NO. 1 LEAVING POWDER

ABSOLUTELY PURE

REVERSED BY A COLLISION.

An Old Brakeman Tells of a Quicker Exit Than He Expected.

"The most remarkable wreck I ever saw," said an old brakeman, "happened on the Short Line between New Haven and New York. It was a freight wreck. I had charge of the Grange accommodation and was bound in to Louisville. We were following hard upon the trail of train No. 14 bound for Louisville. Train No. 14 was coming in our direction. It had been delayed several days by repairs."

How shall I do it?" cried the
rionist. "Some casual busi-

[illegible]

He had hardly time to jump to the throttle when the wild locomotive crashed into us. I was thrown, I reckon, 50 feet and

could not be far away. The speaker announced his intention to the dining room, and the waiter, and the marquis, who felt, dimly even a form enough the window into the

"We've got 'pin'!" he cried, seized guns and knives from a table in the vestibule and started out into the night. The fugitive, while the others gathered themselves in the salon and saw the light, was already in the street, while the others, who were strangers, encountered the marquis of a large oak. At the marquis and his guests had

"Down!" commanded M. de la, at the bands only settled among among the foliage and

A presentation.

An Advertiser tells a story of a man who gave his parish ward himself to every one as if dying pastoral work, who called upon him to answer an aged couple who earnestly feared of him. When told to leave, the old lady, feeling and many tears, led the pastor by the hand and to trust himself, said, "I am your father."

African Contributions
The social grobbers of South Africa
live in large societies. They select a place
of considerable size, and usually cover
it with grass roof made with the
common dwelling is constructed.
The roof serves the double purpose of keep-
ing off the heat and the rain, and 400 or
600 pairs of birds are known to live in
the same shelter.
Dwellings are built in regular street
and usually resemble rows of tenement
houses.

He Wrote the Columns.

Yes. I think I shall send with the words, "The Lord is the Lord." New York

er" was by Burns. The poem at St. Helens made a lot of saying that the old one couldn't read the first was "Hail to the Chief."

The last Sunday night destroyed the building wood factory of W. R. Miller & Co., located at the N. Y. & P. & N. Depot. The fire company was called to the scene but was unable to save the property on account of the rapidity made by the flames.

In front of the factory were several freight cars, one of which, which was damaged slightly, a number of men having pushed them out of reach of danger.

The wind at the time was setting the flames in the direction of the Salisbury Oil & Coal Co.'s property, but as it had been raining all day everything was so wet that this property was easily saved.

The cost of the property destroyed was originally about \$3,000 but considerable has been added since the company began building wood made from the lumber taken from Jackson, Brook Co.'s mill. The loss after deducting salvage will be about \$4,000. There was no insurance on the property. Mr. Miller has not fully determined yet what he will do but thinks he will not rebuild. He will probably sit up a place in Salisbury near Mr. Miller, No. 3 of Jackson Brothers & Co. for handling.

Mr. Miller is unable to account for the fire, as no fire had been in the building since Thursday previous and only a few hours before the fire broke out. Mr. Fred Smith had walked through the building seeing no signs of fire. The fire of the building was probably the work of a tramp who had gone there for the night.

Attention Lumber.

The prevailing bad weather since Saturday has detained the farmers from the fields and the planting of Spring work. Corn has been planted quite extensively up until the beginning of this weather—which was explained by two ladies a day or so ago as this being the "blackberry storm", but it does not seem as if they are very well versed in the agricultural times nor would they make very good Hickies.

The berries are advancing to a reddening stage so rapidly that a recognition of a few by the 20th of this month, but can't see much amend made to the cratersystem of returning no crates and to this it looks as though the berries and so forth is or was, had the shippers only had the pluck to stand up for their own rights when their own property was taken from them in such a manner that the shippers could have obtained their own property or their property's worth, but it now seems as though they will have to learn to be more steadfast, or holdfast, to that which they have. Such a word as free crates only means extortion on the shippers by compelling them to pay what they (the commission men) withhold from the remittance for their expenses on the crates, but they charge nothing for the crates proper, and so it might be supposed, by listening to their fluent speeches, overwhelming praise and grand results to be obtained from the use of the so-called free crates, which are only to be paid for in reality out of the shipper, who in ignorance of the reduction made for the use of the free crates, pays doubly for them in excess of the natural expenses, but as the old proverb goes, "When in Rome do as Romans do," so now, I mean that the same, because my neighbor did it, and so it goes the world over.

Mrs. Beesbe of St. Mary's county, made her brother Dr. J. L. T. Long, a short visit last week.

Mr. and Mrs. Wrenshaw of Baltimore, returned home a few days ago, after a visit to the latter's mother, accompanied by Misses Emma Malone and Nettie Goslee.

Somerset Items.

From Maryland.

Messrs. Henry L. Brittingham and Thos. H. Black propose to place a system of telephones throughout Princess Anne, and will do so if they can get subscribers sufficient to justify them in doing so. Their charges will be \$1 a month for residences and \$1.50 for business places.

On last Monday, while engaged in work on the farm, the horse of Mr. John Richardson became frightened, how is not known, and ran away. His neighbor, Wm. J. Griffith, saw the horse running loose over the field and went over to see about it. It was some time before he and other searchers found Mr. Richardson and, when he was found, he was unconscious. Dr. Charles W. Wainwright was sent for and it was not until some time on Tuesday when he was restored to consciousness. The back of his head was badly cut and he was bleeding freely from his nose and ears. Ever since then he has been lying in a critical condition and only semi-conscious. Since his hurt he has become crosseyed.

F. H. Dryden, real estate broker, of Pocomoke City, has sold the James S. Clogg farm in Somerset county to John Cress, of Pennsylvania, for \$3,000, and "Bowland Farm," on which Thomas R. Merrill resides, in this county, to Jas. Plimmer, of Pennsylvania, for \$1,500.

Mr. Francis T. Beauchamp, a merchant of Westover, and Francis T. Beauchamp and S. G. Waters, partners under the firm name of S. G. Waters & Co., and doing business at Freeborn, Fairmont district, Somerset county, have made a deed of trust to Joshua W. Miles for benefit of their creditors. Mr. Beauchamp's liabilities are placed at about \$11,000.

Mr. A. Lincoln Dryden, late candidate for Congress in the first district on the republican ticket, has accepted the invitation to attend the Palmyra-Somerset Society of St. John's College, Annapolis, at their annual celebration in June.

The total cost for the trial in Baltimore of the murderers of Constable Edward Carver in Somerset county was \$2,906.11. To be added to this is the expense of taking the prisoners back and forth to Baltimore, the expense of the coroner's inquest, &c.

Notice.

The Holy Eucharist will be offered and a sermon delivered (D. V.) on Sunday morning next, May 6th, in St. Paul's church, Spring Hill, at ten o'clock. There will also be Evening Prayer and a sermon on the afternoon of the same day at 3:30 o'clock in St. Bartholomew's Church, at Green Hill.

There will also be Evening Prayer with a sermon in St. Philip's Chapel, Quantico, that night, at 8 o'clock. P. B. Adkins, Rector.

Unclaimed Letters.

The following is a list of letters remaining in the Salisbury (M.D.) Post-office Saturday, May 4, 1905.

Mrs. Margaret Bradley, Eliza T. Griffin, Rhos. W. Wainwright, Frank White E. H. H. Poston.

Persons calling for these letters will please say they are advertised.

MARTY D. EXENDORP, Postmaster.

Children Orphan.

For Pitcher's Castoria.

On the fifteenth day of May Florence Nightingale celebrated her seventy-fifth birthday. As great a woman and as great a public benefactor, and as much of a heroine as she was thirty years ago, when she went forth from her comfortable home in England, not as a mere nurse to attend to the wants of the wounded and dying British soldiers in the Crimea, but as a fearless organizer of a great field hospital system, which the British War Office authorities, staff officers and generals had looked upon as a mere matter of afterthought in the preliminary arrangements of one of the most difficult campaigns in the history of the civilized world, writes Miss Florence Nightingale in an illustrated sketch of "Florence Nightingale at Seventy-Five" in the May Ladies' Home Journal. No one had thought of the physical sufferings which would have to be undergone by the brave soldier who was sent with a prospect of long and painful hours, without any adequate hospital arrangements having been made. When the great mistake was realized it was a woman who came forward to rectify the terrible blunder, and it may easily be imagined that obstacles were thrown in her way. But public opinion was soon aroused, and when Miss Florence Nightingale arrived at the Crimea with her band of nurses she had the whole British people at her back.

