ROSTINO, O'Bober 10. Our late Victory over the rench has given us great Spirits. Seignor Clementi de aoli, Brother to our illustrious General, shewed a conduct equal to his uncommon Fortitude. And the General himself behaved with that masterly Intrepidity which becomes the Commander of a Nation. Courage which becomes the Commander of a Nation. Courage is not wanting to the Corficans, nor to their Chief. But what can we do, if oppressed by the whole Power of France? We can hardly think it possible that all the Powers of Europe will stand tamely by, and see us massacred, because we are defending our Liberties.

We know not yet what Steps the King will take, but never was a Prince who fought the Good of

his Subjects, more embarafied. For these Two Days past there have been extraordinary Movements at Court. The King sometimes confers with his own Ministers and the Senators, and at other Times with Bridge Boundary other Times with Prince Repnin. Nov. 1. A Letter from Cadiz, dated Sept. 27, fays, and Captain of the Militia of this Town, has altonished us by her Talents and Knowledge in Literature; which she displayed in a public Exercise, some Days since, before a Number of Persons of Rank and Eminence. At Three Meetings, of Three Hours each, she answered with the greatest Clearness and Precision, all the Questions that were put to her on facred and present a little of the Contract and the Octhography and profane History, Grammar, and the Orthography of the Greek, Latin, French and Spanish Languages, as well as upon Cosmography, Geometry and Altronomy, and fully demonstrated and explained the Five general Charts of the World, the Terrestrial, Celestial, and Armillary Spheres, the Eclipses and Systems of Prolemy, Tycho-Brahe, and Copernicus: She also gave the most ample Explications in Chronology, and even entered into Details concerning the Climates of different States of Europe, their Productions, Re-ligions, Manners and Customs, the Forces of the different Powers, and the Monies of each Country, &c. concluding with a Specimen of her furprizing Knowledge in Heraldry.

Nov. 22. By fome late Conversation it is very evident this Country will remain in Peace with all Europe;

and that the Measures of Administration will tend to bring about Harmony with our Colonies, upon the Principles of a well regulated Commerce, on which alone (joined with Union and Harmony at home) all our

They write from Konigsberg, in Germany, that that City and its Environs, are filled with Polish Ladies, and other Refugees, from all Parts of Poland, for Fear of failing into the Hands of some or other of the Parties, that are continually ravaging that Country. These Resugees are so numerous, that it is impossible to find Lodgings for them all in that City, and other Towns thereabout, so that many are obliged to take up with Apartments at the Houses in the Country.

Nov. 24. It is particular, that in the Ship Friend-ship, Capt. Thompson, for Jamaica, no less than Three Heirs to considerable Estates, are on board, viz. Peter Valette, Esq. Capt. Spencer of the Artillery, and Miss

Valette, Efq. Capt. Spencer of the Artillery, and Milis Jenkins. One of these is Heir to about 12,000 l. per

By Advices lately received from Greenock, in the Weit of Scotland, we are informed that above 300 Perfons have died at that Place of the Small-Pox, in which Number were the Two Clergymen of the faid

Nov. 26. A Letter from a French Officer in Corfica, fays, "Paoli perluades his Followers, that France has,

on the Instances of the Court of England, agreed to fend but a fmall limited Number of Troops hither; fo that it will always be easy for him to make Head against them. He has just put under Arrest his Secretary Mattei, the Son of the Chancellor, having discovered, that he held a Correspondence with the Marquis de Chauvelin. The Nation has more Confidence in Paoli than ever; his Soldiers have Sixteen Sols per Day; and many of ours, who have deferted, and joined him, have afterwards come to plunder us. The Marquis de Chauvelin is obliged to grant a Ration of Bread to the Officers, who are in Want of every Thing, and who are forced to march on Foot, and to bear even more Fatigue than the common Soldiers.'

Yesterday Mr. Steare, Publisher of the North-Briton Extraordinary, No. 4, was called to the Bar of the Court of King's Bench, in order to receive Sentence; when, after a very learned speech from the Bench, on the Nature and Tendency of the faid Number, he was fentenced to fuffer Three Months Imprisonment.

Some Changes in the Ministry are confidently talked

We are affured that a thorough Reconciliation has taken Place between the Right Hon. the Earls of Temple and Chatham, and Yesterday the former dined with the latter, at his Seat at Hayes, near Bromley, in

Kent.

The Right Hon. Mr. George Grenville, it is faid, will foon be appointed Chancellor of the Exchequer.

It has been talked of, that a Bill of Pains and Penalties is preparing, and will be proposed, together with another, to disqualify a certain Patriot, or rather Martyr to Liberty, for ever again holding Place or Honour. This, it is confidently said, is the Modelant is at present intended to be pursued, in case he that is at prefent intended to be purfued, in case he fails in a certain Point, foon to be determined; but that the Thoughts of an Expulsion are thrown aside.

Nov. 27. We hear that a great Man in the Law has given it as his Opinion, that the Law, conflitutionally, does not allow of any Alteration of Records, any more than it did of General Warrants; and that they were both practifed only as being customary, but both equally illegal and unconflitutional.

An ingenious French Gentleman, who has lately re-turned to France, from a Voyage to South-America, on board a Spanish Register-Ship, reports that the Spa-niards have lately discovered several of the old Silver Mines, which were worked by the ancient Indians be-fore the Conquest of that extensive Empire, particularly where they call De Los Encomenderos, in the Province of the Lipes, near the famous Mountain of Potofi, very rich of Ore, and promifes a lafting Work,

above 500 Indians being employed therein.

The Mine of Saltpetre, lately discovered in North-America, it is said, will be opened, and worked on the Government Account, as that essential Article is now become an Object of the utmost Importance to

this Kingdom. A Letter from a Gentleman at Bombay, to his Brother in London, mentions, that on the 13th of January, near Eleven o'Clock in the Morning, a Powder Magazine, within Fifteen Yards of his House, was blown up by the premeditated Malice of one Hart, a Quarter-mafter Serjeant of Artillery, who, being punished the same Morning for Missehaviour, took this desperate and diabolical Step to destroy himself, and be revenged on the Public. There were about Thirty-eight Parrels of Powder contained in the Magnetic eight Barrels of Powder contained in the Magazine, which, in an Instant, levelled many Houses to the Ground. There were about Thirty killed, and Sixty wounded, among them the Lady of the Writer of the

Nov. 19. Several important Changes in the Admini-firation are again talked of as speedily to take Place, of which it is said the following are the Chief. The Earl of Chatham to be Secretary of State for the Southern Department. Earl Temple, Prefident of the Council. Marquis of Rockingham, First Lord of the Treasury. Right Hon. Mr. Dowdeswell, Chancellor of the Eveneuer. of the Exchequer. Right Hon. George Grenville, Esq; Secretary of State. Edmund Bourke, Esq; Secretary to the Marquis of Rockingham. And it is said the Earl of Shelburne will be appointed Ambassador to the

Court of France. Dec. 1. We hear that the Right Hon. the Earl of Egmont has been fent for to St. James's, and that he was afterwards defired to attend the Cabinet Council. The E— of C—m has ftrongly declared his Difap-probation of any intended Measures to expel Mr.

We are informed, that immediate Liberty has been again promised lately, and some Douceurs likewise offered, on Condition of stopping all Law Proceedings against a certain great Man; but the Acceptance of them has been declined, on account of the Promife made to the Public; and of the Enquiry very foon to

be entered on relative to the Party confined. The Petition of a popular Member was Yesterday (and not before) delivered into his Majesty's own Hands, by Sir Joseph Mawbey, Bart.

The following is now a frequent Toast among the genuine Sons of Liberty, viz. The Glorious Three; Mr. Bourke, as the greatest Orator on Behalf of Liberty, in the House; Mr. Wilkes, as the greatest Patriot out of the House; and Mr. Serjeant Glynn, as the housest Liberty.

honestest Lawyet. Dec. 3. The Venetians, we are told, are taking every necessary Precaution to guard against a Surprize on the Pare of the Turks, as it appears from undoubted Au-

thority, there have not been fuch Preparations for War this Century past, as at present, throughout the Turkish Dominions, which makes the Italian Politicians conjecture there is another Object in View besides their Declaration against the Russians.

It was rumoured this Morning that most of the M—ry are of Opinion, that the People of America should be obliged to submit to the Authority of the Mother Country: That Great-Britain should by no Means embroil herfelf by affifting Corfica: That no Measures should be taken, or any Influence used to prevent a certain Gentleman taking his Seat.

Some Letters from Leghorn mention that General Paoli had actually informed his Countrymen, that his Expectations of Affiftance from Great-Britain were entirely at an End; and it was thought that this Difappointment has been the principal Means of inducing that Chief to liften to the late Propositions of France.

Some Letters from Hamburgh mention, that if Matters should come to Extremities, it is imagined that the Court of Vienna will affift the Ruffians in the approach-

ing War against the Turks.

The popular Affair that was to be taken into Consideration by an august Assembly, before whom a considerable Number of People were ordered to attend, is postponed to Monday Se'nnight, the 12th Instant, on account of the Indisposition of a material Evidence.

It is now very confidently affirmed, that the popular State-Prifoner will in a few Days receive a Pardon, but not through the Mediation of any Minister.

We are informed that the Friends of Mr. Wilkes have declared to a Number of great Persons, that he defires no Favour to be shewn him, if he does not prove the Truth of every Allegation in a late Petition.

POLITICAL MANOEUVRES.

November 25, 1768.

IN Confequence of repeated Sollicitations on the Part
of the Earl of Chatham, a most Cordial, firm, perpetual Union this Day took Place, with his noule Brother-in-Law Earl Temple. It is not doubted that this Friendship will produce the most follid Advantages to the Public, whose Interests have, fince those noble Lords were jointly in Office, been occasionalloy betrayed and neglected. Mr. Grenville has heartily acceded to this Union; fo that it may be prefumed, there are now the fairest Hopes of seeing this Country rescued from the Storm that for some Years has been gathering with a most threatening Aspect. In like Manner, previous to the late War, when by Ignorance, Foliy, and Cor-ruption, the public Affairs were reduced to the most deplorable Situation, this Family, and this Family only, refcued the Kingdom from the Fate that seemed inevitably to await it; and from being the most abject and despicable, it became, in their Hands, the most powerful and respectable Nation upon the Face of the Globe.

Liverpool, Dec. 1. By a Letter from Kirkwall, in Orkney, we have an Account of the Shipwreck of a large Vessel, bound from Virginia for Aberdeen, on the isft Ult. in the Island of Sundy. The Ship is broke to Pieces, and not so much as one of the Crew, being so in Number, saved. Her Cargo, confisting of Tobacco, and Staves, has mostly gone to Sea; and what has been cast ashore, is spoiled with the Salt Water, so as to be of little or no Use.

CHARLES-TOWN (SOUTH-CAROLINA) Feb. 7. It is a Fact, that if the Revenue Acts, for the Repeal whereof this whole Continent have earnestly and unani-moully petitioned, be not speedily repealed, the gene-rality of the People of this Province will strictly adhere to several Resolutions they have lately entered into for establishing Occonomy, encouraging provincial Labour, and keeping more Money in the Colonies; amongst which are the following. 1. Not to purchase, or cause to be purchased, any Goods whatever, imported from G. B. except Hard-Ware: 2. To go heartly to work in manufacturing their own and Negroes Cloathing : 1. To avoid, as much as possible, the Purchase of new Negroes: 4. To give all possible Encouragement to the Importation of such Goods (not prohibited) as are manufactured in others of his Majesty's Colonies; 5. Totally to difuse all kinds of Mourning, &c. These and other Resolutions of like Tendency, to cease whenever the Burthens complained of are removed.

Extract of a Letter from a Gentleman in London, to his

" I thank you for the Particulars concerning your Public Affairs ; and wish what has happened fince, do not more embroil them. However, I am in Hopes, that in the End, it will turn out to the Advantage of the Colonies. Your Traders before were too forward to rua deep in Debt with our Merchants, and thereby involved themselves in great Difficulties. They were too fond of the Falmons and Foliles of England, and too negligent of the natural Advantages of their own Country: Trading fo much upon Credit, and aping the Extravagancies and Luxuries of the rich and opulent, have already done the Colonies irreparable Damage, funk their Character, and fapped their Virtue. They will now be obliged (if the prefent Difpo. fition hold) to trade more upon their own Stock, to be more attentive to the Rules of Commerce, more punctual in their Payments, and more ready to retrench many superfluous Expences, which only tend to ener-vate their Minds, waste their Substance, and enfeeble their Bodies.

"Now I hope the great Principles of Religion will meet with less Opposition, and the Virtues of their Ancestors revive with greater Vigor, Light, and Dignity: As I hold your Part of the World to be in Possession of the most valuable, and diffinguished Bleffings of any Nation under Heaven; a Land of religious, and civil Liberty; a healthy Climate, a Country teeming with Plenty; Sea, Land, and Air, pouring in their inexhaultible Treasures for the Use, Delight, and Happiness of the Inhabitants; and to crown all, Primitive Christianity, unshackled by hierarchical Dominious Christianity and Country Christianity nation, shedding its benign Instuence to light their Path to Glory: So (thus blessed with Divine Favour) nothing can hurt your People, but Ingratitude, and Disobedience, and revolting from his Counsels, who is the great Sovereign of the Universe.

FAILLS OF PATOWMACK For Encouragement to Trade, &c. I purpose to let out, on the most rensonable Terms, for a Number of Years, or otherwise, this Place, with all the valuable improve-ments bereaster mentioned.

AT the Landing, and along-fide of Six Fathom A Water, a complete Stone Building, 151 Feet long, 36 wide, and 31 Stories high.

In this Edifice are contained, 18, A valuable Merchant Mill, with Two Pair of Stones, Bolting Mills and Fan new, well fixed, and conftantly supplied with a never failing Stream, sufficient to keep the whole of them going. I can affirm, that this Mill, with the Affistance of Four Men and Two Boys, can manufacture 50,000 Bushels of Wheat annually, into good merchantable Flour.

2d. A large Bakery, with Three Ovens: Brakes and

merchantable Flour.

2d, A large Bakery, with Three Ovens; Brakes and other Necessaries compleatly fitted, and a fine Bread-Room above the said Bakery and Ovens.

