LONDON, OCT. 10.

The letters brought by the Anholt mail arrived yesterday, are in general of a warlike tendency. The following one gives an account of the force of Prussia which we hope will be found to be correct:—

Königsburg, Sept. 23.—The Russian hostilities between France, Russia, and Prussia have now assumed somewhat of a tangible shape, and we are told that war will break out almost immediately. This forms confirmed by the constant bustle and activity in which the troops of this kingdom, Poland and Russia have been kept for some time.

We are all anxious, and we understand that the emperor of the French will direct his proceedings towards us, which is said to be the signal for the commencement of war. Our public papers allude to this event in open terms, and to its consequences which makes the more certain.—The following has been shown as an estimate of the amount of Polish, Prussian and Russian troops in the East of the Continent:—

Table with 2 columns: Location and Number of Troops. Includes Warlaw & its neighbourhood (30,000), Poland (14,000), Königsburg (Prussians) (17,000), Berlin, do. (20,000), Colberg (13,000), Russians in old Galicia and Russian Poland (60,000), Scattered forces in various places (20,000), Total (173,000).

The frequent movements that have taken place among these troops, have rendered the statement less accurate than I could wish. The French have at Dantzic nearly 30,000, and at Stettin about 16,000. Altogether, their force cannot be estimated at less than 150,000. This number includes a contingent which, it is said the emperor of Austria has entered into a secret treaty to contribute.

On the whole view, we may look with some degree of certainty to a war, and that perhaps at a short distance. Some papers assert that it cannot begin before spring.

It is said to be the intention of Bonaparte to erect Poland into a distinct kingdom by Murat, who will give up Naples."

October 12.—One of two events have taken place before our readers receive this day's paper. Bonaparte has either set out for Magdeburg; or Prussia has yielded to his demands and sealed her submission. The object of this demand was,

That the king of Prussia should give up Colberg and Graudenz.

The king of Prussia returned for answer, that the surrender of these two places would be equivalent to the surrender of his crown, and positively refused.

Our readers should be informed, that the French are already in possession of Cullin and Stettin, on the Oder, and Dantzic and Thorn on the Vistula. The only part of Prussia has remaining for the troops from Berlin and her territories on the west of the Oder, to her territories between the Oder and the Vistula, and beyond the Vistula is by Colberg; Graudenz is another important fortress. The cession of these fortresses, but particularly of Colberg, would give the French the entire command of the Oder; they would thus intercept the Prussian communications, and entirely isolate one part from the other. At Colberg there is a large Prussian garrison, and the place is strongly fortified; Cullin and Stettin have French garrisons, but not very numerous; at Dantzic there are 18,000 French troops; at Thorn another large detachment.

The refusal of Prussia to give up Colberg is understood to have produced another and a more peremptory demand accompanied with a threat of immediate hostilities in case of a refusal. A limited time was given to the King of Prussia to return an answer. What that answer has been we know not. But if he has persisted in his refusal, Bonaparte is by this time at Magdeburg.

These papers arrived late last night at the 9th. They contain details of the tour Bonaparte is making. He remained at Antwerp till the 4th, when he set out to visit Williams and Amsterdam. He is expected to visit Antwerp again on his return. Our readers will remark the particular manner in which the Monitor mentions the present strength of Antwerp; it is called one of the bulwarks of France, which, with Cadix, Beselien, Bata, Lillo and Liefkencheck, form the establishments of the Scheldt in a line of security from future attempts, no doubt the strength of Antwerp & the Scheldt has been much increased since our expedition.

oh of Buonaparte, without a feeling of pity for the people of that once great republic. The gates of the city shall be decorated, and triumphal arches shall be erected in different parts; emblems of navigation and commerce shall be placed, and the whole city shall be illuminated. For whom or for what? To greet the arrival of a man who has reduced the nation to the lowest state of degradation, who has deprived them of the last vestiges of independence; put an end to navigation and involved their once flourishing commerce in wretchedness and ruin. It is for these benefits that the people of Amsterdam and Rotterdam are to illuminate and make merry; and after having received this mouth-honor which the poor heart would fain refuse, but dare not, Buonaparte will cease to be blazoned in the Monitor, with what acclamations and joys and honours he was received in his good city of Amsterdam, "the third city of the Empire!"

The war in TURKEY has assumed a character of more activity and vigour. There have been some warm actions on the left Bank of the Danube, in which the Russians claim the victory, but an article from Semlin of the 17th September, in a Paris paper, announces, that 50,000 Turks have already passed the Danube, and entrenched themselves. We have no doubt that Buonaparte is encouraging the Turks to continue their war in order to render Russia less able to assist him on the side of Poland.

The Diet of Hungary is said to have been the scene of very stormy discussions. October 16.—The French have succeeded in relieving Ciudad Rodrigo, and Lord Wellington has retreated to Sabugal, after one or two insignificant skirmishes.

Mr. Green.

IT has been near twelve months since I addressed your readers through the medium of the Maryland Gazette on the very laudable proposal of "Benevolus," to institute a society "for the relief of the poor of the city;" and it was a source of great gratification to me indeed to see my views so fully carried into effect, immediately after, by the industry of a few and the liberality of many citizens, who cheerfully contributed to that object. No duty is more frequently and more earnestly inculcated in the new testament than charity, and therefore every man ought of such things as he possesseth liberally to give alms to the poor according to his ability. And though no "specific rule is laid down in scripture concerning the proportion which a man is bound to give of his property in acts of benevolence, yet the great importance annexed to the performance of this duty by Christ and his apostles, makes it highly incumbent upon every one to practice it to the utmost of his means." In the adoption of rules for the government of the Charitable Society, it is recollected that the subscribers invested a board of managers with full power to dispose of the funds in purchasing raw materials to be worked up for the society by the poor and industrious, and to give instant food and fuel to those who were poor, needy and unable to work; these ends I believe were so fully answered, that near forty real objects of charity have to my knowledge expressed their gratitude for the relief they received from the managers when in the greatest distress imaginable. And in conversing with one of the managers of this society, I find that its usefulness has not been confined to the distribution of necessities to the indigent and deserving parents, but that the board of managers have ventured to engage a teacher for the last six months to instruct from twenty to thirty poor and illiterate children in the rudiments of education, which has been attended with the most flattering success; he assures me there has been from twenty-eight to thirty-three scholars constant at the school ever since it commenced, and that many of them began their A B C at this school who can now write neat and legible joining hands, and read better than most boys generally do, who are sent to other schools twice the length of time by wealthy parents; I hope the managers may be able, by donations, to continue this school, perhaps it would be well for them to have an exhibition at their next vacation, for the purpose of encouraging the scholars in their great ambition to learn, and shewing a generous public the pleasing fruits of that virtue enjoined by the gospel of eternal truth, namely Charity.

ALEXANDRIA, NOV. 27.

Extract of a letter from a gentleman in Louisville, to the Hon Mr. Ormsby, dated the 16th November.

