## Institutional Planning and Mission

## Salisbury University Strategic Goals for AY 2004-AY 2008

Goal I: The University will enhance an academic and learning environment that promotes intellectual growth and success.

Goal II: The University will advance a student-centered environment.

Goal III: The University will foster inclusiveness as well as cultural and intellectual pluralism.

Goal IV: The University will utilize strategic collaborations and targeted community outreach to benefit the University, Maryland, and the region.
$\qquad$

Salisbury University
Projected Headcount Growth through Fall 2013

*Growth is PREDICATED on several critical resource and facilities assumptions.

# Salisbury University Profile FALL 2003 

## Founding Date:

1925
Location: Wicomico County, Maryland
$8^{\text {th }}$ President: Janet E. Dudley-Eshbach, Ph.D. (Appointed July 1, 2000)

## Carnegie Classification: Master's I

## Accreditations/Societies:

American Chemical Society Committee on Professional Training (ACS-CPT)
The Association to Advance Collegiate Schools of Business (AACSB-International)
Commission on Accreditation of Allied Health Education Programs (CAAHEP)
Commission on Collegiate Nursing Education (CCNE)
Council on Social Work Education (CSWE)
Middle States Association of Colleges and Schools
National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
National Council for Accreditation of Teacher Education (NCATE)
National Environmental Health Science \& Protection Accreditation Council (NEHSPAC)

## Total Headcount Enrollment:

| 6816 | Total |
| ---: | :--- |
| $-.5 \%$ | decrease from Fall $2002(6851)$ |
| $12.1 \%$ | increase from Fall 1998 $(6080)$ |
| $14.4 \%$ | increase from Fall $1993(5956)$ |

Headcount Demographics:

|  | Undergraduate | Graduate | Total |
| :---: | :---: | :---: | :---: |
| Full-Time | 5434 | 154 | 5588 |
| Part-Time | 765 | 463 | 1228 |
| Total Enrollment | 6199 | 617 | 6816 |
| Female | 57\% | 72\% | 59\% |

## History of the University

In 1922, the Maryland State Legislature established a commission to determine a location for a two-year normal school on the Eastern Shore of Maryland. A site at Salisbury was selected by the commission and the Maryland State Normal School at Salisbury was opened in September 1925.

The school offered a two-year course for the preparation of elementary school teachers in Maryland until 1931 and 1934 when respective increases of three and four years were implemented. By action of the Maryland Legislature, the school was authorized to grant the Bachelor of Science degree and to change its name to the State Teachers College at Salisbury.

In 1947, the teacher preparation program expanded to include the junior high school level. In 1960, the program was expanded further to include teacher preparation for the senior high school level. Simultaneously, a four-year program in the arts and sciences, with majors in several academic fields leading to the Bachelor of Arts and the Bachelor of Science degrees was established. In 1962, the State Board of Trustees approved a graduate program leading to the Master of Education degree.

By legislative action, the five state teachers colleges in Maryland became state colleges in 1963 with the word "teachers" deleted from the name, and a new board of trustees was established known as the Board of Trustees of the State Colleges. Under the jurisdiction of this governing board, the major emphasis was placed on the development of the college's undergraduate program, with majors in the arts and sciences as well as professional preparation leading to teaching certification. Concurrently, the institution was renamed Salisbury State College.

Since 1963, the institution has expanded rapidly and presently offers 41 undergraduate majors including professional programs in business, social work, medical technology, respiratory therapy, and nursing, in addition to curricula in education and the arts and sciences. The baccalaureate degrees offered include: Bachelor of Arts, Bachelor of Science, Bachelor of Arts in Social Work, and the Bachelor of Fine Arts. In 1971, a program leading to the Master of Arts degree in history was approved; in 1974, a Master
of Arts in english was created; and, in 1975, a Master of Arts degree in psychology was established, although the program has been eliminated. More recently, graduate programs leading to a Master of Business Administration were added in 1981 and a Master of Science in nursing in 1982; a Master of Education with a major in public school administration in 1994; a Master of Arts in Teaching in 1996; a Master of Science in applied health physiology in 2000; and a Master of Arts in Social Work in 2001.

Through legislation effective July 1, 1988, Salisbury State College along with five other institutions formerly governed by the Board of Trustees of the State Universities and Colleges, became a part of the University of Maryland System. On the same date and through separate legislative action, the name of the institution was officially changed from Salisbury State College to Salisbury University. Similarly, the University of Maryland System has since become the University System of Maryland (USM) and consists of 11 degree granting institutions and 2 institutes that are governed by a Board of Regents. The Board is established by statute as a public corporation and charter system charged with the responsibility for governance and management of the USM and constituent institutions, centers, and institutes. Although operating with autonomy, the USM collaborates with the Maryland Higher Education Commission (MHEC), which by statute is given the responsibility for planning and coordinating higher education in the State of Maryland.

In 1999, Salisbury University began internal dialogue in consideration of another change that would remove "State" from its name. After considerable discussion among alumni, faculty, students, staff, and other interested constituents and leaders, the University announced in April 2000 that it would pursue a change in name to Salisbury University. Approval was granted by the Board of Regents, the Maryland Legislature, and the Governor, and on July 1, 2001, the legal name of the institution became Salisbury University.

## University Environment

Salisbury University is the largest higher education institution on the Eastern Shore of Maryland with a Fall 2003 headcount enrollment of 6,816 students and 5950 FTES (Full-time Equivalent Students).

The University is located in Salisbury, which is centrally located on the Eastern Shore of Maryland. The Eastern Shore of Maryland is that part of the Delmarva Peninsula in Maryland between the Chesapeake Bay on the west and the Atlantic Ocean on the east; the State of Delaware borders portions of the region to the north and the east, while the State of Virginia's Eastern Shore lies to the south.

First explored by Captain John Smith, the Shore retains much of its historical charm and natural beauty. Because of its miles of shoreline and many rivers, the Eastern Shore has become known for its recreational appeal. Tourism and both recreational and commercial fishing remain important sources of income. Agriculture has continued as an important industry since European settlers first arrived in the early 1600 's. The Atlantic beaches, relatively mild winter temperatures, and leisurely lifestyle attract both summer vacationers and permanent residents. As the population has increased and the economy diversified, more people have become employed in manufacturing, wholesale and retail trade, and professional services. According to the Maryland Department of Planning, the 2000 nine county population of the Eastern Shore was 395,890 . This figure represents a $33.5 \%$ increase from the 1980 census $(296,620)$ and $15.2 \%$ from the 1990 census $(343,769)$. The population is projected to increase by approximately $5 \%$ between 2000 and 2005.

