

The largest batch of appointments yet made, was sent to the Senate last Monday. The list included many foreign appointments—Ministers and consuls—but there were also on the list quite a number of postmasters and revenue officers.

It is feared by the Tammanyites that their organization will be considerably weakened if Mr. Kelly withdraws from its active management. This move on his part is said to be likely, on account of poor health. There is no doubt about Mr. Kelly's astuteness, and skillful political management, but his ways have so much the flavor of trickery, that Tammany would be in better odor without his leadership.

The war cloud which has been hanging over Europe is breaking away. Russia has virtually accepted the propositions of England in the matter of the Afghan frontier, and what might have been a general European war, is thus averted. Neither of these countries is in condition to engage in as extensive a war as this would have been, and it is fortunate for the welfare of all the other countries of Europe that the difficulty has been for the time peacefully settled.

All good citizens should rejoice at democratic success last fall for one reason if for no other. It means the downfall of Mahomedism in Virginia, with all its corrupt practices and unscrupulous policies. A power which owes its existence to public patronage can not fail to be swept away when that patronage is withdrawn. If he had not been supported by the late administration, Mahone would long ago have ceased to be a figure in Virginia politics. Let all such men be relegated to private obscurity, where they belong.

It is to be hoped that Congress next winter will be more successful in its tariff legislation than it was a year ago. The policy of the democratic party is well understood as tending to a rapid reduction of the country's war tariff, if it is feasible. With full knowledge of this, the people have elected a democratic President, which means an abatement of that party's principles. It would be wise for them not to trifle longer with the strongly expressed wish of the whole country in this matter.

The reappointment of Mr. Pearson as postmaster of New York, while not a surprise, is still something of a disappointment to some. On account of Mr. Pearson's efficiency and long service in this office, many of the leading business men, republicans and democrats alike, urged his retention, while the politicians were urging the appointment of some democrat. While it is understood by those near the President that this case is not an indication of what will be the usual policy of the administration in such matters, still there were exceptional circumstances that made it desirable to continue Mr. Pearson in the office, and it was only done after a very careful consideration of the whole subject. It is safe to trust Mr. Cleveland's judgment.

Among the appointments sent to the Senate last Monday, are noticed the names of two negroes, Mr. Edward Jones of Illinois, who is given the position of consul-general to Vienna, has been a Republican, but of a very independent kind. He is regarded as a "kicker," and during the last campaign was a strong supporter of Cleveland. He is a brother-in-law of the well-known Carl Shurz. Another negro man, Mr. Rasmus B. Anderson, of Wisconsin, who is to be the Minister to Denmark. He is a very able man, and is well acquainted with several languages. Until the nomination of Mr. Blaine he was a Republican. After Mr. Cleveland was nominated, Mr. Anderson canvassed his state for the democratic ticket, and made many speeches in the Swedish language.

Mothers Should Note This.—Under this caption an old physician writes to a Cincinnati Medical Journal, that in view of the fact that people living at a distance from cities are frequently obliged to resort to cough mixtures already put up for use, they should provide themselves with only such remedies as are known to be free from opiates, poisons and narcotics; thus avoiding not only danger, but also fatal results. He recommends the recently discovered Red Star Cough Cure which analyzes and tests by various Boards of Health proved to be purely vegetable as well as prompt, effective and entirely harmless.

On account of ill health, Mr. John Kelley is about to retire from the chairmanship of the Committee on Organization of Tammany. Great regret is expressed by his many friends that he should find this step necessary. It is not certain who will succeed him, but it is feared that no one else will be able to keep the organization as completely together as Mr. Kelly has done.

A special from Washington, D. C., says: "Ex-Speaker Randall is ill in bed and no one allowed to see him. He is suffering from nervous prostration."

WASHINGTON NOTES.

More Important Nominations sent to the Senate—Other Matters.

The people of the West are dissatisfied that they have not been better represented in the appointments thus far made. It is said that President Cleveland will be invited to make a trip out to that section, and study the needs of the West.

Minister Lowell has been writing all of his despatches to the State Department since the death of his wife upon paper bordered with a deep mourning band. This is the first time that the badge of private sorrow has ever been introduced into the official documents of the Government.

It is said here by New York people that Mr. Whitney, the Secretary of the Navy, is to be brought out as a candidate for Governor of New York next fall. It is not believed, however by Mr. Whitney's friends that he has any idea of any such thing. He is devoting himself now to straightening up the Navy department.

The female employees of the Government incline to the opinion that Miss Cleveland's influence with her brother will secure for them greater consideration at the hands of this Administration than of preceding ones. It is generally believed that Mr. Cleveland desires to do away as far as possible with the unjust discrimination against women who are doing the same work for which male clerks are much better paid.

The general committee of citizens appointed to arrange for the inauguration ceremonies will meet tomorrow evening and will order that all the subscriptions paid for the purpose of defraying the expenses of the inauguration display be repaid to the subscribers. The profits of the ball, the street stands and other public enterprises, was sufficient to pay all expenses without drawing upon the fund which public-spirited citizens had subscribed to make good and deficiency.

Gen. Waldhall, the new Mississippi Senator, is a very tall, slim, graceful-looking gentleman, who does not look as if he yet reached his fiftieth year. He has a high, broad forehead, a straight nose and a grizzled blond mustache, which droops down well upon each side of his pointed chin. His hair is a reddish brown, with little streaks of gray in its curly waves. He looks up to Secretary Lamar as a lieutenant worthy of his chief. All of the Mississippi men appear to regard Lamar as their natural leader.

The contract for printing postage stamps expires the 1st of July, and the Postmaster-General is engaged in the preparation of proposals inviting bids for the work. At present this work is performed by the American Bank-Note Company, of New York, and the contract is considered one of the best in the country for the Government. An active competitor at the next letting will be the Bureau of Engraving and Printing, which is considered the best equipped establishment of its kind in the world.

Congressman S. S. Cox has been burdened with letters congratulating him on his appointment as Minister to Turkey. Yesterday he dictated over two hundred responses to his friends, thanking them for their kind expressions of regard. He was informed by stenographer that about eighteen hundred letters had been consumed in writing the letters. Mr. Cox is not in perfect health and has been persuaded by his friends to abandon his Congressional labors for the Turkish Mission in the hope that the change of climate for a few years will result in his entire recuperation.

The President sent a number of nominations to the Senate, on Friday of last week, among whom were Gen. Joseph E. Johnston, of Virginia, for Commissioner of the Pacific Railroads; Col. N. J. Coleman, of St. Louis, Commissioner of the Fish and Game; Judge Alexander McCue, Solicitor of the Treasury; Gen. Johnston is a very old man. He is at least seventy-six. He is so old that he left the date of his birth out of the sketch which he furnished to the Congressional Directory when he was a member of the Forty-sixth Congress. One biography of Johnston places the date of his birth in 1807 and another in 1809. He is a wonderfully well-preserved old gentleman and does not look over sixty.

The National amusement of the American people is emphatically the circus. No other service to draw them forth from shop, store and farm as this does. Among the many different circuses which claim public attention none occupies a more popular place than that of Robbins. Robbins is at Salisbury, April 17th. Robbins has a good show, one well worthy of public patronage and one which gives full value for the time and money expended in attending it. In all the various departments, circus, museum, menagerie and street pageant, it is fully to the times and filled with rare novelties. It is a show organized to please and satisfy the people, and it does to a marked degree. Whenever it appears crowds assemble within its canvas walls, and when the last act comes, all depart satisfied with the entertainment.

The French ministry, under the leadership of M. Ferry, premier, resigned Monday in consequence of the defeat of the motion for a credit of \$50,000,000 on account of the military operation in China. President Grey accepted the resignation, and it is expected that M. de Freycinet, or M. Ribot will be asked to form a new cabinet.

The rowing race between William Birch and Edward Hanlag for the championship of the World, took place at Sidney, Australia, last Saturday. The race was won by Birch, by about six lengths. Hanlan was the favorite, and the result was unexpected.

THE PEOPLE OF THE WEST

FOR POTATOES, MELONS AND ALL EARLY SPRING CROPS OUR MIXTURE "A"

It contains more available plant food, for less money, than any fertilizer in the market. It is not only active but permanent. And we would respectfully refer you to the following gentlemen WHO HAVE USED IT.

W. W. Waller, J. W. Reading, George W. Robertson, B. F. Messick, Edward White, J. P. & J. A. Insley, J. S. Webster & Sons, N. T. Hoar, Train A. Bounds, John Turner, Rev. Robt. Powell, Geo. D. and Esau Insley and indeed any and everyone of the many hundreds of persons who used it.

HUMPHREYS AND TILGHMAN SALISBURY, MARYLAND.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its fatal through generation after generation. Among its earlier symptoms are Eczema, Cutaneous Eruptions, Pimples, Boils, Carbuncles, Erysipelas, Furunculosis, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effective in the treatment of Scrofula, Eczema, Erysipelas, and other eruptions, that it is generally known to the medical profession, and the best physicians constantly prescribe Ayer's Sarsaparilla as a cure.

Regenerative Medicine

Is composed of the genuine Honduras Sarsaparilla, with Yellow Dock, Nitroglycerin, the Iodides of Potassium and Iron, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe Ayer's Sarsaparilla as a cure.

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

Ayer's Sarsaparilla

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. [Analytical Chemists.] Sold by all Druggists: Price \$1; Six bottles for \$5.

Annamaker's

Philadelphia, March 30, 1885. That dollar ladies'-cloth for 75 cents throws a strong light on kindred fabrics, tricots for example. [Notwithstanding such extraordinary performance as that Garman 75-cent check stuff for 25 cents, the dollar ladies'-cloth for 75 cents is the most remarkable incident that has yet occurred in the way of underselling; because of the staple character of the cloth.]

Look at tricots, if you please under that strong light. Several different cloths at a dollar, of different widths and so of different values. They bear comparison with the dollar (75-cent) ladies'-cloths.

Now comes a yard-wide tricots for 50 cents that ought to be known. Of fine soft wool and open texture.

Gentlemen's printed-border linen handkerchiefs, half and two-thirds:

50-cent for 25
40-cent for 25
35-cent for 20
25-cent for 15
25-cent for 12
20-cent for 10

The first three sorts are hemstitch; the last three imitation. Ladies' ditto: hemstitch, 25-cent for 15; imitation-hemstitch, 12 cent for 9, or a dollar a dozen.

It is time of year for abundance of everything linen; and we have it. There is never a time when more is here. Prices are steady; tendency upward. Scarcely any change in staple linens show itself in our stock as yet; but we must come to that shortly. We have been at the bottom. The wholesale market is rising. Our trade is too large to let us keep far behind a change in the general market.

The best of the Barnsley table-linens, \$1.50 grade for \$1.25; Barnsley floor-linens likewise; and these are about the only linen bargains we have at present. The stock is very full and on an even general level of price.

South-west corner of main building. Moquette carpets again, \$1.25 and \$1.50; almost a roomful, and more in every day till the room is quite full. Wiltons plenty yet, \$1.50, \$1.75 and \$2. Brussels, another roomful of best-five frame Brussels, \$1; still another \$1.25. Tapestry still \$60 and 75 cents;

R. E. POWELL & CO. RECEIVED THIS WEEK A LARGE

STOCK OF HAMBURGS AND WHITE GOODS OF EVERY VARIETY.

AND AT THE LOWEST PRICES. R. E. POWELL & CO., No. 38 Main Street, SALISBURY, MD.

SOMETHING ABOUT SHOES.

I am having a large sale of my special makes of SHOES, and you would be surprised how far a little money will go when rightly invested. We will show you how to invest it. My success in the sale of

LADIES' AND GENT'S SHOES. J. S. ADKINS, Main St., Next Door to the Peninsula House, Salisbury, Md.

SALISBURY ADVERTISER

SATURDAY, APRIL 4, 1885.

Post Office Bulletin. MAILS CLOSE. NORTH, 6:30 A. M. SOUTH, 7:30 P. M.

Office open from 6:00 A. M. to 6:00 P. M. and on Monday from 11:30 A. M. to 12:30 P. M.

Mail arrives from Baltimore via Crisfield, daily except Sunday, and departs same days.

Index to Advertisements. The following new advertisements appear in this issue of THE ADVERTISER.

50th ANNIVERSARY. MR. & MRS. JOSEPHUS HUMPHREYS.

At the Residence of WILLIAM H. JACKSON. WEDNESDAY EVENING, APRIL 3TH, FROM 9 TO 12.

SARAH W. JOHNSON. JOE HUMPHREYS. ITEMS BRIEF BUT NEWSY.

Another slight fall of snow last Sunday. It was winter's good-bye.

The store of Messrs. Breckhard, Laws and Carey is being improved by a fresh coat of paint, inside and out.

The Hook and Ladder company will meet in their room on Thursday evening next at 8 o'clock.

The wife of Mr. Samuel E. Fosdy died last Monday at her home in Delmar and was buried last Tuesday.

Shad was offered for sale last Thursday at one dollar a piece. D. C. Adams of the Salisbury Hotel secured a large one for his guests.

Last Wednesday being the 1st day of April, the small boy indulged in the usual sport of playing practical jokes on all who came near him.

We fail to publish communication from Johnsonville, Nutter's District, according to our custom, as the real name of the writer was not signed.

Mr. Chew, had his ferret out in the street last Tuesday after a rat. The chase was exciting, but on account of the crowd of people around the rat escaped.

Don't forget the Hook and Ladder entertainment, next Monday night. All arrangements are made, and the performance promise to be very enjoyable.

Another change was made in the running of trains on the P. & N. R. R. (Delaware Division) this week. See corrected schedule in our column.

The Saturday Night Club was entertained by Mr. Will Jackson at his father's residence on Saturday evening last. Mr. Jackson is spending the Easter holidays at home.

For reasons patent, we have been compelled to change our custom of publishing obituaries and death notices. Those interested will please note terms at the head of the editorial column.

Three of the hardest, roughest and most forlorn looking tramps of the season passed through Salisbury last Wednesday. Their dress would indicate that they had been engaged in dredging.

Several of the streets in town have been shelled by shelling. Dock St. has been shelled throughout almost its entire extent, and large holes and hollows in other streets have been filled up.

Several of the merchants in town have had new signs put up recently in front of their stores. Those in front of the stores of A. Whittington & Son and B. L. Gillis & Son are very handsome signs.

Attached to the day express that passed through Salisbury, Monday last, at 12:30 p. m. was the private car of President Roberts, of the Pennsylvania Railroad. President Roberts was on his way to Old Point.

The Easter Moon waxes to last quarter on April 7th at 9:42 a. m. The Moon will be new at 0:31 a. m. of the 15th, and full at 1:14 a. m. of the 29th. There will be no occultations of stars by the Moon worthy of special attention during April.

Mr. James Ball has greatly improved his barber shop by putting up a walnut case for cups, fitted with three large mirrors, and with a marble ledge. This makes Mr. Ball's shop probably the prettiest and best arranged one on the shore.

Monday last a new schedule was introduced on the N. Y., P. & N. R. R. Going North, trains now leave Salisbury at 8:45 a. m., 12:25 a. m., 1:00 p. m., 3:45 p. m., 6:30 p. m. Going South leave here at 2:51 a. m., 12:30 p. m., 1:45 p. m., 4:08 p. m. This gives four trains each way daily.

While Jackson's barges were coming up the river last Sunday afternoon, the head one ran aground, and the impact of the one behind had drove it against the one aground. Only slight damage was done, which was repaired Monday. They unloaded the lumber Monday and reloaded ready with corn for Virginia.

Mr. D. C. Adams received a letter this week from Mr. Chas. W. Hollis stating that the daguerrotype spoken of in last week's ADVERTISER, belonged to his wife, whose maiden name was Miss M. L. Coe. The gentlemen whose names are written on the picture were friends of the family and one of them was killed at the second battle of Bull's Run.

All the Hebrew families of Salisbury assembled at the house of Mr. Blumenthal, in Frankfort, last Monday evening to celebrate the Passover. As is well known, this festival commemorates the escape of the Israelites from death, when in all the other families in Egypt, their first born was slain, immediately preceding the Exodus from that country. The festival lasts a week, and during that period no leavened bread is allowed. Instead they must eat matzoh, which are thin cakes made of flour and water. The ceremonies and prayers, during this season, all have reference to the events which the festival celebrates.

