POST OFFICE AT SALISBURY, MD. November 21st, 1887.

1887. A newspaper published at this place, has been determined by the Third Assistant Postmaster General to be a publication entitled to admission in the mails at the special rate of postage, and entry of it as such is accordingly made upon the books of this office.

SATURDAY, DEC. 3, 1887.

Senator Gorman, and Chairman Archer of the State Central Committee, with other leading Democrats of the State are pressing the claims of Baltimore for the next National Convention.

The Maryland State election became to a certain extent the turning point in the National election of 1888, and Baltimore City Mayorality was an important "pointer" in that direction.

It has been little extravagant to say that before that election, "as goes Baltimore City, so goes the Union," but it is a well known fact that the whole Country was intimately interested in that election, for it was regarded as deciding the gubernatorial election.

To have lost Baltimore, was to have lost Maryland, to have lost Maryland was to have broken "the solid South," and we may pretty safely conclude that to have lost the solid South, was to have lost the Presidential election to the Democratic party.

If hard work and a well earned victory entitled to reward, then Baltimore should have the next National Convention: Baltimore has become historic as a centre of National Conventions, and many of the traditions of old time democracy cluster around it yet, by all means the next National Convention should be held at Baltimore.

The County Commissioners last Tuesday took the oath of office and entered on the discharge of their duties.

Mr. Randolph Humphreys was made President and Mr. D. J. Holloway was reappointed as clerk and treasurer.

This is a wise selection. Mr. Holloway has made an efficient officer, and his reappointment is a reward of merit and in the line of civil service.

It is not our purpose to read to the Commissioners a lecture, but as sensible men and public officers they will at once concede the right of every citizen to make suggestions, and to criticize their public acts.

The County Commissioner's office is one requiring business capacity and financial ability. They should not be content with transacting the mere routine work at their meeting, but should familiarize themselves in the first place with the accounts and records of the office and should see that all moneys go "where it will do the most good" to the people.

They are in some senses the owners of all the property in the county and the only limitation to their power of taxation is that of the public need.

"They shall levy all needed taxes on the assessable property of the county liable to taxation," says the statute. They have under their control in this county nearly \$4,000,000 of property liable to taxation, and on this they can levy any amount of needed taxes. This will at once be recognized as an important trust. The right of taxation is a high prerogative, and inherent in the sovereign power of the state as a public necessity. It is ranked among the rights of taking private property without the owners consent, because it is for public wants. Taxes are levied without the property owner's consent and if he fails to pay, his property is sold without his consent by summary process. There is a notion entertained by some that public money is a subject for public plunder, and that the administrators of these funds should be unusually liberal. But when we recognize the source whence this money comes, and that taxation is a burden bearing on poor and rich alike, there is no more sacred trust than that of taxation and expenditure of public moneys.

The annual levy for county expenses averages \$350,000, to be paid out in sums ranging from 25c into the thousands of dollars. There is sometimes a disposition to scrutinize and scale the large accounts, and to pass the smaller ones; but when it is recollected that, probably \$8000 or \$10,000 of these expenses are the aggregate of many small items, few of which exceed \$50, we have a clear illustration of the Scotch proverb "Many a mickle makes a muckle." There ought to be nothing niggardly or parsimonious in the administration of public affairs, but everything should be done in keeping with the spirit of the times and the demand and convenience of society and on strict business principles.

The people do not object to paying all needed taxes. "Value received" is the leading principle by which they want their money expended in both public and private affairs. If the public need a new county road let it be made, and what is more important, let the roads be kept in good and safe condition when opened. There is nothing for which the people are more ready to pay taxes than for good roads, and there are few things more attractive to strangers than good roads that enhance the value of lands more than they. No new road should be opened until it is a thoroughly safe condition. We suggest that the county commissioners supervise the road openings help them when help is needed, and hold them to a strict accountability for their duties. Have them meet with the Board and give an account of their work and methods, and counsel them as to their work.

TRUSTEE'S RE-SALE OF LAND.

By virtue of an order of the Circuit Court for Wicomico County, Md., passed on February 14th, 1887, in No. 313 Equity in said County, as Trustee, I will sell at public auction at the Court House door in Salisbury, on

2. That tract of land called "Hay Point Land" lying in same district and in Wicomico Neck, and on Quantico Creek, and containing 100 acres, more or less.

