THURSDAY, September 1, 1757.

NEW-YORK, August 22.

FORT WILLIAM-HENRY, being on the third Instant besieged by a great Army of the French, was on the 9th Instant, after a vigorous Resistance, obliged to yield to the superior Force of the Enemy.

Thus far is certain; but as to some Circumstances attending what follows, we wait for Confirmation. What at present is generally received among us, as Truth, is, That the Enemy consisted of at least Eight Thousand Men; some make the Number much greater, and carry it even to Fourteen or Fifteen Thousand: That the greatest Part were REGULAR TROOPS, to these were added about a Thousand FRENCH INDIANS, and that the Rest of their Army were CANADIANS.

That our Garrison consisted of between two and three Thousand: That they sustained the Siege till they could hold out no longer, and had burst the greatest Part of their Cannon, and spent almost all their Ammunition. How many of the Garrison were lost in the Siege, is not yet known (some say about One Hundred) nor the Number of the Enemy that were slain (but it is said about fourteen or fifteen Hundred:)

That the Fort submitted upon a Capitulation, with Leave to march out with their Arms and Baggage, some Ammunition, one Piece of Cannon, and all the Honours of War. That the French IMMEDIATELY after the Capitulation, MOST PERFIDIOUSLY, let their INDIAN BLOOD-HOUNDS loose upon our People; whereupon a few ran off with their Arms, and light Cloathing that they had upon their Backs during the Siege, and were pursued by the Indians six or seven Miles on their Way to Fort-Edward; all the Rest were deploiled of their Arms;—The most were stripped stark-naked; many were killed and scalped, Officers not excepted. All the English-Indians and Negroes in the Garrison were seized, and either captivated or slain. The Throats of most, if not all the Women, were cut, their Bellies ripped open, their Bowels torn out, and thrown upon the Faces of their DEAD or DYING Bodies; and 'tis said, that all the Women are murdered one Way or other: That the Children were taken by the Heels, and their Brains beat out against the Trees or Stones, and not one of them saved. Some of the Fugitives that reached New-York on this Day, affirm this, as what they saw, in the whole, or in great Part, executed before they escaped: The Report of such Cruelty and Barbarity could hardly be believed, were we not assured of the horrible Massacre of several Hundreds of General BRADDOCK's wounded Men; of whom we hear not of one that survived the Carnage; were we not ALSO assured of the Murder of all the Sick and Wounded of the Garrison at Oswego, notwithstanding the previous Capitulation.

'Tis certain that the Growth of the British Colonies has long been the grand Object of FRENCH ENVY; and 'tis said that their Officers have Orders from their Superiors, to check it at all Events, and to that End, to make the present War as bloody and destructive as possible! 'Tis evident, that all their Measures tend this Way. Who can tell, that One of the Two Hundred that fell into their Hands in the last Month near Ticonderoga, has been spared? And is not every News-Paper still stained with the innocent Blood of Women and Children, and of unarmed Sufferers, who were plowing their Land, or gathering in their Harvest, on our Frontiers?

To what a Pitch of Perfidy and Cruelty is the French Nation arrived! Would not an ancient Heathen shudder with Horror, on hearing so hideous a Tale! Is it the MOST CHRISTIAN KING that could give such Orders? Or could the most savage Nations ever exceed such French Barbarities! Besides this, was it ever known in the Pagan World, That Terms of Capitulation were not held inviolably sacred!

Surely, if any Nation under the Heavens was ever provoked to the most rigid Severities in the Conduct of a War, it is ours!—It is hard for an Englishman to kill his Enemy that lies at his Feet begging his Life: But will it not be STRICTLY JUST, and ABSOLUTELY NECESSARY, from henceforward, that we (for our own Security and Self-preservation, and to prevent the further shedding of innocent Blood) make some severe Examples of our inhuman Enemies when they fall into our Hands? Will not our armed Men be obliged for the future to reject all Terms of Capitulation, and not to ask Quarter; but on the contrary, to sell their Lives as dear as they can! CONSIDER OF IT, my Countrymen, TAKE ADVICE, AND SPEAK YOUR MINDS. [Printed by Order.] New-York, 19th August, 1757.

On Friday the 12th Instant, an Express arrived here from Albany, with an Account of the Surrender of Fort William-Henry, to a large Army of French. The same Day 700 Volunteers from this City alone, turned out, and next Day embarked for Albany, under the Command of Captain Jasper Farmer, of the Artillery; Captain John Provost, of the Cadets; Captain James Depyster, of the Grenadiers; and the Captains Dubois, Lispenard, and Beekman, of the Militia. Most of Captain Johnston's Troop of Horse went up by Land. They were all ordered to return by Colonel Delancey, who met them at Esopus. The following Letter, &c. is the most authentic Account we have yet received of the Loss of Fort William-Henry.

Extract of a Letter from Albany, dated August 15.

I Set out for Fort-Edward last Tuesday, about Ten in the Morning, and found a vast Number of Militia all along the Road. Three Miles on this Side the Fort I met an Express, who informed me Fort William-Henry had surrendered that Morning about 7 o'Clock. This News obliged me to ride smartly along though the Night was dark, and about Half an Hour after Eight, I got opposite the Fort, this Side the River, where I found Sir William Johnson encamped with about 2500 of the Militia. A little before Nine, I got into the Fort, and in about seven Minutes Time, we were alarmed by a heavy firing of Musquetry at the Camp over the River, on which the Ramparts, and all the Lines without, were mann'd, expecting the Place to be invested. About a Quarter of an Hour after, Sir William sent Word, that their Centries had seen some Indians in the Woods, on which they fired, and that it had not been in his Power to hinder the Bulk of the Militia from doing the same; but that he had got them settled, and sent Scouts into the Woods, to make what Discoveries they could. After this was over, a Gentleman gave me the following Account of the Siege and Surrender of Fort William-Henry.

That a Runner had brought the Account, that in the Morning on the 9th, they held a Council of War, and finding no Succours could be expected Time enough, and they having burst their two 32 Pounders, two 18 Pounders, two 12 Pounders, two 9 Pounders, and two Brass Mortars, and but 17 Shells left, they concluded to hoist the white Flag, which Montcalm answered, and the General Officers met half Way between the two Camps, and agreed to the following Capitulation: That they were to march out with all the Honours of War; with Drums beating, Colours flying, with their Arms charged, a Field Piece and Match lighted; that they were to take as much Baggage as the Men could carry on their Backs, and that they were to be escorted by their Grenadiers, within two Miles of Fort-Edward; where we were to receive them with 500 of our Troops, and Colonel Young to remain as a Hostage for the safe Return of their Escort. This Day our Officers and Men spent in packing up their most valuable Effects,

Next Morning General Webb ordered 500 pick'd Grenadiers to be drawn out, in order to meet our Men and the Escort; but at 7 o'Clock we saw about 30 of our People coming running down the Hill, out of the Woods, along the Road that comes from Fort William-Henry, mostly stripped to their Shirt and Breeches, and many without Shirts, who gave the following Account: That agreeable to the Capitulation, our Men, with their Escort, were drawn out in their Lines; when Montcalm called aside our Field Officers, and said, the Indians always expected, and would have Plunder; and for fear of bad Consequences, advised them to give their Packs to them, which they did, though with Reluctance: As soon as the Indians got them, they began to massacre all the Sick and Wounded within the Lines, and before both Armies; next they hawled all the Negroes, Mulattoes and Indian Soldiers, out of the Ranks, butchering and scalping them; when our Men began to march, they then began without Distinction, stripped and tomahawk'd both Officers and Men, and all in the greatest Confusion took to their Heels; and thus those that came in made their Escape. General Webb ordered out 500 Men to meet and cover our flying Parties. I left Fort-Edward, last Friday at Eleven, and arrived here Yesterday at Ten, and when I came away, some of our Men were still dropping in. Poor Doctor Colhoun was yet among the Missing; Colonels Monroe and Young, with Williams the Engineer, and several Officers, are not yet heard of. Some that are come in say, they saw them go back and throw themselves under the Protection of Montcalm and the Regulars; but the Lord knows what French Treachery will do. Shall we never have Revenge!

Just as I was coming away, the Army was drawing up to march from Fort-Edward towards the Lake; but one who left it about two Hours after, says, that on a scouting Party coming in, there were Orders to halt, on what Account we have not yet heard; but I am afraid they have demolished the Fort, and are gone, for on Wednesday we saw a great Smoak ascend about that Place.

The Sail-maker escaped, and is here; there were seven of our Carpenters at the Lake, six of which are arriv'd; one Cafferly, a young Lad, not yet come in.

Sunday, Half-after One. Just now I have heard that Colonels Monroe and Young, with several Officers, are safe with Montcalm, and about 300 Men, several of whom he took from the Indians, which are all gone. Perhaps Doctor Colhoun is with them. This Town is now inclosed.—Those who were made Prisoners at Fort William-Henry, are going to York to guard the Port, as they, by Capitulation, are not to be employed in the Field against the French these 18 Months.

From the CONNECTICUT GAZETTE, dated August 20, 1757.

Extract of a Letter from Boston, dated August 15. "We are greatly chagrined at the Loss of the Fort; never was a more Universal Concern than appears in every Countenance: 'Tis said the Governor is using Means to raise a fourth Part of the Militia, with the Company of Cadets, to march as soon as possible. Our Messengers of bad News, seem to be like Job's, one on the Back of another.—By a Vessel just arrived from Halifax, we hear our Fleet was not sail'd five Days ago, and that there was 8 Sail more of French Men of War arrived at Louisburg: That they have now in that Harbour 23 Line of Battle Ships, Bomb-Ketches, &c.

God preserve us, for Success seems to attend all their Undertakings, and we are really in a melancholy Situation.

P. S. It was the certain Advice of the French having so large a Fleet at Louisburg, (by a Vessel they took bound from that Place to Old-France, with a Number of English Prisoners on board) that stopped

our Fleet from sailing, when they were unmoored, and the Transports all on board."

A Letter from Boston, dated August 15, says, "A vessel arrived at Marblehead the 14th Instant, in forty Days from Cadiz: She tells, that the King of Prussia is Master of all Bohemia, two of his Brothers killed, and Marshal Brown, the Austrian General.—The Antigallican Prize is yet detained, and the Captain of the Privateer has been obliged to abscond, lest he should be shut up in Prison.—Two French Privateers have been seen off the Banks of Newfoundland.—Five of the French Men of War that were lately at Louisburg, were sent up the River St. Lawrence, having on board the most valuable Effects of the People of that Island, they suspecting the English Design."

The Snow Earl of Loudoun arrived here on Saturday last from Jamaica: She was formerly a Privateer out of this Port under Capt. Valentine, and taken in the West-Indies by two Frigates, after a long and obstinate Engagement, but soon after was retaken and sent into Jamaica. By her we learn, That Capt. Murray arrived at Kingston the 15th of July; in 6 Weeks from London, (which brings up the 3d of June) with 160 Soldiers, and brought the following Advices, viz.—That the Right Honourable Mr. Fox, as Paymaster General; Lord Duplin, as Chancellor of the Exchequer; Lord Halifax, as Secretary of State; and Lord Egmont, as first Lord of Trade and Plantations; were all confirm'd in their respective Offices.—That the Dunkirk and Lancaster Men of War, of 50 Guns each, have taken a 74 Gun French Man of War, and carried her into Portsmouth.—That the Rochester and Somerset Men of War have also taken four large Store Ships, and a French Privateer of 26 Guns, in the Bay of Biscay; all of whom were safe arrived at Portsmouth, and the Store Ships valued at 50,000 l. each.—That the Antelope of 50 Guns has taken two French Merchant Ships, and a Privateer; and has also run on Shore a French Man of War of 46 Guns.—That his Majesty's Ships the Eagle and Medway, of 60 Guns each, were seen off Plymouth with a large French 74 Gun Man of War, in tow, dismasted.—That Admiral Osborne was sail'd with 15 Line of Battle Ships for the Mediterranean.—That Admiral Boscawen was shortly to sail from Portsmouth, with 9 Sail of three Deck Ships, on a secret Expedition.—

Capt. Murray also confirm'd the Engagement in Bohemia, wherein the King of Prussia has slain and taken Prisoners 13,000 of the Enemy.

On Sunday Morning Captain Caron arrived here in 13 Days from St. Kitts, and says, that two other Vessels belonging to Philadelphia besides those before mentioned, are taken by the French.

