## Drugs and Chemicals

ARE NEEDED EVERY DAY

### In the Kitchen

VANILLA, for ice cream, for instance;  
BAKING POWDER, for cakes.

One is a drug, of course; the other a "chemical," and there are still others—SPICES of all kinds, cream of tartar, etc.

The best place to get drugs is at a DRUG STORE. The druggist knows more about them than other people.

We keep a good Drug Store. Come and ask us about Kitchen Drugs.

## TO LESSEN DANGER.

Pennsylvania To Use Great Caution in Handling Combustibles. Stringent Rules Made.

The Pennsylvania Railroad Co., in order to reduce the danger of handling explosives to a minimum, has, after several months of consideration on the part of its transportation officials, formulated new and stringent rules for their shipment. One of the rules provides that not more than three cars with explosives may be handled in a train for through road movement. They must not be placed nearer to each other than five car lengths, and, if the length of train permits, a car with explosive must not be within 17 cars of the engine or within 10 cars of the caboose.

Only cars in good condition and of not less than 60,000 pounds' capacity may be used to carry common black powder, high explosives, smokeless powder, fulminates and great-gun ammunition. Before a car may be loaded with explosives an agent or inspector must examine it and sign a "certificate of inspection of car containing explosives" upon the prescribed form, and this certificate must also be signed by the shipper if he loads the shipment. Every car containing explosives must be labeled in large letters on both sides and both ends, "Explosives—Handle Carefully—Keep Fire Away," and must also have on both sides the certificate of inspection.

Cars containing explosives will not be hauled in any train carrying passengers. Whenever a train stops trainmen must examine all cars containing explosives. The cars at each end of the one containing explosives must not be loaded with oil, lumber or other inflammable material; with iron pipes or with other articles liable to break through the end of the car from rough handling.

## Safe Breakers Get 15 Years.

The case of The State vs. Frank Smith, alias Reese, Robert Taylor, alias John Pennell, Frank Matthews and James Hawkins was begun last Friday morning, September 28, with Judge Holland and Judge Lloyd on the bench, before the following well picked jury: Messrs. Samuel H. Carey, foreman; A. G. Hamblin, Jesse A. Simms, Geo. H. Larmore, Stephen P. Ellis, Daniel E. Parker, Dewitt J. Pryor, Louis C. Bounds, Arthur R. Leonard, U. W. Dickerson, John Lawrence, and Burton Bailey; 27 men having been challenged and 4 excused because of disqualification in choosing this jury.

This case continued through Friday and Saturday when the jury after hearing all the evidence and listening to the argument of Mr. J. L. Bailey for the State, Messrs. Elmer Walton and John H. Handy for Matthews and Hawkins and Messrs. Ellegood, Freney & Wallis for Smith and Taylor, reached a verdict of guilty after about fifteen minutes retirement.

Then the jury was discharged and Court adjourned until Monday. On Monday morning the prisoners were brought forth and before a full court room Judge Lloyd announced the solemn sentence of the court.

Avery, who plead guilty, Robert Taylor, Frank Smith, Frank Matthews, and James Hawkins, found guilty, each 15 years in the Maryland Penitentiary.

The prisoners were taken to Baltimore on the Virginia last Monday by Deputy Sheriff Frank Waller.

## A RARE TREAT

For The Music-Loving People Of Salisbury. Public Recital Of All The Music For The Great Christian Endeavor Convention.

Next Friday evening, October 13th, the people of Salisbury will be afforded the best opportunity for hearing good music that has been their privilege for many years. On the above date a public recital will be given in Ulman's Opera House, consisting of all the music to be rendered at the various sessions of the Christian Endeavor Convention. In order to hear all the music it would be necessary to attend every session of the Convention. This would be almost an impossibility. So in order that our town people may hear and appreciate the well deserved efforts of the musical people of Salisbury, this recital has been arranged for their pleasure. Since the early summer a chorus of about sixty ladies and gentlemen have been rehearsing one and two evenings every week. They have been working faithfully and untiringly. Now let us show them that this has not been in vain, but assure them by our presence next Friday evening that we appreciate the fruits of their efforts.

From careful investigations it has been found that the expenses of the Convention will be over three hundred dollars. This amount will have to be raised in some way, so it is thought that one way to meet a part of it could come by charging the small sum of twenty five cents for this recital. We would be receiving returns for our money and at the same time lightening the expense of the Convention. The tickets for the recital will be in the hands of some of the Junior Christian Endeavorers or can be obtained at the box office.

The program as arranged by the Music Committee is as follows:

Recital Of C. E. Convention Music. Programme.

Chorus—Damasus. Triumphant March from Naaman, by Costa.

Solo—The Heavenly Story, Hartwell Jones, Mrs. E. C. Fulton.

Chorus—Evening Hymn, Dudley Buck.

¶ Solo—Abide With Me, De Koven, William A. Sheppard.

Chorus—Sanctus and Benedictus, by Gounod, St. Cecilia.

Solo—Babylon, M. Watson, Mrs. Harry Hayman.

Male Quartette.—The Lord is my Shepherd, Kosebat, C. E. Laws, Wm. A. Sheppard, Herman Murrell, Fred P. Adkins.

Chorus—Recessional, DeKoven.

Solo—Selected, Raymond K. Truitt.

Chorus—Jubilate Deo, from Haydn's Creation.

Female Quartette—O Jesus, Thou Art Standing, Mrs. J. D. Williams, Mrs. E. T. Fowler, Mrs. J. D. Wallop, Mrs. Gardiner Spring.

Chorus—Home Sweet Home.

## Notice.

There will be services in Spring Hill Parish on Sunday next, October 7th, as follows:

Quantico, 10.30 a. m.; Spring Hill, 8.00 p. m. Marietta Springs, 7.30 p. m.

The Rev. Mr. England will celebrate the Holy Communion and preach D. V., in Saint Mary's Chapel, Tyskin, on Sunday morning next October 7th, at 10.30 o'clock.

## NOTES OF DELMAR.

Roundup of Yesterday's Delmar News. Tell Of Interesting Items From The Railroad Town.

—The oil stove will soon have to abdicate in favor of the kitchen range.

—Fine salt sprinkled on growing cabbage will destroy worms.

—Wheat bran is good for growing horses and young colts.

—Several Delmar ladies have been attending the millinery openings in Salisbury this week.

—Several new houses are in course of construction in town. Among those building new homes are Oscar L. Gordy, C. C. West, William Walker and others.

—The Wicomico County real estate transfers show that J. William Freney transferred to E. E. Freney, et al., interest in two lots in Delmar, consideration \$300.

—Preparations are being made to lay several pavements in town. They are badly needed in some places, and we have no doubt the people will appreciate them.

—Fall trade is now benefitting our merchants. Business is increasing as Fall goes on, and the ring of the storekeeper's money drawer is a familiar sound these days.

—The macadamized road between Georgetown and Laurel is only used by a small per cent of the farmers, as only a few of them have their horses shod. They drive on each side of the part of the road that is stoned.

—Our people are greatly interested in the present session of Court now convening at Georgetown. The license question is not expected to occupy the attention of the Court until the latter part of next week. The outcome of the case against George W. Gordy is also awaited with interest.

—All papers having a bearing on the license have been filed at Georgetown, and the result of the application is now being eagerly awaited. The anti saloon people have worked hard to secure signers for the remonstrance and they are awaiting the results of their labors.

John B. Parsons, President of the Philadelphia Rapid Transit Co., spent Sunday with Mr. and Mrs. D. H. Poakey. Mr. Parsons was here to visit his old home at Whitesville and the grave of his grandfather at Line M. E. Church.

—Some of our farmers, in gathering the fodder crop, saved the tops and left the blades, they being, as one farmer expressed it, "of no more value as food than brown paper," the frequent rain and hot sun having scalded all blades below the ear.

Norman Vesicles was arraigned before Justice W. A. C. Williams on Monday, charged with drunkenness and disorderly conduct on the streets Saturday night. He was found guilty and fined one dollar and costs, amounting to five dollars and fifty-five cents.

George Green was badly injured Saturday morning through being thrown against a tree by a runaway team he was driving. He was carried to his home, and medical aid was summoned. He remained unconscious for some time, however. The injuries were internal, and at this writing he is recovering rapidly.

Miss Edna Melson entertained Thursday evening in honor of Miss Beale Harper, of Hurlock, Md. Refreshments were served at 10 p. m. Those present were Misses Susie Hastings, Blanche Marvel, Ruth Webster, Daisy Culver, Beale Harper, Mr. and Mrs. T. B. Freney, Mr. and Mrs. A. H. Elliott, Mrs. W. F. Sirman, Messrs. C. Norman Jefferson, F. Raymond Shingle, S. H. Whayland, S. M. Yingling, Charles U. Culver.

The following have been appointed on committees for the coming Sunday School Convention to be held in Delmar. Committee on Entertainment; Z. H. Webster, Helen Lowe, Annie Stephens, Daisy Culver, Ruth Webster, Mrs. T. E. Hearn, Mrs. J. F. McCalla, Mrs. M. Stewart, Mrs. J. H. Tyre, Miss M. H. Siemons; Committee on Enrollment, Mrs. J. G. W. Ferdue, Mrs. J. M. Elliott, Mrs. J. H. Truitt, Mrs. Edwina Sirman, Mrs. W. A. C. Williams, Miss Zulu Hastings.

—An unusual number of real estate sales have been made on this peninsula this summer, possibly more than were ever before made in the same length of time. It is substantial evidence supporting the statements that have been made frequently; that the real worth of farming lands is beginning to be appreciated, and farming is rapidly becoming transformed from a laborious drudge to a scientific business of the first order. It is predicted, and not without reason, that improved farming lands will, in a few years, readily command seventy-five to one hundred and fifty dollars per acre and wise is the man who is putting his money into Sussex and Wicomico farming land.

## FALL MILLINERY

Openings Line Main Street This Week With Scores Of The Fairer Sex, Seeing And Buying.

R. E. Powell & Company's Fall Opening began on Thursday and continues until to-night. The store is handsomely decorated from top to bottom with a profusion of potted plants. Draperies and silk trimmings of the latest styles are hung about in a pleasing array. The harmonious blending of red and green color effects lend beauty to the scene.

A large line of millinery is on exhibition and a detailed description of three of the latest styles follows:

One of the very newest shapes made of black velvet edge of brim made of solid folds of black velvet, trimmed with a Bird of Paradise, old rose roses around crown and maline Pom Poms arranged on top and underneath, old rose roses.

A medium size hat perfectly plain of black velvet, trimmed with a flat velvet bow, across the front with a square ornament with three large lack plumes in back falling gracefully on the hair with black velvet ribbon bow underneath.

A large straight brim hat made of plain navy blue velvet, with a high chenille band arranged, very artistically trimmed on left side with two large navy blue plumes and rosettes of navy blue maline on top, and navy blue maline on band underneath.

The coat department was a place of great interest. The display on coats was the greatest they have ever had. Long loose coats of fancy plaids, shadow effects and plain blacks were on display and greatly admired.

In the dress goods department plaid silks and plaid woolen materials seem to be the leaders in styles.

Mrs. G. W. Taylor.

Mrs. G. W. Taylor's store was decorated with millinery goods of every description, showing one hundred handsomely trimmed hats. The principal shapes are the "Peter Pan" turban, the "Nell Gwynne" hat, the "Mushroom Shape," the "Rob Roy" soft hat and the "Westa Tilly" which are made in large black velvet hats, and will be quite a feature of the season.

The large head pins and buckles with Roman and plaid ribbons will be used on all swell walking hats. The velvet hats should be very smart and trimmer rather high in plumes and paradise. The leading colors are the myrtle greens, deep wine and the Bordeaux and browns in all shades; "old blue" and the new grey that is most admired is called "London Smoke". The widows were handsomely decorated with exclusive pattern hats, one in white felt shapes and one in black velvet hats.

Birkhead—Shockley.

The opening at Birkhead—Shockley Co.'s was a grand success. They do not carry millinery, but they made the most elaborate display of coats, dress goods, and shoes ever in the history of the store. The woolen fabrics were of tasty designs. It looked as though the most fastidious could choose a fine evening or street gown at a single glance. This is not the same old store it used to be anyhow; it is more attractive with goods and prices.

Lowenthal's.

Mr. Lowenthal had the most successful opening in the history of his store. They displayed a beautiful line of millinery, and notions. It only required a short while for the most careful customer to get what she was looking for, the display was so complete.

State Sunday-School Convention in Baltimore October 11 and 12.

There is every indication now that this will be the greatest Sunday School Convention in the history of the Association, and the Counties will undoubtedly play a large part in making it so.

There will be three sessions Thursday—morning, afternoon and evening—in both St. Mark's English Lutheran and Seventh Baptist Churches, and two sessions in each church Friday—morning and afternoon.

Noted Sunday School specialists will speak at all these sessions.

Friday evening there will be a Jubilee Mass Meeting at the Lyric Music Hall, at which the Obrian Endeavor Chorus of 300 voices, conducted by Mr. Richard A. Harris, will sing. Governor Warfield will present the diplomas to the graduates of the Teacher Training Classes of the State Sunday School Association, and Mr. Marion Lawrence will make an address.

For information regarding board during the Convention—or on any matter concerning it—address General Secretary George H. Nock, 36 N. Charles St., Baltimore.

—Wanted: Traveler for established house. Twelve dollars weekly to start. Expenses paid. References. Address George G. Clow, Salisbury, Md.

## COURT CONTINUED

Over From Last Week. Jury Sets Johnson Will Aside. Other Cases. Grand Jury Report.

The session of court since the disposition of the five convicted safe blowers has been almost entirely occupied with the Johnson Will Case, removed from Somerset County. Judges Holland and Lloyd on the bench.

The proceedings:

Monday.

The suit of John E. Gibbons vs. Scarborough Onley & Co., was taken up, and occupied all day Monday and Tuesday. The jury brought in a verdict for Gibbons for \$288.00. Miles & Stanford and Ellegood, Freney & Wallis were counsel for plaintiffs; Robley D. Jones and Toadvin & Bell for defendants.

Wednesday.

The Johnson will case, removed from Worcester county was taken up. Property valued at \$30,000 to \$40,000 is involved. The caveators were represented by Gordon Tull, Robert Moss and Ellegood, Freney & Wallis as counsels; the caveatees by Miles & Stanford and Toadvin & Bell.

The Grand Jury which was discharged Saturday made the following report to the Court:—

After a deliberation of three hours the Jury gave verdict to set aside Johnson's will, all his children to share alike, the widow retaining her lawful third.

The case was No. 38 Trials, Leland J. Johnson Alice C. Johnson, infants by Mary Johnson their mother and next friend, Caveators vs. Joshua F. Johnson, Mabel Johnson, his wife, Emma Johnson, Joshua F. Johnson, Elijah H. Hayman, Adams C. T. A. of Wilmer M. Johnson, dec'd and Wilmer F. Johnson, Parnell Johnson, infants by Joshua F. Johnson guardian, and Caveatees.

Lift Of Jmors.

Aebury O. Hamblin, Dan'l. E. Parker, Stephen T. Ellis, Levin T. Waller, Samuel H. Carey, Geo. E. Hearn, Geo. H. Larmore, Joshua Turner, Louis C. Bounds, Geo. Tighman, Harty T. Crawford, Anglo Venables.

Report of Grand Jury.

"A special committee was appointed by your foreman to visit and examine the Alms House and to ascertain the condition of the same and the inmates therein. The said committee reported that they found the premises and buildings in good condition, and that there were ten inmates, five white and five colored; that the condition of the building was clearly and that the premises were in fair condition; that the corn crop was an average one for the condition of the land; that they found six well fattened hogs, the property of the county, which will furnish enough meat to supply the needs of the Alms House for the year.

A special committee was likewise appointed to visit and examine the Court House and Jail. They found the Jail in good condition.

"We have examined about 80 witnesses and have endeavored to cover all kinds of violations of law in all sections of the county, and have found 28 true bills."

Addicks Calls A Convention.

Wilmington, Del.—A call for a State Convention of Union Republicans to be held in this city on October 9, was issued today by J. Edward Addicks Chairman of the Committee. It will consider the advisability, or nominating a full State ticket.

## FIRST SHORE TROLLEY

Contracted For. Line Will Run From Chestertown Through Georgetown. To Be Ready For Public By Xmas.

Work will begin soon on the first trolley line to be constructed on the Eastern Shore of Maryland. This line will connect Chestertown, Tolchester, Rock Hall, Sandy Bottom, Georgetown and Fairlee, and the cost of construction is estimated at \$500,000. The contract has been awarded to D. E. Baxter and Co., of New York, for the building of the line between Tolchester and Chestertown, touching Fairlee and Georgetown. This portion will cost about \$200,000, and it is expected to be in operation before Christmas. It will give residents of the Eastern Shore improved facilities for reaching Philadelphia, Wilmington and Baltimore.

The road will be built with 70-pound rails and overhead trolley. The passenger cars will be of the semi-converter type. The freight cars will have the same sort of trucks, with a box body. The powerhouse will be at Fairlee, and will be of sufficient horsepower to operate the whole system. The entire right of way for the road has been secured. The officers of the company are: Fred G. Usilton, president; Jefferson D. Bacchus, vice president and treasurer; and Alva A. Larkin, secretary and general manager. Steamboat lines will connect with the road at both Tolchester and Georgetown.

Maintenance Of Fast Schedule A Menace To Public Safety.

According to a prominent railroad man, the demand upon engineers to maintain a fast schedule is at the bottom of the wreck of the passenger trains on the P. B. and W. railroad on Saturday, and there may be some action to have the railroad give the men more time in which to get over the road.

Trains passing on the Pennsylvania every few minutes of the day are forced to travel at times as fast as seventy and seventy five miles an hour to keep even with their schedule. This in time causes engineers to become slack in obeying signals, passing the blocks and bringing their trains to a halt only upon the verge of a crash, so that as little time as possible will be lost in resuming their way. The engineers intend to petition the company to give them more running time.

Gasoline Must Stand Competition.

Several of our citizens are considering the question of organizing a company for the manufacture of denatured alcohol from our water products—small potatoes, cornstoks, wood sawdust, tomatoes, the refuse from the canneries, etc.

The alcohol will be used as a substitute for gasoline, and there will be a good home market for the product and an excellent outlet both by rail and by boat for any surplus that may be produced.

Nicholson—Ruark.

Mr. Walter Nicholson and Miss Lillie E. Ruark were married at the home of Mrs. Ella Matthews last Tuesday evening by Rev. W. S. Phillips. The bride wore Persian law of a handsome design. The groom was dressed in black. Miss Bessie Downing played the wedding music immediately after the ceremony in company proceeded to the home of the groom where a reception was held. Many valuable and useful presents were received by the couple.

Letter To W. J. Post.

Dear Sir: We shall feel obliged if you write us how you came out on your first few Jobs Devoe, as to gallons expected and used.

Take Job A. You made your price, expecting to use 25 gallons Devoe, and used 10. Job B. You expected to use 15 and used 10. And tell us what point you had used before.

Here's how a few came out. M. A. Thomas, painter, Lynchburg, Va., writes: My first job with Devoe, I estimated 80 gallons; it took 25. Since then I have used nothing else.

O. B. Edwards, Raleigh, N. C. had used 30 gallons paste paint on his house, and bought 30 gallons Devoe; E. Glenn, his painter, said it wouldn't be enough. Had 16 gallons left.

Mayor W. Carroll, Monticello, Florida, writes: Painter estimated 35 gallons for my house; took 30 gallons Devoe.

Gilmore & Davis Co, contractors and painters, Tallahassee, Florida, say two gallons Devoe spreads as far as three of any other paint they know, and covers better.