Salisbury, which is the industrial, commercial, educational, and transportation hub of the Eastern Shore, is its largest city with a municipal population of 23,743 . Located at the crossroads of Routes 50 and 13 and along the Wicomico River, Salisbury is the county seat for Wicomico County and a major distribution point for supplies and materials to the region. Unknown to many, Salisbury is the second largest port in Maryland after Baltimore. Its Salisbury/Ocean City Wicomico Regional Airport is also the state's second largest after BaltimoreWashington International. Manufacturing and processing industries employ the largest number of
residents, but both wholesale and retail firms and service industries are important components of the community's economy.

Salisbury is located 115 miles east of Washington, D.C., 125 miles south of Philadelphia, 120 miles north of Virginia Beach; and 30 miles west of Ocean City, Maryland, which swells to a population of 300,000 during the summer months. Despite its proximity to national and international urban centers, all of which are readily accessible through a wellmaintained highway system, the Eastern Shore is largely rural. The 2000 population of Wicomico County was 84,644 , an increase of $13.9 \%$ from 1990 and $31.1 \%$ from 1980. The population is projected to increase by approximately $5 \%$ between 2000 and 2005.

Along with its importance as an economic center, Salisbury offers many social and cultural opportunities. Its newspapers, television and radio stations, movie theaters, stores, businesses and industries, museums, libraries, civic center, cultural programs, houses of worship, public and private schools, community college, and university all contribute to an on-going vitality and significance in the life of the Eastern Shore and Maryland.

Five institutions of higher education serve the Eastern Shore of Maryland. Washington College is a private college located in Chestertown, Maryland, and is the northern-most institution on the Eastern Shore. Chesapeake College is a community college located in Wye Mills and primarily serves the five counties of the Upper Shore. In a collaborative adventure among the five Eastern Shore institutions, a regional statesupported higher education center opened in Fall 2002 on the Chesapeake College campus. Both Wor-Wic Community College and Salisbury University (SU) are located in Wicomico County. The University of Maryland Eastern Shore (UMES) is located 12 miles to the south in Princess Anne and is a sister institution to SU within the University System of Maryland. In 1998, these five institutions signed an historic Memorandum of Agreement to form the Eastern Shore Association of Colleges (ESAC). The alliance was created to develop inter-institutional strategies to expand educational opportunities for students and to promote the higher education services and economic development of the region.

## Board of Directors Emeritus

Charles R. Fulton<br>Franklin P. Perdue<br>Dick Young

[^0]
## Salisbury University Mission Statement

Salisbury University's mission is to cultivate and sustain a superior, student-centered learning community where students, faculty and staff are viewed as both teachers and learners, and where a commitment to excellence permeates all aspects of University life. We recruit exceptional and diverse faculty, staff, undergraduate and graduate students and support them as they work together to reach the University's goals. Serving Maryland and the Mid-Atlantic region, we are concerned participants in responding to the educational, economic, cultural and social needs of our community and believe that service is a vital component of civic life. Our highest purpose is to empower our students with the knowledge, skills and core values that contribute to life-long learning and active citizenship in a democratic society and interdependent world. (1996)

## VALUES

The core values of Salisbury University are excellence, student-centeredness, learning, community, civic engagement, and diversity. We believe these values must be lived and experienced as integral to everyday campus life so that students make the connection between what they learn and how they live. (1996)

## VISION

Salisbury University will continue as a premier regional university that is recognized nationally for excellence by its peers and regionally for its commitment to model programs in civic engagement. Undergraduate research, service learning, international experiences, and cocurricular activities will continue to enrich the traditional academic curriculum and enable students to connect research to practice, theory to action. The University will provide graduates who will be recruited by the best employers and graduate schools, and who will contribute to the economic vitality of the State and the Nation. The University will continue to enhance the quality of life for its students, the State, and the region, and will explore opportunities to provide doctoral programs in areas of need. (MFR, 2001)

## Preamble to the Strategic Plan

Derived from the Salisbury University mission and reflecting institutional values, the core goals and primary objectives of the Salisbury University Strategic Plan 2004-08 guide the University's priorities. The plan affirms that students are central, with academic excellence the defining attribute.
Our primary purpose is education and, as a community of life-long learners, we invest in the continuous development and support of our students, faculty, and staff, and particularly those activities that advance successful living in an increasingly global society. We uphold the diametric values of inclusiveness and diversity. We recognize, respect, and embrace the innate similarities, differences, and perspectives among groups and individuals. We are dedicated to the intellectual, professional, cultural, personal, and social growth of our students and University community. Moreover, in all of our endeavors, we hold fiscal prudence as fundamental and intellectual confrontation, academic excellence, and altruism as paramount.

## Salisbury University Strategic Plan for AY 2004-AY 2008

Goal I: The University will enhance an academic and learning environment that promotes intellectual growth and success.
A. Maintain and advance academic excellence as the defining attribute of all academic programs and student learning.
B. Enhance General Education as the necessary foundational experience for students.
C. Offer each student opportunities for experiential learning, including but not limited to: service learning; civic engagement; volunteering; internships; student research; study abroad; and community outreach activities.
D. Provide resources, including a new facility and an enhanced operating budget, to make the library a focal point of learning, scholarship, interaction, and invention among students, faculty, and staff. Ensure resources support and strengthen current academic programs, while exploring opportunities to offer new graduate and undergraduate programs.
E. Ensure resources support and strengthen current academic programs, while exploring opportunities to offer new graduate and undergraduate programs.
F. Promote student technology fluency, as well as relevant faculty and staff development in the use of technology in teaching and services.

1. Provide effective and reliable classroom and computer lab technology and campus telecommunications infrastructure.
G. Recruit and retain highly qualified faculty and staff.
2. Develop and implement workload standards that are comparable to institutional peers.
3. Develop and implement mechanisms for enhancing faculty and staff rewards and support.
4. Strengthen available resources for scholarship, research, sabbatical leaves, professional activities, and other faculty development opportunities.
5. Maintain the commitment to having the vast majority of instructional staff consist of tenured and tenure-track faculty, and strive to provide healthcare, pension, and other benefits to all full-time faculty and staff.
6. Maintain or improve faculty and staff salaries and benefits to levels that are comparable to AAUP (for faculty) and CUPA (for staff) peers.

Goal II: The University will advance a student-centered environment.
A. Increase the level of funding for need- and merit-based undergraduate and graduate scholarships.
B. Develop "Student Academic Enrichment Centers" to assist the academic achievement of students of all abilities.
C. Maintain and improve the high quality of advising, individualized for undergraduates and graduates.

