CHARLES-TOWN, September 19.

THE most violent and terrible Hurricane that ever was felt in this Province, happened on Friday the 15th Instant, in the Morning; and has reduced this Town to a very melancholy Situation: As the Public doubtless will expect a particular Account from the Press, so we have endeavoured to obtain the best Information we possibly could of this deplorable Calamity; for it is impossible, as yet, to tell all the Damage and Devastation we have sustained from the Violence of the Wind and Waves.

On the 14th in the Evening, it began to blow very hard, the Wind being at N. E. and the Sky looked wild and threatening: It continued blowing from the same Point, with little Variation, 'til about 4 o'Clock in the Morning of the 15th, at which Time it became more violent, and rained, increasing very fast, 'til about 9, when the Flood came in like a Boar, filling the Harbour in a few Minutes: Before 11 o'Clock, all the Vessels in the Harbour were on Shore, except the *Hornet* Man of War, which rode it out by cutting away her Main-Mast; all the Wharfs and Bridges were ruined, and every House, Store, &c. upon them, beaten down, and carried away, with all the Goods, &c. therein, as were also many Houses in the Town; and Abundants of Robbs, Chimneys, &c. almost all the tiled or slated Houses, were uncovered; and great Quantities of Merchandise, &c. in the Stores on the *Body Street*, damaged, by their Doors being burst open: The Town was likewise overflowed, the Tide or Sea having rose upwards of Ten Feet above the High Water Mark, at Spring Tides, and nothing was now to be seen but Ruins of Houses, Canoes, Wrecks of Pettiaugers and Boats, Masts, Yards, and incredible Quantities of all Sorts of Timber, Barrels, Staves, Stinkles, Houshold and other Goods, floating and driving with great Violence thro' the Streets, and round about the Town. The Inhabitants finding themselves in the midst of a tempestuous Sea, the Wind still continuing, and the Tide, according to it's common Course, being expected to flow 'til after One o'Clock, and many of the People being already up to their Necks in Water in their Houses, began now to think of nothing but certain Death: But, [Here we must record as signal an Instance of the immediate Interposition of the Divine Providence, as ever appeared,] they were soon delivered from their Apprehensions; for about ten Minutes after Eleven o'Clock, the Wind veered to the E. S. E. S. and S. W. very quick; and then (tho' it continued it's Violence, and the Sea beat and dashed every where with amazing Impetuosity) the Waters fell above five Feet in the Space of ten Minutes, without which unexpected and sudden Fall, every House, and Inhabitant in this Town, must, in all Probability, have perished: And before Three o'Clock the Hurricane was entirely over. — Many People were drowned, and others much hurt by the Fall of Houses.

At *Sullivan's Island*, the *Pest House* was carried away, and of 15 People that were there, 9 are lost; the rest saved themselves by adhering strongly to some of the Rattens of the House when it fell, upon which they were driven some Miles beyond the Island, to *Hobcaw*: At *Fort Johnson*, the Barracks were beat down, most of the Guns dismounted, and their Carriages carried away: At *Gravin's* and *Granville's* Battions, and the Batteries about this Town, the Cannon were likewise dismounted: The *Mermaid* Man of War, which had just gone up to *Hobcaw*, to leave down, was drove ashore not far from the *Careening Place*: The Ship *Lucy*, of and for *Londoh*, *John Bulman* Master, which lay Wind bound in *Rebellion Road*, dragg'd her Anchors, drove by the fort and this Town, and ran ashore upon a Marsh about 7 Miles up *Cooper's River*: A new Vessel was drove off the Stocks, and wreck'd at *Mr. Wright's*: The Schooner *Nancy*, *John Badley*, 3 other Schooners, and the Sloop *Nancy*, *John Babb* Master, all of this Port, ashore in *Col. Heron's Pasture*: Another new Vessel was wreck'd near *Mr. Scott's*: And one but lately begun, with the *Snow Industry*, belonging to *Mr. David Brown*, ashore on the Green near his House. Capt. *Walker's* Pilot Boat, against the Governor's House; and his Sloop, the *Endavour*, bound for *Jamaica*, after beating down his Excellency's Coach House, Stables, &c. was dash'd to Pieces against *Mr. Raper's* House, whose Balcony Door her Mast entered; 2 or 3 Pettiaugers were wreck'd against *Doctor Carr's* House: A small Schooner drove up close against the old Custom House Door; and one of *Mr. Edwards's* Pilot Boats, to *Mr. Thomas Smith's*: Several Boats against *Mr. Price's*: The Sloop *Calbarine*, of *New York*, *Richard Manley* Master, and the Sloop *Industry*, of and for *Rhode-Island*, ashore upon the Head of *Mr. Beresford's* Wharff: The *Snow Charming Nancy*, of and for *Hull*, on the Head of *Capt. Simmons's*, near the Council Chamber: The Brigantine *Peggy and Sallee*, of and for *Bristol*, *William James* Master, against the Curtain-Line, between *Mr. Thomas Elliot's* and *Mr. Motie's*: The Sloop *Henry*, *Henry Cregier* Master, of and for *New York*, against the Exchange or *New Market*; where *Mr. Edwards's* other Pilot Boat is wreck'd: The *Snow Dove*, *John Tuppen*, bound for *Cape Fear*, on the Head of *Mr. Ewleight's* Wharff: A small Schooner against the Curtain-Line, near the *Dove*: The Brig *Two Friends*, of and for *Falmouth*, *Robert Johns* Master, beat down some Houses, and lies on the West Side of *Church Street*, along Side of *Mr. John Matthews's*: The Ship *Upton*, of *Liverpool*, lately arrived from *Rotterdam*, which lay up *Ashley River*, was drove a great Way into the Marsh near *Wappoo*: The Sloop *Polly*, *George Goss*, bound for *Barbadoes*; the Schooner *Elizabeth*, *Alexander McGillivray*, of this Port, for *Jamaica*; the Sloop *Suffannah*, *Amos Minor*, also of this Port; the Schooner *Bauk*, with 8 or 10 other small Schooners, own'd here, and 3 or 4 Pilot Boats, are drove, some into the Woods, some into *Corn Fields*, and others far into the Marshes, on and about *James Island*, *Wappoo*, &c. — For about 30 Miles round *Charles Town*, there is hardly a Plantation that has not lost every Out House upon it. — All our Roads are so filled with Trees blown and broke down, that travelling is render'd extremely difficult; and hardly a Fence was left standing in the Town or Country. — We have suffered great Loss in Hogs, Sheep, and all Kinds of Provisions.

The *Mermaid*, and most of the Vessels on Shore, may be got off. From *Winyaw* and *Port Royal*, our Accounts are much more favourable than were expected, no Damage having been done to the Shipping in those Harbours, and very little to the Houses, as the Hurricane was hardly felt at either of the Places. Yesterday arrived *Capt. Gardner* from *Providence*, who says he felt the Hurricane near *St. Augustine*, but received no Damage; that he spoke with a large Brig off this Bar, in the Morning, belonging to *Whitehaven*, and bound from *Antigua* for *Cape Fear*; and that he saw Part of a Wreck, whose Quarter was painted Green. This Day arrived *Capt. Comr.* from *Port Royal*, who has brought in 2 Seamen and 5 Negroes, which he took out of the Ship *Africa*, of and from *Barbadoes* for this Port, *John Darrington* Master, lying at Anchor amongst the Breakers off *North-Edisto*: And *Miles Tadar*, Master of the *Snow Deby and Betsy*, of and for this Port, from *Jamaica*. *Capt. Darrington* met with a violent Storm, about 7 Leagues to the Eastward of this Place, on Wednesday last, that continued 'til the next Afternoon, in which his Ship lost all her Masts, Sails, and Rigging, had one of her Sides beat in, and 5 Seamen, and one Negro, with all her Boats, &c. wash'd over board: On Friday he came to an Anchor off *Edisto*; and the Ship *Cunliffe*, of *Liverpool*

(with *Germans* from *Rotterdam*) coming to the same Place in the Evening, he with his Mate, quitted the *Africa*, and went on board of her.

Capt. Tadar has lost his Masts, &c. and carried his Vessel into *St. Helena Inlet*, near which Place he met with the Hurricane: He spoke with the *Cunliffe*, and a Sloop from *Jamaica* which she had in Tow, one *White*, Master, that had no Mast, Sail, or Rigging standing; and also with the Sloop *Charles Town*, *Capt. Steel*; which Vessels are now coming in.

A Sloop is said to be ashore on *Long Island*, and great Quantities of Wreck have been met with upon the Coast.

September 26. The Ship *Lucy*, *Capt. Bulman*, has been got off since our last; as are also two of our Pilot Boats, the Schooner that lay against the old Custom House Door, and two or three other small Schooners: And they are now endeavouring to get off some of those that are ashore on *James-Island*.

In the late Hurricane, hardly a House was left standing on *White Point*; the Batteries near *Mr. Mortimore's*, *Mr. Rattray's* Garden (in which was a Magazine of Gun Powder), and upon *Consilliere's* Creek, were entirely beat down, and carried away; the greatest Part of *Broughton's* Battery was beat to Pieces; and the new Works on the Land Side of this Town, received considerable Damage.

The Ship *Telemachus*, of *Liverpool*, *Capt. Feartlough*, that lay at *Mr. Child's* Bluff, 20 Miles up *Ashley River*, broke all her Holds, and was drove upon the Marsh opposite the said Bluff; and the Ship *Eagle Galley*, *Capt. Timothy M'Daniel* (which lay at the same Place), was drove almost as high as *Dorchester*, into *Col. Izard's* Creek. The Owners *Goodwill*, *Capt. Moreland*, was drove against *Mr. Cartell's* Bluff, in the Beginning of the Hurricane, and off again when the Wind shifted.

The Brig *Experiment*, *Edward Carleton* Master, from *Barbadoes* for *Georgia*, has been spoke with on the Coast, since the Hurricane, all well on board.

The *Bristol Merchant*, *Parsons*, and the *Nancy*, *Copstborns*, were well at *Port Royal* since the Hurricane, having rode it out; as did also the *Nancy*, *Capt. Connor*, at *Winyaw*.

From *Georgia* we hear, that the late Hurricane has been felt there, and incredible Damage done to the Trees, but that no House or Vessel was hurt; the Tide being 4 Feet lower than usual.

October 3. On Saturday last we had here another terrible Hurricane, which began, with Wind and Rain, about 4 o'Clock in the Afternoon, but ceased soon after 7 in the Evening. For two or three Days before, the Violence of the Wind (which blew from N. E. and E. and at last settled at S. E.) and the great Quantity of Rain that had fallen, kept the Tides from ebbing their due Course and Time, so that when this Hurricane began to abate, tho' the Water should have been low, it was higher than at common Spring Tides; and had the Wind rose, as was expected, when the Flood should have come in, our Situation would have been most deplorable indeed! But the same Providence that interposed before, was visible here. In this Town, it did little or other Damage, than to the Goods of those People who removed from the most exposed Places, and the Tops of some Houses; But at *Winyaw*, we are informed, it was more severely felt than the former. About Midnight the Wind veered round to N. W. when another violent Storm broke up the bad Weather. — We have daily such a Number of melancholy Accounts from all Parts of the Country, of the Damage and Losses sustained on the 15th and 30th ult. that they would afford endless Matter for this Paper, were we to publish them.

