Mars as Seen From Peru.

New York, Aug. 10.—The Herald has received a cablegram from Professor Pickering who, in December, 1890, was sent to Arequipa, Peru, by Harvard College in prosecution of its self-announced task of making a complete map of the heavens.

"In my observation of Mars in the equator which are permeated with blue. Near the edges they appear light blue. The light is slightly polarized.

"The total size of the area is about 500,000 square miles, one half the size of the Mediterranean sea.

"On June 23rd a small dark spot appeared in the southern snow cap. Later this spot lengthened rapidly, and early in July it was a thousand miles long, dividing the snow in half.

"Sixteen hundred square miles of snow were melted within the last 30 days. The melted snow has apparently been transferred to the seas across the land.

"Small dark areas surrounded by snow appeared on July 10, and two days later I first saw a dark line in the fork of a Y-shaped mark in the direction of the sea. The line became more conspicuous on July 14, and on the 16th a dark area about the size of Lake Erie appeared on the northern side of the stem of the Y which was connected with the line in the Y-shaped mark.

DAY TIME AT OCEAN CITY.

Days and Nights of Pleasure on the Maryland Coast—In the Breakers in Full Dress.

OCEAN CITY, Md., Aug. 8.—It is universally said that more people have been at Ocean City, Md., this summer than ever before in the memory of the oldest. Large numbers of people are here from Philadelphia and Washington.

The bath-house proprietors had their hands full in supplying bathing suits. Some who were late had to don a wet suit or at least a heavy rubber coat.

The beach on Sunday presented a pretty sight from 11 o'clock until 2. The bath-house proprietors had their hands full in supplying bathing suits.

The morning parties and go-surf fishing. As soon as day dawns a boat is launched through the breakers and everybody is making a try at hooking bluefish and sea trout.

Sunday night every one of the fifty odd sandhoppers, sloops and catboats was in service, and miles and miles of sail were visible in the moonlight and the voices of many singers floated over the water like an echo many times repeated from vessel to vessel.

The police arrangements are excellent and one seldom hears of a disturbance. Another special object of the expedition was to be the observation of Mars during its present opposition.

Mexican Robbers Get \$50,000.

DURANGO, Mexico, Aug. 10.—The mail courier from Mazatlan has arrived here, bringing information of a bold and successful robbery committed by a band of brigands near Culiacan, in the State of Sinaloa.

A train of ten burros was on the way from the Yedras mines to Culiacan loaded with \$50,000 worth of silver sulphides in boxes for export. It was guarded by twenty men, who were attacked in camp four nights ago by the bandits, who numbered about fifteen men.

The Charles county Court House in Port Tobacco, was entirely destroyed by fire Wednesday night of last week. A lot of valuable papers and records were also burned.

From the Wicomico News we take the following: Mrs. Sine Taylor, perhaps the oldest lady in the county, died at her home near Sileom Tuesday morning at one o'clock.

Smith and his wife have every luxury that money can buy, but there is one thing lacking to their happiness. Both are fond of children, but no little ones prattle, no little feet patter in their beautiful home.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh of the Bladder.

Mr. Harry J. Waters was on Saturday last appointed State's attorney for Somerset county to fill the vacancy occasioned by the resignation of James T. Dennis, Esq.

Another Presbyterian clergyman has gone into the Protestant Episcopal Church. Rev. J. W. Hagenman, who recently resigned the pulpit of the Franklin Avenue Presbyterian Church, Brooklyn, to enter into Dr. C. L. Thompson's people's church movement, announced last week the change of his ecclesiastical relation.

Mr. Twiley C. Porter, who resides near Forestville, this county, lost a valuable mule in a peculiar manner about ten days ago. He was engaged in hauling timber in the woods, and unhitched the mule, which was before a yoke of oxen, and tying it to a tree, went a short distance away to swing up his load.

Mars as Seen From Peru.

New York, Aug. 10.—The Herald has received a cablegram from Professor Pickering who, in December, 1890, was sent to Arequipa, Peru, by Harvard College in prosecution of its self-announced task of making a complete map of the heavens.

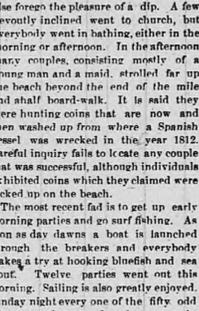

"In my observation of Mars in the equator which are permeated with blue. Near the edges they appear light blue. The light is slightly polarized.

"The total size of the area is about 500,000 square miles, one half the size of the Mediterranean sea.

