POLITICAL NOTICE!

The Democrats and Conservatives of Wicomico county are requested to meet in their several election districts, at the usual places of voting, on SATURDAY, SEPT. 18TH, 1875, at 2 1/2 o'clock, P. M., to select two delegates to represent them in the County Convention to be held in the Court House at Salisbury on the 21st of September, at the hour of 11 o'clock, A. M., to nominate candidates for one Senator, two Delegates to the Legislature, one Sheriff, one State's Attorney, three Judges of the Orphans' Court, five County Commissioners and one County Surveyor, to be voted for at the general election in November next.

H. HUMPHREYS, P. TOADVINE, A. J. CRAWFORD, State Central Committee for Wicomico county.

Local Splinters.

Watermelons, alas cholera pills will soon be dangerous to be safe with.

"O woman, have you no generosity in your soul?" is the latest tip now, when she don't talk right.

The Falls of the Wicomico have been beautiful this week, the water rushing over up even with the footway.

There is four times more beef sold in Salisbury now than five years ago, and the demand still increasing.

Our politics are no longer mixed, by foes who try their dirty tricks.—Junk.

Owing to the crowded condition of our columns, we are compelled to leave "Omoo's" letter over until next week.

Our usual amount of reading matter has been crowded out this week by a press of advertisements.

Mr. John Tracy, "mine host" of the Peninsula House, has secured several lots at Ocean City for his hotel, stables, &c.

The big circus is coming, and the small changes will soon be going. Then many a poor fellow will be circling all around sure enough.

Bacchus seems to have been on the rampage this week. Perhaps it is because this is one of the "spiritual" seasons of the year.

To have good health medicine is necessary occasionally. As a family medicine we can recommend Dr. Bull's Vegetable Pills, and advise all to have a box constantly on hand for cases of necessity.

Let no Democrat forget to attend the primary meetings to be held in the different districts on Saturday, 18th inst., and send good men unpledged to the County Convention on the 21st inst.

Hon. George R. Dennis, of the U. S. Senate, passed through Salisbury twice this week, on his way to and from Ocean City, and was as hale, hearty and affable as usual.

The circus posters, who, papered the east side of Division street, had better consult Comley's spelling book before they try his luck again. To say Wednesday in twelve inch letters, is a big mistake. Especially so when the "D" is up side down.

Our esteemed friend of the True Marylander, like a good and true democrat will not attempt to talk himself into the Senate, but will support most heartily U. Dennis.

Levin E. Ballard, Esq., the efficient caterer at the Atlantic Hotel, Ocean City, passed through town on Wednesday, on his return home, the Hotel having been closed for the season.

Our friend, Mr. Wm. J. Humphreys, has been selling the most delicious Concord grapes at eight cents per pound.—But Billy hasn't found out how well we love them yet. Office at No. 46, Main Street.

A great many of our town folks are inquisitious and love to take long walks at early morn. But some of the bulky boys seem to prefer "A starry night for a ramble." We hope they won't fall overboard.

Lost!—On Thursday afternoon, between Tilghman's Steam Mill and the Walles farm, on the road leading from Salisbury to the Wolf Hill camp ground, a water-proof cape. The finder will be liberally rewarded by returning the same to W. A. TIADLER, Salisbury, Sept. 3rd, 1875.

Opinion of Dr. Wm. A. Stokes, Physician, Mt. Hope Retreat, Baltimore. "I have great pleasure in adding my testimony to the virtues of Liebig's Liquid Extract of Beef and Tonic Invigorator as the very best preparation used and therefore confidently recommend it to the medical profession."

The wharves lying along the new channel recently dug by the dredging machine have been raised several inches by dirt taken from the river, and although they now present a rather unattractive appearance, still in a short time the owners of the wharves will see the double benefit derived from the dredging. And the great and inevitable demand for such property in the future will undoubtedly prove the increased value of it, caused by being raised.

MASONIC NOTICE.—Wicomico Lodge No. 91 of A. F. & A. M. will resume labor on Tuesday evening next at 7 1/2 o'clock. A full attendance is earnestly requested. BY ORDER.

REPAIRS NEEDED.—For quite a long time some of the pavements in town have been in a bad and unsatisfactory condition, and allowed to remain so, much to the displeasure of the public. We are glad to notice, however, that Dr. Wm. H. Rider has within the last few days performed his duty by having the much needed repairs put at the corner of Main and Division streets, and we would suggest, in the kindest spirit, the great importance of the owners, or the town commissioners, in paying the proper attention to the sidewalk extending along the great thoroughfare of Main street, from F. C. Todd's well-kept Grocery Store to the residence of Wm. Waller, Esq.

NO BRANDY IN PEACHES THIS YEAR.—Although our energetic local option friends are fond of the fruit, and agree by common consent that the saccharine matter in the peach is the most delightful and desirable part of it they will no doubt rejoice in a knowledge of the fact, that an almost total absence of it in the crop of peaches this year render it very difficult if not impossible to extract brandy from them. We obtained our information from some of our farmers who have made the attempt and failed, and who assign as the cause, the one which we here give.

CAMPMEETINGS, GROUNDS, &c.—The old folks, the young folks, the good folks, lovers of a peaceful and agreeable season, the campmeetings this season most heartily, and all have zealously tried to make much of the opportunity to plead their several causes. Some to press their rights (the old folks) no doubt have agreed to join in a protest of complaint against the different camp grounds have been found to be very desirable for the purpose used for, but the majority of visitors do not hesitate to decide in favor of the one at Leitch Branch as being the best one yet selected in the county.

TEMPERANCE SERMON.—To-morrow evening the Rev. Dr. Urie, pastor of the Methodist Episcopal Church, will favor our community with a sermon from the singular text, "Not another drop Daniel." The words are said to have been uttered by a drunkard after sinking his last penny in the alluring glass, and no doubt will be commented on by the laity. Dr. Urie is a usual forcible and convincing style, making a lasting impression on the mind and heart of the most sceptical hearer. The public are cordially invited to hear him, and especially those who are addicted to the immoderate use of intoxicating liquors.

ALMOST A DELUGE.—The frequent and almost incessant rains that have so bed the earth for several weeks past culminated on Sunday in one of the most violent torrents that has swept through our town within the last thirty years. The mad streams rushed down the streets as if impelled by the Furies, and in several places cut them so far as to render them dangerous to travel. The effect on the mill streams near the town was also very damaging, as we have learned that nearly all the dams above the Wicomico Mills (belonging to Thomas Humphreys, Esq.) were swept away. Those who have kept strict account state that the heaviest rain of the 31st inst. was the very clear day of the forty days past. Verily, it was "almost a deluge."

Our kind friend and able correspondent, Wm. M. Gaborough, Esq., having the nom de plume of "Omoo," who has interested our subscribers so often by his tersely written letters from Philadelphia, has removed from the Centennial City to the beautiful little city of Cumberland, Md., where he will continue the practice of law. Mr. G. has our best wishes, which shall follow him where ever he may go, and we trust that his return to his native State, is a proof of a noble intention to always stand hereafter south of the line, by the land of our fathers and the old Maryland homes.

JUVENILE MUSICIANS.—On Wednesday the first day of natural Autumn, there was a great sensation created among the boys of the town by the appearance of four little Italian boys carrying two harps and two violins. They wended their way from Philadelphia, partly on foot and in part as charity passengers on the freight train. As they traversed our streets, stopping to discourse sweet music wherever they could get a penny, crowds of the enthusiastic little ones flocked around them and made the scenes right lively. The condition of the little "harping minstrels" should remind our children to love hard it is for some to make their meat and bread, and how much more they ought to appreciate the pleasures and comforts of a happy home, surrounded by kind and living friends.

He also says that he has used them for a dose of constipation, and that he has derived great benefit from them.

So the drawing was completed, and every one seemed satisfied with their luck, and there is quite a flattering prospect for Ocean City to begin to grow. The drawing was entirely fair and no one had any right to complain.—We took No. 63 and have no reason to regret our choice, which was made by Judge Jackson in our absence at dinner. We requested the Judge to sign for us if we should be absent when our name was called, and we are sure we should not have done better ourselves. After the drawing was concluded the W. & P. R. R. directors held a meeting, and the day wound up by a grand bonfire at night. The Salisbury Brass Band was in attendance, and everything went off finely, few persons retiring until the small hours were told. On Wednesday morning, 1st inst., the guests bid adieu to Ocean City, with a full determination to make it their headquarters next summer. May they live to enjoy this good resolution and be happy.

The Parade is without a parallel. Headed by the Monster Music Car, drawn by Dromedaries, after which ladies and gentlemen on princely steeds, clad as beauties "ready for the chase," the open Lion's Palace, the "Monarch of the Forest" in full view; the Red Knight and Guard of Honor in real armor; the Glass Den of Monster Serpents and their capturer, a real African Snake Slaughter; after which the Dens of Zoological Wonders; the whole terminating with the Monster Musical of the Age, the Parisian Steam Calliope, that emits the most ravishing music—can be heard

The scare resulting from the threatened insurrection in Georgia has entirely passed away, and quiet has been restored. One of the strangest features of the whole thing is its entire absence of affinity. No white Republican was in any way connected with it, and in the orders of General Morris and Candy Harris, no white Republican was to be spared. The only exceptions to be heeded to the wholesale slaughter was the pretty white women. The leaders have confessed the plot, and repented of their folly, all except Morris, who is an insurrectionist from South Carolina. Governor Smith has offered a reward of five hundred dollars for his arrest, and it is pretty certain he will be punished as the ring-leader. He has been guilty of a great deal of mischief heretofore, and it is believed he will have to atone for all at once. He will find that the way of the transgressor is hard.

