FROSTBURG STATE COLLEGE, FROSTBURG, MARYLAND

APRIL 16, 1980

Fiscal Committee Gives OK To Fee Increase

The Fiscal Committee, last week, gave its approval to the proposed increase of the Athletic Activity fee from \$44 to \$64 per year. Tom Hawk, Chairman of the committee stated that they felt the general budget and fee increase are reasonable given certain assumptions. The text of the Fiscal Committee report is as follows:

"The Fiscal Committee has reviewed the proposed increase in the Athletic Fee from \$22 per semester to \$32 per semester for the Fiscal Year 1980-81. The Committee finds the increase reasonable and justified, GIVEN the current assumption that varsity athletics and intramural/recreation activities are an integral part of the college's instructional program.

The Committee would like to point out the fact that there is a planned excess of \$10,000 in the projected Athletic Fee revenues over the budgeted expenses of \$194,000. It is the intention of the Athletic Director to treat that excess as a contingency fund.

The Committee notes with significant concern the fact that the financial support for the equipment and supplies portion of the athletic activities budget is at a level of adequacy and completeness which far exceeds that available to the equipment

and supplies portion of the instructional portion of the college's budget.

The Committee notes with concern that there exists no check on the spending authority of the Director of Athletics. Unlike the department chairmen who must answer to the Academic Dean, the Director of Athletics must answer to no one at the college.

The Committee notes that telephone, mailing, and duplicating costs (about \$13,000) associated with varsity athletics and intramurals are not included in the proposed Program 18 budget. The Committee would like to see these costs covered by the Fiscal 1981 Program 18 budget and recommends that all revenues in excess of the budgeted \$194,000 be applied to the telephone, mailing, and duplicating costs of varsity athletics and intramural activities. It is the intent of the Committee that the \$10,000 saved be distributed within the instructional budget.

The Committee also wishes to point out that because the Director of Athletics knows the schedule of athletic events 1-2 years in advance, he may request state vehicle usage far in advance of when other members of the college's instructional programs know their state vehicle

needs. The Committee believes that this gives the Director of Athletics an unfair advantage in access to state vehicles at the expense of other uses which may have a higher and more important priority to the instructional budget. The committee believes that this advantage should be eliminated. Further, the Committee recommends that beginning in Fiscal 1982 any state vehicle usage chargebacks for varsity athletics should be charged to Program 18 rather than to the Department of H.P.E.R.

Consistent with the Committee's findings in the Faculty Workload Study, the Fiscal Committee recommends that the salaries of the Director of Athletics and the trainer be paid for out of Program 18. These two positions would be required to teach a minimum of three semester hours each and a maximum of six semester hours each in the Department of H.P.E.R. The salary costs could be phased in one position at a time, freeing up one faculty position each year to convert the current two full-time contractual positions into regular positions. The two positions totally should add about \$8 per semester to the athletic activities fee.

Finally, the Committee recommends that if and when the

Elections Begin Today

Elections for SGA - President and, CCB - officers will take place on April 16th and 17th, but your choices of candidates will be severely limited.

The only competition this year will be between Keith Wilson and Rick Brindle, both running for CCB president. Terry Smith is running unopposed for CCB vice president and Lauren Kramer is likewise unopposed for SGA president.

David Hovermale, chairman of the Elections and Nominations Committee, feels that competition is vital to the electoral process. When asked about the lack of competition, Hovermale said, "It doesn't say much for the students, this lack of involvement; it is either apathy

or they think she's doing a good job."

Another factor in the lack of participation, according to Hovermale, is the lack of publicity; this he blames largely on the nominations committee.

When asked about her lack of opposition Lauren said she feels that it's detrimental to our democratic process. "Besides," she says, "I like competition; as a matter of fact, I thrive on it." She thinks she is unopposed because she has done the best possible job; however, she feels she needs to improve relations with the administration.

The polls will be open on Thursday from 9 a.m. to 5 p.m. in the Lane Center lobby.

Alcohol Policy Revoked

Residents of Annapolis Hall will no longer enjoy the privilege of the college alcohol policy. Effective until the conclusion of the semester, the dorm may not have any functions involving alcohol.

"During one weekend (14, 15, and 16th of March) and on Thursday March 20, we had 2 parties that Campus Police, the Night Assistants and R.A.'s had to deal with," said Phil Tripp.

As of results of these violations, 5 people have been referred to the College Judicial Board. One case which was already heard resulted in disciplinary probation for the coming year. Two of the five students have been advised that their housing contracts have been reviewed

and will be terminated effective this fall. While these termination decisions involved past violations they indirectly resulted from the keg party.

While as a dorm, Annapolis can not have any more functions, students can still consume alcohol in their own rooms. Private parties must be confined to the student's room.

Phil Tripp feels the privilege was abused blatantly before it was revoked, and the stated House Council understands the necessity of the revocation. Section 9 of the Alcoholic Beverage Policy of the College states that this policy may be "revoked due to violation in its implementation or circumstances related to its use."