Our Railroads Will All Be "Electric" Soon.

All railroads will be eventually operated electrically. The first changes from steam will probably be made, and have in fact already begun, on short and suburban roads where the traffic is heavy, and the trains are run at frequent intervals, and thus approximate more closely to the ideal conditions of the economical electric railway. These electric systems will then be gradually extended until in the course of time the entire line will be adapted to the new order of traffic, and a new generation of railroad officers less wedded to the older methods, will have come into existence. So far as new light railways are concerned, such as those contemplated in England at the present time, and which are increasing in the United States, electricity presents advantages which cannot be disputed. It has even been suggested that such agricultural roads might largely increase their income by supplying electric power for farming operations in the districts through which they pass. Some trolley roads do this now. From "Will the Electric Motor Supersede the Locomotive?" by Joseph Wetzel, in the May Scribner.

Resolutions of Respect.

At a recent meeting of Wicomico Tribe No. 13, I. O. of R. M., Delmar, Del., the following resolutions were adopted:

Whereas, The Great and Supreme Ruler has in His infinite wisdom removed from among one of our worthy and esteemed fellow laborers, B. H. Elliott, and

Whereas, the long and intimate relations held with him in the faithful discharge of his duties in this society makes it eminently fitting that we record our appreciation of him, therefore,

Resolved, That his noble character and ability which he has exercised in the aid of our tribe, by service, contribution and counsel will be held in grateful remembrance.

Resolved, That the sudden removal of such a life from among our midst leave a vacancy and a shadow that will be deeply realized by all the members and friends of this Tribe, and will prove a serious loss to the community and the public. To the relatives of the deceased we express our hope that even so great a loss to us all may be overruled for good by Him that doth all things well.

Resolved, That a copy of these resolutions be spread upon the records of this Tribe, a copy printed in the local paper, and a copy sent to the bereaved family.

SALISBURY ADVERTISER

Published weekly at
Salisbury, Worcester County, Maryland

Copyright 1915 by
PERRY & HEARN,
Editors and Proprietors.

ADVERTISING RATES.
A full column of 10 lines for the first insertion and 5 lines for each subsequent insertion. A liberal discount to party advertisers.

Local notices, 10 cents a line for the first insertion and 5 cents for each subsequent insertion. Death and Marriage notices, 10 cents a line for the first insertion and 5 cents for each subsequent insertion. Obituaries, 10 cents a line for the first insertion and 5 cents for each subsequent insertion. Subscriptions, 10 cents a copy, 3 months, \$2.50; 6 months, \$4.50; 1 year, \$7.50. Single copies, 10 cents.

For Office at Salisbury, Md.,
I hereby certify that the SALISBURY ADVERTISER, a newspaper published at this place, has been determined by the Third Assistant Postmaster-General to be a publication entitled to admission in the mails at the post office rate of postage, and that it is entitled to such treatment as the laws of the United States require.

MARY D. BELLINGER, Postmaster.

SATURDAY, MAY 11, 1915.

TO OUR CITY PATRONS.

After this issue, the ADVERTISER will be delivered to city patrons through the post office instead of by carriers as heretofore. The city delivery will usually be prepared and delivered at the post office ready for distribution by 4 o'clock on Friday afternoon. We have had considerable difficulty in our efforts to get our patrons served satisfactorily by carriers. Complaints are continually coming to us from persons not regularly served. Another source of annoyance has been that carriers will throw papers on the pavement or in yards to be ruined before taken up on rainy days. We have come to the conclusion that we can serve our patrons better through the office than by carrier. We confidently believe that all will be better satisfied with the service.

NO SENATOR FOR DELAWARE.

The case of the Blue Hen of Delaware certainly failed to catch this time. After three months of failure to elect a United States Senator, the legislature adjourned last Thursday sine die without an election.

The whole business from the inception at the primaries last fall, to the culminating fiasco of Thursday suggests that culplet in Hugo's speech by Lord Byron.

"Hog to sin to die in shame,
My life begins and ends the same."

It was a boodle convention from beginning to end, a boodle governor and a legislative ticket to elect a boodle Senator, and like such contracts generally end; it proved a failure.

The party was successful at the polls but it lost its governor by death, to be succeeded by a democrat, and now fails to elect a senator to succeed Mr. Higgins.

Well, the drama has been serio-comic, indeed. The threatened disgrace upon the state of being sold for Addick's hard cash, is no more eminent. The dark cloud that hung over the state has passed and with it goes the republican bow of promise.

Dear Park, On the Crest of the Alleghenies.

Those contemplating a trip to the mountains in search of health and pleasure, Deer Park, on the crest of the Allegheny mountains, 5,000 feet above the sea level, offers such varied attractions as a delightful atmosphere during both day and night, pure water, smooth, winding roads through the mountains and valleys, and the most picturesque scenery in the Allegheny range. The hotel is equipped with all adjuncts conducive to the entertainment, pleasure and comfort of its guests.

The surrounding grounds, as well as the hotel, are lighted with electricity. Six miles distant, on a resort of Deer Park and equally as well equipped for the entertainment and accommodations of its patrons. Both hotels are upon the main line of the Baltimore and Ohio Railroad have advantages of its splendid vestibule and limited express trains between the East and West. Season excursion tickets, good for return passage until October 31, will be placed on sale at greatly reduced rates at all principal ticket offices throughout the country. One-way tickets, reading from St. Louis, Louisville, Cincinnati, Columbus, Chicago, and any point on the B. & O. system to Washington, Baltimore, Philadelphia or New York, or vice versa, are good to stop at either Deer Park, Mountain Lake Park or Oakland, and the time limit will be extended by agents at either resort upon application, to cover the period of the holder's visit.

The season at these popular resorts commences June 1st.

For full information as to hotel rates, rooming, etc., address George D. DeBolside, Manager, Deer Park, or Oakland, Garrett County, Md.

Hon. Horace Austin on the Eastern Shore.

In a recent letter to Mr. S. Lynn Percy, of the Cambridge bar, the Hon. Horace Austin, ex-Governor of Minnesota, says:

"I think well of the Eastern Shore, which I am quite familiar, having spent a winter there (in Queen Anne's county) in the late 'fifties and having crossed it lower down the peninsula and through your country several times, not many years ago, on my way to and from Washington and Ocean City. You have the soil, the position and the climate, which ought to command a dense population and a wealthy one. Heretofore it has been rather 'provincial' as well as 'insular'; but it is bound to wake up and assume the rank to which its various resources entitle it."

The Anti-Gorman combination formed in eastern last week met in that town again last Tuesday and was attended by over 50 of the representative Democrats of the county each district being represented. An address to the voters of the county denouncing the Gormanites was presented and endorsed. The members of the organization expected to carry the election and win four of the districts at the election.

The June Annual School Board at Salisbury last Tuesday pronounced as "a bad colony" the suggestion that the position of certain public school teachers be removed upon the vote their voters would cast at the election.

REVIVAL OF BUSINESS

Prevailing Tendency to Advance Wages in Every Line of Manufacturing.

The New York Herald last Tuesday contained the following on the revival of business:

"The month of April throws a flood of light not only on the general revival of business but also on the prevailing tendency to advance wages in every line of industry. The country has by no means fully recovered from the effects of the recent depression, but its convalescence is now assured, and all signs point to an era of great prosperity.

This conclusion is so apparent that even the wary man must admit its correctness but for those who know that the change for the better is almost directly due to the new operations of the new tariff law. The low duties seem to have started the ball rolling toward prosperity, and the redemption in one branch of business has stimulated other lines, so that to day the general tendency of the times is toward increased activity on every hand.

The best proof of this is the announcement of advances in wages in some of the country nearly every day. The factories and furnaces are sending up the income of this industry, the machinery in mills and manufacturing is beginning to move with increased energy, and the wheels of trade are turning and making glad the hearts of honest toilers. In short, the days of adversity are over, and the days of prosperity are at hand.

ONLY A BEGINNING.

