FOR PRESIDENT,
HORACE GREELEY,
OF NEW YORK.

FOR VICE-PRESIDENT,
B. GRATZ BROWN,
OF MISSOURI.

THAT clever preacher, politician and clown, Henry Ward Beecher, is strongly in favor of Grant's re-election, and unbends his mind to the public through the editorial columns of his paper in his usual masterly, graceful and felicitous style. He recognizes Grant as the head and front of the Radical party, and, although he is not so very partial to him as a man and statesman, he feels bound to sustain him because his success is necessary to the continued existence of the party with which his New England instincts naturally identify him. He does not hesitate to avow a cordial hatred for the Democratic party and those who belong to it; and, to give his hatred the ripe New England flavor, he says he hates it because it was the long and successful defender of slavery; which institution this saintly personage together with his scholarly sister, Mrs. Harriet Beecher Stowe, always denounced with energy and fanaticism. He, like all the Remonstrance, places a higher value on the present success of the Radical party than on the future good of the country. He thinks his patriotism, his humanity, his Christianity—God save the mark—and everything which his finer instincts must tell him is noble and pure, in partizan advocacy of the re-election of the most corrupt man that ever wore Presidential honors. His old friend and neighbor, Horace Greeley, with whom, no doubt, he has in the past held close fellowship, and who deserves more at his hands than any other man in the party for which he is so faithfully working, is treated as a disorganizer, and pronounced incompetent and unworthy to sustain the dignity and bear the burdens of the Presidency. While Grant, whose offenses are going up every day and are stippling in the nostrils of the people, is pronounced a hero, a statesman, a gentleman, and Christians are advised to vote for him.

Now, without paying to discuss the questionable propriety of a minister of the Gospel turning his time and talents to the partizan prosecution of a political campaign, we wish merely to notice in a few concise sentences, the difference between Greeley and Grant and to show how the Rev. Beecher appears to the eyes of those not blinded by party prejudice.

Grant has been proved a nepotist, a gift-granter, an unscrupulous man in private transactions, a tricky, perfidious ruler, a user, a horse jockey, a seditious tyrant, a protector of thieves, an unlawful trafficker in Seneca stone, an incompetent, inhuman, brutal, ignorant, obstinate, self-willed and thoroughly corrupt man.

Greeley is admitted to be honest, kind-hearted, liberal, pure, wise, humane, just and competent.

Grant, in his gross inhumanity, has done his utmost to keep alive the bitter animosity engendered by the war.

Greeley, in his large humanity, has labored to restore peace and fraternity to the country.

Grant is the most unpopular man that could be presented to heal the breach between the North and the South.

Greeley, as it has recently transpired, is the very man to ally party rancor and unite and harmonize the discordant factions in bonds of fraternity.

Here then is an opportunity for Mr. Beecher to turn his unlimited command of learning, wit, wisdom, humor and—if he has any—religion, to good account by seconding the honest, earnest efforts of those who are laboring for the restoration of purity in the land. But, no! this man, who might do much good, prefers to wallow in the mire in company with other paid parasites who live in the murky and sin-strewn political atmosphere breathed by U. S. Grant.

Does not this look like stealing the plenary of heaven to serve the Devil in?

The New York Times sends its spies and reporters to Chappaqua to eavesdrop and report everything that occurs at that place. In consequence of this insolent espionage, Mr. Greeley has been compelled to notify his friends that he cannot receive them at regular hours.

Better get some first-rate bull dogs to keep the employees of the English bull-dog, who publishes the Times, from the premises of an honest man.

The New York Tribune has succeeded in spreading the story about the bargain between Greeley and Seymour in relation to the Presidency.

By a card published in the *Eastern Shoreman*, we are informed that E. King Wilson, esq., of Worcester county, is a candidate for Congress in the 1st Congressional district of Maryland.

Mr. Wilson has always sustained an enviable character for integrity, ability and lofty purpose; and, by his unselfish devotion to the Democratic party during his honorable, active, useful life, has won for himself a deserved warm place in the hearts of his fellow Democrats, and undoubtedly possesses a strong claim on their suffrages. But, notwithstanding the fact that Mr. Wilson is fitted by education, experience and ability, to represent this district in the Congress of the United States; yet we cannot lose sight for a moment of the superior claims of Wicomico over Worcester, and consequently—although we must confess Mr. Wilson has strong claims—we must in all justice maintain that our country is entitled to the precedence in this matter. We are tired of being hewers of wood and drawers of water—our sister counties enjoying all the fruits of our labor. We have men who are capable, honest and true; and while we are assisting others to climb the hill of political preferment, we must insist upon supplying some of the climbers.

We wish Radicals, who intend to support Grant, to read the letter in this issue, by Bowen, ex-mayor of Washington, D. C. The letter needs no comments. It speaks eloquently for itself.

SENATOR ROSCOE CONKLING, Administrationist, made a speech in New York the other day in which, as it was afterwards proved, he tossed off six infamous lies against Greeley.

This is the kind of stuff the Renominatees are made of.

A LONG letter has been received from Dr. Livingston, the great African explorer, in which he recounts the history of his privations and sufferings, and gives some interesting accounts of the country he has visited.

CARL SCHURTZ, in a recent speech, said that Grant tried to induce him to favor the Santo Domingo scheme by offering patronage. Grant denied this; whereupon Mr. Schurtz produces letters from the renowned General Pleasonton which prove very conclusively that our imperturbable Chief Magistrate has either an exceedingly poor memory or a pair of false jaws.

CHARLES SCHMIDT has written a long letter in which he declares for Greeley and Brown, and advises his colored fellow citizens to sustain the ticket. This action on the part of Sumner will have the effect of winning many votes for the right.

Sayles J. Bowen on Grant.
(From the Auburn (N. Y.) Democrat.)
The following letter was written to George W. Watkins Esq., who resides in Scipio. The writer is no less a personage than ex-Mayor and late Postmaster of the capital of the United States, Sayles J. Bowen. It will explain itself as well as one of the dishonestest of his kind, who the Republican party have elected to the Presidency, and whom a portion of the same men are trying to do again:

G. W. Watkins, esq.
My Dear Sir: I was much pleased to receive from you your kind and encouraging letter of the 15th inst. You are right in stating that I know something of General Grant's business qualifications, as well as his character for honor, honesty and truth. I had a business transaction with him in which he cheated me out of \$25,000 with a coolness and deliberation that would do credit to any blackleg. In the mail that carries this letter I send a copy of the "Transcript," a paper published in this city, containing an article relating to the transaction alluded to, every word of which is true, as I stand ready to prove by Grant's letter and the original contract in my possession.

Indeed the "Transcript" has dared the Grant papers here and elsewhere to deny a single allegation in this article, which they have not had the temerity to do, as everybody in Washington knows it to be in every feature. I intend to prosecute Grant before our courts, and have made arrangements to commence suit against him at the next term, when the whole matter will be shown up to the world in evidence that cannot be disputed. This affair is only an index to Grant's private character. He is a miserly, sordid man, and will resort to anything, even to invasion of law and justice, or anything else that an honorable person would despise, to put money in his pocket. By his speculations in Seneca stone rings and other scandalous jobs, through his military career about the White House, his private life, and his position as President, he will leave the Presidency on the 4th of March next as rich as a Jew and as infamous as he who betrayed his Lord and master for thirty pieces of silver. His associates of the lowest order. Indeed, his instincts are low and vulgar, and he is never so well satisfied as when in company with horse jockeys, smoking cigars, drinking whiskey, and "talking horse."

Democratization and corruption are the order of the day in all sections of the country, and these have their origin in the White House and at Long Branch. Examples set there are followed by their parasites until their influence has ramified every town and country in the nation. Greeley will end this in a trice. Your friend,

S. J. BOWEN.

THE International Society is gradually disintegrating. Formidable in its rapid rise and aggressive spirit, it has become a heterogeneous assemblage of warring elements. Carl Marx to whose fertile brain, it owes its origin, and to whose executive ability it was indebted for its thorough organization at the beginning, is now powerless in the face of the spirit he has evoked, and is, indeed, himself charged by some of his associates with a misapplication of the funds entrusted to him. Suppressed by order of the Government of Prussia, France, Spain, Austria, Italy, Switzerland, this Society now confines its public activity to England and the United States, in both of which, having been quietly left alone to denounce, and wrangle, and threaten to its heart's content, it has ended by quarrelling and separating into a number of smaller and utterly insignificant fragments, known as the French, or the Danish, or lastly, to descend to the minutiae and absurdities of all—the Victoria Woodhull section.

