Obituary.

Miss Emma Shipley, as she was known to her friends, was buried on Friday morning at 10 o'clock in the presence of a large number of her friends. Her funeral services were held at the residence of her father, Mr. J. H. Shipley, on Wednesday evening at 8 o'clock. She was a member of the Methodist Episcopal Church and was a devoted and successful teacher.

Local Notes.

Mr. J. H. Shipley, of the firm of Shipley & Co., has just returned from a business trip to the West. He reports that the business is very quiet and that the market is generally dull. He also reports that the weather is very hot and that the crops are generally well.

From the Tuesday Edition.

Religious Services—Visitors to Chincoteague—Registers' Fees. —Levin Bradley, Esq., brought in a curious case of corn last week. It was shaped exactly like a mitten.

Chincoteague.

Rapid Progress in Business and Population on the Island. Our reporter visited Chincoteague Island last Monday, and was greatly surprised to find things on the island in such a flourishing condition. Notwithstanding the fact that this is about the coldest season there, business seems to be very good.

Local Points.

For Sale: One Bay Horse, Price \$50.00. Terms easy. Apply to L. H. Nook. —Remember that all full trees bought of S. P. Toadvine are guaranteed true to name. —For Sale: One pair Mules, six years old, and one yearling of Oxen, six years old. Apply to one: W. S. Gordy, Salisbury, Md. —For Rent: 1884. The farm in Quantico district now occupied by Geo. W. Messick, and the lower farm adjoining. Apply to Zenophine Farrington, Salisbury, Md. —Wanted: Foreman for Planing mill. Must be thoroughly competent, and familiar with wood-working machinery. Permanent situation. Good salary. Address with references, Lock Box 181, Salisbury, Md. —For Sale: Cheap: Turbine Water Wheel, (30 horse power with lift head) gearing and Band Wheel, all complete. Just the "rig" for planing mill, circular saw mill or grist mill. Address G. H. Toadvine, (successor to H. Humphreys) Salisbury, Md. —For Rent: The store house now occupied by the undersigned. This house is slightly damaged, and may be arranged as a dwelling above of four rooms, and store room on first floor, with call: Possession given October 1st. Humphreys & Tilghman. —The public are cordially invited by Rev. J. W. Gray, pastor, to attend the camp meeting near Bussan, beginning Aug. 18th. Richard M. Johnson will run a shack from Barron Creek Springs to the camp meeting every day during the camp.

Letters from the People.

TRIP TO DEAL'S ISLAND. —Our Quantico correspondent tells the tale of his trip in verse:

July the twenty-eighth at three o'clock,
About fifty persons gathered on the beach,
The boat went off with a lively crew,
And the rain descended from the cloud.

FROM CRISTFIELD.

Cristfield, Md., Aug. 8th, 1888.
Dr. J. Zack Taylor—My son-in-law, born in New Orleans, and lived in many sections of the United States, has always had attacks of Ague and Fever and Malarial troubles. He tried the Doctors out West, and in Baltimore and everywhere, but to no cure. The Doctors here told him he would have to get acclimated to the place before he would ever get well of them. So when I returned home from my last summer tour, I got him to try your Ague Bitters. He had not taken one bottle before the chills left him, his complexion changed and appetite returned; and, "I am going to take Dr. Taylor's Ague Bitters and take 'em bottles," he took 23 bottles—got so well that he discontinued it, and has not had a chill since, and to day he looks like another man and gives your medicine the praise. Says he is not afraid of being sick for when he feels any ways bad he takes a dose of Ague Bitters. This is an undoubted proof that Ague Bitters is a specific for chills and malarial troubles, besides being a blood cleanser and a perfect liver regulator, which changes a swarthy, deathlike countenance to health and clearness, as in the above case." Respectfully, Mrs. Elizabeth S. Johnson.

Our Mixtures "A," "B," "C," & "D."

