## Chemicals Fizz Out On Wall Top Movies Lead Semester Plans

by George Orvis

It is very likely that everybody who attends classes at FSC is by now aware of the spray-painted message, 'Happy B.D. Cath' on the west wall of Lane College Center. The message, which appeared last October 1st, has developed into a sticky issue involving lawyers, school and state officials, as well as the entire student body.

In the past two months, there has been a great deal of research, experimentation, and consultation done in an attempt to find some method of removing the graffiti. Various types of potent paint thinners and turpentine were originally tried but did not work. The manufacturer was contacted and suggested mineral spirits or acetone, which likewise failed. Dr. Hunt of the Chemistry Dept. provided several chemicals to try, including malureatic acid. A paint expert who formerly worked for General Motors was consulted. The Administration even received a brochure from a specialist in Italy who restores ancient buildings and would attempt to remove the paint with laser beams. However, the cost of such a pro-

ject would make it impractical.

Nobody has found a way to remove the birthday message through any sort of chemical processes. The origin of this problem lies in the nature of the wall itself. The bricks in question are actually red bricks that are covered or glazed with a white sand for cosmetic purposes. The sand acted as a sponge and absorbed the spray paint. There is no way to remove the paint without removing the sand. Actually, some of the lettering that still remains is not paint at all, but the red brick beneath the sand which chemicals and continuous scrubbing exposed.

Some have suggested that perhaps a mural could be painted on the side of the building. The Physical Plant Dept. feels this is not a practical alternative; besides the fact that this confuses maintenance with art, the very sponge like qualities of the brick require that the wall be painted several times before the lettering would not be visible.

The consensus among those presently involved is that the whole affected section of the wall will have to be removed and

replaced. This section would probably extend from the corner of the building to the expansion joint in the middle of the wall. Costello Construction Co., Inc. estimated the cost of such a project to be from \$3,000.00 to \$3,200.00. Actually, that's more expensive than usual for that number of square feet of brick to be laid. The high cost is due to the fact that a great deal must be done to keep the rest of the building standing when the wall is removed.

Eventually, a person from the Department of General Services in Baltimore will have to come and evaluate the situation. Since all the buildings on campus belong to the state, the department has to approve any work to be done on them. If they approve the work, the Maintenance Dept. will start compiling specifications and taking bids from interested contractors.

Mr. Lawrence Dark, Assistant to the President of the college has indicated that the persons responsible for the painting agreed that they would cover the cost of the construction.

The College Center Board, F.S.C.'s programming organization, has a semester of top-rate movies and entertainment planned, highlighted by Winter Carnival Week in February.

C.C.B. has sponsored various activities throughout the years, including Autumn Week and concerts featuring Harry Chapin and Michael Johnson. Annually funded by the Student Government Association, this year's budget is approximately \$19,000. Last semester, C.C.B. spent over \$10,000; \$9,000 remains for Spring 1980.

Five movies have been contracted, with the first the "Eyes of Laura Mars" having been shown on January 19th. Still to come are the "Muppet Movie," "The Mair Event," "Foul Play," and "The Deer Hunter." C.C.B.'s goals are to increase attendance at its activities and get the most utility out of the money it spends for campus entertainment.

Winter Carnival, a favorite from years past, will occur during the second week of February. On Wednesday, a Talent Show will begin Winter Carnival, and the "Muppet Movie," Edmonds and Curley and the Buffalo Chipkickers, a dance featuring Appalosa, and the movie "Main Event" will finish out the week on Sunday February 10. C.C.B. has budgeted approximately \$3,335 for this special week.

Frequently throughout the

semester, videotapes and coffeehouses (Rathskellar) will be scheduled in the Lane Center. Coffeehouses offer an alternative form of entertainment from blowouts and dances (see schedule page 2).

