THE PEACH CROP thus far is safe, and bids fair to be the largest for many years.

REV. M. P. FROG will preach in the Methodist Episcopal Church to-morrow morning.

THE heaviest game of base ball of the season was played on Pea Hill last Thursday between the "fat" and "lean" nines. The "lean" nine were triumphant.

STRAWBERRY PLANTS are beginning to blossom. The prospect for an abundant crop of berries never was better. Success, we say, is the result of the following: "In the morning sow thy seed, and in the evening withhold not thy hand."

TEMPERANCE MEETING.—A temperance meeting will be held in the M. E. Church, Salisbury, on Sunday night next at 7 1/2 o'clock. Addresses by Rev. C. M. Pegg and others may be expected. The public are invited to attend.

REV. E. Schaffer, of N. Y., will preach in the Missionary Baptist Church, Salisbury, to-morrow, (Sunday) April 20th, at 10 1/2 P. M. A cordial invitation is given to all.

CLOTHES STOLEN.—On the night of the 16th inst. some clothes left hanging on a line belonging to Mr. Morris on High Street, were stolen. This was the result of carelessness.

FAIR DAY was rather dull. Very few persons were in town, whiskey sold slowly, the cake and pie women sustained considerable damage by having an abundance of their sweet wares left on their hands.

ACKNOWLEDGMENTS.—Our thanks are due to the Hon. W. T. Hamilton for sundry public documents, and a copy of his very able argument in the U. S. Senate on the Resolution to expel Caldwell of Kansas, from a seat in that body.

EASTER SUNDAY.—Easter Sunday was appropriately observed in Salisbury. Services were held in the three Methodist and St. Peter's Protestant Episcopal churches, and in the various discourses on the resurrection of Christ were delivered by the various ministers in charge. The day was fine and the people generally turned out on the occasion.

THE FISHMEN of the Wicomico are doing a fair business. Shad are selling at 20, 30 and 40 cents per pair. Herring are \$10 per thousand. A larger amount of capital and labor seems to be invested in the business on the river this year than ever before.

FRUITLAND.—H. A. Dulany, esq., postmaster at Forktown, has been notified by the Post Office Department that on and after the first day of July 1873, the post office now known as Forktown will be called "Fruitland."

BALL at B. C. S.—On the evening of the 16th a ball was given in the Hotel at Barren Creek Springs, under the auspices of the young men of Salisbury. Although the night was unpropitious, still there was a good attendance, and all went off merrily.

PERSONAL.—J. J. Morris, Esq., of the firm of Cathell & Morris, Baltimore, has been in our town this week, looking as handsome and hearty as ever. Dr. S. P. Dennis designs returning to Salisbury in a few weeks. We do not know whether he will come merely as a visitor or to locate permanently, though we wish it may be the latter.

BASE BALL MATTERS.—The Snow Hillers refuse the challenge of the White Cloud club of this place. The reason given is that there is at present no regularly organized club in Snow Hill. On Friday evening the 11th inst., a number of gentlemen assembled in Mr. J. Augustus Parsons' office and organized a base ball club. The name of the new club is "Resolute." The following officers were elected: Augustus Parsons, President; Dr. E. W. Humphrey, Secretary, and W. S. Gandy, Treasurer.

WATER MELONS.—The people of Tyaskin District are making preparation for a large crop of water melons this year. We are informed that almost every available spot of ground suitable to the growth of this melon is being brought into requisition. Some parties are planting down large fields while the small growers have largely increased over last year. The water melons raised in this section of our county being in a very large revenue, aggregating many thousands of dollars annually, and their cultivation has become a very important branch of agriculture.

"ONE SHINER" destroyed much good. One idle man, who desires company, will induce others to become idlers who might remain industrious and enterprising men. Besides this, the idlers, or loafers, are the fault-finders of society. They are discontented themselves, and try to make others so. They have plenty of time to complain of others and recount their own ills, and seem never so happy as when they can render others unhappy. Thanks, however, to happy fortune, our streets are nearly clear of loafers. All who will, can find work to do, and at fair wages. Drones are held in bad repute here, and men must work to be respected. Indeed, work is healthy, mentally as well as physically, and we are glad our people are thoroughly imbued with the importance of this truth, and enforce its precepts by their daily lives.

OBITUARY.—Mrs. Sarah E. Griffin, consort of Mr. John H. Griffin, of Somerset county, Md., departed this life on Saturday, April 12th, in the 52nd year of her age. The closing scene of her earthly career was her late residence, near Forktown.