3d, Two large Granaries, 36 Feet by 30, on each Side the Mill, so that Grain cannot be stored more conveniently. Adjoining to these is,

4th, A neat retailing Store, with its Shelves, Counter, Drawers, Sc. compleatly finished.—Adjacent to the said Store, is a convenient Accounting Room, to the faid Store, is a convenient Accounting Room, with a Fire-Place, at the Back of which, is a private lodging Room, with a Fire-Place likewife. From this

Room we enter into a Balcony 24 Feet long, with proper Seats fronting the River, which commands variety of curious and entertaining Prospects.

5th, The several large Rooms below, for the storing of Salt and West-India Goods, with their Cellars, &c. so near the River, that, by the Affistance of a Crane, we the story of the story a Veffel of any Burthen may discharge her Load safe in the Stores in as little Time as can be done in any Port in America; and likewise makes equal Dispatch in Loading, the Granaries being so near the Vessel, and the Fall from the House so great, that, by a Spout from the Windows, the Grain my be conveyed in the most speedy and easy Manner.—The Lost of this Building has no Partition, and therefore, being 151 Feet long, and 16 wide gives great Pleaty of Room. Feet long, and 36 wide, gives great Plenty of Room to spread Flour to cool, in the Summer, so that nothing is wanting but a Capital to make the Place com-

Contiguous to the Mills, &c. is a very good Dwelling-House, built with Stone, Two Stories high, 96 Feet long, and 28 wide, with convenient Rooms, Kitchen, Cellars, and Ten Fire-Places thereto belong-

ing, to be let with the faid Mills.

I have laid out 53 Lots for a Town here; each Lot containing. Half an Acre, including the Tobacco Warehouses; most Part are for Sale on moderate

I have within those Lots built a Grift Mill, for Country Custom, and a Saw Mill, and will supply Scantling and Plank for building, very cheap. The River Patowmack is so well known, that I need

not be particular in describing it; as from its Mouth to the very Falls, it is allowed to be the best Navigation of any River on the Continent.

The Falls are fituated 12 Miles above Alexandria and 3 Miles above George-Town. —Any Vessel that comes to Alexandria, or up to George-Town, will find deeper Water above to the faid Falls, the Channel being straight, and easily found. The Falls excel any Part of the Colony, for beautiful building Stone, in the greatest Quantity, and the easiest raised. The Soil is excessively rich, and abounds with the finest of Springs convenient to every Part. And,

Above all the Advantages before-mentioned, the Place is noted for one of the finest Fisheries in Virginia; the whole Season through, the best of Fish is caught

here in great Abundance.
The Falls Landing is Ten measured Miles nearer to Leefburg, Winchester, and so to the Back Country, than any other whatfoever. Befides, this Landing being fo much nearer to the Back Inhabitants, and a fine Road, it receives all the Produce brought down from above the Great Falls, in Battoes, which Business is now be-come very considerable, and must improve; as Indian Corn, Walnut-Plank, and Lumber of all Sorts, will bear the Land Carriage, from the Falls above, to this Place; much more, and better, will Wheat, Pig, and Bar-Iron, and Tobacco. All those Commodities are made in great Plenty on each Side the River, above the Falls; the Lands being very fine, the Produce must

For further Encouragement, any Gentleman that might be willing to fettle here, and carry on a Trade fuitable to the Place, may have the Mills, with all Improvements; and I will oblige myfelf to furnish him, this present Year, with 5000 Bushels of good merchantable Wheat, 5000 Bushels next Year, and 10,000 Bushels approaches approaches of my own Produce, for the table Wheat, 2000 Bushels next Year, and 10,000 Bushels annually after, of my own Produce, for the Terms agreed on. Or, if he, or they, chuse rather to put in a Stock, any Way adequate to the Improvements made by me, I will be at an equal Expence towards the Working, Supporting, and Maintaining the said Business, receiving my Proportion of the Profits; but it is not to be supposed that I could advance any Thing farther, than finding the Mills and all Improvements, without any Rent. The Management and Direction I will give up, and he, or they, may draw his, or their, whole Stock out, when they please; otherwise I will rent the whole, very reasonable, as before-mentioned.

" Here Water falls, and might do more, by Art! " Majestic Nature shines in ev'ry Part."

Bendes the above; at the Senaca Falls, which is the Public Landing-Place for all the Iron, and other Commodities, brought down the River Pateromack, from above, at the faid Landing, the faid River being commanded and brought through a natural Race, where there is a Fall of Ten Feet Water; I have to dispose of, in the same Manner, one of the best Places for Furnace, Forges, Saw, and Grist Mill, that can be found? Befides the above; at the Seneca Falls, which is the

The principal Articles to support those Works to Advantage, are Ore, Ceals, Timber and Stone; all of which are in the greatest Quantity, of the best Quality, and easiest procured.—The Iron Ore is inexhaustible on the

River Side, and belongs to me, I will deliver it on the Furnace Bank at Ten Shillings per Ton, Coal at Twenty Shillings per Load of 144 Bushels. Those Araticles are brought down to the Spot by Water in Batatoes; and I have 13,000 Acres of Land adjoining to the said Falls above, binding the River Fifteen Miles including several Islands: All those Lands are covered with the best of Timber; and as the Navigation is so easy up to the Scheme, Falls; it is not possible there should ever be a Scarcity of Timber and Ore to support the Scheme. The Situation is so good that the Furnace, Forges, and Mills; may join to one another, along Side of the faid Race, at the Landing; and every Article is conveyed to the Works; from the main River; by this Race, which affords the Fall, as abovementioned. There being no further Expence attending the Water Part, the Foundation so good; with a natural Race for the Water to run; and building Stone, Timber, &c. so convenient; I can venture to affirm, Timber, &c. fo convenient; I can venture to affirm, that one Year's Profit will reimburfe the whole Expence

that one Year's Profit will reimburie the whole expense and Costs of Building.

Between the Landing at the Seneca, and that at the Little Falls (where the Tide goes) is, by Survey, exactly 14 measured Miles: A public Waggon Road is lately opened betwirt them, and is already much frequented:

I have also built; at the Seneca, a Smith's Shop, with Two Fires, and a Wheelwright's Shop adjoining, together with several Dwelling Houses at the same Place; I have likewise got new Battoes suitable for bringing down the Commodities.

bringing down the Commodities:

The Buildings and Improvements at both Landings, fo far as I have done, have actually coff me upwards of Eleven Thousand Pounds; and I have so great an Opinion of the many Advantages arifing from those convenient Situations, that I am willing to add a further Stock of One Hundred Working Slaves, feated on 17000 Acres of the most valuable Land on Patowmark, joining the faid Falls, actually in my Possession, and convenient to support all the faid Business. Those leveral Plantations are well ftock'd with Horses, Cattle, and Hogs. Among the faid Slaves, are very valuable Tradefinen, fuch as Forgemen, Coopers, Smiths, and Carpenters. I have several Waggons and Teams, that work upon the Road, between the Two Landings and shall be ready to put the whole in Stock, provided I get a suitable Partner, who understands Trade and Business; or will rent the Whole, or Part, as we may

Any Person, or Persons, inclinable to increase his, or their Fortune, by taking the Trouble to come and view the Premises, and examine the same, will be fatisfied, that I have not advanced any Thing farther than they find agreeable to Truth; and I am confident, that there is no Business, whatever, at this Time, that can afford more certain and larger Profit, from fo fmall an Advance, as the additional Expence JOHN BALLENDINE.

THURSDAY, MARCH 9, 1769.

From a Pamphlet lately published in LONDON, THE CASE OF GREAT-BRITAIN A N D

A MERICA. HE Affairs of Great-Britain and her Colonies are at a Crifis. 00000 If our Justice or our Modera-tion dictate to us the making any Concessions, they should 中 be made whilft they can yet be 10 imputed to our Moderation or our Justice. The present Seffion of Parliament should de-0 byftem in this Point. Great-Britain should fix the Pretensions which the will never relinquish, and the Co-onies should have certain Information of those Claims lonies should have certain Information of those Claims which they must submit to. Until such a System be resolved upon, there will be Irresolution on the one side, and Repugnance on the other; and no System can be stable that is not founded upon Equity and Wisdom. It is the Resolution of the present Ministry, it is said, to impose Taxes upon the Colonies, by the Authority of the British Parliament, and to compet the Colonies to Submission. To examine the Justice and the Policy of those Measures, and to suggest others, which appear to me less exceptionable, in each of those Particulars, is my Obiect. is my Object.

The Colonies, by their respective Charters, have not uniformly the same Privileges, or the same Constitution, But, though they differ in many Particuars, they are alike in the following; namely, Thathe Inhabitants of every one of them have a Right to vincial Affemblies; that none of them vote for Re-presentatives in the British Parliament; and that all of them are to enjoy the Freedom of British Subjects. In he Search for Arguments against the Americans, the Validity of those Charters has not passed unquestioned. I shall say, however, but a little in their Support, as the Attacks have been very weak and very few. From the earliest Times, down to the present, the Disposition of foreign Territory, belonging to Great-Britain, which the Restoration, and the Revolution, have left Guadaloupe, how frequently has it been exercised?
And, in the particular Instance of Gibraltar, it was
necessary to pass a Law to restrain it. If, then, the
Crown, at the Time when it granted the Charters,
could have ceded the Territory of America to a foreign Power, could it not have fixed the Terms on which its present and future Inhabitants should continue the Subjects of Great-Britain? Where it could have re-inquished all the Authority possessed by Great-Britain, certainly it could relinquish a Part of that Authority. Where it could make a total Alternation, even to Ene-mies, furely it could make a modified Grant to Subjects. But, suppose that the Crown had not been legally pos-selled of that Power, is there not a Term after which uninterrupted Possession confers a Right? Have not the Colonists possession than that Term? Have they not dedicated their Lives and Forunes to the Improvement of that Country, from a De-endance upon the Validity of their Title? Haye not the British Parliament seen, and acquiesced in their do-ing so? Has not Great-Britain, in her exclusive Trade, received a valuable Consideration? Surely, then, it could be monstrous Injustice to deprive them of Rights o purchased and so confirmed. It has also been urged by some, that the Parliament can revelse these Charters when it shall think proper; for that it can take away from any City or Corporate-Town, in England, its Charter, notwithstanding any Length of Time it may have enjoyed it. I answer, that if an English City, or Corporate-Town, had so purchased their Charter, at the Colonists have purchased theirs, and had so long possessed it, it would be unjust in the Parliament to rescand or violate it. But the Comparison is totally unfair; for the Charter of an English City, or Corporate-Town, and those of the Colonies, besides other material Differences, have this essential one, that the former give a Right of Representation in the British Parliament, and that the latter do not. If therefore the Charter of a British City, or Borough, be rescanded by fome, that the Parliament can reveke these Char-Parliament, and that the fatter do not. If therefore the Charter of a British City, or Borough, be rescinded by Parliament, it is rescinded in an Assembly which is the Representative of that City, or Borough. Where a Part of England only is concerned, the Legislature of England may claim unlimited Power, as a Body to which all the Rights of Englishmen are made over and atrusted. But the Charters of America are Agreements made between England on the one Part, and the Colonies on the other. The Heuse of Commons of England is the Representative of one of the contracting Parties only, namely England; and therefore cannot ries only, namely England; and therefore cannot for both. They have none of them any Share in

lecting it; it cannot therefore legislate for them. It a Party, and cannot therefore be a Judge.

The Opponents of the Americans admit, that they be intitled to the Privileges of British Subjects; that may are a free People. Could we determine what these invileges are, and what this Freedom, the Dispute would be at an End. The American afferts, that he

is deprived of the most essential Privilege of a Briton, and a Freeman, if the Colony to which he belongs can be taxed by an Assembly in which it is not repre-fented. The Advocate for Administration, answers, that there are many Natives of Great-Britain herfelf, who are not represented; for that there are many who have not Votes in the Choice of Representatives, and that the Colonists have no Cause to complain, when they are in the same Condition as many of the Natives of Great-Britain. Would a Colony pretend to a better Conflictation than the Mother-Country, from whence the derives it? As this Argument has been frequently repeated, I suppose it to be a favourite one with Administration; and as it is the only Method that has been tried to reconcile their Affertion, that " the Bri-tish Parliament has a Right to tax the Colonies," with their Concessions, that the Colonists have the Privileges of Britons, and are a free People; let us liften to an American, pleading his own Cause, in Answer to this Argument: " I do not claim a better Constitution "than my Mother-Country: You have misrepresented my Claims. I have said that a Right of Suffrage in " the Choice of our Representatives is the most essential of British Privileges; but I have not said, that every
Briton enjoys that Right; nor do I require that
every Colonist should enjoy it. There are many
Britons who have no Vote in the Election of the
House of Commons, so are there many Colonists who "have no Vote in the Election of our provincial Re"presentatives; alledge, if you will, that in being taxed by your Parliament, you are taxed by an impersed Representative; in being taxed by our pro"vincial Assemblies, we are taxed by a Representative as imperfect. Our Freedom therefore, in Point of Taxation, when we are taxed by our own Assemblies, " is not greater than yours; it is only equal to it; our Conflitution is an Image of yours. But if we 44 are to be taxed by your Parliament, our Constitu-44 tion no longer resembles yours, and our Freedom is annihilated. If there be many Britons who have not a Vote in the Choice of their Representatives, "there are also many that bave. The Possession of a 401. Freehold, in Britain, confers the Privilege of a Vote: The Possession of the whole Continent of America, does not confer that Privilege. Do you not know the infinite Difference between a Nation where all have not the Power of voting for their Representatives, and a Nation where none have that fore you are a free People; the former is what we claim; the latter is the Condition of Slaves, and that is what you offer. We claim the Right of Suf-" frage, as the Privileges of Britons, and you tell us we have it, because we are like those Britons who " have it not! We claim the fame Constitution as "Great-Britain, and you offer us only the Defell of that Conftitution, but deny us its Advantages. Eng- land cannot be taxed but by an Assembly, where her Land is represented by Knights, her monied In-terest by Citizens and Burgesses, and therefore she is a free Nation. Is then America on a Par with England, in point of Freedom? If the can be taxed by an Assembly, to which her Freeholders send no Knights, and her Cities no Citizens. You say that your Right of Suffrage is partially distributed, in Britain; give us then a Right of Suffrage as partially distributed, in America. For this Representation, partial and imperfect as you call it, your Magna Char-tas have been demanded, your Patriots have bled, and your Monarchs have been dethroned. Was this for nothing? Yet this you deny to the Americans, though you fay to us, Ye have the Privileges of Britons." For it is not true that we are in as good a Condition as those Britons whom you call unrepresented, and who are not Electors: For even they have this great Advantage, that both the Representative and the

