Spring Medicine

There is no other season when good medicine is so much needed as in the Spring.

The blood is impure, weak and impoverished—a condition indicated by pimples and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength, and want of animation.

Hood's Sarsaparilla and Pills

Make the blood pure, vigorous and rich, create appetite, give vitality, strength and animation, and cure all eruptions. Have the whole family begin to take them today.

"Hood's Sarsaparilla has been used in our family for some time, and always with good results. Last spring I was all run down and got a bottle of it, and as usual received great benefit." Miss BEULAH BOYD, Stowe, Vt.

Hood's Sarsaparilla promises to cure and keeps the promise.

THE CITY PRIMARIES.

Democratic Nominie Ticket For City Council. Messrs. Wm. F. Bounds, W. Upshur Polk and Herbert Hitch Win in Primary Contest.

The Democratic primaries held at the voting house in Parsons District Monday Evening were well attended.

The primary was called to order by Mr. J. Cleveland White chairman of the Democratic Executive Committee.

Mr. Thomas Perry was made chairman and Messrs. W. A. Ennis and Ernest Jones secretaries.

The following gentlemen were placed in nomination; E. J. Parsons, Wm. F. Bounds, W. Upshur Polk, Herbert H. Hitch, and L. W. Morris M. D.

The result was as follows:
William F. Bounds, 160
Herbert H. Hitch, 121
W. Upshur Polk, 109
Dr. L. W. Morris, 71
Elijah J. Parsons, 50

Messrs. Bounds, Hitch and Polk having received the largest number of votes were declared the nominees.

At the close of the primaries on motion of Mr. E. A. Toadvine the old Democratic Executive Committee composed of Messrs. J. Cleveland White, E. E. Twilley, Chas. E. Harper, Emory L. Disharoon, G. E. Mitchell and Thomas Perry were unanimously re-elected.

THE REPUBLICAN PRIMARIES.
The Republicans held their primary in Parsons Opera House Tuesday evening.

The negro question came up growing out it is claimed, of the refusal of the Democrats to join in the movement for a citizen ticket. Mr. Miller in a speech recommended the negro not to vote for the candidates on the Republican ticket because of the party but held that they would best serve their own interest by voting for the best men irrespective of party.

Post Master M. A. Humphreys said he understood that the democrats had refused to join in the movement for a citizen ticket for fear of negro domination in primary contests, this he considered an insult to the negroes as citizens and favored keeping the party intact in city affairs.

The discussion was over the question of whether a full ticket or not should be nominated.

Messrs. Miller and Benjamin favoring the nomination of one man while Mr. Humphreys favored the placing of a complete ticket in field.

Messrs. Miller and Benjamin carried their point and only one Mr. T. H. Williams was nominated for City Council.

Home for The Aged.
The active management of the Home is in the hands of the Board of Lady Managers as follows; President, Mrs. L. D. Collier; Vice-Presidents, Mrs. W. B. Tilghman, Miss Lettie Fish; Treasurer, Miss Laura Brenizer; Recording Secretary, Miss Hannah Ulman; Mrs. W. J. Downing, Mrs. H. L. Brewington, Mrs. L. S. Powell, Mrs. S. Q. Johnson, Mrs. I. H. White, Miss Edna Adkins, Mrs. James Price, Mrs. G. H. Weisbach, Mrs. D. W. Perdue, Mrs. Belle Jones, Miss Alice Humphreys, Mrs. E. Stanley Toadvin and Mrs. F. P. Adkins.

The Home will be opened for occupants June 1. The Board of Lady Managers have been fortunate in securing the services as Matron of Mrs. L. G. Maynard, of Baltimore. Mrs. Maynard is a very capable manager of such a Home and comes very highly recommended. She was Matron of the Methodist Episcopal Church Home for the Aged of Baltimore for eight years and was very successful in this position.

Fish Hatching At Salisbury Station.
Several million shad fry are in process of hatching at the Salisbury Station and it is expected that large distributions of fish will shortly be made from this Station. During the past few days the following distributions have been made: April 21, in Wicomico River at Salisbury, 600,000; April 25, in Pocomoke River at Snow Hill, 500,000; April 27, in Pocomoke River at Pocomoke City, 500,000; April 28, in Wicomico River at Sharp's Point, 250,000.

PARASOLS.
Are newly finished by narrow black velvet laid in rows running up and down on the edge, or again, the parasol may be bound with black velvet and display chenille dotings on the silk. Hemstitching in a single row is a very popular finish, and gives so modest a touch of adornment that it commends itself to the conservative people, and the gay as well, will find it attractive. Otherwise there is the usual complement of quite plain parasols or fancy patterned silk ones, with for watering places, chiffon ruffles at the edge, or placed on silk, will be a leading style.

TAILOR MADE GOWNS.
An exhibition of Tailor Made Gowns at Lord & Taylor's gives evidence of the favor shown to coats and other gowns display blouses belted in. Mixed cloth is very fashionable and delightful tailor gowns for warm weather are in canvas, voile and other semi-diaphanous goods. Such fabrics often show the new features of shirring, but the lining below is tight fitting, so that close outlines may be preserved in some measure. In silks, great favor is shown to Pongees embroidered in dots, or large spots and gunmetal pongee is a novelty. Louisines in checks are very stylish either for waists or entire dresses.

METROPOLITAN FASHIONS

Hats Beautiful; New Tailor Made Gowns; Silks; Illustrated Costumes; Parasols; New and Dainty Designs A La Mode.

In view of an extraordinary size, hats are in lightest possible material and on such fairly-like expanse, loose bouquets are thrown carelessly as if by accident, very low crowns, not interfering with such lovely pictorial effects. Nothing seemingly artificial interferes and one might imagine the work done by an arial passerby. Girdles show more of human handiwork and cunning bestowal of ribbon that stimulates a floral completion, while exceedingly pretty, gives evidence of a milliner's workroom. As a consequence, moreover, of wide extending brims, small dainty blossoms often nestle be-side the face, but must correspond with similar adornment on the outside. In sharp contrast, however, are hats showing long quill feathers stuck in aggressively and very long ostrich feathers laid in precise manner from back to front, where the soft adornment peers over, are high style or again, the last named addition may curl over with fine result, on one side.

Central figure in woollens costumes, with long coat, triple skirt and stole front; petticoat, a Sorosis in mercerized satens. Bolero costume with

triple yoke, in very rich Mohair Etienne, a material in great demand, because the English dyers in Bradford make newer and higher finish than ever before. The neck is low and the front is trimmed with pearl buttons. The front is in the new French Curve emphasized by the Rosalind waist adjuster, an admirable contrivance which attached to the corset holds it comfortably and firmly at the desired point. The belts of the skirt, petticoat and waist, are kept in place without wrinkling, thus obviating the annoying fullness consequent on the super posing of several different garments. Third gown is in light weight Worrall dyed English velvet, has the curve front and the new extended skirt back, produced by a strip of featherbone running to a foot above the bottom. Here a triple line of featherbone holds the skirt gracefully in position. The girdles of both costumes are made on the girde featherbone form, which is elastic and pliable and they are now reckoned as essential by first class dressmakers as featherbone stock collars. The collars are all low, and this brings about the use of silk hair hats that are really a necessity. The new French curve form in these figures is produced by the new C. B. a la spirite corset, straight front over which these very pretty gowns are made.

COUNTY COMMISSIONERS

Spent Tuesday in Considering Liquor Licenses. The Citizens of White Haven Successfully Oppose the Application of Charles Springer.

The County Commissioners spent all day Tuesday in considering the application for license to sell liquor from White Haven, Wetpiquin and Quantico. Mr. Springer, of White Haven, application was the first one considered and most of the day was occupied in hearing the case. The granting of the license was bitterly opposed by a large number of citizens from White Haven and Quantico. Many witnesses were examined

Cecil county will again banish the saloon May 1. After having a prohibitory liquor law for some years, the saloons were reopened, but the people of Cecil county evidently concluded that a mistake had been made.

It has been decided to consolidate the public schools in and around Laytonsville, Montgomery county. This is the first move of the kind to be put into practical effect.

Dr. J. H. Wisner, of Letersburg, Washington county, has planted 2,000 apple trees in his orchard, near Edgemont, having found that apples here are more profitable than peaches.

Professor Austen, associate agriculturist of the Maryland Agricultural College, who inspected peach orchards around Keedysville and Boonsboro, in Washington county, reports that peach crop will not be a total failure, as was feared. An examination of the peach trees in Frederick also discloses that there are still many healthy buds on the trees, and if no further damage be done a fair crop may be expected.

There is more catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure by local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co. Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists. Twenty. Hall's Family Pills are the best.

To Cure A Headache.

Here is a headache cure that is said to be a marvelous remedy, and to relieve the sufferer when all else fails. It is easy to make and easy to apply, and it consists simply of black pepper and camphor.

Take a quantity of black pepper and put it in a handkerchief. Then fold the handkerchief over so that the grains cannot fall out, and saturate the whole thing with camphor. Bind this "plaster" on the head and lie down.

In a very few moments the headache will be relieved and the patient will be asleep. When the handkerchief becomes dry, saturate again with the camphor. That's all.

People who have tried everything else say that this home remedy relieves them quickest. At any rate, it is worth trying.

OCEAN CITY.

The warm weather is quite encouraging to our fishermen.

Mr. L. P. Skinner, of Cambridge, Md., is with us again this season, and is as usual down for a vacation, and also for his health. We hope he will be much benefited by his trip.

Judge J. Upshur Dennis of Baltimore, Md., is the guest of Mr. Wm. McKew, at Seaside Hotel, spending a few days for recuperation.

Mr. H. Anderson of Philadelphia, Pa., representing Smith & Marvel, Commission Merchants, made a business trip to the city one day last week, returning Monday.

Capt. Jno. Long of Fenwick Island L. S. Station is in town one day this week on business.

Misses Della and Ella Kelly, of Synovaux, Md., are visiting friends and relatives in town.

Capt. Ladlam of Ocean City Fish Company was quite successful this week in catching fish, landing 78 barrels a day. We are glad to know that the fish have not all passed yet, and hope they all may be more successful in the future.

Misses Minnie Hearne and Mamie Parker are attending the Teachers Institute at Pocomoke City this week.

Mr. Jno. T. Ensor, of Baltimore, Md., owner of Isle of Wright Hotel here, is down looking after the interest of same and having some repairing done.

We have had quite a number of city visitors this week looking after and renting cottages also repairing for the coming season, which we think will be a good and prosperous one.

According to reports, the Maryland winter wheat crop will, under the present favorable conditions, be one of the best in the history of the state. At present it is estimated that the crop will be about 15,000,000 bushels, while the average crop is about 10,000,000. The crop is also far advanced for this time of year, and while, as a rule, the shoots are not over six inches high at this period, it is reported that on the Western Shore it is now about 10 inches and on the Eastern Shore about 15 inches high.

Keep the Balance Up.

It has been truthfully said that any disturbance of the even balance of health causes serious trouble. Nobody can be too careful to keep this balance up. When people begin to lose appetite, or get tired easily, the least impudence brings on sickness, weakness or debility. The system needs a tonic, craves it and should not be denied it; and the best tonic of which we have any knowledge is Hood's Sarsaparilla. What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventive that it enjoys as a cure. Its early use has illustrated the wisdom of the old saying that a stitch in time saves nine. Take Hood's for appetite, strength and endurance.

The J. Frank Fields syndicate, composed of New York, Philadelphia and Ohio capitalists, has purchased the Bowles property, near Hancock, for \$40,000 cash and will construct a cement mill there.

Shouting Christians.

Some Christians, who formerly shouted, no longer do so. Some never shouted. Some do not approve of it; others are never well, never in buoyant, hopeful spirits, so don't feel like it. Rev. Jno. S. Kish, Yellow Creek, Pa., says: "Victor Liver Syrup is still healing the sick. It listens as if God's blessing is upon it. Women, that have been sick for years are now at work and singing God's praises, and men are living a new and happier life. Good reports from the Victor Remedies everywhere." All live Druggists and Merchants keep them.

It is said that the Philadelphia, Baltimore and Washington Railroad Company has expended about \$800,000 on work in Cecil county within the past year.

A Runaway Bicycle.

Terminated with an ugly cut on the leg of J. B. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklin's Arnica Salve cured. It's just as good for Burns, Scalds, Skin Eruptions and Piles. 50cts at any Drug Store.

The bids for proposed improvements on the Joppa road, east of Towson, were opened by the Baltimore County Commissioners last week, but the bids were so divergent that all of them were rejected.

If The Baby Is Cutting Teeth,

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

CUTICURA SOAP

The World's Greatest Skin Soap.

The Standard of Every Nation of the Earth.

Sole Greater Than the World's Product of Other Skin Soaps.

Sold Wherever Civilization Has Penetrated.

Millions of the world's best people use Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itching and chaffing, in the form of baths for annoying irritations and inflammations, or too free or offensive perspiration, in the form of washes for ulcers, sores, and many other ailments, and for the purpose of suggesting themselves to women, especially mothers, as well as for all the purposes of the toilet, bath and nursery.

Cuticura Soap combines delicate emollient properties derived from Cuticura, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower essences. No other medicated soap ever compounded is to be compared with it for preserving, purifying and beautifying the skin, scalp, hair and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath and nursery. Thus it combines in one soap at one price the best skin and complexion soap and the best toilet and baby soap ever compounded. Sold greater than the world's product of all other skin soaps. Sold in every part of the civilized world.

STATEMENT OF THE CONTINENTAL FIRE INSURANCE COMPANY OF NEW YORK.

Assets \$12,000,000.00; Liabilities \$7,100,000.00; Surplus \$4,900,000.00. I hereby certify that the above is a true abstract from the statement of the Continental Fire Insurance Company of New York to December 31, 1902 now on file in this department. LLOYD WILKINSON, Ins. Comm.

IF YOU COULD MAKE \$1000 FOR \$18 MONTH WOULD YOU DO IT?

And \$500 for \$10 a Month THU You Had Paid \$250 and \$125, Respectively.

The BIG FOUR Consolidated Gold Mines, (LIMITED.)

Non-Personal Liability. Fully Paid Up and Non-Assessable.

CAPITAL \$62,500, of which 40 per cent. is now in our Treasury.

INCORPORATED DECEMBER 23, 1902.

Rossland Ore Shipments:—Shipped for the year 1902 about 350,000 Tons, 85 per cent. came from the Le Rois. Grand total to January, 1903, about 1,241,000 Tons. Value \$21,000,000.

To make fortunes out of the future you must put something into the present. Read the following and judge for yourself!

In addressing the public we realize that honest investors do not want fanciful fairy tales or flowery fictions, but solid facts and figures which will stand the test of the most searching criticism. Strong in the knowledge of possessing a really good thing we confidently submit a few considerations to those who are in search of a first class investment.

A Solid Company on a Sound Basis, possessing one of the most valuable properties in the far famed Kootenays of British Columbia, Canada.

Our Property—Our property consists of four valuable claims, all deeded to Company.

Large Dividends.—The Le Roi yielded an average monthly profit of nearly \$100,000 for the past year, while the Le Roi No. 2 has paid no less than \$300,000 in dividends during the past fifteen months.

Its Location.—By universal consent our location is unsurpassed in facilities for both mining and shipment. Water, so essential to concentration and smelting, is supplied by four streams which flow through our claims, while the Red Mountain Railway crosses our property no less than three times.

Improvements.—Improvements to the value of \$80,000, including 700 feet of tunnelling, have already been made. Large ore bodies have been uncovered carrying sufficiently high values to admit of mining with handsome profits. Modern machinery alone is now required to enable us to handle this ore to our advantage.

No Debts.—There are no debts whatever against the Company and therefore no "dead horses" to be paid for out of stock sales, and the future prospects of the Company are exceedingly bright.

A Rare Chance.—We are now placing 100,000 shares Treasury Stock on the market in order to secure funds for putting in a thoroughly up-to-date plant. No less than 100 shares of this stock will be sold to anybody. Our special cash prices for this stock are: 1000 for \$300 or 80 cents per share; 500 shares for \$110 or 22 cents per share, and all smaller amounts at 25 cents per share. Or we will sell blocks of 500 shares and upwards on the installment plan as follows: 20 per cent. down and 10 per cent. per month until paid for. Payments will be due on the first of each month. See Order Blank.

Send for Descriptive Booklet.—If this interests you send for descriptive booklet containing prospectus, reports of engineers and assayers, extracts from the press and reports and statements by reliable business and professional men of Rossland. We court investigation and stand ready to cheerfully furnish the fullest information to all interested persons. Now is the time to invest in Big Four Stocks as the prices are going up and will reach a Dollar. There is nothing surer.

References.—As to the Title and Status of the Company we refer, by permission, to the Mayor of Rossland and other leading officials. We hold the record in B. C. for economical mining.

NOTE.—\$40.00 Cash and \$18.00 per month until you have paid \$250.00 will give you 1000 shares, which we believe should actually bring you \$1000 in return for your investment. The first payment on 500 shares is \$25.00 cash and \$10.00 per month. All payments to be complete within one year from date of purchase.

NOW IS YOUR OPPORTUNITY. TAKE IT.

Any amount less than \$100.00 send by post office or express money order; over this amount, by bank draft, to

JAMES LAWLER, SECRETARY and TREASURER,

P. O. Box 545, ROSSLAND, B. C., Canada.

Booklet, Order Blanks and Prospectus with Maps and Reports from Mining Engineers sent only to Investors or those desiring to invest.

Do You Want \$1000?

I will furnish you with a savings bank that can be opened only by me or by the company, for which you deposit one dollar as an evidence of good faith, which amount will be credited on your book. You then sign an application for insurance, and are examined by a physician. If you pass the examination a policy will be issued, on delivery of which you pay \$2, and if you should die the policy will be paid; if you do not pass the \$1 deposited will be returned. I call every three months at your home, open the bank in your presence, and enter the amount in your book. If your savings exceed the amount due by more than \$90 you will be allowed 3 per cent on the excess. Amount necessary to secure a 30-year payment life policy at 21 years of age on \$1000 is less than 90c per week; at 30 years of age, less than 60c per week. A life policy for \$500 at an age under 24, costs less than 30c a day.

after awhile Jones became aware that the edges of this card were ornamentally irregular, and then he knew what it was. The thing was a valentine, and it had traveled many, many miles—and latterly by a route never intended by the sender—to reach this dying man in time.

THE NEW BAKER. but only new to the people of Salisbury. Schaeffer is an old hand at the baking business. Many years experience catering to the trade in Washington and many seasons baking for the summer visitors at Ocean City.

JOSEPH SCHAEFFER, THE BAKER. Plain Street, Salisbury, Md. DR. W. G. & E. W. SMITH, PEDIATRICIANS. 100-101 Main Street, Salisbury, Maryland.

THE young author seated himself with that nonchalance which may be expected in one who is introduced by the editor in chief to the mere editor of a department. He scratched a match upon the side of his desk—it really is mine and not the establishment's—and lighted one of those Egyptian cigarettes which smell like an early spring bonfire in Maggie Murphy's back yard.

"What kind of stuff do you want?" he inquired. "I'd take a good valentine story," said I. At that my visitor assumed a smile suggesting the early stages of seasickness.

"Oh, I say," said he in a tone of languid protest, "that sort of thing's played out, don't you think? Who cares about valentines? There's no romance in them any more. In society, if people notice the day at all, they send flowers, not picture cards."

"I don't see anything in it," he declared. "The valentine is a dead issue." Now, though I had never met young Mr. Breck before that day, I had read some of his stuff, and I knew that he could do good work. He was a western product, and such of his stories as I had seen were full of spirit as if an unbroken pony. Eastern civilization seemed to have taken the life out of him with astonishing rapidity, or it may have been the Egyptian cigarettes. I was conscious of a sort of rage against him, partly because his affected manner was such a disappointment to me, but chiefly perhaps because he had treated my commonplace, old-fashioned notion with contempt.

"You run the supplement, I'm told—the literary and artistic end of the paper?" "That's what I'm here for," I replied. He shook his head very sadly and muttered: "Valentine stories! Good Lord!" "Why, what's the matter?" I inquired.

"Now, look here," said he. "I try to keep pretty close to life; to write the thing that is and not the dream. Do I make myself clear? Well, such being the case, let me ask you one question. In the last ten years have you known or heard of any human creature who has attached any serious importance to a valentine or had any really romantic adventure connected with one?"

"Yes," said I. "And the fact is that a considerable package of mail for him, sent through the publishers whom he represented, and tardily forwarded, had gone to the bottom of the Pacific ocean, but he didn't know that."

HE SAT THERE ALL NIGHT.

It's a privilege never denied a freeborn American. However, they became friends in Manila because it was so far from home. "Templeton was a sergeant of volunteers and a homesick soldier if ever there was one. He excited Jones' sympathy, which became acute when Jones learned that there was a girl at home who had stopped writing to Templeton for an unknown reason. This is a serious matter when a fellow really cares for the girl, and she is 10,000 miles away and there's no method of learning why she no longer writes. Fancy waiting for a letter to go half way around the world and for the reply to come at all! Templeton was not naturally sensitive, but the experience had made him so. He told his secret grudgingly because it was forced out of him, but he never revealed the name of the girl."

"In the latter part of January Templeton's company was sent up into the interior to a little forsaken village where there was a peck of trouble. A mail steamer came in the day before the detachment marched, but it brought no letter to Templeton. The poor fellow revealed this misfortune to Jones with tears in his eyes. He seemed to think that this was his last chance. A few days later Jones learned entirely by accident that a letter for Templeton had really come on the steamer and had been delivered by mistake to a surgeon of the same surname. The addressed side of the letter had been wet, and the ink was a mere blot, so that the word Templeton was about all that could be deciphered. The surgeon, however, detected the given name of 'George' and did not open the letter."

"Jones had had it in his mind to try to get through to this place where the trouble was. He thought he saw a good story in it. He told the surgeon of his intention and was permitted to take the letter. By pulling all kinds of wires he got leave to join a small party that was going up with dispatches, and the result was that he had adventures enough to fill a book. The party got through alive, but every man of them was wounded, including Jones, who made the last forty miles of the journey practically on one leg. But Templeton's letter—which he was morally convinced was the letter—reposed in his breast pocket when he staggered into camp.

"He found Templeton flat on his back and raving with fever in a quaint century old church that had been turned into a hospital. The surgeon in charge told Jones that it was practically all over; the man was as good as dead. 'Will he be conscious again?' asked Jones. And the surgeon said that it was possible. 'When is it likely to happen?' 'Heaven knows,' answered the surgeon.

"I'll wait," said Jones. And he sat down on the foot of the bed. His wound was dressed and he was fed while he sat there. Of course they tried to take him away, but he wouldn't go, and as everybody was pretty busy he was presently forgotten. "He sat there all night, sometimes in that comatose sleep which is the product of physical weariness and mental concentration fighting for supremacy. He was half crazy from a dozen causes, and he held that letter in his hand every minute. "It seemed to him that by continual feeling of it while in that peculiar mental state he gained an idea of what was in it, and at times he felt ashamed of knowing. The envelope was square, and there was a hard inclosure that seemed like a small photograph. But

"Hello, Jones!" said he. "Where did you come from?" "I've got a letter for you, George," was the reply. "It came after you left."

"Give it to me," said Templeton, extending a weak, thin hand. "He took the letter and raised it to his breast as he sank back against the pillow. Jones waited, but Templeton did not move. He lay there smiling, with the letter on his breast. The man was dead. "This is a valentine that some one has sent to him from home," said Jones when the surgeon came. "I think we ought to bury it with him."

"How do you know what it is?" asked the surgeon. "Jones could not answer. 'We ought to open it,' said the doctor, 'in order to communicate with the writer. Some one might want to know that he got it.' "He took the envelope out of the dead man's hand and opened it after some hesitation. "Dear George," he read in a whisper, "small this to Frank Jones if you know where he is, and never tell him who sent it. I don't know how to address him, but you can find out."

"THAT'S MINE," SAID JONES.

"I'll go home and see what I can do for you. By the way, it wasn't Templeton's girl, of course?" "The one who sent the valentine? Certainly not," I replied. "When Jones got back to this country, he looked up Templeton's affairs a bit to see whether he could do anything for his family and that sort of thing, and he happened to discover that the girl for whose letter he had waited was really waiting for him—waiting, as I have faith to believe, very near that rude church in Luzon where the man closed his eyes so happily to open the eyes of his soul next moment in her presence."

"You mean she had died?" said Breck. "Precisely," I replied. "And Jones hasn't found the one girl who remembered him upon the far side of the world?" "No," said I, "but he will." Breck lighted another of his deadly cigarettes. "Why can't I write this thing for you?" he inquired. "Not for your life, my friend," said I. He stared through the first great cloud of smoke. "Why not?" he demanded. "Because I'm Jones," said I, "and at present the matter is sacredly confidential. When I have found that girl, I shall write the story myself."

LIQUOR LICENSE NOTICE. Notice is hereby given that O. J. Schneck has this 25th day of April, 1903, applied to the county commissioners of Wicomico county to sell malt, vinous, spirituous and intoxicating liquors in quantities of four and seven-eighths gallons or less, in the three-story brick building in the town of Salisbury, Wicomico county, Md., on the corner of Main and St. Peter's Streets, known as the Peninsula Hotel, and occupied by the applicant.

If you are sick and out-of-sorts, it is in your power to make yourself healthy, strong, and happy. There is not the slightest reason why you should go through life feeling sickly, miserable, languid, and melancholic. To be well and strong, means happiness and true joy. If you are sleepless, rheumatic, neuralgic, dyspeptic, or have the shadows of disease hovering over you; if you are not as bright, energetic, and strong as you were some weeks ago, the use of Paine's Celery Compound will set you up and fortify your whole system, cleanse the blood, correct your digestion, sharpen the appetite, and conduce to restful sleep. Thousands once in a half-dead condition owe their recent good health to the use of Paine's Celery Compound. Mr. Wm. S. Gilman, of Louisville, Ky., who, through sickness and suffering, was brought near the dark grave, writes as follows, regarding his marvelous cure: "I have been broken down in health and strength, nervous system shattered, kidneys out of order, had nervous and trembling spells all on and on for the last ten years. I have taken all kinds of the above-mentioned troubles have left me, and I can now do a good day's work, go about my business all day long and it don't worry me, and I now feel better than I have in ten years. I have a good appetite, and can eat and get around on foot as active as when I was a boy. My age is 65 years."

Over-Work Weakens Your Kidneys. Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney troubles cause quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y. on every bottle.

QUESTION OF NEGRO SUFFRAGE.

The United States Supreme Court rendered a ruling Monday in the case of Jackson W. Giles vs. the registration board of Montgomery County, Alabama...

Giles, a negro resident of Montgomery county, Alabama, was not permitted to vote at the last county election. He filed suit against the registration board...

Justice Holmes, who delivered the opinion, said that for the court to interfere would be unheard of relief in cases presenting only political questions.

According to this decision it is understood that every State in the Union can disfranchise the negro and keep him from voting. The ruling is consequently of the utmost importance.

Justice Holmes' written opinion was not made public, but he made quite an extended statement from the bench, reciting at some length Giles' petition...

LARGE IMMIGRATION.

Immigration figures for the fiscal year 1908 seem likely to surpass those of any preceding year except 1892. The figures of the Bureau of Immigration furnished to the Bureau of Statistics...

Italy supplied the largest number of immigrants in the 9 months ending with March last, the total from Italy (including Sicily and Sardinia) being 125,000.

The best way to build up a town is to stand by every upright man in town. All residents should be partners, not opponents. In all livelihoods the more business your rival does the more you may do.

Harsh Criticism.

There are persons whose whole mission in life is to hunt for depravity. They have a vulture's keenness of vision and a scorpion's sting of tongue.

Being always in quest of wickedness, such persons come to have no charity at all for those of mankind who walk straight paths. A boy once found a coin in the road. Ever afterwards he went along with bowed head, looking for money.

Without doubt there is very much to be deplored on the earth. Human sin is an ugly, loathsome fact. It stares us ever in the face. But to indulge in harsh criticism of the larger part of mankind on that account is to open ourselves to judgement.

We cannot, indeed, be too guarded in our speech. Loose tongues are charged with dynamite. They carry upon them more poison than can be secreted behind the fangs of a rattlesnake or a cobra.

In some cases harsh criticisms are passed because of inability to use the faculty of comparison. Such persons are lacking in judicial capacity. They have no mental scales with which to weigh matters that require weighing.

There is no harm in having a little of the critic in one's composition. A large cultivation of that faculty, however, is to be strenuously avoided.

The following method in fattening is adopted by the English goose farmer: Geese in good condition should be shut up in a quiet place, shaded from light, where they cannot see other geese at liberty, and should be kept there from twenty to twenty-five days.

It is the custom of many farmers to give their geese nothing but grass before they are put on the stubble fields, says B. White in Poultry. In consequence of this when first put out they are very thin, but it is a great mistake after the stubble has been cleared to return them to that diet, for they will lose almost as much in weight as they have previously gained.

Don't Mix Your Eggs. Don't set Brahma, Wyandotte and Leghorn eggs in the same incubator at the same time. The amount of moisture or ventilation required to hatch one will be too much or insufficient to hatch the other variety.