The question of the finances just now seems to monopolize more of the public interest than all others combined. There is no question so much talked of and so little understood by the politicians and the people. And after all the windy speeches made upon the subject, (none of which make it much clearer than mud) it is a thing which will regulate itself. If the people can get no good money they will have some other sort. A circulating medium will always be had of some sort, and it is no use trying to make a paper dollar, when there are \$100,000,000 of the same sort, worth as much as a gold dollar, when there are only \$1,000,000 of that kind in the country. Whenever the bowels of the earth shall yield enough gold and silver to meet the demand of the whole people, and our people raise produce and manufactured articles enough to pay for our importations in the way of exchange with foreign countries, without sending the gold and silver abroad, then, and not until then, can we have a paper dollar worth as much as a gold or silver dollar, and it is folly for the great men of the nation to lose sight of the vital questions far more dear to the people than the question as to what value we shall put upon the pictures of Chase, Spinner & Co. The question as to how we shall build up our languishing commerce, open up new channels of trade and intercourse with other nations, and with the diversified parts of our own country. Foster our internal commerce and improve our agricultural resources, but more especially protect, preserve and perpetuate the liberties of the citizen.— These are vital questions and far more important to the people than the mere question as to how we shall keep greenbacks from following the channels of trade, as they always will, do what you may.

We fear that this question of finance is the old cry of "Stop thief," intended to throw the people off their guard until designing men can get their hands upon the very heart strings of our political rights, and when it is too late we will find that we have not caught the thief, nor protected our liberties from the coils of the snarling serpent. Let us be wighful, therefore, and look to our liberties, our homes and our freedoms, for the man whose philanthropy runs out to all the world does not make a safe guardian of his immediate household. The question of finances will regulate itself in due time, despite all the windy harangues which may be made

on the subject, but don't let us neglect the great questions which are far more dear to us. Preserve your liberties at all hazards.

BALTIMORE COUNTY holds her nominating primaries to-day, on the Crawford county system. The name of every candidate announced in the county are printed on tickets to be used at the primary meetings or elections; the name of each particular candidate for a particular office is printed under the heading of the ticket for that office. The voter strikes off all the names except the number of persons to be elected to that particular place, and so on to the end of the ticket. This is done in all the districts and the result canvassed at the county seat. The persons receiving the highest number of votes to the number to be elected are the nominees of the party, except when two or more persons living in the same election districts shall have received the largest number of votes for the offices of House of Delegates or County Commissioners. In such case the person receiving the highest number is taken, and the person receiving the highest number in another district is taken to fill said ticket, so as not to have two candidates for one and the same office in one election district. This seems to be a fair way to get a ticket out which the people desire to support, and no blame can be attached to the nominating convention. Harford county made her nominations after this plan two weeks since, and the people are pleased with their ticket. By this method every candidate for office has an opportunity to tell how strong he is with the people. It is true that this system is not entirely without its defects. One may take an active part for bad men and against good ones and so secure the nomination of some men who are not entirely pure. Yet with all this we think it is the fairest method yet adopted.

SALE OF LOTS AT OCEAN CITY.—One hundred and eleven lots were sold at Ocean Grove, New Jersey, last week, nine of which were purchased by citizens of Maryland, as follows: Hon. P. F. Thomas, Hon. Daniel Fields, Col. S. A. Graham, Hon. James A. Stewart, and the Barnum's Hotel Company of Baltimore.

We clip the above from the Baltimore Sun of Tuesday last. Ocean City is in Worcester County, Md.— The writer seems to get it a little mixed up with Ocean Grove, N. J. These mistakes will happen to the best posted men occasionally.

Importance of Politics.

The Philadelphia North American in an article on the importance of politics says that it never seems to occur to numerous class who in this country affect to imagine that the only matters supposed to be worthy of the attention of an American gentleman are commercial, industrial and transportation business, literature, the arts and religion, as it does to the corresponding class in Europe, that politics include everything and relate to everything in national and international life. It says:—"We do not fear to offend any reflecting citizen when we say that it would better become the educated and wealthy classes to profess less contempt for politics, and to know a great deal more of that subject, for in the case of very many of them, if their respectability and character were to lead them to election to any important political office it would only expose their want of training and ignorance of public interest, parties, principles and issues," and concludes:—"How can any man vote intelligently in national elections, who professes openly to know nothing of the division, the history, the principles, the leading men of parties, or of such matters as currency, banking, protection, free trade, State sovereignty, civil rights, maritime rights and interests, commercial competition, &c.?" We confess that to any of the modern class of know nothings who turn up their noses at these subjects we infinitely prefer the gentleman who reads his political journal carefully, who is posted about public affairs, and who does not dread an argument about them in any aspect that may be presented."

Matrimonial.

The attention of all those hungry souls seeking for mates is hereby invited to a little periodical now lying before us, and emanating from Chicago. A paper devoted to the interests of love, courtship and marriage, and intended as an aid to the single of both sexes; as a lamp to guide their feet to some worthy object of devotion. The "Matrimonial Bazar" is the appropriate name of this valuable little journal; a fresh, gossipy, vivacious sheet, that recommends itself to old and young. The terms of subscription have been reduced to an exceedingly low figure, and the funniest premium in the world is presented to every subscriber. A sample copy will be sent to any address on the receipt of 10c. Address: Matrimonial Bazar, Chicago, Ill.

This is the season when the speculative Southerner makes up his bets on the next cotton crop.

American Farmer.

The September No., just received, is very interesting, treating extensively upon the wheat and other crops, which require prompt attention the present month. Papers from two of the best-known farmers of the world, at this time—Messrs. Mechi, of England, and John Johnson, of New York,—on the cultivation of the wheat, and a very plain and lucid article on the same subject by the editors, are contained in this number, which, to the intelligent and progressive farmer, are alone worth the cost of many years subscription. In addition to these, almost every branch of farming is treated on, to a greater or less extent, more especially that of Horticulture, Floriculture, Live Stock, the Dairy &c. A number of communications from able correspondents on the cultivation of the grasses at the South are very interesting at the time. The Farmer has correspondents in Europe, one of whom, in Paris, every month furnishes a resume of improvements in agriculture, or other matter of interest, to the American Farmer, on that Continent. The Farmer is published monthly, at Baltimore, Md., by Samuel Sands & Son, at \$1.50 per annum, or 5 copies for \$5.50. Specimen copies sent free.

The number of sailing vessels has greatly increased throughout the world since 1870, while a steady increase is noted in steamships. According to a report presented to the London Statistical Society the total tonnage of the great nations indicate their relative rank as follows: First, Great Britain; second, the United States; third, Sweden and Norway; fourth, Italy; fifth, Germany, and sixth France. In 1874 the total tonnage was 5,226,836.—B. Sun.

Honor to Whom Honor is Due.

"It is a fact, unknown perhaps to many, admitted by fewer still, that the Roman Catholics of Maryland were the first who proposed and passed into a law religious toleration in America. [See laws of the general assembly of that State, 1647.] It is also a fact which is equally true, that the Protestants were the first who introduced proscription, and obtained an order of excommunication against their restoration in 1661, to disfranchise all Roman Catholics from holding any office, taxing the leaves and files into their own keeping, isolation of the charter granted to Lord Baltimore by Charles I. and in violation of reason, common sense and the laws of God, sectarianism is not religion, nor a child of heaven.

MR. EDITOR:

The above sentences are from an article in your last issue purporting to be a life of Charles Carroll of Carrollton. If the said article is intended to affect the approaching State election, it is to be regretted that this end could not be gained without repeating the well worn and oft repeated boast that to the Romanists of Maryland is due the credit of the first act of religious toleration passed in this land. So far from being true of this boast as alleged above that it is "unknown to many and admitted by fewer still," I venture the assertion that there are not five men in the State of Maryland having any pretensions to historical knowledge who have not heard it, and further, that the readiness with which it has been admitted is only less marvellous than the persistence with which it has been repeated. The Romanist Church has never tired of asserting it wherever and whenever it could make capital out of it, and wherever it found Protestants simple enough to believe it without asking for the facts of the case. Fity that this "only act of liberality with which the Church has ever been credited, should have no foundation in fact. We would be glad for the sake of human nature that the boast could be made good, so that we might find at least one clean page in the might record of the Church in question.

A day or two before the above extract appeared in your paper, I read the preface to the latest edition of Mr. Gladstone's late pamphlet on the compatibility of Vatican Romanism with civil allegiance. In that preface Mr. G. handles this among other false pretensions of the Roman Church. As few of your readers will be bold enough to question the right of the late Premier of England to have and to express an opinion on the subject, and as it is one on which as Marylanders, they should be well posted, I give you the extract. It is as follows:—"It has long been customary to quote the case of Maryland, in proof that, more than two centuries ago, the Roman Catholic Church, when a power was in its hands, could use it for the purpose of toleration. Archbishop Manning has repeated the fact, and with very large exaggeration. "I have already shown from Bucer's History, that in the case of Maryland there was no question of a merciful use of power toward any, but simply of a wise and defensive prudence with respect to themselves; that is to say, so far as the tolerant legislation of the colony was the work of Roman Catholics. But it does not support to have been Protestant, the result of the fourth article of the charter, we find that no church could be consecrated there except according to the laws of the Church at home. The tenth article guaranteed to the colonists generally "all privileges, franchises, and liberties of this our Kingdom of England." It was in 1649 that the Maryland Act of Toleration was passed; which, however, prescribed the punishment of death for any one who denied the Trinity. Of the small legislative body which passed it few-thirds appear to have been Protestants, the remainder being sixteen and eight respectively. The colony was open to the immigration of Puritans and all Protestants, and any permanent and successful oppression by a handful of Roman Catholics was altogether impossible. But the Colonial Act seems to have been an echo of the order of the House of Commons at home, on the 27th of October, 1615, that the inhabitants of the Summer Islands, and such others as shall join themselves to them, shall without any molestation or trouble, have and enjoy the liberty of

their consciences in matters of God's worship; and of a British ordinance of 1617. The writer whom I quote ascribes the resolution of the Commons to the entreaties of the friends of Williams, the Independent of Rhode Island, and of Copeland, a learned Episcopal divine, who shared his views of toleration.