Figures for the Grantites to Digest.

The Liberal Republican Committee claim that information received from all parts of this State represents at least 25 per cent of the Republican vote as sure to-day for Greeley and Brown. In some localities it is more than that, in others less; but the average, taking the State all through, they claim is fully up to that figure. Now, 25 per cent on the Republican vote in 1868, the largest polled by that party, is 104,970. If this estimate be correct, Mr. Greeley can lose 5 per cent of the Democratic vote and yet receive 178,964 majority, or Grant can get 10 per cent of the Democratic vote and yet Greeley will receive 123,974 majority. How do the figures? No person believes like these figures? No person believes that Grant will get 10 per cent of the Democratic vote in this State? We don't believe that Grant will get 5 or even 3 per cent of the Democratic vote; but the rapidity with which the changes are going on from Grant to Greeley in the Republican ranks will soon bring the revolt to the 25 per cent estimate of the Liberal Republican Committee, if it has not reached that figure already.—N. Y. World.

A STARTLING exhibit has recently been made at Washington that is well calculated to excite the surprise and indignation of the American people. It has been ascertained, from authentic documents, that Grant and his Cabinet have been absent from the seat of government one-third of the time since the former's inauguration, on the fourth day of March, 1869, during all of which period they regularly drew pay from the Treasury of the United States, while frolicking, junketing, and neglecting the public business. What would one of our plain citizens, or the assignees of his estate who are at a Court of Bankruptcy, to be held at Denton before George W. Smith, esq., Register in Bankruptcy for said District, on the 16th day of August A. D., 1872, at 12 o'clock, M. EDWARD Y. GOLDSBOROUGH, U. S. Marshal for said District.

August 3-21.

Local Advertiser.

Saturday, August 3, 1879.

There will not be any services in the M. E. Church tomorrow (Sunday) as the Pastor will be absent.

PARACHUTE.—Provided permitting, Elder Silas H. Dwyer will preach in the O. B. Baptist Meeting-house tomorrow (Sunday) morning and night, at the usual hours.

ROBINSON.—During the past two or three weeks the Salisbury merchants have been very busy. Probably this sudden revival of business during the heated term is altogether attributable to the fact that our people are great camp-meeting goers, and are preparing their larders and wardrobes for the tented grove.

PIC-NIC.—The Sunday School of the M. E. Church, South, held a picnic on Tuesday at the Park. The Sunday School of the M. P. Church also held a picnic on Wednesday last at Williams Point.

R. C. SPRINGS.—This popular resort has been well patronized during the exceedingly hot weather of the present summer, and visitors, with but few exceptions, have expressed themselves as having been greatly benefited by the health-giving mineral waters and refreshing air of the place.

THEFTS.—We would caution our citizens to keep a sharp eye on their meat-houses, for thieves, hungry thieves at that, are evidently on the war path. On Tuesday night they invaded the premises of Mr. J. Hopkins and carried off eleven chickens, and on Thursday night they visited Mr. Joseph Humphreys' close, relieving him of a full barrel of the best flour.

MELON SHIPMENTS.—Enormous quantities of water-melons have been and are still being shipped by growers in Tazewell district. It is estimated that 200,000 will be pulled this season in this district, and, as prices have ruled well, will put handsome sums of money into the pockets of growers. One firm shipped 4,700 last week to New York for which they obtained prices ranging from thirty to eighty dollars per hundred.

DROWNED.—On the 18th ult., James Hughes and Charles Stuck, were drowned above Williams creek, in the Nantux river. They left their homes in a small boat, for the purpose of catching oysters, and were returning with their cargo, when, by some accident, the boat and crew sank to the bottom.

Also on the 21st ult., James M. Hurly, aged about 14 years, was drowned in Barrett Creek. His body was recovered the following day.

Y. M. Christian Association.—A meeting was held in the M. P. Church, Barrett Creek Springs, on Sunday evening last, for the purpose of organizing a Young Mens Christian Association. Mr. J. A. Houston of Baltimore, was present and made an address on the proposed work. Joseph Bratton, Esq., was then called to the chair, being the president of the association, and the meeting proceeded to organize an association. The following officers were elected for the present year: Rev. A. S. Melvin, President; Joseph Bratton, first Vice-President; A. Ringold Bonds, second Vice-President; James B. Armstrong, Secretary; and John S. Bacon, Treasurer.

HONOR TO WHOM HONOR IS DUE.—At the closing exercises of William and Mary's College, the degree of D. D. was conferred upon our fellow townsman, Rev. Wm. Fulton, Rector of Spring Hill Parish.

The reception of this honor is but a just reward for the long years of mental toil which have marked Dr. Fulton's career in the ministry. For with untiring diligence in the pursuit of his profession, he has drawn from the fountain of knowledge, and, in his sermons, often brings forth the pearls of truth in a manner characteristic of the gifted scholar and eminent divine.

CAMP-MEETINGS.—The camp-meeting at Woodlawn, near Quantico, commenced yesterday.

The camp-meeting at Shad Point, will begin on Friday, the 9th inst.—This camp will be in the direction of the M. E. Church, South.

There will also be a camp-meeting at Columbia Woods, between Shaptown and Spring Hill, commencing on the 9th inst.

The camp-meeting at Delmar will be on the 16th inst.

There are several camp-meetings in contemplation by the colored folks in different parts of the county, but as yet we have not learned when or where they are to come off.

BURGULARIOUS CONDUCT.—On Sunday night last, between the hours of 8 and 11 o'clock, some persons entered the store of Messrs. Clayville & Jones, by way of a window, and carried off a quantity of small shanty used as a poultry house; by the use of some boards extending from this place to the window of the store house the bold intruder made his entrance. So well did he cover up his tracks that Mr. Jones, who slept in the store, did not discover his castle had been feloniously entered, until the following morning, when diligent search was instituted, but it was found that the scoundrel did not succeed in carrying off anything of great value.

FOR DEALS ISLAND.—On Saturday last several boat loads of people from Salisbury and circumjacent country started for Deals Island camp-meeting. They all arrived in safety, enjoyed the affair as best they could, and returned to their homes on Monday evening just the least bit disgusted with Deals Island and camp-meetings in general. The young men of the party report the managers of this camp as exceedingly rigid and strict in the enforcement of the rules and regulations for the government of the meeting. Promenade and courting are considered detrimental to the best interests of the meeting, and are, therefore, strictly prohibited. All visitors are required to attend only to the business in hand, viz the religious exercises.

THE WEATHER AND THE CROPS.—The past week has been warm and dry. Although we have had threatening clouds, no rain of any importance has fallen in Salisbury; consequently our streets are often filled with clouds of dust which render them most uncomfortable. Some parts of the county have been visited by slight showers, yet the report comes that most every quarter that the earth, which is now the principal crop, is suffering most terribly. In most places the blade is beginning to turn yellow, and the ear must necessarily be only partially filled. It is supposed that not more than half a crop can be grown, and that the most favored with a rain the failure will be still greater. Other vegetables are suffering equally as much and must share the same fate if nature does not interpose her assistance.

We learn that the fruit-cria, which has been on the E. S. R. R. during this season, will be removed with the expiration of the present week. Those who desire to ship fruit hereafter will have to avail themselves of the regular freight trains.

Local Cleanings.

The Band did not play at the Park on Thursday evening. Mr. John H. White's new house is completed. It is a handsome structure.

What do the Commissioners intend to do about the much needed lock-up? We would advise some of our citizens to use disinfectants about their premises; otherwise cholera might ensue. Horace Greeley stock is at a premium in Salisbury.

We are in favor of a dog-tax in Salisbury. All the tom cats were out in force the other night. Where was the Bailiff?

Local Varieties.

A. G. Toadvine & Co., still keep a fine lot of ladies dress goods, calicoes, muslins &c. &c. Also furniture, boots and shoes and notions. Now is the time to buy goods at reduced prices.

L. W. Gunby & Co., beg leave to offer the public a splendid lot of hardware, tobacco, cigars, wooden and willow ware and Turnip seeds at prices to suit all purchasers.

McBriety's Picture Gallery is still in the same place and he guarantees better pictures than ever. Give him a call. Picture frames made to order.

A PLEASANT SEASON.—Glorious and delightful as the summer weather is, its tropical heat is nevertheless a trial to the vitality of some. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirits depressed. This is a general derangement of all the physical functions, and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach and Bowel Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind is gloomy and despondent, it relieves the difficulty, and soon brings the whole mechanism of the body into harmony with the laws of health.

