WANAMAKER'S

PHILADELPHIA, July 20, 1886.

Coming events cast their shadow before. Hence, fairly a word of the Sixth Annual Trade Sale of FURNITURE.

It commences August 1st. It embraces every article of furniture.

It means a saving of a quarter, third or half from regular furniture prices.

It interests every furniture waster within a hundred miles of Wanamaker's.

We commenced selling furniture a long while after we were fairly launched in selling other goods—early in 1885 to be exact.

We gathered what seemed a comprehensive stock and priced it fairly. It was the best of the several sorts on the market.

But buyers had come to look to Wanamaker's for better everything of goods. Usual furniture wouldn't do, though fairly priced.

Had to start all over again. Then we got right furniture, and we haven't had any other kind since.

Made for endurance; made not to warp, twist, come apart or fall down; made artistically.

It was something new under the sun.

People liked it, and gave us a bigger furniture trade than any other merchant ever dreamed of.

Makers like the change—they always like better when somebody else is brave enough to stand the risk.

Then came the August Furniture Sales—the dull month of the year utilized to distribute vast quantities of goods.

We could afford to do the store-keeping cheaply, for it was business and kept the wheels turning.

Everyone concerned could shade prices to make an all-the-year-round briskness.

Each year finds greater preparations in readiness for the constantly increasing demands; finds every price advantage turned your way.

WOMEN'S GLOVES. Dame Fashion has been kind to women this Summer and let them discard gloves half the time.

These for the other half: 4-button White Chambray Gloves, 75c. 4-button White Chambray Gloves, 75c. 4-button White Chambray Gloves, 75c.

This story should be sung in minor key, for makers' profits are gone; all gone.

TOWELS. Perhaps there may be a better every-day towel made sometime, but Huckaback has held the palm for many a year.

But to-day's prices are new: 24x44 in. all white Huckaback Towels at 18c instead of 30c.

10x39 in. bleached Huckaback Towels, fringed, 12 1/2c—four towels for the worth of three. All linen.

Turkish Bath Towels. Looped luxury added to the bath—and next to nothing to pay while we distribute 500 dozen. 12 1/2c each; 25c each—in either lot you buy four towels for the worth of three. Cotton, of course.

JOHN WANAMAKER.

Indoor Bicycle Riding.

Nowadays every one wants to ride a bicycle, but many do not attempt it because they dread the ordeal of learning in the first place they dislike the idea of abrasions and bruises, and in the second they can hardly bring themselves to the sacrifice of dignity which the fondlings of the beginner usually entail.

They need no longer hesitate. The bicycle can now be learned indoors, safe from prying eyes and without fear of falls. A new appliance designed for this purpose consists of a small wheel covered with rubber and two side wheels fitted with a simple arrangement by means of which it can be adjusted to any kind of cycle in two minutes.

Its great advantage is that the rider experiences the same sensation as in a spin on a hard road, while the machine either remains stationary or moves so slowly that in traversing 150 feet the same amount of exercise is obtained as in a mile of ordinary traveling.

Practice can thus be carried on in a hall or room, and riders can gauge the rate of speed their exertions have given them on the highway. For beginners, children and invalids needing physical exercise this invention is especially adapted as it stands on a level and enables the difficulties of mounting and dismounting to be thoroughly overcome without danger of falls or bruises.

The appliance is rollable, weighs 15 pounds and can be easily carried in the hand.—Exchange.

Wood Paving.

A nonslipping wood pavement has been recently devised which is claimed to be simple, inexpensive and efficient. It consists in preparing the wooden blocks before they are laid by boring a few holes in them and filling the same with a hard setting substance composed of crushed stone, sand and Portland cement. The compound is cleared off even with the surface, and when they are laid the roadway is thus covered with a series of small pits which arrest the foot of the horse in all conditions of weather, and prevent the animal from slipping. Wood paving is extensively used in England and France.—Northwestern Lumberman.

Division of the Seas.

One of the most remarkable churches to be found at Fredonville, in the Black Forest. It is built on such a plan that the men are unable to see the women, and vice versa, for it is composed of two wings, which meet at an angle where the pulpit stands. The right wing is allotted to men, and the left one to the women of the congregation.—Berlin Letter.

Right Ho, Was.

"Now," began the orator, "in considering the money question, let us avoid false issues. I have your air," shouted Mr. Fallwell. "I thought I was \$5,000 of 'em once, and it turned out to be sawdust."—Indianapolis Journal.

Man is the merriest, the most joyous of all the species of creation. Above and below him all are serious.—Addison.

The Catavissa river, in Pennsylvania, was named from an Indian word that means "getting fat."

Relief to Six Hours.

Relieving Kidney and Bladder diseases in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its rapid action in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by R. K. TRUITT & SON, DRUGGIST, Salisbury, Md.

Finland is properly Finland, "the land of the marshes."

That Tired Feeling is a common complaint and it is a dangerous symptom. It means that the system is debilitated because of impure blood, and in this condition it is especially liable to attacks of disease. How's Sarsaparilla is the remedy for this condition, and also for that weakness which prevails at the change of season, climate or life.

Hood's Pills act as a ly, yet promptly and efficiently on the bowels and liver.

Rheumatism Cured in a Day. "Mytic Cure" for Rheumatism and Neuralgia, rapidly cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75c. Sold by R. K. TRUITT & SONS, Druggists, Salisbury, Md.

Uruguay was named from the river which flows through it.

If the Baby is Coughing, Croup, and who has that old, well-tried remedy, Mrs. Wood's Soothing Syrup for children, teething, 15c each. It soothes the child, softens the gums, allays all pain, cures colic and is the best remedy for diarrhoea. 25c a bottle.

Canada is an Indian word meaning "collection of huts."

When Baby was sick, we gave her Cuticura. When she was CHILLY, she cried for Cuticura. When she became NERVOUS, she clung to Cuticura. When she had CHILDREN, she gave them Cuticura.

That Italic Good to Eat. Probably you have all noticed the little white puff balls in spring and "about" the same in autumn, when they are dry and full of dark powder. This is one of our choicest edible mushrooms. One admirer says he got a slice from a giant puff ball, which grew near his home, every day for a week and had so many fresh fritters, whereas, if he had cut it all down the first day, it would not have made nearly so many meals. One giant puff ball, when young and creamy, if well cooked, will satisfy the appetite of 12 people. In olden times slices of this mushroom were used to bind up cuts and were said to insure their speedy healing. In the days of tin and steel, before matches were invented, the powder of the dried puff balls was often used to catch and hold the sparks. Another strange use to which it was put was to burn it before a beehive. The fumes made the bees drowsy, and the honey could be removed without difficulty.—Margaret W. Leighton in St. Nicholas.

The Dipsos Demand. It is doubtful if such a condition of affairs as exists at present in the bicycle business has ever before been witnessed by our naturally wide awake consumers. Whereas a leading manufacturer of wheels but has found his sales—through agents greater in number than he ever supposed it was within his ability to guide—so far surpass his most sanguine expectations that he is today unable to supply to any appreciable extent the constant, steady and increasing demand for high grade wheels apparent on every hand.—Hardware.

DAY OF THE DEAD IN PARIS.

Curious Scenes During the Pilgrimage to the Graveyards.

Paris, it is said, thinks on a year of those who she has lost. The truth is that the faithful devotion to the memory of the dead is one of the finest sides of the French character.

The day of the dead is the "day of the dead"—the jour des morts.

Then Parisians visit the great cemeteries: Père Lachaise, Montmartre, Montparnasse, Vancluse, and Saint-Ouen. It is a curious sight to see the crowds sweeping like a torrent along the boulevard of Belleville and Montmartre, and the women of the neighborhood, with a weeping willow and some artless inscription on a stone, etc.