The Hook and Ladder Benefit to be given at the Byrd Opera House, next Monday night, will doubtless receive the liberal patronage it deserves. The young ladies and gentlemen have taken hold of parts assigned them with energy, and if we are not very much mistaken they will give us a fine musical and dramatic performance. The hop at 10:30 just after the entertainment, will equal if not surpass anything of the kind ever given in this town. This has been gotten up by subscription, and is to be strictly social and by no means public. Tickets to Opera House general admission 35 cents, reserved seats 50 cents, for sale at Collier's Drug Store.

The Old Point day express train began running on the N. Y., P. & N. Railroad last Monday. These trains will have Pullman Parlor cars attached. The North-bound train leaves Cape Charles at 12:30 p. m., and Salisbury at 3:45. Going South it leaves Salisbury at 12:30 p. m., and arrives at Cape Charles at 3:40. It reaches Old Point about two hours later.

Miss Nannie White came home on the Kent last Wednesday morning, and will spend the Easter holidays in Salisbury. She will return to her school again after Easter.

Mr. Geo. M. Moore has discontinued the music and stationary business, which he has been conducting for several years past. Mr. Moore has not yet determined what kind of business he will engage in for the future.

The Old Board Re-nominated. A town meeting was held in the court house last Monday evening for the purpose of nominating five persons to be voted upon Monday, April 6th, for town commissioners.

Advertised List of Letters. The following is the list of letters remaining in the Salisbury (Md.) Post-Office Thursday, April 3, 1885.

Ladies List.—Mrs. Mollie Aherm, Miss Nealia Broughton, Miss Rachel Byrd, Mrs. Drucilla A. Chatham, Miss Susan Doner, Miss Martha Fowler, Miss Annie Gonyer, Miss Mary Heam, Miss Margaret E. Jones, Mrs. Margaret Walker.

Persons calling for the above letters will please say they are advertised. JOHN P. OWENS, Post-Master.

Items from Quantico. From Our Special Correspondent. Rev. Elijah White and wife, of Charleston, Md., have been visiting Mr. and Mrs. T. B. Moore, of this place.

Notes of Religious Worship. There will be preaching in the Presbyterian Church of Rockwalking to-morrow, April 5th, at 3 o'clock, p. m.

Services at the Presbyterian Church as usual next Sunday, at 11 a. m., and 7:30 p. m. Rev. J. T. Whitley officiating.

The first quarterly meeting for Parsonsburg Circuit will be held at Zion on the 17th and 19th of April. Quarterly Conference on Friday Morning, the 17th, at 10 o'clock, presiding by Presiding Elder on Sunday, the 19th. Preaching by the pastor at Melson's M. E. Church next Sunday, the 20th of April, at 3 o'clock, p. m., and at Zion, the 21st of April, at 3 p. m.

On Easter-Day, April 5th, there will be a celebration of the Holy Communion in Saint Philip's Church at 10 o'clock, a. m. on the same day at 11 a. m., there will be a celebration of the Holy Communion and a sermon in Saint Paul's Church, Spring Hill. On Monday in Easter Week there will be Morning Prayer in Saint Paul's Church, at 10:30 o'clock, a. m. Immediately afterwards there will be the annual election of vestrymen. F. B. Adkins, Rector of Spring Hill Parish.

Letter from Sharpshoot. Business is somewhat brisker. The shipyard has been purchased by some energetic men from Cambridge who are causing things to assume a neat and decidedly business like appearance.

From Our Correspondent. A child's among ye takin' notes, and faith he prent's 'em. The fishermen are despondent.—A. H. Bradley, at his store at the mill, sold over \$91,000 worth of goods between '63 and '81.—I. S. Bennett, Riverton's popular merchant, sold over \$100,000 worth of goods last year, so says an expert.—Riverton's pugilists still show marks of their recent 'mill' Pva and potato planting is now in order.—Many of the drovers are home.—Othello's occupation gone.—Taffy billings with kissing parties take off Lent's sugar articles, and the usual trip Friday, not arriving until Sunday afternoon, having been on the railway for slight repairs.—Riverton is a great egg mart.—Mr. J. W. Bradley, a Baltimore commission merchant, is over on a flying visit.

Letter from Laurel, Del. From Our Correspondent. Mr. Editor:—I am sure that your readers between this place and Salisbury will be interested in occasional items from Laurel.

Three of the hardest, roughest and most forlorn looking tramps of the season passed through Salisbury last Wednesday. Their dress would indicate that they had been engaged in dredging.

Several of the streets in town have been shelled by shelling. Dock St. has been shelled throughout almost its entire extent, and large holes and hollows in other streets have been filled up.

Several of the merchants in town have had new signs put up recently in front of their stores. Those in front of the stores of A. Whittington & Son and B. L. Gillis & Son are very handsome signs.

Attached to the day express that passed through Salisbury, Monday last, at 12:30 p. m. was the private car of President Roberts, of the Pennsylvania Railroad. President Roberts was on his way to Old Point.

The Easter Moon waxes to last quarter on April 7th at 9:42 a. m. The Moon will be new at 0:31 a. m. of the 15th, and full at 1:14 a. m. of the 29th. There will be no occultations of stars by the Moon worthy of special attention during April.

Mr. James Ball has greatly improved his barber shop by putting up a walnut case for cups, fitted with three large mirrors, and with a marble ledge. This makes Mr. Ball's shop probably the prettiest and best arranged one on the shore.

Monday last a new schedule was introduced on the N. Y., P. & N. R. R. Going North, trains now leave Salisbury at 8:45 a. m., 12:25 a. m., 1:00 p. m., 3:45 p. m., 6:30 p. m. Going South leave here at 2:51 a. m., 12:30 p. m., 1:45 p. m., 4:08 p. m. This gives four trains each way daily.

While Jackson's barges were coming up the river last Sunday afternoon, the head one ran aground, and the impact of the one behind had drove it against the one aground. Only slight damage was done, which was repaired Monday. They unloaded the lumber Monday and reloaded ready with corn for Virginia.

Mr. D. C. Adams received a letter this week from Mr. Chas. W. Hollis stating that the daguerrotype spoken of in last week's ADVERTISER, belonged to his wife, whose maiden name was Miss M. L. Coe. The gentlemen whose names are written on the picture were friends of the family and one of them was killed at the second battle of Bull's Run.

All the Hebrew families of Salisbury assembled at the house of Mr. Blumenthal, in Frankfort, last Monday evening to celebrate the Passover. As is well known, this festival commemorates the escape of the Israelites from death, when in all the other families in Egypt, their first born was slain, immediately preceding the Exodus from that country. The festival lasts a week, and during that period no leavened bread is allowed. Instead they must eat matzoh, which are thin cakes made of flour and water. The ceremonies and prayers, during this season, all have reference to the events which the festival celebrates.

The Hook and Ladder Benefit to be given at the Byrd Opera House, next Monday night, will doubtless receive the liberal patronage it deserves. The young ladies and gentlemen have taken hold of parts assigned them with energy, and if we are not very much mistaken they will give us a fine musical and dramatic performance. The hop at 10:30 just after the entertainment, will equal if not surpass anything of the kind ever given in this town. This has been gotten up by subscription, and is to be strictly social and by no means public. Tickets to Opera House general admission 35 cents, reserved seats 50 cents, for sale at Collier's Drug Store.

Mr. Chas. Stevens has bought out the new business of Mr. Geo. M. Moore, and will hereafter conduct the business at the jewelry store of Mr. Geo. W. Phipps, at five points.

Miss Nannie White came home on the Kent last Wednesday morning, and will spend the Easter holidays in Salisbury. She will return to her school again after Easter.

Mr. Geo. M. Moore has discontinued the music and stationary business, which he has been conducting for several years past. Mr. Moore has not yet determined what kind of business he will engage in for the future.

has recently been interrupted by a landlord and his tenant. They entertained a difference of opinion in regard to the jurisdiction of the tenant, and conversation having failed to settle the dispute, their pugilistic propensities led them to a fight. Their faces will now give an idea of their skill as pugilists.—The friends and patrons of the school here have added considerably to the appearance of the school house last by setting out a large part of it in trees. Other improvements will be made soon. The school is much improved by our citizens who are always willing to work for the promotion of its best interests. There has been some talk of running the school during part of the spring term with only one teacher. This arrangement, we think, will be detrimental to the school. The pupils in the school are much improved by our citizens who are always willing to work for the promotion of its best interests. There has been some talk of running the school during part of the spring term with only one teacher. This arrangement, we think, will be detrimental to the school. The pupils in the school are much improved by our citizens who are always willing to work for the promotion of its best interests.

The New Steamer "Cape Charles," belonging to the New York, Philadelphia and Norfolk Railroad Company, arrived at Cape Charles Friday morning last, and made her first trip from Norfolk to Cape Charles on Saturday. She is a magnificent and powerful boat, capable of making 19 miles per hour. She is 200 feet long, and 20 feet wide. She has 200 tons of cargo space, and 100 passengers. She will be on the boat and conveyed between the two points named above.—Herald.

The tramps make night hideouts in Cambridge, and the people are anxious to find some means of making them more orderly.—Democrat and News.

Mr. Jas. E. Graham, of Church Creek, some time since while oystering, caught a pint flask entirely filled up with two large oysters on the inside, and a small one in the mouth.—Democrat and News.

It is understood that the Commissioners of Cambridge have decided to issue town bonds, authorized by act of the last Legislature, for the purpose of establishing water stations in the south-west portions of the corporate limits to afford better means of putting out fires.—Cambridge Chronicle.

Capt. W. W. Wingate, of Cambridge, while carelessly handling a pistol on a boat in the harbor on Thursday, was painfully shot in the hand. The ball entered the palm and lodged along the sinews and bones near the back. Dr. Goldsborough who was called, examined the wound and advised Mr. Wingate to amputate it, as the ball could not be got without giving great pain. The pistol never got anybody and was destroyed.—Democrat and News.

It is an old saying and a true one that "murder will out," but there are two cases of recent occurrence in Dorchester county which have not verified the adage. The first of these was that of James Willin, living at Finchville, and the second that of Gilbert Hurley, living at Bucktown. Both of these cases, and the first one especially, bear on their faces evidences of willful and deliberate murder, but as yet there have been no disclosures to explain the mysteries in which they are still enveloped or to point out any directness to the criminals. Have all efforts to discover the guilty parties been abandoned? The murder of Gilbert Hurley, if it was a murder, was appalling in its cruelty and barbarity, and the citizens of Bucktown district should be untiring and unceasing in their endeavors to ferret out the villain or villains who were capable of such a heinous crime. From a sense of public justice these problems should be solved. Is there no one who can furnish in either case some clue to the murderer?—Cambridge Chronicle.

DELAWARE ITEMS. The Delawarean, in its editorial of last week, tried to show that the present government is not capable of framing a Constitution.

John P. R. Park, of Wilmington, has recently bought a large tract of land near Cannon's Station, this county, on which he proposes to plant 10,000 peach trees.—Delaware Democrat.

The collector of Seaford whose salary is \$500 a year licensed 41 vessels last year, examined the licenses of seventy-two vessels belonging to other districts and collected \$58.44.—Seaford Journal.

The "Citizens' Saving and Safe Deposit Company of Smyrna," introduced two or three weeks since in the Legislature, has passed both houses and become a law. Some of our strongest capitalists are said to be behind this movement and there is some curiosity to see what it will look like in motion.—Smyrna Times.

Hot-bed Sash at Humphreys & Tighman's.—Pianos and Organs retailed at wholesale prices. Address W. A. C. Williams, Delmar, Del.

FOR SALE.—A handsome Baby coach; only been used a short time. Apply to "A." at this office.

FOR RENT.—A first-class Store House in Delmar. Location excellent. Address Mr. H. Gorman, Delmar, Del.

Charlotte Stansburg, the largest woman in the State, died in Centerville last week. She weighed 337 pounds.

STRAWBERRY PLANTS FOR SALE.—50,000 Sharpless, 50,000 Arlington's. For prices apply to John T. Parsons, Salisbury, Maryland.

The severe wind of Saturday night last blew down the extensive bill-boards of Robinson's circus, opposite the depot.

Viaticum Crop Grower is the choice fertilizer for Potatoes, Strawberries, Melons and Corn, for sale by G. W. White, at Delmar, Salisbury, Md.

Take no risk, but use the Pure Paint, Wardsworth, Martinez and Longman's. Your painter will tell you that it will run further to the gallon and is the most durable paint in use. For sale by L. W. Dunbar, Salisbury, Md.

WATCH IS BROKEN. we can repair every part, and guarantee satisfaction. Prices Low. REMEMBER THE PLACE. A. W. Woodcock & Son, Salisbury, Maryland.

They have arrived—that CHINAWARE we imported several months ago. These goods are imported direct from SWITZERLAND, and will be sold at small profit. They come in four different designs. Cups and Saucers, 70 Cents. Plates, 60 Cents. Full Sets, at \$1.25. EVERYBODY SAYS THEY ARE BEAUTIFUL.

S. H. EVANS & CO., Under the Opera House, Salisbury.

1885. SYNOPSIS OF SPRING STYLES.—Our line of Spring Goods promises to be an unusually fine one. In Ladies' Wear—Slesinger's Hand-Made Shoes, for tender feet, will undoubtedly take the lead, while other popular makes will follow in rotation.

We are SOLE AGENTS for these goods, and refer you to their special advertisement on another page. We will refer more explicitly to our other goods as we go on.

A. Whittington & Son, NO. 47 MAIN STREET, SALISBURY, MD.

READ! HAVE JUST RETURNED FROM THE CITY WITH A FRESH STOCK.

In these goods we call attention to Black and Colored Cashmires, of all grades, Plain and Figured Lustrines, and Ladies' Dress Cloths, in all shades and Styles. And many other kinds we have not space to mention. They will be sold at a very small profit.

This department is full. We mention Hosiery, Ladies' Corsets, Gloves, Handkerchiefs, and a full line of White Goods, Edgings, Etc.

Special attention has been given to purchases in this department. We have just received a full line of Collars, Cuffs and Ties. All Ties sold by us furnished with a pair of patent clips to hold Tie in place. We also have a beautiful Lisle Thread Hose.

We have a very large assortment of Gingham, Percales, Cottonades, Bleached and Unbleached Muslins, Bed-Tickings, Sheetings, Heavy Colored Shirtings and everything in this line.

We positively defy competition in all goods in our line. COME AND SEE US.

E. T. FOWLER Main St., Salisbury, Md.

THE CIRCUS IS COMING SOON. WHAT NEXT?? J. BERGEN'S GRAND OPENING! BE ON THE LOOKOUT FOR IT. REMEMBER THE PLACE: AT J. BERGEN'S MAMMOTH Dry Goods, Notion and Millinery Emporium, SALISBURY, MD. PLOYS. We are Agents for Wicomico County for the "Roland" and "Orion" Chilled Plows BEST IN THE MARKET. These are the well-known Plows that S. F. Tovadne has been selling for several years. SATURDAY, APRIL 4, 1888.

NOTES FOR THE FARMER.

The pear tree delights in a deep rich loam, with a clay subsoil. Currants and gooseberries succeed best in the soil advised for the quince.

The quince tree should be planted in a very moist, clayey soil, but not free from stagnant water.

The peach tree produces fruit of a much finer quality when planted upon light, high land, with a southern exposure.

Every fruit-grower has his measure heap, that in the fall or spring, when it comes to be applied, will cut like paste.

A pile of ground set out in black walnut and allowed to remain 20 years will prove more than equal to any other farm investment.

The cherry grower has a rich, warm, sandy loam. It is much of leaves, straw or brush is put around them they will be very much benefited by it.

When an orchard has come fairly into bearing it is a good plan to sow clover and turn it into a hog pasture. The pigs and the soil will both derive benefit.

The best soil for the production of the apple, says the Country Home, is a deep, rich, moist loam with a sandy subsoil, although it succeeds moderately well upon any soil not too dry.

Until trees get to the bearing age hood crops should be the only ones grown among them. It is useless to try to grow wheat or corn or spring grain growing on the ground.

