Marylander and Herald

TUESDAY MORNING, JAN. 22, 1918

The young people on the parlor sofa have shown no objection to turning the lights off early to save fuel.

The grocery stores may not have sugar, but they will let you come in and look at the artistic arrangement of fine candies.

It is lucky that some of these Pacific women don't live over in Belgium where they would have to dig trenches for their German conquerors.

After complaining bitterly because woolen clothes cost so high many people proceed to buy a mongrel pup that will grow up to be a sheep-killing dog.

Although so many of us have consented to observe wheatless and meatless days it does not appear that the food dealers are having any profitless days.

The time to buy winter stuff is now, and the place to buy it is at the store of the merchant who shows his enterprise by advertising in the Marylander and Herald.

The same people who complain so bitterly because the army isn't equipped will growl because their train is held up a few minutes to allow war supplies to move along.

After reading that the French people get only seven ounces of bread a day some people are angry because the Government asks them to eat nice corn muffins twice a week.

People who are traveling on the railroads for pleasure nowadays are mighty indignant that they aren't permitted to go ahead of the absolute necessities of life and war munitions.

After the war will the women who have been running big relief enterprises and business concerns be willing to go back to the old life nibbling wafers and sipping small talk at 5 o'clock teas?

It is not necessary for the newspapers to run a puzzle department now as the draft questionnaires and the income tax returns furnish many of their readers with all the mental exercise needed in that line.

War Savings Stamps makes it possible for every citizen of this country, every man, woman and child within our borders, to do something to aid their government in her great need. Will you do your share?

#### PROTECTING THE PRINT TRADES

Washington dispatches report that resmen begin to see the injustice of government fixing a price on their own use while leaving the free to soak the printing and trades. If the government has its own supply at reasonable prices will have to go a step or two further to the trade printing done by government but a small part of it is called "The Art reality this phrase preserves what is a predominance of new It is only inter cre organ of any es or ally- tion

When the sad casualty lists come in a great many women previously comfortable will find themselves with but meagre support. Whatever they get from pensions and insurance will not go far with prices at their sky-high level. Many of these women will have children to support. These women have given their all. The rest of us have only given a little money. They are entitled to the most favorable consideration. They will be earnest workers, as they have learned the seriousness of life. Also many women whose soldier boys are still unhurt will have to seek work, their usual income having gone for the present. These also are entitled to the same friendly consideration, as the same liability and willingness to sacrifice exists.

#### THIS WAR OF SCIENCE—PHOTOGRAPHY

Science brings forth one wonder after another from its arsenal of warfare. Who would have thought five years ago that harmless and diverting sport like photography would become one of the great necessities to deadly combat? Yet so it is, in this war.

The accuracy of the camera in representing enemy movements is something marvelous. The sensitive plate opens up concealments that would deceive the eye. Attached to the airplane, the camera gives a complete survey and exact diagram of enemy territory. Photographs from 5000 feet high show minute features of the landscape.

When the Boches rush a force of men into the front line trenches the camera detects them crowded into the ditch, ready for assault. Within 15 or 20 minutes after the film is snapped, the aviator has landed, his plate has been developed and prints given to the intelligence officer. Before the preparations can be completed for an assault the warning has been telephoned and defense preparations begun.

The big lesson for our war preparations is the overpowering necessity of speed in airplane work, also the need for the very best photographic experts. The Germans, realizing the threat of our aviation program, have stronger air forces than ever before. Our allies are still stronger, but they cannot completely control the air.

We must get a large force of airmen and planes actually at work next summer. With expert war photography we will have complete information of everything doing by daylight in their lines. And with a sufficient force of battle planes to drive off their camera fliers they will lack this information. Their artillery and infantry will fight blindfolded.

#### THE SOFT DRINK TRADE

With the spread of dry territory and the ban of the government on production of hard liquor, the soft drink trade is getting to be one of the big industries of the country. Originally it was a mere hot weather enterprise, designed to relieve the thirst in the torrid desert of summer weather. Now it is an all-the-year-around proposition, and appeals to the desire to warm up as well as cool off.

Once soft drinks were run as a mere side line to the drug business. Half a dozen flavors were dispensed from a smoke-stained and mussy looking old fountain. Now the drug stores blossom out with marble and nickel and glittering ornaments. The drugs may be back in the dark alcove. In many places soft drink resorts have become great palaces, rivaling the most elaborate bar rooms.

The worst of the soft drink business just now is that it consumes an enormous quantity of sugar in the form of ices and sodas. The demand of the American people for sweets is something limitless. There are plenty of people who can scarcely get through a day without gulping down their heavily loaded ices.

With half as much sugar concoctions would be just as palatable and not so cloying. Also there is no end to enticing combinations that can be made of the milder fruit acids without much sugar.

To the confirmed consumers of hard liquors the soft drink place is a mere dispenser of dishwater. With a wry face the old soakers come around for their ginger ale in the time of drought. But often they find the soft stuff better than they thought. As a substitute for the saloon these resorts serve a most useful purpose, but they should substitute fruit juices for sugar as much as possible.

#### PREFERENCE TO SOLDIERS' RELATIVES

The Universal Film Manufacturing Company issues a circular suggesting that employers, when practicable, give preference in hiring help to the wives, daughters and widows of soldiers.

When the sad casualty lists come in a great many women previously comfortable will find themselves with but meagre support. Whatever they get from pensions and insurance will not go far with prices at their sky-high level. Many of these women will have children to support. These women have given their all. The rest of us have only given a little money. They are entitled to the most favorable consideration. They will be earnest workers, as they have learned the seriousness of life. Also many women whose soldier boys are still unhurt will have to seek work, their usual income having gone for the present. These also are entitled to the same friendly consideration, as the same liability and willingness to sacrifice exists.

#### LAND HUNGER

Some people are never satisfied until they own a piece of real estate. They want a corner of God's earth that they can call their own, from which no man can drive them so long as they pay their debts.

It is a very helpful and wholesome instinct, yet in the hands of undeveloped people it makes trouble. The Mexican revolution was largely due to the land hunger of the peon. The Russian peasant is so upset over his chances to get some land that he can't fight for his country.

After the war a great number of aliens will come over here with the hope to acquire a bit of soil. Among our own people there is too little land hunger. Artisan populations dislike to tie themselves down to any one spot. They want to be free to pick up and go the moment a better job calls them. This works against the enrichment of the soil in the farm country, and against the improvement and beautification of town life.

The alien that comes in here will take on some heavy burdens to get the title to land. He will pay down a small percentage of real money and sign up for a heavy mortgage. He works early and late with help of wife and children, and spends next to nothing for clothes or sports. He gets there, outdistancing many of the native stock who are held back by higher standards of living and more cautious spirit.

Any scheme to induce our people to take up the ownership of more land looks good.

When a man settles down to pay off a mortgage in Princess Anne he establishes himself as a substantial citizen. The more he improves his place the more he helps in the community. People should reflect that land and buildings will never be likely to bring less than now. If they pay down a small amount of cash, their equity on the property is likely to double in a few years.

#### Are Your Sewers Clogged?

The bowels are the sewerage system of the body. You can well imagine the result when they are stopped up as is the case in constipation. As a purgative you will find Chamberlain's Tablets excellent. They are mild and gentle in their action. They also improve the digestion.

L. CRESTON BEAUCHAMP, Solicitor.

#### Order of Publication

Charles H. Maddox, Arrie M. Maddox and Rosema Maddox, his wife, John W. Maddox and Rosema Maddox, his wife, and Robert R. Maddox vs. Laura J. Collins and Ferdinand Collins, her husband, Mary M. Beniston and Edgar Beniston, her husband, William F. Maddox and Rose Lee Maddox, his wife, Sabie Heath and Ralph Heath, her husband, Lavina Maddox, Sadie C. Maddox and Nellie Rosema Maddox.

No. 3235, Chancery. In the Circuit Court for Somerset County.

The object of this suit is to procure a decree for the sale of certain real estate in Western Election District, Somerset County, Md., of which the law of the State of Maryland is in force, and to divide the proceeds of said sale among the parties entitled thereto. The bill in substance is that Charles H. Maddox, deceased, died on or about the 12th day of May, 1912, and was possessed of a lot of land located in Western Election District, Somerset County, Md., containing eight acres of land, more or less, which was conveyed to said Charles H. Maddox by Peter Fontaine by deed recorded among the land records of said county in Liber 27, p. 104, Vol. 246, etc., and being so seized and possessed, he died without leaving a widow surviving him, and leaving one child, a son, John W. Maddox, by children and issue at law, who are still living, and all of whom are over the age of twenty-one years except the defendant Sadie C. Maddox, deceased; Charles H. Maddox, deceased, was residing in Chester, Pa.; Arrie M. Maddox, who intermarried with Rosema Maddox, both of whom reside in Somerset County, Md.; John W. Maddox, who intermarried with Rosema Maddox, both of whom reside in Somerset County, Md.; Robert R. Maddox, who intermarried with Rosema Maddox, both of whom reside in Somerset County, Md.; Laura J. Collins, who intermarried with Ferdinand Collins, both of whom reside in Swarthmore, Pa.; Mary M. Beniston, who intermarried with Edgar Beniston, both of whom reside in Swarthmore, Pa.; William F. Maddox, who intermarried with Rose Lee Maddox, both of whom reside in Swarthmore, Pa.; Sabie Heath, who intermarried with Ralph Heath, both of whom reside in New York City; Lavina Maddox, unmarried and residing in Swarthmore, Pa.; Sadie C. Maddox, unmarried and residing in Swarthmore, Pa.; Nellie Rosema Maddox, unmarried and residing in Swarthmore, Pa.

That the said real estate is not susceptible of partition without material loss and injury to the parties entitled to interests therein, as above stated, and that in order to make effect of said interests, it will be necessary that said real estate be sold and the proceeds thereof be divided among the parties entitled thereto, according to their respective interests therein.

That all of the said defendants, the said Laura J. Collins and Ferdinand Collins, her husband, Mary Beniston and Edgar Beniston, her husband, William F. Maddox and Rose Lee Maddox, his wife, Sabie Heath and Ralph Heath, her husband, Lavina Maddox, Sadie C. Maddox, and Nellie Rosema Maddox are non-residents of this State. It is therefore, this 18th day of January, 1918, ordered by the Circuit Court for Somerset County, in Equity, that the plaintiffs, by causing a copy of this order to be inserted in some newspaper published in Somerset County, Md., for each of four successive weeks before the 14th day of February, 1918, give notice to the said absent defendants of the object and substance of this bill, warning them to be and appear in this Court in person or by solicitor, on or before the 6th day of March, 1918, to show cause, if any they have, why a decree ought not to be passed as hereinabove prayed for.

#### Order Nisi

Della R. Pusey and others vs. Daniel C. Pusey and others.

No. 3213, Chancery. In the Circuit Court for Somerset County.

Ordered by the subscriber, clerk of the Circuit Court for Somerset County, in Equity, this 10th day of January, nineteen hundred and eighteen, that the report of H. Fillmore Lanford, the trustee mentioned in the above cause, and the sale of real estate by him reported, be, and the same are hereby ratified and confirmed, unless cause to the contrary appear by exceptions filed before the 8th day of February, 1918; provided a copy of this order be inserted in some newspaper published in Somerset County, once in each of three successive weeks before the 8th day of February, 1918. The report states the amount of sales to be \$2000.

#### Death To Them

If the evidence is conclusive against the alleged German spy arrested at Norfolk there can, of course, be but one punishment. The spy takes his life in his hands, and even the most merciful enemy can show him no mercy. A spy may be a noble patriot from his own country's standpoint, like our own Nathan Hale, but his work is so dangerous that he can claim none of the immunities of war.

The only question to determine beyond peradventure in this case is the question of guilt.

One thing which should not be permitted is the interposition of technical delays or of technical pleas in defense. The case is one for a military, not a civil, tribunal—one which will go straight to the heart and to the heart of the offense.

