Cultural Affairs Committee Lays Plans For 1962 - 1963

An initial planning session of the Cultural Affairs Committee was held Tuesday night, April 24, at which time an assessment was made of the current year's work. A report on the polling of student and faculty opinion stated that 17 comments were returned. Additional opinion was given orally by student members of the committee.

A suggestion originating with SGA and reflected in committee opinion was that

Plans were laid to concentrate on two major events, one particularly notable convocation speaker and one outstanding performing group. Funds over and beyond those required for two programs of outstanding calibre would be distributed according to needs in balancing the program and the operation of the work of the committee. The committee hopes to bring former President Dwight D. Eisenhower to the campus; an invitation will be extended.

The performing group or artist will come, it is hoped, from the area of the popular musical arts in a ballad singer or singers or a jazz concert. Hope was expressed that Burl Ives or the Limelighters might be available.

The Coffee Hour Series will be continued. Suggestions made by students and faculty will be reflected in the planning. A series of events around the theme of "Africa" or "Religions of the World" was a suggestion that met with much interest. Representatives from embassies, it is hoped, would be brought to the campus as part of such a series.

It was urged that due attention be paid science in planning programs. It will be a field to be covered in one of the major series next year.

The Committee appreciates the response given by faculty and students. Suggestions are always welcome and acted upon seriously.

Members of the committee are Mr. Carroll (humanities), Mr. Bloom (science), Dr. Lescalette (social studies), Miss Addis and Dean Robinson (Student Life), Brenda Foxwell (SGA president), and Wayne Towers, Ruth Cooling, Joan Miltzer, and Bill Cotten (student representatives selected by SGA). Mrs. A. L. Fleming is chairman.

The Committee exists by appointment of President Devilbiss who requests SGA to provide one-half the membership as he appoints faculty members. The budget of the committee comes from a stipend from the President's budget and a stipend from the Student Activity fee and is allocated by the SGA Board.

PHYLLIS TRICE

SNEA Elections Held

The Student National Education Association elected officers for the 1962-1963 school year at its April 17th meeting, officers are as follows: President, Phyllis Trice '64; Vice-president, Avery Saulsbury '65; Secretary, Barbara Spedden '63; Treasurer, Norman Conway '65; Board of Control Representative, Avery Saulsbury.

The latter office involves a two year representation of S.T.C. at the Board of Control of the Eastern States Association of Professional Schools for teachers. This association includes ten states from Maryland to Maine. Only one school in Maryland is represented at a time.

At the March conference of this organization, Dr. Leila Stevens was elected member of the Board of Control to represent the professional colleges of education in Maryland. Mr. James DiVirgilio was appointed to continue as publicity director for the organization. Mr. DiVirgilio has served in this capacity during the past two years.

If you are a future teacher plan now to participate in and lend your support to next year's SNEA program.

Spanish Club to Meet

On Wednesday night, May 2, a regular meeting of the Spanish Club will be held. It will be at 6:30 p.m. in the Faculty Lounge. Movies on Central America, South America, and Mexico have been ordered for this meeting.

Coming soon will be the election of officers for next year. It is hoped that all members will be present for these elections.

The club is interested in having one more speaker this semester. They would like to have the Chilean exchange student at Wilcomico Senior High School talk to the group about life in Chile.

Tentatively, a party will be planned for one meeting before the summer vacation. No definite arrangements have been made yet, so why not be at the next meeting with your suggestions for the successful winding-up of the Spanish Club's first year.

SARA ANN NICHOLS

Sara Nichols Wins Anne H. Matthews Award

During the Honors Convocation held on Tuesday, April 24, 1962, Dr. Wilbur Devilbiss announced that Miss Sara Ann Nichols, class of 1963, had won the Anne H. Matthews Award. This award, in memory of one of STC's Teachers, is given to that junior girl who has contributed the most and seems to have the most to contribute to the future in the education field.