Electors pay a Part of the Tax, as well as those who have no Suffrage: Whereas if the House of Commons of England should tax the Americans, neither the Representatives nor the Electors would pay any Proportion of what they imposed upon us; they would not tax, but untax themselves. The Condition therefore of an Englishman who has no Suffrage, when taxed by the British Legislature, and of an American taxed by the Britis Legislature, and of an American taxed by the fame Authority, are totally diffimilar. Place them in Situations which bear any Similitude, and it will shew in the strongest Light, the Injustice of the present Measures. Suppose then that the Parliament of Britain should impose a Tax, from which themselves and those who voted for them should be exempted, and which should be paid entirely by those who had no Suffrages; this would bear some Resemblance to their taxing the Americans; and would not this be unparalleled Injustices? But if even this (unjust as you must esteem it) were But if even this (unjust as you must esteem it) were
the Practice of your Parliament, the Condition of a
non-voting Englishman would still be infinitely preferable to ours; for even such a Tax as I have
stated, would fall upon the Relations, the Priends,
the Dependants, the Tenants, the Manusacturers,
the Labourers of British Legislators. The Legislator
would feel its Effects, almost instantaneously, he
would find his own Interest immediately concerned;

he would therefore use fome Moderation. Befides,

he is an Eye-Witness of their Condition, he can judge of their Abilities, he can be wounded at the sight of their Dittress. But he cannot see our Misery, he cannot judge of our Abilities; and his

diate Effects of our Ruin, not in their Diffres, but in their Exoneration. If therefore the Legislature of Britain should adopt such a System of unparalleled Injustice, with Respect to the non-voting Inhabitants of Britain, yet, even the Sufferers by, and
the Objects of that Injustice, would be happy, in
Comparison of us. Suppose, for a Moment, if you
can bear the Thought, suppose for a Moment, that
your House of Commons were not elected by you, that they were an hereditary Body, in no wife indebted to your Choice; would you not be an en-flaved and an unhappy People: But even then you would be happier than we are. A Body of 500 Men, fituated in the midft of Seven Millions, and taxing those Seven Millions, would furely be more bound to Moderation, by Fear, if not by Principle, than the same Body, affisted and supported by those Seven Millions, in taxing Two Millions who are at a Diffance. To oppose in one Instance, would at a Distance. To oppress, in one Instance, would at least be Insamy, if it would not be Punishment; in the other they might find it Popularity, they might think it Patriotifm. Mr. P-tt faid, (if I miftake not) that every Man in England could huzza at an Election: Even that Method of expressing one's Wiftes, is some Satisfaction, and has some Influence; the Shoutings of the People have had great Effects; and the very Murmurs of Englishmen, had perhaps more Share in the Repeal of the Stamp-Act, than the united Voice of America. We cannot even buzza at a British Election !

" Tenants and his Manufacturers will feel the imm

at a British Election!

"The Right of presenting Petitions to Parliament was deemed of so much Importance, that it was inferted in the Bill of Rights. In this fundamental Right, the Bulwark against parliamentary Oppression, as well as every other, under what Disadvantages should we labour, if you were to make Laws for us? How different is the Effect of a Petition presented by the Hands of the injured, enforced by their Assidue. the Hands of the injured, enforced by their Affidu-ity, and recommended by their Tears, from that of our Paper-Representations? They are subject to

" be mifreprefented in a Thousand Ways.
" They come cold, and you do not feel them; " often too late, and you cannot comply with them; " and what was done by you through Inattention and " Mistake, must be maintained for Dignity; in a Word, they do not strike home, either upon your Caution " or your Kindness, your Affections or your Fears. "The very Women and Children of England, have an Influence upon Parliament, of which the Americans are defitute, how different is your Lot from ours! In the Character of an American, to the People of England I speak. Your frequent Elections are a valuable Privilege to you; what Privilege are they to us? At the Close of a Parliament, you expect popular Measures, from the Fears and the " Hopes of your Representatives. But who will find " it his Interest to be a Friend to America? They will wish to gain the Favour of their Countrymen, and therefore will burthen America, in order to disbur-then England. What to you is a valuable Privilege, will be to us a Source of repeated Oppression. We are worse even than your Papists. In being a unded from the Right of Suffrage, they are I ke us; and as they pay double Land-Tax, in that additional Payment the Resemblance continues; for it is a Tax imposed by Men whom they had no Share in electing, and it is a Tax which those who impose it do not any Russell Dischilling in Paint of Full Paris of Fu do not pay. But this Disability in Point of Suffrage, and this additional Payment, are Penalties instituted on your Papists; and why? Allegiance, as by Law required, is a Quality effential to being a Subject. Your Papists are defective in that Quality. They " are confidered as not completely Subjects, and, as fuch, Penalties are inflicted on them. Your only Justification for inflicting these Penalties on them, is that you doubt their being Subjects. Your only Pretence for inflicting the same Penalties on us, is that we are Subjects. Same Penalties, did I say, nay worfe; for as they are inflicted on us, without Offence, we cannot by a Discontinuation of Offence, exempt ourselves from these Grievances. The Pa pift, by becoming a Protestant, can free himself from this Disability, and this double Taxation : But we cannot free ourselves from this Misery, but by ceasing to be Americans. Besides, in every other Cafe, except that Addition of Land-Tax, your Papilts are in as good a Situation as any of the reft of your Inhabitants who have not Votes: But in Situation as your Papilts are in that one. Befides, your Papilts are connected with their Legislators, by Relationship, Friendship, Neighbourhood, or De-pendance. Their Possessions too are British, and they must have Influence, the they have not Votes.
And the great Right of petitioning, they posses,
with all its Advantages, and can enforce their Petitions by their Presence, their Assiduity, their Num-"tions by their Presence, their Assiduity, their Numbers, and their Tears. In how much worse a Situation are we than your Papists, whom for their Obstinacy in an unconstitutional and persecuting Religion, you have made the Outcasts of Legislation. What then is the Freedom, and what are those British Privileges, to which you confess we are entitled? What are those Rights which we have possessed above an Hundred Years, which we derived from solemn Compact, which we have purchased by an unshaken Allegiance, and by the Prosite of our Trads?"

[To be continued.]

THEY write from Choczym, the Orders had been published there on the Part of the Grand Signior, for all the Inhabitants to take Arms against the Ruffians and their Adherents. These Advices add, that 10,000 fresh Troops were arrived there, and more expecied; that, on the 17th, a Body of Confederates passed the Nießer, and plundered a small Town mear that River, which the Bashaw, upon Representations being made to him, declared to be by his Orders, and expressed himself in a Manner very different from what he had done heretofore.

OFFEN, in HUNGARY, Nov. 14. They write from the Frontiers of Furkey, that the Grand Signior had notified, by a Manifesto, that he looked upon as illegal, all the Conclusions passed in the Dyet of Poland, from the Time of the King's Election to the Throne; and that his Highness infinted that the Inhabitants of the Republic be re-established in the Enjoyment of their

primitive Rights and Liberties.

A Letter from Poland affores, that the Empress of Ruffia feems dispoted to spare neither Troops nor Money; and that 80,000 Men are to pen-trate into the Ottoman Empire, before the Grand Signior is able to affemble his Forces.

Dec. 3. It is reported that L d R has declared his Intention of refigning the Poft he now enjoys; but, who is to fucceed him, is not at prefent determined. The Cause offigued for this Act, is said to take Rife from his L-d-p's Dilgust at some Meafures lately purfued.

The Great People were never more bufy, than at prefent; for, while Numbers are engaged in making a Coalition, in order to form a new Ministry; others

By Letters from the Hague of the 4th Inft. we learn, that the Prince Stadtholder informed the States-General on the 2d, that the Princels Ruyal his Confort was in a State of Pregnancy; on which happy Event, their High Mightinesses congratulated his Serene Highness.

On Thursday Morning, a little before Eleven o'Clock, the Sheriffs opened the Poll for a Knight of the Shire for the County of Middlesex, at Brentford, which was carried on with much Tranquility and Regularity, 'til about a Quarter after Two; at which Time it was generally thought that Mr. Serjeant Glynn had polled a greater Number than Sir W. B. Proctor, when on a fudden a Hat was thrown up in the Air, on which a great Riot enfued, when the Mob mounted the Huf-tings, attempted to feize fome of the Poll Books, and entirely put a Stop to the Business. On this, great Numbers of Freeholders were hurt in trying to get away, others came home directly, and the Remainder of the Day was a Scene of Confusion. A Fellow had lifted up his Stick to make a Blow at Mr. Glynn, which being timely observed by one of the Freeholders, a flout Gentleman, he knocked the Rioter down with the But-End of his Whip.

When the Mob had cleared the Hustings on Thursday, they went into the Town of Brentford, and attacked the Castle-Inn (which was one of the Houses of Entertainment for Mr. Glynn's Friends) and did considerable Damage to it. The Inhabitants of the Town observing this Mischief, and beginning to fear their own Houses would next be destroyed, a general Ladicacion took Place, they follied out, attacked the Indignation took Place; they fallied out, attacked the Rioters, and drove them out of Town; and fome of the Victors afterwards vented their Rage upon One or Two of the Houses opened for the other Candidate.

TO THE PRINTERS. FEW Days fince died, in the 22d Year of his Age, Mr. Arthur Cradock, eldelt Son of the Revd. Mr. Cradeck, Rector of St. Ibomas's, Baltimore County. He was a Youth of most unblemish'd Character; of exemplary Piety; and fo firmly attached to the Principles of focial and moral Virtue, as did Honour to human Nature. The Difeate which proved fatal to him, and which he supported with true Christian Resignation, is supposed to have been occasioned by an intense Application to Books: The Study of the Sacred Writings, those divine Oracles of Inspiration, being his principle Delight, though he had made a confider-able Progress in the abstracted Sciences, and was excellently well verfed in every Branch of polite Literature.

WILLIAM CARR

Virginia, November 20, 1768.

FALLS OF PATOWMACK.

For Encouragement to Trade, &cc. I purpose to let out, on the most reasonable Terms, for a Number of Years, or otherwise, this Place, with all the waluable Improvements bereafter mentioned.

A T the Landing, and along-fide of Six Fathom Water, a complete Stone Building, 151 Feet long, 36 wide, and 31 Stories high.

In this Edifice are contained, 1st, A valuable Mer-chant Mill, with Two Pair of Stones, Bolting Mills and Fan new, well fixed, and constantly supplied with a never failing Stream, fufficient to keep the whole of them going. I can affirm, that this Mill, with the Affiftance of Four Men and Two Boys, can manu-

merchantable Flour. 2d, A large Bakery, with Three Ovens, Brakes and other Necessaries compleatly fitted, and a fine Bread-Room above the faid Bakery and Ovens.

facture 50,000 Bushels of Wheat annually, into good

3d, Two large Granaries, 36 Feet by 30, on each Side the Mill, fo that Grain cannot be stored more

conveniently. Adjoining to these is, 4th, A neat retailing Store, with its Shelves, Counter, Drawers, &c. compleatly finished .--Adjacent to the faid Store, is a convenient Accounting Room, with a Fire Place, at the Back of which, is a private lodging Room, with a Fire-Place likewife. From this

Room we enter into a Balcony 24 Feet long, with proper Seats fronting the River, which commands variety of curious and entertaining Prospects.

5th, The several large Rooms below, for the storing of Salt and West-India Goods, with their Cellars, &c. fo near the River, that, by the Affiltance of a Crane, a Veilel of any Burthen may discharge her Load safe in the Stores in as little Time as can be done in any Port in America; and likewise makes equal Dispatch in Loading, the Granaries being fo near the Veffel, and the Fall from the House so great, that, by a Spout from the Windows, the Grain my be conveyed in the most speedy and easy Manner.—The Lost of this most speedy and easy Manner .-Building has no Partition, and therefore, being 151
Feet long, and 36 wide, gives great Plenty of Room
to spread Flour to cool, in the Summer, so that nothing is wanting but a Capital to make the Place complete.

Contiguous to the Mills, &c. is a very good Dwelling-House, built with Stone, Two Stories high, 96 Feet long, and 28 wide, with convenient Rooms, Kitchen, Cellars, and Ten Fire-Places thereto belonging, to be let with the faid Mills.

I have laid out 53 Lots for a Town here, each Lot containing Half an Acre, including the Tobacco Warehouses; most Part are for Sale on moderate

I have within those Lots built a Griff Mill, for Country Cultom, and a Saw Mill, and will supply Scentling and Plank for building, very cheap.

The River Patowmack is fo well known, that I need

not be particular in describing it, as from its Mouth to the very Falls, it is allowed to be the best Navigation of any River on the Continent.

The Falls are fituated 12 Miles above Alexandria, and 3 Miles above George-Town .- Any Veffel that comes to Alexandria, or up to George-Town, will find deeper Water above to the faid Falls, the Channel being straight, and easily found. The Falls excel any Part of the Colony, for beautiful building Stone, in the greatest Quantity, and the easiest raised. The Soil is excessively rich, and abounds with the finest of Springs convenient to every Part. And,

Above all the Advantages before-mentioned, the Place is noted for one of the finest Fisheries in Virginia; the whole Season through, the best of Fish is caught

here in great Abundance. The Falls Landing is Ten measured Miles nearer to Leefburg, Winchester, and so to the Back Country, than any other whatfoever. Befides, this Landing being fo much nearer to the Back Inhabitants, and a fine Road, it receives all the Produce brought down from above the Great Falls, in Battoes, which Business is now be-come very considerable, and must improve; as Indian Corn, Walnut-Plank, and Lumber of all Sorts, will bear the Land Carriage, from the Falls above, to this Place; much more, and better, will Wheat, Pig, and Bar-Iron, and Tobacco. All those Commodities are

made in great Plenty on each Side the River, above the Falls; the Lands being very fine, the Produce must

be brought to this Spot tor Shipping.