Mrs. Griffin was a devout Christian of primitive character and experience and a prominent member of the Methodist church for a number of years. She was a woman of rare excellence. In her character was sweetly blended the fruits of the Spirit, Love, Joy, Peace, Gentleness, Goodness, Faith. She was cheerful, active in good works, kind, and condescending to the lowly, thinking about the welfare of others, administering consolation and affording relief to every one. Weep children, husband and friends, for your loss is irreparable. But while you mourn and weep, you may rejoice that your loss is her gain.

FURNITURE.—A large lot of all styles of Furniture at very low prices for sale by A. G. Toadvine & Co.

The New Castle Presbytery.

The Presbytery met on Tuesday the 16th instant in the Presbyterian Church at Snow Hill, and was opened with a service by Rev. J. B. Spotswood, of New Castle, Del.

Rev. H. J. Gaylord was chosen moderator, and Rev. W. M. Hersman and Elder J. A. Nicholson were elected temporary clerks.

Rev. J. B. Adams was received as a member of Presbytery from New Brunswick, N. J. Gaylord accepted of him from the churches of Cooling and Georgetown, Del., and his installation was appointed for April 27th, with Rev. A. C. Hooton, Rev. C. Huntington and Rev. J. Garland Hamner as the Committee.

Rev. W. W. Heberton was received from the Presbytery of Chester, and a call was placed in his hands from the Elkton church, which he accepted. Rev. S. A. Gayley, Rev. G. L. Moore, Rev. J. T. Ulmstead and Dr. Crowell were appointed a committee to install him on June 3rd.

Rev. H. J. Gaylord accepted a call from the Elkton and Blackwater churches, and Rev. J. Garland Hamner, Rev. B. F. Myers and Rev. W. M. Hersman were appointed to install him May 8th.

Presbytery voted to meet at Georgetown, Kent county, Md., May 13th at 3 P. M., to order an installation. Rev. E. W. Gaylord, a licentiate of this Presbytery, as pastor of the Westminster church.

WILMINGTON FEMALE COLLEGE. Rev. Tyron Edwards, D. D., was heard in behalf of this college, chartered by the Delaware Legislature last winter under Presbyterian patronage, and the Presbytery heartily commended the institution to the support and liberal endowment of its churches.

Presbytery dissolved the pastoral relation between the Port Deposit church and Rev. E. P. Elock, at his own request. Mr. J. T. Skeen, a member of the Port Deposit church, was taken under care of the Presbytery as a candidate for the ministry.

THE MALLOY FUNDS. The committee reported \$1,480, as a contribution by 21 churches, with 15 yet to be heard from.

H. B. P. Luma, J. J. Foulk and J. R. McFee were appointed a committee to receive the fund for the benefit of the late Rev. R. A. Malloy's family.

DELEGATES TO THE GENERAL ASSEMBLY. Revs. J. L. Vallandigham and Cyrus Huntington with Elders D. G. W. Todd and H. M. Parrell were appointed Commissioners to the General Assembly which meets in Baltimore May 16th.

Rev. Dr. Crowell and John Squire with Elders Irving Spence and Dr. J. P. E. Gillis were made their alternates.

LIFE INSURANCE. Rev. J. Garland Hamner, Synodical Evangelist, was directed to confer with the churches of the Presbytery, and seek to insure the lives of our ministers on the plan recommended by the Synod of Baltimore last October.

BENEVOLENT WORK. The Committee reported the contributions of the churches to the different Boards of the General Assembly amounting to \$7450—an increase of \$1310 above last year.

HOME MISSIONS. The Committee reported that during the last six months a church has been organized at Harrington, Del.; the church at Georgetown has been dedicated, and now houses of worship are in process of erection at Elkton, Harrington and Federalburg, while parsonages have been built or purchased at Whaleyville, Berlin and Lewes. Aid to the amount of \$1000 has been given by the Board of Home Missions to ten of our churches.

LICENSURE. Mr. W. D. Baker was, after a satisfactory examination, licensed to preach the Gospel.

SUIT AGAINST THE SMYRNA CHURCH. The Committee, appointed to hear both parties, reported the following minute, which was adopted: "Presbytery can by no means justify the course of Rev. S. S. Sturges in resorting to a civil court to adjudicate an alleged claim for salary when all such claims should be settled in an ecclesiastical court; and that we hereby enjoin Rev. S. S. Sturges to immediately withdraw said suit in order that the matter may be settled by the proper tribunal."

PLACE OF THE NEXT STATED MEETING. Lower West Nottingham church, Cecil county, Md., was chosen as the place of the next stated meeting, which will occur Sept. 30th.