1. Establish faculty/advisee ratios at levels consistent with BOR policies and school guidelines.
2. Ensure that a full-time advising coordinator is on staff in all schools.
D. Elevate student access to campus services and activities.
3. Improve recreational, wellness, and fitness services, programs, and facilities.
4. Examine and implement alternative scheduling options and support services to meet the needs of our students.
E. Sustain quality theatre, leadership, Division III Athletics, and other extracurricular programming while affirming academics as the highest priority in the lives of students.
F. Provide classrooms and other settings that foster effective faculty-student connections and engaged, interactive student learning, and strengthens student to faculty exchanges.
G. Develop and implement a more comprehensive orientation program for freshman and transfer students that improves academic and personal transitions and deepens their connections with their peers and the University.

## Goal III: The University will foster inclusiveness as well as cultural and intellectual pluralism.

A. Provide multicultural and sensitivity education and activities for the campus community.
B. Examine and align the weight of the current, multiple admissions factors, particularly standardized tests, in line with institutional priorities and values.
C. Foster the growth of a more diverse student and employee population.
D. Enhance and create support programs to increase the retention and graduation rates of those identified student groups whose retention and graduation rates are below those of other groups.
E. Expand academic and social practices/support for the integration of international students into SU and the local community.
F. Enhance SU linkages to immigrant communities.
G. Promote international educational opportunities as a means of broadening life experience and cross-cultural understanding for students and faculty.
H. Enhance "multiculturalism" throughout the curriculum.
I. Work cooperatively with K-12 institutions and community colleges to enhance the success of underrepresented groups.

Goal IV: The University will utilize strategic collaborations and targeted community outreach to benefit the University, Maryland, and the region.
A. Align SU strategic collaborations and targeted community outreach activities with institutional priorities.
B. Enhance the University's ability to respond to the region's business, economic, community, and workforce development needs through its academic and extracurricular activities.
C. Develop and implement an effective, efficient, integrated, comprehensive University marketing plan.
D. Encourage and support the development of grant and sponsored research projects and programs that support the University's mission.
E. Encourage and support the development of non-credit programs as self-supporting revenue generating sources.
F. Recognize and reward students, faculty, and staff involved in (SU) strategic collaborations and targeted community outreach.
G. Establish and enhance collaborations with the private sector, schools, community, government, and non-government organizations.
H. Enhance private and public fundraising for projects and programs that support the academic objectives, capital initiatives, and other priorities identified in the Facilities Master Plan, with particularly attention to funding a new library facility.

## Timeline and Milestones of the SU Strategic Planning Process

Fall 2001: Preliminary discussions occur between the President, Provost, \& Long Range Planning Committee regarding the next strategic planning effort.
April 2002: The Long Range Planning Committee and invited participants (also known as the "expanded" LRAPC) are charged with actively engaging the campus in a process that culminates in the development of a revised/new strategic plan through 2008.
Aug. 2002: The "expanded" Long Range Academic Planning Committee (LRAPC) reconvenes and forms an ad hoc Strategic Planning Team (SPT). Additional individuals representing primary administrative divisions are to be invited to participate in leading the strategic planning effort. The charge for the SPT is the same as for the LRAPC except it is expected that the SPT will deliver the draft strategic plan to both the LRAPC and the Provost.
Fall 2002: The Strategic Planning Team engages in a comprehensive and lengthy process of environmental scanning.
Dec. 2002: The Strategic Planning Team conducts a SWOT analysis.
Jan. 2002: Seven potential themes are identified to help frame the discussions for the January 24, 2003 strategic planning workshop. Strategic linkages are identified from the SWOT results. These linkages are organized under the seven themes.
Jan. 24, 2003: A campus-wide strategic planning workshop is held in the Guerreiri University Center. Breakout groups examine, comment upon, and prioritize the linkages and any identified issues
March 2003: The SPT begins to discuss potential strategic goals.
April 2003: Four draft strategic goals are identified.
May 2003:
Draft strategic objectives are identified in support of each strategic goal.
A draft preamble to the strategic plan is written.
The first iteration of the draft strategic plan is presented to the campus.
June 6, 2003: First Strategic Planning Congress is held. Fifty participants representing faculty, the Faculty Senate, academic department chairs, the academic deans, the incoming Long Range Academic Planning Committee members, students, staff, SU Foundation Board members, the Executive Officers, and the Strategic Planning Team convene to discuss goals I and II of the strategic plan. Three breakout groups meet separately and jointly to debate key institutional objectives associated with each goal. Their comments are distilled into the next draft of the strategic plan.
Aug 22, 2003: A second Strategic Planning Congress is held. The same participants are invited, with 35 attending. Goal III and IV are discussed. Comments are distilled into the next draft of the strategic plan.
Sept. 9, 2003: The $7^{\text {th }}$ iteration of the draft strategic plan is forwarded to the Strategic Planning Team.
Sept. 17, 2003: The Strategic Planning Team meets. Final wording revisions are suggested. The SPT notes that its members will be available to provide any clarification regarding the draft document and the planning process.
Sept. 22, 2003: The SPT forwards the $8^{\text {th }}$ iteration of the SU Strategic Plan AY 2004-AY 2008 to the Provost and the LRAPC.
Sept. 30, 2003: The Provost formally submits the draft SU Strategic Plan AY 2004-AY 2008 to the Faculty Senate, Staff Senate, Student Government Association, University Forum, and other groups and individuals. They are asked to respond formally by November 15, 2003.

Nov. 15, 2003: Opportunity for campus and governance group feedback closes.
Dec. 2003: The President and Executive Staff meet regarding the strategic plan. Informed by the constituent groups, they discuss priorities and finalize the document.
Mar. 2004: The final SU Strategic Plan for AY 2004-AY 2008 is presented to the SU community.

## SALISBURY UNIVERSITY

# 2002 Institutional Performance Accountability Report to the Maryland Higher Education Commission 

Submitted July 2003; Updated September 2003<br>Prepared by the Office of Institutional Research, Assessment, \& Accountability

## Program Description

Salisbury University (SU) serves the State of Maryland by providing undergraduate liberal arts, sciences, preprofessional and professional programs, and select, mostly applied, graduate programs.

Mission
Salisbury University is a regional comprehensive university emphasizing undergraduate liberal arts, sciences, preprofessional and professional programs, and select, mostly applied, graduate programs. The University creates a superior, active, and engaged relationship between academic programs, the faculty, staff, and students and unites diverse and highly qualified faculty and staff in serving academically capable students from both the Western and Eastern Shores of Maryland and other states and nations. Salisbury University prepares its graduates to pursue careers in a global economy and for meeting the State's workforce needs. The University promotes and supports applied research, diversity initiatives, targeted outreach programs, K-16 partnerships, cultural events, and civic engagement in all aspects of community life. Salisbury University recognizes excellence, student-centeredness, learning, community, civic engagement, and diversity as the fundamental values on which it is founded and upon which it serves the State of Maryland.

