How Men Sleep. Adult man, I believe, is the only animal who ever sleeps to sleep upon his back. Some of the lower savages seem to sleep comfortably on occasion in a crouching position, with the head bent down upon the knees, just as well as the common tribe of monkeys do. Among the quadrupeds it is not until we come to the platform building antelope types that we find a recumbent position habitually taken during sleep. The young orangs and chimpanzees that they have had at the zoological gardens sleep with the body semi-prone and under the limbs, or all except the arms, which was used as a pillow, curled under them. This is exactly the position voluntarily adopted by 80 per cent of children under the age of twenty months old which I have had opportunities of watching. I was told by the attendants at the zoological gardens that as the monkey would sleep on its back as adult man does.—Nineteenth Century.

SATURDAY, MAY 7, 1892.

The impression seems to have become current among our neighbors that the Advertiser is hostile to the move to send ex-Governor Jackson to the National Convention as delegate-at-large from this State. It is not true that either the Advertiser or this county is opposed to the move. They favor it in fact.

The editor of the Advertiser is now, as he has been in the past, in close political relations with the ex-Governor, and has always had great confidence in his ability and integrity as a public official. Wicomico will be glad to present his name to the State Convention for delegate-at-large. As we stated in a previous issue, there are no local differences in the county.

Mr. Ellegood, whose name has been mentioned in connection with the district delegateship, is in no sense a candidate for the honor. He would be only too glad to see the ex-Governor represent his State, having great confidence in Mr. Jackson's judgment and knowing him to be a Cleveland man.

To state the situation in a nutshell, either of these gentlemen would be perfectly willing that the other be honored. Either gentleman would be satisfactory to the Advertiser.

That on April 23, 1892, at Ford's gate, on the public road between Millington and Masses's, Frisby Comery, Charles Brooks and Perry Bradshaw, of the district, stopped and held the horse of Dr. J. Heighe Hill, while on his way to visit a sick child, and then Charles Brooks struck the said Dr. Hill in the head with a stone, and that Fletcher Williams stabbed the said Dr. Hill with a knife, inflicting mortal wounds of which Dr. Hill died on the following day—Sunday April 24—and the said Perry Bradshaw, Frisby Comery, Fletcher Williams and Charles Brooks then and there feloniously killed and murdered Dr. J. Heighe Hill against the peace and dignity of the State of Maryland.

This is the verdict of the coroner jury in the case of the famous Hill murder which took place in Kent County near Millington on the date named above. This was one of the most atrocious acts that the annals of the world ever contained. The story is short, but complete of its kind. A half dozen negro men and boys left the village of Millington, Kent county, Md., about 10 o'clock at night and started on the road to the county; passed by teams whose drivers they halted, and in some cases, insulted.

Finally Dr. Hill, an inoffensive citizen, a practicing physician of the village, who had been called to attend a patient in that direction, came along the road and was stopped by the gang. One held the horse by the mouth while another struck him with an immense stone and a third stabbed him. They thought they had completed the work of killing him they threw him across the dog cart and started the horse on the road at full speed. The boys who witnessed the deed became frightened and told the whole thing. The gang including the witnesses were arrested and lodged in Chestertown jail. So indignant and enraged were the people of the county that lynching was feared, and the principals in the crime were hustled off to Baltimore and lodged in the city jail, where they now remain in safety. This is the simple story.

The strangest thing about the whole affair is that the negroes did not know who they were holding up, at the time, nor who they were going to murder, nor why. There was not even the qualifying circumstances of drunkenness. It was pure unalloyed cold blooded murder, without any visible motive.

It was Ben Johnson, we believe, who, when asked Mallock's question, "Is life worth living?" replied, "That depends on the liver." And Ben Johnson doubtless saw the double point to the pun. The liver active—quick—life rose, everything bright, mountains of trouble melt like mountains of snow. The liver sluggish—life dull, everything blue, molehills of worry rise into mountains of anxiety, and as a result—sick headache, dizziness, constipation. Two ways are given. Care permanently, or relieve temporarily. Take a pill and suffer, or take a pill and get well. Shock the system by an overdose, or coax it by a mild, pleasant way.

Dr. Pierce's Pleasant Pellets are the mild means. They work effectively, without pain, and leave the system strong. One, little, sugar-coated pellet is enough, although a whole vital cost but 25 cents.

Mild, gentle, soothing and healing is Dr. Sage's Catarrh Remedy. Only 50 cents by druggists.

Last Wednesday night an attempt was made to wreck a train on the N. Y. P. & N. R. R. Ties were placed across the track about one mile north of Pocomoke City, and if the obstruction had not been discovered and warning given to the company's agents at Pocomoke City, who promptly had them removed, a disastrous accident might have occurred. Only a few weeks ago a similar attempt at train wrecking was made on this road.—Marylander.

Democratic Conventions.

The Democratic State central committee of Maryland met at noon Wednesday in the Carrollton Hotel, Baltimore, and selected the following dates for the State and congressional convention:

State convention, Baltimore, June 8, First congressional district, Wednesday, July 20, at Ocean City.
Second district, Monday, June 6, at Port Deposit.
Third district, Saturday, June 4, at Broadway Institute.

Fourth district, Saturday, June 4, at China Hall.
Fifth district, Wednesday, August 24, at Laurel.
Sixth district, Wednesday, July 13, at Frederick.

Every county was represented at the meeting, and in addition to the members there was a large force of politicians and others on hand from all sections of the State. The scenes in the corridors of the hotel was animated and much political gossip was interchanged. Senator Gorman came over from Washington early in the morning and took a room adjoining the parlors where the committee meeting was held. With him were Congressman Page, Stump, Rusk, Rayner and McKing. Congressman Compton, chairman of the committee, was prevented from attending by sickness. Governor Brown was on hand and was warmly greeted by his friends. All through the morning hours Senator Gorman held a reception in his room. He was constantly surrounded by crowds of his friends, and was kept busy shaking hands.

There was much gossip as to the make up of the delegation to the national convention on June 21. The friends of ex-Governor Jackson were bent upon his going as a representative at large, and Senator Toadvin, his personal friend, says the ex-governor will accept. Mr. Robert M. McLane is already agreed upon as another of the delegates at large, while Mr. Charles J. M. Gwin will also be one. The fourth place will be held by Senator Gorman if he wishes it, or for one of his friends.

From the districts the following named gentlemen seem to have been settled upon, although some changes may occur from local causes or personal distinction before the convention meets.

First District—Edward Lloyd Talbot and Levin L. Waters of Somerset.
Second—John S. Wirt of Cecil and Mirraz Vandiver of Harford.

Third—James Bond and Frank A. Purst.
Fourth—Bernard Carter and L. Freeman Rash.

Fifth—Barnes Compton of Prince George's and Thomas H. Hunt of Howard.
Sixth—Buchanan Schley of Washington county and L. V. Bangham of Frederick county.

There is a strong sentiment among party leaders to have a double delegation sent to Chicago. It was said that either the delegates at large or the district delegates would be doubled and perhaps both. If eight delegates at large go then Col. Lloyd will be sent at large with ex-Governor Jackson from the Eastern Shore and Richard Hinson of Kent, will take Mr. Lloyd's place as a district delegate. Mr. Bernard Carter and Congressman Compton will also be added to the State delegates in this event and other district delegates will be selected to take their places.

As to the Maryland congressional candidates, Mr. Page in the first, Mr. Bond in the third, Mr. Rayner in the fourth and Mr. McKaig in the sixth district are not expected to have any opposition for re-nomination. In the fifth district Mr. Compton, it is said, will be again re-nominated. His opposition to him has developed, and the committee from the district say that one reason why the convention was put off so late was to induce Mr. Compton to enter the field and not adhere to whatever declaration he may have heretofore made not to be a candidate.

Senator Toadvin, Mr. James T. Turner and Delegate W. S. Moore represented this county at the committee meeting.

REPUBLICANS IN CONVENTION.
The Maryland republican delegation to the national convention, which will meet at Minneapolis June 7, was completed yesterday by the action of the State convention in Frederick, which elected the delegates at large and two presidential electors.

The delegates at large are James A. Gary, of Howard county; Louis E. McComas, of Washington county; Thomas S. Hodson, of Somerset county; and Major Alexander Shaw of Baltimore city.

The electors at large are Adolph Barnes, of Worcester; and Alceus Hooper, of Baltimore city.

Seventy-Eight Miles an Hour.
New York, May 3.—An important engineering test was made today on locomotive No. 370, running the Empire State express on the New York Central Railroad. The work was done by Angus Sinclair, engineer of Locomotive Engineering. He sat on a box in front of the engine cylinder and took steam indicator readings all the way between New York and Albany. A speed of seventy-eight miles an hour was recorded, and the engine developed over 1,000-horse power. The work of pulling that fast train was done on a coal consumption of 27 pounds of coal per horse-power per hour.

When he knew he was to go to the penitentiary he drew a long breath and said, "I am glad of that. He was evidently very glad to escape so easily.—Canton Call.

Wicomico and Michigan for Cleveland.

MILWAUKEE, Wis., May 4.—A wild cheer for Grover Cleveland went up today before the Democratic State Convention of Wisconsin had been in session sixty seconds. It was the beginning of a speech by the temporary chairman, State Senator Robert Less, of Alma, opening the convention.

So enthusiastic were the delegates, and anxious to inaugurate the Cleveland boom in earnest, that the custom of proffering the proceedings with prayer was dropped. The music enthusiasm marked all proceedings. It was a brilliant scene in the Pabst Opera House when the hundreds of delegates and spectators got together under the myriads of incandescent lights and red, white and blue streamers that formed the bulk of the decorations. No portraits of candidates or leaders were on exhibition except those of Wisconsin's favorite sons—William F. Vilas and George W. Eck.