Tentative plans are being made for a spring Bluegrass Festival. Ethan Young, C.C.B. president, explains that the absence of a larger concert is due to electrical power problems and the lack of a facility in which to hold such an event. Only 650 people can legally fit into the Lane Center Multi-use room, and the Physical Education Department controls the type of entertainment scheduled into the Main Arena due to the expense of replacing the gym floor.

C.C.B.'s philosophy is to provide high quality entertainment for the college within its price range. Normal admission is charged for certain events for the purpose of crowd control. Higher attendance at C.C.B. sponsored events will insure more money being spent for the benefit of a greater number of students.

From February 12 through 17, four members of C.C.B., along with their advisor Don Moore, will be attending the National Entertainment and Campus Activities Association (NECAA) Convention in Washington D.C. At the convention, C.C.B. hopes to learn a great deal about events programming and scheduling.

## National News

As an answer to the recent Soviet attack and subsequent takeover in Afghanistan, President Carter has called for a boycott of the Summer Olympic Games that are scheduled to be held in Moscow later this year. The President has asked the president of the U.S. Olympic Committee to suggest to members of the International Olympic Committee that the games be postponed or moved to another site if the Soviet Union refuses to remove their military forces from Afghanistan.

Mr. Kane and the Committee had earlier voiced strong opposition to the proposed boycott. However, on Friday January 18, Mr. Kane met with Secretary of State Vance and decided to poll the perspective athletes. He then stated that the Commi-

tee's decision to whether to boycott the Olympics or not would be based on the athletes' views.

In life saving surgery, surgeons at Belgrade Hospital amputated the left leg of Yugoslavian President Tito. The 87 year old premier politician of Yugoslavia was reported to have "taken the operation well" and that "his condition was normal in the post-operative period." Tito has been in control since 1948, the prospect of his death brings about the first transition of power in 36 years. Tito's failing health comes at a time when the Soviets are taking a more aggressive role in international affairs causing a great deal of concern among polit-

ical leaders in Yugoslavia who have been non-aligned with the Kremlin in Tito's later years in office.

President Carter has ordered the lowering of flags to half-mast in memory of Justice William O. Douglas. Douglas, died Saturday January 19 at Walter Reed Army Medical Center. No cause of death was given, however Justice Douglas had been in failing health for a number of years.

## SGA News

At the beginning of the semester the following individuals resigned their positions as representatives: Nancy Falconer (Frost), Denny Stewart (Diehl), Karen Love (Westminster), and Larry Linder (Sowers). Replacing them are Ken Kuhn (Diehl), Linda Crouch (Westminster) and Scott McDonald (Sowers).

Steve Britt was appointed parliamentarian, and Pam Buckler was impeached by the House from her position as Senior Class Representative.