TERMS OF SALE: As prescribed by decree or order of sale, the terms are "Cash," but further time will be given by the Trustee, if desired, on paying \$500 cash, and the balance to be secured by bonds of the purchasers, with security or securities, and bearing interest.

COMMUNICATED.

The first of a series of popular temperance meetings—instituted by the Woman's Christian Temperance Union of this place—was held in the Presbyterian Church Wednesday evening. Mrs. Martin presided. The crusade Psalm was read by Mrs. J. W. Frayser, and was offered by Rev. Eckels. Addresses were made by Rev. Martindale and Dr. Charles Billingsley, of Westminster, Md. The doctor paid a beautiful tribute to the work of woman in the Temperance Reform. The audience was composed in considerable part of the young men and mechanics of the town. The good people of our churches were not largely represented—but it is hoped, they will soon manifest this sympathy with this good cause.

Another Sunday Fire. Cleveland and Salisbury Sunday fires are becoming proverbial. Last Saturday night, shortly after the various clocks in town had struck twelve, fire broke out in one of F. C. Todd's tenement houses on "Calumet" street. The alarm was given, and the sleeping inhabitants awoke of their chambers and joined the fireman's force. At first it was feared that the flames would spread to other tenement dwellings which stood thickly on either side of the burning building; but the efforts of the firemen, coupled with the assistance of the citizens, soon subdued the destructive element, and only the one house was burned. The house was valued at \$450, and Mr. Todd held an insurance policy in the Western of Toronto, for \$250. The cause of the fire is supposed to have been a defective fuse.

Palatial Accident.

Capt. Edward Goolee, an aged citizen of Salisbury, had his left arm crushed just above the wrist, last Friday, by Col. Geo. W. Parsons' pile driver. Col. Parsons was then removing the cargo from the site of the new Government building, which was sunk recently in the Wisconsin river of Green Hill wharf, but at the time of the accident the pile driver was at B. F. Davis's wharf, driving a pile. Capt. Goolee, who was employed by the owner of the driver to help operate her, was sitting on the end of the pile, and the beam upon which to rest the hammer. The hammer, which had been suspended above was accidentally let drop, and Capt. Goolee's arm happened to be resting on the beam, was crushed by the descending mallet. He was driven to Salisbury, Md., by the ambulance of Dr. S. P. Denkle, and the injured member was taken to the home of his wife, where he still gives much trouble, but he is doing as well as possible under the circumstances.

Death of John Ware Doughtery.

Died at the residence of his sister, Mrs. Albert E. Acworth near B. C. Springs on Saturday, Nov. 20th, at noon, after a long and lingering illness, John Ware Doughtery, Esq., of Baltimore City, but formerly of this county, in the 62nd, year of his age, leaving six children, three sons, and four sons to lament their loss. His wife, two daughters, and a son were present at his death. He was an affectionate husband, indulgent father, and true friend. Mr. Doughtery's social and kindly character had given him many of his admirers, from whose sympathy and part had given to him many offices of honor and respectability. Member of the Legislature in 1853, Postmaster at White Haven; School Examiner of the Wisconsin county; Deputy Clerk of the Circuit Court; Clerk in the office of the Chesapeake & Ohio Canal Company, and for three years Assistant Weigher of Grain in Baltimore City, from which he had retired in 1856 on account of impaired health. In all these positions he showed marked intellect, and proved that his friends had not been deceived as to his merits and their estimate of them. Mr. Doughtery was twice married, his wives being daughters of the late George Rial of this county. His remains were deposited in Tyaskin churchyard on Monday morning, where rest of his first wife, father, mother, and four sons, with the remains of the Protestant Episcopal Church, Rev. Mr. Sweet officiating. Baltimore papers please copy.

Shot the Bull.

Gustavus W. Horseman, a young and respectable citizen living in the Third district, this county, was accidentally shot by his friend, Wm. Bradley, last Thursday night. Mr. Bradley, who is also a young man and unmarried, lives alone.

