C. E. CAULK, MARYLAND

JOHN S. FARLOW,

Watchmaker
—AND—
Jeweler,

318 East Church St.,
SALISBURY, MD.

Prepared to repair all Watches and Clocks, and in the best workmanlike manner. Any person having a Clock to be repaired, please to the above number, and it will be called for, repaired and delivered, promptly.

A? ANSWERED:

Why should you give to
your Plumbing Work?

CAUSE—Every job we put in is satisfactory in every particular.
REASON—We give you better material for the same money.
REASON—We are experienced and put in all work.
REASON—We are located here and can give you prompt attention.

RICHARDSON BROS.
Practical Plumbers, Steam and Hot Water Fitters,
306 Main St., SALISBURY.

D. C. HOLLOWAY & CO.

Furnishing Undertakers and Practical Embalmers.

Full stock of Robes, Wraps, Caskets and Coffins on hand. Funeral work will receive prompt attention. Twenty years' experience. Phone 154.

With the Kidneys in Trouble by One Way.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle

by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Nasal CATARRH

Elly's Cream Balm

Elly's Cream Balm cures catarrh of the nose, throat and lungs. It is a sure cure for all cases of catarrh, and is sold by all druggists.

Elly's Cream Balm is sold by all druggists. It is a sure cure for all cases of catarrh, and is sold by all druggists.

Fabric Hangings

are specially suited to libraries and dining-rooms. I'd like to show you some of the newest things in bur-laps and buckrams for two-third effects. There's a softness and richness about them that cannot be had with paper hangings.

ACADIA BUTTER

has been on the market eight years, and during that period the demand has doubled and trebled a thousand fold or more.

It is used by some of the largest consumers in New York and Philadelphia—firms who make Quail the very first requisite in a butter product. It supplies the tables of some of the best hotels at Atlantic City, and has been sold as far north as Canada.

The ACADIA BUTTER we offer you here at home is the same high-grade article that supplies the table demands of the big cities and hotels referred to above. Sold in the same hermetically sealed packages and made by the same faultless process.

If your grocer doesn't keep Acadia Butter, drop us a postal and we will tell you who has it.

DAIRY CREAMERY

WINTER BUTTER MAKING.

Brings a Better Price and More Time for Dairy Work.

As a rule, where allage is used winter dairying has been found profitable as in summer, for with a succulent food as part of the daily ration the flow of milk is maintained nearly economically as when cows are on pasture. The American Cultivator seems to think that on account of cold storage facilities the tendency is to cease winter dairying.

As the summer product will be stored to reach over that period, this is very doubtful. Besides, what is to become of the cows and their milk and cream if the summer product only is to be utilized? Drying the cows off for several months, November to May, would leave on hand a lot of unproductive inverted capital and the cows would require the feed grown on the farm to support. Here are the reasons given by the Cultivator. It says:

"It is possible to store summer butter and bring into market during the winter in a condition when its quality competes easily with fresh made, while the lowest cost, even with storage charges, enables it to be sold at lower prices. Possibly the dairying of the future will tend more to production of the bulk in the spring and summer months and mainly for storage purposes, the market to be supplied throughout the year from the summer make. There will always be a certain demand for fresh made butter, even in winter; just as in the case of eggs, many customers are willing to pay an extra price for the strictly fresh article; yet the tendency in both these specialties appears to move toward an increase of the per cent. supplied from storage."

It is likely that dairymen who do not provide silos and allage for the cows in winter find it much more expensive to carry on the work in winter than in summer, and that if there is a tendency to cease the dairy industry in winter it is with that class and not with those well prepared for it, with allage to keep up the milk flow cheaply.

Value of Skim Milk for Feeding. The tests that have been made in feeding pigs skim milk at the several experiment stations are about in accord as showing its value for this purpose. One of these stations which carried on careful experiments reports results as follows: There were 27 pigs in the feeding trial, averaging 40 pounds each. They were fed 132 days on skim milk and grain and the average gain was 163 pounds. Another lot of pigs weighing 63 pounds each were fed on grain alone, and their average gain was 110 pounds.

These experiments show that pigs fed on grain and milk are enabled to eat much more feed than those on grain alone; those on grain and milk ate 4.24 pounds of dry matter per head daily; the pigs on grain alone 3.93 pounds of dry matter per head daily, and the daily average of the pigs on milk alone was only 2 pounds of dry matter.—Des Moines Farmer.

Detecting Bacterian Milk. It was only a few years ago that a test was devised by which we could discover which one of two lots of perfectly sweet milk contains the undesirable bacteria responsible for certain defects in both butter and cheese. This is called the Wisconsin curd test and is one of the best detectors for locating impure milk. The process of cheesemaking has revealed the fact that curds from dirty milk do not have the firm, solid texture of those made from perfectly clean milk and it has also been noticed that grassy fermentation will develop in curds from impure milk and make a very porous, spongy cheese. Impurities that can not be seen in milk when in its normal liquid condition will become very apparent when a small quantity of it is coagulated and the curd is allowed to ferment.—Indiana Farmer.

Skim Milk for Butter Making. The Department of Agriculture notes a new method of making butter in Great Britain where instead of using water for washing the butter, separator skim milk is used, which has been twice pasteurized. Salted and unsalted butter prepared in this manner contained, respectively, 11 and 13 per cent. of water, the former containing only one-fifth as many bacteria.

Further experiments are being conducted at the British dairy institute and it is considered that the results are sufficiently interesting to warrant calling the attention of butter makers to this simple method of overcoming that difficulty arising from washing butter with water-filled with bacteria.

How to Work Better. Much of the butter for which the makers think they should receive the top price has the grain almost entirely worked out of it, and therefore is not a first class article. Butter should be worked just sufficient to incorporate the salt, and that lightly and daintily, without mashing or smearing.

A careless or ignorant person will always make a failure in the butter industry.

INSURANCE AND ALCOHOL.

Temperance Makes the Best Risk—Immoderate Drinkers Not Taken.

Life insurance companies know that temperance makes the best risk, and as a class live longer than the moderate drinkers as a class from 20 to 50 per cent. A number of actuaries and medical directors have been working on the statistics for several years, with the result in prospect that the total abstainers will soon have policies offered to them at a considerable reduction from the rate which moderate drinkers have to pay. Immoderate drinkers are not taken at all by any of the companies knowingly, though some sober up long enough to get in and then go on as before, the line between moderate and immoderate drinking is not being easy to define. It is for some total abstainers may afterwards throw those restraining principles overboard and adopt more self-indulgent habits, and an effort will be made to provide a remedy for such cases in the terms of contract. The official recognition by the companies that even moderate drinking tends to shorten life is a good argument for the temperance societies and one with a sound statistical basis, which cannot be said for all the contentions they advance.

Guarding Its Interests. The registers and receivers of the United States Land offices in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, New Mexico, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington and Wyoming were instructed recently by the commissioner of the general land office to notify all persons who have heretofore entered, or who hereafter enter, any of the lands which have been segregated under the reclamation act of June 17, 1902, that the leasing of these lands to persons who sell alcoholic liquors, principally to the employees engaged on the government works, will be deemed sufficient cause for the cancellation of the entries.

The officers of the land offices are giving the widest possible publicity to the fact that use of any lands withdrawn under this act, whether they have been entered or are unentered, for the sale of liquor, will be prevented by actions in ejectment, by injunction or otherwise.

This action was taken because of the conditions existing in Nevada, where the government work employs several thousand men. Homesteaders have leased portions of their lands to liquor dealers, and murder and robbery have been common in consequence. The commissioner's decision is likely to correct these abuses, and will undoubtedly prevent their recurrence in other sections wherein the government is about to engage upon similar works.—New York Sun.

THREE OPINIONS ON DIVORCE. Dr. Dix does not find the increase of the number of divorces due to a decrease in average marital felicity. The first inviting cause that he notes is the greater social tolerance of divorced persons—the removal of the stigma which in former generations almost uniformly attached. Dr. Parkhurst thinks a great cause is in the fact that the measurable industrial independence which has been attained by women has resulted in a deterioration of sex quality—that women through the establishment of ideals other than those of wifehood and motherhood, are less anxious to enter matrimony and more willing to leave it. Bishop Potter, like Dr. Dix, thinks that public sentiment is largely to blame, and, like Dr. Parkhurst, that "gradually woman has discovered that she has rights and has proceeded to exercise them." Higher education, he declares, has increased woman's self-

respect and her sense of her own worth. Dr. Dix, however, thinks that the increase of divorces is due to a decrease in average marital felicity. T. BYRD LANKFORD, 303 MAIN STREET, SALISBURY, MD.

What Does It Mean

to let Dividends "accumulate" on a Life Insurance Policy? In many companies it means nothing more than an agreement on the part of the policy-holder, to do without dividends for fifteen or twenty years, and then take whatever dividend the company will be willing to give. Dividends are declared every year in the Mutual Benefit, and the policyholders use them either to help pay premiums or to buy increased insurance. The policies of the

Mutual Benefit Life Ins. Co.

contain special and peculiar advantages which are not combined in the policies of any other company. Examine these advantages before placing your insurance. You owe it to your family to have the best.

Common Colds Are The Cause Of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Every one knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung trouble are aggravated and rendered more serious by each fresh attack. Do not risk your life nor take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful drug and has thirty years of reputation back of it, gained by its cures under every condition. For sale by C. L. Dickerson and G. Hearn.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or cold. Be prepared. Dr. Thomas' Electric Oil instantly relieves the pain—quickly cures the wound.

Wood's Seed Book

FOR 1906

is one of the handiest and most valuable publications of the kind issued. The useful and practical hints contained in the annual issue of Wood's Seed Book make it a most valuable help to all Farmers and Gardeners and it has long been recognized as an up-to-date authority on all

Garden and Farm Seeds, particularly for southern planting.

Wood's Seed Book mailed free to Farmers and Gardeners upon request. Write for it.

T. W. Wood & Sons, Seedsmen, RICHMOND, VIRGINIA.

We solicit your orders direct, for both VEGETABLE and FARM SEEDS. If your merchant does not sell WOOD'S SEEDS.

THE LIFE ASSURANCE POLICIES ISSUED BY THE

Sun Life Assurance Co.

OF CANADA

ARE UP-TO-DATE—because they are absolutely without any "ifs," "ands" or "buts," and can be thoroughly understood by any ten-year-old child.

The rates are low, the guarantees are high, the contracts liberal, and all are backed by an experience of forty-one years of successful, conservative business management

Under Canadian Government Supervision.

If at all interested in assurance, drop a card to the undersigned, and have him call and explain the many forms of protective and investment policies which the Company is selling, without any obligation on your part whatever.

D'ARCY BRINSFIELD, District Manager, ELDERADO, MD.

Marvelous Results

Can be brought about on your farm by the use of

Loose Combination Lime.

The Loose Combination Lime is a standard article, and will always command a higher price on account of its superior quality, and every farmer who uses it to his land will find it in quick and permanent improvement. To those who have used it, it is a well known fact that it is the best and most economical lime for the purpose.

WOMEN'S WOES.

LOCAL Correspondence

FROM ALL SECTIONS OF WYOMING
SENT IN BY THE ADVERTISER'S
REPRESENTATIVES.

ATHOL.

Rev. B. G. Parker, pastor of the new Baptist Church, will on Sunday night begin a series of meetings. The singing service will be omitted during the extra services. The new building is nearing completion and is a gem of beauty, and the best of all is that it is nearly paid for. Mr. Parker's work here has been a success from the start. He has associated with him men and women who are tireless workers for the Master. Such people deserve success. It was Mr. Parker who preached the funeral service of Captain Wm. Cordrey last week. Between the two there was warm friendship.

Mrs. Charles Hutton is not quite so well this week. She has had a serious struggle with sickness.

Mrs. Bertie Lloyd and daughter, Helen spent Sunday with Mr. and Mrs. Lottie Phillips and family.

Miss Ella Graham spent Sunday with Mrs. Hettie Bradley.

Mr. and Mrs. Edward Donoho were the guests of Mr. and Mrs. George Cox Sunday.

Mr. and Mrs. Robert Bailey were the guests of Mr. and Mrs. Charlie Hutton Sunday.

Mr. and Mrs. Johnnie Hutton and daughter, Lillie were the guests of Mr. and Mrs. John Elliott, Wednesday. Misses Manolia and Dora Majors and Mr. Walter Baker of Reeds Grove, were the guests of Miss Lala Lloyd Sunday.

Mrs. Fling, of Baltimore, is visiting Mrs. Deliah Cordrey and daughter this week.

We are glad to report that Mrs. Sarah Majors is better.

Miss Lestita Bailey was the guest of Miss Mary Elliott Tuesday.

Mrs. Nannie Callaway is better. She has been quiet ill.

MARDELA.

On Tuesday night Mr. Wm. J. Engle and Sarah E. Russell were united in marriage by Rev. B. G. Parker in the Baptist parsonage.

Our streets are being shelled. They have for some time past been in bad condition. Some of the roads leading into town have been impassable. The heavy hauling of stave timber has played havoc with our roads. Those using light vehicles were compelled to take to the fields. A desire has been expressed that the authorities of the stave mills have their teams turn at Humphrey's Corner and not come directly through our streets. This would be a great accommodation to our people. If they would do this, then we could finish shelling our streets. Who has the authority to say the word? Let there be a unanimous spirit shown.

Did you see the elopement this week. For the present no names will be given. The male stole a wagon and with his own hands pulled the runaway female to the minister's. They were not united in marriage however as they were both under age. The minister led home the male and gave him into the care of his mother, while a lady took the female back to her mother. The wagon was returned to the owner. All of this happened right here in Mardela Springs. It is not thought that there will be any prosecutions. The parents of each have fully restored the parties and forgiven them.

—Preaching at Hebron M. P. Church Sunday, February 4th., at 1.30 a. m. Preaching at Snetheon M. P. Church, Sunday February 4th., at 3 p. m. Revival services will begin at Riverston M. P. Church on Sunday evening, February 4th., at 7.30 o'clock.

Take Dr. Bull's Cough Syrup in time; you know, cold and cough breed consumption.

The Fruits Of Wise Provision

In youth come home to you in old age. A rainy day is sure to come and you should be sure to provide for it.

START A BANK ACCOUNT and watch it grow. Our methods of making your money grow fully explained if you inquire here.

NATIONAL BANK

ALLEN.

The citizens of this village and surrounding community have been busily engaged grading the Main Street and building new sidewalks in consideration of the donation of shells from the county authorities with which to pave the said street. That is a much needed improvement, and will add much to the pleasure and appearance of our village.

The few balmy days of this week have awakened interest in farming enterprises and many are engaged with preliminary arrangements for their spring crops.

The housewives are getting busy, and are in quest of new strains of stock for early hatching spring chickens. One lady wanted to tie an old biddy on her nest in order to get the banner for early fry. She must be looking for her preacher.

Miss Ethel Malone entertained a number of young people at her home last Monday night and in addition to the many pleasant features of the evening the young friends were invited to try their hands going it blind and pinning the tail to the donkey. Good thing for some of them that her name was not Maad.

The Parsonage Aid Society of Asbury Methodist Church South, was held at the parsonage Friday evening. There was a very good attendance and every one seemed to have a pleasant time.

Our new pastor, the Rev. Jas. W. Baker, is getting the work of the charge well in hand, and seems to be getting a firm hold upon the people. It is sincerely hoped that he will so conduct himself that the people will not have to get hold of him before the year is out. He and his family have already received a good pounding and there are almost daily reminders that they must be good, and yet they say as long as such poundings are laid on with good intentions, and for the good of himself and family, they will abide in the spirit of meekness and forbearance.

Miss Lala Jones, of Quantico, who has been on a visit to the family of Mr. B. F. Messick of our village returned home a few days ago much to the regret of her friends and especially some of our young men, who in the silent moments of reflection were doubtless reminded of the lines "Many an arrow at random sent, Finds mark the archer little meant And many a word at random spoken May soothe, or wound a heart that's broken."

Miss Nina Brewington of Salisbury is visiting her sister, Mrs. Harry Messick.

Miss Caroline R. Hufington has been visiting friends in Salisbury for the past week.

Mrs. B. F. Messick is now in Salisbury visiting friends and relatives and will remain for a week or ten days.

PITTSVILLE.

Mr. A. W. Shockley, our railroad agent has been off on a southern tour this week and Mr. Jones formerly of Parsonsbury is his substitute.

Drummers have been almost as thick as blackberries in June in our town this week. The fine weather is favorable to their business.

One of our Pittsville farmers has had a falling out with Bill Baily and says he will not have any more dealings with him.

Mr. Berry Parsons is still on the sick list. Dr. L. C. Freeny is attending him.

We are very sorry to learn that our popular merchant, Mr. S. H. Farlow has been confined to his home several days this week with grip.

Mr. Thomas Clary, of this town moved to Salisbury Wednesday of this week and expects to engage in the manufacturing of brooms.

A lazy liver may be only a tired liver, or a starved liver. A stick is all right for the back of a lazy man. But it would be a savage as well as a stupid thing to beat a weary man or a starving man because he lagged in his work. So in treating the lagging liver it is a great mistake to lash it with drastic drugs. In ninety nine cases out of a hundred a torpid or sluggish liver is but a symptom of an ill nourished body, whose organs are weary with overwork. Let your liver alone. Start with the stomach and its allied organs of digestion and nutrition. Put them in proper working order, and see how quickly your liver will become active and energetic. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

It is important that the recent interchurch conference placed "the family" as the first of its council's five spheres of action, the others being "social condition," "education," "religious activities" and "international affairs." In the more prosperous parts of London 80 mistresses of households out of every 100 have domestic help. In the East End only 8 families in every 100 can afford household help.

BIRCKHEAD-SHOCKLEY COMPANY

BIRCKHEAD-SHOCKLEY COMPANY.

Great January Reduction Sale!

For a week we have been putting things to rights, turning stocks, searching for short lengths and odd lots, placing ourselves in readiness for days of quick selling. This advertisement contains only a fraction of what we have to offer for your advantage. Of this you may be sure. Every January Sale of the past—and they all have been notable enough—is to be excelled. This is shown in the soundness of the quality offered—the marvelous cheapness of the most desirable kinds. Nothing shall be left behind if prices will sell it. "Past events are present power."

FRUITLAND.

Mr. Joseph Hayman has moved his family to Philadelphia where he will reside for the future.

State's Attorney Bailey was in town on Thursday.

Postmaster Bounds moved this week into a dwelling owned by Mr. A. J. Dalany.

Interesting revival services are in progress at the M. E. Church. Rev. W. W. White is being assisted by Rev. J. W. Hardesty, of Salisbury. Already there have been several conversions and the good work still goes on.

There will be preaching on Fruitland charge tomorrow, Sunday, as follows: Fruitland, 10.45 a. m., Zion, 2.30 p. m., Fruitland, 7.00 p. m.

If The Baby Is Cutting Teeth.

Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

The Bank of England contains silver ingots which have lain in the vaults since 1695.

A fireless steam locomotive the Hohenzollern is being introduced in England by a London and Manchester firm. Over 20 of these are in operation in factories for making explosives mines, chemical works, timber yards and similar situations where absence of sparks and smoke is desired or for intermittent work where this engine costs little to operate.

For Lung Troubles

Ayer's Cherry Pectoral certainly cures coughs, colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. You know it is true. And your own doctor will say so.

The best kind of a testimonial—Sold for over sixty years.

THE HIGHER LIFE
Selected Gems of Thought from Free and Paid of All Ages.

Are You Doing Your Part?
Note the inspiring words: "Thou shalt be Cephia." Jesus told Simon that he should not always be the commonplace, shifting, pillar to post man he then was; but that he should develop an individuality, stalwart, clean cut, granite.

He who told Simon he should become a Cephia has told us that we shall become like himself. We know not what we shall be. We do know we shall come from sin as he is for we shall walk with him in white; as he is, for we shall enter into the joy of our Lord; welcomed home with the same salutation with which the Father greeted His return from earth. "My beloved child, in whom I am well pleased." Thou art not pure; thine eye is red with weeping; thy heart is black with sin; thy hand unskilled at service; thy foot off turning aside from the path of right. Nevertheless, take heart; thou shalt be like him, pure, perfect, glorious, a child of God.

Jesus expects much from you; do not disappoint him. You cannot expect too much from Jesus. He will not disappoint you.—Rev. Robert B. Carson, Presbyterian.

A Positive CATARRH CURE
Ely's Cream Balm
Is quickly absorbed.
Gives Relief at Once.
It cleanses, soothes, heals and protects the diseased membrane. It cures Catarrh and drives away a Cold in the Head quickly. Restores the Senses of Taste and Smell. Full size 50 cts. at Drug Store or by mail; Trial Size 10 cts. by mail.

ACADIA BUTTER

has been on the market eight years, and during that period the demand has doubled and tripled a thousand fold or more.

It is used by some of the largest consumers in New York and Philadelphia.

—Barns who make Quality the very first requisite in a butter product. It supplies the tables of some of the best hotels at Atlantic City, and has been sold as far north as Canada.

The ACADIA BUTTER we offer you here at home is the same high-grade article that supplies the table demands of the big cities and hotels referred to above. Sold in the same hermetically sealed packages and made by the same faultless process.

If your grocer doesn't keep Acadia Butter, drop us a postal and we will tell you who has it.

SWISS INSURANCE RULES

How the Government of Little Republic Protects Its People.

LOCAL COMPANIES LEAD

Only Three American Companies are Transacting Business in the Alpine Territory—Obliged to Deposit Securities With the Government—Quotations Write Fire Insurance.

Supervision over insurance companies operating in Switzerland is exercised by the Swiss federal council, which has power to grant and to withdraw concessions and to appoint the officers of a department known as the federal insurance office, says the St. Louis Republic. Although technically the latter is simply an auxiliary bureau and an aid to the council, this office is in practice the controlling factor of the entire insurance business. It not only investigates the standing and methods of the companies, but also advises the council as well as publishes an important yearly report containing detailed information concerning the companies, extracts from their reports, the names and legal domiciles of the agents and a synopsis of the business transacted by each company.

The six Swiss life-insurance companies write more policies for the Swiss people than all the numerous foreign companies combined. These domestic companies have 26,000 policies in force, amounting to \$60,000,000. Following them come the eight German companies, with 23,000 policies, valued at \$28,000,000; eleven French companies with 19,000 policies, amounting to \$33,000,000 and five English firms, whose 8,000 policies represent \$14,000,000.

The New York Life, the Equitable and the Germania are the only American companies holding concessions. Of these the Equitable ceased operating some years ago, but still has unexpired policies, while the total number of their policies written by the American companies is 7,700, amounting to \$6,000,000. The American companies are obliged to deposit with the government securities or cash, upon which interest is paid, to an amount representing the present net value of all their outstanding policies in force in Switzerland, as well as a further amount of \$10,000. Other companies, both domestic and foreign, deposit only \$20,000 and no further security is required of them. This apparent discrimination against the American companies is explained by the statement of the insurance office, which says that it has no adequate means of ascertaining the legitimate values of the resources of the American companies.

There is a federal fee amounting to one-tenth of 1 per cent. of the yearly premiums on Swiss business aside from the usual income and property tax. In each of the Swiss cantons where business is done a legal domicile must be established by the company, a general agent for the entire country must be appointed, and a copy of his power of attorney filed with the insurance office. Concessions are granted only after sufficient proof of the stability of the concern has been furnished. If the government requires any information concerning a company not contained in its regular tariff, statistics or yearly report, a demand may be made upon the general agent and he is obliged to furnish the details called for, as well as permit examination of the accounts covering all branches of administration.

The publication by a concern or its representative of falsified or untrue accounts, reports or prospectuses is punishable by a fine or imprisonment or both. Should a concession be withdrawn by the government, or a company voluntarily renounce its right to operate, as was the case with the Equitable, the deposited security will be returned only after the company's obligations have been met.

In almost all the twenty-two Swiss cantons fire insurance, excepting on extraordinary risks, is written by the cantonal governments, to the exclusion of private enterprise, and, in most cases, obligatory. The cantons, however, reinsure with private companies, mostly foreign. In the agricultural districts insurance against damage by hailstorms has met with considerable success. The Swiss hail insurance companies appear to be doing a good business. One of them collected premiums to the amount of \$120,000 in one year. A form of insurance called "chomage" insurance, that entitles property owners to reimbursement from loss of income or rent as a result of fire, cannot be contracted without the written consent of the authorities or the company holding fire risks on the property.

The Swiss people are well provided with both insurance and savings bank deposits. The insurance capital represents \$40 for every man, woman and child of the 3,300,000 population of the republic, which is higher than any country in Europe except England. Over \$200,000,000 would be a safe estimate of the funds the Swiss have in the banks to their credit. This is remarkable when the economic situation of the country and the low wages are considered.

For the first time since 1763 the annual meeting of the Society of Friends, the Quakers, will be held this year, outside of London. The "Allurements of London" have, it appears, proved too much for the degenerate delegates of the present day. "Why," said a Quaker of high standing, "Friends, members of old Quaker families, have been known to drive up to the meeting house in motor cars!"

If a parent does too much for a child, the child probably will never do much for himself. It is nature's plan—the same plan that so often

GOOD ROADS AND BUSINESSES

Large Sums Expended for Transportation.

The people of the United States are paying at least \$200,000,000 a year to the bad roads fund. In other words, the excessive cost, the loss of time, the wear and tear on horses, vehicles, and equipment in transporting the products of the American farms, forests, mills and mines to the railroad stations, or to the markets, aggregates more than half a billion dollars each year, says James B. Melkle in Good Roads.

It has been estimated by the Department of Agriculture that the cost of transporting the products of the United States, by wagon, to the railroad stations aggregates more than \$200,000,000 a year, and that practically two-thirds of this sum might be saved by universal good roads. In this country it costs an average of twenty-five cents per ton per mile to carry our products to market by wagon, while in France the cost does not exceed eight or ten cents per mile.

The greatest fault in the present road system is that the money expended is spent very largely upon temporary work, or in make-shift construction. This is necessarily so, because all of the roads must be kept open and passable, even if they are not good. I believe that this condition exists in most of the states of the Union, and as long as it exists, three-fourths of the money expended on roads will be lost. Temporary repairs made in the summer are frequently washed out in the winter, and the work has to be done over again in the spring.

THE PARADISE OF LABOR.
Labor is organized in New York to an extent which is found in no European country, and, we believe, in no other American state. A report of our state department of labor shows that every eighteenth inhabitant of the state is a member of a labor union. We are accustomed to thinking Great Britain as the most completely trades-unionized country in the world; but in that country the ratio of unionists is but one to every twenty-two inhabitants.

ANOTHER AMERICAN INVASION.
The magnitude which has been attained by the American automobile industry is suggested by H. P. Burchell's statement in Outing Magazine that whereas in 1899, practically five years ago, only 50 motor cars were owned in America, the individual owners now number 70,000. Reckoning these machines as costing \$1,000 each, no less than \$70,000,000 has thus been expended for the new vehicles. And the larger part of this sum went for machines of domestic manufacture, inasmuch as the value of foreign machines imported is but \$2,000,000 annually.—Brooklyn Eagle.

THE STATE TREASURY.
We see that New York is being criticized because of a state treasury deficit of some \$6,000,000. On the other hand, there are people who are unwilling at a great rate because Pennsylvania has a surplus of about \$18,000,000. What condition should a state treasury be in to give general satisfaction?—Philadelphia Press.

In a certain Russian town the police have been obliged, according to a correspondent, to confiscate every typewriter in the place. These machines are said to be regarded in Russia as dangerous articles of sedition. They are convenient instruments for the dissemination of literature of which the government does not approve. So every typewriter is registered, its address is known to the police, and it is liable to be arrested on suspicion at any moment.

The modern bullet will place the carcasses of three horses in succession at 500 yards; of four at half the distance, or kill a man after passing through the trunk of a thick tree.

A TRULY IDEAL WIFE

HER HUSBAND'S BEST HELPER

Vigorous Health Is the Great Source of Power to Inspire and Encourage—All Women Should Seek It.

One of the most noted, successful and richest men of this century, in a recent article, has said: "Whatever I am and whatever success I have attained in this world I owe all to my wife. From the day I first knew her she has been an inspiration, and the greatest helpmate of my life."

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has headache, dizziness, bearing-down pains, nervousness, irregularities or the blues, she should start at once to build up her system by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

Following we publish by request a letter from a young wife:

Dear Mrs. Pinkham: "Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, headache and nervousness. I affected my stomach so I could not enjoy my meals, and half my time was spent in bed. "Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, vigor and vitality. Sincerely, Mrs. Bessie Hunsley, 111 South 11th Street, Tacoma, Wash."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hunsley it will do for every woman suffering from similar ailments.

REPRESENTATIVES.

MARDELA.

Now we have had our fun about the movement of last week and will divide the names of the parties. The party was little James Wright, age three, and little Janie Truitt, age three. The wagon taken belonged to little John Armstrong and the preacher in whom this little run-away company came, was Mr. Parker. To have seen these two little interesting tots in their escape would have been enough to cause you to almost split your sides in laughter. Indeed, they quite resisted any interference of outsiders in disposing them of the wagon, and in sending them back to their mothers.

We feel very grateful to the authorities of the State Mill, in not permitting their heavy teams to run on our Main Street. We take off our hats and make a polite bow to these enterprising men.

Mr. George Venables and wife have been visiting their relatives in Maryland this week.

The wife of Rev. Mr. Anderson, a sister of Mrs. A. S. Venables has been visiting her relatives here. Mr. Anderson was formerly located in Sharpstown, but at present is in Delaware, where he is doing a good work.

There was a pretty church wedding on Wednesday night in the new Baptist Church of Adel. The contracting parties were Howard Dell Hatten and Miss Zenophine Cox. Rev. B. G. Parker performed the ceremony. The church was tastefully decorated and filled with guests. They are two young people who are well thought of in the community, and their many friends wish them a happy voyage over the sea of wedded bliss. The bridemaid was Miss Ida Phillips and the groomsmen were Mr. Edward Lloyd.

On account of the extra meetings at Adel, Mr. Parker will on Sunday preach in the afternoon at Mardele Springs at 2.30. He will give a Bible Study on the "Holy Spirit for Service."

FRUITLAND.

An interesting and successful revival meeting has just closed at the Fruitland M. E. Church. The church was greatly revived and there are several valuable additions to the church.

Rev. W. W. White and wife were entertained at tea on Thursday by Mr. and Mrs. Jacob Morris near Zion.

Mrs. D. H. Adkins has been on the sick list for the last several weeks. Though improving, her convalescence is slow.

A beautiful marriage took place at the Adel Church on Tuesday evening. The contracting parties being Mr. Orlando Bounds and Miss Nettie Fields. At 8.30 the bride and groom entered the church and marched slowly up the aisle to the sweet strains of the wedding march which was played by Mrs. W. W. White. At the altar they were met by the pastor Rev. W. W. White, who pronounced them husband and wife according to the beautiful ceremony of the M. E. Church. The bride was dressed in cream silk and looked charming, while the groom wore the conventional black and never appeared to better advantage.

Rev. W. W. White will preach on tomorrow, Sunday, as follows: 8:15 a. m., 10:30 a. m., St. Luke's, 3:00 p. m., Fruitland, 7:00 p. m.

Rev. Mr. Murphy, of Salisbury, will preach in Fruitland M. E. Church at 10:45 a. m. tomorrow.

If The Baby Is Cutting Teeth.

We save and save that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

The youth comes home to you in old days. A rainy day is sure to come and you should be sure to provide for it.

START A BANK ACCOUNT

and watch it grow. Our methods of making your money grow fully explained in our booklet.

ALLEN.

Who said the Ground Hog didn't know anything about the weather? Some of our farmers have had some fine specimens of "ground hog" but they lost sight of the fact that one who is in competition with our weather bureau had not made his annual visit last week when they began their plans.

Our young people have been very anxious for this cold snap to continue long enough to freeze the mill pond over so they may have a sportive turn at skating. Some few of the braver ones tried it yesterday but the ice was rather thin for skating. 57°-53°.

Mrs. Price, of Salisbury, the mother of Mr. Finley Price, and Mrs. Rose Jones, of this village, has been visiting them and other friends during the past week.

Misses Marie Collier, of Washington, D. C., and Mahle Wallace, of Salisbury, have been the guests of the Misses Carrie and Martha Huntington, for several days first of the week.

The new order of service and the new hymnal has been introduced in the Methodist Church here and is meeting with favor and has been highly complimented by all who have attended services since their introduction by our new pastor. The choir of said church is one of the best to be heard in any of the smaller towns and has received many well earned compliments of late.

Mr. Isaac L. Price, Mr. J. B. White, their wives and a little child spent last Sunday in our village much to the pleasure of a large circle of friends and relatives.

Prof. J. Walter Huntington spent last Sunday with his parents.

KELLY.

Mr. and Mrs. Marion Ward and family and Mr. and Mrs. Willie Mitchell spent Sunday with Mr. and Mrs. Goldborough Matthews.

Mr. and Mrs. Joshua Powell and family spent Sunday with Mr. and Mrs. John Shockley.

Mr. and Mrs. Marion Collins and little daughter, Emma, spent Sunday with his sister, Mrs. A. C. Parker, near Salisbury.

Mr. and Mrs. Annius Shockley and family spent Sunday with Mr. and Mrs. E. P. Gordy.

Mr. Eliza Davis spent Sunday with his Uncle, Mr. Enoch L. Freeny.

Mr. Joseph Davis spent Sunday with Messrs. Walter and Fred Collins.

Before the cold snap visited us you could hear the people complaining about the weather being so warm and now you can find them close by the fire.

Delmar, Del., January 30, 1906.

Wash. Camp No. 31, Patriotic Order Sons of America, was organized and installed with 51 members, 48 present, by State Organizer, J. T. Cross, assisted by State Pres., C. E. Redeker, State Chap., Rev. F. S. Cain; Vice Pres., B. J. Cross, of Wash Camp No. 6, of Wilmington; F. N. Cole of Washington Camp No. 18, Wilmington, Del. and Rec. Sec. E. W. Cross of Wash. Camp No. 6, of Wilmington, Del. The following officers were duly installed by State President, C. E. Redeker:

P. P., Geo. T. White; P. J. D. Mills; V. P., Curtis W. Spicer; M. of F., T. E. Hearn; Rec. Sec. C. J. Calhoun; Asst. Rec. Sec. Harry S. Purnell; Fin. Sec. W. Lee German; Treas. H. J. Calhoun; Con., Doda Hearn; Asst. Con., Seth J. Ellis; Guard, H. T. Calhoun; Chap., J. P. White; F. Sent., Earl B. Elliott; L. Sent., Geo. W. Sprague; Trustee, six months, W. E. German; Trustee twelve months, Geo. T. White; Trustee eighteen months, C. H. Givans; Capt. of Degree Team, J. P. White.

The Camps meeting place, Masonic Hall. Time of meeting every Tuesday evening. C. J. Calhoun, Rec. Sec.

A grain of sand in the eye can cause excruciating agony. A grain of pepper in place of the grain of sand intensifies the torment. The pain is not confined to the organ affected. The whole body feels the shock of that little irritating particle. It is so when there is any derangement or disorder of the delicate womanly organs. The disorder may seem trivial but the whole body feels it. The nervous system is disordered. There are fretfulness, irritability, sullenness and depression of spirits. The general health of woman depends on the local health of the organs peculiarly feminine. Remove the drains, ulcerations, bearing down pains, and other afflictions of woman, and the whole body feels the benefit. Dr. Pierce's Favorite Prescription is a specific for the diseases that undermine the strength of women. It is free from opium, cocaine, and other narcotics, poisons which enter into many other preparations for woman's use. It makes weak women strong and sick women well.

What is cold in the head? Nothing to worry about if you treat it with Ely's Cream Balm as soon as you begin to sneeze and snuffle. Neglected, the cold may grow into catarrh, and the air passages be so inflamed that you have to fight for every breath. It is true that Ely's Cream Balm cures catarrh, promptly and certainly. But you know the old saw about the ounce of prevention. Therefore, use Ely's Cream Balm as a preventive of the cold always.

BIRCKHEAD-SHOCKLEY COMPANY

DICTATORS OF MODERATE PRICES.

Fashionable Silks & Dress Goods: Spring's New Styles

It is just the opening of the season, and to see a stunning display of stylish Dress Goods like this will tell you how industriously we have planned and worked to excel the flattering success of the past season. The first consideration is quality; the second is, the price must be low in order that we may make more quickly new friends.

Wealth Of Washington.

A recent compilation of the records of Fairfax county, gives some interesting data relative to the wealth of George Washington.

Washington inherited Mount Vernon from his brother, Lawrence, in 1759, but did not commence to reside there until 1759, at the age of 77 years. At that time he owned in Virginia and other states 50,795 acres of land, besides several thousand acres in Fairfax county. The magnitude of his farming operations in 1787 can be imagined from the fact that he had 850 acres in grain, 400 acres in oats, 700 acres in wheat, and 700 acres in barley, buckwheat and other cereals. He owned 140 horses, 112 cows, 236 oxen, 600 sheep and a large number of hogs. He employed 250 negro hands.

In 1780 the records show that he slaughtered 150 hogs for the use of his family and servants.

Why Refer
to Doctors

Because we make medicines for them. We tell them all about Ayer's Cherry Pectoral, and they prescribe it for coughs, colds, bronchitis, consumption. They trust it. Then you can afford to trust it. Ask your own doctor.

