M. H. GERMAN MISSING.

Disappeared From His Home in Delmar Two Weeks Ago—Last Seen in Broad Street Station.

Is Mitchell H. German of Delmar, dead or alive? He disappeared from his home ten days ago and has not been heard of since. German has been considering for some time the advisability of erecting a brick plant in the neighborhood of Aberdeen, Md., and on Monday, August 26th, left Delmar presumably for that point. His wife had left on the Saturday previous for Brooklyn to visit her daughter and he had assured her that he would proceed from Aberdeen to Brooklyn where he would join her. After a week's wait for him, Mrs. German became quite concerned for her husband's welfare and returned to Delmar to institute a search for the missing man.

It was learned from the conductors of the Delaware division that a Mrs. Frank Harmonson, who has been keeping house for Hon. W. L. Sirman for the past seven months and with whom German had been rather intimate, left Delmar for Philadelphia on the 1 a. m. train Monday August 26. This excited suspicion and it was further ascertained that, although Mr. German had procured a ticket for Aberdeen, when the train reached Porters he had gotten off and purchased a ticket from that point to Broad Street station, Philadelphia.

DIAMOND STATE TELEPHONE CO.

The Position of The Company Relative to Entering Salisbury Plainly Stated by Its President.

The Wilmington Morning News of September 5th, has the following dispatch fr. m Dover:

Dover, Del., Sept. 4.—"It is said that the Diamond State Telephone Company has been balked in its efforts to tie the Peninsula towns together by long distance telephones at moderate rates by the absolute refusal of the Salisbury people to dispose of their local line, for which they are said to have an exclusive charter.

The Salisbury people are either opposed to the Dover company connecting up with their system or they are holding out for fancy money.

The situation it is understood, will make it necessary for the Diamond State people to build around Wicomico county in order to get down the Peninsula, but this move will not only deprive the thriving town of Salisbury (now the biggest on the Peninsula south of Wilmington) from intercourse with the outside world, but will make the Diamond State concern incomplete and will prevent people of this state and Peninsula from conversing with the Salisburyites. Otherwise the telephone company is opening up a rush business in nearly all the Peninsula towns and shipping places."

Relative to the above clipping, we are in receipt of a letter from Mr. H. A. Richardson, President of the Diamond State Company, which we print below.

Dover, Del., Sept. 5th, 1901.

Editors of Advertiser:—I clip the enclosed from the Morning News of today's issue. I think this article misleading and not strictly correct and do not understand from what source the correspondent derived his information. The Diamond State Telephone Company has never made an offer for all or any part of the stock of the Salisbury Telephone Company either directly or indirectly.

My position toward the Salisbury Telephone Co. is simply this:

I have no wish or desire to antagonize the local company in any way, manner, or form. My desire has been to unite all the towns on the peninsula under one system. Give them good and efficient service with each other and with the outside world at fair and reasonable rates.

Our lines now extend as far south as Laurel and as the Diamond State Telephone Co. owns the Crisfield plant whose lines are in operation to within a few miles of Princess Anne on the north my intention is to connect the Crisfield lines with the main system.

To accomplish this we would be obliged to pass through the county of Wicomico. In running this line we would naturally pass the outskirts of Salisbury. It would then remain entirely with the citizens of Salisbury whether they wished us to place a pay station in their town or not. If they did not want our service I assure you I would not attempt to inflict it upon them and under no circumstances would I make any effort to enter your town with our lines without first being invited by your people and by them presented with the proper authority to do so. I make this statement in fairness to all as I do not wish your good citizens to labor under the impression that the Diamond State Telephone Co. is attempting to force itself upon you when it is not wanted.

Yours truly,
THE DIAMOND STATE TELEPHONE COMPANY,
H. A. RICHARDSON, President.

Mr. German was one of the most prominent business men of Delmar and was identified with several of the leading business enterprises of that bustling little city. He was the owner of a large brick plant at that place and was for several years a director in the Delmar bank. For many years he has been the leader in the choir of the Methodist Protestant Church as well as a class leader and has always been very active and zealous in church and religious work, in fact he has long been considered the backbone of that denomination in Delmar. He is a man of 50 years and has been married about 25 years. His wife was Miss Anna Hearn, a daughter of Jonathan Hearn of Harford county. He is the father of six children, four girls and two boys. Three of his daughters are married, one living in Brooklyn, another in Sharptown, and a third in Norfolk.

It is thought Mr. German carried

with him in the neighborhood of \$10,000 in cash. There is good reason to believe he had about this amount, as it is known that he had recently raised several large sums of money. Here is a list of some of the money it is thought he carried away with him, \$5400 borrowed from the Salisbury Permanent Building & Loan Association, security ample; \$1000 cash payment on house and lot sold; \$3000 borrowed from M. N. Ellis, note in bank for \$350 and two notes to private parties \$500 each. Besides these he owed store bills in Delmar to the amount of \$450. Arthur Ellis, administrator of J. J. Ellis' \$500; S. E. Foskey for taxes \$25 and other debts to the amount of \$750, some of these recently incurred.

Seldom have the good citizens of Delmar and in fact of the whole country been so shocked as they have been at the recent exposure. It has been the one absorbing topic of conversation for the past week in the vicinity in which he lived and on all sides can be heard expressions of surprise and profound sorrow that one who had stood so well should have descended to such anamy. Only the future can develop the sequel to this sad story and prove which of the many theories as to his absence is correct.

WESTERN UNION DECLARAS WAR.

Big Fight Now on Between It and The Postal Telegraph Company.

War has been declared, it is alleged, on the Postal Telegraph Company by the Western Union, and just how the fight will terminate is a cause for conjecture.

The seat of battle is confined principally to the State of Delaware and the Eastern Shore of Maryland, or rather, from Wilmington to the terminus of Postal's line in Cape Charles, Va.

When the postal Company erected its new line from Cape Charles to Wilmington, thus giving connections to persons in southern Delaware and Maryland with all the large cities, the Western Union, so it is alleged, tried to buy out the line.

The management of the Postal company refused to sell, however, believing that the new addition would be a valuable acquisition to its line.

After the wire had been placed in position, offices were erected in all the fruit stations and the fact that rates were but 15 cents for a telegram of ten words, whereas the Western Union's are 25 cents for the same number, procured for it the business of the army of fruit buyers down the State.

During the height of the fruit season many of the largest buyers were forced to pay from \$8 to \$10 a day for telegraph toll. Consequently, when the new service was installed, they saw a chance to cut down expenses and gave it their entire business.

The Western Union refused to lower its rates and determined to cripple the Postal's service by hiring the latter's men. This was accomplished by offering them lucrative prices and many left.

The Postal is determined to fight it out to the bitter end, however, and young men and boys are being placed in every office to learn operating.

Popular sentiment appears to be with the Postal and business men all along the line are desirous that they shall hold out in the fight.—Wilmington Journal.

Mr. Ketcham the operator for the Postal at Salisbury, says that while there is a big fight being made for the telegraph business of the Peninsula and that in main "The Journal" is right, the Postal has not cut rates nor has it been hiring any but experienced operators.

School Board Proceedings.

The School Board was in session on Wednesday and was busily engaged nearly the entire day. Several delegations were before them. Some were asking for new houses, some for the appointment of certain teachers and some for repairs, furniture etc. A great many requests were granted.

The Board advertised for a new addition to Pittsville School house. This was done specially upon the offer of Mr. M. A. Davis, who was before the Board and offered to furnish the money payable three years from date without interest. The Board accepted the proposition and agreed to make the needed improvements.

S. W. Dennis was authorized to have improvements made to school building per estimate furnished and agreement made by Geo. E. Jackson.

Miss Mildred Dougherty was appointed to fill the vacancy in High School, caused by the previous promotion of the force of teachers, in the primary department.

Miss Beatrice Robertson was awarded a free scholarship to the State Normal School. There were two unfilled vacancies.

The Board contracted with Mr. T. H. Mitchell to put in water works in the High School building, and make some changes and improvements, in building additional to what has been done. Amount of contract \$678.50.

Meet next Monday.

Angels With Cuds of Tobacco.

The Rev. Mr. H. — was a good man, but very fond of chewing tobacco.

One day he was caught in a shower in Illinois, and going to a cabin near by knocked at the door. A sharp looking old lady answered his summons. He asked for shelter.

"I don't know you," she replied, suspiciously.

"Remember the Scriptures," said the dominie, "Be not forgetful to entertain strangers, for thereby some have entertained angels unaware."

"Angels don't come around with cuds of tobacco in their mouths," she replied and slammed the door in his face.

—Mr. H. Crawford Bounds, School Examiner of Wicomico county, was in Easton on Tuesday.—Easton Ledger.

Yours truly,

H. A. RICHARDSON, President.

ATTEMPT TO LOWER RECORD.

The Famous Stallion Crescens Will Try To Beat His Own Record of 2.021 on Pimlico Track.

Baltimore horsemen will soon have a chance to see the world famous trotting stallion Crescens who recently lowered his own world's record to 2.021. He will appear on the track at the Pimlico driving park on October 8.

Speaking of Crescens and his coming to Baltimore, an exchange has the following interesting article:

Crescens' great race against The Abbot at Brighton Beach on August 16, in which he trotted a mile in 2.021, was witnessed by Mr. E. D. Crook and several other Baltimoreans. These experienced horsemen were convinced that if he had been trotting over the Pimlico course that day, and the course had been as fast as it is possible to make it, Crescens would have reached the two-minute limit; and possibly have beaten it.

It was ordered that notice be given to have the bridge on Humphreys mill dam repaired.

Ordinance No. 2 was repealed and Ordinance X2 passed which is to prevent the accumulation of filth, etc. in the city.

It was decided to dispose of the fire engine horses and to purchase four others in their stead, two for the engine and two for the hose wagon.

The City Council also gives notice that it will meet each Friday evening during the month of September for the purpose of making transfers of property and adding new improvements preparatory to striking the levy for 1901.

The City Council.

At last Monday evening's session of the City Council business was transacted as follows:

Messrs. C. R. Disharoon and Thomas Malone were granted permits to build dwellings in Salisbury.

A contract to clean off the public cemetery was given out at \$10.

Mr. A. J. Benjamin, Mr. J. D. Williams and Mr. A. C. Smith waited on the Council, with a request that West Chestnut Street from the corner of Park Ave. to the railroad be paved to prevent washing. A committee was appointed to inspect the case.

It was ordered that notice be given to have the bridge on Humphreys mill dam repaired.

SCHOOL QUESTION SOLVED.

"Willie Whistlecraft" Makes Comments and Thinks the Next Legislature can Solve the Question of Appointing School Trustees.

Mr. Advertiser — It seems to me that something should be done to remove politics from the Schools of Wicomico county for the good of the Schools and the fair name of the citizens of the County.

Your friends of the "News" say there are no politics in the Schools of Wicomico county and your friends of the "Courier" with much vehemence and logic assert that they are full of politics since the wicked Democrats have restored peace and order in the State of Maryland after the Lowndes administration was overthrown at the polls two years ago, and life, property and the virtue of unprotected women is safe even in Baltimore City.

Such things should not be as political schools or politics in them, for it hurts the reputation of Wicomico outside its limits and is injurious to its material welfare.

Some time ago some kind friend sent me a printed list of the School Trustees in the different School Districts in your county and I was surprised to find Republicans on nearly every Board, and sometimes all Republicans constituted the board and white Republicans at that, while all the colored Schools are managed by colored Republican Trustees and they have colored Republican teachers, and more than that, there are to be seen numerous Prohibition Trustees on the Boards and even a School or two are managed by them.

It is to be sincerely hoped that your editor, who is a candidate for political honors on the Democratic ticket for the Legislature will be elected, and will have the Legislature to pass a law making a change in the mode of appointing School Trustees and provide that none but women and minors shall be eligible or can serve as School Trustees.

It seems that politics so influenced the Democratic School Commissioners on a certain occasion lately as to cause them to transact some of the necessary business in the absence of the Republican member at an appointed meeting and while he was out riding. This was a terrible political matter and had such an effect on the minority member, that he resigned and the commissioners lost the valuable services of its "only experienced member." And worse still Mr. Advertiser, the School Commissioners, for the sake of encouraging home ability and talent, appointed a well qualified native and resident of Wicomico county to the position of principal of the High School and this new appointee is said to be a Democrat appointed in the place of a Democrat. This is the worst kind of politics and it is politics, for the "Courier" newspaper of your place said it was in broad and flaming headlines.

These things must be stopped and that very soon or the voters will elect the Prohibition ticket, for prohibitionists never have anything to do with politics, except to serve as School Trustees, and they might be persuaded to go for that much meddling in politics. Don't think the voters can be fooled into electing the Republicans to office again so soon after the people's experience of Republican Rule a few years ago. They are very good and virtuous in their estimation and love the dear people very dearly and make good promises of how good they will be and will carry out their good promises. But the trouble with them, they do so much more than carry out their promises and make startling innovations, as when in the Legislature of 1898 the Republican Temperance Committee, put up Temperance Legislation to the highest bidder for cash.

If the above statements and impressions are incorrect the writer is open to conviction and a change of opinion.

Market Demand for Canned Goods.

An Exchange says, "The intimation having been given recently, at the meeting of canners held in Wilmington, that the prices of canned goods would be higher next winter, many people are purchasing canned goods now on the market and storing them away for the winter. Naturally this year's pack is preferable, but there is a disposition to buy up the present stock."

This will have a beneficial effect on two classes of people. It will benefit those who are able to store away for the future and also the canners, as the present demand will pretty nearly exhaust the supply and create an unusual demand for the new pack, as those who do not care to buy in advance or are unable to do so will buy the new goods, and it is expected that the canners will have all they can do to meet the demand, even at higher prices."

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, eases all wind colic, and is the best remedy for diarrhoea. Twenty cents a bottle.

GROCERIES DISAGREE.

Some Claim That This Grocer's Supply Purchased by Stevens Brothers, 126 S. Charles St., Baltimore, Md.

Others Are More

Hopeful.

The Baltimore Evening News of Wednesday, says:

A squabble is imminent between the transportation department of the Chesapeake bay oyster service and the commission merchants as to the outlook for a good crop.

Master of bay vessels which arrived this morning from Swan Point and Chester river shake their heads dubiously when inquiries are made.

Captain Dowling of the schooner Independence, from Swan Point with 90 bushels of bivalves, said:

"So far as I am able to judge, the oyster outlook is not so bright so far as the supply is concerned. I notice, too, that the oysters are pretty lean. They have no muscles and no gills. I can't say what they are bringing, as I have been able to sell only about four bushels of my cargo."

Captain Taylor of the schooner Eva, from Chester river with 100 bushels of oysters, said:

"The oysters are fairer than ever saw them before at this time of year. They are particularly fine because no muscles and water galls are clinging to them. The long freeze of last winter is probably responsible for their excellent condition in this respect. The supply, I fear, will be very short. Some of my cargo I sold for 70 cents a bushel, and the remainder I am clearing out at 65 cents. This will hardly let me out, for I had to pay 50 cents a bushel for the bivalves."

When a Baltimore dealer was told of the dismal reports concerning the quantity of the oysters, he said:

"That is the same old story. It is to the interest of those who buy the oysters to sell here in Baltimore to represent the probable supply as very short. They always do it. There is every indication that this will be a good oyster season. We have a good cult law now, and we are all interested in seeing that it is properly enforced."

While the dealer was engaged in praising the cult law, Oyster Inspector William Pohl, who brought more oysters to grief last year than any other employee of the State, said:

"The trouble with the cult law is the way it is enforced in the counties. Last season the oystermen would fill the bottoms of the vessels with undersized bivalves and then request to be arrested. They were taken before a county magistrate, fined \$25 and allowed to proceed with their cargo to Baltimore. We could not arrest them again, and they sold the load here, boasting that they were at liberty to do so because they had paid for the privilege.

"Some of the captains did this openly. They should have been compelled to dump the undersized oysters back in the water."

"Some few of the captains preferred to pay their fines in Baltimore. One of the mariners I arrested was taken before Justice Ross, who fined him."

"Now captain," I said, "this will teach you a lesson. Don't bring any more little oysters to Baltimore." "Well, I will," he replied, and he did. Three times I arrested that fellow, and each time he laughingly paid his fine and went about his business. These fellows should be held up down the bay and compelled to dump the little oysters."

DEATHS.

MR. LEROY HAYMAN.

Mr. Leroy Hayman, aged about 18 years, died last Monday afternoon of typhoid fever.

Mr. Hayman is the son of Mr. and Mrs. V. S. Hayman of West P. O. Somerton county and is well known here, being connected by close ties of relationship to several people of Salisbury and Wicomico county.

Interment took place Wednesday afternoon, after funeral services, held in Friendship M. P. Church conducted by Rev. F. S. Cain, the pastor.

Mrs. D. N. Gilbert, Miss Virginia Gilbert, and Mr. Clark Gilbert of Baltimore, Mr. and Mrs. C. L. Dickerson, Mrs. Ella Disharoon and family of Salisbury attended the funeral.

MISS ELIZA DENSON.

Miss Eliza Denison, who has been an invalid for some time, died at her home on East Church street early last Sunday morning, aged 70 years.

She despaired for many years lived with Mrs. Mary Nichols on Division street, until her death some years ago when Miss Denison was left, during her life time, the property on East Church street where she has since lived and died.

Funeral services were conducted Monday afternoon in Asbury M. E. Church by Rev. C. A. Hill, after which interment was made in the Church yard.

During her last years Miss Denison was cared for by Miss Margaret H. DeShell, who was her constant attendant and companion.

THE OUTLOOK BRIGHT.

Although the campaign is not yet under way, the situation presented to the Democrats at this time is one of great encouragement. The party is in good condition in both the State and county. For the past six weeks the Democrats have steadily gained throughout the State and in Baltimore City, and while in one or two of the counties there is some trifling disaffection yet it is not of sufficient proportion to cause any alarm.

In Wicomico there is not the slightest doubt of victory at the coming election—the only question being as to majority. From every district comes the report that the people are willing to "take off their coats" and work for the success of the ticket. Every one realizes that the Democratic convention was guided solely with the purpose of placing before the people a ticket which would command their respect. Every candidate can depend upon to do his duty under all circumstances and in the various positions to which they will be called, to work for the best interests and advancement of their county and State.

With the Republicans there are dissensions in many counties and also in Baltimore City. In some counties like Dorchester, the dissatisfied element is of such dimensions as to make the county surely Democratic. Here in Wicomico we hear much muttering and the discontented are loud in their talk of what they will do should "the powers that be" place upon the ticket at next Thursday's convention some of the names now prominently mentioned.

Another thing that will greatly hurt the Republican party in the coming fight is the open secret that McComas has decreed, in case the Republicans carry the State, that the Senatorial mantle shall fall upon either Goldsborough or Mudd. The best element of the Republican party is opposed to both of these men and the knowl'ge before hand that, in case of victory, they must swallow either the boss of Southern Maryland or the boss of the Eastern Shore has caused a number to become lukewarm. The expression of a prominent young Republican on Main street recently about states the situation with this class of voters. In speaking of the probable choice of the next Legislature for U. S. Senator he said, "I had just as leave see Gorman as Goldsborough."

Altogether the outlook for Democratic success is very bright and if everyone interested in the party's success will do his duty there need be no fear but that Maryland will once more swing back into the Democratic column.

AND WILL THE WHITE PEOPLE OF WICOMICO DO IT?

The Cecil Democrat says:

The negro knows that he composes a powerful minority in his party in this county and that he intends to be recognized. The Republicans in the late

county convention evidently so regarded it, and while they did not nominate a negro for office, they did the next best thing—nominated for the legislature men who have openly and publicly announced their love and admiration of the negro, and expressed most emphatically their belief that he is the equal of the white man.

Will the white people of Cecil county vote to send such men to the legislature to make laws for our government?

TALBOT COUNTY FAIR.

In our columns today appears the advertisement of the Talbot County Fair, which will be held at Easton, Maryland, September 24, 25, 26.

As this season approaches we all look toward these annual meetings with interest and anticipation, and we are assured by the officials that this year's Fair will be one of the most attractive ever held on the Eastern Shore. New features and attractions have been provided, prices of tickets reduced and every comfort provided for visitors. All our readers should join in making this the banner meet of the Fair's history. Send in your exhibits, attend the Fair and meet your friends there, giving your family an outing and the Fair a boom. Read the advertisement and don't forget the date comes at the pleasantest and most convenient season, Sept. 24, 25 and 26.

HOW REPUBLICANS RAISE MONEY.

The trust-loving farmers of Harford will be pleased to learn as a further evidence of the county's prosperity that the manufacturers met Wednesday and decided to advance the price on plows ten per cent. They want that much additional profit as a further contribution to the Republican party campaign fund this fall.—Harford Democrat.

The above information is equally as interesting to the farmers of Wicomico as to those of Harford.

Among the improvements to the Salisbury High School now being made by Mr. Thos H. Mitchell by authority of the School Board none are more important than the plumbing of the building.

A closet with two stools will be placed on the ground floor for the female students, and a similar one with urinal on the same floor on the opposite side of the building for the male students. Two wash basins will be placed at convenient stations on the first floor.

The Commissioners are striving earnestly to elevate the school system in the county, and are using the school funds with a judicious liberality to this end. The only pity is that our county cannot afford larger expenditures in the interest of education.

The Peninsula Democrat of Easton says: As stated in the Peninsula Democrat last week, there is good reason to believe that there will be an independent Republican ticket in the field.

Broad Creek, Christ Church. The all-day services at this historic old church will be held, D. V., on Thursday Sept 19th Bishop Coleman and other clergymen are expected to officiate. All are cordially invited. Collections are for repairing the church Holy Communion 9:30 a. m. Morning Prayer and 11 a. m. sermon. Evening prayer and 8 p. m. sermon.

Commencing Wednesday August 28th and continuing until further notice the afternoon Baltimore Express Train No. 10 of the Baltimore Chesapeake and Atlantic Railway Company will leave Ocean City, Berlin and Salisbury and intermediate stations 50 minutes earlier than on the present schedule.

A. J. BENJAMIN,
Superintendent.

Warren Hayman, a respected colored citizen, died at his home on Water St. last Sunday of tuberculosis, aged 42 years. He was a son by a second marriage of Rachel Hayman a woman of about 70 years who has lived in Jersey for the past fifty years. Her first husband was Handy Jones, who left three sons, S. W. Jones, C. C. Jones and Frank W. Jones and two daughters Clara C. Jones and Anna M. Jones who married Geo. Dixon of Atlantic City. Joshua Hayman was the second husband and Warren was the only child. The funeral took place on Wednesday and was the first time in twenty years that all the children had met.

"TO THE STARS AND STRIPES."

A Multitude Gathers to Witness The Unveiling of the Monument at Cooch's Bridge.

The unveiling of the Monument to the Stars and Stripes at Cooch's Bridge Wednesday, September 3rd was one of the most notable events in the history of the state of Delaware.