There is no civilized nation in the Western Hemisphere in which the utility of Hostetter's Stomach and Bowel Bitters is so generally appreciated, as in this country. It is not known and appreciated. Throughout the Tropics it is considered, both by the people and the profession, the standard specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the heat of the season, and the best vegetable stimulant in the world.

Beware of the Bitters made of acid and dangerous materials, which unscrupulous parties are endeavoring to foist upon the people. Their name is legion, and the public has no guarantee that they are not poisonous. Adhere to the tried and true Hostetter's Bitters, sold only in glass, and never in kegs or barrels.

CORRESPONDENCE.

FORKTOWN, July 31st, 1879.

Messrs Editors:

There is much news that no doubt should be published for the benefit of the community, and which might act as a warning to the rising generation; but why should your news sheet be crowded with such matter as is demoralizing in its character, when we are blest with the light of the gospel and the healthful tone of parental influence. It is indeed a source of regret that while many efforts are being made to instill in the heart principles of truth, integrity, and morality, that the seeds should have fallen in stony places, without producing any good results.

The continued dry weather, together with parching westerly winds, have produced a very injurious effect upon all kinds of vegetation. The corn is already beginning to turn yellow and not more than half a crop can be realized. Watermelons, potatoes, and other late vegetables are failing rapidly, while the pastures are almost bare and furnish but a poor subsistence for stock.

Peace and harmony, with a few exceptions, prevail in our quiet village, and nothing occurs to relieve the monotony of every day life save now and then may be seen groups of farmers, discussing the prospects of the growing crops. The people of Shad-Point have commenced to make preparations for the approaching camp-meeting, which will begin at that place on the 9th inst. While berries have been shipped from this depot in great abundance, and it is estimated that a amount shipped is six times greater than the number of strawberries. Forktown boasts of a well attended and flourishing sabbath School, an effective and active preacher, and a large and appreciative congregation.

PENINSULAR ITEMS.

SOMERSET COUNTY.

The survey of Crisfield harbor has been completed. Mr. John E. Jackson, of Dorchester county, has been appointed Deputy Collector of the Port of Crisfield.

At a meeting of the Town Commissioners of Crisfield, it was ordered that a suitable building be furnished as a lock up; also that all bar rooms be closed between the hours of 11 P. M. and 5 A. M. The Summer term of the Washington Academy closed on Friday last week. The camp near Crisfield will commence on the 8th inst.

The Presbyterian Church of Princess Anne is being repaired. A movement is on foot to convert the Washington Academy at Princess Anne into a high school.

Last week, Mr. Wm. H. Eow purchased from the heirs of the late Joshua Hall, the farm situated on Back creek in Fairmount district, for the sum of \$5,800.

WORKERS COUNTY.

A literary entertainment was held in Snow Hill on Tuesday evening, under the management of Mr. J. F. Williams, Principal of the Mall High School. The exercises consisted of original orations, declamations, and dialogues. Col. Ephraim K. Wilson, of Snow Hill is announced as a candidate for Congress. Rev. Mr. Cummings visited Newtown

Hurlock's camp commenced yesterday. At the dedication of the new Hall of the Knights of Pythias at Vienna on the 24th inst, the dedicatory services were performed by Dr. G. W. C. Windsor; J. F. Ricker, Esq., and others made appropriate addresses.

On Thursday morning the Junior Editor of this paper, who employs the leverage of a massive Moonshin to keep his head in proper position, was suddenly surprised to find himself looking up with only the muzzlepiece of his favorite companion projecting from his lips. By some means a small cartridge was concealed in the tobacco which, when full ignited, discharged the little mortar, blowing the Pipe into fragments and creating no small sensation among the employees of the office. Fortunately the hidden gunner missed his mark, doing no other damage than stated above. Mr. K. thinks tobacco smokers his purpose is to be informed, and hereafter he will confine himself to the use of that article alone.—Vienna Clipper of 23d inst.

On the 20th ult., Levin Dookins (colored) was drowned at Vienna, while bathing.

We are informed that a most murderous attack was made on a Mrs. Stewart in Dorchester County by her husband on Tuesday of last week. As we are informed, the man is very respectably connected, but, judging from this attack, is a grand outlaw himself. Three years ago he deserted his wife, since which time she has fallen heir to some property. Lately she fled, through her Attorney Charles Colburn, of Cambridge, a bill asking for and maintenance, and hereafter he will attempt to shoot at his wife again but the revolver missed fire, when, throwing it down, he seized the carving knife and cut Mrs. Stewart's throat. Owing to the dullness of the knife he did not make a mortal wound, and it is thought he will recover. Mr. Mills, armed with a chair, ran in and succeeded in driving him off. At last accounts, the would-be murderer is still at large.—True Marylander.

FOR PRESIDENT,
MORICE GREELEY,
OF NEW YORK.
FOR VICE-PRESIDENT,
B. GRATZ BROWN,
OF MISSOURI.

We give below a few extracts of a letter from Judge Black. The letter is replete with sound and wholesome advice, and is well worthy of perusal. It contains an able and comprehensive view of the political situation, contrasts the past record of Greeley and Brown, and clearly defines the duty of Democrats in the impending contest.
The letter states: It is undeniable that the leading measures of the Administration are not only unconstitutional, but anti-constitutional, showing not merely a contemptuous indifference to constitutional obligations, but a total disregard of the rights of the States, and those liberties of the people which the organic law was made to secure. The President's appointment of officers and his general exercise of public authority, under the influence of men who paid him large sums of money, are scandalous outrages, and the effort to defend them has, combined with other like causes to extinguish among his subordinates all respect for those rules of morality which used to be held sacred. While a settled hostility to the rights of the States, and those liberties of the people which the organic law was made to secure, the President's appointment of officers and his general exercise of public authority, under the influence of men who paid him large sums of money, are scandalous outrages, and the effort to defend them has, combined with other like causes to extinguish among his subordinates all respect for those rules of morality which used to be held sacred.

In speaking of Mr. Greeley, he says: The friends of religious freedom, and of civil liberty, who are zealous and able, and who have resisted the church-burners when banded together in the secret lodges of the Know-Nothing order. It is but reasonable to believe that his opposition saved the country from the great danger which was once in view of being ruled by a despotic and infamous organization.
I have looked into his past history only to ascertain what he is now and what he is likely to be in the future. I think I have found out with reasonable certainty how far we may confide in him. I do not believe that, if chosen President, he will keep his word, preserve the Constitution inviolate, execute the laws faithfully, restore the States to their rightful autonomy, protect individual liberty by just trial and habeas corpus, put the military in proper subordination to the civil authority, use neither force nor fraud to carry elections, purify the Administration of Justice as much as in him lies, economize in the expenditure of the public money.

Mr. Greeley's election will not do all that we could wish to free us from the evils of the present administration; but it will begin the process of their gradual extinction. It will give the white people a reasonable hope that the country will be restored. Democrats who disliked Mr. Greeley's nomination have reflected well, and I think will support him with almost perfect unanimity. The thought that a victory would give us everything at once may diminish in some degree the ardor of the struggle, but it will not impair the efficiency of their support, for they are impelled by their utmost exertions by a profound conviction that nothing but his election will save the country from a long period of misgovernment and perhaps the total destruction of our free institutions.

Beauties Horsing for a Greeley Hat.

Two young ladies from the country, aged each about eighteen years, one dressed in a blue suit, and the other in brown, both mounted on splendid horses, were seen passing down Chestnut street yesterday after noon on their way home after spending a few hours in the city. When they reached Twelfth street some animated conversation sprang up between them, and they suddenly gathered up the reins of their steeds and vigorously applied the whip.
The horses sprang forward and went flying down the street, bearing their brave riders as if upon the wings of the wind. Meantime the fair maidens, mounted in jockey style, and flourishing the lash from side to side with might and main. A policeman ran out at Fifteenth and Chestnut, and thinking it a fearful runaway, attempted to check the gay couple, but they swept past him like a whirlwind. He started in pursuit, however, expecting soon to take in charge two mangled corpses. But to his surprise he saw the freeddom animals come to a sudden halt at Eighteenth street, the young ladies retaining their seats with perfect grace and ease. Hurrying to the spot, he came near enough to hear one of the riders say to the other: "It was a tight race, but we won the Greeley victory, and now we will go home and make a good use of the animals and ride rapidly out of town."

A Destructive Rail Storm.

Harrisburg, Pa., August 6.—A terrible storm and hail storm, a mile wide, at 10 o'clock last night, carried off the roofs of the State Capitol, a hotel, Drury's Hall and many private buildings. The gable end of the German Reformed Church was blown down, and thousands of panes of glass broken. The telegraph wires were blown down, and the telegraph office was destroyed. The storm was the most destructive since the war.

