadelphia, and one of the very best in this United States." The New York Star says— "We know of nothing more liberal on the part of the editors, and no means more efficacious to draw out the dormant talents of our country than their unexampled liberality in offering literary prizes."
The Albany Mercury of March 18th, 1836, says "The Saturday Courier, is decidedly the best Family Newspaper ever published in this or any other country, and its value is duly appreciated by the public, if we may judge from its vast circulation, which exceeds 25,000 per week. Its contents are agreeably varied, and each number contains more really valuable reading matter than is published in a week in any daily paper in the Union.—Its mammoth dimensions enable its enterprising proprietors, Messrs. Wright and Clarke, of Philadelphia, to publish in its columns, in the course of a year, several of the most interesting new works that issue from the British press; which cannot fail to give to its permanent interest and render it worthy of preservation. To meet the wishes therefore, of such of their subscribers as desire to have their numbers bound, they have determined on issuing an edition of the Courier in the quarto form, which will render it much more convenient for reading when it is bound in a volume, and thus greatly enhance its value."
THE QUARTO EDITION.
Under the title of the PHILADELPHIA MIRROR, will commence with the publication of the price Tale, to which was awarded the prize of \$100, written by Miss Leslie, editor of the splendid Annual the Token, and author of Pencil Sketches and other valuable contributions to American Literature. A large number of songs, poems, letters, &c. offered in the more convenient form of a premium, will add value and interest to the succeeding numbers which will also be enriched by a story from Miss Sedgwick, author of Hope Leslie, The Linwoods, &c., whose talents have been so justly and extensively appreciated both at home and abroad.
The approved FAMILY NEWSPAPER is strictly neutral the religious and political matters, and in uncompromising opponent of quackery of every kind.
MAPS.
In addition to all of which the publishers intend furnishing their patrons with a series of engraved Maps, embracing the twenty-five States of the Union, &c. exhibiting the situation, &c. of rivers, towns, mountains, lakes, the sea board, Internal Improvements, as displayed in canals, rail roads, &c. with other interesting facts and distances, and forming a complete Atlas for general use, and information, handsomely executed, and each distinct map on a large quarto sheet at an expense which nothing but the splendid patronage which for six years past has been so generously extended to them could warrant.
TERMS:
The Philadelphia Saturday Courier is still continued in its quarto form, at the same price as heretofore. The Philadelphia Mirror, being a quarto edition of the Saturday Courier with its increased attractions, and printed on the best fine white paper of the same size as the New York Albion, will be put at precisely one half the price of that valuable journal, viz: Three Dollars per annum, payable in advance (including the Maps & CLARKE, Philadelphia.

OF CHOICE LITERATURE.

To say that this is a reading age, implies a desire for instruction, and the means to gratify that desire. On the first point, all are agreed, and on the second, there is diversity both of opinion and of practice. We have newspapers, magazines, reviews, in fine, pamphlets of all sizes, on nearly all subjects, which have severally their classes of readers and supporters. And yet, copious as are these means of intellectual supply, more are still needed. In addition to the reviews of the day, and passing notices of books, the people, in large numbers, in all parts of our great republic, crave the possession of the books themselves, and details, beyond mere passing allusion, of their contents, and of their merits and demerits. But though it is easy to ascertain and express their wants, it is not so easy to gratify them. Expense, distorting occupations which prevent personal application or even messages to libraries and booksellers, are so many causes to keep people away from the feast of reason, and the enjoyments of the coveted literary aliment. It is the aim of the publishers of the Library to obviate these difficulties, and enable every individual, at a small cost, and without any periodical effort, to obtain for his own use and that of his favored friends or family, valuable works complete, on all the branches of useful and popular literature, and that in a form well adapted to the comfort of the reader.

The charm of variety, as far as it is compatible with morality and good taste, will be incessantly in view in conducting the Library, to fill the pages of which the current literature of Great Britain, in all its various departments of Biography, History, Travels, Novels and Poetry, shall be freely and judiciously contributed. No purchase, occasional exceptions, is intended to give entire the work which shall be selected for publication. When circumstances authorize the measure, recourse will be had to the literary stores of Continental Europe, and translations made from French, Italian, or German, as the case may be.

Whilst the body of the work will be a reprint, or at times a translation of entire volumes, the cover, will exhibit the most elegant and useful illustrations, and consist of sketches of men and things, and notices of novelties in literature and the arts, throughout the civilized world. A full and regular supply of the literary monthly and bi-monthly journals of Great Britain and Ireland, in addition to home periodicals of a similar character cannot fail to provide ample materials of its part of our work.

The resources and extensive correspondence of the publishers, are the best guarantee for the continuance of the enterprise in which they are now about to embark, as well as for the abundance of the materials to give it value in the eyes of the public. As far as judicious selections and arrangement are concerned, readers will, it is hoped, have reason to be fully satisfied, as the editor of the Library is of a stranger to them, but has more than once obtained their favourable suffrages for his past literary efforts.

TERMS.

The work will be published in weekly numbers, containing twenty imperial octavo pages with double columns, making two volumes a calendar, or than 220 octavo pages, each number, at the expiration of every six months, it will be furnished with a handsome l'opage and table of contents. The whole amount of matter furnished in a single year will be equal to more than forty volumes of common sized English duodecimo bookbinder's cost of which will be at least ten times the price of a year's subscription to the "Library." The paper upon which the Library will be printed, will be of the finest quality used for book-work, and of a size admirably adapted for binding. As the type will be entirely new, and of a neat appearance, each volume, when bound, will furnish a handsome, as well as valuable, and not common addition to the libraries of those who patronize the work.

The price of the Library will be five dollars per annum payable advance.

A commission of 20 per cent, will be allowed to agent, and my agent, or postmaster furnishing five copies for book-work, and of a size admirably adapted for binding. The amount of subscription shall be entitled to the commission of 20 per cent or a copy of the work for one year.

A specimen of the work, or any information respecting it may be obtained by addressing the publishers post paid. Address, E. L. CAREY & A. HART, Philad'a.

Easton and Baltimore Packet, SCHOONER

JOHN EDMONDSON, Robson Leonard, Master.

The Subscriber grateful for the past favours of generous public, begs leave to inform his friends and public generally, that the above named Schooner, will commence her regular trips between Easton and Baltimore, on Sunday the sixth of March, at 9 o'clock, in the morning, and returning will leave Baltimore on the following Wednesday at 9 o'clock, in the morning, and continue to sail on the above named days during the season. The John Edmondson is now in complete order for the reception of Freight or Passengers; having sailed as a Packet for about six months and proved to be a fine sailed and safe boat, surpassed by no vessel for safety in the bay. All Freight intended for the John Edmondson will be thankfully received at the Granary at Easton Point, or elsewhere at all times, and all orders left at the Drug Store of Dr. Thomas H. Dawson & Son, or with Robert Leonard who will attend to all business pertaining to the packet concern, accompanied with the Cash, will meet with prompt attention.

Easton and Baltimore Packet, THE SPLENDID NEW SLOOP THOMAS HAYWARD.

WILL commence her regular trips between Easton and Baltimore, on Wednesday the 2nd of March, (weather permitting) leaving Easton Point at 9 o'clock, and returning will leave Baltimore at 9 o'clock on the following Saturday, and continue sailing on those days throughout the season.

The THOMAS HAYWARD has run as a packet, giving general satisfaction as a fine sailed and safe boat. It is fitted up in a highly commodious manner for the accommodation of passengers, with State Rooms for Ladies, and comfortable berths; and it is the intention of the subscriber to continue to furnish his table with the best fare that the market affords.

Passage \$1.00; and 25 cents for each meal.

Freights will be received as usual at the subscriber's granary at Easton Point by Mr. P. Barwick, who will faithfully attend to the reception in the absence of the subscriber; and all orders left at the Drug Store of Thomas H. Dawson & Son, or at the subscriber's residence, will receive his personal attention, as he intends, himself, to take charge of his vessels.

The subscriber has employed Mr. N. Jones as Skipper, who is well known as a careful & skillful sailor, unsurpassed in experience and knowledge of the bay.

Thankful for the liberal share of patronage he has hitherto received, he will spare no pains to merit a continuance of the same.

The public's obedient servant,

SAMUEL H. BENNY.

THE WHIG AND PEOPLE'S ADVOCATE. Printed and published by GEORGE W. SHEPHERD, (PUBLISHER OF THE LAWS OF THE UNION.)

THIRD VOLUME OF THE Ohio Farmer, AND WESTERN HORTICULTURIST.

In presenting a prospectus for the THIRD VOLUME OF THE OHIO FARMER to the public, the Editor conceives it unnecessary to enter into a minute detail of its character and object.

THE OHIO FARMER will be devoted to Original Essays, and articles selected from the best works, and occasionally illustrated by ENGRAVINGS.

CONDITIONS. The farmer is published twice a month, at \$1.00 in advance.

POETRY. A letter went through the Boston Post Office yesterday, bearing the following poetic direction:

Pat Marphy my footman desires to suit, And so quick on his errands to go; Had walked till he fairly had worn in his boot A little round hole at the toe.

SHAMBERG.—A teacher named Mathews, of New York, who had charge of a school, so-called, in the town of Shamberg, N. Y.

FOR THE WHIG. THE FORTUNE TELLER. "Ay, think upon the cause—Forget it not—when you lie down to rest, Let it be black among your dreams; and when The moon returns, so let it stand between The sun and you, as an ill-omen'd cloud Upon a summer day."

FELIX was of a melancholy cast of disposition, and had a particular love for the romantic. One evening being sorely depressed in spirits he closed Scott's admirable work on "Demoniology and Witchcraft."

Just after twilight on the following evening he entered the gloomy cabin of the Fortune Teller, which was located in a retired and thinly settled part of the village.

"Madam," said he, accosting the sybilic matron as she made her appearance—"I'm told you're deeply versed in the art of foretelling the fate and fortune of a man; so if you can tell me truly, or point to me clearly, my road of life demand what pay you please."

"But to proceed," she replied; "and to show you my skill, I'll tell of matters past before I look into future things yet to come."

"Your life's been desolate. You loved and hated off by turns. But there was one you truly loved—you told her so, and she poor girl believed it. But, be it an eternal honor to the sex, (here she raised herself erect and a beam of light flashed from her care worn brow) all are not disloyal in their love! Yes, there was one you swore upon the altar of your honor that you loved."

"When lonely woman stoops to folly And finds too late that men betray, What charm can soothe her melancholy, What art can wash her guilt away?"

will be your slave forever! play not thus upon the cords of a heart now nearly burst with emotions indescribable.

"Once" the Fortune Teller proceeded, "she lay upon the cold heath—the bare earth her bed, the silvery arch of Heaven her only covering. There was no arm on which she could recline her aching head, no voice to cheer her, and all was quiet as the dead of night could make it, save the barking of some straying cur.

"Woman," said Felix "if thou who knowest, full well, will tell me where the wronged Emma is, (though twelve years have now elapsed, I'll ask her forgiveness and take her to my breast in the sincerity of a penitent heart."

LIFE INSURANCE. Jack was one of our oldest subscribers. He took the Mirror thirteen years ago, and continued it ever since.

COL. JOHNSON. This gentleman, who has been nominated by the republican party, for the distinguished station of Vice President, and who is so deservedly popular with the Democracy of the Union, pays the price of that popularity in being made a target at which the opponents of free principles direct their poisoned arrows.