Mr. Vilas was made chairman of the committee on resolutions. He was greeted with enthusiasm when he mounted the stand to read the platform, declaring unnecessary taxation unjust taxation, favoring a tariff for revenue only, denouncing republican extravagance and supplementary laws, opposing the unlimited coinage of silver, denouncing the Sherman silver act, opposing State interference with parental rights and the rights of conscience in the education of children, commending the democratic State platform, and denouncing the republican administration, directing the delegates to Chicago to act as a unit as the majority of the delegation shall direct, and in conclusion, declaring—

"We admire the President whose ability, honesty and devotion to public duty enthrall the confidence of all good citizens. We therefore desire our delegates at the national convention to use all honorable means to nominate for President the man who is in himself the embodiment of the guarantee of sound democratic principles—Grover Cleveland.

Messrs. Mich., May 4.—Spencer C. Fisher, Don M. Dickinson, Edward Ryan and Edward H. Uhl were elected the delegates at large to the national convention by the State Democratic Convention, which terminated this evening. In the platform, which was adopted the delegates were instructed to vote for Cleveland.

Tariff reform was pronounced the over shadowing issue of the coming campaign, and a demand was made of the government to give a clear waterway from the great lakes to the ocean. There were a couple of little storms, which though of a threatening nature, ended without serious results.

The first arose from a desire on the part of a section to select Wellington R. Burt for the honor which was conferred upon Spencer O. Fisher, and the second over an attempt to introduce a free silver resolution into the report of the platform committee. The convention however, ended in harmony.

Order of Publication.
Alex. F. Turner and Edward S. S. Turner vs. William P. Crosby, et al.
No. 850 Chancery, Circuit Court, Wicomico County.

The object of this suit is to procure a decree for the sale for the purpose of partition and distribution of the proceeds of certain property in Wicomico county, Md., which John Turner, died, seized, possessed, situated at Saticokes Point and described in the Bill of complaint in the above cause.

The Bill states, that on or about August the 5th, 1889, John Turner late of said County and State died without leaving a widow surviving him, intestate and leaving the following heirs at law, to wit: 1. Mary F., daughter of the said John Turner, who married Wm. P. Crosby, resides in Kent county, Md., over 21 years of age.

2. John W., son of the said John Turner, lives in Lancaster county, Va., and over 21 years of age.

3. William P., son of the said John Turner, who is Rebecca L. Turner, lives in Uniontown, Pa., and over 21 years of age.

4. Alexander E., son of the said John Turner, whose wife is Sarah R. Turner, lives in Wicomico county, Md., and over 21 years of age.

5. Edward S., son of the said John Turner, whose wife is Alice P. Turner, lives in Wicomico county, Md., and over 21 years of age.

6. Oscar A., son of the said John Turner, who married Della Turner, lives in Butte City, Montana, and over 21 years of age.

7. Lillian J., daughter of the said John Turner, is unmarried, lives in Baltimore, Md., and over 21 years of age.

8. Walter W., son of the said John Turner, whose wife is Theresa T. Turner, lives in Wicomico county, Md., and over 21 years of age.

9. Henry C., son of the said John Turner, is unmarried, lives in Talbot county, Md., and over 21 years of age.

10. Cornelia A., daughter of the said John Turner, unmarried, lives in Baltimore, Md., and over 21 years of age.

11. Edith M. Walter, aged 19 years, daughter of Alice L. deceased, the daughter of the said John Turner, by her husband W. C. Walter who is yet living.

12. Charles V., son of the said John Turner, unmarried, lives in Baltimore, Md., and over 21 years of age.

13. Ruth F. Evans, grand child of the said John Turner, through her husband Margaret A., now deceased, being 16 years of age.

That all of the above heirs, except Mary F. Crosby, Warren D. Turner, Edith M. Walter and Ruth F. Evans have sold their interest in the said land to Alexander F. Turner and Edward S. S. Turner, leaving the said A. F. Turner and E. S. S. Turner owners as tenants in common with the said Mary F. Crosby, Warren D. Turner, Edith M. Walter and Ruth F. Evans of the said real estate. That the said John W. Turner and Margaret T. Turner, his wife, William E. and Rebecca L. Turner his wife, and Oscar A. and Llewella Turner, his wife are non-residents.

The Bill further alleges that the said property is not susceptible of partition among the parties entitled without loss and injury to them.

It is therefore, on the 23rd day of April, 1892, ordered by the Circuit Court of Wicomico county, in Chancery, that the Plaintiff, by causing a copy of this order to be inserted in some newspaper, published in said Wicomico county, once in each of four successive weeks before the first day of July, 1892, give notice to the said absent defendants of the object and substance of this Bill, warning them to appear in this Court in person or by solicitor on or before the first day of July next, to show cause if any they have, why a decree ought not to be passed as prayed.

Louis A. Graham, Executor, vs. Sadie L. Nelson, Mary E. Collins and Hiram Collins, her husband, et al.
No. 851 Chancery, in the Circuit Court for Wicomico County, in Equity.
March Term, 1892.

The object of this suit is to procure a decree for the sale of certain property in Wicomico county, in this State, which was mortgaged by Edmund R. Nelson, deceased, to Samuel A. Graham, deceased.

The Bill states that on or about the 28th day of April, 1888, the said Edmund R. Nelson conveyed certain real estate which is particularly described in said Bill, unto the said Samuel A. Graham, deceased, by way of mortgage, to secure the payment of the sum of two hundred dollars with interest thereon and payable twelve months after date.

That the whole of said sum of two hundred dollars and all interest thereon, still remains due and owing by said Edmund R. Nelson.

That the said Edmund R. Nelson died sometime during the year 1890, leaving a widow and five children that among the said children is Mary E. Collins who has intermarried with Hiram Collins.

That the said Mary E. Collins and Hiram Collins are non-residents.

It is therefore this 27th day of April, 1892, ordered by the Circuit Court for Wicomico county, in equity, that the Plaintiff, by causing a copy of this order to be inserted in some newspaper published in Wicomico county, once in each of four successive weeks, before the 27th day of May give notice to the said absent defendants, of the object and substance of this Bill, warning them to appear in this Court in person or by solicitor, on or before the 1st day of July next, to show cause, if any they have, why a decree ought not to be passed as prayed.

Success in Filling Mail Orders,

like success in selling goods over the counters, is due to thorough organization, skilled clerks, and careful attention to the wishes of the buyer.

Whether the customer comes in person to the counter, or lives at a remote distance from the store, the service in every essential respect, is identical. The same effort to give satisfaction is made in the one case as in the other, and should goods fail to be just what is wanted, they can be returned, and others will promptly be sent.

As the result of such methods, our Mail Order Department has reached its present dimensions, and is constantly growing greater and more comprehensive.

We solicit the patronage of shoppers by mail, having full confidence in our power to give entire satisfaction. Samples mailed promptly upon request. Catalogues mailed to any address.

"Ask thy Purse What thou Shouldst Buy." To the PUBLIC, PROPERTY OWNERS AND CONSUMERS OF HOUSE PAINTS.

During the past eleven years every gallon of the famous Longman and Matinez pure prepared paints has been sold under our positive guarantee—that any Building would be re-painted at our expense if not satisfactory when painted with our paints, and not remaining satisfactory for a proper term of years thereafter. In view of the apparently low prices at which cheaply made benzine and water paints are offered, and the difficulty experienced in discriminating between the best paints and paints of inferior character, we now add our previous guarantee the additional guarantee of cost, thus placing the low price of our paint beyond doubt.

We authorize any dealer to furnish our paints free of cost to any buyer who, having painted his building with our paints, can demonstrate that our paint has not cost 10 per cent. less for paint used, than that would have been for either pure white lead and linseed oil or any other mixed paint in this country.

Attention, Farmers!

EXAMINE THE ATLAS PLOW, AS IMPROVED FOR 1892. And don't be humbugged into buying any other until you do. It is solid comfort to plow with it, and the farmers say it is the Boss of the Farm.

Over 100,000 Atlas Plows now in use and giving general satisfaction.

SOLE AGTS FOR MARYLAND AND DELAWARE. THE IMPROVEMENTS ARE: 1-The High Arched Standard cannot be choked, and is provided with Side Flanges on its front arm and a clamp device on its rear arm which positively prevents any side movement to the Beam, insuring the proper "land" and the correct running of the plow, no matter how long in use.

2-The Beam is disconnected from the handles, and is secured to the standard by two bolts assisted by the Improved Beam Seat and Beam Holding Device, uniting and holding these parts together with more firmness and greater security than is possible under any other known arrangement.

3-Under the rear end of the Beam is a simple device to make the plow run deep or shallow, or to land more or less, or to regulate both the depth and width of the furrow. This is the most perfect Beam Adjuster yet devised and should be examined to be appreciated.

4-As with all our plows, neither handle is attached to the mouldboard to collect trash, weeds, etc., and their lower ends are not near enough to the ground to collect dampness and invite decay. The shape of the mouldboards as well as the number of them, O. X. 1, 2, 2, 3, 20, etc. have been adopted by others, and the public is cautioned to look for the word "CHILLED" in connection with the above numbers, when they will be sure to get our goods.

Our White's Chilled Plows

Are made with the same Beam Securing and Beam-Adjusting devices now used on the Atlas, and are described. The shape of our Chilled Plows has also been initiated, but the metal used in ours is CHILLED, and not the common hard white iron used in the moulds of many so called "chilled" Plows. We warrant the moulds of our Chilled Plows not to be easily corroded by wear, to wear longer and scour better in adhesive soils than any other, and we further warrant ours in all respects. They are the BEST Chilled Plows made.

Try them with other so called Chilled Plows and be convinced. They are made at the best appointed agricultural implement foundry in Virginia, and using the best brands of Virginia pig iron, the castings made by it for the Atlas White Chilled and other Plows are superior to other makes for durability, and perfect fit. The public is invited to call in person or correspond with

Pratt's Astral Oil is universally conceded to be the best burning and illuminating oil in the market. This result is due to its purity, its freedom from the finest mechanical impurities, its steady light and the use of the most approved machinery in its manufacture.