CANADA.

General Election—Furious and Bloody.
Quebec, August 6.—The general election for the Centre and West, which took place to-day, in the Centre of Canada, was a most extraordinary and bloody affair. The contest was between the English-speaking population, and the French Canadian population, who were 2500 strong, and armed with revolvers. A fight took place at the foot of Eustache street, and several lives were lost, while the wounded were numerous. The Dominion artillery and a field battery had to be called out, as well as the armed Provincial police. The polls were taken in possession of, and consequently no fair return could be made, but Concheon, the French Canadian candidate, is declared returned.
The English speaking population, it would seem, are to be exterminated by the French, according to statements of the leaders of the French party. It is feared that more bloodshed will take place.

Later.
Toronto, August 6.—At noon yesterday the polling between the two candidates for Quebec centre was equal, and rioting was commenced by attacks on the committee rooms and polling places.
Later in the afternoon a terrible fight took place in St. John's ward, and resulted in the death of David Gaudle, a young man. Three others were wounded by pistol shots, but not considered fatally injured. No further disturbance was reported during last night of this morning.

A Dangerous Fellow-Traveler.

On the 17th instant, says the Leeds Mercury, a gentleman named Danziger left Carlisle by the 1:40 A. M. train for Penrith, a distance of about 19 miles. Just before the train started, a man entered the compartment in which Mr. Danziger and three other gentlemen were seated. The three composed themselves immediately to sleep, but Mr. Danziger, who, fortunately, as the sequel will show, was only going a short distance, did not trust himself to do so. Just after the train had started, the stranger rose from his seat, approached Mr. Danziger, and pulled from his pocket a large clasp-knife, which he opened, and, pointing towards the sleeper, said, "I will kill them first, and then I will kill you."
Mr. Danziger, with great presence of mind, asked the madman to show him the knife, and then remarked that he did not think it would kill him, and thus prevailed on him to give up the weapon. He no longer possessed of it than he felt the madman to the ground, and called the gentlemen to his assistance. They held him down, pulled the communication cord, and the train was stopped, the man removed and given in charge at the Penrith Station. It was discovered that he had just escaped from a lunatic asylum. His violence may be imagined when it is stated that, notwithstanding all care, he succeeded in biting a piece of flesh out of one of the gentlemen's hands who assisted to hold him down.

Daring Robbery at the White Sulphur Springs.

On the 30th ult., at White Sulphur Springs, Mrs. Eustis, whose brother married the daughter of Mr. W. W. Corcoran of this city, started out from her cottage in a pistol at her head and demanded her watch and money. The action of the highwayman was so sudden that she was apparently stricken dumb with terror. Had she been able to give the alarm, her voice could have been heard at the cottage, and the assassin would have been immediately arrested, but her first thoughts were for the safety of her little charge. She handed out the watch, hastily caught up the child, and rushed for the first cottage at hand in Baltimore row, which proved to be occupied by Mr. Curdiss and family. As she reached this timely refuge she fainted. The alarm was given at once, and of course the whole place was immediately aroused, but no trace could be found of the daring robber. A large reward has been offered for his capture. The watch stolen was very valuable, the outer case bearing the owner's monogram in diamonds.—Washington Star, August 3.

New Japanese Coinage.

The new Japanese money, in progress of recoining at San Francisco is a curiosity, and is thus described by one of our California exchanges: "The reverse of the coin contains, in the centre the representation of a mirror symbolical of the rising sun. Above is a circle divided into twelve segments, representing a chrysanthemum flower is a branch of the 'kiri' tree, with three stems, seven blossoms, and three leaves. On the side of the coin is the Imperial Japanese standard, one containing the sun and the other the moon.
Around these devices is a wreath, one side composed of chrysanthemum leaves and the other of 'kiri' leaves. The obverse face of the coin is in the centre the figure of a dragon, the emblem of wisdom and purity, and a symbol of Imperial power. The Japanese inscriptions on the face of the coin around the dragon may be translated: 'Great Sun Shining over Japan, and Third year of peace and enlightenment,' the official designation of the reign of the present Emperor. The special name and value are placed on each coin."

Great Britain.

The United States Fleet.
London, August 6.—The American fleet has left Southampton for Cowes from which port it will proceed to Gravesend. From Gravesend the squadron will sail for the North Sea, where it will remain during the winter, and return to the English Channel in the spring.
Hon. R. C. Schenck will soon give a ball, at which the officers of the fleet and Mr. Stanley will be present.

Railway and Shipping Disasters.

During a severe storm yesterday six sailing vessels belonging to Berwick were wrecked, and all on board were lost. Several railway casualties have occurred recently, by which upwards of twenty lives were lost. Parliament has been asked to investigate the causes of the disasters, and inquire into the general management of the railroads, with relation to the safety of passengers.
General Schenck, General Sherman, and Mr. Stanley, the "Moral" correspondent last night during the session of the House of Commons.
McKintosh Court, the residence of Lady Ashburton, is burned.

Miscellaneous.

Monday was observed as a holiday in London and Liverpool. The Bank of England and Stock Exchange were closed.
The British Foreign Department acknowledges the receipt of letters and documents from Mr. Livingston, delivered by Mr. Stanley to her Majesty's Ambassador at Paris, and Granville says that he has no doubt of the genuineness of the letters.

Late accounts from Brazil report that Indians have invaded the outlying settlements of the Argentine Province, and were committing terrible ravages, burning and plundering in various regions. The Buenos Ayres government was greatly alarmed for its neglect to provide for the defence of the settlers. All apprehension of war between Brazil and the Argentine Confederation has been removed by the Indian invasion.

Three members of a colored Liberal Republican club formed at Montgomery, Alabama, have been seriously maltreated by colored Radicals. One of the members was dangerously hurt, having been stabbed in five places.
Dr. Peters, of Hamilton College, New York, reported the discovery, on the night of July 5, of two new planets belonging to the asteroids.

John C. Fremont has purchased the entire island of Porcupine, of Mt. Desert, Me.

The late Dean of Lincoln's will begethes property valued at 60,000 pounds and is written on a half-sheet of note paper.

President Thiers said, the other day, in the French Assembly, in his address to King William, of Prussia, was an able man than Frederick the Great; that Bismarck was greater than Cardinal Richelieu, and Field Marshal Moltke the most eminent strategist that ever lived.

The revenue collections for July in the Richmond district were about \$400. The "Whip" says this amount was derived almost wholly from the tax on tobacco, and is perhaps the largest amount ever collected in so short a space of time.
The Duke of Cleveland has lately bought an estate in Yorkshire belonging to a Mr. Milbank who is a member of the House of Commons. The money to be paid is as follows: One million dollars down, and one hundred thousand dollars a year.

Valuable diamond fields have been recently discovered in Arizona and New Mexico.
The Attorney General for Ireland has announced in the House of Commons that after a full and most careful conference it had been determined to prosecute a number of the persons charged by Judge Keogh, in the Galway election cases, with having been guilty of undue influence and intimidation. Amongst those to be prosecuted were the Roman Catholic Bishop of Clogher, Captain Nolan, and nineteen Catholic priests.

It is understood that the Democratic-Liberal State Convention of New York will be held in Syracuse during the first week of September.
A public discussion was held at Salem, Va., on Saturday last, on the Presidential question, in which Colonel Mosby advocated the election of General Grant. A Dr. Withers became offended at some of Mosby's remarks, challenged him and Mosby accepted. On Sunday both parties were arrested by the authorities of Warrenton, and held to bail in \$4,000 each to keep the peace. It was reported that they would go to Bladensburg, and have the fight out there.

The Greeley electoral ticket for California is composed equally of Democrats and Republicans.
A number of despatches received from North Carolina up to a late hour seem to settle the question as to the gubernatorial election. Caldwell, the Union candidate, is doubtless elected by a majority variously estimated at from eight hundred to two thousand. The Democrats claim that there have been great frauds, and it is thought that the matter will be contested.

A late despatch to the New York Times says that the North Carolina Legislature stands—all but two counties having been heard from—Senate, 31 Democrats, 19 Republicans; the Lower House, 68 Democrats and 57 Republicans. This will give the Democrats a majority on joint ballot. Five Democrats and three Republicans have been elected to Congress.

Singular Variety of Cotton.