For further Encouragement, any Gentleman that might be willing to fettle here, and carry on a Trade fuitable to the Place, may have the Mills, with all Improvements; and I will oblige myfelf to furnish him, this prefent Year, with 5000 Bushels of good merchanticle. table Wheat, 8000 Bushels next Year, and 10,000 Bushels annually after, of my own Produce, for the Terms agreed on. Or, if he, or they, chuse rather to put in a Stock, any Way adequate to the Improve-ments made by me, I will be at an equal Expence towards the Working, Supporting, and Maintaining the faid Bufiness, receiving my Proportion of the Profits; but it is not to be supposed that I could advance any Thing farther, than finding the Mills and all Improvements, without any Rent. The Management and Direction I will give up, and he, or they, may draw his, or their, whole Stock out, when they please; otherwise I will rent the whole, very reasonable, as before-mentioned.

" Here Water falls, and might do more, by Art! " Majestic Nature shines in ev'ry Part."

Befides the above; at the Seneca Falls, which is the Public Landing-Place for all the Iron, and other Commodities, brought down the River Paterwmack, from above, at the faid Landing, the faid River being commanded and brought through a natural Race, where there is a Fall of Ten Feet Water; I have to dispose of, in the same Manner, one of the best Places for Furnace, Forges, Saw, and Grift Mill, that can be found found.

The principal Articles to Support those Works to Advantage, are Ore, Coals, Timber and Stone; all of which are in the greatest Quantity, of the best Quality, and easiest procured .- The Iron Ore is inexhaustible on the River Side, and belongs to me, I will deliver it on the Furnace Bank at Ten Shillings per Ton, Coal at Twenty Shillings per Load of 144 Bushels.—Those Artricles are brought down to the Spot by Water in Bat-toes; and I have 13,000 Acres of Land adjoining to the faid Falls above, binding the River Fifteen Miles in-cluding feveral Islands. All those Lands are covered with the best of Timber; and as the Navigation is so easy up to the Shenandore Falls, it is not possible there should ever be a Scarcity of Timber and Ore to support the Scheme.—The Situation is fo good that the Furnace, Forges, and Mills, may join to one another, along Side of the faid Race, at the Landing; and every Article is conveyed to the Works, from the main River, by this Race, which affords the Fall, as above-mentioned. There being no further Expence attend-ing the Water Part, the Foundation fo good, with a natural Race for the Water to run, and building Stone, Timber, &c. fo convenient; I can venture to affirm, that one Year's Profit will reimburfe the whole Expence and Cofts of Building.

Between the Landing at the Seneca, and that at the Little Falls (where the Tide goes) is, by Survey, exactly 14 measured Miles. A public Waggon Road is lately opened betwixt them, and is already much frequented.

I have also built, at the Seneca, a Smith's Shop, with Two Fires, and a Wheelwright's Shop adjoining, together with feveral Dwelling Houses at the same Place; I have likewise got new Battoes suitable for

bringing down the Commodities.

The Buildings and Improvements at both Landings, fo far as I have done, have actually cost me upwards of Eleven Thousand Pounds; and I have so great an Opinion of the many Advantages arifing from those convenient Situations, that I am willing to add a further Stock of One Hundred Working Slaves, feated on 17000 Acres of the most valuable Land on Patowmack, joining the faid Falls, actually in my Possession, and convenient to support all the faid Business. Those several Plantations are well stock'd with Horses, Cattle, and Hogs. Among the faid Slaves, are very valuable Tradefinen, such as Forgemen, Coopers, Smiths, and Carpenters. I have several Waggons and Teams, that work upon the Road, between the Two Landings; and shall be ready to put the whole in Stock, provided I get a suitable Partner, who understands Trade and Business; or will rent the Whole, or Part, as we may

Any Person, or Persons, inclinable to increase his, or their Fortune, by taking the Trouble to come and view the Premifes, and examine the fame, will be fatished, that I have not advanced any Thing farther than they find agreeable to Truth; and I am confident, that there is no Bufiness, whatever, at this Time, that can afford more certain and larger Profit, from fo finall an Advance, as the additional Expence required.

JOHN BALLENDINE.

[Conclusion of the Piece begun in our last.]

N this Reply, which I have put into the Mouth of a Colonift, I have examined, pretty mi-nutely, the real Extent of American Liberty, under the pre-fent Measures. I have shewn

the Diffimilarity of their Condition to our own, and to that of a free People. I shall now hew the Similarity of their ondition to that of those Nations whom we call laves. The Author of the Letter to Lord Hillsoough, fays, " Libertas recipit magis et minus, that here are Degrees of Freedom." I allow it. In what es perfect political Liberty confift ? Some Authors enne it to be, " The Power of doing what the Laws If I do not mistake the Meaning of this Deinition, it is clearly erroneous. To do what the Laws of Turkey permit, certainly is not Liberty. Perfect political Liberty confifts rather,—in the not being subject to any Laws, but such as we have consented to by purselves, or by our Representatives. If Britain is but impersectly represented, it has but an impersect Freeom. But confidering the Imperfection of every Thing uman, it may well boaft of the Excellence of its Conlitution. There are other Nations, the Lives and ortunes of whose Inhabitants are dependant upon the Will of fome Person whom they do not elect, and whom they cannot remove; or upon some other Coun-ry, in the Government of which they have no Share. rance, Spain, and Turkey, are Instances of the first; orfica, while it was under the Yoke of Genoa, of the All fuch Governments are absolute or despoc, and the People subject to them we call enslaved. etween their Situation and our own, there are indeed many Degrees. But I defy the Author of the Letter o Lord Hillsborough, to shew, that any of those Derees would be enjoyed by the Americans, if Meaares should be carried to the Extremes which we now ear of. I do not fay that there is not a Medium, beween a good Constitution, and simple Despotism; but fay the Americans would not peffess that Medium. It objects to the Advocates for America, their affering, "That if Dependance be enforced in any the rait Degree, the Colonists are Slaves." Let him not bject it to me; my Affertion is that they are Slaves, the British Parliament assumes unlimited Power over hem, in every Particular whatfoever. If a People can e deprived of their Lives and their Property, by anoher Person, or another Nation, is it not evident that ich a People is not free? Whether it be by a Nation, by a Monarch, is not material. The Mafters ined are different, but the Government is equally despoc. The Helots of Sparta, were as much Slaves, as the ubjects of the Grand Signior. Now I defy any Person mention one fingle Power, which the Spartan Reublic assumed over the Helots, which England does ot assume over her Colonies. I would not infinuate hat Great-Britain will not govern with greater Huma-ity: But if her Power be mildly administred, it will adeed be a milder Despotism, but it will not therefore the less a Despotism. Should we thus address our-elves to a Colony of France or Spain: You live under in absolute Government: transfer your Allegiance to

ritain diffuses through all her Dominions. Might not answer us in these Words; "I am not burhened with Taxes in near so great a Proportion as our Colonists, but I would consent to pay more than do, if I were to enjoy a greater Degree of Freedom, What then are those Privileges which you offer to me? Mulatto, er, or to Ve might fay to them, One of the principal Privileges 's Mineall be this, that you shall not be taxed, except by our own Representatives, or else by the Parliament of critain. Might they not then reply to us, I find then that ty Representatives are not to be a Part of that British Parliament which is to tax me? Were I subject to the absolute Dominion of an Assembly elected by the Provinces and Cities in France, should I be one Whit more free, has in being subject to the absolute Dominion of its sonarch? When you spoke to me of Privileges, I imalied that you meant that right of Suffrage, which is be Boast of the British Constitution. You give it to be indeed, in one Place, but you will tax me in a lace where you will not give it to me. When our wn Sovereign has taxed his Subjects as much as he links proper, he will scarcely refuse them the Privithem, fo r each, 2 liles from Diftance AWSON. 14, 1768. er, living per-Marl our Years h, brandlinks proper, he will scarcely resuse them the Privi-ge of taxing themselves again, in any Manner they case. If you can demonstrate to me, that our Motrots, and rode. arch assumes one single Power over us, which you do assume over your Colonies, I will hearken to your roposals, but if you cannot, your Government is as bitrary, as that of France, we are less taxed, and as may get

absolute Government; transfer your Allegiance to, and you shall enjoy those Privileges which Great-

that as your Colonies. Having examined the real Condition of the Colo-Having examined the real Condition of the Colofis, under the present supposed Measures, with as
uch Attention as I am capable of, I can find in it no
reumstance, which should prevent my afferting that
ty would be as destitute of Freedom, as any Nation
or was, or ever can be: Now whatever those Rights
d Privileges may consist in, which confessed belong
the Americans, they certainly do we consist in
every, which is the Want of every Right, and the Deivation of every Privilege.
I have shewn that the Comparison between the Ameans, and those Britons, who have no Suffrages, is
le, and that if it were true, it would not be argu-

mentative. I have shewn what the Freedom of the Americans does not confift in, and I will now endeayour to flew what are those Privileges which for our own Sakes we must allow them. I cannot help observing in this Place, that every one who has written a-gainst them, has confined his Endeavours to the proving which of the British Privileges they ought not to posses; but not one of them has mentioned those Privileges which they ought to enjoy. It is a little fuspicious that those Authors whose profest Design is to convince and to conciliate the Colonists, have never once enumerated those Advantages which they are still to enjoy under Parliamentary Government. Surely no-thing would be so likely to pacify them, as a Recital of the Blessings which are still to remain to them. But to return; in order that the Americans should

enjoy British Freedom, it is not sufficient they should adopt that Part only of our Constitution, which departs from the Principles of British Liberty. They must possess that Part which is excellent, as well as that Part which is defective, or their Liberty is not an Image of ours. It is not therefore sufficient that an American Land-holder should be on a Par with a Briton who has no landed Property, or with a British Papist? But that an American Freebolder should have the same Power over his own Property, as a British Freeholder has over his own. If any Man shall object to me, that I have placed the Colonies in a Situation too equal to their Mother-Country; I answer him, that I have done so, only with Respect to their sum wested and acquired Property *; and that Americans have as much Right to the Property of America, when once acquired and wested, as Britons have to the Property of Great-Britain.

In order that Taxation and Representation may not be united in America, the Adversaries of America de-

ny that they were united in Britain. And Attempts have been made to produce Instances of their Disunion, taken from different Periods of the British Constitution. It is not material to my Cause, to examine whether those Attempts have succeeded. If America be entitled to English Privileges, the English Constitution, she is entitled to that Constitution, as it stood at the Time when the Colonies were planted. She is not to have the Constitution that existed in the Time of William the Constitution that existed in the Time of William the Conqueror, or of the Saxon Heptarchies, or of the Roman Government. If England communicated to America her Constitution and her Privileges, we communicated them such as she herself at that Time enjoyed. It was the Constitution of England at that Period, that every Man possessed of 40s. a Year, by that free Tenure which we call a Freehold, should have a Vote in electing a Member of that Assembly, which alone could tax his Property; besides certain Persons alone could tax his Property; besides certain Persons invested with Privileges in Cities and Boroughs. This was, and is the Bulwark of English Liberty; without this we should be Slaves. This then is the Constitution which is communicated to America: Let not therefore ber Property be taxed, except in an Assembly to which ber Freeholders and Electors send a Representative. In the Saxon Constitution, the Privilege of voting was diffused much more universally; it belonged to all who held by a free Tenure; that is, to all the Subjects of England; for those who hold by other Tenures, were not Subjects, but Vilani, or Slaves. So entire was the Union at that Time, between Representation and Taxation: But to this Constitution the Colonists have no Pretension, as it was not the Constitution of England at the Time of their Establishment. By the 8th of Henry VI. the Right of voting was confined to such Freeholders as had 40s. a-Year, and thus the more opulent Freeholders were entrusted with the Rights of all the reft. It appears to me, that England, by this Change, had True Kinds of Representatives. The richer Freeholders represented the others, and the House of Commons represented them. Thus the opulent Freeholders were Representatives of Eledion, constituted by their Circumstances; and the Knights were Representatives of Legislation, appointed by Suffrage: If there be any Justice in this Opinion, all the Subjects of England were either actually, or virtually represented. But if there be not, and if it be admitted, that England was, and is partially represented—Give a Representation as partial to her Colonies. If Britain be impersectly represented, she has but an impersed Freedom, but if the Colonies have me Representation, they have no Freedom at all. If Britain has not the best Constitution, which human Invention could have suggested a tution, which human Invention could have fuggested; is it a Reason that America should have the worst?

In the memorable Contest with the H——e of P—rs

about the Right of originating Taxes, the C—ns urged with great Force, their exclusive Right to that Privilege. They thought it unreasonable, even that any Part of the Taxes should be encreased, or diminished, or that the Rates should be examined by the P—rs, "whose Proportion in all Taxes, in Comparison to what the Commonalty pay, is very incon-siderable." I believe the same Assembly think these Words to contain good Sense at this Day; and it is undoubtedly very reasonable, that those who give the most, should have the greatest Share in modelling the Gift. Such were the Maxims that were formerly a-

dopted by that great Assembly, and such were the Reasonings on which their greatest Privilege is establish-Why then do they now think it reasonable, that those who pay not an inconsiderable, but no Proportion, should not only originate a Tax, but pass it into a Law? Compare the Spirit of their former Maxims with that of their present. "It is unjust in you, my L—ds, to begin a Taxation, of which you pay only a fmall Proportion." Yet we will impose a Tax upon America, of which we pay no Proportion at all. "It is unjust that you, my L—ds, should even originate a Tax upon Men, of whom you are but the lesser Number, though the rest may afterwards refuse it, if they please." But it is just for us to enact a Tax-Law for But it is just for us to enact a Tax-Law for the Colonitts, which they shall not have a Power to refuse, although we are not any Part of them. " The Right of proposing Taxes belongs to us, as Representatives of the People who pay them, and yet we will tax a People of whom we are not Representatives. Bills of Supply are looked upon, not only as Laws, but as free Gifts; and, on account of this Difference in their Natures, they are subject to different Forms. The Lords cannot originate them, although they also are Legislatures. And it is not the Royal Asset, which is given, but the Royal Thanks. The 9th of Henry VII. enacts, that the King shall thank both Lords and Commons; but, if our Parliament shall tax the Colonists, to whom are the R--- | Thanks to be addressed? Is he to thank his British Subjects, for giving him the Property of the Colonists? Is he to thank the English, for Money which they do not pay, or the Americans, for a free Gift, wrested from them against their Will ? Which of these Mockeries would be most unworthy the great

Scene on which they are to be acted?