No sooner had the tariff bill been passed and the duty been taken off each pound of foreign wool than Rawlins Brothers, of Stafford Springs, Conn., announced that they would increase the wages of their workmen. This was a small beginning, but before the close of '04 several scores of wage advances had been reported, nearly all of which were for workmen and textile mills. At the beginning of the present year the silk and other textile mills felt the revival, and had to adopt a scale of wages correspondingly higher than had previously been paid. By the time that April 1 was reached it seemed apparent to employers all over the country that sooner or later wages would increase in every line of industry.

These developments have shown the truth of the prophecy of William L. Wilson, now Postmaster General, that the one item of free wool alone would do more to destroy the arguments of protection and show up its fallacies than almost anything else that could be named. The present improvement in the wages of the working man is almost entirely in the East, and is principally confined to mills and factories which long enjoyed the privilege of high protection, showing that a low tariff is actually better for the wage earner than a high protective one.

The minute that the duty on wool was taken off the woolen industries began to revive, and as soon as business adjusted itself to the changed conditions the newspapers began to chronicle the new mills that were building as well as the enlargement and improvement of old ones. These mills are now running night and day, and there is no shut down except here and there, and this only because of strikes among the employees for higher wages.

Then the infection of an increase in wages began to spread in other lines, until to-day nearly three hundred thousand employees are getting better wages than they did six weeks ago. Moreover, another hundred thousand are striking for an advance in their wages, and with fair prospects for success. And it would be only a conservative estimate to say that nearly a half a million workmen have had the benefit of higher wages since the beginning of this year.

The list of industries in which wages have increased is too long to list. It is the work of Mr. Byron W. Holt, at present employed by the Tariff Reform and Sound Currency committee of the Reform Club. In comment on the subject, Mr. Holt has it to say:

"My list of industries is not complete, for the reason that republican editors seem to have made it a point to suppress reports chronicling advances in wages. The republican papers have been compelled to suppress their calamity howling, but the list of industries is so long that their readers full reports of news of this kind and the trade papers of the land are but little fair. They, too, are usually dominated by protectionism."

Then follows a long list of firms in the country which the Herald states specifically have advanced wages at the percentage of advance, which is from ten to fifteen per cent and in some cases as much as forty.

The rising tide of prosperity is now coming in so strong that the republicans are compelled to get out of it and in doing so to admit that business is rapidly reviving under the Wilson free tariff bill.

As a matter of fact, nearly all of the reductions in 1903 have been restored and often the laborers are striking for as high wages as they were getting when McKinley struck them in 1890. The republicans and protectionists cannot with their little ruses sweep back the rising tide of prosperity. If they could, they would be forced to do later, that wages have advanced faster this year than any time during the last thirty years.

The Star-Spanglers Banner's Author.

Many interesting things about Francis Scott Key—the author of the Star-Spanglers Banner—are contained in a pamphlet, which may be obtained free, from the Key Monument Association of Frederick City, Maryland, by sending one 2-cent stamp for postage. This Association is raising funds for the erection of a monument for the poet, and the pamphlet is sent in the schools and every year or before Flag Day (June 14th), this subject being suitably recognized. Contributions, however small, are asked for. Every one who loves the Flag, ought to have some small thing in building this monument. The Governor of Maryland has strongly endorsed the movement. The names of all contributors will be preserved in the crypt of the monument, and published (with or without) in the history of the monument when completed.

What is supposed to be a portion of the clothing worn by Columbus Nicholas Jr., whose body was found floating in the Trappe river in Talbot Co., on March 29, was found near the wharf at Trappe Landing last Saturday night. The clothes were badly cut and had evidently been in the water for a long time. George Wright and Thomas Johns are charged with the murder of Nicholas.

PHILADELPHIA.

AN IMPORTANT QUESTION TO

Farmers & Thresher Men

CENTRE CRANK PORTABLE ENGINE.

Can you afford to sacrifice your grain or your time trying to work with worn out and troublesome machinery when you can purchase

New Machinery.

First Class, at such a LOW PRICE?

Just think of it! A No. 3 THRESHER, 26 inch cylinder, capacity 50 bushels of wheat or 80 bushels of oats per hour.

Now do not hastily judge of the LOW PRICE. While the Farming Machine are not NICKLE PLATED, THEY ARE FIRST CLASS and we guarantee them in every particular, and we are here with a few miles of you to stand by our guarantee.

Another important consideration: The fact of the A. B. Farquhar engines and threshers being manufactured so near by, at York, Pa., DELAYS and expenses of repairs are reduced to a minimum.

A 25 H. P. Engine, Boiler and Saw Mill, complete with Main Belt, Circular Saw and All Fixtures, delivered, \$800.00. Call on or address

GRIER BROS., SALISBURY, MD., GENERAL MACHINE SHOPS, IRON AND BRASS FOUNDRY, Pulleys, Shafting, and all Mill and Factory Supplies. Basket Machinery a Specialty.

Salisbury Oil & Coal Co.

"THE BEST FLOUR," sold by the Salisbury Oil & Coal Co., is the Best. Ask your grocer for it.

If your grocer does not handle it we can furnish you at the bottom of the market and guarantee it will give you entire satisfaction. We have on hand-Bran, Middlings, Corn, Hay, Lime, Cement, Refined and Lubricating Oils and Coal. We can save you money by buying from us.

SALISBURY OIL & COAL CO., Salisbury, Md.

Tobaccos Tobacco

Having bought direct from the factories several lots of cheap Tobaccos, we are prepared to offer great inducements on some very choice brands at much less than their value. Call or write for samples and prices. We have both natural and sweet in most any style.

Spring Medicine

It is a necessity because the tonic of winter is gone, and milder weather, increased mobility, demands a tonic to restore the blood and debilitated condition of the body, open the way for that fresh feeling, nervous energy, and other things.

The body, milder weather and the various organs strive in vain to restore the impaired current of life. They all welcome

These pills, which act in pairs to be placed, according to the size of the body, in one or more groups of two wheels, revolving in opposite directions so that the whole construction will resemble a colossal ratchet, propelled, instead of by wings, by revolving wheels, the lifting surfaces of which are constantly and constantly developing vertical and horizontal power. The body's movements in flying and the speedy healthy motion necessary to the life flying machines for their support in the air are in Professor Wellner's invention changed to a rotary motion. This construction, while permitting of an easy, slow ascent, secures the horizontal position and constant stability of the airship, at the same time permitting of a high velocity.

The more the latter is increased the stronger is the lifting power developed. The direction is given by a rudder at the end of the ship by increasing the velocity of the air wheels on one side only. It is the peculiar quality of these wheels that they do not, as might be supposed, disperse the air around them. They rather attract it toward their rapidly moving surface, condensing it to a powerful stream, which, passing obliquely through their centers, their velocity can be made to surpass by far that of railway trains, thus enabling them to conquer contrary winds and currents.—Miss Helene Bonafant Popular Science Monthly.

New Remedy For Insomnia.

An expert in nervous disorders in Paris recommended to an American gentleman a cure for insomnia which he had tried with such success that the patient has prescribed it to many of his friends. It is simply to keep your eyes open when you want to go to sleep and close them when you want to sleep. Try the experiment when you are dozing and see how unconsciously your eyes will close and your thoughts begin to take possession of you. Struggle to keep them open and fixed upon an object, either real or imaginary, and before you are aware of it the struggle will have ended and sleep will be victorious.

LOCAL POINTS.

ORDER OF RED MEN.

Meets at 10:15 P. M. every second and fourth Sunday of the month, in the hall of the Odd Fellows, Third Floor, 2210, plant moon, S. B. B. 40.

LOCAL DEPARTMENT.

—Miss Covington of Snow Hill is a guest of her aunt, Mrs. Ellen Toadine.

—A prohibition mass meeting was held at the court house last Wednesday night.

—Messrs. S. Uman & Bro. have at their store on Main street, a fine young Maltese cat which has but three legs.

—At least five candidates aspire for each of the thirteen offices to be filled by the election of Queen Anne's county.

—Rev. J. L. Bray of Allen will lecture in prohibition hall, Fruitland next Friday evening 24th inst., subject "Fashion."