There are vacancies on the

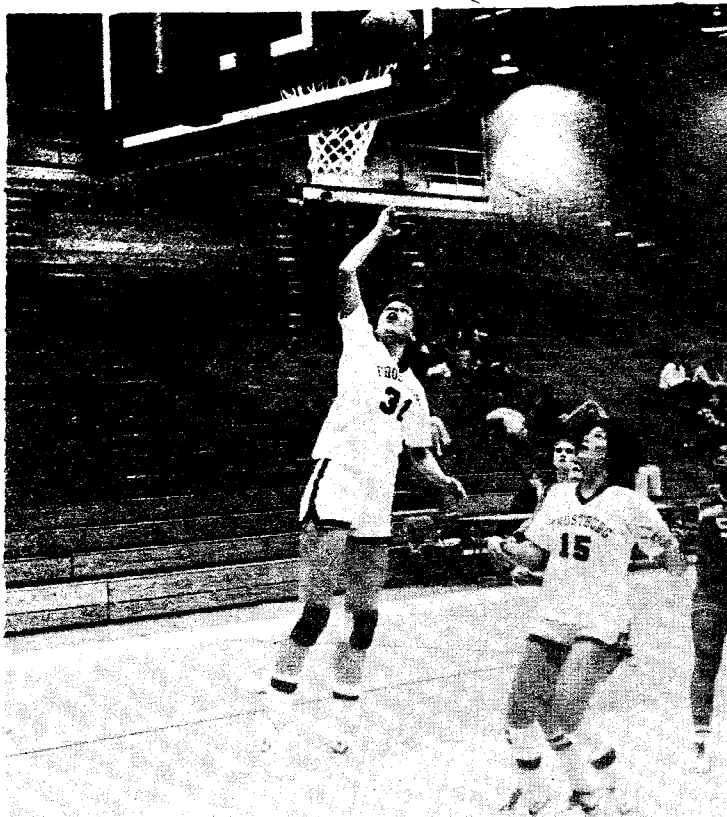

following forum committees: Curriculum, Parking Policy, and Commencement. Anyone interested on filling these positions, please contact the Student Government Association office.

The Off-campus committee meets Wednesday night at 6:00 p.m. in the Lane Center. The Program committee is now working on Senior Week and your input is needed.

The next college forum meeting is scheduled for February 13, at 4:00 in the Lane Center Multi-use room.

## Women Win

Last Saturday, Frostburg soundly defeated a helpless Notre Dame, of Baltimore, 97-38. The Lady Bobcats completed 54% of their shots from the floor, with the scoring led by Mary Carol Jackson who had 19 points. Three others scored in double figures, with Robin Addison scoring 15 points and Natalie Simmons and Donna Hayden both scoring 12 points. Natalie Simmons also pulled down 13 rebounds to lead the Lady Bobcats to a total of 68 rebounds in the game. Frostburg played a superb game with good passing and nice shooting. The only disappointment to the crowd was that time ran out before the Lady Bobcats could score over 100 points. The next home game will be played on January 25 against Shepherd at 5:00 in the Main Arena.

14) Vanity Fair (1847-1848)

15) The Mill and the Floss (1860) by George Eliot

The authors of "Today on 'Who Cares'" urge you to keep this list in mind when you pick out your books for this semester. ROBBERIES: If you reacted with indifference to the recent Cornish-Hen Case, you will care even less about the British Crown Jewel Theft, which occurred in 1675. In that year, a highwayman named Thomas Blood disguised himself as a clergyman and gained entrance to the royal treasure room in the Tower of London. Once there, he overpowered a guard, stuffed a sack full of valuables (including the jeweled crown), and attempted to escape. Justice triumphed, of course, and Blood was captured inside the Tower, but the reigning King Charles II was so intrigued by the

## ....Men Drop Three

Last week the Bobcat Men's Basketball team dropped three games in four days. This lowered their record to 5-4 for the season.

In the first game, played last Wednesday, the Bobcats lost 81-63 to a tough Mt. St. Mary's team. Although three Frostburg players (Porter, Savoy and Robinson) managed to score in double figures, the Bobcats were unable to control the Mount's leading scorer, Jim Rowe, who tossed in 28 points to lead the Mount to a victory. Fouls also played an important role in this game with Greg Seker fouling out and Mike Savoy in trouble in the second half with 4 fouls. Frostburg ended up with the short end of the stick with foul shots also, allowing the Mount 25 free throws to their own 17. Frostburg appeared a little rusty, after a long Christmas break, and seemed to have trouble completing passes (and finding open men to pass to) which pushed the turnover count to 19 in the game. But, a bright point in the game, was the emergence of Harry Robinson to fill the space created by the sudden departure of Lewie Thomas and Gus Durr. Harry, in his first appearance in the starting lineup, led the Bobcat scoring with 15 points, after not having scored a single point in the first six games of the season.

On Friday, in the second of the three games last week, the Bobcats lost a close 69-61 against Salisbury State. The major

reason for this loss was the foul situation. Brian Walker fouled out, and three players, Seker, Porter, and Savoy, were hampered with four fouls apiece, sending Salisbury to the line for 23 free throws. Of these 23 free throws, Salisbury completed 19 to give themselves only their sixth win in 32 meetings of the two teams. Brian Walker and Dave Porter both scored ten points, Mike Savoy had 11 and Harry Robinson again led the scoring with 20 points as well as leading the rebounding with 10.