A single acre of a pure-bred male is of great advantage. At the recent Fat Stock Show, in Chicago, the grades were heavier and better proportioned than some of the thoroughbreds.

It is stated that although grapes grafted on apple-stocks will grow and bear, they are short-lived. The better plan is to bud or graft on pear-stocks for standards, and an anguine for dwarf.

Butter or string beans may be planted on the corn hills just after the corn peeps up. The corn crop will not be lessened, and a full harvest of beans may be gathered which will bring a fair price.

It is folly to turn under weeds that have gone to seed, for the seeds of most weeds no matter how deeply buried will retain their vitality and make rapid growth, as soon as they are brought near the surface again.

No circumstance better indicates the character of a farmer than the care he takes of his farming tools and implements. Only a slovenly, out-of-the-woods man will have his costly farm machinery exposed to the storm of winter.

Save time and you save money, but beating a sick horse does not do either. Give the poor fellow three tablespoonfuls of Day's Horse and Cattle Powder every day with his feed. Price 25 cents per package of one pound, full weight.

Raspberries and blackberries are more likely to be dented when light, sandy loam, but large berries are desired a much seed in July. On most moist land mulching is not needed, but the canes are more likely to be winter-killed.

If there is any man who, more than another, should make it a point to have the best possible stock, it is the small farmer and yet many men argue that because they have small farms it is immaterial what kind of stock they keep.

You cannot make the hen business pay unless you are willing to look after the little things; 'tis a business of petty trifles, but the success or failure of the enterprise hinges upon these very trifles; it takes little of time and patience, but 'twill pay in the end.

It is said that Brigham Young imported from Europe the first Short-horn bull that ever crossed the plains. He was a vicious brute as high-bred, and valuable also, and one day he crossed one of the apaches, when the Mormons flew him and burned his flesh, and for many years showed a curse in the shape of a calf with horns.

It is not necessary for farmers to employ a professional veterinarian to prune their vines. They had better do this than to neglect pruning, as too many do. If you remember that one bud saved on every shoot of last season's growth will produce as much wood and fruit next season as the vine had lost, it will not be difficult to cut back enough.

Medical.

WATER'S Hair Vigor

It restores the glow and freshness of the hair, and gives it a natural, rich color, or deep black, as may be desired. It is a perfect hair restorer, and cures itching scalp, dandruff, and all other diseases of the hair.

It restores the hair, and stimulates a weak and sickly growth to vigor. It cures itching scalp, dandruff, and all other diseases of the hair.

Harper's Magazine.

With the new volume, beginning in December, Harper's Magazine will conclude its thirtieth year. The latest periodical of its type, it is yet in each new volume, because it has not only preserved its original character, but has also improved its method of magazine-making.

It is a world's magazine, because it contains the most faithful mirror of current life and movement. It is a world's magazine, because it contains the most faithful mirror of current life and movement.

It is a world's magazine, because it contains the most faithful mirror of current life and movement. It is a world's magazine, because it contains the most faithful mirror of current life and movement.

SATURDAY, APRIL 11, 1885.

The New York World has undertaken the task of raising the balance of the \$100,000 needed to complete the pedestal for the Bartholdi Statue of Liberty. The World is a very energetic paper and usually accomplishes what it undertakes. Already it has secured well on to \$20,000. Various means have been adopted without success by the committee who have this work in charge, and it seemed as if the handsome present which France has given this country would not be given a resting-place. Although the people have required much stirring up it now seems likely that the necessary funds will be raised.

The first State election held since the inauguration was that in Michigan last Tuesday. In the republican convention of 1880, when Mr. James F. Joy pleaded for the nomination of Mr. Blaine and said that Michigan demanded it, Mr. Rosecomb declared with scorn, "O, no republican can carry Michigan." This was true at that time, and indeed Mr. Garfield carried that State by a plurality of about 53,000. In the election of last fall the republican ticket was again elected though by a much smaller majority. It seems that the independents, who deserted the republican ranks last fall to vote for Mr. Cleveland, have gone to the democratic party to stay. Not only that, but it is also shown by the democratic victory of last Tuesday that many, who still heretofore wavered, have through heretofore against the republican party, have now seen that a democratic administration is a thing to be desired, and have voted accordingly. This is only a prelude of what will take place in other States when the elections occur. Throughout the length and breadth of the country confidence in the democratic party grows stronger, and Mr. Cleveland's policy is preparing the way for a sweeping democratic victory in 1888.

MARRIAGE OF THE MIDGETS.

Mr. Tom Thumb becomes the Countess Magri, of Bologna.

A novel wedding ceremony took place in the Church of the Holy Trinity, New York, last Monday.

Tom Thumb, the bride, who was married under her real name of M. Lavinia Stratton, is a widow, and the great audience held in the church for one moment and caught the faintest echo of a snick. Then the minister bent down to follow a good example, but he could not reach her lips. Placing one hand on the floor as he bent, he succeeded in kissing her getting low enough, and the ladies applauded faintly as the big man touched the little lady's lips. The couples marched through another living tunnel to the Murray Hill Hotel, where they will spend the honeymoon.

As soon as the couple left the ladies swarmed about the altar and fell upon the flowers, tearing the wreaths and bouquets and potted plants to pieces and bearing off great branches as mementoes of the swell marriage in noble life.

The bride wore a delicate dress of mauve fawn, a deep mauve satin ground with figures broded in velvet. The square train was nearly two yards long and undraped, falling in full, plain folds from the tight-fitting waist. The corsage was quite décolleté and there were no sleeves, but tiny mauve-colored silk gloves covered the arm almost to the shoulder. The bride's ornaments were great diamonds set in square links for a necklace. Her dark brown hair was waved in front and held in place by an old-fashioned comb heavily set in diamonds.

The Great Circus Coming.

Frank A. Robbin's Show arrived in our city yesterday morning and made their free street parade as announced. The entertainment presented to our citizens yesterday was all that had been promised and one of the best combinations of equestrian, gymnastic, acrobatic and aerial representations ever witnessed by our amusement loving public. One thing worthy of especial mention is the fact that no objectionable features were introduced. James E. Cook, the champion four and six horse rider, Mlle. McDonald, the wonderful female somersault rider, the Deacons Brothers in their aerial bicycle performance, Charles Lowry, the wizard horseman, Andrew Gaffney, Frank Charvat, the wonderful Hindoo snake charmer, and a host of others acquitted themselves in a creditable manner. John Foster entertained the audience with wit without vulgarity, and the entertainment was thoroughly enjoyed by the immense audience in attendance afternoon and evening.

Rare and interesting specimens are to be found in the menagerie department. We fully verify what has been said by our exchanges, that F. A. Robbin's new show is one of the best on the road, and should they visit Yorkers again they will be welcome and sure of liberal patronage. The usual verdict is that the show is a good one and well worth a visit to the road.—Yorker, N. Y., Statesman.

WASHINGTON NOTES.

The President's voice resembling that of the Late Matt Carpenter.

Commissioner Black has sent a circular to person agents in which he warns them, in view of very gross frauds that have been perpetrated by clerks, to investigate their agencies thoroughly and to take all possible precautions to detect the service of every suspicious or unworthy person. The Commissioner suspended an employee of his office for having indirectly prosecuted a claim.

Postmaster-General Vilas has authorized the statement that railway postal clerks who have become efficient and valuable men, against whom no just complaint of neglect, inattention or want of fidelity, honesty or efficiency can be brought and who have not turned their attention to political labors during their service, need have no fear of being disturbed so long as they continue to render meritorious and faithful service.

The Senate finally adjourned last Thursday. The President notified them last week that he would not require them to remain any longer. Notwithstanding this the Senators thought it would be more polite to select a committee in the afternoon to ask if he had any further business for them. They met on their way to the President's private secretary with a message telling them that he had no further communications to make.

The Secretary of State will shortly forward to the Emperor of Germany a handsome bound volume in a suitable case containing 244 vignettes, engravings and other work done by the Government at the Bureau of Engraving and Printing. These books have been furnished, upon application, to the foreign powers through their representatives here, and are considered a very valuable souvenir, as the engravings of all the Presidents and many distinguished men of the United States and the public buildings here are included.

L. Q. C. Lamar is no longer considered a holistic dreamer, a roasting visionary. He is not only equal to any emergency, but he makes great occasions. The tremendous activity he has developed as Secretary of the Interior shows that he will be one of the most efficient and laborious members of Cleveland's Cabinet. He will prove not only wise in counsel, a tower of strength on whom the President can lean, but a model executive officer.

President Cleveland has a voice in ordinary conversation which exactly resembles in clearness and sound that of the late Senator Matt Carpenter. A gentleman who was very intimate with Mr. Carpenter was sitting in the room of private Secretary Lamont at the White House the other day. He changed to be thinking about Mr. Carpenter, when he suddenly heard behind him an easy, good-natured voice which so resembled Carpenter that it positively startled him. He turned, and there was the President. He was talking with Mr. Bayard, and had approached the door of the private Secretary's room.

A New Orleans paper refers editorially to the wonderful restoration to health of Mr. T. Posey, druggist, 225 Canal street, that city, who some time ago was prostrated by an excruciating neuralgia. After much suffering his wife applied St. Jacobs Oil, which cured him promptly and entirely.

The French people became greatly excited last week when news reached them of a defeat of the French troops in China. The resignation of Premier Ferry and his Cabinet was demanded. Several unsuccessful attempts were made to form a new Cabinet by several statesmen. One was at last formed with M. Henri Brisson as Prime Minister, and the well-known M. Freycinet, Minister of Foreign Affairs. The Chinese war will be vigorously pushed forward.

On Monday a fire started in the woods near Beltsville, on the Washington Branch of the Baltimore and Ohio Railroad, burned in an easterly direction to the Baltimore and Potomac Railroad, near Springfield, a distance of five or six miles, in places spreading to three miles in width, destroying its course a house of James Wesley, a barn owned by J. Gordon, and a large amount of timber and fencing. Some of the houses narrowly escaped destruction, and it was with difficulty that the fire was beaten out. Among the sufferers by the burning of timber and fencing are James Kagle, John Gloom, M. Mangold, George F. Neesham, Benjamin Hall, Henry Watts Thomas Smith and Mr. Minix.

A gentleman from Dorchester county Monday stated that a movement is on foot to establish a steam ferry across the Choptank river from Cambridge to Talbot county. The distance from landing to landing will be about two and a half miles. It is said that the little steamer *Elycumb* is the little boat proposed to be used. Her owners wish a guarantee of \$100 a month for six months, and will trust to the development of the business to sustain the enterprise after that. A paper for subscriptions is now being circulated in Cambridge among the business houses with some success. By the establishment of this ferry the Cambridge people think that place could draw considerable trade which now goes to Oxford and Easton.—Baltimore Sun.

WILLIAM C. ENDICOTT.

The New Secretary of War—At One Time a Supreme Court Judge.

Wm. Crowninshield Endicott, Secretary of War, is a direct descendant of Gov. John Endicott, of Massachusetts. He was born in Salem, in that State, in the year 1827, and is the son of Wm. Putnam Endicott and Mary, daughter of Jacob Crowninshield, who was at one time a member of the House of Representatives at Washington.

Mr. Endicott received his preparatory education in the schools at Salem, from whence he entered Harvard College, where he graduated in the year 1847. He then attended the lectures at the Harvard Law School, which he supplemented by reading in an office before applying for admission to the Bar. About the year 1850 he was admitted to the practice of his profession and a few years later formed a successful partnership which lasted until 1873 when he was appointed by Governor Washburn to a seat on the Supreme bench of the State. He resigned his office in 1882, his health not being good, and afterward made an extended tour of the continent for change and recreation. His standing as a scholar, lawyer and judge is of the highest.

Ex-Judge Endicott was a member of the Salem Common Council in 1852 and 1853, and the third time in 1857 when he was president of that body. Among other local distinctions besides these, was his being City Solicitor from 1858 to 1862.

In 1860 Mr. Endicott joined the Democratic party. He had previously been a Whig. Neither before nor since has he been an active politician. As the Democratic candidate for Governor in the fall of last year, he received a lighter vote than he probably would have done had he taken the same interest in the campaign usually evidenced by gentlemen seeking election.

Mr. Endicott is a son-in-law of Mr. Peabody, the philanthropist, and has two children, a son and a daughter.

His appointment as Secretary of War was particularly welcome to the Independent voters, by whose union with the Democratic party the late Presidential victory was made, if not possible, more complete.

A New French Cabinet.

The French people became greatly excited last week when news reached them of a defeat of the French troops in China. The resignation of Premier Ferry and his Cabinet was demanded. Several unsuccessful attempts were made to form a new Cabinet by several statesmen. One was at last formed with M. Henri Brisson as Prime Minister, and the well-known M. Freycinet, Minister of Foreign Affairs. The Chinese war will be vigorously pushed forward.

On Monday a fire started in the woods near Beltsville, on the Washington Branch of the Baltimore and Ohio Railroad, burned in an easterly direction to the Baltimore and Potomac Railroad, near Springfield, a distance of five or six miles, in places spreading to three miles in width, destroying its course a house of James Wesley, a barn owned by J. Gordon, and a large amount of timber and fencing. Some of the houses narrowly escaped destruction, and it was with difficulty that the fire was beaten out. Among the sufferers by the burning of timber and fencing are James Kagle, John Gloom, M. Mangold, George F. Neesham, Benjamin Hall, Henry Watts Thomas Smith and Mr. Minix.

A gentleman from Dorchester county Monday stated that a movement is on foot to establish a steam ferry across the Choptank river from Cambridge to Talbot county. The distance from landing to landing will be about two and a half miles. It is said that the little steamer *Elycumb* is the little boat proposed to be used. Her owners wish a guarantee of \$100 a month for six months, and will trust to the development of the business to sustain the enterprise after that. A paper for subscriptions is now being circulated in Cambridge among the business houses with some success. By the establishment of this ferry the Cambridge people think that place could draw considerable trade which now goes to Oxford and Easton.—Baltimore Sun.

A MARVELOUS STORY
TOLD IN TWO LETTERS.

FROM THE SON: "My father, Mr. Wm. Endicott, of Salem, Mass., has been a great sufferer from neuralgia, and the enclosed letter will tell you what a marvelous cure."

Ayer's Sarsaparilla
has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, and he began taking your medicine. Now, there are few men of his age who enjoy a good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly,
W. M. PHILLIPS.

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of Ayer's Sarsaparilla."

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an intolerable itching, and the skin cracked so as to cause a blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the Sarsaparilla in April last, and have used it regularly since that time. My condition has improved at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good farm work, although 75 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Give it, Mr. Wm. Endicott, of Salem, Mass., Oct. 21, 1882.

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists; \$1.50 bottles for \$5.

Wanamaker's

Have dress-cloths fallen? No; but three wonderful things have happened here. Cloths haven't fallen, we say, because there's no fall outside. Nowhere else are dollar ladies'-cloths sold for 75 cents; but we are selling tons of them—literally tons of them! Fifty different colors and mixtures; best dollar cloths. They have ceased to be dollar cloths; for they bring a dollar everywhere else, wherever they are. \$4.50 for six yards.

Plaids of a similar cloth, dollar plaids for 75 cents; fifteen color varieties, as pretty as any; not quite so wide, 50-inch. As unexpected as the ladies'-cloths.

Still another Plaids and stripes and clouds and mixtures all in one; all these without pattern, law or order; twenty varieties, more perhaps; \$1.25 each.

What makes these three events here peculiarly strange is that they happen only here. They are very big events. By far the biggest is the dollar ladies'-cloth for 75 cents.

The coming black silk. For a year or two the gros-grain weave has been losing favor. Cachemire on one side has clearly won the lead. Faille Francaise is coming on the other.

Faille Francaise isn't new. It has been edging its way into use for two or three years. It isn't as a novelty it's coming. It is going to take the place in a manner of gros-grain in the higher grades of silk.

Cachemire is the common weave of silk of lighter cord so light that one hardly thinks of cord at all.

Faille Francaise has twice as heavy cord as gros-grain; and it has a distinguishing advantage over all the other weaves it comes in competition with, viz., it is tight, does not slip, can't be drawn or pushed apart on the warp.