In the Spring of 1882 we conceived the idea of mixing a concentrated chemical fertilizer yielding the elements of a complete plant food. We tested it on our own farms and distributed it among our most practical farmers, and the results were so flattering on Spring crops that we sold about one hundred tons for wheat last Fall. The results have been highly gratifying, and while the yield of wheat has not in all cases been as much as was expected, yet it has given a better yield than any other fertilizer of equal cost, and equally as good as Peruvian Guano—same quantity to the acre, and much better, when the same money value was applied. Last Spring we compounded a mixture which we designated as Mixture "B," starting at the time that we believed it to be nearly if not equal to the original "A," and at five dollars per ton less; and as far as we have been able to learn has given better results on corn. Our Spring sales far exceeded our most sanguine expectations, amounting to about three hundred tons used on corn, potatoes, strawberries, melons, etc., with the most gratifying results. We could here append scores of testimonials as to its superiority, but will refer to all who propose to buy fertilizers, to any one indiscriminately of several hundred persons who have used it. We hope to make this one of our principal branches of business, and knowing that upon the merits it will either succeed or fail, it will not cost us \$30.00 to try the best possible fertilizer for the least possible money; and this we are enabled to do, as we buy our bone, guano and other materials from reliable parties and from first hands in large quantities, thus avoiding heavy expenses, commissions, etc. We shall make our original Peruvian Guano Mixture "A," at \$30.00 per ton, and our "B," at \$25.00 per ton, and our "C," at \$20.00 per ton, and our "D," at \$15.00 per ton. We shall also keep in stock No. 1 Peruvian Guano, pure dissolved ammoniacal bone, high grade dry dust, South Carolina Rock, Kainit, Murate and Sulphate of Potash, Sulphate of Ammonia, etc., which we will sell at the lowest city prices, and, in addition, for spot cash. We solicit the patronage of the farming community, even if it is only a single ton or bag, believing as we do that we give a better fertilizer for the money than can be had elsewhere.

FOR WHEAT.

Try OUR MIXTURES, which have proved so satisfactory on wheat, corn, potatoes, &c. Our "A" contains a large percentage of Peruvian Guano, and our "B" of Ammoniated Bone. We have no certificates to publish, but respectfully refer anyone desiring to purchase a fertilizer to anyone indiscriminately who has used it. We solicit the patronage and confidence of the farming community.

Humphreys & Tilghman

SALISBURY, MARYLAND.

PROPOSITION.

The price charged by Dealers in our paints is a trifling advantage over the actual cost of the paint. The reason why other Paints are offered at less price, has been often demonstrated, but we submit the following proposition for the purpose of clearly proving it:

Purchase one-half gallon of any other brand of paint, and one-half gallon of our Paint. If the other paint is preferred, then the one-half gallon of our Paint will not be charged.

It is in our Print the cost of the one-half gallon of other paint will be paid for by the merchant who sells our Paint. If the other paint is preferred, then the one-half gallon of our Paint will not be charged.

Our Paints have now been in general use throughout the United States and Canada, also in Cuba and South America, during the past nine years, and under a Written Guarantee, which would have them as long over, if they were otherwise than the very highest quality of Paints for outside use, and expense if not satisfactorily painted with our Paint.

Wadsworth, Martines & Longman.

Now is the Time to Paint your House.

Buy only the best Paint—Wadsworth, Martines & Longman's. The only paint that can be sold in some localities where it is better known. Inquire of the following parties using this Pure Paint: Col. S. A. Graham, E. E. Jackson, Dr. Collier, Wm. H. Jackson, Milton A. Parsons, Dr. Siemens, Chas. Birchhead, Capt. Wm. M. Bark, Lewis M. Wilson, George W. Waller, D. S. Wrote, Josiah Pollitt, Elijah Gordy, John Wingate, and the following painters: Wesley Alkman, John Nelson, Benj. Freney, Capt. Beauchamp, Willard Galin, Jas. Wilson and a host of others. All orders filled promptly out of stock at

L. W. GUNBY'S

Hardware Store, 26 & 28 Main Street SALISBURY, MARYLAND.

CAMP MEETINGS.

These are now the topic of the day. We hope all will have a pleasant time. But to those who are not provided with their

Suit we will say: You can get a good dressy suit and a good wearing suit at a price within the reach of all. So come on, and we will suit your taste and pocket book. Don't you need a Duster, Gossamer, Umbrella, Collar, Shirt, Tie, Scarf, Trunk, Satchel or something? Bear in mind, that all we ask of you is to call before buying, as we feel confident we can suit you.

Birckhead, Laws & Carey,

44 Main Street, Salisbury, Md.

ATTENTION ALL!!

We are now selling our Straw Hats at Cost. We do this as we have not the room to carry over, and then again we do not want any old stock. Anyone in need of a hat will find it to their advantage to call.

an Shoes we have a complete, and when you buy, you may rest assured that you are getting no old stock, as we have none. Do not forget that we give you full value every time.—Also remember that we have the latest styles in shoes and slippers for either ladies, misses, children, men or boys.

