

MARYLAND GAZETTE,

Containing the latest Advices foreign and domestic.

THURSDAY, August 6, 1761.

CADIZ, April 18.

THE Squadron which the King ordered to be equipped in our Port, set sail last Tuesday with a fair Wind: It consists of six Ships of the Line, and a Flute laden with Gun-powder. This Squadron has some Land Forces on board, and is bound to the Havannah; but one of the Ships is to part from it in a certain Latitude, and proceed to Vera Cruz, whither she carries a great Quantity of Quick Silver, which begins to be wanted in that Colony.

For two or three Weeks past a Gang of Villains has infested this Place; they are masked and well armed; they enter People's Houses in the Night, and murder those who make any Resistance, and carry off every thing that is not too heavy for them. These Miscreants very lately broke open the House of a rich Merchant, who was at Supper with some of his Friends, and his Wife and Children: They murdered Part of the Company and locked up the Rest in a Cellar; after which they sat down without the least Concern by the dead Bodies, and drank up several Bottles of Wine; then pillaged the House, and made off. The Punishment for such Wretches is too mild in Spain; Imprisonment, which is oftentimes the only one they undergo, not being a sufficient Check to the Commission of such Crimes. We shall soon have all our public Roads infested by other Vagabonds, Bohemians, known here by the Name of Gitanos, who were banished the Kingdom by the late King, but are said to be returning from the Island of Fermentaro where they had taken Refuge.

LONDON, May 5.

The Lord Anson Transport, lying off the Red-House, Deptford, which was formerly the old Centaur Man of War, the last of six large Transports to carry 1800 Soldiers, with six Months Provisions, is ordered to sail forthwith for Portsmouth, to receive the Troops on board, and join the Convoy; but upon what Service not known.

Three Martinico Ships, and three French Turkey Ships, are taken.

The French Ambassador at Stockholm has presented to the Diet a Memorial, wherein he makes a great Parade of the fine Dispositions of all the Belligerent Powers for putting an End to the War, but at the same Time sets forth, "How necessary it is, in Circumstances so important, to reinforce the Swedish Army, and to put it in a State to pursue its Operations efficaciously, as the only Means of advancing the Negotiations at the intended Congress."

There has been a desperate Engagement in the Canal of Malta, between six Maltese Vessels, and five of Tripoli, wherein two of the latter were sunk, and one, of 20 Guns, taken.

May 9. They write from Hamburg, that on the 21st ult. a Prussian Detachment came to demand a Contribution of 80,000 Crowns from the Town of Jever, situated in the County of Oldenbourg, belonging to the Prince of Anhalt Zerbst; Notice of which was immediately sent to the King of Denmark, to whom Oldenbourg belongs.

They write from Vienna of the 18th ult. that they had a certain Account, that Gen. Laudohn had an Army of 35,000 Men under his Command in Silesia; and that 30,000 Russians were traversing Poland to join him, after which Junction they would be able to face the King of Prussia.

An Order is sent from the Lords of the Treasury to the Officers of the Mint, to coin 100,000 l. in 72 Pieces of Gold, on a Dye of his present Majesty.

M. de Bussey, first Clerk of the Department for foreign Affairs, is expected here from France, to execute a Commission previous to the Meeting of the Congress.

All the general Officers, and others, who were at Paris, were ordered to set out the first Week in this Month for their Corps in Germany.

We hear that eight Men more will, in a few Days, be draughted out of each Company in the Three Regiments of Foot Guards, in order to be sent to Germany.

May 12. They write from Brussels of the 4th, that the reiterated Enterprize of the English upon Belleisle, just at the Time that a Congress was agreed on, and they were treating about a provisional Suspension of Arms, seemed to have alienated the pacific Disposition of the Court of France; and that a Courier, whom the Duke de Choiseul dispatched on the 24th ult. to the Prince de Gallitzin the Russian Ambassador at London, was charged with a Letter to that Lord, praying him to inform the British Ministry, that their Manner of Proceeding, in the present Circumstances, was not very proper to establish the Confidence which must be the Basis of all Negotiations; and the said Courier's Dispatches, they further say, tended to determine definitively, whether, during the holding of the future Congress, the Operations should be continued, or a Suspension of Arms take place before the 15th of May.

A very grand Equipage is preparing for Lord Egremont, who goes as one of his Majesty's Plenipotentiaries to the Congress of Augsbouurg. A fine State-Coach is making, and near finished, and there are purchased three Sets of the finest Horses that England can produce.

Some fine Brass Cannon, of very light Weight, are finished in the Tower, and preparing to be sent into Germany. There are likewise two grand Pieces, forty-two Pounders, now curiously engraved, with the Arms and Titles of his present Majesty, with many curious Devices, and the Arms of Lord Ligonier.

Eight beautiful Horses, all brought up in this Kingdom, are now training up here for the Use of General Yorke, in his Embassy to the Congress at Augsbouurg.

It is said several Officers of the Customs in London, who have accepted of superior Places in the Custom-House at Quebec, together with many private Families, a Reinforcement of Troops, and a great Quantity of military Stores, will shortly sail for that Place; as will several other Families and Stores for Guadaloupe.

ST. JAGO DE LA VEGA (Jamaica) May 30.

On Tuesday arrived from a Cruize his Majesty's Ship Trent, John Lindsay, Esq; Commander, and brought in with her a French Polacca outward bound, with a Cargo of Wine and Dry Goods.

The same Day arrived the Brigantine Prince of Wales, from Virginia, which was taken in her Passage by a French Privateer, of six 9 Pounders, 12 Swivels, and 60 Men. Nine Frenchmen were put on board the Brig, to conduct her into the Cape: But Mr. Archdeacon, of Kingston, who with two other Englishmen were left Prisoners on board, took a favourable Opportunity of attacking the nine Frenchmen, and quickly obliged them to take to the Boat, then gave them some Provisions, and made Shift to navigate the Brig safe into Port, after she had been five Days in Possession of the Enemy.

June 6. On Sunday arrived the Othello, Captes, from Africa; and the Hawk private Ship of War, Capt. Brown, from a Cruize, having taken several Prizes.

June 20. Last Saturday arrived in a Flag of Truce from Hispaniola, Captains Hamilton, of the Lady Juliana, Creighton, of the Shirley, Deverfon, of the Thomas, belonging to London; Captains Whitlow, of the Cunliffe, and Cook, of the Brig George, belonging to Liverpool; being Part of the last Fleet from Cork, taken by two French Frigates, of 32 and 34 Guns, off Porto Rico, the 20th of April last, and carried into Port Louis.

Also came down in the said Flag of Truce, Capt. Keiling, of the Snow Prince Ferdinand, belonging to New-York, taken coming from Coracoa by a

French Privateer of 14 Guns: And Captain M'Gulpin, Commander of a Carolina Vessel.

The abovementioned Vessels from Cork were unloaded by the French at Port Louis with the utmost Dispatch, and their Impatience to make speedy Sale of the Cargoes, induced them to sell Mefs Beef, Tongues, &c. at a Pistol a Barrel; being, it is said, in great Fear of some of our Men of War going in there.

On the 3d Instant sailed from Port Louis, two French Ships of the Line, and the two Frigates abovementioned, deeply laden with Indico for Old France: They cruized off the Port all Day, and in the Night bore away. Many Persons have conjectured, that these Vessels intend to intercept our Fleet homeward bound, of whose precise Time of sailing they long had Notice. The French Commodore communicated in Confidence to a Gentleman since arrived here, that he had Orders to cruize in the North-American Passage six Weeks. This, however, is looked upon as a Finesse, and it is supposed that they went round the Cape to join other Vessels ready to sail, and would make the best of their Way home, without looking for Prizes, as they were so deeply laden.

On Tuesday arrived at Port Royal his Majesty's Ship the Centaur, Arthur Usher, Esq; Commander, and brought in with her a French Ship named the Sainte Anne, pierced for 60, but carrying 40 Guns, with 350 Men; taken by the Hampshire and Centaur on Sunday last, bound from Petit-Guave to Brest, laden with Sugar, Indico, &c. esteemed worth 80,000 l.

CHARLES-TOWN, (South-Carolina,) June 27.

No Advices have been received from the Army commanded by Colonel Grant since the 13th Instant, which were dated the 5th: But there are some Letters this Week from Fort Prince George, and of the 12th, which mention the whole crossing Keowee River, and marching forward early in the Morning on the 7th (Lieut. Col. Laurens with them) leaving there only 120 Invalids, in Lieu of the old Garrison, with Capt. John Campbell, of Col. Burton's; since which no more Intelligence had been received from or concerning them, than if there was no Army in the Country, altho' some Cherokees daily passed and repassed to and from the Fort, where Capt. Mackintosh still commands. The Indians who surrendered themselves, and obtained Col. Grant's Permission to plant at Keowee, remained quiet there; they exceeded 100, with very few Men amongst them, but the Tale of Estatowih was of the Number.