The erection of the tablet was brought about by the untiring efforts of the patriotic organizations of the State, the Sons of the American Revolution leading the way. The Colonial Dames, Daughters of the American Revolution, the Cincinnati and similar organizations contributed liberally to the fund, and substantial aid was also received from many residents in all parts of the State.

It was at Cooch's bridge, which is near the line of Cecil county, Maryland that a lively skirmish was fought between an advance of General Howe's British army, then on its way to Philadelphia, and a detachment of Washington's army under General Maxwell. The flag, the present Stars and Stripes, according to the belief of historians, was first carried in battle at this point.

Chief Justice Charles B. Lore presided at the exercises and there was a large gathering of members of the societies and leading men of the State. Bishop Leighton Coleman, of the Episcopal Diocese of Delaware offered the invocation, and Henry C. Conrad, of the Delaware Historical Society read a history of the struggle between the patriots and the invaders. The monument was unveiled by Howard Dehaven Ross, Jr., son of a prominent member of the committee, and Francis Allyn Cooch, Jr., two small boys, Hon. J. Wilkins Cooch, who owns the property upon which the monument stands formally presented the ground to the State, and it was received by Governor John Hunn.

Brief speeches were made by Walter S. Logan, president-general of the Sons of the American Revolution; Gen. James H. Wilson, of the United States Army; Robert G. Houston, of Georgetown, and others. William T. Smithers, of Dover, read an original poem and the benediction was pronounced by Rev. Thomas C. Potter.

Special trains were run from Wilmington and other points and number present was estimated from two to three thousand.

A barn on the farm of Mrs. L. R. Lee, near Jiamaville, Frederick county, tenanted by Edward Gaste, was destroyed by fire Saturday, with three horses, all of the year's crop and valuable farm machinery. The loss will total about \$5000.

**Nelson's Remedy for Rheumatism
is Curing Thousands**

Within the past half year, when Nelson's Remedy for Rheumatism was brought to public attention in this section, the cure has doubled almost every month. The fact that in not one case in a thousand is it necessary to refund the money—which is always done over and over again—gives people who suffer from Rheumatism and kindred ills a confidence in this great medicine which has induced thousands to try it, and find the relief will surely give.

A Big Clearing Sale of Clothing.

Stylish made and perfect fitting Suits in sizes 34 to 42—not all sizes of course, in each assortment, but you're pretty sure to find just what you want among them. You can't afford to miss this bargain opportunity. The suits come in fancy Cheviots and Cassimere and Flannels—are beautifully tailored and finished and perfect in fit and style. You can buy suits anywhere for \$5, but not suits that have been selling for \$10, \$12 and \$15. That's why Lucy Thoroughgood urges you to take advantage of so exceptional a chance. Think of it, \$10, \$12, and \$15 suits selling for \$5! These suits are one-half summer and fall weights and the other half are winter goods from last winter's stock. Every suit is perfect and guaranteed to be worth double \$5 or more. Thoroughgood is trying this low price magnet to draw the people to his store during the usual dull season. Yes, if you come and come soon, you can buy for \$5 a man's suit worth \$10, \$12 and \$15 for \$5 only. It's just like giving you a suit of clothes—\$5 for a suit worth \$10, \$12 and \$15—think of it. It's no lie either, I am going to do it. Of course the suits cost me more than \$5, but my loss is your gain. Come and see.

The manufacture of apple barrels has been started in Hagerstown, and 10 hands will be employed. Fifteen thousand barrels will be made this season.

A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin afflictions. Accept only the genuine. Dr. L. D. Collier.

Two thousand people attended the reunion Saturday of Allegany Odd Fellows at Midland. Nearly all the lodges of the region round about were represented.

Rev. T. A. Johnstone, pastor of St. Phillip's Protestant Episcopal Church, Laurel, Md., has gone for a six weeks' absence in Europe and to visit relatives in England. The loss is \$3000, insured for \$3100.

An unknown negro grabbed Miss Flora Dorn as she was waiting along the street in Cumberland and bit her severely on the cheek, but fled when she screamed for help.

B. W. Pursell, Kintnersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve affected a permanent cure. Counterfeits are worthless. Dr. L. D. Collier.

Among the recent appointments made by President McKinley of civilians to be section lieutenants in the Army were nine former students of St. John's College.

The goat farm started at Cedarville, Prince George's county, by the National Angora Goat and Cashmere Company received last week 4,000 angora goats from Texas.

Sid Darling, 1012 Howard st., Port Huron, Mich., writes: "I have tried many pills and laxatives but DeWitt's Little Early Risers are far the best pills I have ever used." They never gripe. Dr. L. D. Collier.

The postoffice at Catlin and McGinnis, in Queen Anne county, were discontinued August 31, mail thereafter to go to Millington and be distributed by rural delivery.

A German farmer on Evitts Creek above Cumberland, had 47 bushels of potatoes washed clean of soil from a field during the cloudburst last week, says the Daily News.

The Prohibitionists in Montgomery county will make no ticket this year but vote for candidates of either party deemed most favorable to preserving the local option law.

Don't wait until you become chronically constipated but take DeWitt's Little Early Risers now and then. They will keep your liver and bowels in good order. Easy to take. Safe Pills. Dr. L. D. Collier.

Sweet potato shipments from the Eastern Shore counties of Virginia over the New York, Philadelphia and Norfolk Railroad are growing heavy. The crop is reported to be excellent.

There will be a plowing match next Saturday morning at the Baltimore County Fair with a three-horse left-handed Syracuse plow. The first prize will be \$10, and the second prize \$5.

Henry Brayden, Harris, N. C., says: "I took medicine for 20 years for asthma. One bottle relieved me and the second and third almost cured me. Today I am a well man." Dr. L. D. Collier.

Norris Silver, North Stratford, N. H.: "I purchased a bottle of One Minute Cough Cure when suffering from a cough doctor told me was incurable. One bottle relieved me and the second and third almost cured me. Today I am a well man." Dr. L. D. Collier.

Harry Ferguson, 20 years old, was killed by a fall while trimming vines over his porch in Cumberland. The fall was only 12 feet, but two ribs were fractured, causing internal hemorrhages, and Mr. Ferguson's nose broken. He died within two hours, leaving a widow and two children.

Some of the antique furniture sold at the sale of Miss Arianna Mathews in the Eighth district of Baltimore county, brought fancy prices, much of it having been in the family more than 100 years.

The new recitation hall of the Hanover More Academy, Reisterstown, is 100 by 50 feet and three stories high. Among other improvements at the school is the installation of a complete water plant.

The work of dredging the channel of Elk Creek from the Elkton wharves to Morgans Shoals, by the Atlas Dredging Company, is progressing rapidly. The channel has been dredged nearly the entire distance.

Many physicians are now prescribing Kodol Dyspepsia Cure regularly having found that it is the best prescription they can write because it is the one preparation which contains the elements necessary to digest not only some kinds of food but all kinds.

Therefore, cure: indigestion and dyspepsia no matter what its cause.

Dr. L. D. Collier.

At Westminster the coroner's jury investigating the death of Mrs. Matilda Ann Bowman, who was killed August 30 by a Western Maryland Railroad train, rendered a verdict exonerating the company and its employees from blame.

W. K. Niver & Co., of Baltimore, have purchased 15,800 acres of coal lands in the Meyersdale region and two shafts are being sunk. The company will mine with compressed air. About 1,500 men will be employed.

George W. Lane, Paw Paw, Mich., writes: "Your Kodol Dyspepsia Cure is the best remedy for indigestion and stomach trouble that I ever used. For years I suffered from dyspepsia, at times compelling me to stay in bed and causing me untold agony. I am completely cured by Kodol Dyspepsia Cure. In recommending it to friends who suffer from indigestion I always offer to pay for it if it fails. Thus far I have never paid. Dr. L. D. Collier."

Five hundred boats and 1,000 men and boys were engaged September 1 in oyster dredging on the public bars of Kent and Queen Anne counties. The first day of the tonging season brought out hundreds of other oyster men in the tide water counties.

A remedy for Nasal Cataract which is drying and exciting to the diseased membrane should not be used. What is needed is that which is cleansing, soothing, protecting and healing. Such a remedy is Ely's Cream Balm. Price 50 cents at druggists or it will be mailed by Ely Brothers, 56 Warren Street, New York. The Balm when pinched into the nostrils, spreads over the membrane and is absorbed. A cold in the head vanishes quickly.

The crop of sugar corn for canning purposes in Carroll county is enormous and the canning factories are taxed to their utmost to handle it. About 250 tons are being received daily at the two factories in Westminster.

Samuel Shenk's barn, on his farm near New Franklin, in Washington county, was destroyed by lightning Saturday afternoon, with 50 tons of hay and considerable farming machinery. The loss is \$3000, insured for \$3100.

A hearty appetite does not always indicate a healthy condition. It is not the quantity of food which is eaten but the quality which is assimilated, which determines the actual value of the food consumed. If the stomach and organs of digestion and nutrition cannot convert the food into nourishment, and into blood, then the food is an injury instead of a benefit. For all disorders of the stomach and its allied organs of digestion and nutrition there is a certain remedy in Dr. Price's Golden Medical Discovery. It removes clogging obstructions. It strengthens the stomach, nourishes the nerves, enriches the blood and builds up the body. It is a flesh-forming muscle making preparation, making firm flesh instead of flabby fat. "Golden Medical Discovery" contains no alcohol, whiskey, or intoxicant of any kind, and is equally free from opium, cocaine and all narcotics.

That the peach crop in Delaware will be shorter than was at first expected is evident from the fact that an official of the freight department of the Delaware Bellard Saturday said that the company will handle about 1,500,000 bushels instead of 9,000,000 bushels as first estimated.

The postoffice at Catlin and McGinnis, in Queen Anne county, were discontinued August 31, mail thereafter to go to Millington and be distributed by rural delivery.

Mr. Wm. E. Lowrey, tanner and oysterman of Cambridge, Md. writes:

For two years or more I have had rheumatism very badly and have tried many kinds of medicine without getting any relief. NELATON'S REMEDY is recommended to me by my physician and I tried it and found it good. I have not had any rheumatic pains or symptoms since and I tell any man to foolish to suffer with rheumatism when NELATON'S REMEDY can be had.

Mr. Moses Tisch of Easton, Md. writes:

NELATON'S REMEDY for RHEUMATISM is a wonderful medicine. It cures rheumatism and I have had it for 10 years. I have not had any rheumatic pains or symptoms since and I tell any man to foolish to suffer with rheumatism when NELATON'S REMEDY can be had.

Dr. J. E. R. Farnall of Snow Hill, Md., endorses NELATON'S as follows:

I have used the NELATON'S REMEDY in cardiac neuritis and general rheumatism with excellent results. The ingredients evidence a combination useful for arthritis and various forms of gout and rheumatism, particularly when accompanied with hepatic torpor.

For sale by Dr. L. D. Collier.

A Communication.

MR. EDITOR—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at night. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. BROCKMAN, Bagnell, Mo. This remedy is for sale by R. K. Truitt & Sons.

Mr. Joe Everett of Felton visited his sister in law, Mr. Joshua West, Sunday.

Most of our city visitors have returned home and our society people are recuperating for the next occasion. People are just beginning to realize that for a few weeks outing there is no more healthful and pleasant location on the peninsula. This is so for many reasons. Chief among these are the excellent drinking water and charming young ladies. Our many friends are always welcome. The latch string hangs outside, within easy reach of all who wish to avail themselves of our genuine hospitality.

Messrs. Thomas Farlow and B. D. Farlow are spending some time on the beach. We look for them home in a few days with any amount of game. They are expert marksmen.

Sharptown Campmeeting.

The Campmeeting closed on August 26th, without ceremony. The ten days outing was very much enjoyed, especially by the young people. The weather was fine. The preaching was done by only a few, but it was very well received. The religious results were not very encouraging, but social features were of the highest order. At the close of the camp there were several new applicants for new tents and one tent owner had three applicants for the purchase of his tent.

REPUBLICANS NAME TICKET.

County Conventions Reconvened on Thursday and Nominated a Full County Ticket.

House of Delegates:

W. M. H. KNOWLES,
E. S. S. TURNER,
ISAAC H. WHITE.

County Commissioners:

JOSEPHUS H. HAYMAN,
A. HARGIS JONES,
JOHN T. WILSON.

County Treasurer:

ISAAC L. PRICE.

Sheriff:

WM. B. BRATTAN.

Count Surveyor:

SAMUEL E. POSKEY.

The Republican County Convention which met here on July 22 and adjourned without naming a county ticket reassembled in the Court House bursday and named their local candidates. The Convention was called for on o'clock but owing to the pressing necessity of a caucus, it was nearly twelve when the doors were opened and no delegates declared themselves ready to go to work. In the caucus there was much wrangling but when it came to an open convention all rough spots had been sand-papered down and to all outward appearances it was highly harmonious.

Col. Alexander Warner the permanent chairman called the body to order. Mr. James O. Wilson and Capt. Frank Lannell acted as secretaries. On motion of Mr. Woodland C. Bradley the committee on resolutions were asked to formulate and present whatever resolutions they thought were proper. The committee then reported a long set of resolutions which were unanimously adopted. These praised the administration of William McKinley, thanked congressman Wm. H. Jackson for what he had done towards extending the telegraph system in the rural districts, commended the republican members of the last house of Delegates or their strenuous opposition to the new section law passed at the extra session, denounced "that base rascal" who wished to go to the United States Senate after he had been twice repudiated by the people of the State, and extended their sympathy to the wounded President of the United States. Nominations for the House of Delegates were then called for. Mr. John T. Ellis named Isaac H. White of Salisbury district, Levin H. Bailey nominated W. M. Knowles of Sharptown and E. H. Bailey, Capt. E. S. S. Turner of Nanticoke. These were unanimously chosen. County Commissioners Messrs. John T. Wilson of Baron Creek, A. J. Jones of Dennis and Josephus H. Hayman of Nutters were named by Mrs. Peter Graham, Merrill H. Raftt, and Oswald P. Layfield respectively. Isaac L. Price of Parsons was named by Wm. E. Booth and was unanimously chosen, for County Treasurer. Mr. Wm. B. Brattan of Pittsburg was chosen for Sheriff and Samuel E. Poskey received the nomination for County Surveyor.

After the nominations had been made, the candidates for Legislature were called upon to address the convention. Both Mr. Knowles and Capt. Turner who were in the hall gladly responded but owing to the absence of Mr. White a committee was appointed to notify him and asked him to come before the convention and make a short address, which he cheerfully did. After these short speeches the convention adjourned and on the invitation of congressman Wm. H. Jackson took dinner at the Peninsula Hotel.

After adjournment many unfavorable comments were heard on the part. Many "dyed in the wool" republicans openly declared that they could not support a ticket, so plainly the work of a "master hand"—a ticket made out by a boss for the furthering of his own ends. Such was the talk on Main Street after the convention as to whether oil can be poured upon the troubled waters between now and the fifth of November remains to be seen.

Live Fox Hunt at the Talbot Fair.

The gentlemen in charge of the arrangements assure us that the Live Fox Hunt promised for Wednesday at the Talbot Fair will be a thrilling affair. Visitors at the Fair will enjoy a rich treat with all the excitement of the race and none of its hardships or inconveniences. There will be nothing to mar the enjoyment of the ladies and children while it will delight the heart every old veteran of this sport. Let our families enjoy this treat for it is an opportunity rarely ever offered.

TEACHERS INSTITUTE.

Interesting and Profitable Program for the Week.

The teacher's Institute to be held in the Court House next week will be of special importance to the teachers of the county. Every teacher is under as much obligation to attend the Institute as he is to open the doors of his school room. The compensation is the same as teaching and the week's instruction ought to be of inestimable value to the teachers. It is the duty as well as the privilege of the teachers to aid in making it a great success. An interesting program, with a "round table" exercise has been prepared and forwarded to the teachers.

A large number of teachers have been assigned a place, in the "round table" talk, and those not assigned, in fact every teacher will be expected to take some part in the work and it should be a pleasure to do so.

The program has been arranged in harmony with the Manual of Institute work as furnished by State Board of Education. In addition to the program, the social features will be of a high order and a good time may be expected by all, but the first duty will be instruction and in this particular every teacher is expected to be benefited.

The date fixed by Prof. Stephens is the very best that could have been selected and being in the opening week of school and at a season when the conditions of the weather are fine, enables all the teachers to be present and to get, at the very opening of school, a full idea of the work to be done. With the programs sent out the teachers have been supplied with a copy of the new schedule of studies as given by the State Board of Education. The teachers will be expected to carry out to the letter the schedule of work and their duty to do this will be made plain during the Institute.

It puts a system of school work before our teachers far in advance of any previous system and gives the schools throughout the State a uniform system. When a grade is completed in one school it is equal to the same grade in any other school.

Secretary Bounds has prepared and sent out to the teachers special schedules of each, and named the books to be used as text books and those to be used as guides in conducting the work as laid out. This has been made so plain that the teachers will have no difficulty in doing the full schedule work. It certainly gives our schools an advanced step and it should be the delight of every teacher to see that the school work is done in full accord with the schedule. The week of Institute will fully equip the teachers for the great work before them and it is the object of the authorities to see that the new schedule is strictly observed and carried out as full as possible and by these combined efforts it is expected, with much certainty, that much progress will be made in our school work.

DIAMOND STATE TELEPHONE CO.,

THE TELEPHONE CONTROVERSY.

President A. J. Benjamin Takes Notice of Mr. Richardson's Letter in Last Week's Advertiser.

The following letter has been mailed to the Diamond State Telephone Co. of Dover by the President of the Salisbury Telephone Co. The letter explains itself.

SALISBURY, Md., Sept. 19th, 1901.

MR. H. A. RICHARDSON, Pres.

Dear Sir—For a proper understanding of the position of the Salisbury Telephone Co. in its relation to your company and long distance telephone service, we take the liberty of addressing you in reply to your letter published in the Salisbury Advertiser, Saturday September 7th, 1901.

In this letter you say that the Diamond State Telephone Co. has never directly or indirectly made an offer for all or any part of the stock of the Salisbury Telephone Co., and imply that no negotiations have existed for the control of our company and that no effort has been made to enter the City of Salisbury with your line.

We can only interpret your statement to mean that your many interests have prevented your following the subject for the past twelve months, as during this period we have been offered a lump sum for our stock by a representative of your company and have had several meetings, by appointment, with the same parties to discuss terms upon which we would either sell to your company or agree to your entering our field.

The negotiations for the purchase of stock failed, because of our inability to agree with the views of your representative.

The question of long distance service by your company is still pending and awaiting your action.

We proposed some months ago to build a line through our County, connecting all subscribers desiring a long distance telephone in the City of Salisbury, and lease the use of same to your Company for long distance service at a fair and reasonable price. The line is to be built according to your specifications and, if desired by your workmen.

At our last meeting with your representative, about a month ago, we were promised the number of miles of pole and wire line desired, with specifications for building same, upon which we agreed to name a price of rental. We have since been awaiting your communication.

We have always treated the telephone business and the franchise under which we work as a public asset and have done what we could to invest the interest to the best advantage and convenience of our citizens. Our development has been along the lines suggested by our subscribers and the City Council has always been invited to express their wishes relative to our management.

Since this matter has been under discussion, we have asked advice of our citizens and have held ourselves ready to transfer or retain control of the management as they desired.

We realize that a long distance service would be a convenience and advantage to our subscribers and have courted every opportunity to secure it for them. For three years we have owned a line to Delmar, Del. and would gladly have extended it to Laurel for the purpose of connecting it with your system at that point, but could not secure a charter to build our lines in the State of Delaware presumptively because you control the telephone privileges of that State.

We do object, however and have so advised our City Council and citizens, to inviting a long distance service at the expense of an unnecessary line of big poles through our roads and already overcrowded streets, when the facilities necessary can be secured at much less expense to you and no additional inconvenience to the City by using the pole line now existing.

The Salisbury Telephone Co. renews its invitation to your Company to furnish long distance service to its subscribers and will do all in its power, consistent with the interests involved, to assist you in securing the end desired.

Yours very truly,

A. J. BENJAMIN

President

Diamond State Telephone Co.

SALES FOR THE TELEPHONE COMPANY.

The School Board.

The School Board held a very busy session on Monday doing a great deal of business. The Secretary had made the necessary arrangements for the Institute. The Institute for colored teachers will be arranged at a late date and the colored schools will begin on Monday. There were several vacancies in the colored schools in the county but the Secretary was instructed to arrange for them, selecting the best available teachers.

The trustees of Pittsburg district, School No. 12, wanted some repairs done to building and authority was given them to have the work done.

Miss Lulu M. Phillips was given a free scholarship at State Normal School. The Secretary reported a vacancy in the Maryland Institute School of Art and Design in Baltimore City, as this country was entitled to send a new student for every year for four years. Miss Alice Taylor of Riverton entered last year. The School district lines in the new districts of Delmar and Nanticoke needed some changes and Secretary was instructed to make them.

County Commissioners.

The County Commissioners in session last Tuesday, granted a pension of \$2. per month to Miss Margaret Dashiel.

Charles L. Dickerson was appointed keeper of the pivot bridge.

The Board instructed the clerk to notify holders of county script issued prior to 1899 that interest on same will be stopped after October 1st.

D. R. Holloway, John W. Truitt, Benj. D. Farlow and P. S. Shockley were appointed commissioners on the Brattan—Hearn road.

Smallpox Cases Reported.

Denton, Md.—Dr. Jefferson, of Federalsburg, and Dr. Noble, the county health officer, have reported several cases of smallpox in the southern part of Caroline county, near the Delaware line. The County Commissioners are urged to take some action to prevent the spread of the disease. The origin of the cases was traced to a negro camp-meeting, which was closed several days ago. The meeting was attended by thousands of colored people.

FRANKLIN BUCHANAN CULVER,
Democratic Nominee for House of Delegates.
Was born in Somerset county (now Wicomico) March 22, 1859. For several years he has been extensively engaged in the mercantile and oyster business at Tysaskin. Mr. Culver was never before a candidate for public office. He is well and favorably known in his community as a hustling business man, who has achieved success.

JOHN W. JONES.

Democratic Nominee for Co. Commissioner.
Was born in 1841 in Worcester county, near the Delaware line. His education was obtained in the public schools of the county. Mr. Jones is quite an extensive farmer, fruit grower and nurseryman. He has served four years as County Commissioner. Mr. Jones is a very competent business man and made a splendid record as County Commissioner.

