A BOY at FRUITLAND, on Friday night of last week a party of young men and boys, all colored, took it into their heads to have a high old time generally. They met in the upper part of the town, yelling at a fearful rate. Marching up to a new building there, they had a dance and a tub. Finally marching down towards the station, they engaged in a general fight, shooting a boy named Shafter in the arm, cutting Pollitt over the eye by a sharp, named Cashell. They had better look sharp, as they are known and are not out of this scrape yet.

MR. G. W. BYINGTON exhibited the "Boss" Coffee Pot at the Peninsula House on Wednesday last when he displayed the superior qualities of the "Boss," with the ordinary coffee pot, putting into each pot a like quantity of coffee and water. The "Boss" makes coffee in half a minute, while several minutes are required by the old or ordinary method. The coffee made by the "Boss" is as clear as wine, while the other method is cloudy and thick, while the taste of the coffee made in the "Boss" is far superior and mellow, while the old method produces a bitter taste, besides producing a superior flavored coffee. Mr. B. added twice the quantity of water, which still produced a far superior coffee to the old method. We advise the "Boss" coffee pot will be all right in a short time.

ATREATISE on the Horse and his Diseases has recently been published by R. L. Kendall, M. D., of Enosburgh Falls, Vermont. It is finely illustrated, and a meeting with an extensive sale, giving the very best of satisfaction among horse men, as is evident from the hundreds of letters received speaking in its praise, of which the following extracts of letters recently received are fair samples. Elish W. Stearns of Bedford, Mass., in a letter of recent date says: "I have examined it with care. There are two wonders respecting it; first, that any book, however voluminous, containing so much practical common sense matter, of sterling value, could be written; second, that it could be condensed into a small compass, and be all gold and brass." By the aid of any person of ordinary intelligence can doctor his own horse. Dr. Wm. H. Hall of Canadaigua, N. Y., in a letter of recent date says: "I have bought books from England, that I have paid five and ten dollars for, which I do not like as well as do yours. It is different from anything I ever saw." The Christian at York, (N. Y.) For sale at this office. (Ed.)

AMONG THE MANY valuable original papers contained in the May number of the old American Farmer is one on "What We May Learn From Certain Prof. of Analytical Chemistry at the University of Virginia, and is not only of practical value, but an important contribution to science, as of the various analyses given, one only has heretofore been made. Several articles on Chemical Manufacture; the Wool Product in the South; Farming in Germany and France; the discussions of the "Plover's" Clubs; details of work for the Month; Dairy topics; the Poultry Yard; Diseases of Live Stock; a game department for the ladies; an account of the new importation of Percheron Horses; by Mr. Walters of Baltimore, and a variety of other subjects, make up an issue of great interest, which we commend to every farmer and farmer's family. The editor, in a personal notice, announces his arrival at his four-course year, which find him in good condition in health and spirits. The Farmer is published by SAMUEL SANDS & SON, Baltimore, at \$1.00 a year, or \$1 to clubs of five.

THOUSANDS upon thousands of children die annually of those diseases incident to early childhood; whereas, if Dr. Bull's Baby Syrup were used in time, their lives would, in all probability be saved.

Where to Ship your Fruit.

Among the advertisements which appear on our first page this week, may be seen that of Zoumbin & Longland, whose place is at No. 330 N. Del. Ave., Phila. This firm may not be known to some of our readers, but a few shipments will convince them that these men know how to obtain good prices, and are prompt in making returns. Their references are well known and reliable firms, and so are they. Try them.

At 235 & 235 N. Wharves, Phila., may be found the well-known house of E. Roberts & Bro., commission dealers in foreign and domestic fruits, and country produce. These men have a good reputation for substantial business, qualities, promptness in trade, and as being one of the most reliable houses in the city. All persons who ship to them will trust their produce to the management of a safe, reliable, house.

Mr. F. A. Pretzman, commission merchant, at 294 N. Del. Ave., Phila., whose card appears on our first page this week, is too well and favorably known on this Peninsula to require an endorsement, at our hands. He is one of the most reliable men, who has for years dealt with our people. Those who have had the advantage of his acquaintance, and the benefit of his skill and judgment in selling their produce, have profited thereby, and are his best advertisers.