It is time we made bloody examples of all, whether native or foreign, who are guilty of espionage. We must make it plain to every one that should be made to understand that the end of these things is death. We have been too tender with them thus far. What do they care for internment or prison sentences? If the fear of the tomb does not deter them, that place of incarceration will at least put an end to their activities. And we can keep on shooting as long as they keep on spying and plotting.

Let us declare war to the death from now on against all Kaiserites, native and foreign. Somebody has got to be master in this country, and it must not be the Kaiser.

It is treason to our loyal people at home, it is treason to the men who go abroad to die for us, to let any such guilty ones escape, and we make ourselves traitors to our country and to our soldiers and sailors if we do not strike all enemies within our lines without pity and without mercy.—Baltimore Sun.

#### Soon Over His Cold

Everyone speaks well of Chamberlain's Cough Remedy after having used it. Mrs. George Lewis, Pittsfield, N.Y., has this to say regarding it: "Last winter my little boy, five years old, was sick with a cold for two or three weeks. I doctored him and used various cough medicines but nothing did him much good until I began using Chamberlain's Cough Remedy. He then improved rapidly and in a few days was over his cold."

#### NATIONAL PROHIBITION

##### A LIVE ISSUE

It has been brought to the attention of the prohibition forces that a concerted effort is being made by the organized liquor forces to create sentiment against ratifying the National Prohibition Amendment at this time on the ground that it had not been submitted prior to the election of the Legislature. Certainly no member will be misled by this organized and well financed propaganda of the liquor bunch.

The Anti-Saloon League, through its publication, through the pulpit and the press of the state, did its best to make the issue plain. The Personal Liberty League, through its advertisements, showed that they understood the issue and made their fight accordingly.

The resolution for nationwide prohibition had passed the Senate before the Delegates and Senators were elected last fall, and it was in the House of Representatives at that time. There are but few people who claim to be posted upon this question who would, for a moment, say that there was doubt any time in the past six months about the submission of this question to the Legislatures of the states. As a great newspaper of the City of Baltimore has said, if this question is not settled at this Legislature it will be the question upon which the election of all legislatures will turn for the next seven years. This certainly is true unless 36 states ratify the resolution before that time.

We submit that, inasmuch as the Legislature knows this to be true, the responsibility for continuing this fight on the submission of the nation-wide prohibition amendment rests entirely with the Legislature and the one now in session can settle this question for all time to come in Maryland and we appeal to every friend of the cause to make this known to his Senator and members of the House of Delegates.

Published by authority of the Anti-Saloon League of Maryland.

## SOMERSET COUNTY HAPPENINGS

### Newspapers Gathered By Our Correspondents During The Week

#### Landover

Jan. 19—Mr. Bennie Walston returned home from Exmore Tuesday.

Mr. William M. Ford was a visitor to Revell's Neck the past week.

Mr. Sherman Walston, who has been to Exmore, Virginia, returned home Tuesday.

Mr. Tubman Walston, who has been ill for the past week, is much improved at this writing.

Mr. Reuben J. Parks, who is employed at Claiborne, arrived home the past Saturday for a short stay.

Mr. Fred. Bennett, who spent a few days the past week here with his family, has returned to Exmore, Virginia.

Mr. Charles Richards and son, Russell, left last Thursday for Exmore, Va., where they are now employed.

Capt. George Holland returned home Saturday last to spend a short while with his family. Mr. Holland is employed in Baltimore.

#### St. Peter's

Jan. 19—Messrs. John and Tom Dize are very ill with measles.

Mrs. Atwood Bowman and children are visiting relatives in Salisbury.

The patrons of Oriole school are much pleased with their teacher, Miss Daisy Miles.

Mrs. Henry Phoebe, who has been very sick, is very much improved at this writing.

Mrs. Denwood Noble, Miss May Cannon, Messrs. James and Denwood Noble were out on a sleighing party Friday evening.

Mr. and Mrs. John D. Noble and son, Alfred, of New York, are spending the winter months at the home of Mrs. Charlotte Noble.

Mrs. Jessie Phoebe and daughter, Katherine, came home Wednesday after spending the past three weeks at the home of Mr. John Lawson in Baltimore.

Mrs. Thomas Shores, after spending the past three weeks in Philadelphia visiting her sons, Messrs. Carroll and Irving Shores, returned home last Saturday.

#### Upper Fairmount

Jan. 10—Mr. Arthur Todd, after a visit to his parents, has returned to Salisbury.

Mr. Fred. Ford went to Philadelphia Wednesday on a business trip.

Mr. F. S. Robertson made a business trip to Salisbury last Friday.

Mrs. Louis Lankford and little daughter, Helen, are visiting relatives at this place.

Mr. George Maddox, of Camp Meade, is visiting his parents, Mr. and Mrs. G. W. Maddox.

Mr. and Mrs. Charles Comfort, of Gettysburg, Pa., are guests of Mr. and Mrs. Albert Sudler.

Mr. James Maddox, of Philadelphia, was a visitor at the home of Mr. Archie Todd during last week.

The Ladies' Aid Society, of Salem Methodist Protestant Church, will hold a supper and parcel post sale at the church hall, Manokin, Wednesday evening, January 23d. Turkey, oysters, chicken salad, etc., will be served. The price of supper will be 50 cents. If Wednesday evening should be stormy the supper will be held the following evening. All are cordially invited to come. The proceeds will be for the benefit of the hall.

#### Perryhawkin

Jan. 19—Miss Doris Dryden, has returned home from Baltimore.

Mrs. Priscilla Gibbons spent the past two weeks at the home of Mr. and Mrs. L. Paul Marriner.

Mr. George B. Gibbons celebrated his 74th birthday at his home January 10th. Those present were Mr. and Mrs. S. F. Dryden and son, Rudolph; Mrs. L. Paul Marriner and son, Austin; Mr. and Mrs. Charles Boston and son, Charles, of this place, and Mr. and Mrs. David Saxton, of Wilmington, Del.

### PRINCESS ANNE EVIDENCE FOR PRINCESS ANNE PEOPLE

#### The Statements Of Princess Anne Residents Are Surely More Reliable Than Those Of Utter Strangers

Home testimony is real proof. Public statements of Princess Anne people carry real weight.

What a friend or neighbor says compels respect.

The word of one whose home is far away invites your doubts.

Here's a Princess Anne statement.

And it's for Princess Anne people's benefit.

Such evidence is convincing. That's the kind of proof that backs Doan's Kidney Pills.

Ernest M. Hayman, merchant, 402 Main street, says: "About three years ago I was in bad shape with disordered kidneys. Backache caused me considerable annoyance. The kidney secretions burned and scalded and were highly colored, and I was obliged to pass them several times during the night. I was very miserable. Doan's Kidney Pills were recommended by my druggist, Dr. Smith. After using one box I was cured of the trouble. Since then I have said a good word for Doan's Kidney Pills whenever I have a chance."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills, the same that Mr. Hayman had. Foster-Milburn Co., Props., Buffalo, N. Y.

Adm'or c.t.a. of Sidney C. Jones, deceased. LAFAYETTE SQUARE, Baltimore, Md.

## Red Cross Properly Expanding Funds

In response to the request from the Red Cross War Council for specific advice from General Pershing's Medical Staff in France as to whether the Red Cross appropriation of one hundred thousand dollars for medical research was contributing toward the relief of human suffering the following cablegram has been received:

"We believe the Red Cross has properly expended its funds because it is the duty of the Red Cross to care for sick and wounded American soldiers and to use funds to prevent those soldiers from being infected with the various diseases met with in their peculiar army life. There are several diseases the exact nature of which is still undetermined as they are new and peculiar to this war and must be studied now to aid our troops. We stand on the principle that Red Cross funds should back such work rather than secure special funds for that purpose. The medical department of the United States Army is in full accord with all the Red Cross is doing in this regard. It is co-operating and assisting in every way in research matters and is counting upon our help in this regard. It has asked the Red Cross to help it study the many problems of preventive medicine and of medical and surgical diseases, against which the Army Medical Corps must struggle. The research committee assists the Red Cross in the management of its funds and experiments and controls the type and kind of experimentation. The research committee whose names you have controls fully its research work against which the anti-vivisectionists are protesting. English medical authorities are vigorously co-operating with the Red Cross in research work. We feel that anyone endeavoring to stop the Red Cross from assisting in its humanitarian and humane desire to prevent American soldiers from being diseased and protecting them by solving the peculiar new problems of diseases with which the army is confronted is in reality giving aid and comfort to the enemy. Research work so far undertaken includes studies on anaesthesia, shell shock and trench fever, which last will be the main line of investigation this winter. We are also investigating trench nephritis and foot wound infections, including gas gangrene and tetanus. The animals used are principally guinea pigs, rabbits and white rats. If operations causing pain to animals are performed anaesthesia is used. Actually very few animals have been used for this work."

This is signed by Col. F. A. Winter, Major J. A. Blake, Capt. Kenneth R. Taylor, and 35 other medical officers in General Pershing's army.

#### Growing Disfranchise

It has been discovered that the thick, spongy gourd of the luffa plant, which grows easily and requires but little attention makes the best kind of dishcloths and bath sponges. An Ohio woman is making a good living raising them. She sold over 1,000 to one garage company alone for use in the washing of automobiles. Cut into strips the luffa gourd makes a kind of lace widely used by milliners, and it is also admirably adapted to the making of flower baskets.

#### Prefers Chamberlain's

"In the course of a conversation with Chamberlain Medicine Co.'s representative today, we had occasion to discuss in a general way the merits of their different preparations. At his suggestion I take pleasure in expressing my estimation of Chamberlain's Cough Remedy. I have a family of six children and have used this remedy in my home for years. I consider it the only cough remedy on the market, as I have tried nearly all kinds."—Earl C. Ross, Publisher Hamilton County Republican News, Syracuse, Kan.

## Get Ready For The Spring Drive

Many of us think in a self-satisfied sort of way that we have accomplished everything humanly possible during the past year. When we look back to 1917 with the added vision of another year's progress we will see how childish we were in supposing we did any such thing. Every American, be he soldier, farmer, miner or munition worker, will do more this year—must do more this year than he ever did before.

More grain, more food crops, more meat must be produced this year than ever before in the history of the country, and that with less labor. It will not be accomplished by working harder—by cultivating more acres. It will not be accomplished by working longer hours. As a matter of fact most farmers work too hard and too long as it is. What is needed is something far different. Probably the first step toward greater accomplishment will actually lessen labor. This will come through the elimination of duplicated efforts brought about by more thought, better planning, better preparation and less duplication of effort will pave the way toward larger crops with even less labor than usual.

There will really be very little excuse for any of us if we have to unhook from the drill to go to town to get a load of fertilizer, or if we are two days late starting wheat harvest because we have to stop and fix the binder. We should have been prepared for it; should have hauled the fertilizer early and fixed the binder on a rainy day. We will have little reason to blame the railroad if it delivers our car of fertilizer too late to put on the corn field. The railroad probably did the best it could and we could have done better. We could have put the order in weeks or months ahead of the time we did. If we were on the job we should have known by the first of January how much fertilizer we needed for the year and gone ahead and placed our order for it. It would have cost no more and we would have had the goods on time.

Not a note

"Them newspapers," complained the politician, "are charging me with bowing the knee to Baal, and I never met the man in my life."—Boston Transcript.

## For Little Folks Milder Ills

—when the food disagrees, the play has been too strenuous, or the dreaded colds are taking hold—the housewife of experience has a tried remedy at hand. It has proved her helper for many years, and she knows its value.

## Peruna Tablets Are A Quick Aid

They regulate the disturbed digestion, free the overloaded stomach, overcome the cold, remove the catarrhal conditions and rebuild the strength.

## Peruna Is A Reliable Family Remedy

It has proved that in innumerable households from Maine to California, and in foreign countries. It is the chief reliance in the American home for all catarrhal trouble and wherever a tonic is needed, in convalescence and as a preventive. In tablet form it is ever ready-to-take, a real life insurance. If you haven't used it in this form, get a box today.

## MAKING GOOD IN THIS INSTITUTION

This Institution is a depository for thrift and therefore heartily endorses every form of thrift practice.