## VISION

Salisbury University will continue as a premier regional university that is recognized nationally for excellence by its peers and regionally for its commitment to model programs in civic engagement. Undergraduate research, service learning, international experiences, and co-curricular activities will continue to enrich the traditional academic curriculum and enable students to connect research to practice theory to action. The University will provide graduates who will be recruited by the best employers and graduate schools, and who will contribute to the economic vitality of the State and the Nation. The University will continue to enhance the quality of life for its students, the State, and the region, and will explore opportunities to provide doctoral programs in areas of need.

## INSTITUTIONAL ASSESSMENT

## Quality

Despite an initial FY 2003 State budget allocation that was virtually no-growth over FY 2002 and a subsequent mid-year reduction of nearly $8 \%$, Salisbury University continues its transformation as an outcomes-oriented institution. The University prioritizes quality and access goals in support of the 2000 Maryland State Plan for Postsecondary Education and affirms academic excellence as the defining institutional attribute.

Throughout the 1990s and into this decade, Salisbury University has advanced its academic standards and reputation, attaining levels of eminence that readily identifies SU as one of the premier public institutions in Maryland. Achievements include: the highest 4- and 6-year graduation rates in the USM for 16 and 8 consecutive years, respectively; average 6-yr graduation rates that are higher than our performance peers and aspirational peers; and, for seven years, regional and national recognition by numerous publications including America's Best Colleges (U.S. News and World Report) and The Best 351 Colleges (The Princeton Review). Additionally, in the 2003 and 2004 editions of America's Best Colleges, SU was ranked as a top tier institution for both public and private universities in the North Region.

Enrollment growth of $13.1 \%$ in the past three years, high demand by graduating high school seniors, and increasingly limited classroom space have combined to give Salisbury University the highest selectivity in the USM. At approximately $50 \%$, the applicant to acceptance selectivity is also higher than the average of both its performance and aspirational peers.

One year after graduation, approximately $30 \%$ of SU alumni enroll in graduate or professional study while $96 \%$ are employed. In a given year, $96 \%$ to $98 \%$ of SU graduates rate their overall quality of education received as satisfactory or very satisfactory. Further, a highly valued characteristic of the academic programming for SU alumni, current, and future students is the student-faculty ratio of 17:1-a ratio lower than the average of SU peers.

Eight academic programs are accredited with specialized agencies. These accreditations are earned through the continuous demonstration of excellence according to national standards. Because these programs produce graduates in deficit career areas for Maryland, they are essential to SU's mission. However, with some allied health programs approaching instructional costs of $\$ 20,000$ per Full-time Equivalent Student (FTES), they carry heavy expenses. Additionally, Teacher Education accreditation bears significant new costs in meeting the Professional Development School standards, while both Teacher Education and Business (NCATE and AACSB accreditation, respectively) maintain rigorous standards of educational performance. Contributing academic benefit to the institution at extra financial cost, these programs drive the market salaries of faculty higher while obligating vital reassigned time in order to pursue valuable research, scholarship, and service activities.

## Access and Outputs

Salisbury University continues to focus its enrollment on highly qualified, motivated first-time freshmen. New freshman enrollment for Fall 2002 was 900 , with a composite SAT score of 1,050 and 1,210 at the $25^{\text {th }}$ and $75^{\text {th }}$ percentiles, respectively, and an average high-school GPA of over 3.4. At just under 5,300 applicants, these students were admitted from the largest applicant pool ever to apply to SU. The University increased its selectivity to $50 \%$-the most stringent ever-in order to accommodate an equal number of transfer students and to operate within the current enrollment capacity that is constrained by insufficient classroom space and resources to hire additional faculty as well as to construct new and larger facilities on a timely cycle. Even with greater selectivity, the University's enrollment grew an additional $2.5 \%$, making the 3 -year growth more than $13 \%$ and a Fall 2002 headcount that was just over 6,850 students.

Several significant highlights are indicative of the University's ongoing success and continuing challenges in enhancing student access and diversity:

- for a second consecutive year SU enrolled the largest freshman minority class in institutional history;
- in Fall 2002, SU enrolled the largest percentage of freshman African-American students in institutional history;
- for a second consecutive year SU increased African-American freshman and transfer enrollment;
- in Fall 2002, SU surpassed the retention rate benchmark for minority undergraduates;
- for a second consecutive year SU achieved the retention rate benchmark for African-American undergraduates;
- the percentage and number of African-American undergraduates increased for a second consecutive year to $8.4 \%$. Although this is a modest $.6 \%$ growth, it represents a tangible increase of $10 \%$ in the number of African-American undergraduates in one year and 19\% since Fall 2000; and,
- the number of minority undergraduates continues to increase and now represents $12.6 \%$ of the total undergraduate population. Institutional projections for Fall 2003 estimate growth in the African-American and minority undergraduate populations to $9.1 \%$ and $13.2 \%$, respectively-levels that are near or achieve targeted benchmarks.
To absorb the $8 \%$ FY 2003 mid-year budget reversion, the University eliminated 15 administrative and staff positions, including 2 positions that directly supported the University's diversity initiatives. Although efficiencies are being realized, the reorganization established a discouraging precedent with the population the positions were intended to serve. Moreover, SU's ability to maintain the momentum is threatened by additional State budget reductions.

The University's modified entrance criteria have enhanced its diversity, selectivity, and academic profiles. However, in order to improve educational access to a broadly diverse community, and particularly students of underrepresented groups, financial aid dollars must be available in sufficient awards to meet students' financial needs. Although the University is targeting an additional $\$ 400,000$ to need-based financial aid, these dollars will be insufficient to compete for qualified underrepresented students and for providing the type of financial aid awards necessary to limit financial hardship.
As stated previously, graduation rates easily represent one of the continuing success stories for Salisbury University. In 2002, the 6-year graduation rate for the 1996 cohort was $71.8 \%$-a 2 -point decline from the previous year but still above the benchmark and significantly above our peers. As predicted last year, the 6-year graduation rate for African-Americans in the same cohort declined to $55 \%$-still the third highest in the USM. Although the University remains encouraged by the
graduation rates of its African-American students, the trend for this population has revealed large annual swings because of the low initial numbers within the cohorts. These rates will not stabilize until the larger 2001 cohort completes college.