Distillation of Salt Water.—P. Nicole, of Dieppe, is stated to have succeeded in procuring fresh water from the distillation of sea water, by simply passing the steam of the latter through a stratum of coarsely powdered charcoal, in its way to the condenser or worm-tub.

U. S. Insolvent Laws.—We have been informed that the U. S. Insolvent Laws will expire on their own limitation early in the ensuing year.

ry curious, too, had a heart; and they loved each other with passionate, ever increasing ardor.

"Do you mean it?" "Never thought of it. Pass the bottle."

Jack was like the Mirror. He was excellent, with one exception. He, too, had a single fault. He was humane, clever, true and affectionate; but he was poor.

He disapproved of the measures leading to consolidation and disunion.

He disapproved of the attempts to stop the Mail on Sunday—leave that to the conscience of men and women.

He disapproved of any qualification but age and residence in a voter at the polls.

He disapproved of opposition to law by violence and resistance.

He disapproved of the irrisponsible tenure by which our judges hold their offices—the Constitution should be amended.

He disapproved of that part of the Constitution which makes the Senatorial term six years—the more irresponsible the power, the more dangerous the liberty.

He disapproved of the power of the federal Judges to declare state laws unconstitutional; it may sometimes, cure an evil, but it is itself a greater evil.

He disapproved of the measures leading to consolidation and disunion.

He disapproved of the attempts to stop the Mail on Sunday—leave that to the conscience of men and women.

FATE OF A ROBBER AND HIS WIFE. We translate the following from a late French paper.—An individual passing through the wood in the department of Langres, at the commencement of the evening, was stopped by a man with a pistol in his hand, who demanded his purse or his life.

The woman immediately knew that the person she had sheltered was the individual her husband had robbed, and she disclosed to him what had passed during the absence of the robber, and they agreed that the man should mount the hay-loft when the stranger was asleep, and precipitate him into the under apartment, where the woman was to stand prepared with a hatchet ready to dispatch him.

On Friday last, a young gentleman of this city, aged about 18 years, son of Mr. James B. Oakley, of Greenwich-street, died at Middletown, Ct. in consequence of a blow from a piece of wood thrown at him by a school-mate.

Effects of Leap Year.—Encouragement to unmarried ladies.—Joined in the "holy bonds" of matrimony on Thursday evening last in this city, by the Rev. Mr. La Crosse, the Rev. Asher Gilbert of Troy, aged 80 years, to Mrs. Mary Comstock of Putnam county, aged 75 years, late widow of Daniel Comstock, deceased, making the fourth time Mrs. Comstock has been led to the hymeneal altar.

The fair sex, naturally more affable, more complaisant, and courteous than men, have also more politeness; and it is chiefly in the conversation of the ladies that we learn to be civil and polite from the desire we have to please them.

Effects produced on the Scotch by their popular Songs.—No man who has lived amongst the peasantry of Scotland will deny the effects produced on them by their popular songs.

The citizens of New Orleans, as we learn from the N. O. Advertiser of the 7th, have caught an abolitionist. He forged free papers for a couple of negroes, and was overheard quoting scripture to persuade them to rob the masters and to fly to a land where their rights would be respected.

CONGRESS. There has been little business worthy of notice transpired in either House of Congress for several days past.

On Thursday last the following business (and all of any note) was transacted in the Senate. INCENDIARY PUBLICATIONS.

On motion of Mr. Calhoun, the unfinished business of yesterday was laid on the table. The Senate proceeded to consider the bill prohibiting deputy postmasters from receiving or transmitting through the mail to any State, Territory, or District, certain papers therein mentioned...

The amendment offered by Mr. Grundy, was agreed to. The bill was reported to the Senate as amended. Mr. Morris then asked for the yeas and nays on the engrossment of the bill; and they were ordered.

The question being taken, it was decided as follows: YEAS—Messrs. Black, Brown, Buchanan, Calhoun, Cuthbert, Goldsborough, Grundy, King, of Alabama, King, of Georgia, Moore, Nicholas, Preston, Rives, Robinson, Tallmadge, Walker, White, Wright—18.

NA YS—Messrs. Benton, Clay, Davis, Ewing, of Ill., Ewing, of Ohio, Hendricks, Hubbard, Kent, Morris, Niles, Prentiss, Ruggles, Shepley, Southard, Swift, Tomlinson, Wall, Webster—13. The Vice President then took the Chair, and gave the casting vote in the affirmative. So the bill was ordered to be engrossed.

CHRIST CHURCH.—We extract the subjoined description of a splendid new building just erected in Baltimore by the congregation under the pastoral charge of the Rev. Mr. Johns, which was on Friday last, as we learn from the Baltimore papers, consecrated to the service of God, in a very becoming manner.

"The Church is an oblong, fronting on North Gay st. 71 feet and extending on Fayette street 108 feet. The grand entrance is on Gay street by a flight of stone steps extending the whole front of the building, and reaching to a large portico, covered by a portico supported by six fluted columns. There are three doors in front leading through spacious halls into a series of rooms, the most of which are in the rear of the church is not yet completed. The interior of the building is truly magnificent. The pulpits and reading desk are exquisitely polished mahogany, and are situated in a recess at the western extremity of the church, with columns on each side. The pews have mahogany scroll backs, cushioned, and furnished with carpets and cushions and the aisle and area around the altar and lighted by gas lamps.

The gallery is splendidly chandeliers, and is lighted with gas, which is also supplied in to lamps in the gallery and throughout the church. The pews in the gallery are of similar construction to those below, whilst two galleries on either side of the choir are devoted exclusively to Sunday school scholars. The organ is the manufacture of Mr. Henry Erben, New York, and is of very superior tone and workmanship, reflecting the highest credit upon the artist. The spacious light and airy apartments in the basement story are designated for Lecture Room, Sunday Schools, &c. and are admirably adapted for those purposes. The building will be entirely surrounded by an elegant iron railing, a great part of which is already put up. The coup de oeil both of the architecture and the interior arrangements of this church is very fine. Every thing has been designed with special regard to an elegant, chaste and classical simplicity.

The Chandeliers, (if gas lamps can be so well adapted to the interior of a church) were manufactured by the Adams Company of this city and may challenge comparison with the workmanship of any other city."

INTERNAL IMPROVEMENT BILL PASSED. We have been informed by a gentleman from Annapolis that the Internal Improvement Bill has been passed by a majority of about 19 votes. We are not in possession of the provisions of the bill, but as soon as we are, they shall be presented to our readers.

By last night's mail we received the vote on the above bill. In the House of Delegates the vote stood thus: Affirmative—Messrs. Heard, Fowler, Dickinson, Carroll, of St. Marys, Lassell, Pringle, Kirby of Kent, Miller, Wadley, Wiggins, Hood, Mercer, Kent, Wadley, Wiggins, Merrick, Ely, Brown, Carroll, of Balt., Wilson, Long, Teackle, Jones, Dennis, Brown, Palmer, Larimore, Hensley, Kirby, of Queen Anne, Willis, Auman, Duvall, Shriver, Carter, Turner, Burkhart, Hardcastle, Richardson, McLean, Wharton, Newcomer, Brookhart, Fry, Beam, McMaton, Matthews, Berry, and Frantz—49.

Negative—Messrs. Sigsbee, Duke, Carpenter, Hamilton, Dudley, Brut, Mullikin, Ford, Brolaw, Hayley, McCullough, Nowland, Fowlesend, Henderson, Ball, Worthington, Bryan, Duckett, Spence, Whitelock, Blair, Gills, Boyd, Sutton, Gough, Nelson, Gettings, Darby, Trundle—29.

In the Senate the vote was as follows: Affirmative—Messrs. Chapman, (President), Emory, Forrest, Hightitt, Page, Morris, Mayer, Sappington, Wootton, Montgomery, and Piquant—11. Negative—Messrs. Claude and Groom—2.

The 8th section of the Bill provides in reference to the Eastern Shore Rail Road, that if the individual subscriptions to the stock are not made to an amount to commence the road as stipulated in the act, then the million of dollars intended for that road is to be applied to the exclusive purpose of internal improvement on the Eastern Shore, and for no other purpose whatever, subject to future legislative disposition.

Section 15 declares that should it become necessary hereafter to lay a direct tax for the support of government, or to sustain the public credit, the same shall be laid on every description of property which now escapes taxation. The Legislature adjourned sine die about 12 o'clock on Saturday night, after passing about 60 laws.

The Philadelphia Sentinel states that Judge Sutherland has it in contemplation to retire from public life at the termination of the present Congress.

Mr. Brooks, of the Portland Advertiser, has arrived in New York. It is said that Capt. Marryatt is clearing \$9,000 a year by his pen.

Carey's Library

OF CHOICE LITERATURE. To say that this is a reading age, implies a desire for instruction, and the means to gratify that desire. On the first point, all are agreed; on the second, there is diversity both of opinion and of practice.

We have newspapers, magazines, reviews, in fine, pamphlets of all sorts on nearly all subjects, which have severely tried their classes of readers and supporters. And yet, copious as these means of intellectual supply, more are still needed. In addition to the reviews of the day, and passing notices of books; the people, in large numbers, in all parts of our great republic, crave the possession of the books themselves, and details, beyond mere passing allusion, of the progress of discovery in art and science.

It is the aim of the publishers of the Library to obviate these difficulties, and enable every individual, at a small cost and without any personal effort, to obtain for his own use and that of his favored friends or family, valuable works complete, on all the branches of useful and popular literature, and that in a form well adapted to the convenience of the reader.

The charm of variety, as far as it is compatible with morality and good taste, will be held instantly in view in conducting the Library, to fill the pages of which the current literature of Great Britain, in all its various departments of Biography, History, Travels, Novels and Poetry, shall be freely put under contribution. With, perchance, occasional exceptions, it is intended to give entire the work which shall be selected for publication.

When circumstances authorize the measure, recourseto will be had to the literary stores of Continental Europe, and translations made from French, Italian, or German, as the case may be.

Whilst the body of the work will be a reprint, or at times a translation of entire volumes, the cover, will exhibit the miscellaneous character of a Magazine, and consist of sketches of men and things, and notices or novelties in literature and the arts, throughout the civilized world. A full and regular supply of the literary monthly and hebdomadal journals of Great Britain and Ireland, in addition to home periodicals of a similar character cannot fail to provide ample materials for his part of our work.

The resources and extensive correspondence of the publishers, are the best guarantee for the continuance of the enterprise in which they are now about to embark, as well as for the abundance of the materials to give it value in the eyes of the public. As far as judicious selections and arrangement are concerned, readers will, it is hoped, have reason to be fully satisfied, as the editor of the Library is of a stranger to them, but has more than once obtained their favourable suffrages for his literary efforts.

TERMS. The work will be published in weekly numbers, containing twenty imperial octavo pages, with double columns, making two volumes an octavo, or about 220 octavo pages, each month; and the expiration of every six months, it will be furnished with handsome type and table of contents. The price of the work will be equal to more than forty tomes of a common sized English duo decimo book; the price of a year's subscription to the "Library." The paper upon which the Library will be printed, will be of the finest quality used for book-work, and of a size admirably adapted for binding. As the type will be entirely new, and of a neat appearance, each volume, when bound, will furnish a handsome, as well as valuable, and not cumbersome addition to the libraries of those who patronize the work.

The price of the Library will be five dollars per annum payable advance. A commission of 20 per cent. will be allowed to agent, and any agent or postmaster furnishing five subscribers and remitting the amount of subscription shall be entitled to the commission of 20 per cent or a copy of the work for one year.