In the final game last week, Saturday night against Radford College, the Bobcats dropped another very close game by the score of 63-58. Again, seemingly intent on perfecting the art of fouling, the Bobcats sent Radford to the line for 24 free throws, of which they completed 19. Dave Porter, who scored 16 points, left the game with 5 fouls and Mike Savoy finished with 4 fouls. Greg Seker, the only other Bobcat in double figures, led the scoring with 17 points. Frostburg trailed at the half 32-17, after completing 23% of their 30 shots from the floor. But the Bobcats surged back and they tied the score at 53 with about three minutes left in the game. Unfortunately, Radford effectively used up the clock and slowly pulled ahead to end the Bobcats hope of a victory.

The Bobcat will be on the road until Jan. 28th, when they take on Waynesburg College at 7:00 p.m. in the Main Arena.

## PRESS RELEASE: Summer Projects In Africa

Operation Crossroads Africa, Inc., a non-profit organization focusing on international development and educational exchange, actively seeks faculty, professionals, and students to participate in 8-week summer team projects in Africa. Projects will involve: medicine, nursing, health, community development, archaeology, architectural photography, sports and recreation, conservation and environmental management, alternative energy development, farming and agricultural development, animal husbandry and veterinarian work, reforestation in the Sahelian belt, working in game reserves, and tutorial assistance and compensatory education.

Projects are sponsored jointly by Crossroads and various ministries of the different African countries often in conjunction with the United Nations. Each team will consist of about 10 Americans joined by an equal number of African specialists and students. Projects are located in rural communities, where participants gain an immediate personal sense of Africa that cannot be duplicated by academic courses.

Medical and health projects will be expanded this year in order to meet one of Africa's most pressing problems. These

projects will focus on tropical medicine, disease control, preventive medicine, public health, epidemiology, nutrition, midwifery, and maternal and child health. Many teams will provide clinical medical and nursing services to rural underserved communities.

During the past 22 years, Crossroads, whose example inspired the creation of the Peace Corps, has sent more than 6000 volunteers to 34 English-, French-, Portuguese-, and Arabic-speaking African countries to spend their summers assisting rural village communities. This unusual experience provides a brief but intense immersion in traditional and modern African life and pushes individuals to re-examine basic attitudes, standards, and beliefs in relation to people with contrasting values and life-styles.

Both volunteer and leader positions are open. Persons interested in participating in Crossroads' Summer Work/Travel/Study Program must apply immediately. Contact: Crossroads Africa, 150 5th Avenue, New York, N.Y., 10011; phone 212-242-8550. Or see the local contact people, Lawrence Dark, Asst. to the President, Ext. 4113 or Dr. Audrey Edwards, SIP (ARP), Ext. 4441.

## Uncle Frosty

### DEAR UNCLE FROSTY

Uncle Frosty will answer any career related question from the college community. Not all questions can be printed due to space limitations and good taste. Uncle Frosty will send a personal response to readers whose letters are not answered publicly. Send your queries to Uncle Frosty, c/o Counseling Service.

Dear Uncle Frosty:

How and why should I register with the Placement Office?