In the late Hurricane, the *Snow Vine*, of *Liverpool*, *Robert Rankin* Master, from *Barbadoes*, for this Port, with Sugars and Slaves, was drove in from Sea, and stranded upon *Cummins's* Point, about a League from our Bar: The Cargo and People

People in her were saved. The Ship Africa, Capt. Dorrington, was also stranded, at a Place called Mellishamp's Island; and Capt. Tucker's Schooner of this Port, that went to take out the Africa's Cargo, drove ashore. Since our last, the Sloop Polly, Capt. Gers, bound for Barbados, the Schooner Elizabeth, Capt. M'Gillivray, the Sloop Nancy, Capt. Babb, and a Schooner belonging to Capt. Baker, that were driven into a Plantation at Wappoo, and into Col. Brown's Pasture, on the 15th ult. have been got out, and are fitting for the Sea.

The Sloop Betsy, Robert Jones Master, from Philadelphia for this Port, and a Snow from Nova-Scotia, have put into Edisto Inlet.

The Master of a Schooner from Georgia, in his Passage saw 5 or 6 Vessels at Sea, off St. Helena; of which some seemed to be dismasted; but he did not speak with any.

Yesterday arrived here, the Snow Rowand, Capt. Arthur Tran, from Rotterdam, with near 300 German Passengers.

October 9. On Wednesday last arrived here the Ship Live Oak, of this Port, Capt. Rodger, from London: He was on the Coast the 30th ult. when the last Hurricane happened, and in it lost his best-Bower Anchor and Mizzen yard, had some of his Sails torn to Pieces, shipped several Seas, and received other Damage. The Day he came in, he saw a Snow off the Bar, that had only her Main mast standing.

Since our last we learn, that the Hurricane which happened on the 30th ult. has done greater Damage at Sea, and to the Southward, than that of the 15th: Abundance of Trees, and several Houses, having been blown down, that did not suffer before: At Port Royal the Water rose four Feet and a Half higher than usual, and a Sloop was drove ashore that entirely beat away Mr. Perry's Wharf: A Sloop from Rhode Island, Waldron Master, bound for this Port, put into Edisto, lost all her Anchors, Bowsprit, Sails, Boat, &c. the Captain wash'd out at one of the Port-Holes, and thrown in again: The Schooner Betty, John Mills, from Maryland, with German Passengers, and the Minerva, Isaac Colcock, from Philadelphia, were obliged to put into Edisto: The Snow Bristol Merchant, Capt. Parsons, from Bristol for this Port, with a very valuable Cargo on board, that sail'd to come round from Port Royal after the first Hurricane, lost her Bowsprit, Sails, &c. in this; and is since beat to Pieces upon Edisto Bar, the Vessel and Cargo entirely lost: A large Sloop, whose Quarter was painted green and white, drove ashore and beat to Pieces upon Kaywab Island, none of the People, but many Limes found: Capt. Tedar's Snow drove into a Marsh at St. Helena; near which Inlet another Snow from Sea, is said to be beat to Pieces: A large Ship beat to Pieces upon the Hunting Islands: And another Sloop said to be ashore upon the Southern Coast. 'Tis reported, that a Ship and Sloop are also ashore upon the Racoon Keys.

The Ships Eagle Galley, Capt. M'Daniel, and Telemachus, Capt. Feartough, put ashore on the 15th ult. near Dorchester, have been got off since our last; as are also, the Schooner Betsy, Capt. Hutchins, of this Port, that was overlet upon James Island. The Ship Africa, of Barbados, and Snow Vine, of Liverpool, drove ashore on the 30th ult. are since beat to Pieces, but their Cargoes have been saved; and Tucker's Schooner has been got off: The Ship Charming Sally, Capt. Spencer, from London for Winyaw, is put into Port Royal.

Yesterday came Advice, that the Brig Carolina, Capt. Boyd, of and for this Port, from Philadelphia, and the Ship Caledonia, Capt. Harvis, also of this Port, with German Passengers, put into Savannah in Georgia, on the 2d Instant.—Capt. Boyd writes, "That in the last Hurricane (which he met with in Lat. 34, and 16 Fathom Water, on the 29th ult. and continued till 12 o'Clock the next Night, the Wind at S. E.) he lost an Anchor from his Bow, had his Caboose carried away, one of his Men wash'd over board (but happily wash'd in again) his Vessel continually filled with the prodigious Seas that beat in upon her, and his Sails much damaged, so that he every Moment expected to sink, or be driven upon the Breakers; but that about One o'Clock on Sunday Morning, the Wind suddenly whirl'd about to the N. W. and blew him off." He saw several Wrecks on the Coast.

The Sloop towed in here by the Cauliffe, on the 19th ult. was the Lucretia, Capt. Philip White, belongs to Santa Cruz, was bound from Jamaica for Port Royal, and lost her Mast, Sails, &c. on the 15th.

All the Papers, &c. in the Surveyor General's Office, were five Feet under Water in the first Hurricane, many of them wash'd away, and the

rest are in a perishing Condition, tho' the utmost Care has been taken of them.

The Loss this Province has sustained, in Trees only, by the late successful Hurricanes, may be better conceived than it has been, by informing our Readers, that it was chiefly the largest and best that have been blown down and broke; that many Plantations and most of the Islands, have none of those left standing on them; that Mr. Beauford (whose whole Loss amounts to upwards of 20,000 l.) has lost in this Article alone (from one Tract of Land not far from this Town) to the Value of 10,000 l. And that the Roads in most Parts of the Country, were rendered impassable 'til cleared.

Vessels still ashore. His Majesty's Ship Mermaid, at Hobcauw; Snow Charming Nancy, of Hull, Charles Cookson Master; the Snow Dove, John Tuppen, of Conus; the Brig Peggy and Betty, William James, of Bristol; Brig Two Friends, Robert Jones, of Falmouth; Sloop Industry, Uriah Davis, of New England; Pilot Boat, and 5 Schooners, besides small Craft, in and about this Town. Also the Snow Industry: The Ship Upton, Gardiner, of Liverpool; Sloop Susannah, Minot of this Port; 3 Pilot Boats, and 9 Schooners; &c. at Wappoo, and upon James's Island.

L O N D O N, September 14.

A List of Vessels lost on the Coast of Cornwall, in the late Storm, viz. Daniel, Panouret, of and for Guernsey, lost, the Crew saved. William and John, Dare, of and for Sandwich, ditto. Unity, Diamond, from Padstow for London; and a new Brig, Rondel, from Milford, lost; one Man only saved. Two Brothers, Gardner, from Drogheda to London, lost; one Man drowned. The Esther, Ball, and Norman, from Swanzy, ashore. A Brig belonging to Mr. Bozaco, of Comb, lost, the Master drowned. To the Westward of St. Ives two Vessels are lost, and all the Crews perished; one of them from the Masts and Rigging come ashore, must be a Vessel of 3 or 400 Tons. The Caesar, Hamerton, with Provisions, from London for Plymouth, is put in o Cowes with five Feet Water in her Hold. The Catherine, Harris, from London for South Carolina, is put into Portsmouth, having received much Damage. The Constant Matthew, Storm, from Petersburg for Bristol, is put into Dartmouth, with the Loss of his Mizzen and Main Topmast: Capt. Storm parted with the Wilson, Bofwick, from Petersburg for Dublin, the 27th ult. all well. The Fearon, Sutcliffe, from London for Barcelona, with Corn, is put into Dungeness, having received Damage. The Three Brothers, from Bristol to Bayonne; the Plymouth Merchant, Broad, from Bristol to Plymouth; and the Squirrel, Payne, from Bristol to Frederickstadt, are lost in Bristol Channel. The Wilmington, Scot, from London and Falmouth to Milford, is lost off St. Ives, and all the Crew except the Mate and a Boy perished. N E W B E R N, in North Carolina, October 6.

On Tuesday last ended the General Court here, when three Persons were capitally convicted, and received Sentence of Death, viz. William Jillet, and Daniel Johnston, alias Dixon, for Coining; and David Smith, alias Griffith, for Felony, in robbing a Store in Johnston County, about four Years ago.

Patrick Moore, who was concerned with the Coiners, turn'd Evidence against them; and Peter Matthews, at whose House they were taken, and who was thought to have been concern'd with them, was acquitted.

October 20. On Monday last were executed at the Gallows near this Town, pursuant to their Sentence, Daniel Johnston, alias Dixon, William Jillet, and David Smith, alias Griffith. They were attended to the Gallows by the Rev. Mr. Loppierre, who also attended them while in Goal. They all appeared very penitent, and expressed much Sorrow and Contrition for their Crimes, which they confessed; and Jillet and Johnston declared Patrick Moore to have been the sole Contriver and Promoter of the wretched Scheme, for which they suffered, and which would have been so destructive to the Community had it succeeded. Johnston died a staunch Roman Catholic, and was very earnest and pathetic in his Prayers for the Friends and Followers of Lord Lovat, Kilmarnock, Balmerino, and all the Rebels that suffered in the late Rebellion, and heartily prayed for a Continuance of that noble Spirit which he hop'd was yet alive in Scotland among the Well-wishers of the Pretender.

They made several Attempts, while in Goal, to escape, but were prevented by the Sheriff, who kept a Watch round the Prison every Night; and

indeed it has been intirely owing to his great Vigilance and Industry, that these Feils of Society were first apprehended, and preserv'd safe in a Goal (which has hitherto been remarkable for letting Prisoners escape) till they received the Reward due to their Crimes.

W I L L I A M S B U R G, October 27.

William Trent, Esq; sent by this Government with a Present to the Twightwees, arrived in Town this Week, and gives us the following Account of the Engagement mentioned in our last. On the 21st of June, about nine o'Clock in the Morning, Two Hundred and Forty French and French Indians, surprized the Twightwees in their Corn Fields, and came so suddenly on them, that the white Men who were in their Houses, had the utmost Difficulty to reach the Fort. Three not being able to get in, shut themselves up in one of the Houses adjoining. There were about 20 Men and Boys, including the white Men in the Fort. The Indians having taken Possession of the white Men's Houses, advanced towards the Fort, firing very briskly, which was as returned, then attacked the Log-House where the three Men were shut up, who having Plenty of Arms and Ammunition, and being well secured by the Strength of the House, might have defended themselves against the whole Body of the Enemy: Notwithstanding which they could not be prevailed on by the Men in the Fort to Fire a Gun, but cowardly hid themselves under Skins, suffered the House to be taken, and themselves made Prisoners; and then discovered to the Enemy the Weakness of the Fort. The French and Indians in the Afternoon, informed the Twightwees, that if they would deliver up the white Men that were in the Fort, they would break up the Siege and go home. After a Consultation it was agreed by the Indians and Whites, that as there were so few Men, and no Water in the Fort, it was better to deliver up the white Men, with Beaver and Wampum, to the Indians, on Condition they would do them no further Injury, than let the Fort be taken, and all be at their Mercy. The white Men were delivered up accordingly, except Burney and Andrew, whom the Indians hid. One of the white Men delivered up to them being wounded in the Belly, they stabbed and scalped him, took out his Heart and eat it; and as they have a considerable Reward for killing an Englishman, they cut off his Fingers and carried them to Canada, to prove him such. The Indians upon receiving the white Men (whom they carried away Prisoners) delivered up all the Indian Women, whom they had taken, and set off with the Plunder, amounting to about 3000 l. They killed one Englishman, and took six Prisoners. One Mingoe, one Shawneffe, and three Twightwees, they killed; among whom was the old Pianguisha King, called by the English, Old Barton, whom they boiled and eat. The French and Indians lost fifteen in the Battle. They carried off all their Dead, except four of the Chapawas, whose Custom is to leave the Dead: One of them is the Head King, and another of them the next Head Man of that Nation.—The other Indians that assisted the French, were called Ottawawas. One Hundred of the Chapawas went over to the Six Nations, because they would not help the French, and the rest that assisted them, say, that those which were slain were killed by the French, and not by the English and their Indians.