On the evening on which the accident occurred Mr. Horseman went over to spend the night with his relatives, and during the evening Bradley took from a drawer a revolver with which he began amusing himself. Presently he pointed it at Horseman and laughingly said, "look out, I am going to shoot you." Horseman, who had a bull on his neck threw up his head and retorted, "I'll shoot the bull." Imagine Bradley's horror, when on pulling the trigger the room filled with smoke which was quickly followed by a sharp report; his friend threw up his hands and staggering, fell at the feet of the terror-stricken Bradley, who called for help. The wounded man was placed upon a bed and examined. Strangely enough, the ball struck the identical bull which Horseman had jokingly directed his friend to "shoot." The ball passed under the skin and ran around to the other side of the neck and disappeared. Dr. Denkle, to whom the young man was brought, for surgical treatment, probed for the ball but could not find it. The young man will recover. The pistol which took such an ugly part in the affair had been previously loaded without its owner's knowledge.

County Commissioners.

The old Board of county commissioners was in session Tuesday for the last time, and transacted the following business: The Treasurer was ordered to pay Wm. H. Knowles and W. T. Taylor ten dollars each, for damages to land in 10th district by road crossing it.

Mr. Taylor reported that he had inclosed the road in 10th district built by Isaac K. Phillips, amount for same, \$34, Edward Hickman was granted pension of \$1.50 per month; order to E. H. Parsons.

E. P. Bonds was given order on D. W. Purdie, col. for 1887, for work done on Middleneck bridge; amount \$400.

Bond of Thos. J. Williams for keeping White Haven ferry for 1888, filed and approved; also bond of W. T. Evans for keeping Welpquin ferry for 1888.

Account of Wm. W. Anderson passed, and order, amounting to \$58.15, given on D. W. Purdie, col. for 1887, for work done on Welpquin ferry wharf.

The Treasurer was ordered to pay Elizabeth A. Phillips, \$6.00, amount awarded her for damages done by new road crossing her land.

Mr. Phillips reported that the new road built by A. W. Parker, and crossing conditionally, had been completed; and the money for the work was ordered to be paid Mr. Parker.

The Board agreed to allow Mr. R. E. Powell to set his fence out to the road as now laid out opposite to the lot, known as the Powell lot, on Middleneck road, without compensation to the county for the strip of land lying between the line of said lot and the road.

After passing a resolution thanking the president of the Board, State A. B. Torrey and Clerk, for their kind and liberal attention to business during their visit of office, the old Board in usual order.

of the affairs of the county into the hands of the newly-elected officers and themselves, and the following names were chosen: The new Board made its debut by electing Mr. Randolph Humphreys president, and B. J. Holloway clerk, an excellent beginning. In the sub-division of the county, Mr. Cooper was given supervision of 2nd and 10th Districts; Mr. Deahell 2nd and 8th; Mr. Holloway 4th and 6th; Mr. Humphreys 5th and 7th; Mr. Mack 7th and 9th.

R. J. Darby, Geo. W. Venables, and Thos. L. R. Culver were appointed supervisors of public roads in 2nd district; Mr. Holloway, of the Board, was directed to have the road near Mr. Wm. Adkins' ditch, and improved. Mr. Humphreys was authorized to have Camden bridge repaired.

Adjourned to meet Dec. 13th, 1887.

[CONTINUED.]

Now that the railroad question has been decided, at least as far as the assistance of the county goes, we have only to wait the issue of the connection, to determine exactly when and where the road will be run. Whether we get the road or not, there is a growing necessity for more prolific crops in many parts of this county, especially the western part.

The lands are very much in need of better utility, the production being far below the capabilities of the land and inadequate to the needs of the owners and inhabitants. The cultivation of such products as the land is best adapted to is very primitive, and the growth of the art is not as fast as the demands of the people require. The soil is susceptible of improvement, and the people are industrious, economical and intelligent; but there are few of them who realize the valuable resources at their command. The natural fertility of the land is excellent: Why better results are not obtained, may be seen in a measure, attributed to the attention given in years back to labor that gave little incite to the cultivation of the soil. In, and early after the war, this section was thickly set in timber, and the high prices at that time turned attention to putting it into a market. The demands are now for other methods of employment. But few are beginning to realize what the soil is capable of producing. Here and there you may see a farmer engaging in trucking and fruit-growing, and is endeavoring to cultivate the land more thoroughly, on this, we have no experiment. There is a lack of tact and adaptation to the work. The higher cultivation of the soil is incipient and the interest in farming and trucking is not equal to the demands. Circumstances demand greater attention to the cultivation of the soil. The most effective way, we presume, is to introduce the farmer of experience labor. The immigration of men who have been brought up in and educated to the cultivation of fruit, berries, &c., which our soil will readily and profitably grow, if properly cultivated. The proper application of the means will certainly produce the needed result. Let the people divest themselves of the old modes and habits and turn their attention to the cultivation of the soil by new and improved methods and they will soon be classed as a progressive and independent people.