We have at present five grades of Faille Francaise: \$1.50, \$1.75, \$2, \$2.50 and \$3. Even the lowest grade deserves the best we say of it.

A novelty in jerseys is a fleece-lined stockinet with a silk finish, trimmed with beads, good for both look and warmth. Of another sort are those that are nothing but beads and bangles.

There are cashmere jerseys with white vests, the vests elaborately ornamented with applique work. Others with embroidered polka dots. Prim-looking jerseys with standing collar and vest-piece literally covered with narrow braid put on edgewise in various designs, also trimmed with Hercules braid. Military jackets trimmed with straps of velvet and tinsel braid, pink, blue, black. All-silk jerseys, woven in one piece, cream, white, blue, black. All-wool jerseys as low as \$1.25.

Chestnut, Thirteenth, and Market streets, and City-Hall Square.

OUR MIXTURES.

Now is the time to buy your Fertilizers and mix them with woods mould, dunghill dirt or some such absorbent, as you do your household and other strong manures. It will pay you. Try it!

The first planting of corn is often injured, if not lost, by the careless use of a concentrated fertilizer. Distributed in a small space, it is apt to injure the germ, and fewer roots will get the benefit, and these may be injured by too close contact.

It is often the case of a dry season that there is not enough rain and moisture that reaches the fertilizer to render it soluble so that the rootlets can take it up. By mixing or diluting with dirt, the little particles are dissolved, commingled, disseminated, and in a better condition to act gradually and more certain. A comparatively small quantity of fertilizer will pay better than a large application, unless well scattered or sown broadcast.

We are great advocates of manuring good land broadcast, and permanently improving the land, and would suggest that persons try a single bag on half an acre in addition. We think it will pay in the long run.

HUMPHREYS AND TILGHMAN
SALISBURY, MARYLAND.

To You.
From Oak Hall.
The Samson of the Period.

Imperial power rests with the Farmer. The great freight corporations seek him that they may take toll upon his ample stores. We traders seek him to take our stuff. His staples are down, his face long—but why? No reason, while his dollar will buy so much. The Oak Hall stock proves this. Our story for this spring is a tale of cheapness. Note these examples in Men's Suits: Blue Flannel Suits, \$6.50, \$10.00, \$12.00, \$15.00. They are all, except the lowest, all-wool and all full indigo color. All-wool Black Cheviot Suits, \$8.50 and \$10.00. Black Cashmere and Diagonal Worsted Suits, \$13.00, \$15.00, \$18.00, \$20.00, \$22.50, \$25.00, \$28.00, \$30.00. Brown, Wine, Blue and Dahlia Worsted Suits, \$15.00, \$20.00, \$22.50, \$25.00, \$28.00. Just so through all the stock, the three great E E E's, Elegance, Excellence, Economy, prevail.

Pleasures of the Imagination.

Happy youngster. A chair, a box, half a dozen big books, bits of cord and cork Papa's cane, Mamma's aquarium, and a vivid imagination supply all his needs. Neither Rangelay trout nor Sageunay salmon can so delight the expert. Imagination has joys and limits. It will not make a dear thing cheap nor an old thing new. Real wants demand real supplies, and this fact underlies the great Oak Hall Million Dollar investment in Clothing and Cash for Men and Boys. Real Bargains.

be facts—hence the Oak Hall system offers only gains. For Boys the stock is big. Large Boys' Suits, \$5.00 to \$18.00. Small Boys' Blouse Suits, \$3.50 to \$12.00. Sailor Suits, \$2.50 to \$6.00.

By order of the Board,
D. H. HOLLOWAY, Clk.

Post Office Bulletin. SALISBURY, MD., APRIL 11, 1885.

ITEMS BRIEF BUT NEW. A Week's News Paragraphed for the Convenience of To-day.

A new platform has been built at the engine house for the better drying of the hose.

We had a rain last Friday night, which made the air somewhat cooler for several days.

Messrs. Uman & Bro., have a very pretty new wagon for their hauling around town.

The Wilmington Every Evening has done a new dress, and is greatly improved in appearance.

Mr. W. H. Jackson will begin next week the erection of a barn and horse-stables on his premises in Camden.

This kind of weather will soon bring on the universal complaint of "spring fever," which is said to be very contagious as well as lasting.

The house and lot in Camden, advertised for sale by R. L. Turner in our last issue, was purchased by J. T. Parsons, Esq., at private sale.

The entertainment for the benefit of the P. E. Church, to pay for the late improvements of the church, will come off about the 25th of this month.

E. Stanley Towbin, trustee, will sell at the Potomac House, today at 2 o'clock, a house and lot near the depot. See advertisement in another column.

Our market is well supplied with fish. Salt, herring, rock and perch are abundant. Several large lots of shad were brought from Cape Charles City this week and sold.

A yacht, belonging to Col. Wetherill, of Oxford, with quite a large party on board, was in Salisbury this week. The boat is used entirely for pleasure, and is a very pretty craft.

We are informed that Mr. James Cannon has disposed of his lot upon which the Breyer stables stood prior to the recent fire, and that two dwellings will be erected upon it this spring.

Messrs. Christopher Truder and Levin Fooks, while riding through town last Thursday, had the misfortune to break a wheel of their carriage. They met with no personal injury.

To give one an idea of the business done here by rail, there was forwarded from this depot last Monday merchandise enough for the freight to amount to nearly thirteen hundred dollars.

We were visited by a very heavy rain last Tuesday afternoon and night, which was followed by a strong wind and cooler atmosphere. Spring is having a right hard time to get here this year.

The following are the Quarterly Conference appointments, M. E. Church, for the first quarter: Quantico, April 11th and 13th; Pottsville, 12th and 13th; Salisbury, 12th and 13th; Pocomoke, 17th and 19th; Truxton, 25th and 26th.

With the close of the solemn Lenten fast, the season of gaiety and amusement will open with fresh vigor and zest to the young people, many of whom have been deprived of all social enjoyment and recreation for a period of six weeks.

A colored man by the name of Leonard Game, living near Sharpton, was knocked off the fore boom from the schooner Etna last Monday and drowned before assistance could be rendered. The accident happened about one mile up the North-West Fork of the Nantuxito river.

The Confederate Relief Bazaar in Baltimore, is doing a good business. All the tables are well patronized. Mrs. Clara Huntington, of this county, has presented the South Carolina table with a Regalia and Confederate flag on a metal plaque, both of her painting. They are attracting much attention.

The circus next Friday, will not be held near the depot, as heretofore, but on Mr. J. O. Freeman's lot over Mr. T. Humphreys' mill dam. This is letter to two reasons. It avoids the danger of accidents from the noisy trains, and gets rid of the great crowd that is always around the depot, and, also, it will make it more pleasant for the ladies who attend it.

Two young men in town have been in the habit of keeping a bottle in a coin-tiding place, and they have for some time been under the impression that somebody else knew the secret as well as they. So the other night, they laid a trap to catch him, by putting some tartar emetic into the bottle. A young man of Salisbury was very sick that night, and indeed he had not recovered the next morning; but then, of course, he hadn't been to that bottle.

Sam'l DeMar, Correspondent writes: Samuel T. Hunt, Denoville, while engaged in repairing a railroad bridge near Townsend last Sunday, fell from it and in the descent his leg was broken. He was attended by a surgeon from Middleboro and afterwards placed on the South-bound Norfolk express and conveyed to his home.

Work on the M. E. parsonage is progressing. Alexander W. Rounds and Miss Jennie Townsend were married by the pastor of the M. E. Church on Tuesday evening.

The following is the list of letters remaining in the Salisbury (Md.) Post-Office Thursday, April 9, 1885: Ladies' List—Miss Leah Dorman, Miss Fannie E. Dixon, Georgiana Fassett, Mrs. Elsie Fooks, Miss Menerva King, Mrs. Elsie Fooks, Miss Adda Higin, Mrs. Jennie Higin, Mrs. Elvona White, Gen'l List—Joseph Haney, Wm. Howard, Wm. H. Phillips, Wm. R. Wriggin, Perry Riggan, John M. Richards, John D. Station. Persons calling for the above letters will please say they are advertised. JOHN P. OWENS, Post-Master.

The election last Monday of Town Commissioners, passed off far more quietly than did the nominating convention. Not two hundred votes were cast altogether, and nearly every one of the candidates before the nominating convention received over that number, with two tickets in the field. The reason for the light vote was that it was well understood there would be no contest, and that the regularly nominated ticket would have a "walk over." The vote was: A. G. Towdine, 195; L. W. Gunby, 195; T. H. Williams, 195; I. S. Powell, 195; W. W. Gony, 194. There were also several scattering votes.

The Maryland M. P. Conference, which has been in session in Alexandria, Va., for about a week past, adjourned last Tuesday. Broadway Church, Baltimore, was selected as the place to hold the next session of conference. The appointments for this section are as follows: Pittsville, J. A. Weigand; Pocomoke, D. W. Antine; Pocomoke City,

S. A. Hobbitt; Pottsville, D. T. Ewell; Quantico, J. H. Dougherty; Queen Anne's, P. H. Mullinax; Salisbury, J. W. Balderston; Snow Hill, J. L. Elderlieke; Somerset, J. L. Straughn; Sussex, J. E. Nicholson; Westminster, J. D. Kinser; Jefferson, J. M. Sheldahl; Newark, J. M. Holmes; Ninth St., Washington, J. L. Mills. Mr. P. T. Tagg, was reappointed Corresponding Secretary of Board of Missions.

Besides the government work which is being done in the Wisconsin river by Ross & Sanford (which by the way, is being very poorly done), Capt. G. W. Parsons has his mill-machinery at work in a part of the river which the present appropriation does not reach. He is digging out the part from the Maryland Steamboat Company's slip to the pivot bridge. The money for this work is partly derived from a balance of the appropriations of 1883, which was reserved for this purpose, and partly by amounts subscribed by the following: Capt. Geo. W. Parsons, Maryland Steamboat Company, E. E. Jackson & Co., Humphreys & Tighman, L. E. Williams & Co., S. F. Towdine, B. L. Gillis & Son, E. Stanley Towbin, and Birchfield, Laws & Carver.

The annual Parish meeting held in Saint Peter's Church on Easter Monday, resulted in the election of the following persons to serve as Vestrymen of said Parish for one year: John White, Charles F. Holland, George Waller, I. S. Adams, R. D. Elligood, W. Everett Parsons, L. P. Humphreys and Randolph Humphreys. Mr. R. Humphreys having since declined to serve, the place will be filled by the election of another Vestryman at the next meeting of the Vestry. The new Vestry organized by appointing L. P. Humphreys, Registrar, and I. S. Adams, Treasurer. G. W. White was appointed Senior Warden and Eliph Parsons Junior Warden. I. S. Adams was appointed Steward, George Waller, Alternate, to the Diocesan Convention, which meets in Centerville on the first Wednesday in June next.

The County Commissioners met Tuesday, April 9th. Present, full Board. Account of E. H. Parsons, goods, furnished papers, was passed and ordered paid amount \$18.00. Also account of Thad Lunsford for same amount \$30.00. Report of J. L. Belsworth for keeping Watchmen for 1885, approved. The Treasurer was authorized to pay A. F. Owens \$50.00, balance in full for first quarter services as superintendent of Alms House. Dr. W. C. Marster presented bill for buying small-pox patient for 1885, also bill for stove, and boiler furnished Alms House. The Board rejected small-pox bill and boiler bill, and ordered the bill for stove, \$7.25, to be paid. Joseph A. Phillips was appointed supervisor of public roads, vice Tomaso Nelson, deceased. Isaac Anderson was paid \$22.00 for repairs on ferry at Upper Ferry. Adjourned to meet April 21st.

Last Wednesday night, Mr. and Mrs. W. H. Jackson, entertained a large company of friends in honor of the fiftieth anniversary of the marriage of Mr. and Mrs. Joseph Humphreys, father and mother of Mrs. Jackson. The whole house was thrown open to the guests who numbered not less than one hundred. Despite the large crowd, the kindly hospitality of the host and hostess made every one feel at home. Congratulations of the aged couple, music, and conversation filled up the time, except a number of it as was spent in trying to relieve the table of the weight of good things. A number of very pretty presents were received, and were displayed on a table in the upper hall. Among the guests were several ladies and gentlemen from other towns. The parents of Mr. Jackson are also both well, and they will next October, will be able to enjoy a similar celebration. This longevity on both sides of the family is something very unusual.

Lincolnford—Lankford. Mr. Wm. T. Lankford, a well known carriage builder of this town, was married last Wednesday evening, April 9th, to Miss Cornelia Lankford, of Somerset County. The bride is the daughter of Hon. Benjamin Lankford, who has represented his county a number of times in the Maryland legislature, and sister to Mr. B. Frank Lankford, ex-Clerk of Somerset Co. The invited guests first assembled at the house of the bride's father, near Crisfield, and at 7:30 o'clock they all repaired to St. Paul's P. E. Church, and were there made man and wife by Rev. O. H. Murphy. After the marriage, the friends of the happy couple repaired to the wedding breakfast, where a grand banquet was ready for them. The number of invited guests was large, and among them were Dr. W. G. Smith, and Mr. L. H. Sock of this town, both of whom were groomsmen. The thanks of the editor are tendered to the bride and groom for a very agreeable and successful marriage.

Quite an Industry. "A novel use is being made of oyster-shells by a (Conn.) man, who is earning money in his new enterprise. The shells are placed in a patented mill and ground. It has a capacity of five tons a day. By an ingenious arrangement sieves are kept at work assorting the dust into fine, coarse, and the insufficiently treated are ground again. The product is sold for chicken food. Twenty tons and more are sent yearly to San Francisco, and the Maryland and the Southern Islands have been supplied. The business has been thriving since last year."

Personal Mention. Miss Susan Benjamin, daughter of A. J. Benjamin, of Georgetown, Del., is visiting friends in town.

Mr. Parnell Truitt, with H. S. Brewington & Co., of Baltimore, is in town on a visit to relatives here.

Mr. M. D. Welch, now with Whaley & Co., of Whiteville, Va., paid Salisbury a brief visit the first of the week.

Charles Tighman has opened a barbershop in the room on Division St., adjoining the residence of Wm. E. Dorman.

Mr. S. P. Woodcock made the Advantura a present of a very pretty cane, out of his large assortment of them. The firm has some very pretty ones.

Mr. Ernest A. Towdine, left Salisbury last Saturday morning for Patuxent, Md. He was married last Wednesday to Miss Minnie Bell, of that place. He is expected home, with his bride in a few days.

Rev. J. A. B. Wilson, Presiding Elder of this District, and wife and Mr. James Brown and wife, of Princess Anne were in town this week to attend the Golden Wedding of Mr. and Mrs. Joseph Humphreys.

Items from Quantico. Mr. and Mrs. Romatin, of New York, are expected here in a few days, on a visit to

Mr. V. F. Collier.—No doubt the altar in the Episcopal Church in this town was the only one in the county that had fresh orange blossoms on it Easter Morning. Their fragrance perfumed the whole altar at his home in this town last Saturday morning, aged 39 years. He had been sick for several years with consumption, and for the ten weeks previous to his death, he had been confined to his room. Mr. Dashiell was much beloved by all who knew him, and we regret exceedingly losing such an upright and moral citizen. He lived in Salisbury for several years, and is almost as well known there as he is here. He gained by his straight-forward dealings and character. Though dead to him is only a passing from sorrow and sickness to perfect health and joy, still his early demise is greatly regretted by the many relatives and friends he leaves behind.—Mrs. Jennie Boudin and daughter, Miss Lella, are away on a brief visit to relatives at Kingstown, Md.

Report of Maryland Crops. In the March report of the department of Agriculture the State agent for Maryland refers to the wheat crop of 1884 as an average one in quantity, and in quality above the average, many crops weighing 62 pounds per bushel. The crop aggregated 8,249,000 bushels, of which 2,478,609 remained on hand March 1, 1885. Of the wheat prospects in Maryland for the present year the agent says it is too early to express anything like a decided opinion. "There are complaints from some sections of wheat being badly winter-killed." It has been nearly all the time covered with snow and ice. Yet we have reason to believe that the wheat crop will be a fair one for the area shown, which was one-fourth less than usual. But little wheat was sown in Southern Maryland, and on that account the general aggregate must be much reduced." Of one of the agents says: "In Maryland but little of the corn crop is sold to go outside the State. The crop of 1884 was remarkably good, and not over 5 or 10 per cent. was unmarketable. It has all been generally sold in good time, none at present remaining in the field." The corn crop of Maryland for 1884 was 15,237,000 bushels, of which 6,247,100 bushels remained on hand March 1, 1885.