DORCHESTER COUNTY. In the house of the editor, a Fay from Fairy Land.—Cambridge Chronicle. More fortunate than the Salisbury editors. Linkwood is still improving.

The news in Cambridge named respectively Sheppard and Grace, got into a fight the other Sunday, when Sheppard drew a pistol and fired at Grace, but the bullet did not strike its intended mark.

WORCESTER COUNTY. The epizootic is still rampant in Worcester. Three negroes have been committed to Snow Hill jail for stealing clothing from two business houses in Newtown. Messrs. Stator & Phipps intend to build a new store-house opposite the Washington Hotel in Snow Hill.

The Presbyterians of Snow Hill have purchased a new church organ. The instrument cost \$435.

Crisfield is to have a hotel conducted on the European plan. Dr. Rufus W. Dashiell, who practiced his profession in Wicomico county for about one year, has removed to Princess Anne and formed a partnership with Dr. Louis W. Morris.

The Methodists of Princess Anne are making efforts to secure the funds necessary for building a new church edifice in that town.

Two men were arrested and fined \$3 and costs the other day for using profane and vulgar language on the streets of Princess Anne. This is decidedly one of the most praiseworthy things that the local authorities could have accomplished. Indeed, Princess Anne seems to have a most excellent municipal government.

Thomas Brown, colored, was before Justice Thomas, J. Furriss on the 7th inst., charged with highway robbery. The charge was brought by one Albert Octobro, a Prussian, who alleges that he and Brown started for Fishing Island together on Saturday night the 5th inst., and that when near Robert H. Dredon's store, Brown prevailed upon him to take a drink of drugged whiskey, after drinking which he fell down and was unable to resist.

On the 10th inst. the body of an unknown man was discovered in the water at Deal's Island. Justice George T. Rowe summoned a jury of inquest, and Dr. E. Waller made a post mortem examination. No marks of violence could be discovered on the body, and the jury rendered a verdict of accidental drowning.

A FINE OPPORTUNITY.—We often hear people saying, "Ah! that was a fine opportunity, but I missed the chance;" and regretting ever afterwards that they did not embrace it. We are just now presenting such an opportunity, which it will seem to you to be a task at hand, and secure the greatest advantages by purchasing their Spring Clothing from the immense stock we have specially prepared for this season, and are offering at very low prices. BENTLEY & CO., Tower Hill, No. 318 Market street, between Fifth and Sixth streets, Philadelphia.

Agricultural.
April, on the Farm.

This month, usually the most important to the agriculturist, will, in the present season, be more than usually a busy one, the long continuance of winter weather, with the coming wet weather, having almost entirely frozen up, in this latitude, any work in the field, in the hope of the first importance that the earliest opportunity should be availed of to go to work with resolve and determination—just not with a haste which begets nervousness or mistakes in judgment. It is far better to limit the extent of your land in cultivation, and to bestow upon it all the labor and manure at command, rather than seek by thin spreading both over an increased area, to thereby enlarge the crop to be gathered, a result seldom reached in this way. First in order, seedling your crop, is the preparation and sowing of seed, and the sooner the seed is gotten into the ground, the better, by far, the chances for their filling and yielding well. Just as early as the frost is out of the ground the sowing ought to be done, and the seed sown as soon afterwards as may be. This crop is not a very profitable one, but it is a useful, and indeed, indispensable one; and becomes more profitable the better the crops are that we raise. If fifty or sixty bushels are grown to the acre, the crop pays, of course, the reverse is the case when the yield is only ten or fifteen bushels. It is too much the habit of farmers to put off this crop with any remnants of manure they may have; and they receive a very similar kind of return. Because the crop is considered an impoverishing one, it is poorly fed, whereas the plan of sowing it would be, on that account, to manure highly and cultivate well.

Give therefore, as liberal a dressing of manure as you can afford to this crop, and you will find your profit in it. If not already done, sow as soon as possible. About three bushels of seed to the acre is the right quantity, and it should be harrowed in and the roller afterwards applied. A dressing of one barrel of plaster, two of ashes and two of salt, will be found very advantageous when practicable to apply it, the peculiar office of the salt being to destroy injurious insects.

