Which, to those that have already tried, has given the greatest Satisfaction. The Directions are printed, and have been well approved of by some of the first Physicians on the Continent. As we purpose to apply our whole Attention to this Business, (the first of the Kind in the Province) and shall constantly keep a full and compleat Assortment of every Thing in our Way, we hope thereby to merit the Encouragement of the Public.

We shall import regularly twice a Year; but if we should run short of any Articles before the Arrival of our Importation, we shall supply such Deficiency from our Drug-Store in Philadelphia, as there are weekly Opportunities from thence to this Place; so that our Customers may always depend on having their Orders compleatly executed, without any Difference of Price.

N. B. Conveyance as usual, by Way of Messieurs Middleton and Reith.

WILLIAM KNAPP, WATCH-MAKER,

TAKES this Method to acquaint the Public, That he has provided an Assistant in the WATCH-MAKING BUSINESS, which will enable him the better to Dispatch the Work of those Gentlemen who have, and may employ him. He hopes his past Endeavours in that Way, may have answered the desired End. It is manifest from daily Experience, that Numbers of Watches (which have been originally well executed) have severely suffered thro' the unskilful and injudicious Practice of some Men, who assumed the Knowledge of a Business to which they were only Pretenders. Those Watches which have been many Years in Use, and consequently Wore, he will engage to Mend, as well as when New; and will at a very moderate Expence keep, those he Repairs, in Order, for Ten Years, all Damages excepted which may accrue to 'em from Accidents, such as a Fall, and the Breaking of a Main Spring, which the most discerning Workman cannot often Account for, nor the ablest prevent.

He Makes, and will Supply any Gentlemen with HORIZONTAL, SECONDS, or PLAIN WATCHES, and will engage the Quality to be equal to any Imported from LONDON.

RAN away from the Subscriber, living near Annapolis, about the last of June, a Mulatto Fellow named Cyrus, about 5 Feet high; he is bow legg'd, his Toes incline to turn inwards, has a down Look, and is slow of Speech; he has black Hair, which curls much. Had on a Clock colour'd Waistcoat, with yellow Metal Buttons, an Osnabrigs Shirt, and old Leather Breeches.

Whoever brings the said Fellow home, shall have Twenty Shillings Reward. If taken out of the Province, Forty Shillings, and reasonable Charges, if brought home, paid by

The MARYLAND GAZETTE.

[XXth Year.]

THURSDAY, December 6, 1764.

[No. 1022.]

Dear last GAZETTE, we gave our Readers the Copy of a Letter from Mr. HUSK, a Member of the House of Commons for Malden, in Essex, relative to his Conduct, in being instrumental in proposing some Taxes on his Countrymen in North-America: What follows, is a Piece published in the BOSTON GAZETTE of the 5th of November, directed to Messieurs EDES and GILBY Printers, by Way of Remark on; or Answer to, that Letter.

THE PUBLIC has been favour'd with a printed Sheet containing a Letter from John Husk, Esq; to the Merchants of this Town. Mr. Husk complains of "an Impediment of his Conduct, incontinently published in all the American News Papers."—and refers to a worthy Friend (whose Name is not mentioned in this printed Copy) for the Execution of his public Behaviour, who heard what passed in the House of Commons. This worthy Friend, to assist Mr. Husk's purpose, would do well to find that he was not instrumental in making it believed, that the northern Colonies had offer'd to pay Five Hundred Thousand Pounds Sterling, for the use of the national Expenses for America: This, if we remember right, was the Assertion in many of the American News Papers, and is the Ground of what he calls a "false Malicious and Infamous" Impediment of his Conduct. We do not take issue with him as to whether this Assertion, in Fact did pass in a Piece of Service for his public Conduct; for we never heard that he was of so much Consequence either with the Ministry or in the Parliament, as we now find him to be by his own Letter.—His Endeavour to serve us he says, have hinder'd his a shorter, or of this Effect: We shall have reason to thank him heartily, when he shall have accomplish'd this without Taint, from the Prosecution of which he resolves that no Difficulties or Opposition shall discourage him, which is "the settling the Liberty of the Colonies and the mother Country on their true Basis; that the one may grow and flourish under the Protection and Superintendency of the other."

We are assur'd to find it intimated in this Letter, that the Proposal of a Stamp Duty or some inland Tax in America, was not in 1763, the Effect of Reasoning in the Ministry: Could we possibly have conceived, had we not been assur'd of it by a Member of Parliament, that "the Necessity in the Opinion of the Administration of establishing either the Stamp Duty, or some other inland Tax, seem'd partly to arise from the undress'd Charities of some Americans, who deny the Rights of King, Lords and Commons to impose such a Tax on America."—It seem'd usought to think that nothing can influence the Mind of a wise and good Minister, to propose the making a Law, but the Welfare of the People who are to be govern'd by them: How is it then that we are told by this Gentleman, that "in settling the Measure, the Motion for the Stamp was introduced by a Declaration of the Minister, that such a Duty had been offer'd to him?" Can any Difficulty for imposing a Duty, be drawn from its being offer'd whether there be a Right to lay such a Duty or not? It is both Necessity and Right to be infer'd from *vera Præter* / *fit vobis*—but pro illorum voluntate.—This Gentleman calls it "an impolitic and dangerous Opinion—erroneous and atrocious"—for perhaps when he has thoughtfully studied the Rights of British Subjects, and the Acts of Parliament which extend those Rights to all such Subjects in every Part of the World, he may be of Opinion that to impose Taxes upon them without their Consent, or without their being represent'd in the Legislature where such Taxes are laid, would be at least alarming, if not impolitic, erroneous and dangerous.

We are however oblig'd to Mr. Husk, since, as he says, he is the Person who prevail'd to put off the Stamp Duty; tho' we must confess we are sorry to find that "the Minister agreed to it reluctantly" and that "being irritated, he declared his Resolution of continuing the Colonists next Session."—What Sort of Conviction the Colonists are to have we are left only to conjecture: It is a Conspiration to us, that the Minister will have to convince the Parliament as well as the Colonists, and we may safely trust in a British Parliament, that the Measures of a Minister, will have the Authority of a Law, without which they can have no Authority at all which shall appear to be inconsistent with a most essential Part of the Constitution.—A Writer in the Providence Gazette undertook a few Weeks ago to give us a *penitenti* Reproof, for some Expressions dropp'd from us, as he thought they were.—We have not yet had Leisure to return a Compliment, to our very polite Providence Friend; but as a Token of our Remembrance of him, we shall upon this Occasion make use of a short Sentence of his, which we think fitter more pertinent to our Purpose than his own: "These is the Reason, says he, so far as that Man's Knowledge of the Constitution, who supports an Act of Parliament voted by a Majority of both Houses, can be bro't about by the *Machinations of one Man.*"

Mr. Husk's Remembrance brightens at the close of his Letter, that two Gentlemen, the Names of whom, any more than that of his worthy Friend, he does not vouchsafe to mention, should have the Credit of getting the Stamp Duty postponed, when all the while it belong'd solely to him: One of these Gentlemen, whom we take to be a Person of Figure in Philadelphia, he describes as "the principal Author and Abettor of this impolitic Policy."—But we distrust this Gentleman, who endeavours "to settle the Colonies upon their true Basis" to recollect himself before he again makes use of so contemptuous an Epithet; and to find what is to be said in Favour of his Majesty's American Subjects.—

We are assur'd he will find, that not a few individuals only, but whole Governments in America have adopted what he calls *impolitic Policy*; that is, that the Subjects here are intitled to all the essential Privileges of the Constitution in common with those of Britain, one of which is that of *taxing themselves*: And when this very important Question is fully stated and fully considered, Mr. Husk may possibly find, that notwithstanding the Declaration of the Minister, (which by the Way some Folks here have made mightily significant) a Doctrine so erroneous, alarming and dangerous in its Opinion, may have the good Fortune to be further confirm'd by the British Parliament.

BRYANUS-AMERICANUS.

C A D I Z, August 21.

ACCORDING to an authentic Account, Spain and France have already sent seventy Ships of the Line to the West-Indies, since the Signing the Treaty of Versailles.

Petersburgh, Aug. 28. Two 66 Gun Ships have been burnt at Revel, and 40 Persons have been kill'd or wounded. The Accident was owing to some of the Crew of one of those Vessels, who having stole some Gunpowder, in the Division of it let it catch Fire.

Pisa, August 25. According to Advices from Hungary, a Body of 30,000 Spahis [Turkish Horse] is actually in march from the Environs of Belgrade towards Moldavia and Wallachia; so that there are at present near 60,000 Turks on the Frontiers of Transylvania and Poland.

Tunis, Sept. 8. There is Advice from Genoa, that 2 Genoese Ships, endeavouring to throw some Succours into St. Fiorenzo, then closely besieged by the Malcontents of Corsica, were opposed by four Ships belonging to the Corsicans; and that after a very sharp Engagement, the two Genoese Ships had taken one of the Corsicans, sink another, and obliged the two others to run away; after which they brought their Succours into the Port of St. Fiorenzo.

Ulrich, Sept. 12. A Letter received this Moment from Germany (but to which we know not as yet what Faith is due) gives us the three following Pieces of News:

1. That 3000 Spahis [Turkish Horse] arrived the 8th of August at Chocim, on the Frontiers of Poland, where a numerous Corps of Janissaries was hourly expected to join them.
2. That Orders had been given for the immediate March of 36,000 of the Austrian Troops into Croatia and Slavonia. And
3. That a Stroke of great Policy (upon which it is pretended, they are as yet obliged to be silent) has occasioned a Revolution in the Affairs of Poland.

Hamburg, Sept. 15. We have just received Advice, that General Laudon is actually assembling an Army of 90,000 Austrians, on the Frontiers of Hungary; that a Courier set out for Petersburgh, from Vienna the 11th Instant; and it was the general Opinion, that the most vigorous Opposition would be made by the two Courts to the farther Entrance of the Turks into Poland.

Leghorn, Sept. 3. Com. Harrison is at Potemkin, from whence he had Orders to go over to Algiers with four Men of War, and demand Satisfaction of the Dey for the Insult committed against the British Consul.

Warsaw, Sept. 8. The Ceremony of the Election of Count Stanislaus Pototowski to the Crown of Poland, pass'd the 6th Instant with the most perfect Unanimity of the Suffrages of the whole Nation, delivered by the different Palatinates assembled for that Purpose: And Yesterday he was proclaimed by the Name of Stanislaus Augustus, and conducted to the Court and Palace thro' the Acclamations of several Thousand Spectators: The Primeur announced the Election to all the foreign Ministers, who, in Consequence thereof, demand'd Audiences this Morning; and they accordingly had the Honour to pay their Respects and Congratulations on his happy Accession to the Crown.

L O N D O N, Sept. 17. One Day last Week as the King and Queen were sitting out of their Port Chair at New, several Children were gathered round it to the Queen, and among the Rest there was a very fine Boy, of four Years old, just Breech'd, who im-

mediately attracted the Eye of his Majesty; and on putting his Hand on the Head of the Lad, asked him, *Why'st Boy he was?* The Child smartly replied, *He was his Daddy's Boy.* He was then asked, *Who his Daddy was?* To which he answer'd, *The King's Waterman.* His Majesty then order'd him to kneel down, and he should kiss the Queen's Hand; to which the Boy objected, and said, *No, I can't kneel down to kiss the Queen's Hand, because I shall dirt my new Breeches;*—however his Majesty was so well pleas'd with the Behaviour of the Child, that he gave him Two Guineas, and the Queen gave him Three.

