

CIVITA VECCHIA, March 17.

ACCORDING to the last Advices, 300 Corsicans had entrenched themselves on the 2d of this Month, under the Town of Bonifacio, and were to be re-inforced to the Number of 4000 Men.

Venice, March 27. According to Advices from Dalmatia, Three Colonies who inhabit the Banks of the Catara, a rude and hardy Set of People, have risen with Arms, and entered the City of Budoa. The Governor of the Province immediately called the Military together, but the Result is not known. The Insurgents, at their first rising, massacred several Turkish Merchants, and pillaged their Houses.

Genoa, March 28. We have received Advice, that Two of the Pinks, which the Republic sent to the Assistance of Capraia, seized Two Corsican Vessels laden with Provisions and Stores for the Malecontents, that are besieging that Island. Letters from Bonifacio advise, that the Besiegers, after having advanced within a Mile of the Place, thought proper to retire.

Warsaw, March 26. The King being told that a Confederacy was on the Point of being formed in Polish Prussia, he has charged his Ministers to exhort all his Subjects, and the Palatines of the said Province, to prevent the Execution of so irregular a Measure, and to make Use of all possible Means for maintaining Tranquillity in that Country.

The Secret Council, convoked by his Majesty the 21st of this Month, is composed of 16 Persons, Nobility and Officers. Approaching and numerous Assemblies are talked of, to be held in this City, on Affairs of the last Importance. The Marshal of the Crown has caused Publication to be made, by sound of Trumpet, that every one should provide himself with Six Months Provisions.

Besides the Russian Troops which have entered this Kingdom by way of Courland, 8000 Men, under the Command of General Nummers, are advanced beyond Smolensko. A second Corps, still more considerable, commanded by General Kreczetniknow, passed by Czernichow several Days ago, and is marching forward. Another Party of Russian Troops which cantoned here, and in the Neighbourhood of Lithuania, are actually in the City of Thorn.

Warsaw, March 30. The Court have learnt that Five Russian Regiments, under the Orders of General Apraxin, and another General, have entered Lithuania; and that in several Parts of Polish Prussia, Placards of the Empress of Russia have been fixed up, by which her Imperial Majesty gives Notice to every one, not to molest in any Manner the Dissidents out of hatred of their Confederacy, that Princes being resolved to take signal Vengeance for any such Molestation, by her Troops.

Madrid, April 2. On the 31st past, between 11 and 12 at Night, large Detachments of Troops were sent to each of the Six different Houses of Jesuits in this City; and the Doors being opened, the Bells were first secured, and a Centinel was posted at every Cell, the Occupier of which being obliged to rise, they were assembled, and the King of Spain's Commands were signified to them. In the mean Time, all the hired Coaches and Chaises at Madrid, together with a Number of Waggons, were properly distributed; and early in the Morning the Jesuits, to the Number of about 350, were in Motion: They were allowed to carry every Necessary along with them: They took the Road to Carthagena, where they will embark for Rome. This Method will be used in all Parts of Spain, and Vessels are disposed for the same Purpose in several Ports of the Kingdom. It is assured that they are each allowed a Pension of 16 l. a Year.

Hamburg, April 3. Letters from different Parts of Poland, continue to represent the Tranquillity of that Country, as on the Eve of being disturbed, if the King does not hasten to convoke a Dyet extraordinary. There are actually in that Kingdom, several Bodies of Russian Troops, whose Numbers together amount to about 30,000 Men. All the World knows the Motive which engaged the Em-

press of Russia to send them thither; a Motive which her Ministers at Foreign Courts have also Orders to make known to them, by word of Mouth, and in Writing.

April 8. Universals have been delivered, for holding a Senatus Consilium some Time next Month, who are to fix a Day for opening an extraordinary Dyet.

Dantzick, April 11. An Express is arrived from Thorn, with Dispatches to our Government, from the Marshal of the Association of the Dissidents, notifying the Resolution they have taken to send a Deputation to the King of Poland, and Answer to the Empress of Russia, and to request the Empress to appoint a Number of Deputies on her own Part to act in Concert with those of the Dissidents. The Great Council of this City have had an extraordinary Meeting on the Subject, and after a Debate, which continued almost the whole Day, have resolved, that their first Secretary should be named as their Deputy, who is to be joined to the Deputation appointed to wait on her Imperial Majesty.

Hamburg, April 17. All our Advices from Poland and Prussia Royal agree, that perfect Tranquillity prevails as heretofore, and that the Confederacy formed at Thorn has occasioned no Disorders. Amongst these Letters there are some very extraordinary Particulars, the Authenticity of which we do not vouch, namely, that certain Roman Catholic Ecclesiastics, fearing that the Demands made by the Court of Russia in Favour of the Dissidents, may occasion new Troubles, and fresh Disturbances, have removed from their several Churches and Convents all their ornamental Plate, and put it under the Protection of several Protestant Gentlemen.

LONDON, April 18.

We hear that a very considerable Sum of Money, about 250,000 l. had been found out, which for some Time had lain unnoticed, and which would help to meliorate and ease the present burthenome Taxes.

We are told that a certain Nobleman has declared, that he will no further interest himself in Behalf of the Americans, as they have deceived him by their late Conduct, for whose good Behaviour he had given his Honour; and that he referred them to the Laws of this Country, if they wanted any Redress.

We are informed, that a Right Hon. Gentleman has proposed some very beneficial Designs of great public Utility, which are to be shortly adopted. And we hear that after the Holidays he will produce the Plan or Scheme, that will not only gain the public Esteem and Confidence, and the Approbation of Parliament, but will also fully preserve the Americans Obedience to their Mother Country.

It is now confidently said, that the Earl of Bute will speedily accept of a Principal Post in the Administration.

Mr. Boswell, on his Return from Corsica some Time ago, was driven by Distress of Weather into the Island of Capraia, lately belonging to the Genoese, but which surrendered to the Corsicans the 15th ult. gives the following Account of Capraia: "It is 6 Miles in length, and between 2 and 3 in breadth, exceedingly Rocky, but very fertile in Vines. It has a very good Port, where Numbers of Vessels, passing the Mediterranean, are obliged to put in. The Number of Inhabitants is about 3000. The Men all use the Sea, and are reckoned the hardiest Sailors in that Part of the World. It will be of considerable Advantage to the Corsicans, if they can keep it."

Several Noblemen of great Distinction, have this Week arrived in Town from Spain.

April 21 and 23. One of the principal Objects of Deliberation in the Councils at Warsaw, is the Question, whether or not it is proper for the King, in the present Conjuncture, to convene an extraordinary Dyet?

Extract of a Letter from Barcelona, April 4.

"Yesterday, at one o'Clock in the Afternoon, began a Revolution which no one expected; the Jesuits Church, Convent and College, being sur-

rounded with Troops, the Walloon Guards entered the Church, and seized every one of the good Fathers, with their Effects, &c. while the Regiments of Africa and Naples occupied the back Part of the College, to hinder any one from escaping; and last Night all the Jesuits were sent to Tarragona, where they are to embark, with the rest of their Brethren in Catalonia, for Italy, being banished Spain for ever. The King's Order for the Expulsion of the Jesuits is general, and was executed Yesterday throughout all the Spanish Dominions, even in the Indies. It was done with the greatest Secrecy, no Body having the least Suspicion of such an Affair. Spain will be new modelled; Superstition loses Ground daily, and the King is resolved to bring down the Church to a lower Power than it is in France, where indeed it is but a mere Shadow."

The late Banishment and Disgrace of the Jesuits by the Court of Madrid, has been attributed to the Discovery of some very dangerous Designs of that Society against the State.

The Dissidents, at the Conclusion of their Declaration, express themselves as follows: "We protest before the Judge of Judges, who knows our Grief, our Innocence, and the Purity of our Hearts, that we have no Intention to do any Thing to the Detriment of the Roman Catholic Religion; and that as a Proof of our Fidelity towards the King, our Love for our Country, and our Desire to support the general Liberty, we are ready to sacrifice our Fortunes, and our Lives, even to the last Drop of our Blood."

April 25 and 28. Letters from Madrid advise, that the Attornies of the Jesuits, and all those who managed their Affairs, were closely guarded, and would be obliged to give an exact Account of all the Possessions of that Society, which are declared confiscated to the Profit of the Crown.

By Advices from Paris we learn, that the Jesuits proposed to make a free Gift of One Million Sterling to Paschal de Paoli, General of the Corsicans, to obtain an Asylum in that Island.

The Paris Gazette says, that the King of Spain has not only banished the Jesuits forever from his Dominions in all Parts of the World, but likewise seized all their Effects.

Letters from Hamburg inform, that the Prussian Agents are now buying up immense Quantities of Saltpetre, both in Holland and Russia, for the Use of the King's Magazines.

Extract of a Letter from the Banks of the Vistula, dated April 10.

"The Dissidents have not yet taken any Step tending to disturb the Public Tranquillity. They wait, doubtless, to see what turn their Affairs will take in the extraordinary Dyet, which there seems to be a Design of convening; but if we may judge from Appearances, that Assembly will be so thin, that nothing can be there concluded on. The Court of Russia, if it continues to observe the same Conduct (that of Moderation) will keep its Troops in the Country till the Affair is decided; and, sooner or later, must carry its Point. In the mean Time, the Russians observe a strict Discipline: They must, however, have Provisions; and they pay, indeed, with ready Money; but their Commissaries fix their own Prices. Those who think they penetrate into the true Motive of the Repugnance to re-establishing the Dissidents, say, that such Re-establishment would occasion the Ruin of several great Families, who enjoy, as they pretend, the Estates of several Dissidents, who have been condemned or banished the Country."

It is said a Bill is preparing to authorize the American Colonies to coin their own Money; by which the Inconveniencies of Paper Currency will be avoided.

The following is a Copy of the most authentic List, now handed about, of the Arrangement which is to be immediately after the Holidays.

THURSDAY, JULY 9, 1767.

The following Act, passed last Session, is inserted at the Request of several of our Correspondents.

An ACT to oblige Infected Ships, and other Vessels, coming into this Province, to perform Quarantine.

WHEREAS great Mischiefs have arisen from the landing of Goods and Passengers from Ships and other Vessels coming into this Province with Servants and German Passengers, by communicating to, and spreading amongst the Inhabitants, dangerous infectious Distempers, begun at first by Numbers of People being closely confined together for long Times in a small Space:

Be it therefore Enacted, by the Right Honourable the Lord Proprietary, by and with the Advice and Consent of his Lordship's Governor, and the Upper and Lower Houses of Assembly, and the Authority of the same, That no Ship or Vessel whatsoever, coming into this Province after the First Day of May next, and in which Ship or Vessel there shall be imported more than Thirty Servants or Passengers, shall be admitted to make her Entry, or land or put on Shore any Goods, Passengers, or Servant, before the Master, together with Two other credible Persons, shall make Oath before the Collector, or Naval Officer, with whom such Ship or Vessel shall first enter, That neither the Small-Pox, Jail-Fever, Yellow-Fever, Flux, or any such dangerous infectious Distemper, is, or hath been on board such Ship or Vessel, on her Passage, to the Knowledge or Belief of such Captain, or other Persons taking such Oath respectively: Which Oath the said Collector, or Naval Officer, is hereby empowered and directed, personally, or by their Deputies, to administer, and a Certificate thereof give, without Fee or Reward.