Potatoes—For the early crop of these, as with oats, the earlier they are in the ground the better. It sometimes happens that the best crop is made from plantings made so soon that the ground has afterwards frozen over, but it is best to make a sufficient delay to avoid such an occurrence. Plow deep, and keep the soil well stirred and finely pulverized during every stage of the growth of the plant. Weeds are death almost to the potato crop. Keep them down with the cultivator, and afterwards pull them out by hand. Planting in hills, three feet apart, is a mode which, perhaps, will not produce as large crops as planting in drills, but the crop is easier dug. As soon as the potatoes are up pass the cultivator through the rows, and let a good hand follow to chop out the weeds and draw the earth towards the plants, the rows of which have been laid bare by the cultivator. When the vines are about eight inches high till up with a small plow, and when the potatoes begin to make let the plow run through again across the furrow first run. Then keep the weeds down by hand, and nothing further is necessary until the tubers have made their growth.

Another simple and labor-saving plan is to plant in drills, cover them by means of a Thomas' smoothing harrow, and continue to use this implement until the vines become too high to admit of its passing over them, which will not be the case until they are seven or eight inches high. The harrow must be used first before the young vines appear above the surface of the ground, and passed over again at intervals of a few days, so as to keep the surface light and mellow. The young weeds that germinate near the surface are destroyed in this way, and the deeper-rooted potatoes are left unharmed. The whole efficacy of this system consists in beginning the cultivation early and continuing it frequently. If once the weeds get to be of the same height as the potatoes, the harrow must be laid aside. When timely and diligent use is made of this implement, the cost of cultivating the potato crop is very much reduced. Of varieties, the Early Rose, Early Goodrich and White Pearl are the best, and are most commended in this section, and are well and favorably known generally.

In applying manure to your potatoes, do not, if possible to avoid it, use fresh, undecomposed, stable manure. This material makes a rank, unhealthy potato, and doubtless has a tendency to create and perpetuate disease. Put on, if stable manure at all, only such as is thoroughly rotted, and well composted with other materials, and in preference, use ashes, bonedust, plaster, lime, &c. The potato is a great potato plant, and when procurable some compound containing a considerable proportion of that element can doubtless be used with advantage, especially upon light soils.

Clover seed may still be sown on winter crops, and should be harrowed, in the roller following the harrow.

Orchards that have not recently been manured should receive a dressing of a compost made from stable dung, woods mould, ashes and lime. This may be applied on the surface of plowed in shallow furrows, and the roots of the trees. Preparation for the Corn Crop.—Wherever corn land was not plowed in the fall the operation should be performed at the earliest day possible. Deep plowing and perfect pulverization are as essential to full success in this as in most other crops and the better the preliminary work is done the easier will be the after steps. Do not plow your land when it is wet, but await that condition when it is easily pulverized. Only by deep plowing, thorough fanning and liberal manuring of the soil, can great crops of corn be raised, and as the labor and cost of raising poor crops are generally the same as for good crops it is only the part of common sense to restrict your operations to a more narrow scale and apply your energies and manure to a diminished acreage. In most cases you will be able to raise in the aggregate as large a crop and at a less cost.

It is throughout that tells, and to secure the best results corn should be ploughed only on land well manured deeply ploughed and effectively harrowed and rolled.

At the subject of this great crop we shall soon return giving further information and reflections concerning it in a special article.

Swing Lucerne—This is the best month in this latitude to sow this valuable plant. We have had a good establishment in these latitudes upon its merits as a rough plant, and now we only add that, in our opinion, it is for this section invaluable as forage for milking cows or for winter hay. It may be cut from four to six times a season, and it is fairly established in these latitudes upon its merits as a rough plant, and now we only add that, in our opinion, it is for this section invaluable as forage for milking cows or for winter hay.

Why is a mouse a load of hay? Because it will eat it.

SUGAR O MILK.

A FARMACIOUS FOOD FOR INVALIDS AND INFANTS.

By the peculiar process in which this preparation is made, all the flesh forming constituents, Karby and Saline elements of the grain are retained, with one of the starch, all of which, being converted in a Dextrine. It contains all the Lime, Sulphur, Phosphorus, Iron, and Manganese for the animal juices, and Gum and Pecula for respiration and fatty tissues, with the proteins compounds (Gluten, Albumen, &c.) from which nerve and muscular tissues are formed.

Whoever Poke Root grows, it has a local reputation as a Blood Purifier, and for the cure of Rheumatism. With all this local reputation, and the praise of distinguished Physicians (Dr. Coe, Lee, King, Wilson M. Ault, Griffin, Copland and others), who have tested its medical powers; it has been neglected by the profession at large, as much through a want of a proper appreciation of its merits, as a knowledge of the proper way to prepare it for medicinal use. Dr. Oliver Crook, (a physician who devotes his entire time to the duties of his profession,) has full tested the active medical qualities of Poke Root during the last 25 years, and unhesitatingly pronounces it to have more merit— for disease depending on a depraved condition of the blood, than any other articles named in Materia Medica. Under his instructions our Chemist has combined the active medicinal qualities of Poke Root with the best Tonic Preparation of Iron, and we offer this preparation to the public under the above name.