"Upon the whole, then, the picture of Maryland legislation is a gratifying one; but the historic theory which assigns credit of it to the Roman Church, has little foundation in fact."

So far Mr. Gladstone. If he is good authority, then we may hold the following facts to be established, viz:

1st. This Act of Toleration was no Act of Toleration at all in the just and generous sense of the present day, for it made it a capital crime to deny the doctrine of the Trinity.

2nd. This Act of Toleration, such as it was, was not the free and voluntary deed of the Romanists of Maryland. It was done in accordance with the charter of the Colony, received from a Protestant King, and in obedience to an order of a Protestant House of Commons.

3rd. It was passed by a Legislature composed of Protestants and Romanists, in the proportion of two of the former to one of the latter.

4th. It became the law of a colony in which then (and indeed ever since) Romanists were but a fraction of the population.

In the face of these facts your readers can judge for themselves what credit is to be given to the statements made in the paragraph placed at the head of this communication.

Yours, &c.,

The Boston "News" reaffirms the truth of the story that the execution of Sturtevant, the murderer, in the jail yard at Plymouth, Mass., was scarcely over, when the gates were opened and scores of women, boys, and girls were given a chance to see the body of the victim. The "Old Colony Memorial" denies this.

The Consolidated Virginia Mine is sending forth a steady stream of work worth \$5,000 per hour, and scores of dollars every two seconds. The stock of this mine is quoted at \$225 a share. Professor Bruun, of Munich, co-editions as works of the Clinque-Cento period the two celebrated oxen races in Naples and Genoa. As to the Brucic race, he says that it may not matter so much, since duels had before been entertained about its antiquity notwithstanding the fact of its history being known back to the year 1630. But to throw suspicion on the Farnese Tazza at Naples must, when it is done by a person of Bruun's authority, lead to grave doubts as to the genuineness of large cameos generally.

WESLEY OUPDINE.—A number of our young men and boys, and not a few on whose locks the frosts of many winters have fallen, sat up all night to witness the arrival of Cole's Circus and Menagerie. When will the time come when a circus will not cause a storm?

NOTICE.—All persons indebted to the estate of Dr. George W. Todd, dec'd, are hereby requested to come forward and settle the same at once. If not settled before the first day of October next, their accounts will be put in course of collection.

The young man who went into the show on Wednesday evening with a young lady, and who was taken ill and left when he saw his sweetheart enter with another young gent, is excusable, although he says he does not expect to marry about here. Never mind, friend, it is all right. We will not say anything about it. Mum is the word.

FIRE AND LOSS OF LIFE.—We learn from the Somerset Herald, that the dwelling house, kitchen and meat house belonging to Mrs. Sallie Whittington, living near Marion Station, Somerset county, was entirely destroyed by fire on last Monday morning. A little white boy and colored girl perished in the flames. Nothing was saved. The origin of the fire is not known.

We understand that some of our fellow citizens, whose names we did not learn, (nor would we give them if we had without their consent), were swindled out of some of their cash by persons traveling with Cole's circuses, and shows, so people who do not desire to be swindled had best keep at a distance from the fellows who desire to show how it is done. Look out for three card monte.

A gentlemen from near Snow Hill only paid one hundred dollars and fifty cents to see the show last Wednesday. The dollars were invested in three card monte. The "tiger" also bit a Tyasikin man for fifty dollars, and Mr. Q. Holloway was good natured enough to loan a showman a XX to bet with.

In several counties in the State it is proposed to print the word "Local Option" on each ticket. Those desiring to vote for it can simply write above with a pencil, "For," and those opposed can write "Against." Those not writing anything would not express any opinion. This method would save the expense of a special election. If a majority vote for a law, our representatives could get it passed without reference to the people, and let it go in force on the first day of June, 1876, as all other acts do, not otherwise provided.

Green's August Flower. It is natural for people suffering with Dyspepsia and Liver Complaint or any derangements of the digestive organs, such as Sour Stomach, Sick Headache, Habitual Constipation, palpitation of the Heart, Heart burn, Water-brash, gnawing and burning pains at the pit of the Stomach, Yellow Skin, Coated Tongue, and disagreeable taste in the mouth, coming up of food after eating, low spirits, &c., to put off from day to day buying an article that they know has cured their neighbor, friend, or relative yet they have no faith in it until it is too late. But if you wish to try your Druggist, Dr. L. D. Collier, send a bottle of Green's August Flower your immediate cure is as certain as you live. Sample bottles of this medicine can be obtained for 10 cents to try its superior virtue.

Letters From Druggists. There is no case of Dyspepsia that Green's August Flower will not cure. Come to the Drug Store of Dr. L. D. Collier, and inquire about it. If you suffer from Constipation, Sick Headache, Sour Stomach, Indigestion, Liver Complaint or derangement of the Stomach or Liver try it. Two or three doses will relieve you.

Busche's German Syrup is now sold in every town and city in the United States. We have not less than five hundred letters from Druggists, saying it is the best medicine they ever sold for Consumption, Throat, Lung diseases. Sample bottles of both 10 cent each. Regular size 75 cents.

**Fall Fallowing.**

An intelligent correspondent of the *New England Farmer* gives as the result of his experience the advantages of fall fallowing to be the decomposition of the soil, which is rendered thereby available plant food in the early part of the next season. He has seen a difference of ten days in the ripening of early rose potatoes, caused by fall fallowing, and has known early cabbages to be two weeks earlier on land fall plowed than on land in the same field, treated in the same way in other respects, but not fall plowed.

The following additional benefits are derived from the same action: It kills weeds and grass, and saves three-fourths of the hard hoeing necessary for clean cultivation. It leaves the land in good condition for very wet or very dry weather. It also kills the worms, and it has been found that where potatoes, dug in September, were perfectly smooth on fallowed land, in the same rows not fallowed, they were very much eaten by worms.

The same writer quoted above, adds the following hints on the subject of fall fallowing:

It gives one an opportunity to gather as large a pile of material to be used as an absorbent in the barn cellar or elsewhere as they may desire. Two years ago the absorbent problem looked to me like a difficult one to solve. Two public highways and a railroad run through our farm, and the face of mother earth has been sadly scarred on the sides of these roads by digging material for the barn cellar. There is on the farm a small meadow in which there is first grass land. It is by the side of the railroad and near the barn. The mud cannot be dug without leaving unproductive and unappetizing holes; therefore I decided to go to the fields for my absorbents. My plan is, after ploughing, take every fourth furrow from the most fertile part of the field until I have piled up as much as I think I shall need. I pile in the barn-yard near the cellar, so that with a wheelbarrow, it can be taken in as wanted. What was piled last fall in its splendid order to use now. With the barn cellar doors, which we take off in the summer time, I made a roof over the soil pile. It was very satisfactory during the wet weather of last week to see the dry material absorb the liquid manure, thereby keeping the cellar in comfortable working order.

**FATTENING CHICKENS.**—It is hopeless to attempt to fatten chickens while they are at liberty. They must be put up in a proper coop, and this, like most other appliances, need not be expensive. To fatten twelve fowls, a coop may be three feet long, eighteen inches high, and eighteen inches deep, made entirely of bars. No part solid, neither top, sides nor bottom. Discretion must be used, according to the size of the chickens put up. They do not want any room, indeed, the closer they are the better, provided they can all stand up at the same time. Care must be taken to put up such as have been accustomed to be together, or they will fight. If one is quarrelsome, it is better to remove it at once, as like other bad examples, it soon finds imitators. Diseased chickens should never be put up.

The food should be ground oats, and may either be put up in a trough or on a flat board running along the length of the coop. It may be mixed with water and milk, latter is the better. It should be well-soaked forming a pulp as loose as can be, provided it does not run off the board. They must be well-fed three or four times a day, the first time as soon after daybreak as possible or convenient, and then at intervals of four hours. Each meal should be as much as they can eat up clean and no more; when they have done feeding, the board should be wiped up and some gravel spread. It causes them to feed and thrive.

After a fortnight of this treatment you will have good fat fowls. If, however, there are but five or six fowls to be fattened, they must have as much room as though there were a dozen. Nothing is easier than to allow them the proper space, as it is only necessary to have two or three pieces of wood to pass between the bars and form a partition. This may also serve when fowls are up at different degrees of fattness. This requires attention, or fowls will not keep fat and healthy. As soon as the fowl is sufficiently fattened, it must be killed; otherwise it will not get fatter but will lose in flesh. If fowls are intended for the market, of course they are, or may be fattened at once; but if for home consumption, it is better to put them up at such intervals as will suit the time when they will be required for the table.

When the time arrives for killing, whether they are meant for market or otherwise, they should be fasted with no food or water for twelve or fifteen hours. This enables them to keep for some time after being killed, even in hot weather.—*Journal of Chemistry.*

**NICE CREAM PIE.**—One cup of white sugar, two thirds of a cup of cream, two eggs, two cups flour, one teaspoonful soda. This will make seven thin cakes, between which spread the cream. For the cream, take half a pint of milk, put into a basin of hot water on the stove, beat one egg with white sugar enough to sweeten, and add two tablespoonfuls of corn starch; stir this into the milk when hot, and cool put between the cakes.

**Ayer's  
Cherry Pectoral,**  
For Diseases of the Throat and Lungs,  
such as Coughs, Colds, Whooping-  
Cough, Bronchitis,  
and Consumption.