## Workforce Diversity

Salisbury University continues to make gains in the diversification of its workforce. The number of women in full-time executive/managerial positions has increased to $41 \%$, a growth of 9 points in 5 years that significantly surpasses the benchmark. Likewise, the number of African-American men in full-time executive/managerial positions increased to $9.1 \%$, a growth of 3 points in 5 years that surpasses the benchmark of $9 \%$. The number of women full-time tenured/tenure-track faculty increased to $37 \%$, just 1 point short of the benchmark. However, the number of male full-time tenure/tenure-track African-American faculty declined by .3 points reversing several years of growth. This decline was due to the University's inability to hire any new African-American faculty despite searches that included diverse applicant pools. In a situation applicable to most SU academic programs and not limited to race, the University is less able to offer salaries, benefits, and workloads that are competitive and appealing to new PhDs in the academic market.

As the data indicate, Salisbury University has begun to spiral backward in a vital academic objective-faculty salary levels. Faculty salaries as a percentile of AAUP peers fell from the $83^{\text {rd }}$ to the $72^{\text {nd }}$ percentile at the assistant professor level, from $65^{\text {th }}$ to the $62^{\text {nd }}$ at the associate professor level, and from $72^{\text {nd }}$ to the $67^{\text {th }}$ at the level of professor. Market and regionally competitive salaries cannot be achieved without an additional $\$ 1,700,000$ annually-a staggering amount that is nonetheless essential to attract and retain the highest caliber workforce, including minority faculty. Despite the struggles other institutions are having in the current fiscal climate, the AAUP data clearly indicate that other states are continuing to fund annual salary increases. As a result, Salisbury University will slide farther behind its Carnegie peers and become less attractive to faculty from all backgrounds.

Finally, despite the University's best efforts to achieve its benchmark of $67 \%$, the percentage of core faculty teaching lowerdivision courses has been unable to surpass $56 \%$. In the three years prior to the reversions, SU was able to add 39 new tenured/tenure-track faculty positions. However, to achieve this objective fully, the University would need to hire an additional 18 tenured/tenure-track faculty at a salary and benefits cost of $\$ 1,150,000$ annually. The level of funding necessary to hire faculty in adequate numbers to achieve this benchmark cannot be accomplished without significant additional State allocations or alternative resources.

## University-Specific Responses to MHEC Questions

Objective 1.6: Increase the proportion of lower-division student credit hours taught by core faculty from $56 \%$ in 1998 to $67 \%$ in 2004. The goal for this objective was established during a period when the State of Maryland was attempting to fund the University at a level consistent with the MHEC funding guidelines. However, after the latest budget reversions, Salisbury University's funding is significantly below its previous high of $83 \%$ of the guideline.

The University remains committed to this objective in principle with an additional $23 \%$ of lower-division courses taught by full-time, non tenure-track faculty on renewable contracts. As stated previously, SU has already added 39 new tenured/tenure-track faculty positions, while an additional 18 positions at a cost of $\$ 1,150,000$ are needed to achieve the benchmark. Given the current resource allocation, the reduction in State financial support, fixed cost increases, physical size limitations of SU classroom spaces, the elimination of 15 staff positions in order to absorb FY 2003 budget reversions, and future revenue reductions, Salisbury University will not achieve this benchmark.
Objective 2.4: The annual mumber of SU graduates in Teacher Education will increase from 233 in 1999 to 285 in 2004. Lacking adequate facilities and space to expand its Teacher Education programs, the University submitted its program justification for a new Teacher Education and Technology Complex (TETC) in 1998. Objective 2.4 was developed in that context. Had the project moved readily through the queue, the complex would have opened in Fall 2002 or 2003 and the Teacher Education program expanded. However, planning money was not approved for the TETC until FY 2004. Assuming the project remains on schedule, the TETC may open by Fall 2007. Until that time, enrollments and graduates are limited by facilities capacities.
Objective 3.1: Increase the estimated number of Teacher Education graduates employed as teachers in Maryland from 145 in 1999 to 200 in 2004. See Objective 2.4 above. Additionally, SU Teacher Education graduates are recruited from across the nation. Our graduates' life choices are influenced by the income levels and community appeal offered by Maryland localities. While many Maryland communities are attractive, they are not as financially competitive as other regions. As a result, the opportunities provided by non-Maryland communities provide a powerful incentive to relocate.

Objective 3.6: Increase the percentage of economically disadvantaged students attending SU from 52.1 percent in 2000 to 55 percent in 2004. The same factors described in Objective 1.6 above also influence this objective, and the trend
mirrors SU's place in the funding guidelines and its eroding State resources. In essence, Salisbury University students are financially supplementing the education of students at other MD institutions. As an example, St. Mary's has a nearly identical percentage of economically disadvantaged students but receives more than $\$ 3,500$ more per student from the State of Maryland than does Salisbury University. Nevertheless, because the University is committed to access, over $\$ 400,000$ of the new monies generated from tuition increases approved by the USM Board of Regents is devoted to need-based financial aid.

Objective 4.5: Increase the proportion of African-American undergraduates from $8 \%$ in 1998 to $10 \%$ in 2004. Salisbury University's percentage of African-American undergraduates increased to $8.4 \%$ in 2002 and is projected to increase to $9.1 \%$ in 2003. Although the benchmark may not be achieved by 2004, this objective is beginning to show progress because of President Dudley-Eshbach's diversity initiatives. The objective has been negatively impacted by limited financial aid resources as described in Objective 3.6 above. Additionally, in order to respond to the FY 2003 budget reversion, 15 positions have been or are being eliminated through reorganizational efficiencies. Two of these positions directly supported minority and diversity initiatives. Those responsibilities will be absorbed by other individuals or offices.

Objective 4.6: Increase the proportion of minority undergraduates from $10.4 \%$ in 1998 to $13.0 \%$ in 2004. In Fall 2002, Salisbury University increased its percentage of minority undergraduates to $12.6 \%$. By Fall 2003, minority enrollment is projected to reach $13.2 \%$ surpassing the benchmark.

Objective 5.1: $\quad$ From a level of $\$ 12.7$ million in 1999, in the Campaign for Maryland raise $\$ 18.5$ million for Salisbury University by 2002. Salisbury University exceeded the campaign goal of $\$ 18.5$ million in Fiscal Year 2000. The gifts, pledges, and endowments totaled over $\$ 22.5$ million. Of this total, a major component, approximately $\$ 6.5$ million, was in the form of real property and a museum collection-the Ward Museum. Title to these assets was transferred to the University.

The assets reported previously for this objective reflected only earnest dollars deposited directly into endowed accounts. Although this objective is complete, the data will be updated to reflect total gifts instead of endowed gifts.

Objective 5.4: Allocate expenditures on facility renewal from $8 \%$ in 1999 to $2 \%$ in 2005 . The amount necessary to accomplish this objective would be approximately $\$ 1,200,000$, or approximately the annual instructional cost of the SU Nursing program. The goal for this objective was externally not institutionally driven and is not achievable given the current fiscal realities and priorities.

