On WOMAN.

EACH Creature's link'd to that below it, All Nature, if observ'd, will show it; And, upward still, our Search will prove Each link'd again to that above. Heav'n, when it had created Man, Unfinish'd saw Creation's Plan; Tho' Man and Angel were akin, Here yet appear'd some Gap between, Nor would the Links together meet, 'Til WOMAN did the Chain complete.

MADRID, July 20.

BY Letters from Barcelona there is Advice of an Engagement which happened lately near the Island of Sicily, between four Maltese Gallies and four Algerine Chebeques. The former defended themselves with the greatest Bravery, but were at length near being overpowered by the superior Strength of their Enemies Ships, when they were fortunately joined by the St. Vincent, one of their Men of War. The Arrival of this Ship decided the Contest, after an obstinate Fight, in Favour of the Maltese, who sunk two of the Chebeques, and took one; the fourth, with Difficulty, made its Escape. The Maltese lost twenty Knights in the Engagement, and three hundred private Men. Yesterday Advice came, by an Express from Cadix, that five Register Ships were arrived in that Bay, one of which is said to be immensely rich.

LONDON.

July 4. On the 2d died, the Rev. Mr. John Peter Stehelin, F. R. S. Minister of the French Church near Leicester fields: He was remarkable for having made himself Master of the following Languages, viz. Hebrew, Greek, Latin, English, French, German, Italian, Danish, Dutch, Cop-tick, Armenian, Syriack, Arabick, Chaldean, Gothick, old Tudeco or Druid, Anglo-Saxon; besides Spanish, Portuguese, and Welch.

July 19. Thursday a great Number of Persons of Distinction, among whom were the Speaker of the House of Commons, and several Admirals, attended a considerable Time at the Admiralty, to see some Experiments tried for finding out the Longitude.

July 24. On Thursday last a Clergyman going from a Gentleman's House near St. James's to Covent Garden, in one of the narrow Streets he saw laying on a Bulk the Body of a Man cover'd with a white Cloth, with a Plate of Salt set on his Belly; by him stood a poor Woman in Tears, who begg'd his Charity towards the Burial of the Dead, saying, that some brutish People had given her Husband so much Gin to drink that it had kill'd him. The Parson, willing to know the Truth, took hold of one of his Hands, and lifting his Arm up it fell as dead, which he repeated several Times: He then said to the Woman, that his Hand was yet warm, and taking a Pin from the Inside of the Flap of his Coat he ran it directly under his Thumb Nail, which so quicken'd his Spirits, that he instantly jump'd up, made a Spring over the Parson's Head, and made clear off. This Fellow it seems is a merry drunken Cobler in that Neighbourhood, who is accustomed to play Tricks of this Nature, but had never fallen into the Hands of a Person who knew the Difference between the Quick and the Dead.

By a Letter from Fort Augustus, we are certainly informed, that on the Morning of the 18th past, Archibald M'Donald, of Barrisdale, one of the Persons attainted for being concerned in the late Rebellion, was apprehended in a Wood on the Side of Loch horn, in Moydart, by a Party of General Howard's Regiment, which had been detached from Bernera Port for that Purpose. There were also taken in Company with him — M'Donald, Younger, of Morar, Ronald M'Donald, commonly known by the Name of Captain of Barrisdale's Guard, with four others of his Gang. As they were all in Arms, and had secured themselves in a Hut in the Wood, they would no doubt have made Resistance, had they not been quite surrounded by the Party in the Morning, before they suspected any Danger. They were all brought Prisoners to Fort Augustus on Saturday the 21st, and closely confined; and on the 28th, a Macer was dispatched from Edinburgh, to bring them to that Castle.

The Spanish Ministers have visibly fixed on the Barbary Corsairs in this Part of the World; and the clandestine Traders in America, to raise gradually, and in a Manner imperceptibly, a great Ma-

tative Force. It behoves therefore those Nations, who in such a Case are most likely to be affected, to keep their Eyes on their Proceedings in both Parts of the Globe.

Extract of a Letter from Exeter, dated Aug. 10.
On Saturday the 4th, or Sunday the 5th Instant, Mr. Joseph Harvey, a Farmer, at a Place called Corringdon, about two Miles from South Breat Town, with his Wife, a Son and Daughter, were all barbarously murdered by Persons unknown. The Murderers were discovered by one William Proufe, a Labourer, who had work'd for the said Mr. Harvey; and going on Monday last to Corringdon to see him, to get further Employment, found the Doors fast; and thinking that the People of the House were gone on Business, went away, and called again the next Day, but found all fast as before; he also went the third Time, which was on the 9th Instant, and then likewise finding the Doors as he left them, he goes to Edward Bower, in the Neighbourhood, and they went together to the House; and looking thro' the Kitchen Window, saw Mr. Joseph Harvey lying dead on the Floor with his Throat cut. They then came into Breat Town, and acquainted Mr. Anthony Harvey, Brother of the Deceased, with what they had discovered; who went with a Number of the Inhabitants, and entering at the Window, found the Relation given them by Proufe too true. Mr. Harvey had his Stockings and Breeches on; and was supposed to have heard the Assassins in the House, and was come down to see who they were. Going up Stairs, they found Mrs. Harvey in her Bed, with her Throat cut from Ear to Ear; and then proceeding to the Bed of the Son, a stout young Man, about twenty-three, found him also dead, having his Brains beat out, and his Throat cut; as was also the Daughter, aged about Twenty, whose Brains work'd through the Skull. A Hatchet was found in the Son's Room.

August 15. On Monday the three Men, committed to Wood street Compter, for a Rape on the Body of Diana Pushee, at the Queen's Arms in Newgate street, applied to be bailed out, but were refused. It appeared on Examination, that they had ordered her to be sent up Stairs between Eight and Nine o'Clock, with Oysters, and upon her coming into the Room, one of them bolted the Door, and swore he would lye with her, and directly pulling out a Knife threatened to cut her Throat if she made the least Noise: The two others had Knives and threatened her in the same Manner; on which she fell on her Knees and begg'd for Mercy, saying she was married, and had four Children alive; notwithstanding which the second that got up pull'd her down on the Floor, and forcibly lay with her, and then the first did the same, and also the third. During this barbarous Scene she groaned so loud as to be heard by one of the Waiters who was ill, and lay in a Room on the same Floor; on which he got up and call'd to his Fellow-servant below, who went up Stairs, but not getting in, he raised a Ladder against the Window, and looking in, saw two of them in very indecent Situations, and lest they should discover him, he sunk his Head, and raising it again, saw a third from behind a Screen. By the Time the Waiter was got from the Ladder, the Woman had broke from them, and forcing the Bolt with her Oyster Knife, came out crying in a violent Manner, that she was ruined, for that three Villains had all lain with her against her Will. As there were a good Company in the House, they immediately ran up Stairs, apprehended, and secured the three Men in Wood street Compter, until Monday Noon, when they underwent an Examination of above two Hours, before Thomas Chitty, Esq; Sitting Alderman at Guildhall, who, upon the positive Oath of the much-injured Woman against all the Prisoners, as also the corroborating Circumstances of the Servants, and the Character of the Prosecutrix being well supported upon Oath by many reputable Inhabitants, re-committed all the three to the Compter, to answer for their Offences the next Sessions at the Bar of the Old Baily. The Inhabitants of Newgate street are determined to support the Woman in prosecuting them.

The Polly, Bowman, from Virginia, for London, which parted from her Anchors in the Downs the 5th Instant in a hard Gale of Wind, and drove ashore between the two Pier Heads at Ramsgate, arrived Yesterday safe at her Moorings in the River. She had on board upwards of 500 Hogheads of Tobacco, besides a great Quantity of Pig Iron and other Things; And notwithstanding that she is one of the sharpest built Vessels in that Trade, she has received little or no Damage. By which it is to be observed that all Ships driven out

of the Downs towards that Place, if they will run boldly on the Chalk Rocks, there is Safety for them.

DUBLIN, June 26.

This Day five Companies of Foot, and three Troops of Horse, marched into the County of Kildare, to prevent the unlawful Rioters, who are now in a most unwarrantable Manner pulling down Fences, Hedges and Gates, under Pretence of those Lands being formerly Commons.

From the Scarcity of Labourers in this Kingdom, their Prices have risen from Five pence to Eight and Ten-pence per Day; and who must this Load fall upon put the Occupiers of Land and Manufacturers? which is all owing to the scandalous Neglect of Husbandry.

The Poverty and Distress now raging amongst many House and Roomkeepers of Dublin, upon Account of the excessive Dearness of Provisions, and high home Rents, are incredible, several of them being obliged to sell their Cloaths and Household-Furniture, which cannot keep them from being carried to Goal, where more Masters of different Trades and Families are now at this Time perishing for Want, and lying in most dangerous Fevers and other Disorders, than ever was known in the Memory of Man; which is entirely owing to Want of Tillage in this unhappy Nation. Is it not scandalous and shocking to send to the most remote Parts of the World for Corn, when we might have enough of our own, if the Tillage Act was put in Execution? But the Clergy, who are the greatest Sufferers by this insatiable Neglect are not the proper Persons to inform against those who neglect this Law; and therefore it were to be wished, that some other Methods could be found out to enforce the Laws of the Land, to prevent the starving and banishing of our poor Natives.