Sept. 1. On the 21st of June last, the St. Peter, Capt. Heere Ganfs, bound from Hamburg to Porto, about five o'Clock in the Afternoon, was attacked by a Pirate, off Beachy-head, who shew'd English Colours, and whom he took for a Double Sloop or Cutter, having six Guns on Deck, and a long Pendant flying. The Pirate fired a Gun at them, when they struck their Top-sail, and hoisted their Jack. This was scarce done, before a second Gun, with a Ball, was fired at them, which the Captain perceiving, shoop'd, or it would have struck him. The Pirates then boarded them, armed with Pistols and Blunderbusses, which they put to the Captain's Breast, and forced him into the Cabin, where they left him with a Man at the Cabin Door with two loaded Pistols, as a Centinel over him. They then went on Deck, order'd the Hatchies to be open'd, and the Carpenter refusing to take off the Hoops from the Hatchies, they beat and forced him to do it. They then oblig'd the Mate to unlock the Hatchies, which, to preserve his Life, he did. They then confin'd the Mate, Carpenter, Cook, and two other Men, in the Storage, and being now Masters of the Vessel, loaded their Boat with Sheets of Copper, which they carried on board their own Vessel, leaving People to watch the Captain and his Men, who were Prisoners on board their own Ship; at eight o'Clock the same Evening they went to the Captain, and told him he might go about his Business; upon which coming on Deck, he found a great Quantity of Goods lying, but chiefly Pipe Staves, but in the Hold every Thing was cut to Pieces and destroyed. On the second of July they boarded a small English Vessel or Cutter, armed with Cutlasses, &c. which had but one Gun; this was near Orpay, on the French Coast, when after asking several Questions, they return'd to their own Ship. The Captain declares, that while he was robbed, a Three Mast Vessel was not far off, which made a Signal, and approach'd the small One; when the Robbery was over, the small One fired a Gun as a Signal.

Sept. 10. There is now the greatest Reason to believe, with Certainty, that the Cyder Act will receive a mortal Wound the next Session, as we are confidently assur'd no less than 300 Swords of Liberty are whetting against the Moulder.

Five Brothers, born of some Woman, who had not been in Company together for more than 30 Years, met all together at Crediton, in the County of Devon, on the 28th Day of August, 1764; all healthy Men, whose Ages together amount to 371 Years.

On Tuesday Evening a Woman, known by the Name of One-eyed Kate, who sold Fruit in a Barrow about the Streets, after uttering several prophane and blasphemous Gaths, was suddenly taken ill, in Monmouth Street, fell down, and expired immediately.

Sept. 13. It was this Morning (as is reported, that our Ambassador at Paris, by last Wednesday Night's Dispatches, actually received Orders to insist on more substantial Security from France than the Parole Royal. But whether this was to consist in the Delivery of any Piece of Strength, or the sending over Hostages, is not ascertain'd.

It is now said, our Court will oppose any Design the Spaniards may have form'd, to erect a settlement on the Coast of Guiney, which is contrary to several ancient Treaties now subsisting between the two Crowns.

Sept. 20. Prisoner Bills are stuck up in several Parts of the Town, and in sundry Prisons, offering 30s. per Month Wages, and Expences borne

to Portsmouth, to any Sailor who will immediately enter to serve on board the Fleet at present sitting out there.

We hear three Companies of Foot will embark the latter End of this Month for Newfoundland.

The very unequal Distribution of Prize Money in the Royal Navy, we are informed, has for some Days past been under the Consideration of an honourable Board; and it is now said, that exclusive of a moderate monthly Augmentation of Seamen's Wages, it has also been proposed, for the greater Encouragement of that useful Body of Men, the common Sailors, that full one Fourth of the Prize Money may be set apart for the use of the Foremastmen, in all future Captures.

Sept. 22. Letters from Senegal mention, that Advice has been received there from Governor Debatt, of Gambia, that a French Frigate, of 36 Guns, double manned, with the Governor of Goree on board, was come into the River Gambia; that the French behaved with great Insolence, telling the English they were determined to force a Trade in that River; and that they had entirely prevented Governor Debatt from receiving fresh Provisions.

Sept. 25. A Person of a scheming Turn, has a Plan to lay before the Government, whereby he proposes a saving of 30,000l. Sterling annually, without any new Taxes.

On Monday last, a Couple that had been out-asked at Marybone Church, went thither to be married. As the Rev. Mr. Boo! was reading the Ceremony, when he came to the Words, *Will thou have this Man to be thy wedded Husband?* The Woman answered, No. And upon the Minister's asking the Reason, she said, *I have told him several Times I would not marry him.* The Clergyman then asked her, *Why she came to the Church?* she replied, *I came to tell You I will not marry him;* and immediately went away with two Men who came to attend the Ceremony, leaving the Disappointed Bridegroom at Church. [In the Church.]

Letters from Lisbon of the 20th ult. bring Advice, that his most Faithful Majesty has not only approved and confirmed all the military Regulations made by Count de Lippe, but has heaped also immense Riches and other extraordinary Favours on that Nobleman; which has occasioned some of the Portuguese Nobility to look on the Count with a jealous Eye.

We hear that some very extraordinary Dispatches were Yesterday received in regard to the Behaviour of the French at Newfoundland.

Sept. 27. The Postscript of a Letter from Warsaw, dated September 3, runs thus, "Some Advices already bring, that the Election of a King was actually made on the 7th, and that Count Stanislaus Poniatowski re-united all Voices in his Favour.

Two Couriers arrived at Berlin, on the 15th Inst. with the important News, that the Election of a King of Poland was happily accomplished on the 7th of this Month at Warsaw, in the Person of Count Poniatowski, Grand Butler of Lithuania; and that he had been proclaimed, under the Name of Stanislaus Augustus, King of Poland, and Grand Duke of Lithuania. This Election was carried on with an Unanimity unknown hitherto in the Annals of Poland.

October 2. They write from Berlin, that extraordinary military Preparations are making throughout the Prussian Dominions; but the Motive was not known.

It is said there have, for some Days past, been the greatest Appearance for a perfect Unity and coalition of Parties, that has been experienced for some Years.

We are informed, that an express was last Sunday Morning sent off from Plymouth to Newfoundland.

They write from Lisbon, that the Court of Madrid, no longer able to behold with a placid Eye the great naval and military Preparations of his Most Faithful Majesty, and the perfect Unanimity at present subsisting between that Kingdom and Great-Britain, have at last begun to manifest their Jealousy in something more than Words, as undoubted Intelligence had been received, that for some Time past the Spaniards have been marching several Regiments from the interior Provinces, especially from those of Arragon and Castile, with Intent to form an Army of Observation on the Side of Portugal; and that large Quantities of heavy Artillery were daily arriving on the Frontiers.

BOSTON, November 12.

We hear from Barnstable, that the Wife of a Man in that County was lately delivered of two Children, and besides this Event, which un-

doubtedly gave him much Pleasure, his Negro Woman, the same Night, was also delivered of a Child. He was likewise remarkably successful in the Generation of his domestic Animals, viz. his Cow had 2 Calves, his Mare a Colt, his Sow a considerable Number of Pigs, his Bitch a Number of Puppies, his Cat kitten'd, and one of his Hens hatch'd a Brood of Chickens—all in one Night. [This good Man had a sterile yard.]

NEWPORT, November 8.

On Monday Night, the 20th ult. the Store of Messieurs John and James Morton, in Thames-street, was broke open, and sundry Sorts of valuable Goods to a considerable Amount, were stolen. The next Day, Search being made by a proper Officer, the Goods were found at the Lodgings of a Person who calls himself James Stanners; and, being strongly suspected to be the Villain, was apprehended, and carried before Martin Howard, Esq; but positively denied his committing the Fact, or having any Knowledge of the Goods, though found wrapped up in his Cloathing, and under his Bed. However, he was at length persuaded to confess himself Guilty, and that no other Person was concerned with him, and was thereupon committed to Goal. The Manner in which he effected this Piece of Villainy, was by cutting a Hole through the Door, and thereby was enabled to lift up the Bar which secured it. On interrogating him, he informed, that he commanded a Brig from Liverpool, which he left near Cape-Fear, on the Coast of North-Carolina, on his Passage from Jamaica to Liverpool; that he travelled from Philadelphia to this Town by Land, and had resided here near a Month.

Nov. 12. On Friday, the 12th ult. arrived at Cape-Fear, from London, the Hon. Col. Tryan, lately appointed Lieutenant-Governor of North-Carolina.

NEW-YORK, November 22.

Sunday was committed to Goal (by Francis Filkin, Esq; Alderman of the South-Ward in this City) one William Jackson, charged before said Alderman with privately Stealing out of the Dwelling House of Martin Kreuder, of German Town, near Philadelphia, A Silver Watch, five French Crowns, a Guinea and Half, besides other Money and Effects, the Property of a German (or Dutch) Minister, who boarded in the said Kreuder's House.

On Monday Night last, an Officer arrived Express from the Army to the Northward, from whence we have received Advices, that Colonel Bradstreet had broke up his Camp at Sandusky, on the 18th of October; having first engaged many of the upper Nations, with whom Peace had been concluded, to declare against the Shawanese and Delawares, and to send Parties out to War against them. The Army proceeded to the Grand River, about 70 Miles farther, which they entered in a Storm: The tempestuous Weather having the Appearance of continuing, and the Boats being deeply laden, by receiving the additional Men from the Boats which were lost, a Number of the best Marchers marched along the Lake Side, and the Indians took to the Woods.—The Men who marched, were for a Time relieved by other Men from the Boats; but Provisions being out, and a Snow-Storm upon the Lake, about Two Hundred Men pushed on for Fort Erie, in which they suffered greatly, and would have suffered more, had not the most advanced been relieved with Provisions and Boats, from Fort Erie, in Consequence of Colonel Bradstreet's Directions, sent by Express. Mr. Boot was reading the Ceremony, when he came to the Words, *Will thou have this Man to be thy wedded Husband?* The Woman answered, *No.* And upon the Minister's asking the Reason, she said, *I have told him several Times I would not marry him.* The Clergyman then asked her, *Why she came to the Church?* she replied, *I came to tell You I will not marry him;* and immediately went away with two Men who came to attend the Ceremony, leaving the Disappointed Bridegroom at Church. Letters from Lisbon of the 29th ult. bring Advice, that his most Faithful Majesty has not only approved and confirmed all the military Regulations made by Count de Lippe, but has heaped also immense Riches and other extraordinary Favours on that Nobleman; which has occasioned some of the Portuguese Nobility to look on the Count with a jealous Eye.

NEWPORT, November 8.

