## MARYLAND,

### Anne-Arundel county, to wit.

ON application to me the subscriber, in the records of Anne-Arundel county court, as one of the associate judges of the third judicial district of Maryland, by petition, in writing, of Thomas Whitefoot, of said county, praying the benefit of the act for the relief of fundy insolvent debtors, passed at November session, one thousand eight hundred and five, and the several supplements thereto, on the terms mentioned in the said act, a schedule of his property, and a list of his creditors, on oath, as far as he can ascertain them, being annexed to his petition; and the said Thomas Whitefoot having satisfied me, by competent testimony, that he has resided in the state of Maryland for the period of two years immediately preceding his application, and the constable of Anne-Arundel county having certified, that the said petitioner is in his custody for debt only; and the said Thomas Whitefoot having given sufficient security for his personal appearance before the Anne-Arundel county court, to answer all allegations as may be made against him by his creditors—I do therefore order and advise, that the said Thomas Whitefoot be discharged from his imprisonment, and that, by causing a copy of this order to be inserted in some one of the public newspapers, in Anne-Arundel county for two months successively before the 17th of September next, give notice to his creditors to appear before Anne-Arundel county court, in the city of Annapolis, on the said 17th September next, at 10 o'clock in the morning, for the purpose of recommending a trustee for his benefit, and to shew cause, if any they have, why the said Thomas Whitefoot should not have the benefit of the said act, and supplements thereto, as prayed. Given under my hand and seal, this 25th day of June, 1810.

## FOREIGN.

ODESSA, MARCH 3.

An American vessel has just arrived here from Baltimore. It is the first time that the flag of the U. States has appeared in the Black Sea. The captain is bearer of a letter from our consul general and chargé d'affaires in America, M. Dashkov, for our governor general. As we have now an accredited diplomatic agent in the United States, we hope that his mission will produce the re-establishment and regulation of commercial relations, which will prove very advantageous to both countries.

FRANKFORT, APRIL 25.

Our Fair has been as great as could have been wished; and bargains mutually advantageous were made during the first days. The German manufacturers hope, that even after a peace, the introduction of English manufactured merchandise will be prohibited in Germany: as it is considered to be the ruin of German manufactures. Several German sovereigns, and other personages of distinction, were present at the fair.

CONSTANTINOPLE, APRIL 26.

We have nothing new from our armies on the Danube. The Grand Vizier remains quiet at his head quarters, at Schiumla, and his inaction is attributed to a severe illness under which he labours. His life being sometimes despaired of, the Grand Signior has hastened to send him two skillful French physicians.

The preparations for war are immense: as it is understood that the Porte is resolved not only to fight the Russians, but also to drive the Wechabites from Medina and Mecca, which they still occupy. The Wechabites, after having plundered those two cities, greatly annoy the Mahometans in their Holy Pilgrimage, and threaten the neighbouring countries. The Sultan has ordered the Pacha of Bagdad and those of Egypt to assemble all their forces and march against them. Several vessels are fitting out at Suez, and other ports in the Red Sea, for the transportation of troops. Every thing remains quiet in Constantinople; but bread continues scarce, and extremely dear.

SARAGOSSA, APRIL 27.

General Count Soult has completely beaten, on the 20th inst., the army of Catalonia, which consisted of 8,000 infantry, and 5,000 cavalry. This army, commanded by general O'Donnell, entertained an idea of raising the siege of Lerida. The result, however, is that we have made 6,000 prisoners; among whom are 8 colonels, 3 regt. cols. and 300 officers; 2,000 men, among whom are a general and colonel, have been left on the field of battle. The equipages, the artillery and all the baggage wagons, have also been taken. General O'Donnell is the only one of that army who has escaped; and he owes his safety solely to the swiftness of his horse.

PETERSBURG, APRIL 29.

On the 9th inst., several companies of artillerists were sent to reinforce the garrison of Cronstadt. The 5th and 14th divisions will quit their present quarters, to go and defend the coast of the Baltic, and the Gulph of Finland, in Esthonia, in case the English should attempt any offensive measures.

The limits of the frontiers of Galicia being now settled, his majesty has ordered a reduction of the troops of that kingdom, and the surplus will occupy the neighbouring countries.

AUGSBURG, MAY 4.

Letters received from Italy, state that the king of Naples has travelled with incredible quickness from Upper Italy to Rome and Naples; in order, it is said, to take personal command of the army of the intended expedition, composed of French, Italian and Neapolitan troops. This army is already organized, and great praise is due to the generals, as well as to the minister of war of the kingdom of Naples, M. Daure. The army is also well found. Different conjectures are formed with respect to the destination of this expedition, but nothing positive is known.

ANVERS, MAY 6.

The emperor yesterday inspected the ship of the line Le Dalmate; and having found the place where she lay too much contracted, has given orders for improvements. This morning at 6 o'clock, their imperial majesties left this city for Bois de Luc. The king & queen of Westphalia, who were travelling companions, will remain here until they return.

WARSAW, MAY 7.

The Russian troops who were stationed along the frontiers of the Dutchy of Warsaw, have received orders to retire to Durins, whence they are to proceed to the coast of the Baltic, to oppose any attempt that may be made by the enemy. They have been on their march these fourteen days; upwards of 7,000 carriages have been provided for the pur-

pose of transporting the stores and ammunition.

PARIS, MAY 10.

M. d'Agan, minister of his Catholic majesty, (Joseph Buonaparte) has arrived in our city, as ambassador extraordinary from the court of Spain. He is from the head quarters in Andalusia.

BREST, MAY 11.

The minister of marine has received official intelligence of his imperial majesty's frigates La Venus and La Manche, having captured the United Kingdom, the Windham, and 3 other English E. I. company's ships. And that the frigate La Bellone, has captured the Portuguese frigate Minerva, and the English brig Victor, formerly La Jena.

TOULOUSE, MAY 27.

The month of May has been very gloomy in the department of the Upper Garonne (S. W. part of France).—Continual storms, multiplied hurricanes, successive inundations, and in some measure permanent, are the scourges which have afflicted these countries during the whole of this month, which usually brings with it many consolations and hopes. We noticed a few days ago an extraordinary inundation, and promised to publish its ravages; but since the 9th of May, the time of that disaster, inundations have succeeded each other with continued despair. All the promising crops which enrich the fields on the banks of the Garonne, have been swept away; trees have been torn up by the violence of the waters; the meadows have been covered with flame and gravel. The consequences are deplorable; but unfortunately our fields have sustained other losses, not less serious, in consequence of these storms, which have produced so many overflows. The districts of Muns and St. Gadens have particularly been the victims of those plagues.

VIENNA, MAY 11.

We are informed Lemberg, in Galicia, that from Etsz-Litewky, in the lower part of Zaleckit, the Russian forces amount to 60,000 men. They are commanded by lieut. General Doktorow. The division under Lieutenant General Prince Suvarrow, consisting of 11,000 men, extend from Tornopol to Zaleckit. The officers lodge in the castle and the soldiers are distributed in the villages. The price of provisions has very much increased: we now pay from 15 to 16 florins for articles, which fifteen years ago only brought from 3 to 4 florins. The Russian troops in Moldavia, it is said, have greatly suffered in loss of men, owing to the influence of the climate and want of provisions; but at present, the season being fine, they are well supplied, and the army is in a very good state.

It is reported that the Turks have again committed some excesses in that part of Georgia ceded to France; but this news wants confirmation, as there are no details.

COPENHAGEN, MAY 12.

For 3 years past we do not recollect having seen so many merchant vessels arrive in the harbour of Elsinore, as on the 10th; seventy of which, both German and American, have safely anchored. The greater part of them, however, are bound up the Baltic.