SILVER WEDDING ANNIVERSARY

of Mr. and Mrs. Harry L. Brewington Celebrated Last Night. Handsome Floral Decorations, And Much Good Wishing.

Mr. and Mrs. Harry L. Brewington celebrated their silver wedding anniversary at their home in Salisbury, Friday evening. Over two hundred of their friends were present to offer congratulations and best wishes. The handsome home of Mr. and Mrs. Brewington was tastefully decorated with flowers and palms, the color scheme being pink and white. All the omelette tables were covered with pink shades, while the tables were decorated with brides-maid roses and carnations. Asparagus racemosa were entwined around the electric cords and columns of the mantels.

A large floral ball of white carnations with the figures 1886 and 1906 beautifully worked in pink carnations was suspended in the drawing room, while the entire bay window was banked with palms, asparagus and cut flowers making a handsome background to the reception committee. Music was furnished by Prof. Weber of Baltimore and Prof. White and Kennerly of Salisbury. Refreshments were served by Carole Phillips and consisted of fried oysters, salad, pickles, olives, fancy ices, cake, bonbons and coffee.

The reception committee were as follows: Drawing room, Mr. and Mrs. Harry L. Brewington, Sen. and Mrs. M. V. Brewington, Mrs. Samuel Sterling of New York, Miss Louise Brewington of Hannibal, Mo., Mr. Walter Brewington, Library, Mrs. E. A. Toadvine, Mrs. B. F. Gayle, Misses Maria Ellegood, Nancy Gordy, Mrs. W. S. Gordy presided at the Punch Bowl.

Mr. and Mrs. Brewington were married in Jersey City, N. J., Feb. 16, 1881 by the late Rev. J. H. B. Brooks who was pastor in Salisbury at the time. Mrs. Brewington was the daughter of the late Josiah Johnson, who was at one time a prosperous merchant in Salisbury. Mr. and Mrs. Brewington were the recipients of over 180 very handsome presents.

Unclaimed Letters.

PRACTICAL OBSERVATION OF GOOD NATURAL ROADS

Leads To The Deduction That The Eastern Shore And The Whole Coastal Plain Of Like Conditions Has Remedy For Bad Roads In Its Own Soil. Clay And Sand Properly Proportioned And Applied As The Solution.

Messrs. Editors:—The Road question is an important one. A community is made or unmade by the condition of its Public Roads. This being so it seems strange that nature should not provide some material for so important a particular for every community. I believe she has done so for this if the materials are properly utilized. To undertake to import material foreign to our products for such purposes can only be done for very limited distances as the cost is entirely too great and the money goes to the transportation companies. Why not find out if possible the Natural Good Road for this locality, and which can be built from our own soil and materials.

Bad Roads.

To any one at all acquainted with the bad roads in Wicomico County they will admit they are of two kinds: 1st, when there is too much sand and 2d, when there is too much clay. The one is knee deep in sand in summer, the other knee deep in mud or mire in winter. This broad division of course assumes that both are properly drained. All naturally good roads in the county are a combination of the two. I will venture to say that a sand-clay road formed by nature is the best road and the cheapest road in the world, and not only that, the most durable and best for the hoofs of animals. Where I was born and raised the roads are—I was about to say absolutely perfect—but at any rate very nearly so except they need shaping for drainage. They are of about equal parts of sand and clay. The clay keeps them from running in summer and the sand prevents any mire in the winter months. Any one who knows this section or parts of the county where this character of soil obtains can verify this. Parts of Spring Hill neighborhood for instance, and anywhere in the county, little stretches of this sand clay character may be found on all our principal roads. I say it is the best road, probably in the world for it has sufficient elasticity to be pleasant both to horse and man, and yet tough enough to prevent any appreciable wear and tear by ordinary traffic.

Good Roads.

Now if this kind of road obtains naturally on this kind of soil, what might we not expect from artificially constructed roads, when there is a thorough blending of the two elements in scientific manner. No material costs absolutely nothing. Beds of clay and coarse sand abound on all our principal roads throughout the county. All that is to be done is proper preparation to insure drainage by raising and rounding of the bed, the application of the sand and clay after thorough mixing to the point of saturation and to a depth of probably twelve to fourteen inches.

Are No Experiments.

These roads are no experiment. They are in practical operation in the States South of us, as firm as macadam, and run from five to ten years without repairs of any kind, and are smooth without ruts. The Department at Washington recommend the sand and clay to be thoroughly mixed and "puddled," before applying, forming I should suppose a mass about the consistency of an ordinary plaster. But a letter from Columbus, S. C., by Mr. S. B. Owens, reporting on the subject to the Department at Washington would seem to indicate for his locality entire success with much less trouble. The letter is as follows:

What is Being Done.

"In reply to your letter of the 12th, last, requesting a detailed account of my experience in building sand-clay roads in this (Richland county) I will say that the necessary quantity of sand on clay roads or clay on sand has to be determined by experiment. When the road has been properly graded and the road bed is of sand foundation, the clay is spread evenly over the surface to a depth of from four to six inches, the depth depending on the percentage of sand in the clay. If the road is of clay foundation, the sand is spread on a little thicker—say from six to eight inches. The clay or sand is simply spread on, not mixed, and the mixing is done by travel over the road which is not interfered with while the road is in course of construction. I find after experimenting that sand on a clay foundation does not give as good results as clay on sand on account of drainage being inefficient under the road bed—the clay not being as porous as the sand.

As to the durability of the roads treated in this manner I will state that roads which were built five years ago are in as good condition now, as when built, and in some instances better. Of course the roads have to be run over occasionally and repaired which is quickly and easily done. Sometimes when there is much travel over the roads small holes will wear in them, owing to the lack of clay or sand at that particular point. I find this to be the case near Columbia where travel is necessarily greater than in the remote sections of the county. There are some roads in the county constructed five years ago that have had no repairs, and are still in first class condition. We have about 400 miles of road built by the sand-clay method out of a total of 650 miles in the county. These roads are giving perfect satisfaction and have stood the test of hard rains and constant travel. The cost of constructing roads by this method depends on the amount of grading done and the distance the sand or clay has to be hauled. The cost of repairs is very slight.

Should Be Thoroughly Mixed.

On the other hand W. L. Sparre, Special Agt. Public Road Inquiries believes in thorough mixing before applying. He says: "Numerous experiments have been made with varying results, but all indicate that the essentials to success in sand-clay road building are 'puddling' and saturation. What is meant by puddling or mixing may be clearly understood by anyone familiar with the operation in the process of brick-making. The clay must be rendered homogeneous and this can be done only by the addition of water during the process, until the clay becomes plastic like dough. The second essential is the addition of sand to the point of saturation. Again he says on how to use the material. 'The first step should be to make the road bed at least 20 inches above standing water in the ditches. This must be carefully attended to when drainage is poor. Possibly more depends upon the sand selected than the clay. The coarser the sand the better the road will stand. If the road shows a tendency to break in dry weather more clay should be added. On this point he further says:

Street Tens Up—And Cause.

"On one occasion I saw a street being torn up for macadamizing because they said the sand-clay mixture failed to give satisfaction. The street was from side to side alternating holes and ridges and practically worthless. When the material was torn up it could be observed that at least 50 per cent of the clay was in lumps from the size of an egg to that of a man's head just as digged from the clay bank and dumped upon the street. The trouble was too little sand, no attention to the mixing when the clay was soft and plastic. When ridges and holes began to form more sand should have been added and all high places leveled to conform to the general contour of the street's crown. By this means uniformity of mixture would result and if a sufficiency of sand to saturate the clay 10 inches had been added and a good crown given this street, all the traffic customary on such thoroughfare would have been easily accommodated, without mud or inconvenience.

Conclusions Arrived At.

The conclusions he arrives at he says: "The building of sand-clay roads has passed the experimental stage, and it is no longer a question of doubtful procedure. The important things to be borne in mind are thorough mixing to the saturation point, and then properly shaping and rolling the road. This mixing is usually done by the travelling public. This is the critical period in the construction of a sand-clay road, because care must be taken to secure an even amount of puddling, so that all the lumps of clay shall be broken and saturated with sand to a depth of 8 to 10 inches. If this can be done and the road is properly crowned, as it dries, there can be no doubt about the results being eminent satisfactory. This mixing might be done by the use of plows and harrows, when the clay is wet, but it is customary to let teams and vehicles accomplish it. It is true that the condition of the roads become worse for a while during the puddling operation, but after this effected and sufficient sand has been added relief is permanent."

Cheaper Than Macadam or Shale.

Whether or not we should take Mr. Owens' plan and let this mixing be done by the 'Public' or have the sand torn up by the direction of an expert, I cannot say, but I think it is worth a trial.

THE ELK'S BAZAAR

In Readiness For Its Dates Next Week. Press Committee Divulges A List Of The Attractions.

Beginning Wednesday, February 22nd, The Elk Bazaar will continue until Friday, February 24th. There will be many novel features to attract the eye and the pocket. Among these will be an "Art Gallery" introducing many pictures of note.

The great studies of the Italian and Dutch writers will be reproduced in tableaux by many of our clever and talented Salisburians.

Another attractive feature will be a real "Japanese Tea Garden," where under the cherry blossoms dainty little Japanese maids in Geisha costumes will serve refreshing cups of tea. The Tea Garden will be open each day at five p. m.

The immortal George Washington in powdered wig and knickerbockers with his time honored hatchet will stand beside the traditional cherry tree and out from its bending boughs the luscious red cherries which unlike the original contain a prize in each package for the nominal sum of five cents.

Tobacco! "Oh, gentle weed that doth soothe the weary hours."—You can find me gentlemen at this bazaar in your special brand. Look for my sign. "I build my castles in the air. They end in smoke, but I don't care."

If you—fair ladies, will come to a little octagonal canopy in the centre of this wonderful you will find all the dainty and pleasing articles for my lady's boudoir. It is a charming booth known as "Lingerie and Negliges."

Fancy work, the mere mention of which means enchantment to the feminine eye will be displayed at another booth. Novelties in all kinds of dainty needle work will be on sale. Appurtenances to the practical house wife are a necessity. Come to the apron booth, where a select assortment of all kinds in gingham and in white goods are for sale.

"Sweets to the Sweets." Come to the Candy Booth, where the most delectable of fancy bonbons and home made candies will please the taste of old and young. Over in the corner near The Tea Garden you will find a little tent. Walk into this and have your fortune told by the most distinguished and reliable of gypsies, who for the small sum of one dime will reveal to you hidden truths and mysteries of the future.

"We can live without love. What is passion but pinins, But where is the man. Who can live without dining."

And now last but not least comes the supper room: oysters in all styles will be served, also ham, salad, biscuits, loaves, cakes and coffee. A noon day lunch will be served quickly and promptly each day. Those who have kindly promised contributions other than cooked eatables will please send them to the solicitors to whom they were promised on Monday, February 19th. Contributions of cooked eatables will be received Wednesday morning after nine o'clock at the Masonic Hall.—Press Committee.

Parish-Moore.

An unusually pretty home wedding was solemnized Wednesday evening when Miss Mary Willbank Moore, daughter of Mr. and Mrs. J. Allen Moore, was married at the home of her parents, 378 St. Paul street, Baltimore to Mr. Ross A. Parish.

The ceremony was performed by Rev. H. Frank Ball, pastor of First Methodist Church, and took place in the parlor which was tastefully decorated in green and white. The bride entered with her father, by whom she was given in marriage. She was attired in a gown of white lace over chiffon, and her hair was caught up with orange blossoms. She carried a bouquet of lilies of the valley.

A reception followed the wedding, attended by the relatives and immediate friends of the couple. After an extended wedding journey Mr. and Mrs. Parish will make their home in the Ontario Apartments, Washington.

It will be recalled that Miss Moore was a visitor in Salisbury last summer, when she was the guest of the Misses Humphreys, Broad Street.

and that they can be built without appealing to the transportation companies and sending good money away that might be used to advantage at home.

Bread Scope of Country for Clay and Sand.

The whole coastal plain from Maine to Florida is of the same general formation with alternate deposits of clay and sand. Attention should be directed to the Natural road for this section. What is it that makes our good roads? It is undoubtedly clay and sand. It is manifestly impossible to build extensive roads with imported material. The expense is prohibitory. There is no good reason why the same general conditions do not obtain in all this coastal plain. If the above theory is correct the means of our city would be saved today with a small built road.

THE PROPOSED BONDING OF THE CITY OF SALISBURY

In Behalf of Improved Streets. Mr. Ellegood Holds That The Cost Of Paying Should Be Borne By City And Abutting Property Owners In An Equitable Proportion.

Editors Advertiser:—Mr. Geo. W. Bell was undoubtedly correct in saying the abutting property owners should pay a part of the cost of paving the streets. In this he is supported by reason and the universal custom; some cities going to the extent of making the abutting owners bear all the expense. Los Angeles, California is regarded as one of the most progressive cities in the United States. In 1904 I noticed nine expensive pavements being laid and was informed by the abutting owners that they had to pay the full cost to the limit of the street car line, the Street Car Company paving between and two feet on either side of their rails.

To be certain that my information was correct, I wrote to the Clerk of the City Council who replied that my information was correct and that it is still the law.

The constitutionality of such taxation has been too long and too often decided by the Court of Appeals to be open to question. In the proceedings, due regard must of course, be paid to the charter powers of the city; and the ordinance in pursuance thereof and all proceedings under it, must be in strict accordance with legal principles governing such cases. The Baltimore City charter of 1896 gives the city power to provide "by ordinance for grading, shelving, travelling, paving and curbing, or for reggrading etc., of any street, lane or alley in said city, or part thereof, . . . and also for assessing the cost of any such work in whole or in part, upon the property bounding upon such street, lane or alley, or part thereof, according to such rule or basis as it may determine and for collecting such assessments, etc."

The reason of the rule upon which the justice of it is founded, is that paving sidewalks and streets, is a local as well as a public improvement, and that the property which is benefited by an improvement should pay for it. This rule is supported by the common practice in cities, by the courts and by what is considered by the courts and cities to be just. The charter powers of the Act of 1908 limits the amount to be assessed to not exceeding one half of the cost. It seems just that this should be apportioned according to the value of the property. A vacant lot having no rental value should not be assessed as much as one of like size and value, with improvements that brings an annual income of \$100.00, nor that as much as one with more valuable improvements. Nor should a lot valued at \$10.00 a front foot pay as much as one assessed at more. It seems that this direct assessment per square yard should be on the same principle as the general assessment, that is, on a value basis.

The suggestion that this charter power be repealed and a bonded debt of \$50,000.00 be incurred for the streets, and abutting owners thereby relieved, was a great surprise to many people. It is well to see how far that \$50,000.00 will go independent of the merits of the question. "Who of you intending to build a tower sixtith not down and contain the cost and see if he have sufficient to finish it?" was the suggestion of the greatest of counsellors. Such a debt means \$5000 or \$6000 annual interest at 4 per cent or 5 per cent. If the city should levy only \$100 each year on the principal, that would take 50 years, or the burdening of two generations of our descendants. About the time the second generation comes on, they will have as an inheritance, streets with old streets partially worn out, and many streets unpaved if not paved, proved. This bonded debt equals 50 per cent of the assessed value of city property, which is about up to its market value. Are our capitalists raising their surplus into real estate? If not, why?

The State Constitution forbids the General Assembly to contract a debt without providing an annual tax to pay interest and to discharge the principal within 15 years from the time of contracting the same. Municipal ownership of public service corporations is a growing sentiment. While it is proper to bond our town, it should be done with regard to future as well as present demands, and with due regard to the ability of tax payers.

The spirit of public improvement is an excellent motive power, but like other motive powers, it needs a governor.

As I signed a petition consenting to be taxed with other owners for one half the cost of paving North Division Street I am still willing to do so. I feel that I may say that I write to promote the street paving enterprise, and not to hinder it, as I believe will be the result if the proposed bonding of the town for all the cost becomes a law.

J. E. E.

Tri-County Teachers Institute At Ocean City, Aug. 27—Sept. 7.

At the Tri-County Teachers' Institute held last Saturday it was decided to hold the next Institute at Ocean City, August 27 to September 7.

The plan of work will be on the same lines as those followed last year and be divided in sections as follows: Primary and Advanced Teachers, and General Sessions. Advanced Section will take up Pedagogy, Mathematics, Science and Supervision; the Primary Section, Penmanship, Arithmetic, Vocal Music, Elementary Language, Reading and Construction work. Miss Helen Parkinson of the Wicomico High School faculty was asked to take charge of the instruction in music, which will be a feature of the program. The securing of instructors and the arrangement of the program was left to the judgment of Mr. Bonds.

The Tri-County Institute is now a union of Wicomico, Somerset and Worcester counties with a possibility of Dorchester's joining. Those taking part in Saturday's proceedings were County Superintendent E. O. Bonds, W. H. Dashiell, of Somerset, R. W. McMaster, of Worcester, and State Supt. M. Bates Stevens.

—Miss Martha Leonard who was operated on at the Peninsula General Hospital is able to be out again.

Royal Baking Powder Absolutely Pure

Made from Pure Grape Cream of Tartar

In baking powder Royal is the standard, the powder of highest reputation; found by the United States Government tests of greatest strength and purity.

It renders the food more healthful and palatable and is most economical in practical use.

Housekeepers are sometimes importuned to buy alum powders because they are "cheap." Yet some of the cheapest made powders are sold to consumers at the highest price.

Housekeepers should stop and think. Is it not better to buy the Royal and take no chances—the powder whose goodness and honesty are unquestioned?

Is it economy to spoil your digestion by alum-phosphate or other adulterated powders? save a few pennies?

Entered at the Postoffice at Salisbury, Md. as Second Class matter.

STREET IMPROVEMENT.

Altho it is generally conceded that the city of Salisbury should issue bonds for the improvement of the streets, there seems to be a difference of opinion as to whether the town should assume the entire cost of street improvement, or the property owners along the streets to be paved or improved, should not bear part of the cost. It would seem that the benefits to be derived from better streets would not apply equally to all tax-payers. While the indirect benefits would apply to all in the increase of business etc., yet the property along the streets paved would also, by reason of their location derive direct benefits therefrom, and it seems only fair that they be assessed for these directly. This assessment should not be made on the number of feet fronting on a certain street, but should be put on the value of the property itself. A law that would leave it in the hands of the council to say what streets should be paved, and give them the power to tax all property owners a certain per cent—or all—for benefits, would seem to be a fair one to pass to enable us to put our streets in decent order.

Total Membership of U. S. Methodist in 1905.

Members, Editors:
In reading the article in last week's Advertiser on "The Future of the M. E. Church South," copied from the Baltimore Southern Methodist, it occurred to me that it would be interesting information to your readers if the membership of all the Methodists in the United States were given for 1905 in their order. This I do from a statistical table published in the Christian Advocate, New York and compiled by H. K. Carroll, L. L. D., who was in charge of the Government census of churches in 1900.