And be it further Enacted, That in case any such Ship or Vessel shall be offered to be entered, and such Oath shall be refused to be made, or delayed for the Space of Forty-eight Hours thereafter, that then the Officer, to whom Application shall be made for Entry as aforesaid, shall, and he is hereby enjoined and strictly required immediately thereupon, to transmit and send a full and distinct Account and Information thereof, to the Governor or Commander in Chief of this Province for the Time being: And, on such Information given as aforesaid, such Ship or Vessel shall be obliged to make her Quarantine in such Place or Places, for such Time, and in such Manner, as from Time to Time shall for that Purpose be directed by the Governor or Commander in Chief of this Province, for the Time being; and, that during the said Time, and until the said Ship or Vessel shall be discharged of and from such Quarantine, no Person coming, or Goods imported therein, shall come, or be put on Shore, or go on board any other Ship or Vessel within this Province, nor shall any Person go on board such Ship or Vessel, obliged as aforesaid to make Quarantine, without Licence first had and obtained from the Governor or Commander in Chief for the Time being, in such Manner, and under such Limitations and Restrictions as he shall think fit to grant or allow the same: And, that in case there shall be any Breach of the said Quarantine, in any Respect, the Master, Commander, Chief Officer, or Person having the Charge of such Ship or Vessel, without such Licence as aforesaid, shall, if a Free Person, forfeit and pay One Hundred Pounds Sterling, to be recovered, with full Costs of Suit, in any Court of Record within this Province, by Action of Debt, Bill of Indictment, Plaint or Information, wherein no Essoin, Protection, or Wager of Law, or more than one Imparlance, shall be allowed; and if a Servant or Slave, suffer such corporal Punishment, by Whipping, not exceeding Thirty-nine Stripes, as by Two Justices of the Peace shall be ordered and adjudged, upon Complaint and Proof of such Offence.

And be it further Enacted, That the Master or Commander of every Ship or Vessel, importing above the said Number of Passengers or Servants into this Province, after the said First Day of May next, shall, before the said Ship or Vessel shall be admitted to make her Entry, discover and disclose to the Collector and Naval Officer aforesaid, the Number of Passengers and Servants imported in such Ship; and, if the Master or Commander of any such Ship or Vessel shall not make such Discovery as aforesaid, he shall forfeit and pay One Hundred Pounds Sterling, to be recovered as aforesaid.

And be it further Enacted, That any Master or Commander of a Ship or Vessel, importing above the said Number of Passengers or Servants as aforesaid, who shall land or put on Shore any Passenger, Servant, or Goods, from on board such Ship, or shall sell any Servant imported in such Ship, and also every Person who shall buy any such Servant, or knowingly entertain in his, or her House, any Passenger or Servant, or receive any Goods imported in such Ship, before Certificate obtained, of such Oath being made as aforesaid, shall respectively forfeit and pay Twenty Pounds Sterling, to be recovered as aforesaid.

And whereas dangerous infectious Distempers frequently break out in Ships and Vessels importing Passengers and Servants into this Province, on their Arrival here, after healthy Passages: Be it therefore Enacted, That even after such Certificate obtained as aforesaid, if it shall be made appear to the Governor or Commander in Chief of this Province, for the Time being, by Proof, on Oath of at least Two credible Witnesses, that the Passengers or Servants imported in such Ship or Vessel, or the Crew thereof, or any of them, are, or is infected with, or have the Jail or Yellow Fever, or any such dangerous infectious Distemper, the Governor, or Commander in Chief, may thereupon order such Ship or Vessel to perform Quarantines in the Manner aforesaid, and under the same Penalties as are herein before mentioned, to all Persons concerned.

And be it further Enacted, That any Person whatsoever, falsely and corruptly making the Oath aforesaid, shall and may be prosecuted in the same Manner, and suffer the like Punishment as for wilful and corrupt Perjury. And that in any Suit or Prosecution for the Recovery of any Penalty under this Act, the Defendant or Defendants may, in the Discretion of the Court, be awarded to give special Bail, one Half of all which Penalties, where the Recovery shall be by Action of Debt or Information *quittam*, to the Use of the Informer, or him, her or them that shall sue for and recover the same; and the other Half thereof shall be paid to the Sheriff of the County where the Recovery shall be had; and by him paid into the Hands of the Treasurer of the Shore whereon the same shall be recovered, for the Use of the Public of this Province; to be applied and laid out in the Purchase of a Place, and building a Pest-House for the Reception of the Infected, as the General Assembly for the Time being shall direct; or where the Recovery shall be had, otherwise than by Action of Debt, or Information *quittam*, the whole of the said Penalties shall be paid and applied to the Uses last aforesaid.

This Act to continue Three Years, and to the End of the next Session of Assembly which shall happen after the Expiration of the said Three Years.

LEGHORN, March 21.

THEY write from Corsica, that the Fortrefs of Capraia surrendered to the Malecontents on the 13th, and that the Garrison were made Prisoners of War.

LONDON, April 16.

Yesterday a Right Hon. Person laid the State of the Public before an august Assembly, in such a Manner as gained him great Applause; and 'tis said mention was made of a Scheme that would soon be laid before them, which it was hoped would answer many salutary Purposes.

Extract of a Letter from Leghorn, March 28:

"We hear that among the Corsican Troops who stormed the Island of Capraia; there were several English Soldiers, whose Valour greatly contributed to the Success of the Expedition."

It is said that their Royal Highnesses the Dukes of Gloucester and Cumberland, are soon to be created Staff Officers on the Irish Establishment.

Thursday 40s Ship Cannon; of different Calibers, were sent down the River in Lighters, to be put on board a Transport Vessel at Deptford, said to be intended for the Use of the Corsicans.

A Merchant at Leghorn has mentioned in a Letter to his Correspondent in London, that General Paoli actually intended to set out on Affairs of Importance this Summer for England.

The Report of a Fleet of Men of War being soon to sail for the East-Indies is premature, as no further Expence will be heaped upon the Public on the Company's Account, till Matters are finally accommodated between them and the Government.

The monopolizing Interests of an opulent Company, are, we hear, deserted by many of those who were lately supposed to be their Friends; yet the Opinion prevails, that nothing will be effectually done in that respect this Year.

A Scheme is said to be in Agitation for removing the Necessity of impressing Seamen in any future War; and we hear, that the Body of the Nation, as in the Militia Bill; will be obliged to furnish a sufficient Number of Men for the public Service; and that they, on whom the Lot of Service may fall, will be obliged to find Substitutes, or go in Person themselves.

Extract of a Letter from Paris, to a Friend in London, dated April 20.

"A better Harmony never subsisted between the Two Nations than at present. Convinced of our Error in sacrificing so many Millions as we did in the last War, to support our Pretensions to a few Acres of barren Land on the Banks of Ohio, which would not have produced as many single Livres, and having now no Pompadors, to gratify whose Avarice and Ambition the Blood and Riches of the Nation were so indiscriminately wasted; trifling Punctilios and mere Etiquettes will not embroil the two Kingdoms again in a Hurry; so that those who foretold that the Peace of Versailles would not be of Three Years standing, have not proved themselves either great Conjurors or great Politicians."

It is with Pleasure we communicate to the Public the following Plan of Accommodation between the Government and the East-India-Company. The Chancellor of the Exchequer, for the Time being, shall be a Proprietor of the East-India Stock, equal to the present Capital Stock of the Company. The Management of the Affairs to remain in the same Channel they are at present (the said Chancellor having only the Right of a single Vote) and whatever Dividend is made half Yearly among the Proprietors, the like is to be paid him for Government.

By this Plan the great Objection about a Partnership in Trade, and a Confusion of Accounts is avoided, as also the Difficulty and Hazard of remitting the Revenue to England; the Government will receive whatever the Company can divide; it will, therefore, be for the Interest of Government to support the Company; and will ever be for the Interest of the Company to divide as much as possible. The present Capital Stock of the Company being 3,200,000 and the Dividend of Ten per Cent. producing 320,000, the Stock of the Chancellor of the Exchequer will be the like Sum of 3,200,000, and the present Sum paid to Government will be 320,000 yearly. But the Stock and Dividend of the Chancellor of the Exchequer will rise as that of the Company's is increased; and there is no Doubt but upon this Plan the Company's Dividends might be immediately raised to Twenty per Cent. The Chancellor of the Exchequer might receive a Dividend 625,000 per Annum. As it is allowed on all Hands, that the net Produce of the Revenue and the Company's Trade will not be less than Two Millions a Year Sterling; and this Dividend of Twenty per Cent. to the Chancellor of the Exchequer, and the Company together, will amount to no more than 1,250,000.

April 21, and 23. A Manifesto, published by the General and Supreme Council of State of the Kingdom of Corsica, and dated the 17th of January last concludes thus:

"The Republic of Genoa, to whom our Proposals were transmitted by the French Minister, looked upon them with Horror, and rejected them with Disdain; and once more the Mediation of his most Christian Majesty hath turned out to be fruitless and ineffectual."

"We have thought it our Duty, beloved People, to give an Account of the Motives; and of the Event of this Negotiation, to the End that we might make known to you, and to all the World, our sincere Dispositions to end the War by Means of an honourable and stable Accommodation, in conformity with the generous Intentions of his most Christian Majesty; and that we might make known the constant and obdurate Resolution of the Republic, to eternise this War, without any Hope

* The Substance of their Proposals was, "That the Corsican Nation should never accept of any Proposals of Peace with the Republic of Genoa, if she does not agree, as preliminary Conditions, to acknowledge our Liberty, and the Independency of our Government; and doth not yield to us the few Places in the Kingdom of which she is still in Possession."

whatever of a good Conclusion, and with the sole View of shedding human Blood from a Fit of Hatred and Revenge. From the long Experience of Thirty-seven Years, she ought to be persuaded and convinced, that she has not Force sufficient to subject us again to her Dominion; and that we are more than ever firm and resolved to maintain, whatever it may cost, the Rights of our antient Liberty, which we have recovered with the Effusion of so much Blood.