There is now a Subscription on Foot in this City for purchasing a Number of Fire-Arms to be ready on any Emergency; and we hear there are upwards of 1300 already subscribed for; and we make no Doubt, but a Proposal of that Kind, which is calculated with no other View than to serve the Public, will meet with a generous Reception, from all those whose Circumstances will permit them to contribute their Mite that Way.

New-London, August 17. This Day arrived here a French Prize Schooner, taken by Capt. Mumford of this Port, who was himself lately taken. Her Cargo consists of Rum, White Sugar, Coffee and Rolled Tobacco. She came from Martinico, and was bound to Louisburg.

BOSTON, August 15.

Last Thursday Capt. Phillips arrived here from Halifax, which Place he left the 4th Instant, and by him we have Advice, that the Troops were all embarked, and the Fleet ready to sail, and as the Wind was fair the Day after Captain Phillips came out, it is thought the Fleet took the Advantage of it, and failed on the destined Expedition.—That such mighty Quantities of Provisions, especially live Stock, were brought into Halifax, that they would not pay the Freight thither; and that several of the Vessels with Provisions, intended to accompany the Fleet.

Captain Phillips also informs, that a Scout of Captain Rogers's Company, had been out, and three of them being separated from the Rest, at a Place called Muscodorban-Creek, twelve of the Enemy came from the other Side of the Creek, and took and carried them off.

About a Week ago Sir William Pepperrell, and several other Gentlemen of Note, set out for Springfield, where a large Body of Troops are assembling, to be under Sir William, for the Protection of our Frontiers; or to be otherwise employed, as his Majesty's Service shall require.

We hear that every Troop of Horse in the Province, except his Excellency's Guard, is ordered to march forthwith to the Frontiers.

Extract of a Letter from Halifax, July 25.

"Arrived here Captain Phipps, in the *Huzza* Privateer, belonging to this Place, having taken in her Cruise a French Snow laden with Melasses and Bale Goods, which is not yet arrived, but hourly expected.—July 29, arrived here a Brig from the remaining Part of the English Fleet, by whom we have Advice, that the *Windsor* a 60 Gun Ship, had taken a Ship bound to Canada, said to be worth 50,000 l. Sterling, 30,000 l. of it in Specie.—She left the *Windsor* and her Prize about 8 Days ago, having also under her Convoy 18 Transports, with 2000 Highlanders on board. August 1. The Halifax Detachment, consisting of 700 Rank and File, embarked on board the Men of War; they are to be commanded by Colonel Lawrence, Major Murray, 7 Captains, 21 Subalterns, and are the best Troops belonging to this Province.—Captain Rous has the *Winchelsea*, and carries down Lord Loudoun: He commands the Convoy of the Troops, and has 8 Frigates: They are to follow the large Ships at some few Leagues Distance.—August 4. The Troops are all embarked, and sail the first fair Wind."

PHILADELPHIA, August 25.

Extract of a Letter from Albany, dated August 17.

"This Morning arrived here several Officers, which had been missing, and thought to be killed; who say, they all turned back to Montcalm, at Fort William-Henry, with Colonel Monroe, who, with Colonel Young, are all safe arrived at Fort-Edward, and may be expected here Tomorrow, Colonel Young excepted, he being wounded. They don't think we had about ten or twelve killed after the Place was taken; but that the Indians had carried off several Prisoners, whom Montcalm engaged, upon his Honour, to return safe, as soon as he came up with them. The Fort is intirely destroyed, and all our Entrenchments filled up, but they have left their own standing. Doctor Colbourn is well; I saw a Letter from him."

From New-York we learn, that Twenty Thousand Pounds Sterling Ransom had been offered for the *Windsor's* Prize; and that three other Men of War came out with the Highlanders besides the *Windsor*.

ANNAPOLIS, September 1.

By his Excellency HORATIO SHARPE, Esq; Governor and Commander in Chief in and over the Province of MARYLAND:

A P R O C L A M A T I O N.

WHEREAS I have Reason to think, that many Deserters from his Majesty's Regiments of Foot in America, as well as from the Troops that are supported by the several Colonies, are harboured and concealed in this Province: I have, with the Advice of his Lordship's Council of State, thought fit to issue this Proclamation, hereby strictly charging all Officers, both Civil and Military, within this Province, from Time to Time, to make strict Enquiry for such Deserters, and to cause them to be apprehended and committed to the Goal of the County where they shall be so apprehended, and to give Notice thereof to me, or to the Commanding Officers of the Regiments or Companies to which such Deserters belong. And all his Majesty's Subjects are hereby forbid to harbour or entertain any Person or Persons whom they shall know, or suspect to be, Deserters, from his Majesty's Service, under the Pains and Penalties inflicted by an Act of Parliament passed in the 29th Year of his Majesty's Reign, and by an Act of Assembly that was made at a Session of Assembly held at Baltimore-Town, in Baltimore County, on the Eighth Day of April last. If any of the Men that have deserted from the Maryland Forces, will return to their respective Companies, or deliver themselves up to any of his Lordship's Justices of the Peace, before the 25th Day of September next, I do hereby promise them a full and free Pardon; but any Deserters that shall be apprehended after that Time, will be punished with the utmost Severity.

GIVEN at the City of Annapolis, this 17th Day of August, in the Seventh Year of his Lordship's Dominion, Annoque Domini 1757.

HORATIO SHARPE.

J. Ross, Cl. Con.

By a Gentleman from the Northward, who left Philadelphia on Sunday last, we are informed, that the Account of there being 23 Sail of French Men of War at Louisburg, was generally Disbelieved; but on the contrary, that there were but a few, and the Place in a distressed Condition.

By the *Arethusa*, Capt. Stevenson, arrived in Virginia, from Liverpool, we have the following Articles, viz.

FROM THE LONDON GAZETTE.

Extract of a Letter from the East-Indies, dated Dec. 15, 1756.

IN the Month of September we heard that our Settlement in Bengal was taken, and in the Beginning of October we had a Confirmation of it.

The Destruction of that Place will be a great Loss to the Company. As I have seen the Letter which was sent to the Governor and Council here, I shall give you the Substance of the Affair.

It seems the Governor and Council at Bengal protected an old Nabob, deposed, from the Resentment of the young one, his Successor. The latter sent to demand him, but the English refused to deliver him up, upon which he raised an Army of 30,000 Horse, and the same Number of Foot, with three or 400 Elephants of War. The English sent out Spies to discover their Number, which they never knew, exactly till they were just upon them. They summoned the Fort to deliver up the old Nabob, promising upon that Condition to withdraw their Troops immediately; but this was again refused. The Enemy then threw up a small Breast-work opposite to the Fort, and mounted two 12 Pounders upon it. They fired two or three Times in an Hour, but if they had fired till Dooms-day they could never have made a Breach. However, long before any real Attack had been made, the ————run away on board a Ship in the Morning; the Counsellors and their Wives in the Afternoon; leaving Mr. Holwell behind, who said he would stay and defend the Place to the last Extremity. Being thus left with only a few Gentlemen and some military Officers, he called a Council of War. The Soldiers grumbling at their not being permitted to escape, he divided three Chests of the Treasure among them, and secured the Keys of the Gates himself; and the next Morning stood to the Defence of the Place gallantly. The Moguls kept firing their two 12 Pounders, but to no Purpose; for all the Mischief proceeded from the Counsellors Houses being built close round the Fort. In these Houses the Enemy lodged themselves and galled the English greatly. During all this Time the Fort fired constantly and dislodged them several Times; but the third Day, (I think it was the third) most of our Men being killed, and all the rest wounded (with only two Hours Ammunition left) Mr. Holwell thought to have made an honourable Retreat by hanging out a Flag of Truce to amuse the Enemy; but the Ships in the River had dropt down several Miles from the Fort, and did not leave even a Boat for the others to escape in. The Soldiers that Night knocked off the Lock of the little Gate (Mr. Holwell having the Keys) and let in the Moguls, who immediately loaded them with Irons, and crammed them into a Place called the Black-hole, for that Night: But out of the 175 that went in, only 16 came out alive next Morning, occasioned by the excessive Heat.

The next Day they carried Mr. Burdett to accompany Mr. Holwell up the Country, loaded with Irons, and gave them only Rice and Water for their Provision: They likewise obliged them to walk three Days through the Sun without any Covering; and when they arrived at their Journey's End put them into a Cow-house, where they narrowly escaped another Smothering. However, in three Days they dismissed them. From thence we went to Muxdavatt.

The 28th of October we sent three Ships full of Troops and Ammunition to reinstate the Company's Servants, as we hear it will be delivered up to us shortly. The Company is reported to have lost by this Affair two Crow of Rupees. Each Crow contains an Hundred Lack, and each Lack an Hundred Thousand; that is twenty Millions of Rupees, which make two Millions two Hundred and Fifty Thousand Pounds Sterling.

The same Day our Ambassadors arrived from Poonee, where they had been three Weeks treating with the Maratta Prince, to whom we have delivered Gheria, and they in Return have given us several Villages at Seven-rooke."

Admiralty-Office, June 11. The Lords of the Admiralty have received an Account, That on the 30th of last Month, between one and two in the Morning, his Majesty's Ships the *Eagle* and *Medway*, being about 43 Deg. North, and two Deg. West Long, from the Lizard, gave Chase to a large Ship under French Colours, standing to the Eastward; and coming up with her about four they attacked her with a very brisk Fire for about three Quarters of an Hour, when she struck. She proves to be the *Duke d'Aquitaine*, commanded by the *Sieur d'Esquelen*, of about 1500 Tons, mounts fifty Guns upon two Decks, all eighteen Pounders, had on board 493 Men, and belonged to the French East-India Company. She lost in the Engagement about fifty killed, and a great many wounded, 22 very dangerously; and all her Masts, Sails and Rigging broke away and fell over board before Night. She came from Lisbon, where she landed some Months ago a very rich Cargo from the East-Indies; and when taken was only equipped for War, with Orders to cruise for ten or twelve Days off the Rock of Lisbon, in order to intercept the *Mermaid*, one of the twenty Gun Ships, which was on the Point of sailing from Lisbon, with a Convoy. During her Cruise she took an English Brig from Cadiz bound to Cork, which was ransomed for 200 l. The *Eagle* had ten Men killed, and 32 wounded in the Engagement with the *Duke d'Aquitaine*; but as the *Medway's* Fire could only be employed in raking her, she had only ten Men wounded. [London Gazette.]

LONDON, June 11.

The Militia Bill has passed both Houses of Parliament. Some People just come on Shore from the *Duke d'Aquitaine*, the *Eagle's* Prize, report, That the Officers have found 37 Chests of Money, and are in Hopes that the sum is of more Value than she was at her first Arrival at Lisbon.

We are well assured that the greatest Part of the Ministry are settled: The *Duke of Newcastle* to be first Lord of the Treasury; Mr. Pitt Secretary of State; Lord Hardwick Privy Seal; Lord Gower Master of the Horse; *Duke of Dorset* to have a Pension; Mr. Legge Chancellor of the Exchequer; Lord Anson Treasurer of the Navy; and Lord *Winchelsea* to be continued first Lord of the Admiralty. 'Tis said this Event has been brought about by a great Personage of the Law.

MARYLAND GAZETTE,

Containing the freshest Advices foreign and domestic.

THURSDAY, September 8, 1757.

CAMP BEFORE PRAGUE, May 11.

THE City of Prague is now completely invested by the Prussian Troops on both Sides of the River, the King commanding on one Side, and Marshal Keith on the other. Prince Charles of Lorraine, Marshal Brown, the two Princes of Saxony, Prince Louis of Wirtemberg, the Prince of Modena, the Duke of Aremberg, &c. &c. are said to be in Prague. Advices being received that Count Leopold Daun is advancing with a Corps of 15000 Men from Königgratz, the King of Prussia has detached the Prince of Bevern with 12 or 15 Battalions and 50 Squadrons, to offer him Battle. It is said that the Austrian Army is assembling at Beneschau, about two Miles beyond the Zafawa.

Berlin, May 12. It is assured that we had only 2500 Men killed, and 3000 wounded in the bloody Battle of the 6th Instant.

Berlin, May 17. The Day before Yesterday a Courier from the King's Head Quarters before Prague brought Advice, that they had begun to bombard that City; and that his Majesty's Troops had taken an Entrenchment upon an Eminence called Ziska, which commands the City.