Much Declamation has been used, on both Sides.

The English speak of the Blood and Treasure they have expended. The Americans, that they have encountered an inhospitable Climate, for the Purposes of Great-Britain, and have dedicated their Lives and Fortunes; to her Service. There is no Weight in any of these Declamations. Whatever was done by either of them, was done for their own Advantage. If Britain has protected the Property of America, it does not conftitute her the Owner of that Property. She has, for her own Sake, protected, in their Turns, almost every Country in Europe, but that does not make her the Proprietor of those Countries, or give her a Power of Taxation over them. If America, in pursuing her own Interest, has benefited Britain, we owe her no Obligation. Whilst we each possess those Benefits for which we expended our Treasure, and for which they encountered that Climate, we owe nothing to each other, but reciprocal Affection. To extend their Commerce, our Ancestors encouraged the Emigration of British Subjects. Their Industry abroad was thought more advantageous, than their Residence in Britain. As an Inducement to forego those Privileges which they possessed, or might acquire at home, it was agreed that they should carry English Privileges along with them. And, as an Inducement to become the Carriers, and the Labourers of England, they were endowed with a defart Territory, useful only by the Industry they should bestow upon it, and this was given to them, as their Wages. Let not a Compact, founded in our Interest, purchased by their Labour, and confirmed by Time, suffer any Violation. Let us be content with our commercial Advantages, and those Superiorities which they willingly submit to. Let us make them labour for us; but let us not take from them their Wages,

FALLS OF PATOWMACK.

For Encouragement to Trade, &c. I purpose to let out, on the most reasonable Terms, for a Number of Years, or otherwise, this Place, with all the valuable Improvements hereafter mentioned.

T the Landing, and along-fide of Six Fathom Water, a complete Stone Building, 151 Feet

long, 36 wide, and 31 Stories high.

In this Edifice are contained, 1st, A valuable Mer-chant Mill, with Two Pair of Stones, Bolting Mills and Fan new, well fixed, and constantly supplied with a never failing Stream, fufficient to keep the whole of them going. I can affirm, that this Mill, with the Affittance of Four Men and Two Boys, can manufacture 50,000 Bushels of Wheat annually, into good merchantable Flour.

2d, A large Bakery, with Three Ovens, Brakes and other Necessaries compleatly fitted, and a fine Bread-Room above the faid Bakery and Ovens.

3d, Two large Granaries, 36 Feet by 30, on each Side the Mill, fo that Grain cannot be flored more conveniently. Adjoining to these is,

4th, A neat retailing Store, with its Shelves, Counter, Drawers, &c. compleatly finished .to the faid Store, is a convenient Accounting Room, with a Fire Place, at the Back of which, is a private lodging Room, with a Fire-Place likewife. From this Room we enter into a Balcony 24 Feet long, with proper Seats fronting the River, which commands variety

of curious and entertaining Prospects.

5th, The feveral large Rooms below, for the storing of Salt and Weft-India Goods, with their Cellars, &c. fo near the River, that, by the Affiftance of a Crane, a Vefiel of any Burthen may discharge her Load safe in the Stores in as little Time as can be done in any Port in America; and likewise makes equal Dispatch in Loading, the Granaries being fo near the Veffel, and the Fall from the House so great, that, by a Spout from the Windows, the Grain my be conveyed in the most speedy and easy Manner.—The Lost of this Building has no Partition, and therefore, being 151 Feet long, and 36 wide, gives great Plenty of Room to spread Flour to cool, in the Summer, so that nothing is wanting but a Capital to make the Place complete.

Contiguous to the Mills, &c. is a very good Dwelling-Houfe, built with Stone, Two Stories high, 96 Feet long, and 28 wide, with convenient Rooms, Kitchen, Cellars, and Ten Fire-Places thereto belong-

ing, to be let with the faid Mills.

I have laid out 53 Lots for a Town here, each Lot containing Half an Acre, including the Tobacco Warehouses; most Part are for Sale on moderate

I have within those Lots built a Grift Mill, for Country Custom, and a Saw Mill, and will supply Scantling and Plank for building, very cheap.

The River Patowmack is so well known, that I need not be particular in describing it; as from its Mouth to the very Falls, it is allowed to be the best Navigation of any River on the Continent.

The Falls are fituated 12 Miles above Alexandria, and 3 Miles above George-Town.—Any Vessel that comes to Alexandria, or up to George-Town, will find deeper Water above to the said Falls, the Channel being straight, and easily found. The Falls excel any Part of the Colony, for beautiful building Stone, in the greatest Quantity, and the easiest raised. The Soil is excellively rich, and abounds with the finest of Springs convenient to every Part. And,

Above all the Advantages before-mentioned, the Place is noted for one of the finest Fifteries in Virginia; the whole Season through, the belt of Fish is caught

here in great Abundance.

The Falls Landing is Ten measured Miles nearer to Leefburg, Winchester, and so to the Back Country, than any other whatfoever. Befides, this Landing being fo much nearer to the Back Inhabitants, and a fine Road, it receives all the Produce brought down from above the Great Falls, in Battoes, which Bufiness is now be-come very confiderable, and must improve; as Indian Corn, Walnut-Plank, and Lumber of all Sorts, will bear the Land Carriage, from the Falls above, to this Place; much more, and better, will Wheat, Pig, and Bar-Iron, and Tobacco. All those Commodities are made in great Plenty on each Side the River, above the Falls; the Lands being very fine; the Produce must be brought to this Spot for Shipping.

For further Encouragement, any Gentleman that might be willing to fettle here, and carry on a Trade for the Place, may have the Mills with all In-

fuitable to the Place, may have the Mills, with all Imthis prefent Year, with soop Bushels of good merchantable Wheat, Soop Bushels of good merchantable Wheat, Soop Bushels next Year, and 10,000 Bushels annually after, of my own Produce, for the Terms agreed on. Or, if he, or they, chuse rather to put in a Stock, any Way adequate to the Improvements made by me. I will be at an equal Exercise. ments made by me, I will be at an equal Expence to-wards the Working, Supporting, and Maintaining the faid Bufiness, receiving my Proportion of the Profits; but it is not to be supposed that I could advance any Thing faither, than finding the Mills and all Improvements, without any Rent. The Management and Direction I will give up, and he, or they, may draw his, or their, whole Stock out, when they please; otherwise I will rent the whole, very reasonable, as before-mentioned.

" Here Water falls, and might do more, by Art! "Majeflic Nature fhines in ev'ry Part."

Besides the above; at the Seneca Falls, which is the Public Landing-Place for all the Iron, and other Commodities, brought down the River Patonomack, from above, at the faid Landing, the faid River being commanded and brought through a natural Race, where there is a Fall of Ten Feet Water; I have to dispose of, in the same Manner, one of the best Places for Furnace, Forges, Saw, and Grist Mill, that can be

The principal Articles to support those Works to Advantage, are Ore, Coals, Timber and Stone; all of which are in the greatest Quantity, of the best Quality, and easiest procured .- The Iron Ore is inexhaustible on the River Side, and belongs to me, I will deliver it on the Furnace Bank at Ten Shillings per Ton, Coal at Twenty Shillings per Load of 144 Bushels.—Those Articles are brought down to the Spot by Water in Battoes; and I have 13,000 Acres of Land adjoining to the faid Falls above, binding the River Fifteen Miles including feveral Islands. All those Lands are covered with the best of Timber; and as the Navigation is so easy up to the Shenandore Falls, it is not possible there should ever be a Scarcity of Timber and Ore to support the Scheme.-The Situation is fo good that the Furnace, Forges, and Mills, may join to one another, along Side of the faid Race, at the Landing; and every Article is conveyed to the Works, from the main River, by this Race, which affords the Fall, as abovementioned. There being no further Expence attending the Water Part, the Foundation fo good, with a natural Race for the Water to run, and building Stone, Timber, &c. fo convenient; I can venture to affirm, that one Year's Profit will reimburse the whole Expence and Colts of Building.

Between the Landing at the Seneca, and that at the Little Falls (where the Tide goes) is, by Survey, exactly 14 measured Miles. A public Waggon Road is lately opened betwixt them, and is already much frequented;

I have also built, at the Seneca, a Smith's Shop, with Two Fires, and a Wheelwright's Shop adjoining, together with several Dwelling-Houses at the same Place; I have likewise got new Battoes suitable for

bringing down the Commodities.

The Buildings and Improvements at both Landings, fo far as I have done, have actually coft me upwards of Eleven Thousand Pounds; and I have so great an Opinion of the many Advantages arifing from those convenient Situations, that I am willing to add a further Stock of One Hundred Working Slaves, feated on 17000 Acres of the most valuable Land on Patowmack, joining the faid Falls, actually in my Possession, and convenient to support all the faid Business. Those feveral Plantations are well flock'd with Horfes, Cattle, and Hogs. Among the faid Slaves, are very valuable Tradesmen, such as Forgemen, Coopers, Smiths, and Carpenters. I have feveral Waggons and Teams, that work upon the Road, between the Two Landings; and shall be ready to put the whole in Stock, provided I get a fuitable Partner, who understands Trade and Business; or will rent the Whole, or Part, as we may

MARYLAND GAZETTE.

T H U R S D A Y, MARCH 23, 1769.

following PETITION from the Lower House of Assembly of the Province of Maryland, to the KING, passed the House, on the 21st of June last, and was transmitted by the Honourable Speaker, to Charles Garth, Esq; to be presented to his Majesty.

the KING's most excellent MAJESTY.

Most gracious Sovereign,

OUR Majesty's most dutiful and loyal Subjects, the Reprefentatives of the Freemen of your Province of Maryland, happy in their Allegiance to the best of Kings, and warm in Affection and Attachment to your facred Person and Government, with all Humility, beg Leave to approach the

hrone, and fupplicate your Majesty, ever graciously clined to hear the just Complaints of your most re-

Your Majesty's People of this Province, conceive it fixed and unalterable Principle in the Nature of hings, and a Part of the very Idea of Property, that hings, and a Part of the very Idea of Property, that hatever a Man hath honeftly acquired, cannot be ken from him, without his Confent. This immuble Principle, they humbly apprehend, is happily agrafted, as a Fundamental, into the English Conflitution, and is fully declared by Magna Charta, and by the Petition and Bill of Rights: Hence it is, that your winds, and different Subjects are justly entitled to all fajesty's most distant Subjects are justly entitled to all our Subjects born within the Kingdom of England. Inder this Idea, your Majesty's royal Predecessor, King BARLES I. by his Charter of this Province, did grant s follows: "We will also, and of our more abundant Grace, for Us, our Heirs and Successors, do firmly charge, constitute, ordain, and command, that the said Province be of our Allegiance, and that all and singular, the Subjects and Liege-men of Us, our Heirs and Successors, transplanted, or hereafter to be transplanted into the Province aforesaid, and the Children of them, and of others, their Descendants, whether already born there, or hereafter to be born, be, and shall be Natives, and Liege-men of Us, our Heirs and Successors of our Kingdom of England, and Ireland, and in all Things shall be held, treated, reputed, and esteemed as the faithful Liege-men of Us, and our Heirs and Successors, born within our Kingdom of England; also Lands, Tenements, Revenues, Services, and other Hereditaments whatfoever, within our Kingdom of England, and other our Dominions, to inherit, or otherwise purchase, receive, take, have, hold, buy, and possess, and the same to use and enjoy, and the same to give, sell, alien, and bequeath; and likewise, all Privileges, Examplifes, and Liberties of this our Kingdom of Franchifes, and Liberties of this our Kingdom of England, freely, quietly, and peaceably, to have and policis, and the fame may use and enjoy, in the same Manner as our Liege-men, born, or to be born within our said Kingdom of England, without Impediment, Moleston, Veyation, Impeachment, or pediment, Molestation, Vexation, Impeachment, or Grievance of Us, or any of our Heirs, or Succeffors; any Statute, Act, Ordinance, or Provision, to the contrary thereof, notwithstanding. And further, we will, and do, by these Presents, for Us, our Heirs and Successors, covenant and grant to, and with the aforefaid now Baron of Baltimore, his Heirs and Af-igns, that we, our Heirs and Succeffors, at no Time hereafter, will impose, or make, or cause to be imposed, any Impositions, Customs, or other Taxations, Quotas, or other Contributions, whatsoever, in, or upon the Refidents, or Inhabitants of the Pro-vince aforefaid, for their Goods, Lands, or Tene-ments, within the fame Province, or upon any Tenements, Lands, Goods, or Charles, within the Tenements, Lands, Goods, or Chattles, within the Province aforefaid, or in, or upon any Goods, or Merchandizes, within the Province aforefaid, or mithin the Province aforefaid, or within the Ports, or Harbours of the faid Province, to be laden, or unladen : And we will, and do, for Us, our Heirs and Succeffors, enjoin and command, that this our Declaration, shall, from Time to Time, be received and allowed, in all our Courts and Prætorian Judicatories, and before all the Judges whatfoever, of Us, our Heirs and Succeffors, for a fufficient and lawful Difcharge, Payment, and Acquittance thereof, charging all, and fingular, the Officers, and Ministers of Us, our Heirs and Succeffors, and enjoying them, under due heavy Difpleafors, and enjoining them, under our heavy Difplea-fure, that they do not, at any Time, prefume to at-

> and Ministers, Factors, and Assigns, in the fullest Use and Enjoyment of this our Charter." Our Ancestors firmly relying on the royal Promise, nd upon these plain and express Declarations of their nherent, natural, and constitutional Rights, at the azard of their Lives and Fortunes, transported themsives and Families to this Country, then fcarcely nown, and inhabited only by Savages. The Prospect f a full and peaceable Enjoyment of their Liberties and Properties, softened their Toils, and strengthened tem to overcome innumerable Difficulties. Heaven ofpered their Endeavours, and has given to your Ma-

tempt any Thing to the contrary of the Premises, or

that may in any wife contravene the fame; but that they, at all Times, as is fitting, do aid and affift the

aforefaid now Baron of Baltimor, and his Heirs, and the aforefaid Inhabitants, and Merchants, of the

Province of Maryland aforefaid, and their Servants,

jesty, a considerable Increase of faithful Subjects, improved the Trade, and added Riches to the Mother-Country.