Thickness of the Skin and Eczema. The only remedy in the world that will at once stop thickness of the skin on any part of the body that is absolutely safe and never failing, is "Don't's Ointment." Free Samples at White & Leonard's Saturday May 2nd.

OLD RULES STILL GOOD.

What I. K. Fitch Said About Scientific Feeding Twenty-Five Years Ago. In those days of balanced rations and scientific feeding the following, from the pen of I. K. Fitch and published as early as 1877, will be appreciated:

"A few words upon the use of the several condiments advertised for fowls in egg production may not prove amiss in this work. In most cases, where these condiments are needed, the breeder is troubled to obtain a variety of food for his flock.

"Of the many kinds now in use it is safe to say that in all are found nearly the same ingredients, the quantity of each in the compounding being the greatest difference in them. These condiments and egg foods should be carefully administered.

"No general rule can be followed. One should begin with less than directed and increase the quantity until the desired result is accomplished. We have, in testing some of the egg foods, given them as directed and forced some of the fowls to lay three soft shelled eggs in a single night, two hens side by side producing five such eggs in a night. It is evident, then, that in such cases the food becomes abortive.

"Breeding fowls should not be allowed to lay more than 100 eggs in the six months termed the breeding period, and if they are to be found falling off from that ratio the food may be used to stimulate them to a natural production, or overtaken fowls may be induced to lay more freely by its use and their fat reduced to some purpose.

"Fowls kept to produce eggs for the market may be fed upon this food more freely until they are forced to their full constitutional limit, and when molting time comes they may be killed and marketed for poultry. Birds thus forced will generally molt slowly and fall to lay till the following spring, which would make it more profitable to replace them with young stock that will stand the use of the food and pay a profit on its use."

The Peafowl. Like the guinea fowl, this bird is more for the open ground than for confined space. It has a wandering tendency, and its habits are those of a field Republican, as the birds would give warning of such an attempt. The height is thought to be too great for parcels to be thrown over. Experiments have proved that the cost of this netting will be fully covered by the extra duties obtained from persons who would otherwise escape.

The Chateau de Grignan. Despite many efforts to balk him, Count Boni de Castellane has become the possessor of the famous chateau de Grignan, where Mme. de Sevigne passed her last years and died. The Adhemar de Montels built the Chateau de Grignan. In the sixteenth century this great family of the Midi merged into a branch of the Castellane family, and became the marquises and counts of Grignan.

Shockley On The Honor Roll. Included in the list of members of the Baltimore City Police Department who have especially distinguished themselves in the performance of their duties, as given out by the Board of Police Commissioners Monday was Round Sergeant Joshua J. W. Shockley, of the Eastern District. Sergeant Shockley a few years ago was chief of police of Salisbury, and his promotion on the Baltimore city force has been earned through merit.

ARE DREAMS CONTINUOUS?

Experiments by an Investigator Who Believes They Are. A writer in the Royal Magazine has been subjecting himself to a number of curious experiments with a view to testing certain theories that he holds on the subjects of dreams. He maintains that when a man is asleep he is constantly dreaming and that the "only dreams or portions of dreams you can remember are those which occur just before you awake."

Next he induced his wife to awaken him when he appeared to be sleeping peacefully, using various methods to do so. The methods adopted were giving him a smart "dig in the ribs" (a violent plan, which one would think would be too cruel for a lady to employ on her illegitimate lord), dropping cold water in his hand, fanning his face, calling his name and holding a spray of heliotrope to his nose and then rousing him with a shake!

Smuggler Alarm Boundary Line. The Italian government has erected along the Swiss-Italian frontier many miles of metallic netting, hung with bells. The object is to prevent contrabandists sending over the frontier dogs and other animals loaded with dutiable goods, a plan that has proved profitable to smugglers in the past, as it was carried on mainly when guards could not see. The dogs are trained to carry their loads to the accomplices of the smugglers on the other side of the line.

Continual Judicious Advertising Pays

Does advertising pay? Does it? Note the announcement of the Curtis Publishing Company, publishers of the Ladies Home Journal: The Proctor & Gamble Company, of Cincinnati, have awarded a contract for a full page in each issue of the Ladies Home Journal for three years, with option of two additional years for the advertising of Ivory Soap. The price agreed is the Journal's full rate, \$4,000 per page, making an expenditure of \$48,000 per year, or \$144,000 for the three years absolutely contracted for and \$96,000 for the two optional years representing a contract for \$340,000.

Occasionally we hear of a concern with a small local reputation say, "We don't have to advertise. We are already well enough known." Ivory soap, too, is pretty well known, yet its manufacturers are willing to pay one periodical of \$48,000 per annum to make it better known.

The manufacturers of this soap realize as do all successful advertisers that thousands of new purchasers are constantly appearing on the market.

It has been decided to consolidate the public schools in and around Layonsville, Montgomery county. This is the first move of the kind to be put into practical effect.

For Benefit Of Fruit Growers.

Several cases have occurred recently where fruit growers have taken the advice of unknown or irresponsible agents to destroy their orchards infested with San Jose scale or other insects or diseases, the agents thus securing a sale of trees for a new orchard at the expense of the grower, who with proper care might have saved his trees and made them profitable for many years.

Local inspectors have been engaged in various parts of Maryland to assist the officers of the State Horticultural Department in inspecting orchards for San Jose scale, peach yellows, etc., and they will be given certificates, showing their identity. This certificate can be seen by any person whom they visit.

These inspectors are men of experience in horticulture and are familiar with our injurious insects and diseases, and are responsible to the State Horticultural Department for their actions. They can give necessary advice to growers on horticultural subjects and may often assist them in spraying or otherwise caring for their trees. Further information on this subject or anything relating to horticultural work and injurious insects or diseases, may be obtained by addressing the State Horticultural Department, College Park, Md.

For The Public Good.

In another part of this paper appears an advertisement worthy the reading, as it's for the public good. It tells of a free distribution of Doan's Kidney Pills remedy for Kidney Ills. Read it, and call at White & Leonard's Saturday May 2nd.

Cecil county will again banish the saloon May 1. After having a prohibitory liquor law for some years, the saloons were re-opened, but the people of Cecil county evidently concluded that a mistake had been made.

8 Cents

Eight cents a pound is what a young woman paid for twelve pounds of flesh.

She was thin and weak and paid one dollar for a bottle of Scott's Emulsion, and by taking regular doses had gained twelve pounds in weight before the bottle was finished.

Eight cents a pound is cheap for such valuable material. Some pay more, some less, some get nothing for their money. You get your money's worth when you buy Scott's Emulsion.

We will send you a little free.

The Union Men Had a Parade in Phila.

Lacy Thoroughgood was in Philadelphia last week and saw a parade of the Union men. IS DEM DE SOJERS? asked an old colored woman. "No, Auntie, those are not soldiers' exotically. They're all Union men. What's de difference? Isn't de Sojers all Union men now? Well, yes, but these are all Union men who are workingmen and belong to Unions. They'd all be soldiers if Uncle Sam need'd 'em. There are lot of things about Union labor that some folks can't figure out—or don't want to—but it don't take long for a man who began working when he was fourteen years old and who worked year after year from six o'clock in the morning till late at night to realize that a man who works too many hours in one day isn't as good a man the next—to realize that working men want to visit their best girls, and get acquainted with their wives and children, and go among their friends just the same as the mill men and factory owners do. Now to encourage the Union, Lacy Thoroughgood is putting Union Made goods in his store as fast as he can. Thoroughgood received this week five hundred dollars worth of Union Made Pants, Overalls and Working Coats—These goods are made to wear like iron—The makers will give 50 cents for every button that comes off—and 50 cents for every seam that rips—Two men, one hold of each leg, can't tear them apart—Now are these the kind of working pants, working coats and overalls you want? If they are, you must come to Lacy Thoroughgood's Store to get them—they are Union made. They have the Union label on each garment—every honest merchant respects and honors the workingman's demand for the Union label—Lacy Thoroughgood sells Union Made Clothes.

TALMAGE SERMON

By Rev. FRANK DE WITT TALMAGE, D.D., Pastor of Jefferson Park Presbyterian Church, Chicago

Gloomy thoughts become habitual to the dyspeptic. He looks on the dark side of things and every mole hill becomes a mountain. His condition affects his business judgment and mars his home relations.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the organs of digestion and nutrition. It gives buoyancy of mind as well as health of body because it removes the physical cause of mental depression.

Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

THE FORD'S BLACK-DRAUGHT FOR CONSTIPATION

Constipation is nothing more than a clogging of the bowels and nothing less than vital stagnation or death if not relieved. If every constipated sufferer could realize that he is allowing poisonous filth to remain in his system, he would soon get relief. Constipation invites all kind of contagion. Headaches, biliousness, colds and many other ailments disappear when constipated bowels are relieved. The Ford's Black-Draught thoroughly cleans out the bowels in an easy and natural manner without the purging of calomel or other violent cathartics.

Be sure that you get the original Ford's Black-Draught, made by The Chattanooga Medicine Co. Sold by all druggists in 25 cent and \$1.00 packages.

Keep it on hand. It is the only medicine that I know of that will cure constipation in all cases. It is a great relief to the sufferer. It is a great relief to the sufferer. It is a great relief to the sufferer.

Dizzy?

Then your liver isn't acting well. You suffer from biliousness, constipation. Ayer's Pills act directly on the liver. For 60 years they have been the Standard Family Pill. Small doses cure.

Nasal Catarrh

In all its stages there should be cleanliness. Ely's Cream Balm cures, soothes and heals the diseased membrane. It soothes catarrh and drives away a cold in the head quickly.

OTHERS FAIL—I CURE!

Prof. G. F. THEEL, M. D. Guarantees you a cure for Biliousness, Constipation, Headaches, etc. He has cured thousands of cases.

Kidol Dyspepsia Cure

Digests what you eat. This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It prevents formation of gas on the stomach, relieving all distress after eating. Taking it is necessary. Pleasant to take. It can't help.

An Admiral's Mistake.

Some years ago an admiral of the United States navy was being bitterly assailed by his enemies, who took from the private war files a certain letter. In that letter he had discussed the principles which, in his opinion, should govern the navy and had indicated that courage alone did not qualify a man to be a commanding officer.

Our political history furnishes a still more impressive illustration. A series of letters written by a prominent statesman were secretly copied from the business files of the man who received them and were published to the world at a crisis of that statesman's career.

Many have studied the effect of letter writing in a political sense. We know the power of Samuel Adams' pen in fomenting Revolutionary strife. We know that Alexander Hamilton's pen, by the power of public letter writing, defeated Aaron Burr for the gubernatorial chair of New York state.

Let us first see the spiritual influence of letter writing in your own life. Strange to say, you do not remember much about your mother's life. I mean as you sit there you have forgotten exactly how she looked and the words of her voice.

My father used to impress this thought upon me by the recollections of an awful night which he passed in an ordeal of indescribable horrors. A very near and dear relative of his was his intimate associate for many years.

When I had stopped to think, do you suppose King Darius would have sent forth that decree, or public letter, which condemned his premier, Daniel, to the lions' den if he had only stopped to think?

Do you suppose King Darius would have sent forth that decree, or public letter, which condemned his premier, Daniel, to the lions' den if he had only stopped to think?

consecrate your pen to do for Jesus what you can? Will you not consecrate the pen as well as the voice and the sense of touch? Remember, Paul's epistles were only Paul's gospel letters, written to his absent friends.

Influence of a Gospel Pen. Oh, the infinite influence of a gospel pen! Infinite in reference to time! Some of us have seen the Assyrian hieroglyphs written upon the slabs of burnt brick by pens thousands upon thousands of years ago.

Never write a letter without realizing that in it you have the mightiest opportunities of testifying for Jesus Christ. We have all studied the far-reaching effect in a literary sense of letter writing.

Severe Nervous Trouble and Dyspepsia.

No Sleep for Weeks Because of Pain. Dr. Miles' Nervine Gave Back My Health.

Dyspepsia nearly always arises from a derangement of the nerve. When the stomach is not well the entire system suffers. Constipation, bad breath, sour stomach, frequent headaches, biliousness, etc., will lead to terrible consequences if not treated in time.

My health was miserable for years, due to severe nervous trouble and dyspepsia. I had not been able to sleep for weeks at a time without being awakened with pains in my chest and stomach.

There is a fascination about big profits to a business man. But the conservative and cautious trader prefers to have the lesser per cent. of interest and the larger per cent. of safety in his investments. There is no business man who would not consider it a sound proposition to invest in an enterprise in which absolute loss was impossible and which offered ninety-eight chances in a hundred of a rich profit. The statistics of cures effected by Dr. Pierce's Golden Medical Discovery show that ninety eight per cent. of cases of "weak lungs" can be absolutely cured. Almost if not all forms of physical weakness may be traced to starvation. Starvation saps the strength. The body is just as much starved when the stomach cannot extract nutrition from the food it receives as when there is no food. "Weak lungs," bronchial affections, obstinate coughs, call for nourishment. "Golden Medical Discovery" supplies that nourishment in its most condensed and assimilable form. It makes "weak lungs" strong by strengthening the stomach and organs of digestion which digest and distribute the food, and by increasing the supply of pure blood.

The joint debate between the orators of Tome Institute, Port Deposit, and those of York Collegiate Institute took place Friday. The question was, "Resolved, That it is for the Public Good that All Income Exceeding \$5,000 Should Be Taxed." Tome upheld the affirmative.

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

The Garrison at Fort Armistead, Hawk Kins Point, had target practice last week with several of the large rifles. The target was placed about a mile down the river and the shots striking the water could be plainly seen from Sparrows Point.

Disastrous Wrecks.

Carelessness is responsible for many a railroad wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass. is one of the many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases by all Druggists. Price 50c. and \$1.00. Trial bottles free.

The large locust tree in front of the Merryman Building, Towson, that was cut down last week, was an old landmark, which stood for many years in front of the old public schoolhouse, on the site now occupied by the Merryman Building.

Mr. Joseph Pominville, of Stillwater, Minn. after having spent over \$3,000 with the best doctors for stomach trouble without relief, was advised by his druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. If troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these tablets a trial and you are certain to be more than pleased with the result. For sale at 25c. per box by all dealers.

When you want a pleasant physio try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. For sale by all dealers.

SEVERE ATTACK OF GRIP.

Cared by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it not only to be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr Grip had bid me adieu." For sale by all dealers.

Mr. D. W. Mays, whose home is on the York turnpike, near Philipopolis, Baltimore county, while examining some old papers that had evidently been left in the house by former occupants, found a note of hand for four pounds, drawn by Stephen Cole and Stephen Gorsuch and dated 8 p. m. 20th 1796. The signatures were witnessed by John Hunter. Mr. Mays bought the property from the late Irving J. Gorsuch.

Ninety-eight Per Cent.

The wharves of the Maryland Steel Company have been crowded with vessels during the last week. Three steamships, a full rigged ship, a four master, two small schooners and a barge were working one day.

Not A Sick Day Since.

I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved and soon there after was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility. This is what E. F. Bass, of Fremont, N. C. writes Only 50c. at all druggists.

The actual work of construction of the tidewater extension of the Western Maryland Railroad is to be vigorously pushed, and it is expected that trains will be able to run over the new line within several months.

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X Rays, establish it as a fact that catarrh of the stomach is not a disease of itself but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrh of the stomach. Kodol digests what you eat—makes the stomach a sweet. Sold by all druggists.

The prospective building of the electric railway on the Harford road, from Belair to Baltimore, has already boomed the value of property, one landowner raising his price from \$8,000 to \$10,000 in one week.

Doing The Right Thing.

The trouble begins with a tickling in the throat and a nagging little cough. Soreness in the chest follows and the patient wonders if he is going to have an all winter cold. Probably, if he does the wrong thing or nothing. Certainly not if he uses Perry Davis' Painkiller, the staunch old remedy that cures a cold in twenty-four hours. There is but one Painkiller, Perry Davis'.

Letter to Uman Sons.

Dear Sir: There are two sorts of furniture. You know both; for you sell 'em both. One sort looks better than it is, and the other is better than it looks. There isn't any other sort.

The same, two sorts of paint, no more; and we make 'em both—we make tons of stuff that isn't worth the freight. Be long to the business—have to. Belongs to your business—you have to.

But this is aside. We put into cans, with our name, the very best paint there is in the world; Devco Lead and Zinc. It takes fewer gallons than mixed paints, and it wears twice as long as lead and oil.

C. O. Brown & Bro., Columbia S. C. write:

Mr. C. O. Brown, employed an experienced painter to paint his house with Devco Lead and zinc. The painter on seeing the paint that was sent to the house said, "but there was not enough; he was so sure of this that he opened up all except one five gallon kit. When the job was done he returned the five gallon kit and about as much more in open vessels. Other painters who have been using mixed paints have had the same experience with Devco Lead and Zinc. Yours truly,

F. W. Devco & Co. New York.

P. S.—L. W. Gunby sells our paint.

Winter weather prevailed in Western Maryland last week, snow falling at Frostburg, Mount Savage, and points on the West Virginia Central. There was quite a heavy fall on the Alleghenies near Oakland and early vegetation was damaged.

Welcome as Sunshine

after a long storm is a feeling of relief when an obstinate, pitiless cold has been driven away by Allen's Lung Balm. Only people who have been cured of throat ache and sore lungs by this remedy can quite realize what the feeling is. There is no ointment in the Balm; its good effect is radical and lasting. Take a bottle home to day.

THE VALUE OF CYPRESS. It is the Most Desirable Wood Which Can Be Used.

Cypress in all its ages has been considered the indestructible wood, and a such, used to cover and protect other less durable woods. It is peculiar in the South Atlantic and Gulf States, Pocomoke river swamp, lying chiefly in Worcester county, Maryland, being as far North as it seems to grow and this for more than a century, furnished the principal supply of Cypress Shingles for the Eastern Shore Peninsula, trees growing to enormous size and great age, often a thousand years or more.

This virgin growth of matured timber has been practically worked up many years ago, and supplies have been drawn from the swamps of Virginia and North Carolina, which are also being much depleted, and now Florida furnishes the principal supply of virgin growth Cypress. A younger growth, not fully matured, is being largely used but is of short life compared with the old yellow heart which now comes from Florida, where it grows to its greatest perfection.

It is a fact in nature that the durability of timber corresponds to its age, or the time it takes to grow and mature. Pine, for illustration, from an old growth fine grain matured tree, is much more durable than from a young tree, and so with Cypress and Cypress Shingles. And no matter how much care you take in the selection of your materials for your building or how experienced or reliable your mechanics, if you use inferior shingles you make a great mistake.

The covering of a building is the most important part of the materials used in its construction. "The weakest link is the strength of the chain," and "The poorest shingles determine the life of the roof." And it is poor economy to run so great a risk of having a leaky roof, to save such a trifling amount of money. Act wisely and buy best Florida Heart Shingles. For sale by dealers generally.

ATHEL Miss Nettie Elliott of Athel has returned to Dorchester to spend the summer with Mrs. C. S. Bship.

Mr. Zehiel Holder of Dorchester County visited Mr. Willie Elliott Saturday and Sunday last.

Here's One from Queenstown, Md.

It affords me great pleasure to recommend Nelaton's Remedy to all sufferers of Rheumatism, and I always do so. My wife was a terrible sufferer for two years and was dropping, not being able to do any work at all. She was attended by several doctors with no result, and I expected her death at most any time. After taking one bottle of Nelaton's she was greatly improved, and before finishing the second she could do all her work and is now a well, strong woman.

Yours respectfully, W. A. WRIGHT.

QUESTION OF ROADS.
Mr. Perry Has Some Valuable Suggestions On Practical Construction—Favors Macadamizing—Thinks State Should Co-Operate.

Messrs. Editors:—I believe that the time has come when the State should, in connection with the work to be done by the counties, take some more decided action looking to the improvement in our public highways. The last session of the Legislature made some kind of an attempt to pass what is known as the Haman Oyster law, which provided for the leasing of the oyster bottoms of the Chesapeake for oyster planting and spending the proceeds from these leases on our public roads. The move was all right, but I do not believe, even if it had been passed, that it would have met the case. We need some measure that will bring more immediate results. I do not think the State can afford to wait so long for funds for the purpose. Personally, I am in favor of the law, and believe that the next Legislature should pass a bill incorporating the principal feature of the bill of 1902; but I do not think action on the road question should be postponed on this or be delayed by it, as the oyster-planting question will prove more or less political, and consequently remain unworked for some years to come, although it will eventually come after the oyster people themselves see the necessity of it, which they must do sooner or later.

I have become thoroughly convinced, after years of agitation of the question, that the counties, unaided, cannot or will not furnish the necessary public highways, and that if we ever get anything like a complete system of public roads throughout the State the State must contribute largely to this end. I do not, however, advocate the paternal theory of having the State do it all. I believe that the same general plan which is now followed in raising money for public education should be followed.

I have become convinced that we can never have an efficient system of public highways throughout the State till the State provides the material for building the roads. Let the counties do the work.

To be explicit: I believe the State should buy the granite hills along the Susquehanna river and put in plants to prepare the stone for building macadamized roads, and should own large lighters that would carry, say, 1,000 tons each, and deliver this material to the waters edge along the counties, there being but few counties of the State that could not be reached in this manner, and those which could not be reached by rail and supplied with stone from the western part of the State. If the work is to be undertaken we had as well provide to do it right and make it no temporary makeshift. I believe that the Legislature at its next session should provide means to have the stones prepared and furnished to the counties as fast as they could use it. It must be remembered that a work of this kind cannot be brought to a high state of perfection in a short time. It requires an organization both in the State to prepare the material and in the counties to utilize it, that cannot be effected in a day; one that will spend the money most economically.

When the subject of better roads was first to be discussed in Wicomico county there were those who urged the bonding of the county to the extent of \$100,000 to do the work. We could not have made a worse mistake, as the more conservative ones pointed out, and I was among that number; for what kind of an organization had we to spend \$100,000 economically on an enterprise we knew so little about? Wise counsel prevailed, and the work has been carried on in a much smaller way and decidedly more economically, so that Salisbury has now fine shell roads running in nearly all directions for several miles out; but the use of shells is no longer practicable, nor should it be permitted. In the first place, they have become too costly to use for this purpose, and then they should be planted to reproduce oysters. Much has been said about the use of slag for road building. I cannot see that much practical good can come of such experiments, because the supply of such material is too limited. There is an ample supply of stone in the

ROYAL BAKING POWDER

State, and experience has proved that this is the most economical material found so far for road building. I see no reason, therefore, for making these miniature experiments. On the other hand let the State furnish the stone and let the counties build the roads, and let them do it in the most approved way—no political or half way job, but macadamized roads. I am sure that the people of Wicomico are ready to be taxed to do the work if the State will furnish the material, but it is entirely impracticable for each county of the State to own its quarries and crushing machines to prepare the stone.

I think it is entirely unnecessary to discuss good roads as an investment for the State and counties. Any one who will look into conditions in Wicomico county, where shell roads have been extended, and learn what they were previously, will be warranted in the belief that we can only make mistakes by delaying the work or doing it improperly.

Finally I believe the subject should be made an issue at the coming election. It should be intelligently laid before the public and intelligently discussed, just as the Haman Oyster law should; and while I think the Haman Oyster law should be discussed and a Legislature elected that will take action and, if the bill is passed, the funds accruing from the same be used for this purpose; while, as I say, I am in favor of this, yet I do not think the propositions should be so linked together that the defeat of one will carry with it the defeat of the other. I believe that the State should provide the money to prepare the stone, and upon the principle that "the gods help those that help themselves," the counties should take the material and build the roads. Now, as to the methods to be pursued by the counties for raising the funds, I have no suggestions to make, because I think each county can take care of its own affairs.
THOMAS PERRY.

The Melon Plant Louse.
From the fact that the melon growers of the State have suffered immensely in the past from the attacks of the melon plant louse, as in many instances the melon crop has been reduced one half to two thirds in quantity besides being greatly impaired in quality, we particularly advise them to be on the watch this spring and summer for the first appearance of the insects in their patches. The eggs that were deposited last fall on weeds and other plants that will afford nourishment in the early spring, will hatch with the return of the warm days, the young developing into adults winged vyperous females. By means of these winged forms the species is transferred from the weed patches and other situations to the melon fields, where their offspring, like their winged mother, continue to multiply rapidly by bringing forth their young alive. In the meantime the winged insect has left for other parts of the patch to start more colonies. Since these melon aphids feed upon a large variety of plants, including many of our common weeds in addition to cucurbits vines, clean cultivation will do much to lessen their chances of rapid development in the early spring.

As soon as the young vines get four to six leaves, they should be carefully and frequently examined for the lice and at the first appearance of the winged females, they should be fumigated with carbon bisulphide. This is accomplished by covering the young vines with tight boxes or other covers, twelve to eighteen inches in diameter, the same in length, and introducing under each box a vessel containing one or more teaspoonful of carbon bisulphide. One teaspoonful should be allowed for every cubic foot of space under the cover and this will easily kill all the plant lice in three quarters of an hour, though it will do no harm to leave the cover in place for an hour.

A cheap tin cup, a clam shell, a saucer or other open dish will answer to hold the carbon bisulphide. This chemical is a colorless volatile liquid with a disagreeable odor. Its vapor is heavy and about as inflammable as gasolene, a spark from a cigar or pipe being sufficient to ignite it. The vapor is also very poisonous to all animal life, but no one need fear inhaling small quantities of it in the open air. Kerosene emulsion at the rate of 15% may be applied to the vines in the form of a spray against the melon aphid, but it must be remembered that the solution must hit all the plant lice in order to kill them. Any further information in regard to treatment for this or any other insect pest or plant disease will be gladly given by the State Horticultural Department, College Park, Md.

For The Aid Of Charity.
Owing to the many urgent demands upon our Society of King's Daughters the past few weeks, our treasury is nearly empty. At our meeting four weeks ago we had \$22.25—\$10.00 being given at that time by a kind friend, and Tuesday last had \$4.95 in hand. From collections on Tuesday and some money contributed since, now have \$7.50 and in all probability appeals will consume that before the end of the week. We hesitate to call upon the generous citizens of this town for more money to carry on our work but are compelled to do so.

A BIG DEMONSTRATION
In The Nature of Earnest Protests Was Made At Large Mass Meeting For Temperance Sunday. Outline Of Action.

The meeting called by the Anti Saloon League for Sunday afternoon in the Court House, took place as advertised and proved a great success for the cause of Temperance. The court room was crowded and hundreds turned away for lack of accommodation. The meeting was enthusiastic and showed great determination on the part of the citizens of Salisbury to make Salisbury a dry city.

The audience was not made up of Sunday afternoon loiterers, or curiosity seekers, but interested citizens determined to enter their protest to the legal side of rum. The meeting was called to order by Rev. S. J. Smith, president of the Anti Saloon League, the organization that called the meeting. Ex Gov. E. E. Jackson was called to preside over the meeting. Upon taking the chair, he said he deemed it a great honor to preside over such a gathering of his fellow citizens, and especially in the cause for which that meeting was called. He wished to enter his protest to the issuing of licenses in Salisbury district and he hoped that every citizen present would show his interest in the matter by entering his protest. He said he did not hesitate to state to those present that the action of the County Commissioners would depend upon the protest offered.

Speeches were made by Hon. James E. Ellegood, Messrs. A. J. Benjamin, Elmer H. Walton, John H. Dulaney, L. Atwood Bennett, F. Leonard Wallis and Thomas Perry. In concluding his remarks Mr. Perry offered a resolution that a committee of not less than ten be appointed by the chair to represent the meeting before the County Commissioners, when that body met to hear protests to the issue of licenses.

Music was furnished by the joint choir of the town led by Prof. Dashiell. The chair called for a meeting of the executive committee of the Anti Saloon League to take place immediately after the meeting adjourned. The meeting adjourned to meet in the Court House on the day the Commissioners set for the hearing.

The Chairman of the meeting, Ex-Governor Jackson, appointed as a committee to represent the meeting: Thomas Perry, Wm. P. Jackson, A. J. Benjamin, W. B. Tighman, John D. Williams, Geo. P. Houston, L. W. Gunby, W. F. Allen, Jesse D. Price, Fred P. Adkins and S. King White. This committee is to act in conjunction with the Anti Saloon committee, composed of Dr. G. W. Todd, James E. Ellegood, F. L. Wallis, W. J. Downing, E. H. Walton, W. C. Phillips, J. T. Ellis, Dr. L. W. Morris, G. R. Hitch, W. C. Humphreys, Rev. D. M. Lennox, James Elsey, H. H. Hitch, C. R. Hayman and Marion A. Humphreys.

These two committees met by invitation at the residence of Ex-Governor Jackson Monday evening to decide upon a policy to be pursued. It was agreed that the Anti Saloon League committee should take charge of the work in Salisbury Election District, where the vote was taken at the last election, and present the case to the Commissioners, based upon that vote. The other committee is to take charge of the work in Salisbury School District, that portion of Salisbury Election District lying in Parsons' and Nutters' Districts, which will be canvassed with petitions to obtain the sentiment of the people in the entire territory where eligible signers for liquor licenses reside.