An action took place on the 7th Nov. between the troops under Gov. Harrison and the Indians under the Prophet. The following are some of the particulars: "I give you a list of a few who were killed in the action, Col. Daviels, Col. Owen of Shelby, Col. White of the Saline, Capt. Spencer & both his subalterns, & Capt. Berry from Corydon, also Capt. Bain of the regulars. There were 170 whites killed and wounded and as many Indians.—The Indians made the attack on the night of the 7th inst.—they surprised our army, they killed all the guards with arrows and were in the camp before the whites had the least notice of them. The battle was fought in sight of the prophet's town. Three Indians attacked Col. F. Geiger in his tent at one time—he killed one & vanquished the other two—he was shot through the arm.—Gov. Harrison was shot through the hat and slightly wounded in the head. Thomas Randolph was killed dead; Judge Taylor's horse was killed under him. It is said that Major Floyd fought like a Caesar in his shirt-tail.—The Indians rushed up and came to the point of the bayonet with their tomahawks. There has been dreadful slaughter.

Since writing the above I have seen a letter from Hunter to capt. Clarke—he states that he was slightly wounded, & among the number killed are James Summerville and Stephen Mars, Hunter states that the Indians got all their beef and a great number of their horses, they got about five thousand bushels of corn and burned the Prophet's town the day after the action."

In addition to the above we learn, other letters received, state, that Gov. Harrison had an interview with the Prophet on the 7th Nov. and it had been agreed between them to hold a Council on the next day—that a negro had deserted from the American army

and went over to the Indians, and told them the intended Council was only meant as a decoy to the Indians whom it was the intention of the whites to massacre when gathered together, and that the American troops only consisted of about two hundred.

WASHINGTON, NOV. 30.

INDIAN WAR.

From the contents of the subjoined letter, it will be seen, that the statements conveyed to us from private sources, of an engagement on the Wabash are certainly confirmed; Gov. Harrison's letter however affording a much more distinct idea of the action than any private letter we have seen. Whilst we are proud to learn the bravery of our troops and of the volunteers, on an occasion which so severely tested it, we cannot but regret the confidence in Indian faith which permitted a surprise from an insidious enemy known to be so near at hand. Further light on the subject, however, may probably dissipate this hasty impression, and, by furnishing facts of which we are not at present apprized, give a different aspect to the whole affair.

Extract of a letter from Gov. Harrison to the Secretary of War, dated Headquarters near the Prophet's Town, Nov. 8th, 1811.

SIR I have the honour to inform you, that the dawn of yesterday terminated an action between the troops under my command, & the whole of the Prophet's forces. Their precipitate retreat, leaving a number of the warriors dead on the field, and the subsequent abandonment of their town, (which was partially fortified) attest for us a complete and decisive victory! It has, however, been dearly purchased. A number of brave and valuable men have fallen victims to their zeal for their country's service. The behaviour of the regulars and militia troops was such as would have done honour to veterans. I arrived at my present position (a mile from the town) on the evening of the 6th instant; a correspondence was immediately opened with the Prophet, and there was every appearance of a successful termination of the expedition, without bloodshed. Indeed there was an agreement for a suspension of hostilities, until a further communication should take place on the next day. Contrary, however, to this engagement, he attacked me at half past four o'clock in the morning, so suddenly that the Indians were in the camp before many of the men could get out of their tents. A little confusion for a short time prevailed, but aided by the great exertions of the officers, I was soon enabled to form the men in order. The companies which were distressed were supported, several successful charges made, and about day light, the enemy were finally put to flight. Our killed and wounded amount to 179 of these 42 are now dead.

I have not been able to ascertain the number of Indians in the action, it may, however have been considerable.

The principal chief of those Potawatemies who have joined the Prophet, is wounded and in our possession. I have taken care of him, and shall send him back to his tribe. At a more leisure moment I shall do myself the honour to transmit a more particular account of the action, and of our previous movements, and am with the highest respect, Sir, your humble servant.

WM. HENRY HARRISON.

The Hon. Wm Eustis, Secretary of War.

On motion by Mr. Boerfler, the following message was read and agreed to.

Gentlemen of the Senate,

We return you the bill augmenting the per diem of the justices of the orphans courts of the several counties therein mentioned. When the importance of this tribunal is considered, a tribunal which in the course of a few years decides on almost the whole of the property of the community, and the consequent necessity that those justices should be men of the first respectability and talents; who in properly attending to the duties of the station must of course repeatedly absent themselves from the superintendance of their private business, and not unfrequently ride ten or fifteen miles to the place where such court is held, and thus actually expend more money, (in addition to their time,) than they are now entitled to receive, we therefore must think the pittance allowed them is too small, and hope, on a reconsideration, you will coincide in this opinion and pass the bill.

The bill for the relief of William Greatham, and the bill to authorize a lottery for the purpose therein mentioned in Washington county, were read the second time and passed.

On motion by Mr. H. Hall, Leave given to bring in a bill, entitled, An act to regulate the inspection of salted fish.

By the Senate, Nov. 19, 1811.

Whereas it is highly important, at this eventful crisis in our foreign relations, that the opinions & feelings of every section of the union should be fairly and fully expressed.—Therefore we, the Legislature of Maryland, do resolve, That in the opinion of this Legislature, the measures of the administration, with respect to Great-Britain, have been honourable, impartial & just; that in their negotiations they have evinced every disposition to terminate our differences, on terms not incompatible with our national honour; and that they deserve the confidence and support of the nation.

Resolved, That the measures of Great-Britain have been, and still are, destructive of our best and dearest rights; and being inconsistent with justice, with reason, and with law, can be supported only by force; therefore, if persisted in, by force should be resisted.

Resolved, That the measures of the administration with respect to France, we highly approve. They have been fully authorized by the law and the fact.

Resolved, That the acts of injustice and violence, committed on our neutral rights, by France, have excited all that indignation which a lawless exercise of power could not fail to do; but having now ceased to violate our neutral rights, we trust the period is not far distant, when by acts of ample justice, all cause of complaint will be removed.

Resolved, That the President's message, temperate, impartial and decisive, deserves all our praise and support. It points out the best course to an honourable independence.

Resolved, That the independence established by the aid and valour of our fathers, will not tamely be yielded by their sons. The same spirit which led the freemen of Maryland to battle, still exists in the state, and waits only for its country's call.

BOXING.

In conformity with imperious custom, we are almost compelled to give the following disgusting detail. Editors of newspapers are obliged to cater for the general palate; and if they hope to do any good by their labours they must meet the public taste so far as at least is necessary to secure readers. Such scenes however, shall never be noticed by us without that reprobation which they deserve. There is no excuse in the present day for the encouragement given to the practice of exciting men to fight, who have no personal enmity. In Greece and Rome there might be some kind of apology for such scenes. The brutal exhibitions of the Panerations, and the fights of the Gladiators, had a tendency to promote and produce that ferocity of mind and that strength and agility of body which gave the soldier of those days the advantage in the field of battle; but in the present day, when strength and ferocity have given place to skill and coolness, no such excuse can be set up in justification of modern prize fights.

Battle between Crib and Molineux.