Mr. Alva R. Jones, whose advertisement can be found on our first page, is one of the enterprising young commission merchants now doing business in N. Del. Ave. Market. He can be found at Nos. 308 & 308 Del. Ave., is a good and reliable man of integrity, safe to trust, and skillful to make sales, and prompt to make returns, "and don't forget it."

Mr. P. B. Horner, dealer in fruit and produce, Pier 21, foot Callowhill st., N. Liberty Market, Phila., whose card appears on our first page, is one of the retainers in the commission trade, and a safe dealer; a man of good judgment, ripened by experience, and a keen perspective; always up with the times, does a safe business, and is the kind of man to trust. The house of P. B. Horner is a good one, and merits the confidence and trade of the people of the Peninsula.

Mr. W. H. Rogers, whose place is at 304 N. Del. Ave., Phila., commission merchant and dealer in all kinds of country produce, fruit, &c., has a good location, plenty of room, and is considered one of the leading firms of the city. Solicits consignments, and promises to do a good part by his consignors.

Among the cards in our N. Y. column, on our first page, may be seen that of A. Bennett & Co. As they stand at the head of this list, they are among the foremost and most reliable commission houses in the city of N. Y. Being well known to the people of this Peninsula, it is more important to tell the people where they are, than what they are, and they are well known to be safe, reliable men, prompt in their business transactions, and ready in fulfilling their promises. Their place is at 166 West st., N. Y.

Mr. George Boyce, wholesale produce commission merchant, at 27 & 29 Country Row, W. Market, N. Y., is a good and reliable sort of a man, and we are inclined to think those who will ship to him this season will do well.

Mr. Francis McMulkin, whose card appears on our first page, is a good and safe commission merchant, safe to trust, prompt to make returns, &c. Place at 24 merchants' row, W. Market. Give him a trial.

MESSRS. Brown, DeWinter & Brown, who will be represented this year at the depot here by L. M. Dashiell, are a first class firm, well spoken of by those who have heretofore shipped to them. Their place is at No. 51 & 53 Fulton Row, W. Market N. Y. They do a safe business, and can be safely recommended. Try them, and see how they will treat you.

Martin Johnson, commission merchant, for the sale of all kinds of country produce, fruit, &c., may be found at No. 250 Fulton st., N. Y., and is doing a good safe business, and so far as our people have tried him he has been prompt to send goods, and return proceeds in due time. Try him.

The old established house of J. Monve, commission merchant, at 21 Vesey Pier, W. Market, N. Y., is one of the ancient land marks in the market. It is one of the reliable ones, and may be safely trusted. Like our friend L. friend, he gives attention to the sale of melons, and has the reputation of getting a good price for them. L. W. Glaughlin, of this county, is also connected with this house. Give them a call.

The commission house of Mr. G. V. Letfried, whose card appears on our first page, and is situated at No. 296 Washington st., N. Y., has a good reputation for honesty and fair dealing. He solicits a share of the Peninsula trade, and is worthy of a fair and impartial trial. Give him a call, and you will see that he knows how to handle goods to advantage.

The house of Messrs. Haver & Co., with which our old and valued friend Joshua Johnson is connected, or associated, is one of the reliable business houses of New York. It is situated at 101 Park Place, and is a good, safe and enterprising house. Those who favor it with their shipments will be dealt with properly, safe and speedy returns made, &c. Give them a trial, and help along our old friend Joshua.

Testimonials of the Sirman Organs. Snow Hill, April 2, 1880. To the Sirman Organ Co. Dear Sirs:—The Organ which I purchased of you has given perfect satisfaction, and for elegance of tone, in short the good qualities which an organ should possess. I think it cannot be exceeded by any in the market. Very respectfully, Oliver D. Collins.

Seaford, Del., April 5, 1880. To the Sirman Organ Co. Gentlemen:—The organ you sent me is the best of its class I have ever tried, for purity and strength of tone, governable and effective stops, beauty and finish of case, it is hard to excel. I would cheerfully recommend it to those wanting a fine toned instrument. D. W. Carey, Tuner and repairer of musical instruments.