Poetry. The Hand that Rocks the World.

BY WILLIAM ROSS WALLACE. Blessings on the hand of woman! Angels guard its strength and grace...

Blessings on the hand of woman! Fathers, sons, and daughters cry, And the sacred song is mingled...

How sweet the chime of Sabbath bells! Each one's creed in music tells...

In deeds of love excel, Chained from from livid towers a band, Emblem of one not built with hands...

Oh! heed the ancient landmarks well! In solemn tones exclaimed a bell...

Not faith alone, but works as well! Must test the soul! said a soft bell...

Not faith alone, but works as well! Must test the soul! said a soft bell...

Not faith alone, but works as well! Must test the soul! said a soft bell...

Not faith alone, but works as well! Must test the soul! said a soft bell...

Not faith alone, but works as well! Must test the soul! said a soft bell...

Not faith alone, but works as well! Must test the soul! said a soft bell...

Not faith alone, but works as well! Must test the soul! said a soft bell...

The Calico Cloak.

"Have you seen the new cloak?" asked Mary Lark, a girl of twelve or fourteen years...

"Oh, yes, I've seen her," said Lucy Brooks, "she's the new washerwoman's daughter..."

"The girls went into the dressing-room where they found the new school, a mild, intelligently-looking child..."

"This seemed, on the whole, to make those girls who were disposed to treat her unkindly, dislike her more..."

"Oh, mother," she said, as she entered her humble kitchen, "do answer Uncle William's letter, and we will go to New York..."

"Mrs. Lee, learning that the scholars continued their unjust treatment toward her child, resolved to accept her brother's offer..."

"Accordingly at the end of the term she left Bridgeville and removed to New York. Although Lizzie had been a member of the academy, she had gained the medal..."

"Weeks, months and years glided away to the students of the Bridgeville academy, and the little 'calico cloak' was forgotten..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

The Mountebank, H. W. Beecher Dissected.

Beecher delivered two lectures in this city last week, for which he received twenty-four hundred dollars, exclusive of all expenses...

"But, mother, they are all unkind to me; there isn't a single one that loves me..."

"And the child buried her face in her hands and sobbed aloud. In Bridgeville academy there were a few unprincipled girls, and the others joined them in teasing the little 'calico cloak'..."

"Mrs. Lee, learning that the scholars continued their unjust treatment toward her child, resolved to accept her brother's offer, although it was a poor man..."

"Accordingly at the end of the term she left Bridgeville and removed to New York. Although Lizzie had been a member of the academy, she had gained the medal, and she was taken from the academy beneath the despised garments..."

"Weeks, months and years glided away to the students of the Bridgeville academy, and the little 'calico cloak' was forgotten..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

Hero and Leander.

On the northern shore of Hellespont, in days long since gongy, stood a first-class, brown stone temple—minnars roof, four stories high—dedicated to the worship of that potent Cyprian queen, Madame Venus...

Just across the classic water, on fair Asia Minor's shore, in a village called Abydos, of a thousand souls or more, stood a great exporter's warehouse, and a little off the road was the vine-embowered cottage, where his family abode...

Henry Ward Beecher knows how much can be done and how much more profitable it is to float with the current than to stem it. His own life demonstrates that sensationality is as profitable in preaching as in lec- tures...

"That is the shortest but the best sermon I ever heard," said the lady, smiling, as her handkerchief fluttered under her eyes, "and I don't believe it will be lost by any of us..."

"The old lady was right. The story went from one to another, until it found its way into the academy. At that very time a little boy was attending school here, and his mother was a widow..."

"When Mrs. Maynard heard the story of 'Little Patchy,' she felt that she was well repaid for all she had suffered in her childhood..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

Strikingly Beautiful.

Spreading rapidly through the Western papers, under the credit to the Literary Journal, is a domestic story in the very latest style of American humor, as the appended extract shows:

"The man looked at his boy proudly, sternly, sorrowfully. The lad looked into his father's face sadly, exultingly, heroically. It was a living tableau no artist could reproduce..."

"The wind, by a sudden puff, lifted into the air a shower of white bloom petals from a sweet apple tree, letting them fall gracefully upon the patchwork carpet..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

"The day arrived, and although it was quite stormy, Mrs. Deacon Brown's parlor was filled with smiling faces..."