From the Charleston, S. C., Courier.
Dr. T. L. Anderson, of Wilkes county, Ga. has developed by cultivation and careful selection of seed, a variety of cotton which is certainly a curiosity, and may prove a very valuable variety. The cotton is peculiar in its growth, and its fruitfulness and the manner in which the bolls are developed. As described by the Washington "Gazette," in growth and appearance, the weed has the resemblance of the prolific varieties, growing up in a somewhat conical form, though we think the growth is more vigorous than these varieties. The square and blooms grow in clusters, and very thick.
A very large proportion of the bolls are what we call double for want of a better word; that is, they have two seeds in the same square. This tendency to doubling is exhibited throughout the plant, and stalk and limbs of many specimens seem to take on the same characteristic, there being a groove on each side, presenting somewhat the appearance of a double-barrelled gun. This crowding of the bolls does not seem to diminish their size, but they are generally very large and healthy in appearance. Upon one stalk in his field, Dr. A. exhibits fifteen young bolls so closely clustered as to be covered with a single open hand. He has taken great pains during the past two or three years to preserve the seed pure and unmixed with other varieties. He has now several acres planted in this cotton, and we think that his experiment may be of value to himself and the cotton of the country.

Spain.

The Extensive Exploits Against the Insurgents.
Madrid, August 6.—The "Imparcial" newspaper of this city, in an article detailing the operations of the Spanish army in Cuba, since the commencement of the insurrection on that island, says that 18,600 rebels have been killed, 70,000 have been in their submission to the Spanish authority, and 10,000 horses, 6,000 arms, and 3,000 swords have been captured.

Deaths from Choke-damp.

Evansville, Ind., August 6.—Two brothers, named Peter and Matthew George, were smothered in a coal mine at Newbury, by choke-damp. Matthew was smothered in attempting to save his brother, and two other persons, in attempting to save them, came near losing their lives.

ROAD LAW FOR WISCONSIN COUNTY.

CHAPTER 18.
AN ACT TO REGULATE THE PUBLIC ROADS IN WISCONSIN COUNTY.
SECTION 1. Be it enacted by the County Commissioners of Wisconsin County, that the public roads of said county be and they are hereby authorized and empowered to divide the public roads of said county into sections, and for each of said road districts, shall appoint a responsible citizen of said county a supervisor thereof.

Sec. 2. And be it enacted, That all able-bodied male citizens of said county between the ages of eighteen and fifty years, shall be compelled to work on said roads, whenever they shall be ordered to do so by the supervisor of his district, either by verbal or written order; upon failure of any person owing such service to appear at the time ordered, either in person or by proxy, with such tools as the supervisor may require, he shall be liable to the County Commissioners, and should the supervisor fail to bring suit for the collection of said amount, he shall forfeit five dollars of his salary as road supervisor, for each and every such failure.

Sec. 3. And be it enacted, That the Commissioners of said county are empowered to designate how many days each of said citizens shall work in any one year, and how many hours each day; the supervisor of each road district, shall draw up a list of those persons liable to road service, in a book kept for that purpose; he shall also keep a separate list of those who work when ordered, and a similar list of such as fail to obey his summons, which lists shall be subject to the examination of any citizen of said county, when desired.

Sec. 4. And be it enacted, That the supervisors may use any dirt within three feet of either side of the road for repairing such roads; provided, there is no ditch or sufficient drain passing the part needing repairs; where such ditch or drain exists, the [dirt] shall be taken therefrom for the above purposes; in repairing all roads, the supervisor shall have a care, and be required to keep the roads smooth and elevated in the middle of the same.

Sec. 5. And be it enacted, That whenever any ditch or drain may be made upon the side of any road by any private enterprise, and the dirt thereof thrown upon the road side of such ditch or drain, it shall be the duty of the supervisor to require the owner of the same to remove the same, or to pay for its removal; if he fails to do so, the party or parties placing it there desire it for their own use, and will remove it in a reasonable time.

Sec. 6. And be it enacted, That the supervisors shall have the right to draw the water from the public roads, into any private drain or ditch, adjoining or near to the public road, to cut the ditch, or drain across private land or lands, by and with the advice of the County Commissioners of said county for the above purpose.

Sec. 7. And be it enacted, That all new public roads hereafter opened in Wisconsin county, shall be made thirty feet wide well drained and graded, and it shall be the duty of the County Commissioners to reject all such roads, if not put in the most complete order, and the County Commissioners of said county may make at any time, further rules and regulations that may be necessary for the execution of the duties of the supervisors of public roads, not inconsistent with the above.

Sec. 8. And be it enacted, That the supervisors of said county, shall upon receiving their appointment, give to the commissioners, their bond, with good and sufficient security in the sum of one hundred and fifty dollars, for the faithful performance of their duty, and upon failing to keep the roads in good condition, shall be liable to presentation to the Grand Jury for neglect of duty.

Sec. 9. And be it enacted, That the Act shall take effect from the date of its passage.

Approved April 1, 1872.

National Educational Association.

Boston, August 6.—The National Educational Association has commenced a three days' session. The opening addresses were made by Mayor Gaston, Rev. R. C. Waterston, Francis W. Underwood, and Mr. White, president of the association. In the evening an address on the "Methods of Moral Instruction in Public Schools" was delivered by Dr. A. D. Mayo, of Cincinnati.

The association elected E. P. Fross, of Illinois, assistant secretary, and Chauncey B. Stokes, of Ohio, assistant treasurer.

NOTICE TO TAXPAYERS!!

The undersigned would respectfully inform the Tax-payers of Wisconsin County, that they pay the tax for 1872, during the month of August, 5 per cent will be given of the State and 3 per cent of the County taxes. If paid in September, 4 per cent will be given of State and 2 per cent of County taxes.

WILMINGTON PRESBYTERIAN CHURCH.
Rev. Dr. Hamner of Baltimore will preach in this church next Sabbath the 11th inst.

WEST POINT CATHEDRAL.—The examination of candidates for this Cathedral of West Point commenced at Elkton on the 1st inst. The following gentlemen appeared for examination:

John Glenn Townsend, Newtown;
Joseph Alex. Graham, Salisbury;
Edward S. Farrow, Snow Hill;
Blanchard Emory, Centerville;
Charles H. Bonington, Greensboro;
Charles H. Ewing, Rossville, Q. A. C.;
Lawrence L. Brunt, St. Michaels;
Dimmock Smith, Easton;
George T. Melvin, Denton;
John A. Dawson, St. Michaels;
William Collins, Trappe;
Charles Webster Baker, Trappe;
Daniel Tighman, Centerville;
Homer Clay Smith, St. Michaels;
William George Denny, Royal Oak;
Joseph Douglas, Carolina county.

DISORDER.—Quite a number of our citizens were disturbed from their slumbers on Saturday night, by a party of about eight men, who paraded the streets in a boisterous manner and made night hideous with their horrid yells, and vulgar profanity, very much to the annoyance of the community. We trust that the proper authorities will punish to the fullest extent of the law such offenders against the public peace, and thereby prevent a recurrence of such an outrageous scene.

MEETING OF COUNTY COMMISSIONERS.—The County Commissioners met on Tuesday, but little business of public interest was transacted. Being in receipt of the Act of 1872, which act requires Road Supervisors to give bond, the Board passed an order that all Super visors shall file their bonds in the Commissioners' office on or before Tuesday, the 27th inst. Otherwise their office will be considered vacant. A petition was also filed asking for a bridge over Hearn's branch in Nutt's district.

PEACHES.—On Tuesday morning, the teachers and scholars of the Presbyterian Sabbath School, together with several invited guests left the wharf at the old bridge in scows, to embark for William's Point. At an early hour they arrived at the place of destination, and proceeded to enjoy the day in a manner most gratifying to all present. The children, bright with happy faces, fully enjoyed their usual childish amusements; the older members of the party engaged in playing croquet; while others strolled leisurely along the embankment of the river, or while the hours away in pleasant social gossip. An abundance of eatables were provided, and every thing seemed propitious to the enjoyment of the occasion, when a cloud came up early in the afternoon and unexpectedly spoiled the merry throng. The party returned home about 5 o'clock in the afternoon, and expressed themselves as being very much pleased with the day's amusement.

SHIPMENT OF FRUIT.—The amount of fruit shipped from the depot during the present week is very small. The peach crop this season is unusually light, but the price obtained are high, ranging from four to five dollars per crate. Plums command good prices, but apples and pears do not meet with ready sale and are almost a drug on the market. Helay we append an official statement of the number of crates shipped during the week:

PEACHES.	
Monday	26 crates.
Tuesday	155 "
Wednesday	72 "
Thursday	108 "
Friday	163 "
Whole amount	524 "
APPLES, PEARS, PLUMS AND BERRIES.	
Tuesday	22 crates.
Wednesday	22 "
Thursday	46 "
Friday	58 "
Whole amount	147 "

OBITUARY.—On Tuesday last Stephen Bailey, died at his residence, near the Quaker. The deceased was a member of the order of Knights of Pythias, and was buried on Wednesday by the members of Quantic Lodge.