Methodist Episcopal	3,910,779
Union American M. E.	18,000
African Methodist Episcopal	842,023
African Union M. E.	3,887
African M. E. Zion	569,306
Methodist Protestant	188,894
Wesleyan Methodist	17,909

Evangelist Missionary	8,014
Total	6,498,815.

The above figures do not include the communicants of the various Methodist denominations in the Foreign Field, but only for the United States. It would be interesting information to give the statistics of all the denominations in the United States, but it would make the article too lengthy.

John L. Stranghan,
Tuxedo Park, Baltimore,
February 15, 1907.

"Penny" Moves Offices of Delaware Division to Wilmington.

The headquarters of the Delaware Division of the Pennsylvania Railroad was removed from Clayton to Wilmington Wednesday afternoon. A special train carried the effects there. The officials who will now be stationed in Wilmington are Superintendent R. L. Holliday, Trainmaster, J. B. Book, Assistant Engineer, J. H. Haddenham and Division Operator B. F. Smith, with their respective assistants. In all 22 men were transferred. The telegraph operators remained at the old headquarters until Thursday when they too, were removed. Owing to a scarcity of residences in Wilmington, some of the officials will be compelled to travel back and forth from Olney temporarily.

SILKMAN.

Mr. Ernest W. Silsman, of Whyanland, will make application for admission into the Wilmington Conference at its approaching session.
Mr. Cooper, who was recently married and who has recently opened up a home at Whyanland will soon move with his wife into his new home at Whyanland.
Miss Church having undergone surgery and improvements will be re-opened with appropriate services and conducted by Rev. H. A. Dulany of Salisbury on February 24th.
Rev. W. W. White will preach on "The Love of God" at Salisbury, Md., on Sunday, Feb. 25 p. m. at 8 o'clock.

LARGE FAMILY RE-UNION

Under Parental Roof in Delaware. All The Children Living At Golden Wedding Anniversary.

Mr. and Mrs. Uriah W. Dickerson, of this city attended the Golden Wedding Anniversary of Mrs. Dickerson's parents, Mr. and Mrs. Robert F. Godfrey at Millsboro, Del., on Tuesday. The old people were caught completely by surprise, and were overjoyed, as it had been arranged to have them absent until the children had arrived at their home and were in full possession.

Soon there was such a house warming as had not taken place in the family since far earlier days and a happy re-union by the parental fire-side. Ranged round the large dining table at noon Tuesday a rare old-time dinner was heartily partaken of. Last, a strong prayer that touched all deeply by its fervency, and good will was offered by Mrs. John Bassett, one of the guests present.

Almost phenomenal to relate, all the children of which there are nine, are living, as are their wives and husbands. They are Mr. Charles Godfrey, of Millsboro, Del., Mr. Harley Godfrey, of Jersey City, N. J., Mrs. U. W. Dickerson, of Salisbury, Md., Mrs. Wm. T. Parsons, and Mrs. John W. Gordy, of near Snow Hill, Md., Mrs. Levin T. Nicholson, of Millsboro, Del., Mrs. John M. Moore, of Showell, Md., Mrs. M. Murray, of Millsboro, Del., Mrs. Nut Russell, of Bridgeville, Del. These were all present at the re-union except Harley, who was unable to attend. Six of the grandchildren were there, the other guests being Mr. and Mrs. John Bassett, of Georgetown, Del. Besides the nine children of Mr. and Mrs. Godfrey, there are twenty five grandchildren and five great grand children.

Proceedings Of County Commissioners At Tuesday's Session.

At Tuesday's meeting of the County Commissioners, the Sharptown Bridge question over the Nanticoke was taken up, and it was decided that if the people of Sharptown would subscribe one third of the cost, as they would receive a larger sectional benefit, the Board would go farther in the matter. The Commissioners approved the action of President Cooper in committing Sydney Adams to the Maryland Hospital for the Insane. An order was passed releasing Virgie Bratten from the Alms House and delivering her to the Florence Crittenden Home in Baltimore.

Mr. Wright reported on the work done on Sharptown road and the bill of Knowles & Taylor, amounting to \$55, was ordered paid.

Mr. A. J. Benjamin, superintendent of the B. O. & A. Ry., appeared before the Board and informed the Commissioners that oyster shells could be furnished by his road for improving the public roads by paying cash for same. The Treasurer was authorized to pay all bills for shells on presentation.

The road supervisors of Sharptown District were ordered to close the road over the old Cooper mill dam until needed repairs are made. Mr. Wright was instructed to have the repairs made as soon as possible.

Rev. Dr. Holloway made a report to the Board of the cost of the new road along the river to Tony Tank, and reported same completed.

—Mrs. D. N. Gilbert, of Easton, is a guest of her parents, Mr. and Mrs. T. J. Hayman.

SEED TIME

The experienced farmer has learned that some grains require far different soil than others; some crops need different handling than others. He knows that a great deal depends upon right planting at the right time, and that the soil must be kept enriched. No use of complaining in summer about a mistake made in the spring. Decide before the seed is planted.

The best time to remedy wisting conditions in the human body is before the evil is too deep rooted. At the first evidence of loss of flesh

Scott's Emulsion

should be taken immediately. There is nothing that will repair wasted tissue more quickly or replace lost flesh more abundantly than Scott's Emulsion. It nourishes and builds up the body when ordinary foods absolutely fail.

We'll send you a sample free.

Presbytery Of New Castle.

The next stated meeting of the Presbytery of New Castle will be held at Lewes, Tuesday April 17th, at 2 P. M. Rev. Bonifant Selley, Jr., having been dismissed from the Presbytery while Moderator thereof, will doubtless by courtesy be invited to preach the sermon. Commissioners will be elected to the General Assembly, which will meet at Des Moines, Iowa, May 17th, 1906. Other important business will come before the meeting, among which it is expected there may be calls from several of the now vacant churches.

Salisbury Athletic Club Makes Announcement.

Our club is now ready for any member who wants to use it. We are equipped with reading room, bath and locker room and gymnasium, which we claim to be the best that was ever in Salisbury. Our bath is complete with shower, hot and cold water.

—Mr. Wm. M. Cooper, President of the Board of County Commissioners, attended the good roads meeting at Baltimore and Annapolis this week.

—The Wilmington Methodist Episcopal Conference will convene on Wednesday, March 14th, 1906, at the Methodist Episcopal Church, Pocomoke City.

—Mrs. Martha Barkley, one of the oldest residents of Salisbury, died Wednesday morning about 74 years of age, at 3 o'clock, at her home on East Church Street. She is survived by one daughter, Mrs. Lucy Thoroughgood, of Salisbury. Funeral services took place Thursday afternoon at 4 o'clock at Fruitland.

A number of Master Denwood Mitchell's little friends gave him a surprise party Thursday evening at his home on Newton Street in honor of his sixth birthday. Refreshments were served to the little guests.

—Messrs. R. E. Powell & Co have bought the three story brick building formerly belonging to Fowler & Timmons, adjoining their present store, from Messrs. Carey & Brookhead, the late owners. After taking possession, which will be within the next sixty days Messrs. Powell & Co. will make modern improvements and appoint it for a large department store in connection with their present place. Arches will be made where the wall now divides the two buildings, and sufficient room will be obtained to give the firm space to accommodate their large business.

Mortgagee's Sale OF A HOUSE and LOT IN NANTICOKE DISTRICT.

Under and by virtue of a power of sale contained in a mortgage executed by Noah T. Dashiell to the Wicomico Building and Loan Association, dated October 18, 1897 and recorded among the Land Records of Wicomico County in Liber J. T. No. 16 folio 384, default having been made in said mortgage, I will offer at public auction in front of the Court House door in Salisbury, Maryland, on

Saturday, March 10th,

1906, at 2 o'clock p. m., all that house and lot situated in Nanticoke District, Wicomico County, Md., on the Southwest side of a private road leading from John Wright's store to William Heath's store, adjoining the lands of George F. Wright, containing 1 1/4 acres more or less, which was conveyed to the said Noah T. Dashiell from E. J. Stigwart by deed dated Oct. 18, 1897, being the same property which was conveyed to the said E. J. Stigwart from John B. Robertson and Wife.

TERMS OF SALE:—Cash. Title papers at expense of purchaser.

JAY WILLIAMS,

Attorney Named in Said Mortgage.

ORDER NISI.

Alfred O. T. Dykes, George Dykes, et al, versus Elias E. Vincent et al.

In the Circuit Court for Wicomico County in equity No. 1898, January Term, to wit, February 14, 1906.

Ordered that the sale of the property mentioned in these proceedings made and reported by Alfred O. T. Dykes, Trustee, be ratified and confirmed, unless cause to the contrary be shown on or before the 1st, day of April next. Provided a copy of this Order be inserted in some newspaper printed in Wicomico County, once in each of three successive weeks before the 15th, day of March next.

The report states the amount of sales to be \$2170.00.

Miss Ola Day gave a beautifully appointed dinner of twenty two courses, Wednesday evening, in honor of her guests, Misses Aline Short, of Georgetown, Del., Emma Parsons, of Parkley, Va., and Helen Chaffinch, of Eastern, Md. The color scheme of the decorations were in red and white, carnations being used very effectively.

Mr. George Coloma, an employee of E. S. Adkins & Co., met a sad and sudden death there Monday morning. He was feeding one of the large rip saws, when a board became wedged, causing the saw to throw a piece back with great violence, striking him in the abdomen. He was 50 years of age and leaves a wife and several children.

Delegate Adams of this county has offered a bill in the Legislature regulating the discounts allowed on taxes collected by the County Treasurers. Under this law the discounts are cut out for August and September, and the only discounts allowed is one per cent. for taxes paid during the months of October or November. This will bring the discounts allowed on taxes down to the legal rate of interest.

About twenty of Mr. and Mrs. B. F. Kennerly's Newton Street friends gave them a surprise party last Monday evening at their home on Elizabeth Street. Games and charades were indulged in, after which all were invited into the dining room to partake of the fruits, cakes and bon bon with which the table was laden. All expressed themselves as having spent a very enjoyable evening.

It is not the same old "music" when you come to either Lacy Thoroughgood or James Thoroughgood's for hats. We're always something new, now we have the Haver's Hat and we have them for \$2.00 as well as \$3.00. You've always paid \$3.00 before. We're sole agents. We've got the new Spring fashions. Try Thoroughgood for your new hat.

The Valentine Tea given by the Lady Board of Managers of the Hospital on Tuesday afternoon at the home of Mr. J. E. Ellwood, North Division Street, was a success, both socially and financially. The house was attractively decorated with hearts and flowers. A very good musical program was rendered after which refreshments were served. About \$35.00 was realized.

A number of the Salisbury young people gave a very enjoyable surprise party to Rev. and Mrs. James Coloma, of Princess Anne on Monday evening leaving Salisbury on the seven o'clock train and returning on the midnight express. The party included: Mr. and Mrs. G. F. Sharpley, Mr. and Mrs. E. O. Fawcett, Mr. and Mrs. E. O. Williams, Mr. and Mrs. John Holland, of Princess Anne, Misses Elizabeth Collier, Pauline Collier, Nannie Gordy, Alice Toddine, Mae Sirman, Maria Ellwood, Victoria Wallis, Dr. W. G. Smith, Messrs. Raymond K. Train, J. M. Lewis, O. E. Laws, W. S. Shepard, H. W. Rarick, S. P. Toddine.

A number of the girls of the younger set gave a delightful encore at the home of Miss Louise Perry on Wednesday evening. The card room was beautifully decorated with hearts and other emblems significant of good old St. Valentine. The prizes were won by Miss Louise Perry, Miss Gene Leonard, Mr. Homer Dickerson and Mr. William Phillips. Those present included: Misses Louise Perry, Gladys Moore, Bessie Trader, Ora Dickerson, Edith Gentry, Hazel Moore, Elsie Moore, Mary Lowe, Louise, Edna, Arlene Deakins, Lucille Dickerson, Gene Leonard, Mary Moore, and others.

HIGHER GRADE FLOUR.

GUARANTEED.

Phillips Brothers, with the assistance of their miller Mr. George Martin who has had many years experience in large Western mills, have made notable improvements in their system of manufacturing flour. The most important change is to give their customers a high per cent patent flour of the very best quality—second to none.

They propose to also give the grist trade, in exchange, the best patent flour, and as many points as any mill on the Shore.

Graham Flour can be obtained of us.

PHILLIPS BROTHERS, Salisbury, Md.

GUARANTEED COUGH CURE

No cough remedy has ever been discovered that will cure every cough but Spruce Pine Cough Cure comes nearer to it than most of them. This remedy has been on the market for years; the experimental stage is over. It has been tried in all manner of cases and found to do what we claim for it. If you have any cough, cold, sore throat, hoarseness or bronchitis get a bottle of Spruce Pine today. It is the best you can buy. Because it is certain to cure; because it is pleasant to take; because it is equally good for children and adults; because it never fails to cure you get your money back.

SPRING, 1906.

CABBAGE PLANTS Early Jersey Wakefield
Large Charleston Wakefield
GROWN HERE IN VIRGINIA IN OPEN FIELD
AND WINTER HARDENED.

Virginia Second Crop **POTATO SEED** The Best On Earth.

CABBAGE PLANTS.

This is the sixth season I have grown Cabbage Plants for the trade. The stock is the best I ever had. Plants larger and plenty of them to insure a supply for all my trade, which has increased several fold. Great care will be used in packing. Only strong plants will be sent out and full count given.

Plants grown here in Virginia in open field and winter hardened are better for transplanting further north than plants grown in the warm climate of the Carolinas, where spring weather is earlier, which makes the plants very tender. The expense is not more than one-fourth as much as from the Carolinas. While it takes three or four days to get them from the far South, from here they will reach destination in Maryland, Delaware, New Jersey and Pennsylvania the same day shipped, or the following morning, green and fresh.

Virginia Second Crop Potato Seed.

SAFEST AND CHEAPER EVEN THOUGH THEY COST SEVERAL TIMES THE PRICE OF NORTHERN-GROWN SEED.

Safest for the reason they will stand more cold, damp weather when put in the ground in early spring, and will not rot so quickly as Northern grown seed.

Cheaper than Northern-grown seed at several times the price per barrel for planting, for the reason that while they are large enough for seed, they do not run as large as Northern seed, and one barrel of the Virginia Second Crop Seed will plant as much land as two barrels of Northern-grown seed.

Again, they will produce from 25 to 33 per cent. more potatoes to the acre than the Northern grown seed.

THE CROP IS NOT LARGE THIS SEASON. If you delay you will be like some season before last—not get the seed; or if you get it, you will pay a high price.

The seed I will send out this season are selected with great care and packed in full size, well filled barrels.

What Some People Say Of Purchases From Me.

The car of seed you sent me last season was the best I ever saw, and showed splendid results in my crop of potatoes.

Results from second crop seed bought of you last season were highly satisfactory, hence we send you order for 200 barrels.

The seed I sold from you last season gave entire satisfaction.

A Dealer in Monroe, N. C.

Mr. Savage: Sir—Please find enclosed check for \$25.00 for Sprouts received of you. The seed I sold to me was the finest I ever saw. If I should not be able to sell all my orders this week I shall call on you again to help me out. Look for an order at any time, and oblige. Yours respectfully,

The type of Seed you sent me was the finest I ever saw.

The Cabbage Plants you sent me arrived in nice shape. Many are living.

P. S.—I can furnish, on application, a number of just such testimonials.

Yours truly,

Common Colds Are The Cause Of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Every one knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung trouble are aggravated and rendered more serious by each fresh attack. Do not risk your life nor take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful drug and has thirty years of reputation back of it, gained by its cures under every condition. For sale by C. L. Dickerson and G. Hearn.

The great planet Jupiter is farther north now than at any time for the last seven or eight years, and is visible this month throughout the night. The opportunities for studying the largest of the planets are better, therefore, than they ever are, except at long intervals.

A Habit To Be Encouraged.

The mother who has acquired the habit of keeping on hand a bottle of Chamberlain's Cough Remedy, saves herself a great amount of uneasiness and anxiety. Coughs, colds and croup to which children are susceptible are quickly cured by its use. It counteracts any tendency of a cold to result in pneumonia, and if given as soon as the first symptoms of croup appear, it will prevent the attack. This remedy contains nothing injurious and mothers give it to little ones with a feeling of perfect security. Sold by C. L. Dickerson and G. Hearn.

It is estimated that 70,000 people take their own lives every year in Europe, 10,100 of which fall to Germany. During the last 10 years the number of self-murders in Germany has been 118,645. This is almost three times as many as there were soldiers killed outright in the Franco-Prussian War in 1870-1871.

Better Than Gold.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run-down women. No other medicine can take its place in our family." Try them. Only 50 cents. Satisfaction guaranteed by all druggists.

There are British, German and French postoffices in the principal towns of Morocco. The Moorish government has no postoffice of its own. Mail for the government is carried from town to town and from village to village by special carriers.

Escaped An Awful Fate.

Mr. H. Higgins, of Melbourne, Fla., writes: "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by all druggists. Price 50 cents and \$1.00. Trial bottles free.

The Pope has ordered a firm of Florence jewelers to manufacture a crown set with imitation stones for the image of the Virgin in the basilica of the Vatican, in place of the crown containing gems valued at \$7,500,000 which is to be deposited in the vaults of the Vatican.

Gas In The Stomach.

Balching and that sense of fullness so often experienced after eating is caused by the formation of gas. The stomach fails to perform its functions and the food ferments. Chamberlain's Stomach and Liver Tablets will correct the disorder. They aid digestion and strengthen and invigorate the stomach and bowels. For sale by C. L. Dickerson and G. Hearn.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripes, sicken, weaken the bowels and don't cure. Doan's Regulator acts gently and cures constipation. 25 cents. Ask your druggist.

HEALTH INSURANCE

The man who insures his life is wise for his family.

The man who insures his health is wise both for his family and himself.

You may insure health by guarding it. It is worth guarding.

At the first attack of disease, which generally approaches through the LIVER, use Doan's Kidney Pills in innumerable ways.

Doan's Kidney Pills.

LONG AGO.

In the bleak midwinter
Frosty wind made moan;
Earth stood hard as iron,
Water like a stone;
Snow had fallen: snow on snow,
Snow on snow.
In the bleak midwinter
Long ago.

Our God—Heaven cannot hold Him,
Nor earth sustain;
Heaven and earth shall fall away
When He comes to reign;
In the bleak midwinter
A stable-place sufficed
The Lord God Almighty,
Jesus Christ.

Enough for Him, whom cherubim
Worship night and day
A breakfast of milk
And a mangerful of hay;
Enough for Him, whom angels
Fall down before,
The ox and ass and camel,
Which adore.

Angels and archangels,
May have gathered there,
Oberon and seraphim
Thronged the air;
But only His mother
In her maiden bliss,
Worshipped the Beloved
With a kiss.