S. A. Bullard, painter, Sanford, Florida, estimated 50 gallons for Odd Fellows and Masonic Halls; they took 29 Devoe.

Jones & Rogers, Merkle, Texas, estimated 10 gallons Devoe for Mr. Pratt's house and bought five gallons for first coat; it painted two coats.

Erb-Springall Co, Sanantonio, Texas, painted two houses same size for D. J. Woodward, one lead and oil, the other Devoe. Devoe cost \$12 less for paint and labor.

Tom Massey's painter, Walnut Springs, Texas, estimated for his house 10 gallons Devoe; he had left.

You see how it goes. Even the best painters can't guess little enough at first.

Yours truly, F. W. Devoe & Co., The L. W. Gunby Co. sell our paint.

Don't Talk To Your Horse.

A horse who has always been made to obey quickly will respond to commands from anyone, whereas the creature who has been petted and talked to accords, unless hungry, scant attention to anyone.

We talk to horses altogether too much, and it is a silly and dangerous custom. "Whom!" should mean but one thing, and slip, slide or fall, should meet with instant obedience.

No other word should ever be used beyond possibly the order to "stand over" in the stall--although even that is best unsaid--except the "click" of the tongue for increased speed.

The animal's attention is kept if you are silent--he does not know what you will do next, and as he distrusts and merely tolerates, you even as he fears you his anxiety is always to find out what you wish done, or what move you will next make.

Rumor has started again that W. N. Bannard, superintendent of the Maryland division of the P. B. and W. railroad, was to be transferred to another division, and that John Buckalew was coming here in his place.

This, however was denied, at the local office, and as Mr. Bannard stated before that he knew nothing about any change it is not thought there is any truth in the report.

Things That Make Drunkards.

We can expect to make but little more advancement in the great battle for temperance until we recognize some of the immediate causes of intemperance.

Dr. Brunton, the eminent English physician, tells of a drunkard who complained because the temperance people were forever telling him about his drinking, but none of them told him how to get rid of the thirst that compelled him to drink.

What would we think if a farmer who spent his time trimming the tops of his troublesome weeds instead of pulling them up by the roots?

There is a cause for the drunkard's thirst, just as there is a cause for the fever patient's temperature. Divine Wit declares "The curse causeless shall not come."

Our high pressure life is developing a class of people with weak and sensitive nerves. The mucous membrane of the stomach is as delicate as the lining of the eyelid.

Many who are fed on veritable mustard plasters in the form of condiments and highly spiced food, have aroused within them a thirst that the town pump cannot quench.

And a certain number of these unfortunate mortals soon discover that the saloon keeper and the patent medicine vender dispense the stuff that satisfies the craving created at the table.

Frances Willard once said that the kitchen is often the vestibule to the saloon. When a boy's delicate nerves are irritated by a dietary composed of juicy breakfasts, doughy bread, and pastry mush, that is almost certain to ferment before it can be digested.

It is any wonder that he instinctively craves the temporary felicity of the cigarette or the paralyzing influence of alcohol? The mother who prepares such food for her boy is unconsciously the best friend of not only the cigarette dealer, but also of the saloon-keeper, for she is developing business for both of them.

How useless for her to implore Providence to deliver her boy from the curse of the cigarette and the liquor traffic while she is daily placing before him food that is most physiologically a demand for their effects, just as the eating of a large quantity of salt would develop in him a strong and almost irresistible desire to patronize the water bucket.

The Divine declaration, "Whatsoever a man soweth, that shall he also reap," is as unerring in its operations as is the law of gravitation.

Our experience in dealing with multitudes of drunkards in our Chicago Life Boat work has thoroughly convinced us that the partaking of an extensive variety of vile and indigestible foods, saturated with substances that blister, burn and sting as they are swallowed, that are added for the purpose of giving the palate a twist, also twists the nerves and even the temper and character, and almost drags the poor, struggling victim of the drink habit into the saloon as he passes its door.

We have not done our duty to these sad wrecks of humanity until we have shown them how to sow for temperance instead of intemperance, for the ax should be laid at the root of the tree. Feed such a man upon a simple nutritious, non-irritating dietary gathered from the lap of Nature and properly prepared and half the battle is already won.

Scientific cookery should be regarded as an important part of the education of our young people. Indeed, some one has said that cookery should rank high among the fine arts. Yet the enterprising business man who demands an accurate stenographer, a well-informed lawyer, and a discreet manager, is fully satisfied that the woman in his kitchen is a competent cook if she can flavor and put together half a dozen food ingredients so that they will satisfy his taste, even though she may have no intelligent conception as to whether they will build up or destroy the brain and other tissues.

Frequently children have the seeds of intemperance sown within them by being doped with patent medicines in their infancy. A widely-advertised soothing syrup, which has undoubtedly killed more children than Herod over slew, contains half a grain of morphia to every two ounces of the drug, and infants are particularly susceptible to the influence of narcotizing drugs.

It has been estimated that there are a million morphia and cocaine victims in this country. This is not surprising when so many children are introduced to the bewitching effect of these drugs even before they are old enough to ask for them.

Train up a child in the way he should go, and when he is old he will not depart from it," is just as true when the child is trained in wrong habits as when it is trained in correct ones.

THE LEADING EMPORIUM OF FASHION

Dr. Osborne, of Yale, in his paper read before the last meeting of the American Medical Association, mentioned one patent medicine firm that was reported to be using five hundred barrels of whiskey each week.

The idea that alcohol is a food is a highly-coated scientific sophistry which has furnished a desirable excuse for thousands of moderate drinkers. It is true that a small quantity of alcohol will burn or oxidize in the body, but it ruins the body while it is burning, just as a quantity of gunpowder could burn in a stove, but in it would blast it to pieces while it was burning.

Professor Kraepelin, of Heidelberg, Germany, one of the world's greatest authorities on experimental psychology, has recently made two thousand experiments with instruments of precision in which he has scientifically demonstrated that as small an amount as one-third of an ounce of alcohol will appreciably depress sight, hearing, feeling and the various mental operations.

The best men in the medical profession are beginning to recognize that genuine and permanent healing cannot be put up in bottles and bought and sold at so much an ounce, but that it is primarily the result of coming into harmony with Nature's laws and the intelligent use of such physiological remedies as exercise, air, proper food, hygienic measures, electricity and simple confidence in God.

The physician who intelligently and skillfully brings these influences to bear upon his patients uses less and less of drugs, and has the least use of all for the paralyzing influence of alcohol. --The Optimist.

Farm Life The Best.

Country life has its drawbacks, but it has its great advantages which overcome them. True, those who live in the country are "Rub's" and "Farmers" and "hayseeds" to the cigarette smokers in town, but the boast of business men in the world today is that they were born on a farm.

Take away the surrounding evils that beset the young men or women to the threshold of life's journey in the city, and substitute the helpful influence of nature, and you fortify them for the sterner walks in life. The few things which they do not know about table etiquette and when it is proper to leave two visiting cards and when but one, they will catch onto much quicker than city boys and girls learn to properly stroke the furnace or make good bread.

No boy or girl need be ashamed of living on the farm, for if they have taken advantage of what it has offered they are well fortified for after life.

MADE FROM NATIVE ROOTS. SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses.

The Indian never liked work so he wanted his squaw to get well as soon as possible that he might do the work and let him and therefore, he dug "papoose root" for her, for that was their great remedy for female weakness. Dr. Pierce uses the same root--called Blue Cohosh--in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women.

Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tender hearts of the lowest order, with their backsache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous cures in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time.

The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol or habit-forming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," and debilitated, especially for those who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strengthening power.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

**FAIR REPUTATIONS.**

By W. Peit Ridge.

"How do I look?" he demanded anxiously. "Coat collar, all right? Necktie not rucked up at the back? Just give me another brush down, will you? My dear," in answer to her protest, "you'd be fidgety if you'd got all the responsibility I've got to take on my shoulders to-day."

Labeler Goble, off duty and prepared to conduct his young wife and the members of his society, the alarms and excursions of the season over, to a town on the seacoast for a day's trip, ran to and fro seeing to back doors and windows, and not knowing whether or not he was fastening these. His young wife, cool and self-possessed, took opportunity to pin at the correct angle a hat which should, for me, be careful of heart of Railway Terrace miss; but and chasten the joy of other lady passengers on the station platform. This was the best of possessing a relative in service as lady's maid in a good quarter of town.

"And if I'm introduced to the general manager," Goble called up the stairs, "and, mind you, it's quite possible, why, if you're a very good girl, I may introduce you. And if I do, I must ask you, for goodness sake, to be restored by sensational, theatrical proceedings. It is the duty of the police to keep order during the entire year and to arrest violators of the law at all times, and not in sporadic instances. There are 365 days in a year to make arrests, and there is no need for nonsensical and theatrical shows with wagons and policemen on Saturday night. Such acts are spasmodic and do no real good in the work of reforming the people, and whoever is responsible is much to blame for a misuse of the police power."

**SPASMODIC RAIDS IN CITIES.**

We are familiar with spasmodic raids in cities, says the New York Sun. The police magistrates have had to protest time and again against the making of wholesale arrests based on insufficient evidence or no evidence at all of the sort that could stand examination in court. In discharging a lot of prisoners taken in on general principles a Philadelphia Judge said:

"Crime is not spasmodic, nor can order be restored by sensational, theatrical proceedings. It is the duty of the police to keep order during the entire year and to arrest violators of the law at all times, and not in sporadic instances. There are 365 days in a year to make arrests, and there is no need for nonsensical and theatrical shows with wagons and policemen on Saturday night. **THE INDIAN'S PREDICAMENT.**

The Indian is impoverished by means of the advantage taken of his inexperience in the matter of debts and interest, says the Pittsburg Gazette. A thousand means exist of fleecing him. It is notorious that he pays higher prices and higher interest than his white neighbor. If he and a white man both get drunk, the white man is privately taken home, while the Indian is arrested and fined. The Indians' ponies are conducted through an aperture in a fence into the white man's inclosure, and there impounded until the Indian pays a awful release charge upon each of them. The Indian is made to sign all manner of obligations. Every time he falls into a trap. When his land is once free, it will in some cases hardly pay his debts.

About his only chance in life is to marry his children to whites and thus acquire the keener qualities of that race for his offspring, even if these qualities are denied him.

**STOP THE SLAUGHTER.**

Attorney General Moody's action in bringing suit to punish violations by railroads of the Safety Appliance law has hearty public commendation, says the New York World.

In spite of the rapid adoption of safety measures by the better roads, the number of railroad employees killed rose from 1,623 in 1897 to 3,632, or more than double, in 1904. The total number killed by railroads rose from 6,437 to 10,046.

For every passenger killed in train accidents nine railroad men lose their lives, chiefly upon freight trains, and thirteen other persons are killed, usually by being struck at grade crossings. Such crossings are fast being changed by local action in the more progressive States.

**A HEALTHY OLD AGE**  
OFTEN THE BEST PART OF LIFE

Help for Women Passing Through Change of Life

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it is generally our own fault if we die prematurely.

Nervous exhaustion invites disease. This statement is the positive truth. When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation, and you cannot be crossed in anything, you are in danger; your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary L. Koehne, 371 Garfield Avenue, Chicago, Ill., writes: "I have used Lydia E. Pinkham's Vegetable Compound for years in my family and it never disappoints; so when I felt that I was nearing the change of life I commenced treatment with it. I took in all about six bottles and it did me a great deal of good. It stopped my dizzy spells, pain in my back and the headaches which I had suffered for months before taking the Compound. I feel that if it had not been for this great medicine for women that I should not have been alive to-day. It is splendid for women, old or young, and will surely cure all female disorders."

Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, of Lynn, Mass., invites all sick and ailing women to write her for advice. Her great experience is at their service, free of cost.

**MARRIAGE TRAINING SCHOOLS.**

One would infer that something is the matter with the institution of marriage, merely from the number of devices that are constantly coming to light to bolster it up—to prevent it from being a failure in so many instances. We have already described the Texas invention of a probationary marriage, which is said to have worked brilliantly in one case. New England has developed an idea which is like unto it. The Bishop of Ripon, Right Rev. William Boyd Carpenter, in a public address, said that he would like to see established a Training Home for Engaged Couples, where those about to be married should be taught carefully the responsible duties of maintaining a home and "getting along." The bishop expressed the opinion that if we prepared people for marriage with half the pains that we spend in making lawyers and doctors out of them, a vast amount of the trouble that married couples have with each other and with the world would be averted.

—Miss Kate Bratton, of New Hope, was operated on last Monday for appendicitis by Dr. Dick at the Peninsula General Hospital. She is improving.

—Captain Ross, of Mr. Vernon had the misfortune to have a tree fall on him the other day. He sustained some painful injuries, but is doing well now. Dr. Dick dressed his wounds at the Hospital.

—The Camden Realty Co., sold a 57x28 foot lot on Camden Boulevard opposite the lot owned by Mr. Graham Gunby to Mr. C. Herbert Chatham last Wednesday for \$800. Mr. Chatham will erect a handsome residence at once.

—The County Commissioners will receive bids for the grading and building of two miles of improved road in Nutter's District until 12 o'clock noon Oct. 23, the road to be built under state supervision. Notice will be given in this paper.

—There will be a large meeting in the E. A. C. Rooms on Dock Street Monday night, Oct. 8th at 8 o'clock. Much business of great importance will be disposed of, including the election of officers. All members are earnestly requested to be present.

—Mrs. Ethel L. Guthrie, wife of Mr. Ernest C. Guthrie, died last Monday in South Salisbury. She was 30 years old. Funeral services were conducted by Rev. Dr. Potts from the home of Mr. Ohas. Guthrie last Wednesday morning. The remains were placed in Parsons Cemetery.

—A young man of Parsons District drove in Salisbury last Thursday. After he had driven down Ghuroh, Division, Main and Camden Streets, finding them all a slush with mud, he remarked, "When I go home I think I shall follow Water Street to the Depot as it is the driest street in town."

—Miss Myra Waller left Tuesday for Washington, D. C., where she will take the post graduate course including a special course in music at Washington Seminary, Connecticut and Florida Avenue. She was accompanied by her father, Mr. James A. Waller.

—Mr. Geo. T. Murrell of Salisbury, died last Sunday at the home of his son-in-law, Mr. John Holiday in "California." Mr. Murrell was over 80 years old and is survived by a widow and one daughter. The funeral services were conducted by Rev. Dr. Potts from Trinity M. E. Church Tuesday afternoon. The remains were interred in Parsons Cemetery.

—At the meeting of the City Council Monday night the tax rate for the town was fixed at 45 cents on the \$100. The taxable basis is \$3,151,874.00 which will bring in a revenue of \$14,188.42. An ordinance was passed providing for the putting down of brick or cement pavements on Bush Street on both sides from High to Lemon. An ordinance is being prepared for the removal of all trees in all parts of the city outside the curb line. Several permits for building were granted.

—Owing to the fight between Captains and mates and the E. C. & A. and D. M. & V. Railways only four steamers called Thursday. They were: Steamer Tred Avon, Captain Stewart, for Oldborne; Steamer Love Point, Captain Cochrape for Love Point; Steamer Virginia, Captain Vasey, for Salisbury and the Nantuxcoke river; Steamer Maryland, Captain Howard, for Snow Hill, Crisfield and the Pocomoke river.

W The Baby is Cutting Teeth. Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

CASTORIA For Infants and Children. The Kind You Have Always Bought. Beware of cheap imitations.

Rundlett Unloads At Crisfield.

Schooner, E. T. Rundlett is unloading at Crisfield. After being demasted at sea some weeks ago, The Rundlett was towed to Norfolk and thence up the Wicomico River for Salisbury. She ran aground at the mouth of Wicomico Creek last Monday morning and remained aground for two days or more, when the owners decided to tow her to Crisfield and dispose of the cargo there. She will probably be sold after her cargo is landed if the owners can get a satisfactory price for her, if not she will be repaired at Sharptown. Mr. V. Perry and The W. B. Tlghman Co., are interested in the boat.

Unclaimed Letters.

Mr. A. W. Robinson Reaches Home After Serious Accident.

Albert W. Robinson, president of the Wicomico Lumber Company, who was seriously hurt in an automobile accident at Williamstown, N. C., on Thursday, September 21, arrived home Tuesday night. Mr. Robinson had three ribs and his shoulder blade broken and sustained a concussion of the brain. He remained unconscious for 30 hours. He came alone a distance of more than 300 miles and endured great suffering in order that he might reach home.

—Many from the Salisbury Lodge will attend the Institution of a Lodge of Elks at Crisfield on October 18th. A large banquet will be held, and Mr. R. H. Phillips, proprietor of the Peninsula Hotel, has been engaged to prepare and serve it. Mr. Phillips will also be host to the officials of the E. C. & A. and D. M. & V. Railroads on their annual tour of inspection, October 16 and 17th. This is the third year Mr. Phillips has catered to the officials and his continuance is proof of the "padding."

—Our streets are all in a slush, but we are going to have better highways soon. Most of the sewerage system has been laid by the Sweeten Co., according to contract, and the curbing is well underway on the lower end of Main Street and on Dock Street. Vitrified bricks are piled all along Main and Dock Streets. The old shells have been removed from Dock Street and it has been graded and rolled ready for the paving to begin. We expect to see the work move along quite rapidly from now on.

D' BULL'S COUGH SYRUP. Is not a patent medicine but a doctor's prescription. The Rev. Dr. J. W. Bull first prepared it. It is perfectly safe, cures a cough, croup, whooping cough, bronchitis, grippe and throat and lung troubles in the best. Price only 25c. It saves the doctor's fee and the druggist's prescription charge. Free Sample. Address A. C. Meyer & Co., Baltimore, Md.

PENNSYLVANIA RAILROAD. Schedule in effect May 27, 1906. Trains will leave Salisbury as follows: For Wilmington, Baltimore, Washington, Philadelphia and New York, 12:35, 7:30 A. M., 1:55, 8:07 P. To Men Of Good Clothes-Sense!

It is well worth while for us to set forth a plain statement of the facts about Ready-made Clothes. After you read it you can do, and probably will do, just as you please about it. But you'd better have the facts. It's foolish—and sometimes dangerous—to do just as you please, without having the facts.

You'll find in every large city a few custom tailors who make clothes really worth paying for. They charge \$50 to \$75 for a suit. They give you the best of quality, the best of tailoring, fit, style—these are the things you pay the extra money for. If you can afford to spend that much, go to such a tailor and spend it. Any man who doesn't need to worry about parting with \$50 or \$75 needn't worry about what he gets for it. But if you are going to spend less than that, spend a good deal less and wear Ready-made Clothing.

We know what some of you will say: "I tried ready made clothes once. Not for me. They may do for some, but I can't be fitted. There's no style to 'em!" In other words, you don't know the facts—and you're losing money by your ignorance. The fact is, if you haven't tried Lacy Thoroughgood's clothes, you don't know of the real progress in making men's clothes. As for style, many custom tailors get their ideas from ready-made clothes. Our lowest priced suit has the same style as our best. As for fit, there's not one man in a hundred who can't be perfectly fitted from Lacy Thoroughgood's stock of clothes without delay—tall, short, thick, thin—men of all types. You'll find it out some day, if you don't already know it. Just try me once.

Lacy Thoroughgood SALISBURY, MD. James Thoroughgood.

**RAMON'S BROWNIE CALENDAR.**

One Of The Handsomest 1907 Calendars Gotten Out For The Year.