"On June 23rd a small dark spot appeared in the southern snow cap. Later this spot lengthened rapidly, and early in July it was a thousand miles long, dividing the snow in half.

"Sixteen hundred square miles of snow were melted within the last 30 days. The melted snow has apparently been transferred to the seas across the land.

"Small dark areas surrounded by snow appeared on July 10, and two days later I first saw a dark line in the fork of a Y-shaped mark in the direction of the sea. The line became more conspicuous on July 14, and on the 16th a dark area about the size of Lake Erie appeared on the northern side of the stem of the Y which was connected with the line in the Y-shaped mark.

Early Railway Travel. The first regular train service in England commenced on the Liverpool and Manchester railway on Friday, Sept. 7, 1825, two days after the opening of the line. It was not on a very ambitious scale. It was three times each way on "week days" and on Sundays was a special train.

The Girl is Useful. A most useful article for ladies to have in their possession is a girl, the like of which a friend of mine has just brought from Paris. The girl is made of gold leaf or filigree, substantial, but not heavy, and is studded all over with jewels of various colors. The ends are passed around the waist from the front, crossing behind, and, again coming forward, are allowed to rest on the hips.

The Jews and the Moon. Dr. Goldziher refers to the occasional lunularity of the Jews. "Queen of Sheba" is a name which has been a very frequent name for the moon. Even in the latest times the Hebrews called the moon the "Queen of Heaven" and paid her the same honors as those which were paid to the moon at the time of the captivity. What was the antiquity of this lunar worship among the Hebrews is testified (as has long been known) by the fact that when Mount Sinai in the history of the Hebrew religion. The mountain was in ancient times have been consecrated to the worship of the moon.

The Artist and His Kaleidoscope. The kaleidoscope is of wonderful assistance in geometrical drawing, and it is no use to say that this little toy is of no use to the artist. It is a fact that the greatest portion of the geometrical designs employed in art and architecture are copied by the artist from the figures produced by the kaleidoscope. The instruments employed are somewhat larger than the toys sold in the shops, and some of them are fastened upon stands in such a way as will enable the draftsman to retain his instrument in the same position for a long time. The time spent in this occupation is not a waste of time, and thus give him an opportunity to make copies of the figures produced.—St. Louis Globe-Democrat.

Fate has dealt another wooden town a severe blow. Delmar is the victim this time. It is to be hoped that the citizens of that heretofore prosperous town will now go to work and build in brick and iron. It is cheaper in the end. Those who build wooden towns take all the chances that they don't pay the insurance companies to take. It is only a question of time when they must go. Their builders play all the time with the chances against them and they are sure to lose.

Brick houses are cheaper for business places than frame. These are our figures for the proof: It is conceded by all builders that brick only costs about 25 per cent more than wood. There a house that costs \$4000 in wood would cost \$5000 in brick. Such a house would be required to carry a \$15,000 stock of goods. Frame buildings in blocks cannot be insured for less than two per cent. On your frame building and stock (\$20,000) your insurance would be \$400. To this add the interest on \$4000, or \$240, make the aggregate of insurance and interest on money invested in house, \$640. Brick buildings can be insured for three quarters of one per cent. The same building in brick which costs \$5000 can be insured for \$37.50, and stock at one per cent, \$150, making the total insurance \$187.50, which added to the interest on the money invested in building (\$5000) \$300, making the aggregate of insurance and interest on money invested \$487.50 against \$640 when your building is wood. This leaves out of the calculation three important facts: First, the expense of keeping up repairs on brick buildings, which will be considerably less; secondly, the period when a new building must be replaced the old is much more distant; and thirdly, brick buildings need not be insured for more than two thirds their value, for the owner to be saved intact in case of fire.

It is to be hoped that the people of Delmar will consider these facts before beginning the work of rebuilding. Now that they are literally blotted out, and must begin again at the beginning, it is important that they begin right. If you build of brick you will have no trouble to get assistance; for you can get your property insured. If you put up buildings that insurance companies will not take risks upon, then you cannot get outside help. Insurance companies are fighting shy of wooden towns. Consider all these things before beginning to rebuild. You have the sympathy of Salisbury in your troubles. We know what it is to be turned out into the streets homeless and breadless. No man can sympathize like him who has "passed through the same" fire. No one can so heartily extend sympathy. Whatever you do, start right, and see that your neighbor does likewise.