Pittsville Items. The fine days of the past week have brought cheerful and happy looks to the people of this locality. It would not seem that the "chills of winter had rolled by." The farmer has put off the long face and assumed the cheerful aspect that is accustomed to present. "It is going on pretty briskly among the farmers." "The Ladies' Aid Society gave its third entertainment of the year last Wednesday evening of last month, the programme consisting of dialogues, readings, recitations, vocal and instrumental music. The programme was a success, and very entertaining. The Rev. J. A. Weigand, pastor of this church, is now at taking the conference at Alexandria and he and his family will be away some time visiting his relatives in Virginia and those of his wife in Maryland." "The firm of Laws & Littleton, of the firm of Laws & Littleton, has gone to the city to purchase their spring stock. W. E. Sheppard of the firm of Freney & Sheppard will visit the city soon to lay in their spring goods." "We have no candidates for office in this locality, that I have heard of, although your correspondent may be in the dark in regard to that matter."

Dr. J. C. Littleton, who recently moved to Whiteville, paid us a call this week while on his way to Salisbury.

Literary Notes. The late numbers of Harper's Weekly have contained portraits of many of our countrymen. The matter and make-up of the Weekly are always first class.

The March number of L. Lum Smith's Public Herald is at hand, and as usual is exposing all kinds of fraud. Bro. Smith gets after all kinds of impostors with a big stick, and shows up their evil deeds to the light of day.

The Teacher is the name of an excellent monthly, devoted to the interests and instruction of teachers, that sometimes finds its way to this office. It ought, for the good of the profession, to have more subscribers in this county.

We have received from the Charles A. Vogler Co., a copy of their St. Jacob's Oil Family Calendar, for 1885. It is full of humorous sketches written especially for the Calendar by some of the most celebrated humorists of the country.

The American Bazar, an excellent fashion and family magazine, published in New York, has reached us for April. The Bazar is quite a well gotten up periodical, and if it would except from its columns some of the objectionable advertisements they contain, it would better deserve the success it seems to be achieving.

Historical Gleanings. The Annapolis now makes two trips a week, coming Wednesdays and Fridays.

Many farmers complain of their early planted potatoes and peas having rotted in the ground. —Fishermen still dependent. Shad are scarce, bringing 20 to 30 cts. a piece; herrings worth \$1.00 a 100, but getting more plentiful. —Mr. Davis, now assistant of School No. 1, will become a pupil of the High School when the Spring Term closes. Teachers are not always perfect scholars; we saw where one wrote seventy for seventy a few days since.

The example of the Patuxent of the High School will be followed in many sections with very essential benefit to the child. The new Riverton and Sharp-town county roads is being built. Have the county commissioners a right to bridge a navigable stream? Let the State Attorney examine this question.—A ship and a steamer buy and run the lake to Sea-ford where they are put on the railroad. They extend their trips to Vienna and a little below there.—The sound of the workmen on Jackson's larger can be heard at Riverton when the wind carries the atmosphere here are favorable. So may that of the cars at Salisbury a distance of about 14 miles in a straight line, as measured on the State map of Cornell's Intermediate Geography. The 9 o'clock gun of the Naval School can sometimes also be heard, about 15 miles.

Robbins' Great Circus. Friday, April 17th, will be a gala day in Salisbury, a sort of a Fourth of July occasion, for then comes the great tenting exhibition of America, Robbins' New Consolidated Circus Shows. With the exhibition comes Charles W. Fish, the famous champion bareback rider; Madame Marcha, who has earned the title "Queen of the Arena," by her bold and graceful acts; Pauline Dubsky, the famous Russian equestrienne; A. Marquis, the Brazilian rider; Herd Dryden, the modern Samson; the kings of athletes, the Ashton Brothers and a host of others too numerous to mention. There will be trained horses, trained oxen and performing elephants, canals and ponies. The "big circus" is an exceptionally fine one. In Robbins' menagerie will be found specimens of all the rare animals known to the naturalist. The huge hippopotamus exhibited is the largest and finest specimen ever seen in this country. There is no white elephant with the show, though plenty of black ones are to be seen there, and all of them ordinary elephants, not even a "real black or pure white scored elephant" is to be seen there. The street parade which starts at 10 a. m. is long, varied and filled with pleasing features of many kinds. It shows the show in all its departments in first-class and well worthy of public patronage.

Hook and Ladder Entertainment. The entertainment for the benefit of the Hook and Ladder Company, given in the Byrd Opera House last Monday evening, was a success financially and otherwise. The gentlemen who had the arrangements charge for the credit for the efficient manner in which they discharged their duties. The Orchestra music was furnished by Prof. Ritchie and two others, from Wilmington. Mrs. G. M. Moore, played the piano accompaniment for the vocal music. The four quartets, "Welcome To-Night," "Fanny and the Fairy," "The Light Bells," and "Moonlight Dance," were well rendered by Miss Madge Fulton, soprano; Mrs. Belle Fowler, alto; Dr. E. W. Humphreys, tenor, and Mr. F. A. Smith, bass. A short drama "The Toolies," was well received by the audience. Mr. S. A. Boudin, and his guests were "Snyder Dinglewood," "Mr. T. Fowler," "Mike McPherson," "W. J. Todd," "Peterson (a called gen'le)," "James Beauchamp," and "John and unperpetrated female from Peppermint Hollow," James Perry. Their misfortunes at the hotel caused much merriment to the audience, and all went home in a good humor. Those who had procured hall tickets, then repaired to the Laundry Building, and spent several hours in dancing.

STATE AND PENINSULA. Items of Interest Gathered from our Numerous Exchanges.

WORCESTER ITEMS. Mr. Wm. M. Vincent, Jr., will next week go to Georgetown where he will engage in the jewelry business. He has our best wishes.—Shield.

Rev. James Murray sold his farm this week to Mrs. Mrs. M. M. Mason. The household and kitchen furniture was sold on Thursday.—Times.

Mrs. Louise Turner, her son William and niece Eva, while catching clams last Saturday on Onancock, were captured by a gust of wind and drowned.—Times.

What Pocomoke City wants now is a bank. An institution of this kind ought to pay here, and certainly would be a great convenience to our merchants and the boys engaged near the depot taking the bark from express boxes, who are to put up with this place and Cape Charles. Two cents each is paid for skinning the pigs.—Times.

ITEMS FROM SOMERSET. Died, at Kissimmee, Orange Co., Florida, March 28th after a lingering illness, which he bore with christian fortitude, Robert H. Miles, formerly of Somerset County.—Leader.

A Mrs. Morris of Marion Station, died suddenly on Sunday last, aged about 23 years. She was taken sick on Saturday night with neuralgia of the heart. The deceased was a daughter of Mr. Winder Hastings and a sister of Wm. T. Hastings of St. Peters.

The April term of the Circuit Court will be called next Monday. This is a jury court and will be held two weeks in Salisbury. There will be several very important cases to be tried at this court, the most notable of which will be the criminal one of the State vs. Williams, who will not doubt be indicted for the murder of Otto Mayer. At this writing the appearance docket numbers 22, Trials 24, Criminal Appointments 5, Criminal Inquests 13, Appeals 6. The most interesting civil cases will be probably No. 2, trials, Archbold vs Cook and No. 32, Fleming vs Mitchell.—Marylander.

John R. Patton, Esq., has been appointed Auditor of the circuit court in place of Hon. Henry Lloyd, resigned.—Democrat and News.

Capt. J. C. A. Adams, the fish leader for the Nantuxito, has been furnished with a small steam boat, which is a great improvement on rowing.—Democrat and News.

Work on the Episcopal church, at Cambridge, which was suspended some months ago, is expected to be resumed shortly. The church, when completed, will be one of the handsomest on the Eastern Shore.

The schooner Chesapeake, Capt. Shenton, owing to the breaking of a main spar, ran into the schooner Elizabeth, Capt. Simon Holdiott, off Clara's Point in the Choptank on Thursday, bursting Capt. Holdiott's yawl and damaging his vessel about the stern to the extent of \$350.—Democrat and News.

A change of postmasters at East New Market will probably result in bringing either B. O. Christian or Jos. K. Beaulieu to the front. Both have considerable backing, but the democracy of the town, it seems, cannot determine which of the two would be more satisfactory. Meanwhile a third party may get the prize.—Etna.

The docket for the April term of court, at Cambridge which meets on the 27th inst., is larger than usual, although there are no filing certificates or oyster cases taken up under the provisions of the oyster law, with the view of engaging in oyster planting. It is said the choicest oysters to be had in our market are plants only two years old taken from the Choptank river.—Etna.

Mr. F. Dantridge Murdough, of Virginia, and James T. Jacobs, of Dorchester county, were married at the residence of the bride's father, at East New Market, on an o'clock Tuesday. The ceremony was performed by the Rev. Dr. Murdough, of Virginia, in the presence of the Rev. Dr. Murdough, of Virginia, and Bryan, of the P. E. Church. The brides were Messrs. J. D. Murdough, brother of the groom, Wm. V. E. Jacobs and Frank Phelps, Jr.

The farm of John C. Hackett, in Queen Anne's county, 214 acres, has been sold to John Benson for \$48 per acre, aggregating the sum of \$9,302. A tenant home and about eight acres of land, situated in one corner of the farm, was also purchased by Mr. Benson for \$200.00, making the whole aggregate \$9,502.00.

A fire company has been organized in Chestertown, with Chas. S. York, president, and a full set of officers. Mr. York was once the labor candidate for mayor of Baltimore, and has located in Chestertown, where he is engaged in constructing water-works. The fire apparatus of Chestertown now consists of two hand engines—one of them nearly new—and 800 feet of hose and some chemical extinguishers.

Hon. Michael Bannon came out on top Tuesday by being elected treasurer of Anne Arundel county by the board of county commissioners. His opponent was ex-Collector of City Taxes J. Frank Kramer, whom Mr. Thomas S. Nutwell, Fusion Democrat, substituted for himself when he saw that his fight was hopeless. He had expected that Mr. Kramer would draw another vote to his two, and thereby secure the election. Mr. Bannon was selected on the first ballot, his supporters being Dr. C. R. Winter and Oliver H. Williams, Democrats, and H. T. Brice, Republican. Thomas H. Phipps, Democrat, and Dr. A. Litchfield, Republican, voted for Mr. Kramer.

It is reported in steamboat circles that the New York, Philadelphia and Norfolk Railroad Company is negotiating with a Wilmington (Del.) shipbuilding concern for one or more steamers to run passengers and freight from "Tidewater Virginia" to Cape Charles City. It is stated that the new movement contemplated is taking in the York, Rappahannock and Piankatank rivers. This would require several steamers, if the service is intended to be frequent. It is known that the railroad company tried to effect an arrangement with a large transportation company of this city to put a steamer on the route between the Rappahannock and Cape Charles City last winter, but the negotiations fell through. Nothing definite is known about the new movement, but it is believed to be one which the railroad company seems to have decided to make at an early date.—Baltimore Sun.

REPORT BALTIMORE ITEMS. Nicholas Bogher's barn and contents, in Federal county, were burned Monday, loss \$1,000.

Baltimore and Ohio Railroad construction on the Philadelphia extension has been actively resumed all along the line.

The opening of navigation in the Susquehanna brings a revival of business operations at Havre de Grace, Port Deposit and other points in the vicinity.

James Woodall, Esq., a Justice of Queen Anne's county, died last week of cancer. He had been a magistrate for several years, and was highly respected as an upright, conscientious citizen.

The expenses of the Murray-Steele trial foot up as follows: Amount due persons residing in Queen Anne's county, \$677 15; total, \$1,223 15.

The Elkton Presbyterian church was crowded to its utmost capacity Tuesday evening, the occasion being the wedding of John M. Tucker, of Philadelphia, to Miss Hildie Dremer, eldest daughter of Thomas Dremer, one of Elkton's wealthiest citizens.

A heavy fire raged Monday evening between Barnesville and Dickerson, doing much damage to the lands of Thos. White and others, and another between Barnesville and Boyd's, destroying much valuable furniture. Both originated from the sparks of locomotives.

The officers and crew of the oyster pilot steamer Governor Thomas, with the exception of the captain and chief engineer, have been discharged until further orders. The Governor Thomas is now undergoing repairs at Baltimore. It is said there are other reductions of force during close season.

The shipments from the mines of the Cumberland coal region for the week ended Saturday, April 4, were 50,500 tons, and for the year to that date 329,106 tons, an increase of 24,333 tons as compared with the corresponding period of last year. The coal was shipped as follows: To Baltimore and Ohio Railroad and local points—Week, 42,000 tons; year, 463,628 tons. To Chesapeake and Ohio Canal—Week, 5,030 tons; year, 5,783 tons; decrease from last year, 8,209 tons. To Pennsylvania Railroad—Week, 9,490 tons; year, 39,094 tons; decrease from last year, 20,175 tons.

Murdough, brother of the groom, Wm. V. E. Jacobs and Frank Phelps, Jr.

DELAWARE ITEMS. Mr. Geo. T. Dodd, of Hillsboro, Del., has been appointed mail agent from Georgetown, Md., to Salisbury City, Va., vice M. E. White, resigned.

A little son of Wm. Denney, of Dover, fell dead while returning from school one day last week. It is supposed that he was attacked with heart disease.

The farm of John C. Hackett, in Queen Anne's county, 214 acres, has been sold to John Benson for \$48 per acre, aggregating the sum of \$9,302. A tenant home and about eight acres of land, situated in one corner of the farm, was also purchased by Mr. Benson for \$200.00, making the whole aggregate \$9,502.00.

Wanamaker's.
 PHILADELPHIA, April 18, 1885.
 After Easter do you need
 to say that hats and bonnets
 are ready? after our Opening
 too? We do need to say
 that nothing ought to be
 more transient than early
 millinery. We scarcely had
 five-hundred made on Opening
 day; but the workrooms
 were busy with more; and
 they will be. Opening party
 shows our fashion-notions,
 and partly tries your taste.
 It is as much for our instruction
 as for yours. Can we
 be idle afterward, think you?
 Everything out of which
 hats and bonnets are made
 is here too. You think in
 abundance. May be. But
 think how many there are
 to provide for. The millinery
 quarter is full from morning
 till night.
 Hats from the Arcade steps. Trimmed hats
 and bonnets upstairs.
 Coats and dresses for girls.
 Ulsterettes of plain cloths,
 large plaids and rough
 mixtures, belted and pleated
 and plain, with silk lined hoods,
 with belts of wide Hercules
 braid and with ribbon bows.
 Tailor-made Newmarkets of
 fine trowel with braid bindings.
 With wide pleats on
 the back from collar to bottom
 of skirt. Newmarkets with
 vest fronts and straps of
 braid. With hoods and with-
 out. Jackets of light-weight
 stock in t and Jersey cloth,
 trimmed with Hercules braid
 and tinsel. Tailor-made
 jackets of fine trowel and
 flannel. "Narrow" jackets
 of small cloths with wide
 pleats front and back and
 wide belt, in imitation of the
 jacket worn by bicycle riders.
 Jackets trimmed with buttons
 and braid put on diagonally,
 beginning at the shoulder.
 Dresses innumerable, in all
 manners of combinations of
 materials, colors and trimmings—
 fancy run mad.
 Velvet-and-frise grenadines;
 little velvet-and-frise
 figures on a grenadine
 ground, 19-inch, \$2, the same
 that cost us \$250 to import
 not long ago; from this up
 to \$6 we have many qualities
 and patterns that are
 very desirable.
 Suit the or Escorial
 grenadines, like escorial lace;
 though a few pieces were
 imported last year, it is
 regarded as one of the hits
 of the present season.
 Twist-disk grenadines
 and damask figs and
 silver spots—just from Paris.
 An her (a leaf pattern)
 design in grenadine and
 very groundwork.
 The patterns of cambric,
 silk and swiss, with the
 requisite embroideries, one
 or two of a style in the cost-
 100's yds. \$4 to \$50.
 Colored mariselles and
 printed piques, for tailor-
 made dresses and boys' kilts.
 Too various to even hint at.
 Nainsook embroidered for
 children's Mother Hubbard
 aprons; n where else.
 Everything belonging to
 white dress-stuffs and em-
 broideries to lighten them.
 JOHN WANAMAKER,
 Chestnut St. between Market streets,
 and City-hall square.