Certainly, no one on campus is more deserving of this honor than is Sara. Recently elected as co-editor of the 1963 college yearbook, the EVERGREEN, she has also made many other contributions to STC life.

A resident of Salisbury, Miss Nichols is the daughter of Mr. J. I. Nichols and the late Mrs. Nichols. She attended the Bolton High School in Alexandria, Louisiana before entering Salisbury Teachers in which she has enrolled in the junior high school program in the social studies and English curriculum.

Sara's contributions to our college are active participation in the SGA as treasurer; a three-year member of the chorus and ladies ensemble, Phi Alpha Theta, Science Club, Canterbury Club, Christian Association, a member of the bowling league, intramural sports and finally having been named to the Dean's List for her entire school career.

The HOLLYLEAF joins the rest of the student body and faculty members in congratulating Sara on having received this coveted award.

PLAN TO ATTEND THE CANAL PARK SWIM PARTY

Date May 25 (Friday)
Raindate May 26
Swim 5-12
Picnic 5
Dance at Pool 8-11

MAYHEM

Can you imagine our own STC on college bowl? Well, tune in on STC at 8:00, Saturday, May 5, and somewhere during the course of what promises to be nothing short of an hilarious evening, you will see STC as it challenges its knowledge against Harvard University. This is only one of the many acts of Mayhem. This year's program has been divided into four parts—past, present, future and a fourth part performed by the faculty. Little information has leaked out about this fourth part, but if last year's Mayhem may be used as a judge — it should be good!

At any rate, Mayhem is on its way to being an evening filled with puns, jokes, skits, digs — all done in a nice way, of course. For instance, can you take yourself back to the time when our professors were being drafted? Well, Mayhem has taken itself back, and the results are unbelievable or is it quite believable or — just see it.

Special credit for this production goes to Hazel Joy, the director, and Beth Reid, acting on behalf of the S.G.A., which has undertaken to produce Mayhem this year. To this, is, of course, the writers, the editors, and finally, the "actors" themselves.

Regardless of what you have planned for that evening, take time out to tune in on Mayhem. After all, you may want to tell your children about the time STC was on College Bowl.

DR. MILLARD LESCALLETTE

Dr. LesCallette Receives Doctorate

Dr. Millard G. LesCallette has just recently (as of February 1, 1962) received the title of "Doctor" from the University of Maryland. The great amount of work required for this degree includes a thesis and examinations, in his case on various fields of history, which are concluded by an oral examination on the thesis itself. This oral examination, Dr. LesCallette described as a rather frightening experience in which the test-takers take "their last crack at you." His doctoral study, concerning the Civil War period, was "Lyman Trumbull and the Democratic Tra-

Dr. Burke Labels Much American Education as "Irrelevant"

On April 24, 1962, the Salisbury State Teachers College auditorium was the scene of the seventh annual Honors Convocation. The purpose of the Honors Convocation is to offer recognition to those students who have achieved success in the academic and other pertinent fields of college life.

The speaker for this event was Dr. Albert Burke, a former Director of Graduate Studies of the Conservation Program at Yale University. Presently, Dr. Burke is involved in presenting his ideas through a series of platform lectures and through a syndicated TV program, "A Way of Thinking." An intelligent and provocative personality, Dr. Burke presented his chosen topic, "Ideals and Reality," in an informative and interesting manner.

Dr. Burke stated the world owes its degree of organization and control through the efforts of two dominant practices — colonialism and imperialism. However, revolutionary changes in the present world community are being effected and the Earth civilization is shedding her system of intermediaries and is in the process of evolving a new and relatively complex order. The United States, forced from a veneer of isolation through the efforts of two world wars, is being made to cope with ideologies and mores contrasting with those she has so laboriously achieved. In order that the United States may become effective and useful citizen of a "world community," it must revamp a relatively decadent educational system. The peoples of the United States must be made aware of the eminent changes being wrought in a modern world environment and of the possible effect these changes may be able to render.