Our privateers have carried into Hornek, an enemy's ship, laden with gunpowder, cannon, and other warlike munitions.

AMSTERDAM, MAY 19.

His majesty the King, by a decree of the 29th April, has conferred to admiral Verhull, his Ambassador in France, the title of Count of Sevonaar, and to admiral De Winter, that of Count of Hueszen.

BERNE, MAY 20.

His majesty Gustavus Adolphus, (ex king of Sweden) arrived in this city yesterday morning.

OSTEND, MAY 21.

Their imperial majesties sat out this morning at 7 o'clock for Dunkirk. The emperor has left six thousand francs to the poor of this city; and the emperor has given 12,000 francs, to be appropriated in repairing the decayed and decaying tombs of the ancient sovereigns of the country.

MUNICH, MAY 24.

We have observed to these six or eight days, an extraordinary exchange of couriers to have taken place between our city and Ratisbon. We expect also the return of a courier who has been sent to Paris with dispatches, which are said to be of great importance.

STUTGARD, MAY 24.

A report prevails throughout this place, that the city of Ulm, as well its territory, are ceded to the kingdom of Wurtemburg, and that the treaty which is to regulate our limits with the kingdom of Bavaria, is on the eve of being signed. M. Count of Monzelas was to leave Paris on the 23d of this month.

Copy of a letter from a gentleman in Havanna, to another in Philadelphia, dated,

HAVANNA, 30th JULY, 1810.

Dear Sir,

I have just witnessed a scene from the upper story of my house, so awful and solemn, as almost to chill my blood—the execution of the sentence herewith enclosed.

The youth and appearance of the prisoner, his solemn acknowledgment to the public at the prison door, of his guilt, and the justice of his sentence, and his great contrition, and the decent deportment of all classes of people, thro' whom he passed, from the prison to the place of execution, made the scene truly solemn and awful.

The arrangement made by the governor on the occasion, entitles him to high credit; as it not only insured safety to the people, but tranquillity to the city. Not an insult was offered to the prisoner, and his conduct was such as to draw down the pity of all who saw him on his route to the place from whence he took his leave of the world. There are a number of his associates now in the United States, and three or four of them hourly expected here, who will on their arrival share a similar fate. The seizure of this deluded young man and his papers has completely developed the plans of the traitor in South America, as in all the other provinces of Spain, and put government into possession of a list of all their names, their emissaries, their places of residence, to what port or city bound. The Carte Blanche found in his possession, signed by Jolob, as well as blank commissions, were hung under the gallows while he was suspended there, by the public hangman.

It is said that he had authority to name and commission all officers in New-Spain under a brigadier general, and had with him commissions for the new Viceroy and chiefs of the kingdom.

A schooner is now getting ready and will be off in about two hours for Vera Cruz, with a list of the names of the emissaries already in that kingdom, and the names of all those implicated by the confessions or the papers of this unfortunate young man—and I hope sincerely that measures will be there taken in time to avert and secure them, before that valuable and beautiful country is deluged in blood by their nefarious conduct.

His papers were well secured in trunks, made in France or Spain, for the express purpose, without a false bottom or having the appearance of being thicker than usual, but by boring were found, and the trunks they split up.

I am, Sir, &c.

The following is a copy of the proclamation, alluded to in the foregoing letter:

Don Salvador José de Muñoz Salazar, Marquis de Someruelos, Lieutenant General of the Royal Armies, President of the Royal Audience of Puerto Principe, Capt. General of the Island of Cuba and of the Provinces of the Two Floridas, and Political and military governor of Havanna, &c.

Makest known to all the inhabitants of this city—that having substantiated and determined the case of Manuel Rodriguez Alemany Pena, with the approbation of the Judge Advocate Don Joseph Antonio Ramos, and two other learned doctors of law of my full confidence, he has been sentenced to suffer the highest punishment for having been guilty of high treason and as an emissary of Joseph Bonaparte, who came instructed to dissolve the ties which unite us with the legitimate government of Spain, and to promote discord and division in your peaceful countries with

a view that Americans, flogging that which has always characterized them, should acknowledge and obey the authority.

The judges have designated the day on which this ill advised young man will be executed, to expiate his crime and treachery on the 22d of August, which will be on tomorrow morning (Monday) at 7 o'clock.

But, citizens of Havanna, justice is incompatible with compassion and indulgence. Those virtues shine pre-eminently in your hearts. Let not your anxious desire for reprieve confound nor suffocate your sentiments of humanity. Abhor the crime, but pity the criminal. This maxim should be strictly observed on the day of execution. A peaceful and well disposed concourse will tend to make the act more pathetic and terrible. Consider, unnecessary and improper trials, illiberal epithets, or uncivil actions, are unbecoming worthy citizens, and must always produce melancholy consequences. On the contrary, clemency and good order are the inseparable companions of noble souls.

With abundant reason I flatter myself in the docility of your dispositions, that during the passage of the criminal from the gaol to the gallows, and in the act of his execution, you will afford ample proofs of your civil and christian moderation, by compunctioning the unfortunate fate of one who could forget the sacred principles of patriotism, to unite himself with the enemy of his country, if notwithstanding my expectation and precept, any one should contravene, he be immediately apprehended and punished proportion to his excess, and to the quality of circumstances of his person. And that it may be publicly known, and in case of conviction, none shall plead ignorance, it is ordered to proclaim it through the city by beat of drum, and that handbills duly authenticated by the notary of the government, be up in the usual places.

Havanna, July, 29, 1810.

EL MARQUIS DE SOMERUELOS  
By order of His Excellency,  
MIGUEL MENDEZ.

Extract of another letter from Havanna, dated July 30th.

"Don Manuel Rodriguez Alemany Pena, in conformity with his sentence, was executed this morning, very much piteous of the citizens. He was a young man of 25 years of age, a native of Mexico, and a very genteel family. He left his own country in company with signor Arana, viceroy of that kingdom, who, it appears, poisoned the unfortunate young man."

Mosting, July 31, 1810.

SEBASTIANS, APRIL 21.  
To the Master Commissioner of Sequestration.

The emperor has decreed on the 11th instant, that the American vessels under sequestration shall be sold, in consequence of which you will discharge the crews, and you will result with col. Balle for that purpose, whom I now write. You will let the taints, officers and crews of the vessels be free disposal of their private effects. You will take the same until further orders, of all the original papers belonging to such vessels. You will obtain from the consignees an attested account of all expenses paid for each vessel and cargo until the day of discharge. You will pay to Bayonne all the vessels loaded, or unloaded, provided they can pass the bar of Bayonne in safety. Those vessels that cannot pass the bar must be lighted for that purpose, should any of them, after being made so, as they can, with safety proceed from port to another, be still too deep for the bar of Bayonne, you will secure them at Pauillac. You will use the utmost expedition to transport them to Bayonne; the cotton by land, and the heavy articles by water; and will from time to time inform me of the progress you make.

NEW-ORLEANS, JUNE 22.  
The United States brigadier, one of her boats came to this port, on his return home.

Dead, at sea, on his passage to New-Orleans, was a young man, who was ordered (as we were informed) to cross in our waters for the purpose of fighting the pirates.

All the information we have received corroborates the letter which we published concerning Sarah. Deputies have been sent to the port of Baton Rouge, who are gone to the annual convention or congress.

It is generally understood that the port of Baton Rouge is favourable to the people. We also find that the people continue to place much United States for their part of Florida which they have by them.

BOSTON, AUGUST 1.

FROM TONNING.

By the tall-sailing ship which has arrived at Salemsburg after 45 days—the following letter was received by the Danish government.