Thus, happy in the Enjoyments of the Rights and Privileges of natural-born Subjects, have they, and their Posterity lived, and been treated as Freemen, and thus, hath the great fundamental Principle of the Constitution, that no Man shall be taxed, but with his own Confent, given by himfelf, or by his Representative, been ever extended, and preserved inviolate in this remote Part of your Majesty's Dominion, until questioned

lately by your Parliament. It is therefore with the deepest Sorrow, may it please your most excellent Majesty, that we now approach the Throne, on Behalf of your faithful Subjects of this Province, with all Humility, to represent to your Majesty, that by several Statutes, lately enacted in the Parliament of Great-Britain, by which fundry Rates and Duties are to be raised and collected within your Majesty's Colonies in America, for the fole and express Purpose of raifing a Revenue, this great fundamental Principle of the Constitution, is, in our Apprehension, infringed. The People of this Province, Royal Sire, are not in any Manner, nor can they ever possibly be, effectually re-presented in the British Parliament : While, therefore, your Majesty's Commons of Great-Britain continue to give and grant the Property of the People in America, your faithful Subjects of this, and every other Colony, must be deprived of that most invaluable Privilege, the Power of granting their own Money, and of every Opportunity of manifesting, by chearful Aids, their Attachment to their King, and Zeal for his Service; they must be cut off from all Intercourse with their Sovereign, and expect not to hear of the royal Approbation; they must submit to the Power of the Commons of Great-Britain; and, precluded the Bleffings, shall fearcely retain the Name of Freedom.

May we then, most gracious Sovereign, be permit-ted, humbly to implore your tender Consideration of this unhappy Circumstance of your American People? May we pray, that your Majeffy will extend to your faithful People of Maryland, that paternal Regard which your Majeffy hath so invariably shewn to the just Rights of all your Subjects, and be graciously pleased to grant them such Relief, as to your Majesty's Wisdom and Justice shall seem meet?

HE Confederates of the Sieur Malczewsky fell the 4th Inft. upon the little Town of Zirke, near the Wartha, and demanded of the Inhabitants a Contribution of 20,000 Florins, besides all the Corn and Forage they took away with them; but the Admini-itrator having, not long before their Arrival, carried off all the Cash to Driessen, these Malecontents de-stroyed the Castle, and most of the Houses, and in Revenge, for having miffed their Prey, they maffacred feveral of the unfortunate Inhabitants.

LECHORN, Dec. 16. They write from Corfica, that Two English Noblemen, who came there, after having spoken with General Paoli, returned to Italy in a Ship under French Colours. The Corficans have taken into their Pay 5000 regular Troops, in Order to enable them to oppose the 40 Battalions of French Troops that are to go to Corfica in the Spring. Notwithstanding these Reinsforcements, the Corficans are more than ing these Reinforcements, the Corsicans are more than ever determined to spend the last Drop of Blood in Defence of their Liberties.

PARIS, Dec. 19. Some Letters from Poland advife, that the Empress of Russia will command in Person her Army against the Turks.

STOCKHOLM, Dec. 20. Some Differences having arisen between the Senate and the College of the Chamber, the former refolved on the Establishment of an extraordinary Tribunal to take Cognizance of, and to decide them. Of which the King being informed, he went to the Senate on the 11th of this Month, deciared his Disapprobation of that Measure, proposed the holding an Affembly of the States, and caused a Writing to be entered in the Registers of the Senate, in his Presence, at the End of which his Majesty declared, that if the College continued to oppose the Convocation of the States, he would abdicate the Crown.

As foon as the King had retired, the Senate took into Confideration his Majesty's Declarations. At the Close of their Deliberation, the Senators Friesendorff and De Ribbing went to Court, and earnestly prayed the King that he would desist from his Demand; but his Majesty declared he would not, and desired that the Senate might give him a categorical Answer. An Hour after, Six other Senators went, and intreated the King to grant the Senate a Delay of Four Days. His Majefty, then lofing all Patience, told them, that he confidered their Request of a Delay as a Refusal; that he renounced the Government 'til the States should be affembled, that he forbade the dispatching the leaft Business in his Name, and that he insisted the Seals should be delivered to him.

The next Day the King fent the Prince-Royal to the respective Colleges, there to read the following Declara-tion:—"We order, by these Presents, our dear Son, the Prince-Royal, to notify to the Colleges of the State, that; judging it necessary to convoke the States of the Kingdom, we had presumed that the Senate would have consented thereto this Day, which not being done, we can only consider their Silence, as a Refusal;

confequently, we find ourselves under the Necessity of abdicating the Regency, until the faid States shall be convoked. Done at Stockholm, Dec. 13, 1768. ADOLPHUS FREDERICK."

(Signed) The Prince-Royal went directly to the College of the Chancery, read there, with a loud Voice, the above Order, and demanded that the Seal, with the Royal Arms, should be delivered up to him; but the Keeper of it being absent, this Request of his Royal Highness could not be complied with. The Prince, however, fignified to the Members of the College, that they should answer it to his Majesty, and the States, if they continued to make Ufe of the Seal.

From this College, the Prince-Royal went fuccessively to the others. The Streets were fined with Crowds of People, imperient to learn the Iffue of a Scene fo extraordinary and critical.

While his Royal Highness was making this Tour of the Colleges, the Senate continued affembled, and fent a Tlord Deputation to the King, praying him to change his Resolution. This Attempt having also proved as fruitless as the Two preceding, Friesendorss, Himme, Horn, Lagerbielke, Walwick and Funck, came to a Resolution of conforming to the King's Intention, and confenting to the Convocation of the States; their Voices, joined to his Majesty's, formed a Majority.

In about Three Hours after, the King refumed the Crown and the Scenter, and the Allembly of the Dyet was fixed for the 15th of March.

Dec. 22. 'Tis faid, that from what paffed at the India -Court Yesterday, it appears that the India-Company have already profited by their Territorial Acquifitions more than Five Millions Sterling, for they have difcharged in Bengal, Bond Debts to the Amount of 700,000 l. they have allowed Increase of their Annual Accounts 1,600,000 l. they have remaining in the dif-ferent Treasuries of Bengal 800,000 l. they have at Madrass 140,000 l they have 200,000 l. in China; they have paid off in England 1,000,000 l. Total 5,640,000l. Exclusive of this, they have their Warehouses full of Goods, their homeward and outward-bound Ships richly laden, and they have just acquired the Dewanny of the Myfore Country and Baiagat Carnatic; an Acquifition which is variously represented, some stating it at Three Millions, annually, and others at no more

It is faid that when her Royal Highness the Princess Dowager of Wales accompanies their Majesties next Summer to Hanover, she will retire to Zell, which Place her Royal Highness proposes to make her future

Refidence, and will not return again to England.

Dec. 24. The Empress of Russia's Declaration of War against the Turks, has already appeared in Poland, where Fifty Thousand Troops are speedily expected from Finland, Ingermania, and Livonia, besides Twenty Thousand Calmucks.

According to Letters from Leghorn, General Paoli has now a Number of Scotch Highlanders in his Pay, feveral of whom had ferved in the last War.

A Letter from the Confines of Poland, dated Dec. 9, fays, " We learn from Caminiec, that the Turks and Tartars have Orders to retire from the Frontiers of Moldavia, and Walachia, probably, in order to go into Winter-Quarters."

Dec. 29. The General Court of the East-India Com-pany last Wednesday was held, to consider some Advices of the State of their Concerns in several Parts of the Company's Settlements, and also the Consideration of some Proposals made by the Directors to the Board of Treasury, and the Answers of that Board to them. The principal Matters were, an Offer of 400,000l. for Five Years, in Confideration of waving any Claim to the Territorial Revenues of the Company in Afia, and on an implied Condition, that the Restriction on the Dividend should be enlarged to Twelve and an Half per Cent. with the Limitation, that not more than One per Cent. Advance be made in one Year. The Sense of the Court, as far as could be gathered from the Debates, and other Appearances, feemed to be against concurring with the Proposals; but the farther Confideration was adjourned 'til that Day Fortnight.

The Term of Two Years, for which the India Com-pany paid the Government 800,000l, to avoid any Discustion of the Claim of the Crown to the Revenue accruing from their Afiatic Dominions, being expired, there is great Reason to believe, that their Affairs will occasion great Speculation and Dispute. Their Negociations with the Ministry will not only be attended with great Difficulty, but besides, the Two Parties are struggling for the Directorship; the Directors themfelves are now engaged in warm Disputes respecting

A Correspondent at Bath, informs us, that an Officer there took an Opportunity lately, in the Hearing of a Lady pretty nearly related to Mr. Wilkes, to speak of that Gentleman in a difrespectful virulent Manner, and concluded with faying, d— him, I with I had his Head." To which the Lady replied, with a very fignificant Emphasis, "I wish, Sir, you had but Half his Head." What do you mean by that, Madam, returned the Officer?—" Because (replied the Lady) you would not then, Sir, have rendered yourfelf fo ridicu-lous as to calumniate an absent Man, who, notwithstanding the Aspersions you have scandalously thrown out; against him, is greatly above being guilty of se mean, so unmanly an Act."

On Saturday last an Express arrived from the Court of Beriin, which occasions much Speculation.

Jan. 10. The King of Denmark, who was not expected at Altena 'til the 6th Instant, arrived there the ad; his Majesty it is supposed having accelerated his Return to his Capital, in order to be more at Hand to hear of the important Affairs transacting in Sweden.

Letters from Germany advise, that Prince Ponia-towski, Brother to the King of Poland, is going to quit the Service of the Court of Vienna, and to enter into that of the Empreis of Rusha, who has declared him Field Marshal of her Armies.

Jan. 12. It is given out, that fome Changes in his Majesty's principal Governments in North-America will from take Place.

We hear that a Gentleman of great Consequence in North-America has wrote to a Correspondent here, requesting him to wait on Mr. Wilkes, and obtain his Leave for an eminest Artist to take a Portrait, which is intended to be fent to Boston, in order to be hung up in the Public-Hall!

It is throughly reported that Three Sail of Ships of the Line of Battle and Two Frigates are speedily to be put

Extract of a Letter from Paris, Dec. 16. se It is affored that his Danish Majesty has made a Present to the King, of a Regiment of Cavalry, which is to be called the Royal Danes; upon Condition that the Duke de Duras and his Descendants shall always be Colonels of it. There are Two Precedents of the fame

kind in the Families of Noailles and Beauffremont." Extract of a Laver from Leghorn, Dec. 23.

" General Paoli continues to harrass the French, and has lately made feveral Attacks on them in their Winter-Quarters, and has killed them 300 Men: A large Quantity of Provisions, and Two Pieces of Cannon, were lately feized on by his Light-Horfe. It is this Morning reported, that Two Corfican Xebecs have taken Two large French Barks laden with Powder and warlike Stores, and a large Sum of Money defigned to pay their Trocps."

Extract of a Letter from Paris, Jan. 1, 1769.

" I cannot close my Letter with a more polite Piece of Intelligence, than to inform you of the great Reputation the Contesse de Barry possesses at Court. This Lady is of Irith Extraction, though born in France, and is faid to be a near Relation of the Earl of B-e of the Kingdom of Ireland. She has acquired that Confequence lere, that all Favours are conferred through her Means; and the King is fo particularly attached to her, that he feems to transfer the Efteem 1. March 6. We are told, that the Affairs of thefe Colonies were to be firstly canvassed in Parliament, and that every Thing would be done for them which could reafonably be expected.

Letters from London mention, that the Halifax Pool of, which was fent home last Summer with Difpresents from Commodore Hood, is lying at Portfmouth fitted for Sea, and ready to fail at an Hour's Warning; and is only detained 'til the Parliament has determined

the American Affairs; when the will fail with Orders for General Gage, and the American Governors. The same Letters informs us, that it is more than probable, that the Earl of Chatham, and George Grenville, Eig; will be appointed Secretaries of State before the End of the Holdays, as all the different Bouncas of the Grenville Family, are now firmly united —That if this Arrangement should take Place, it is not doubted, but a War will foon enfue; which will give great Satisfaction to a noble Earl, as he will then most certainly, folely guide the Reins of Govern-

March 16. By the Brig Ann and Catharine, Capt. James Cooper, from Leghorn but last from the Island of sardinia, we have the following Advices, viz. That during his flay in Leghorn, the Corficans and the French had Five Engagements, in all which the Corfi-cans had gained the Victory, that they had kill'd and taken Pritoners Ten or Twelve Hundred, among which was a French General. It was generally thought and expected there, that the Corficans would entirely rout the I reach out of the Ifland this Winter. Mr. John Dick, the English Conful at Leghorn, to Corfica, to take Paoli's Portrait, which he had accordingly done, and it was sent for England before Capt. Cooper failed from Leghorn, for which he was presented with 100 Chequins. It is said at Leghorn, that an English Frigate was certainly arrived at Corsica, with a Present for General Paoli from the Court Ladies, who had drank his Health. An Account also arrived, that a free Exportation of Corn was allowed out of Sardinia and Sicily to France, Spain and Portugal, and that they had the Appearance of very fine Crops there as well as throughout all Italy.

Jan. 12. It is given out, that fome Changes in his Majesty's principal Governments in North-America

will foon take Place. We hear that a Gentleman of great Consequence in North-America has wrote to a Correspondent here, requesting him to wait on Mr. Wilkes, and obtain his Leave for an eminent Artift to take a Portrait, which is intended to be fent to Boston, in order to be hung

up in the Public-Hall! It is strongly reported that Three Sail of Ships of the Line of Battle and Two Frigates are speedily to be put in Commission at Portsmouth.

Extract of a Letter from Paris, Dec. 16.

" It is affored that his Danish Majesty has made a Present to the King, of a Regiment of Cavalry, which is to be called the Royal Danes; upon Condition that the Duke de Duras and his Descendants shall always be Colonels of it. There are Two Precedents of the same kind in the Families of Noailles and Beauffremont."

Extract of a Letter from Legborn, Dec. 23.

" General Paoli continues to harrais the French, and has lately made feveral Attacks on them in their Winter-Quarters, and has killed them 300 Men: A large Quantity of Provisions, and Two Pieces of Cannon, were lately seized on by his Light-Horse. It is this Morning reported, that Two Corsican Xebecs have taken Two large French Barks laden with Powder and warlike Stores, and a large Sum of Money defigned to pay their Trocps."