We are now taking Trade Dollars at Par. Do not fail to call at the Baltimore One Price House.

A. WHITTINGTON, AGENT.

47 Main Street, Salisbury, Md.

I HAVE SEVERAL

Second Hand

Engines & Boilers

Scattered over the States of Delaware and Maryland that I will sell at a GREAT SACRIFICE—cheaply because they are useless, expense to ship them to this city, to clean and haul them to the water, and to haul them to the land, with extra freight and other expenses added. In addition to these objections, my stores and warehouses are crowded with new machinery, and have no room for old. I have one second hand very fine 18 in. 35 in. Engine with a 5 Top Fly Wheel, 18 in. Diameter and a Drive Wheel of 170 lbs. 6 ft. Diameter, 25 in. Bore, with Pump Governor, Flyer, Oil Cup, Etc. One 10, one 15, one 20 and one 30 Horse Power Portable on Skids, all in good order. A lot of poorer ones at 25c. per lb., ranging from 10 to 100 Horse Power. Also one 40 Horse Power Portable Boiler, good for 125 lbs. of steam, in perfect order.

WRITE FOR PARTICULARS

My Stock of New Strictly First-Class Nagle Improved

Erie Engines and Boilers and Eclipse Saw Mills!

In the most complete in the country, and as they are made in large lots, I can sell them at 10 per cent. lower than any other, and ship by express, receipt of order. BRANCH OFFICE—BORDENTOWN, N. J.

DRAGON'S PURGATIVE

Notes for the Farmers.

It is said 500,000 cattle grazed on the Wyoming ranges, valued at \$18,000,000.

At the Tokyo vineyard, near Fayetteville, N. C., is a vine which bore over 100 bushels of grapes.

In Jefferson county, Mo., a parsnip fifty inches long and fifteen inches in circumference was grown.

The Arctic raspberry is one of the smallest plants known. A six ounce vial will hold the whole plant, branches, leaves and all.

A watermelon vine grown by the Reams brothers, of Harris county, Ga., is 1,700 feet long, and it has produced 400 lbs. of melons.

There is nothing better (probably nothing so good) for mixing with poultry droppings as road dust gathered in season and stored in a dry place for time of need.

Timber cut between June and September keeps sound longer than if cut in winter. The old rule used to be cut in August, but any time will do while the foliage is greatest.

Brittle hoofs should be treated by frequent washing in warm water, and by rubbing them with glycerine mixed with an equal part of kerosene.

A farmer has tested the theory that iron driven into apple trees will promote fruit bearing. He has a winter golden pippin which never held its fruit or bore heavily until some old horseshoes placed in the forks of the tree became imbedded in it.

Nothing is so refreshing to an animal as a good dry dust-bath. In summer horses will roll and wallow in it, in the middle of dusty roads, and cattle will stand and throw it all over their backs with their feet.

Tennyson's "May Queen" who knows that if the beautiful girl who died so young and heart broken with Dr. Pierce's "Favorite Prescription" she might have regained on any another bright Mayday.

There is a greater general improvement in the breed of hogs than in any other farm stock.

If your horses are thin skinned and very much annoyed with flies when working or driving, keep up a handful of the wild worm-baiter.

It is a pleasant, sure cure. Also for Tetters, Itch, Salt Rheum, Scald Head, Erysipelas, Barbers' Itch, Blotches, all scaly eruptions of the skin.

If farmers and stock raisers would make larger drafts on the salt barrel, I think disease would make less frequent inroads on their pockets.

Why not work the bulls? It is no wonder that bulls so often become vicious. They have nothing to do but "study" devility.

"It has become so common to write the beginning of an article, in an article, in an elegant, interesting manner."

"There is no denying the virtues of the Hop Bitters in its plain, honest terms as possible."

"To induce people to give them one trial, which so prove their value, that they will never use anything else."

"The remedy so favorably noticed in all the papers."

"Religious and secular, is having a large sale, and is supplying all other medicines."

THE SALISBURY ADVERTISER
AND MARYLAND SHORSMAN.
ADDRESS ALL LETTERS TO THE ADVERTISER.
SATURDAY, AUG. 18, 1888.

Post-Office Hours.
MAILS CLOSE. MAILS OPEN.
North, 7:45 A. M. North, 7:30 A. M.
South, 7:45 P. M. South, 7:30 P. M.
Office open from 8:45 A. M. to 4:45 P. M.