In order to prevent a collision with the American fleet, which has been apprehended by the abominable fog, between the islands of Tanning and Haffsum, the Danish government has issued a general order.

That from the time the order shall be published, no ship shall be allowed to enter the harbours of Tanning and Haffsum, nor shall any ship bearing the colours of the United States be permitted to enter

Navy. He had the command of the Vix-

cruise in our waters for the protection of our  
trade. Lieut. Trippé was a brave active offi-  
cer, and had signalized himself in the Tripo-

All the information we have received from  
West-Florida, corroborates the extract of a  
letter which we published yesterday, from Ba-

It is generally understood that the governor  
of Baton Rouge is favourable to the views of  
the people. We also find that the people  
continue to place much dependence on the  
United States for their protection, at least  
that part of Florida which has been claimed  
by them.

French troops are to do the duty. There  
has lately been a renewal of the old demand,  
by the French, which has never been paid,

It was said at Hamburg, June 21, that  
the American property at Konigsburg, Stettin  
and Stralsund, was sequestrated; but a  
passenger says, that the intention being  
known some days beforehand, most of the  
property was got off.

The passengers in the Plate report that all  
American vessels at Stettin were sequestrated.

A Newport ship at Stralsund, and about  
30,000 dollars value of the cargo of the ship  
Mount Vernon, of Salem, were sequestrated.  
The cargo was on shore, had been sold,  
but was returned on Captain Flint's hands.

No account of any seizure or sequestration  
at Konigsburg, but it was reported they  
would not be allowed to sell there.

The Danish government was believed  
friendly to American commerce, but could  
not resist the wishes of higher powers. The  
warning American vessels not to enter port  
(which prevents the risk of seizure and  
sequestration) was considered the best service  
the king could perform.

At Hamburg were only about 20 city  
troops; a body of French were to march in,  
as is frequent, to squeeze out a new contribu-  
tion of cloathing, &c.

POET'S CORNER.

SELECTED.

THE LIGHTHOUSE.

THE scene was more beautiful far to my eye,  
Than if day in its pride had array'd it;  
The land-breeze blew mild, and the azure  
arch'd sky,  
Look'd pure as the spirit that made it.  
The murmur rose soft as I silently gazed  
On the shadowy wave's playful motion,  
From the dim distant isle till the Lighthouse  
fire blazed.  
Like a star in the midst of the ocean.  
No longer the joy of the sailor-boy's breast  
Was heard in the wildly breath'd numbers;  
The sea bird had flown to her wave girded  
neit,  
The fisherman sunk to his flumbers.  
One moment I look'd from the hill's gentle  
slope,  
(All hush'd was the billows commotion,) And thought that the Lighthouse look'd  
lovely as Hope,  
That star of life's tremulous ocean.  
The time is long past and the scene is afar,  
Yet when my head rests on its pillow,  
Will memory sometimes rekindle the star  
That blaz'd on the breast of the billow,  
In life's closing hour, when the trembling  
soul flies,  
And death stills the heart's last emotion;  
Or then may the seraph of mercy arise,  
Like a star on eternity's ocean!

**Mr. POULSON.**  
For the benefit of Hat Manufacturers, and others concerned in dying; please to publish the following receipt for dying black, without verdigris, and oblige yours.

**S. R.**  
For 40 hats, take 1 lb. Roman or blue Vिं त्रिल पूँड, and 1 lb. pearl ash, dissolve in a small quantity of water, taking care not to put the whole in at once, least it should ferment & overflow; this is to be used as Verdigris usually is, that is by pouring in the usual quantity of the liquor at each time. The quantity of Copperas and Longwood may be the same as when Verdigris is used. By this method a most excellent bright and glossy black may be made equal if not superior to any made with Verdigris, and with considerable saving of expence, as verdigris at the present price, (3 dollars per lb.) would cost at least 1 dol. 50 cents, whereas the above articles will not cost 50 cents.

**IMPORTANT TO FARMERS.**

There has been for some years an increasing attention to the propagation of fruit trees; but it is to be regretted that the labour is often lost by one common error, letting the grafts grow too near the trees. No young tree will grow well when a scion is formed round it. Yet in travelling our country in every direction we see this error. The earth should be turned over in the spring, and latter part of the summer, at least two or three feet from the young trees; and then all the weeds and grass that spring up will rot and become excellent manure for them. By such culture trees will grow rapidly, but without it their growth is extremely slow, and they often die without coming to maturity. The importance of raising forest trees, is every year more apparent, as there is an increasing scarcity of wood and timber in all the old towns; in order to propagate them the young trees must have the same culture as fruit trees.

**N. B.** In planting all kinds of trees, the hole must be much more extensive than the roots, and be filled up with the best earth, that there may be a quick and vigorous growth. Although an observance of the method of cultivating trees will require more labour for a few years, yet it will be great gain, as the trees will be larger in seven years, than they will grow in twenty, and sometimes thirty in the common way.

**PRACTICE.**

*American Millstone Manufactory.*

An extensive bed of stone has lately been discovered by Mr. Joseph Sigfried, in Allen township, of a quality superior to the French burlone.

Two enterprising millstone manufacturers, Meissner, Spong and Chirillian, of Reading, Berks county, came to view the stone in March last, and prepared and transported to Reading, as many as completed, two pairs of millstones, which on trial surpasses even their most sanguine expectations.—They have since at a moderate rate secured for a term of years the valuable part of the bed, and are now working in it to great advantage—upwards of 60 pair of these millstones have already been broken for. Paul's Domestic Infallible  
Columbian Oil.

THE inventor of this highly esteemed medicine is a native of America, and the composition is the production of American oil, consequently it is in every sense of the word domestic, it is not passed up with a numerous train of pompous foreign certificates of persons from whom by the great distance that separates us 'tis impossible to obtain information, therefore the public has better security for their money as there cannot be the least shadow of deception to cover his medicine, for he simply appears before the community with his invention and an experimental detail of the various cases in which it really is so wonderfully efficacious, and in which he is supported by the following certificates of respectable characters, whose names are not only subscribed, but their persons may be also consulted, being residents within the circle of our own neighbourhood. The following are the complaints in which the Columbian Oil has been found to be efficacious and rarely ever fails of effecting a cure—viz. Rheumatism, Consumption, Pains in any parts of the body, but particularly in the back and breast, Colds and coughs, Toothache, Pleuritis, Chills, Cramps, External and Internal Bruises, Sprains and Flesh Wounds, Scalds and Burns, Whooping Cough and Mumps, and Dysentery or Bloody-dys, Croup and the summer complaint in children, and in a weak stomach that is caused by indigestion, a constant sinking and loss of appetite, it will act as a powerful bracer to the relaxed fibre and restore it to its proper tone.

It seems also as if nature had ranked it the first of the class of all pectorals and expectorals for the relief of the breast and lungs, as it scarce ever fails of removing obstructions in either, particularly those who are troubled with asthmatick or Alithmatic complaints, who in the act of walking fail, Rooping or lying down, are almost suffocated, half a tea-spoonful of the Columbian Oil will render some relief instantaneously, and if continued agreeable to the directions in such cases, will prove a radical cure by producing the full power of inflation to the lungs and free expansion to the breast.

CERTIFICATES OF ITS EFFICACY.

**No. 1.** Sept. 1809.  
I do certify, that I have been ailing nearly two years with a hectic cough and violent impression at the breast—I applied to the most eminent physicians and could get no relief from my low state of health, until I got Paul's Columbian oil, and found immediate relief. I take this method of informing the public of the efficacy of this valuable medicine, from the cures which I have experienced—I think it an incumbent duty to offer the same to the public.