Barrier of Misunderstanding Between Nations

Dr. Burke maintained that a barrier of misunderstanding has been erected between the United States and countries of differing ideologies. Prejudice strengthened by ignorance has prevented the destruction of this breach between peoples and will continue to do so unless education based on irrelevant — but community-approved — materials are exchanged for a system encouraging the learning of "relevant" realities. American students and ambassadors visiting foreign countries tend to exhibit confusion when confronted with ideals radically diverging from their own and are apt to solve the problem by mentally or verbally classifying the natives as "gooks". Before one can hope to challenge the minds of "foreign" peoples, he must first have a thorough knowledge of the culture and customs molding his own. The American Christian accepts the concept of

(See "Burke" - Page 4)

SGA Suggestion Box Contents Revealed by President Foxwell

For the last ten days, there have been the usual Snack Bar undertones on why the Student Government Association has not made public the suggestions they have received. Time cures all things, it has been said, so below is a list of suggestions received by that body and just recently made known to the HOLLYLEAF staff:

More Coffee Hours featuring STC "Profs" in their respective fields.

STC faculty wives telling of THEIR role in college life.

The Civil War from the viewpoint of a Northerner and Southerner.

A folk singer.

Another student recital.

Wi-Hi Band.

Oxon Hill Band.

Mr. Egan in a Coffee Hour.

SHORTER RECITALS.

Some programs geared to fulfilling intellectual gaps in fields where the need is felt by students, themselves.

Panel of Political Science instructors to discuss State politics.

Drama exchange with Maryland State.

Programs with an emphasis on Communism.

William Shirer.

Speaker from U. S. Information Agency.

Series on the Religions of the World.

Series on the Problems of Africa and Asia.

Student programs from other nearby colleges.

What of a series of art films?

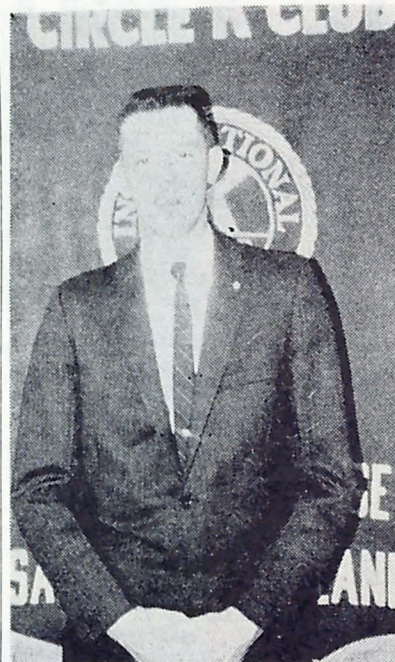

Would departmental guests be a good investment?

What of Thanksgiving and Easter? Any recommendations?

(“Mayhem” cont’d from Page 3)

down south track meet. Equally disappointing is the fact that they have no home track meets this year. It is really well worth seeing.

Could someone tell me what the “Flash” in Dr. William Wroten’s handle is supposed to represent?

BILL McCOMB

Circle K Elects 1962-63 Officers

Jim Davis, Circle K Club president, has announced that officers for next year's school term have been elected by club members.

Chosen as president to replace Mr. Davis is Bill McComb, a resident of Chincoteague, Va., and a member of the junior class. Assisting Mr. McComb will be Jack Nerlinger, Martin Davis, Maurice Howard, and Charles Toth. These men will fill the positions of first vice-president, second vice-president, secretary, and treasurer, respectively.

Last week the Circle K's were taken on a tour of the Dover Air Base, by military personnel, at which time they witnessed several facets of the unit's operations.

Big project of the past weekend was assisting the local Kiwanis Club in its "aid for the underprivileged children" flower sale campaign. For many of the men, who did not know a tulip from a dandelion, this proved quite an interesting and at times exasperating experience.