Objective 5.7: Increase the proportion of administrative staff who earn salaries that are at or above the $60^{\prime h}$ percentile of CUPA peers from $33 \%$ in 2000 to $55 \%$ in 2004 . Because of the competitive hiring of several academic deans, progress has been made to nearly the benchmark level. However, 15 administrative and staff positions have been or are being eliminated in order to respond to the FY 2003 budget reversions. Additional reductions are pending with no funded salary increases in both FY 2003 and FY 2004. Despite comparable deticits in other states, the majority of states continue to allocate funds for employee salary increases. As a result, not only will SU fail to achieve this objective, but also the University will begin to reverse all gains.

Objective 6.4: The six-year graduation rates of SU first-time, full-time freshmen will increase from $65.2 \%$ in 1998 to $70 \%$ in 2004. The objective is being reworded to: the six-year graduation rates of SU first-time, full-time freshmen will be at least $70 \%$ annually through 2004.

## Trends Influencing Performance Accountability

According to the Fall 2002 MHEC peer analysis, Salisbury University was funded at $\$ 1,923$ per FTES below its funding peers. This amount would equate to an additional $\$ 13,300,000$ in state appropriations annually if the University were to be funded at the average peer funding level per FTES. What is more, these levels represent the gap between SU and our performance peers hefore the FY 2003 budget reversions. Currently, Salisbury University's percentage of guideline funding has plummeted to below $60 \%$ with a dollar equivalent of $\$ 19,000,000$ below the MHEC guidelines. With this substantial funding gap, Salisbury University will be unable to maintain competitive performance against those same peers, let alone achieve institutional objectives for access and academic quality.
Although a reordering of priorities may allow additional internal reallocations to focus on specific initiatives, State funding allocations that are significantly below that of funding peers will inevitably influence those indicators in which SU currently surpasses its own expectations and those of the State. Guideline funding has failed to produce the guideline dollars
designated, and the University's funding has continually lagged behind all traditional four-year institutions in the USM. With State allocations to Salisbury University plummeting to less than $\$ 4,300$ per student, the University and its students are forced to support the high cost of academic programs that the State marginally subsidizes. In these extreme budget times, academic programs, including the vital allied health fields, must be reviewed for efficiencies and eliminated if they consume resources far in excess of the median program cost per student.

Guideline funding and tuition pricing data indicate that SU is behind its Maryland peers on virtually every level. However, on many performance indicators, SU equals or surpasses its sister institutions, and based on seat availability, SU is the most in-demand public institution in Maryland. Minimum funding thresholds are necessary to sustain superior performance across a full array of initiatives, and given the high performance standards already achieved by SU, it would be appropriate and prudent for the State of Maryland to fund its institutions equitably according to its own guidelines.

The perception that Salisbury University and higher education was richly funded during the late 90 's and first years of the new decade are partially misleading and grossly shortsighted. Three years of double-digit increases hardly compensate for a decade of famine. Further, when funded "richly," Salisbury University has never been funded higher than $83 \%$ of the MHEC funding guidelines. Academic quality, access, and affordability cannot be maintained with equal success when resources are so dramatically and suddenly reduced. Although budget reductions may propel desirable and beneficial efficiencies, there is a threshold in which an "efficiency" initiates a genuine decline in quality, access, and service. That threshold has long since been crossed.

## MANAGING FOR RESULTS <br> KEY GOALS AND OBJECTIVES

Goal 1. Provide quality undergraduate/graduate education.
Objective 1.1 Increase the annual pass rate of nursing program graduates who take the nursing licensure exam from $79 \%$ in 1999 to $90 \%$ by 2004 .

|  |  | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Outcome | Dollars (millions) raised in Campaign for $\mathrm{MD}^{6}$ | \$21.35 | \$23.62 | \$25.47 | N/A | N/A | N/A |

Objective 5.2 Increase annual private, federal, and state grants and sponsored research dollar awards (excluding scholarship and financial aid awards) from $\$ 2.0$ million in 1998 to $\$ 4.0$ million by 2004.

|  | 2000 <br> Actual | 2001 <br> Actual | 2002 <br> Actual | 2003 <br> Actual | 2004 <br> Estimated | 2005 <br> Estimated |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Private, State, and Federal dollar <br> awards for grants and sponsored <br> research (millions) | $\$ 3.22$ | $\$ 5.07$ | $\$ 5.36$ | $\$ 4.47$ | $\$ 4.50$ | $\$ 4.50$ |

Objective 5.3 Maintain current annual operating budget savings rate of $2 \%$ through efficiency and cost containment measures.

|  |  | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Performance Measures | Actual | Actual | Actual | Actual | Estimated | Estimated |
| Efficiency | Annual operating budget savings rate ${ }^{7}$ | 2.1\% | 1.2\% | 1.9\% | 3.3\% | 2.0\% | 2.0\% |

Objective 5.4 Allocate expenditures on facility renewal from .8\% in 1999 to $2 \%$ in 2005.

Objective 5.5 Increase annual University fund-raising from $\$ 1.9$ million in 1998 to $\$ 2.4$ million in 2004.

|  |  | 2000 | 2001 | 2002 | 2003 | 2004 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Putcome | Annual giving (millions) | Actual | Actual | Actual | Actual | Estimated |
| Ontimated |  |  |  |  |  |  |

Objective 5.6 Increase the salary levels of University faculty as a percentile of AAUP peers at the ranks of assistant, associate, and professor from $68^{\text {th }}, 53^{\text {rd }}$, and $65^{\text {th }}$, respectively in 1999 to the $85^{\text {th }}$ percentile by 2004.
$\left.\begin{array}{cccccccc}2005\end{array}\right)$

Objective 5.7 Increase the proportion of administrative staff who earn salaries that are at or above the $60^{\text {th }}$ percentile of CUPA peers from $33 \%$ in 2000 to $55 \%$ in 2004.

| Performance Measures |  |  |  |  |  |
| :--- | :---: | :---: | ---: | ---: | ---: |
| Proportion of administrative staff <br> salaries at or above $60^{\text {th }} \%$ ile of | 2000 <br> Actual | 2001 <br> Actual | 2002 <br> Actual | 2003 <br> Actual | 2004 <br> Estimated |
| 2005 <br> Estimated |  |  |  |  |  |

Goal 6. Improve retention and graduation rates.
Objective 6.1 The second-year retention rates of SU first-time, full-time freshmen will increase from $86.5 \%$ in 1998 to $87.0 \%$ in 2004 .