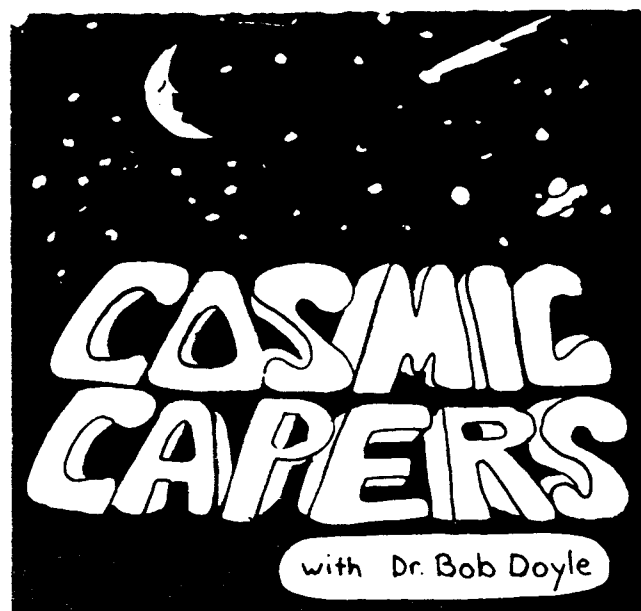

G.B.

Dear G.B.:

Apparently, Santa did not bring you a job offer for Christmas so I'll answer your questions. Ask for a credential file packet at the Placement Office (Gunter Hall 106) and return it promptly. The packet contains a personal data sheet, a consent form, a summary listing for courses, and recommendation forms.

There are several reasons for completing the registration process. First, you can't participate in the on-campus interviewing program without registering. Second, it simplifies the job application process for both you and a prospective employer. Your recommendations and educational background material will be permanently filed on campus. Third, it's easier for your professors to write recommendations now, rather than after you graduate. Your professors could forget you (despite your sterling academic efforts) and be forced to write only general comments (which tend not to impress employers.)

**COSMIC CAPERS - The Week of January 21-27**

This week the moon returns to the evening sky, growing to half full by Thursday, when it sets after midnight. Orion, the Hunter still blazes high in the southern evening sky. The Hunter is readily identified because of the three bright stars in a row that line his belt. This three star row can also be used to help us find some other interesting stellar sights. By extending Orion's belt to the right, you'll come to the Pleiades, a tightly knit cluster of stars. But if we go to the left and down, we come to Sirius, the most brilliant star in the night sky.

**COSMIC CAPERS - The Week of January 28-February 3**

The moon fills out this week in the evening sky, becoming full on Friday night. This February full moon has been called the Snow Moon, the Hunger Moon or the Wolf Moon. Saturday is Groundhog Day, a day halfway

between the first day of winter and the first day of spring. For the first time since last summer, more than one planet is visible at a time in the evening sky. About 7 P.M., you can see brilliant Venus, our closest planetary neighbor low in the west. Turning to the east, Jupiter and orange Mars appear low in the sky. These planets can be distinguished from the stars because of their brightness and their nearly steady light.

"Storehenge and Other Ancient Mysteries" has its last showing this Tuesday at 7:30 P.M. Premiering this Sunday at 2:30 P.M. is "Music Beyond Space and Time," a multi-media presentation using laser, slides and the most melodious and majestic "space" music. The Frostburg State College Planetarium is in the front lobby of Tawes Hall, in the middle of the Frostburg State campus. These twice-a-week showings are free to the general public.

"Today On 'Who Cares?'" conducted a survey to determine the favorite mixed drink among FSC students. Of 50 people surveyed, 11 persons liked pina colodas, 6 preferred Rum and Cokes, 4 preferred Sloe Gin Fizzes, 4 liked daquiris, 3 liked Seven & Seven's, and 3 persons liked screwdrivers. The remaining 19 persons could not agree on their favorite cocktails; each person gave us the name of a different drink. Some of the more unusual concoctions we ran across were Tang, Planter's Punch, Alcohol and Anything, and Ajax and Bromoseltzer.

**TUNE-IN** next week when we ask "Who Cares?" about Joe sizes!

### SINGERS WANTED

Collegium Musicum needs additional singers, both male and female. Collegium Musicum is a group of singers and instrumentalists devoted to the performance of Renaissance and Medieval music. An interesting program is planned for a concert on Friday, April 25th. If you are interested, contact Dr. Jake Opper at 4132 or 3167. Rehearsals are at 2:00 on Mondays and Wednesdays. The only Requirements are ability to read music and a good sense of pitch. No special vocal training or audition are required. Enrollment earns one credit hour.