Round 1.—Sparing for one minute, when Crib made play right and left. The right handed blow told slightly on the body of the Black, who returned slightly on the head. A rally followed, in which three blows were exchanged, when the Black was knocked down by a hit on the throat. The blows were not such as to do much execution, and the knock-down was not clean. Betting as at setting to.

2.—Crib first shewed blood from the mouth at setting to. A dreadful rally was commenced, and Crib put in a good body hit with the right hand, which Molineux returned on the head with the left fist. Each fought at half arm for superiority, and hits, in number about six, were exchanged with force. Closing followed, when Crib was thrown in a trial of strength, 5 to 2 on Crib.

3.—Crib's right eye was nearly closed in the last rally, and another here followed of a sanguinary nature. After sparing for wind

Mr. Dawson moved on the body of the Black, but although he was hit away, he kept his legs, and renewed the rally with a fury

which excited alarm amongst the cognoscenti. Crib in the rally hit right and left at the body and head, and the Black fought at the head alone, and was so successful with the left hand, that he planted some dexterous flush hits, and Crib bled profusely, and was damaged in both eyes. The rally lasted a minute and a half, and in a close Crib was thrown a heavy fall. To an ordinary spectator the Black was winning the fight in a hurry, but the champion's tried game made him yet a favourite, although it reduced the odds.

4.—Crib's head was much disfigured, and the Black's wind was treacherous: The former bled profusely, but he smiled, renewed the rally with heroism never excelled, and hits in abundance were exchanged. Crib still fighting at the body mark with his right hand, and the black at the head, Crib fell with a slight hit, and manifested the first weakness. Betting 7 to 4.

5.—Rallying was renewed by Molineux, and the execution on both sides was terrific. The Black had the belt of the determined rally, and Crib fell from a blow, and received another in falling; which excited murmur and applause from the partizans of the combatants; but on reference to the umpires, it was decided FAIR, Crib's hands being at liberty.

6.—The black fatigued by want of wind, lounged right and left, but he was avoided, & he made a good stop of Crib's right hand, Crib put in a destructive right handed blow at his body mark, which doubled him up, who got away pitifully distressed. He appeared frantic on renewing the rally, anxious to go in, but alarmed at the consequences; and no dancing matter ever cut capers more amusing to Crib's friends. He hit short and was abroad. Crib followed him around the stage, and did astonishing execution, and floored him with a blow at great length.—This round brought the odds to 5 to 1 on Crib.

7.—Molineux run on a rally intemperately and did some execution, but Crib hit him several blows as violent as can be figured, about the neck and jugular, and after a rally of one minute, the black fell from hurts and weakness.

8.—Molineux, in the forlorn hope, again rallied at illjudged distance, and after Crib had again nobbed him, he got his head under the left arm, and fibbed on till the Black fell. No takers at odds.

9.—Lombard-street to a China Orange Molineux was dead bear, and only fought to encounter Crib's death-like blows. In running in, Crib met him with his left hand and broke his jaw, and he fell like a log, he did not come to time within a half a minute but Crib's appetite was not to be satiated—he gave away this chance, dancing a horn-pipe about the stage, and floored his man, after letting half down and up again.

10.—Molineux with difficulty got off his second's knee for fresh punishment, but he made a desperate unsuccessful effort, and fell from distress.

11.—This round ended the fight, after Crib had given away another chance about time, but the black's senses were hit out of him; and after he had received another knock-down he was unable again to stand, and victory was announced in a Scots Reel by Gully and Crib, accompanied by shouts and applause.

Molineux was carried out of the ring senseless and speechless, and he is constantly attended by a surgeon. He has suffered most about the left side, and the jugular vein, but he is not considered in danger. Crib is blind but he has received no body hurt; and on being joked with after the fight, about his captivating appearance, he observed he would sooner go through such another fight than go through another training up the Highlands of Scotland, after his patron and trainer, Captain Barclay. Crib will benefit 400 pounds by his victory.

CONGRESSIONAL.

HOUSE OF REPRESENTATIVES.

Friday, November 22.

Mr. Key presented a petition from John Dillon of Baltimore, praying the resolution of 7000 dollars for a vessel labelled and sold at N. Orleans. Referred to the committee of claims.

On motion of Mr. Dawson, the house went into a committee of the whole on the bill apportioning representatives among the several States, according to the third enumeration.

Mr. Dawson said the committee who framed the bill had directed him to move to fill the first blank in the bill with the words "forty thousand," so as to allow one member for every forty thousand persons in the United States after the year 1813. Mr. D. said he was himself opposed to so large a ratio, as it would deprive several of the States of some of their present representation.

A debate ensued on the apportionment but not interesting.

The yeas and nays were then taken on filling the blank with 37,000, and carried.

Mr. Dawson moved on the body of the Black in the bill as follows:—New Hampshire, five members; Massachusetts, eighteen,

Vermont five, Rhode-Island two, Connecticut seven, New-York twenty-five, New-Jersey six, Pennsylvania twenty-one, Delaware one, Maryland nine, Virginia twenty-two, North-Carolina thirteen, South-Carolina nine, Georgia five, Kentucky ten, Ohio six, and Tennessee six.

The bill was ordered to be engrossed for a third reading.

The house adjourned till Monday.

Monday, Nov. 25.

Mr. Seybert presented a petition of Wm. M'Pherson, naval officer, Philadelphia, praying compensation for diminution of salary—referred to the committee of ways and means.

The usual annual report of the Secretary of the Treasury was received, read, referred to committee of ways and means, and 1000 copies ordered to be printed.

A bill was reported for the relief of John Burnet—twice read and referred to the committee of the whole to-morrow.

The bill apportioning the representation of the States was read a third time, Mr. Bibb moved that the bill be re-committed.

Mr. Quincy supported this motion in a speech of about an hour, in favour of a smaller ratio.

Mr. Widgery replied to some of the remarks of Mr. Quincy, but was also in favour of the motion.

Mr. Key spoke some time in favour of the motion, wishing to reduce the ratio to the minimum constitutional allowance, 30,000.

Mr. Randolph replied to some of the arguments of Mr. Key, and was opposed to the motion. He requested the yeas and noes, which request was granted.

Mr. Cheaves spoke against the commitment.

The question was taken; and the yeas were 56 Noes 72: and the bill passed without a division.

On motion of Mr. Key, the petition of Wm. Ant. Beale, presented to the house last session, was referred to the committee of claims.

Mr. Randolph offered a resolution which was ordered to lie on the table. It instructs the committee to whom it was referred what of the President's message relates to national defence, to inquire into the expediency of abolishing corporal punishment in the army. Adjourned at 3 o'clock.

Tuesday, November 26.

Mr. Little offered a resolution requesting the President to lay before the house a list of persons impressed from American vessels; where, when, by whom, and under what authority it was done; how many of such persons are American citizens; with such other information as he may think proper to communicate. Ordered to lie on the table.

Mr. Morrow from the committee of public lands, made a report recommending the appointment of commissioners for fixing the western boundary line of the Virginia military tract, &c. Ordered to lie on the table.