On Tuesday night, April 24, the regular meeting was attended by Mr. Daniel Wheedleton a member of the U. S. Government. Mr. Wheedleton, a member of the intelligence force in Viet Nam, showed slides depicting life in this country. Included in this was the farming, fishing, selling and even smuggling occupations followed by the people of this Far Eastern nation. He explained that the tendency of the people to move about so frequently was based upon two factors: 1) their desire to escape communism, and 2) their extreme superstitions, which caused them to move at the simplest provocation.

The problems of disease and illiteracy are so great that the government has even undertaken propaganda campaigns to correct these faults. Included in this program are efforts, by the government, to improve upon the weak nationalistic feeling by completely

(See "Circle K" - Page 3)

IN PASSING:

If you ever wonder why some HOLLYLEAF articles are written in past tense or present tense, it might seem a little confusing. The reason for this is that the articles must be written, checked, handed to the printer and the proofread. This quite naturally requires a few days, and when an event falls close to the paper deadline, then the tense might on occasion be a little mixed up.

Seems as if quite a few people have already inked their contracts with various counties. Now all they have to do is graduate. Hang on!

See where some 70 per cent of the eligible voting population of the campus exercised their right in the last SGA election. Wonder what happened to the additional 30 per cent? Seems that the Circle K Club's effort of last year "to get out the vote" was worth more than anyone at that time could imagine.

Having attended the first rehearsal of this year's MAYHEM I am amazed to find that so many original skits have been written. Last year's writers had such vast material to select from. This year's group really had to dig and they have done an excellent job.

Didn't realize until the Circle K meeting that our own Costello was a motion picture actor. His talk to this club on the "Real Spain" was a delightful treat.

Our best to Sara Ann Nichols who quite deservedly received the Anne H. Matthews Award.

Baseball has come in with bang and low attendance figures that have been brought about by cold weather and until now, as different sports fan kingdoms. Maybe things will get rolling, and that Casey finally won one.

Dr. Albert Burke was a delight in his Honors Convocation. I honestly wonder where the time went. He truly pointed out that the educated man gets ahead... more could you want than a good looking 21-year-old with a C average?

My sincere sympathy to the ignorants who can find nothing more to do with their time, and pens than to write their initials, names and other unimportant data on our good chairs and couches in our social center. Perhaps an interesting point for the maladjusted folks to remember this: THAT PROPERTY IS NOT YOURS — IT BELONGS TO THE COLLEGE and it should be taken care of accordingly. If you write, maybe we can have some sheets of paper readily available in the center for your use. Sign drop your name in the SGA suggestion box and I'm sure you will have a chance to continue the work intended for the center. Let's take care of one of the better spots on campus. THANKS.

The HOLLYLEAF regrets the loss of Mary Ann Pieper, who was to leave school due to illness. Well, ladies and gentlemen, (See "Passing" - Page 4)

Chotts Chatters the Sports

May is here with its busy schedule but make a note of Tuesday, May 15, girls, the day of the W.A.A. banquet. All girls are members of the W.A.A. and are invited to attend. There will be a slight charge this year to help cover expenses. May 14 is another date to keep in mind if you are a bowler. Bowlers of both semesters are welcome to attend the bowling picnic in the park.

Congratulations are certainly due to Brenda Foxwell, this year's best girl athlete.

Hearts Win Intramural Basketball Championship

On April 11, the new gym was the location of a hot and heavy basketball game between the Hearts and the Rooks. The game was one of the most thrilling that STC has seen in a long time. Both teams played excellently and nerves were at the breaking point for any spectators who watched the close game.

At the end of the first half the score was only 6-5 in favor of the Hearts. The game lasted almost two hours and the final score — 27-17. Because of fouls the Hearts finished the game with only five players. Lee Clendaniel was the high scorer on the winning team making a total of 12 of the total 27 points. Members of the first place team are: L. Clendaniel, M. Corbett, S. Dennis, W. Craft, G. Thompson and R. Quillen. Both the first and second place teams were composed exclusively of freshmen so it looks as though the upperclassmen should hang their heads.