A specimen of the work, or any information respecting it may be obtained by addressing the publishers post paid. Address, E. L. CAREY & A. HART, Philad'a. 02 (G)

NOTICE. THE Commissioners for Talbot County will sit every Tuesday and Saturday for four successive weeks, commencing on Tuesday the 29th inst. to hear appeals. Persons having claims against the County are requested to bring them in properly authenticated before the first Tuesday in July next.

Easton and Baltimore Packet, SCHOONER JOHN EDMONDSON, Robson Leonard, Master.

The Subscriber grateful for past favours of generous public, begs leave to inform his friends and public generally, that the above named Schooner, will commence her regular trips between Easton and Baltimore, on Wednesday the 6th of May at 9 o'clock, in the morning, and returning will leave Baltimore on the following Wednesday at 9 o'clock, in the morning, and continue to sail on the above named days during the season.

The John Edmondson is now in complete order for her reception of Freight or Passengers; having sailed as Packet for about six months and proved to be a fine sailed and s. s. boat, surpassed by no vessel for safety in the bay. All Freights intended for the John Edmondson will be thankfully received at the Granary at Easton Point, or elsewhere at all times, and all orders left at the Drug Store of Dr. Thomas H. Dawson & Son, or with Robert Leonard who will attend to all business pertaining to the packet concern, accompanied with the Cash, will meet with prompt attention.

The Public's Obedt. Serv't. JOSHUA E. LEONARD. Easton and Baltimore Packet. THE SPLENDID NEW SLOOP THOMAS HAYWARD.

WILL commence her regular trips between Easton and Baltimore, on Wednesday the 2nd of March, (weather permitting,) leaving Easton Point at 9 o'clock, and returning will leave Baltimore at 9 o'clock on the following Saturday, and continue sailing on those days throughout the season.

The THOMAS HAYWARD has run as a packet, giving general satisfaction as a fine sailer and safe boat. She is fitted up in a highly commodious manner for the accommodation of passengers, with State Rooms for Ladies, and comfortable berths and it is the intention of the subscriber to continue to furnish his table with the best fare that the market affords.

Passage \$1.00; and 25 cents for each meal. Freight will be received as usual at the subscriber's granary at Easton Point by Mr. P. Barwick, who will faithfully attend to their reception in the absence of the subscriber; and all orders left at the Drug Store of Thomas H. Dawson & Son, or at the subscriber's residence, will receive his personal attention, as he intends, himself, to take charge of his vessels.

The subscriber has employed Mr. N. Jones as Skipper, who is well known as a careful & skilful sailor, unsurpassed in experience and knowledge of the bay. Thankful for the liberal share of patronage he has hitherto received, he will spare no pains to merit a continuance of the same.

The public's obedient servant, SAMUEL H. BENNY. N. B. Orders for goods, &c. should be accompanied with the cash; these not handed to the subscriber by Tuesday evening, will be received at the Drug Store of Messrs. Thomas H. Dawson & Son, where the subscriber will be in waiting until 9 o'clock on Wednesday morning. This request is made in order that the subscriber may be punctual to his hour of sailing.

Persons indebted to the subscriber, are requested to settle by the last day of March, otherwise their accounts will be placed in the hands of an officer, as it is no criterion for me to give that personal attention, I have hitherto one, being much absent from the county. S. H. B

HIGHLY IMPORTANT. Behold, I bring you good tidings.

TO ALL PERSONS AFFLICTED. A Certain Cure for Dyspepsia, Liver, Bilioous, and Nervous Complaints; Jaundice, General Debility, Loss of Spirit; and Diseases incident to Females. DR. LOCKWARD'S Celebrated Vegetable Anti-Dyspeptic Elixir. Symptoms of Dyspepsia.

The first symptoms of this disease is a disagreement of food, producing pain and uneasiness at the region of the stomach; fullness of that organ; belching of wind, with sour, oily, or putrescent eructations; pain and tenderness at the pit of the stomach; pain in the right side, extending after to the right shoulder, and under the shoulder-blade; the same kind of pain is very often experienced in the left side, extending from lying on the right or left side; pain also often from the small of the back, pain and giddiness of the head; dimness of the sight; coated tongue; disagreeable taste in the mouth in the morning after arising; coldness of the feet; a certain remedy or cure for the above diseases this medicine stands incomparably beyond any other now in use. And as nothing more could be requisite to convince the most sceptical of its utility, than the numberless testimonials which have been given in its favor, herefore, those testimonials will speak for it more than all encomiums which could be pronounced.

Wherever it has been used, it has invariably been attended with complete success, and that too, in hundreds of cases, where apparently all hopes of cure have been despair of. It was by this important discovery that the proprietor of the above Medicine, was in a few months, restored to perfect health, after years of the most distressing suffering, and after being abandoned by the profession to die without any hope of relief. Since which, hundreds, nay thousands, have in a like manner been restored from beds of sickness to perfect health.

DR. LOCKWARD—Sir I have made use of your valuable Medicine for the Dyspepsia and Liver Complaints, both of which Diseases I have labored under for about three years—I have read a great many medicines, but all to no effect.—I was induced to give yours a trial, and much to my astonishment & that of my friends, I was in a short space of time completely relieved of my disease. My symptoms, when I first commenced using your medicine, were, a following:—After eating my food I felt great distress at the pit of my stomach, with heartburn, sourness and vomiting of food, great tenderness at the pit of the stomach, accompanied with an acute pain in the right side, extending to the top of the shoulder, connected with the pain, was a prominent enlargement in my right side, pronounced by my physician "an enlargement of the liver." My appetite was variable, sometimes very good, at others a complete loss;—bowels obstinately constive. My head very much affected with giddiness and pain; my eye-sight was also affected with dimness; I was also much vacillated in flesh, and suffered extremely from nervous feelings; sometimes I imagined that a few hours could close my existence; I was disposed to faint constantly cold (especially my feet and hands) in the warmest days in summer. Thus I suffered until life was to me almost a burthen, when, hearing of your medicine I was prevailed upon to make use of it; and contrary to my expectation and the expectation of my friends, I was in a few months restored to perfect health, which I still continue to enjoy. Any person, desirous of knowing the particulars of my case, by calling upon me, in the Bazaar, Harrison's street, I will give the details both as to disease and cure. YACOB D. HAIR, in respect to the standing of the above named gentleman, is from his House Jesse Hunt, late Mayor of Baltimore: "I hereby certify that Jacob D. Hair, is personally known to me as a gentleman of first respectability and standing in the City of Baltimore." JESSE HUNT, Mayor of the City of Baltimore. Easton Nov. 3

...of the subject of Temperance be delivered before each Society within the limits of the Convention.

On motion of the Hon. B. J. Goldsborough, Resolved, That public notice be given to the members of the Temperance Societies by those who shall be selected to deliver sermons or addresses on the Second Sunday preceding the fourth of July, that a general meeting of the members of all the Societies in each county within the limits of this Convention will be held at the county Town on the Fourth of July to celebrate said day by Temperance exercises.

A number of resolutions were presented by the Hon. Judge Hopper, Rev. James Neils, Rev. Mr. Colquhoun and William Harper, Esq., all of which were laid on the table.

On motion, the Convention now adjourned to meet again at 9 o'clock, P. M.

Wednesday, 30th clock, P. M. The convention met.

The Hon. Judge Hopper called up his resolutions, the following of which were adopted, viz:

1st Resolved, That the drinking of ardent spirits is dangerous to the individuals who use them, and holds out a pernicious example to the rising generation.

The Rev. James A. Massey offered the following as a substitute for the 2nd resolution, and the same was adopted.

2nd Resolved, That the traffic in ardent spirits (except purely for medicinal purposes, instead of being licensed by law, ought to be forbidden as a nuisance.

3rd Resolved, That the members of the convention will renew their own exertions in support of Temperance principles and do more earnestly recommend to their brethren on the Peninsula generally a more vigorous effort to enlist the public mind in favour of the Temperance cause.

4th Resolved, That electioneering treats of for inebriety to the members of any State, are productive of most disastrous effects upon society, and tends to the subversion of the free institutions of our country, and therefore should be discontinued by all good men.

5th Resolved, That in the opinion of this Convention the success of the Temperance reformation is retarded by the want of a free circulation of Temperance Newspapers on the peninsula; and this Convention therefore, recommends to the notice of all friends, to the cause the paper about to be established at Centerville.

6th Resolved, That the best interests of Temperance associations forbid any interference with party politics, and that the charge often made, that the members of these associations have political objects in view, which do not appear in the world, are unwarranted.

7th Resolved, That the Temperance Society has been attended with the most salutary effects to the world, by diminishing drunkenness, preventing pauperism, restoring comfort and peace to desponding families, and by bringing together and uniting in one effort many of the good of all churches and parties, thereby convincing gainers that the most discordant opinions upon matters of minor importance will not prevent good men from associating themselves together for great and good objects.

8th Resolved, That the sale of intoxicating drinks in Taverns on the Sabbath is giving to the law keepers, a privilege not extended to other citizens, and is destructive of the morals of the neighborhoods in which they are located.

9th Resolved, That the formation of Temperance Societies among the young pretenses, is important, and in removing the evils of intemperance, and that we recommended the formation of such associations in all schools so far as may be practicable.

The resolutions, some of which were amended, and others restricted, that, prohibiting the sale of liquors, and others recommending total abstinence, from all intoxicating drinks, were adopted by the Convention, and the Convention adjourned to meet at half past 7 o'clock, P. M.

The Convention met, and the discussion was continued till a late hour, when the resolutions were indefinitely postponed.

On motion of the Hon. Judge Hopper, Resolved, That a Convention similar to the one now in session, be recommended to be held at Denton Hill, on the first Tuesday of next May, and that the Temperance Societies on the Peninsula be requested to send ten Delegates from each County.

On motion, Resolved, That the thanks of this Convention be tendered the Trustees of the Methodist Episcopal Church for the use of this Church, and the accommodations afforded the Convention.

On motion of W. A. Spencer, Esq., Resolved, That the thanks of this Convention be tendered to the President for the very able manner in which he has presided, to two Vice Presidents for the respectful and courteous discharge of their duties, and to the Secretaries for their diligent attention to business.

On further motion by the Hon. Judge Hopper, Resolved, That the proceedings of this Convention be ordered for publication in the Editors of Newspapers on this Peninsula, with a respectful request that they insert them.

The Convention adjourned with prayer by the Rev. Mr. Cooper.

A Certain Cure for Dyspepsia, Liver, Biliary, and Nervous Complaints; Jaundice, General Debility, Lowness of Spirits; and Diseases incident to Females.
DR. LOCKWART'S

Anti-Dyspeptic Elixir.
Symptoms of Dyspepsia.

The first symptoms of this disease is a disagreement of food, producing pain and uneasiness at the region of the stomach; fullness of that organ; belching of wind, with sour, oily or putrescent eructations; pain and tenderness at the pit of the stomach; pain in the right side, extending after to the right shoulder, and under the shoulder-blade; the same kind of pain is very often experienced in the left side particularly often lying on the right or left side; pain also often in the small of the back, and tightness of the head; dizziness of the sight; coated tongue; disagreeable taste in the mouth in the morning after arising; coldness of the face; and a general debility, by which all food humors are removed from the system; at the same time it restores the loss of the stomach and bowels, opens obstructions of the Liver, Spleen and Pancreas, and will be found singularly efficacious in diseases of the Kidneys. As a family medicine none will be found cheaper or to answer a better purpose, and being composed entirely of vegetable matter it is perfectly innocent, which renders it more valuable.