SALISBURY ADVERTISER

PUBLISHED WEEKLY AT SALISBURY, WICOMICO COUNTY, MD.

THOS. FERRY, Editor and Prop'r.

Entered at the Post Office for Anthracite in advance, Single Copy, 1 cent.

SATURDAY, APRIL 18, 1885.

The Prince and Princess of Wales are making a tour of Ireland. In spite of the bitter feeling in Ireland toward England, the Prince has been very well received.

The idea which has for many years obtained in this country that a high price for wool is a bad thing, is fast dying out.

While every right thinking person is ready to commend the President's policy of making removals slowly, late events prove that the proper administration of affairs in Washington demands more sweeping changes in some of the departments.

Death has claimed another member of the Illinois Legislature. This time the victim being J. Henry Shaw, of Beardstown, Cass County.

THE THIRD THIS SESSION.

Death of Another Illinois Legislator, and This Time a Republican Majority.

Death has claimed another member of the Illinois Legislature. This time the victim being J. Henry Shaw, of Beardstown, Cass County.

This makes the third death during this session, something which never before occurred.

We kept the whole Home Academy. Washington, D. C.—Mr. F. O. McCleary, a prominent politician of this city, was troubled for several weeks with a severe cough, which not only deprived him of sleep but annoyed others.

The disturbed state of affairs in Central America has rendered it necessary that our government send war vessels and troops thither, in order to protect the lives and property of citizens in that country.

For 35 years I have been afflicted with Catarrh so that I have been confined to my room for two months at a time. I have tried all the humbugs in hopes of relief but to no success until I met with an old friend who had used Ely's Cream Balm.

The corner's jury in Brooklyn, N. Y., in the case of Joseph Cohen, who died after the roller-skating contest in New York, rendered a verdict that his death was due to acute spinal meningitis, aggravated if not induced by his participation in the skating contest.

WILLIAM C. WHITNEY.

Secretary of the Navy—A Former Corporation Counsel of New York City.

William Collins Whitney is a son of General James S. Whitney, at one time Collector of the Port of Boston, a leading Democrat in the State of Massachusetts and a Delegate to the Charleston Convention of 1850.

In 1871 he took a leading part in the organization of the Young Men's Democratic Club, which continues to be of important service to the party.

Mr. Whitney married a daughter of United States Senator Henry B. Payne, of Ohio. His physical health is good and is preserved by abundant exercise in the open air.

THE NEWS IN GENERAL.

Events Transpiring in Various Parts of This Country. Rolled Down.

The base ball season is opened and games are now being played in all the cities.

The Pennsylvania House of Representatives Tuesday passed the bill authorizing Philadelphia to borrow \$3,000,000 to improve its water supply.

The Canadian rebellion, under the half-breed Riel, is not likely to be of long duration.

It is stated by the daily papers that the hostilities between France and China are at an end.

Salvation Oil is the greatest pain-destroyer of any age or clime. For the cure of neuralgia, rheumatism, and wounds occasioned by accidents, such as cuts, bruises, burns, and frost-bites it has no equal.

While it was thought last week that General Grant could last only a few days longer, he is still among the living.

Eight five-story tenement houses on the south side of West Sixty-second street, between Tenth and Eleventh avenues, New York, that had recently been put under roof, fell down Monday afternoon.

It has just leaked out that a band of Fenians have been organizing in the oil region for the purpose of harassing the Canadian authorities by the use of explosives. They are all men who have been putting down torpedoes in oil wells or manufacturing nitro-glycerine and other explosives and are therefore perfectly familiar with and equally fearless in handling the stuff.

WASHINGTON GOSSIP.

Leading Republicans Praise President Cleveland's Administration.

The Northern Pacific Railroad has had a number of friends in the Land Office and through these friends it has had unusual privileges granted to it under the land grant given to this road by Congress.

Mr. Whitney's physical health is good and is preserved by abundant exercise in the open air. An enthusiastic admirer and competent judge of horses, he may, in some part of every day, be found in his wagon or his saddle.

It is wonderful to hear the Republicans who come to Washington praise the new administration. Mr. Lay, a member of the great firm of Mannah, Lay & Co., of Chicago, a life-long Republican, who has been here for several days visiting, says: "I am now well convinced that it was the best thing in the world for the country that there should be a change in the administration."

When visiting Baltimore, make Oehm's your headquarters. They will take care of your parents and deliver them to Steamboats, and R. R. Cars, and they will give you Men's, Boy's, Spring Clothing, is unusually attractive, whilst their prices are lower than ever.

Rev. Dr. Barnard, the unfortunate "Horn Romanism and Rebellion" pastor of the Murray Hill Presbyterian Church, had his connection with the church dissolved Monday night.

The license to peddle and tavern keepers of spirits and fermented liquors and lager beer are as follows:

For 1000 to \$2,000 50.00
For 2,000 to 4,000 100.00
For 4,000 to 6,000 150.00
For 6,000 to 8,000 200.00
For 8,000 to 10,000 250.00
Over 10,000 300.00

Female vendors. Females vending military and other small articles, whose stock is not over \$200, are required to pay the same amount they are required to pay the same amount of stock at the principal season of the year.

Licenses to owners and keepers of stills. The owner or keeper of every still or Jack shall before being permitted to stand or operate the same, pay to the Clerk of the Circuit Court of some one of the counties in this State, a license...

ROAD NOTICE. This is to give notice that we the undersigned intend to petition the County Commissioners of Anne Arundel County, in the last district, beginning at the County Road leading from Barron Springs to the County Road leading from the County Road to the County Road...

WARREN LELAND,

Largest Hotel Enterprises

of America, says that while a passenger from New York on board a ship going around Cape Horn, in the early days of emigration to California, he learned that one of the officers of the vessel had cured himself, during the voyage, of an obstinate disease by the use of

Ayer's Sarsaparilla.

Since then Mr. Leland has recommended AYER'S SARSAPARILLA in many similar cases, and he has never heard of its failure to effect a radical cure.

Some years ago one of Mr. Leland's farm laborers twisted his leg, owing to the bad state of his blood, an ugly scrofulous swelling or lump appeared on the injured limb. Horrible itching of the skin, with burning and darting pain through the limb, made life almost intolerable.

Mr. Leland has personally used Ayer's Sarsaparilla for Rheumatism, with entire success; and, after careful observation, declares that, in his belief, there is no medicine in the world equal to it for the cure of Liver Disorders, Gout, the effects of high living, Salt Rheum, Sores, Eruptions, and all the various forms of blood disease.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by Druggists; \$1.40 bottles for 65.

IN ADDITION

To the usual large stock of Men's and Youth's Clothing at the Feder Building Store, we now also carry a fine line of Boys' and Children's Suits—all styles, all grades, lowest prices.

A. C. YATES & CO.

Female vendors. Females vending military and other small articles, whose stock is not over \$200, are required to pay the same amount they are required to pay the same amount of stock at the principal season of the year.

Licenses to owners and keepers of stills. The owner or keeper of every still or Jack shall before being permitted to stand or operate the same, pay to the Clerk of the Circuit Court of some one of the counties in this State, a license...

OUR MIXTURES.

Now is the time to buy your Fertilizers and mix them with woods mould, dunghill dirt or some such absorbent, as you do your henhouse and other strong manures. It will pay you. Try it!

The first planting of corn is often injured, if not lost, by the careless use of a concentrated fertilizer. Distributed in a small space, it is apt to injure the germ, and fewer roots will get the benefit, and there may be injured by too close contact.

It is often the case of a dry season that there is not enough rain and moisture to reach the fertilizer to render it soluble so that the rootlets can take it up. By mixing or diluting with dirt, the little particles are dissolved, commingled, disseminated, and in a better condition to act gradually and more certain. A comparatively small quantity of fertilizer will pay better than a large application, unless well scattered or sown broadcast.

We are great advocates of manuring good land broadcast, and permanently improving the soil, and would suggest that persons try a single bag on half an acre in addition. We think it will pay in the long run. We claim that our fertilizers are stronger and contain more available plant food than ON THE MARKET! Call and examine our Unleached Canada Ashes.

HUMPHREYS AND TILGHMAN

SALISBURY, MARYLAND.

To You.

From Oak Hall.

The Samson of the Period.

Imperial power rests with the Farmer. The great freight corporations seek him that they may take toll upon his ample stores. We traders seek him to take our stuff. His staples are down, his face long—but why? No reason, while his dollar will buy so much. The Oak Hall stock proves this. Our story for this spring is a tale of cheapness. Note these examples in Men's Suits:

Blue Flannel Suits, \$6.50, \$10.00, \$12.00, \$15.00. They are all, except the lowest, all-wool and all full indigo color. All-wool Black Cheviot Suits, \$8.50 and \$10.00. Black Corkscrew and Diagonal Worsted Suits, \$13.00, \$15.00, \$18.00, \$20.00, \$22.50, \$25.00, \$28.00, \$30.00. Brown, Wine, Blue and Dahlia Worsted Suits, \$15.00, \$20.00, \$22.50, \$25.00, \$28.00. Just so through all the stock, the three great E E E's, Elegance, Excellence, Economy, prevail.

Pleasures of the Imagination.

Happy younger. A chair, a box, half a dozen big books, bits of cord and cork. Papa's cane, Mamma's aquarium, and a vivid imagination, supply all his needs. Neither Rangeley trout nor Saguenay salmon can so delight the expert angler. Imagination has joys and limits. It will not make a dear thing cheap nor an old thing new. Real wants demand real supplies, and this fact underlies the great Oak Hall Million Dollar investment in Clothing and Cloths for Men and Boys.

Wanamaker & Brown,

Oak Hall, S. E. Cor. Sixth & Market Sts., Philadelphia.

Just Think of It. Trustee's Sale.

By virtue of a decree of the Circuit Court for Wicomico County, passed in the case of William A. Graham vs. William A. Roberts, as Trustee, 1st et seq.

AYER'S

Ague Cure!

Island Home Stock Farm,

Crossed He, Wayne Co., Mich. BATAFE & FARMON, Proprietors.

contains an antidote for all malarial disorders which, so far as known, is used in no other remedy. It contains no Quinine or any mineral or deleterious substance whatever and consequently produces no injurious effect upon the constitution, as it leaves the system as healthy as it was before the attack.

WE WARRANT AYER'S AGUE CURE to cure every case of Fever and Ague, Intermittent or Chills Fever, Remittent Fever, Dumb Ague, Bilious Fever, and Liver Complaint caused by malarial. In case of failure after due trial, refiners are authorized, by contract dated July 1st, 1882, to refund the money.

Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.

Percheron Horses.

All stock selected from the best of sire and dam of established reputation and registered in the French and American stud books.

ISLAND HOME

is beautifully situated at the head of Crossed He in the Detroit River, ten miles below the City and is accessible by railroad and steamboat. Vastly superior to the localities may call at my office in Camps Building, and an escort will accompany them to the farm. Send for catalogue, free by mail. Address, SAVAGE & FARMON, Detroit, Mich. FOR SALE BY ALL DEALERS.

MOTHER'S SALVE!

FOR THE CURE OF SCALD HEAD, BRUISES, SORES, CUTS, CROCK, BURNS, CUTS, BRUISES, SORES, ETC. FOR SALE BY ALL DEALERS.

Blanks for Sale.

ROBERT D. ABDEL, Cabinet Maker, may 21-ly. Chesham, Salisbury, Md.

NOTES FOR THE FARMER.

If there is no one growing small fruits for market in your place, why don't you do it? It is a paying business, and clean and healthful.

No youth should be permitted to have, own or drive a horse for pleasure, until he understands how to care for it properly, and does so.

A cent you find was more worth as two val you lose.

Why is a mangy mongrel like a pig? Because he's a poor cur.

What you don't know about men often-times makes them respectable.

When ignorance is bliss it is folly to ask the landlady what she put in the hash.

The only stain upon Jonah's reputation is that the whale was glad to get rid of him.

A dude's trousers beat a breach of contract all to pieces. They are breeches of contract.

A genius has invented steel-knives which will cut cold iron. Now boarding-house breakfast must yield.

A handsome young lady being asked if she ever gave a kiss, replied, "No," but I often have one stolen."

A mile of a boy standing at the outside door was asked if it rained. "No," he replied, "but it leaks a little."

It is no indication that a cat knows the value of money, simply because it always carries its purs with it.

The young couple who before marriage thought they could live on love are now living on corn bread and hominy.

"Did the cashier's accounts balance?" "No." "That's all." "Yes, but it would have been better if it had been even."

When a young woman marries a man for money, she is never to say that the man has married her for her money.

A beautiful woman lets her heart rest upon her lip, the best entering young man she meets may kiss the sweet prize away.

"How freely you are!" said one little girl to another, who had taken the best apple in the dish; "I was going to take that myself."

It is good to die to counterfeit the coin of the realm, yet for ages past the man has been putting out new quarters every month.

A negro, after eating at some Chinese, exclaimed: "If the white folks is all so dark out here, I wonder what the color of the niggers."

Pat says that he was born on the last day of the year, and congratulated himself that he was born at all. "For if it had been the next day that would have become of me?"

"See here, your dog howls all night long, and never lets me sleep." Neighbor: "Yes, I know, but you howl all day about it, and don't let me rest. I'm getting mad myself."

Too late! Maggie, to her stepfather, who is very popular with the children: I wish you had been here when our other papa was alive. You would have liked each other so much.

"Did you say that your wife never gave you a certain lecture after you came home late at night?" "She never did." "Tew is that?" "She always goes along with me when I go out."

It is said of an old physician in Philadelphia, when called upon to prescribe for a cough or cold, that he invariably refuses to do so, but recommends his patients to take Dr. Bull's Cough Syrup.

"Why do you lag me so much about my nose?" asked Snifkins, crossly. "I had nothing to do with the slapping of it," "No," replied the doctor, "but you had a great deal to do with the coloring of it."

Young Thorne (to his girl): "And your mother into winter coats, what a good thing for wear." This thing or that is broken or worn and needs repair. The winter is a time of considerable leisure among farmers, and some of this leisure should be devoted to putting tools in proper order for the next season's work.

Aside from the looks of the thing, dead limbs on fruit or other trees should be promptly removed. When limbs die from blight, the cutting should be done in the fall, or it will spread the infection. Prompt cutting down to healthy wood will check most cases of blight. The saw used should not be applied to healthy trees unless first washed with carbolic acid and water.

For wine, the universal experience from Maine to Oregon, from Canada to Mexico, is that corn will make more and better pork than any other food. For poultry, it is the best of all universal grain, but is not always the best. It is admirable for its fattening properties, but for laying hens, and growing fowls, it is not well to use too much. "Corn fed" fowls, ducks and geese are firm fleshed and yet tender.

Nearly all of the breachi cattle have been made so, at some time of their lives, by having poor fences on the farm. The animals soon learn to break down or push over fences, and when they do happen to come to a good fence they work at it till it gives way. Those who raise their own cattle need never fear of having breachi cattle, if they always see to having good, strong fences wherever the cattle are confined.

On given amounts of food the sheep produces for the same weight of dry food nearly twice as much manure as the pig, while the pig produces even more than the sheep. This difference is due to the less digestible character of the food supplied to the sheep and so on. The quantity of manure produced during the same time and for the same body weight is, however, very similar with the three animals, the greater consumption of food by the pig counterbalancing its lower rate of manure production.

If you want to grow huckleberries, say W. J. Scott, in the Husbandman, sets out young plants, about a foot high, in the spring. Much them for a year or two, and plant in some coarse horse manure occasionally.

They are slow to start, but after they are started they grow rapidly both in bush and berry. The bushes may be cultivated with a horse. They should be set at least seven feet apart each way, as they spread considerably when full grown. It is well to set three or four small bushes in each hill.