THE CAMP MEETINGS.—The Wood Lane camp-meeting, numbering seventeen tents, closed yesterday. The camp was not generally well attended, but on Tuesday and Thursday the number of persons present was considerable.

The camp-meetings at Sand Point and Columbia School House commenced yesterday.

Local Cleanings.

On Monday and Tuesday we were favored with refreshing showers of rain. Water melons, peaches, pears and apples have been plentiful during the past week.

The rain and our efficient bellows succeeded in cleaning the streets this week. Since our very worthy city fathers have made a few new ordinances for the better regulation of our military affairs, we hope they will have the effect of dissipating the "seven vipers of Cologne."

The lumber trade is unusually brisk. The Orphan's Court will meet on Tuesday.

Local Varieties.

A FERTILE SPANISH.—Glorious and delightful as the summer weather is, its tropical heat is a severe trial to the stomach. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirit depressed. This is what is called general debility. It is a general derangement of all the physical functions, and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sym-

thizes with the body, is gloomy and despondent, it relieves the difficulty, and so brings the whole mechanism of the body into harmony with the laws of health. There is no filled nation in the Western Hemisphere in which the utility of Hostetter's Stomach Bitters as a purgative, corrective, and antibilious medicine, is not known and appreciated. Through-out the Tropics it is considered, both by the people and the profession, the standard tonic. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the weather, being the purest and best vegetable stimulant in the world.

Beware of the Bitters made of acid and dangerous materials, which unscrupulous parties are endeavoring to foist upon the people. Their name is in evidence, and the public has no guarantee that they are not poisonous. Adhere to the tried remedy, Hostetter's Bitters, sold only in glass, and never in kegs or barrels.

CORRESPONDENCE.

WASHINGTON, August 6, 1872.

Measrs Editors:

As you are aware, I took the 3:30 P. M. train on Friday last from your pleasant town, where I have been recreating for a few weeks, and after a ride of two hours and a half, found myself on the wharf at Crisfield ready to step upon the steamer Helen for Baltimore. After waiting for about twenty minutes the steamer moved off and soon thereafter I was enjoying my passage over the blue waters of the Chesapeake; which, thanks to Captain Raynor and Mr. Jones, was exceedingly pleasant.

Politics is at fever heat here. Prior to the assembling of the Baltimore Convention the Democratic press of this city sternly demanded a straight out nomination, but since our delegates met in Baltimore and nominated the philosopher of the "Tribune," the names of Horace Greeley and B. Gratz Brown stand out in artistic splendor at the head of newspaper columns. We consider it our first duty to get rid of this mean plundering set of sneak thieves, and have restored us to a Republican Government, and then we can talk of party—but now it is patriotism. We would be glad here to poll our votes for our next President, Greeley, but we have not been vested with that right. We must content ourselves with the importance of combining all the elements of opposition against Grant, and do all in our power to rescue our imperilled country.

The election news from North Carolina continues to be very conflicting. Latest wires tell us that Caldwell is elected Governor, but prominent men of both parties here say they will not give credence to any news until after the official count. I believe that greater rascality and fraud have been carried on by the Radicals in said State than has ever before been practised by them. I have it from good authority that the continued success of Caldwell, Perry et al were sent to this city by direction of a well known cabinet officer, so that if first reports from the election were in favor of the Democrats, they might stuff the western districts ballot boxes, and thereby out count the Democrats for Governor. How can this be successfully denied? They credit the Democrats with five out of eight Congressmen, and concede them an overwhelming majority on joint ballot in the State Legislature. Does this look like they have elected their Governor? The small-pox has disappeared from our midst.

The Board of Public Works are still cutting up streets and avenues.

PORTTOWN, August 7th, 1872.

Measrs Editors:

My last communication detailed a brief account of the results of the long and dry season. Since then we have been favored with copious showers of rain which have produced a very beneficial effect upon all kinds of vegetation. The languid crops and parched pastures present a more promising prospect, and the heart of the farmer is once more gladdened by the renewal of visible signs of improvement.

Much sickness prevails in this locality among children, which may be owing in a great degree to the continued dry and warm weather. Business is very dull. The whorle berry season will soon close. Apples are plentiful, but the supply is much greater than the demand, and prices are consequently very low. Sweet potatoes are being offered in small quantities, and command good prices.

The Delawarean says: During the heavy thunder storm of the 4th of July, Mr. J. Ford, of Brandywine, was riding home in a carriage with his family, when the lightning struck Mr. Ford's hat, set fire to the ribbon, burnt a portion of the hat, scarred his nose and stunned him, yet no serious damage was done, notwithstanding the horses ran away in the meantime.

At a meeting of the Trustees of the Wilmington Conference Academy for Boys, held on the Camden Union Camp Ground, on Wednesday, the 24th day of July, (the camp meeting going on at the time), the Board resolved to procure a building in Dover, employ a principal and teachers, and to open a school on or about the first of September next. The length of term and course of study were agreed upon. The pursued in this school are expected to prepare boys to enter the junior class of the best colleges in the country. The amount required by the plan to be subscribed before commencing the construction of the building, is fifty thousand dollars. Nearly one half that amount has been secured. It is expected to commence the erection of the buildings early next spring.—Delawarean.

The attorney, Easton Quaker, has been placed on the Lewes and New York route. She can make the trip in 13 hours. On Saturday morning, the 27th ult., the Harvey Woolen Mills, at Milford, caught fire and in less than an hour the whole structure, with nearly all its valuable contents, was a mass of smouldering ruins. The fire ignited in the picker, which was situated in the fourth story. It was burning at the time the fire broke out, and the cause of the fire was a part of a boy, who says there was a piece of wire went through which struck fire and in a flash almost like powder, the fine particles over head ignited and communicated to the roof, and there was no way of reaching the fire. The new building was to save the material. About 400 pounds of wool and 2500 yards of goods, much of the latter unfinished, was saved. By the time this was done the whole building was in conflagration, the entire machinery falling a prey to the devouring flames. Messrs. Hoffecker & Brother, who had recently doubled their machinery, thus adding largely to their loss. The straw stacks and two barracks were consumed. The loss of P. F. Causey, in the building, \$6,000, insured in the Kent County Company for \$4,000. Hoffecker & Bro's loss in machinery, \$8,000, wool, \$2,000. Insured in same company for \$3,000.—Sussex Times.

A CARD.

Newspapers generally are so well laden with advertisements, that it is calculated to deceive and mislead the unwary, that people have come to regard them as mere puff and flattery; hence, they pass them by oftentimes unnoticed. But notwithstanding this fact, it is well sometimes to employ the bump of caution and discriminate between the good and the bad, for by so doing one may get great bargains when and where they are least to be expected. This will apply with peculiar force to the EMPORIUM near the Depot, at Porttown; where may be found a large stock of goods of all kinds usually kept in a well assorted country store, and which are being sold so cheap that customers are astonished when the prices are told them. The goods are being sold at lower figures than have been known for ten years, and all staple groceries and dry goods in proportion. Our markets have long been stocked with patent medicines, much of which, instead of curing disease, feed the flame that induces the malady. But at this juncture, "Mother Noble" gently steps in with her "Healing Syrup," and offers it on equitable terms. "Try this bottle," and you will soon see the results. It is a simple introduction has secured for her syrup enormous well worthy the attention of a "Doubting Thomas." A large number of testimonials can be gathered where others have been accomplished. The medicine was introduced here about January of the present year, since which time over 150 bottles have been sold to less than 100 persons. The only failures known are in the cases of two aged men, who were disappointed because it did not restore them to the bloom and vigor of early manhood.

cannot be anticipated, and we are therefore generally unprepared to record exact moment, which frequently occurs unexpectedly. The use of a

keeper is at hand. In a room where the beats of a clock's pendulum can be heard or seen, it is easy to count the time between the lightning and the thunder.

Within the time can be approximated. With practice, the beat of sound can be counted, and the solubility of wax without the aid of a time clock which practice has been of great service in astronomical observations. With practice counting seconds with the one end and of a watch until the count agrees, the "looking at the clock" for a minute can be approximated.

A simple *Metrochron*, made by attaching a small weight to a string 39 in. long including weight and suspender from a pivot, will vibrate either way one second and the beats can be read. The beats are not counting seconds, differ more than one second in a minute by which means the time between lightning and the hearing of the thunder can be closely approximated.