The Ramon's Brownie Calendar of for 1907 is almost an education within itself, containing a vast amount of useful information. This Calendar consists of twelve pages, 12x19 inches, handsomely printed in three colors on best paper. One inch figures show the days so plainly as to be easily read across the largest room. Holidays are in red. Changes of the moon, weather conditions, length of days, church festive days, signs of the zodiac, and much other useful knowledge. This beautiful Calendar usually sells for ten cents and will be mailed on receipt of stamps direct from Brown Mfg. Co. Greenville, Tenn. Ask your druggist and he will tell you how to get one free. Dr. Ellegood.

French horticulturists have apparently been very successful of late in raising dwarf trees, and one of the features of dinner parties among the rich now is to serve the fruit upon the tree.

Wounds, Bruises And Burns.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by C. L. Dickerson and G. Hearne.

Movable scenery was first used in theaters in 1608. It was invented by Baldassare Peruzzi, and displayed in Rome before Leo X.

A Bad Complexion.

comes from bad blood. Pimples on the face, Acne, Liver Spots, Sallow Skin, dark rings about the eyes, sick headache, pale, worn-out looks, dizziness, will all disappear if you take a treatment of Ramon's Liver Pills and Tonic Pellets, for sale at Dr. Ellegood and put your blood in good condition. This Treatment does not force things—the Pill touches the Liver, purges it to action; the Pellet, following, purely vegetable, strengthens and aids the bowels and digestive organs. Beware of violent purgatives. Ask for Ramon's—it is the only common Treatment put up in this way on the market. Entire Treatment, 25 cents.

The Swiss are the hotel keepers of Europe. Various Swiss syndicates are running civilized hotels in all the places where the multitudes go.

To Judge A Remedy.

you must know its father and mother and understand the reason for its existence. Ramon's Liver Pills and Tonic Pellets, a treatment for Sick Headache, Dizziness, Pains in the Side, Constipation, and Biliousness is based on the formula of one of the greatest physicians ever known. Your leading druggist, Dr. Ellegood, will guarantee Ramon's Liver Pills and Tonic Pellets to cure sick headache, or refund your money. Whole treatment 25 cents.

The most awful accident in history was the fall of a Roman amphitheater in the time of Tiberius. Fifty thousand people were crushed.

Torments Of Tetter And Eczema Allevied.

The intense itching characteristic of eczema, tetter and like skin diseases is instantly allayed by applying Chamberlain's Salve and many severe cases have been permanently cured by its use. For sale by C. L. Dickerson and G. Hearne.

The whaling industry of New York Islands was practically a failure in 1905, the catch numbering only eight whales.

An Awful Cough Cured.

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one of the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Bussard, Hrubaker, Ill. This remedy is for sale by C. L. Dickerson and G. Hearne.

In the land of Melukkah, or median, are old mines in which mining tools of the date 500 B. C. have been found.

Nothing To Fear.

Mothers need have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones, as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but is a medicine of great worth and merit. It has a world wide reputation for its cures of coughs, colds and croup and can always be relied upon. For sale by C. L. Dickerson and G. Hearne.

**THE FISHER'S COTTAGE.**

We sat by the fisher's cottage,  
And looked at the stormy tide;  
The evening mist came rising,  
And floating far and wide.

One by one in the lighthouse  
The lamps shone out on high:  
And far on the dim horizon  
A ship went sailing by.

We spoke of stork and shipwreck—  
Of sailors' lives and their lives;  
Of journeys' twist and water,  
And the sorrow and joys they give.

We spoke of distant countries,  
In regions strange and fair,  
And of the wondrous beings  
And curious customs there;

Of performed lamps on the Ganges,  
Which are launched in the twilight hour;  
And the dark and silent Brahmins,  
Who worship the lotus flower.

Of the wretched dwarfs of Lapland—  
Broad-headed, wide-mouthed and small—  
Who crouch round their oil fires, cooking,  
And chatter and scream and bawl.

And the maidens earnestly listened,  
Till at last we spoke no more:  
The ship like a shadow had vanished,  
And darkness fell deep on the shore.

"ON THE WAR PATH"

At Next Year's Exposition; And A Partial Review Of The Sights To Be Seen There.

By Elias E. Snyder.

Chicago had her "Midway," St. Louis her "Plaza," Portland her "Trall," and the Jamestown Exposition which will be held on the shores of Hampton Roads near Norfolk, Va., in 1907, will have a "War Path."

The War Path occupies a beautiful space fronting upon the military parade ground and is 1388 feet long by 780 feet in width. There are two parallel streets separated by a central block on both sides of which are concessions thus making a total frontage of more than a mile including the bazaars at either end.

A miniature elevated railroad runs along three sides of the War Path affording rapid and cheap transportation as well as a charming and comprehensive view of the great city of mirth.

The main entrance is flanked by the American and the Oriental bazaars which open upon a plaza 175 feet wide by 700 feet in length on all sides of which will be hanging gardens.

There will be, of course, a scenic railway, a shoot the chutes and other familiar amusements, but for the most part the concessions will be new and many of them sensational.

Among the good things thus far secured are "Paul Revere's Ride," "The Destruction of San Francisco," "The Palace of History," "The Battle between the Monitor and the Merrimac," "The Haunted Castle," "The Pyramids of Egypt," "The Swiss Village," "The Garden of Old Japan."

There will be also a number of unique musical attractions to vary the spectacular program and some panoramic concessions almost stupendous. The War Path will be at its best at night when the light effects will make it a veritable dream land of brilliancy and beauty.

"Meet me on the War Path" will be the slogan of all exposition visitors in 1907.

HERE'S WHAT'S WANTED.

A Citizen Of Salisbury Supplies The Information.

A Citizen of Salisbury Supplies the Information.

Over half the complaints of mankind originate with the kidneys.

A slight touch of backache at first. Twinges and shooting pains in the loins follow. They must be checked, they lead to graver complications.

The sufferer seeks relief. Plasters are tried, and liniments for the back.

So called kidney cures which do not cure.

The long looked for result seems unattainable.

If you suffer, do you want relief? Follow the plan adopted by this Salisbury citizen.

J. T. Hazman, bookkeeper, residing at the corner of Chestnut and Park Streets, says: "Having been afflicted for some time with an aching in the small of my back and other troubles which indicated disordered kidneys, I tried a box of Doan's Kidney Pills from White and Leonard's Drug-Store and finding that they gave me great relief, I continued taking them and I consider my condition much improved."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

POWELLVILLE.

The oyster supper, conducted by the public school teachers of this place last Saturday evening was a fine success. We are glad to learn our teachers are exceedingly popular with the little folks.

Last Tuesday evening 2nd, ulto, at the M. E. Parsonage Mr. Ramond C. Davis of Whiton, Md., and Miss Sara Ann Clark, of Powellville, were quietly married by Rev. J. W. Gray. They will make Whiton, Md. their future home.

Mr. Geo. S. Johnson is yet confined to his room, but is reported by his physician, Dr. Holland, to be on the safe road to health. Dr. deserves much praise for his success not only in this case, one very difficult and complicated, but many other cases of typhoid which he has treated successfully.

Our old friend, John W. Kelly, we are glad to report, is much better in health.

The meeting at Willards is yet in progress but owing to bad weather the meetings haven't resulted in any great success. The meetings are well attended, good behaviour and two conversions to date. Last evening six held up their hands for prayers.

Preaching this Sabbath as follows: Mt. Pleasant, 10.30 a. m., subject "The Twelve Gaita. Wango, 3.00 p. m., Subject, "Future Recognition of Friends in Heaven." Willards 3.30 subject "Future Punishment of the Wicked."

ZION.

Sickness continues to some extent in the neighborhood.

Mrs. James Pollitt is now sick in the Hospital at Salisbury of typhoid.

There will be pretty fair crops of corn and fodder in the neighborhood notwithstanding the heavy rains of the summer.

Protracted meeting is now in progress at Zion M. E. Church conducted by Rev. W. W. White, the pastor.

Services on Fruitland charge will take place tomorrow as follows: Fruitland, Rally Day Service, 10.30 a. m. Siloam, Preaching by Rev. E. W. Simms at 1.30 a. m. Zion preaching, 7.30 p. m.

HEBRON.

The friends and members of Royal Oaks M. P. Church will hold an oyster supper on October 13th, if stormy on Monday night following.

N. V. Cossabon, Pastor.

Experimental Corn Breeding.

Dover.—Experiments in corn breeding and the raising of superior corn crops have been carried on this year in various parts of the State with most satisfactory and pleasing results. Former County Commissioner Charles Fosles, of this county living between Milford and Dover, is now exhibiting a bushel of ears of his own raising from a special quality of seed corn for which he paid \$2 the shelled bushel. The seed was selected with great care and the yield is more than fully commensurate with the care and cost. The field has grown ears nearly a foot long, splendidly uniform and with grains extra hard, symmetrical and deep-set.

County Sunday School Convention.

The Fifteenth Annual Convention of the Sussex County Sunday School Association will be held in the M. E. Church, at Delmar, on Monday and Tuesday, October 26th and 27th.

In addition to prominent State and County workers, the Program Committee have been so fortunate as to secure Mr. W. A. Duncan, of Syracuse, N. Y., the founder of the Home Department work, and also Mr. F. W. Lange, of Philadelphia, Delaware's former General Secretary.

## DEATH OF MR. BENJAMIN WELCOME TO THE STATE CHRISTIAN ENDEAVORERS

Who Assemble From Every Point Of Maryland And Make Their Home In Salisbury Next Week. Preparations To Receive Them.

The Advertiser on behalf of the people of Salisbury extends a most hearty welcome to the Christian Endeavorers who assemble here in State Convention from all quarters of Maryland next week. Three hundred and forty delegates have written that they were coming. A special train on the B. O. & A. will bring Western Marylanders in a bunch Monday evening, reaching Salisbury at nine. From there they will be conveyed to the Presbyterian Church and assigned to their homes.

The Sunday Schools of the Presbyterian and Methodist Protestant Churches, the Masonic Temple and Ulman's Opera House, are being decorated in the colors of the Association.

On Wednesday evening a banquet will be given to the officers and speakers in the Masonic Temple.

Thursday afternoon a trip to Ocean City is scheduled; a special train leaving Salisbury at two and returning, leave Ocean City at 4.30.

Thursday evening will be informal altogether—the camp fire occasion.

President and director of the Salisbury Electric Light, Heat and Power Company.

Vice president and director of the Salisbury Water Company.

Vice president and director of the People's National Bank of Salisbury.

Director and examiner of the Wicomico Building and Loan Association of Salisbury.

Vice president and director of the Eastern Light and Fuel Company, of Easton.

Director of the Sinepuxent Bridge Company.

Member of the building commission which erected the new high school building of Salisbury.

A member of the first commission to look into the paving of the streets of Salisbury.

Member of the Board of Election Supervisors for Wicomico county.

Elder in the Wicomico Presbyterian Church. Clerk of the Eldership, member of the financial committee and teacher of the men's Bible Class.

Director and Treasurer in the board of the Home for the Aged in Salisbury.

He was former president and was instrumental in building the Salisbury Telephone Company, afterward purchased by the Bell Telephone Company.

Mr. Benjamin was born in Perryville, Cecil county on July 31, 1848. He assumed his first position as war telegraph operator at the old Wooden Bridge Station, over the Susquehanna River in 1862. After the war he went to Chester, Pa., as an operator for the P. W. & B. Ry. He held this position until 1868 when he came to Salisbury and took a position with the old Eastern Shore Railroad Company, and was agent at this place until 1883. He then moved to Georgetown and was Auditor of the Delaware, Maryland and Virginia Railroad until 1884. His next position was agent at Chester for the Baltimore and Ohio, on the completion of their Philadelphia branch. While there Mr. Benjamin was severely injured by the explosion of an engine at the station, his heart being knocked out of place, and for many years he had been subject to heart trouble.

He returned to Salisbury in 1888, when the Baltimore and Eastern Shore railroad was started, and took charge as superintendent of the old Wicomico and Pocomoke railroad, which was absorbed by the Baltimore and Eastern Shore. He took an important part in the building of the Baltimore and Eastern Shore road and was made superintendent on its completion. He had held this position continuously ever since, being connected with Capt. Willard Thomson during the receivership of that road and after its absorption by the Baltimore, Chesapeake and Atlantic Company. When the Maryland, Delaware and Virginia Company was formed he was made superintendent of that system also. He was a man of large influence in his community and was identified with every movement of progress in the city for the last 25 years.

Mr. Benjamin leaves a widow and three children—Mrs. Hugh J. Phillips of Washington, D. C., Mrs. Douglass Wallop, of this city, and Mr. Alan F. Benjamin, of Laurel. Miss. Mr. Benjamin leaves a very comfortable estate, valued at probably \$25,000. He owned considerable real estate in Salisbury and was a great believer in the future of the town.

His funeral will take place at three o'clock in the Wicomico Presbyterian Church Sunday. Interment will be made in the church yard. His death is a very hard blow to Salisbury.

## WAS IN HIGH ESTEEM.

Salisbury Held Mr. A. J. Benjamin As One Of Her Worthiest Citizens. Tributes Of Regard In This City.

The sudden death of Mr. A. J. Benjamin Thursday produced a profound feeling of deep sorrow in this city. Many were the expressions of sympathy and regard from his friends here. Among which the following will show the high regard felt for him by his associates:—

### Chas. R. Disharoon.

No one outside of his family and near business associates will understand the loss to a community, that a man like Benjamin's build is. Generally regarded in his views, yet in matters of can't be too firm and absolutely thus. He was a most congenial and obliging in the "ties of his business life he made many close friends, who the better they knew him, appreciated him the more. Salisbury loses one of its most valuable citizens, but his useful example remains for others to emulate.

### L. W. Gumbly.

I can scarcely write for I feel so grieved at the sudden death of my friend and co-worker and the great loss to his dear family, the city—particularly the young men—the church, the State. His untiring services and unselfish life will ever be remembered. To know him was to respect, esteem and love. He was most courteous and gentle, a most congenial companion. A man who had carried the burden in the heat of the day and multiplied most commendably the talents given him. A man of broad experience and conservative judgment with good will and charity to all. He was a wonderfully busy man always on schedule time. But his selfish engagements were never too many. His broad executive ability, a strong energy to dispose of, and ever ready and willing to assume new responsibilities for the betterment of his fellow man, both materially and spiritually. Such an exemplary life is an object lesson to us all to emulate. In body he is removed from our sight, but his beautiful life shall ever be fresh in our memory, not only in memory—"But do ye likewise."

We did not have to wait for Mr. Albert J. Benjamin to be taken from us to eulogize his sterling worth and Christian integrity; for whilst with us he was ever sought for in consultation and advice in business matters, public enterprises, charity, church and all moral work—never turning aside such appeals, but giving the matter his personal help. What greater compliment could be proffered any one whilst living than this.

I sorely feel the loss of our dear friend. But our loss is his gain. He was ripe for the call.

As Superintendent of the Sunday School of which he was a most faithful teacher, of one of the Bible classes, will miss him; his many considerations and tokens of love there, we will ever cherish.

About seventeen hours before his death I was talking to him about our Rally Day Exercises for this Sunday. We agreed on certain things to do. I thought he would be out and help in the exercises. But No. God will otherwise. His body will be in the church in the afternoon for burial service. We cry unto the Lord in our trouble. He will deliver us out of distress. His successful and beautiful life will ever be fresh in my memory.

### John D. Williams.

Please don't ask me about Mr. Benjamin; his death so sudden and unexpected was to me such a shock I can hardly myself. He was as true as steel and all that was noble and good, and we who knew him best loved him the most. You could pin your faith in every word he uttered, feeling absolutely sure there would be no deception, no misunderstanding. Miss him! Of course I will, almost every minute; who indeed that knew him will not? Can his place in this community be filled? I don't think so.

### Wm. M. Cooper.

Anything I may say would but feebly express the sense of loss I feel the community at large has sustained in the death of Mr. Benjamin. His usefulness had grown with his years. In all relations of life he promptly met every demand with a conscientious but cheerful regard for the obligations imposed upon him, and every trust was performed with calm and deliberation.

## CLOSE OF COURT.

September Term Adjourned On Saturday. Cases Disposed Of.

Circuit Court for Wicomico County closed business last Saturday. The closing cases of September term continued from last week:

Friday morning the case of Wm. A. Sterling vs. John Giddy, removed from Somerset county was taken up. This was a suit for slander, the plaintiff claiming \$5,000 damages. The jury Friday afternoon brought in a verdict for the defendant. Counsel for plaintiff were Melvin and Handy and H. J. Waters; for defendant, Miles and Stantord, C. P. Lanford.

The damage suit against Somerset county, docketed in this Court, was on Friday removed to Dorchester county.

Friday afternoon Judge Holland discharged the Petit Jurors.

Saturday morning two cases were disposed of by the Court—Nos. 4 and 5, Criminal Presentments, State vs. Mowbray Highland, indicted for larceny and receiving stolen goods.

Court paroled the prisoner for two years, he having already served four or five months in jail here.

This closed the business for the September Term. Judge Holland left Monday for Princess Anne to preside at the Somerset Court.

## KNOCKED OVERBOARD.

Commander Of Schooner Loses His Life In A Fight.

A dispatch to the Baltimore News dated Oct. 9, from Elkton, Md., says: Capt. Joseph Hilton of the schooner Golden Light, bound from Atlantic City, N. J., to Salisbury, Md., was knocked overboard in Elk River yesterday afternoon and drowned. The R. Wilcraft of Philadelphia and Robert R. Ryall, of Salisbury are in jail here charged with murdering the Captain. The two accused men surrendered to the authorities, giving the first news that was received of the affair.

According to the story told by Ryall, he was accused of larceny by the Captain and a fight ensued. Wilcraft came to the assistance of Ryall and was stabbed by Captain Hilton. The Captain was then knocked overboard though Ryall says he did not see the blow. After the Captain went overboard the two men, who composed the crew of the schooner, ran the vessel ashore, went to Northeast and gave themselves up. Wilcraft refuses to make any statement of the tragedy. He is 35 years old, while Ryall is 20. Hilton was 35 years old and was a resident of Pleasantville, N. J.

## Happenings At The Court House.

County Commissioners met last Tuesday. All members present. Mr. Larnore reported having sold the locust trees on the public road below Royal Oaks to Mr. Elisha Owens at \$2 each.

The Board agreed to have Surveyor Shookley survey and lay out the county road at Fook's mill and authorized him to survey and make an estimate of the cost of grading a part of the county road near Mr. Stanford Calver's residence.

Mr. Langral was given an order to dig wells along the county road in the valley near Hebron for the purpose of draining the roads.

—Richard P. Jones, colored, died last Saturday of diabetes at his home on E. Church St. He is survived by a wife and one child. By hard work and saving he has accumulated property to the value of \$4000 or \$5000. He joined the Union Army during the Civil War and lost one arm. He has received a pension for several years past.

## The School Board Meets.

The matter of adjusting the grading in the Oak Grove, Pine Grove and Nanticoke Schools was taken up by the school Board at their meeting yesterday. The matter was referred to Commissioner Brewington and Examiner H. C. Bonds.

Mr. Albert Bonds was given the scholarship to Maryland Agriculture College made vacant by the resignation of Wilson W. Nicholson.

## Miss Jennie Bonds assistant of the Quantico School has resigned.

The School Board passed an order yesterday that in case of the death of an immediate relative of a teacher, or in case of a death in the family where the teacher is boarding he or she is allowed to close school for a period not exceeding three days, without any loss of salary. Heretofore teachers have been allowed to close their schools only for three days, personal sickness in a term, without having their salary cut.