Twelve Indians, said to be Creeks, are just come to Town, but their Errand is supposed to be of no Consequence. Perhaps they are only come in Expectation of some Presents, which is the general Business of that Nation.

Col. Byrd, with 1000 effective Men, besides Officers, is said to have marched the 15th of last Month from Augusta County in Virginia, to meet Col. Grant in the Cherokees Country.

July 4. The Indians who came to Town last Saturday are still here; they are Creeks.—For want of an Interpreter their Business is not known.

July 11. Letters received from Augusta, dated the 30th ult. advise, that most of the Chicasahs who went from thence in April and May last, to join the Army commanded by Colonel Grant, on the present Expedition against the Cherokees, had returned thither some Days before, and brought in two Indian Scalps, which they pretended to have got by surprizing a small Town in the Cherokee Nation: And that they reported as follows, "That on the fourth Day of the Army's March from Keowee (say 10th of June) they were attacked by the Cherokees, who fired upon them, unless, from Morning till Noon, killed 24 Men, and wounded 55 more; but that the Rangers being ordered to surround the Place whence the Smoke was perceived to issue; most of the Cherokees in that Ambuscade were either cut to Pieces by them, or tram-

pled to Death by their Horses. That upon the
of the Enemies fled, and were pursued by
... who had burnt seven Towns in the
... destroyed all the Provisions he
... and turned the Horses into the Hills to eat
... growing Corn: That they remained with
the Army three Days after the Action, during
which there had been no firing on either side;
... Colonel Grant was preparing to move
forward.

According to the same Letters, it was no longer
a Doubt by whom Thompson the Trader was killed,
near Butler's Creek. Two Lower Creeks,
of the Coweta, committed the Murder, and carried
the Plunder openly into their Towns. The
Young Twin's elder Brother, by name Wife of
Melachia, was one of them; the other was a
fellow who about the Time of Thompson's setting
out from Augusta, had the Impudence to bring
back the Holen Beak, and demanded a considerable
Reward; which Mr. Rae refusing to give, and
cursing the Horse to be taken next Day, the Indian
went away in a very ill Humour. On his Return,
he, with the Twin's Brother met with Thompson,
killed him, and took his Goods; and on his Arrival
in the Coweta Town, publicly declared,
that he had committed the Murder and Robbery,
by Way of taking Satisfaction for the Affront he
had received. The bringing the Plunder openly
into the Coweta Town, obliged the Headmen to
take some Notice of it, which otherwise they probably
would have avoided; and accordingly, we
hear, they have sent a Talk either here or to
Georgia, expressing great Concern at what had
happened, seeming it the Issue of a drunken Frolic,
and desiring it may be passed over and forgot,
and that the Trade may be kept open and continued
as usual.—One Letter mentions, that the
Young Twin being informed of this Affair at Mr.
Galpin's, at Silver-Bluff, immediately dispatched
two Fellows to the Cowetas, to put the Murderer
to Death—if they chuse to catch him.

Last Sunday Morning an Express arrived from
Fort Prince George, with Letters dated the 25th
ult, confirming the Accounts which had been received
the Day before from Augusta with little
Variation. These mention 20 Chickasaws and two
Catawas returning thither from the Army on the
15th, and reporting there nearly the same as at
Augusta; but observe, that the Scalps they had
were more likely to be those of two Cherokees,
who had crossed Keowee River a few Hours before
they arrived, and in the Way that they came.
At Fort Prince George they had heard nothing of
the Army since it moved from thence, but what the
Indians reported; and from their Reports it was
supposed there had been some Skirmish, at the
beginning of which these People ran away. The
same Letters assure, that Colonel Grant had up
wards of 40 Days Provision with him, for a greater
Number of Men than the Army consisted of;
and intimate, that no News from his Head Quarters
was expected in less than ten Days. It was
supposed, that after destroying the Towns in the
Middle Settlements, Colonel Grant would proceed
to the Valley, and destroy the Towns and Provi-
sions there.

BOSTON, July 20.
We hear from Halifax, that on the 22d and 23d
of last Month, His Majesty's Forces in Garrison
there, with the Corps of Engineers, and that Part
of the Provincial Troops lately arrived from Boston,
encamped on the Common and the neighbouring
Ground, to be ready for proceeding on his Majesty's
Works.

We hear from Newport, Rhode-Island, that
on Thursday last a sorrowful Accident befel a poor
labouring Man on board a Vessel where they were
hoisting out Sugars, a Hopshead split from the
Tackle just as they were receiving it from the Vessel
on the Wharf, struck the poor Man on the
Bread, and so bruised him, that he expired in one
Hour after.

Last Thursday Afternoon arrived here the Ches-
terfield Man of War of 50 Guns, Capt. Scarfe,
with two large Storeships from England.—The
Chesterfield left Torbay the 25th of May, having
under her Convoy three Mail Ships, the above
Storeships, and 10 or 12 sail of other Vessels
bound to North-America; and Yesterday the Man
of War with one of the Storeships sailed for Hal-
ifax, the other, it is said, is bound to New-York.

A Vessel arrived at Charlestown last Friday in
16 Days from Newfoundland: She brings Advice,
that Mr. Winthrop had a fine Observation of the
Transit of Venus, the 6th of June last.

We hear that the Massachusetts Sloop, on board
of which was Mr. Winthrop, was arrived at Hal-
ifax, on her Return from Newfoundland.

NEW-YORK, July 23.

On Monday Afternoon the Top of the Steeple
of the new Dutch Church in this City, was struck
with Lightning, which beat off some of the Shingles
in the crooked Course of its Direction, and set the
Building on Fire, but it was immediately extin-
guished, and the Damage was very inconsiderable.
It is said this is the third Time this Church has
been struck with Lightning—probably occasioned
by its Situation.

The same Evening a Farmer's Barn, near Ten
Mile Run, in New-Jersey, with a considerable
Quantity of Wheat, and other Grain, being all
his Harvest, was set on Fire by the Lightning,
and intirely consumed. Also a House was struck
near Hell-Gate, which split a Beam in the Cellar,
but no Person was hurt.

The same Day the Sloop Marquis of Granby,
Captain Smith, arrived here in about four Weeks
from Quebec, with Clothing for General Am-
herst's Regiment. By him we have an Account of
three Men of War and a Tender, sailing in the
River, off the Harbour's Mouth.

July 27. Thursday last Capt. Robert Rogers
embarked for South-Carolina, to take upon him
the Command of Captain Demere's Company of
Rangers.

A Letter from Dominica, dated June 11, 1761.

Lord Rollo, in the Sutherland, with our
Transports, one of the Highlanders, and one of
the Royal Welch, arrived at Guadaloupe the 3d
Instant, which was the Place of Rendezvous; and
the next Day we were ordered for this Place, with
three Men of War, and 300 Men of the 4th Re-
giment from Guadaloupe, to take Post here, which
we did on Saturday last, with the Loss of two
Men killed, and four wounded.

Friday last Part of the 40th Regiment came
down from Albany, and encamped on the East
End of Staten-Island. As did also Part of the
First Battalion of Royal-Americans. And,

On Saturday another Body of his Majesty's
Forces came down from Above, and encamped at
the same Place.

We learn by Letters from Albany, that Sir
William Johnson was to set out for Fort De Troit
about the first Instant, the better to confirm the
Indians there in his Britannic Majesty's Interest.

Part of a Letter from on board the Letter of Marque
Brig Peggy, Capt. Basset, of Philadelphia, dated
Bermuda, June 26, 1761.

We were obliged to put in here the 22d In-
stant, to rest, having been tore almost to Pieces
by a French Privateer Sloop of 12 Guns, and
120 Men, on the 12th inst, about 25 Leagues
S. E. by S. from Cape-Henlopen: At 7 o'Clock
in the Morning we engaged each other (the Sea
smooth, and light Wind) which continued till
Twelve, when Monsieur found himself obliged to
sheer off, considerably damaged, which we could
observe, besides her being a long Time before she
was able to make sail. After the first Broadside,
the Frenchmen hoisted his bloody Flag, and fought
under it the whole Time; three Hours of which
was within Biscuit Chuck. A great Number of
Shot went through our Sides, our Sails and Rig-
ging being like Ribbons, notwithstanding which
we had but one Man wounded, and he is likely
to recover, out of only 16 that were our Com-
plement.—We sail from hence the first of July.