Ask Your Friends Who have taken Hood's Sarsaparilla that they think of it, and the replies will be positive in its favor. One has been cured of indigestion and dyspepsia, another finds it indispensable for sick headaches, others report remarkable cures of scrofula, salt rheum and other blood diseases, still others will tell you that it overcomes "that tired feeling," and so on. Rely on the best advertisement which Hood's Sarsaparilla receives in the hearty endorsement of the army of friends it has won by its positive medicinal merit.

Local Briefs.

Miss Mary Evans of Wilmington, Del., is visiting relatives here. Dr. George W. Truitt and Mrs. Truitt are visiting friends in Salisbury. Coughing leads to Consumption. Kemp's Balsam will stop the cough at once.

Miss Maddox of Wilmington, Del., is a guest of Miss Annie B. Maddox of this city. The Misses Walter, of Rock Fish, Va., are guests of Mr. Ebenezer L. Wallis and family.

Members of St. Peter's choir will aid in the services at Green Hill on St. Bartholomew's day. Miss Jennie W. Waller left Wednesday for Cecil county, where she will spend several weeks.

Mr. Geo. H. Toadwin, who has been in the hardware business with Mr. L. W. Gunby for several years, left Wednesday night for Philadelphia, where he has a position with H. M. Stiple & Co., engine and boiler manufacturers. Mr. Toadwin is a son of the late Stephen P. Toadwin, and has many friends in Salisbury, whose best wishes he takes with him.

Removal of Old Soldiers and Soldiers. Two important events of interest to sailors and soldiers of the late war will be the Remoion of the Naval Veterans at Baltimore, September 15th to 18th, and the Encampment of the Grand Army of the Republic at Washington, commencing September 20th, immediately after the Soldiers' Remoion. Interest in the reunion will be heightened by the presence of White Squadron in the harbor of Baltimore. The G. A. R. Encampment will be the occasion of the greatest military assemblage in Washington since the Grand Review of 1865, following the fall of Richmond. For both of these events the Baltimore and Ohio Railroad will sell tickets at greatly reduced rates. Tickets will be sold from September 13th to 20th inclusive, valid for return journey until October 10th. During the Encampment at Washington the Baltimore and Ohio Railroad will run Excursions daily to Gettysburg, Harper's Ferry, and the Virginia battlefield, to all of which points tickets will be sold at low rates. The Baltimore and Ohio is the familiar route to thousands of veterans who traveled over it early in the sixties as raw recruits to join the ranks.

\$8,400 in Each Case. Edward Lawson and Edward Muir, charge with refusing to work the public roads in St. Peter's district of Somerset county, were fined \$8,400 each. The costs were each \$150 and costs. The appeals were taken and the cases will be reviewed before the Circuit Court. Another indictment pending before the Circuit Court in St. Peter's district were before Justice Rider Tuesday morning, namely, Thomas Shores, William Bosman, J. Wesley Bozman and Severn Laird. They were each fined \$5 and costs. In the other cases the cost amounted to \$17. In the other cases the cost was much lighter. Hodson & Hodson represented the defendants and Harry J. Waters appeared for the State. Appeals were taken in all the cases.

Of Frederick, Md., suffered terribly for over ten years with abscesses and running sores on his left leg. He wasted away, grew weak and thin, and was obliged to use a cane and crutch. Everything that he tried failed, until he used Hood's Sarsaparilla, which effected a perfect cure. Mr. Hauer is now in the best of health, and his case will be a good illustration of the power of Hood's Sarsaparilla. For particulars of his case will be a good illustration of the power of Hood's Sarsaparilla. For particulars of his case will be a good illustration of the power of Hood's Sarsaparilla.

HOOD'S SARSAPARILLA. Hood's Sarsaparilla is the best for skin diseases, such as eczema, psoriasis, and other eruptions. It is a powerful blood purifier and will cure all cases of impure blood. It is sold by all druggists and is a household name.

Readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing his work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. F. J. CHENY & CO., Toledo, O. Sold by Druggists, 75c.

The Peninsula Ledger says: W. A. Lanford, of Salisbury, and James McAllen, James Powell and Wood Furness, another finds it indispensable for sick headaches, others report remarkable cures of scrofula, salt rheum and other blood diseases, still others will tell you that it overcomes "that tired feeling," and so on. Cholera and Small-Pox.

From a circular recently issued by the State Board of Health of Maryland the following extracts are taken: "By reason of the tide of immigration, cholera may at any time be brought to the larger cities of this country, and it is not improbable that it may be introduced into any inland town by some traveler, immigrant or returning tourist, even before it appears on the seaboard. No locality can be regarded as safe from its menace so long as we receive immigrants and travelers from infested districts.