—Elder F. A. Clarke will preach in the Missionary Baptist Church in this city tomorrow (Sunday) at 11 a. m. and 8 p. m.

—Mrs. Wm. P. Jackson spent several days in Princess Anne last week with her friend Miss Emily Haines. She returned home Friday.

—A young man, Mr. Ellegood, who has been in the city for some time, has been arrested for the same reason.

—The ladies of St. Peter's Guild, will give a lawn party at the rectory next Thursday evening. Ice and sweet meals will be served. A cordial invitation is extended to all.

—Mr. B. J. D. Phillips, who has spent the last few years in Philadelphia, has returned to this county and joined his brother in a mercantile enterprise at Hebron, his former home.

—Rev. Dr. Reigel is in Pittsburg attending the general assembly of the Presbyterian church and in consequence there will be no services at Wilcomio Presbyterian church next Sunday.

—The death warrant of Marshall E. Price, who has been sentenced to be hanged July 8th for the murder of Miss Sarah Elizabeth Dean in Caroline county, has been signed by Governor Brown and sent to the sheriff of Caroline county.

—Mr. C. Hazel, special agent of the Eliza Life Insurance Co., paid over to Mr. John D. Williams this week a check for \$10,000, it being the amount of insurance due the late G. H. Toadine's heirs, Mr. Williams being their guardian.

—The store of W. C. Phillips & Co., at Hebron was burglarized last Saturday night. Several pairs of shoes and some other articles were taken away.

—On the same night Mr. Joseph Phillips' store, which stands nearby, was similarly visited.

—Rev. J. D. Kinzer, D. D., President of the Maryland Conference will preach in the M. P. Church in town at 11 A. M. and 8 P. M. and on Sunday at 3 P. M. and will preside at the Quarterly Conference on Monday at 2:30.

—Mr. Eugene M. Walston shipped a sixty quart crate of Mitchell's Early strawberries from the Salisbury station on the 14th. They were consigned to Messrs. Titus Bros. of New York. Salisbury tables are now being supplied regularly by the local growers.

—Rev. Robert Scott, rector of All Hall's Church, Snow Hill, has resigned the rectory to take effect June 1st. Mr. Scott has been in Snow Hill for three years and a half. He came from Nebraska, he resigned on account of his health and desires a field of labor in a locality of a higher altitude.

—Mr. Albert Stevens is rebuilding and enlarging his dwelling on Wilcomio street. The old building now standing will be moved back and turned end in its place will be erected a new front building. The work is being done by Mr. W. J. Ennis.

—One of Mr. Hugh J. Phillips' tenement houses was destroyed by fire last Monday night. The tenant Isaac Williams, and his family escaped without physical injury, but lost all their household effects and some chickens. Mr. Phillips had an insurance of \$300 on the house. He estimates the loss at \$500.

—The public will be furnished with the following information: Mr. J. H. Ennis, 4, District No. 3, in street, non-resident, arrived July 6th.

THE MAY COLD SNAP.

Blighting Frosts in the West, South-West and New York.

THE EFFECT ON FRUIT.

SNOW IN THE SOUTH.

Asheville, N. C., May 14.—Snow can be plainly seen for a distance of several miles on the mountains in this vicinity today. Very little damage has been done to vegetation in the valleys.

Raleigh, N. C., May 13.—The agricultural department has reports which are very favorable to the grape crop. They show a large increase in number of vines and as to full fruitage. There was frost this morning here and at many points west. This is phenomenal in May. So far as reported no damage is done.

Columbia, S. C., May 13.—Dispatches to the Register state that traces of frost were seen in the Piedmont belt of the State this morning. No damage was done.

Greenwood, S. C., May 14.—Reports of damage to the potatoes and cotton from the coming in here. The young potato plants have been cut to the ground.

Louisville, Ky., May 14.—Reports from different sections of the State say that there was a very frosty night. Garden truck and small fruits suffered the most. There was snow in Eastern Kentucky and frost and ice nearly everywhere in the Blue Grass and Bear Grass regions. Near Paris tobacco plants are frozen and the crop will be a failure.

Middleboro, Mass., May 14.—Snow fell in the mountains yesterday. Thermometer is 34° this morning.

Nashville, Tenn., May 14.—Reports show that a heavy frost was general in this vicinity to day, and that vegetables were damaged to a considerable extent, but so far fruit is safe. Conditions are favorable for a heavy frost tomorrow.

Lexington, May 13.—Last night the temperature fell to nearly the freezing point, and in many sections of the county there was considerable frost and some ice. The damage to fruit and gardens was light. The temperature is at 36° above zero and falling, but a south wind indicates a rain and no fear of frost is felt.

Ranoke, May 13.—Reports from the surrounding country say that the heavy frost Saturday night was very destructive to the early vegetables, and it is damaged.

Morgantown, May 13.—The cold wave brought frost with it last night, which entirely destroyed all early unprotected vegetation in this section. Fruits of all kinds were damaged, but none except the grape seriously. Reports from the surrounding country agree that the grape crop will be a total failure this year. The mercury went down to the freezing point and ice formed on the water.

Charleston, May 13.—There was a heavy frost last night, but no damage has been reported. The weather has been very dry and warm. A cold rain is falling and fires and overcasts are in demand.

Parkersburg, May 13.—There was a killing frost here this morning.

Wheeling, May 13.—The mercury ranged as low as 28° in this vicinity this morning and ice formed. As a result wide spread and incalculable damage was done to fruit, grapes and crops generally.

WEST AND NORTHWEST.

Cincinnati, Ohio, May 14.—Snow was reported today at Bellaire, Logan, Kent, Wapakoneta and Maysville, in this State. In the Sandy Valley the temperature went down to six degrees below freezing. Fruits of all kinds were killed. Corn will have to be replanted. In Northern Ohio there was no frost.

Chicago, May 14.—All vegetation was frozen stiff at Galesburg this morning. Corn was cut down and fruit and early vegetables killed. Frost was reported at Springfield, Lacon, Paris, Peoria, Minn., Shelbyville, Salem, Jacksonville and Mowqua, with great loss.

Detroit, Mich., May 14.—Reports from the fruit belt in the western part of the State are somewhat conflicting, but most of them agree that no serious damage has been done.

Cincinnati, O., May 13.—Dispatches from Northeast Ohio report heavy damage by frost. At Youngstown grapes cherries and all small fruits are reported killed and early vegetables ruined. The wheat had just started to grow. The mercury fell to 4° below freezing.

Chicago, Ill., May 13.—Chicago shivered in a temperature of 40° today, with a heavy gale blowing off the lake and a promise of colder weather to night. No reports were received here today indicating damage to wheat.

Menominee, Mich., May 13.—A howling blizzard passed over the city last night and the snow is three or four inches deep today. All gardens and many fruit and shade trees are ruined.

Milwaukee, Wis., May 13.—A fierce norther swept over Michigan today. Snow is reported all through Northern Wisconsin, and damage has been caused by the frost.

Green Bay, Wis., May 13.—Three inches of snow fell here today, accompanied by a wind blowing forty miles an hour. Fruit, market gardens and grains were damaged.

Minneapolis, May 13.—Last night's frost was the most severe since vegetation began to grow. Minnesota, Wisconsin and South Dakota all suffered, but North Dakota escaped with but little damage.

New York, May 13.—Reports from many sections of the State indicate that last night's frost did an immense amount of damage to growing vegetable, crops and fruit. Telegrams from Dunkirk state that the entire grape belt of the Chautauque grape belt was ruined. The loss is estimated at \$1,500,000 in this belt. The vines were loaded down with blossoms last evening, and today from one end of the belt to the other the vineyards are nothing but blackened ruins and have appearance of having been visited by fire. Other fruit suffered nearly as much. There will be no cherries. Ripley last year shipped 400 cars. This year it will not have one basket of grapes. Terry Rockman a millionaire grape grower and wine manufacturer, says the loss in the belt by reason of the destruction to grapes will reach a least \$5,000,000. He estimates his own loss at \$250,000.

LATER.

Buffalo, N. Y., May 14.—Snow fell here at 9 o'clock this morning, though the temperature was higher than yesterday. The snowfall in Niagara county is reported to have been two inches. Early varieties of grapes were injured, but the same place. After fifty two years of married life, Mr. Vickers died October 8, 1879, and a few months afterwards Mrs. Vickers removed to Baltimore city where she has since resided.