Pratt's Astral Oil from the use of which no accidents have occurred, has been used for twenty-five years, during which time many millions of gallons have been sold.

Pratt's Astral Oil is pure spring water white in color, of high gravity, odorless and gives a steady, bright, steady light as well as being most economical in the lamp.

Pratt's Astral Oil costs but little more than the inferior grades of illuminating oil on the market, and gives far more satisfaction in its use than it is especially a family oil.

"Haven't you got anything solid to eat?" said a traveler discontentedly eyeing the profusion of pies and small cakes on the counter of the pie station.

The traveler assented, and making short work of them, asked "how much?"

"Twenty-five cents," was the bland reply.

"What!" cried the traveler. "Twenty-five cents for a spoonful of cold beans?"

"But late that afternoon a telegram was handed to the restaurant keeper, for which he paid twenty-five cents, it ran thus:

"Don't you think your price a little high on beans? Traveler,"—Harper's Magazine.

Among the representatives from Wyoming to the Minneapolis republican convention are two women who were chosen alternates. The Wilmington *Evening* hopes that the men whom they were chosen to represent will have gallantry enough to remain at home and give the fair politicians a chance. It is claimed that they are both good and ready speakers (of course they are ready speakers) and that they have been long and popularly identified with several kinds of reform.

Maryland Building at the World's Fair.

The World's Fair commissioners for Maryland met Tuesday in their new office in the Hoeh Building. The plans for Maryland building were approved by Baldwin & Pennington, architects, were adopted. On the motion of Mayor La Trobe the building committee, consisting of Murray Vandiver, David Hutzler, J. Olney Norris, Frank N. Hoeh and Mrs. William Reed, were authorized to make arrangements for the erection of the building the cost of which is limited to \$20,000. The plans contemplate a central building of two stories, having a front of 42 feet and a depth of 40 feet. On each side will be a wing 23 by 37 feet and of the same height as the central building. The central building will contain on the first floor a reception hall 38 by 23 feet, with a staircase 8 feet wide to the second floor. The elevator will be on the right of the hall. On the left of the hall is the entrance to the building. The right wing will contain the ladies' parlor and toilet-rooms and an exhibition hall 23 by 29 feet for the display of the women's department. The main exhibition hall will occupy the entire left wing and will have a space of 26 by 26 feet and will extend in height to the roof. The second floor of the central building and right wing will contain a reading room, gentlemen's parlor and smoking room and three smaller parlors. A stairway will lead to the roof, which will be flat and arranged as a place of observation. The building, as heretofore stated in *The Sun*, will be in the Colonial style of architecture, and will have a wide porch along the rear and a handsome portico across the front. It has been suggested that the building will be better adapted for the purposes of a club-house for the convenience of Maryland visitors to the World's Fair and a handsome structure for the display of the agricultural, mineral and other resources of the State. Col. J. Thomas Scharf was instructed to give notice that gifts of old time mementos and articles would be accepted and placed in the building, with the donor's name engraved on brass plate. The gifts will revert to the owner after the fair closes. —*Balto. Sun.*

Tax Collectors in Worcester.

An act was passed by the legislature of 1890, to take effect two years later, providing for a county treasurer in Worcester county. At this time the collectors of taxes, in the first district, which includes Pocomoke City and Atkinson's, there were two candidates for the collectorship, Francis M. Wilson and Herbert H. King, and a warm contest has been waged for a month past by the respective adherents of those two over the appointment. The county commissioners Wednesday decided the matter by appointing Mr. Wilson, who thereupon immediately resigned in favor of his opponent, Mr. Francis H. Taylor was appointed collector for the second district, which includes Snow Hill, Stockton, Newark and Coulbourne's, and Sheriff Emory Ebell for the third district, which includes East Berlin and West Berlin and St. Martin's. Mr. George S. Payne, president of the present board of county commissioners, will probably be appointed treasurer. The rate for collecting taxes is reduced from 5 to 4 per cent.

Electric Logs.

Electric logs have been used in the United States nearly service with some success. They record the speed of a vessel by tugging a small propeller behind it, the revolutions of which open and close a battery circuit. These breaks in the current are recorded by a suitable device, of which the scale is so graduated as to read the distance passed over in any certain time. This apparatus, while recording the speed between points, is defective, in that it fails to give any moment of observation. —*Electricity.*

Deer Park and Oakland.

To those contemplating during the coming summer a trip to the mountains in search of health or pleasure, Deer Park, on the dome of the Allegheny Mountains, 3,000 feet above the sea level, offers such varied attractions as a delightful atmosphere during both day and night, pure water, smooth, winding roads through the mountains and valleys, and the most picturesque scenery in the Allegheny range. The hotel is equipped with such adjuncts conducive to the entertainment, pleasure and comfort of its guests, as Turkish and Russian Baths, swimming pools for both ladies and gentlemen, billiard rooms, superbly furnished parlors, and room single or en suite, an unexcelled cuisine and superior service.

The surrounding grounds as well as the hotel are lighted with electricity, have cosy and shady nooks, meandering walks, lawn tennis courts and grassy playgrounds for children within full view of the inviting verandas. Six miles distant on the same mountain summit is Oakland, the twin resort of Deer Park, and equally as well equipped for the entertainment and accommodation of its guests. Both hotels are upon the main line of the Baltimore and Ohio Railroad, have the advantage of its splendid Vested Limited Express trains between the East and West; and are, therefore, readily accessible from all parts of the country. Season Excursion tickets, good for return passage until October 31st, will be placed on sale at greatly reduced rates at all principal ticket offices throughout the country. The Parting of the Ways.

Wilkins and Watkins were college chums and close friends. They had been hard students and had taken little outdoor exercise. When they shook hands and said good-bye, at the end of their college career, they were in impaired health. Both had dyspepsia, liver troubles and troublesome coughs.

Wilkins had plenty of money, and decided to travel for his health. Watkins was poor. "I must go to work for my living," said he, "but I'll try the remedy that Robinson talks so much about—Dr. Pierce's Golden Medical Discovery."

In less than two years, Wilkins came home in his coffin. Watkins, now in the prime of life, is a bank president, rich and respected, and weighs 200 pounds. "The Golden Medical Discovery" saved my life at a critical time," he often says. "Oh, if poor Wilkins had only tried it!"

For weak lungs, spitting of blood, all lingering coughs, and consumption in its early stages, it is an unequalled remedy.

Water Works for Cambridge.

Cambridge has long been considering the question of water works. At the town election held in Cambridge Tuesday to determine whether the town commissioners shall be authorized to issue bonds to the amount of \$50,000 for the establishment of water works, the friends of the measure were successful by a good majority. Five hundred and eighty-seven votes were cast, of which there were 369 for and 221 against, a majority of 148 in favor of water works. The act of Assembly under which the vote was taken makes it discretionary with the commissioners about the issuance of bonds and a new board of commissioners will be elected on the 1st of June of the next year, early in June the question of water works will enter largely in the contest. There are already a large number of candidates in the field.

"Am So Tired"

Is a common exclamation of this season. There is a certain bracing effect in cold air which is lower when the weather grows warmer, and when Nature is renewed in her youth, her admirers feel dull, sluggish and tired. This condition is owing mainly to the impure condition of the blood, and its failure to supply healthy quantities to the various organs of the body. It is remarkable how susceptible the system is to the help to be derived from a good medicine at this season. Possessing just those purifying, building-up qualities which the body craves, Hood's Sarsaparilla soon overcomes that tired feeling, restores the appetite, purifies the blood, and, in short, imparts vigorous health. Its thousands of friends as with one voice declare "It makes the Weak Strong."

A special car attached to the Baltimore express, leaving Clvert Station at 4:45 p. m. and connecting with the train from Washington at Bowie, brought down a large number from Baltimore and Washington. Fully 200 invitations were issued. Among those invited by the club were Senators Blackburn, Gorman and Gibson and Bowie.

The Cumberland Valley railroad company will open a coaling station at Powell's Bend, where the road crosses the Chesapeake and Ohio canal, near Williamsport, and from this point large quantities of coal will be transferred from the canal to the railroad. The Richmond State claims that the presidential preference of the delegates elected to the Virginia Democratic Convention at Saturday evening were: Cleveland, 552; Hill, 247; unknown, 193. At the county conventions, held Monday last, Cleveland led Hill at least two to one. The State convention, which meets in Richmond, May 19, will be composed of about 1,000 delegates.

The New Mexico Democratic State Convention did not instruct its delegates to Chicago. All but one of the delegates are for Mr. Cleveland. The resolutions demand the free coinage of silver and the appointment of Stephen B. Elkins Secretary of War, because "he has more than any other person assisted in degrading New Mexico."

Court Proceedings.

The adjourned session of the Circuit Court for Wicomico county met Monday morning at 9 o'clock, present, Chief Judge Irving and Associate Judge Holland. The assigned cases for trial at this session were as follows:

On the criminal docket, State vs. N. Y. P. & N. R. Co. for obstructing highway, in two cases was tried by the Court. The first case was tried by the Court and costs in each case, Rider for State, John W. Orfield for defendant.

Three oyster appeal cases were dismissed by the Court because the warrants were illegally drawn by the Justices of the Peace. Case vs. Horseman was also dismissed for the same reason.

The motion to quash the execution of Humphreys & Tighman vs. John C. Gordy, by his attorneys, Graham & Stanford, was granted by the Court and judgment declared void.

Cases of State vs. Alex. P. Malone and L. L. Mac Malone, for assault and battery were tried by jury, and each found guilty and fined 50 cents and costs.

Case of State vs. Andrew Fassitt, for assaulting bailiff Shockey was tried by a jury. Guilty and sentenced to House of Correction for twelve months. Rider for State, Graham & Stanford for defendant.