|  |  | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 |

| Output | students ${ }^{8}$ | 78.0\% | 65.8\% | 87.5\% | 77.9\% | 78\% | 78\% |

Objective 6.3 The second-year retention rates of SU first-time, full-time minority freshmen will increase from $76 \%$ in 1998 to $80 \%$ in 2004 .

|  |  | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 | Actual |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

## Notes to MFR

${ }^{1}$ Prior to 2002, the teacher certification exam taken for initial teacher certification was the National Teachers Examination (NTE). Beginning in 2002, the PRAXIS II became the exam by which all Maryland students are measured for purposes of initial teacher certification.
${ }^{2}$ PRAXIS II test results are reported on a cohort basis. Salisbury University includes Master of Arts in Teaching (MAT) degree recipients with the baccalaureate degree recipients. At this time, there is no means of differentiating whether students who pass the exam graduated at the undergraduate or graduate level.
${ }^{3}$ Up until 2003, Salisbury University surveyed baccalaureate degree recipients on an annual basis and included the most current data in the MFR. The survey years reflect those data. Because a follow-up survey of baccalaureate degree recipients was not conducted in 2003, the 2002 survey results have carried forward to 2003.
$>$
$\substack{d \\ 0 \\ 0 \\ 0}$
${ }^{4}$ Based on the Schaefer Center survey of employers, the percentage of employers who said they would
"definitely yes" or "probably yes" hire graduates of SU again. It is unknown when the employer
satisfaction survey will be conducted a second time. No estimates are available.
${ }^{\text {s }}$ Percentages are based on headcounts as of Fall census.
${ }^{6}$ The Campaign for Maryland objective was surpassed in FY2000, and the objective terminated in FY2002.
Reporting current data and future estimates no longer applies.
${ }^{7}$ Data provided by the USM.
${ }^{8}$ Data provided by the MHEC.

## N/A - Data not available

02/16/2004: Office of Institutional Research, Assessment, \& Accountability

ENROLLN PROJECTIONS

Comments: This is an aggressive growth model that is predicated on the planned opening of the New Teacher Education and Technology Complex in 2007. Growth assumes capital construction and funding support above current levels and appropriate to employ and retain quality faculty, as well as to maintain current instructional technology and academic quality. Capital needs include a new library facility and additional academic facilities. This model assumes sufficient State budget allocations and no delays in capital construction that are essential to accommodate growth.
Completed by: Bryan Price, Director: Institutional Research, Assessment, Accountability; February 11, 2004

Note: Students included under 'Other' are foreign students with a US address.

## Program Enrollments, Degrees, and Student Credit Hours: Institutional Summaries

| Programs/Schools GROWING for Three or More Years Consecutively | Trend Length in Years | Majors at the Start of the Trend | $\begin{gathered} \text { Majors in } \\ 2003 \end{gathered}$ | Percent <br> Growth |
| :---: | :---: | :---: | :---: | :---: |
| Computer Science | 3 | 57 | 142 | 149\% |
| History | 4 | 131 | 267 | 104\% |
| Nursing (Undergraduate) | 4 | 198 | 341 | 72\% |
| Fulton School of Liberal Arts | 7 | 1,274 | 1,800 | 41\% |
| Programs/Schools DECLINING for Three or More Years Consecutively | Trend Length in Years | Majors at the Start of the Trend | $\begin{gathered} \text { Majors in } \\ 2003 \end{gathered}$ | Percent <br> Decline |
| Nursing (Graduate) | 3 | 52 | 19 | -63\% |
| Music | 4 | 38 | 23 | -39\% |
| Environmental Health | 3 | 48 | 36 | -25\% |
| Elementary Education/Early | 3 | 742 | 664 | -11\% |
| Childhood Education ${ }^{1}$ Seidel School of Education \& Professional Studies | 3 | 1,222 | 1,159 | -5\% |

${ }^{1}$ The creation of the Early Childhood Education program in 2002 has had an impact on the numbers of Elementary Education majors. However, when these two programs are combined, the total still reveals a decline from previous years.

## Percent Undergraduate Degree Recipients Graduating with Institutional Honors

NOTES: ${ }^{1}$ Percent change is omitted for programs that have awarded au average of 20 degrees or less.
${ }^{2}$ For newer programs that are just beginning to award degrees, the average has been calculated beginning with the first year degrees were awarded and using the number of years since that first year.

| Top Programs | Lowest Programs |
| :---: | :---: |
| 'Elementary Education | Management |
| Business Administration | Economics |
| Communication Arts | Conflict Analysis |

NOTE: The programs in Public School Administration, Master of Arts in Teaching, and Physical Education, Teacher Education
have been in existence longer than the years shown above. The student credit hours for these programs had been included with other Education
programs previously. Similarly, Finance, Management and Marketing were formerly concentrations or tracks under Business Administration
or Economics. They are now full degree programs.

## NOTES:

Beginning with AY 2000-2001 reporting, the SCH generated by Education graduate programs is now differentiated by program type.
Salisbury University has degrree programs in Fine Ars, Plyssical Science, wnd Liberal Ats although no courses are offered in those specific disciplines.

NOTES:
Beginning with AY 2000-2001 reporting, the SCH generated by Education graduate prograns is now differentiated by program type.
Salisbury University has degree prograns in Fine Arrs. Physicial Science, and Liberal Ars although no courses are offered in those specific disciplines.

Note: Retention is reported as of the beginning of the semester.
Graduation rate is reported as of the end of the semester. August graduations are reported at the end of each Fall semester along with December and January graduations.
Semester by semester headcounts and percentages are not available prior to Fall 1993.
These rates will differ from those reported by the USM and the MHEC due their use of expanded definitions.

NOTE: (1) In the Fulton School, approximately $900-1700 \mathrm{SCH}$ are generated within Interdisciplinary Studies and Honors courses. These were not assigned to any department.
In the Seidel School, 400-600 SCH are generated by General Studies, Leisure Studies and Military Science. These also
were not assigned to any of the departments above.
(2) In the Perdue School, student credit hours generated by certain courses taught by ACCT, ECON, FINA and INFO faculty were included under BUAD prior to AY2002-2003.

Sources: SCH is from Annual Credit Hour Production, Fall, 2003 Fact Book.
FTEF is derived from the 2002-2003 Faculty Workload Report.

Note: FTES is calculated using student credit hours. FTES is the sum of undergraduate student credit hours divided by 15 and graduate student credit hours divided by 12.
FTEF is calculated by dividing courses taught (including those taught by TA's) by expected load. Expected load varies, and this has been taken into consideration in the calculation of FTEF. Student to Faculty Ratio is calculated: FTES divided by FTEF divided by 2 (brings full-year load to a semester equivalent). In the Perdue School, student credit hours generated by certain courses taught by ACCT, ECON, FINA and INFO faculty were included under BUAD prior to AY2002-2003.
Sources: FTES derived from SCH is from Annual Credit Hour Production, Fall 2003 Fact Book FTEF derived from courses taught is from the annual Faculty Workload Reports.