The County Commissioners at their meeting Tuesday fixed upon Thursday, May 21, as the day for hearing the applications for license and the remonstrances. It was also decided to hold the session in the court room, so that all those interested in the subject may be present, and by their presence enter their protest to the issuing of the license. The petitions obtained will be presented by these two committees to the Commissioners on that day.

CONSTRUCTION TO BEGIN
On Department Store Of R. E. Powell & Co. Sometime During The Month. General Plan of Interior And Exterior. An Ornament To Salisbury.

It is now expected that the construction work on the new R. E. Powell & Co. large department store on South Main Street will begin by the last of this month. Bids have been advertised for and contractors and builders are preparing estimates to be submitted in their presence before the firm on May 15, the date for opening the bids. Lowest bidder gets the contract.

Davis Bros., architects of Baltimore have drawn the plans for a four story and basement building with a frontage of 73 feet 4 inches on Main Street, with a depth of 163 feet, running back to East Camden Street. The basement will have a pitch of 10 feet 6 inches, the first floor 18 feet, the other three 12 feet each. The entire front will be of glass. The foundations will be constructed of stone, the remainder of the building to be of brick and iron. The facing will be of Roman pressed brick, laid in mortar of the same color; the trimmings of stone, and the girders of iron. The cornices will be of galvanized iron or copper. The plate glass windows will be the largest in this city, those on the main floor being 120x180 inches, with side lights 42x180. The front of the building is very ornamental. In the center of the cornice at the top will be

R. E. POWELL AND COMPANY,
1880 AND 1903

There will be a height of 75 feet from the granite base at the main entrance to the top of the cornice. The interior arrangement of the building will be modeled after some of the big department stores in the large cities. The counters and shelving will be of oak. In the center a broad stairway leads up to the floors above. This will have massive and ornamental posts at the bottom, upon which will rest figures holding up electric lamps. On this main floor will be a general office 25x15 feet, a private office 9x15 feet, a toilet room for lady customers and a toilet room for the female employees. Above the office will be quarters for the cashier and wrapping clerks, which is reached by a spiral stairway. In the center of the building adjoining the stairway, will be a passenger elevator running from the basement to the top floor, and in the rear a large freight elevator. The entire first floor will have a metal ceiling, handsomely decorated. The width of the main entrance will be 20 feet, with an ample vestibule.

The basement is planned to extend from street to street, including the entire floor space. Approved appointments throughout will give added conveniences to one of the largest and handsomest structures of the kind in Maryland. Electricity will be the illuminant while steam heat and steam power for running the elevators will be installed.

The reports on fruit continue to be conflicting in their nature, but doubtless to the fact that no certain statements can yet be made as to the extent of damage by the freeze of April 6th and 6th. Some injury resulted from the cold and frosts of May 1st and 2nd, but not of any great consequence. Peaches will probably be quite light in yield. Apples are very promising over practically the entire section. Cherries are now coming into bloom in the extreme west; the early varieties will probably produce very little fruit, but the later blooms are expected to give fair to good returns. Plums and pears are of medium prospect, judging from the amount of blooms on the trees.

Wheat has generally lost the yellowish cast that was produced by the long continued wet spell, but in some places it still shows a sickly color. For the section as a whole, however, there is but little room for complaint, although the growth has been slight since the period of low temperatures began. Some very early fields are showing heads. Rye is fair to good in condition, and heads are generally reported. The early oats show good stands, but the growth has been slow during the week; sowing is still in progress in the western counties. It is a conceded fact that a reduced acreage will be the result of delays caused by the long wet spell.

Honor Roll.
The following is the report of first grade boys of the Salisbury High School. Rollie Barnes, 96.2; Herman Williams, 97.5; William Cluff, 96.5; Welton Pooks, 95.3; Morris Vincent, 94.1; Wilson Booth, 92; Albin Hayman, 91; Elmer Huston, 88.5; Franklin Waller, 88.3; Marion Kent, 87.2.
Mary Cooper Smith, Teacher.
—Mr. F. J. Schnell, of the Belmar Mfg. Co., Canton Pa. is now in Salisbury introducing the Belmar practical suit and skirt holder—the most practical and complete wardrobe system in existence. You will be interested in its utility. Do not fail to see it.

ELECT MC LANE MAYOR.
Voters Of Baltimore Decide For White Man's Government. Waechter To Contest The Election.

With two precincts still to hear from the face of the returns for Tuesday's election shows that McLane, (Dem.) was elected Mayor over Waechter (Rep.) by a plurality 548. Republicans believe the missing precincts will reduce McLane's plurality by 90, leaving it at 458. For Comptroller, Hefner (Rep.) defeated Hooper (Dem.) by a plurality of 742.

For President Second Branch City Council, Timanus (Rep.) defeated Gephart (Dem.) by a plurality of 2,050. The vote is:
FOR MAYOR.
McLane, Dem., 47,126.
Waechter, Rep., 46,578.
FOR COMPTROLLER.
Hooper, Dem., 44,879.
Hefner, Rep., 45,123.
FOR PRESIDENT SECOND BRANCH.
Gephart, Dem., 43,824.
Timanus, Rep., 43,824.

The Democrats elected three of the four new members of the Second Branch City Council and the Republicans one. THE FIRST BRANCH.
On the face of the returns the Democrats elected 19 and the Republicans 9 of the new First Branch Councilmen. This will give the Democrats control on joint ballot and insure the election of a Democratic City Register, who is a member of the Board of Awards.

Mr. Waechter and the Republican City Committee have engaged counsel and are preparing to contest McLane's election in the courts, if the Board of Election Supervisors declare him elected after the official count. The defeat of Messrs. Gephart and Hooper is attributed by their friends to the fight made against them upon the ground that they were purely organization candidates.

Mr. McLane carried 14 and Mr. Waechter 10 wards, as the returns now stand. Mr. Hooper and Mr. Gephart carried 9 wards each. The wards that gave pluralities for McLane, but turned down his colleagues, were the Eighth, Eleventh, Fifteenth, Sixteenth and Eighteenth. The last will probably be given to Waechter by completed returns. The Third ward, which gave a McLane plurality, elected a Republican Councilman. Wards which were carried by Waechter, but which elected Democratic councilmen, were the First, Thirteenth, Fourteenth and Nineteenth. Democrats are considerably buoyed by the fact that three of the four Councilman districts—which will be the Legislative districts—gave Democratic pluralities. Hubert won in the first by 1,440, Livingston in the second by 1,123 and Brown in the third by 848. For this reason Democrats are very hopeful of carrying three Legislative districts next fall.

Song Recital By Baltimore Artists.
The Song Recital as advertised in our paper to be given on May 20th will be one of the finest concerts ever given in our city. Mrs. Maude Brunnington Gilbert is one of the best Soprano of Baltimore, as well as one of the most popular. Her voice is a pure rich soprano, clear in tone and of the sweetest quality. She has probably the highest range of any singer in Baltimore and is a great favorite. She has sung in all the churches in Baltimore, and was soloist for 8 years in the Grand Old Cathedral. She has appeared before His Eminence, Cardinal Gibbons and has been greeted with great honors by the Sisters of Mercy of the Cathedral, and been guest of honor of His Eminence many times. She is a pupil of Pietro Minnetto Litta, of Peabody Institute Conservatory of Music and will continue her studies another year.

Being a master of French, German, Italian songs she sings with great expression and sways her audience with her sympathetic tones. Dr. Hopkins is one of the acknowledged best Baritone of the United States and has a grand and beautiful voice. Miss Joyome will be accompanist and is a graduate of Peabody and ranks among the first artists of the day. Society of Salisbury is expected to turn out in all its glory as this concert will be of the greatest social functions of the season.

Meet Of State Modern Woodmen.
The biennial meeting of the State Camp of Modern Woodmen of America was held Wednesday in Criffield. Thirty-two delegates were present. Dr. W. E. Beschley, of Hagerstown, was elected delegate to the head camp at Indianapolis June 17, with Thomas Stevens, of Davidsonville, Anne Arundel county, as alternate. State officers to serve for two years were elected as follows:
State consul, H. B. Downnelly, Cumberland; banker, Henry McCullough, Elkton; clerk, C. E. Trinkle, Eastern; exoner, Philip Seeger, Frederick; secretary, W. J. Tankersley, Deal's Island; watchman, W. A. Brown, Linwood, Carroll county. Frederick was designated as the next meeting place the first Wednesday in May, 1904. A levy of 5 cents a member for State work was announced. After the transaction of this business and final adjournment there was a parade of 200 members of the order and a banquet. There are 28 organizations of the order in Maryland, with 1,150 members.

PNEUMONIA.

More Contagious Than Tuberculosis, and Kills More People.

We wonder if the fact that patients and their friends ignore the contagiousness of pneumonia is often due to professional negligence. An exaggerated conception of the contagiousness of tuberculosis is held by the lay world, but pneumonia is, of course, far more contagious. And patients and professional alike have not realized the new fact that the mortality of pneumonia is in some cities and parts of the country higher than that of tuberculosis.

Pneumonia is a slightly contagious disease, the cause of which is a micro organism in the sputa of those suffering from the malady and contracted by inhaling this germ. Therefore the same care should be taken to collect and destroy the sputa that is taken in pulmonary tuberculosis or in diphtheria or influenza.

During the illness the greatest pains should be taken to prevent soiling bed clothing, carpets or furniture with sputa, and after the illness the patient's room should be thoroughly cleaned and ventilated.

The fact that the disease is most prevalent in the winter season, when people are most crowded together and live much of the time in badly ventilated apartments, makes obvious the necessity of thorough ventilation of houses, offices, factories, theaters, churches, passenger cars and other public places in order that the air which must be breathed may be kept clean and free from infectious matter.

Laymen should be taught not to be afraid of a patient who has pneumonia, influenza or tuberculosis, but to be afraid of lack of cleanliness about him during his illness or failure to enforce prophylactic measures and of close, badly ventilated apartments during the season when these diseases most prevail.

Since pneumonia is most fatal at the extremes of life—the young and the aged—special care should be taken to guard children and old persons against exposure to the infection of those already suffering with the disease and against cold, privation and exposure to the weather, which are potent, predisposing causes.—American Medicine.

Bed Endowed For Sick Cats.

Ruth Darling, a servant girl, died some years ago at the residence of a family uptown. She had always liked animals and to her employer, during her last illness, she said:

"I have a little money saved, sir. I should like to do something with it for the benefit of cats. Cats have a cruel, hard life. I'd like to found a bed in a hospital for them, so that when they are ill they can be taken care of. A bed for indigent sick cats—that is my idea."

"Well, Ruth, such a bed would cost money," said the dying woman's employer.

"I know it, sir, and I've got money," she returned. "Look here, sir," and she took from under her pillow her bankbook. The book showed to her credit a sum more than sufficient for the establishment of the bed.

And, accordingly, in the Maher animal hospital uptown the bed was established on Ruth Darling's death. It bears her name, and it is seldom if ever empty. Like a club, it usually has a waiting list—a long line of indigent sick cats waiting to be treated in the Ruth Darling bed for nothing. The bed is a commodious iron cage, with an inscription of gold letters. Last year fifty-six cats were cared for in it.—Philadelphia Record.

No Handy Money.

At a Princeton alumni dinner held recently at one of the New York hotels President Woodrow Wilson alluded to the genius of John Hopkins as a money maker and said that on one occasion, when Mr. Hopkins was more intent on accumulating wealth than on the wise disposition of it, three young men waited upon him to ask help for the local Young Men's Christian association. The New York Times repeats the story: "But I have no money," Mr. Hopkins said. "I have a little property, but that, of course, is not available. I don't see how I can aid you."

"Well, Mr. Hopkins," said the spokesman, "we shall be glad to take your note."

"Oh, I'll now, that's clever! You shall have it." And he forthwith wrote his note for \$3,000, payable in six months. "As he handed it over he said, 'Tell me now what you are going to do with this.'"

"We shall turn it into cash."

"But, see here," said Mr. Hopkins, "what will that cost you?"

"Six per cent."

"That will never do. It's too much. I'll discount it myself for 4%."

"And he did," added President Wilson, "although he had no ready money."

Church Services In The Dark.

Religious services held in absolute darkness are an experiment begun a few weeks ago in London. The purpose was not novelty or notoriety, but a desire to answer the objection raised by poorly dressed people against going to any place where their shabby clothes made them feel uncomfortable. The experiment was made at St. James' in Clerkenwell. A large sheet was hung across the eastern end of the church, and upon this the words and music of the hymns, the prayers and responses were thrown by a limelight lantern. If the attention of the congregation was not concentrated on the service, the fault could not be attributed to any desire to study the fashions.

Is The Baby Is Cutting Teeth,

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Local option went into effect in Cecil county on May 3. The question was submitted to a vote of the people last November, and license was defeated by fifty-two votes.

BABY'S FUTURE

Something for Mothers to Think About.

Lives of Suffering and Sorrow Averted

And Happiness and Prosperity Assured by

Cuticura Soap, Ointment and Pills When All Else Fails.

Every child born into the world with an inherited or early developed tendency to distressing, disfiguring humors of the skin, scalp and head, becomes an object of the most tender solicitude, not only because of its suffering, but because of the dreadful fear that the disfigurement is to be lifelong and mar its future happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest and most effective treatment available, viz., The Cuticura Treatment.

Warm baths with Cuticura Soap to cleanse the skin and scalp of crusts and scales, gentle application of Cuticura Ointment, to allay itching, irritation and inflammation, and soothe and heal, and mild doses of Cuticura Resolvent Pills, to cool the blood in the severer cases, are all that can be desired for the alleviation of the suffering of skin tormented infants and children, and the comfort of worn-out parents.

Millions of women use Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chafings, in the form of washes for annoying irritations and inflammations, and for many sensitive, antiseptic purposes which readily suggest themselves.

Shouting Christians.

Some Christians, who formerly shouted, no longer do so. Some never shouted. Some do not approve of it; others are never well, never in buoyant, hopeful spirits, so don't feel like it. Rev. Jno. S. Rank, Yellow Creek, Pa., says: "Victor Liver Syrup is just healing the sick. It seems as if God's blessing is upon it. Listen, women that have been sick for years are now at work and singing God's praises, and men are living a new and happier life. Good reports from the Victor Remedies everywhere." All live Druggists and Merchants keep them.

STATEMENT OF THE CONTINENTAL FIRE INSURANCE COMPANY OF NEW YORK

Assets \$12,000,000.00. Liabilities \$7,000,000.00. I hereby certify that the above is a true abstract from the statement of the Continental Fire Insurance Company of New York as of December 31, 1907 now on file in this department. LLOYD WILKINSON, Ins. Com.

IF YOU COULD MAKE \$1000 FOR \$18 MONTH WOULD YOU DO IT?

And \$500 for \$10 a Month Till You Had Paid \$250 and \$125, Respectively.

The BIG FOUR Consolidated Gold Mines, (LIMITED.)

Non-Personal Liability. Fully Paid Up and Non-Assessable. CAPITAL \$62,500, of which 40 per cent. is now in our Treasury. INCORPORATED DECEMBER 23, 1902.

Roseland Ore Shipments:—Shipped for the year 1907 about 350,000 Tons, 85 per cent. came from the Le Rois. Grand total to January, 1903, about 1,241,000 Tons. Value \$21,000,000.

To make fortunes out of the future you must put something into the present. Read the following and judge for yourself: In addressing the public we realize that honest investors do not want fanciful fairy tales or flowery fictions, but solid facts and figures which will stand the test of the most searching criticism. Strong in the knowledge of possessing a really good thing we confidently submit a few considerations to those who are in search of a first class investment.

A Solid Company on a Sound Basis, possessing one of the most valuable properties in the far famed Kootenays of British Columbia, Canada. Our Property—Our property consists of four valuable claims, all deeded to Company.

Large Dividends.—The Le Roi yielded an average monthly profit of nearly \$100,000 for the past year, while the Le Roi No. 2 has paid no less than \$800,000 in dividends during the past fifteen months.

Its Location.—By universal consent our location is unsurpassed in facilities for both mining and shipment. Water, so essential to concentration and smelting, is supplied by four streams which flow through our claims, while the Red Mountain Railway crosses our property no less than three times.

Improvements.—Improvements to the value of \$50,000, including 700 feet of tunneling, have already been made. Large ore bodies have been uncovered carrying sufficiently high values to admit of mining with handsome profits. Modern machinery alone is now required to enable us to handle this ore to advantage.

No Debts.—There are no debts whatever against the Company and therefore no "dead horses" to be paid for out of stock sales, and the future prospects of the Company are exceedingly bright.

A Rare Chance.—We are now placing 100,000 shares Treasury Stock on the market in order to secure funds for putting in a thoroughly up-to-date plant. No less than 100 shares of this stock will be sold to anybody. Our special cash prices for this stock are: 1000 for \$800 or 80 cents per share; 500 shares for \$1100 or 22 cents per share, and all smaller amounts at 25 cents per share. Or we will sell blocks of 500 shares and upwards on the installment plan as follows: 30 per cent. down and 10 per cent. per month until paid for. Payments will be due on the first of each month. See Order Blank.

Send for Descriptive Booklet.—If this interests you send for descriptive booklet containing prospectus, reports of engineers and assays, extracts from the press and reports and statements by reliable business and professional men of Roseland. We court investigation and stand ready to cheerfully furnish the fullest information to all interested persons. Now is the time to invest in Big Four Stocks as the prices are going up and will reach a Dollar. There is nothing surer.

References.—To the Title and Status of the Company we refer, by permission, to the Mayor of Roseland and other leading officials. We hold the record in B. C. for economical mining.

NOTE.—\$40.00 Cash and \$18.00 per month until you have paid \$250.00 will give you 1000 shares, which we believe should actually bring you \$1000 in return for your investment. The first payment on 500 shares is \$25.00 cash and \$10.00 per month. All payments to be complete within one year from date of purchase.

NOW IS YOUR OPPORTUNITY. TAKE IT. Any amount less than \$100.00 send by post office or express money order; over this amount, by bank draft, to

Last Hope's Madonna

By LIZOLA FORRESTER

When Sarah landed in Last Hope, there wasn't anything in sight but a shanty, some tents and a yellow dog.

"What made you land here in this hole in the hills?" Chick had asked her when she stepped to the shanty.

"Thought it kind of a likely place," said Sarah, and that was the only reason she gave for her coming.

We did not call her Sarah to her face. Miss Mooney was the name she had big Ned put up over her door.

"Never hear you tunin' up, Miss Mooney," said Chick one day when he'd been to the shanty to fix her stovepipe for her so it would not smoke.

"Bob played pretty well," she answered. And we talked the matter over that night down at Bill Ned's.

CHICK TURNED AND LOOKED OFF TO THE

ill treated her until she's cut stick and ran away," said Chick and Last Hope accepted the theory, and there was a shade more of respectful consideration in his manner toward Sarah.

The strike came in 1890. Chick Benson's horse stumbled down a washout on Caribou run, and when Chick dug him out he picked up a nugget that turned Last Hope topsy turvy.

As soon as the crowd of gold hunters began to pour in from the river and over the pass Sarah didn't take any more mortgages.

Then things began to hum. Chick Benson started it. He asked her offhand one day how about it, and she said so, on account of Bob.

Deserves All the Credit. See a prattling, laughing, healthy baby in a home and you find sunshine there—papa, mamma, grandmother, all are happy.

that settled it. We knew he was coming. When the first smudge of smoke from the steamer puffed up as it rounded the river bend, she cried for the first time since Last Hope had known her, and we felt rather interested.

"If he should happen to be mean to her," said Chick softly, laying his hand on his belt, "he won't leave town by boat. Wonder if he'll kiss her right before everybody?"

We felt for him. After Bob he had first right. Back in the shanty bakery days he'd looked out for her stove and the heavy lifting around the place, and Sarah had favored him. She made him a mince pie Christmas. It was the only one in Last Hope.

But today she didn't see any of us at all. She stood down near the gang-plank, watching the people come off, and her eyes were alive with something. Whether it was love or fear we could not tell, but when she gave a quick, last choked cry and sprang forward, Chick turned his back and looked off to where the Yukon vanished into the arms of the everlasting hills.

"Did he kiss her?" he asked. No one answered. Last Hope had witnessed the meeting and was struck dumb.

When Sarah faced us again, she came up from the landing, her head held high and her arm around him. It was then that we made the acquaintance of Bob. He wasn't any bigger's a pint of cider; just a poor, little, crooked chap about fourteen, with big eyes, like Sarah's. And she? As back and as on Chick took off his hat. It was the smile of the Madonna, and Last Hope worshipped from afar.

That night Chick put on a clean collar and went to the side door of Mooney's bakery, and there was resolution in his eye. When he came back to Big Ned's, we were waiting for him.

"Boys," he said softly, "Sarah's a widow, and I've got her. That poor little lad was all she had left, and it wanted money to make him straight, so Sarah just packed up, put him in school and made tracks for the place where money grows in the ground. She's got a pretty good crop, and she needs a manager; also Bob needs a father; that's all. You're cordially invited to appear this day week, and there'll be a banquet." He stopped. Last Hope cheered wildly. Chick raised his hand for a final word. "And, boys, Sarah says she'll make the doughnuts herself. Just please add an echo to that last yell for Bob."

The Obese Cat. Though not dignified by any other name than "the cat," the feline pet of a certain Broadway office building as thoroughly enjoys the conveniences of the skyscraper as any of the tenants who pay high rents and who answer to the big names gilded on the doors of the offices, says a New York writer.

In its kitten days the little black and white thing had been tossed off the higher skyscraper adjoining by the mischievous son of the janitor and complacently installed itself in the restaurant on the roof of its new abode.

By and by "the cat" was benefactor of the restaurant by the closing up of the restaurant, so it took to prowling about the big building in search of rats and mice, and its sleekness testified to its prowess as a hunter.

But climbing the stairs of a skyscraper is no more attractive to cats than it is to men, and what are elevators for, at any rate? At first "the cat" would watch its chance to slip on the elevator when passengers entered or left the cage, but now its "shanty" "Mirror" is as much headed by the elevator men as the shout of "Up!" or "Down!" by one of the tenants.

A Vegetable St. Cecilia. Margery's cousin, Cecilia, was eighteen and pretty. She was also devoted to music and spent hours practicing on a large pipe organ. This, together with the fact that she invariably wore a rapt expression when so engaged, earned for her the nickname of "St. Cecilia."

It happened that Margery's mamma was called to town and left her five-year-old daughter in charge of an obliging neighbor. This lady undertook to amuse her young guest by showing her a collection of prints, among which was a copy of the familiar presentation of the patron saint of music seated at the organ.

"This, my dear," said the obliging hostess, "is a picture of St. Cecilia." "It doesn't look a bit like her," spoke up the tiny visitor.

"Why, how do you know?" inquired the astonished owner of the print. "How do I know?" returned the equally astonished Margery. "Why, St. Cecilia is my own first cousin. She taught me my prayers and how to play jackstones."

A Tartar Courtship. Among the Teulian Tartars a curious mode of "popping the question" exists. The Teulian bachelor in search of a wife, having filled a brand new pipe with fragrant tobacco, stealthily enters the dwelling of the fair one upon whom he has bestowed his affections, deposits the pipe upon a conspicuous article of furniture and retires on tip-toe to some convenient hiding place in the neighborhood, local etiquette requiring that he should execute this strategic movement apparently undetected by the damsel of his choice or any other member of her family. Presently he returns without further indication of secrecy and looks into the apartment in a casual sort of way. A single glance at the pipe he left behind him enables him to learn the fate of his proposal. If it has been smoked, he goes forth an accepted and exultant bridegroom; if not, the offer of 2hs hand and heart has been so irrevocably rejected as not to be even worth a pipe of tobacco.—London Express.

A Little Early Riser now and then, at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are the famous little pills that cure by rousing the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by all druggists.

A prominent Southern lady, Mrs. Blanchard, of Nashville, Tenn., tells how she was cured of backache, dizziness, painful and irregular periods by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Gratitude compels me to acknowledge the great merit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pains in the back and lower limbs, and fitful sleep. I dreaded the time to come which would only mean suffering to me.

"Better health is all I wanted, and cure if possible. Lydia E. Pinkham's Vegetable Compound brought me health and happiness in a few short months. I feel like another person now. My aches and pains are pleasant and easy.

"Six bottles brought me health, and was worth more than months under the doctor's care, which really did not benefit me at all. I am satisfied there is no medicine so good for sick women as your Vegetable Compound, and I advocate it to my lady friends in need of medical help."—Mrs. B. A. BLANCHARD, 422 Broad St., Nashville, Tenn.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound it once removes such troubles. Refuse to buy any other medicine, for you need the best.

A Severe Case of Womb Trouble Cured in Philadelphia. "DEAR MRS. PINKHAM:—I have been cured of severe female troubles by the use of Lydia E. Pinkham's Vegetable Compound. I was nearly ready to give up, but seeing your advertisement I purchased one bottle of your medicine, and it did me so much good that I purchased another, and the result was so satisfactory that I shall never be without it. I hope that my testimonial will convince women of the value of your Vegetable Compound in the great medicine in the world for falling of the womb or any other female complaints."—Mrs. MAY COOR, 2660 Birch St., Philadelphia, Pa.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Her address is Lynn, Mass., her advice is free and cheerfully given to every ailing woman who asks for it.

How He Married Her. One pleasant day last fall, so the story goes, President Hadley of Yale was walking through the beautiful campus of Dartmouth college with his wife on his arm. They were admiring the beautiful buildings which dot the campus, several of them having been erected by wealthy alumni. Presently they came to an especially noble hall, built of stone and occupying a commanding site. Over the main entrance was a marble tablet which announced that the hall had been erected by John C. Blank as a memorial to his beloved wife.

President Hadley stood and looked at the noble pile for a moment. Then he heaved a sigh that was almost envious.

"Ah," he said, "that is what I should like to do for my college." Act to this day, the boys declare, President Hadley cannot understand why his wife should have looked so horrified.—St. Louis Mirror.

Russian Peasant Women. By a newly enacted Russian law a peasant's wife, on showing to the district judge of instruction that she is habitually ill treated by her husband or that he will not support her and makes her the drudge for his own support, can demand a separate passport, with which she is at liberty to leave her oppressor and earn a living elsewhere. Hitherto there was no possible redress or release for the long suffering victim so long as it was obligatory that the wife's name was entered in the husband's passport and papers of legitimation. Any one at all intimately acquainted with village life in Russia will readily appreciate the relief this brings to tens of thousands of peasant women who are the grievously abused domestic slaves and beasts of burden to their drunken and brutal conjugal proprietors.—Anglo-Russian.

Realism in the Pulpit. There is danger of making pulpit realism too melodramatic. A conservative old Scotch divine, desiring to revive a healthy fear of the orthodox banes in his frivolous congregation, preached a hot brimstone sermon and had his sexton bowl daintily and clank chains at a telling juncture in the discourse. In the panic which ensued many were injured, and the church is now divided against itself.—Atlanta Constitution.

Like Moody and Sankey. They have a Moody and Sankey team in London just now—Dr. Torrey and Mr. Alexander, both from Australia. They are holding large meetings in Exeter hall. Mr. Alexander, the vocalist, is a fine singer, but is also wonderfully gifted in the way of getting his audience to join in. "Everybody likes to sing," he says, "but a great many don't know how."

NAMES OF INDIAN YOUTHS.

Mr. Roosevelt Has Placed a Check Upon an Abhorred Practice. One reform in the conduct of the Indian bureau which has been inaugurated by President Roosevelt will receive universal approval. He has recently issued an order regarding the names given to Indians in schools and on the official records. It is well known that the name bestowed upon the Indian on his entrance into the vestibule of civilization is commonly a piece of foolish caprice or the part of some agent or teacher or other white person. It is a common trick to call young Indians at school after some famous or notorious persons. The struggles of the young aborigine are often added to by the necessity of bearing through life the name of Otto von Bismarck or George Francis Train or Belva Lockwood or Carrie Nation or some other equally well known person. Often the struggle relapses into barbarism under the mere weight of this odious necessity.

Still other young Indians are burdened with false and ignorant English translations of the names given them by their parents, like Dog-That-Jumps-Around or Hole-in-the-Day (This great Indian's name should really have been translated Eclipse) or Old-Man-A-Fraid-of-His-Horses, and so on. With one both and another the young Indian's way in civilization is likely to be seriously obstructed by reason of his name. And even if he is given a simple and reasonable English name it often happens that a different surname is given to each one of the children of the same parents—a process which results in confusion in matters of inheritance and paves the way for much litigation.

The president now desires that children who enter schools or go upon the agents' rolls shall whenever it is practicable preserve as the given names the Indian names that have been given them, but shall receive as a surname the name of their father. This introduces a new principle. The Indians have never had patronymics. They have had matronymics—clan names and family names—but designation has seldom run with them in the paternal line.—Detroit Free Press.