PHILADELPHIA, July 30.

Saturday next, we hear, his Honour the Go-
vernor sets out for Easton, in order to hold a
Treaty with the Indians; where there are a great
Number of the Onondagoes, Cayugas, Nanti-
cokes, Conoys, Tuteloes, Mohiccons, Shawanese,
and Delawares.

Tuesday last arrived here the Royal Anne, Cap-
tain Canton, from Bermuda, with whom came
Passenger Captain Robinson, late of the Sloop
Betty, of Wilmington, bound to St. Christophers,
but was taken the 23d ult. by a Brig of 10 Guns,
in Lat. 35: 37 N. Long. 71: 38 W. which Brig
was taken by a French Sloop of 14 Guns, and
made a Privateer of by her. They had before
taken Captain Scott, in a Ship from Glasgow
to Norfolk in Virginia. And some Days after
they took Captain Cooper, in a Sloop from
Madeira for Bermuda, and a Sloop for Rhode-
Island from the same Place; also a Schooner
from Rhode-Island for Jamaica; which they un-
loaded, and gave to the Prisoners, in which they
went to Bermuda. Into the Rhode-Island Sloop
the Enemy put eight Frenchmen, and left four of
her own Hands on board, who took an Opportu-
nity of killing six of the French, and wounded
the other two so badly, that they got Possession
of the Vessel, and were returning with her, but
unluckily fell in with the Privateer they had been

fallen by, which obliged them to take to their Boat,
and in it they got safe to Bermuda, after being
five or six Days at Sea, and little or nothing to eat,
having thrown every Thing overboard, in order to
lighten her, being closely pursued by the Privateer's
Barge, which kept a constant Fire upon
them from their Small Arms.

On Tuesday Night came up here Capt. Albo-
y in the Sloop Lovely Jane, bound to Madeira from
Bermuda, but was taken the 15th Instant, in Lat.
32: 53, Long. 63, by a French Privateer Brig of
14 Guns, and 200 Men, which had also taken the
following Vessels, viz. A Sloop from Madeira to
St. Christophers; Captain M'Cun, in a Ship from
Glasgow to Virginia; The Snow Lavin, Captain
Caldwell, from Liverpool, and the Snow Nancy,
Captain Graham, from Bristol, both for this Port.
A Snow from Maryland for Jamaica, ranomed,
A Sloop from Virginia to Antigua; A Schooner
from Virginia; and a Sloop from Rhode-Island to
Surrinam.—Captain Albo left the Privateer in
Lat. 38: 30, Long 55, the 14th Instant, and
brought about Fifty of the People from the different
Vessels with him.—The Sloop fell in with a
large Frigate built Letter of Marque Ship, of good
Force, from Jamaica, the Captain of which being
acquainted with what had happened, and the
Bristol Snow being then, it is said, in Sight, he
took Captain Graham and his Hands (15) on
board his Vessel, and bore away, to endeavour to
re take her.

ANNAPOLIS, August 6.

We have a certain Account, that the Ship *Alce*,
Captain Brailey, from Bristol, with Convicts, for
this Province, is taken by a French Privateer, and
carried into Havane.

On Friday last was Executed in Calvert County,
a Mulatto Fellow named Roger, for breaking open
the Store of Mr. James Weems, senior.

On Tuesday last Week, a Blacksmith's Shop,
belonging to Joseph Hollowfield, near Bell-Sir, was
Fired by Lightning, and burnt down, and an ad-
jacent House, wherein was his Crop of Grain.

And on Tuesday last, an House wherein was the
Grain of Mr. Edward Steward, junior, in the
Fork of Patuxent, about 3 Miles due East from
the above Place, was likewise Fird and Consum'd
by Lightning.

RELIGION, the crowning Excellence of intelligent Nature, claims the Approbation and close Attention of every reasonable Being, who expects future Bliss. We are bound from Principles of Gratitude and Interest to promote the Honour and Worship of the supreme Mind, as necessary to our own Prosperity, the Good of Society, and future Happiness of Man. Animated by these interesting Motives, we, of the Presbyterian Persuasion in this Town, desire, not from Party Views, but from real Principle, to purchase a Lot of Ground to erect a decent Church for Divine Service, in which we may worship GOD according to our Consciences. Upon Enquiry we find ourselves as yet insufficient to raise such a Sum as is necessary to accomplish such an important Design, beg Leave therefore to solicit the Generosity of our Fellow-Christians to assist and encourage us in completing a small Lottery, at a Time when the Penevolence of our Countrymen is so well tried in this Way. We hope our Claim to the public Attention is equal to any that has solicited their Notice, and humbly expect that we shall meet with general Encouragement.

HAGUE, May 19.

THEY write from Saxony, that the King of Prussia was arrived with his Army upon the Frontiers of Silesia, on the 10th Instant, without any Impediment or Molestation from the Enemy, and that General Lascy followed his Majesty at a Distance. Prince Henry continued in his Camp at Schlettau and Kutzenhausen, and Marshal Daun in his at Plauen: That upon General Hulsen's having quitted Freyberg, and the Austrians taking Possession of it, Colonel Kleift had been detached to dislodge them from thence; upon whose Approach they retreated, and repass'd the Moldau with Precipitation. Colonel Kleift brought back to the Camp 84 Prisoners, and above 100 Horses. [London Gazette.]

Amst'rdam, May 21. We are in a very untoward Situation. If we favour one Side, we are threatened by the other; and the most steady and uniform Conduct cannot secure us from Threats of Resentment by one or other of the Powers engaged in the War; and what adds to our Misfortune, is, that we know not where it will end. We are indeed every Day flattered with Hopes of Peace, but fear those Hopes will deceive us: Every Appearance around us carries the Face of War; and it is probable that this Campaign will be the most bloody one we have yet seen. The Powers at War have indeed appointed a Congress to be held; all we know is, that such Proposals have actually been made and accepted; but the Accounts to be settled are of so intricate a Nature, that it will be difficult to adjust them.

London, May 26. Letters from a Gentleman in the Expedition against Belleisle, to his Friend, dated May 11.

"Amidst the confused Noise of a Siege, the Whistling of Shot, the Bursting of Shells, the Volleys of small Arms, Drums and Fifes, &c. &c. I have selected this Opportunity of telling you, I am well, though fatigued and harassed to Death. The Island is all our own, except Chateau Palais, a d--d strong Fortification. Our first Landing was repulsed with the Loss of 460 Men, killed, wounded, and taken Prisoners; our second was effected with a small Loss. Skirmishes have frequently happened since, attended with some Loss of Men, though we always gained our Point; a Fortnight more, and we hope to see the English Jack flying on the lofty Battlements of this Grand Castle. We expect the French Fleet hourly, consisting of Seventeen Ships of the Line: Let them come, and we'll give them the same Reception Monsieur Confians met with almost in the very same Place. Adieu, I am now summoned, am yours, &c."

Ten Transports, with Troops on board for Belleisle, are sailed from Spithead.

Extrait of a Letter from Portsmouth, May 19.

"On Wednesday arrived at Spithead, the Edgar and Hampton Court Men of War, with 25 Transports under Convoy from Belleisle. We hear our Forces have got within 50 Yards of the Citadel."

"At Spithead, Admiral Geary, with Twelve Men of War."

We are assured, by Letters from Plymouth, that Lord Robert Manners's Regiment embarked there last Wednesday Morning, for Belleisle.

Since the English have been on Belleisle, the Governor of it has received only one Letter, which the French found Means to convey by a single Person in the Night, in an open Boat.

The Allied Army was ready for Action the 12th of May. Letters from Nantz (after representing Belleisle as lost) say, that they are under great Apprehensions in that City, as they imagine that the English intend to fortify themselves in Belleisle, and make it a Place of Arms; and afterwards attack Port L'Orient, or some other Place on the Coast.

Yesterday Forty-five large Transports were taken up into the Government's Service.

A Train of Artillery, with a Detachment of the Royal Regiment, will march in a few Days from Woolwich, to embark on the second Expedition.

We hear that the Men of War at Portsmouth, designed for a second Expedition, will be ready to sail before the End of this Month.

It is computed, that since the French have been prevented Filling upon the Banks of Newfoundland, the Produce of that Fishery hath increased to the Subjects of Great-Britain near a Million and an Half Sterling.

From the Hague they write, that they had received Letters from London, dated the 8th Instant, which ran thus:

"Frequent Councils are still held, on the Means of accomplishing a general Pacification; which it is feared, will encounter many Obstacles. Some Time ago it was thought, that if a Reconciliation between the King of Prussia and the Emperor Queen should not be brought about, that would not hinder the restoring a good Harmony between our Court and France; but at present a very different Language is held.