The Six Nations have not yet declared War, but have called in all their Warriors, and are making Preparations, that we have Reason to expect a Declaration very soon.

N E W Y O R K, November 20.

Last Friday Evening Capt. Hill arrived here, in 40 Days from the Bay of Honduras who informed us, that the Spaniards arrived there the 2d of August last, in the Morning, in six Pettaugers, and a Flat of 14 Swivel Guns, and attacked Capt. Crowel, in the Sloop Stork, of this Port, and Capt. Hall, in a Brig belonging to Connecticut, and after an Engagement of two Hours, took the Brig, and after taking every Thing of Value out of the Sloop, left her: Capt. Hall's Mate stood the Deck longer than any of the Crew, and after he fired his Musket the last Time, broke her all to Pieces on the Spaniards; but was at length killed, by the Stab of a Knife in his Back; Capt. Hill killed the Spanish Commodore, by a Shot out of his Cabbin, and a Gun from the Stork killed 4 Spaniards, and wounded 7: Capt. Hall, and Capt. Crowel, and his Mate, who were barbarously used, after taken, were carried away Prisoners, the rest of the Crew, having received little or no Hurt, were set at Liberty. A few Days after, they took 5 Craft, two of which belonged to Capt. Hill, loaded with Wood, and after destroying them, set the Men ashore. About the 18th of September, O. S. as

Capt. Arnold was going in, he was attacked by a Scout Dotey, and two Pettiaugers, with 67 Men; but he handled them so rough, and killed so many, as soon obliged them to cry for Quarters; which he not chusing to comply with, kept a constant Fire, as long as they stayed by him, and thought one of the Craft sunk in a very little Time after. Don Palmo, their Commandant, was killed in the Engagement, as well as five more, and 7 or 8 wounded, by some Shot from the Cabin Window, by the Cabbin Boy. One of the Spaniards jump'd over board, and hung by the Ring of Capt. Arnold's Rudder, but was taken in as soon as his Companions were gone. Capt. Hill took a Canoe with five Spaniards (one of which he has brought here) and from Papers found upon them, it was thought they were Spies: He sailed in Company with Capt. Pones of Rhode Island, and Capt. Ruff of Bolton; and left at the Bay, the Capts. Winthrop, Arnold, Sluman and Waynman, all of this Port; Capt. Adams of South Carolina, and Capt. Johnson of Jamaica.

Last Week came to this City, two French Soldiers, who say that 19 more, with an old Indian, deserted the French Forces at Mississippi, and have been 8 Months on their Journey hither over Land: They inform us, that they with many others, were sent from Old France about 18 Months ago, to settle at New Orleans, but not liking the Country, they chose to come this Way; the rest of their Company, they say, are in the Jerseys.

MARYLAND GAZETTE,

THURSDAY, December 14, 1752.

VERONA, August 1.

BY Letters from Venice we have received Advice of a bloody Engagement which six Men of War and three Gallies of the Republic have had with a Squadron of thirteen Algerine Xebeques, in which six of the latter have been sunk, and most of the Crews of them killed or drowned.

Marzeilles, August 4. The Fathers of Redemption of Captives are returned hither from Algiers with 229 Slaves, which they have redeemed; amongst them was a Woman, whom they have sent to the Lazaret, suspecting her to have the Plague, which carried off fourscore Persons one Day with another, at the Time of their Departure.

Tripoli, August 8. For a considerable Time past this Regency has kept in it's Service a Body of Albanians, not only on Account of their native Bravery, but also because they made excellent Corsairs. Tho' these Albanians seldom exceeded 300 in Number, they lately formed the rash Design of seizing upon the City, and establishing a Form of Government to their own Liking: Having laid their Plot with Secrecy, they assembled the 31st of July in the Night, and fell upon the City Guards, Part of whom they massacred, and disarmed the rest; the next Thing they attempted, was to attack the Castle, but here they met with a Resistance more vigorous: Signals were immediately made to call the Cavalry, quarter'd in the out Parts, to the Assistance of the City. The Albanians, finding themselves disappointed, ran down to the Port, in Order to escape by Sea, and seeing an English Ship ready to hoist Sail, they immediately got on board of her, and put to Sea. Forty of them, who had lagg'd a little behind their Comrades, were taken, and brought the next Day into the Square before the Castle, where they were all beheaded, and their Heads stuck upon the Walls. This Affair has made the Bey and the Regency resolve to have no more Albanians in their Service.

Madrid, August 8. We are informed by Letters from Genoa, that a great Number of Ship Carpenters have lately been embarked there, in Order to be transported to the several Ports of this Monarchy, and to be employed in building Men of War, and other Ships for the King.

Lisbon, August 23. It's confirmed that the Misunderstanding between this Court and the Court of Great Britain, in Regard to the Gold Coin of this Kingdom being carried out of it by the Subjects of the latter, has been entirely regulated during the Stay here of the Lord Tyrawley. The Indisposition of his Majesty hindered him from taking Leave of that Nobleman; but he caused one of his Secretaries of State to tell him, "That his Majesty was extremely well satisfied with the Pains which he had taken for the Advantage of the Commerce of the two Nations; that he hoped by Means of the Regulations which had been agreed upon, no more Difficulties would arise of the Nature of those which had been adjusted; and that in the Letter which he had wrote to the King of Great Britain, he had more fully explained his Sentiments in this Respect; and how agreeable the Choice, which he had made of his Excellency to execute this Commission, was to his Majesty."

Paris, September 8. The Dissentions between the Court and the Parliament engross all the Attention of the Public. It is said that the latter charged all the Magistrates and Officers of their Resort to see their Arrests executed; notwithstanding any Ordinance to the contrary from the Court, when such Ordinance has not the Forms requisite to give it the Force of a Law. It is currently reported, that we shall soon see an important Declaration on these Matters. It is also pretended, that the Affair of the Clergy relative to Subsidies or Free Gifts demanded since the Year 1749, is on the Point of being adjusted: The Public talk of so large a Sum, no less than Fifty five Millions, that we apprehend they exaggerate: However it is

supposed the Clergy will give a great deal to carry their Point against the Parliament.

Paris A la main, Sept. 11. The Parliament has issued an Arret against the Vicar of St. Amiable, in the City of Riom, in Auvergne, which condemns him to nine Years Banishment from the Districts of Riom and Paris, and to pay a Fine of ten Livres to the King, for some scandalous and schismatic Doctrine which he advanced last Whitsuntide.

Paris, August 11. Last Night a most dreadful Shower of Hail fell in the Parishes of St. Front, Bourniquel and Pontour, in this Diocese: Some of the Hail Stones were pick'd up this Morning at Ten o'Clock, and still weighed between four and five Pounds, tho' they must have lost in Weight since Sun-rise.

All the Roofs of the Houses have been destroyed, and some Houses quite beaten down: All the standing Corn and Vineyards are utterly destroyed, and Abundance of Trees torn up by the Roots, &c. The Court has ordered an exact Account to be taken of the Damage, and the Intendant of the Province is actually making Provisions for the Subsistence of the Inhabitants of those Parishes.

Rome, August 5. A Peasant of Pifferano, a Territory belonging to Prince Pelavicini, lately discovered a Treasure which would have enriched him for the Remainder of his Life, had his Discretion been equal to his good Luck. As he was ploughing in a Field, he found an Urn full of Gold Coin, which he conveyed to his Cottage at several Times, without acquainting any Body of the Affair: But going a few Days after to pay the Butcher of the Village, he pulled out a Piece of this Money, and as it seemed very extraordinary to the Butcher, he questioned him how he came by it, which the Peasant made no Scruple of telling him. The Butcher soon went with some other Peasants to the same Spot, and on digging found more Gold. The Secret now being discovered, and the Government hearing of it, caused the Peasant to be arrested. The Coin has been examined, and found to be the Emperor Justin's, whose Head it bears in Profile. The Treasure already found amounts to the Value of fifteen thousand Roman Crowns, to which there are now many Claimants, and 'tis thought but a small Share will fall to the first Discoverer.

Leghorn, August 14. Letters from Tunis, of the 26th ult. bring Advice, that Sydy Jones (tired of wandering in the Mountains, and endeavouring to reach the Territories of Algiers) had been surrounded in his March by the Troops of the Dey of Constantine, who took him Prisoner, and conducted him to the Castle of that City. Sydy Jones had with him a considerable Treasure, consisting of three Millions of Sequins in Gold, besides his rich Armour and Accoutrements adorned with Jewels; of all which he has been stripped; and the next Thing is to know what Treatment this unnatural Son is to expect from his much injured and incensed Father, supposing he is delivered into his Hands, which seems at present very likely.

Cracovia, August 22. According to the last Letters from Constantinople, we look upon the late Revolution there, as the Prelude to a more terrible One, which seems to threaten even the Grand Signor himself. The Depositions, the Banishments, and the most tragical Executions, have not appeased the Janizaries: It is not merely the Disgrace of Favourites which they demand, but the Resolution of the Master which they take upon them to govern according to their Liking. The Inclination of his Highness is peaceable, and they want to force him to incline otherwise. In short, these Mutineers don't scruple to cry, in a bold and imperious Manner, "Either a War, or another Sultan." In so critical a Situation, the Grand Signor knows not what to resolve upon. He is in Peace with the European Powers, and it is against them; as it is pretended, that the Janizaries demand to march. If his Highness pursues his pa-

cific Disposition, he runs a Risk of being deposed and the greater, as Soliman, who is a warlike and enterprising Prince, will then, probably, mount the Throne.

Leghorn, August 18. The Corsicans are in greater Agitation than ever. The Malecontents beyond the Mountains have chosen four Chiefs, who have published an Ordinance, whereby those who should dare to propose any Thing in Favour of the Republic, are subjected to severe Penalties. These Chiefs having heard that an Officer and some French Soldiers were killed in the Territory of Alba, they sent a Detachment, with Orders to plunder and burn that Place. Five hundred Men, who are supported by a flying Squadron, patrol on this Side the Mountains, and arrest and hang, without any Form of Process, all those whom they suspect to hold Correspondence with the Government of Genoa. This Party in such Manner prevents Provisions from being carried to Bastia, that they are obliged to cause them to be fetched from Tuscany.

Madrid, August 15. The King has charged his Minister at the Court of Great Britain to solicit several Advantages in Favour of the Commerce of his Subjects in the British Ports. 'Tis said, that these Advantages are to counter balance those which the King will grant to the British Subjects in the West Indies.