Sir,

From the great benefit I received from your Columbian oil, I am induced to state, I was taken with a violent sore throat, about the 25th of Aug last, which continued till the first of the month, when I applied your oil externally, and washed the part affected with the oil diluted in the same quantity of molasses, which took away pieces of purulent flesh and healed my throat in about 48 hours.

**N. B.** I also certify that I nursed my grandchild, an infant of 17 months old, which was taken about the first of August with slow fevers and loss of appetite. We immediately applied for a physician who gave every attention for about 10 days but all to no effect; the child was given up by the physicians, and had every appearance of death, when I applied for Paul's Columbian Oil, and gave five drops morning and evening for five days, when the child began to recover, and is now in perfect health.

I have great reason to be very thankful for being recommended to Paul's Columbian Oil. I had been afflicted with a violent pain in my back, so that I was not able to walk. I procured one phial of the oil, and I received immediate relief, & I have been very well ever since.

**N. B.** I had a violent toothache about two or three months ago, when I dropped a few drops of the above oil on some lint, and applied it to the tooth affected, and I received immediate relief.

I comply with your request, of stating my opinion of Paul's Columbian Oil, being an effectual remedy for the tetter worm. I have been afflicted with the tetter in my hand for 12 years, and have made trial of many medicines which have been recommended, but all to no effect. Hearing of Paul's Columbian Oil, about the 15th of January last, proving an effectual cure for the ringworm and similar complaints, I immediately got a phial of your Oil, and applied it agreeably to the directions for about two months successively—when the tetter left me, and has not made its appearance since.

**SUSANNA PURDEN.**

**N. B.** My Susan, a child aged twenty months and six days, was taken about the middle of July last with a violent cough, which the neighbours said was the whooping cough; I gave her six drops of the Columbian Oil, which gave immediate relief, and proved an effectual cure.

**No. 6.** Philad. July 8, 1809.

By your request I do certify, that I had been a long time dangerously indisposed, and was reduced to the lowest state of weakness, in so much that

my recovery appeared doubtful; my complaints seemed to be afflictions of the breast and lungs— I could procure no relief from incessant coughing, nor breathe without great pain and difficulty— when, by the use of one phial of Paul's Columbian Oil, my distressing cough left me, every other symptom was removed, and I was restored to an excellent state of health, which I now enjoy.

I do hereby certify, that I was violently attacked with the pleurisy on Sunday, the 8th inst. On Tuesday morning, the 10th, my father procured me a phial of Paul's Columbian Oil, which was immediately applied to my right side, where the pain was the severest, three or four times, with a piece of flannel kept to the part affected; and I took fifteen drops internally 3 times a day for the first 2 days; and the second day after using the oil, I was able to walk about the house; the third and fourth days I took the oil 15 drops night and morning, which entirely relieved me from pain and fever, thanks be to God for it, and now I am a well man.

**E. CATHARINE WALKER.**

No. 13.

Sir,  
Having experienced so much benefit from your Columbian Oil, it could be an act of injustice to you, and a want of feeling for those who may suffer under similar complaints, were I not to use my utmost endeavours to give this public testimony of the wonderful virtues it possesses.

I was attacked with a violent pain in my left leg, which I supposed was a touch of the rheumatism; it continued to grow worse every day, so that at last my knee began to get stiff, and could by no means bend it; during this which lasted about five weeks, I was seized with a most dreadful pain in my right breast, which pierced through to my shoulder blade, and extended down my arm. During this situation a variety of remedies were applied, but all without effect. At last I was advised to try Paul's Columbian Oil; I accordingly procured a bottle, and found it soon relieves from the first application; and by paying proper attention to the directions for using it, I was, to the astonishment of all who were acquainted with my situation, in five days entirely free from all pain, and have now the use of my leg as well as ever; and any person who may peruse the above certificate, being desirous of any information respecting my case, I have no objection on their making application, to give them every satisfaction in my power respecting it.

I am sir, yours, &c.

**GEORGE L. HUGHES.**

Market-street, Baltimore.

To Mr. Thomas Paul, Inventor  
of the Columbian Oil, Harrison's Creek, Baltimore.

No. 14.

Sir,—Conceiving it to be my duty not to conceal from the public the virtues of your most valuable Columbian Oil, from which I received so much benefit, I am therefore induced, from a principle of gratitude for my recovery, to give a short statement of the complaint under which I suffered. I was first seized in the right hip with a most intolerable pain, which seemed exactly in the joint, and on the day following a dreadful pain in my back, which lasted about three weeks; during which time I could not walk upright, but always

in a bent posture, and if seated in a chair, the pain would be so excruciating in the act of rising, screaming. My appetite had entirely left me, and a constant headache would sometimes almost deprive me of my senses; in fact I was in a very deplorable condition. A great number of remedies were tried, but to no purpose; I had also the advice of an eminent physician, who prescribed the hot bath, &c. which were regularly attended to, but without the smallest advantage. I had about nine ounces of blood taken from me, but the complaint did not give way in the least degree. I was then advised to try Paul's Columbian Oil, but with very little hopes of succeeding; when to my great surprise and comfort, I was sensible of some ease in my hip on the first time of anointing; the next day the pain in my back was abated, the headache left me, and in four days I was perfectly recovered.

NEW-YORK, AUG. 19.

### FROM ENGLAND.

On Saturday evening arrived at this port, the ship *Pacific*, capt. Stanton, from Liverpool, sailed the 8th July. We have received from captain Stanton London and Liverpool papers to the 6th instant.

From the papers we have made some selections for this day, but it will be perceived that they are not important. The price of wheat flour, cotton, &c. was very high in England.

Great supplies of wheat were expected from the Baltic—50,000 quarters were received in London in one week, from France and Holland. The prospects of the coming harvest more favourable. Cotton was brisk at 14 to 16d. American superfine flour, 66 to 69s. per barrel—American wheat, 17 to 17s. 6d.

Brown, the late collector at New-Orleans, was seized in the theatre in London, at the instance of Mr. Pinkney, our minister at that place—to regain his liberty he gave up all his bills of exchange and other property, which is now in the hands of Mr. Pinkney in trust for the U. States.

LONDON, JUNE 26.

LAST night we received Paris papers to the 20th and Dutch to the 23d instant, from which we have given some interesting extracts.

The desertion of the French gen. Sarrazin, as might have been expected, produced no small degree of stir at Boulogne. The countersign was immediately changed along the French coast, and measures adopted to frustrate any attempts that might be made by the English government in consequence of information derived from him.

These journals contain details of the French operations in Catalonia. It appears that Augereau has arrived in Paris, and has brought thither the military details of the achievements within the circuit of his command in the north-eastern districts of Spain, but which afford nothing new.

Some of the troops intended for Spain are said to have received another destination. They are ordered to the coast of Britany, where, according to rumour, a large force is to be collected. There is a great affection of mystery with respect to the ultimate destination of this army, but enough is suffered to transpire to indicate a project of invasion of some kind.

By letters from Malta, dated 7 days subsequent to brigadier gen. Oswald's despatches, we learn that there was great danger of our troops being obliged to abandon their new possessions so gallantly acquired in the Adriatic Sea; as our whole force amounted only to 10,000 eff-ctive men, against which the enemy were then proceeding from Naples with an army of 40,000.

JUN 27.

It is confidently rumoured in the circles connected with government, that ministers have resolved immediately to withdraw the British army from Portugal. Whether this resolution has been adopted in consequence of the increase of the French army being such as to leave us little hope of ultimate success from a prolongation of the struggle, or from what other motive we know not; but we have reason to believe the present determination of ministers to be as we have stated.