Brussels, May 27. Letters from Vienna say, that Prague was so closely invested, that, in order to favour the Passage of a Messenger from his Royal Highness Prince Charles of Lorraine to the Empress, they had been obliged to make a Sally under the Command of Major General Lacy, in which great Numbers had been killed on both Sides. They add, that before the End of this Month, Count Daun's Army would be strong enough to go to the Relief of Prague.

Vienna, May 21. Prince Charles of Lorraine is in very good Health, and the Garrison of Prague, which consists of 48,000 Men, is in good Condition. That City is provided with a numerous Artillery, and Plenty of Provision and Ammunition. Count Daun has thought fit to quit the Camp at Kollin, in order to meet the Reinforcements which are in march to join him.

Paris, May 27. We have received Advice from the East-Indies, by Way of Constantinople, that the Nabob of Bengal has destroyed all the Possessions of the English upon the Ganges, to the Amount of 50,000,000 of Livres, and that this Prince afterwards went upon the Coast of Coromandel, where he has declared, that he will do his utmost to destroy all that belongs to the English.

Berlin, May 28. We hear from his Majesty's Camp before Prague, that in the Night between the 23d and 24th Instant, a Body of 12000 Austrians, commanded (as the Deferters say) by Prince Charles of Lorraine in Person, made a furious Sally on the Side of Marshal Keith's Quarters at Weissenberg. The Rest of their Troops stood on the Ramparts waiting the Issue of the Enterprize, in order to break out and join them in Case of Success. Our Picquets sustained their first Attack with so much Bravery that the whole Army had Time to get under Arms, which they did in less than a Quarter of an Hour. After this the Enemy was repulsed, and obliged to retreat back into the City with considerable Loss, which we cannot exactly ascertain, as they took Care to carry off all their Slain and Wounded. Ours is trifling, not losing one Officer of Note. Prince Ferdinand, his Majesty's Brother, had his Horse killed under him, and a Ball slightly grazed his Chin; which, however, did not hinder him from being present during the whole Action, which began at Two in the Morning, and lasted till Seven. Several Deferters are come over to us on this Occasion. The Duke of Brunswick Bevern is encamped with his Corps in the Neighbourhoods of Czafaw and Kutenberg, to observe the Motions of Count Daun's Army.

Berlin, May 31. The Austrians, in the Sally made from Prague the 24th, with 22,000 of their best Troops, succeeded so ill, that they had 1000 Men killed, and almost as many wounded; besides which, they lost 300 by Desertion.

Hagen, July 7. Several Letters from the Army before Prague advise, that the Austrians made a fresh Sally the 28th ult. but that they met with no greater Success than they had done the 24th.

Paris, June 6. As the English Affairs are in so bad a Situation at Coromandel, the Forces we have sent there will come very opportunely to give the finishing Stroke for expelling them entirely out of the East-Indies.

From the French Camp at Rbeda, June 13. The Duke of Cumberland having fairly eat up and removed every Thing that was edible in the Bishopric of Paderborn, has quitted that Country between Three and Four this Morning. The Palatine Troops will continue to flatter us that they will speedily march hither; but perhaps they will wait for the Signal of a Victory, which we don't know when we shall be able to give them.

Dresden, June 10. According to the last Advices from the Army before Prague, the Prussians have summoned several Thousands of Bohemian Peasants, who are to be employed in raising a Line of Circumvallation, fortified every where with Palisades; and in proper Places with Redoubts. A fresh Summons has been sent to the Garrison, that after the 12th they are to expect no Terms. It is very positively said, that all the Prisoners taken in the Sally of the 28th, were drunk, and that the Number of Slain did not amount to less than Ten Thousand Men. A private Letter handed about here says, that none but the principal Officers can afford to purchase Beef, and that Horse-Flesh is Three-Pence a Pound. His Prussian Majesty has permitted a Courier to go from Prague to Vienna, to the Family of Prince Lichtenstein, to inform them that his Highness is dead of his Wounds.

Vienna, June 4. The Illyrian Nation, as a Proof of their Zeal, have offered her Majesty 1000 Foot, and 600 Horse, besides a free Gift in Money, which has been accepted.

Dresden, June 8. The last Letters from Prague advise, that the Bombardment continues very vigorously, and that the Besieged began to be in Want of several Kinds of Provisions, as well as Forage. The Day before Yesterday seventeen Boats, coming from Magdebourg, passed by here over the Elbe, laden with Powder, Bombs, Bullets, and other Ammunition, for Bohemia.

Utrecht, June 15. We learn from Bohemia, by the Way of Franconia, that the King had caused new Batteries to be erected on the Right of the Moldau, to batter Prague with greater Force, and hasten the Reduction of the Place, where every one, even to the Monks, have taken Arms.

From M. d'Etres's Head Quarters at Hertbroek, June 10. The Enemy's Army will soon be attacked, if not unattackable; it almost appears so. All their Forces are re-assembled in the Camp of Brackwede. Their Line is on a rising Ground: The Summit of the Mountain is not occupied: Their Right is separated from the Rest of the Army by a Valley: The third Part of the Line and their Left extends by the Declivity of the Mountain as far as some Marshes. The Post of Brackwede is entrenched. The River of Kauffenbach covers their Front, and closes the Marches of the Left. The Front of the Camp is secure from any Attack. A Redoubt is erected before each Battalion. Such is their Position.

Maffid, May 24. Our Court persists in its Resolution of being quite neuter in the present War between France and England; which, with the Augmentation of our naval Force, will make us equally respected by both Parties.

We have at this Time 44 Ships of the Line, 18 Frigates, 4 Bomb Galliot, 3 Fire-Ships, 12 Chebecs, and 5 Packet-Boats.

Paris, May 31. The Acquillon Frigate, of 46 Guns, and the Escarboucle Advice Boat, of 16, both followed M. de Ache's Squadron beyond Cape Finisterre, and brought Word at their Return, that the Fleet was in good Condition when they left it. It was composed of 11 Sail, viz. two of 74 Guns, one of 64, one of 32, one of 28, two of 24, two of 20, one of 16, and one of 14 Guns.

M. de la Moth's, is of 9 Ships of the Line and two Frigates, and has 704 Pieces of Cannon.

L O N D O N, May 24.

It is confidently said, that the Irish Brigades, in the Service of France, which were sent into West-phalia, have deserted to the King of Prussia.

Extract of a Letter from Plymouth, May 20.
 "The Tartar Man of War, Captain Lockart, is arrived here from a Cruize, and has brought in the Penelope Privateer belonging to Morlaix, of 16 six Pounders, and 2 two Pounders, and 180 Men."

The Betty, — from Glasgow, for Virginia, is retaken by the Duke of Bedford Privateer, and sent into Dublin.

The Charming Nancy, Fannin, arrived at Dover from Maryland, was taken by a French Privateer, and ransomed for 1000 l.

May 28. A French Privateer of 12 Guns is taken off Cromartie, by the Dolphin Man of War. A French Privateer of 16 Guns is taken off Cromer, by the Weazel Sloop of War.

The Marquis D'Aumont Privateer, from Bourdeaux, of 16 six Pounders, and 160 Men, is taken by the St. George Privateer of London, after an Engagement of two Hours, in which Captain Devonshire was killed the first Fire. The St. George has also re-taken the Dinwiddie from Virginia for Bristol, with 240 Hogheads of Tobacco, and brought them both into Falmouth.

May 31. The Boscawen Privateer, Captain Manger, of Guernsey, was taken the 14th Instant, by the Thetis and Pomona; two French Frigates, and carried into Nantz.

The Friendship, Tolgo, from Boston to London, is taken and carried into St. Maloes.

The Danish Squadron, consisting of eight Men of War, anchored in the Road of Elsinour the 13th Instant.

It is said, that on the Day preceding the late Battle of Auwal, Marshal Brown sent a Trumpet to the King of Prussia to desire a Truce for twelve Days; to which Message that Monarch returned the following Answer by Word of Mouth, 'I will let the Marshal know my Resolution on this Head To-morrow.'

June 2. The Acquillon, a French Man of War, of 48 Guns, and 450 Men, is drove on Shore, and destroyed by the Antelope Man of War, a 50 Gun Ship, near la Hogue Bay.

The Antelope has taken a Privateer of 10 Guns, and a Ship, Name unknown, for Canada, and carried them into Portsmouth.

June 4. The East-India Company's Ships Portland, Edgecote, and Chesterfield, are arrived at Limerick, from the Coasts of Malabar and Coromandel, and bring Advice, that on the Death of Alliverdee Caun, the late Nabob of the Province of Bengal, his Grandson and Successor Sourajee Doulah made most exorbitant Demands on the Company for Money, which not being immediately complied with, he marched down in the Month of June to Calcutta with an Army of 60,000 Men, and made himself Master thereof, together with all the Settlements of the Company in the Province of Bengal, exercising most inhuman Cruelties. The French and Dutch having seen the Fate of the English, made their Peace with the Nabob with large Sums of Money.

The Presidencies of Fort-St. George and Bombay have each detached a large Number of Men, in Conjunction with his Majesty's Squadron, under Admiral Watson, to re-establish the Settlement of Fort

Fort William, in which they had great Hopes of succeeding.

The Protector, Capt. James, has taken and carried into Tillicherry, the Indian, Capt. Buffaw, from Pondicherry, of 24 Guns, and 200 Men, valued at near 40,000 l.

The Hound Sloop of War has taken a French Privateer, and sent her into Leith.

June 10. 'Tis said there are near 50,000 French Prisoners in England, and yet the French Court refuses to settle a Cartel for Exchange of Prisoners, except the Captures made before the War are first restored. Yet they allow Captains of Ships, Merchants, and Passengers to be exchanged Man for Man; and many are come over on their Parole to procure Prisoners of equal Rank to be sent to France by the Way of Holland or Flanders.

June 11. According to some private Advices from Holland, the Austrian Army in Prague, after their two unsuccessful Sallies, offered to evacuate the City on honourable Terms; but the King of Prussia still insisted on their surrendering at Discretion.

The Defiance Privateer, Capt. Dyer, is arrived at Portsmouth, and has taken and brought in with him, the Queen of Angels, from St. Domingo for Rochelle, of 18 Guns, and 50 Men; and the St. Philip, from St. Domingo for Bourdeaux, of 16 Guns and 50 Men. Both are computed by the French at two Millions of Livres.

June 16. Yesterday Morning a Messenger arrived at Kensington from his Royal Highness the Duke of Cumberland. We hear that the French Army was within 15 English Miles of his Royal Highness, and that it consists of 80,000 Men, but sickly and in Want of Provision and Forage, the Duke of Cumberland having destroyed and removed the same for some Leagues.

The Deal-Castle, Harman, a Letter of Marque from Leghorn, has taken and carried into Gibraltar a French Privateer of 12 Guns, and 85 Men.

We learn by a private Letter from Dresden, dated June the 4th, that an Express was just arrived from the Army before Prague with an Account, that the Besiegers themselves were struck with Compassion for the deplorable State of that Capital, and of those within it; that in Consequence of the Bombardment, 700 Houses and three large Churches have been reduced to Ashes; that the principal Streets are, in a Manner, choaked with the dead Bodies of Men and Horses; that the Jews, being plundered of every Thing, are dying daily of Want; and that it is looked upon as a Thing impossible the Place should hold out a Week more, especially as they are now undeceived, in Respect to the Notion that had prevailed amongst them, that the French had entered Bohemia with an Army of 100,000 Men for their Relief.

They Right from Francfort, that his Prussian Majesty having signified to the Princes Xavier and Charles, that he had the greatest Concern for their Condition, and that it was equal Madnes and Folly for them to remain any longer where they were, and that they might remove with Safety, when, and where they pleased; it is said they accepted the Proposition, and are actually gone, under an Escorte of Three Hundred Horse and Dragoons to Munich.

The same Letters say, that the Violences committed by the French Troops, and the oppressive Orders issued by their Generals, have so thoroughly convinced the Germans of the Consequences that must attend the unlimited Authority of an Emperor, supported by a foreign Force, that there is nothing more probable than that the Circle Troops will either remain inactive, or join with the Prussians.

June 23. The French Privateer taken by the Lancaster and Dunkirk, had taken, during her Cruize, six Prizes, which she had sent to France, one of which was the Dryden, Cramp, from Virginia for London.

The Vulcan Privateer, from Weymouth, is taken by the French.

Admiral Boscawen will, it is expected, sail Today or To-morrow, with the Fleet for the Bay.