On Monday Night, the 29th ult. the Store of Messieurs John and James Morion, in Thames-street, was broke open, and sundry Sorts of valuable Goods to a considerable Amount, were stolen. The next Day, Search being made by a proper Officer, the Goods were found at the Lodgings of a Person who calls himself James Scanners; and, being strongly suspected to be the Villain, was apprehended, and carried before Martin Howard, Esq; but positively denied his committing the Fact, or having any Knowledge of the Goods, though found wrapped up in his Cloathing, and under his Bed. However, he was at length persuaded to confess himself Guilty, and that no other Person was concerned with him, and was thereupon committed to Goal. The Manner in which he effected this Piece of Villainy, was by cutting a Hole through the Door, and thereby was enabled to lift up the Bar which secured it. On interrogating him, he informed, that he commanded a Brig from Liverpool, which he lost near Cape-Fear, on the Coast of North-Carolina, on his Passage from Jamaica to Liverpool; that he travelled from Philadelphia to this Town by Land, and had resided here near a Month.

TAKES this Method to acquaint the Pu-
lic, That he has provided an Assistant in the
WATCH-MAKING BUSINESS, which will
enable him the better to Dispatch the Work of
those Gentlemen who have, and may employ him.
He hopes his past Endeavours in that Way, may
have answered the desired End. It is manifest
from daily Experience, that Numbers of Watches
(which have been originally well executed) have
severely suffered thro' the unskillful and injudicious
Practice of some Men, who assumed the Knowledge
of a Business to which they were only Pretenders.
Those Watches which have been many Years in
Use, and consequently Worn, he will engage to
mend, as well as when New; and will at a very
moderate Expence keep, those he repairs, in Or-
der, for Ten Years, all Damages excepted which
may accrue to em from Accidents, such as a Fall,
and the breaking of a Main Spring, which the most
diligent Workman cannot often Account for,
nor the Watch prevent.

He makes, and will supply any Gentlemen with
HORIZONTAL, SECOND, or TRAIN WATCHES,
and will engage the Quality to be equal to any
Imported from London.

[XXth Year.]

THURSDAY, December 13, 1764.

[N^o. 1023.]

LONDON, September 15.

WE hear the principal Reason of putting such a Number of Capital Ships into Commission, and also ordering all the Guard Ships to take on board their full Complement of Men, is to prevent their going into foreign Service.

Private Letters from Dublin, by Monday's Irish Mail, mention the absconding of many People of Consequence there, occasioned by some alarming Proceedings; but we must wait the Event of another Post before we can give the Reasons.

The Ship Three Brothers, John Ford, Master, from America to Amsterdam, is foundered: The Captain and Crew are saved.

By Letters from Aix la Chappelle, of the 4th Instant, we are informed, that an Officer, who was in the last War a Captain in the Partizan Fischer's Corps, had supported himself there some Time by Gaming, but was reduced so low, that he had nothing remaining but his Cloaths. In order therefore to make a better Figure, he had recourse to forging Bills of Exchange, which were soon discovered, and two Grenadiers were sent to take him under an Arrest, from whom he disengaged himself; on which they went to the Main-guard, and fetched ten more Soldiers; by that Time the Captain had barricaded his Apartment with his Bed, Bedstead, Table, Chairs, &c. and stood upon his Defence with Fire-arms; soon after he was attacked, in which he made a brave Defence, and Wounded two Men; but being apprehensive that they would make a second Attack, he charged his Arms a-fresh to receive them: The Assaultants having been reinforced, made a general Assault on the Door of his Room, and the Captain firing a Carbine, shot the Subaltern Officer who commanded the Detachment, through his Mouth into his Shoulder, of which he soon after died. Our Hero being almost overpowered, attempted to shoot himself, but the Pistol missed Fire, on which the Soldiers rushing in upon him, he received a Shot, and four Stabs from their Bayonets, when they took him, being much Wounded, laid him across six Muskets, and thus carried him to Prison, where he died the next Day.

Sept. 24. Some Letters from the Hague say, that the Dutch are going to raise a Number of Men, to be sent to Batavia forthwith, in Consequence of some unfavourable Advices lately received from the Governor of that Place.

Extract of a Letter from New-England, July 27.

"All our Money is gone and going to England to pay our Debts. No Money is like to be in the Country. Our Trade to the French and Spanish Islands, from whence we used to get Money, is stopped; Men of War being placed along our Coasts for that Purpose. Husbandry is discouraged, for there is no vent for Provision. Merchants and Farmers are breaking, and all Things going into Confusion. Murmurings, Law-suits, and Contentions greatly prevail."

By the Contrasts which we are informed divers Navy Purfers have for some Days past been making at the Victualling Offices in two famous out Ports, it is conjectured, that a considerable Fleet is designed to sail for the East-Indies, where they may possibly enforce the Ransom of the Manillas by Word of Mouth.

The very civil and polite French Officers of the Excise in searching the baggage of his Highness Prince George Augustus of Mecklenburgh-Strelitz, as he entered Perron, found Half a Pound of superfine Spanish Snuff, which they seized with prodigious Politeness; and though his Highness assured them it was a Present made him for his own Use by Prince Massarano, Ambassador from Spain to the Court of Great-Britain, they would not deliver the Baggage, until he paid them Two-Hundred Livres. So very respectful was their Behaviour to the Brother of the Queen of Great-Britain. They have omitted no Instance of shewing their Regard to us since the Peace, which redounds such Glory on the Minister who made it.

The Folly of our mimicking the French Fashions, was never more conspicuous than in our a-

dopting the little skimming-dish *Niverois* Hat. Is it not evident the Size of the Hat is reduced by them, because they have lost the Fur Trade? Is not their Want of Fur also still more evident, from the Pains taken by their People of the highest Rank, to cover their bits of Hat with Oil-skin to preserve them? Whereas we, who are possessed of the Fur Trade, are hurting the Interest of Trade by an imitation so evident Ridiculous, that for it we are laughed at by every Court in Europe.

OS. 3. By an Article from the London Gazette dated at the Admiralty Office, October 2d, we are informed that all the Complaints that have lately appear'd in the Prints, of the Infraction of the Articles of the Treaty of Peace, by the French at Newfoundland, are entirely Groundless, for that they have in every particular, strictly complied with the Articles of the said Treaty.

Repeated Complaints from the New-England Colonies, of the late Innovations injurious to their Trade, have for some Time past been under particular Consideration.

It is reported, that the Marriage Portion of a great Personage will be 80,000l. but that the Marriage will not take Place till the Meeting of the Parliament.

It is reported that a large Quantity of Naval Stores will be speedily sent to Gibraltar, for Convenience of Refitting any of our Ships that may have occasion to put in there.

OS. 6. It is said a Memorial has been transmitted to our Ministers at Lisbon, containing no less than 21 oppressive Articles of Trade which the English Commerce now Labour under through the partial or rather ungrateful Behaviour of the Portuguese towards the trading Subjects of this Kingdom.

We are informed a certain great Personage in the Ministry, having been asked a few Days ago, What was to be done with so many Ships of War as have lately been commissioned, seeing the French and Spaniards have disavowed all hostile Intentions? made answer, That even allowing it to be so, the Legislature were nevertheless convinced of the Utility of maintaining a Considerable naval Force, if it were only to keep our Ships from rotting in Harbour, and the Spirits of British Sailors from relaxing; that it was not enough to keep a few guard Ships at home, and on the American Stations; we should also command Respect abroad, by constant Cruizers visiting the Mediterranean, Baltic, and the Ports of our Allies; the former Neglect of which has frequently exposed English Merchant Ships to insults from those of other Nations.

By Letters arrived by the Piggot, from Bengal, we hear, that at her Departure there were very few Troops at that Place: that Cossim Aly Cawn had been joined by some Princes of the Country; that several Mutinies had happened among our Troops, one of which was quelled, though with the Loss of an Hundred Europeans, besides Seapoys; that the different Mutinies were not subdued; and that it was much feared, that by this Time Bengal is no longer in our Hands.

The same Advices say, that Major Adams is certainly dead; and we further hear, another principal in command (feared to be Major Carnac) is dead also.

The general report is, that the Company's Affairs abroad bear but an indifferent Aspect, that Part of the English had deserted to the Enemy, and that Sha Sadir, Cossim Aly Cawn, and the Prince to whom he fled after his Defeat, were determined to unite their Forces against the English.

A Correspondent at Paris writes, that the Jesuits are moving Heaven and Earth to re-establish themselves in France. In the Parliament of Provence, they have obtained a Majority in their Favour; in those of Grenoble, Besaucon, Dijon and Metz, they have gained many Votes; that of Douay is Unanimous for them; and even in the Parliaments of Paris, Rouen, Rennes, Toulouse, Bourdeaux and Pau, which have been so strenuous against them, they are now said to have several powerful Friends.

OS. 9. They write from Norway, that four large Dutch Ships are now loading there with Oak

Plank, Ship Timber, and other Articles in the Building Way, for the Use of the French Yards at Breit, &c.

OS. 11. Letters from Warsaw of the 15th of September, say, that their new King on receiving the Diploma of his Election, addressed himself so movingly to the Electors, that he drew Tears from the Eyes of every one present, in which they were plentifully joined by his Majesty, but that they knew not what might be the Object of it.

It is said a strong Reinforcement of Soldiers will be immediately sent to Lord Clive at Bengal; and that several Sergeants and Corporals of the Guards are to go over with them.

A Nobleman of the first Distinction will be sent to congratulate his Polish Majesty on his Accession to the Throne.

Advices from Frankfort on the Main, inform, that the Marquis d'Argents, Chamberlain to the King of Prussia, arrived there on the 2d of this Month, in his Way to Paris, where he is going to execute a Commission of great Importance.

A Correspondent at Amsterdam writes, that there were no less than seven Ships of War upon the Stocks at that Port, viz. two of 70 Guns, one of 60, two of 50, and two of 40. At Rotterdam, one of 64, and two of 36 Guns. And at Middleborough, in Zealand, three of different Strengths. At Amsterdam, they were also busy in Shipping 350 Pieces of Ordnance for France, besides near 1000 Tons of Cordage.

In the late dispatches to the Court of Madrid, among other important Articles, are said to be contained express Orders to the Earl of Rochefort, to demand Spain's final Determination, with regard to the Ransom of the Manillas: According to which our Ministry are to regulate certain Affairs of Importance now upon the Carpet.

We can with good Authority assure the Public, that altho' by the last advices from Bengal, the East-India Company were informed there had been a Mutiny among the Troops, instigated and encouraged by some French Soldiers, about 150 in Number, who had enlisted in the Company's Service; yet the same, at the Time of dispatching those Advices, was quelled, without the Loss or Desertion of a single European, except those Frenchmen abovementioned: And the same Advices add, that the Settlements were then in perfect Safety; nor was it certain that Sujah Dowlar had espoused the Cause of Cossim Aly, further than receiving him into his Dominions, which was long ago known, his Forces not having moved a Step out of his own Country.

We are informed that Somerset-House is ordered to be elegantly furnished, and got ready for the Reception of his Serene Highness the Duke of Mecklenburgh-Strelitz, whose Arrival is expected here before the End of this Month.

Yesterday se'night died at the German Spa, aged 44, his Grace, William Cavendish, Duke of Devonshire, whose amiable Sweetness of Disposition, and benevolent Heart, not only endeared him to his Friends, but rendered him the Delight of Mankind.

Thursday Night the Duke of Devonshire's Will was opened, when the following Codicil, which till then had been a profound Secret, appeared in his Grace's own Hand Writing, dated July 23, "I give to General Conway, 5000l. as a Testimony of my Friendship for him; and of my Sense of his honourable Conduct and Friendship for me."

