Frostburg and Salisbury Face Off in Regents' Cup

See FSU Bobcat football action in Baltimore when longtime state football rivals, Frostburg State University and Salisbury State University, face off in the first-ever Regents' Cup game on Saturday, Nov. 13th at PSINet Stadium.

Game time is 1 p.m.

The Regents' Cup was created as way for these two teams to showcase their longtime rivalry at a location halfway from each campus. The game was named in honor of the University System of Maryland Board of Regents.

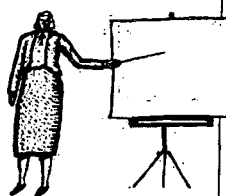

All tickets are general seating and are available at the price of \$7 for adults and \$3 for students with ID. Tickets can be purchased at the FSU Bookstore, Dept. of Athletics or by calling x7044. Tickets will also be available at the gate on the day of the game.

Busses from campus will be available for students. Sign up sheets are available at the Lane Center Info Desk.

For more information, contact the Department of Athletics at x4455.

Allegany County Schools in Search of Substitutes

FSU's College of Education will sponsor a "Sub Day" Thursday, Oct. 21, in the Lane Center.

Allegany County public school officials will be on campus to recruit substitute teachers — a critical need in the county. Students with 60 credit hours can apply and be interviewed on campus the same day.

Substitute pay is \$50 per day for those with a two-year degree or 60-plus credits. For those with a four-year degree is \$57 a day. If a student is accepted, he or she must undergo a criminal background check, which costs \$42. The FSU Security Office will do the fingerprinting for free.

Allegany County public schools have served Frostburg students in almost every major. This effort is one way in which to "give back" to the County.

Pre-registration is not required, but is highly recommended. Contact Carol Abernathy in Framptom Hall 203 or call x4216 to sign up for "Sub Day."

The first 20 people to appear Oct. 21 will receive a complimentary sub — the sandwich kind, a sub for Sub Day.

FSU Hosts "Teaching and Technology Conference"

FSU will host the second annual Regional Education Service Agency (RESA) "Technology and Teaching Conference" for area educators Friday, Nov. 5, from 2 to 6:30 p.m. and Saturday, Nov. 6, from 10 a.m. to 2:30 p.m. Registration for both days will be held in the Lane Center Multi-use Room beginning one hour prior to the conference opening.

The purpose of the conference is to encourage the use of information technology in the classroom and will feature presentations by regional educators. In addition, 21 faculty and corporate technology-related exhibits will be on display throughout the event.

Conference presentation topics for Nov. 5 include: "Tips and Tricks for Elementary Teachers: Technology for

Classroom Management and Managing Computers in the Classroom," "Music Technology in the University Classroom," "Developing Criteria for Quality Assurance of On-Line Courses," "Net Meeting: Computer Applications in Differential Equations," "Insights Through Innovation at WIT," "Are Liberal Arts On-Line Courses Instructionally Viable?" and "Virtual Instrumentation."

Topics for Nov. 6 are: "Insights Through Innovation at WIT," "Yahoo! Integrating Technology into a Multi-Disciplinary Learning Community Experience," "Active Learning in Human Geography: Mixing Internet Resources & Cooperative Learning," "Computer Integrated Lab Facility for Collaborative Engineering Education," "Ready, Set, Go Technology" and "Managing at a Distance: Institutional Considerations for Off-Site Learners."

Early registration is encouraged. Pre-registration, which guarantees a luncheon reservation, will be accepted until Friday, Oct. 22. Conference packages for single or both days are available.

Lee Fiedler, a member of the Western Maryland Economic Development Task Force, will present the keynote address at Saturday's lunch.

For information and registration, contact the RESA office at (301) 777-3525. For additional information, contact John Bowman at x4211 or access the FSU Web site at www.frostburg.edu/events/techshow.html. The exhibit area in the Lane Center multi-use room is open to the public.

"Ten Seconds Can Change Your Life"

The FSU S.A.F.E. Office will sponsor "Ten Seconds Can Change Your Life" by motivational speaker Bobby Petrocelli on Wednesday, Oct. 20, at 7 p.m. in the LC Multi-Use Room.