June 24. An Account has been received that the Duke of Cumberland has sent his Baggage over the Wefer, and was in hourly Expectation of being attacked by the French, who were distressed for Want of Provisions; and as there are Letters from Cologne of the 16th, which mention a Battle being fought on the 14th, and no Account of it had passed through that City for France, it is reasonably conjectured, that (if there has been an Engagement) it turn'd out in Favour of his Royal Highness. But we are informed that our Court has received no Account of an Action; that, by the last Express, all Things looked well, and that his Royal Highness was not removed from his Camp.

Letters by the Holland Mails advise, that the City of Prague is almost reduced to Ashes, and that a Pound of Bread sells there for Ten-Pence, and a Pound of Horse-Flesh for Two-Pence.

Seven Companies of Marines are ordered round to Plymouth for Embarkation.

We hear that the new Ministry will kiss his Majesty's Hand this Day.

It is said that near thirty Ships of War, from 20 to 40 Guns, will be very speedily appointed as Cruizers in the Channel and Sound, for the better Protection of our Commerce.

Admiralty-Office, June 21. His Majesty's Ships the Lancaster and Dunkirk arrived at Plymouth the 18th Instant; and by a Letter from Captain Edgecumbe it appears that they have taken in their Cruize the under-mentioned Privateers, &c. viz. Le Comte de Gramont, of 36 Guns, and 370 Men;—Le Nouveau Saxon, of 16 Guns, and 150 Men;—and a Schooner from Bourdeaux, bound to Quebec, with Wine and Brandy.

Captain Duff, of the Rochester, at Sea, also gives an Account of his having taken the Jean Baptiste Privateer of St. Maloes, of 8 Guns, and 41 Men.

B O S T O N, August 22.

Last Monday Captain Kimball arrived at Marblehead from Cadiz, which Place he left the 4th of July last: He informs us, That the French East-India Ship, Prize to the Antigallican Privateer, was at length, ordered by the Court to be delivered up to the French.

Monday last arrived here Capt. Bronsden, from Bristol, last from Cork, which he left the Beginning of June, in Company with the Windsor Man of War of 60 Guns, the Granada Bomb Ketch and her Tender, and some Merchantmen: The several Vessels from London bound for this Place were waiting at Cork, expecting a Convoy from England for a Number of Transports who were taking on board the Highland Regiments designed for America, and would soon be in Readiness to sail.

Captain Jacocks from London, informs that he sail'd from Plymouth the 21st of June in Company with eight Sail of Ships bound for Newfoundland and South-Carolina, under Convoy of the Fowey Man of War of 20 Guns: That about 125 Leagues from the Lizard they fell in with two large French Ships, of 30 or 36 Guns each; one of which bore down and engag'd the Fowey, which he fears they took, as she was but poorly mann'd and a heavy Sailer. The Ships under Convoy on seeing the Fowey engag'd, immediately made all the Sail they could, and as there was a brisk Gale of Wind, soon left them, except one of the Ships for Newfoundland, which he saw strike to the French.

Yesterday arrived here the Captains Trefry, Hall and Finley, in six Days from Halifax, by whom we learn, that the Windsor Man of War was safe arrived there, with the Prize which she took in her Passage from Cork. And, that the Fleet under the Command of Admiral Holbourne was soon to sail and cruize before Louisburg.

N E W - Y O R K, August 29.

Since our last some Officers and private Men, belonging to the Garrison of Fort William-Henry, came to Town from Albany. Seven Deserters are also come to Town, and give different Accounts, which cannot be depended on; though we hear that the French have burnt down Fort William-Henry, and are retreated, but for how long we know not; that all the missing Officers were come in, and that the Massacre among the Women was not so great as was generally believed at first; but that the Indians destroyed all the Sick and Wounded is beyond Dispute; that the Colonels Monro and Young were arrived at Fort Edward; and that the Number of the French killed during the Siege was very considerable. What follows is the

ARTICLES of CAPITULATION granted to Lieutenant Colonel MONRO, for his Britannic Majesty's Garrison of Fort William-Henry, the retrenched Camp adjoining, and all their Dependencies, by the Marquis DE MONTCALM, General of his Most Christian Majesty's Troops in Canada, the 9th of August, 1757.

A R T I C L E I.

THAT the Garrison of Fort William-Henry, and the Troops which are in the retrenched Camp, being joined, shall march out with their Arms, and the usual Honours of War, with the Baggage of the Officers and Soldiers only; they shall be escorted by a Detachment of French Troops, and by some of the Officers, or Interpreters attached to the Savages, and to march To-morrow Morning early.

II. The Gate of the Fort shall be delivered up

after the Capitulation is signed, to the Troops of his Most Christian Majesty, and the retrenched Camp, immediately on the Departure of the British Troops.

III. All the Artillery, warlike Stores, Provision, and in general, every Thing except the Effects of the Officers and Soldiers, shall, upon Honour, be delivered to the Troops of his Most Christian Majesty, as is already specified in the first Article; and for that Purpose there shall be delivered with the Capitulation, an exact Inventory of all the Stores mentioned in this Article: Provided always, That this Article shall extend to the Fort, Retrenchment and Dependencies.

IV. The Garrison of the Fort, Troops in the Retrenchment and Dependencies, shall not serve for the Space of 18 Months, to commence from this Day, neither against his Most Christian Majesty, or his Allies; and there shall be delivered with the Capitulation, an exact State of the Troops, in which shall be specified the Names of the Officers, Engineers, Artillerists, Commissaries, and all employed.

V. All the Officers and Soldiers, Canadians, Women and Savages, which have been made Prisoners by Land since the Commencement of the War in North-America, shall be delivered in the Space of three Months, at Carrilon; and according to the Receipt which shall be given by the French commanding Officers, to whom they shall be delivered, an equal Number of the Garrison of Fort William-Henry shall be capacitated to serve, agreeable to the Return given in by the English Officer of the Prisoners he has delivered.

VI. An Officer shall be given as a Hostage till such Time as the Detachment returns, which shall be given for an Escorte to his Britannic Majesty's Troops.

VII. All the Sick and Wounded that are not in a Condition to be transported to Fort Edward, shall remain under the Protection of the Marquis de Montcalm, who will take proper Care of them, and return them as soon as recovered.

VIII. Provision for the Subsistence of the British Troops, shall be issued for this Day and To-morrow only.

IX. The Marquis de Montcalm being willing to shew Colonel Monro, and the Garrison under his Command, Marks of his Esteem, on Account of their honourable Defence, gives them one Piece of Cannon, a Six Pounder.

Done in the Trenches, before Fort William-Henry, the 9th of August, 1757.

GEORGE MONRO.

Agreed to in the Name of his Most Christian Majesty, agreeable to the Power invested in me by the Marquis de Vaudreuil, his Governor General, and Lieutenant General of New-France.

MONTCALM.

The Marquis de Montcalm's Letter to Colonel Monro, requiring him to deliver up the Fort. Dated August the 3d, 1757.

S I R,

I HAVE this Morning invested your Place, with a numerous Army, a superior Artillery, and all the Savages from the bigger Parts of the Country; the Cruelty of which a Detachment of your Garrison have lately too much experienced. I am obliged in Humanity to desire you to surrender your Fort. I have it yet in my Power to restrain the Savages, and oblige them to observe a Capitulation, as hitherto none of them have been killed, which will not be in my Power in other Circumstances; and your insisting on defending your Fort, can only retard the Loss of it a few Days, and must of Necessity expose an unlucky Garrison, who can receive no Succours, considering the Precautions I have taken. I demand a decisive Answer immediately, for which Purpose I have sent you the Sieur Funtrune, one of my Aid de Camp. You may credit what he will inform you as from me. I am with Respects, Sir,

Your most humble,
Most obedient Servant,
MONTCALM.

Colonel Monro inform'd the Sieur Funtrune, who brought him the Letter, That he with Scorn and Disdain rejected Monsieur Montcalm's Proposal, and that he would defend Fort William-Henry, and the Intrenchments thereunto belonging, while he had a Man able to fire a Gun.

in the whole to this Day. Out of 25 Sail of Ships that failed last from Carolina, 22 are taken, and the whole Crop of Indico carried into France, in Value about 170,000 l. Sterling, which is a cruel Stroke on a young Manufacture:—And of the last 30 Sail of Ships from Jamaica, 18 are taken, and 6 missing, which no Doubt are also taken. What is more surprizing is this, that notwithstanding we have lost 500 Sail of Ships within seven Months past, we have taken 90 French Privateers, some of 36 and 40 Guns, superior to our 20 Gun Men of War. By this you may be convinced how impossible it is to cover Trade, in Time of War, by any other Way than sailing under Convoy; for the Privateers of France are innumerable, and their amazing Success has given them great Spirits; but it is very certain they have never behaved well in any Engagement.

“ We have a fine Prospect of a plentiful Crop this Year, which will be very acceptable; for the Distress of the Poor in England, and more particularly in Ireland, has been, and still is, very great. The King has consented to a Grant of Parliament for a Sum of Money to build a Fort at Milford Haven, for the Defence of that fine Harbour, and the Trade calling there, and to station Convoys to the British Channel; so that Ships coming North about to Ireland, and to Milford, will escape the French Privateers, and it will now be made a most useful Place.”

From Halifax we have the following List of French Ships at Louisburg, viz.

Arrived from Martinico the 20th or 21st of July, Le Tonnant, of 80 Guns, M. Beaufremont, Rear Admiral; Le Fronceur, of 74 Guns, Chef d'Escadre; L'Inflexible, 64; L'Eviellie, 64; Le Didem, 64; and Le Brun, of 32 Guns.

From Brest, arrived two or three Days after the Ships from Martinico, Le Formidable, of 80 Guns, M. Bois de la Motte, Vice Admiral; Le Duc de Bourgoigne, of 80 Guns, Chef d'Escadre; Le Superbe, 74; Le Dauphin Royal, 74; Le Celebre, 64; L'Heros, 64; and Le Bizare, of 54 Guns.

From Toulon, about four Days after the Ships from Brest, Le Sage, of 64 Guns; L'Achille, 64; and two Ships of 74 Guns each, Names unknown.

What Squadron the following four Frigates came out with, is not known, La Bienacquise, of 34 Guns; La Corneille, 32; La Fleur De Lis, 30; and La Hermione, of 34 Guns.

We have also Advice from Halifax, that the French have a great Number of Regular Troops at Louisburg; and have erected a new Battery there of Fifty 42 Pounders.

From Albany we learn, that Capt. Putnam, and a Lieutenant of Otway's Regiment, are gone out upon a Scout to discover the Enemy's Motions: That Fort William Henry is intirely demolished: That one of our Sloops lies off in the Lake, at Anchor, in order to give the earliest Intelligence, 'tis thought, in case any Attempt should be made by our People to take Possession of the Ground the Fort was built upon: And that a few of the French are encamped on an Island in the Lake.

ANNAPOLIS, September 8.

The following Returns for Members to serve in the next General Assembly, are all that we have yet heard of, viz.

For Kent County, Capt. William Rafin, Capt. John Tilden, Major William Hynson, and Alexander Williamson, Esq;

For Prince-George's, William Murdock, Esq; Capt. George Frazer, Mr. Thomas Gantt, and Capt. Francis King.

For Talbot, Mr. John Goldsborough, Capt. Matthew Tilghman, Mr. Pollard Edmondson, and Mr. Edward Oldham.

For Dorchester, Col. Henry Hooper, Mr. Joseph Cox Gray, Capt. Daniel Sullivan, and Mr. Philemon Lecompte.

For Annapolis, Mr. Walter Dulany, and Capt. George Stuart.

This Day the Election is to be in St. Mary's, Baltimore, and Queen-Anne's.

We have the following Account, which may be depended on, viz. “ There were in Fort William-Henry, when the Enemy invested it, Two 32 Pounders, Two 18 Pounders, Two 12 Pounders, One 9 Pounder, One 6 Pounder, Two 4 Pounders, One Hawbitzer, and Two Mortars; of these were burst during the Siege, the Two 32 Pounders, the 18 Pounder, One 12 Pounder, the 6 Pounder, and the Two Mortars; and when the Fort was given up, the Garrison had not more than 7 or 8 Rounds of Ammunition left. General Montcalm behaved very gently to our Officers; but just as the Garrison

was about to march off for Fort Edward, the Indians plundered and stripped many of them; and scalped many of the Sick and Wounded, notwithstanding the French General had engaged to have them taken Care of.