As a certain remedy or cure for the above diseases this medicine is incomparably beyond any other now in use. And as nothing more could be requisite to convince the most sceptical of its utility, than the numerous testimonials which have been given in its favor, here are, those testimonials will speak for it more than all encomiums which could be pronounced. Carey's Library
OF CHOICE LITERATURE.
To say that this is a reading age, implies a desire for instruction, and the means to gratify that desire. On the first point, all are agreed, and the second, there is diversity both of opinion and of practice. We have newspapers, magazines, reviews, in fine, pamphlets of all sizes, on nearly all subjects, which have severally their classes of readers and supporters. And yet, copious as are these means of intellectual supply, more are still needed. In addition to the reviews of the day, and passing notices of books, we need, in large numbers, in all arts of our great republic, the possession of the books themselves, and details, beyond mere passing allusion, of the progress of discovery in art and science. But though it is not so easy to gratify them, it is not so difficult to procure them. It is the aim of the publishers of the Library to obviate these difficulties, and enable every individual, at a small cost and without any personal effort, to obtain for his own use and that of his friends or family, valuable works complete, on all the branches of useful and popular literature, and that in a form well adapted to the comfort of the reader.
The charm of variety, as far as it is compatible with morality and good taste, will be held in view in conducting the Library, to fill the pages of which the elegant literature of Great Britain; in all its various departments of Biography, History, Travels, Novels and Poetry, shall be freely put under contribution. With purchases, occasional exceptions, it is intended to give entire the work which shall be selected for publication. When circumstances authorize the measure, records will be had to the literary store-rooms of Continental, European, and translations made from French, Italian, or German, as the case may be.
While the body of the work will be a reprint, or at times a translation of entire volumes, the cover, will exhibit the miscellaneous character of a Magazine, and consist of sketches of men and things, and notices of novelties in literature and the arts, throughout the civilized world. A full and regular supply of the literary monthly and bi-monthly journals of Great Britain and Ireland, in addition to home periodicals of a similar character cannot fail to provide ample materials for his part of our work.
The resources and extensive correspondence of the publishers, are the best guarantee for the continuance of the enterprise in which they are now about to embark, as well as for the abundance of the materials to give it value in the eyes of the public. As far as judicious selections and arrangement are concerned, readers will, it is hoped, have reason to be fully satisfied, as the editor of the Library is of a stranger to them, but has more than once obtained their favourable suffrages for his literary efforts.
TERMS.
The work will be published in weekly numbers, containing twenty imperial octavo pages, with double columns, making two volumes or numbers, each volume, 250 octavo pages, each number, at the expiration of every six months, it will be furnished with a handsome title page and table of contents. The whole amount of matter furnished in a single year will be equal to more than forty volumes of a common sized English duodecimo book, the cost of which will be less than the price of a year's subscription to the "Library." The paper upon which the Library will be printed, will be of the finest quality used for book-work, and of a size admirably adapted for binding. As the type will be entirely new, and of a neat appearance, each volume, when bound, will furnish a handsome, as well as valuable, and permanent addition to the libraries of those who patronize the work.
The price of the Library, will be five dollars per annum payable advance.
A commission of 20 per cents, will be allowed to subscribers by agent, or postmaster, forwarding their orders and remitting the amount. The remission shall be made on the commission of 20 per cent, or a copy of the work for one year.
A specimen of the work, or any information regarding it may be obtained by addressing the publishers, at Easton, Md.

NOTICE
THE subscriber has purchased a house of pure brick, situated on the long established tavern house, the property of John Leeds Kerr, Esq. in the town of Easton, known by the name of the
UNION TAVERN.
He pledges himself to keep the best table the market will afford, good beer, and careful officers, and to bestow all the attention he is capable of for the comfort and happiness of those who may favor him with a call. From his experience in that line of business for many years, and his untiring disposition to please, he flatters himself that those who may be good enough to give him a trial will become his patrons.

EASTON, MD.

SATURDAY, JUNE 18, 1836.

DEMOCRATIC CANDIDATES.

FOR PRESIDENT,
MARTIN VAN BUREN,
OF NEW YORK.

FOR VICE PRESIDENT,
RICHARD M. JOHNSON,
OF KENTUCKY.

ELECTORS.

For the Eastern Shore—Wm. A. S. RICE
For the Western Shore—HUGH ELY.
First District—JAMES A. STEWART.
Second District—EDWARD LLOYD.
Third District—J. T. H. WORTHINGTON.
Fourth District—W. FRICK & A. THOMAS.
Fifth District—JOSEPH H. LOMAX.
Sixth District—WASHINGTON DUVAL.
Seventh District—JOHN B. BOOKE.

We lay before our readers this morning an article from the Richmond Enquirer, commencing on our first page, which is worthy of perusal. It particularly alludes to the casting vote of the Vice President in favor of the Bill prohibiting the transmission by mail of incendiary publications, &c. When the vote was announced by the Chair (Mr. Hubbard) which disclosed a tie, Mr. Calhoun in a voice between that of triumph and defiance, called for the Vice President. Mr. V. Buren immediately stepped forward, ascended the chair, and with a firmness of character; a love for the harmony and perpetuation of the Union; and with a foresight and patriotism which speak more than volumes could in his favor, gave his decision in the affirmative, and by this act he not only won the approbation of the whole South, but the North and West could not refrain from acknowledging his firmness of decision and the purity of his motives.

This is a proud act in the life of Martin Van Buren, a noble and patriotic decision for the happiness and prosperity of the Slave holding States! Henceforward let his calculations shrink from the further performance of their duty, and cease their unmanly aspersions against the character of a man who has proved himself the uncompromising enemy to every thing partaking of Abolitionism!

The South owe Mr. Van Buren a debt of gratitude they cannot withhold from him and the Democracy of the North and West will applaud his patriotism in risking his popularity in those sections of the Union for the sake of its happy and perpetual preservation. Will the people of Maryland—the people of this Shore—longer doubt the firmness of Mr. Van Buren can they for a moment question his ardent feelings for the welfare of the Slaveholding States? if so, they will prove recreant to themselves; recreant to their country, and lax served rights and empha their future happiness upon the pikes of mad fanaticism!

REFORM CONVENTION.

The State Reform Convention which assembled in Baltimore on the 6th inst., adjourned sine die on Thursday the 9th after the transaction of such business as was deemed expedient for its consideration. 287 delegates were present, representing the following counties and city:—Cecil, Harford, Baltimore, Frederick, Montgomery, and Washington, and Baltimore city. The white population of the State was represented in the Convention, agreeably to the census of 1830, by a majority of 79,300. A resolution was unanimously adopted, recommending the election of such delegates only next fall as will pledge themselves to support a bill for taking the sense of the people on the question of Reforming the Constitution of the State, on the first Monday in May, 1837. We will give the proceedings entire on Tuesday.

EASTERN SHORE RAIL ROAD.

The Cecil Gazette of last Saturday says:—The Engineers appointed to make a survey of the Eastern Shore Rail Road, at the head of whom stands Col. KEARNEY, of the U. S. Topographical Corps, met in this place on Thursday last and commenced operations.

MILITARY.

We observe by the Baltimore papers that several of the Volunteer Companies of that city intend paying a military visit to the following places: to Frederick, the Independent Blues under the command of G. D. Spurrier; to Wilmington, Delaware, the Marion Corps, commanded by Capt. J. H. Hewitt, and the independent Grays, under the command of Capt. Anderson, to Easton.

NEW HAMPSHIRE.

The Legislature of this State, on Wednesday 8th inst. elected JOHN PAGE, Esq. of Hanover, United States Senator, to fill the vacancy occasioned by the resignation of Gov. HILL. Mr. Page immediately left for Washington city.

WHAT DOES THIS MEAN?

"Do the managers of the meeting at the Exchange, which adopted measures to get up a grand celebration on account of the passage of the Internal Improvement Bill by the Legislature, intend to turn it into a contrivance by means of which they may hope to produce a political effect? We may say that the manner in which the matter has been managed carries with it the appearance of such a design. There was no celebration when the City Council

moved in the matter, but now that the Legislature has very reluctantly and sluggishly passed the bill, there must be a grand celebration. Then again, we look at the general political complexion of the managers. Verily some extraordinary means have a very ordinary way of doing business.

The above paragraph from the Baltimore Republican refers to a meeting held at the Exchange in that City for the purpose of getting up a "Grand Celebration." It further appears that the Whigs have assumed the whole management of the affair, and will endeavor to bring it to bear upon the people through the State with political effect; not for strengthening or animating the friends of Internal Improvement, but for augmenting the number of the Whig party whose political destiny is ten in censurable acts very recently performed, of which fact they appear fully conscious. Their fate is inevitable; and they now by stratagem, will labor hard to prop the fabric of their party which they have shaken about their heads by their own deeds. If they are truly welcome for us, to assume the full credit of the whole affair—both the passage of the Improvement Bill, and the grand celebration too, and rejoice loudly for the last time over poor degenerate, bankrupt Maryland, whom the Whigs have made so, even unto slavery and leasing, and then make the best of they can with the people.

TO FARMERS.

At a season like this, so unpropitious to the from the destructive effects of the fly, every thing relating thereto in the form of a remedy will command an interest from the farmer, and although too late now, it may at some future time be worth the trial.

"TO DESTROY THE FLY IN WHEAT."

It is not in the application of fine slacked lime to the wheat just at the time of its heading out and flowering, at the rate of about a bushel to the acre. It is sown broadcast upon the wheat while the dew is on, and the lime or alkali mixing with the dew, is carried down between the grain and the stalk upon the animal and destroys it."

GRUB OR CUT WORM.

The writer of this is full confident from analogy, that the following, if carefully adopted, will perfectly secure the Corn against the influence of any insect or worm, accustomed to injure it:—Take one gallon of common fat or lard, and one quart of spirits of Turpentine, let them be put together in a tight barrel, (having one head out and being well stirred, add half a bushel of unslacked lime. In this condition, the lime should be carefully slacked, and intimately mixed with the other ingredients, and water gradually added until the barrel is full.

TURPENTINE.

We have seen it stated in the Baltimore Chronicle that Mr. Jenifer a member in Congress from this State had challenged Mr. Bynum to a duel on account of certain remarks made the latter. "The affair" was to have come "off" on Monday last.

THE WILMINGTON GAZETTE OF SATURDAY.

contains the proceedings of the Jackson State Convention, held at Dover on Thursday the 9th inst. which Convention nominated the following ticket: Nehemiah Clark, Esq. of Kent for Governor, and Martin W. Bates, Esq. of Dover, as Representative to Congress. Wm. Seal, Benjamin Potter, and Samuel Paynter, Esqrs. as Presidential electors. "The Gazette observes that this is a strong ticket, decidedly the best that could have been nominated, and such as we feel assured will be triumphantly elected in November. We heartily wish it success,

to them by the Mexican General, Santa Anna; that he heard the letter read and interpreted, and that it stated that Santa Anna was pushing his conquest with unparalleled success in Texas, which country he would soon subdue, when it was his intention to attack Louisiana, and continue his conquests as far north as St. Louis, as he considered the country south of that place as belonging properly to his Government. He told the Greeks and Cherokees that he had a very large lot, and that he did not wish to press any of his red brethren under it, and that if they would join his standard, he would give them as much land as they wanted in Texas, so soon as he had exterminated the ungrateful intruders from that country. Colan also states, that the Greeks and Cherokees treated the proposition of the Mexican General with great contempt, that they trampled his letter under foot, and sent word to him, that they were able and willing to defend; and to his big foot, they would take care not to get under it."