Mr. Talmadge presented a petition from sundry merchants in New-Haven, (Conn.) praying permission to import certain goods from St. Croix. Referred to the committee of commerce and manufactures.

Mr. Nelson presented the memorial of the vestry of the Protestant Episcopal Church of Alexandria, praying for an act of Incorporation. Referred to the committee on the District of Columbia.

Several petitions were presented and bills referred.

Wednesday, November 27.

The Speaker laid before the House the report of the Secretary of the Treasury, containing an exhibit of the amount of duties and drawbacks on goods imported and exported during the years 1808, 1809 & 1810. Ordered to be printed.

Mr. Gholfon, chairman of the committee of claims. The report was unfavourable to the petition, because the claim was barred by the statutes of limitation; and the validity of the claim the committee, had not examined, wishing the house at once to decide the propriety of those statutes, by agreeing or disagreeing to that report, and thus bring the subject fairly into discussion and obtain a decision.

Mr. Pitkin wished to know whether this was one of the claims which would be embraced by the resolution, offered sometime since by the gentleman from Massachusetts (Mr. Bacon) for repealing the statutes of limitation in certain cases.

Mr. Gholfon said it was not; nor would Mr. Bacon's resolution embrace one third, perhaps not one fifth of the claims that came before the committee of claims.

Messrs. Quincy and Pleasant, and some others, spoke in favour of a repeal of the statutes of limitation, Mr. Bacon & Mr. Mitchell opposed such repeal. On motion of Mr. Bacon the report of the committee of the whole for Monday next, for the purpose of discussing the propriety of the repeal, and de-

The bill for the relief of Josiah H. Webb, was read a third time, and passed.

The house went into committee of the whole, Mr. Desha in the chair, on the report of the committee of elections on the petition and remonstrance of John Talliaferro, against the election of John Hungerford. Mr. Talliaferro was furnished with a seat in the house. After the reading of the report he addressed the committee in a speech of about an hour and a half. General Hungerford replied in a speech of considerable length, to which Mr. Talliaferro rejoined; the committee rose without coming to a decision, and the house adjourned at half past 3 o'clock.

Thursday, Nov. 28.

Mr. Bacon offered two resolutions this morning; the one instructing the committee of ways & means to inquire into the expediency of continuing the act providing the salary of certain officers of government for a limited time; the other instructing the same committee to enquire into the expediency of continuing the act providing for the better protection of the commerce and seamen of the U. States against the Barbary powers; with leave to report by bill. The resolutions were adopted.

Mr. Morrow observed, that since the affair, of which information has just been received, in Indiana Territory it is rendered necessary to be prepared for any attack that may be made by the Indians on the frontiers of or in the State of Ohio. The inhabitants of that State were much in want of arms; good soldiers they might make, but not without arms; you might as well make a good mechanic without showing him a tool, as a soldier without a gun or sword.—He offered a resolution to authorize the President to loan to the State of Ohio, a quantity of small arms, bayonets, and cartouch-boxes, as well as a few pieces of artillery. The resolution was referred to the committee of the whole for to-morrow.

The house then went into committee of the whole Mr. Desha in the chair, on the report of the committee of elections on the contested election of John P. Hungerford.—The motion debated all day yesterday, and still before the house, was for granting Mr. Hungerford further time to procure testimony. Mr. Pleasant spoke in favour of the motion, also Mr. Pitkin, Mr. Macon and Mr. Clay the Speaker. Against the motion were Mr. Gholfon, Mr. Nelson and Mr. Allston. After debating till almost 4 o'clock Mr. Randolph moved that the committee of the whole should rise and report progress, for the purpose of refusing them leave to sit again, and recommitting the report to the committee of elections. The committee rose and the house immediately adjourned. The subject will come before the house again to-morrow, and perhaps occasion the total waste of another day.

Friday, November 29.

The house resumed the consideration of the report of the committee of elections on the contested election of J. P. Hungerford. The resolution allowing Mr. Hungerford further time for procuring testimony, still under consideration Mr. Hungerford spoke a short time in favour of the resolution: Mr. Emott spoke at length on the same side: Mr. Randolph also advocated the resolution. Mr. Talliaferro, Mr. Fisk, and others opposed it. Mr. Randolph moved to recommit the report to the committee of elections, with an amendment, and that the committee be authorized to send for persons and papers; and to issue commissions for taking depositions.

The debate continued till half past 2 o'clock when a motion was made by Mr. Porter, that the report lie on the table, for the present.—Carried, by the casting vote of the Speaker, the house being equally divided, 60 to 60. Adjourned.

OBITUARY.

COMMUNICATED.

Among the various melancholy duties of the Press, no death has occurred of late that has occasioned more sensible feeling than the one now recorded. On the 11th day of December died in this city, Dr. JOHN GASSAWAY, of Rhode-River, whose last moments corresponded with his short and excellent life. Where he was known, he was beloved; where he lived he was adored; the poor found always an asylum beneath his roof; the rich received the most unbounded hospitality; no discrimination of situation changed the liberal flow of his soul, and the child of want never left his door unassisted. To those who knew him eulogium would be insult; to those who did not suffice it to say, that as a man of christian charity he lived, so as a christian he died lamented, but as a man respected.—Peace to the memory of a man of worth.

LONDON, 08.

This morning we received Mr. [Name] Paris papers to the 16th—[Name] detail of Buonaparte's tour, and enable us to contradict the circulated on Saturday of his return to Paris on the 15th. He remained a day at the date of the last account was expected to continue three days. His ulterior destination is not known. The channel fleet about to be formed under admiral Sir C. Cotton, and which generally believed, would rendezvous in the Bay; it is now known will rendezvous at Spithead. This alteration is supposed in consequence of the vast preparations for the enemy on the eastern coast of our kingdom.

A large battering train is fitting up, which; and 15,000,000 cartridges are being prepared at Purfleet, which are intended for the Baltic.

The Stork floop of war, which left Plymouth on Saturday last, fell in with an American vessel off Scilly and took on board an English gentleman of rank & title. He had been detained as a prisoner since the commencement of the war, and made his escape through the assistance of the two Frenchmen who came aboard the vessel, and he got on board the American vessel, where, in order to avoid capture, he was put into the hold. The French gentleman came with him, had obtained permission of going to America. The people are stated to have brought over some important information.

By the Pompee, we learn, that there have now two ships of the line, and several frigates and corvettes and a few smaller vessels, in the Bay of Biscay, and that reaches us from any of the war arsenals, there is a degree of uneasiness in them, unequalled at any time since the commencement of the war. Philadelphia papers to the 5th this morning.

THE KING.

It is said that the state of his Majesty's health has varied considerably late week. LONDON, OCT. 21.

This morning we received Moniteurs and other Paris papers to the 16th. They contain the detail of Buonaparte's tour in Holland, and enable us to contradict the report circulated on Saturday of his returning to Paris on the 15th. He remained at Amster-

dam at the date of the last accounts, and was expected to continue there for some days. His ulterior destination is not mentioned. The channel fleet about to be formed under admiral Sir C. Cotton, and which as was generally believed, would rendezvous in Caw-

and Bay; it is now known will rendezvous at Spithead. This alteration is supposed to be the consequence of the vast preparations making by the enemy on the eastern shores of our kingdom.