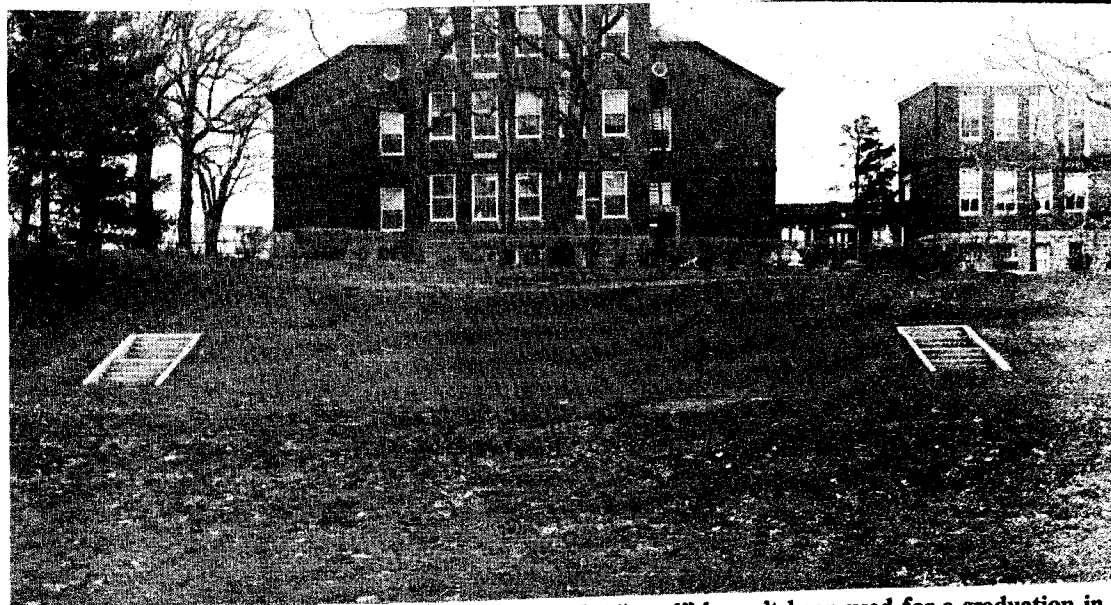

Information Sought In Hit And Run Accident

On Saturday night April 12 on College Avenue in front of Old Main, Orlando Mozzano was involved in a hit and run accident. The driver of the car hit him and did not stop to take the responsibility of the accident.

Orlando is in the hospital with multiple fractures along with bumps, bruises, and scratches.

As of now, the driver has not stepped forward and no one has helped to identify him. We would appreciate any information concerning this accident- the names of any persons, who are willing to give us some information, will be kept confidential.

Please contact Campus Police, Frostburg City Police or Ronnie Mozzano at 689-3148. Any help will be appreciated.

Although a favorite field for mud football players, the "quad" hasn't been used for a graduation in three years due to inclement weather and ground conditions. This year, due to the ground conditions, commencement exercises have already been scheduled to take place in the gym.

Editorial

"If elected SGA president, I promise to . . ." This year we are spared such elighting rhetoric, but it appears to be a mixed blessing. While in the past SGA campaigns tended to be somewhat less then heated, they at least existed.

Last year's revised constitution converted the election of most SGA officers to appointment by either the president or the House of Representatives. With this year's lack of contest, conceivably our next SGA president can be elected by simply voting for herself. Where is there room for THE student voice?

Without conflict, our society is static. Has our SGA failed so miserably at generating student interest in their own government? Or have they just exerted an inadequate amount of effort towards election publicity? What other conclusions can be drawn from a one-candidate election for the highest student office on this campus?

Over the years we have become accustomed to the apathy surrounding CCB elections and most of the offices for SGA. Because of the lack of available candidates, the organizations have usually resorted to appointment of vacant offices. If this trend continues, we will one day be appointing an SGA president rather than representatively electing one.

Letter to the Editor

Dear Editor,

The Budget Allocations Committee of the SGA would like to inform student clubs and organizations of the importance of maintaining a budget. A Big Six organization overspent their budget, and a major event was almost cancelled as a result. The BAC felt that in the interest of the students emergency

steps had to be taken to insure that the Bluegrass Festival would be held this year. We hope such a situation will not occur again.

Sincerely, Members of the BAC
George Freyman
Mike Milligan
Robin Schaeffer
Teresa Furnari
Gene Tomas

State-To-Date is a weekly publication of the students of Frostburg State College. Opinions expressed herein are those of the author and do not necessarily reflect those of the College or subdivision thereof. The staff encourages input and response from the readers. Letters to the Editor must be signed (writer's name withheld upon request) and should not exceed 200 words. Free advertising is available for registered campus organization on a space available basis. Deadlines for articles and letters is 4:00 p.m. Friday prior to publication; deadline for advertisement is Thursday 4:00 p.m. prior to publication. All material submitted automatically becomes the property of State-To-Date. State-To-Date is located in 232 Lane Center, phone 689-4326.

National News

A surprise coup d'etat led by Samuel K. Doe toppled the regime of President William Tolbert Jr. in Liberia on Saturday April 12.

The African nations new leader, a 28 year master sergeant, has said that "everything is under control" and has already appointed a cabinet consisting of soldiers and civilians. Doe has also appointed a six-member military tribunal to try a number of former senior government officials on charges of "rampant corruption" and "gross violations of human rights."

President Tolbert, his son, and two of his aides were killed in the coup.

In a meeting that took place on Saturday April 12, the United States Olympic Committee voted to boycott the summer Olympic Games which are to be held in Moscow this upcoming July. The official vote to boycott the Games by the United States has greatly increa-

sed the possibility of cancelling the Summer Games, the International Olympic Committee has stated, on the grounds that "the IOC does not want to see any half-baked Games."

The IOC also said that in order for the Games to be cancelled the U.S. would have to obtain boycott pledges from Great Britain, France, New Zealand, West Germany, Canada, and Austria.

In an effort to effectively subdue the elusive and determined Afghan rebels Soviet generals in Afghanistan are asking for additional troops. The State Department has estimated that there are between 80,000-85,000 troops stationed there with another 30,000 massed along the borders. More recent intelligence reports form the area claim that the Soviet military strength in Afghanistan has already exceeded that of 100,000 men, with more on the way.

Allegany Crop Walk 3rd Highest Total in Maryland

United Campus Ministry is pleased to announce that the Allegany County CROP Walk (held on September 29, 1979) raised a final total of \$4,867.66 for the alleviation of world hunger. This figure was the third highest total in the state of Maryland. Only Carroll County

(\$7,557.50) and Beltsville (\$6,964.11) contributed more monies. Significantly, the college community with United Campus Ministry as the thrust, raised more than 35% of the money, or approximately \$1,800. We ought to be proud of this achievement.

Phi Beta Sigma For Muscular Dystrophy

On Saturday, April 19, 1980, from 12:30 p.m. to 5:30 p.m. Phi Beta Sigma Fraternity, Inc., will present Sportstacular to benefit Muscular Dystrophy. Games and activities will be both fun and competitive and will be played in the multi-use room of the Lane College Center. If weather is permitting all events will be moved to the track area of Frostburg State College.

Prizes will be awarded by the following sponsors: McDonald's, Knights of Columbus, Kings and Pioneers. Awards will be presented to individuals, the all around individual, groups, the all around group, and the person who brings in the most pledges.

Others wishing to participate in the events should form a team of four, contact a member of Phi Beta Sigma Fraternity, and pay a \$5.00 entrance fee on or before Friday, April 18th. At that time further information and details will be provided.

Today On "Who Cares?"

by R.U. Apathetic

Today on "Who Cares?" we examine...