Constant dropping will wear away a stone, and constant blundering will ruin a man. To guard against such misfortunes as these, trade with men like R. E. Powell & Co., dealers in Clothing, Boots, Shoes, Furniture, &c., whose word can be relied on.

WHY IS THE WASHINGTON LIFE INSURANCE COMPANY ESTABLISHED TO PREFERRED? Because it is in Washington, an old company, and its reliability unquestioned. 2nd, because its assets are mostly invested in bonds and mortgages (first liens on real estate), and not one dollar in speculative securities. 3rd, because The Washington is the only company that makes annually a non-forfeitable dividend, and will pay it cash at the end of the year according to policy year. 4th, because the holder of a policy in The Washington is entitled to meet insurance at any time for \$1000. Annual payments have been made for an equitable amount, on which the company will pay 3 per cent interest per annum. 5th, because every policy in The Washington has a cash surrender value. Consumption can be cured. Dr. J. S. Combs, Greenville, Ohio, says "I have given Scott's Emulsion of Cod Liver Oil with Hypophosphites to four patients with better results than seemed possible with any remedy. All were hereditary cases of Lung disease, and advanced to that stage when Cough, pain in the chest, frequent breathing, frequent pulse, fever, and Emaciation. All these cases have increased in weight from 10 to 25 lbs., and are not now under any medicine. I prescribe no other Emulsion of Cod Liver Oil with Hypophosphites, Lime, and Soda, but Scott's, believing it to be the best."

Reported Horrible Murder. A correspondent of the Richmond Dispatch writes from Bristol-Goodson: "About the 13th a woman by the name of Lou Hayes started from here with a man by the name of Robert L. Tilly on a visit to some of her friends in Mount Airy, N. C. News has been received here, that she was murdered by Tilly at the edge of Carroll county, Va., on the evening of the 17th. He shot her through the head, and then tried to conceal his crime by burning the body. The smoke attracted attention, and the body was discovered before it was entirely consumed, and identified. Tilly is from Pike county, Ky. From all accounts it was a terrible affair. The woman was known to have had some forty odd dollars, and it is supposed this fact was the cause of the murder."

INFANTILE SKIN DISEASES.

Our oldest child, now six years of age, when an infant six months old was afflicted with a violent, malignant skin disease. All ordinary remedies failed to cure it, but it was cured by the use of Cuticura. The eruption was on the face, neck, and chest, and was so violent that the child could not sleep. Finally, we were advised to use Cuticura. The eruption was cured in three or four days, and a complete cure was wrought, leaving the child's person as white and healthy as if he had never been attacked. In your valuable remonstration saved his life, and today he is a strong, healthy child, perfectly free from the disease he has never since contracted.

THOUSANDS OF CHILDREN. Are born into the world every day with some cutaneous affection, such as milk crust, head, scurf, or dandruff, and to develop into an annoying eruption, the itching and disfigurement of which make life a torment. A warm bath with Cuticura Soap, an excellent skin beautifier, and a single application of Cuticura, the Great Skin Cure, with a little Cuticura Ointment, will remove the eruption, and often sufficient to arrest the progress of the disease. Hence, mothers who have their children, who take pride in their beauty, purity, and health, and in being free from all skin diseases, should use Cuticura. It is a safe, reliable, and should be used in all cases of the Cutaneous Eruptions.

THE DAVIS SEWING MACHINE!