Harrington, Del., April 15, 1880. Sirman Organ Co. Gentlemen:—Having had one of your organs in my house the past year, I know not how to express my admiration of its qualities as a musical instrument. Its evenness and purity of tone, its power, in fact, all its combinations, musical and mechanical, are beautiful. I must feel myself deprived of a very great pleasure had I not the means to possess and enjoy the companionship of your instrument. J. W. Powell.

SAD CASE OF DROWNING.—On Monday last, at Shad Point, while a party of boys were laying out a haul seine, the boat turned over throwing them in the water, and Edward Turner, aged 17 years, was drowning while two small sons of James Williams came near sharing the same fate. It seems that Turner had not learned to swim. The other boys tried to save him, but were too late. They succeeded, however, in getting him to the boat, but he failed to cling to the boat and sunk to the bottom of the river. His remains were soon recovered by life was extinct. One of the small boys came very near sharing the same fate.

WE HAVE JUST RECEIVED Peterson's Magazine for June, and do not hesitate to say that it has more attractions than all the other magazines combined. No magazine in America has such fine steel engravings, and such good cuts. The ladies at home tell us that "Peterson's" fashions are in better taste, and more reliable than any magazine published. "Peterson's" illustrated articles are a new feature this year, which makes the Magazine more attractive than ever. A friend of ours, who was in Philadelphia last week, called at Peterson's office, and tells us that they pack 5000 magazines every afternoon to their subscribers. He speaks of the great popularity of the book. Send to Charles J. Peterson, 306 Chestnut Street, Philadelphia, and get his great club terms for 1880.

EVERY LOVER of the horse should read the following notice from the Western Sportsman and Live Stock News: "A Treatise on the Horse and his Diseases," by Dr. J. K. Hall, Esq., of Newburgh, N. Y., is a book that every owner of a horse should have, and no breeder of horses can afford to do without. It has thirty-five engravings illustrating positions assumed by sick horses, and gives treatment of diseases in such plain and comprehensive language as to be readily understood by any one of ordinary intelligence. The price is only 25 cents, but we would not exchange it for any book on the horse and his diseases that we have ever seen, and we have read some books of the kind that cost \$10. It contains a large number of recipes, any one of which is worth double the price of the work. The book may be had of the author above. And at this office.

THE MOST DISGUSTING SIGHT now visible to the eye is squads of idlers loafing about our street corners. If they could not get work they would be objects of pity rather than scorn, but we know that nearly all of them can get work if they will accept it. We were disgusted the other day when we saw a man trying to hire two or three men enter one of these groups. They all wanted to know what the wages were, how long they would have to work, how hard the work was, etc., etc., and finally decided that they could not go, as it was out in the country and away from the boys. Some of them ought to suffer for the necessities of life, provided there is no one else to share their troubles. Our town and county would be much more prosperous if every one desired to be employed and to contribute their part towards the common good. Idleness is the school of vice, and the parent of all crime. See that your children are employed when not at school in some kind of work—be it ever so trifling.

The pastor, Rev. S. T. Gardner, being absent, Rev. S. Q. White, from Salisbury, preached last Sabbath morning at the M. E. church to quite a large and attentive congregation.

Mr. Levin Hastings has had his store repaired, and it now presents quite a neat appearance. S. K. S.

THE REV. W. I. BAIN, of the Wilmington Conference stationed at Pocomoke City died at 7 o'clock P. M. Thursday, the 13th inst. He had not been well for some weeks, but had pursued his legitimate work until about two weeks ago, when he was confined to his bed. His disease was nervous prostration with symptoms of typhoid. He was a native of Virginia, and formerly belonged to the Virginia Conference but was transferred to the Wilmington Conference in 1874, at the first of his session in Salisbury. He was sent at that session to Princess Anne Circuit where he remained three years, and then, in 1877, was stationed at Fairmount, at which place he also remained three years, thus indicating his great acceptability by staying the full time allowed for a pastor. At the last session of the Conference in Dover, in March last he was sent to Pocomoke City, and had already won his way to the hearts and affections of the people generally, both of the Methodist and other churches. His remains will be interred in the M. E. Cemetery at Princess Anne to-day at 10 o'clock A. M., the funeral services to be conducted by Rev. L. N. Haynes, of Smyrna, Del. He leaves a widow and one child to mourn their loss.