Local and County.

—Mr. and Mrs. George P. Cannon are in Virginia for a few weeks.
—A small folding dockery is at the office waiting for a client.
—Noah Spicer, of New York, and Branson Spicer are here on a visit.
—Mr. and Mrs. R. E. Powell have been at Ocean City during the week.
—There are so many visitors in town we can't keep track of more than half.
—Col. Malone's friends desire him to be a candidate for legislature. See letter in another column.
—Utman Bros.' hack is fitted up in handsome style and is running for Adams's Salisbury Hotel.
—Mr. & Mrs. Samuel T. Williams and Mrs. W. A. Traylor arrived home this week after their summer vacation.
—J. S. Gott, of Baltimore, the architect in charge of E. E. Jackson's new residence, has been here this week.
—The steam tug for E. E. Jackson & Co. was launched at Philadelphia Wednesday, and called W. H. Jackson.
—Miss Adelia E. Ellis, daughter of James T. Ellis, Esq., was appointed to the free scholarship at St. Mary's Female Seminary, St. Mary's County, scholarship, to extend for three years from October 1st.

—Lemuel Malone will sell this afternoon at 2 o'clock, at the Peninsula House, three small farms, situated just outside of the corporation. Also a large building lot in Camden. See advertisement in another column.
—We have had some choice fruit from our friends this week. Mr. Geo. W. Ball contributed a basket of peaches. Mr. Charles Wallis a lot of Bartlett pears and Mr. Allen Brewington one of the champion watermelons of the season.
—J. Saml. Duffy has purchased the well known driving horse Dan Haggert, owned for four years past by Mr. Phippin. This horse has trotted very fast and but for an excitable disposition when in company, would have made a name on the track.

—The "second nine" picnic was held with great success Tuesday afternoon at "Woodbine Grove." Mr. Chas. H. Wood's beautiful place. The picnic was a success in every respect. The provisions for an emigrant train and had to leave behind a portion. The affair is spoken of by those who were admitted to its exclusiveness as merry, satisfying and fun alive.
—The Conference Worker has the following reports of local work: Bro. Hans, of Salisbury, is doing systematic and earnest work as a pastor. He made 300 visits in the last quarter. Worcester, Missin, Bro. Collins, pastor, will make a report of large increase in collections, with an improved spiritual condition, if the year equals the present promise.
—Corn has never failed so rapidly in this county as within the past two weeks. The very heavy rain prior to that time had made it grow too fast and the dry, cold weather has nearly ruined it. On weak soils the crops are withered up. From one end of the county to the other it has failed fast. The damp weather of a day or two back may revive it to some extent but the crop will not reach an average by at least one third.

—The "Household of Faith" or "Second Adventists" will hold a basket meeting, the Lord willing, in Mr. E. S. Todd's woods near Mr. George Eason's place, adjoining the town of Salisbury, commencing Friday, Aug. 17th inst. Able preachers are expected, who will unfold and unravel the Prophecies of the Bible. Something new, but true. Sinners, Saints, Devils and Infidels invited. Come one—Come all, "for now is the day of Salvation."
—Friday, August 24th being the Feast of Saint Bartholomew, and also the hundred and fifth anniversary of the building of Old Green Hill Church, there will be Morning Prayer, sermon, and a Celebration of the Holy Eucharist, beginning at 10 A. M. There will also be Evening Prayer and addresses in the afternoon, commencing at 3 o'clock. All who are interested in the restoration of the old Parish Church are cordially invited to attend. F. H. Adkins, Priest and Rector of St. Stephen's Parish.
—Capt. G. W. Parsons has his dredge and pile-driver above the bridge, conducting some marked improvements. The cranberry company are making a wharf in front of their property, and at the same time filling up the bog between the dam and the wharf. Ground is being rapidly made, and it will be but a short time before the whole space is so. The little stream which connected his meadow with the river will be filled up, the water being let out and in the meadow by means of a trunk. From the bridge to the end of the property will then be a continuous wharf. Capt. Parsons is building a new place of wharf for the Jacksons at the upper end of their line.
—Complaints are made by shippers of the freight charges on the railroads. They say the company's published rates to New York are 75 cents per hundred pounds while a crate of peaches weighing 40 pounds costs 45 cents or 50 cents per hundred. Further they state that no excess are available to shippers on the E. S. R. to 100 pounds to Boston except by express, while Delmar rates can send fruit to Boston every day. We asked one of the railroad officials about the complaint. He says there always has been a different rate for peaches. Excess are taken for 70 cents per hundred pounds and 10 cents at each coast. The higher rates for peaches is probably an account of the expense of filling up the cars.

