

SPECIAL NOTICE!
THE ADVERTISER is published every Saturday morning, except on public holidays, at 10 o'clock. It is published at the office of the Proprietor, No. 112 South Charles Street, Baltimore, Md. The price is \$1.00 per annum in advance, if not paid for in advance, it will be charged. Single copies are sold at 5 cents. For advertising rates, see the advertisement on the opposite page. The Proprietor is not responsible for the contents of advertisements inserted in this paper. The Proprietor is not responsible for the contents of advertisements inserted in this paper. The Proprietor is not responsible for the contents of advertisements inserted in this paper.

Fallbury Advertiser.

Saturday, June 28, 1873.

WALNUT EXTENSION TABLES and Marble Top Sets, just received at A. G. Tondino & Co's.

DELINQUENT subscribers should not permit their daughters to wear the ADVERTISER for a bustle. There being so much due on it there is danger of taking a cold.

The meeting held last Monday night in the M. E. Church for the purpose of arranging a visit to Rehoboth Beach, was a success. There will be about 25 or 30 persons go from Salisbury.

Owing to the time consumed in setting up the list, we are compelled to present the ADVERTISER this week minus the usual amount of reading matter. Next week, however, the paper will appear with a full quantity of local, literary and miscellaneous matter. We don't propose to hold anything from our patrons on account of advertisements.

SAD DROWNING.—A sad case of drowning occurred in Wetpiqueen creek, Tyaskin, on Friday last week. A party of youngsters were bathing in the creek, when George Anderson, who could not swim, went out over his depth and, before his companions could reach him, was drowned. The deceased was the son of John W. D. Anderson, and was aged about 17 years.

MARRIAGE IN SALISBURY.—On Monday, 23rd instant, at 9 A. M., E. C. HOAG, Esq., Cashier of the Exchange Bank, Titusville, Pa., was married to Miss MARY FRANCES SMYTH, daughter of Rev. J. J. SMYTH, Pastor of the Presbyterian Church, this place. The marriage was consummated at the MANSE, MR. SMYTH being the officiating minister. At 10 o'clock the happy pair took the cars for a tour through Pennsylvania and Canada to return via Lake George and the Hudson, carrying with them the blessings of many friends in Salisbury.

TAXES FOR 1873.—We publish the levy for 1873 in this issue. The total amount of property in the county subject to taxation is \$4,266,301. The amount to be raised by levy for the county is \$29,264.10. Amount to be raised by levy for the State is \$7,351.71. County levy for each \$100 is 70 cents, State Levy 17 cents; the total levy for 1873 aggregating 87 cents. The fund levied for the use of Public School is \$6,000 \$3,000 fund for contingent expenses \$8,000.

It will thus be seen that our taxes have been materially lessened this year. Last year the levy was 96 cents on the one hundred dollars.

SUNDAY SCHOOL CONVENTION INTERESTING PROCEEDINGS.—According to previous announcement parties representing the Maryland Sunday School Union arrived at Salisbury on Wednesday last, and, at the appointed hour, 8 P. M., repaired to the M. E. Church and proceeded to entertain a Sunday School Convention; E. L. Wailes, Esq., was elected, President; Dr. G. W. Todd, Vice-President, and James E. Ellegood, Esq., Secretary.

After attending organization Rev. N. M. Brown read a chapter in the Bible, the choir rendered "Coronation" in a spirited manner, and prayer was offered by Rev. Mr. Kinzer.

Prof. Sanders of Baltimore, presided at the organ, and the little Sunday School children that were sung sounded quite well under his leadership.

Rev. J. J. Smyth arose and, in a few pertinent, beautiful remarks, welcomed the strangers who had come among us for the furtherance of the Sunday School cause in our midst. Rev. Mr. Ischbach of Baltimore, responded to the welcome. Mr. Ischbach spoke very complimentarily of the reception given them by the people of Salisbury, and extended thanks for the welcome. The speaker then dwelt upon the purposes for which they had assembled in a very forcible and impressive manner. At the conclusion of his remarks and the singing of a hymn, Rev. Mr. Smith, Superintendent of the Maryland Sunday School Union, announced a programme for the Convention, and gave a brief outline of the work accomplished by the Union. He stated that there are 200,000 children in Maryland, 139,000 of whom do not attend Sunday School, and it was the object of the Union to get at these children and bring them into the Christian fold. The Union had organized 175 Missionary schools in Maryland this year.

Rev. Mr. Latrobe, Pastor of P. F. Church, "Our Savior," Baltimore, was introduced. Mr. Latrobe gave the benediction, and the Convention proceeded to the benediction. His remarks were excellent. Rev. A. M. Gilbert was the last speaker of the evening. Mr. Gilbert said something by way of excuse, about being late, and announced that the

big ships with heavy broad sides would fire off on the morrow. Notwithstanding the gentleman's excuse, however, he delivered one of the most rhetorical and beautiful sermons from the text "Sow" that we have listened to for many years upon any subject. It was really "a string of pearls." Doxology and Benediction closed the exercises.

The Convention was held on Thursday morning in Trinity M. E. Church, South -- in the M. P. Church in the afternoon, and the last session was held in the Presbyterian Church at night.

The speeches, blackboard exercises and general proceedings were instructive and interesting to both old and young, and no doubt have imparted a healthy impetus to the Sunday School cause in our town and county. The sessions of the Convention were well attended, the churches generally being crowded.

Before adjourning *sine die* on Thursday evening a Sunday School Convention for Wicomico county was organized with E. L. Wailes, Esq., as President; Dr. F. M. Slemmons, James Cannon, Esq., Rev. Mr. Pennel, Dr. Wm. T. Smith, Vice-Presidents; James E. Ellegood, Esq., Secretary, and Wm. B. Tilghman, Esq., Corresponding Secretary. The following gentlemen were appointed delegates to the Sunday School State Convention: James E. Ellegood, E. L. Wailes, and Rev. Mr. Kinzer.

THAT GAME OF BALL AGAIN.—It transpires that the ADVERTISER's report of the game of ball recently played at Snow Hill between the Lightfoots and White Clouds caused a considerable flutter of indignant excitement to ruffle the calm serenity of that uniformly quiet village, and the *Messenger*, urged on by the irresistible influence which public opinion over exerts, has actually roused from its lethargy and administered a rebuke, which, to say the least of it, is about the best written article we have had the pleasure of reading in that journal since it passed from under the control of its founder, John H. Handr, Esq.

The *Messenger* man made a tremendous effort to show that the ADVERTISER committed glaring errors in its report of "that game of ball," and in doing so tried to plaster us with a little facetious sarcasm, in which, however, he demonstrated, if we may be permitted to use a somewhat *outré* expression, that he is as great a failure as a sarcastic as he is as a base ballist. However, with this trifling exception and one or two other points to be hereinafter noticed, it will pass as a very creditable effort—a very creditable effort, indeed, for the *Democratic Messenger*, and he ought to be grateful to the ADVERTISER for supplying the inspiration.

We stated that the Lightfoots refused to play at Salisbury if the umpire was allowed to call balls. This was an error—the Lightfoots requested the favor, and our boys granted it. We were led into the mistake by hearing it stated publicly by some of the White Cloud nine that such was the fact. Since then, however, we have learned to the contrary, and most gladly profit by the *Messenger's* example to make the *amende honorable*. We stated further that during the game at Snow Hill the ball played at hide and seek in "a field of grass or clover." We have since ascertained that there was not a microscopic blade of clover in the field referred to—it was only a fine growth of wheat, oats, rye, or something or other that looked green, and served the purposes of the Snow Hillers admirably. This is about all we have to plead guilty to, and our Snow Hill friends and the "generality of mankind in general," to use the language of departed greatness, are welcome to every crumb of comfort contained therein.

The *Messenger* hoots at the half acre lot statement, and stoutly maintains that the ground measures 2 1/2 acres. Now, it takes a piece of ground about 104 yards square to make 2 1/2 acres—does our contemporary have the effrontery to say that that ground, beginning at the line stretched near the Academy and thence to the fences that mark the boundary of the field, will, if accurately measured, be found to contain 2 1/2 acres? If so, we give its editors over as beyond redemption. We are prepared to make a little rise in our estimate and admit that the part used as a ball field may possibly contain, 1/4 or a few feet over 1/4 of an acre, but 2 1/2 acres is far beyond all reason, and we trust the truth, the whole truth and nothing but the truth may be arrived at by measurement; to this end we ask the *Messenger* to have it measured and publish the result. There is a question of veracity between us—we have exhibited a disposition to "split the difference," and its no more than right that our contemporary should go to the other length. The *Messenger* don't know any difference between match and social games of ball, and facetiously apologizes for daring to oppose our opinion. This would be extremely amusing if it did not disclose a deplorable amount of ignorance upon a subject with which newspaper men should be familiar. Therefore, neighbor, we will try and define the difference for your especial benefit. Match games are played for championship and the *celat* resulting therefrom—social games are played for the mere pleasure and excitement incident thereto, and, it may be, for the purpose of an interchange of social fellowship between communities. The former, is like unto two enemies contending for a valuable prize—the latter, the emulation of two friends for the possession of that which is immaterial either to the one or the other.

We do not care to split hairs over the arrangement made at Snow Hill about that being the last game, &c., for turn and twist it as you may it amounts to the same thing in the end. The Lightfoots certainly did tell our boys that they could not play another game, and proposed to let that end the series. Having no other alternative, Mr. Tondino accepted. There-

fore, the *Messenger* owes us an apology for putting the brand of falsehood upon this part of our statement—in fact, it ought to put on sackcloth and ashes for taking exceptions to any of the very kind critic's article. The ADVERTISER made up the game; for, leaving out what trifling inaccuracies we may have made in regard to the ground and the unintentional error about the game at Salisbury, the article was correct in every particular. In conclusion we will assure the *Messenger* that we do know something about base ball, and would not attempt to criticize a game otherwise. Since base ball has assumed such important proportions in our land it is incumbent upon newspaper men to familiarize themselves with the rules and regulations that control it, and, as we try to publish a *live* paper, we pay attention to base ball as well as to other matters that interest the public.

THE 4TH AT THE PARK.—The programme indicated by the ADVERTISER, two weeks since for the celebration of the 4th of July in Fallbury will be strictly carried out. The celebration will be held at the Park, commencing in the afternoon and lasting until 10 or 11 at night. At 2 P. M. the literary exercises will begin and will be participated in by several gentlemen of recognized ability. Judge Spence and Hon. John W. Crisfield have been invited to deliver orations, but we are unable to state at this writing whether or not they will be here. However, failing in this direction, the Committee will provide speakers for the occasion. G. W. M. Cooper, Esq., will read the Declaration of Independence. The Seaford base ball club have consented to play a game of base ball with the White Clouds at 4 P. M. and those fond of this noble sport may expect to witness a beautiful game. The visiting club will remain over night, the guests of the White Clouds, and it is to be hoped that our citizens will visit with each other in rendering their visit as pleasant as possible.

The Salisbury Brass Band will contribute music at intervals during the exercises of the afternoon, and will play in the evening. The Park will be thoroughly cleaned next week and seats provided for the accommodation of the people. It is earnestly hoped that all who possibly can, will turn out on the 4th and help to make it a gala day in Salisbury. For the purpose of covering expenses it has been deemed advisable to charge an admittance fee of 10 cents for all persons over the age of 12 years—under twelve years half price. Family tickets may be purchased on satisfactory terms.

THE 4TH ELSEWHERE.

The patriotic people of Tyaskin will also celebrate the 4th at Riall's store about 22 miles from Salisbury. There is to be another celebration at Barren Creek Springs and one at Quantico.