This Institution affords continual opportunities for observing thrift habits.

This Institution, in line with the Government's policy, encourages thrift as a means of helping to win the war.

This Institution interprets thrift as "thriving"—the most profitable use of resources, mental, physical and financial.

This Institution recommends thrift as efficiency in living, thinking and acting.

This Institution recognizes thrift in employees as an indication that our policy of making good with actions as well as words is being followed.

This Institution invites and urges all who serve or are served here to make thrift a permanent, personal characteristic.

## "HEATLESS MONDAYS" OBSERVED

### OUR MERCHANTS WILL CONSERVE FUEL Stores Will Be Closed Every Night At 6 O'clock Except Saturday

The mandate for "Heatless Monday," promulgated by Fuel Director Garfield, to conserve the supply of fuel, is being observed to the letter by the people of Princess Anne. The drug stores are selling nothing but medicines and the provision stores are filling orders for food only, keeping open until the noon hour. There will be a general compliance with the Garfield order during the next eight Mondays.

Following the suggestion of the Maryland State Fuel Administrator, as a means of saving fuel, the undersigned merchants of Princess Anne have agreed to close their stores at 6 p. m. every evening except Saturday, commencing today (Tuesday), January 29th:

G. W. Colborn	W. O. Lankford & Son
S. F. Dashiell	J. W. Morris & Sons
J. B. Hendrie	Oscar F. Jones
E. O. Smith	C. C. Ball
C. H. Hayman	J. T. Taylor, Jr.
Mrs. T. Goodman	H. H. Richardson
W. P. Todd	E. I. Brown
George W. Brown	Mary E. Bell

## Death of Henry Flurer

Mr. Henry Flurer died at his home in Princess Anne last Thursday evening at 8.30 o'clock in the 62nd year of his age.

Mr. Flurer was a well-known Somerset county farmer and had been engaged in the mercantile business in this town for several years until early last fall. He had been a sufferer from cancer on the liver for over a year, which was the cause of his death, and had been confined to his bed since Thanksgiving Day under the constant care of his devoted wife and daily attention of his physician.

He is survived by his widow, two sons (Messrs. Frederick J. and Harry W. Flurer) and one daughter (Miss Gertrude Flurer), all of Princess Anne. He is also survived by one brother (Mr. Julius Flurer, of Burlington, N. J.) and four sisters (Mrs. Pauline Parsons, Mrs. Robert Shores, Mrs. Tillie Thompson, of Philadelphia, and Mrs. James Long, of near Westover).

Funeral services were conducted at his late home last Sunday afternoon at 2.30 o'clock by the Rev. Henry E. Spears, rector of Somerset Parish, and the interment was in the Presbyterian Cemetery. The pallbearers were: Col. Henry J. Waters, Messrs. George W. Brown, S. Frank Dashiell, W. O. Lankford, Sr., Columbus Lankford and William J. Brown.

## Porter-Lankford Wedding

Miss M. Gussie Lankford was married to Mr. Frank L. Porter last Wednesday at high noon. The ceremony was performed by the Rev. Henry E. Spears, rector of Somerset Parish, at the bride's home on Antioch avenue extended. As the bride's family is in mourning the wedding was a quiet one.

The bride was attired in a navy blue broadcloth tailored suit, a large black mirror hat and grey kid shoes and gloves. The groom was dressed in black. Little Harold Lankford Porter, a nephew of the bride and groom, was ring bearer.

The bride is one of Somerset county's most successful teachers, having taught at Quinton grammar school for several years, and recently declined an appointment as teacher in the Washington High School. The groom is a prosperous farmer and was elected in the fall of 1917, on the Republican ticket, a member of the board of county commissioners for Somerset county.

After the ceremony Mr. and Mrs. Porter left on the 1.27 express for Philadelphia. They will also spend some time in Baltimore and Washington before returning to their home in Princess Anne.

## Boys' Agricultural Club Meetings

Meetings of the Boys' Agricultural Clubs were held by County Agent Keller at Princess Anne High School, Kingston and Marion schools recently, with an attendance of about 45 members. The following subjects were discussed by the club members: Testing of seed corn, selection and treatment of seed on seed potatoes and feeding and management of brood sows. Much interest was shown by the boys in the meetings and many of the members will make a germination box to test seed corn. This will be a very helpful and important work as the seed corn question is of much importance in the county.

## Legislative Reception February 6th

Governor and Mrs. Harrington have issued invitations to their annual reception to the members of the General Assembly on February 6th. The reception will be given at the Government House, and there will be music and dancing.

## FARMERS TO GET NITRATE OF SODA

### Government To Sell Nitrate For Fertilizer Through County Agent

Notice has been given to C. Z. Keller, county agent for Somerset county, that the United States Department of Agriculture will sell at cost a supply of nitrate of soda to farmers in this county.

The nitrate was purchased through the War Industries Board under the authority of the Food Control Act as a part of the program for stimulating agricultural production. It will be unloaded at Atlantic ports and the price will be \$75.50 a ton, free on board cars at port of arrival. Farmers are to pay in addition freight from port of arrival and the State fertilizer tag fee.

Applications for a part of the 100,000 tons of nitrate bought by the government will be received only from actual farmers or owners or holders of farms for use on their land, and may be made through County Agent Keller, or through any member of a local committee consisting of Messrs. Howard Anderson, E. B. Lankford and Fred. Adams.

No money will be required with the application, but upon notice from the county agent farmers who have signed applications must deposit with a local bank, association or individual, designated by the Secretary of Agriculture to act as the farmers' agent for that purpose, money to cover the cost of the fertilizer except the freight charge. After the money is transmitted to Washington the nitrate will be shipped to the farmers. If applications for the nitrate exceed the supply of about 100,000 tons the government will allot the supply on a pro rata basis among those who applied. Applications must be received by February 4.

## Dr. Shaw's Advice To Women

At a recent meeting of the Council of Defense, Woman's Section, held in Baltimore, Dr. Anna Howard Shaw, in her address to women, said in part:

Army in the field and at home form one unit. What would the men on the battle field do if the women did not run the munition factories, supply them with clothes and keep the world at its normal level? If it were not for the work of the women at home the men would have to leave the trenches and do things themselves.

She spoke of the absolute necessity of training women for work of some efficient kind. Not in England only are the women working in the factories at heavy machines, but they are organized for social work, for motor service and for canteen service.

Particularly she spoke of the need which will soon arise here for women ambulance drivers, for nurses who can look out for the maimed and wounded who will be coming back to America. Great ships have been built in England without a single man touching a hand to the job. Airships requiring the highest technique in construction have been brought to completion without even the advice of the other sex, and before another year rolls around almost every woman will be called upon in our country to take up the tasks laid down by men.

## Red Cross Nursing Class

Any woman in Somerset county, between the ages of 16 and 60, who is interested in taking a fifteen-lesson course in home nursing, is asked to meet the committee at the Washington Hotel tomorrow (Wednesday) afternoon at 4 o'clock.

Taking this course does not put you under any obligation to nurse for your country. It gives you 15 practical lessons of one and one-half hours each under a most competent instructor, Mrs. Mary Byrne Irwin, superintendent of the Peninsula General Hospital, Salisbury, who is a registered Red Cross nurse.

The course ends with an examination which, if successfully passed, leads to a Red Cross diploma. The cost to each pupil is \$3 for the whole course. Think of the service this course may be to you in case of illness in your own home. The course cannot begin until March. It is planned to hold the class on Wednesday afternoons in the Princess Anne Public Library building.

## Real Estate Transfers

Edwin Jones from Edward H. Jones and wife, 91 acres in Mt. Vernon district; consideration \$1,025.

Jesse M. Phoebus from David M. Phoebus and wife, 234 acres in St. Peter's district; consideration \$2,000.

Maude E. Ford from L. Paul Ewell and wife, 14 acres in Fairmount district; consideration \$450.

Effie Myster from Josiah H. Cullen and others, 4 acres in Asbury district; consideration \$300.

Samuel E. Shores from Thomas H. Tankersley and wife, 1 acre in Tanager district; consideration \$20.

## GENERAL BLISS TO PUSH THE WAR

### Chief Of Staff And Other United States Officers In France

Gen. Tasker H. Bliss, chief of staff, who arrived in Paris last Thursday, will represent the United States Army on the Supreme War Council. Secretary Baker, in so announcing Thursday night, disclosed that the General is accompanied by high officers of every branch of the service to advise him about any questions that may arise.

General Bliss attended the first meeting of the council and decision to send him back to Europe as a permanent representative in that body was made because it was recognized that General Pershing's duties in organizing and commanding the ever-increasing American expeditionary forces were too great to permit him to undertake the presentation of American views on military operations and to sit with the council in framing plans of strategy that cover all fronts and all armies.

No word of the departure of General Bliss had been published until the news of his safe arrival came Thursday night.

From General Bliss the War Council will obtain an up-to-the-minute report on what the United States will be able to contribute to operations on the Western front this spring and summer. His report in this regard has been forecast to some extent by President Wilson's statement to Congressional visitors that there would be in Europe in June twice the number of American troops which it had been originally planned to send by that time.

General Bliss also can inform his conferees exactly the situation in which the United States finds itself now as to delivery of supplies of all sorts to the Allies and this information probably will have great weight in the shaping of war plans.

While Secretary Baker's statement merely said that General Bliss had arrived in France to represent the Army on the council, there have been intimations that renewed recommendations for vigorous offensive operations on the widest possible scale were included in the instructions the general received before sailing.

## Farmers' Institute Meetings

Farmers' institutes will be held Thursday at Princess Anne, in the Court House, and at Marion Friday. Meetings will be held at 10 a. m., 1.30 p. m. and 7 p. m. Farmers should arrange to be present promptly at all the sessions as there are a number of speakers on the program.

The following are some of the topics for discussion: Spraying of Tomatoes, Potato Growing, Legumes, Crop Rotation, Lime and Fertilizers, Silos, Feeding of Dairy Cattle, Poultry Management. In addition to these talks on agricultural subjects, arrangements have been made by the county agent to have the farm labor specialist of Maryland talk on Farm Labor Problems. An illustrated talk on typhoid fever will also be given by Dr. Smilie, of the Rockefeller Institute.

A meeting has been arranged for the ladies in the afternoon at which Miss Erickson, of the Extension Service, will discuss Home Economic Problems. Everybody is welcome to these meetings and are invited to take part in the discussions.

## Some Startling School Facts

Trained teachers are leaving the schools to take up more lucrative positions. Every county and city in the State are suffering this loss.

The medium salary of white elementary teachers and principals in the counties is \$437.70 a year. 13.3 per cent. are receiving \$300 or less a year; 53.3 per cent. are receiving \$450 or less a year; 66.3 per cent. (counties) and 11.6 per cent. (city) less than \$500; 99 per cent. (counties) and 26.4 per cent. (city) less than \$600.

Colored teachers in the counties are receiving less salary than they received 25 years ago.

## New Members Of The Red Cross

The following have become members of the Red Cross Society, by paying \$1.00 to the treasurer, since we published the last list of names:

Mesdames M. Lecky, R. G. Norfleet, George W. Maslin, George W. Lankford Marshall, of Missouri; A. Spiva, E. Wilson, J. W. Wooten, Thos. A. Pinto, Alex. Pollitt, Cleve. Heath, Daniel Weeks, Thos. Barnett, Misses Margaret McBride, Mae Cannon and Messrs. W. F. Pendleton, George W. Dashiell, Joseph E. Elliott, Jr., Irving Dryden, William E. Greenwood, Milard F. Bounds and John E. Holland.

## Drainage Meeting

The farmers of the county will hold a meeting to discuss the drainage problems of this county, on Tuesday, February 5th, in the Court House, at Princess Anne, at 2 o'clock. The present law governing tax-ditches will be discussed, and it is desired that the farmers interested in the drainage of land in this county will be present and take part in the discussions.