WHAT'S IN A NAME: The English muffin is popular in America, but is virtually unknown in England, as is Russian dressing in Russia. Similarly, turkeys are not Turkish—they were brought to Europe from Mexico by Spanish conquerors, and the British called the birds "turkeys" because they resembled Turkish guinea fowl. Also, dry cleaning is not dry—actually liquid solvents such as petroleum and fluorocarbon are used to dissolve dirt—and, in football, "the ol' pigskin" is almost always made of cowskin.

TAKING IT WITH YOU: We have all heard that you can't take it with you, but Yousouf Ismaelo a 19th century Turkish wrestler, proved that this is not true. During the course of his wrestling career, Ismaelo had all of his winnings converted into gold coins, which he wore at all times in a belt around his waist. When a ship he was on sank in 1898, Ismaelo drowned, even though he was a good swimmer, because he was dragged down by the weight of the gold belt, which he refused to remove.
cont'd on p. 6

FACULTY PROFILE:

Dr. Robert Hill

He has been described as "probably the best instructor on campus." He is an instructor, economist, volunteer, and cattle rancher. Over 200 students signed a petition asking him to reconsider his decision to leave F.S.C. at the end of this semester. With this much support, Dr. Hill has agreed to stay;

Last August, Dr. Hill was asked if he was interested in a teaching job at Frostburg State College. Admitting that he had never heard of Frostburg, he nevertheless expressed his interest in the open position.

Soon finding himself in the wilds of Western Maryland, Dr. Hill learned that the position in the business department was created by the departure of Joe Towell. Dr. Hill agreed to fill the vacancy, intending to stay for only one year.

The students that he taught though were soon glad that he had come to Frostburg. Dr. Hill some said, took economics out of the text book and puts it into real life. "He uses his own experiences to back up what he teaches," one student remarked. Another said, "he makes

it interesting and that makes it easier to learn."

Dr. Hill admits that he teaches because he enjoys doing it. Indeed, with the many things that he has been active in, in the past, teaching is only one of the many things he can successfully do.

When the students became aware that Dr. Hill planned to leave at the end of the semester, a petition was circulated and signatures were gathered. In just a few days, over 200 signatures were on the petition.

To thank all those students that signed the petition, Dr. Hill threw a "petition signers party." At this party, he announced that he would be willing to stay, and teach, for another year. Those present were overjoyed.

When asked if the students kept signing petitions every year, would he stay every year, Dr. Hill stressed the fact that he was only filling a position vacated by Mr. Towell.

As most people will tell you though, anything's possible, and there is little doubt as to whether or not Dr. Hill is welcome to stay.

Pre-Registration This Week

Pre-registration for continuing students for Fall 1980 will be conducted April 14-25. Pre-registration materials will be distributed to the dormitories for Resident Hall students. Off-campus students are to pick up their packets at the Registrar's Office, weekdays between 8:30 a.m. - 4:30 p.m. **ALL STUDENTS ARE REQUESTED TO SIGN THEIR COURSE REQUEST CARDS.** It is recommended that they see their advisors before pre-registering. Deadline date for submitting the course request card is Friday, April 25.

Pre-register. Continuing students who do not submit course request cards by April 25, will not be permitted to register until Wednesday, August 27, the first day of classes, at the Registrar's Office. Students who are undecided about returning for the Fall 1980 semester should pre-register, but notify the Registrar's Office as soon as possible after a withdrawal decision has been made.

Bills for continuing students will be mailed to the permanent address during the week of July

21. Any student who pays this bill by August 14, will receive his academic class schedule card and other materials by mail at his permanent address. Any student who does not pay by mail, may pay in person at the Business Office and pick up his schedule at the Registrar's Office. On Sunday, August 24, students who pre-paid but did not receive their schedule in the mail may pick up their materials at the Business Office. On Sunday, August 24, and Monday, August 25, bills may be paid at the Business Office, 2nd floor of the new Administration Building, and schedules picked up at the Registrar's Office, ground floor of the new Administration Building.

A reminder that students who are planning student teaching or to be in Internships in the Fall, must pre-register for these courses and must complete the registration procedures in order to be properly registered for these programs.

The Registrar's Office is urging all students to keep their local and permanent addresses updated at that office.

Men's Tennis Could Be Dropped

When the tennis season begins next spring, it is possible that it will start without Frostburg State College.

At the end of the present men's tennis season, coach Ken Kutler will step down as coach. According to the H.P.E.R. Department recommendation, released earlier, unless a new coach is found before the season begins, the team will be suspended.

The search is now on for a new tennis coach. Coach and Athletic Director admits that although a new coach hasn't been found, the department is still looking and has several possibilities.

ibilities.

The first of these possibilities is that a member of the P.E. department will accept the coaching position. This, unfortunately, is not a very likely occurrence as most of the department member's schedules, with both teaching and coaching other teams, are full at this time.

Another possibility is a member of another department accept the position. This again would depend on the fullness of his schedule; he would need the permission of his department head.

The final possibility is the hiring of another person. A request has been submitted to another person. A request has been submitted to President Guild, asking for the added position. If the proposal is approved by President Guild, and by the P.E. department, another person be hired by the P.E. department. This position, according to Kutler, would probably consist of coaching (tennis), some teaching, and perhaps P.E. building supervision.

In the event that all of these possibilities return nothing, 1981 will see a spring without men's tennis at F.S.C.

St. Joan

The final production of the 1979-1980 season at Frostburg State College will be the serious comedy, SAINT JOAN, written by George Bernard Shaw. Directed by Dr. David R. Press, the play will be presented on Thursday, Friday, and Saturday, April 24, 25, and 26. Curtain time is 8:15 p.m. All performances are scheduled for Compton Auditorium. Ticket prices are \$3.00 for faculty, administration, and staff and \$.50 for FSC students. Reservations can be made by telephoning 689-4145 between the hours of 1:00 and 4:30 p.m. Tickets can be purchased at the Lane Center ticket office.

SAINT JOAN is considered by many to be George Bernard Shaw's masterwork. It traces the life of Saint Joan of Arc from the time she appears before her regional governor—through her visit to the Dauphin, the siege of Orleans, the coronation at Rheims, and the trial and recantation—to her death at the stake. Running throughout are the themes of impending storm, the rise of nationalism and Protestantism. Critic Alexander Woollcott described the play as "beautiful, engrossing, and at times exalting."