Among the great  
discoveries of modern  
science, few are of  
more real value to  
mankind than this ef-  
fectual remedy for all  
diseases of the Throat  
and Lungs. A vast  
trial of its virtues,  
throughout the United  
States and other  
countries, has shown  
that it does surely and  
effectually cure the  
most dangerous affec-  
tions of the Throat and  
Lungs, and cases of  
Consumption, cured  
by this preparation, are  
publicly known, so  
remarkable as hardly to  
be believed, were they  
not proven beyond all  
doubt. As a remedy,  
it is adequate, on which  
the public may rely  
for full protection. By  
curing Coughs, the  
forerunners of more  
serious disease, it saves  
unnumbered lives, and  
prevents the suffering  
to be completed. It  
challenges trial, and  
convinces the most  
sceptical. Every family  
should keep it on hand  
as a protection against  
the early and unper-  
ceived attack of Pul-  
monary Affections,  
which are easily met at  
first, but which be-  
comes incurable, and  
too often fatal, if ne-  
glected. Tender lungs  
need this defence; and  
it is unwise to be with-  
out it. As a safeguard  
to children, and the  
most distressing disease  
which besets the Throat  
and Chest of childhood,  
Croup, Croup, and  
Whooping Cough, it is  
invaluable; for, by its  
timely use, multitudes  
are rescued from pre-  
mature graves, and  
saved to the love and  
affection of their friends.  
It acts speedily and  
surely against gravi-  
ous colds, securing  
sound and health-rest-  
oring sleep. No one  
wishes to suffer trou-  
blesome coughs, in-  
fluenza and painful  
Bronchitis, when they  
know how easily they  
can be cured.  
Originally the product  
of long, laborious, and  
successful chemical in-  
vestigations, no cost or  
spare in making every  
bottle in the utmost  
possible perfection. It  
is confidently relied  
upon as possessing all  
the virtues that have  
ever exhibited, and  
capable of producing  
cures as marvellous as  
monomials as the great-  
est it has ever effected.

control them. The testimony of our best  
citizens, of all classes, established by the fact,  
that Cherry Pectoral will and does relieve  
and cure the afflicting disorders of the Throat  
and Lungs beyond any other medicine. The  
most dangerous affections of the Pulmonary  
Organs yield to its power; and cases of  
Consumption, cured by this preparation, are  
publicly known, so remarkable as hardly to  
be believed, were they not proven beyond all  
doubt. As a remedy, it is adequate, on which  
the public may rely for full protection. By  
curing Coughs, the forerunners of more  
serious disease, it saves unnumbered lives,  
and prevents the suffering to be completed.  
It challenges trial, and convinces the most  
sceptical. Every family should keep it on  
hand as a protection against the early and  
unperceived attack of Pulmonary Affec-  
tions, which are easily met at first, but which  
becomes incurable, and too often fatal, if  
neglected. Tender lungs need this defence;  
and it is unwise to be without it. As a  
safeguard to children, and the most distress-  
ing disease which besets the Throat and  
Chest of childhood, Croup, Croup, and  
Whooping Cough, it is invaluable; for, by  
its timely use, multitudes are rescued from  
premature graves, and saved to the love and  
affection of their friends. It acts speedily  
and surely against grievous colds, securing  
sound and health-restoring sleep. No one  
wishes to suffer troublesome coughs, in-  
fluenza and painful Bronchitis, when they  
know how easily they can be cured.

Local Advertiser. SATURDAY SEPTEMBER 18, 1875.

This paper has double the circulation of any paper on the lower Peninsula. Democrats! you know your duty. Do it.

The recent heavy rains have fattened the oysters considerably. Wisconsin county has the largest crop it ever had. Squirrels are numerous in the swamps near Quantico.

Don't forget the Primaries to-day. Vote for the best men. Sweet potatoes are selling at fifty cents a bushel on the street. Our merchants are complaining of dull times and scarcity of money.

For Sale Cheap.—A Second-hand Grover & Baker Sewing Machine, Inquire at this office. Mr. A. G. Toadvine has had his store newly painted, making a decided improvement in its looks.

We advise our readers to sell their corn as soon as possible as there is every probability of its being lower. The bulls of the place wears red and white striped stockings and is not afraid to show them.

White cranes, a rather rare bird with us, have been seen in considerable numbers near town recently. Captain L. A. Parsons and family have been off on an extended excursion on the scow boat Buccephalus.

Rowing on the lake, with all the work done by the young ladies, is a thing lazy lovers think splendid. A car load of choice Delaware peaches were received by the canning establishment last Thursday.

The dredging machine broke a pinion Thursday morning, and is patiently awaiting repairs. Another stove house in Salisbury ought to make that particular branch of trade lively.

We learn that Mr. James Bodell is in Virginia superintending the erection of a large kindling wood mill.

Mr. Mylins, a Government employe who has been here attending to cleaning out the river has removed to Elkton. A little daughter of Mr. S. O. Mylins was run over by a horsecart last Thursday morning, and is thought seriously injured.

It is estimated that the railroad bridge across Synepuxent Bay, at Ocean City will cost thirty-five hundred dollars. If weeds and other green and decaying vegetable matter produce disease, this place will soon have its hands full.

Wednesday night was the prettiest of the season. We know this to be a fact, because a prominent courting man told us so. The nutritious properties of Liebig's Liquid Extract of Beef and Tomie Invigorator are sufficient to sustain the body without the addition of solid food.

Whist—The usual winter whist party has been organized, and now the captain's broad shoulders will have to bear the blame when young married men stay out late of nights. REMOVAL.—Captain Thomas Inley White has moved his green grocery into the house recently occupied by W. White. Tom's good looks bring him trade wherever he goes.

A party of Wilmington and Salisbury gentlemen spent last Sunday at Ocean City, prospecting for a site for a new hotel to be erected in time for the next season. Dr. Bull's Cough Syrup has been before the public for years, and is pronounced by thousands superior to all other articles for the cure of Coughs, Colds, Influenza and all Pulmonary Complaints.

It rained on the big circus in Wilmington, and those waterproof, tilted canvas tents did as tents usually do, and the crowd had probably the first good washing for a month. Eh, Charley! The Somerset County Conservative Democratic Convention will have to be convened again, we suppose, to make new nominations, as many persons who were nominated refuse to run on the ticket.

Have de Grace claims the finest Cornet Band in the State. It only claims it—having forgotten Itzell's 5th Regiment band, numerous other fine bands in Baltimore, and last but not least our own Cornet Band. Now that we have sufficient water, an oyster canning establishment is badly needed. It would give employment to large numbers of our industrious poor, and probably save many a one from want the coming winter.

All parties wishing to forward goods by express will please make out an invoice and send the same to the depot with goods, stating on invoice whether by freight or express. No goods will be forwarded without an invoice. NEW ROUTE.—It is proposed to extend the Somerset & Worcester Railroad from Newtown to Synepuxent Bay, on an opposition line to the Old Dominion road. It is estimated that the extension would cost about seventy thousand dollars.

If there is anything more agonizing than to hear a wheezy woman sing and play on a wheezy organ, please trot it out. We've tried the thing mentioned (compelled to), and if there is anything worse, we feel as if after hearing we should be willing "to step down and out."

Hon. John Lee Carroll and the other candidates of the Democratic Conservative party, will address the citizens of this county at this place on Tuesday, October 26th; Princess Anne, Monday, October 25th; and Snow Hill, Wednesday, October 27. Fuller particulars in next week's paper.

NOTICE I July 1st, 1875. This is to certify that I have this day appointed F. C. Todd to act as my agent in the collection of all claims due the estate of Dr. G. W. Todd, dec'd. S. FANNIE TODD, Executrix of G. W. Todd, dec'd

MOON NEED.—A regular line of steamboats from here to Baltimore was never more needed than at present. When a merchant orders goods from that city, he has no idea at all at what time he will get them. After the channel is finished vessels drawing nine feet water can come up on the high tide. A good wharf for a landing can be readily obtained.—That it would be a paying enterprise no one doubts.

Dr. William Darmon will again visit our town on Thursday morning September 23rd and remain until the ensuing Monday. He can be seen at the Peninsula House daily from 9 A. M. to 10 P. M. For the special accommodation of those too busy to attend on the week days, he will keep his office open on Sunday from 10 A. M. to 7 P. M. For full particulars see small handbills.

TURTLE OLOGY.—Mr. M. A. Parsons and his son Everett sometime in the Spring captured a turtle which contained fifty-four eggs. These eggs were carefully buried in the sand, in a secure spot and a few weeks ago hatched out fifty little turtles. These were placed in a large tub, partly filled with water and mud. Every cool night the little ones bury themselves in the mud, but in the morning as soon as Master Everett appears with his minnows to feed them, they promptly make their appearance and eat with avidity. They will well repay a visit of inspection.

SHOOTING.—Cuba was the scene of a gunning difficulty on Tuesday night. About eight o'clock, as a young gentleman was perambulating that classic neighborhood, he was suddenly fired upon by some one concealed behind Mr. J. Tracy's ice house. He at once determined to seek his assailant, and for that purpose crept around the house, when the man with the gun retreated to the old Hotel. Halting a moment on the back steps he drove the other load after his pursuer, and then presumably escaped into the house. The tenant of the house, Mr. Short, was arrested on suspicion, but proof was hard to get, so early next morning he was released. After the above occurrence does any one doubt that we are improving?