## FOLLOW THIS FOOD INFORMATION

### How Edibles Can Be Conserved—A Way To Help Win The War

The Food Administration has sent out circulars asking for more vigorous fighting against the silent enemy—starvation. It makes a strong plea for food conservation, suggests substitutes and gives some interesting information about these substitutes. It says:

Europe's call for food is a challenge from which we cannot afford to turn away. If we value our own lives and those of other individuals we must throw all the energies of willing hearts, ingenious minds and strong bodies to the great task of saving the enormous amount of wheat, beef, pork, butter and sugar that it will take to keep the wolf from Europe's door. We are not asked to go hungry ourselves, or even to make any large sacrifice, but merely to change our eating habits a little. Instead of wheat, we must use corn, barley, rye and oatmeal. In place of meat, we must use poultry, fish, eggs, vegetables and cheese. We must use butter substitutes in cooking, we must use sugar with care and substitute wherever possible honey and syrups.

Inside information about some foods: Beans and meat both furnish body building material. Yet some housewives serve baked beans as a vegetable with meat and serve just as much meat as ever.

Corn syrup is a perfectly wholesome food. It contains glucose and glucose is a wholesome food. It can well be used instead of so much cane or beet sugar. Oatmeal is richer than wheat flour. It contains about 7 per cent. fat, while white flour has from 1 to 3 per cent.

Graham crackers are made of wheat flour, but oatmeal crackers have a very similar taste and they save the wheat. Rye approaches wheat in bread-making qualities more nearly than does other grain.

Buckwheat is not wheat, but an entirely different grain. Its composition in general terms is much like that of wheat.

Nuts can be used in place of meat. They contain much fat and body-building material, and often much starchy material, too.

## Peninsula General Hospital Report

The twentieth annual report of the Peninsula General Hospital, Salisbury, for the fiscal year ending December 31, 1917, has been submitted to the Board of Directors and printed in pamphlet form for distribution. The report of the Superintendent, Mrs. Mary Byrne Irwin, gives in detail the following information:

There was an increase of 70 in admission this year over the previous year. October 1st, 1916, there were 40 patients under treatment; 1,018 new cases have been admitted during the year; 166 dispensary cases treated, making a total of 1,214 persons treated. The results were as follows: Cured, 732; improved, 164; unimproved, 22; refused treatment, 21; died, 68. Of the latter, 19 died within 24 hours after admission to the hospital. Number of free patients treated in hospital, 380; number of pay in part, 344; pay in full, 293. Dispensary treated 166. Patients treated in the hospital during the year lived in the following counties: Wicomico, 402; Somerset, 118; Worcester, 158; Baltimore, 4; Queen Anne, 1; Caroline, 2; Kent 1. From Virginia, 205; Delaware, 115; Pennsylvania, 3; New Jersey, 1; Washington, D. C., 1; Rhode Island, 2. The hospital has been taxed to capacity all year, necessitating refusing patients and keeping many waiting for admission. There were 138 X-ray cases during the year.

Mr. W. B. Miller, treasurer of the hospital, submitted his report showing that the expenses of the institution were as follows:

Salaries and wages, \$9,517.53; provisions, \$6,082.09; light, fuel and water, \$2,205.24; medical and surgical supplies, \$2,274.89; repairs, \$2,801.68; replacing linen, dishes, etc., \$649.11; office, \$750.62; improvements, \$408.25; X-ray equipment, \$3,876.70.

The receipts of the hospital for the year were: From patients, \$12,914.80; State of Maryland, \$10,000; Worcester county, \$300; Wicomico county, \$350; X-ray service, \$229.44.

## Shoreland Club Entertained

The Shoreland Club was delightfully entertained last Friday afternoon by Mrs. Robert F. Duer. Those present were:

Mesdames H. L. Brittingham, T. J. Smith, Earle B. Polk, Joseph G. Scott, H. Fillmore Lankford, R. B. Thompson, R. A. Buhrman, Oliver T. Beauchamp, Edgar A. Jones, John D. Page, Edward Jones, Robert F. Maddox, William H. Dashiell, Mrs. Charles Fitzgerald and Misses Amanda Lankford, Mildred Beauchamp, Bernice Thompson and Ellen D. McMaster.

## STATE TEACHERS' ASSOCIATION

### Report Of Committee On Increased Salaries For Teachers

On Saturday, December 22nd, Governor Harrington gave a hearing in Annapolis on the school budget for 1919 and 1920, which was largely attended by representative citizens, school officers and teachers from all parts of the State. At this hearing a committee of the State Teachers' Association, Edward F. Buchner, chairman, urged also the necessity of creating an emergency fund of \$420,000 to be made available on or before June 1, 1918, for salary increases to teachers in service.

The estimate of the State Department of Education includes an increase of \$250,000 a year, for each of the next two years, for salary purposes. This will be presented to the General Assembly for approval, and support for its passage must be secured. This amount, with the increased revenues in the counties, will warrant the following changes in the minimum salary law. Bills have been prepared as follows:

(a) To fix the minimum salaries of elementary teachers: Teachers holding 3rd grade certificates, to start at \$400, and conditional increases up to \$475, after eight years' service. Teachers holding 2nd grade certificates, to start at \$450, and conditional increases up to \$525, after eight years' service. Teachers holding 1st grade certificates, to start at \$500, and conditional increases up to \$600, after eight years' service.

(b) To fix the minimum salaries of secondary teachers: To start at \$800, and conditional increases up to \$900.

(c) To provide for the first time a salary for colored teachers, the minimum being: Teachers holding 3rd grade certificates, \$30 per month; teachers holding 2nd grade certificates, \$35 per month; teachers holding 1st grade certificates, \$40 per month.

As to the present emergency, Governor Harrington realizes that under the laws it is impossible for the counties, the city and the state alike, to make any changes in the amounts of money available for increased pay to our teachers. It has been ascertained that the sum of \$210,000 appropriated for this purpose for the year 1918, by the state, and matched dollar for dollar by the counties and city, respectively, will accomplish the following:

(a) A bonus of \$100 to all teachers employed nine months or longer who are receiving \$700, or less.

(b) A bonus of an amount to all teachers receiving over \$700 and less than \$800, necessary to equal \$900.

(c) A bonus of \$50 to all teachers employed in schools of seven months, but less than nine months.

By the passage of an enabling act for which a bill is being prepared, the proper authorities of the counties and of the city, will be legally permitted to borrow funds with which to match the state appropriation for this purpose, this sum to be immediately available and distributed to the teachers on or before June 1, 1918.

## Jackson Notified Of His Election

Former United States Senator William P. Jackson, who was recently elected State treasurer, was formally notified last Thursday afternoon at his rooms at the Rennett, Baltimore, by a joint committee from the Senate and House of Delegates. Those on the committee were Senator Richard A. Johnson, of Howard county; Senator H. J. Speicher, of Garrett county, and Delegate F. L. Spitzer, of Frederick county. Senator Speicher was the first speaker, and Senator Johnson spoke next. In reply Senator Jackson said:

"I fully appreciate what both senators have said and I wish to make it plain that I have made a sacrifice for what I thought was for the best interest of the Republican party. If I had not been thoroughly convinced of this I would not have allowed my name to be used. I never have had the pleasure of meeting State Treasurer Dennis, but since my election I have received a number of telegrams and letters of congratulations, and among them was one from Mr. Dennis. I fully appreciate the high esteem in which Mr. Dennis is held and hope at the end of two years I will be looked upon in the same manner as he is now."

After the ceremony, which lasted less than 15 minutes, Senator Jackson and the committee left for Annapolis.

## Bill To Increase Pay Of Delegates

Delegate Merrick, of Prince Georges county, last Wednesday introduced a bill increasing the pay of the delegates from \$5 a day to \$1,500 for the term. On the face it appears that the bill will go through with a good majority, in view of economic conditions, many of the delegates being forced to pay from \$7 to \$10 a day to attend the sessions. This bill might be followed by a bill providing for cutting down the membership of the House one-third.

The recent extraordinary drive for new members for the House resulted in securing an increase of over thirteen millions to the salary in the United States.

## THE MARYLAND LEGISLATURE

### What The Law Makers Are Doing At The State Capitol

The Senate and House met last Tuesday night at 8 o'clock. Among bills introduced in the Senate were:

By Senator Campbell—Increasing per diem of judges of the Orphans' Court of Baltimore City from \$9 to \$13.

By Senator Bennett—Further regulating the practice of osteopathy in Maryland.

By Senator Metzgerott—Amending the bridge and road law of Prince George's county.

By Senator Harrison—Regulating the fees to be paid for land warrants.

Among bills introduced in the House were:

By Mr. Melvin—To increase the salaries of school teachers in Anne Arundel county.

By Mr. League—To prohibit pool and billiard parlors being open between midnight and 6 a. m.

By Mr. Hildebrand—To prohibit the killing of hogs and cattle under certain weights.

The bill repealing the Wilson ballot law and declaration of intention law was reported favorably from the Election Committee by Mr. Fisher, of Prince George's. After debate by Messrs. Fisher, Benson, Bryant, Dowell, Claggett, Phoebus, Hildebrand and Norris, Delegate Claggett moved to amend the report so that only the declaration of intention provision be repealed. Mr. Claggett declared that the Wilson law was now uniform in all counties to which it applied and only differed from the law of the balance of the state in that there were no party designations after candidates' names and no sample ballots allowed to be posted. He contended that the Wilson law ought to be extended in these respects instead of repealed. The Claggett amendment was lost, 35 to 52, and the Fisher repeal bill passed to the third reading without revision.

On Wednesday the following bills were introduced in the Senate:

By Senator Harrison—To open polls in Ocean City precinct of Worcester county at 6 a. m. instead of 8 a. m.

By Senator Duvall—Providing that all race tracks shall obtain license and pay fees for them to the State.

By Senator Frick—Providing for extradition of persons of unsound mind and to make uniform the laws of states which enact the same.

Senator Frick introduced in the Senate five bills that are advocated by the Maryland Commissioners on Uniform Laws. The measures are known as the Uniform Divorce bill, the Uniform Marriage Evasion act, the Uniform Limited Partnership act, the Uniform Act for the Extraction of Persons of Unsound Mind and the Uniform Flag act. The Uniform Flag bill prohibits any desecration whatever of the United States flag, forbidding especially the placing of any advertisement upon the flag or the use of the flag for advertising purposes.

The House met Wednesday at 12.30 p. m., with 87 members present. Among new bills introduced were the following:

By Dennis—For the appointment of a game warden for Worcester county.

By Davis—For licensing gypsies.

By Stinson—Providing that all vehicles shall display lights at night.

Mr. Delaplaine, of the Frederick delegation in the House, bids fair to be the champion repealer of the session. Thus far he has introduced three repeal bills, which would abolish the judges' pension, the Board of Barber Examiners, the moving-picture censors, and the end is not yet.

Among bills introduced in the Senate last Thursday were:

By Senator Harrison—Providing that women prisoners in the House of Correction may be put to work at light tasks on the farms.

By Senator Kauffman—To authorize a \$7,500 bond issue by Emmitsburg for improvement of the town's streets and alleys.

On Thursday, in the House, among other bills introduced, were:

By Melvin—To increase the salaries of high school teachers; to increase the salaries of white teachers in primary schools; to increase the salaries of teachers in colored schools.

By League—To prohibit the granting of licenses to aliens for any trade, occupation or business until they take steps to become citizens of the United States and to revoke licenses previously granted to such aliens.

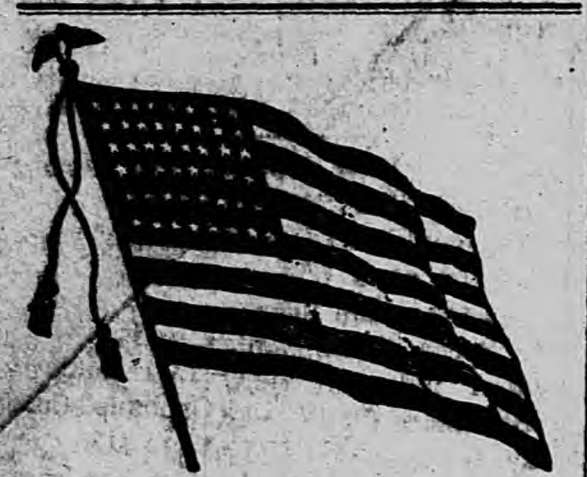

## Camp Meade Men In France

The first 50 men to be sent from Camp Meade for overseas duty are in France. They are detailed to the quartermaster's department and left the camp after a few weeks' training there. In New York they were given further instruction in their duties and then sailed at night for France.