We have this morning received an influx of Continental papers. They consist of French to the 21st, Dutch to the 24th and German to 20th inst. The most important article they contain is that in which we are informed, that by a treaty of alliance between France and Austria, the latter power is bound to furnish a contingency of 150,000 troops, to co-operate with the French in the vast projects, which still remain to be executed by Napoleon.

JUN 28.

An article from Hamburg states that the scheme of marrying Ferdinand the VIIth, to the daughter of Lucian Buonaparte, has been abandoned, and that she and her father had returned to Italy.

American papers to the 29th May have been received, but the only novelty which they present is a copy of the correspondence between the Marquis Wellesley and Mr. Pinkney, relative to the recall of Mr. Jackson, from which we have given some interesting documents.

JUN 29.

Letters of 24th, from Amsterdam, mention a very singular report current in that city, that there is a general insurrection in this country, and that the object of gen. Sarrazin's visit to England was to give every possible assistance & encouragement to the disaffected party. The same letters mention that the exportation of corn has been prohibited from the Dutch ports, "because the French have prohibited the export of corn to Holland." They also state that a French consul has arrived at Koenigsburg, for the purpose of superintending the trade of that place.

### EXCHANGE OF PRISONERS.

The following paragraph on this subject, appeared in the *Paris Moniteur*, of the twenty-fifth, in the form of notes upon two articles extrated from the London Journals:

"The assertion that France proposed to comprehend in the exchange the Russians taken in Poland and the Swedes taken in the last war, is calumnious and absurd. If the English adopt, as the basis of the exchange, that of including all prisoners who were comprised in the two belligerent masses, that is to say the Spaniards and Portuguese, there will no longer be any obstacle to the exchange of prisoners, and 110,000 men will return to their country. Observe that of these 110,000 men, France will send home upwards of 70 thousand English, Spaniards and Portuguese. The object of this article is to induce a belief, that the delay which prolongs the sufferings of so many families ought to be attributed to France, and to cast the whole odium upon her; whereas, on the contrary, Mr. Mackenzie has been for a month without an answer to his despatches, and without instructions. If the negotiation lags, it is the fault of England.

Gen. Sarrazin was on duty when Napoleon and his new empress were at Boulogne. After viewing the fortifications, and every thing interesting in the town, they went to the heights to take a peep at the ocean. The Austrian princess had a telescope in her hand, and observing a vessel cruising at some distance, she inquired what it was, and was informed that it was an English vessel. Perceiving five others in the harbour, she asked what they were, and was told that they belonged to the emperor. She then asked why the five vessels did not go out and take that belonging to the enemy? At this moment, Buonaparte, who had shewn a restless impatience, could restrain his feelings no longer, but snatching the glass out of her hand, exclaimed in the French language, with great impetuosity—"Because the world is not fair!"

### RIOT.

On Saturday night a very serious riot took place at Liverpool. A man belonging to an American vessel in the harbour, having been impressed, on the ground of his being an Englishman under an American protection, a body of American seamen, taking the opportunity afforded by the people about the docks being absent at dinner, proceeded to the rendezvous house, and being refused admittance by the only one of the gang then in the place, they broke open the door, and dragged him on board an American vessel in the dock; they then proceeded to tarring and feathering, and accordingly stripped naked, & rolled him on the deck of the vessel, on which a quantity of tar had been previously poured. Featherers, however, not being at hand, they shook a cotton bag over him, turned him loose into the town, driving him along the docks and through Hanover-street. The poor fellow in a most piteous plight, at length found shelter in one of the neighbouring streets. One of the ringleaders has been apprehended and committed for trial.

JUN 30.

The queen of Holland is dangerously indisposed at Plombiere.

Some advices from the Baltic reached us yesterday. Nothing decisive is mentioned respecting the rival candidates for the succession to the throne of Sweden, the hereditary duke of Oldenburg, and the king of Denmark. It is understood at Stockholm and elsewhere, French intrigue is extremely active to procure the appointment of the latter, but the detention in which the Swedes hold the Danes, will, no doubt, render the nomination of a Danish sovereign a task very difficult to accomplish.

JULY 2.

Yesterday morning the Leveret sloop of war arrived at Yarmouth, and landed Augustus F. Foster, Esq. late British chargé d'affaires at the court of Stockholm. Mr. Foster was landed under a salute, and set off immediately for town.

By a vessel which passed the port of Dover yesterday, from Dieppe, accounts have been received that a report was in circulation at that place, on her departure, and generally credit-ed, that an embargo would be laid on all French ports on the 1st of July, (yesterday,) and continue in force for six months, in conse-quence of which all vessels were preparing to get away, whether loaded or in ballast.

It is also reported from the opposite coast, that the French have sustained a great loss of men, by the springing of a mine before Cadiz, but no date is mentioned for this event. Government, we understand, have received no despatches from lord Wellington of a later date than the 9th ult. Ministers, it is affirmed, have received advices that Napoleon is collecting an immense force in the Adriatic, both of ships and troops. The point intended to attack is probably Egypt, from which he may most successfully annoy our possessions in the east; and it is probable that the threatened attack on Sicily is intended to co-operate with this principal ob-ject.

The master of a neutral vessel just arrived from Nantes, states, that neither there nor any other part of the French coast in that direction, is there any assemblage of troops; and if this information be correct, it follows, of course, that the reports in the foreign journals of the formation of an army there to menace the shores of Britain, is a mere stratagem of the enemy to excite alarm among us, and prevent any further reinforcements being sent to our armies in Spain and Portugal.

Since our last, Paris papers one day later than those received on Saturday, have reached us; also a few German papers. The southern part of the Tyrol has been formally incorporated with the kingdom of Italy, a circumstance which destroys every hope of the future independence of that country. A gentleman, who has just arrived from Rotterdam in a fishing vessel, which was repeatedly fired at by the French guard, says, that Napoleon is endeavouring to transfer the whole export of the produce of the country to the city of Antwerp, where licenses are obtained without difficulty for pecuniary compliment. The only force in Amsterdam was the Royal Guards of Louisa, consisting of 6000 men. At Rotterdam there were 1000 French, and in different stations along the shores of the Meuse, about 19,000 more. For the insult to which the French were lately exposed, at Rotterdam, the Dutchmen in that city have been obliged to pay 100,000 guilders, & they have since shewn no disposition to give the same offence, and incur the same penalty.

### SPAIN AND PORTUGAL.

There was a rumour current yesterday, in the higher circles, which, if it be well founded, implies a total change of plan in the operations of our army in Portugal. It was said, that lord Wellington, with the whole, or greater part of the British army, was to embark at Lisbon, for the purpose of proceeding to St. Lucar, and afterwards co-operating with the garrison at Cadiz, to raise the siege of that city, and expel the enemy from Andalusia. The defence of Portugal was in the mean-time to be committed to the Portuguese and Spanish troops, under the command of marshal Beresford and the marquis de Roman.

JULY 3.

A Gottenburg mail arrived this day, and has brought us German papers to the 24th ult.

### DANISH EXCLUSION OF AMERICANS.

*Banks of the Elbe, June 22.* The king of Denmark, following the example of the king of Pomerania, has given orders to exclude all American ships. The beginning has been made at Tondingen, and Husum, and will shortly extend to Copenhagen. Serious apprehensions are entertained for American property in Stralsund and Swedish Pomerania. Since the departure of governor Effen, another Swedish governor has arrived in Stralsund, who has stopped every kind of trade in colonial products, and ordered the confiscation of not only ships, but also of carriages and wagons in which they may be found, together with the horses.

Private letters yesterday received at Hamburg, from Paris, confidently state that a second line of French Dounaies is to be established, which will reach from the Elbe to the shores of the Baltic.