The Merchants of Cadiz will, next Year, equip, at their own Expence, ten Xebeques, and two Frigates of twenty Guns each, to cruize against the Corsairs of Barbary. 'Tis said, there is Advice from Buenos Ayres, that the King's Commissaries, sent into America to take Possession of Nova Colonia, yielded to Spain by his most faithful Majesty, have found the Inhabitants unwilling to submit to the Spanish Government.

An Extract of a Letter from a Minister, dated August 20, in Relation to the Election of a King of the Romans.

The King of Great Britain will not, we are assured, quit Hanover, before being assured, that the Election of a King of the Romans will be made according to his Wish. It's true, something is wanting to complete the great Event: But this Monarch thinks his Glory too much interested to let that Affair drop: For, even at the Time when the Court of Vienna appeared, and was in Effect, very indifferent thereupon, he, of himself, promised a very considerable Indemnification to the Elector Palatine, in order to accelerate Matters, which, who would have thought it was, however, rejected, though without breaking off the Negotiation. But, it is to be observed, that if these Propositions of his Britannic Majesty had been accepted, even that would not have cut the Gordian Knot, since there would have been a Necessity of causing the Imperial Court to subscribe thereto, who absolutely refuse to make any new Sacrifice. They now think at Vienna in a different Manner to what they did heretofore. The august Heroine the Empress, who has very well preserved the Inheritance of her Fathers, thinks she can pass over many Things which were heretofore believed to be essential. It is not because the Courts of Vienna looks with Disdain upon the Imperial Dignity, but it persuades itself that it will naturally be conferred on the august House which has given 16 Emperors to Germany, especially if that Degree of Respect and Consideration be preserved, which the Empress Queen has lately acquired in foreign Courts, where she is spoke of in the Tone she was formerly. By the Variation of Sentiments which there seems to be between the Courts of Vienna and Hanover, it is scarce to be imagined that his Britannic Majesty could perfect the Work of the Election, before returning to London, as is intimated in the Beginning of this Letter. It is now nevertheless assured, that the Resolution is taken to proceed upon the Majority only, without waiting for Unanimity, which it is hoped will in the End come of itself. It is said at Hanover,

that since we must purchase the Opposers, we may as well gain them over after the Business is done; they may possibly before Hand insist upon high Terms, from an Imagination that it is in their Power to defeat their Scheme.

L O N D O N.

August 25. Last Week the Right Honourable the Lord Baltimore, Son to the late Lord Baltimore, arrived in Town from his Travels in the South of France, and other Parts of Europe.

Several more Men of War will soon be put into Commission, and others in Commission are ordered to be got ready for Sea with all Expedition.

Our last Letters from Genoa acquaint us with an odd Accident that has happened there: A Barrel of Gunpowder passing along the Street to the Arsenal, a Spark of Fire, or rather red hot Iron, from a Farrier's Shop, struck into it, by which five Persons in the Street were killed upon the Spot, seven more dangerously wounded, some of whom are since dead, and several Houses and Shops were considerably damaged.

August 27. It is reported that a Squadron of Men of War will be sent to the West Indies, in order to oppose the Depredations of the Spanish Guard de Costas.

Commodore Keppel, with all the Ships under his Command, is arrived at Portsmouth from the Mediterranean; upon which Station he has been upwards of three Years.

By a Vessel arrived at Amsterdam from the Mufquito Shore, there is Advice, that she was drove off the Coast by the Spaniards, who took Capt. Mosely on the Coast from the Bay of Honduras, and four or five English Vessels going to the Bay. There were one Man of War, one Chebeque, a Sloop, and two Petiaugres; therefore it is impossible for any Vessels going or coming to escape; so that it appears as if the Spaniards were determined to rout out the English Ships. Capt. Mosely came out of the Bay along with Capt. Rand, who arrived at Amsterdam about five Weeks ago. In consequence of the above News, the Jamaica Merchants have appointed a Meeting of all Persons principally concerned in that Trade.

Private Letters from Constantinople, by Way of Venice, give a very bad Idea of the new Grand Vizir. He is said to be a Man of a cruel and rugged Disposition, unpolish'd and untractable with Regard to Address, a Bigot in Point of Religion, and one who has raised himself to this high Employment chiefly by shewing an outrageous Hatred to Christians. It is for this Reason concluded, that if he remains in Power any Time, there will be a War; and the only Question is on which Side it will begin, and there is good Reason to believe the Turks will make that Discovery as difficult as possible.

August 29. Some Advices from France inform us, that Orders have been sent to their Ports, to compleat without Delay whatever Ships are upon the Stocks, and to equip as expeditiously as possible such as have been ordered for Service. It is added, that Directions have been also given for putting two 70 Gun Ships upon the Stocks; and to proceed with them as fast as may be.—In this Season of Peace and Negotiation, it is not easy to guess the Meaning of such an Armament.

On Wednesday last the Lords of the Admiralty were pleas'd to order the St. Alban's, a Sixty Gun Ship, to be put into Commission.

The Jason Man of War, which lately sail'd from Portsmouth, is gone for America, with Instructions to the several Governors in those Parts.

According to some Advices from Copenhagen, an Officer of the Marine, who has been twice or thrice at Greenland, has laid before some of the principal Officers of the Navy his Reasons for supposing there is an open North West Passage into the South Seas, founded chiefly on his own Observations and Facts, certified (at his Instance) by the principal Inhabitants of the Danish Colony, in the Country before mentioned, and the Seamen who have been employed in Davis's Streights. It is said this Dissertation is equally ingenious and curious, but it is not thought proper to commit it to the Press.

We hear from good Authority, that his Majesty intends to set out for his British Dominions as soon in October as the public Affairs will admit of.

A considerable Number of Seamen are ordered to be draughted from the Guard Ships, to man the St. Alban's, Invincible, and another Man of War, sitting for the Sea.

Sept. 14. According to Letters from Constantinople of the 3d of August, which come by the Way of Venice, the Dignity of the Grand Vizir has been conferred by the Grand Signior on the Imbrador, or High Treasurer, who provisionally exercised the Functions thereof. The Treasure

found in the House of the K. A. R. Aga, whom the Sultan ordered to be strangled, was so immense, that they spent eight Days in removing it to the Seraglio: Ten or twelve Officers of the Porte have since been strangled; and yet the Ferment is very violent among the Janizaries, insomuch that their Aga, notwithstanding the Ascendant he had gained over them, despairs of being able to keep them within Bounds. The Day before the Date of these Letters, the Aga of the Janizaries, accompanied by four Agas, repaired to the Seraglio, in order to know the Intentions of the Sultan, concerning the Means to prevent the Dangers naturally to be apprehended from this mutinous Spirit.

September 16. We hear from Ireland, that a great Number of French Protestants are arrived there from France, who have taken the Oaths to naturalize themselves in his Majesty's High Court of Chancery.

By a Ship in the River this Week from Ferrol, we have Advice, that the Spaniards have 7000 Men at Work in that Harbour; some being employed in enlarging the Port, and the rest in the Yards and Docks: That they had actually upon the Stocks 12 Ships of 72 Guns; and six Men of War were on the Stocks at St. Andero.

By Letters from South Wales we are informed, that upwards of 10,000 Sheep have died in that Part, since the late heavy Rains began.

By the Storm on the 26th past, great Part of the Hundreds of Essex were laid under Water, and much Damage done thereby.

An Express from the East Indies, sent over Land from the Malabar Coast, advises, that all Things were settled at Surat and Arjango; and that the Natives had given the English Factory 200,000 Rupees, to make good all Damages the Company have sustained in the late Troubles.

Advices from the Frontiers of Turkey mention a dreadful Earthquake, which has totally destroyed several Quarters of the City of Adrianople; they reckon above 200 Mosques, besides a much greater Number of Houses, entirely demolished; and abundance of Inhabitants buried in the Ruins.

Sept. 23. His Danish Majesty has lately issued out an Order, by Virtue whereof no Norway Timber is to be exported out of the Kingdom during his Majesty's Pleasure; in order that it may be employed to a better Advantage at home.

Advices from Poland, by Way of Dantzick, acquaint us that the Crown General has made all the necessary Dispositions on the Frontiers, that would be requisite in case of a War with the Turks, which it is thought cannot be far off; since after strangling the Musti, the Grand Signior has not one Minister about him of his own Choice.

We are assured from undoubted Authority, that the French, instead of being victorious in the East Indies, are blocked up in their Intrenchments by a powerful Army of Indians, and are in a fair Way of losing all their boasted Acquisitions.

We hear that some monied Gentlemen have offered to lend the Government Two Millions of Money, at Two and a Half per Cent.

'Tis strongly reported that there is Advice from the East Indies of the French Nabob's being routed, that his Army have been obliged to take Shelter under Arcott, and were afterwards driven from thence, leaving their Cannon, &c. behind them.

October 7. The Negotiation between the Court of Madrid and that of London, is so far advanced, that the two Courts are already upon the principal Articles of the Convention; whereby it is concluded, that the Prizes which shall be proved to have been unjustly taken in America, shall be estimated, and the Value reimburs'd in Money to the Proprietors; and afterwards more exact Rules shall be established for determining the Lawfulness of the Prizes the Spanish Privateers shall take from the English. According to Letters from Seville, his Catholic Majesty has forbid his Subjects all Manner of Communication with Gibraltar upon Pain of Death. This rigorous Prohibition, has been thought necessary upon Account of the Algerine Corsairs being admitted to enter into that Port, tho' the Plague continues to rage violently in their Country.

Durham, Aug. 27. The Violence of the Storm which began on Monday Night, and continued without Intermision till last Night, so swell'd the River Ware, that it overflow'd its Banks, and joining with the little Brooks and Rivalets, has laid all the flat Country under Water: 'Tis impossible to paint the Horror of its Appearance, spreading like a Sea for some Miles, and rendering the Roads impassible. The Distress of the poor Country People is beyond Description; their standing Corn is entirely ruined, and whole Stacks of it reap'd, together with Cocks of Hay, Sheep, and Swine swept away by the Violence and Impetuosity of the Torrent. There cannot as yet be any pro-

per Estimate of the Damage done to the poor unfortunate Sufferers; but 'tis imagin'd that it will amount to several Thousands of Pounds.

Newcastle, August 29. By the Violence of the Storm of Wind and Rain on Tuesday and Wednesday, the Tyne was swelled to such a Height as cannot be remembered to have been seen by the oldest Man living; the flat Ground near Newbern was all laid under Water; great Quantities of Corn and Hay were brought down the River, and the Damage the Farmers have sustained is very considerable.

We are also informed from Reedsdale in Northumberland, that the Rain, which began on Monday Evening, continued without Intermision for fifty Hours; and on Wednesday it was driven with a most tempestuous Wind, so that the Land Floods have not been so high these forty Years past; and the Damage done to the Harvest is inconceivable. From Rothbury we are particularly advised, that the River Cocquet has swept down several hundred Fethers of Corn; and in the Rapidity of its Course, has broke down the new Bridge at Weldon Mill.

Extract of Letters from Yarmouth and Leostoff, dated September 23, 1752.

"We have the Mortification to see all the Back of our Sands lined with a Wood of French Buffes; they may already amount to 300. It is a most heavy Complaint among all the Fishers, that their Numbers take the best of the Ground, and prevent our coming on it; and not content with this, they anchor afterwards upon that very Ground, whereby our Fishermen are prevented from driving on it at all.