TUESDAY MORNING, JAN. 29, 1918

The heated arguments over the factory closing order ought to be a partial substitute for the lack of fuel.

According to Gladys, General Pershing must be a good military commander, as he is such a handsome man.

Not merely are they trying to beat Germany by wheatless and meatless days, but now they have workless days too.

The young people aren't worrying about the fuel shortage so long as they can snuggle up a little closer on the parlor sofa.

The men who like to lie abed late Sunday morning are convinced that the churches should close on account of the fuel shortage.

Of course the German spies can't be executed as there is always a comma or semicolon missing in the indictment against them.

After the stores have candy enough to last them a year it is then believed the shortage of sugar for ordinary use will be relieved.

After all the pleasure seekers have been transported on their midwinter vacations then it will be possible to carry coal to the factories.

It is complained by the red-tapers at Washington that an order for supplies sometimes goes through now without being signed by all the office boys.

Many of the loudest shouters for speeding up our military preparations were the loudest shouters a few years ago against spending any money on the army.

The fact that a man is "cussing" the government on account of the coal order does not prove that he has tried to save a pound of fuel in his own home or business.

There are a good many people who are patriotically willing to take hold and work to help win the war provided they get twice as much pay as they ever had in peace times.

No objection is felt by the Germans to our press censorship as its effect is to conceal from the American people a lot of facts that the Germans know perfectly well.

Those 200,000 defective gas masks will not do for the trenches, but they will help out when Mother sets out to cook cabbage and turnips over the kitchen stove.

With our Navy after them the submarines are going down. Also the most logical theory of our ancient friend Mr. McGinty's distinguished exploits and career is that he was a successful submarine commander.

### THE COUNTY PAPER IN THE HOME

Have you ever stopped to consider that the local paper fills a place that is not covered by the big city papers, and should be in the home of every taxpayer and permanent resident of the county.

Princess Anne has the distinction of having a weekly paper second to none in Somerset county, which covers all county items of interest, and is now publishing more information of the Maryland legislature than any paper in the county. If you believe in it enough to subscribe for it and enjoy its pages, induce your neighbor to get in the good habit and subscribe for it at only \$1.00 per year.

### ECONOMY

It is a big question how people are going to get together the enormous sums of money that will be needed for Liberty bonds. We all ought to economize, yet we must keep on buying nutritious food. Our families should not be stinted in clothing nor home supplies. If the production of the necessities of life is shut off by spasms of economy many will be thrown out of work and business depression will result.

The place to save money is in the thoughtless and ill-considered use of it that so many people make. This is no time for costly amusements and for needless luxuries. People should plan out their expenses in advance and should positively resolve not to spend money on impulse for things that don't count in the homes. They should read the newspapers carefully to see where the bargains in these supplies are to be had, so that they can get an idea what they are going to spend before they make their purchases.

### REGISTERING GERMAN

The week of February 4th has been set aside for the purpose of registering unaturalized Germans. These people will get a great deal more courteous treatment than if they were Americans living in Germany.

In the latter case they would be hustled around on the theory that they were guilty of being spies until they proved themselves innocent. In this country the very tolerant and good-natured officials will be apt to accept their statements until ground for suspicion is suggested.

The number of loyal German-Americans is larger than many people, particularly some politicians, may think. You can see that by the way in which the pro-German politicians have altered their tone of late. They evidently thought they could make votes by opposing the American war policy. But when they got next to their constituents they found that even the majority of those of German descent were against them. The positively disloyal element is not large numerically, though it is exceedingly active and terribly unscrupulous and dangerous.

This registration of enemy aliens is a thing that has started none too soon. It should have begun soon after the war started, when we set out to be neutral. At that time it was evident that many of our residents would not observe this neutrality. While the government was trying to treat all sides fairly, they were working day and night for Germany.

This registration should be absolutely thorough. No alien enemy should be permitted to slip through. The very many who are loyal and friendly to their new home will not be interfered with in any way. As to the others, we want their number.

### CONVENIENCE AND NECESSITY

The straits which the country has reached on the fuel question, as evidenced by the fuel administrator's order shutting down industrial plants, is a reminder that we must make distinctions between the necessities of life and the mere conveniences. We have upset our entire industrial fabric on account of fuel shortage. Meanwhile we have been allowing mere convenience to run along as usual.

The center of the fuel trouble is the railroads as we have enough coal mined. The government has cut off some passenger trains, but a great many are still being run for pleasure travel. These trains will have to double up. If some people postpone their vacations until spring there will be no suffering. Many business men could save long trips by use of the telephone.

Around large cities frequent services of suburban trains are run. In the morning and at night when workers are going in and out, this is a necessity. But many trains are run in the middle of the day to accommodate women who go to the big cities on shopping expeditions. These trains are a mere convenience, not a necessity.

While good progress has been made in cutting off needless lighting by blazing electric signs, yet in the average town more light is burned up than is necessary. For a few weeks a lot of these lights could be cut out without hurting anyone.

A great many people could shut off the heat from a few rooms of their houses, and live as their fathers used to. There are a hundred ways in which fuel could be saved so as to keep the factories running. Everyone must help. No one should complain because of trifling inconveniences.

### THE GERMAN'S GERMS

The California State Council of Defense issues a warning against poisonous pollen, said to have been shipped by Germans, with the idea of destroying our wheat crop. The Germans showed that this is one of their games by a previous effort to infect the seed supplies of Roumania. There is little doubt that they will try this thing out in this country.

If they could infect any considerable portion of our seed supplies it would be the hardest blow our government has had yet to meet. A general crop failure would result in suffering compared with which our previous experience has been the least trifle.

There is a big job before the United States Department of Agriculture, the State Agriculture Bureaus and experiment stations, to head off such attempt. These scientists should issue bulletins making it clear how any such infection would first show itself.

Farmers should be careful of whom they buy seed. Salesmen representing unknown houses should be turned down. It is time for buying seed supplies only of people known for years to be reputable. Meanwhile the agriculture bureaus should carefully investigate the record of seed houses and the farmers should be warned not to buy of doubtful parties.

Some people may say that such precautions are panicky, and that no considerable attempt in this direction is possible or likely. Yet it is impossible to overestimate the devilish ingenuity of the Germans, or the lengths to which they will go to control the whole world. Their spy system is the most terrible organization ever formed. We know that they have already attempted to defeat our production by infection. That is a warning enough and everyone should keep an eye out for this menace.

### Are We Not Too Good-Natured And Tolerant?

The joint statement of the Department of Justice and of the Navy Department strips the case of Walter Spormann of most of the sensational features attributed to it in the beginning. But it is not altogether a mare's nest, nor devoid of importance even from the standpoint of the undisputed facts. It is, indeed, considered sufficiently important to demand his internment, which is in itself an admission that it is not thought safe to leave him at large.

The facts, so far as they have been developed, are that Spormann is a German reservist, who came to this country in 1910 and who has never been naturalized. He brought along with him a part of his military equipment, consisting of sword-bayonet, scabbard and sword-knot, army blouse, duck uniform and belt. There may have been no significance in this, and perhaps there is none in the fact that he retained this equipment after our declaration of war. He worked for a lumber contractor at Camp Meade last autumn under a permit from the United States Marshal, for another contractor at Quantico and for still another engaged in the construction of the aviation camp at Newport News, whether under permit in these last two cases does not appear. While at Newport News he approached a dynamite magazine in the camp, was fired upon by a sentry, but escaped and succeeded for some time in concealing his identity.

None of these facts, nor all of them combined, are conclusive as to his hostile character or purpose. But taken in the mass, they warrant grave suspicion. Spormann must have succeeded in concealing his real character as an enemy alien to have gotten access to these important centers of government work. He was too intelligent not to know that, under the law, he had no right to roam about the country as he was doing. He was too intelligent not to know that he had no business near the dynamite magazine. When he refused to halt on the sentry's challenge he acted just as a spy or plotter would have done.

Is internment a sufficient punishment in cases of this kind? It does not appear to be much of a punishment at worst. It carries with it very little in the way of example to others, very little as a deterrent to those who may be disposed to treat our laws or restrictive measures lightly or with contempt. If the interned man is an enemy alien in heart as well as technically, if he is at war with us in feeling and sympathy, if he is in a state of mind that would welcome an invading German army, internment is not to him a punishment but a decoration. It is equivalent to the iron cross. Is it not time to consider means of making the penalty so severe that other and possibly more dangerous aliens may be discouraged?—Baltimore Sun.

### How's This?

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces, expelling the poison from the blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.

F. J. CHENEY & Co., Toledo, Ohio. Sold by all Druggists, 75c.

### What Has Been Done

Germany would love, above all else, to know how many troops the United States has in France and how many it will have there by spring. And there are hundreds of touts in this country who would be glad to obtain the data and further its transmission to the foe. It is not absolutely clear that such are not to be found quite close to the centers of government.

And because President Wilson will not be dogged into flaring the figures to satisfy the curiosity of those who seek to pry, they cavil and say there has been nothing done. And the same applies with more force to Secretary Baker. Yet the President has said that by spring there will be twice the number of troops abroad that had been counted upon in the original estimate. And Secretary of War Baker has also said that the number now abroad is larger than that called for in the original plans at this stage of the country's participation.

The same class of ignorant or designing or inflated carpers were nagging at the heels of England for a long time. When it finally became known that the nation had more than a million of men abroad amazement was expressed and the critics were silenced and scorned.—Baltimore American.

### Prefers Chamberlain's

"In the course of a conversation with Chamberlain Medicine Co.'s representative today, we had occasion to discuss in a general way the merits of their different preparations. At his suggestion I take pleasure in expressing my estimation of Chamberlain's Cough Remedy. I have a family of six children and have used this remedy in my home for years. I consider it the only cough remedy on the market, as I have tried nearly all kinds."—Earl C. Ross, Publisher Hamilton County Republican News, Syracuse, Kan.

### Relative Value of Fertilizer

"How are we to produce crops when fertilizers are so high?" asks a market grower. He is simply considering the actual cost of fertilizers without thinking of the relative value. As compared with the increased value of products commercial fertilizers are not high, except in the case of potash. I have no remembrance of a time when it would pay the cultivators of the soil better to use commercial fertilizers liberally. The grower who stints in the use of plantfood because of high price will not reap the profit of good prices for his products as will the man who is liberal with the application of soluble plantfoods. The great fact to consider is that labor is employed and getting better wages than ever before and these are the buyers that make vegetables profitable. In times when labor is largely unemployed the South Atlantic truckers know well that early cabbages seldom pay. The laboring people are then buying things that "stick closer to the ribs." And it is the great earning class rather than the rich on which the trucker must rely.

### Are Your Sewers Clogged?

The bowels are the sewerage system of the body. You can well imagine the result when they are stopped up as is the case in constipation. As a purgative you will find Chamberlain's Tablets excellent. They are mild and gentle in their action. They also improve the digestion.

### Order of Publication

Charles H. Maddox, Artie M. Maddox and Rosanna Maddox, his wife, John W. Maddox and Rosie Maddox, his wife, and Robert R. Maddox, va. Laura J. Collins and Ferdinand Collins, her husband, Mary M. Benston and Edgar Benston, her husband, William F. Maddox and Rosa Lee Maddox, his wife, Sabie Heath and Ralph Heath, her husband, Lavinia Maddox, Sadie C. Maddox and Nellie Rosanna Maddox.

No. 3225, Chancery. In the Circuit Court for Somerset County.