Baron Kniphausen, the Prussian Minister, hath represented, in such a pathetic manner, the close Engagements between this Court and that of Berlin, and brought such strong Reasons against the Inefficacy of a separate Peace, that Mr. Pitt hath told him, that he might assure the King his Master, that whatever advantageous Conditions should be offered at the Congress, this Court would not listen to them, unless his Prussian Majesty was included in the Treaty. This Declaration, joined to the firm Resolution taken, not to restore an Inch of Land in North-America, is but a bad Omen of a speedy Peace."

On Wednesday Evening, at Capt. Scrope, dispatched from Belleisle, was coming up in a Boat from Spithead to Portsmouth, in a hard Gale of Wind, with two Lieutenants, and another Gentleman, the Boat overset, and the Officers and Gentleman were drowned, but Captain Scrope was saved by swimming till a Boat providentially took him up, and brought him safe to Land.

'Tis now said the French have offered to give up all Canada, with Guadalupe and the Neutral Islands, provided our Court will consent to restore Senegal, and not oppose their taking Possession of the Austrian Netherlands. All other Conquests to be reciprocally restored, and the French to be paid for their Shipping taken before the Declaration of War. The Article relating to the Austrian Netherlands, is that which at present gives the States of Holland great Uneasiness, and causes their holding frequent Deliberations, in order, if possible, to hinder its taking Effect.

Yesterday at Noon Captain Scrope, of the Hampton-Court Man of War, arrived Express at the Admiralty from Belleisle, with a Journal of the Proceedings of our Troops against Palais. General Hodgson having driven the French out of their strong fortified Camp, they were retired into the Citadel; and the General had opened several Batteries, which were playing with great Success, and he hoped to be Master of the Place in a few Days.

Colonel Crauford, and two Aid de Camps, being out in the Night on a reconnoitring Party, had the Misfortune of falling in with a Party of the French, and were taken Prisoners.

The French had not received the Succours at Belleisle, as was reported.

By Advices from Holland, we are informed, that the General, the Intendant, and the Mayor of Guadalupe, at the Time of our taking it, have all been shot on board a French Man of War, pursuant to the Sentence of a Court-Martial, for giving up the Place.

A strong Squadron of Spanish Men of War cruizes constantly on the Coast of Algiers, which has obliged that Republic to recal most of their Cruizers. It is said his Catholic Majesty solicits all the Italian Princes to join their Naval Strength to his, without Delay, in order to give such a Reception to the Ottoman Fleet, upon their first Appearance, as may destroy their Hopes of making any Figure at Sea.

All our golden Hopes are vanished, and the pleasing Prospect of an approaching Peace is intercepted, and almost choaked up, by as many Difficulties and Inventions to make that Declaration void, and of none Effect, as there are Powers at War. The Partizans of each Power accuse their Opponents of Prevarication and Insincerity, and wreck their Genius to furnish Excuses for their respective Sovereigns. The Empress Queen retards the pacific Measures, to which she would seem disposed, by requiring an Indemnification for, and an Evacuation of, Saxony, by his Prussian Majesty; well knowing, that such a Preliminary cannot be complied with, unless that King, whom her Envy and Ambition had devoted to Destruction, would expose himself entirely to her Mercy. The French, proceeding upon a similar Plan with their Austrian Confederate, appear altogether desirous to put an End to a War, which has impoverished their Mother-Country, lost their best Plantations in America, and their richest Settlements in Asia and Africa, and ruined their Navy and Trade. But we are told, that this ruined People are so infatuated with false Notions of superiority over their Conquerors, that they signed the Declaration of their pacific Intentions, purely with a View to prevail with Great-Britain to consent to a Cessation of Hostilities for six Months by Sea and Land. [Some People say, this is the Design of M. de Buffly's Visit.] During which Interval they might be able to repair the shattered Remains of their Navy; send powerful Supplies to Martinico, and to their Indian Friends on the Continent of America, and particularly to reinforce their Armies, and replenish their Magazines in Germany; without which they are in no Condition to maintain their Ground against the British Allies.—A little Time will shew whether we shall have the Steadiness to withstand French Chicanery, with its Attendants, &c.

Extrait of a Letter from Portsmouth, May 25.

"Last Night arrived the Fly Sloop, Capt. Gayton, with an Express from Belleisle, which, we are told, brings an Account, that the Garrison had made another sally, but were repulsed by our Marines, who pursued them closely, as to enter the Town with them, and gallantly sustained their superior Force till a Reinforcement came up. We are now in Possession of the Town, and it is thought the Citadel will soon surrender. Capt. Caruthers, of the Marines, was wounded, but we hear not dangerously. We have cut off their Communication from a large Reservoir of Water, which they had strenuously defended. Our Troops are all in high Spirits."

The Outworks of the Town of Palais, attacked and carried by our Troops on the 13th Instant, were defended by near a Thousand Men and 22 Pieces of Cannon. The French lost above 300 Men, and all their Cannon, which were turned against the Town. Our Loss amounted to about 150 in Killed and Wounded.

We are now assured, that after several spirited Messages between General Hodgson and the Governor of Fort Palais, relative to the English Prisoners who were exposed to our Fire, it is at length settled, that they shall be shipped on board of some Transports in the Road, and their Fate to be determined by that of the Place.

Saturday last M. Buffly was said to be landed at Dover, and Yesterday Morning Hans Stanly, Esq; set out for Dover; the same Ship, we hear, that brought over M. Buffly, is to carry Mr. Stanly to Calais.

One Advantage reaped from the Attempt made on the Island of Belleisle, is, that the French have been obliged to detach no less than 15 Regiments from their Armies in Germany to line their Coasts, to prevent any other Attempts of our Troops upon them.

Admiral Hawke and Lord Howe, we are informed, are appointed to the Command of another Expedition Fleet fitting out at Portsmouth, and which will be ready to sail in a few Days, destined to act against the Enemy's Coasts, in Concert with our Squadron at present off Belleisle, under the Command of Commodore Keppel.

They are going to be carried to Rome, and were at first put into Irons, when they were glad of that opportunity of proving the Truth of their Mission by breaking their Irons asunder. They say that

CHARLES-TOWN, in South-Carolina, July 15. Col. Grant's Head Quarters, near Fort Prince George, Friday, July 10, 1761.

"On June 7th, we marched from Fort Prince George, near 2600 Men strong, including Pack-horses, who were mostly all armed, with a Line of Pack-horses, &c. amounting to upwards of 700, and with upwards of 400 Head of Cattle. The 21st and 22nd, we made forced Marches, to get thro' two dangerous Passes, which was done without a Shot being fired at us. The 20th, early in the Morning, we moved from our Encampment near Estate Old Town; and before the Rear had got entirely off the Ground, our Cattle-guard was fired upon by a few Indians, who kept at a considerable Distance, and did no Hurt. Finding Indians round us was no Surprise to any one Person in the Line; for the whole were convinced that we should have an Action that Day: Indeed the Corps were ordered to load that Morning for the first Time, and it seemed as if the Colonel had fixed that for the Day of Action. About half an Hour after Eight, our Indians discovered a Body of the Enemy on our Right Flank; a good many Shots were exchanged, and the Choakers, tho' numerous, gave away. An Enemy Indian was killed and scalped, ours sustained no Loss at that Time. The Indian Whoop went directly after from Front to Rear of the Line on both Flanks, and then the firing, which lasted till 12 o'Clock, became a little more serious. The Light Infantry who were in Front, were fired at from a great Distance, and no Hurt done to any of that Corps, but one private Man, who was slightly wounded. The succeeding Corps suffered more, and the heaviest Fire from the Enemy at last seemed to fall upon the Rear. The Troops behaved with great Spirit and Coyness, and by the heavy Fire of their Platons, dislodged the Enemy from the advantageous Posts which they had taken Possession of, and that too with very considerable Loss, as appears from the Declarations of the several Prisoners since taken by us; and by what appears still a stronger Proof, their never attempting to give us any Opposition since. Popping Shots continued till two o'Clock, when the Enemy thought proper to retire. The Ground they had taken Possession of, was really well chosen, and inaccessible to us, who had an incumbered Line of March, of more than two Miles in Length. Considering the Duration of the Action, our Loss is very inconsiderable; Ensign John Monroe, of the 22d, who was dangerously wounded last Year, with Ten more of the Line, were killed; Ensign Knight, of the Royal, Lieutenant Barber, and Ensign Campbell, of Colonel Burton's, and Lieutenant Terry, of the Provincials, with 48 of the Line, are wounded; Some Horses were killed, and we were obliged to throw some Bags of Flour into the River, for want of Horses to carry it up, as the Pack-horses could hardly be forced back for their Loads, many of which they threw off, to facilitate their Escape, for they were a little frightened. A little after three o'Clock our wounded were dressed, and Carriages provided for them, and the whole Line marched on to Etchberry that Night; 1000 Men were left under Colonel Middleton's Command, to take Care of the Wounded, and our Provvisions, while Colonel Grant, with the Regt, marched on at 10 o'Clock Night.