RARE ANIMAL.—Thursday morning one of our amateur gunners, while sitting up a mill pond waiting for something to turn up, shot an animal, whose face and form are not familiar to the people of this section. At the time it was shot, it was in the water swimming, although as it had two dog ticks on it, it is reasonable to suppose that it is some high ground animal. Its color is a brownish black, except around the lower part of the mouth which is white. In shape and size it strongly resembles the common house cat but its body is not nearly so stout while its legs are shorter. The canine teeth in both jaws are long and pointed, and indicate a carnivorous animal. It weighs about seven pounds. It was first proposed to skin and stuff the thing, but its owner considered it too much trouble, and said that he should skin it and stretch the hide, so that the curious might have an opportunity to see and judge for themselves.

COON HUNT.—Last Sunday morning, two of our most industrious citizens, not having the fear of the fourth commandment before them, getting an early breakfast called the dogs and sauntered off to give them a little exercise. The head of Humphrey's pond was the locality designated upon for the exercise ground. Soon the voices of the hounds proclaimed that a trail had been struck, and after numerous delay and losses the varmint was safely treed, but alas! the dogs were one side of the pond and the sportsman on the other. Boots, the owner of the dog, wished to wade or swim the stream, but Candy, his companion, had thin blood and couldn't see it but offered to hunt up a boat. While this was going on, the dogs by their incessant barking had drawn two more town sports to the spot. Both were representatives of "old Nutters", and were dying nearly, to see the fight. The coon for such he proved to be—was up a hollow in the broken off stump of an old tree in the branch. Hastily taking off coat, vest and pants, these young men in the ardor of the moment forgot their other toggery, and plunged into the water and mud. The coon was punched out with a stick, and after a rattling fight was killed, while the young men were forced to walk home in wet and muddy clothing an object of pity and mirth to all beholders. The coon weighed fourteen pounds.

**Agricultural.**

**Eyes on Fall-Plowed Land.**

The only objection to fall-plowing is that occasionally heavy rains pack the soil, whereby much of the benefit of alternate freezing and thawing is lost. This can be remedied by drilling in one bushel of rye per acre late in the fall. Rye is better than wheat for this purpose, as it is less expensive, and, owing to smaller grains, one bushel of rye is equal in seeding to a bushel and a half of wheat. Besides, rye grows stronger than wheat, is less liable to winter-kill, and its matted growth makes a better protection to the soil from washing or packing by rains or snows.

**Crows.**

Some farmers in one of the towns of Maine recently made the discovery that the crows were busily engaged in searching after and devouring the eggs of caterpillars that had been extremely troublesome. I am glad to record a good word for this much abused bird, and wish more farmers would open their eyes wide enough to see their real friends. It will be readily acknowledged that there is no better authority in ornithology than the late J. J. Audubon. He has spoken for the crow in the most favorable terms, and if his remarks could be copied by the agricultural and horticultural journalist of the land I believe it would effect great good.—*Cor. Country Gentleman.*

**Manure Making.**

Give as much attention to this very important matter as other duties will allow. Husband in every way the waste materials on and about the farm, the garden, the woods, and from the house and out-buildings. Mix all litter and slops, roal scrapings, weeds, muck, ashes, &c., with alternate layers of manure from the stables, the pig pens or the chicken house, and give all "occasionally a dusting of plaster. Keep all these materials in a dish-shaped hollow and endeavor to conduct into it all the liquid manure from the stables. If the mass can be turned over occasionally it will help to break down and intricately incorporate all the mass.

THREE AUTUMN PEARS.—There are three varieties of the pear, says the *Country Gentleman*, that ripen about mid autumn, mostly of recent introduction, which will be likely to receive considerable attention as market fruits, on account of their good size, and the fine, vigorous growth of the trees. These are the Howell, Goodhale, Souvenir du Congress. The former is well known; the two others are new. On a thorough comparison of the fruits, Howell proves best in quality.

It is well-known that the character of pure milk differs sometimes on the same farm and among the same breed of cattle, and there seems to be no accounting for it; but the true standard of milk is set down by the best authority at 3.16 per centage of fat and 9.65 of other solids.

The wool markets of the country have been quite brisk this year, and the clip, as far as disposed of, has brought moderately fair prices. The demand has been in truth more than usually spirited, and this has prevented the price falling even as low as the growers had feared.

An Englishman is trying to find out, you know, why the double bass viol of an orchestra is always bald-headed. Perhaps it is because the leading violin takes the 'air.

A Frenchman learning the English language complained of the irregularity of the verb "to go," the present tense of which some way had written out for him as follows: "I go; thou startest; he departs; we make tracks; you cut sticks; they absquatulate or skeddado."

"What are you doing there; why don't you go to work?" asked the father of his son. "I'm like Micawber," replied the youth, "waiting for something to turn up." The boy was placed across the paternal knee, and received the usual mild admonition. He believes now that something has turned up in a double sense, entirely different from what he expected.

**Ayer's Cathartic Pills,**  
For the relief and cure of all obstructions of the bowels, and for the removal of all morbid humors. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, sweetest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus frequent doses are changed into health, the value of which changes when reckoned on the vast multitude who only take them to purge, and preserve their virtues unimpaired for any length of time; so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly cure:—  
For Dyspepsia or Indigestion, Headache, Nervousness, and Loss of Appetite, they should be taken moderately to stimulate the stomach, and induce a regular action of the bowels. For Liver Complaints and Biliousness, they should be taken in large and frequent doses to produce the effect of a drastic cathartic. For Constipation, a large dose should be taken, as it produces the desired effect. As a Diarrhoeal Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels generally well, often finds that a single dose of Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

THE above is the Democratic ticket nominated by the county convention last Tuesday, and we take great pleasure in spreading it before the people of Wicomico county, as a strong and acceptable ticket. That it will be elected by an overwhelming majority we have not the slightest doubt. We congratulate the Democratic and other voters of Wicomico upon the presentation of such names as we have before us for our suffrages. We think the Convention has done its duty. While we regret the absence of the names of some of our friends upon the ticket, we find in their place other names quite as worthy, and only have to say we shall give our unqualified support to the whole ticket from top to bottom, from Carroll to Crawford.

Thomas Humphreys, Esq., our candidate for State Senator, a lawyer of good ability, an honest man and a gentleman, will be a safe and reliable representative of Wicomico on the floor of the ancient Chamber, and will command and receive the respect and confidence of that honorable body.

William G. Gordy, one of our candidates for the House of Delegates, has been elected to that place once from Worcester and once from Wicomico county, makes a good, active and shrewd member, well posted in the order of business, and is a good representative man. Benjamin R. Dashiell is a young man of promise, finely educated and will be a good and safe member. Altogether the people of Wicomico will be well and creditably represented in both branches of the Legislature.

James E. Ellegood, our candidate for States Attorney, is a promising young man, of four years' experience at the Bar. The State will be well represented in his person.

Levin R. Dorman, our candidate for Sheriff is a model man, and all persons agree that no man in the State will make a better or safer sheriff than will Mr. Dorman.

H. N. Crawford, the candidate for Surveyor, is an excellent man, and will always be sure he is right before he goes ahead. No one can say aught against him.

The candidates for Orphans' Court and County Commissioners are all first rate men, and the people are so well pleased with them that even our opponents seem to rejoice at their nomination. Altogether it is as good a ticket as could have been selected in the county or anywhere else, and its triumphant election on the 22nd day of November is one of the certain events of the future. So we say to the Democracy of Wicomico, and all

others who approve of putting good men in office, to turn out and give to the ticket such a rousing majority as will astonish the people of our sister counties, and prove to them that we mean to have good men in office.

The campaign opened on Friday night, 17th inst., at Monument Square, Baltimore. The speeches made by Hon. John Lee Carroll, C. J. M. Gwin and U. S. Senator Bayard, were well received by an enthusiastic crowd. We have been present at the old Square on many former occasions but never in our life saw so large a concourse of people assembled there. Mr. Carroll rose in his majesty, and at times was truly eloquent. The other speakers also produced a profound impression upon their hearers. No one present on that evening would believe for a moment that the opposition in Baltimore would be of a formidable character, but that Carroll, Swinn and Woodford will be elected by an overwhelming majority. So it will be as certain as the 2nd day of November comes. We say to the Democracy, therefore, stand to your faith—let no side issues take your attention from the main question.—The Democratic party has always had its internal as well as external opponents, and we presume it always will, yet none of these things move the faithful, and the old party will go on its way to accomplish its mission of saving the constitution and its guarantees from the ruthless hand of oppression and centralization. Let us be vigilant, therefore, and stand by those time-honored principles of Jefferson and his compeers, such as Carroll and his grandson, that such a majority may be rolled up in Wicomico, especially, as will make the hearts of patriots leap for joy. Let alone side issues, and meddlesome men, for they are only emissaries sent out by the Republicans, under assumed names, to distract and scatter the forces of the true Democracy, in order that they, like ravenous wolves, may come in and destroy the true flock. Beware, therefore, of these wolves in sheep's clothing. Stand by your old and true friends, and victory is ours.

**HISTORY REPEATED.**—Fourteen years ago C. J. M. Gwin, our candidate for Attorney General, was nominated by the Democracy of Baltimore for States' Attorney. C. Yellott was the Whig nominee. Our esteemed friend, S. Teakle Wallis, then put himself forward as the people's candidate for this position, and history says Mr. Gwin beat the twain 680 votes. Look out, Mr. Wallis, history will continue to repeat. Mr. Gwin's majority in Baltimore will be 6,000 or 7,000 this year and 15,000 to 20,000 in the State.