A Brooklyn, N.Y., native, Petrocelli found his life changed instantly when a three-quarter ton pickup truck crashed through the wall of his bedroom moving at over 70 miles per hour. The driver's blood alcohol level was twice the legal limit. Petrocelli found himself sitting dazed and injured in his dining room window. His wife was dead.

"Ten Seconds," the riveting story of how Petrocelli triumphed over tragedy, captivates audiences of all ages and backgrounds inspiring all to live a life of passion, faith, love and forgiveness.

"There is power in one decision. Every decision we make - good or bad - has the power to impact our future," he says. "Things don't just happen. Constructing our life's foundation is accomplished one brick, one decision, 10 seconds at a time. It can change your life forever."

Petrocelli has been featured on television, radio and in print. He is a teacher, counselor and coach holding both a bachelor's degree in health and physical education and a master's degree in counseling.

This event is free and open to the public. It is sponsored by the Western Maryland Regional S.A.F.E. Communities Center as part of National Collegiate Alcohol Awareness Month. For information, contact the FSU S.A.F.E. Office, x4761.

The group will be assisted by Professor Frank Fleckenstein from the FSU Philosophy Department.

The program is titled "Songs of My People" and is a celebration of the cultural — especially musical and religious — contribution of African Americans in the second millennium A.D.

Jorn K. Bramann (Philosophy) will present a short paper and advance a thesis about multiculturalism and individual identity. Constance M. McGovern (History), Jean-Marie Makang (Philosophy) and MacGregor O'Brien (Foreign Languages and Literature) will serve as moderator.

Bramann's paper argues that we need to accept and promote multiculturalism, but that the attempt to use any particular culture as a means to create "identities" is both politically dangerous and ultimately not meaningful at this point in history. The paper is available on the Philosophical Forum home page at www.frostburg.edu/dept/phil/forum. Click on Calendar of Forum Events.

Questions about this program should

be directed to Tom Mappes (Philosophy) at x4262.

"Project Totem" Set in Arboretum

FSU's AmeriCorps*VISTA office has announced that the final construction phase of the sculpture, "Project Totem," will take place in the campus arboretum during the weekend of "Make a Difference Day" events scheduled for Oct. 22 through 24.

"Project Totem" is a service learning effort involving area youth, Allen HallSTARS! AmeriCorps members, the regional business community and youth from the Department of Juvenile Justice system. Designed by students from Southern Garrett High School, this sculpture is designed to educate the community about the relocation and internment during World War II of 120,000 people of Japanese ancestry.

This service-learning project will allow youth to explore racism, discrimination and exploitation in this country, both past and present, and give them an active voice in educating the public through the design and construction of the sculpture.

The public is invited to participate in this event. The major portion of the construction is slated for Oct. 23 and 24 from noon to 5 p.m. Parking for the Arboretum is located on University Drive adjacent to the soccer fields.

For information, contact Pat Faville, AmeriCorps*VISTA Youth Service Coordinator/Project TOTEM Coordinator, x7598.

In Case of Fire

Fire Door Facts: The Office of Human Resources would like to share information on a fire prevention item used as the first line of defense during a working fire: the fire door.

A typical fire door opens into a corridor and has automatic door closers. Once closed, a fire door will help prevent fire, smoke, heat and toxic gases in one area of a building from spreading to another for up to three hours.

But fire doors aren't magic. They must be in proper operating condition and have unobstructed space around them to be able to close in case of fires.

When a fire starts, you may have only seconds to evacuate. An unobstructed exit path is critical. Look around your area and the hallway that leads to the nearest exit. Make sure that fire door openings and the area surrounding them are clear.

Don't let anyone store equipment or furniture near them. Not even temporarily. Never prop open fire doors or allow doorstops to be used.

Double-whammy! When you see a fire extinguisher being used to prop open a fire door, not only is the fire door out of commission, but a fire extinguisher is not mounted properly and won't be where people will look for it when it's needed. Keep an eye out for small articles (a strip of lumber, a piece of plastic, a paper cup) that could get wedged unnoticed underneath a door and prevent it from closing properly. Report it at once if you notice a fire door isn't in good operating condition, such as if the self-closing mechanism has been dismantled or disconnected.