It is said the 10th of next Month is appointed for solemnizing an ensuing Ceremony.

OS. 16. We are assured, that a certain popular Gentleman, who was supposed to be consigned to Fricasces and Soup meagre abroad, has lately been seen to take an English Dinner at the House of an intimate Friend in Surry.

The Parliament which stood prorogued to Tuesday the 30th Day of this Instant October, is, by the King's Proclamation, further prorogued to Thursday, the 10th Day of January next, when it will fit for the Dispatch of divers weighty and important Affairs.

We are informed that all the Clerks in the Office of Ordnance at the Tower, have their Salaries augmented.

WATCH-MAKING BUSINESS, which will
enable him the better to Dispatch the Work of
those Gentlemen who have, and may employ him.
He hopes his past Endeavours in that Way, may
have answered the desired End: It is manifest

severely suffered thro' the unskillful and injudicious
Practice of some Men, who assumed the Knowledge
of a Business to which they were only Pretenders.
Those Watches which have been many Years in

[XXth Year.]

THURSDAY, December 13, 1764.

[N^o. 1023.]

LONDON, September 15.

WE hear the principal Reason of putting such a Number of Capital Ships into Commission, and also ordering all the Guard Ships to take on board their full Complement of Men, is to prevent their going into foreign Service.

Private Letters from Dublin, by Monday's Irish Mail, mention the absconding of many People of Consequence there, occasioned by some alarming Proceedings; but we must wait the Event of another Post before we can give the Reasons.

The Ship Three Brothers, John Ford, Master, from America to Amsterdam, is foundered: The Captain and Crew are saved.

By Letters from Aix la Chappelle, of the 4th Instant, we are informed, that an Officer, who was in the last War a Captain in the Partizan Fischer's Corps, had supported himself there some Time by Gaming, but was reduced so low, that he had nothing remaining but his Cloaths. In order therefore to make a better Figure, he had recourse to forging Bills of Exchange, which were soon discovered, and two Grenadiers were sent to take him under an Arrest, from whom he disengaged himself; on which they went to the Main-guard, and fetched ten more Soldiers; by that Time the Captain had barricaded his Apartment with his Bed, Bedstead, Table, Chairs, &c. and stood upon his Defence with Fire-arms; soon after he was attacked, in which he made a brave Defence, and Wounded two Men; but being apprehensive that they would make a second Attack, he charged his Arms a-fresh to receive them: The Assaultants having been reinforced, made a general Assault on the Door of his Room, and the Captain firing a Carbine, shot the Subaltern Officer who commanded the Detachment, through his Mouth into his Shoulder, of which he soon after died. Our Hero being almost overpowered, attempted to shoot himself, but the Pistol missed Fire, on which the Soldiers rushing in upon him, he received a Shot, and four Stabs from their Bayonets, when they took him, being much Wounded, laid him across six Muskets, and thus carried him to Prison, where he died the next Day.

Sept. 24. Some Letters from the Hague say, that the Dutch are going to raise a Number of Men, to be sent to Batavia forthwith, in Consequence of some unfavourable Advices lately received from the Governor of that Place.

Extract of a Letter from New-England, July 27.

"All our Money is gone and going to England to pay our Debts. No Money is like to be in the Country. Our Trade to the French and Spanish Islands, from whence we used to get Money, is stopped; Men of War being placed along our Coasts for that Purpose. Husbandry is discouraged, for there is no vent for Provision. Merchants and Farmers are breaking, and all Things going into Confusion. Murmurings, Law-suits, and Contentions greatly prevail."

By the Contracts which we are informed divers Navy Purfers have for some Days past been making at the Victualling Offices in two famous out Ports, it is conjectured, that a considerable Fleet is designed to sail for the East Indies; where they may possibly enforce the Ransom of the Manillas by Word of Mouth.

The very civil and polite French Officers of the Excise in searching the baggage of his Highness Prince George Augustus of Mecklenburgh-Strelitz, as he entered Perron, found Half a Pound of superfine Spanish Snuff, which they seized with prodigious Politeness; and though his Highness assured them it was a Present made him for his own Use by Prince Massarano, Ambassador from Spain to the Court of Great-Britain, they would not deliver the Baggage, until he paid them Two Hundred Livres. So very respectful was their Behaviour to the Brother of the Queen of Great-Britain. They have omitted no Instance of shewing their Regard to us since the Peace, which redounds such Glory on the Minister who made it.

The Folly of our mimicking the French Fashions, was never more conspicuous than in our a-

dopting the little skimming-dish Nivernois Hat. Is it not evident the Size of the Hat is reduced by them, because they have lost the Fur Trade? Is not their Want of Fur also still more evident, from the Pains taken by their People of the highest Rank, to cover their bits of Hat with Oil-skin to preserve them? Whereas we, who are possessed of the Fur Trade, are hurting the Interest of Trade by an imitation so evident Ridiculous, that for it we are laughed at by every Court in Europe.

Oct. 3. By an Article from the London Gazette dated at the Admiralty Office, October the 2d, we are informed that all the Complaints that have lately appear'd in the Prints, of the Infraction of the Articles of the Treaty of Peace, by the French at Newfoundland, are intirely Groundless, for that they have in every particular, strictly complied with the Articles of the said Treaty.

Repeated Complaints from the New-England Colonies, of the late Innovations injurious to their Trade, have for some Time past been under particular Consideration.

It is reported, that the Marriage Portion of a great Personage will be 80,000l. but that the Marriage will not take Place till the Meeting of the Parliament.

It is reported that a large Quantity of Naval Stores will be speedily sent to Gibraltar, for Conveniency of Refitting any of our Ships that may have occasion to put in there.

Oct. 6. It is said a Memorial has been transmitted to our Ministers at Lisbon, containing no less than 21 oppressive Articles of Trade which the English Commerce now Labour under through the partial or rather ungrateful Behaviour of the Portuguese towards the trading Subjects of this Kingdom.

We are informed a certain great Personage in the Ministry, having been asked a few Days ago, What was to be done with so many Ships of War as have lately been commissioned, seeing the French and Spaniards have disavowed all hostile Intentions? made answer, That even allowing it to be so, the Legislature were nevertheless convinced of the Utility of maintaining a Considerable naval Force, if it were only to keep our Ships from rotting in Harbour, and the Spirits of British Sailors from relaxing; that it was not enough to keep a few guard Ships at home, and on the American Stations; we should also command Respect abroad, by constant Cruizers visiting the Mediterranean, Baltic, and the Ports of our Allies; the former Neglect of which has frequently exposed English Merchant Ships to insults from those of other Nations.

By Letters arrived by the Piggot, from Bengal, we hear, that at her Departure there were very few Troops at that Place; that Cossim Aly Cawn had been joined by some Princes of the Country; that several Mutinies had happened among our Troops, one of which was quelled, though with the Loss of an Hundred Europeans, besides Seapoys; that the different Mutinies were not subdued; and that it was much feared, that by this Time Bengal is no longer in our Hands.

The same Advices say, that Major Adams is certainly dead; and we further hear, another principal in command (feared to be Major Carnac) is dead also.

The general report is, that the Company's Affairs abroad bear but an indifferent Aspect, that Part of the English had deserted to the Enemy, and that Sha Sadir, Cossim Aly Cawn, and the Prince to whom he fled after his Defeat, were determined to unite their Forces against the English.

A Correspondent at Paris writes, that the Jesuits are moving Heaven and Earth to re-establish themselves in France. In the Parliament of Provence, they have obtained a Majority in their Favour; in those of Grenoble, Besancon, Dijon and Metz, they have gained many Votes; that of Douay is Unanimous for them; and even in the Parliaments of Paris, Rouen, Rennes, Toulouse, Bourdeaux and Pau, which have been so strenuous against them, they are now said to have several powerful Friends.

October 9. They write from Norway, that four large Dutch Ships are now loading there with Oak

Plank, Ship Timber, and other Articles in the Building Way, for the Use of the French Yards at Brest, &c.

October 11. Letters from Warsaw of the 15th of September, say, that their new King on receiving the Diploma of his Election, addressed himself so movingly to the Primate, that he drew Tears from the Eyes of every one present, in which they were plentifully joined by his Majesty, but that they knew not what might be the Object of it.

It is said a strong Reinforcement of Soldiers will be immediately sent to Lord Clive at Bengal; and that several Sergeants and Corporals of the Guards will go over with them.

A Nobleman of the first Distinction will be sent to congratulate his Polish Majesty on his Accession to the Throne.

Advices from Frankfort on the Main, inform, that the Marquis d'Argents, Chamberlain to the King of Prussia, arrived there on the 2d of this Month, in his Way to Paris, where he is going to execute a Commission of great Importance.

A Correspondent at Amsterdam writes, that there were no less than seven Ships of War upon the Stocks at that Port, viz. two of 70 Guns, one of 60, two of 50, and two of 40. At Rotterdam, one of 64, and two of 36 Guns. And at Middleborough, in Zealand, three of different Strengths. At Amsterdam, they were also busy in Shipping 350 Pieces of Ordnance for France, besides near 1000 Tons of Cordage.

In the late dispatches to the Court of Madrid, among other important Articles, are said to be contained express Orders to the Earl of Rochefort, to demand Spain's final Determination, with regard to the Ransom of the Manillas: According to which our Ministry are to regulate certain Affairs of Importance now upon the Carpet.

We are informed that Somerset-House is ordered to be elegantly furnished, and got ready for the Reception of his Serene Highness the Duke of Mecklenburgh-Strelitz, whose Arrival is expected here before the End of this Month.

Yesterday se'nnight died at the German Spa, aged 44, his Grace, William Cavendish, Duke of Devonshire, whose amiable Sweetness of Disposition, and benevolent Heart, not only endeared him to his Friends, but rendered him the Delight of Mankind.

October 16. We are assured, that a certain popular Gentleman, who was supposed to be consigned to Fricaffes and Soup meagre abroad, has lately been seen to take an English Dinner at the House of an intimate Friend in Surry.

WILLIAM KNAPP, WATCH-MAKER,

TAKES this Method to acquire the Pub-
lic, that he has provided an Assistant in the
WATCH-MAKING BUSINESS, which will
enable him the better to Dispatch the Work of
those Gentlemen who have, and may employ him.
He hopes his past Endeavours in that Way, may
have answered the desired End. It is manifest
from daily Experience, that Numbers of Watches
(which have been originally well executed) have
severely suffered thro' the unskillful and injudicious
Practice of some Men, who assumed the Knowledge
of a Business to which they were only Pretenders.
Those Watches, which have been many Years in
Use, and consequently worn, he will engage to
mend, as well as when New; and will as a very
moderate Expence keep, those he repairs, in Or-
der, for Ten Years, all Damages excepted which
may accrue to 'em from Accidents, such as a Fall,
and the Breaking of a Main Spring, which the most
discerning Workman cannot often Account for,
nor the ablest prevent.

He Makes, and will Supply any Gentlemen with
HORIZONTAL, SECONDS, or PLAIN WATCHES,
and will engage the Quality to be equal to any
Imported from London.

