Democratic Senators have been elected in both Texas and Indiana, this week, Reagan in the former and David Turpin in the latter States.

Senator Wilson's speech in the United States Senate on the bill of Senator Beck prohibiting Senators from acting as attorneys for Corporations, chartered by the Federal Government, is considered a very able and learned effort.

Washington Notes.
The Star says: "Republican Senators are uneasy at the attitude of colored people in regard to the rejection of Matthews. The Republicans of the Senate who voted to confirm Matthews maintain that a mistake was made in rejecting him."

Probably the largest transaction in stock ever consummated in Fort Worth or any Texas city was that closed Saturday. Senator Adolf Bunder, of Durango, Mexico, sold to J. H. Watis, D. W. Humphries, D. D. Dugan, G. H. McCarthy, Frank H. Sither and D. H. Dugan, a corporation which has purchased large pasturage and stock yards near Fort Worth, 200,000 Mexican horses, to be delivered to the company's agent in El Paso in installments twice a week.

After argument of counsel and the charge by Judge Barrett, the case of ex-Alderman John O'Neil of New York was given Tuesday evening to the jury, which at 11:10 o'clock at night returned a verdict of guilty. The formal verdict was "guilty of bribery as charged in the first count of the indictment."

WHERE SHALL I INSURE?
The answer is at hand. In the Washington Life Insurance Company, because its actual investments, at their market value, considerably exceed the gross liabilities.

Not a yard of either would have been taken if you hadn't believed your eyes as well as what we said. We want you to use your eyes and all your senses. We expect you to. We told you there was no dye loading in these silks, that only so much pure dye was used as was needed to give the color.

Dress Stuffs by tons! Dress Stuffs going by tons every week, almost every day.

The new French Sateens and the Anderson Gingham are in. Wonderful plaids in the Gingham; charming combinations in the Sateens.

Always crowds here and there among Dress Goods. Here is one of the almost-always-crowded places; Pin Stripes on Serge.

Every thread hard twisted; every fibre wool except the stripe—a mere suggestion in quantity; like a row of stitches, sometimes two rows; a mere suggestion but clear and distinct.

Not a yard of either would have been taken if you hadn't believed your eyes as well as what we said. We want you to use your eyes and all your senses.

That you must take on your faith in us. But no word of ours is needed to show you the deep lustre, the perfect finish, the fine material of the fabric.

You have cleared many of our racks and counters of ladies' garments again and again in the past three weeks. It has paid you to do it. It may pay you more than ever now we have made prices such as should cause the slowest of the goods to move.

LADIES' ULSTERS.
Black Cloth with velvet trimmings and silk lining, made by Rustle Pique, of Paris.

WINTER DRESSES.
Down from \$25 to \$10.
Dark Blue Beaver Cloth, braided, reduced from \$25 to \$10.

Black Velvet and Brocade Finish, chenille and jet trimmings, plain lined. Down from \$25 to \$10.

When you get among the Upholstery Goods there's some thing novel and striking at every turn. We have never before sold some of them so cheap.

Not very long ago we had 7000 dozen Ladies' white linen hemstitched initialed Handkerchiefs, inch borders.

—We are glad to see our people interested in a Building and Loan Association. These organizations are of great help in advancing a community's interest and developing its resources. They defer from organizations, chartered and conducted by capitalists alone, in that the great masses may become shareholders. To one class they become means of obtaining homes; which they otherwise would never enjoy. To another class who do not want to invest in houses they become saving institutions, paying at the same time good per cent. on the savings. The Salisbury Building and Loan Association has now every promise of success. It is ready to be chartered and in the hands of business men. Stock will be taken by parties in adjoining towns and through the rural district as well as in Salisbury.

Washington Notes.
The Interstate Commerce Bill has been approved by the President and is now a law.

The rejection of James C. Matthews, of Albany, N. Y., nominated to be recorder of deeds of the District of Columbia was sent to the President Tuesday last.

You can begin to get a peep at the fine all-wool spring dress goods.
Prettier things could not well be done in wool. Every year a surprise. Seemed as if the top notch had before been reached but it hadn't.

The all-wool mixtures are a study. Three distinct styles of weave giving check, stripe and jumbled appearance, but not well defined; a suggestion rather than a fact. Take one and try to analyze the colors. Not an easy thing to do. Here pink, gray, brown and garnet so blended by the weaving as to give a very peculiar and pleasing effect, the effect of a solid color when held at a distance. Some with the pink tinge, some with bronze, others olive or tan.

Same in checks and small plaids. Ground of green, brown, blue, steel and lead; plaids formed by threads of white and garnet, old gold and garnet, white and old gold, red and sulphur.

Checks in more than a dozen combinations of red, blue, green, brown, gray, olive and garnet. Plaids run through various grades to big blocks or to big blocks broken into small ones. Half a score of colorings.

You'll like the Bourrette plaids. They were favorites in the dark colors we had for winter; more lovely if possible in the softer spring shades.