P. S. The French Buffes are of 100 Tons, and upwards, and carry 30 Hancs; so that they have 9000 Sailors upon our Coast at this present Time."

WILLIAMSBURG, November 17.

The Emperor of the Cherokee Nation with his Empress and their Son the young Prince, attended by several of his Warriors and great Men and their Ladies, were received at the Palace by his Honour the Governor, attended by such of the Council as were in Town and several other Gentlemen, on Thursday the 9th Instant, with all the Marks of Civility and Friendship, and were that Evening entertained, at the Theatre, with the Play, (the Tragedy of *Othello*) and a Pantomime Performance, which gave them great Surprise, as did the fighting with naked Swords on the Stage, which occasioned the Empress to order some about her to go and prevent their killing one another. The Business of their coming is not yet made public; but it is said to relate to opening and establishing a Trade with this Colony, which they are very desirous of. They were dismissed with a handsome Present of fine Cloates, Arms, and Ammunition; and expressed great Satisfaction in the Governor's kind Reception, and from several others; and left this Place this Morning.

PHILADELPHIA.

November 2. From Maryland there is Advice, that one James Rice, alias Dillon's Confession, and the Evidence given by one Hugh M'Guire, relating to the Murder of John Thomas and Eleanor Davis, Patrick Karin, Philip M'Dermot, and Margaret his Wife, are committed to Chester-Town Goal, on Suspicion of being Accessaries in the said Murder.

November 9. At a Court of Oyer and Terminer held at Lancaster on the 26th ult. Hamilton Carlson was convicted of Burglary, and receiv'd Sentence of Death. And James M'Connell, and Esther his Wife, were convicted of being Accessaries, after the Fact, to the Burglary committed by John Webster, and were both burnt in the Hand.

At a Court of Oyer and Terminer held in York County on the 30th ult. Hugh Matthews was convicted of a Robbery on the Highway, he having taken a Mare from John Caraban, which he obliged him to deliver, by clapping a Pistol to his Breast; for which he receiv'd Sentence of Death.

Martin Kitzmiller, and Jacob Kitzmiller, were indicted for the Murder of Dudley Diggs, and tried for the same. The Jury acquitted Martin, and found Jacob guilty only of Homicide in his own Defence.

ANNAPOLIS.

Some few Days ago a Boat crossing our Bay below this Place, was overfet, and the People must inevitably have perish'd, if it had not happen'd that another Vessel was then very near, and took them all in. The overfetting of the Boat was occasion'd by her Anchor, or Grapnel, being laid on her Forecastle without lashing (a Fault too common among Boatmen), and when she came to lie a little on one Side, it slipp'd off, and jirk'd her over.

About

About a Fortnight ago, a large Sea Schooner was found overfet in the Bay, near Patuxent, having no Person on board, nor any Thing by which it could be discovered where, or to whom she belonged: And we hear of fundry dead Bodies found drove ashore down towards the Cliffs.

This Week arrived a Vessel from the West Indies, which brought in Capt. Ingersoll, of Salem in New-England, with his Crew, who founder'd at Sea on the 16th of November last, at 12 o' Clock at Night, in a Vessel belonging to Salem, which in less than three Hours after springing a Leak, sunk out of Sight, having a Cargo on board to the Value of near 5000 Pieces of Eight.

Tuesday last Mr. FRANCIS KEY, of St. Mary's County, was married to Miss ANNE ARNOLD ROSS, eldest Daughter of JOHN ROSS, Esq; of this City, a well accomplish'd and deserving young Lady, with a pretty Fortune.

THE Money to be paid to the Possessors of the Tickets that are Prizes, as soon as the Drawing is finished, the Sum of 15 per Cent being first deducted out; which seems to be the best Method, not only as the Fortunate can best afford it, but also by this Means the Lottery is enriched by an Addition of 2700 Pieces of Eight, and the Adventurers Chance much better, there being not quite two Blanks to a Prize.

The Drawing to begin on the 1st Day of March next, or sooner, if sooner full.

The following Persons are appointed Managers; viz. Thomas Lawrence, Abraham Taylor, Benjamin Franklin, Charles Steadman, John Kearfley, Henry Harrison, James Humphrey, Joseph Redman, Evan Morgan, Thomas Leech, Henry Elwes, John Baynton, and Jacob Duchee, who are to give Bond and be on Oath for the faithful Performance of their Trust.

Prizes not demanded in six Months after Drawing to be deemed as generously given for the Use above-mentioned, and not to be demanded afterwards, but applied accordingly.

Tickets may be had of William Reynolds, in Annapolis.

WHEREAS Mr. Jonathan

Forward, of London, Merchant, is possessed of one Eighth Part of the Patuxent Iron-Works; but being advanced in Years, and desirous to decline all Business, is willing to dispose of it. Any Gentleman inclinable to purchase may know the Terms, by applying to

MARYLAND GAZETTE,

Containing the freshest Advices foreign and domestic.

THURSDAY, December 21, 1752.

To gratify the Curiosity of such of our Readers, who have not had an Opportunity of seeing the famous City of LONDON, the Metropolis of his Majesty's Dominions; the following short Description of it is here inserted, from Salmon's GAZETTEER, published in 1747.

LONDON, the Metropolis of GREAT-BRITAIN, where the first Meridian is fixed in the present Maps, lies in 51 Degrees 30 Minutes North Latitude, 300 Miles S. of Edinburgh, and 200 N. W. of Paris; 180 Miles W. of Amsterdam, and 500 S. W. of Copenhagen; 600 N. W. of Vienna, 1360 N. W. of Constantinople, 800 N. E. of Madrid, 820 N. W. of Rome, 270 S. E. of Dublin. The Form of London, including Westminster and Southwark, comes pretty near an oblong Square, 5 Miles long, if measured in a direct Line from Hyde Park Corner to the End of Limehouse, and 6 Miles if we follow the Winding of the Streets; and the greatest Breadth is two Miles and a half. The Circumference of the whole, 16 or 17 Miles; but impracticable almost to measure it exactly, on Account of it's irregular Form.

Much the greatest Part of the Town lies on the North Side of the River Thames; the Body of it rising gradually from the River, and standing for the most Part upon an Eminence; but the S. E. and S. W. Parts of the Town, and that Part of it which lies on the South Side of the River, are low, and at Spring Tides subject to Floods. There are no Hills in the Town, except that we ascend from the River, that to Holbourn, and that we ascend to the Cathedral of St. Paul's from the Bottom of Holbourn and Fleet street. The principal Streets are generally level, exceedingly well built, and extended to a very great Length. These are inhabited by Tradesmen, whose Houses and Shops make a much better Figure than those of any Tradesmen in Europe. People of Distinction usually reside in large elegant Squares, of which there are great Numbers at the West End of the Town, near the Court. And here we find the Royal Palace, which makes no great Figure, but is situate in a pleasant Park, where we see great Numbers of People of the first Quality walking in fine Weather: But what contributes most to the Riches and Glory of this Town is the Port, whither several thousand Ships of Burthen annually resort from all Countries; and where the greatest Fleets never fail to meet with wealthy Merchants, ready to take off the richest Cargoes.

The Number of People in the whole Town are computed at about one Million. In the City of London, properly so called, which is about 3 Miles in Circumference, there are 12 000 Houses. In the Parishes without the Walls, but within the Liberties, 36 320. In the Parishes which lie in Middlesex and Surrey, and are a Part of the Town, 46 300 Houses. And in the City and Liberties of Westminster, 28 330 Houses.

And as to the Number of Souls in each of these grand Divisions, if we multiply the Number of Houses in the City of London by eight and a half, we shall find there 102 000. By the same Rule, there will be found 308 720 in the sixteen Parishes without the Walls; 393 550 in the twenty Out Parishes of Middlesex and Surrey; and 240 805 in the City and Liberties of Westminster. All which, added together, make 1 045 075 People, in the whole Town. Which Calculation possibly may be something of the largest, but not much. London has scarce any Wall about it which is visible. It's Strength consists in the Number of it's Inhabitants, which are computed to be one seventh Part of all the People of England.

HAGUE, August 23.

THE Conferences at Brussels are suspended; the Austrian Commissaries have demanded the Revival of the Ostend Company, to which the

Maritime Powers are by no Means inclined; so that our Hopes of any Success in that Affair are in a great Measure lost.

Some Intelligence from Paris represent the Expectance of the Government as unusually high for many Months past; from whence they conjecture, that something of the last Importance must be on the Carpet; and are also inclined to believe, that it is on the Point of becoming public, broad Hints being given that Italy will be the Scene of Action.

Turin, August 14. The King, by Virtue of his Accession to the Treaty of Madrid, has obtained the Guaranty which his Majesty demanded in Respect to Sardinia. The King of the Two Sicilies has desired the King to make a solemn Renunciation of the Kingdom of Sicily, which had been given to the House of Savoy by former Treaties, which has been complied with.

Copenhagen, August 19. The King being desirous of giving the East India Company a fresh Mark of his Favour and Protection, has presented them with a Man of War of fifty Guns, worth 60 000 Crowns.

Hanover, August 25. The Earl of Hyndford arrived here Yesterday from Vienna, and repaired immediately to Herenhausen, where he was received by the King with great Distinction.

By the Accession of the Duke of Modena to the Treaty of Madrid, the Intent of that Treaty is entirely accomplish'd. If the Affairs which relate to the Empire have not been brought to the Point of Perfection, which all good Patriots wish they might, the King has however the Satisfaction of having determined, during his Stay in Germany, the grand Work of establishing Peace in Italy.

Baron Walmoden, Son of the Countess of Yarmouth, was married the 22d Instant to the third Daughter of Baron Steinbergen, Minister of State to this Electorate.

Lisbon, July 31. Several Men of War and Frigates are upon our Stocks, and will be finished with all imaginable Expedition; our old Regiments are also recruiting, and our Fortifications putting in proper Repair; in short, every Thing belonging to the State seems to carry a new Face since his Majesty's Accession to the Throne.

Petersburg, August 12. The Baron de Possie, new Envoy from the King of Sweden, having had his public Audience of the Empress and her Imperial Highnesses, has informed the Ministry, that he was charged to continue the Negotiation begun by his Predecessor, in order to give the finishing Stroke to the Affairs which remain undetermined between the two Courts. There is no Doubt but that this Negotiation will, in a short Time, be conducted to a happy Success through the Disposition which there appears to be in both Parties, to cooperate, as much as in them lies, to the Establishment of a good Understanding.

Lisbon, July 31. The three Men of War that convoyed the Fleet bound for Mozambique to a certain Distance, and afterwards went on a Cruise against the Corsairs of Barbary, are all returned into Port, without having met with any of those Pyrates. They continue, by the King's express Orders, to raise Recruits in the different Provinces of this Kingdom, in which, by the Lists that have been lately sent to Court, they have been very successful; and it is said, that after the old Regiments are all compleat, some new Ones are to be formed.

Rome, August 16. The Pope has sent pressing Orders to M. Durini, his Nuntio at the Court of France, to use his best Endeavours to reconcile the Differences that at present subsist between the Clergy and the Parliaments of that Kingdom. The Pope has consented to empower the Superiors of the Dominicans, Jesuits and Capuchins, who are employed in Missions to the East Indies, to administer the Sacrament of Confirmation, in Quality of Apostolical Vicars, which Power was heretofore confined only to Bishops.