Why is the Davis the Best? Because with the Vertical Feed the presser foot is always raised from the fabric when the feed takes place, and presents no resistance to seams or ridges, and the needle being in the fabric, moving with the Vertical Feed-Bar on the goods behind the needle, makes the stitching uniform in length, and renders it impossible to fall one piece while the other is stretched. For the same reason the machine of sewing elastic goods, making a smooth and flexible seam with slight pulls on both sides, and sewing any number of layers without heating, operating with equal facility on the heaviest as well as the lightest fabrics. Because it is so simple in construction and has a less number of working parts than any other machine. It has the greatest number of practical attachments for doing every desirable style of work, all automatic in their action and made of the Best Materials in the most workmanlike manner. It will do a greater variety of work than all other machines combined and is the acknowledged Pioneer and Leader in Sewing Machine Domestic Art Work.

TO THE Farmers of Wicomico.

There are a great many of you who come to us to have your Wheat ground, you go home and tell your neighbors, they come. All go away satisfied. But this is too slow a way of letting the people know what we can do. We want some from all over the county. You people all along the Nantuxco, who have so many opportunities of sending your grain by water, we would like to show you what we can make out of 60 pounds of Wheat, and you people all along the railroad, put your Wheat on the cars. It will cost you nothing to have it hauled to and from the depot at our place. You have no use for your horses at this season of the year, send a bag up with a few bushels, (no matter if he is a boy he will do just as well as a man) you won't regret it. We don't stop here; if you have any grain of any kind for sale we buy that and pay the highest cash prices for it. We also

SATURDAY, DEC. 10, 1887.

ASSEMBLING OF CONGRESS.
The first session of the fiftieth Congress convened in Washington last Monday at noon with a bare Republican majority in the Senate and a small Democratic majority in the House. The organization of the two Houses was without special event, save the re-election of Hon. Jno. G. Carlisle, speaker of the House, by a vote of 163 out of the 313 cast. On taking the chair Mr. Carlisle delivered an address on the subject of the revision of the tariff.

President Cleveland sent in his annual message on Tuesday. The message deals with the tariff question alone. The president thinks it the paramount question for consideration. The message is a clear, concise, comprehensive treatment of the subject. The President shows that there will have accumulated into the public treasury, by the first of July, 1888, the enormous sum of \$140,000,000, without any provision for placing it back into general circulation for commercial purposes. The surplus has been kept down heretofore by purchasing bonds which were redeemable, but these bonds have now all been purchased. In fact, some have been purchased in the open market since the close of the last fiscal year, in order to relieve the stringent condition of the money market. The message deals with the various methods suggested, of relieving the treasury of the surplus, and urges valid objections to them all.

In answer to Mr. Randall and Judge Kelly who are urging a reduction of the tax on tobacco and distilled liquors. The President says:
"There appears to be no just complaint of this taxation by the consumers of these articles, and there seems to be nothing so well able to bear the burden without hardship to any portion of the people. But our present tariff laws, the vicious, inequitable and illogical source of unnecessary taxation, ought to be at once revised and amended. These laws, as their primary and plain effect, raise the price to consumers of all articles imported and subject to duty by precisely the sum paid for such duties. Thus the amount of the duty measures the tax paid by those who purchase for use these imported articles. Many of these things, however, are raised or manufactured in our own country, and the duties now levied upon foreign goods and products are called protection to these home manufactures, because they render it possible for those of our people who are manufacturers to make those taxed articles and sell them for a price equal to that demanded for the imported goods that have had customs duty. So it happens that while comparatively a few use the imported articles, millions of our people, who never use, and never saw any of the foreign products, purchase and use things of the same kind made in this country, and pay therefor nearly or quite the same enhanced price which the duty adds to the imported articles. Those who buy imported pay duty charged thereon into the public treasury, but the great majority of our citizens, who buy domestic articles of the same class, pay a sum at least approximately equal to this duty to the home manufacturer. This reference to the operation of our tariff laws is not made by way of instruction, but in order that we may be constantly reminded of the manner in which they impose a burden upon those who consume domestic products as well as those who consume imported articles, and thus create a tax upon all our people."