By Letters from the North, and several other Parts of the Kingdom, we are assured, that many Engrossers and Hucksters of Corn and Meal, are now selling the same in the most private Manner, being ashamed of their Extortions, it being now well known, that by the Arrival of many foreign Ships with Corn, that there are vast Quantities now in the Kingdom.

Mullingar, in Ireland, June 25. Last Night Mrs. Speight of River's Town, was alarmed in the Dead of the Night, by a Noise in the House, and knowing every one to be in Bed, she gently slid from her Husband's Side, and going armed in to the Kitchen, to her great Surprise found a Fellow in it, whom she seized by the Collar, clapping a Pistol to his Breast, and alarmed the People of the House by her Voice, who came to her Assistance, secured and tied him fast, and this Morning lodged him in our Goal, where he is well bolted. He will not own his Name, but says he is from the County of Mayo.

BOSTON, October 1.

We think proper to inform the Public, That the Secretary of this Province has received a Letter by Capt. Warner, from Mr. Agent Bolla, dated in London the 9th Day of July last, informing, that large Quantities of Counterfeit Half pence (less in Value than Farthings) had then been shipped for Boston, and was informed, that many more were intended to be sent in the next Ships to the same Place.

Capt. Warner, arrived from London, brought 11 Cannon, 24 Pounders, and two Mortars, with all Sorts of Implements and Stores belonging to them, lately granted by his Majesty to this Province, in Lieu of those which were taken out of Castle William, for the Service of the Expedition against Cape-Breton.

October 8. Yesterday the Gentlemen lately commissioned by his Excellency to treat with the several Tribes of Eastern Indians, arrived here on board Capt. Saunders; and we hear they have settled all Matters in Dispute, to the Satisfaction both of the English and Indians.

On Friday last the 28th of September came on in the Court of Assize and Goal-Delivery then holding at Springfield, the Trial of Robert Cooke and Stephen Cooke, for the Murder of an Indian Man at Sheffield, on the 11th of April last; The Trial held from about 10 o'Clock in the Morning 'till 9 at Night, and the Jury withdrew to consider of the Evidence; and the next Morning they returned with their Verdict, and declared the said Robert Cooke guilty of Manslaughter only; Stephen they acquitted: Upon which the said Robert was branded in the Hand with the Letter T. and sentenced to twelve Months Imprisonment.

NEW-YORK, October 1.

Capt. Lewis, who was mentioned in N^o. 440, to have arrived here from St. Thomas's, further says, That the Day on which he arrived at that Island, being the 3d of August last, there came into that

Port, one Captain Maybury, in a Sloop from Porto Rico, who reported, That he had been dispatch'd as a Flag of Truce, from Antigua, by his Excellency Governor Thomas, to the Governor of Porto Rico, in order to demand a Sloop and Cargo that had been taken and carried in there a little Time before by a Spanish Guarda Costa: That he had obtained the full Value of both, and had likewise received the strongest Assurances from the Spanish Governor, that whatever Vessels, Cargoes, or other Things, should hereafter be illegally taken from the English by the Spaniards, and brought into his Island, he would cause immediate Retribution to be made to the proper Owners, and the Captors themselves severely punished.

In Capt. Deane is come Passenger, Capt. Hall, formerly Commander of the Brig. Lark, belonging to Connecticut, and mention'd in our Paper some Time ago to be taken on the 3d of August last was a twelve Month, in the Bay of Honduras, in Company with Capt. Crowel of the Sloop Stork, of this Port, and carried into Campeachy. William Johnson, Capt. Crowel's Mate is likewise come home in Capt. Deane, and acquaints us, That after they were taken and carried into Baccalis, himself, with both the Captains, were obliged to walk 100 Leagues back, to the City of Meridia, where they were confined to hard Labour for five Months, allow'd but four Pence half Penny a Day, and otherways u'd extremely ill: From Meridia they were obliged to travel barefoot to Campeachy, where they were put on board separate Ships bound to St. Andro in Biscay Bay: That the Ship he was in, parting from the others, was obliged to put in to the Westward of St. Andro, where he happily made his Escape and travel'd over the Mountains to Ferol, and meeting at that Place with Capt. Hall, who had likewise escap'd, they both embark'd in an English Ship bound to London. We have no Intelligence of Capt. Crowel, after his Arrival at St. Andro.

Mr. Johnson further acquaints us, That there are 12 Sail of Ships of the Line, on the Stocks at Ferol; 4 at St. Sebastian's; 4 at St. Andro, and 30,000 Men employ'd on the Shipping, and making a new Mold at Ferol.

PHILADELPHIA, October 4.

Extract of a Letter from London, August 18.

Our East-India Company have been very lucky in the early Arrival of their China Ships; but not hearing any Thing from the Coast, is a great Disappointment; as the Ship was to sail in November, we fear some Accident has happen'd to her. By some private Letters, by way of Bengall, we have gain'd some further Advantages over Duplex's Forces, who was obligate to all Terms of Peace, as he expected a large Supply from Europe, which is confirm'd to us by several Ships having passed the Cape full of Men; but as our Forces sent out were arriv'd in good Order, we are under no Apprehension on the Side of India. Bengall has suffer'd much by a Famine; but when the Ships came away their Harvest was over, and Plenty restor'd.

October 11. Saturday last there were in this Harbour 37 Ships, 19 Snaows, 22 Brigantines, 7 Schooners, and 15 Sloops; in all 100 Sail.

We hear from North-Wales, that on Thursday last they had a violent Whirlwind there, that came from the Southward, and directed its Course in a narrow Vein to the Northward; by which many large Trees were blown down, and Fences carried away; also the Roof off of a Barn, to a considerable Distance; and the Roof of a Dwelling House, without hurting any of the People in it.

ANNAPOLIS.

On Thursday last died, in Prince George's County, Mrs. ANNE MURDOCK, the virtuous Consort of Mr. WILLIAM MURDOCK, and Daughter of the late Col. JOHN ADDISON. She was a Gentlewoman possess'd of many excellent Virtues, and diligent in the Performance of every Duty incumbent on a Wife, Mother, and Neighbour. She laboured for some Years before her Death under an almost uninterrupted Course of bodily Indisposition and Affliction, which she bore with that Patience, Resolution and Resignation which becomes a Christian; and her Death is an irretrievable Loss to her Family, and justly lamented by all her Acquaintance.

THURSDAY, November 8, 1753.

From the LONDON MAGAZINE, for July.

News for One Hundred Years hence in the Jewish Journal.

Since our last arrived a Mail from Jerusalem.

THE middle Arch of the Temple, which has been rebuilding for some Time past, sunk ten Feet, a few Days since; and we hear, that there is now five and twenty Ton Weight laid upon it: And it is further said, there will be a Lottery in Great-Britain (or Judaea Nova) for the more vigorous Execution of this grand Design, and Mr. Jacob Zerobabel is set out for the British Court; with proper Instructions how to act in this Affair.

Yesterday Morning Lord Jacob de Paiba set out for his Seat at Sion House, with a grand Retinue, attended by several of the Nobility and Gentry; and we hear that his Lordship intends continuing in the Country to celebrate the Passover.

On Wednesday last died, at his Grace the Duke of Hebron's, in Berkshire, Sir Nadab Iflachar, Attorney General. He was esteemed a sound Lawyer, an able Politician, and a Friend to the Sanhedrim: He is to be succeeded in his Office by Moses de Costa, Esq; of Lincoln's Inn.

On Monday last a Dispensation passed the Great Seal to enable Abraham Levy to hold a Living in the Synagogue of P---s, together with the Rectory of the Rabbi in the Diocese of Litchfield.

Last Week twenty five Children were publicly circumcised at the Lying-in Hospital in Brownlow-Street.

The same Day John Hartwell, Shoemaker, was whipped round Duke's Place, for speaking in disrespectful Terms of the coming of the Messiah.

On Tuesday last was held a Court of Aldermen, when it was unanimously voted, that the Name of Liveries, which was heretofore made Use of in the City of London, should for the Time to come be obliterated, and that the said Liveries be called Tribes for the future.

We are also informed that the Statue of Sir John Barnard, formerly Father of this City, and a strenuous Assessor of Christianity, is ordered to be taken down, and that of Pontius Pilate to be put in his Room.

Last Night the Bill for naturalizing Christians was thrown out of the Sanhedrim by a very great Majority.

Yesterday was launched at Woolwich the Benjamin Salvadore, being the largest Ship ever built at that Place, and she is immediately to be fitted out for the Mediterranean, and it is said, the Board of Admiralty have given the Command of her to Rear Admiral Suasso.

This Day was republished Christianity not founded upon Argument, and we hear, a Statue is to be erected in Westminster Abbey to the Memory of the Author.

Last Week was brought up to Newgate, under a strong Guard, George Briton, the outlawed Smuggler, who was taken on the Coast of Suffex, in the very Fact of running Post into this Kingdom, in Defiance of the many Penal Laws enacted to prohibit the same.

On Wednesday last 17 Malefactors were executed at Tyburn, pursuant to their Sentence, among whom were Bryan Macmanus and Thady O Sullivan, born of honest Parents in the Kingdom of Ireland, where they were unhappily educated in the Errors of the Christian Religion, to which they were bigotted to the last, and chose to lay down their Lives rather than be curtailed of the Honour of their Ancestors by the Act of Circumcision.

We can assure the Public, that the Report so industriously spread by the Galileans, of the Christians rising in North Wales, is entirely without Foundation.