"Perhaps the Republic may flatter herself, that she will be able to excite anew, amongst us, and in the internal Part of this Kingdom, the Spirit of Discord and Sedition, and so avail herself of our Divisions. But besides the Security which we have of the usual Zeal of our People, and of their constant Anxiety to sustain the common Cause, we have, in the Assembly of the Grand Council of the Nation, been careful to take the most efficacious Measures to prevent and render vain these pernicious Designs of our Enemies. And to this Purpose, we are also to send the most exact Instructions to all our Magistrates, to the End that they may watch with all possible Attention over the internal Tranquility and Security of the Kingdom, and may also confirm still more the good Understanding and Harmony which actually subsists between us and the French Troops; continuing to shew them every Mark of Attention, and doing every Thing that can contribute to their Ease and Conveniency; so that we may give the Lie to the false and artificial Reports, which have been lately circulated by the Emisaries of the Republic, who have given it out, that a Rupture is immediately to follow between us and these Troops, who have Orders, as they represent, to proceed to Hostilities against us, in case that all Hopes of an Accommodation with Genoa are at an End. Whereas, on the contrary, we have the most certain Proof of the Impartiality of his most Christian Majesty, and of his Royal Satisfaction with the Opening given by us to the happy Conclusion of a Treaty.

"In order then to undeceive our Enemies, in their vain Hopes, of being capable to maintain the Sovereignty of this Kingdom, and to make them repent of their having neglected this opening for Peace, it is necessary to put ourselves immediately in Condition to renew the War with greater Warmth, at the Termination of the Four Years fixed for the Residence of the French Troops in Corsica. This, beloved People, is the primary and important Object which will occupy the Conferences of the Ordinary general Consulta, in the approaching Month of May. To this End then we give you Notice, and we seriously charge you to elect as your Procurators and Representatives in this general Consulta, Persons endowed with Zeal and with Love for their Country, that, with unanimous Consent, and with the greatest Efficacy, we may choose and determine upon the Measures most proper for continuing with Ardour the War, in the Security that it will end with a happy Success, and with a total Expulsion of our Enemies from the Kingdom. The good Cause which we sustain, the Weakness of our Enemies, our Courage, animated with the Love of our Country, and, above all, the Divine Assistance, which has ever so sensibly manifested itself for us, give us an Assurance of every good End to our Enterprizes."

April 25, and 28. Her Majesty is slightly indisposed, on which Account their Majesties did not go Yesterday to Richmond.

It is reported, that one particular great Man has this Week won upwards of 20,000*l.* by betting upon his own Horse; which (contrary to the Knowing Ones Opinions) gained one of the Prizes at New-Market Races, and that another Nobleman lost 14,000*l.* on the Occasion.

Yesterday Morning a private Mass-House was suppressed in Black-Lion Court, St. Giles's, where a Number of Poor Irish People had Assembled for their Devotions: Two Priests fled, and their Hearers were dispersed without any Tumult. It is said, in St. Giles's Parish only, there are upwards of 20,000 Papists.

It is said Bills of Exchange, to a very large Amount, have this Week been remitted here, the Property of the Jesuits, to be invested in our Funds, as the only Country in the World where their Property is thought by these Fathers to be perfectly secure.

We hear an authentic List of the Number of Men of War built in foreign Countries, for the Service of France, since the Peace, distinguishing Particulars, has actually been transmitted home to the Ministry, by which it appears, that the Marine of that Kingdom has received a very considerable Addition during the last Three Years.

From Killarney in the County of Kerry in Ireland, we are told that one Laughlin Brady lately attempted to rob an Eagle's Nest over the famous Lake in that Place, when the Parent Bird was in Sight; the Eagle flew at him with great Fierceness, upon which he tried to make a prudent Retreat, but being too precipitate, he slipped from the Rock and fell into the Lake. This Circumstance would not have been attended with any fatal Consequence, as he was an excellent Swimmer, had not the Eagle pursued him into the Water, and striking with un-

ceasing Fury at his Head, reduced him to the Necessity of diving every Moment, so that he became quite exhausted at length, and was drowned. A Neighbour of his, who was a Witness of the whole Transaction, but who could not assist him, gives this Account of the Affair; and it is remarkable, that when the Body was taken out of the Water, the Eyes were picked out of the Head, and the Face so dreadfully mangled, that a more shocking Spectacle could not be raised up to Imagination.

CORKE, April 30. Last Monday Two Companies of the 16th Regiment of Foot, destined for America, marched into this City.

Last Tuesday Nine Transport Ships arrived in our Harbour from London, to take the Troops on board, destined for America, and Three more are daily expected.

BOSTON, June 22.

Extract of a Letter from a Son of Liberty, now in London, to his Friend in New-England, dated the 11th of April, 1767.

"The House of Commons have appointed the First Thursday after the Holidays to enter upon the Consideration of American Affairs. New-York, it is said, will certainly receive some Chastisement, for refusing to billet the Troops: And Massachusetts Bay for their warm Addresses, Resolutions, &c. in their Squabbles with Governor B-----d. And many intend to have something done that may reach all the Colonies. The only Chance for us seems to be, that it is now so late in the Session, that they will hardly find Time to ripen any Plan replete with so much Difficulty and Delicacy, as they will find must attend any Measure they will choose to adopt."

NEW-YORK, June 22.

By Capt. Newton from New-Providence, we have an Account of the Three French Seamen, who had lately been carried in as Prisoners there, for Murdering the Captain of a French Sloop, bound from the Mississippi for Cape Francois, some Time in March last, one of them turned King's Evidence; upon which the other Two had been condemned to die; and accordingly one was executed the 29th of May last, and afterwards hung in Chains; and that the other was to undergo the same Punishment on the Friday following. The Sloop had also been taken up and brought in without having been cast away, as reported. We hear also that the Fishing for Treasure on the Spanish Wreck, mentioned to have been cast away some Time ago on the Bahama Banks, had not been so successful as has been reported, but that the Wreckers were still exerting their Powers in that Affair; and that the utmost they had recovered, would scarce amount to 20,000 Pieces of Eight.

It is said strict Orders are sent to the West-Indies, to observe and detect the New-England, New-York, and Philadelphia Captains of Vessels, in selling Hats of their respective Provinces, which is prohibited, under a very severe Penalty, on the Captain and all concerned in it, Complaint having been made at Home of great Quantities being sent from those Colonies, of the fine Beaver Kind, to the great Prejudice of the Beaver Hat-Trade at Home.

By Capt. Darrel from St. Vincent's, we learn, that the English Settlements on that Island proceed with a good deal of Life and Vigour, and that it bids fair to be one of the most flourishing Islands in the West-Indies: Above one Hundred Hogheads of Sugar have been made on it this last Season, and it is supposed above Ten Times as much will be produced next Year:--That the Commissioners for disposing of the Crown Lands in the new ceded Islands, having finished that Business at Dominica, had come down to St. Vincent's a short Time before Capt. Darrell left it, and were upon disposing of the Remainder of the Land, that was left then unsold before:--Lands near the Chief Town, had been last Year sold at above Fifty Pounds Sterling an Acre; the best of those in the remote Parts of the Island, now sold for about Twenty-five Pounds an Acre; and the rocky and mountainous Parts, with nothing but Woods and Stones on them, sold from about 3*l.* to 5*l.* an Acre, according to the Situation thereof; and great Numbers of new Plantations were every Day improving with all the Diligence possible:--A Civil Government was lately established there, in the same Manner as it has heretofore been in the other English Islands, and every Measure taken to render the Inhabitants as Secure and Free as any other of his Majesty's Subjects.

ANNAPOLIS, JULY 9.

Last Week arrived here the Ship ALTON, Capt. SPENCER, from BRISTOL, with upwards of One Hundred of his Majesty's Seven Years Passengers: By Means of a Ventilator on board, 'tis said they are very healthy. The Ship has since proceeded for CHESTER River.

"The deplorable Havock lately made in the Family of a Widow Lady on the Eastern Shore, by that horrid contagious Distemper, commonly called the JAIL-FEVER, ought to give fresh Warning to the Inhabitants of this Province, how they admit this baneful Malady into their Families. A casual Visit, it seems,

from one of the Felons, sometime since imported in a Convict Ship, communicated the Distemper to the Negroes. It is confidently reported that near Thirty People in this Family, (among whom the worthy Lady herself was one) fell Victims to the Fury of this malignant ravaging Pestilence. Its Progress was rapid, and its Virulence too powerful for all the Skill and Assiduity of our ablest Physicians; nor did its Rage intermit, 'til, by a Waste of Lives, it wanted Subjects to prey upon. What aggravated the afflicting Circumstances of this unhappy Family, was a total Suspension of those tender Offices which this much respected Lady might have expected from a humane Neighbourhood. They could only behold, with heart-felt Sympathy, a Distress which they could not attempt to relieve without the utmost Hazard of their own Lives. The Case of Mr. HOWARD, near ANNAPOLIS, who lost his own Life, and many of his Family, is a recent and notorious Instance of the Malignity of this Distemper. Moved by a tender Concern for the Inhabitants, who have too often felt the direful Rage of this wide-wasting Contagion, our Assembly, at their last Meeting, enacted a Quarantine Law, which will probably give some Check to its Introduction, and save the Lives of Thousands. It is to be wish'd that the People may cherish an Act, so manifestly tending to the Preservation of their Lives, their Healths, and their Property, and that they will take every Measure in their Power, to forward the Execution of it, and to obviate every Evasion which the Arts of interested Men can devise to frustrate its Operation, and prevent the beneficial Purpose of our Legislature."

T H E Lower House of Assembly of Maryland have constantly and ineffectually hitherto, since Seventeen Hundred and Thirty-nine, RESOLVED, That his Lordship hath no Right to collect Twelve-pence per Hoghead on Tobacco exported.

A Constitutional Tax on the People to support an Agent of the Appointment of the Lower House, has been greatly desired, frequently attempted, and as often refused by the Upper House.

The Lower House of Assembly contend, That the Clerk of the Council his reasonable Reward, as well as every other Expence necessarily attending the Execution of the Power of Government, ought to be defrayed out of the *Fines, Forfeitures, Amerciaments, and other Monies* received by the Government for the Support thereof; and, "That Sentence being directly opposite to the Opinion the Upper House had, on mature Consideration, formed upon the Subject of the Clerk of the Council's Claim," principally occasioned the Non-payment of the Public Debt for upwards of Ten Years: The Distress of Trade for Want of a Circulating Medium, and the extreme Necessity of Public Creditors, compelled the Lower House to agree to an Appeal to his Majesty in Council, on the Subject Matter of Difference, without the Allotment of any Public Money for that Purpose, as the only Means to settle Disputes, restore Public Credit, and lay a sure Foundation for the future Ease and Good of the Province.

A Subscription therefore, by RESOLVE of the Lower House, has been Open'd, and Subscriptions are taken in by every Member, for maintaining an Agent, and supporting the Appeal on the Part of the People, as well as obtaining Redress of their other Grievances; and, by RESOLVE also of the Lower House, as an additional Means of raising Money for the same Purposes, the following SCHEME of a LOTTERY, by which to raise One Thousand Pounds Common Money, is submitted to the Public.