As a special attraction on opening night, the Lane College Center is offering a pre-theatre French dinner at 6:30 p.m. Tickets for the dinner and SAINT JOAN may be purchased from the Director, Lane College Center, Frostburg State College, 21532. Ticket prices, which include BOTH events, are \$9.75 for adults and \$7.25 for FSC students.

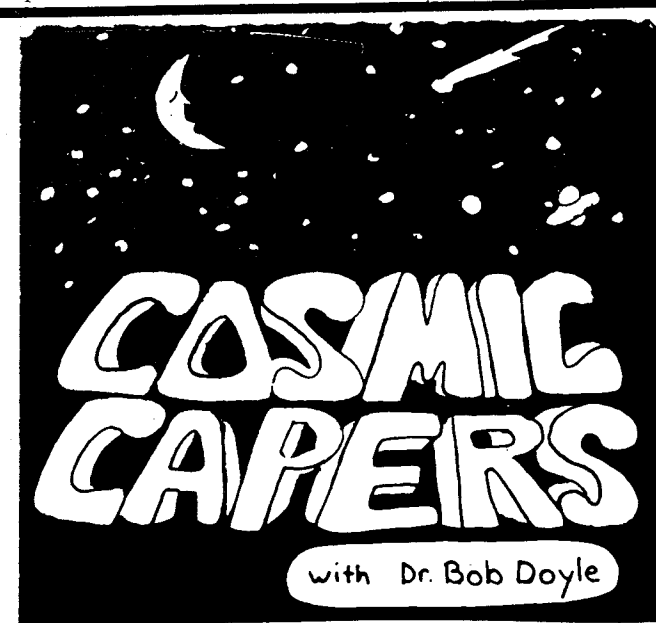

New Policies For Library

Users of the library either want to study, conduct research or socialize. Complaints have been received about the amount of noise and occasional food, drink and smoking in the building. Since some people prefer to study with others or consume food or cigarettes while working, zones for various activities have been designated. The following guidelines are temporary. Revisions will be made after the degree of cooperation is assessed. We hope

everyone will help to create the study atmosphere needed for success in college.

Guidelines for Library Behavior: Zone A-Quiet (No smoking), 54% of seating; Zone B-Quiet (Smoking Permitted), 9% of seating; Zone C Low Conversation (No smoking), 31% of seating; Zone D Food and Drink (No smoking), 6% of seating.

Signs are available in each zone and violations of the code may be reported at the reference or circulation desks.

Cosmic Capers - The Week of
April 14 - 20

This week the moon makes a return appearance to the evening sky, growing fatter and higher in the west as the week goes on. The moon's orbit about the earth will cause our companion in space to pass in front of the stars of Aries, Taurus and Gemini this week. Around 11 p.m. Friday evening, the moon will pass very close to Aldebaran,

Taurus' brightest star.

"Springtime of the Universe", a program focussing on the eventual fate of the Earth and its place in the universe, continues at the Frostburg State Planetarium. These free public showings last approximately one hour and are each Tuesday at 7:30 p.m. and each Sunday at 2:30 p.m.

Track Shatters Six Previous Records

The Bobcat track team made an impressive showing at the Indiana University of Pennsylvania Relays on April 12th. The tracksters shattered six meet records, two of which were also school records. Bruce Banner, Junior McDonald, Noel Cyrus, and Dwain Thomas started the record setting exhibition off by winning the 3200 meter relay in 7:50.0; this was also one of the two school records. The crew of Charlie Butler, Dennis Marchitelli, Gary Alston, and Thomas smashed the other school record--the sprint medley relay in 3:31.2.

The Bobcats can take pride in the fact that each of the record setting teams finished ahead of NCAA Division III

national champion Slippery Rock. The other record setting relays included Jim Chase, Marchitelli, Alan Pleasants, and Alston in the 800 meter relay with a time of 1:29.2. The 400 meter relay which has already qualified for to go to the national championships in May, blazed to a :41.8 clocking. This relay team contains three freshman: Chase, Alston, and Pleasants; junior Wayne Cottman anchors the team. Mike Taylor and Wayne Mattison combined their jumping efforts to break the other two records. They won the long jump relay and the triple jump relay with jumps totalling 43'11" and 93'3 1/4" respectively.

Womens' Track

by Mary Cialella

With an overwhelming score of 95 points to 26 of Fairmont's points, the Lady 'Cats walked all over their opponents at the only home meet of the season. A windy, cloudy Wednesday afternoon set the scene for the event held on April 9. As the hopes of Fairmont's team were diminished through the course of the meet, so too was the sun's rays leaving few spectators to observe the final half of the meet in the rain.

Frostburg took first place in every event except for the shot put and the javelin. There was a complete shut out in the 100 meter hurdles as Frostburg took seven places before Fairmont could place. The two-women team of two-milers, Joan Roach and Eileen Boyle, both did an excellent job of proving strong endurance in their event. Diane

Ray, Melva Williams, Darlene Leftwich, Cheryl Gordon, Pam Phillips, and Terry Kane did outstanding performances as well.

The season is also continuing at a fast pace, as the flashing Bobcats appeared at two Invitational meets recently. The first meet of 19 teams was held on March 28. FSC came in ninth place (which was only 2 1/2 points away from 7th) to make a good standing against much larger schools. The 3200 meter relay (a mile relay) came in third place with an amazing time of 10:04.8. The 1600 meter relay team (or 1 mile relay) placed fourth with another admirable time of 4:02.2. Val Pearce put in a good performance in the 100 meter hurdles with her sixth place in 16.5 seconds. The most outstanding race for FSC was the 800 meter (ie. half mile) in

Lacrosse

By Mary Cialella

April 9 and April 11 both saw action as the Women's Lacrosse team continues to stick it to 'em. The first game was a discouraging loss but the players quickly regained their composure to defeat their rivals last Friday.

Confronting Towson on the home field Wednesday, Frostburg's women were let down with what appears to be a crushing defeat. Actually the

11-2 score does not tell it all, as the Coach Tota commented, "We played well but they're just good." Jean Goldsborough sums up this team spirit with: "We'll get 'em at the State Tournament." Jean and teammate Tracey Grimm scored the only FSC goals.