Last Thursday being the Day appointed by the

great Sanhedrim, for commemorating the Expulsion of the Christians out of Great-Britain, Sir Gabriel Lombroso, Knt. Lord Mayor of the City of London, went to the Synagogue of Paul's, and heard an excellent Sermon preached upon the Occasion, by Mr. Alvaringo, of the Sect of the Pharisees.

Monday last his Grace the Duke of Samaria took the Diversion of Hunting in Richmond Park. We hear from Scotland, that several Highlanders in the Neighbourhood of Aberdeen assembled, in order to practise the Superstition of the Galileans; but a Party of Soldiers being detached from the next Fort, they were prevented from proceeding, by being all shot dead on the Spot.—We hope this wholesome Correction will deter those bigotted People from attempting any Violations of the Law for the future.

Last Sunday an Order came from the Lord Chamberlain's Office to the Managers of both Theatres, forbidding them, under the severest Penalties, to exhibit a certain scandalous Piece, highly injurious to our present happy Establishment, entituled, 'The Merchant of Venice.'

ADVERTISEMENT. To the Gentlemen, Rabbins, and Freeholders of the County of Canaan.

THERE being a Vacancy in our great Sanhedrim, by the Death of your late worthy Representative, Judas Fonseca, Esq; I beg Leave to offer myself a Candidate at the next ensuing Election, and intreat the favour of your Votes and Interest, assuring you, that if I am so happy as to be returned, I shall take every Opportunity of manifesting the sincerest Attachment to the Cause of Israel, the warmest Zeal for the Interest of the whole Jewish People, and a particular Attention to the Rights and Privileges of the County of Canaan.

I am, Gentlemen, Your devoted humble Servant, Gamaliel Rubens Shiloh.

MOSES BEN AMRI, Surgeon, At his House near Moor Gate, begs Leave to inform the Public, That he

CIRCUMCISES, In the safest, easiest, and most expeditious Manner. He will wait on People of Quality, at the other End of the Town, at their own Houses, on proper Notice.

MANASSEH BEN ISRAEL to the ELECTORS of Great-Britain.

Gentlemen, Notwithstanding the many impertinent Speeches that have been made, and indecent Restrictions that have been thrown out, concerning a certain *** in Order to influence you against the Friends and Patrons of the humane Race of J---b at the next General Election, you will permit me to assure you in the most solemn Manner, that the meek, generous, and compassionate Hebrews, have this Nation's Wealth really at Heart; and that to whatsoever Degree of Power they may arrive, they will endeavour to surpass the Prudence of Joseph at the Court of Pharaoh; they will ever zealously struggle for the Rights of the Crown and the Riches of the People, and that they will never cause any Persons to be circumcised against their Consent; but will allow the old Natives of this Land all the Privileges, and give them all the Encouragement, they can reasonably expect; and therefore it is to be hoped that you will, out of Gratitude, give your Votes, at the next General Election for every Person who so greatly promoted your Interest and Happiness, by voting for that most wise, most politic, and most profitable Bill for naturalizing the Jews. I am, &c.

The humble Petition of the Turks, in Behalf of themselves and other good Musselmens, praying that a Clause may be added to the Jew Bill, to enable them to be naturalized, humbly sheweth,

THAT the Act of King James I. could not be designed to extend to them, as at that Time

there were no Mahometans, as well as no Jews in England; that they have no Country of their own in which they can make so many Advantages to themselves as in England;—that they have an equal Title to the Rights and Privileges of a Christian Country with the Jews, as they are both equally Circumcised; and, though the Mahometans did not crucify Christ, yet they do equally with the Jews reject him, blaspheme him, and deny his holy Mission;—That the Naturalization of Mahometans, will induce the richest of them to come over with their Alcoran, Janizaries, their Christian Slaves, and their numerous Wives and Concubines.-----These and other weighty Considerations, it is presumed, will influence the Wisdom of Almighty M----- to put Mahometans, and other Infidels on an equal Footing with the Jews. And the Petitioners, as in Duty bound, shall ever vote, &c.

A few Days ago Sampson Gideon, Esq; a Jew, gave a grand Entertainment to several Members of both Houses of Parliament, at his House near Epsith in Kent, which was the late Lord Baltimore's.

St. JOHN'S, in Antigua, August 31.

WE have Advice, That a Schooner from this Port, James Knott Commander, who drove to Leeward of her Destination, and put into Port-a-Spaniard, in the Island of Trinidad, where the Captain went on Shore, and obtained Permission from the Governor, to Wood, Water, and load with Fustick. About the 20th of June last, three Spaniards, who had dined with the Master the Day before, took the Advantage of his Absence with his Boat and three Men, and accompanied by 8 Indians in a Pettiauger, went to the Schooner, drove the unsuspecting, defenceless Englishmen, 6 in Number, down the Hold, cut her Cable, and were making off, when a St. Thomas Sloop of Force, at Anchor at a small Distance, perceiving this treacherous Transaction, immediately weighed, chased them, and, as soon as she began to fire, the Spaniards and Indians jump'd into their Pettiauger, quitted the Schooner, and row'd ashore. The Sloop's Boat and 6 of her Hands were left behind, they thought fit to put to Sea with the Schooner, which had her own Men only and little Ballast on board, where they kept Company 'til within View of the Granadas, when the Schooner being far to Leeward, they lost Sight of her in bad Weather, and she has not been heard of since. Capt. Knott, after his Vessel was rescued, saw and spoke to the very Fellows who had so basely treated him, when they pretended to excuse themselves, by saying, that they did not hurt the Men, nor riste the Schooner; kindly invited him to their Dwellings, offer'd him Cloaths, and desired him to accept of their good Offices during his Stay among them; all which he prudently refused. He afterwards got to St. Thomas, where he met the Captain that had so timely succour'd his Schooner, who gave him the above Particulars, and suppos'd that she must have gone to Coracoa or Jamaica.

Last Wednesday arrived here a Schooner from Tortola, with two Men in Irons, who were imprisoned there by Governor Purcell, for some piratical Proceedings on board the Sloop Nancy, William Shearer Master, last from the River Gambia, and are now confined here in order for their Trial. The eldest is Robert Douglass, Boatswain, aged about 30 Years, who says he was born, and has a Family, in Rhode-Island; the other John Ellis, born in London, who seems about 16 Years old. 'Tis said, that after the Sloop was run ashore on Norman's Island, the then Commander found Means of filling Part of the Cargo for Cash, and afterwards, with all the Crew, except these two Men, made the best of his Way for St. Domingo; to the Governor of which Place Mr. Purcell has sent a Dispatch, demanding their Bodies, which, it is said, he will readily comply with.—As those who are apprehended, prosecute much in their Story, and our Readers not fond of mere Conjectures in Affairs of so great Importance, we forbear to enlarge upon these iniquitous Practices, 'til it can be done with more Certainty. N E W

and apply the Money therein mentioned;—And, For Relief of Thomas Barkley; were read a second Time, passed and sent up.

Post Meridie. The Bills;—For regulating judicial Proceedings;—For choosing Vestrymen in St. Andrew's Parish;—And, For adding thirty two Acres to Baltimore-Town; were brought from the Upper House, passed, with a Clause proposed to be added to the latter; with which the House agreed.

The Bill;—For amending the Staple of Tobacco, &c. was read a first Time, and ordered to lie on the Table.

Then the House adjourn'd.

Saturday, November 3.

A Bill,—For Adjournment and Continuance of Talbot County Court, was read the first and second Time, by an especial Order, and passed.

On the second reading of the Bill,—For raising Three Half pence Sterling per Hoghead, for the Use of the Governor; the Question was put, Whether it should pass or not. It was carried in the Affirmative. Yeas 40. Nays 15.

The House adjourn'd till Monday.

[To be continued.]

ANNAPOLIS.

On Monday last his Excellency the Governor, in Presence of both Houses of Assembly, passed into a Law, in the usual Manner, a Bill which had passed both Houses, intituled, An Act for the Adjournment and Continuance of Talbot County Court.

We hear from Baltimore Town, that some short Time since, a Woman, the Wife of one Barrett, was barbarously murdered there; and that he, and several others, suppos'd to be concern'd in it, are now in Joppa Jail, and will soon be tried by a Special Court, to be appointed for that Purpose.

Monday last arrived here, from Rotterdam, the Ship Friendship, Capt. John Raturay, with about 300 German Passengers, all in good Health.

By the New York Mercury of the 29th of October, we have an Account of the Arrival of the following Vessels from this Bay, viz. From Maryland, White, at Deal; Goodacre, at Liverpool; Gracie, at Dover. From Virginia, Foster, at Hull; Carroll, at Deal; Noble, and Thornton, at Liverpool; Foster, at Whitehaven; Brown, Graham, Carnagie, and Donald, at Glasgow.

[In our Gazette, N^o. 441, Page 1, Col. 3, we mentioned that Leave was given to bring in a Bill (upon a Petition) to raise 150 l. in St. Paul's Parish in Prince George's County; but it was a Mistake, it ought to have been, in St. Paul's Parish, in Baltimore County.]

ACCORDING to Letters from Santa Cruz in Barbary, dated the 8th Instant, they have signed the Treaty of Peace and Commerce between the Subjects of the King of Denmark, and those of the Prince of Morocco, by which it is stipulated, That from henceforth there shall be a perpetual Peace between the two Nations: That if the Danish Vessels should chance to run ashore or be wrecked on the Coasts of Morocco, the Crews of them shall not only be unmolested, but all possible Assistance shall likewise be given them to save the Cargoes, which shall be faithfully restored to them by the Inhabitants of the Country: That the Subjects of his Danish Majesty may traffic freely from Azamor as far as the River Noun, paying the same Duties on Exports and Imports as are paid by other Merchants.