A large battering train is fitting at Woolwich; and 15,000,000 cartridges are fitting at Purfleet, which are intended, it is said, for the Baltic.

The Stork Hoop of war, which arrived at Plymouth on Saturday last, fell in with an American vessel off Scilly and took out of her an English gentleman of rank & two Frenchmen. He had been detained as a prisoner ever since the commencement of hostilities; and made his escape through the medium of the two Frenchmen who came over with him; they assisted him to get on board an American vessel, where, in order to avoid detection in case of search, he was put into an empty cask, in the hold. The Frenchmen who came with him, had obtained passports under pretence of going to America. These people are stated to have brought over some important information.

By the Pompee, we learn, that the enemy have now two ships of the line, three frigates, and several corvettes and brigs, ready for sea, in L'Orient. Thus, every account that reaches us from any of the enemy's naval arsenals, states a degree of activity prevailing in them, unequalled at any former period since the commencement of the revolution. Philadelphia papers to the 5th ult. arrived this morning.

THE KING.

It is said that the state of his majesty's bodily health has varied considerably during the last week. On Monday and Tuesday he was worse than he had been for some time past; but within the last three or four days he recovered sufficient strength to be able to take the exercise of walking in the rooms. Sleep has only been procured by the administering of opiates.

A large reinforcement will be immediately sent to Portugal. The 7th Dragoon Guards, the Hollar Brigade, and Gen. Campbell's fine Scotch regiment the 91st, form part.

Married, On Saturday, the 19th, at Marylebone Church, by the Rev. Mr. Cockburn, J. HOFFMAN, Esq. of Baltimore, in the United States, to Miss EMILY TILGHMAN.

OCT. 22.

At a quarter before two o'clock this day an express arrived at York-House from Windsor, stating "that his majesty was not so well as yesterday, having slept but little during the night."

We are happy to say, that the meeting of the Catholic delegates on Saturday, in Dublin, passed off with the greatest tranquillity. We entertain the most sanguine hopes that the good sense and loyalty of the great mass of the Roman Catholics of Ireland will prevent them from becoming the dupes of a set of factious demagogues, who, under pretence of supporting the Catholic cause are only labouring to serve their own purposes.

PRUSSIA.

A gentleman who arrived in the packet which brought the last Anhalt mail, states, that the following article appeared in a Berlin paper of the 21st September.

"Whereas there have been existing differences between us and a neighbouring power—the public are hereby informed that the same are amicably adjusted."

As a confirmation of the truth of the above mentioned paragraph, he reports that all preparations for war, such as drilling the peasants, sending large quantities of military stores during the night from one place to another, working upon the different fortifications, &c. had entirely ceased; and that the best informed persons in Berlin were in consequence of this (although but demi-official) article, of opinion, that war was, at least for the present, no longer to be apprehended.

SPAIN.

Despatches from Lord Wellington and a Lisbon mail arrived this morning with letters and papers to the 13th.

The head quarters of our army are still at Frexada and the enemy have retired from the vicinity of Rodrigo, are at Placentia

Corea and Salamanca. Our troops are going into cantonments, and no active operations are expected for some time to come. Sault was supposed to be on his way back to Estramadura to join Marmont; but a dispatch from Lord Wellington to the Portuguese government states, that advices from Cadiz of the 14th ult. mentions him to have taken a westerly direction.

Our Squadron, on the Basque Roads station, and our cruizers all along that part of the French coast, have been latterly most eminently successful in the capture and destruction of the enemy's challemares, and coaling vessels of different descriptions, 28 of which have been carried in Plymouth.

Another plan of a most destructive nature is now in agitation, & has been brought forward by a Mr. Fane; & was a few days since exhibited before the Lords of the Admiralty. It is a four pound shot, wrapped round with a prepared cotton, and made very hard, so as to appear like a large cannon ball—on firing of which, it has the usual effect of a cannon shot; but the moment it starts from the cannons mouth it presents one solid mass of fire, and what ever it hits, whether rigging or hull of a ship will immediately take fire.

The Prince Regent will set off in a few days on a tour of military inspection thro' the county of Kent. His Royal Highness will be attended by a numerous staff, and will first review the troops and lines at Chatham, next the garrison of Canterbury, and afterwards the extensive fortifications at Dover, and the troops in garrison there, at which place the several regiments cantoned on the Kentish coast will also be assembled and reviewed.

CONGRESSIONAL.

HOUSE OF REPRESENTATIVES.

Monday, Dec. 9.

Mr. Talliaferro obtained leave of absence until Friday next.

Mr. Lewis presented a petition from Richard Bland Lee, praying indemnification for damages done by the U. States to a tract of land owned by him near Harper's Ferry.— Referred to the committee of claims.

A great number of petitions and resolutions for the establishment of new post roads, were presented and referred.

Mr. Quincy presented a petition from Daniel Hastings, merchant, of Boston, praying permission to import certain British goods.— Referred to the committee of commerce and manufactures.

On motion of Mr. Porter, the house resumed the consideration of the unfinished business of Friday (report of the committee of Foreign Relations.) When the house adjourned on that day, the second resolution (for raising an additional number of regulars) was under discussion.

Mr. Wright moved to insert the words "twenty thousand," so as to authorize the raising of that number of men.

The Speaker said this amendment was not in order.

Mr. Smilie hoped the house would decide on the general principle contained in this resolution, and leave the details to be settled hereafter. A concurrence with this principle would decide the great question before the house which an agreement to the first did not.

Mr. Randolph thought it would be proper before a vote was taken on this resolution, to know for what purpose these additional troops were wanted. The house ought not commit itself upon a question of such magnitude, without detailed information. He was as much opposed to raising standing armies now, as he had been during the reign of terror.— He had seen too much of the corruptions attendant on these establishments, in the course of the investigation in which he was engaged, not to disclaim all share in the creation of them. The people of the United States could defend themselves, if necessary, and had no idea of relying their defence on mercenaries, picked up from brothels and tippling houses—pick pockets who had escaped from Newgate, &c. and fought refuge in this asylum of oppressed humanity. He contended that this resolution contained an unconstitutional proposition, and that the standing army now in the service of the United States was maintained in the very teeth of that part of the constitution which declares that no money for the support of a standing army should be appropriated for more than two years. He again called for information as to the object of the army now proposed to be raised, declaring, that if the President should say they were necessary for the protection of New-Orleans, to be employed against the Indians, or to repel incursions from Canada, (altho' this seemed not to be much thought of) he should not refuse to grant them.