Away from the pressures of home, the team proceeded to easily win at Goucher College two days later. The Bobcats trodded over the opponents field

Tennis Off To Slow Start

The F.S.C. netmen opened their 1980 season with two frustrating losses to Shippensburg State and Indiana University, 7-2 and 9-0 respectively. Though both teams were strong, the Bobcats had hoped to fare better. Two other matches, against Fairmont and St. Francis have been rained out and the team is looking to those rescheduled matches with a hopeful eye. The entire 1980 schedule is full of strong teams and the Bobcats will have to fight hard for victories. The two points in the Shippensburg match are accounted to Rick Holofcener at the first singles position and Rick and Jerome Cordts at the first doubles position.

which Diane Ray ran a 2:12.4 for second place.

The most recent meet occurred on Monday at the Pittsburgh Invitational. There were no team scores kept but trophies were given to the first three places in every event. Val Pearce did an excellent job in the hurdles creating a new school record of 15.9 for second in the 100 meter hurdles and placed second again in the 400 meter hurdles. The 400 meter relay team (Glave, Phillips, McAlexander, Ray) placed third, and that same team placed second in the mile relay. Also placing second was Diane Ray in the 800 meter run. Third places were obtained by the medley relay team, Carol Mercer in the Pentathlon, Susan Reinholz and Debbie Pinto.

Congratulations to all the team members.

to score 14 points to Goucher's five. A tremendous effort was put out by Leigh Weber with 7 points, followed by Tracey Grimm (4 pts.), Jean Goldsborough (2 pts.), and Rose Kershman (1 pt.), and the consistent defense of goalie Cathy Klein.

With three games coming up, the team should really be put to the test soon. The next home game will be Sunday April 20 at 2:00 p.m.

Men & Women Ruggers Victorious!

The Frostburg Men and Women's Rugby Teams swept four games from Penn State and California State in the rain on Saturday.

At 11 o'clock the Women's 'A' team opened the day with a 12-0 victory over California State. Karen Coughlin opened the scoring 5 minutes into the game on a 25 yard run, giving Frostburg a 4-0 lead. Moments later the count was 8-0 after Mary Flannery scored on a short run. Jenny Archer scampered 50 yards for a try midway through the second-half to complete the scoring. In the 'B' game Frostburg led 4-0 early as Jane Nardone touched the ball down for a try. Sharon Geiglein's run for a try from 60 yards out gave Frostburg Women an 8-0 lead the extra point conversion by Carol Arsendalt gave Frostburg a 10-0 win.

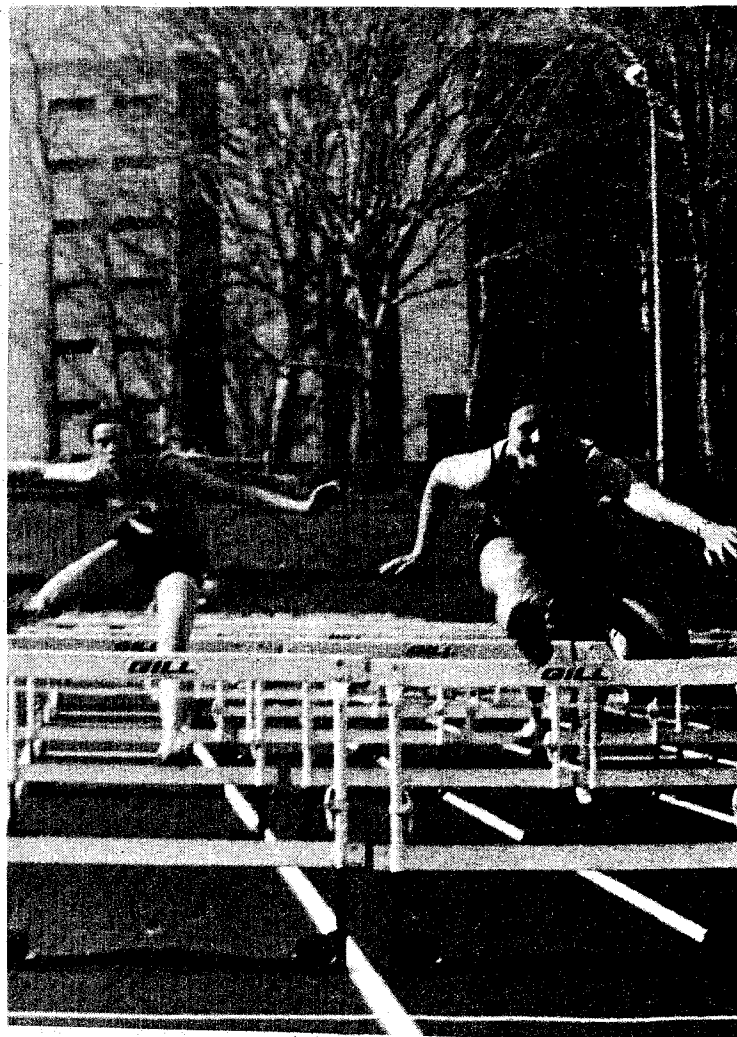

The Men's 'A' team won an exciting game over a tough Penn State, 7-6. Penn State held a 6-0 lead at halftime after two first half penalty kicks. The "Golden Shower" finally got on the score board late in the second half when Mark Miller

(animal) covered the ball in the end zone after a Penn State fumble, this cut Penn States lead to 6-4. Frostburg then went ahead to win after Jay Cheseldine converted a penalty kick from 30 yards out, giving Frostburg its first win ever over a very talented Penn State team. Frostburg won the 'B' game 7-3 with an outstanding effort. Penn State opened the scoring 3-0 after converting a penalty kick. Roger Tremont (Tree) answered that with a 35 yard kick, knotting the score at 3-3. Doug "Hollywood" Thompson scored the game winner midway through the second-half after a splendid run and outstanding pass by none other than Brian Boyle.

The Women Ruggers are 2-0-1 after Saturday's game and the men are 2-0. Both teams travel to Baltimore this Saturday to play the Chesapeake and Baltimore Rugby Clubs, respectively.

Come support the teams on

April 26th when the "Golden Shower" hosts the Maryland Rugby Club. The first game starts at 11 o'clock on the football field.

Val Pearce clears her last hurdle in the 100 meter race.