Letter to J. A. Jones & Co.
Salisbury, Md.
Dear Sir: Our agent ought to sell nine-tenths of the paint of his town and region; no use to try for the other tenth. The protection of men, who won't take good advice, and use the least gallons paint, is about one in ten among even owners of houses and stores and shops and barns and fences. One man in ten will buy a gold brick or green goods. If he has the money and gets a good chance. Devote to \$1.75 a gallon is better than gold; adulterated and short-measure paints are green goods and gold bricks. Devote saves half, more or less, of the labor and wages of painting; it is all paint; full strength and full measure. There is no other such paint within ten per cent. Ten per cent of labor and paint is worth saving; and ten is the least. There are scores of paints that throw away half of both gallons and labor on whitening, china-clay, ground stone, barytes benzine, water—all they are good for is to make gallons of nothing and look like paint in the can; more gallons to buy and more gallons to pay for putting-on—gold bricks and green goods. Here's how they work. Judge I. D. Fairchild owns two houses exactly alike in Lufkin, Texas. J. H. Torrence painted both houses; one Devote, 15 1/2 gallons; the other with another paint sold at same price; 25 gallons. That 25 gallons paint is weak and 15 per cent whitening; that's why it took 9 1/2 gallons more.

Yours truly

—J. Hudson Taylor tells of a young Christian who had received Christ as his Savior, but who said to the missionary that he would wait until he learned more about Him before making a public confession. "Well," said Mr. Taylor, "I have a question to ask you. When you light a candle, do you light it to make the candle more comfortable?" "Certainly not," said the other, "but in order that it may give more light." "When it has half burnt down do you expect that it will first become useful?" "No, as soon as I light it." "Very well," said the missionary promptly, "so thou art to do likewise; begin at once."

SUFFERED AGONIES FOR FOUR YEARS
Whole Foot Nothing But Proud Flesh—Tried Different Physicians and All Kinds of Ointments—Could Walk Only With Crutches—Ohio Man Says:
To the Glory of God in Loving Memory of JERRY MCAULEY. Built A. D. 1906. For Mission Work, By Marie and Bradford Le Gilbert.
Just above the little organ are porcelain letters forming the promise, "Follow me, and I will make you fishers of men." That same organ has already had a baptism which may well consecrate it for the work to which it is pledged. Mrs. E. M. Whitmore, founder of the Door of Hope Mission, held a fair thirty years ago, and bought that organ with the proceeds, installing it in the Water Street Mission. Later, it was used for a while in the Cremorne Mission; then at Hoboken, in a Mission which the Gilberts established and finally in a mountain mission which they started near their former summer home. The little boat carries "Old Glory" above her deck, but she sails under a flag still more revered, the "blue button" flag presented by the Water Street boys, which bears the white cross of Christ upon a blue ground, the same insignia which, every true Water Street Mission convert wears as a button upon his coat lapel. On Labor Day, at noon, the Jerry McAuley was launched: Mr. and Mrs. Gilbert, Mr. and Mrs. Sidney Whitmore, Mr. John H. Wyburn, superintendent of the McAuley Mission, with many of his "boys" and other friends being present. As the boat's keel struck the water, Mrs. Gilbert broke a bottle of delicate perfume upon the prow, saying: "I christen you

"CUTICURA REMEDIES THE BEST ON EARTH"
In the year 1899 the side of my right foot was cut off from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. When he found out that wouldn't work, he began trying to heal the wound with all kinds of ointment, until at last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. It is sixteen months ago since using Cuticura Soap and Ointment for my limb and foot. The first two months the Cuticura Remedies did not seem to work, but I kept on using them both. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day and kept it up for seven months, when my limb was healed up just the same as if I never had trouble. "It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day, after five years of suffering. The cost of Cuticura Ointment and Soap was only \$6; but the doctors' bills were more like \$600. You can publish my name and refer any one to write to me about Cuticura Remedies. I will answer all letters if postage is enclosed. John M. Lloyd, 718 S. Arch Ave., Alliance, Ohio, June 27, 1905."

The Jerry McAuley Mission Boat.
Almost forty years ago, a missionary of Jesus Christ was climbing the stairs of a miserable tenement house in lower New York. Meeting a quarrelsome woman who disputed his passage, he gently asked, "Madam do you know Jesus?" Upon the floor of a room a few feet away, there lay a young man just aroused from a drunken sleep. He heard the question, and it recalled the name he had once loved, now almost forgotten. Pulling himself together he accosted the missionary, saying: "I used to know that name in prison long ago but I lost Him. I wish I knew where to find Him." Four years from that day, the reformed drunkard and ex-convict opened the famous Water Street Mission, better known to every Christian worker throughout these United States, and in every corner of the world where the name of Christ is known and honored, as the old Jerry McAuley Water Street Mission, where thousands of fallen, degraded men and women have been helped to help themselves, in His Name.

Human Drama in San Francisco.
Besides much inevitable suffering the situation develops a tragic side. Always when calamity interferes with established order, the beast crops out in man, and that San Francisco escaped rapine, incendiarism, assault and robbery is due to the inflexible administration of martial law. Not only were looters shot at sight, says Herman Whitaker in Harpers' Weekly, but all others who persisted in defying authority or in any way molesting the peace of the people. The following case is a typical example: Out toward North Beach a refuge camp was situated at the foot of some cliffs, which fact suggested to some Barbary Coast hoodlums the amiable sports of rolling rocks down upon the women and children gathered there. Warned by the sentry on duty, one man dared him to fire. The word had hardly passed his lips before a bullet took him through the heart. There was no more rock-rolling. The soldiers, nevertheless, knew how to be kind. They shared their rations with starving men and gave out their tents to women and children. They stood between the people and the would-be extortionists, confiscating the stocks of marauders who unduly raised prices. An instance of this was related to me by an eye-witness. In one of the relief camps a sergeant heard an aged woman say that she had been asked 75 cents for a loaf of bread that morning. "What!" he exclaimed, and upon her repeating her statement he marched a squad of men to the store she showed him and began to distribute the stock among the crowd. "But these are my things!" the grocer protested. "You charged this woman 75 cents for a loaf of bread," the sergeant replied. "But I can charge what I like," the grocer protested. Get out of my store!" without answering, the soldier went on distributing the stores until the angry man laid a hand on his shoulder, then he turned. "Do you think we are joking?" he asked the man. Then turning to his men he said: "take him out." They shot him against the walls of his own store.

All proposals must be made on the regular forms furnished by the State Geological Survey Commission, to be obtained through the office of the County Commissioners. Bids otherwise made out will not be received. All contracts for State Highway construction are subject by law to the approval of the State Geological Survey Commission and must be approved before they can be executed. The work to be done includes the grading and macadamizing of about two miles of road to be built under State supervision, according to the plans and specifications on file at the office of the County Commissioners at Salisbury, Maryland. All proposals must be accompanied by a certified check for two hundred dollars (\$200), payable to the County Commissioners of Wicomico County, which will be returned unless the successful bidder fails to execute a contract, in which case the check will become the property of the county. The County Commissioners reserve the right to reject any or all bids. By Order of the Board: JESSE D. PRIORE, Clerk. Salisbury, Md., October 1, 1906.

NOTICE.
This is to give notice that the Board of Election Supervisors for Wicomico County have selected W. H. Simms, of Rep. Trappe District, No. 7, as Election Clerk in place of Clifford G. Cooper, resigned. By order of the Board, D. LEE GILLES, Clerk.

**The Imprudence of Percy Preston.**

"That was a near thing. I only just escaped!" Percy Preston exclaimed, as he and his partner swerved quickly to the right just in time to avoid a collision.

It was the last Sunday at Prince's, and the skating rink was crowded with eager skaters, who flew along the ice to the entrancing strains of the Blue Hungarian band.

"Who's that girl?" asked a man who was watching, "this particular couple with keen interest. 'Nobody seems to know much about her.'"

"Chatterbox Hartop brought her, I think; he's not generally over particular, but she must be somebody, or Preston wouldn't be seen with her every Sunday like this!" replied his companion. "He's not to be caught napping. By Jove! she is handsome, though. Look, they are coming round!"

The couple flew past like a flash of lightning, and were lost among the crowd again.

"It's the last Sunday!" she exclaimed.

"Yes, it has been ripping meeting you like this. I never thought we should become such pals, you know!" Percy Preston answered, letting his eyelids drop from his eye. "I say, I'd like to see more of you. How is it we never meet at the same houses?"

"I don't know the same people as you do," she replied, "and I'm always so much engaged."

"I get so beastly bored with them all," he continued; "you seem different, somehow."

"I suppose you don't associate with many people outside your own set?" she asked.

"No, one never knows what dreadful people may claim one's acquaintance, if one isn't particular. Shall we retrace our steps?"

"I think it's better to take people for what they are and not who they are," she exclaimed, and he did not see the sneer on her face. He was too busy steering them safely along.

"That's all very well in theory, but it doesn't work," he answered. "Society won't stand that sort of thing. A fellow must think of appearances."

"The opinion of the world is a matter of such high importance, isn't it?"

He did not detect the sarcasm in her tone. He was not endowed with too much wit.

"I am not really like that, though," he hastened to assure her. "Once I like a person, I'd stick to them through thick and thin."

The band was playing one of Strauss's waltzes. Percy Preston felt almost romantic.

"Where are you going to-morrow?" he asked eagerly. She hesitated a moment, then gave a little laugh.

"Shopping," she said.

"So am I." She looked startled.

"With my sister," he added, hurriedly. "I often do." They both laughed.

"Where shall it be then?" he inquired again, as they stopped skating.

"I really must go now," she cried. "Well, if you insist, Gayford's at twelve. Good-by."

It was some minutes past twelve the next morning when Percy Preston and his sister entered Gayford's, Bond Street; he looked eagerly round. Hats of every description greeted him on all sides, but he saw no signs of the particular person for whom he was seeking. She had distinctly said 12 o'clock, and it was now only a few minutes past.

He watched the door eagerly each time it was opened to admit some new customer, but still she did not appear. Would she break her promise? At last, in despair, he turned impatiently to his sister, who was busy trying on a large black hat.

"It suits madam beautifully, does it not?" exclaimed a voice at his side.

He started violently. He would know that voice anywhere. But surely—no, it was impossible. He turned in amazement and took a look at the tall, black-robed figure, who was now trying on the hat herself in order to show it off to his best advantage. For one instant they gazed at each other, he with horror, she with calm amusement. Then without a moment's hesitation he looked quickly away again, and made a bolt for the door.

"Good heavens!" he muttered. "What a snaffle! Thank goodness no one saw. I could never have looked Society in the face again. To think that she was a—By Jove! I've never been so taken in before."

"Thank goodness," she was thinking, though she felt a strange choking in her throat, "one doesn't meet friends like that every day."

But aloud she said—

"To what address shall I send it, madam? The gentleman seems to have gone."

"This, by the way, was the first mistake of the kind he had ever made in his life.

**THE IMPRUDENCE OF PERCY PRESTON.**

**Bismarck's Trick to 'Harry German Crown Prince's Decision.**

The matter of selecting a suitable wife for a royal prince is one of varying difficulties, says London Tit-Bits, and, manifestly, the nearer to the throne the prince happens to be the greater are the difficulties of those upon whom the task devolves, and the less likely the prince is to be allowed a voice in the matter, though he may, as he sometimes does, enhance the troubles of his advisers by rejecting their suggestions.

A royal marriage is generally considered to have considerable political influence, although history rather discounts the idea, and perhaps the last things considered are the personal charms of princesses. In very many cases, indeed, a vague idea of whom a prince shall eventually marry is arrived at while he is still in the nursery, and it is quite impossible to say whether the selected princess gives promise of being suitable in the way of disposition and charms.

The question of religion, in fact, sometimes proves a very great difficulty in arranging royal marriages. It is practically inevitable that a prince about to marry a monarch, an heir apparent, or an heir presumptive should embrace her future husband's faith, even though the Pope could grant a dispensation freeing her from the obligation, with the arrangement that male issue should be brought up in the father's faith. The Empress of Russia, it will be remembered, entered the Greek Church prior to her marriage with the Czar.

The characteristic obstinacy of the German Emperor made the difficulty of finding a wife for him an exceedingly delicate matter, and Prince Bismarck, who was trusted with the task, scarcely enjoyed the honor. A full dozen eminently suitable princesses were proposed to Prince William, as he was, and his father, at that time the Crown Prince Frederick, used every means to induce him to name one of them, but all in vain.

The Prince was still as far as ever from making up his mind when Bismarck took a hand in the game. So far he had acted through others, but now he called a family council and, relying on the Prince's antipathy toward himself, which was marked even in those days, he deprecated the suggestion that his Highness should marry the Princess Augusta, giving more or less shallow reasons, and emphatically urging the claims of another Princess. Some of Bismarck's remarks about the Princess Augusta so aroused the Prince's ire that he broke up the meeting by leaving the room, hanging the door as he went. He had never seen the Princess at that time and his anger was merely the outcome of his chivalry; but shortly afterward he made a point of meeting the Princess on an occasion Bismarck had already arranged—and when next the question of his marriage was broached he announced his intention of marrying the charming princess who is the present Empress, Princess Augusta of Schleswig-Holstein.

It is said that Bismarck's unfavorable opinion of the princess had no little influence in causing William III. to "drop the pilot" on ascending to the throne, for of course Bismarck was not the man to admit that he had tricked Prince William.

King Edward's marriage was rendered easy of arrangement by the beauty and charming disposition of Princess Alexandra of Denmark. In fact, the marriage may be said to have arranged itself. They had met and played together as children, and thereafter the young prince always evinced an interest in the Princess. When he reached the age of nineteen and it became time to settle his future, Queen Victoria proposed a German princess for his consort, but Prince Edward had tender recollections of the sweet Princess Alexandra, and he decided he would like to meet her again before accepting his august mother's suggestion. A meeting on the Continent was therefore brought about and on the Prince returning to London the engagement was formally announced.

**Case of Coughing in Church.**

Coughing is one of the nuisances that no one has been able to abolish in churches or in theaters. A physician, however, asserts that the coughing nuisance is a mere question of acoustics.

"There is a subtle connection between the ear and throat," he said. "When the ear is strained the throat is affected and a cough is the result. When we can hear perfectly in church or theater it never occurs to us to cough; but when we bend forward straining every nerve to catch the actor's or preacher's muffled syllables, we find ourselves coughing every little while."

"Build audiotrums with perfect acoustic properties and I warrant that the thunderous choruses of coughs so common now among us will be no more heard."

**STOP, WOMAN AND CONSIDER THE ALL-IMPORTANT FACT**

That in addressing Mrs. Pinkham you are confiding your private life to a woman—a woman whose experience with women's diseases covers twenty-five years. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, her advice has been freely given to sick women.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

**Mrs. Pinkham's Standing Invitation:**

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

Following we publish two letters from a woman who accepted this invitation. Note the result:

**First letter.**  
Dear Mrs. Pinkham—  
"For eight years I have suffered something terrible every month. The pains are excruciating and I can hardly stand them. My doctor says I have a severe female trouble, and I must go through an operation if I want to get well. I do not want to have an operation, and I can possibly help it. Please tell me what to do. I hope you can relieve me."—Mrs. Mary Dimmick, 65th and E. Capitol Streets, Washington, D. C.

**Second letter.**  
Dear Mrs. Pinkham—  
"After following carefully your advice, and taking Lydia E. Pinkham's Vegetable Compound, I am very anxious to send you my testimonial, that others may know their value and what you have done for me."

As you know, I wrote you that my doctor said I must have an operation or I could not live. I then wrote you, telling you my ailments. I followed your advice and am now entirely well. I owe my life to you and to Lydia E. Pinkham's Vegetable Compound. I wish every suffering woman would read this testimonial and realize the value of your advice and your remedy. —Mrs. Mary Dimmick, 65th and E. Capitol Streets, Washington, D. C.

When a medicine has been successful in restoring to health so many women whose testimony is so unquestionable, you cannot well say, without trying it, that it is not a good medicine. I do not believe it will help you if you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice. It is free and always helpful.

EXPRESS COMPANIES HIGH RATES.

It's rather amusing to hear from  
the Express Companies' attorneys that  
the public never complained of the  
high rates charged by those corpora-  
tions. Perhaps now the express busi-  
ness is under the control of the Inter-  
state Commerce Commission the Ex-  
press magnates will soon discover there  
are outraged customers of all the Ex-  
press Companies, who have long pro-  
tested at the high rates charged, but  
never officially filed their complaints,  
knowing from experience it was useless  
to do so. Those who had express  
rates as unreasonably high as should  
be no time in sending their com-  
plaints to the Interstate Commerce  
Commission with a statement of the  
charges and the facts about the  
charges complained of. From the  
evidence brought to light in the fight  
of the Adams Express Company share-  
holders for larger dividends, it was  
shown that that corporation had mil-  
lions of surplus and was earning near-  
ly 10 per cent. Evidently the rates of  
that corporation should be, at least,  
reduced to one-third of the present  
rates.

THE PERSUASION OF THE LAW.

A great deal has been said by way  
of "moral suasion" to bring about the  
stopping of buying votes. The Ad-  
vertiser has persistently given its in-  
fluence towards creating a public sen-  
sation and stirring up the public con-  
science. Nor have excused it on the  
part of Democrats.

The people now see that public sen-  
sation will no longer excuse the per-  
son or the political party that encour-  
ages bribery at the Congressional  
election and no one must expect the  
same degree of lenient consideration  
as has heretofore been given. The  
time has come when the law can and  
must be enforced, without regard to  
the person who violates it. Delaware  
has an Anti-Bribery League and Gov.  
Lee has again declared his purpose to  
see the law enforced.

An organization should be effected  
in this county, and for the whole  
District of the best citizens of both  
parties for the suppression of bribery.  
It would be a very becoming thing if  
the two congressional candidates,  
residents of Wicomico, would take the  
initiative by calling a meeting for  
this purpose. Let Messrs. Smith,  
Jackson and Dulany start the move  
and they will find the people falling  
in behind. None but the professional  
liar would oppose it and he will  
be silenced by the mighty sentiment  
of the people and made to hide him-  
self.

"Money is King," in politics is no  
longer to be the song of victory on  
the Eastern Shore. The Democratic  
Convention put a strong Anti Bribery  
plank in its platform, and Mr. Smith  
willingly stands on it. Mr. Dulany  
takes the same position. It's up to  
Mr. Jackson to make his attitude  
known and then the voters can make  
their choice, either on the merits of  
the men, or on the principles they rep-  
resent.

The law can be easily enforced  
against the men who give or promise  
to give any reward at any time before  
the election. Let the State's Attor-  
neys, the Sheriffs and Constables and  
all the honest citizens arouse them-  
selves for the support of the law,  
keeping strict watch and hear word  
that the law will be observed or  
some one will be in jail. We again  
request a public meeting of citizens.  
We shall take occasion to express our  
views in regard to the case with which  
the law can be enforced against those  
who will not obey it later.

Resolutions of Respect.

To the memory of our beloved Bro.  
Spencer E. McAllister, of the Good  
Will Lodge No. 113 I. O. O. F., Mar-  
dela Springs, Md., whose death oc-  
curred at his home in Vienna, Dor-  
chester county, Sept. 13, 1906.

Whereas it has pleased Almighty  
God in his wise Providence to remove  
from our midst our beloved Bro.  
Spencer E. McAllister, who has been  
so faithful a member for the past 35  
years:

Therefore be it resolved that in our  
sorrow we realize that our loss has  
been his gain. As Bro. McAllister  
had been a faithful and devoted mem-  
ber of the M. E. Church for more  
than a half a century and a true  
Christian man and we rejoice to know  
for whom we mourn has gone from  
labor to reward.

And be it further resolved, that we  
sincerely sympathize with the bereft  
family of our departed Brother and  
commend them to the care and protec-  
tion of Him who is the God for all  
his faithful servants.