### THE BOURBONS

Private letters received from Paris, state, that the new empress is disliked by many persons at court for her pride. She shews her resentment to all persons in the least degree implicated in the unhappy catastrophe of Louis the Sixteenth. Several persons of distinction have for this reason been removed from court, and lost their employments.—The French general at Hamburg, Melier, is said to have exacted from that unhappy city another forced loan, without security, 2 millions of francs for his government. He also wished to encamp, with his whole division of 18,000 men, on the frontiers of Holland; but the senate proving their inability to procure the necessary wood for building huts, and houses for the officers, the plan was relinquished.

### SWEDEN.

The Leveret sloop of war has brought over Mr. Foster, the British minister, from Stockholm, and his withdrawing is attributed to the influence of the French ambassador resident in that city, who is supposed to have availed himself of the mistake in the instructions of sir James Saumarez, to persuade the Swedish government that a declaration of war must be the natural consequence of the conduct of the British fleet.

### PEACE!

Dutch papers arrived this morning to the 1st instant, German to the 24th ult. and a Gottenburg mail. The Hague Courant repeats the assertion that we have demanded the cession of the Swedish fleet and the Island of Gotland. The *Moniteur* however asserts what we know to be untrue, that admiral Saumarez is quitting the Baltic. The Dutch paper declares that hopes of a general Peace are not yet at an end. We cannot imagine what encourages the Dutch to sup-

pose Peace practicable at the present time. We, in this country, know such a time to be perfectly absurd.

JULY 4.

We received this morning a large intelligence—from Spain to the 17th, and German Papers, which used to be injurious to us, when compared with the Paris, are now suffered to transpire in communication with them; while the Paris press keeps entirely devoted to the details of facts and theatrical representations.

A coldness has taken place between Austria and Russia on the subject of which it may be that Buonaparte's policy will prove into a war. Russia has presented to the Austrian Minister at Petersburg, Wallachia and Moldavia as to be considered as Russian provinces governed by Russian laws. She has put a stop to the exportation of several articles from Wallachia to the Austrians, and has deprived the Austrian Court at Bucharest, of the influence which is enjoyed over the affairs of Austrian subjects. Austria has remonstrated with Russia that treaties have long time subsisted between Austria and Russia, by which these matters were settled. Hence it is clear that Austria is by no means disposed to consider Wallachia and Moldavia as part of the Russian Empire. No treaty indeed, has given up those provinces to Russia, and we scarcely believe she has the entire population of them.—We perfectly well remember, that BUONAPARTE, in one of his general notes in the *Moniteur*, declared, he should not object to Russia possessing of those provinces; but circumstances have changed since that period, then felt it his interest to stater and confirm, that Austria had not been the author of this arrangement.

JULY 5.

A Gottenburg mail arrived this day, and has brought us German papers to the 24th ult.

### DANISH EXCLUSION OF AMERICANS.

*Banks of the Elbe, June 22.* The king of Denmark, following the example of the king of Pomerania, has given orders to exclude all American ships. The beginning has been made at Tondingen, and Husum, and will shortly extend to Copenhagen. Serious apprehensions are entertained for American property in Stralsund and Swedish Pomerania. Since the departure of governor Effen, another Swedish governor has arrived in Stralsund, who has stopped every kind of trade in colonial products, and ordered the confiscation of not only ships, but also of carriages and wagons in which they may be found, together with the horses.

Private letters yesterday received at Hamburg, from Paris, confidently state that a second line of French Dounaies is to be established, which will reach from the Elbe to the shores of the Baltic.

### THE BOURBONS

Private letters received from Paris, state, that the new empress is disliked by many persons at court for her pride. She shews her resentment to all persons in the least degree implicated in the unhappy catastrophe of Louis the Sixteenth. Several persons of distinction have for this reason been removed from court, and lost their employments.—The French general at Hamburg, Melier, is said to have exacted from that unhappy city another forced loan, without security, 2 millions of francs for his government. He also wished to encamp, with his whole division of 18,000 men, on the frontiers of Holland; but the senate proving their inability to procure the necessary wood for building huts, and houses for the officers, the plan was relinquished.

### SWEDEN.

The Leveret sloop of war has brought over Mr. Foster, the British minister, from Stockholm, and his withdrawing is attributed to the influence of the French ambassador resident in that city, who is supposed to have availed himself of the mistake in the instructions of sir James Saumarez, to persuade the Swedish government that a declaration of war must be the natural consequence of the conduct of the British fleet.

### PEACE!

Dutch papers arrived this morning to the 1st instant, German to the 24th ult. and a Gottenburg mail. The Hague Courant repeats the assertion that we have demanded the cession of the Swedish fleet and the Island of Gotland. The *Moniteur* however asserts what we know to be untrue, that admiral Saumarez is quitting the Baltic. The Dutch paper declares that hopes of a general Peace are not yet at an end. We cannot imagine what encourages the Dutch to suppose Peace practicable at the present time.

We learn from Austria that a great blow is said to have been struck between the Russians and the Turks, to the advantage of the latter; but as neither place nor day are fixed this report cannot be warranted on the alteration of travellers. By some public prints the Russians have again retreated from before Widnau.

The English quarantine ground is chang  
ed by an order of council of June 27, from  
Horley or Milford haven to Bromborough  
pool.

The trial at Bar in the Court of King's  
Bench in London, of the speaker and Ser  
geant-at-arms of the British House of Com  
mons and the Constable of the Tower, at  
the instance of Sir F. Burdett, is fixed for

20th Nov. next.

The whole force of the British in the A  
merica is estimated at 20,000 men.

The Society of Friends will duly estimate  
the advantages of a monarchy over a repub  
lican form of government, when they learn  
that five of their brotherhood were committed  
to the house of correction in Wakefield,  
England, for one month, in June last, for refus  
ing to do military duty, and to pay the  
penalties incurred by that refusal.

The Paris Moniteur places the delay of  
negotiation, if any, at the door of England.

Sir F. Burdett was liberated from the tow  
of London at half past three P. M. on  
the 1st June. He went privately with  
three friends into a row-boat, and descended  
the Thames. The procession of his friends  
on the occasion received his approbation as ex  
pressive of popular feeling, but he declined  
appearing in the cavalcade, least his presence  
in case of riot and death should furnish his  
enemies with an opportunity to charge the  
consequences, as they had done on a former  
occasion, to his account.

John Gale Jones was also liberated from  
his imprisonment in Newgate. He was called  
to speak to a person at an out door, when the  
doors were closed against him, and he was told  
his residence there was no longer admissible.

The companion of Baron Kolli, in his

trip to France, has returned to England.

French troops which had arrived at Rome  
from Upper Italy, in the beginning of May  
last, were said to be despatched to form an ar

Roman territory.

CARTHAGE, AUGUST 3.

The Nautilus mail last night brings the  
joyful news that the inhabitants of this de  
pendent section of the continent, have nobly  
resolved to shake off their European allegi  
ance, and join the U. States, or establish a  
free government. The address, &c. will ap  
pear next week. The event is important to  
a free commerce on the Mobile, &c. may be expected. We wish them all the  
success they can merit.—Clarion.

### BALEM, AUG. 21. INVASION OF SICILY.

By passengers in the Francis, from Naples,  
we are informed, that great preparations were  
making by king Murat for an attack (as re  
ported) on Sicily; and that continual impress  
ments were making at Naples of recruits to  
fill up the ranks of the army intended for that  
service.

A gentleman who came passenger in the  
Monk, and who left Messina in the British  
Packet Express, about 10 days after the  
Monk, mentions, that information had been  
received there; that king Murat was at Schyl  
ia in Calabria, with an army of 60,000 men,  
and had issued a proclamation announcing his  
determination to be at Palermo with his army  
by the 23d of June. He also informs, that  
about 80 of his boats, with stores and  
field pieces being on their passage from Na  
ples towards Sicily, were attacked by the  
British gun-boats, which captured and de  
stroyed about 20 of them.