Candid Candidate

|---|--|--|--|

Lauren Kramer

1. I have been involved in Student Government since my freshman year. I've served as class rep, dorm rep, and as a Student Senator for 3 years. I am currently serving as SGA President, my administration is established and has accomplished the goals we set out to. I'm running for re-election to bring some continuity to SGA - something that it has always lacked.

2. The role of the Student Government is to serve as a vehicle to protect the quality of student life on and off campus and to serve as the main communicant between students and the college community.

3. My administration will continue to function as it has in the past. We have stressed an open-door policy in the SGA Office and have made progress on every one of the major issues that confronted us at the time we took office. We will, as we have this year, continue to communicate our efforts to the student body via State-To-Date, WFNR, etc.

4. One of the greatest weakness of every SGA has been the refusal of both the student body and the administration to recognize SGA as a major force on campus. House members become apathetic, and unfortunately this apathy is passed on to the student body.

5. The greatest strength of this SGA has been the commitment of a handful of dedicated and concerned individuals who have

accepted the challenge of leading the student body. I'll maintain this strength by keeping those people involved and hopefully finding a lot more like them.

6. We have established regular meetings with Dr. Guild to express our feelings about matters of mutual concern. I am confident that these meetings will continue to serve as a constructive forum next year.

7. Increasing participation in SGA has always been a problem. While I have kept groups on campus informed of any progress we have made, the majority of them seem to take a "who cares" attitude toward SGA. I'd like to see everyone represented - by people have to take the initiative to become involved. Involvement means commitment, and we need individuals who are willing to commit themselves to SGA.

Keith Wilson

1. I have been actively involved for 3 full years with CCB (longer than any other student at FSC). I have been CCB president once in the past. I have attended 2 National Entertainment and Campus Activities Association (NECAA) national conventions. I have been asked by numerous CCB members to run for president.

2. The role of the CCB is, very simple, to provide affordable, varied, and quality entertainment and activities for students

to enjoy and relax to, in an effort to fully round out the college experience.

3. I would try to present an even greater variety of activities than CCB does now. This is possible as long as there is enough student input as to what is wanted. Therefore, one of my main goals would be to dramatically increase the membership of CCB.

4. I see 2 weaknesses with CCB. 1) Low membership and 2) constant turnover of knowledgeable officers. It's amazing how much CCB can accomplish when it has a great number of interested and active members, led by an experienced corp of officers.

5. Our greatest strength is numbers. Unfortunately, our greatest strength right now is only a small, but hard-working and dedicated staff. Without them, nothing would be accomplished entertainment wise here at FSC. I would increase this strength by better organization for more student participation and involvement.

6. I would approach the relationship about the same as it is done now. The CCB currently has a very good open, honest, and working relationship with the administration here at FSC.

7. This goes back to a few of the previous questions. Increasing membership and student involvement would bring a lot more representativeness to the CCB. Surveys and questionnaires have never been very productive for CCB in the past, and it seems

that CCB benefits most from word of mouth communication as far as input is concerned.

Rick Brindle

1. At present, I am serving as president of Annapolis Hall and am a Peer Advisor. I was active in CCB last semester, but due to a conflict in my schedule, I had to drop out this semester. Most of all, I am a concerned student who sees changes that need to be made and am confident that I can make them.

2. To provide a wide variety of quality entertainment and activities for the entire student body. If this is met, a sense of campus-wide unity should emerge.

3. I hope to bring a little freshness to the activities of CCB I would like to try a few events that have never been done here before. I have a few in mind myself, but I think that increased membership in CCB is the key to crisper ideas and I feel that I can achieve this by making CCB more fun to belong to.

4. Advertising. It seems every time I talk to people about CCB they don't even know what it is. Nor can they remember any of its recent activities. Therefore, I think a stronger advertising campaign for their activities is in order. We have a good newspaper, and a rapidly growing radio station and many other advertising resources at our disposal. We should push these to the limit to keep the student better informed.

5. I think that there is a legitimate concern of the student's needs in CCB. This concern, along with those in CCB who work so hard to meet this concern, are its greatest strength. I would maintain this commitment by trying first to find their needs through direct voice, questionnaires, etc., and then meet them.

6. I see no real problem here. As long as there is a common goal (benefitting the student) no conflict should arise. However, if a conflict does in fact arise, I can assure you that I will certainly take a stand and voice the students' rights.

7. I think that variety comes in number. It seems that the more numbers we acquire, the more representativeness we will receive. This all stems back to the atmosphere of CCB itself. If it is an easy going, and somewhat fun atmosphere, then membership will most probably flourish.

Terri Smith

1. I'm a Sophomore at FSC majoring in English and Secondary Education. I joined CCB last semester because I wanted to get involved in a college organization. I'm currently Secretary of CCB. My qualifications are that I try to help with all the activities that CCB does, and I organized the Talent Show that we did this semester, so I have had the experience and responsibility of planning a program. I also spend a lot of time in the

cont'd on p. 6

Terri Smith contd. cont'd from p. 5

office to see how CCB is run. I am also a member of Delta Alpha Iota, and am on the Arts and Lectures Committee. 2. The role of College Center Board is to plan student activities that the students want. We try to do the movies that the dorms and other organizations don't have the money to get. We try to get groups for dances that the students have heard of and like. Since the money CCB spends is the students, we try to get what the students want. We try to come up with new ideas that will appeal to the students, and we try to get their old favorites too. 3. I hope to help plan and organize the programs that CCB does. I hope to help come up with new ideas that the students will like. However, the only way to do what the students want is to get more students interested in CCB. So one of my goals is to get more people to come to meetings and to get involved in what CCB is doing. The only way to get more people interested is to make CCB seem more interesting, and to give new members something to do right away. 4. As CCB is right now, we need more organization. Committees need to be set up, and chairmen picked so things can get done without hassle. There aren't

really any committees right now except the few people working on the Bluegrass Festival. Next year committees will have to be set up to work on all activities, and publicity. We also have to get more of the student body interested in CCB.

5. This year CCB has provided the students with good entertainment. All of the activities that we have done have drawn large crowds. We have been able to provide cheap entertainment for the poor college student. Our Autumn Week was a success, and so was Winter Carnival. More students seemed to want to know what CCB was about.

6. No problems have come up with administration this year that I have seen. CCB seems to have a quiet, no trouble relationship with administration.