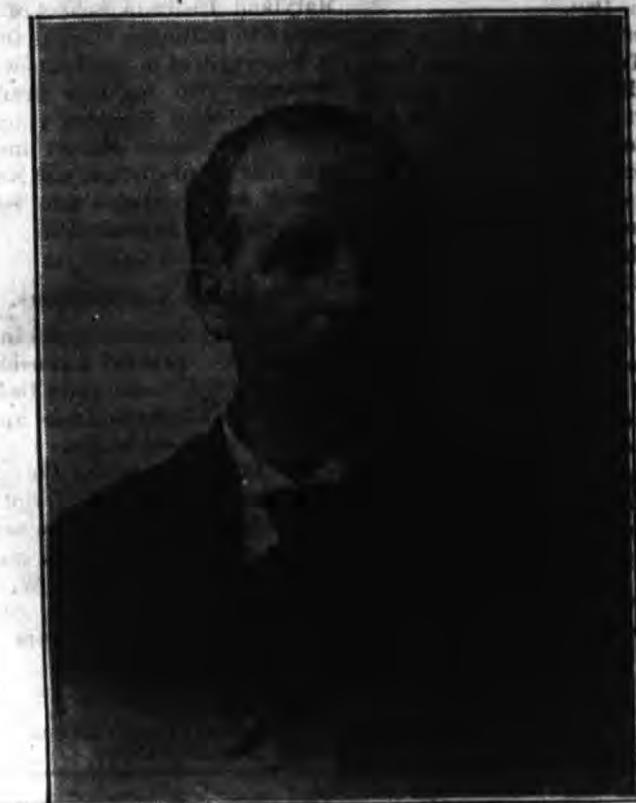

JAMES A. WALLER.

Democratic Nominee for Co. Commissioner.
Was born near Delmar in February, 1857, and was educated in the public schools of the county and in the Salisbury High School. He is engaged in farming and milling. Was never before a candidate for public office. Mr. Waller is a successful business man. He is a son of the late George Waller, who was an old-time Democrat and one of the best Commissioners the county ever had.

ALBERT L. JONES.
Democratic Nominee for House of Delegates.
Was born in Quantico, January 18, 1832, and for the past twenty years has been engaged in the mercantile business in Quantico with his brother, T. H. Jones. Mr. Jones served six years as School Commissioner—the only office he ever held. He is a vestryman of St. Philip's Protestant Episcopal Church, Quantico.

HON. CHARLES F. HOLLAND,

Nominee for Associate Judge of the First Judicial Circuit.

Was born in Sussex County, Del., April 3, 1831. His early education was obtained in the public schools and Milton Academy, and subsequently he pursued a classical course at Milford. After graduating when in his twenty-first year, he began the study of law in the office of Judge Layton, in Georgetown, and in 1856 was admitted to the bar. For one year he engaged in practice with Judge Layton, and then in 1856 came to Salisbury. He soon built up a lucrative practice. Upon the election of Judge Ephraim E. Wilson to the United States Senate in December, 1851, Judge Holland was appointed to the bench, and at the next general election he was elected for the full term.

J. CLEVELAND WHITE,
Democratic Nominee for House of Delegates.
Was born in Chestertown, Md., March 26, 1870. He is a son of Mr. John H. White, cashier of the Salisbury National Bank, and a grandson of the late State Senator George R. Vickers. Mr. White is a graduate of the Salisbury High School, and is one of the editors and proprietors of the Salisbury Advertiser. He is a director in the Wicomico Building and Loan Association and is engaged in the insurance business. He has never held public office. In 1900 he was a member of the Democratic Campaign Committee and worked for the success of the national ticket.

SOLOMON G. TRUITT,

Democratic Nominee for Co. Commissioner.
Was born in 1851, in Worcester (now Wicomico) county, and has never held public office. He is engaged in agricultural pursuits and is regarded as a very competent business man. Mr. Truitt is a prominent member of the Methodist Episcopal Church.

DR. HENRY LAIRD TODD,

Democratic Nominee for Treasurer.
Was born in Salisbury January 29, 1850, was educated in Salisbury, and practiced medicine successfully for several years. Dr. Todd is an Elder in the Presbyterian Church. For the past six years he has filled the office of County Treasurer with ability and to the satisfaction of the public.

GEORGE W. FOOKS,
Democratic Nominee for Sheriff.
Was born in Worcester county October 27, 1857, and has been farming all his life. Mr. Fooks is now a resident of Nanticoke District, and is postmaster of Kelley. He has never before been a candidate for public office.

The above cuts and sketches of the nominees of the Democratic party for Wicomico county are taken from the last issue of the Wicomico News.

PITH AND POINTS.

Very few people want to know the truth unless it fits their prejudice.

Every one who doesn't like you is looking for a chance to laugh at you.

A great deal of nerve is sometimes necessary to keep from being cranky.

You know a whole lot if you know enough to know you don't know anything.

When a boy is not invited to a party, he hangs around the outside to see how things are going.

When a dressmaker makes a quilt out of silk scraps, the women begin to look at her with suspicion.

Everyone is some kind of a sinner. The employee too honest to take a postage stamp will steal his employer's time.

A Newspaper for Chincoteague.

This has been subtitled for the erection of a large building on Chincoteague Island the lower floors to be used as a drug store and the upper stories to be used as a newspaper office. Governor Wise is said to have declared in one of his campaigns that there was not a newspaper published in his district. The publication of this paper will give his own county four weeklies. The opening of a book store and the publication of a newspaper evidence the great change Chincoteague has undergone in late years. At the commencement of the Civil War the population was about 800, three-fourths of whom were illiterate. The last census shows a population of nearly 8,000, five public and two private schools, five churches, much wealth and improvement on every hand.

THE PRESIDENT SHOT.

Although Wounded Twice His Recovery is Confidently Looked for—His Assasin an Anarchist.

William McKinley, President of the United States, was shot twice and seriously wounded by Leon Czolgosz, a self confessed anarchist, at 4 o'clock last Friday afternoon in the Temple of Music at the Pan American Exposition at Buffalo.

President McKinley is holding his own against the ravages made by the bullet fired by the assassin Czolgosz.

The assassin denies that he had an accomplice, but an unknown Italian, who was near him before he fired, acted suspiciously. Czolgosz says he is a disciple of Emma Goldman. Late Friday night six anarchists were arrested in Chicago, charged with being implicated in a plot to kill the President.

The President was holding a public reception. The edifice was packed with people. Czolgosz was in the line of those shaking hands with the President. One of his hands was concealed by a bandage, which also hid a revolver. As the President turned smilingly toward him and extended his hand the Pole fired twice before two Secret Service officers and a colored man seized and disarmed him.

The shots were followed by the widest confusion. Women and children were almost crushed in the panic. The President alone was calm. He stepped back, dropped into a chair on the dais near the great organ, turned to a friend and said, "I am wounded." The next thought was of his wife. "Do not exaggerate the extent of my injury," he said. The wounded President was removed to a hospital on the grounds, where physicians and surgeons examined him. It was found that one bullet had struck the breastbone and glanced off. The other penetrated the stomach and the surgeons were unable to locate it. The President bore the operation well and for the past week has been steadily improving and at this time his recovery is thought to be an assured fact.

The news of the shooting was flashed across the continent it was so terrible that very few believed it at first and for an hour afterwards could be heard the expression, "It can't be true."

Profound sorrow passed over the country and at every bulletin board great throngs of people gathered and waited for hours to read every message that could throw light on the horrible attempt to assassinate the President.

On Sunday and on Tuesday special services were held in the churches throughout the country and prayers offered that the President might recover.

The statement made by Leon Czolgosz to the police is as follows:

"I was born in Detroit nearly 29 years ago. My parents were Russian Poles. They came here 42 years ago. I got my education in the public schools of Detroit and then went to Cleveland, where I got work. In Cleveland I read books on socialism and met a great many socialists. I was pretty well known as a socialist in the West.

After being in Cleveland for several years I went to Chicago, where I remained seven months, after which I went to Newburg on the outskirts of Cleveland, and went to work in the Newburg Wire Mills.

"During the last five years I have had as friends anarchists in Chicago, Cleveland, Detroit and other Western cities, and I suppose I became more or less bitter.

I, Yes, I know I was bitter. I never had much luck at anything and that preyed upon me.

THE CRAZE TO KILL.

"It made me morose and envious, but what started the craze to kill was a lecture I heard some little time ago by Emma Goldman. She was in Cleveland and I and other anarchists went to hear her. She set me on fire.

"Her doctrine that all rulers should be exterminated was what set me to thinking, so that my head nearly split with the pain. Miss Goldman's words went right through me, and when I left the lecture I had made up my mind that I would have to do something heinous for the cause I loved.

"Eight days ago, while I was in Chicago, I read in a Chicago newspaper of President McKinley's visit to the Pan-American Exposition at Buffalo. That day I bought a ticket for Buffalo, and got here with the determination to do something, but I did not know just what. I thought of shooting the President, but I had not formed a plan.

"I went to live at 1078 Broadway, which is a saloon and hotel. John Nowak, a Pole, a sort of politician who has led his people here for years, owns it. I told Nowak that I came to see the fair. He knew nothing about what was setting me crazy. I went to the exposition grounds a couple of times a day.

MURDER IN HIS HEART.

"Not until Tuesday morning did the resolution to shoot the President take a hold of me. It was in my heart; there was no escape for me. I could not have conjectured it had my life been at stake. There were thousands of people in town on Tuesday. I heard it was President's Day. All those people seemed bowing to the great ruler. I made up my mind to kill that ruler. I bought a .32 caliber revolver and loaded it.

"On Tuesday night I went to the fair grounds and was near the railroad gate when the presidential party arrived. I tried to get near him, but the police forced me back. They forced everybody back so that the great ruler could pass. I was close to the President when he got into the grounds, but was afraid to attempt the assassination, because there were so many men in the bodyguard that watched him. I was not afraid of them or that I should get hurt, but afraid I might be seized and that my chance would be gone forever.

"Well, he went away that time and I went home. On Wednesday I went to the grounds and stood right near the President—right under him, near the grandstand from which he spoke.

COULDN'T GET CLOSE ENOUGH

"I thought half a dozen times of shooting while he was speaking, but I could not get close enough. I was afraid I might miss, and then the great crowd was always hustling, and I was afraid lest my aim fail. I waited until Wednesday, and the President got into his carriage again, and a lot of men were about him and formed a cordon around him and I hid myself behind a handkerchief. I would have fired more, but I was stunned by a blow in the face—a frightful blow that knocked me down—and then everybody jumped on me. I thought I would be killed, and was surprised the way they treated me.

"Then he came—the President—the ruler—and I got in line, and trembled until I got right up to him, and then I shot him twice through my white handkerchief. I would have fired more, but I was stunned by a blow in the face—a frightful blow that knocked me down—and then everybody jumped on me. I thought I would be killed, and was surprised the way they treated me.

—Of the nominees of the Republicans just one third were formerly identified with the democratic party.

Some democrats are born republicans, some achieve republicanism and others have republicanism thrust upon them.

The ticket nominated by the Republicans last Thursday is made up of some tried and true Republicans and some others who have been tried by both parties. One of the nominees for the House of Delegates will be especially easy of recognition by the people of the county as a mighty war horse of Democracy in former days.

—The Snow Hill Messenger referring editorially to the Democratic ticket recently nominated in Wicomico county says: "Some of the most prominent citizens of Wicomico county are out in the Wicomico News in letters endorsing the Democratic ticket nominated in that county last week. Among the number is Hon. James E. Ellegood, Dr. F. M. Siemons, William B. Tilghman, A. A. Gillis and others. Dr. Siemons says it is the best ticket as a whole ever nominated in Wicomico county. We believe the testimony in behalf of the nominees from such men means their triumphant election."

MR. MCKINLEY'S CONDITION.

The latest news of President McKinley, whose life was attempted by a frenzied anarchist at Buffalo last Friday afternoon, is of a most discouraging character. From the first the country was led to hope that the President's life would be saved and when on Wednesday his physicians declared with one accord that all danger was past, the American people again breathed freely.

Friday, however, the country was again awakened to the deepest anxiety by telegrams which told of an alarming sinking spell the President had suffered Thursday night. Later he rallied but the gravest doubts are entertained of his recovery, and his death at any hour would cause little surprise. The latest bulletin from his bedside, before the ADVERTISER goes to press was posted by the Postal Telegraph Co. at 2:24 Friday afternoon. It read:

Buffalo N. Y. Friday, 2 p.m.

The President's Physicians report that his condition at one o'clock is practically unchanged since the nine o'clock bulletin; he is sleeping quietly.

GEO. B. CORTELYOU
Secy. to Pres't.

It is the sincere prayer of every patriotic American that the President may recover. But whether the assassin's bullet shall cause his death or not public sentiment will demand that the government shall begin now the work of ridding this country of anarchy.

MACARTHUR AND SAMPSON.

The Baltimore Sun observes: General MacArthur gave out an interview the other day which may be construed as a sarcasm upon the Navy Department and upon naval methods generally. When General Funston cap-

tured Aguinaldo by guile all extolled his bravery and address, but many criticised his methods of making the capture as employing means unworthy of a soldier. Now comes General MacArthur and declares that the plan of the capture was his own and that any criticism which is to be made should be aimed at him. General Funston was simply obeying orders. But, added General MacArthur, all credit for the achievement belongs to General Funston. He did not telegraph to Washington that "the army under my command presents Aguinaldo as a Fourth of July present to the American people." He mentioned the man who did the work and added that he (MacArthur) personally was not present.

THE ELECTION LAW AND NEGRO SUFFRAGE.

It is pretty well understood, and so far as we are concerned we do not hesitate to say, that the amended election law was passed for the express purpose of limiting the suffrage of the negro so far as the constitution would permit. In this Maryland has but followed the example of other Southern States where the conditions made it imperative that something be done to maintain white supremacy. Accordingly State after State amended their election laws, generally along educational lines, and forced from the electorate a large portion of the negro voters.

A few years ago this action would have aroused the North, and the press of that section as well as all public speakers and legislative representatives would have howled about the oppression of the poor negro. But such is not now the case. The people of the now United States recognize that the placing of the ballot in the hands of the negro was a mistake. After thirty-five years of indulgence, of special fostering and generous encouragement and of liberal educational facilities, the negro is but little advanced beyond his starting point. The only advance he seems to have made is in impudence, indolence and crime. It is a well known fact that the better negroes are the older ones who were raised as slaves, but that the younger element, particularly where they have picked up a little education, are thoroughly worthless, and in the aggregate constitute a menace to society.

After the Civil War had ended and the negroes were free, the Nation recognizing their helplessness, made them public wards. Every possible opportunity was given them to reach a higher social, industrial and educational plane. So eager were those then in power to elevate this race that everything possible in a legal way was done to make the negro the white man's equal. These advantages have been enjoyed without restriction for over a generation, but the laws of man cannot usurp the laws of Nature and the negro remains a negro still and the white man's inferior in spite of legislative enactment and Yankee philanthropy.

Slowly this has been dawning upon the minds of those people who seeing little of the negro have always believed him worthy of all that had been done for him. Gradually the veil is being lifted and the negro is being seen as he really is, hence when the South asserts the right of the white man to control, there is practically no protest from the erstwhile champions of the negro, and those States are permitted to go as far as the Constitution will permit in reducing the political power of the inferior race.

Maryland being a border State and the dumping ground for many of the negro refugees of the South, has been suffering more or less for a number of years from a large negro population which has retarded the agricultural and industrial advancement of the section in which they predominate, and given local power to individuals who have proven themselves a disgrace to their party and the State. These conditions have been growing worse from year to year until like other Southern States Maryland has protest by passing an election law which will probably cut out a large proportion of the negro vote and cripple their political power.

As the Republican party gets the entire negro vote and depends upon it for a fighting chance in this State, any movement on the part of the Democrats to restrict or limit that vote alarms them exceedingly. They look upon it as a vital blow at their political possibilities and very naturally protest vigorously against it in their conventions.

Taking this view of it therefore is there a Democrat in the State of Maryland who does not stand with his party upon this question? Is there a Dem-

ocrat who is not in favor of restricting the negro vote? Is there a Democrat who can conscientiously support the Republican party in its attempt to hold on to the negro and make him the white man's equal?

We believe that the passage of the amended election law was aimed at the negro, and that it is right and proper, and further that it ought to receive the approval of every Democrat and all those Republicans who believe the negro is an incubus upon that party and not entitled to the same rights and privileges as the white man.—BY EDITOR GEORGE R. ASH OF THE CECIL DEMOCRAT.

SETTLING UP A SCHOONER'S TROUBLES.

It is reported that the troubles between the owners of the new schooner Sallie C. Marvill and the Sharpstown Shipbuilding Company, the builders, have been settled, but the damages to the railroad bridge over the Nanticoke river at Vienna, remains to be adjusted. The Marvill was quietly taken from the yards of the builders three weeks ago and towed to Baltimore. She was cut out on a dark and rainy night. It was while hastening to Baltimore that the schooner, in tow of a tug, collided with the railroad bridge.

SELLING CORN CROPS.

Chestertown, Md.—Some farmers of Kent have already sold their this year's corn crop at 50 cents per bushel. Others are holding for higher prices. The selling of corn crops still standing in the field is a thing hitherto almost unknown in Kent county, but it is a common occurrence with wheat. Reference to an old bill of sale shows that corn in August 50 years ago sold at 88 and 80 cents for yellow and 69 cents for white. Red wheat sold at the same time at 78 and 82 cents, and white wheat at 82 and 85 cents; oats, 28 and 30, and rye, 68 and 64 cents.

In these days when a man says "I am a Democrat," it is not necessary to ask what kind of a Democrat he is. A month ago there were a half-dozen different kinds of Democrats. Now there is only one kind. They are all oyster Democrats.—Denton Union.

THE DIFFERENCE.

Quite a number of years ago, so it is related in history, the elder George Washington caught onto the fact that George, Jr., had gone out and chopped down a cherry tree. All the different histories tell the same thing—it was a cherry tree. Whenever you read about it in rival newspapers, papers that even change the wording of the Lord's prayer so that they will have it a little "up To-DATER" than their "esteemed contemporaries" all tell that it was a cherry tree; you never hear of it as a walnut, butternut, hickory, maple, sycamore, beech, not even as a "Chestnut," it's always been a cherry tree. It has always been a sort of a source of wonder why George chopped down this tree, until one of George, Sr.'s body servants told in confidence that George, Jr. overheard George, Sr. complain that he thought there ought to be more than one cherry in a cock tail, and in order to supply his dad with cherries, Geo. Jr. chopped down the tree so that he could get them handily. Any other boy would have climbed the tree, but Geo. Jr. was making history and he couldn't stand to climb it. So that's the reason that George used a hatchet to supply cherries for cocktails. There are some other things that are different—they wore coats or jackets longer than they do now—and they wear too long, especially if they are bought at LACY THOROUGHGOOD'S Store, and even if they wear too long you can afford to give yours away when you can buy Men's Suits at \$6.50, \$8.50, \$10.00, \$12.50 and \$15.00. Lacy Thoroughgood's New Fall and Winter Stock of Clothing is now ready and in his store for sale. Lacy Thoroughgood's New Fall and Winter Stock of Men's, Boys' and Children's Hats are now ready and in his store for sale. Speaking of Men's and Boy's Hats, Lacy Thoroughgood carries one of the greatest lines in the country, from a boy's 25c. cap to a \$1.25 Hat for a boy, and Hats for Men from a 50c. Hat to the finest Hat made and you'd have to double Lacy Thoroughgood's prices on Hats to get as good of anybody else.

A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin afflictions. Accept only the genuine. Dr. L. D. Collier.

Mr. J. Frank Hall of Washington, D. C., and formerly of St. Mary's county, Maryland, died near Piney Point September 7, aged 48 years.

Mrs. Elizabeth B. Groome, mother of the late ex Gov. James Black Groome, of Maryland, is seriously ill at her home in Elizabethtown. She is 88 years of age.

B. W. Pursell, Kintnersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve affected a permanent cure. Counterfeits are worthless. Dr. L. D. Collier.

Congressman George A. Pearre delivered a speech at the Knights of Pythias reunion, Bradock Heights, Frederick county.

The case of the Hager heirs aga'nt the Washington County Water Company was settled, the company recognizing the rights of the Hager heirs and paying costs.

Sid Darling, 1012 Howard st., Port Huron, Mich., writes: "I have tried many pills and laxatives but DeWitt's Little Early Risers are far the best pills I have ever used." They never gripe. Dr. L. D. Collier.

Roman J. Tammany, formerly of Havre de Grace, Md., and at one time school examiner of Sussex county, Delaware, has been appointed Government inspector of schools in Porto Rico.

The Charles county Democrat in convention nominated W. J. Mitchell and P. R. Willis for the House of Delegates, vice Messrs. Halalip and McPherson, resigned.

Don't wait until you become chronically constipated but take DeWitt's Little Early Risers now and then. They will keep your liver and bowels in good order. Easy to take. Safe Pills. Dr. L. D. Collier.

The health authorities of Greensboro, Caroline county, are taking precautions to prevent the spread of diphtheria, one case having occurred which proved fatal.

Henry Brayden, Harris, N. C., says "I took medicine for 20 years for asthma but one bottle of One Minute Cough Cure did me more good than anything else during that time. Best Cough Cure."

Harry Gisinger was arrested in Frederick as a deserter from the United States Artillery Corps and sent to Fort Howard.

The stable of John Davis was burned Tuesday night near Berlin, Worcester county, and three mules lost their lives. One horse and three other mules were saved.

Norris Silver, North Stratford, N. H.: "I purchased a bottle of One Minute Cough Cure when suffering from a cough doctor told me was incurable. One bottle relieved me and the second and third almost cured me. Today I am a well man." Dr. L. D. Collier.

The dwelling of Capt. Hayward Midleton, in Rock Hall, Kent county, was destroyed by fire September 10. It was impossible to save any furniture or clothing from the upper rooms.

In the Howard County Circuit Court John Rhodes, was sentenced to five years in the penitentiary for larceny. Two other negroes were sentenced to terms in the House of Correction.

George W. Lane, Pewamo, Mich., writes: "Your Kodol Dyspepsia Cure is the best remedy for indigestion and stomach trouble that I ever used. For years I suffered from dyspepsia, at times compelling me to stay in bed and causing me untold agony. I am completely cured by Kodol Dyspepsia Cure. In recommending it to friends who suffer from indigestion I always offer to pay it if it fails. Thus far I have never paid. Dr. L. D. Collier."

Andrew Jackson, who was shot in Frederick by his son James, was not killed outright, but is in a very precarious condition, and there is only slight hope of his recovery.

Many physicians are now prescribing Kodol Dyspepsia Cure regularly having found that it is the best prescription they can write because it is the one preparation which contains the elements necessary to digest not only some kinds of food but all kinds and it therefore cures indigestion and dyspepsia no matter what its cause. Dr. L. D. Collier.

A certain Cure for Dentistry and Diarrhea.

"Some years ago I was one of a party that intended making a long bicycle trip," says E. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic Cholera and Diarrhea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully, and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy, and this time one dose cured me." For sale by R. K. Truitt.

Good Roads And Civilization.