The Maryland Republicans have finally, at the second effort, effected a coalition with the several reform organizations in Baltimore, and presented J. Morrison Harris, of Baltimore county, for Governor against Mr. Carroll; S. Teakle Wallis, of Baltimore city, for Attorney General, and Edward Wilkins, of Kent county, for Comptroller. Mr. Harris was originally a Whig, thence gravitated into Know-Nothingism, thence into Bell-Everettism and finally into the Democracy, where he has remained during and since the war until now. He was elected to Congress as a Whig-Know-Nothing in 1855, was re-elected by the Know-Nothings in 1857 and again in 1859, and in 1860 he advocated Bell for the Presidency. When the war commenced he was a Union man, but he could not sustain the advanced Republicanism of that day, and he fell back into the ranks of the Democracy with Beverly Johnson, Governor Swann and others of the same school. He is a man of fair ability and of unexceptionable character. Mr. Wallis, the nominee for Attorney General, is one of the ablest and most respected members of the Baltimore bar, and was a Whig and Know-Nothing until 1860, when he supported Breckenridge for President. He was a member of the State Senate when the Legislature was bodily arrested by General McClellan, and was deemed so dangerously disloyal that he was held a prisoner in Fort Cass Monroe and Fort Warren for more than a year. Since 1860 he has uniformly acted with the Democratic party. He is a gentleman of the highest personal and social character. Mr. Wilkins is the only tub to the Republican whole on the whole ticket, and he is for the minor office. He has been an earnest Republican and is a respectable candidate. While the platform of reform is pushed to the front, it is evident from the antecedents and sympathies of the prominent candidates that the ticket has been fashioned to fan the old Know Nothing or anti-Catholic sentiment to a fresh flame, as Carroll, the Democratic candidate for Governor, is of the Roman Catholic faith.

Gen. Joseph E. Johnson denies the statement that he has been offered the command of the Khedive's army as wholly without foundation, nor does he know how the report got into circulation.

### The Root of Reform.

Gov. Tilden met with an enthusiastic reception at the Agricultural Fair in Schoenova, Otsego county, on Saturday, the people journeying from all directions to listen. In his address he said:—  
As regards the taxes, imposed by the State (about one-half of all you pay directly) the task of fixing them is confided to the legislative bodies in Albany, and in a small degree to the Chief Executive of the State. If you will send to these legislative bodies men who will be true to your interests within the next two years that portion of your taxes which you contribute for the use of the State can be reduced just about one-half. I am not here to allude to any subject on which there is or ought to be any division of opinion among our fellow citizens, but on this subject I say fearlessly there ought not to be any difference of opinion. We have rescued, in a gigantic civil war, our country from dissolution; we have preserved its integrity and established its unity upon durable foundations; and now it remains for us with a firm and steady hand to remove the fungus growth which now absorbs the vital forces of free institutions in the State of New York and in the United States. This is work we all ought to enjoy—every party, every class, every mind, every citizen who has at heart the best interest of his own community and of our common country.

### Is it Another Charley Ross Case?

On Wednesday afternoon last Mr. Dennis Sullivan's child, Joseph, three and a half years of age, disappeared under circumstances almost as mysterious as those attending the abduction of Charley Ross. Dennis Sullivan is a wholesale grocer at 412 Greenwich street, and lives with his wife and children in the second story over his grocery. The boy was dressed in a green plaid shirt and gingham apron, but wore no hat. His shoes were capped at the toes. He talks plainly, and is unusually intelligent for one of his age. Mr. Sullivan offers \$500 reward for his return, and will ask no questions.—N. Y. Sun.

**ELECTIONS TO COME.**—Further elections occur this year in the following order: Iowa and Ohio, October 12; Virginia, Kansas, Maryland, Massachusetts, Mississippi, Minnesota, Missouri, New York, New Jersey and Pennsylvania November 2; Texas December 2. Some of these States elect Governors and other State officers, and all of them elect members of the Legislature. Mississippi also elects Congressmen.

A RHODE ISLAND man has died and left his daughter \$20,000.00. There is a chance for some nice young man who wants to start an evening paper.

The dog tax in Tennessee is proving a fine thing for the lean treasury of the State. In one county four hundred persons have no other taxable property.

A little boy in Springfield, after his customary evening prayer, a night or two ago, continued, "and bless mamma, and Jenny, and uncle Benny," adding, after a moment's pause, the explanatory remark, "his name is Hopkins."

Professor Hart of Cornell University, director of the geological survey of Brazil, has left Rio Janeiro with his assistants, and begun his work. The starting point at the coast is Pernambuco. It is thought that seven years will be required to complete the survey.

A little woman springs from the cars and presents herself before the conductor. "Monitor that person there, who travelled with me from Trouville to Paris has insulted me." And she points to a mild and calm-looking gentleman. "What did he do to you?" asked the guard, up in arms. "He slept the whole distance in his corner." Tableau.

Some Prussian army officers are under arrest for cruelty to a soldier. They compelled him to go through with exhausting drills, and when he complained of sickness, they added increased tasks as a punishment for "shamming." He died at last, and then it was found that he had been suffering from brain disease. The case reminds one of that of Conolly, the Blackwell's Island convict, who was tortured by the keepers.

The French papers announce the death of the Marquis de Prades Count, ex-officer of the body guard of Charles X., who had never been ill a day, and who, notwithstanding his great age, retained all his activity. His death was sudden, and was perhaps produced by an excess of gallantry. In stooping to kiss the hand of the Dowager Countess de la Rochepeau who came to pay him a visit, he fell and expired. He was eighty-two years of age.

sequently that a woman gave the deceased a penny to drown her. He caught the cat and she bit him. The boy died in St. Bartholomew's Hospital of hydrophobia of a malignant kind.

During the hearing of a case on Sept. 7, at the Hammermith Police Court, in England, in which a man and woman were charged with an assault on some festive following an Irish wedding, a female witness for the defense said that she did not know what book it was that she was being sworn upon, and that she understood an oath to mean that if she swore falsely she would suffer twenty-four hours in purgatory. The prisoners were remanded in order that the witness should be instructed as to the nature of an oath.

It appears that the heavy field ice which was the occasion of so much danger and damage in the North Atlantic last spring was set loose by severe northerly gales from the coast of Newfoundland and Labrador in the early part of the year. The previous winter had been excessively severe in these regions, so that the ice thus dislodged was extremely dense and compact, and in this way was enabled to drift far to the southward before melting. Heavy field ice was thus met with in the month of April within fifty miles of the latitude of Naples.

The Business of OAK HALL is Conducted upon what we believe to be

The Fairest and Most Equitable System Ever Inaugurated, viz:

<b>ONE PRICE.</b> This treats every individual purchaser exactly alike. When there is but One Price it must of necessity be the Very Lowest for which the article can be sold. There is No Second Price for anything at Oak Hall.	<b>CASH Payment.</b> This makes clothing cheap. Ready Money always secures best Bargains, and in buying such Immense Lots of Goods—sometimes the production of entire mills—Wholesale and Retail, we are allowed the Largest Discounts. This enables us to Mark Prices on our clothing that others cannot afford, and in so selling for Cash we avoid the loss which occurs so often to houses doing business on the Credit System. Every Penny we save in the purchase of Goods and in the Production of Clothing helps us to offer still greater Advantage to Buyers.
<b>FULL Guarantee.</b> Accompanying every sale we make at Oak Hall, we give a written guarantee that the goods we sell shall be as low as the same quality of material could be manufactured and sold anywhere in the United States. That the price is so low is proved by the fact that we sell our goods at the same price as the lowest bidder in the market. That the quality of goods is as good as the price is proved by the fact that we sell our goods at the same price as the lowest bidder in the market. That the quality of goods is as good as the price is proved by the fact that we sell our goods at the same price as the lowest bidder in the market.	<b>MONEY Returned.</b> Any article purchased at Oak Hall that does not give satisfaction in the quality, does not please the folks at home, or is not perfectly satisfactory, should be brought back at once, and if we have purchased within 30 days we will REFUND THE MONEY. It is our intention always to give Value for Value in every sale, and those who are not pleased with what they buy at Oak Hall will do us a positive favor to return the goods and GET THE MONEY BACK. By this point we remove every possible objection and make the purchase of clothing at Oak Hall pleasurable as well as profitable.

Local Advertiser

SATURDAY SEPTEMBER 25, 1875

This paper has double the circulation of any paper on the lower Peninsula

Goose—the warm weather.

Rabbits are said to be very plentiful this year.

Fire at present feels very comfortable.

This section was visited on Wednesday night by quite a heavy frost.

At present the weather is exceedingly cool for this time of the year.

Chestnuts, walnuts and hickory nuts will soon be ripe.

And now the poor little squirrels will have to suffer from the effects of frost.

Oysters are now being brought to our wharves and sell at 40 cents per bushel.

For Sale Cheap.—A Second-hand Grover & Baker Sewing Machine. Inquire at this office.

Falling autumn leaves, beef, corn and potatoes. Oysters are looking up a little.

The County Commissioners and Orphans' Court will meet on Tuesday next, 28th inst.

Wm. A. Graham returned to St. John's College on Monday last for the purpose of continuing his studies.

Several of our merchants have been on to the city during the past week selecting their stock of winter goods.

The young fellow who walks around the house and peeps in at the parlor window to see if his rival is there had better keep shady.

All who come to court next week are hot on the marry, while some of them would have no objections to a splice, all things being agreeable.

For Sale Cheap.—Two first class Parlor Organs—Plotts and Estey's. Also an elegant Steiff Piano. Inquire at this Office.

The September term of the Circuit Court convenes here on Monday next, 27th inst. Gentlemen of the jury give your attention.

A prolific source of disease is indigestion. Liebig's Liquid Extract of Beef and Tonic Invigorator is best calculated to perpetuate bodily vigor and regularity.

Cider is not as good this year as usual. We suppose it is owing to so much rain during the season. The juice of the apple is not so pure.

Rail shooting will be the order of the day the first spell of South winds, when the tides will make up high enough to get in the meadows with boats.