RAN away from the Subscriber, living near
Annapolis, about the last of June, a Married
Fellow named GROSS, about 3 Feet high; he is
bow legg'd, his Toes incline to turn inward; he has
a down Look, and is slow of Speech; he has
black Hair, which curls much. Had on a Cloth
colour'd Waistcoat, with yellow Metal Buttons,
an Osnabrigs Shirt, and old Leather Breeches.

Whoever brings the said Fellow home, shall
have Twenty Shillings Reward. If taken out of
the Province, Forty Shillings, and reasonable
Charges, if brought home, paid by

THURSDAY, December 13, 1764.

[N^o. 1023.]

LONDON, September 15.

WE hear the principal Reason of putting such a Number of Capital Ships into Commission, and also ordering all the Guard Ships to take on board their full Complement of Men, is to prevent their going into foreign Service.

Private Letters from Dublin, by Monday's Irish Mail, mention the absconding of many People of Consequence there, occasioned by some alarming Proceedings; but we must wait the Event of another Post before we can give the Reasons.

The Ship Three Brothers, John Ford, Master, from America to Amsterdam, is foundered: The Captain and Crew are saved.

By Letters from Aix la Chappelle, of the 4th Instant, we are informed, that an Officer, who was in the last War a Captain in the Partizan Fischer's Corps, had supported himself there some Time by Gaming, but was reduced so low, that he had nothing remaining but his Cloaths. In order therefore to make a better Figure, he had recourse to forging Bills of Exchange, which were soon discovered, and two Grenadiers were sent to take him under an Arrest, from whom he disengaged himself; on which they went to the Main-guard, and fetched ten more Soldiers; by that Time the Captain had barricaded his Apartment with his Bed, Bedstead, Table, Chairs, &c. and stood upon his Defence with Fire-arms; soon after he was attacked, in which he made a brave Defence, and Wounded two Men; but being apprehensive that they would make a second Attack, he charged his Arms a-fresh to receive them: The Assaults having been reinforced, made a general Assault on the Door of his Room, and the Captain firing a Carbine, shot the Subaltern Officer who Commanded the Detachment, through his Mouth into his Shoulder, of which he soon after died. Our Hero being almost overpowered, attempted to shoot himself, but the Pistol missed Fire, on which the Soldiers rushing in upon him, he received a Shot, and four Stabs from their Bayonets, when they took him, being much Wounded, laid him across six Muskets, and thus carried him to Prison, where he died the next Day.

Sept. 24. Some Letters from the Hague say, that the Dutch are going to raise a Number of Men, to be sent to Batavia forthwith, in Consequence of some unfavourable Advices lately received from the Governor of that Place.

Extract of a Letter from New-England, July 27.

"All our Money is gone and going to England to pay our Debts. No Money is like to be in the Country. Our Trade to the French and Spanish Islands, from whence we used to get Money, is stopped; Men of War being placed along our Coasts for that Purpose. Husbandry is discouraged, for there is no vent for Provision. Merchants and Farmers are breaking, and all Things going into Confusion. Murmurings, Law-suits, and Contentions greatly prevail."

By the Contracts which we are informed divers Navy Purfers have for some Days past been making at the Victualling Offices in two famous out Ports, it is conjectured, that a considerable Fleet is designed to sail for the East Indies, where they may possibly enforce the Ransom of the Manillas by Word of Mouth.

The very civil and polite French Officers of the Excise in searching the baggage of his Highness Prince George Augustus of Mecklenburgh-Strelitz, as he entered Perron, found Half a Pound of superfine Spanish Snuff, which they seized with prodigious Politeness; and though his Highness assured them it was a Present made him for his own Use by Prince Massarano, Ambassador from Spain to the Court of Great-Britain, they would not deliver the Baggage, until he paid them Two Hundred Livres. So very respectful was their Behaviour to the Brother of the Queen of Great-Britain. They have omitted no Instance of shewing their Regard to us since the Peace, which redounds such Glory on the Minister who made it.

The Folly of our mimicking the French Fashions, was never more conspicuous than in our a-

dopting the little skimming-dish *Nivernois* Hat. Is it not evident the Size of the Hat is reduced by them, because they have lost the Fur Trade? Is not their Want of Fur also still more evident, from the Pains taken by their People of the highest Rank, to cover their bits of Hat with Oil-skin to preserve them? Whereas we, who are possessed of the Fur Trade, are hurting the Interest of Trade by an imitation so evident Ridiculous, that for it we are laughed at by every Court in Europe.

Oct. 3. By an Article from the London Gazette dated at the Admiralty Office, October the 2d, we are informed that all the Complaints that have lately appear'd in the Prints, of the Infraction of the Articles of the Treaty of Peace, by the French at Newfoundland, are intirely Groundless, for that they have in every particular, strictly complied with the Articles of the said Treaty.

Repeated Complaints from the New-England Colonies, of the late Innovations injurious to their Trade, have for some Time past been under particular Consideration.

It is reported, that the Marriage Portion of a great Personage will be 80,000l. but that the Marriage will not take Place till the Meeting of the Parliament.

It is reported that a large Quantity of Naval Stores will be speedily sent to Gibraltar, for Conveniency of Refitting any of our Ships that may have occasion to put in there.

Oct. 6. It is said a Memorial has been transmitted to our Ministers at Lisbon, containing no less than 21 oppressive Articles of Trade which the English Commerce now Labour under through the partial or rather ungrateful Behaviour of the Portuguese towards the trading Subjects of this Kingdom.

We are informed a certain great Personage in the Ministry, having been asked a few Days ago, What was to be done with so many Ships of War as have lately been commissioned, seeing the French and Spaniards have disavowed all hostile Intentions? made answer, That even allowing it to be so, the Legislature were nevertheless convinced of the Utility of maintaining a Considerable naval Force, if it were only to keep our Ships from rotting in Harbour, and the Spirits of British Sailors from relaxing; that it was not enough to keep a few guard Ships at home, and on the American Stations; we should also command Respect abroad, by constant Cruizers visiting the Mediterranean, Baltic, and the Ports of our Allies; the former Neglect of which has frequently exposed English Merchant Ships to insults from those of other Nations.

By Letters arrived by the Piggot, from Bengal, we hear, that at her Departure there were very few Troops at that Place: that Cossim Aly Cawn had been joined by some Princes of the Country; that several Mutinies had happened among our Troops, one of which was quelled, though with the Loss of an Hundred Europeans, besides Seapoys; that the different Mutinies were not subdued; and that it was much feared, that by this Time Bengal is no longer in our Hands.

The same Advices say, that Major Adams is certainly dead; and we further hear, another principal in command (feared to be Major Carnac) is dead also.

The general report is, that the Company's Affairs abroad bear but an indifferent Aspect, that Part of the English had deserted to the Enemy, and that Sha Sadir, Cossim Aly Cawn, and the Prince to whom he fled after his Defeat, were determined to unite their Forces against the English.

A Correspondent at Paris writes, that the Jesuits are moving Heaven and Earth to re-establish themselves in France. In the Parliament of Provence, they have obtained a Majority in their Favour; in those of Grenoble, Besancon, Dijon and Metz, they have gained many Votes; that of Douay is Unanimous for them; and even in the Parliaments of Paris, Rouen, Rennes, Touloufe, Bourdeaux and Pau, which have been so strenuous against them, they are now said to have several powerful Friends.

October 9. They write from Norway, that four large Dutch Ships are now loading there with Oak

Plank, Ship Timber, and other Articles in the Building Way, for the Use of the French Yards at Brest, &c.

October 11. Letters from Warsaw of the 15th of September, say, that their new King on receiving the Diploma of his Election, addressed himself so movingly to the Primate, that he drew Tears from the Eyes of every one present, in which they were plentifully joined by his Majesty, but that they knew not what might be the Object of it.

It is said a strong Reinforcement of Soldiers will be immediately sent to Lord Clive at Bengal; and that several Sergeants and Corporals of the Guards will go over with them.

A Nobleman of the first Distinction will be sent to congratulate his Polish Majesty on his Accession to the Throne.

Advices from Frankfort on the Main, inform, that the Marquis d'Argents, Chamberlain to the King of Prussia, arrived there on the 2d of this Month, in his Way to Paris, where he is going to execute a Commission of great Importance.

A Correspondent at Amsterdam writes, that there were no less than seven Ships of War upon the Stocks at that Port, viz. two of 70 Guns, one of 60, two of 50, and two of 40. At Rotterdam, one of 64, and two of 36 Guns. And at Middleborough, in Zealand, three of different Strengths. At Amsterdam, they were also busy in Shipping 350 Pieces of Ordnance for France, besides near 1000 Tons of Cordage.

In the late dispatches to the Court of Madrid, among other important Articles, are said to be contained express Orders to the Earl of Rochefort, to demand Spain's final Determination, with regard to the Ransom of the Manillas: According to which our Ministry are to regulate certain Affairs of Importance now upon the Carpet.

We can with good Authority assure the Public, that altho' by the last advices from Bengal, the East-India Company were informed there had been a Mutiny among the Troops, infligated and encouraged by some French Soldiers, about 150 in Number, who had enlisted in the Company's Service; yet the same, at the Time of dispatching those Advices, was quelled, without the Loss or Desertion of a single European, except those Frenchmen abovementioned: And the same Advices add, that the Settlements were then in perfect Safety; nor was it certain that Sujah Dowlar had espoused the Cause of Cossim Aly, further than receiving him into his Dominions, which was long ago known, his Forces not having moved a Step out of his own Country.

We are informed that Somerset-House is ordered to be elegantly furnished, and got ready for the Reception of his Serene Highness the Duke of Mecklenburgh-Strelitz, whose Arrival is expected here before the End of this Month.

Yesterday se'nnight died at the German Spa, aged 44. his Grace, William Cavendish, Duke of Devonshire, whose amiable Sweetness of Disposition, and benevolent Heart, not only endeared him to his Friends, but rendered him the Delight of Mankind.

Thursday Night the Duke of Devonshire's Will was opened, when the following Codicil, which till then had been a profound Secret, appeared in his Grace's own Hand Writing, dated July 23, "I give to General Conway, 5000l. as a Testimony of my Friendship for him; and of my Sense of his honourable Conduct and Friendship for me."

It is said the 10th of next Month is appointed for solemnizing an ensuing Ceremony.

October 16. We are assured, that a certain popular Gentleman, who was supposed to be confined to Fricasses and Soup meagre abroad, has lately been seen to take an English Dinner at the House of an intimate Friend in Surry.

The Parliament which stood prorogued to Tuesday the 30th Day of this Instant October, is, by the King's Proclamation, further prorogued to Thursday, the 10th Day of January next, when it will sit for the Dispatch of divers weighty and important Affairs.

We are informed that all the Clerks in the Office of Ordnance at the Tower, have their Salaries augmented.

QUEBEC, October 4. 1764.

The following were lately Passed here, by the Governor, and Council of Canada, viz. An Ordinance for regulating and establishing the Courts of Judicature, Justices of the Peace, Quarter Sessions, Bailiffs, and other matters relative to the distribution of Justice within this Province.

An Ordinance for ratifying and confirming the decrees of the several Courts of Justice established in the Districts of Quebec, Montreal, and Trois Rivieres, prior to the establishment of civil Government throughout that Province, upon the tenth of August last.