The grass that grows in early Spring is less nutritious, not only because it is tender and watery, but also from its being grown while soil and air are cold. With warm weather its character rapidly improves.

In some countries, as England for example, the seasons are always nearly on the point where the grass will be poor in quality, and during the past few years, when the winter temperatures has been lower than usual, the milk and butter product has been largely decreased. Even the hay made from this grass is so poor that stock will not thrive and have to be fed with grain.

THE JOKER'S BUDGET.

Humorous Happenings Found in the Columns of Exchanges.

Straight whiskies make crooked roads.

Down in front—the young man's mouth.

Those who employ the plumber must pay the piper.

The hair of the Polish origin should be shining marks.

The hair of the horse is sometimes his mane beauty.

A cent you find was more worth as two val you lose.

Why is a mangy mongrel like a pig? Because he's a poor cur.

What you don't know about men often-times makes them respectable.

When ignorance is bliss it is folly to ask the landlady what she put in the hash.

Many a Lady is beautiful, all but her skin; and nobody has ever told her how easy it is to put beauty on the skin. Beauty on the skin is Magnolia Balm.

Men Think they know all about Mustang Lincture. Few do. Not to know is not to have.

Medical.

AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS are directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation, Indigestion, Dyspepsia, Headache, Erysipelas, and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLS by eminent physicians in regular practice, shows unambiguously the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A sufferer from Headache writes: "AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look for to relieve me. The dose does not hurt my bowels and free my head from pain. They are the most effective and the safest I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers."

A sufferer from Headache writes: "AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look for to relieve me. The dose does not hurt my bowels and free my head from pain. They are the most effective and the safest I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers."

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

SALISBURY ADVERTISER

PUBLISHED WEEKLY AT SALISBURY, WICOMICO COUNTY, MD.

THOS. PERRY, Editor and Prop.

Entered at the Post Office at Salisbury, Md., as Second-Class Matter. Subscription Price—One Dollar Per Annum in Advance. Single Copy, 5 Cents.

SATURDAY, APRIL 25, 1885.

Even the Peace Party of England is beginning to despair of an amicable settlement of England's difficulty with Russia.

The New York World vigorously criticizes the foreign appointments of Secretary Bayard.

It now appears that Mr. Morgan of South Carolina, the newly appointed Consul to Melbourne, is a republican, and was an ardent supporter of Mr. Blaine for the Presidency.

WILLIAM F. VILAS. Chairman of the late Democratic Convention, and Postmaster General.

The Chairman of the Democratic Convention of 1854, W. F. Vilas, is forty-four years of age. He was born at Chelsea, Orange county, Vt., July 9, 1840.

At the November election Mr. Vilas was elected a member of the Wisconsin Legislature, of which body he was confessedly the ablest member.

WASHINGTON GOSSIP.

Mr. Randall and the Speakership—Protraction of the Mint.

Mr. Burdard, the director of the mint, in his special annual report on the production of gold and silver in the United States for the calendar year 1884, estimates the production of the country to have been—gold, \$30,000,000, silver, computed at the silver dollar gold rate, \$48,000,000; total \$78,000,000.

When the President, accompanied by Miss Cleveland and Mrs. Van Voorhis, went to church last Sunday they found it packed to its full capacity.

The nomination of James M. Morgan as Consul-General at Melbourne is rather an unfortunate appointment of the State Department.

The intention of the President and of the members of his cabinet to inaugurate a new departure by remaining at Washington the major portion of the summer has had the effect to give an impetus to social life which has not been felt in many years at this season.

If Mr. Randall is to be a candidate for the next speakership, as some of his enthusiastic admirers insist, that gentleman himself is not aware of the fact.

William R. Morrison is now in Washington and will probably remain for a week, looking after the interest of his district, which he says he has been compelled to put aside since the 30th of December.

The manufacturing industries of Millford received a stunning blow by the loss of Blair's factory Monday night by fire, as Mr. Blair had discontinued employing a watchman about three months ago.

TOPICS IN NEW YORK.

Hopful Views of Gen. Grant's Case—A Feast of Water—A Valentine Contest.

Kenward Philip, the journalist, got a verdict of \$5,000 in Brooklyn Monday against the New York Tribune for libel in charging him with writing the celebrated Mowry letter, which was one of the sensations of the Gardfield campaign.

In one of the offices in Wall street Monday a \$30 gold piece was exhibited weighing 90 grains more than the coin should weigh, thus occasioning a loss to the government of \$1.35, a serious loss if many of these pieces were found every day.

Since Easter, society has been unusually active and brilliant. Balls and parties, amateur theatricals and fairs follow each other closely, and this round of pleasure will be kept up until it is time for the great emigration to Newport, Saratoga and Long Branch.

The Manhattan Club of this city sustains the same relation to the democratic party that the Union League Club does to the republican party.

Commissioner of Public Works Spiker strikes out in defense of the bill to prevent a waste of the city water, which has been denounced as containing a job.

Shipping men are watching very closely the progress of the negotiations between England and Russia. Those who are not interested in British shipping are willing to use a mild expression—that war shall break forth.

The Evening Star says: "New York politicians in the city are there is a fair prospect of harmonizing all the factions in the Democratic party and electing a Governor this fall."

Brooklyn, after many unsuccessful attempts in that direction, has at last built an elevated railroad, which is announced to be ready for travel on or about June 1.

Advertisement for Jacobs Oil, featuring an image of a man and text describing its benefits for rheumatism and other ailments.

Wanamaker's.

Philadelphia, April 25, 1885.

Carpet-selling time, they say, hasn't begun yet. No so. It began in the middle of January, a very unusual time to begin.

They say also, we have spoiled the trade. Don't believe a word of it. Carpets dropped a quarter. That's true. They haven't got back to where they dropped from. That's true too.

As to qualities—just the same. There are makers and makers. Some make their carpets as pretty and good as they can, and weave their names on the back.

Imperial power rests with the Farmer. The great freight corporations seek him that they may take toll upon his ample stores.

Happy youngster, a chair, a box, half a dozen big books, bits of cord and cork. Papa's cane, Mamma's aquarium, and a vivid imagination, supply all his needs.

China mattings are extraordinary, just as they have been here for several weeks, but more: fancy 1 1/2 to 60 cents; white and check 18 to 20; damask 60; and of them all the grades at 50 and over are jointless.

Oil-cloths for table, stair and floor. Lignum. Linoleum. Cocoa and other mats. Hassocks and ottomans. Rugs from 75 cents up.

Trustee's Sale. By virtue of a decree of the Circuit Court for Wicomico County, passed in the case of Samuel A. Graham vs. William A. Roberts, as Trustee, I will sell on

Advertisements Prepared and Inserted in all the Newspapers of this State, at Special Rates. J. J. PERRY, Proprietor.

OUR MIXTURES.

Now is the time to buy your Fertilizers and mix them with woods mould, dunghill dirt or some such absorbent, as you do your henhouse and other strong manure. It will pay you. Try it!

The first planting of corn is often injured, if not lost, by the careless use of a concentrated fertilizer. Distributed in a small space, it is apt to injure the germ, and fewer roots will get the benefit, and these may be injured by too close contact.

It is often the case of a dry season that there is not enough rain and moisture that reaches the fertilizer to render it soluble so that the rootlets can take it up.

Can always be found by calling on S. T. EVANS, and Prices will be found to give satisfaction. Accommodates a Specialty. Flour beyond Competition.

SEWELL T. EVANS,

Dook St., Salisbury, Md.

To You. From Oak Hall.

The Samson of the Period.

Imperial power rests with the Farmer. The great freight corporations seek him that they may take toll upon his ample stores.

Happy youngster, a chair, a box, half a dozen big books, bits of cord and cork. Papa's cane, Mamma's aquarium, and a vivid imagination, supply all his needs.

Pleasures of the Imagination.

Art squares: those sizes the same, a fifth off; other sizes nothing off. Same as before. Felt druggets as usual.

SALISBURY ADVERTISER

SATURDAY, APRIL 23, 1885.

Post Office Bulletin.

MAILS CLOSE. Mails close at 10 P. M. for Baltimore, and at 11 P. M. for other points.

Office open from 9 A. M. to 4 P. M. and on Sunday from 11 A. M. to 12 P. M.

Mail carriers from Baltimore, via Crisfield, daily except Sunday, and depart same days.

ITEMS WORTH BUT NEWS.

A Week's News Paragraphed for the Advertiser of To-Day.

Sweet potatoes are very scarce in this market. They are worth \$1.50 per bushel.

Mr. W. H. Jackson is erecting very large stable on his property on Camden Ave.

Capt. Holt, who drives Trader Boat, and two of his sons are quite sick with pneumonia.

Handfuls of herring are being caught in traps and seines in the race above the pier bridge.

Mr. High Smith is engaged in the business of buying old iron, steel, copper and such materials.

Belitt's Gas brought out the street sprinkler Tuesday last and will continue to run it during the season.

Mr. Geo. Bradley will take charge of the Grand Saloon now occupied by Mr. J. T. Parsons, next Friday May 1st.

The Preachers' Association for Salisbury District M. E. Church, will hold its next annual session at Princess Anne, Md. May 11-14.

The Wisconsin & Peconic R. R. will run an extra, Tuesday evening next, to bring a party of excursionists to witness "Punchion."

The Star Skating Rink, which has been running in the room adjoining P. C. & H. S. Todd's store for some weeks, closed Saturday night.

Mr. A. T. Robinson, who went to Florida about a year ago, passed through Salisbury last Monday on his way to visit his family in Quantico.

Mr. A. W. Woodcock has purchased the house and lot corner of Camden and Division Street, owned by the heirs of the late John D. Williams.

The rumor that Messrs. E. E. Jackson & Co. had bought the wharf property belonging to Mr. W. S. Parsons, is incorrect. There has been no sale made.

The Seaside Hotel at Ocean City will be again under the management of Messrs. Parsons & Nichols this season. Mr. John Tracy will have charge of the Atlantic.

The ocean liner steamer Geo. McLean was in the harbor Wednesday to get fresh water and blow out her boilers. She left Thursday and will be in Annapolis to-day.

The next State Teachers' Association will be held at Near Park, Garrett County, Md., July 7th, 8th and 9th. Mr. Forman, of our High School, will take part in the exercises.

The N. Y., P. & N. Railroad, during the first eleven days of April carried over its line between 3400 and 3500 passengers. This is a very gratifying business to the managers of the road.

"Punchion," the play that is to be put on the stage at the Byrd Opera House by our young amateurs, promises to be a success in every particular. Some of the best stage talent in the town is to take part.

Presiding Elder J. A. B. Wilson has appointed Mr. Taylor, a local preacher of Ashbury M. E. Church, Wilmington, to be pastor of Berean Circuit, this county. Mr. Taylor entered upon his duties last Sunday.

The Rev. M. J. Eckels, the Presbyterian minister from Havre de Grace, will preach at the Presbyterian Church in Salisbury, next Sunday at 11 A. M. and 7 P. M. Seats free, and the public cordially invited.

—Died at her residence in Baltimore on the 19th ult., Mrs. Sallie L. Dougherty, relict of the late Hon. R. W. Dougherty, and youngest daughter of the late Capt. John N. Bowland of Somerset county, leaving two daughters and a son to mourn their loss.

The propeller Hamilton arrived here last Saturday from North Carolina, loaded with shingles. There were 500,000 on board, 200,000 of which were for L. B. Williams & Co. and the balance were carried to Baltimore. The schooner Potosi brought to the same firm 150,000 more.

While a colored boy was driving Mr. T. Humphrey's horse and cart Friday last week, the horse took fright and springing the boy out and pitched him on his head. He was completely stunned and did not recover for an hour or more. There was no damage done to the cart.

The County Commissioners were invited last Tuesday to see Mr. Chew's ferret kill a rat at the Salisbury Hotel. The rat and ferret were both put in a large cage, and the rat was soon made away with. The fight was very short, for, after the ferret got a good hold on the rat, he never let go until the rat was dead.

The Fire Department was called out for drill last Thursday night. From the time the bell first tapped till the engine reached the Camden bridge, six minutes in all, they had 40 pounds of steam. They were throwing water in eight minutes. The Department is in good condition, and is able to do good service at a fire. Some new hose is badly needed.

The present school term ends Tuesday, May 13th, and the summer vacation will then begin. The High School, as has been before stated, will be continued about a month longer by private funds raised by the patrons of the school. The annual examination of teachers will probably be held May 13th and 14th, the two days following the close of the term.

The newly elected Board of town commissioners met last Monday evening and organized by re-electing A. G. Towdine, President, H. W. Williams, Secretary, and William W. Gandy, Treasurer. Mr. John T. Gony was re-elected health officer for another year. There were some other applications, but as Mr. Gony has made a satisfactory office, it was thought best to retain him.

State's Attorney T. P. J. Rider has been in Salisbury, Pa., this week attending the Supreme Court at Harrisburg. Mr. Rider is the chairman of the Supreme Commission on Laws. There are several important changes in the constitution and laws pending before this session. One is the admission of women as members. As nearly all the Salisbury Councilors favor this amendment, it is likely their influence will be felt at the present session, and it is among the probabilities that the change will be made.

The body of Leonard Game, colored who was accidentally knocked overboard from the schooner Ede in the Nantuxco river, near Eldorado, Dorchester county, by the

shing of a boom on April 6th, mention of which was made in this paper last week, was recovered near the scene of the accident on Monday, Justice Milligan impounded a jury of inquest, who rendered a verdict of accidental drowning. The parents of the deceased are residents of Wisconsin county.

The following is the list of letters remaining in the Salisbury (Md.) Post-Office Thursday, April 23, 1885:

Ladies' List—Miss Lillie Gouty, Mrs. M. Humphreys, Mrs. Mary Lucy Hastings, Miss Anna M. Hudson, Miss Annie M. Jones, Margaret A. Mathews, Mrs. Margaret Waller, Gena's List—Robert Gilt, G. T. Parsons, John C. Sweeney.

Persons calling for the above letters will please say they are advertised. JOHN P. OWENS, Post-Master.

Mess. Ross & Sanford have the steaming Chesapeake here to tow the lighters down the river after they are loaded with mud by the mud-machine. The mud will be dumped in Ellis' Bay at the mouth of the river. These gentlemen have been having considerable trouble in the work here, and it is not the intention of the Adventurers to embarrass them when it is known that they are trying to do it well. It is to be hoped the mud will not be allowed to drop out before Ellis' Bay is reached.

Mr. B. B. Owens, of Baltimore, was in town last Wednesday, examining the lot above the new M. E. Church South to be built, and the surroundings. Mr. Owens is an architect, and submitted plans some time ago to the building committee, but it was thought that they did not exactly suit. He was therefore requested to come and look at the surroundings and make some alterations in the design. Further plans will be sent down in a few weeks. The Church, when completed, will be a very handsome one.

Mr. J. J. Street arrived at his former home in Tyaskin, this county last Monday, from Florida, bringing with him the corpse of his wife, Mrs. Mary V. Street. She died on Thursday last week, and was interred in Tyaskin district last afternoon. Mr. Street has been engaged in the milling business in Florida for some time past, and took his wife thither last September. She was sick at the time, but improved considerably in health after going South. She got worse as the spring came on, and died rapidly last Thursday, the 16th inst., when she died. Mr. Street will shortly return to the South.

As was advertised, Robins' Circus exhibited here Friday last week and drew a large number of people to town. The number of those who went inside the show was unusually small. The show itself, while not presenting as many features, either in the management or circus as some other similar shows, nevertheless gave some very good performances. The managers were all very gentlemanly and accommodating men, and it is likely that the show will be improved every year. At the night exhibition, the top canvas caught fire from the lights, but was put out without a panic being caused. A considerable hole was burnt in the canvas.