Bonnie Dean and Helen Hansen did an excellent job with the league this year and deserve much credit for scheduling the games so satisfactorily. I think that all the girls enjoyed playing in the new gym and enthusiasm continued to hold throughout the season. Congratulations, freshmen, on your hard earned and well deserved victory.

Chotts

BIG MAY WEEK!

May Day, Thursday 4:00
May Dance, Friday 9:00
Mayhem, Saturday 8:00

Make plans for June Ball to be held at New Armory on June 2.

Music to be furnished by Benny Grier.

BRENDA FOXWELL

Brenda Foxwell Selected Best Woman Athlete of Year

In adding to an already growing list of honors, Miss Brenda Foxwell has been named as this year's recipient of the Best Woman Athlete Award. This honor, given in recognition by the Women's Athletic Association, is based on an accumulation of points throughout the college year.

Miss Foxwell's choice came as a surprise to no one who has had any association with our women's sports activities. Brenda, the daughter of Mr. and Mrs. Ralph Foxwell of Vienna, Md., is presently doing her student teaching at Wicomico Junior High.

Besides being a member of the varsity volleyball team (this year co-captain of the team that won the season championship), the varsity basketball team for three years, and intramural sports, Brenda is President of the S.G.A., a member of the college chorus, active in the Student National Educational Association, the Wesley Foundation, was vice-president of the Women's Athletic Association, has served on the Snack Bar committee, the Cultural Affairs Committee, was honored by being chosen as one of the candidates for Who's Who in American Colleges and Universities, and was more recently elected Miss STC.

Brenda, from the HOLLYLEAF and the W.A.A., congratulations!

(“LesCallettee” - con. from Page 1)

dition.”

Dr. LesCallette graduated from Vienna High School and it was his high school principal who directed his interest toward history. His Bachelor of Arts degree was earned from Western Maryland College and his M.A. degree from Johns Hopkins University. He spent three and a half years in the Army in the European theater of operations. After this, Dr. LesCallette taught for three years at the University of Maryland.

Mrs. LesCallette, the former Corinne Schofield of Westminster,

Roster's For Men's Intramural Softball

Teams for the Men's Athletic Association softball team have been selected and President Wayne Brittingham has announced the following rosters:

MARTIN DAVIS — CAPTAIN, Ed Burton, Ron Willey, Jim Whaley, Dick Shaner, George Cannon, Avery Saulsbury, Ralph Murray, Stu Palmer, Jack Morris, Gary Flater, Don Johnson, Gene Dunn and Charles Davis.

BOB SINAGRA — CAPTAIN, Sonny Hayman, Barry Heisler, Tom Taylor, Fred Distler, Bob Greer, George Lee, Bob Evans, Jim Plutcheck, Bob Taylor, Tom Johnson, Dave Hitchens, Don Blades and Sam Lord.

JERRY WILSON — CAPTAIN, Wayne Brittingham, Wayne Towers, Noel Farmer, Richard Wilson, Ray Walls, Bernie Ruark, Bill Elliott, Ray Jones, Glen Moore, Bob Price, Charles Simpson and Richard Prettyman.

DOUG FINLEY — CAPTAIN, Ron Brewington, Bill Cotten, Chester Davis, Paul Murrell, Wesley Fortney, Luke Fennell, Addison Smith, Paul Ward, Jim Sullivan, Bill Jefferson, Howard Smith and Terry Sterling.

By this time next week, the league should be going in full swing and the overall balance of the teams seems to insure that the season will be close and very interesting to watch. Why not come out and cheer your favorite club to victory.

Md., attended graduate school with him. They now have two sons, Pat, who is three years old, and Kevin, who is three months old.

Dr. LesCallette, a member of the Bethesda Methodist Church, nizations. These are: The Ameriholds membership in several organizations, the Wicomico County Historical Association, the Phi Alpha Theta of the University of Maryland, and Phi Kappa Phi (the national honorary fraternity at the University of Maryland).