The Sale of Mrs. Butler's Houses, Servants, &c. which was to have been on the 7th Instant, is to begin on Thursday next without fail.

OXFORD, August 27, 1757.

THOSE, who, for Want of Assurance, or Want of Modesty, have been so *happful* as not to regard the kind Admonition lately given them in so many GAZETTES, are now desired to pay in Cash what they owe to Messieurs CUNLIFFE's Concern at Oxford; for the Tobacco, I presume, is in the Ground, and in that Condition it no longer pays Debts. They have hitherto been invited to pay with Wheat, Tobacco, and almost every Way the most indulging to them.

Since the Discontinuance of that Advertisement, I have indeed already called upon several of them, in the Way best suited to the Constitution of the Country: To the Rest I intend to allow 5 Weeks from the Date of this Public Notice; after the Expiration of which, if they do not comply, they may take to themselves five Courts according to Custom, and then petition for an Act to pay off in Oyster-Shells at 25 per Cent. more than they are worth. The Persons to whom this is addressed, understand me well, and perhaps will allow I now speak plainer English than I have hitherto done: They never had so much Patience with one another, as I have had with them.

Also a Servant belonging to Thomas O'Bryan, living near the same Place, about 5 Feet 6 Inches high, well-set, round faced, has a lively Look, and swarthy Complexion. They both write tolerably well, and it's probable they will forge a Pass. They carried with them two Hats, two Pair of Shoes, one or two Osnabrigs Shirts, a white Linen Shirt of fine Garlix, and an old one of Irish Linen, two Pair of good Osnabrigs Trowsers (one of them made in the Manner of Sailor's Trowsers) one Pair of Osnabrigs Breeches, a white Coat, with Buttons covered with the same, one old short spotted Flannel Jacket, and one of the same Stuff lapell'd, and tolerably good. They have a Trifle of Cash with them, and a Pocket Compass. They talk much of being good Seamen, and 'tis supposed will endeavour to get on board some Ship.

BIELEFIELD, June 14.

THE Duke of Cumberland is still here, though he altered the Position of his Camp this Morning, by placing it between this Place and Hervord. His Royal Highness thought this Alteration necessary, in order to frustrate the Designs of the Enemy; who, not judging proper to attack upon this Side of the Brauwede, after having reconnoitred the Situation of our Camp several Days, made a Motion on their Left, as if they meant to go between us and the Weser. It is impossible to tell whether Marshal d'Etrees will attack us or not: The Movements his Army make so near us, induces to think he will attack; and the Want of Subsistence must at last oblige him to retreat or fight. However, we are prepared to receive him, and the heavy Baggage having been sent away, we have now nothing left to incumber us in Action. We very well know that the Enemy's Army is superior to us in Number; but we dare flatter ourselves that we shall convince them, if they attack us, that the Valour of our Troops, the Justice of our Cause, and the Defence of our Country, will, in a good Measure, make Amends for our Want of Numbers.

From the French Camp at Rheda, June 14.

Yesterday Marshal d'Etrees, and the Prince de Soubize, after having reconnoitred the Duke of Cumberland's Army, resolved to attack its Left Flank as soon as possible, and fixed upon the 18th Instant for the Execution of that Design; but the Duke of Cumberland perceiving that they were preparing to attack him, decamped Yesterday Afternoon. As soon as we were apprised of the Enemy's Departure, Marshal d'Etrees sent a considerable Detachment, under the Command of Prince de Beauveau, who marched all Night, and at Day-break attacked the Post which the Enemy had left at Bielefeld to cover their Retreat. The Count de Chabot, who commanded this Attack, behaved extremely well, and forced the Enemy to give Way, and they abandoned several Baggage Waggons, and had several of their Men made Prisoners. The Prince de Beauveau did not come up till the Action was almost over; but he writes from Bielefeld; that he is advancing upon the Enemy half-way towards Herworden, which is the Route they have taken.

Munster, June 14. The French have come to Blows with the Hanoverians, and the latter have been obliged to retire in Disorder beyond the Weser. We have not yet an exact Account of this Affair: What follows is collected from some Letters dated from the Neighbourhood of the Field of Battle.

The 13th, in the Evening, Colonel Fischer, with his Corps, and some Detachments of Grenadiers, attacked Bielefeld. At the Beginning he found but little Resistance; but the Prussians, of the left Wing of the Duke of Cumberland's Army, threw a Reinforcement into it, who made a brave Defence. At break of Day that left Wing, consisting of Prussians, Hessians, and Brunswickers, was attacked, defeated, and driven out of Bielefeld, after a vigorous Resistance. The Right Wing, consisting of Hanoverians, ran away just at the same Time. Immediately after the Action, the French seized upon Bielefeld, and went to pitch their Tents on the Spot, from whence they had driven the Allies. As yet we cannot write any Thing certain about the Loss on both Sides: We only know that the French took ten Pieces of Cannon, and some Ammunition Waggons; and it is said they have not lost any Officer of Note: But on the Side of the Vanquished, we reckon among the Dead, divers Officers of Rank, particularly the Generals Einsiedel, and Junckheim.

On the 15th, the French made themselves Masters of Hervord, and plundered that Town, because the Inhabitants had been so imprudent as to

take up Arms in Defence of some Troops of the confederate Army that had thrown themselves into it. It is reckoned that they will enter the Town of Minder this Day. Thus they are on the Banks of the Weser, within 4 or 5 Days March of the Capital of the Electorate of Hanover.

Extract of a Letter from Paderborn, June 12.

The Hanoverians who were in the Neighbourhood of Bielefeld, decamped on the 13th at Three in the Afternoon. The Prince de Soubize, at the Head of the Royal Grenadiers, fell upon their Rear, seized the Town of Bielefeld, took 10 Pieces of Cannon, and a large Magazine, to which the Hanoverians had set Fire, but was not entirely consumed. Six Hundred Hanoverians were killed, and 80 made Prisoners. The French lost 72 Men, including 2 Officers. Colonel Fischer has already laid the Electorate of Hanover, for 15 Leagues round him, under Contribution.

Extract of a Letter from Cologne, June 17.

From the French Head Quarters at Rheda we have received the following Advices, dated the 14th at Noon.

Captain Feuillette, has just now brought Marshal d'Etrees the agreeable News, that at One this Morning, the Count de Chabot attacked the Rear of the Enemy in their Retreat from Bielefeld, which Town he forced Sword in Hand, after a vigorous Resistance. The Corps of Voluntiers performed Prodiges of Valour, having all the Grenadiers to make head against. The Dragoons and Foot are rich with the Booty. They have got fine Hollands, and English Watches in Abundance. Our People were happy enough to extinguish the Fire which the Enemy had set to their Magazines of Forage. We had 1 Officer killed, 5 wounded, and 16 common Men, and several Horses killed. The Loss of the Enemy amounts to 15 Officers killed, Prussians and Hanoverians; and 40 wounded; 200 Soldiers killed, 150 wounded, and upwards of 300 Deserters, most of them Prussians. When Captain Feuillette came away, which was at six in the Morning, the Prince de Beauveau was come up with 15 Companies of Grenadiers, 15 Piquets, and 100 Horses, to continue their Pursuit. Count Turpin, and Col. Fischer were not idle.

Marshal Keith's Camp before Prague, May 26.

Our Corps under the Command of Marshal Keith, the Prince of Prussia, Prince Ferdinand, the Prince of Anhalt, Dessau, and the hereditary Prince of Hesse Darmstat, invest what is called the little Part of Prague, situate on this Side the Moldau. Our Right Wing extends to St. Lawrence Hill, which in some Measure commands the White Hill. Our Left Wing faces the large Plain, which runs along the Moldau towards Ratschin. The Enemy occupy strong Ramparts in this Plain opposite to Belvedere and the Park. Some of their Regiments of Foot are encamped in Tents upon the principal Rampart.

The Army commanded by the King in Person, on the other Side of the Moldau, very closely invests the Rest of Prague. If we would take by Attack this Place which is defended by a whole Army, we must lose a Multitude of brave Men whom the King loves, and whose Lives he desires to spare. A formal Siege, or the reducing it by Famine, would be too tedious. To force it to a speedy Surrender there remains only Bombardment, which as we advance becomes more and more terrible. We have erected four Batteries of Mortars which throw in 288 Bombs every 24 Hours. The opposite Side of the Town is heated with red-hot Bullets. We learn from the Deserters, who make their Escape to us in Crowds, that the Garrison is in Want of Butcher's Meat and Forage, and ill provided with Cannon and Stores. They have no 24 Pounders, and very few 12 Pounders. Their heavy Cannon was carried to the Fortresses in Moravia.

The Ramparts of Prague swarm with Soldiers, and 12,000 Horse are dispersed in the Squares

and Streets; but the Forage draws to an End. We have burnt Strockhof and all the Gardens and Country Houses in the Neighbourhood of the Town.

Our Circumstances of the Battle on the 6th, which regards Prince Henry, we cannot omit. When the brave Schwerin fell, this young Hero, making his Grief give Way to his Courage, said to those who were about him, 'Let's shew that we were worthy to serve with him.' Alighting from his Horse, he put himself at the Head of his Brigade, and was the first who clambered up a Hill, and took Possession of that Battery which had most incommoded us. After this, the attacking the Austrian Camp, fortified by Nature and Art, appeared more practicable. As to the Rest, we ought not to rob the Enemy's Cavalry of the due Praise they merited. Their Infantry behaved well. Their Hussars only have degenerated; they can no longer stand before ours.

Paris, June 10. The Army under the Command of the Marshal d'Etrees consists of 110,405 Combatants, viz. 86,835 Infantry, and 23,570 Cavalry, Dragoons, and Hussars.

Brussels, June 15. A Column of French Troops will speedily pass by this City, in order to join the Army under Marshal d'Etrees, in Westphalia. This Column is to consist of the Regiment of Wittmer, Swiss; 12 Battalions of Militia, of 650 Men each; the Regiments of Berchini, Terpin, and Polleriski, Hussars; and two Regiments of Voluntiers, of Flanders, and Hamault. *June 20.* We just hear that an English Man of War, and 4 Frigates, are arrived in the Port of Embden.

Berlin, June 16. According to the last Letters received here from the King's Army before Prague, which are dated the 11th Instant, they continued to bombard the Place very vigorously, and the Misery of the Place daily encreases, through Want of Flesh-Meat and Forage: And yet its numerous Garrison remain very quiet, not daring to make any new Attempt to force their Way out; whilst, on the other Hand, the Army of Field Marshal Daun, instead of advancing upon the besieging Army, retreats still further towards Moravia.

Paris, June 17. The Prince de Soubize is appointed by the King to command the Army assembling in Alsace, and as there are great Numbers of General Officers in the Army upon the Lower Rhine, some of them are likewise to go to that of Alsace, which will consist of 30,000 Men, and is to march towards Bohemia, in order to encourage the Circles of the Empire to send their Contingents, and to protect them in their March.

We have received Advice that the Squadron of M. de Beaufremont, and that of M. du Roveck, have joined that of M. de la Motte, at Louisburg.

Dantzick, June 4. Two Russian Men of War, which cruise off the Ports of Pilaw and Memel, arrived here on Friday, and examine every Vessel that goes out or comes in. Those that belong to Prussia, or have the Produce of the King of Prussia's Dominions on board, are declared by them legal Prizes.

Paris, May 14. We are assured that the Fellow in the thread-bare brown Coat, &c. (mentioned in the Trial of Damiens) has been apprehended at Aix la Chapelle, having been discovered by the Description which Damiens gave of him. They add, that when he was taken, they ript the Lining of his Coat, and found several Papers, among which there is a Colonel's Commission in the Service of a foreign Power; and that he appears to be the Man that spirited up Damiens to murder the King. He is to be brought up to Town and examined before the Parliament. *[We may easily Guess what will become of him and his Thread bare Coat.]*

About the End of last Week an ill-looking Fellow was taken into Custody, being found concealed in one of the Apartments that overlooks the great Garden at Versailles: He has since been committed to Prison. *[What a Misfortune it is to have*

L O N D O N, June 18.

Last Saturday a Cause was tried by the special Jury of the King's Bench, at Guildhall, before the Right Hon. Lord Mansfield, Chief Justice, wherein a late Governor of one of our Islands in the West-Indies was Plaintiff, and a Captain of a Man of War Defendant, for having criminal Conversation with the Plaintiff's Wife. The Jury brought in a Verdict for the Plaintiff, with One Thousand Pounds Damages.