SHIPPED by Messieurs Hanbury on board the America, Capt. John Lewis, a Box and a Bundle for Mr. William Wilkinson; which are left with Mr. John Clapham, Merchant, at Oxford, who will, on Receipt of a Letter from that Gentleman, inform him where he resides, forward them to him by the first Opportunity. *John Lewis*

RELIGION, the crowning Excellence of intelligent Nature, claims the Approbation and close Attention of every reasonable Being, who expects future Bliss. We are bound from Principles of Gratitude and Interest to promote the Honour and Worship of the supreme Mind, as necessary to our own Prosperity, the Good of Society, and future Happiness of Man. Animated by these interesting Motives, we, of the Presbyterian Persuasion in this Town, desire, not from Party Views, but from real Principle, to purchase a Lot of Ground to erect a decent Church for Divine Service, in which we may worship GOD according to our Consciences. Upon Enquiry we find ourselves as yet insufficient to raise such a Sum as is necessary to accomplish such an important Design, beg Leave therefore to solicit the Generosity of our Fellow-Christians to assist and encourage us in completing a small Lottery, at a Time when the Benevolence of our Countrymen is so well tried in this Way. We hope our Claim to the public Attention is equal to any that has solicited their Notice, and humbly expect that we shall meet with general Encouragement.

Art. 2. Two covered Waggonns shall be provided, and the Effects which they carry shall be deposited in two covered Boats, which are not to be visited.

Art. 3. Vessels shall be furnished for carrying the French Troops, by the shortest Way, into the nearest Ports of France, by the first fair Wind.

Art. 4. The French Troops that are to embark, are to be victualled in the same Proportion with the Troops of his Britannic Majesty; and the same Proportion of Tonnage is to be allowed to the Officers and Soldiers which the English Troops have.

Art. 5. When the Troops shall be embarked, a Vessel is to be furnished for the Chevalier de St. Croix, Brigadier in the King's Army, to M. de la Ville, the King's Lieut. to Monsieur de la Garique, Colonel of Foot, with Brevet of Commandant, in the Absence of Chevalier de la Croix, and to the Field-Officers, including three of the Artillery and Engineers; as also for the three Pieces of Cannon; as well as for the Soldiers of the Court Royale, to be transported to Nantes, with their Wives, Servants, and the Baggage which they have in the Citadel, which is not to be visited. They are to be victualled in the same Proportion with the English Officers of the same Rank.

Art. 6. After the Expiration of the Term mentioned in the first Article, a Gate of the Citadel shall be delivered up to the Troops of his Britannic Majesty; at which there shall be kept a French Guard of equal Number, until the King's Troops shall march out to embark. Art. 7. A Vessel shall be furnished to the Commissaries of War, and to the Treasurer, in which they may carry their Baggage, with their Secretaries, Clerks, and Servants, without being molested or visited. They shall be conducted, as well as their Troops to the nearest Port of France.

Art. 9. M. Saringnon, Clerk of the Treasury of the French Troops, the Armourer, the Bourgeois Cannoniers, the Store-keepers, and all the Workmen belonging to the Engineers, may remain at Belleisle with their Families, or go to the Continent with the same Privileges as above mentioned.

[Thus far the Gazette Extraordinary.]

Prisoners. Major-General Crauford; Capt. Preston, and Lieut. Bruce, his Aids de Camp.

Lieut. Majoribanks, of Beauclerk's.—Capt. Gordon and Cope, of Crauford's Light Infantry.

On the above Occasion the Guns in the Park were fired at Half past Ten, and those at the Tower about Eleven, and at Twelve o'Clock on Saturday Night, Bonfires were lighted before the Admiralty and War-Office.

Ancona, May 22. A Venetian Frigate, commanded by Capt. Balovick, on meeting with an Algerine Xebec, near the Isle of Cyprus, whither she was going as Convoy to a Number of Merchant Ships, made a Feint, as if she wanted to avoid the Corsair. The Algerines immediately exerted themselves to overtake the Frigate, which they succeeding in, and every Thing being prepared for boarding, the Frigate, on a Sudden, poured in such a terrible Broadside upon them, as shattered the Xebec all to Pieces, and not so much as one Person on board escaped.

The Treaty lately concluded between the Courts of Berlin and Constantinople, is daily expected at Magdebourg. It is confidently reported, it contains a defensive Alliance between the said Powers, in Case the Court of Petersburg should presume to lay any Claims to Prussia, or detain the least Part of it; which it is thought, cannot interfere with the intended Congress, provided his Prussian Majesty settles his Differences with the other belligerent Powers.

Munster, May 23. Prince Ferdinand's Head Quarters are still at Newhaus, where he will remain some Time. According to all Appearance it should seem as if he waited for the Motion of the two French Armies, in order to regulate his Operations. The little Advantage he had for a Moment, as it were in Hesse, before M. Broglie's Army was assembled, is now pretty well over; at present the French have two Armies in Germany, the least of which is more than sufficient to intimidate all the Allies. We reckon that the first Proceedings of these two formidable Bodies will be to penetrate together into the Electorate of Hanover, where according to the Rules of Probability, the Enemy will not be able to make any Resistance.

Hague, May 30. A Courier who was dispatched from Petersburg to Prince Gallitzin, at London, undeceived us as he passed through this Place, with regard to the Rumour, that 40,000 Russians were detached from the Army to assist the Operations of the Austrians in Silesia; and we hear it marched towards the original Place of Destination.

Paris, June 2. The Loss of Belleisle, if that should happen, will serve only to animate our Court to make new Efforts. The King wishes for Peace, but he would have an equitable and safe Peace.—The Advantages which the Enemy may gain will not facilitate the Negotiations of a Peace. All the Reports of a Suspension of Arms are groundless.

Brest, June 2. The Squadron which is equipping here and at Rochefort, will be more formidable than has been imagined. The Court has sent Orders to add to the Men of War fitted out at Rochefort, the Tonant, and l'Orient, each of 80 Guns, the Northumberland of 70, and the two Prames, La Francoise and La Balthide. As the Diadem probably will not be got ready Time enough, the Protee, of 64 Guns, is to be substituted in her Place. The Vaillant, of the same Tonnage, and the Dragon, of 74 Guns, are already careened. The Hector, Le Palmier, and the Opale Frigate, of 30 Guns, Le Robuste, of 74, and l'Eveille of 64 Guns, which are in the Vilaine, will be careened this Week, and the whole Armament ready towards the Middle of this Month. M. de Blenc is to have the chief Command.

Frankfort, June 4. A Report has prevailed here for some Days past, that M. Brugio is going to detach 20,000 Men from his Army, who are to march into Saxony; but it is more probable that he will keep all his Forces together, in order to penetrate, if he can, into the Electorate of Hanover.

Hamburg, June 4. The People of Magdebourg are not a little apprehensive of a Visit from the French. The Garrison consists only of two Battalions and a Regiment of French Deserters, who watch every Opportunity to make their Escape, in order to avoid falling into the Hands of their Countrymen. They are therefore never suffered to do Duty in the Suburbs or on the Ramparts, but compose the Main-guard in the City, and occupy some other Posts, where they cannot get away.

Paris, June 5. Our Ministry are extremely attentive to the Object of the new Armament preparing in the Ports of Great-Britain; and as they presume that it may be intended against the Isle of Oleron, Orders have been just sent to the Troops dispersed upon the Coasts of Aunis and Saintonge, to hold themselves ready to pass over, on the first Notice, to said Isle.

Mr. Stanley has conferred twice with the Duke de Choiseul, who is in present him To-morrow to the King.

TO BE SOLD.

At the House of Mr. Samuel Middleton, in Annapolis, on Saturday next, being the 22d Instant,

CHOICE PARCEL of Healthy Seasoned NEGRO MEN.

Also, at XII o'Clock, to the Highest Bidder, the Sloop *Freemason*, Burthen about 90 Tons, or less, with all her Apparel, Standing and Rigging, Anchors and Cables, as they are. An Inventory may be seen at Mr. Middleton's on the Day of Sale. She is a prime Sloop, and well fitted for a Voyage.