The object of this suit is to procure a decree for the sale of certain real estate in Western Election District, Somerset county, Md., of which the late Charles A. Maddox died seized and possessed, for the purpose of partition and division among the heirs entitled to the proceeds thereof. The bill in substance states that Charles A. Maddox died on or about the 12th day of May, 1913, seized and possessed of a lot of land located in Western Election District, Somerset county, Md., containing eight acres of land, more or less, which was conveyed to the said Charles A. Maddox by Peter Fontaine, by deed recorded among the land records of said county in Liber F. 10, folio 246, etc., and being so seized and possessed, he died without leaving a widow surviving him, and intestate, and leaving the following as his only children and heirs at law, who are still living, and all of whom are over the age of twenty-one years except the defendant Sadie C. Maddox, namely: Charles H. Maddox, unmarried and residing in Chester, Pa.; Artie M. Maddox, who intermarried with Rosanna Maddox, both of whom reside in Somerset county, Md.; John W. Maddox, who intermarried with Rosie Maddox, both of whom reside in Somerset county, Md.; Robert R. Maddox, unmarried and residing in Somerset county, Md.; Laura J. Collins, who intermarried with Ferdinand Collins, both of whom reside in Swarthmore, Pa.; Mary M. Benston, who intermarried with Edgar Benston, both of whom reside in Swarthmore, Pa.; William F. Maddox, who intermarried with Rosa Lee Maddox, both of whom reside in Swarthmore, Pa.; Sabie Heath, who intermarried with Ralph Heath, both of whom reside in New York City; Lavinia Maddox, unmarried and residing in Swarthmore, Pa.; Sadie C. Maddox, who intermarried with William F. Maddox, both of whom reside in Swarthmore, Pa.; Nellie Rosanna Maddox, unmarried and residing in Swarthmore, Pa.

That the said real estate is not susceptible of partition without material loss and injury to the parties entitled to interests therein, as above stated, and that in order to make effect of said interests, it will be necessary that said real estate be sold and the proceeds thereof be divided among the parties entitled thereto, according to their respective interests therein. That all of the said defendants, the said Laura J. Collins and Ferdinand Collins, her husband, Mary Benston and Edgar Benston, her husband, William F. Maddox and Rosa Lee Maddox, his wife, Sabie Heath and Ralph Heath, her husband, Lavinia Maddox, Sadie C. Maddox and Nellie Rosanna Maddox are non-residents of this State. It is thereupon, this 18th day of January, 1918, ordered by the Circuit Court for Somerset County in Equity, that the plaintiffs, by causing a copy of this order to be inserted in some newspaper published in Somerset county, Md., on each of four successive weeks before the 14th day of February, 1918, give notice to the said absent defendants of the object and substance of this bill, warning them to be and appear in this Court, in person or by licitor, on or before the 6th day of March, 1918, to show cause, if any they have, why a decree ought not to be passed as prayed.

## Catarrh of Stomach Did Not Know It

Mrs. Selena Tanner, Athens, Ohio, writes: "I cannot find words to express my thanks for your kind advice. I never once thought I had catarrh of the stomach. I commenced taking Peruna, as you directed. My stomach continued to hurt me for about two weeks after I began the medicine, and then it stopped. I now have a good appetite, while before I was nearly starved."

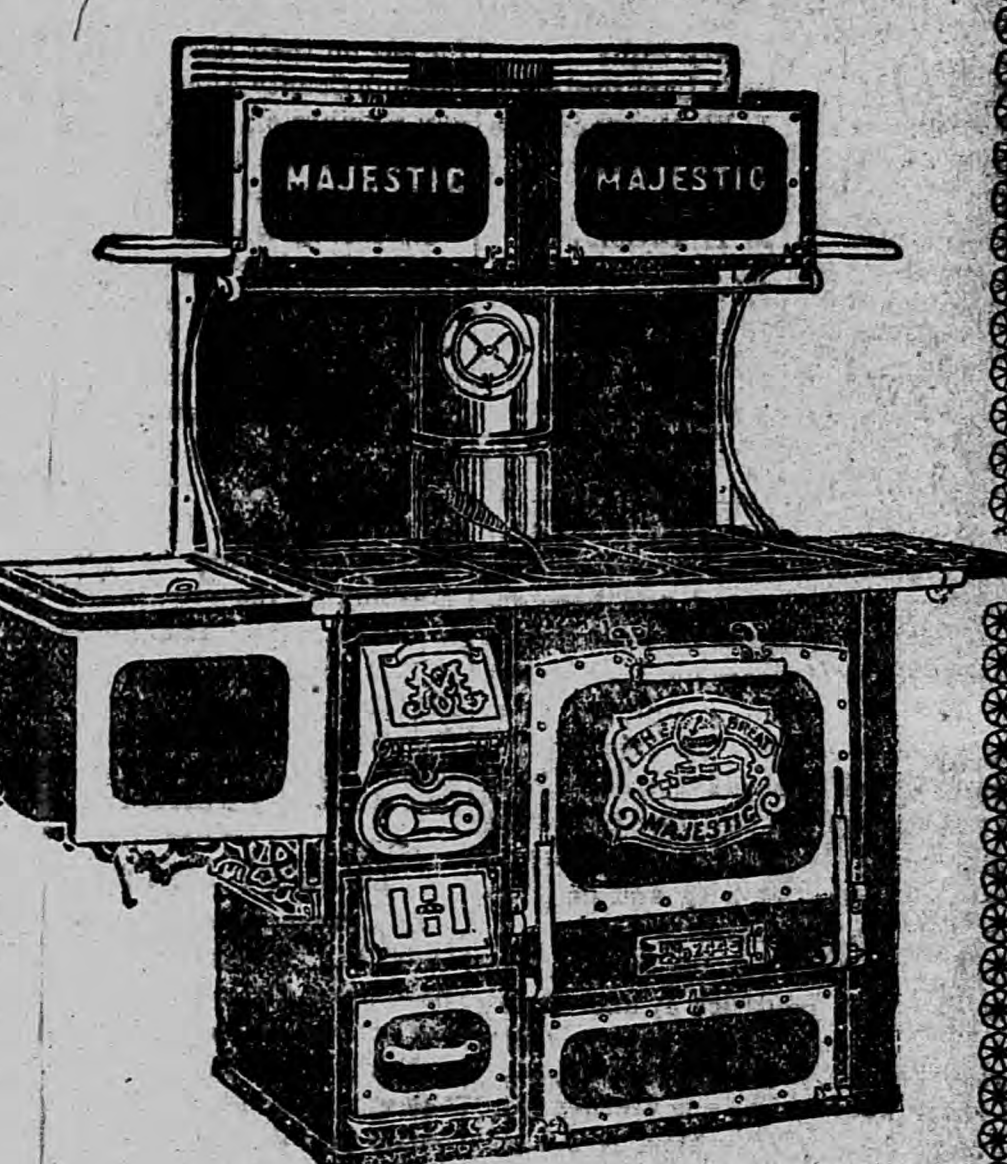

Those who object to liquid medicines can procure Peruna Tablets.

## PERUNA Made Me Well

## SELLING BELOW COST

This is what we are doing every day. Goods Cost from 10 to 25 per cent. more than we are selling them for; as we have a large stock of Hardware, Buggies, Runabouts, Wagons, Harness

## STOVES AND RANGES

We carried over \$800.00 worth of Robes and Blankets from last year. We don't mark our goods up every day like other merchants. Somebody is losing trade because ours is increasing.

Ask your neighbor where to get a Square Deal, and he will say Taylor's H'd'w Store

## PARKE'S HAIR BALM

A toilet preparation of merit. It is a reliable and sure remedy for itching scalp and dandruff. It is sold by all druggists and is made in New York City.

# MARYLANDER AND HERALD

TUESDAY MORNING, JAN. 29, 1918

Price of Marriage and Deaths will be published at five cents per line. For full particulars apply to the printer at the rate of (10) five cents per line.

## BUSINESS FRONTIERS

See (10) cents a line for the first insertion and (5) cents thereafter

**FOR SALE**—One Aspinwall potato planter, good as new. Price \$60. C. B. STREET, Route 8.

**FOR SALE**—House and Lot on Somerset Heights. Apply to Mrs. A. J. HUFFINGTON, 1610 Popular Grove street, Baltimore, Maryland.

**WANTED**—Man around 30 of good habits to represent us in your locality. Must devote all time. Address in own handwriting for particulars. J. WALTER RUSSELL REALTY CO., 2 E. Lexington street, Baltimore, Md.

**FOR SALE**—An up-to-date saw mill in excellent condition, 30 horse-power. City engine and 85 horse-power boiler, with modern Barrel Stave also heading machinery. For full particulars address SAMUEL P. WOODCOCK, Salisbury, Md.

**FARM WANTED**—Give full particulars as to acres, clear land, woodland, buildings, fruit, etc., nearest town, school, water, or nearest railroad station, for general purposes, when possession can be had. State lowest cash price, no commission. Apply at this office.

**WANTED TO BUY A FARM**—Want to rent an improved farm with the privilege of buying after the first year. Please send at once description and location, also terms of rental and selling price. Will entertain any other proposition. GEORGE R. HILTY, Scarsdale avenue, Tuckahoe, N. Y.

**LOOK AFTER YOUR REPAIRS NOW**—If our customers will overhaul their machinery and implements now and let us have a list of repairs needed, they will help to facilitate matters all the way through. We carry repairs for almost everything we sell, but it is next to impossible to have every piece all the time, and it will be difficult this year to get anything like prompt shipment and delivery. We especially appeal to users of Deering, Milwaukee, Osborn & Plano machinery, manufactured by the International Harvester Co., to consider their repairs at once. The company has lost so many valuable men they cannot afford the service they formerly did.

HAYMAN'S HARDWARE DEPT.

Up to date the dogs of Princess Anne persistently refuse to observe a barkless night.

A special meeting of the Red Cross Society will be held at the home of Mrs. T. J. Smith this (Tuesday) afternoon at 3 o'clock.

Corporal J. Paul Briddell, after spending several days with his parents, Mr. and Mrs. John W. Briddell, has returned to Camp Meade, Md.

Miss Pearl Beauchamp, who has been spending the last two months with her brother, Mr. Tubman Beauchamp, of Philadelphia, has returned to her home at Westover.

Private Morby Heath, of the 115th Infantry, stationed at Camp McClellan, Anniston, Alabama, is enjoying a ten days' furlough with his parents, Mr. and Mrs. Thomas Heath.

Until further notice there will be no "movies" at the Auditorium on Tuesday night, but Monday night motion pictures will be shown in place of Tuesday night as heretofore.

Mr. and Mrs. Henry T. Pasquith announce the marriage of their daughter, Miss Frances Willard Pasquith, to Mr. Vivyan Dexter. The wedding took place on January 12th, 1918, at Terrebonne, Oregon.

Miss Edna Hickman, daughter of Mr. and Mrs. Milton F. Hickman, and Miss Mae Rhodes, daughter of Mr. and Mrs. I. M. Rhodes, are among the nurses that will graduate at the Protestant Hospital, Norfolk, Va., this week.

Mr. Wm. Upshur Dixon, of Princess Anne, has been re-elected for another term to serve on the Advisory Board of the New York, Philadelphia and Norfolk Railroad Relief Department, with headquarters in Philadelphia, Pa. Mr. Dixon represents the maintenance of way department of the N. Y., P. & N. Railroad.

Marriages entered into since May 18th, 1917, are not cause for exemption from military duty, rules Provost Marshal General Crowder. It is possible that a woman who would marry a man to "keep him out of war" is not the sort of wife to make a fellow really happy, and after a few months of this sort of matrimony, perhaps even the worst sort of a slacker is ready and willing to go to war.

Major E. E. Tull, of Somerset county, is chief of the division at the base hospital, Camp Meade, Md., and he will be pleased to recognize any of the boys from the Eastern Shore. Some of the boys who have met the Major seemed more at ease when he informed them that he knew their people. The colored soldier boys as well as the white, should make inquiry for Major Tull if they have occasion to be at the hospital.