An Ordinance declaring that publishing the Ordinances of that Province in the Quebec Gazette, shall be deemed a sufficient Publication, after they have been read publicly in the several principal Towns.

An Ordinance for establishing the Currency of that Province. (All Coins are fixed, so that they are in the Province of the Massachusetts a Dollar 6 s. a Guinea 28 s. &c. but a Pistole is reckon'd at 1 s. 2d. and 20 British Coppers is one Penny.)

An Ordinance relating to Assize of Bread, for ascertaining the Standard of Weights and Measures in Quebec. When the Price of Wheaten Flour is above 14 s. the 112 lb. Avoirdupois, a 6d. of the same shall weigh 4 lb. ditto brown Loaf 6 lb. The hon. Walter Murray, Esq; is appointed Receiver-General of the Province.

Richard Murray, Esq; Vendor Master, and Deputy Receiver-General. And James Potts, Esq; Judge of the Court of Admiralty.

NEW-YORK, December 3.

We are credibly assured, that Sir William Johnson proposes calling down the Chiefs of every Nation this Winter to his Hall, on Business of great Importance to England, and the People in America. A great Number of Indians came to Sir William's the 6th of last Month. The whole we hope will terminate to the Honour of his Majesty, and the general Benefit of his Subjects.

On Tuesday arrived the Sloop Friend, Capt. John Malcom, in 16 Days from Quebec, by whom we hear, that a considerable Quantity of Snow had already fallen there, and the Winter seemed to be set in earlier than usual; but the People were generally healthy, and extremely happy under the Civil Government lately established there, which was so judiciously regulated as to give general Satisfaction and Advantage both to the English and French; and the Appointment and Conduct of all the Officers in the Administration, especially of his Excellency the Governor, met with the highest Approbation from all Ranks of People.

PHILADELPHIA, December 5.

On Monday last arrived here Major Small, in his Way to New-York, with Dispatches from Col. Bouquet to General GAGE; our Advices by that Gentleman are as follow:

That he left the Army in high Spirits, encamped at the Forks of Munkingham, on the 18th ult. That the Expedition into the Indian Country has had the desired Effect, the Mingoe, Delaware and Shawanese Indians, after a long Struggle, having at last submitted to the Terms prescribed to them, viz.

1. To deliver up all the Prisoners without Exception.

2. To give Fourteen Hostages, to remain in our Hands, as a Security for the strict Performance of the foregoing Article; and that they shall commit no Hostilities against His Majesty's Subjects.

That upon these Conditions they are permitted to send Deputies from each Nation to Sir WILLIAM JOHNSON, to make their Peace. That the Mingoes have given Two of the above mentioned Hostages, the Delawares Six, and the Shawanese Six. That from the present humble Dispositions of the Savages, it was thought our Frontier Inhabitants might return in Safety to their deserted Plantations. That the Indians had brought in above Two Hundred Prisoners before the Major left the Camp, and above One Hundred more were daily expected. That the Delawares and Mingoes have not only delivered all their Prisoners, but even their own Children, born by White Women. That the Shawanese had been very obstinate, but were forced to submit to the same Conditions as the other Nations. That the Enemy were said to be in the greatest Distress, having neither Provisions, Cloathing nor Powder, their Women, we hear, being covered with Skins only, and the Men in a still worse Condition; and that it was generally believed they are now sincere, and the Peace will be lasting, as they were convinced, at last, that even their Woods could not protect them, when followed by so brave and judicious a Commander, at the Head of a gallant, though but

small Army; it being remarked, that the whole of the Troops on the Expedition have behaved in the most regular Manner, and shown the greatest Activity and Resolution; and it is particularly mentioned, that the Men from this Province have carried on the Service with great Zeal and Cheerfulness, and that their Conduct does them Honour in every Respect. That the Troops of this Government were to be sent immediately to Carlisle, and with them the Prisoners belonging to it. That the Army have been very healthy, and had met with no Loss since they left Pittsburgh, only one of the Light Horse, who was killed by some Indians, supposed to be Wyondots, but that there were other Indians out after them, who promised to bring them in, if possible. And that the Colonel, with the Forces, it was expected, would be at Fort Pitt as Sunday last.

ANNAPOLIS, December 13.

Last Thursday Evening, Departed this Life at his House in Town, after a tedious Indisposition with complicated Disorders, in the LVth Year of his Age, the Hon^{ble} STEPHEN BORDLEY, Esq; one of his Lordship's Council of State, Commissary-General of the Province, and one of the Aldermen of this City. He was a Gentleman of great Eminence for his Knowledge in, and Proficiency of, the Law, and many young Gentlemen studied under him, do Honour to his Memory. Mr. BORDLEY formerly Represented this County, in the General Assembly, and was an Officer of this District, and Attorney-at-Law of the Province. And his Remains were interred with great Decency, Entomb'd on Tuesday last in his Family Vault.

In Dorchester County, Messrs. DANIEL SULLIVAN, PHILEMON LECOMTE, HENRY TRAVERS, and ROBERT GOLDSBOROUGH, III^d.

One of the Four last Named Gentlemen, is Elected in the Room of Col. HENRY HOOPER, who has, with but little intermission, been a Representative for that County, above Forty Years past, and in the last Seventeen Meetings of the General Assembly, was their honourable Speaker; and even Now, could hardly prevail on his Friends to suffer him to rest his remaining Days, at his own Home, in easy Retirement. It can't but be allow'd, that this Gentleman very justly merits the Thanks of the Public, for his unwearied Attendance, unshaken Integrity, and steady Impartiality, in his Public Conduct.

[If the Names of the Gentlemen above, are not all Plac'd in the Order of their being Chosen, it is for want of proper Information.]

Last Friday Morning, a new Dwelling-House, belonging to Mr. Thomas Fleming, Ship-builder, in Alexandria, which he had very nigh finish'd, unhappily catch'd Fire, thro' the Carelessness of the Joiner's Apprentice, and in a short Time was reduced to Ashes.

To be SOLD for Ready Money only, A QUANTITY of exceeding good MOLASSES in Hogheads and Tierces, by THOMAS RICHARDSON & Comp.

WANTS a PLACE, A YOUNG MAN Qualified for a Merchant's Clerk, or would willingly be employed as an Assistant in a County Clerk's Office, as he has served some Time in that Way. Enquire of John Deems in Queen-Anne's County, near Queen's-Town.

AS I have given up the Business of STAY-MAKING for some Time to Mr. JOSEPH FOARD, This is to request all my old Customers to settle their Accounts, as soon as possible, that I may have it in my Power to wind up the same: And as I have been at Pains to Instruct the said FOARD sufficient to carry on the Business in the best Manner, after acknowledging myself oblig'd to them for their Encouragement to me, I shall be very Thankful for the Continuance of their Custom still to him.

CHARLES WALLACE.

ONE HUNDRED DOLLARS REWARD.

December 4th, 1764.

WHEREAS on or about the 14th Day of September last, the Schooner Success, Daniel Tyler then Master, sailed from Liverpool in Nova-Scotia, bound for Annapolis in Maryland, with part of a Cargo of Mackrell and dry'd Cod Fish; and on the 21st of the said Month, September, it appears that the said Schooner Success arrived at Newport, in the Colony of Rhode-Island; where a certain John Eales, a Mariner on board, and One-half Owner of the said Schooner Success, contrived Means to get Possession of the Register, and Custom-House Papers of the said Vessel; and then, as it is supposed, discharged the said Daniel Tyler from the further Command of her; and shipped a certain Jonathan Nichols, of Newport aforesaid, as Navigator: And on or about the 28th Day of September aforesaid, the said Schooner Success (the said John Eales being termed Master) sailed from Newport, and as he alledged, bound for the Island of Nantucket, to get a Freight of Oil of Salem on Delaware; but it does not appear that the said Schooner Success has been at either of the last mentioned Ports, nor has she ever arrived at Annapolis in Maryland, to which Place the said John Eales was under an Engagement to comply with the Terms of a Bottomry Bill, entered into by the said Eales, with Edmund Rutland, of Annapolis, Owner of the other half of the said Schooner, nor has any Information been received of the said Schooner Success, since her sailing from Newport as aforesaid.

Wherefore, from these and other Circumstances, there is Reason to apprehend, that the said John Eales, fraudulently intends to carry off the said Schooner, to evade the Discharge of the Bottomry Bill, and to defraud the said Edmund Rutland of his Right and Property in and unto the other Half of the said Schooner, and to convert the Same and the Cargo to his own Use.

All Custom-House Officers in any of his Majesty's Dominions, and all other Persons whatsoever, are requested and desired to use all lawful Means to apprehend and detect the said John Eales in his fraudulent Designs, if in their Power; and appear for me the Subscriber Edmund Rutland, so that my Interest and Property in the said Schooner, and her Cargo, may be secured to me: And any Person so apprehending the said John Eales, and the above Schooner, so that he may be brought to Justice, shall be entitled to the above mentioned Reward, and they are desired to send Intelligence to Jesse Meredith, Merchant in Philadelphia; or to me Edmund Rutland, in Annapolis in Maryland.

DESCRIPTION of the Schooner Success: Built in Virginia, about 18 Months since, square sterned, and much rake, straight shear'd, a billet Head, a square Tuck, two Hatch-ways, and Fore-scutter, her Top Timbers Mulberry chiefly, Burthen about 40 Tons, being about 40 Feet Keel straight; about 13 or 14 Beam, and about 5 or 6 Feet Depth in the Hold, a short Quarter Deck, and a shoal Waist, loads deep, and is an extraordinary fast sailing Vessel; she was condemned at a Court of Vice Admiralty held at Annapolis, the 21st of July last, the Register dated July 23d, 1764, at Annapolis, granted and signed by his Excellency Horatio Sharpe, Esq; Governor and Commander in Chief of Maryland, and Benedict Calvert, Esq; Collector, to John Eales, and Edmund Rutland, the said Eales, being mentioned in the Register as Master, but in a few Days after the Date of the Register, John Pitt was certified as Master by the Collector aforesaid.

DESCRIPTION of JOHN EALES. A tall Well-set Fellow, between 20 and 30 Years of Age, born in Virginia, or North-Carolina, usually wears a white Cap, sometimes a Wig, his Hair yellow Colour, and hangs down his Neck, a down look, and light grey Eyes.

N. B. He may probably change his Name, and the Vessel's Name likewise, by getting a new Register.

P. S. As it behoves every honest Man to contribute all in his Power, towards detecting and bringing to condign Punishment such atrocious Villainies, it is requested that the respective Printers, into whose Hands this Relation may fall, will give the same a Place in their weekly Papers.

C O R K, Otober 8.

Extract of a Letter from William Alexander, private, in Lord Drogheda's Light Horse, part of whom were concerned in an Action with the Levellers or White Boys, in the County of Kilkenny, dated Clonmell, Otober 1, 1764.