At Salisbury Teachers, where he has taught since 1959, he is on the Committee of Standards and Admissions, and the Cultural Affairs Committee, in addition to being advisor to the Sophomore Class.

Dr. LesCallette says that he prefers the less impersonal atmosphere of a small college. We at STC are aware of effectiveness of such teaching and are certainly proud of the honor that Dr. LesCallette has bestowed upon himself and our college.

(“Circle K” - cont’d from Page 2)

eliminating the Chinese influence that has had such a prominent part in Viet Nam life.

Following the showing of the slides, Mr. Wheedleton discussed his job in Central Intelligence and then explained how he was selected to serve in this capacity.

The next big event in the Circle K program will be assisting the local Kiwanians in the annual Salisbury Mall to be held in May

Murrell's Mayhem

With all of this lovely Spring weather popping up, it's hard to imagine that several big league games have been cancelled due to (of ALL reasons) . . . snow!

Spring sure has rolled in as is evidenced by the fact that Bob Cousy, Bill Russell, and the rest of the Celtics took time out to win their annual National Basketball Association championship. When the pressure is on, those boys just shine. This writer, plus several others were able to watch one of the games and what Cousy can't do with that ball, just can't be done.

Congratulations to Brenda Foxwell who was selected as the Woman Athlete of the Year.

Our Softball season has gotten underway, with several teams having practiced already. It appears as if the league should be a fairly good one, as the teams seemed to have nine good men available for all positions. Last year's league was really a good one, and it will be interesting to see if this one can approach it.

Just can't seem to keep the old men down. First Cousy comes to life when his team needs him and then Stan Musial carries his St. Louis Cardinal team to eight straight victories before they lost. Seems in this length of time he was hitting around .478.

Pity poor Maryland. Last week they played a lacrosse game before a mere 120 fans in huge Byrd Stadium and at present their baseball team is in the midst of a ten game losing streak and what happened to their once vaunted basketball prospects, just shouldn't happen. Doesn't appear as if they are de-emphasizing, they just ain't winnin'!

See where our new tennis courts are being put to a good use within the last few days. Glad to see that they are open and available for school use.

Have seen where several of our outstanding athletes have gotten themselves jobs officiating at local baseball and softball games. Seems as if the softball end of this is quite easy and the money quite handy. Can't you just see big Noel Farmer umpiring a little girl's softball game? So help me, he did it.

Have heard, unofficially, that one of our athletes of the fairer sex and a tireless worker for the HOLLYLEAF has gotten herself engaged in the not too distant past. Congratulations!

It naturally goes without saying that all here at STC wish Mrs. Pearl Hearn nothing but the best and speediest recovery possible.

Maryland State recently finished a disappointing third in a

Easter Assembly Presented

The Easter Assembly of April 17, 1962 was opened by Jack Nerlinger, President of the Christian Association, with a welcome on behalf of the Student Christian Association. This organization annually sponsors and in conjunction with Dr. Jessie Fleming plans the program for the Easter Assembly.

A hymn "Crown Him With Many Crowns" was sung by the audience with the chorus standing en masse to supplement the singing. The invocation was given by the guest speaker, the Reverend Augustus Hackmann. This was followed by a solo "O Divine Redeemer" by Gounod sung by Miss Joan O'Conner. The Bible reading, Isaiah 53:2-7, was given by Maurice Howard. Miss Charlotte Simmons then sang "He Was Despised and Rejected" from Handel's "Messiah." Both soloists were accompanied by Dr. Jessie Fleming.

Jack Nerlinger introduced the guest speaker, Dr. Hackmann, pastor of the Second English Lutheran Church. Dr. Hackmann graduated from City College in Baltimore in 1927 and from Maryland State Normal School (now Towson) in 1929. He taught for five years in the Baltimore Public Schools and then entered the Lutheran Theological Seminary at Gettysburg from which he graduated in 1937 and from which he received the Doctorate of Divinity in 1960. He held pastorates in Baltimore and Charleston, S. C., before becoming pastor of Second English Lutheran Church in 1957.