Frankfort, August 31. The Protest of the E

lectors, of Cologne and Palatine against the Convocation of the Electoral Dyet, contains almost the same Motives as are set forth in the King of Prussia's Letter to the Elector of Mentz. In the Elector's Answer to this Protest, he declares, *That he is too strongly attached to the Support of the Laws and Constitutions of the Empire, to take any Step which should be contrary thereto: But that these same Laws and Constitutions, the Observance of which will be always sacred to him, authorize him to convoke the Electoral Dyet whenever he is required to do so by the Majority of the Electors: That therefore he is persuaded that in conforming to their Desire upon this Subject, he shall do nothing which may be a sufficient Foundation for a Protest, &c.*

Paris A la main, Sept. 4. Last Friday Mr. Moore, an Irishman, and the Baron de Starke, a German, proved, before the King at Chofly, a Mortar of their Invention, which was discharged more easily, and in much less Time than other Mortars; they discharged fifteen Bombs of 50 lb. in less than five Minutes, and the Bombs followed each other with such Velocity, that two of them were often seen in the Air at the same Time. His Majesty appeared well satisfied with this Invention.

Stockholm, August 4. The King has found Finland in a Condition surpassing his Expectations, and there is Room to hope, from the wise Regulations his Majesty has made towards improving it, that that Province will become one of the most flourishing Parts of this Monarchy. The good Circumstances of the Inhabitants of Abo, in particular, appeared by the elegant Manner in which they received the King: nor was his Majesty less pleased with the thriving Condition of the Academy in that City, which is owing to the Care taken by the Governor of the Province to keep up a Spirit of Emulation among the Members of the Academy, and to oblige all Parents who can afford it, to send their Children to be educated in it.

Hague, August 23. Our Advices from Berlin intimate, that the Imperial Minister is in singular Favour with his Prussian Majesty; and that a Report prevails, as if another foreign Minister had ventured to make Remonstrances on the Encouragement given to those who quitted his Master's Dominions; but that it was very far from being well received.

Murmurs are not totally ceased in Holland; but they are of such a Nature, as it is not easy to understand. The public spirited Plans, so heartily encouraged by the deceased Stadtholder, are in a manner wholly forgot, and, as far as can be judged from their Expences, certain Families have as high Incomes as ever, and are seemingly out of Pain.

Schaffhausen (in Switzerland), Aug. 20. Notwithstanding the rigorous Orders lately given by his most Christian Majesty, to hinder his Subjects of the Protestant Religion from going out of the Kingdom, great Numbers of them come to establish themselves in Switzerland, and elsewhere. 'Tis true, they run infinite Risques before they can reach the Frontiers; and the Soldiers, who continually patrole upon the high Road, have last Week stopp'd fourteen of these conscientious People in Franche Comte, who have been committed to the Prison of Bellay. Some Days before, twelve other Persons going from Grefivandan to Geneva, had likewise the Misfortune to be stopp'd in the Way, and carried to Grenoble, where they are closely confined 'till the Pleasure of the Court be known.

Paris, August 28. The King has ordered each of the four Physicians, who attended the Dauphin in his Illness, 4000 Livres. Madam de Pampadour will, on Wednesday next, cause a Firework to be play'd off at Bellevue, on the Side of Mendon, which will be seen six Leagues round. The Dauphin may see, from his Castle, this fine Sight exhibited in memory of his Recovery. If the Weather should favour the Execution of it, it will be a most magnificent Shew, and the Concourse of Spectators will be prodigious; half the People in Paris propose to go to see it.

They write from Bayonne, that upon the Receipt of the News of the Dauphin's Illness, the Jews there very singularly distinguish'd themselves, by immediately shutting up their Shops, appointing a Fast of 24 Hours, and offering up the most earnest Prayers for the Prince's Recovery.

Hague, September 7. The Scheme of our late generous Stadtholder for a free Port, is now given over, as in the last Meeting of the States it did not come upon the Carpet; besides the known Opposition of Zealands, there is scarce a Town in the other Provinces, which has not had a Flirt at it; even the studious Leyden, with which much Trade did not seem to compare, has opened against it. The City of Dort trembled for it's Wine Trade. The whole Province of Overijssel clamour'd, that the free Passage of the Silesia Linnens consigned to Spain, is of great Prejudice to the Manufacture of Zwoll; and there is more than enough to overthrow the best Intentions.

Genoa, August 10. The Members of the Government seem to have a great deal of Business upon their Hands, and 'tis pretended that most of their Conferences and Deliberations relate to the Affairs of Corsica, which are still in great Confusion. We are informed by Letters from Bassi, that the French Squadron which was sent to Tripoli, has since put into the Port of Ajaccio, where it actually lies, and does not seem to be in haste to return to Toulon.

Modena, August 14. The Duke, our Sovereign, being informed of the Accession of the Kings of Sardinia and the two Sicilies to the Treaty of Madrid, has resolved to accede to it likewise, on Condition that his Dominions be guaranteed in the same manner as is stipulated for the Territories of these two Princes, and the States of the Infant Duke of Parma.

Vienna, August 16. The Empress Queen has consented that the Protestants of the Upper Austria may remove out of that Province, pursuant to their Request, but upon Condition that they go and settle in Hungary; which Condition a great Number of them have accepted.

Paris, August 21. It is worthy to be noted, as an Example of conjugal Tenderness to Persons of all Ranks, that the Dauphiness, during the Illness of her august Consort, laid aside all Ceremonies, and regardless of her Dignity, performed the same Functions as the Nurses, wearing like them a Linnen Apron: And when the Distemper was at the most dangerous Crisis, being warned of the Risque she run by her Attendance, she heroically answer'd, "It is not about me that you ought to be uneasy; a Wife for a Dauphin may be had at any Time, but another Dauphin is not so easy to be found."

Dublin, August 4. On Saturday last the Corps of Sir PETER WARREN, which had been before embalm'd, and laid in a Lead Coffin, was put into another covered with black Velvet, finely adorned with Silver gilt Plates; his Arms, Supporters and Crest, and the following Inscription: *Sir PETER WARREN, Knight of the Bath, and Rear Admiral of the Red, died the 29th of July, 1752, aged 48, and afterwards deposited in a Vault under St. Mary's Church, till such Time as an Order for the Funeral shall come from London, whither his Nephew, Capt. Johnson, went Express for that Purpose.*

L O N D O N.

August 10. By Advices from Paris we find that the Court has resolved to enlarge the Harbour of Rochelle, and to defend the Entrance of it by some new Work: Upwards of 2000 Men have already set about it, and the Court has appropriated four Millions of Livres to this Work. They continue building Men of War in that Port with all possible Diligence, and were going to launch two new Ships of 70 Guns each. By the same Advices we learn, that the British and French Commissaries at Paris make no Progress in their Business, because the latter still demand Impossibilities; i. e. the Restoration of French Ships taken by the English during the Spanish War, before the Declaration of War between Great Britain and France.

Friday about Ninety Women of different Kinds and Ages, who have sold themselves for four Years to a Captain bound to Philadelphia, were carried from the Bolt and Tun, in Fleet Street, and put on board a Lighter at Black-friars, in order to be shipped for that Colony.

August 11. According to the freshest Advices from Rochelle, that Port is to be made spacious enough for a Fleet of 60 Men of War to ride in it: Besides the two Men of War of 70 Guns, before mentioned, they were going to launch six Frigates of a new Construction.

Yesterday about Noon, upwards of 70 Transports were conveyed from Newgate to Black-friars, and were put on board a close Lighter, in order to be shipped for his Majesty's Plantations in America.

August 11. The Master of a Vessel lately arrived at St. Malo from Martinico brings Advice, that a few Days before he sailed from that Island there had been a great Insurrection of the Negroes; but the Governor took his Measures so well, that the Mutiny was quelled before any considerable Mischief was done.

August 12. Letters by the last French Mail intimate, that the Provinces in the South of France are not a little distressed by the Want of Bread, and the Loss of many Thousand industrious Manufacturers, notwithstanding the Cordon of Troops posted in order to prevent it. They also insinuate, that by several Orders issued for the marching Forces on that Side, the Rumour that some Thousands of Protestants, rendered desperate through an endless Persecution, are assembled in the Neighbourhood of Montpellier, is not altogether without Foundation.

Aug. 27. They write from Italy, that though the Government at Genoa set as good a Face upon the Matter as they can, the Stay of the French Fleet at Ajaccio is very uneasy to them. The Presence is the Confusions at Tunis, where the French Minister has been ill treated, and the Necessity of observing how well the Treaty lately concluded with the Bashaw of Tripoli will be complied with. But it is reported these Strangers take Pains in viewing the several Ports in the Island, are exceedingly complaisant to the Natives, and express mighty Concern that so plentiful and well situate a Country should be so little improv'd.

Extract of a Letter from Gosport, Aug. 27.

"Tuesday Night we had a violent Storm of Wind, which blew very hard from the S. E. in which Storm his Majesty's Sloop Wasp was drove ashore, and was oblig'd to cut away her Masts to save the People, which was effected without losing a Man. Yesterday she sailed into the Harbour with Jury masts, to be refitted."

Aug. 29. They write from Cadiz, that from certain Circumstances they collect, the Court has not lost Sight of the Design against Algiers, which was only postponed 'til the Treaty was concluded for securing the Tranquility of Italy. Some very experienced Officers and Engineers have been invited from Malta, who are well acquainted with the Place, and with the Moors Manner of fortifying and fighting, and others who have had Opportunity of getting Intelligence on that Head are encouraged to give in Memorials, notwithstanding that it is thought nothing will be actually undertaken before next Summer.

September 1. They write from Stockholm, that in his Swedish Majesty's Tour into Finland, the Magistrate of Terneo told the King, they had nothing in their Country to make him any Amends for the Fatigues of coming to see them; but if his Majesty's Affairs required it, he would bring his Townsmen to Stockholm, there to hazard their Lives in his Majesty's Defence.

The following is an Account of the Vessels lost in Bristol Channel; viz. Napps and Jefferys foundered, but the Men saved.—Mary and Susannah, Gwinthens, lost.—Two Friends, Cunningham, lost, and all drowned.—Endeavour, Lany, stranded, but got off; all drowned but the Captain.—Lilly, —, with Tobacco, lost, two Men drowned.—Friendship, Wilcox, lost, the Men saved.—Two Vessels with Grocery lost, all the Men saved.—A Vessel with Coals, bound from Wales to Penzance, lost.—Satisfaction, Hammit, foundered, the Men saved.—A Brig, Webber, and a Sloop, Staverly, lost.—Seven or eight other Coasters are missing, and supposed to have foundered.—The Bland, English, from London to North Shields and New-England, is lost at North Shields.—And a Snow, Name unknown, from Carolina to Leith, is lost to the Northward of Shields.—The Judith, Robinson, from Lynn to London, with Corn, is lost, but the People saved.

Yesterday it was reported, that a Vessel bound for America, with indentur'd Servants on board, was lost off the Lizard, and that all the People on board perish'd.