This Treaty contains other Articles, but we have not yet a clear Account of them.

L O N D O N.

Extract of a Letter from Fort St. David, by the Admiral Vernon, dated Feb. 28, 1753.

“Our Troubles still subsist, and, in my Opinion must continue, unless they are accommodated by our Superiors at home, or Mr. Dupliex (whose Humanity is not to be paralleled) is displaced. At the Time of Governor Starke's Arrival here from Madras, which was in July last, our Nabob's Affairs were in a very indifferent Situation: He had just before engaged his Enemies, and been obliged to retreat, which gave them great Spirits, and caused his own Subjects to revolt. The French were so elated at this little Success, that they marched up close to our Bounds with their whole Strength, which was far greater than ours; however, on their Approach, Governor Starke (who succeeded our late Deputy Governor, Mr. Cockhill, deceased) ordered our Army in Conjunction with the Nabob's, which was encamped at Trivady (a Fort about sixteen Miles distant) to march this Way, which they did with the greatest Expedition, and encamped within two Miles of the French. Luckily at this Juncture, Major Lawrence arrived from Madras, and took upon him the Command; which the French were no sooner apprized of, but they returned to their own Bounds: The Nabob and our Forces pursued them in hopes of bringing on a general Engagement, but finding it to no Purpose, we made a Point of retreating hastily to our former Encampment, in hopes of bringing them after us, in which we happily succeeded; for as soon as Governor Starke was informed of their Return he posted away immediately to the Camp, in order to hold a Conference with the Nabob and Major Lawrence; the Result of which was, to attack them early the next Morning, which we accordingly did, and thereby gained so complete a Victory as to take all their Guns, Tents, Baggage, &c. Their Commander in Chief was mortally wounded and all their other Officers, and the major part of their Soldiers either kill'd or taken Prisoners. After this and our former Success, there was Reason, I think, to hope that M. Dupliex would be inclined to listen to the Nabob's Proposals for Peace, which was to put every Thing on the

Coast upon the same Footing it was before the Commencement of the Troubles; but instead of so doing, he arrogantly answer'd, That when the Nabob had returned all the French Prisoners, he would then begin to think of Peace. Another of his unaccountable Actions, done purely, I suppose, to affront the English Nation, and which can't but surprize you pretty much, was this: The President and Council of Madras having thought proper to order a Detachment, consisting of 90 Men, to be sent by Sea to this Garrison, they proceeded accordingly; but when the Boats were abreast of Pondicherry, M. Dupliex ordered a French European Ship, well manned, to seize and bring them in thither, which when done, he wrote to the Governor of Madras, That he did not detain our Men as Prisoners, but Hostages, for the Delivery of his several Men that had been made Prisoners by our Nabob. Nor did his Revenge end here; it being certain that a General of the Mogul's, Gawzadecawn by Name, who was coming with an Army to our Nabob's Assistance, has been lately poisoned by Means of the French. However, at present we are on both Sides in a State of Inactivity, each expecting Succours from the Northern Parts of this Country; and what Events they may produce I shall inform you in my next.

“I forgot to acquaint you, that two or three Days after our last Success, the Nabob did Governor Starke the Honour to return his Visit, when he acknowledged himself not a little indebted to him for the happy Effects of the wholesome Advice he had given him.”

B O S T O N.

October 15. Saturday last a Sloop arrived here from North Carolina, the Master of which informs, that on Tuesday last he met with the most violent Gale of Wind, near George's Banks, that ever he was in in his Life.—That a Ter it was somewhat abated, he saw a Schooner that was bound to the West Indies, and had been overfet, but by cutting away one of her Masts, righted again. He also saw a Ship that had all her Sails blown to Pieces, and a Snow or a Brig that had suffered much Damage.

We have also a Report, that two damaged Vessels are got into Marblehead, but we cannot yet learn who they are.

October 22. Yesterday arrived here a Schooner that was fitted out last Spring to discover a North-West Passage; but we hear she has not succeeded, having been obstructed by the Ice, among which she was about three or four Weeks.

Wednesday last Capt. Denis arrived here from St. Kitts, who on the 7th Instant, in Lat. 38 and a Half, met with most terrible Gales of Wind, and four Days after came up with a Sloop that had been overfet, with three Men on board in a distressed Condition, two of whom they with great Difficulty took from her Quarter, but the other being in the fore Part of the Wreck (so weak that he seemed almost dead) they could not by all their Attempts get to his Relief. She was bound from Rhode Island to Surinam, and had been out but six Days when she met with this Misfortune. The Master's Name was Bowen, who with three of the Men had been washed overboard and drowned. The Mate, named Pearson, and a young Man, named Otis, are those brought in hither: They are both very weak, especially the Mate, who is much bruised.

N E W - Y O R K, October 29.

We are informed by Capt. Forsyth, who arrived here in the Snow Travers, on Tuesday last, in 8 Weeks from Bristol, that on Sunday the 7th Instant, in Lat. 41, Lon. 43, he met with as terrible a Gale as ever he was in in his Life Time: His Vessel was hove on her Beam Ends, and lay so a considerable Time, but after cutting away her Fore-top mast, she righted again, without much Damage. Three Days after the Storm, Capt. Forsyth spoke with Captain Hopkins, in a Snow belonging to Rhode Island, bound to Surinam, who,

in Lat. 39, Lon. 65, lost 23 Horses, and was otherwise much damaged in the same Storm; and said, that on the 8th, he saw the Quarter Rails of a large Ship floating a long Side, but could discover nothing remarkable belonging to it. The same Day, Capt. Forsyth spoke with Capt. Archer, in a Snow from Piscataqua, bound for St. Kitts, who had received no Damage: He also, on the 26th ult. spoke with the Dorset Galley, Captain Drifgil, from Dublin for Philadelphia, with Servants; who had then been out 4 Weeks; all well; and on the 3d Instant, with a Ship belonging to Whitebourn, from Rotterdam for Virginia, but as it blew hard, could not learn the Captain's Name: She had a Lion Head, and a small Awning over the Man at the Wheel.

Captain Elijah Goff, of the Snow Hope, of London, who arrived here on Tuesday Night last, in 38 Days from Terra La Boradora, on this Continent, advises, that he was at the Head of Davis's Inlet, which was thought to have a Communication with Hudson's Bay, and found it to terminate after 21 Leagues of a S. W. Course, in a large Ledge of Rocks; and going on Shore, found the Country to be entirely barren and unfruitful, not fit to produce any kind of Vegetables: As he was leaving the Inlet, Captain Swaine, who was fitted out by a Number of Gentlemen in Philadelphia and this City, in Quest of the much talk'd of North-West Passage, arrived there, who informed him, that from the 17th of May to the 28th of July, he was surrounded entirely by Ice, and found it impossible to make any Discovery, and intended as soon as he had searched Davis's Inlet, to return home. Capt. Swaine spoke with a Danish Ship in Davis's Streights, the Master whereof reported, that he had used that Trade for 24 Years, and never met with such a hard Winter before.

Most of the Vessels that arrived here last Week, suffered more or less in the Gale of Wind on the 7th Instant, and it seems to have extended as far to the Eastward as Halifax; for by Capt. Livingston of the Snow Hellena, who arrived here last Tuesday from London, but last from that Port in 8 Days, we have the following Account: That on Sunday the 7th Inst. they had a severe Storm of Wind at S. E. accompanied by a heavy Shower of Rain, which continued all the Forenoon: About 12 o'Clock the Wind veered about to the S. W. with Rain and a strong Gale of Wind; and between One and Two it shifted in an Instant to the N. W. when it blew a mere Hurricane: It continued near half an Hour, when two exceeding bright Rainbows were set in the N. E. all the Shipping in the Harbour dragg'd their Anchors, many small Craft drove ashore, and sundry Vessels at the Wharfs received considerable Damage; and it was tho't if the Gale had continued half an Hour longer, every Vessel in the Harbour would have been drove ashore: During the Time of the Storm, almost all the Trees on the Citadel Hill were blown down, and several Houses not inhabited, suffered the same Fate.

A few Days after the Storm, a Ship arrived there from Philadelphia, the Master of which reported, that he met with the same Gale, which obliged him to lay too under his bare Poles, not being able to set a Rag of Sail, and his Vessel lay down in such a Manner, that one or two Streaks of her Deck was constantly under Water, and expected to founder every Moment.

It was also reported at Halifax, that three or four Vessels were cast away at Port-Matane, to the Westward of that Port; also that Quantities of Onions, Apples, &c. were drove ashore to the Eastward; so that they daily expected to hear melancholy Accounts of more Damage done by the Storm.

Captain Fardil, in 25 Days, from Surinam, left the following Northern men at that Place: Capt. Rhodes, Batty and Car, of Rhode Island; the two latter dead. Negat, Owens, Hill, Smith, Rhodes, Stafford and Green, of Provident, N. E. the three first

first ready to sail, and the two latter dead. *Faberly, Stanny, Thompson and Pierce, of Boston*; the two first dead. *Stafford of Greenwich*, ready to sail.