Captain Feit informs us, that the British  
have about twelve thousand troops in Sicily  
with the expectation of a speedy reinforce  
ment, and that the naval force on that station  
will be sufficient to prevent any hostile  
landing.

### BOSTON, AUG. 21. FIRE AT CONSTANTINOPLE.

Extract of a letter from an American at Con  
stantinople, to a gentleman in this town,  
dated April 21, 1810.

Yesterday a fire broke out in a Pera, one  
of the divisions of the suburbs, and to the N.  
& E. of Constantinople. It raged with  
the greatest degree of rapidity, and presented  
a truly terrific sight to the spectators. At  
11 o'clock it extended nearly a mile, and  
formed one continual flame; nor was any  
stop put to it until sunset, when some stone  
buildings stopped in some measure its rapi  
progress, and about midnight its ravage  
was nearly at an end. The distress of the  
inhabitants is very great. It is supposed that  
30,000 are now in the fields, and bush  
grounds with the little they were able to  
inatch from the destructive element. It is supposed  
that about 8000 buildings were en  
tirely consumed.

### NORFOLK, AUGUST 20.

Capt. Poythress, from Lisbon, whose arrival  
we mentioned in our last politely handed u  
papers of that city to the 27th of June, the  
day before he failed. The gentleman who  
has repeatedly obliged us with translations,  
says that their contents are interesting, being  
mostly taken up with accounts of trifling skir  
mishes in different parts of Spain among the  
armed peasantry and detachments of French  
troops, who are constantly "annoyed and  
cut to pieces by these brave mountaineers."—  
That Ciudad Rodrigo still held out, notwithstanding  
its being invested by 40,000 French troops; and that on the 20th of  
June the brave garrison made a sortie in  
which they killed upwards of 1000 besiegers.

Capt. P. informs, that the advanced guard  
on the English and French armies were in  
sight of each other for some weeks before he  
failed, and that the general belief in Lisbon  
was that the British did not purpose to attac  
but to act on the defensive; the French ap  
peared in wise desirous of commencing the  
fight.—hat deserters from the French army  
were daily coming in, who were in general  
half-starved and ragged.—Provisions very  
scarce in Lisbon.—Flour 17 dols.—Corn 3  
dols. 50.

### NEW-YORK, AUG. 23.

#### SATURDAY.

We learn by a gentleman just arrived from  
Hayti, that on or about the 24th of July, a  
bout 10,000 brigands under the command of  
gen. Gomas (who is supposed to be in the pay  
of Christophe) surrendered to the force under  
general Rigaud at Jerome. Rigaud had un  
der him at the time an army of 5,000 men  
The surrender was b negotiation. Every  
demonstration of joy was exhibited on the  
occation.

A duty of ten per cent. on the importation  
of specie has been laid in all the ports under  
the control of Christophe in the Island of St.  
Dominico.—Coffee the 1st. Aug. 15 sous.

### SPAIN AND PORTUGAL.

We learn from capt. Church, of the ship  
Maria, that the situation of the siege of Ca  
diz was much the same as for sometime past.  
The party of 5 to 6000 men, that had been  
despatched under Lacey to the Sierra of Ron  
do, returned to Cadiz on the 16th of July,  
without effecting the ultimate object of their  
expedition, which was to co-operate with the  
English to retake Malaga.

A report prevailed that Maffena had re  
trograded, not being in force enough to meet  
the enemy. No news of Crauford's junction  
with the English army.

### PHILADELPHIA, AUG. 20.

#### LATEST FROM CADIZ.

Yesterday arrived brig Growler, capt. Ro  
berts, 30 days from Cadiz, sailed July 17.  
and informs that it was reported and believed  
at that place, that the French General Soult,  
with 15,000 men, had the latter end of June

attacked the advance guard of 6000 men,  
under the command of Gen. Crauford, on  
the confines of Portugal, and obliged him to  
fall back to the main body, with only 2000  
men. That the town of Cadiz was still safe,  
being well supplied with water and provisions,  
and out of the reach of the enemy's shot and  
shells, tho' it was said that the French were  
casting Mortars at Seville of a larger calibre  
than any they had, with which they hoped to  
reach the town; that a continual fire was  
kept up by the French from Matagorda on  
the fort —, on Isle Leon, from whence  
and the Spanish Gun-boats it was as briskly  
returned. That the British are in possession  
and defend many of the advance posts with  
great spirit. That the Battery at the Cau  
way leading from the Walls of Cadiz to the  
Island, was nearly completed, and was to be  
mounted with 70 or 80 pieces of heavy ord  
nance, from 24 to 32 pounds.

The allies are busily employed erecting va  
rious other batteries on different parts of the  
Island of Leon. The French in the environs  
of Cadiz, are said to be only 15,000 men.  
Flour at Cadiz 14 dollars.

RECIPE TO MAKE A KISS.  
FROM rose-buds yet unblown, while vernal  
morn

Perfumes the gale, unconscious of a thorn,  
The purest purple take ; and steal from May  
The pearl that gems the lawn, when springs  
the day ;

Crop the young vi'let from her scented bed,  
And spoil the primrose of its velvet head ;  
With Love's own odours charg'd, & sleep'd  
in joy,

The honey'd labours of the hive employ ;  
But search with care the aromatic work,  
Left danger in the sweet temptation lurk,  
And mar the luscious spoil—for should it thou  
leave

One sting behind, twould all thy hopes deceive.  
Into the fragrant mists let Zephyr fling  
The newell, earliest whisper of the spring ;  
The chirp of beauty's darling bird prepare,  
And mix the murmur of the turtle there ;  
Her smiles and graces Venus must infuse,  
And thrice embalm the whole with cyprian  
dews.

Now tell me, shepherds, in what grove  
Dwells this fair bud of hope, this plant of love ?  
On Laura's lips resides the nectar'd bliss,  
And lover's mould the rapture to a KISS.

Paul's Domestic Infallible  
Columbian Oil.

THE inventor of this highly esteemed medicine  
is a native of America, and the composition  
is the production of American foil, consequently  
it is in every sense of the word domestic, it is not  
puffed up with a numerous train of pompous foreign  
certificates of persons from whom by the great  
distance that separates us 'tis impossible to obtain  
information, therefore the public has better security  
for their money as there cannot be the least shadow  
of deception to cover his medicine, for he  
simply appears before the community with his inven-  
tion and an experimental detail of the various  
causes in which it really is so wonderfully efficacious,  
and in which he is supported by the following cer-  
tificates of respectable characters, whose names are  
not only subscribed, but their persons may be also  
confounded, being residents within the circle of our  
own neighbourhood. The following are the com-  
plaints in which the Columbian Oil has been found  
so efficacious and rarely ever fails of effecting a  
cure—viz. Rheumatism, Consumption, Pains in  
any parts of the body, but particularly in the back  
and breast, Colds and coughs, Toothach, Pleuritis,  
Cholic, Cramps, External and Internal Bruises,  
Sprains and Flesh Wounds, Scalds and Burns,  
Whooping Cough and Mumps, and Dysentery or  
Bloody-flux, Croup and the summer complaint in  
children, and in a weak stomach that is caused by  
indigestion, a constant sinking and loss of appetite,  
it will act as a powerful braces to the relaxed fibre  
and restore it to its proper tone.