BASE BALL MATCH.—The match game of base ball between the Lightfoots of Snow Hill, and the White Clouds of Salisbury, was played at Berlin on Monday last, and resulted in a victory for the former club by a score of 16 to 10. The playing of both clubs was good, and the game throughout was quite interesting. Many ladies and gentlemen of Berlin were spectators, and manifested considerable interest in the result. A compliment is due the Lightfoots for their extraordinary improvement in fielding—not more than one or two muffed balls being credited to them. Their throwing was good also. On the part of the White Clouds there were quite a number of discreditable muffs and bad gauging of fly balls; there is no excuse for them in this respect. The behavior of the Snow Hill players towards the White Clouds was courteous and gentlemanly, but if all reports are true, it would be better for the reputation of Snow Hill if some of those boisterous and ill-mannered friends of the Lightfoots were left behind on such occasions. The playing of Messrs Parramore, Parker, LeCompt and Marshall, especially deserves notice and praise. Messrs Jordan, Smyth, Graham and Gunby, of the White Clouds, played excellently.

The umpiring of Mr. James Gilmour of Baltimore, was, for the most part, in accordance with the strict rules of the game. He made some errors in judgment against both sides.

The game commenced at half after two with our boys at the bat, and they scored two runs; they were whitewashed on the next, also on the 6th, 7th and 8th. On the 3rd, 4th and 9th they made one run each, and on the 6th five runs. The Lightfoots were whitewashed on the 1st, 2nd and 5th innings. They made one run on the 3rd, six on the 4th, two on the 6th, one on the 7th, two on the 8th and four on the 9th.

After the game our boys were hospitably entertained by Dr. Hammond, and they speak in glowing terms of the Doctor's "old peach."

The Lightfoots, since the game at Snow Hill, have made themselves proficient where the ADVERTISER pointed out they were then deficient—hence their success.

Quill Scratches.

The Atlantic boat the Stars left Tuesday by a score of 33 to 25. Much interest was manifested by the citizen spectators during the game.

A Joint Teachers Institute for Wicomico and Somerset counties is announced for October next.

The School Board awarded the contract for building school house No. 2, Tyaskin, to Mr. W. Turpin for \$750.

Now that the cats have ceased their orgies, some of our young men have concluded to make night hideous, &c. They gave their first concert on Monday night on Main street. "Good bye Lizer Jane" and kindred productions, rung out in regular old fashioned, camp meeting style, rendered sleep from 11 P. M. to 1 A. M. almost impossible. They omitted the

Barn Yard Chorals"—an omission for which their annoyed listeners have great cause to be thankful.

SOMERSET COUNTY.

The Crisfield *Leader* has changed hands. Hodson & Beck becoming the purchasers. Mr. Marshall, the retiring proprietor, hints at starting a new paper at no very distant day somewhere on the peninsula. Brother Polk is improving rapidly.—The "Marylander" actually contained a few locals on Tuesday last. The following is a resume of the same:

Rasberry shipments from Princess Anne—House in the same town sold for \$3,500—man killed a 60 quart crate full of mosquitoes (a statement that need not surprise the editor's friends)—haymaking more popular in Somerset this year than formerly—the night watchman at Crisfield rescued Azariah Cox from drowning—something about hot weather, mosquitoes and troublesome babies, mixed up with a \$500,000 lottery and "a darned eastern shoreman"—a distribute on the car whistle—account of a trifling accident to the engine "Somerset"—wheat harvest, and a drubbing for the ADVERTISER.—Energetic "Marylander!"

WASHINGTON, June 25, 1873.

Memorandum.

It was my pleasure on Sunday evening the 15th instant, to receive a call from Mr. A. B. Meacham, Chairman of the Peace Commission to the Modoc Indians, whose acquaintance I formed while he was in this city last winter receiving instructions preparatory to starting on his Commission, and upon whose face I expected to look nevermore when the terrible announcement flashed over the electric wires of the foul murder of General Canby and Dr. Thomas and the supposed mortal wounds of the subject of this letter.

The hair breadth escape of this well known gentleman from assassination at the hands of Schonchin John and his associate, at the peace talk with Captain Jack in the lava beds, which resulted in the death of the estimable gentlemen mentioned in the first paragraph of this letter, led me to give you a short account of the interview with one who was an eye witness of one of the blackest crimes in the annals of Indian warfare.

The marks of his encounter with the Modocs, which are not yet fully healed, are visible upon his face, head and hands, while his clothes hide from view other wounds which led to the belief that he could not possibly survive.

DESCRIPTION OF MR. MEACHAM.

Mr. Meacham is about 48 years of age, considerably bald on the top of his head, fine set mouth, projecting forehead and sandy hair and whiskers. His eye denotes keenness and perception, his face and mouth firmness and caution, and in conversation he is quick to speak and very sensitive. He is thoroughly acquainted with the Indian tribes of the far West, having been among them for a number of years, and his keen perception of their character led him to doubt the sincerity of Jack's celebrated peace talk, and to predict the treachery displayed on the occasion.

WHAT MR. MEACHAM SAYS ABOUT THE PEACE TALK.

The agreement made between Captain Jack and the Peace Commission was that they should all appear unarmed. To this Meacham and Dyer objected, and earnestly insisted that the Modocs should be refused to take firearms and determined to go and meet the Modocs, he handed his money and pistol to John Fairchild, and, turning to General Canby and Dr. Thomas, said "Very well, gentlemen, I will go, I am Chairman of this Commission, and I will not desert my post. I will not take my pistol, lest after we return to-night on stretchers dead men, as I firmly believe we will, it might be said my carrying a pistol caused these Indians to shoot me, and I should be held responsible for the death of my men at the hands of these devils when I am dead; but I am ready, and will die game as any of you."

The above are his words as nearly as I can quote them.

Dr. Thomas said "Meacham, pray and I will see that you are protected on the left arm and shot Gen. Canby, they will not attempt to harm us—our soldiers can cover us."

After the talk had proceeded a few minutes, Jack, who was standing near Gen. Canby, pulled a pistol from his clothing and shot at the bodies of Gen. Canby, who ran about forty yards before falling. When pulling the weapon out he cried in the Modoc tongue, "All ready!" Dyer and the interpreter ran, pursued by Hooker Jim, who had shot Dr. Thomas. Schonchin John shot Meacham in three places, and when he had fallen from the loss of blood, attempted to scalp him. Toby, the Modoc, who was present at the talk, cried "soldiers!" when Hooker and Black Jim and Shack Nasty Jim, who were pursuing Dyer and the interpreter, returned and together with Schonchin John, shot Meacham with nothing but shirt and drawers, and retreated to their stronghold in the lava beds.

Gen. Canby was standing near Meacham at the time of the firing, and not sitting on a rock, as has been currently reported.

Meacham says that having no scalp lock when Schonchin John attempted to "lift his hair," together with the timely cry of Toby, the squaw, that soldiers were coming, saved his life. The mark of the scalping knife, where Schonchin John commenced operations, is plainly visible on the left side of his head.

Toby, the squaw, whose husband is a white man from Kentucky, gave the information before the meeting that Jack would not have mercy on the whites, and a valuable adjunct to them in the interviews between the Indians and the Commission. Meacham firmly believed all she said. Had her word been in vain the massacre would not have occurred.

Mr. Meacham, during his stay in this city, made out and presented his report to Secretary Delano, and it will be published in the Secretary's return from his home in Mt. Vernon, Ohio, for which place he started last Friday to spend a week or ten days.

Mr. Meacham is yet quite weak from the effects of the many wounds received, and will give no information to the reporter other than that set forth in his report, which promises to be a monument of a highly interesting and thrilling character.

ANDY-BLUE.

The British Cotton Trade.

(From Smith, Edwards & Co's Monthly Cotton Circular, dated Liverpool, May 31, 1873.)

The trade of Manchester during the past month has been very sound, prices have been supported with great steadiness, and there have been occasional indications of desire to enter into large transactions. We should say that quite an average business has been done, and in many cases producers are put well under order. The accounts from the Eastern markets have not been satisfactory of late, and the shipments going forward are thought to be rather large, still there exists a fair inquiry for goods suitable for these markets, and producers have no difficulty in selling at remunerative rates. The healthy condition of Manchester trade has made spinners think better of cotton than importers and speculators for the most part do, and hence their purchases during the past month rather exceed their consumption. We think at the present time the consumption of American cotton has reached its maximum, and we put it at 34,000 bales per week. From this time forward the tendency will be to use more "Sarat and Brazil cotton, owing to the larger supply of these kinds coming forward; perhaps some increase should be made in the number of bales used from the unusual percentage of sand and dirt in the American cotton, as also from its slightly decreased weight—estimated in our last report at 49 lbs. per bale. The total consumption at 63,000 bales per week, of large average size, owing to the small amount of Brazil cotton used; it is about equal to 69,000 bales of the average weight of last year. The average consumption in 1872 was 62,000 bales per week. We thus allow for an increase of 10 per cent. on the average of last year, owing to the difference between good and bad trade, and a much larger production of low counts of yarn.

The prospects of our market have not changed materially since our last issue, and nothing has occurred to give a more cheerful aspect to the position of cotton holders. The prospects of supply for the present year have, if anything, still further improved. The large scale of receipts in America lends support to the non-favorite estimate of 3,000,000 bales as a total crop, including Southern cotton, and the rapidly with which the stock is being shipped to England shows that the Americans have little confidence in the future, and that Liverpool will have to carry a larger stock in the summer than we had anticipated. The feeling which lingered for a long time that our supply of American cotton would not suffice to carry us through the autumn, has passed away; it is evident that the export from America to this country will be much larger than was once expected, for both the Continent and their own spinners are taking more than was anticipated. The figure now generally accepted for the total export to Great Britain is 1,900,000 bales, which would supply a trade and export demand of 35,000 bales per week till 1st December with reducing our stock to 1,000,000 bales. We think this is an adequate supply, considering that the new crop of Saratoga quality will be very abundant for the remainder of the year, and will be pushed into consumption to the displacement of American cotton. It seems also probable that we shall have, henceforward, a more liberal supply of Brazil, which will further relieve American cotton.

Viewing our supply as a whole, it is difficult to resist the conclusion that it is ample for the present year, and that there is no ground for a substantial unless a serious accident happens to the growing crop in America, and the effects of that crop will be the controlling influence from this time forward. With regard to it, we would remark that the weather during April and the early part of May was rather cold and unseasonable, and some few cases of replanting were rendered necessary, but the telegram reaching us lately from reliable sources report very well of the crop, and state that present prospects are all that could be desired.

It is generally allowed all over the cotton region that a considerable increase of cultivation has taken place. We cannot venture upon definite figures thus far, but the first issue of the Bureau will be looked forward to with interest; as giving some approximation to the area planted. From all we can learn, our impression is that it is considerably larger than any year since the war. There has also been applied an extraordinary quantity of fertilizer, and speaking generally, every possible effort has been made to produce a monster crop, so that it appears to us no help can come to our market from America, unless some serious mishap befall the young crop. The one feature in favor of our market is the healthy state of trade in Manchester; spinners may, perhaps, be induced to stock themselves to a greater extent than they have yet done, and so give temporary animation to our market, but they do not do so, and it is easy to see why they should depart from their present policy, unless some change for the worse occur in the growing crop. It is thought by some that the excessive quantity of low American cotton this year will lead to a great scarcity of the higher grades. We somewhat doubt this, for the relative cheapness of low cotton is drawing the consumption downward, and less middling cotton is being used each month. Our market for the most part is influenced by the aggregated amount of supply much more than by the exceptional scarcity of particular sorts. The export demand for the Continent has been disappointingly small this year, trade there has been worse than was expected, the recent change of administrative policy has revived political disquietude, and the flush of prosperity that followed the Franco-German war appears to have passed away. We must, therefore, look mainly to the home demand for the support of our market, and at the moment it is difficult to see what will induce our spinners to depart from their quietest attitude.