March Fourth.

The New York Evening Post points out that it is purely accidental that the beginning of the Presidential and Congressional terms should date from the fourth of March. It happens thus: By a resolution of the last Congress held under the articles of Confederation, passed September 13, 1788, it was provided that elections should be chosen on the first Wednesday of the next January; that the President and Vice President should be elected on the first Wednesday in February; and that the government should be organized at New York, on the first Wednesday of March. That day happened to be on the fourth day of the month, and, inasmuch as the Constitution itself fixes the Presidential term at four and the Congressional term at two years, it follows that such terms must always close at midnight on the third day of March.

"Oh, give me back my fifteen cents." "You're a man after my own heart," said the cook when she let her boss in at the back gate.

"Is this took occupied?" asked an ex-quisite of old lady. "I don't know," said she, running her hands over the surface. "It feels mostly like plush, but you can't always tell."

"How do you do?" asked a man, smiling a lady's hand and saying, "I'm glad to see you." "Oh, I'm the same as ever," said the lady, smiling back.

Local Advertiser. Saturday, April 5, 1873.

ELECTION DAY.—Next Monday is the municipal election day. The law requires the polls to be kept open from 10 A. M. to 4 P. M.

BUILDING.—Workmen are driving on the new building on Main street now being erected by H. S. Brewington. He expects to have it completed by June.

HORSE RACE.—There is to be a horse race to-day in the Spring Hill lane for \$25 a side. The horses entered belong to Mr. James Kellum and Mr. Asbury Perdue. The race will take place at 11 o'clock this A. M.

NOTICE.—Senate meeting at 7 1/2 P. M. By order of the President. W. J. O., Secretary.

HOUSE MOVING.—On Monday the office which formerly stood on the lot opposite the ADVERTISER office was moved down the street and enclosed between the residence of Dr. Wm. T. Smith and the office of Holland & Cooper.

ALL FOOLS DAY.—The 1st of April was only observed by the little boys and girls of our town. The usual methods were resorted to in order to accomplish the discomfort of the unwary, and no doubt the younger members of our population made the day an occasion of considerable sport.

FIRE IN THE WOODS.—A fire occurred in the woods belonging to Mr. G. H. W. Ruark, situated near Mr. Levin W. Dorman's farm, on Tuesday last which injured the growing timber considerably and burned up quite a large line of fence contiguous to the thicket.

THE LARGEST ROCK OF THE SEASON.—One of the fishermen down the river, brought to town yesterday a rock five or seven feet long, that weighed forty-seven pounds. This is decidedly the largest of the season, and crowds of our citizens went down to see it.

FIRE IN THE COUNTRY.—On Monday last the barn, stables and carriage house belonging to Mr. James Howard, about 2 miles on this side of Warren Creek Springs, were entirely consumed by fire. All of Mr. Howard's farming implements, including his carriage and harness, were destroyed in the conflagration. There was no insurance on the property.

TOWN MEETING.—On Friday evening the 28th ultimo, a number of citizens met in the Court Room and nominated five gentlemen as candidates for Town Commissioners to be voted for on Monday next. The following named gentlemen were nominated: C. F. HOLLAND, W. W. MITCHELL, G. H. W. RUARK, A. J. WOOD, W. H. CATHELL.

LARCENY.—On Tuesday last a young colored man calling himself John Stafford was arrested in this place charged with the theft of a pocket book belonging to John Larmour of Princess Anne, containing about \$15 in cash and some valuable papers. Stafford confessed his guilt and disgorged \$10.86 of the money; the remainder had been otherwise disposed of. He stated he had secreted the pocketbook near Princess Anne. The culprit was employed by Larmour to do farm work, and he signaled his first day by appropriating his employer's money and papers. Stafford was taken back to Princess Anne, and is now living with Mr. Larmour in a new capacity.

ON THE 28th ultimo a colored boy aged about 13 years, robbed Mr. John Turner's store in Tyankin, of \$4 in cash. The store was closed and the young rascal gained entrance through a window. He was committed to jail to await the action of the grand jury.

ANOTHER TICKET.—Since the meeting last week to nominate a ticket for Town Commissioners, another has been made out called the "Citizens Ticket." Below is appended the names of the gentlemen composing the ticket: Gen. H. HUMPHREYS, EBENEZER WALLIS, C. F. HOLLAND, THOMAS B. SMITH, WM. S. GORDY.