It seems also as if nature had ranked it the first  
of the salves of all pectorals and expectorals for the  
relief of the breast and lungs, as it scarce ever  
fails of removing obstructions in either, partic-  
ularly those who are troubled with Phthisick or  
Asthmatic complaints, who in the act of walking  
fast, stooping or lying down, are almost suffo-  
cated, half a tea-spoonful of the Columbian Oil  
will render some relief instantaneously, and if con-  
tinued agreeable to the directions in such cases,  
will prove a radical cure by producing the full  
power of inflation to the lungs and free expansion  
to the breast.

CERTIFICATES OF ITS EFFICACY.

No. 1. Sept. 1809.

I do certify, that I have been ailing nearly two  
years with a hectic cough and violent impression at  
the breast—I applied to the most eminent physi-  
cians and could get no relief from my low state of  
health, until I got Paul's Columbian oil, and found  
immediate relief. I take this method of informing  
the public of the efficacy of this valuable  
medicine, from the cures which I have experienced—I  
think it an incumbent duty to offer the  
same to the public.

No. 2. Sept. 1809.

SIR,  
From the great benefit I received from your Co-  
lumbian Oil, I am induced to state, I was taken  
with a violent sore throat, about the 26th of Aug  
last, which continued till the first of the month,  
when I applied your oil externally, and washed  
the part affected with the oil diluted in the same  
quantity of molasses, which took away pieces of  
putrid flesh and healed my throat in about 48  
hours.

N. B. I also certify, that I nursed my grand-  
child, an infant of 17 months old, which was taken  
about the first of August with slow fevers and  
loss of appetite. We immediately applied for a  
physician who gave every effort for about 10 days  
but all to no effect; the child was given up by the  
physicians, and had every appearance of death,  
when I applied for Paul's Columbian Oil, and  
gave five drops morning and evening for five days,  
when the child began to recover, and is now in  
perfect health.

No. 3. Sept. 6

I hereby certify, that I had a cough and pain in  
my stomach for upwards of two years, when I was  
recommended to Paul's Columbian Oil. I pro-  
cured one phial of that valuable medicine, which  
has restored me to a good state of health again.

gate.

No. 4. Feb. 12, 1810.

I have great reason to be very thankful for being  
recommended to Paul's Columbian Oil. I had been  
afflicted with a violent pain in my back, so that I  
was not able to walk. I procured one phial of  
the oil, and I received immediate relief, & I have  
been very well ever since.

N. B. I had a violent toothach about two or  
three months ago, when I applied a few drops of  
the above oil on fine lint, and applied it to the  
tooth affected, and I received immediate relief.

ELEANOR ELIOTT.

No. 5.

SIR,  
I comply with your request, of stating my opinion  
of Paul's Columbian Oil, being an effectual  
remedy for the tetter worm. I have been afflicted  
with the tetter in my hand for 12 years, and have  
made trial of many medicines which have been  
recommended, but all to no effect. Hearing of  
Paul's Columbian Oil, about the 15th of January  
last, proving an effectual cure for the ringworm  
and similar complaints, I immediately got a phial  
of your Oil, and applied it agreeably to the  
directions for about two months successively—when  
the tetter left me, and has not made its appearance  
since.

SUSANNA PURDEN

N. B. My Sofanna, a child aged twenty months  
and six days, was taken about the middle of  
July last with a violent cough, which the neighbours  
said was the whooping cough; I gave her  
six drops of the Columbian Oil, which gave im-  
mediate relief, and proved an effectual cure.

Saratoga-street, Baltimore, Aug. 21, 1809.

No. 6. Philad. July 8, 1809.

By your request I do certify, that I had been  
a long time dangerously indisposed, and was reduced  
to the lowest state of weakness, in so much that

my recovery appeared doubtful; my complaints  
seemed to be afflictions of the breast and lungs—  
I could procure no relief from incessant coughing,  
nor breathe without great pain and difficulty—  
when, by the use of one phial of Paul's Columbi-  
an Oil, my distressing cough left me, every other  
symptom was removed, and I was restored to an  
excellent state of health, which I now enjoy.

SIR,  
For the good of the public I recommend your  
Columbian Oil for the pain in the breast; by tak-  
ing it four or five times agreeably to your direc-  
tions, I experienced relief.

The Oil that I received by Mr. Elliott for the  
cold, did me a great deal of service and ultimately  
cured me.

WILLIAM PHILLIPS,

At the Columbian Inn, Market-street.

No. 9.

I do hereby certify, that I was violently attack-  
ed with the pleurisy on Sunday, the 8th inst. I  
immediately sent to a physician, who bled me twice  
within the space of about 16 hours, all to no effect;  
my fever still increased and my pains so violent  
that I had no knowledge of my nearest rela-  
tions, nor even my parents. On Tuesday morning,  
the 10th, my father procured me a phial of Paul's  
Columbian Oil, which was immediately applied  
to my right side, where the pain was the severest,  
three or four times, with a piece of flannel kept  
to the part affected; and I took fifteen drops internally  
three days a day for the first 2 days; and the  
second day after using the oil. I was able to walk  
about the house; the third and fourth days I took  
the oil 15 drops night and morning, which en-  
tirely relieved me from pain and fever, thanks be to  
God for it, and now I am a well man.

WILLIAM PEACOCK.

Baltimore, April 19th, 1810.

Harrison's Creek.

No. 10.

We do certify that on Thursday the 17th inst.  
we were tarring a new fence for Mr. John Clark,  
and by accident the fence took fire, which, by endeav-  
oring to put out the flames, John Clark and  
Thomas Adams got severely burnt in the face;  
we immediately got some Columbian Oil from  
Mr. Paul, and applied it to the parts burnt, which  
gave ease in the course of twenty minutes, and has  
left the parts free from blisters.

No. 11.

For the good of others, I do certify, that I have  
been afflicted for three weeks, with a severe pain  
and swelling all through my body and limbs. I  
procured one phial of Paul's Columbian Oil, and  
applied it agreeably to the directions, which gave  
immediate relief.

MARY GOODING.

Bond-street, No. 10, Fell's Point, Baltimore.

No. 12.

SIR,  
At your request that I should give my opinion  
regarding what effect your Columbian Oil had in  
a certain case wherein I was afflicted, I most cheer-  
fully comply by saying that I verily believe I  
might have died with one of the feverish cramps  
in the stomach, had it not been for your Columbian  
Oil; and that I have been a second time relieved  
of the same complaint by the afflition of that val-  
uable medicine, and as such I recommend it as  
the best remedy, because there is no manner of  
doubt of its proving effectual.

E. CATHARINE WALKER.

Sign of the Buck, Market-space, Baltimore.

No. 13.

Having experienced so much benefit from your Co-  
lumbian Oil, it would be an act of injustice to you  
and a want of feeling for those who may  
suffer under similar complaints, were I not to use  
my utmost endeavours to give this public testimony  
of the wonderful virtues it possesse.

I was attacked with a violent pain in my left leg,  
which I supposed was a touch of the rheu-  
matism: it continued to grow worse every day, so  
that at last my knee began to get stiff, and could  
by no means bend it; during this which lasted about  
five weeks, I was seized with a most dreadful  
pain in my right breast, which pierced through my  
arm. During this situation a variety of remedies  
were applied, but all without effect. At last I was  
advised to try Paul's Columbian Oil; I accordingly  
procured a bottle, and found some relief from the  
first application; and by paying proper attention  
to the directions for using it, I was, to the  
astonishment of all who were acquainted with my  
situation, in five days entirely free from all pain,  
and have now the use of my leg as well as ever;  
and any person who may peruse the above certi-  
ficate, being desirous of any information respecting  
my case, I have no objection on their making an  
application, to give them every satisfaction in my  
power respecting it.

I am sir, yours, &c.

Market-street, Baltimore.

of the Columbian Oil, Harrison's Creek, Baltimore.