Captain *Vardil* informs us, that many Mates and Foremast Men are dead; that the Inhabitants die very fast; and that it was never known to be so sickly there before. In the Latitude of the Islands, on the 12th Instant, Capt. *Vardil* met with a very hard Gale, and imagines it must have reach'd them; and in Lat. 34, he spoke with a Sloop from *Boston* bound for *New Providence*, lying too in a South Easter.

PHILADELPHIA, October 25.

Our Readers are hereby cautioned to beware of Counterfeit New Castle Ten Shilling Bills, in Imitation of those dated the 28th of Feb. 1746. Besides that the Counterfeits are struck off from an engraved Copper Plate, and the true Bills from common Types or Printing Letters, the former may be known by these Marks. In the first Word, *THIS*, the *S* is made too tall in Proportion to the other Letters; the Letters of the Word *INDENTED* (except the *I*) are made leaning a little forward, which in the true Bills are upright; and in the Arms, the Word *DROIT* is made *DPOIT*. On the Back, the Word *Counterfeit* is spelt thus, *Counterfeit*. There is Reason to believe these Counterfeits are imported from Germany. People are therefore desired to observe carefully what Money they receive from the New-comers or Newlanders, or their Acquaintance; a great Reward will be paid to him that shall discover the Importer.

November 1. Captain *Rankin*, from *Dublin*, with Servants, is arriv'd at *Newcastle*. In the Storm of the 7th ult mention'd in our last, he lost his *Mizenmast*, and some Sails.

From *Cape Breton* there is Advice, that they had there a most violent Storm, on the 7th of last Month, for about six Hours, the Wind at *S. E.* in which Time about forty Sail of Vessels were drove ashore; and among them Capt. *Nicholls*, in a Sloop belonging to *New York*; and Capt. *Dinnison*, in a *New London* Brigantine; and several other *New England* Men: But that it was thought the greatest Part of them would be got off without much Damage.

Yesterday Capt. *Vance* arriv'd here from *Barbadoes*, who informs us, that Capt. *Salcus* was safe arriv'd there from this Place; and that on the first of October they had a smart Gale of Wind there at *S. W.* which drove two Sloops ashore, and made several Vessels part with their Cables, but did no other Damage.

We hear that a *Boston* Sloop, Capt. *Godfrey*, who ran on the *Cross Ledge*, in our Bay, on the 22d ult. is bilged; and but very little of a valuable Cargo of *Rum* and *Mackrel* saw'd.

Gentlemen of the Lower House of Assembly, HIS Majesty out of a tender Regard for the Lives and Fortunes of his Subjects in this, as well as the neighbouring Provinces, has commanded the Secretary of State to advise us of the Danger of suffering a foreign Power to intrude and make Settlements on any of his Majesty's American Dominions: Our Interest in such an Event, tho' his Majesty had not been pleas'd to signify his Royal Pleasure, would make this Affair worthy our most serious Consideration; but when you see by that Letter from the Earl of *Holderness*, that should the neighbouring Colonies make Application to us for Assistance, I might be under a Necessity of convening you without Respect to the Inclemency of the Season, or other Inconveniences, unless before the Conclusion of this Session a Fund be established for such Uses. I make no Doubt but the Consideration of the vast Expence extraordinary Meetings of Assembly occasion to the Country, and also that it is not so easy and practicable to raise Money upon an Emergency as properly to apply it, will induce you to consider at this Time our Indian Allies, whose Affections the French will endeavour by every Artifice to alienate from our Interest: And on this Occasion my Duty obliges me earnestly to recommend to you the Revival of the Law for Arms and Ammunition, without which, we shall, in Case of an Attack, be unable to defend our private Properties, much less to join the neighbouring Colonies, to manifest our Duty and Loyalty, by repelling the Violence of any Enemy, and preventing an Invasion or Attempt upon his Majesty's Dominions on this Continent.

To his Excellency HORATIO SHARPE, Esq; Governor and Commander in Chief in and over the Province of MARYLAND.

The humble ADDRESS of the House of DELEGATES.

May it please your Excellency,

IN Answer to your Excellency's Message, with the Earl of HOLDERNESSE's Letter, we assure your Excellency we have that due Sense of our most gracious Sovereign's paternal Tenderness for, and Care of, all his Subjects, which Duty and Gratitude inspire, and are sufficiently apprehensive of the great Danger of suffering a foreign Power to encroach upon any Part of his Majesty's Dominions: we are determined resolutely to repel, in the best Manner we can, all hostile Invasions of this Province, by any foreign Power; and whenever the Circumstances of our neighbouring Colonies may require, or need our Assistance, we shall cheerfully contribute as far as we are able, towards defending them against the Attacks of their Enemies: But as there does not appear, at present, to be any pressing Occasion for imposing a Tax upon

the People for these Purposes, we hope, that our Unwillingness to do it at this Time, will be rather ascribed to the real Motive of our Conduct, a prudent Care of, and Regard to, the Interests of our Constituents, than any Disinclination to the Service recommended.

On your recommending the Revival of the Act, for Arms and Ammunition, we must (tho' with Reluctance), observe to your Excellency, that under Colour of an Act of Assembly, made in the Year Seventeen Hundred and Four, when this Province was under the immediate Protection of the Crown, the Sum of Twelve Pence per Hoghead on all Tobacco, exported out of this Province, has been and still is, collected and paid the Lord Proprietary; Three Pence of which Twelve Pence per Hoghead, when that Act was in Force, was, by the Instructions of her most gracious Majesty Queen ANNE to her Governor here; applied towards a Supply of Arms and Ammunition; and altho' it is the Sense of this House, that the above-mentioned Act could not continue longer than during the Time the Government of this Province was in the Crown, and therefore, as they conceive, cannot now be in Force, yet it is thought but just and reasonable, while that Duty is collected, that Three Pence, Part thereof, should be applied, as during the Continuance of the above-mentioned Act, to a Supply for Arms and Ammunition, and for this Reason we cannot, consistently with our Duty, and the Trust reposed in us by our Constituents, consent to a Revival of that Act.

The Journal of Accounts was return'd from the Upper House, with a Message: On reading which, the Question was put, Whether the Consideration of the Journal be referred to next Assembly, or not? *Resolved* in the Negative. Nays 24. Yeas 17.

Then the Question was put, Whether the Journal of Accounts should pass, or not? *Resolved* in the Negative. Nays 25. Yeas 16.

The Bill [Numb. 30,] was brought from the Upper House, Passed.

The Bill [Numb. 35,] was brought down with some proposed Amendments, which were agreed to.

A Report from the Committee of Elections, was brought in.

Gentlemen of the Upper and Lower Houses of Assembly,

I CANNOT but take Occasion, before we conclude this Session, to return you Thanks, for the Hopes you have given me of an easy Administration; by your general Behaviour, during this long Assembly; as well as the particular regard you have shewn to myself. Indeed the Harmony which seemed to subsist between your Two Houses, induced me to think every Thing would be amicably concluded, in respect to the Journal; and tho' Time will not permit you to put the last Hand to that Affair, at present, yet I hope the Satisfaction and Content of your Constituents, will induce you, at your next Meeting, to remove every Occasion of Dispute, between the several Branches of the Legislature. Your Disposition, which appears in your Yesterday's Address, to lend your utmost Assistance to the neighbouring Colonies, in Case of an Attack, gives me great Satisfaction: And I am persuaded you will lay no farther Stress on those Objections to the Revival of the Law, for Arms, which have been so fully answered by my Predecessors.

As the Welfare of the Province has been your sole Care here, I doubt not but your Influence in the several Counties, will contribute to the same, which I again assure you, no one can be more truly concerned for than myself.

Gentlemen,

I have, with the Advice of his Lordship's Council of State, thought fit to prorogue this Assembly to the second Tuesday in February next; and you are to take Notice you are prorogued to that Day accordingly.

So ended the Session, which began on the 2d of October last.

LONDON, August 14.

THEY write from Norwich in Cheshire, that the following uncommon Affair happened there, and may be depended on for Truth.

A Young Lady genteely dressed, came on Horse-back to the old Red Lion Inn there, without any Attendants, and immediately asked the Landlady if she could recommend a clever young Fellow to her for a Husband, that if his Character was good, she had no Objections to his Occupation. The Landlady, although greatly astonish'd at so uncommon a Question, after a little Hesitation replied, there was a brisk young Fellow in the Neighbourhood, a Journeyman Barber, who, no Doubt, would be glad of the Honour. The Lady agreed he should be sent for, who in a short Time appeared, when the Question was asked him, would he marry the Lady or not? But his Answer not being categorical, an Hour's Time was given him to come to a final Resolution; but that Time being elapsed, and no Barber appearing, the Lady, who it seems was a little impatient for a Husband, and resolved to be married that Day, had once more Recourse to the Aid of her Landlady, who sent for a Linnendrapers Apprentice; and being interrogated to the same Purpose, he was bold enough to comply with her Request, and immediately set out for Budworth, and were that Morning married there. Scarce was the Marriage Ceremony performed at Budworth, when two Gentlemen and three Livery Servants put up at the same Inn at Norwich, in Quest of the Fugitive Lady, but great was their Mortification at the Recital of the above Particulars. They mounted their Horses directly, and rode full speed to Budworth, where they came Time enough to perceive their Expedition rendered abortive, by the Consummation of the late Marriage. It is said the young Lady is entitled to 800 L. a Year independent of her Father, who would have had her into a Marriage with a rich old detestable Fellow, which induced her to take this Method of avoiding so detestable an Union.