Central America.

PANAMA, June 15.—Francis Thomas, United States Minister of Peru, arrived here per steamer from the South Coast on the 13th, en route home on leave of absence.

The Star and Herald says the Government has caused the arrest of General level de Guiza Rafael Aizpuru, late Commander in Chief of the State militia, Juan Mendoza and Nicomedes Carrazza, all of whom, according to the most reliable information we can obtain, have been actively endeavoring to organize a conspiracy against the present Government.

The United States steamer Omaha has arrived here.

Advices from Guatemala state that General Godoy, under date of May 10th, communicates to the Government that he attacked a party of five hundred rebels in the Castele de Guayabos, four leagues from Intipa. After a three hours fight they gave way, leaving twenty killed,

but carrying off the wounded. On the 20th of April the whole Republic was declared in a state of siege, which is to continue until the Department of the Grietas are reduced to order. From Salvador it is learned that it has been decided that the capital be rebuilt in the same place. Many families who emigrated had returned, and were building new houses. The Republic was in peace.

HOME ADVERTISEMENTS.

RATIFICATION NOTICE.

Colly Fields et al. vs. In the Orphans' Court for Wicomico County.

Ordered this 24th day of June, 1873, that the sale made and reported by Levin M. Dashiell Trustee, for the sale of the real estate of Levi Fields, deceased be ratified and confirmed unless cause to the contrary thereof be shown by exceptions filed on or before the 24th day of July next: provided a copy of this order be inserted in some paper printed in Wicomico County once in each of three successive weeks before the 24th day of July next.

The report states the amount of sales to be \$305.00.

GEORGE L. H. WOOLFORD, Judges of the Court for Wicomico County.

SEA BATHING!

SCOTT'S OCEAN HOUSE,

JAMES SCOTT Proprietor.

THIS HOUSE will open on the TWENTY-FIFTH day of JUNE, and offers Great inducements to those fond of SEA BATHING.

It is situated about 14 miles from Snow Hill, and a Stage Line runs direct to the Bay, where a commodious and fast sailing boat makes two trips per day across the ocean, for the accommodation of passengers.

There is a BOWLING ALLEY and RESTAURANT attached to the HOTEL. The finest liquors constantly on hand.

The Proprietor informs the PUBLIC that he will spare no means to make his HOUSE a pleasant summer resort. That his servants are polite and attentive, and that his TABLE will be furnished with all the luxuries of the season.

BOARD \$2.00 per day, or \$11.00 per week. [June 28-41.]

SALE OF FURNITURE.

I will sell at auction on Saturday the 28th inst. at 2 o'clock P. M. a lot of Furniture used only one year in the late paragon, consisting of Bed Steads, Stoves, Chairs, Carpets &c. Terms of sale, credit of six months with note and approved security on all sums over five dollars, and all sums under that amount the cash will be required.

J. H. A. DULANY, Trustee.

SHERIFF'S SALE!

By virtue of a writ of fieri facias issued out of the Circuit Court for Wicomico County and in and against the estate of Robert R. Fleming and the Forest H. Merriman, partners trading under the name and firm of Fleming & Merriman, I have levied upon and taken in execution all the right, title, claim, interest and demand of the said Robert R. Fleming, in and to

ONE HOUSE AND LOT situated in the 4th Election District of Wicomico County, Md., and thereupon I have

TUESDAY, JULY 8th, 1873. I shall proceed to sell at the Court House door in the town of Salisbury, at the hour of 2 o'clock P. M., the above described property to the highest bidder for cash, to satisfy the said writ, costs and fees and charges.

WILLIAM TWILLEY, Sheriff.

SHERIFF'S SALE!

By virtue of three writs of fieri facias issued out of the Circuit Court for Wicomico County and in and against the estate of Levi C. Smith, two of which are against the goods and chattels, lands and tenements of Levi C. Smith, and one against the goods and chattels, lands and tenements of Samuel A. Graham, and one against the goods and chattels, lands and tenements of Wm. J. Brown, I have levied upon and taken in execution all the right, title, claim, interest and demand of the said Levi C. Smith in and to all that tract or parcel of land which was sold to said Smith by John R. Franklin, Trustee, bearing date June 15th, 1873, to-wit:

117 Acres of Land more or less, known by the name of "Alcedo," situated in the 5th Election District of Wicomico County, Md., and thereupon I have

TUESDAY, JULY 8th, 1873. At the hour of 2 o'clock P. M. at the Court House door in the town of Salisbury, I shall proceed to sell the above named lands to the highest bidder for cash, to satisfy the said writs, costs and fees and charges now due and to become due thereon.

WILLIAM TWILLEY, Sheriff.

VALUABLE TOWN PROPERTY FOR SALE. L. James Cathell, having removed to the city of Baltimore and desiring it advisable to sell his real estate in Salisbury, he has thereupon placed the same in the hands of the undersigned who will dispose of the same by public sale. The following is a description of the property:

No. 1. One dwelling House and Lot, now occupied by E. W. Humphrey, on Chestnut St. This is a very desirable property, conveniently located and all the buildings are in good repair.

No. 2. The wharf property, lying between the W. & P. R. R. and the River, and lying between the wharves of H. Humphrey and Wm. S. Parsons. This property is the last one of the kind which is likely to be offered for sale in this city.

No. 3. One House and Lot in that part of the Town of Salisbury, known as "The Grove," one on Division St. two on Cross St. and two on Water St. These are all new brick houses, each built double, each house serves for two families, and rent for \$64 per year, each.

HOME ADVERTISEMENTS.

A VALUABLE FARM

For Sale!

THE UNDERSIGNED will sell at private sale a VALUABLE FARM in Wicomico County. This farm is situated on Westpoin creek, which empties into the Chesapeake Bay, about seven miles from Salisbury. The water in the creek is bold and navigable for vessels of light draft. The land is a clay soil highly improved and well adapted to the growth of cereals and fruits. It is improved by a commodious

Dwelling House, barns, stabling and all other appliances necessary for agricultural purposes. This FARM contains about 250 Acres more or less, 125 acres of which are cleared and in a high state of cultivation. The remainder is heavily timbered with white oak and pine. It is one of the best farms in the county for growing wheat.

TERMS OF SALE. TERMS easy. For particulars apply to the undersigned. EDGAR J. DASHIELL, Mount Vernon, Somerset County, Md.

March 23-41.

House and Lot For Sale.

THE UNDERSIGNED as agent for the owner offer at private SALE, a valuable House and Lot in the town of Salisbury. The property is situated on Main street, and is in excellent repair, and one of the most desirable properties in said town, and especially suited for a Physician. There is a commodious office on the premises and a fine opening for a doctor. Any one desiring a good location will do well to examine this property before purchasing elsewhere.

Terms Easy. For further particulars apply to MALONE & RICHARDSON, Salisbury, Md. [May 21-41.]

Wagon For Sale.

The undersigned has on hand a large Double Spring covered wagon for sale suitable for farm purposes any one desiring to purchase a cheap wagon will do well to call on the undersigned. LEMUEL MALONE, May 21-41.

A. G. TOADVINE & CO.

WHOLESALE AND RETAIL DEALERS IN DRY GOODS NOTIONS Hardware, Queensware, SADDLERY, GROCERIES, HATS, Boots, Shoes, Ready-made Clothing, FURNITURE, CARPETINGS, MATTINGS &c. SALISBURY, Md. Jan 11-41.

TO THE LADIES.

New Millinery and Trimming Store,

SALISBURY, MARYLAND.

The undersigned begs to call your attention to the goods she is offering. By making constant efforts to please, together with modest charges, they hope to merit the patronage they solicit.

Very Respectfully, SALLIE E. ELLIS, MARY J. MAGILL, Oct. 26-41.

WICOMICO LAND AGENCY,

SALISBURY, Md.

MALONE & RICHARDSON, AGENTS.

REAL ESTATE SOLD OR EXCHANGED FOR OTHER PROPERTIES, ON COMMISSION.

THE UNDERSIGNED offer at Private Sale, the following property, in Wicomico, and Somerset Counties, Md.:

Lot No. 1. A tract containing 124 acres, 6 miles from Salisbury all in timber, principally pine, very thick soil. Price \$1,500 one-fourth cash, balance in 12 and 3 years.

Lot No. 2.—Contains 170 Acres, 5 miles from Salisbury, improvements similar to those described above. One-half of this land is cleared and in a high state of cultivation; the balance set in young Pine.—Price \$2,500.

Lot No. 3.—Contains 153 Acres, five miles from Salisbury, improved by a single story Dwelling House, a large new Barn and other necessary out buildings; 100 Acres in cultivation, the balance thick set with Timber, incumbered by an aged widow's dower.—Price \$1,800.

Lot No. 4.—Contains 300 Acres, improvements as above, one mile from Eden Station, on both sides of the Rail Road. Price \$6,000.

Lot No. 5.—Contains 70 Acres, five miles from Salisbury, one-half cleared and in a good state of cultivation, improved by a single story Dwelling, balance thick set with pine and Oak timber, four miles from Tony Bank Creek. Price \$700 one-half cash, balance in twelve months.

Lot No. 6.—Contains 200 Acres, near the Rail Road and navigation, all in Timber.—Price \$4,000.

Lot No. 7.—Containing 258 Acres, one mile from a Rail Road Station, one-half cleared and improved by a commodious Dwelling and necessary out-buildings, with one of the finest Meadows for the growth of cranberries; a large portion is thick set with Wood and Timber of a good quality. Price \$4,000, one-fourth cash, balance in one, two and three years. This land is situated one mile from Navigation.

Lot No. 8.—The Washington Hotel, in Princess Anne. This is one of the best Hotels on the Peninsula, having a fine run of business, being large with all modern conveniences, with ample Stables and fine surroundings. Price \$8,000, on easy Terms.

Lot No. 9.—A tract of timber land of 200 Acres in Somerset County, 3 miles from the S. E. R. R.—Price \$2,000. Terms moderate.

Lot No. 10.—A tract of excellent Farm land about 100 acres cleared and in good state of cultivation. Same amount in wood and timber. Price \$2,500, one-fourth cash, balance in one, two and three years.

Lot No. 11.—A Farm containing 114 Acres, 4 miles south of Salisbury, near the S. E. R. R. Price \$1,500, one-fifth in cash, balance in one, two, three and four years.

No. 12.—Six Houses and Lots in Salisbury.

In addition to the above we have for sale various other lots, too numerous to mention.

For further particulars apply to MALONE & RICHARDSON N. Agents, Salisbury, Md.

COMMISSIONER'S SALE OF TWO VALUABLE FARMS.

By virtue of the decree of the Circuit Court for Wicomico County, the undersigned, Commissioner, appointed to value, divide, and make sale of the real estate of Thomas G. Catlin late of Wicomico County deceased hereby give notice that they will offer at public auction at Tracy's Hotel in the Town of Salisbury, on

TUESDAY JULY 8th, 1873,

at 2 o'clock P. M. all the real estate of which the said Thomas G. Catlin died seized, consisting of two Farms in Traskin district, of the county.

Lot No. 1. The Farm on which said Catlin formerly resided containing one hundred and sixty acres of land more or less.

Lot No. 2. The Farm on which George W. Catlin now resides containing one hundred and forty-eight acres of land, more or less. This Farm is divided in two parts by a Farm belonging to Alexander W. Catlin which will be sold on the same day on the same terms. The above named Farms are finely located, being both within less than a mile of navigable water and are highly productive, and the soil for trucking and is a rare chance for a good farm in real estate.