SERJEANT Johnston, a Corporal, and 12 private Men of our Regiment, on an Escort of 9 Levellers from Carrick to Kilkenny Goal, were last Saturday attacked by a great Number of White Boys, armed with Guns, Swords, Bill-Hooks, Hatchets, &c. at a Place called Sheep's-Town, about 6 Miles from Carrick. Our Men behaved with undaunted Resolution, and made great Havock while their Ammunition lasted; but that being expended, and the Enemy increasing, they thought it Time to secure a Retreat from amidst the Croud, leaving the Serjeant and one Dragoon behind, who were most inhumanly butchered; three more of our Men are desperately wounded, and their Lives despaired of. Twenty-nine Men, and two Women, of the Levellers, were killed, besides wounded. When the first Intelligence of this Affair was received here, the Remainder of two Troops marched to the Assistance of our brave Companions, but arrived too late, and all we could see at that Place was dead Bodies, Legs and Arms; in searching the Country we found several wounded Men and Women, whom we sent to Goal, and I hear some of them are this Day dead of their Wounds. On our Travels we discovered two Men, who fled at our Appearance, and not chusing to submit, were killed in the Pursuit. That Part of the Country seems in short to be almost depopulated, and as for the Effect this rebellious Spirit may have in other Parts, Time alone can shew."

Extract of a Letter from a Gentleman in the County of Tipperary to his Friend in this City, dated near Clonmell, Otober 3.

"Perhaps the hearing of our Riots may not be disagreeable to you, although at the Cost of Two-pence, for it is almost open War in the County of Kilkenny. Last Week Three Fellows that had been taken and confined in Carrick, turned King's Evidence; in Consequence thereof, an Officer, with a Party of Light Horse, took nine Fellows, which they were sending under a Serjeant and Twelve Men to Kilkenny Goal: They had got as far as a Place called Sheep's-Town, when there met them above 400 People in a narrow Road, attending a Coffin filled with Scythes, Bill-Hooks, and the Instruments they cut Turf with; about half the Croud passed the Party and Prisoners, when they threw down the Coffin, took out the Weapons, and rushed in upon the Dragoons, who were on Foot, and who behaved as well and as brave as any Men could do; they knocked down the Serjeant, whose Name was Johnston, and got his Carbine out of his Hand, which they fired directly at him; he however got another, and had the Satisfaction, it is said, to kill the Person who gave him his mortal Wound, with another of them, and died about 100 Yards from the Field of Battle; there was also one Finch, a brave Fellow, who was cut almost to Pieces, and since dead; and every other Man of the Party desperately wounded, but believe will all recover. Four of the Men, who it was thought were running away, turned short (as soon as they disengaged themselves from the Croud) and got behind a blind Ditch, within a few Paces of the Mob, and fired away all their Ammunition, 16 Rounds a Man (in Platoons) before they were knocked down, which from all Accounts did great Execution; some Reports say 24 were killed outright, and others only 17, and a great number wounded; Three of which were taken desperately wounded the Night before last: And it is also reported a great many others are taken, as there are several other Parties in Quest of them. An Officer Yesterday told me, he was informed a Party was sent down to Waterford, in Quest of about Ten who were wounded, and went there to be cured. Lord Carrick, and several Gentlemen, are exerting themselves a good deal in that Country; and indeed, it is to be hoped, every Well-Wisher to our Constitution will do the like. A great Number assembled the latter End of last Week about Ardinnan, went to the Rev. Mr.

...ing about six, the ... and returned the next Evening about the same Hour with 6 Men and 2 Women, all which were wounded, and brought to Town on Cars or Truckles.—Two of the above Men have since died of their Wounds in Goal. Four more of those Fellows have been found dead in the Deer Park, belonging to Lord Mount Morris, near Kilkenny, of the Wounds they received; and it is certain a great many have died in that Way.—Since the above, upwards of 500 of the White Boys appeared at Night about Callen, and have been so daring last Monday and Tuesday Nights, as to go within half a Mile of the Demesne of the Right Hon. the Lord Defart.—The Gentlemen in that Neighbourhood, are obliged to have their Horses in Stable before Night, lest they should be taken away and harrassed by these Rebels. Several Nights last Week, at least 600 of the White Boys appeared in and about the Town of Thurles, in the County of Tipperary, dressed in their usual Uniform; and without some Steps are speedily taken, to prevent these Commotions, it is feared these Rebels will rise in other Counties.

Extract of a Letter from Lisbon to a Merchant in this City, dated Sept. 24.

"Count Lippe sailed hence three Days ago, in the Expedition Packet, for Falmouth. The King made him a Present of the following Particulars:

His Majesty's Picture set round with Diamonds. Three very handsome Rings, a Stock Buckle, a Pair of Shoe Buckles, and Knee Buckles, all Diamonds.

A black Eagle (of which Order the Count is) set round with Diamonds.

Six Pieces of Gold Cannon of eighteen Inches long, the Circumference of the Breech of each is ten Inches, and each weighs 28 lb they are mounted on Carriages, curiously wrought of Pau Santa [or Ebony] the Hooks and Bolts of which are Silver.

"It is positively said, that the Evening before the Count sailed, his Majesty sent on board the Packet, a Box directed to him, also a Letter desiring he would not open the Box until he arrived in London, and that said Box contained Eighty Thousand Pounds Sterling in Money; if this latter be true, as it is generally believed to be, he has no Reason to repent his coming to Portugal.

"He has work'd like a Slave in modelling the Army anew, where are now 26,000 Troops as well disciplined as any in Europe."

Sept. 19. Letters from Elsinour of the 4th Inst. bring Advice, that they had a certain Account, that a most dreadful Fire had happened in the Ship-Yard at Revel, which had reduced the Russian Shipping there to Ashes, and that, by the said terrible Calamity, some Thousands of Men lost their Lives.

October 2. A Letter from Paris says, "The Cod-Fishery on the Newfoundland Bank has been this Year equally plentiful and advantageous to the Persons concerned in it. The People of St. Malo in particular have made Cent per Cent of it; which no doubt will encourage our Merchants to fit out next Year a greater Number of Vessels for this Trade."

By the last French Mail there is Advice, that the Number of their Vessels employed in the Newfoundland Fishery, amounts to upwards of 500 Sail, from 50 to 300 Tons, as appears from the following List: 50 from St. Maloes, 70 from Granville, 64 from St. Martin's, 49 from the Isle of Rhee, 110 from Bayonne, 70 from St. Jean de Luz, 38 from Sibour, 90 from Rochfort, and a large Number of small Craft from the different Ports of inferior Note along the Coast; and their Cargoes have fold from Thirty to Thirty-six Livres the Quintal.

The Whale Fishery at Bermuda has this Summer turned out extremely advantageous.

Letters from Cadiz, by Friday's Mail, mention the sailing of the Glorious and Subtile Men of War, with 1000 Troops on board, for Carthage-na in New Spain.

The Merchants are afraid of a Rupture with the Algerines; our Court not being satisfied, by any Means with the Divan's Condemnation of the Genoese Polacre taken under an English Pass, and the Dey seeming absolutely determined not to give up the Point, in allowing us the Liberty of granting Passes to the Vessels of other Nations.

On Sunday last died on a Visit at the Rev. Mr. Spence's at Durham, Mr. Robert Doddsley, Author of Cleone, the Toyshop, the King and the Miller of Mansfield, and several other Pieces of a moral Tendency, and late an eminent Bookseller in Pall-Mall.

Wednesday died, at her House at Greenwich, Mrs. Wolfe, Relict of Colonel Edward Wolfe, and Mother to the late heroic General of the same Name.

Thursday Morning died at Bath, of the Gout in his Stomach, John Lord Trevor, Baron of Bromham, and F. R. S. His Lordship leaving no Issue Male, his Title and Estate descends to his Brother, the Hon. Robert Hampden, Esq; Post-Master-General, now Lord Trevor, married (May 31, 1731) Elizabeth, Daughter to the late celebrated Writer Sir Richard Steele; by whom he had an only Daughter, named Diana.

It is expected that the 44th Regiment of Foot, which has been for many Years past, and now is on Duty in North-America, will very soon receive Orders to embark for Europe.

The unfortunate Prince John, who was lately assassinated in the Fortrefs of Schlussenburg, was Great Grandson, by the Mother's Side, of the Czar John, elder Brother of Peter the Great. The Czarina Anne dying on the 28th of Otober, 1740, appointed this young Prince for her Successor; and during his Minority, being scarce six Months old at his Accession, Count Biren, Duke of Courland, was nominated Regent; which the Princess Anne, the young Emperor's Mother, thinking she was better intitled to, if not to the Throne itself, ordered Count Munich to apprehend the Duke of Courland, caused him to be tried for High Treason, and condemned to die, but was content with banishing him to Siberia. After which she assumed the Regency, but did not enjoy it long; for the Russian Guards and Generals of the Army, conspiring with the Princess Elizabeth, youngest Daughter of Peter the Great, proclaimed her Empress the 5th of December, 1741, and made the Infant Emperor, with his Father and Mother, Prisoners. The Mother was said to die of Grief soon after her Confinement.

Otober 9. Some foreign Advices mention, that the Dey of Algiers has caused it to be notified to the several Powers with whom the Regency is at Peace, that in Lieu of the Presents occasionally made him, or on the Renewal of Treaties, he expects a Ship of War compleatly furnished, of a certain Force, and stored with Ammunition, to be navigated into the Port of Algiers.

Extract of a Letter from Algiers, Sept. 12.
"Near 800 Slaves are constantly employed here in making a Back Water, sufficient to contain the whole Algerine Navy secure from the Effects of a Bombardment, and strongly flanked with 9 Batteries of heavy Cannon. Perhaps you may wonder how this petty State is bold enough to maintain almost constant Hostilities with half the naval Powers of Europe; but so long as they continue to be supplied with Ammunition and Warlike

Stores from the other half, with whom they are at Peace, it is no Surprize they should ridicule the Report, that Spain, in Conjunction with the States of Italy, are arming on an Expedition against them. Europe has seen a much more formidable Power than Spain can pretend to, some Years ago, and even at this Juncture, trifled with, after a long Dispute about an illegal Capture by the Algerine Dey."

By the French Mail there is Advice, that the repeated Captures of so many valuable Merchant Ships, by the Barbary Rovers, have, at length, determined the Ministry to proceed against them with the utmost Rigour; and all the Ships now appointed on this Expedition are furnished with Oars, and are of the most swift sailing Construction that can be picked out.

On Thursday last, as a Gentleman of Family and Fortune, who has a Seat in Berkshire, was coming to Town with his Family, one of his Carriages broke down within 14 Miles of London which laid him under the Necessity of hiring Post Chaises for the Remainder of his Journey. The Gentleman's Daughter, who is 23 Years of Age and reckoned a great Beauty, seemed particularly affected with a very smart Fellow of an Hostler, who distinguished himself by his Activity, in getting the Horses put to the Chaises, &c. In Reward for his Dexterity, the young Lady enquired his Name, made him a handsome Present at that Time, sent for him on Friday following, and married him with a special Licence on Sunday. It is said she has 20,000 Pounds independent of her Friends. [A delightful Miss FORTUNE for the active Hostler.]

NEW-YORK, December 6.

Last Night arrived the Brig Bumper, Captain Duncan Brown, from Ivica, in the Mediterranean, last from Newfoundland. We have Advice, that the Algerines have taken many Vessels under English Colours, and with English Passes, belonging to other Nations; and that the Persons who have granted those Passes will be called to Account for it in England. At Naples, the Plague succeeded the Famine, and carried off great Numbers. A large Ship that went from Virginia, loaded with Wheat, was arrived there from Dublin, her Cargo much damaged.