S. GALLOWAY, and Company.

Fairfax County (Virginia) August 11, 1761.

RAN away from a Plantation of the Subscriber's, on *Dogue-Run* in Fairfax, on Sunday the 6th Instant, the following Negroes, viz.

Pross, 35 or 40 Years of Age, a well-set Fellow, of about 5 Feet 8 Inches high, yellowish Complexion, with a very full round Face, and full black Beard, his Speech is something slow and broken, but not in so great a Degree as to render him remarkable. He had on when he went away, a dark colour'd Cloth Coat, a white Linen Waistcoat, white Breeches and white Stockings.

Jack, 30 Years (or thereabouts) old, a slim, black, well made Fellow, of near 6 Feet high, a small Face, with Cuts down each Cheek, being his Country Mark, his Feet are large (or long) for he requires a great Shoe: The Cloathing he went off in cannot be well ascertained, but it is thought in his common working Dress, such as Cotton Waistcoat (of which he had a new One) and Breeches, and Osnabrig Shirt.

Nymane, aged 25 or 30, well set, and of about 5 Feet 8 or 9 Inches high, thin jaw'd, his Teeth are long and mild sharp, his Back, if rightly remember'd, has many small Marks or Dots running from both Shoulders down to his Waistband, and his Head was close shaved: Had on a Cotton Waistcoat, black or dark colour'd Breeches, and an Osnabrig Shirt.

Capit, 25 or 25 Years old, a black well made Fellow, 5 Feet 8 or 9 Inches high, round and full faced, with broad Teeth before, the Skin of his Face is coarse, and inclined to be pimply, he has no other distinguishable Mark that can be recollected; he carried with him his common working Cloaths, and an old Osnabrigs Coat made Frockwise.

The two last of these Negroes were bought from an African Ship in August 1759, and talk very broken and unintelligible English; the second one, *Jack*, is Countryman to those, and speaks pretty good English, having been several Years in the Country. The other, *Pross*, speaks much better than either, indeed has little of his Country Dialect left, and is esteem'd a sensible judicious Negro.

As they went off without the least Suspicion, Provocation, or Difference with any Body, or the least angry Word or Abuse from their Overseers, 'tis suppos'd they will hardly look about in the Neighbourhood, but steer some direct Course (which cannot even be guess'd at) in Hopes of an Escape: Or, perhaps, as the Negro *Pross* has lived many Years about *Williamsburg*, and *King-William* County, and *Jack* in *Middlesex*, they may possibly bend their Course to one of those Places.

Whoever apprehends the said Negroes, so that the Subscriber may readily get them, shall have, if taken up in this County, Forty Shillings Reward, beside what the Law allows; and if at any greater Distance, or out of the Colony, a proportionable Recompence paid them, by

GEORGE WASHINGTON.

N. B. If they should be taken separately, the Reward will be proportioned.

Annapolis, August 19, 1761.

AS I have not been able for some Years past to furnish Beaver Hats (occasioned by the Scarcity of Beaver) I hereby acquaint my old Customers and Others, That I can now supply them with Beaver, or any other Sort of Hats, as good and as cheap as can be bought any where else, for ready Money, or short Credit.

I can likewise furnish Gold or Silver Lace for Hats.

RELIGION, the crowning Excellence of intelligent Nature, claims the Approbation and close Attention of every reasonable Being, who expects future Bliss. We are bound from Principles of Gratitude and Interest to promote the Honour and Worship of the supreme Mind, as necessary to our own Prosperity, the Good of Society, and future Happiness of Man. Animated by these interesting Motives, we, of the Presbyterian Persuasion in this Town, desire, not from Party Views, but from real Principle, to purchase a Lot of Ground to erect a decent Church for Divine Service, in which we may worship GOD according to our Consciences. Upon Enquiry we find ourselves as yet insufficient to raise such a Sum, as is necessary to accomplish such an important Design, beg Leave therefore to solicit the Generosity of our Fellow-Christians to assist and encourage us in completing a small Lottery, at a Time when the Benevolence of our Countrymen is so well tried in this Way. We hope our Claim to the public Attention is equal to any that has solicited their Notice, and humbly expect that we shall meet with general Encouragement.

MARYLAND GAZETTE,

Containing the latest Advices foreign and domestic.

THURSDAY, August 27, 1761.

LONDON, June 16.

LAST Saturday came on, at Westminster Hall, a very remarkable Trial between a young Gentleman, Son to a certain great Nobleman, and a young Lady. The Action was brought for a Thousand Guineas, which the Gentleman had agreed to pay the Lady, or marry her, if she would grant him a Favour. The proper Securities being taken, and the tempting Fair one then complying, my Lord found himself, the next Day, so perfectly satisfied, that he could not think any more of Marriage, or entertain the least Thought of parting with his Money. Several Messages being passed in Consequence of this Breach of the Contract; the Lady at last determined to prosecute her Right in due Form of Law. Accordingly a Jury being impanelled, several Witnesses examined, and the Writing produced, it was decided Nov. 29. that though the young Peer had made a Bargain, yet, in Consideration of his having received, he was bound by the Laws and his own Hand-Writing, to make good the promised Sum; with some Discours besides, by Way of Recompence to the Lady, for having been obliged to lay her Cause before the Public.

On Monday the great Wager between Jennison Shaftoe, Esq; and Mesnel, Esq; about one Woodcock's riding 2000 Miles in 29 Days, ended at New-market, which was won by Mr. Shaftoe by several Hours.

Mr. Shaftoe is said to have laid a Wager that he rides 100 Miles in Four Hours; he is to ride what Number of Miles he chooses.

Jan 8. The Transit of Venus was on Saturday observed by many curious Gentlemen, with suitable Apparatus; by comparing Notes, it appears, that it differed very little from Dr. Halley's Computation; which shews the near Perfection to which astronomical Observations have arrived, and from thence what greater Usefulness may be expected; since it appears from the Observations, that at most Places, viz. one at the East, the other at the West of London, the Time of the absolute Emergence was at one of thirty-five Minutes three Seconds after Eight, and the other thirty-five Minutes seven Seconds after Eight.

They write from France, that under the Apprehensions of a Siege at Port l'Orient the Magazine and Effects of the 10th Company were removing from that Place.

By a List given in last Week, it appears that the Militia of this Kingdom already embodied, are 25,000, equal to Veterans.—An Army more than sufficient to defeat any Design the Enemy may attempt against this Country.

The following French-Turkmen have been taken and sent into Leghorn by an English Man of War, viz. the Ship of Joseph Fournier, John Joseph Chabroi, and Joseph Touraine, from St. John d'Acree for Marseilles; and the Joseph, Champion Master, from Marseilles, bound for Alexandria; being all very richly laden.

Five Transports, with English Troops on board, arrived at the Mouth of the Weser, from England.

Some Men of War and Transports are to sail the latter End of this Month for Quebec, with Troops and Stores.

There is no News from the East-Indies that can be depended upon; the India Company have had fresher Advices than what came by the last Ships; but it is supposed that Pondicherry was taken in January last.

Extract of a Letter from an Officer in Col. Mordaunt's Regiment, dated at the Camp before Pondicherry, Oct. 17, 1760.

"We arrived in India after the finest and most pleasant Passage ever known, and happily completed in the Space of four Months and seven Days; and tho' we called in at no Place of Refreshment by the Way, we lost not one Soldier of the whole 500 till we landed, which was the 4th of September. We lay at Cozalore one Day to rest ourselves, and the next marched 21 Miles to Camp, and having pitched our Tents, entered on our Duty with uncommon Alacrity. We had no Time to look about us, till we had an Opportunity of recommending ourselves to our Superiors. For, on the third Night after our Arrival, the whole Army moved to attack a very strong Post the French had, a Mile from Pondicherry, in a thick Wood, lined with Cannon, where we entered at different Places; and attacked the principal Batteries, consisting of seven 18 Pounders. There were several smaller Batteries, which kept an incessant Fire with Grape Shot, while we could not give them a Moment's Rest. When we came near, and had a full View of them, we made them single Ammunition, by a full Discharge of our Pieces. These we instantly threw down, off with our Pieces, and with our Swords, gave them three Huzzas, which they answered in the Muzzles of their Guns, which they let us in Possession of, by a precipitate Retreat into their Capital. Thus we got 17 Pieces of Cannon, tho' not without some Loss; but on our Side, and no wonder, for the loaded Guns we fired, were filled almost to the Mouth with loose Balls of Iron six Inches long, lesser Pieces of Iron Iron, &c. In short, they have abandoned all their Redoubts, and every Out-post belonging to them, and are now retired within the Walls of Pondicherry; but as to our further Success, I cannot say, as the Musicians have let us know, that there is not one Officer wounded but mortally, and that is slightly that I am quite recovered; and so, &c.