Case of R. P. Graham, Permanent Trustee of the P. Taylor, vs. Thaddeus Langdale, suit to recover value of stock of goods Taylor sold Langdale on the ground that Taylor had been adjudicated an insolvent and that sale was made when he was in an insolvent condition, that Langdale being a creditor, contrary to law. Langdale's attorney contended that the sale was not by way of making him a preferred creditor, but that the sale was an actual and bona fide sale. The Court held that no evidence could be given of the circumstances of the sale inasmuch as the Court had decided in the insolvent proceedings, that Taylor was at the time an insolvent and that therefore the sale to Langdale was a void sale, and that the Trustee in insolvent had title to goods. Langdale's attorney, Mr. Ellegood, filed exceptions and made a motion for a new trial, which the Court is holding under consideration.

No. 46, Olevia Taylor, vs. M. L. Fooks, executor Henry Fooks, held sub curia. E. S. Toadwin, Thomas Humphreys and Joshua Miles for plaintiff; Jas. E. Ellegood, defendant.

H. L. Stanford, trustee Lennel Malone vs. Uphar Dennis and others will be tried today.

The Democratic State convention of Connecticut adopted resolutions demanding a revision of the tariff, declaring against the free coinage of silver and planning the integrity, statesmanship and lofty patriotism of Mr. Cleveland. The delegation to Chicago was not instructed.

Is highly gratified with Hood's Sarsaparilla. He was badly run down, had no appetite, what he did eat caused distress and he felt tired all the time. A few bottles of Hood's Sarsaparilla effected a marvellous change. The distress to the stomach is entirely gone, and he feels like a new man, and can eat anything with old-time relish. For all of which he thanks and recommends Hood's Sarsaparilla.

Pratt's Astral Oil is a universally conceded to be the best burning and illuminating oil ever put on the market. This result is due to its purity, its freedom from impurities, its employment of the most approved method in its manufacture.

Pratt's Astral Oil from the use of which no accidents have occurred, has been used in some of the most important buildings in the world, and is the only oil that will burn in a lamp for twenty-five years, during which time many millions of gallons have been sold.

Pratt's Astral Oil is a pure spring water white in color, of high gravity, odorless and of unequalled burning quality. It does not smoke, your chimneys and gives a beautiful, bright, steady light as long a drop remains in the lamp.

Pratt's Astral Oil costs but little more than the inferior grades of illuminating oils and gives far more satisfaction in its use than they do. It is especially a family oil.

Messrs. Mitchell & Murrell have issued a three hundred and ten page catalogue describing their business, and the material they offer to builders. The book was executed by Best, McNally & Co., of Chicago and is very attractive. Messrs. Mitchell & Murrell began a few years ago in a small way to manufacture builders' supplies, and by intelligence and industry they have built up a large and profitable business. They are now building an annex to their wood-working factory on the Wicomico river, two stories high, 45x50 feet, to be used as a painting and glazing department, and for a storage room for dry building material.

Two Young Salisburians Married.

Within the sacred walls of the O. S. Baptist Meeting-house on Church street an interesting ceremony was performed at 8:30 o'clock Tuesday evening by Elder T. M. Poulton.

The event which attracted to the old sanctuary several hundred interested people was the marriage of Mr. Wm. W. Mitchell and Miss Lillie Phillips, both of this city. It was the second nuptial which has been solemnized in the edifice for many years, and much before the hour for the ceremony the spectators began to come and soon the ushers, Messrs. Wm. J. Holloway and James Thoroughgood, had no seating space left for fresh arrivals.

On arriving at the church the groom led his bride up the aisle preceded by the best man, Mr. Arthur R. Leonard, and the bride's maid, Miss Nettie Mitchell, sister of the groom. The bridal party met at the chancel rail by the Elder who announced the conjugal rite.

The bride wore a Princess gown of tan Bedford Cord and carried a bouquet of La France roses. The groom wore a tuxedo suit. After the marriage they drove directly to their new home on William street. Many presents were received. The bride is a daughter of Mr. George W. Phipps of this city, and has had many suitors.

Sixty Mitchell is a skilled mechanic and is connected with the wood-working factory of Mitchell & Murrell.

Barren Creek Items.

Miss Annie Brattan returned last week from Baltimore where she has been receiving instruction in short-hand and type-writing.

Trucking prospects are good and it is expected that strawberries will be shipped in a few days.

The Barren Creek school was closed on Friday 6th inst. with literary exercises.

For some weeks a literary contest had been waged by the recitation of extracts from the writings of some author previously selected and the winning couple, participated in by thirty-three of the pupils, proved exceedingly interesting, each one being at liberty to quote from any of the authors heretofore selected.

The issue of the general contest had been won by Claude S. Venables. The prize to the successful contestant, a book of poems from the principal Mr. S. J. Bounds, was presented by R. K. Stinson after an appropriate presentation address.

Ocean City.

Ocean City was incorporated by the last legislature and its first municipal election under the new condition of affairs was held last week.

The election resulted in the selection of the following officers: John F. Wagaman, of Washington, D. C.; William C. Franklin, of Berlin, and W. Sidney Wilson, of Snow Hill. The board unanimously elected W. Sidney Wilson as mayor.

It is stated that many Washington and Baltimore people are considering investments in Ocean City. The establishment of the Baltimore & Eastern Shore railroad anticipates a heavy passenger traffic over their line to this resort the coming season, and preparations are being made to accommodate it.

The Steamboat Beach Company have just completed two miles of board walk, twelve feet wide, along the beach and are putting the Atlantic hotel in first class condition, including new furniture. A contract was closed with the Warfield Manufacturing Company last Wednesday to place in the house a 50 horse power engine and boiler to run an electric plant for lighting the hotel and streets contiguous thereto.

The furniture that is now being taken out of the hotel will be sold at auction, May 24. Special train will be run over from this place.

Death of Leon L. Bounds.

Leon L. Bounds of Quantico died last Thursday morning about 6 o'clock of consumption, aged 21 years.

He was one of the most promising young men of the county. In 1886 he entered Washington College from this county and soon showed marked ability. He passed through the college in four years, although but 15 when he entered, with distinction, winning the gold medal in the junior year. He shared the senior honors with his classmate, Mr. Stevens of Worcester. In the fall of 1890 he with his classmate, Stevens, opened a private classical school in Milford, Delaware which they conducted jointly till last Christmas when young Bounds' health broke down and he returned to his home in Quantico.

He was an exceptionally bright young man, considered one of the brightest ever raised in the county. He was a son of George A. Bounds of Quantico and grandson of Mrs. Biddie Langdale.

The funeral will take place this (Saturday) afternoon at St. Philip's church, Quantico, Rev. R. P. Pearce, officiating. The remains will be interred in the churchyard adjoining.

Death of Samuel K. Dennis.

Hon. Samuel K. Dennis, of Worcester county died at his home, "Cedar Hill," Thursday morning of last week, of consumption. He was one of the best known men of his locality. During his active career he held political and other positions of public trust. He was a member of the Maryland house of delegates during the session of 1872 and 1873, and was elected a member of the State Senate in 1886. The late George H. Dennis who was a member of the U. S. Senate, was brother, and Hon. James U. Dennis of Princess Anne, is a half brother of the deceased.

The remains were interred at the old homestead Saturday. The pall-bearers were James H. Pearce, of Chestertown, Md.; J. Uphur Dennis of Baltimore, W. S. Dickinson, F. H. Dryden, Capt. W. W. Brittingham and J. E. Brittingham.

Harbor Notes.

The harbor has been filled this week with small sailing craft from down the river. Many of them brought up oystermen and their families, who have been keeping our merchants busy measuring goods and receiving cash.

Among the cargoes which arrived during the week, and the departures were the schooner Thomas H. Hooper from Norfolk, Va., loaded with laths for Humphreys & Tilghman. The steamer Hampton from Jamestown, N.C., with a full cargo of shingles for L. E. Williams & Co. and Humphreys & Tilghman. The schooners John McGinnis and Green Hill brought lumber for W. H. Jackson & Son.

The Kate Tilghman, Capt. John Hooper, loaded with pine wood for Baltimore.

The High School Exercises.

Commencement week of the Salisbury High School opened Sunday with a baccalaureate sermon by the Rev. Hill of Ashbury M. E. Church. His sermon was on the subject of Christian character to be valued above earthly honor.

The commencement proper took place at Utman Opera House Thursday evening in the presence of about twelve hundred people. The following is the program: "Overture, oratorio, 'Gipsy Bell' (Brooks); prayer, Rev. T. S. Potts; oration, 'An Individual's Necessity of Education,' with salutation, Mr. Martin Hearn; essay, 'Power of Custom,' Miss Nannie Price. Vocal Solo, 'Oh! Could I Teach You Warbling Vireo' (Kilby), Mrs. Williams; orator, Miss Dowd; Cannon accompaniment, Mr. G. S. Williams, violin obligato; essay, 'Youth,' Miss Vena V. Acworth; essay, 'Marks of Time,' Miss L. Cora Giffin. Piano Solo, 'Chilic Pipi Nini' (Hoffman) Miss Jackson; oration, 'Character,' Mr. M. Paul Phillips; 'Class History,' Miss Rosa Cooper. Vocal Solo, 'Lovely Spring' (William Coenen), Miss Woodcock. Miss Walton, accompanist; essay, 'True Greatness,' Miss Hannah Utman; 'Class Pophecy,' Miss R. Marian Noel. Overture, 'Evening Stambour' (Mercantile); essay, 'Importance of Trifles,' Miss Annie Bennett; oration, 'Patriotism,' Mr. W. H. Hank. Vocal Duet, 'How Dear to Me the Hour' (Kleber), Miss Madge Fulton, Dr. E. W. Humphreys, Miss Benjamin, accompanist; essay, 'To-day,' Miss C. Alice Warren; essay, 'Influence of Woman,' with Valedictory, Miss Grace Allen. Trombone Solo, 'Comin' Through the Rye' (Innes), Mr. Arthur Kennerly, Miss Madge Fulton, accompanist; Diplomas conferred and address to graduates, by James C. Little; benediction, Rev. W. H. Stone.