The cemetery themselves present an extraordinary appearance. The entrances are guarded by mounted gendarmes in full uniform; policemen are stationed to regulate the circulation in the interior and direct the funeral processions of all sorts spread out their way in tempting array—immortelles in the dead, cakes and petit bleu—cheap wine for the thirsty.

The exterior boulevards are too small for the crowd of mourners, and the ins and winnows too small for the custom.

Side by side with the sellers of souvenirs eterna you find the camel, who offers his collection of 200 jokes for 1 cent; the open air lotteries with their grand and empty hands and an asthmatic lively gurdy playing the eternal "Bonjour March." This is the first act of the tragedy-comedy.

Each proceeds to the tomb that interests him or her. The old wreaths are removed, and the glass covered medallion of the most approved design is hung up in their stead.—St. Louis Globe-Democrat.

A Floral Detective of Long Age.

In early times the Dutch farmers of the river farms of New York had an ingenious way of recovering pocket knives they might have been dropped or mislaid while plowing or gardening was going on. Outlets were not as cheap then and abundant as in these days; so the farmers took the thrifty precaution of keeping two or three snuffboxes in their knife blades. Then if the knives fell upon broken ground and could not be readily found, the owners would wait until the seeds sprouted, and an isolated snuffbox or blossom in a field or patch would signalize the possibility of a missing article's being at its root. True, the owner did not always realize the result of the scheme, because a passing boy who understood the token often took the snuffbox to the platter.—New York Tribune.

A MAN OF RESOURCES.

This Dentist was Willing to Accommodate His Patron.

The dentist didn't want to talk about, he said, but he thought the story worth telling, so he told it. "Not long ago," he said, "a western railroad president came to New York, and one evening was invited to dine with some of his friends here. The dinner was particularly jolly affair, and when the western man reached his hotel he was in a merry mood. It was his custom to place his key in the door under the pillow every night just before going to bed, and he was certain he had done so on this particular evening. Nevertheless, the morning he was unable to find them. Searching high and low in the room was of no avail, and finally he came to me for a new set.

"I can help you," I said to him. "I will take you to make them?" he asked. I told him four or five days. "Can't listen to anything like that," he replied. "I'll give you ten dollars to make them in 24 hours. You see people from Chicago think that money laughs at everything, even time."

HE RELATES HIS EXPERIENCE AND GIVES A BIT OF ADVICE.

His Piano and Poverty Problem—A Parrot in Upper Tandom—An Appeal for Courtesy to the Assessor.

When by telling the truth an appeal is presented, that is wrong to tell the truth. I suppose that is the reason so many people are doing good by telling falsehoods to personal property assessors.

The writer is a deputy assessor in the west town, and at present he is compiling a book that is full of names and figures. The names are all right, but the man who said "figures can't lie" never assessed personal property.

There are a lot of assessors, who form in a line at 9 a. m., move up to a window in Assessor Jacob M. Horn's west town office, Hymark's Theater building, and get their books and blank checks. These blank checks contain a little map of some particular district in the great West Side.

We move out to the districts and go to work. The town clerk registers our oaths to "faithfully perform the duties of assessors in the great West Side."

Then the assessor goes to the door and calls on the great West Side. He has long wanted to know the secret of the process of manufacturing Russian leather. He had experimented with a few dollars' worth of leather, but the secret was not to be discovered.

When at the court of St. Petersburg, he professed great interest in Russian leather, and he brought the discovery of the manufacturing there. By and by there came an opportunity to go through a factory where Russian leather was manufactured, and he brought the discovery back to this country with him, so work.

A keen assessor can locate every piece of property in the great West Side, and he tells him about it. I asked a real nice looking lady the other day if she had any property.

"Why, yes, mamma, we have," said her little girl.

The mother said: "Go into the home to see what you have. If you have any property, it is in the great West Side."

There are few of the schoolboys of several generations preceding the present who do not remember being taught that the great West Side was the seat of the great West Side.

A dramatic account of this was in all the school histories and several others, and the novelty of the affair appealed vividly to the imagination. The cold facts of the history proved to be the same as the dramatic account.

The schoolbook story was to be that the Americans lost six killed and seven wounded in the battle of the great West Side.

STOLEN SECRET.

How Michael Jewell Learned to Make Russian Leather.

Jewell, like all men brought up to learn a trade, and who afterward gained prominence in affairs, made now and then unemotional revelations of his early training. Details of the conspiracy in which he was engaged he found himself at a country hotel where the table was bountiful, but the rooms low and small.

It was necessary in order that the whole party might be housed for each bed to be occupied by two persons. The governor's roommate was a young politician, who said he had been surprised when the governor just before retiring pulled the sleeves of his night shirt over as far up as his shoulders, and then he looked at the assessor's face.

"You wonder why I do this," said the assessor. "Well, I couldn't sleep unless I did. When I was a younger man, I had a bad cold, and I used to have my arms in the vest all day long, and at night my skin would smart as though I had been stung by nettles. I could not sleep unless I had my arms in the vest all day long, and at night my skin would smart as though I had been stung by nettles.

So I got the habit of rolling my night shirt sleeves as far as I could, and thus I have slept ever since.

When at the court of St. Petersburg, he professed great interest in Russian leather, and he brought the discovery of the manufacturing there. By and by there came an opportunity to go through a factory where Russian leather was manufactured, and he brought the discovery back to this country with him, so work.

A keen assessor can locate every piece of property in the great West Side, and he tells him about it. I asked a real nice looking lady the other day if she had any property.

"Why, yes, mamma, we have," said her little girl.

The mother said: "Go into the home to see what you have. If you have any property, it is in the great West Side."

There are few of the schoolboys of several generations preceding the present who do not remember being taught that the great West Side was the seat of the great West Side.

A dramatic account of this was in all the school histories and several others, and the novelty of the affair appealed vividly to the imagination. The cold facts of the history proved to be the same as the dramatic account.

SAURDAY, AUGUST 10, 1895.

DEMOCRATIC TICKET.

STATE TICKET.

For Governor: JOHN E. HURST of Baltimore City.

For Comptroller: MARION DEKALB SMITH, of Kent County.

For Attorney General: CHARLES C. CROTHERS, of Cecil County.

COUNTY TICKET. State Senate: HON. E. E. JACKSON.

House of Delegates: GEORGE T. TRUITT, WILLIAM S. MOORE, GRANVILLE M. CATLIN.

State's Attorney: THOMAS F. J. RIDER.

Sheriff: JAMES C. JOHNSON.

Judges of Orphans Court: KING V. WHITE, LAMBERT H. COOPER, GILLIS BUSSELS.

County Commissioners: J. J. MORRIS, H. JAMES MESSICK, WILLIAM H. WILLIAMS.

County Treasurer: DR. H. LAIRD TODD.

Surveyor: PETER S. SHOCKLEY.

The County Commissioners last Tuesday took the initiatory step toward a reorganization of the County Treasurer's office...

Mr. Hayes is reported to have refused emphatically and positively to see the Senator and to have said that he did not wish to have anything to do with him...

Whether or not this report was founded on fact could not be learned.

State Senator John Walter Smith and Mr. W. Lee Carey of Worcester county were this week before Superintendent Kemble of the Life-Saving Service at Washington to offer arguments in favor of the establishment of additional life-saving stations on the Eastern Shore coast...

What seems to us, however to have been a more practical way of proceeding would have been to first appoint a committee from among the accountants and managers of the financial institutions of this city...

The auditing of the accounts for the past four years and the indexing and alphabetizing of vouchers, correspondence and other documents filed in the office, should also be done.