Susan B. Anthony. The unflinching energy of Miss Anthony's work for the happiness and betterment of women could be derived from no source other than the immense love and sympathy she bears them. Miss Anthony's forbearance with women is beyond anything which can be put into words. Whatever their whims, frailties, follies or shortcomings, she is ever ready with an apology, and it is always that the world has no right to expect anything better than those it has treated as children, as playthings, as slaves; that women must be absolutely free and independent, and that there must be several generations of freedom and independence before they can be justly held to a strict accountability. Many women have said that they never can look at Miss Anthony's picture without being moved to tears at what she has suffered for them and their children. Certainly no one can gaze into her face, its every line a story of patience, fortitude, courage and persistence, without a feeling of deepest gratitude and admiration, mingled with one of resentment at the persecutions she suffered in the early days and misrepresentations of all the passing years.—Pearson's.

An Open Secret of Success. Mr. John Wanamaker, who began business with confidence, a few goods and a wheelbarrow, will erect in Philadelphia a twelve story building to cost \$5,000,000. He never undertakes anything unless he has a reasonable assurance that it will succeed, and his expectations are generally realized. Mr. Wanamaker has great faith in advertising. He says he has never found anything to pay as well as the money he has spent in newspapers in letting the people know what he has and what he is doing. He uses hundreds of dollars yearly in this way, and it is clear that he finds it pays. No matter how able a business man may be, the wisest finds he must go before the public through a medium that reaches the homes. Competition may be sharp, as it generally is, but the man of business who tells the people what he has and always keeps faith with them will surely reap the reward of his energy.

Mr. Wanamaker's success has been an incentive to many a man who has found, as he has, that nothing pays better than advertising.—Baltimore Herald.

A Golden Wedding. A golden wedding celebrated at Le Roy, N. Y., recently was in more than usual ways an exception to the mortality of human things. The festivities were held in the house which John R. Olmsted built for the occupancy of himself and his bride more than fifty years before. It has been their home throughout their married life. Shortly before his marriage Mr. Olmsted employed Annie Connor as cook. She has been in the service of the family all these years. All six of the couple's children are living and were present at the golden wedding. Mrs. Olmsted wore her bridal wreath, and her wedding gown was worn by one of her daughters.

Would Remove a Church. Much indignation has been caused in London by the proposition to destroy All Hallows church in Lombard street, one of the creations of Wren. As the church must give up its present location, the British Society of Architects proposes that the church be moved to some other place. It would have to be taken down, piece by piece, each one being carefully marked so that the building might be reconstructed not only in its original form, but of its original material.

The X-Rays. Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that catarrh of the stomach is not a disease of itself but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrh of the stomach. Kodol digests what you eat—makes the stomach sweet. Sold by all druggists.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

TUESDAY'S ELECTION IN BALTIMORE.

The official count, so far, in Baltimore, by the Board of Election Supervisors affords no warrant on the part of the defeated Republican candidate for mayor to imagine a miscarriage or fraudulent practices on Tuesday.

It is understood that whether or not the Republicans push the contest they threaten, if the official canvass shows Mr. McLane to have received a plurality, then the Board of Supervisors of Elections will be forced to declare him elected and the clerk of the Superior Court to issue him the certificate of election.

If he is declared elected by the proper authorities Mr. McLane says he will take his seat, unless the courts forbid him, and in the meantime the contest will be carried through the regular channels.

As for the contest, the Democrats say, even should the Republicans succeed in convincing the Court of Appeals that they have sufficient evidence to justify an order being issued for a recount of the ballots, it would take a year and a half alone to count the ballots. It has been estimated that, taking into consideration the legal arguments and disputes, it would require over one day to count each precinct. As there are 308 precincts, the length of time can easily be computed.

Mr. Robert M. McLane will be the youngest mayor Baltimore has ever had by long odds. In fact, he is no doubt the youngest man ever elected as highest officer of any city of the United States of size. At the age of 35 he is—or will be when inaugurated—the most exalted official of a community of 600,000, and the mayor of one of the leading municipalities of the American States.

The mayor elect comes of one of the best Maryland families. It is a house that has been signally honored by this state, and in turn has conferred nothing but credit upon this commonwealth.

The new mayor is the son of Mr. James L. McLane, a prominent man of affairs of Baltimore, and a nephew of the late ex-Gov. Robert M. McLane, who was likewise minister to France.

It is from this distinguished kin that the youthful mayor elect takes his name—Robert M. McLane. Though the average man can do little to attract attention in a career as short as Mr. McLane's, yet his life to date developed certain phases of character that played no small part in his nomination and ultimate election. Had Mr. McLane proved a weakling in the state's attorney's office he would never have been thought of as a mayoralty possibility. As it was, when his name was suggested, he was regarded as a "happy find," and such indeed, he proved.

Wachter as an anti-organization candidate of the Mudd-Jackson combination, has failed to convince the followers of the Republican party of this clique's supremacy over the influence of Senator McComas. His election as mayor of Baltimore would largely have indicated such, but his failure inclined toward the reverse. There is little of rejoicing in the Mudd Jackson camp over the result. On the other hand the smallness of McLane's majority, though he contended against heavy odds is freely attributed to his adoption and support, as the Democratic candidate, by Eastin, whose political influence is doubtless overestimated and not half so big a bugaboo as the Republican leaders endeavor to make the public think.

ST. LOUIS WORLD'S FAIR.

At the first world's fair, in London, in 1851, there were 21 acres under cover; the Philadelphia Centennial had a covered area of 56 acres; Paris, in 1900, had 125 acres; Chicago, in 1893, 300 acres, St. Louis will have 350 acres, while the whole area included within the exposition fence will be 1,186 acres, of which 600 acres lie in Forest Park, and the rest on leased ground, west of the Park. This is twice as much as was included in the site of the Chicago Exposition. There still remain 771 acres of Forest Park outside the fair grounds, furnishing a beautiful background and surroundings.

The St. Louis fair has a broader financial foundation than any of its predecessors, starting with \$17,000,000 in hand, or available as soon as needed. Of this, 5,000,000 comes from the individual subscriptions of St. Louis citizens, \$5,000,000 from bonds voted by the municipality, \$1,000,000 voted by the State of Missouri, and over \$6,000,000 from the United States Government.

Thus far, forty-two States have voted appropriations aggregating over \$5,000,000, much of it merely for preliminary work. The principal foreign nations have signified their intention to be well represented. And to all this must be added large sums to be expended by the concessionaires, bringing the whole outlay to a probable total of fifty million dollars.—From "The Louisiana Purchase Exposition," by Frederick M. Crunden, in the American Monthly Review of Reviews for May.

Scientists who have been in session in Washington recently have advised Secretary Hay that if the original Declaration of Independence is to be preserved it must be stored in a light and air proof safe and it has been removed from the glass case in the State Department, where it has rested for one hundred years. Many of the signatures are already illegible and the text of the instrument is rapidly fading away. This fading is said to be due to the poor quality of ink used and also to the fact that it was submitted to the process of letter copying some decades ago in order that the original signers might each possess a facsimile copy.

It is learned at the State Department that Mr. Andrew Carnegie has added to the long list of his benefactions by donating \$1,500,000 for the erection of a building to accommodate the Hague Tribunal. Mr. Carnegie has long been a most earnest advocate of peace and of arbitration and his generous donation is only a concrete expression of his great gratification at the establishment of an international arbitration tribunal. A rumor to this effect was in circulation some time ago but no definite action had been taken at that time and only last week did Mr. Carnegie put his offer in writing.

The Beauty Of Spring.

How radiantly beautiful is the spring! From the first flash of gold above the soil, when the varied members of the narcissus family appear, and the first green of the wheat in the fields and the green of the meadows, clear to the bluish of the peach trees, and the necklace of pearls upon the pear and cherry trees, and the bridal blossoms of the apple orchard, the springtime is an advancing apocalypse. During the past few weeks I have seemed to be another John on the Island of Patmos, and behold visions of splendor—the angels of the rain and sunlight opening their veils and pouring out upon the earth, not pestilence and plague, but heavenly blessings. The birds at their rehearsals freighted the air with matin and vesper songs, have been the choirs celestial in practice for the oratories of May and June, when in full chorus they shall voice the praises of God. The brooks and rivers, unloked from winter's ice, have flowed on like the sea of glass mingled with fire. The dandelions have sparkled in their emerald setting like the pavements of gold. The thunders that have broken through the clouds were the trumpets that called multi-form types of life into resurrection. And, lo, the dead, both small and great have stood before God, not for judgment, but for reward; and crowned with beauty, they passed through the gates of the vernal city into the heaven of the springtide. And there shall be no night of frost there; neither any more pain of snow; nor sickness of north wind; for God hath wiped the tears from the sorrowing eyes of the tree branches; and all things have become new.

God is a lover of beauty. I know that from the way in which He opens and closes the days, letting them in over the skies through golden doors of sunrise, and letting them out through the burnished doors of the sunset. I know it from the way He curves a snowdrift under the mallet and chisel of the north wind. I know it from the way He piles up the architecture of a sandheap on the ocean's beach, with curling wave and shining foam lifting it under the sun. I know it from the way He frocuses the autumn walls of the forests. The night heavens are the parade ground of stellar magnificence, where the soldiery of boundless space march and counter-march in glistening silver, the brightness of their mail flashing earthward. The seas are crystal highways over which travel configurations of glory. The atmosphere around us is the medium through which the sunbeams ply their flaming needles and work most marvelous embroideries of variegated colors. Even the smoke that rises heavenward from the cottage chimney and the lofty stack of the factory and mill is twisted in ascending spirals of gracefulness. So when the springtide is on the way it comes with uplifted banners of jonquil and hyacinth and dogwood, and tramps over roads of grass through the valleys and up the hills, as if to salute the grandeur of the sky.

By His love of beauty God would teach the world that He desires beauty in the soul of man. The springtide is a preacher that calls upon men to pause awhile in their mad rush for god and fame and pleasure, and consider the worth and honor and joy of moral qualities. O that the lesson would be heeded! I once saw flowers growing in the yard of old Trinity Church at the head of Wall Street in New York. Those sands passed them by without so much as a single glance at their silent loveliness. Those hurrying feet were intent altogether upon worldly interests. Perhaps if some one had called the attention of the multitudes to them, inviting them to consider their more than Solomonian glory, he would have been deemed impertinent. What business have flowers among the eddies of those human tides that flow forth from the great sea of stocks and bonds?

Also is the spring suggestive of the benevolence of God's providences. What is the springtide? Here in this zone our old earth gets many a stab during the winter. But even while winter's winds are blowing the sap begins to flow along the veins of the trees carrying nutriment to every twig in preparation for swelling buds and bursting leaves and opening blossoms. Down below the line of the frost might yet gentle forces begin their work in the soil. Then presently the spring comes, stepping, like a kind hearted surgeon along the wards of a hospital, and with bandages of green all the wounds of the winter are tenderly dressed and bound.

So the providences that are dark in human life are followed by the light of consolation; and the soul that accepts these sweet offices of divine love grows radiant with sanctified beauty. All time is God's time. He is no more in the blossoming snow of the apple orchards than He is in an Alpine avalanche. He is no more in the arbutus through the woods than He steers the icebergs of the poles. He is no more in a primrose or a cowslip than He blackens the clouds of January skies. He is no more in the soft green of the meadows than He steps over the billowed pavement of ocean storms. All His providences are benevolent. The difficulty is that many fail to see the beauty of His tender dealings with the soul. Said one of Job's friends, "Men see not the bright light which is in the clouds." But it is there, nevertheless. Behind the darkness shines the unflinching sun; and the outer edge of the vapor of gloom is threaded with a fringe of gold.

I do not mean to say that it is always possible to discover all of God's purposes in the trials of life. Many of them will have to be postponed for the wider scholarship of eternity. Our brain is not yet sufficiently matured to master the branches that belong to a higher curriculum. It is possible,

however, to learn the beauty of God's love. That is the alphabet which will enable us by and by to read the poem of God's plan. We are passing on to everlasting spring.

Friends, there is no use in thrusting the interrogation point of doubt into God's wintry providences. God moves majestically on in spite of our feeble murmurs and complaining inquiries. Better far is it to place after them the sign of faith. Mistrust querulously asks Why? Faith admires, even though it may not understand. The one is an icicle hanging from the heart, the frozen question mark of unbelief; the other is a down-growing branch with a japonica at the end of it, the exclamatory mark of confidence in fullness of bloom. Blessed the soul that can wait for the spring and summer of revelation! That time is on the way. "Light is sown for the righteous, and gladness for the upright in heart." "Now we see through a glass, darkly; but then face to face." That will be the harvest of God. WILLIAM HENRY BANCROFT.

 WEAR American Lady CORSETS

Those \$6.50 and \$8.50 PANAMAS
 that Lacy Thoroughgood and James Thoroughgood are selling this season are not viewed with enthusiastic favor by the opposite sex. A woman has always heretofore regarded it as her exclusive privilege to pay that amount of money for a top piece and consequently it rather jars her when the poor down trodden better half comes home wearing a straw hat that he dug up \$6.50 or \$8.50 for and asserts that this season she will have to get along with a DINKY 98 cent sailor. Now if you are afraid your wife will make too much of a fooler if you buy a genuine Panama then buy some other kind of a straw hat. Lacy Thoroughgood and James Thoroughgood are selling over fifty styles of Straw Hats that
Are Beautiful
 Some of them you cannot tell from the genuine Panama. Every new shape in Hats for men, boys and children are here to be sold, the price will do it. We have beautiful Hats for \$1.50, \$2.00, \$2.50, \$3.00 and \$3.50. This Hat Store has more hats than either two stores in town put together and every hat is new this spring and to SELLUM QUICK we will sell 'em cheap. The new store sells Men's Shirts, Men's Underwear, Men's Neckwear, Men's Hosiery, Men's Collars and Cuffs, Men's Suspenders. No such lines have ever been shown in Salisbury as we show this season, the plainer you see them the better you'll like them and we want you to see them. The goods and the prices are what you are interested in.

WHEN IT COMES TO BUYING Furniture and Matting
 You do yourself a great injustice not to see the unprecedented values we are offering in these particular lines, not one carried-over-from-one-season-to-another-piece-of-matting. Every piece new. We have also just received the prettiest line of 10 and 12 piece
TOILET SETS
 ever shown in Salisbury. Our line of White Goods, Hamburgs, Laces, etc., which are being so much sought after by the ladies contains all the pretty things to be found in the city markets.
LAWSON BROS.,
 Main Street, SALISBURY, MD.

When You Buy You Want the Best
 especially when you do not have to pay more for the best than you do for an inferior quality. In buying our line of clothing, while of course we want and must have, the nobby styles our great and chief aim is to get the quality not only in the material but in the work.
 Our men's suits are made with the same care and by the same skilled workmen as custom made clothes are made and we claim them to be in every way equal to custom made. This spring our stock is too heavy for the space we have and we are determined to cut it down.
Men's Suits from \$5.00 to \$18.00.
Men's Suits from \$3.00 to \$15.00.
Children's 2 and 3 piece suits \$1.50 to \$5.00.
 We are prepared to fit a man out from head to foot (with exception of hat) in everything new and stylish at lowest prices.

Perfect Health
BY THE USE OF
Dr. Pierce's Favorite Prescription

Mrs. H. A. Albrook, of Austin, Louisa Co., Ark., writes: "After five months of great suffering with female weakness I write this for the benefit of other sufferers from the same affliction. I doctored with our family physician without any good result, so my husband urged me to try Dr. Pierce's medicine—which I did, with wonderful results. An completely cured. I took four bottles of Dr. Pierce's Favorite Prescription, four of his 'Golden Medical Discovery' and two vials of his 'Pleasant Pellets'."

TALMAGE SERMON
By Rev. FRANK DE WITT TALMAGE, D.D., Pastor of Jefferson Park Presbyterian Church, Chicago

Chicago, May 3.—The temptations of the legal profession as well as its highest opportunities are set side by side in vivid contrast in this discourse, which has an interest for all classes. The text is I Timothy 1, 8, "The law is good if a man use it lawfully."

Paul had all the mental qualifications of a great lawyer. When he stood before Felix and as his own advocate tore into pieces the charge made by the prosecuting attorney, Tertullus; when he argued before King Agrippa until the king admitted he was "almost persuaded;" when he pleaded upon Mars Hill with the jury of Greek scholars until at last even that central seat of Athenian culture was shaken to its very foundation by his proclamation of the "unknown God," we find the highest development of forensic training and legal acumen. As one schooled in the law, Paul knew the mighty and majestic power of the law, both spiritual and temporal. Therefore he lays down the broad proposition that law is good for the community and that it is needed not only for the vindication of the right, but for the punishment of wrongdoers, whether the laws that they break are human or divine.

But, though the legal profession offers such wonderful opportunities to defend the weak and punish the bad, there are some cynics who profess to believe that an honest lawyer does not exist. Sir Hartley Williams, a celebrated Australian judge, once pessimistically commented upon the fact that there was a pious lawyer in his circuit who used to regularly pray that he might get clients. "Imagine," said the judge, "the insult to the Almighty contained in the request that God should stir up strife among the people, foment discord and promote litigation, just to serve the selfish purpose of this pious solicitor?" But that cynical comment of the learned judge might have been entirely wrong. That lawyer might be innocent of any desire to foment strife and only anxious to have the opportunity of serving his fellow man and be able to redress the wrongs of some injured person.

The noble profession of the law is often unjustly maligned. Like other professions, it has in its ranks unworthy men who disgrace it, and there is no profession in which trickery and rascality reap so rich a harvest. But it has also in its ranks noble, honest, sterling men, whose knowledge and talents are devoted to the cause of right and justice. I want to say to all young men who are entering that profession that if they set before themselves a lofty ideal and hold fast to Christian principles they may win success in it, serving God faithfully and keeping their character unstained. Let me try to give you briefly my conception of the principles of a Christian lawyer.

The Christian Lawyer.
He will never champion a cause that he knows to be dishonest. Why? Because he would be siding one man to deprive another of his rights. Oh, the wrongs that are perpetrated by the rich and powerful! Oh, how many there are who suffer all their lives at the hands of unscrupulous foes! For years in the French Bastille was confined a state prisoner known as the "Man With the Iron Mask." He died in 1703. This prisoner was supposed by many writers to have been a twin brother of Louis XIV. He was confined in his living tomb with an iron mask over his face lest he should come forth and claim the French throne, and thus cause a revolution. The iron mask concealed the face because the prisoner was supposed to be factually an exact duplicate of the reigning king. If this story be true, it brands Louis XIV. as one of the most stony hearted monsters who ever sat upon a throne. He says: "What his own rights may have been, to protect those rights he was not justified in practicing a lifetime injustice upon a brother. How many men are trying to deprive their brother man of his rights? The lawyer who helps them in their nefarious attempt is a partner with them in their crime. I am not here contending that it is wrong for the lawyer to defend a criminal in court. Every man is entitled to a fair trial. Even the wretch Crooks had his rights before the law, and justice required that those rights be protected. A lawyer often does a heroic part in defending a criminal or in pleading that mercy be shown him, but there is no heroism—there is only shame—in aiding a client to cheat or defraud another."

Yet there are a great many lawyers who affirm that they have nothing to do with the honesty or dishonesty of a client. All that they must do is to present the best side of a civil suit, and then the judge or the jury will decide whether a cause is just or unjust. Is a drunkard by his own carelessness falls off a moving electric car, they will bring suit against the street car corporation for \$10,000 and not have one qualm of conscience. If a distant relative by a technical flaw can break a will, they will help him do it and divert the money of a rich man into a channel where it was never intended by the testator to go. This was the way the estate of a famous lawyer statesman was legally stolen. Every one who reads his will clearly understood what the dead statesman wished to have done with his property. He wanted to have built a great public institution. Yet some distant relative with whom he never had any close affiliation, by the aid of scheming lawyers, broke that will. It was only because one of the new heirs was technically honest that part of the estate was placed at the disposal of the trustees who were appointed to carry out the scheme.

Where Lincoln Stood.
There is an old saying that "nothing is more deceptive than a column of figures. There is another old saying, "Nothing is more unjust than law." Any lawyer who prostitutes his head and energy to plead the dishonest client

suit of a client becomes a party to the corrupt purpose. The lawyer himself by that advocacy becomes a dishonest man. Abraham Lincoln won the appellation "Honest Abe." How? He would never allow himself to get mixed up in a dishonest suit. Many years ago a man went to his office in Springfield and wanted him to be his attorney for a certain case. After Mr. Lincoln had studied all the facts he turned to this man and said: "My friend, by a technicality of the law you can win that case, but I will not argue it for you. You are dishonest in your attempts to win that money. If I stood before a jury to plead for you, every word I uttered would seem to echo in my mind this sentence: 'Abe, you are pleading for an untruth; Abe, you are a dishonest man!'" John J. Crittenden, the great senator, had marvelous power under a jury. Crittenden would know that Senator Crittenden would not under any condition consciously argue for a dishonest cause. Many a college lad has contracted a habit which has contaminated his whole future by standing up in a literary society to champion a wrong theme. Therefore, my legal friend, never under any condition become a party to a fraud by advocating in a civil suit the dishonest cause of a corrupt client.

The longest lawyer never uses false means to plead for a just cause. He never pleases false witnesses to a libel, no matter how much he may believe in the innocence of the defendant. He never believes if honest to be dishonest or to tell a falsehood, no matter how good the cause may be for which that falsehood has been told.

The Lawyer's Many Temptations.
But, though this may be all true, the temptations before honest criminal lawyers are very great. Believing in the innocence of their clients, they know as no other class of men how many innocent victims have been sent to the penitentiary or the gallows through an unbreakable chain of false circumstantial evidence. In one of our large cities of the east a man was aroused one night by a noise. With lighted candle and cocked revolver, he descended the stairs and was shot dead. An ex-convict was arrested and charged with the crime. His lawyer believed him to be innocent. He did all in his power to save him. He was hanged. Some years after the execution a dying convict confessed to that crime and thus proved that an innocent man had his life choked out by false circumstantial evidence. In another case a few years ago a woman in the far west was murdered. An innocent man, proved so by later developments, was found to have suffered for that crime. I once said to the warden of Sing Sing penitentiary, "Warden, do you believe there are any innocent men in this prison who have been sent here unjustly by circumstantial evidence?" "Lots of them," he answered. "I believe there are lots of them." "Now," says the honest lawyer, "I believe my client is innocent, and yet this chain of circumstantial evidence will convict him unless I break it. Is it not right to fight fraud by fraud? Am I not justified in using any means to deliver this innocent man?" In such a crisis the temptation is overwhelming to present any evidence available, even though it is known to be false. He argues himself into this position because he believes he is justified in doing a wrong to win a right.

But, my legal friend, two wrongs never make right. A lawyer in any capacity is called upon to lie. A falsehood is a falsehood, no matter how it is told. If you believe in justice, your own hands must be clean when they touch hers, nor must you contaminate your own lips when you would woo her to protect the life of your client. If a lawyer is willing to lie for a good cause, the time will not be very far distant when he will be willing to tell a falsehood to win a bad cause.

The righteous lawyer will keep his client out of litigation if possible. That means he does for his client exactly what the honest doctor would do for his patient. The family physician, coming to the bedside of an invalid, does not say, "How long can I keep this man sick, so I can make as much money out of him as possible?" He says: "How soon can I make this man well? The sooner the better. Better for me; better for the patient." Neither does the honest lawyer try to force his client into litigation. He knows that often the best way to settle a legal difficulty is outside the court, instead of inside.

Some Illustrations.
Practical illustration: A man comes to his lawyer and says: "I have been unjustly treated, and I want \$5,000 damages. I want you to bring suit right away." What does that honest lawyer do? He looks all over the details of the case. Then, if he is conscientious, he says to his client: "My friend, you have a conscientious lawyer, but as your lawyer, I am going to advise you as I would my own son. Do not get mixed up in this case unless you must. The lawyers' fees may in the end cost more than you would make. Then there is no telling what a jury may do. You might lose everything. I would compromise. I would take what I could get and let the rest go. It will be cheaper in the end. That is my advice." This is the same kind of advice which John K. Porter, for many years the leader of the New York bar, once gave to my father. My father determined on one occasion to appeal to the courts for vindication. He had conclusive evidence to support his case. He took this evidence to Mr. Porter's office and read it to him. "After reading it, John K. Porter gave a conscientious lawyer's answer, and said: 'Dr. Talmage, upon that evidence I can win the suit for you, but I am going to tell you what I told Horace Greeley, who last week came on the same kind of an errand and sat in the same chair on which you see now sitting. Go home and mind your business. You have a work to do. Life is too short for you to spend any of that time fighting in a court of law unless your work is menaced.' My father went home. The suit was never brought."

"But," says some young lawyer, "that may be all right for a well established attorney like John K. Porter to do. He had all the business he could carry. He could afford in his position to turn down a Greeley. But that is not the way a young man can build up a practice. It is what he does in the court, and not outside of it, that wins him

name." No, my friend, you are wrong. The public is not as stupid as you think. If you are trying to keep clients out of trouble instead of pushing them in, you will have all the clients you want. Study the history of Mayor Jones of Toledo, O., who has just been re-elected for his fourth consecutive term. He is generally called "Golden Rule" Jones. I know nothing about his politics, but this I do know—the people, the common people of that city, believe that Mr. Jones is their friend and is trying to help them as far as he is able to do. Every newspaper in that city was against him. During the campaign they would not even print his name. The Republican and the Democratic organizations were against him. Each party had its separate candidate. Yet "Golden Rule" Jones went quietly ahead. At the public ballot boxes he received an overwhelming majority, his vote being 70 per cent of all the votes cast. Why? The people, the common people, believed he was trying to lighten their burdens instead of getting them into deeper trouble. What is true in reference to politics is true in the lawyer's office. One of the best recommendations a lawyer can have is that he always conscientiously and faithfully makes his clients' interests his own.

The Young Lawyer's Duty.
The weak as well as the strong, the young graduate from a legal school is likely to take any case which comes in his way. It is not so much then a question of money as of getting something to do. He will spend as much time over the case of a pet dog which has been poisoned in a back yard as he will twenty years later on a \$100,000 suit. But after while that young man works his way up the legal ladder. His brain becomes keener, his experience greater. He stands in the front rank of his profession. What is the rule, as a rule, to deal with cases involving small fees. He is a railroad attorney or a rich man's advocate.

My legal friend, now is your opportunity for heroic self sacrifice. Do you know of a case in which a poor man is menaced with injustice? Do you know of a man who is charged with a crime of which he is innocent? The glory you win in championing his cause is better to you than a \$10,000 fee. The great men have reserved for their services the strongest legal brains of the country. I ask, who are going to look after the legal interests of the poor and the helpless? You know just as well as I that the critical time in the young man's life is just after he has committed that sin which he did thoughtlessly and without realizing its heinousness. You know that if he is once convicted and sent to the penitentiary he will become one of the blackest of the black. Will you leave him to the care of one of those legal incompetents who are found hanging about every court room, waiting like vultures to pounce upon the helpless and the slain? Or will you, in the front rank of the legal profession, give your time and services to save that young man? You know as well as I do that that little child who has been left out of the cruel wheels of the electric car through the carelessness of the motorman will get nothing unless a man of your brain plead her cause. You, with your legal ability, could win for her a verdict of \$20,000 cash. Will you let that little child be sent to a cripples' home and pass all of her life there in poverty because you, a successful lawyer, are not willing to plead her cause?

For Humanity's Cause.
Shall the strong lawyers only look after the strong clients and not after the weak? No, no. That is not what they ought to do. Surely the lawyers should be just as self sacrificing in caring for the helpless unfortunates as their brother professionals, the surgeons and the doctors. The poorest in our cities can have if necessary the services of the very best surgeon or oculist or aurist or lung specialist. All a man has to do is to go to the hospital clinic, and the best medical and surgical skill is at his command free. Can it be that the lawyer is not ready to sacrifice as much for humanity's cause as the physician or the surgeon? Besides that, my able legal friend, you know your success has brought you plenty of money. You know the reason you do not retire from practice is simply because you cannot bear to be idle. Then why not give a part of your time to helping the weak and down-trodden? Why not give your services to the profession in which you see only too often the bruised and bleeding travelers who have fallen among the thieves on the Jericho road and who have not one strong legal friend to come to their rescue?

The noble lawyer's greatest influence should be traced in the spiritual realm. It is necessary for him to plead the cause which will affect the individual temporal destiny. Is it not much more important for him to plead that cause which will affect another's life not only for a time, but for eternity? Every great lawyer is a leader in the community in which he lives. If he wishes, he may become a leader in municipal politics and statecraft—a leader in all the reformatory movements. Shall he not be a leader before the throne of grace?

Some people are foolish enough to suppose that a lawyer demands his office when he champions the gospel, just as a minister nearly always degrades his spiritual office when he becomes embroiled in the bitterness of local politics. When Sir Thomas More used to visit his old home on the Sabbath day, he could always be found in the Episcopal church taking part in the service as a lay reader. A state officer one day came to him and said: "Sir Thomas, do you not think you are casting a slur upon your official position under the king? Ought the English chancellor to perform the humble duties of a lay reader?" "Yes," answered the great statesman, "a chancellor always serves his earthly king better when he is truly serving the King of kings." The lawyer who honors Christ above all is the lawyer who will be the most faithful to his earthly clients.