What can I give Him,
Poor as I am?
If I were a shepherd,
I would bring a lamb;
If I were a wise man,
I would give my part;
Yet what I can give Him—
Give my heart.

—Christina G. Rossetti.

DON'T GO AROUND GROANING

It Is Your Own Fault If You Continue To Suffer.

Why do you go around the house complaining, making yourself and everybody else miserable? Is it your own fault if you suffer from Rheumatism, Sciatica, Gout, or other painful troubles that come from bad blood? Science has at last found a complete and palatable cure for all these diseases.

After years of careful study of the cause and cure of such diseases, Rheumatism was discovered. Rheumatism has been used in thousands of cases that were deemed incurable and has performed complete cures. Rheumatism has cured after famous specialists have failed, and has cured a number of sufferers who spent months at the noted John Hopkins Hospital in vain.

The reason Rheumatism cures when liniments, oils and other remedies have failed is that it goes right to the seat of disease, sweeps the poisonous germs and acids out of the blood, and removes the cause. It "gets at the joints from the inside." Rheumatism builds up the entire system and makes you "well all over." Mrs. Laura D. Gardner, of 1801 James Street, Baltimore was cured after she had suffered the most terrible torture for sixteen years. She writes: "People in my neighborhood, where I have lived for more than twenty years, will testify as to my condition before being cured by Rheumatism. At times my suffering was so great that I could not bear to be touched, and my clothing had to be torn from me. I write you this letter because I feel so grateful for the benefit I have received, and am daily recommending the medicine to my friends."

The German government has placed an order for 50,000 freight cars, to cost \$50,000,000. The cars will be supplied by German, Swiss, Belgian, Italian and Australian builders.

Nearly Forfeits His Life.

A runaway almost ending fatally started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions, and piles. 25 cents at all drug stores.

The swiftest bird is either the vulture which is said to be able to travel at the rate of 150 miles an hour, or the English kestrel, which can probably equal, if not exceed, this speed.

Lame Back.

This ailment is usually caused by rheumatism of the muscles and may be cured by applying Chamberlain's Pain Balm two or three times a day and rubbing the parts vigorously at each application. If this does not afford relief, bind on a piece of Chamberlain's Balm, and quick relief is almost sure to follow. For sale by C. L. Dickerson and G. Hearn.

The Bahia Blanca municipality, in Argentina, has closed down the worn out electric light plant, and invites new bids for another lighting plant. Bids will be received until April 15.

Itching Piles.

If you are acquainted with anyone who is troubled with this distressing ailment you can do him no greater favor than to tell him to try Chamberlain's Salve. It gives instant relief. Price 25 cents per box. Sold by C. L. Dickerson and G. Hearn.

A Wisconsin dairy association has just declared a dividend of 200 per cent.

"Had dyspepsia or indigestion for years. No appetite and what I did eat distressed me terribly. Burdock Blood Bitters cured me."—J. H. Walker, Sandusky, Ohio.

Don't let the baby suffer from eczema, scabs or any itching of the skin. Doan's Ointment gives instant relief, cures quickly. Perfectly safe for children. All druggists sell it.

What Does It Mean

to let Dividends "accumulate" on a Life Insurance Policy? In many companies it means nothing more than an agreement on the part of the policy-holder, to do without dividends for fifteen or twenty years, and then take whatever dividend the company will be willing to give. Dividends are declared every year in the Mutual Benefit, and the policyholders use them either to help pay premiums or to buy increased insurance. The policies of the

Mutual Benefit Life Ins. Co. contain special and peculiar advantages which are not combined in the policies of any other company. Examine these advantages before placing your insurance. You owe it to your family to have the best.

STURDY FARMERS KEEP OFF ALL CATARRHAL ILLS BY TAKING PE-RU-NA.

Pe-ru-na
Cures
Catarrh
Wherever
Located.

Pe-ru-na a Necessity in the Home.

J. B. Alexander, Publisher of the "Fruit and Floral Guide," a Magazine of Horticulture, published in Hartford, Conn., writes:

"I was afflicted with catarrh of the throat and head for over ten years. I was treated by many physicians, but grew worse until I was seldom able to go out in cold weather."

"About one year ago I was advised to try Peruna, which I did, and I am now entirely well of the catarrh."

"Peruna is a necessity in our home. With the first symptoms of a cold we use it, and are never afflicted with catarrh."

"I advise all who are afflicted with catarrh to try Peruna. There is certainly nothing equal to it as a catarrh medicine."—J. B. Alexander.

Pe-ru-na is a Systemic Remedy.

"Peruna will cure catarrh in one week. It will cure it in any other place, because it is a systemic remedy."

WEST.

The following services are expected on Pocomoke Circuit next Sunday: Friendship, Sunday School at 9:30, preaching at 10:30 a. m., and Christian Endeavor at 7:00 p. m.; Union, preaching at 2:30 p. m.

Mr. and Mrs. Warren Pusey are spending the week in Salisbury.

Rev. and Mrs. F. J. Phillips were the guests of Mr. and Mrs. Alfred Vinson of Salisbury, Monday and Tuesday.

Mr. and Mrs. J. W. Powell visited their son, Mr. W. C. Powell and family of Salisbury, Wednesday and Thursday of this week.

Rev. F. J. Phillips and wife, W. J. Pusey and wife, son and daughter, Elwood and Miss Emma McKee, were the guests of Mrs. Lillian Bounds and daughter, Miss Lillian last Saturday.

Mr. and Mrs. W. J. Pusey, Rev. and Mrs. Phillips, Mr. and Mrs. Samuel Young were the guests of Mrs. Jennie Briddell on Wednesday of this week.

Mr. W. J. Pusey and family and Mrs. Jennie Briddell were guests of the parsonage on Thursday.

The members and friends of Friendship church made their pastor and his wife, an excellent donation on Saturday evening last. It was a complete surprise to them. This is the second one made recently by them, which shows their appreciation of their labor.

The Ladies Aid Society of this place met at the parsonage on Saturday evening last and was well attended. Mrs. F. J. Phillips, treasurer, submitted her semi-annual report, showing the financial condition of the society, which was the best known during its existence. Her report showed that she had on hand June 1, 1905, the sum of \$66.29, and had received during the year the sum of \$76.15, and had expended \$47.04, leaving on hand Jan. 1, 1906, the sum of \$95.40. Three years ago, the treasury was cleared out entirely, and has since then doubled her membership, expended nearly \$300.00 on parsonage and other purposes. The parsonage is in good condition with new carpets, and well furnished. The following officers were elected for ensuing year: President, Rev. F. J. Phillips; V. Pres., B. M. Pusey; Secretary, Mrs. Minnie Pusey; Asst., Secretary, Mrs. F. J. Phillips; Treasurer, Mrs. Lillian J. Phillips.

Miss Margaret Kahns, a returned missionary, who is visiting the church at the Maryland Conference, will visit Pocomoke Circuit next week. She will be at Friendship on Thursday, Nazareth on Friday and Union on Saturday. She will deliver an address in each church at 2:30 p. m., to ladies only, and to mixed congregations in evening on the days named. We speak for her a good congregation.

WILLARDS.

Old "Bip" has aroused from his drowsy nap and we now can hear from this little town.

Delegate R. G. Davis arrives at the end of each week and supplies us with the weekly news of the Legislature.

Mr. George W. Truitt ended his auction sale of store goods last Saturday evening. Mr. Lorch Richardson will occupy the place of business in the future. Much success to the young merchant.

Mr. William Farnell left last Saturday for Philadelphia.

The Young Men's Quarterly Convention of the Methodist Church will be held in this city of Salisbury, An-

Pe-ru-na Always on Hand.

Mr. Fred Schnell, Lakewood, Erie Co., N. Y., writes:

"I had been a sufferer for more than thirty years with catarrh of the intestines. I had used a great deal of medicine to no avail, so I decided to try Peruna."

"I have now used thirteen bottles and can give you the joyful tidings that I have no more trouble. I always keep Peruna on hand."—Fred Schnell.

The people generally are very much misinformed as to the nature of catarrh. Catarrh is usually believed to be confined to the head, nose and throat. Later, we sometimes hear of catarrh of the stomach and catarrh of the bladder. Seldom, if ever, do we hear of catarrh of any other organs.

It is not because these organs are not subject to catarrh, nor that catarrh of these organs is not a very common disease, but simply because it is not generally known that affections of these organs may be due to catarrh.

Had Catarrh Thirty Years—Pe-ru-na Cured Him.

Mr. Gustav M. Schmidt, Spring Valley, Ill., writes:

"I had catarrh of the head and throat for over thirty years. It became worse every year."

"About three months ago I commenced to take Peruna and Manalin, and now I am entirely cured of that troublesome sickness. Your medicine is surely a blessing to mankind."

"You can truly say that you have not lived in vain, Doctor, and I thank you for the good you have done me. May you enjoy a long life to help suffering humanity."—Gustav M. Schmidt.

Dr. Hartman Makes Personal Use of Pe-ru-na.

In speaking of his own personal use of Peruna, Dr. Hartman says:

"For a number of years my professional duties have compelled me to be much on the road, traveling long distances by rail, night and day, exposed to all kinds of vicissitudes, sleeping and eating in different hotels continually, and through it all I have preserved myself from any derangement of the body resulting from catching cold."

"At the slightest evidence of a cold, a few doses of Peruna invariably checked it."

Trinity.

Services next Sunday at Trinity Church as follows: Sunday School at 2:30 p. m. Preaching at 4:00 p. m. by Rev. James Baker.

Mrs. Gorman Bailey, of Quantico, is visiting her parents, Mr. and Mrs. James B. Bradley.

Miss Lucy Whayland spent last week with her sisters, Mrs. Clayton Kelly and Mrs. George Hoffman, of Salisbury.

There will be a social at the home of Mr. L. A. Whayland and they will have ice cream and pies for sale.

Misses Etta Reed and Barbara Phillips spent Wednesday evening as the guests of Mrs. Mae Bailey.

Mr. Louis Whayland, of Salisbury, spent Sunday with his parents, Mr. and Mrs. L. A. Whayland.

Sorry to report Mrs. Bet Collins sick.

Mr. and Mrs. A. C. Bounds, Mr. George Malone and Mr. Tiny Collins spent Sunday with Mr. and Mrs. J. B. Bradley.

Miss Rosa Malone and Mrs. Sadie Malone were in our vicinity on Tuesday.

MARDELA.

There will be preaching at the following churches on Mardela Circuit on next Sunday, February 18th, Hebron, 10:30 a. m.; Swithen 3 p. m.; Mardela, 7:30. The following subject will be used in the evening service: "The Efficacy of Spiritual Baptism."

The Methodist Protestant church of Mardela is at present being much improved by having a large Sunday School room built to it and also the whole church is being painted and in addition to this a great many other things are being done to make it more comfortable and also at the same time will enhance its beauty and it will when completed be the most beautiful and also most convenient church in this part of the Peninsula outside of those in the city of Salisbury. An-

"For a number of years my professional duties have compelled me to be much on the road, traveling long distances by rail, night and day, exposed to all kinds of vicissitudes, sleeping and eating in different hotels continually, and through it all I have preserved myself from any derangement of the body resulting from catching cold."

"At the slightest evidence of a cold, a few doses of Peruna invariably checked it."

At Work on the Farm—Frustrated Pe-ru-na.

Geo. H. Thompson, Raleigh, Miss., writes:

"I have been cured of catarrh by your medicine, Peruna and Manalin. I had been affected with catarrh of the stomach about all my life, and was taken bad every spring and summer."

"I used several kinds of patent medicines, but they did me no good. I then took a treatment under an M. D., which did me but little good. By this time I had got where I could eat nothing but a little soup. I had severe pains, had lost in weight and could not do anything."

"I began taking your medicine, Peruna and Manalin. I then weighed 135 pounds, but after taking it bottles of Peruna and one bottle of Manalin, I weighed 165 pounds."

"I am now at work on the farm and feel well all of the time. I eat all I want to and my friends say that I look better than ever before. I will ever praise Peruna for its healing power."—Geo. H. Thompson.

Man-a-lin is a modern, up-to-date laxative, pleasant to take, mild in action, and sure to overcome constipation. It is an efficient cathartic for adults and children take it readily. Full directions accompany each bottle.

A Farmer's Talk to Farmers.

Before Dr. Hartman began the study of medicine he was a farmer boy. He was brought up on a farm in Southern Pennsylvania.

He belonged to that industrial, successful class of farmers known as the Pennsylvania Dutch, the best farmers in the world.

It was here that he early learned the lesson of pulling obnoxious things out by the roots.

Dr. Hartman's Method of Treating Catarrh.

Naturally, when he began the study of medicine his mind turned instinctively toward the removing of causes. He could not content himself with doctoring symptoms any more than his enterprising father could have contented himself by pulling off the tops of weeds to eradicate them from the soil.

The Doctor turned his attention early to the science of removing the cause of diseases, believing that obnoxious symptoms would disappear if the cause of the disease was removed.

In other words, Dr. Hartman applied the common sense of the practical farmer to medicine, and after much experimentation Peruna was compounded.

The sensible farmer does not think of cutting off the tops of weeds to kill them. He pulls them up by the roots.

Dr. Hartman Interested in Farming.

Notwithstanding Dr. Hartman's busy professional career, he still continues to be interested in farming. He is the owner and manager of one of the largest farms in the State of Ohio, with several thousand acres of the best filled land in the Middle West, and with hundreds of the best blooded percheron horses ever imported or raised in this country.

Dr. Hartman relies upon Peruna entirely in case of sickness in his own family.

Annual Banquet S. F. D.

The annual banquet of the Salisbury Fire Department was held at the City Hall Wednesday evening. Mr. A. M. Lohner was toast master. The first speaker was Mayor Harper. He talked principally about the value of the Fire Department to the city and assured them that he and the City Council would always lend them a helping hand. He was followed by Chief Birman, President John Brittingham and Secretary C. W. Bennett of the Department. Short addresses by Messrs. U. Polk, C. M. Brewington, E. H. Elton and others were very interesting. The banquet was largely attended and was quite a success. We have the most up-to-date Fire Department on the Peninsula, south of Wilmington and something of which Salisbury should be proud.

An issue of the present municipal campaign in Hagerstown will be whether or not the city shall issue \$500,000 of bonds to establish municipal waterworks.

FIRST INDOOR MEET

Of The S. A. C. Night Of Feb. 28. Ten Events To Be Contested At The Club Rooms. Open To The Public.

The first monthly indoor meet of the Salisbury Athletic Club is announced to take place at their rooms Wednesday evening, February 28th, beginning at eight o'clock.

A number of events which will prove interesting have been arranged, to which the public, all over 16 years, has a cordial invitation, the ladies included. The events scheduled number ten and are as follows:

1. Horizontal Bar—Carl Dougherty, B. Ulman, Wm. Smith, R. Truitt.
 2. Fencing Machine—Fred Grier, Sewall Fields, Frank Perry.
 3. High Kicking—Willis Taylor, Sam Sirman, Ray Truitt, Walter Dismore, Wm. Smith.
 4. High Jump—B. Ulman, Willis Taylor, Sam Sirman, Kent Morris, Chas. Ulman.
 5. Weight Contest—Paul Richardson, Harry Boths, Sewall Fields, Oscar Grier, Fred Grier.
 6. Potato Race—Carl Brewington, Wm. Smith, Linwood Price, Geo. Dorman.
 7. Standing Broad Jump—Lee Macomber, S. Toadvine, W. Betts, Willis Taylor, Sam Sirman.
 8. Wrestling Match—Oscar Grier, Fred Grier.
 9. Boxing—C. Brewington, Chas. Holloway.
 10. Basket Ball Game. Camden vs. Newtown.
- Camden—S. Toadvine, Capt. L. Macomber, W. Taylor, K. Morris, C. Brewington, C. Holloway, Sub.
Newtown—E. Bane, Capt. R. Truitt, C. Ulman, E. Ulman, S. Fields, O. Grier, Sub.
- The records will be posted in the gymnasium. There will be final practice in the Club Rooms, at 8 o'clock Monday evening and all members are requested to be present.

Church Re-opening.

Silvan M. E. Church having undergone repairs and handsome improvements recently, will be reopened, with appropriate religious services on tomorrow, February 25th.

Rev. H. S. Delany of Orisfield, will preach in the morning at 10.30 o'clock. All are cordially invited to these services. W. W. White, Pastor.

SESSION OF COUNTY

Commissioners Tuesday Results In Transactions Of Much Business. Road Matters The Important Topic.

The Board of County Commissioners transacted the following business Tuesday, adjourning to meet again February 27th.

Commissioner Wright reported that work was in progress on the Bradley mill dam, but not completed; he reported that he had ordered necessary repairs made to the Cooper mill dam. Mr. Leonard requested that something be done to the county road near Parnassburg. The clerk was instructed to write the road supervisor, Mr. N. J. Adkins.

Mr. Otis B. Lloyd presented specifications for the proposed bridge across Tony Tank Creek, and offered to build the bridge for \$5.00 per lineal foot. A petition from citizens of Pittsville asked that a certain road be opened and made public. Messrs. James H. West, John W. Truitt and G. Ernest Hearn were appointed commissioners on same.

Bonds approved: John A. Inley, road supervisor for Tyaskin District; J. C. Parks, road supervisor for Nanticoke District; R. L. Lloyd, road supervisor for Tyaskin District.

Messrs. J. H. Livingston and Chas. C. Jones were appointed road supervisors for Salisbury District. G. E. Parsons was appointed Constable for Pittsville District.

Mr. T. H. Mitchell asked that the road near his brick plant be improved. Commissioner Cooper was requested to look after the matter.

A committee urged that a new road be opened in Quaketo District from the Rockwalking Church to intersect the road from Hebron to Upper Ferry; laid over until next meeting.

State's Attorney Bailey was instructed to secure information from the U. S. Government as to the steps necessary to be taken to build the bridge across Tony Tank Creek, and report to Board.

A new governmental department has been established in the Netherlands under the name of the ministry of agriculture, industry and commerce, and further providing for the revision of the name of the ministry of water-land, commerce and industry.

About 35,000 people are on the sea, either as passengers or seamen, every day in the year.

TO REDUCE STATE TAX.

Provision Can Be Made For Reduction Of 25 Cents On The \$100. Chance For The Legislature.

The railroad agitation in the Legislature is serving a good many useful purposes besides stimulating the payment of dividends. It is now apparent that the rate of State taxation for the year 1907 and thereafter can, with a little help from the Legislature, be reduced to 15 cents on the \$100, a substantial reduction of 8 1/2 cents. This would be a great relief to the taxpayers of Baltimore city especially and to the State generally, and it can be brought about in this way. The tax levied for the interest on the public debt and the sinking funds is 6 1/2 cents. The Constitution prohibits the repeal of this tax until the debt for the payment of which it is levied shall be paid, and it is paid in effect as soon as the sinking fund equals the debt.

It is believed that this time has now arrived, and that after this year the Comptroller will be justified, indeed compelled, to discontinue the collection of this tax.