Mr. Grundy expressed his surprize that the gentleman (Mr. Randolph) should have asked for such information, as he was himself a member of the committee of Foreign Relations, and had heard all the arguments offered in favor of the report. He cautioned the republicans in the house not to be too hasty in adopting measures before they knew their consequences; for if they assumed a warlike attitude, and afterwards proved feign hearted they would lose the confidence of the Nation. He then proceeded to shew the reasons which had influenced him, in the committee of Foreign Relations, to support these resolutions. He contended that there was no middle course between fighting and surrendering our rights: Negotiation had been tried with G. Britain until the very name of it was loathsome. He took a view of the wrongs inflicted by her upon our lawful commerce, and the extravagant pretensions she set up. It could not be believed that the British government was serious in demanding of us to negotiate with France, so as to have the trade of the continent opened to her. Such a ridiculous proposition was a mere shift.— The impressment of American citizens was another injury which ought to be redressed.— He stated it as his firm belief, that the Prophet and his followers had been urged to hostilities by British influence; and if this was correct, the war was not to commence, it had already been begun. For his own part, he wished to see the British driven from this continent. He was in favour of taking the Canadas, in order that they might balance the vast extent of territory in the Southern and Western countries. We had (he said) two or three years ago declared that we had but three alternatives—Embargo, War or Submission; yet the two first of these had not been referred to; and of course, according to our own declarations, been ever since submitted. This was a disgraceful picture but it was true. Another consideration in favour of War was that we could not repeal the

Non-Importation law without a gross breach of the faith we had pledged to the French emperor. This law was demoralizing the nation—and if we could not untie this Gordian Knot which we had some how twisted round ourselves, it must be cut by the sword. Mr. G. concluded declaring that he should vote for a War against Great Britain, unless our differences should be settled with her, and if there were any (republican) members in the House unwilling to go so far, they had better retreat now.

Mr. Widgery also spoke in favour of the resolution and of strong measures. He felt himself bound to avenge the wrongs of impressed seamen. He thought it absurd to apprehend any danger from ten or eleven thousand regular troops: the militia of the country would not suffer them to commit any excesses.

Mr. Cheves likewise supported the resolution. He contended that we acted properly in singling out Great Britain as our enemy, after her refusal to accede to the fair proposition held out to her equally with France, by the law of 1810. It was evident that an additional regular force was necessary both for defence and aggression. He did not like the gentleman from Kentucky address himself exclusively to those with whom he generally ranked in politics (republican); but he addressed himself to all the people of the U. States, Federalists as well as republicans, for he believed that in case of war, the government would no where find a more cordial support than among the former. He concluded by hoping that the resolution would be adopted as a preparatory measure.

Mr. Randolph said he had hoped we had already had enough of the nauseous dose of repeating the aggressions of the belligerents. Gentlemen had out-run the executive in selecting their antagonist. If they were determined to go to war with Great Britain, why not lay a simple resolution to that effect on the table instead of this pitiful proposition to raise a few thousand vagabonds. Do they suppose that Great Britain, or any other experienced belligerent would shut her eyes and ears against all these expressions of our determination to attack her hereafter, and quietly wait till we were ready? Mr. R. was proceeding when Mr. Grundy observed, that as the gentleman appeared not to be in so good a state of health as he might be to-morrow, as he (Mr. G.) wished to hear him on this subject in the full plenitude of his powers, he moved to adjourn. Carried (quarter past 2.)

PAUL'S DOMESTIC INFALLIBLE COLUMBIAN OIL.

THE inventor of this highly esteemed medicine is a native of America, and the composition is the production of American soil, consequently it is in every sense of the word domestic, it is not puffed up with a numerous train of pompous foreign certificates of persons from whom by the great distance that separates us 'tis impossible to obtain information, therefore the public has better security for their money as there cannot be the least shadow of deception to cover his medicine, for he simply appears before the community with his invention and an experimental detail of the various cases in which it really is so wonderfully efficacious, and in which he is supported by the following certificates of respectable characters, whose names are not only subscribed, but their persons may be also consulted, being residents within the circle of our own neighbourhood. The following are the complaints in which the Columbian Oil has been found so efficacious and rarely ever fails of effecting a cure, viz: Rheumatism, Consumption, Pains in any parts of the body, but particularly in the back and breast, Colds and Coughs, Toothach, Pleurisies, Cholick, Cramps, External and Internal Bruises, Sprains and Flesh Wounds, Scalds and Burns, Whooping Cough & Mumps, and Dysentary or Bloody Flux, Gout and the summer complaint in children, and in a weak stomach that is caused by indigestion, a constant sinking and loss of appetite, it will act as a powerful bracer to the relaxed fibre and restore it to its proper tone.

It seems also as if nature had ranked it the first of the class of all pectorals and expectorals for the relief of the breast and lungs, as it scarce ever fails of removing obstructions in either, particularly those who are troubled with Phthisic or Asthmatic complaints, who in the act of walking fast, stooping or lying down, are almost suffocated, half a teaspoonful of the Columbian Oil will render some relief instantaneously, and if continued agreeable to the directions in such cases, will prove a radical cure by producing the full power of inflation to the lungs and free expansion to the breast.

CERTIFICATES OF ITS EFFICACY.

No. 1. Sept. 1809.

I do certify, that I have been ailing nearly two years with a hectic cough and violent impression at the breast—I applied to the most eminent physicians and could get no relief from my low state of health, until I got Paul's Columbian Oil, and found immediate relief. I take this method of informing the public of the efficacy of this valuable medicine, from the cures which I have experienced—I think it an incumbent duty to offer the same to the public. ELISHA SOWARD. Baltimore No. 16, Water-street, sign of the plough.

No. 2. Sept. 1809.

Sir, From the great benefit I received from your Columbian Oil, I am induced to state, I was taken with a violent sore throat, about the 26th of August, which continued till the first of the month, when I applied your oil externally, and washed the part affected with the oil diluted in the same quantity of molasses, which took away pieces of putrid flesh and healed my throat in about 48 hours.

N. B. I also certify, that I nursed my grandchild, and infant of 17 months old which was taken about the first of August with slow fevers and loss of appetite. We immediately applied for a physician, who gave every attention for about 10 days but all to no effect; the child was given up by the physicians, and had every appearance of death, when I applied for Paul's Columbian Oil, and gave five drops morning and evening, for five days, when the child began to recover, and is now in perfect health.

MARY UNDERWOOD. Baltimore, by Peter's Bridge.

No. 3. Sept. 6

I hereby certify, that I had a cough and pain in my stomach for upwards of two years, when I was recommended to Paul's Columbian Oil. I procured one phial of that valuable medicine, which has restored me to a good state of health again. THOMAS ELLIOTT. On the Hook's-town road near the turnpike gate.

No. 4. Feb. 12, 1809.

I have great reason to be very thankful for being recommended to Paul's Columbian Oil I had been afflicted with a violent pain in my back, so that I was not able to walk. I procured one phial of the oil, and I received immediate relief, & I have been very well ever since.

N. B. I had a violent toothach about two or three months ago, when I dropped a few drops of the above oil on some lint, and applied it to the tooth affected, and I received immediate relief.

ELEANOR EMMETT.

No. 5.

Sir, I comply with your request of stating my opinion of Paul's Columbian Oil, being an effectual remedy for the tetter worm. I have been afflicted with the tetter in my hand for 12 years, and have made trial of many medicines which have been recommended, but all to no effect. Hearing of Paul's Columbian Oil, about the 15th of January last, proving an effectual cure for the ringworm and similar complaints, I immediately got a phial of your Oil, and applied it agreeably to the directions for about two months successively—when the tetter left me, and has not made its appearance since.