Mr. Charles B. Morris, claims manager for the Maryland Casualty at San Francisco, California, was recently re-elected president of the Casualty Insurance Adjusters' Association of California at the annual meeting and election of officers. Mr. Morris is a son of Mr. John W. Morris, of Princess Anne, and is well known to many of our readers, who will be pleased to hear of his success in the far west, where he has been stationed for some years. Charlie, as he is familiarly known here, like many other Princess Anne boys, has "made good" since leaving his native town.

Last Tuesday night Mr. and Mrs. John B. Roberts entertained the following guests at dinner: Mr. and Mrs. W. B. Spiva, Mr. and Mrs. H. L. Brittingham and Mr. and Mrs. E. Herrman Cohn.

The stores of Princess Anne will be closed tonight (Tuesday) at 6 o'clock and continue until further notice every evening except Saturday, thus doing "their bit" by the conservation of fuel, light and energy.

Dr. and Mrs. R. G. Norfleet and four children, who have been spending some months with Mrs. Norfleet's mother, Mrs. Clara Woolford, left last Thursday for New York, where they embarked on a Panama steamship line for their home, Pedro Miguel, Canal Zone.

J. Harry Covington, Chief Justice of the Supreme Court of the District of Columbia, has been named by Director General McAdoo as a member of the Railroad War Commission. Mr. Covington is a Marylander and lived in Easton, Talbot county, until he went on the District of Columbia bench. He was elected to Congress from the First District in 1908, 1910, and 1912.

Mrs. R. H. Jesse, of Columbus, Mo., in renewing her subscription to 1918 last week, writes: "Enclosed find check for renewal of my subscription to your paper, and may I say that no other dollar which I spend during the whole year brings me nearly the pleasure that this one does. One may wonder far, but having once lived in Princess Anne one always thinks of it as home. So the Marylander and Herald comes as a message from home each week."

The funeral of Mrs. Wm. S. Chelton, who died on the 20th instant, took place at Quindocqua Methodist Episcopal Church last Tuesday afternoon, the Rev. Tilghman Smith and Geo. E. Sterling conducting the services. Mrs. Chelton was 57 years old and the widow of the late W. S. Chelton, and the mother of Mr. Guy Chelton and five daughters, viz: Ruth, wife of Mr. John Short, of Hurlock; Eula, wife of Mr. Eugene Johnson, of Quindocqua; Beatrice, wife of Mr. John Adams, of Marion Station, while Ola is married and lives in West Virginia. Miss Helen also makes her home in Quindocqua.

## Committee On Patriotic Education

The following is a committee, whose duty it will be to further the cause of patriotic education throughout Somerset county: Mrs. Columbus Lankford, chairman, Superintendent of Schools, W. H. Dashiell, Prof. B. D. French, Rev. Leo Jackson, of Princess Anne, and Prof. F. E. Gardner, Mrs. C. P. Lankford and Miss Addie Handy, of Crisfield. Our young people must be led through thrift, self-sacrifice and a feeling of personal responsibility to help win this great crusade.

## Leasing Of Oyster Beds

The proposition to lease the natural and other oyster beds of the Chesapeake Bay and its tributaries to the highest bidders in order to make up the deficit in the state treasury to follow loss of saloon licenses, if prohibition prevails, came up last Thursday in the House Committee on Chesapeake Bay and Tributaries.

Mr. Dawson, of Caroline county, appeared before the committee to advocate a bill introduced by him giving residents of the lower section of his county the right to take oysters in the Choptank river, a privilege which Dorchester and Talbot are not disposed to grant. Mr. Wright said that if the oystermen of Dorchester and Talbot are determined to exclude oystermen from other counties he would support the bill to lease the oyster lands to the highest bidders.

## Tri-State Packers' Offer Resolutions

At the annual meeting of the Tri-State Packers' Association, C. M. Dashiell, secretary, of Princess Anne, Md., held in Philadelphia, January 23rd and 24th, 1918, the following resolutions were passed, and in order that the widest publicity might be given to the matter so that the growers of canning crops in Maryland, Delaware and New Jersey might understand the cordial spirit of co-operation in which the canners wished to handle this matter with the growers, it was suggested that as a matter of public interest that the county papers throughout the section interested be requested to give these resolutions generous display in their issues.

Resolved, That in view of the extreme need of the production of the greatest amount of food possible in this country, not only for the Army and Navy and our people at home, but for the Allies as well, that we urge upon the government, wherever possible, that those engaged in agricultural and food industries as well as the labor necessary thereto, be relieved from military service.

Resolved, That since the slogan of the day is "Food will win the War" and in order that the "Boys Over There" and those dependent upon us here may be furnished with a plentiful supply of canned foods, we call upon the farmers of the tri-states to co-operate with us by growing the greatest acreage possible of sugar corn, peas and tomatoes at prices which, while liberally rewarding the farmer and in keeping with present prices for other farm products, will yet patriotically help to decrease the high cost of living and lighten the already "heavy burden" for our people at home and our allies abroad and in this patriotic effort both farmer and canner must co-operate with the utmost enthusiasm and mutual good-will.

## SPECIAL ANNOUNCEMENT TO OUR SUBSCRIBERS

We have published two announcements to the subscribers of the Marylander and Herald, calling attention to the fact that it is imperative to have all subscriptions to this paper paid one year in advance. We are pleased to say that a number of patrons have responded to our request, and in many cases have paid for their paper a year in advance. These announcements to our subscribers are in no sense a dun, but a request for co-operation so as to enable us to keep from advancing the subscription price of our paper to \$1.50 per annum. This policy has been adopted by many country newspapers, and practically by all city journals, but we do not propose to advance the price of this paper, if we can get the right kind of co-operation from all our subscribers, and to this end we ask every subscriber to the Marylander and Herald to look at the pink label on the front of his paper, and if he is in arrears, to make a remittance at once, which will place his paper one year in advance, and if all our subscribers will do this it will enable us to keep the price at one dollar and also enable us to produce a better newspaper. We hope to receive this kind of co-operation from all our patrons.

## Alfred B. Turpin Dead

Mr. Alfred B. Turpin, one of the most prominent citizens of Somerset county, died at his home at Kingston early last Thursday morning, surrounded by the members of his family. Mr. Turpin had been in failing health since suffering a paralytic stroke some 15 years ago.

Born on April 17th, 1883, in Brinkley's district, Mr. Turpin was a worthy representative of an old and highly respected Eastern Shore family. His father was the late John Turpin, a prominent resident of Somerset county and later engaged in the hotel business in Baltimore, where the boyhood of Alfred B. Turpin was spent. In 1886 the deceased returned to Somerset county and a short while later purchased the carriage-making business of the late Isaac T. Beauchamp, near Kingston, which he conducted until the close of the Civil war. He then opened a general store at Carrol Corner, and five years later moved to Crisfield. Mr. Turpin built one of the first houses in that city and was engaged in the mercantile business there for two years, after which he returned to the Kingston locality where he resided until the time of his death.

At all times interested in public questions, Mr. Turpin was an ardent Democrat and was twice the candidate of his party for Sheriff of Somerset county. He also served two successful terms as county tax commissioner. A man of fine intellect, of warm heart and kindly disposition, Mr. Turpin was a gentleman of the old school and numbered his friends by the legion.

The deceased was twice married, his first wife being Miss Aurelia Beauchamp, daughter of the late George H. J. Beauchamp. By this marriage one daughter, Mrs. E. M. Brooks, of Marion, survives him. He is also survived by his widow, who was Miss Elizabeth Bell, daughter of that well-known Somerset citizen, the late John J. Bell, and by four children, Mrs. E. Belle White, of Pocomoke City; Miss S. Madara Turpin and Messrs. J. Alfred and Thomas T. Turpin, of Kingston.

Funeral services were held last Sunday afternoon at St. Paul's church, near Marion Station, conducted by the Rev. Louis Williams, of Pocomoke City, assisted by Rev. T. H. M. Ockford, of Port Leyden, N. Y., a former rector of St. Mark's Church, of which Mr. Turpin was a member. The pallbearers were: Messrs. Joshua W. Miles, Lewis M. Milbourne, Edward B. Lankford, S. Frank Miles, Aden Davis Jr., and H. B. Cullen.

## War Savings

Thrift Stamps and War Savings Stamps are the most democratic of investments and America expects every American to show love of republican institutions by investing in this democratic security. The aggregate amount of the investments and the number of investors in these War Savings securities are in a way the answer of the people of this great Democracy to the call of the cause of democracy throughout the world and the vindication of civilization and humanity.

They afford every person, however humble and however small his means, the opportunity to contribute his part, to do his bit, in this great struggle against the military masters of Germany who seek to dominate the world in contempt of justice and right and freedom and without conscience and without mercy.

Surely every American desires to have a part in the defeat of autocracy and the success of liberty and right.

It's a mighty poor chauffeur who doesn't know what he is driving at.

## The Price Of Sugar

There seems to be a deliberate refusal upon the part of many merchants to obey the orders of the Food Commissioner in the matter of the selling price of sugar. The price fixed by the Commissioner was 9½c a pound at retail, while it is reported that 10c, 11c and 12c are the prices being charged. It is not known what excuse will be offered by the sugar merchants who are charging in excess of the price fixed by the Commissioner; it may be that they will claim that they are being overcharged by the manufacturers and jobbers; if such is the case they should protect themselves by reporting the matter directly to the Food Commissioner.

The price of sugar, taken from the American Sugar Bulletin of January 18th, 1918, quoted by the American, National, Arbuckle, Franklin and other companies, is \$7.45 per 100 pounds, not quite 7½c a pound, and this price is subject to 2 per cent. discount, leaving a net price of \$7.30 per 100 pounds. In one pound bags the sugar is quoted 20c a hundred pounds more; that is, \$7.65, and in smaller lots at \$7.75 and \$7.85 per 100 pounds.

In a number of cities the agents of the Food Commissioner are making arrests and punishing those who have been overcharging. We would suggest to all merchants who are so doing to prepare their defense; the United States is a large country; it may take some time to get around, but eventually the strong arm of Uncle Sam will reach those who are disregarding the regulations of the Food Commissioner, as well as others.—Cambridge Record.

## Enlistments For Duration of War Only

Lieutenant M. A. Leahy, Navy Recruiting Officer for the Maryland district, has been authorized by the Bureau of Navigation to enlist men in the Navy for the duration of the war only. This enables the young men of the State to give their services to the Navy during the period of the war and to be allowed to return again to civil life as soon as peace is declared.

Since war was declared last spring a great many young men have requested of Lieutenant Leahy that they be allowed to go into the Navy for the war only, but until now all such requests had to be declined. The new order of the Bureau of Navigation should stimulate Navy recruiting and Lieutenant Leahy expects to have no difficulty in filling the weekly quota allowed the Maryland district. Nor does the new order prevent men of the draft age volunteering in the Navy if they can procure from their local boards certification that they are not needed for the current quota of their local board. Full particulars of Navy enlistments can be obtained from the nearest postmaster; directly from the Navy Recruiting Station, Calvert and Lexington streets, Baltimore, or from the Navy Recruiting substations at Cumberland and Hagerstown.

## SOMERSET COUNTY HAPPENINGS

### Newspapers Gathered By Our Correspondents During The Week

#### Westover

Jan. 26.—Rev. J. W. Wooten spent Wednesday in Georgetown, Del.

Mr. W. I. Scott is convalescent from his illness of the last ten days.

Schools and stores were closed Monday according to Fuel Administrator Garfield's orders.

The fourth quarterly conference for Westover charge was held at St. Paul's church Saturday afternoon.

Mr. William B. Long attended a meeting of the Cannery Association held in Philadelphia last week.

The special meetings held during the week by Rev. J. W. Wooten closed Sunday evening with a sermon by Rev. Vaughn Collins, district superintendent.

Five new members for the National Red Cross from Westover: Mrs. J. M. Ring, Mrs. J. W. Wooten, Miss Mary Long, Mr. I. O. Dryden and Mr. Joseph Elliott.

The "pot-luck" supper for the members of the Red Cross at the E. D. Long residence was an entire success, except that all members were not present. Those who were say it was a delightful occasion.