Experience has demonstrated the fact that cleanliness is the best protection against cholera. When once introduced into a community its ravages are most severe and most fatal in the unsanitary localities, while the maintenance of good hygienic conditions contribute to lessen its fatality. But even if there were no danger from cholera, it should be remembered that every thing which is done in the direction of sanitary improvement benefits the general health, reduces the amount of sickness and lessens the death rate.

With a pure water supply, a great outbreak of cholera would be next to impossible, with a reasonable careful mode of sewage disposal, the risk from the disease would be greatly lessened, while with pure water, complete cleanliness and proper disinfection only isolated cases would occur. To enforce cleanliness only when the danger is present is a false and dangerous proceeding, and has much the appearance of the comedy after the tragedy.

Cleanliness and courage are the strongest weapons against cholera; filth and fear are the very worst. Small Pox is more widely diffused and more severe than small in this country at this season of the year. The same is true in Europe and in Canada. In British Columbia and Mexico there is considerable alarm. The disease exists at this time in various places upon the Ohio River and the Great Lakes, and the increase in the number of cases in various sections of the country, most of the obvious duty of everyone to consider the importance of being vaccinated and re-vaccinated at this time.

The State Board of Health recommends to parents and to the Board of School Commissioners, every county of the State, that vaccination as required by law, be enforced in accordance with the statute; and that all adults be re-vaccinated without delay. The law exacts, under a penalty of one dollar, that parents shall have their children vaccinated within twelve months after birth, and excludes from the schools any child or person who has not been properly vaccinated. Good sense and self preservation require that all adults should be re-vaccinated every five years, or whenever there is, as at present, threatened invasion of Small Pox.

Mrs. Millon goes to ride she travels forth in state. Her horses, full of fire and pride, go prancing from the gate; But all the beauties of the day she views with languid eye. Her flesh in weakness wastes away, her voice is but a sigh.

For Mrs. Millon is in an advanced stage of catarrh, and all the luxuries that wealth can buy fail to give her comfort. She craves for relief, and would give all her riches for that young woman's pure truth and blooming health. Now, if some true and disinterested friend would advise Mrs. Millon of the wonderful merits of Dr. Sage's Catarrh Remedy, she would learn that her case is not past help. \$500 reward is offered by the manufacturers for a case of catarrh in the head which they cannot cure.

Ahead of Time. A young gentleman and wife from Baltimore have been visiting friends in Kent county and while there their four-month old child was taken sick. The child grew worse and during the recent warm spell the father walked in St. Paul cemetery. He also went to Mr. Ward and contracted for a coffin, saying although the babe was still living it would no doubt die the next day. Wednesday the child was much better and drank one quart of milk. -Kent News.

Mr. Chas. N. Hauer. Of Frederick, Md., suffered terribly for over ten years with abscesses and running sores on his left leg. He wasted away, grew weak and thin, and was obliged to use a cane and crutch. Everything that he tried failed, until he used Hood's Sarsaparilla, which effected a perfect cure. Mr. Hauer is now in the best of health, and his case will be a good illustration of the power of Hood's Sarsaparilla. For particulars of his case will be a good illustration of the power of Hood's Sarsaparilla.

HOOD'S SARSAPARILLA. Hood's Sarsaparilla is the best for skin diseases, such as eczema, psoriasis, and other eruptions. It is a powerful blood purifier and will cure all cases of impure blood. It is sold by all druggists and is a household name.

Readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing his work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. F. J. CHENY & CO., Toledo, O. Sold by Druggists, 75c.

The Peninsula Ledger says: W. A. Lanford, of Salisbury, and James McAllen, James Powell and Wood Furness, another finds it indispensable for sick headaches, others report remarkable cures of scrofula, salt rheum and other blood diseases, still others will tell you that it overcomes "that tired feeling," and so on. Rely on the best advertisement which Hood's Sarsaparilla receives in the hearty endorsement of the army of friends it has won by its positive medicinal merit.

Spread of Peach Yellows in Delaware.

The disease known as peach yellows is spreading with alarming rapidity in this section, and unless checked will destroy all the orchards at the present rate, in three or four years. It is now found in almost every orchard in Milford and Cedar Creek hundreds. The yellow commissions have made their second inspection this year, and in many cases find ten times as many diseased trees as in May last. As a rule the inspection has been carefully and intelligently made, and the marked trees removed, but there are exceptions, in some cases trees afflicted by worms only being removed.