Some sage has said that the civilization of a country is shown by its roads. This being true, it is to be hoped that the agitation now making headway in different parts of the country will not cease until we are as well provided for in this way as the best of the ancients. Of course, our railroads surpass all their facilities for transit, but if our ordinary roads were to be fit as long without care as some of the prehistoric highways that have been discovered in various parts of the world, they would look like "the roads in Scotland before they were made." But there has already been progress, and the methods of Macadam, whom Scott referred to as the "Colossus of Roads," are being applied in a modified form in every part of the country that boasts of gravel pits. Road building has become a science worthy the attention of the most skilled engineers, and experts are already abroad in the land. The Province of Ontario has for some years past been setting an example that might be followed with profit in all our States. The Government employs an engineer to oversee road building and to teach the art to all municipalities willing to learn. In this country the agitation has been left largely to interested parties, the bicyclists and automobile interests, but the good work is growing, as shown by the convention recently held at Buffa's.

The executive committee of the Montgomery County Anti-Saloon League met Monday and deferred action in reference to which candidate it would support until the October meeting. Resolutions were adopted urging additional penalties for violations of the local option laws.

A Communication.

MR. EDITOR—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. BROCKMAN, Baggett, Mo. This remedy is for sale by R. K. Truitt & Sons.

The America's Cup.

August 22, 1851, the Schooner Yacht America set out to capture the Royal Squadron Cup, valued at 100 guineas, which was offered the winner of the International Regatta arranged in honor of the World's Fair, London. Seventeen other crafts were entered. The course was around the Isle of Wight, one which the London Times declared to be "notoriously one of the most unfair to strangers that can be selected, inasmuch as the currents and tides render local knowledge of more value than skill."

Fifteen yachts started. The America took the lead soon after passing "No Man's Land" and won by a margin of 24 minutes, Aurora second. The cup was presented to the New York Yacht Club in 1857 as a perpetual international challenge cup.

Here is a full list of the races for the America's Cup:

No. 1 1851 Sch. America beat Aurora, No. 2 1870 Sch. Magic " Cambria No. 3 1871 Sch. Columbia " Livonia No. 4 1870 Sch. Walkover, Shamrock broke topmast.

There is a pavilion in Cumberland that for a time made life a burden to street car conductors. The bird is hung out in its cage every morning, and as the cars go by whistles and calls out "Hey! Hey!" for them to stop. The conductors were puzzled for some time until they "got on to the racket."

Water Cure for Chronic Constipation.

Take two cups of hot water half an hour before each meal and just before going to bed, also a drink of water, hot or cold, about two hours after each meal. Take lots of outdoor exercise—walk, ride, drive. Make a regular habit of this and in many cases chronic constipation may be cured without the use of any medicin". When a purgative is required take something mild and gentle like Chamberlain's Stomach and Liver Tablets. For sale by R. K. Truitt & Sons.

Western Maryland College opened Tuesday for its thirty-fifth year. The indications are that this year's enrollment will exceed that of the previous session, which was 246. President Lewis tendered the faculty an informal reception on Saturday night.

Beauty is born in the blood. Beauty is more than "skin deep," it is blood depth. When the blood is tainted by disease the flesh will feel it and the skin will show it. Sallow or muddy complexions, pimples, blotches, and eruptions are only the surface signs of impure blood. Face washer, lotions, complexion powders, may palliate the evils but they cannot cure the disease. The only cure is to cleanse the blood of the poisonous matter which is the cause of the outbreak in the flesh and skin. Impure blood can be absolutely purified by the use of Dr. Pierce's Golden Medical Discovery. Its effect on flesh and skin is marked. Sores heal and disappear. The skin becomes smooth, and regains its natural color. The eyes brighten and sparkle, the whole body is radiant with the brightness and beauty of health. Golden Medical Discovery contains no alcohol, whiskey or other intoxicant, and is absolutely free from opium, cocaine and other narcotics. The use of Dr. Pierce's Pleasant Pellets, assist the action of the "Discovery," by cleansing the system of clogging matter.

SHARPSTOWN

The dispute and contention between the Railway Co. here and the company who had the Salis C. Marvil built here and which was kidnapped from here a few weeks ago has been adjusted. A settlement was made on Monday in Baltimore by representatives from both companies. S. J. Cooper and T. J. Sauerhoff represented the Railway Co. from here. The adjustment was not exactly what would have been desired but all things considered it was the best that could be done and it was accepted as satisfactory.

Capt. E. G. Bennett and several business men of this town have purchased a controlling interest in the James H. Hargrave and Capt. Kennerly will remain at home at Riverton and look after his interest there.

The town fathers are having the weeds cut in the suburban streets.

Miss Minnie Bailey left Thursday for Baltimore where she will spend several weeks.

Mrs. Martha Rollins, formerly of this town, but for several years a resident in Baltimore, is visiting her relatives and friends here. She is a great temperament worker, both in the social and lecture fields.

WESTERVILLE

"How many bushels today?" was asked a colored man just up from oyster dredging. "One bushel, sah." Only one bushel and a good day to work?" "One bushel, and I sold them to a planter for forty cents." Why, you could have made more saving fodder at eighty five cents a day. This is the report of only a few, but all concede that oysters are scarce this year than for a few years past. The average catch is from five to ten bushels for two men in a boat.

A number of oystermen have gone to the Potomac and more are to follow if they can get off before those that went first return.

It used to be that a man who oystered could manage to live by that alone and manage to lay by some money for a "rainy day." But that time is only to be remembered now, and unless something else is done, or some other avocation is pursued, a large part of our population must of necessity emigrate. Happily the tracking business seems to come just in time, and the income from this industry is equal to that derived from the oyster trade. Neverthe-

less we have splendid river bottoms on which to plant oysters and what is needed is capital to develop the planting industry.

Our soil is the best and easy of cultivation and an industrious farmer and gardener can sit down to the first table.

Our friend J. S. Robertson has moved his family to Cambridge, where he will open a merchandising business.

The horse disease seems to be epidemic again. Several persons have lost their horses.

Our usual summer visitors have returned home with the advent of September. They seem to come again every summer and bring others with them. Must be an enjoyable place. Glad to see them.

Rumors of a couple marriages here soon. Who can they be? So long.

PARSONSBURG

Mrs. B. F. Hayman who has been visiting her daughter, Mrs. A. J. Lank in Seaford has returned home.

The parsonage here which has been undergoing extensive repairs for the past two months is now about completed. It has been improved by a new back building new front and back porches, and the inside has been newly painted and papered.

The shirt factory has not been running this week. Orders for more goods is expected shortly.

Mrs. McFaull is visiting her mother, who is very ill at her home in New York City.

Miss Mollie Hayman is spending some time with Mr. C. R. Hayman and other friends in Rockawalkin.

Mrs. R. C. Hayman is having some repairs made to her home.

Mrs. Chas. W. Parsons of Philadelphia spent last week with friends in Parsonsburg.

Instructions To Voters.

The following instructions to voters have been prepared by Attorney-General Isidor Rayner, as directed by Article 33, Code of Public General Laws, and amendments thereto:

1. TO VOTE. Enter room, step up to guard rail, give name and registered residence to Judge. Wait until your name is found upon the registers, then get ballot from Judge in charge of ballot. See that he has written your name and number on the coupon attached to the ballot and his own name or initials on black of ballot itself.

2. Upon receiving your ballot, retire to one of the booths or compartments and prepare your ballot by marking with an indelible pencil after the name of every person or persons for whom you wish to vote and to the right thereof, in the blank space provided therefor, a cross for example (X) and in case of a question submitted to a vote of the people, by marking likewise in the appropriate space, a cross-mark (X) against the answer you desire to give. If you wish to vote for some one whose name is not printed on the Official Ballot, you can write the name of such person in the blank space upon the ballot provided for that purpose.

3. In marking the ballot you may take with you into the polling place any written or printed memorandum or paper to assist you in preparing your ballot, except a fac simile of the ballot to be voted. You must prepare and deposit your ballot without undue delay. Before coming from behind the curtain in front of your compartment you must fold your ballot in the same way as it was folded when you received it, so that the marks you have made upon it shall be entirely concealed.

You then hand your folded ballot to the Judge at the ballot box, give him your name and registered address, and wait until he tears off the coupon containing your name and number, and strings it, and deposits your ballot in the ballot box.

You must then leave the polling room and cannot again go behind the guard rail during the day.

4. A voter must not go into any compartment, nor can he occupy a compartment more than seven minutes if others are waiting.

5. You must not take any ballot outside the guard rail. If you spoil a ballot you must deliver the spoiled ballot to the Judge in charge of the ballots, and you can receive another from him. If you spoil three ballots you lose your vote.

6. A voter who is physically disabled from marking his ballot must make an affidavit to that effect if he desires assistance. The two polling clerks, after such affidavit has been made, can accompany him into one of the compartments and there mark his ballot as he instructs them, marking only the names of the candidates whom he shall name. The clerks are not allowed to read the ballot to him.

7. Any voter who shall allow his ballot to be seen by any person with the apparent intention of letting it be known how he is about to vote, or place any distinguishing mark upon his ballot, or who shall make a false statement as to his inability to mark his ballot, or who shall interfere or attempt to interfere with any voter when when inside the enclosed space in the polling room, or when marking his ballot, or who shall endeavor to induce any voter before voting to show how he marks or has marked his ballot, shall be punished by a fine of not less than five (\$5) dollars nor more than one hundred (\$100) dollars, or by imprisonment in jail for a period not exceeding sixty days, or by both fine and imprisonment in the discretion of court.

PRaise FOR MARYLAND.

A Former Nebraskan Writes of The Inducements Maryland Offers to Desirable Immigrants.

Mr. J. Henry Plugge, who recently settled near Longwood, in Talbot county, has written a letter to the editor of the Deutsche Warte, a German newspaper published in Chicago, in which he extols the quality of land and speaks highly of the many inducements which Maryland holds out to desirable immigrants. The letter follows:

Dear Sir; I have received so many letters of inquiry from friends and acquaintances since I left Nebraska last winter and came here to settle in Talbot county that I should like to give the desired information to all at once in the columns of your esteemed paper.

"I am well satisfied for having come to Maryland, which has an excellent, mild climate. Wheat, corn, and all kinds of vegetables grow here so well that they could not possibly do better anywhere. Fruit, such as apples, pears, peaches, plums, damson, cherries, grapes, and many varieties of berries can be raised here without trouble and bring good profit; as every little town has several canning factories, where it all can be utilized.

"The land is well adapted to the growth of clover and timothy. I have last spring sowed clover into my wheat-fields, which stands now so high and thick that I expect to get a good lot of hay from it, and my horses and cattle will have a good pasture all winter.

"Part of the clover which is not needed for hay or pasture will be plowed under and winter wheat sowed on the land. This procedure makes the land very fertile and assures me a large crop of wheat for next summer.

"Maryland has beautiful woodlands, with a large variety of timber, such as six kinds of oak, beech, ash, English walnut, hickory, chestnut, gum, sycamore, sassafras and many varieties of pine and fir trees. Most every farm has one third woodland with, it and, therefore, no deficiency of lumber and firewood. I have bought a farm of 440 acres, with plenty of good woodland to it. A sawmill is very handy where I can have my lumber sawed at \$8 per 1,000 feet for pine, while for hardwood \$4 per 1,000 feet is charged.

"A great industry is the oyster fishery in Maryland and the proceeds from leases for such privilege go into the school fund. On account of the proximity of so many large cities and the great facility with which farm products can be shipped there prices for same are always high. In many States there is great complaint of extraordinary heat and drought, while we had almost too much rain here; every week a couple of good showers, except two weeks in June, just at harvesting time. Here they thresh the wheat from the shocks, but I had mine put up in stacks (as it is done in Nebraska) so the rain cannot do any damage to my grains. Potatoes and cabbage can be raised twice a year in Maryland.

"I will not close my article without mentioning the Maryland State Bureau of Immigration, an institution such as every State should have. Anybody who wants to settle in Maryland can obtain from this bureau free of charge, honest and true information about any part of this state, and to my friends I would especially recommend the secretary, Mr. Herman Badenhoop. This gentleman is a native German who, by the way, also speaks French, Dutch and Danish. He certainly does everything in his power to protect the new settlers and to make it as agreeable as possible for them in Maryland. Therefore nobody should neglect to visit him. He is a man who can be depended upon, and whomever he takes under his care will not be cheated. Land agents have their own profits in view, but Mr. Badenhoop is a state official, who receives a regular salary from the State, and is in every way a true servant." Respectfully yours,

J. Henry Plugge.

A Home In The South.

Escape the rigors of another Northern Winter and enjoy the delights of the Southland.

Nowhere can be found a more delightful climate than in our own Southland. Its winters are mild and balmy and in the most cases Summer does not bring with it such extremes of heat as are to be found elsewhere. In fact, the South is a land where extremes of climate are avoided, and consequently, is a healthful and altogether desirable location.

The tide of emigration has turned Southward, for it is not alone in climatic advantages that this favored land excels, but its resources, the fertility of its soil and its mineral wealth and abundant water power command it to the thoughtful consideration of any one who seeks a home where Northern thrift and enterprise may carve out success.

The Seaboard Air Line Railway, in order to stimulate investigation and to assist in opening up the fine territory it traverses by its lines, announces that it will sell to prospectors and settlers, tickets one way or round trip, at greatly reduced rates, information as to which may be obtained of any agent or representative of the Company.

Mother

"My mother was troubled with consumption for many years. At last she was given up to die. Then she tried Ayer's Cherry Pectoral, and was speedily cured."

D. P. Jolly, Avoca, N. Y.

No matter how hard your cough or how long you have had it, Ayer's Cherry Pectoral is the best thing you can take.

It's too risky to wait until you have consumption. If you are coughing today, get a bottle of Cherry Pectoral at once.

Three sizes: 25c, enough for an ordinary cold; 50c, just right for bronchitis, hoarseness, etc.; \$1.00, for consumption, especially for chronic cases and to keep on hand.

IN HONOR OF THE PRESIDENT.

Services Are Held In Trinity M. E. Church
Death Is Honored As A Proclaimation
Issued by Mayor Disharoon.

WHEREAS, In the wisdom of all-wise Providence, our beloved President, William McKinley, has been called from this earth to the mansions of the just; and

WHEREAS, His untimely death has carried profound sorrow throughout this broad land, causing millions to mourn the departure of an upright and just ruler, a thorough Christian gentleman, and a loving husband, whose life was an inspiration to all who love honor and integrity, an incomparable public life, and a spotless private life;

Now therefore, I, Chas. R. Disharoon, Mayor of Salisbury, do hereby call upon the people of Salisbury to do honor to our departed President by laying aside secular duties from 11 a. m. to 12 noon on Thursday, September 19, 1901, that we may repair to a place of worship and bow down in submission to the divine will of the Almighty God, and pay out of full hearts our homage of love and respect for our departed President.

Done this 17th day of September, 1901.

CHARLES R. DISHAROON.

In response to the above proclamation issued by Mayor Disharoon Tuesday, the post office, banks, and all places of business in Salisbury were closed on Thursday from eleven to twelve o'clock, and union services were held in Trinity M. E. Church South, conducted by Rev. S. J. Smith of the Methodist Protestant Church. The order of the programme was as follows:

Voluntary, Solo, Mrs. J. D. Wallop, Quartet, "They Will Be Done" Mrs. Wallop, Mrs. W. S. Gordy, Prof. W. T. Dashell and Mr. Fred Adkins.

Reading of Proclamations of President Roosevelt and Mayor Disharoon.

Singing by congregation, "Nearer My God To Thee."

Prayer by Rev. Mr. Lennox.

Scripture reading and brief remarks by Rev. Dr. Jenkins.

Singing by congregation, "Lead, Kindly Light."

Brief remarks by Dr. Smith followed by Eulogy of the President by Rev. C. A. Hill.

Prayer by Rev. Dr. Martindale.

Singing by choir, "Sometime We'll Understand."

Address by Rev. Dr. Reigart.

Prayer by Dr. Smith.

Singing by congregation, "God Save Our Native Land."

Benediction, Rev. Mr. Green.

The postoffice, banks and other places of business were draped in mourning when the news of the President's death reached Salisbury early Saturday morning. The flags on the City Hall, Court House and the News Building were also placed at half mast.

A singular coincidence is that just twenty years ago from the date of President McKinley's burial President Garfield died from the wounds received from a pistol in the hands of Guiteau. Within forty years three of the seven Presidents elected by the people have died at the hands of assassins.

Opening Of The Academy.

With one of the best and strongest attractions that will be seen this year, the Academy of Music, Baltimore, will open its season next Monday night. It will present the famous operatic comedian, Francois Wilson, in his latest success, "The Strollers," a merry, musical drollery, which for three months this summer, has crowded the Knickerbocker Theatre, New York. The entire production and the company of 100, the largest Mr. Wilson has ever had, will be brought to Baltimore unchanged. It is universally agreed that in "The Strollers," Mr. Wilson has found his most congenial part since the days of "Erminie" when he played the amusing Cadeaux. In the company will be seen Eddie Foy, Marie George, Irene Bentley and D. L. Don, while a female chorus of 60 voices will not only be found good to look upon, but excellent singers. The music is bright and catching, tuneful and there are many of sprightly dances. The scenic embellishments are most elaborate, each of the four stage settings being pictures of rare beauty. The costumes are gorgeous and of unique design. Mr. Wilson has played a wider range of comic opera parts than any other comedian, and all are remembered as being as clever and funny as they were artistic. In his newest production he has a role that is most congenial and one in which all of his admirers will enjoy him. Mr. Wilson's engagement is always regarded as an event in the theatrical calendar, and Messrs Nixon & Zimmerman are to be congratulated on presenting such a strong card for the opening of the season at their beautiful theatre—undoubtedly the handsomest and most luxuriously appointed in the South.

THE TEACHERS INSTITUTE.

A Week of Profitable Work At The Beginning of The School Year.

The Teachers Institute for Wicomico Co. was called to order in the Court House at 11 o'clock Monday by secretary Bounds.

Opening exercises were conducted by the Rev. A. J. Vandebogart after which Mr. Samuel R. Douglass of Salisbury Bar delivered the address of welcome. Mr. Douglass spoke of the teacher's devotion and responsibility and expressed the hope that their coming together would be both pleasant and profitable. This address was responded to by Mr. J. Walter Huffington of the Salisbury High School who also expressed the hope that great good would come from the Institute.

Secretary Bounds appointed Mr. Thos. H. Truitt secretary of the Institute. Before adjournment at 11:45 o'clock Mr. Minor A. Davis offered a motion that a committee be appointed to draft resolutions expressing the grief of this Institute at the death of President McKinley.

The motion was seconded by Mr. J. Holloway and was unanimously adopted.

Secretary Bounds appointed as committee Mr. Minor A. Davis (chairman) Mr. W. L. Mayo, Mr. F. Grant Gooley, Miss Daisy Bell and Mrs. Sadie Waller Cooper. The resolutions drafted were as follows:

THE RESOLUTIONS ADOPTED.

Whereas, In this age of peace and prosperity, a terrible calamity has befallen us in the violent death of our chief executive, the President of the United States, by the hand of a friend, against whose death is the ill-will of man, and the wrath of Almighty God, and

Whereas, He was a man after the people's heart, true and wise, guiding with unerring judgment the "ship of state" thro' the troublous times of the war, and in view of the great trust reposed in him, therefore be it

Resolved, That as a mark of our high esteem and sincere affection, we give to our martyred president—William McKinley—our humble tribute in these resolutions, themselves a faint expression of a loss immediately felt by all who love him, in view of his peace, and that God, the Great Ruler, may give us another as judicious, pers. voting and charitable; and so it is.

Resolved, That to his faithful wife, we extend our heartfelt sympathy in their bereavement, in hopes that some comfort and consolation, and be it further

Resolved, That a copy of these resolutions be spread upon the minutes of this Institute in convention assembled, and published in the papers of this county.

At the afternoon session Prof. Chapman (School Examiner of Talbot Co.) gave a practical method of teaching English Grammar and was followed by Prof. Dashell of Somerset Co. who gave the teachers instruction how to govern a country school.

Prof. Seipp of the Salisbury Manual Training School read a paper relative to Manual Training after which the Institute adjourned till Tuesday morning.

Institute opened Tuesday morning by singing followed by prayer by Rev. S. W. Reigart D. D. Prof. Chapman conducted a Round Table on Psychology and was followed by Miss Henkle of the State Normal School who gave a most admirable explanation of teaching fractions.

Prof. Seipp gave a practicable talk about drawing.

In the afternoon Prof. Chapman gave a reading lesson in the higher grade followed by Miss Henkle who continued her talk of the morning about fractions.

Prof. Seipp then explained some practicable devices for cutting paper, etc. He was followed by Prof. Dashell who gave a talk on childlife.

Wednesday's opening exercises were conducted by Rev. Chas. A. Hill.

The Round Table on Psychology by Prof. Chapman and the lectures by Miss Patridge were very interesting and instructive.

Secretary Bounds and Prof. Chapman expressed satisfaction with great interest manifested by the teachers in discussing the questions in the Round Table on Psychology.

Thursday morning's session was adjourned at 1 o'clock and the teachers attended the Union Memorial Services held in honor of the dead President at the M. E. Church South.

In the afternoon the program consisted of lectures by Prof. Chapman and Miss Patridge which were very interesting.

The opening services Friday morning were conducted by Rev. S. J. Smith. An interesting session followed.

The teachers agree in the opinion that this Institute has been the most beneficial and instructive of any they have attended.

Wednesday evening Mr. Wilson M. Tyler of Easton introduced magician lantern scenes of travel, sports and views of the solar system, accompanying them with brief and interesting lectures.

AN APPEAL TO PATRIOTS.

Stand By The Democratic Party And Insure Good Government.

Fellow Citizens:—The importance of our approaching election justifies at the beginning of the campaign an earnest appeal to all who desire a continuance of the good government which we now enjoy under Democratic control to interest themselves to secure our triumph.

There can be no fair doubt that a large majority of our total population prefer that there shall be no change in the administration of our State affairs, and of our white people more than two thirds are certainly and with great readiness on our side.

There is every reason why this should be so.

The laws are vigorously enforced. Good order and tranquility prevail. Our finances are in a healthy condition.

The duty of dealing with the great practical questions of taxation and education in such a way as to make the burdens of the one as light and benefits of the other as large as possible, may most safely be entrusted to us, for we represent an overwhelming preponderance of those who are deeply interested in its full performance and who will suffer most from its neglect.

Encouraged by these obvious and convincing considerations and stimulated by the gratifying record of our work in the memorable campaign of 1890, there ought not to be any doubt as to the result of the contest in which we are now engaged.

All we need is that the full strength of our party shall be brought to the polls.

That this may be done we must first turn our attention to vital task of making our registration books perfect and complete.

No name not entitled to be on these books should be permitted to be put or kept on them, and no name entitled to registration should be omitted.

It is absolutely certain that there are now on the registers many thousands of names which are wrongfully and unlawfully there and which should be stricken off.

In the counter no effort should be spared to purge the lists of these names.