September 1. The Rains which have lately fallen in Spain, have not restored the Country to its usual Fertility: Misery and Distress, through Scarcity of Provisions, prevail in many Parts of the Kingdom; and even in Madrid, the Necessaries of Life are double their ordinary Value.—It is said that the Men of War, destined to reinforce the Spanish Guards Collas in the West Indies, will be ready to put to Sea in a Fortnight at farthest.

We are well informed that the Parliament will sit for the Dispatch of Business the 20th of November next, and be dissolved very early in the Spring, there being some Things necessary to be done before its Dissolution.

September 4. We hear several rich and wealthy Jews are determined to petition the House of Commons for the Repeal of the late Naturalization Act, finding it so generally disagreeable to the English Nation, that their future quiet Residence among us, depends on their being in the same State they were in before the glorious Act of 1753.

Last Friday Night the Mate of a Ship went into one of the Bawdy Houses in Farthing-Fields, near Shadwell, where he was cut and wounded in so terrible a Manner, that he died about Two o'Clock on Sunday Morning; and a Man that was with him is cut in such a Manner, that it is thought he will lose one of his Hands. On Sunday Evening between Eight and Nine o'Clock, about 50 Sailors went in a Pesse to the above Place, and Part of them enter'd every House in the Row, which consists of about ten very notorious Bawdy Houses; when they immediately broke the Frames of the Windows, and demolished the Beds, Tables, Chairs, and what other moveables they could find, and threw them out of the Windows, which the remaining Part of the Sailors collected together in a Heap, and made a very large Bonfire: Three or four of the Ladies, who appeared to be the best clothed, they brought to the Bonfire, where they stripped off all their Cloaths, which they threw into the Fire, and obliged the Ladies to walk naked round it, and then suffered them to go about their Business in that Condition. After the Fire was out, the Sailors went off in a very peaceable Manner.

HALIFAX, September 29.

Last Monday Night the following unlucky Accident happened here, viz. One Hewes a private Soldier, and a Drummer belonging to the same Regiment, took a Boat from one of the Wharfs, and went on board a Vessel in the Harbour in order to steal some live Stock (as they term it) that is two Women Servants, and having got their Fowls into the Boat along with Hewes, and the Drummer just ready to embark with them, but hearing somebody stir in the Steerage and being apprehensive of a Discovery, jump'd off the Vessel's Gunnel into the Boat, and over set her, by which Means Hewes and one of the Women were drowned, the others with Difficulty saved their Lives, and we hear the Captain of the Vessel has enter'd an Information against the Drummer for Theft upon

THE MARYLAND GAZETTE,

Numb. 447.

Containing the freshest Advices foreign and domestic.

THURSDAY, November 29, 1753.

MADRID, July 7.

THE Troops throughout the Kingdom are recruiting with great Diligence; a General Amnesty is published for all Deserters, even those from the Horse, who hitherto have been constantly expected; and there is something on the Carpet of the greatest Consequence, though no body pretends to be so much a Politician as to guess what it is.

Lisbon, July 17. The Squadron of Men of War that went in Chace of the Corsairs of Barbary that infested our Coast, would have taken them, had it not been for an Accident which happened in one of the Men of War of a Gun bursting during the Engagement, which killed and wounded 22 Men: But the Corsairs taking Advantage of the Confusion which this Misfortune occasioned, gained the Wind, and made their Escape.

Leghorn, August 10. We learn from Algiers, that the Pope's Felucca, which was lately taken by a Barbary Corsair on the Coast of Sicily, being arrived at that Port, the Dey ordered the Slaves to be brought before him. Amongst them were Signior Quintavalle and Signora Gallinare, in Company with a large Band of Musicians, who were going from Rome to the Opera at Palermo: But the Dey having an Ear deaf to the Charms of Italian Music, ordered the Men to be conducted to the Bagne (where the Slaves are kept) and the Ladies to one of his own Houses, to be employed in a Manner suitable to their Sex.

Warsaw, August 10. Letters from Cracow advise, that on the 30th of last Month they executed two Burghers who had a Hand in the late Tumult in that City. The Execution was performed before the Town Hall in the following Manner: Their Hands were first cut off; after which they were beheaded, their Bodies quartered, and the Members set upon Posts planted before each of the four Gates of Cracow. These Letters add, that they were preparing for the Trials of the Students concerned in the said Tumult.

Paris, August 13. The Clergy carry on the War against the Law vigorously. A Body of some thousands have Orders to march into Provence, to terrify the Parliament of Aix.

Paris, August 27. An Agreement is made between our Court and that of Great Britain, to send Commissioners on both Sides to the Coast of Comandul, in order to put an End to the Disputes between the two Nations, and to settle the Limits of their respective Possessions. 'Tis said that M. de Godehea is already appointed one of our Commissioners. As the British Court has expressed some Dissatisfaction at the Conduct of M. Dupleix, Governor of Pondicherry, we are assured it was some Time since resolved to recall him; but on his receiving this Advice, he made Answer, that he was too far advanced in Years to bear the Fatigue of a Voyage to Europe, and that he must continue in that Country, though it should be thought proper to appoint another Governor in his Stead.

LONDON.

Extra of a Letter from Petersburg, dated Aug. 7.

We had an odd Accident happen'd here Yesterday: A Professor was making Electrical Experiments when it thundered and lightened in his Garden, and was struck dead by a Flash of Fire that came from the Iron. A Man who stood quite close to him, got several Strokes with the Wires, which made several deep Cuts in his Back, cross one another. I am just come from seeing the Professor's Body: He has got a large red Spot on the Top of his Head, another on the left Breast, and a black one on his Foot.

August 15. Yesterday a merry Broil happened between a Jew and a Ticket Porter, at a Public House in Leadenhall Street. The Jew brought in to the House a Gridiron of his own in order to broil his Dinner, and clapping it on the Fire, went to fetch his Viands; in the Interim the Porter came in with two Pork Stakes, and seeing the Gridiron on the Fire, imagining it to be the Landlord's, put

his Stakes upon it; but the Jew coming soon afterwards and finding his Gridiron defiled with Pork, in a Rage took it off the Fire, and threw both that and the Meat in the Street, on which a Battle ensued between the Porter and the Jew, but the latter was much worsted, and obliged to go and dress his Provisions at another Place. [This may be reckoned a Broil with a Witness.]

We have Advice by our East India Ships lately arrived, that 13 French Men of War of the Line, were at the Cape, bound for the East Indies, who, we may suppose, have a Commission to protect the British Settlements in those Parts.

They write from Blithfield, in Staffordshire, that Sir Walter Wagstaffe Bagot, Bart. Knight of the Shire for that County, was met on the Road to his Seat last Thursday, by upwards of 700 Freeholders of that County, expressing their Approbation of his Conduct in Parliament, in so zealously opposing the Bill for naturalizing the Jews, promising to support, to the utmost of their Power, the Friends of Christianity, and expressed their Detestation to all Favourers of Judaism, as Enemies to God and their Country.

By a private Letter from—d in S—we are inform'd, that the M— of that Place got into his Pulpit to preach in Favour of a late Naturalization Act, and that his Elocution was so fine, and his Sermon so moving, that in five Minutes the whole Congregation mov'd out of the Church, leaving him only the empty Pews, which probably would have been equally mov'd, had he gone on to the End of his Story. [This was indeed a moving Affair.]

September 4. It must afford the greatest Satisfaction to every Body to observe the Success our Greenland Ships have had this Year; and though a great many were employ'd, not one of them lost. A few Years since there was not a single Ship from Britain employ'd upon that Fishing, notwithstanding they were in a Manner the first Discoverers of the Place, and the Advantages of it. It is true, the whole Trade was once carried on by an exclusive Company in England for a considerable Time, but they were beat out of it by the Dutch, and have continued so till the late Act of Parliament was pass'd for reviving it, the happy Effects of which are very visible. During eighty Years, in which the Dutch were unrivalled in this Branch of Commerce, they cleared upwards of eight Million Sterling, not to mention the innumerable other Advantages accruing from it. Since we have again come in for a Share in this Trade, to render it more beneficial, it is the Opinion of several judicious Persons that a Port should be erected, and a Port opened in the Orkneys, where we might have all Kinds of necessary Utensils always ready; there we could make more and better Oil, from the same Quantity of Fish, than any of our Neighbours; it would also give us an Opportunity of visiting the Coast of Greenland earlier, and remaining there longer than other People.

September 15. The 3d Infant Susanna Brusford of Mouton near Taunton, was burnt at Cure-Greca near Wells, for poisoning her Husband, who was a Farmer of good Repute. A little before her Execution, she declared that the Beginning of her Misfortune was a too near Intimacy with an Attorney's Clerk, who seduced her, when she had been to see some Fire Works at Taunton. She behaved very penitently, and acknowledged the Justice of her Sentence.

Dublin, Aug. 14. The Markets of Dublin are now so reasonable, that a good Fowl is not above four Shillings, and other Poultry in Proportion; which plainly shews the mighty Advantage this very wise Country enjoys by the Benefit of Tillage, and the great Benefit of Corn: and, we are well assured, that if there be a dry Harvest, and all the Grain got in safe, we shall have near three Months Provision, without sending to any other Country for supply. Happy, happy Ireland! that only sends all her Rents to Abroad, and for Corn and Claret.