Three out of a family of eleven children survive Mrs. Vickers. They are Harrison W. Vickers, attorney at law at Chestertown and formerly State attorney of Kent county; Mr. John H. White, bail and agent, and Mrs. Clara V. Hartog, who has also been a prominent citizen.

Louisville, Ky., May 14.—Reports from different sections of the State say that there was a very frosty night. Garden truck and small fruits suffered the most. There was snow in Eastern Kentucky and frost and ice nearly everywhere in the Blue Grass and Bear Grass regions. Near Paris tobacco plants are frozen and the crop will be a failure.

Middleboro, Mass., May 14.—Snow fell in the mountains yesterday. Thermometer is 34° this morning.

Nashville, Tenn., May 14.—Reports show that a heavy frost was general in this vicinity to day, and that vegetables were damaged to a considerable extent, but so far fruit is safe. Conditions are favorable for a heavy frost tomorrow.

Lexington, May 13.—Last night the temperature fell to nearly the freezing point, and in many sections of the county there was considerable frost and some ice. The damage to fruit and gardens was light. The temperature is at 36° above zero and falling, but a south wind indicates a rain and no fear of frost is felt.

Ranoke, May 13.—Reports from the surrounding country say that the heavy frost Saturday night was very destructive to the early vegetables, and it is damaged.

Morgantown, May 13.—The cold wave brought frost with it last night, which entirely destroyed all early unprotected vegetation in this section. Fruits of all kinds were damaged, but none except the grape seriously. Reports from the surrounding country agree that the grape crop will be a total failure this year. The mercury went down to the freezing point and ice formed on the water.

Charleston, May 13.—There was a heavy frost last night, but no damage has been reported. The weather has been very dry and warm. A cold rain is falling and fires and overcasts are in demand.

Parkersburg, May 13.—There was a killing frost here this morning.

Wheeling, May 13.—The mercury ranged as low as 28° in this vicinity this morning and ice formed. As a result wide spread and incalculable damage was done to fruit, grapes and crops generally.

WEST AND NORTHWEST.

Cincinnati, Ohio, May 14.—Snow was reported today at Bellaire, Logan, Kent, Wapakoneta and Maysville, in this State. In the Sandy Valley the temperature went down to six degrees below freezing. Fruits of all kinds were killed. Corn will have to be replanted. In Northern Ohio there was no frost.

Chicago, May 14.—All vegetation was frozen stiff at Galesburg this morning. Corn was cut down and fruit and early vegetables killed. Frost was reported at Springfield, Lacon, Paris, Peoria, Minn., Shelbyville, Salem, Jacksonville and Mowqua, with great loss.

Detroit, Mich., May 14.—Reports from the fruit belt in the western part of the State are somewhat conflicting, but most of them agree that no serious damage has been done.

Cincinnati, O., May 13.—Dispatches from Northeast Ohio report heavy damage by frost. At Youngstown grapes cherries and all small fruits are reported killed and early vegetables ruined. The wheat had just started to grow. The mercury fell to 4° below freezing.

Chicago, Ill., May 13.—Chicago shivered in a temperature of 40° today, with a heavy gale blowing off the lake and a promise of colder weather to night. No reports were received here today indicating damage to wheat.

Menominee, Mich., May 13.—A howling blizzard passed over the city last night and the snow is three or four inches deep today. All gardens and many fruit and shade trees are ruined.

Milwaukee, Wis., May 13.—A fierce norther swept over Michigan today. Snow is reported all through Northern Wisconsin, and damage has been caused by the frost.

Green Bay, Wis., May 13.—Three inches of snow fell here today, accompanied by a wind blowing forty miles an hour. Fruit, market gardens and grains were damaged.

Minneapolis, May 13.—Last night's frost was the most severe since vegetation began to grow. Minnesota, Wisconsin and South Dakota all suffered, but North Dakota escaped with but little damage.

New York, May 13.—Reports from many sections of the State indicate that last night's frost did an immense amount of damage to growing vegetable, crops and fruit. Telegrams from Dunkirk state that the entire grape belt of the Chautauque grape belt was ruined. The loss is estimated at \$1,500,000 in this belt. The vines were loaded down with blossoms last evening, and today from one end of the belt to the other the vineyards are nothing but blackened ruins and have appearance of having been visited by fire. Other fruit suffered nearly as much. There will be no cherries. Ripley last year shipped 400 cars. This year it will not have one basket of grapes. Terry Rockman a millionaire grape grower and wine manufacturer, says the loss in the belt by reason of the destruction to grapes will reach a least \$5,000,000. He estimates his own loss at \$250,000.

LATER.

Buffalo, N. Y., May 14.—Snow fell here at 9 o'clock this morning, though the temperature was higher than yesterday. The snowfall in Niagara county is reported to have been two inches. Early varieties of grapes were injured, but the same place. After fifty two years of married life, Mr. Vickers died October 8, 1879, and a few months afterwards Mrs. Vickers removed to Baltimore city where she has since resided.

Three out of a family of eleven children survive Mrs. Vickers. They are Harrison W. Vickers, attorney at law at Chestertown and formerly State attorney of Kent county; Mr. John H. White, bail and agent, and Mrs. Clara V. Hartog, who has also been a prominent citizen.

THE MAY COLD SNAP.

Blighting Frosts in the West, South-West and New York.

THE EFFECT ON FRUIT.

SNOW IN THE SOUTH.

Asheville, N. C., May 14.—Snow can be plainly seen for a distance of several miles on the mountains in this vicinity today. Very little damage has been done to vegetation in the valleys.

Raleigh, N. C., May 13.—The agricultural department has reports which are very favorable to the grape crop. They show a large increase in number of vines and as to full fruitage. There was frost this morning here and at many points west. This is phenomenal in May. So far as reported no damage is done.

Columbia, S. C., May 13.—Dispatches to the Register state that traces of frost were seen in the Piedmont belt of the State this morning. No damage was done.

Greenwood, S. C., May 14.—Reports of damage to the potatoes and cotton from the coming in here. The young potato plants have been cut to the ground.

Louisville, Ky., May 14.—Reports from different sections of the State say that there was a very frosty night. Garden truck and small fruits suffered the most. There was snow in Eastern Kentucky and frost and ice nearly everywhere in the Blue Grass and Bear Grass regions. Near Paris tobacco plants are frozen and the crop will be a failure.

Middleboro, Mass., May 14.—Snow fell in the mountains yesterday. Thermometer is 34° this morning.

Nashville, Tenn., May 14.—Reports show that a heavy frost was general in this vicinity to day, and that vegetables were damaged to a considerable extent, but so far fruit is safe. Conditions are favorable for a heavy frost tomorrow.

Lexington, May 13.—Last night the temperature fell to nearly the freezing point, and in many sections of the county there was considerable frost and some ice. The damage to fruit and gardens was light. The temperature is at 36° above zero and falling, but a south wind indicates a rain and no fear of frost is felt.

Ranoke, May 13.—Reports from the surrounding country say that the heavy frost Saturday night was very destructive to the early vegetables, and it is damaged.

Morgantown, May 13.—The cold wave brought frost with it last night, which entirely destroyed all early unprotected vegetation in this section. Fruits of all kinds were damaged, but none except the grape seriously. Reports from the surrounding country agree that the grape crop will be a total failure this year. The mercury went down to the freezing point and ice formed on the water.

Charleston, May 13.—There was a heavy frost last night, but no damage has been reported. The weather has been very dry and warm. A cold rain is falling and

TEETH OF ROYALTY.

THEY ARE BAD, AND THEREBY HANG
SOME INTERESTING TALES.

American Dentistry, Mixed With Diplo-
macy and Intrigue—The Part Played by
Dr. KRAUS—How Lord Cromer Got Hold
of the Khedive's Secrets.

European royalty is cursed with ex-
traordinary teeth, the result of consanguineous

and even the princes of the reigning houses have been obliged to originate, the grandfather of the present king having been born as a peasant at Pau, on the French slope of the Pyrenees, and his father being a man of such science and skill in treatment. It is only natural therefore that they should have frequent recourse to dentists, and that the Emperor Napoleon has enjoyed greater degree of science and proficiency in the United States than in Europe, it is American doctors, as a rule, who have been intrusted with the welfare of royalty's jaws.