Extract of a Letter from Paris, Jan. 1, 1769.

" I cannot close my Letter with a more polite Piece of Intelligence, than to inform you of the great Reputation the Contesse de Barry possesses at Court. This Lady is of Irish Extraction, though born in France; and is faid to be a near Relation of the Earl of B-e, of the Kingdom of Ireland. She has acquired that Confequence here, that all Favours are conferred through her Means; and the King is so particularly attached to her, that he seems to transfer the Esteem he had for Fompadour, and the Affection he had for Murphoy, unitedly, to the prefent Favourite."

March 6. We are told, that the Affairs of these Colonies were to be strictly canvassed in Parliament, and that every Thing would be done for them which could reafonably be expected.

Letters from London mention, that the Halifax Packet, which was fent home last Summer with Difpatches from Commodore Hood, is lying at Portfmouth fitted for Sea, and ready to fail at an Hour's Warning; and is only detained 'til the Parliament has determined the American Affairs; when the will fail with Orders for General Gage, and the American Governors.

The fame Letters informs us, that it is more than probable, that the Earl of Chatham, and George Grenville, Efq; will be appointed Secretaries of State before the End of the Hondays, as all the different Brunches of the Grenville Family, are now firmly united.—That if this Arrangement flould take Place, it is not doubted, but a War will foon enfue; which will give great Satisfaction to a noble Earl, as he will then most certainly, folely guide the Reins of Govern-

PHILADELPHIA.

March 16. By the Brig Ann and Catharine, Capt. James Cooper, from Leghorn but last from the Island of Sardinia, we have the following Advices, viz. That during his stay in Leghorn, the Corsicans and the French had Five Engagements, in all which the Corficans had gained the Victory, that they had kill'd and taken Prifoners Ten or Twelve Hundred, among which was a French General. It was generally thought and expected there, that the Corficans would entirely rout the French out of the Island this Winter. Mr. Henry Bambridge of this City had been sent by Sir John Dick, the English Conful at Leghorn, to Corsica, to take Paoli's Portrait, which he had accordingly done, and it was fent for England before Capt. Cooper failed from Leghorn, for which he was prefented with roo Chequins. It is faid at Leghorn, that an English Frigate was certainly arrived at Corfica, with a Present for General Paoli from the Court Ladies, who had-drank his Health. An Account also arrived, that a free Exportation of Corn was allowed out of Sardinia and Sigila to France. Spain and Portugal, and that and Sicily to France, Spain and Portugal, and that they had the Appearance of very fine Crops there as well as throughout all Italy.

B A S T I A, December 4.

FEW Days ago arrived here in a French Ship, many foreign Workmen, with Utenfils to e-rect Barracks for the French Troops in this Island. The Corfican Affairs bear the Appearance of regaining a very favourable Polition, as the Re-monstrances of many foreign Powers to the Court of France,

have had a good Effect. LEGHORN, Dec. 13. According to the last Advices from the Island of Corsica, every Thing there, is in a State of profound Peace; but no Exchange of Prisoners has yet been made. General Paoli continues to take every Measure that can enable him to resist the Attacks

which the French may make in the Spring.

From the Frontiers of POLAND, Dec. 22. They write
from Warfaw, that Prince Repnin received a Courier the Day before Yesterday, with Advice, that Major Drewitz, with 300 Men, having pursued Prince Sulkowski, who commanded 1000, had obliged him to fly towards Silesia, where he fell into the Hands of the Pruffians, to whom he furrendered Prifoner of War, with 600 of his Men; who have most of them enlisted into the Service of the King of Prussia.

LONDON, Jan. 14. At a very numerous and respectable Meeting of the Freeholders of the County of Middlesex, held Yesterday, at the Mile-End Assembly-Room, the following Instructions were unanimously agreed to, and directed to be transmitted to the Knights of the Shire,

" 2. To promote a ftrict parliamentary Inquiry into the Military in St. George's-Fields, on Tuesday, the 10th of May last. " 3. To promote a like Inquiry into the Riot and

Murders committed at Brentford, on the 5th of December laft. " 4. To examine into the Administration of Justice

in this County; particularly into the present State of the Commission of the Peace.

"5. And, as far as in your Power, to promote an Inquiry into the Rights of the Public, to the Territorial Revenue arising from the Conquests in India."

John Sawbridge, Esq. Member of Parliament for Hithe, in Kent, was, by the general Voice, placed in the Chair.

The Instructions relating to the Trial by Jury, was

moved by the Rev. Mr. Horne.

The Three Instructions relative to Inquiries into the Transactions of St. George's-Fields, the Riot at Brent-ford, and the Commission of the Peace, were moved by James Adair, Efq; And, the Inquiry relative to the Territorial Revenue of the Conquelts in India, was proposed by Benjamin Hayes, Esq; The Three Gentlemen above-mentioned were ap-

They account for it only on Two Principles, that they either do it to cover some deeplaid Design, (or, to use their own Phrase, to amuse) or else they have stumbled upon that wretched System of Politics we adopted the Beginning of the last War, in regard to America; which gave Rise to that just Remark, made by the then celebrated Mr. Pitt,—

B O S T O N, March 13.

Thursday, the 6th Day of April next, is appointed, by Authority, to be observed as a Day of Fasting and Prayer shroughout this Province.

Monday the 27th Ult. the Post-Rider with the Mails for Rhode-Island, New-London, New-York, Philadelphia, &c. &c. was assaulted on Boston-Neck, just

after Sun-fet, as he was fetting out for his Journey, by Four or Five Persons, who appeared dressed as Officers: One of them took his Sword from his Belt, and with the small End in his Hand, struck the Rider on the Head with the Hilt, that it forced the Sword out of the Scabbard, and went to a confiderable Diffance.—The Rider, recovering himfelf, informed them, that he was on his Majesty's Service, whereupon they all ran off.— The Rider would have returned to Town; but, as there had been Stoppages lately, occasioned by the bad Travelling, he was determined not to be the Means of the Mails returning out of Season; he went on, and at the first Stages, had his Head bathed, which was considerably swelled by the Blow; he reached Newport on Wednesday, from whence he employed another Person to perform for him the last Week.

Captain Lindsay, of the Halifax Packet, writes of the 7th of December, "That he had Orders to be in Readiness to sail at an Hour's Warning." And a Letter from a Gentleman in London, dated December 11th, says. "Captain Lindsay, in the Halifax Packet.

This Vessel may be hourly expected.

A Letter from Montreal, of the 19th Ult. mention, that Major Rogers is released from close Confinement, and has Permission to go any where within the Lines of that City, 'til his Majesty's Pleasure is known. Last Tuesday, the Officers of the Customs for this

Port, made a Seizure of a Ship of 200 Tons, Captain McCowen, belonging to London, lately from St. Ubes,

and also a Sloop from Virginia.

There are Advices in Town, that Three of the Four Regiments coming out this Spring to America, are the 56th, Colonel Welch; the 61st, Major General Grey;

and, the 63d, Col. Hotham's.

By Orders from home, the Regiments quartered in Town, are to encamp on the Common, as food as the Weather permits.

From the PROVIDENCE GAZETTE of March 4.

Being a Speciator at the Sitting of the Assembly at Provi-dence, I had an Opportunity of hearing the public Letters read. Among others, one in particular excited my Curi-osity; I therefore took it down in Characters, from which I wrote the Whole at large, and having heard the fame read a Second Time, you may be affured the follow-ing is a correct Copy. As it is of a pretty extraordinary Nature, you are requested to insert it in your useful Pa-per. Your's, ARGUS.

Whiteball, September 1, 1768. THE King having observed that the Governors of his Colonies, have, upon feveral Occasions, taken upon them to communicate to their Councils and Affemblies, either the Whole, or Parts of Letters which they have received from his Majesty's Principal Secretaries of State; I have it in Command from his Majesty, to signify to you, that it is his Majesty's Pleasure, that you do not, upon any Pretence whatever, communicate to the Assembly, any Copies or Extracts, of such Letters as you shall receive from his Majesty's Principal Secretary of State, unless you have his Majesty's particular Directions for so doing. I am, Gentlemen, Your most obedient bumble Servant, HILLSBOROUGH.

of the Colony of Rhode-Uland.

THE Colonists present their Compliments to L.-d.
H-----h, to whose Care the A----n Department has been committed, and humbly request, that before his L.....p proceeds to write any more C...ul-r L-tt.-s, he would make himself acquainted with the Conflitution of the Colonies. His L.....p's Ignorance, as appears by some of his M...t.... Mandates, has rendered him manifestly ridiculous; for Inflance, in one of his curious L-tt-s, his L----p gave Orders to the G----r of P-nf-va-a, that in cafe the Affembly of that Province did not act conformably to his Pleasure, immediately to dissolve them; whereas it is an inherent Privilege of that House to fit on their own Adjournments, and not in the Power of any G----r to dissolve them. Other Instances might be produced, to shew that his L----p has mast egregiously blundered; these will appear evident to himself, when his L----p becomes acquainted with the Duties of his Office; but should any other C---ul-r L-tt--s from his Office; but should any other C.-ul-rL-tt-s from his L---p be circulated, with unconflitutional Orders to the American G----s, the Colonists will " treat them with the Contempt they describe."

NEWPORT, (Rhode-Iffall) March 13.

Extract of a Letter from a Gentleman in London, to another in this Town, dated January 4, 1769.

Side of the Water, to judge of the Opinion the People in this Country have of America.—There is a Number of Vessels here put up for Freight for Boston, New-Vork, Philadelphia, &c. and not one Merchant in this City dares comply with their Orders, unless the Act of Parliament, imposing Daties on America, he repealed; which there is not the least Prospect of at present.—Many Ships are ordered to be sold, and others to return in Ballast. I have nothing new to tell you, only

that a Report prevails, that a Rupture between England and France is foon expected."

NEW-YORK, March 10.

We are greatly obliged to the Gentleman who favoured us with the following.

December 15, 1768.

1. Refolved, By the Lords Spiritual and Temporal, in Parliament affembled, That the Votes, Resolutions and Proceedings of the House of Representatives of Massachusetts-Bay, in the Months of January and February last, respecting several late Acts of Parliament, fo far as the faid Votes, Refolutions and Proceedings, do import a Denial of, or do draw into Question, the Power and Authority of his Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons, in Parliament assembled, to make Laws and Statutes, of sufficient Force and Validity, to bind the Colonies and People of America, Subjects to the Crown of Great Britain, in all Cases whatsoever, are illegal, unconstitutional, and derogatory of the Rights of the Crown and Parliament of Great-Britain. Great-Britain.

s. Refolved, That the Refolutions of the faid House of Representatives of the Province of Massachusetts-Bay, in January last, to write Letters to the several Houses of Representatives of the British Colonies on the Continent, defiring them to join with the faid House of Representatives of the Province of Massachufetts-Bay, in Petitions, which do deny, or draw into Question, the Right of Parliament, to impose Duties and Taxes upon his Majetty's Subjects in America, and in Pursuance of the said Resolutions, the writing fuch Letters, in which certain late Acts of Parliament, imposing Duties and Taxes, are stated to be Infringe-ments of the Rights of his Majesty's Subjects of the faid Province, are Proceedings of a most unwarranta-ble and dangerous Nature, calculated to inflame the Minds of his Majelty's Subjects in the other Colonies, tending to create unlawful Combinations, repugnant to the Laws of Great-Britain, and subversive of the Constitution.

3. Refolved, That it appears, that the Town of Bofton, in the Province of Mailachufetts-Bay, has, for fome Time past, been in a State of great Diforder and Confusion; and that the Peace of the faid Town, has at feveral Times been disturbed by Riots and Tumults of a dangerous Nature, in which the Officers of his Majesty's Revenue there, have been obstructed by Acts of Violence in the Execution of the Laws, and their Lives endangered.

4. Refolved, That it appears, that the ordinary Civil Magistrates, in the said Town of Boston, did not exert their Authority for suppressing the said Riots and Tu-

5. Refolived, That in these Circumstances of the Pro-vince of Massachusetts-Bay, and of the Town of Bos-ton, the Preservation of the Public Peace, and the due Execution of the Laws, became impracticable, without the Aid of a Military Force to support and protect the Civil Magistrates, and the Officers of his Majesty's Revenue.

6. Refelved, That the Declarations, Refolutions and Proceedings in the Town Meetings at Bofton, on the 14th of June, and 19th of September, were illegal, unconflitutional, and calculated to excite Sedition and Infurrection in his Majesty's Province of Massachusetts-

7. Refolved, That the Appointment of the Town-Meeting on the 12th of September, of a Convention to be held in the Town of Boston on the and of that Month, be held in the Town of Bolton on the 22d of that Month, to confift of Deputies from the feveral Towns and Dictricts in the Province of Massachusetts-Bay, and the isluing a Precept by the Select-Men of the Town of Bolton, to each of the faid Towns and Districts, for the Election of such Deputies, were Proceedings subversive of his Majesty's Government, and evidently manifesting a Design in the Inhabitants of the said Town of Boston, to usurp a new and unconstitutional

Authority, independent of the Crown of Great-Britain. 3. Refolved, That the Elections by feveral Towns and Districts in the Province of Massachusetts-Bay, of Deputies to fit in the said Convention, and the Meeting

puties to fit in the faid Convention, and the Meeting of fach Convention in Confequence thereof, were daring Infults offered to his Majefty's Authority, and audacious Ufurpation of the Powers of Government.

9. Rejoived, That an humble Address be presented to his Majefty, to return his Majefty Thanks for the Communication which he has been graciously pleased to make to his Parliament, of several Papers relative to Public Transactions in his Majefty's Province of Massachusetts-Bay-To express our sincere Satisfaction, in the Measures which his Majefty has pursued for supporting the Constitution, and inducing a due faction, in the Measures which his Majetty has purtued for supporting the Constitution, and inducing a due Obedience to the Authority of the Legislature; To give his Majetty the strongest Assurances, that his Parliament will effectually stand by, and support his Majesty, in such surther Measures, as may be sound necessary, to maintain the Civil Magistrates in a due Execution of the Laws within his Majesty's Province of Massachusetts-Bay.

Mallachusetts-Bay.