The exercises were very interesting. The addresses were delivered in a clear, easy style and showed thought and care in preparation. Miss Allen's essay was strikingly good, and her valedictory was well written, in good taste, and not over done as such things sometimes are. The class history was very enjoyable. The historian succeeded in interweaving many incidents fraught with mirth. The prophecies contained the essence of our address to each member of the class, in a fitting and becoming manner. We hope her prophecy will become true.

Mr. Phillips was especially happy in his manner of delivery.

The music was well selected and well rendered, adding no little to the evening's entertainment. The orchestra under the direction of Mr. G. S. Williams reflected great credit to its members, and showed that our town contains decided musical talent. The rendition of Miss Jackson's piano solo was particularly ardent.

After the conferring of the diplomas in a short address, Dr. J. C. Little, a member of the School Board on behalf of the class of 1892 presented to the principal, Mr. Williams, a beautifully executed gold medal bearing the inscription, T. H. Williams, notes, Magna dux from the class of '92. Mr. Williams responded in a few happy remarks; after which the benediction was pronounced and the audience dismissed.

Resumes were in profusion, and many members of the class received handsome presents from relatives and friends.

The Annual banquet of the school will take place this (Friday) evening, at the High school building, to which about one hundred and fifty invitations have been issued.

Truitt Items.

The mercantile firm of D. W. Dennis & Co. has been dissolved, Messrs. J. S. Williams and E. T. Jones having purchased a part of the firm's interest, together with the remaining part, will engage in business in Mr. Jones's new store house. The new firm is called E. T. Jones & Co. with Mr. Edward Williams as clerk.

Mr. "Lige" Cooper, a hermit, died Saturday last of erysipelas superinduced by other complaints, at the advanced age of 80 years. Mr. Cooper has been in delicate health for some time, and was dumb for a week before his death. The remains were interred Sunday in the presence of many friends.

Rev. Geo. H. Nook and Prof. E. M. Hine of Baltimore, spent a short visit to friends here recently. Rev. Mr. Nook preached a very eloquent sermon, and Prof. Hine rendered excellent music on his cornet.

Samuel E. Jones, Esq. has been visiting friends of Salisbury this week.

Miss Pettie C. Collins spent a short visit to friends here recently.

Mr. Allen E. Hamblin of Philadelphia returned home very sick, but is slowly recovering. School Boy.

Of the Strawberry.

The Princess Anne Marylander says: "Last year strawberries were shipped from Marion station on May 6th and from Princess Anne on May 10th. The season this year is at least two weeks later than that, judging from the present condition of the berry."

The ripening season in this county is proportionately backward, but growers here are anticipating good prices for the season. An interview with many gentlemen of the county who were in Salisbury last Tuesday brought out the fact that the crop is now in a fair condition to rapidly mature and that the outlook is for a good yield. Mr. Samuel J. Bounds of B. C. Springs stated that berries would be shipped from that station on Monday, both last and possibly earlier.

The managers of the Baltimore & Eastern Shore railroad and the N. Y. P. & N. railroad are fully equipped for the handling of a large crop of berries, and the agents are getting ready their manifest books, stickers and other et ceteras for the business.

Barn and Stock Burned.

Mr. P. S. Richardson, of Pittville, this county, suffered a heavy loss last Friday afternoon. While the older members of the family were at work in the field at a considerable distance from the house, Mr. Richardson's little son accidentally set the barn on fire while playing with matches. Before anything could be done to stop the flames, the structure, together with three horses, three steers, a large quantity of grain, agricultural implements and other property, was consumed. The loss is reported to be \$2,000; insurance amounting to \$480.

Rock-awakening Station.

Our correspondent at Rock-awakening writes that the platform at that station will be covered so as to protect fruit and other products from wet and rain. That station, he says, will have all conveniences of telegraph and mail for the shippers, and some of the best and most widely known commission houses in the city are represented by very capable and experienced men.

Miss Lizzie Twiford, of Sharpdown is a guest of Miss Lillie Dorman on East Church street.

SALISBURY ADVERTISER.

ISSUED EVERY SATURDAY MORNING. Thos. Ferry, Publisher.

Mr. H. Clay Hendrickson of Millington, Kent county, Md., writes to the Salisbury Sun as follows: "I see in your paper that ex-Governor Biggs of Delaware, says that there will be a good crop of peaches around this place. I have observed the peach trees very closely this spring, and my opinion is that there is at this time a prospect for about one-fourth of a crop in this vicinity. I judge by the bloom, as the trees are now out in bloom. On the very early varieties—say Alexander and Early Louise—there is a full bloom, and on Mountain Rose, Early St. John, Crawford's Early, Reeve's Favorite, Stumps Crawford's Late and Prize, there is hardly any bloom, not one-twentieth of what there ought to be at this time of the season. The peach trees are all late peaches, and in September about the 10th of the month—are all full of blossoms now, and the prospect for those varieties of peaches is good for a fair crop at this time. So you can judge by this that the prospect for a good crop of peaches will be very bright when the time comes to gather and market the crop."

What Certification of a Check Implies. It is held that the certification of a check attests, the genuineness of the signature and the presence of sufficient funds to pay it, the bank reserving the amount certified and regarding it as having been already paid and, therefore, unavailable for other use. The courts hold that the certification relieves the check of all defenses when it has passed into the hands of a bona fide holder for value. The bank, by its certification of the check and charging the amount against the drawer's account, becomes liable to pay the same to any bona fide holder. A certified check stands on the same footing as an accepted bill of exchange so far as the rights of the holder are concerned. By the act of certification imparts to the paper such a character as to rank with the highest kind of commercial paper.—American Banker.

An Antidote for Joke. A hardware drummer is responsible for the story that a clerk in one of our hardware houses was informed that the last fall's goose was sold and to order a dozen more. After puzzling over the matter for some time he wrote on a piece of paper as follows: 12 tailor geese. 12 fall's geese. 12 tailor geese. 12 fall's geese. 12 fall's geese. 12 fall's geese. Then he got rattled, scratched his head, looked in the dictionary and finally formulated the following: "Gents please send at once one tailor's goose and eleven others."—Burlington Hawkeye.

The recent death of Miss Sarah N. Randolph, the great-granddaughter of Thomas Jefferson, calls to mind the fact that to her we owe one of the most delightful biographies of the great ancestor that has ever been written. Her book, entitled "The Domestic Life of Thomas Jefferson, first published some twenty years ago by Harper & Brothers, although written chiefly for the purpose of giving a faithful picture of the great statesman in his private life and relationships, has won no little praise for its frank and judicious exposition of the manners and thought of the times in which he lived. It is a work of permanent historical value.

Rheumatism cured in a day. "Mytic Cure" for Rheumatism and Neuralgia radically cured in 1 to 2 days. Its action upon the system is remarkable and mysterious. When Baby was a child, we gave her Castoria. When she was a young girl, she used Castoria. When she became a woman, she clung to Castoria. When she had children, she gave them Castoria.

Wanamaker's.

Gauze Crepon. Two Summer lovelinesses in one! Wrinkled, crinkled prettiness of the Crepons; filmy flakiness of the fine gauzes. Both beauties bettered by the union. Until now \$1.25, this lot shall floated out at 75c. Shades, 14 inches, 43. Two styles 48-inch crocodile crepon, strikingly drish as the crocodiles go, drop from \$2 to \$1 the yard. Twenty three delightful dyes. Don't ask the cause, be content to take two dress patterns at the Saturday cost of one. Lupins's Beatrice. Every woman knows that old time favorite. Fine, soft, with the delicate downiness of a peach. You know it as \$1 stuff, and worth it. Here it is at 75c, in cream only. Probably the last you'll ever hear of it at the price.

Time now for cool things, for gingham, percales, persian Mulls. Mountain mornings; seaside seasons call for more dresses to meet more demands.

Here are gray hues for evenings, fresh tints for mornings, dark shades for shadowy days. The woman of taste can find tasteful material. Thread and needle will do all the rest.

Cotton never was cheaper, never more charming, never took lovelier forms. Like its own fields in summer, gay, beautiful. Wondrous whiteness o'erstrewn with bright bloom.

Zephyr gingham—as light almost as the breeze they were named for. Queenly brandenburgs, where roses and posies run riot; Oxford Chevots for outings; lawns and madras for indoors; Riga cloth batiste, Galatea and all the rest of the summery sisterhood for special needs.

Polka dot gingham, 29in., 45, 50 60c. Cotton and Silk Gingham, 29in., 75c. Bedford Cord Crepon and Zephyr Gingham, 25 to 60c.

Yankee Gingham, 12, 15, 20, 25c. Special bargain Zephyr Gingham, 18c. Madras Cloth, 32in., 30c. Monseigneur de l'Inde, 30in., 35c. Riga Cloth, 21in., 25c. Comu Batiste, 29in., 25c. Brandenburgs, 31in., 20c. Cornard Cloth, 27in., 35c. Galatea, 27in., 30c. French Organdy, 31in., 37c. But a mere list means next to nothing. No hint in it of the great heaps of every sort. It is the grandest stock of dress cottons in America that we invite you to look at, and choose from if you wish.

Japanese Rugs. Silky soft of them, but not silk. Jute. Others cotton in coolest colors. Just the summery rug something to cheerify and make mellow the hard floor or the plain China matting. Good for anywhere that has a rug need.

The sun may stare but the color stays, subdued Oriental colors that grow so on your liking if you live with them. Odd patterns, Japanese in every way; odd prices, littler than ever you knew.

A WOMAN AND A DEER.

A REMARKABLE CAPTURE ON PINE RIVER IN MICHIGAN.