Perhaps the best known and most famous of all these American court dentists is Dr. John Greenwood, who resides in Paris; who has had the honor introducing his forces into almost every royal mouth in Christendom.

But perhaps no one has been so intimate with our monarch as Dr. Thomas Evans in whom he was most intimate during his professional career were Napoleon III and Empress Eugenie. Many a time he has been consulted by the Emperor, and once, I think, he has been called in to examine him certainly had nothing to do with teeth, while the emperor would frequently avail himself of the doctor's services in cases of illness. He is intimate with him with some communication which could not well be conveyed through diplomatic channels. And, as we have already seen, he was sent to London after the battle of Sedan, it is Dr. Thomas Evans, who, first of all concealed the fugitive emperor in his

There was an American dentist, whose name was implicated in the somewhat sensational case of the missing Duke of Sutherland, and the removal of the semidetached queen from Venice a few years ago. He was a quiet, unassuming, and had no connection with the intrigues of the court, from the King, under threat of depriving him of his throne, a promise to enter into the engagement which was queen of the hour. He was a shrewd, Crown Prince Ferdinand, and ambitious favorite and maid of honor. He was a man of great influence, and a powerful ally of the Emperor. He was a man of great influence, and a powerful ally of the Emperor. He was a man of great influence, and a powerful ally of the Emperor.

He was naturally upon the half crazy queen, who was subsequently removed to Germany, and was for many years a prisoner of constraint in one of the Rhine castles of her brother, the Prince of Wied. He was another American desert, too, and although he was a member of the king of Württemberg, over whom he acquired so great a power of persuasion, the king could not prevent him from drifting almost into all the associations of his younger days, holding aloof from royalists and nobles. The king was finally compelled to banish him from the court, an American favorite or abdicating. Naturally he accepted the former, but he added up the pill for his friend by withholding him with honors and a pension.

Finally there was the American desert of the late Khedive Tewfik at Cairo, who, perhaps, was the most successful of communicating many a useful piece of information to the English government. The Khedive had the habit of making a list of the deserters and misfits, where they would be found by

were afflicted not only with bad
teeth, but also with bad manners,
and a visit to the dentist would com-
municate to him bits of information ac-
quired through perusal of these papers.
Although the dentist was English
and had magnificent teeth, yet they
did not seem to be in almost daily need
of amendment, and as he is a man of remark-
able courtesy and a little knowledge in
ling out of the dentist the secrets
revealed by the khedive's valet.—Chi-
Record.

Remarkable Rhyming Epitaphs.

Valid while the character of the publication remains unchanged.

MARY D. ELLWOOD, Postmistress.

SATURDAY, MAY 25, 1895.

—We publish in another column a synopsis of an address delivered by Mr. Harvey, the author of Coln's Financial School, a book on bimetalism, that is attracting so much attention just at this time through the West, a book that would prove interesting reading matter for any one at all interested in the subject. The criticisms that have been made upon the book are mostly interesting. The replies have so far consisted principally in calling the author a fool and a knave. To assert that his logic is "specious" and "plausible," without showing its fallacy, is to admit to the world that it is unanswerable and must stand till controverted. This is the position of the "sound money" advocates; even such well known authors as Horace White and Prof. Laughlin have placed themselves in this position.

The attitude of the administration on this question is fully set out in an address by Hon. John G. Carlisle delivered at Covington, Ky., last Monday evening. In the address Mr. Carlisle takes the ground unequivocally for monometallism, which is at present gold. His position is that our contracts and obligations have all been entered into upon the present basis and that it would be dishonest to liquidate them with cheaper currency.

Notwithstanding the attitude of the administration, we must acknowledge that there is something radically wrong in our financial system. Values have shrunk continually for the past few years till we scarcely know where the bottom is. It is argued by the monometallists, that there is no difference provided all values are fixed proportionately. In the first place it is not true that there has been a horizontal shrinkage, and in the next place the relation of the creditor and debtor is not the same.

To illustrate: The owner of real estate valued at ten thousand dollars a few years ago mortgaged it for five thousand. His estate has shrunk in value till it is now worth but six or seven thousand dollars with the same obligation of five thousand dollars against it. At the same time he has not allowed it to depreciate intrinsically. Now deduct from the value of his estate the five thousand dollar obligation and the estate that was worth five thousand dollars net a few years ago is now worth but one or two thousand. And the shrinkage has been from no fault of the owner. It is a hardship that calls for serious consideration. The country has become thoroughly aroused to the necessity of action on the part of Congress looking to some measure that will at least bring partial relief.

—The Supreme Court of the United States has declared the income tax unconstitutional, in toto. Justice Fuller delivered the opinion of the court last Monday. The decision was upon a rehearing of the question, with a full bench. Justice Jackson who was sick when the case was heard a month ago, being present. This, it is estimated, will reduce the government revenues from fifteen to twenty million dollars per year, and increase the deficiency correspondingly.

The decision rendered a month ago so crippled the law that one feels a relief that the whole thing is obliterated. Senator Hill seems to be about the happiest man in the United States as a result of the decision. So obnoxious was the law to him that he refused to vote for the tariff bill because the income tax rider was placed on it.

—Elsewhere in these columns appears the first annual statement of the Wicomico Building and Loan Association. The President very modestly submits the auditors report with but little comment, for as he very truthfully says "Figures speak for themselves" and the figures are there to speak, as all may see on examining the statement. A six per cent dividend is earned and declared.

At the stockholders' meeting held in Toadvin & Bell's office last Monday night, the old board of directors was re-elected. Three fourths of the voting stock was represented either in person or by proxy.

—The Ledger says that the peach crop of Talbot county is almost a failure. Continued cold and rain have done the damage. The same agencies, continues the Ledger, have greatly injured all other crops.

Your Physical Condition

Needs attention at this time. If you are tired, weak and nervous it is clear that your blood is impure and without doubt there has been too much overwork or strain on brain and body. The course of treatment for such a condition is plain and simple. The blood must first be purified so that the nervous system and in fact all the organs will be fed on pure blood. Intelligent people without number have testified that the strength imparting medicine is Hood's Sarsaparilla. Nervousness, loss of sleep and general debility all vanish when Hood's Sarsaparilla is persistently taken; in a word, health and happiness follow after taking Hood's Sarsaparilla.

GREAT FINANCE DEBATE.

Apostles of Gold and Silver, Respectively, meet and Lock Horns.

Chicago, Ill., May 17.

A stirring political encounter took place tonight, hardly paralleled in the West since the famous struggle between William Douglas, just on the eve of the civil war.

Tonight's combatants were two giants of opposing sides in the raging financial controversy—J. Lawrence Laughlin, professor of political economy in the University of Chicago, the favorite authority of President Cleveland, and Wm. H. Harvey, author of "Coln's Financial School."

The spacious rooms of the Illinois Club on stately Ashland boulevard, were crowded and brilliantly lighted when the president, Mr. Homer M. Thomas, read the proposition to be discussed, as follows:

Resolved, That the United States should at once enter upon the free coinage of silver at the ratio of 16 to 1, independently of the action of any other nation.

THE SILVER SIDE.

In opening for the affirmative, Mr. Harvey said:

"The first reason why I am in favor of independent action by this country is that we should not be subjected to the influences of the government of Europe. If people can be reduced to poverty and the property of the United States can be ruined by hanging to the financial policy of Europe, then we can be reduced to the same condition by financial legislation as a war of conquest would reduce us.

"Our friends, the monometallists, mostly say: 'We admit bimetalism would be good if we could get international bimetalism.' In other words they agree that there is something radically wrong, but claim that we are tied to the financial policy of Europe. While there is a remedy, there is a remedy. The governments of Europe are plutocracies. They squeeze the lemon for the people about ever so often. The control class legislation on the masses are hewers of wood and drawers of water for the titled few.

"Now if financial legislation is one of the classes of class legislation by which the many are robbed and the few are enriched, then it is one of the institutions of the European governments that we as a nation of people, republican in form, should declare our independence. They say: 'We must have the same money that they have in order to carry on business with them,' my reply is, that the biggest business we ever did carry on was with the bankers of the world, and particularly Europe, was the time when they had gold and silver as money and we had neither.