The yellow first made its appearance in Milford hundred in 1887. That year several orchards had one tree each affected by the disease; in Cedar Creek hundred the disease appeared a year later. In 1888 these orchards averaged about six diseased trees each, the next year about 20. This season those orchards are affected to the extent of one third to one-half their trees. Neither old trees or young ones, large or small, on right soil or on poor soil, those cultivated or those neglected, are exempt. No cause for the disease is apparent and all theories are at fault.

WEAVING WAS AN ART

A little world inhabited by men and women, in the days of homespun women, was a world of work.

Then from a distant part of space, never so far from the present world, a new world of spinning was revealed.

imitations, and counterfeiters of Dr. Pierce's medicines, though sold at lower prices than the genuine medicine, are sold at any price. Beware of them. Old bottles are refilled, new ones tampered with, all sorts of substitutes offered at "cut prices," by unscrupulous dealers, who are not authorized to sell Dr. Pierce's genuine medicine. Don't be deceived by them.

These genuine, world-famed remedies are now sold only through druggists, regularly authorized as agents, and under a positive guarantee of benefit or cure, or money refunded. The makers take all the risk. Practically, they sell them to you on trial. On these liberal terms, the genuine guaranteed medicine can be sold only at these long-established prices.

Have you noticed how little ice the Puritan Refrigerator eats, even in the hottest weather? That's one of its virtues. There are no dead air spaces in a Puritan Refrigerator, no corner hard to clean. We keep it at the head as simplest, best!

Still in the quickest of the bargain swim. You know the 2x2 1/2 yard Table Cloths with 3/4 Napkins to match; the ones that have made such a stir at the set. A new lot of them is just out of the Custom House at the same price.

Cloth 3 yards long and 20 x 20 in. Napkins at \$4.50 the set. Hemstitched Sets (Cloth 2x2 1/2 yards, Napkins 21 in. square) are \$11.50 from \$18.50. Longer Cloths up to 4 yards at proportional prices.

None of the "Cotton and Linen" Table Linens have place here. Flax and flax only is the fabric we stand by. In Towing as well as other goods.

20-inch Diaper Toweling at 14c; regular 20c. Cream Turkish Towels, at 12c. Heavy full back Turkish Bath Towels at 25c.

2 sorts at \$1.25, have been \$2.00. 2 sorts at \$2.00, have been \$3.00. 2 sorts at \$2.50, have been \$3.50 and \$4.50. 4 sorts at \$1.00, have been \$1.50 and \$2.00.

Similar Shoes for Boys and Girls at proportional rates. Colors are black, white, tan, brown and red.

How Mr. W. D. Wentz of Geneva, N. Y., was cured of the severest form of dyspepsia. He says everything he ate seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure.

The highest praise has been won by Hood's Pills for their easy, yet efficient action.

In the death of Chief Judge L. T. H. Irving which occurred at his home in Princess Anne on Wednesday, the 24th inst., the Judiciary of the State loses an able and useful member, and this community an upright and influential citizen.

Judge Irving served as an Associate Judge of this First Judicial Circuit from 1887 to 1879 when he was appointed, and afterward elected, Chief Judge, and served in that capacity in the Court of Appeals and on the Circuit from that date till his death.

Perhaps the services of no Judge in the history of our Judiciary has been less criticized or has been more acceptable to the bar and the people. Judge Irving's characteristics as a lawyer were conscientious painstaking and laborious research, and a high sense of right and justice.

The same characteristics were his as a Judge. His industry was wonderful; work seems to be his recreation and idleness a burden.

He reached his decisions after exhaustive reviews of the cases involving the same questions in his own Court and other Courts of the highest authority.

He was thus brought to reversing sometimes his nisi prius opinions, but once reaching a deliberate conclusion of law, no man was firmer in his conviction or more ready with argument to sustain it.

His characteristics as a man were catholic friendliness, unbounded liberality and charity.

JUDGE IRVING'S SUCCESSOR.

In 1879, upon the death of Judge Stewart, Chief Judge of the First Judicial Circuit of Maryland, Judge Irving, who was then one of the associate Judges of the circuit, was elevated to the Court of Appeals bench, and the late Judge Goldsborough appointed his successor.

It will be remembered that Judge Wilson, who was then on the bench as the other Associate Judge, had been there but a short time, and was comparatively inexperienced in the law.

Judge Irving was the only experienced Judge in the district. He was for this reason, by unanimous consent, placed upon the Court of Appeals bench.

The death of Judge Irving, which took place at his home in Princess Anne last Thursday evening, has caused again a very similar condition of things.

There is now left upon the bench Associate Judges Holland and Lloyd, the latter with an experience of only six days and no other man in the district with any experience on the bench.