Twenty styles of them. Plain grounds, mixed grounds, ranging from the lightest tan to darkest browns and shooting through them both ways the now-you-see-it-now-you-don't bourrette thread that makes the plaid; here a bunch of brilliant color, there a mere nothing and finely drawn at that.

A charming stuff for suits, novel as well.
All these all-wool dress goods, 50 to 54 inches wide; \$1 to \$1.25.

"Consumption can be cured."
Dr. J. S. Combs, Owensville, Ohio, says: "I have given Scott's Emulsion of Cod Liver Oil with Hypophosphites to four patients with better results than seemed possible with any remedy. All were hereditary cases of Lung disease, and advanced to that stage when Coughs, pain in the chest, frequent breathing, frequent pulses, fever, and Emaciation. All these cases have increased in weight from 10 to 25 lbs., and are not now needing any medicine. I prescribe no other Emulsion of Cod Liver Oil with Hypophosphites, Lime, and Soda, but Scott's, believing it to be the best."

FOURTY-TWO BURNED.

White River Junction, Vt., Feb. 5.—The appalling accident which occurred at New England occurred at about 2:30 o'clock this morning on the Central Vermont Railroad at the bridge which crosses the White River in the township of Hartford, about four miles west of this place. Four heavily loaded passenger cars, filled for the most part with pleasure seekers enroute to the Montreal carnival, were hurled from an open bridge down a rocky gorge, seventy feet into the darkness, striking at last with an awful crash upon the surface of an icebound river.

Forty-two dead bodies in the number counted up to-night when work was suspended on the wreck. The wounded foot up thirty-one, many of them being in a critical condition, and some will probably die. The train, which was made up of an engine, tender, baggage and mail cars, two passenger coaches and the Pullman cars St. Albans and Pilgrim left White River Junction bound north at 2 o'clock, an hour and twenty minutes late, everything promising a good run to Montreal. The track extends along the west bank of the White River for about four miles, when what is known as the Woodstock bridge is reached.

Everybody on board except the train hands were asleep, and many of the killed may have never awakened to realize that death was at hand. In a few minutes after the train dashed from the bridge the cars caught fire. Those who were not killed outright in the fall were wounded and pinioned by debris and burned to death. The bridge caught fire, too, and for miles the ice covering of the landscape was lit up with a lurid glare. The screams of women, the hoarse appeals of dying men, the awful death shrieks of scores of burning human beings made up a scene so awful that the hardest could not stand. Brave men looked on, but could give no help. Friends saw loved ones die before their eyes and could give no aid.

It is impossible now at this time to give a list of the dead, as the books of the company cannot be seen.

Nicholson, General Agent, the sum of one thousand dollars, the full face value of a policy on the life of my late wife, Mary K. C. Hall, it being the amount of the insurance she had in said Association.
In grateful remembrance of the Association and its General Agent for their promptness and fair dealing in the matter, and heartily recommending them to those who want cheap and safe life insurance, as worthy of all confidence.
Respectfully,
W. A. HALL.

We commend with confidence and pleasure the promptness with which the Provident Life Association has settled our claim amounting to two thousand dollars on the death of our father, Isaac Sumnerfield, having settled before his maturity.
Respectfully,
MORRIS SUMNERFIELD,
ISIDORE SUMNERFIELD.

The following extract of a letter from Dr. H. H. Reid, Collecting Agent of the Provident Life Association, to the undersigned, is published for the benefit of those who are desirous of insuring with the Provident Life Association.
Dear Sir: Enclosed find \$300 as per assessment on the life of my late husband, John C. Collier, who was insured under Policy No. 1000 in the Provident Life Association of Baltimore, Md., and has been paid to me by the officers of the Association for their courtesy and fair dealing.
Respectfully,
JOHN A. CLINE.

GREENSBORO, N. C., Aug. 25th, 1886.
I take pleasure in stating that I have been insured in the Provident Life Association of Baltimore, Md., for the past two years and that I am very well pleased with both as to safety and cheapness, and can recommend it to all who desire to insure in a solid company.
Respectfully,
W. A. HALL.

Cut Prices on Oak Hall Clothing.

You know what that means. Be quick to act. Winter Clothing isn't going to be held, and this cut in prices puts the whip to it. It's our practice to let reductions on small lots pass without any comment, or invitation extraordinary to you; they might be gone before you could get here; and you would be disappointed as well as we.

This "Cut Price" sale is big enough in the quantities of goods to give you time to get here, and share in the good things.
Think of it: reductions of 12 to 50 per cent on reliable clothing, (as good as you would buy, likely better, without a penny off if you went to other stores,) and big lots of it too.

Storm Coats—down from \$12 to \$5.
Overcoats—reduced from \$20 to \$15.
Dress Suits—lowered from \$20 to \$16.
Business Suits—cut from \$14 to \$12; \$12 to \$10.
A third off a number of Boys' and Children's Suits.
Custom-made suits and garments; half and nearly half price.

The prices above are only sample ones of the lots; many of the reductions are on our finest qualities.
You had better decide to come after these at the earliest opportunity.

The usual custom of the house to exchange goods, if unsatisfactory, will be in force.