Kentucky Wonders.

A correspondent of the *Taylor* (Ky.) *Index* gives the following account of a natural bridge up in the mountains which, in some of its proportions, least, exceeds in curious interest celebrated Virginia geological contour of the same nature. In the Great Smoky Mountains, there is a curious one called the "Natural Bridge," which repays a visit to those attracted

a street called Little Carry, which runs into Little Sandy river. This bridge is 210 feet in the span, 198 feet in the twelve feet wide, and five feet above the middle, and thirty feet below at the ends, and is supported by a single level on the top. One hundred feet below it there is a cascade with a fall of twenty-five feet, and two miles distant there is another cascade with a fall of 200 feet. From the bottom of the first cascade the river runs for a distance of height of four feet above the river, making its entire height 300 feet. The sides of the ravine are so rugged that were it not for a natural stairway for a person on the top of the bridge which is 100 feet above the river, it would be 100 miles. It is interesting to compare the dimensions of this bridge with the celebrated Natural bridge of V.

The bridge is not the only wonder of the neighborhood. In the vicinity are two streams, known as Sinkin and Little Sinkin, which are said to be the only ones of their kind in the world. They are said to disappear. There is also an Asian well which furmly rises up about four feet high, of the shape of a common barrel, but having been constructed by stones and bricks of the kind which the persons engaged in finding out its depth, it was raised to the height of a foot above the top of the pool. Some years ago, in the month of August, the writer encountered an enormous rattlesnake crossing the road near the bridge. In length he reached across the road, and in his mouth he carried a small rat. The head of the body about as much as ordinary chubb. I tied my horse to some good rocks, and tried my best to kill him; but my volley only caused him to make the woods ringing with his rattles. Not liking the look of his eye, I made my horse and made a flank move, leaving him to follow me. He followed the field. I wild an old citizen what he seen. He said : "Signs of that have been found there for twenty years. I suppose he lived in there for twenty years from the bridge."

The supreme excellence in character, manner, style, and in all other respects, is in the hands of the artist.

In the army at Sir Walter's seat at Abbotsford is the very market of that redoubtable outlaw, Roy.

The last volume of the "Secrets of the Wilderness" found at the Tailor's establishment beyond a doubt that the Bazaine intentionally sacrificed \$1 million.

It is said when Audubon, the distinguished naturalist, was a resident of Henderson, Ky., his inseparable companion was a wild turkey, which would follow the great naturalist in his walks, and remain in his study, would a dog.

CARRIAGE KILLED.—During the past week the engine on the Washington and Annapolis Railroad killed three cows.

RAVING MURDER.—The Annual Meeting of the Board of Trustees of the Washington and Annapolis Railroad was held on Wednesday and Thursday at the National Meeting House, about six miles from Annapolis.

ANNUAL MEETING.—Thomas H. Perry, son of George Perry of Quantico, was appointed to the vacant trusteeship of Washington College, Chestertown, Kent county, Md.

CONVICT.—On Wednesday evening, the 15th instant, at his residence in the town of Quantico, Md., Walter A. Smith, aged about 70 years. His funeral exercises were observed on the 22nd inst.

REPUBLICAN CONVENTION.—The Republican Congressional Convention for the First Congressional District, will convene at this place on Monday, September 10th.

THOMAS A. SPENCE.—is prominently spoken of as the probable choice of the Convention.

ACCIDENT.—On Thursday last Mr. Robert Morris, residing in the district of Columbia, was killed in his car while attempting to cut a portion of the track in which his horse became entangled, when the knife penetrated the muscular part of the arm. The wound was dressed by Dr. S. P. Deane.

THE DELMAR CAMP-MEETING.—This camp-meeting closed on Friday. The attendance was quite large, especially on Sunday, Tuesday and Thursday evenings, and it is quite probable that the meeting has been productive of much spiritual good.

DOG TAX.—It is very gratifying to know that the revenue of our town is being materially enlarged by the collection of a dog tax. The law requiring that all dogs wear collars to indicate the tax has been paid, otherwise the Sheriff is empowered to destroy them. We notice a few canines have already been arrayed in new collars, but the vast majority are yet devoid of these ornaments. Let the authorities rigidly enforce the law, for it is a just and good one.

ACKNOWLEDGMENTS.—We are under many obligations to Mr. Ezekiel Hitch, for a basket of splendid peaches and apples. They were very fresh and delicious, and we have seen this season. We congratulate Mr. Hitch on his success in growing such fruit.

WE HAVE ALSO TO THANK Mrs. Dr. Cathell Humphreys, who gave us a most agreeable treat the other day by presenting a large basket of grapes of several varieties, artistically and tastefully arranged, grown in the garden at her residence in this place. The grapes were really delicious, and we enjoyed them with a keen relish.

PRIMARY MEETING.—The Primary meetings held in the various districts of the county on Saturday, were fraught with much greater interest and were more largely attended than was anticipated.

IN SALISBURY DISTRICT the meetings were held in large numbers, and the polls were almost constantly crowded. Both parties presented with a lively interest the merits of their respective candidates, and the day was one of general commotion and excitement. Early in the afternoon a disturbance was caused by the attempt of a gentleman residing in Trappe district, to vote in this district.

UNDER THE EXCITEMENT of the moment a few angry words were exchanged, which almost culminated in a free fight. Later in the day a fight took place between two aspirants for legislative honors, which resulted in a few bloody marks about the head, and other slight injuries. About this time our Ballot arrived, and by his interposition separated the combatants.

THE FOLLOWING IS A LIST of the delegates from the several districts:

Salisbury.—Richard Venables and T. L. Jackson.

Quantico.—V. F. Collier and S. B. D. Jones.

Trappe.—Levin J. Dashiell and Andrew J. Hopkins.

Person.—W. Sydney Gordy and Wm. White.

Dennis.—Wm. L. Laws and King V. White.

Huntington.—John L. Morris and Alexander Malone.

Salisbury.—Geo. W. M. Cooper and Jacob Mills.

Sharpsburg.—Wm. T. Darby and Isaac Taylor.

Pittsville.—Ritchie Fooks and James H. West. Contestants.—Geo. Messick Isaac N. Hearn.

MEETING OF COUNTY CONVENTION.—According to previous announcement, the delegates to the County Convention assembled at the Court House, on Tuesday afternoon, at 3 o'clock.

THE MEETING WAS CALLED TO ORDER by G. W. M. Cooper, when Richard Venables was elected Chairman, and W. S. Gordy, Secretary. A motion was then carried, to admit a reporter from each paper in the county.

CREDENTIALS OF DELEGATES were then presented, when it was moved by G. W. M. Cooper, that a committee consisting of one delegate from each district be appointed by the Chair, to consider and report upon the credentials of the delegates. The Chair then appointed the following gentlemen as a committee on credentials:

Thos. L. Jackson, Barren Creek, S. B. D. Jones, Quantico; T. W. H. White, Trappe; W. R. W. B. Cooper, Person; W. L. Laws, Dennis; Isaac Taylor, Sharpsburg; Levin J. Dashiell, Trappe; Jacob Mills, Salisbury; and J. Morris, Netherland.

THE COMMITTEES REPORTED that the Sixth and Eighth districts were each represented by one delegate, and that the delegate present should call the full vote of his district; in the Fourth district, there being two sets of delegates present, the vote of delegates be counted to a half each.

IT WAS THEN MOVED that the report be accepted, which elicited some discussion on the part of those whose view did not accord with the report of the Committee. Mr. Fooks requested that the credentials from the Fourth district be read. To the credentials referred to, was appended a protest against the admission of Ritchie Fooks and J. H. West, for the following reasons: 1st. Premature closing of the polls; 2nd. Illegal voting of non residents; and 3rd. Votes cast by Republicans. The protest was signed by the President and Secretary of the Primary Meeting. After some pertinent remarks in regard to the credentials from Fourth district,

The announcement of the opinion by the Chair seemed to create some dissatisfaction among a portion of the members, and the delegates from Trappe, Quantico, Dennis, and the delegates whose seats were contested, immediately withdrew from the convention.

THE NOMINATED DELEGATES to the Congressional Convention being in order, the following gentlemen were nominated, and unanimously elected:

James R. Ellegood, Salisbury; Thos. H. Walston, Person; and Thos. W. H. White, Trappe.