SALT RIVER, MAY 16.

Another Mormon War is anticipated by the people of Jackson county in this State. It is said that letters have been received from Kirtland, Ohio, stating that from 1500 to 2000 of these deluded followers of Joe Smith were preparing to march for the promised land. That they intend attempting something, we have no doubt. The faithful every where are preparing for a removal to the Holy Land. Smith we are informed, has had another vision from Heaven and has been told that this is the promised time. He has associated with him a young man of considerable talents, and from whom much is expected. This new disciple is second in command. The people of Jackson are preparing to give them a warm reception.

FROM THE WASHINGTON GLOBE.

THE PUBLIC MOONEY—THE STURDUS. Having obtained permission from the proper authority, we are enabled to lay before the public the aggregate condition of all the deposit banks at the time of their selection; and we give a comparative exhibit of their condition at that time; and of that about the first of May last, as shown by an official report made to the Senate by the Treasury Department. We confine ourselves merely to the items of loans on formal security and domestic bills of exchange, capital, and specie. They are as follows, viz:—

When selected	May 1st
Loans on personal security & domestic bills of exchange, \$53,138,900	\$105,923,513
Capital, 34,167,995	44,724,210
Specie, 4,614,250	10,202,245

The line of "loans on personal security" has been increased by the purchases of sundry branches of the United States Bank by deposit banks on a credit, to the amount of about three millions of dollars. The result of the comparative condition of the deposit banks, at the time they were selected, and near the first of May last, is as follows:—

Increase of aggregate capital,	\$10,556,215
Increase of specie,	5,607,995
Increase of loans on personal security and domestic exchange,	\$52,789,523
Deficit amount purchased from United States Bank branches on credit,	3,000,000

informed was \$32,696,895. The increase of capital to all the deposit banks since the first selection, Deficit increase of specie, \$10,556,215 5,607,995

Making an increase of means from capital of, \$4,968,220 The whole amount of money in the banks subject to draft on the 6th of May 32,696,895

Amount of increased means from these two sources, \$87,665,115 These increase of loans and purchases of domestic bills in the same time, 49,789,523

Surplus of investments on loans beyond the increase of capital on the Treasury deposits, \$12,124,408 Let us particularize still more. The deposit banks have increased their capital in the aggregate since the first selection, about ten millions and a half of dollars. They have increased their specie more than five millions and a half of dollars, or more than doubled it; they have increased their loans on personal security and domestic bills of exchange, almost FIFTY MILLIONS OF DOLLARS, while the whole amount of the Treasury deposits of the public money, subject to draft, and their whole increase of specie, is less than THIRTY-EIGHT MILLIONS OF DOLLARS.

This is not all. The three deposit banks in the city of New York have left on special deposits with other banks in that city, between a million and a half of dollars; so that the deposit banks have extended their loans to the community, either directly, or indirectly, nearly FOURTEEN MILLIONS OF DOLLARS beyond the amount of the increase to their capital, since they were selected, (deducting the increase of their specie,) and the whole amount at the Treasurer's disposal!

MR. JAUDON'S NEGOTIATION.

We heard yesterday several reports touch the success of Mr. Jaudon's mission to Europe. One stated that he had negotiated a loan at 3 per cent of twenty millions in England; another set forth a similar success in Holland. We believe that there is no foundation in fact for either rumor, sufficient time not having elapsed for Mr. J.'s visit to Holland. The Orpheus may have brought letters; if so, we shall hear of them to day.—Philad. U. S. Gazette.

Extract of a letter, dated, LONDON, 14th May, 1836.

Mr. Jaudon has just concluded a bargain on behalf of the United States Bank, which may possibly have some effect on our exchange. The conditions of the bargain are, that the United States Bank issue bonds to the extent of one million and a half sterling, £ 1,000,000 sterling per bond, redeemable at three periods, with interest and payable in equal proportions between the two countries. It has not yet transpired how the transmission of this sum will be conducted, whether in specie or by the Bank drawing.

Business appears to be going on prosperously in this country, but money is more in demand and will we think continue so for some time, particularly if the operation above alluded to should be conducted in specie.

Subalterns of the Army and Government had threatened to massacre all foreigners found in the place; but that the British Vice Consul, and the American Consul, having remonstrated, with the military commandant of Tampico, he used precautionary measures to prevent disturbances. An English corvette of war being then in port and about to sail, the Vice Consul prevailed on the captain to delay his departure, so as to act as a protection for the British residents. But four or five days had elapsed between the intelligence of Santa Anna's capture and the sailing of the Atalanta, and all continued quiet.

The Gaceta de Tomaspolis contains little positive information as to affairs in Mexico, or any remarks on events, except that about 4,000 men had been raised at San Luis del Tosi, to enter Texas, after learning the defeat of Santa Anna's army; but it does not appear by whom these troops were levied or commanded.

The Atalanta brought a rumor that the ports of Tusan, Tampico, and Meisnoris would be closed to American commerce. It is feared that non-intercourse of this kind will become a general throughout the Mexican coast; and it is not a matter of surprise, for if it would have been proper for the United States to resolve on non-intercourse with France, from the non-fulfillment of a treaty, equally proper must it be for Mexico to declare non-intercourse with the United States for non-fulfillment of the treaty of alliance and neutrality. Our merchants will then be obliged to resort to Havana as an entrepot for their Mexican trade from Europe and this country; and so materially injure the commerce of New Orleans.

It is known that in 1830 there were 15,000 American citizens residing in the Mexican Republic, for the purposes of trade, independent of the inhabitants of Texas, and it is now believed that there are upwards of 20,000. These must necessarily be at the mercy of the Mexican authorities, should they choose to exercise revenged feelings for the interference evinced by the United States in the affairs of Texas. It was almost well that Congress followed the example of the British Parliament, by passing a foreign enlistment act; so that a pacific treaty of alliance or neutrality with a wily nation were not one of name only, but of reality. How otherwise can a treaty be enforced?—See.

SANTA ANNA, COSS, &c.

A correspondent of the New-Orleans Bulletin at Galveston gives a minute account of the battle of Jacinto from which we extract a few paragraphs. "I took a deliberate look over the field 3 days after the battle. The sight was horrible. Here lying in clusters, there scattered singly—the ground was strewn with dead men, dead horses, guns, bayonets, swords, drums, trumpets—some shattered and broken books, papers, shoes, sandals, caps—the bones of a rotten army were strewn upon the ground—in a confusion which the imagination cannot conceive—the natural eye must behold to be convinced of the reality.

The faces of most of the dead were as black as negroes—horribly swollen a discolored—the tongues protruding—the skin blistered—the limbs in many instances swollen, elevated and half extended—horrible disgusting masses of corruption.

Of the whole right wing of the enemy, one man only escaped death. They were slain with a single nation, were not one of name only, but of reality. How otherwise can a treaty be enforced?—See.

You will be gratified by a description of Santa Anna's person. His forehead is high, but narrow in front spreading as it extends back obliquely—hair moderately black—small whiskers, a little mixed with grey. The skin wrinkles on the lower part of his forehead as he elevates his eyes to speak. He has large mild, black eyes—his nose is narrow between the eyes, but is tolerably straight, and becomes fleshy towards the end. His mouth is nothing extraordinary, the upper lip rather projecting; one of his upper front teeth is gone; his under jaw is long. His countenance is animated when speaking. His complexion is a little tawney; but he shows more of the Moorish than the Mexican tinge. He might pass for a white man, but would not pass for a native, in the United States. His height is five feet ten inches, or perhaps more, and he is tolerably well proportioned. His age is forty-one.

General Cos was taken two days after the battle, and was brought back to camp, a picture of fear.—When I first saw him, he was lying upon the ground, and hid himself under a little old blanket—the only parts which could be seen of him was his hair, which is dark brown, his head, was small, and had remarkably short fringed nails. I saw him afterwards, when his finger was over. He is about five feet ten inches high, built for activity—has a high forehead but not very broad—his nose is long, straight and well formed—his eyes a brilliant black. He has large, long black whiskers, sun-burnt at the ends, and red, sandy moustaches. His complexion is sun-burnt, and he is a cousin to Santa Anna.

The third personage, Colonel Almonte, is the reputed natural son of a Spanish priest, by a full blooded Mexican woman. He has a good countenance—was educated in Europe, and speaks English well, and is regarded as a man of superior talents.

All these Mexicans appear but as ordinary men in general appearance, when compared with General Houston himself, who possesses a manly and noble countenance, rarely surpassed among men. But he now appears pale and sickly, in consequence of a wound which he received in the battle, which has not yet healed above the ankle. There was 14 of other Texans wounded and 7 killed—among the latter a son of major Brigrant of Brazoria, one of the most promising youths of Texas.

Your own surmise.

Reports prevail that Gen. Houston is not on the best of terms with the Executive of Texas, and that efforts are making to displace him from his command. However much we may have disliked some passages of Houston's life, we cannot but think, that ingratitude and injustice would be displayed by any course which would deprive him of his present rank in the Texian Army.

SANTA ANNA AND THE INDIANS.

The following is an extract of a letter from Capt. Duncan, of the U. S. Dragoons:—"I have just learned from a gentleman in whom every reliance is to be placed, that a Delaware Indian, by the name of Colan, who had just returned from an excursion to the south, states that he was at a council held by the Greeks and Cherokees, to take into consideration a proposition which had been made

NEW ORLEANS, May 28.

By the arrival of the schooner Atalanta yesterday from Tampico, we have received the journal of that place up to the 13th inst. but private letters have been received in town on the 19th. These latter communicate the information that when the defeat and capture of SANTA ANNA had become known there, the

in a loud voice and in a tone between triumph and defiance, demanded. Where is the Vice President?—At the very same instant, Mr. Van Buren, who had been in conversation with some gentlemen in a part of the Chamber where he was not seen by Mr. Calhoun, perceiving there was a tie in the vote, promptly advanced to the Chair, replaced Mr. Hubbard, and with a manner which is prominently and admirably blended, announced, in a tone firm and clear, the result of the vote as follows:—For the engrossment of the Bill, 18 votes—against it 18.—The Chair voting in the affirmative, the Bill is ordered to be engrossed and read a third time.

FROM THE NEW CASTLE GAZETTE.

It is impossible to describe the electrical effect produced by this scene. Mr. Calhoun was disconcerted and taken by surprise. The whole Senate was impressed by the promptitude, dignity, and courage with which the Vice President met the responsibility thrown upon him in a question of the greatest possible delicacy in all its bearings. There was a moral sublimity, indeed, in the scene, which moved the soberest temperaments into enthusiasm. A member of the Senate, who belongs to no party connection and voted against the bill, was yet so affected by the gallant bearing of the Vice President on the occasion, that the Senate adjourning immediately after the vote was taken, he followed Mr. Van Buren to his room, and warmly by the hand, and said to him, though I differed from you in the vote; yet honor your conduct, and will ever do justice to it. Mr. Van Buren's friends from the South felt that they owed him a peculiar debt of gratitude, for, by his vote alone was carried a measure essential to the peace and safety of their fireside, and went forward under an irresistible impulse of feeling to tender him their congratulations on an act alike honorable to him and suspicious to the harmony and best interests of the whole Union. Messrs. Buchanan, Robinson, Tallmadge, and Wright, were the only members from non-slave-holding States, who voted with him.

FROM THE NEW CASTLE GAZETTE.