Fodder saving is the order of the day in many parts of the county, while many heretofore have finished their crop. A short horse is soon carried.

The Somerset County Agricultural fair comes off on the 20th, 21st and 22nd days of October, at Princess Anne. A cordial invitation to attend is extended to all.

It is amusing to see the Ladies sprinkling the flowers with water at sunrise these mornings, to take the effect of the frost out of them. This is a good way to do it, and to cultivate industrious habits also.

The cold snap has found our coal yards clear of coal, and our people are compelled to burn wood in their coal stoves. We hope a supply of coal or Indian Summer will make haste along.

Why suffer with a bad cold if one bottle of Dr. Bull's Cough Syrup will cure a cough of the worst kind. Dr. Bull's Cough Syrup is sold at 25 cents per bottle, or five bottles for \$1.00, in every respectable drug store in the United States.

Mr. J. B. Perdue brought to our attention on Saturday last a curiosity in the shape of a bunch of sweet potatoes growing to the same stem.—It contained two red and one yellow potato. This is a strange freak, and Mr. Perdue says that he has dug from the same patch other bunches mixed the same way, the red potatoes always predominating in quantity.

M. A. Loomis & Co., Wholesale Commission and Shipping Dealers in Berries, Peaches and Country Produce, 56 Broad Ave., (West Washington Market) New York. Consignments solicited. Returns made promptly. Refer to J. M. Dryden, Princess Anne, Md.; E. J. Richardson, Laurel, Del., and President and Cashier of the North River Bank, New York City.

N. B.—Cards can be obtained at this office.

Mossera, Brewington, Dorman and Graham contemplate opening an oyster house in this town for the purpose of packing oysters this winter. We hope the enterprise may meet with abundant success, as it will help to make business more lively.

The mud machine, "Blue Dick," has commenced work again after a few days suspension for repairs.—Our harbor will soon be ready for a steamer, to the command of which Capt. P. ought to be promoted.

The schools open on Monday next. Look up your books, boys, and girls, and see what you have failed to remember of your former lessons.—These are times that try children's souls.

Our gentry of the legal profession are busy preparing papers and cases for court. Happy the man that has no counting to do! So says our dev., but we know he may be in the meshes some day.

Those in want of cheap Furniture can find it at the large store and warehouses of Mr. Charles P. Stevens, No 3 South Calvert St., Baltimore, Md., as well as the best suits of Walnut, bed room sets of fourteen pieces for \$50. Call to see him.

There will be a grand rally of the Democracy in Salisbury on Tuesday, Oct. 26th. Hon. John Lee Carroll, candidate for Governor, C. J. M. Gwinn, Col. Woolford and others will be present and address the people of Wicomico on the issues of the day.

Don't forget the sale to-day of valuable mill property, and several houses and lots, at Tracy's Hotel, at 2 o'clock, P. M. Also a valuable tract of land. Be on hand, as good bargains can be had.

Mr. Wm. H. Coulborn, of Nutter district, has our thanks for a basket of very large apples. Mr. Coulborn has recently purchased the Disharoon farm and mill property near town, and from appearances around him we should think he was a man of enterprise.

The schooner Salisbury, belonging to Messrs B. E. Jackson & Co., of this place, collided with the steamer Winona, off the mouth of the Patuxent river last Tuesday night. Both were badly injured. The steamer returned to Baltimore for repairs, and the schooner bore away for the Patuxent. We have not heard from the schooner at this writing, whether she got safe into a harbor or not. The schooner was laden with lumber, Capt. Levi Fields commanding.

THE CITADEL.—We have the August number of this racy little sheet before us, and judging from this number it is a live newspaper. It is devoted to the interests of the Knights of Carthage, and ably edited. It is published monthly at Millwood, 'Wisconsin, by F. W. Stearns. Price \$1 per annum. We gladly welcome it to our list of exchanges.

Our county convention, before it adjourned last Tuesday, passed a resolution recommending the Crawford county system of choosing candidates for office at our future elections. We are decidedly in favor of it ourselves, for we believe it will give more general satisfaction, as every one will then have an opportunity to see how he stands with the people, and will not have to say that a caucus convention beat him.

A friend tells us that the Princess Anne "Lazy club" is in a flourishing condition, notwithstanding the fact that a member was recently turned out for bringing a bunch of fish from the depot. It doesn't do to be too industrious.—Cambridge Chronicle.

Our Lazy Club did worse than that the other day. They expelled one of their members because he fell overboard and caught a duck.

The Sussex Journal gives a gloomy picture of its patronage at home (Georgetown, Del). It says that the whole amount collected for subscription and advertising would not pay the expenses for one week. We are happy to say that Salisbury does a great deal better than that. Although our people are not as liberal towards their home journals as they might be, considering they expect so much of them, yet we must work and wait, and hope for better days.

The county convention of the Democratic party assembled here on Tuesday last, and nominated Thos. Humphreys for State Senate; W. G. Gordy and B. R. Dashiell, for the House of Delegates; L. R. Dorman for Sheriff; Jas. E. Ellagood for State's Attorney; H. N. Crawford for Surveyor. For the Orphans' Court, Jas. Gillis, L. M. Dashiell and Jas. H. West; for County Commissioners, Wm. L. Laws, Saml. H. Fooks, John Williams, R. P. Darby and Robt. C. Mitchell. The convention was very harmonious, and the ticket presented is quite acceptable and considered a good and strong one. It will receive the hearty support of the Democracy and be elected by an overwhelming majority.

On our first page to-day will be found the speech of U. S. Senator Bayard, of Del., delivered in Baltimore on the 17th inst., also the speech of ex-Governor Walker of Virginia, delivered at Pimlico the same day. We commend their careful perusal, as it will amply repay for the time. We agree with Mr. Walk-

er as to the stringency in the money market, and whatever else may be said on the subject at present, his theory will certainly be the key note of the successful party in 1876.

The man calling himself Wm. E. Eastburn, who was arrested at Crisfield for forgery and brought here for trial on a hearing made his escape last Sunday night from the Lock-up and is now roaming in parts unknown to our reporter.

The Laurel Peninsula Agricultural and Mechanical Society, at Laurel, Del., will hold its second annual fair, on Wednesday, Thursday and Friday, October 27th, 28th and 29th, 1875. The directors extend a cordial invitation to exhibitors, and the public generally, to favor them with their attendance. These fairs are a great advantage to the community, as they stimulate industry and encourage a healthy state of competition. Let all attend who can do so conveniently.

Lucky.—H. S. Brewington & Bro. have just received a large assortment of ready-made clothing, Boots & Shoes, and a full line of notions, and are ready for this cool spell. Go and get a full suit at very low figures. Boots, Shoes, Hats, Caps, Coats, Pants, Vests, Overcoats, &c., cheap for cash, No. 47 Main St., Salisbury.

Campaign Advertiser. The Advertiser will be sent to any address in the United States, to the 20th day of November next on receipt of twenty-five cents. Now is the time to subscribe, and see if the paper is worth continuing, if not it will stop itself on the 20th of November. Send in your names with your quarters, or five names for one dollar.

Mr. W. A. Billingham, intending to go to Europe, offers for sale his farm, two Marine Railways, and Ship yard, at White Haven, in this county. This is a rare chance to purchase one of the most desirable properties on the shore. This is the same farm which formerly belonged to Col. Geo. R. Dennis, now of Frederick, Md., and is an excellent stock-growing farm. The Marine Railways are in excellent repair, and is one of the best points for the business on the river. See advertisement in another column.

SECOND-GROWTH PEACHES.—Mr. Benjamin B. Freeny gave us some peaches on Tuesday last which were gathered from a tree of a cling variety, from which an early crop had been taken early in July. The tree stood in the corn field and had not been observed since the early crop was gathered, but on noticing the tree, while saving fodder it was found to be full of ripe peaches of the second-growth, but of an exceedingly small size, being about as large as a very large cherry. The flavor is as fine as the early fruit. The peaches taken from the same tree in July were very large, and sold for a good price.

MARRIED. HASTINGS—CALOWAY.—On the 16th inst., by the Rev. William Urie, Mr. John C. Hastings to Miss Martha A. Caloway, both of this county.

DIED. ANDERSON.—On Saturday, 18th inst., at his residence on the Wicomico river, Isaac Anderson, aged 76 years. Mr. Anderson was one of the largest land owners and most successful farmers in the county. His wealth has steadily increased for the last thirty years, and at his death his estate is not far short of a hundred thousand dollars. He will be greatly missed by his neighbors, as he was kind and obliging to all, and especially to those who needed help. His bounty has been dispensed like the dews of heaven, while silently its effects have been felt, and those who shared in it, will sorrow at the death of one who to them has been a dear friend. His demise will be severely felt by the laboring class who have depended upon him for their daily bread for many years. About five years ago he connected himself with the Wicomico Presbyterian church at Rockwalking, and was a regular attendant on divine service until ill health prevented him from getting about. He leaves three sons, one daughter and several grand children to mourn their loss.

Green's August Flower. It is natural for people suffering with Dyspepsia and Liver complaint or any derangement of the digestive organs, such as Sour Stomach, Sick Headache, Habitual Constipation, palpitation of the Heart, Heart Burn, Water-brash, gnawing and burning pains at the pit of the Stomach, Yellow Skin, Coated Tongue, and disagreeable taste in the mouth, coming up of food after eating, low spirits, &c., to put off from day to day saying an article that they know has cured their neighbor, friend or relative yet they have no faith in it until it is too late. But if you will go to your Druggist, Dr. L. D. Collier, and get a bottle of Green's August Flower your immediate cure is as certain as you live. Sample bottles of this medicine can be obtained for 10 cents to try its superior virtue. Regular size 75 cents. Try it, two doses will relieve any case.