Sharpshooters.

The Band Go to Riverston to a Festival. Personal Items.

Editor Advertisement—Wednesday last, the Wicomico Cornet Band, of this place, received a request to go to Riverston on the following Saturday, to furnish music for a festival. The time for preparing being short and the band being somewhat disorganized, it was impossible to appear in every respect as the young men of the band desired. However, they agreed to go, as the steamer, George W. Johnson, formerly the W. D. Morton, made an excursion trip of down the Northside. About 4 o'clock the young folks, together with the band, boarded the steamer, and in a very short time the cry, "all on board" was heard and soon we were off for Riverston. We landed at Riverston about 6 o'clock and were cordially met by many of the citizens (we mean those who were anxious to see our company of young ladies) and the band, the band being on the festival ground. After a short walk through the sand we arrived at the festival ground and found everything in order for the occasion. There we met several of our old friends. About 5 o'clock Mr. Noble addressed the audience for thirty minutes, in a most impressive manner, which was highly enjoyed by those present, after which the band, (and under the management of Walter C. Mann and Irving L. Twilley,) rendered some choice music. Refreshments were in abundance. While at Riverston we visited Mr. A. H. Bradley's large manory, where the carrying on an extensive business, furnishing labor to a number of hands. Mr. B. is a man of ambition and push, and if Riverston had a few more such energetic men as Mr. B. it would improve rapidly. At 10 o'clock the signal was given and we went our way to the boat and, as home seemed to be only a short distance, we were soon ready to leave the wharf. Our trip was indeed pleasant to most of the company. One of our young bloods became wroth and abused the engineer of the boat, but the most he said was on the shore, where he could run should the engineer make for him, but nothing was said on the subject. The engineer of the steamer became somewhat excited, we suppose, by having ladies on the boat and made a little mistake by asking one of the young men on board twice for his fare, and the second time the excursionist said: "Captain, if you are 'Wood', if you ask me again for my fare I'll make it over to you." We arrived home about 10 o'clock. The writer enjoyed the trip highly, for Dulce est desipere in loco.

"Justice," of Riverston, was in town Tuesday. Miss Emma Hollins, a graduate of the State Normal School of Baltimore, is visiting Hon. T. J. Twilley. Dr. Bealey, a graduate of the University of Maryland, is visiting Dr. J. Arthur Wright. Mr. S. J. Cooper has enhanced his dwelling on Main st., by putting a fine porch in front. Mr. James Mooney, has opened a first class barber shop, at No. 20 Main st., where you may get a shave for five cents. Mr. Lewis J. Kistler, of Johnson's Cross Road, formerly a citizen of Shary town, paid us a flying visit a few days since. He remained in town only two days, and left with the regret of his numerous friends. SEPTEMBER.

From the Tuesday Edition.

The Visitors Continue to Arrive—The Silver Wedding Reception.
—Charles Collins, of Baltimore, is visiting Dr. Siemons.
—Miss Mollie Powell, of Princess Anne, is visiting at Capt. Veasy's.
—Mrs. N. D. Welch, of Milton, Del., and Miss Welch, Esq., of Suffolk, Va., are here, called by the serious illness of Mrs. Holland.
—The Misses Bennett, daughter of Dr. Bennett, President of Randolph Macon College, Ashland, Va., are visiting Miss Jennie Cannon.
—Mr. Joshua Johnson, of Jersey City, N. J., is visiting his daughter, Mrs. H. L. Brewington. He is in excellent health and looks as young as when he left Salisbury.
—Miss Bartley and Miss Johnson, of Wilmington, Miss Nannie Robertson, of Baltimore, and Miss Cooper, of St. Michaels, are now visiting Mrs. John F. Coulbourn.
—The Silver Wedding anniversary of Rev. Alexander and Mrs. Sinclair occurred Friday evening. The parsonage was crowded with the friends who took the opportunity afforded to extend their good wishes and congratulations. Dr. Cunningham and Mrs. Cunningham, of Wheeling, W. Va., the latter a sister of Mr. Sinclair, were present and Miss Davidson, Mrs. Sinclair's sister. The choir sang two of the pastor's favorite hymns and prayer was offered by Dr. Cunningham, after which the guests were entertained by the hosts and each other. F. C. Todd appeared after an interval with a silver basket full of silver dollars which he presented to Mr. Sinclair on behalf of a number of members of the congregation. Todd was very graceful and happy in his remarks and the reverend gentleman replied in a similar manner, though taken entirely by surprise. Mr. Marlon Brewington, Mrs. E. T. Fowler, and Miss Mary Smith, sang during the evening and Messrs William Waites and Woodland Todd gave some excellent flute music. The friends of the couple who have happily completed a quarter of a century of married life, remembered them with many tokens of regard. These were placed in the library and the young married couples and a number of single ladies and gentlemen supposed to be contemplating matrimony, inspected them in detail so they would understand what to expect if they should be fortunate to reach twenty five years of happy married life. The reception lasted until eleven o'clock. The large number of guests must have been to Mr. Sinclair and his lady a gratifying evidence of the high esteem they have won not only in their own congregation but in the whole town.