The Terms as set forth in the decree are one hundred dollars in cash on each Farm on the day of sale the balance in three equal annual installments of one hundred and thirty dollars, on bond with approved security bearing interest from the day of sale.

RICHARD WILSON, Commissioner. RICHARD DORRILL, ROBERT C. MITCHELL, FRANCIS A. TAYLOR, Commissioners.

CLAYTON HOUSE,

Corner of Fifth and Market

AND EXTENDING TO KING STREET, WILMINGTON DELAWARE.

This new, large and commodious House will be opened as a FIRST CLASS HOTEL, on Thursday, March 6th, 1873.

The interior arrangement of this building is admirable. The parlors, drawing-rooms, &c. are elegantly furnished; and the sleeping apartments which are fitted out with every modern appliance of utility and comfort, will accommodate three hundred guests.

While the elevated situation of the CLAYTON HOUSE affords facilities for the amplest ventilation, it also commands, from the parlors and chambers, an extensive view of the Delaware and Christina rivers; and from the promenade, there is a panoramic view unfolded, embracing the hills and valleys of the classic Brandywine, unsurpassed in picturesqueness and beauty.

The Proprietor having had a large experience in the management of hotels, and having secured the service of competent assistants, no effort will be spared to give satisfaction to all who may favor the CLAYTON with their patronage. Terms moderate. H. W. SAWYER Proprietor

PHILADELPHIA ADVERTISEMENTS.

Never known to Fail.
THOMPSON'S
FEVER & AGUE POWDERS
 FOR THE PERMANENT CURE OF
Chills & Fever, Dumb Ague or
any form of Intermittent
Fever.
THE GREATEST DISCOVERY
OF THE AGE!

There are no diseases so debilitating in their effects upon the constitution as the above, and none more difficult to cure by the usual modes of practice. The FEVER AND AGUE POWDERS will effect a cure in cases of the longest standing as well as prove a preventive in the forming stages of the disease. Being purely vegetable, they act with certainty on the system, totally eradicating it from the system, and preventing its return at any future period. Why waste your money and health in trying every medicine you hear of, when THOMPSON'S FEVER AND AGUE POWDERS have never failed to cure the CHILLS in any case?

Reasons why they Only should be Used.

THEIR REPUTATION IS ESTABLISHED. Thousands of testimonials have been showing that these POWDERS have a permanent effect in curing the disease, and that those who have taken them are no longer liable to be attacked by them. THERE IS NO EQUAL TAKING THEM. They contain nothing injurious, and, therefore, contain no danger of poisoning or any other kind of injury. They leave the system in a healthy state, and the patient is enabled to resume his usual avocations. Beware of INTERFERERS. The genuine are put up in square tin boxes, with THOMPSON'S FEVER AND AGUE POWDERS stamp on the lid, and the signature of W. H. THOMPSON on the wrapper. No other can possibly be genuine.

THOMPSON'S
RHEUMATIC
AND
MORSELINIMENT,
The Great External Remedy for
RHEUMATISM, NEU-
RALGIA, SPRAINS,
BRUISES, &c.
Equally Good for Man or Beast.

THIS LINIMENT has earned for itself a reputation unequalled in the history of External Applications. It is the only one that cures RHEUMATISM, NEURALGIA, &c., without immediate relief, from all pain by using this CERTAIN REMEDY. It is equally effective in CURING BRUISES, SCALDS, STIFFNESS OF THE NECK, SORE THROAT, SWELLINGS, LAMENESS, PROSTRATIONS, PAINS IN THE SIDE, OR BACK, RIBS OF SPINE, OR STINGS OF INSECTS. One rubbing will in all cases give immediate relief, and few applications complete a cure. On account of its powerful penetrating properties it is beyond doubt the SUREST REMEDY for the most troublesome disease to which Horses and Cattle are liable. It cures SCALDS, oil and fresh cuts or sores, Chafes produced by the collar or saddle, Injuries to the feet, Swellings, contusions, Bruises, Sprains, Sweeney, Spavin, Thrush, and all Diseases which destroy the Hoof, or render it unfit for service. FULL DIRECTIONS accompany each bottle. The above are prepared only by

REGULATOR. PURELY VEGETABLE. GREAT UNFAILING SPECIFIC. THE PREPARED. ONE DOLLAR BOTTLES.

HARPER'S WEEKLY. A COMPLETE PICTORIAL HISTORY OF THE TIMES. THE BEST, CHEAPEST, AND MOST INTERESTING FAMILY PAPER IN THE UNION.

SUBSCRIPTIONS.—1873. Terms: A Yearly Copy of Harper's Weekly, one year, \$1.00.

THE Scientific American, FOR 1873. BEAUTIFULLY ILLUSTRATED. The Scientific American, now in its 28th year, enjoys the widest circulation of any newspaper published in the world.

WM. M. THOROUGHGOOD, BLACKSMITH. All kinds of work which the wants and necessities of the public demand, such as: RAILROADS, MACHINERY, ENGINES, HOISTING, CARRIAGE WORK, and every other job of work in the province of General Blacksmithing.

Poetry. A Curious Literary Production. The following is one of the most remarkable compositions ever written. It evinces an ingenuously peculiar style.

Presence of Mind. BY NIDRAH. Our route was through the lofty Cordilleras of Southern Peru. Sometimes the deeply worn path lay along some giddy ridge only a few feet in width.

At length I inquired the reason, and he answered, "Ah, my friend, the reason is that we can't cross it; and if we don't cross it, we must camp in just such a place as this, and some of you will have to sit on your mules all night within twelve inches of a precipice both above and below you, and the poor animals must hold their loads until the waters subside."

At ordinary times the water is not over six inches deep, or ten feet wide, running over a smooth rocky bed; but with the least rain above, the stream swells to a fierce torrent fifty feet wide, and many deep—according to the rain—the water rushing with great force, often carrying huge rocks with it, to plunge over an awful precipice only a few yards below you on the right—say within forty feet from where you cross—into a gloomy abyss of enormous depth, straight down, fully 1,600 feet. This chasm, or rent, is a frightful looking place below the falls; and, commencing there, widens until it terminates in the valley of the Bols.

"Pedro was in the lead, and myself and mules followed him, as from the nature of the road we could only travel 'Indian file'; so I passed the word, and we pushed on with the best speed we could. The falls became more and more audible every moment, and on our turning a rocky spur the whole savage scene burst upon us. The head of the torrent seemed full, and the water looked angry as it swept to pitch over into the depths, not fifteen paces distant. As we drew up on the little level space formed by the receding rocks, and only large enough for seven or eight mules to stand on at a time, we could see at a glance that the torrent was rapidly rising, and that if we would cross at all there was not a moment to lose.

"Pedro thought we could safely venture it, and after making a few preparations, started in bidding me remain until he got over, but to my astonishment, the torrent was rapidly rising, and that if we would cross at all there was not a moment to lose.

"Pedro thought we could safely venture it, and after making a few preparations, started in bidding me remain until he got over, but to my astonishment, the torrent was rapidly rising, and that if we would cross at all there was not a moment to lose.

would be more so just now with the bright heavens but didn't I spring to my feet? The palo negro is a large tough tree, sending out great limbs within, seven or eight feet of the ground, which descend until they often reach the earth, when with a graceful bend they gradually rise upward, and pass over a great length to the present instance, several branches from this tree, had struck downward over the precipice several feet below, the trunk, and outward fifteen or twenty feet over the dizzy depths.

Franklin, whose nerves nothing can shake, had the moment his mules went down, disengaged himself from the stirrups, and with marvelous presence of mind, watched for some chance of escape, but saw none until within ten feet of the falls, when, noticing the tree, and seeing the limb extending below, he instantly threw up one of his legs on the trunk, and as they were in the act of pitching over, aprang with both arms extended for the nearest limb, some four or five feet below, and near the plunging curve of the cataract. By the providence of God he was enabled to catch it, and at first supposed we knew the fact.

But when he heard our wild shouts over his shoulder, something tempted him to remain quiet, and listen to the obituary grief of his comrades; for, although drenched to the skin, and just escaped from a horrible death, and even then suspended by a frail awaying limb over a great abyss, yet such was his nerve and coolness that he quietly held on, to enjoy the sorrow of his stricken friends, until my cry attracted his attention, when he answered me as I have related.

During the whole of his trying scene Franklin was the coolest and most indifferent man in the party, and apparently as unconcerned as if only playing a pantomime. He is an extraordinary man.

Transoxania, or within more restricted limits, the khana of Bokhara, says the Saturday Review, is perhaps that part of Asia of which, in proportion to the kind and amount of its claims on their attention, the most ardent students of geography have been long aware of the high way of a more or less extensive commerce between the West and the far East; but remoteness, unpleasant nomadic methods of "inter-viewing" strangers, and the treatment reserved for the most favored of the East, have long been the chief obstacles to the progress of the trade.

At this time, and for about a hundred years, the province of Bokhara, formed part of the government of Khorasan, whose stateholder sent a representative of the caliph to reside in Bokhara, the descendants of the old dynasty retaining only the bare title. But the rule of the Arabs really ended with the capture of Bokhara, when Samanides, received his diploma as governor of Khorasan. He possessed the right of coinage, and of the Kaube—repetition of his prayers in his name; and like the princes of medieval Europe in their relation to the pope, he made only a nominal, not a real, allegiance to the caliph, "the Shadow of God upon the earth," who was rapidly becoming nothing but shadow. Under this prince, Bokhara rose to be the capital of a great empire, and was renowned over Asia for its commercial prosperity, its colleges, to which students flocked from all parts, and its learned men and saints, whose names are revered even in the present day.

Naturally, the details of the pre-Islamic history of Bokhara, its colleges, to which students flocked from all parts, and its learned men and saints, whose names are revered even in the present day.

In the wilderness of my emotions, I tottered towards the fatal chasm, and falling under the fatal of a side spring, I thought that I was within a few yards of the angle formed by the falls and the precipice forming that side of the abyss, cried aloud, "Oh, John, John, why did you persist in your attempt to cross? Oh, my dear friend, where are you now? The change of trumpet had sounded the reveille the last day in the vault of mid heaven, I could not have been more startled than I was; for the words, 'Where are you now?' were hardly spoken before a voice from the gloomy depths below answered, 'Why here I am, all right; but I wish you would stop that nonsense among you, and pass me a rope. I am fatigued by your remembrances, but

two China and the Mediterranean. That the central Asian fire-worshippers were originally prosperous and wealthy is proved by the frequent and successful visits, beginning A. The Political Situation.

THE careful observer of what is going on in our State at this time, can but see that the coming election will be of far more than ordinary interest to our people. In saying this we cannot be mistaken, for experience is a good teacher and judging from the close contest of last year we feel it to be our duty to advise Democrats generally to look well into the causes that led to our reduced majority at that time, so as to avoid a recurrence of it. The coming election of county officers and members of the Legislature in view of this fact should call for our careful and closest attention, and the interests of individuals should be overlooked for the success of our party and the public good. We owe a duty to the State as well as ourselves and in this way alone can it be performed.

At the last election our majority, which has been large, was cut down to a little less than one thousand, and it is not only idle, but simply ridiculous for us to undertake this feat, by holding our arms, remaining at home and indulging in the old declaration, that a nomination is equivalent to an election. This among other things has been an injury to us in the past, and unless it is abandoned, may cause us in the future to again be the subjects of infamous laws, such as we were compelled to submit to when bayonets were at our doors and gunboats in our rivers ready to bear down every one who was not regarded as loyal to the Republican party.