Letters From Druggists. There is no case of Dyspepsia that Green's August Flower will not cure. Come to the Drug Store of Dr. L. D. Collier, and inquire about it. If you suffer from Constipation, Sick Headache, Sour Stomach, Indigestion, Liver Complaint or derangement of the Stomach or Liver try it. Two or three doses will relieve you.

H. HUMPHREYS, Manufacturer and Wholesale and Retail Dealer in— Peach

If the people could understand that the price of their products is fixed in Europe in gold, and that they are paid in paper, they would vote to remove this curse, delusion and snare. The necessity of its abolition is plain. The people wanted hard money for hard labor, the value of which can be regulated. The inflationists opposed having their railroad stocks and values based upon credit contracts in value by a return of gold. No increase of volume will make up the quality, capital is started by the proportion to inflate, and foreign capital has ceased to flow to our shores.

Mr. Bayard begged the laboring man, as he valued his own interests, not to aid the capitalist in increasing his inflated wealth by voting to increase the volume of paper money. Inflation would eventually bring a curse upon the country, before which former panics were nothing. The day was a sad one when Congress by a single vote decided that paper money could pay debts. The present administration has intensified the evils entailed by a departure from a standard of coin. The South had suffered, he said, for want of capital and a bad currency, and by the administration which had made life and property insecure in those States. The complaint of a vicious negro could secure the overthrow of a State. The country will not be safe until it is established that a President who shall attempt the overthrow of a State government shall be impeached. [Applause.] This would be a fit punishment for such crimes as have been committed against Louisiana, and the people of the North felt this when they saw power departing from the President and sustained him in sending Sheridan to Louisiana to establish a military domination. Why elect State officers and pay taxes if a President can turn you out when he pleases and rob you of your rights? [Applause.] The plunderers of the South have never been rebuked by the President. If we are to have a centennial next year it will be a mockery while Louisiana and Mississippi remain under the law which now oppresses them. Discard small local issues for a more substantial and important.

Mr. Bayard closed with an injunction not to fall away from the tradition that they should have the Carol of 1776. [Applause.] He came here to speak honest men and believed he had done so. [Applause.]

### The Story of an Arab.

The story of a Cincinnati newsboy, who found a pocket-book containing \$100, and returned it to the owner with contents intact reached Philadelphia in good season and was productive of considerable of a sensation among the street Arabs.

One small boy was so affected by it that he straightway determined to see that Cincinnati boy, and go seven or eight miles to see him. He took another small boy into his confidence and the test of probity of character was carried into effect.

Boy No. 2 dropped a well-padded pocket-book, which boy No. 1 following behind, picked up. Then with a look on his face that would have done honor to Benjamin Franklin, the honest little fellow walked up to an old gentleman who was passing by, extended the pocket-book and with trembling voice exclaimed: "Take it, sir. It is yours. You dropped it just now. My mother and seven little brothers are starving, but I cannot keep it, sir, for it don't belong to me."

The old gentleman looked at the boy, then pulled out his spectacles and adjusted them for better sight. He could not sufficiently admire the man visage of that little street wanderer, illuminated as it was with a glow of goodness and honesty.

He patted the boy on the head, and pulling out a five dollar bill from his vest pocket, handed it to him, saying: "Boy, you will grow to be a great man. Take this money for your starving family, and always remember the honesty is the best policy."

Then the old gentleman hurried into the nearest lager beer saloon, and opened his pocket-book. Then he began to dance around and call heaven and earth to witness that if ever he encountered that boy again he would flay him alive. And he continued to orate until a policeman was called in to arrest him as a lunatic, and the only excuse he could offer for his conduct was that a small boy had robbed him of five dollars by giving him a pocket book stuffed with old paper.

"On my friend," exclaimed a temperance orator, "that I had a window in my heart, that you might look in and see the truth of what I tell you!" "Wouldn't a pain in your stomach do just as well?" asked a small boy.

"The model husband lives in Strasburg, Lancaster county, Pa. He never allows his wife to do more than half the work. She puts up all the canned fruit in the summer, and he puts it down in the winter."

"Thank Heaven!" remarked a young lady flinging her pull back to the other side of the room. "This is a free country and a fellow can have a square sit down occasionally."

These things that never agree—two cats over one mouse, two wives in one house, and two lovers over one lady.

Reading girls get a cent for trimming a wool hat.

### Witticisms.

The coming man is he who owes you. It must make a prisoner raven mad to be called a jill bird.

An unprincipled bachelor says troubles never come single.

Economy is beginning to prevail again. At a funeral, Saturday, nine men appeared with unblackened boot heels.

Contentment is said to be better than riches, but the latter is good enough for ye writer.

"How much is a metre?" asks a Cleveland paper. Wait till the gas man comes around—he'll give you liberal figures.

If young ladies wish to get stout they should eat their food slowly. Haste does not make waist in such cases.

An Ohio boy swallowed four or five of the wheels of an eight-day clock, and he has kept the whole family "running" ever since the event.

It was not exactly a bank failure in San Francisco the other day. It was the collapse of an inflated gambling-house.

Maneuvering mosquitos multiply marvellously, meditating mischief; malicious mosquitos mercilessly maul multitudes, mauling masters and misses.

When they catch a man gathering Delaware peaches at midnight they preserve whatever good traits he has in him by shooting half a pint of salt into his legs.

If we had cheap telegraph rates a person living in Detroit could, for fifteen cents, telegraph his mother-in-law in New York not to come—family got the small-pox.

An Indiana man said to a Bible agent: "I'm a Christian, but I'll be blamed if I don't have to grit my teeth when the Ohio river is on a level with the top of my corn."

When a New York newspaper calls John Morrissey a thief, and word comes that John has entered the front door, the rush for the fire escape beats the retreat from Bull Run.

"What object do you now see?" asked the doctor. The young man hesitated for a few moments, and then replied: "It appears like a jackass, doctor, but I rather think it is your shadow."

The Marshall "Messenger" regretfully remarks: "One by one the old pioneers of our country pass away." But this is not so sad as if they were to pass away two by two, or three by three.

There are some confiding people left in Troy. An apple woman in that city will trust an alderman over Sunday for fifty-five cents' worth of fruit, but it may be added that she's around nightly early Monday morning.

"I lived with him nineteen years," says an Indiana applicant for divorce, "and all the clothes he ever bought me was a bunch of hair pins and a tooth brush." You can see by this what a hard time she had to keep well dressed.

A Somerset young woman, seventy-eight years of age, became tired of life the other day and hung herself to a bed-post with a corset. We always thought corsets were unhealthy—especially when worn about the neck.

Parson Brownlow advises the young men of Tennessee to go to work, and consequently many of them who formerly spent but fifteen minutes a day before their looking-glasses now spend at least three-quarters of an hour.

Noting the present of a silver cup to a brother journalist, a Western editor says: "He needs no cup. He can drink from any vessel that contains liquor, whether the neck of a bottle, the mouth of a pickle jar, the spile of a keg, or a bung of a barrel."

John Henry had a guest to dinner the other day, and during a pause in the conversation the enduring terrible spoke up: "I wish I was you?" "Do you, little boy, and why do you wish you were me?" "Cos you don't get your ear pinched when you eat vittles with your knife."

The great big paragrapher of the Chicago "Tribune" pitches his voice and sings: "There was a man named J. Smith, Who wished to cross the river; The ferry boat was leaving; He ran, and sprained his liver."

A Wyoming jury, composed of seven men and five women, were shut up for two days and two nights and yet they couldn't agree. It is said that if they had remained out for seventeen years there would have been no verdict, as the five women talked the seven men deaf the first six hours.

The question is again agitated, "Shall women be permitted to pass the hat in our churches?" Granted that it is her right, but we must protest. It is in some measure a financial question. We are giving two-thirds of our salary to churches now, and does a generous public want us to starve to death.

It is seldom easy to see the hidden deflection in that which is an apparent affection. A boy who was "confounding" the mosquito was told by his pastor that "doubtless the insects are made with a good end in view," when the young scamp replied, "I can't see it, whether it is in view or not. At any rate, I don't like the end I feel."

A tramping printer on the route between New York and Newburgh, is accompanied by his wife. When asked the object by a country editor, why he carried her around with him, he remarked that she took him for better or worse, and having had a good taste of the latter, was endeavoring to find out where the better came in.

**Ayer's**  
**Hair Vigor,**  
For restoring to Gray Hair its  
natural Vitality and Color.

A dressing  
which is not  
only agreeable,  
healthy, and  
effective for  
preserving the  
hair. It soon  
restores faded  
or gray hair  
to its original  
color, with the  
gloss and freshness of youth. Thin  
hair is thickened, falling hair checked,  
and baldness often, though not always,  
cured by its use. Nothing can restore  
the hair where the follicles are de-  
stroyed, or the glands atrophied and  
decayed; but such as remain can be  
saved by this application, and stimu-  
lated into activity, so that a new  
growth of hair is produced. Instead  
of fouling the hair with a pasty sedi-  
ment, it will keep it clean and vigorous.  
Its occasional use will prevent the hair  
from turning gray or falling off, and  
consequently prevent baldness. The  
restoration of vitality it gives to the  
scalp arrests and prevents the forma-  
tion of dandruff, which is often so un-  
cleanly and offensive. Free from those  
deleterious substances which make  
some preparations dangerous and inju-  
rious to the hair, the Vigor can only  
benefit but not harm. If wanted  
merely for a HAIR DRESSING,  
nothing else can be found so desirable.  
Containing neither oil nor dye, it does  
not soil white cambric, and yet lasts  
long on the hair, giving it a rich, glossy  
lustre, and a grateful perfume.

Practical and Analytical Chemists,  
LOWELL, MASS.