And be it further resolved that a  
copy of these resolutions be spread  
upon the minutes of our Lodge and a  
copy be sent to the family of our de-  
ceased Brother. Also a copy be sent  
to the county papers for publication.

Ninety-eight Per Cent.

There is a fascination about biz-  
ness profits to a business man. But the  
conservative and cautious trader pre-  
fers to have the lesser per cent of in-  
terest and the larger per cent of safety  
in his investments. There is no busi-  
ness man who would not consider it a  
sound proposition to invest in an en-  
terprise in which absolute loss was  
impossible and which offered ninety  
eight chances in a hundred of a rich  
profit. The statistics of cures effected  
by Dr. Pierce's Golden Medical Dis-  
covery show that ninety eight per  
cent of cases of "weak lungs" can be  
absolutely cured. Almost if not all  
forms of physical weakness may be  
traced to starvation. Starvation saps  
the strength. The body is just as much  
starved when the stomach cannot ex-  
tract nutrition from the food it re-  
ceives as when there is no food.  
"Weak lungs," bronchial affections,  
obstinate coughs, call for nourish-  
ment. "Golden Medical Discovery"  
supplies that nourishment in its most  
condensed and assimilable form. It  
makes "weak lungs" strong, by  
strengthening the stomach and organs  
of digestion which digest and distrib-  
ute the food, and by increasing the  
supply of pure blood.

Colors that defy the specialist. All  
variegated hues as far as the eye can  
reach. The dawn of the morning or  
the glory of the sunset cannot surpass  
in grandeur this scene of nature  
beauty. All the woods a pictorial gal-  
lery a fitting farewell to the good Old  
Summer Time. We part reluctantly  
with the shade under which we sniffed  
the refreshing breeze, now that soon  
the trees will be bare, how lonely and  
desolate in wood and orchard and  
grove! How like mellow friendships  
of other years but we shall not forget  
their attractiveness and the more we  
dwell upon their beauty, the more we  
admire their loveliness.

If The Baby Is Cutting Teeth.

Be sure and use that old and well-  
tried remedy, Mrs. Winslow's Soothing  
Syrup, for children teething. It soothes  
the child, offsets the rums, allays all  
pain, cures wind colic and is the best  
remedy for diarrhoea. Twenty-five  
cents a bottle.

One Cold and Another

The season's first cold  
may be slight—may yield  
to early treatment, but the  
next cold will hang on  
longer; it will be more  
troublesome, too. Un-  
necessary to take chances  
on that second one. Scott's  
Emulsion is a preventive  
as well as a cure. Take

SCOTT'S EMULSION

when colds abound and  
you'll have no cold. Take it  
when the cold is contracted,  
and it checks inflammation,  
heals the membranes  
of the throat and lungs  
and drives the cold out.

What Appeals To You Most WHEN YOU BUY NEW CLOTHES. SIR? STYLE? Then Lacy Thoroughgood's Clothes are the clothes for you. They are the standard of good style and good taste, and all men—young or old, conservative or ultra fashionable—can be suited. QUALITY? Then Lacy Thoroughgood's Clothes are the clothes for you. Quality is the very bulwark of Thoroughgood's business. It's no exaggeration to say that the tailoring and materials put into Thoroughgood's Clothes are on an average 50 per cent better than those put into clothes sold elsewhere at the same prices. PRICE? Then Lacy Thoroughgood's Clothes are the clothes for you. Thoroughgood sells good clothes at the same prices others sell common clothes for. These are facts. To every man who wants smart clothes this announcement means much. We are so sure that these clothes are what they should be that we guarantee them for satisfactory service and stand ready to make right any defects that come to light. If you are ready, come to Lacy Thoroughgood. Copyright 1906 The House of Kuppenheimer. James Thoroughgood.

My Hair Ran Away Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food. The best kind of a treatment—'Sold for over sixty years.' Made by J. C. Ayer Co., Lowell, Mass. Also manufactured at CARLETON, N. B. HILLS, CHICAGO, ILL. TRUITT'S BOWLING ALLEYS, 124 MAIN STREET.

Popularity Is Proof Of Merit The fact that the popularity of Box-Ball increases every day, notwithstanding the "novelty" having worn off, is conclusive evidence of its worth. This fascinating game has delighted hundreds of Salisburyans. Have YOU tried it yet? TRUITT'S BOWLING ALLEYS, 124 MAIN STREET.

French horticulturists have apparently been very successful of late in raising dwarf trees, and one of the features of dinner parties among the rich now is to serve the fruit upon

stands, bruises and burns.

Being an antiseptic dressing for wounds, bruises and like, it may be used without maturation and in about one third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts in the same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and distress and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by C. L. Dickerson and G. Hearne.

Movable scenery was first used in theaters in 1608. It was invented by Baldassare Peruzzi, and displayed in Rome before Leo X.

**A Bad Complexion.**

comes from bad blood. Pimples on the face, Acne, Live Spots, Sallow Skin, dark rings about the eyes, sick headache, pale, worn-out looks, dizziness, will all disappear if you take a treatment of Ramon's Liver Pills and Tonic Pellets, for sale at Dr. Ellegood's and put your blood in good condition. This Treatment does not force things—the Pills touch the Liver, purges it to action; the Pellet, following, purely vegetable strengthens and aids the bowels and digestive organs. Beware of violent purgatives. Ask for Ramon's—it is the only combined Treatment put up this way on the market. Entire Treatment, 25 cents.

**To Judge A Remedy**

you must know its father and mother and understand the reason for its existence. Ramon's Liver Pills and Tonic Pellets, a treatment for Sick Headache, Dizziness, Pain in the Side, Constipation, and Biliousness is based on the formula of one of the greatest physicians ever known. Your leading druggist, Dr. Ellegood, will guarantee Ramon's Liver Pills and Tonic Pellets to cure sick headache, or refund your money. Whole treatment 25 cents.

The most awful accident in history was the fall of a Roman amphitheater in the time of Tiberius. Fifty thousand people were crushed.

**Torments Of Tetter And Eczema Allevied.**

The intense itching characteristic of eczema, tetter and like skin diseases is instantly allayed by applying Chamberlain's Salve and many severe cases have been permanently cured by its use. For sale by C. L. Dickerson and G. Hearne.

In the land of Melukkah, or Median, are old mines in which mining tools of the date 500 B.C. have been found, forgetting that the alcohol sold over the drug counter is just as harmful as that sold over the bar.

**An Awful Cough Cured.**

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Bussard, Brubaker, Ill. This remedy is for sale by C. L. Dickerson and G. Hearne.

The whaling industry of New York Islands was practically a failure in 1905, the catch numbering only eight whales.

The newspaper files of the British Museum have been moved to a special depository at Hendon, seven miles from London, where they occupy six miles and a half of shelving.

Itch! Itch! Itch!—Scratch! Scratch! Scratch! The more you scratch the worse the Itch. Try Doan's Ointment. It cures piles, eczema, any skin itching. All druggists sell it.

Information. Over half of the kind originate with the back. A slight touch of backache, Twinges and shooting pains in the loins follow. They must be checked, they lead to graver complications. The sufferer seeks relief. Plasters are tried, and liniments for the back. So called kidney cures which do not cure. The long looked for result seems unattainable. If you suffer, do you want relief? Follow the plan adopted by this Salisbury citizen.

J. T. Hayman, bookkeeper, residing at the corner of Chestnut and Park Streets, says: "Having been afflicted for some time with an aching in the small of my back and other troubles which indicated disordered kidneys. I tried a box of Doan's Kidney Pills from White and Leonard's Drug Store and finding that they gave me great relief. I continued taking them and I consider my condition much improved."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

**Catarrhal Deafness Or Chronic Catarrhal Headaches.**

will be instantly relieved by the use of Nosenia, a soothing Catarrhal Balm. Relief guaranteed, or money refunded. Nosenia contains no cocaine or harmful drug. Will immediately relieve the worst running cold, Rose Cold, Nasal Catarrh, Hay Fever, Throat Troubles, Hoarseness, etc., by tenderly soothing the inflamed, diseased membranes. The well known catarrhal ache can be instantly relieved by the use of this remedy.

Mrs. Fannie Mathis, Payne, Pa., says: "I have been trying you Nosenia for Catarrh and have been entirely cured. Send me the price for a dozen tubes, as I want it for some of my neighbors."

Large tubes, 50 cents at all druggists, or sample tube on receipt of ten cents in stamps by mail.

The longest fence in the world, it is thought, is one of wire netting in Australia, 1,286 miles long. Its object is to keep rabbits from the cultivated fields.

**Sick Headache Cured.**

Sick headache is caused by derangement of the stomach and by indigestion. Chamberlain's Stomach and Liver Tablets correct these disorders and effect a cure. By taking these tablets as soon as the first indication of the disease appears, the attack may be warded off. For sale by C. L. Dickerson and G. Hearne.

At the Needle Lighthouse, Isle of Wight, there has been placed a set of red trumpets which give a blast that can be heard 10 miles—treble the distance of the old fog-bell signal.

A lazy liver leads to chronic dyspepsia and constipation—weakens the whole system. Doan's Regulate, 25 cents per box, correct the liver, tone the stomach, cure constipation.

Cures baby's croup Willie's daily cuts and bruises, mama's sore throat, grandma's lameness—Dr. Thomas' Electric Oil—the great household remedy.

To feel strong, have good appetite and digestion, sleep soundly and enjoy life, use Burdock Blood Bitters, the great system tonic and builder.

### Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by the constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## Drugs and Chemicals

ARE NEEDED EVERY DAY

### In the Kitchen

VANILLA, for ice cream, for instance;  
BAKING POWDER, for cakes.

There is a drug, of course; the other is a "chemical," and there are still others—SPICES of all kinds—cream of tartar, etc.

The best place to get drugs is at a DRUG STORE. The druggist knows more about them than other people.

We keep a good Drug Store. Come and ask us about Kitchen Drugs.

## MARYLAND FARMS.

Fifteen farms at a sacrifice. Buildings on all. Plenty of wood and timber to support them. Good water, fine climate, two railroads, good schools and churches. Near the ocean, abundance of water products. Ideal for horticulture. Harrison's trees are a sample of what they will produce. Climate modified by ocean and bay. Come and look. Is all we ask. Farms of 150 to 1,000 acres. Six thousand acres at an average of \$10 to \$25 per acre. The Eastern Shore of Maryland, because of its position, is becoming the garden of the Northern and Eastern cities; so these farms are only temporary.  
Why go to the wild and spend your life making a farm and a home, when for less money, in a better climate and nearer the markets, you can immediately have what you want? Yours truly,

## SOCIAL OSTRACISM

Down South For Vote Buyers... Congressman Williams Says It Is A Cure. Intense Feeling Against Bribery.

Congressman John Sharp Williams, of Mississippi spoke in Baltimore county on National issues Thursday night.  
Mr. Williams made inquiries about the campaign in this state which he was told was progressing satisfactorily. Incidentally, the use of money at elections was referred to, and several of the gentlemen present said it was difficult to get out the vote in some districts of the state without it. Mr. Williams was much surprised that the practice should be condoned by reputable people and said that if those who profited by it were treated here as they were by the people farther South it would soon be abandoned.

"There is only one cure," he said, "and that is social ostracism. The respectable people in our communities do not recognize such corruptionists. They regard them as no better than that class which steals outright. Let it be known that a candidate is seeking to further his personal interest either by dispensation of patronage or disbursement of money in return for votes and he is promptly ostracized. This treatment has had a salutary effect, for there is little or no corruption now in connection with the franchise. So intense is the feeling against this sort of bribery that in communities where there may be only eight families, and members of six of these are known to be guilty of the practice, they are not recognized by the other two. In the South this is regarded as the severest punishment that can be meted out. Corruptionists should not be tolerated in any community, and if Maryland should try our remedy, bribery at elections could soon be discontinued. Social ostracism is the only cure for the evil."

Mr. Williams spoke entertainingly on this line at some length, being particularly severe in his condemnation of vote buying at the polls.

## CHRISTIAN ENDEAVORERS

And The 15th Annual Convention. "Finest Ever Held." Sorry To Have Visitors Leave. Was A Delightful Gathering.

With sunshine below and above, and showery clouds between, the State Christian Endeavor Union held its 15th Annual Convention in the city of Salisbury on Tuesday, Wednesday and Thursday, most of the guests returning home Friday morning.

To attempt details in recording the various proceedings or to direct credit in one given course is out of the question. The music furnished, received high compliments from all quarters. It was indeed replete, and the time expended on it, well required in the pleasure it afforded.

Few towns of the size of Salisbury—and there isn't a thing small about it—have ever had the opportunity of hearing such brilliant practical speakers as adorned and edited the sessions of the convention—some of them of

National repute. The program throughout was rendered almost on the minute and the order of business most excellently observed. A most laudable interest was manifested by the delegates and every hour contained something to enthrall them in their glorious work.

"The finest convention ever held in the history of the Maryland Christian Endeavor Union," seems to have been the thought of those who attended, and this must be very gratifying to the hearts of all Salisburyans, coming from this representative gathering of leading workers in that band of Christian Endeavorers, in which all should be co-laborers for the sake of Christ.

After the trip to Ocean City, a camp fire was held at the Methodist Protestant Church Thursday evening, and all became even better acquainted before the final leave taking. Resolutions of appreciation were passed, compliments exchanged and hearty good fellowship reigned.

Over is the 15th Convention, but radiating from it in the speeches made, the talks heard, the inspiration of the music—all the ideas given out and gathered in, will go to all parts of Maryland and farther, the good influences set in motion in never ending waves.

The excellent management of the Convention was due to the zealous efforts of the following who were ably and generously assisted by others on the committees, and the Salisbury public, generally.

Banners were awarded to the society of the Dickey Memorial Presbyterian Church, of Dickeyville, for the largest contribution to the cause of foreign missions, and to that of Solonon's Lutheran Church of Woodboro, for the largest percentage of gain in membership during the past two years.

## Hilton Not Killed By Ryal—The Salisbury Boy.

The body of Captain Joseph Hilton, of the sloop Golden Light, of Pleasantville, N. J., which was drowned in the Elk River, off Arrants Shoys Monday, October 7, was recovered on Wednesday, October 9. The inquest was held at Elkton October 10, and the coroner's jury rendered the decision that Captain Hilton came to his death from a blow inflicted by Thomas E. Witecraft, who was a deck hand on the Golden Light, and that Robert B. Ryal had guilty knowledge of the fact.

Ryal, who is from Salisbury, was also on the boat at the time of the Captain's death. Captain Hilton is said to have left home with \$270, but none was found on his person neither was any found on Ryal or Witecraft.

At the inquest Witecraft declined, under advice of counsel, to answer any questions bearing upon Capt. Hilton's death.

Robert Ryal, the other deckhand, said he was trying to get back to his home in Salisbury and fell in with Witecraft and Hilton by chance. He boarded the Golden Light on Sunday, at Delaware City, while Witecraft was in charge. Captain Hilton came aboard that night, and they left early Monday morning. While off Arrants' Shore, the Captain asked Ryal for a drink which he poured out for him, when Hilton cried out, "Where's my roll?" Ryal said he did not know what he meant. Hilton said "My money." Ryal turned his pockets out but Hilton struck him. Witecraft came down and interfered, and Ryal left the cabin. He saw the Captain come through the companionway with a knife, following Witecraft, and Ryal growing scared, jumped overboard. He heard the Captain's splash but did not see him go overboard. Witecraft lowered the skiff and picked up Ryal, and they then looked for Hilton, but he had sunk and did not rise. They later landed, went to North East, told of the affair, and surrendered to Justice Biddle.

## The Maryland State Sunday School Convention.

The Maryland State Sunday School Convention was held in Baltimore City on the 11th and 12th of October. It was a great gathering. It required three large churches to accommodate its meetings. The last meeting was held in the Lyric, and was attended by about two thousand people. A trained chorus of 300 voices furnished the music. Addresses were delivered by Marion Lawrence, International Field Secretary and Rev. Dr. Phillips of Richmond. Governor Warfield presented diplomas to sixty five graduates and delivered to them an admirable address.

A School of Methods, beginning on the 6th, preceded the convention and was attended by two hundred students. The Maryland Sunday School Association is doing a great work and merits generous support.

—Rev. F. L. Warner, of Westminster, Md. will preach in the Methodist Protestant Church next Sunday morning. Mr. Warner is a former pastor of this church. He has been in attendance upon the C. E. Convention this week but was called home to conduct the funeral services of one of his parishioners. He expects to return to Salisbury today to finish out his visit.

## THE BIG ROBBINS & CO.'S SHOWS.

Wild Beasts And Rousing Acts, Races And Features Galore.

The Frank A. Robbins & Co., All New Great Feature Shows, which are to pitch their big menagerie and hippodrome tents in Salisbury on Wednesday, October 31, comes with a Metropolitan reputation amply justifying anticipation of a holiday fall to the brim with rare and wonderful attractions and masterly acts, floods of fun and stunning and startling features in their cosmopolitan zoological garden and great arenas. In New York City and throughout the land the name of Frank Robbins, who is the managerial head and front of the gigantic new enterprise, is almost a household word, and linked with sterling qualities of both head and heart which have honestly won him fame in his calling and widespread popularity. The menagerie he has collected is said to comprise an unusually impressive and instructive exhibit of rare and representative wild beasts, the equestrian, acrobatic, aerial and animal acts and races given in two rings, upon an elevated stage, on the coliseum course and in the wide aerial space above them are of the latest and best, and a whole madcap circus of clowns furnishes unlimited and inimitable fun and timely travesty. Among the special and notably extraordinary features Alpha and Omega, in their rival, extra hazardous and desperately daring feat of leaping across a 50-foot chasm on their madly flying bicycles, challenges attention. The Tribunal of Nations, introducing with spectacular pomp and pageantry, living counterparts in feature, form, arms, and royal robes of the famous rulers of past and present times, is another superb innovation. The most colossal and captivating novelty ever projected in the way of animal performances is the simultaneous introduction in the same arena of educated elephants, zebras, camels, dogs, goats, water buffalo, llamas, dromedaries, monkeys, horses, ponies, bears, sacred cattle, mules, donkeys, and other phenomenally trained wild and domestic beasts. The morning parade includes a memorable display of majestic, magnificent animals and amusing features.

Williams—Jacobs.

One of the prettiest of fall weddings was solemnized Wednesday at 11:00 o'clock, when Miss Emma E. Williams, daughter of Mr and Mrs Alonzo L. Williams, was married to Mr. J. Edwin Jacobs, of Baltimore.

The ceremony was performed at the home of the bride by Rev. Geobegan in the presence of the immediate families. The bride and groom entered the parlor, which was beautifully decorated with palms and cut flowers. Master A. Everett Williams, cousin of the bride, played Lohengrin's Wedding March at the entrance, and "Hearts and Flowers" during the ceremony with Mendelssohn March afterwards.

The bride wore a gown of white French Batiste handsomely trimmed with baby Irish lace. Immediately after the ceremony a wedding breakfast was served, after which Mr. and Mrs. Jacobs drove to Salisbury, where they left on the two o'clock express for an extended wedding trip North. Upon their return they will reside in Baltimore.

ECZEMA ON FACE AND HANDS

Troubled from Childhood With Skin Eruptions—In Winter, Hands Would Crack Open and Swell Twice Their Size—Skin Now in Splendid Condition.