That a nomination is equivalent to an election, if all Democrats would go to the polls and vote we do not deny, but we do hold that this feeling of security has to a great extent made many lukewarm and careless and caused them to stay at home when duty to themselves and others called them elsewhere. It is not our intention, however, at this time to recall the sad scenes that were enacted in this State, when the Republican party was in power, but to urge upon members of the Democratic party the importance of action in order that they may be successful.

The next election is very important to us in many respects, and particularly in view of the fact that the Legislature will have to elect a U. S. Senator to succeed Hon. Wm. T. Hamilton whose term of office expires on the 4th of March 1875. We mention this as a matter of importance, because we do not believe any one who calls himself a Democrat, would like to see a Republican elected to the highest office in the gift of the State, and yet there is danger of it unless we work hard to avoid it. Let us all then begin in time, work hard, see that at primary meetings and on election day every voter is brought out, and in this way we will gain a victory of which we may well feel proud, and teach Radicals that their power in our State at least, is growing smaller by degrees and beautifully less.

Protection vs Free Trade.

The ninth census is being made to tell, by the New York World, very favorably for free trade. The following, taken from that journal, illustrates in a very forcible way the respective merits of protection and free trade, and we recommend it to the careful attention of our readers:

The fallacy of the Protectionists' dogma that the tariff benefits the laboring men of the country has been repeatedly shown in the columns of the World, but never more forcibly than by the table which we yesterday reproduced from the ninth census. According to this census there were in 1870 2,707,421 persons in the United States engaged in manufactures, mechanical and mining industries. The table separates these 2,707,421 persons into five classes, according to the relations between labor, material, and capital in their respective employments. The first three classes represent the employments in which the value of the material is small in proportion to the labor. In these employments the amount of capital required is comparatively small. The last two classes of the table represent those employments in which the value of the material is more than two-fifths of the value of the gross product, or those in which capital and machinery bear the highest proportion to labor. The first three classes of industries are unprotected. The other two classes are protected industries. This simple fact is sufficient to refute the assertion of the Protectionists that the tariff is imposed for the interests of American labor. If protection is for the benefit of the laborer, how does it happen that those industries in which labor is the most important factor are the very ones which are unprotected at all, while those in which the labor is most dependent upon capital are the protected ones? But the whole significance of the exhibit does not lie in the fact that the protected industries pay the taxes which pay the smallest wages

to the laborers. The industries in class IV, where the cost of the labor represents almost the entire cost of the product, pay each laborer annual wages to the amount of \$406; class II, embraces; blacksmithing, carpentering, plumbing, etc., pays each laborer \$321 a year; and class III, pays \$429 a year to each laborer, making an average of \$403 a year as the annual wages of each laborer in the unprotected industries, against \$312 as the average annual wages for each laborer in the protected industries. In the face of this statement what becomes of all the rubbish that has been written to delude the laboring voters of the country into the belief that they are benefited by Protection! The figures show \$403 a year for each laborer in the unprotected industries, to \$312 in the protected ones; which makes a difference of nearly one-fifth against the workers employed in the favored industries! If we push the inquiry further we find that the industries in class IV, where the value of material equals or exceeds the value of the labor used, pay \$372 a year to each laborer, while those in class V, in which capital is most largely used, pay only \$312 a year to each person employed. So that the greater the proportion of capital to labor the smaller are the wages paid; and the laborer in voting for Protection to the capitalist merely imposes low wages and dear food upon himself for the benefit of his employer.

The Wicomico Again.

Our article, published on the 14th inst., on the river improvement has been heartily endorsed by thinking men throughout the county, many signifying their approval by verbal expressions of commendation and others by letter. In short, it is apparent to the whole farming community that this subject concerns their direct interests, consequently they are supporting it by voice and action. They are wise in doing so, for the time has arrived when they must look out for something to improve their condition; therefore, recognizing the advantages which must necessarily flow to them by the accomplishment of the contemplated river improvement, they do right to urge the matter, and the ADVERTISER will always be found ready to cooperate with them in this or any other movement looking to their benefit. To this end we invite suggestions or communications from any who may desire to further the good cause.

In order to enable the Town and County Commissioners to make any appropriations for this purpose, it would be necessary to submit the matter for legislative action. But the two Boards could give assurances that they would use every effort to obtain favorable legislation, and upon this the necessary funds might be raised and the work proceed without delay. There seems to be an idea prevailing in the public mind that it would cost an enormous sum to build the dykes, many estimating it to be more than \$5,000. The truth is it will not cost the half of this sum. They can be built for less than thirteen hundred dollars, as a guarantee of this we know a responsible gentleman who will take the contract for this sum and obligate to do the work in such a manner as shall satisfy all reasonable demands. A petition has been circulated in Salisbury asking private contributions for the prosecution of this work, and by this means the sum of five hundred dollars has been pledged. Now, let the people urge the two Boards of Commissioners to try and raise the balance on pledges of future appropriations, and the thing is accomplished.

The people would undoubtedly endorse any action that might be taken by our officials in this regard. So far as we have been able to ascertain public opinion is almost a unit in the matter.

The Feeling of the South.

The following extracts are taken from the letter of a correspondent of the New York Times. As the writer is evidently a Northern man, his testimony upon the points he states is all the more worthy of record. The letter is dated Birmingham, Ala., June 7:

What are the prospects of its material prosperity?

These were the questions to which my attention was directed in the progress of a trip to this region of Northern Alabama, through Virginia, East Tennessee and Northwestern Georgia, and during my stay of two or three weeks in this portion of the State, covering a range of three or four counties.

When it is considered that the causes of the alienation and bitterness which are generally supposed to exist are chiefly political, and arise in opposition to the national Administration, we would think it but natural that political topics should occasionally rise to the surface in discussion, where men "most do congregate, even though it is not the political year and no exciting campaign is in progress. From Washington to Birmingham I sought the vicinity of groups engaged in conversation, in drawing-room cars, sleeping cars, common passenger cars, smoking cars, and negro cars—in which latter, by the way, it was no uncommon thing to find whites sitting—in stations, at eating-houses, at hotels—in short, in all places within the limits of travel opened opportunity for, and I noted this more particularly as indicative of preoccupation with ordinary topics of interest to the exclusion of politics, and as pointing to hopeful conclusions concerning the direction of the energy of the South toward legitimate fields of action in recovering from her prostrate condition. The tone and spirit of the people whom I encountered were indicative of anything rather than of morose, brooding, discontent. Their manner toward Northern men, when introduced to them, either in due form or casually, in the way of traveling acquaintances are formed, is frank, open cordial. Certainly no one in traveling through this country would imagine for a moment that there was a latent and irreconcilable bitterness in the hearts of the people so powerful as to stand in the way of the most cordial co-operation for the advancement of their material interests.

my journey, and since my arrival, of the relation and bearing of the white and negro races toward each other, and of the bearing and demeanor of the negroes themselves. I can detect in the intercourse of the races nothing that distinguished it from that prevailing in our Northern States. True, the blacks are not permitted to occupy the same cars upon railroads, with whites, except where they appear as servants, nurses, or attendants; but how long it is since in our own city of New York colored cars were an institution! In the ordinary intercourse I could see nothing that was distinctive or noticeable. When I recall how short in the time since the relation between these races was that of master and slave, absolute domination on the one hand and abject subjugation on the other, and reflected further upon the violence with which these relations have been severed, and of all that this severance implies, I marvel more and more each hour as I behold how natural and commonplace the new and changed order of things has become.

CLAYTON HOUSE,
Corner of Fifth and Market
AND EXTENDING TO KING STREET,
WILMINGTON DELAWARE.
This new, large and commodious House will be opened as a FIRST CLASS HOTEL, on Thursday, March 14th, 1873.
The interior arrangement of this building is admirable. The parlors, drawing rooms, and elegantly furnished and the sleeping apartments which are fitted out with every modern appliance of utility and comfort, will accommodate three hundred guests.
What an elevated situation of the CLAYTON HOUSE affords for the amplest ventilation, and on extensive view of the Delaware and Christiana rivers; and from the promenade, there is a panoramic view unfolded, embracing the hills and valleys of the classic Brandy wine, unsurpassed in picturesqueness and beauty.
The Proprietor having had a large experience in the management of hotels, and having secured the services of competent assistants, no effort will be spared to give satisfaction to all who may favor the CLAYTON with their patronage. Terms moderate.
W. W. SAWYER Proprietor

Saturday, June 19, 1873.

JOB PRINTING!

WE HAVE recently purchased a splendid JOB PRINTING PRESS, and are now prepared to execute all styles of small circular work, bill heads, letter heads, note books, envelopes, cards, etc., at short notice and on the most liberal terms.

FOOTING.—On account of the Strawberry season, the County School convention, advertised for June 6th and 6th, postponed to June 25th, and 26th. By order of H. A. Smetz, State Sup. Maryland S. S. Union, May 22nd 1873.

HON. GEORGE B. DENNIS will please accept our thanks for valuable public documents.

MR. THOMAS B. SMITH, our very efficient postmaster, will please accept our thanks for a basket of delicious "Ohio Beauties."

SHIPMENT OF WHORTLEBERRIES.—Mr. I. H. A. Dulany, of Fort Totten, shipped on Thursday 19th inst. one crate of whortleberries, and had a surplus left for next days shipping. This is the first shipment of whortleberries that has been made this season.

THE congregations of the Methodist Episcopal Church by unanimous vote have granted a leave of absence of two months to the pastor, N. M. Brown, who, with his family, will leave about the 1st of July to spend a month at the Summer resort on Rehoboth Beach.

INTERESTING CEREMONIES.—On Sunday evening last Rev. J. J. Smyth was installed pastor of the Presbyterian Church, this place. Rev. Mr. Conkey, of Wilmington, preached the sermon, and Rev. Mr. Heaton and Rev. Mr. Hamner delivered the charges. The ceremonies were very interesting and impressive.

IMMERSION.—On Sunday evening last a large number of our citizens assembled on the banks of Mr. Thos. Humphreys' mill pond to witness the administration of the right of baptism by immersion conferred by Rev. Mr. Chick, of Baltimore, upon Mrs. Benjamin F. Morris, of this place.

MILL BURNED.—On Wednesday night a saw mill belonging to Messrs. E. E. Jackson & Co and Mr. M. Nutter Wimbrow, situated near St. Martin's, was burned to the ground. This mill had just been completed and running a little over two months and cost more than 4,000. No insurance. The fire was the result of an accident.

A MEETING is announced for Monday night at the Methodist Episcopal Church to arrange a company to attend the Camp meeting at Rehoboth Beach. Persons who desire to spend ten days at this delightful place, where all the advantages of the best sea side resort may be enjoyed, free from the dissipation usual at such places, would do well to see the Committee, as the number of persons in the company will be limited.

WICOMICO & PODOCOKER R. R.—At a meeting of the Directors of this road held this month, the Treasurer reported the net earnings of the road for the fiscal year to be \$15,000. The amount of the year had been appropriated towards paying for a passenger car, the balance will be applied to the purchase of a new engine and the stock. Owing to the rapidly increasing cost of iron and steel, the Directors have decided to build a road to meet all the requirements of the public.

The Board of Directors of the road will meet on Wednesday evening, the 26th inst. at 8 o'clock, at the residence of Mr. J. J. Smyth, at Fort Totten. The subject of the meeting will be the purchase of a new engine and the stock. The Board of Directors of the road will meet on Wednesday evening, the 26th inst. at 8 o'clock, at the residence of Mr. J. J. Smyth, at Fort Totten. The subject of the meeting will be the purchase of a new engine and the stock.

S. S. CONVENTION.—The Programme for the S. S. Convention, which has been announced for August, is to be held in Salisbury, Wednesday and Thursday of next week, June 25th and 26th, has been arranged and the subject presented for discussion are of a character which will elicit an interest in the mind and attract the attention of all who are engaged in that well and good work.