"This nation can have an independent financial system without any reference whatever to the balance of the world, and can carry on its own commerce with the other governments of the world notwithstanding.

"We do not now settle our balance with European countries except on its monetary value. We pay them in gold and silver. We give them wheat and we take their silks, and the balance that we may owe them or they owe us will be settled just as the merchant between the importing points may agree to settle it.

"They can settle it in gold for so much a poundweight as measure in the money of their country or our country, or in so much silver or in so much copper, or in so much of any other merchandise as may be agreed upon in their trade relations. There is no such thing as an international money.

SCIENTIFIC BIMETALLISM.

"What we want is bimetalism, and scientific bimetalism is this:

"First—Free and unlimited coinage of both gold and silver; these two metals to constitute the primary or redemption money of the government.

"Second—The silver dollar of 37½ grains of pure silver to be the unit of value, and gold to be coined into money at a ratio to be changed, if necessary, from time to time if the commercial parity to the legal ratio shall be affected by the action of foreign countries.

"Third—The money coined from both metals to be legal tender in the payment of all debts.

"Fourth—The option as to which of the metals is to be paid in the liquidation of the liquidation of a debt, to rest with the debtor, and the government not so to exercise that option when desirable when paying out redemption money. This is what we want, this what we would do.

"We would again make the standard silver dollar the unit of value as it was before 1873. It would thus be a dollar, and the bullion in it would be worth a dollar, as the number of grains of bullion in a dollar would have a right to walk into the mint and be changed into a dollar. No man would ever get 80 cents for when he could have it coined at pleasure into a dollar.

"We would make gold coins of the value of so many silver units dollars, as the law existed prior to 1873. Silver is the popular money. We would allow no private individual to dictate to the government what its legal-tender money should be.

"There was to be no two yardsticks. The rich man's money—gold—was required when the commercial parity changed to interfere with the legal ratio. This is the law we would re-enact.

"We would give the option to the debtor as to which of the two he would use in the payment of a debt. A break in the commercial parity would be met by the use of the cheaper metal to be used. This increases the demand for cheaper metal. This increased demand restores the value of the metal that had thus fallen below a parity. To give the option to the creditors causes the dearer metal to be demanded and it thus grows dearer and dearer and a parity is permanently broken.

"When the debtor has the option the two metals will oscillate close to a parity and substantially at a parity. This oscillation is the elastic bimetalism which gives to primary money. If one becomes scarce, the other is used. If one is scarce, the other takes its place. Either answers for money.

"Selfishness stalked into the American Congress at a time when corruption was rampant. It was then that the primary money was being used as primary money—our primary money was then paper money—at a time when corruption was rampant in our national legislature. The money of the people was destroyed. Silver at that time was at a slight premium over gold.

ELASTICITY NECESSARY.

"That elasticity which the alternate use of silver with gold that true bimetalism gave to our primary money was now absent.

"If gold was cornered neither the United States Treasury nor the debtor could put silver in competition with it. They must go to the men who have the gold and get it and submit to their terms.

"What is the remedy? The tank of Rothschilds in England is the tank of the United States Treasury. They are our financial agents, our financial managers. They are paying them the princely salary of \$4,000,000 for each six months of their valuable services. We are in the hands of the paravolok of Europe. Put silver into competition with gold as quick as possible. Where gold contracts do not exist silver will go at once into competition with gold, and this will take some of the demand off of gold.

"To that extent it will lower the value of gold. The extra demand for silver will raise its value. Everything will advance in value at once.

"When a great government like the United States says 'Here is equal exchange, 10 to 1, gold for silver, a man in France is not going to part with his silver or gold, unless he gets that much for it; unless he gets as much for it as the United States will pay for it.

"The way to ruin is to frame." The way to ruin is to throw our minds open and we have got it. We will have higher prices ever more. Everybody can make some money. There isn't that paralyzed and deadly feeling that comes with the destruction and the hoarding of money. Our trade with foreign nations is 4 per cent of our business and our domestic business is 96 per cent of all our business. While you want, legislation as the 96 per cent, or the 4 per cent.

If a commercial party at 16 to 1 cannot be maintained, then do as our forefathers did, change the ratio, make the change in the weight and size of the gold coins. Monroe and Jackson did it. It is a question of an English policy or an American policy. Which shall it be?

The Only

Great and thoroughly reliable building-up medicine, nerve tonic, vitalizer and

Blood Purifier

Before the people today, and which stands preeminently above all other medicines, is

HOOD'S Sarsaparilla

It has won its hold upon the hearts of the people by its own absolute intrinsic merit.

It is not what we say, but what Hood's Sarsaparilla does that tells the story:—

Hood's Cures

Even when all other preparations and prescriptions fail.

"I have taken Hood's Sarsaparilla for impure blood and after taking two bottles I was in better health than I have been for years. My father has suffered with indigestion and Hood's Sarsaparilla has helped him also. We think highly of Hood's." Mrs. FLORENCE GOULD, Kensington, Md.

Fancy Dress Goods.

It's enough to tempt us to similar cupidity to see the prices of the stores charge for dress stuffs. A handful of samples was shown us yesterday. The \$2.50 grade was matched to a dot at \$1.50 here; so was the \$2 piece—same goods in a different mixture, looked prettier and so more. But you shop around more than you used to do—to your advantage and ours.

Here are four instances of attractive stuffs at a third under the usual:

At 50c a yard.
45 inch Armure Melange; blue, brown, green, tan and gray mix; Summer shades. Regular price 75c.

At 75c a yard.
45 inch light-weight Cords, navy, brown, green and red stripes, on white grounds. Price dropped from \$1.

At 75c a yard.
40 inch neared Sulting; choice color blending of navy, brown, green, tan and gray stripes, on white grounds. Price dropped from \$1.

At 81c a yard.
40 inch half-silk. Among the newest of fancy suitings. Regular price \$1.50.

Cotton Dress Stuffs.
Store is never to full to find room for proper goods when buying them would increase our helpfulness to you. Today is rich in such happenings—warm weather fabrics dainty as the colorings were reflected sun-kisses; and priced as the colors were no tribute due the conjurers of such beauties. This list will lead you to a dozen interesting spots.

High grade Cottons.
Piques, 25 to 65c.
The choicest of English and French made goods; figures and plain; tints equaling the daintiest silk dyeing.

Ducks, 25 to 50c.
Scotch-made and all woven colors; neat combinations, made for hard wear.

Madras, 25 to 45c.
A standard hot-weather material for dresses, waists and shirting; all at such an organdie. Washes better.

Saville Silks, 25c.
100 styles or more of the best kind; designs, dyeing and weaving better than most makes. No better has been sold at 25c.

Scotch Gingham, 20c.
These are the 30 and 34c kind. They are made by one of the best Glasgow mills.

Scotch Mousseline, 25c.
Woven colors; first season for this style fabric.

Irish Dimities, 25c.
One of this season's favorite tints. Better in cloth and in printing than in grandmother's days.

Printed Organdies, 25c.
Something new to sell them at 25c, but here they are. The usual price is 35c.

Modest priced Cottons.
Yankee wit and close selling may have something to do with the price.

Dress Cheviot, 5c.
Less than cost making, so the mill man tells us. Regular price is 10c.

Crepone, 7c.
More than forty styles.

Printed Lawns, 8c.
Tinted and white grounds; staple and fancy patterns; all at such a price. Regular price was 12c.

Printed Dimities, 10 and 12 1/2c.
Crowded stores all day, tell the cause of these Summer silks. Information keeps the shelves full.

Printed Duck, 10c.
30 inches wide-light and dark colors; the kind of stuff for romping boys and girls.

Woven Ducks, 12 1/2c.
Woven to stand hard knocks. Sold until a day or two ago for 16c.

Scotch Gingham, 16c.
Styles and quality same as usually sell at 25c. Won't last long at this price and more to be had than we know of.

Housekeeping Linens.
Table Linen.
At 50c a yard—Bleached Irish Damask, 67 inches wide, in a big range of handsome designs; goods that the housekeeper would be satisfied to pay 75c for.

At 60c a yard—Strong durable heavy grained bleached Damask, soft finish, 70 inches wide; has been a rapid seller here at 80c.