It is at hand and is gladly welcomed by all, especially those who duties in life have been placed in a very disagreeable system to meet the requirements, physical and mental, forced upon them.

With these and others, it is important, whether at home, at the seashore or in the country, that some thought be given to diet, and as further assistance to nature, a good building-up medicine like Hood's Sarsaparilla had best be resorted to.

Over a considerable portion of the upper Mississippi and Ohio valleys and most of Texas the rain was almost totally lacking.

The general outlook for an exceptionally fine crop continues flattering. Except in the Dakotas and Minnesota, where it is somewhat late, and in Indiana, where it is maturing slowly, the crop is generally in advance of the season.

When a person is losing flesh and wasting away there is cause for alarm. Nothing so worries a physician. Conspirators would never die if they could regain their usual weight.

From here we enter the Garden of Eden which surpasses anything in delicacy and beauty that I have ever seen. It is a three hundred feet square and so wide, and so beautiful as the scenes along its sides that we hung our heads in silent awe.

The Shaker Digestive Cordial will stop this wasting of the body. It acts by causing the food we eat to be digested so as to do good, for undigested food does more harm than hunger. The Cordial containing food already digested and a digestor of food as well.

Every mother hates to make her children take Castor Oil. Laxol is sweet Castor Oil.

THE WIND CAVE.

In Indiana, while corn is maturing slowly, it is in good condition. In Ohio the outlook is less favorable...

STATE POLITICS.

Mr. Harsh denies a rumor prevalent in Baltimore this week that he expects to decline the democratic nomination for governor on account of the influence which made the nomination.

The anti-Gorman Democrats of Worcester county have issued a call to all those Democrats who desire to express themselves by words and deeds in favor of the democratic policy of that great leader, Grover Cleveland...

Prohibitionists will try to increase their vote in Somerset county.

A county ticket was nominated by the Worcester Republicans yesterday. Charles O. Melvin, Adair P. Barnes, Laban T. Quillen, and Henry A. Godfrey are the delegates to the State Convention...

The Worcester Republicans have elected Dr. C. S. Chase DeKraft, William H. Stevens, John L. Harrington and Daniel Wilson delegates to the State Convention.

Whether or not this report was founded on fact could not be learned.

THE WIND CAVE.

In these days when money comes hard and goes easy it is like a penny of actual cash to be given the chance to buy staple, up-to-date and every way reliable goods at prices a third lower than are usually asked for duplicate articles. This chance comes but seldom, but it is now here offered by the trade sale of furniture at Wannamaker's, like the fairies' gifts of old, holds out only so long, and if in the next month the buyer does not see to it that the needed piece of furniture is procured there can be no hope of obtaining such prices as now prevail.

SOME RUSKIN DICTA.

"Talk is impossible to me," Ruskinn writes in 1849, "owing to the state of my mind and under the overbearing people say and do, in which I habitually live."

"How impressively subtle and penetrating," he writes to a young man, "is the principle of pride! How it mingles itself with, and even pretends itself to be, and takes the likeness of, the noblest feelings in the world—and what a consequence it has! It is like oxygen in iron—the hottest fire will not expel it; it gathers, and it stews in with the very life-breath, turning all our steel into rust."

"Things that require steady labor," he writes to the same correspondent, "these are needed for all of us, but they are the real heating part of our life and to be done with a slow step and bent back, patiently, not in a passion, not trying to beat our brother, but to carry as many coals as we can comfortably. But the great things which require genius to do are done not by carrying as many coals as we can, but by doing a few things which require genius to do."

"Do you know, Wattle," he asked a friend in 1849, "to my mind the only real pleasure in life is to be thought of as having been in England?"

OUR INCOMPARABLE ICE CREAM.

European style to include it, but their efforts have been vain.

Ice cream is pre-eminently an American specialty. All the Atlantic passenger steamers plying between this port and Europe have in New York a sufficient supply of ice cream for the voyage back to New York as well as for the onward journey, despite the fact that the cost of the article is here and there abroad, and that it is expensive stuff to keep.

The round trip occupies at least three weeks, and the cream has to last that period, one week of which the ship is tied up in dock, with the cream eating up its life in the refrigerator at a prodigious rate.

Gravitation and the Blood. We call gravitation the least attraction of gravitation only as producing what we call weight, and as governing the motion of the earth and other planets in their orbits.

The Singular Rock Formation on the Annapolis Coast. One of the most pleasant as well as most beautiful resorts in New South Wales is situated on the coast some 70 miles south of Sydney.

Supposing, then, that we were inclined to believe all that the natives of India say about it—that it is so fierce as to attack man at night, so vindictive as to follow him with dogged resolution and to add to it all we actually know of the reptile, that it can climb trees like an anaconda, swim like a hydra, get over a 9 foot wall and squeeze through a 6 inch hole, and that its life is death, it would have to be confessed that the snake is the most terrible creature in nature.

Stokely Elliott died near Whiteville a few days ago aged 91 years. He was born and reared within four hundred yards of where he died and was never more than thirty miles from home. He never took but one ride over the railroad, that was recently to Ocean City. He had said he never had \$100 in cash at a time, but always had plenty. He has a large family connection, but no children. Mr. Elliott's father lived to be 90 years old and his grandfather 96.—News.

Mr. E. D. Brewington, of Hantsboro, son of the late Theodore Brewington of this county, died at his residence in Salisbury last week. Mr. Brewington was called to New York unexpectedly on account of the critical illness of his brother, Mr. John E. Brewington, but on his arrival found the sick man's condition somewhat improved. The sick man has secured a two months' leave of absence and left Monday for Missouri with his brother to recuperate.—Wicomico News.

Last week Dr. Slemmons received a copy of a paper published in Bradford, Penn., which contained an account of the death of Mr. N. R. Collins, who was born in Salisbury February 16th, 1814. During his life he was engaged respectively in railroading, the clothing business, and in distilling and selling liquor. At the time of his death he was quite wealthy. So far as is known Mr. Collins leaves no relative nearer to him than Mr. Frank Rider, a farmer who resides near Salisbury. If this be the case Mr. Rider and his sisters are probably the heirs of the estate of the deceased.

About the Court House.

County Commissioners, The School Board and Orphans Court in Session Tuesday.

All the members of the Board of County Commissioners were present last Tuesday.

Mr. Williams was instructed to confer with the Commissioners of Worcester at once as to repairs to Duncan's and Gwyn's bridges, and determine what action is best to take in the matter. And was authorized to sell the contracts whenever he and a commissioner of Worcester shall determine.

Mr. Metzick reported that he had sold the contract for operating Westpoin Ferry for the year 1906 to George Moore, for \$20. Mr. Jones also reported the sale of Upper Ferry for 1906 to Thomas Dorman, for \$120. Mr. Wright reported the sale of old ferry boat at Sharpstown for \$11.25, and the sale of the old cable for 50 cents.

Petition of Washington E. Dennis, Jno. W. White and others for tax ditch in fourth district, was filed, and Daniel R. Holloway, Joshua J. Adkins and Har- gis Jones were appointed commissioners on same.

On August 10, at 2 o'clock p. m., the commissioners appointed to consider the matter of closing road over Middle Neck mill dam, will hold a postponed meeting. The board decided to employ the services of John R. Tubman of Cambridge, to assist the County Treasurer in instituting a new and different system of book-keeping in the Treasurer's office here.

SCHOOL BOARD. Two delegations of representative citizens of Trask's district appeared before the School Board at its session last Tuesday. One asked that a new school district be laid off out of School District No. 6. A committee was appointed, consisting of Messrs. B. R. Dashiell, S. A. Linn, Jr., and E. S. D. Insley, to lay off the district and select a site for a new school house; the committee to report to the board on or before the 30th of Aug.