I take pleasure in referring you to a few of our customers who have their kitchens graced with the OTHELLO RANGE. Mr. R. E. Williams, Dr. G. P. Deane, R. E. Powell, Thomas Mitchell and hundreds of others. We solicit your trade and promise you value received.

HALT AND CONSIDER!

The Master Piece of Art and Perfection in a cook Stove, the
OTHELLO RANGE
FOR SALE BY L. W. GUNBY, SALISBURY, MARYLAND.

QUESTIONS AND ANSWERS.—Mr. Gunby, why do you buy so many stoves at a time? To take advantage before the advance in price. The Othello Range is the best in the market, and the saving of freight. We do not get out stoves from the extreme West necessitating the addition of \$20 to \$30 freight to be added to the cost of stove to the consumer. We do not employ men and teams at a heavy expense to drag our stoves over the country, all to be charged in the price of the stove. I do not get the Othello Range to sell at a heavy discount in buying. First by not making him pay three prices. Secondly he does not have to send to a remote part of the U. S. for repairs. Third he does not have to carry the stove to a machine shop for repairs. All the parts can be bought of me and placed in the stove at home, thus saving almost the cost of a stove. Thirdly he saves the giving of notes to strangers—a dangerous proceeding. Knowledge and experience is substantial and what is desired I do not ask your attention to something that is new and experimental but to the OTHELLO RANGE, the tried, true and faithful cook stove recognized by all the intelligent people of this town and vicinity as the best cook stove made. The OTHELLO RANGE with its place of cooking utensils and pipe shelf, all cleaned and put up, and guaranteed to give entire satisfaction for \$20.00. We sell the OTHELLO RANGE in towns and cities and do not confine our sales exclusively to the people living in the country.

SATURDAY, FEB. 19, 1887.

The country learns with regret that Mr. Manning has fully determined to retire from the Secretaryship of the Treasury. The President with good reason expresses his regret at the secretary's determination to retire from the cabinet. Mr. Manning has unquestionably been Mr. Cleveland's strongest support of all his advisers. He has been, and is now, in entire sympathy with the administration, and retires solely on the ground of ill health. In retiring he carries with him an enviable reputation as a financier and an executive officer. His administration of the Treasury department is generally conceded to have been masterly. Mr. Manning has been in public life for several years, but in severing his connection with the Treasury portfolio, he will probably retire to the shades of private life. The country, and especially the Democratic party, has much to sincerely regret at losing the services of such an able public man. In his letter of resignation he thus pledges his future support to his great chief: "Returning to the ranks of that great party which has called you to its leadership, I shall still hope to follow its fortunes under your successful guidance with a fellow-citizen's loyal pride." It is said that the President is conscious of the fact that he will keenly feel the loss of Mr. Manning's services. Among those mentioned as his successor is ex-Governor McLane of this State, now minister of France.

The Knights of Labor have learned a sad lesson from the longshoremen's strike in New York. The ignominious failure of the strike has been a serious blow to the order. They are beginning to learn that only just demands will be acceded to and that no organization can dictate to private individuals either how they shall invest their money, or how they shall manage their enterprises when it is invested. Labor undoubtedly has the right to organize so long as it does so under the laws of the land, and the laborer individually or collectively is law-abiding but when a band of men organize with the avowed intention of resisting law and order, then they are common enemies of all social and political order. We do not mean to say that the Knights of Labor was ever intended to be such an organization; on the other hand its tenets are pure and upright. They are to-day many good and well meaning men, first class, industrious citizens in the organization, heading the list is Grand Master Workman, T. V. Powderly, but unfortunately for these there is also a strong element of Red Revolutionists, whose prime and chief object is to undermine the foundations of the government. We have great sympathy for the working man. He has rights and privileges as well as the millionaire. Let him enjoy them. Let him organize for his protection and support. Don't only let him, but assist him if you can, but don't let us tacitly consent to anarchy, the greatest enemy of the laboring man.

The question has assumed in New York, a still more serious form. In addition to the total failure of the thirty thousand men who quit work on a sympathetic strike, to compel their employers to accede to their unreasonable demands and are consequently out of employment, the question has assumed a more serious phase for the order. All master builders, carpenters and contractors have organized against the order. The organization grants to employes the right to combine, but denies them the privilege to exclude non-union men—"scabs" as they are called. It virtually means as we think discrimination against the order.

"Consumption can be cured."

Dr. J. S. Combs, Owen Sound, Ohio, says: "I have given Scott's Emulsion of Cod Liver Oil with Hypophosphites to four patients with better results than seemed possible with any remedy. All were hereditary cases of Lung disease, and advanced to that stage when Coughs, pain in the chest, frequent breathing, frequent pulse, fever, and Emaciation. All these cases have increased in weight from 16 to 28 lbs., and are not now needing any medicine. I prescribe no other Emulsion of Cod Liver Oil with Hypophosphites, Lime, and Soda, but Scott's, believing it to be the best."