7. CCB should have a massive campaign to get the students involved. However, the only way to keep anyone interested in CCB is to give them something to do the first night they come to a meeting. We want to have an information night for any interested students so we can get interested freshmen as well as anyone else. Another way to get people interested is to listen to suggestions that anyone has, and ask the person who makes the suggestion to help carry it through.

Political Science Interns

The Public Affairs Institute will be holding a meeting for prospective interns in the Political Science Department on Thursday, April 24, 1980 at 2:00 p.m. in Lane Center rooms 203-204. If you wish to intern in the coming summer session, your ATTENDANCE IS MANDATORY. If you are interested in interning you are also encouraged to attend and gather information at the meeting. If you have a conflict with this date or the time please contact the Public Affairs Institute, which is located on the Old Main side of Frost Hall at x4198. This meeting will cover the things you need to do for the preparation of your internship program and to examine all the various options of placement available and of interest. For those planning to intern this summer or next fall, you need to start planning now as to placement and living situation.

Philosophy Course On Christian Theology To Be Offered

A new three-credit course entitled "Understanding Christian Theology" will be offered this fall through the Philosophy Department (1509.490), on Wednesday evenings from 7:00 p.m. to 9:40 p.m.

The course will provide an examination of major theological themes within the Christian tradition by clarifying, stretching and challenging your thinking and imagination.

A background in philosophy would be helpful but not necessary. The course is designed to be a basic course with depth. Open to all students on a "first come, first served" basis. Rev. Larry Newmark, Protestant Chaplain will be the course instructor.

cont'd from p. 1
athletic activities fee reaches +36 per hour, the part-time student fee should be raised from \$2.50 per credit hour to +3.00 per credit hour.

cont'd from p. 2

CHERRY BLOSSOMS: Well it's Cherry Blossom time in Washington but if you go downtown to see the trees in bloom, make sure you don't eat the cherry blossoms. Although the fruit is edible, the blossoms, leaves and twigs of cherry trees are poisonous. As well as being uninteresting, it is insignificant that the cherry tree is a member of the rose family and the genus

Prunus, because a cherry blossom by any other name would be as poisonous...

NERO: Although the historian Suetonius claims he did, more reliable sources indicate that Nero did not fiddle while Rome burned. In fact, he was 35 miles from Rome when the fire that destroyed 3/4 of the city broke out in the year 64. One not-so-nice thing that Nero DID do, however, was have his

mother murdered. His mother, Agrippina, had successfully worked to have her son named emperor (instead of his step-brother), asking only that she get to be the power behind the throne for the 17-year-old Nero. In gratitude for her help, Nero had her banished and later killed.

TUNE-IN NEXT WEEK when we ask "Who Cares?" about pre-registration!!

Summer Sessions

Registration forms and catalogs for the 1980 Summer Sessions are now available at the Office of Admissions, Graduate School Office, Registrar's Office and the Lane Center, according to David L. Sanford, dean of admissions and director of summer school. Scheduled this summer will be three undergraduate sessions, three graduate level study periods and courses in the Master's degree in Management program. Registration for all courses is now open. Students may register for the first session by mail or in person through May 4. Summer session dates are May 19 through June 18, June 19 through July 21, and July 22 through August 20. Management courses begin May 5 and run through August 2.

Summer School Financial Aid

Sign-up for students interested in Financial Aid for the first session of summer school will be held on April 30 at the Financial Aid Office (Room 125, Administration Building) beginning at 8:30 a.m. Students wanting to sign-up must do so in person. No phone calls will be accepted. Awards will be made on a first come basis.

HONORS CONVOCATION

The College's annual Honors Convocation will be held on Wednesday, April 23 at 4 p.m. in the Multi-Purpose Room of the Land Center. The event honors selected FSC students for outstanding academic achievement and contributions to the College community.

United Campus Ministry News

"WITH LOVE, FROM DAD: WHY HAVEN'T MARIJUANA SMOKERS BEEN TOLD THESE FACTS?" This is the title of a new book by Malcolm E. Smith now available for your reading and study in the United Campus Ministry library. Having taken 10 years compiling facts, Mr. Smith's work is a frightening collection of research and medical findings about the dangers of smoking marijuana. The sources include prominent doctors, Nobel Prize winners, famous universities, leading hospitals, medical journals, and medical associations. Students are urged to read this important contribution. Just check it out at the United Campus Ministry library in the Osborne Center.

Schedule of Events

Allegheny County Energy Symposium

LANE CENTER MULTI-USE ROOM	DUNKLE HALL ROOM 218
9:00 AMERICA'S FUTURE IN COAL to 9:50 Dr. Alfred Gali from the Department of Chemical Engineering at West Virginia University will speak on this subject.	SOLAR ENERGY—HOW HOT IS IT? Mr. Richard Conlin, Project Director from the Center for Renewable Resources will answer that and many more questions.
10:00 IS NUCLEAR ENERGY COMING OR GOING? to 10:50 Mr. Victor Stella, Director of Inspection and Enforcement of the Nuclear Regulatory Commission is the guest speaker.	OIL—A HEADACHE OR A BLESSING? Mr. John J. Wall of Gulf Oil will explain where oil companies stand.
11:00 The State Department's view of energy to 11:50 sources and of the energy crisis.	
12:00 to 1:20 LUNCH Snack Bar located in the Lane College Center	
1:30 WHAT DOES THE DEPARTMENT OF ENERGY HAVE TO SAY? to 2:20 Mr. Charles Baxter will give his comments.	
2:30 OPEN FORUM EVENT to 4:00	

FROSTBURG STATE COLLEGE

PRESENTS
ALLEGANY COUNTY

ENERGY
AWARENESS
DAY

THURSDAY APRIL 17TH, LANE CENTER
SPONSORED BY THE F.S.C. Student Government Assoc. BUSINESS CLUB

Purpose Of Energy Symposium

The purpose of the symposium is to inform all Frostburg State College students, as well as local high school students and the general public of the importance of energy awareness in our ever changing environment. We feel that this energy symposium will help all those attending gain a better understanding of all the available alternatives and the advantages and disadvantages of each of these alternatives.

College Disrepair

For the benefit of those of our readers who have been keeping close track of the buildings on campus and their obvious states of disrepair, here is an analysis of what's not right, where, and why.