—The following is a list of letters remaining in the Salisbury (Md.) Post-Office, Thursday morning, August 17th: Ladies' List—Miss Helen Cotten, Miss Mary B. Clark, Miss Ida Cummings, Mrs. John Heare, Miss Biddy Williams. Gents' List—Irving S. Collin, Wm. C. Weston, Daniel Reed, Walter B. Keston, Joseph Leonard, George Traylor, and his lady's gratifying evidence of the high esteem they have won not only in their own congregation but in the whole town.

—The following is a list of letters remaining in the Salisbury (Md.) Post-Office, Thursday morning, August 17th: Ladies' List—Miss Helen Cotten, Miss Mary B. Clark, Miss Ida Cummings, Mrs. John Heare, Miss Biddy Williams. Gents' List—Irving S. Collin, Wm. C. Weston, Daniel Reed, Walter B. Keston, Joseph Leonard, George Traylor, and his lady's gratifying evidence of the high esteem they have won not only in their own congregation but in the whole town.

Silence is Golden.

But Speech Comes First When the Bells are Sounded.

The base ball players and the large element in the town interested in the game are indignant over the fact that it seems hard to secure a match with neighboring clubs. Wednesday was set apart for a visit from Snow Hill. All arrangements were made, bills were paid and the audience was ready to gather. Word came from Snow Hill that they would not play their own bill but a combination with Stockton, Pocomoke and goodness knows how many other places. That was well received, as such a combination would raise the game closer and more interesting. Late Tuesday evening came a dispatch stating that they were not coming at all. No explanation followed, and up to this writing none has been received. Seaford the champion amateur nine of Delaware outside of Wilmington, has repeatedly declined to play our team, and a communication with Easton has failed to bring about anything definite. So we are in the unfortunate position of having the best nine on the Peninsula without being able to witness a good game. The nine has not an importation on it. Every member was born and raised in or near Salisbury, except one, and he has lived here several years. It has been defeated but once in seven years and its friends believe it invincible against any nine in the two states outside Wilmington and Baltimore. Yet we had rather see it beaten than to have no games at all. If the country nine are serious about playing here, we will our club to take the bull by the horns and challenge the best amateur nine of the two cities. Or let Somerset and Worcester get up some strong combination. Somerset has seven clubs. Pick out the nine best players of the seven and come to Salisbury. We will entertain them and turn out a friendly audience to see the game. Our people are fond of base ball and will do anything in reason to see a well played game. [Thursday afternoon the Secretary of our club received a note from Snow Hill stating that they had distanced some weeks ago but had made a combination with a certain team to play here. The Pocomoke players disappointed them and they could not make up their team. They express themselves as much annoyed over the failure of the Pocomoke contingent to come to town.]

—Our correspondent sends us the following Delmar items: The annual excursion from this place to Ocean City occurred on Wednesday 15th inst. The number of excursionists is estimated at more than 600. A festival given by the Baptist Mite Society was held on Friday evening Aug. 10th in the hall. Several musicians were present and music from out of the Sirmon Organs enlivened the interest. A prominent feature of the occasion was a lemonade stand with bucket and sweep, which was a source of amusement for children. The hall was tastefully decorated and the effort proved a financial success. Mr. John T. Gurdy is erecting a dwelling house on the choice lot in Delmar purchased of Mr. E. Franny. Two Baptist churches are in course of construction. The O. S. house is nearly ready for use, but that of the Missionary Baptists will not be completed for several weeks.