The other delegation requested the board to establish a graded school in School District 1 and 2. In compliance with said request the board has appointed a committee to select a site for school house, centrally located between the boundary lines of the two districts.

A committee from school district No. 8, Election District No. 3, also requested the board to make some changes in the boundary lines of that district. Messrs. Jones and Freney of the board were delegated to investigate the claims of the committee.

Trustees appointed: Jan. Wright, W. H. Scott and Wm. Winder for colored school No. 6, election district No. 3; Titus Dashiell, W. H. Wainwright and John Garrison for colored school No. 7, election district No. 3; Andrew Smith for school at Olive John W. Jones refused to serve.

Miss Hetty Darby was appointed assistant teacher of graded school in Tyaskin district; Miss Ella Brady, assistant teacher of graded school at Quantico.

ORPHANS COURT. Routine business occupied the time of the Orphans Court last Tuesday. The scholarship at Washington College was awarded to Mr. Ewell Davis of Dennis district.

The Orphans Court, in session last Tuesday, awarded the vacant scholarship in Washington College to Mr. Ewell Davis, son of John W. Davis Esq., of Dennis district.

The School Board filled the following scholarships: St. John's College, Frank W. Evans, of Salisbury; State Normal School, Misses Emma White, Margaret L. Smith, Mary A. Foster, Salisbury; J. Thomas Jones, Pittsburg district; Mabel Yingling, Sharpstown; Edith Robertson, White Haven; Sadie Waller, Quantico.

Berlin in Ashes. Berlin, Worcester county, was burned last Sunday night. The space burned over is nearly six acres, upon which stood the hotels, business houses, offices of the professional men, and the drug stores, besides many residences. In all sixty buildings were burned, representing a loss of about \$20,000, with the small insurance of \$24,500.

The fire started in the hay loft of Mr. G. W. Henry's livery, and it is supposed to have been by spontaneous combustion. Among the heavy losers are Dr. E. J. Derricksen, \$10,000; J. T. Keas, \$12,000; E. S. Furbush & Co., \$15,000; H. F. Harmon, \$9,000; W. J. Pitts, \$3,000; Henry Anderson, \$4,000. In the burned buildings were the two hotel-keepers—the Berlin Hotel and the Atlantic Hotel; the offices of the Berlin Building & Loan Association, Adams Express office, Heights and Masonic Lodges, and other buildings.

Berlin has a population of about 1500 people. It is said that the burnt district will probably be rebuilt in brick.

A Good School For Girls. Elsewhere will be found an advertisement of Hannah More Academy, Reisterstown, Md. Of this school Bishop Paret recently said in an editorial which appeared in the Maryland Churchman: "If you seek for them a fashionable training, fitting them for social display, do not send them to Hannah More academy. If you wish a sound and solid training, for home life and duty and happiness, for earnest, womanly Christian character, and the knowledge these things call for, send to Hannah More Academy at Reisterstown, the diocesan school for girls in Maryland. It will open for the fall of 1906 with new and newly furnished buildings, with entire new appointments, with a Principal who has the full confidence of the Trustees, and a new and strong corps of teachers, carefully chosen. The musical department will be under the charge of Mr. Horace Hills, organist and choir-master of Mount Cavalry Church, in Baltimore."

FRUIT NEWS. Corn is looking very prosperous and a full crop is almost certain. The wheat crop is also looking well. The fruit crop is also looking well. The fruit crop is also looking well.

Mr. Della K. Beauchamp of Philadelphia, who has been visiting her parents for some time, returned home last Tuesday.

Mr. Adkins of New York, who has been visiting at Mr. T. A. Jones, for some time, left Thursday for Ocean City, where she will continue her vacation.

Mr. S. Edward Jones has returned from Ocean City, where he has been visiting friends.

Cycle Races. The L. S. W. will conduct cycle races at the Salisbury course next Thursday afternoon at 4 o'clock.

There will be four races. First will be the championship race, then the boys race and two open races.

Among the riders will be Messrs. Donald Graham, Clifford Dorman, Percy Brewington, Gordon Truitt, Winter Owens and other crack wheelmen.

AN ENJOYABLE TRIP.

Old Point Comfort and Return on the Magnificent Iron Steamer Tivoli—Excellent Time Made By The Trip—Points of Interest.

The trip to Old Point Comfort given by the Baltimore, Chesapeake and Atlantic Railway Company on Sunday last, while not overcrowded, was a success in every particular.

The magnificent iron steamer Tivoli made the trip of one hundred and twenty miles in about eight hours, including all the stops en route. During the trip down the river and bay, very interesting sites were constantly before the eyes of the passenger, and Captain Vessey took especial interest in describing the points of interest.

The trip was a very pleasant one, and the officers of the steamer, dined in their new uniforms, did all in their power to make the trip enjoyable and comfortable for the passengers, and extended every manner of courtesy.

Passing the Bay Bridge and the Horse Shoe, noted for their roughness even in the calmest weather, was not noticeable on the Tivoli.

The Tivoli was the seventy fifth boat to tie up at the pier at Old Point, and with its large crowd attracted considerable attention. During the day about one hundred steamboats steamed in to the pier at Old Point Comfort and made fast, each carrying a large crowd from Norfolk, Washington, Ocean View and other places.

The Trolley cars met the excursionists at the pier and carried them to the Soldiers Home, Hampton, The Normal School, New Port News, Fortress Monroe and other places.

The orchestra from Fortress Monroe furnished excellent music at the Hygeia Hotel for the excursionists, and a farewell played selections from the Opera "William Tell."

Owing to the camps at Hebron, Bi-valve, Smith's Island and other places, being in full sway a great many who would have gone on the excursion to Old Point went to the camps.

Should the management of the company make another excursion to Old Point Comfort there is every reason to believe that they would carry a large crowd from Salisbury and points down the river as they could not find a better place for a day's outing.

HEBRON CAMP. Large Crowds Daily Attend the Meeting in the Woods.

THREE VICTORIES FOR SALISBURY.

Laurel, Onancock and Crisfield Go Down Before Our Team.

Salisbury has won three successive games on the diamond in the last week. Onancock last Friday, Laurel last Monday and Crisfield, Wednesday.

The game with Laurel last Monday, played on the Salisbury grounds, was the third of a series, and a large crowd of spectators watched the grounds.

There is no doubt that the Laurel people came down fully convinced of their ability to win. A very little work sufficed to convince them of their mistake. Although the score stood 12 to 1 in favor of Salisbury, when the game was called at the end of the ninth inning, it was hardly fought and was full of interest from beginning to end.

The result was a bitter disappointment to the Laurel people who had spent money to secure players from the city and had money staked on their winning. The managers of the home nine anticipated Laurel, and that is what makes the Laurel rotters mad.

The game played at Crisfield last Wednesday was won by Salisbury in a score of 10 to 7.

Friday of last week the Salisbury nine defeated the Onancock on the grounds of the former in a score of 13 to 7.

This (Friday) morn will play the St. Michaels nine at the latter place. Mr. O. J. Schaeck managed the Salisbury team.

A committee of prominent gentlemen of Salisbury is at work raising funds for the maintenance of the club, the intention being to play two games at Salisbury and two elsewhere each week till October 1st.