In the Senate Wednesday the River and Harbor bill was reported. A bill to increase the naval establishment and appropriating \$22,000,000 was passed. A bill to provide heavy armored vessels for the defense was considered. Biologies on the late Senator Pike was delivered. In the House the substitute for the Senate Retaliatory bill was reported. The session was occupied in enacting the memory of the late Senator Logan. The House Committee on Appropriations agreed to report an amendment in the Sundry Civil bill giving \$19,500 for lighting the Statue of Liberty at Bedloe's Island.

Drunkennes, or Linnor Habit, can be cured by administering Dr. Haines' Golden Specific. It can be given in a cup of coffee tea without the knowledge of the person taking it, effecting a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic. Thousands of drunkards have been made temperate men who have taken the Golden Specific in their coffee without their knowledge, and today believe they quit drinking of their own free will. No harmful effect results from its administration. Cures guaranteed. Send for circular and full particulars. Address: Confidence Golden Specific Co., 185 Race St., Cincinnati, Ohio.

THE NEWS IN GENERAL.

The Latest News Items Gathered from the various Daily Papers.
It is stated that the famous San Joaquin ranch at Santa Ana, Cal., which contains 400,000 acres, has been sold to a syndicate representing the Southern Pacific Railroad Company for \$1,350,000.

In the treatment of rheumatism, gout, neuralgia, etc. do not use semi-manufactured, etc., Salivation Oil should be applied to the parts affected, and thoroughly rubbed in, so as to reach the seat of the disease. It kills pain. Price 25 cents a bottle.
Lewin Cohee, about thirty years old, was found Wednesday morning hanging by his neck from a tree in the woods about two miles from Greensboro. It is supposed he committed suicide Wednesday while in a despondent mood. Magistrate Christian, having summoned a jury, went out and investigated the case. He was unmarried, and owned a small farm in the neighborhood, on which he lived alone.

There is serious apprehension that there will be appalling loss of human life in Montana. Snow began falling in the middle of November, and there is now more on the ground than at any time during the past 10 years. Coal is selling at \$9 a ton at Fort Benton. The snow is drifted to enormous depths, and more people have been frozen to death this winter than for a quarter of a century. The cold has been intense, varying from 49 degrees below zero at Livingston and Helena, to 60 degrees below zero at Fort Shaw and Fort Assiniboine.
The net result of the strikes just ended in New York is said to be that after nearly a month's contention about 3,000 workmen find their places occupied by non-union men, and this, too, in mid-winter, with the majority of them having families dependent upon them. The total losses in wages to the longshoremen and other working people in New York and New Jersey, caused by the strikes, from January 1st to February 10th, is estimated at \$2,500,000, while the estimated cost of the strikes to 38,000 employes through out of work through scarcity of coal or because of strikes of others is \$350,000. Other losses growing out of the strikes are estimated as follows: Total extra amount paid for coal through strikes, \$700,000; total losses incurred by steamship companies through delays, \$100,000; total losses to coal shippers, \$100,000; total estimated losses of the export trade of New York in two weeks, \$3,350,000.

Washington Notes.
The receipts of the government during the present month are averaging about \$1,000,000 per day, but the expenditures are unusually great, the pension payments alone being about \$21,000,000.

The Senate bill for the redemption and recoinage of the trade dollar, which was passed in the House of Representatives on Saturday by a vote of 174 to 36, provides that for a period of six months after its passage trade dollars, if not defaced, mutilated or stamped, shall be received at their face value for all dues to the United States. The coin shall then be retired from circulation. During the same period such unmutilated coins will also be received at the treasury of the United States in exchange for a like amount of standard silver dollars or subsidiary coinage. All the trade dollars so redeemed and stamped into standard silver dollars or subsidiary coinage, but such recoinage shall not be considered as part of the silver bullion required to be purchased monthly and coined into standard dollars.

In the United States Senate Saturday the postoffice appropriation bill was passed, with an amendment appropriating \$500,000 for carrying the mails to South America in American ships. Mr. Gorman voted for the subsidy amendment and Mr. Wilson voted against it. The money is proposed to be expended for mail service to certain South American States. Mr. Gorman supported his position in a speech, in which he said that he had uniformly voted for all propositions to extend and increase our mail facilities. He did not regard the pending proposition in the light of a subsidy, and he wanted to re-establish the old democratic doctrine by which our commerce should be increased and our mails carried to all the countries south of us in vessels sailing under the American flag.

The President Wednesday vetoed the bill appropriating \$10,000 for the distribution of seeds to the drought-stricken counties of Texas. In his message the President says: "I can find no warrant for such an appropriation in the constitution, and I do not believe that the power and duty of the general government are extended to the relief of individual suffering which is in no manner properly related to the public service or benefit. A prevalent tendency to disregard the limited mission of this power and duty should, I think, be steadfastly resisted to the end that the lesson should be constantly enforced that though the people support the government, the government should not support the people." He suggests that if the Senators and Representatives in Congress entitled to seed from the agricultural department would send their shares to the suffering farmers of Texas, their own constituents "could well bear the temporary deprivation, and the donors would experience the satisfaction attending deeds of charity."