Would it not be a fitting tribute to the ability, experience, qualification and long years of honorable service, for the district to come forward now and ask Governor Brown to elevate his Honor Judge Holland to the Court of Appeals bench?

Wicomico county would be glad to see her son thus honored. On this point sentiment throughout the county is unanimous. This same unanimous sentiment would send to the judicial convention, in case the governor should appoint him, a delegation in favor of nominating Judge Holland in 1893.

Judge Holland has served as Associate Judge very acceptably to the bar of the circuit. His elevation to the chief judgeship, we have reason to believe, would be very satisfactory to the people of all the counties.

Personally he does not wish to be consulted in the matter. That is an honor that should come unsought, if at all, and whatever his friends may do, the matter will be entirely satisfactory to him.

Wicomico feels that the fitness of things demands that he should be honored with the appointment.

Shown off the stump.

An important incident happened in connection with the large Farmers Alliance picnic at Public Landing, in Worcester county, Wednesday last week.

A stranger attempted to infuse politics into the meeting, which aroused the ire of the farmers and came near causing trouble.

The speakers selected to address the farmers were Prof. Thomas H. Spence, Dr. Sylvester K. Marshall, E. J. C. Parsons and J. Fred Woolley. President of the Snow Hill Alliance, Charles S. Capper presided and introduced the above-named gentlemen to the audience.

The speakers having concluded, Mr. Capper called for another tune from the band. Just as the music ceased a medium-built, light haired man, unknown to the Worcester people, leaped upon the platform and began to abuse President Harrison, Grover Cleveland and the Democratic and Republican parties alike.

He denounced the speakers who had addressed the meeting and made some very personal allusions to them.

The band played and drew most of his audience away, but he resisted in his language. The band then went up and surrounded him in such an effective manner that he was blown off the stump. It was all the chairman of the committee of arrangements could do to keep some of the menial Alliance men from throwing the intruder into the bay.

Now, there are scores of Saraparilla and other blood purifiers, all cracked up to be the best, pure, most peculiar and wonderful of all that bear in mind for your own safety, there's only one guaranteed blood-purifier and remedy for torpid liver and all diseases that come from bad blood.

That one—standing solitary and alone in the "old on trial," is Dr. Pierce's Golden Medical Discovery.

If it doesn't do good in skin, scalp and scurfous diseases—and pulmonary consumption is only lung-scuffing—just let its makers know and they'll give you back.

Talk cheap, but to back a poor medicine, or a common one, by selling it on trial, as "Golden Medical Discovery" is sold, would bankrupt the largest fortune.

Talk cheap, but only "Discovery" is guaranteed.

Ask Your Friends.

Who have taken Hood's Saraparilla who think of it, and the replies will be positive in its favor.

One of the best of indigestion and dyspepsia, and other ailments for which it is indispensable for sick headache, others report remarkable cures of scrofula, salt rheum and other blood diseases, still others will tell you that it overcomes "that tired feeling," and so on.

Only, the best advertising which Hood's Saraparilla receives is the hearty endorsement of the army of friends it has won by its positive medicinal merit.

The oldest woman in Georgia died at the poor-house at Thomsville on Sunday morning. It will sound like fiction to state Aunt Peggy Slater's age, but all her acquaintances and her old master say that her age was 123 years.

Aunt Peggy did not date events from the Civil war, as many do, but from the Revolution. Aunt Peggy had outlived all her children except one, and there was quite a number of them.

MARYLAND NEWS.

Brief Chronologies from Other Counties of the State.

Grasshoppers are becoming alarmingly plentiful in Washington county.

In several instances they have wrought ruin to vegetation.

David Bragunier, residing on the Williamsport pike, near Hagerstown, says his cabbage is nearly ruined by the insects' ravages.

They have also attacked the silk of his sweet corn. His turnip crop, he thinks, will also be shortened by the damage already done.

Reports from other places in the county state that some neighborhoods are infested with swarms of grasshoppers which are doing considerable damage.

Mrs. Garling, residing on the Cavetown pike, in Washington county, Md., while eating a peach was stung in the month by a bee.

She was found shortly afterward in an insensible condition from the effects of the sting.

She is recovering from threatened convulsions, but the doctor is not optimistic.

The drought is really distressing in most parts of Talbot county.

Parturition is gone, the corn is about done for, vegetables are failing and following wheat lands is impossible.

Prayers for rain were used in all the churches of Easton on Sunday.

Mr. Jeremiah Brodbeck, a retired farmer, formerly of Carroll county, died at the residence of his son, J. Wesley Brodbeck, near Lineboro, York county, Pa., on Sunday night, slightly three years.