The votes of our honest and really qualified voters should not be nullified in whole or in part by the casting of ballots by persons who are not bona fide residents of the State.

I earnestly call on our friends in each and every precinct in the counties to bear themselves in this most important matter. Note the names of all disqualified and improperly registered persons. Hand in lists of all these names at the session of the registration officers on October 8th and demand that they be stricken off at the meeting of these officers on October 15th, and that day be prepared with the evidence to sustain your demand.

See to it also that no new names be improperly registered.

In Baltimore City an entirely new registration will be made absolutely accurate.

In this way the registries will be what they ought to be—complete and perfect records of the lawful voters of the State.

The vote cast on election day will be the vote of our people and we have no fear of the result.

Our amended election law compels each voter to put his cross mark on the official ballot opposite the name of each candidate he wishes to vote for. This of necessity requires each voter to act with a certain amount of independence, intelligence and discrimination.

It does not absolutely stop bribery.

It does not entirely put an end to corruption.

No laws can completely accomplish these desirable results.

But by placing each voter beyond the controlling hand and tongue of election clerks and by requiring each voter to act for himself it reduces to a minimum the chances and dangers of bribery, corruption and intimidation.

It secures individual freedom.

It goes far to make the ballot absolutely secret.

With the reasonable assistance which its provisions give to illiterate voters, there is no man so ignorant as to be unable to mark his ballot as he wishes.

Every registered voter can easily learn before he goes into the voting booth, the name of those for whom he desires to vote and the number of cross marks which he must not exceed, and as the requirements of the law apply with absolute equality to all voters alike—to the illiterate white man and to the illiterate colored man on a perfect equality—there is no ground whatever for complaints of unfair and unlawful discrimination.

A Coming Wedding.

Inventions were issued this week for the marriage of Miss Carolyn Louise Bell, second daughter of Dr. and Mrs. L. Sidney Bell, of this city, to Mr. Charles Adolphus Morse, Jr., of Brooklyn, on Wednesday, the second of October at twelve o'clock in the Wicomico Presbyterian Church. Mr. Morse is a member of the firm of Armstrong, Schirmer and Co., of New York, bankers.

We need not lose the votes of any who wish our party to succeed, for in every precinct legitimate and proper instruction can be had and should be given whereby adequate knowledge of the proper mode of marking the ballot may be readily acquired.

For the present I content myself with reminding you that the struggle in which we are engaged is not complicated or obscured by the sharply debated questions which divided our people in the Presidential contests of 1896 and 1900.

We are now dealing with the relative advantages of Protection or Reciprocity or a tariff framed to produce such revenue only as is demanded for an honest and economical administration of the Federal Government.

In common with our fellow-citizens all over the Union and with the people of the civilised world, our hearts are stirred to their deepest depths by the awful crime which has deprived our Country of its chief magistrate, Presid-

TOMATO CASES.

Issues Issued To Sustain Contract Agreements.

Ridgeley, Md., Sept. 16.—Chief Judge James Alfred Pearce has granted preliminary injunctions in number of cases enjoining tomato growers from selling their crops to persons other than packers with whom they had contracted this season, and appointing receivers to take charge of the crops, harvest and deliver the produce to the cannery.

This course was taken by the packers under legal advice, to prevent the "jumping" of contracts by growers—a matter which, it is alleged, has assumed alarming proportions to the packers.

Early in the year contracts for delivery were made as usual, the packers stipulating to pay the growers \$6 a ton for all tomatoes grown by them or on a certain number of acres. With the great demand for canned goods and the partial failure and unprecedented lateness of the crop many growers evidenced a disposition to evade the contracts, and agents of Baltimore's packing houses have been offering 25 cents a basket at railroad stations and steamboat wharves for tomatoes, the local contract price of \$6 a ton being only about 9 cents a basket.

As the cannery have in turn contracted with the jobbers and wholesale houses to furnish canned tomatoes at a figure which precludes them from paying much over \$6 a ton, they were confronted with the condition of defaulting on their contracts or buying enough canned goods to make up the deficiency in their own pack at a high price. To many cannery this meant bankruptcy and going out of business.

We are not concerned with the discussion and settlement of the great questions growing out of the war with Spain, or the proper policy to be pursued in fixing our dues and obligations to the people of Cuba, Porto Rico and the Philippines, but the controlling issue in this State campaign is, whether the honest, intelligent, economical conservative and successful administration of our State affairs by the representatives of our white people shall be displaced, or whether it shall be con-

tinued.

Upon this plain issue which our political situation forces upon us and which we ought not to evade if we could and cannot evade if we would, I appeal to you to stand by our organization and vote for our candidates.

Keep the State in safe Democratic hands and rely upon a Democratic administration for the inauguration and conduct of all needed measures of enlightened progress and reform.

AN INSIDIOUS EVIL

Mr. Ellegood Deals in Bribery and Makes a Fortune Against For the Suppression of the Evil.

Messrs. Eborrode.—To my last communication you put the headline "Mr.

Ellegood arraigns both parties for bribe-

ry." This seems to be both a proper

caption and correct summary of the po-

litical condition that confronts us.

Who is to blame for this condition,

does any one ask? It cannot be suc-

cessfully denied that primarily, direc-

tely and chiefly those who make and con-

tinue it, by the contribution and use

of money to induce voters either "to

vote or refrain from voting," second-

arily and indirectly, those who do not

resist the crime. We have organizations,

legal and social, for the protection of

almost every thing, animal and inani-

mate. A Naval force for the oysters;

game wardens for the fish of the sea;

the birds of the air, the muskrats of the

marshes, the rabbits in their burrows.

Societies for the promotion of tem-

perance; for the prevention of vice; for

the reformation of the fallen; and the

correction of the Social evil; and for

the protection of children and dumb

animals. Even the Texas mule, a crea-

ture that a bolt of lightning can hardly

knock out, must be legally if not ten-

dibly dealt with. But the ballot in

the hands of these two great party or-

ganizations, instead of being protected

has been grossly defiled, and the elec-

tive franchise, the basic institution of

our whole system, has been debauched.

If this be a true statement, then there

is time for an awakening and for arousing

to activity; if it be not true, then

not only are many under grave mis-

prehension, but Gov. Smith also was

deceived when he issued his proclamation

declaring that there exists an "urg-

ent necessity for immediate legislation,

to stop bribery and corruption at our

election." He declares that "it flour-

ishes under the existing law."

The Baltimore Herald, in comment-

ing on my letter and attitude in declin-

ing to enter the Judicial primary, be-

cause of this condition which rendered

it impossible to have a fair contest, had

this to say: "If his conceptions of the

condition in Wicomico County are cor-

rect he has been actuated by the high-

est principle that can control one who

asks public preferment, and has set a

most worthy example."

What newspaper in Wicomico, or

person over his signature will refute

this "condition." Let me go somewhat

into detail. Neither the general or

state government has official statistics

of bribery. But they can be had from

those who keep the statistics.

It is variously estimated that out of

5,000 voters, there are from 1500 to 2000

engaged in the traffic of buying and

selling votes; from 300 to 500 being

numbered among the buyers, that is

the givers and handlers of money, bank-

ers and runners on election day. The

large class being of those who take

money, its number depending on

"what's out," and the intensity of local

interests. This class is said to be grad-

ed in their notion of duty, that is a few

who require an inducement to vote as

they wish to vote; another class who,

when the inducements are equal, will

vote according to party affiliations; the

third class with any eye to business,

ask "what's out."

But these men, generally poor and

ignorant, are not the ones upon whom

to train the guns of condemnation.

But let us go still more into detail for

proof. There are two election Districts

with their voting places in Salisbury,

that is Parsons and Salisbury Districts.

In one of those at an election of recent

date, I am informed by those who know

that \$2600.00 was paid by one of the

great parties on election day, and pre-

sumably nearly as much more by the

other, as competition was intense; that

in the other District, \$1900.00 was dis-

tributed by one of the parties and nearly

as much by the other, making about

\$2000.00 in two districts with not less

than \$2500.00 in the whole county or an

average of \$12.00 per head for 2000

voters. In a certain other district it is

currently said that at an election far-

ther back, out of a vote of 800 there were

less than 100 whose names were not on

the bribe givers' pay roll.

There is more than one district in

which one man "whoknows the ropes"

can go with \$500.00 in his pocket on

election day and control more votes,

than twenty of the most substantial,

upright and intelligent men can in-

fluence by their character, moral

sense and intelligence. Is not Gov.

Smith correct when he says "bribery

flourishes?" and was not the writer's

"conception of the conditions" correct,

that a fair primary contest controlled

by bribe giving politicians and uncon-

trolled by law, could not be had where

from 500 to 1000 voters could vote at

the primary for cash, or for a promise

to pay at the general election. Many

of whom it is said, can not vote at all

at the general election under the pres-

ent law. A recognition of this con-

dition ought to beget a spirit of humil-

iation and reform, and not of resent-

ment at its disclosure. I have rarely

felt more humiliated than recently,

when in Accomac in conversation with

some gentlemen who were discussing

the corruption in Delaware and the

Eastern Shore of Maryland. Those

gentlemen said bribery was unknown

in Accomac and Northampton Co's Va

and the gentleman with more force

of language did say, told the poor

woman would be tempted to spit in

his face, one who would cover him

with dirt. Does this condition

here make any one despair of reform.

Let him remember that if there be

from 2000 to 2500 corruptionists, there

will still from 3000 to 3500 voters besides

PETER S. SHOCKLEY.**THE DEATH OF OUR PRESIDENT.**

The past week has been one of mourning for the entire nation. In every city and hamlet of this great Republic the people have bowed their heads in sorrow at the death of our President. Thursday was the day set aside for the general observation of this sad event and throughout the entire length and breadth of the United States the people left their work and assembled in worship to show their love and esteem for President McKinley.

It is said to its honor, in this hour of grief, the nation has mourned as one man. The lines that have divided the two great parties in the past are the same today as they were a month ago, but they have been forgotten and lost sight of in the calamity that has befallen the country in the assassination of its President.

Mr. McKinley was a man who by his ideal domestic life and his fondness for the people had endeared himself to his fellow countrymen as, perhaps, no other President ever did. He was a most perfect Christian gentleman and although often opposed in many ways he was seldom accused of insincerity.

The assassination of the President is deeply regretted by every lover of his country, by every man who believes in the republican form of government and by every person who stands for law and order and opposes lawlessness in any form.

About thirty six years three Presidents of this great Republic have died from an assassin's bullet—Lincoln in 1865, Garfield in 1881 and now McKinley in 1901. Going back to 1865, we find it was a native born citizen who struck the deadly blow, and it is believed that the assassination of the Cabinet was also intended. The intense bitterness growing out of the Civil War was the motive that prompted this outrage. President Garfield was shot by a disappointed office seeker at a time when there were bitter factions in the Republican party—the Half-Breeds and the Stalwarts. The friend who has taken the life of President McKinley is an anarchist, opposed to all law and order. It is a sad time in the history of our country when it has become the asylum of the outlaws of other lands.

It is even recorded that meetings of rejoicing were held to celebrate the consummation of such a diabolical plot as the killing of McKinley. Measures must be taken at once to drive these lawless creatures from our shores and until this is done no public man will be safe. As horrible and deplorable as was the killing of the President, yet it is not likely to be without good fruit in the ridding of the country of those who believe in anarchy.

Mrs. McKinley has the love and sympathy of the country in this hour of her sorrow and grief. The prayers of the people go forth that she may survive this sad affliction.

ORGANIZE FOR WORK.

If it is not about time our friends are getting ready for the campaign? Remember friends that but little has been done yet towards organizing the districts for the campaign. Organization is a most important step in the work. Let us remember that the candidates and the Central Committee can't do all the work. After all, most of it must be done by friends who know the situation in the various districts. Would it not be well for copies of the registration list be taken for inspection by friends that our friends may know who are entitled to be registered and not on the books and who should be stricken off. Then again, isn't it time to begin to make arrangements for our meetings for the purpose of meeting friends and holding consultations?

Because we have an acceptable ticket we must not suppose that there is no work to be done. Let us remember that every man this year must do his own voting; no assistance will be given in the polling room, whatever is done in that line must be done before election day and it must be done by personal friends. With a little assistance from friends our people will all be able to prepare their ballots. We must all see that this little assistance is given not to the illiterates alone, but to those not familiar with the requirements of the law. We desire especially to urge upon friends the necessity of looking after the registration lists. Here is where the work is to begin.

Campaign work will be more effective this year than ever before. Let us then organize and prepare for it. The work must be done before election day if at all, as but little can be done on that day.

THE TEACHERS' INSTITUTE.

The Institute held in the Court House this week was well attended by the teachers and a number of visitors in and out of town. It differed somewhat from previous Institutes in the matter of work. The programme was so arranged as to give the teachers an opportunity to take part, and in doing this it was necessary for them to be prepared, and the responses they made showed how true they were to duty. The responses to the round table work, directed by Prof. Chapman, were highly commendable, and will prove profitable.

When their turn came on the programme, the teachers seemed ready and waiting, some with notes and some without notes. The explanations given by the teachers showed not only interest in the work, but showed deep thought upon the subjects given.

The teachers are beginning to realize that the duties are greater and the requirements more than ever before and they seemed determined to measure up to the demands. This is indeed encouraging to the authorities.

The Examiner, Mr. Bounds, very wisely turned the attention of the teachers to work in the Institute, rather than to social intercourse. This plan has demonstrated the ability of the teachers to do the work assigned and their disposition to obey the request. The teachers will enter the work of teaching after a week's genuine preparation and the good results will be felt throughout the county. It will be profitable to all and the pupils will have lost nothing by the week's delay, but gained much.

The published programme was carried out with very few exceptions, and the work was done in a most pleasing manner. The social features were very marked. The relation of teachers to each other in a social sense was all that could be desired.

This Institute will go down in history as the working Institute. One that stirred the brain of the teachers to activity and brought from their minds ideas that would have remained dormant. It also taught them the importance of thinking and speaking while standing, a difficulty hard to master, but the ease, grace and deliberation with which the teachers have discussed the questions, give evidence of great possibilities along this line of work. The duties performed and the lessons learned ought to be an inspiration to every teacher in attendance.

Admiral Schley won the preliminary skirmish in his legal fight for vindication. He secured the rejection of Admiral Howson as a member of the court of inquiry.

"Mamie Harris" to Trot.

Lovers of fast horses are promised some good racing on our local tracks within the next few weeks.

Mr. Avery H. Fardue, manager of the Worcester Driving Park, Snow Hill, has arranged for races to come off on Tuesday, October 8. There will be three races—2.50 class, purse, \$50.00; 3 year-old colt race, purse \$20, confined to colts in Wicomico, Worcester and Somerset counties.

A special race with a purse of \$100.00 will be trotted between Mr. Walter B. Miller's mare "Mamie Harris" and Mr. Arthur Parsons' "Lady Cleveland."

Thursday, October 10th, some trotting races will take place on the Berlin track. Some fast horses will be entered there. Mr. J. S. Duffy is thinking of entering his "Minnie" on both occasions.

Christian Endeavor in Wicomico.

The Christian Endeavor movement has made its influence felt among the young people of our County. This organization does much to improve the moral and religious tone of any community in which it is actively at work, and increases the fidelity of its members to the general work of the local church. In Wicomico County there is organized a County Union composed of 4 societies, with a membership of 137. The President is W. C. Humphreys of Salisbury and the Secretary Miss Alice M. Elderdice of Mardela Springs. All these Endeavours are looking forward to the great Convention to be held in Baltimore early in November.

Talbot Fair and Races Declared Off.

The session of the Talbot County Fair advertised for next week has been declared off. The Directors took this action on Thursday after it had been found that the best races had not been filled owing to an epidemic of influenza among the horses of the state and an unwillingness among horsemen to risk moving them from their present positions.

There will be no Talbot Fair this year. J. B. HARRINGTON, Sec'y & Treas.

The County Commissioners.

The County Commissioners, in session Tuesday, appointed Joseph S. Lynch, George W. Parker and Washington R. Dennis, commissioners on the "Farlow Road," Pittsburg District.

Report of B. S. Figg, D. R. Holloway, and Samuel E. Foxley, commissioners appointed to lay off a tax ditch through the lands of B. D. Farlow, Lev. in E. Wells, Maggie Truitt and others in Pittsburg District, filed their report. This report will be ratified unless objections are filed on or before the 22nd day of October. Board will meet again next Tuesday.

No Special Train For Easton.

Mr. A. J. Benjamin, Superintendent of the railway division of the B. C. & A. railway, gives notice hereby that owing to the abandonment of the Easton Fair which had been fixed for next week the special train advertised to run to Easton Thursday of next week will be called off, and that no special rates will be given to Easton. In other words the prevailing railroad schedule and fare will not change.

News From Local Gold Fields.

Capt. J. D. West, the gold land king, having extensive holdings in upper Cecil county, Md., is reported as buying more land in that locality. That gold exists thereabouts is undoubtedly, but the question is can sufficient quantity of it be secured to pay? Mr. West has eight or ten men at work on the property and as autumn is near they are making as much headway as possible. Rumor says the Captain is now searching for copper.—Oxford Press.

—The members and friends of Royal Oak M. P. Church of Quantico Circuit will hold an oyster supper on Saturday, Sept. 28th, 1901. Everybody invited to come.

A SCHEME TO HOLD A GREAT BIG FAIR.

If the scheme to hold a great big fair in Salisbury goes all right it will be one of the biggest drawing cards we've ever had. The farmer has had the city folks at a disadvantage for a number of years. They could come to Salisbury and see what we're up to—they could see Salisbury people putting up new buildings and adding to old ones—see us laying out new streets—see us putting in new sewers and doing a hundred or more things to improve Salisbury, while we Salisbury people could tell a thing about who raised the biggest pumpkins, biggest ear of corn, handsomest baby, fastest horse, best colt—could tell who made the best bread, cake or pie, butter or apple sauce—could tell who pieced the most pieces into one quilt or whose night shirt had the most hand-made lace mixed up with it, and now we're glad that a few Salisbury people have considered the fair. Last year one of Wicomico's farmers went over to Easton to their fair, and when he arrived at the ticket office he asked for a pass. On what grounds do you ask for a pass? Why on the fair grounds, of course—and he got it. That's the proper grounds—fair grounds—the grounds that Lacy Thoroughgood asks your business on—the grounds that Lacy will do better by you than anybody else will. Listen, nobody means to buy poor clothes and poor hats, certainly not, but a lot of 'em get worn out every year. Even poor stuff looks pretty good at first, and just think of the nice things that can be said about it. Better not go by your own judgment all the time, better trust Thoroughgood—not so much because Thoroughgood's clothes are better than usual—they are, but because Thoroughgood makes them right if they go wrong—guess why. Has it ever occurred to you that Lacy Thoroughgood is more anxious than you that what he sells you should fit and satisfy you—guess why. Ready-made Suits that fit \$6.00, \$8.50, \$10.00, \$12.50, \$15.00, to \$20.00. Suits made to order \$15.00, \$18.50, \$20.00 up to \$40.00, but the forty dollar Suits are regular Merchant Tailors \$75.00 Suits—not selling many—neither do the tailors now.

The Sunday School of the Delmar Methodist Protestant Church had a big picnic Thursday of last week in the grove of Mr. Charles Wood, this side of the town. Several hundred people were present. Mr. A. A. Robinson a prosperous farmer of the neighborhood presented the picnickers with a load of his famous watermelons.

SALISBURY, MD.

WASHINGTON, Sept. 26.—Most encouraging to all Christian workers is this discourse of Dr. Talnage while denying the accuracy of statistics which represent Sunday audiences as diminishing; text, Hebrews x, 25, "Not forsaking the assembling of ourselves together."

Startling statements have been made in many of the pulpits and in some of the religious newspapers. It is heard over and over again that church attendance in America is in decadence. I deny the statements by presenting some hard facts. No one will dispute the fact that there are more churches in America than ever before, one denomination averaging two new churches every day of the year. The law of demand and supply is as inexorable in the kingdom of God as it is in the world. More churches supplied argues more church privileges demanded. More banks, more bankers; more factories, more manufacturers; more ships, more importers; more churches, more attendants.

In all our cities within a few years churches have been built large enough to swallow up two or three of the old time churches. I cannot understand with what kind of arithmetic and slate pencil a man calculates when he comes to the conclusion that church attendance in America is in decadence. Take the aggregate of the number of people who enter the house of God now and compare it with the aggregate of the people who entered the house of God twenty-five years ago, and the present attendance is four to one. The facts are most exhilarating instead of being depressing. That man who presents the opposite statistics must have been most unfortunate in his church acquaintance.

You are not to argue adversely because here and there a church is depleted. Churches have their day. Sometimes merchandise will entirely occupy a neighborhood and crowd out the churches and families ordinarily attendant upon them. Sometimes a church perishes through internecine strife. But there are no facts to overthrow the statement that I have made in regard to the increasing attendance upon the house of God. Now, I am ready to admit, as every intelligent man will admit, that there are churches which have been depleted, and it is high time that a sermon be preached for the benefit of young men who are just entering the gospel ministry and for the warning of prosperous churches as to what are the causes of decline in any case. If merchandise crowd out a church, that cannot be helped, but under all other circumstances decadence in church attendance is the fault either of the church or of the pastor.

Use of Modern Methods. Churches are often cleared of their audiences by the attempt to transplant the modes of the past to the present. The modes and methods of fifty years ago are no more appropriate for today than the modes and methods of today will be appropriate for fifty years hence. Dr. Kirk, Dr. McElroy, Dr. Mason, Dr. De Witt, Dr. Verulamus and hundreds of other men just as good as they were never lacked audiences, because they were abreast of the time in which they lived. People will not be interested in what we say unless we understand the spirit of the day in which we live. All the woe-begone statistics are given by those who are trying in our time to work with the wornout machinery of the past times. Such men just as well throw the furnaces out of our church basements and substitute the foot stoves which our grandmothers used to carry with them to market, and throw out our organs and our cornets and take the old fashioned tuning fork, striking it on the knee and then lifting it to the ear to catch the pitch of the hymn, and might as well throw out our modern platforms and modern pulpits and substitute the wineglass pulpit up which the minister used to climb to the dizzy height of Mount Blanc solitariness and then go out of sight and shut the door after him. When you can get the great masses of the people to take passage from Albany to Buffalo in stagecoach or canalboat in preference to the lightning express train which does it in four hours, then you can get the great masses of the people to go to a church half a century behind the time.