BISHOP OF EASTON.—The Bishop announces the following list of appointments. It does not include some engagements referred for arrangement by letter: April 6—A. M. Queenstown. P. M. Kent Island. 8—P. M. Denton. 10—Convocation in Centerville. 27—Newtown. 28—Convocation in Prince's Anne. May 2—Salisbury. 4—Berlin. 9—Convocation in Shrewsbury. 9—St. Stephen's. 11—A. M. Elkton. P. M. North East. 12—P. M. Port Deposit. 18—Taylor's Island. 20—East New Market. 22—Trappe. 23—St. Michael's.

Easton, Md., March 13th, 1873.

PROPOSED ENTERTAINMENT. TABLEAU VIVANT.—CHARADES.—MUSIC.—MIRTH.

More than one year since some ladies, assisted by several gentlemen, give an entertainment in the Court Room, this town, for the benefit of the M. P. Church, which was pronounced the most successful affair ever presented here by amateurs, and which is still held in lively remembrance by those who witnessed the many amusing and meritorious representations then offered for the delectation of the public. It is now proposed by these same parties to give an entertainment in the Court Room about the 1st of May the main features of which will be similar to those that characterized the other and rendered it so deservedly successful. A pleasing variety of tableaux, charades and choice selections of music and, probably, a representation of a woman's rights convention, will constitute the entertainment. Mrs. Kelly in a new role, will be expected to vie with the lady from Cork in doing the funny parts; the principal lady in the rather famous "Old Folks Concert," will also be on hand to preside as Mrs. Presidentess of the convention or den a snow cap and play grandmother, while Mrs. Killmore, assisted by other talented amateurs, will contribute much towards rendering the performances interesting. It will be the aim of the management to make this entertainment surpass all previous ones of its kind. The proceeds are expected to be applied towards paying for the new organ recently put in the M. P. Church. The object is commendable, and it is to be hoped the people will extend every encouragement possible to those who are interesting themselves in the matter.

MATCH GAME OF BALL.—On Wednesday a match game of base ball was played on Pea Hill between the lawyers and business men of Salisbury. The following is a list of the names of those engaged in the encounter: LAWYERS' NINE. Thomas Humphreys, E. Stanley Toad-vine, C. F. Holland, Huston Humphreys, Albert L. Richardson, J. Augustus Parsons, James E. Ellegood, J. Hopkins Farr and G. W. Cooper. BUSINESS MEN'S NINE. John Ellis, William Jones, L. W. Gunby, James T. Truitt, Levin B. Dorman, Merrill H. Fooks, H. S. Brewington, Fred Gunby and A. F. Parsons. THE GAME. The game was opened with considerable spirit a few minutes after 2 o'clock P. M., with Mr. Thomas Humphreys at the bat. The first inning was played with varying success upon both sides. The lawyers were whitewashed on the second and fifth innings—the business men sustained a like fate on the second, fourth, sixth and seventh innings. The lawyers scored 13— a difference of 10 in favor of the lawyers. Mr. Holland as first baseman and Mr. Thomas Humphreys as pitcher, deserve especial mention; the former for the very expert manner in which he took the balls thrown him, and the latter for his dexterity in pitching the balls so as to preclude successful batting. The game excited considerable interest, and quite a large number of ladies and gentlemen were present during its continuance. The lawyers, as a matter of course, were jubilant over their victory and expressed their exultation by three hearty cheers; but let them not crow too soon, for the clerks intend to challenge them to play another game for the championship, and it will be strange if the boys don't give them a decent drubbing. Look well to your laurels, gentlemen.

SOMERSET COUNTY. Charlie Marshall don't like Scotch whiskey nor a whiskey soaked Scotchman. The M. E. Congregation of Crisfield has purchased a new organ for the sum of \$250.

Twenty wild geese were killed at one shot near Crisfield last week. George Parker and Levin Horsey, both colored, were arrested in Princess Anne last week for the murder of Belthia Jones. Parker was jailed and Horsey was released. General Charles C. Long, in the service of the Khedive of Egypt, is a son of Mr. L. Long, Sir, of Princess Anne.

WORCESTER COUNTY. Charles M. Peters is making preparations for starting an extensive nursery near Snow Hill.

Col. Edward Dymock has rented and now occupies the National Hotel at Snow Hill. This piece of news will be gratifying to the traveling public.

Mrs. Eliza A. Vickers of Snow Hill, died very suddenly last week. The steamer Maggie has resumed her trips on the Potomack river.

The Messenger welcomes back Mr. Charles Clayville, who has resided in Salisbury for more than a year.

Four schooners arrived at the port of Snow Hill last week, and five schooners cleared for other ports. The merchant marine of Snow Hill is quite extensive.