Every one should attend the pie social for the benefit of the Red Cross Tuesday evening, January 29th. Silver offering at the door. The social will be held in the store building which was recently occupied by the postoffice.

**Advertised Letters**  
The following is a list of letters remaining in the Princess Anne postoffice uncalled for:

Mr. William H. Andrew, Mrs. Mollie Schofield, Lidie Taylor, Mr. A. D. Truitt, Miss Chresten Warren.

Persons calling for the above letters will please state they are advertised.

H. L. BRITTINGHAM, P. M.

#### Marriage Licenses

The following is a list of the marriage licenses issued by the Clerk of the Circuit Court for Somerset County:

White—Dollie John Northam, 21, and Adelaide E. Justice, 24, both of Hallwood, Va. Frank L. Porter, 47, and Gussie M. Lankford, 41, both of Princess Anne. Raymond Wilson, 25, of Princess Anne, and Susie Lewis, 21, of Crisfield. Edmund Simpson Gray, 29, of Marion, and Myrtle Hoffman, 20, of Westover.

Colored—George Walston, 21, and Mattie Jones, 17, both of Princess Anne.

#### Confusing The Liberty Bonds

There are now three kinds of Liberty Bonds in the market, the original three and a half per cent. issue, the "converted fours," which are that part of the second loan substituted for the first issue under its conversion privilege, and the "second fours," constituting the greater part of the second issue and originally subscribed for as such.

There is a somewhat material difference between the two issues in the fact that the earlier one was callable in fifteen years and matured in thirty, while the second is subject to call in ten years and matures in twenty-five, which conditions are factors in the intricate figuring of bond values. But the intermediate class of "converted fours" differs from the rest of the second issue only in the variance of its privileges of future conversion.

The original issue of three and a half per cent. was made convertible into any subsequent issue at a higher rate, and when the next loan is authorized, that privilege ought to be re-established and made available to the second series of fours as well. The present situation is complicating even for the bond expert and confusing for the lay investor who, having subscribed to a four per cent. bond of the second loan, can't understand why another bond of that same issue has a shade higher value.

#### PRINCESS ANNE EVIDENCE FOR PRINCESS ANNE PEOPLE

**The Statements Of Princess Anne Residents Are Surely More Reliable Than Those Of Utter Strangers**

Home testimony is real proof. Public statements of Princess Anne people carry real weight.

What a friend or neighbor says compels respect. The word of one whose home is far away invites your doubts.

Here's a Princess Anne statement. And it's for Princess Anne people's benefit.

Such evidence is convincing. That's the kind of proof that backs Doan's Kidney Pills. Ernest M. Hayman, merchant, 402 Main street, says: "About three years ago I was in bad shape with disordered kidneys. Backache caused me considerable annoyance. The kidney secretions burned and scalded and were highly colored, and I was obliged to pass them several times during the night. I was very miserable. Doan's Kidney Pills were recommended by my druggist, Dr. Smith. After using one box I was cured of the trouble. Since then I have said a good word for Doan's Kidney Pills whenever I have a chance."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills, the same that Mr. Hayman had. Foster-Milburn Co., Props., Buffalo, N. Y.

**NOTICE TO CREDITORS**—This is to give notice that the subscribers have obtained from the Orphans' Court for Somerset County letters of administration on the estate of

SIDNEY C. JONES.

late of Somerset county, deceased. All persons having claims against said deceased, are hereby warned to exhibit the same, with vouchers therefor to the subscribers on or before the

Second Day of April, 1918, or they may otherwise by law be excluded from all benefits of said estate. All persons indebted to said estate are requested to make immediate payment. Given under our hands this 28th day of September, 1917.

ALLISON S. JONES, WM. C. JONES, LAFAYETTE RUARK, Executors of Will.

## A Message To The Farmers

Frederick Walcott, assistant Food Administrator, plainly and forcibly told the farmers of Maryland that they have a part to play in the war as well as the man who shoulders a gun. He warned all of the penalty of laxity in providing crops not only for Americans at home, but for those now on foreign soil ready to do battle. He has traveled all over the section devastated by war and through other parts of Italy, France, Russia and England. He studied carefully the civilian conditions, as well as the needs of the armies, and is familiar with every nation in Europe.

Mr. Walcott drew a startling picture of the conditions among the farmers of Poland after the country had been overrun by the German soldiers. Hundreds of thousands of Polish farmers, he said, were lying along the roads starving. Crows, he said, left only clean bones after a few weeks, and the German military organizations came along with huge automobile trucks and swept up the human bones of the former inhabitants and ground them into fertilizer.

In Italy, France and England, he said, there is a shortage of wheat, meats and sugar, and all of these articles the American farmer could help to supply. One-fifth of the wheat produced in the United States, he added, is needed by the Allied countries, and he pointed to this as a stimulus to the farmers of Maryland to produce more grain than ever before in the coming year.

#### Call Issued For Shipyard Workers

Five thousand two hundred and fifty men are wanted from Maryland to register for work in shipyards of the country, and the Maryland Council of Defense, acting on the request of the Council of National Defense, is seeking to enroll them as soon as possible. The men must be on hand if the shipbuilding program of the Government is carried out promptly.

Men will be enrolled to be held in reserve, who will accept employment in shipyards on reasonable notice anywhere in the United States, at the wages prevailing in the yards where they are sent. It is pointed out that although such enrollment will not exempt them from the draft, men now engaged in shipbuilding have been placed under deferred classifications. Enrollment of the men began yesterday (Monday) and will continue until the quota for the State is obtained. The total to be obtained is 250,000, and Maryland must supply 5,250 of them.

#### Soon Over His Cold

Everyone speaks well of Chamberlain's Cough Remedy after having used it. Mrs. George Lewis, Pittsfield, N. Y., has this to say regarding it: "Last winter my little boy, five years old, was sick with a cold for two or three weeks. I doctored him and used various cough medicines but nothing did him much good until I began using Chamberlain's Cough Remedy. He then improved rapidly and in a few days was over his cold."

## SAMUEL F. MILES

Justice of the Peace

Established Surveying 31 years.

In Princess Anne every Tuesday and Saturday until further notice.

Cor. Prince William and Church Sts.

PRINCESS ANNE, MD.

## Billy Sunday's Biggest Effort

Snow is delaying the erection of the great tabernacle along the lake shore in Chicago where the Rev. Billy Sunday will fight his battle against evil, hostilities starting March 10th. The great building will be the largest ever built for the evangelist. It will be 274 feet wide and 350 feet long, 16 feet longer than the one erected in New York.

The Rev. Dr. James E. Walker, advance man for Billy, is in that city laying final preparations for the 11-week drive against John Barleycorn. Chicago is in store for a good calling by the great evangelist, according to his advance man, who says that the drive there will be the "crowning effort of Mr. Sunday's career." He asserted Billy was eager for the biggest effort of his life.

Thought for Today.  
The great man is he who does not lose his child's heart.—Mencius.

## SUFFERING FROM COLD

If you shiver in frosty weather, if you have cold hands and feet, if colds are stubborn and frequent, then your blood may be thin and impoverished.

## SCOTT'S EMULSION

has been correcting this condition for nearly fifty years. It possesses rare powers for creating natural body warmth, for charging summer blood with winter richness and strengthening both throat and lungs.

The Norwegian cod liver oil in Scott's Emulsion is now refined in our own American laboratories which makes it pure and palatable.

Scott & Bowne, Bloomfield, N.J. 17-17

## Naturally, We Are Envious

A news item from Winchester, Va., says: "The horn of plenty is filled and running over in Buckingham county, Va., according to a letter from that section, for it stated that all kinds of pork is retailing there at 20 cents a pound, beef is no higher than 16 cents, good oak wood can be had for \$2.50 per cord, apples retail at about \$1 per bushel, and even prices on sugar, coffee, beans and other staples have been kept down to wonderfully low margins of profit."

#### Stomach Troubles

If you have trouble with your stomach you should try Chamberlain's Tablets. So many have been restored to health by the use of these tablets and their cost is so little, 25 cents, that it is worth while to give them a trial.

[Advertisement.]

## Aladdin Lamps and Supplies

The Aladdin Lamp is the best coal oil lamp on the market. If you owned an Aladdin Lamp you would not part with it for double the money it cost you.

Call and see it in operation in my store.

Frederick J. Flurer  
Princess Anne, Md.

## a community service station

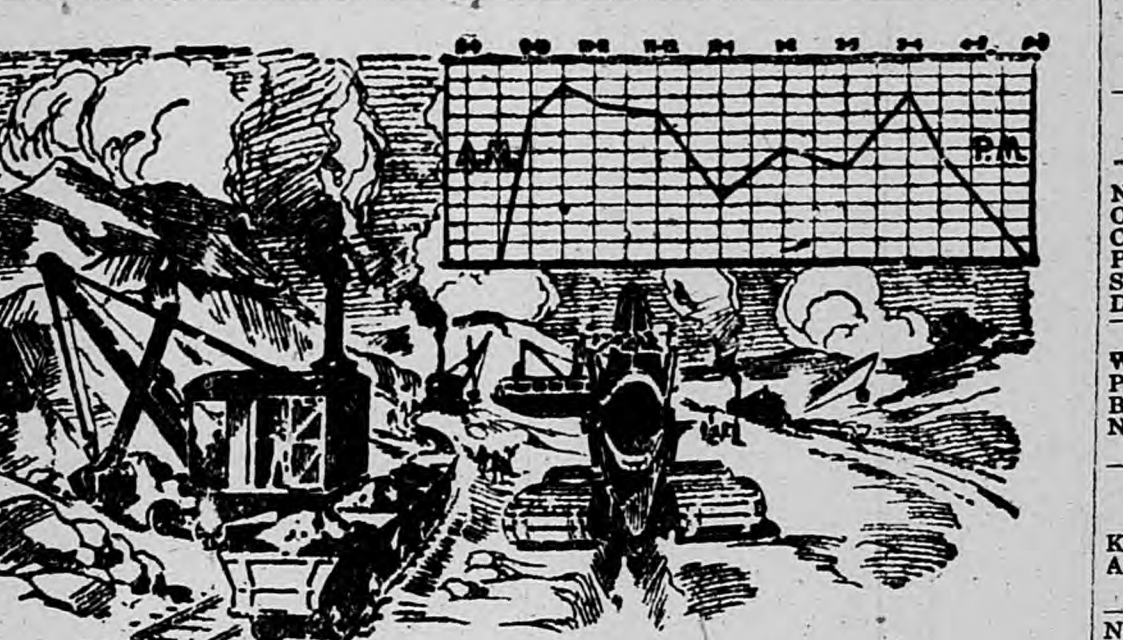

## "Money In The Bank"

gives the possessor a sound and cheerful mental attitude, conducive to success.

A Savings Account at this bank opens to the depositor new possibilities, a world of opportunity, and entitles him to the helpful business counsel of our experienced officers. \$1 opens an account.

Bank of Somerset  
PRINCES ANNE, MD.

## Bank SERVICE for all

## AVOIDING THE RUSH HOURS

If the telephone traffic curve in the right-hand corner of the illustration could be flattened, as a railroad engineer lowers grades, it would effect a material saving and assist us to meet the extraordinary demands for telephone service.

By avoiding the high spots in traffic, around ten o'clock in the morning and three o'clock in the afternoon, and by making telephone calls of a social or less urgent nature before or after these rush hours, the telephone user will help us to meet the constantly increasing demand for telephone service.

THE CHESAPEAKE AND POTOMAC TELEPHONE COMPANY  
H. W. CARTY, District Manager.

Tel. 12000 Salisbury, Md.

## For Love of Country and Self-Protection

This year we know, as never before, the national and the personal importance of Thrift.

## National Thrift Day, February 3d Will Be Universally Observed

Everywhere people look forward to the Day (which will be celebrated Monday, February 4th) as one for the starting of new Thrift habits.

A popular observance will be in opening or adding to Bank Accounts. This increases national surplus, means personal prosperity.
