## How to Create a Google Form: Other Settings

- By clicking on the "Settings" link, you can set some parameters for the form, including:
  - Who can sign in
  - How respondents can sign in
  - What respondents see and the order in which they can view the questions
  - Options for making this into a quiz

## How To Distribute a Google Form

- There are several different ways to do this but to start, click on the "Send" button at the top right of the form you are currently creating:
- This will bring up the "Send form" box with options. You can:
  - Email
  - Create a shareable link
  - Get the HTML info
- You can also use Google+, Facebook, or Twitter.