Letters from Salce, in Morocco advise, that on the 15th of April, the whole Town was alarmed with the Shock of an Earthquake, which lasted about three Minutes, and made all the Inhabitants run into the Fields. Their Apprehensions were the greater as they had been informed a few Days before, that some subterraneous Motions had done infinite Damage at Cape Cantin, in their Neighbourhood; that several dreadful Openings were made in the Earth; that many Buildings were thrown down, and between 2 and 3 Thousand Persons, swallowed up and buried in the Ruins.

Yesterday was held a Common Council, at Guildhall, when Sir Thomas Harrison the Chamberlain, acquainted the Court, that he waited the 24th of May, on the Right Hon. William Pitt, and Henry Bilson Legge, Esquires, and presented the Freedom of that City in Gold Boxes, agreeable to the Resolution of that Court of the 15th of April: He also delivered the Answers of those Gentlemen, which they had given to him in Writing, and they being read, it was ordered they should be inrolled in the Journals of the Court.

The Answer of the Right Hon. WILLIAM PITT, delivered to Sir Thomas Harrison.

"Give me Leave, Sir, to request the Favour of you, to present, in the most expressive Terms, to the Lord Mayor, Aldermen, and Common Council of the City of London, the high Sense I have of the distinguished Honour they have been pleased to do me, in conferring on me the Freedom of the City.

"I have ever been zealously devoted to the Support of the Liberty, Trade, and Prosperity of that great and respectable Body; and I am now proud and happy to have such Cause to add the Sentiments of truest Gratitude for so generous a Mark of their Favour, and for so unmerited an Approbation of my insufficient Endeavours to carry into Effect the most gracious Intentions and paternal Care of his Majesty, for the Preservation and Happiness of his People."

The Answer of the Right Hon. HENRY BILSON LEGGE.

"Give me Leave, Sir, to beg the Favour of you to return my sincere Thanks, to the Lord Mayor, Aldermen and Common Council of the City of London, for having admitted me to the Freedom of their Corporation.

"So eminent a Mark of Distinction, derived from the most respectable City in Europe, and to which so few have ever received the Honour of Admission, cannot but fill my Heart with the highest Sense of Gratitude and Regard; and though it far exceeds the bare Merit of meaning well, which is all I have to plead, must prove a strong Incentive to those, whom his Majesty shall hereafter think fit to employ, to exert with equal Zeal, much greater Abilities in the Service of their Country.

"I hope every Part of my future Conduct, consistently with that which I have hitherto endeavoured to hold, will shew my firm Attachment to the Rights and Privileges of my Fellow-Subjects, as well as to his Majesty and his illustrious Family, upon whose Establishment the Maintenance of those Rights and Privileges does so essentially depend."

The Brig West-India, Eastwell, with Salmon; the Casar, Mortimer, with Coals; the Dowry of Bristol, with Tobacco; the Molly of Aberdeen, Silver, with Salmon; a Brig, Name and Voyage unknown; the Charming Nancy, Winthrop, with Coals, Lead, and Bale Goods; the Martha and Anne, Collins, for Newfoundland; the Lady Strange, Harrison, from Liverpool to Barbados; a Snow with Salt, Name unknown; a Brig from Waterfordshire to Newfoundland; the Industry, from Virginia, with 300 Hogsheads of Tobacco; the Seahorse, Blair, of Philadelphia, from Newry; the Content, of Waterford, for Newfoundland; and the Edward, from Carolina, with Rice, Sugar, Indico, and Coffee, are all taken by French Privateers belonging to Bayonne.

June 25. A French Privateer of 12 Guns, and 100 Men, is taken by the Ancient Briton, a Privateer of Bristol, who parted with her at Sea.

Extract of a Letter from Portsmouth, June 24.

"This Day failed from Spithead the under-mentioned Men of War (which are to cruise off Cape St. Vincent) viz. The Royal George, Admiral Boscawen, who ran foul of the Ramillies, but did her no other Damage than carrying away her Jibb-Boom, and beating off some of her carved Work, Royal Sovereign, Namur, Torbay, Chester, and Medway."

B O S T O N, August 22.

Tuesday last the Great and General Court or Assembly met here, when his Excellency was pleased to make the following SPEECH to both Houses, viz.

Gentlemen of the Council and House of Representatives,

HIS Majesty having been graciously pleas'd to Commission me to execute his Royal Powers, as by Charter established in this Land, I can no other Way do my Duty than by faithfully following his Royal Example in a constant Attention to maintain public Truth and civil Liberty; and to promote Virtue, Order and Industry, the only Foundation of Happiness either Public or Private.

In you, Gentlemen, I have the Pleasure to meet the Body of the good People of this Land: To you therefore let me express my high Reverence for the Power of Government as residing in the Magistrate, and for the sacred Liberties that should ever inviolably remain with the People: As I shall always most faithfully maintain these Powers according to the Trust reposed in me, so shall I always religiously observe your ever valuable Charter-Rights and Privileges.

The Times in which I meet you are critical and perilous: There requires much good Wisdom to advise, and much true Spirit to aduate what is determin'd. The War is no longer about a Boundary, whether the French Usurpations shall extend to this or that Mountain, this or that River; but whether the French shall wrest from the British Hands the Power of Trade; whether they shall drive us out of this Continent; And this War is now brought to a Crisis that must determine the future and perhaps the final Fates of the British or French Government: If our Colonies and Trade are ruin'd, where is our Naval Power? If our Fleets become inferior, where is our Dominion? And if our Naval Dominion is lost, Great-Britain is no more a free Government, and the British Colonies no more a People.

This Country was from the Beginning a Colony of Soldiers; and did not use to draw the Sword in vain. It has stood thus long; and thus gloriously: That it may not therefore, when it's Liberty and Life is attacked, now draw the Sword in vain and become at last a Prey to the inveterate and abhorred Enemy, it is my Duty to recommend to you, and, I make no doubt, you will think it your Duty, to provide by an effectual Law:

That when it shall become necessary for the Country by it's SUPREME MAGISTRATE to call upon the Service of those, whose Service it has a Right to demand, it may be sure of a real and effectual Service.

That when an Enemy is in the Country and coming upon us, your Arm'd Force may go forth to meet and repel that Enemy, where such can be best opposed; and not wait till he comes to our own Door, and makes (which Heaven forbid!) this Province the Seat of War.

That when the Forces of the Country are call'd forth and form'd into an Army, it may be under such an Economy, Order and Discipline, that the Defence of the Country and Protection of the People may be surely and safely intrusted in it's Hands.

Gentlemen of the House of Representatives,

With you, Gentlemen, as the Voice of the People, do originate those Supplies that must enable the Government to execute it's several Powers within itself; and to take such effectual Measures as may secure and protect it from without: You will therefore be pleas'd, with a just Sense of the Dignity of this Government, with a tender Regard to the Abilities of the Province, and with a thoroughly convinc'd Conscience of the almost desperate Condition it's Safety and Being is brought into, Grant such Supplies.

And it is with great Satisfaction I do here observe That true Spirit wherewith you do this Year, as in all Times past, support a great Armament, both by Land and Sea, employ'd in the Defence of his Majesty's Subjects and Dominions, the People and Provinces of this Land: It is a Spirit that ever

did distinguish this Province, and must ever do it Honour in the Sight of its King and Country.

Gentlemen, I have, and hope I always shall have, a very tender Sense of the heavy Taxes that this long harras'd Province labours under; but at this Crisis, and on this Occasion, as your Mother Country, tho' under the same heavy Burthen, tho' under impending Danger at her own Door, has sent out hither a noble and powerful Armament; You will do your Part in Aid and Assistance to the Service; in Aid and Assistance to the Fleet and Army that are engag'd in it: What Assistance the Navy does at present require you will see in the Right Honourable Mr. Secretary PITT's Letter, and his Excellency Vice-Admiral HOLBOURNE's Letter, which I have ordered to be laid before you.

The very dangerous Circumstances I find this Country in upon my Arrival: The Aid and Assistance that his Majesty's Forces required: The unfortunate and alarming Events that have since happen'd; will appear to you from the Papers I have ordered to be laid before you; as also what Measures I did immediately take thereupon. The Protection of the People is the first, necessary, and supreme Law of all States. It becomes, in Cases of such immediate and imminent Danger, a Duty in the Governor, of absolute and indispensable Obligation, to take Care for the Safety and Preservation of the Country; I took the Advice of his Majesty's Council in every Measure; and I hope you will find nothing engag'd in, but what absolute Necessity requir'd; and that you will provide for such accordingly; as also, that you will think of such further Means as shall enable me really and truly to do my Duty in the Defence of the Country.

By the Blessing of God in so just a Cause as our Arms are engag'd in, and by such prudent Measures as shall appear advisable to be taken, we may hope to command a Peace that will secure our Liberties; if we cannot, it little matters what we have, or what we save; we but save it for our Masters.

Gentlemen of the Council and House of Representatives,

As I have on this Occasion call'd upon you, I would hope that you conceive of me as determin'd, by my indispensable Duty, to engage, to the utmost of my Power and Abilities, in every Service wherein the Interest, Honour or Safety of the Province is concerned.

Council-Chamber, Aug. T. POWNALL.
16, 1757. A.M.

August 29. The Report we had last Week of the Hertford Privateer being taken by two French Frigates, is now confirmed by several Vessels from the West-Indies. Bad News from every Quarter where we have any Concerns.

Since our last several Vessels are arrived here from Halifax; by them we learn, that Lord Loudoun was failed for New-York, with a Squadron of Men of War under Commodore Rous in the Winchelsea, and a great Number of Transports, having on board eight Battalions of his Majesty's Troops.

The Masters of these Vessels give a most wretched Account of the Markets of Halifax, viz. That all Sorts of Fresh Provisions were so plenty, that they would fetch scarcely any Thing: That a good Sheep fold for Half a Crown, and other Flesh Meat in Proportion.

We hear that a great Number of Privateers are still cruising near the Islands, and have taken several Northern Vessels.

Capt. Gafney from London, failed from Torbay Thursday July the 7th, under Convoy of the Cambridge Man of War of 80 Guns, Commodore Moore, with four more Ships of the Line, two Frigates, and 30 Sail of Merchantmen, 26 of which were bound to the West-Indies with the Convoy: Sunday the 10th a Twenty Gun Ship joined the Fleet about six o'Clock in the Morning, who immediately spoke with the Commodore; upon which the whole Fleet brought to for about two Hours, when the 20 Gun Ship parted with the Fleet, as did likewise two Ships of the Line of our Convoy, steering away N. Wednesday the 14th, judging ourselves far enough to the Southward, and pretty clear of the Enemy, with Consent of the Commodore we parted with the Convoy, in Company with the following Vessels, viz. Snow Irene, Capt. Jacobson, of New-York; Ship Nancy, Handstobb, for Virginia; being then in Lat. 44:30, and Lon. 11:23, from the Meridian of London. On the 10th Instant, Captain Morris, in the *Earl of Leicester* PACKET, arrived at *New-York*, in 33 Days from *Falmouth*, and brought London Prints to the second of *August*, which contain'd the following Advices, viz.

L O N D O N, July 5.

YESTERDAY the King went to the House, and made the following most gracious SPEECH, viz.

My Lords and Gentlemen,

AFTER so long and diligent Attendance upon public Business, it is Time that I should give you some Recesse. But I cannot put an End to the Session, without expressing my entire Satisfaction in the many Proofs I have received of your Zeal and Affection for my Person and Government, and of your unfeigned Concern for my Honour and real Support.

The Succour and Preservation of my Dominions in America have been my constant Care. And, next to the Security of my Kingdoms, they shall continue to be my great and principal Object. And I have taken such Measures, as, I trust, by the Blessing of God, may effectually disappoint the Designs of my Enemies in those Parts.

I have had no other View, but to vindicate the just Rights of my Crown and Subjects from the most injurious Encroachments; to preserve Tranquility, as far as the Circumstances of Things might admit; and to prevent our true Friends, and the Liberties of Europe, from being oppressed or endangered by any unprovoked and unnatural Conjunction.

Gentlemen of the House of Commons,

I thank you for the large Supplies which you have so cheerfully and unanimously given me. It affords me great Pleasure, that the frugal Use made of the Confidence reposed in me the last Year, has been an Inducement to you to renew the same; and you may be assured, that it shall be applied only to the Purposes for which it was intended.