John Sturgis and George C. Twilley of Newtown, were thrown from a carriage a few days since and sustained slight injuries.

The Gazette & Record and the Crisfield Leader are at Jogg's heads.

TALBOT COUNTY. The troubles with oystermen continue in this county. Last week forty or fifty dredge boats were presented for violating the oyster law by dredging in the Eastern bay and other tributaries.

They are trying to organize a farmers club in St. Michaels. Shad sold for 60 cts. a pair in Easton. The steamer Highland Light will resume her nightly trips to-day. The cry is for fresh butter in Easton. Foxes have been destroying the young lambs in Deep Neck. Charles W. Bennett has sold out the Easton Hotel to Thos. B. Garner of Pennsylvania.

CORRESPONDENCE. FORTKOWN, April 5th 1873. Messrs Editors: Early pens are up and growing finely in the vicinity of Tony Tank. Strawberries are not yet advanced yet—the long cold winter accounts for it. One neighbor has about one thousand cabbage plants transplanted, and they are looking remarkably well. A few musquitoes have made their appearance, and are doing reasonable service. The old croakers still keep up hideous yells at night and day. The mocking bird has arrived, butas yet has not tuned his harp—at least his music has not been heard. The sunshine is bringing forth the grass rapidly considering the few days old Sol has smiled benignly upon us. The health of our village is fine. Our neighbors below are at their posts, looking for the herring and shad.

THE ALDINE. An Illustrated Monthly Journal, originally admitted to the handsomest Periodical in the World. A Representative and Champion of American Taste, Not for Sale to Book or News Stores.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of rare literary, scientific, historical and artistic pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be more fully appreciated when it has been bound up at the close of the year—While other publications may claim superior cheapness, as regards price, THE ALDINE is a unique and original class. THE ALDINE is a unique and original class. THE ALDINE is a unique and original class. THE ALDINE is a unique and original class.

ART DEPARTMENT. Notwithstanding the increase in the price of subscription last Fall, when THE ALDINE assumed its present noble proportions and representative character, it has not only maintained its position during the past year; proving that the American public appreciate, and will support, a sincere effort in the cause of Art. The publisher, anxious to justify the ready confidence thus demonstrated, has endeavored to improve THE ALDINE, and has improved the work; and the plans for the coming year, as unfolded by the monthly issues, will be such as to justify the confidence of its friends. THE ALDINE is authorized to announce designs from many of the most eminent artists of America. In addition, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the most artistic success, and greatest variety of subjects. The publisher, anxious to justify the ready confidence thus demonstrated, has endeavored to improve THE ALDINE, and has improved the work; and the plans for the coming year, as unfolded by the monthly issues, will be such as to justify the confidence of its friends. THE ALDINE is authorized to announce designs from many of the most eminent artists of America.

Every subscriber to THE ALDINE, who pays in advance for the year 1873, will receive, without additional charge, a pair of the most beautiful and valuable of the year, the "Emigrant's Guide," and "Crowing the Moon," are 14 x 20 inches—printed on different papers, requiring 25 impressions and tinted to perfect each color. The same chromo are sold for \$20 per pair, in the art store, and it is the desire of the publisher, to make THE ALDINE out of the reach of competition in every department, the chromo will be found especially valuable, and will be sold at a low price. Every subscriber will receive a certificate, or receipt, of the purchase of the chromo, guaranteeing that the chromo delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of pictures of this grade free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art, and will be a valuable and profitable business to the publisher. The chromo will be sold at a low price, and will be a valuable and profitable business to the publisher. Never known to Fail. THOMPSON'S FEVER & AGUE POWDERS FOR THE PERMANENT CURE OF Chills & Fever, Dum's Ague or any form of Intermittent Fever. THE GREATEST DISCOVERY OF THE AGE! There are no diseases so debilitating in their effects upon the constitution as those, and none more difficult to cure by the usual modes of practice. The FEVER AND AGUE POWDERS will effect a cure in cases of the longest standing as well as in the preventive in the forming stages of the disease. They are purely vegetable, and act with certainty upon the disease, totally eradicating it from the system, and prevent a return at any future period. Why waste your money on other remedies, when you can cure the CHILLS in any case? Reasons why they only should be Used. THEIR REPUTATION IS ESTABLISHED. Thousands of testimonials have been published showing that these POWDERS have a marked effect in curing the most obstinate cases, when considered hopeless. THERE IS NO RISK IN TAKING THEM. They are purely vegetable, and therefore none of the dangerous diseases so often the result of the use of other remedies.