CURED BY THE CUTICURA REMEDIES

"From childhood I had always been troubled with skin eruptions, more or less, and in winter my hands would crack open all over the back. You could lay a straw in any of them, but since using the Cuticura Remedies for the eczema about five years ago I have not been troubled in any way. At that time, I think, I got the eczema from handling imported hides at the Custom-House stores. I doctored for it for over a month without relief. It was on my hands and face, and my hands were swollen twice their size. After losing time, I was told of a woman whose finger nails had fallen off and was cured by the Cuticura Remedies, so I tried them and I was cured, and my skin is in splendid condition now and does not crack in cold weather. I gladly give you permission to publish any part of my letter relating to the cure and use of the Cuticura Remedies. Henry O'Neill, 4949 Girard Ave., Philadelphia, Pa., July 2, 1905."

CUTICURA—THE SET, \$1 Complete Treatment for Every Humor from Pimples to Eczema

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle; dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation, and inflammation, and soothe and heal; and, lastly, take Cuticura Resolvent Pills to cool and cleanse the blood. A single set, costing but one dollar, is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly skin, scalp, and blood humors, with loss of hair, from infancy to age, when all else fails.

Lime vs. Fertilizer.

The price of lime is very low when compared with the price of fertilizers. In many cases the clear profit per ton made by agents selling fertilizers is more than double the price of lime at the factory.

It is claimed by practical farmers that before lime is worn out it will produce its own weight in wheat. Think of a ton of lime, costing from \$3 to \$4, releasing enough dormant plant-food to produce a ton of wheat, worth about \$25. Besides this the lime does just as much in proportion for the grass and corn crops. Lime gives new life and brings land up to a much higher state of cultivation, yet lime does not cost 1.5 as much as fertilizer.

It will pay to use lime without fertilizers, but fertilizers cannot be used profitably without liming regularly so as to neutralize the acids and keep up and regulate the mechanical, chemical and physical condition of the soil.

The construction of the ship canal between Berlin and Stettin was begun September 30, when the first clod of earth was turned at Sohwent.

The Mayor and Town Council of Stettin, in their robes of office, attended the ceremony, which was performed by Frau Nierenheim, the wife of the engineer in charge of the work. The German Government has granted \$10,750,000 for the making of the canal, which is part of the scheme for the construction of several new waterways which will be of considerable strategic, commercial, and political importance.

One of the main objects of the system of canals, according to the London Express, is to find the means for transporting troops and war material independently of railways and roads.

NEW YORK FASHIONS.

Stylish Materials: Trimmings: Ribbon: Velvet: Passementeries: Cloaks: Combinations Of Color: Large Hats.

A search through attics or long forgotten "put away places," may reveal treasures that can now be utilized, as almost ever material except crepon is in demand. In Silks, plain, dotted, striped, figured, changeable checked, or plaided all are stylish, and the greater variety of colors combined, the more desirable. If not enough for a waist, straps across the shoulders, in prettily or suspender style, over a thin waist, such as dotted net, plain net, sheer embroidered or lace, is the very latest idea for evening waists. An epaulet falling on the arm may be made in any way that looks well, and a belt of similar material keeps the straps and epaulet in proper position.

Black Ribbon Velvet. as if in revenge for long neglect, trim dresses, waists, neck fixtures and for the purpose just mentioned above, is singularly attractive—the straps connected by black silk cord, or very narrow velvet ribbon. Colored velvet is equally desirable for this purpose. Black lace, with a handsome edge over silk dotted net falls in with the still-prevailing fancy for black and white. Batiste embroidery threatens to rival lace and as elbow sleeves are still universal with dressy waists, the quantity of material required is considerably lessened. Ribbon of every hue and pattern may trim a hat, form wristlets and bows on elbow sleeves, or if flowered, make a high belt, or a bit of plaided silk cut a moderate width and hemmed is the newest neck tie.

Braid And Passementeries. of all descriptions are in style, and a short suit jacket is often trimmed with braid while the skirt is plain. Colored embroidery, machine made, in a narrow band on the front of a sombre waist or jacket gives the garment an entirely different air, and clusters or rows of small gilt, enameled or steel buttons lend efficient aid. Plaided braid is a novelty, but should be used with discretion, as is the case with gilt braid, as an overplus of either results in a gaudy effect. Folds of another material are often seen on expensive costumes, and of lace there is no limit to its variety.

Cloaks Are Long. and show no radical difference from those of last winter. Much braiding or passementerie trimming is used in the back, and sometimes lace, but braiding is newer, therefore more popular. They are in very light tan, white or gray, for young persons, or may be used for evening by any one, but unquestionably the general adoption of the Tourists coat and the jaunty suit jacket have thrown the long beaver cloak somewhat into the shade. Rain day cloaks are rubber lined silk of the brightest hues, gray plaids, or crimson or blue silk, with large brass buttons down the front.

A Skillful Combination Of Color. is now the ambition of the designer in all branches of the sartorial art, and millinery oftentimes shows the intermixture of six or seven shades. It is not unusual to see four clusters of grapes, each of a different hue on a colored beaver, or blue ribbon and pink and crimson roses on a black hat. Just now, it seems as if the large hat had carried the day, but they will at all events, be foremost for dressy wear. In all high class millinery houses, out of ten hats, eight are large. That is an important fact, as the large ones are more expensive. Chicken feathers now replace the peacock plumage of the Spring, and is equally absurd. Massed at the side of a handsome hat, they are termed "stylish." Lucy Carter, Field Syndicate, Station W.

Letter to Harper & Taylor. Salisbury, Md.
Dear Sir: You know diamonds don't go by size. So with paint. We make paint one gallon of which goes as far as two of another and lasts twice as long; that's four to one. You know it is true in diamonds; they don't go by the gallon, do they? If you're going to paint your house, you go first to your painter and say: "I'm going to paint; do you want the job and what'll it cost?" If he happens to know, he'll say: "Depends on the paint. I can do it for somewhere about \$100 or \$200, whichever you like; \$100 will make a good job; \$200 a poor one." And you, if you happen to have your wits, 'll say: "I'll take the good one, when'll you do it?" Painters ought, all, to know about paint; and jewelers ought to be able to get a good job. We do what we can to help both.

One gallon Devco is better than two of average paint, goes as far—that is, your house will take about 20 gallons Devco and 40 of average paint—and Devco will wear a long time; the life of average paint is very uncertain, it may be a year, it may be five. Why is it that painters don't know about paint? Do jewelers know about diamonds? They know more than they tell sometimes. There are painters and painters; so there are jewelers, so there is paint, and the least gallons paint is Devco. Yours truly, F. W. DEVOE & CO. S. W. Ganby Co. sells our paint.

**WRECKS AND SUN KINKS**  
**Engineers Can Not Prevent Spreading Rails.**  
**WATCH TRACKS CLOSE**  
Roads Working For a Device to Reduce Pressure—All Sections Carefully Examined Daily—Allowance Made For Work Done in Zero Weather.

According to railroad men whose business it is to look after the tracks, only about one in twenty of the wrecks are due to sun kinks, says the New York Press.

"It's like the doctor's heart failure," said one track engineer. "After the wreck the track is torn up and the cars lie in pieces. Then somebody asks the conductor or the engineer what did it. They don't know. Sometimes I am called upon to investigate the cause of a wreck, and, after the most exhaustive examination, I am forced to say that I cannot find out. But at the scene of the wreck, when the reporters come around and ask questions, there is always somebody with the easy answer—sun kinks."

"Of course wrecks are caused by the action of the sun's heat upon the rails," said another track engineer. "It is very hard to guard against them absolutely. If the rails are laid, say, in zero weather, about a half an inch is allowed between them. If they are laid when the mercury is at 40 or 50, approximately a quarter of an inch is allowed. If they are put down in the hottest part of the summer they are laid practically end to end."

"Maybe the calculation that fills the expansion of most of the rails will not fit three or four that happens to be near one another in a stretch of track. Then a hot summer day comes. The track warms and section gang do not see that the rails are getting too close together. It happens also that the ballasting is not quite as good as it ought to be at the point where there is the most strain. The rails get together and expand still more. Something has to give way, and the rails buckle outward. Maybe the track buckles so much that a train will run off. Maybe the next train is coming so fast that the engineer doesn't notice it in time. There are some other causes."

"There you have the circumstances of a wreck really due to sun kinks as the newspapers call them. You see the number of things that coincided to bring about the wreck. You must understand why it is, too, that a real, dyed in the wool sun kink is a thing of rare occurrence."

"Several years ago I was riding on a freight train, and looking ahead saw that the tracks had buckled outward. The train was stopped and I saw a real case of the sun kinks."

"I couldn't find anybody on whom the blame could be laid. The rails were as laid and bedded properly, the ballasting seemed to be fairly good and the rails a little further down the line were properly spaced. It may have happened that somebody's miscalculation as to the expansive-ness of one or two particular rails had caused the kinks."

"The public doesn't know how closely the tracks of a big railroad are watched. Even down South and out West, railroads have the walk-ers to inspect every foot of the track once a day. In addition to that, the section gangs are bound to go over almost every foot of the track each day in going to and from work on the handcars. The longest section is not more than six miles, and on a two or four track system the sections are very short and men are constantly going over them."

"Nevertheless wrecks do sometimes result from the development of sun kinks and railroads are now experimenting with thirty or forty different types of anti-creeper. An anti-creeper is designed to reduce to the minimum the chance of a track buckling on a hot day. The tracks usually buckle outward, and the anti-creeper are designed to exert force, in a pinch, against that. The anti-creeper's heavy shoulders rest against the side of a tie and are bolted to the rail. When the tendency comes to buckle it is met by the combined strength of the anti-creeper, there being two or three to every rail."

"But even then," continued the track engineer, "the force of the buckling may be so enormous that it tears the anti-creeper loose and swings the track outward. No road that I know of has as yet decided that they are of sufficient help to justify their adoption all along the line."

**Whose Say-so is Best?**  
With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as written from disinterested motives. Dr. Pierce's medicine, however, forms a single and therefore striking exception to this rule. The claims to the confidence of invalids does not rest solely upon their maker's say-so or praise. The invalids are, in fact, the public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such medical authorities as Finley Ellingwood, M. D., of Bennett Medical College, Chicago; Prof. Hale of the same city; Prof. John M. Scudder, M. D., of Cincinnati, Ohio; Prof. John King, M. D., late of Cincinnati, Ohio; Dr. Grove of the same city; and the faculty of Jefferson Medical College, of Pa., and scores of others equally eminent.

Dr. Pierce's Food and Fruit Syrup cures the worst cases of female weakness, prostration, anorexia and indigestion and corrects all ailments of the stomach, bowels, and bladder, and weakens drains, sometimes known as pale catarrh and similar to other diseases peculiar to women. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician, of large experience in the cure of women's peculiar ailments, who frankly and confidently takes his patients into his full confidence by telling them just what his "Favorite Prescription" is composed of. Of no other medicine put up for sale through druggists, and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps to cover mailing only; in cloth binding 25 stamps. Dr. Pierce's Pellets cure constipation.

**FALL OF CAMPANILE**  
"I tell thee," returned old Jacopo, querulously, and with the same impatient gesture he had often used to the St. Mark's pigeons when they grew too familiar: "I tell thee, thou canst not have the girl. One thing, however, to thee—my Tessa shall no man have unless he dwell within sight of the Campanile."

As he spoke he glanced affectionately at the great bell tower, crowning St. Mark's. Under the benign smile of the golden angel poised on its graceful height had Jacopo in his long-gone youth pledged his troth.

To that dead Tessa had he first told the story of the Campanile—how Diego Pietro Tribuno had begun it centuries ago, how the loggia had been a meeting place for the haughty nobles of Venice.

So well had he told it that she suggested to him the occupation of guide, and under her inspiration he had succeeded beyond his hopes. He grew to be a great favorite among all tourists, and to many nationalities he repeated never wearying, the history of the bell tower. Though a man of no education, he was strongly tinged with the poetry of his passionate country.

Suddenly turning, he plunged into the alley and disappeared from view. Harkness was left to wander disconsolately through the piazza, and to ponder on Tessa's gentle but firm assurance that she could not marry without her father's consent.

"As if our trees and some of our river-wrecks were not the 'bell towers!' he muttered, wrathfully.

Then suddenly he grasped the arm of a bystander, and, pointing eagerly to the Campanile, demanded in his usual crack Italian if "that" had always been there."

"That" proved to be a crack yawning in the Campanile itself. In his surprise and horror the Venetian overlooked the slight to his dignity.

"Signore, no," he said, anxiously; "the authorities must be informed."

The authorities were informed, and a careful inspection resulted in the discovery that this supreme treasure of Italy was in danger. So, at least, said the city magistrates. But old Jacopo refused to believe.

"When thy bones and mine have been a century decayed," he said, scornfully, to Harkness, "the Campanile will stand there."

The Monday following the discovery of the crack he was persistently lingering near the Campanile, though much irritated by the presence of Tessa's lover, who continued to urge his suit.

That the Englishman had found this flaw in the tower annoyed the guide bitterly, and he turned the deafest of ears to all the young man's pleadings—so deaf, indeed, that at first he took the ominous cracking sound rising sharply from the tower for an explosion elsewhere in the city.

But as Harkness' cry he whirled around and faced the awful sight of the Campanile crashing down toward them both.

In full reach of the sinking angel he stoop gaped. Then two powerful arms lifted him like a feather and the Englishman ran for both their lives.

Jacopo suffered the young sailor to lead him home, still with the stunned air of one who could not understand what had happened. He made no answer to any question, except to say stupidly that he was not hurt, and, in spite of Tessa's anxious ministrations, refused all food for nearly two days, lying languidly on his simple pallet.

Hourly Tessa saw his fading, but at last, with a flush of his old energy, he sat up and called the girl and Harkness to him.

"I said you should marry no man who did not dwell in the shadow of the tower, Tessa mio," he said, quietly; "but where may such a man be found now? Shadow, indeed, the Campanile throws no longer, and the lowest building in the city is higher than the labor of the masons. Never again shall thou and I, my daughter, let our boat drift in the blue waters of the bay and watch the setting sun lay a crown of splendid rays on the bright angel—that angel who for countless years has watched the white sails of the Venetian craft come and go! Never again—but I grow confused. The tower, indeed, she loves thee! 'Tis the old marvel—how a maid's heart is stronger than her native land!"

His mind began to wander.

The old voice trailed off into a dying whisper, for other doors had opened, and through them Jacopo had passed.—Illustrated Pitts.

**WHO SHE WAS**

**SKETCH OF THE LIFE OF LYDIA E. PINKHAM**  
And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused It to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose maiden name was Estes, was born in Lynn, Mass., February 9th, 1819, coming from a good old Quaker family. For some years she taught school, and became known as a woman of an alert

restored the family fortune. They argued that the medicine which was so good for their woman friends and neighbors was equally good for the women of the whole world.

The Pinkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and herbs were steeped on the stove, gradually filling a gross of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphlets setting forth the merits of the medicine, now called Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkham sons in Boston, New York, and Brooklyn.

The wonderful curative properties of the medicine were, to a great extent, self-advertising, for whoever used it recommended it to others, and the demand gradually increased.

In 1877, by combined efforts the family had saved enough money to commence newspaper advertising and from that time the growth and success of the enterprise were assured, until today Lydia E. Pinkham and her Vegetable Compound have become household words everywhere, and many tons of roots and herbs are used annually in its manufacture.

Lydia E. Pinkham herself did not live to see the great success of this work. She passed her reward years ago, but not till she had provided means for continuing her work as effectively as she could have done herself.

During her long and eventful experience she was ever methodical in her work and she was always careful to preserve a record of every treatment and result. The case of every sick woman who applied to her for advice—and there were thousands—received careful study, and the details, including every remedy used, and results, were recorded for future reference, and to-day these records, together with hundreds of thousands made since, are available to sick women the world over, and represent a vast collaboration of information regarding the treatment of woman's ills, which for authenticity and accuracy can hardly be equaled in any library in the world.

With Lydia E. Pinkham worked her daughter, and the present Mrs. Pinkham. She was carefully instructed in all her hard-won knowledge, and for years she assisted her in her vast correspondence.

To her hands naturally fell the direction of the work when its originator passed away. For nearly twenty-five years she has continued it, and nothing in the work shows when the first Lydia E. Pinkham dropped her pen, and the present Mrs. Pinkham, now the mother of a large family, took it up. With women assistants, some as capable as herself, the present Mrs. Pinkham continues this great work, and probably from the office of no other person have so many women been advised how to regain health. Sick women, this advice is "Yours for Health" freely given if you only write to ask for it.

Such is the history of Lydia E. Pinkham's Vegetable Compound; made from simple roots and herbs; the one great medicine for women's ailments, and the fitting monument to the noble woman whose name it bears.

investigating mind, an earnest seeker after knowledge, and above all, possessed of a wonderfully sympathetic nature.

In 1843 she married Isaac Pinkham, a builder and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and a daughter.

In those good old fashioned days it was common for mothers to make their own home medicines from roots and herbs, nature's own remedies—calling in a physician only in specially urgent cases. By tradition and experience many of them gained a wonderful knowledge of the curative properties of the various roots and herbs.

Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and their uses in disease. She maintained that just as nature so bountifully provides in the harvest fields and orchards vegetable foods of all kinds; so, if we but take the pains to find them, in the roots and herbs of the field there are remedies expressly designed to cure the various ills and weaknesses of the body, and it was her pleasure to search these out, and prepare simple and effective medicines for her own family and friends.

Chief of these was a rare combination of the choicest medicinal roots and herbs found best adapted for the cure of the ills and weaknesses peculiar to the female sex, and Lydia E. Pinkham's friends and neighbors learned that her compound relieved and cured, and it became quite popular among them.

All this so far was done freely, without money and without price, as a labor of love.

But in 1873 the financial crisis struck Lynn. Its length and severity were too much for the large real estate interests of the Pinkham family, as this class of business suffered most from fearful depression, so when the Centennial year dawned it found their property swept away. Some other source of income had to be found.

At this point Lydia E. Pinkham's Vegetable Compound was made known to the world.

The three sons and the daughter, with their mother, combined forces to

**The Penalties Of The Maryland Anti-Bribery Law.**

If any person shall give, offer or promise anything directly or indirectly, at any time, that is before or on the Day of Election, he shall suffer for the following punishment:

- First: The loss of the right to vote, forever.
- Second: The disqualification to hold office, forever.
- Third: Imprisonment in jail or penitentiary.
- Fourth: A fine of \$500. He shall be liable to the informer.

**READ THE WARNING.**

Beware of the Dangerous and may break loose. Here is some law that our readers have asked us to state as we promised in last issue.

The Constitution makes the giver and the taker both guilty of Bribery, while the statute punishes the giver only. But even under the constitution the voter may promise or offer to vote for reward and yet not be guilty until he receives the same.

On the other hand "If any person shall give or offer to give directly or indirectly any bribe, present or reward any promise, or any security for the payment of, or the delivery of any money, or any other thing to induce any voter to refrain from casting his vote or to prevent him in any way from voting or to procure a vote for any candidate, the person giving or offering to give—shall on conviction in a Court of Law in addition to the penalties, now or hereafter imposed by law be Forever Disqualified to hold any office of profit or Trust, or to vote at any election thereafter." This "offer" or "promise" at any time before, or on the day of election subjects the maker to the severest kind of punishment. Now the man who makes the promise directly or indirectly, to get a voter to stay home or go hunting is as guilty as the man who bargains and pays for the votes cast. Loss of the right to vote and to hold office are severe and degrading penalties.

But the Constitution does not contain all the penalty. The criminal law of the State expressly says, "if any person whatever shall at any time before or on the day of election," make these promises or gifts, is also liable to imprisonment and a fine of \$500.00. We would advise our readers to remember the fact that half of the fine goes to the informer. There is chance for a detective to make a good day's work.