We hear a great Number of foreign Jesuits, who are possessed of immense Wealth, have a Design to lay aside their Ecclesiastical Function and Character intirely, in order to come and settle in Great-Britain as Merchants, where they intend to get themselves naturalized; for which Privilege, it is said, they are willing to pay a large Sum to the Government, which they intend to petition for that Purpose.

Extract of a Letter from Madrid, April 2.

"Two Jesuits arrived here lately from Paraguay; one of them was the Governor, and the other Chief Justice of one of the principal Provinces. Upon their Arrival they requested the necessary Passes to convey them to Rome; which were readily granted, with express Orders to the Officers not to search or examine any Part of their Baggage. The Jesuits placed so much Confidence in the Orders given, that without the least Fear they proceeded on their Journey to Catalonia, where they intended to embark; but scarcely were they arrived there before their Persons and Baggage were all seized. Upon opening their Baggage, there were found 260 heavy Ingots of Gold, 13 large Boxes, filled with Diamonds, and other precious Stones, and Bills of Exchange for Three Millions, payable at Rome."

In the mean Time, the Company are to be aided to enlarge and extend their Trade, for the mutual Benefit of Great-Britain and the Proprietors, and to put a Stop to Smuggling by lowering the Duties and granting Drawbacks; the best Means to increase the Revenue, and to prevent the Dutch, Swedes and Danes rivalling the Company in the Tea Trade, by bringing large Quantities to Europe which are afterwards transported into England. The Company will also buy their Teas in China much cheaper; and lastly, that the Company shall pay no higher Dividend for Three Years than Eight per Cent. and not afterwards, but by a Petition to Parliament, setting forth their Abilities to pay a larger Dividend.

Extract of a Letter from Cornwall, April 29.

"On Saturday a large Body of Tinners, to the Amount of 500 or upwards, went in a Body to an Estate near Truro, called Lambessa, in search of Corn, where they met with a small Quantity, for which they paid Fifteen Shillings per Cornish Bushel, and Seven Shillings for Barley, which is Three Winchester; and in examining the House, one of the Number took an Opportunity of concealing some Silver Spoons, which being missed after they were gone, a Person followed them into Truro, and complained to the Man who seemed to be at the Head of them; upon which he assembled them together, and told them what had been done, and insisted on every Person being searched, at the same Time stripping off his own Cloaths, as did many others, to the Amount of Forty or Fifty, when one Person refusing, gave a Suspicion. Accordingly on Enquiry they found Two Silver Spoons upon him; upon which they carried him to the Public Cross, and sent the Cryer round the Town, to give Notice, that such a Person, mentioning his Name, had been guilty of the Theft, and that he should be publicly punished for the Offence. They then procured some Thongs from a Saddler's, made Two Whips, stripped him, and tied him to a Post, and Two of them gave him the Amount of 200 Lashes, heartily laid on, and to such a Degree, that he now lies dangerously ill. Such are the Notions of Justice in our common Tinners."

MARYLAND GAZETTE.

THURSDAY, JULY 23, 1767.

LEGHORN, April 11.

THE last Letters from Capraia advise, that the Fortress still held out, altho' they had received no Assistance. Capt. Oletta, a Corsican Officer, was killed by a Musket Ball, as he was viewing the Trenches.

GENOA, April 11. The Senator Pinelli hath not yet been able to introduce the Provisions destined for the Garrison of Capraia. It is reported that the Corsicans do not besiege the Fortress in Form, but blockade it only, persuaded, that it must soon surrender for want of Subsistence.

COPENHAGEN, April 21. The King has sent a circular Rescript to all his Ministers at foreign Courts, by which he enjoins them to declare, that the Negotiations, entered into with the Empress of Russia, have no other Object but the Interests of the high contracting Parties, and that there is nothing contained therein, that may concern any of the Crowns of Europe, nor cause them the least Prejudice.

LONDON, May 28

Private Letters from Madrid inform, that Orders had been transmitted to the Governors of New Spain, for a Capitation Tax, to be levied by his Majesty's Officers, on all the Inhabitants throughout the whole Province of Paraguay, in South-America.

A Memorial has been lately sent over to Portugal, as we are informed, containing a minute Specification of all the Expences which we were at for the Defence of that Kingdom the last War, and insinuating upon an immediate Payment or Reimbursement.

May 1. Yesterday Morning the Two Secretaries of State, and several Lords of the Privy Council, attended at a great Council held at the Cock-pit, Whitehall, on Affairs of importance.

Letters from Madrid import, that besides the great Treasure in the Possession of the Two Jesuits of Paraguay, who were lately arrested at Figuera, on their Way to Rome, some Papers were likewise found upon them, containing literal Proof of the Conspiracies at Quito, Lima, and Mexico; and which, it was thought, had contributed to accelerate the Ruin of that Society in the Spanish Monarchy.

Notwithstanding the Promises that have been made for our Fellow-Subjects the North-Americans, and the Honour that has been pawned by a certain great Man for them, we are assured, that they refuse to conform to an Act of Parliament respecting the Billeting of Soldiers. From their Conduct in this and some other Matters, there is Reason to expect fresh Troubles from those Parts.

A considerable Bounty on the Importation of the American Hemp and Flax is now soliciting for.

It is said, that all Sorts of salted Meat and Butter will be allowed to be imported Duty free; as also Rice, Sago Powder, and Vermicelli, from our Colonies in America, for a limited Time.

A Letter from the Hague, dated April 28, says, "Signor Romanzo, the Corsican Courier, past by here lately in his Return from London. He appeared remarkably gay, but made a profound Secret of his Negotiations. His Maitre de Hotel was heard to say, that the taking of Capraia had gained Corsica 100,000*l.* extraordinary Credit from the English Merchants."

They write from Corfica, that M. de Buffy, said to be charged with a Commission from the French Court, had lately arrived there, and held several Conferences with Count de Marbeuf, and proposes to be present at the General Congress of the States of the Island, to be held this Month.

Letters from Paris say, that it is expected the Banishment of the Jesuits from Spain, will be followed by their Expulsion from the Dominions of his Sicilian Majesty.

May 6. We hear that a large Quantity of Ammunition and Naval Stores are now getting ready, to be shipped with all Expedition for the Use of the Corsicans.

They write from Genoa, that a Reinforcement of 350 Men, had sailed for Corfica, and that 300,000 Livres were sent over to pay the Genoese Troops in that Island. And that one of their Vessels, which cruised on the Coasts of Capraia, had found Means to take on board a Soldier, who had been let down by the Governor of the Fortress in that Island with Cords; and that it was in Consequence of the Advices received by this Soldier, that the Senate came to a Resolution of sending a Reinforcement of 100 Men to Admiral Pinelli.

Orders are given for a Train of Artillery to be got ready, to be shipped for his Majesty's Garrison of Minorca.

Yesterday Count de Malesherbes, the Prussian Ambassador, had a Conference with the Two Secretaries of State, on the Subject of some Dispatches received from his Court.

They write from Madrid, that in the new Treaty of Peace between the King and the Emperor of Morocco, it has been stipulated, that the Moorish Camps, held in the Neighbourhood of Oran and Ceuta, should be totally removed, and the Garrisons supplied, for ready Money, with necessary Provisions.

Commodore Palliser, on his Arrival at Newfoundland, received Orders to station a Frigate of War at each of the Islands of St. Peter's and Misqueleon, for preventing the English from carrying on any illegal Traffic with the French.

The Prussian Gazette, received on Wednesday, hath the following Paragraph under London, April 24. "We are not without Fear lest the Measures taken for the establishing of a Tax in America, should give rise to new Troubles in most of our Colonies.—Precaution however will be taken to leave the Reparation and Collection of it to the Assemblies of the different Provinces, to whom the Governors are to make the Proposition relative thereto on the Part of the King, on condition that they charge themselves with remitting the Produce of the Tax to the Exchequer here, to be disposed of by Parliament. The Spirit of Revolt and Independence, which reign in that Country, give us Reason to depend on any good Dispositions on their Part."

It is said, that the confiscated Effects belonging to the Jesuits through the whole Kingdom of Spain, already amounted to the Sum of Seventy-five Millions of Pistoles, exclusive of the Spoils expelled from that Society in the Indies.

May 8. It is strongly reported, that the Parliament will be dissolved, and a new one called, so soon as the present Session shall be ended. This Measure was adopted (the last Time) in the Year 1747; when the Ministry, in order to save the great Expence of a Twelve-month's continuance for Members, which would have been the Consequence, procured the Parliament's Dissolution at the Expiration of Six Years.

It is thought that the Parliament will not rise till his Majesty's Birth-day.

According to authenticated Accounts, transmitted to Madrid from South-America, the Jesuits of Paraguay were said to be able to bring an Army of Two Hundred Thousand Fighting Indians to the Defence of their Colony, should it be invaded either by the Spaniards or Portuguese.

No Fleet will sail towards the Tagus till the Arrival of a categorical Answer to some very important Dispatches lately sent over to Lisbon.

Saturday last James Oswald, James Grenville, and Isaac Barre, Esqrs. took the Oaths in the Court of Chancery, to qualify themselves for their Offices as joint Treasurers of Ireland.

The Fortifications in this Kingdom, it is said, will be thoroughly repaired, and considerably strengthened by many additional Works, in the Course of this Summer.

His Excellency General Murray, Governor of Quebec, is shortly to embark for that Capital, as his Majesty's Governor and Commander in Chief of Canada.

May 12. Yesterday there was a full House of Commons, and it was expected they would sit late; some Accounts from America, which were laid before them, for their Inspection, were the Object of the Debates.

Last Week some Dispatches, said to be of Importance, were received at the Secretary of State's Office from his Excellency Francis Bernard, Esq; Governor of New-England, which have already been laid before a Cabinet Council at St. James's.

By the late seizure of the Jesuits Papers and Effects in Spain, it is said to have been discovered that an immense Trade in Gold and Diamonds, has for some Years past been carried on by these Fathers from South-America, in which certain Spaniards in Office in America and the West-Indies are discovered to have been secretly concerned.

There were 11 Houses or Colleges of the Jesuits in the Province of Castile; 10 in that of Toledo; 11 in the Province of Andalusia; and 22 in that of Arragon; which made 118 in all.

The Departure of Two Companies of the Royal Regiment of Artillery for America, is postponed till after the Review of the Three Regiments of Foot Guards, which is fixed for the 19th of next Month.