The noble Christian lawyer is most anxious to serve right his associates in a spiritual and in a temporal sense. Why? He knows that some day all the acts of his life shall be passed upon by the greatest of all supreme

courts, the great judgment seat of Christ. A lawyer is always more careful of a case if he thinks that case is going to be appealed to a higher court. One misstatement in a brief or the lack of the sworn testimony of a witness may mean the reversal of the lower court's decision. How much more, then, should the fact be ever present to him that he will one day have to stand at the bar of God. The true Christian lawyer is the man who is prayerfully careful of every word and deed and act of his life. All these acts are to be recorded in the Book of Life and read at the great "assize of heaven." Will you, my legal friend, live and work with this one thought before your mind? Live with the idea that some day the Christ will stand as a defendant before Plato is the Christ, who as a judge will have Plato as a defendant before him.

Remember the Great Assize.
Some young lawyers in the impetuosity of their youth do not stop to consider this. One day a professor said to a wild college lad, "My boy, what do you intend to make out of life?" "Well," answered the boy, "I intend to spend four years at college." "What then?" "Then I intend to enter the law school and work hard and make my mind a great repository of legal lore." "What then?" "Oh, then I shall throw myself, body, soul and mind, into my work. I shall force myself in the front ranks of the great lawyers of my time. I shall be known. I hope, as a man with eloquence and power. My fees will be large; my circle of friends greater." "What then?" "Why, then I shall turn my attention to politics. I shall stand upon the rostrum. Perhaps I shall be able to plead in the United States senate or sit as chief justice upon the supreme court bench." "What then?" "Then in my old age I shall retire from work. I shall have a country and a city home. I shall be known as a sage and live in quiet and ease." "What then?" said the professor. "With the way you are living in shall your life never be brought into review and passed upon by God?" Then the young man hung his head, for he could say nothing. So today I force this truth upon every one here present. I will state not only what the noble Christian lawyer believes, but also what we are all compelled to believe. Every act, every deed, every hope and prayer and sin of our earthly existence must some day be passed in review by the great assize. So live that with Christ as your Advocate, you can win the verdict of everlasting life.

Young men about to enter the legal profession, I congratulate you—my congratulations because you are going to enter the profession of Judge John McLean, the Christian; of Elder McDougal, the late leader of the Cincinnati bar; the Christian; of Benjamin Harrison, who used to pass bread and wine at the holy communion; of Judge Neilson, the Christian; and Daniel Webster, the Christian; and of hosts of other leading advocates and judges whose faith in God was just as strong as their belief that law means justice tempered with mercy and justice to the strong and the weak alike. May you live as they lived. Do such work as they were able to accomplish. Die in their faith. Have the sins of your past life cleansed by the blood of Jesus, as theirs were wiped out. "The law is good if a man use it lawfully."

I Used
Dr. Miles' Nervine and Anti-Pain Pills.
Cured Grip—Did Full Day's Work.
Anti-Pain Pills, the Best Headache Remedy.

"I wish to say I have used your Anti-Pain Pills and Nervine for La Grippe and knocked it out and kept up my full day's work. I have also used Dr. Miles' Anti-Pain Pills many times during the past year for headache and always with most gratifying results. I consider them the best of headache remedies. I have also used your New Headache Cure in my family with excellent results. Actual experience with these three of your remedies have proved so beneficial that I cheerfully recommend them to others." MERRIT M. DAYTON, Business Manager of the Ithaca Publishing Co., Publishers Ithaca Daily and Weekly News, Cornell Daily Sun, Cornell Alumni News, 215 N. Tioga St., N. Y.

In itself La Grippe is very dangerous, but in its after effects it is one of the most deadly scourges that afflict mankind. It attacks the nervous system, weakens the heart's action, and lays the foundation for heart disease. The accompanying fever consumes the vitality and renders the patient susceptible to pneumonia, bronchitis and catarrh. The best treatment consists of Restorative Nervine which quiets the nerves, soothes the brain, restores strength and vitality to the entire system; Dr. Miles' Nervine and Liver Pills, a nerve tonic acting directly on the nerves of the digestive organs causing them to act in a natural and healthy manner; and Dr. Miles' Anti-Pain Pills which speedily relieve the torture of headache and soreness, the most common symptoms of Grippe. All druggists sell and guarantee first both Dr. Miles' Remedies. Send for free book on Nervine and Liver Pills. Address Dr. Miles Medical Co., Elkhart, Ind.

"After my first baby was born I did not seem to regain my strength although the doctor gave me a medicine which he considered very superior, but instead of getting better I grew weaker every day. My husband insisted that I take Wine of Cardui for a week and see what it would do for me. I did take the medicine and was very grateful to find my strength and health slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

Wine of Cardui reinforces the organs of generation for the gradual of pregnancy and childbirth. It prevents miscarriage. No woman who takes Wine of Cardui need fear the coming of her child. If Mrs. Unrath had taken Wine of Cardui before her baby came she would not have been weakened as she was. Her rapid recovery should commend this great remedy to every expectant mother. Wine of Cardui regulates the menstrual flow.

Neilton's Remedy

CURED BY ONE BOTTLE OF Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry.

"This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it not only to be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by all dealers.

Not A Sick Day Since.

I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved and soon there after was entirely cured, and have not seen a sick day since.

Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility. This is what B. F. Bass, of Fremont, N. C. writes Only 50c. at all druggists.

The work of building a trolley railway from Middle-town to Odessa was begun last week. The Tenny Construction Co., of Philadelphia, which is to build the Cecil and Kent Road through Elkton, is doing the work.

It is Easy to Say

"Be careful," but we must all go from heated houses into chill outer air, and the change sets us coughing and wheezing. Avoiding winter colds is difficult; curing them is not hard if you take Allen's Lung Balm. Better begin when the cold is young and not wait until it settles deep into the lungs, for then, even with Allen's Lung Balm, complete relief will be slow.

A corps of engineers is making a survey of the proposed Frederick, Le Gorse and Gettysburg electric railroad. A survey for the contemplated road was made last summer, but this survey covers a new route.

Vagaries Of Cold.

You can never be quite sure where a cold is going to hit you. In the fall and winter it may settle in the bowels, producing severe pain. Do not be alarmed nor torment yourself with fears of appendicitis. At the first sign of a cramp take Perry Davis' Painkiller in warm, sweetened water and relief comes at once. There is but one Pain killer, Perry D. v. 25 and 50 cents.

Several crab packing establishments have begun operations at Oxford, and although the crabs are quite small, the prices received for them are very good. There are seven packing houses of this kind in the town.

It Will Surprise You—Try It.

It is the medicine above all others for catarrh and is worth its weight in gold. Ely's Cream Balm does all that is claimed for it—B. W. Steery, Hartford, Conn.

My son was afflicted with catarrh. He used Ely's Cream Balm and the disagreeable catarrh all left him—J. C. Olmstead, Annapolis, Md.

The Balm does not irritate or cause sneezing. Sold by druggists at 50 cents, or mailed by Ely Brothers, 56 Warren St., New York.

Estimates of the cost and other details for the construction of the electric railway from Delmar to Baltimore have been made. A meeting of the stockholders of the company is to be held at Delmar on May 19.

Grip Remedies In Great Demand

When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDuff, Va., says that he was cured of a very deep and lasting attack of a grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by all druggists.

The Baltimore & Ohio relief department, which has over \$1,000,000 in its treasury, is offering inducements to responsible employees along the system to borrow money to secure homes of their own.

Doesn't Respect Old Age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, Jaundice, Fever, Constipation all yield to this perfect pill. 50c. at any Drug Store.

There is more catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure by local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, Ohio.

Sold by druggists 75 cents. Hall's Family Pills are the best.

Dr. J. B. Wisard, of Lettersburg, Washington county, has planted 2,000 apple trees in his orchards, near Edgemont, having found that apples there are more profitable than peaches.

An address on Maryland history was to be delivered by John S. Witt, Esq., before the Elkton University Extension Class in the School Commissioners' office last night.

"I feel as if I should fly to please" How often those words are on a woman's lips. They express to the uttermost the nerve racked condition of the body, which makes life a daily martyrdom.

If this condition had come suddenly it would have been unbearable. But the transition was gradual. A little more strain each day on the nerves. A little more drain each day of the vitality. Any woman would be glad to get rid of such a condition. Every woman tries to be rid of it. Thousands of such women have been cured by Dr. Pierce's treatment with his "Favorite Prescription" when local doctors had entirely failed to cure.

"Favorite Prescription" contains no opium, cocaine or other narcotic.

DEMOCRATIC MAJORITY.

In Salisbury At City Election Tuesday An Unusually Large One. Three Councilmen Elected.

Everything went in a Democratic way last Tuesday when the Democratic party elected its ticket for the City Council by a majority of 246. The Republicans seem to have experienced much difficulty in persuading members of its party to become nominees. Before the day was far advanced however voting slips for the following gentlemen were being distributed to the faithful: S. A. Graham, A. F. Benjamin and E. W. Whayland. Mr. T. H. Williams, who at first had been made their sole nominee, declined to run. Mr. Wm. E. Booth who was also nominated, declined going on the ticket. The Judges were N. P. Turner, democrat and William Bomberger, republican, and Clarence M. Brewington, Clerk. Polls were opened at 9 o'clock.

RESULTS. William F. Bounds, D..... 293 Herbert H. Hiltch, D..... 290 W. Upehus Polk, D..... 288 Samuel A. Graham, R..... 49 Alan F. Benjamin, R..... 47 R. Winfield Whayland, R..... 41 Salisbury may feel that in the election of the above gentlemen the government and affairs of the city will continue in the hands of progression with proper conservatism, and that the expanding interests of our city will be well looked after.

Nuttall—Caulk.

One of the prettiest marriages Sharpstown has ever witnessed occurred in the Methodist Episcopal Church on Wednesday, the twenty-ninth, when Miss Sadie Allen Caulk, second daughter of Mr. and Mrs. John H. Caulk, became the wife of Mr. Edwin F. Nuttall of Schley, Va.

About quarter of nine the bridal party entered the church headed by Masters Alden and Willey Elzey, cousin of the bride. They entered the left aisle while Masters Harry and Charlie Sauerhoff entered the right. These were ribbon bearers, and during the ceremony they held arches of white ribbon to span each of the two main aisles. Next came the ushers, Messrs. Branch H. Phillips and J. O. Adams, Purnell T. White and Dr. F. J. Townsend. These were followed by the bridesmaids, Misses Alice Caulk, sister of the bride, and Berkeley Wright, Maggie Sauerhoff and Iva Bennett.

The bride entered on the arm of the groom, directly preceded by Misses Bertie Caulk and Rubie Owens a flower girl who strewn orange blossoms. At the altar under an arch of white flowers upon which perched a large white dove, they were met by the Rev. Mr. Anderson who made them man and wife.

Mendelain's wedding march was beautifully rendered by Mrs. E. A. Brodey, the bride's eldest sister. During the ceremony she played "O, Promise Me."

The bride's gown was a handsome one of white peau de cygne en train. She carried a large bouquet of bride's roses. The bridesmaids all wore white dresses and carried pink carnations. The groom and ushers wore the conventional black, white gloves and white boutonnières.

After the ceremony, a large reception was held at the home of the bride's parents. Over a hundred guests were present. Loss, cake and fruit of all kinds were served in abundance.

The collection of wedding presents was both large and handsome, silver and cut glass predominating.

Mr. and Mrs. Nuttall left on the steamer Maggie Thursday for an extended bridal tour, after which they will reside in Schley, Va., where the groom is prominent young business man. The bride is a very popular young lady of Sharpstown, and the whole community extend to them heartiest best wishes.

Letter To E. S. Adkins & Co.

Dear Sir: Here's what "fewer gallons" means:

Mr. N. Avery, of Delhi, N. Y. owns two houses exactly alike. He painted one with a mixed paint—took twelve gallons. Painted the other with Devco—bought twelve gallons and had six gallons left. Same painter—George Gilbert. The secret is: Devco Lead and Zinc is one hundred per cent. paint; the mixed paint was about fifty per cent. paint and fifty per cent. adulteration.

Here is an analysis of a mixed paint sold in your neighborhood:

Lead, zinc and color 41 per cent. Lime and China clay 59 "

You see 59 per cent. is adulteration. What is it for?

To fill the can; to take unfair advantage of your very natural and right desire to make your house painting cost as little as possible.

The cheap paint is Devco Lead and Zinc, because it is all paint—no expense for anything else—and it does not waste your money. Yours truly, F. W. DEVCO & Co. New York.

P. S.—L. W. Gunby sells our paint.

THE VALUE OF CYPRESS.

It is The Most Desirable Wood Which Can Be Used.

Cypress in all its ages has been considered the indestructible wood, and a such, used to cover and protect other less durable woods. It is peculiar in the South Atlantic and Gulf States, Pocomoke river swamp, lying chiefly in Worcester county, Maryland, being as far North as it seems to grow and this for more than a century, furnished the principal supply of Cypress Shingles for the Eastern Shore Peninsula, trees growing to enormous size and greatness, often a thousand years or more. This virgin growth of matured timber has been practically worked up many years ago, and supplies have been drawn from the swamps of Virginia and North Carolina, which are also being much depleted, and now Florida furnishes the principal supply of virgin growth Cypress. A younger growth, not fully matured, is being largely used but is of short last compared with the old yellow heart which now comes from Florida, where it grows to its greatest perfection.

It is a fact in nature that the durability of timber corresponds to its age, or the time it takes to grow and mature. Pine, for illustration, from an old growth fine grain matured tree, is much more durable than from a young tree, and so with Cypress and Cypress Shingles. And no matter how much care you take in the selection of your materials for your building or how experienced or reliable your mechanics, if you use inferior shingles you make a great mistake.

The covering of a building is the most important part of the materials used in its construction. "The weakest link is the strength of the chain," and "The poorest shingles determine the last of the roof." And it is poor economy to run so great a risk of having a leaky roof, to save such a trifling amount of money. Act wisely and buy best Florida Heart Shingles. For sale by dealers generally.

Interchangeable 1000 Mile Refund Tickets.

Commencing June 1, 1908, interchangeable 1000-Mile Refund Tickets will be placed on sale, limited to one year from date of issue, good only for transportation of the owner, with usual free allowance of 150 pounds baggage, over any of the following lines:— BALTIMORE AND OHIO RAILROAD. (Between all points east of Ohio River and between Pittsburg and Kane. Also to and from points on Philadelphia and Reading Railway and Central Railway of New Jersey between Philadelphia and New York.)

CHESAPEAKE AND OHIO RAILWAY. (East of and including Huntingdon.) DELAWARE, LACKAWANNA AND WESTERN RAILROAD. ERIS RAILROAD. (East of and including Jadedstown and Suspension Bridge.) LEHIGH VALLEY RAILROAD. PENNSYLVANIA RAILROAD.

These tickets will be sold at rate of \$30.00 each; subject to refund of \$10.00 on surrender of cover to Trunk Lines Mileage Ticket Bureau, No. 143 Liberty Street, New York, at any time within eighteen months from date of purchase.

This form of ticket will be issued in deference to requests of numerous patrons of the lines in interest desiring one ticket good over several lines instead of having to provide themselves as at present with a separate ticket for each line they desire to use.

Agents at principal stations of the railroads named above will have these tickets on sale and give all further information regarding them that may be required.

A Good Business Proposition

is something that everybody who looks out for their own interest will take time to consider. We have

Several Good Business Propositions

to make you, and

Here's the Point

We do business on business principles. When we sell you a pair of shoes they are as good as can be manufactured for the money. People spend most of their time in their shoes, and this fact makes the quality of footwear a question of prime importance. Our proposition to you is to sell you good honest shoes at a price as low as is consistent with good values. We make this proposition to all prospective shoe buyers, fully believing that it is to your interest to do business with us. We have many advantages to offer you as a reason why you should do your shoe buying of us, the first of which is, we are exclusive Shoe Dealers and also the largest buyers of Shoes on the Peninsula. We can offer you the largest and most complete stock to select from. We do not have to give you one size when your foot needs another. Our large stock enables us to carry all sizes and widths in stock. We take pains to see that every foot is properly fitted and also to select the proper kind of Shoe to meet the requirement for which it is intended. We have the exclusive sale in this city of all the best known and most popular makes of Shoes.

A person is often judged by the company they keep, so is a merchant by the merchandise he handles, and while we stand behind every pair of fair priced Shoes we sell, whether made under some pet name or not. To those who want special lines we can offer such well known ones as the following:

- FOR MEN: The Walk-Over, W. L. Douglas, Crossett's Long Life. FOR BOYS AND GIRLS: The Rice & Hutchins, Burley Stevens & Co., Excelsior. FOR LADIES: Queen Quality, Zeigler Bros., Cinderella, Allnut Moody, Drew, Selby & Co.

All of these are good ones in their class and have reputations established on merit, but the burden of our story is simply Shoes, and not the maker—trust us for that and we will always give you full value for your money or cheerfully refund you the same. Think over our proposition, come and see us and let us more fully explain and show you that we mean business and we feel sure that you will find that our interests are mutual. Yours for Shoes,

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indignation, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. Ida O. Brown, Runnemede Falls, N. J.

Hood's Sarsaparilla promises to cure and keep the promise.

At the conclusion of the Class song was sung as "Jumina." The words were composed by Miss Nelly Humphreys.

There are four verses:

Gone are the school days,
Days in which we were care free;
Life filled with bright rays,
Drawn from childhood's gleam,
Naught our spirits daunting,
Though the days were sad or gay;
Henceforth men may hunt
Childhood's happy lay,
School days, dear school days,
To thee ever will we sing;
School days, dear school days,
Praise to thee we bring.

Begone, Frivolity!
Stern life now before us lies;
Woman's dignity,
Manly honor rise!
By these may we be led,
That when life's course has been run,
Of us may it be said,
"Sternly mine, well done."
Guard us, O guide us,
Till the path of life we tread;
Guide us, O guide us,
On our way to God.

Black clouds are lined
With a hue, "his said, of gold;
And, should we'er find
Those sad lives that hold
Tears and woes hard pressing,
Dark clouds gathered round about,
Let us with God's blessing,
Put the clouds to rout,
The black, O leave us,
Iste life, now as we go;
The gold, be with us,
Light our path below.

Then "Astra Astra":
Let it be our guide to right;
And, "Amen Amen,"
God in Heaven our light.
When at length we find us
With eternity so near,
May God's love so bind us,
"We'll depart our fear.
Guide us, O guide us,
Down the path to truth and right;
Guide us, O guide us,
To the realms of light.

Genuine Commencement exercises were reserved for Wednesday night and the Opera House fairly sparkled with the radiance of acquired knowledge revealed in the excellent essays of the graduates. The stage was decorated in happy thoughts, flowers, palms and other potted plants with class colors—black and gold—floating here and there.

The clergy, officials of the School Board, Principal Holloway and other members of the High School faculty were present on the stage. Music interspersed throughout the program at agreeable intervals.

HAVE A ROYAL WEEK

For "D.S. H. S. Graduates" Baccalaureate Sermon, Class, Commencement and Banquet Nights, Large Audiences Well Entertained.

The Graduating Class of 1903, Salisbury High School have had busy days and nights for the week. The introductory event occurred Sunday evening when the class and Principal, Mr. Wm. J. Holloway, heard the Baccalaureate Sermon delivered at the Presbyterian Church by its pastor, Rev. S. W. Reigart.

The subject of the address was "Armed for the Battle" his text being "Let us put on the armor of light." He suggested many things of value to them on the early pages of life, and his talk was full of appropriate wisdom. Special music including the following selections was furnished by the choir under the direction of Dr. Spring.

Anthem, "King of Kings," Shelly; Offertory, "Gloria," T. Schilling; Anthem, "Just As I Am," P. Mascagni. Tuesday evening was the occasion of Class Day and Uman's Opera House held an appreciative audience to hear the class record, prophecy and other information of a correlative and pertinent nature, as follows:

Piano solo, "Sweet Long Ago," Miss Lillian M. Coughlin; Greeting by the President, Mr. E. Frank Adkins; History of Class, Miss Lillian M. Coughlin; Piano Solo, "One Promenade Du Matin," Miss Ora B. Disharoon; Prophecy, Miss Nellie R. Humphreys; Recitation with music, "Book of Ages," Miss Nellie R. Graham; Presentation Oration, Mr. Marvin A. Holloway; Piano duet, "Farefare, Op. 308 Rondo Militaire," Miss Ora B. Disharoon and Miss Lillian Coughlin; Case Will, Mr. Willis C. Taylor; Mantle Oration, Miss Leola M. Nelson; Response of first Senior, Mr. J. Carroll Adkins.

At the conclusion of the Class song was sung as "Jumina." The words were composed by Miss Nelly Humphreys.

Organizing Anti-Saloon Leagues.

At a largely attended meeting held in the Methodist Episcopal Church at Delmar, an Anti Saloon League was organized for Delmar District, Wicomico County, under the direction of Mr. S. E. Nicholson, Superintendent of the State Anti-Saloon League, headquarters in Baltimore. Rev. E. H. Webster, was made president, J. E. W. Perdue, Secretary and Treasurer and Rev. L. A. Bennett, chairman of agitation committee, by virtue of his position as first vice president.

Mr. Nicholson was at Princess Anne, Wednesday, at Quantico, Thursday and will be at Fruitland Monday. Plans have been formulated for the organization of a county Anti-Saloon League, and it is proposed to hold a large mass meeting at the Court House in Salisbury some time in June to complete this movement. A similar course is expected to be taken soon in Somerset county.

NEGRO POSTMASTER

Was Appointed in Somerset County, At Quindocquia, Indignant Protests Cause Office To Be Discontinued.

Because of the protest of citizens of the community against the appointment of a colored postmaster, the post-office department has decided to discontinue the postoffice at Quindocquia, Somerset county, Md.

Congressman William H. Jackson, of the First Maryland district, it is said, recommended that this action be taken and also further suggested that the people of Quindocquia be served by a rural free delivery carrier after July 1, which will be done.

When it was determined recently to establish a postoffice at that point, Mr. Jackson recommended that Andrew J. Day be appointed postmaster. Day is a negro, but Postmaster General Payne said the department was not aware of that fact at the time. Mr. Payne did not say that it would have made any difference in the official action if it had been known that Day was colored.

The appointment, according to advices received here, caused much excitement in the locality of Quindocquia, and Congressman Jackson began it is stated, to fear the effect it would have throughout the district.

CONSIDERABLE EXCITEMENT.

Quite a little flurry of excitement was caused in Princess Anne when it was known that the Postoffice Department had recently appointed a negro postmaster at Quindocquia Postoffice, in Somerset county. The announcement of the appointment was made two weeks ago, but it seems that the matter did not attract public attention for some days, and only within the last few days did the people of the county generally realize that Somerset was slated to have her first negro postmaster.

It seems that the postoffice at Quindocquia was established upon the strength of a petition forwarded to the Postoffice Department from the neighborhood of Quindocquia, and it is generally understood that the signers of the petition were obtained through the instrumentality of Charles Tilghman, a negro merchant, at whose store the postoffice was to be kept. Day, the newly appointed postmaster, came from Virginia, and few people in the county knew anything about him or his past history. It is probable that for this reason the announcement of his appointment did not at first suggest to anyone the idea that the appointee was a negro. When the facts in connection with the appointment began to come to the surface a few days ago it seems that Republican politicians in the county were informed that Day's record was not good, and steps were taken to have the appointment revoked.

ANOTHER NEGRO POSTMASTER

A dispatch from Hillsboro, Md., says: "The negro post master recently discovered in Somerset county is not the only official of the kind on the Eastern Shore.

The village of Tolson, in the upper part of Caroline county, which is a negro settlement, has had a colored postmaster since its establishment. As the local merchant and the most influential and capable man in the village it was natural that he was appointed to handle the mails. The existence of this negro postmaster has not been generally known and no complaint has been made of him.

A negro mail carrier at this point, who was asked to apply for the Hillsboro postoffice, said that he would not insult his friends among the white people by doing so."

Death Of An Old Marylander.

On the evening of May 5th, Mr. Charles L. Marshall died suddenly at his home in Selma, Alabama. A well known and highly respected business man of that city. He had been critically ill for months, but had so improved as to be able to attend his business on the day of his death, which came as a great shock. He was the son of Jno. E. H. Marshall, formerly a resident of Berlin, and a man keenly active and interested in affairs of church and state. In the seventies he took his family to Alabama, a wife, six sons, and a daughter. His son Charles located in Selma and married Miss Lytle, by whom he leaves three daughters and two sons, Mrs. Coffee of Tupelo, Mississippi, Misses Eloise and Estelle, Messrs. Edward and Charles, all grown. Of the six brothers who left Maryland, three survive, Frank of Selma, Eugene of Orville and George who occupies the family home at Hillsboro, with his sister Lizzie Hoyt, another sister, Mrs. F. B. Parnell, former resident of Newport, who now resides at Odessa, Mo.

About the N. Y., P. & N. Railroad.

"The declaration of the semi annual of 8 per cent on the New York, Philadelphia & Norfolk railroad, practically placing the stock on a 6 per cent basis calls attention to the traffic agreement with the Pennsylvania railroad," says the New York News Bureau. "This states that the Pennsylvania railroad, or the Philadelphia, Baltimore & Washington railroad, or each of them should have the option to purchase the capital stock of the New York, Philadelphia & Norfolk railroad, at any time during its continuance of the traffic contract at a price to be determined by capitalizing, at the rate of 6 per cent per annum, the average annual net earnings applicable to dividends for the three years prior to the exercise of the option, added to the pro rata value per share of any accumulated and unpaid earnings, represented by cash or securities at their market value, in excess of the sum of \$100,000 which amount shall be held to be required for working capital. To insure and secure this option, the capital stock is deposited with the Fidelity Trust Co." "It is generally believed, therefore, that the declaration of the dividend on a 6 per cent basis practically forecloses the absorption and consolidation of the New York, Philadelphia & Norfolk with the Delaware railroad, or, in other words, to be inaugurated into what will be known as the Peninsula division."

TOME INAUGURATION.

One of the Great Educational Events of Our Country—Exercises and History of the Institution.

The inaugural celebration which was held at the Jacob Tome Institute at Port Deposit, Md., on the 15th and 16th of May was one of the most important educational meetings ever held in this part of the United States. Many men of the first prominence in Church and State and in educational work took part in the program. Among those present were more than fifty representatives of leading universities, colleges and schools of the country. Governor Smith of Maryland, and United States Senator McCoy spoke for the public in general; President Remsen, of Johns Hopkins; Provost Harrison, of the University of Pennsylvania; Dr. MacPherson, of Lawrenceville, and Dr. Van Sickle, of the Baltimore Public Schools, represented educational ideals; the Right Rev. Bishop Leighton Coleman, of Delaware, had charge of the religious ceremonies in connection with the dedication.

A field and track meet which was undoubtedly the largest interscholastic athletic event the South has ever seen, concluded the celebration. Twenty-three schools were represented in this meet, and there were over 400 entries.

Friday morning the regular Commencement exercises of the school took place, and immediately afterward an informal reception was given to the delegates in the library of Memorial Hall.

The principal feature of the Saturday morning exercises was the dedication of the Institute's new buildings, which, together with the campus, have been completed within the year and cost approximately a million dollars. On this occasion, His Excellency Governor Smith, accepted the presentation of the school in behalf of the state and the public. The Charge to Director, Trustees and faculty was delivered by Pres. Ira Remsen, L. L. D., of Johns Hopkins. The prayer of dedication was offered by the Right Rev. Leighton Coleman, Bishop of Delaware. The exercises also included the presentation of a dedicatory tablet given by the students of the Institute, and the unveiling of a portrait of the Honorable Jacob Tome.

Saturday afternoon was devoted to the track meet, for which preparations have long been in progress. In this meet Maryland, Delaware, Pennsylvania and Virginia were all well represented, Baltimore and Philadelphia supplying a considerable proportion of the entries. Gold and silver medals were awarded the successful individual competitors, and banners to the victorious schools.

The Jacob Tome Institute is the result of the munificence of Jacob Tome, who resided in the little town of Port Deposit and there acquired the fortune and the reputation as a financier which have made him one of Maryland's most notable men. Mr. Tome, after years of deliberation decided to found a great educational institute which, unembarrassed financially might afford whatever the highest educational ideal should demand. As a result, Tome Institute holds a unique position among secondary schools, for its endowment which amounts to between three and four million dollars is the largest sum ever devoted to secondary education.

One of the most considerable advantages of Tome Institute is its location. It is situated on a precipitous bluff some three hundred feet above the Susquehanna River, and commands a magnificent view of the Chesapeake. In speaking of this location it would be difficult to exaggerate. The scenery of the region is magnificent. The Susquehanna channel here widens to the extent of over a mile, flowing down between a series of high bluffs, which rise directly from the river's edge. It is on one of these headlands, extending out boldly over the quiet town, that the Institute campus lies, commanding a view of rivers and hills and distant bay. The climate of the country, also, can hardly be excelled for agreeable and healthful conditions combining the mildness of the South with the vigor of the North.

The director of Tome Institute is Dr. Abram W. Harris, formerly president of the University of Maine.