By some Advices from Spain we hear, that the Court being intent on encouraging the Manufactory of Printed Linnens, lately set up in that Kingdom, has forbid the Importation of all foreign Manufactures of this Kind in the Port of Alicante. They likewise tell us, that the said Court, to prove how desirous it is to keep up a good Understanding with Great-Britain, has sent Orders to his most Catholic Majesty's Governors in America, to pay in Money the Value of the Captures which shall be proved to have been illegally made. We also hear, that the Spanish Ministry have lately sent over a Memorial to the Regency here, relative to divers Privileges which they pretend his Catholic Majesty's Subjects are intitled to in the Ports of England; and that the said Memorial has been since sent to Hanover, for further Consideration.

September 14. The last Amsterdam Gazette tells us, that the Reports of the French Enterprizes in the East Indies are groundless; That they have committed no Hostilities against our Settlements, neither at Surat nor Tellicheerry: That the Trouble our Company had, was with the Natives of the Country, who endeavoured to expel the English from those two Places; but after some smart Skirmishes, they abandoned the Enterprize, and Tranquility was immediately restored. The same Gazette likewise informs us, that there is no more to be said about the Conferences at Paris between our Commissaries and the French, the Demands made by the latter having entirely suspended them.

The Lords of the Admiralty have been pleased to order two Men of War of forty Guns, and one of twenty, to be got ready for the Sea with all Expedition.

Sept. 25. Amongst other Strokes of Satire levelled against the too zealous Clergy in France, one is a *Print*, in the Front of which is a Representation of St. Peter, labouring to pacify some episcopal Shepherds, who with their Crooks, force the Sheep to beat their Heads one against another, with this Sentence coming out of his Mouth, *Brethren the Command to me was, Feed the Flock, not make them Fight!* At a Distance there are a small Number of religious Persons, their Eyes fixed on the Ground, and with one Hand on their Breasts, on which is inscribed, *Have Mercy on us Sinners!* Against them march a Body of Priests with Swords drawn, and behind them a Corps of Jesuits, drawing a Train of Spiritual Artillery. Beyond these a large Church in Ruins, with this Inscription on a Corner Stone, *A House divided against itself cannot stand.* In one Corner stands several Prelates looking upwards with this Label formed from their Mouths, *Let Fire come down from Heaven and consume them!* Above is a Lamb reposed on a Cross, from whence these Words seem to be let fall, *Ye know not of what Spirit ye are.* This *Print* is not publicly sold; but as yet it has not been censured.

Sept. 27. They write from Montgomery, that a Tradesman of that Place had lately absconded, through a Dread of being brought to Justice for poisoning his Servant Maid. The Man had had too familiar Conversation with her, and she let him know she was with Child by him; which made him uneasy, for fear it should come to the Knowledge of his Wife; to prevent which he consulted with two idle Fellows of the Town, and they procured him an Herb, which they said would cause an Abortion. He administer'd the Dose, but it proved ineffectual. He then applied to a Person whose Reputation in Physic was more famed; from him he got a Potion which did it effectually; for the Girl wanting but two Months of her Time, the Morning after she had taken it, went to milk the Cows, and was seized so violently that she could not return: She found Means of acquainting her Master with it, he fetched her, but she was not brought home many Hours before she died. The Girl was buried without any, or but little Suspicion; but the Master could not rest satisfied, told his Wife of it, and of the whole Proceedings, and endeavoured to destroy himself, but she prevented him; he then absented himself: When the Wife found he had left her, she declared the Reason of it to the World, and discovered the Persons concern'd with her Husband in the Crime; they were apprehended and committed to Prison: The Body was taken up out of the Grave and examined by a skilful Surgeon, and it appeared that she had been poisoned, which the Man who made it up has confessed to be yellow Arsenic, mixt with some other Ingredient.

CHARLES-TOWN, in South Carolina.

October 16. Since our last, the Sloop Industry, Capt. Davis, of and for Rhode Island, and four Schooners, that were put ashore in the Hurricane, on the 15th of September last, have been got off. The Vessels of Captains Mills and Colcock, that put into Edisto; and of Captains Boyd and Harvie, that put into Georgia, are arrived here.

On Thursday last arrived here, the Sloop Sarah and Anne, Capt. Nicholson, from Barbadoes; who lost his Bow-sprit, and received some other Damage, in the Hurricane on the 30th of September.

October 23. Since our last, the Sloop Susannah, Amos Minot, and six Schooners, that were put ashore in the Hurricane of the 15th ult. have been got off.

October 30. His Majesty's Ship Mermaid, commanded by Capt. Holwell, the Snow Charming Nancy, of Hull, Capt. Charles Cookson, the Brig Peggy and Betsy, of Bristol, Capt. October 30. Monday last two Men (Brothers) named John and Jonathan Webber, were convicted of uttering counterfeit Dollars, several of which were found upon them, and a Cake or Lump of the Metal of which they are supposed to be made, was found on board a Sloop to which they belonged. The Metal they are made of, is like hard Pewter, or Block Tin, and, with some Strain, will bend. They are but clumsily done, the Stamp being thick and obscure, the Decoration round the Edge very uneven and irregular, and are less in Weight than the true Dollars. These Brethren in Iniquity (tis said) belong to Wells in the County of York; and had been here but a few Days before they were detected. They are now confined in the Prison in this Town.

The same Day a young Man at the North End of this Town, rose as well as usual, but was soon after suddenly seized, and died presently: His tender Mother, seeing her Son's Distress and Danger, fell into Fits, and died an Hour or two after.

Thursday last, the Gentlemen commissioned by his Honour the Lieutenant Governor, to treat with the Eastern Indians at St. George's Fort, returned hither in the Country Sloop; and we hear, that after a free and open Conference of three Days, the Ratification of the former Treaties of Peace and Friendship was finished and signed by both Parties. There were present about 130 Indians, Men, Women and Children, who all behaved in a very peaceable and friendly Manner, and about 30 of their head Men signed the Treaty.

Extract of a Letter from London, dated August 1.
"The Harvest all over Europe is so great, that there is like to be little or no Export of Corn this Year; and of Course no Freights stirring for Lisbon, or indeed any where else."

N E W - Y O R K.

November 6. By Capt. Coon in 7 Weeks from Lisbon, we have Advice, that a few Days before he sailed, a Vessel arrived there from the Streights, the Master of which informed him, That on the 7th of July last, two Barbary Corsairs of 40 Guns each, were brought into the Island of Malta, by the Maltese Fleet; and that they had, after an Engagement of three Days, burnt and sunk four others of inferior Force: That they had certain Account at Lisbon, that the French had actually declared War against the Algerines; that upwards of 30 Sail of Vessels were arrived there from the Streights, with Corn; that a fine new 50 Gun Ship, built after the English Model, was launched during his Stay there, and that two others of the same Force, were then on the Stocks, and for warding with all possible Expedition.

November 13. Capt. Herring from Providence in 21 Days, informs us, That on the 23d of September last, they had a violent Gale of Wind at Crooked Island, which obliged all the Providence Wood Cutters then there, either to run ashore or cut away their Masts; that Geese, Ducks, Turkeys, Hogs, Sheep, Shingles, and the Pump of a Vessel of 9 Feet Hold, with the Main Mast of a Schooner, were found upon that Island, but no Vessel nor People to be seen: That two Ships were full upon the Hogsties; at which Place, a Sloop belonging to Capt. Adams, of Bermuda, was, with her Cargo and two Men lost; the Captain and the rest of the Crew arrived at Providence the 6th ult.

December 4. By a Letter from Bermuda, we learn, that four Negroes and a White Man, are committed to Goal there, on Suspicion of their carrying on a Plot to destroy all the Whites on that Island.

We are credibly informed, that a Spanish Gal- leon, with several Chests of Money on board, is put into New London, in-Distress.

MARYLAND GAZETTE,

Containing the freshest Advices foreign and domestic.

THURSDAY, December 28, 1752.

From a Not very late English Paper.

OF HEALTH, TEMPERANCE, and SOBRIETY.

IN an Age of Luxury, Aphorisms against Voluptuousness may have little Effect; however, Observations on Human Nature, and the Force of Custom in a miscellaneous Manner, may be thought amusing even by those who may never follow the Prescriptions.

Doctor Arbuthnot and Doctor Cheyne have learnedly wrote on the Nature of Ailments, but I believe have made no Reformation in Epicurism. The People of England pay little Regard to any new Doctrine which abolishes an old Custom; many would think their Liberties in Danger, did they not possess the Freedom to eat and drink as they had a Mind.

A learned Foreigner observ'd humourously to an Englishman, *Vita vestra est infar Comedia: Your Life is like a Comedy, where the whole Business and Plot is Eating: Breakfast is the Prologue, Dinner the Interlude, and Supper the Epilogue: You reverse this Rule of Cato, — Eat to live, not live to eat.*

'Tis too true that we generally, in this Island, pass the Bounds of Nature, and fall out into Superfluities; and that there is as much Luxury and Ambition at our Tables, as in any other Article of Living.

Had Pluto liv'd in our Age he would have been more surpris'd in Great Britain than he was in Sicily: When that Philosopher return'd to Athens from his Travels, he was ask'd, *What he saw remarkable in Sicily?* he reply'd, *I saw a Monster in Nature, a Man who eat two Meals in one Day!* — And yet he had only seen Dionysius Dine and Sup.

Temperance augments Things that are pleasant; not has the greatest Epicure that Gout over his artful Delicacies, which Nature gives to the homely Diet of the Plowman.

Health is the Consequence of Temperance, and they are most happy in their Health, who eat for Hunger and drink for Thirst: Human Nature is contented with a little; Custom has introduced Excess.

The Order of Living is inverted from what Nature intended it. Pope Sixtus, before he was in the Papal Chair, liv'd on Bread and Water; and with Pleasure said,

Panis Es. Aqua Et est Vita beata!

But as soon as Infallibility was invest'd in him, he chang'd his Motto, and it is now,

Aqua Et Panis.

Est Vita Camis.

The Italians have a Proverb, which they look on as a better Prescription than any in Hippocrates,

Mangiera pin Chidmanis Mangia.

He that will eat much, let him eat little.

A Priest is said to be Author of it, who liv'd to 186 Years of Age, and had this Epitaph.

Hic jacet Edentulus, Canis atq; Decanus

Rursus dicitur Nigris et hic Requiescit.

Which, for the Pun, will not bear a Translation; but instead of it, take the following Inscription over the Tomb of a Cornish Beggar.

Here Bravon, the common Beggar, lies,

Who counted by his Tale,

Some Six Score Winters, and above,

Such Picture is in Ale.

Alc was his Meat, his Drink, his Cloth,

His Physic too beside,

And could he still have drank his Ale,

Then sure he had not died.

Tho' I am tenacious of my System, that Health is maintain'd by a temperate Regimen, yet I cannot resist the Temptation of relating a Story which is somewhat contradictory to it.

In a Cause before Lord Chief Justice Hale, two Farmers disput'd about an old Way over one of their Grounds: To prove their had been no Way formerly, a very old Man was call'd, who, notwithstanding his great Age, appear'd strong and

healthy. My Lord, on hearing him say he remember'd the Grounds Four Score and Six Years, ask'd him how old he was? *Ninety Six*, reply'd the Countryman: — *Ninety Six!* cries my Lord, in Admiration, and so strong and lusty! — *Pray, Friend, how have you liv'd?* — *Why, please you my Lord, says the old Man, I have liv'd on our Country Fare, chiefly on Bread, Butter, Milk, Eggs, and such Sort: I was never much a Flesh eater, and never drank any Thing strong in my Life; no, not so much as Ale: I never was overtaken in Liquor in all my Days, and was never sick in my Life.* The Judge surpris'd at the Account, address'd himself to the Gentlemen at the Bar, and greatly commended for rare an Example of Temperance, and set forth what Blessings of Health and long Life attended it.