The trouble begins away back in the theological seminaries. It is a shame that larger provision is not made for ministers of religion, for the sick and the aged and the infirm who have worn themselves out in the service of God. We have naval arsenals and soldiers' arsenals for men who fought on land and sea for our country when these men have become aged or crippled, and it is a shame that larger provision is not made for the good soldiers of Jesus Christ who have worn themselves out in battling for the Lord. But lack of provision in that respect makes a tendency to turn our theological seminaries into hospitals for sick and aged and infirm ministers. When a man begins to go down, they give him the title of D. D. by way of resurrection. If that fails, then the tendency is to elect him to a professorship in some theological seminary. There are grand exceptions to the rule, but it is often the case that the professorship in a theological seminary is occupied by some minister of the gospel who, not being able to preach, is set to teach others how to preach. In more cases than one the poorest speaker in the faculty is the professor of elocution. We want more wide awake, more solid-bodied, abominated men, more enthusiastic men, in our theological seminaries and in the professorships in the colleges. Alexander, who could during the week teach young men the theory of preaching and then on Sunday go into the pulpit and with the thunder and lightning of Christian eloquence show them how. What would you think of a faculty of unsuccessful merchants or a faculty of unsuccessful lawyers to train young lawyers? It is often the case that theological seminaries cut a case and clip him and square him and mold him and bore him and twist him until all the

very carefully and lovingly and cautiously, so that he might not be hurt in fall and might be picked up by those who were standing near by; while doing that the train struck her, and hardly enough of her body was left to gather into a funeral casket? What was that? Vicarious suffering. Like Christ, Pang for others. Death for others. Suffering for others. Death for others. What is the use of our going away off to find an illustration in past ages when in Michigan a man carried on horseback, riding on, pursued by those names which had swept over a hundred miles, saw an old man by the roadside, dismounted, helped the old man on the horse, saying, "Now, whip up and get away!" The old man got away, but the mail carrier perished. Just like Christ dismounting from the glories of heaven to put us on the way of deliverance, then falling back into the flames of sacrifice for others. Pang for others. Death for others. Vicarious suffering. What is the use of our going away off in ancient history to find an illustration of the fact that it is dangerous to defy God when in the Adirondacks I saw a flash of lightning and bolt so vivid said, "That struck something very near." A few hours afterward we found that two farmers that Monday morning had been seated under a tree, the one boasting how that the day before on the Lord's day he had got his hay in and so cheated the Lord out of that part of the time anyhow, and both of them laughing over the achievement by which they had wronged the Lord of his holy day, when the lightning struck one dead instantly, and the other had been two weeks in bed when we left the Adirondacks and has become an invalid, I suppose, for life. He did not make as much out of the Lord as he thought he did. Was it any less an illustration for my soul because I met the clergyman on his way home from the funeral, and he told me of the facts and said the body of the man who had been destroyed was black with the electricity?

Young ministers are told they must preach Christ and him crucified, but not as an abstraction. Many a minister has preached Christ and him crucified in such a way that he preached an audience of five hundred down to two hundred, and from one hundred to one hundred and fifty, and from one hundred and fifty to twenty, and on down until there was but little left save the sexton, who was paid to stay until the service was over and lock up. There is a great deal of cant about Christ and him crucified. It is not Christ and him crucified as an abstraction, but as an omnipotent sympathy applied to all the wants and woes of our immortal nature. More banks, more bankers; more factories, more manufacturers; more ships, more importers; more churches, more attendants.

In all our cities within a few years churches have been built large enough to swallow up two or three of the old time churches. I cannot understand with what kind of arithmetic and slate pencil a man calculates when he comes to the conclusion that church attendance in America is in decadence. Take the aggregate of the number of people who enter the house of God of

God twenty-five years ago, and the present attendance is four to one. The facts are most exhilarating instead of being depressing. That man who presents the opposite statistics must have been most unfortunate in his church acquaintance.

It is often the case that the difficulty begins clear back in the home circle with misapprehension as to which child ought to be consecrated to the ministry. John is a keen, bright boy. He is good at a bargain. When he trades at school, he always gets the best of it. Make him a merchant. He will soon gather a fortune and go right up to take his place among the commercial princes. George has great cerebral development. Physiologically, language is large. Make him a lawyer. He will argue his way to the front, and he will take his place among the Mansfields and the Storys. Henry has large girth at the chest and is military in his step and bearing. Send him to West Point. We shall see him yet a brigadier general. William is fond of sketching, especially of sketching ships, and he knows as much about a vessel as an old sailor. Make him a shipbuilder. The vessel that he builds will successfully wrestle with the Caribbean whirlwind. Aleck is not very well. He has never had very good digestion. Since that last malarial attack his spleen is enlarged. He has a morbid way of looking at things. He will sit for hours looking at one figure in the carpet. His manners are so mild, so soft, so gentle, so affectionate, so heavenly, and he cries easily. Make him a minister. Now, my friends, that is a great mistake. Physiologically, language is large. Make him a lawyer. He will argue his way to the front, and he will take his place among the Mansfields and the Storys. Henry has large girth at the chest and is military in his step and bearing. Send him to West Point. BITS OF MARYLAND NEWS.

In Montgomery county there are 1,611 illiterate voters. Of these 1,160 are colored and 451 white.

J. William Grant, charged with murder, died in Hagerstown jail, supposed to have been caused by poison which he took.

The jury summoned to condemn a right of way for the Boonsboro trolley through a piece of land, assessed the damage at one cent.

The channel of Elk River from Elk Landing to the bridge has been cleared and is now 40 feet wide and 8 feet deep at low water.

Leslie Greenwait, of near Uniontown, Carroll county, shot Thomas Brothers in mistake for a dog. Brothers died shortly afterward.

The public schools throughout Montgomery county held special exercises Thursday afternoon in memory of President McKinley.

At Rockville Beverly Smith, colored, was shot in the chest during a quarrel with Clinton Thomas, colored, who was arrested. The wound was not dangerous.

A never failing cure for cuts, burns, scalds, ulcers, wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin afflictions. Accept only the genuine. Dr. L. D. Collier.

A carp weighing 204 pounds and measuring 2 feet 7 inches from tip to tail and 11 inches across, was caught in the Chesapeake and Delaware canal last week.

The tobacco crop is nearly all harvested. Reports indicate only an average crop in quantity, although the quality may be better than it has been for several years.

B. W. Powell, Kintnersville, Pa., says he suffered 55 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve affected a permanent cure. Counterfeits are worthless. Dr. L. D. Collier.

The Westminster shirt factory building has been entirely remodeled and repaired, new machinery has been introduced and it has been made a model establishment.

The suits of Dr. James Mackenzie and other former members of the faculty of the Jacob Tome Institute against the trustees of the school will be removed from Cecil county.

Ernest Morris (white) shot and dangerously wounded Henson Smith, a negro fellow-employee, on the farm of Zachariah Brigg, near Gaithersburg, Montgomery county, as the result of a quarrel.

Sid Darling, 1012 Howard st., Port Huron, Mich., writes: "I have tried many pills and laxatives but DeWitt's Little Ringers are far the best pills I have ever used." They never gripe. Dr. L. D. Collier.

Quite a number of gunners were shooting orioles on the marshes of the Patuxent river last week. It is reported that the birds are not as plentiful as usual this season.

The Baltimore county farmers say the tobacco worm has attacked the tomato plants in some sections of the county, and is doing much harm, eating the tomatoes as well as the plant.

The Baltimore County Commissioners have renewed their contract with the Standard Oil Company to furnish gasoline to the county for the next six months at 81 cents per gallon, the same figure as that of last year.

Don't wait until you become chronically constipated but take DeWitt's Little Ringers now and then. They will keep your liver and bowels in good order. Easy to take. Safe Pills. Dr. L. D. Collier.

The Frederick County Democratic Convention will nominate a ticket on Saturday, September 28. The Republicans will hold their nominating convention Saturday, September 21.

Miss V. V. Gibson, of Eldersburg, raised this season a cucumber that measured 17½ inches in length by 12½ inches in circumference and weighed 44 pounds strong.

Henry Brayden, Harris, N. C., says: "I took medicine for 20 years for asthma but one bottle of One Minute Cough Cure did me more good than anything else during that time. Best Cough Cure."

W. H. Norton, a Government Printing Office employee, was killed by a train on the E. & O. R. R. at Forest Glen, Montgomery county. A jury blamed the man's death to the negligence of the Railroad Company in not providing a proper crossing.

Norris Silver, North Stratford, N. H.: "I purchased a bottle of One Minute Cough Cure when suffering from a cough doctors told me was incurable. One bottle relieved me and the second and third almost cured me. Today I am a well man." Dr. L. D. Collier.

Ex-Judge George M. Russum, has declared that he will not be a candidate for the second Judicial vacancy caused by the death of Judge Stump, as he could not serve the full time. William S. Evans of Cecil, William H. Dewees of Caroline and Henry E. Lewis are now left to fight it out.

Many physicians are now prescribing Kodol Dyspepsia Cure regularly having found that it is the best prescription they can write because it is the one preparation which contains the ingredients necessary to digest not only some kinds of food but all kinds and it therefore cures indigestion and dyspepsia no matter what its cause. Dr. L. D. Collier.

Mr. Hugh Thomas Reape, of Street, reports the first frost of the season Monday morning along Broad Creek. Fence rails were quite white and the weather was cool and bracing. The thermometer registered 40 degrees about dawn.

"In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old fashioned castor oil. However much they may abhor it, it is their best medicine for disorders of the bowels. In the more severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea Remedy should be given after the oil operates and a quick cure is sure to follow. For sale by R. K. Truitt & Sons.

THE BALTIMORE GRAIN MARKET.

Furnished by Stevens Brothers, 226 South Charles Street.

WEDNESDAY'S REPORT.

Trade is very small, nothing being done for foreign account; but there is some inclination to do business in new crop, and this bids fair to increase as the season advances. With the bushel sentiment to hold instance markets, and a large crop in our vicinity to market, an active demand is essential to sustain prices here or anything like a parity.

COHRS.—Receipts for today, 18,857 bus., viz: 208 bus. southern and 18,449 bus. western. Shipments from elevators, 8,007 bushels. Stock in elevators, 27,218 bushels. Receipts of southern corn today were very trifling in amount, consisting of a few small parcels both colors, which sold at 65 cents—the white corn being by far the most popular.

Market very steady; 15 tons white and more or less consistent from local dealers. Quite prime white and yellow about 65¢.

Oats—Coarse and firm, being quoted at \$3.00-\$3.25 per bbl. for earlives prime-yellow on spot; offerings from first hands very limited, and demand fair.

WHEAT.—Receipts for today, 98,500 bus., viz: 5,390 bus. southern, and 94,119 bus. western. Shipments from elevators, 6,800 bus. Stock in elevators, 1,461,025 bus. Receipts of southern wheat today were lighter, and the market firmer at the opening with a good demand for prime wheat. Sales of sample lots at 70, 72 and 74 cents—the latter figure for prime wheat. Quote cargoes on grade nominally at 74 cents for No. 2 red at the close.

Western yesterday afternoon was steady. December, 75.

Western today opened firmer, September, 78. Foreign markets were all firmer. French rising 1 cent, while speculative, on this side, were unsettled and lower. Cash and September early closed off at 78; sales October, and 78 September. Trading was rather quiet, the course of the market being a surprise. Private cables very quiet, and as a rule, indifferent. Receipts Northwest today, 551 cars; last year, 569. Western advises my wheat easier in sympathy with corn and Northwest stocks accumulating. Sales 10,000 September 78; 30,000 October, 78.

OATS.—Receipts for today, 11,068 bus., including 1 bus. for shipment, withdrawals from elevators, 4,836 bus. Stock in elevators, 593,738 bus. General market for oats firm and healthy; with demand about keeping pace with the moderate daily offerings. Sales 2 cars No. 2 white, Camden elevator, 85¢; 4 cars do. do. B. & O. and N. C. 85¢; car No. 8 white, selected, 88¢.

The Rev. Father Sartori of St. Joseph's Catholic Church, Midland, Allegany County, in a prayer for the new President of the United States recently asked particularly that he may "quit once hunting wild animals of the forest for the energetic hunting down of two-legged savages, beasts left running free about this vast civilized country."

What does it profit a woman if she gains the whole world of knowledge and loses her own health? Young women students, and school teachers, eager, ambitious, and full of energy, very often neglect their health in the struggle to gain education. They eat insufficient food, and at irregular hours, they allow irregularity of the woman's functions to be established, and the result is that they become chronic invalids with all their education practically worthless. There is a plain road back to health for such as these, marked by the feet of thousands. It is the use of Dr. Pierce's Golden Medical Discovery for diseases of the stomach and digestive and nutritive organs, and Dr. Pierce's Favorite Prescription for diseases of the delicate organs of womanhood. A cure so certainly follows the use of these remedies that out of hundreds of thousands who have tried the treatment, not ninety-eight in every hundred have been perfectly and permanently cured. Constipation, with its calamitous consequences, which is a common ailment of students, can be entirely cured by the use of Dr. Price's Pleasant Pellets.

Sunday evening's storm in Frederick did considerable damage to the home of Gen. L. Victor Boughman, and also to Montevue Hospital. Small buildings on the two places were carried away bodily, window panes broken by the hundred and other serious damage done. Many horses and cattle were killed in the county, and in Liberty not a building escaped damage, several barns being destroyed by the force of the wind. Telephone service is broken up, crops ruined and a general scene of desolation marks the path of the visitation.

SUNDAY'S REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

JESTERVILLE.

Those who had the most produce to sell this year realized more money than for several years past.

The prices for white potatoes have been so high that many sold too close hoping to be restocked with the late crop. It seems though that only a few have succeeded in getting the lately planted seed to come up. The result is we will have to buy potatoes for home consumption. Last year we had more than we could sell.

Twenty-five cents was offered for tomatoes on the wharf last week. A number of growers who had contracted with the canners for 10c. felt blue when the market prices were thirty-seven cents a basket. Some parties did jump their contract with the packers. The latest news is that tomatoes will not bring the freight, and the steamers demand the same prepaid. It is better in general for the grower to contract than take the chance of a fluctuating market, for thereby he has a chance to sell his whole crop.

This has been an exceptional year in which the farmers have harvested their crops of fodder and hay; this together with a heavy crop of acorns and persimmons, according to the weather-wise, promises a hard winter (?)

More oystermen have gone to the Potomac this week. It is said the oysters are being attacked by an insect which bores through the shell. Some persons have exhibited specimens of the destructive work done by this insect lately.

A pair of colored youths were arraigned before Squire Walter, charged with appropriating to themselves one of five mission pears which hung on Joe Dashfield's tree and which pears mid-Joe was caring for, tenderly until they should drop in order to ascertain how big they should get to be. One of them got so big that it "rotched" \$10 as payment and costs for same out of that pair.

PEACH CROP 75,000,000 BUSHELS.

A Great Year For The Fruit—Peaches Are Imported Every Season.

An exchange says: This will be a banner year for peaches. The crop throughout the whole country is estimated to be about 75,000,000 bushels, and rather over than under that amount. The prolonged drought in some parts of the country has affected it somewhat, but not to any great extent, and the hot weather of July has helped to stave off the backward summer in developing the fruit.

Finer peaches and a larger quantity of them to the acre are being produced every year, and this is due not only to careful tillage and cultivation, but also to a ruthless thinning of the fruit when it first appears on the trees. The old fashioned peach grower would have thought it sheer lunacy to cut off three-fourths of the peaches just as they were beginning to develop. Yet it is by just that method that more bushels of peaches are now being produced from the trees than they would bear if they were not interfered with and the fruit is improved and brings a higher price.

Another important point about thinning out the fruit is that as a result of the operation only one-fourth of the usual number of peach-stones is produced and as the development of these is the greatest drain upon the vitality of the trees a profitable economy is effected and regularity of yield from season to season is promoted.

The peach came from China originally and reached Europe by way of Persia and America by way of England and Holland. The peach season now has been greatly lengthened by the shipment to our markets in refrigerator cars, sent at express speed, of Southern and California peaches. Immense tracts in Georgia are now solely occupied by peach orchards, a single one of which will pack and ship more than 8000 packages a day in July, which is the height of the peach season down there.

It isn't necessary any longer, in these days of refrigerator cars, to pick the fruit before it has come to its full maturity, and trust to its ripening on the way to market after it is packed. The peaches are allowed to ripen on the trees and are so far as possible gathered just before they begin to soften.

The pickers are trained to know the right stage at a glance. Every peach, as everybody knows, has its sunny and its shady side. It is by the hue of the shady side that the degree of ripeness is judged. To insure all of the peaches getting the benefit of the sun the orchard is divided by straight avenues in to rectangular blocks.

After the peaches are picked they are sorted into three grades, according to quality. This is expert work. Outside of the three grades all peaches overripe for shipment are put aside for the evaporator, and the grower makes his profit on them dried.

Scientific gardeners are trying to introduce into this country some of the peach growing methods of France and England, which produce wonderful peaches, though few. Over these peach trees are usually trained flat against a wall with a southern exposure or on a trellis a foot or so away from such a wall, and only a few branches of each tree are allowed to grow.

Then most of the peaches on these as soon as the fruit develops from the flower are cut off only a dozen or two, sometimes a score at most, being allowed to develop. Such a peach tree as this doesn't look much like a tree. But the few peaches that are allowed to mature on it are marvels of beauty and juiciness, and half a dozen of them in a cotton-lined basket cost from \$8 to \$8 in the markets.

A Shocking Calamity

FAMOUS WELSH BROS.' SHOWS.

Beautiful Horses, Champion Performers and the Rarest Living Features

Procurable.

Probably one of the most interesting events of the season will be the appearance here at Salisbury Friday Sept. 27th. of the famous Welsh Bros' Big Railroad Shows and Trained Animal Exposition. The show was organized in 1897 and since has been continuously successful, it has maintained a pre-eminence over any other similar enterprise in America, and at prices of admission to suit the capacity of the humblest citizen. That so grand a show, which is its outfit and integral construction to absorb a great capital and necessitating heavy daily expenses can profitably exist, and like the rolling snowball, increases from year to year, is a marvel only solved by the influence appertaining to the name of Welsh Bros' Great Shows, which, spread far and wide, possesses the magnetism to insure remunerative attendance. The name is identical with the assurance of an exhibition which has never failed to fulfill the word of promise to the public, and which however critical and hard to satisfy, never fails to distinguish the genuine from the counterfeit. The big street parade every morning, is said to be a marvel of glittering splendor and extraordinary sights, the procession will leave the show grounds promptly at 11 a.m., passing through the principal streets, after the return to the exhibition lot, numerous free shows will be given. The afternoon performance begins promptly at 2 o'clock, in the evening at 8 o'clock.

Peculiar Will of a Judge.

Judge Stump of Cecil county who recently died, made in October 1900 the following will:

"Disgusted with the foolish display universally made at funerals to the great gain of undertakers and to the deprivation of many families of even the necessities of life for a long time thereafter, I hereby direct that I be buried in a white pine (because that wood decays more rapidly underground than any other I know) of coffin without any stain, paint, covering or other emblems of woe on it, and if my friend 'Ned' Gehr has not gone to Heaven before I die I want him to make it. I direct that no embalming fluid or other stuff shall be injected into my body and that no funeral sermon shall be preached over it, and that I be buried in a suit of clothes I have worn, as I do not see the sense of wearing old clothes when alive and being buried in a new suit when it is of no use to you. I desire that my executor see that my wishes are fully carried out."

"As I am not now worth more than one quarter as much as I was 35 years ago there is not much prospect that I will be worth anything when I die, unless that event happens before I am an old man, and even then the amount will be so small that to divide it into nine parts (as the law would do) would do no one any good. For that reason only I have determined to divide between the two that in my judgment will need it the most, viz., my sister Allie M. and my brother John."

The directions for burial were complied with.

William, the 6 year-old son of William T. McNamee of Washington, was drowned in the lake at Chevy Chase, Montgomery county, while on a day's outing. The child's mother went into convulsions when told of the accident.

"Lately befell a railroad laborer," writes Dr. A. Kellett, of Williford, Ark. "His foot was badly crushed, but Bucklin's Arnica Salve quickly cured him. It's simply wonderful for Burns, Boils, Piles and all skin eruptions. It's the world's champion healer. Cure guaranteed. 25c. Sold by R. K. Trout & Son."

Democratic primaries in Carroll county Saturday resulted in a victory for the organization forces, although in some of the most influential districts the antiorganization motion polled almost the entire vote cast, carrying Westminster, Taneytown, Middlebury, Union Bridge, Woolery's, and parts of the Hampstead and Mount Airy districts. The result of the expected fight in the Convention is problematic.

PROGRESSIVE, RELIABLE AND INDEPENDENT.

REPUBLICANS DIVIDED.

Stone's Ambition Will Make Democratic Success Easy. The Eastern Shore Solid.

In spite of the pretended hopefulness of Chairman Goldsborough, republican conditions in the state are not promising. Candid observers who are not expected to bolster up a hopeless cause by rosy predictions admit that the republican chances of carrying the state are very few.

They cite as proof of their correct predictions the factional fights in the republican ranks which have broken out into independent nominations in some counties and which are smoldering fires of discontent in others.

Moreover, back of those factional differences they see a serious cause for this condition—a cause which means the disorganization of the party, temporarily at least. This cause lies in the ambition of W. F. Stone to become the head of the party in the state. He is apparently in the most hearty accord with the present organization. It would be difficult to point to a single act of his that would arouse suspicions of treachery or indifference, and yet it is common knowledge that the people whom he influences are not doing anything for the republican success. Until he secures his reappointment as collector of the port at the hands of Senator McComas there will be no open rupture, but in the meantime the republicans will be defeated and the present leaders will be discredited. Goldsborough and McComas will have to bear the responsibility for defeat, while Stone can come forth as an untried but admittedly able leader. He has at this time a silent but perfect organization throughout the state, and his followers are only awaiting the word from him to come out in the open and discard Goldsborough and the present State crowd.

Eastern Shore conditions would seem to indicate a sweeping democratic victory in every county on the shore. Talbot and Dorchester were worrying the democratic leaders but the independent republican tickets which have been nominated there almost assure the election of the democratic tickets.

Caroline is safe for a small democratic majority as is Kent. The ballot law will be a great help to the democrats in these counties by eliminating largely the purchasable vote which has recently been going solidly to the republicans.

In Cecil the campaign has been on for a long time. The democratic ticket was nominated long before the state convention and harmony in the party ranks is complete. Somerset with its varying republican majority of from 300 to 800 promises to redeem itself this year. The republicans have almost abandoned all hope of winning and are now centralizing their efforts to secure the election of Oliver Beauchamp for Clerk. They admit that this can only be accomplished by the aid of democratic votes, and the only question is whether they can get enough of them or not.

The frantic attempts of Mr. Goldsborough to belittle the independent movement in Dorchester are really funny. At headquarters in Baltimore he tells his admiring friends that it amounts to nothing but the next day he comes home and begins a series of mass-meetings along before the campaign has started anywhere in the State. As a matter of fact Ex-Congressman Kerr is telling his friends some very plain, blunt truths about Goldsborough's leadership which these alleged leaders cannot refute. Just where the fine hand of Mr. Stone is in Dorchester's fight will be seen after the republican defeat. With Goldsborough's elimination an opening will be left in the county for Stone's "closer" friends.