This same statute is so careful to preserve the honesty of our elections, that it also imposes punishment upon persons who keep a place "where any victuals or intoxicating liquors shall be gratuitously given or dealt out to voters." But that is not all. The election law punishes with confinement in jail or the penitentiary, "any one who shall, by force, threat, menace, intimidation, bribery or reward, or offer or promise thereof, or otherwise unlawfully, either directly or indirectly, influence or attempt to influence any voter in giving his vote; or prevent or hinder, or attempt to prevent or hinder any qualified voter from freely exercising his right of suffrage; or by any such means, induce any such voter to exercise any such right."

Now there is law enough and punishment degrading enough to satisfy the severest moralist. What then do we need; Punishment? Yes if necessary. But can we punish Christian citizens? Such things have been done when they steal; and we can try it when they rob us of our greater right of suffrage and honest government for the protection of "unalienable rights of life, liberty and the pursuit of happiness."

Here is what it needs; courage on the part of officers, who are under sworn duty to keep and enforce the law and constitution, and the help of honest citizens who are under every moral and civil obligation to do likewise. But there is the rub. We have so many who think it is all there is of honesty to make money, pay their debts and give to religious and philanthropic causes. But all these qualities admirable as they are, only make a part of the character of the honest man.

Of all crimes, bribery is about the most dangerous to the State.

We Trust Doctors. If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it. Unless there is daily action of the bowels, no medicine is of any benefit, causing headache, dizziness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its work. Ayer's Pills are liver pills. Act gently, all vegetables. Made by J. C. Ayer & Co., Lowell, Mass. Also: HAIR VIGOR, BROWNING, ANTI-CURE, CHERRY PECTORAL. We have no agents! We publish the formulae of all our medicines.

## RAMON'S BROWNIE CALENDAR.

One Of The Handsomest 1907 Calendars  
Gotten Out For The Year.

The Ramon's Brownie Calendar of  
for 1907 is almost an education within  
itself, containing a vast amount of  
useful information. This Calendar  
consists of twelve pages, 12x18 inches,  
handsomely printed in three colors on  
best paper. One inch figures show the  
days so plainly as to be easily read  
across the largest room. Holidays are  
in red. Changes of the moon, weather  
conditions, length of days, church  
festive days, signs of the zodiac, and  
much other useful knowledge. This  
beautiful Calendar usually sells for  
ten cents and will be mailed on re-  
ceipt of stamps direct from Brown  
Mfg. Co. Greeneville, Tenn. Ask your  
druggist and he will tell you how to  
get one free. Dr. Ellegood.

An Oklahoma girl advertised for a  
husband and got him. The total ex-  
pense for advertising, wedding outfit  
etc., was eleven dollars. He died  
within a year leaving her an insur-  
ance policy of \$10,000. Any yet some  
people claim that it doesn't pay to  
advertise.—Ex.

## Wounds, Bruises And Burns.

By applying an antiseptic dressing to  
wounds, bruises, burns and like  
injuries before inflammation sets in,  
they may be healed without maturation  
and in about one third the time  
required by the old treatment. This  
is the greatest discovery and triumph  
of modern surgery. Chamberlain's  
Pain Balm acts on this same princi-  
ple. It is an antiseptic and when ap-  
plied to such injuries, causes them  
to heal very quickly. It also allays  
the pain and soreness and prevents  
any danger of blood poisoning. Keep  
a bottle of Pain Balm in your home  
and it will save you time and mon-  
ey, not to mention the inconvenience  
and suffering such injuries entail.  
For sale by C. L. Dickerson and G.  
Hearne.

comes from bad blood. Pimples on  
the face, Acne, Liver Spots, Sallow  
Skin, dark rings about the eyes, sick  
headache, pale, wornout looks, dizzi-  
ness, will all disappear if you take a  
treatment of Ramon's Liver Pills and  
Tonic Pellets, for sale at Dr. Ellegood  
and put your blood in good con-  
dition. This Treatment does not force  
things—the Pill touches the Liver,  
purges it to action; the Pellet, fol-  
lowing, purely vegetable, strengthens  
and aids the bowels and digestive or-  
gans. Beware of violent purgatives.  
Ask for Ramon's—it is the only com-  
bined Treatment put up in this way  
on the market. Entire Treatment, 25  
cents.

—Brigadier Alexander M. Damon,  
of the Salvation Army forces in Phil-  
adelphia who has recently assumed  
command is preparing for a campaign  
to interest residents of this city and  
vicinity in the army work. He says  
the army overates twenty five corps,  
institutions and departments here and  
is reaching thousands of men and  
women who are not influenced by  
other religious workers. Brigadier  
Damon is circulating literature con-  
taining indorsements of the army's  
work from a number of noted men in  
this country and abroad. Governor  
Pennypacker is quoted as saying:  
"Your efforts to accomplish good in  
the world and to make men better  
ought everywhere to meet with the  
success they deserve."

"I feel as if I should fly to pieces."  
How often those words are on a  
woman's lips. They express to the  
utmost the nerve raked condition  
of the body, which makes life a daily  
martynodum.

"If this condition had come suddenly  
it would have been unbearable. But  
the transition was gradual. A little  
more strain each day on the nerves  
A little more drain each day of the  
vitality. Any woman would be glad  
to be rid of such a condition. Every  
woman tries to be rid of it. Thou-  
sands of such women have been cured  
by Dr. Pierce's treatment with his  
"Favorite Prescription" when local  
doctors had entirely failed to cure.  
"Favorite Prescription" contains  
no opium, cocaine or other narcotic.

—Can you tell me at what time of  
the day occurred the fall of our first  
parents? "I believe it was agreed  
on by all authorities that the serpent  
began his efforts for the fall you men-  
tion toward Eve."—Baltimore Ameri-

## Devastation.

New Orleans.—More than two hun-  
dred lives were lost on land and sea,  
and above fifty millions dollar's worth  
of property ruined by the hurricane  
that swept the American shore of the  
Gulf of Mexico during the last week  
of September. Mobile and Pensacola  
suffered more severely than other  
coast cities. New Orleans' loss is  
trifling by comparison. Dozens of  
big ships and hundreds of smaller  
craft were severely damaged or wreck-  
ed and sunk outright. A dozen or  
more lighthouses were thrown down  
and their keepers in many cases kil-  
led. Many lifelines are missing. For  
months the Gulf will be dotted with  
derelicts, victims of the storm. Five  
millions will cover Pensacola's loss,  
three millions Mobile's, a hundred  
thousand that of New Orleans. The  
greatest injury was done to number-  
less smaller towns and hamlets along  
the coast, to fields of standing cot-  
ton, to railroads and to turpentine  
forests. Cotton men estimate losses  
of that crop at twenty five millions,  
turpentine men figure the damage to  
that industry, which cannot be re-  
paired for a decade, at ten millions,  
and harvest and shipping bring up the  
total with fifteen millions.—Ridg-  
ways.

## HERE'S WHAT'S WANTED.

A Citizen Of Salisbury Supplies The in-  
formation.  
A Citizen of Salisbury Supplies the  
Information.  
Over half the complaints of man-  
kind originate with the kidneys.  
A slight touch of backache at first,  
Twinges and shooting pains in the  
loins follow. They must be checked,  
they lead to graver complications.  
The sufferer seeks relief.  
Plasters are tried, and liniments  
for the back.  
So called kidney cures which do not  
cure.  
The long looked for result seems  
unattainable.  
If you suffer, do you want relief?  
Follow the plan adopted by this  
Salisbury citizen.

J. T. Hayman, bookkeeper, residing  
at the corner of Chestnut and Park  
Streets, says: "Having been afflicted  
for some time with an aching in the  
small of my back and other troubles  
which indicated disordered kidneys,  
I tried a box of Doan's Kidney Pills  
from White and Leonard's Drug Store  
and finding that they gave me great  
relief, I continued taking them and  
I consider my condition much improv-  
ed."

For sale by all dealers. Price 50  
cents. Foster—Milburn Co., Buffalo,

MAY 15TH, 1906.

Your Night Caps were almost thrust upon me by a friend who evidently  
knew a thing or two. Shortly after the middle of last January I was in a state of  
almost complete nervous exhaustion, arising from excessive business effort, re-  
sulting in insupportable sleep and mental depression. My physician for two months  
tried me, at a large expense, for nervous prostration, advised complete rest  
as an indefinite period. At that time, a vacation was impossible. Fortunately  
I was then introduced to Night Caps. Skepticism I tried them. One-half a  
box seemed to brace my nerves within a week I could sleep. With sleep  
came a return of normal health and I feel like myself again. I have recovered my  
normal weight. You may be very sure that I never keep Night Caps constantly on  
hand, particularly as an assistant in case of over indulgence at table. If at any  
time you should deem it wise, or to your advantage, to refer anyone to me, do so,  
I will be very glad to write inquirers about it. I would not, however, had you  
instruct them to enclose stamp for reply, for I have reason to believe that I might  
find myself financially embarrassed if inquiries come from all who need your  
remedy. Kindly withhold this letter from publication. Believe me,  
Very truly yours,

KELLY

Mrs. Martha Avery's and mother started for Mr. James Livingston's last Wednesday was a week. When they got to the farm of Mr. Marion Ward's farm a large goose hawk flew up along the road and struck at the horse, but missed him and came down on the ground. Mrs. Avery got out of the carriage and stamped it to death. The hawk measured 4 feet.

Mr. and Mrs. Alfred Reddish and Mr. and Mrs. Eddie Murrell Kelley spent Sunday with Mr. and Mrs. William Hales near Piney Grove.

Mr. and Mrs. Marion Ward and family spent Sunday with Mr. and Mrs. Gullie Matthews.

Mr. and Mrs. Marion Collins and little daughter, Emma, spent Sunday with her parents, Mr. and Mrs. J. Mitchell Collins near Salisbury.

Well it is nearly time to commence husking corn. Whatever we sow that shall we reap. This is true but some of the farmers will not reap much corn this year.

Mrs. John E. Freeny, Jr., has been spending a few days in Salisbury this past week with her parents on account of her sister's being ill with the typhoid fever.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by the constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75 cents. Take Hall's Family Pills for constipation.

POWELLVILLE.

Uncle Jack Frost has paid us two visits in his heaviest robes.

Farmers are busy getting out potatoes.

Miss Margie R. Gray has returned home after a long visit to her sister, Mrs. Emma C. Andrews, of Cambridge.

Mrs. J. Andrews is visiting her parents, Rev. and Mrs. Gray.

Mr. Lambert Powell, who has been quite ill, is much improved. His wife is sick at this time and our people all sympathize with Mr. Powell in the loss of a valuable horse some time ago. The horse was being driven by Mr. Jefferson Davis, when suddenly two angry swarms of bees attacked the horse and stung him to death. Mr. Davis ran for his life but was also stung very badly.

On last Wednesday evening a beautiful wedding took place at the Wango M. E. Church, the contracting parties being Miss Bertha Parker of Wango, Md., and Mr. John W. Fryor, of Eden, Md. The church was handsomely trimmed with flowers and the ceremony was performed by Rev. J. W. Gray. Mr. Fryor is a prosperous young farmer and we wish him and his beautiful bride a long and happy life.

Preaching Sabbath at Mt. Pleasant. A. M. Willards, 3:00 P. M. "God's Method of Raising a Man To Do His Best." At Wango, 7:30, subject "The State of a Sinner." The protracted meeting begins the same evening at Wango.

The Wango Schools will have an entertainment this evening. All are invited.

Cozy Homes.

The discovery of a new wick principle—so effective and yet so simple that it's a wonder no one thought of it before—has so revolutionized the manufacture of oil heaters and lamps that explosions, smoke and smell, caused by imperfect wick arrangement, may safely be regarded as things of the past.

This new wick attachment is to be found on the Perfection Oil Heater. Interesting tests show that, although the heater gives intense heat, the wick cannot be turned too high or too low—absolute safety thus being assured. One other feature which is worthy of mention is the smokeless device which prevents all smoke and odor. The portability of the heater also commends it for general household use. Heater is very light and can be easily carried about. Its simple operation, usefulness in heating water and warming cold rooms make it a most handy and useful article in any home. This heater is so far superior to other oil heaters and is of such fair price that its universal adoption is but a matter of time.

The Rayo Lamp, which is made by the manufacturers of the Perfection Oil Heater, is without doubt, the best lamp for all-round household use. Is equipped with the latest improved burner, and gives a bright, steady light at small cost. Suitable for any room, whether library, dining room, parlor or bedroom.

Action Of The Presbyterian Session On Mr. Benjamin's Death.

Action of the Session of the Wicomico Presbyterian Church taken Oct. 15, 1906, with reference to the death of Mr. Albert J. Benjamin.

Whereas, it has pleased the Great Head of the Church to remove from the midst of us our colleague in the eldership, the Clerk of the Session, Mr. Albert J. Benjamin, we would put on record our high appreciation of his labors among us. As a member of Session he was prompt and regular in his attendance upon its meetings, deeply interested in the promotion of the peace and prosperity of the Church, taking an active part in the work of the Sabbath School and the improvement of its choir. As the Clerk of the Session, he was efficient and painstaking, taking pride in the recording and preservation of the history of the Church. While we mourn our great loss, we yet acquiesce in the Divine Will, recognizing in it a call to increased fidelity as our part, praying that the consolation of God may be multiplied to the bereaved family of our brother, and that this Divine Providence may result in the quickening of the piety of the Church and drawing the membership more closely in the bonds of Christian Love.

## Drugs and Chemicals

ARE NEEDED EVERY DAY

### In the Kitchen

VANILLA, for ice cream, for instance;  
BAKING POWDER, for cakes.

One is a drug, of course; the other a "chemical"; and there are still others—SPICES of all kinds, cream of tartar, etc.

The best place to get drugs is at a DRUG STORE. The druggist knows more about them than other people.

We keep a good Drug Store. Come and ask us about Kitchen Drugs.

## MARYLAND FARMS.

Fifteen farms at a sacrifice. Buildings on all. Plenty of wood and timber to sup or them: Good water, fine oil mine, two railroads, good schools and churches. Near the ocean, abundance of water products. Ideal for horticulture. Harrison's trees are a sample of what they will produce. Climate modified by ocean and bay. Come and look, we'll be glad to show you. Farms of 100 to 1,000 acres. Six thousand acres at an average of \$10 to \$20 per acre. The Eastern Shore of Maryland, because of its position, is becoming the garden of the Southern and Eastern cities; so these farms are only temporary. Why go to the wilds and spend your money making a farm and a home, when you can buy a better climate and better markets, you can immediately have what you want? Yours truly,

## TO ALL DEMOCRATS.

Official Instructions For Marking Your Ballot According To The Law.

Election Day will be Tuesday, November 6th. In the counties the polls will be open at 8 o'clock a. m. and close at 6 o'clock P. M.

It is our hope that every registered Democrat will go to the polls as early as he can and vote.

See that the ballot given you has endorsed upon it the initials of the Judge from whom you received it.

See that the judge who gives you the ballot calls out your name and residence in a distinct voice.

Vote the ticket by marking a cross (X) mark in the space provided there for to the right of and opposite the name of the Democratic Candidate for Congress.

Make the cross (X) mark entirely within the square provided for the purpose; namely, to the right of the name of the Democratic Candidate for Congress.

The Court of Appeals has decided that the cross mark must be made entirely within the square and not extend beyond it in any way.

Do not make any other mark whatever on the ballot; if you do your ballot, WILL NOT BE COUNTED.

Any mark whatever on the ballot except the cross mark (X) whether in the square or out of it, will cause the ballot to be rejected.

Do not make a dot or circle on any other mark but a cross (X) mark in the square.

If you mark any square on your ballot within any kind of mark other than the cross (X) mark ENTIRELY within the square, your ballot WILL NOT BE COUNTED.

Be sure not to deface or tear your ballot in any way.

If you make a mistake in marking it, do not attempt to make a correction; return it to the Judge and get another. You are entitled to a third ballot if the first two have been spoiled and returned, but you must not consume more than seven minutes in marking it.

Mark your ballot with indelible pencil which you will find in the election booth.

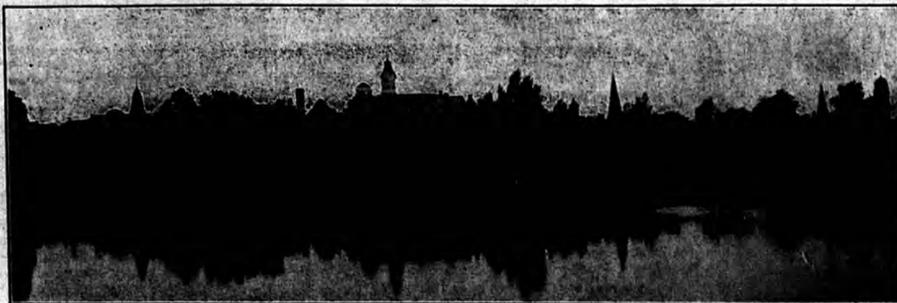

Do not use your own pencil; your ballot will not be counted if you do.

After marking your ballot fold it exactly as it was folded when handed to you by the Judge, and give it to the ballot Judge without permitting anyone to see how you have marked it.

See that the Judge tears off the coupon and deposits the ballot in the ballot box before you leave the room.

**MURRAY VANDIVER,** Chairman State Central Committee.

## TRUSTS OR PEOPLE

Who Are You Going To Vote For? An Important Question.

Amid the multiplicity of issues there is one so broad and clear that the attitude of Congressional candidates upon this question shows whether they are really with the People or with the Trusts. That question is: Shall a system be re-established whereby the people may vote direct on national issues?

All the Congressional candidates throughout the country have been asked the question by the undersigned, the National Federation for the People's Rule, a non-partisan organization representing organized farmers, wage-earners and other classes, except the monopolist.

The attitude of the Democratic congressional candidate in your district, Hon. Thos. A. Smith, is yes.

A voter's unfailing guide is whether a candidate will promise to restore his political power. If the candidate refuses he is clearly against him. If he promises he is with him.

You see it is not a question of Republicanism but whether the Trusts or the People are to be represented. Which candidate in your district is receiving the Trusts' support? Which will receive your support?

For the first time since the war of the Revolution the Paramount issue is the people's right to self-government, and the issue is clearly drawn.

—Mr. John W. Goslee, of near Siloam, died last Saturday of typhoid fever. He was 37 years old and leaves a widow and one child. The funeral services were held last Monday morning at Siloam Church at 11 o'clock by Rev. Mr. White, of Fruitland. The remains were interred in the Church cemetery.

### Yingling-Hastings.

A beautiful wedding was solemnized at the home of Mr. and Mrs. Levin Hastings, Thursday evening when their daughter, Susie Mae, became the bride of Mr. Samuel M. Yingling in the presence of a large number of relatives and friends of the bridal pair. The ceremony was performed by the Rev. J. M. Yingling, father of the groom. The bride was exquisitely gowned in a costume of brocade's net over white china silk, and carried bride roses and asparagus ferns. The maid of honor, Miss Lillian Ellis and the bride's maid Miss Blanche Marvel wore white net and carried pink carnations. Mr. C. Norman Jefferson was best man and Mr. Ray German, groomsmen. The wedding march was played by Mrs. J. M. Yingling.

The house decorations were in pink and green. A reception to all present followed the ceremony. The floral adornments of the table were ferns and roses.

Among the out of town guests were Miss Mary Casey and Miss Viola Casey, of Wilmington; Mr. and Mrs. Kelly, of Virginia; Miss Minnie Hearn, Salisbury, Md.; Mr. and Mrs. W. B. Gordy, Miss Nola Yingling, Miss Mamie Horsey, Miss Sallie Horsey, Miss Carroll Yingling, Mr. Jack Horsey and Mr. Andrew Horsey, of Laurel, Del.