A Grand Record.
We call your attention to the advertisement of a remedy which has stood the test of more than half a century with increasing popularity and is universally admitted to have no equal as a remedy for the cure of diseases originating in a disordered Liver, such as Dyspepsia, Biliousness, Constipation, Headache, Colic, etc. Simmons' Liver Regulator is simple and harmless, purely vegetable, and can be safely and advantageously used under any circumstances. It acts mildly and effectually and is especially valuable as a Family Medicine, which position it holds in so many homes. We do not know another preparation which does so much for so little. It is sent from heads of families and those holding the highest official and social positions. Keep Simmons' Liver Regulator in your house, it will reduce your doctor's bill and insure for your families health and happiness.

Among the items in the river and harbor bill which have been inserted or increased by the Senate committee on appropriations are: Approach to Norfolk, Va., \$100,000; Saint Jones river, Del., \$5,000; Duck creek, Del., \$5,000; Mississippi creek, Del., \$8,500; Susquehanna river, Md. and Pa., \$10,000; (to be expended above the Baltimore, Philadelphia and Wilmington bridges); Appomattox river, Va., \$16,000; Great Kanawha river, W. Va., \$150,000; Guyandotte river, W. Va., \$2,000; Elk river, W. Va., \$5,000.

Grass on Sandy Soil.

Dr. W. C. Masters of this county has written the following very interesting letter to the Baltimore Weekly Sun on the "Subject of Grass on Sandy Soil."
Messrs. A. S. Allen & Co.: "To solve the mystery of 'Grass on Sandy Soil,' in the article of the Weekly Sun the 8th inst. we must keep in view certain truths inseparably connected with agriculture.
1. All progress on the earth about one ton to the acre foot, forcing itself by this enormous weight into the ground as far as the water will allow.
2. Air is just as necessary for the growth of vegetation below the soil as for its growth above.
3. Free circulation of air, light, heat and moisture are equally required for development in the vegetable as in the animal world.
4. Covering the soil, specially with porous barn-yard manure, is highly favorable to its accumulation of fertility, the soil thus being more equal in temperature; more moist, and to such a degree more favorable to the generation and decay of insect life that from this source the soil largely obtains its ammonia.
5. Cultivation is not necessary for plant growth, provided there are present all other necessary conditions.
6. Deep and shallow rains charged with soluble matters, which are absorbed by plant-roots and brought up to stem and leaf to cover the surface and prepare it for fresh vegetation.
7. Sandy land is saturated by surface manures quicker and deeper than clay land.
8. Deep sands covered and without cultivation, or cultivated with sufficient moisture, not only withstand drought better, but produce a more rapid and early growth than clay.
9. Digestion of food in the soil is just as necessary for vegetable nutrition as digestion in the stomach is for animal nutrition.
10. Demanding the soil, especially in drought, trampling on it, chiefly while wet, thus checking root growth, which renders it mellow, and causing out insect life, which renders it fertile, are two of the most certain methods of impoverishing land which the old serpent and his brainless cloppers have ever yet devised.
Let us now look at our grass plot resting on deep white sand. It is in grass, not broken at all. Course manure is spread on it and left undisturbed. Insect life is formed and decays there, stimulating the grass to heavy and rapid growth. Compensation is more than made by its manure covering for the loss of its natural covering. Every year the soil becomes richer, deeper, more full of roots to arrest the plant food as the rains carry it down, until now it is doubtful if any but long, heavy rains reach to the depth of the root-filled, saturated subsoil. Evaporation in hot, dry weather becomes less, the tap roots of the grass descend deeper, nearer to permanent moisture, less dependent on rains year by year. The crop is at least two weeks earlier than on clay lands and the second crop gets the benefit of early fall rains, making it nearly equal to the early crop in quantity and superior for milk in quality. This plot proves two things plainly: first, the farmers of Maryland are not dependent on clay ground for grass; second, it is doubtful if it can ever be made to produce as much hay per year as sand. This plot, too, increases in yield, and the question now is, What is going to be the limit of its production?
Will some farmer have the kindness to put to the test one hundred rods of clay land under the same treatment, with the addition of good drainage if needed?"
BARON KING.
B. C. Springs, Md., Jan. 26, 1887.

Wanamaker's.

Philadelphia, February 14, 1887.
A very fine imported ladies' broad cloth for tailor-made suits and spring jackets. A touch is enough to tell its extra good quality. Red, brown, olive, bronze, black; 2 shades each of mahogany and green; 3 each of dark brown, light brown, blue, mode, heliotrope and drab. Colorings as delicate as a sun-tinted cloud. 56 in. No. not \$3.50; the price is 2.75 a yard. As a rule 6 yards for a suit.
Diagonals and squares from the late great aquator sale; blues and blacks, 54 in., \$2 and 2.50. But a few cents more than the manufacturer's price by the case.
By the ground-hog rule, Winter's back is broken. Before the grass comes there'll be thoughts of a carriage for baby. Most of the newness this year is in the body. If the upholsterer doesn't suit go up stairs, choose what of silk or satin you like and we'll fix it as you wish. So of the bodies and running gears. Pick those wheels, these springs and that body, if you will; we'll put them together—build your carriage to your mind in fact.
You'll see all our cushions are tied in. Take them out and lay a pillow on the all-over carpeted bottom if you care to. Can't often get a carriage built that way. Costs more to us but not to you. Special coaches, upholstered in satin and plush, trimmed with good quality of ribbon and fitted with satin parsons, \$14.50 16-50 and 18 each.
A good coach, \$6. Wicker body, strong and neat; serviceable running gears, comfortably upholstered, some fancy work and \$6. That's the lowest. Price climbs then to wherever you say; some first babies take the price pretty high.
Nainsook Embroideries.
Pretty little trifles unless you try to follow the ins and outs, the ups and downs, the twirls and curls of the design. Pret-