I shall be particularly attentive to reduce all unnecessary Expences, in order the better to provide for the great and requisite Service of the War.

My Lords and Gentlemen,

I have nothing to desire of you, but what is equally essential to your own Interest, and to my Service. Let it be your constant Endeavour to promote Harmony and good Agreement amongst my faithful Subjects; that by our Union at Home, we may be the better able to repel and frustrate Abroad the dangerous Designs of the Enemies of my Crown.

Brussels, June 27. Major de Tonsois, Chamberlain to Prince Charles of Lorraine, having left Prague the 21st Instant, arrived here Yesterday at Noon, with Advice of a signal Victory gained the 18th, by her Imperial Majesty's Troops, commanded by Marshal Daun, over those of the Enemy, commanded by the King of Prussia in Person; and this Morning a Courier arrived at Vienna, preceded by twelve Postillions, with a further Account. The Battle was fought at Chotzemitz, in the Circle of Kaurtzim; it began at Two o'Clock in the Afternoon, and lasted till Eight at Night. The Enemy returned seven Times to the Charge, but were always repulsed with the greatest Valour. Both Officers and private Men behaved with unparalleled Bravery; and our Artillery performed Wonders! Generals Stampach, Sincero, Wied, Nicolas, and Bse-hasi, particularly distinguished themselves. The Enemy left 10,000 killed and wounded upon the Field of Battle. We took a great Number of Prisoners, among whom are the Generals Droskow and Pannowitz; and we have likewise taken a great Part of their Artillery,

Standards, and other Trophies. Marshal Daun, to whom we owe the greatest Commendations, received two slight Wounds, and had a Horse wounded under him. Generals Serbelloni and Lobkowitz are likewise slightly wounded, and our Loss amounts to between 4 and 5000 Men. This is the Substance of the Account which the Marshal hastily sent to their Imperial Majesties. General Vettes, who brought this News to Vienna, left the Army three Hours after the Engagement, and the Account he gives by Word of Mouth, is, that it was a desperate One on the Side of the Enemy; that after the Firing on both Sides had been over for a considerable Time, the King of Prussia fell upon the Angle of the Right Wing of our Army, with all the Cavalry that he could get together, obliging them to climb up a high Hill for that Purpose, but that they were tumbled down from the Top to the Bottom by our Grenadiers. At Mr. de Vettes's Departure, we had taken 23 Standards or Colours, besides a great Number of Cannon of all Sizes. Prince Maurice de Dessau is said to be killed. Of all the Circumstances, one of the most memorable is, that the Rout of the Enemy's Army was so great, that Part of it fled towards Collin, and the Rest towards Bohmisch-brod, thus making two separate Bodies. The King of Prussia must have left all his Baggage at Kaurtzim, and it was supposed that General Beck was gone that Way to endeavour to carry it off. M. de Vettes could not come at the Knowledge of all that passed, having set out immediately after the Action.

In order to render this Victory the more complete, Prince Charles, of Lorraine attacked the 20th Instant a Body of 18 or 20,000 Prussians, that were encamped upon the Weissenberg, under the Command of General Keith, forced all the Lines and Entrenchments of the Enemy, routed them, and obliged them to take Flight with the greatest Precipitation, and with the Loss of 2000 killed, several Cannon, and a great Number of Pontoons. Her Majesty's Troops, upon both these Occasions, performed Prodiges of Wonder.

If we are under Obligations to Marshal Daun for rescuing Prague from a furious Bombardment, which shocks Humanity, we are also infinitely obliged to his Royal Highness Prince Charles, for maintaining, in the most glorious Manner, a Place not only bad in itself, but destitute of every Thing necessary for the Subsistence of the Troops that were shut up there, Bread excepted, which happily did not yet fall short: It was this resolute Behaviour of Prince Charles that gave Time for Marshal Daun to receive the Reinforcements that were designed for him, and enabled him to face the Prussian Army, which he has totally defeated.

July 22. By Letters from Prague, dated the 13th Instant, we hear that the heavy Baggages of our Army were ordered to retire four Leagues, and that the King of Prussia had received a Reinforcement drawn from all the Garrisons, so that we expect an Action daily.

Berlin, July 16. The Journal of the Campaign in Bohemia is published here, in which the Army is said to have lost in the Battle of the Eighteenth of June about seven or eight Thousand Men, and some Pieces of Cannon, which could not be brought off on Account of the Carriages being broken, a great Number of Horses killed, the excessive Heat of the Weather, and the Eminences they had to go over. Marshal Keith had 200 Men killed, and 400 wounded, and lost two Pieces of Cannon, 4 Poundsers.

Vienna, June 29. A circumstantial Relation of that bloody Affair is just published here; whereby it appears that the Prussians have lost 20,000 Men at least, 6500 of their Dead were buried in the Field of Battle; and we have 7000 Prisoners (wounded included) among whom are Lieutenant-General Treckow, Major-General Pennowitz, and

120 other Officers of inferior Rank. We have taken 22 Flags, 45 Pieces of Cannon, a Number of Carriages for Artillery, and several Ammunition Waggons. Upwards of 3000 Deferters came into our Army immediately after the Battle, and very considerable Numbers took other Routs. Never was the Management of Artillery better executed than ours in this Action. By a List annexed to this Relation, our Loss stands thus:

	Killed.	Wounded.
Infantry, - - -	795	3554
Belonging to Artillery, 24		62
Cavalry, - - -	163	825
Total, - - -	982	4441
Horses, - - -	414	748

Berlin, June 25. The Court has just received the following Account of an Engagement which happened the 18th near Collin, and of what has passed in Bohemia since.

The King marched the 13th from the Camp at Prague, with several Battalions and Squadrons, and joined the Corps under the Command of Prince Bevern, who quitted his Camp of Neuhoff, and met his Majesty at Kaurtzim. After this Junction the King advanced towards Marshal Daun, who was arrived in the Neighbourhood of Collin, reinforced by all the Austrian Troops which were in Moravia, and a large Train of Artillery from Olmutz. The Enemy's Army was ranged in Order of Battle in three Lines, upon a very high Hill, defended by a great Number of Pieces of Artillery; the Ways up were very narrow, which rendered the Approach difficult. The King, notwithstanding the advantageous Situation of the Enemy, attacked them about Half an Hour after Two in the Afternoon. His Majesty's Army took two Batteries and two Villages, defended by Infantry, but could not force the third, by Reason of the terrible Fire from the Artillery which protected it. We twice repulsed the Enemy on the Right; but the King not thinking proper to continue the Action any longer, withdrew with his Army towards the Elbe, retreating in perfect good Order. His Majesty, in order to keep his Forces together in Bohemia, has raised the Blockade of Prague.

Dresden, June 24. By the Advices arrived here this Day, we are informed, with Certainty, of the Action which happened in Bohemia the 18th; and, that after a vigorous Sally by the Garrison of Prague, Marshal Keith decamped from before that Place on the 20th, where Te Deum was sung on the 22d. We hear that the Army of Marshal Daun is approaching towards Saxony.

Extract of a Letter from Prague, June 21.

"At length (thank Heaven for all Things) we are delivered from the Prussians, but heartily wish that Prince Charles's Army had never taken Shelter within our Walls. On a moderate Computation, near Half the City is destroyed, and Abundance of Lives have been lost, as well by Scantiness of Provisions, as by the Bombardment. It is but a Fortnight since the Garrison, wanting to get rid of useless Mouths, turned out above 12,000 of the Inhabitants; but the Prussians drove them back into the City: And had not Marshal Daun gained a Victory, by the King of Prussia's first being deceived by false Intelligence, artfully thrown in his Way, and afterwards by his relying too much on the Bravery of his Troops, this Place must have surrendered by this Time. This good Turn of Fortune has saved the Empress Queen's Army here, but we are ruined amongst them all. The Business now is, to provide this Army with Necessaries for taking the Field."

Hague, July 1. According to Accounts received last Night directly from Bohemia, the Advantage the Austrians had gained over the Prussians in the last Action is nothing near so considerable as was represented at first, and his Prussian Majesty feared

ed resolved to maintain his Ground in Bohemia. The Austrians now own, that the Prussians collected themselves in good Order, at a very small Distance from the Field of Battle, in Sight of M. Daun's Army, and afterwards retired in perfect good Order, the latter not being in a Condition to make any Use of the Advantage they had gained.

The King of Prussia having left the Prince of Bevern at Nimbourg, to which Place the Army had retreated after the Action, set out directly for the Camp before Prague, where he arrived the same Night, and immediately made the necessary Dispositions for raising the Siege: His heavy Artillery was drawn off the 19th of June at Night; and the Prince of Prussia marched at the same Time with his Corps, which encamped on the Side of the Zisca-Berg, to Nimbourg. Marshal Keith marched off on the 20th at Night; and Prince Charles of Lorraine was ignorant of the Whole, till he saw Marshal Keith moving off, when he sallied out to attack his Rear, which he could never break; and they now do not pretend to have killed 200 of the Prussians, nor to have taken one Piece of Cannon.

As to the Cannon taken at the Battle, they reduce it to one 24 Pounder, one 16, and a few Field Pieces.

By our last Advices from the Frontiers, the French do not seem disposed to pass the Weser. They are sending a Body of Troops behind them to East-Friesland.

Hague, July 5. According to our last Advices from Bohemia, the King of Prussia has maintained his Post at Brandeis and Nimbourg upon the Elbe.

Our latest Accounts from the Weser are of the 30th of June, at which Time his Royal Highness the Duke of Cumberland had made some Alteration in his Disposition, by reinforcing the Corps under Lieutenant General Sporken towards Hamelen: The Navigation of that River was still free from that Place down to Minden, and his Britannic Majesty's Army well provided, and in perfect Order. The French had not then passed the Weser.

Amsterdam, July 25. By Letters from Marshal d'Etrees Army we learn, That this General has given Notice that he will hang up all Peasants that shall be taken in Arms against his Troops.

There are three Billets of the King of Prussia, which deserve to be preserved. They do him Honour. The first he wrote to Field Marshal Schwerin after the Battle of Lowofitz, in these Words:

'The Austrians are more full of Wiles than heretofore; and take my Word for it, that under such a General as they have at present, it will cost an infinite Number of Men to beat them, unless we bring a great many Cannon against them.'

The second was wrote by that Prince immediately after his Defeat on the 18th of June.

'I have no Reason to complain, says his Majesty, of the Bravery of my Troops, or the Experience of my Officers. I alone was in Fault, and I hope to repair it.'

In the third, which was wrote from the Camp at Leitmeritz, he says,

'I am assembling my Forces, and wait for the Enemy; but to judge from their Dispositions, I must probably go and attack them.'

According to some Accounts from Bohemia (which are said to be transmitted thither from the Duke of Cumberland's Camp) we may soon expect the News of another Battle between the Prussians and Austrians. The King of Prussia, they say, had collected all his Forces in the Neighbourhood of Nimbourg, since the Battle, and was resolved to have a new Trial of Skill with his Enemies, who gained their last Advantage only by Superiority of Numbers, and the Hills on which they were drawn up; Circumstances which have no way dispirited his Troops.

L O N D O N, July 6.

The Emperor's Minister is set out on his Return to Vienna.—A Ship from Carolina, for Topsham, is taken.—The three East-India Ships from Ireland, are arrived in the Downs.

July 7. They write from Hanover, that Marshal d'Etrees lately sent an Officer to the Duke of Cumberland, to demand a free Passage through that Electorate; at the same Time giving his Word and Honour, that no Damage should be done to any of the electoral Dominions, and that the French Army should observe the most exact Discipline as they passed through; but that in Case of Refusal he would immediately make his Way Sword in Hand. To which his Royal Highness made Answer, That such a Demand was diametrically con-

trary to the Views which induced him to accept of the Command conferred upon him by his Royal Father; so that a Battle is expected very soon.

July 9. The Government have contracted for more Transports, and Camps are forming in different Parts of the Kingdom.

July 10. The York Man of War has taken two St. Domingo Ships, and a French Privateer. The Fleet from Leghorn is arrived.

July 12. A Letter received in Town says, That about a Fortnight since, Admiral Boscawen was seen off Cape-Clear, with nine Ships of the Line, steering towards North-America, where he is destined, notwithstanding it was reported, at the Time of the Admiral's sailing from hence, he was going to cruise in the Bay of Biscay.

The following is an Abstract of a Letter from Gen. Clieve, Chief Commander of the Land Forces in the late Expedition to Bengal.