If, after this signal and proud evidence of Mr. Van Buren's principles on this subject, as of his elevated firmness and decision of character, when occasion requires, any shall be found so lost to all sense of justice as to question the one or the other, the fault will be in the heart, not the head, of that person. Should such an one be found in the South, he must be content to lie under the double course of ingratitude and injustice.—I send you the Bill and vote upon it."

But let us test the question in another manner. The Legislature of New York and Pennsylvania have taken up the resolutions of the Southern States, particularly of Virginia.—What says the Committee of the Whig Legislature of Pennsylvania?

FROM THE NEW CASTLE GAZETTE.

This report has not been finally acted upon. A motion was made to print 3000 copies of it. A discussion arose, which involved the merits of the reports and resolutions, in which, Messrs. Stevens, Reed, Walker, Cox, Bidlack, McGiffin and Ewing participated. Considerable animation was exhibited in the debate.—Mr. Reed led the report and resolutions, they embodied sentiments that his constituents would respond to with approbation. He spoke of the resolution which lately passed Congress on the subject of abolition, as an infamous one, and wanted to see the names of those members from Pennsylvania who had voted for it.—Mr. McGiffin opposed it. He thought the gentleman had some anticipations of the report and resolutions. Why, sir, to acquiesce in the printing of sentiments which have cast firebrands among the members of the Union, and that he might have more time for the consideration of the subject, he asked for a postponement. The motion to postpone prevailed by a vote of 44 to 37."

FROM THE NEW CASTLE GAZETTE.

Compare these resolutions with the Report and Resolutions, which were reported by the Committee of the Republican Legislature of New York. Their Report says:—"They are well persuaded, that the interests of designing faction, of unchristian ambition, of the spirit of party, and of unchristian ambition, to disturb the peace and endanger the safety of our sister States of the South, and involve us in serious difficulties with them, have so far yielded to rational reflection and the force of public sentiments as to render legislation upon this subject unnecessary and inexpedient.

FROM THE NEW CASTLE GAZETTE.

But in justice to themselves and to the occasion, the Committee must express their accordance with the opinion of the Excellency of the Governor, that the Legislature possesses the power to pass such penal laws as will have the effect of preventing the citizens of this State and residents within it from availing themselves, with impunity, of the protection of its sovereignty and laws, while they are actually employed in exciting insurrection and sedition in a sister State, or engaged in treasonable enterprises, intended to be executed therein."

FROM THE NEW CASTLE GAZETTE.

The Resolutions conform in spirit to the Report—and deprecate every thing which is offensive to the South.

A Certain Cure for Dyspepsia, Liver, Biliary, and Nervous Complaints; Jaundice, General Debility, Lowness of Spirits; and Diseases incident to Females.

DR. LOCKWARD'S Celebrated Vegetable Anti-Dyspeptic Elixir.

Symptoms of Dyspepsia. The first symptoms of this disease is a disagreement of the stomach; fullness of that organ; belching of wind, with sour, oily or putrescent eructations; pain and tenderness at the pit of the stomach; pain in the right side, extending after to the right shoulder, and under the shoulder-blade; the same kind of pain is very often experienced in the left side, particularly often in lying on the right or left side; pain and stiffness in the small of the back, pain and stiffness of the head; dizziness of the sight; coated tongue; disagreeable taste in the mouth in the morning after arising; coldness of the feet. This medicine acts as a gentle purge, by which all foul humors are removed from the system; at the same time it restores the loss of the stomach and bowels, opens obstructions of the Liver, Spleen and Pancreas, and will be found singularly efficacious in diseases of the Kidney. As a family medicine none will be found cheaper or to answer a better purpose, and being composed entirely of vegetable matter it is perfectly innocent, which renders it more valuable.

Dr. Lockward's Elixir is a most valuable medicine for the Dyspepsia and Liver Complaints, and is a most valuable medicine for the Dyspepsia and Liver Complaints, and is a most valuable medicine for the Dyspepsia and Liver Complaints.

FOR SALE

I have for sale a mare of fine blood now with foal by Maryland Eclipse. This mare's speed has been tried and she has proved a successful racer. She was raised by Mr. Elisha Wilson of this county, who has raised some of the best blooded horses on his farms—Eol Emory's Betsy Wilson, Quaker, and others. I have also a mare colt out of this mare by Jean Richards, three years old this spring, which I will sell at fair price, on 3 and 6 months credit. A good work horse would be taken in part pay. The mare will be sold on the same terms as the colt. Sportmen if you want good blooded horses attend to this.

JOHN A. STANGTON. Near Denton, Caroline county, May 21st 1836.

COACH, GIG, AND HARNESS MAKERS.

The undersigned respectfully present their thanks to their friends and the public of Talbot and the adjacent counties, for the many orders and flattering support, they continue to receive in their line, and now they wish to inform them, that they are prepared to furnish COACHES, BARAUCHES, CHAROTTES, GIGS, SULKIES, BUGGIES, A CRYALLS,

or any description of Carriage and a short notice in the most fashionable and substantial manner, and on the most accommodating terms, they assure those gentlemen and ladies who are so worthy of ease and pleasure that there is no necessity of sending to the cities for handsome and good carriages, as their work will bear comparison and examination with the best city work, and has stood the test of time and criticism; they will also say, that they use every exertion to merit the unbounded confidence and patronage their work has received from a generous and discerning public nearly all over the Eastern Shore of Maryland.

Having enlarged their establishment considerably, and keeping constantly on hand a large and complete assortment of MATERIALS,

with the assistance of the best of workmen they will be thankful to fill all orders. Gentlemen and Ladies at a distance have only to specify the kind of carriage and price and have it brought to their own door free of charge.

All kinds of repairing done at shortest notice, in the best manner, and on the most pleasing terms. Silver Plating of every description done in the establishment, and all kinds of Steel Springs, made and repaired.

They have now on hand, a handsome assortment of carriages, both new and second hand, of various kinds and prices and they solicit an early call from their friends and the public generally.

The public's obedient servants, ANDERSON & HOPKINS.

They have for sale a pair of handsome young horses, well matched, color, blood, fast, warranted sound and kind for harness, also a first rate gig horse.

Wanting three apprentices at the above business, of moral habits, from 14 to 16 years of age.

Easton and Baltimore Packet, SCHOONER

JOHN EDMONDSON, Robson Leonard, Master.

The Subscriber grateful for past favors of generous public, begs leave to inform his friends and public generally, that the above named Schooner, will commence her regular trips between Easton and Baltimore, on Sunday the 6th of March, at 9 o'clock, in the morning, and returning will leave Baltimore on the following Wednesday at 9 o'clock, in the morning, and continue to sail on the above named days during the season. The John Edmondson is now in complete order for the reception of Freight or Passengers; having sailed as a Packet for about six months and proved to be a fine sailed and safe boat, superior to any vessel for safety, in the bay. All Freight intended for the John Edmondson will be thankfully received at the Granary at Easton Point, or elsewhere at all times, and all orders left at the Drug Store of Dr. Thomas H. Dawson & Son, or with Robert Leonard who will attend to all business pertaining to the packet concern, accompanied with the Cash, will meet with prompt attention. The Public's Obedt. Servt. JOSHUA E. LEONARD.

Easton and Baltimore Packet, THE SLENDID NEW SLOOP THOMAS HAYWARD.

WILL commence her regular trips between Easton and Baltimore, on Wednesday the 2nd of March, (weather permitting), leaving Easton Point at 9 o'clock, and returning will leave Baltimore at 9 o'clock, on the following Saturday, and continue sailing on these days throughout the season.

The THOMAS HAYWARD has run as a packet, giving general satisfaction as a fine sailed and safe boat. She is fitted up in a highly commodious manner for the accommodation of passengers, with State Rooms for Ladies, and comfortable berths; and it is the intention of the subscriber to continue to furnish his table with the best fare that the market affords.

By Passage \$1.00; and 25 cents for each meal. Freight will be received as usual at the subscriber's granary at Easton Point by Mr. P. Barwick, who will faithfully attend to their reception in the absence of the subscriber; and all orders left at the Drug Store of Thomas H. Dawson & Son, or at the subscriber's residence, will receive his personal attention, as he intends, himself, to take charge of his vessels.

The subscriber has employed Mr. N. Jones as Skipper, who is well known as a careful & skilful sailor, unsurpassed in experience and knowledge of the bay.

Thankful for the liberal share of patronage he has hitherto received, he will spare no pains to merit a continuance of the same.

The public's obedient servant, JOHN A. STANGTON.

Wheat Cradles.

THE Subscriber begs leave to inform his customers and the public generally in Talbot and the adjoining counties, that he has just returned from Baltimore with a first rate assortment of MATERIALS,

which he is prepared to manufacture to order and invites his customers to send in their blades as early as possible to enable him to have them done in time, and to know how far he may engage with transient customers, as he has heretofore been debarred from nearly all such work by the lateness of the time at which he received orders from his regular customers.

He is also prepared to furnish to order CARIS AND WAGONS With or without irons as directed.

Also, PLOUGHS, HARROWS, CULTIVATORS, CORN-DRAGS, and WHEAT RAKES.

Also, Wheels made to order and ironed if requested. All of which will be made in his usual neat style and warranted to answer the purpose for which they were intended and to be equal to any made on this Shore or elsewhere that is in common use here.

Carey's Library

OF CHOICE LITERATURE. To say that this is a reading age, implies a desire for instruction, and the means to gratify that desire. On the first point, all are agreed; on the second, there is diversity both of opinion and of practice. We have newspapers, magazines, reviews, in fine, pamphlets of all sizes, on nearly all subjects, which have severally their classes of readers and supporters. And yet, copious as are these means of intellectual supply, more are still needed. In addition to the reviews of the day, and passing notices of books, the people, in large numbers, in all countries, are desirous to possess, beyond the books themselves, and enable them to convey in art and science. But though it is easy to ascertain and express their wants, it is not so easy to gratify them. Expense, distance from the emporium of literature, engrossing occupations which prevent personal application or even messages to libraries and book-sellers, are so many causes to keep people away from the least of reason, and the enjoyment of the coveted literary aliment. It is the aim of the publishers of the Library to obviate these difficulties, and without any personal effort, to obtain for his own use, and that of his farmed friends or family, valuable works complete, on all the branches of useful and popular literature, and that in a form well adapted to the comfort of the reader.

The charm of variety, as far as it is compatible with morality and good taste, will be held in view in conducting the Library, to fill the pages of which the current literature of Great Britain, in all its various departments of Biography, History, Travels, Novels and Poetry, shall be freely put under contribution. With particular attention, exceptions, will be made to give entire the work which shall be selected for publication. When circumstances authorize the measure, recollections will be had to the literary stores of Continental Europe, and translations made from French, Italian, or German, as the case may be.

Whist the body of the work will be a reprint, or at times a translation of entire volumes, the cover, will exhibit the miscellaneous character of a Magazine, and consist of sketches of men and things, and notices of the civilized world. A full and regular supply of the literary monthly and bi-monthly journals of Great Britain and Ireland, in addition to those periodicals of a similar character cannot fail to provide ample materials of his part of our work.

The resources and extensive correspondence of the publishers, are the best guarantee for the continuance of the enterprise in which they are now about to embark, as well as for the abundance of the materials to give it value in the eyes of the public. As far as judicious selections and arrangement are concerned, readers will, it is hoped, have reason to be fully satisfied, as the editor of the Library is of a stranger to them, but has more than once obtained their favourable suffrages for his past literary efforts.