—The sacred concert given at the Atlantic Hotel Sunday evening was of a very high order and received much favorable comment and applause from the guests. The programme was: 1. Fest March. 2. Overture, Nebucco. 3. Violin Obligato. Signor F. Setaro. 4. Pieta Signor. Song by Miss Kate Tracy. 5. Serenade. 6. Hymn La Nuli. Song by Mr. F. Walker. 7. Die Post. Cornet Echo Solo by Signor F. Franceschini. 8. Bass Solo. Flee as a Bird. By Mr. R. H. Goldsmith. 9. Harp Solo. Signor Gian Setaro. 10. Xylophone Solo. Galop di Brava. By Mr. J. A. Tolly. —Under the heading "Somewhat Unexpected," Tuesday's Day has the following: The steamer Highland Light left the Wicomico river yesterday evening with seventy-five passengers by actual count. Upon arriving in Salisbury this morning a second enumeration revealed seventy-six. The discrepancy between the two counts was accounted for by the unlooked-for appearance of an infant only four or five hours old. Further inquiry into the matter revealed the fact that the young stranger had made his bow into the world about midnight, just after the Highland Light had steamed out into the bay. The mother was conveyed to her residence in East Baltimore. The mother went on board with her husband at White Haven. The child did not survive.

—We have received the following letter: Mr. Editor—You are hereby authorized by my many friends in this county to announce the name of Hon. Lemuel Malone as a candidate for the House of Delegates. A Democrat from principle, belonging to no faction, and one whose integrity and ability are unquestioned, should be nominated and elected, he would serve his constituents, with good credit. His experience in legislation, having served in the Senate and House before, would make him an invaluable representative. Salisbury, Aug. 16, 1888.

—Quail or partridges are numerous this year in Wicomico but rabbits are scarce. A new theory in regard to falls was advanced by a city sportsman this week. He states that they are here all through the summer but can be found only at times of high tide and not being fat people have never hunted them except for a few weeks before frost. How many agree with this view? —The Highland Light will run to Davis wharf next Friday to accommodate passengers who wish to see the Green Hill Church celebration, leaving here at 9 a. m.

—I offer for sale a very fine cow, half Ayrshire, born giving over four gallons milk per day, and has been made to yield 18 pounds of butter per week. Wm. B. Tilghman.

Carriage and Prices to Suit Everyone.

I am now prepared to sell all styles and grades of carriages at city prices. I can furnish all kinds of carriages lower than they can be bought elsewhere, and believe that my carriages are the best in the market for the money. I am sure that I can give you exactly what you want. I buy in large lots and sell them as low as anyone can. I get the lowest wholesale prices, and am giving my customers the benefit of it; all I want is a small margin—just a little above actual cost. Give me a call before purchasing and see my carriages, and you will be convinced. I am selling low or not. I do not ask you to believe what I say, but come and see my carriages, and you will be convinced. Harness and carriages of every description. Write for prices. Dean W. Perdue, P. O. Box 113, Salisbury, Md.

L. R. DORMAN, SALISBURY, MD.

T. R. HUBBARD & SON, CHESTERTOWN, MARYLAND.

PURGATIVE PILLS

No. 40 Main Street, Salisbury, Maryland.

Notes for the Farmer.

The 17 year locust is due next year. The rains in its wings mark a W on its back, and its cry repeated with its wings on its back.

Each tree sometimes bears best when well advanced in years. An orchard in Cecil, containing 1,500 trees between 15 and 20 years old, will this year probably yield an average of 2 baskets per tree.

If a cow does not do well after dropping her calf, give a tablespoonful of saltpetre in a bran mash three mornings in succession. This plan has been adopted more than forty years in one dairyman's herd, and he has been remarkably successful in its use.

Mrs. Frank P. Carson, of Evansville, Ky., has an apple which shows a remarkable state of preservation. Five years ago Mrs. Carson dried the apple by the stem and hung it up in her room. It has remained there during this time, and is now as sound as when pulled from the tree.

If you want fat lambs to turn off early, provide small troughs in a yard adjoining the sheep fold with entrance a little too small for the old sheep to go in, and put in a few cats, or a little corn meal or cotton-seed meal every day. The lambs will begin to eat when about three weeks old, and will gain rapidly.