Many beautiful and useful wedding gifts were received. After making a few visits near home they will take a southern trip extending as far south as Florida. They will make their home in Delmar.

### In Memory of Mr. Benjamin.

At a meeting of the directors of the Wicomico Building & Loan Association this week members paid tribute to the memory of the late Mr. A. J. Benjamin, who was a director of the institution at the time of his death; and it was ordered that the following minute should be placed upon the records:

Resolved, That the Directors of the Wicomico Building & Loan Association of Salisbury, Maryland, hereby record the deep sense of our great loss in the death of our fellow-director, Mr. Albert J. Benjamin, whose services to the Association were of the highest order, and whose absence will long be felt. We can no longer enjoy the benefits of his calm and kindly wisdom, and we shall sadly miss the companionship of a man whose gentle amiability and modest worth bound to him with inflexible bonds those who knew him best.

### Tilghman-Mercer.

Mr. Ernest M. Tilghman, of Elm City, N. C., was married to Miss May Fort Mercer, daughter of Dr. W. P. Mercer, of North Carolina, in Temperanceville Hall, M. E. Church, Edgemont County, N. C., last Wednesday. They left for a Northern tour immediately after the ceremony and on their return, a week or ten days from now, they will stop in Wicomico for a few days. Mr. Tilghman is the son of Mr. Geo. Tilghman of this county and has many friends and relatives here. He has been connected with the Dennis, Simmons Lumber Co. for the past 10 years.

### Bailey-Anderson.

One of the prettiest of fall weddings was solemnized Tuesday at high noon, when Miss Lula Mae Bailey, daughter of Mr. and Mrs. Oscar Bailey of Clayton, Del., was married to Mr. John Anderson, of Philadelphia.

The ceremony was performed at the home of the bride by the Rev. G. C. Smith, in the presence of a large number of friends. The bride and groom entered the parlor which was beautifully decorated with palms and cut flowers. Miss Lillian Boggs played Lohegrin's Wedding March as the entrance and "Hearts and Flowers" during the ceremony, with Mendelssohn's March afterwards. The bride was handsomely gowned in a white Point de Spirit trimmed with satin ribbons over white satin and carried a large bouquet of white carnations and maidenhair fern. Immediately after the ceremony a wedding breakfast was served after which Mr. and Mrs. Anderson left on the four o'clock express for an extended trip to New York and Niagara Falls. Upon their return they will make their future home in Philadelphia and will be at home to their friends after November 19th, and will receive on Tuesday during November.

## SALISBURY THE FAIREST

City in The United States. This Sounds Nice And It Looks True. Doesn't It.

Speaking editorially of the recent State Christian Endeavor Convention held in Salisbury last week, Monday's Baltimore American says:

"Members of the association from Baltimore and from Western Maryland went to Salisbury expecting to find the average straggling village of the average rural section and were generally surprised when they encountered an embryo city, not only set in a most attractive environment of arboreal greenery, but lit with electric lights, paved as to the main thoroughfares—or in readiness to be paved—with vitrified brick, a city of fine churches, beautiful homes and possessing, all in all, that evidence of caring about appearances which distinguishes ever the progressive community from the unprogressive, whether the community in consideration be one of less than 10,000 population or more than half a million.

William Jennings Bryan, it is related, said of Salisbury, when he visited the town in 1900, that it was the most beautiful town he had ever seen. Mr. Bryan's opinions on some other topics are not accepted in Salisbury without a division, but there is a universal agreement there that in picking out the fairest town in the whole United States Mr. Bryan's good taste and acuteness of judgment are unimpeachable. Salisbury is a very up to date town, in all ways lovely, and Salisbury knows it.

There are other Eastern Shore towns that are disputing precedence with Salisbury, however, both as to beauty of environment and as to up to date progressiveness. There are, for instance, Cambridge, Easton and quaint old Chestertown, not to mention some of the newer and very bustling centers like Crisfield and Pocomoke City. The fact of the matter is, without attempting to arrive at any invidious conclusion as to which of the Eastern Shore towns is fairest or most progressive that Salisbury is typical of a general progress that has distinguished the Eastern Shore of Maryland during the last quarter of a century. The entire peninsula between the Bay, which takes Delaware into the coast, is dotted with fine towns and villages from Elkton, on the north to Crisfield on the South.

The property and progress on the Eastern Shore does not pertain to the towns alone. There has been a wonderful development during the past two decades in the farming industries, especially in the direction of horticulture and fruit growing. In some of the counties land sections have doubled and then doubled again in value. The farmers, as they have prospered, have built attractive homes, and there is in all parts of the Eastern Shore, from Cecil and Kent, on the north to Somerset and Worcester on the South to be observed along all of the rural ways tastefully planned houses set in tree clusters of the end of well kept lawns. The Eastern Shore has struck a lively pace in the march of progress and is showing capacity to keep to the pace."

## LARGE DEMOCRATIC

Gathering Hears Rayner And Smith. Vote Buying Scored.

Denton Oct. 24—Senator Isidor Rayner and Congressman Thomas A. Smith addressed a large Democratic mass meeting here this afternoon. The crowd was one of the largest that ever assembled in his own to attend a political gathering.

In his address Mr. Rayner spoke of the value that Mr. Smith had been to his constituency, and alluded to him in the most flattering terms as a man and a gentleman. He roundly scolded the buying of votes, and alluded to the reports that money is being liberally used in this campaign to defeat Mr. Smith. He was warmly received.

Mr. Smith in his address took up the charge that he is a Pennsylvania Railroad man, and said that his record in the State Senate would show how he stood on that question. He said he supported the bill to charter the Queen Anne's Railroad, despite the strong opposition of the Pennsylvania Railroad. He also pointed to his record on the rate regulation bill in Congress in refutation of the charge that he is a railroad man.

### Proceedings of Orphans' Court.

The Orphans' Court for Wicomico county was in session Tuesday.

The will of Mary H. Bailey, wife of Silas E. Bailey, was probated. The will makes the following bequest:

To her three youngest daughters, Mamie, Riddle and Bessie Bailey, the house and lot where deceased resided at the time of her death; to Martha E. Jones, vacant lot in South Salisbury; to Anna P. Jones, vacant lot in South Salisbury; to George E. Bailey and Reuben P. Bailey, the residue of the land on Locust street, South Salisbury.

After making bequests of various items of personal property to the daughters, the residue of the personal property is left to George E. and Reuben P. Bailey, who are made executors.

Mrs. Rosie E. Taylor, guardian of Norwood and Bernice Taylor, filed bond for one thousand dollars.

An inventory of the personal property of A. J. Benjamin was filed. This is appraised at \$9,610.00.

### Heritage of the Maryland Christian Endeavor Convention.

Several of the people of Salisbury who entertained Endeavorers during the Convention have had letters from their guests, expressing their appreciation for the cordial welcome they received and for the hospitable manner in which they were entertained and showing their surprise at the growing and thrifty condition of the town. The Convention was a splendid advertisement for Salisbury and we believe the results will be wide and far reaching.

The Baltimore American gave us an editorial last Monday, which appears in this issue, which practically expresses the opinion of all the Endeavorers present, concerning our town.

### Proceedings of County Commissioners

The County Commissioners met last Tuesday and transacted considerable routine business.

A petition for a new road in Parsons District, beginning at Zion Church and running in a southerly direction to the Parsonsburg road, and thence south westerly to Jones' road between lands of John T. Laak and John Winbrow and intersecting said Jones' road was petitioned for by E. S. Truitt, J. B. Perdue and P. S. Shockley were appointed examiners.

There being no objection to the report of the commission on road petitioned for in Barren Creek District through lands of L. L. Bonds and W. F. Towers, the report was ratified.

The clerk reported that no bids had been received for building the two miles of road in Nutter's District.

CHILD'S AWFUL SKIN HUMOR

Screamed with Pain—Suffering Nearly Broke Parent's Heart—Twelve Years of Misery—Doctor Called Case Incurable—Helped from First, and

SPEEDILY CURED BY CUTICURA REMEDIES

"I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with my son. As an infant I noticed his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep. "One doctor told me that my son's eczema was incurable and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial. "I tell you that Cuticura Ointment is worth its weight in gold; and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Ointment, and Resolvent my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. (signed) Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

Complete External and Internal Treatment for every form of Eczema, Psoriasis, Scabies, etc., consisting of Cuticura Soap, Ointment, Resolvent, and the Cuticura Pills. A single set often cures. For full particulars, send for our "How to Cure Children's Skin" and "How to Cure Eczema of Children."

THE TOPIC OF THE DAY.

The Terrific Chasm-vaulting Feat of Alpha And Omega.
According to all accounts, The Frank A. Robbins Co. All New Great Feature Shows, which are to appear at Salisbury, on Wednesday, October 31st, are coming with a big special train load of new, strange and amusement-breeding features, including, as one of the world's most marvelous, electrifying and hair-raising novelties, the simultaneous rival feat of Alpha and Omega, in making a flying cycle leap of fifty feet across a broken, thread-like bicycle track, some idea of the supreme sensation in store for all may be gained from the New York Evening Journal summary of this marvelous and daring performance, as follows:
Mounted upon bicycles of the ordinary safety pattern, and grasping the handle bars with a grip of steel, Alpha and Omega start from a platform forty five feet from the ground. Before them lies, at an incline of forty five degrees, a board path, less than three feet wide and a hundred feet in length, which at the bottom ends in a sharp upward curve, directly in line with and separated by a break of some fifty feet from another platform ten feet above the ground. A gentle shove from an attendant and they are off on a brief but fearsome journey, the ending of which no one, not even themselves, can foretell. Should their wheels swerve a single inch from the required direction, or they for the fraction of a second lose unflinching coolness, absolute perfection of control, concentration of instantaneous observation and supreme self-possession, deadly disaster rides with them. So rapidly do they gather speed in their furiously fast descent that they flash like a misty streak across the sight, and almost in the twinkling of an eye have reached the summit of the curve referred to, and they and their wheels soar upward and headlong high in the air. The momentum decreases until they seem to hover in space, then the bicycles dive downward, and, directed by an instantaneous delicateness of manipulation, imperceptible to the dazed and dumfounded onlookers, land on the receiving platform, which their two wheels must strike at practically the same moment, as otherwise there would be a dreadful finish, right then and there. But seemingly superhuman nerve and skill have triumphed, and Alpha and Omega, ride placidly down a gentle incline, after what might not inappropriately be termed a race with death.

THE TOPIC OF THE DAY.

Baked Chowder.
This chowder can be made from cold boiled fish and cold potatoes. Flake enough of the fish to make two cups and cut four large potatoes into dice. Make two cups of white sauce, chop one onion fine and mince enough parsley to measure one level teaspoon. Put these into a buttered baking dish in layers. Put the sauce in first then the fish, potatoes, onion, and last the parsley and a seasoning of salt and pepper. Make at least two layers of each kind. Finish the top with sauce, sprinkle with fine bread crumbs, and put in a hot oven for about twenty minutes.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.
For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.
Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvellously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, biliousness, or biliousness, and kindred derangements.
If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidney, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.
The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."
Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by the constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circular, free.
F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75 cents. Take Hall's Family Pills for constipation.
When a horse picks up a nail in his foot what does the driver do? He whips the limping, lagging animal and forces him along? Not unless he wants to ruin the horse. At the first sign of lameness he jumps down, examines the foot and carefully removes the cause of the lameness. What is called "weak stomach" is like the lameness of the horse, only to be cured by removing the cause of the trouble. If you stimulate the stomach with "whiskey medicines" you keep it going, but every day the condition is growing worse. A few doses sometimes of Dr. Pierce's Golden Medical Discovery will put the disordered stomach and its allied organs of digestion and nutrition in perfect condition. Ninety eight times in every hundred "Golden Medical Discovery" will cure the worst ailments originating in diseases of the stomach, making it healthy. It almost always cures. To cure constipation use Dr. Pierce's Pleasant Pellets. They are pure.

**DAIRY AND CREAMERY**

**CAUSE OF FLAVORS IN CHERSE.**

Taints Are Usually Imparted to Milk During or After Milking.

Good flavor in cheese commands a ready market at remunerative prices, while poor flavor condemns it and no one seeks it at any price. Flavor as applied to cheese is distinguished by taste and sense of smell. Off flavor is the term usually applied to a variety of bad odors in cheese and customarily refers to the well-known characteristic odors which indicate early deterioration in the product. The faulty flavors may be divided into two general classes—those derived from taints imparted to the milk through the injudicious feeding of unsuitable feed to the cows and those derived from taints imparted to the milk through germs that get into the milk during and after milking. Flavors of the first class are less common than dairy-men generally believe and may be avoided in most instances by careful feeding. Certain feeds, however, such as leeks, cabbage, onions, turnips, rye, and rape when eaten by cows, impart unpleasant flavors to the milk which are retained by the majority of consumers. Too often the cause of flavors and taints of the second class are assigned to the feed of the cow, while the actual cause of the tainted, gassy conditions of the milk and cheese curds is due to the carelessness and filthy conditions under which the milk is drawn and kept before it reaches the factory.

**The Feed For Calves.**

It is not advisable to mix corn, kafir-corn or any other starchy feed with milk fed to calves. While the starch in the grain takes the place of fat in milk, its form must be changed to sugar before it is digestible. This change is effected by the alkaline fluids and chiefly by the saliva of the mouth. If the grain is gaped down with the milk, there is no time for the saliva to act and as the gastric juice of the stomach is acid instead of alkaline, the starch is not acted upon until it reaches the intestines. The intestines of a calf are comparatively short and complete digestion cannot take place. In this respect a calf differs from a hog, which has a comparatively small stomach and long intestines. The hog may gobble down its starchy food without waiting for it to be acted upon by the saliva in the mouth and it will be digested in the intestines.

**Breeding Dairy Cows.**

In breeding dairy animals, the cow that can make 500 pounds of butter in a year is seldom interrogated as to whether her tongue is black or white. In the improvement of beef animals, likewise, we should pay more attention to the fundamental beef qualities and perhaps less to the color and other fancy-bred points. We must pay particular attention to the development of those parts which make the steer worth more money when fatted. There is no denying the fact that at the present time in this country the real end to be sought in breeding improved cattle is supplying a better grade of steers for fattening.

**Milk Cows in China.**

In the southern provinces of China natives use cows for plowing purposes. Milk was an unknown article when an American missionary, to the astonishment of the village milked one of the beasts of burden and drank the beverage. The discovery was as sensational as that of the roast pig, as narrated by Charles Lamb. Now many men make a living as milk sellers, but the industry is capable of immense development, for the animals are of poor breed, ignorantly attended and not numerous enough to meet the growing wants of the Chinese who, having tasted milk, like it very much.

**The Selling Cheese of To-Day.**

One of the most popular forms of cheese now on the market is called the square which is about four inches high and twelve inches long. Lightly marked off in one pound spaces, so that the retailers can cut off that weight with one stroke of the knife. These come in cakes which weigh about ten pounds, two in a box. A similar device is to take the regular twenty-pound daisy and mark it off on the top in twenty equal parts, making one pound between each mark. Such cheese comes a little higher on account of the extra cost in making them exactly ten and twenty pounds each.

**Denmark's Milk Producers.**

The Red Danish cow is the principal breed of dairy stock in Denmark. These animals are brownish red with black points. They are heavy as the Holstein and are shorter in the legs than the latter. They are good dairy cattle. In a herd of thirty cows the average annual yield is 8,700 pounds of milk and 340 pounds of butter.

**A Place to Keep Milk.**

One of the fresh-air children, says the Baltimore Sun, witnessed the milking of a cow for the first time. As milk fell into the pail he asked the farmer:

"Is that the milk we drink?"

The farmer replied and the youngster remarked:

"We keep ours in a refrigerator. Do you keep yours in that thing?"

**NO RELIGIOUS BIAS.**

**The Offender Must Suffer the Penalty For His Wrong Doing.**

A certain theatrical manager of Chicago tells of an Irish policeman in that city possessing Dogberry-like traits. On one occasion, at midnight, the custodian of the law overhauled a sleep-walker who was promenading a principle thoroughfare clad only in his night robes. When the officer had awakened the unfortunate man, placed him under arrest, and was hustling him off to the station, the sleep-walker exclaimed, with indignation:

"Surely you are not going to lock me up?"

"Sure thing you know!" airily responded the bluecoat.

"Why, man, I can't be held responsible for the predicament you find me in! I am a somnambulist!"

"Sure, it makes no difference what church ye belong to," sharply retorted the officer; "ye can't parade the streets of Chicago in your nightg!"

**A Repeater.**

John Weaver, the reform mayor of Philadelphia, was recently congratulated by a delegation of clergymen on the clean administration that he has given to the Quaker city. In the course of his reply Mayor Weaver said:

"I am glad to tell you that things with us have improved. Take, for instance, the matter of elections. A Philadelphian, some years ago was running for a small office, and on election day he went from poll to poll, cheering his supporters on.

"As he left a certain poll a shabby individual approached and shook him by the hand.

"I trust, sir," said the candidate, "that you are one of my supporters."

"One?" chuckled the shabby individual, "Why, bless your heart, I'm seven of 'em."

**Against Her Better Judgment.**

"Ain't you rather young to be left in charge of a drug store?"

"Perhaps so, ma'am; what can I do for you?"

"Do you employers know its dangerous to leave a mere boy like you in charge of such a place?"

"I am competent to serve you, madam, if you will state your wants."

"Don't they know you might poison me one?"

"There is no danger of that, madam; what can I do for you?"

"I think I had better go to the store down the street."

"I can serve you just as well as they can, and as cheaply."

"Well, you may give me a two-cent stamp, but it don't look right."

**WOMEN WHO CHARM**

**HEALTH IS THE FIRST ESSENTIAL**

It Helps Women to Win and Hold Men's Admiration, Respect and Love

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular periods, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. Chas. F. Brown, Vice-President Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark., writes:

Dear Mrs. Pinkham—

"For nine years I dragged through a miserable existence, suffering with inflammation and female weakness and worn out with pain and weariness. One day I noticed a statement by a woman suffering as I was, but who had been cured by Lydia E. Pinkham's Vegetable Compound, and I determined to try it. At the end of three months I was a different woman. Every one remarked about it, and my husband fell in love with me all over again. Lydia E. Pinkham's Vegetable Compound built up my entire system, cured the trouble, and I felt like a new woman. I am sure it will make every suffering woman strong, well and happy, as it has me."

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacements, inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Resolutions Of Respect—From Wicomico Presbyterian Church.

At a meeting of the Committee of the Wicomico Presbyterian Church held Tuesday evening, October 16, 1906, the following resolutions appropriate to the death of Albert J. Benjamin were adopted:

Whereas, It has seemed good to the Almighty disposer of events to remove from our midst our late and worthy and esteemed colleague Albert J. Benjamin, and;

Whereas, the intimate relations long held by the deceased with the members of this Committee, render it proper that we should place upon record our appreciation of his services to the Church and his merits as a man; Therefore—

Resolved, That we deplore the loss of Albert J. Benjamin, our associate, with deep feeling of regret softened only by the confident hope that his spirit is with those who, having fought the good fight here, are reaping their reward in a better world.

Resolved, that we tender to his bereaved family our sincere condolence and our earnest sympathy in their affliction at the loss of one who was a good citizen, zealous Christian, and an upright man.

Resolved, That these resolutions be spread upon the minutes, a copy thereof be transmitted to the family of the deceased, and that they be published in the local papers.

E. Laird Todd, Chairman. F. Marion Slemons, Sec'y.