Physical Facilities Inventory: 2003-04

## Glossary

## Adjunct Faculty: Part-time, temporary faculty

American Indian or Alaskan Native: A person having origins in any of the original peoples of North America or who maintains cultural identification through tribal affiliation or community recognition.

Annual Student Credit Hours (ASCH): The sum of fall and spring student credit hours.
Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or Pacific Islands. This includes people from China, Japan, Korea, the Philippines, American Samoa, India, and Vietnam.
AY: Academic Year. The period typically defined by the fall and spring semesters and cuiminating with the immediate following summer sessions.
Black, Non-Hispanic: A person having origins in any of the black racial groups of Africa (except those of Hispanic origin). African-American is often used interchangeably with Black.

Budget FTES: The average of fall and spring FTES.
COOP: A student formally admitted at one USM institution through the Inter-Institutional Registration Program and taking courses for credit at another USM institution to complete his or her degree requirements.

Credit Course: A course that, if successfully completed, can be applied toward the number of courses required for achieving a degree, diploma, certificate, or other formal award.

Degree-Seeking Students: Students enrolled in courses for credit that are recognized by the institution as seeking a degree or formal award.
First-Year Student: A student who has completed less than the equivalent of one full year of undergraduate work (30 semester hours).
FTES (Full-time Equivalent Student): The number of student course credits assumed to constitute a full-time load. That load is 15 credit hours for undergraduate students and 12 for graduate students.

FTEF (Full-time Equivalent Faculty): The number of faculty course equivalents assumed to constitute a full-time load. It is calculated by dividing the actual course equivalent by the expected course equivalent.
F/T (Full-time): The status of an undergraduate student registered for a minimum of 12 credit hours and a minimum of 9 credit hours for a graduate student.
FY: Fiscal Year. That period beginning July 1 and ending June 30.
Graduation Rate: The percentage of a given student cohort that completes the requirements to graduate within a given time period.
HBI: Historically Black Institutions
HBCU: Historically Black Colleges and Universities
Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South America, or other Spanish culture or origin, regardless of race.

In-State Student: A student who is a legal resident of the state in which he/she attends school.
Lecturer: The rank given to full-time non-tenured faculty.
Matriculated/Degree-Seeking Students: Students who have been formally admitted and enrolled.
MFR: (Managing For Results) A State of Maryland results-driven accountability process.
New Freshmen: Students enrolled in a higher education institution for the first time and having less than 24 student credit hours.

Non-Degree Seeking Students: Students who are taking 1 or more courses and have not been formally admitted to the University.

Nonresident Alien: A person who is not a citizen or national of the United Sates and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely.
Non-Tenured Faculty: Non-permanent facuity. May be either full- or part-time. Part-time non-tenured faculty are often referred to as "adjunct" faculty.

Other: Referencing geographic origin, those students with permanent resident visas or who are US citizens with a foreign address.

Other Minority: Includes Hispanics, Asian/Pacific Islander, American Indian, and unknown groups.
Out-of-State Student: A student who is not a legal resident of the state in which he/she attends school.
Percentage of Known Minorities: The number of American Indian, Asian, Black, and Hispanic students divided by the total number of students after first subtracting those students who do not report any race/ethnicity.

P/T (Part-time) The status of an undergraduate student registered for 11 or less credit hours or a graduate student registered for 8 or less credit hours.

Post-baccalaureate Student: A student who has earned a bachelor's degree and is enrolled in graduate or firstprofessional courses.

Race/Ethnicity: Categories used to describe groups to which individuals belong based more or less on distinct genetically transmitted physical characteristics. The categories do not denote scientific definitions of anthropological origins. Currently, a person may be included in only one group. The groups used to categorize U.S. citizens, resident aliens, and other eligible noncitizens are:
-Black, non-Hispanic

- American Indian or Alaskan Native
- Asian or Pacific Islander
- Hispanic
-White, non-Hispanic
Resident Alien: A person who is not a citizen or national of the US and who has been admitted as a legal immigrant for the purpose of obtaining permanent resident alien status (and who holds either an alien registration card (Form 1-551 or 1-151), a Temporary Resident Card (Form 1-688) or an Arrival-Departure Record (Form 194) with a notation that conveys legal immigrant status such as Section 207 Refugee, Section 208 Asylee, Conditional Entrant Parolee or Cuban-Haitian).
SAT I: A college entrance exam required by many colleges and universities

## SCH: Student Credit Hours

Tenured Faculty: Status of a faculty with respect to the permanence of position.
Tenure-Track Faculty: Faculty hired under a contract leading to permanence of position if/when earned.
Terminal Degree: Highest degree awarded in a particular field such as masters of social work, respiratory therapy, medical technology, fine arts, and a CPA/MA or MS. This naturally includes the doctoral degree.
Time to Degree: The length of time it takes students to complete degree requirements. This differs from the graduation rate since it only considers students who persist to completion.
Transfer Student: A student entering the University for the first time but known to have previously attended another postsecondary institution at the same level.

Unknown Race: People who have not identified themselves with any racial or ethnic group.
White, non-Hispamic: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

[^0]:    Source: Salisbury University Foundation, Inc., March 2004

[^1]:    Degree-seeking students, major undeclared.
    Non-degree seeking sudents.
    Percent change is not provided for programs with an average of 20 students or less.

[^2]:    UG FTES = (UG Student Credit Hours)/15; Grade FTES = (Grad Student Hours)/12
    FTES for Winter/Summer terms is used solely to provide a comparison with fall/spring.

[^3]:    Minority enrollment percentages are reported above. Minority is defined as those that are not the majority population on campus. International students, and

[^4]:    Notes:
    ${ }^{1}$ Included in freshmen figure
    Percentage of African-American through White plus International are a percentage of the known population.
    Percentage of Unknown is a percentage of the total.

[^5]:    Degree-seeking stadents only.
    ${ }^{2}$ Non-Degree Underymatuates
    For programs in existence for less than 5 y ears, average has been caleulated accordingly.

    * Due to USM policy, librarians are now coded as faculty.

    Note: An audit of these vital state and federal reporting categories revealed a significant number of erroneous classifications that were applicable to all but faculty data. The Office of Human Resources began to improve its record keeping beginning in 2001. Prior year errors remain. No accurate recording of Teaching Assistants was kept until 2003. Faculty data maintained by the Office of Institutional Research are accurate for all years.