A Letter from Vienna says, "Though this Court seems not directly to concern itself about the Affairs of Poland, in respect to the Claims of the Dissidents, there is Reason to believe that it will be attentive to the Consequences thereof. In the mean Time, it is generally thought here, that the Meas-

ures used by Russia on this Occasion will produce, if not a Civil War, at least very great Troubles. The Diet, indeed, has the Power to grant the Demand made by Russia; but the Object in Question is an important Affair of State, and consequently requires an Unanimity of Voices; and is it likely that amongst the great Number of Deputies, who compose that National Senate, there should not be one who will make use of the *Libertas veto?*"

According to Letters from Hamburg, a Northern Potentate, was said to be making Preparations to bring an Army of Fifty Thousand Men into the Field this Summer.

Last Week his Majesty passed near 100 Grants for Land in East-Florida.

May 14. It is said Sir Edward Hawke will soon be created a Peer of Ireland.

It has been remarked at the West-End of the Town as a Matter well worth noticing, that almost for a Month past there have not been less than 400 Members every Day in a certain Assembly.

A few Nights ago a Gentleman, at a certain Coffee-House in the Neighbourhood of St. James's, affirmed with great Confidence, and offered to lay any Wager on it, that the Irish Parliament would gladly settle 30,000*l.* a Year upon his Royal Highness the Duke of York, if his Highness would but condescend to reside in that Kingdom.

BOSTON, July 2.

Extract of a Letter from London, May 21.

"A few Days before the House of Commons adjourned for the Easter Holidays, the Chancellor of the Exchequer opened his Budget, with very great Applause, even Mr. G. complimented him on the Occasion; among other Things he made it appear, that besides paying the Navy and Army, and all other Charges of Government, for the last Year, he had sunk Three Millions, Nine Hundred Thousand Pounds of the National Debt, and assured them that the next Year he would discharge a much greater Sum, notwithstanding they had reduced the Land-Tax One Shilling in the Pound. He took an occasion Yesterday to say, that it was reported out of Doors that he was for taxing America, I declare, says he, I am not, nor never was; I thought the Stamp-Act a very improper Measure, and used my Endeavours for the repeal; and (holding out his Hand) he said he would cut off that Head before he would vote for taxing America; and if any of the Duties laid on Trade shall appear burthenfome, nothing shall be wanting in me to remove them."

May 14, 1767.

"Yesterday the Chancellor of the Exchequer mov'd the House for Leave to bring in the following Bills, which was agreed to.

An Act to permit Wine, Fruit and Oil, to be carried from Spain and Portugal, directly to North-America.

An Act laying a Duty on China, Paper, Glass, and Painters Colours, shipped from Great-Britain to the Colonies.

An Act for settling a Salary on the Governors, and Judges, &c. in North-America.

An Act for establishing a Board of Revenue in North-America.

Captain Lyle left London May 21—just as he came away, some Gentlemen, at the New-England Coffee-House, wrote the following Articles, and gave to some of the Passengers, viz.

"The Parliament met the 13th of May, upon American Affairs, and resolved that a Bill be brought in after the following Manner;

"That a Tax be laid on Painters Colours, Paper, Glass, and China. That the Colonies may have Liberty of importing Lemons, Wine, Fruit, and Oil, directly from Spain and Portugal, subject to a Duty, the Duty on Wine to be 7 per Cent. That the Duty on Tea remaining in England be taken off, and a Duty of 3*d.* per lb. be laid on the Importation in America. That there be a Board of Customs, as also a Court of Exchequer in New-England. That the Legislative Power of New-York cease, until they comply with the Bill. That the Governors and Judges be made independent, by increasing their Salary, which is to be paid out of the Revenues of the Customs.

George Grenville made a Motion to oblige the Americans to take an Oath of Allegiance and Obedience to the Parliament of Great-Britain, which was put to Vote—for the Question 100, against it 180 odd."

(Thus far the Manuscript.)

NEW-LONDON, June 16.

We are credibly informed that Major General Lyman has obtained a Grant of Land in Behalf of the Military Adventurers, 300 Miles Square, bounded on the River Mississippi, for a distinct Government. But whether the Crown will grant any Encouragement towards the Settlement of this Colony, or who is to command the same, is not yet known.

THURSDAY, JULY 23, 1767.

LEGHORN, April 11.

THE last Letters from Capraia advise, that the Fortress still held out, altho' they had received no Assistance. Capt. Oletta, a Corsican Officer, was killed by a Musket Ball, as he was viewing the Trenches.

GENOA, April 11. The Senator Pinelli hath not yet been able to introduce the Provisions destined for the Garrison of Capraia. It is reported that the Corsicans do not besiege the Fortress in Form, but blockade it only, persuaded, that it must soon surrender for want of Subsistence.

COPENHAGEN, April 25. The King has sent a circular Rescript to all his Ministers at foreign Courts, by which he enjoins them to declare, that the Negotiations, entered into with the Empress of Russia, have no other Object but the Interests of the high contracting Parties, and that there is nothing contained therein, that may concern any of the Crowns of Europe, nor cause them the least Prejudice.

LONDON, May 2.

Private Letters from Madrid inform, that Orders had been transmitted to the Governors of New Spain, for a Capitation Tax, to be levied by his Majesty's Officers, on all the Inhabitants throughout the whole Province of Paraguay, in South-America.

A Memorial has been lately sent over to Portugal, as we are informed, containing a minute Specification of all the Expences which we were at for the Defence of that Kingdom the last War, and insisting upon an immediate Payment or Reimbursement.

May 2. Yesterday Morning the Two Secretaries of State, and several Lords of the Privy Council, attended at a great Council held at the Cock-pit, Whitehall, on Affairs of importance.

Letters from Madrid import, that besides the great Treasure in the Possession of the Two Jesuits of Paraguay, who were lately arrested at Figuera, on their Way to Rome, some Papers were likewise found upon them, containing literal Proof of the Conspiracies at Quito, Lima, and Mexico; and which, it was thought, had contributed to accelerate the Ruin of that Society in the Spanish Monarchy.

Notwithstanding the Promises that have been made for our Fellow-Subjects the North-Americans, and the Honour that has been pawned by a certain great Man for them, we are assured, that they refuse to conform to an Act of Parliament respecting the Billeting of Soldiers. From their Conduct in this and some other Matters, there is Reason to expect fresh Troubles from those Parts.

A considerable Bounty on the Importation of the American Hemp and Flax is now soliciting for.

It is said, that all Sorts of salted Meat and Butter will be allowed to be imported Duty free; as also Rice, Sago Powder, and Vermicelli, from our Colonies in America, for a limited Time.

A Letter from the Hague, dated April 28, says, "Signor Romanzo, the Corsican Courier, past by here lately in his Return from London. He appeared remarkably gay, but made a profound Secret of his Negotiations. His Maitre de Hotel was heard to say, that the taking of Capraia had gained Corsica 100,000*l.* extraordinary Credit from the English Merchants."

They write from Corsica, that M. de Buffy, said to be charged with a Commission from the French Court, had lately arrived there, and held several Conferences with Count de Marbeuf, and proposes to be present at the General Congress of the States of the Island, to be held this Month.

Letters from Paris say, that it is expected the Banishment of the Jesuits from Spain, will be followed by their Expulsion from the Dominions of his Sicilian Majesty.

May 6. We hear that a large Quantity of Ammunition and Naval Stores are now getting ready, to be shipped with all Expedition for the Use of the Corsicans.

They write from Genoa, that a Reinforcement of 350 Men, had sailed for Corsica, and that 500,000 Livres were sent over to pay the Genoese Troops in that Island. And that one of their Vessels, which cruised on the Coast of Capraia, had found Means to take on board a Soldier, who had been let down by the Governor of the Fortress in that Island with Cords; and that it was in Consequence of the Advice received by this Soldier, that the Senate came to a Resolution of sending a Reinforcement of 200 Men to Admiral Pinelli.

Orders are given for a Train of Artillery to be got ready, to be shipped for his Majesty's Garrison of Minorca.

Yesterday Count de Malaham, the Prussian Ambassador, had a Conference with the Two Secretaries of State, on the Subject of some Dispatches received from his Court.

They write from Madrid, that in the new Treaty of Peace between the King and the Emperor of Morocco, it has been stipulated, that the Moorish Camps, held in the Neighbourhood of Oran and Ceuta, should be totally removed, and the Garrisons supplied, for ready Money, with necessary Provisions.

Commodore Palliser, on his Arrival at Newfoundland, received Orders to station a Frigate of War at each of the Islands of St. Peter's and Miquelon, for preventing the English from carrying on any illegal Trade with the French.

The Brussels Gazette, received on Wednesday, hath the following Paragraph under London, April 24. "We are not without Fear lest the Measures taken for the establishing of a Tax in America, should give rise to new Troubles in most of our Colonies. Precaution however will be taken to leave the Reparation and Collection of it to the Assemblies of the different Provinces, to whom the Governors are to make the Proposition relative thereto on the Part of the King, on condition that they charge themselves with remitting the Produce of the Tax to the Exchequer here, to be disposed of by Parliament. The Spirit of Revolt and Independence, which reign in that Country, give us Reason to depend on any good Dispositions on their Parts."

It is said, that the confiscated Effects belonging to the Jesuits through the whole Kingdom of Spain, already amounted to the Sum of Seventy-five Millions of Piasters, exclusive of the Spoils expected from that Society in the Indies.

May 8. It is strongly reported, that the Parliament will be dissolved, and a new one called, so soon as the present Session shall be ended. This Measure was adopted (the last Time) in the Year 1747; when the Ministry, in order to save the great Expence of a Twelve-month's canvassing for Members, which would have been the Consequence, procured the Parliament's Dissolution at the Expiration of Six Years.

It is thought that the Parliament will not rise till his Majesty's Birth-day.

According to authenticated Accounts, transmitted to Madrid from South-America, the Jesuits of Paraguay were said to be able to bring an Army of Two Hundred Thousand Fighting Indians to the Defence of their Country, should it be invaded either by the Spaniards or Portuguese.

No Fleet will sail towards the Tagus till the Arrival of a categorical Answer to some very important Dispatches lately sent over to Lisbon.

Saturday last James Oswald, James Grenville, and Isaac Barre, Esqrs. took the Oaths in the Court of Chancery, to qualify themselves for their Offices as joint Treasurers of Ireland.

The Fortifications in this Kingdom, it is said, will be thoroughly repaired, and considerably strengthened by many additional Works, in the Course of this Summer.

His Excellency General Murray, Governor of Quebec, is shortly to embark for that Capital, as his Majesty's Governor and Commander in Chief of Canada.

May 12. Yesterday there was a full House of Commons, and it was expected they would sit late; some Accounts from America, which were laid before them, for their Inspection, were the Object of the Debates.

Last Week some Dispatches, said to be of Importance, were received at the Secretary of State's Office from his Excellency Francis Bernard, Esq; Governor of New-England, which have already been laid before a Cabinet Council at St. James's.