The Turpin Murder Trial.

The adjourned session of the March term of the Circuit Court commenced here on Monday last. Present Judges Irving, Wilson and Goldsborough; S. P. Toadvine, Clerk; E. S. Toadvine, State Attorney; W. S. Moore, Sheriff; J. H. Brewington, Crier; W. Humphreys, J. D. Truitt and L. I. Pollitt, Bailiffs; L. Bradley and R. W. Hearn, Deputies; there being no other business except the trial of J. W. Turpin upon an indictment for shooting Wm. H. Farrington, on the 11th day of last November.

The panel of petit jurors drawn for the March term were exhausted to get three jurors, as follows: Wm. Bennett, Isaac Williams and Wm. R. Phillips, when a venire was issued for fifty jurors, out of whom five were procured, making eight. Another venire for thirty was issued, out of whom two were obtained. A third venire was issued, when the remaining two were obtained, making the first five sworn on their voirdire, which took until Wednesday morning, making a full jury, as follows: Wm. Bennett, Isaac Williams, Wm. R. Phillips, George D. Insley, A. D. Mezik, James A. Venables, B. H. Farlow, Major Kaylor, Wm. H. Taylor, Purnell Johnson, Elijah Phillips and Oriander Dashiell.

The first witness called after counsel had made the opening statement, Mr. Handy for the State, Mr. Crisfield for the prisoner, was Dr. H. H. Dashiell, who attended the Coroner's inquest. Next Ashby Turpin, nephew of the prisoner, was called, who occupied the remainder of the day on Wednesday, and concluded his testimony on Thursday morning, after whom Thomas Handy, colored, was called, and gave his testimony somewhat similar to what it had been before at the preliminary examination, with some slight variations. Archelus Rounds was the next witness, whose testimony our reporter did not hear. Next came Columbus Horsey, the omnipresent, and detailed the most accurate narrative of everything that was done or intended to be done with an exactness equal to the work of an astute mathematician. His testimony was not concluded when our report closed.

The counsel for the State are Messrs. E. S. Toadvine, State's Attorney, C. F. Holland and John H. Handy. For the Defense, Hon. John W. Crisfield, Col. Henry Page, Col. S. A. Graham and Huston Humphreys. The trial may be justly called a battle of giants.

Early Amber Cane is doubtless the most profitable crop a farmer can raise in this climate. One cutting, five feet, can be obtained, and then it will ripen up seed and fodder per hill as much, or more, than corn, and the stock can be used for syrup; or three cuttings of green feed can be taken from it before frost. It is far more profitable than pearl millet. Every farmer should grow it, if only for green food for his hogs and milch cows. W. C. M.

There will be three large tabernacles located in Groves on this circuit, in which to hold extra meetings this season, commencing about August first, and will continue as long as men will seek the Lord. The pastor and people of the circuit are in perfect harmony with each other, and it is hoped and believed that great efforts will be made to accomplish much good. Several festivals will be held on the circuit, at Stockton, May 15th and 16th; at Remson's, June 15th and 16th; Girdletrichhill, Nov. 8th, all for the benefit of the M. E. Parsonage. Ladies' aid societies are formed at the appointments, for furnishing the parsonage. Stockton circuit is one of the best on the District. Paid her pastor \$600 in cash beside \$900 in presents last conference year. Paid P. Elder \$200.00, and this year will pay \$400.00. The old ADVERTISER comes to Stockton regularly, and is a welcome visitor. I take it periodically. But must say that I prize the ADVERTISER more highly than any of them. Fraternally yours, T. J. P.

To-day we publish the papers of the Middle Class at the examination of the High School. Next week we will publish the Junior class.

The School Board for Wicomico county at its last meeting appointed the School District Trustees. We shall publish the list next week.

A young mother must have some rest. But how is this to be accomplished, when the baby is restless and cries constantly? Simply by using Dr. Bull's Baby Syrup.

THE HORSE.—If you would know all about the horse, his age, his diseases, his qualities and fact everything, buy one of Dr. Kendall's Treatise on the Horse. For sale at this office. Price 25 cents.