The same game can be observed right here at home. The republican ticket as dictated by Congressman Jackson is admittedly about the weakest that could have been named. This fact taken in connection with the nomination of Graham for the Judgeship and his well known affiliation with the Goldsborough-McComas organization would seem to be a story of at least a trick as was ever turned. If Graham's defeat had been Mr. Jackson's dearest wish he could not have done more to bring it about in this county than he has done. Without speaking personally of the gentlemen on the ticket, it may be said that politically, not one is an ally or friend of Graham's. Moreover the old fashioned republicans are not convinced of their party regularity. With Graham eliminated from Wicomico Politics as he would be by defeat Stone would have another fresh field to work in where he would find likely prospects.

Of course the ballot law will be a great factor in democratic success but nothing will contribute to make victory easy so much as the ambition of one man, and that man is William F. Stone.

WILLIE WHITTLECRAFT.

SEPTEMBER COURT.

Not Much of Importance Up for Action.

Chief Judge Page was present with associate Judge Holland, when the September term of Court convened at ten o'clock last Monday morning. Judge Lloyd arrived Tuesday, but owing to a most painful attack of rheumatic gout in the right arm he was obliged to leave Wednesday afternoon, going to Centreville where Mrs. Lloyd was at the time visiting.

All the old court officials appeared at their accustomed places, except Mr. Wm. Humphreys who lies very ill at his home out the Spring Hill road. Mr. Martin E. Hastings was appointed by the Court a Court Bailiff, thus supplying the usual number of attendants.

Mr. John E. Taylor, of Riverton, Sharptown district, was chosen foreman of the grand jury. His associates were Meares, James C. Johnson, Levin O. Twilley, Elisha A. Powell, Benjamin D. Taylor, Jonathan Huntington, Wm. E. Wilkins, Charles H. Wood, Purnell B. Nelson, Wm. W. Smith, Wm. B. Mesick, Clarence M. Brewington, Peter Bounds, George W. Phillips, Lemuel B. Brittingham, Frederick J. Mitchell, Wm. S. Perdue, John S. Hurley, W. Scott Disharoon, Edwin Parker, Thos. H. Williams, Jacob Morris of J., and Wm. Dennis.

Chief Judge Page delivered a very impressive charge to the jury before it retired to its room for work.

The Petit Jurors are Lemuel D. Gordy, Sewell H. Farlow, Edgar Johnson, George D. Insley, David J. Ward, Wm. H. Tighman, George D. Walter, L. B. Kerr, John E. Hastings, Wm. H. Gale, Joseph A. Baker, Culver Mitchell, Charles I. Taylor, Samuel H. Carey, Charles W. Layfield, Henry P. Heath, Ernest Freeny, Wm. T. Darby, Eliasha P. Parker, Robert G. Evans, John E. Richardson, David H. O'Neal, George W. Mills, Nathaniel A. Conway, and Geo. W. Moore.

After the court dockets were read and the business of the term arranged in order, Mr. James E. Elligood presented resolutions upon the death of the late George Grier Ratcliff, who was associated with Mr. Elligood at the time of his death by drowning last August. In offering the resolution Mr. Elligood made an eloquent and touching address to the memory of Mr. Ratcliff. Messrs. Robt. P. Graham, E. H. Walton, N. T. Fitch, E. Stanley Toadvin, Jay Williams, Samuel J. Douglass each spoke in memory of the deceased.

Interest in to day's proceedings goes first to the return of the verdict. While Justice White was delivering his charge to the jury the sky seemed suddenly to grow dark. Clouds blew up from the lake and rain threatened. Czolgosz glanced fearfully at the twelve men standing in their places in respect to the solemn words of the Court. He asked for water and the detective brought him a glass. He gulped at it, handed back the glass and dropped his eyelids again. All day he sat with his eyes almost closed, as if he would shut out the scene. From time to time he would plunge his left hand into his coat pocket, bring out his handkerchief and mop his face. He opened his eyes quiet wide when the Judge turned from the jury and the tramp of feet told him that the jurors were to retire. It was nine minutes to four. Every one looked at the clock so that he might time the deliberations of the jury. Czolgosz looked, too. Between the two lines of tipstaves the jurors walked to their consulting room. The door closed behind them, Justice White left the bench, and the rumble of conversation started. Many in the body of the court room who had no opportunity to see the face of the prisoner came forward and viewed him. Judge Lewis of his defense felt so little concern for the man he had defended that he departed to catch his train to his summer home, leaving Judge Titus to take care of the interests of the prisoner. The jury was out longer than any one expected, in fact thirty four minutes. This was afterwards explained. The jurors wanted to maintain the majesty of the law as it has been preserved throughout the trial.

The dockets revealed very little of importance for action by the court, and if the grand jury had not been occupied with investigating complaints it is probable that court would have adjourned Wednesday.

Tuesday several parties in Salisbury were arraigned before the Court on the charge of selling goods on Sunday and for allowing slot machines to be operated in their places of business. Indictments in each case had been found by the Grand Jury. The parties plead guilty and each was fined \$20 and costs. Judge Page admonished them that future offenses of the same character would be dealt with more harshly.

Wm. Dooley, colored, indicted for assault with intent to kill Wm. Pride, colored, was tried before jury. Not guilty.

Wednesday morning the case of State vs. Dr. John H. O'Day, indicted for practicing medicine without proper registration in Court, was tried. Fined \$10 and costs. The Dr. was cautioned not to continue practice without being duly registered.

Jas. Crouch, Jr. was on trial Wednesday charged with fraudulently obtaining license to marry. The jury returned a verdict of not guilty.

Thursday the case of Eli Saunders colored was before the court the entire day, and it extended over until Friday. Saunders was indicted for attempting to murder Marion Waller, another colored youth. In the fight Saunders slashed the head of the other man. State's Attorney Bailey appeared for the State and Saunders was defended by Mr. E. H. Walton.

On Friday morning the case was turned over to the jury which rendered a verdict for the defendant.

In the afternoon Saunders was tried before jury for beating his wife. Verdict not guilty. It is expected Court will adjourn to day (Saturday).

CZOLGOZ GUILTY.

Jury Takes Four Ballots and All Are Unanimous.

Buffalo, Sept. 24.—A verdict of guilty of murder in the first degree was reported at 4:25 o'clock this afternoon by the jury which tried Leon F. Czolgosz for the assassination of President McKinley. Eight hours and twenty five minutes was the actual time occupied by the trial of the case and the deliberations and return of the jury. Eighteen days had elapsed from the shooting of the President, and ten days and fourteen hours since his death. No witnesses were sworn for the defence. Not a word of evidence was before the court as to the sanity of the prisoner. The alienists who examined him were not called. The court instructed the jury that the proof of insanity is with the defendant, that a man must be presumed to be sane unless proven insane.

To the assassin was offered the opportunity to go on the stand, but he only shook his head when his lawyers asked him. He did not trust himself to speak. The unconcerned murderer of yesterday had changed. His pallor had turned from white to yellow. His hands shook. He curtained his eyes with the lids and sat with his head hanging on his shoulder, a nervous perspiration oozing out on his face and hands. In remaining mute throughout the assassin found a way to hold his composure, but this afternoon in court he was a most miserable picture. No bravado, no courage, no defiance of death, not the glorification of the Anarchist who did his duty—just a cur-like collapse.

"He will be dragged to the death chair howling with terror," said Chief of Detectives Cusack, who has studied him since his arrest, and the fear that was written all over the assassin to night lent itself to the prediction.

Interest in to day's proceedings goes first to the return of the verdict. While Justice White was delivering his charge to the jury the sky seemed suddenly to grow dark. Clouds blew up from the lake and rain threatened. Czolgosz glanced fearfully at the twelve men standing in their places in respect to the solemn words of the Court. He asked for water and the detective brought him a glass. He gulped at it, handed back the glass and dropped his eyelids again.

All day he sat with his eyes almost closed, as if he would shut out the scene. From time to time he would plunge his left hand into his coat pocket, bring out his handkerchief and mop his face. He opened his eyes quiet wide when the Judge turned from the jury and the tramp of feet told him that the jurors were to retire. It was nine minutes to four.

Every one looked at the clock so that he might time the deliberations of the jury. Czolgosz looked, too.

Between the two lines of tipstaves the jurors walked to their consulting room.

The door closed behind them, Justice White left the bench, and the rumble of conversation started.

Many in the body of the court room who had no opportunity to see the face of the prisoner came forward and viewed him.

Judge Lewis of his defense felt so little concern for the man he had defended that he departed to catch his train to his summer home, leaving Judge Titus to take care of the interests of the prisoner.

The jury was out longer than any one expected, in fact thirty four minutes.

This was afterwards explained.

The jurors wanted to maintain the majesty of the law as it has been preserved throughout the trial.

Out of respect for the deceased member of the bar the court adjourned till Tuesday.

The dockets revealed very little of

importance for action by the court,

and if the grand jury had not been

occupied with investigating complaints

it is probable that court would have

adjourned Wednesday.

GUILTY SAYS THE JURY.

Justice White returned to the court room at 4:21 o'clock, having been notified by the sheriff that the jury had arrived at a verdict. Four minutes later into the hushed court room came the jury, with Henry W. Wendt at its head. The roll of the jurors was called.

"Gentlemen of the jury, what is your verdict?" asked the clerk.

"Guilty of murder in the first degree, as charged in the indictment," was the reply.

Crowding down his emotions, his eyes closed, his hands twitching, Czolgosz heard the verdict. He had not been asked to stand. He was almost lying in his chair. The spectators, too, received the verdict without demonstration.

Even in this respect this trial will stand as an example of American justice.

The District Attorney required when the Court desired to pronounce sentence.

Justice White said the prisoner had a right to two days' delay.

Mr. Penney said Judge Titus was content to waive it. Judge Titus suggested Thursday morning. It was agreed to.

Czolgosz was shackled. He lifted himself to his feet with some difficulty and at 4:28 o'clock was on his way out of court.

As he passed through the corridors of the City Hall hisses reached his ears, but he went on with drooping eyes and faltering step back to the jail, from which he will come again only to receive the sentence of death.

DELAWARE BEING COLONIZED.

An influx of Negroes in Kent County, fourteen living in a barn.

YET FARMERS HAVE TROUBLE IN SECURING HELP.

The Wilmington Evening says: That the Union Republicans of Delaware, and especially in Kent county, are doing everything in their power to aid them to carry the election in Delaware next year, is evidenced by the many schemes they now have on foot and are putting into execution, for the accomplishment of this purpose. One of the main schemes is the colonization of negroes in various sections of the country. On a farm near the Kent county almshouse, from which the present keeper of the institution, James Aaron, who was the Representative from the Seventh district, moved last year, is a barn, which has been converted into a dwelling and in which 14 persons, representing several families reside. Just how these persons came to take up their residence here is not known, and perhaps never will be.

Reputable persons in and around the towns of Farmington and Harrington are also complaining of the influx of negroes in those localities, yet the farmers are having the greatest trouble in getting hands to work in their fields at this time of the year.

Another instance in this line, is noted in the midst of Dover, within the shadow of the Federal building and the church steeples. In the rear of the postoffice is a building which is hardly large enough to accommodate more than two or three families at the most, and yet at registration times, the number of negroes who claim their home in this particular building, is marvelous. Not only is it the habitation of the many negroes, but it is a hotbed for gambling and almost everything else in that line. Only about a year ago, a colored man was shot in cold blood in this building in broad daylight, and apparently no effort was made to catch the murderer. One of the officers of the law, in ferreting out a case of theft of a quantity of liquor and wine from one of Dover's hotels nearby, some months ago, traced the stolen goods to this house, the liquor and wine having been emptied from the bottles in which they were when stolen, into demijohns secured for the purpose.

Many have been the expressions that the town would be better off if the building were out of the way, but notwithstanding objections there has recently been erected in the rear of the same building another building much larger, which will accommodate at least 35 negroes and their families. A strict watch is being kept on these two places, as many of the nearby residents, knowing the reputation of the first place, are fearful of the consequences. Significant in this connection is the remark of a prominent member of the Union Republican party and a State Senator from this county, when approached concerning the doings of the Legislature, shortly after its adjournment. He thought the Union Republicans "had much to rejoice over, as they had passed laws which gave them the voters' assistants, they had the governor who would appoint Republican registrars, and that he could not see where they had made great gains."

Fall Shoes
By the Wagon Load.

\$1.00 Shoes.

No, these Shoes are not worth \$1.00, nor sold in other stores for \$4.50 as some dealers advertise their low priced Shoes, but they certainly are the best \$1.00 Shoes we have ever owned or sold.

Dollar Shoes for Men, Women & Children

These Shoes are not trash but are made of good leather—on good lasts—made to look like higher grade Shoes—made to give every customer who buys them ONE DOLLAR'S WORTH OF HONEST SERVICE.

Some of our patrons say they do even more—Well, so much the better, but come here for \$1.00 Shoes.

Our \$1.50 Shoes.

We make a specialty of medium priced Shoes and we aim to sell the best Shoes at each price that the money will buy anywhere. Every member of the family can be fitted here in our \$1.50 SHOES and get full satisfaction. We are careful not to over-rate our medium priced shoes, but will state plainly there are no better \$1.50 Shoes sold than ours. All sizes, good Leathers, Fall and Winter Styles are ready.

\$2 Shoes.

Of course we are aware that you can buy \$2.00 Shoes anywhere, but we are not aware that you can buy Shoes like ours anywhere for \$2.00. Our Shoes at \$2.00 are the best Shoes for the money to be had. We say this to the best of our knowledge and belief. We have \$2.00 Shoes to fit all feet. Every Woman and every Man in town can be fitted here at \$2.00. Good Calf-skin stock goes into our Winter \$2.00 Shoes and the styles are exact duplicates of the higher grades. If you wear \$2.00 Shoes, try ours, perhaps you will find them the best \$2.00 Shoes you ever had on your feet. We believe you will.

\$2.50 Shoes.

Here's a Two Fifty Shoe shot from our store that will certainly bring relief to many overtaxed purses. It is possible to sell a good Shoe at \$2.50—it's possible to sell a splendid Shoe at \$2.50, and that's what we are doing. For Men and for Women we have the best \$2.50 Shoe in Shoedom—made in the best styles that Fall has brought. Style, comfort and durability are not neglected.

Most dealers would ask more money for our \$2.50 Shoe, but we are determined to sell the best for the money. The Ladies' shoes are made of Kid and Calf, some in manish shape with extension sole—right up to the hour in style. The Men's Shoes are made of Box Calf, Coltskin, Kid, etc. All new Winter styles, all sizes. Give our \$2.50 Shoes a trial, that's the best test.

**YOU AND YOUR WIFE
ARE BOTH INVITED TO SEE OUR
\$3 Shoes.**

Perhaps you'll be surprised to see the Shoes we are selling at \$3.00. We believe you will. Our great \$3.00 Shoe is our "Bilt Well" Shoe—its our leader. It's made in a Ladies Shoe, and Gentlemen's Shoe, and if there is a better Shoe on earth sold for \$3.00, tell us about it and we will throw away this Shoe and sell the better one, but until we do find it we'll stick to the "Bilt Well" shoe. The Winter Styles are here, made from the best stocks and on new lasts, all sizes and widths, and on the foot you can't tell our \$3.00 Shoes from a \$5.00 pair.

**Shoe Wearers, Here Are the Facts.
Our \$3.50 Shoes**

Are the best Shoe values you can get for your money. This one statement is worth more than a column of flowery talk. In speaking of our \$3.50 Shoes we avoid the high-flown phraseology used by newspaper men, who know nothing about shoemaking, but who have been hired to write about Shoes. Such advertisements have become a subject of ridicule to everyone who knows anything about "practical" Shoemaking. We say to you with all confidence and in simple plain English that our \$3.50 Shoes for both Ladies and Gentlemen have no equal in the \$3.50 class. Undoubtedly great effort has been made by all manufacturers to produce good values in a popular priced Shoe, but we have been in the business too long to allow any point of merit to escape us. We show in our \$3.50 Shoes, Shoes that are superior in every respect to any other \$3.50 Shoes on the market. All Leathers, correct Shapes, original Styles—street, society, skating and storm wear. For both Ladies and Gentlemen. Why not step in and see them?

Ask to see the "Walk-Over" and "High Life" Shoes. A real treat to all lovers of high grade Shoes.

SNOW HILL'S WOMAN PILOT.

The Second One Ever Licensed in The State and the Sixth in the United States.

The Baltimore Sun of Wednesday says: The second female pilot licensed in Maryland received her papers yesterday from the local board of steamboat inspectors in this city. She is Miss Carrie Boyce Hunter, daughter of Mr. Robert W. Hunter of Snow Hill, Md. The license granted Miss Hunter authorizes her to navigate her father's pleasure steamer, the "Carrie."

For several days the local inspectors have been awaiting the appearance of Miss Hunter, having been apprised of her coming. She entered the office yesterday in company with Captain Howard, of the steamer Pocomoke. All applicants for pilots' licenses must be examined, and no exception to the rule was made in Miss Hunter's case. As she only wanted a license for pleasure steamers the examination was not as rigid as usual, the usual questions as to the channels, depth of water and courses to be steered being omitted. It embraced, however, all questions as to the meeting and passing of vessels and the signals to be given and answered.

Miss Hunter answered the questions satisfactorily and displayed a full knowledge of the duties she was licensed to perform. Her license is for the Pocomoke river and its tributaries.

Mr. Hunter has a farm at Red Landing, on the Pocomoke river, and uses the steamer to carry his produce to Snow Hill, and also for pleasure parties. He is a licensed engineer and it was necessary for him to obtain a licensed pilot for his steamer.

Miss Hunter was born in Pennsylvania and is 25 years old. She is tall and slender, with light brown hair and gray eyes. She is said to be the sixth woman licensed in the United States to be a pilot.

THE MARYLAND STATE HORTICULTURAL SOCIETY.

Plans For Fruit Exhibition At Next Annual Meeting.

It is expected that the exhibit of Fresh Fruit at the next Annual Meeting of the Maryland State Horticultural Society will form one of the leading features of the meeting. This meeting will be held in Dushane Post Hall, Baltimore, December 12 and 13. Although it is sometime before this gathering will occur, it is none too early for the fruit growers to begin making their plans relative to the meeting. It is hoped that those having fruit suitable for exhibition purposes will contribute whatever they can toward the interest of the fruit exhibit.

Arrangements similar to those of last year have been made with the Baltimore City Cold Storage and Warehouse Co. whereby they will place in cold storage fruit sent them for this exhibit. Fruit for this purpose should be picked as soon as it is well grown, without waiting for evidence of full ripeness to appear. It should be handled with the greatest possible care to avoid bruising; each specimen wrapped in tissue paper or some other suitable kind and carefully packed. Ship, express prepaid, to the above named company at No. 408 South Eutaw Street, Baltimore. Each package should be plainly marked in such a manner that the purpose for which the fruit is intended shall be known. The Cold Storage Company should be notified of each shipment, as should also the Secretary of the Society.

A large exhibit of fruit is hoped for. The exhibit at the last annual assembly was one of the most valuable features of the meeting. By vote of the Executive Board, certificates of merit signed by the President and Secretary will be issued, based on the report of the Exhibition Committee. The certificates will be of three grades—first, second and third—and be awarded on individual varieties of fruits in competition with each other; on collections of varieties; on new fruits and seedlings of merit, and on many other horticultural exhibits based on the report of the committee in charge. Five specimens of each variety of fruit must be exhibited to compete for a certificate.

Further information concerning matters relating to the Society may be obtained by addressing the Secretary—

A Young Man Shot by His Brother.

Reginald Bennett, 19 years old, of Neck district, Dorchester county, had the upper part of his head blown off last Thursday at the store of William James, on the Little Choptank river, near Hills Point. His brother, Howard Bennett, was loading a shotgun of a large bore, which was accidentally discharged, the load taking effect in young Bennett's head. Death was instantaneous. Bennett was an oysterman.

Good Roads Wisdom.

The total cost of maintaining roads in good order ranges, on account of varying conditions, between as wide limits almost as the initial cost of construction. Suffice it to say that all money spent on repairing earth roads becomes each year a total loss, without materially improving their condition. They are, as a rule, the most expensive roads that can be used, while, on the other hand, stone roads, if properly constructed, of good material, and kept in perfect condition are the most satisfactory, the cheapest and most economical roads that can be constructed.

The road that will best suit the farmer, in the first place, must not be too costly; and, in the second place, must be of the very best kind, for farmers should be able to do their heavy hauling over them when their fields are too wet to work and their teams would otherwise be idle.—The Good Roads Magazine.

"York State Folks"

The production at the Academy, Baltimore, all next week of Arthur Sidney's new pastoral play, "York State Folks", will be an event of social and dramatic interest. Theatre parties are forming for the occasion, and the demand for seats in advance indicates the general desire on the part of local playgoers to witness this numbers fifty people, including a choir of thirty boys. There are nineteen principal characters in the play, which is said to be a decided novelty in the line of rural dramas.

It is announced to be a "story of village life", not a country play, and many of the characters are new to the stage. It is said to abound in humor, while the story on which the laughs are strung possesses plenty of real interest. Manager Fred. E. Wright has provided a realistic setting for the play, and two car-loads of scenery are carried. The presentation here is awaited with more than ordinary curiosity.

An Ideal Shakespeare.

An exceedingly handsome and astonishing cheap edition of Shakespeare, is just issued by John B. Alden, Publisher, New York. It is in 18 vols., big type, fine limp cloth gilt top, the set in a silk cloth box. The regular price is \$6.00, but if you send at once \$5.00 for a sample volume he will surprise you, and give your money back if you prefer to return the sample. Send a dime for his last monthly Book Worm, and you will be amazed at the vast variety and multitude of the book bargains he offers. Write, mentioning this paper, to John B. Alden, Publisher, 422 Pearl Street, New York.

Let it Alone.

Scott's Emulsion is not a good medicine for fat folks. We have never tried giving it to a real fat person. We don't dare. You see Scott's Emulsion builds new flesh. Fat people don't want it. Strong people don't need it.

But if you are thin Scott's Emulsion is the medicine for you. It doesn't tire you out. There is no strain. The work is all natural and easy. You just take the medicine and that's all there is to it.

The next thing you know you feel better—you eat better—and you weigh more. It is a quiet worker.

A Home in The South.

Escape the rigors of another North or Winter and enjoy the delights of the Southland.

Nowhere can be found a more delightful climate than in our own Southland. Its winters are mild and balmy and in the most cases Summer does not bring with it such extremes of heat as are to be found elsewhere. In fact, the South is a land where extremes of climate are avoided, and consequently, is a healthful and altogether desirable location.

The tide of emigration has turned Southward, for it is not alone in climatic advantages that this favored land excels, but its resources, the fertility of its soil and its mineral wealth, and abundant water power command it to the thoughtful consideration of any one who seeks a home where Northern thrift and enterprise may carry out success.