The gross debt of the State, including \$50,000 of bond for the Maryland Institute, yet to be issued, is \$3,692,286.15; deduct sinking fund, \$3,201,587.00 and the net debt will be \$5,201,339.15.

But there are certain stocks and credits belonging to the State which are dedicated by the Constitution to the payment of the debt. By crediting these securities to the sinking funds where they belong and making a reasonable estimate of their value the sinking funds will exceed the debt and under the Constitution the tax should no longer be collected. These securities are:

Mortgages of the Northern Central Railroad, securing an annuity of \$50,000, which will pay the interest on \$3,000,000 of the State's 3 per cent bonds and which Treasurer Vandiver says he can sell for that sum at any time.

The 5,600 shares of stock in the Washington Branch, which at \$400 a share, is worth \$2,240,000.

Other stocks worth at par \$57,470.

These items aggregate \$5,297,470.

Another tax that can be repealed, and which will probably be repealed at this session for next year, is the 1 1/2 cents levied for free school books. The idea of imposing the 15 cent tax for schools in 1904 was that it would yield \$1,000,000 for the schools. Instead of that the tax produced less than \$1,115,576, which is sufficient to give the schools \$1,000,000 and leave enough for the free books without a special tax for that purpose. And the amount yielded by the 15 cent tax is constantly increasing, and all the increase will go to the schools.

The revenues of the State are now sufficient if the Legislature is to any degree prudent to permit this decrease in taxation to a figure less than the State has ever levied since the Civil War, and even if the Legislature does nothing it may be that Dr. Atkinson, the Comptroller, will have the courage to not for himself and not collect for 1907 and thereafter the tax for the public debt. The office of the Comptroller is admirably conducted, and so bold and public spirited a stand as this would place Comptroller Atkinson's administration in a class by itself.

Jury Drawn By Judge Holland For Spring Term Of Court.

No. 1, Barren Creek District—Alexander W. Hopkins, John S. Harlar, Thaddeus D. Phillips, Levin H. Graham.

No. 19, Camden District—Edwin Malone, John W. Windsor, Chas. L. Dickerson, Sidney L. Truitt.

EASTERN SHORE COUN-

ties Want State Road Appropriation Fund So They Can Apply It Locally.

The road bill which the Eastern Shore County Commissioners want to have passed as a substitute for the Shoemaker Road law made its appearance in Annapolis last week. It was brought there by a subcommittee of the Commissioners and is the result of the general meeting held at the Hotel Bennett in Baltimore. Those who were there in the interests of the bill included Mr. W. M. Cooper, of Wicomico county; Mr. Wickes, of Kent county; Messrs. T. Rodney Jones, Thomas Whaley, E. H. Taylor and Samuel Shockley, of Worcester county. They held a conference with Mr. Luckey, of Frederick county whom they want to induce their bill to preference of his own, which has already been introduced, and were also busy urging their plan among the Delegates in the House.

The idea of the new bill, which is said to be urged by the County Commissioners of nearly all the counties on the Eastern Shore, is in brief to ask for State aid in building county roads, but to do away with all State supervision, placing the entire authority in the hands of the County Commissioners. The widest latitude in the selection of road materials is permitted and the Commissioners are authorized to appoint a road engineer in each county to build the roads.

Some amendments are being prepared to the bill, and with them it will be urged upon the Delegates, and an effort made to get the Eastern Shore Delegates as a body to support it. This effort, however, may not be successful, as a number of the Eastern Shore members of the House have already declared themselves in favor of permitting the Shoemaker Road law to remain as it is and opposed their better that under it the best roads can be built at the smallest cost to the counties. Among those who entertain these views is Mr. Orlando Harrison, of Worcester county who emphatically stated that he favored the Shoemaker law. Mr. W. Lee Cary, of this county, is also an advocate of the Shoemaker law as the most practical and inexpensive way of obtaining good roads.

Practically all of the city Delegates, it is believed will fight for the retention of the Shoemaker law. They claim that the money for the building of roads under this law does not in any way affect the State tax rate, but a large part of it comes out of the taxes paid by corporations in the city of Baltimore.

Notice!

There will be services, D. V., in Spring Hill Parish on Sunday next, February 26th, as follows:

Quantico, 10.30 a. m.; Spring Hill, 3.00 p. m.; Mardela Springs, 7.30 p. m.

Franklin B. Adkins, Rector.

Only one couple in 11,000 live to celebrate their diamond wedding.

Mysterious Circumstances.

One was pale and sallow and the other fresh and rosy. Whence the difference? She who is blushing with health is using Dr. King's New Life Pills to maintain it. By gently arousing the lax organs they compel good digestion and head of complications. Try them. Only 25 cents at all druggists.

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

LaGrippe Is Epidemic Catarrh.

It spares no class or nationality. The cultured and the ignorant, the aristocrat and the peasant, the masses and the classes are alike subject to it. Grippe is well named. The original French term, is grippe, has been shortened by the busy American to read "grip."

Without intending to do so, a new word has been coined that exactly describes the case. As if some hideous giant with awful grip had clutched us in its fatal clasp.

Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

Have you the grip? Or, rather, has the grip got you? If so, read the following letters.

These testimonials speak for themselves as to the efficacy of Peru-na in cases of La Grippe or its after-effects:

Saved by Pe-Ru-NA.

Sam. James R. Gull is one of the oldest and most esteemed men of Omaha, Neb. He has done much to make it what it is, serving on public boards a number of times. He endorses Peru-na in the following words:

"I am 65 years old, am hale and hearty and Peru-na has helped me attain it. Two years ago I had La Grippe—my life was despaired of. Peru-na saved me."—J. R. Gull.

A Relative of Abraham Lincoln.
Mr. Elias B. Lincoln, who resided at 912 1/2 street, N. W., Washington, D. C., has the honor of being third cousin to Abraham Lincoln. He writes:

"I had La Grippe five times before using your medicine. Four years ago I began the use of Peru-na, since which time I have not been troubled with that disease."

"I can now do as much work as I have done as I ever could in my life. I have gained more than ten pounds in weight."—E. B. Lincoln.

Pe-Ru-NA Not Only Cured La Grippe but Relieved the Whole System.
Miss Alice M. Dresser, 1818 N. Bryant Ave., Minneapolis, Minn., writes:

"Last spring I suffered from La Grippe and was partially cured, but the bad after-effects remained through the summer and somehow I did not get strong as I was before."

"One of my college friends who was visiting me asked me try Peru-na and I did so and found it all and more than I had expected."

"It not only cured me of the morbid but restored me to perfect health, and took up the whole system."—Alice M. Dresser.

Grip Resulted in Catarrh.

Miss Alice Biehle, Treasurer Young Women's Society of the Lutheran Church, Messaba, Wis., writes:

"I gratefully acknowledge the good that Peru-na did me after I had been sick with La Grippe which left me in a very weak and emaciated condition, with catarrhal trouble of the head and ears."

"My mother suggested that I take it to build up my strength and rid myself of the troublesome catarrh, and it acted with wonderful speed."

"I was able to resume my work in less than two months and I am in splendid health now."—Alice Biehle.

Cured in a Few Weeks.
Miss Jean Cowgill, Griswold Opera House, Troy, N. Y., is the leading lady with the Aubrey Block Co. She writes the following:

"During the past winter of 1901, I suffered for several weeks from a severe attack of grip, which left a serious catarrhal condition of the throat and lungs."

"I was advised to try your Peru-na, and I found it all and more than I had expected."

"It not only cured me of the morbid but restored me to perfect health, and took up the whole system."—Alice Biehle.

Cured in a Few Weeks.
Miss Jean Cowgill, Griswold Opera House, Troy, N. Y., is the leading lady with the Aubrey Block Co. She writes the following:

"During the past winter of 1901, I suffered for several weeks from a severe attack of grip, which left a serious catarrhal condition of the throat and lungs."

"I was advised to try your Peru-na, and I found it all and more than I had expected."

"It not only cured me of the morbid but restored me to perfect health, and took up the whole system."—Alice Biehle.

DO YOU GET UP
WITH A LAME BACK?

Dr. Kilmor's Swamp-Root
Almost everybody who reads the news-
papers knows of the wonderful
cures made by Dr. Kilmor's Swamp-
Root, the great kidney,
liver and bladder
remedy.

It is the great med-
ical triumph of the
nineteenth century,
discovered after years
of scientific research
by Dr. Kilmor, the
eminent kidney and
bladder specialist, and is wonderfully
successful in promptly curing lame back,
uric acid, gravel of the bladder and
kidneys, which is the worst
form of kidney trouble.

Dr. Kilmor's Swamp-Root is not rec-
ommended for everything but you have
kidney, liver or bladder trouble it will be
found just the remedy you need. It has
been tested in so many ways, in hospital
work and in private practice, and has
proved so successful in every case that a
special arrangement has been made by
which all readers of this paper, who have
not already tried it, may have a sample
bottle sent free by mail, also a book tell-
ing about Swamp-Root, and how to
use it. When writing mention reading this
generous offer in this paper and send your
address to Dr. Kilmor & Co., Binghamton,
N. Y. The regular
fifty-cent and one-
dollar bottles are
sold by all good druggists. Don't make
any mistake, but remember the name,
Swamp-Root, Dr. Kilmor's Swamp-Root,
and the address, Binghamton, N. Y., on
every bottle.

A Positive CATARRH
CURE

Ely's Cream Balm
Is quickly absorbed.
Does not stain or discolor.
It cleanses, soothes,
heals and protects the
diseased mem-
brane. It cures Cat-
arrh and drives away
a Cold in the Head
quickly. Restores the
Senses of Taste and Smell. Full size 50¢, at Drug
stores or by mail; Trial Size 10¢, by mail.

ACADIA BUTTER

has been on the market eight years,
and during that period the demand has
doubled and tripled a thousand fold
or more.

It is used by some of the largest con-
sumers in New York and Philadelphia
—firms who make Quality the very first
requirement in a butter product. It sup-
plies the tables of some of the best ho-
tels at Atlantic City, and has been sold
as far north as Canada.

ACADIA BUTTER we offer you
here at home is the same high-grade
article that supplies the table demands
of the big cities and hotels referred to
above. Sold in the same hermetically
sealed packages and made by the same
faultless process.

If your grocer doesn't keep Acadia
Butter, drop us a postal and we will
tell you who has it.

Dr. Kilmor's Swamp-Root.

It is believed that Bayall Roo, the
wealthy agent of the superior to that
of J. D. Kilmor. He was edu-
cated in an English university and
his people are well known. Much
of his vast riches is in the form of
precious stones. His wife owns the
most famous diamond necklace in
the world. It is worth \$12,000,000,
and is made up of 100 stones each
the size of a hazelnut. She also has
a collection of 500 perfect diamonds,
some less than twenty carats. In the
treasure chamber is a carpet four
square yards in surface, made up en-
tirely of ropes of diamonds, pearls
and rubies. It required \$4,000,000
worth of gems and three years of la-
bor. The long corridors of the pal-
ace are lined with marble and onyx
of incalculable value. The palace is
steam heated and electric elevators
are placed at frequent intervals. The
Bronzes, paintings, statuary, all im-
ported and worth many millions of
dollars, are scattered throughout the
royal dwelling.

Secret Drinking Device.
The sanitarian was for women
only—women diplomats. A luxu-
rious place. The rate was \$125 a
week.

"This," said the superintendent,
"is our museum. Odd, grotesque
and horrible. The museum was a collection
of instruments for secret drinking
that had been taken from female
diplomats. There was a carriage
clock with a false back that would
hold a half pint of whisky. There
was a mug with a round flask of in-
dian rubber in its hollow inside. A
bottle with a hidden siphon. The owner
of the mug would press it to his
face, a very natural and com-
mon movement—and at the same
time take a stiff drink. There were
a dozen sorts of bonbons, can-
dies of all shapes and hues, each
containing two or three fingers of
brandy. A fan—it would not open—
had room for a half a pint in it. A
number of purses were nothing but
whisky flasks covered with bead-
work or leather, or silver, or gold.
There was even a prayer book with
a flask inside.

Marriageable Ages in Novels.

"You can tell by the ages of the
heroines of the modern novel writers
that the marriageable age of women
is being extended," mused the wo-
man who is given to mental observa-
tions. "A woman can go pretty far
nowadays without being considered
an old maid by the novel writers. I
remember the heroines of my girl-
hood days were all between eighteen
and nineteen. It was a somewhat
audacious writer who made the
beautiful charmer of his novel twen-
ty-one years old. But just pick up
the modern novels. The authors and
authoresses don't start the heroines
on their mad careers until they are
over thirty, and by the time they
have gotten the man or woman out
in the center of the stage, plunged
her, she is close on to thirty-two
or three. I have just completed a
most interesting book in which the
heroine is forty."—Philadelphia
Record.

How Accidents Occur.

Twelve per cent. of all the acci-
dents to people in cities happen on
the streets. Statistics show that the
average citizen, if he should meet
with one hundred serious mis-
chances on his walks abroad, would
slip on the ice, and fall down under
other circumstances, six or eight
times he would get hit from cars,
boarding or alighting from cars,
he would be knocked down, or other-
wise injured by horses and wagons
six times; he would be bitten by
dogs four times, and he would step
disastrously upon banana peels
twice. The remaining mishaps
would be miscellaneous, and might
include one or two collisions with
motor cars, which have taken the
place of bicycles as perils to the
pedestrian.—Pearson's Magazine.

Nervous Women

Their Sufferings Are Usually
Due to Female Disorders
Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute
the well-known
fact that American
women are ner-
vous?
How often do we
hear the expres-
sion, "I am so ner-
vous, I cannot sleep."
"I should like to
"Don't speak to
me." Little things
annoy you and
make you irritable; you can't sleep,
you are unable to quietly and calmly
perform your daily tasks or care for
your children.

The relation of the nerves and gen-
erative organs in woman is so close
that nine-tenths of the nervous pro-
stration, nervous debility, the blues,
sleeplessness and nervous irritability
arise from some derangement of the
organs which makes her a woman.
Life of depression or restlessness and
irritability; spirits easily affected, so
that one minute she laughs, the next
minute weeps; pain in the abdominal
region and between the shoulders;
loss of voice; nervous prostration; be-
coming a prey to the least provoca-
tion—all these point to nervous pro-
stration.

Nothing will relieve this distressing
condition and prevent months of pro-
stration and suffering so surely as Lydia
E. Pinkham's Vegetable Compound.

Mrs. R. E. Shotwell, of 103 Flatbush
Avenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I
have experienced by taking Lydia E. Pink-
ham's Vegetable Compound. I suffered for
a long time with nervous prostration,
the blues, headache, loss of appetite. I could
not sleep and would walk the floor almost
every night.

"I had headaches and got no better, and
I was a burden. I was advised to try
Lydia E. Pinkham's Vegetable Compound,
and it has worked wonders for me.

"I am now well, my nervousness is all
gone and my friends say I look ten years
younger."

Will send the following of letters from
women cured by Lydia E. Pink-
ham's Vegetable Compound, and
will return the enclosed card.

THE HIGHER LIFE

School Course of Thought from Peace and Faith
of All Ages

The Gleaner of To-Day.

The greatest secret of success in
work, work, work! I feel sorry for
the man who wants work and cannot
get it, but I pity the man who can
get work and does not want it. The
preacher, the mechanic, the mer-
chant, the gleaner, must work if suc-
cess is to be achieved, otherwise
there will be empty benches to
preach to, or a poor harvest for the
mechanic, merchant or gleaner. Ruth
went to work early in the morning,
and worked until evening. And, if
the gleaner of to-day, whether in tem-
poral or spiritual things, wants to
have his arms full of gleanings, he
must be at it early and late. When
Ruth had gleaned, then she was in-
vited to eat. It would do not a few
of God's gleaners good if they real-
ized more the importance of going
earnestly to work for God and the
church before expecting the rich
blessings of the spiritual mealtime. I
fear some will have much for which
to account when at last they stand
before God for judgment. They have
the means, the opportunities, this
world's goods, and yet, virtually do
nothing whatever for the great work
of the church at large.—The Rev. L.
M. Zimmermann, Lutheran.

A Merry Heart for Battle.

A merry heart sees the bright side
of things. It believes that the black-
est cloud has a silver lining—does
not allow itself to be overwhelmed
with anxiety and is patient in the
midst of uncertainty; is sustained by
unfaltering trust and does not mur-
mur while purposes are ripening.
With untiring energy it fights a
way to a victorious battle. It is said
that a Roman army once fought so
bravely that they did not observe
an earthquake which shook the
rocks beneath their feet. "He that
observeth the wind shall not sow,
and he that regardeth the clouds
shall not reap." Those who dwell
on the dark side of things bring
nothing to pass except disaster and
create nothing save the wallings or
demoralizing pessimism. The bright
side of things is radiant with faith in
God, our brother and ourself, and in
the sublime law of the survival of the
fittest—the divinest. Worry, must,
care corrodes.—Dr. Chas. Edward
Locke, Methodist Episcopal.

Christ as a Servant.

Christ said, "Whosoever will be
chief among you, let him be your
servant." It was no mere saying. His
whole life was a service; he took
upon him the form of a servant. In
the last solemn hours of his life he
took a towel and girded himself, and
taking water, he went from one won-
dering disciple to another, doing a
servant's work. They could not un-
derstand it then; but the lesson must
have gone deep into their hearts.
The Son of man, he told them, came
not to be ministered unto but to min-
ister. He was showing them, by his
own example, how dignified, how no-
ble, service is. The idea was new to
the world, but it has entered into the
spirit of the religion he founded.
Self-sacrifice, self-denial, are the
watchwords of his true followers.—
Christian Herald.

Life and Religion.

Life is conditioned upon equi-
librium. It is a perpetual balance.
Too much fire will burn you, not
freeze you, and just enough will com-
fort you. Too much water will
drown you, not enough will destroy
you, and just enough will do you
good.

Religion in its true sense is in-
capable of excess, for rightly
defined it is the personal influence of
Jesus upon us. This stimulates the
inward forces of man to a certain de-
gree, and regulates them beyond that
degree. Hence one could as well be
said to have too much health as to
have too much religion. But re-
ligion as popularly understood, that
is as an emotion or a code of con-
duct, easily bends to insanity.—Rev.
St. Clair Hester.

A Merry Heart Doeth Good.

While the Bible is full of trans-
cendent beauties, profound doctrines,
fundamental principles and marvel-
ous mysteries, yet it is none the less
a lamp to the wearisome path of life;
it may be found a prescription
written by the Great Physician which
will prove a specific against many of
the ills of the world, and a sure in-
spiration to a life of usefulness and
happiness. "A merry heart doeth
good like a medicine."—Dr. Charles
Edward Locke, Methodist Episcopal.

Prayer the Language of God.