The Names of the Forts taken are, Carrical, a regular Fortification, with a Garrison, Chillimbrom and Vanchetlum, with a fortified Redoubt at each Angle.

They write from the Banks of the Oder, that the Russian Army had put itself in Motion in three Columns; the first is commanded by Field-marshal Butterlin, whose Vanguard is led by General Czernichef. It is said that this Corps will act against Silesia. The second Division is commanded by General Fermor, and is said to be destined for a private Expedition. The third Division, commanded by General Romanoff, will direct its Operations against Pomerania. Time will shew whether these Dispositions will take place. Mean while the King of Prussia hath detached some Thousand Men to cover the New Marche of Brandenburg from the Invasion of the Russians, in case they should turn their Arms that Way.

We hear that the Proposals which M. Buffi made our Ministry on his Arrival, for a Cessation of Arms for six Months, being unexpectedly rejected, he hath sent a Courier to his Court for fresh Instructions, how to proceed in his Negotiation.

They write from Hamburg, of the second Inst. that by Letters from Dantzick they had an Account that 36 Russian Transports, with Provisions and warlike Stores, were drove ashore and wrecked near that Place, in a violent Storm.

Private Letters from Berlin inform us, that the King of Prussia, before he set out for Silesia, held a grand Council with the Margrave Charles and his Ministers. He told them, That, tired out by the present destructive War, and moved by the Calamities it had brought upon Parts of Germany, he was absolutely determined to risk his All upon this Campaign, that it be the last. After this he declared to them his Intentions concerning the Succession to his Crown, and the Manner he would have his Estates governed, in case he should be cut off by a short Fit of Illness, or should fall in Battle.

It is now said that Sir Edward Hawke and Commodore Lord Howe, will most certainly sail with the Expedition Fleet in a few Days, on board which less than 10,000 are to be embarked.

A Camp is ordered to be marked out on Hounslow Heath. Orders are given to the Regiments that are to go on the next Expedition, to hold themselves in-Readiness to embark on the first Notice.

Extract of a Letter, dated September 26, 1760, in Sight of Pondicherry.

"We have here a Fleet of 15 Sail of the Line, and three Frigates, under the Command of Admiral Stevens, who blockades this Port by Sea, whilst the Army, Inveils the Town by Land with 3500 Europeans, and 7000 Sepoys, or Black Soldiers, who are entrenched before the Walls, having taken all the strong Out-posts of Villa Nova, Aracpong, and, in short, every Thing the French have, excepting one Place up in the Country, and their Capital, and confined the Enemy close within their Walls.

It was at the taking of Aracpong that Col. Monson had his Thigh broke; on which Col. Coote returned to assume the Command, being before ordered to Bengal, as Troubles still subsist in the Kingdom of Bengal, where the Shah Zadar continues to keep a formidable Army, notwithstanding the several Repulses he has met with from the English.

The Siege of Pondicherry will scarce commence 'til December, on Account of the rainy and stormy Weather, which always happens at the Monsoon Season of the Year, now near at Hand, which renders a Camp impracticable, so that our Troops will go into Cantonments during the Space of about two Months, into the Out-posts we have taken.

When our Operations commence, the Squadron will bombard the Town by Sea, whilst the Army presses it by Land.

Our Situation in respect to the Service of our Fleet is very critical, but Providence has wonderfully assisted us in every respect in India, and every Ship destined to these Parts with Troops is arrived safe; nor have we blockaded or besieged a Place that we have not taken; and had it not been for this kind Interposition of Heaven, the French, by being three Times our Number at the Beginning of the War, must have over-run the Country; of which Conquests they made no manner of Doubt.

The fortified Boundary, or Chain of Redoubts and Intrenchments which we carried by an Attack at Day-break, on the 10th of September, covered Pondicherry to the Land at about a Mile and a Quarter Distance from the Walls. In this Attack we had only forty killed, and about seventy wounded; Colonel Monson's Wound in the Beginning of the Action, it is thought, prevented some Advantages, which otherwise we might have availed ourselves of, from the precipitate and confused Retreat of the Enemy.

Our Army will open their Trenches and begin their Operations so soon as the Monsoons are over; and if the French receive no Reinforcements and Supplies, which they must attempt at the utmost Risk, and can get no way but by Sea in a tempestuous Season, we do not doubt but the Besieged will surrender, and when it is in our Possession, it is presumed, we shall blow up the Works, after the Example they set in the Instance of Fort St. David's. We likewise expect, after the Reduction of this Place, to finish with Mauritius. We daily expect the Chatham and Preston. Our Fleet and Army are in general healthy, and the whole

In admirable good Spirits. Captain Richard Hughes, of the Duke of Aquitaine, is gone to Madras for the Recovery of his Health. It is expected at a Peace, that two or three Ships will be left in India, to keep some of the Black Princes in Awe, that are inclined to give Disturbance and attach themselves to the French.

In regard to the Boat-Attack, take the following: On the 7th Instant, at Two in the Morning, we attacked with our Boats, a King's Frigate and an India Ship, called the Balcine and Hermione, that lay close under the Walls of Pondicherry; the Attack was made with Spirit, and the Ships brought off, notwithstanding the Opposition of the alarmed Ships Crews, as well as a very warm Fire from the Musquetry and Cannon from the Town, which are very numerous towards the Sea. The above Ships which had been blocked up some Time, got into this Port the Beginning of the Year, whilst our Ships were employed in reducing Carrical, near Negapatam, to the South of Pondicherry; and as the Season was growing very precarious, and the Enemy preparing to sail off the Coast, our Boats were ordered to burn or cut them out, they being secured by Cables and Hawkers to the Shore, which made the Enterprize more difficult. When the Garrison found our Men had boarded the Ships, they paid no regard to their own People, but directed all the Guns they could bring to bear upon the Captures. It is imagined the two Prizes will be commissioned for Cruisers. They are esteemed valuable, having a great deal of Treasure on board from the Town. In this Attack, Lieutenant Owen of the Sunderland lost his right Arm.

Another Letter, dated October 16, says, "Admiral Stevens and Cornish are going in a few Days, off this Coast to Tricomally during the Monsoons, which hold to December, and his Majesty's Ships America, Medway, and Liverpool, are to be left off Pondicherry, to prevent any Supplies being thrown in; which can only be attempted with the greatest Hazard by single Ships; and we are informed that both Treasure, Money, and Provisions, are much wanted in the Islands."

Extract of a Letter from Bombay, Nov. 20, 1760.

"Pondicherry is still blockaded by our Troops, and the Fleet under the Command of Admiral Stevens. Some of our Men of War's Boats have lately picked up two Dutch Boats going into Pondicherry, with upwards of 20,000l. in Cash, and some valuable Stores; It is said the Money came out in a Scoundrel's Boat. Two Dutch Ships are now going from hence to join the Fleet, the Place being so strongly fortified, that our Ships cannot lie within Gun Shot of the Fort. We have received Intelligence of eight Sail of French Ships being detained at Mauritius, for want of Provisions; the Sailors being at an Abundance of a Parcel of Bread a Day, were very outrageous, and daily plundered the Inhabitants, who were afraid to stir Fire in their own Defences, to prevent Consequences more dangerous."

Mr. Godfrey's Experiment for extinguishing Fire, was tried in the House erected for that Purpose, by the Society of Arts, &c. in Marybone Fields. The Duke of York, Prince William and Prince Henry, several Persons of Distinction, and a numerous Crowd attended on this Occasion. The House, which is of Brick, consists of three Rooms, one above another, a Staircase, Chimney, Lath and Plaster Ceilings, and a Kind of Wainscoting round the Rooms, of rough Deal. At 12 o'Clock the Ground Room, and that up one Pair of Stairs, were set on Fire by lighting Faggots and Shavings laid there for that Purpose. In about fifteen Minutes three of the Machines were thrown into the under Room (the Waincoat of which was then in Flames) which by their Explosion soon extinguished the Fire, and even the Smoke soon disappeared. The like Experiment was next tried with the same Success on the middle Room, the Staircase by that Time having taken Fire. And lastly, to remove all Doubt (the Populace beginning to be dissatisfied, and talking of a second Bottle Conjurer) Mr. Godfrey consented to a third Experiment in the upper Room, which was entirely of Wood. The Flames were now sufficed to get to a considerable Height, and even the Window Frames destroyed before the Machines were thrown in, which, however, answered as before. One Hundred and Forty of the Foot Guards attended on this Occasion.