Arthur B. Plummer has bought Mrs. Anna M. Bowler's farm in Oxford Neck, Talbot county, 170 acres, for \$8,500.

Mrs. Silas W. Barnes has returned from New York to her home at Aberdeen, Md., with her little son, who had been undergoing treatment at the Western Institute for the cure of a cat-scratch fever.

The little boy, after undergoing the prescribed course of inoculation, is apparently all right, and no trouble is expected to result from the cat bite.

Commander of the Oyster Navy are Capt. T. C. B. Howard, now in the service; Col. Wm. Henry Lepp, of Queen Anne's county; Capt. J. Fletcher Wilson, member of the House of Delegates from Kent county; Capt. C. E. Leonard, member of the House from Talbot county; Capt. Hedge Thompson, of Talbot county, who was formerly in the oyster navy; Capt. Wm. H. Thomson, of Baltimore city, and the present incumbent, General Seth.

John Fisher, a fisherman employed by Samuel McLane, of Ocean City, was drowned Monday afternoon at 4 o'clock in the surf, where he was seized with a cramp while in bathing. He had just disposed of his morning's catch of fish at the various hotels and had gone in the surf when the sea was running pretty high to wash off the sand beneath the waves within twenty-five feet of the shore.

Many persons saw his struggles from the beach and several rushed in to his assistance, among them Mr. James Juvenal, Edward, Lee and Abraham Carey, Charles Massey and William Parrell, but he was drowned and had disappeared before assistance could reach him.

This is the first drowning that has occurred at Ocean City since 1879, when Mr. B. S. Ford lost his life in the surf. He, however, had an attack of heart disease or of apoplexy while in the water. Young Fisher was the son of Charles Fisher, of St. Martin's Worcester county.

He was twenty-one years of age and a good swimmer. He was a waterman by occupation and familiar with the surf. No one, however, whether a good swimmer or not, is exempt from attacks of cramp in the water, which will disable the strongest and place the most expert in the hands of the waves.

Mr. and Mrs. John Detrich celebrated the sixtieth anniversary of their marriage last week at their home near Hagerstown, Md. Four generations of the descendants of the aged couple were present.

The Cumberland Iron and Steel Shaping Co. was incorporated under general laws with a limit of four years. The capital stock is \$100,000, all of which has been subscribed.

The incorporators are Robert Shriver, George Schwarzenbach, William Heavey, E. A. Biall, W. J. Muncaster, R. E. Henderson and Merwin McKaig. The director's names are Robert Shriver, W. J. Muncaster, R. E. Henderson, Wm. Pearce, Albert Charles, Merwin McKaig and Conrad Smith, Jr.

The directors will meet in a few days and elect their executive officers and a superintendent. Immediately after the election of officers a site for the location of the works will be selected.

The reputation of the McKaig shafting is world wide and orders for his shafting comes daily from all quarters of the globe.

Talk cheap, but when it's backed up by a pledge of hard cash of a financially responsible firm, or company, of world wide reputation for fair and honorable dealing, it means business!

If it doesn't do good in skin, scalp and scurfous diseases—and pulmonary consumption is only lung-scuffing—just let its makers know and they'll give you back.

Talk cheap, but to back a poor medicine, or a common one, by selling it on trial, as "Golden Medical Discovery" is sold, would bankrupt the largest fortune.

Talk cheap, but only "Discovery" is guaranteed.

The studios of Paris number 1,000 American girls among their students. It would be interesting to know just how great an imposture might be given to a national art if it were possible to aggregate their talents.

Salaries of British Officials.

The members of the British cabinet receive, as a rule, what may be termed pretty fair salaries, though they are not uniform.

For example, the Lord Chancellor, who presides over the House of Lords and dispenses the legal patronage, gets \$50,000 a year and a pension of \$25,000 when out of office after his first appointment.

The first lord of the treasury receives \$25,000, the lord lieutenant of Ireland \$100,000, the chancellor of Exchequer \$40,000 and a retiring pension of \$20,000, the attorney-general for England \$35,000, the solicitor-general \$30,000, the Irish attorney-general \$12,000, the first solicitor-general \$7,700, the lord advocate of Scotland \$11,840, the Scotch solicitor-general \$4,775.

The secretaries for the home, foreign, Indian, colonial and war departments and the chancellor of the exchequer are paid \$25,000 each.

The first lord of the admiralty receives \$22,500, the chief secretary for Ireland \$22,22

Contributions are still needed by the unfortunate whose possessions were consumed by the great fire of last week. The people of neighboring towns have, nevertheless, responded cheerfully and liberally.