Prayer adjusts man to God, and
without prayer there is no method of
communication. As consistent would
it be for the farmer to complain be-
cause he had no harvest when he had
omitted to plow and plant and reap,
as for a man to lament that he had
not received certain blessings when
he had forgotten to pray. In the
prayer of man, he told them, came
not to be ministered unto but to min-
ister. He was showing them, by his
own example, how dignified, how no-
ble, service is. The idea was new to
the world, but it has entered into the
spirit of the religion he founded.
Self-sacrifice, self-denial, are the
watchwords of his true followers.—
Christian Herald.

Why We Pray.

Why pray if God knows our needs
before we ask Him? All things have
a medium. Prayer is the channel by
which the Father would transport to
us many of our necessities. Prayer
renders man's soul sensitive and re-
ceptive to God's will. Sometimes peo-
ple complain that their prayers have
not been answered, but oftentimes the
path along which the answer would
come has been obstructed by years of
wasteful indifference.

Public Baths for Dogs.

Dresden has developed a curious
idea. The public baths of that city
will shortly receive an addition that
is probably without parallel. The
new annex will consist exclusively of
bathing establishments for dogs, or-
ganized on the strictest lines of dis-
tinction. There will be first, sec-
ond, and third class bathing places.

Is Disease a Crime?

Not very long ago, a popular magazine
published an editorial article in which
the writer asserted, in substance, that all
disease should be regarded as criminal.
Certain it is, that much of the sickness
and suffering of mankind is due to the
violation of certain of Nature's laws.
But to say that all sickness should be
regarded as criminal, must appeal to
every reasonable individual as radically
wrong.

It would be harsh, unsympathetic,
cruel, yes criminal, to condemn the poor,
weak, over-worked housewife who sinks
under the heavy load of household cares
and burdens, and suffers from weak-
ness, various displacements of pelvic
organs and other derangements peculiar
to her sex.
Frequent bearing of children, with its ex-
hausting demands upon the system, coupled
with the care, worry and labor of rearing a
large family, is often the cause of weak-
ness, derangements and debility which are
overcome, by the many household cares
and the hard, and never-ending work which
the mother is called upon to perform. Dr.
Pierce's Favorite Prescription is a remedy
for women's peculiar weaknesses and
illnesses. Dr. Pierce's Favorite Prescription—
that one of the greatest obstacles to the cure
of this class of malady is the fact that the
sufferer, over-worked housewife can not get the
needed rest from her many household cares
and labor to enable her to acquire from the
use of his "Favorite Prescription" its full benefits. It
is a matter of frequent experience, he says,
that his extensive practice in these cases, to
meet with those in which his treatment falls
reason of the patient's inability to abstain
from hard work, long enough to be cured.
With these suffering from prostrated, ante-
vision and rejuvenation of the system or
other displacement of the womanly organs,
it is very necessary that, in addition to tak-
ing his "Favorite Prescription" they abstain
from being very much, or for long periods, on
their feet. All heavy lifting or straining or
any kind of work should be avoided. As much
out-door rest as possible, with moderate, light
exercise is also very important. Let the
patient observe these rules and the "Favor-
ite Prescription" will do the rest.

Dr. Pierce's Medical Adviser is sent free
on receipt of stamps to pay expense of
mailing only. Send to Dr. R. V. Pierce,
Buffalo, N. Y., 21 one-cent stamps for pa-
per-covered, or 31 stamps for cloth-bound.
If sick consult the Doctor, free of charge
by letter. All such communications are
held sacredly confidential.

A New Magazine for You

I am bringing out another new magazine that you will come pretty close to
liking. I wouldn't be surprised if it hit you harder than anything in the
shape of a magazine you have ever seen. There isn't much style to it, but it
has the stuff in it that you and everybody else will want to read. It is called

THE
SCRAP
BOOK

Something New in Magazine Making

THE SCRAP BOOK is the most elastic thing that ever happened in the way of a
magazine—elastic enough to carry anything from a tin whistle to a battleship. Every-
thing that appeals to the human brain and human heart comes within its compass—fiction,
which is the backbone of periodical circulation; biography, review, philosophy, science,
art, poetry, wit, humor, pathos, satire, the weird, the mystical—everything that can be
classified and everything that cannot be classified. A paragraph, a little bit, a saying,
an editorial, a joke, a maxim, an epigram.

Nothing Like It in the World

There isn't anything in the world just like THE SCRAP BOOK. It is an idea on
which we have been working for several years, and for which we have been gathering
materials. We have bought hundreds and hundreds of scrap books from all over the
country, some of them a century old, and are still buying them. From these books we
are gathering and classifying an enormous number of gems, and facts and figures, and
historical and personal bits that are of rare value. Furthermore, we have a corps of peo-
ple ransacking libraries, reading all the current publications, the leading daily papers,
and digging out curious and quaint facts and useful facts and figures from reference books,
encyclopedias, etc., etc.

Don't fail to get a copy of this first issue of THE SCRAP
BOOK. It sells at the price at which all our other maga-
zines sell—Ten Cents a Copy and One Dollar by the Year.

On all news stands, or from the publisher.

Subscription Price, one dollar per annum. Entered at the Postoffice at Salisbury, Md. as Second Class Matter.

SENTIMENT FOR A TRIAL SAND-CLAY ROAD.

The Advertiser is pleased to note expressions of interest on the road question and approval of the Road Building plan advocated in these columns by Mr. Waller in our last issue. The question of material has always been we think the crux of the situation in our county. It may turn out that instead of being a death, we are abundantly supplied with excellent road material in Wicomico. The Sand-Clay method certainly has the merit of cheapness and seems to accord with common sense. It is far better to have a plan to improve the roads for the entire county, than to build one expensive piece of road that could lead nowhere in comparison. The important thing, we think is not to be content with an inefficient trial, but insist upon complying with all the conditions necessary to insure success as closely as possible, with the assistance of any experienced aid that can be found. We can well afford to expend a great deal of care and patience on one mile of road, if this should result in a great educational object lesson for the entire county. We are of the opinion that the people of the county would wisely choose their own material for the Public Roads.

Mr. Waller's idea not being based on theory alone, but actual successful trial in localities of similar soil to that, here will be received with thoughtful consideration by those interested in substantial improvement of our roads on a larger and more extensive scale than the expensive material named in the Shoemaker law makes possible. We believe there is enough back of the sand-clay proposition to warrant the County Commissioners, who are already deeply interested in the question, going farther and may have a scientifically constructed mile road made, in their discretion, as a test.

Some Leading Bills—Status At Annapolis.

Corrupt Practices Act—No corrupt practices bill has yet made its appearance at Annapolis.

Ballot Reform Measures—Reform League bill, Mr. Lehman's two bills providing for the Crawford county system of direct voting at spring primaries and for the counting of all ballots where the cross interests within the box, irrespective of where the legs extend, all in hands of House Elections Committee. Senator Linthicum's bill providing for Crawford county system at all primaries in Baltimore city and for covering same features as bill offered by Delegate Lehman for counting of ballots, in hands of Senate Elections Committee. Senator Dorrill's bill providing for Worthington election law in Frederick county, introduced Tuesday and referred to Senate Elections Committee.

Oyster Bills—Hamar bills offered by Senator Linthicum and Delegate Lehman, as well as 8th survey bill and Oysterman's Protective Association bill, all in hands of Chesapeake Bay Committee. An effort will be made to have them reported this or next week, and the fight will be made on the floor.

Corporation Bill—Revising corporate law of State, slumbering with Senate Judiciary Committee.

The Cent. Mileage Bill—Passed over Tuesday.

Gold Labor Bill—Favorably reported and passed to third reading, in House Tuesday.

Judge's Pension Repeal Bill—Unfavorably reported and made special order in Senate for next week.

The "Eminent Lawyer" bill has been reported favorably by the Judiciary Committee in the House with amendments. The amendments practically change the nature of the bill. They make it a misdemeanor for any person to solicit a suit for either damages or divorce. This is to be followed, we understand, by a bill which will make it a misdemeanor for any lawyer who solicits a suit for damages or divorce.

This is to be followed, we understand, by a bill which will make it a misdemeanor for any lawyer who solicits a suit for damages or divorce.

The "Eminent Lawyer" bill has been reported favorably by the Judiciary Committee in the House with amendments. The amendments practically change the nature of the bill. They make it a misdemeanor for any person to solicit a suit for either damages or divorce. This is to be followed, we understand, by a bill which will make it a misdemeanor for any lawyer who solicits a suit for damages or divorce.

DEATH OF MR. WOODCOCK

At Age Of 76. Born in Pennsylvania. Learned The Jewelry Business in Baltimore. Lived Here 54 Years.

After an illness of several weeks at the Peninsula Hospital, Mr. A. W. Woodcock died at his home yesterday near the noon hour.

Mr. Amos W. Woodcock was born January 6th, 1830, near Clear Ridge, Fulton county, Pennsylvania, on a farm on which he lived until he was sixteen years old. At that age he went to Baltimore and learned the jewelry business under his uncle, William Woodcock, at what was then 187 W. Pratt Street. At the completion of his trade he moved to Salisbury, October 17, 1861. Here he has resided his entire life, and has managed a successful jewelry business for fifty five years. At the age of ten years he was converted at a camp meeting, and he has lived a consistent Christian and a member of the Methodist Episcopal Church ever since. When he moved to Salisbury, he connected himself with the Methodist church here, and joined the Monday night class. The leader then was David Vance and at his death William J. Smith was appointed leader. Dr. Smith, at his death was succeeded by Thos. H. Williams. Mr. Woodcock was always found at the class and the church services, and was a constant and faithful member of the Sunday School.

In August 1860, he married Miss Sallie Cannon, daughter of Wingate Cannon, near Seaford, Del. By this union he had three sons who are all living, W. F. A. Woodcock, of Wicomico, Minn., and J. L. and Samuel P. Woodcock of this city. Mrs. Woodcock died August 18th, 1900. The 27th of August 1863, he married Miss Julia A. Wright, daughter of Joseph and Sallie Wright, near Mardela, by whom he is survived. By this latter union, four children were born, who are all living, Mrs. Rev. T. E. Martin, of Elkton, Del., Mrs. Dr. George W. Todd and Miss Elizabeth W. Woodcock, of this city and Prof. Amos W. Woodcock, Jr., of Annapolis, Md. Mr. Woodcock was, at one time, largely engaged in agricultural pursuits, and grew small fruits and truck. He was the first man to grow and ship strawberries from Salisbury, making his first shipment in the spring of 1868.

Funeral services will be held Sunday afternoon at three o'clock, at Asbury M. E. Church.

Consumption

There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Millions of people throughout the world are living and in good health on one lung.

From time immemorial the doctors prescribed cod liver oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They can take

SCOTT'S EMULSION

and tolerate it for a long time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, and that is the reason it is so helpful in consumption where its use must be continuous.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Inaley, under the firm name of Inaley Bros., have been appointed General Agents for the Washington Life Insurance Co., for the State of Maryland and the District of Columbia. They will have headquarters and the general office of their Division in the Continental Trust Building, Baltimore. Mr. John W. P. Inaley will have charge of their new engagement while his brother, Mr. Wade H. Inaley will conduct the local office in Salisbury, where they are engaged in both fire and life insurance. The Washington is one of the best Life Insurance Companies, doing business, while Mr. Inaley has acquired a wide reputation as a successful life insurance manager and collector. He will inaugurate an active campaign and make things stir in his territory.

—The Salisbury Athletic Club will include Sunday afternoon talks to the business men of Salisbury. prominent speakers being now arranged for. The following resolutions of thanks were passed at Monday night's called meeting. To Ullman Bros. for overseeing and managing the construction and arranging of the apparatus; to F. A. Grier & Sons for their kindness in wiring the rooms; to Richardson Bros. for their plumbing work; and to all the members for their zeal in pushing the work to a successful culmination.

—A meeting of the State Democratic Editors' Association will be held in the old Senate Chamber, Annapolis, on Tuesday, February 27th, at 8 o'clock p. m. for the purpose of considering amendments to Election laws giving more time for printing the revision of the registration lists, printing the ballots for the general election and providing for counting the ballots when the intention of the voter can be clearly ascertained. Also the selection of delegates to the National Editorial Association: a call on the Governor, at his request, and the usual banquet at night.

—Miss Margaret Kuhns, a returned missionary from Japan, will hold service at Green Hill, Monday, March 24th, at 7 o'clock p. m.; Royal Oaks, Tuesday; Quantico, Wednesday; Bethesda, Thursday; Mt. Pleasant, Friday; at the hour above named each day. Everybody invited to these meetings. Also a meeting for women only at each place the morning following every meeting at night.

—WANTED.—Two men in each county to represent and advertise Hardware department, put out samples of our goods, etc. Traveling position or office manager. Salary \$50.00 per month, cash weekly, with all expenses paid in advance. We furnish everything. The Columbia House, Chicago, Ill. Dept. 410, 384 5th Ave. 4t.

—An interesting debate will take place at Easton on Tuesday evening, February 27th, the contestants being pupils from the Easton and Salisbury High Schools. The question is: Resolved, "That the General Assembly of Maryland Should Pass the Haman Oyster Bill." Easton will support the negative. Salisbury will take the affirmative and the debaters will be Messrs. Bartwell Adkins, John Morris, James Bennett and Norman Smith.

—The marriage of Miss Carrie Livingston to Mr. Oscar Catlin was beautifully solemnized, Wednesday, February 22nd, at Union M. P. Church by Rev. F. J. Phillips. The bride was attired in cream voile and carried a lovely bunch of flowers and foliage tied with white ribbon. The groom, Mr. Catlin, and sisters, Mr. Norman W. Carey, and brother of the bride, Larry, wore the conventional black. Mrs. Phillips rendered the wedding march. After the ceremony they drove to the home of the groom, where they held a reception for the nearest relatives.

—Mr. J. B. Simerly of Tennessee has named the farm he recently bought of Mr. D. W. Perkins, the "Riverside Stock Farm." Mr. Simerly expects to make a specialty of raising fine hogs, ducks, geese and Rhode Island Red Chickens. From 13 of these hogs Mr. Simerly has been getting 10 eggs a day for the last two months. He will be assisted on the Stock farm by his son-in-law, Mr. Haymaker, who has had considerable experience in the rich Valley of Virginia. Mr. Simerly was a practicing attorney for 30 years and his son intends opening a law office here soon.

—The marriage of Miss Carrie Livingston to Mr. Oscar Catlin was beautifully solemnized, Wednesday, February 22nd, at Union M. P. Church by Rev. F. J. Phillips. Stubborn Coughs and Colds CURED BY FOLEY'S HONEY AND TAR

Obstinate, racking Coughs that make your head ache, your throat and lungs sore and inflamed, that rob you of sleep until your system becomes so run down that you are in grave danger of Pneumonia or Consumption, are quickly cured by **Foley's Honey and Tar**.

FOLEY'S HONEY AND TAR

soothes and heals the inflamed air passages, allays the feverish conditions, stops the cough and prevents serious results from a cold.

FOLEY'S HONEY AND TAR

is the only prominent cough medicine on the market that does not contain opiates or harmful drugs of any kind, and on this account is safest for children.

It is unequalled for Croup and Whooping Cough and will quickly cure the racking cough which follows measles and leaves so many children with weak lungs unless properly treated.

Remember the name - **Foley's Honey and Tar** - and refuse substitutes that cost you the same as the genuine. Do not take chances with some unknown preparation.

Consumption Threatened.

C. Unger, 211 Maple St., Champaign, Ill., writes: "I was troubled with a hacking cough for a year and I thought I had consumption. I tried a great many remedies and I was under the care of physicians for several months. I used one bottle of **Foley's Honey and Tar**; it cured me, and I have not been troubled since."

Three sizes - 25c, 50c, \$1.00. The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

SATURDAY NIGHT TALKS

By F. E. DAVISON.

JOHN'S BURDEN BEARERS.

Feb. 25, '06 - (Mark 3: 1-12.)

The world is full of people who have to be carried. They are born weak and helpless and they never get so that they can stand alone.

Four men carrying one man is no unusual sight. The chronic invalid who was taken into the Judea centuries ago was only a type of vast masses of the human race in all lands and in all ages who are burdened upon society from their birth to their death. They are the victims of heredity. Besides those unfortunate who are not to blame for their condition there is a great host composed of men and women who are suffering the effects of their own folly, reaping the harvest of pain they themselves have sowed.

They have recklessly maltreated their bodies and are paying the penalty of abuse. They have steered their physical vessel upon the rocks and what there is left is only a battered wreck pulled out of the jaws of death. And then there is every community a considerable contingent of the shrewd, lazy, well-to-do, happy-go-lucky individuals who depend upon society which they claim owes them a living to cover their nakedness and to keep them from starving. It is no longer possible to enforce the rule "If any man will not work, neither shall he eat."

Whether we like it or not, society as at present constituted, says these people must not die on our hands. It is because of this condition of things that the strong are perpetually reminded of the presence of the weak, and the duty of caring for them. Those who have money must give it, those who have influence must exert it, those who have strength must exert it. The cry for help or the piteous appeal of the sight of suffering is ever with us and whenever we will we can do good.

And after all that is said it should be. All human trouble ought to roll itself on the broadest shoulders, not on the weakest. The best men ought to be the most patient, the most deserving should be the most forbearing. It is better to be one of the four men who carry, than to be the fifth man who is carried. Rich men ought to bear the infirmities of the poor. Wise men ought to bear the infirmities of the ignorant. Strong men ought to bear with the feeble men. Cultured people ought to bear with the rude and illiterate. The highest should stoop to the lowest. Humanity should rise as a whole, not in classes and sects. If a building needs elevation, we do not put the jack-screws under the eaves to lift the roof off, but under the foundations that the whole structure may rise together. The solidarity of the race demands that the classes and the masses shall be so inextricably joined in the human structure, that they cannot be treated apart from each other. That which affects the head will affect the foot, and neither can say to the other, "I have no need of you."

This law is recognized in the family. The baby is the ruler of the household, because he is the most helpless thing in it. And the weaker he is, and the more meddlesome and cranky as he grows older, the more is this law observed. The neighbors may think the child Apollo, to the mother he is always Apollo. Let but that child whimper in the night and the mother is instantly by his crib, and his wail arouses the whole household. So it is in the school. The dull scholar gets more attention than the bright one, the stupid mind taxes the strength and vitality of the teacher to a greater extent than a dozen of the slow pupils. She brings out the gift students on visiting days, but she puts her strength into sowing the seeds of knowledge in that obtuse child's head.

So it is in the state. Good men pay the taxes of bad men. Virtuous men pay the bills of dissipated men. Patriotic men settle the debts of disloyal men. The people support the politicians. The gods bear up the bad, and are the subjects of them.