When the Witnesses on the other Side came to be examined, an old Man swore, that "there had been an ancient Way over the Grounds, and that he remember'd it Ninety Eight Years ago." — *Ninety Eight!* says my Lord, *Why how old are you?* — *Come next Shrove Tide,* replies the Man, briskly, *I shall enter on my "Hundred and Sixteenth Year."* — *Bless me!* says my Lord, *you seem as healthy and vigorous as the other Witness. You see, Gentlemen, the Effects of Temperance. These Men have never debauch'd or debilitated Nature. — You, old Father, have liv'd such another Sort of a Life as your Neighbour there.* — *Not I indeed,* replies the old Man, laughing. *No, no, he is a Milkop; but I love good strong Ale, and have lov'd it from my Cradle; I have drank freely all my Life; no Man more so in the whole Parish; and I have not gone to Bed this many and many a Year, without being happy: 'Tis good strong Drink, my Lord, that has given me a strong old Age.* — *Nay then, Gentlemen,* says my Lord, *I find 'tis all one, drink or drink not; and all my Encomiums on Temperance may be lost upon you.*

LONDON, July 30.

LAST Week one Mr. Cameron arrived in Town from Air in Scotland, a Man of 105 Years of Age, being born in the Year 1647, at the Town of Air. He came up here to put an End to a Law Suit, which has been long in Agitation. Such is his Vigour and bodily Strength, that even now he can walk four Miles upon a Stretch in little more than an Hour's Time. He was engaged with the Duke of Monmouth, in his Rebellion against James the Second. He afterwards served as a Volunteer in the Cameronian Regiment, which was composed of covenanted Presbyterians, and fought against Lord Dundee at the Time of the Revolution, when that Nobleman risk'd a Battle for the abdicated Monarch, and in this Engagement he killed four Troopers with his own Hand. [As he was a Soldier, it is more than probable that he was not a Milkop, as was said of the first Evidence in the foregoing Story.]

August 8. Thursday three Boys, one 17, another 12, and another 10 Years of Age, with two Girls, were brought before Thomas Smith, Esq; as disorderly Persons; when upon Examination, it appeared, that one of the Girls had been common to all the Boys, and that the other had been common with two of them. The Justice committed the Girls to hard Labour in Bridewell; two of the Boys he committed to be kept separate 'til their Friends could come and take proper Care of them; and the third Boy of ten Years old, being a Parish School Boy, he sent to School, to receive suitable Correction from his Master. [These two Girls will never live to the Age of Mr. Cameron.]

Extract of a Letter from Harwich, dated September 30.

"Among other Losses sustained at Sea by the late high Winds, that of a Sunderland Collier was attended with the following Circumstance: She was wreck'd on the Bayward Sands, off the Coast of Zealand; and the Crew consisting of ten Men,

and the Captain, all perished but one, who was providentially taken up by the Dolphin Packet, Capt. Cockerel, and brought ashore here a few Days ago. This poor Wretch had floated on a Piece of the Wreck from Seven o'Clock on Wednesday Morning, 'til Ten the Saturday Morning following. He had got upon it with two more; one of whom was soon washed off, and the other was found dead by his Side at the Time he was taken up. When the Captain descried the Wreck, it was a great Way off; and not knowing what to make of it, he had once resolv'd not to delay his Passage by looking after it; 'til by the Help of a Glass, he thought he had discern'd something alive upon it, and then ordered the Boat out to see what it was. The poor Man had lost his Senses; so that when they came up to him with the Boat, he struck at them, saying, 'What did they mean to molest him in his own Cobble; that he knew where he was, that he was off Scarborough, about his own Business, and would not be forced aboard any other than a King's Ship.' They told him they were a King's Tender, and were come to press him. Nay then, he said he must go; and called out to the other, come Jack, awake, 'tis a King's Ship, there is no Help for it, and we must go aboard. It was some Time before he was brought to his right Mind, when he related the Particulars of the Wreck, and added withal, that on Thursday in the Evening, he was within Hearing of a Dutch Merchant, but could not by Shouts or Signs, make known to them his Distress. During the Time he was upon the Wreck, which was 3 Days and Nights he was near drowning by the Waves dashing over him, and the last he remembers was, a Resolution he took to lie down and surrender himself to the Mercy of the Sea. He has had a good deal of Money collected for him in the Town, and was Yesterday taken on board a Vessel bound for Sunderland, to carry home the melancholy News of this Disaster."

St. JOHN N's, (Antigua November 3.

On Tuesday last came on, before a Court of Admiralty, of which the Honourable Andrew Lelsly, Esq; was President, the Trial of Francis Pye, late Mate, Richard Paddy, late Carpenter, and Robert Crockfort, Mariner, lately belonging to the Snow Joronomy, George Saunders, Master, for Piracy, &c. when, after a Hearing of about 5 Hours, the Evidence being summ'd up, Robert Crockfort was acquitted, and Francis Pye and Richard Paddy, were convicted of the Crimes laid to their Charge, and, according to the Decree of the said Court, are to be hung on Gibbets. Saturday the eleventh Instant is appointed for their Execution. As no Account of the Proceedings which brought on these two Men's deserv'd Sentence of Death, has yet been inserted in this Paper, we hope the following One will suffice. According to the Depositions of the Evidences, taken in the above Court, the Snow Joronomy sail'd from Bristol some Time in December, 1751, under the Command of Capt. Daniel Ward, bound for the Coast of Africa. After their Arrival at Whiteman's Bay, the Captain sickn'd, and died ashore. The second Mate soon died also. Mr. George Saunders, the first Mate had then succeeded to the Command of the Vessel. After being some Time in the Bay, they met with very bad Weather, and hard Gales of Wind, wherein they lost all their Anchors and Cables, which obliged them to put out, and stand off and on for a Day or two. About the fifth or sixth of July following, they met with the Ship Juba, Capt. Smith, from Bristol, off Cape Mount, who promised the Snow some Supplies, which she wanted, and desir'd her to follow him to Anamabos; on which Capt. Saunders, then ill, order'd Pye, whom he had advanced to be his Mate, to follow the Juba, which he obeyed 'til the next Night about Nine o'Clock, when he asked one of the Men if he would join him and go off the Coast (purposing to go to one of the Windward Islands, recruit and pay themselves their Wages; but were forced to make this Island) telling him he need not fear, for all who refused to

accompany them should go overboard. About the same Time, a Proposal was made to poison the Captain, by putting some Ingredients for that Purpose into his Water Gruel, upon which one of the disaffected Men, who had some Knowledge of physical Compositions, ran down to the Surgeon's Chest, rummaged it, and at length found a Bottle of Aqua Fortis, when he cried out, Here it is, this will do the Business; but the Execution of this execrable Design was defeated, by the Boatwain's throwing that destroying Liquid overboard. Then Pye, with a Pot of Brandy, drank down to the Captain, which was heartily pledged by Paddy, but with Reluctance and through Fear by the rest. Capt. Saunders growing well, came upon Deck, but made no Attempt to recover the Command of the Vessel, but calmly submitted to the Insults of Pye, through his Means faring, in all Respects, like a foremast Man; while he and Paddy insolently and rebelliously assumed to themselves his Province and Provisions. Some Time after they being in want of Necessaries, bore away for this Island, where they arrived the 6th of October, N. S. and coming off English Harbour, they fired several Guns, as Signals of Distress, which brought Boats to their Assistance: On the People's coming on board, Capt. Saunders preferred his Complaint against the above mentioned Men, who were secured in Irons, and after the Snow's anchoring in Falmouth Harbour, conveyed on board his Majesty's Ship Advice, then lying at English Harbour, in order for their Appearance at the Bar.—Soon after the Snow's Arrival, the Produce of Part of her Cargo (being about sixty or seventy Slaves) and what remain'd, was sold for the Benefit of her Owners or Insurers; who, 'tis said, will be great Losers.

ANNAPOLIS.

Four Days ago, about Noon, there happened a very tragical and melancholy Accident at Mr. Lawson's Iron Works in Baltimore County: Several of his Daughters, with Others, being on the Furnace Pond near his Dwelling House, the Ice broke under them, by which Means, one Man whose Name was James Byus, and four young Women, were drowned, three of whom were Mr. Lawson's Daughters, (his Eldest, his Third, and his Fourth), and the other, Miss Elizabeth Read of this Place, who was then there on a Visit: And several Others broke in and very narrowly escaped drowning. The dead Bodies were all taken up about two Hours after. The sudden and immature Death of so many amiable, virtuous, and well accomplish'd young Ladies, gives the utmost Concern to all their Acquaintance.

His Honour our President, has been pleas'd, at the Request of many of the principal Inhabitants of Kent County, to grant a Pardon to Peter Ball, who was lately condemn'd for the Murder of his Negro Boy.

A Dead Warrant is gone to Cecil County, for the Execution of a Man lately condemn'd there at a Special Court, for Burglary.

Last Monday, being Christmas Day, some People having got pretty merry at the House of Joseph Crouch on the North Side of Severn, his Son very imprudently attempting to fire a Gun between his Father's Legs, shatter'd the Bone of one of them with the Wad in a terrible Manner, so that 'tis thought he cannot recover.

Calvert County, December 11, 1752.

TAKEN up about the 20th of November last, in the Bay, at Cove-Point, near the Mouth of Patuxent River, a Schooner of the following Dimensions; viz. about 30 Feet by the Keel, 14 by the Beam, and 5 and a half in the Hold; she has been raised two Feet, has a sheathed Roundhouse which has been painted red, her Mast and Bowsprit carried off close by the Board, and her Sails and Rigging entirely gone. There was found on board her one small Chest, in which was a Pair of black Cloth Breeches, an old Ruffled Shirt, a Pair of coarse Yarn Stockings, a new Pair of Mens Shoes, a Pair of Osnabrigs Trowsers, a Waistcoat, and some small Lumber; there was also on board one Lopping Axe, one broken Cutlafs and Pistol, one small Iron Spit, a Barrel, and an empty Tub, some wooden Bowls, and a small Speaking Trumpet.

The Owner, on proving his Property, paying Salvage, and the Charge of this Advertisement, may have her again, by applying to

John Clare.

Annapolis, December 28, 1752.

LAST Summer was put on board the Ship *Patience*, Capt. Hugh Steel, then lying at Rotterdam, by a German unknown, who proposed to come Passenger to this Place with the said Steel, an Iron bound Chest, two Feet ten Inches long, fifteen Inches broad, and two Feet deep, with two comical Padlocks; which Chest is brought hither, and deposited with the Printer of this Paper. Now this is to give Notice, that if the Owner will apply for it, he may have it, on paying the Freight, and the Charge of this Advertisement.

N. B. The German who put the said Chest on board Capt. Steel, went over to England, but did not return to Rotterdam before Capt. Steel failed; but we hear he came since into this Province with Capt. Etberington.

If the Chest be not demanded before the first of January, 1754, it will be sold to pay the Charges.