Rev. Mr. Vanderbogart Installed. The service of the Office of Installation, was held in St. Peters Church, Salisbury on August 1st in the presence of a goodly number of the congregation, for the purpose of installing the Rev. A. J. Vanderbogart as Rector. The services began at 11 a. m. The wardens, Messrs. E. W. Humphreys, M. D. and E. J. Parsons, followed by the visiting clergy, Revs. Jerolomon, Murphy and the Rt. Rev. W. F. Adams, D. C. L., Bishop of the Diocese of Eastern, entered the choir during the singing of the processional hymn. The Bishop took his seat in the sanctuary, the clergy occupied seats in the choir-stall, the wardens "standing on the right and left of the altar, without the rail," Mr. King Pray was called by the Revs. Jerolomon and Murphy, after which the Bishop began the Office of Installation of ministers into new Parishes or Churches. The keys of the church as the insignia of office, were presented by Dr. E. W. Humphreys. The Bible, the Book of Common Prayer, and the Books of the General and Diocesan convention were presented by the Bishop. After the benediction and closing prayers, the Bishop delivered an appropriate address on the duties of a minister. The newly installed Rector proceeded with the celebration of the Holy Communion, in which he was assisted by the Revs. Adkins and Murphy. Turn's entire service of Morning Prayer and Holy Communion was sung by the choir. The "credo" was especially well rendered.

The Altar was especially well decorated, and with its white hangings and embroidered, numerous lights and beautiful flowers added to a service, which has been unanimously acknowledged by the congregation to be both impressive and uplifting.

Steamboat Whistles not to be Heard so Often. Captain Willard Thompson, general manager of the Baltimore, Chesapeake and Atlantic Railway Company, has issued an order to the captains of the company's steamers that they will in the future decrease with the old custom of blowing the quarter whistles before the boats leave their wharves. The order says that the steward of each steamer shall ring a bell through the saloons of the vessel five minutes before the time of departure and announce that the steamer is about to sail. In speaking of the new departure Mr. James E. Byrd, assistant manager, said: "The old custom of tooting the whistle has caused many annoyances and has been unsatisfactory to the traveling public generally. When a steamer is about to leave there are many persons who have put off transacting business to the last moment and if they attempt to talk the noise from the steamer makes it almost impossible to do so. Another thing is that horses are frequently frightened and run away as a result of the tooting. The order went into effect Thursday of last week.

A BUSINESS ROMANCE.

It is the True Story of the Rise of a Humble Young Man.

A young man who was working as clerk in an importing house had occasion frequently in the course of business to call at a certain large manufacturing establishment.

The young man replied that he should of course like to better himself, but that his engagement would not permit him to leave for some time to come.

The head of the manufacturing establishment was a better opportunity for him in his office than what salary he was getting, but his chances of promotion were so small.

NOVELIST HOWELLS DESCRIBES HIS TRIUMPHS.

A Mailed Beggar, a Solitary Half Dollar and the Content Between Two Comrades—A Vexatious Case, and a Compromise Was Arranged.

Mr. W. D. Howells has written for The Century two papers entitled, "Giving to the Poor," and "The Beggar's Triumph." The former is a study of the beggar's life, and the latter is a study of the beggar's triumph.

Some months ago, as I was passing through a narrow street on my way to the elevated station, I saw a man sitting on the steps of a house. He seemed to be resting his elbows on his knees, and holding out both hands.

As I came nearer I perceived that he had no hands, but only stumps, where the fingers had been cut off close to the palms, and that it was this man who was holding out in the street appeal which was his form of begging.

He did not ask charity. When I approached he did not look up, and when I stopped in front of him he did not speak. I thought this rather fine in a man who was begging.

He was a man really could not help but be decided at once to give him something, when I saw in the presence of want, there is something that says to me, "Give to him that asks, and I have to give or else go away with a bad conscience."

A publican, convicted of selling an unwholesome beverage, was sentenced to drink a draft of the same stuff which he sold to the common people, the remainder being poured on his head.

After church Sambo heard home with his wife, who had overheard the catching. When they were fairly out of everybody's hearing he drew a long breath of relief and turned a self approving glance to his better half.

"Golly," he said in a half canting way, "if I had a million dollars I'd be a nigh ligan, mah!"—Boston Budget.

NOVEL READING. An Excessive Amount of It Is Declared to Wreak Apathetic Marriage.

A writer in a monthly review, discussing Mr. Balzac's "Foundations of Belief," takes occasion to say that solid books, dealing with the great problems of mind and morals, are no longer read except by a few specialists.

The result is disastrous to women, inasmuch as it prevents many of them ever marrying at all. For if a woman does not marry when she is young, few men care to marry her when she is middle aged.

SOME OLD TRADE TRICKS.

How They Were Practised Five or Six Hundred Years Ago.

Enough to Convince Him. It is not strange that the southern colored man has various and mistaken notions about property rights.

It was a Tennessee Methodist class leader who had before him a six months' probationer whom he was questioning for admission to all the privileges of the church.

"Well, Sambo," said the class leader, "I hope you are prepared to live a Christian life in accordance with your profession. Have you stolen any chickens during the last year?"

"No, sah! I stole no chickens." "Have you stolen any turkeys or pigs?"

"I am very glad to hear this good report," continued the class leader, "and I trust you will continue to live an honest and upright life."

After church Sambo heard home with his wife, who had overheard the catching. When they were fairly out of everybody's hearing he drew a long breath of relief and turned a self approving glance to his better half.

"Golly," he said in a half canting way, "if I had a million dollars I'd be a nigh ligan, mah!"—Boston Budget.

The Change in Sabbath Observance.

The radical change in the character of the observance of the Sabbath day in this country is well expressed by the following from the Manchester, N. H., "Minor and American": "The picture it draws is true of other cities, as well as of Manchester: The day is quite as much a holiday as a holy day. I am with a majority of our people a day of rest far more than a day of worship."

W. F. Andrews, whose description of his wife was told in detail in the Advance a few weeks ago, has again left her and her children. It will be remembered that after deserting her he wrote from Baltimore instructing her to come to him. This week Mrs. Andrews' brother in Salisbury received a letter from Andrews telling him to look out for the helpless woman.

Last Sunday was the most oppressive day of this summer in the Atlantic States. The observation taken by the local weather forecaster showed a temperature of nearly 100° which surpassed all previous records for the year. With only one exception this summer has the mercury attained anywhere near such a remarkable showing, and that was on the first day of June, when it crawled up to the 97° mark. The humidity of the atmosphere was then barely normal, and the heat was not nearly so great.

**A MAN SHOT.**

Mr. B. D. Farlow of Pittsville, Receives a Bullet Wound While Attending Melson's Camp.

Melonsville camp was the scene of a serious shooting affray last Tuesday evening.

Mr. B. D. Farlow of Pittsville was attacked without warning by Gardner Calloway, the 19 year old son of Isaac H. Calloway, who lives near Whiteville.

Farlow was standing within the circle of tents when young Calloway approached and began to curse and abuse Farlow and shortly the latter was dealt a blow with the butt of a revolver. Mr. Farlow tried to reason with his assailant when the latter responded by shooting Farlow in the breast.

Farlow tried to escape but Calloway fired again, the bullet taking effect in the left shoulder. Then the murderous youth grabbed a nearby horse and fled. His arrest has not yet been made.

Dr. Littleton of Pittsville and Dr. Farlow of Whiteville attended the wounded man. At first his friends thought that Farlow's wounds would prove fatal.

He was taken to his home at Pittsville, and information from there this (Friday) morning is to the effect that he will probably recover. One bullet has been removed.

Farlow's assault upon Farlow seems to have been without cause. Although it is understood that he had harbored a grudge against his victim for some time.

Boys' race, one half mile—constantans, Willie Richardson, Richard Jackson, Ernest McBrierty, Simons Birkhead and James Leonard. Time, 1:34. Race won by McBrierty.

Female mile race—constantans, Dorman, Truitt, Uman, Malone, Victor, Dorman. Time 17.1 minutes.

At the close Mr. Sewell Richardson drove the trotting horse of Mr. Mark New of Baltimore an exhibition mile in 2:52.