Mrs. John Towle, of Strongville, has had a Really Thrilling Experience in Her Life—This Story Shows That She Not Only Has Nerve but Strength.

One of the best known characters to fishermen and sportsmen in upper Michigan is Mrs. John Towle, of Strongville, a small deserted village on the Pine river, twelve miles below Rudyard.

Mrs. Towle came to this country from Aalborg, Denmark, twenty years ago, and settled down in Newport, Vt.

She was called to attend her present husband, who was confined with a broken shoulder, after the doctors had given him up.

FIGHTING WITH A BABOON.

A Man's Desperate Hand to Hand Battle with a Monster Anthropoid.

I was walking through my lands and had my gun with me, and the baboons were screaming on the top of the rocky precipice that overhangs my homestead.

The dogs in the farmyard, on hearing the noise the baboons were making, rushed up to the mountain and were soon engaged in a deadly fight.

I took my gun and climbed up the mountain to the precipice, and fired and wounded one in the shoulder; he was immediately pursued and tackled by the only dog left, the others having been killed.

I was just in the act of hurling one of them at the baboon when suddenly a tremendous male baboon, the largest I have ever seen, came straight at me in a defiant manner.

I put my money into a pocket and I finally concluded to strike for Nevada, and I had just started on my way when I was arrested by a man who had been exploring to a very limited extent, and when I made known my intention many and urgent were the offers.

I was just in the act of hurling one of them at the baboon when suddenly a tremendous male baboon, the largest I have ever seen, came straight at me in a defiant manner.

WHAT DOES IT MEAN?

The "ring" leaders of the Republican party have been accused for some weeks of conspiring to defeat Harrison for a second term.

Among these potentates are Senator Matt Quay, ex-Senator Platt of N. Y., and the famous block of five Dullies, of Indiana. Now comes Mr. Clark, chairman of the National Committee forward and suffers himself to be interviewed; and this is what he says:

"The 7,000,000 Republicans who will be represented at Minneapolis have not made up their minds regarding their candidate. The results of the conventions held in the different states clearly show this. There will be more instructed delegates in the Minneapolis convention than has ever been known in the history of the Republican party. The Northern States and states which cast the electoral votes which will elect have almost every one of them sent uninstructed delegates. The majority of the instructed delegates come from the Southern States.

"Some of the able editors and Federal office-holders claim the nomination is settled already. I certainly do not think so. But as for being a party to any conspiracy in favor of the nomination of Blaine, Sherman or Harrison I desire to enter a protest. There seems to have been considerable ill-feeling manifested of late regarding the nomination, those who claim the whole situation is clear getting excited if anyone differed with them. I will keep out of the contest and cast my vote for whomsoever I shall determine will be a winner."

"Then you do not think Mr. Harrison will be nominated on the first ballot?"

"Now, you cannot draw me out as to whom I think will be nominated. Without much doubt, there will be several ballots cast. The man must be very popular who would secure the nomination on the first ballot when such a large proportion of the delegates are uninstructed."

If Mr. Harrison is not nominated on the first ballot, he will stand a first class chance of returning to Indiana as a private citizen after March 4th, '93.

The Democratic primaries for Wicomico county have been called for May 28th, next Saturday, to send delegates to the county convention which meets in Salisbury May 31st. It will be the duty of the County Convention to select four delegates to represent Wicomico county in the State Convention which meets in Baltimore June 8th. Also to name the delegates to the Congressional Convention which meets at Ocean City July 20th.

At the town election held recently in Cambridge, Md. determining the representatives to the town commissioners shall be authorized to issue bonds to an amount not exceeding \$50,000 for the establishment of water works, the friends of the measure were successful by a good majority. Five hundred and eighty-seven votes were cast, of which there were 266 for and 221 against, a majority of 145 in favor of water works. The act of Assembly under which the vote was taken makes it discretionary with the commissioners about the issuance of bonds, and as a new load of commissioners will be elected early in June the question of water works will enter largely in the contest. There are already a large number of candidates in the field.

Delaware for Cleveland.

DOVER, May 17.—The Democratic State Convention of Delaware, to select delegates to the national convention, met in Dover today. The convention was called to order at 2 o'clock by Wm. H. Stevens, chairman of the State committee. Thos. F. Dilworth was chosen permanent chairman. Dr. Edward Fowler and B. A. Hazel were vice-presidents. The delegates from the three counties met in separate sessions at first. Those selected are: ex-Secretary of State Thomas F. Bayard and Hiram R. Boris, delegates, and ex-Congressman Charles B. Love and Theodore F. Armstrong, alternates, from New Castle county; Richard R. Kenny and Gov. Robert J. Reynolds, delegates, and Dr. Nathan Pratt and Wilson T. Caverder, alternates, of Kent county; Congressman John W. Causey, Speaker Wm. L. Sirman, delegates, and E. L. J. Morris and Henry O. Pennington, alternates, of Sussex county.

The work of the convention is practically done in caucus, and it is there the fight of the aspirants is made. The convention only ratifies the action of the caucus of each of the three counties. All during the morning these secret sessions were going on. There was much hurrying and anxiety manifest among the friends of those who wished to represent the State at Chicago. The result apparently left no scores, as the defeated aspirants accepted the situation with a good grace.

While the delegation is not instructed for Grover Cleveland the delegates are heartily in favor of his renomination, and under the leadership of Mr. Bayard will support him to the end. It is said to be contrary to the custom of the democratic conventions of the State to instruct its delegates, otherwise those selected would have been pledged to Mr. Cleveland's support, as the sentiment in the State and in the convention was overwhelmingly in his favor. This was demonstrated in the opening address of the temporary chairman, L. Irving Handy, who said that "the campaign inaugurated by Grover Cleveland in 1888 would be the campaign in 1892, and with that great and incomparable leader at the head of the democratic masses and the results of the work of the educational campaign that had been already begun and was still going on, the party would win such a victory in the coming election as was never before known in the history of the country."

The resolutions are a plain and unqualified endorsement of the principles for which the ex-President has always declared. The repudiation of free silver is unequivocal, while the general endorsement of the last democratic administration carries with it a tacit support of the policy of Grover Cleveland.

The whole tenor of the resolution is strong, straightforward and statesmanlike and bears the impress of preparation by ex-Secretary Bayard. They were reported to the convention by the committee on resolutions, through J. H. Whittman, the chairman, who read them to the convention. They were unanimously adopted by a rising vote amid great cheering.

Hon. Wm. Walsh Dead.

CUMBERLAND, May 17.—Hon. William Walsh, ex member of Congress, died here today of a complication of diseases, in the 61st year of his age. He was born in Ireland on May 4th, 1828, and came to America when 13 years old. He located in Virginia, but subsequently removed to Maryland. Shortly afterward he entered Mount St. Mary's College, at Emmitsburg, where he received a degree conferred on him the degree of LL. D. After going through a course of legal study partly at Ballston Spa, N. Y., he was admitted to the bar in Virginia in 1850. In 1852 he took up his residence in Cumberland, where he actively began the practice of his profession, in which he has been eminently successful, ranking among the most distinguished lawyers in Maryland. In the years 1860 and 1872 Mr. Walsh served as President elector on the Democratic ticket, and was a member of the state constitutional convention in 1867. He was then elected by the Democracy to the Forty-fourth Congress from the Sixth Congressional district of Maryland, and was returned to the Forty-fifth Congress. Mr. Walsh was the last Democrat to be elected to Congress from the district prior to the election of Gen. McKaig. In 1833 he married Miss Miriam Shane, a lady of lovely character and rare accomplishments, who survives him with two children, William Edward, an attorney, and Miss Clara. The Allegheny Bar Association met this evening and took action upon Mr. Walsh's death. He will be buried on Thursday at St. Patrick's Catholic Church, of which he was a member.

"I Am So Tired"

Is a common exclamation of this season. There is a certain bracing effect in cold air which is lost when the weather grows warmer; and when Nature is renewing her youth, her affluents feel dull, sluggish and tired. This condition is owing mainly to the impure condition of the blood, and its failure to supply healthy tissue to the various organs of the body. It is remarkable how susceptible the system is to the help to be derived from a good medicine at this season. Possessing just those purifying, building-up qualities which the body craves, Hood's Sarsaparilla soon overcomes that tired feeling, restores the appetite, purifies the blood, and, in short, imparts vigorous health. Its thousands of friends as with one voice declare "It Makes the Weak Strong."

The People to have a Say.

The Eastern Star seems to be opposed to Senator Gibson and the Eastern Democrat nominating the delegates to the State Convention. In its issue of the 17th it says editorially:

According to the Democrat, our Senator proposes to save the people of this county the trouble of selecting delegates to the State Convention, although the primaries have been called to take place on Saturday, June 4th, next, and the Democratic voters have been requested by the State Central Committee to assemble in the districts on that day, for the purpose of choosing delegates to the county convention, which is supposed to have delegated to it the power to select four gentlemen who shall represent this county in the State convention. But our Senator, according to the editorial in that paper, has concluded for the sake of harmony and for fear the people might not be able to decide who they would like to have represent them in this matter of choosing a nominee for President, has kindly come forward and made a choice for them in advance. As it is well known that our Senator has repeatedly expressed himself as being opposed to the nomination of Cleveland for President, and the people of this county are almost a unit in favor of Cleveland's nomination, we can hardly see just where this proposition of our Senator will produce that harmony which the Democrat so glowingly anticipates. If we understand the temper of the Democratic voters of this county; they will not allow dictation in this matter, and will insist upon choosing delegates themselves without any interference from Washington.

An important and highly interesting article on Mary Washington, appropriately illustrated, will be contributed by Marion Harland to the forthcoming number of Harper's Bazar. Another interesting feature of the same number will be the beginning of a short series of original papers by Florence Waters Snedeker, entitled "A Family Canon Trip," describing a summer voyage from the head of Lake George to the Adirondacks. These papers will be attractively illustrated.