How the correspondent of a Wilmington paper could have gotten such an idea is a puzzle to everybody. Certainly the people of Delmar are not responsible and they will not doubt be prompt to emphatically contradict a report, which, if it were true or possessed any semblance of truth, would be a burning shame against Salisbury, particularly when it is recalled that Delmar was one of the first towns to come to the succor of our people when this city suffered from the effects of a disaster in October, 1886.

Water Works for Crisfield. A special to the Baltimore Sun says: John H. Buxton, now of Laurel, Md., and formerly of Baltimore and Buxton, Md., has secured the franchise from the town commissioners of Crisfield, Somerset county, Md., to erect water works suitable for drinking, laundry and boiler purposes.

Death of Conductor Pierce. Wilson Pierce, a well known railroad man, late a conductor on the N. Y., P. & N. railroad, died in Richmond, Md., Wednesday last week, aged 40. Death is attributed to typhoid fever. The remains arrived at Delmar, his late home, at 5 p. m. Saturday.

Items From the Springs. Fodder saving is the order with our farmers now. The continued hot and dry weather through August has made the corn crop glutinous, and it has failed to fill out. There is an abundance of fodder, however.

ABOUT THE COURT HOUSE.

Meeting of County Commissioners—The School Board Fills a Vacancy in the Md. Agricultural College, and The Orphans Court Appoints a Pupit to Washington College.

The county commissioners, in session Tuesday, transacted the following business: Mr. Parsons reported that he had contracted with C. W. Lynch to build a bridge on Poplar Creek road in fourth district, for \$20. Allison Elliott was appointed collector of taxes for first collection district. Mrs. Elizabeth Hastings and F. J. Johnson surrendered the Connolly Mills to the county. Bond of W. Taylor, keeper of Upper Ferry for 1892, was approved. Treasurers are ordered to pay R. L. Gillis & Son \$17, for cash paid for working road grader. Elijah E. Holloway was appointed bearer of standard for weights and measures at salary of \$30. Report of commissioners tax ditch petitioned for by J. M. Adkins and others was filed, and it was ordered that the report be ratified and confirmed unless cause to the contrary be shown on or before September 27th.

At their regular session Tuesday the Orphans Court acted upon court matters as follows: Bond of Jas. E. Elligood, guardian, approved. Bond of C. W. Parker, administrator of Elijah D. Parsons, approved. Petition by E. Stanley Toadwin for deed from Jas. Cannon, administrator of Wm. W. Gordy, granted. Court appraised real estate of Mary A. Nichols. Separate debt of E. E. Nichols examined and allowed. Inventory of Elijah S. Parsons recorded. Bonds of Alice Windsor, administratrix of Albert Underhill, Albert and H. F. Pollitt, administrators of Levin J. Pollitt, Benj. T. White, administrator of Ellen White, approved and accepted. Will of Levin I. Pollitt admitted to probate. Receipt and release of Martha A. Culver granted. Petition Annie T. Morris, administratrix of Henrietta Byrd, granted. Court appointed Wm. F. Venables, of Baron Creek Springs, to the vacant scholarship at Washington College, Chester-town. Adjourned to meet September 13th.

POSNERS' BALTIMORE.

Lately through the kindly offices of this paper you have received a copy of our catalogue. You have preserved it of course? It would be a waste of time to allow so valuable a publication to be lost. We have given you one of these catalogues that you may always have by you an "encyclopaedia of merchandise-information." If you come into the store you will see all it treats of. But it is when you can't come that it is of its highest value. Then order by mail; trust it, rely upon it, consult it. It is "chuck full" of knowledge, advice and information. Write us for some of our order blanks if you are out of them. We will send them to you by the next mail.

PECULIAR ERUPTION.

All Over His Little Body. Pain Night and Day. Best Doctors Failed. Miraculous Cure by Cuticura.

Your CURTAIN REVEREND performed such a miracle upon my baby, I would not have believed it possible to give such a perfect expression to my gratitude. About three months ago he was afflicted with peculiar eruption, which broke out all over his little body and became so painful that he could not sleep. I tried every remedy that I could find, but to no avail. I was told to try Cuticura, and I did so. The first week the pain was greatly reduced, and by the second week he was able to sleep. By the third week he was perfectly cured. I can not say too much for Cuticura. It is a most wonderful medicine. I will be glad to give my experience to anyone who is afflicted with this or any other skin disease. Write to me for a copy of my experience. My address is: Mrs. J. E. Ellegood, Salisbury, Md.