STEARNS MILLS BURNED.—The steam saw and grist mill of Shad Point, situated at Newark, Worcester county Md., was consumed by fire on Thursday night.

SALES.—On Monday next, at 10 o'clock, P. M., E. Stanley Toadvine, Sheriff, will sell at public sale, at the residence of W. D. Somerville real estate. This will afford an opportunity to get a good bargain.

IS IT.—A correspondent wants to know why fishermen always put a small stud together when they air their net. We have not investigated the matter, but suppose the small stud is to take care of the small fish.

POCKET BOOK.—Sometime during the week, in the streets of Salisbury, a pocket book containing letters and with my name on them. Any one finding the same will be rewarded \$1.00 for its return to the Advertiser's office. W. W. WALLER.

HEAVY MAIL.—On Monday afternoon the mail received at Salisbury was the heaviest ever received here, perhaps the largest ever received by any office on the Peninsula, south of Wilmington, Del.

TEACHERS' REPORTS.—The School District Trustees Tuesday the first day of June. All the teachers are expected to attend in their reports before that time the principle business before the Board will be passing accounts, examining reports, &c.

FOR PRESIDENT.—We have from a private source that the Cincinnati Convention have nominated Hon. James Buchanan for President and Hon. John C. Breckinridge for vice President of the United States. It is true it is a ticket upon which all national men unite.—Somerset Union, June 10th 1860.

ANNIVERSARY.—Sunday, June 20th is the 24th anniversary of the founding of the colony of Maryland, the charter bearing date June 20, 1632. It was nearly 48 years later, March 27, 1880, when the colonists who came over in the Ark and the Dove established themselves at St. Mary's.

SAD ACCIDENT.—Lafayette Maddox, aged 16 years, son of John H. Maddox, of this town, had his left hand fearfully mutilated by coming in contact with a saw at J. Morris' steam mill on Monday afternoon. Dr. S. P. Dennis dressed the wound after removing some fragments of flesh. He loses two fingers and part of a thumb.

SHORT CROP.—The fruit crop of Wicomico is consequently of the light weather, and cold Spring, will be a short one. Many of our truckers have done well so far, as the small amount shipped has commanded a fair price. Last year the berries grown in Wicomico brought \$100,000. There will be a great falling off this year from these figures.

STATE TEACHERS' ASSOCIATION.—The State Teachers' Association will meet at Ocean City on the 29th, 30th and 31st days of July next. Special arrangements have been made with the proprietors of the Atlantic Hotel, and board can be procured for \$1.00 per day. The great reduction in the fare should insure a fine attendance of the teachers.

RUNAWAY.—On Monday evening last, while the horse of Mr. Robert E. Powell, attached to the cart, was standing in front of S. P. Dennis' store, it suddenly became frightened, and started off at a rapid rate down Main street and over the pike bridge to Columbia. It was stopped before any damage was done.

FISH HATCHING.—Mr. Thos. Hughton, Fish Commissioner, has been experimenting in the hatching of fish in the Chesapeake. He had boxes prepared for the purpose, which were filled with the spawn, and the result is that he has hatched out several hundred thousand young herring and shad without the aid of any expensive apparatus or costly steamers.

STOCKING CERTIFICATE.—We have received from Bro. Prentiss a full report of the Quarterly Conference proceedings of his circuit, which we will publish next. If we can spare the space, as it is an interesting document, we will publish it. Bro. P. is a fine and well spoken man, and his report is full of faithful and pious discharging his duties with a firm, self-denying vigilance, and a lively hope.

CENSUS ENUMERATORS.—Mr. J. A. Graham, supervisor of census, has made his appointments of census enumerators as follows: Barken Crook—Jeremiah Bradley, Cassin—A. W. Gales, and Charles Trask—Chas. O. Conway and Jno. W. Moore.

Prisoners.—James J. Hayden, Parsons—Stanley W. Smith, Dennis—E. S. Atkins, Trapp—L. B. Price, and J. C. Cassey, Salisbury—Samuel E. Foskey, Sharytown—Wm. A. Higgin.