ty still but not so simple. You begin to wonder how it can all be and but 9 to 30 cents a yard. Insertings to match.

Not much of a dress hat, you think, for 4? Wrong. Perhaps a trick of curl lacking in the brim, may not quite so fine, but how can most of you tell it from one for 5? Just as light, just about as good to wear. If you pay the other \$1 you pay it mostly for style. Plenty are glad to; plenty more are glad not to. For them the \$4 silk hat. After it's roughed a little, harder than ever to tell that it isn't one of the finest.
And a good black Derby for 2. Not the highest note of goodness, but dressy and serviceable. A little finer, a little better all around, \$2.50. The standard 3. A number of last fall's importation of Henry Heath's best London Derbys down from 5 to 4.

Printed India Silk. The simplest and plainest of hand-woven silks; always better than it looks. You like it when old and familiar; you'll like it better in the new and pretty designs. Like passing into a flower garden to pass near some of them. And very modest figures also. Light and dark ground, 24 in., 75c; 27 in., 1 to 2.

Bead trimmings will be the fashion. We've never before had so much in bead things to make a lady wild; never so much in the grass mixtures, or in any of the other somethings and nothings that give the last touches of loveliness and tone to a costume. New things till you tire of counting; strange things till you weary-wonder what next.

There's a whisper that the braid trimmings in Vandyke designs (all the pointed braid patterns are "Vandykes") will have a run this season. They deserve it. Hard to make a worsted dress look so dashing in any other way.
A taking newness is the grass and tape fringe with marabout heading to match. All the grace of the "grass" (made in a loom as very narrow tape and given a satiny sheen) both in the heading and in the fringe, 2 to 4 a yard.

Write and say what you want, and how you want it sent. Samples or goods.

Cut Prices on Oak Hall Clothing.

You know what that means. Be quick to act. Winter Clothing isn't going to be held, and this cut in prices puts the whip to it. It's our practice to let reductions on small lots pass without any comment, or invitation extraordinary to you; they might be gone before you could get here; and you would be disappointed as well as we.
This "Cut Price" sale is big enough in the quantities of goods to give you time to get here, and share in the good things.
Think of it: reductions of 12 to 50 per cent on reliable clothing, (as goods you would buy, likely better, without a penny off if you went to other stores,) and big lots of it too.
Storm Coats—down from \$12 to \$9.
Overcoats—reduced from \$20 to \$15.
Dress Suits—lowered from \$20 to \$16.
Business Suits—cut from \$14 to \$12; \$12 to \$10.
A third of a number of Boys' and Children's Suits.
Custom-made suits and garments; half and nearly half price.
The prices above are only sample ones of the lots; many of the reductions are on our finest qualities.
You had better decide to come after these at the earliest possible.
The usual custom of the house to exchange goods, if satisfactory, will be in force.

HALT AND CONSIDER!
The Master Piece of Art and Perfection in a cook Stove, the **OTHELLO RANGE**

FOR SALE BY L. W. GUNBY, SALISBURY, MARYLAND.

QUESTIONS AND ANSWERS.—Mr. Gunby, why do you buy so many stoves at a time? To take advantage before the advance in prices, the largest quantity bought at the lowest price. We do not get out stoves from the extreme West necessitating the addition of \$20 to \$30 freight to be added to the cost of stove to the consumers. We do not employ men and teams at a heavy expense to drive our stoves to the country, all to be changed in the price of the stove. I do not place the buyer of the OTHELLO RANGE to every disadvantage in buying. First by not making him pay three prices. Secondly he does not have to send to a remote part of the U. S. for repairs, he has to carry the stove to a machine shop for repairs. All the parts can be bought of me and placed in the stove at home, thus saving almost the cost of a stove. Thirdly he saves the giving of notes to strangers—a dangerous proceeding. Knowledge and experience is substantial and hard to be desired. I do not ask your attention to something that is new and experimental but to the OTHELLO RANGE, the tried, true and faithful cook stove, recognized by all the intelligent people of this town and vicinity as the best cook stove made. The OTHELLO RANGE with its pieces of cooking utensils and pipe sheet, all cleaned and put up, and guaranteed to give entire satisfaction for \$25.00. We sell the OTHELLO RANGE in towns and cities and do not confine our sales exclusively to the people living in the country.

WHEN SHALL I INSURE?