ONE HUNDRED DOLLARS

Wherefore, from these and other Circumstances, there is Reason to apprehend, that the said *John* *Eales*, fraudulently intends to carry off the said Schooner, to evade the Discharge of the Bottomry Bill, and to defraud the said *Edmund* *Rutland* of his Right and Property in and unto the other Half of the said Schooner, and to convert the Same and the Cargo to his own Use.

WILLIAM KNAPP, WATCH-MAKER,

TAKES this Method to acquaint the Public, That he has provided an Assistant in the **WATCH-MAKING BUSINESS**, which will enable him the better to Dispatch the Work of those Gentlemen who have, and may employ him. He hopes his past Endeavours in that Way, may have answered the desired End. It is manifest from daily Experience, that Numbers of Watches (which have been originally well executed) have severely suffered thro' the unskilful and injudicious Practice of some Men, who assumed the Knowledge of a Business to which they were only Pretenders. Those Watches which have been many Years in Use, and consequently Wore, he will engage to Mend, as well as when New; and will at a very moderate Expence keep, those he Repairs, in Order, for Ten Years, all Damages excepted which may accrue to 'em from Accidents, such as a Fall, and the Breaking of a Main Spring, which the most discerning Workman cannot often Account for, nor be able to prevent.

He makes, and will Supply any Gentlemen with **HORLOGES, SECONDS, or PLAIN WATCHES,** and will engage the Quality to be equal to any Imported from LONDON.

THURSDAY, December 27, 1764.

[N^o. 1025.]

LONDON, September 21.

WE learn from Leyden, that a Florist there has an Aloe in his Garden, of the Species termed by Botanists, *Americana ex Vera Cruce-Major*, the Body of which is Three Feet and a half high, Four Feet Five Inches in Circumference, and has shot forth a Stalk of Thirty-one Feet in Height. From the Stalk proceed 46 Shoots, bearing 7856 Flowers. The whole Plant has near 100 Leaves, some of which are about Five Feet long, and so thick that they can bear the Weight of a Man upon them without breaking. This Aloe began to push forth its Stalk only within these two Months.

Yesterday in the Afternoon a Foot-match was run in St. George's Fields, Four Miles, for 10 l. a-side, between a noted Chairman and a Hog Butcher, the Chairman giving the Butcher 200 Yards at starting, which was won, by hard running, by the Chairman, who ran the Ground in Forty-two Minutes.

Lately Three Fellows broke out of Bridewell, one of whom was West, a notorious Pick-pocket, who was double Iron'd; but in less than three Hours after his Escape sent back his Irons in a Handkerchief, with a complimentary Letter in which he said he was much obliged to the Keeper for the Use of 'em, but now had no further occasion for 'em.

We are told from Guilford, that a Countryman near that Place, having laid a Wager with a Gentleman's Game-Keeper, that he would kill Seventeen Shot out of Twenty; after Three Days Search in Quest of Game, he made shift to win his Wager, killing Eighteen Birds; on which the Game-keeper went directly and laid Information against him, and the poor Fellow is now likely to pay the sum of 90 l. or lie in Goal for his Dexterity.

The Right Hon. Lord Petre is erecting a grand Seat at Thorndon in Essex, which was began this Summer: It consists of 17 Rooms on the Ground Floor, exclusive of Kitchens, Offices, &c. The Front is 300 Feet in Length, and when the whole is finished, it will be one of the most magnificent Structures in the Kingdom.

OB. 3. A Gentleman, a Prisoner in the Rules of the King's Bench, a Branch of the Family of the Hydes, Earls of Clarendon, has got a most remarkable Coffin by him, against his Intermment; it is made out of a fine solid Oak which grew on his Estate in Kent, and hollowed out with a Chizzel, it is 8 Feet in Length, about 4 Feet in breadth, 4 Inches thick on the Sides, and 7 Inches and an half at the Ends, the Lid is 3 Inches thick, made out of the same Oak: When the Corpse comes to be put in, after death, it is to be fastened down with oaken Pegs, the Weight of it is 500 lb and was not long since filled with Pusch, which held 41 Gallons, 2 Quarts, and one Pint and a half. The said Gentleman often lies down and sleeps in his Coffin with the greatest Composure and Serenity.

OB. 5. The following is well attested from New-market: During the Play, a young Gentleman laid down his Pocket-book to a certain Great Person, and betted the Contents, which was won by the latter: Upon examining it, there were Notes found to the Amount of 1500 l. upon which the young Gentleman was asked by the Great Person, if he did not know there was a Law, that no Sum should be laid above 500 l. which he answered in the Negative; whereupon the Nobleman gave him a gentle Reprimand, and returned him the Book, with the Contents.

OB. 8. On Thursday one Morrice, an old Woman, who had not been down Stairs for near Eighteen Months, was found expiring at her House in St. Giles's; she lived very miserably, as did an ancient Woman her Lodger. When Morrice was dead, there were near One Hundred Pounds in Money found in and about her Bed, notwithstanding which she died absolutely for want of the common Necessaries of Life.

On Thursday Morning one John Miller, called *The Running Glass-blower*, drank a Quart of Aniseed Water for a Wager of Half a Crown, at a House on Saltpetre Bank, near Rag Fair; he had

an Hour allowed him to drink it in, and swallowed it up in Fifty-four Minutes; but was soon after seized with Convulsion Fits, which carried him off the same Afternoon.—*Do not the Publican who sold it, and those who laid the Wager, deserve Punishment?*

A few Days ago one Nicholls, a Painter, known by the Name of the *Eating Spaniard*, for a trifling Wager, undertook to Eat Four Twopenny Cheese-cakes in Six Minutes; but expired as he was eating the last.

Extract of a private Letter (brought by the Pigot Indian) from the Camp of Doudanagur, in Bengal, dated March 5, 1764.

"Notwithstanding the great Success we met with in our late Campaign, our Affairs here are far from wearing a peaceful Aspect. Cofim Ali Cawn, late Nabob of Bengal, has purchased, at an immense Price, the Alliance of Sujah Doulah, a very powerful neighbouring Subah; yet I think it is to be questioned, if, in Conjunction, they dare dispute the Superiority of our victorious Arms. But Cunning and Treachery are the Characteristics of most Orientals; and those perhaps, may prove the Source of fresh Troubles to us."

A Correspondent from Paris informs us, that there are now in that City no less than four well frequented Academies for teaching the Rudiments of the English Tongue, and that one Mr. Cartwright, formerly Usher to a Boarding School in London, has no less than 300 French Youths of Distinction under his Care.

Admiralty Office, October 2. By Letters received from Commodore Palifer, dated at St. John's in Newfoundland, the 1st of last Month, it appears, that having dispatched a Sloop with a Letter to the French Governor at St. Pierre, to enquire into the Truth of the Reports which prevailed of the French having mounted Cannon, and erected Works on that Island contrary to Treaty, he, in Answer, received Assurances from the said Governor, that there was only one Four Pounder Gun mounted without a Platform, and with no other Intention than to Answer Signals to their Fishermen in Foggy Weather; that there were no Buildings or Works erected contrary to Treaty; and that the Guard consisted of no more than Forty-seven Men, and had never exceeded Fifty. It farther appears by the Commodore's said Letters, that there had not been, or were at that time, at the Islands of St. Pierre and Miquelon, more than one French Ship of War of 50 Guns, one Frigate of 26 Guns, and another of less Force, with two large Ships *en Flute*; the Destination of one of the said Ships *en Flute* being for Cayenne, and the other for St. Domingo: That None of those Ships had, and the Commanding Officer assured the Commodore, none of them would, enter into any of the Harbours on the Coasts of Newfoundland. And the Commodore adds, that the concurrent Fishery in those Parts of the said Coasts, whereon the French are by Treaties permitted to fish, had been carried on in perfect Tranquility.

Dublin, Sept. 8. William Levingstone, Servant to James Leslie of Stronocon, in the County of Antrim, Esq; walked from Glenarm to Dublin in 34 Hours, for a Wager of 250 l. He was allowed 48 Hours to perform this journey, which he did in near 14 Hours less. Glenarm is computed to be 106 Irish Miles from Dublin. [An Irish Mile is 1500 geometrical Paces; an English one 1250.]

PROVIDENCE, (N. E.) December 8. The General Assembly of this Colony, which sat here this Week, rose last Night; having first ordered an Address, which had before been prepared by a Committee, to be sent to his Majesty; praying that our Trade may be restored to its former Condition; that the Courts of the Admiralty may not have more extensive Powers in the Colonies than the Law gives them in Britain; that Stamp Duties and internal Taxes be not laid on the People here, without their own Consents; and, that the Colonies be not deprived of their just and long enjoyed Rights. The Assembly approved a large Piece, presented by the same Committee, tending to illustrate the Rights of the Colonies, and ordered it to be published; and transacted some other prudential Matters.

Extract of a Letter from a Gentleman in Philadelphia, to his Friend in this Place, dated October 25, 1764.

"Our House of Assembly last Week appointed a Committee to draw up a Remonstrance for our Agent Mr. JACKSON, to present to the House of Commons; they have accordingly sent it Home, and given Mr. Jackson Orders to join with your and every other North-American Agent."

PHILADELPHIA, December 6.

Yesterday arrived here the Greyhound, Capt. Alexander, from St. Christophers. On the 29th ult. he spoke with the Schooner Sharpe, Capt. Forest, from Antigua to Maryland, who three Days before met with a violent Gale of Wind, in which his Sails were Split, and the Vessel was very leaky. Next Day he fell in with the Brig Margaret, Captain Weeks, from Dominico for New-York, who had been in the same Gale, and received so much Damage, and the Vessel so very leaky, that the Captain and Crew were taken on board the Greyhound. Captain Alexander also spoke with the Brig Two Sisters, Captain Oliver, from the Bay of Honduras for Rhode-Island, who was likewise in the said Gale, very leaky, and short of Provisions.

Capt. Gregg, from Dundee, after the Storm, took up the Crew of the Charming Polly, Capt. Lunt, from this Port for Newberry; also the Crew of a Schooner, Capt. Archbold, from the Bay of Honduras for N. York, and brought them in here. The Day before the Storm, Capt. Gregg spoke Capt. Featherstone, from Barbados for this Place, and thinks he saw the same Ship after the Storm was over.

December 13. Since our last Captain Thomas Leake arrived here from Cork, who, in the late Storm, had all his Sails Split; and after it was over, spoke with a Brig from North-Carolina for Linn, in England, who had suffered greatly in said Storm, being obliged to throw overboard about Thirty Tons of her Cargo, she was so very leaky, and was bearing away for the West-Indies. He saw several other Vessels, who had all been in the Gale, but had not received much Damage.

The Sloop Elisabeth, Captain Killgour, from this Port for New-York, is cast away on Brigantia Beach; the Vessel and Cargoe intirely lost, and one Man drowned.

ANNAPOLIS, December 27.

A few Days since, Dr. UPTON SCOTT, was Appointed and Sworn Clerk of his Lordship's honourable Council of State, in the Room of JOHN ROSS, Esq; who has Resign'd.

His Honour the Commissary-General has Commissioned Mr. ELIE VALLETTE, to be Register of the Prerogative Office; and Deputy-Commissary of this County.