Towels.
At 12 1/2c each—Three extra heavy unbleached Turkish Bath Towels of generous size are plenty here again.

At 20c each—All white Irish Hock-aback Towels, extra heavy and specially adapted for the bath; they would be cheap at 25c.

Napkins.
At \$1 a dozen—22 inch cream colored Napkins that will be white with a few washings and wear equal to a \$2 quality.

At \$1.25 a dozen—Snow-white Scotch Damask Napkins in many choice patterns; 20 in. square.

Hammocks.
There's more than you've thought in the "rest cure." Prescription. A hammock and two friendly tying pillows.

Mexican Hammocks; \$1 to \$60. Cotton Hammocks, complete with pillow and spreader \$1.50.

Palmer hammocks, complete with pillow and spreader \$1 to \$5. Spreaders, 20c a pair; anchor ropes, 20c a pair; hooks, 10c a pair.

In The Book Store.
From binder to buyer if the new books, the bee-line bringing them through Wanamakers.

The Mississippi Basin. By Justin Winsor. \$3.

AN AID-DE-CAMP OF NAPOLEON

(Memoirs of Count Segur). \$1.50.
Letters of Orléans. \$1.50.
The New Zealand Blossoms and Their Insect Visitors. By Clarence Moore West. 90c.
Familiar Flowers of Field and Garden. By F. Schuyler Matthews. \$1.50.

Myrtle and Pearl. By S. R. Crockett. \$1.10.
The Fair Maid of Fies. By L. George Rathbone. \$1.50.
The Gods: Some Mortals and Lord Wickham. By John Oliver Hobbes. \$1.10.

Outre-Mer (Impressions of America). By Paul Bourget. \$1.50.
The Three Graces. By the Duchess of Hilar. 90c.
Promont Junior and Sister Senior. By Alphonse Daudet. Handsome. \$1.10.

Lotus-Time in Japan. By Henry T. Finck. \$1.35.
Beside the Bonnie Brier Bush. By the Marchioness of Darnley. \$1.50.
Under the Man-Fish. By M. E. M. Davis. 90c.

How to Know the Wild Flowers. By Mrs. Wm. Starr Dana. Revised and enlarged edition. \$1.50.
Familiar Flowers of Field and Garden. By F. Schuyler Matthews. \$1.50.

Vol. 4 McMaster's History of the U. S. \$1.50.
Men and Women of the Time. 1895 edition. \$1.50.
The Master. By J. Zangwill. \$1.35.

With the Procession. By Henry B. Fuller. 90c.
The Master. By J. Zangwill. \$1.35.

Over 300 titles of novels by popular authors, bound in paper, at 10c; and over 100 titles at 5c.

Star-Oil Heater.
An oil stove gives just the warmth needed these chilly mornings and there'll be plenty of use for them curing rainy spells all Summer—especially for cottagers! The Star is complete with sheet-iron drum nickel trimmed; centre-draft burner. \$5.85—they cost \$6.90 a month or so back.

JOHN WANAMAKER.
Onions For Smallpox.
You know of a better article of diet during an epidemic of smallpox than raw onions. Say Dr. Barbour of the City Hospital yesterday. "A liberal use of them is the best thing I know of to prevent contracting the disease outside of vaccination. The action of an onion in the presence of smallpox is peculiar. If you put an onion in a room infested with any number of disease other than smallpox, the onion will thrive. But put an onion in a smallpox ridden room, and it will wither and die so rapidly that you are almost able to see it. This shows how the onion absorbs the poison of the disease and manifests what we call it as a 'disinfectant.'"

Relief in Six Hours.
Distressing Kidney and Bladder disease relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a genuine cure on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you wait quick relief and cure this your remedy. Sold by R. K. Truitt & Son, Druggist Salisbury, Md.

In the Spring the housewife's fancy lightly turns to thoughts of scrub, while the husband skips out slyly for his daily grub.

A Humorous Fact.
About Hood's Sarsaparilla—it expels bad humor and creates good humor. A battle for blood is what Hood's Sarsaparilla vigorously fights, and it is always victorious in expelling foul taints and giving the vital fluid the purest and quantity of perfect health. It cures acrofula salt rheum, boils and other blood diseases.

Hood's Pills act easily, yet promptly and efficiently on the bowels and liver.

Some people care too little for the opinions of others and some care too much.

Rheumatism Cured in a Day.
"Mystic Cure" for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by R. K. Truitt & Son, Druggists, Salisbury, Md.

Every man occasionally wishes that he could attract as much attention as a fire.

It's Baby is Cutting Teeth.
Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. 25c a bottle.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria. When she became a Woman, she clung to Castoria. When she had Children, she gave them Castoria.

A bloomer costume is something that a woman likes best on another woman.

Itch on human and horses and all animals cured in 30 minutes by Woolford's Sanitary Lotion. Sold by R. K. Truitt & Son, Druggists, Salisbury, Md.

When lightning strikes it admits of no arbitration.

A Strong Fortification.
Fortify the body against disease by Turt's Liver Pills, an absolute cure for sick headache, dyspepsia, sour stomach, malaria, constipation, jaundice, biliousness and all kindred troubles.

The Fly-Wheel of Life.
Dr. Turt's Your Liver Pills are the fly-wheel of life. I shall ever be grateful for the accident that brought them to my notice. I feel as if I had a new lease of life.

J. Fairleigh, Platte Cannon, Col.
Turt's Liver Pills

COMPENSATION.

It seems to me, that I do not see the compensation of a man who is not a man. After the common notion of a man, and a man who is not a man. To light the progress of her journey.

SPONGE GARDENING.

PROFITABLE FARM ALONG THE FLORIDA COAST.

Interesting Facts Not Generally Known Concerning an Article of Utility—An immense Demand for the Product of the Sponge Industry.

Ever since the sponge fisheries of the Bahamas and the coast of Florida showed signs of becoming exhausted, efforts have been made to cultivate sponges on farms or artificial beds, and more recently science has tried to imitate the genuine article by converting the soft fibers of cotton, coconut leaves and shells into sponges of commercial value.

Sponge farming is now a successful industry, and hundreds of acres in the Gulf of Mexico along the Florida coast are planted with "sponge cuttings" and seeds. The work is not dissimilar in many respects to other culture.

The young sponges are planted in water along the coast varying from one to five fathoms in depth.

A few years ago the fish commission had their attention called to the sponge fishing off the Florida coast, and after finding that the beds were being rapidly depleted of the best stock, an examination of the fisheries was made to ascertain some way of preserving them.

The specimens of sponges taken to Washington in the autumn of the year were found to reproduce in the proper conditions were supplied.

The sponges in the autumn were found to develop masses of protoplasm, and in the spring of the year were liberated. These sponges contained the small reproductive particles from which the sponges develop.

Each of the sponges was experimented with did not reproduce their kind at all, and it was found that in order to cultivate the sponges it was necessary to use the sponges of the year.

A small sponge farm was established at Washington, and then others along the Florida coast as experiments. These proved successful, so that private individuals went into the business. There are many acres of sponge farms near Key West, and others at Anclote, Fla., and near Tampa. These farms were first supplied with their seeds from the fish commission, but now they are obtained direct from the sponge fisheries.

In the autumn of the year the various kinds of sponges are taken from the water, and the sponges are then dried and packed for export.

CASTORIA.

for Infants and Children.

THIRTY years' observation of Castoria with the patronage of millions of persons, permit us to speak of it without hesitating. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In all Mothers have something which is absolutely safe and practically perfect as a child's medicine.

Castoria destroys Worms. Castoria allays Feverishness. Castoria prevents vomiting. Castoria cures Diarrhoea and Wind Colic. Castoria relieves Teething Troubles. Castoria cures Constipation and Flatulency. Castoria neutralizes the effects of carbonic acid gas or poisonous acids. Castoria does not contain morphine, opium, or other narcotic property. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is put up in one-size bottles only. It is not sold in bulk. Don't allow any one to sell you anything else on the plea or promise that it is "just as good," and "will answer every purpose."

See that you get C-A-S-T-O-R-I-A.

The favorable signature of J. H. Medaury is on every wrapper.

Children Cry for Pitcher's Castoria.