Were this question in reference to my house—what might not be the result?—I should answer would be here; but as it regards my life—that, my dear friend, WHEN?—I would answer, NOW!

Life is uncertain, we have the use of it, but are continually wasting it. Such is our mortal life, and we should not waste it. It becomes every day a diminishing possession.

It is more apparent when the There will be a Celebration of the Holy Communion at Taskin next Sunday morning Feb. 27th at 10 o'clock, and at Grace Church Somerset county at 7 o'clock. There will be Evening Prayer and address at St. Paul's Church, Spring Hill, Friday afternoon March 4th at 3 o'clock. F. B. Adkins, Rector.

We have received from Mr. W. H. Eichelberger, engineer, lately engaged in the work of straightening and widening the streets, an exhaustive communication on the subject of grading the streets and laying out the town properly. His idea is that Main street should be uniformly graded from St. Peter's street to the First bridge. We will publish the report in full in our next issue.

Members and friends of Parkers Methodist Protestant Chapel take notice. Preaching next Sunday the 27th instead of Sunday week at Parkers Chapel by the Pastor. Let there be a full attendance, as the Fourth and last Quarterly Conference will take place on the 28th and it is necessary that we on the Sabbath make a choice of a Delegate to represent us in the Maryland Annual Conference which convenes at Easton April 6th. G. R. McCready, Pastor.

The Town commissioners have passed an ordinance regulating the width of sidewalks on the following streets: Main street, from Division to the north branch of the Wicomico river, 8 feet wide north side of Water street, from Division to Bond, 10 feet wide; Division street, from High street to East Cam 1st street, 6 feet wide; East Cam 1st street, on both sides, from Division to east branch of Wicomico river, 4 feet wide. A penalty of \$5 will be imposed on any person increasing or decreasing the width of the sidewalks above named.

A terrific thunder storm passed over Salisbury last Friday night. At about seven o'clock a portentous black cloud was seen in the western sky, fast approaching. Vivid flashes of lightning illuminated the heavens, and the roar of the thunder made one think of mid-summer storms. The wind was very heavy and the rain descended in torrents accompanied by hail. In about one hour the clouds had passed over and the stars were seen shining. The storm seemed to be a general thing all over the country.

As a meeting of the Maryland State Temperance Alliance held in the Court-house in this town on Tuesday night of this week, Hon. Edwin Higgins, of Baltimore, president of the Alliance, delivered an address on the subject of Constitutional Prohibition. The house was filled to its utmost capacity with both ladies and gentlemen. James E. Ellegood, Esq., in a short speech, introduced Mr. Higgins. The subject of the address was Constitutional Prohibition. In favor of prohibiting the sale of a quantity of wine, and in opposition to the prohibition of Mr. Higgins.

County Commissioners.

The County Commissioners were in session Tuesday. A full Board was present.

Minutes of last meeting were amended by revoking the order passed Dec. 14th, 1886, which ratified the report of the examiners on the proposed road in 9th district, from near Mrs. Sarah A. Phillips Lane Delmar, to the corner of Mr. B. G. Calloway's field; also that Mr. Phillip of the board was authorized to purchase cover seed for the Alms house farm.

Pension order of Laura R. Phillip was changed from W. R. Gillis to Thos. B. Moore.

Adjoined to meet March 8th.

Sharptown News.

SHARPTOWN, Feb. 23.—Mr. I. J. Phillips and family of this town have moved this week to Philadelphia, Pa. Capt. Isaac J. Gravenor and family have also moved to Camden, N. J.

Wm. Drennen has recently sold his new boat, now about ready to start, to Capt. J. P. Mill of Gloucester, Va.

Louis Collison of Baltimore and Flora A. Bennett of this town were married here in the M. E. Church on Wednesday evening at 9:45 by Rev. G. W. McCready of Salisbury. No reception, no music and no cere.

Steamer Naticoke will resume her trips on the Naticoke from Seaford to Baltimore next week. A line in connection with that will be run from here to Laurel. This line of transportation will add much to the convenience of our business men as there is now much dealing between them and Laurel.

Corner Stone Laying.

On Thursday March 3rd, the corner stone of the New Mount Hermon Meth. P. Church, situated in Walston's Grove will be laid with religious exercises, consisting of singing by the congregation, followed by prayer. After which an appropriate discourse will be delivered by the Rev. J. L. Strangham of the Meth. P. Church. The committee of arrangements will provide a first class supper which will be served in the church. Price for single supper, "Adult," 50c; Gent and Lady, 75c; Children under twelve years 25c. The proceeds are for the benefit of the New Church. Come dear friends one and all, and let us have a good time. Religious exercises will begin promptly at 2:30 p. m., and supper will be served from 5 to 8 p. m.

N. B. If the weather should be inclement on the 3rd then the above program will be carried out, the Lord willing, on the day following.

GEORGE R. MCCREADY, Pastor.

Allen Letter.

ALLEN, Feb. 23.—Died on 15th inst. after an illness of several weeks, Mrs. E. M. Drury, aged 79 years. Funeral rites were performed in the church at Allen, Md., on Friday afternoon last, by Rev. Mr. Drury, her husband, who has been a member for many years. Rev. W. F. Hayes officiated; after which, her remains were interred in the Church yard Mrs. Drury leaves three children, Jas. T. Dryden, B. F. Messick and P. N. Messick.