In conclusion be plainly and definitely points out to Congress its duty as follows:
"The question thus imperatively presented for solution should be approached in a spirit higher than partisanship, and considered in the light of that regard for patriotic duty which should characterize the action of those intrusted with the weight of a confiding people. But the obligation to declare party policy and principle is not wanting to urge prompt and effective action. Both of the great political parties now represented in the government have, by repeated and authoritative declarations, condemned the condition of our laws which permit the collection from the people of unnecessary revenue, and have, in the most solemn manner, promised its correction, and neither as citizens or partisans are our countrymen in a mood to condone the deliberate violation of these pledges. Our progress toward a wise conclusion will not be improved by dwelling upon the theories of protection and free trade. This savors too much of bandying epithets. It is a condition which exists not a theory. Relief from this condition may involve a slight reduction of the advantages which we award our home productions, but the entire withdrawal of such advantages would be tantamount to the question of free trade in staple commodities. It is a condition which can only be relieved in certain quarters that all efforts to relieve the people from unjust and unnecessary taxation are measures of so-called free-traders, is mischievous and far removed from any consideration for the public good."
The simple and plain duty which we owe the people is to reduce the tax upon the necessary expenses of an economical operation of the government, and to restore to the business of the country the money which we hold in the treasury through the perversion of governmental power. These things can and should be done with safety to all our industries, without danger to the opportunity for remunerative labor which our workingmen need, and with benefit to them and our people, by cheapening their means of subsistence and increasing the value of their comforts.

Philadelphia, Monday, Dec. 5, 1887.
Extra stir among Table and Piano Covers. Prices have been tumbling a little. Hardly the time you look for such a happening—Christmas three weeks away and these just the welcomest, cheerfulest things to sunshine a room with.
Rich French Tapestry 6-4 Covers, colors quiet as those of frost-touched leaves, \$2 and 2.50; originally \$3.50 and 4.50.
Very heavy French Silk Noil Pett Point Tapestry, long knitted fringe. Luxurious, shadow-scattering things; tints of the Orient, \$4.50 and 5 for 6-4; have been \$8 and 8.50. Two patterns on grounds of black and white.
Less pretentious, but almost as pretty, Scotch Tapestry Covers, 6-4, 7-4, 8-4, 8x10, and 8x12, down to and 15 per cent.

Jute Velour. Nap so stiff and springy it won't mat under pressure. As plushy as plush—till you touch it. And the colors! Blue and gold and crimson are never bluer and goldener and crimsoner than in Jute Velour; and they stay bright—
Piano Covers, \$2.19, \$16, from \$29.

Our \$50 and 55 Coats and Wraps are the tip toppest in every way, but no truer in worth, work, or finish than the ones for less.

A HEARTY WELCOME
Await all visitors to Oehm's Acme Hall. A friend from a distance, and all probable customers are friends, is met at the door by polite and attentive Floor Walkers and taken at once to the Sagging Room where all his requirements are taken care of, free of charge, and checks given for it—so that he can send or call for it any time. The visitor is then taken a tour through the building, which never fails to gratify and please him, as from roof to basement this Great Store is full of every possible appliance to save labor and economize time. Electricity and hydraulic power are used in a dozen different ways, and the place is covered with a network of wires and tubes of expeditious communication. On the first floor the visitor will find himself surrounded with everything a man can require in Clothing and Furnishing Goods, manufactured right here on the premises by our own experienced work people. On the second floor is located the Boys' Department, Clothing, Furnishing and Hat—and no such assortment of fine Imported and Domestic Fabrics has ever been shown before south of New York. Our magnificent Custom Department occupies the south end and is full of Novelties for those who prefer their clothing made to order. On the third floor will be found the reserve Stock Rooms, the Military Department, and the Sample Order Department—all in full swing. On the fourth floor the visitor is shown the process of manufacture, which this Store enjoys enables it to understand all orders in every department. The arrangements are always welcomed cordially, but to those who are unable to come our Sample Order Department sends samples, self-measurement blanks and illustrated catalogue, free on application.

ANNUAL VISIT OF SANTA CLAUS

Mr. and Mrs. Woodcock... The good old Santa Claus visited...

Just as we expected! Old Santa Claus has been in our town with an abundant supply of those heart-gladdening things that we look for about this season...

Although Mrs. S. P. Woodcock & Co. were that of the shrewd merchant, they were served well, and expect to make many a heart happy yet before Christmas.

Every body expects to buy something in the line of jewelry about this season of the year; so thought old Cris when he jumped out of his sleigh in front of C. E. Harper's store...

When he came out to the door he discovered a handsome display of goods next door. "Hello! whose place is this? Bergen, why I've something for him."