'I have now the Pleasure to inform you, that Success hath attended our Army hitherto by Sea and Land. Calcutta is retaken and fortified, and the second City in this Province is taken by Storm and plundered.

'We are encamped with our little Army, and the Nabob at the Head of 40,000 Men is upon the March to give us Battle. I am in hopes every Thing will be concluded to the Company's Advantage, though not in so glorious a Manner as I could wish.'

July 30. By a private Letter from Warsaw, dated June 18, we learn that the Russian Army is in full March towards the Frontiers of Prussia, in three Divisions. The first, which moves in two Columns, is under the Command of Field Marshal Apraxin; the second, under General Lapuchin; and the third under General Lieven. If we may give entire Credit to this Letter, the greatest Part of this numerous Army is composed of raw Soldiers, many of them Boys, ill clothed, and wretchedly provided.

This Morning the Cartel has hoisted her Flag of Truce, in order for sailing with Exchange of Prisoners to Sherburgh as before.

ST. JOHN'S, in ANTIGUA, August 6.

Yesterday there was a Privateer Schooner sent into English Harbour by Captain Leslie, Commander of the Bristol Man of War, of 50 Guns. On Wednesday a Barbados Privateer, Captain Clifford, brought in here a French Privateer Sloop; and this Morning came in a Dutch Sloop, laden with Cordage and Ammunition, taken by the Privateer Tartar, Captain M'Lane, of this Island; all her Hands are French; the Privateer was left in Chace of another Vessel.

August 13. On Thursday Night last arrived here (to the great Relief of the whole Island) the Snow Muggy, Capt. Allison, from Philadelphia, loaded with Bread and Flour. About five o'Clock on Wednesday Morning, he saw a large Ship in full Chace of him, when he immediately crowded all the Sail possible; but some Hours after observing two Sloops coming from the Southward, and imagining there was much more Danger to be apprehended from them, than from the Ship, he lay to for her; she very fortunately proved to be the Bristol Man of War, of 50 Guns, commanded by Capt. LESLIE; who took the Snow under his Convoy, and saw her safe into St. John's Road on Thursday Evening.—Capt. LESLIE never once attempted to chase the Privateers for fear of losing the Snow, well knowing of what inestimable Value her Cargo was in this present Scarcity of Provisions; to prevent her separating from him in the Night by bad Weather, he lent her a Hawser, and took her in Tow, he also attempted to put some Marines on board, who in Case of an Attack would have been of great Service, but was prevented by a heavy Squall coming on: This Behaviour of Captain LESLIE is the fullest Proof of his Duty to his Country, and his disinterested Generosity, in preferring the Welfare of a COMMUNITY to his own PRIVATE Interest.

Extract of a Letter from Mr. Robert Scott, at St. Kitts, dated August the 11th, to his Correspondent in Antigua.

'I had the Misfortune of being taken the 26th ult. in Sight of Antigua, by two French Frigates of 34 and 32 Guns, and carried into Martinico; I was bound to Jamaica in the Ship Prince of Wales, William Lewis Commander, a Letter of Marque, 18 Six Pounders, 2 Four Pounders, and 80 Men; the Day before we were taken, we engaged two French Privateers, and obliged them to sheer off, and at the Time of our being taken we were engaging a French Privateer of 12 Guns and 120 Men.'

N E W - Y O R K, September 12.

By several Letters that came in the Packet, to

Gentlemen in this City, from their Correspondents in London, we have Advice, That a grand Alliance is agreed upon between the Courts of Spain and England; and that they intend to act in Conjunction in some very grand Enterprize, for which Purpose large Provision was making in the Ports of both Kingdoms; that the Populace of the Orange Party in Holland, being jealous of the growing Power of France, were inclinable to take up Arms in Favour of England; that the King of Prussia, in a Letter to his Britannic Majesty, blames himself much, in not waiting for a Reinforcement of 12,000 Men that were on their March to join him, the 18th of June, the Day he attacked Marshal Daun, the Austrian Army consisting of 65,000, and his own not more than 32,000; and that three Regiments more were ordered to hold themselves in Readiness to embark for America on the first Notice.

By Letters received from Boston last Post, we have certain Advice, That two English 64 Gun Ships were spoke with by some Fishermen, on the 20th ult. who some Days before parted from two Ships of 74 Guns each, all bound to Halifax, to join the Fleet under the Command of Vice Admiral Holbourne.

Wednesday last the Privateer Sloop Harlequin, Capt. Doran, of this Port, returned here from her fourth Cruise, being only 35 Days from Rhode-Island. On the 20th of August, in Latitude 32; 20, Capt. Doran, in Company with the Privateer Brig King Hendrick, Capt. Tomkins, of Rhode-Island, of ten 3 Pounders, took the following Vessels, viz.

Ship Le Triumphant, Monsieur Arnave, of eight Guns, 35 Men.

Ship Le St. Francis, Mon. Duove, 10 Guns, 40 Men.

Brig Quatre Amies, Monsieur Duran, 12 Men. They were all bound to Bourdeaux, from Martinico, and are loaded with Coffee, Cotton and Sugar. The Ship Le Triumphant is brought in here; and the other two Capt. Tomkins carried to Rhode-Island.

Saturday Night last at 11 o'Clock arrived the July Mail from England, brought by the Earl of Leicester Packet Boat, formerly under Captain Ratford, deceased, but now under Captain Morris, formerly of the Earl of Halifax Packet Boat. Besides the foregoing Account of the Routing of the King of Prussia's Army before Prague, we have only Time at present to insert the following Particulars in a short and concise Manner, some of them being taken from the public Papers, and others from private Letters and Captain Morris's Intelligence.—viz.—That on the 27th of July was brought into Falmouth by the Defiance Privateer of London, Capt. Dyer, a French Privateer of 18 Guns, and 200 Men: She took also at the same Time a Jamaica Snow bound to London, and a Brig, which the Frenchman were conveying to Port: In the Chace the French Privateer threw 15 of his Guns overboard.—That the Ferret Privateer of Bristol, Capt. Inghish, had carried into Falmouth two Dutchmen bound to France, laden with Corn and Timber.—That the Bleheim of London had taken, in her Passage to the Groyne, a Snow bound from St. Domingo to Bourdeaux, called L'Aigire, Capt. Brunette, laden with Sugar, Indico, and Cotton.—That the Britannia, Capt. Fowler, was chased off Scilly the 10th and 11th of June, full 30 Hours, by the Granville Privateer of 38 Guns, and 280 Men, who came up with him at Ten at Night, and engaged four Hours, when the Granville sheered off, and soon after blew up: Capt. Fowler saved four Men from the Wreck.—That great Preparations are making for embarking twelve or thirteen Regiments of Forces, besides a large Train of Battering Cannon, Scaling Ladders, &c. that the Transports were taking in their Provisions for six Months; and the Admirals Boscawen (who was returned with his Fleet from an unsuccessful Cruise in the Bay, having met with only five French Privateers, who, as usual, escaped) and Hawke, are to command the Fleet; that various were the Reports concerning their Destination, some inclining to think they are going up the Mediterranean; others as confidently affirm they are for the Baltic; while some others say, that it is our Turn to spread the Terrors of an Invasion, and that they are actually designed against the Southern Parts of France; tho' in all Probability they may be all mistaken, as the Designs of the Ministry are kept very secret; and that these Reports of their Destination, are nothing more than to alarm France, while they may be designed upon some of their remote Settlements.—That a sumptuous Monument is erect-

ing in Westminster. Sir PETER WARREN, Capt. Lutwyche, was The Gosport Man Privateer of Cape-Bre John's in Newfoundland English Prizes a few to Philadelphia.

Saturday last one John Cotes, who lately lived at Conojohary, in Albany County, passed by here in his Way to New-Jersey; but first gave us the following Account, viz. That sometime last Week there were 46 Persons carried off by the French and Indians from the German Flats.—That Numbers of the (pretended) Friend Indians were seen among the Enemy.—That the Inhabitants are most all moving away.—And that the Enemy, it was thought, consisted of some Hundreds, pillaging and ravaging the Country, and captivating or scalping all they come across, Coates himself being one among the Fugitives.

Letters from Halifax, mention the Return of Admiral Holbourne, with his Fleet, from Louisbourg, where the French Fleet are still at Anchor in the Harbour, and whose Number of great Guns on board their Line of Battle Ships, exceed those of the English by 158.

We also learn that the French Encampments are quite thick all along the Sea Side, on Cape-Breton Isle, particularly in such Places where there was any Likelihood of landing a Body of Men, having also several strong Batteries newly erected. The Highland Forces are arrived at Halifax.

PHILADELPHIA, September 15.

In a Letter from Albany, dated the 5th of September, it is said, that five Days before two of our People had come in from Ticonderoga, and informed, that all the Canadians and Savages were gone off; and that the Regulars, excepting four Battalions, were also gone to Quebec, Montreal, St. John's, &c. but that the Indians were expected back again some Time next Month.

Another Letter from the same Place mentions that Captain Putman was returned from viewing Ticonderoga, where he saw but few Tents and Men: And that a large scouting Party of our Indians were gone out.

And on Friday Morning last one James Tidd was killed and scalped in the Minisinks by some Indians, and a Soldier shot in the Back, but likely to do well.

On Tuesday last the second Battalion of the Royal Americans passed by here, on their Way to Carlisle; the Colonel of the Battalion, Mr. Desfau, died at New-Brunswick.

Last Thursday an unhappy Affair happened at Frederickburg in Virginia: Thomas Frazier, our late faithful diligent Post-Rider, getting into some Dispute in a Tavern with an Officer of the Virginia Regiment, the Officer gave him a Blow with his Hand in the Face, of which he died in about Three Quarters of an Hour. The Officer immediately delivered himself up to Justice, and ordered a decent Burial for the Deceased.

Extract of a Letter from an Officer on board the Defiance Privateer, Capt. John Dyer, at Falmouth, July 28.

"We arrived in this Port Yesterday, and brought with us the Bohemian, a French Privateer of 18 nine Pounders, and her two Prizes, viz. the Nancy, a Snow of 200 Tons, belonging to Liverpool, but bound from Jamaica for London, and a Brigantine from Waterford for Newfoundland. Upon our drawing near to them, the Privateer quitted her Prizes, and fled with all the Sail she could carry: Our Captain then ordered our Boats to be hoisted out, which was quickly done, and having properly manned them, dispatched them to board the Prizes, while he continued his Chace after the Privateer. We carried a Cloud of Sail (notwithstanding it blew strong) which our Ship is fond of. We then fairly ran 13 Knots, and about nine in the Evening came up close along-side of her, who

did not give us a great deal of Trouble in taking, for they soon cried out for Quarters. Having ordered them on board the Defiance in their Boat, and manned the Privateer from our Ship, we went in Search of the other two Vessels, which we joined the next Morning about Eight. We were four Days before we got hither, greatly fatigued; the Captain, nor any other Officer, having scarcely laid down in that Time; as we could not keep too strict a Guard upon our Prisoners, who are a Parcel of stout-bodied Men (I can't say so of their Hearts) and far out-numbered us on board the Defiance, a great many Hands being required to man the Prizes, and the French being in all 199.

"Our Ship is preparing to go into the Mole to clean her Bottom. "To conclude, we are as harmonious as one Family could wish to be, and, whilst we continue so, there is no Doubt of its Prosperity."

The Defiance Man of War, Captain Harvey, has taken a French Frigate of 36 Guns, and four Ships with Corn for Mahon.

Various are the Conjectures of the Destination of the Fleet and Transports assembling at Spithead: Some of our Coffee-House Politicians send them up the Elbe, to land the Forces on board, to join the Duke of Cumberland's Army of Observation; while others carry 'em to the Baltick to attack the Russian Fleet, cover Memel from their Assaults, and prevent Bremen and Vreden from falling into the Hands of their old Masters the Swedes; who, it's well known, have been not a little disgusted at being dismembered from their Kingdom; while another Set, remarkable for being in the Secrets of all the Cabinet-Councils in Europe, join the English Fleet to a large Squadron of his Catholic Majesty, with a great Army on board, destined to set the Infant Don Philip on the Throne of Corsica; and at the same Time, to make themselves Masters of the Grand Duchy of Tuscany, by Way of Valent. This, however, is certain, that the Fleet is fitted out for a six Months Voyage, which makes the Friends of their King and Country hope, Minorca may not be forgot, among the Rest of their Schemes.