**Bike or Bicycle.**

There is a good deal of opposition to the word "bike." Sunday correspondents of the Sun have declared that journal to frown upon it. The Sun does not frown as yet, but the Tribune does, going even so far as to declare that "bike and electronic are about the worst travesties on words that ever were foisted upon a long suffering public."

"Bike" is a piece of boilerplate slang, but it may be said for it that at least it is honest, and makes no pretence to elegance, whereas "wheel," the other synonym for "bicycle" does make a pretence at elegance, or at least, at respectability. It is better to say "bike," and be aware that you are using outcast language, than to say "wheel," and suppose yourself to be speaking valid English,—Harper's Weekly.

**Princess Anne Prospects.**

The Marylander says: just at this time Princess Anne is enjoying the greatest business boom that it has had for a quarter of a century. There is not an unoccupied business house or residence, of large or small proportions, in the place.

And both business houses and residences are being built as fast as they can be constructed, not as a timely provision against future demand but, we are told, for the occupancy of persons who have already contracted to lease them as soon as ready for occupancy.

**Unclaimed Letters.**

The following is a list of letters remaining in the Salisbury (Md.) Post-office Saturday, August 3, 1895.

Miss Charlotte Brown, Miss Susie Bradley, Miss Cordelia Brewington, Mrs. Rose Brewington, C. E. Evans, James Maller, Isaac T. Lewis.

Persons calling for these letters will please say they are advertised.

**President Collier has received from Mr. S. A. Ireland, of New York, a design for a flag for the Cotton States and International Exposition. The flag is triangular, consisting of four rectangles of equal size, with a white circle in the center, and on this a cotton ball. Of course, the United States flag will be more used than any other, but it is customary for Expositions to have a flag of their own, and it is possible some such design will be adopted.**

**SALISBURY STILL PLAYING.**

Rival Nines Afford Us Amusement But that is All.

About fifty good men and true from Salisbury went to Laurel last Wednesday afternoon to witness the ball game between the home nine and the Laurel players.

After reaching the grounds a misunderstanding arose about an umpire. Our own umpire, the umpire Scott of Seaford had been mutually agreed upon to umpire the game. The Laurel men repudiated the agreement and insisted upon having Mr. Marvill, a Laurel man closely identified with the interests of the Laurel club, umpire the game. Controlled by that magnanimity for which he is famed, Manager Schneek quietly yielded to the rather unfair demand of the Laurel nine, and at 4 o'clock the game began with our boys at the bat.

Two men got on first and second, respectively when Morlock, our new third baseman, went to the bat. The first ball that came sailing over the plate received such a slap from Morlock's ash as to rise gracefully toward the curline and finally alight in a corn field some distance beyond and without the high board enclosure.

Morlock and his two predecessors traversed the diamond in a gentle trot, and three runs were scored. That was the last chance that Morlock got at the ball. The remainder of the game he was sent to first base on balls.

In the ending of the sixth inning the score stood 6 to 3 in Salisbury's favor, when the umpire declared a Laurel man safe in direct, open violation of the rules of the game. The umpire declared the point involved, and the umpire declared to yield. The game then terminated. Afterwards the Laurel men admitted the umpire's error but declined to pay \$20 which according to agreement they owe to the Salisbury club. Campbell pitched for Salisbury.

Thursday afternoon Salisbury and Seaford played at the latter place. Score 16 to 3 in Salisbury's favor.

Last Tuesday nine played Campbell bridge on the latter's ground. Score 21 to 19 in favor of Salisbury.

Friday of last week Salisbury played St. Michael's at the latter place. Score 14 to 6 in favor of Salisbury.

Salisbury won from Oceanock last Monday in a score of 29 to 7.

**ALLEN LETTER.**

A Fox Journey to His Former Home. Personal Mention.

The old saying "There is no place like home" was never more fully verified than it was a few days ago by the catching of a fox. A party of fox hunters, with Mr. C. C. Taylor at the head, went over on the beach hunting last season and there succeeded in capturing a fox ally with him, named Jim "Russell" and kept him for several months, feeding him occasionally on a hen, young lamb and such delicacies, but as Jimmy got to demanding too many lambs for Mr. Taylor's convenience he decided to set him at liberty, so took him down in the extreme end of Nanticoke where he was liberated, after certain marks of identification had been made upon him. Mr. Taylor has been making arrangements to go down in Nanticoke and give "Jimmy" a chase. Recently he joined a party and went over to the beach to spend a week hunting. While there the party succeeded in capturing a fox within two miles of Ocean City, and when they got the dogs quieted and examined their captive it was found to be "Jim Russell." All were surprised but the marks showed for themselves. Although he had been fed on chickens, lamb, etc., when he was Mr. Taylor's captive he set out in search of his birthplace as soon as he was set free.

Oxford, one of Talbot county's prettiest, thriving and progressive towns, will be two centuries old next month and its citizens propose to celebrate the event in a suitable manner.

**Republicans in Convention.**

Lowndes of Allegany, Clabough of Carroll and R. P. Graham of Wicomico Nominated.

The Republican State Convention which met at Cambridge, Dorchester Co., Thursday nominated this ticket.

For Governor—Lloyd Lowndes of Cambridge. For Comptroller—R. P. Graham of Wicomico Co.

For Attorney General—Harry M. Clabough of Carroll, Co.

The Convention called to order by Chairman of the State Central Committee Harry M. Clabough.

Jas. C. Rose of Baltimore Co., was made temporary chairman upon a vote by counties. His election revealed the strength of the Lowndes people which showed that they had entire control of convention.

Mr. Lowndes was nominated on the first ballot.

Hon. Lloyd Lowndes was born in Clarkburg, W. Va., February 27, 1845, where his father was from Cumberland, Md., the year before. He spent some of the years of his boyhood in Cumberland, and at last he was raised to have been identified with the interests of Maryland all his life. He was educated at Allegany College, Maryland, receiving from that institution just at the close of the Civil War, when he was a little over 20 years of age.

In the fall of 1872, upon Grant's re-nomination, Mr. Lowndes stamped the Sixth district for Grant against Greeley, being accorded the Republican nomination for Congress. He was elected and served in the Forty third Congress as a warm supporter of the Administration. While in Congress he voted against the civil rights bill on the ground that the bill, as framed, was unconstitutional. This vote is said to have defeated him for re-nomination, but eight years after the act was passed the decision of the Supreme Court of the United States sustained the position which Mr. Lowndes had assumed when the bill was under discussion.

Mr. Lowndes is tall, dignified and commanding presence, but very genial manner. He was married in 1869 to Miss Bessie Lowndes, daughter of the late Richard T. Lowndes. From this union six children have sprung, five boys and one girl. The daughter, Miss Elizabeth Lowndes, is a school girl of thirteen. The two oldest boys, Lloyd and Richard, graduated from Yale College last June; the third son, Charles, is finishing his education in Europe, and the two youngest boys, Blaine and Usher, are at school in Cumberland.

Mr. Lowndes is president of the Second National Bank of Cumberland, the Union Mining Company and the Potomac Coal Company. He is a director in the Frostburg Gas-Light Company, the Black, Sheridan & Wilson Co., the New York Mining Company and the Fidelity and Deposit Company of Baltimore. He is quite an extensive farmer in the western part of the state. He has been a prominent lay-delegate to the Protestant Episcopal Diocesan Convention from Allegany county for the past 15 years, and is at present a warden and vestryman of Emmanuel Episcopal Church, Cumberland. He is also a member of the Maryland, the Merchants' and the Atheneum Clubs of Baltimore city.