The following named gentlemen will be present and take part in the proceedings: Rev. B. H. Latrobe of the Protestant Episcopal Church, Rev. J. J. Smyth of the M. E. Church, South River, Rev. E. R. Echbach, of Rehoboth Beach, with Prof. Sanders and Rev. M. A. Smetz, State Superintendent. We hope the S. S. Workers and all friends of the cause in our town and vicinity will appreciate the interest of the Convention in coming here, and hold the Convention and give their presence at each session.

The first meeting will be held in the M. E. Church, Wednesday, evening 8 o'clock, and the Churches, in which the following sessions will be held will be announced from time to time during the Convention.

N. M. BROWN, By order of Committee.

DEVELOPMENT OF LAND NAVIGATION. On Sunday afternoon last our young friends, Capt. John Hooper and Mr. Edmond Warren, boarded a carriage on Main street for the purpose of taking a cruise in the country. The craft was in command of Capt. Hooper, Mr. Warren being first mate. Everything pertaining to the rigging, running gear, &c., being arranged by the "captain" of the crew, they cut her loose from moorings and went blowing down the street at the rate of 8 or 10 knots an hour. Approaching Dock street and being desirous of hooping well over to the southeast, Capt. Hooper said "Let her puff, Edmond, starboard it your helm!" "Aye, aye, starboard it!" said Mr. Warren, and she rounded up beautifully; but the captain's order was obeyed so promptly that the ship went down on her beam ends precipitating her crew overboard to seaward. They were equal to the emergency, however, and

soon regained command of their craft, warped by the mistake which caused her shipwrecking them, made a safe voyage to the house of their friends and then back again to Salisbury.

THE BALL FIELD. A MATCH GAME AT BERLIN.—The Snow Hill club has finally concluded to play the White Cloud club a match game at Berlin on Monday next strictly according to the rules of the game. It may be that an extra train will be run from Salisbury to Berlin on the occasion. If so, the Salisbury Base Ball will occupy the attention of a large number of the citizens of Salisbury.

MATCH GAME IN SALISBURY.—On Thursday afternoon the Stars played the Atlantic a match game on the ground at the Park, which resulted in favor of the Stars. The Stars scored 22 and the Atlantic 20. The game was hotly contested and excited intense interest among the numerous spectators. It is really wonderful to witness the pluck and the skill manifested by these juvenile clubs.

MATCH GAME AT QUANTICO.—On Thursday last a social game came off at Quantico between the Golden Hands, of Tyaskin, and the Modocs of Quantico, which terminated in a victory for the former by a score of 48 to 36. The following is a correct score of the game:

Table with 3 columns: Name, Runs, Hits. Golden Hand players: E. Hall, S. E., 4 runs, 4 hits; F. P. Anderson, C. F., 4 runs, 4 hits; F. S. Mitchell, 4 runs, 4 hits; J. W. Taylor, 4 runs, 4 hits; J. H. Jones, 4 runs, 4 hits; J. D. Moore, 4 runs, 4 hits; J. A. Smith, 4 runs, 4 hits; J. B. Brown, 4 runs, 4 hits; J. C. Green, 4 runs, 4 hits; J. E. White, 4 runs, 4 hits; J. F. Black, 4 runs, 4 hits; J. G. Gray, 4 runs, 4 hits; J. H. Blue, 4 runs, 4 hits; J. I. Red, 4 runs, 4 hits; J. K. Yellow, 4 runs, 4 hits; J. L. Purple, 4 runs, 4 hits; J. M. Pink, 4 runs, 4 hits; J. N. Brown, 4 runs, 4 hits; J. O. Green, 4 runs, 4 hits; J. P. White, 4 runs, 4 hits; J. Q. Black, 4 runs, 4 hits; J. R. Gray, 4 runs, 4 hits; J. S. Blue, 4 runs, 4 hits; J. T. Red, 4 runs, 4 hits; J. U. Yellow, 4 runs, 4 hits; J. V. Purple, 4 runs, 4 hits; J. W. Pink, 4 runs, 4 hits; J. X. Brown, 4 runs, 4 hits; J. Y. Green, 4 runs, 4 hits; J. Z. White, 4 runs, 4 hits; J. AA. Black, 4 runs, 4 hits; J. AB. Gray, 4 runs, 4 hits; J. AC. Blue, 4 runs, 4 hits; J. AD. Red, 4 runs, 4 hits; J. AE. Yellow, 4 runs, 4 hits; J. AF. Purple, 4 runs, 4 hits; J. AG. Pink, 4 runs, 4 hits; J. AH. Brown, 4 runs, 4 hits; J. AI. Green, 4 runs, 4 hits; J. AJ. White, 4 runs, 4 hits; J. AK. Black, 4 runs, 4 hits; J. AL. Gray, 4 runs, 4 hits; J. AM. Blue, 4 runs, 4 hits; J. AN. Red, 4 runs, 4 hits; J. AO. Yellow, 4 runs, 4 hits; J. AP. Purple, 4 runs, 4 hits; J. AQ. Pink, 4 runs, 4 hits; J. AR. Brown, 4 runs, 4 hits; J. AS. Green, 4 runs, 4 hits; J. AT. White, 4 runs, 4 hits; J. AU. Black, 4 runs, 4 hits; J. AV. Gray, 4 runs, 4 hits; J. AW. Blue, 4 runs, 4 hits; J. AX. Red, 4 runs, 4 hits; J. AY. Yellow, 4 runs, 4 hits; J. AZ. Purple, 4 runs, 4 hits; J. BA. Pink, 4 runs, 4 hits; J. BB. Brown, 4 runs, 4 hits; J. BC. Green, 4 runs, 4 hits; J. BD. White, 4 runs, 4 hits; J. BE. Black, 4 runs, 4 hits; J. BF. Gray, 4 runs, 4 hits; J. BG. Blue, 4 runs, 4 hits; J. BH. Red, 4 runs, 4 hits; J. BI. Yellow, 4 runs, 4 hits; J. BJ. Purple, 4 runs, 4 hits; J. BK. Pink, 4 runs, 4 hits; J. BL. Brown, 4 runs, 4 hits; J. BM. Green, 4 runs, 4 hits; J. BN. White, 4 runs, 4 hits; J. BO. Black, 4 runs, 4 hits; J. BP. Gray, 4 runs, 4 hits; J. BQ. Blue, 4 runs, 4 hits; J. BR. Red, 4 runs, 4 hits; J. BS. Yellow, 4 runs, 4 hits; J. BT. Purple, 4 runs, 4 hits; J. BU. Pink, 4 runs, 4 hits; J. BV. Brown, 4 runs, 4 hits; J. BV. Green, 4 runs, 4 hits; J. BV. White, 4 runs, 4 hits; J. BV. Black, 4 runs, 4 hits; J. BV. Gray, 4 runs, 4 hits; J. BV. Blue, 4 runs, 4 hits; J. BV. Red, 4 runs, 4 hits; J. BV. Yellow, 4 runs, 4 hits; J. BV. Purple, 4 runs, 4 hits; J. BV. Pink, 4 runs, 4 hits; J. BV. Brown, 4 runs, 4 hits; J. BV. Green, 4 runs, 4 hits; J. BV. White, 4 runs, 4 hits; J. BV. Black, 4 runs, 4 hits; J. BV. Gray, 4 runs, 4 hits; J. BV. Blue, 4 runs, 4 hits; J. BV. Red, 4 runs, 4 hits; J. BV. Yellow, 4 runs, 4 hits; J. BV. Purple, 4 runs, 4 hits; J. BV. Pink, 4 runs, 4 hits; J. BV. Brown, 4 runs, 4 hits; J. BV. Green, 4 runs, 4 hits; J. BV. White, 4 runs, 4 hits; J. BV. Black, 4 runs, 4 hits; J. BV. Gray, 4 runs, 4 hits; J. BV. Blue, 4 runs, 4 hits; J. BV. Red, 4 runs, 4 hits; J. BV. Yellow, 4 runs, 4 hits; J. BV. Purple, 4 runs, 4 hits; J. BV. Pink, 4 runs, 4 hits; J. BV. Brown, 4 runs, 4 hits; J. BV. Green, 4 runs, 4 hits; J. BV. White, 4 runs, 4 hits; J. BV. Black, 4 runs, 4 hits; J. BV. Gray, 4 runs, 4 hits; J. BV. Blue, 4 runs, 4 hits; J. BV. Red, 4 runs, 4 hits; J. BV. Yellow, 4 runs, 4 hits; J. BV. Purple, 4 runs, 4 hits; J. BV. Pink, 4 runs, 4 hits; J. BV. Brown, 4 runs, 4 hits; J. BV. Green, 4 runs, 4 hits; J. BV. White, 4 runs, 4 hits; J. BV. Black, 4 runs, 4 hits; J. BV. Gray, 4 runs, 4 hits; J. BV. Blue, 4 runs, 4 hits; J. BV. Red, 4 runs, 4 hits; J. BV. Yellow, 4 runs, 4 hits; J. BV. Purple, 4 runs, 4 hits; J. BV. Pink, 4 runs, 4 hits; J. BV. Brown, 4 runs, 4 hits; J. BV. Green, 4 runs, 4 hits; J. BV. White, 4 runs, 4 hits; J. BV. Black, 4 runs, 4 hits; J. BV. Gray, 4 runs, 4 hits; J. BV. Blue, 4 runs, 4 hits; J. BV. Red, 4 runs, 4 hits; J. BV. Yellow, 4 runs, 4 hits; J. BV. Purple, 4 runs, 4 hits; J. BV. Pink, 4 runs, 4 hits; J. BV. Brown, 4 runs, 4 hits; J. BV. Green, 4 runs, 4 hits; J. BV. White, 4 runs, 4 hits; J. BV. Black, 4 runs, 4 hits; J. BV. Gray, 4 runs, 4 hits; J. BV. Blue, 4 runs, 4 hits; J. BV. Red, 4 runs, 4 hits; J. BV. Yellow, 4 runs, 4 hits; J. BV. Salisbury Advertiser.

Saturday, June 14, 1873.

There is one subject, which if seriously considered, will be found to be of vital interest to the people of Salisbury and the lower half of Wicomico county, though some, it seems, give it more than a passing thought, certainly not the study that a question of such paramount importance deserves. We allude to the deepening and widening of the Wicomico river at this town. Let us take a cursory glance at the condition of things now, and the possible advantages to be derived from the consummation of this enterprise.

First, our river is only navigable to within one and a half or two miles of Salisbury; this necessitates the use of lighters, and the great consumption of time incident thereto is not only an aggravation to vessel-owners but must certainly be greatly to their disadvantage financially, although some maintain the contrary. Second, our town is deprived of the advantages resulting from the visits of large numbers of people who trade on the Chesapeake and its tributaries. Third, the oyster packing business cannot be carried on here extensively. Fourth, we are deprived of a line of steamboats between Baltimore and Salisbury. Fifth, and last, but by no means least, the people of the lower section of Wicomico county are shut out, as it were, from the Northern markets, and have to depend on the slow and exceedingly uncertain motions of sailing vessels for the transportation of merchandise and agricultural products to and from the city.