SUSANNA PURDEN.

N. B. My Susanna, a child aged 20 months & 6 days, was taken about the middle of July last, with a violent cough, which the neighbours said was the whooping cough; I gave her six drops of the Columbian Oil, which gave immediate relief, and removed all the tetter spots.

CONGRESSIONAL. HOUSE OF REPRESENTATIVES.

Monday, Dec. 16.

FOREIGN RELATIONS.

The house resumed the consideration of the unfinished business, being the report of the committee of Foreign Relations.

Mr. Randolph spoke for 3 hours in opposition to the second resolution.

The question was then taken on concurring with the committee of the whole in their agreement to the second resolution, which is in the following words:—

"That an additional force of ten thousand regular troops ought to be immediately raised to serve for three years; and that a bounty in lands ought to be given, to encourage enlistment."

And carried—ayes 109, noes 22. The question was then taken on the 2d resolution, in the following words.

"That it is expedient to authorize the President, under proper regulations, to accept the service of any number of volunteers, not exceeding fifty thousand; to be organized, trained and held in readiness to act on such service as the exigencies of the government may require."

And carried—ayes 113, noes 16.

"That the President be authorized to order out from time to time, such detachments of the militia, as in his opinion, the public service may require."

And carried—ayes 120, noes 8.

The question was then taken on the 5th resolution, in the words following.

"That all the vessels not now in service belonging to the navy and worthy of repair be immediately fitted up and put in commission."

And carried—ayes 111, noes 15.

The question was put on the chair on the 6th resolution, in these words:

6. That it is expedient to permit our merchant's vessels owned exclusively by resident citizens, and commanded and navigated solely by citizens, to arm under proper regulations to be prescribed by law, in self defence against all unlawful proceedings towards them on the high seas.

When the resolution was, on motion, ordered to lie on the table.

The three first resolutions, for filling up the present establishment, for raising an additional number of regulars, and authorizing the acceptance of volunteers services, were referred to the committee who reported them with instructions to bring in bills in pursuance thereof.

And then the house adjourned.

Tuesday, December 17.

The second section provides for the building of frigates not exceeding 38 guns each. The third section authorizes the increase of officers and seamen. The fourth appropriates dollars for the purchase of ship timber, &c.

The fifth provides a dock-yard, or dock-yards, where deemed necessary. The sixth directs the appropriation from any money in the Treasury not otherwise appropriated. The seventh directs the stationing of gun-boats.

The bill was read and referred to the committee of the whole for to-morrow.

Mr. Cheeves from the committee to whom was referred so much of the President's message as relates to fortifications, reported a bill appropriating one million of dollars for the defence of our maritime frontiers.

Twice read and referred to the committee of the whole for to-morrow.

Mr. Blackledge called for the consideration of the resolution to be reported by the committee of the whole, on the 16th inst. requesting the President to

cause to be prepared and laid before the house such of the rules and regulations as are proper to be adopted for the training and disciplining the regular troops & militia of the U. States. The resolution was adopted, and a committee of three appointed to wait on the President with the resolution.

FOREIGN RELATIONS.

A motion was made to take up the appropriation bill, and carried, 68 in favour.—Mr. Randolph moved to postpone it till to-morrow, for the purpose of conferring the sixth of the resolutions of the committee of foreign relations. Motion carried, ayes 68, noes 65.

The house resumed the unfinished business of yesterday. The fifth resolution was referred to the committee of the whole to whom had been referred the bill from the senate on the military establishment. The 4th resolution was referred to the committee of foreign relations.

The sixth resolution (authorizing the arming of merchant vessels) was then taken up.

Mr. Wright proposed an amendment by adding—And if attacked by any British ship or vessel, it shall be lawful to capture and bring into port for adjudication such British ship or vessel. Mr. Wright spoke some time in favour of his amendment; after which, Mr. Findley moved that the further consideration of the resolution be postponed till the first Monday in March; immediately after which a motion was made and carried to adjourn—half past 3.

Wednesday, December 18.

Mr. Porter, from the committee of foreign relations, to whom was yesterday referred the bill from the Senate for completing the present military establishment, reported the same to the house, without amendment; and it was referred to the committee of the whole for to-morrow.

Mr. McKim offered a resolution of the following purport: Resolved that a committee be appointed to inquire whether any and what provision ought to be made by law for paying the officers and soldiers that served under Governor Harrison in the late expedition near the Wabash, and what provision ought to be made for the widows and orphans of those who fell in the action of November 7th. The resolution was laid on the table.

Mr. McKee offered a resolution of the following import: Resolved, that the President be requested to lay before the house such information as may be in his possession, not improper to be communicated, touching any influence that may have been used by any subjects of Great Britain, in inflicting the Indians to hostility with us; any evidence of hostility in the Shawanese Prophet and his adherents anterior to the late conflict of November 7th the order vested in Governor Harrison by the United States, under which the expedition was formed—and such other information as it may be in his power and is proper to be communicated relative to these subjects.—On motion of Mr. Tallmadge, Mr. McKee amended the resolution by adding "or of any other power," (besides Great Britain) that might have instigated the Indians. Laid on the table.

Thursday, Dec. 19.

The house proceeded to consider the 6th resolution reported by the committee of foreign relations, and Mr. Wright's amendment to it (the first allowing merchant vessels to arm for self defence, and the other authorizing them to make reprisals.)

Mr. McKee moved to postpone the further consideration of the resolution until the first Monday in February.—Mr. M. afterwards withdrew this motion.

On the suggestion of Mr. Bibb, Mr. Wright also withdrew his amendment.

Mr. Wright then moved to strike out the words "in self defence, against all unlawful proceedings against them on the high seas." By this amendment, the object in allowing merchant vessels to arm would be entirely indefinite. It was lost, ayes 46, noes 77.

Mr. McKim observed, that the resolution only permitted those vessels to arm which were owned and navigated exclusively by citizens of the U. States. As it was not required at present by the laws of the U States that the whole of the crews of vessels should be Americans, but merely three fourths, a great proportion of our commerce would not be embraced in this resolution, as it now stood. He therefore moved to strike out that part of it, so as to include the whole of the merchant vessels of the U. S. The motion was lost, ayes 24, noes 92.

Mr. Archer opposed the resolution, as reported by the committee of foreign relations. He saw no necessity for adopting such half way measures. G. B. would never abandon her unjust pretensions until we carried war into the heart of her colonial territory. If we permitted vessels to arm in the way now proposed, we might involve ourselves in serious difficulties with France, Denmark, and other powers. It was therefore dangerous to

measures; and by the present one, we barely permit vessels to arm in self-defence. It was a perfect anomaly—neither peace nor war.

The question was then taken by ayes and noes on the resolution, and it was AGREED TO, ayes 27, noes 22. It was referred to the committee on Foreign Relations, with instructions to report by bill.

NEW-YORK, DEC. 16.