Mr. Graham, the candidate for comptroller, is a son of the late Col. Samuel A. Graham, for many years one of the leading lawyers of the peninsula. Mr. Graham is very young to be on the state ticket, 28 years old.

He graduated at the Salisbury High School in 1885, taught in the public schools of the county one year, then attended the law department of the University of Maryland where he was graduated in 1888. On his return home he was admitted to a partnership business with his father for the practice of law. At the death of his father he formed a partnership with H. L. D. Stanford, Esq., under the firm name of Graham & Stanford, and upon his disbarment from the firm, the present partnership of Graham and Williams was formed.

Mr. Graham is one of the prominent attorneys of the shore.

The committee on credentials scented the delegation from this county known as the Graham-Adkins delegation.

**Vacation Time**

Is at hand and is gladly welcomed by all, especially those whose duties in life have caused them to greatly run down their system to meet the requirements, physical and mental, forced upon them. With these and others, it is important, whether at home, at the seashore or in the country, that some thought be given to diet, and as further assistance to nature, a good building-up medicine like Hood's Sarsaparilla had best be resorted to. If the digestion is poor, liver deranged and frequent headaches seem to be the rule, Hood's will change all this and enable everyone to return to their home and business in a refreshed state of mind and bodily health.

THE NEEDS OF THE HOUR.

There is no disguising the fact that the situation of the democratic party in the state is very critical.

Contrary to the wishes of the great masses of democratic voters in the state Mr. Gorman and Mr. Rasin ran the state convention.

Mr. Rasin is the creature of these men and unfortunately for him he will have no day of proving between now and election day that he will not be their tool.

The only thing left now is for the State central committee to get together and put the management of the campaign in the hands of different men, men not in sympathy with Mr. Gorman and Mr. Rasin.

At the Hotel Page last evening Gov. E. E. Jackson, of Maryland, conversed with a Post reporter on the political situation in his state.

STATE POLITICS

Gov. Brown on the Political Situation in the State.

The Baltimore Sun of Wednesday contained the following in connection with Mr. Robert P. Graham's nomination by the Republicans for comptroller.

"In my opinion Mr. Hurst should withdraw from the contest and the democratic state convention should be called to make another nomination.

"Mr. Hurst should write a letter withdrawing from the ticket. He should state in this letter that he will withdraw in the interest of harmony, and that as his nomination has proved so un satisfactory to a large element in the party he thinks another should be put on the ticket to make the fight.

"Gorman and Rasin made a colossal mistake in compelling the convention to act as it did. They should have allowed it to ballot and should not have interfered. The truth is, they were afraid it would be stamped and that some one would get the nomination whom neither of them wanted.

"Rasin was afraid that Hayes might be nominated and Gorman was afraid that Judge Fisher might succeed, and incidentally he was afraid my friends might nominate me, although I was entirely out of the fight.

"If Mr. Hurst should withdraw it would make him the most popular man in the state. It would be looked upon as an act of unselfish devotion to the interests of the democratic party, and would not fail to meet with the commendation of all people.

"I wish it understood most emphatically that I had no such advice to offer, and any remarks that I may have made in connection with the democratic nomination were made incidentally and in a joking way, with no intention of having the same in print, and with no idea that they would be so used.

"Mr. Hurst, as I understand it, was nominated without any solicitation on his part and is in every way qualified to fill the office. He is entitled to the support of his party as the nominee of the democratic state convention and I predict his election.

"I wish you would teach me how to commit to memory the songs I want to sing," said an amateur musician to a friend. "I have never been able to commit my music to memory—at least have never done so—and I think it would be of use to me if I could."

"The process is not a difficult one," was the reply. "I have always found it easy to remember songs and poems by a certain key or method that I use with me long time ago. Take any popular song."

"Personally the democratic nominee Mr. Hurst is a most estimable gentleman, but the way in which his nomination was brought about was a grave political blunder. It was due the other candidates, Messrs. Hayes and Jones, that there should have been at least the semblance of carrying out the promises made to them.

THE GRAHAMS OF WICOMICO.

The Family of the Young Republican Nominee for Comptroller.

The Baltimore Sun last week published the following in connection with Mr. Robert P. Graham's nomination by the Republicans for comptroller.

"There are some interesting facts about the Graham family of Wicomico county, one of whom, Mr. Robert P. Graham, was nominated by the republican convention for State comptroller," said a gentleman from that county yesterday.

"Wicomico was created out of parts of Somerset and Worcester counties shortly after Mr. Graham's arrival at Salisbury, which became the county seat. Although an ardent Union man and, although surrounded by men and influences in sympathy with the Southern cause, his integrity and his legal attainments won for him a high position at the bar, which he maintained to his death. He was for several years republican candidate for State's attorney of his county or for Congress in his district, and it was chiefly through him that the republican organization on the Eastern Shore was maintained. He married Miss O'Leary, a daughter of Dr. L. D. Collier of Salisbury.

"Mr. Robert P. Graham has several brothers, all of whom are democrats. The oldest is Mr. Joseph A. Graham, editor of the St. Louis Republican, which is one of the staunchest democratic dailies in the West. Before he went West Mr. Joseph A. Graham was editor of the Salisbury (Md.) Advertiser, and as a democrat was elected State's attorney of Wicomico county, succeeding Mr. E. Stanley Towdwin, who has since that time served two terms in the State Senate. Mr. Graham, when he first went West, settled in Kansas City and his newspaper activities soon landed him in the chair of the managing editor of the Kansas City Times. Thence he went to a similar position in the office of the St. Louis Republic.

"Another brother is Dr. Samuel Graham, cashier of one of the national banks of Salisbury. Still another brother, Dr. Wm. A. Graham, is city editor of the Hartford (Conn.) Courant, which newspaper is owned by United States Senator Hawley. Dr. Wm. A. Graham voted for Cleveland in 1872.

"Mr. Robert P. Graham, of all the sons of Col. Samuel A. Graham, is the only one who, besides adhering continuously to the political faith of his father, has followed the profession for which he was educated. Mr. Joseph A. Graham was trained to be a lawyer, now he is a newspaper man. Dr. Samuel Graham graduated from a Philadelphia college as a dentist; he is a bank cashier. Dr. Wm. Graham was educated to be a physician and after his graduation practiced at Quantico, Wicomico county; now he is a newspaper man.

"The Sun's informant was in error as regards the political faith of the six sons. All except Mr. Joseph A. Graham have always been republicans, although Dr. Wm. A. Graham, as stated by the Sun, was a Cleveland supporter; and Dr. S. A. Graham has frequently asserted that he was always for the best man, regardless of party.

"There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, but with no intention of having the same in print, and with no idea that they would be so used.

"I regret exceedingly that my name was used in connection with the interview, which is calculated to mislead the public as to my position in the campaign. I have always supported the democratic ticket and will certainly do so in this contest.

"Mr. Hurst, as I understand it, was nominated without any solicitation on his part and is in every way qualified to fill the office. He is entitled to the support of his party as the nominee of the democratic state convention and I predict his election.

"I wish you would teach me how to commit to memory the songs I want to sing," said an amateur musician to a friend. "I have never been able to commit my music to memory—at least have never done so—and I think it would be of use to me if I could."

ONE HEAD USHER.

The Wayside Users are Differed From Others of His Calling.

It is as odd as the proverb that the cobbler's children are always poorly shod. The restaurant man goes home for dinner, and the bartender is a total abstainer.

"The druggist may patronize the faith cure and the railway man knows of no greater luxury than a ride in a buggy. The street sweeper is glad to get a day off, so he can take a long walk. A more remarkable case than any of these is that of the head usher at the hotel, who is a total abstainer. Probably every playgoer in Chicago knows him. The title of 'head usher' does him an injustice. He is more like a host or the chief of a reception committee.