Now, if we have the river in a navigable condition, our merchants can load and unload their vessels at the town, thereby saving much valuable time and money. Second, Salisbury would be visited by many people, who live on the water course, for the purpose of purchasing merchandise, lumber and the wares manufactured at our mills. This would give an impetus to mechanical operations in all its branches, greatly enhance the mercantile business and directly and indirectly swell our population and benefit the poor as well as the rich man. Third, this being a very desirable point for packing oysters, we should undoubtedly have several large establishments started here, which would give profitable employment to hundreds of people who now find it difficult to obtain the bare necessities of life. Fourthly, we should have a line of steamers from Baltimore, and would not then be entirely dependent upon a railroad which charges us two prices for the transportation of freight and then takes its own time to put our perishable fruits in market not caring whether it be lost or saved. Fifthly, the people of lower Wicomico could then engage extensively in the cultivation of fruits and vegetables with a tolerable certainty of being able to get their stuff in market, either by steamer to Baltimore, or by steamer to the Wicomico to Salisbury thence by rail to Philadelphia, New York and Boston. This is a large section of country to be benefited by the improvement, and it concerns the whole people of our country. The upper half of the county, through which runs the W. & P. R. R., would be benefited by it, though not to the extent of the lower half. For instance, the steamboats would bring freight to Salisbury for one third or one half less than it costs by rail, and the A. & E. R. R. would then transport it to the depot between Salisbury and Snow Hill for the same charges now asked from the Depot. A moment's thought will show us the advantages that would result from this. But, we will not enlarge on this subject—it is, or ought to be, sufficiently well understood to require no lengthened explanation.

The question now arises, shall we grasp these advantages by meeting the requirements of the U. S. Government, or shall we throw away the help so kindly extended us, and let the river bed grow up in mud and weeds to breed sickness and death? Is it not better to use every opportunity afforded for the improvement of our fortunes and our country? If so, why are the people so apathetic in regard to this matter?

Editorial Excursion.

THE Maryland Editorial Association met in Baltimore on the 12th instant on a grand excursion to Chesapeake Bay, extending to visit Richmond, Wills, Salisbury Springs, Lexington, the north-west, St. Louis, and all other points of interest along the route.

The Salisbury press is represented by J. Augustus Parsons, esq., and Dr. S. F. Dennis, for the SHOREMAN, and Lemuel Malone, esq., for the ADVERTISER. Huxton Humphreys, esq., represents the Snow Hill Messenger and the Salisbury BACHELOR.

These annual excursions of the Maryland editors have been exceedingly pleasant in past years, and we trust this one may surpass, as we have every reason to believe it will, in pleasure and interest any former excursion participated in by our hard working brethren of the press. Although the force of circumstances compels the junior understrates of the ADVERTISER to remain behind, yet we wish the gay excursionists to enjoy a happy season of recreation and have a safe return to the wear and tear of the press room and sanctum.

The new postal law goes into effect on the 1st day of July proximo, after which time subscribers to the ADVERTISER, who live in this county, will have to pay postage on the paper. However, we think they will not have more than three, or six months at the farthest, to pay for, for Congress will undoubtedly repeal that section of the law relating to this matter. Those, however, who do not think the ADVERTISER worth the price of subscription and postage can pay us up and order their papers discontinued. We shall be sorry to part with any of our old friends, but if they think our visits are worth their cost, it is proper that we should withdraw. It will be absolutely necessary for a subscriber to square his or her account with us before the paper can be discontinued.

We shall endeavor to make the ADVERTISER not only worth \$1.20 a year, but double that amount, and we hope all our patrons will be able to say that they would not be without the paper for thrice its price.

THE SALISBURY ADVERTISER is one of our most attractive exchanges and everything which should constitute a thoroughly live, ably edited and entertaining newspaper. We compliment it because of its unobtrusive and congratulatory it for its evident prosperity.—*Crisfield Leader.*

We fear the above may be a little "too thick," but we appreciate the kindness all the same, whether it be merited or not. So, here's a health to thee, friend Charlie, and may your shadow never grow less, nor the lead of your "Faben No. 2" forget to do its duty in the cause of wide-awake journalism.

tion of the Democratic party. It says: "In any rational estimate of political strength or public opinion, we must consider the opinion of the enlightened, educated classes. The negro votes must be counted, but it is absurd to weigh them. It is an incontestable fact that a majority of the white voters of the United States are Democrats. The return of the last Presidential election proves it. The negro vote of the country is considerably larger than Grant's popular majority; and if the disgusted Democrats who sulenly refused to support Mr. Greeley had come to the polls the result of the election would have been still more striking and instructive. To say that a political party which has the confidence of a majority of the white voters is irredeemably unpopular, and has fallen so low that it can never expect to rise, is a silly extravagance which Democrats laugh to scorn.

The New York Sun discourses upon the fruits of Grant's administration policy in the South as follows: "This impolicy which crushes down the South and deprives the West of its best customer, extends its pernicious influence still further. Emigration is now surpassing all former records, and yet it is not the whole South as if from the breath of a pestilence. Cheap land, fine climate, mineral wealth. Water power, railroads, and everything else that the temperate zone can offer to tempt settlement, are to be found from Delaware to Texas, and yet the emigrant shies from all these inhospitable and remote regions where hardship and privation are conditions of any degree of success. While slavery existed, it was assigned as a cause of exclusion. Now, that all men are free and equal, emigration is even more reluctant than before to connect its destiny with a people who were worse than those left behind in the Old World. The reason is obvious to the least intelligence."

The Richmond Duel—Examination Before Police Justice White.
A letter to the Petersburg Index, dated Richmond, June 10, says: Messrs. W. B. Tabb, Wm. L. Royall, John E. Meredith and Willis R. Trigg, charged with being second in the recent McCarty-Mordred duel, were brought before Police Justice White this morning at 11 o'clock, for examination. Judge John A. Meredith, Gen. Bradley T. Johnston, and Mr. Leigh R. Page appeared as their counsel. Dr. Callen, surgeon of Mr. McCarty, testified that his patient would not be able, probably, to appear before the court before the 15th of July, and, accordingly, by consent of the defense and prosecution, the case was continued until that date. Counsel for each then submitted a motion for bail, and upon this subject the board will be spoken. General H. A. Wise came into the court-room as the speeches were about being concluded, and took the field as an independent. The justice asked him if he represented any of the prisoners. He replied yes, he represented all concerned, "the living and the dead, too," and proceeded to address the board. White declined to allow bail without hearing the evidence, but said he would cancel the order for the continuance made until 15th July, and postpone the case until Saturday, when he would hear as much of the testimony as might be necessary to allow him to determine whether the accused ought to be bailed or not. The second were then remanded to jail.

WHAT STOKES SAYS ABOUT HIS NEW TRIAL.
[From the N. Y. Times, June 11.]
At least 300 persons called at the Tombs prison yesterday, to congratulate Edward S. Stokes on the decision of the Court of Appeals, granting him a new trial. Half an hour before the news arrived, Stokes, while in conversation with Warden Johnson, said: "I am confident that I will be given a new trial. I cannot but believe that the Court of Appeals will have sense enough to see the justice of my claims." To this opinion Stokes has adhered since his conviction and sentence. He was conversing with his father in the counsel room of the prison when Mr. Doer Passos, on his counsel, brought the welcome intelligence in the shape of a telegram from Lyon Tremaine, who has been attending to the case in Albany. Stokes said, "I knew I would receive justice," and was evidently much pleased with the result of his counsel's labors. In conversation with his counsel and a Times reporter, Mr. Stokes said: "I am confident that at this trial such a mass of evidence in my favor, which has not yet been introduced, will be testified to, as will place the affair in a wholly different light. I have been tried and convicted from prejudice naturally formed by reading in the newspapers versions of the story which were not only incorrect, but incomplete in almost every particular." Mr. Doer Passos, in answer to a question asked by the reporter, said that himself and his associate counsel had not yet decided on asking that Mr. Stokes be admitted to bail.

South American.
LONDON, June 11.—Advices from Rio Janeiro to the 23d ult. have been received. The conflict between the clergy and secret societies continued to agitate Brazil. The Ministry had taken strong grounds on the subject, and were gaining support. In the Lower House the Premier made a speech defending the Emperor, and promised that energetic measures would be taken to prevent the Bishops and Jesuits from interfering with the society.

THE LOUISIANA DEBT.
It turns out that Kellogg lied when he said, and caused it to be telegraphed over the North, that taxes were coming in on every hand, never before so freely. It turns out that Kellogg lied when he said, and caused it to be telegraphed over the country, that the interest money on the State debt was in hand and would be paid on and after the first Monday in June. It turns out, if we may believe a Tribune correspondent's report of Kellogg's utterance, that Kellogg lied, at the time he said that the Federal Government for troops and got them, though needless, for the mere asking. Such are the tools—this lying Kellogg, the Drunken Durill, the equal amount of Pinchback, by which the gambler gains his usurpation of government over the people of Louisiana. It is a great moral idea.

A CUT ON WHITE-LAW REID.
For some time past a report has obtained generally circulated and endorsed in New York City, that White-Law Reid of the Tribune, had proposed marriage to Miss Anna Dickinson and had been definitely given to understand the he "was not the man." A few days since White-Law Reid wrote Miss Dickinson requesting her to allow him to deny through the Tribune the rumor that he had been "flatly jilted by the eminent lady." The reply he got was so cutting that it will not pass from the memory of man for years to come. "If I can stand the rumor," writes Miss Dickinson of such a proposal, certainly you should be able to do so, but you should be able to do so more difficultly in view of the reports of the 'jilting.'" Exit White-Law.

CLAYTON HOUSE,
Corner of Fifth and Market
AND EXTENDING TO KING STREET,
WILMINGTON DELAWARE.
This new, large and commodious House will be opened as a FIRST CLASS HOTEL, on Thursday, March 6th, 1873.
The arrangements of this building is admirably adapted to the wants of the business and pleasure traveler, and the sleeping apartments which are fitted out with every modern appliance of purity and comfort, will accommodate three hundred and fifty guests.
The elevated situation of the Clayton House affords facilities for the pleasant ventilation of the rooms, and the view from the piazzas, on an extensive view of the Delaware and Christina Rivers; and from the grounds, there is a panoramic view of the city, embracing the hills and valleys of the Chesapeake Bay, and the surrounding country, and the city of Philadelphia.
The proprietor having had a large experience in the management of hotels, and having covered the service of competent waiters, no effort will be spared to give satisfaction to all who may favor the CLAYTON with their patronage. Terms moderate.
W. H. BAYLOR, Proprietor.

JOB PRINTING!

WE HAVE recently purchased a splendid job printing press, and are now prepared to execute all styles of small circular work, bill heads, letter heads, note heads, envelopes, cards, &c., at short notice for city prices.

W. B. BARNES & ROBERTSON.

POSTPONEMENT.—On account of the Strawberry season, the Sunday School convention, advertised for June 23d and 24th, postponed to June 25th and 26th.

By order, H. A. Smith, State Sup.; Maryland & S. Union, May 22nd 1873.

Parishioner.—Elder F. A. Chick, of Baltimore, is expected to preach in the O. S. Baptist Meeting-house, Salisbury, tomorrow (Sunday) morning at 10 o'clock, also at night.

KICKED BY HIS HORSE.—Capt. Thos. W. H. White, while endeavoring to brew a refractory horse, last week, received a severe kick in the abdomen which was at first thought to be serious, but he is now doing quite well and is considered out of danger.

THE STRAWBERRY CROP was cut short by the dry weather, and not much more than half a crop has been picked. Owing to the enormous quantities of berries thrown into market every day, prices have risen so low that growers have scarcely realized enough money to pay expenses. The same may be said of the pea crop.

ACCIDENT.—On the 13th instant, Peter A. son of M. Nutter Wimbrow, of this town, while playing on the tract of the E. S. R. R. accidentally fell across the iron and broke his left thigh. The unfortunate little one is only 6 years old. Dr. F. M. Slemmons rendered surgical aid.