August 21. It is hoped some Law will speedily be made to enforce the Tillage Act in this Kingdom, that our poor Labourers may find Employment at home, and eat the Bread and wear the Manufacture of their own Country. The Tillage Act sets forth, that five Acres in every Hundred throughout this Country, should be ploughed; but this Law is so much evaded, that even not Two in a Hundred are sown.

The excessive drinking of spirituous Liquors, especially Whiskey, is now become so common, that more People are killed by them, than by small Pox, Fevers, broken Limbs, Accidents, and all other Distempers put together.

August 25. We hear that the Body of Fanning, the Constable, who was executed for the Murder of John Bevins, on Lezer's Hill, and buried near the Warren House, has been dug up, and distilled into Whiskey, which, for Quantity and Quality, is allowed to excel all other Spirits, and, no doubt, will be greedily swallowed by the Connoisseurs in that Liquor. His Mastiff Dog, who licked up some of his Blood, and was hanged the same Day, we are told, has been likewise distilled, and produced most excellent Stallrinky. (Stallrinky is a most inflaming kind of Spirit, drank by the lowest Class of People in Dublin, and sold for a Half-penny a Naggin.)

On Account of the pernicious Effects of Whiskey upon the lower Class of People, several Grocers, who value a good Reputation more than fordid Gain, have resolv'd to drop the selling of that Spirit.

August 28. That certain Circumstances attendant on Death often carry more Terror to the Bulk of Mankind than Death itself, is a Truth pretty obvious and uncontroverted: On this Observation seems to be founded the late Act in England, which directs, that the Bodies of such as are executed for Murder shall be delivered to the Surgeons for Dissection; might we not likewise expect to see the happy Effects of such a Law, if introduced into this Kingdom? especially, if it were to extend to that Generation of Self murderers among us, the Whiskey Drinkers, (the Produce of the Still being as certain, and oftentimes as sudden, Instrument of Death as the Rope or Sword.) Unless perhaps it might be thought more advisable, instead of delivering them to the Surgeons, to deliver them to the Distillers, as from some late Facts we are furnished with an unanswerable Proof, that putrified Corpses produce a most excellent and wholesome Spirit. Add to this, that such an Application of them would be no more than an Act of strict Justice, nothing being more equitable, than that such as have contumaciously refused to be satisfied with the Materials of a Supply for others: And it has this additional Argument in its Support, that it would prevent a great and unnecessary Consumption of our Grain, which might then be preserved for more useful and salutary Purposes.

CHARLES-TOWN, September 3.

By the last Vessels from Providence, we have Advice, that the French have lately actually been at Turk's Island, the Caicos's, Henago, Maguana, and some other small Islands in the Windward Passage, with a Ship of thirty six Guns, one Sloop of sixteen, and two of twelve; which they keep constantly cruising from Hispaniola to and among those Islands: That they talk of settling the Caicos's, Henago, and Maguana, and of running out the Western Half of Crooked Island, for the same Purpose; and also for erecting Light-houses on two Keys at Henago and one of the Caicos's, near which Places many Vessels have been lost for want of them: And that they had loaded and sent away a Sloop to Cape Francois, with some of the Braziletto that had been cut by the Providence People on those Islands, and burnt the rest.—By the French taking Possession of these Islands, our Trade with Jamaica must be rendered every precarious, as there-

by they obtain the Command of the Wind-ward Passage. The Consequences in Time of War, we leave to better Judges, and to Politicians.

October 22. Capt. Elmes, who arrived here last Monday from London, met with a terrible Hurricane on the sixth Instant, about 120 Leagues to the Eastward, in Lat. 31. 30. Long. 70. which began about 6 o'Clock in the Morning, and continued till 4 in the Afternoon; in which his Ship lay 7 Hours on her Beam Ends, had part of her Stern and dead Lights beat in, her Rails and Binnacle broke, shipp'd many Seas, had her Cargo turn'd topsy-turvy, and received other Damage. Capt. Edmonds from London, Capt. Watson from Leith, and Capt. Hinson from Bermuda, all felt the same Hurricane, but received no Damage.

B O S T O N, October 29.

At the Superior Court, Court of Assize, &c. held at Salem for the County of Essex, on the 16th Inst. Daniel Giddings, jun. was indicted (with Charles Boyl) for forging and counterfeiting six Pieces of mix'd Metal, to the Likeness of a Spanish Mill'd Piece of Eight, and for uttering one of them, knowing the same to be counterfeit; to which he pleaded Guilty, and received the following Sentence, viz. to be set in the Pillory for the Space of one Hour, to be whipt ten Stripes at the public Whipping-post, to be committed to the House of Correction, and there to be kept to hard Labour for the Space of three Months, and to give Bond for his good Behaviour for six Months after.

At the said Court, Thomas Maybet, of Ipswich, Fisherman, was indicted and tried for stabbing a Negroe Man, so that his Life was greatly endangered, and being found guilty, was ordered to be set on the Gallows, with a Rope about his Neck, and one End of it cast over the Gallows, for the Space of one Hour, to be publicly whipt 15 Stripes, suffer six Months Imprisonment, and give Bonds for his good Behaviour for the Space of three Years.

November 5. We hear that a Long-Boat, Yawl, Binnacle, and an Hen coop, were found ashore at Race Point on Cape Cod, since the Storm we had on Tuesday last, supposed to have belong'd to some Vessel outward bound.

N E W Y O R K, November 5.

Since our last, Capt. Savage in a Sloop, and Captain Dunscombe, in a Brig, arrived here from the Bay of Honduras, the former in 32, and the latter in 23 Days. In Capt. Savage is come Passenger Mr. French, late Mate of Capt. Burger, of the Sloop Mary, of this Port: He informs us, that being bound from Musquito Shore to the Bay, on the 12th of September last, between Key Bokell and English Key, the said Sloop was taken by a Spanish Galley of 12 Six pounders, and two of Eighteen, Prow Guns, and about 170 Men. Before the Spaniards boarded the Sloop, Mr. French, and a Man they took from the Shore, made their Escape in the Long-boat, and imagines they carried her into Port Mahoe. Capt. Burger, and all his Hands, together with Capt. Menzie, who he took from the Shore, and who was formerly Commander of a Brig out of this Port, and taken bound to the Bay, were all on board the Boat, but being dubious of escaping returned on board the Sloop. This Galley had the Day before drove a Sloop on Shore belonging to Governor Pitts, of the Musquito's.

Two Days before Capt. Savage sail'd, Capt. Menzie came in from the Galley, the Capt. being so generous as to purchase of his Gunner for 20 Dollars, a small Doree, which he gave to Captain Menzie and another Man to go ashore in. The Galley had not then been into Port after they took the Sloop. Capt. Menzie reported, That after he was taken in the Brig he was carried into Port Mahoe, from whence he got a Passage in a Jamaica Trader to the Musquito's; and that all his Hands died before he left the Port, through the incredible Hardships they underwent for want of Provision and other Necessaries, besides being obliged to labour hard. He also reported, That the Spaniards were fitting out his Brig to mount 18 Guns, and another of 14, as Cruizers against the Baymen.

November 12. Captain Ball in 30 Days from Antigua, advises, that some Time ago, a Sloop belonging to Stacia, was taken by a Spanish Privateer, off Crab-Island, and carried into St. Domingo.

P H I L A D E L P H I A, November 8.

On Tuesday, the 30th ult. the Sloop Speedwell, Captain Sage, of this Port, inward bound from Tenerife with Wines, ran ashore on our Cape. The Wind was at North east, and blew so violently, that the Vessel dragg'd her Anchors, which oblig'd them to cut, and let her go ashore, to save her from foundering. The Sloop, it is thought, will be got off, and but little of the Cargo lost.

There are Advices from Cape Francois, which say, that on Wednesday and Thursday, the third and fourth of October, there was a violent Gale of Wind, or Hurricane, in those Parts, by which sun-

dry Vessels were lost or damag'd. After the Storm, the Crew of a French Ship, which was cast away, arriv'd at the Cape in their Boat, and reported, that a Sloop bound to Boston, Captain Toulon, founder'd at her Anchors near the Caicos's; the People were taken up by a Ship bound home, and carried to Old France. Captain Tryon, belonging to Connecticut, with Horses on board, lay to, the first of the Gale, about 12 Hours, and lost all his Horses; then it came on so hard, that he was oblig'd to scud before it, and ran on the Silver-key, or Plate-wreck. The Men were taken up in her Boat, by a French Ship from Martinique, that had lost all her Masts in the same Gale, and carried into Cape Francois. Another Sloop, belonging to Connecticut, was cast away, together with an English Ship, in Samana Bay, the East End of Hispaniola, Names unknown.

Thursday last the following melancholy Accident happen'd in the Jerseys: Some Neighbours were out a Deer hunting, when one of them, creeping through the Bushes, was by another of the Company taken for the Deer, who accordingly fir'd at him, and wounded him so badly, that notwithstanding all proper Help was got for him, he died on Monday.

On the 31st of last Month, the House of John Hanly, of Chester, was broke open; and robb'd of sundry Goods, to a considerable Value: And on Monday one Thomas Brown was taken up in this very City, on Suspicion of being concern'd in said Robbery. We hear that the House of one Mr. Montgomery, of Christline, has also been lately broke open; and that since the Robbery at Chester, the Houses of Mr. John Paschall of Darby, and Mr. Charles Jenkins, at the Middle Ferry, have been attempted.