TERMS. The work will be published in weekly numbers, containing nearly equal parts of original and selected contributions of every six months, it will be furnished with a handsome leather and table of contents. The whole amount of matter furnished in a single year will be equal to more than forty volumes of a common sized English duodecimo book; the cost of which will be a less sum than the price of a year's subscription to the "Library." The paper upon which the Library will be printed, will be of the finest quality used for book-work, and of a size admirably adapted for binding. As the type will be entirely new, and of great appearance, each volume, when bound, will furnish a handsome, as well as valuable, and not common addition to the libraries of those who patronize the work.

The price of the Library will be five dollars per annum payable advance.

A commission of 20 per cent will be allowed to agent, and any agent or postmaster furnishing five subscribers and remitting the amount of subscription shall be entitled to the commission of 20 per cent or a copy of the work for one year.

A specimen of the work, or any information respecting it may be obtained by addressing the publishers post paid. Address, E. L. CAREY & A. HART, Philad'a. 02 1f

UNION TAVERN.

He pledges himself to keep the best table the market will afford, good beds, and careful orders, and to bestow all the attention he is capable of for the comfort and happiness of those who may favor him with a call. From his experience in that line of business for many years, and his untiring disposition to please, he flatters himself that those who may be good enough to give him a trial will become his patrons.

A Certain Cure for Dyspepsia, Liver, Biliary, and Nervous Complaints; Jaundice, General debility, Lowness of Spirits; and Diseases incident to Females.

DR. LOCKWARD'S Celebrated Vegetable Anti-Dyspeptic Balm. Symptoms of Dyspepsia.

The first symptoms of this disease is a disengagement of food, producing pain and uneasiness at the region of the stomach; fullness of that organ; belching of wind, with sour, oily or putrid eructations; pain and tenderness at the pit of the stomach; pain in the right side, extending after to the right shoulder, and under the shoulder-blade; the same kind of pain is very often experienced in the left side, particularly often lying on the right or left side; pain also often in the small of the back; coated tongue; disagreeable taste in the mouth in the morning after arising; coldness of the feet; and a general feeling of weakness.

This Medicine acts as a gentle purge, by which all foul humors are removed from the system; it acts on the stomach and bowels, opens obstructions of the Liver, Spleen and Pancreas, and will be found singularly efficacious in diseases of the Kidneys. As a family medicine, none will be found cheaper or to answer a better purpose, and being composed entirely of vegetable matter it is perfectly innocuous, which renders it more valuable.

As a certain remedy or cure for the above cases this medicine stands incomparably before any other now in use. And as nothing will so soon convince the most incredulous as the number of cures that have been given in this, is, and N. Carolina, and will appear for it has been artfully used in this State, and but that he still lives, and the highest prices for their consignments, (however small) and assure them the best prices the market affords. THE PRESIDENCY.

As the period approaches for the choice of elections, the designs of the opposition become more apparent. By the eastern mail of yesterday, we received intelligence of the death of the newspaper called the Sun, which was established at Washington to sustain the pretensions of Judge White, and a correspondence between two very important personages—we mean General W. H. Harrison and Hon. Sherrod Williams of this State. In the last six months Mr. Williams has changed only about half a dozen times, to and from the administration; but now he is fast at least for the present. Having been made the Father Confessor of the Hero of North Bend, Mr. W. will be engaged for the next half year in ascertaining the extent, height and breadth of his recently acquired glory.

We thank Mr. Williams, however, for the part he has taken in drawing Gen. Harrison's opinions from him.

1. General H. is asked whether he is in favor of distributing the surplus revenue of the United States to each State, according to the population of each, for internal improvements, education, &c., and he answers yes.

2. Mr. Williams very gravely inquires, "Will you sign and approve a bill distributing the proceeds of the sales of the public lands to each State, according to the federal population of each for the purpose above specified." This interrogatory the General also answers in the affirmative, as soberly as if he imagined he was on the very eve of being chosen President.

3. "Will you," says the great Sherrod to the renowned "Gen. H.," "sign and approve bills making appropriations to improve navigable streams above ports of entry?" Certainly, I will!—replies the Hero of North Bend.

4. Mr. Williams then asks: "Will you sign and approve, (if it become necessary to secure an advance from depreciation the revenue and finances of the nation,) a bill (with proper modifications and restrictions) charging the duties of the United States?"—and the

General replies, "Yes, I will!"

Cecil county, but the time will come, if they lose this point, when they will bitterly reproach those whose business it was to protect, and take care of it. I use the term great travel of the peninsula purposely, after due deliberation and reflection.

THOS. EMORY.

P. S. The editor of the Whig is aware that my hand is read with great difficulty and this will account for many errors in former numbers; distance from the office renders it impracticable that I should see a proof sheet; if no error is made which destroys the sense or perverts the meaning of what I intend to convey I shall be content.

T. E.

Communicated for the Whig.

O dear! O dear! what shall I do,
Since Miss (?) Irene has made a shoe
Which truly fits us like her plasters,
And like them causes sad disasters.

She makes us say to one another,
"You were drunk last night, my brother!
Lowe's punches are exceeding fine,
But you I've told get drunk on wine!"

On wine forsooth! what filthy stuff—
You never know when you drink enough;
And when you've drunk your more than fill,
You yell "Bring more wine you Bill!"

And if perchance we roam the street,
And should by chance (Miss?) Irene meet,
If e'er we puff a mild cigar,
She straightway 'gins a paper war.

Another says "twas very hard
"That you dear — play'd that — d card,"
For if you hadn't done so, 'pend on't
I'd won the trick — there'd been the end on't.

Another says "By G-d I can
"With ease, drink dead drunk any man
"Whoever dares this challenge meet,
"I pray him quickly take a seat.

Is this plain truth, I'd simply ask,
For which we have been ta'en to task
"By Flaccus?"—No! "You surely see
"Tis the mad freak of an M. D.

Miss (?) Irene is a buxom lass,
It seems she once did take a glass
Of Aqua vita; strong enough
To change her skin from fair to rough.

A long, gaunt figure, striding wide,
Just six feet high, an inch beside;
If such a figure you have seen
Depend on't it was Miss Irene.

She is a lovely flower 'tis true
That shrinks the noontide sun from view,
But Arabella, know at night
Miss Irene has her full of light.

The lines of Doct. Agnew fell
I'm sure would suit Miss Irene well;
"Ten Thousand souls like her's might lie"
Would 'n in a cambric needle's eye.

The man with the flushed face,
And its appurtenances, went to the commiss-
of the State, in relation to
the lines of Doct. Agnew fell.

PRICE CURRENT.
GRAIN.—Wheat.—The prices of wheat have considerably advanced since our last weekly report. In the early part of the week a lot of prime White was taken at \$1.75; not so good, at \$1.70; prime machined Red Wheat, we quote sale at \$1.55 a 1.60; at the latter price a lot was sold, and several parcels between those rates; good to prime \$1.52 a 1.55; other kinds, as in quality, \$1.48 a 1.52.

Corn.—In the early part of the week prices were heavy, and showed a tendency to decline; and sales were made of both Yellow and White at 80 cents for uniform, good lots not so good at 78 cents. We make our quotation to-day at 77 a 78 cents for good Corn—there is not strictly prime Corn in the market at present.

Notice.

A meeting of those persons friendly to a formation of a troop of horse, is requested at Mr. Lowe's Hotel on Tuesday the fifth of July next. It is proposed to organize a troop—officers to be elected and uniform agreed upon as soon as a sufficient number shall have given their names. Subscription list will be open from this time at the bar of Mr. Lowe's.

THIRD VOLUME OF THE Ohio Farmer, AND WESTERN HORTICULTURIST

In presenting a prospectus for the THIRD VOLUME of the OHIO FARMER to the public, the Editor conceives it unnecessary to enter into a minute detail of its character and object. These have been clearly evinced since its commencement, and from the high testimonials received from Agriculturists of the first standing and intelligence, he is not without a hope that his labors have been of some service to the cause Western Agriculture; and that there has been, at least partial satisfaction to those who patronize the work. There never was a period of deeper interest to the cultivators of the soil in the great valley of the Mississippi than the present. There never was a time when intelligence could be put to better uses—when knowledge was of greater advantage. It is the era of advancement in the art and science of the cultivation of the earth, and the improvement of useful animals. And he who refuses to keep pace with the times by informing himself of what is transpiring around him, will lose more than half of the pleasures and advantages of a rich reward for all the productions of the earth should be a double stimulant to increase the quantity.

The OHIO FARMER will be devoted to Original Essays, and articles selected from the best works, and occasionally illustrated by ENGRAVINGS. No Agricultural work ever published in the West has been so liberally supplied with original articles, the most of which have been copied and received a wide circulation in other papers. The culture of soil, improvement of animals—of garden vegetables—of Agricultural implements, and Geology, Botany, Chemistry, &c. &c. will receive due attention.

26,000 SUBSCRIBERS!
Philadelphia Mirror.
The splendid patronage awarded to the Philadelphia Saturday Courier, induces the editor to commence the publication, under the above title, of a quarto edition of their popular journal, so long known as the largest Family Newspaper in the United States, with a list of near TWENTY-SIX THOUSAND SUBSCRIBERS.—The new feature recently introduced of furnishing their readers with new books of the best literature of the day, having proved so eminently successful; the plan will be continued. Six volumes of the celebrated writings of Captain Marryat and sixty-five of Mr. Brock's valuable Letters from Europe, have already been published without interfering with its news and miscellaneous reading. The Courier is the largest and cheapest family newspaper ever issued in this country, containing articles in Literature, Science and Art; Internal Improvement; Agriculture; in short every variety of topics usually introduced into a public journal. Giving full accounts of sales, markets, and news of the latest date.

It is published at the low price of \$2. For this small sum subscribers get valuable and entertaining matter, each week enough to fill a common book of 200 pages, and equal to 62 volumes a year, and which is estimated to be read, weekly, by at least two hundred thousand people, scattered in all parts of the country, from Maine to Florida, and from the sea board to the lakes. The paper has been so long established as to render it too well known to require an extensive list of publishers, therefore, the Editor has no objection to the other, who may wish to be supplied with it, or to the other, who may wish to be supplied with it.

E VERY BODY'S ALBUM.
A MONTHLY MAGAZINE OF Humorous Tales, Essays, Anecdotes, &c. &c. ESTABLISHED WITH NUMEROUS GROTESQUE & AMUSING ENGRAVINGS.

Each number containing seventy-two active pages, neatly covered and stitched—making at the end of the year two volumes—eight hundred and sixty-four pages, and at least six hundred engravings with Tales and Index complete at three dollars per annum. The cheerful and pleasing feature with which it is proposed to diversify and distinguish this work has never yet been adopted by any one of the numerous literary calendars that have hitherto abounded in this country—and its extensive novelty and the vast fund of humor and variety which will be interspersed throughout its pages, is calculated to render it a desirable and popular companion for the amusement of all classes who desire to possess an epitome of the works of celebrated Modern Humorists, Etchers and Engravers. The encouragement generally given to new undertakings, having salutary objects in view, has proved a decided public advantage, and it is questionable whether any other age has ever brought into active use so large a proportion of the really deserving offerings of genius and talents as the present. Assured that this periodical, affording, as it will, an elaborate and comprehensive collection of luscious illustrations, Satirical Essays in prose and verse, witty Tales, Quirks, and Anecdotes, and Facetiae, must have a partial tendency (among its patrons at least) to divert into another and more exhilarating channel much of the oppressive action of the mind, consequent upon the cares and vexations of business, the publisher anticipates for it a most flattering and extensive subscription list. The work, at all events, will be commenced on the first of July, and continued for one year, therefore every subscriber will be certain of receiving all the numbers for which he has paid. When the twelve numbers are completed and made up into two volumes, they will form one of the most desirable and amusing records of wit and humor which can be found in print. Let the public assist the publisher with their patronage, and he assures them he will leave nothing undone that will give celebrity and popularity to his work.