By the late seizure of the Jesuits Papers and Effects in Spain, it is said to have been discovered that an immense Trade in Gold and Diamonds, has for some Years past been carried on by these Fathers from South-America, in which certain Spaniards in Office in America and the West-Indies are discovered to have been secretly concerned.

There were 13 Houses or Colleges of the Jesuits in the Province of Castile; 30 in that of Toledo; 31 in the Province of Andalusia; and 24 in that of Arragon; which made 118 in all.

The Departure of Two Companies of the Royal Regiment of Artillery for America, is postponed till after the Review of the Three Regiments of Foot Guards, which is fixed for the 19th of next Month.

A Letter from Vienna says, "Though this Court seems not directly to concern itself about the Affairs of Poland, in respect to the Claims of the Dissidents, there is Reason to believe that it will be attentive to the Consequences thereof. In the mean Time, it is generally thought here, that the Means

used by Russia on this Occasion will produce, if not a Civil War, at least very great Troubles. The Diet, indeed, has the Power to grant the Demand made by Russia; but the Object in Question is an important Affair of State, and consequently requires an Unanimity of Voices; and is it likely that amongst the great Number of Deputies, who compose that National Senate, there should not be one who will make use of the *Liberrum veto*?"

According to Letters from Hamburg, a Northern Potentate, was said to be making Preparations to bring an Army of Fifty Thousand Men into the Field this Summer.

Last Week his Majesty passed near 100 Grants for Land in East-Florida.

May 14. It is said Sir Edward Hawke will soon be created a Peer of Ireland.

It has been remarked at the West-End of the Town as a Matter well worth noticing, that almost for a Month past there have not been less than 400 Members every Day in a certain Assembly.

A few Nights ago a Gentleman, at a certain Coffee-House in the Neighbourhood of St. James's, affirmed with great Confidence, and offered to lay any Wager on it, that the Irish Parliament would gladly settle 50,000*l.* a Year upon his Royal Highness the Duke of York, if his Highness would but condescend to reside in that Kingdom.

BOSTON, July 2.

Extrall of a Letter from London, May 11.

"A few Days before the House of Commons adjourned for the Easter Hollidays, the Ch—r of the Ex—r opened his Budget, with very great Applause, even Mr. G—le complimented him on the Occasion; among other Things he made it appear, that besides paying the Navy and Army, and all other Charges of Government, for the last Year, he had sunk Three Millions, Nine Hundred Thousand Pounds of the National Debt, and assured them that the next Year he would discharge a much greater Sum, notwithstanding they had reduced the Land-Tax One Shilling in the Pound. He took an occasion Yesterday to say, that it was reported out of Doors that he was for taxing America, I declare, says he, I am not, nor never was; I thought the Stamp-Act a very improper Measure, and used my Endeavours for the repeal; and (holding out his Hand) he said he would cut off that Hand before he would vote for taxing America; and if any of the Duties laid on Trade shall appear burthensome, nothing shall be wanting in me to remove them."

May 14, 1767.

"Yesterday the Chancellor of the Exchequer mov'd the House for Leave to bring in the following Bills, which was agreed to.

An Act to permit Wine, Fruit and Oil, to be carried from Spain and Portugal, directly to North-America.

An Act laying a Duty on China, Paper, Glass, and Painters Colours, shipped from Great-Britain to the Colonies.

An Act for settling a Salary on the Governors, and Judges, &c. in North-America.

An Act for establishing a Board of Revenue in North-America.

Captain Lyle left London May 21—just as he came away, some Gentlemen, at the New-England Coffee-House, wrote the following Articles, and gave to some of the Passengers, viz.

"The Parliament met the 15th of May, upon American Affairs, and resolved that a Bill be brought in after the following Manner;

"That a Tax be laid on Painters Colours, Paper, Glass, and China. That the Americans may have Liberty of importing Lemons, Wine, Fruit, and Oil, directly from Spain and Portugal, subject to a Duty; the Duty on Wine to be 7 per Ton. That the Duty on Tea remaining in England be taken off, and a Duty of 3*d.* per lb. be laid on the Importation in America. That there be a Board of Customs, as also a Court of Exchequer in New-England. That the Legislative Power of New-York cease, until they comply with the Billeting-Bill. That the Governors and Judges be made independent, by increasing their Salary, which is to be paid out of the Revenues of the Customs.

"George Grenville made a Motion to oblige the Americans to take an Oath of Allegiance and Obedience to the Parliament of Great-Britain, which was put to Vote—for the Question 180, against it 180 odd."

(Thus far the Manuscript.)

SCHEME OF THE MARYLAND LIBERTY LOTTERY.

THE Lower House of Assembly of Maryland have constantly and ineffectually hitherto, since Seventy Hundred and Thirty-nine, RESOLVED, That his Majesty hath no Right to collect Twelve-pence per Hoghead of Tobacco exported.

A Constitutional Tax on the People to support an Appeal of the Appointment of the Lower House, has been greatly desired, frequently attempted, and as often refused by the Upper House.

The Lower House of Assembly contend, That the Clerk of the Council his reasonable Reward, as well as every other Expence necessarily attending the Execution of the Powers of Government, ought to be defrayed out of the Funds, Forfeitures, Amerciaments, and other Monies received by the Government for the Support thereof; and, "That Sentence being directly opposite to the Opinion of the Upper House had, on mature Consideration, formed upon the Subject of the Clerk of the Council's Claim," principally occasioned the Non-payment of the Public Debt for upwards of Ten Years: The Distress of Trade for Want of a Circulating Medium, and the extreme Necessity of Public Creditors, compelled the Lower House to agree to an Appeal to his Majesty in Council, on the Subject Matter of Difference, without the Allotment of any Public Money for that Purpose, as the only Means to settle Disputes, restore Public Credit, and lay a sure Foundation for the future Ease and Good of the Province.

A Subscription therefore, by RESOLVE of the Lower House, has been Open'd, and Subscriptions are taken in by every Member, for maintaining an Agent, and supporting the Appeal on the Part of the People, as well as obtaining Redress of their other Grievances; and, by RESOLVE also of the Lower House, as an additional Means of raising Money for the same Purpose, the following SCHEME of a LOTTERY, by which to raise One Thousand Pounds Common Money, is submitted to the Public.

Table with 3 columns: Prize amount, Quantity, and Total value. Includes prizes of £500, £250, £100, £50, £30, £20, £15, £10, £5, £4, £3, £2:10, £2.

2500 Prizes. 2500 Blanks. Tickets, at Thirty Shillings each, amount to £.7500. From which deduct 1000 £.6500.

Two and an Half per Cent to be deducted from the Prizes, to defray the Expences of the Lottery.

The Drawing to be in the Court-House at Annapolis, in the Presence of the Managers, and as many of the Adventurers as shall be pleased to attend.—From the best Estimate that can be found, there are about 800 of the good Tickets still for Sale; and as Gentlemen have not sent in their Account of Tickets unfold, the Drawing is put off till the Monday after the Third Tuesday of October next, which is then certainly expected, even should there be some Tickets remaining to be taken on the Risk of the Lottery.—Those Gentlemen who have generously assisted in the Sale of Tickets, are requested to send an Account of them against that Time; and the Managers are desired then to meet.

The Managers are, William Murdoch, Esq; Messieurs Thomas Sprigg, William Paces, John Weems, Thomas Gassaway, South-River, Thomas Ringgold, B. T. B. Worthington, Henry Hall, John Hammond, Thomas Johnson, John Hall of Annapolis, and Samuel Chase, or such of them as shall chuse to act.

The said Managers to give Bond to the Hon. SPEAKERS, and be upon Oath for the faithful Discharge of their Trust. A List of the Prizes to be Published in the MARYLAND GAZETTE, and the Prizes paid as soon as the Drawing is finished; and those not demanded in Six Months after the Drawing, to be deemed as generously given to the above Use. The Scheme to be made publick in the Maryland and Virginia GAZETTES, and Pennsylvania JOURNAL.

"LIFE without LIBERTY is worse than DEATH." TICKETS may be had of any of the Managers, and of most of the Members of the Lower House of Assembly.

MARYLAND GAZETTE.

THURSDAY, JULY 30, 1767.

GENOA, May 9.

ON the 5th Instant, the Republic received Letters from Senator Pinelli, with Advice, that on the 3^d Instant, Two Hours before Day-light, he landed 150 Volunteers on the Island of Capraia, who marched Three Hours, and surprized a Picquet Guard of the Corsicans of 16 Men, without being discovered: The ill-tim'd Zeal and Heat of an Officer, with a few of the Volunteers, to pursue Five Corsicans they saw at a little Distance, was the Occasion of their being discovered, and giving Alarm to the whole Body of Corsicans, who immediately assembled their Forces, and marched against the Volunteers. By some Fatality, the Signal made from the Boat, after the Volunteers were landed, was not seen by the Vessels that had the other Troops on board, who were to support those already landed, and those Vessels by the Current were driven some Miles distant from the Island, so that the Corps of Volunteers was by this Fatality abandoned; and, being overpowered by Numbers, only Nineteen of the whole Corps with great Difficulty got to the Boats. Two Captains, One Lieutenant, One Ensign, and Forty-one Rank and File, were killed; Four Captains, One Lieutenant, Six Ensigns, One Cadet, One Serjeant, and Seventy-two Rank and File, were taken Prisoners by the Corsicans; many of them wounded.

May 11. Colonel Matra, who brought off our Troops on the 3^d Instant from the Island of Capraia, under a continual Fire, was slightly wounded in Two Places. As soon as the Government received Advice of the Action, they dispatched a Reinforcement of 400 Men, who are to join the other Troops under the Senator Pinelli, and attempt a Second Disembarkation. When the last Letters came from Corsica, the Fort of Capraia still held out, after a Defence of near Three Months.

L O N D O N.

May 16. We are credibly assured, that Episcopacy will never take Place among our Subjects in America. We hear strict Orders are sent over to his Majesty's American Governors, to prohibit the holding any future Congress of the different Colonies, as was lately done in the Case of the Stamp-Act.

A Negotiation for a Change of Ministers is certainly on Foot, and has been for several Days past. Lord E-----t, it is said, will be made Secretary of State for the Southern Department, with the Name and Power of Minister annexed to his Office. Others again say, that there are no less than Three Negotiations on Foot for a new Set of Ministers; and that the next it is thought would be a Tory-Ministry.

We hear a Committee of American Merchants will in a few Days attend the Ministry, on Affairs of great Importance.

No Acts of the American Assemblies will for the future be allowed to be valid, unless they shall wholly comply with the late Act for quartering Soldiers in America.

We also hear that the American Assemblies will be obliged to conform to all Acts of the British Legislature, respecting both their internal as well as external Policy and Government.