—The Nanticoke Base Ball Club has been organized for the season. It is licensed to challenge to the Crisfield club to play a series of games and is open for other engagements. Nanticoke boasts of having one of the best clubs on the Peninsula. It has never yet met with a defeat. Salisbury would be a good place for some of our neighbors to meet the Nanticoke athletes and play a few "rubbers." We suggest that they try this method of finding out whether or not Wicomico has base ballists.

—Chief of Police Shockley arrested last Tuesday two suspicious looking men loitering around the N. Y. P. & N. depot, who answered the description of the parties that broke jail at New Castle, Del., last Sunday night. He telegraphed the sheriff of New Castle county, who came down on the night train but failed to recognize them. He said they answered the description of the jail breakers fairly well, but were not the proper parties. The prisoners were released Wednesday morning and sent on their way rejoicing that the avenue to success was still open to those who saw fit to "tramp" their way up it.

From B. C. Springs.

Farmers have not yet finished planting corn in this community. Much land is yet unbroken owing to its wet condition.

Strawberries are ripening up and shipping will be active by Monday or Tuesday. Some berries have been shipped.

The crop promises to be large here. White potatoes are looking well. Turpin H. Bennett and James Bennett, of the Springs left Wednesday for Boole, N. C., where they have secured employment. Master-mechanic A. B. Armstrong has gone to Alexander, W. Va., to superintend some building in that place.

The Annual Banquet.

The Annual Banquet of the Salisbury High School took place at the High school building last Friday evening.

These entertainments have become a prominent social feature to a fitting closing of the year's work.

The custom was instituted in 1881, eleven years ago, under the principalship of Prof. Dr. Wm C. Ingle.

The graduating class of 1891, consisted of Miss Jennie Tilghman (now Mrs. Dr. Turpin of Somerset), Miss Sallie Woodcock, and Miss Jennie Ward now deceased; Mr. George Waller, Mr. W. L. Todd, Mr. U. G. Corkan and Mr. G. S. Williams.

About one hundred and fifty invitations were issued for last Friday's banquet, nearly all of which were responded to.

The reception committee consisted of Mr. and Mrs. Thomas H. Williams, Miss Hannah Uman, Mrs. Edna Shepard, Master Hugh Johnson and Master Paul Phillips.

The guests included the pupils of the principal's department in the school, and all who were at any time during the course members of the graduating class of '92; all who took part in the commencement exercises, including the musicians and others; the ministers of the city, and members of the newspaper fraternity; the members of the school board, the examiner and attorney.

Vocal solos were rendered by Miss Maggie Fulton, and Miss Marian Waller. Refreshments were served at 10 o'clock, consisting of ices, confectioneries &c., which were served in excellent style.

The little folks engaged in various games during the evening. The members of the graduating class made their debut into society.

Leap Year Party.

The young ladies of Salisbury gave last Tuesday evening, at the residence of Mr. C. C. Waller, on Camden avenue.

The party consisted of the younger members of the social circle of the town. Those who preferred "tripped the light fantastic," often engaged in whist and other games.

Refreshments were served at 11 o'clock, consisting of ices, fruits, and confectioneries. Everything was done in true Leap Year style, the ladies acting the gallant, in escorting the gentlemen and showing the sterner sex the attention which they themselves on other occasions are accustomed to receive.

Those present were: Miss Maggie Fulton, Miss Annie Fulton, Miss Grace White, Miss Mary Reigart, Miss Ella Munford, Miss Mary Rider, Miss Lillie Dorman, Miss Irma Graham, Miss Clara White, Miss Mary Lee White, Miss Mary Jackson, Miss Alice Warren, Miss Marian Waller, Messrs. Don Graham, J. A. Perry, J. Cleve White, Wm. Leonard, Paul Phillips, W. S. Gordy, Jr., J. W. Laws, Gus. Towdine, Robt. P. Graham, Saml. Billing, Bert Fulton, C. C. Waller, Jr.

The London Novelty Company.

Mr. H. S. Brewington of Baltimore and Mr. Arrington of West Va. were in the city last Wednesday in the interest of the London Novelty Company with a view of establishing a manufacturing plant here.

The company are considering the question of purchasing the Wicomico Falls mills of Mr. H. T. Towdine and utilizing the power. The company have several valuable patented articles which they are preparing to manufacture. They ask the citizens of our city to subscribe \$10,000 stock to the company. The company is capitalized at \$100,000.

An informal meeting was held at ex-Mayor Towdine's office, Wednesday night, and a number of our leading citizens present. Among those present were Messrs. E. Stanley Towdine, James E. Ellegood, ex-Mayor Towdine, Messrs. G. H. Towdine, L. E. Williams, John D. Williams, A. A. Gillis, A. J. Benjamin and others. It was agreed to open books for subscriptions at once to give the city an opportunity to subscribe to stock to the extent of \$10,000.

Baltimore and Eastern Shore Railroad.

The Baltimore & Eastern Shore Railroad Company, we understand, has leased the B. S. Ford to ply between Claiborne and Baltimore, during the excursion season.

The Ford is one of the fastest steamers on the Bay and was very satisfactory in its season. The company are now at work getting out the summer time table. It is definitely settled that we will have two through trains a day each way, leaving Baltimore and Ocean City simultaneously, meeting at Claiborne, in the forenoon; and from the same points about 5 p. m. in the afternoons. The run will be less than six hours, probably about five hours and thirty minutes.

In addition to these trains a local train will run daily from Claiborne, leaving early in the morning and returning at 6 or 7 o'clock in the evening. For this train, special excursion tickets will be sold on Thursdays and good for the day. Three day tickets and season tickets will also be sold.

The Berry Crop.

The first shipments of berries from this county were made this week. From Nanticoke the first shipment was Monday evening by the Pratt; from Barron Creek and Salisbury the first shipment were made Wednesday morning by express. The crop will be on next week, on the light lands, but on the black lands it will be some days later.

The crop promises to be very large in this county. The acreage is larger than usual and the vines full.

The crop in Pittsville and Dennis' districts is said to be unusually large and of a quality the fruit very fine. The Pittsville berries stand as high as any berries that go into the New York or Boston market. Most all of the berries from this county will be shipped to Philadelphia, New York and Boston as crates will be furnished by the commission men for these points.

The hundred acres bought by Mr. Wilson includes the dwelling and outbuildings, and is located on the east side of the county road leading from Westover to King's road, and about 1 1/2 miles from the latter place. —Scribner Herald.

Historic Wicomico.

Col. Malone of this county in a recent communication to the Maryland Farmer gives the following interesting historical sketch:

Leaving Salisbury on the fine steamer Knott Pratt, of the Maryland Steamboat Co., we pass on the left bank of the Wicomico river one mile from Salisbury, the old Windsor mansion—a quaint old building, one hundred and thirty years old in which Gen. Winder resided at the time he took part in the battle of Bladensburg.

Opposite is Shad Point, which was for many years the head of steamboat navigation for the Wicomico river, where the people of Somerset and Worcester counties for many years took passage to Baltimore. This place lies at the mouth of Tony Tonk Creek, once called by the Indian Tunk-Tunk-Indian Town and is so described in some of the original land papers in Somerset county.

Further down, about eight miles below Salisbury, on the left bank of the river, is the old Judge Polk farm, on which the dwelling is still standing and in a good state of preservation. In this house Col. James Polk was born one hundred years ago. He was for many years Register of Wills for Somerset county, and during the administration of President James K. Polk, he was collector of the port of Baltimore, his sister, Ann Polk Johnson, was also born in this house. She was the wife of Judge Herschel V. Johnson of Georgia, who ran for Vice president on the S. A. Douglas ticket in 1860.

One mile further down, on the same side of the river, in the Trappe district, is the location where an old frame house with a brick gable stood fifty years ago—in which the writer ate dinner in 1838. In this house on the 17th day of April, 1741, Samuel Chase, one of the signers of the Declaration of Independence, was born.

Three miles further down, on the right bank of the river, stands old Green Hill Church, where the father of Judge Chase was rector at the time of his birth. This church was built in 1728, and was brought from England, in colonial times. This church is the Mother Church of Stepney Parish, which once contained Somerset, part of Worcester and Dorchester counties, Maryland, and the lower part of Sussex county, Delaware.

A Negro Lynched in Kent County.

Nelle Silcox, eleven years old, daughter of a respectable farmer of Kennedyville, Kent county, was brutally outraged last Sunday morning by James Taylor a negro who was then in the employ of the little girl's father.

She has since of injuries suffered in the struggle.

Taylor was arrested and placed in the Chestertown jail where he was closely watched. Threats of lynching were repeatedly made but not executed till about 9:30 Tuesday night when a body of masked men marched on to the Crawford House yard, armed with large sledge hammers, axes, guns, muskets and pistols, and went directly to the side door of the jail, the same door out of which Tom Thompson walked to his death. The crowd demanded of the sheriff that the door be opened, but this not being complied with, the sledge hammer was brought in use, and the door was soon broken open. The crowd then rushed up to the cells, and the prisoners in the various cells could be heard to shout: "For God's sake get the right man!" Taylor's cell having been located, the men at once commenced to break the door open. It offered a stout resistance, but finally gave way, and the crowd rushed in and quickly overpowered Deputy Sheriff Plummer, Officer Kelly, A. L. Dugan and others who were on guard.

A light was produced and Taylor was seen seated on the bed with his coat and shoes off. Having fully satisfied themselves that they had the right man, Taylor was quickly put around his neck and he was pulled down the steps and out of the jail yard into Cross street.

When the crowd reached a point between the Rockwell House and the old Armstrong Hotel the rope was thrown over the limb of a tree, and Taylor was soon swinging in the air. Again and again he was pulled up until life was extinct beyond all doubt. Many men in the crowd had guns and pistols, and persons were afraid that some excited man might fire at him, and frequent cries were heard of, "Don't shoot!" When the crowd felt sure that Taylor was dead, the rope was tied to the tree, and his body was left suspended two or three feet from the ground. The whole thing was over before ten o'clock, and the crowd then quickly dispersed.