The faster and more gentle a cow is milked the greater will be the amount given. Slow milkers always gradually dry up a cow, and for the reason that if the milk is not drawn out as fast as it is given down, it will subsequently be withheld, and that withheld is, as a matter of course, what is wanted on the strip-plugs—in fact, the upper surface of milk in the udder.

We all know what a large consumer of food the cow is. That it would seem to be expected by some that she can live and produce on comparatively nothing. On the contrary she must first be supplied with nutriment. Her milk and its products are simply the conversion of the surplus food that she does not need to supply the waste of the system, into these products.

If your horses are thin skinned and very much annoyed with flies when working or driving, steep up a handful of the wild wormwood or bitter weed, we wash in it, and then moisten the hair especially on ears, neck and legs, before taking them out of the stable; or a few walnut leaves will have the same effect. It will make the animal more comfortable and much more pleasant to drive.

Salt, of itself, cannot be classed as a fertilizer; neither is lime; but still both are employed to improve the fertility of the soil. The chemical action of salt, when applied to soil, is often beneficial. The usual quantity applied per acre is from six to eight bushels, always used as a top dressing to meadows early in spring, or to grain when it is sprouting or even after it appears above the surface.

A farmer near Rochester, N. Y., having failed to secure a good stand of corn in the spring, he sowed two bushels of cow peas on eight acres of land, drilling the corn in with the grain drill. This was done the first week in June. September 1, when the peas had attained a height of two to four feet, and were in full bloom, they were plowed under. The resulting effect on the wheat crop was very satisfactory, the peas constituting a rank, luxuriant stalk and very large heads.

The complete shading of the soil rapidly enriches it, even without the application of manure. It may be that shading, causing a loss of nitrogen from the air; but that is not the reason, for a farmer knows that wherever a stack of hay or straw has stood for several months the ground underneath it is not only enriched, but grows much darker in color. Any one may try an experiment, as follows: select the poorest spot of ground on the farm, and lay over it a strip of any length, but about a yard wide, a few inches of straw, and cover with a board, or, if preferable, lay only a board on the ground. If the place is then sowed to something, the difference in growth between that portion shaded and that not shaded will be very marked.

We wish we could impress on the minds of tens of thousands of farmers who hold but a small acre, say eighty acres, that they are not necessarily cut from stock-raising or feeding. They have some advantage which over a larger farmer. The care of a small number of animals may come in along with the other work on the farm without noticeable increase of expense, or of fatigue to those who do the work. And this means considerable. Where land is fully used there is a large quantity of produce on an eight-acre farm which can be profitably utilized by farm animals. Some rotation of crops is nearly always essential to the best farming, and grass and clover should have a prominent place in this rotation. These can best be used on the farm, rather than be sold. We are coming to learn that in corn-stalks and leaves there are vast stores of good food, which ought to be made better use of than simply turned under the surface. If the smaller farms of the country were fully stocked with farm animals it would be vastly more important factors in affecting prices than are all the great "manure."

An English paper, in commenting upon the subject, remarks that the Cheviot dairy farmer, by free use of bone manure laid on the grass lands, makes his farm which at one time, before the application of bone manure, fed only twenty head of cows, now feed forty. In Cheviot two-thirds or more generally three-fourths of a dairy farm are kept in perfect pasture, the remainder in tillage. His dairy farmers are commonly bound to lay the whole of their manure on the arable, but on the grass land, purchasing what may be necessary for the stable. The chief improvement besides drainage consists in the application of bone manure. In the milk of each cow, in its urine, in its manure, in the bones of each cow that is sold out, a farm pays with as much certainty a hundred weight of bone dust. Hence the advantage of returning this mineral manure by boning grass lands. The quantity of bone now commonly given in a bushel to an imperial acre of grass land is 150 lbs. This is a vast quantity, and will last seven or eight years, and on moved land about half that period.

BRONCHITIS BITTERS THE BEST TONIC. Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints, Dropsy, Rheumatism and Physicall Disorders.

SARABITAN NERVE NEVER FAILS. THE GREAT NERVE CONQUEROR.

STRAWBERRIES. T. H. Williams, Benj. T. Booth, WILLIAMS & BOOTH, WITH CURTIS & CO., Boston. BROWER BROS., New York. WISCHMAN & THORN, Philada. A. M. Thomas, Chester. FRUIT AND PRODUCE COMMISSION MERCHANTS. Peaches a Specialty.