The Odds lately against the Americans were 82. According to recent Letters from Rome, the Jesuits were on the Point of losing the Protection of his Holiness the Pope, influenced thereto, it is said, by the Discovery of certain Intrigues of the Society, highly derogatory to the Honour and Interests of the Court of Rome.

May 18. We hear a Plan has been proposed, by a great Man in the Administration, to regulate East-India Sales, by which the Monopoly of Teas in particular, will be in a great Measure prevented.

By Yesterday's Mail from Holland we learn, that the Corsicans have reinforced their Troops at Capraia with 150 Men; and the Genoise not having been able to give Assistance to the Commander of the Fortress, the Corsican Officer was offered a Capitulation, who immediately sent an Express to General Paoli, for Orders how to proceed.

A private Letter from Hamburgh mentions, that a Treaty of Commerce is on the Carpet between the Courts of Peterburgh and Madrid.

A Tradesman in the City is making a Diamond Stomacher for a Lady of Quality, against his Majesty's Birth-day, valued at 25,000 Guineas.

A grand Promotion of Military Officers is expected in a few Days.

Some Letters from Leghorn advise, that General Paoli had issued Orders for all the Ports in Corsica to be shut against the Jesuits; great Numbers of whom, it was said, were preparing to take refuge in that Island.

May 21. His Majesty was attended Yesterday to the House of Peers, by the Duke of Ancafter, and the Earl of Denbigh; when the Royal Assent was given to 18 public Bills, among which were (besides those mentioned Yesterday) the Bill to prevent Extortion by Sheriffs and Bailiffs, in Cases of Execution; and the Bill for extending the Royalty of the City of Edinburgh over certain adjoining Lands, &c. and to enable His Majesty to grant Letters Patent for establishing a Theatre in Edinburgh: And to several private Bills.

We hear General Murray, some Time ago most honourably acquitted of the Charge preferred against him while Governor of Quebec, will in a few Days embark for that Place as Commander in Chief of his Majesty's Province of Canada.

Thursday last a Number of Artificers in the Steel and Brass Manufactures, were engaged on good Encouragement to embark for Philadelphia.

They write from Scotland, that several foreign Agents have lately appeared in the Northern Parts of that Kingdom, to enlist Highlanders for the Service of his Prussian Majesty.

It is reported, that another Regiment of Light Horse will soon be raised for his Majesty's Service, the Command of which, it is said, will be given to one of the Royal Family.

Letters from Quebec, dated Feb. 23, say, that next Spring they were in great Hopes of discovering a navigable Communication from Lake Superior to the South-Seas, by Means of a great River, which the native Indians had reported to run many Leagues to the Westward.

May 29. At a General Court of the East-India Company held on Wednesday at Merchant Taylor's Hall, the following Question was proposed: "That a Petition be humbly presented to Parliament, setting forth, that a Bill now depending for regulating the making of Dividends by the East India Company, and tending to rescind an Act done on the 6th of May by a General Court of Proprietors of the said Company, would, if passed into a Law, be extremely prejudicial to the Rights and Properties of the Petitioners, and would materially prejudice the Public Credit, as well as the particular Interest of the Company, and praying that the Petitioners may have Leave to lay before Parliament, the Motives of the Conduct of the Proprietors at the said General Court, together with the Circumstances of the Company; and that they may be heard by themselves and Council, against such Parts of the Bill as may affect their Rights and Interests."

After some Debates, the Court agreed that it should be determined by Ballot Yesterday; which accordingly began at Eleven in the Morning, and closed at Six in the Evening, where then appeared

The Transfer-Books were ordered to be shut till the above Question is reported.

In the Act of Accession of the Three great Cities of Thorn, Elbing, and Dantzick, to the Confederation on the 10th ult. is the following Passage:—"We accede and take Part in this Act of Confederation of the whole Dissident Noblesse of this Province, and the Kingdom of Poland (under the high Protection of her Majesty the Empress of all the Russias, and of his Majesty the King of Prussia) for the Re-establishment of all our Rights, Spiritual and Temporal, and we engage ourselves to act in concert in every Thing that concerns the Ecclesiastical and Political Rights of the Province of Prussia, as well those of the Noblesse, as the Cities, and to employ our whole Power, our Effects and Lives, for the Re-establishment, Conservation, and Defence of these Rights, and in no Respect to separate ourselves from this Confederation, until under the high Protection of her Imperial Majesty, and the other high Guarantees of the Peace of Oliva, the spiritual Rights of all in general, and each in particular, be entirely re-established and have resumed their ancient Force; protesting nevertheless, that we will inviolably persevere in our Duty, and the Fidelity owing and sworn to his Majesty, the King, our most gracious Master; and reserving to ourselves the perfect Enjoyment of all our Rights and Immunities."

Extract of a Letter from on board the Dolphin Man of War, dated in Port Famine, in the Straights of Magellan, the First of January.

"I am sorry I can't hear from you in answer of your Well-doing, by reason no Ships comes this Way, so that I rest contented until I have the Pleasure of seeing you myself, which may be in about Two Years Time, for we are going to find out as much as possible. We have been among the Tall-Men, and have had some of them on board us, but none exceeding 8 Feet high: The Common

Run is about 7 Feet and a Half, who all ride upon Horses, most white, with Wooden Spurs. They have Two Stones, which are slung in a Sort of a Skin, some Distance from one another, with which they heave out of their Hands, and kill wild Fowl, which is pretty plenty; they being of a Savage Nature, eat the Flesh of those Fowls raw. As for any other Particulars, shall let them alone until my Return. I remain, dear Sir, Your's, Sec. &c."

DUBLIN, May 23. In the Cambric Manufacture of this Kingdom, are now employed not less than 160 Looms at Dundalk, where, in the short Space of one Year only, above 70,000 Yards have been made, the greater Part already at Market, or sold; and it is observable, that this Quantity has been made between May 1766, and May 1767, which shews that this important Manufacture is in an improving State, and will be of the utmost national Advantage, which is already obvious from the gradual Diminution of the Importation of French Cambrics into this Kingdom.

N E W - Y O R K, July 20.

Extract from the VOTES of the HOUSE of COMMONS of GREAT-BRITAIN, the 25th May 1767.

"RESOLVED, That it appears to this Committee, that the House of Representatives of his Majesty's Province of New-York have, in direct Disobedience of the Legislature of Great-Britain, refused to make Provision for supplying with Necessaries his Majesty's Troops in such Manner as is required by an Act of Parliament, made in the 5th Year of his Majesty's Reign, intituled, *An Act to amend and render more effectual, in his Majesty's Dominions in America, an Act passed in this present Session of Parliament, intituled, An Act for punishing Mutiny and Desertion, and for the better Payment of the Army and their Quarters.*

"RESOLVED, That it appears to this Committee, that an Act of Assembly hath been passed in the said Province, for furnishing the Barracks in the Cities of New-York and Albany with Fire-Wood and Candles, and other Necessaries therein mentioned, for his Majesty's Forces, inconsistent with the Provisions, and in Opposition to the Directions of the said Act of Parliament.

"RESOLVED, That it is the Opinion of this Committee, that until Provision shall have been made by the said Assembly, for furnishing the King's Troops with all the Necessaries required by the said Act of Parliament, the Governor, Council and Assembly, be respectively restrained and prohibited from passing, or assenting to any Act of Assembly, for any other Purpose whatsoever.

"The First Resolution of the Committee being read a Second Time;

"The House was moved, that an Act, made in the 5th Year of his present Majesty's Reign intituled, *An Act to amend and render more effectual, in his Majesty's Dominions in America, an Act passed in this present Session of Parliament, intituled, An Act for punishing Mutiny and Desertion, and for the better Payment of the Army, and their Quarters,* might be read.

"And the same being read accordingly;

"A Motion was made, and the Question being put, that the said Resolution be re-committed: It passed in the Negative.

"A Motion was made, and the Question being put, that, for the better securing the Dependency of His Majesty's Dominions in America, upon the Crown and Parliament of Great-Britain, all Persons within His Majesty's said Dominions, who shall be elected or appointed Governor, Member of the Council, General Assembly, House of Representatives, or General Court, of any Province, within the same, and also all other Persons residing within the same, who, by any Charter, Act of Parliament, or Provincial Law, are required to take the Oaths of Allegiance and Abjuration, be required to subscribe a Declaration, *That the Colonies and Plantations in America, are, and of Right ought to be, subordinate unto, and dependent upon the Imperial Crown of Great-Britain; and that the King's Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons of Great-Britain, in Parliament assembled, had, hath, and of Right ought to have, full Power and Authority to make Laws and Statutes, of sufficient Force and Validity, to bind the Colonies, and People of America, Subjects of the Crown of Great-Britain, in all Cases whatsoever:*

"It passed in the Negative.

"RESOLVED, *Nemine Contradictente,* That an humble Address be presented to his Majesty, that he will be graciously pleased to confer some Marks of his Royal Favour on those Governors and Officers in the several Colonies, who distinguished themselves by their Zeal and Fidelity in supporting the Dignity of the Crown, the just Rights of Parliament, and the Supreme Authority of Great-Britain over the Colonies, during the late Disturbances in America."

ANNAPOLIS, JULY 30.

Monday last arrived here, from LONDON, the Ship JENNY, Capt. WILLIAM HAMILTON, with Twenty Indented Servants.

The same Day arrived here, from BRISTOL, the Ship ISABELLA, Capt. SAMUEL NICHOLSON, with Six Convicts, and Fifty-seven Indented Servants. And.

On Tuesday last arrived here, from DUBLIN, the Brigantine ACHSAH, Captain SEPTIMUS NOEL, with Fifty-seven Indented Servants.

As some of the Inspectors in Prince-George's, Charles, and St. Mary's Counties, have lately sent by the Post, for Books and Notes, which he refuses to carry; the Printer thinks it necessary to acquaint them, that they are packed up, and only wait for a Convoiance.

TO THE PRINTER OF THE MARYLAND GAZETTE.

I OBSERVE in your GAZETTE of the 9th July, No. 1139, some Gentleman has given the PUBLIC a Specimen of his Abilities in the pathetic Stile, in painting the late Distress of a Widow's Family on the Eastern Shore, and attributes it all to the Communication of the Jail Fever to that Family, by a Visit from one of the Felons, some Time before imported in a Convict Ship.

WHEN Matters of an interesting Nature come before the PUBLIC, Facts alledg'd should be true, and they ought to come void of unnecessary Reflections on Individuals, and they will then make the proper Impressions, and be better received.

HEALTH, no doubt, is the most valuable Thing in Life; and, I believe it owing to the People's great Anxiousness to preserve it, that their Fears are so apt to multiply, and so many false Reports are generally spread about the Country, respecting contagious Disorders.

If a Family gets the Flux but slightly, a Report is quickly spread, that they are all dying, and their Neighbours will not venture to see them: If it happens to be in a small Town, in little Time, all the Town is dying, and 'tis dangerous to go to it, and almost all Business and Communication with the Country ceases, until the Prejudice is removed; when, at the same Time, no one Person has died, or had the Disorder to any Degree of Malignity.