Dr. Hackmann's subject was on gambling. He began with a contrast between the two types of gambling using as examples the gambling of the soldiers for Christ's robe and Christ's gamble with his life "for a world redeemed." He defined gambling as the "perversion of a divinely implanted impulse in man." It is a great risk for noble causes, which God himself took when he gave man a free will.

Dr. Hickmann said that with all the risks involved in living we must live by faith. But the spirit of high adventure is lacking in the modern world; there is a depreciation of ideals. There is too much emphasis upon comfort and security. Caution is necessary but should not be our chief and primary concern. The explanation of the Parable of the Talents is that "there can be no real security without gambling for high stakes."

Jesus was gambling on "the indestructibility of truth and righteousness," that "all men are one family in God, equal before each other," that "love is the most compelling force in all the world," that it is possible "for human nature to be transformed and redeemed," and that men "are intended to be the eternal children of the eternal father."

The desire for security is paradoxically accompanied today by the spending of money on trivial gambling due to spiritual starvation. It is a sin not only because there is an intention to give less than one receives but because it

Phi Alpha Theta Attends Meeting In Washington

Three members of the Eta Iota Chapter, Phi Alpha Theta, attended the April 14 regional meeting which was held at Georgetown University in Washington, D. C. Charlotte Simmons, Luther Fennel, and Dr. M. LesCallette were the ones who listened to papers presented by students from Maryland University, Towson State Teachers College, and Catholic University and took part in the discussions which followed. The three felt that the meeting was a very interesting and enlightening one and considered the morning session quite enjoyable. They also mentioned the delicious luncheon which was served.

The April 26 meeting was held in the Faculty Lounge at 8:00 p.m. Officers for the coming year were elected and are the following people: President, Sandra White; Vice President, Carolyn Noble; Secretary-Treasurer, Beverly Foxwell; and Program Director, Sara Nichols.

Phi Alpha Theta is tentatively planning a spring field trip. It was suggested by the planning committee that the group go to Smith Island one Saturday in the near future. Interest was shown by the

("Burke" - cont'd from Page 2)

monotheism, but, Dr. Burke asserted, too often does not care to penetrate to the root of his belief. Superficial acceptance of a belief because it is "socially correct" is doomed to certain termination in a community embracing the world.

American Citizen Vs.

"Mechanical Monsters"

The American citizen lives in a technological realm and is thus "acquainted" with the operation of a variety of "mechanical monsters." Unfortunately, the understanding of his technological environment is even less than the understanding of his religion. The nation is piloted by men void of an education in the fields of science and correspondingly, is peopled with those negligent in learning of the advances that have aided the United States in achieving the rank of a "superpower."

Curriculum Needs Revising To Be Made Relevant

The curriculum of the modern school must be revitalized and made relevant. The American citizen is rapidly becoming the cosmopolitan citizen in an age of technology. The field of education must be made ready to teach the realities of this new age. Understanding is needed to abolish ignorance and education is the sole means of liberation.

wastes a God-given impulse on petty things. Dr. Hackmann said that today the true Christian religion involves "betting your life that there is a God."

The program closed with a prayer followed by the audience's singing of "Christ The Lord Is Risen Today." This was a truly inspiring preparation for the Easter holidays.

group toward this suggestion and possibly guests will be invited.

After this business meeting, two films were shown. One was the "Hungarian Revolution of 1956"; the other, "Why Red China Should Not Be Admitted to the U. N." These films proved to be very interesting and informative. Following them was a discussion of an evaluation of the films.

Law Day - U.S.A.