BEHIND THE TRAIN.—The train on the Wicomico & Pocomoke R. R. failed to reach Salisbury on Thursday last, in time to connect with the morning north bound train, in consequence of which passengers had to wait at Salisbury until the arrival of the afternoon berry train.

MARRIAGE IN SNOW HILL.—On Wednesday last George M. Uphur, esq., of the Democratic Messenger, was united in the holy bonds of wedlock to Miss Emma Franklin, daughter of Hon. John R. Franklin. The happy couple took the cars, after the completion of the ceremony, for a wedding tour on the 13th.

THAT GAMBOU BALL.—The Messenger called the game of ball, played at Snow Hill last week, a match game. This is a mistake—it was a social game. The same paper also stated that the White Clouds only caught four fly balls—this is also a mistake. The White Clouds caught 15 fly balls and 15 runs, and the other team, Black B. Smith, 1, Gillis 1, Gordy 2, and Jordan the remainder. Please make necessary corrections, squire.

IMPROVEMENTS.—That portion of Main street from Dock street to the iron bridge has been raised to the level of the ground on each side, and is now being dressed with oyster shells. A culvert has been laid on the north side of the street to carry the water into the river. It is fair to presume that this will be a very great improvement upon the old order of things.

STRUCK BY LIGHTNING.—A young man named William Austin, residing about three and a half miles from Salisbury, received a severe shock a few days since during the prevalence of a thunder storm. He was in the field when the shock came, and was thrown to the ground. He is now recovering from his injuries.

DEATH.—A young man named William Austin, residing about three and a half miles from Salisbury, received a severe shock a few days since during the prevalence of a thunder storm. He was in the field when the shock came, and was thrown to the ground. He is now recovering from his injuries.

ACKNOWLEDGMENTS.—We are indebted to Mrs. Jackson, of Rockwood, for a basket of very fine strawberries. According to Mrs. J. they were a new variety—"Mind-your-own-business," was the name she gave them, though they resembled the Wilson Albany. However, whatever be the variety, they were certainly the largest and sweetest berries seen in Salisbury this season.

Mr. James Cannon presented us with some very fine strawberries on Thursday last given by him on his truck farm near Salisbury. They are called the "Ohio Beauty," and are large, luscious and beautiful, suggesting mountain plums rather than cherries. Mr. Cannon has 4 or 5 more varieties of this fine strawberry. We should like to see the very best variety of strawberries in the market. They can be had from the following firms, and also from the "Ohio Beauty" firm, and also from the "Ohio Beauty" firm.

What a tragedy!—It may appear strange to many persons who are familiar with the particulars of the horrors enacted at Dover, Del., some time since, by Dr. West, that he has been acquitted by a jury of his countrymen of the murder of the negro Cooch Ferrate. Yet such is the fact, and West is to be tried now for the murder of the girl in the matter case, he is not guilty. We should not be surprised to learn that West has been fearfully injured by the slanderous charges recently brought against him.

The Sunday School Convention.—The Opening Session of Wicomico Co. Sunday School Convention will be held in Methodist Episcopal Church, Salisbury, Wednesday Evening before 9 o'clock June 25th. M. P. Church, Pres. There will be a number of prominent speakers present from Baltimore & H. Sanders will conduct the musical part of the convention. It is earnestly desired that the S. S. Teachers and persons interested in the work should be present. All Visitors will be

glady entertained during the session of the convention by making application to any one of the Pastors of the above named churches.

N. M. BROWNE, By Order of the Committee.

A WHALE measuring fifty-two feet in length, floated ashore on Smith's Island, of Northampton county, Va., a few days since. The natives of that region reduced the blubber of this leviathan to oil. Capt. Wm D. Summers, of this county, visited the island soon afterward and took a squint at the remains of the monster. He reports that he was able to lay out the whale's side of the bone. This was a very large whale for these seas. It is a very rare occurrence to see one here anyhow, and especially so large as this fellow. The whale is supposed to have died from old age, as he had no teeth, they apparently having been gone a long time.

STRAWBERRY SHIPPERS.—The following is a correct statement of the number of quarts of strawberries shipped from the depots at Salisbury beginning with May 20th and ending with June 13th:

Table with 2 columns: Date and Quarts per express. Rows include May 20th (132), May 21st (219), May 22nd (436), May 23rd (778), May 24th (4,253), May 25th (4,772), May 26th (25,445), May 27th (22,781), May 28th (28,636), May 29th (37,645), May 30th (34,633), May 31st (31,800), June 1st (29,168), June 2nd (18,610), June 3rd (11,818), June 4th (3,880), June 5th (10,000), June 6th (5,000).

The shipments during the remainder of the season will about run the total for 1873 up to three hundred thousand quarts. In 1872 the total number of quarts shipped from this depot were 285,610, so that it will be seen that the quantity of strawberries grown this year is not in excess of the crop last year, although the area of acreage is double. This may be attributed to the frost and drought, and, perhaps, to the fact that growers could not get pickers enough. Evidently, if we are to take the quantity of berries shipped as a standard by which to gauge the size of the crop, it is apparent that our truckers have only realized about half a crop this year. From this, and the unusually low prices realized for several heavy shipments, we deduct the conclusion that the berry business has not been profitable this season. Indeed, if growers can only come out even they will be fortunate. We are sorry for this, for there is much dependent upon the success of the strawberry crop, and the entire community will heavily feel any unsatisfactory financial results that may ensue.

The Fourth of July.

CELEBRATION AT THE PARK.

The patriotic people of Salisbury do not intend to allow the anniversary of American independence to pass by without celebrating it in a fitting and becoming manner. Preparations are now going forward for a grand time at the Park on the 4th, and we have every reason to believe that, weather permitting, it will be rendered the biggest affair of the kind ever produced in Salisbury. The celebration will be conducted under the auspices of the WHITE CLOUDS and RESOLUTE base ball clubs, the SALISBURY BRASS BAND and the SALISBURY LYCERUM. A delegation from each of the above organizations met at the office of S. Stanley Toadvin, esq., on Thursday evening last for the purpose of talking over the matter. The meeting was presided over by Dr. E. W. Humphrey, and the following order of proceedings was decided upon: That two Declarations of Independence be read with appropriate music, and that some appropriate and welcome theme of American independence and the marvelous progress of this great and glorious Republic be read, in addition to all the above, a program for the benefit of those fond of the sport, and a match game of base ball between, probably, the DEWEARS of Seaford, and the WHITE CLOUDS, of Salisbury. The celebration will commence at 10 A. M. sharp. The literary exercises will commence at 1 P. M., when the game of base ball will begin. The Brass Band contributing music during the day. The Park will be cleaned and prepared for the occasion. Refreshments served on the grounds by some of the several confectioners in Salisbury. At night the Park will be lighted, and the people may promenade under the stars, while the Band discourses sweet music.

Excellent speakers will be invited to be present and deliver addresses. The following named gentlemen were appointed as a Committee on Arrangements: Dr. E. W. Humphrey, and Messrs. J. C. Hall, E. Stanley Toadvin and Albert L. Richardson.

Quit Scratches.

G. H. W. Runk, esq., has painted his house on Church street. The color used are drab and light brown.

Simon Dinn, esq., has broken ground for new building on Church street near the residence of Mr. R. K. Truitt.

Mr. Jim Tom Robertson lost his dinner the other day through the tricks of a jolly set of Jokers that haunt the neighborhood of the Depot.

Immense numbers of empty strawberry crates and baskets were returned to this Depot during the present week.

A large snapping turtle, tired of the living afforded in the Wicomico river, was leisurely making his way across Mr. H. Humphrey's meadow, a few days since, to the pond when he was captured by Mr. Milton Parsons. Mr. Seth Truitt at once captured a large snapper last Saturday night on the island below the Wicomico Falls. These turtles, says our informant, will weigh from 20 to 30 lbs each.

We regret to announce that Mr. C. F. Hollan, of the Backloger, got a finger broken the other day while engaged in playing a game of ball.

WICOMICO COUNTY.

The subject of strawberries is the all absorbing topic in Worcester.

Whit Monday was observed as a holiday in Snow Hill.

Strawberry festival at Orisford on the 6th instant.

Fishing parties are all the go at Orisford.

The Leader expresses satisfaction at the great abundance of apples and other fruit in the Orisford market.

T. H. Book and Thomas Riggs, elected commissioners of Orisford on the 4th instant.

The municipal election will be held in Princess Anne on Monday next.

The hook and ladder company at Princess Anne are having their ladders and other apparatus made.

CORRESPONDENCE.

SEAFORD, DEL., June 10th 1873.

Eds. Advertiser: A match game of base ball was played on the 30th ultimo by the Delaware, of Seaford, and the Academics, of Millford, on the grounds of the former, which resulted in a score of 17 to 14 in favor of the Millford club. The details of this game have never been given, and in justice has been done the Delaware who deservedly claim the championship of the State.

B. S. Horsey, the catcher of our club, who always plays in this position, was thrown from a carriage the day previous to the playing of the game, and was so badly injured as to be unable to play, and, in fact, was compelled to go to the hospital for a week afterwards. We were compelled to put an inexperienced player in the catcher's position, and out of seventeen runs made by the Academics, eight were made on passed balls. Had Mr. Horsey played with us, you might safely deduct those eight runs, and the game would, certainly, have been decided in favor of the Delaware club by 14 to 9, for there would have been no running on pass balls. Several of the Academics were heard to say that it was a lucky thing for them that Horsey could not play.

We don't propose to accept this game as a final decision, but we demand and expect satisfaction at no distant day in the future.

DELAWARE.

BARREN CREEK SPRINGS, June 4th, '73.

Messrs. Editors: Trusting your readers may have no serious objections to hearing from this obscure part of our county, I will endeavor to give them a slight purport of our proceedings.

From present prospects there will be very little corn raised in this neighborhood, or immediate vicinity; as the grub worm has destroyed nearly all the first planting.

The cool weather has greatly retarded the growth of vegetables.

The village sports for societies, viz: Odd Fellows, Sons of Temperance, Knights of Pythias, and Red Men, surely we are a benevolent people, but such contemplation of the "is of creation" does not appease female curiosity—when we ask our "gentle" how they have spent their evenings during the week, they tell us they have been in the company of the ladies, and ladies cannot be trusted with the keys, therefore we will content ourselves to stay home and fight antiquity.

Mr. A. G. Hitch, from near Laurel has moved here for the purpose of engaging in the carriage business. May success attend his efforts. Browne could die yesterday morning, aged 80 years.

May seem like distant longings for you, but that you are of these O dear ones, that wait the ripened fruit to seize the day.

Local Notices.

A Tarbo of beauty the Joy Forever.—This is the name of a new variety of strawberries, which is so long and gives such universal satisfaction, it is so handsome, and so durable, that people have not been able to get it in any quantity. We have now a splendid stock of these berries, and they are for sale at the residence of Mr. J. C. Hall, at 1115 Market street, between 5th and 6th streets, Philadelphia.

1873 Fruit Season 1873.

Extinction.

OF THE MODOCS!

The people must have ammunition in times of peace as well as in war. Call at the Extinction Store, and secure your tickets for Freehold & Peace supply on hand at reduced prices. Call, see the quality, hear the figures, and two words will close the bargain. L. W. DULANY, Proprietor.

TO THE LADIES.

New Millinery and Trimming Store, SALISBURY, MARYLAND.

The undersigned beg leave to call your attention to the line of goods they offer. By making careful efforts to please, together with modest charges, they hope to merit the patronage they solicit. Very Respectfully, SALLIE E. ELLIS, MARY J. MAGILL.

ATTENTION!!!

I hereby give notice to all whom it may concern that I have secured by deed from J. C. Tilton of Pittsburg, Pa., the patent right for the "Woman's Friend."