BLOOD HUMOURS

Skin Humours, Scalp Humours, Hair Humours, Whether Simple Scrofulous or Hereditary Speedily Cured by Cuticura Soap, Ointment and Pills, When All Other Remedies and Best Physicians Fail. COMPLETE TREATMENT, \$1.00. In the treatment of torturing, disgusting, itching, scaly, crusted, pimply, blotchy and scrofulous humours of the skin, scalp and blood, with loss of hair, Cuticura Soap, Ointment and Pills have been wonderfully successful. Even the most obstinate constitutional humours, such as bad blood, scrofula, inherited and contagious humours, with loss of hair, glandular swellings, ulcerous patches in the throat and mouth, sore eyes, copper-colored blotches, as well as boils, carbuncles, scurvy, skin ulcers and sores arising from an impure or impoverished condition of the blood, yield to the Cuticura Treatment, when all other remedies and methods fail. And greater still, if possible, is the wonderful record of cures of torturing, disgusting humours among infants and children. The suffering which Cuticura Soap and Ointment have alleviated among the young, and the comfort they have afforded worn-out and worried parents, have led to their adoption in countless homes as priceless curatives for the skin and blood. Infantile and birth humours, milk crust, scall and eczema, rashes and every form of itching, scaly, pimply skin and scalp humours, with loss of hair, of infancy and childhood, are speedily, permanently and economically cured when all other remedies suitable for children, and even the best physicians, fail.

IF YOU COULD MAKE \$1000 FOR \$18 MONTH WOULD YOU DO IT?

And \$500 for \$10 a Month THY You Had Paid \$250 and \$25, Respectively. The BIG FOUR Consolidated Gold Mines, (LIMITED.) Non-Personal Liability. Fully Paid Up and Non-Accessible. CAPITAL \$62,500, of which 40 per cent. is now in our Treasury. INCORPORATED DECEMBER 23, 1902. Roseland Ore Shipments—Shipped for the year 1902 about 300,000 Tons, 85 per cent. came from the La Rols. Grand total to January, 1902, about 1,241,000 Tons. Value \$21,000,000. To make fortunes out of the future you must put something into the present. Read the following and judge for yourself: In addressing the public we realize that honest investors do not want fanciful fairy tales or flowery fictions, but solid facts and figures which will stand the test of the most searching criticism. Strong in the knowledge of possessing a really good thing we confidently submit a few considerations to those who are in search of a first-class investment. A Solid Company on a Sound Basis, possessing one of the most valuable properties in the far famed Kootenays of British Columbia, Canada. Our Property—Our property consists of four valuable claims, all decided to Company. No Dividends.—The La Rol yielded an average monthly profit of nearly \$100,000 for the past year, while the La Rol No. 2 has paid no less than \$800,000 in dividends during the past fifteen months. Its Location.—By universal consent our location is unsurpassed in facilities for both mining and shipment. Water, so essential to concentration and smelting, is supplied by four streams which flow through our claims, while the Red Mountain Railway crosses our property no less than three times. Improvements.—Improvements to the value of \$80,000, including 700 feet of tunnelling, have already been made. Large ore bodies have been uncovered carrying sufficiently high values to admit of mining with handsome profits. Modern machinery alone is now required to enable us to handle this ore to advantage. No Debts.—There are no debts whatever against the Company and therefore no "dead horses" to be paid for out of stock sales, and the future prospects of the Company are exceedingly bright. A Rare Chance.—We are now placing 100,000 shares Treasury Stock on the market in order to secure funds for putting in a thoroughly up-to-date plant. No less than 100 shares of this stock will be sold to anybody. Our special cash prices for this stock are: 1000 for \$300 or 30 cents per share; 500 shares for \$150 or 30 cents per share, and all smaller amounts at 25 cents per share. Or we will sell blocks of 500 shares and upwards on the installment plan as follows: 25 per cent. down and 10 per cent. per month until paid for. Payments will be due on the 1st of each month. See Order Blank. Send for Descriptive Booklet.—If this interests you send for descriptive booklet containing prospectus, reports of engineers and assayers, extracts from the press and reports and statements by reliable business and professional men of Roseland. We court investigation and stand ready to cheerfully furnish the fullest information to all interested persons. Now is the time to invest in Big Four Stocks as the prices are going up and will "reach the Dollar." There is nothing surer. References.—As to the Title and Status of the Company we refer by permission to the Mayor of Roseland and other leading officials. We hold the record in B. C. for economical mining. NOTE.—\$40.00 Cash and \$18.00 per month until you have paid \$250.00 will give you 1000 shares, which we believe should actually bring you \$1000 in return for your investment. The first payment on 500 shares is \$25.00 cash and \$10.00 per month. All payments to be complete within one year from date of purchase. NOW IS YOUR OPPORTUNITY. TAKE IT. Any amount less than \$100.00 sent by post office or express money order; over this amount, by bank draft, to

Quite a number of city visitors were in town this week looking for cottages to locate for the summer season. Mrs. Emily Gorton, of Philadelphia, is visiting her sister, Mrs. W. R. Rayne, and also taking a vacation. Mr. Hurley Hanley, of Berlin, spent Sunday with his friend, Mr. Harvey Trader. Mr. Charles Buffington and friend, Mr. Seibold, of Bay View Farm, are the guests and welcome visitors to town. Mr. Horace Davis, of Berlin, who has the contract for building a dwelling at the Bay View Farm, near here, was in town on business Tuesday of this week. Rev. David Howard, former pastor of St. Paul's-by-the-sea, here, and also of Berlin, now of Salisbury, Md., is spending a few days with friends here this week. We are glad to have Mr. Howard in our midst again. Among the callers from Berlin this week were Mr. H. J. Anderson, Mr. Gordon A. Marshall and Mr. Henry Godfrey. Mr. Thomas Hudson, of the L. S. Station here, spent Friday and Saturday with his family at Girdletree, returning late Saturday. THANK YOU'S GIFT By Elizabeth Cherry Walts

"Please, I've after the cold wash, said a small brown figure with innumerable pigstails tied about with pink cord, 'but I'm not in a hurry.' The cook and the butler were the inhabitants of the sunny kitchen with its yellow painted floors and white curtains. 'Not in a hurry?' said the forlorn butler. 'Undoubtedly.' 'I'd like to see that lubly lady-dar like here.' 'She means Miss Annie May,' said the cook, much amused. 'Where did you ever see her, kid?' 'Lots o' times,' responded the brown one, 'waitin' for her high cart down to the race track. 'Um-um-m!'

"What does it mean?" she whispered. 'I've lost no end of gloves and some money. In these things wrong with the horse?' 'She seems ill.' He tried to speak lightly. 'Ill? Have you lost much money?' 'Not a great deal. I was not in very deep. A friend of the lovely lady warned me of it this morning. She doubts she knew a great deal, as she lives in one of those huts among the track devils. She warned me for love of you, her lovely lady.' 'It was Thank You!' exclaimed the pale one in amazement. 'Yes, it was Thank You. She wanted you to be happy. I would have been ruined had she not warned me in time. You must take her gift, dear, with less recklessness and folly, I hope. It has been a lesson.' The lovely lady's eyes were full of tears. They may have been for the Princess-Maid, for Thank You or her disappointment, but her lover seemed to think of them all for the future and that they were happy ones.

Experience Teaches. A young man who was ambitious to get an education, but lacked the money to pay his expenses in college, consulted an eminent judge as to what course he would better adopt. The judge had once been in the same predicament and had undergone many hardships while fitting himself for the eminent position he occupied, consequently he was speaking from experience when replying to his young friend's inquiries. 'Would you advise me to go into debt to get an education?' the young man asked. 'Well, that depends on the line of conduct you are disposed to pursue. Would you honestly pay back every cent of money you borrowed to pay for your education? 'Certainly! I would do that even if I had to work as a hodcarrier to earn the money.' 'Then I would advise you to borrow.' 'What course would you recommend me to take in college?' 'Oh, that is a matter of indifference.' 'I beg your pardon.' 'It really doesn't matter what course you take in college. If you go into debt to get an education, you will get the chief part of it while struggling to get out of debt again.'

Where Poverty Was Criminal. In Peru at the period of the Incas, before its conquest by the Spaniards in the early part of the sixteenth century, poverty was counted a crime. The whole territory was divided into three portions, and the respective revenues and resources were given (1) to support the priest and the ceremonial worship of the sun, who was their god; (2) to the reigning Inca for the expenses of the royal household and the cost of government; (3) to the people at so much a head. The extent of land apportioned to each household was regulated by the size of his family. This nation of workers wrought as one man for the common good. Their simple wants were easily and entirely satisfied, no one was overworked, and thus they lived a happy and contented life, with frequent holidays and festivals. Under a social system so well organized that no man could be poor unless he were incorrigibly idle, we cannot wonder that those who did fall into poverty and want, through sheer indolence, were regarded as deliberate criminals and were even allowed to starve. Why He Hated the Price. Mr. Hickie was a noted secondhand bookseller of Dublin. His bookshop was the favorite haunt of bishops, clergymen of all creeds, professors and scholars generally in search of rare volumes. A story is told of an encounter Mr. Hickie had with a Catholic priest only a few days before he retired from his beloved bookshop to die. A young priest called on him and taking up a book inquired the price. 'Half a crown, father,' said Hickie. 'But,' said the priest, 'I can get it for 1s. 6d. from Mr. Blank.' 'Of course,' said Hickie, 'but you see, it's a Protestant book, and I think you shouldn't buy a Protestant book, so I put half a crown on it that you might love it behind.'

Deserves All the Credit. See a prattling, laughing, healthy baby in a home and you find sunshine there—peeps, mamma, grandmother, and all happy. 'I take pleasure in recommending Victor Infant Relief, for it helped our baby very much—brought health and sleep to her. When only eleven months old she weighed 25 pounds. Victor Infant Relief alone, I think, has made her so happy. It is a remedy that deserves much praise and is invaluable to the mother.' 25 cents will buy this wonderful Baby Medicine from your Druggist.

"Don't yo' bet none on that hoss, sah. She won't win no race foah yo' dis day. No, sah, she won't!" "I'll not pay any attention to your abominable lies," he said angrily, pushing her away. There were angry tears in the child's eyes, but she rose to the occasion bravely. "Ef yo' dat ugly an' stubborn, go 'long den," she said sullenly, "an' lose yo' money an' shame yo'self too. I tote yo' de trait dat will be, I did." Ross went back to the stables and looked over his mare again. "Right as a trivet," he pronounced her and went back to the betting sheds reassured. Suddenly the convincing look in the child's eyes smote upon his conscience. Truth had dwelt there. The mysterious impingement of the to-happen jarred on his assurance. A mysterious intuition impelled him to hedge his bets, to place his money where he could, to accept the inevitable as a finality, to believe in the brown child's warning. "I think it would mean a great deal to the lovely lady," he said musingly. "It would just about mean my ruin. I didn't know I was in so deep. I could not have asked her to marry me this year."

Pale and frightened, the lovely lady leaned over the box railings of the grand stand and beckoned to Blake-more Ross. He was quite as pale when he came, but very self contained and cool. "What does it mean?" she whispered. 'I've lost no end of gloves and some money. In these things wrong with the horse?' 'She seems ill.' He tried to speak lightly. 'Ill? Have you lost much money?' 'Not a great deal. I was not in very deep. A friend of the lovely lady warned me of it this morning. She doubts she knew a great deal, as she lives in one of those huts among the track devils. She warned me for love of you, her lovely lady.' 'It was Thank You!' exclaimed the pale one in amazement. 'Yes, it was Thank You. She wanted you to be happy. I would have been ruined had she not warned me in time. You must take her gift, dear, with less recklessness and folly, I hope. It has been a lesson.' The lovely lady's eyes were full of tears. They may have been for the Princess-Maid, for Thank You or her disappointment, but her lover seemed to think of them all for the future and that they were happy ones.

How He Horrified Her. One Pharaoh day last fall, so the story goes, President Hadley of Yale was strolling through the beautiful campus of Dartmouth college with his wife on his arm. They were admiring the beautiful buildings which dot the campus, several of them having been erected by wealthy alumni. Presently they came to an especially noble hall, built of stone and occupying a commanding site. Over the main entrance was a marble tablet which announced that the hall had been erected by John C. Blank as a memorial to his beloved wife. President Hadley stood and looked at the noble pile for a moment. Then he heard a sigh that was almost envious. "Ah," he said, "that is what I should like to do for my college." And to this day, the boys declare, President Hadley cannot understand why his wife should have looked so horrified.—St. Louis Mirror.

Rescue a Peasant Woman. By a newly enacted Russian law a peasant's wife, on showing to the district judge of instruction that she is indubitably ill treated by her husband or that he will not support her and makes her the drudge for his own support, can demand a separate passport, with which she is at liberty to leave her oppressor and earn a living elsewhere. Hitherto there was no possible redress or release for the long suffering victim so long as it was obligatory that the wife's name was entered in the husband's passport and papers of legitimation. Any one at all intimately acquainted with village life in Russia will readily appreciate the relief this brings to tens of thousands of peasant women who are the grievously abused domestic slaves and beasts of burden to their drunken and brutal conjugal proprietors.—Anglo-Italian.

Like Moody and Blakely. They have a Moody and Blakely team in London just now—Dr. Torrey and Mr. Alexander, both from Australia. They are holding large meetings in Exeter hall. Mr. Alexander, the vocalist, is the singer, but is also wonderfully gifted in the way of getting his audience to join in. "Everybody likes to sing," he says, "but a great many don't know how."

A prominent Southern lady, Mrs. Blanchard, of Nashville, Tenn., tells how she was cured of backache, dizziness, painful and irregular periods by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Gratitude compels me to acknowledge the great merit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pains in the back and lower limbs, and fitful sleep. I dreaded the time to come which would only mean suffering to me. "Better health is all I wanted, and one if possible. Lydia E. Pinkham's Vegetable Compound brought me health and happiness in a few short months. I feel like another person now. My aches and pains have left me. Life seems new and sweet to me, and everything seems pleasant and easy. "Six bottles brought me health, and was worth more than months under the doctor's care, which really did not benefit me at all. I am satisfied there is no medicine so good for sick women as your Vegetable Compound, and I advocate it to my lady friends in need of medical help."—Mrs. B. A. BLANCHARD, 422 Broad St., Nashville, Tenn.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, at once removes such troubles. Refuse to buy any other medicine, for you need the best.

A Severe Case of Womb Trouble Cured in Philadelphia. "DEAR MRS. PINKHAM:—I have been cured of severe female troubles by the use of Lydia E. Pinkham's Vegetable Compound. I was nearly ready to give up, but seeing your advertisement I purchased one bottle of your medicine, and it did me so much good that I purchased another, and the result was so satisfactory that I bought six more bottles, and am now feeling like a new woman. I shall never be without it. I hope that my testimonial will convince women that your Vegetable Compound is the greatest medicine in the world for falling of the womb or any other female complaint."—Mrs. MAY COVY, 2660 Birch St., Philadelphia, Pa.

A CAT'S STAGE TRAINING. The Simple Way in Which Puss Was Made to Play Her Part. "It often happens," said Mr. David Belasco while talking about some of the mechanical effects used in "The Darling of the Gods," "that tricks of the simplest description amaze the popular wonder and curiosity to the greatest extent, while on the other hand the most original, delicate and daring work passes unnoticed by all save professional experts. A great many years ago, when I was learning the business of mounting and producing plays, I introduced a cat into 'Hearts of Oak'—the play that made the late James A. Herne famous. We had a live baby in the play, too, which excited a tremendous amount of interest, but I think the cat created more talk and wonder because every one is familiar with the habits of that domestic animal and knows how difficult it is to teach one to perform even the simplest trick. "Every night at a certain cue this cat came on the stage, walked across to the fireplace, stretched herself and then lay down in front of the blazing hearth, for we burned real fire in a gas log in order to make the scene more realistic and natural. The cat did her part so easily and naturally that she frequently got a round of applause, and it always happened that before we had played three nights in a town the most popular topic of conversation was, 'How did you ever train that cat to come on the stage, stretch herself and lie down in front of the fire?' "Night after night the cat took her cue and went through her little act to the wonder and delight of all beholders. It really seemed like a remarkable performance on her part; but, after all, her education was a very simple matter. A few minutes before it was time for her to go on we used to put her in a basket just large enough to hold her comfortably without giving her a chance to change her position and then leave her in a cool place in the cellar. At the proper time she was brought upstairs and released in the entrance in time to answer her cue. Of course she walked across the stage to where the fire was burning, and when she got there what was there to do except to stretch herself as a measure of relief after her cramped position in the basket and then lie down in the warmth of the blazing log? The fact is, it would have been very difficult indeed to train her to do anything else under the circumstances."—Exchange.

CHICHESTER'S ENGLISH PENNYROYAL PILLS. In the recently discovered tomb of 'Thothmes IV', who was king of Egypt between 2000 and 1400 years ago, the chariot of that monarch was found. The body of it alone is preserved, but in a perfect condition. The wooden frame was first covered with paper mache made from papyrus and this again with stucco, which was then carved, both inside and out, into scenes from the battles fought by the pharaoh in Syria. The art is of a very high order, every detail being exquisitely finished, and the faces of the Syrians being clearly portraits taken from captives at Thebes. The chariot is in fact one of the finest specimens of art that have come down from antiquity. Along with the chariot was found the leather guntlet with which the king protected his hand and wrist when using the bow or reins.

The X-Rays. Recent experiments by practical tests and examination with the aid of the X-Rays, establish it as a fact that catarrh of the stomach is not a disease of itself but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrh of the stomach. Kodol digests what you eat—makes the stomach sweet. Sold by all druggists.

Thousands Have Kidney Trouble and Don't Know It. How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidney, liver, bladder and every part of the urinary passages. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Sons of Binghamton, Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Light Touches on some pianos will not produce sound. In the KIMBALL PIANO the mechanical parts are so nicely adjusted that they respond to the most delicate touch; but they can stand the heavier hand as well. It has a strong sweet tone, of great range and volume, and is so constructed that it will last a lifetime. Several second hand organs and pianos at bargain prices. W. T. PENINSULA CANNED GOODS PACKERS.

Our readers generally are or should be greatly interested in everything pertaining to the progress and prosperity of the State of Maryland, especially in matters agricultural and horticultural.

It goes without saying that the "East-shore," the garden of Maryland, has an abundant supply of the "good things" of this world, which has done much to give our Old State the title of "the land of good living"; but it would be well if the people of the Peninsula would give a little more effort to the "Second Requirement" and let the world know she has these good things in quantity.

One of the most important modern lines of production of this favored section is the canning industry, which covers a field, in variety, larger than any other section of the same extent in the world, and the quality of its products is unsurpassed.

Mr. E. S. Judge, of Baltimore, Secretary of the National Canned Goods Packers' Association, has made arrangements with the authorities of the St. Louis Exposition for space, power, etc., for a grand combined exhibit of the canned goods industry, including competition and awards in all lines of these exhibits.

Every firm of packers in Maryland and elsewhere will be invited and expected to make an exhibit of its canned products in this great display in conjunction with the other canning firms of the State.

The goods to be exhibited must be packed this season, as the Fair will be opened May 1st, 1904, and all exhibits must be in place at that time.

According to the weekly bulletin of the Chicago Health Department, pneumonia claimed more victims last week than were ever before recorded in the department annals.

LIFE SAVERS.

The blue-coated and brass-buttoned guardians that pace the streets of great towns and cities belong to an important class of humanity and discharge important duties.

But I am thinking today of another class of men whose beats are longer and whose duties are far more exacting than are those of either urban or suburban police.

There is nothing more precious than human life. For the preservation of such life, when embarked on the ocean, the Government has reared light-houses along the line of the sea.

A visit once to one of these structures gave me the memory of a day never to be forgotten. The long climb up its spiral staircase, around and around, each step aloft inviting dizziness to the brain, the outlook from its summit over the glistening waters to the far horizon with its veil of mist, the machinery for the turning of its tower lamp, the hundreds of crystals for intensifying and reflecting the light, and the tales told by the brave man in charge, of wild hurricanes, that often shook the building to its very base, as though it were in the grip of a giant, ocean born, and the fierce rains that leaped furiously against the glass, as if to extinguish the glow within—all these made upon my mind a lasting impression.

But mere rays of light, however brilliantly they shine, are not of themselves sufficient for the saving of life in times of storm. They but offer guidance. In spite of these lofty beacons, lifted high into the shadows, ships are sometimes driven landward by the many-tailed lash of a tempest.

It is here that those who belong to the Life Saving Service come into action. To avert the disaster of drowning in sight of shore, the Government has provided means of salvation. At intervals along the coast are stationed these noble and courageous men.

There is a lonely life. During the time of active duty, in the season of year when storms are most frequent, and when the greatest vigilance is required to circumvent death in view of land, these men are forced to live apart from their families in a small community of their own.

Think also of the long beat of the night patrol, miles of hard walking over a floor of sand, chilled often by keen winds, as often pelting raindrops sting eyes, ears and cheeks, straining the vision for some rocket telegram from the blackness beyond, or listening for the boom of a signal gun above the roar of the waves that dash and fall to pieces upon the strand.

Life savers! How the name stirs the enthusiasm of those in whose breast is the fire of philanthropy! The opposite is that name of wretches, those whose want it is to kindle false beacons along treacherous coasts, thus alluring ships to destruction, then afterwards reaping the sea for a harvest of gain.

devilish class as in America from Africa. Rather are they kindred spirits with Him who laid down His own life for the saving of lost mankind.

Letter to G. W. Byrd.

Dear Sir: Porterhouse, so much; neck, so much; all the way between. Just so with paint. Devote Lead and Zinc to the porterhouse. Nobody wants the neck; the between, some say, is good enough for them.

Mr. Charles Hollenbeck, of this place painted his house three years ago with Devote Lead and Zinc; his father painted at the same time with lead and oil. To day the son's house looks as well as the day it was painted, while the father's house has all chalked off and needs painting very badly.

BONE FOOD

Soft and crooked bones mean bad feeding. Call the disease rickets if you want to. The growing child must eat the right food for growth. Bones must have bone food, blood must have blood food and so on through the list.

Scott's Emulsion is the right treatment for soft bones in children. Little doses every day give the stiffness and shape that healthy bones should have. Bow legs become straighter, loose joints grow stronger and firmness comes to the soft heads.

Wrong food caused the trouble. Right food will cure it. In thousands of cases Scott's Emulsion has proven to be the right food for soft bones in childhood.

Send for free sample. SCOTT & BOWNE, Chemists, 400-415 Pearl Street, New York, N. Y. 2c. and 5c. all druggists.

—The class of 1903 announce that they will shortly issue a school annual, the first of its kind. Literary, biographical and humorous matter will be included in its contents. The subscription price is 75 cents. Those wishing a copy are requested to apply to Mr. Marvin A. Holloway, Business Manager of H. S. Annual.

—The annual big run of herring occurred in the Wicomico River Monday and Tuesday, the fish coming up to the head of the river at Salisbury in large schools. Probably 10,000 herring were caught from boats and the wharves in small nets. They were sold at 60 cents per 100.

—Miss Lillie Henry, of New Orleans, who is to represent Maryland at the Confederate reunion in that city, is a granddaughter of the late Col. F. J. Henry, a gallant soldier of the Second Maryland Regiment, under Colonel Herbert. He was wounded at Gettysburg, Cold Harbor and Petersburg, and still survives in peace and honor.

—At Willards, Wicomico county on July 1, will be established rural free delivery with one carrier and one route. The length of route, 22 1/2 miles, number of houses 105 and population served 448. The post office at Truitts will be discontinued and mail for that office should be sent to Pittsville.

—At a special meeting of the Board of Directors of the Home for the Aged at Mrs. Collier's Tuesday three applicants for admission to the Home were accepted. Other petitions are now being considered. Donations of furniture, bedding or dishes are requested to aid in furnishing the institution which is expected to open about the first of June. Mrs. L. D. Collier, the president, will receive such donations.

—The classes of the Salisbury High School will hold a bazaar in the High School Building, Friday and Saturday, May 15th and 16th. The proceeds are to be applied to the liquidation of the indebtedness on the piano which has been in use at the school for a year. The liberal patronage of the public is solicited for this worthy cause. There will be on sale a variety of beautiful and useful articles. Refreshments will be served. Hours, 2:00 to 11:00 p. m.

—The Hebron M. E. Church has been repainted and papered inside and a new carpet laid. The Church will be reopened for services next Sabbath. Rev. Charles Hill of Salisbury will preach at 8 o'clock p. m. Revival services will be conducted by the Pastor each evening during the following week. The Presiding Elder, Rev. Adam Stengle will preach on Wednesday evening.

—Toadvine & Bell, solicitors for Martha A. Freeny, trustee, advertise the sale of a valuable farm of about 225 acres formerly belonging to Samuel W. Freeny, deceased, situated in Delmar District, Wicomico County, adjoining the lands of Charles E. Williams, Wm. H. Jackson and others. 75 acres are stated as arable, the balance being set in first and second growth timber, located about 2 miles from Delmar and 4 1/2 miles from Salisbury. Improvements consist of an eight room dwelling house and suitable out-buildings.

—The partnership existing between Samuel B. Douglass and L. Atwood Bennett, for the practice of law has been dissolved by mutual consent. Mr. Douglass will occupy with Mr. N. T. Fitch the office of the latter.

—The Farmers' Institute held at the Princess Anne Academy on Wednesday last, for the benefit of the colored farmers, was well attended. There were colored men from the adjoining counties also from the Eastern Shore of Virginia. Prof. H. J. Patterson, of the Maryland Agricultural College, and William L. Amos, director of institutes for Maryland, were present and gave valuable assistance. The meeting was called to order by Solomon T. Houston, of Salisbury. Frank Twigg, principal of the Princess Anne Academy, delivered the address of welcome.

—Sunday at Trinity Southern Methodist Church will be a day of unusual interest to the congregation. Bishop Alpheus W. Wilson D. D., L. L. D., will preach at 11 o'clock. Bishop Wilson is recognized as one of the ablest divines of the American Church; moreover his frequent Episcopal visitations in the Orient in connection with the work of foreign missions make him second to none as an authority upon missions. In the evening at 8 o'clock service and sermon by Rev. Paul Whitelock, D. D., the presiding elder of the Norfolk and Eastern Shore District.

THOROUGHGOOD HAS \$20,000

Worth of Ready-Made Clothing, Hats and Furnishings

that have got to go within the **NEXT 60 DAYS.**

You had better see this immense stock before you buy a dollar's worth of goods any where else. Thoroughgood knows what you want and has it ready for you. Thoroughgood sells it very much cheaper than any body else. Queer, too, that Thoroughgood sells the very best Clothing and Hats and sells them for less than anybody else. Why? Just because he's overstocked and wants the money—that's why. Men you know this is true, that Lacy Thoroughgood sells the very best Clothing that is made, and now Thoroughgood is determined to sell it cheaper than any other store in Salisbury will dare do. Do you know why Lacy Thoroughgood sells so much ready-made clothing? It is easy enough to see why, no matter how little you pay, it is good; good cloth, good lining, good trimmings, good fit. Can't a store buy cheaper the more it buys? Can't a store sell cheaper the more it sells? Of course, Lacy Thoroughgood don't want you to come to his store if you can get better clothes (you can't) or styles (you can't) or lower prices for the quality (you can't). Man, if you don't understand what Lacy Thoroughgood is trying to tell you, come and look and learn. If you will only do that you will never buy clothing anywhere else as long as you live.

A Strong Man

In strong all over. No man can be strong who is suffering from indigestion or some other disease of the stomach and its associated organs of digestion and nutrition. For when the stomach is diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man doesn't feel just right, when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous and irritable, he is losing the nutrition needed to make strength.

Such a man needs to see Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, stimulates the liver, nourishes the nerves, and so gives health and strength to the whole body.

Dr. Pierce's Pleasant Pellets cure constipation.

I have had occasion to use your Black-Draught Stock and Poultry Medicine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recommend it to all owners of stock.

Stock or poultry should not eat cheap stock feed any more than sick persons should expect to be cured by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock feeds. Unload the bowels and stir up the torpid liver and the animal will be cured, if it is possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock in any time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. Chickens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.

Sick Headache?
Food doesn't digest well? Appetite poor? Bowels constipated? Tongue coated? Is your liver? Ayer's Pills are liver pills; they cure dyspepsia, biliousness.

Want your mustache beard a beautiful color? Use **BUCKINGHAM'S DYE** for Whiskers. Sold by Druggists.

Nasal CATARRH
In all its stages there should be treatment. Ely's Cream Balm cures, soothes and heals the inflamed membrane. It cures catarrh and drives away cold in the head quickly. Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug Store; by mail, Trial Size, 10 cents by mail. ELY BROTHERS, 10 Warren Street, New York.

Kodol Dyspepsia Cure
Digests what you eat.
This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It promotes formation of gastric stomachic juices, relieves all distress after eating. Distinguishing feature: Pleasant to take. It doesn't help, but do you good.

TALMAGE SERMON

By Rev. FRANK DE WITT TALMAGE, D.D., Pastor of Jerusalem Park Presbyterian Church, Chicago

Chicago, May 10.—In this sermon the preacher takes an optimistic view of the spiritual outlook and sees in the growing predominance of the Anglo-Saxon race an augury that foreshadows the spread of the gospel throughout the world. The text is Exodus 19, 15, "Speak unto the children of Israel that they go forward."

are more willing to recognize their responsibility to God than those who conscientiously try to fulfill their responsibilities in life.