Masses of red streamers fly through the air. Bright flags of Russia and posters and banners of the country's historic leaders wave. Colorful fireworks light the sky. Bugles play, announcing Moscow's speakers. The endless parade begins. It consists of the army, navy and air forces with their tanks, guns, ships, planes and rockets. Yes, this is the scene of the typical holiday in Communist Russia on May 1 known as May Day, International Labor Day or "Den' Internatsionala". This excitement of parades, speeches and displays is the Communists' way of showing her strength to the world.

To counter the Communists' stress on force as power, as illustrated by their annual May Day celebration, the American Bar Association, approximately five years ago, appropriately claimed May 1 as Law Day, U.S.A. This association emphasizes law as power, an idea inherent in American thought. Both the United States Constitution and the Bill of Rights, the basis of American law, advocate the "right of trial by jury, protection against illegal imprisonment, and a guarantee that no person be deprived of life, liberty or property." Thus, as using both of these documents as sources of American law, the Americans have an entirely different view of laws than the Communists. Hence, the American Bar Association hopes to oppose the Communist idea of maintaining order through military strength.

On April 7, 1962 the United States Congress officially declared May 1 as Law Day, U.S.A. President Kennedy promptly issued a proclamation to the people of the U. S. His message, in essence, stated, "... One of the great challenges of our age is man's struggle to sustain individual freedom, human dignity, and justice for all, and ... one of the vital bulwarks in the struggle is the rule of law which underlies our whole social, economic and governmental structure, and through which we strive constantly to broaden and secure for all our citizens the rights and opportunities guaranteed by the Constitution and the Bill of Rights." He, furthermore said it was his purpose to "call upon the American people to rededicate themselves to the ideals of equality and justice under law in their relations with each other as well as with other nations" and to cultivate that respect for law that is so vital to the democratic way of life." He "especially urged that the schools, civic and service organizations, public bodies, the legal professions ... participate in this worthy educational undertaking."

("Passing" - cont'd from Page 3)

about five weeks remaining in school year, so if you are on borderline then break out books and really go to work.

Was glad to hear that James Focht from the campus school has decided to continue doctorate work at Maryland coming summer.

Apologies to all at STC for Bonnie Willey's selection of "S. Think You've Got Troubles" selected it in a weak moment, in no way reflects his attitude toward the college or the college administration.

BE SURE TO STAY HERE FOR THE MAYHEM WEEKEND AND THEN THE MAY DANCE

With the college chorus practicing at night now, and the MAYHEM efforts being in full swing, one sits back and wonders when there will be time for studies.

Certainly our love and prayers go out to Mrs. Pearl Hearn who is now a patient in Peninsula General Hospital in Salisbury. would be a nice gesture if some of you would sit down and write this lovely lady a card or letter to let her know that the students of the college are thinking of her.

The local newspaper SALISBURY TIMES, is really working hand in hand with Miss Adkins in the administration to give us the publicity possible. Until recently, (year and a half or so) the college has been noted because of the lack of publicity it has received, but things sure are looking up.

Did anyone notice that the PEACE CORPS had more applicants recently than it could handle?

Have noticed that next year the EVERGREEN staff has almost gotten to work on the 1963 edition. Dr. May must be a good driver of some sort.

How about the Cultural Affairs Committee considering bringing either Burl Ives, The Limelight or The Four Lads to campus next year! This writer would sure like to see these people even if it meant traveling hundreds of miles. The student body cannot issue any complaints or objections such as these.

State Teachers College is following Kennedy's suggestion. We are to participate in Law Day, U.S.A. On Tuesday, May 1, at 2:00 p.m. the college will be honored in being as an assembly program. A panel consisting of four prominent lawyers. They will represent the American Bar Association. The panel members are Mr. Herman P. Men are Mr. Dale Adkins, chairman, Mr. Maurice Fleming and Dr. Charles Hearne. Questions will be asked by students from the campus having to do with maintenance of justice and freedom through the law.

At 5:30 p.m., that same afternoon, several students from Salisbury along with the previously mentioned lawyers, will be on a television program here in Salisbury. The topic being the same as earlier in the afternoon.