LATEST FROM ENGLAND.

This day, by the arrival of the ship Merchant, the editors of the New-York Gazette received London papers to the 6th November, 15 days later than our former advices. The papers are barren of news.

The last accounts from the Mediterranean state, that there were 17,000 British and 16,000 Sicilian troops in Sicily. That the scarcity of grain in the Mediterranean was very alarming.

Molinesux, the American mulatto, in one of the London papers, Challenge the whole world (Crib excepted) to fight him for 300 guineas.

Buonaparte was expected to return to Paris about the first of Nov. Preparations were making at the Hague, to receive him on his way from Amsterdam.

The ship Pacific, Stanton, arrived at Liverpool, in 19 days from N. York, and 16 from Land to Land.

The Princess Mary Packet put back to Plymouth leaky, Nov. 2, and would sail again on the 7th.

The American ship Hercules, Coffin, from Portsmouth for Amelia, put back to Falmouth, Oct. 30, in co. with a number of others, in consequence of head gales.

Plymouth, Oct. 25.—The Gleaner hired armed Ketch, of 14 guns, arrived here yesterday from New-York after a short passage, with despatches from Mr. Foster, which have been forwarded to London.

Also arrived, the American schooner Trojan of Baltimore, 200 tons, captain Alex'r Fitch, with a valuable cargo of coffee, cotton, indigo, sugar, gum, cochineal, skins, &c. bound to Bordeaux, sent in here by the Acasta frigate, capt. Kerr, and Armide frigate capt. Dunn. She was taken in a calm close in with Bordeaux, with the boats of the Armide, after a slight resistance—one of our seamen was wounded on the head. It is said the Trojan has a large quantity of dollars on board. She is a beautiful vessel of her class.

NORFOLK, DEC. 16.

This morning two distinct shocks of an earthquake were felt in this place: The first (and according to most accounts) the most violent, was about 3 o'clock. It was so severe as to awaken a number of persons out of their sleep. The shock at two very short intervals might have continued about a minute. The shaking of the beds is described, as if a strong man had taken hold on the posts and shook them with all the violence in his power. Several clocks were stopped. The houses were shaken with great violence. A gain about eight another shock was felt, by a greater number of persons as many had risen, this was also very violent. The most sensible effect produced by this, that we have yet learned, was that of throwing a pipe of wine off the skids, in a ware-house in Commerce-street. Before our next we expect to obtain some further particulars respecting this (in our climate) unusual convulsion of nature.

PAUL'S DOMESTIC INFALLIBLE COLUMBIAN OIL.

THE inventor of this highly esteemed medicine is a native of America, and the composition is the production of American soil, consequently it is in every sense of the word domestic, it is not puffed up with a numerous train of pompous foreign certificates of persons from whom by the great distance that separates us 'tis impossible to obtain information, therefore the public has better security for their money as there cannot be the least shadow of deception to cover his medicine, for he simply appears before the community with his invention and an experimental detail of the various cases in which it really is so wonderfully efficacious, and in which he is supported by the following certificates of respectable characters, whose names are not only subscribed, but their persons may be also consulted, being residents within the circle of our own neighbourhood. The following are the complaints in which the Columbian Oil has been found so efficacious and rarely ever fails of effecting a cure, viz: Rheumatism, Consumption, Pains in any parts of the body, but particularly in the back and breast, Colds and Coughs, Toothach, Pleurisy, Cholera, Cramps, External and Internal Bruises, Sprains and Flesh Wounds, Scalds and Burns, Whooping Cough & Mumps, and Dysentery or Bloody Flux, Croup and the summer complaint in children, and in a weak stomach that is caused by indigestion, a constant sinking and loss of appetite, it will act as a powerful bracer to the relaxed fibre and restore it to its proper tone.

It seems also as if nature had ranked it first of the class of all pectorals and expectorals for the relief of the breast and lungs, as it scarce ever fails of removing obstructions in either, particularly those who are troubled with Phthisick or Asthmatic complaints, who in the act of walking fast, stooping or lying down, are almost suffocated, half a teaspoonful of the Columbian Oil will render some relief instantaneously, and if continued agreeable to the directions in such cases, will prove a radical cure by producing the full power of inflation to the lungs and free expansion to the breast.

CERTIFICATES OF ITS EFFICACY.

No. 1.

Sept. 1809. I do certify, that I have been ailing nearly two years with a hectic cough and violent impression at the breast—I applied to the most eminent physicians and could get no relief from my low state of health, until I got Paul's Columbian Oil, and found immediate relief. I take this method of informing the public of the efficacy of this valuable medicine, from the cures which I have experienced—I think it an incumbent duty to offer the same to the public. ELISHA SOWARD. Baltimore No. 16, Water-street, sign of the plough.

No. 2.

Sept. 1809. From the great benefit I received from your Columbian Oil, I am induced to state, I was taken with a violent sore throat, about the 26th of August last, which continued till the first of the month, when I applied your oil externally, and washed the part affected with the oil diluted in the same quantity of molasses, which took away pieces of purid flesh and healed my throat in about 48 hours.

N. B. I also certify, that I nursed my grandchild, and infant of 17 months old which was taken about the first of August with slow fevers and loss of appetite. We immediately applied for a physician, who gave every attention for about 10 days but all to no effect; the child was given up by the physicians, and had every appearance of death, when I applied for Paul's Columbian Oil, and gave five drops morning and evening, for five days, when the child began to recover, and is now in perfect health.

MARY UNDERWOOD. Baltimore, by Peter's Bridge.

No. 3.

Sept. 6. I hereby certify, that I had a cough and pain in my stomach for upwards of two years, when I was recommended to Paul's Columbian Oil. I procured one phial of that valuable medicine, which has restored me to a good state of health again. THOMAS ELLIOTT. On the Hook's-town road near the turnpike gate.

No. 4.

Feb. 12, 1809. I have great reason to be very thankful for being recommended to Paul's Columbian Oil I had been afflicted with a violent pain in my back, so that I was not able to walk. I procured one phial of the oil, and I received immediate relief, & I have been very well ever since.

N. B. I had a violent toothach about two or three months ago, when I dropped a few drops of the above oil on some lint, and applied it to the tooth affected, and I received immediate relief.

ELEANOR ELLIOTT.

No. 5.

SIR, I comply with your request of stating my opinion of Paul's Columbian Oil, being an effectual remedy for the tetter worm. I have been afflicted with the tetter in my hand for 12 years, and have made trial of many medicines which have been recommended, but all to no effect. Hearing of Paul's Columbian Oil, about the 15th of January last, proving an effectual cure for the ringworm and similar complaints, I immediately got a phial of your Oil, and applied it agreeably to the directions for about two months successively—when the tetter left me, and has not made its appearance since.

SUSANNA PURDEN.

N. B. My Susanna, a child aged 20 months & 6 days, was taken about the middle of July last, with a violent cough, which the neighbours said was the whooping cough; I gave her six drops of the Columbian Oil, which gave immediate relief, and proved an effectual cure. Saratoga street, Baltimore, Aug. 21, 1809.