And, as we conceive, that nothing can be more immediately necessary, either for the Maintenance of his Majesty's Authority in the said Province, or for guarding his Majesty's Subjects therein, from being further deluded by the Arts of wicked and designing Men, than to proceed in the most speedy and effectual Manner, for bringing to condign Punishment the chief

Authors and Indigators of the late Diforders, to befeech his Majesty, that he will be graciously pleased to direct his Majesty's Governor of Massachusetts-Bay, to take the most effectual Methods for procuring the fullest Informations that can be obtained, touching all Treafone, and Misprisions of Treasons, committed within the Gevernment since the 30th of December last, and to transmit the same, 'together with the Names of the Persons, who were most active in Commission of such Offences, to one of his Majesty's principal Secretaries of State, in order that his Majesty's principal Secretaries of State, in order that his Majesty may issue a special Commission for enquiring of, hearing and determining the said Offences within this Realm, pursuant to the Provision of the Statute of the 15th Year of the Reign of King Henry the Eighth, if his Majesty shall, upon receiving said Information, see sufficient Ground for such a Proceeding.

March 16. On Monday last, according to Desire, there was a Meeting at the House of Bolton and Sigel, of the Subscribers to the Agreement for Non-Importation of Goods, when, we hear, a Committee was appointed to inquire into and inspect all European Importations, in order to a firict Compliance with the faid Agreement, and also to correspond with the other

Extraordinary A N E C D O T E. URING the Troubles in the Reign of Charles I. a Country Girl came to London in fearch of a Place as a Servant Maid; but not fucceeding, the applied herfelf to carry out Beer from a Brew-House, and was one of those then called Tub-Women. The Brewer observing a well-looked Girl in this low Occupation, took her into his Family as a Servant, and after a while married hers, but he died while she was yet a young Woman, and left her a large Fortune.—The Business of the Brewery was dropped, and the young Widow was recommended to Mr. Hyde, as a Gentle man of Skill in the Law, to fettle her Husband's Affairs. Hyde (who was afterwards the great Earl of Clarendon) finding the Widow's Fortune very confiderable, married her: Of this Marriage there was no other Issue than a Daughter, who was afterwards the Wife of James II. and Mother of Mary and Anne, Queens of England.

TO THE PRINTERS.

Prince-George's County, March 15, 1769. A S Andrew Beall thought proper to certify, in your Gazette, of the 22d of December laft, that I was a Liar, and has fince, on being called on by me, to prove his Affertion, published a long Letter in the Gazette of February 23d, for that Purpose; I think it necessary for me to justify myself; and, although I think both he and I are of too little Importance, to trouble the Public with our Disputes; yet, when so much Pains has been taken to make my Character of the much Pains has been taken to make my Character odious to the whole Province, it is to be hoped I shall stand excused for troubling the Public with Things, which, otherwise, ought never to come before them.

ANDREW BEALL is a Person with whom I never had any Connexion, and knew very little of, before he applied to me to fign his Recommendation, for being Inspector at Bladenfburg; and, as that Transaction gave rise to all the Abuse he has loaded me with, both in Public, and in the Neighbourhood, I shall relate the Affair exactly as it happened, and it will appear, in many Circumstances, to be a very different Tale, from what he has told. He came to me on the Sunday before the Meeting of the Veftry, for the Choice of Inspectors, and called me aside, just as I was going into the Church, and asked me to sign a Paper for him: I asked what Paper it was, and he answered, a Recommendation for his being an Inspector: I had never heard a Word ahout the Affair before; and, as I had only known him as a Singing-Mafter, it could not be supposed that I was a Judge, whether he was a proper Person for that Office, or not : I therefore asked him, what the Gentlemen, in, or about Bladenfourgh, thought of him? And he faid, they were all for him; I then asked for the Paper, and he said, he had left it with some People behind the Chapel. On this, we both went to the Back of the Chapel, where there was a Number of People, some string, and some standing. I took the Paper. fome fitting, and fome ftanding. I took the Paper, and glanced over it very flightly, not having the leaft Sufpicion that he had told me a Falsehood, my Attention being engaged to see the Pooples Names, who had already signed it; and, I solemnly declare, that I did not take Notice of the Word BLADENSBURGH, being in it; nor, did I ever know it was, 'til he told me of it afterwards. Whilit we were disputing on the Subject. I fat down, and figned my own Name, and then, at Mr. BEALL'S Defire, wrote several other Peoples Names, who were prefent, and gave their Con-fent. I then gave the Paper to Andrew Beall, and entered into Convertation with Hugh Wilson, who fat next me; after which I left the Company, to go into the Church, and Andrew Beall, I think, came away from the Company at the fame Time. While I stayed, neither he, nor any other Person, read the Paper aloud, in my Hearing; nor did I hear him make any such Declaration, as is mentioned in his Certificate.

On my coming afterwards to Bladensburgh, and finding ANDREW BEALL would be disagreeable to all the Merchants, as an Inspector, and also to many Planters, who knew him, I mentioned his having told methe Bladensburgh People were all for him, and I wrote a Certificate to that Purpole, in John Brall's Recommendation, which I understand is now in the Hands of his Excellency the Governor. When Andrew found that he could not prevail on me to retract what I had said, either by his Threats, or his screenious Language, of which he is well known to be very liberal of,

to every Person that disobliges him. He prevailed on Four of the People who were present when I figured his Paper, to subscribe, or make their Marks to a Certificate, which he had ready drawn, to answer his Purpole: That those People heard bim read the Recommendation, (which was drawn up by himself) and make the Declaration he mentions, I do not doubt; but, how he prevailed on them to put their Names to the other Things in their Certificate, which are utterly false, can only be conceived by those who know how much Artisce and Cunning he is capable of. Two of those very People, deny now, that they ever faid they knew whether or not I heard the Paper read, or him declare that he was opposed by the Three Gentlemen mentioned, as will appear from their Certificate annexed, which differs much from the one he has published; and the Person who fat next me when I figned, and until I left the Place, heard nothing of its being read, as will appear also by his Certificate, which was taken down from his own Mouth by another Person, and afterwards read to him, Word for Word, before he figned it, and a Copy of it left in his Policifion.

Andrew Beall, at first, and for a considerable Time afferted, That, when I asked him, what the

Bladensburg People thought of him, he told me, that Messieurs Henderson, Dick, and Leiteb, had recommended John Beall, and that I said I was surprised those Gentlemen should oppose him, in Favour of John Beall; but, finding he could not gain Credit, or make any Part of that Tale be believed, he has now had Recourse to the Artifice of impoling on those People, by wheedling them to fign what they knew nothing of. As to what Thomas Crofford declares, of my having told him afterwards, "That, notwithstanding what I had faid, I fill preferred Mr. Andrew Beall," it is utterly void of Truth. I have alked him, where it was that I told him fo, and he mentioned a Time and Place; and, I can prove, by the Testimony of Mr. John Hill, that the said Crossor had lest the Place before I came to it. Andrew fays, " that I acknowledged, before Mr. Dick, his young Man, and Mr. Deakins, that I did read the Recommendatory Letter, which before I had told the young Man I did not read; and, that after we had talked over the Matter, he went out of the Store, and I followed him, and defired to speak with him, telling him, I had never met with any Thing that gave me for much Uneafiness as the receiving his Letter, and that I had not slept the whole Night." The Foundation he builds this Part of his Story on, is this; On my telling him of his affuring me all the People in Bladenghargh, were for him, he affected the contrast. burgh, were for him, he afferted the contrary, and afked me if I had not read his Paper; on which I faid, I believed what he had told me at the Time I asked him, and when I took the Paper in my Hand, I looked fo flightly over it, that I did not take Notice what was in it. Instead of my following him out of Mr. Dick's Store, he followed me, and made Use of much Threatning and Abuse, to induce me to retract what I had faid; and, as some Time before that, I had hurt my Arm by a Fall from my Horse, which was then in a Sling; and he heard me tell Mr. Dick, it was very painful, and had deprived me of Sleep all Night, he has given this Conversation an artful Turn, by saying I told him fo, that he might raise a Conjecture in the Mind of the Reader, that my not Sleeping, proceeded from an Uneafiness of my Mind, and my Conduct towards him.

If Mr. Beall was as well known over the whole Province, as I have lately learned he is in the Lower Parts of Prince George's, and Upper Parts of Frederick Counties, it would be needless for me to trouble myself, or the Public, about any Thing he fays; but, as the Public know little of either him, or me, I hope I shall stand excused for taking up a little more of their Time in pointing out One or Two Instances, among many, of this Man's extreme Assurance, I believe, I shall be

excused in calling it Impudence. He fays, "It has been maliciously, and industriously foread, to the Prejudice of his Character, that he had made Use of Peoples Names, without having any Authority fo to do; and calls them Liars, whoever they be, that reported it."—It has been proyed, by the positive and folemn Affirmation of one Person of good Character, that Andrew Beall made Use of his Name, without his Authority; and his Affirmation is corro-borated and demonstrated to be true, by the Affirmation of Two other Persons of unexceptionable Characters also. I relate the above from Information, and believe, I run no Rifk of its being made appear, that I have been misinformed; but, what follows, I was an Eye-Witness of, as well as many others, who were drawn together at Mr. Church's Tayern, in Bladensburgh, in order to hear what Proofs Andrew could bring against another Man's Character, which he had asperfed in a cruel Manner, with a View I (manner). in a cruel Manner, with a View. I suppose, to get him left out of the Nomination of Inspectors, at the next Election, by the Vestry, that he might himself have another Chance of becoming an Inspector. The Evidences, who were Men of too much Knowledge and Spirit, to sign Certificates of Andrew's composing, declared what they knew; and it appeared that Andrew wanted to make a Mountain of a Mole-Hill. The Person, who had taken some Pains to show what the Man was capable of, who had accused him, in order to deprive him of an Office he has held several Years, with Credit to himself, and Satisfaction to the Public, produced a Man, who proved this same Andrew Beall, (who insists on being made an Inspector) fold him, this Man, whose Name is Bekwith, a blind Horse, which Horse he would not take back, until Beckwith gave him Seven Pounds. Andrew acknowledged the Horse was blind, but solemnly afferted, over and over, to the whole Company, that he did not know he was blind, when he sold him to Beckwith; for, the Man he had bought him from, had cheated him:—On which a Certificate was produced from under the Hand of a Gentleman, (who has long been, and is now, a Member of the Honourable the Lower-House of Assembly, and whose Hand-Writing was well known to seemal People who were present) that Andrew Beall told him on the Road, when he was bringing down the Horse, from the Back-Woods, that he had been buying some Horse, one of which he had discovered to be blind. Notwithstanding this, Andrew Rill supported himself, and he declared boldly the Gentleman was a Lier, his common Language on in a cruel Manner, with a View I suppose, to get him left out of the Nomination of Inspectors, at the next E-

all Occasions, when he cannot make any other Defen all Occasions, when he cannot make any other Defence. When he was pressed, on another Occasion, in a public Company, in the same Tavern, in regard to be Behaviour in Private Life, in other Points, as unbecoming the Character of a Man who aim'd at being a Inspector, he gave an Answer boldly and impudently, in the Face of a whole Company, which I must leave to himself to repeat, in case he should trouble you win another Publication in Defence of his Character; which he certainly ought to do, against bimjelf, as he has another Publication in Defence of his Character; which he certainly ought to do, against himfelf, as he has very much darkened it of late, tho he still keeps infecting, that nothing is dearer to a Man than his Repuntion; which is certainly true, where a Man has any to loofe. For my own Part, I have done with him, and shall leave his Character to the Mercy of his Neighbours. I have been brought up to other Business, than spending and proving a but I am need to be a proving a proving a but I am need to be a my Time in fending and proving; but I am not in young a Gentleman, as not to have adopted the old-fashioned Maxim, that no Man is set for a Public Tree (and least of all for an Inspector) who does not behave both in private and public, so as to acquire the Esteem and Confidence of those who are deeply interested in its being discharged with Candour and Integrity, WILLIAM BERRY. my Time in fending and proving; but I am not a

HUGH WILSON, of Prince-George's County,
do hereby certify, That I was present at the
Time when William Berry figned Sadrew Bealt's Recommendation for his being Inspector at Blakenfung;
and, that the said Berry and Beall, came both together
to the Place where several People and myself were,
behind the Chapel, when Andrew Beall gave the Paper
to William Berry, who look'd at it, and ask'd Antree to William Berry, who look'd at it, and afk'd Antrew Beall if James Wilson's Name was wrote by himself, and, I think, Andrew told him, it was, on which William Berry faid, He thought James Wilfan wrote a better Hand; and Andrew Beall replied, that he wrote it on his Knee, or fomething to that Purpofe; then Mr. Boy figned it, and also wrote the Names of some other People who were present. After he had done this, he gave the Paper either to Mr. Beall, or Thomas Gregori, cannot fay which; and immediately fell into Conversation with me, who was sitting next him, which Conversation lasted a very little while, and then Mr. Berry and Mr. Beall walked away together to the East. End of the Chapel. Although I was prefent the whole Time, I never heard either Mr. Beell, or any other Person, read the Paper, either before, or after Mr. Berry signed it; nor did I read it myself, before I figned it, not having my Spectacles with me, I only faw Mr. Wilson's Name, and Two or Three others, whom I knew. To the Truth of the above, I am ready to make Oath, if called on.

WE do hereby certify, that all we know, or will swear, in regard to what past between William Berry and Andrew Beall, at Mr. Addison's Chapel,

the Sunday William Berry figned Andrew Beall's Recom-

mendation, is as follows, viz.

They came up to the Company, where we were, and William Berry took the Recommendation, and looking at it, asked Andrew Beall, whether that was James Will fon, our former Inspector, that had figned it? The find Beall said it was; William Berry said, he thought James Willon wrote a better Hand: With that Beall said, he wrote that on his Knee; then William Berry figned; then the faid Andrew Beall asked William Berry figned; then the faid Andrew Beall asked William Berry to fign Four others, which he did: Then Andrew taking the Paper, and standing near William Berry's Feet, and reading out; then he, the faid Andrew Beall, did say, Richard Henderson, Robert Dick, and Andrew Leitch, or we think, to the best of our Remembrance, Words to that Effect, were against him: Whether William Berry heard what Andrew Beall said, we cannot tell; though we never heard William Berry make any Answer. As we never heard William Berry make any Aniwer. As witness our Hands, this 27th of February 1769.