November 15. Sunday last arriv'd here the Schooner Argo, Captain Charles Swaine, who sail'd from this Port last Spring on the Discovery of a North west Passage. She fell in with the Ice off of Farewell; left the Eastern Ice, and fell in with the Western Ice in Lat. 58. and cruiz'd to the Northward to Lat. 63. to clear it, but could not, it then extending to the Eastward. On her Return to the Southward, she met with two Danish Ships bound to Ball River and Disco up Davis's Straits, who had been in the Ice fourteen Days off Farewell, and had then stood to Westward, and assured the Commander that the Ice was fast to the Shore all above Hudson's Straits to the Distance of 40 Leagues out, and that there had not been such a severe Winter as the last these 24 Years that they had used that Trade; they had been 9 Weeks from Copenhagen. The Argo finding she could not get round the Ice, press'd thro' it, and got into the Straits Mouth the 26th of June, and made the Island Resolution, but was forc'd out by vast Quantities of driving Ice, and got into a clear Sea the first of July. On the 14th, cruizing the Ice for an Opening to get in again, she met 4 Sail of Hudson's Bay Ships, endeavouring to get in, and continued with them till the 19th, when they parted in thick Weather in Lat. 62 and a Half; which thick Weather continued to the 7th of August; the Hudson's Bay men supposed themselves 40 Leagues from the western Land. The Argo ran down the Ice from 63 to 57, 30 and, after repeated Attempts to enter the Straits in vain, as the Season for Discovery on the Western Side of the Bay was over, she went on the Labrador Coast, and discover'd it perfectly from 56 to 55, finding no less than 6 Inlets, to the Heads of all which they went, and of which we hear they have made a very good Chart, and have a better Account of the Country, its Soil, Produce, &c. than has hitherto been published. The Captain says 'tis much like Norway; and that there is no Communication with Hudson's Bay thro' Labrador where one has been heretofore imagined, a high Ridge of Mountains running North and South about 50 Leagues within the Coast. In one of the Harbours they found a deserted Wooden House with a Brick Chimney, which had been built by some English, as appeared by sundry Things they left behind; and afterwards in another Harbour they met with Capt. Goff in a Snow from London, who inform'd, that the same Snow had been there last Year, and landed some of the Moravian Brethren, who had built that House: But the Natives having decoy'd the then Captain of the Snow, and 5 or 6 of his Hands in their Boat round a Point of Land at a Distance from the Snow, under Pretence of Trade, and carry'd them all off (they having gone imprudently without Arms) the Snow, after waiting 16 Days without hearing of them, went home, and was oblig'd to take away the Moravians to help to work the Vessel. Part of her Business this Year was to enquire after those Men. Captain Swaine discover'd a fine Fishing Bank, which lies but 6 Leagues off the Coast, and extends from Lat. 57. to 54.

supposed to be the same hinted at in Capt. Davis's second Voyage. No bad Accident happen'd to the Vessel, and the Men kept in perfect Health during the whole Voyage, and return'd all well.

The same Day two of the Shawana Indians, who had been taken and imprisoned in South Carolina, arrived here in Capt. Read, being permitted to go home by that Government, to negotiate the Discharge of some Carolina Indians, who, at present, are Prisoners among the Northern Tribes. And by Capt. Stiles, who left Charles-Town since Capt. Read, we learn, that the remaining Shawanas, who were to have been detain'd in Prison till those Carolina Indians should be sent home, found Means to break Goal, and have made their Escape.

Capt. Read met with a violent Gale of Wind at S. S. E. on the 17th ult. in Lat. 34. 50. which had like to have drove him ashore on Cape Hatteras Shoals. And in Lat. 37. the Tuesday following, had a severe Storm at N. W. which shifted to N. E. and so round to S. and blew exceedingly for 14 Hours. He saw a Snow lying to in it under her bare Poles, which afterwards stood away to the East ward.

Capt. Stiles had the same Storm off of the Capes of Virginia, but receiv'd no Damage.

Capt. Campbell, from North-Carolina, also met with it off the Capes of Virginia, but suffer'd no considerable Loss. He saw, after the Gale, a Ship or Snow dismasted off of Sinepuxent.

From Charles Town, in South-Carolina, there is Advice, that three Men of War are ordered to dispossess the French of the Salt Islands, &c. in the Windward Passage.

By Capt. Eccles from Santa Cruz, we are inform'd, that on the 29th and 30th of September, they had a terrible Gale of Wind there, which lasted 24 Hours, during which two Vessels foundered at their Anchors, and three more went out to Sea; one of which got ashore on Porto Rico, and was lost; the other two not heard of when he came away. That at St. Domingo most of the Vessels put out to Sea, some of which had got safe in there. That at Stacia all the Shipping got to Sea, but one that was lost. And that a Vessel had arrived there from Antigua, by which there was Advice, that the Shipping had not suffered there; but that they had heard of a great deal of Damage among the French Islands. Capt. Eccles likewise informs us, that Capt. Vernon was to sail soon for Boston: That a New York Sloop arrived there the Day he sailed; and that on his Passage, on the 30th of October, in Lat. 36, 30. he had a severe Storm at E. N. E. which laid him on his Beam-Ends for 12 Hours, and his Ballast shifted; but the Wind afterwards veer'd to S. W. when the Vessel righted, and the Ballast shifted to the other Side.

Capt. Coxe, from Anguilla, met with the same Storm off of our Capes, which split his Sails to Pieces, and oblig'd him to scud before it under his bare Poles.

And Capt. Swaine lost his Boltspirit in it, the Day after he left Boston.

Capt. Sage, mentioned in our last to be ashore at the Capes, is got off, and come up to Town.

Yesterday we had a hard Gale of Wind at East, attended with a great deal of Rain, when the Tide flow'd higher by several Inches than it has done for some Years; it got over all our Wharfs, and into most of the Stores on them; so that we are afraid there must have been considerable Damage done.

Our Readers are cautioned to beware of counterfeit English Halfpence, great Quantities of which we understand are lately imported. They are of all Kings and Years from King WILLIAM downwards; but besides being of base Metal, they are much lighter than the true Ones. They may be known by their Colour, Thinness, and Roughness, occasioned by their being cast in Sand. 'Tis said that above Forty Thousand Pounds Sterling in such Halfpence, have been lately made in England; but their Currency being now stop'd at home, some evil-minded Persons are buying them up to send to the Plantations. The other Provinces are already on their Guard, and 'tis hoped our People will likewise be too prudent to give them a Currency; since if they can be pass'd here, our Silver and Gold, to an equal Value, will be carried off in Exchange for them, to the Ruin of the poorer Sort, in whose Hands they must at last sink; since all Merchants and knowing Dealers will absolutely refuse them.

Copy of a Letter, just come to Hand.
"Potowmack, Nov. 1, 1753.

Mr. GREEN,
I TAKE this Opportunity of informing you of a most melancholy Affair which happen'd on the 16th of last Month: One Thomas Cooper, an Inhabitant on the South Branch of Potowmack, happen'd to be from home, and having left his Children to manage his Affairs during his Absence, one of the Boys about Eleven Years old, went from the House about 100 Yards in order to drive some of the Cattle round the corner of the Fence, where he was met by seven Indians (who were seen some Time before sculking about that Place), who carried him off the Spot, and none of the rest of the Children could tell what became of him, only that they heard him Halloo twice: After his Father came home, he got several of the Inhabitants to go along with him into the Woods to try if they could find him, but without Success, for they have heard no News of him, or of the Indians, since that Time. The Father of the Child came here, and has got a Certificate in order to carry it to the Governor of Virginia, together with a Piece of Birch Bark, which he found stuck up in the Notch of a Stick close by the Path which the Indians had gone, which was mark'd by the Indians, and which being shown to some Indian Traders, they all say that they are French Indians, being acquainted with their Marks. I have another Piece of News to acquaint you with; we lately received a Letter, together with a Belt of Wampum, from one of the Heads of the Indians called the Half King, directed to the Governors of Virginia and Pennsylvania, intreating to send up immediately and build two Forts on the River Ohio, as they are continually expecting a Visit from the French. I have nothing more particular to add, but that I am, &c.
"G. GARDINER."

Mr. GREEN,
HAVING a personal Concern in the Deposition, which appear'd in your Gazette of November 1st, I judg'd it necessary for me to give you a like Trouble. I had some Reasons for delaying my Purpose; but they not effecting, what was hoped for, I desire a Place in your next for this that follows. And am, Your humble Servant,
WILLIAM BROGDEN.

November 24, 1753.
THE Rev. Mr. Brogden made Oath, on the Holy Evangel of Almighty GOD, to the Truth of the following Declaration, "THAT about two Years ago, Mr. Turner Woolton was speaking to me of his Son Tommy (as I understood Thomas Sprigg Woolton,) telling me he had a great Desire of Learning, and that he should have the best Education it was in his Power to give him: Upon which he took Notice of several Advantages of the Education at St. Omers, and mention'd Mr. Basil Waring as the Person by whom he had a Knowledge of them: At this Distance of Time, I do not charge my Memory with the very Words that Mr. Woolton then made use of; whether he said that Mr. Waring had made this Representation to [HIM,] or only, [MR. WARING SAYS,] I cannot swear: But I positively aver upon my Oath, that Mr. Woolton nam'd Mr. Basil Waring to me as the Author of that Information; and in such a Manner, as gave me no Reason to doubt, that Mr. Waring's Design was to persuade Mr. Woolton to send his Son to St. Omers, to be educated, especially as Mr. Woolton seem'd inclined at that Time to do so."