"There are head ushers who pounce upon you, grab the coupons, thrust them back into your fumbled hands and shout: 'First aisle to the right!'

"There are other head ushers who tell you to hurry up, and then they give you a long warning that all coupons must be ready.

"They shout, 'Hey, there!' and are constantly distracted because of the immense responsibility which they imagine is resting upon them.

"As soon as a sultry young man gets into a box office or is engaged as a usher, he begins to imagine that he owns the house, the company and a good part of the frontage in the block.

"But the exceptional head usher is calm, polite, attentive and solicitous. No matter how rapidly the crowd may pour in, it seems that every one who comes receives some courtesy at his hands.

"He does not shout or grab and the small children are not afraid of him. The most remarkable thing about this model master of ceremonies, however, is that he knows very little about actors or plays.

"The other evening, when the house was crowded and the performance was being received with noisy applause, a man who came into the foyer between acts remarked to him, 'Well, it's a funny show.'

"I don't see it," he replied, "the house seems to like it."

"No! I don't see it!" "Is that so? Don't you step inside to see the performance?" "Oh, no. My duties keep me here. In the 15 years that I have been in this position I have never seen a performance." At first the man wouldn't believe it, but it was a fact just the same.—Chicago Record.

Miss Clara Politt, who is a graduate of Western Maryland College, and who has been teaching for some time in the South, was appointed to take Miss Byrd's school. Mr. Soutley K. White, son of Edward White, Esq., will take Mr. Waller's school. Mr. White is a graduate of the Berlin High School and recently passed the required mental examination for admission to West Point, but failed physically.

THE TOMATO CROP.

Secretary Dashiell's Summary of the Business on the Peninsula. C. M. Dashiell, Secretary of the Peninsula Canned Goods Association, on July 13th sent out a circular letter to the one hundred and twenty tomato packers on the Maryland-Delaware Peninsula. Replies were received from ninety-four, and with these returns a basis Mr. Dashiell makes the following comprehensive and interesting report:

We have 120 packers on the Peninsula. The average of these 94 packers in 1894 was 20,002. The pack of these 94 packers in 1894 was (cases of 3lb. cans) 1,255,700. The average acreage to each of the 94 packers was 2121. The average number of cases per acre was 621. Now taking the foregoing as a fair average for the 120 Peninsula packers we have 120 packers x 2121 acres, making the 1894 Peninsula average 25,224. 25,224 acres x 621 cases, making the 1894 Peninsula pack (cases of 3lb. cans) 1,568,380. These 94 packers report their 1895 acreage to be 10,032.

At the average acreage to each packer 1067. We have therefore, 120 packers x 1067 acres, making the 1895 Peninsula average 128,040. 12,800 acres x 621 cases, making the 1895 Peninsula pack 8,003,200. Our average number of cases per acre (67) exceeds that of the western Packers Association (59) by 8 cases, at which rate we would have our 1895 pack reduced to 761,000 cases of 3lb. cans, as against 1,601,280 in 1894. We see from the foregoing that our acreage for 1895 is only one half that of 1894 and is the prospect for this reduced acreage is reported to be only about 75 per cent. of a fair yield, and this may still further be reduced by the blight, which has made its appearance upon the Peninsula as well as in Jersey and Harford county, the extent of the damage from which will be asked in a special letter to be issued about the last of this month. Packing of tomatoes will be about three weeks later than usual; very few will be packed before September. Respectfully, C. M. Dashiell, Secretary.

JOHN JOHNSON, COLORED.

Judge Page Holds Him for the Action of the Grand Jury on a Charge of Rape. Chief Judge Page came up from Princess Anne last Saturday to hear the case of John Johnson, colored.

Johnson is in jail here charged with having committed rape on Sophia Dashiell, a young colored girl 16 years old. The hearing last Saturday was on a writ of habeas corpus for the release of Johnson from jail. Mr. Treadin appeared for the prisoner and Mr. Rider for the State. After the hearing Judge Page declined to release the prisoner but held him for the action of the grand jury. The offense is alleged to have been committed near Quantico on the 9th of August. During the absence of the girl's aunt and step father, with whom she lives, Johnson, it is said, entered the house and accomplished his purpose, after a desperate struggle with the girl.

COLERIDGE.

Indolence Capable of Energies Characteristic of His Works. The antihydropicist sometimes tortures us by describing the poison which paralyzes all the active powers of the body while leaving the sensibilities untouched. Coleridge offers a study of that kind to psychologists. His will, no doubt, was congenitally feeble. "Indolence capable of energies," as he says in a remarkable passage of early self-portraiture, was characteristic of his whole manhood. He could absorb enormous masses of reading and write or speak with amazing fluency, but the energy could not be co-ordinated or concentrated. It flowed hither and thither spontaneously along the channels dictated by the dominant force of the moment. As psychologists phrase it, he had lost his power of "inhibition." He could not suppress or restrain his emotions. He valued metaphysical research, as he says in his pathetic ode, because "Reply by abstract research to steal from my own nature all the natural man was his 'sole possession, his only plan.'" He could distract his mind from one pursuit by another, but could not force his energies to converge upon a single or distant aim. Profound emotions were evaded, instead of being met face to face. When he heard suddenly of Malta of John Wordsworth's death he tried to stagger out of a public room and before he reached the door fell to the floor in convulsive hysterics, and was ill for a fortnight. He then declared that he was unable to open any letters lest they should bring news of the death of one of his children.

The intensity of his feelings paralyzed instead of stimulated his powers. "Vegetations and passions," he says, "pluck out the wing feathers of the mind." He is like a criminal upon the wheel, held down, not by chains, but by impotence of will, feeling every blow with singular intensity, but only capable of meeting it by shutting his eyes as long as possible or trying to distract his mind by plunging over the problems most remote from practical application.—National Review.

THE TOMATO CROP.

Secretary Dashiell's Summary of the Business on the Peninsula.

C. M. Dashiell, Secretary of the Peninsula Canned Goods Association, on July 13th sent out a circular letter to the one hundred and twenty tomato packers on the Maryland-Delaware Peninsula. Replies were received from ninety-four, and with these returns a basis Mr. Dashiell makes the following comprehensive and interesting report:

We have 120 packers on the Peninsula. The average of these 94 packers in 1894 was 20,002. The pack of these 94 packers in 1894 was (cases of 3lb. cans) 1,255,700. The average acreage to each of the 94 packers was 2121. The average number of cases per acre was 621. Now taking the foregoing as a fair average for the 120 Peninsula packers we have 120 packers x 2121 acres, making the 1894 Peninsula average 25,224. 25,224 acres x 621 cases, making the 1894 Peninsula pack (cases of 3lb. cans) 1,568,380. These 94 packers report their 1895 acreage to be 10,032.

At the average acreage to each packer 1067. We have therefore, 120 packers x 1067 acres, making the 1895 Peninsula average 128,040. 12,800 acres x 621 cases, making the 1895 Peninsula pack 8,003,200. Our average number of cases per acre (67) exceeds that of the western Packers Association (59) by 8 cases, at which rate we would have our 1895 pack reduced to 761,000 cases of 3lb. cans, as against 1,601,280 in 1894. We see from the foregoing that our acreage for 1895 is only one half that of 1894 and is the prospect for this reduced acreage is reported to be only about 75 per cent. of a fair yield, and this may still further be reduced by the blight, which has made its appearance upon the Peninsula as well as in Jersey and Harford county, the extent of the damage from which will be asked in a special letter to be issued about the last of this month. Packing of tomatoes will be about three weeks later than usual; very few will be packed before September. Respectfully, C. M. Dashiell, Secretary.