The Seaboard Air Line Railway, in order to stimulate investigation and to assist in opening up the fine territory traversed by its lines, announces that it will sell to prospectors and settlers, tickets one way or round trip, at greatly reduced rates, information as to which may be obtained of any agent or representative of the Company.

BROOM CORN FOR FOOD.

A New Cereal That Can be Prepared in Many Appetizing Ways.

A new kind of cereal food for human consumption is to be introduced in this country if the Department of Agriculture can persuade people to eat it. It is broom-corn millet, and the plant was brought hither from Europe not long ago by botanical agents of the government, for use as forage. However, there is no reason why it should not furnish an article of diet for people, inasmuch as it may be prepared in many appetizing ways. It produces, under favorable conditions, 60 bushels of grain (seed) to the acre, so that, in view of its highly nutritious qualities, it is a most economical and otherwise desirable plant.

This broom-corn millet is so called because, when growing in the fields, it looks like broom corn. There are a number of varieties, and the seed (that is the hulls of them) are of different colors—yellow, white, brown and gray. A graceful spreading tassel crowns the stalk.

In Russia, where the plant is grown almost wholly for use as human food, it is called "proco." People in that country eat it for breakfast in a form like oatmeal grits, or press the grits into cakes and use them with soup. The cereal also appears on their table in pancakes, such as we make out of buckwheat or Indian corn. Among the peasants, especially in the region of the Volga, the broom-corn millet is largely consumed.

One may judge of its popularity, indeed, when it is stated that from 60,000 to 70,000 bushels of the grain are produced in Russia yearly. A special study was made of it recently by Dr. M. A. Carleton, who was sent to Russia by Secretary Wilson to gather agricultural information. He says that the broom-corn millet can be grown most successfully in this country in the northern plains region—in the Dakotas, Minnesota and Nebraska.—Saturday Evening Post.

Race War in Texas.

Somerville, Tex., Sept. 24.—A race riot was started here last night, and several hundred shots were fired before the negroes broke and fled. One negro, name unknown, is dead, and two men are seriously wounded. D. W. Long was hit in the left side, and will probably die.

Gov. Sayers dispatched troops from Brenham, 14 miles from Somerville, and a large number of armed citizens accompanied them. The troops will search the woods for the rioters, and more trouble may ensue.

The trouble arose over the employment of a negro brakeman on a railroad, the road paying no attention to warnings to discharge him. A train was fired on last night with the results noted above. The trainmen and their sympathizers returned the fire of the mob.

Minor Crops.

U. S. Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, Maryland and Delaware Section, week ending Monday, September 23rd says:

Most late vegetables are still producing well. Sweet potatoes are fair to good. Irish potatoes are turning out very poorly in nearly all districts, many patches being almost complete failures. Turnips are doing well. Cabbage is below average in both yield and quality owing to damage by worms. Sugar corn continues to yield well, and the crop will be medium to large if not cut short by damaging frosts. Tomatoes continue with the favorable yields that were reported last week for the first time during the season, and the canneries are finding steady employment for all workers except in the extreme southeast where the crop has begun to fail.

Oysters in the Choptank.

The Cambridge Chronicle, says:

Commander Howard on Tuesday examined the oyster beds on the dredgers' grounds in the Choptank river. He found a fair quantity of marketable oysters, all of good size and in fair condition though not particularly fat. There is a very large amount of young growth. One striking feature of the condition of the oysters is that the difference in the size of the young growth and the marketable oysters is so great as to do away with the necessity of great pains being taken in culling. The oysters that are large are noticeably so and the small ones are quite small and there is little danger of one being mistaken for the other by accident. When the weather clears Commander Howard expects to make a tour of inspection in Honga river.

"A New Woman."

Disease makes many a woman prematurely old. Dark-rimmed eyes, hollow cheeks and wasted form are accompanied by listlessness and loss of ambition. Home duties are a weariness, and social pleasures have no attraction.

One of the commonest expressions of women cured by Doctor Pierce's Favorite Prescription is this: "It has made a new woman of me." There's a world of meaning in the words. It means the sparkle brought back to the eyes; the complexion tinted with the rosy hue of healthy blood; the form rounded out anew in graceful curves; the whole body radiant with health.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It dries debilitating drains, heals inflammation and ulceration and cures female weakness. It makes new women of those prematurely aged by disease.

WHO IS RESPONSIBLE?

The Republican party is making a great effort to make capital out of the special session of the legislature called by Governor Smith last Spring. They seem to have forgotten one of the primary objects of that call, namely, to correct a fraudulent census for which they were responsible. That the census was fraudulent is not a matter of campaign accusation, but of actual determination by the Criminal Court.

And where were these frauds committed and for what purpose? Was it for giving a good showing of population—State pride? What then? These frauds will be remembered were committed in Southern Maryland, the Black Belt, which is Republican by the vote of negroes and was for the purpose of increasing the representation from those counties; for the purpose of increasing the voting strength of the negroes in the state by giving them additional representatives in the State legislature. The promoters of this enterprise are the people responsible for the special session of the legislature, and not the intelligent people of the state who cannot be blamed for not wanting the state controlled by negroes, or those who are guilty of perpetuating these frauds for the purpose of holding office. These people have been in control in Southern Maryland for some years and incidentally we might add Somerset county, where the conditions have been growing worse and worse every year. The worst class of the Southern negroes, being barred from voting in the South, have been emigrating to the North where there were no restrictions placed upon the ballot. It is a well known fact that the negro thinks more of his right to vote than anything else, although it is seldom he knows for whom or for what he is voting. Numbers have settled in Somerset and the colonizing of negroes in other parts of Maryland and in Delaware for political purposes is one of the schemes the republicans employ to thwart the will of the majority of the intelligent and respectable white voters. The people of Wicomico and of the State are fully aware of the primary object of the extra session of the legislature and will place the responsibility where it belongs, upon those who are guilty of padding the census returns and importing foreign negroes for political gain. Unless all signs fail, the party responsible for such dirty work will awaken on November the sixth to find that the people of Maryland will not entrust its government to a party stooping to such abominable methods.

DON'T FAIL TO GET REGISTERED.

We must urge upon all democrats the importance of the registration next Tuesday. If you are not registered don't fail to attend to the matter on the first day. If you have changed your residence from one district to another, it is necessary for you to secure your trans-

fer and get registered in the district in which you are now residing. Let every democrat in the county take a personal interest in the registration. Make it your duty to ascertain who are not on the registration books and go to them in person and urge the importance of getting registered. Every democrat who fails to get registered aids the republicans to the extent of a half vote.

If the names of the democrats in Wicomico, who are not now registered, can be placed upon the registration books on next Tuesday and next Tuesday week, the battle will be half won. Wicomico is a democratic county and she will surely be found in the democratic column this year if those democrats who are entitled to the register will attend to this important matter, and if the democrats in the county will go to the polls on election day and cast their ballots.

MARYLAND FATTENING WESTERN CATTLE.

Perhaps Marylanders as a rule fail to appreciate the importance of their State, and the many advantages it possesses in climate, soil, people and variety of productions. These considered, it is as nearly an ideal a place to live as exists anywhere.

We have grown accustomed to regarding ourselves as the leaders in the production of the finest oysters, terrapin, fruits and other delectables, but we have not considered ourselves in competition with the great West in the matter of beef production. Now read the following, taken from an exchange, and dated Hagerstown, Sept. 18th.

"Today John Reimers, of Grand Island, Neb., arrived in Hagerstown with two carloads of Durham and Hereford cattle from drouthstricken Nebraska. Owing to the failure of the corn crop in the West the cattle were shipped East to be fattened. The stock was distributed among Washington county farmers, who will feed the cattle on corn until next spring, when the beefs will be exported. Mr. Reimers has 4,000 more cattle in the West which will be shipped here to be fed. The corn in Washington county is enormous."

The Schley Court of Inquiry has been in session during the past week taking the testimony of witnesses for the Navy Department. On Tuesday the session of the Court was interrupted by the sudden death of Judge Jeremiah M. Wilson, senior counsel for Admiral Schley. On Wednesday Mr. Isidor Rayner, who has been one of the counsel for Schley assumed charge of the case. The most important disclosure made during the investigation so far has been the inaccuracy of the Navy Department's records. Admiral Schley's friends are confident he will be vindicated at every point.

"Miss Simplicity" at Ford's

Theatergoers will have a chance to see the first production of "Miss Simplicity," the new Barnet and Heart's operatic comedy, by the Frank Daniels Opera Company, at Ford's Grand Opera House, Baltimore next Monday night. Everything Daniels has appeared in recent years has been of the highest plane of his style of theatrical entertainment, but his new piece promises a novelty and an increased company and greater stage appointments than the organization has previously boasted. Manager Kerke La Shelle has a reputation of keeping abreast of the times, and in sending Daniels out in a new production it is only reasonable to assume that he has neglected nothing and spared no expense. The special claims made for "Miss Simplicity's" attractiveness are a chorus of pretty girls, tuneful and catchy song and chorus, and a charming admixture of amorous sentiment and pure, clean humor.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No early catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alternative and tonic.

I was afflicted with catarrh. I took medicines of different kinds, giving each a trial; but gradually grew worse until I could do no work, taste nothing, I then concluded to try Hood's Sarsaparilla and after taking five bottles I was cured and have not had any return of the disease since." Local Department.

—Ulman Son's Furniture Store has just received a fine line of Art squares.

—Lacy Thoroughgood received this week the largest line of Honesty ever shown in Salisbury.

—Let every Democrat in the county who is not registered go to the Registration office on next Tuesday, October 1st. Don't wait until the last day.

—Gov. Smith has sent State Veterinary Surgeon Meissner to Worcester to investigate the horse disease that is doing so much damage.

—The ladies of Bethel M. P. Church, Porter's Mill, will give an oyster supper, Saturday evening, October 5th. The public cordially invited.

—Elder S. H. Durand is expected to preach in the O. S. Baptist Meeting House in Salisbury on Saturday afternoon at 8 o'clock and Sunday at 10:30 a. m. and 7:30 p. m., Sept. 28 and 29.

—Master Harry Bethke, son of Mr. Charles Bethke, has gone to Philadelphia to enter the Baldwin Locomotive Works, where he proposes to take a thorough course as a machinist.

—Every democrat who is interested in the success of his party should spend at least one day in looking over his neighborhood for democrats who are not registered.

—Mr. Jerome T. Hayman, book-keeper for the Dorman & Smith Hardware Co., has been drawn on the Worcester County jury from Atkinson District. Mr. Hayman is a resident of Worcester.

—Are you registered? Are your democratic neighbors registered? These are pertinent questions just now. Remember, there are only two registration days, Tuesday, Oct. 1st and Tuesday, Oct. 8th.

—There will be a meeting of the King's Daughters next Tuesday afternoon at four o'clock at the residence of Mrs. L. D. Collier, Division Street. A full attendance is earnestly requested as this will be a very important meeting.

—Mrs. J. D. Williams spent last week with her parents, Capt. and Mrs. Bussois, of Virginia. She was accompanied home last Saturday by Miss Annie Toadvine who has been spending the summer in Virginia.

—There will be some fine racing at "Idlewild Park," Easton, on next Tuesday, Oct. 1st. The horses are said to be in splendid condition and a good day's sport is guaranteed. See Advertisement in this paper.

—Messrs. R. Lee Waller & Co., have recently been making some improvements to the interior of their store. They have greatly increased their shelving capacity and now have one of the largest and most attractive exclusive shoe stores on the Peninsula.

—Messrs. R. K. Truitt & Sons have purchased of Mr. Harry W. Hearn his stock of picture frames and will continue the business on the third floor of their store on Main Street. The firm proposes to carry a select line of framed pictures also.

—The corner stone of the new St. Luke's M. E. Church will be laid Sunday, October 6th, Providence permitting. Services will be held morning and afternoon at 10 and 2 o'clock respectively. Prominent preachers of the conference will be present.

F. X. Moore, Pastor.

—Ex-Governor Robert E. Pattison has resigned the chairmanship of the Democratic City Committee of Philadelphia owing to the action of the County Convention in nominating a straight-out Democratic ticket. Mr. Pattison favors union with the Independent Republicans.

—Miss Lou Hoffhein, Lowenthal's fashionable milliner has arrived from New York, where she has been for the past three weeks, copying French Models for the Fall Opening. The Hats for the Fall and Winter of 1901 and 1902 are more artistic than ever. The Opening days will be announced in our next issue.

—Messrs. Kennerly & Mitchell, the downtown clothing merchants have taken into their employ Mr. Chas. W. Bennett, son of Mr. S. W. Bennett of Mardela Springs. Mr. Bennett is a very agreeable young gentleman, and will be glad to serve his friends.

—Mrs. Jennie German, wife of Mr. Harvey German, died last Friday morning at her home near Delmar. Mrs. German's death was unexpected by her friends, though she had not been well for several weeks. She leaves a husband and three children. Funeral services were held Sunday in the Methodist Protestant Church in Delmar, conducted by the pastor, Rev. L. A. Bennett.

—Mr. Thomas H. Mitchell has been awarded the contract to build the new Methodist Protestant Church of Snow Hill, which will soon be commenced. This is to be a very handsome structure, built of brick, with granite trimmings. The entrance will be through a tower 35 feet high; main auditorium to be 60x60 feet. Rev. Avery Donovan is pastor of the Methodist Protestant Church of Snow Hill and has been very successful in building new churches.

—Over 150 horses have died during the past month of the horse disease which has been raging and still continues in Somerset county. The disease seems to puzzle the State and local veterinarian. Ex.

—The County Commissioners give notice to the traveling public that the ferry boat used at Wetiquan Ferry will be hauled out for repairs next week, and that in consequence there can be no passing over this ferry on October 2 and 3.

—A bushel of wheat and a bushel of corn are going to be very close together this year. In weight there is only a difference of four pounds, and if the price of corn gets too uncomfortably close to wheat, the price of the latter must advance.

—Master Walter Schlesinger, the New York lad who has summered with Mr. Samuel G. Hearn on the latter's farm in Parsons district still lingers in the country, having grown very fond of Mr. Hearn and his family.

—Mr. Levin Insley who has returned to Western Maryland College writes the ADVERTISER that the students burned an effigy of Csolgoz, President McKinley's murderer, on the College Campus, and strongly condemned anarchy. Mr. Robinson, of Dorchester was the orator of the occasion.

—Democrats, if you have moved since the last registration into another election district, you must go in person to your former district and secure a transfer, which will enable you to register in the district in which you now reside. Don't fail to attend to this on next Tuesday, Oct. 1st.

—More politics were talked in Salisbury on Tuesday than on any day since the Republican convention. The candidates on both the Democratic and Republican tickets held meetings and discussed the situation from their respective standpoints. The town was alive with party leaders from all over the country.

—George W. Bell, trustee, sold last Saturday at Hebron the James Gillis land, the sale aggregating \$1,970.00. The home place went to Henry C. Anderson at \$775.00; the "Taylor Land," containing 29 acres, was bid off by King W. Bethards at \$500.00; the "Whitby Phillips Land," was sold in two parcels, the purchasers being James Darby and Daisy Bell, at \$695.00.

—Mr. Perry Bradley died last Monday morning at the home of his son, Mr. J. A. Bradley, on Camden Avenue, of paralysis. Mr. Bradley was about 77 years of age and leaves two sons, Mr. Wm. P. Bradley of New Jersey and Mr. J. A. Bradley of Salisbury. Funeral services were conducted by Rev. Chas. A. Hill Wednesday morning at home, after which the remains were interred in Parsons Cemetery.

—George S. Grier, president of the Milford Canning Co., has discharged from the company's employ Walter Watson and wife, who made remarks disrespectful to the late President McKinley. When Mr. Grier heard of the remarks, he summoned the Watson's to his office; and after they had acknowledged having made them, he paid them their wages and discharged them. Messrs. R. D. and F. A. Grier of this city are sons of Mr. George Grier.

—Captain George W. Smith exhibited a shad one day this week on the streets of Salisbury which Henry Philipps caught the day before in the Wicomico river at Sharpe Point. The fish was 20 inches long but was very much emancipated, due no doubt to its congenial summer environments in the river. Captain Smith was of the opinion that the fish was very large last Spring.

—If you have had trouble in finding satisfactory underwear you can get what you want at Kennerly & Mitchell's. They have it for the average man, for the short man, for the tall man. Ribbed underwear in yarn, cotton and fleeced lined, flat underwear all wool, also cotton fleeced lined, with sewed seams for 50 cents. A complete line of all grades of fall underwear now in stock.

—The County Commissioners in session last Tuesday awarded fuel contracts as follows: T. R. Jones & Bro., to supply the Alma House; Farmers & Planters' Company, the jail, and the Salisbury Lime & Coal Company, the Court House. Mrs. Sallie A. Nelson was allowed \$150 and Mr. Jas. A. Waller, \$50 for land along the B. C. & A. Railroad from Hebron to the old "railroad" on which the county proposes to open a county road. The board will be in session again Tuesday, October 8th.

—Miss Mary Kent who is connected with the millinery department of R. E. Powell & Co., left on Monday last for New York. There she was joined by Miss Shiffner, the firm's new trimmer. Together they will attend the most fashionable millinery openings and purchase their fall and winter stock. Miss Shiffner comes from the well known establishment of Sullivan, Drew & Co., 602 Broadway, New York, and is considered one of the best in that city. She has been secured by Messrs. R. E. Powell & Co. at considerable expense and the firm feel positive that they will be able to please the most fastidious this season in their millinery goods.

—Editing a newspaper is a nice thing. If we publish jokes people say we are rattle-brained, if we don't we are an old fossil. If we publish original matter they say we don't give them enough selections. If we give them selections they say we are lazy to write. If we don't go to church we are heathen; if we do we are hypocrite. If we remain in the office we ought to go out and hustle for locals. If we go out then we are not attending to our business. If we wear old clothes they laugh at us. If we wear good clothes they say we have a pull. Now, what are we to do? Just as likely some one will say we stole this item from our exchanges, and so we did, says the Tennessee Democrat.

THE SALE OF MEN'S AND BOYS' CLOTHING HAS BEGUN AT THOROUGHGOOD'S.

Never before have such values been offered. Better, handsomer and more Clothing than ever before. Lower in price and higher in grade. Experienced Clothing buyers will be surprised at the great values. Many of the prices are just about half what you've been accustomed to paying for such garments—\$10.00 for Men's Fall Suits that are well worth \$15.00—\$10.00 for Men's Fall Overcoats that are worth \$15.00. These Coats are good quality Covert cloth in light and dark tan—the new box cut, single breasted and fly front, man tailored, correct in cut and finely trimmed. Sizes 33 to 42. Lacy Thoroughgood wants to show everybody the new styles. Thoroughgood has searched New York and Philadelphia through and through and brought to you Clothes of the very best—patterns that combinestyle and good taste. The Clothes are made up to Thoroughgood's ideas and yours. Look out, every night there is a shivery shake that threatens big business to the doctors. Look out, sir, that it doesn't catch you knapping and leave you with a nasty cold. A new Suit or a new Overcoat is much cheaper than a doctor's bill. Call in and see what you think of Thoroughgood's Suits at \$8.50, \$10.00, \$12.50 and 15.00 Suits and Overcoats—look at the style put into them. Some of the Overcoats have velvet collars, others without—some with lapped seams, Stitched cuffs, and lined throughout with silk serge. Yes, Thoroughgood is willing for you slow fellows who haven't enjoyed the satisfaction of buying your clothes here, to catch up with the procession, but let Thoroughgood tell you that some of the best dressed men in town are enjoying the advantages you do not. Lacy Thoroughgood wants the job of clothing those men who pay the average clothes enough to be well-dressed, but somehow or other fall short of it. Once they have Thoroughgood's clothing on their backs they will have no other. Thoroughgood would like nothing better than to have people look at Suits and Overcoats elsewhere and then come to him—or come to him and then look elsewhere. Lacy will take his chances on seeing them again. Who runs the best Clothing and Hat store in Salisbury? Lacy Thoroughgood's customers say Thoroughgood does. Perhaps you'll be oasting, but wait, there's a best store in Salisbury somewhere? Is there any reason why it shouldn't be Thoroughgood's? Give Lacy Thoroughgood a chance to prove it.

Lacy Thoroughgood,
The Fair Dealing Clothier.

An unknown enemy of Mrs. Clara Middlekauff, of Reiffs, Washington county, placed a lot of stones and iron in some wheat sheaves, which went into the threshing machine and destroyed them.

"In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old fashioned castor oil. However much they may abhor it, it is their best medicine for disorders of the bowels. In the more severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea Remedy should be given after the oil operates and a quick cure is sure to follow. For sale by R. K. Truett & Sons.

It is said that a negro, Henry Taylor, on trial in Pittsburgh for murder, is the man William Howard, who shot and killed George Burrell (colored), near Hagerstown on August 4.

Josh Westhafer, of Loogootee, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm if it costs five dollars a bottle, for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by R. K. Truett & Sons.

"More haste, less speed," and "hasten slowly," are proverbs born of experience that some things can't be hurried without loss and waste. That is especially true of eating. The railway lunch habit, "five minutes for refreshments," is a habit most disastrous to the health. You may hurry your eating. You can't hurry your digestion, and the neglect to allow proper time for this important function is the beginning of sorrows to many a busy man. When the tongue is foul, the headaches, when there are sour or bitter risings, undue fullness after eating, hot flushes, irritability, nervousness, irresolution, cold extremities, and other annoying symptoms, be sure the stomach and organs of digestion and nutrition have "broken down." Nothing will re-establish them in active healthy operation so quickly as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, nourishes the nerves, purifies the blood, and builds up the body. It is a strictly temperance medicine containing no alcohol or other intoxicant.

Given away. Dr. Pierce's great work. The People's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper cover book, or 81 stamps for cloth binding to Dr. R. V. Pierce, Buffalo, N. Y.

Prof. Roman Tammany, late superintendent of public schools for Sussex county, Del., and subsequently the principal of the Georgetown High School, will go to Porto Rico to become government superintendent of public instruction.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Hall's Family Pill is the best.

At a picnic Saturday a reel race, 100-yard dash, participated in by Frostburg and Lonaconing companies, was won by Frostburg Time 11 seconds. A \$10 prize for the greatest number of men in the parade was awarded the Lonaconing Fire Company. A 100-yard footrace was won in 10 seconds by Charles Poyer.

Water Cure for Chronic Constipation.

Take two cups of hot water half an hour before each meal and just before going to bed, also a drink of water, hot or cold, about two hours after each meal. Take lots of outdoor exercise—walk, ride, drive. Make regular habit of this and in many cases chronic constipation may be cured without the use of any medicine.

When purgative is required take something mild and gentle like Chamberlain's Stomach and Liver Tablets. For sale by R. K. Truett & Sons.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century: discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid trouble and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Miss Bertha Cooper of Riverton was the welcome guest of Miss Mae Colbourne Friday and Saturday last.