WHEN the People of ANNAPOLIS (that healthy Place) have been only a little sickly, in the Fall of the Year, with Fevers and common Disorders incident to the Season and Climate, I have known it reported about the Province, to the Terror of many People that had to go there on Business, that there was a contagious Disorder raging there, that swept off Eight or Ten People every Day, and that they buried them secretly, in the Night, to prevent Peoples Fears.

THAT Mrs. BLAKE's Negroes got some kind of Putrid or Malignant Fever amongst them, which perplexed the Physicians, and was difficult to cure, is true; and that Seventeen only (not THIRTY) died with it, I believe is true also; but, that its Rage did not intermit, until by a waste of Lives, it wanted Subjects to prey upon, is not true; because, after they omitted Bleeding, and administer'd James's Powders, I am inform'd several of them recovered; and it is thought that Method of Cure, if at first happily fallen on, might have saved some of those that died. It is certain several of the Negroes belonging to that Plantation are still living, and the Two young Ladies, Mrs. BLAKE's Daughters, who constantly attended, and nursed all the Negroes through their Sickness, intirely escaped the Fever: Mrs. BLAKE herself, who was a very worthy Lady, and very anxious for the Interest and Welfare of her Children, went through much Fatigue and Solitude in nursing the Slaves; and being tender and delicate in her Constitution, got ill herself, and died; whether with the same Kind of Fever, or not, is doubted, as the young Ladies did not take it.

DOCTOR HALE says, a Number of People, confined long together, whether in a Jail, Ship, or elsewhere, must corrupt the Air, and bring on Putrid Fevers; and I well know, there has been divers Instances of great Mortality in Negroes in this Province, without any colour of Suspicion, that they could possibly take the Disorder from a Visit of a Convict Transport; and the Physicians have attributed it intirely to great Numbers living together, in a very small House, built without proper Windows, or Passages for a free Air; and the Negroes being very uncleanly and negligent of themselves, Bedding, &c. which has caused a foul Air, and brought on the Disorder, and this is thought to be the Cause of Mrs. BLAKE's Slaves, and should be a Caution to Gentlemen in the Country, who have great Numbers of Slaves, to build larger and more airy Houses for them, and see that their Habitations are kept clean and sweet. There have been various Reports about this Disorder's having been communicated to Mrs. BLAKE's Family, from a Convict Ship; but on tracing them, they have all been found Groundless: At last, a casual Visit, it seems, of a Felon gave it; very happy for his Master's Family, whoever they were, that he could not give the Disorder to them, by living in it; when a casual Visit should produce such Havock elsewhere. The Truth, I believe, is, were never another Ship to come to the Country, People, at one Time or other, would die, and we should also, especially without more Care with our Slaves, sometimes have these malignant Fevers amongst them; and, not-

withstanding what has been said of Mr. HOWARD's Family, it is yet very problematical, whether his Negroes were at all affected by the Communication of any Distemper from a Ship.

EARLY in June, a Ship arrived with Servants; Three of them had the Small-Pox, he was humane enough to take them into an Out-House of his, to nurse them, and prevent that bad Disorder from spreading in the Country, as all his Family had had it: Sometime in August, (the sickly Season, in this Country) some of his Negroes fell sick, and some of them died; he himself declared, he did not believe his Negroes received any Infection from those Servants; and particularly, a Negro Woman of his, that died, and 'twas said with this Disorder, he said he was satisfied catch'd Cold in her Lying-in, and died thereby. He himself was taken ill some Time in the Winter after and died. Perhaps it may be said he lost his own Life that Way, but it is highly improbable.

I SUPPOSE, for these last Thirty Years, commencing Annis, there has been at least 600 Convicts per Year, imported into this Province, and these probably have gone into 400 different Families.

THE Instances have been very rare that there has been any Suspicion of these People's communicating any fatal Disorder to the Families into which they have been received; perhaps not one a Year, take the Year's round, and very often the Reports that have been spread about it, when examined, are found to be entirely groundless: This makes it at least 400 to one, that they do no Injury to the Country, in the Way so much complained of; and the People's continuing to buy and receive them so constantly, shews plainly the general Sense of the Country about the Matter; notwithstanding a few Gentlemen seem very angry that Convicts are imported here at all, and would, if they could, by spreading this Kind of Terror, prevent the People's buying them, and then of course they would not be brought in.

I CONFESS, I am one of those who think a young Country cannot be settled, cultivated, and improved, without People of some Sort, and that it is much better for the Country to receive Convicts than Slaves; and that we, who allow them to be brought in, and have provided proper Laws to have their Names recorded, so that they cannot be admitted into our Courts, and restored to their Credit, until their Crimes are purged away, by a Completion of their Time of Servitude, are much better off than those Provinces who don't permit them directly to come in; yet they are put on them, as HONEST PEOPLE, under colour of INDENTURES.

THE wicked and bad of them that come into this Province, mostly run away to the Northward, mix with their People, and pass for honest Men; whilst those, more innocent, and who came for very small Offences, serve their Times out here, behave well, and become useful People. And, that there is not much Danger of getting Disorders from them, is further evinced, when Gentlemen, who have had the Sale of them for near Twenty Years, and have attended every Ship, and been constantly amongst them during the Sales, have found no ill Effects in their Healths from it; therefore, I believe, though the Law mentioned was made with a very good Intent by the Legislature, it must stand Thousands of Years before it will save the Lives of Thousands; since, I believe, if no such Law had ever been made, Thousands of Lives would never have been lost by these Means.

HAD the Legislature, at the same Time, provided a proper House, and Place of Reception, at the Public Charge, for the unhappy Sick, when they should come into the Country, whether Convicts or Passengers, as they have in PENNSYLVANIA, and in all other Countries in the World, where any Thing like a Quarantine Law exists; by which, from having fresh Air, and proper Attendance, they might have had a good Chance for Recovery, and the Ship, Goods, and all have been discharged, and the Ship sweetened and cleansed, and been permitted to proceed on her next Voyage, instead of confining the poor Creatures in the same unclean Vessel, even those that are well, until they get sick and die, as well as those already sick, and detaining her from her Course of Trade and Business: I think it must be allowed the Law would have been much more perfect; and, I hope, at their next Meeting, they will think so, and make such Provision. But, why it should be thrown out so invidiously, and so early, that the Operation of so good a Law would be frustrated, by every Evasion which the Arts of Interested Men could devise, I know not, unless that Writer knows his own Heart so well, that if he was interested in the Sale of Convicts, he should certainly act that Part.

WHO are these interested Men this Writer means? Are they not the Gentlemen concerned in the Sale of those People? Who else can he mean? If nobody else can be meant, they are obliged to take it to themselves, though the Cap fits them not.

I CONFESS myself a Friend to some of them, and I think I know their Hearts so well, as to be assured, that were they convinced the Country received the Injury that's pretended, or any considerable Injury by them, they would despise and reject the Commissions they receive on their Sale, and Concern no further with them; surely they never would be so mad as to venture their own Lives so constantly, if they conceived any considerable Degree of Danger: And it is well known, that Commissions on Negro Confinements, are much more valuable

than those on Convicts; yet, I am well assured, one of those Gentlemen, who had as good Reason to expect a full Share of Negro Confinements as any Man in this Province, so disregarded all his private Views of Interest therefrom, when he thought them incompatible with the general good of the Country, that he was the First that moved in the Assembly, for a Duty of Ten Pounds per Head, on the Importation of all Negroes, which he expected would be the same in Consequence, as a Prohibition. This kind of Conduct, then, but little justifies so invidious an Insinuation. Yours, &c. A. B.

LUMPING PARCELS OF GOODS, I have been found not so well to answer the BUYER; because, in taking whole Packages, he is often burthened with Articles he does not want.—To avoid this Inconvenience, there is now opened, at Port-Tobacco, on Patowmack River, a considerable ASSORTMENT OF EUROPEAN and EAST-INDIA GOODS, imported this Summer from London and Glasgow, and to be sold in Wholesale ONLY; where the Purchaser may have what Quantity he pleases of any Article in the Store, not cutting Pieces of Linen, Woollen, or other Goods, by the Yard, nor breaking Dozens of Stockings, Shoes, Hats, Gloves, Tapes, and others, by the Dozen: Glass, Delf, and Stone-Ware, as it would be troublesome re-packing them to carry away, and perhaps could not be so well done, are put up in small assorted Packages. Loaf Sugar, Soap, Pepper, &c. are also in small Packages: Gun-Powder, in Half-Barrels; Shot, in Bags of One Quarter of a Hundred Weight each.—The Retail Business is carried on as formerly, and in a separate House.

I want a Quantity of BARREL-STAVES delivered at Nanjemoy; and take this Method of acquainting the Eastern-Shore Traders, that they shall have a better Price for them than I have usually given for some Years past.

S C H E M E
 OF THE
 MARYLAND LIBERTY LOTTERY.

THE Lower House of Assembly of *Maryland* have con-
 stantly and ineffectually hitherto, since Seventeen
 Hundred and Thirty-nine, RESOLVED, That his Lord-
 ship hath no Right to collect Twelve-pence per Hoghead on
 Tobacco exported.

A Constitutional Tax on the People to support an Agent
 of the Appointment of the Lower House, has been greatly
 desired, frequently attempted, and as often refused by the
 Upper House.

The Lower House of Assembly contend, That the Clerk
 of the Council his reasonable Reward, as well as every other
 Expence necessarily attending the Execution of the Powers
 of Government, ought to be defrayed out of the *Fines*,
Forfeitures, *Amerciaments*, and other Monies received by the
 Government for the Support thereof; and, "That Senten-
 "ment being directly opposite to the Opinion the Upper
 "House had, on mature Consideration, formed upon the
 "Subject of the Clerk of the Council's Claim," principally
 occasioned the Non-payment of the Public Debt for upwards
 of Ten Years: The Distress of Trade for Want of a Circu-
 lating Medium, and the extreme Necessity of Public Credit,
 compelled the Lower House to agree to an Appeal to his Ma-
 jesty in Council, on the Subject Matter of Difference; with-
 out the Allotment of any Public Money for that Purpose,
 as the only Means to settle Disputes, restore Public Credit,
 and lay a sure Foundation for the future Ease and Good of
 the Province.

A Subscription therefore, by RESOLVE of the Lower
 House, has been Open'd, and Subscriptions are taken in by
 every Member, for maintaining an Agent, and supporting
 the Appeal on the Part of the People, as well as obtaining
 Redress of their other Grievances; and, by RESOLVE also
 of the Lower House, as an additional Means of raising Money
 for the same Purposes, the following SCHEME of a

 Common Money, is submitted to the Public.