BLOIS, THERE happened a very whimsical Affair on April 11. The 2d Instant at Toulouse, Four Savoyard Chimney-Sweepers, having finished every Thing in the Way of their Profession, and not having a Penny left to provide either Victuals or Drink, took a Resolution to lift, which they executed about six in the Evening. The Captain gave them two Louis d'Ors a Man, but thought it necessary, by way of Precaution, to lock them into an empty Kitchen, with several Flaggons of Wine. As long as the Liquor lasted they were quiet enough, but as soon as it was exhausted, they began to think of making their Escape. They were not long in settling that Point; there was a large Chimney before them, which they mounted with their usual Dexterity, and being fairly got to the Top of the House, they there held a Council of War, in which it was unanimously resolved to go down another Chimney. The first tumbled into a great Fire, out of which he jumped, covered with Soot and Dust, into the midst of the Floor, and was immediately followed by his three Companions. The Place happened to be a Gaming House, and the Opera-

...of the Apartment, taking their Assemblies for money, by starting out of the Fire, ran down Stairs as fast as they could, and left their Money, to the Amount of Twelve Hundred Livres, behind them. The Savoyards seized, and in an Instant removed the Chimney, and running over the Top of the House, descended again into their old Apartments, and at the Officer opened the Door to bring them down. The Officers offered him his Money again, with a reasonable Profit, which was at last fixed for 20 Livres. On the 10th of July, the Pelagos are now here, and are very much improved in their old Occupations. With a view to a regular Trade...

BOSTON, August 10.
By a Letter from Rocky-Point, in Cape Fear, North-Carolina, dated the 26th of May, we are informed, that they have had the greatest Rain ever known in those Parts. Fields of 120 and 200 Yards, laid, might have sailed over the Fields; many Persons were obliged to swim their Horses to return to their Dwellings, and in great Danger of being drowned. The People at Wilmington were obliged (many of them) to quit their Houses by Reason that the Water forced therein several Feet high. Great Damage has been sustained by the Deluge. The Rain continued 40 Days, in which Time the Sun was not seen.

By a Vessel arrived at Marblehead, from the West Indies, we have Advice, that Capt. Philip Lewis, of this Place, Capt. Harbour of Salem, and Capt. Foster of Cape Ann; all bound to the West-Indies, were lately taken by the Enemy, and carried into Martinico.

Gambier, of his Majesty's Ship *Burford*, Defendant. The Action was brought for Damages the Plaintiff sustained in Nova Scotia, by the Defendant's taking him by Violence from his Privateer there, burning his House, and detaining the Plaintiff unjustly on board the *Burford* 123 Days; when of

...of about Hours, a special Jury of Merchants gave the Plaintiff Eight Hundred Pounds Damages, and Costs of Suit. (This Judgment gives great Satisfaction to all his Majesty's Subjects in America, and increases their Esteem and Affection for their Mother Country, whose excellent Laws will not suffer any Injury to the Subject in the most remote Part of the British Dominions, to pass with Impunity; and against all military Officers, that they are accountable, at home, for every arbitrary Act of Power, even in the most distant Parts of his Majesty's Dominions.)

SOMETIME ago mentioned my Intention of striking a Parcel of small Notes, from SIX PENCE to HALF A CROWN each, to serve as small Money in Exchange, for my own Convenience and that of my Neighbours, provided no better Scheme was concluded on by the Gentlemen in Business; and as the Want of such small

Money is notorious, I have therefore ventured to Print a Number of such Notes, payable in Silver, at the Rate of Seven Shillings and Six Pence for each Bill, any of which shall be paid off in Silver on Demand, and the whole Notes called in, in less than 3 Years from the Date. All those who happen to be possessed of a Dollar's worth of these Notes, may have them exchanged for Dollars, by Mr. Robert Couden, and Mr. Nathan Hammett, junior, of Annapolis, Merchants. — By my Store-keepers, Mr. John Duwall at Queen-Anne, Mr. Samuel Lane at Pig-Point, Mr. George Hardy at Piscataway, Mr. Thomas Magruder at George-Town, or at my own House in Upper-Maryborough. If either the Legislature, or any Society of Gentlemen, can or will contrive a sufficient Quantity of small Money that will more effectually answer the Purpose, I will instantly call in all mine.

Whoever brings the Horse to the Subscriber near Port-Tobacco, or to Mr. Colmore Beant at Nottingham, shall have Twenty Shillings Reward.

5 THOMAS CONTEE.

Fairfax County (Virginia) August 11, 1761. RAN away from a Plantation of the Subscriber's, on Dogue-Run in Fairfax, on Sunday the 9th Instant, the following Negroes, viz.

Peros, 35 or 40 Years of Age, a well-set Fellow, of about 5 Feet 8 Inches high, yellowish Complexion, with a very full round Face, and full black Beard, his Speech is something slow and broken, but not in so great a Degree as to render him remarkable. He had on when he went away, a dark colour'd Cloth Coat, a white Linen Waistcoat, white Breeches and white Stockings.

Jack, 30 Years (or thereabouts) old, a slim, black, well made Fellow, of near 6 Feet high, a small Face, with Cuts down each Cheek, being his Country Marks, his Feet are large (or long) for he requires a great Shoe: The Cloathing he went off in cannot be well ascertained, but it is thought in his common working Dress, such as Cotton Waistcoat (of which he had a new One) and Breeches, and Ofnabrig Shirt.

Neptune, aged 25 or 30, well-set, and of about 5 Feet 8 or 9 Inches high, thin jaw'd, his Teeth stragling and fil'd sharp, his Back, if rightly remember'd, has many small Marks or Dots running from both Shoulders down to his Waistband, and his Head was close shaved: Had on a Cotton Waistcoat, black or dark colour'd Breeches, and an Ofnabrig Shirt.

Cupid, 23 or 25 Years old, a black well made Fellow, 5 Feet 8 or 9 Inches high, round and full faced, with broad Teeth before, the Skin of his Face is coarse, and inclined to be pimply, he has no other distinguishable Mark that can be recollected; he carried with him his common working Cloaths, and an old Ofnabrigs Coat made Frockwise.

The two last of these Negroes were bought from an African Ship in August, 1759, and talk very broken and unintelligible English; the second one, Jack, is Countryman to those, and speaks pretty good English, having been several Years in the Country. The other, Peros, speaks much better than either, indeed has little of his Country Dialect left, and is esteem'd a sensible judicious Negro.

As they went off without the least Suspicion, Provocation, or Difference with any Body, or the least angry Word or Abuse from their Overseers, 'tis supposed they will hardly lurk about in the Neighbourhood, but steer some direct Course (which cannot even be guessed at) in Hopes of an Escape: Or, perhaps, as the Negro Peros has lived many Years about Williamsburg, and King-William County, and Jack in Middlesex, they may possibly bend their Course to one of those Places.

Whoever apprehends the said Negroes, so that the Subscriber may readily get them, shall have, if taken up in this County, Forty Shillings Reward, beside what the Law allows; and if at any greater Distance, or out of the Colony, a proportionable Recompence paid them, by

GEORGE WASHINGTON.

N. B. If they should be taken separately, the Reward will be proportioned.

Philadelphia, August 6, 1761.

For the Encouragement of the BREED of FINE HORSES:

ON the 14th Day of October will be Run for, on the Race Ground called the Center of this City,

A Purse of FIFTY PISTOLES, Free for any Horse, Mare, or Gelding, carrying 10 Stone, Saddle and Bridle included, the best of Three Heats, Three Times round the Course each Heat.

The Horse, Mare, or Gelding, that winneth any Two Heats, shall be intitled to the Purse.

Any Rider that is detected in jostling, crossing, or using any foul Play, shall be deemed Distanced, and have no Title to the Purse, even tho' he wins the best of Three Heats.

All Horses, Mares, or Geldings, that run for this Purse, are to be shewn and entered at the House of Mr. Peter Robeson, at the Sign of the White Horse in this City, Four Days before the Race, and to pay Six Dollars Entrance, or Twelve Dollars if entered at the Post.

The Entrance Money will be Run for on the 15th by all the Horses, except the one that wins the Purse, and those that may be Distanced.

SHIPPED by Messieurs Hanburys on board the America, Capt. John Lewis, a Box and a Bundle for Mr. William Wilkinon; which are left with Mr. John Clapham, Merchant, at Oxford, who will, on Receipt of a Letter from that Gentleman, informing him where he resides, forward them to him by the first Opportunity.