DR. BULL'S BABY SYRUP.—If, as some one has said, "a numerous household is the safety of the Republic," it might well be proclaimed at once, that the remedy upon which such household should be relied is Dr. Bull's Baby Syrup. Price only 25 cents. Always reliable.

RUNAWAY COUPLE.—Miss Jennie Wilson, of Mount Cuba, Del., run away with a wealthy one of the best of her father's mill named Led. Before they could get married, however, the family overhauled them; and the girl was taken home and will probably be kept there.—Cent. Observer.

SCHOOL EXAMINER.—The election of Thomas W. Perry, Esq., to the office of school examiner by our school Board, in our opinion, was an excellent appointment. Mr. P. is a man who is not only well versed in the theory of education, but has devoted his time since, in connection with his professional duties, to the study of the subject, and his former studies, and we doubt whether a better appointment could have been made.

RACE HORSE RUINED.—Fonso, a promising race horse, for which his owner paid \$3,000 was ruined recently by a fall from a fence. The horse's jaw was broken, and the injury to the eye is so severe that the horse is now almost blind. The owner is now looking for a new horse to replace him.

His Excellency, William T. Hamilton, at the request of Senator Parsons, has donated from the "State Library," to the Salisbury Circulating Library, a copy of the "History of Maryland," (three volumes) which is acknowledged to be the best history of the State ever published. It is a work of great value, and is well worth the attention of every citizen.

ESCAPED.—Sidney Shore, the hero of the Shore-Shore marriage, and who was convicted at the April term of the Circuit Court for this County, of marrying an infant without the consent of her guardian, and that infant the 13 year old daughter of his wife, who died only a few months before the marriage, and who was fined \$500 and committed to jail until the fine and costs were paid, escaped from jail on last Wednesday. George Larmour, the wife of John A. Larmour the jailor and who is deputy jailor residing in the building, was absent at the time. He had given the key to another white prisoner, the liberty of the upper hall which is shut off from the lower hall by a heavy iron door. The prisoner had been in the cell for some time, and had fastened and secured the key when he returned, but the door was open. The other prisoner knows nothing of the escape. He was asleep at the time. Shore has not been captured.—The Marylander.

Death of Dr. Wm. T. Smith.

It becomes our sad duty this week to chronicle the death of another of our esteemed fellow citizens. Dr. Wm. T. Smith, who after a lingering illness of six months, and a great suffering, departed this life at 5 A. M. on the 23rd inst. He was born Jan. 20, 1830 near the town of Smyrna Del., and was therefore at the time of his death, 50 years 4 months and 5 days old. In early life for a while he engaged in teaching school, after which he entered the office of Dr. McKown of Smyrna, to learn the profession of dentistry. Sometime afterwards having passed the required examination he received the diploma from the Pennsylvania College of Dental Surgery. After completing his studies he immediately moved to the town of Salisbury and began the work of his profession, which he has ever since remained, establishing for himself a well earned and excellent reputation as a master of his profession, building up an extensive practice and identifying himself with every important public interest of the town. On the 21st of October 1855 he was united in marriage by the Rev. T. C. Murphy to Miss Margaret Lane of Smyrna, who with three children remains to mourn his death. He was converted in early youth and united with the Bethel M. E. Church on Smyrna circuit. He was fondly attached to the church of his choice, and his remains were laid to rest in the cemetery of that church in various official relations. He never possessed a very robust constitution and it was probably his indomitable energy that kept the current of life flowing longer than it would naturally have done. He was an industrious worker and taxed his feeble strength at times too heavily. He was taken sick in the latter part of the year 1878, though not entirely confined to his house ever since, yet he has never since been able to do any of his usual work, and very weary but borne with patience and fortitude, his disease being cancer of the liver. His last moments how ever were agonizing from pain, and the lambs of life went out as quietly as the fading of a summer evening twilight.

The Dr. was a man of noble spirit, impulsive in his feelings and outspoken in his utterances he was true, but quick to regret and recall a past act and act. He had a generous and sympathetic heart as impulsive natures generally have, and wherever he formed friendships they were warm and lasting. While he was respected in the community as an honest and useful citizen and very highly esteemed in the circle of his acquaintances, he was loved by all who knew him for his faithfulness and generous spirit, yet the noblest traits of his character manifested themselves in his home life. He emphatically loved his home and did all he could to make it comfortable and happy. A kinder husband it is seldom met with, and a more devoted father. His children were the idols of his heart upon whom he lavished his affections. Death has made wounds in that family which time will hardly heal. May the blessing of God which maketh rich and addeth to the number of the living in this hour of their sore bereavement.