And this law has its application in the duty of one race to another. We have no right to discount and ignore races of men because they are black or brown, or yellow. Africa has a claim upon us. Japan has a claim upon us. Russia has a claim upon us. China has a claim upon us. God hath made of one blood all races of men, and though he "hath set the bounds of their habitations" he hath not built a Chinese wall around them, isolating and shutting them into a prison house of despair. Those who are better favored are under obligations because of that fact to lift up the nations that are prostrate. The darkness of heathenism is itself a plea for light to those who have it, especially since the light-bearers will lose none of their own brilliancy by kindling other lamps. For to him that hath shall be given and he shall have more abundance. The arm that helps to lift another gets more strength of muscle thereby. The mind that instructs another gets itself a clearer understanding of the truth. A heart that sympathizes keeps itself tender. The Dead Sea having no outlet is brackish and bitter; it poisons the bright waters of the Jordan and turns every blessing into a curse, while Galilee, always giving blessing to the whole land.

"MAKES YOU WELL ALL OVER."

RHEUMACIDE goes right to the seat of the disease, sweeps all the germs and poisons out of the blood, cleans up all the plague-spots in the body and sets all the organs to work again in Nature's way. Purely vegetable, non-alcoholic. It is yet the most powerful of cleansing medicines, and at the same time regulates the liver, tones up the stomach and builds up the entire system. **RHEUMACIDE** is the only remedy that cures rheumatism to stay cured.

MOST POWERFUL BLOOD PURIFIER IN THE WORLD.

Rheumacide
CURE AT THE JOINTS FROM THE INSIDE

CURES DISEASE BY REMOVING THE CAUSE.

RHEUMACIDE has cured thousands of cases after all other remedies and famous doctors had failed. Austin Percelle, of Salem, Va., spent \$200 in medicines and hundreds of dollars for physicians' fees, and at last he was cured by half a dozen bottles of **Rheumacide**. G. Dietrich, of 2120 Ramsay street, Baltimore, says it has "made him a new man." Mrs. A. A. Corns, 114 S. Gilmor street, Baltimore, says it cleaned her blood, took away her pains, and made her "feel like a new woman." Your druggist sells and recommends **Rheumacide**.

After Noted Doctors Failed.

Here is a case cured by **RHEUMACIDE** after noted New York specialists had failed. Mr. W. R. Hughes writes from Arizona: "Four bottles of **RHEUMACIDE** have entirely cured me of a long-standing case of rheumatism and greatly improved my general health. I was a total wreck, having had rheumatism for twenty years. I went several weeks and much money trying specialists in New York, but **RHEUMACIDE** is the only cure I have found. When I began to use it I lost my rheumatism. Now I weigh 150 pounds, my normal weight."

W. R. HUGHES.

SELECTING BRUSSELS CARPETS.

Exercise Care in Distinguishing Between the Different Goods.

For ordinary use, and at moderate cost, there is little in the carpet line, that is in every way so satisfactory as body Brussels, says the Pittsburgh Dispatch, while, on the other hand, tapestry Brussels, which bears a decided resemblance to the former, is really the most undesirable and unprofitable floor covering that one can invest in; and yet, it is often imposed upon credulous buyers who are ignorant of the distinguishing characteristics of body Brussels.

AS a renovator of soil and as a food for stock, the cow pea is unsurpassed. To get the largest possible yield of cow peas from any given soil, a plentiful application of POTASH is necessary.

The best methods leading to certain success are fully explained in the 65-page illustrated book, which we send free to farmers who write for it. It tells of the remarkable results attained with cow peas nourished upon POTASH.

Address, GERMAN KALI WORKS, 93 Nassau St. New York.

SPRING, 1906.

CABBAGE PLANTS Early Jersey Wakefield
Large Charbon Wakefield
GROWN HERE IN VIRGINIA IN OPEN FIELD
AND WINTER HARDENED.

Virginia Second Crop **POTATO SEED** Best On Earth.

CABBAGE PLANTS

This is the sixth season I have grown Cabbage for the trade. The stock is the best I ever had. Plants larger and plenty to insure a supply for all my trade, which has increased several fold. All care will be used in packing. Only strong plants will be sent out and found given.

Plants grown here in Virginia in open field and wintered are better for transplanting further north than plants grown in the climate of the Carolinas, where spring weather is earlier, which makes plants very tender.

The expense is not more than one-fourth as much as the Carolinas. While it takes three or four days to get them from the field, from here they will reach destination in Maryland, Delaware, New Jersey, Pennsylvania the same day shipped, or the following morning, green fresh.

Virginia Second Crop Potatoes.

SAFEST AND CHEAPER EVEN THOUGH THEY GROW SEVERAL TIMES THE PRICE OF NORTHERN-GROWN.

Safest for the reason they will stand more cold, weather when put in the ground in early spring, and will not rot so quickly when grown seed.

Cheaper than Northern-grown seed at several times the price per barrel for planting, for the reason that while they are large enough seed, they do not run as large as Northern seed, and one barrel of the Virginia Second Crop Seed will plant as much land as two barrels of Northern-grown.

Again, they will produce from 25 to 35 per cent. potatoes to the acre than the Northern-grown seed.

THE CROP IS NOT LARGE THIS SEASON. I delay you will be like some season before last—not get the seed; or if you will pay a high price.

The seed I will send out this season are selected with care and packed in full size, well-filled barrels.

What Some People Say Of Purch From Me.

The car of seed you sent me last season was the best I ever had and showed splendid results in my crop of potatoes.

Results from second crop seed bought of you last season was satisfactory, hence we send you order for 500 barrels.

The seed I sold from you last season gave entire satisfaction.

Mr. Savage, Sir—Please find enclosed check for \$50.00 for seed of yours. The man I sold them to says they are the finest Sprouts he ever saw and he is able to fill my orders this year. I shall call on you again to help me, as for as order at any time, and oblige. Yours respectfully,

The type of Seed you sent me was the finest I ever saw.

The Cabbage Plants you sent me arrived in nice shape, and I have them.

P. S.—I can furnish, on application, a number of such testimonials.

Yours truly,

Eggs Incubated.

He rushed to the incubator, studied its thermometer, uttered a despairing cry, and turned the lamp a little higher.

"Always day and night," he said, "the temperature must remain uniform. Otherwise the infertile eggs spoil, and the chicks don't hatch."

"If only chicken eggs were like silk-worm eggs or small eggs," he said. "Then there would be money in the incubator business, truly."

"Spauldina time and again exposed silk-worm eggs to a temperature of 30 degrees below zero. He left them in this temperature five hours. Afterwards they hatched every one of them."

"Small eggs are still more remarkable. They may be dried in a furnace till they are scarcely visible, till they are shriveled up, apparently to an ash; and as soon as the air gets at them again they regain their original size and, in due course, the young animals are born."

Common Colds Are The Cause Of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Every one knows that pneumonia and consumption originate from cold, and chronic catarrh, bronchitis, and all throat and lung trouble are aggravated and rendered more serious by each fresh attack.

Do not risk your life nor take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful drug and has thirty years of reputation back of it, gained by its cures under every condition. For sale by C. L. Dickerson and G. Hearn.

A German statistician has been calculating what part of a woman's life is spent before her mirror. He begins with six years and ends with sixty, and makes the time consumed in all the intervening period 7,000 hours, or about ten months of life.

Better Than Gold.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicines can take its place in our family." Try them. Only 50 cents. Satisfaction guaranteed by all druggists.

When Killian von Reusselaer and Miss Dorothy Mannion were married in New York recently a wedding ring was used which had been used by an ancestor and namesake of the groom when he married Ann Van Weyer in Amsterdam 278 years ago.

Escaped An Awful Fate.

Mr. H. Haggins, of Melbourne, Fla., writes: "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by all druggists. Price 50 cents and \$1.00. Trial bottles free.

A 19 year old son of Nathan Wigfield, near Pinesy Grove, Allegany county, while playing with a revolver, shot his 9 year old sister in the right groin, the bullet coming out just above the hip joint. The child is in a critical condition.

Gas In The Stomach.

Belching and that sense of fullness so often experienced after eating is caused by the formation of gas. The stomach fails to perform its functions and the food ferments. Chamberlain's Stomach and Liver Tablets will correct the disorder. They aid digestion and strengthen and invigorate the stomach and bowels. For sale by C. L. Dickerson and G. Hearn.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripe, sicken, weaken the bowels and don't cure. Doan's Regulator acts gently and cures constipation. 25 cents. Ask your druggist.

School children in Strasburg, Darmstadt and other cities of Germany not only have their teeth treated free of charge, but are taught how to maintain food with the least injury to the teeth.

TRY SWP.

Hadst thou a ship in whose vast hold lay stored The priceless riches of all climes and lands. Say, wouldst thou let it float upon the seas, Unpiloted, of fickle winds the sport, And of wild waves and hidden rocks the prey? Thin is that ship: and in its depths concealed Lies all the wealth of this vast universe.

Yes, Hies some part of God's omnipotence. The lucky divine of every soul, Thy will, oh, man—thy will is that great ship. And yet behold it drifting here and there, One moment lying motionless in port, Then, on high seas by sudden impulse flung.

Then drying on the sand and yet again Sent forth on idle quests to no-man's land. To carry nothing and to nothing bring Till worn and fretted by the aimless strife.

And baffled by vacillating winds, It founders on a rock, or springs a leak. With all its unused treasures in the hold Go save thy ship, thou sluggard: take the wheel!

And steer to knowledge, glory and success. Great mariners have made the pathway plain For thee to follow; hold thou to the course Of Concentration Channel, and all things Shall come in answer to thy ever-ready wish.

As comes the needle to the magnet's call, Or sunlight to the prisoned blade of grass, That yearns all Winter for the kiss of Spring.

—Ella Wheeler Wilcox.

DON'T GO AROUND GROANING.

It Is Your Own Fault If You Continue To Suffer.

Why do you go around the house complaining, making yourself and everybody else miserable? It is your own fault if you suffer from Rheumatism, Sciatica, Gout, or other painful troubles that come from bad blood. Science has at last found a complete and palatable cure for all these diseases.

After years of careful study of the cause and cure of such diseases, Rheumatism was discovered. Rheumatism has been used in thousands of cases that were deemed incurable and has performed complete cures. Rheumatism has cured after famous specialists have failed, and has cured a number of sufferers who spent months at the noted John Hopkins Hospital in vain.

The reason Rheumatism cures when it cures, is that it goes right to the seat of disease, sweeps the poisonous germs and acids out of the blood, and removes the cause. It "gets at the joints from the inside."

Rheumatism builds up the entire system and makes you "well all over." Mrs. Laura D. Gardner, of 1801 James Street, Baltimore was cured after she had suffered the most terrible torture for sixteen years. She writes: "People in my neighborhood, where I have lived for more than twenty years, will testify as to my condition before being cured by Rheumatism. At times my suffering was so great that I could not bear to be touched, and my clothing had to be torn from me. I write you this letter because I have recovered, and am daily recommending the medicine to my friends."

The Japanese railways have introduced newspaper reading cars on some of the passenger trains. Tall piles of newspapers are kept at the service of travelers so that they may read as they ride.

Nearly Forgets His Life.

A runaway almost ending fatally started a horrible sneeze on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions, and piles. 25 cents at all drug stores.

While out oon hunting Walter Wallace accidentally shot his brother Jacob in the back part of the thigh with a hammerless rifle.

Lame Back.

This ailment is usually caused by rheumatism of the muscles and may be cured by applying Chamberlain's Pain Balm two or three times a day and rubbing the parts vigorously at each application. If this does not afford relief, bind on a piece of flannel slightly dampened with Pain Balm, and quick relief is almost sure to follow. For sale by C. L. Dickerson and G. Hearn.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrup. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Whooping Cough. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of

Chas. H. Fletcher

The Kind You Have Always Bought In Use For Over 30 Years.

THE CASTORIA COMPANY, 11 BROADWAY STREET, NEW YORK CITY.

What Does It Mean

to let Dividends "accumulate" on a Life Insurance Policy? In many companies it means nothing more than an agreement on the part of the policy-holder, to do without dividends for fifteen or twenty years, and then take whatever dividend the company will be willing to give. Dividends are declared every year in the Mutual Benefit, and the policyholders use them either to help pay premiums or to buy increased insurance. The policies of the

Mutual Benefit Life Ins. Co. contain special and peculiar advantages which are not combined in the policies of any other company. Examine these advantages before placing your insurance. You owe it to your family to have the best.

DELMAR.

Rev. J. T. Little, D. D. President of the Maryland Annual Conference, will make his official visit to Delmar on Wednesday, Feb. 22, and will preach at the M. P. Church at 7:30 p. m. The public is cordially invited.

Mr. W. Lee Dickman and Miss Sadie were married at the bride's residence on Wednesday, Rev. E. B. officiating.

The Patriotic Order Sons of America will turn out at the M. P. Church Sunday morning when a sermon appropriate to the order will be preached.

RIVERTON.

Miss Ruth H. Bennett, who is attending school at Sharpsburg, visited her parents Saturday and Sunday.

Miss Edgar Robinson was taken to the Pennsylvania General Hospital Tuesday, where she was operated on for appendicitis.

Miss Bennett visited the home of Mr. and Mrs. H. B. Bennett Sunday and took with them, Flora, the beloved wife of Willie Bennett.

Mr. Wm. T. Bennett left Monday for Lumbard where he will take a course in telegraphy.

We are sorry to report many of our school children quite ill with whooping cough.

Mr. and Mrs. Henry Cooper also Mr. and Mrs. Wesley English increased their capital stock \$1000. They were both girls.

Washington's birthday was celebrated in our schools, Thursday. Quite an interesting programme was rendered.

KELLY.

Mr. Arthur Parker and Albert spent Sunday with their uncle, Mr. and Mrs. Charles D. Collins.

Miss Sadie Cooper entertained a few of her school children Monday evening. Mr. and Mrs. Joseph Freney's daughter present were Mr. Elmer Matthews, Miss Hattie Matthews, Miss Emma Fooks, Miss Lela Johnson, Mr. John Johnson, Mrs. John Jones and Miss Virgie Freney. They played checkers.

It will soon be time for the spring weather. As soon as the weather comes warm the people get restless.

Mr. Alfred Freney, who has been sick with acute neuritis is improving.

Mr. Lee Clark, who has been down with the pneumonia for over eight weeks is slowly improving.

Mr. and Mrs. Orlie Gordy and little daughter spent Sunday with her parents, Mr. and Mrs. William Moore, of Wagon.

ATHOL.

Withstanding the utmost efforts of her physicians and tender care of her relatives and friends Mrs. Farnham Bradley died Saturday evening, February 18, at eight o'clock.

The funeral services were held Monday in the family burying ground on the farm owned by the late James Farnham, after funeral services at the home conducted by the Rev. O. J. Johnson. A large number attended the services and followed the remains to the grave. She leaves behind her husband three daughters and two sons.

Her loving hands together, her eyes bright and beaming eyes, her face like a broken flower, and her beautiful hair.

At home without our mother, we feel the void that tears our hearts, and we feel that God that will it, and we feel that I should part.

At home and the hours, we feel the void that tears our hearts, and we feel that God that will it, and we feel that I should part.

At home and the hours, we feel the void that tears our hearts, and we feel that God that will it, and we feel that I should part.

Dennis, Charlie Parsons, Will Littleton, Benjamin Jackson, Lawrence Jackson, Willie White, James West, of Friendship.

Trouble Ahead.

Orisfield Md.—Proceedings were begun against the oyster planters of Orisfield and vicinity by the oyster dredgers and tongs, on the sworn statement of Cope Sterling, of Orisfield, an oysterman, that the planters in question had looted and were holding and improving natural oyster grounds in the waters of Somerset County, contrary to the laws of Maryland.

Over a hundred persons engaged in planting oysters are accused on the above charges and summoned to appear before Justice Thomas K. Wheaton, of Orisfield on Wednesday, February 14. It will be the efforts of the dredgers and tongs who are bringing the charges to prove that the planting ground now being operated is natural rocks and bars and if this is accomplished the planters will be compelled to give up their planting grounds and will be allowed a limited time to remove their oysters therefrom.

The following indictments were issued today and placed in the hands of deputy Sheriff William A. Sterling to be served: Fred J. Johnson, A. A. Whittington, Emily H. Tawes, G. Larry Daugherty, Joseph H. Mahoney, Sallie M. Mahoney, Stratten Dryden, Nathan S. Conner, Lillie F. Morris, Paul Gunby, Addie F. Dorman, William T. Chaffey, Emma F. Gunby, George Ward, John G. Chaffey, Charlotte G. Chaffey, Mary J. Chaffey, George R. Stevenson, George Morris, Jessie H. Gunby, Eva L. Richardson, Newman Richardson, Ruth Richardson, Ella H. Richardson, Carrie A. Whittington, Nathan F. Feenytte, Nathan J. Conner, Elijah J. Conner, Ralph A. Conner, Henry F. Nelson, Arthur Sterling, Elsie H. Nelson, Daisy Sterling, Mary E. Sterling, William H. Obelton, Mary O. Sterling, Archie Sterling and Marie Sterling.

The witnesses for the State against the planters are all oyster men and as follows: Cope Sterling, Hoblittale Sterling, George N. Sterling, John Tyler, D. E. Lawson, William Ward, George L. Sterling, Silas Sterling, Gordon Sterling, L. T. Sterling, Upsher Milborne, Noah B. Byrd, Albert Reese Sterling, Robert L. Sterling, Quinn Sterling, William A. Sterling, Henry B. Sterling. It is understood that sixty-five to seventy more planters are to be indicted.

Unclaimed Letters.

Miss Ella B. Brittingham, Miss Georgie Brightman, Mr. Goldsberry Bailey, Mr. Johnny Buck Carter, Mr. Bill Collier, Mrs. T. J. Chancy, Mrs. E. F. Dr. Filippo Resigns.

Rev. Dr. O. F. Filippo, who is well known in Baltimore and who for 18 years has been connected with the American Baptist Publishing Society, of Philadelphia, has resigned his position as secretary on account of ill health and has been succeeded by Rev. Samuel G. Well, late pastor of the Second Baptist Church, of Philadelphia.

Years ago Dr. Filippo was pastor at Waverly Baptist Church, and a few years before was the general missionary of the Baptist Church for the district of Delaware. He was also once the pastor of the Baptist Church at Dover, Del., and was chaplain of the House of Representatives when the late Thomas F. Bayard was elected to the Senate for the first time.

A Bank That Can't Fail.

From the Wall Street Journal.
Bank clearings in Seattle in 1905 have been \$200,851,000. In 1895 they were only \$36,691,000. This is 1100 per cent increase in 10 years. The clearings this month are larger than the entire year of 1896.

This little fact, one out of a multitude that might be cited, shows the tremendous growth of the mighty West. The possibilities of growth are still infinite.

There is one bank that can't fail—that is our country. Put your money into the country, and it will yield a sure and generous profit.

—BURY FOR SALE—40 tons capacity, built by Brooks & Son, Cambridge. First class vessel. Price reasonable. Address, Box 55, Ocean View, Md.