Intolerance Overthrown.

The next great battle for the world's redemption was fought and won when the frowning walls of religious intolerance were battered down and the torture dungeons of the dark ages were forever opened to the purifying light. Ah, the battle for religious liberty was a long and a bitter struggle! It was not won in a day; a decade, a generation or a century. It fought its way through the flying stones and the bloody swords and the spears and the martyrdoms of Christians of apostolic times. The fight for emancipation went on among the crackling flames of burning Rome. It clutched by their throats the man eating monsters that leaped into the Roman Coliseum. It defied the lowering looks and the blasphemous oaths of the mobs that gathered in the Florentine square of beautiful Italy to see Savonarola die. It suffered the agonies which Fox recorded in his "History of the Lives and Sufferings and Triumphant Deaths of the Primitive as Well as the Protestant Martyrs." It steered the backbone of the lion hearted Martin Luther as well as of John Huss. It fought its battle until at last the opened Bible was placed in the hand of the common people and every man was free to worship God according to the dictates of his conscience, whether in the Christian church, the mosque or the Mohammedan mosque.

No man can be said to worship God in sincerity and truth unless he bows before the mercy seat under the impulse of a free will. When Torquemada headed the inquisition and Charles IX. was drunk with human blood and "Bloody Mary" signed the death warrant of over 300 martyrs and Charlemagne forcibly drove the people of his kingdom into the rivers, where, like struggling cattle, the priests baptized them by the wholesale, fear may have made the frightened men and women bow and profess Christ, but fear never yet made a true Christian. You cannot terrorize a man into the kingdom of God with the executioner's ax or the slave master's lash. The Bible is full of the gospel invitation to "come." "Come, for all things are now ready. Come, come, come!" But upon no page of the Bible can you find anywhere the words written: "Come to Christ against your will!" "Come with hate in your heart!" "Come with defying sin on your lips!" "Come as a troubling murderer in led to the scaffold or to incarceration for life?" Thus we find that the second great onward movement for the world's redemption was taken when bigotry's swarthy limbs were manacled, when the hissing tongue of persecution was stilled and when religious liberty could lift up her smiling face toward the heavens and stretch forth her white hands to lead, as well as to protect, a free human race.

The World in Sympathy.

The next great onward movement for the world's redemption is to be found in the commercial supremacy which has brought all the five continents and the islands of the sea into sympathetic touch. The man who rarely traveled 100 miles from his home where he was born. His grave was dug only a short distance from where the tree was planted out of which his cradle was cut. The world was not only divided into nations, but the nations into distinct and antagonistic clans. The Scotchman-born in the highlands could not understand the dialect of the lowlanders. But now everywhere commercialism is making of one blood all nations that dwell upon the face of the earth. The American sailor's "Yo-ho-yo" is heard by the wharfs of Tarshish. The East Indian merchantmen and the ships for China and Japan and the Philippines and Australia and New Zealand follow each other through the Suez canal. The railroads of Brazil and the steamship lines of Chile and Buenos Ayres and Cape Town are owned by foreign capital. The Russian warships are being built in the American shipyards. A great international war is becoming more and more an impossibility by England. The islands of the Pacific held by Germany, England and the United States. North and South America dominated by the United States government by its Monroe doctrine. Europe for the most part controlled or influenced by Germany or England. Both supreme in their own ways—England by her navy, Germany by her army. The whale and the lion practically unconquerable in their own domains.

Christ's Gospel Must Triumph.

There are many reasons why the Anglo-Saxon race should lead in this movement. Some of these may be regarded as fanciful and romantic. It is not long since a professor, formerly of Yale university, undertook to prove that the Anglo-Saxon race is descended from the ten lost tribes of Israel, and he even asserted that the present reigning house of Great Britain is descended from King Solomon, through a Hebrew princess named Tophi, who became the bride of King Fergus of Ireland and Scotland, from whom descended King James VI. of Scotland, who became King James I. of England. He contended that the very stones which form the seat of the coronation chair, on which the monarchs of Great Britain sit when they are crowned, originally formed part of Solomon's temple and was brought to Ireland by Tophi herself as a precious relic. With all such fanciful traditions we have nothing to do. The essential fact is that the gospel of Christ, which must ultimately triumph, is enshrined in the hearts of the Anglo-Saxon race more than in those of any other race and they have the opportunity and the qualities which fit them to embrace it, of propagating that gospel to the ends of the earth.

Promise of Universal Peace.

Another great preliminary battle for the world's redemption was fought and won when the parliament of religions assembled at the world's fair in Chicago. Then all the intelligent members of the Anglo-Saxon race realized as never before that the gospel of Jesus Christ was not only the best of all religions, but also that it is the only gospel which promises perfect peace this side of the grave as well as salvation beyond.

are soon going to send over our missionaries to Chicago, and we shall convert America to the teachings of Kali, Buddha and Mohammed." But when the oriental missionaries began to talk we remembered the burning ghats of the Ganges. We could hear the death cries of the child widows who were being sacrificed upon the funeral pyres.

We could see the superstitions and de-baucheries of the harem and the degradation of their people in the east. Edwin Arnold's "Light of Asia" might burn brightly when fed by the oil of the poetic imagination of the gifted English writer, who married a dark skinned daughter of the east, but Arnold's "Light of Asia" was found to be as dark as India, with its teeming millions in utter darkness—darkness black as that of Africa or as dark as the night of human things who, as cannibals are tauntingly boasting, are all as all peoples must believe in a God of some sort, so today, as never before, the intelligent, civilized nations know that the gospel of Jesus Christ is the only gospel which will bring peace and progress to the world. When a native chief asked Queen Victoria the source of England's strength she handed him a Bible. So, today, most of the civilized races are ready to confess that the strength of the mightiest earthly governments is centered in the word of God. Where the Bible is not, there are superstition and ignorance and brutalizing crime.

Many preliminary battles have already been fought and won. Now comes the practical question. What race of people is going to start forth to lead in the last great battle, which is to be fought for the redemption of the world for Christ? Has Jesus a right to look with hope toward any people more confidently than to the Anglo-Saxon race? From what race came the crusaders, Geoffrey and Frederick Barbarossa and Baldwin of Flanders and Richard the Lion Hearted and Frederick II.? From what race came the pilgrim fathers, who crossed the sea imbued with many noble ambitions, the chief of which was to carry the gospel of Jesus Christ to the farthest ends of the earth? Among the hearts of what people was the great foreign missionary cause first born? Who today are striving most of all to civilize and Christianize the world at large? Is it not the members of the Anglo-Saxon race? Are there any people who can be more justly called a Christian people than the Anglo-Saxons?

The Dominant Anglo-Saxon.

The Anglo-Saxon race is best qualified to lead in this great forward movement for Christ also because in this century it holds a position of dominant power and influence among the nations analogous to that held by ancient Rome at the birth of Christianity. They geographically hold the strategic points of all the world. Open the map of the world where you will and drop your finger at random. Gibraltar, the key of the Mediterranean, held by England. Suez canal and the sovereignty of Egypt by England. Eastern as well as northern Africa dominated by England. The islands of the Pacific held by Germany, England and the United States. North and South America dominated by the United States government by its Monroe doctrine. Europe for the most part controlled or influenced by Germany or England. Both supreme in their own ways—England by her navy, Germany by her army. The whale and the lion practically unconquerable in their own domains.

Several Kinds of Cats.

It is said that in China there is a cat that has drooping ears. The Mombas cat of the west coast of Africa is covered with stiff, bristly hair. A Parguay cat is only one-quarter as big as the ordinary cat of this part of the world. It has a long body and short, shiny hair. In South America there is a race of cats which do not know how to meow.

way for the Anglo-Saxon race to start on this worldwide mission is for us, as individuals, to start here and start now. A little handful, under the power of the Holy Spirit, we may accomplish at least as much for Christ as did that little band of praying men and women in the upper chamber of Jerusalem.

The Sign of Victory.

So, today, I want to enlarge your gospel horizon. I want to show you that the work you can do for Jesus should be studied no longer through a microscope, but through a telescope. I want to show you that, as all time is merely nothing more than a long succession of seconds and minutes and days and weeks and years, so all great events are merely the accumulations of the works of single individuals. The Anglo-Saxon in great units may be composed of nations. The Anglo-Saxon race in small units is composed of individuals just like ourselves. Will you and I start here and now, with God's help, for the conquest of the world for Christ? Will you and I here and now consecrate our lives to his service, so that we may become his acceptable messengers for this work on the one side, and the final redemption of the world would not be far off if we could only bring Jesus in touch with all mankind. An imaginative religious writer once had this beautiful dream about how the world was finally to be conquered for Jesus. It was, I believe, to be in the year 2001. A great international war was about to burst over Europe. All the nations of that continent were divided into two sides. England, Germany, Norway, Sweden, Belgium and Holland were on the one side. France, Spain, Italy, Turkey, Austria and Russia were upon the other side. The great armies were marshaled into two mighty hosts, the tread of whose feet and the rumble of whose cannon made the earth shake. The night before the decisive battle was to open the camp fires of the sleeping soldiers stretched for miles and miles away. But the night before that battle opened a strange being was seen to go rapidly through the different camps of the nations. Upon the breast of each soldier he pinned a badge or a sign. The next morning the bugles sounded, and the armies were drawn up in battle array. But when the generals gave the commands "Fire!" and "Charge!" not one gun spoke, not one soldier moved. Then the generals began to inquire the cause. They found all the reason. The strange being who the night before went from camp to camp was Jesus Christ. The badge which was pinned upon every soldier's breast was the sign of the cross. Jesus had at last conquered. The sign of fearlessness had at last spoken the guns of war and turned every soldier into an emissary of peace. There is only one way I would change that wonderful dream of the gospel writer. In the last great battle of awful war I would have the members of the Anglo-Saxon race participants. The night before the battle was to open I would have Jesus Christ go through the camp of the Slav, the Malay and all the peoples of the earth, led by a white skinned guide. That guide I would have the kindly, foxen haired Canadian, the guide whom I would call the Anglo-Saxon race. Oh, my brother and sister, by the consecration of your lives and prayers will you not help make this scene possible? Will you not get and now start forth, by God's help, to conquer in the near future the world for Jesus Christ?

Close To Border Line of Life and Death.

Neuralgia of the heart causes sudden death. It is an acute affection of the cardiac nerve, just as neuralgia is of the nerve of the face, usually, and scintilla is of the nerve trunk of the thigh. One of its most frequent symptoms is derangement of the stomach and bowels. Strengthen the heart's action and enrich the blood with Dr. Miles' Heart Cure; tone up the nerves with Restorative Nerve and you will be cured.

Neuralgia of the Heart, Weak Stomach.

Dr. Miles' Heart Cure Cured Her.

Neuralgia of the heart causes sudden death. It is an acute affection of the cardiac nerve, just as neuralgia is of the nerve of the face, usually, and scintilla is of the nerve trunk of the thigh. One of its most frequent symptoms is derangement of the stomach and bowels. Strengthen the heart's action and enrich the blood with Dr. Miles' Heart Cure; tone up the nerves with Restorative Nerve and you will be cured.

WEST.

There will be services in Friendship M. P. Church, Sunday May 17th, as follows: Sunday School at 9.30, and preaching at 10.30 by the pastor, Rev. F. J. Phillips. There will also be preaching at Union 3 p. m. same date.

The first quarterly conference of this circuit was held last Saturday May 9th, in Friendship church. The business was conducted in an excellent christian spirit and the year starts out very encouragingly. Nazareth church, which has been closed, for nearly three years, was represented and made again one of the regular appointments. This church is only three miles from here and makes a good appointment, and it is hoped that the present interest will continue. The pastor's salary was reconsidered and increased.

Rev. F. J. Phillips and wife visited Mr. John H. Connolly and family, of Salisbury on Monday.

Mrs. Aurelia Pusey was at the Peninsula Hospital Monday and was pronounced greatly improved by Dr. Dick. Mrs. Pusey has been in feeble health for two years, and recently took a five weeks treatment, and has been rapidly improving ever since.

Miss Ada Whayland of Salisbury is visiting her aunt, Mrs. Mack Pusey of this place.

Mrs. Amanda Pollit was paralyzed on Wednesday morning, and is very low at present.

The most of our people are very busy at present with strawberries and general farm work.

Our Pastor, Rev. F. J. Phillips, and his wife spent the afternoons of this week with the following families and report a pleasant time. On Tuesday with Mr. and Mrs. Thos. J. Hayman, on Wednesday with Mr. and Mrs. Vaughan S. Hayman, and on Thursday with Mr. and Mrs. S. M. Pusey.

The young people met at the parsonage on Wednesday evening to make arrangements for Children's Service which will be held in June.

The Ladies Aid Society will meet at the parsonage Saturday evening, May 16th. This society seems to be increasing in interest and new members are being added.

COLUMBIA.

Misses Bessie, Clara and Ethel Bradley, three of Sharpstown's popular young ladies, were entertained Saturday evening and Sunday by Miss Gertha Bradley.

Mr. and Mrs. Lannie W. Phillips spent Sunday last with Mrs. Phillips parents, Capt. and Mrs. Wm. Elzey of Sharpstown.

Our farmers are complaining of a bad stand of strawberry plants set this spring. The continued wet weather made them late in getting them out and the dry weather since, has caused many of them to die.

The old fashion mode of planting corn by crossing out land with a plow is now quickly disappearing in the fields of most of our farmers, and is giving way to more improved methods. The land is now marked and planted with hand planters, which can be done in much less time.

Well uncle Josh, "when is it going to rain?" "Don't know, but now pretty soon I reckon, the farmers have cut their scarlet clover."

The foreign strawberry is again with us. The supply for this locality comes principally from Dorchester County. They live in colonies, often as many as thirty in a house, sixteen feet square during berry season. The first shipment of berries this year was made May 9th the earliest in the history of the community. Considerable quantities were shipped this week. The crop of early berries is very short, but late varieties don't seem to have been hurt much by frost, although they are now suffering for rain.

Mr. M. N. Nelson gave quite a swell tea to his gentlemen friends last Wednesday evening, the menu consisting of turtles principally, also ham, chicken, salads, cream, etc.

Do not forget the picnic held in the M. P. churchyard this evening.

Miss Minnie Mille entertained at her beautiful country home in Spring Hill last Sunday as follows: Mrs. M. F. Taylor, Misses Laura Hearn, Viola Anderson and Ella Davis, Messrs. M. F. Taylor, Dr. O. J. Gray, Charlie A. Hastings and Branch Phillips. All report a royal good time.

Shouting Christians.

Some Christians, who formerly shouted, no longer do so. Some never shouted. Some do not approve of it; others are never well, never in buoyant, hopeful spirits, so don't feel like it. Rev. Jas. B. Nash, Yellow Creek, Pa., says: "Victor Liver Syrup is still healing the sick. It seems as if God's blessing is upon it. Listen, women that have been sick for years are now at work and singing God's praises, and men are living a new and happier life. Good reports from the Victor Remedies everywhere." All live Druggists and Merchants keep them.

Use Nitrate Soda for top dressing of Strawberries and Early Tomatoes. Wm. B. TILGHMAN & Co.

THE VALUE OF CYPRESS.

It is the Most Desirable Wood Which Can Be Used.

Cypress in all its ages has been considered the indestructible wood, and a such, used to cover and protect other less durable woods. It is peculiar in the South Atlantic and Gulf States, Pocomoke river swamp, lying chiefly in Worcester county, Maryland, being as far North as it seems to grow and this for more than a century, furnished the principal supply of Cypress Shingles for the Eastern Shore Peninsula, trees growing to enormous size and girth, often a thousand years or more. This virgin growth of matured timber has been practically worked up many years ago, and supplies have been drawn from the swamps of Virginia and North Carolina, which are also being much depleted, and now Florida furnishes the principal supply of virgin growth Cypress. A younger growth, not fully matured, is being largely used but is of short life compared with the old yellow heart which now comes from Florida, where it grows to its greatest perfection.

It is a fact in nature that the durability of timber corresponds to its age, or the time it takes to grow and mature. Pine, for illustration, from an old growth fine grain matured tree, is much more durable than from a young tree, and so with Cypress and Cypress Shingles. And no matter how much care you take in the selection of your materials for your building or how experienced or reliable your mechanics, if you use inferior shingles you make a great mistake.

The covering of a building is the most important part of the materials used in its construction. "The weakest link is the strength of the chain," and "The poorest shingles determine the last of the roof." And it is poor economy to run so great a risk of having a leaky roof, to save such a trifling amount of money. Act wisely and buy best Florida Heart Shingles. For sale by dealers generally.

MARDELA SPRINGS.

Among the many guests who have arrived at the hotel for the summer season are Mrs. J. J. Gheyman, Miss Marcella Gheyman, Newark, N. J.; Mr. and Mrs. Martin, Easton; Miss Hammond, Baltimore; E. Culbert, New York City; D. C. Stanford, Baltimore; E. Butterfield, Boston; L. T. Quillen, Berlin; T. K. Hale, Baltimore.

The Measuring Social held at the M. P. Parsonage on Wednesday evening was well attended and proved quite a success. The proceeds amounted to \$10.

A Good Business Proposition is something that everybody who looks out for their own interest will take time to consider. We have

Several Good Business Propositions to make you, and

Here's the Point

We do business on business principles. When we sell you a pair of shoes they are as good as can be manufactured for the money. People spend most of their time in their shoes, and this fact makes the quality of footwear a question of prime importance. Our proposition to you is to sell you good honest shoes at a price as low as is consistent with good values. We make this proposition to all prospective shoe buyers, fully believing that it is to your interest to do business with us. We have many advantages to offer you as a reason why you should do your shoe buying of us, the first of which is, we are exclusive Shoe dealers and also the largest buyers of Shoes on the Peninsula. We can offer you the largest and most complete stock to select from. We do not have to give you one size when your foot needs another. Our large stock enables us to carry all sizes and widths in stock. We take pains to see that every foot is properly fitted and also to select the proper kind of Shoe to meet the requirement for which it is intended. We have the exclusive sale in this city of all the best known and most popular makes of Shoes. A person is often judged by the company they keep, so is a merchant by the merchandise he handles, and while we stand behind every pair of fair priced Shoes we sell, whether made under some pet name or not. To those who want special lines we can offer such well known ones as the following:

- FOR MEN: The Walk-Over, W. L. Douglas, Crossett's Long Life. FOR BOYS AND GIRLS: The Rice & Hutchins, Burley Stevens & Co., Excelsior. FOR LADIES: Queen Quality, Zeigler Bros., Cinderella, Allnut Moody, Drew, Selby & Co.

All of these are good ones in their class and have reputations established on merit, but the burden of our story is simply Shoes, and not the maker—trust us for that and we will always give you full value for your money or cheerfully refund you the same. Think over our proposition, come and see us and let us more fully explain and show you that we mean business and we feel sure that you will find that our interests are mutual. Yours for Shoes,

L. Hardesty. —Rev. Mr. Gantt will not hold any services in his parish on Sunday, as he will be in attendance on the Brotherhood of St. Andrew at Centerville, of which order he has been a member for many years. —It is rumored that there will be an entertainment at Campbell town on 4th of July. Proceeds for the M. E. Church South. Rev. J. C. C. Newton, Pastor of the M. E. Church South, is expected to deliver a 4th of July Oration Also the Rev John E. White, former Pastor of Berlin charge, is expected to be present. —In a recent visit to Ocean City found a number of visitors at the Seaside, who seemed to be enjoying the salt air and the attractions of the place. Mrs. John Showell has vacated "Ocean Bell" and moved into her quarters at her new appointments where she will furnish attractive rooms, either single or en suite, to people for the summer. —There is most remarkable activity among the Old Media of Berlin. Every evening they gather in some friend's house hold mysterious conferences and indulge in wonderful performances. Am sure this portrays business of import or great fun. Their final rally will be on the evening of Tuesday, June 2nd, when they invite the public to meet them in one of the halls of the town where they will hold "Old Maid's Convention" under the auspices of the ladies of St. Paul's Guild. —Mr. and Mrs. Reoco Peters entered about one hundred of their friends last Saturday evening in commemoration of the 25th anniversary of their marriage. A number of their friends from Phila and their four sons helped to receive and entertain the guests. A large and highly ornate wedding cake graced the board but am not sure that the mystic ring figured therein. A variety of loes, fruits and other things, delectable were spread to the left. —Mr. and Mrs. Peters were the recipients of a number of useful and pretty gifts. All felt the cordial hospitality of their host and hostess and wished them a long and happy life. They reside at Ipswich, once Pointstown. —With but few exceptions, cases of only minor importance will be presented at this May term, who opened Monday with Judge Holland presiding. The following cases have been disposed of: —The John W. Parker vs. Wm. Hudson, damage to building. Verdict for plaintiff, \$3 99. —L. E. Parsons vs. Godfrey Manufacturing Co. Replevin case. Verdict for plaintiff, \$100. —James Jones for defendant. —John J. Collins vs. David Hudson. Suit for rent. Verdict for plaintiff. —Kerbin for plaintiff, Jones for defendant. In this case the Court held that the tenant must give the landlord notice to give the landlord notice you "may believe when you please" does not relieve the tenant from giving notice.

OCEAN CITY.

The warm weather which still prevails is beginning to bring quite a number of strangers to our resort by the sea for health and comfort. Mr. W. H. Gordon and family of Annapolis, Md., for Mr. Jno. F. Waggoner at his country residence and returned home Saturday of last week. Messrs. A. J. Wyatt and John L. Quillin have completed their work at Annapolis, Md., are the guests of Mr. Wm. McKew at the Seaside Hotel this week. Mrs. E. M. Scott and sister, Miss Carrie Trimmer, are spending a few days of this week in Baltimore shopping. Mr. Chas. H. Powell, of Jones, Md., who for several years has been a resident here is with us again for the season. We are glad to have Mr. Powell in our midst. Mr. Jno. C. Baker and Lemuel Wyatt who are employed at Annapolis paid their families a short visit, returning to their work again on Monday of this week. Mr. Jema B. Taylor, one of our former residents was in town one day last week on business. Mr. Henry Godfrey and family and Mr. Gordon Marshall of Berlin were visitors to friends here Sunday. Mr. and Mrs. Wm. T. Taber, of Frankford, Pa., are with us again for the season and will as usual reside at their cottage here. At present they are the guests of Mr. Wm. McKew at the Seaside Hotel. Mrs. Dashiell, of Baltimore, Md., is down preparing for the summer season. She was proprietress of Wetpign cottage here last season. Nasal catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. A remedy for Nasal Catarrh which is drying or exciting to the diseased membrane should not be used. Cream Balm is recognized as a specific. Price 50 cents at druggists or by mail. A cold in the head immediately disappears when Cream Balm is used. Ely Brothers, 56 Warren Street, New York. Mrs. Sarah Purnell has rented the Isle of Wright cottage here and will enter therein at an early date and will be prepared for the accommodation of guests. We trust Mrs. Purnell will receive the patronage of quite a large number of guests from Baltimore and Washington as well as from all the vicinity. She is quite well known as a Hotel proprietress.

THE VALUE OF CYPRESS.

It is The Most Durable Wood Which Can Be Used. Cypress in all its ages has been considered the indestructible wood, and a such, used to cover and protect other less durable woods. It is peculiar in the South Atlantic and Gulf States, Pocomoke river swamp, lying chiefly in Worcester county, Maryland, being as far North as it seems to grow and this for more than a century, furnished the principal supply of Cypress Shingles for the Eastern Shore Peninsula, trees growing to enormous size and great age, often a thousand years or more. This virgin growth of matured timber has been practically worked up many years ago, and supplies have been drawn from the swamps of Virginia and North Carolina, which are also being much depleted, and now Florida furnishes the principal supply of virgin growth Cypress. A younger growth, not fully matured, is being largely used but is of short life compared with the old yellow heart which now comes from Florida, where it grows to its greatest perfection. It is a fact in nature that the durability of timber corresponds to its age, or the time it takes to grow and mature. Pine, for illustration, from an old growth fine grain matured tree, is much more durable than from a young tree, and so with Cypress and Cypress Shingles. And no matter how much care you take in the selection of your materials for your building or how experienced or reliable your mechanic, if you use inferior shingles you make a great mistake. The covering of a building is the most important part of the materials used in its construction. "The weakest link is the strength of the chain," and "The poorest shingles determine the life of the roof." And it is poor economy to run so great a risk of having a leaky roof, to save such a trifling amount of money. Act wisely and buy best Florida Heart Shingles. For sale by dealers generally. Interchangeable 1000 Mile Refund Tickets. Commencing June 1, 1908, interchangeable 1000-Mile Refund Tickets will be placed on sale, limited to one year from date of issue, good only for transportation of the owner, with usual free allowance of 150 pounds baggage, over any of the following lines:— BALTIMORE AND OHIO RAILROAD, (Between all points east of Ohio River and between Pittsburg and Kane. Also to and from points on Philadelphia and Reading Railway and Central Railway of New Jersey between Philadelphia and New York.) CHESAPEAKE AND OHIO RAILWAY, (East of and including Huntington.) DELAWARE, LACKAWANNA AND WESTERN RAILROAD. (East of and including Jamestown and Suspension Bridge.) LEHIGH VALLEY RAILROAD. PENNSYLVANIA RAILROAD. These tickets will be sold at rate of \$30 00 each; subject to refund of \$10.00 on surrender of cover to Trunk Lines Mileage Ticket Bureau, No. 148 Liberty Street, New York, at any time within eighteen months from date of purchase. This form of ticket will be issued in deference to requests of numerous patrons of the lines in interest desiring one ticket good over several lines instead of having to provide themselves as at present with a separate ticket for each line they desire to use. Agents at principal stations of the railroads named above will have these tickets on sale and give all further information regarding them that may be required. Our Friends, the Druggists. FOR WOMEN

Much That Every Woman Desires to Know About Sanative Antiseptic Cleansing And About Curing Ulcerative Pains and Weaknesses. Too much stress cannot be placed on the great value of Cuticura Soap, Ointment and Pills in the antiseptic cleansing of the mucous surfaces and of the blood and circulating fluids, thus affording pure, sweet and economical local and constitutional treatment for weakening discharges, ulcerations, inflammations, itching, irritations, eruptions, displacements, pains and irregularities peculiar to females. Hence the Cuticura remedies have a wonderful influence in restoring health, strength and beauty to weak women, who have been prematurely aged and invalidated by these distressing ailments, as well as such sympathetic afflictions as anemia, chlorosis, hysteria, nervousness and debility. Women from the very first have fully appreciated the purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy which have made the Cuticura Soap, Ointment and Pills the standard skin cures and humor remedies of the civilized world. Millions of the world's best people use Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing rough and pore hands, in the form of baths for soothing irritations, inflammations and ulcerative weaknesses, and for many sensitive, antiseptic purposes, which readily suggest themselves, as well as for all the purposes of the toilet, bath and nursery. Miss Razzle-dazzle

By BALDWIN SEARS

Copyright, 1912, by the S. S. McClure Company

She was insignificantly small and plain. You could never remember what she looked like long enough to describe her nor forget her long enough to be indifferent as to how she looked. The others were always arguing about the color of her eyes—eyes that were blue with sympathy, gray with sadness, green with mischief, brown with indifference and black, fire sparkling with anger. John Strange vowed that they were "thunder and lightning color" at that unlucky moment on the pier when he said, with a laugh:

"Miss Dazzle! Razzle-dazzle suits her better. I don't believe she ever had a serious thought. She's just a little feathery, frothy, spangled speck of humanity meant to amuse people. Razzle-dazzle! Why the name's just made for her." And he went off to sit beside Laura Lewiston and be consoled.

Laura laughed with him, of course, and by night the other girl was epitomized in John's idle words. What a name it was! Deliberately daring! Some of the girls—those who had not had cause to fear her—envied it. "You can see that she's rather proud of it," they said as she sang and laughed and danced and flirted and kept herself on the crest of the wave by main force of pride.

"Razzle-dazzle! Razzle-dazzle!" How the name stuck and stung! How she hated John Strange! She rowed and rowed recklessly away out past Tragedy rock, with its jagged teeth under their playful foam. The strange yacht went past, and Razzle-dazzle saw Laura's scarf snatched from her hand and flung by the insolent wind on the topmost twig of the old gnarled tree on the rock.

"Razzle-dazzle!" she laughed as she saw it and heard the outcry. There was a spark in her eyes that afternoon as she listened to Laura's plaint that she would not have felt so had "had it not been a gift, you know."

"But you surely expect to get it back!" exclaimed Razzle-dazzle in great surprise. "Why, any stupid fable in your would go after it for 5 cents—that is, if nobody else dares." And she looked at John as he sat playing with Laura's glove.

John laughed easily. "I'm afraid that your brave fisher boys will ask a trifle more for the trip to the top of the rock," he said, looking up at Laura.

Razzle-dazzle smiled too. "As I shall expect no reward but the fun of the

WITH A SHEDD OF DREAM HE FLUNG HIS HEADLONG OVER THE EDGE.

thing, perhaps Miss Lewiston will allow me to get it for her," she drawled as she tossed her golf ball to the dog.