Died on the 21st inst. of consumption, Mrs. Alexina Porter, wife of Levin A. Porter, her obsequies were held in the church at Allen, and her remains laid away in the church yard.

A few of our farmers have commenced sowing oats and clover seed. Trucks were planting peas, potatoes and strawberry plants during the mild weather of last week.

The Messrs. Todd have started their factory at Allen, and the steam whistle and buzz of machinery may be heard now, from early morn till dusk every day.

Barren Creek Letter.

BARREN CREEK, Feb. 23.—Many of the farmers in this vicinity are now actively engaged in preparing their lands for melons, corn, small fruits and vegetables. The melon crop is expected to be as large if not larger than last year. Potatoes and peas have been planted by a majority of the truckers. The new belfry which is in the center of the M. F. church here will be completed this week and the bell placed in position immediately.

The fourth and last "grand ball" of the season was given in the Grange hall by the young men of the town Friday night of last week. About fifty ladies and gentlemen were present. All who attended spoke of the dance as the most enjoyable one yet given. Mr. Allison Elliott furnished music.

A party of fox hunters from this place accompanied by J. B. Perdue, of Salisbury, and David Straughn, of Worcester, visited Dorchester county on Tuesday of this week. Whether poor Raymond was captured or not your correspondent has not been able to learn yet.

Director's Happenings.

RIVERSIDE, Feb. 24.—Our farmers are taking advantage of every fair day to put their ground in order preparatory to the planting of peas and other early crops.

Despite the rather inclement weather, on Wednesday evening last, at an early hour, quite a large number of our people had assembled to witness the marriage of Mr. James B. Bennett and Miss Laura Cooper. About 9 o'clock the bridal party arrived and presented themselves in front of the altar. The bride was becomingly attired in a light cream colored dress, the groom wore the conventional black. The ceremony was performed by Rev. Geo. W. McCready, of Salisbury, it being his first wedding. Immediately after the ceremony the young couple retired to the residence of Mr. Terrell at Barren Creek in Wicomico county.

Literary Notes.

Henry George's theories are to be subjected to a searching criticism by George Ganton, in a paper to be published in the Forum for March.

The frontispiece of Scribner's Magazine for March is a strong and dignified portrait of M. Thiers, engraved from the painting by Healy, which has not before been reproduced. The first article, "The Stability of the Earth," by Prof. N. S. Shaler, is a full and comprehensive discussion of the whole subject of earthquakes and kindred phenomena. Professor Shaler writes in a clear and interesting manner of their causes, distribution and effects.

Messrs. Harter & Brothers sent a party of artists and writers through the Southern States for the purpose of illustrating by pen and pencil the picturesque aspects and the industrial development of the "New South." The results of their labors will appear throughout the year 1887 in Harper's Magazine, Harper's Weekly, and Harper's Bazar, all of which will present a body of reliable information as to the present social and industrial condition and the future possibilities of this part of our country, that cannot be had from any other source.

Quantico Letter.

QUANTICO, Feb. 24.—On last Friday evening, 18th inst., Mr. Albert E. Acworth, of Barren Creek, gave a learned and interesting lecture in Jones' Hall, his subject being "From whence we came." He spoke of many families in this country whose ancestors came from Scotland, Ireland, and other places, and that they should, and many do, respect the old ancestors of Europe. He named many places, towns, cities, and tracts of land here, that are named in honor of some place, town, city, Scotland, Ireland or Wales. Every place found here that resembled a place in the old home was called in honor of that place, simply for the respect and love felt for the old country.

Other gentlemen gave their views, some on raising grain, some on corn and other crops. The meeting was attended with great interest. Mr. R. B. Talbot is speaker for meeting Thursday next.

—Mr. Isaac C. W. Powell died at his residence in Easton in the early evening of Friday February 18th. He had been lingering for several weeks and his death was expected. He had not been out of the house since the Christmas day. He was 68 years old. For many years Mr. Powell was an active and prominent man in this community, standing professionally for years amongst the foremost members of the bar. He received a classical education, and had literary abilities of a high order.—Easton Ledger.

White's Chilled Plow. WARRANTED BEST MADE.

Free from Choking, Light Draft, Harder than Steel. Warranted Best Chilled Plow made; particularly adapted to Southern soil.

The above is a faithful illustration of our new One Horse Chilled Plow various shapes of which, suited to the wants of all, are now manufactured for us. In open Chilled Plows are concentrated all the good features found in others, and, in addition, many points of excellence peculiar to them, and which latter are covered by Letters Patent, issued and controlled by the manufacturers. The standards are very strong, and so constructed as to be remarkably free from choking. There are

NO BOLT HEADS EXPOSED. On the wearing surface of Moldboards, and the latter being very sharp on their inner or cutting edge, the angle very acute, and being made of CHILLED IRON, the draft is consequently very light, making the plow most desirable