The "EVERY BODY'S ALBUM" will be published monthly, in numbers of 72 pages with a variety of embellishments—neatly stitched in colored covers—printed with new type, and on fine white paper, at three dollars per annum, payable in advance. Two copies will be supplied to order, for one year, for five dollars. '03—When sent to a distance from the city, the work will be packed in strong wrappers, to prevent the least rubbing by the mails. '03—Not solvent banks of every description taken in payment of subscriptions. Address the publisher (postage paid). CHARLES ALEXANDER. Athenian Buildings, Franklin Place, Philad.

A MONTHLY MAGAZINE OF Humorous Tales, Essays, Anecdotes, &c. &c. ESTABLISHED WITH NUMEROUS GROTESQUE & AMUSING ENGRAVINGS.

Each number containing seventy-two active pages, neatly covered and stitched—making at the end of the year two volumes—eight hundred and sixty-four pages, and at least six hundred engravings with Tales and Index complete at three dollars per annum. The cheerful and pleasing feature with which it is proposed to diversify and distinguish this work has never yet been adopted by any one of the numerous literary calendars that have hitherto abounded in this country—and its extensive novelty and the vast fund of humor and variety which will be interspersed throughout its pages, is calculated to render it a desirable and popular companion for the amusement of all classes who desire to possess an epitome of the works of celebrated Modern Humorists, Etchers and Engravers. The encouragement generally given to new undertakings, having salutary objects in view, has proved a decided public advantage, and it is questionable whether any other age has ever brought into active use so large a proportion of the really deserving offerings of genius and talents as the present. Assured that this periodical, affording, as it will, an elaborate and comprehensive collection of luscious illustrations, Satirical Essays in prose and verse, witty Tales, Quirks, and Anecdotes, and Facetiae, must have a partial tendency (among its patrons at least) to divert into another and more exhilarating channel much of the oppressive action of the mind, consequent upon the cares and vexations of business, the publisher anticipates for it a most flattering and extensive subscription list. The work, at all events, will be commenced on the first of July, and continued for one year, therefore every subscriber will be certain of receiving all the numbers for which he has paid. When the twelve numbers are completed and made up into two volumes, they will form one of the most desirable and amusing records of wit and humor which can be found in print. Let the public assist the publisher with their patronage, and he assures them he will leave nothing undone that will give celebrity and popularity to his work.

The "EVERY BODY'S ALBUM" will be published monthly, in numbers of 72 pages with a variety of embellishments—neatly stitched in colored covers—printed with new type, and on fine white paper, at three dollars per annum, payable in advance. Two copies will be supplied to order, for one year, for five dollars. '03—When sent to a distance from the city, the work will be packed in strong wrappers, to prevent the least rubbing by the mails. '03—Not solvent banks of every description taken in payment of subscriptions. Address the publisher (postage paid). CHARLES ALEXANDER. Athenian Buildings, Franklin Place, Philad.

CLOCK & WATCH MAKING.

The subscriber begs leave to inform his customers and the public generally, that he has just returned from Baltimore, with a well selected assortment of **MATERIALS** with his line of business, which added to his former stock, renders his assortment general and complete, all of which will be manufactured at the shortest notice and on the most pleasing terms. The subscriber flatters himself from his experience in his line of business, and his personal attention to the same, that he will be able to give general satisfaction to those who may see proper to give him a trial. He has also hand New Watches, Watch Chains, Seals and Keys, Watch Guards, Silver Thimbles, Silver Ever Pointed cils, Silver Scissor-books, Silver Shields, Plain Gold Rings, Razors, & Hair Straps, and Gaining and Tooth Brushes, and a variety of other useful articles, all of which he offers at a small advance for cash. He invites his customers and the public in general, to give him a call, view his assortment, and he thinks there is no doubt but they will be induced to purchase.

The subscriber returns his thanks to his customers and the public generally, for the very liberal encouragement he has received at their hands, and still hopes by strict and personal attention to business to receive a portion of the public patronage.

The public's humble servant,
JAMES BENNY.

N. B. The subscriber must remind those persons whose accounts have been standing over six months, that they must call and settle them by the end of the year, and all those who do not call, will find their accounts placed in the hands of officers for collection.

A CARD.
A WOOLFOLK wishes to inform the owners of negroes, in Maryland, Virginia, and N. Carolina, that he is not dead, as has been artfully represented by his opponents, but that he still lives, to give them CASH and the highest prices for their Negroes. Persons having Negroes to dispose of, will please give him a chance, by addressing him at Baltimore, and where immediate attention will be paid to their wishes.

Carey's Library

OF CHOICE LITERATURE.
To say that this is a reading age, implies a desire for instruction, and the means to gratify that desire. On the first point, all are agreed; on the second, there is diversity both of opinion and of practice. We have newspapers, magazines, reviews, in fine pamphlets every size, on nearly all subjects, which have severely their classes of readers and supporters. And yet, copious as are these means of intellectual supply, more are still needed. In addition to the reviews of the day, and passing notices of books, the people, in large numbers, in all arts of our great republic, crave the possession of the books themselves, and details, beyond mere passing allusion, of the progress of discovery in art and science. But though it is easy to ascertain and express their wants, it is not so easy to gratify them. Expense, distance from the emporium of literature, engrossing occupations which prevent personal application or even messages to libraries and booksellers, are so many causes to keep people away from the feast of reason, and the enjoyments of the coveted literary aliment. It is the aim of the publishers of the Library to obviate these difficulties, and enable every individual, at a small cost and without any personal effort, to obtain for his own use and that of his favored friends or family, valuable works complete, on all the branches of useful and popular literature, and that in a form well adapted to the comfort of the reader.

The charm of variety, as far as it is compatible with morality and good taste, will be held instantly in view in conducting the Library, to fill the pages of which the current literature of Great Britain, in all its various departments of Biography, History, Travels, Novels and Poetry, shall be freely put under contribution. With perchance, occasional exceptions, it is intended to give entire the work which shall be selected for publication. When circumstances, authorize the measure, recourse will be had to the literary stores of Continental, Europe, and translations made from French, Italian, or German, as the case may require.

TERMS.
The work will be published in a handsome and elegant style, and will be a valuable addition to the libraries of those who patronize the work.

The price of the Library will be five dollars per annum payable advance.
A commission of 20 per cent, will be allowed to agent, and any agent or postmaster furnishing five subscribers and remitting the amount of subscription shall be entitled to the commission of 20 per cent or a copy of the work for one year.

Easton and Baltimore Packet.
THE SPLENDID NEW SLOOP THOMAS HAYWARD.

WILL commence her regular trips between Easton and Baltimore, on Wednesday the 2nd of March, (weather permitting,) leaving Easton Point at 9 o'clock, and returning will leave Baltimore at 9 o'clock on the following Saturday, and continue sailing on those days throughout the season. The THOMAS HAYWARD has run as a packet, giving general satisfaction as a fine sailer and safe boat. She is fitted up in a highly commodious manner for the accommodation of passengers, with State Rooms for Ladies, and comfortable berths; and it is the intention of the subscriber to continue to furnish his table with the best fare that the market affords.

Freights will be received as usual at the subscriber's granary at Easton Point by Mr. P. Barwick, who will faithfully attend to their reception in the absence of the subscriber; and all orders left at the Drug Store of Thomas H. Dawson & Son, or at the subscriber's residence, will receive his personal attention, as he intends, himself, to take charge of his vessels.

The subscriber has employed Mr. N. Jones as Skipper, who is well known as a careful and skillful sailor, unsurpassed in experience and ability in the bay.

Persons indebted to the subscriber, are requested to settle by the last day of March, or to place their accounts with me, or to give that personal attention I have hitherto one, being much absent from the county. S. H. B.

HIGHLY IMPORTANT

TO ALL PERSONS AFFLICTED.
A Certain Cure for Dyspepsia, Liver, Billious, and Nervous Complaints; Jaundice, General Debility, Lowness of Spirits; and Diseases incident to Females.

DR. LOCKWARD'S Celebrated Vegetable Anti-Dyspeptic Elixir.
Symptoms of Dyspepsia.
The first symptoms of this disease is a distention of food, producing pain and uneasiness at the region of the stomach; fullness of that organ; belching of wind, with sour, oily or putrescent eructations; pain and tenderness at the pit of the stomach; pain in the right side, extending after to the right shoulder, and under the shoulder-blade; the same kind of pain is very often experienced in the left side, particularly often in lying on the right or left side; pain also often in the small of the back and glands of the head; dimness of the sight; coated tongue; disagreeable taste in the mouth in the morning after arising; coldness. This medicine acts as a gentle purge, by which all foul humors are removed from the system; at the same time it restores the tone of the stomach and bowels, opens obstructions of the Liver, Spleen and Pancreas, and will be found singularly efficacious in diseases of the Kidneys. As a family medicine none will be found cheaper or to answer a better purpose, and being composed entirely of vegetable matter it is perfectly innocent, which renders it more valuable.

As a certain remedy or cure for the above diseases this medicine stands incomparably beyond any other now in use. And as nothing more could be requisite to convince the most sceptical of its utility, than the numerous testimonials which have been given in its favor, therefore, these testimonials will speak for it more than all encomiums which could be pronounced. Whenever it has been used, it has invariably been attended with complete success, and that too, in hundreds of cases, where apparently all hopes of cure have been despaired of. It was by this important discovery that the proprietor of the above medicine, was in a few months, restored to perfect health, after years of the most distressing suffering, and after being abandoned by the profession to die without any hope of relief. Since which, hundreds, nay thousands, have in a like manner been restored from beds of sickness to perfect health.

DR. LOCKWARD.—Sir I have made use of your valuable Medicine for the Dyspepsia and Liver Complaints, both of which diseases I have labored under for about three years—I have tried a great many medicines, but all to no effect.—I was induced to give yours a trial, and much to my astonishment & that of my friends, I was in a short space of time completely relieved of my disease. My symptoms, when I first commenced using your medicine, were, a tress at the pit of my stomach, with heartburn, sourness and acidity of food, great tenderness at the pit of the stomach, accompanied with a cute pain in the right side, extending to the op of the shoulder, connected with this pain, was a prominent enlargement in my right side, pronounced by my physician "an enlargement of the liver." My appetite was variable, sometimes very good, at others a complete loss—bowels obstinately constive. My head very much affected with giddiness and pain; my eye-sight was also affected with dimness; I was also much emaciated in flesh, and suffered extremely from nervous feelings; sometime I imagined that a few hours would close my existence; I was disposed to feel constantly cold (especially my feet and hands,) in the warmest days in summer. Thus I suffered until life was to me almost a burthen, when, hearing of your medicine I was prevailed upon to make use of it; and contrary to my expectation and the expectation of my friends, I was in a few months restored to perfect health, which I still continue to enjoy. Any person desirous of knowing the particulars of my case, by calling upon me, in the Bazaar, Harrison street, I will give the details both as to disease and cure.

Yours, with respect,
JACOB D. HAIR.
The following as to the standing of the above named gentleman, is from his Hon. George Hunt, late Mayor of Baltimore: "I can truly certify that Jacob D. Hair, is personally known to me as a gentleman of firm respectability and standing in the city of Baltimore."
JESSE HUNT, Mayor of the City of Baltimore.