"It is kind of you," answered Laura sweetly, "but Mr. Strange has promised to get it himself." The blue eyes met the green ones for a moment, then smiled confidently at John.

"I knew you meant to get it," she said when they were alone. "I couldn't resist that little prick at her ladyship's side."

John kissed her hand in silence. He felt like a fool, however, as he left the hotel alone a little later, went across the fields, stole a boat from a private beach, and rowed quickly out of sight across the bay. It was a nasty job on such a day. Though it was low tide, he could see the froth on the bowlders at the foot of the crag. He ran the boat between two rocks and sprang up the path leading to the top of the cliff, where, beckoning out over the water, the red silk scarf fluttered tauntingly.

John laughed as he maneuvered toward it. "It would have been more the Razzle-dazzle to have lost it here, where no one on earth can get it. I don't see how I can." He drew himself farther over the edge, clinging by one hand to a projecting angle of rock

as he stretched forward. "I wish that girl had kept still," he added angrily as a gust of wind snatched the loose end of the scarf out of his reach. "There, Miss Razzle-dazzle. I hope you'll be satisfied."

As he uttered the order, clutching the silk, the point to which he had been clinging loosened, and with a shout of dismay he plunged headlong over the edge and fell, slipping, struggling, sliding, to the rocks below.

There was a long silence after the loose stones had ceased falling. Then the wounded man stirred, groaned and fell back. For awhile he lay quiet, striving to think clearly. All at once he started. A rill of cold water slid under him and out again. He had forgotten the tide. With infinite pain he dragged himself to the spot where his boat should have been. Already it had courted far beyond his reach. Overhead the gulls were started by peals of laughter that rang round the craggy island—hysterical laughter and shouting as John, exhausted by desperate efforts to climb above the swift rising tide, signaled vainly to a fishing boat that passed just before the increasing wind. Then night came, and the wind whined to him.

John was not afraid of death, but there were some things he was sorry for, things he would have changed had he known. He wished he had not been so unkind to little Razzle-dazzle; he hoped Laura would not blame her now; he wished—no, after all, it was better that he had not spoken, better that it had ended as it did. Laura was only amusing herself after all, as he had started to do. She would regret him very little—not enough to spoil her winter. How differently Razzle-dazzle would feel for any one she loved! He smiled, as every one smiled when thinking of her. Gradually his past stood out in perspective, and he understood it. Her dark eyes looked at him, blue and forgiving. "She was the real sort," he said to himself, as if life were all over for her too. He sighed, lifting himself by instinct as high as he could in the rising water. Every wave broke over him now. The foam looked like sea faces come up to stare at him. "I hope little Razzle-dazzle would think this the right sort of courage."

What was that? Had some one called? He started, listening. Above the plunge of water, "John, John!" clear, low, as if in whimsy of entreating him. Laura, could it be? And yet who else? He listened, in his tense eagerness forgetting to answer, fearful that a motion would dispart the strangely sweet fancy.

"John! O-o-o-h, John! Where are you, John?" And Razzle-dazzle's face, eager, passionately searching and striped of all its scorn, glimmered out of the darkness close at his side.

"Don't say you love me because—just because I—have"—she began in a harsh, gasping sob when he tried to tell her. "If you knew how I had wanted you to die, and then I had to come after you, because—because—oh, you mustn't forgive me! Hate me! I deserve it!"

But John laughed even there. "If I should hate the one who loved me enough to risk her life for mine, what can I give the one who loved me only well enough to risk my life for this bit of silk?"

And the scarf itself was the answer.

Abundances of Lovers' Language.

Lovers have a language of their own. "I would I were thy bird," sighs Romeo.

"Sweet, so would I," returns Juliet, "yet I should kill thee with much cherishing."

From the sublime to the ridiculous: "Plumpetty itty partridge, who does 'oo love?' demands a stricken swain of his innamorata in one of Marion Crawford's novels.

"Zoo!" returns the fat little woman, with a smile which, in the author's graphic words, "went all around her head like the equator on a globe."

This sort of thing is all very well when the bride is a rosy little dumpling of a woman. The worst of it is that engaged couples of every age and of the most unromantic appearance adopt the same style.

"What shall I call you, my dearest own?" asks an Adonis of fifty, gazing with yearning tenderness on his bride.

"Call me Birdie, nothing but Birdie!" chirps the lady whose weight might turn the scale at 200 pounds, as she nestles lovingly to his side.

And so on ad infinitum, we will not say ad nauseam, till the soul of the unregarded old curmudgeon of a bachelor within hearing turns faint within him.—Exchange.

Gargantuan Colored Toucans.

It is more especially the gaudy coloration of the toucans which renders them most typical in many ways of the habits and manners of the larger fruit eating birds. Flower haunting and fruit eating creatures, such as butterflies, humming birds, cockatoos and lories, almost always develop in the long run a marked aesthetic taste for pure and brilliant colors, which reacts at last through sexual selection on their own appearance.

Accustomed to seek their food among bright tropical blossoms or gaudy southern forest fruits like mangoes and star apples, these feathered warblers acquire a hereditary love for color which influences them, in the end in the choice of their own brilliant mates and so secures the perpetuation of the most beautiful and most gorgeous of their kind by unconscious selection. And in this respect the toucans are absolutely unsurpassed in the whole range of nature. Their large and richly colored bills, their delicate breast plumage and their bodies generally present a variety of melting tints and contrasted hues nowhere else to be found in equally close display on any other animal.—Cornhill Magazine.

A Little Early Riser

now and then, at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early Riser is the famous little pills that cure by arousing the system, moving the bowels gently, yet effectively, and giving each one strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by all druggists.

Miss Alice Bailey, of Atlanta, Ga., tells how she was permanently cured of inflammation of the ovaries, and escaped the surgeon's knife, by the use of Lydia E. Pinkham's Vegetable Compound.

The universal indications of the approach of woman's great enemy, inflammation and disease of the ovaries, are a dull throbbing pain, accompanied by a sense of tenderness and heat low down in the side, with occasional shooting pains. On examination it may be found that the region of pain will show some swelling. This is the first stage of inflammation of the ovaries.

"DEAR MRS. PINKHAM:—I wish to express my gratitude for the restored health and happiness Lydia E. Pinkham's Vegetable Compound has brought into my life.

"I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it inflammation of the ovaries, and proposed an operation. I felt so weak and sick that I could not survive the ordeal, and so I told him that I would not undergo it. The following week I read an advertisement in the paper of your Vegetable Compound in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, so I kept taking it for ten weeks, and at the end of that time I was cured. I had gained eighteen pounds and was in excellent health, and am now.

"You surely deserve great success, and you have my very best wishes."—Miss ALICE BAILEY, 50 North Boulevard, Atlanta, Ga.

Another woman saved from a surgical operation by Lydia E. Pinkham's Vegetable Compound. Read what she says:—

"DEAR MRS. PINKHAM:—I cannot thank you enough for what your Vegetable Compound has done for me. If it had not been for your medicine, I think I would have died. "I will tell you how I suffered. I could hardly walk, was unable to sleep or eat. Menstruation was irregular. At last I had to stay in my bed, and flowed so badly that they sent for a doctor, who said I had inflammation of the ovaries, and must go through an operation, as no medicine could help me, but I could not do that.

"I received a little box of yours, and after reading it, I concluded to try Lydia E. Pinkham's Vegetable Compound, and I am now a well woman. I shall praise your medicine as long as I live, and also recommend the same to anyone suffering as I was."—Mrs. MINNIE OTTOSON, Otha, Iowa.

All sick women would be wise if they would take Lydia E. Pinkham's Vegetable Compound and be well.

THE GATEWAY OF THE SUN

And a Few Pointers Regarding Hotel Charges in Spain.

"This," said mine host of the Hotel de Paris as he led us into a suite of rooms on the noble floor—"this," said he as he shot the heavy iron bolts and bars which fastened the prisonlike Spanish windows—"this," said he as he flung open the ponderous shutters with rattle and clank and clang—"this is the Puerta del Sol."

It was indeed the Gateway of the Sun. As I gazed upon it I gasped. Another illusion gone.

Our host looked scrutinizingly into our faces that he might note the effect upon us of this imposing sight. By the way, the relations between our host and ourselves were slightly strained. We had insisted, leaving our luggage on top of the coach until we had found rooms to our liking. Leaving one's luggage in that way usually has an excellent moral effect on continental hotel keepers. They always begin by showing you their highest priced rooms, including a magnificent and funereal "salon"; then, if your luggage has been brought up, they insist there are no other rooms. Therefore it is well to leave your luggage on the coach and if the rooms are not to your liking go to another hotel.

But we had struck a haughty Castilian host with the soul of a Hidalgo. He did not like the caution shown by our failure to bring in our luggage, and he plainly showed it by his manner. So he attempted to crush us by the magnificence of the Puerta del Sol.

I gazed upon the Gateway of the Sun. I saw before me a shabby square surrounded by dingy buildings. In front of these dingy buildings there lolled, lounged, lay and sat dingy idlers and shabby beggars. Upon the surface of the square one saw no tree, nor shrub, nor patch of green, only a large expanse of dingy pavement. It was strewn with old newspapers, cigarette stumps and orange skins. Over the shabby bosom of the square glided dingy, shabby tram cars. And this was the Gateway of the Sun.

"How much?" said I to our host.

"How much a day, senior, for these rooms—the whole business—everything included—todo compreso—tout compris?"

Our host rubbed his hands together and replied slowly, "Thirty pesetas."

"For two persons?"

"No," replied the host in an explanatory tone, "per person."

"Then that makes 60 pesetas," I remarked.

"Yes, 60 pesetas—tout compris—everything included."

"Does it include service?"

"N-o-o-o," replied our host. "Service is extra—it will be 1 1/2 pesetas."

"For both?"

"N-o-o-o—per person."

"That makes 3 pesetas more. Does it include light?"

"Yes," said the host briskly, "light included."

"Candles or electric light?"

"I meant candles," admitted the host.

"Then the electric light is extra?"

"Yes, but it is only half a peseta per day."

"For two persons?"

"N-o-o-o," admitted the host, "1 peseta for two persons."

"That makes 65 pesetas instead of 30," said I. "Is there anything else to be added in this tout compris? Do you charge anything for the view of the Puerta del Sol?"

The host's blue blood rose. "Evidently, senior," he said stiffly, "you do not desire these rooms. I will therefore withdraw them from your consideration." And he stalked away in dudgeon.

We subsequently inquired on our haughty host the pain of seeing the brass bound meal of his rival across the square before our belongings away to the Hotel de la Paz, where we soon were very comfortably housed.—Jerome Hart in Argonaut.

THE COST OF SEA SPEED.

It is easy to build a record breaking ocean steamship. The problem is who is to pay the bills. Two new Cunarders are to be built to attain a speed of 25 knots. The company could not afford to build such ships and run them in the dull season. The British government consequently is helping out.

To build two 25 knot merchant ships costs over \$10,000,000. Great Britain advances every cent of this money and permits the Cunard company to repay it in twenty years, with interest at 2% per cent.

To run such a ship with 52,000 horse power means burning 1,000 tons of coal a day and other expenses in proportion. But besides a generous mail subsidy Great Britain is to pay \$750,000 per year to the Cunard company for the privilege of carrying the two ships on the naval reserve list, thus having an option on their use in war time.

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that catarrh of the stomach is not a disease of itself but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrh of the stomach. Kodol digests what you eat—makes the stomach sweet. Sold by all druggists.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

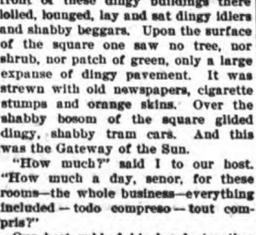

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a booklet telling more about Swamp-Root and how to find out if you have kidney or bladder trouble.

When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and one dollar sizes are sold by all good druggists.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

LIQUOR QUESTION.

The question of license or no license, like a spectre, has again entered our midst and as quickly vanished.

This subject has been agitating the minds of citizens of Salisbury Election District, and, more correctly speaking, the thought of the citizens of the three adjoining Election Districts for the past year, and it reached a climax when it was presented to the Commissioners of Wicomico County Thursday for their consideration.

We do not mean to speak disparagingly of the judgment of that honorable body when we say they were placed in a very embarrassing position on account of the legal complications in the question before them.

Their duties are to act as a body of business men and not as Judges of the law.

Speeches, radiant with eloquence and logic, were delivered; law in all its intricacy was read, conflicting as it might appear even to a judicial mind trained in its interpretation; persuasion in all its power; and public opinion, with all that it implies, were turned loose upon this honorable body.

While this "Act of the Assembly" imposed upon the Commissioners a duty of a legal as well as of a business character, and their work being more particularly of the latter, it is but right and just to them to say that, if they entertained any doubts as to their authority or power in the matter before them, they were public servants and should execute the will of their constituents.

The applicants have a proper redress and are consequently not injured or bound by their decision. If this is not true and the Commissioners did not exceed their powers under the Act of the Assembly then the applicants should not feel aggrieved and the Commissioners should appreciate the facts that they were simply the servants of the people and executed their will.

OUR TRADE RELATIONS.

The alarms which have been sounded during the past two years regarding the trade relations between the United States and certain other countries of the world find no justification in the figures of our commerce up to this time.

This is especially marked in the figures of our trade relations with Russia in the present fiscal year. The latest figures of the Bureau of Statistics are for the 9 months ending with March.

In the case of Austria Hungary the growth is in both imports and exports. Our imports from Austria Hungary

In the nine months ending with March were larger than any other corresponding period of our commerce with that country, and double those of the same period in 1895, 1898 and 1899.

In our commerce with Germany the record of the nine months ending with March shows larger imports and exports than in the same period of any preceding year.

—Consternation has been caused in the Census Bureau by the announcement that on July 1 one hundred clerks will be dropped from the rolls.

Night—Songs.

How grand is the night! When the day is done the stars come forth with their silver torches to guide the shadows over the long path of the evening skies.

The night also has its songs. Whippoorwill and cricket and katydid and frog, in their appointed seasons, freight the air with their varying notes.

Said one of God's olden servants, "I call to remembrance my song in the night." What a pleasing reminiscence he must have had! Far better was it for him to engage in that sort of recollection than to sit down, as so many do, and count his past griefs.

Such is the meaning of the expression "song in the night." The word "night" is emblematic of trouble. So is the word "song" typical of consolation.

Have you never tested the power of song? How it soothes the weary nerves! How it composes the ruffled brain! How it quiets the aching heart! It is a needle that has sown the seeds in many a torn life.

Why, however, should there be any night in the life of a child of God? When the sun of heavenly grace rises upon a new born soul, why should that sun ever set? Why not have golden days all along the pilgrimage, until we pass into the glories of the celestial city?

These are not hard questions to answer. Show me a Christian who has never walked a shaded path, and I will show you a Christian whose character is imperfectly developed.

These are not hard questions to answer. Show me a Christian who has never walked a shaded path, and I will show you a Christian whose character is imperfectly developed.

couvetness from that old-time Lebanon cedar. Trouble has given us a full length portrait of one who could say in the midst of the most appalling tribulations, "Though He slay me, yet will I trust Him." Simon Peter was sifted as wheat, but when the sifting was over there was no chaff in the sieve.

So throughout all sorest history and all pious experiences of every age the noblest saints have been those whose fine features of soul, were developed by trouble, just as the statue of the sculptor grows into beauty and symmetry under the keen edge of the chisel and the heavy stroke of the mallet.

Thus is Christian character better evolved, not in the flashing beams of prosperity but in the shadows of disappointment or sorrow.

Yet God does not leave His children entirely in the dark. Up along the vault of the sky He kindles the stars of the promise. These orbs give signs in the night. Did you never hear that sweet note, "I will be with him in trouble?"

Let such memories be with every Christian, until the last grave opens, and the last sorrow sheds its tears, and the last tribulation has brought its iron heel upon the heart, and the last night of pain lifts its gloom into the rosy daybreak of heaven. There shall be no night there!

WILLIAM HENRY BANCROFT.

Gaming at Monte Carlo. Sir Hiram Maxim has been investigating Monte Carlo. Quoting the words of M. Blanc, the organizer of the bank, "rouge gagne quelque-fois, noir souvient, mais blanc toujours," he says that in the long run the best of systems can do little more than reduce the loss which is eventually inevitable owing to the heavy percentage in favor of the bank.

Venezuela. Venezuela has a larger area than the combined areas of the great states of Texas, Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Oklahoma and Arkansas. In figures its area amounts to about 600,000 square miles.

Why, however, should there be any night in the life of a child of God? When the sun of heavenly grace rises upon a new born soul, why should that sun ever set? Why not have golden days all along the pilgrimage, until we pass into the glories of the celestial city?

These are not hard questions to answer. Show me a Christian who has never walked a shaded path, and I will show you a Christian whose character is imperfectly developed.

The wounded man was later sent to his home in Somerset county. It is thought he will recover. No arrests have been made."

—The Third Tri Diocesan Convention of the Brotherhood of St. Andrew will be held at Centerville on Saturday and Sunday, May 23rd and 24th. Churchmen who are members of this order will be gathered from every church in the state and from the cities of Baltimore and Washington, causing this convention to be the largest ever held in the church on the Eastern Shore. Important subjects will be discussed. Bishop Adams will deliver the charge. Rev. M. Gantt of Berlin is chosen of the clergy to make an address at the Mass Meeting on Saturday night on the subject of "The Rule of Prayer."

—The United States Court of Appeals, in an opinion Tuesday, held that the Pennsylvania Railroad had a legal right to remove the poles and wires of the Western Union Telegraph Co. from along the railroad's right of way. The decision affirms a judgment of the Western Pennsylvania United States Court and reverses a judgment of the New Jersey United States Circuit Court. The Pennsylvania Court refused to grant the petition for an injunction sought by the Western Union Telegraph Co. against the Pennsylvania Railroad, and the New Jersey Court granted the injunction.

TALMAGE SERMON

By Rev. FRANK DE WITT TALMAGE, D.D., Pastor of Jefferson Park Presbyterian Church, Chicago

Chicago, May 17.—In this discourse man, the debtor, is shown in his true relation to his Divine Creditor, to whom he owes not only a full and grateful acknowledgment of immeasurable obligation, but such a loyal and loving surrender of his life and actions to the divine will as shall prove the genuineness of his professions.

Many people talk as if this world was full of rogues. I do not believe any such charge. There is more honesty in the world than it gets credit for. Indeed, it is my belief that most people are honest, that most people want to do right.

But in another sense, my brother, your answer is wrong.

Though most of us may be healthy, yet there was a time when nearly all well persons were sick, and awfully sick. We know what it is to have pneumonia or typhoid fever or appendicitis.

Oh, said a poor laborer to a missionary one day, "I do not owe any debt to God. He has done nothing for me." "Nothing for you?" exclaimed the missionary. "Would you be willing, poor as you are, to take a million dollars cash for your two eyes?"

relieve the destitute or lift the burden from the weary shoulders.

A big bill for church privileges I find charged against us all in the divine ledger. Why all? Because the church of Jesus Christ is not, as some people suppose, a small building dedicated for a few rabbis and Pharisees and a place in which are to be gathered a few Sunday school scholars.

The church of God is the greatest champion of human rights of the present day. Some years ago I sat in Cooper's Institute at a great mass meeting, Robert G. Ingersoll was one of the speakers. During his address he hurled at the audience this stinging sentence: "The reason I despise the church of God is because it blocks every wheel of progress."

THE FORD'S BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney disease. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure.

THE CHURCH OF GOD IS THE GREATEST CHAMPION OF HUMAN RIGHTS OF THE PRESENT DAY.

The church of God is the greatest champion of human rights of the present day. Some years ago I sat in Cooper's Institute at a great mass meeting, Robert G. Ingersoll was one of the speakers. During his address he hurled at the audience this stinging sentence: "The reason I despise the church of God is because it blocks every wheel of progress."

But though the divine debt for food and raiment may be very great, are you going to try to cancel it by merely estimating, dollar for dollar, how much the beefsteaks and the chops and the potatoes and peas and barrels of apples and the garments have cost? Oh, no.

Suppose your father and mother died thirty years ago and left you penniless. Suppose at that time you should have gone to a foundling home and been adopted and reared you as my son, what would be the result? Would you estimate the sacrifices I have made for you by the dollar and cent measure?

Grip

Shattered My Nervous System. Stomach Deranged. Liver Dormant. Dr. Miles' Nervine Cured Me Completely.

A slight cold in the winter with fever, headache, backache when the nose runs and the eyes water and a soreness seems to permeate the marrow of the bones; this is the beginning of Grip's deadly grasp.

The last week in January I contracted LaGrippe and was confined to my bed for five weeks. My nervous system was completely shattered, stomach badly deranged and liver in an almost dormant condition.

SEVERE ATTACK OF GRIP. Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I suddenly cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it not only to be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by all dealers.

Trains on the main line of the B. & O. more and Ohio now run around Henry's Tunnel which is being rebuilt and enlarged. This was the first great railroad tunnel ever constructed for any railroad. Before it was opened about 70 years ago, the tracks led around the hill and the old roadbed is used for the rails for this temporary service. A temporary bridge over the Patuxent was also constructed.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by all druggists.

The old mansion house on the West-over farm, now owned by Mr. Frederick Baldt, is being remodeled and thoroughly renovated. A large force of carpenters have been engaged in the work for several weeks past. The old house is of brick, and was erected a century or more ago. It is stated that the owner expects to expend \$10,000 or more on the building.

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

At a special election on May 11 an almost unanimous vote was cast in Hyattsville in favor of granting a franchise to the Northern Electric Lighting Company of New York. To install an electric lighting plant in that town. The mayor and council met later in the evening and granted the franchise and work will be started at once.

Disastrous Wrecks.

Carelessness is responsible for many a railroad wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass. is one of the many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases by all Druggists. Price 50c. and \$1.00. Trial bottles free.

The Oakland Wollen Mills in Freedom district, Carroll county, have closed down for two weeks pending repairs, and the public road between that point and Glyndon, over which the raw material is hauled to the mills, is being repaired by the mill hands.

Mr. Joseph Pomaville, of Stillwater, Minn. after having spent over \$2,000 with the best doctors for stomach trouble without relief, was advised by his druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and it is a well man today. If troubled with indigestion had taste in the mouth, lack of appetite or constipation, give these tablets a trial and you are certain to be more than pleased with the result. For sale at \$25. per box by all dealers.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. For sale by all dealers.

CASTORIA For Infants and Children. The Kind You Have Always Bought.

Bears the Signature of Chas. H. Fletcher.

Letter to John Nelson.

Dear Sir: Here's an interesting story about you. We give you the name of the story-teller; write him and find out all about it.

Mr. John Nelson, grocer, of Girard, Penn., painted his house with Devos Lead and Zinc paint. He thought it expensive, but he bought it. After finishing the job, he brought back nearly half the paint and said it was the cheapest job of painting he ever did.

Write to Mr. Burt Young and Mr. E. H. Hiler of the same place. Also to Mr. H. H. Stephenson, Cashier of Oil City (Pa.) Savings Bank.

It is the cheapest paint in the world because it is all paint. It covers most surface to the gallon, and it wears longest. There's going to be a lot of this paint used in Salisbury. When it gets a foothold, it never lets up; and the painter who uses Devos Lead and Zinc is going to save money for his patrons.

Yours truly, F. W. DEVOS & Co., New York. P. S. L. W. Gunby sells our paint.

Cornelius Arts, of Hagerstown, in cleaning out an old well, found several horse shoes which had been placed there in 1863 to hide them from the Confederate troops. The well was then dry, but it has never gone dry since, now having about 16 feet of water in it. The horse shoes are in a perfect condition save a thin coat of rust.

Terrible Facts. One sixth of the deaths from disease are due to consumption. Ninety eight per cent. of all those who have used Dr. Pierce's Golden Medical Discovery for "weak lungs," have been perfectly and permanently cured. Cornelius McCawley, of Leesburg, Armstrong Co., Pa., had in all eighty-one hemorrhages. He says: "My doctor did all he could for me but could not stop the hemorrhages, and all gave me up to die with consumption." What doctors could not do, "Golden Medical Discovery" did. It stopped the hemorrhages and cured their cause. This is one case out of thousands investigated.

Free. Dr. Pierce's great work, The People's Common Sense Medical Adviser is sent free on receipt of stamps to pay cost of mailing only. Send 31 one-cent stamps for paper covered book, or 81 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Mrs. Alexander Jewell, who lives on the Dr. Holton farm, near Corsica Neck has a curiosity in the shape of a young turkey. It has four perfectly formed legs and feet and is in a healthy condition. Mrs. Jewell is making special effort to raise the chick, and her prospects for doing so are certainly flattering.

Not A Sick Day Since. I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility. This is what B. F. Bass, of Fremont, N. C. writes. Only 60c. at all druggists.

George A. Mahring, of near Kump, recently plowed up a round shell weighing eight and three-quarter pounds from an old fence row. It is said that the shell was carried from the Gettysburg battlefield and afterward buried along this fence in order that it might not be accidently exploded.

Grip Remedies in Great Demand. When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDuff, Va., says that he was cured of a very deep and lasting attack of la grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by all druggists.

Maryland would have lost almost four feet of valuable farm land running many miles along the northern border of Washington county if the survey of the Mason and Dixon Line made by Engineer Martin and his surveying force had been accepted. Saturday they were in the vicinity of Middleburg and were unable to find the stone marker at the place called for by the theodolite. They began digging in a circle and found the marker about four feet north of the point that instrument for. They quit work and are waiting instructions from Washington.

There is more catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure by local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & Co., Toledo, Ohio. Sold by druggists 75c. Hall's Family Pills are the best.

Paine's Celery Compound Cures DYSPEPSIA, INDIGESTION, AND STOMACH TROUBLES.

The tortures and evils of dyspepsia and indigestion are experienced by thousands at this time. The dyspeptic's train of evils may be enumerated as follows: feelings of dizziness, languor, nervousness, sleeplessness, headache, distention of the stomach, loss of flesh, difficult breathing, and the action of the heart is seriously affected.

All forms of dyspepsia are quickly banished by the use of Paine's Celery Compound. The use of this marvelous medicine stops the inflammation of the nerves centered about the stomach; it opens up the sewers of the body and removes all waste matter; it cleanses the blood; it makes new nerve fibres; it restores digestive power, and promotes bodily strength and activity. Mr. Fred. Scam, of Cleveland, Ohio, briefly writes about his happy experience with Paine's Celery Compound as follows:— "It gives me great pleasure to testify to the merits of Paine's Celery Compound. I can candidly and honestly say it is the best medicine in the world. Two years ago I was suffering from indigestion and nervousness, and was so run down that I could hardly walk without help. I used two bottles of Paine's Celery Compound and got better almost from the first dose, and have had no use for medicine since. I was completely cured."

Shouting Christians.

Some Christians, who formerly shouted, no longer do so. Some never shouted. Some do not approve of it; others are never well, never in buoyant, hopeful spirits, so don't feel like it. Rev. Jno. S. Rush, Yellow Creek, Pa., says: "Victor Liver Syrup is still healing the sick. It seems as if God's blessing is upon it. Listen, women that have been sick for years are now at work and singing God's praises, and men are living a new and happier life. Good reports from the Victor Remedies everywhere." All live Druggists and Merchants keep them.

A Good Business Proposition

is something that everybody who looks out for their own interest will take time to consider. We have

Several Good Business Propositions
to make you, and

Here's the Point

We do business on business principles. When we sell you a pair of shoes they are as good as can be manufactured for the money. People spend most of their time in their shoes, and this fact makes the quality of footwear a question of prime importance. Our proposition to you is to sell you good honest shoes at a price as low as is consistent with good values. We make this proposition to all prospective shoe buyers, fully believing that it is to your interest to do business with us. We have many advantages to offer you as a reason why you should do your shoe buying of us, the first of which is, we are exclusive Shoe dealers and also the largest buyers of Shoes on the Peninsula. We can offer you the largest and most complete stock to select from. We do not have to give you one size when your foot needs another. Our large stock enables us to carry all sizes and widths in stock. We take pains to see that every foot is properly fitted and also to select the proper kind of Shoe to meet the requirement for which it is intended. We have the exclusive sale in this city of all the best known and most popular makes of Shoes.

A person is often judged by the company they keep, so is a merchant by the merchandise he handles, and while we stand behind every pair of fair priced Shoes we sell, whether made under some pet name or not. To those who want special lines we can offer such well known ones as the following:

FOR MEN: The Walk-Over, W. L. Douglas, Crossett's Long Life.

FOR BOYS AND GIRLS: The Rice & Hutchins, Burley Stevens & Co., Excelsior.

FOR LADIES: Queen Quality, Zelqier Bros., Cinderella, Allnut Moody, Drew, Selby & Co.

All of these are good ones in their class and have reputations established on merit, but the burden of our story is simply Shoes, and not the maker—trust us for that and we will always give you full value for your money or cheerfully refund you the same. Think over our proposition, come and see us and let us more fully explain and show you that we mean business and we feel sure that you will find that our interests are mutual. Yours for Shoes,