THE NAMES OF G. W. M. Cooper, Parson; T. W. H. White, Trappe; and James L. Bedworth, were placed in nomination as delegates to the State Convention in Baltimore. It being moved that the vote be taken by ballot, Isaac Taylor and I. H. Hearn were appointed tellers. Only one ballot was found necessary, and the Chair declared Messrs. Cooper, Bedworth and Gordy duly elected. On motion of T. W. H. White, the Convention adjourned sine die.

THE PROCEEDINGS OF THE CONVENTION were marked with order and decorum, the decisions of the Chair were made with strict regard for impartial justice, and with the exception of the withdrawal of a few of the delegates, the greatest harmony and good feeling prevailed.

LOCAL CLEANINGS.

A HORSE BELONGING TO Mr. James Cannon died on Tuesday from lock jaw. The Orphans' Court met on Tuesday, and, after going through the general routine of business, adjourned to meet next Tuesday week.

A REFRESHING SHOWER OF RAIN fell on last Wednesday, and another on Thursday night.

THE WATER IN THE MILL PONDS around Salisbury is unusually low, very much to the detriment of millers.

SOME OF OUR FARMERS have commenced to sow fodder.

THE WATER MELON SEASON is nearly closed. Owing to the enormous rate of freight, very few have been shipped on the railroad.

THE WORK OF DIGGING OUT THE RIVER will be commenced next week. It will not be long before the contractor will begin the work of erecting a new iron bridge over the river.

A MAN BEARING THE COGNOMEN OF LOWE was arrested at the Delmar camp meeting on Sunday by constable Bradley for selling whiskey on the ground during that day.

LOCAL VARIETIES.

A PEARL OF THE SEASON.—Glorious and delightful as the summer weather is, its tropical heat is a severe trial to the vital powers. Even the strongest are sometimes overpowered by its effects.

THEY WERE VERY FEW of this condition of the body is "general debility." Now general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach has lost its power of digestion, the appetite is poor, and the spirits depressed. This is what is called general debility. It is a general derangement of all the physical functions, and requires as a remedy a medicine that will regulate them.

THE CRISFIELD LEADER says: The Commissioners appointed by the late Legislature to define Crisfield harbor completed their labors on Thursday. They found that the Oyster packing houses of Messrs. C. C. Gardner, Nathaniel Dixon and Thomas Miles, and the foundation of Mr. Rice's new house, as obstructions, and would have to be taken up; also the North wing of the spot wharf, and the foundation of the Oyster packing house being built by Messrs. T. H. Book & Co. The Commissioners, however, in their report will recommend that none of the obstructions be removed under twelve months, or until after the coming Oyster season is over.

TALBOT COUNTY.

ON THE MORNING OF THE 13TH INST. the barn of Mr. Thos. Haddaway, located on the Bayle farm about half a mile from Trappe was destroyed by fire. The barn contained 800 bushels of wheat, and a smaller quantity of other kinds of grain. Loss estimated at \$1500.

CAROLINE COUNTY.

THE DENTON JOURNAL has been purchased by Wm. Henry Legg, Esq., of Kent Island.

MR. S. H. HONEY is having built at Greensboro, a schooner of about 100 tons burthen.

GEORGE CHRISTY, A DANE living in Hunting Creek Neck, near Preston, in this county, was seriously wounded in the abdomen on Saturday night the 10th inst., by his wife or a young man living with them—her son or a former husband.

IT APPEARS THAT CHRISTY and his wife were quarrelling a short distance from the house, when he struck her. She returned to the house, saying he would never strike her again. The report of a gun was soon heard and Christy was found calling for help, by a man passing the road. Christy was shot through the left side of the abdomen, entering the left side of the abdomen making a painful and dangerous wound. His recovery is considered doubtful. Christy thinks the boy shot him, but his wife declares she did it. No arrests have yet been made. Christy was in the Confederate army during the rebellion and lost one eye during one of the engagements.

CRIL COUNTY.

A COWHIPPING SPOT occurred at the Mansion House, Newark, Del., on Wednesday last, in which a Miss Bryant, of this county was the victim, and the wife of an unfaithful husband of Lewisville, Pa., was the castigator. Cecil Democrat.

AT A MEETING OF THE BOARD OF SCHOOL COMMISSIONERS of this county, it was ordered that the sum of \$1,600 be appropriated to building new school houses.

ON THE EVENING OF THE 10TH INST. a large barn and wagon house situated near Oxford, and belonging to John Wilson were destroyed by fire. The barn was well filled with farming utensils. Loss estimated at \$7,000.

DELAWARE.

THE NEW M. E. CHURCH at Lewes will be dedicated on the 25th inst.

TRAVELING ON THE DELAWARE AND NEW YORK STEAMSHIP LINE is rapidly increasing. The Democrats of Wilmington have nominated Joshua Simms for Mayor.

A NEW TEMPERANCE SOCIETY known as the True Templars, has been organized in Wilmington.

A REWARD OF \$300 is offered for the arrest of Patrick Malady, for the murder of Abraham Perkins, in Wilmington, on the 4th of July.

ON THURSDAY LAST the colored soldiers of Delaware who served in the recent struggle, held a grand reunion meeting at New Castle.

A CARD.

Newspapers generally are well laden with advertisements that are calculated to deceive and mislead the unwary, that people have come to regard them as mischievous and fictitious means, they trust them of little value. It is well sometimes to employ the bump of caution and discriminate between the good and the bad, for by so doing one may get great bargains when and where they are least to be expected. This will apply with particular force to the EMPORIUM near the Depot, at Salisbury; where may be found a large stock of goods of all kinds usually kept in a well assorted country store, and which are being sold so cheap that customers are astonished when the prices are told them. Hosiery, as being sold at lower figures than have been known for ten years, and all staple groceries and dry goods in proportion. Our wares have long been stocked with patent medicines, much of which, instead of curing disease, feed the flame that induces the malady. But in this juncture, "Mother Noble" gently steps in with her healing balm, and offers it on equitable terms. Try this balm, and if no good results follow its use, here is your money back. This simple introduction has secured for her syrup testimonials well worthy the attention of a physician. Thomas' A. Large number of testimonials can be gathered where cures have been accomplished. The medicine was introduced here about January of the present year, since which time over 100 bottles have been in proportion. The only failures known are in the cases of two aged men, who were disappointed because it did not restore

The late story about the return of Polar Bear Disco, Greenland, is described in the *W. A. B.*

An interesting young lady was arrested in Kansas City a few days ago, and gave the following account of herself: "I was born in Virginia, and when I

young man run away with a circus, performing for several years as a feathered gymnast she learned the shoemaking trade, passing herself off as a man. When she tried blacksmithing awhile, she then rode horses in the army. Being a prisoner she revealed her sex, and she got away. Since then she has been rough, quarrelling, gambling, drinking, fighting, working on a railroad, getting in and out of jail, etc.

A happy couple started on their honeymoon recently from Peoria, Ill., and a blushing young bride thrust her

out of the car window as the
started off, and after looking
for a moment or two, suddenly
her head back with a quick exclamation
and buried her face in her hands.
The loving, frightened husband sought
to learn the cause of her dismay, and of
feebly consolation. After a considerable
amount of coaxing, he elicited the
of the trouble, and she told him

quite a gloom over the entire household.

In one of the battles of our late

war an officer, one Major Morrell was shot through the body. The bullet passed out at the back near the column, and, strange to say, he recovered. It was thought a sequel to the calamity. In the major's vest pocket there was a gold pen and pen-case; the unlucky ball struck him. A fragment of the pen and case was carried by the ball into his body, but the ball came alone. Some weeks ago a swelling appeared on the neck of Major Morrell, which was supposed to be a tumor; but after a while a piece of the pen worked its way out, and the

The fall of rain is much influenced by the forests. It is stated by scientific observers that a few years ago it rained in Lower Egypt. The north winds passed without obstructing a surface bare of vegetation, since the planting out of large trees an obstacle has been interposed to the current of air from the north. It thus checked accumulations, dilations, and yields rain. In Upper Egypt the same effect has been produced by the planting of trees.

prevalent, have almost entirely
disappeared.

An illustration of the stringency
the Russian passport regulations have
recently given in the St. Petersburg
Gazette. The village of Volotchok
in the Galician frontier, was a week

ago surprised by a fire. Of course, there was no engine in the place. From a feeling of neighborly charity, the Austrian town of Brody despatched a corps of firemen with all speed to the assistance of the distressed Jews. They made for the frontier at a gallop, but on arriving there they were stopped by the soldiers. The gruffly reminded of their omission to provide themselves with passports for the cultural trip. They could not, therefore, be permitted to cross the frontier, but had to return to Brody, where many of them were killed in the war, many being killed up by the