Taylor died declaring his innocence. It is estimated that a thousand men were near the scene of the lynching.

FACE DISFIGURED.

Painful, Disfiguring Skin Disease. Every Known Remedy Failed. Cured in One Month by Cuticura Remedies.

Some time the last of last November I had some skin disease, in my face. It grew very bad, and about the last of December it became so painful that I knew, but all to no effect. My face grew worse instead of better. After trying every known remedy I ordered a box of Cuticura Remedies. I used it as directed, and in one month my face was well and as smooth as ever. I do not think the Cuticura can be used in all cases I have used it, and would not be without it. I have had for five years a skin disease, which I had never cured. It is good for every kind of skin disease, from pimples, from itching, from eczema, from scrofula, from leprosy to age, when the best physicians fail.

Another Bad Face.

I have used the Cuticura Remedies with great success for some time. My face was so bad that I was ashamed to go on the street. Every body had a cure, but none of them were any good. I tried several doctors, they gave me medicine, it did me no good. As a last resort I used Cuticura Remedies, with great success. —W. M. CLARK, Piedmont, W. Va.

Cuticura Resolvent.

The new blood and skin purifier, and greatest of Remedies. Cleanses the blood and impurities and restores the skin to its natural beauty. It is a powerful and potent remedy, and it is a good thing to have it. It is a good thing to have it. It is a good thing to have it.

HOW MY BACK ADHERES.

Back Ache, Kidney Pain, and Weakness, Rheumatism, Lumbago, Strain, Neuralgia, Sciatica, and all other pains of the Back, cured by the Cuticura Anti-Pain Plaster.

To those contemplating during the coming summer a trip to the mountains in search of health or pleasure, Deer Park, on the dome of the Allegheny Mountains, 3,000 feet above the sea level, offers such varied attractions as a delightful atmosphere during both day and night, pure water, smooth, winding roads through the mountains and valleys, and the most picturesque scenery in the Allegheny range. The hotel is equipped with such adjuncts conducive to the enjoyment, pleasure and comfort of its guests, as Turkish and Russian Baths, swimming pools for both ladies and gentlemen, billiard rooms, superbly furnished parlors, and rooms single or en suite, an unequalled cuisine and superior service.

The surrounding grounds as well as the hotel are lighted with electricity, have cosy and shady nooks, meandering walks, lawn tennis courts and grassy play grounds for children within full view of the inviting verandas. Six miles distant on the same mountain summit is Oakland, the twin resort of Deer Park, and equally well equipped for the entertainment and accommodation of its guests. Both hotels are upon the main line of the Baltimore and Ohio Railroad, have the advantage of its splendidly equipped Limited Express trains between the East and West, and are, therefore, readily accessible from all parts of the country. Season Excursion tickets, good for return passage until October 31st, will be placed on sale at greatly reduced rates at all principal ticket offices throughout the country. One way tickets reading from St. Louis, Louisville, Cincinnati, Columbus, Chicago and any point on B. & O. system to Washington, Baltimore, Philadelphia or New York, or vice versa, are good to stop off at either Deer Park or Oakland, and the time limit will be extended by agents at either resort upon application.

The season at these popular resorts commences June 22d.

For full information as to rates, rooms, etc., address George D. Deshields, Manager, Deer Park or Oakland, Garrett County, Maryland.

Saw her Baby Eaten.

Mrs. Mary Carter of Mountain Home, Ark., a widow with a family of small children, is a raving maniac as a result of a raid upon her little cabin by a half-starved black bear, in which two of her children lost their lives and one was half devoured before her eyes.

Her cabin stands upon a hillside some distance above the town. A heavily wooded grove extends to it, with the exception of a small clearing immediately before the house. In this patch her five children were playing, while the mother was engaged inside the cabin.

Suddenly the wild screaming of her children started her up, and she saw an enormous bear strike down her oldest boy, who had bravely attempted to defend the children in his charge. The bear seized her baby and shuffled rapidly away. She before help arrived from the village completed his meal and escaped within the forest.

The Wonderful Success.

Of Hood's Sarsaparilla as a blood purifier and cathartic. No other preparation has such a record of cures of Scrofula, Salt Rheum, Blood Poisoning, or other blood diseases. To try it is to know its merit. Be sure to get Hood's Sarsaparilla.

For a general family cathartic we confidently recommend Hood's Pills. They should be in every home medicine chest.

Revenge Sweet Revenge.

A man with a painful expression of countenance sat on a goods box. "Are you ill?" some one asked. "No."

"Have you lost anything?" "Never had anything to lose."

"What's the matter, then?" "I'm sitting on a wasp?"

"Why don't you get up?" "That was my first impulse, but I got to thinking that I was hurting the wasp as badly as he was hurting me, and I concluded to sit here a while."—From the Irish Times.

For Over Fifty Years.

Mrs. Winslow's Sore Throat Syrup has been used for children's teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by all druggists throughout the world.

"Grace to Some Soul."

It is related that at the marriage of Mr. and Mrs. Sumner Soule, of Freeport, Me., recently, the minister in the course of a long prayer, said: "Oh, Lord, give grace to some soul today." As the groom was known familiarly as "Sam" Soule and his bride's name was Grace the prayer was answered satisfactorily, although the clergyman was unconscious of having said anything so well fitting the occasion.

Rheumatism cured in a day. "Mystic Cure" for Rheumatism and Neuralgia radically cured in 1 to 2 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits, 75 cents. Sold by R. K. Truitt & Son, Druggist, Salisbury, Md.

When Baby was sick, we gave her Castoria.

Castoria is so well adapted to children that I recommend it as the best and most reliable remedy for all the ailments of infancy and childhood.

It is pleasant. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and all verminousness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria is an excellent medicine for children. Mothers have repeatedly told us of its good effects upon their children.

Dr. G. C. Osceola, 111 So. Oxford St., Brooklyn, N. Y.

Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have a few regular medical supplies what is known as regular products, yet we are free to confess that the merit of Castoria has won us to look with favor upon it.

Wanamaker's.

PHILADELPHIA, May 23, 1892.

Beautiful beatrice leads the train of elegant evening dress stuffs. Creamiest of the cream cloth goods—the creme de la creme of its class, 75c from \$1.

Crinkly crepes come close in beauty, 75c from \$1.25. Bordered grenadines grace the same galaxy, \$1 from \$1.75 and \$2.

Then crowd the waves of wool crepons, bringing every tint of loveliness, \$1 from \$2. Silk Bedford cords hold their own as old favorites, while diagonal glaze and its chevron cousins are still making bows as this season's debutantes. They came late, but they're none the less charming, 23 shades of the Bedfords Cord, 40 inches, \$1.25; 44 inches, \$1.50. The novelties in Chevron and diagonal glaze are 40 inches, price \$1.25.

The summer girl may gown gaily from any of these goods, and sometimes at half the early season's cost.

Alsilk black Grenadines. Dress Goods men who have known the market for a generation say there was never before in the history of Philadelphia retailing such another bargain in similar goods.

A drop almost to half prices, and that, too, just at the start of the grenadine season!

The wonder wouldn't be so great if the styles were a bit stale or the quantities small. Neither. Exactly the sorts that are highest in favor and grades that any woman would be glad to get.

24-inch All-silk Grenadines, pure dyes and fine weave, 50c. We have never sold this quality under 70c before.

23-inch Satin-line Plaid all-silk Grenadines in 12, 24, 36 and 48-inch widths, at 60c. Never sold before under \$1.25.

23-inch Alsilk Grenadines in six styles of polka dots and figures at 85c. Never sold regularly before under \$1.50.

Habtail Wash Silks. Genuine Jap. Genuine beauties, too, the beauty of honest excellence as well as of pure silk and pure dye.

Crumple a handful of it. Notice how smoothly it all falls back without a crease or a wrinkle? That means quality. No Mikado need there.

Woven stripes on white ground—all the desirable shades.

One of the coolest, most comfortable and most durable of summer silks. Ideal for women's blouses. Width 2 1/2 inches, price 75c.

Forty new designs in black India silk. The tropics are prodigal of patterns. 24-inch goods, 85c and \$1. The demand has been great, the supply sometimes limited. Enough now for every body.

Dress Goods remnants. Freshened every morning by the trade ends of the day before. Enough in the largest for a Woman's full Dress Pattern; enough in the smallest for a cunning costume for the child. Cheviot, Camel's Hair, Plaids, Stripes, Figures; all-wool, half-wool and mixes. Charming combines where the yards are too few, chances for taste and ingenuity. Goods just as good as when the stuffs were unscissored; prices grown small with the number of yards.

What was \$1.25 now 75c; what was \$1 now 50c; often times less than half. A windfall for women. The wise ones watch.

Irish Lawn, the stuff that looks and feels so like Linen Lawn. 8000 yards more of it floating in this morning. New styles but the same little price—12 1/2c. Only 8 yards (\$1) for a generous dress length.

Organdie Cord is a Cotton newness. Mostly in Chintz colorings. Width 30 inches, price 12 1/2c—makers meant it to be 15c.

These Books are all neat 12mos, well-printed from good type and each set boxed.

Prescott's Conquest of Mexico, 3 vols., \$1.00. Prescott's Conquest of Peru, 2 vols., .75. Cooper's Leather Stocking Tales, 5 vols., 1.25. Macaulay's History of England, 5 vols., 1.25. Dickens' Works, 15 vols., 3.75. Emerson's Essays, 2 vols., .55. Charles Lamb's Essays of Elia, 2 vols., .55. Sue's Mysteries of Paris, 2 vols., .55. Hogue's Tom Brown, 2 vols., .55. Alex.