After appropriate services in the M. E. Church which were attended by a large concourse of people his remains were interred in the adjoining cemetery there to await the last trump which shall wake to life the sleeping dead.

The Turpin Murder Trial.

CLOSE OF AN EXCITING CASE.—VERDICT OF MURDER IN THE SECOND DEGREE. MOVING SCENES AND INCIDENTS.—NOTION FOR NEW TRIAL, &c.

Not being present the last two days of the Turpin trial, we give below the report of Mr. Ford, of the Baltimore Sun, who was present. We give his report as follows:

SALISBURY, Md., May 22, 1880. The trial of J. Wesley Turpin, of Wicomico county, for the shooting and killing of Wm. H. Farrington, last November, with a shot-gun, culminated this (Saturday) afternoon in a verdict of murder in the second degree.

The closing hours of the trial were full of interest. It was contended that the intelligence of the last of this section of the State engaged in a life-and-death struggle. On the other side the defense was made by Messrs. Crisfield, Page, Graham and Humphreys. The argument lasted from Thursday afternoon until Saturday afternoon. On Friday the session of the court was continued until midnight the large courtroom being packed with people. Among those who remained until the hour of adjournment were many ladies. The court-room is a spacious apartment, furnished with a large number of chairs, but the ladies were placed in the aisle, and the space within the bar was crowded. Around the main entrance, and in lobby too, were a number of colored men and women.

Through the argument Turpin's wife and daughter, a bright young girl of 14 years, sat with him at the trial table in the midst of the course of the defense. Dr. F. A. Turpin, brother of the prisoner, sat behind them. The defendant's counsel were, for the most part, well bred and respectable people. The wife wore a look of anxiety which the confident manner of the prisoner could not dissipate, nor his smiles remove when he tenderly kissed her on leaving the court-room at midnight session of Friday.

It would seem incredible that two weeks should be consumed in the trial of a case where the main witnesses were not over half a dozen people and who all saw the occurrence, but the trials and numbers of the prisoner have been very active, and counsel have been stimulated to avail themselves of every advantage offered and to fight the case down to the minutiae of detail. In addition to the neighbors and connected by marriage, Turpin and Farrington had been at different times in their lives associated in business transactions. During the war they were blockade runners, and Farrington was at least some part of his previously large estate. Turpin is said to be worth nothing. He is fond of litigation, and has been the cause of many enemies. On the other hand, Farrington stood very high in the community.

Mr. John H. Handy, of the Baltimore bar, was the principal counsel for the prisoner, and he had not finished when the court adjourned at midnight. On Saturday morning court was called at 9 o'clock, and Mr. Handy resumed his speech, which he continued until half-past 1 o'clock in the afternoon.

Mr. Handy made an exhaustive and forcible argument, which in the vigorous concluding summary of the evidence and appeal to the jury, seemed to greatly disturb the prisoner's friends. He spoke for two hours continuously, and six hours altogether. When the closing speech had been finished, Mrs. Turpin moved from her husband's side to a seat near Mr. Handy and said to him that, while his comments were appreciated, she felt that she was not a party to the trial, and she would have preferred to be in the jury box. Mr. Handy, however, word was sent that the jury had agreed. The prisoner, who had been in the court-room since the afternoon dinner, had in the interval enjoyed a hearty meal. Mr. Page and Mr. Crisfield were with him in his cell, and he was very comfortable. He was not, however, word was sent that the jury had agreed. In response to the formal questions asked by the chief justice, on several occasions, William Bennett, foreman of the jury, at 3 o'clock precisely, rendered a verdict of murder in the second degree. The jury was then polled, and every man answered without the slightest hesitation to the question, "Guilty in the second degree." The verdict was unexpected, and the defense attorneys immediately moved for a new trial, which was refused by the court. Mr. Stephen P. Toadvine.