As the warm season approaches, it might be well to call the attention of the Town Commissioners to the needs of the town in the way of sanitary measures. Much complaint, in times past, has been heard in regard to filthy pigpens, and the foul and sickness-breeding emanations that arise therefrom. Other towns on the Shore, of any size, are taking measures to suppress this nuisance, and it would be well for Salisbury, also, to do something in this matter. The people are not rich, but honest, independent and industrious as a community. What they have generally is their own and paid for. Although there are two liquor saloons in the place, I don't think there is an "habitual drunkard" in it, and hardly any even moderate drinkers. Good order, that most requisite thing for a thriving community, prevails all over the town. I think I may safely say there is not a town on the Shore of the same size that can boast of better moral habits. The municipal facilities are good and best of all, permanent. There are two churches and two school houses, representing a primary and grammar school, while the schools divided and graded by the present examiner, are well organized and progressing rapidly. The houses cannot be said to be adequate to the requirements of the place, consequently the school authorities intend building a new house the coming summer. This is a long needed improvement and when completed, if the schools can be divided into three, i. e., transferring the fourth grade to another room in the grammar school, which is now occupying, giving the highest department more time for advanced branches, scholars will not be compelled to go elsewhere for a good education. In addition to the fourth, fifth and sixth grades now taught in the grammar school, the Geometry and Algebra receive special attention by those who have completed the third grade. But these branches can only be taught by alternating with the other studies for want of time. There is not a prettier or more suitable spot in the town for the new building than the present site. The grammar school. Persons desiring to locate in any community don't forget to inquire as to the educational advantages and Sharpstown's may be said when the new building is completed to be fully up to the requirements of the place.

Trial of Capt. Williams. The trial of John H. Williams, Captain of the dredging boat Ewa, for the murder of Otto Mayher, was begun in the Somerset Co. court, Monday, April 20th. All day Monday was spent in getting a jury, which after much trouble was accomplished. State's Attorney J. H. Miles conducted the prosecution, and Messrs. Crisfield, Page and Hodson represent the accused. After the indictment was read to the jury and the opening statements made by counsel, the first witness, Frederick Boye, a colored man, was put upon the stand Tuesday morning. He testified to being a hand on the same boat with Mayher, and related the "treatment" of him by the captain. On the 25th of November the captain beat Mayher with a shovel and knocked him down several times with a handspike, hitting him on all parts of the body. He beat him five or six times, at least, on that day, because he did not open oysters fast enough. Mayher cried out: "My God! My God! I am now dying!" On the 26th the captain killed Mayher down on the deck, and the prostrate man moaned, "He has killed me." On the 26th Williams knocked Mayher down, put his foot on his neck, and said: "I will kill you, you d—d nigger." He struck Mayher with a handspike, and he was ploughing so so unmercifully as to let it get beyond control. It went to the woods, and burned over some 15 acres, chiefly set in young pine, before it could be extinguished. The County Commissioners are asked to establish a public road to the Nantuxco's wharf, near Athelstan Hill. A public road, and it will be a great public convenience if built. Mr. Thomas Humphreys has built a division fence on his farm of barbed wire that may be considered a model one for neatness and beauty.

The officers of the Somerset Co. court, on Monday, April 20th, were: Judge J. H. Miles, presiding; Messrs. Crisfield, Page and Hodson, judges; Messrs. Crisfield, Page and Hodson, clerks.

Barren Creek News. On Wednesday last week, Mr. Perry J. Brown has married to Miss Mary, second daughter of Mr. Joseph S. Taylor, in the P. E. Church at New Market, near the River, Mr. Vandine. Mr. E. Corby, near the bridge, has some complaints a week. Saturday last was meldon day not a few planting them. Mr. John Lawrence, tenant of Mr. Wm. Bacon, while attempting to load hay on a horse, was so badly injured that he is now confined to his bed. It is getting beyond control. It went to the woods, and burned over some 15 acres, chiefly set in young pine, before it could be extinguished.

The County Commissioners met on Monday, April 20th, and were present: Messrs. Crisfield, Page and Hodson. The following resolutions were adopted: That the County Commissioners be and they are authorized to cause to be laid out a public road from the Nantuxco's wharf, near Athelstan Hill, to the town of Salisbury. That the County Commissioners be and they are authorized to cause to be laid out a public road from the Nantuxco's wharf, near Athelstan Hill, to the town of Salisbury.

Veables have been recently visiting their daughter, Mrs. S. C. Dougherty, at Pitts wharf. Dr. Marsters' orchard-plants are looking very pretty, but the fully exhibit the tendency of that grass to "bunch up" with age. The Dr. thinks Anson was the best forage when sowed, having out it twice for that purpose before letting it mature for syrup. The "Solway place," opposite Mr. Watson Wilson's, is being greatly improved by having the two-story building on it re-waivered boarded, and otherwise improved.

Literary Notes. Strawbridge & Clothier's Quarterly for Spring is just issued. On opening this first number of new volume the first object to strike the attention is a beautiful colored frontispiece, displaying the latest French styles, designed by Janet of Paris. This, from cover to cover there is a constant stream of pictures, all of interest and many of excellent workmanship and high merit.

Babyhood, the only periodical in the world devoted wholly to the care of young children, has succeeded in securing the services of eminent specialists in every subject with which it deals. Under the title of "Domestic Disinfection," George M. Sternberg, major and surgeon, U. S. A., publishes some of the results of the recent Government investigation into the properties of the best disinfectants. The series of interesting articles is an especially entertaining and practical one, by an anonymous lady writer, entitled "Nurse's Day Out." Marion Harland's writing is as attractive as usual, and the "Baby's Wardrobe," "Nursery Problems," and other departments contribute the accustomed variety of useful hints, each a number, \$1.50 a year. 18 Spruce Street, New York.

It is a curious fact that one of the most famous poems in our language appeared originally in a magazine that seldom touches poetry at all, and the same periodical, after an interval of sixty-six years, now brings out another poem very similar in theme. Bryant's "Thanatopsis" was first printed in the North American Review for September, 1817. The May number of the Review, just out, has a poem by Robert Buchanan on "The New Buddha." The question, "Is Christianity Beneficial to the World?" is ably discussed by Mrs. Elizabeth Cady Stanton and Bishop J. L. Spalding. President J. L. Pickard writes on "Why Crime is Increasing," and David Dudley Field on "Industrial Co-operation," while Prof. Andrew F. West, of Princeton, contributes an article of great clearness and strength on "What is Academic Freedom?" James Payn, the English novelist, discusses "Success in Fiction," and T. P. Thibault Dyer "Superstition in English Life."

Items from Sharpstown. Never, perhaps have fish been so scarce on the Nantuxco as this year. The cold weather has rendered it very difficult to catch them. Strange to say, they are remarkably cheap considering their scarcity. If we judge from the number of eggs that have been deposited in the fish house at Twiford's mill, we need suffer no uneasiness about the scarcity in the future. The Spring opens there is quite a good deal of improvement going on around town. Capt. J. W. Selby is building a new freight house for the Steamboat Company, which is a long needed convenience. The house is being built on Phillips' lot, which Capt. Selby is freight agent. Mr. W. Dreuch has new plans in front. The railway managers are about ready to put down their new ways. Farmers around are busy, at the usual spring work. Sharpstown possesses a share of advantages, enterprises and improvements. The people are not rich, but honest, independent and industrious as a community. What they have generally is their own and paid for. Although there are two liquor saloons in the place, I don't think there is an "habitual drunkard" in it, and hardly any even moderate drinkers. Good order, that most requisite thing for a thriving community, prevails all over the town. I think I may safely say there is not a town on the Shore of the same size that can boast of better moral habits. The municipal facilities are good and best of all, permanent. There are two churches and two school houses, representing a primary and grammar school, while the schools divided and graded by the present examiner, are well organized and progressing rapidly. The houses cannot be said to be adequate to the requirements of the place, consequently the school authorities intend building a new house the coming summer. This is a long needed improvement and when completed, if the schools can be divided into three, i. e., transferring the fourth grade to another room in the grammar school, which is now occupying, giving the highest department more time for advanced branches, scholars will not be compelled to go elsewhere for a good education. In addition to the fourth, fifth and sixth grades now taught in the grammar school, the Geometry and Algebra receive special attention by those who have completed the third grade. But these branches can only be taught by alternating with the other studies for want of time. There is not a prettier or more suitable spot in the town for the new building than the present site. The grammar school. Persons desiring to locate in any community don't forget to inquire as to the educational advantages and Sharpstown's may be said when the new building is completed to be fully up to the requirements of the place.

Trial of Capt. Williams. The trial of John H. Williams, Captain of the dredging boat Ewa, for the murder of Otto Mayher, was begun in the Somerset Co. court, Monday, April 20th. All day Monday was spent in getting a jury, which after much trouble was accomplished. State's Attorney J. H. Miles conducted the prosecution, and Messrs. Crisfield, Page and Hodson represent the accused. After the indictment was read to the jury and the opening statements made by counsel, the first witness, Frederick Boye, a colored man, was put upon the stand Tuesday morning. He testified to being a hand on the same boat with Mayher, and related the "treatment" of him by the captain. On the 25th of November the captain beat Mayher with a shovel and knocked him down several times with a handspike, hitting him on all parts of the body. He beat him five or six times, at least, on that day, because he did not open oysters fast enough. Mayher cried out: "My God! My God! I am now dying!" On the 26th the captain killed Mayher down on the deck, and the prostrate man moaned, "He has killed me." On the 26th Williams knocked Mayher down, put his foot on his neck, and said: "I will kill you, you d—d nigger." He struck Mayher with a handspike, and he was ploughing so so unmercifully as to let it get beyond control. It went to the woods, and burned over some 15 acres, chiefly set in young pine, before it could be extinguished.

NOTES FOR THE FARMER.

One of the secrets of successful farming is to do little things at the proper time.

Farmers Attention—Don't hesitate to keep Day's Horse and Cattle Powder in your stables and at your barn-yards.

A simple but sure way of curing horn on cattle, is to mix sulphur with lard or oil of any kind, and rub on the affected parts at intervals of a few days, and the horn will soon grow out again.

"Plow up your dogs and plant turkey," was the solid advice given by Joaquin Miller to a Louisiana farmer.

Dr. W. C. Marsters, Ransom P. O., Md., says in the year 1884 he used 13 bbls. of Powell's Prepared Chemicals, and believes they paid him as much as fertilizer costing him three times as much.

You can raise peanuts on almost any kind of land. Have your ground good and loose; furrow off so as to have the rows as close as you can plan between them.

Careful experiments in Germany seem to show that cows milked three times a day yield milk richer in fat than if milked but twice daily.

There are six European countries, England, Belgium, Denmark, Sweden, the Netherlands and Russia, in which grain does not pay any important duty.

Any who want hot beds would find it an excellent plan to make bread clear there than in any other European nation.

The failures in farming occasionally come from failure in the soil, but the failure is sudden and decisive.

When the ground around a pigeon is thoroughly understood, as it should be, bare earth makes the best and certainly the most desirable floor.

To raise early vegetables, it is essential that an early commencement be made and everything be done to insure success.

Nothing can be more simple than the culture required by the peach. It is simply to keep the surface always mellow and free of weeds.

The Bone Industry of the country is an important one. The four feet of an ordinary ox will make a pint of four-foot oil.

THE JOKER'S BUDGET.

Dark weighs—Coal scales.

An ingredient of marriage—Cupidity.

A man is often called a bartender when in reality he is a bar tough.

The persons on West think ruler skating has a tendency to promote backsliding.

"Oh, I'm a great old masher," exclaimed the crier, as it came down on the apples.

"We have met, but we have missed you," sang the calinet officers to disappointed office-seekers.

Mrs. Ristori's theatrical season will end in San Francisco this month. She is now her own manager.

Now you talk like the true ring, said the girl to her lover when he began to speak of a diamond circle.

It's mighty aggravating to a prisoner to hear the jailer whistling "Mother keeps the gate locked now."

If Tomnyon wrote: "The Charge of the Light Brigade," just after receiving his gas bill, he was perfectly justifiable.

"On her to whom honor is due," throve over his darling's shoulder a costly imported shawl.

The new Chicago female lawyer is young and unmarried. This makes all her special-mistaken efforts.

A stage-struck Dakota maiden writes to a New York lady friend to send her a copy of the acting edition of "Skylark, or the Murder of Venus."

"Didn't you say that young Stiffins only got \$10 a week?" "Yes; why?" "Well, I see his wife wears diamonds." "Oh, but he works in a jewelry store."

The wise man smoketh not the wicked cigar which is given to him but handeth it over to the man who voted against him last election and has a sweet revenge.

What's the difference between a man who teers down a picket fence and one who dresses a spring chicken? One pulls the picket and the other picks the pullet.

It is a fact not well known to be denied, that it was not for Dr. Bull's Cough Syrup hotel proprietors in Florida would put their rates up to ten dollars per day.

Young Lady—"I am engaged to be married in a week. Would you still write 'Miss' before my name?" "Yes; there is a possibility that you may, you know."

"It is necessary to understand the management of the breath," says a writer, "in order to be successful as a singer." It is also necessary, to be successful as a husband.

The tramp has a very deep-rooted conviction that this country will never attain the same prosperity until railroads build side-walks along their tracks for foot passengers.

When we see all our fences taking unto themselves a glory of color which would cause a crazy child to play, we may know that the greatest show on earth will shortly be in town.

"Is this a country where there are no ducks and geese?" asked a tourist. "Not only found here," answered a countryman, "but you fell lonesome you must go father north."

A little girl in Connecticut was taken by her mother to a dentist, who removed a tooth. That night at prayers she said, "Forgive us our debts, as we forgive our dentists."

Secretary of the Navy Whitney said to take charge of the navy. Where is it? "Watchman!" "I'm sorry, sir, but I don't know; I've only been here two years."

"What kind of dogs are these, Mr. Birney?" "I required a customer, pointing to a group of crockery canines. "Terrier dog," said the genial china man, his face beaming like the full moon.

A talkative woman, pressing her viands upon a guest at table, asked: "Are you not fond of tongue?" "Yes," said the worried man, "I always was fond of tongue and I like it still."

"If man wants to own the earth, what does the woman want?" inquired Mr. Grap of his better half, after a little family mania a few days ago. "Well, my dear," responded that lady in a gentle, smothering tone, "to own the man."

The ruling passion is illustrated at many odd moments. Birch, the negro singer, was speaking of the funeral of his associate, Backs. "Were there many present, Birch?" "Many present," exclaimed Birch, "but my wife turned away before the first hymn was sung."

I can safely recommend Ely's Cream Balm for the cure of Catarrh, Cold in the Head, etc. Before I have used the first bottle I purchased I find myself cured.

An Ohio farmer, who asserts that a kicking cow can be cured by catching hold of her leg while in the act, probably got the idea from that beautiful legend, so familiar to childhood days, in which an application of salt to the tails of birds is supposed to be efficacious. We should like to see the farmer who, while milking, can catch the cow's leg when bossy straightens it!

The five-year-old son of a family the other day stood watching his baby brother who was making a great noise over having his face washed. The little fellow at length exclaimed to the baby: "You think you have lots of trouble, but you don't know anything about it. Wait till you're big enough to get a lickin', and then you'll see; won't be mamma."

CONSUMPTION CURED.—An old physician retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-creatures. He will send free of charge to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noyes, 149 Power's Block, Rochester, N. Y.

Many a Lady is beautiful, all but her skin; and nobody has ever told her how easy it is to put beauty on the skin. Beauty on the skin is Magnolia Balm.

Men Think they know all about Mustard Liniment. Few do. Not to know is not to have.

HALL'S

Vegetable Sicilian HAIR RENEWER

is the first preparation perfectly adapted to cure dandruff of the scalp, and the first successful restorer of faded gray hair to its natural color, growth, and youthful beauty.

It has had many imitations, but none have so truly met all the requirements essential for the proper treatment of the hair and scalp.

HALL'S HAIR RENEWER has steadily grown in favor, and against its fame and usefulness to every quarter of the globe. Its unequalled success can be attributed to but one cause: the entire absence of poisonous ingredients.

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cures the scalp from all impurities, cures all humors, fever, and dandruff, and thus promotes health. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but it remains a long time, which makes its use a matter of economy.

FOR ALL THE DISEASES OF SCALP, HEAD, AND HAIR, AND FOR THE BEST REMEDY, BECAUSE THE MOST SAVING AND THROUGHLY PREPARED BY R. P. HALL & CO., NEWARK, N. J. Sold by all Dealers in Medicines.