We've all heard a lot about Chesapeake Hall's roof, and anybody who eats in the hall around the buckets and dripping water can easily see that it needs to be replaced. Unfortunately, the State Board of Higher Education doesn't feel that the State should cover the cost of the job, which is estimated to be from

\$250,000 to \$300,000. The college doesn't have that kind of money within its operation budget either. So now the Board of Trustees is planning to request aid from the Consolidated Student Union Trust Fund, which consists of money from bonds sold by Maryland State Colleges. Hopefully, the new roof will be completed by the Fall 1980 semester.

The flat roof covering Garrett Hall's offices and restrooms is also being replaced. Although the roof leaks only slightly, it is being replaced primarily out of

preventative maintenance, i.e., trying to prevent exactly the sort of thing that happened to Chesapeake. The job entails installing new shingles, tar, and flashing, but not the insulation or weather membrane beneath it. The gutters and spouts, along the back of the 28-year-old building, which were devastated by ice last winter, will also be replaced. Bids made by interested contractors so far span between \$10,000 and \$15,000. FSC definitely has the money for the job; the college maintains a special fund for deferred maintenance such as this.

Pullen Auditorium's roof is going to be renovated as well. The auditorium has seen 25 years now, and the present roof is just plain old. Again, it is being repaired out of preventative maintenance rather than necessity.

The Patio deck of the Phys-

ical Education building has been leaking profusely for a while now (the Administration has been aware of the problem since the building was one year old). The patio deck is situated directly over several classrooms and the dance studio. The leaking water is not so harmful in the classrooms, where it can be easily mopped up of the tile floors. However, the dance studio has an expensive hardwood maple floor, and some people are concerned that the water will warp it. Recently, the college sent out bids for a consultant firm to come and analyze the problem. So far, the only tentative suggestion has been to construct a roof over the patio deck.

The Lane Center Multi-Use room exemplifies what happens to wood floors when they get soaked. The Multi-Use room was flooded with water from a broken ice machine over Christ-

mas break. The wood warped, and now the maple floor, similar to that of the dance studio, has little waves, hills, and depressions throughout.

Doors have been a continual headache for the Maintenance Department this semester, particularly those in the Cafeteria and at the east end of Frederick Hall. Frederick's doors have been raved and repaired three times within the last month. The doors, sills, hinges, and whatnot (which are extra heavy-duty) cost about \$850 altogether. The money to fix these comes directly out of student funds.

Incidentally, the Administration plans to build a second set of doors behind the main entrances to Frederick, Cambridge, and Westminster Halls. The doors are being installed in an attempt to better insulate the buildings and conserve heat.

cont'd on p. 8

History Dept. Places Interns

The History Department at Frostburg State College is currently completing its second full year of internships for senior history majors seeking alternatives to teaching careers. Under the direction of Dr. John B. Wiseman, the department has placed eight seniors this year in a guided professional work experience which has matched each of the students' special career interests.

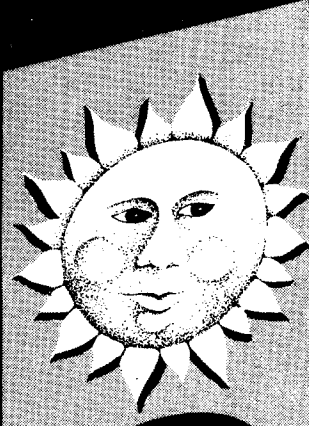

During the fall semester 1979 four interns received academic credit for their work in the following host agencies. Bryan L. Wagner, a native of Cumberland, Maryland worked in the Frostburg State College Library under the direction of the associate director, Dr. Gary Paul. In addition to learning various facets of the library operations, Wagner indexed the first volume of J. William Hunt's historical columns on Allegany County. Harrison W. Burgess of Hillsboro Missouri worked under the supervision of Mr. Paul W. Barnett, attorney to the Allegany County Commissioners. Burgess performed a variety of research tasks for the commissioners and prepared preliminary legal resolutions.

Linda S. Caudell of Brandywine, Maryland spent the full semester as an intern in the U.S. Department of State. Assigned to the East African Affairs Division, Caudell coordinated incoming cables, summarized their contents and provided her supervisor with a report on U.S. - Soviet involvement in Somalia and Ethiopia. Sandee I. Roody, a Baltimore native, worked in the Maryland Historical Society where she was introduced to the

various phases of archival and museum activities. For her special project, Roody produced a lengthy annotated bibliography of Civil War materials located in the Historical Society.

During the current academic semester, four History seniors are also acquiring pre-professional training. Julie F. Baker from Gaithersburg, Maryland is working under David Dorsey in the Allegany County Planning and Zoning Commission. Baker is helping her supervisor complete a study of county historic sites which will be published next year. Donald V. Sing, New York City, is assisting Mrs. Josephine L. Beynon in the Allegany County Tourism Office. Sing is exploring public and private avenues for funding local historical preservation projects and will draft a report for future use by the tourism office.

Two history students are also interning in Washington, D.C. Phyllis W. Miller, a Rockville native, is working in the U.S. Senate Historical Office. Miller is performing research tasks for U.S. Senators and is writing a paper on Senator Robert C. Byrd which will be used in the official publications regarding the Senate's bicentennial. William B. Simpson is spending the semester assisting Senator George McGovern's staff in preparing for various legislative matters and is compiling a report on McGovern's voting record. His special paper will analyze the evolution of McGovern's political philosophy. All interns work under the direction of a professional job supervisor and have their work periodically reviewed by the History Department's Internship Director.

1980 SUMMER SESSION FROSTBURG STATE COLLEGE

THREE UNDERGRADUATE SESSIONS
 May 19—June 18 (Registration ends May 4)

GONE WITH THE WIND On March 21, the wind blew my black ID case out of my purse. Contained school ID, driver's

licence, blood donor card, items of sentimental value. If found, please contact Lola Wells REWARD IS OFFERED. Credit cards have been cancelled but I Would still like them returned.

WHO saw the Bear, last year, in the arboretum? TELL ME? Box 890

cont'd from p. 7

There is a possibility that one may look around campus at all that is in disrepair and wonder "why doesn't anybody do anything about it?" They are. However, most people have no sense of what a pain beurocratic procedure and red tape are to try to get anything done with. This procedure involves dealing with the Department of General Services and consultant firms, drawing up specifications, completing a complex bidding procedure, and finalizing contracts with construction companies, etc.
